The core curriculum in public policy includes courses on policy innovation and analysis, political science, ethics and social justice, economics, statistics, and research design. Our experiential education (EE) courses develop students’ teamwork, leadership, and communication skills as they produce actionable, client-centered public policy research. The Department of Public Policy offers multiple courses on both global and domestic policy issues including courses on labor, the environment, health policy, international security, food systems, human rights, and economic development.

Department Programs

Major

• Public Policy Major, B.A. (p. 800)

Minor

• Public Policy Minor (p. 806)

Graduate Programs

• M.A. in Public Policy (http://catalog.unc.edu/graduate/schools-departments/public-policy)
• Ph.D. in Public Policy (http://catalog.unc.edu/graduate/schools-departments/public-policy)

Student Learning Outcomes

Upon completion of the public policy program, students should be able to:

• Demonstrate knowledge of ethical, economic, and political perspectives for defining the public interest and evaluating policy choices
• Demonstrate appropriate written, oral, and analytical skills in evaluating public policy alternatives
• Demonstrate knowledge of a particular policy field and apply it in an experience in policy analysis in that field
• Demonstrate skills in developing approaches to solving current public policy problems as a result of participation in experiential education opportunities
• Work effectively in teams

Requirements

In addition to the program requirements, students must:

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 100).

First-year and sophomore students considering a major in public policy are encouraged to complete PLCY 101 or PLCY 110.

Total Hours 31

\(^H\) Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

\(^1\) Three credit hours may be for a 100- or 200-level PLCY course. The remaining three credit hours must be for an elective course at the 300 level or above. PLCY 130, PLCY 293 (formerly 320), PLCY 393 (formerly 325), and PLCY 394 may not count as electives for the public policy major.

\(^2\) ECON 101 is a prerequisite for PLCY 310. PLCY 460 is a prerequisite for PLCY 698 and PLCY 691H and a pre- or corequisite for PLCY 581. PLCY 581 is a prerequisite for PLCY 691H and a pre- or co-requisite for PLCY 698.

Policy Field Concentration (Optional)

Students who complete three approved electives in a specific policy field may elect to graduate with a concentration. Six of these credit hours must be for field courses at the 300 level or above. PLCY 393 and PLCY 394 may not count toward the field concentration. For students completing an honors thesis, PLCY 691H can count toward the policy field or concentration. Policy field concentrations include education and labor markets; environment and human welfare; innovation and entrepreneurship/science and technology policy; social policy and inequality; health policy; bioethics and human rights; international development policy; global conflict and cooperation.

Additionally, students may select courses across subfields and design their own field. For information about declaring a policy field concentration see the department’s Web site (https://publicpolicy.unc.edu/academics/undergraduate-program/faq). The specific policy field is not listed on students’ diplomas or transcripts.
UNC–Chapel Hill public policy majors are encouraged to list their policy field on their résumés.

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

**Program Restrictions**

A maximum of one three-credit independent study course (PLCY 395, PLCY 396, PLCY 496, PLCY 596, or PLCY 696) may be counted as an elective for the policy major. For credit toward the major, an independent study proposal form must be completed by the student, approved by the independent study instructor, submitted to the student services officer, and approved by the director of undergraduate studies before the independent study begins. A maximum of one three-credit transfer or study abroad course or two Honors Seminar on Public Policy and Global Affairs courses (PLCY 352H; HNRS 352) may be counted as electives toward the public policy major.
### Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

### Special Opportunities in Public Policy

#### Honors in Public Policy

Public policy majors who have at least a 3.3 overall grade point and a 3.5 in the core public policy courses are eligible to apply to the department’s honors program in the spring of their junior year. The honors thesis offers an opportunity for motivated students to move beyond traditional coursework and apply critical thinking skills to an academic public policy thesis. This program is organized as an original, independent research project under the direction of a faculty advisor.

Completion of an honors thesis provides a total of six credit hours toward the major, including three credits toward a policy field concentration.

Students who complete an honors thesis and maintain all other eligibility criteria may be recommended by their thesis advisor and the Undergraduate Affairs Committee for graduation with honors or highest honors in public policy. The department’s Web site (http://publicpolicy.unc.edu/academics/undergraduate-program/honors) provides more information.

#### Undergraduate Research

Most courses in public policy include a research component. The Office for Undergraduate Research maintains a database of courses that qualify as research intensive, research exposure, and research methods courses. Earning a grade of C or better in any of these courses partially fulfills the requirements for the Carolina Research Scholar designation. In addition, the department offers opportunities for students to work directly with a faculty member on a research project through independent study. The honors thesis process enables students to undertake a major independent policy research project. The Duncan MacRae Jr. Public Policy Fund provides grants on a competitive basis to public policy majors engaged in mentored research with a public policy faculty member, in policy-relevant independent research, and in honors thesis research in public policy.

#### Experiential Education

The Department of Public Policy’s experiential education programs offer students structured, active-learning opportunities that invite them to integrate and apply their academic knowledge and skills in a real-world policy environment. Opportunities include internships, the Honors Seminar on Public Policy and Global Affairs in Washington, D.C. (PLCY 352H), the public policy clinic (PLCY 393), the intersector (PLCY 394), and the public policy capstone course (PLCY 698). PLCY 130, PLCY 293, PLCY 393, PLCY 691H, PLCY 692H, and PLCY 698 are all approved as experiential education courses.

For more information, see the department’s Web site (http://publicpolicy.unc.edu/academics/experiential-education).

#### Capstone Course

The capstone course (PLCY 698) is the culminating experience of the public policy undergraduate major and is required for all seniors except those who complete an honors thesis. Students should register for the course in the fall or spring of their senior year. The course provides a bridge between policy analysis as it is studied in an academic setting and policy analysis as it is practiced in the workplace. Students work in small teams to produce actionable, client-centered, public policy analysis for a government agency or nonprofit organization.

#### Internships

Students may receive academic credit for an approved internship if it provides an academically relevant experience in policy analysis or research. Students who wish to complete an internship with an external organization can do so through PLCY 293 (available to public policy majors and minors). PLCY 293 is a Pass/Fail course. The Duncan MacRae Jr. Public Policy Internship Grant aims to support internship opportunities for public policy majors and to defer some of the costs associated with engaging in unpaid summer internships. The Hodding Carter III Public Service Fellowship supports opportunities for UNC–Chapel Hill public policy majors to engage in public service opportunities in our communities, the American south, the nation, and around the globe.
Undergraduate Funding and Awards
Each year UNC Public Policy holds a graduation ceremony to honor students' achievements. The Richard N.L. (Pete) Andrews Environmental Policy Fund recognizes a rising senior public policy major who has been exceptionally engaged in research and/or public service to find solutions to local, state, national, or global environmental policy challenges. The Kathy Taft Education Policy Award recognizes a rising senior majoring in public policy with an interest in and dedication to education policy. The Michael A. Stegman Award for Policy Research and Advocacy is awarded to a graduating public policy major who has demonstrated an ability to use policy research and analysis to advocate for social change and a commitment to play a future role in policy research and advocacy.

Public Policy Majors Union
The Public Policy Majors’ Union (PPMU) was founded in 1988 in an effort to help govern the department’s curriculum. The PPMU has since expanded its role to include representation of policy majors within the University community and sponsorship of policy-related events. Membership is open to all public policy majors.

Honors Seminar on Public Policy and Global Affairs in Washington, D.C.
The Honors Seminar on Public Policy and Global Affairs offers Carolina undergraduates a unique learning, living, and internship opportunity in our nation’s capital. The seminar offers students first-hand engagement with the actors and organizations that influence domestic and global affairs in Washington, D.C. It aims to expose students to a range of public policies that influence U.S. economic prosperity, national security, and its role in the broader global community. Internship placements provide opportunities for students to apply academic learning, to derive new insights and questions for seminar discussion, and to work directly with substantive policy experts.

Public policy is an interdisciplinary social science program designed to provide students with the theoretical perspective, analytical skill, and substantive knowledge needed to respond to major domestic and global policy problems. The core curriculum in public policy includes courses on policy innovation and analysis, political science, ethics and social justice, economics, statistics, and research design. The undergraduate minor in public policy consists of five courses.

Introduction
The Department of Religious Studies is dedicated to the study of religions as historical and cultural phenomena. It examines the history, texts, artifacts, beliefs, values, and rituals of a variety of religious traditions, including Buddhism, Christianity, Islam, and Judaism. Inherently interdisciplinary in its approach, religious studies explores religions in light of related fields in the humanities and social sciences such as anthropology, classics, archaeology, sociology, philosophy, and history.

Advising
The director of undergraduate studies advises majors and minors in religious studies. Please contact the Department of Religious Studies for updated contact information.

The director of Jewish studies advises majors and minors in Jewish studies. Please contact the Carolina Center for Jewish Studies for updated contact information.

The director of Christianity and culture advises minors in the study of Christianity and culture. Please contact the Department of Religious Studies for updated contact information.

The director of the Carolina Center for the Study of the Middle East and Muslim Civilizations advises minors in Islamic and Middle Eastern studies. Please consult the Carolina Center for the Study of the Middle East and Muslim Civilizations for updated contact information.

Graduate School and Career Opportunities
Those wishing to proceed to graduate work in religious studies can consult the director of undergraduate studies. We encourage students to pursue the study of two or more languages in which the sacred literatures of the world have been written, as well as the modern languages of scholarship. In addition to the language courses offered by this department, UNC-Chapel Hill offers courses in Greek, Modern Hebrew, Chinese, Japanese, Hindi-Urdu, Latin, Arabic, Sanskrit, Persian, Bengali, and Tamil.

Students majoring in religious studies often choose to pursue an M.A. or Ph.D. in religious studies or other related fields in the humanities and social sciences. Some of the graduates of the program go on to professional schools in law, medicine, divinity, or journalism. Each year the department awards the Bernard Boyd Fellowship to a graduating religious studies major who is planning to pursue graduate study in religion at another institution.

Professors Emeriti

The department offers a variety of courses ranging from large lecture to advanced seminars, as well as independent studies, an honors thesis program, and a capstone course for all majors (RELI 697). Introductory courses, which are numbered below 200, orient students to the field of religious studies or to major approaches, topics, or issues within that broader field. Intermediate courses are numbered between 200 and 399, and they provide more in-depth analysis. Advanced courses, which are numbered 400 and above, often build on knowledge or skills derived from
lower-level courses, and they provide opportunities for research-intensive study in particular areas of concentration in the study of religion.

**RELI—Religious Studies**

**Undergraduate-level Courses**

**RELI 60. First-Year Seminar: Religion and Racism. 3 Credits.**
How does religion become a source of ethnic or racial prejudice among religious practitioners? When does prejudice against religious persons constitute a form of racism? This class explores answers to these questions by examining the connections between religion and racism in modern societies like the United States and South Africa.

*Gen Ed: SS, CI, US.*

*Grading status: Letter grade.*

**RELI 61. First-Year Seminar: Religion, Magic, and Science. 3 Credits.**
This course explores the ways in which religion, magic, and science are defined in the modern world and the different forms in which supernaturalism circulates within contemporary culture.

*Gen Ed: HS.*

*Grading status: Letter grade.*

**RELI 62. First-Year Seminar: A History of Heresy: Christian Dissent from the Gnostics to the Pentecostals. 3 Credits.**
Christian orthodox beliefs or practices often get formulated expressly to marginalize a viewpoint or community considered too radical. This course examines a variety of Western Christian dissenters and the authorities who opposed them: Gnostics; medieval, Spanish, and Latin American inquisitions; Protestant Anabaptists; witches; Galileo; Mormons; and Pentecostals.

*Gen Ed: NA, WB.*

*Grading status: Letter grade.*

**RELI 63. First-Year Seminar: The Archaeology of Qumran and the Dead Sea Scrolls. 3 Credits.**
In this seminar students learn about the Dead Sea Scrolls, ancient manuscripts dating to the time of Jesus from caves around the site of Qumran by the Dead Sea. They include early copies of the Hebrew Bible (Old Testament) and sectarian works belonging to the Jewish community that lived in Qumran.

*Gen Ed: HS, WB.*

*Grading status: Letter grade.*

**RELI 64. First-Year Seminar: Reintroducing Islam. 3 Credits.**
An introduction to the Islamic religious tradition, focusing on major themes of Islamic religious thought, bringing out both traditional spirituality and the critical issues confronting Muslims today.

*Gen Ed: PH, BN, GL.*

*Grading status: Letter grade.*

**RELI 65. First-Year Seminar: Myth, Philosophy, and Science in the Ancient World. 3 Credits.**
This course examines the conflicting ways in which ancient myth, science, and philosophy explained creation of the universe, origins of mankind, nature of dreams, and foundations of culture.

*Gen Ed: PH, WB.*

*Grading status: Letter grade.*

**RELI 66. First-Year Seminar: Buddhism in America: From the Buddha to the Beastie Boys. 3 Credits.**
Introduces students to Buddhism and traces its history in the United States, highlighting the period since 1965. It focuses on immigrants, converts, and the cultural influence of Buddhism in America.

*Gen Ed: PH.*

*Grading status: Letter grade.*

**RELI 67. First-Year Seminar: Nature, Culture, and Self-Identity: Religion in the Construction of Social Life. 3 Credits.**
This course explores how different religious traditions conceive of human nature and cultural personhood, and the ways that these understandings are reflected in diverse forms of personal identity and public life.

*Gen Ed: SS.*

*Grading status: Letter grade.*

**RELI 68. FYS: Charisma in Religion, Science, and Poetry Studies in the Entrepreneurial Imagination. 3 Credits.**
A comparative examination of prophet, scientist, and poet as critics and creators of the entrepreneurial outlook and sensibility in individuals and organizations with special attention to innovator’s dilemmas.

*Gen Ed: PH.*

*Grading status: Letter grade.*

**RELI 68H. FYS: Charisma in Religion, Science, and Poetry Studies in the Entrepreneurial Imagination. 3 Credits.**
A comparative examination of prophet, scientist, and poet as critics and creators of the entrepreneurial outlook and sensibility in individuals and organizations with special attention to innovator’s dilemmas.

*Gen Ed: PH.*

*Grading status: Letter grade.*

**RELI 69. First-Year Seminar: Gender and Sexuality in Contemporary Judaism. 3 Credits.**
Taking a global perspective, the course compares the manners in which Jewish communities in America, Israel, Europe, Asia, and Africa have accommodated themselves to the changing norms in gender and sexuality in the last generation.

*Gen Ed: SS.*

*Grading status: Letter grade.*

**RELI 70. First-Year Seminar: Jesus in Scholarship and Film. 3 Credits.**
This seminar explores the ways the historical Jesus has been portrayed in the writings of modern scholars and films of the 20th and 21st centuries.

*Gen Ed: SS.*

*Grading status: Letter grade.*

**RELI 71. First-Year Seminar: Ethics and the Spirit of the New Capitalism. 3 Credits.**

*Gen Ed: PH.*

*Grading status: Letter grade.*

**RELI 72. First-Year Seminar: Apocalypse Now? Messianic Movements in America. 3 Credits.**
This course explores the messianic idea in America as well as the messianic movements that have been active in the nation's history and their interaction with American society and culture.

*Gen Ed: HS, NA.*

*Grading status: Letter grade.*

**RELI 73. First-Year Seminar: From Dragons to Pokemon: Animals in Japanese Myth, Folklore, and Religion. 3 Credits.**
This course examines the cultural construction of animals in Japanese myth, folklore, and religion.

*Gen Ed: LA, BN, CI.*

*Grading status: Letter grade.*
RELI 73H. First-Year Seminar: From Dragons to Pokemon: Animals in Japanese Myth, Folklore, and Religion. 3 Credits.
This course examines the cultural construction of animals in Japanese myth, folklore, and religion.
Gen Ed: LA, BN, CI.
Grading status: Letter grade.

RELI 74. First-Year Seminar: Person, Time, and Religious Conduct. 3 Credits.
Within the vast field of activity called "religion," this course examines how people and societies give meaning to the relation between human organisms and the universe in time and space.
Gen Ed: PH.
Grading status: Letter grade.

RELI 74H. First-Year Seminar: Person, Time, and Religious Conduct. 3 Credits.
Within the vast field of activity called "religion," this course examines how people and societies give meaning to the relation between human organisms and the universe in time and space.
Gen Ed: PH.
Grading status: Letter grade.

RELI 75. First-Year Seminar: Sacrifice and Surrender. 3 Credits.
This course will consider the questions of debt, loss, and surrender as we explore the problem of sacrifice. Readings will address the associated problems of violence, transgression, and animality.
Gen Ed: PH, BN.
Grading status: Letter grade.

RELI 76. First-Year Seminar: Money and Morality: Divining Value in Social Life. 3 Credits.
This seminar explores the many ways that different religions and cultures have imagined spiritual wealth, secular riches, and the appropriate modes of interaction between them in different places and times.
Gen Ed: SS.
Grading status: Letter grade.

RELI 77. First-Year Seminar: Martyrs and Warriors: Religion and the Problem of Violence. 3 Credits.
This seminar asks why some people choose to take life (their own or another's) for religious purposes and how texts, practices, and communities shape these motives. Focuses on martyrological traditions in Western religions, but also tracks idioms of war, sacrifice, and ritualized suffering in other religious contexts and secular discourses.
Gen Ed: PH, GL.
Grading status: Letter grade.

RELI 78. First-Year Seminar: Reading the Bible: Now and Then. 3 Credits.
An introduction to the interpretation of the Hebrew Bible/Old Testament. We will look at the biblical text as modern interpreters and through the eyes of the Bible's earliest Jewish and Christian interpreters with special attention to changing assumptions about how to read the Bible and the nature of Scripture itself.
Gen Ed: LA, WB.
Grading status: Letter grade.

RELI 79. First-Year Seminar: Human Animals in Religion and Ethics. 3 Credits.
This course investigates the figure of the human animal in religion and philosophy. What kind of animal is the human, and what separates humans from animals? We will consider how attending to distinctions between humans and animals can highlight varying ideological and religious viewpoints.
Gen Ed: PH, GL.
Grading status: Letter grade.

RELI 80. First-Year Seminar: Religion and Writing in the Ancient World. 3 Credits.
This seminar considers the role of writing as a technology in the shaping of ancient religious traditions, from the inventions of writing in Mesopotamia and Egypt to the advent of Islam. Topics include the early alphabet, magical/mystical uses of writing, religion and literacy, and the development of "Scripture" (e.g., Bible, Qur’an).
Gen Ed: HS, WB.
Grading status: Letter grade.

RELI 85. First-Year Seminar: Sex, Marriage, and Family in Religion. 3 Credits.
This course approaches the central role of discourses about sexual norms, marriage, and family in select religious traditions. It asks how religious traditions have defined and negotiated normative models for marriage and family in their connection to larger theological frameworks and religious source texts.
Gen Ed: PH, GL.
Grading status: Letter grade.

RELI 88. First-Year Seminar: Religion and Society in Historical Novels. 3 Credits.
In this seminar we will read several books. Most of them are bestsellers and can be described as "historical novels." Having these books as a starting point, we will explore religion and society in Europe and the Middle East in the medieval and early modern period.
Gen Ed: LA, WB.
Grading status: Letter grade.

RELI 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading status: Letter grade.

RELI 89H. First-Year Seminar: Special Topics. 3 Credits.

Myra Quick, Department Registrar
quick@email.unc.edu

The Department of Religious Studies is dedicated to the study of religions as historical and cultural phenomena. It examines the history, texts, artifacts, beliefs, values, and rituals of a variety of religious traditions, including Buddhism, Christianity, Islam, and Judaism. Inherently interdisciplinary in its approach, religious studies explores religions in light of related fields in the humanities and social sciences such as anthropology, classics, archaeology, sociology, philosophy, and history.

Department Programs

Majors
• Religious Studies Major, B.A.  (p. 828)
• Religious Studies Major, B.A.–Jewish Studies Concentration  (p. 832)

Minors
• Islamic and Middle Eastern Studies Minor (p. 834)
• Jewish Studies Minor (p. 836)
• Religious Studies Minor (p. 837)
• Study of Christianity and Culture Minor (p. 841)

Graduate Programs
• M.A. in Religious Studies (http://catalog.unc.edu/graduate/schools-departments/religious-studies)
• Ph.D. in Religious Studies (http://catalog.unc.edu/graduate/schools-departments/religious-studies)

Student Learning Outcomes

Upon completion of the religious studies program, students should be able to:
• Demonstrate knowledge of at least three religious traditions
• Demonstrate knowledge of influential terms, approaches, and theories in religious studies
• Conduct research in religious studies, including interpreting primary sources, assessing scholarly literature, and constructing original arguments
• Clearly and effectively communicate the results of research

Special Opportunities in Religious Studies

Honors in Religious Studies
Students majoring in religious studies (including double majors) with a grade point average of 3.5 or above in department courses and 3.3 grade point average overall and who will have successfully completed at least one course numbered 400 or above on a topic in religious studies that is related to the proposed thesis may choose to write an honors thesis. Candidates for graduation with honors in religious studies are to be enrolled in RELI 691H in the fall and RELI 692H in the spring semester of their senior year. RELI 691H and RELI 692H count toward the major as courses fulfilling subfield requirements. Students should submit applications for the honors program to the department’s director of undergraduate studies by the end of February during their junior year. Consult the department’s director of undergraduate studies for details.

Study Abroad
Professor Jodi Magness directs archaeological excavations in Israel during the summer. Students are welcome to participate. Other courses through the Study Abroad Office can count towards the major and minor in religious studies as well.

Undergraduate Awards and Honors
The department presents three awards at the end of each academic year: the Bernard Boyd Fellowship, the Bernard Boyd Memorial Prize, and the Halperin-Schültz Undergraduate Essay Award.

The department also inducts qualified majors into the Religious Studies National Honor Society, Theta Alpha Kappa.
In addition to the program requirements, students must

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 100).

Requirements
In addition to the program requirements listed below, students must:

- Study Abroad
  Professor Jodi Magness directs archaeological excavations in Israel during the summer. Students are welcome to participate. Other courses through the Study Abroad Office can count towards the major and minor in religious studies as well.

Undergraduate Awards and Honors
The department presents three awards at the end of each academic year: the Bernard Boyd Fellowship, the Bernard Boyd Memorial Prize, and the Halperin-Schültz Undergraduate Essay Award.

The department also inducts qualified majors into the Religious Studies National Honor Society, Theta Alpha Kappa.

Special Opportunities in Religious Studies
Honors in Religious Studies
Students majoring in religious studies (including double majors) with a grade point average of 3.5 or above in department courses and 3.3 grade point average overall and who will have successfully completed at least one course numbered 400 or above on a topic in religious studies that is related to the proposed thesis may choose to write an honors thesis. Candidates for graduation with honors in religious studies are to be enrolled in RELI 691H in the fall and RELI 692H in the spring semester of their senior year. RELI 691H and RELI 692H count toward the major as courses fulfilling subfield requirements. Students should submit applications for the honors program to the department’s director of undergraduate studies by the end of February during their junior year. Consult the department’s director of undergraduate studies for details.

The Department of Religious Studies is dedicated to the study of religions as historical and cultural phenomena. It examines the history, texts, artifacts, beliefs, values, and rituals of a variety of religions traditions, including Buddhism, Christianity, Islam, and Judaism. Inherently interdisciplinary in its approach, religious studies explores religions...
in light of related fields in the humanities and social sciences such as
anthropology, classics, archaeology, sociology, philosophy, and history.

Introduction
The Department of Romance Studies is a diverse, multicultural, and plurilingual academic unit that engages in research and instruction in French, Italian, Portuguese, Spanish, and the historical minority languages of Europe and the Americas. The principal aims of the department are to preserve, increase, and transmit knowledge and understanding of the Romance languages, literatures, and cultures within the global and regional contexts in which they have developed.

Our course offerings present a diversity of approaches—historical, literary, linguistic, sociopolitical, cultural, and theoretical—to the study of literary and nonliterary texts and cultures of Europe, the Mediterranean, and the Americas. Students acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Our faculty promotes interdisciplinary connections and incorporates the study of literature, culture, theory, and history across the curriculum. Through coursework that emphasizes rhetoric, composition, and written and oral expression, our majors receive sustained personalized training in critical thinking and close reading.

Advising
The Department of Romance Studies offers a major with five concentrations and five minors. All students can find their primary academic advisor in Dey Hall. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. Each of the department’s language advisors will meet with current and prospective majors by appointment. Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department’s Web site (http://romancestudies.unc.edu).

Facilities
Students taking courses in the Department of Romance Studies have outstanding support for their work through the Digital Arts Collaboration Lab (DAC Lab), housed on the ground floor of Dey Hall. The DAC Lab provides resources and services for language teaching and learning, including audio and video materials; smart classrooms with PCs and projection equipment; listening, viewing, and recording facilities; online databases for language learning; and video-connected classrooms for distance learning.

Graduate School and Career Opportunities
The master of arts in teaching (M.A.T.) degree is intended for students who wish to teach at the secondary level. M.A. and Ph.D. programs in Romance languages are almost exclusively oriented toward literary studies, and the undergraduate student should prepare accordingly. A reading knowledge of Latin is sometimes required, as is at least one other Romance language (generally Italian or French). Useful allied disciplines are English, history, classics, philosophy, linguistics, and art history. A double major with one of these fields is often desirable. Faculty members can advise students on choices of graduate schools. Ratings of programs are published from time to time and are available through the department.

For students seeking careers in international business and law, journalism, publishing, social work, and the health professions, a second major or minor in a language is an asset. This also applies to students who wish to work in a field that makes knowledge of French, Italian, Portuguese, or Spanish desirable, such as history, art, Latin American studies, or global studies.

The French major provides students with a more thorough command of
the language, as well as a comprehensive knowledge of the literatures,
cultures, and civilization of the francophone world. French majors
are also trained in research methodology in French, Francophone, and
European studies.

French majors have gone on to careers in education, international
business, law, journalism, publishing, social work, and health, as well as
graduate study in French. The diverse offerings of the program include
courses such as French civilization, business French, advanced oral and
written French, introduction to French and Francophone literatures, the
role of France in Europe today, and identities in European cinema.

Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Our faculty promotes interdisciplinary connections and incorporates the study of literature, culture, theory, and history across the curriculum. Through coursework that emphasizes language acquisition, rhetoric, composition, and written and oral expression, our majors receive sustained personalized training in critical thinking and close reading. Upon completion of the program in Romance languages, students should be able to:

- Participate in conversations on concrete, social, academic, and professional topics
- Speak in detail about experiences and events in a variety of time frames and moods
- Represent points of view in discussions, both oral and written
- Deliver well-organized presentations on concrete, academic and professional topics
- Write on a wide variety of general interest, professional, and academic topics
- Follow narrative, informational, and descriptive speech on concrete, academic and professional topics
- Understand and discuss texts representing a variety of topics and genres

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 100).

French (FREN) course descriptions (p. 845).

We offer a strong emphasis on European and francophone studies as well as the Languages across the Curriculum Program (LAC) (p. 114), which allows students to participate in one-hour, one-credit discussion sections in French on an array of courses across the College of Arts and Sciences.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Sample Plan One

This plan assumes a placement of FREN 105 on the Foreign Language placement test. Student placement (and plans) may vary. Although it is possible to complete the French and Francophone studies major if a student begins with FREN 101, summer school, study abroad, or
doubling-up on courses in the final year may be necessary in order to complete it in a timely manner.

Special Opportunities in Romance Studies

Honors

The departmental honors program is open to any qualified major with a cumulative grade point average of 3.3 or higher and 3.5 or higher in their major courses. Eligible honors candidates will formulate a topic and select an appropriate faculty member to supervise the writing of an honors thesis. Specific coursework for the major with honors consists of enrollment in the honors thesis courses in the language of the major emphasis.

691H is taken in the fall semester of the senior year and 692H is taken in the spring semester. FREN, ITAL, PORT, SPAN 398 Undergraduate Seminar may be substituted for the research course if the subject of the seminar is central to the research project chosen. In the 692H course the thesis will be completed and the student examined by the supervisor and two additional faculty members, to be agreed upon by the student and supervisor. The director of honors, in consultation with the examiners, will recommend that the student who has defended the thesis graduate with honors, highest honors, or with course credit. Courses numbered 691H or 398 may count toward the eight courses for the major, but 692H

Sample Plan Two

This plan assumes a placement of FREN 203 on the Foreign Language placement test. Student placement (and plans) may vary.
may not. Students who intend to graduate in December should adjust the scheduling of these courses in order to allow for completion of the honors project in December. Students meeting the required grade point averages should contact the undergraduate advisor for their language. For detailed information on the B.A. with honors, visit the department’s Web site (http://romancestudies.unc.edu/undergraduate/overview).

Out-of-Class Language Experience
The department offers credit-bearing internship opportunities through ROML 293 and service-learning opportunities (http://ccps.unc.edu/apples) through ROML 194. Both courses satisfy the experiential education (EE) General Education requirement. While ROML 293 is a stand-alone course, ROML 194 is always connected to a specific course.

Students may enrich their cultural and language experience by applying to the Spanish House, a section of Craig North residence hall. Equipped with a lounge and a kitchen, the house has space for eight male and 16 female students. Students make an effort to speak only Spanish while in residence.

Students also find opportunities to speak Spanish and meet native Spanish speakers in an informal weekly tertulia (gathering). Additional activities involving Spanish include publishing and editorial involvement in the student journals Mezcla and Aguas del pozo; attending lectures, receptions, and films organized by the department and student organizations such as ChisPA (Carolina Hispanic Association); and serving the community through a variety of volunteer opportunities.

For further opportunities to speak French, students are encouraged to participate in the weekly meeting of the Table Francaise and become members of the French club, les Francophiles. Departmental lectures and film series are also offered.

Students wishing to speak Italian may participate in a weekly conversation table, La Tavola Italiana. They may also attend departmental lectures and film series and participate in the Italian Literary Contest.

Students who wish to practice Portuguese can meet weekly for the bate-papo (chat). Students of Portuguese also engage in editorial work and publish in the student journal Aguas del pozo.

Study Abroad
The Study Abroad Office sponsors many year-long, semester-long, and summer programs appropriate for students of the Romance languages and has special arrangements with the Department of Romance Studies for the UNC in Montpellier, UNC in Seville, and Florence programs. Students from UNC–Chapel Hill and from other institutions may earn up to 30 semester hours of undergraduate credit in these programs, which are open to qualified undergraduates regardless of academic major. While, in general, students may satisfy up to 50 percent of major or minor coursework abroad, courses that are taught by Romance studies faculty may count differently. For example, students completing the Spanish minor for the professions in health and business may complete all or most of the minor in faculty-led programs abroad.

Students who participate in Study Abroad during the semester have the opportunity to work as course correspondents for a course in Romance studies. Course correspondents report back to the class they serve throughout the semester via online tools, and may receive one hour of credit for their informative work.

General inquiries concerning any of these programs should be addressed to the Study Abroad Office, CB# 3130, FedEx Global Education Center, (919) 962-7002.

Undergraduate Awards

French
Students have the opportunity to be inducted into Pi Delta Phi, the national French honor society. Those with outstanding records in French are recommended as candidates for the Jacques Hardré Award, which is given to the best graduating senior in French; it includes a cash award.

Italian
Students are nominated for membership in Gamma Kappa Alpha, the Italian honor society, by undergraduate instructors. The society recognizes “outstanding scholastic performance in the fields of Italian language and literature” and encourages students “to acquire a greater interest in, and a deeper understanding of, Italian culture.” The Kimberly Kyser Award for Excellence in Italian is awarded to the most outstanding student in Italian and includes a cash prize.

Portuguese
Each year the department awards the Camões Prize to the outstanding student in Portuguese during that year. The prize carries a monetary award made possible by a donation from the Gulbenkian Foundation.

Spanish
Students have the opportunity to be inducted into Sigma Delta Pi, the national Spanish honor society. Those with outstanding performance in the Hispanic literatures and cultures or the Hispanic linguistics majors are eligible for several prizes including the Chancellor’s Award, given to the top graduating senior, the Stoudemire Awards, and the Larry D. King Fellowship. The Thomas Henry Wilson Sr. Award provides support for an undergraduate with a major or minor to conduct research during the summer in a Spanish-speaking country.

With the approval of the undergraduate advisor for Italian, students majoring in Romance languages with an emphasis in Italian may count up to nine hours in related areas in such departments, programs, and curricula as classics, art, music, cultural studies, and women’s and gender studies.

**Sample Plan of Study**

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students.

**Special Opportunities in Romance Studies**

The departmental honors program is open to any qualified major with a cumulative grade point average of 3.3 or higher and 3.5 or higher in their major courses. Eligible honors candidates will formulate a topic and select an appropriate faculty member to supervise the writing of an honors thesis. Specific coursework for the major with honors consists of enrollment in the honors thesis courses in the language of the major emphasis.

691H is taken in the fall semester of the senior year and 692H is taken in the spring semester. FREN, ITAL, PORT, SPAN 398 Undergraduate Seminar may be substituted for the research course if the subject of the seminar is central to the research project chosen. In the 692H course the thesis will be completed and the student examined by the supervisor and two additional faculty members, to be agreed upon by the student and supervisor. The director of honors, in consultation with the examiners, will recommend that the student who has defended the thesis graduate with honors, highest honors, or with course credit. Courses numbered 691H or 398 may count toward the eight courses for the major, but 692H may not. Students who intend to graduate in December should adjust the scheduling of these courses in order to allow for completion of the honors project in December. Students meeting the required grade point averages should contact the undergraduate advisor for their language. For detailed information on the B.A. with honors, visit the department's Web site (http://romancestudies.unc.edu/undergraduate/overview).

**Out-of-Class Language Experience**

The department offers credit-bearing internship opportunities through ROML 293 and service-learning opportunities (http://ccps.unc.edu/apples) through ROML 194. Both courses satisfy the experiential education (EE) General Education requirement. While ROML 293 is a stand-alone course, ROML 194 is always connected to a specific course.

Students may enrich their cultural and language experience by applying to the Spanish House, a section of Craige North residence hall. Equipped with a lounge and a kitchen, the house has space for eight male and 16 female students. Students make an effort to speak only Spanish while in residence.

Students also find opportunities to speak Spanish and meet native Spanish speakers in an informal weekly tertulia (gathering). Additional activities involving Spanish include publishing and editorial involvement in the student journals Mezcla and Aguas del pozo; attending lectures, receptions, and films organized by the department and student organizations such as CHispA (Carolina Hispanic Association); and serving the community through a variety of volunteer opportunities.

For further opportunities to speak French, students are encouraged to participate in the weekly meeting of the Table Française and become members of the French club, les Francophiles. Departmental lectures and film series are also offered.

Students wishing to speak Italian may participate in a weekly conversation table, La Tavola Italiana. They may also attend departmental lectures and film series and participate in the Italian Literary Contest.

Students who wish to practice Portuguese can meet weekly for the bate-papo (chat). Students of Portuguese also engage in editorial work and publish in the student journal Aguas del pozo.

**Study Abroad**

The Study Abroad Office sponsors many year-long, semester-long, and summer programs appropriate for students of the Romance languages and has special arrangements with the Department of Romance Studies for the UNC in Montpellier, UNC in Seville, and Florence programs. Students from UNC–Chapel Hill and from other institutions may earn up to 30 semester hours of undergraduate credit in these programs, which are open to qualified undergraduates regardless of academic major. While, in general, students may satisfy up to 50 percent of major or minor coursework abroad, courses that are taught by Romance studies faculty may count differently. For example, students completing the Spanish minor for the professions in health and business may complete all or most of the minor in faculty-led programs abroad.

Students who participate in Study Abroad during the semester have the opportunity to work as course correspondents for a course in Romance studies. Course correspondents report back to the class they serve throughout the semester via online tools, and may receive one hour of credit for their informative work.
General inquiries concerning any of these programs should be addressed to the Study Abroad Office, CB# 3130, FedEx Global Education Center, (919) 962-7002.

Undergraduate Awards

French
Students have the opportunity to be inducted into Pi Delta Phi, the national French honor society. Those with outstanding records in French are recommended as candidates for the Jacques Hardré Award, which is given to the best graduating senior in French; it includes a cash award.

Italian
Students are nominated for membership in Gamma Kappa Alpha, the Italian honor society, by undergraduate instructors. The society recognizes “outstanding scholastic performance in the fields of Italian language and literature” and encourages students “to acquire a greater interest in, and a deeper understanding of, Italian culture.” The Kimberly Kyser Award for Excellence in Italian is awarded to the most outstanding student in Italian and includes a cash prize.

Portuguese
Each year the department awards the Camões Prize to the outstanding student in Portuguese during that year. The prize carries a monetary award made possible by a donation from the Gulbenkian Foundation.

Spanish
Students have the opportunity to be inducted into Sigma Delta Pi, the national Spanish honor society. Those with outstanding performance in the Hispanic literatures and cultures or the Hispanic linguistics majors are eligible for several prizes including the Chancellor’s Award, given to the top graduating senior, the Stoudemire Awards, and the Larry D. King Fellowship. The Thomas Henry Wilson Sr. Award provides support for an undergraduate with a major or minor to conduct research during the summer in a Spanish-speaking country.

Portuguese is the seventh most spoken language in the world, with over 250 million speakers. It is the language of Portugal, Brazil, and parts of Africa and Asia. Brazil, with a population of 185 million, is the largest country in South America and has the ninth largest economy in the world.

The program in Portuguese combines the study of the language, culture, and literatures of Brazil and Portugal. Emphasis is placed on the language as it is currently spoken and its historical development. Students study the literatures of Brazil and Portugal in terms of their

historical development and analyze specific texts from different genres and literary periods. Students interested in Portuguese should consult the Portuguese language advisor.

Portuguese as a second language would open multiple job opportunities in various countries with expanding economies and a promising future. It would also provide a vehicle to the rich cultural traditions of Portugal, Brazil, and the Lusophone nations of Africa and Asia, including literature, art, and music.

Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Our faculty promotes interdisciplinary connections and incorporates the study of literature, culture, theory, and history across the curriculum. Through coursework that emphasizes language acquisition, rhetoric, composition, and written and oral expression, our majors receive sustained personalized training in critical thinking and close reading.

Upon completion of the program in Romance languages, students should be able to:

• Participate in conversations on concrete, social, academic, and professional topics
• Speak in detail about experiences and events in a variety of time frames and moods
• Represent points of view in discussions, both oral and written
• Deliver well-organized presentations on concrete, academic and professional topics
• Write on a wide variety of general interest, professional, and academic topics
• Follow narrative, informational, and descriptive speech on concrete, academic and professional topics
• Understand and discuss texts representing a variety of topics and genres

Requirements
In addition to the program requirements, students must

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

Spanish, the world’s third largest language and second in terms of native speakers, is spoken by nearly 500 million people across the globe. The over 50 million Hispanics in the United States have become the fastest-growing social and political segment in North America. Because of its prominence, learning to communicate in Spanish can be essential for those entering the global economic market and numerous professions.

Spanish studies at UNC–Chapel Hill thrives on innovative literary, linguistic, and theoretical approaches to the Spanish-speaking world, and includes the study of indigenous, Afro-descendant, Asian, and other cultures. Students obtain well-grounded and comprehensive critical knowledge of the literatures, languages, and cultures of Spain and the Americas, often through collaborative research with a faculty member. Qualifying students have the opportunity to pursue an honor’s thesis with one of our faculty members.

691H is taken in the fall semester of the senior year and 692H is taken in the spring semester. FREN, ITAL, PORT, SPAN 398 Undergraduate Seminar may be substituted for the research course if the subject of the seminar is central to the research project chosen. In the 692H course the thesis will be completed and the student examined by the supervisor and two additional faculty members, to be agreed upon by the student and supervisor. The director of honors, in consultation with the examiners, will recommend that the student who has defended the thesis graduate with honors, highest honors, or with course credit. Courses numbered 691H or 398 may count toward the eight courses for the major, but 692H may not. Students who intend to graduate in December should adjust the scheduling of these courses in order to allow for completion of the honors project in December. Students meeting the required grade point averages should contact the undergraduate advisor for their language. For detailed information on the B.A. with honors, visit the department’s Web site (http://romancestudies.unc.edu/undergraduate/overview).

**Out-of-Class Language Experience**
The department offers credit-bearing internship opportunities through ROML 293 and service-learning opportunities (http://ccps.unc.edu/apples) through ROML 194. Both courses satisfy the experiential education (EE) General Education requirement. While ROML 293 is a stand-alone course, ROML 194 is always connected to a specific course.

Students may enrich their cultural and language experience by applying to the Spanish House, a section of Craig North residence hall. Equipped with a lounge and a kitchen, the house has space for eight male and 16 female students. Students make an effort to speak only Spanish while in residence.

Students also find opportunities to speak Spanish and meet native Spanish speakers in an informal weekly tertulia (gathering). Additional activities involving Spanish include publishing and editorial involvement in the student journals *Mezcla* and *Aguas del pozo*; attending lectures, receptions, and films organized by the department and student organizations such as CHispA (Carolina Hispanic Association); and serving the community through a variety of volunteer opportunities.

For further opportunities to speak French, students are encouraged to participate in the weekly meeting of the Table Française and become members of the French club, les Francophiles. Departmental lectures and film series are also offered.

Students wishing to speak Italian may participate in a weekly conversation table, La Tavola Italiana. They may also attend departmental lectures and film series and participate in the Italian Literary Contest.

Students who wish to practice Portuguese can meet weekly for the bate-papo (chat). Students of Portuguese also engage in editorial work and publish in the student journal *Aguas del pozo*.

**Study Abroad**
The Study Abroad Office sponsors many year-long, semester-long, and summer programs appropriate for students of the Romance languages and has special arrangements with the Department of Romance Studies for the UNC in Montpellier, UNC in Seville, and Florence programs. Students from UNC–Chapel Hill and from other institutions may earn up to 30 semester hours of undergraduate credit in these programs, which are open to qualified undergraduates regardless of academic major. While, in general, students may satisfy up to 50 percent of major or minor coursework abroad, courses that are taught by Romance studies faculty may count differently. For example, students completing the Spanish minor for the professions in health and business may complete all or most of the minor in faculty-led programs abroad.

Students who participate in Study Abroad during the semester have the opportunity to work as course correspondents for a course in Romance studies. Course correspondents report back to the class they serve throughout the semester via online tools, and may receive one hour of credit for their informative work.

**Undergraduate Awards**

**French**

Students have the opportunity to be inducted into Pi Delta Phi, the national French honor society. Those with outstanding records in French are recommended as candidates for the Jacques Hardré Award, which is given to the best graduating senior in French; it includes a cash award.

**Italian**

Students are nominated for membership in Gamma Kappa Alpha, the Italian honor society, by undergraduate instructors. The society recognizes “outstanding scholastic performance in the fields of Italian language and literature” and encourages students “to acquire a greater interest in, and a deeper understanding of, Italian culture.” The Kimberly Kyser Award for Excellence in Italian is awarded to the most outstanding student in Italian and includes a cash prize.

**Portuguese**

Each year the department awards the Camões Prize to the outstanding student in Portuguese during that year. The prize carries a monetary award made possible by a donation from the Gulbenkian Foundation.
Spanish
Students have the opportunity to be inducted into Sigma Delta Pi, the national Spanish honor society. Those with outstanding performance in the Hispanic literatures and cultures or the Hispanic linguistics majors are eligible for several prizes including the Chancellor’s Award, given to the top graduating senior, the Stoudemire Awards, and the Larry D. King Fellowship. The Thomas Henry Wilson Sr. Award provides support for an undergraduate with a major or minor to conduct research during the summer in a Spanish-speaking country.

Spanish, the world’s third largest language and second in terms of native speakers, is spoken by nearly 500 million people across the globe. The over 50 million Hispanics in the United States have become the fastest-growing social and political segment in North America. Because of its prominence, learning to communicate in Spanish can be essential for those entering the global economic market and numerous professions.

Spanish studies at UNC–Chapel Hill thrives on innovative literary, linguistic, and theoretical approaches to the Spanish-speaking world, and includes the study of indigenous, Afro-descendant, Asian, and other cultures. Students obtain well-grounded and comprehensive critical knowledge of the literatures, languages, and cultures of Spain and the Americas, often through collaborative research with a faculty member. Qualifying students have the opportunity to pursue an honor’s thesis with one of our faculty members.

Requirements
In addition to the program requirements, students must

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 100).

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Sample Plan One

This plan assumes a placement of SPAN 105 on the Foreign Language placement test. Student placement (and plans) may vary. Although it is possible to complete the Hispanic linguistics concentration if a student begins with SPAN 101, summer school, study abroad, or doubling up on courses in the final year may be necessary in order to complete it in a timely manner.

The minor in Italian is designed for those who wish to continue their study of the Italian language and acquire a more in-depth knowledge of Italian literature and culture. Many use it to support their majors in related fields such as global studies, business, history, art history, and anthropology, and to round out their major in the STEM fields as well. It requires three fewer courses than the Italian major.

The minor in Portuguese is designed for those who wish to continue their study of Portuguese and acquire a more in-depth knowledge of Lusophone cultural production, such as film, literature, and the performing arts. Qualifying courses include courses in Portuguese, courses on Lusophone topics taught in English, and certain courses outside the department with a significant amount of content related to the Lusophone world. Many students see it as essential or complementary to their major in fields such as public health, global studies, music, anthropology, or political science.

Introduction

The Department of Sociology is the primary home for two majors—sociology and management and society—and a minor in social and economic justice.

The undergraduate major in sociology at UNC–Chapel Hill provides students with theoretical and methodological tools, and substantive insights for understanding human social life and institutions. The department’s faculty is particularly strong in the areas of social inequality, marriage and family, health and medical sociology, work and the economy, religion, formal organizations, sex and gender, social movements, population and human ecology, social networks, education, and political sociology. Course themes range widely from the theoretical to the applied and incorporate a broad array of methodological approaches including comparative/historical, participant observation and interviewing, survey data collection and statistical analysis.

Management and society is an interdisciplinary major that focuses on the institutional context and inner workings of organizations. It prepares students for a variety of positions in private or public-sector organizations. Additionally, many students find the curriculum to be excellent preparation for a variety of business-oriented graduate and professional degree programs.

Advising

All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department’s director of undergraduate studies and assistant director meet with current, transfer, and prospective majors by appointment (see contact information on the program page of the catalog). Departmental academic advising is particularly important for those students who are double majors and those who may be considering going on to graduate school. Further information on courses, undergraduate research opportunities, writing an honors thesis, careers, and graduate schools is available on the department’s Web site.

Graduate School and Career Opportunities

Sociologists are employed by research institutes, public health and welfare organizations, social work agencies, private businesses, law firms, international agencies, medical centers, educational institutions, advertising firms, survey and polling organizations, and the criminal justice system. Others work in politics and government and in community and social justice organizing.

A major in sociology also prepares students for law, medical, or business school and for graduate degree programs in social work, education, public policy, religious ministry, mass communications, public health, nonprofit administration, and international affairs. Of course the sociology major also prepares interested undergraduates for graduate studies in sociology, should they choose to continue in the field to become researchers or teachers in high schools, two- or four-year colleges, or research universities. Students interested in pursuing graduate studies in sociology after college may, with the instructor’s permission, enroll in graduate-level courses at UNC–Chapel Hill.

A major in management and society prepares students for virtually any aspect of a business career that does not involve highly specialized training (such as finance and accounting). Employers are interested in students who can think on their feet, communicate effectively, write well, and make sense of the social and economic changes occurring in their industry. Management and society majors are educated in each of these skills.

Graduates with B.A. degrees with majors in management and society are especially suited for entry-level positions in any aspect of human resource management, industry, or public sector organizations. Among recent graduates who responded to a placement office survey, the largest number were employed in sales; management or management training positions with at least some supervisory or personnel-related responsibilities ranked second. Other graduates are working in customer service, purchasing, and marketing research, and several hold positions in the public sector.

Gen Ed: SS.
Grading status: Letter grade.

SOCI 51. First-Year Seminar: Emotion and Social Life. 3 Credits.
The course will examine the social aspects of emotional experience including current debates among sociologists and psychologists about the social functions of emotions.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 52. First-Year Seminar: Social Inequality across Space and Time. 3 Credits.
This course focuses on social inequality in human societies by looking at social inequalities in different historical periods and geographical locations.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 53. First-Year Seminar: The Consequences of Welfare Reform and Prospects for the Future. 3 Credits.
This first-year seminar is designed to 1) research and document the consequences of welfare reform and 2) participate in the political debate over reauthorization of the welfare law.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 54. First-Year Seminar: Good Jobs, Bad Jobs, No Jobs: Work and Workers in 21st-Century America. 3 Credits.
The course examines the nature and meaning of work in America at the beginning of the 21st century.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 55. First-Year Seminar: Self, Society, and the Making of Reality. 3 Credits.
What does it mean to say that reality is "socially constructed"? How do people in different social groups develop shared perspectives? In exploring answers to these questions (and others) the course will also examine the self from a sociological perspective.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 56. First-Year Seminar: Citizenship. 3 Credits.
Citizenship takes on new meaning in a global context. This course examines current debates, examples of human rights charters, and students apply what they learn to sociological topics.
Gen Ed: SS, US.
Grading status: Letter grade.

SOCI 57. First-Year Seminar: Rationalization and the Changing Nature of Social Life in 21st-Century America. 3 Credits.
Fast food restaurants have become a model for everyday life. Some scholars even talk about the "McDonaldization" of the world. By that scholars mean a drive toward greater efficiency, predictability, calculability, and control by technologies in modern organizations. Sociologists call this process "rationalization," which will be examined in this course.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 57H. First-Year Seminar: Rationalization and the Changing Nature of Social Life in 21st-Century America. 3 Credits.
This course will present a comparative and multidisciplinary perspective on how globalization affects labor markets and inequality.

This course will present a comparative and multidisciplinary perspective on how globalization affects labor markets and inequality.
Gen Ed: SS, GL.
Grading status: Letter grade.

SOCI 59. First-Year Seminar: The Advocacy Explosion: Social Movements in the Contemporary United States. 3 Credits.
This course investigates the origins, dynamics, and influence of social movements in American society. It examines why people join movements, how movements work, and the way that movements are able to affect broader changes in our society.
Gen Ed: SS.
Grading status: Letter grade.
SOCI 60. First-Year Seminar: Sociology of the Islamic World. 3 Credits.
This course exposes students to the social, economic, political, and religious currents that have made the Islamic world one of the most important regions for global affairs, as well as one of the regions least understood in the United States.
Gen Ed: SS, BN.
Grading status: Letter grade.

This course investigates how innovations in information technology are transforming the nature of business and society in the United States. It also examines the history of work relationships in the United States in order to discover how information technology will change the role of employees and what it means to be a customer.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 62. First-Year Seminar: Social Change and Changing Lives. 3 Credits.
Society shapes our lives and yet we seek to influence the direction of our biographies through personal effort (also called "agency"). This course examines the dynamic between society and agency, which becomes especially interesting in times of social change, when societies redefine the paths that lives can take.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 63. First-Year Seminar: Cooperation and Conflict. 3 Credits.
The course examines cooperation and conflict in settings where there is no state and legal system that enforces rules of conduct: early encounters of Europeans and non-Europeans; migrants and colonists in a wilderness, such as New England Puritans and Mormons in Utah; good Samaritans who rescue strangers despite risks.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 64. First-Year Seminar: Equality of Educational Opportunity Then and Now. 3 Credits.
Brown v. Board of Education centers on one of the most significant and controversial issues in American public education: equality of educational opportunity. This course examines race in America and its affect on public education before and after Brown. Topics include school segregation, curriculum tracking, and the black-white achievement gap.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 65. First-Year Seminar: Environment, Health, and Justice. 3 Credits.
This course will use the environmental justice movement as a window to explore the dynamics of social movements, health disparities, and social policy.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 66. First-Year Seminar: Citizenship and Society in the United States. 3 Credits.
Americans are taught that democracy and citizenship go hand in hand: being a good citizen may mean voting, writing letters, and taking other actions to "make one's voice heard." This course examines what citizenship has meant during the course of American history.
Gen Ed: SS, NA.
Grading status: Letter grade.

SOCI 67. First-Year Seminar: America in the 1960s. 3 Credits.
The 1960s were a period of great social upheaval. The course will examine many aspects of American culture: how we organized racial and gender relations; how we expressed our morality through music, art, and film; how we thought about God and spirituality; and how we practiced politics, among others. It will also look at the roots of the 1960s in the events of the 1940s and 1950s and examine a few of the legacies.
Gen Ed: SS, CI, US.
Grading status: Letter grade.

SOCI 68. First-Year Seminar: Immigration in Contemporary America. 3 Credits.
This seminar compares and contrasts historical and contemporary immigration to the United States and then explores the development of a migrant community in North Carolina. We will study why people migrate, how citizens respond to migration, how the federal government regulates migration, how local communities manage the settlement of its newcomers.
Gen Ed: SS, CI, GL.
Grading status: Letter grade.

SOCI 69. First-Year Seminar: Human Societies and Genomics. 3 Credits.
Familiarity with basic genetics or a social science field is helpful. This course focuses on how advances in molecular genomics over the past decades benefit sociology and other social sciences.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 70. First-Year Seminar: Difficult Dialogues. 3 Credits.
Provides tools for comprehensive, frank, civil conversations on controversial topics.
Gen Ed: SS.
Grading status: Letter grade.

SOCI 71. First-Year Seminar: The Pursuit of Happiness. 3 Credits.
Examines the nature, causes, and consequences of happiness from diverse social science perspectives. Addresses such questions as, What is happiness? Can we measure happiness? If so, how? Does money buy happiness? Does happiness vary among social groups, cultures, and nations? What is the role of happiness in formulating public policies?
Gen Ed: SS.
Grading status: Letter grade.

SOCI 71H. First-Year Seminar: The Pursuit of Happiness. 3 Credits.

The undergraduate major in sociology at UNC–Chapel Hill provides students with theoretical and methodological tools, and substantive insights for understanding human social life and institutions. The major is designed to offer its students training in critical thinking, analytical problem solving, reasoned judgment, and effective communication as well as broad knowledge of human relations and social systems, providing useful tools for a variety of careers. The curriculum and requirements are flexible enough to permit students to tailor their program to fit individual needs and interests. The undergraduate sociology program includes opportunities to put sociological ideas into practice through research by means of independent studies, theses, and internships.

Department Programs

Majors
• Sociology Major, B.A. (p. 890)
• Management and Society Major, B.A. (p. 893)

Minor
• Health and Society Minor (p. 896)
• Social and Economic Justice Minor (p. 896)

Graduate Programs
• M.A. in Sociology (http://catalog.unc.edu/graduate/schools-departments/sociology)
• Ph.D. in Sociology (http://catalog.unc.edu/graduate/schools-departments/sociology)

Student Learning Outcomes
Upon completion of the sociology program, students should be able to:

• Make links between human action/consciousness and social forces/social contexts. This will include identifying how human behavior and consciousness are shaped by the social and, in turn, how the social can be changed by individual behavior and collective action
• Identify and define major sociological concepts and apply these concepts to social reality. Examples of concepts include norms, roles, social institutions, social stratification, power, authority, class, gender, race, social capital, life course, social networks, and social control
• Propose an appropriate research design for studying a social phenomenon, including assessing the data and methods that would be appropriate for any given study of social phenomena
• Describe and compare several major theoretical perspectives used by sociologists (examples include functionalism, conflict theory, institutional theory, feminist theory, and symbolic interactionism), and be able to apply these perspectives to social phenomena (poverty, human capital, inequality, inter-group conflict, etc.)

Requirements
In addition to the program requirements, students must

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 100).

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Special Opportunities in Sociology and Management and Society

Honors in Sociology

The department attempts to identify and invite all qualified students to participate in the senior honors program. Students who are not contacted, especially double majors, transfer students, and students who declare their major in sociology relatively late in their college careers, are encouraged to speak with their major advisor or the department’s honors advisor no later than the preregistration period during the second semester of their junior year.

To graduate with honors in sociology, a major must meet the following requirements:

- At least a 3.3 cumulative grade point average in major courses and all courses taken at the University
- Completion of an honors thesis based on independent study, which may involve collection of data by the student, under the supervision of a faculty thesis advisor
- Participation in an honors seminar program during the fall and spring semesters of the senior year.

Students may receive credit for one or both senior honors research and seminar courses (SOCI 691H and SOCI 692H) depending on the extent of their thesis work.

For more information on honors, contact Professor Howard Aldrich (howard_aldrich@unc.edu), CB# 3210, 202 Hamilton Hall, (919) 962-5044.

Honors in Management and Society

A student may, as a result of distinguished work (3.3 grade point average or higher), be awarded a degree with honors or highest honors. This requires completion of a senior honors thesis. Interested students should contact the management and society office for more information. Honors students should enroll in MNGT 691H and MNGT 692H. MNGT 692H will fulfill one of the course requirements from the social context of business group listed above.

Student Clubs

The Sociology Club is a student-run, student-driven organization that may provide relevant presentations, discussions, guidance, and/or service opportunities in sociology. The Society for Human Resources Management (SHRM) is a student-run, student-driven organization that may provide relevant presentations, discussions, guidance, and/or service and intern opportunities in management and society.

Independent Study and Reading

SOCI 396 may be taken for one to three hours of course credit depending on the amount of academic work planned by the student. It is usually
taken by juniors and seniors who have completed at least two or three courses in sociology. Students may use independent study to

• Do reading and research in an area in which no course is offered
• Take advanced or more specialized coursework in a specific area of sociology

After an area of study has been selected, the student contacts a faculty member in the department whose interests are in or related to the topic area. If the faculty member agrees to direct the student’s independent study, the student needs final approval by the department’s director of undergraduate studies. It is the student’s and faculty supervisor’s responsibility to determine the amount of reading and/or outside work to be done, the frequency with which the student’s progress will be assessed, and the papers or examinations that will constitute the course requirements. An approved learning contract is necessary, and some written work involving sociological analysis is required to receive credit for SOCI 396. Students must sign up for SOCI 396 before the end of the first week of classes.

Independent Experiential Internship

Students may combine employment and study in the form of an internship program for which they receive one to three academic credits through SOCI 393. The student must assume responsibility for employment arrangements. Students may not receive credit for paid employment. The student contacts a faculty member in the department whose interests are in or related to the area of the internship. If the faculty member agrees to direct the internship, the student needs final approval by the department’s director of undergraduate studies. Credit is not provided for the internship alone; some written work involving sociological analysis is required to receive credit for SOCI 393. Because of the expectation that students doing an internship for academic credit will conduct substantive sociological analysis, it is very important that planning begin early. Students must secure all approvals for the contract before the first day of the internship.

Undergraduate Howard W. Odum Award

The Undergraduate Howard W. Odum Award is presented yearly to a graduating senior who has displayed excellence in undergraduate sociological achievement. This award was established in 1967 in honor of Professor Howard Odum, who founded and first chaired the UNC–Chapel Hill Department of Sociology. Odum was a pioneer in American sociology and a major influence on the discipline. The department faculty selects the recipient of the annual award on the basis of grade records and other demonstrations of academic talent and accomplishment as an undergraduate.

Undergraduate Research

Students interested in working with faculty on their research projects should contact the Office for Undergraduate Research for more information and also speak with the director of undergraduate studies.

Management and society is an interdisciplinary major that focuses on the institutional context and inner workings of organizations. The major prepares students for a variety of positions in private or public-sector organizations. Additionally, many students find the curriculum to be excellent preparation for a variety of business-oriented graduate and professional degree programs.

Some students have combined management and society with majors in such academic disciplines as economics, sociology, psychology, public policy, history, and political science.

Student Learning Outcomes

Upon completion of the management and society program, students should be able to:

• Identify different types of workplace conditions — e.g., the effects of communication, authority structure, levels of worker interdependence, and demographic characteristics of workers — and their consequences on worker morale and productivity
• Trace the history, implementation, and consequences of specific public policies affecting the workforces of businesses, nonprofit organizations, and governmental organizations
• Identify and explain general social, historical, and economic forces that affect job markets and job stability

Requirements

In addition to the program requirements, students must

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).
Management and Society Major, B.A.

For more information, please consult the degree requirements section of the catalog (p. 100).

Core Requirements

The major in management and society consists of 10 core courses grouped into the following four areas:

Economics:
ECON/MNGT 310 Microeconomics: Theory and Applications (by the end of the junior year) or ECON 410 Intermediate Theory: Price and Distribution

Employer-employee relations: one course from three of the five clusters below:

Cluster 1:
BUSI 405 Leading and Managing: An Introduction to Organizational Behavior

Cluster 2:
COMM 120 Introduction to Interpersonal and Organizational Communication
COMM/MNGT 223 Small Group Communication
COMM 325 Introduction to Organizational Communication

All General Education requirements must be met. Students must earn at least 21 hours of C or better grades in the major core. Some of the core courses are cross-listed.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The minor in health and society provides students with an opportunity to examine contemporary health patterns and trends characterizing U.S. society and societies around the world, as well as sociologically-based explanations for those patterns and trends. It also provides students with an understanding of the social construction of health and illness in modern societies. The minor brings together courses focused specifically on linkages between health and society, along with courses focused on social organization and social stratification, to provide students with insights into the ways that societies define health and illness and how social organization and stratification influence population health.

Neal Caren, Director of Social and Economic Justice
The minor in social and economic justice is designed for students who want to understand how to think analytically about issues of justice and how perspectives on justice can be joined with the pursuit of it. An overarching objective is fostering attitudes and knowledge about human rights; racial, ethnic, and gender equality; economic justice; democratic participation; sustainable development; diversity; and peace. It is especially appropriate for students who anticipate working in advocacy roles in nonprofit organizations, in local communities, or in governmental organizations. In these inquiries about justice, students engage scholarship in a variety of disciplines and traditions of practice.

Introduction
The major in statistics and analytics is an excellent program for students interested in statistical data science, operations research, and actuarial science, as well as in fields such as business, economics, public policy and health, psychology, and biomedicine where the decision and statistical sciences play an increasingly important role.

Particular areas in which graduates can obtain employment or continue with graduate study include

Statistics
Probability and statistics are two of the most frequently applied areas in the mathematical decision sciences. Students in this area study the mathematical theories of probability and statistics and their application to mathematical models that contain an element of uncertainty or randomness. Opportunities for employment are manifold in businesses and government agencies dealing with many branches of the natural and social sciences, including pharmacology, environmental sciences, and many others.

Operations Research
In this area, students study mathematical, statistical, and computational techniques related to decision making. Operations research is crucial in business, government, and other management areas where decisions are made by solving large, complex problems (for example, crew scheduling for airlines). In addition to their major courses, students interested in this field are encouraged to take courses in business and economics.

Actuarial Science
Actuaries are mathematicians who work primarily in businesses that involve financial risk, including the insurance industry. Students interested in this field take advanced courses in statistics, stochastic processes, and the mathematical theory of risk.

Advising
All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. After contacting the statistics and analytics program office (see contact information above), all majors and minors are also assigned an undergraduate advisor in the department. The department’s undergraduate advisors are available to discuss course planning with current majors and, if needed, minors before registration each semester. The director of undergraduate studies works with prospective majors and minors by appointment. Additional information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department’s Web site (http://www.stat-or.unc.edu) or by contacting the director of undergraduate studies.

Courses for Students from Other Departments
The Department of Statistics and Operations Research offers a variety of courses of potential value to students majoring in other disciplines. Introductory courses include STOR 113 and STOR 215, which are foundation courses in decision models, and the basic statistical courses, STOR 151 and STOR 155. At the intermediate level, STOR 305 provides an introduction to business decision models, while STOR 471 is an introductory course in actuarial science. Substantial coverage of applied statistical methods is provided in STOR 455 and STOR 556. At more advanced mathematical levels, an introduction to probability theory is provided by STOR 435, and the basic theory of statistical inference is given by STOR 555. More advanced deterministic and stochastic models of operations research are provided in STOR 415 and STOR 445.

Graduate School and Career Opportunities
Regardless of the electives chosen, the statistics and analytics degree program provides excellent preparation for graduate study. Graduates with concentrations in operations research or statistics often continue work at the graduate level in those fields or related areas such as industrial engineering, biostatistics, and environmental science, or enter business school to pursue the master’s in business administration (M.B.A.) degree.

A five-year B.S.–M.S. degree program in operations research is also an option. Interested students should consult the director of graduate studies for the operations research program.

Graduates of the statistics and analytics program will find numerous opportunities for well-paid, challenging jobs.

STOR–Statistics and Operations Research
Undergraduate-level Courses

STOR 52. First-Year Seminar: Decisions, Decisions, Decisions. 3 Credits.
In this course, we will investigate the structure of these decision problems, show how they can be solved (at least in principle), and solve some simple problems.
Gen Ed: QI.
Grading status: Letter grade.

STOR 53. FYS: Networks: Degrees of Separation and Other Phenomena Relating to Connected Systems. 3 Credits.
Networks, mathematical structures that are composed of nodes and a set of lines joining the nodes, are used to model a wide variety of familiar systems.
Gen Ed: QI.
Grading status: Letter grade.

STOR 54. First-Year Seminar: Adventures in Statistics. 3 Credits.
This seminar aims to show that contrary to common belief, statistics can be exciting and fun. The seminar will consist of three modules: statistics in our lives, randomness, and principles of statistical reasoning.
Gen Ed: QI.
Grading status: Letter grade.

STOR 55. First-Year Seminar: Risk and Uncertainty in the Real World. 3 Credits.
The aim of this class is to study the role of uncertainty in our daily lives, to explore the cognitive biases that impair us, and to understand how one uses quantitative models to make decisions under uncertainty in a wide array of fields including medicine, law, finance, and the sciences.
Gen Ed: QI.
Grading status: Letter grade.

STOR 56. First-Year Seminar: The Art and Science of Decision Making in War and Peace. 3 Credits.
This seminar will use recently assembled historical material to tell the exciting story of the origins and development of operations research during and after World War II.
Gen Ed: QI.
Grading status: Letter grade.

STOR 60. First-Year Seminar: Statistical Decision-Making Concepts. 3 Credits.
We will study some basic statistical decision-making procedures and the errors and losses they lead to. We will analyze the effects of randomness on decision making using computer experimentation and physical experiments with real random mechanisms like dice, cards, and so on.
Gen Ed: QI.
Grading status: Letter grade.

STOR 61. First-Year Seminar: Statistics for Environmental Change. 3 Credits.
Studies the Environmental Protection Agency's Criteria Document, mandated by the Clean Air Act; this document reviews current scientific evidence concerning airborne particulate matter. Students learn some of the statistical methods used to assess the connections between air pollution and mortality, and prepare reports on studies covered in the Criteria Document.
Gen Ed: QI.
Grading status: Letter grade.

STOR 62. First-Year Seminar: Probability and Paradoxes. 3 Credits.
The theory of probability, which can be used to model the uncertainty and chance that exist in the real world, often leads to surprising conclusions and seeming paradoxes. We survey and study these, along with other paradoxes and puzzling situations arising in logic, mathematics, and human behavior.
Gen Ed: QI.
Grading status: Letter grade.

STOR 63. FYS: Statistics, Biostatistics, and Bioinformatics: An Introduction to the Ongoing Evolution. 3 Credits.
This course is designed to emphasize the motivation, philosophy, and cultivation of statistical reasoning in the interdisciplinary areas of statistical science and bioinformatics.
Gen Ed: QI.
Grading status: Letter grade.

STOR 64. First-Year Seminar: A Random Walk down Wall Street. 3 Credits.
Introduces basic concepts in finance and economics, useful tools for collecting and summarizing financial data, and simple probability models for quantification of market uncertainty.
Gen Ed: QI.
Grading status: Letter grade.

STOR 66. First-Year Seminar: Visualizing Data. 3 Credits.
This seminar looks at a variety of ways in which modern computational tools allow easy and informative viewing of data. Students will also study the kinds of choices that have to be made in data presentation and viewing.
Gen Ed: QI.
Grading status: Letter grade.

STOR 72. First-Year Seminar: Unlocking the Genetic Code. 3 Credits.
Introduces students to the world of genetics and DNA and to the use of computers to organize and understand the complex systems associated with the structure and dynamics of DNA and heredity.
Gen Ed: QI.
Grading status: Letter grade.

STOR 89. First-Year Seminar: Special Topics. 3 Credits.
Special Topics Course. Contents will vary each semester.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading status: Letter grade.
STOR 112. Decision Models for Business. 3 Credits.
An introduction to the basic quantitative models of business with linear
and nonlinear functions of single and multiple variables. Linear and
nonlinear optimization models and decision models under uncertainty
will be covered.
Requisites: Prerequisite, MATH 110.
Gen Ed: QR.
Grading status: Letter grade.

STOR 113. Decision Models for Business and Economics. 3 Credits.
An introduction to multivariable quantitative models in economics.
Mathematical techniques for formulating and solving optimization and
equilibrium problems will be developed, including elementary models
under uncertainty.
Requisites: Prerequisite, MATH 110.
Gen Ed: QR.
Grading status: Letter grade.

STOR 151. Introduction to Data Analysis. 3 Credits.
Elementary introduction to statistical reasoning, including sampling,
elementary probability, statistical inference, and data analysis. STOR 151
may not be taken for credit by students who have credit for ECON 400 or
PSYC 210.
Requisites: Prerequisite, MATH 110.
Gen Ed: QR.
Grading status: Letter grade.

STOR 155. Introduction to Data Models and Inference. 3 Credits.
Data analysis; correlation and regression; sampling and experimental
design; basic probability (random variables, expected values, normal
and binomial distributions); hypothesis testing and confidence intervals
for means, proportions, and regression parameters; use of spreadsheet
software.
Requisites: Prerequisite, MATH 110.
Gen Ed: QR.
Grading status: Letter grade.

STOR 215. Foundations of Decision Sciences. 3 Credits.
Introduction to basic concepts and techniques of discrete mathematics
with applications to business and social and physical sciences. Topics
include logic, sets, functions, combinatorics, discrete probability, graphs,
and networks.
Requisites: Prerequisite, MATH 110.
Gen Ed: QR.
Grading status: Letter grade.

STOR 305. Decision Making Using Spreadsheet Models. 3 Credits.
The use of mathematics to describe and analyze large-scale decision
problems. Situations involving the allocation of resources, making
decisions in a competitive environment, and dealing with uncertainty are
modeled and solved using suitable software packages.
Requisites: Prerequisite, MATH 152 or STOR 155.
Gen Ed: QI.
Grading status: Letter grade.

STOR 320. Introduction to Data Science. 3 Credits.
Development of basic skill set for data analysis from obtaining data
to data carpentry, exploration, modeling, and communication. Topics
covered include regression, clustering, classification, algorithmic
thinking, and non-standard data objects (networks and text data).
Requisites: Prerequisite, STOR 155.
Gen Ed: QI.
Grading status: Letter grade.

STOR 358. Sample Survey Methodology. 4 Credits.
Fundamental principles and methods of sampling populations, with
emphasis on simple, random, stratified, and cluster sampling. Sample
weights, nonsampling error, and analysis of data from complex designs
are covered. Practical experience through participation in the design,
execution, and analysis of a sampling project.
Requisites: Prerequisite, BIOS 550; permission of the instructor for
students lacking the prerequisite.
Gen Ed: EE- Field Work.
Grading status: Letter grade
Same as: BIOS 664.

STOR 390. Special Topics in Statistics and Operations Research. 3
Credits.
Examines selected topics from statistics and operations research.
Course description is available from the department office.
Repeat rules: May be repeated for credit; may be repeated in the same
term for different topics; 12 total credits. 4 total completions.
Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses
STOR 415. Introduction to Optimization. 3 Credits.
Linear, integer, nonlinear, and dynamic programming, classical
optimization problems, network theory.
Requisites: Prerequisite, MATH 547.
Grading status: Letter grade.

STOR 435. Introduction to Probability. 3 Credits.
Introduction to mathematical theory of probability covering random
variables; moments; binomial, Poisson, normal and related distributions;
generating functions; sums and sequences of random variables; and
statistical applications.
Requisites: Prerequisite, MATH 233.
Gen Ed: QI.
Grading status: Letter grade
Same as: MATH 535.

STOR 445. Stochastic Modeling. 3 Credits.
Introduction to Markov chains, Poisson process, continuous-time Markov
chains, renewal theory. Applications to queueing systems, inventory, and
reliability, with emphasis on systems modeling, design, and control.
Requisites: Prerequisite, BIOS 660 or STOR 435.
Grading status: Letter grade.

STOR 455. Methods of Data Analysis. 3 Credits.
Review of basic inference; two-sample comparisons; correlation;
introduction to matrices; simple and multiple regression (including
significance tests, diagnostics, variable selection); analysis of variance;
use of statistical software.
Requisites: Prerequisite, STOR 155.
Grading status: Letter grade.

STOR 465. Simulation for Analytics. 3 Credits.
Introduces concepts of random number generation, random variate
generation, and discrete event simulation of stochastic systems.
Students perform simulation experiments using standard simulation
software.
Requisites: Prerequisites, STOR 155 and 435.
Grading status: Letter grade.
STOR 471. Long-Term Actuarial Models. 3 Credits.
Probability models for long-term insurance and pension systems that involve future contingent payments and failure-time random variables. Introduction to survival contingent distributions and measures of interest and annuities-certain.
Requisites: Prerequisite, STOR 435.
Gen Ed: QI.
Grading status: Letter grade.

STOR 472. Short Term Actuarial Models. 3 Credits.
Short term probability models for potential losses and their applications to both traditional insurance systems and conventional business decisions. Introduction to stochastic process models of solvency requirements.
Requisites: Prerequisite, STOR 435.
Grading status: Letter grade.

STOR 493. Internship in Statistics and Operations Research. 3 Credits.
Requires permission of the department. Statistics and analytics majors only. An opportunity to obtain credit for an internship related to statistics, operations research, or actuarial science. Pass/Fail only. Does not count toward the statistics and analytics major or minor.
Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading status: Pass/Fail.

STOR 496. Undergraduate Reading and Research in Statistics and Operations Research. 1-3 Credits.
Permission of the director of undergraduate studies. This course is intended mainly for students working on honors projects. May be repeated for credit.
Gen Ed: EE: Mentored Research.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.
Grading status: Letter grade.

STOR 555. Mathematical Statistics. 3 Credits.
Functions of random samples and their probability distributions, introductory theory of point and interval estimation and hypothesis testing, elementary decision theory.
Requisites: Prerequisite, STOR 435.
Grading status: Letter grade.

STOR 556. Advanced Methods of Data Analysis. 3 Credits.
Topics selected from: design of experiments, sample surveys, nonparametrics, time-series, multivariate analysis, contingency tables, logistic regression, and simulation. Use of statistical software packages.
Requisites: Prerequisites, STOR 435 and 455.
Grading status: Letter grade.

STOR 565. Machine Learning. 3 Credits.
Introduction to theory and methods of machine learning including classification; Bayes risk/rule, linear discriminant analysis, logistic regression, nearest neighbors, and support vector machines; clustering algorithms; overfitting, estimation error, cross validation.
Requisites: Prerequisites, STOR 215 or MATH 381, and STOR 435.
Grading status: Letter grade.

STOR 612. Models in Operations Research. 3 Credits.
Required preparation, calculus of several variables, linear or matrix algebra. Formulation, solution techniques, and sensitivity analysis for optimization problems which can be modeled as linear, integer, network flow, and dynamic programs. Use of software packages to solve linear, integer, and network problems.
Grading status: Letter grade.

STOR 614. Linear Programming. 3 Credits.
Required preparation, calculus of several variables, linear or matrix algebra. The theory of linear programming, computational methods for solving linear programs, and an introduction to nonlinear and integer programming. Basic optimality conditions, convexity, duality, sensitivity analysis, cutting planes, and Karush-Kuhn-Tucker conditions.
Grading status: Letter grade.

STOR 634. Measure and Integration. 3 Credits.
Grading status: Letter grade.

STOR 635. Probability. 3 Credits.
Requisites: Prerequisite, STOR 634; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade
Same as: MATH 635.

STOR 641. Stochastic Models in Operations Research I. 3 Credits.
Requisites: Prerequisite, STOR 435.
Grading status: Letter grade.

STOR 642. Stochastic Models in Operations Research II. 3 Credits.
Requisites: Prerequisite, STOR 641.
Grading status: Letter grade.

STOR 654. Statistical Theory I. 3 Credits.
Grading status: Letter grade.

STOR 655. Statistical Theory II. 3 Credits.
Point estimation. Hypothesis testing and confidence sets. Contingency tables, nonparametric goodness-of-fit. Linear model optimality theory: BLUE, MVU, MLE. Multivariate tests. Introduction to decision theory and Bayesian inference.
Requisites: Prerequisite, STOR 654.
Grading status: Letter grade.

STOR 664. Applied Statistics I. 3 Credits.
Grading status: Letter grade.
STOR 665. Applied Statistics II. 3 Credits.
ANOVA (including nested and crossed models, multiple comparisons).
GLM basics: exponential families, link functions, likelihood, quasi-
likelihood, conditional likelihood. Numerical analysis: numerical linear
algebra, optimization, GLM diagnostics. Simulation: transformation,
rejection, Gibbs sampler.
Requisites: Prerequisite, STOR 664; permission of the instructor for
students lacking the prerequisite.
Grading status: Letter grade.

STOR 672. Simulation Modeling and Analysis. 3 Credits.
Introduces students to modeling, programming, and statistical analysis
applicable to computer simulations. Emphasizes statistical analysis
of simulation output for decision-making. Focuses on discrete-event
simulations and discusses other simulation methodologies such as
Monte Carlo and agent-based simulations. Students model, program, and
run simulations using specialized software. Familiarity with computer
programming recommended.
Requisites: Prerequisites, STOR 555 and 641.
Grading status: Letter grade
Same as: COMP 672.

STOR 691H. Honors in Statistics and Analytics. 3 Credits.
Permission of the department. Majors only. Individual reading, study, or
project supervised by a faculty member.
Gen Ed: EE- Mentored Research.
Grading status: Letter grade.

STOR 692H. Honors in Statistics and Analytics. 3 Credits.

Department Programs
Major

• Statistics and Analytics Major, B.S. (p. 904)

Minor

• Statistics and Analytics Minor (p. 906)

Graduate Programs

- M.S. in Statistics and Operations Research (http://catalog.unc.edu/
  graduate/schools-departments/statistics-operations-research)
- Ph.D. in Statistics and Operations Research (http://catalog.unc.edu/
  graduate/schools-departments/statistics-operations-research)

Student Learning Outcomes

Upon completion of the statistics and analytics program, students should
be able to:

- Demonstrate knowledge of the basic foundations of calculus,
  probability, statistics, and discrete mathematics
- Apply the analytical and computational skills needed to formulate
  and solve basic problems in the decision sciences
- Communicate the major ideas of the decision sciences, orally and in
  writing
- Find appropriate employment with academic institutions, government
  agencies, and industry, or continue their education in related graduate
  programs

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and
  credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core
  requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of
the catalog (p. 100).

### Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first two years, students are required to complete the standard calculus sequence as well as introductory courses in statistics, operations research, and computer science. At the beginning of their third year, students take advanced courses in statistics, probability, and operations research. They have a great deal of flexibility in tailoring their program to meet their individual interests.

Prospective statistics and analytics majors are encouraged to take STOR 155, and STOR 215 or MATH 381 as early as possible in their college careers. Each has a prerequisite of MATH 110 or its equivalent and may be taken before, or concurrently with, MATH 231. Students wishing to prepare for an actuarial career should include STOR 471, STOR 472, STOR 555 and STOR 556 from Group A in their program and take ECON 410 and ECON 420 and BUSI 408 and BUSI 588 as electives. Students who plan to attend graduate school in statistics, operations research, analytics, or a related field, should include in their program COMP 401, STOR 555, STOR 565, and MATH 521.

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

It is recommended that all statistics and analytics majors take ECON 101 as a social and behavioral sciences Approaches course. Students interested in the actuarial profession also should take BUSI 101 as a general elective.

Dual Bachelor’s – Master’s Degree Program

The Department of Statistics and Operations Research offers a dual bachelor’s – master’s degree program. Interested students should consult the graduate program director.

Special Opportunities in Statistics and Analytics

Honors in Statistics and Analytics

Candidates for honors or highest honors must secure approval from the program director. They must take STOR 691H and STOR 692H, and maintain an overall grade point average of 3.3 and a grade point average in statistics and analytics courses of at least 3.3 at the end of the semester preceding the semester in which they graduate.

Departmental Involvement

The Department of Statistics and Operations Research sponsors Carolina’s Actuarial Student Organization (CASO), for students interested in careers in the actuarial sciences. CASO organizes study groups for the actuarial exams, sponsors talks by professional actuaries, keeps members aware of employment opportunities, and maintains contact with alumni and corporations in the field. The department is also a co-sponsor of Carolina Analytics and Data Science (CADS) student organization, which aims to foster communication among the students who are interested in careers in data science and analytics and contribute to their intellectual growth by hosting speakers from industry as well as academia.

Experiential Education

When arranged in advance with a supervising faculty member, STOR 493 can be used to earn credit for appropriate work experience in the summer or during the academic year. STOR 493 satisfies the experiential education requirement. Students interested in STOR 493 should secure approval from the program director before starting their work. STOR 496 can also be used to satisfy the experiential education requirement.

Undergraduate Awards

Two undergraduate awards for graduating seniors are given each year by the statistics and analytics program. One is the Statistics and Analytics Award, given to the outstanding graduating senior, and the second is the W. Robert Mann Award, given for excellence in actuarial science. Plaques bearing the names of winners are located in the undergraduate study room in Hanes Hall.

Undergraduate Research

Undergraduate research under the direction of faculty members from the Department of Statistics and Operations Research is offered through the independent study and research course, STOR 496, and the senior honors thesis courses, STOR 691H and STOR 692H.

Introduction
The Department of Women’s and Gender Studies offers a feminist interdisciplinary course of study that expands the process of knowledge production to include considerations of gender, race, class, and sexuality in the United States and internationally. Students will be exposed to recent scholarship on feminist theory and the intellectual, economic, political, and artistic contributions of women and feminist movements in various historical and cultural contexts.

Numerous departments across campus offer courses that focus on the study of women and/or gender. Most of these courses are cross-listed as women’s and gender studies courses; others are taught as special sections of an established course and are identified separately each semester.

Advising
All majors and minors have a primary academic advisor in Steele Building. Students whose first major is women’s and gender studies are required to meet with a faculty member in the department before they can register. All other majors and minors are strongly encouraged to meet with a faculty member as well. The department’s director of undergraduate studies also works with current and prospective majors and minors by appointment (see “Contact Information” above). Departmental academic advising is particularly important for those majors who are considering going on to graduate school. All students are encouraged to review their Tar Heel Tracker each semester. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department’s Web site (http://womensstudies.unc.edu).

WGST—Women’s and Gender Studies
Undergraduate-level Courses

WGST 51. First-Year Seminar: Race, Sex, and Place in America. 3 Credits.
This first-year seminar will expose students to the complex dynamics of race, ethnicity, and gender and how these have shaped the American city since 1945.
Gen Ed: SS.
Grading status: Letter grade
Same as: PLAN 52.

WGST 56. First-Year Seminar: Writing Women in Modern China. 3 Credits.
Compares the rhetoric of equality between the sexes presented by late Qing, May Fourth, and communist thinkers to perspectives on gender and society by 20th-century Chinese women writers.
Gen Ed: LA, BN.
Grading status: Letter grade
Same as: ASIA 56.

WGST 56H. First-Year Seminar: Writing Women in Modern China. 3 Credits.
Compares the rhetoric of equality between the sexes presented by late Qing, May Fourth, and communist thinkers to perspectives on gender and society by 20th-century Chinese women writers.
Gen Ed: LA, BN.
Grading status: Letter grade
Same as: ASIA 56H.

WGST 64. Plantation Lullabies: Literature by and about African American Women. 3 Credits.
This course introduces students to different ways of understanding plantation culture and how that culture persists today, using close reading strategies and gender analysis. The class will examine film, literature, music, and poetry.
Gen Ed: LA, NA.
Grading status: Letter grade.

Professor
Silvia Tomášková.
WGST 66. First-Year Seminar: Growing Up Girl, Globally. 3 Credits.
Course introduces students to literature by women from around the world, particularly stories of a girl's transition to womanhood. Close reading strategies are used to examine films, novels, and poetry.
Gen Ed: LA, GL.
Grading status: Letter grade.

WGST 68. First-Year Seminar: Assumed Identities: Performance in Photography. 3 Credits.
Uses photography and its aspects of role playing, performance, and documentation to understand the construction of identity. Looks at historical and contemporary photographers who use assumed identities to explore their changing identity roles and challenge society's stereotypes. Individual and group performance/photography projects working with still photography, video, and the Internet.
Gen Ed: VP.
Grading status: Letter grade.

WGST 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading status: Letter grade.

WGST 101. Introduction to Women's Studies. 3 Credits.
An interdisciplinary exploration of the intersections of gender, race, class, and sexuality in American society and internationally. Topics include work, sexuality, gender relations, and images of women in literature, art, and science, and the history of feminist movements. Course readings are drawn from the humanities and the social sciences.
Gen Ed: SS, US.
Grading status: Letter grade.

WGST 111. Introduction to Sexuality Studies. 3 Credits.
This course introduces students to the broad range of disciplinary perspectives used by the field of sexuality studies to study, teach, and create knowledge about human sexuality in various functions and forms.
Gen Ed: SS, NA, US.
Grading status: Letter grade.

WGST 124. Sex and Gender in Society. 3 Credits.
Examination of the social differentiation between men and women. Attention to the extent, causes, and consequences of sexual inequality and to changes in sex roles and their impact on interpersonal relations.
Gen Ed: SS.
Grading status: Letter grade
Same as: SOCI 124.

WGST 127. Iranian Women Writers. 3 Credits.
This course introduces students to Iranian women's issues through their literary works. To contextualize, we will read articles and essays on the historical, cultural, social, political, and economic backgrounds. In order to approach these literary works in a more effective manner, we will also be reading various secondary materials.
Gen Ed: LA, BN, CI.
Grading status: Letter grade
Same as: ASIA 127.

WGST 140. Introduction to Gay and Lesbian Culture and Literature. 3 Credits.
Introduces students to concepts in queer theory and recent sexuality studies. Topics include queer lit, AIDS, race and sexuality, representations of gays and lesbians in the media, political activism/literature.
Gen Ed: LA, US.
Grading status: Letter grade
Same as: ENGL 140.

WGST 144. Women in the United States from Settlement to Present. 3 Credits.
This course will survey the history of women, gender relations, and notions of sex difference in the United States from the colonial era to present times, with a special emphasis on women's varied experiences and expectations across divisions of class, race, and region. Key themes will include work, politics, citizenship, reproduction, sociability, and sexuality.
Gen Ed: HS, US.
Grading status: Letter grade
Same as: HIST 144.

WGST 188. Introduction to Women and Music. 3 Credits.
The role of women in performance, composition, patronage, and the music business across a wide range of repertories.
Gen Ed: VP, GL, NA.
Grading status: Letter grade
Same as: MUSC 188.

WGST 200. Gender and Sexuality in Africa. 3 Credits.
Introduction to the study of gender and sexuality in African societies. Theoretical questions relating to the cross-cultural study of gender will be a primary focus. Topics include historical perspectives on the study of kinship and family in Africa and the impact of colonialism and other forms of social change.
Gen Ed: SS, BN.
Grading status: Letter grade
Same as: AAAD 200.

WGST 202. Introduction to Feminist Thought. 3 Credits.
Introduces students to feminist theorizing on debates over gender-based oppression. Gives students tools to pursue academic work in women's studies and to understand the relationships among concepts, activism, and change. Required for majors. Strongly recommended for minors.
Requisites: Prerequisite, WGST 101.
Grading status: Letter grade.

WGST 211. Introduction to Latina Feminisms: Literature, Theory, and Activism. 3 Credits.
Through a variety of texts that span the 20th and 21st centuries, students will be introduced to key concepts, figures, and movements in Latina feminisms. Emphasis will be placed on a diversity of historical and ethno-national perspectives as well as academic interdisciplinarity.
Gen Ed: LA, US.
Grading status: Letter grade.

WGST 217. Women and Politics. 3 Credits.
A comparison of men and women as political actors at the mass and elite level in America. Topics considered include the "gender gap," the women's movement, abortion, and the Equal Rights Amendment.
Gen Ed: SS, US.
Grading status: Letter grade
Same as: POLI 217.

WGST 218. Politics of Sexuality. 3 Credits.
Examines the role of lesbians, gays, and bisexuals as political actors in the United States, both as individuals and collectively as a social movement.
Gen Ed: SS.
Grading status: Letter grade
Same as: POLI 218.
WGST 220. Women in the Middle Ages. 3 Credits.
This interdisciplinary course examines representations of women, concepts of gender, and women's participation in the economic, political, religious, and cultural life of the Middle Ages. Discussion and texts in English.
Gen Ed: LA, NA, WB.
Grading status: Letter grade
Same as: GERM 220.

WGST 222. Prehistoric Art. 3 Credits.
A survey of prehistoric art in Africa, the Americas, Australia, and Europe.
Gen Ed: BN, WB.
Grading status: Letter grade
Same as: ANTH 222.

WGST 224. Introduction to Gender and Communication. 3 Credits.
Examines multiple relationships among gender, communication and culture. Explores how communication creates gender and shapes relationships and how communication reflects, sustains, and alters cultural views of gender.
Gen Ed: CI, US.
Grading status: Letter grade
Same as: COMM 224.

WGST 224H. Introduction to Gender and Communication. 3 Credits.
Examines multiple relationships among gender, communication and culture. Explores how communication creates gender and shapes relationships and how communication reflects, sustains, and alters cultural views of gender.
Gen Ed: CI, US.
Grading status: Letter grade
Same as: COMM 224H.

WGST 225. Space, Place, and Difference. 3 Credits.
Gender, race, and class are examined in terms of the spatial patterns of everyday life, regional patterns, and global patterns. (GHA)
Gen Ed: SS.
Grading status: Letter grade
Same as: GEOG 225.

WGST 230. Women in Contemporary Art: A Field Study. 3 Credits.
This seminar will explore the lives and work of women in contemporary art through a combination of readings, films, interviews, studio visits with area artists, and visits to museums and galleries. We will engage questions of identity, gender, sexuality, politics, and cultural representation and how these affect the creativity, media, and final output of women artists.
Gen Ed: VP, US.
Grading status: Letter grade.

WGST 231. Gender and Popular Culture. 3 Credits.
This course examines the ways in which gender and sexual identities are represented and consumed in popular culture.
Gen Ed: VP, US.
Grading status: Letter grade.

WGST 232. Identity in Transit: Performing the Self through Photography. 3 Credits.
This course asks how gendered identity is shaped over time in relation to different cultural, social, and historical circumstances. Examines the practices of photographers who present themselves and others in assumed identities to comment on shifting social roles and challenge stereotypes. Students use photography to document performance and create self-portraits.
Gen Ed: VP.
Grading status: Letter grade.

WGST 233. Introduction to Latina Literature. 3 Credits.
This course will provide an introduction to Latina literature. We will read a variety of genres from a range of ethno-national perspectives and examine such topics as immigration, identity, mother-daughter relationships, and sexuality.
Gen Ed: LA, US.
Grading status: Letter grade.

WGST 240. Women in Greek Art and Literature. 3 Credits.
Course examines law, religion, medicine, social practices, and ideologies in the lives of women in ancient Greece, from Homer to Hellenistic Egypt, using literature, art, and epigraphy.
Gen Ed: LA, NA, WB.
Grading status: Letter grade
Same as: CLAS 240.

WGST 240H. Women in Greek Art and Literature. 3 Credits.
Course examines law, religion, medicine, social practices, and ideologies in the lives of women in ancient Greece, from Homer to Hellenistic Egypt, using literature, art, and epigraphy.
Gen Ed: LA, NA, WB.
Grading status: Letter grade
Same as: CLAS 240H.

WGST 241. Women in Ancient Rome. 3 Credits.
Course examines the life of women in ancient Rome, from the first beginnings of the organized community in Rome through the early Empire, a period of about 900 years. Also explores aspects of the lives of women in provinces governed by Rome.
Gen Ed: LA, NA, WB.
Grading status: Letter grade
Same as: CLAS 241.

WGST 241H. Women in Ancient Rome. 3 Credits.
Course examines the life of women in ancient Rome, from the first beginnings of the organized community in Rome through the early Empire, a period of about 900 years. Also explores aspects of the lives of women in provinces governed by Rome.
Gen Ed: LA, NA, WB.
Grading status: Letter grade
Same as: CLAS 241H.

WGST 242. Sex and Gender in Antiquity. 3 Credits.
Exploration of gender constructs, what it meant to be a woman or a man, in antiquity, as revealed in literary, historical, and archaeological sources. Readings from Homer, Euripides, Plato, Ovid, Virgil, Juvenal, Petronius, and other ancient authors.
Gen Ed: HS, NA, WB.
Grading status: Letter grade
Same as: CLAS 242.

WGST 244. Gender and Sexuality in Western Christianity. 3 Credits.
An examination of the development of teachings on issues of gender and sexuality through the history of Western Christianity, with particular focus on contemporary controversies.
Gen Ed: HS, NA.
Grading status: Letter grade
Same as: RELI 244.

WGST 244H. Gender and Sexuality in Western Christianity. 3 Credits.
An examination of the development of teachings on issues of gender and sexuality through the history of Western Christianity, with particular focus on contemporary controversies.
Gen Ed: HS, NA.
Grading status: Letter grade
Same as: RELI 244H.
WGST 248. Women in Opera. 3 Credits.
An examination and exploration of women's changing roles and influence, onstage and behind the scenes, in the history of opera.
Gen Ed: NA.
Grading status: Letter grade
Same as: MUSC 248.

WGST 249. Intersectionality: Race, Gender, Sexuality, and Social Justice. 3 Credits.
The first goal of this super course is to give students real tools for how to address multiple modes of difference and identity formations like race, gender, class, and sexuality.
Gen Ed: CI, US.
Grading status: Letter grade
Same as: AMST 248, ENGL 248, POLI 248.

WGST 250. Women in German Cinema. 3 Credits.
Introduction to feminist aesthetics and film theory by the examination of the representation of women in German cinema from expressionism to the present. All materials and discussions in English.
Gen Ed: VP, NA.
Grading status: Letter grade
Same as: GERM 250.

WGST 253. A Social History of Jewish Women in America. 3 Credits.
Course examines the history and culture of Jewish women in America from their arrival in New Amsterdam in 1654 to the present and explores how gender shaped this journey.
Gen Ed: HS, NA.
Grading status: Letter grade
Same as: AMST 253, JWST 253.

WGST 254. Women in the Visual Arts I. 3 Credits.
This course analyzes the role of women in Western art as art producers and consumers of art and looks at how women have been represented.
Gen Ed: VP, CI, NA.
Grading status: Letter grade
Same as: ARTH 254.

WGST 255. Towards Emancipation? Women in Modern Europe. 3 Credits.
This course examines and compares the situation of women in politics, the work force, society and family from the French Revolution to the new women's movement in the 1970s with a focus on Britain, France and Germany. One major theme is the history of the struggle for women's emancipation.
Gen Ed: HS, NA.
Grading status: Letter grade
Same as: HIST 259, EURO 259.

WGST 259. Women in Sports. 3 Credits.
A broad based perspective of women's participation in sport including history of participation, physiological differences, and socio-cultural influences including work, politics, family, economics, and gender roles and identity.
Gen Ed: SS.
Grading status: Letter grade
Same as: EXSS 260.

WGST 263. Literature and Gender. 3 Credits.
Intensive study, focused on gender issues of criticism and writing.
Gen Ed: LA.

The Department of Women's and Gender Studies offers a feminist interdisciplinary course of study that expands the process of knowledge production to include considerations of gender, race, class, and sexuality in the United States and globally. Students are exposed to scholarship on feminist theory and the intellectual, economic, political, and artistic contributions of women and feminist movements in various historical and cultural contexts.

Department Programs
Major

• Women’s and Gender Studies Major, B.A. (p. 918)

Minors

• Women’s and Gender Studies Minor (p. 921)
• Sexuality Studies Minor (p. 923)

Student Learning Outcomes
Upon completion of the women's and gender studies program, students should be able to:

• Demonstrate knowledge of the major concepts, theoretical perspectives, empirical findings, and historical trends in women's and gender studies
• Conduct and present Interdisciplinary research in the area of women's and gender studies in an effective manner
• Apply the principals and insights of women's and gender studies to personal, social, and community issues
• Think critically and analytically about current perspectives in women's and gender studies
Requirements

In addition to the program requirements, students must:

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC-Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC-Chapel Hill
- earn a minimum of 18 hours of C or better in the major course requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 100).

### Special Opportunities in Women’s and Gender Studies

**Honors in Women’s and Gender Studies**

The honors program is designed to encourage independent thought and research among outstanding undergraduate majors in women’s and gender studies. Students must take WGST 691H and WGST 692H. Students must plan their project with a faculty advisor and secure permission from both the chair of the department and the faculty advisor. Guidelines and forms for the initial contract are available in the department’s office and on our Web site (https://womensstudies.unc.edu). Students interested in the honors thesis must have at least a 3.3 overall grade point average and a 3.5 or greater grade point average in courses taken for the major.

The minor in sexuality studies coordinates scholars and students from a range of disciplines to study, teach, and create knowledge about human sexuality in its myriad functions and forms.

Department Programs

Major

- Women’s and Gender Studies Major, B.A. (p. 918)

Minors

- Women’s and Gender Studies Minor (p. 921)
• Sexuality Studies Minor (p. 923)

Requirements
In addition to the program requirements listed below, students must:

• take at least nine hours of their minor course requirements at UNC–Chapel Hill
• earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 100).

The five courses required for the minor must include at least one core course and involve work in at least three different departments or curricula.

Introduction

Pharmacists are the drug-information experts and are among the most trusted and most accessible of health care professionals. Generalists practice in a variety of environments, including community pharmacies, health-system pharmacies, and the pharmaceutical and health care industries. Specialty pharmacy practitioners pursue training beyond the doctor of pharmacy (Pharm.D.) through residencies and fellowships and may ultimately practice in areas such as pediatrics, geriatrics, cardiology, oncology, ambulatory/community care, and others. Pharmacists evaluate complex approaches to drug therapy and advise patients and other health care professionals on strategies to achieve the best results from pharmaceutical care. Other pharmacists are engaged in practices that monitor, manage, and implement policies affecting drug prescribing and use across large groups of patients, such as those enrolled in a health plan.

The Pharm.D. curriculum emphasizes active engagement of students in the classroom, fosters scientific inquiry and innovation, and immerses students in patient care early and continually in their education. During the professional program, up to 15 months are spent in professional practice experiences under the direct supervision of practicing pharmacists. More information on the curriculum can be found on the school’s Web site (http://www.pharmacy.unc.edu).

Advising

Advising in the UNC Eshelman School of Pharmacy is a form of teaching. Advising fosters within student pharmacists skills, abilities, and dispositions that encourage directed career exploration as well as ongoing professional development, lifelong learning, and growth. Faculty advisors serve as content experts and mentors and are assigned to new students prior to the first semester of study. To fully maximize both curricular and cocurricular experiences, students are encouraged to schedule consistent and ongoing advising appointments throughout the course of their study. Professional advisors are also available to assist with student success strategies, decision making, and goal setting. Advising-related inquiries can be addressed to the Office of Curricular and Student Affairs (http://pharmacy.unc.edu/osa) in 109 Beard Hall.

Facilities

The UNC Eshelman School of Pharmacy houses state-of-the-art teaching and research laboratory facilities. The School utilizes cutting-edge video teleconferencing and recording equipment used primarily for delivery of instruction to the satellite campus but also available to graduate and continuing education.

Graduate School and Career Opportunities

Graduate degrees offered through the UNC Eshelman School of Pharmacy are administered by the Graduate School of the University of North Carolina at Chapel Hill. Students may pursue graduate study in pharmaceutical sciences with concentrations in molecular pharmaceutics, pharmacotherapy and experimental therapeutics, chemical biology and medicinal chemistry, or pharmaceutical outcomes and policy. A master of science in pharmaceutical sciences with a specialization in health-system pharmacy administration is also offered through the school.

Pharmacy offers a variety of opportunities for career advancement and job security. Because pharmacy education draws from the chemical, physical, biological, and behavioral sciences to develop its knowledge base, pharmacists can contribute to the rational use of medications in many settings. Pharmacists work in all areas of the health care system, including

- Community pharmacy, as a practitioner or a manager in a retail pharmacy, clinic, or office practice
- Health system pharmacy, as practitioner, supervisor, or manager in large or small hospitals, nursing homes, extended care facilities, and health-maintenance organizations
- Pharmaceutical industry, in positions involving research, production, product development, product marketing, and drug information
- Government, in the United States Public Health Service, Veterans Administration, Drug Enforcement Administration, Food and Drug Administration, and military services

Admission Requirements

Students are admitted to the Pharm.D. program (the four-year program of professional studies) in the UNC Eshelman School of Pharmacy upon completion of at least two years (the prepharmacy years) of collegiate work in the General College of UNC-Chapel Hill or at any accredited institution of higher learning in the United States. Criteria for admission include satisfactory completion (with a grade of C- or better) of all prepharmacy courses prior to beginning the pharmacy program. Other considerations for admission include overall quality of academic performance in prepharmacy courses, Pharmacy College Admissions Test (PCAT) scores, interview scores, involvement in extracurricular activities, and two letters of recommendation.

Application Procedures

Students applying to the UNC Eshelman School of Pharmacy must submit complete applications to the Pharm.D. program through the Pharmacy College Application Service (PharmCAS) and the school. For application deadlines, processes, and procedures, visit the Web site (http://www.pharmacy.unc.edu).

Since pharmacy students are health care professionals, the UNC Eshelman School of Pharmacy requires that accepted applicants receive immunizations and testing in addition to those required for the general University student population. To enroll in this program, a student must have been fully immunized against hepatitis B. Note that the hepatitis B vaccination series takes a minimum of six months to complete, so students should start the series no later than December 15 of the year in which they plan to enroll. Students will also need to be tested for tuberculosis (TB) exposure, as well as varicella (chickenpox) and hepatitis B immunity.
Prerequisites

All prerequisite courses must be completed with a letter grade of C minus or better (not Pass/Fail).

Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

1. Only required for students completing prerequisite courses at UNC-Chapel Hill
2. Two semesters of organic chemistry should be a prerequisite for the course
3. Not required for students completing CHEM 241/241L at UNC-Chapel Hill

General Education Prerequisites

Students must complete all Foundations and Approaches requirements, the U.S. diversity Connections requirement, and the global issues Connections requirement.

Program of Study

The UNC Eshelman School of Pharmacy offers graduate education and training programs in addition to the clinical doctor of pharmacy practice degree (Pharm.D.). The school offers an M.S. in pharmaceutical sciences with a concentration in health-system pharmacy administration and a Ph.D. in pharmaceutical sciences with concentrations in pharmacoengineering and molecular pharmaceutics, pharmacotherapy and experimental therapeutics, chemical biology and medicinal chemistry, and pharmaceutical outcomes and policy.

The Pharm.D. grants entry into the profession and practice of pharmacy. It is neither an undergraduate nor a graduate degree program, but rather a professional degree such as an M.D. or D.D.S. The Pharm.D. curriculum requires a minimum of two years to satisfy prerequisite requirements, normally completed in the General College, followed by four years of professional coursework. Students are subject to the requirements in place when they are admitted to the program.

The doctor of pharmacy program is accredited by the Accreditation Council for Pharmacy Education. Graduates of the school’s Pharm.D. program may sit for the state licensure examination for pharmacists.

The school has a satellite campus for the Pharm.D. program at Asheville, NC. The first students were enrolled in this satellite program in August 2011. Students based at the satellite campus receive the same instruction and are subject to the same admission and progression standards as students on the Chapel Hill campus.

Students graduating from the UNC Eshelman School of Pharmacy are expected to develop the following core competencies through coursework, immersion experiences (practica), and cocurricular experiences:

1. In-depth knowledge and proficient skills in the pharmaceutical sciences and the practice of pharmacy: Demonstrate an in-depth understanding of medicines, human health, and health care, and apply the principles and practice of pharmacy to advance human health and health systems
2. Accessing and analyzing information: Identify, locate, critically evaluate, and process information to arrive at an informed opinion
3. Critical thinking and problem solving: Engage in the comprehensive exploration of issues, ideas, and events to identify, prevent, or solve problems
4. Communication: Effectively develop, express, and listen to ideas that inform, inspire, or create focus
5. Collaboration and influence: Work effectively with others to create networks and groups that respect differences and make progress toward a common goal
6. Adaptability: Demonstrate a willingness and ability to change in order to fit new surroundings, ideas, trends, and technologies
7. Initiative: Be self-directed; seek out new opportunities, ideas, and strategies; take responsibility for implementing plans and ideas
8. Curiosity and inquisitiveness: Demonstrate a desire to learn and understand more than is currently understood
9. Professionalism and ethical behavior: Uphold the highest standards of professional and ethical behavior and act appropriately, thoughtfully, and with integrity at all times

In addition, pharmacy graduates must pass national and state licensing examinations in order to practice as pharmacists.

Program Requirements

The program requirements for the UNC Eshelman School of Pharmacy can be found on the school’s Web site (http://www.pharmacy.unc.edu).

Student Organizations

Pharmacy students are active in campus and community activities through their involvement with approximately 15 pharmacy student organizations. They belong to groups that link them to such national professional organizations as the American Pharmacists Association and the American Society of Health System Pharmacists. Pharmacy students provide medication reviews for elderly citizens, staff clinics for indigent patients, and participate in health fairs on campus and in local malls or corporations. Several times each year trips are planned to attend meetings across the nation. Student leadership is fostered through intentional involvement in student organizations and enrolled students are highly encouraged to invest in the opportunities offered through student organizations.

Experiential Education

The school provides doctor of pharmacy students with a structured, supervised program of participation in the practice of pharmacy. Students gain experience in problem solving and providing patient care while applying the foundational and pharmaceutical sciences learned in the classroom and laboratories. Under the supervision of faculty and selected preceptors, students learn to make decisions based on professional knowledge and judgment. The school requires up to 15 months of full-time precepted practice with early practice experiences in the second and third professional year, followed by nine months of advanced practice experiences in the fourth professional year. The experiential education requirements of the program meet the North Carolina Board of Pharmacy experience requirement (1,500 hours) to sit for the licensure examination.

Residencies and Fellowships

To increase the depth of their education, many Pharm.D. graduates seek residency training in pharmacy practice. Pharmacy residencies, like medical residencies, provide stipends for further clinical training. There are over 4,000 pharmacy residency positions in the United States with sites in hospitals, community pharmacies, and some specialized facilities. Residency programs may be taken in general pharmacy practice and in specialty areas such as pediatrics, infectious diseases, oncology, pharmacy, and many others. Some Pharm.D. graduates seek additional training in research methods in drug development, pharmacokinetics, pharmacoeconomics, or pharmacotherapy. Postgraduate fellowship programs involve advanced training in these areas and may occur at academic centers or in the pharmaceutical industry. Like residencies, they are paid positions.

Introduction
The UNC Gillings School of Global Public Health provides exceptional teaching, conducts ground-breaking research, and delivers dedicated service to people across North Carolina, throughout the United States, and around the world. Ranked the top public school of public health by U.S. News and World Report for 2016 and second among all public health schools, the school’s mission is to improve public health, promote individual well-being, and eliminate health inequities.

The school, accredited by the Council on Education for Public Health, and located in close proximity to UNC–Chapel Hill’s schools of medicine, nursing, dentistry, and pharmacy, offers undergraduate and graduate programs on campus and through state-of-the-art online-education programs. The Michael Hooker Research Center and many renovated laboratories and classrooms provide an environment highly conducive to learning about public health and discovering new ways to improve and promote health worldwide.

Beyond campus, we teach, conduct research, and serve communities across our state and nation and around the world. Our Research, Innovation and Global Solutions (https://sph.unc.edu/solutions/research-innovation-and-global-solutions) organizes the school’s global health activities and enables us to anticipate new public health challenges, quickly find solutions, and accelerate the delivery of best practices to improve people’s lives. The school's service and outreach arm, the North Carolina Institute for Public Health (http://sph.unc.edu/nciph/nciph-home), brings public health scholarship and practice communities together.

To learn more about the public health field, visit the Association of Schools and Programs of Public Health (http://asph.org/discover). The site defines public health, describes its impact on our lives, and introduces a variety of public health careers.

Admission
The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Four majors are available to undergraduate students: biostatistics, environmental health sciences, health policy and management, and nutrition. Each of these combines features of a broad-based education with concentrated study in a specific public health discipline. The programs prepare individuals for preprofessional positions in health-related fields and provide a firm base for graduate study. Students are permitted to pursue two majors in the school. Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, requirements described in this catalog particularly apply to students admitted to the school during the 2017–2018 academic year. In addition to the information presented below please see the Gillings Program Search (GPS) (http://sph.unc.edu/gps) for the most up to date information on the school, including course prerequisites and admissions criteria for each of the four undergraduate majors.

Students who wish to obtain the B.S.P.H. degree typically spend two years in the General College of the University of North Carolina at Chapel Hill (or in an equivalent core program of academic study elsewhere) and two subsequent years under the administration of the Gillings School of Global Public Health. Enrollment in the B.S.P.H. degree programs is limited. Typically a student is selected in the latter half of the sophomore year and admitted on a competitive basis for junior year entry to the major. The minimum recommended grade point average for admission to programs in biostatistics, environmental health sciences, health policy and management, and nutrition is 3.0.

For current UNC–Chapel Hill students, the initial step of B.S.P.H. application is available in ConnectCarolina under the “Apply Majors” tab.

Transfer students interested in biostatistics and health policy and management majors must apply through the Office of Undergraduate Admissions (http://admissions.unc.edu/apply/transfer-students) using the Transfer Common application. Transfer students interested in environmental health sciences and nutrition majors must be accepted to UNC–Chapel Hill first and then satisfy campus residency requirements during their first and/or second semester at UNC–Chapel Hill, and then apply as a current UNC–Chapel Hill student.

Requirements Common to All Undergraduate Majors in the Gillings School of Global Public Health

The last 24 of the 30 hours of degree credit must be taken in residence in Chapel Hill. The Gillings School of Global Public Health requires that students earn a C (not C-) or better in prerequisite, core public health, and department-required courses.

At the end of the sophomore year, students are expected to have earned approximately 60 semester hours of credit. These must include all Foundations and Approaches requirements and at least five Connections requirements, including global issues, experiential education, and U.S. diversity1. One of the two physical and life science Approaches courses must be BIOL 101/BIOL 101L.

The junior/senior total of approximately 60 semester hours includes BIOS 600 (BIOS 500H for biostatistics students), ENVR 600, HBEH 600, HPM 6002 and for most departments, a minimum of three electives (seven credit hours) outside the school.

1 Environmental health sciences and nutrition majors are not required to have completed all Foundations, Approaches, and Connections by the end of their sophomore year.
2 Environmental health sciences majors and health policy and management majors, see details under department-specific requirements.

Students must be BIOL 101/BIOL 101L. One of the two physical and life science Approaches courses must be BIOL 101/BIOL 101L.
Departments

Four departments in the UNC Gillings School of Global Public Health offer undergraduate degrees:

- Biostatistics (p. 312)
- Environmental Sciences and Engineering (p. 484)
- Health Policy and Management (p. 592)
- Nutrition (p. 700)

Lists of faculty members in those departments are included in those sections of the catalog. Other courses offered by the school are listed on the “Courses” tab under the subject codes PUBH and SPHG. If you are not a matriculated public health major, you may need instructor consent to enroll in public health courses.

HBEH—Health Behavior

Undergraduate-level

HBEH 396. Independent Study in Health Behavior. 1-6 Credits.
Advanced course for undergraduates who wish to pursue a topic or research study in health behavior. To be arranged with faculty. An approved work plan is required.
Repeat rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading status: Letter grade.

Advanced Undergraduate and Graduate-level

HBEH 561. Environmental and Science Video Storytelling. 3 Credits.
Students work in teams to produce, shoot, script, and report environmental, science, and medical stories for broadcast on “Carolina Week”, the award-winning, student-produced television newscast.
Grading status: Letter grade
Same as: MEJO 561, HPM 551.

HBEH 562. Environmental and Science Documentary Television. 3 Credits.
Students work in teams to conceive, produce, and script mini-documentaries on environmental and science topics for broadcast on North Carolina Public Television.
Grading status: Letter grade
Same as: MEJO 562, HPM 552.

HBEH 600. Social and Behavioral Sciences in Public Health. 3 Credits.
This course focuses on social and behavioral science theories, research and interventions aimed at promoting health of individuals, groups, communities and populations. Two lecture hours per week. Enrollment is restricted to junior, senior, graduate, and certificate students in programs or majors within the School of Public Health.
Grading status: Letter grade.

HBEH 601. Principles of Statistical Inference for Health Behavior. 3 Credits.
Required preparation, knowledge of basic descriptive statistics. Majors only. Major topics include elementary probability theory, probability distributions, estimation, tests of hypotheses, paired and independent samples t-tests, ANOVA, linear and logistic regression, correlation and chi-squared procedures. SAS, a statistical software package, is used in the course.
Grading status: Letter grade.

HBEH 610. Alternative Spring Break. 2 Credits.
This course will explore issues, theories, and experiences relevant to social action, coalition building, and social change. The content of this course will be examined by confronting the possibilities and limitations of service and service-learning as it relates to APPLES Alternative Spring Break experiences.
Gen Ed: EE- Service Learning.
Grading status: Pass/Fail.

HBEH 611. Philanthropy as a Tool for Social Change. 3 Credits.
In this course students learn about and experience the process of awarding grants to local agencies. In addition to participating in the grant-making process, students learn about the nonprofit sector and the philosophy and practice of philanthropy through readings, class exercises, and guest speakers.
Gen Ed: EE- Service Learning.
Grading status: Letter grade.

HBEH 625. Injury as a Public Health Problem. 3 Credits.
This course examines unintentional injuries from a public health perspective. The course covers core concepts in injury prevention and control, including the epidemiology of unintentional injury, prevention strategies, behavioral models, child and adolescent injury, messaging framing, the Haddon matrix, and injury surveillance.
Requisites: Corequisite, EPID 600.
Grading status: Letter grade
Same as: EPID 625, MHCH 625.

HBEH 626. Violence as a Public Health Problem. 3 Credits.
This course covers core concepts in violence prevention and control, including the epidemiology of violence, prevention strategies for interpersonal and intra-personal violence, behavioral models that describe power structures that reinforce personal and societal factors affecting self-harm and violence towards others, and violence directed towards children and adolescents.
Requisites: Prerequisite, EPID 625.
Grading status: Letter grade
Same as: EPID 626, MHCH 626.
HBEH 660. Environmental and Science Journalism. 3 Credits.
Prepare students to work as environmental and science journalists. The course emphasizes writing skills in all delivery formats and interpreting environmental, science, and medical information for consumers.
Grading status: Letter grade
Same as: MEJO 560, HPM 550.

HBEH 660H. Environmental and Science Journalism. 3 Credits.
Prepare students to work as environmental and science journalists. The course emphasizes writing skills in all delivery formats and interpreting environmental, science, and medical information for consumers.
Grading status: Letter grade
Same as: MEJO 560H, HPM 550H.

HBEH 690. Special Topics in Health Behavior. 1-3 Credits.
Special topics in health behavior. An experimental course designed for faculty who wish to offer a new course. Content will vary from semester to semester.
Repeat rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading status: Letter grade.

**PUBH—Public Health**

**Undergraduate-level**

PUBH 89. First-Year Seminar: Special Topics. 3 Credits.
Content varies by semester.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading status: Letter grade.

Advanced Undergraduate and Graduate-level

PUBH 420. The HIV/AIDS Course. 1 Credit.
This course offers participants a multidisciplinary perspective on HIV/AIDS -- its etiology, immunology, epidemiology, and impact on individuals and society. How HIV/AIDS is framed by a society determines not only how affected persons are treated but also the degree to which the rights of the individual are upheld.
Grading status: Pass/Fail.

PUBH 423. AIDS Service. 3 Credits.
This course will integrate community service into the campus-wide AIDS course. Students will work as volunteer interns three to five hours per week for 10 weeks during the semester with Triangle-area community service organizations.
Gen Ed: EE: Service Learning.
Grading status: Letter grade.

PUBH 500. Global Health Discussion Series. 0.5 Credits.
Provides opportunities for students to get to know each other through an exchange and discussion. Students exchange points of view with globally experienced faculty at UNC-Chapel Hill.
Grading status: Letter grade.

PUBH 510. Interdisciplinary Perspectives in Global Health. 3 Credits.
Explores issues, problems, and controversies in global health through an interdisciplinary perspective; examines the complex tapestry of social, economic, political, and environmental factors that affect global health; analyzes global health disparities through a social justice and human rights lens; and exposes students to opportunities in global health work and research.
Repeat rules: May be repeated for credit.
Grading status: Letter grade.

PUBH 610. Introductory Spanish for Health Professionals. 3 Credits.
This course is intended for students who know no Spanish or so little that they feel the need to start over. Students with more than two semesters of college Spanish are not eligible. The course covers the curriculum of first-semester Spanish taught within a health context, with a focus on speaking.
Grading status: Letter grade.

PUBH 613. Intermediate Spanish for Health Care I. 3 Credits.
This intermediate course is the equivalent of the third semester of college Spanish. Students will hone their listening and speaking skills in class primarily through role-playing activities and class discussion. Activities center on an original film set in a health clinic in rural North Carolina.
Grading status: Letter grade
Same as: AHSC 613I, NURS 613I, PHCY 613I, SOWO 613I.

PUBH 614I. Intermediate Spanish for Health Care II. 3 Credits.
Permission of the instructor. This primarily e-learning course provides public health students with the opportunity to improve their oral communication skills in Spanish at the intermediate level via DVD, Web, and workbook. Instructor-led. Online course.
Requisites: Prerequisite, PUBH 613I.
Grading status: Pass/Fail
Same as: AHSC 614I, NURS 614I, PHCY 614I, SOWO 614I.

PUBH 615. Advanced Spanish for Health Care I. 3 Credits.
Required preparation, third semester Spanish or equivalent. This advanced course reviews the grammar of the third and fourth semester of college Spanish. Students hone their listening and speaking skills through role-playing activities and class discussion. Activities center on an original film set in a Latino-run health clinic.
Grading status: Letter grade
Same as: AHSC 615I, DENT 615I, MEDI 615I, NURS 615I, PHCY 615I, SOWO 615I.

PUBH 616I. Health Care Informatics. 2 Credits.
Course designed to provide a multimodal learning experience that prepares health sciences students to learn to become proficient at selecting/using technology for organizing, analyzing, and managing information in health care settings.
Grading status: Letter grade

PUBH 680. Public Health Practice. 3 Credits.
A comprehensive introduction to public health concepts and practice through an examination of the philosophy, purpose, history, organization, functions, tools, activities, and results of public health practice at the national, state, and community levels. Online course.
Grading status: Letter grade.

PUBH 690. Special Topics in Public Health Leadership. 1-3 Credits.
Permission of the instructor. Sections will focus on specific topics of current interest to health workers. Fliers describing the section offering will be distributed prior to registration each semester. Lecture hours per week depend upon credit.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading status: Letter grade.
PUBH 696. Independent Study. 1-3 Credits.
Independent Study to address goals and objects of student. Prior faculty agreement is required. Registration for an independent study course must be completed after the learning contract has been approved and no later than the last day of "late registration" (the end of the first week of classes in F/S).
Grading status: Letter grade.

SPHG—School of Public Health General

Undergraduate-level

SPHG 350H. Introduction to Public Health. 3 Credits.
This introductory course will describe the history of public health, the key terms and concepts, and how the core areas of public health are integrated to promote health at a population level. The class will engage the students in active learning through the use of media, innovative technology, discussion groups, and field experiences.
Grading status: Letter grade.

Advanced Undergraduate and Graduate-level

SPHG 600. Introduction to Public Health. 3 Credits.
School of Public Health majors only. This introductory course describes the history of public health, key terms, concepts, and the integration of core areas of public health to promote health at a population level. The class engages students in active learning through the use of media, innovative technology, discussion groups, and field experiences.
Grading status: Letter grade.

SPHG 620. Exploring Public Health. 1 Credit.
This introductory course serves to develop a foundation in the breadth and depth of public health, locally and globally. Students will develop an understanding of the basic concepts of the public health disciplines and how they are used to promote health at a population level.
Grading status: Pass/Fail.

SPHG 690. Special Topics in Public Health. 1-3 Credits.
Topic will vary with the instructor and semester.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Introduction
The UNC Kenan–Flagler undergraduate business program offers a program of study that provides students with a thorough grounding in all areas of business and a broad introduction to the liberal arts. The UNC Kenan–Flagler undergraduate experience is distinctive because the school offers:

- An undergraduate business experience that is ranked highly in the nation by U.S. News & World Report, Poets & Quants, and Bloomberg BusinessWeek
- Career services professionals who help students identify career interests and a plan for pursuing them
- A liberal arts-oriented curriculum
- A global perspective relevant to the needs of business today
- Activities and organizations for an active student life
- Individual attention usually associated with smaller schools
- Multiple opportunities provided by a leading, large research university
- Faculty who are outstanding in and out of the classroom

Students choose business electives to develop a specific area of business interest. Courses selected from other UNC–Chapel Hill schools and programs add to their depth of knowledge. The result is that students are able to see “the big picture.” The school believes that completion of the undergraduate business program provides students with a distinct advantage in a highly selective and competitive job market.

Students may choose to complete a minor in business administration instead of a business major, or they may take a limited number of business administration courses as general electives for their chosen degree program.

The business administration program is considered a broad-based, general management degree, and the Kenan–Flagler Business School encourages breadth in both the business curriculum and in the continuation of study in fine arts, humanities, and natural and social sciences. A second major may be possible and requires advance approval by both the undergraduate business program and the second academic unit. In all cases, undergraduate business majors are encouraged to take upper-level courses during the third and fourth years.

Taking Business Courses as a Nonmajor/Nonminor
Undergraduate students who do not intend to major or minor in business administration may take a limited number of business courses (limits may change based on course availability) as free electives for their particular major. Nonmajors may take one course per semester and over the course of a student’s academic career the limit is five courses, regardless of credit hours. Registration in business courses for nonmajors and nonminors is made on a space-available basis. Preference is given to students with an overall grade point average of 3.0. Requests for available seats are made online through the undergraduate business program Web site during the first week of each academic semester. Final approval to take a business course is at the discretion of the undergraduate business program. Due to the program specific nature of BUSI 412, nonmajors and minors may not request this course. Additionally, nonmajors and minors may enroll themselves in BUSI 500 and BUSI 520. These courses have a reserved number of seats for nonbusiness students. Requests for these courses will not be accepted through the request form available the first week of the academic semester. Refer to the course description list for additional information concerning prerequisites for specific courses.

Advising
Once admitted to the business major, all academic matters, including academic advising, are handled in McColl Building.

Students admitted to the business minor should continue to work with their major department for academic matters outside of business minor requirements. However, business minors have full access to our career team and global programs.

All students should meet regularly with their advisor and monitor their progress toward completion of both the business major and minor requirements utilizing Tar Heel Tracker. Upon admission, business majors and minors receive information on how to schedule appointments through the undergraduate business program intranet.

Admission to the Kenan–Flagler Business School
Kenan–Flagler’s undergraduate business program is a small, select program with approximately 350 majors and 50 minors admitted each year. The program seeks candidates whose analytical and organizational abilities, written and oral communication skills, leadership potential, global mindset, and motivation indicate strong potential for success. Admission is competitive and based on academic achievement, leadership, co-curricular activities and involvement, work experience, diversity of skills and interests, and focus and depth of thought as expressed in a personal statement, essays, and résumé.

Preparation for the Business Administration Major or Minor
A student admitted to the Kenan–Flagler Business School typically begins the undergraduate business program in the spring semester of the second year or fall semester of the third year. First- and second-year students in the General College who consider themselves prebusiness majors complete certain prerequisite courses as part of their General Education requirements. Preparation for the business major and minor
The business administration major is a four- or five-semester program. Students are required to graduate from UNC–Chapel Hill in eight semesters. The business minor requires a minimum of two semesters, preferably three, to complete.

Transfer Admission
Transfer students are an integral and vibrant part of the Carolina community. They bring a diversity and experience to the institution that enhances the overall experience for all students, faculty members, and staff. In the Kenan–Flagler undergraduate business program, we understand that transferring is a complex process and have outlined below the policies and guidelines to help students make informed decisions and achieve as smooth a transition as possible.

Transfer students must first be admitted to UNC–Chapel Hill by the Office of Undergraduate Admissions prior to applying to the undergraduate business major or minor. Students must spend at least one semester (fall) in the College of Arts and Sciences before they are eligible to start at the business school. (Students apply early in their first semester at UNC–Chapel Hill.)

Transfer students who transfer more than 30 hours to UNC are eligible to take an additional ninth or 10th semester at the University. This is sometimes useful and necessary in order for transfer students to complete the business prerequisites and/or business degree.

Transfer students should know that admission to the business school is extremely competitive. We admit 50 percent of our applicants each year. Students should review the eligibility requirements and class profile at the undergraduate business admissions section of the Kenan–Flagler Web site. Students who are currently enrolled in business programs at other four-year institutions should think carefully about their decision to leave those programs.

Transfer Applicants:
1. Must complete all business school prerequisites before they are eligible to start in the undergraduate business program. Prerequisite
courses do not need to be complete at the time of application. However, it is typically beneficial for the admissions committee to see grades in as many prerequisites as possible during the admissions review.

2. Should submit a Transfer Equivalency Credit Review form, located on the Kenan–Flagler Web site, for business courses as soon as they accept the offer to attend UNC–Chapel Hill. A course syllabus must be submitted with this form. While most transfer equivalencies will be determined through the Office of Undergraduate Admissions, the business school makes all decisions on business course transfers. Students should allow up to three weeks for a decision.

3. Should consider whether or not they are willing to take an additional ninth and/or 10th semester at UNC, if necessary.

4. Could consider attending UNC Summer School to catch up on completing business school prerequisites. UNC Summer School provides transfer students with an excellent opportunity to acclimate to life in Chapel Hill, as well as the academic environment, by completing one or two courses before taking a full course load during the fall semester.

5. Could consider the undergraduate business minor instead of the business major, if they are finding it difficult to complete all of the prerequisites for the major. Business minors receive all of the benefits that business majors do (alumni network, access to global program opportunities, and career development initiatives, etc.), are highly sought after by recruiters, and achieve the same employment rates as business majors. The business school does not award transfer credits in excess of 13 credit hours total (four courses in any combination of lower- or upper-level courses). For students who earn admission to Kenan–Flagler Business School, no more than three upper-level courses taken at another institution may be applied to the undergraduate business major curriculum unless earned as part of a preapproved Kenan–Flagler overseas study program. All business minor courses must be completed at UNC Kenan–Flagler, except for BUSI 101 (or BUSI 102).

Gen Ed: GL.
Grading status: Letter grade.

BUSI 618. Global Financial Markets. 1.5 Credit.
Develops the foundation for financial decisions in a global economic environment. Extends the analytical concepts and tools learned in introductory investment and corporate finance courses to multicountry/multicurrency settings. Covers three major areas: the economics of exchange rates, international money and capital markets, and international corporate finance.
Requisites: Prerequisite, BUSI 408.
Grading status: Letter grade.

BUSI 623. Global Entrepreneurship I. 1.5 Credit.
The course ranges from developing the creative mindset, ideation, development/manufacturing, marketing, selling, and managing. The course places heavy emphasis on doing and collaborating rather than listening passively: 1) dream: design process, 2) think: feasibility, 3) create: product development and manufacturing, and 4) tell: marketing. Restricted to GLOBE students.
Grading status: Letter grade.

BUSI 624. GLOBE Entrepreneurship Immersion. 1.5 Credit.
The immersion exposes students to the process of founding and funding new entrepreneurial ventures through direct experience with leaders in the field. It is divided between leaders who support the development of early stage entrepreneurial firms and those who capitalize these ventures in seed, venture capital, and private equity. We will be supplementing these visits with a number of events derived from Chicago Ideas Week.
Grading status: Letter grade.
BUSI 650. Symposium Core Committee. 1.5-3 Credits.
Permission of the instructor. Service on the B.S.B.A. Symposium Core Committee to plan, execute, and evaluate the annual event.

3 An area core course, with an earned grade of at least a C (not C-), is a prerequisite course for any elective course in that area (e.g., BUSI 406 is a prerequisite for BUSI 501). Other restrictions may apply to certain business courses.

4 Nonbusiness courses taken on a Pass/Fail basis and receiving a PS, or passing, grade may count toward the five required courses outside the Kenan–Flagler Business School.

Emphasis Areas

Business majors are provided with the opportunity to add an optional area of emphasis to their general management degree. Areas of emphasis generally consist of a minimum of nine credit hours of elective courses. All course information for the areas of interest can be found on the program Web site.

Transfer of Business Course Credits from Other Institutions

Without regard to a student’s prospective academic major or minor at UNC–Chapel Hill, the Kenan–Flagler Business School will consider for transfer credit business administration courses that meet each of the following six criteria. No exceptions are made.

1. For upper-level courses (equivalent to those numbered 400–699 in the Kenan–Flagler undergraduate curriculum), the course was completed at
   a. an institution accredited by AACSB International, or
   b. a constituent four-year institution of the University of North Carolina, or
   c. an international partner institution of Kenan–Flagler’s undergraduate business program.

   All courses for the business minor must be completed at UNC Kenan–Flagler Business School. Upper-level courses completed at other institutions are not accepted for credit. For lower-level courses (BUSI 101), the business school will consider comparable courses from any accredited institution of higher education.

2. The final course grade earned was at least C (not C-) as verified by an official transcript. Courses taken Pass/Fail are ineligible.

3. A comparable course is available in the Kenan–Flagler undergraduate curriculum.

4. The course is not approved for credit in other UNC–Chapel Hill departments (i.e., no double credits).

5. The student completed the course within the past three academic years.

6. The substantive coverage of material constitutes no less than 75 percent of coverage in the comparable Kenan–Flagler course, and there is sufficient indication of individual student evaluation (i.e., no fewer than two major examinations, including a final examination).

For students who wish to transfer to UNC–Chapel Hill, preapproval of such courses is recommended. Requests for validation of course credits earned at another institution must be made no later than the end of the first semester of enrollment at UNC–Chapel Hill following completion of the course. The business school does not award transfer credits in excess of 13 credit hours total (four courses in any combination of lower- or upper-level courses).

For business majors who earn admission to Kenan–Flagler Business School, no more than three upper-level courses taken at another institution may be applied to the undergraduate business major curriculum unless earned as part of a preapproved Kenan–Flagler overseas study program. All business minor courses must be completed.
at UNC Kenan-Flagler, except for BUSI 101 and if the student is studying abroad through a Kenan-Flagler program.

Transfer students who have completed a substantial number of business courses at another institution should contact the program office for more specific information related to transfer students.

To request review and validation of eligible courses, students should submit a Transfer Credit Request Form through Connect Carolina. A copy of the course syllabus must be included for all courses being evaluated. The syllabus must include the title and edition of textbook(s) as well as list explicitly the course content. If the syllabus lists only chapters covered, without a description of the chapter content, a copy of the textbook’s table of contents must be included.

### Special Opportunities in the Kenan–Flagler Business School

#### Honors in Business

The Kenan–Flagler Business School honors thesis offers motivated undergraduate business students the opportunity to work closely with an individual faculty member on a specialized research topic of the student’s choice during the senior year. Undergraduate business majors with a 3.3 cumulative graduate point average and a 3.5 grade point average in business courses are invited to be considered for the opportunity to participate in this two-course program (BUSI 691H and BUSI 692H).

In the first semester (BUSI 691H), students become familiar with the mechanics, methodologies, and recent literature on topics of major interest. Each studentformulates an honors thesis proposal and initiates work on the project. During the second semester (BUSI 692H), the thesis work is conducted under the supervision of a faculty advisor with expertise in the general topic’s area of research.

Students who successfully complete the second-semester course (BUSI 692H) will submit to an oral examination on the thesis. Upon successful completion of the program, the student receives the bachelor of science degree with honors or highest honors, as determined by the student’s committee.

#### Career Services

The undergraduate business program provides career development resources and services tailored to business students, such as specialized training and professional development activities, targeted networking opportunities, function- and industry-specific career clubs and student organizations, and focused career coaching and programming.

Undergraduate business students are expected to maintain an up-to-date profile on Handshake through University Career Services, which is the primary resource for all UNC–Chapel Hill students for career exploration and interest development, job/internship postings, résumé referral, on-campus interviewing, and career fairs.

As the job market remains highly competitive, the undergraduate business program strongly encourages business students to undertake internships or other experiential learning opportunities when possible. These hands-on experiences can be a valuable part of a student’s career development. Also, demonstrated leadership experience along with community service and a global learning experience are some additional desirable factors that many employers seek in candidates.

#### Leadership Development

The Kenan–Flagler Leadership Initiative strives to develop Kenan–Flagler students to become exceptional leaders who positively impact the organizations they lead and the communities they serve. This is accomplished through a systematic approach—integrating principles, practice, feedback, and reflection—that is grounded in leading-edge academic research and business practice. Examples of undergraduate business leadership development programming include lessons-of-experience sessions, managerial simulations, self-assessment workshops, executive coaching, student consulting projects, and student leader development.

#### STAR Program

Kenan–Flagler’s Student Teams Achieving Results (STAR) program fields teams of top M.B.A.s and undergraduate business students to build comprehensive and actionable strategies for eligible corporations and not-for-profits. STAR teams begin the project by developing a scope of work with the client and signing a confidentiality agreement. Over the life of the project, teams typically analyze the market, assess the competitive situation, develop a strategy, and define an action plan that covers financials, risk assessment, and implementation. STAR teams are guided throughout the course by a course professor, a team-specific faculty advisor, and client executives. Opportunities in STAR–Domestic and Global Business Projects exist.

#### Student Involvement

The undergraduate business program sponsors a variety of student organizations, which include the Accounting Club, CarolinaThink, Carolina Women in Business, Consulting Club, Healthcare Club, UNC Finance Society, International Business Club, Marketing Club, Minority Business Student Alliance, Net Impact Undergraduate Club, Operations Club, Kenan–Flagler Alliance, Real Estate Club, Carolina Sport Business Club, Technology Club, and Undergraduate Business Ambassadors, as well as two business fraternities, Alpha Kappa Psi and Delta Sigma Pi. Please visit the undergraduate business program Web site for the most up-to-date information on undergraduate business student clubs and organizations.

#### Global Programs

Kenan-Flagler undergraduate global programs are consistently highly ranked by students for the quality and variety of programs available. The Undergraduate Business Programs offers a portfolio of more than 40 different programs in Europe, Africa, Asia and Oceania that offer students the opportunity to earn business core and/or elective credit. Business students can develop their global perspective through participation in business semester abroad, faculty led global immersion electives (GIEs), summer study abroad, or international internships.

GLOBE® (Global Learning Opportunities in Business Education) is Kenan–Flagler’s flagship global program. This study abroad program is a partnership with Chinese University of Hong Kong, Copenhagen Business School, and the University of North Carolina. Every year 18 students from each school form a cohort of 54 students that study together for a semester at each school. The GLOBE® program customizes the curriculum based on unique strengths of each region. As a result, students take courses in subjects such as global leadership and organizational behavior, business and politics in the U.S., marketing in China, and corporate response to European integration, and a capstone consulting project in the final semester of the program. These courses are GLOBE specific courses taken as a cohort. GLOBE students take other business courses during the semester to round out a full course load.
The Phillips Ambassador Scholarship program offers scholarships exclusively for study abroad in Asia. Twenty-five percent (25%) of these scholarship awards are reserved for business school students. Scholarships are awarded for semester and summer study abroad programs in Asia and range from $5,000 to $7,500.

Undergraduate Awards
Each spring UNC Kenan–Flagler faculty recognizes select students for outstanding academic excellence, leadership, and community service. Beta Gamma Sigma, the national business school honorary society, inducts students each spring.

Undergraduate Business Symposium
Since its inception in 1983, the Undergraduate Business Symposium continues to be the flagship career event for the undergraduate business program and an annual highlight for the UNC Kenan–Flagler community. It is the largest and longest-running student-organized event of its kind. Each year the event brings together more than 400 undergraduates and 120 company representatives from a diverse set of industries and organizations from across the country. The Undergraduate Business Symposium provides students with the opportunity to learn about a variety of industries and organizations, the chance to network and interact with business representatives and UNC Kenan-Flagler faculty, obtain insights into the dynamic business landscape, and the opportunity to showcase their analytical, communication, and problem-solving skills.

Introduction
The UNC School of Dentistry is proud to be one of few schools in the United States to offer curricula in dental hygiene, doctor of dental surgery, post-D.D.S., advanced dental education, and Ph.D. programs all under one roof. The various programs span many disciplines and offer multiple career paths. Whatever program you select, you can feel confident you are receiving a top-tier education from some of the nation’s leading dental educators.

The UNC School of Dentistry is committed to excellence in dental education at all levels. Whether applicants want to apply to the school’s dental hygiene program, pursue their D.D.S. degree, or enroll in the six-year oral and maxillofacial surgery residency program, the school actively invests in providing the best education possible to its students. The academic environment fosters the pursuit of knowledge in the basic, behavioral, and clinical sciences. Independent thinking and lifelong learning are encouraged through degree-granting and continuing education programs. A high standard of professional and personal ethics, as well as technical excellence, are integral to the learning experience.

The school thoroughly prepares each of its graduates for their career and sets them on a path to success. Whether students plan to enter the general practice of dentistry, the dental specialties, dental allied health fields, research, or teaching, the UNC School of Dentistry prides itself in producing some of the country’s best clinicians, researchers, and academicians.

Programs

Doctor of Dental Surgery (D.D.S.) Program
The D.D.S. program (https://www.dentistry.unc.edu/academicprograms/dds) is a four-year program that provides admitted students with the skills necessary to become a general dentist at graduation.

Dental Hygiene Programs
The dental hygiene programs are designed to educate and prepare dental hygienists for careers in a diverse and changing health care environment. Being a part of UNC School of Dentistry enables students to have a variety of experiences in clinical patient care, community dental health, and dental specialties, including geriatric dentistry, pediatric dentistry, periodontics, and research. The emphasis is on creating well-rounded dental hygiene health care professionals who will treat a variety of patients and provide leadership in the profession.

The school offers both undergraduate and graduate level education for dental hygiene students. The undergraduate program prepares students to become registered dental hygienists, while the graduate program focuses on allowing already-registered dental hygienists to begin careers in academia.

Graduate and Advanced Dental Education
The UNC School of Dentistry is proud to offer 15 advanced dental education and graduate programs for prospective students to consider, in addition to observer externship opportunities. These programs are designed to further the knowledge of students and to provide specialty training in various fields of dentistry.

More information about the dental hygiene (https://www.dentistry.unc.edu/academicprograms/dh) and graduate and advanced dental education programs (https://www.dentistry.unc.edu/academicprograms/ade) can be found in this catalog and on the school’s Web site (http://www.dentistry.unc.edu).

Facilities
The UNC School of Dentistry is currently the largest dental school facility in the nation. The school has grown to include several buildings, located within a dynamic health science campus. Among the school’s buildings are Tarrson Hall, a state-of-the-art clinical teaching facility, and Brauer Hall, which includes patient simulation laboratories with the latest in dental equipment. The majority of the school’s research takes place in Koury Oral Health Sciences, completed in April 2012. The 216,000-square-foot facility houses a variety of classroom and lecture spaces, as well as cutting-edge research laboratories, all of which encourage collaborative research and learning experiences. The school is equipped with state-of-the-art classrooms, case study rooms, laboratory (simulation and dental material labs), clinical facilities, and Kirkland Auditorium. The UNC School of Dentistry also features an atrium with a media wall, social seating, and dining areas with a food court.

The dental hygienist is an educator and motivator as well as a health care provider. As a practicing member of the dental health team, the hygienist is primarily concerned with the maintenance of oral health and the prevention of dental disease. Additionally, dental hygienists may assume professional leadership roles; participate in the development, implementation, and evaluation of community health programs; engage in research activities; or serve as consultants and assume managerial roles in certain types of dental care delivery systems.

Students are subject to the academic requirements in place when they are admitted to the dental hygiene program; consequently, the requirements described in this catalog particularly apply to students admitted to the school during the 2018–2019 academic year.

All course descriptions can be found in ConnectCarolina and in the UNC School of Dentistry Academic Catalog (http://dentistry.unc.edu) (found at the bottom of the homepage).

Admission to the Program

Applicants may be admitted for dental hygiene study after completion of the dental hygiene prerequisites, provided they meet requirements of the University. To assure proper planning for admission, applicants should maintain close contact with the program during the application process.

Enrollment is limited, and applicants are accepted on a competitive basis. Admission to the University does not guarantee admission into the dental hygiene program. Selections are based on academic achievement with an emphasis on performance in science courses, character, knowledge of working with the dental team, and a sincere interest in dental hygiene as a professional career. For UNC–Chapel Hill students, application for admission to the program is usually made during the second year of General College study. Interested students should submit an online application, which can be accessed from ConnectCarolina.

For transfer applicants, all prerequisite dental hygiene coursework and General College courses taken at other institutions must be approved for transfer in advance by the Office of Undergraduate Admissions. Official transcripts from all schools attended (including high school) must be submitted.

Three letters of recommendation must be submitted with the application. Two of the letters should be from previous college course directors and one letter should be a character reference. In addition, applicants must shadow in a dental office for a minimum of 20 hours. This requirement may be fulfilled through prior dental assisting experience.

Prior to being admitted and enrolled, all applicants will be required to present evidence of satisfactory completion of prerequisite courses required by the major. Applicants with a previous degree should contact the Office of Undergraduate Admissions to determine fulfillment of General College requirements. Specific admission requirements on the prelicensure and graduate programs in dental hygiene can be obtained from the School of Dentistry Academic Catalog (http://dentistry.unc.edu).

Student Learning Outcomes

Upon completion of the dental hygiene program, students should be able to:
- Possess the skills and knowledge needed to provide optimal dental hygiene patient care while valuing and adhering to the ethical beliefs as stated by the American Dental Hygienists’ Association Code of Ethics
- Promote the values of optimal oral health as related to general health and overall wellness to all patients
- Embrace an interdisciplinary role within the health care system and assess, plan, implement, and evaluate oral health care programs and activities for diverse population groups while facilitating access to care and services
- Assess, plan, implement, and evaluate treatment in the promotion of oral and systemic health using an evidence-based approach
- Value the dental hygiene profession through career growth and development and commitment to lifelong learning

Requirements

All baccalaureate-seeking dental hygiene students must fulfill the General Education (p. 27) requirements. In addition to completing ENGL 105,
a foreign language through level 3, a quantitative reasoning course (STOR 151 recommended), and a lifetime fitness course, dental hygiene students must fulfill the Approaches requirements and successfully complete at least five Connections courses, including global issues, experiential education, and U.S. diversity. Other specific requirements include the following courses:

In addition to the program requirements listed above, students must attain a final cumulative GPA of at least 2.0. For more information, please consult the degree requirements section of the catalog (p. 100).

### Additional Information for the Dental Hygiene Programs

Upon provisional acceptance into the dental hygiene program, all students must provide an acceptable criminal background check and complete documentation of required immunizations, as well as varicella vaccination series (two shots) or a positive quantitative titer; Hepatitis B vaccination series (three shots) and a positive Hepatitis B antibody (HBSAb) quantitative titer; and the Two-Step Tuberculosis Skin Test (TST) or a QuantiFERON-TB Gold blood test. Specific information is provided in the School of Dentistry Academic Catalog (http://www.dentistry.unc.edu).

One of the consequences of the delivery of health care is the possibility of contracting infectious disease such as tuberculosis, hepatitis, herpes, or HIV or herpes. To minimize this risk, the UNC School of Dentistry has adopted an Infection Control Policy that requires the wearing of a clinical overgarment, disposable gloves, a mask and protective safety eye covering when oral examinations and dental hygiene services are being performed.
Dental school fees are required that include instrument rental and other supplies needed for clinical care and the education of patients. Additional costs may occur for projects required in the curriculum.

**Special Opportunities in Dental Hygiene**

**Departmental Involvement**

Students are eligible to become members of the student American Dental Hygienists’ Association, American Dental Education Association, American Association of Dental Research, American Association of Public Health Dentistry, and other specialty organizations. Student membership fees may be required.

**Experiential Education**

Students have the opportunity to participate in community-based clinical experiences as well as providing oral hygiene programs in the community. Service-learning opportunities are possible as an elective. Each semester students will be involved with hands-on experiences providing dental hygiene services. During the final semester of dental hygiene, students will participate in a three-week practicum. Due to the location of community sites, undergraduate students may need access to transportation. Expenses for travel are the responsibility of the student.

**Licensure**

Certificate and baccalaureate degree graduates are eligible for dental hygiene licensure examinations at the state and national levels. Candidates must pass both the national and clinical board examinations in order to be granted a license to practice dental hygiene. Additional costs are associated with the examinations required for licensure. Some dental hygiene licensure examinations require background checks with fingerprint analysis.

**Accreditation**

The dental hygiene program's accreditation status is approval without reporting requirements as determined by the Commission on Dental Accreditation.

**Undergraduate Awards**

Dental hygiene students are eligible for awards through the Spurgeon Dental Society in the School of Dentistry and the Dental Foundation of North Carolina. In addition, student awards are also available through the American Dental Hygienists’ Association, American Association of Public Health Dentistry, American Dental Education Association, and other specialty organizations.

**Undergraduate Research**

Research opportunities are available at the undergraduate level for dental hygiene students. Students are encouraged to become involved in research activities pertaining to dental hygiene and dentistry. Student research grants are available through the University, professional organizations, and private industry.

**Graduate School and Career Opportunities**

Upon satisfactory completion of the baccalaureate program, students are eligible for application to graduate programs in dental hygiene education, public health, and other areas. The UNC School of Dentistry offers a master of science (M.S.) graduate degree program in dental hygiene education to which graduates of the dental hygiene program may apply. Graduates also are eligible to apply for admission to the school’s predoctoral dental curriculum provided they successfully complete the required program prerequisites.

The growth of the dental health care field assures an excellent employment outlook for the coming years. Courses of study provide comprehensive educational experience to qualified individuals for the practice of dental hygiene in accordance with the current and changing demands for health services and in accordance with the laws and ethics pertaining to practice.

Introduction
The School of Education is committed to the preparation of candidates who can assume leadership roles in the field of education. Such preparation is accomplished through the coherent integration of the abilities and predispositions of candidates, the knowledge and abilities of faculty members, and the contextual elements of academic and field settings. The growth and development of candidates is promoted through curriculum, instruction, research, field experiences, clinical practice, assessments, evaluations, and interactions with faculty members and peers. All of these elements work together to build a solid foundation for exemplary practices in education.

Programs of Study
Students are subject to the requirements in place when they are admitted to the School of Education; consequently, the requirements for approved programs described in this catalog particularly apply to students admitted to the school during the 2018–2019 academic year.

Advising
To best facilitate completion of all degree requirements students are strongly encouraged to meet with an academic advisor every semester.

The School of Education’s director of advising, Audrey Fulton, meets with students who are interested in or admitted to any of the SOE’s undergraduate programs. Students interested in making an advising appointment can contact Ms. Fulton (abfulton@email.unc.edu). Based on a student’s academic program, he or she may also need to continue to meet with an advisor in the College of Arts and Sciences.

Admission to the School of Education
Human Development and Family Studies
Admission to the human development and family studies major (p. 967) is offered every semester. Admission is based on, but not limited to, a 2.5 grade point average, good academic standing, expressed interest in the helping professions, and space available. For more information, please visit the School of Education Web site (http://soe.unc.edu/hdfs).

Education Minor
The undergraduate minor in education is appropriate for undergraduate students interested in furthering their knowledge of education as a means of career development or to enhance their understanding of current schooling, community, and policy directions.

To declare a minor in education, you must see an advisor by appointment. During the declaration appointment, your advisor will review with you the requirements for the minor. If it is feasible for you to complete the minor within the eight-semester limit, you and your advisor will complete a declaration form to get you declared.

For more information, please visit the School of Education Web site (http://soe.unc.edu/academics/education-minor).

UNC Baccalaureate Education in Science and Teaching (UNC–BEST)
UNC–BEST is a collaboration between the School of Education and the College of Arts and Sciences (http://college.unc.edu). This innovative program offers undergraduate science and mathematics majors the opportunity to complete requirements for a bachelor of arts or bachelor of science and obtain licensure as a secondary science or mathematics teacher in North Carolina in four years. Students will be prepared for N.C. licensure in either mathematics (9–12) or comprehensive science (9–12).

UNC–BEST Admissions Requirements
• Math or science (biology, chemistry, geological sciences, and physics) major
• Minimum 2.7 GPA
• SAT or ACT score requirements*
  SAT: Math–550, Reading–550, 1100 Combined
  ACT: Math 24, English–24, 24 Composite
• Completion of online application

*Applicants who do not meet the minimum SAT and ACT score requirements can take the Praxis Core Academic Skills for Educators: Score–468 Composite; Reading–156/Writing–162; Math–150

K-12 Music Education
K-12 Music Education is a collaboration between the School of Education and the Department of Music. This program offers undergraduate bachelor of music (B.M.) students the opportunity to complete requirements for a bachelor of music and obtain licensure as a K–12 music teacher in North Carolina in four years. Students will be prepared for N.C. licensure in teaching music at the K–12 grade level.

Music Education Admissions Requirements
• Music major
• Minimum 3.0 GPA
• SAT or ACT score requirements*
  
  **SAT:** Math=550, Reading=550, 1100 Combined
  **ACT:** Math=24, English=24, 24 Composite
• Online application which includes:
  • Personal statement (500−750 words describing your interest in teaching, pertinent background experiences, and relevant aspirations)
  • 2 letters of recommendation (one letter must be from a UNC instructor)
  • Resume

*Applicants who do not meet the minimum SAT and ACT score requirements can take the Praxis Core Academic Skills for Educators: Score=468 Composite; Reading=156/Reading=156; Math=150

**Pre-M.A.T. (Early Affiliation to the Master of Arts in Teaching)**

The Pre-M.A.T. is an opportunity for UNC–Chapel Hill undergraduates to engage with select M.A.T. coursework, faculty, and staff in order to pre-plan their intended entry into the Master of Arts in Teaching (M.A.T.) upon graduation. While joining the Pre-M.A.T. is not a requirement to be considered for admission to the M.A.T., there are many benefits of joining, which include:

• M.A.T. prerequisite advising/course planning with a School of Education advisor
• Access to select M.A.T. courses as an undergraduate, which may reduce M.A.T. tuition costs, if the student is admitted
• Opportunity to get to know M.A.T. faculty and current students
• Undergraduate student engagement opportunities related to teaching and learning

Students interested in more information or applying to become a Pre-M.A.T. "early affiliate" can email the School of Education’s director of advising and undergraduate student engagement, Audrey Fulton (abfulton@email.unc.edu).

**Major**

• Human Development and Family Studies, B.A.Ed. (p. 967)

**Minor**

• Education Minor (p. 969)

**Establishing Licensure**

At UNC, two undergraduate pathways for coursework prepare students for N.C. teacher licensure: UNC–BEST and K−12 Music Education. While the School of Education does not offer an undergraduate major that leads to N.C. teacher licensure, UNC students have the opportunity to engage with select master of arts in teaching (M.A.T.) coursework, faculty and staff in order to pre-plan their intended entry into the M.A.T. upon graduation. Information on the Pre-M.A.T. can be found here (http://catalog.unc.edu/undergraduate/schools-college/education/ admissiontext) or by contacting the School of Education’s director of advising and undergraduate student engagement, Audrey Fulton (abfulton@email.unc.edu).

North Carolina licensure requirements are distinct from the School of Education’s degree requirements. Applications for North Carolina licensure must be submitted through the N.C. Department of Public Instruction’s online licensure system by the graduate seeking licensure. Forms are no longer submitted by the UNC School of Education licensure officer. The UNC School of Education licensure reviews and either approves or denies all licensure applications routed to UNC through the N.C. Department of Public Instruction online licensure system. More information about applying for N.C. licensure is available on the School of Education Web site (http://soe.unc.edu/services/student_affairs/licensure/praxis_tests.php).

The programs described in this catalog are approved by the N.C. Department of Public Instruction, the State Board of Education, and the National Council for the Accreditation of Teacher Education (now the Council for the Accreditation of Educator Preparation).

**UNC Baccalaureate Education in Science and Teaching (UNC–BEST)**

UNC–BEST is a collaboration between the School of Education and the College of Arts and Sciences (http://college.unc.edu). This innovative program offers undergraduate science and mathematics majors the opportunity to complete requirements for a bachelor of arts or bachelor of science and obtain licensure as a secondary science or mathematics teacher in North Carolina. Students will be prepared for N.C. licensure in either mathematics (9−12) or comprehensive science (9−12).

UNC–BEST students are enrolled in their respective major in the College of Arts and Sciences and, once accepted into the UNC–BEST program, complete the requirements to earn North Carolina teaching licensure.

To be recommended for N.C. licensure, UNC–BEST students must complete Praxis testing appropriate to their content area. More information about the testing requirements is available on the School of Education testing Web site (http://soe.unc.edu/services/student_affairs/licensure/praxis_tests.php).

Human development and family studies (HDFS) is a pre-professional major for undergraduate students interested in careers that will improve the lives of children and families across the variety of contexts and cultures in which families live, learn, and work. These careers are called "helping professions" and might include education, public health, social work, health services, counseling services, and more. This program results in a bachelor of arts degree in education.

The HDFS program does not result in teaching licensure but may be used to apply to a teaching license program at the postbaccalaureate or graduate level.

Admission to the human development and family studies major is required and offered every semester. Admission is based on, but not limited to, a 2.5 grade point average, good academic standing, expressed interest in the helping professions, and space available. For more information, please visit the School of Education Web site (http://soe.unc.edu/hdfs).

Admitted students must earn a grade of C or better for each course counting to fulfill a degree requirement within the HDFS major. If a student earns a grade of C- or lower in a course, it will not satisfy a degree requirement within the HDFS major. The student will need to repeat that course or an equivalent. If a course is repeated, the student can only count the credit hours once when calculating the number of credit hours toward degree.

In the event that a student fails the internship or is dismissed for violating the School of Education, site placement, or the University Code of Ethics, they will be referred to the School of Education Appeals Committee.

If a student intends to declare a major in HDFS and has already declared (or intends to declare) a minor in education, only six credit hours can double count for the education minor and the HDFS major.

Students are subject to the requirements in place when they are admitted to the School of Education; consequently, the requirements for approved programs described in this catalog particularly apply to students admitted to the school during the 2018–2019 academic year.

Student Learning Outcomes
Upon completion of the human development and family studies program, students should be able to:

• Apply theories and knowledge about lifespan human development from many perspectives—psychological, sociological, educational, and cultural
• Demonstrate awareness of professional behaviors and ethical considerations needed to serve children, youth, and families
• Assess individual and family experiences from diverse cultural backgrounds and perspectives, such as race, ethnicity, sexual identities, ability, socioeconomic status, immigrant status, and urban versus rural settings
• Demonstrate the ability to develop resources and initiatives using appropriate strategies and technologies to support the well-being of children, families, schools, and communities through presentations, research, and service learning.

**Requirements**

In addition to the program requirements, students must

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (course and credit hours) at UNC–Chapel Hill
• earn a C or better in all courses for the HDFS major (core and additional requirements).

For more information, please consult the degree requirements section of the catalog (p. 100).

H  Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
†  • Must take EDUC 408 prior to enrolling in EDUC 583. Students must see the SOE Director of Advising for permission to enroll.
   • Must be taken in the semester immediately preceding the internship semester.
‡  • During the internship semester, students can only take up to three credit hours in addition to the required nine credit hour internship course. Exceptions must be approved by the program prior to the start of the internship semester.
   • The internship site must be approved by the HDFS program in the semester preceding the internship. An application must be filled out by the stated due date.

Special Opportunities in Education
Honors in the School of Education
During the spring semester of the junior year, an honors student in the School of Education participates in the first of a two-course sequence. This first course is an honors thesis class to begin the thesis preparation and writing process. During the fall semester of the senior year (the non-HDFS internship semester), the student takes the second course in the honors class sequence. Across the two courses the student completes an honors thesis. In the fall semester there is an oral examination to defend the thesis. The program is limited to students with a minimum cumulative grade point average of 3.3 at the start of the spring semester of the junior year. That is, students who wish to undertake a senior honors thesis project must have a cumulative GPA of 3.3 or higher in order to begin the project, and must maintain a cumulative GPA of 3.300 or higher through graduation.

The undergraduate minor in education is appropriate for undergraduate students interested in furthering their knowledge of education as a means of career development or to enhance their understanding of current schooling, community, and policy directions.

To declare a minor in education, you must see an advisor by appointment. During the declaration appointment, the advisor will review with you the requirements for the minor and determine if you can complete the program within the eight-semester limit.

If you intend to declare a minor in education and have already declared (or intend to declare) a major in human development and family studies (B.A.Ed.), only six (6) credit hours can double count for the education minor and the HDFS major.

More information is available on the School of Education's Web site (http://soe.unc.edu/academics/education-minor).

bergr@email.unc.edu  

**Introduction**

The School of Information and Library Science (SILS) was founded in 1931 and is one of the most highly regarded programs of its kind in the nation. The school first offered a minor in information systems in 1997 and initiated a major in information science in 2003. UNC-Chapel Hill is the only university in the state offering a bachelor’s degree in information science and is one of only a small number of schools nationwide offering such a program.

Information science is the study of cognitive, social, technological, and organizational roles of information in all its forms. It rests on three foundational pillars:

1. content: the substance of the information being created, communicated, stored, and/or transformed;  
2. people who interact with the content as creators of information, recipients of information, or intermediaries in the communication process; and  
3. technology used to support the creation, communication, storage, or transformation of the content.

The bachelor of science in information science is designed to prepare its graduates for a variety of careers in the information industry, including information architecture, database design and implementation, Web design and implementation, business systems analyst, and information consulting, as well as for graduate study. The minor in information systems provides students with an understanding of computing, multimedia, electronic information resources, and the Internet that complements their major field of study. Students concentrate their studies in the junior and senior years.

**Advising**

All majors are assigned a faculty advisor upon admission to SILS. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies and undergraduate student services coordinator work with current and prospective majors by appointment. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the SILS Web site.

Students who are double majoring are encouraged to meet periodically with an academic advisor in the College of Arts and Sciences. It is the student’s responsibility to make sure he or she is making good progress toward completing a second major outside of SILS. Information systems minors are not assigned a faculty advisor from SILS but should continue to meet with their assigned advisor in their major department.

**Career Opportunities**

Career Services at SILS assists individuals in all aspects of career development, including assessing strengths and skill sets, developing a job search strategy, and connecting students and alumni with information professionals in their field.

SILS also works closely with University Career Services and its programs and services, including on-campus recruiting for both summer internships and professional positions. Students are encouraged to take advantage of both the offerings from Handshake as well as targeted events for SILS students.

**Preparing for the Major in Information Science**

Students are subject to the requirements in place when they are admitted as a degree-seeking student to the University; consequently, the School of Information and Library Science requirements described in this catalog particularly apply to students admitted to the University during the 2018-2019 academic year.

First-year students and sophomores who plan to apply for the B.S.I.S. must complete the following prerequisites.

COMP 110 or COMP 116 | Introduction to Programming | 3

**Admission**

To apply for admission, students must "Apply for Change of Major" in ConnectCarolina. Information regarding the application process is available on the school's Web site (http://sils.unc.edu/programs/undergraduate/admissions). Applicants are asked to provide the following materials:

- A current résumé, including information about work experience and/or extracurricular activities
- A brief essay (100–300 words), discussing the role of information (its creation, communication, storage, and/or transmission) in a
particular application area or in society at large, and the candidate's reason(s) for pursuing the major in information science.

Applications for the spring semester are available September 1 through October 1. Applications for the fall semester are available February 1 through March 1. Applications are accepted only during the application windows. No paper applications are accepted.

Questions can be addressed to the Undergraduate Student Services Coordinator, School of Information and Library Science, CB# 3360, 107 Manning Hall; or by sending e-mail to sils-ug@ils.unc.edu; or by calling (919) 962-0208.

Major

- Information Science Major, B.S. (p. 976)

Minor

Professors

Stephanie W. Haas, Sandra Hughes-Hassell, Christopher (Cal) Lee, Robert M. Losee, Gary Marchionini (Cary C. Boshamer Distinguished Professor), Javed Mostafa, Arcot Rajasekar, Helen R. Tibbo (Alumni Distinguished Professor).

Associate Professors

Jaime Arguello, Robert Caora, Melanie Feinberg, Claudia Gollop, David Gotz, Bradley M. Hemminger, Brian W. Sturm, Ryan B. Shaw, Zeynep Tufekci.

Assistant Professors

Mary Grace Flaherty, Amelia Gibson, Mohammad Hossein Jarrahi, Lukasz Mazur, Fei Yu.

Clinical Professor

Paul Jones (Director, ibibio).

Clinical Associate Professor

Cliff Missen (Director, WiderNet Project).

Clinical Assistant Professor

Ronald Bergquist (Associate Dean for Academic Affairs).

Lecturers

Denise Anthony.

INLS–Information and Library Science

Undergraduate-level

INLS 73. First-Year Seminar: Smart Cities. 3 Credits.
Topics and trends in sustainable and smart cities. Role of information in the design of network resources and impact on urban design, development, and urban living will be explored.
Grading status: Letter grade.

INLS 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course; content will vary each semester.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading status: Letter grade.

INLS 151. Retrieving and Analyzing Information. 3 Credits.
Introduction to and application of the processes that can be used in seeking information, evaluating the quality of the information retrieved, and synthesizing the information into a useful form.
Gen Ed: SS.
Grading status: Letter grade.

INLS 161. Tools for Information Literacy. 3 Credits.
Tools and concepts for information literacy. Includes software use and maintenance, computer applications, and networked information systems.
Grading status: Letter grade.

INLS 201. Foundations of Information Science. 3 Credits.
Examines the evolution of information science; information representation, organization and management; search and retrieval; human information seeking and interaction; organizational behavior and communication; policy, ethics and scholarly communication.
Gen Ed: SS.
Grading status: Letter grade.

INLS 202. Retrieval and Organizing Systems. 3 Credits.
Introduction to foundational core concepts and core techniques in information organization, information retrieval, and data mining.
Requisites: Prerequisite, INLS 201.
Grading status: Letter grade.

INLS 203. Human Information Behavior. 3 Credits.
Introduces key areas and concepts in information science, to include task modeling, information-seeking behavior, search behavior, human-computer interaction, usability, user interfaces, social media, and social media analysis.
Requisites: Prerequisite, INLS 201.
Grading status: Letter grade.

INLS 318. Human Computer Interaction. 3 Credits.
Design, implementation, and evaluation of interfaces for computer systems. User-based techniques, usability issues, and human factors.
Requisites: Prerequisite, INLS 382.
Grading status: Letter grade.

INLS 382. Information Systems Analysis and Design. 3 Credits.
Analysis of organizational problems and how information systems can be designed to solve those problems. Application of database and interface design principles to the implementation of information systems.
Requisites: Pre- or corequisite, INLS 161.
Grading status: Letter grade.
INLS 384. Information and Computer Ethics. 3 Credits.
Overview of ethical reasoning, followed by examination of ethical issues relevant to information science, including access to information and technology, societal impacts of technology, information privacy, surveillance and security, intellectual property, and professional ethics.
Requisites: Prerequisite, INLS 201.
Gen Ed: PH, CI.
Grading status: Letter grade.

INLS 385. Information Use for Organizational Effectiveness. 3 Credits.
Basic concepts in the way that information, people, and technology interact to influence organizational effectiveness. Principles of problem solving, teamwork, leadership, and organizational change/innovation.
Grading status: Letter grade.

INLS 393. Information Science Internship. 3 Credits.
Permission of the school. Supervised observation and practice in information science. The internship typically takes place in an information agency or an information technology company. Faculty-led seminars and a paper enhance the experience. Pass/Fail only.
Grading status: Pass/Fail.

INLS 396. Independent Study in Information Systems. 1-3 Credits.
Study by an individual student on a special topic under the direction of a specific faculty member. A prospectus/plan for the work is required in advance of registration.
Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading status: Letter grade.

Advanced Undergraduate and Graduate-level

INLS 418. Human Factors in System Design. 3 Credits.
Design, implementation, and evaluation of interfaces for computer systems. User-based techniques, usability issues, and human factors.
Requisites: Prerequisite, INLS 382.
Grading status: Letter grade.

INLS 465. Understanding Information Technology for Managing Digital Collections. 3 Credits.
Prepares students to be conversant with information technologies that underlie digital collections in order to evaluate the work of developers, delegate tasks, write requests for proposals, and establish policies and procedures. Teaches students how to think about information technology systems and recognize and manage interdependencies between parts of the systems.
Grading status: Letter grade.

INLS 490. Selected Topics. 1-3 Credits.
Exploration of an introductory-level special topic not otherwise covered in the curriculum. Previous offerings of these courses do not predict their future availability; new courses may replace these.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading status: Letter grade.

INLS 500. Human Information Interactions. 3 Credits.
The behavioral and cognitive activities of those who interact with information, with emphasis on the role of information mediators. How information needs are recognized and resolved; use and dissemination of information.
Requisites: Prerequisite, INLS 203 or graduate standing.
Grading status: Letter grade.

INLS 501. Information Resources and Services. 3 Credits.
Analysis, use, and evaluation of information and reference systems, services, and tools for both printed and electronic delivery. Provides a foundation in electronic information search techniques, question negotiation, interviewing, and instruction.
Grading status: Letter grade.

INLS 502. User Education. 3 Credits.
Examines the history and context of LIS training programs. Pedagogy, teaching skills, methods of evaluation are addressed. Students may tailor learning projects to their own interests.
Requisites: Prerequisite, INLS 501; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

INLS 503. Communication Skills for Information Professionals. 3 Credits.
Through individual presentations, group exercises, and performance-centered feedback, this course seeks to improve students' ability to communicate their ideas clearly and present themselves positively in a professional setting.
Grading status: Letter grade.

INLS 509. Information Retrieval. 3 Credits.
Study of information retrieval and question answering techniques, including document classification, retrieval and evaluation techniques, handling of large data collections, and the use of feedback.
Grading status: Letter grade
Same as: COMP 487.

INLS 512. Applications of Natural Language Processing. 3 Credits.
Study of applications of natural language processing techniques and the representations and processes needed to support them. Topics include interfaces, text retrieval, machine translation, speech processing, and text generation.
Requisites: Prerequisite, COMP 110, 116, or 410.
Grading status: Letter grade
Same as: COMP 486.

INLS 513. Resource Selection and Evaluation. 3 Credits.
Identification, provision, and evaluation of resources to meet primary needs of clientele in different institutional environments.
Grading status: Letter grade.

INLS 515. Consumer Health Information. 3 Credits.
Examines concepts of health, health conditions, policy, and information collections and services from social and cultural perspectives. Analysis and design for provision and access to consumer health information services.
Grading status: Letter grade.

INLS 520. Organization of Information. 3 Credits.
Introduction to the problems and methods of organizing information, including information structures, knowledge schemata, data structures, terminological control, index language functions, and implications for searching.
Grading status: Letter grade.

INLS 523. Introduction to Database Concepts and Applications. 3 Credits.
Design and implementation of basic database systems. Semantic modeling, relational database theory, including normalization, indexing, and query construction, SQL.
Requisites: Pre- or corequisite, INLS 161.
Grading status: Letter grade.
INLS 525. Electronic Records Management. 3 Credits. 
Explores relationships between new information and communication technologies and organizational efforts to define, identify, control, manage, and preserve records. Considers the importance of organizational, institutional and technological factors in determining appropriate recordkeeping strategies. 
Grading status: Letter grade.

INLS 530. Young Adult Literature and Related Materials. 3 Credits. 
A survey of print and nonprint library materials particularly suited to the needs of adolescents. 
Grading status: Letter grade.

INLS 534. Youth and Technology in Libraries. 3 Credits. 
This course encourages students to explore the array of technologies available to children and adolescents, the issues surrounding the use of technology, the role of care givers, and potential impacts on development. 
Grading status: Letter grade.

INLS 539. Going the Last Mile: Information Access for Underserved Populations. 3 Credits. 
In this course we investigate the special challenges of providing information services to marginalized populations in an increasingly digital world. 
Grading status: Letter grade.

INLS 540. Building a Personal Digital Library. 3 Credits. 
Students will implement a personal digital LifeTime Library. Topics include creation of a personal digital library, organization of the material, creation of descriptive metadata, management, and sharing of the collection. 
Grading status: Letter grade.

INLS 541. Information Visualization. 3 Credits. 
An introduction to information visualization through reading current literature and studying exemplars. The course reviews information visualization techniques, provides a framework for identifying the need for information visualization, and emphasizes interactive electronic visualizations that use freely available tools. Students will construct several visualizations. No programming skills are required. 
Grading status: Letter grade.

INLS 550. History of the Book and Other Information Formats. 3 Credits. 
The history of the origin and development of the book in all its formats: clay tablets to electronic. Coverage includes scientific and other scholarly publications, religious works, popular literature, periodicals, and newspapers. 
Grading status: Letter grade.

INLS 551. History of Libraries and Other Information-Related Cultural Institutions. 3 Credits. 
The history of cultural institutions related to information from earliest times to the present day. Includes specific institutions, trends in service and facilities, and individuals important in the development of these institutions. 
Grading status: Letter grade.

INLS 554. Cultural Institutions. 3 Credits. 
This course will explore cultural institutions—libraries, museums, parks, zoological and botanical gardens, reconstructions and other settings—as lifelong educational environments. 
Grading status: Letter grade.

INLS 555. Introduction to Archives and Records Management. 3 Credits. 
Survey of the principles, techniques, and issues in the acquisition, management, and administration of records, manuscripts, archives, and other cultural and documentary resources in paper, electronic, and other media formats. 
Grading status: Letter grade.

INLS 558. Principles and Techniques of Storytelling. 3 Credits. 
An overview of storytelling, its historical development, and the presentation and administration of storytelling programs. The class focuses on performance skills merged with theoretical issues. 
Grading status: Letter grade.

INLS 560. Programming for Information Science. 3 Credits. 
Introduction to programming and computational concepts. Students will learn to write programs using constructs such as iteration, flow control, variables, functions, and error handling. No programming experience required. 
Grading status: Letter grade.

INLS 561. Digital Forensics for Curation of Digital Collections. 3 Credits. 
Students will learn about hardware, software, principles, and methods for capturing and curating digital data that have been stored on removable media (i.e., hard drives, floppy disks, USB memory sticks). 
Grading status: Letter grade.

INLS 572. Web Development I. 1.5 Credit. 
Introduction to Internet history, architecture, and applications. Introduces design principles for creating usable and accessible Web sites. Develops technical skills and understanding of standards. 
Requisites: Prerequisite, INLS 161. 
Grading status: Letter grade.

INLS 573. Mobile Web Development. 1.5 Credit. 
An introduction to techniques and technologies for the development of mobile Web sites and their applications. 
Requisites: Prerequisite, INLS 161. 
Grading status: Letter grade.

INLS 576. Distributed Systems and Administration. 3 Credits. 
Distributed and client/server-based computing. Includes operating system basics, security concerns, and issues and trends in network administration. 
Requisites: Prerequisite, INLS 161 or 461. 
Grading status: Letter grade.

INLS 578. Protocols and Network Management. 3 Credits. 
Network protocols and protocol stacks. Included are discussions of protocol classes, packet filtering, address filtering, network management, and hardware such as protocol analyzers, repeaters, routers, and bridges. 
Requisites: Prerequisite, INLS 161 or 461. 
Grading status: Letter grade.

INLS 581. Research Methods Overview. 3 Credits. 
An introduction to research methods used in information and library science, exploring the design, interpretation, analysis, and application of published research. 
Grading status: Letter grade.

INLS 582. Systems Analysis. 3 Credits. 
Introduction to the systems approach to the design and development of information systems. Methods and tools for the analysis and modeling of system functionality (e.g., structured analysis) and data represented in the system (e.g., object-oriented analysis) are studied. 
Requisites: Prerequisite, INLS 382 or graduate standing. 
Grading status: Letter grade.
INLS 584. Information Ethics. 3 Credits.
An overview of ethical reasoning, followed by discussion of issues most salient to information professionals, e.g., intellectual property, privacy, access/censorship, effects of computerization, and ethical codes of conduct.
Grading status: Letter grade.

INLS 585. Management for Information Professionals. 3 Credits.
Introduction to management principles and practices for information professionals working in all types of organizations. Topics include planning, budgeting, organizational theory, staffing, leadership, organizational change and evaluation, and decision making.
Grading status: Letter grade.

INLS 586. Project Management. 1.5 Credit.
Strategies and skills needed to effectively manage projects, integrating project management theory with best practices in different organizational perspectives. Individual and team assignments include readings and case studies.
Grading status: Letter grade.

INLS 609. Experimental Information Retrieval. 3 Credits.
This course takes an in-depth look at experimental information retrieval systems that focus on different search tasks and are evaluated in community-wide evaluation forums such as TREC and INEX.
Requisites: Prerequisite, INLS 509.
Grading status: Letter grade.

INLS 613. Text Mining. 3 Credits.
This course will allow the student to develop a general understanding of knowledge discovery and gain a specific understanding of text mining. Students will become familiar with both the theoretical and practical aspects of text mining and develop a proficiency with data modeling text.
Grading status: Letter grade.

INLS 620. Web Information Organization. 3 Credits.
Similar programming background needed. Understand the Web as a platform for information organizing systems. Learn how the Web has been designed to be a service platform, data publishing platform, and application platform.
Requisites: Prerequisites, INLS 520 or 560.
Grading status: Letter grade.

INLS 621. Personal Information Management. 3 Credits.
This course focuses on issues in personal information management research and practice, including information organization, human cognition and memory, task continuity across devices, preservation, and the role of technology in personal information management.
Grading status: Letter grade.

INLS 623. Database Systems II: Intermediate Databases. 3 Credits.
Intermediate-level design and implementation of database systems, building on topics studied in INLS 523. Additional topics include MySQL, indexing, XML, and nontext databases.
Requisites: Prerequisites, INLS 382 or 582, and 523.
Grading status: Letter grade.

INLS 624. Policy-Based Data Management. 3 Credits.
Students will develop policies for managing digital repositories and persistent archives. The rules will be implemented in the integrated Rule-Oriented Data System (iRODS), which organizes and distributes data into shareable collections.
Requisites: Prerequisite, INLS 461 or COMP 110 or 116.
Grading status: Letter grade.

INLS 625. Information Analytics. 3 Credits.
This course introduces analytical techniques to deal with very large data sets. Students will become familiar with predictive modeling, clustering, data mining, and paradigms such as map resource.
Requisites: Prerequisite, INLS 560; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

INLS 626. Introduction to Big Data and NoSQL. 1.5 Credit.
Information is being generated at an exponential scale in many areas, from astronomy to social networking and e-marketing. Processes for handling these data are data intensive, require heavy read/write workloads, and do not need the stringent ACID properties of relational databases. Several specific systems will be studied as examples.
Requisites: Prerequisite, INLS 523.
Grading status: Letter grade.

INLS 641. Visual Analytics. 3 Credits.
This project-based course provides an overview of visual analytics. Material includes foundational concepts and theories, seminal and recent research in the field, and hands-on experience with commonly used technologies. Programming experience strongly recommended.
Grading status: Letter grade.

INLS 651. Audio-Visual Archives Management. 1.5 Credit.
An introduction to the management of audio, film, and video archives with an emphasis on the history of recording, best practices for preservation and access, and copyright. Through selected readings, lecture, class discussion, assignment, and hands-on demonstration, students will gain an understanding of the history of recording, format identification, storage and handling, philosophy of media preservation, and copyright.
Grading status: Letter grade.

INLS 660. Social Media and Society: A Theoretical and Empirical Overview. 3 Credits.
Explores the evolution, implications, and complications of social media in multiple spheres of life including sociality, community, politics, power and inequality, education, and information from theoretical and empirical perspectives.
Grading status: Letter grade.

INLS 672. Web Development II. 3 Credits.
Study of design and implementation of applications using both client and server side configuration and programming. Example topics include PHP, ruby on Rails, and Javascript.
Requisites: Prerequisite, INLS 572.
Grading status: Letter grade.

INLS 690. Intermediate Selected Topics. 1-3 Credits.
Exploration of a special topic not otherwise covered in the curriculum, at an intermediate level. Previous offering of this course does not predict future availability; new courses may replace these. Topic varies by instructor.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading status: Letter grade.

INLS 691H. Research Methods in Information Science. 3 Credits.
Senior standing and permission of the instructor. Restricted to information science majors. An introduction to research methods used in information science. Includes the writing of a research proposal.
Gen Ed: CI, EE- Mentored Research.
Grading status: Letter grade.
INLS 692H. Honors Thesis in Information Science. 3 Credits.
Senior standing and permission of the instructor. Restricted to information science majors. Students in the SILS undergraduate honors program engage in independent research and write an honors thesis reporting the research under the supervision of a faculty member.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

INLS 696. Study in Information and Library Science. 1-3 Credits.
Study by an individual student on a special topic under the direction of a specific faculty member. Six credit maximum for master's students.

Graduate faculty.

Requisites: Prerequisite, permission of the instructor.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

INLS 697. Information Science Capstone. 3 Credits.
Senior standing required. Information science major or minor. Contemporary topics of information science, information systems, information technology, information design, and information management. Assessment of future impact of new developments.

Grading status: Letter grade.

The bachelor of science in information science is designed to prepare its graduates for a variety of careers in the information industry, including information architecture, database design and implementation, Web design and implementation, business systems analyst, and information consulting, as well as for graduate study.

The information science major integrates the study of the creation and management of information content, the characteristics and needs of the people who create and use information, and the technologies used to support the creation and manipulation of information. Graduating students will

- Understand the many ways in which information can be created, communicated, stored, and/or transformed in order to benefit individuals, organizations, and society
- Possess practical skills for analyzing, processing, and managing information and for developing and managing information systems in our knowledge-based society. They will possess problem-solving and decision-making skills, be able to use information tools effectively, and be able to take a leadership role in our information economy
- Comprehend the value of information and information tools, and their role in society and the economy
- Be prepared to evaluate the role of information in a variety of industries, in different organizational settings, for different populations, and for different purposes
- Maintain a strong sense of the role of information in society, including historical and future roles

Admission (p. 971) to the program is required.

- Ph.D. in Information and Library Science (http://catalog.unc.edu/graduate/schools-departments/information-library-science)

Student Learning Outcomes

Upon completion of the information science program, students should be able to:

- Demonstrate knowledge of the many ways in which information can be created, communicated, stored, and/or transformed, in order to benefit individuals, organizations, and society
- Demonstrate practical skills in analyzing, processing, and managing information and developing and managing information systems in a knowledge-based society
- Apply problem-solving and decision-making skills
- Effectively utilize information tools in preparation to taking a leadership role in the information economy
- Recognize the value of information and information tools, and their role in society and the economy
- Evaluate the role of information in a variety of industries, in different organizational settings, for different populations, and for different purposes

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC-Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC-Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).
For more information, please consult the degree requirements section of the catalog (p. 100).

B.S.I.S. students are not allowed to complete more than 45 credits of their program (i.e., 45 of the 120 credits needed for graduation from UNC–Chapel Hill) in INLS courses. They may take a few additional INLS electives but are encouraged to acquire a broad education in the liberal arts and sciences.

All INLS courses (p. 972) must be completed with a grade of C or better. Students may not select the Pass/Fail option for any of the courses fulfilling requirements for the B.S.I.S. major or for any additional INLS electives, except for INLS 393. INLS 393 is only graded Pass/Fail. A minimum grade point average for graduation is 2.0.

Special Opportunities in SILS

Dual Bachelor’s–Master’s Degree Program

The dual bachelor’s–master’s program is intended to enable information science majors to obtain both their bachelor’s and master’s degrees by early planning of an undergraduate program that integrates well with the graduate degree requirements for either a master’s in information science (M.S.I.S.) or a master’s in library science (M.S.L.S.).

Applying to the dual-degree program occurs in two steps. First, the student must apply to the B.S.I.S. program with intent to pursue the dual degree. The student must apply to the master’s program in the sixth, seventh, or eighth semester of undergraduate study. For admission to study at the master’s level in the fall semester, students should meet the application deadline in the prior spring, and for admission in the spring semester, the prior fall. In other words, students must apply in time to be continually enrolled, with no “gap” semester. The curriculum for the dual degree can be found on the SILS Web site (http://sils.unc.edu/programs/bs-ms/curriculum).

Up to 12 credit hours of information science coursework taken while an undergraduate can be applied to the master’s degree if the coursework is not also used to satisfy the graduation requirements for the bachelor’s degree. The requirements for the master’s degree can be found in the Graduate Catalog.

Students interested in the dual-degree program are strongly advised to consult the director of undergraduate studies or the undergraduate student services coordinator at SILS in their sophomore year to discuss eligibility and an appropriate plan of study.

Honors in Information Science

An honors program is available to information science majors who have demonstrated the ability to perform distinguished work. The honors thesis allows exceptional students in the undergraduate major to demonstrate the ability to treat a problem in a substantial and scholarly way. Students write an honors thesis on a topic related to information science and defend it before a faculty committee. They may graduate with honors or highest honors.

The honors program consists of two courses: INLS 691H and INLS 692H. INLS 691H will be taken in the fall of the senior year. In this course, each student selects a research topic of interest, learns about research methods, and writes a research proposal. Assuming satisfactory completion of INLS 691H, students register for INLS 692H in the spring of their senior year. The student and advisor meet regularly to discuss the student’s research and writing. The second reader for the thesis, identified jointly by the student and advisor, is chosen by the end of January. The director of the SILS honors program is the third reader. The thesis must be completed and circulated to the thesis committee by mid March, and the oral defense of the thesis must take place at least one week prior to the due date. Refer to Honors Carolina for official due dates. The final approved thesis must be submitted electronically via the Carolina Digital Repository (CDR).

Students may apply for the honors program in the spring of their junior year. The requirements for conducting an honors thesis in information science include having taken at least four INLS courses, including two numbered above 299, and having a total INLS grade point average of at least 3.5. The student should have an overall grade point average of at least 3.3. Enrolling in INLS 692H is contingent on completing INLS 691H with a grade of A- or higher.

Students who complete a high-quality thesis will graduate with honors; those whose thesis is exceptional will graduate with highest honors.

Facilities/Resources

SILS maintains a combined specialized library and computer laboratory with ample seating for student collaborative work. The SILS Library is part of the UNC–Chapel Hill Academic Affairs Library System, and its collections are available for use in the library by all interested persons. The current collection consists of over 100,000 volumes and several hundred serials titles. The SILS computer laboratory is located in the school’s Information Technology and Resource Center in Manning Hall and is available to students enrolled in SILS courses and programs. More than 40 PCs are available for student use, with space for use of student laptops in a wireless environment. A large selection of software is available, including data management, word processing, publishing, statistical analysis, Internet tools, graphics, development tools, multimedia, etc. Student assistants staff the help desk and are available to answer questions.

SILS students also have access to a small student lounge in Manning Hall.

Field Experience

As a professional school at UNC–Chapel Hill, we encourage students to use the technical and theoretical knowledge they gain in the classroom in professional settings. Many SILS students participate in field experiences (INLS 393) whereby they gain experience in a setting of the student’s choosing.

Students must spend 135 hours at the site, attend field experience seminars, and produce a short paper for their field experience faculty
advisor. Students are eligible for field experiences once they have completed their junior year and three INLS courses: INLS 161, INLS 201, and INLS 382. Field experiences can be taken in any semester, including the summer, and can be in any information setting.

Student Involvement

Undergraduate students are encouraged to participate in Information Science Student Undergraduates Empowered (ISSUE). All of the school’s standing committees have student representation, and all students are members of ISSUE. In addition, students may participate in professional associations in information and library science, including the student chapters of the Association for Information Science and Technology (ASIS&T), the Student Chapter of the American Library Association (SCALA), Special Libraries Association (SLA), the Art and Museum Library and Information Student Society (AMLISS), the Student Chapter of the Society of American Archivists (SCOSAA), and Checked Out: SILS Diversity.

Study Abroad

SILS has formal study abroad agreements with seven information schools in the Czech Republic, Singapore, Denmark, South Korea, Chile, Spain, and Ireland. Students can spend a summer, semester, or year studying abroad to earn course credit toward their information science major or information systems minor. The exchanges are administered through the UNC Study Abroad Office but are managed by SILS. Credit transfer should be confirmed with SILS before beginning the exchange. In addition, UNC-Chapel Hill has formal university ties with approximately 75 other universities — many of them with library and information science schools. SILS also offers short-term summer seminars in various locations. These programs are two weeks in length and offer an in-depth view on information science. Students who wish to enjoy an international experience while studying at SILS are encouraged to talk with the SILS international programs coordinator.

Undergraduate Awards

Two scholarships of $1,000 each are awarded to newly admitted undergraduates in the spring and fall. Undergraduates completing an honors thesis are eligible to apply for a Carnegie Grant. This award of up to $200 may be used to offset any costs that might occur during their research.

Undergraduate Research

Undergraduates enrolled in the honors program conduct research as part of the completion of their honors thesis. Students not in the honors program may also take advantage of a number of opportunities to participate in research with faculty members.

Introduction
The School of Media and Journalism was founded as the Department of Journalism in 1924 and became the School of Journalism in 1950. The school offers a course of study leading to the bachelor of arts with a major in media and journalism, a bachelor of arts with a major in business journalism, and a minor in media and journalism.

When the school was last accredited in 2015 by the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC), the national team stated that the school “has earned a reputation as one of the premier programs.”

Today, more than 10,000 of the school’s alumni are active in every aspect of media and journalism. They hold high positions with newspapers, international news agencies, magazines, Internet companies, broadcasting companies, and advertising agencies; in public relations, business journalism, photo and video journalism, and graphic design; and in research, government, education, and industry.

Advising
For students who have been accepted to the School of Media and Journalism, advising is available year round on a walk-in basis in Carroll Hall, Student Records and Registration (Rooms 158–160), Monday through Friday, 8:00 a.m. to 5:00 p.m. Students are strongly encouraged to meet regularly with an advisor. Advising for College of Arts and Sciences second majors is available by appointment in Academic Advising, located in Steele Building.

Graduate School
The school offers an M.A. degree in mass communication and a Ph.D. degree in mass communication. MEJO graduate courses may be used as minor or supplementary courses for the M.A. and Ph.D. in other fields. For further information on the graduate program, write to the associate dean for graduate studies of the School of Media and Journalism or see the school’s Web site.

Career Opportunities
The school operates a Career Services Office (located in the Student Records and Registration Suite, Carroll Hall), which is designed to fit the right graduating senior (or alumnus or alumna) with the right job.

Students in the school are also encouraged to use the services of University Career Services.

Contact Information
Information is available from the Office of Student Records and Registration in Carroll Hall, from the Dean’s Office in 117 Carroll Hall, or from the senior associate dean for undergraduate studies. Current and prospective students will also find the school’s Web site (http://www.mj.unc.edu) helpful. A weekly newsletter is sent by e-mail to media and journalism majors and prospective majors during the academic year. Contact the assistant dean for communication to be added to the listserv.

Admission to the School
Students are subject to the requirements in place when they are admitted to the University of North Carolina at Chapel Hill; consequently, the requirements described in this catalog particularly apply to students admitted to the University during the 2017–2018 academic year.

Students enroll in the General College of the University during their first two years, after which they may transfer to the School of Media and Journalism. (Students may take some MEJO courses in the first two years as noted in the section on preparing for the major.) It is highly recommend that students interested in the school declare in advance that their primary major will be in media and journalism. At the same time students should indicate a study area of interest.

Undergraduate admission to UNC–Chapel Hill is handled by the University’s Office of Undergraduate Admissions, and requests for information and application forms should be sent to that office. The Office of Undergraduate Admissions also will advise transfer students on the proper first-year and sophomore courses to take in preparation for junior-year transfer to Chapel Hill from other campuses.

Students typically are admitted to the school when they attain sophomore standing with a total of 45 or more completed hours and have completed most of the requirements of the General College on the Chapel Hill campus or have earned grades of C or better in equivalent courses at other recognized institutions. To qualify for admission from the General College or from another UNC–Chapel Hill department or school, students must meet the minimum overall 3.1 grade point average required for admission to the school. Although students can take up to 24 hours of MEJO courses prior to being admitted, the grade point average policy will be strictly followed. Students will not be admitted to the school to finish the courses required for the degree if they do not meet the grade point average requirement.

Because the University limits the number of transfer students from other institutions, transfer applicants compete for admission to the school on the basis of grade point averages and other academic credentials, and on such matters as commitment to a career in media and journalism and letters of recommendation. The Office of Undergraduate Admissions makes the final decision on admitting transfer students, after consultation with the school.

Preparation for the Major
Students should take MEJO 153 and MEJO 121 in the first semester of their sophomore year. MEJO 101 and MEJO 102 are open to first-year students and sophomores. Seniors have first priority for courses, then juniors, then sophomores. Many courses require prerequisites and are restricted to majors only.

The school prepares students for careers in media and journalism by offering an academic program that provides a basic liberal arts education, an understanding of the responsibilities of free press and free speech in a democratic society, and a fundamental knowledge of journalistic and media techniques and substance.

The philosophy that guides the school is that journalists and communicators must understand the political, social, economic, and cultural forces that operate within society. For this reason, students acquire a background in the humanities, social sciences, and natural sciences while preparing themselves for media and journalism careers.

More than perhaps any other field, journalism requires a strong foundation in word usage, grammar, punctuation, and other writing skills. Students must score at least 70 percent on the school’s usage and grammar examination as a condition for graduation. The examination is administered several times a semester and during the summer.

Students are responsible for meeting all other graduation requirements. If they have questions about their requirements they should consult an advisor in the school’s Student Records and Registration Office (Carroll Hall) or a senior associate dean. Specific information about graduation requirements, advising, registration, and other procedures is also available on the school’s Web site.

The school cannot guarantee that courses needed to satisfy a student’s degree requirements will be offered during summer school. Students who plan to complete degree requirements in summer school should be aware that low enrollments sometimes force the school to cancel certain courses or sections during either or both summer sessions.

Outside Concentration

At least three courses in another department or school 1 9

Total Hours 12

1 Students are expected to gain a depth of knowledge of a topic outside the school. Completing another major or minor would fulfill this requirement.

Students who wish to complete a second major outside the school and who did not declare the second major before being admitted to the school must download a second-major declaration form from the school’s Web site and return it to Student Records and Registration in Carroll Hall for approval. They must then meet with an academic advisor in the College of Arts and Sciences to ensure that they can meet all requirements for the second major.

Requirements in Both Study Areas

The degree earned is the bachelor of arts with a major in media and journalism. Two areas of study are offered: a concentration in advertising/public relations and a concentration in journalism. Areas of study are not noted on the diploma. Some courses are required for all majors in the school, and each area of study has specific course requirements.

Students who enter the University in fall 2013 or later must complete a minimum of 39 credits up to a maximum of 48 credits in media and journalism with a grade point average of 2.0 or better. A grade of D in a MEJO core course will not be counted in the minimum number of media and journalism credits required for graduation; the course must be retaken if it is required for the major. If the course is not specifically required, then another course that meets the requirement the first course was meeting may be taken in its stead. MEJO 393 cannot be counted in the minimum of 39 credit hours required, but will count in the 48 credit hours allowed in media and journalism for graduation and in the total 120-credit hours required by the University. The school will normally accept only six credit hours of media and journalism courses taken at other institutions and requires students to pass exemption examinations to receive credit for certain basic courses. The school typically does not accept transfer credit for MEJO 153.

Of the basic 120 hours for graduation at least 72 hours must be outside media and journalism. Please check the course list below or ConnectCarolina for prerequisite information for MEJO courses.

Students must achieve a passing score of at least 70 on the school’s usage and grammar examination.

## Media and Journalism Major, B.A.—Advertising/Public Relations Curriculum

The advertising/public relations curriculum is for students who wish to communicate on behalf of organizations, including corporations, government agencies, nonprofit and advocacy groups, and public relations and advertising agencies. Students learn to develop persuasive advertising messages or focus on strategic communication efforts for an organization. Both are pursued within an ethical framework of communication.

**Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.**

**1** It is recommended that students take MEJO 153 and MEJO 121 together.
Students are encouraged to work on campus publications and programs such as The Daily Tar Heel, Black Ink, Blue & White, The Siren, Synapse, and the Her Campus Web site, among others. The school also offers a number of opportunities to gain professional experience including Carolina Week, Carolina Connection, Sports Xtra, The Durham VOICE, Reese News Lab, and Heelprint Communications. Students are also encouraged to join appropriate professional organizations, including campus chapters of the Society of Professional Journalists, American Advertising Federation, Public Relations Student Society of America, Carolina Association of Black Journalists (affiliated with the National Association of Black Journalists), Electronic News Association of the Carolinas, Society for News Design, National Press Photographers Association, Carolina Association of Future Magazine Editors, and SABEW.

Internships
The school strongly encourages students to obtain internships because they provide invaluable professional experience. Reporting, advertising, photo and video journalism, graphic design, broadcast news, public relations, business, and other internships are possible. Majors can enroll in MEJO 393 to receive internship credit (one credit hour, repeatable three times). MEJO 393 fulfills the experiential education General Education requirement. The school’s career services director oversees internship credit. MEJO 393 cannot be counted in the minimum of 39 credit hours required by the school, but it will count in the maximum of 48 credit hours allowed in media and journalism for graduation and in the total 120–credit hours required by the University. MEJO 153 is a prerequisite.

Study Abroad
Students are encouraged to study abroad. In addition to the programs available to all students through the UNC Study Abroad Office, the school has its own study abroad exchanges with top media and journalism schools in Australia, Argentina, Chile, France, Hong Kong, London, and Spain. Students should consult with the school’s study abroad advisor (located in Carroll Hall) to determine any media and journalism course credit prior to the study abroad term.

Undergraduate Scholarships
Many special scholarships are available to media and journalism majors and to students transferring into the school. For information, see the school’s Web site (http://mj.unc.edu) or write the senior associate dean of the school by December 1 for the following academic year.

Undergraduate Research
Undergraduates participate in research through a research pool that assists faculty members in their research and creative activities, through independent studies with faculty members to work on specific projects, and through the school’s honors program, which engages the student in substantive research that culminates in a thesis in the senior year.

Stock market swings on Wall Street, changes in how corporate America operates and is governed, and fluctuations in the United States and global economies have left many journalists and communication
professionals scrambling to improve their skills to cover such stories. The bachelor of arts with a major in business journalism teaches undergraduate students the concepts, skills, and techniques needed to report and write about such issues for media and journalism in the 21st century. It is the only such program in the University system and the only such undergraduate program at any public university east of the Mississippi River.

The School of Media and Journalism, in conjunction with the Kenan–Flagler Business School, created the major in business journalism to enable potential journalists and other communication professionals to address the growing need for understanding how markets and business work and the ability to explain these increasingly complex areas in a way that the average media consumer can understand. The program prepares undergraduate students for positions primarily in journalism but also in public relations and internal communications.

**Admission Requirements**

Students must apply within the School of Media and Journalism. Applications will be accepted in the fall only. The earliest students may apply is the fall of their sophomore year. Because admission to the major is by application only, students should provisionally declare reporting as their intended specialization in the school with an advisor in the Academic Advising Program. To enter the program, students must be classified as a sophomore with a total of 45 or more completed hours the fall following their application and have a cumulative grade point average of 3.1.

Students must provide the following documents:

1. application
2. résumé
3. writing sample
4. 200-word statement explaining why they want to join the program
5. two letters of recommendation

- M.A. in Technology and Communication (http://catalog.unc.edu/graduate/schools-departments/media-journalism/#programtext)

**Student Learning Outcomes**

Upon completion of the business journalism program, students should be able to:

- Understand and apply the principles and laws of freedom of speech and press
- Think critically, creatively, and independently
- Conduct research and evaluate information
- Write correctly and clearly early in students’ career at the School of Media and Journalism
- Apply tools and technologies appropriate for the communications professions in which they work
- Demonstrate specific knowledge in a substantive area of the field

**Requirements**

In addition to the program requirements, students must:

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

Honors in Media and Journalism
An honors program is available to students who have demonstrated their ability to perform distinguished work. Invitation to the senior-level honors courses (MEJO 691H and MEJO 692H) is based upon a grade point average of 3.5 or better in the major and 3.3 overall, recommendation by a faculty member in the school, and approval by the director of the honors program. Students successfully completing the program graduate with honors or with highest honors.

Student Involvement
Students are encouraged to work on campus publications and programs such as The Daily Tar Heel, Black Ink, Blue & White, The Siren, Synapse, and the Her Campus Web site, among others. The school also offers a number of opportunities to gain professional experience including "Carolina Week," "Carolina Connection," "Sports Xtra," The Durham VOICE,

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

1 Students receiving credit by examination for both MATH 231 and MATH 232 are exempt from this requirement.

Students must complete at least 21 credit hours with C grades or better in required MEJO courses, and at least 16 hours with C grades or better in required BUSI courses. Transfer students who receive 3.0 credit hours for BUSI 101 must still meet the 16 BUSI hours by taking an additional BUSI course of their choice.

In order to graduate, business journalism majors must achieve a score of at least 70 percent on the school's usage and grammar examination. Students have several opportunities to take the usage and grammar examination before they graduate.

To receive a bachelor of arts degree with a major in business journalism, students must complete at least 120 credit hours with a minimum 2.0 grade point average as required by the University.

Of the basic 120 hours for graduation at least 72 hours must be outside media and journalism. Within those 72 hours, at least 65 must be in the College of Arts and Sciences.

MEJO 393 will count in the maximum of 48 credit hours allowed in media and journalism for graduation and in the total 120 credit hours required by the University.

SCHOOL OF MEDICINE

WILLIAM L. ROPER, Dean

Stephen R. Hooper, Associate Dean and Chair, Department of Allied Health Sciences

Divisions of the Department of Allied Health Sciences in the UNC School of Medicine offer two professional majors to undergraduate students: the bachelor of science degree with a major in clinical laboratory science (p. 999) and the bachelor of science degree with a major in radiologic science (p. 1004). Students must apply for admission to these programs, usually in the sophomore year; admission is competitive. Following completion of the first two years’ work in the University’s General College, admitted students complete their final two years in clinical laboratory science or radiologic science.

In addition, the Division of Speech and Hearing Sciences offers a minor in speech and hearing sciences (p. 1007) for undergraduate students interested in pursuing a graduate degree in speech-language pathology or audiology.

Introduction

Clinical laboratory science (CLS), also called “medical laboratory science,” is the health profession that provides laboratory information and services needed for the diagnosis and treatment of disease. The field of clinical laboratory science combines many sciences, including microbiology, hematology, chemistry, and immunology. Clinical laboratory scientists perform a variety of laboratory tests, ensure the accuracy of the test results, explain the significance of laboratory test results, and evaluate new methods for laboratory tests. Some of the tests performed in the clinical laboratory are relatively simple. Others, such as DNA analysis and flow cell cytometry, are complex and require extensive education.

Examples of laboratory tests performed by clinical laboratory scientists include

- Detection of the abnormal cells that cause leukemia
- Analysis of cardiac enzyme activity released during a heart attack
- Identification of the type of bacteria causing an infection
- Analysis of the coagulation factors in cases of abnormal bleeding
- Detection of blood group antibodies that cause transfusion reactions
- Analysis of genetic markers for cystic fibrosis
- Typing patients for histocompatibility matches prior to transplantation

Admission to the Program

A maximum of 20 students are chosen for admission each year. Students are selected on the basis of science and mathematics prerequisite courses, grades, a written application, interviews, and letters of recommendation. Successful completion of the prerequisite courses listed under the major does not guarantee admission to the program. Because enrollment is limited, students are encouraged to begin the application process early in the fall preceding the year of enrollment. The first deadline for completed applications is the second Tuesday in January. Completed applications received after that deadline will be considered for admission if positions are available in the program.

Students are subject to the requirements in place when they are admitted to this program; consequently, the requirements described in this catalog particularly apply to students admitted during the 2018–2019 academic year.

Advising

First-year and sophomore students interested in the clinical laboratory science (CLS) major have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The director of the Division of Clinical Laboratory Science is available to meet with current and prospective majors by appointment (see contact information above). The Division of Clinical Laboratory Science provides academic advising for students who are enrolled in the program. Further information on the curriculum may be obtained from the division’s Web site.

Facilities

The laboratory facility for first-year clinical laboratory science courses includes individualized work areas with reagents, supplies, and laboratory instruments for students. In senior courses, students develop their skills in state of the art clinical laboratory facilities.

Graduate School and Career Opportunities

Clinical laboratory science provides a basis for a broad range of future endeavors. Graduates with a B.S. degree in clinical laboratory science can elect to pursue further study in medicine, dentistry, veterinary medicine, business or management, hospital administration, computer science, education, clinical chemistry, clinical microbiology, immunology, or another laboratory science area. The Division of Clinical Laboratory Science also offers a master’s degree in the clinical laboratory science—molecular diagnostic science track.

Clinical laboratory scientists are employed in hospital laboratories, commercial laboratories, physicians’ office laboratories, research institutes, clinical trials, and forensic laboratories. Clinical laboratory scientists also may be employed as technical or sales representatives for
corporations. Graduates of the program are very successful on national certification exams and enjoy high employment rates. See the alumni section of the Web site for examples of careers in clinical laboratory science.

**Major**

**Professors**

Susan J. Beck, Vicky A. LeGrys.

**Assistant Professors**

Lisa Cremeans, Tara Moon, Laine Stewart.

**CLSC—Clinical Laboratory Science**

**Undergraduate-level**

**CLSC 150. Current Topics in Clinical Laboratory Medicine. 1 Credit.**

A survey of topics in laboratory medicine including transfusions, forensic science, infectious diseases, and hematologic diseases.

**Grading status:** Letter grade.

**CLSC 410L. Laboratory Mathematics. 1 Credit.**

Permission of the instructor for nonmajors. Basic mathematical principles, calculations, quality assurance, and method validation relevant to the clinical laboratory.

**Grading status:** Letter grade.

**CLSC 410L. Basic and Molecular Laboratory Methods. 2 Credits.**

Majors only. Basic skills associated with the clinical laboratory including pipetting, spectrophotometry, standard curves, dilutions, and immunoassays. Molecular methods include small volume pipetting, microwell plating, nucleic acid extraction, and PCR techniques.

**Grading status:** Letter grade.

**CLSC 420. Urinalysis and Body Fluids. 1 Credit.**

Permission of the instructor for nonmajors. The physical, chemical, and microscopic analysis of body fluids in the clinical laboratory with an emphasis on correlation of laboratory data.

**Grading status:** Letter grade.

**CLSC 420L. Urinalysis Laboratory. 1 Credit.**

For clinical laboratory science majors only. The physical, chemical, and microscopic examination of urine with an emphasis on the correlation of laboratory data.

**Grading status:** Letter grade.

**CLSC 430. Biochemistry. 3 Credits.**

Permission of the instructor for nonmajors. Physiological biochemistry of the metabolic pathways and alterations in selected diseases. Also includes principles and applications of molecular techniques in the clinical laboratory.

**Grading status:** Letter grade.

**CLSC 440L. Hematology I Laboratory. 2 Credits.**

Permission of the instructor for nonmajors. Introduction to normal hematopoiesis, blood cell function and identification, hematologic tests, principles of hemostasis, and hemostasis disorders.

**Grading status:** Letter grade.

**CLSC 440L. Hematology I Laboratory. 1 Credit.**

Permission of the instructor for nonmajors. Basic clinical assays for identification and evaluation of erythrocytes, leukocytes, and platelets with an emphasis on microscopy. Also includes coagulation testing.

**Grading status:** Letter grade.

**CLSC 442. Hematology II. 3 Credits.**

Majors only. Hematologic disorders involving erythrocytes and leukocytes, with an emphasis on the analysis and interpretation of laboratory data.

**Grading status:** Letter grade.

**CLSC 442L. Hematology II Laboratory. 1 Credit.**

Permission of the instructor for nonmajors. Basic clinical assays for identification and evaluation of abnormal erythrocyte and leukocyte morphology, correlation with other laboratory data, and clinical interpretation.

**Grading status:** Letter grade.

**CLSC 450. Immunology. 3 Credits.**

Permission of the instructor for nonmajors. Basic immunology and serology. Innate and immune body defenses. The development and properties of cellular and humoral elements and their alterations in pathological and other conditions.

**Grading status:** Letter grade.

**CLSC 460. Special Pathogens. 2 Credits.**

Permission of the instructor for nonmajors. Study of clinically significant fungi, parasites, and atypical or unusual bacteria. Correlation of disease, disease transmission, mechanisms of pathogenicity, and diagnostic testing.

**Grading status:** Letter grade.

**CLSC 460L. Parasitology and Mycology Laboratory. 1 Credit.**

Permission of the instructor for nonmajors. Clinical laboratory diagnostic methods for human parasitic and fungal infections. Microscopic morphology of fungal organisms and parasites, including their various life cycle forms.

**Grading status:** Letter grade.

**CLSC 462. Clinical Bacteriology. 3 Credits.**

Majors only. Principles and practice of clinical bacteriology. Study of medically significant bacteria with correlation of human disease, mechanisms of bacterial pathogenicity, and laboratory diagnostics.

**Grading status:** Letter grade.

**CLSC 462L. Clinical Bacteriology Laboratory. 2 Credits.**

Majors only. A comprehensive course describing bacteria that infect humans. Correlation of diseases and pathological mechanisms of bacteria.

**Grading status:** Letter grade.

**CLSC 470. Clinical Chemistry. 3 Credits.**

Majors only. An introduction to the methods of analysis used in the clinical chemistry laboratory. Emphasis on the correlation of chemistry laboratory values with disease states.

**Grading status:** Letter grade.

**CLSC 470L. Clinical Chemistry Laboratory. 2 Credits.**

Majors only. Performance of clinical laboratory assays for significant biochemical molecules. Principles of analysis, quality control, method evaluation, and basic laboratory instrumentation are presented.

**Grading status:** Letter grade.

**CLSC 480. Immunohematology. 3 Credits.**

Majors only. Introduction to blood group serology with an emphasis on the major blood group systems, pretransfusion testing, and antibody identification.

**Grading status:** Letter grade.
CLSC 480L. Immunohematology Laboratory. 2 Credits.
Majors only. Laboratory techniques for red cell typing, antibody identification, and pretransfusion testing.
Grading status: Letter grade.

CLSC 540L. Clinical Hematology Laboratory. 4 Credits.
Majors only. Laboratory rotation in clinical hematology.
Requisites: Prerequisite, CLSC 440.
Gen Ed: EE- Field Work.
Grading status: Letter grade.

CLSC 542L. Clinical Hemostasis Laboratory. 2 Credits.
Majors only. Laboratory rotation in clinical coagulation.
Requisites: Prerequisite, CLSC 440.
Grading status: Letter grade.

CLSC 550L. Clinical Immunology Laboratory. 1 Credit.
Majors only. Laboratory rotation in clinical immunology.
Requisites: Prerequisite, CLSC 450.
Grading status: Letter grade.

CLSC 560L. Clinical Microbiology Laboratory. 4 Credits.
Majors only. Laboratory rotation in clinical microbiology.
Requisites: Prerequisite, CLSC 462.
Grading status: Letter grade.

CLSC 570L. Clinical Chemistry Laboratory Rotation. 4 Credits.
Majors only. Laboratory rotation in clinical chemistry.
Requisites: Prerequisite, CLSC 470.
Grading status: Letter grade.

CLSC 580L. Clinical Immunohematology Laboratory. 4 Credits.
Majors only. Laboratory rotation in clinical immunohematology.
Requisites: Prerequisite, CLSC 480.
Gen Ed: EE: Field Work.
Grading status: Letter grade.

CLSC 582L. Clinical Transplantation Medicine Laboratory. 1 Credit.
Majors only. Clinical rotation in histocompatibility, flow cytometry, and hematopoietic progenitor cell laboratories.
Requisites: Prerequisite, CLSC 480.
Grading status: Letter grade.

CLSC 620. Clinical Laboratory Management. 2 Credits.
Majors only. Foundation in the technical and nontechnical aspects of supervision and management of clinical laboratory testing.
Grading status: Letter grade.

CLSC 630. Research Methods in Clinical Laboratory Science. 2 Credits.
Majors only. An overview of the knowledge of research design and methods commonly used in the clinical laboratory research arena, providing the basis for the critical examination of professional literature.
Gen Ed: CI.
Grading status: Letter grade.

CLSC 650. Clinical Laboratory Science Laboratory Administration. 3 Credits.
Foundation in the technical and nontechnical aspects of supervision and management of clinical laboratory testing.
Grading status: Letter grade.

CLSC 670. Clinical Laboratory Science Educational Methods. 2 Credits.
Majors only. Introduction to the basic principles of clinical laboratory education, including objectives, learning formats, test development, and clinical teaching.
Repeat rules: May be repeated for credit. 2 total credits. 1 total completions.
Grading status: Letter grade.

CLSC 695. Undergraduate Research in Clinical Laboratory Science. 3 Credits.
This mentored and self-directed course provides students with research experience in the clinical laboratory field. Students will apply knowledge of research methods to generate results and communicate results to others. This is a clinical laboratory science elective course. Seniors only.
Requisites: Prerequisite, CLSC 630 or CLSC 730.
Grading status: Pass/Fail.

Some of the tests performed in the clinical laboratory are relatively simple. Others, such as DNA analysis and flow cell cytometry, are complex and require extensive education.

Admission (p. 997) to the program is required.

Student Learning Outcomes
Upon completion of the Clinical Laboratory Science program, students should be able to:

- Perform and evaluate pre-analytical, analytical, and post-analytical procedures to ensure the quality of laboratory results
- Perform laboratory tests, analyze and verify results, and resolve common problems in all the major areas of the clinical laboratory
- Explain the principles and methods used in laboratory tests in all major areas of the clinical laboratory
- Explain the clinical significance of laboratory procedures in diagnosis and treatment of disease and maintenance of health
- Correlate information from different laboratory departments to verify results or resolve problems
- Evaluate patient results and suggest or select appropriate additional testing
- Determine the priority of laboratory requests and arrange the workload for optimal patient care and efficiency
- Obtain acceptable blood samples for laboratory tests using standard phlebotomy procedures
- Use quality assurance principles and practices to ensure the accuracy and reliability of laboratory information
- Perform preventive and corrective maintenance of equipment and instruments
• Use the principles of method evaluation to select new techniques and instruments
• Explain and apply the major principles and practices of laboratory administration, supervision, and budgeting
• Explain and apply principles of effective test utilization
• Comply with all standard safety regulations and monitor changes in safety regulations
• Use educational methods to present information and develop instructional materials
• Use computer systems to produce documents, research information, communicate with others, and enter and retrieve laboratory information
• Apply principles of management to the acquisition and evaluation of laboratory information systems
• Communicate effectively with laboratory personnel, other health care professionals, patients, and the public
• Demonstrate professional conduct and interpersonal skills with patients, laboratory personnel, other health care professionals, and the public
• Demonstrate ethical standards in all matters related to medical information and patient care

Requirements
In addition to the program requirements, students must
• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 100).

The schedule of academic work for clinical laboratory science majors includes the following General Education requirements. Students must complete all Foundations and Approaches requirements and take at least five Connections courses, including global issues, experiential education, and U.S. diversity. In addition, the following prerequisite courses must be completed before entering the Clinical Laboratory Science program:

**H** Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

After admission (p. 1002) to the CLS program, students take courses in all the major areas of clinical laboratory science including clinical chemistry, hematology, hemostasis, microbiology, transfusion medicine, and transplantation medicine. Senior students rotate through the clinical laboratories at UNC Hospitals and other laboratories in the state. They also take advanced courses in the clinical laboratory sciences. Honors contracts are available for students in the Honors program.

### Sample Plan of Study
Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create...
a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first and sophomore years, clinical laboratory science majors satisfy General Education requirements and take a basic science curriculum comparable to that of other science students. In the sophomore year, students apply for admission (p. 997) into the UNC–Chapel Hill General College are required to satisfy all Foundations and Approaches requirements and take at least five Connections courses, including global issues, experiential education, and U.S. diversity courses.

The junior year includes courses that cover the principal areas of clinical laboratory science. Students also learn and practice laboratory techniques in a student laboratory. Senior students rotate through the clinical laboratories at UNC Hospitals and other laboratories in the state. They also take advanced courses in the clinical laboratory sciences.

The suggested course sequence for the required preclinical laboratory science courses at UNC–Chapel Hill is listed below. Transfer students receiving placement credit may have a slightly different sequence.

Special Opportunities in Clinical Laboratory Science

Departmental Involvement

Student ambassadors in the Department of Allied Health Sciences organize students' professional activities and social events. The CLS Service Society provides opportunities for students to work together to promote the CLS profession and provide services to the community.

Experiential Education

Senior clinical courses provide a range of clinical laboratory experience in chemistry, hematology, hemostasis, microbiology, transfusion medicine, immunology, histocompatibility, and molecular testing.

Certification

Upon successful completion of the clinical laboratory science curriculum, graduates receive the B.S. degree with a major in clinical laboratory science. A certificate is also awarded by the Division of Clinical Laboratory Science and the Department of Allied Health Sciences. Graduates of the program are eligible to take the national certification examination in medical laboratory science.

Accreditation

The Clinical Laboratory Science Program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences, 5600 N. River Road, Suite 720, Rosemont, IL, 60018-5119, (773) 714-8880, www.naacls.org (http://www.naacls.org).

Undergraduate Awards

Louise Ward Scholarships: Three scholarships are awarded to clinical laboratory science students each year based on academic excellence, potential for success as a clinical laboratory science student and practitioner, and financial need.

Additional scholarships available to clinical laboratory science students include:

- The Lanning-Taylor Scholarship, awarded to a senior clinical laboratory science student
- The Raleigh Pathology Laboratory Associates Scholarship, awarded to a junior or a senior student
- The WakeMed Health and Hospital Annual CLS Scholarship, awarded to a junior or senior student
- The Allene W. Alphin and Jesse C. Alphin Scholarships, awarded to two clinical laboratory science students

Outstanding CLS Student: Each year a clinical laboratory science senior is named as the outstanding student based on nominations from clinical and academic faculty members.

Introduction

The School of Medicine’s radiologic science program is designed to prepare individuals for professional practice and associated responsibilities in the health specialty of medical imaging. Graduates provide patient assessment and care required for medical imaging procedures in addition to insuring that the highest quality imaging study is completed with the patient’s radiation dose as a factor. In addition to diagnostic radiology, students may select other imaging modalities and practice areas for additional competence and training. These other areas include pediatrics, mammography, computed tomography, magnetic resonance imaging, vascular interventional radiology, and cardiac catheterization laboratory. The curriculum includes course discussions and projects on global health imaging issues and the potential for international experiences in medical imaging departments and programs abroad.

Admission to the Program

Following completion of the first two years’ work in the University’s General College, students may be admitted to the professional major offered by the Department of Allied Health Sciences of the UNC School of Medicine. Students enrolled at other colleges and universities who are interested in transferring to the Chapel Hill campus following their sophomore year should contact the Office of Undergraduate Admissions and the Division of Radiologic Science early in their college career to assure proper planning and transferability of courses. Students are encouraged to begin the application process early in the fall semester preceding the year of intended enrollment. The program begins in Summer Session II each year. Transfer applications should be received in the Office of Undergraduate Admissions by the designated University deadline, which is usually early January.

Since enrollment in the major is limited, completion of the student’s course of study in the General College does not guarantee a position in the professional class. Students should contact the Division of Radiologic Science in the fall semester preceding anticipated enrollment to receive admissions information. Student selections are made on a competitive basis with consideration given to academic achievement, character, both written and oral communication skills, and demonstrated interest in medical imaging as a professional career.

Students are subject to the requirements in place when they are admitted to this program; consequently, the requirements described in this catalog particularly apply to students admitted during the 2018–2019 academic year.

Advising

First-year and sophomore students interested in the B.S. degree with a major in radiologic science have a primary academic advisor in Steele Building during the first two years of the degree program. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The director of the Division of Radiologic Science is available to meet with current and prospective majors by appointment (see contact information above). The division’s faculty provides academic advising for students who are enrolled in the program. Further information on the curriculum may be obtained from radiologic science Web site (http://www.med.unc.edu/ahs/radisci).

Division of Radiologic Science

Facilities

The program has a state-of-the-art laboratory with digital imaging capabilities in the Burnett-Womack Building adjacent to the offices and
classroom building. The laboratory includes radiography and fluoroscopic equipment with digital imaging plate readers and software.

**Graduate School and Career Opportunities**

The Division of Radiologic Science bachelor of science degree program provides a basis for further study. Additional clinical specializations are available in diagnostic medical sonography (ultrasound), nuclear medicine, and radiation therapy. Graduates may elect graduate studies in health physics, business and education, management, public health, and other health professions. The division offers a master’s in radiologic science degree program for those students seeking advanced clinical practice as a radiologist assistant.

The clinical practice of medical imaging (radiologic technology) may include one or more of the specialty areas listed here, depending on professional preference and the type, size, and mission of the health facility where the technologist is employed: general radiography (such as orthopedics or pediatrics), vascular imaging, cardiac catheterization, computed tomography, and magnetic resonance imaging. Responsibilities and salaries vary according to the area and scope of practice.

Employment opportunities available in a variety of settings, in both rural and urban areas, include

1. more generalized practice in medium to small hospitals;
2. specialized clinical practice in a large hospital;
3. clinics and free-standing imaging centers, which may offer both special and general practice opportunities; or
4. clinical practice coupled with expanded responsibilities in quality control, service education, and supervision, particularly in a large hospital.

**RADI—Radiologic Science**

**Advanced Undergraduate and Graduate-level**

**RADI 432. Concepts and Perspectives in Radiologic Science. 1 Credit.**

This overview of radiologic science encompasses patient care, imaging modalities for diagnosis and treatment, radiation protection, health care trends, and information management systems. Pass/Fail course.

**Grading status: Pass/Fail.**

**RADI 442. Introduction to Radiologic Science. 3 Credits.**

Majors only. Lectures, discussions, demonstrations, and laboratory exercises are combined to introduce topics including patient assessment, image characteristics, radiation protection, positioning skills, medical terminology, and the role of imaging sciences in health care.

**Grading status: Letter grade.**

**RADI 461. Radiography I. 4 Credits.**

Prepares students for standard radiography of upper extremities, lower extremities, axial skeleton, bony thorax, chest, abdomen, and the basic skull, considering pathologies and gross, radiographic, and cross-sectional anatomy. Three lecture hours and two laboratory hours.

**Requisites:** Prerequisites, AHSC 440 and RADI 442.

**Grading status: Letter grade.**

**RADI 471. Radiography II. 3 Credits.**

The course content prepares students for standard radiography of cranial bones, facial bones, and special cranial projections. Contrast studies include gastrointestinal, urinary, biliary, cardiovascular, and other special procedures. The course includes pathologies, and gross, radiographic, and cross-sectional anatomy. Two lecture hours and two laboratory hours.

**Requisites:** Prerequisite, RADI 461.

**Grading status: Letter grade.**

**RADI 463. Clinical Education I. 4 Credits.**

A clinical course focusing on the application and evaluation of radiography in the hospital setting. With supervision, the student develops clinical skills through observation and participation in radiographic procedures. Twenty practicum hours.

**Requisites:** Prerequisites, AHSC 440 and RADI 442.

**Grading status: Letter grade.**

**RADI 465. FOUNDATIONS IN RAD THER. 4 Credits.**

**RADI 472. Radiographic Imaging II. 4 Credits.**

A detailed study of specific elements of the radiographic process, with an emphasis on the interrelationships of the radiographic parameters, refinement of image analysis and problem-solving skills, and quality control testing for evaluating the performance of the radiographic equipment and accessories. Three lecture hours and two laboratory hours.

**Requisites:** Prerequisite, RADI 462.

**Grading status: Letter grade.**
RADI 473. Clinical Education II. 4 Credits.
A continuation of RADI 463 with emphasis on the application and evaluation of more complex radiographic studies. Twenty practicum hours.
Requisites: Prerequisite, RADI 463.
Grading status: Letter grade.

RADI 574. Clinical Education III. 3 Credits.
Under general supervision, the student will function at an increased level of responsibility in general diagnostic radiography in a variety of clinical settings outside of the university setting.
Requisites: Prerequisite, RADI 473.
Grading status: Letter grade.

RADI 575. Clinical Education IV. 5 Credits.
Under general supervision, the student will function at an increased level of responsibility in radiography in clinical settings outside of the university setting. The course includes a comprehensive review examination and case studies.
Requisites: Prerequisite, RADI 574.
Grading status: Letter grade.

RADI 583. Clinical Education V. 4 Credits.
A clinical course utilizing contract learning to provide students an opportunity to gain additional competency in specialized areas of radiology. Twenty-four education and independent study hours.
Requisites: Prerequisites, RADI 574 and 575.
Grading status: Letter grade.

RADI 584. Clinical Education VI. 6 Credits.
This course is a continuation of RADI 583 using learning contracts to allow students to explore and gain additional expertise in various areas of radiology. Twenty-four clinical hours.
Requisites: Prerequisite, RADI 583.
Grading status: Letter grade.

RADI 585. Radiologic Health Physics. 3 Credits.
A course in the physics of diagnostic radiology, including radiation effects on tissue, radiation detection and measurement, protection methods and techniques, and environmental radiation issues. Three lecture hours.
Requisites: Prerequisite, RADI 472; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

RADI 586. Research in Radiologic Science I. 1 Credit.
Majors only. The major part of the course is devoted to an investigative project on a discipline-related topic of student interest. Select issues affecting professional affairs of radiologic technologists are also included.
Grading status: Letter grade.

RADI 591. Practicum in Radiologic Science. 4 Credits.
This course offers an elective clinical experience in an area of student interest.
Requisites: Prerequisite, RADI 584.
Grading status: Letter grade.

RADI 594. Professional Communications and Interactions. 3 Credits.
Majors only. This course provides for a brief cognitive and skills approach to communication skills, the teaching/learning process, and methods and materials of instruction and delivery. Three lecture/discussion hours per week.
Grading status: Letter grade.

RADI 597. Leadership in Radiologic Science. 3 Credits.
Majors only. In this course students will analyze the theoretical literature on leadership and apply that knowledge in the analysis of various radiology environment situations. Three lecture hours.
Grading status: Letter grade.

RADI 660. Pathophysiology. 3 Credits.
Majors only. This course will enhance and integrate the student's knowledge of anatomy, physiology, and pathology related to all human body systems. Emphasis will be placed on understanding how structure, function, and disease are interrelated. Three lecture hours per week.
Grading status: Letter grade.

RADI 662. Instrument and Imaging Methods. 4 Credits.

RADI 670. Integrated Principles of Radiographic Analysis. 4 Credits.
This course involves students in situational problem solving and radiographic analysis. Integration of concepts and knowledge of anatomy, pathology, procedures, patient care, and imaging principles are emphasized. Four lecture hours.
Requisites: Prerequisite, RADI 660.
Grading status: Letter grade.

RADI 672. Radiographic Imaging II. 4 Credits.
A detailed study of specific elements of the radiographic process, with an emphasis on the interrelationships of the radiographic parameters, refinement of image analysis and problem-solving skills, and quality. Three lectures hours and two laboratory hours.
Grading status: Letter grade.

RADI 681. Trends in Medical Imaging Practices Issues in the Radiology Practice Environment. 3 Credits.
Majors only. The course covers issues related to health care systems, medicolegal ethics, and practice and quality assurance. Three lecture hours per week.
Grading status: Letter grade.

RADI 686. Research in Radiologic Science II. 2 Credits.
Majors only. Students complete a research project involving a major clinical or policy issue in radiologic science. This course is an expansion of the fall semester research culminating in both a paper and presentation.
Grading status: Letter grade.

RADI 694. Clinical Decisions in Radiology. 3 Credits.
Majors only. This course involves the pharmacology of common radiology medications and advanced patient assessment techniques. With the additional knowledge and skills, students can make informed decisions regarding patient care. Three lecture hours.
Grading status: Letter grade.

The School of Medicine's radiologic science program is designed to prepare individuals for professional practice and associated responsibilities in the health specialty of medical imaging. Graduates provide patient assessment and care required for medical imaging...
procedures in addition to insuring that the highest quality imaging study is completed with the patient’s radiation dose as a factor. In addition to diagnostic radiology, students may select other imaging modalities and practice areas for additional competence and training. These other areas include pediatrics, mammography, computed tomography, magnetic resonance imaging, vascular interventional radiology, and cardiac catheterization laboratory. The curriculum includes course discussions and projects on global health imaging issues and the potential for international experiences in medical imaging departments and programs abroad.

Admission (p. 1002) to the program is required.

**Mission**

The radiologic science program prepares students to practice competently and effectively as medical imaging professionals in diverse healthcare environments with awareness of global health issues. The academic and clinical foundation in the curriculum develops graduates with professional flexibility and adaptability to assume prominent roles and responsibilities after graduation in both career and scholarly pursuits.

**Program Goals**

- Develop competent, effective, medical imaging professionals
- Support development of skills necessary to practice in diverse healthcare environments and to acquire prominent roles in radiologic science
- Program curriculum, teaching methods, and philosophy promote development of integrative, critical thinking, and communication skills to include written, oral, and electronic discourse
- Graduates successfully pursue scholarly activities such as contributions to the profession and post-baccalaureate education
- Encourage global awareness of cultural and health care perspectives

**Student Learning Outcomes**

Upon completion of the radiological sciences (B.S.) program, students should be able to complete the following goals and outcomes.

**(Goal one)** Obtain a level of clinical competence appropriate for an entry-level medical imaging professional.

Outcomes:

- Students will demonstrate accurate patient positioning techniques.
- Students will utilize radiographic exposure factors to optimize image quality and minimize patient dose.
- Students will practice radiation protection principles for patient and occupational safety.

**(Goal two)** Possess critical thinking skills to adapt to changing clinical environments and patient needs.

Outcomes:

- Students will adapt procedures based on patient needs and clinical situation limitations.
- Students will analyze images to assure diagnostic quality.

**(Goal three)** Exhibit professionalism through consistent, responsible, and ethical behavior.

Outcomes:

- Students will provide nondiscriminatory care for all patients.
- Students will demonstrate adherence to program policies and procedures.

**(Goal four)** Demonstrate effective communication skills.

Outcomes:

- Students will practice effective oral communication skills in the classroom and in the clinical setting.
- Students will demonstrate effective written communication skills.

**Requirements**

In addition to the program requirements, students must:

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 100).

The schedule of academic work for radiologic science (medical imaging) majors includes the following General Education requirements. Students must complete all Foundations and Approaches requirements and take at least five Connections courses, including global issues, experiential education, and U.S. diversity. In addition, the following specific requirements apply to students in the General College:

Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

MATH 231 is a prerequisite for PHYS 114 (see above). If By-Examination (BE) or transfer credit is awarded for PHYS 104 and PHYS 105, then MATH 130 may be used for the Foundations quantitative reasoning requirement. If students plan to take PHYS 114 at UNC–Chapel Hill, then MATH 231 is required for the Foundations quantitative reasoning requirement.

After admission (p. 1002) to the program, the curriculum in radiologic science includes courses in gross anatomy, pathophysiology, radiography, imaging methods, research, practice issues, and clinical practice. The first year of the program provides the foundation and skills for clinical practice and patient care in diagnostic radiography. The second year of the program builds on this foundation and enhances skills for career and practice advancement through communications, physics, and research. During the second year, the student elects areas of clinical concentration, such as magnetic resonance imaging, computed tomography, advanced diagnostic imaging, cardiac catheterization, and vascular/interventional imaging.

Special Opportunities in Radiologic Science

Experiential Education
All of the clinical education courses provide students with the opportunity to gain competence and proficiency in all areas of radiologic science practice in a variety of clinical environments.

Undergraduate Awards
Undergraduate students are considered for the Faculty Award for Excellence, the Award for Academic Excellence, and the Tina Robbins Award.

Undergraduate Research
Students complete a two-semester research sequence leading to a project and paper during the senior year of the program and are encouraged to submit the research projects to state and national research competitions.

Certification
Upon graduation, students are eligible to take the national certification examination from the American Registry of Radiologic Technologists in Radiography and in other clinical areas of expertise.

Accreditation
The program leading to the B.S. degree with a major in radiologic science is fully accredited by the Joint Review Committee for Education in Radiologic Technology.

Scholarships and Grants
Students in the Division of Radiologic Science are eligible for Phyllis Ann Canup Pepper Scholarships, the Dr. Jerry Lambiente Loyalty Fund Scholarship, the Rufus "Buddy" Clarke Loyalty Fund Scholarship, and the Jane Cox Hendrix Scholarships.

Introduction
Graduate study in speech and hearing sciences is concerned with the body of knowledge and scientific study that pertain to speech, language, hearing, balance, swallowing, and their disorders, and with professional, academic, and research activities in those areas. The Division of Speech and Hearing Sciences offers three graduate degrees: a master’s (M.S.) in speech-language pathology, a professional doctorate (Au.D.) in audiology, and a research doctorate (Ph.D.) in speech and hearing sciences. A minor in speech and hearing sciences is available for undergraduate students at UNC–Chapel Hill who anticipate pursuing one or more of these graduate degrees.
Advising

All students interested in a minor in speech and hearing sciences have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department’s director of undergraduate studies will meet with current and prospective minors by appointment. (See contact information above.) Further information may be obtained from the division’s Web site.

Undergraduate-level

SPHS 196. Undergraduate Research Experience. 1-4 Credits.
Supervised undergraduate directed research on communication science topics of mutual interest to the student and a faculty member.
Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading status: Letter grade.

Advanced Undergraduate and Graduate-level

SPHS 400. Autism in Our Communities: An Interdisciplinary Perspective. 3 Credits.
Students have 30 hours of service-learning with individuals with autism at community partner sites. Class discussions introduce students to diverse topics related to autism spectrum disorder. This is an APPLES course.
Gen Ed: EE- Service Learning.
Grading status: Letter grade
Same as: EDUC 400.

SPHS 530. Introduction to Phonetics. 3 Credits.
A detailed study of the International Phonetic Alphabet with emphasis on the sound system of American English. Application of phonetics to problems of pronunciation and articulation. Includes broad and narrow phonetic transcription.
Grading status: Letter grade.

SPHS 540. Speech Science. 3 Credits.
Introduction to the science of speech, including production, acoustics, and perception.
Grading status: Letter grade.

SPHS 570. Anatomy and Physiology of the Speech, Language, and Hearing Mechanisms. 3 Credits.
Anatomy and physiology of the speech producing and aural mechanisms.
Grading status: Letter grade.

SPHS 582. Introductory Audiology I. 3 Credits.
Theory and practice of the measurement of hearing, causative factors in hearing loss, evaluation of audiometric results, and demonstration of clinical procedures.
Grading status: Letter grade.

SPHS 583. Introduction to Clinical Practice in Speech-Language Pathology and Audiology. 3 Credits.
Introduction to diagnosis and treatment of communication disorders, including articulation, fluency, voice, and language, and those resulting from autism and hearing loss.
Grading status: Letter grade.

Admission to the minor is competitive by application. Undergraduate students have the option of taking these courses without declaring a minor; however, students in the minor will have priority for registration. For students interested in pursuing graduate study, additional coursework is highly recommended, including courses in biological science, physical science, social/behavioral science, developmental bases of communication, and statistics. Detailed information on the application process and preprofessional coursework can be found on
the division’s Web site (http://www.med.unc.edu/ahs/sphs/for-unc-undergraduates).

**Requirements**

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor course requirements at UNC–Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 100).

Introduction
The School of Nursing at the University of North Carolina at Chapel Hill is nationally recognized as one of the premier nursing schools in the United States. With a trifold mission of excellence in nursing education, research, and service, the School of Nursing offers a full complement of nursing education programs, including bachelor’s and master’s of science in nursing, an R.N.–M.S.N. option, a post-master’s program, a doctor of nursing practice, and a Ph.D. program, as well as pre- and postdoctoral fellowships. Since its inception in 1950, the school has led nursing education in North Carolina, and today boasts one of the highest nationwide passing rates on the NCLEX licensure examination and a rich tradition of cutting-edge nursing science. The School of Nursing is one of only a handful of schools in the country to house a Biobehavioral Laboratory for the promotion of nursing discovery, and one of only three schools in the nation to be selected to participate in the Hillman Scholars Program for Nursing Innovation.

Program of Study
The School of Nursing at the University of North Carolina at Chapel Hill offers an undergraduate program of study designed to provide students with the knowledge, skill, and understanding necessary to function effectively in all areas of professional nursing. The curriculum leading to the bachelor of science in nursing (B.S.N.) degree offers two options for study:

1. two years of upper-division courses in the School of Nursing, which follow two years of lower-division courses in the General College (or equivalent courses completed at another college/university) OR a previously earned bachelor’s degree plus the noted prerequisites (B.S.N. Option); and
2. an accelerated second degree option for students with a previous bachelor’s degree (A.B.S.N. Option).

Students are subject to the requirements in place when they are admitted to the School of Nursing; consequently, the requirements described in this bulletin particularly apply to students admitted to the School of Nursing during the 2018–2019 academic year.

Admission (p.) to the program is required.

Requirements Lower-Division Courses in the General College
Students are admitted to the baccalaureate nursing program at the upper-division level. All lower-division courses must be completed before beginning nursing courses. Lower-division courses taken at another college or university must be approved for transfer by the UNC-Chapel Hill Office of Undergraduate Admissions as comparable to the courses offered on this campus. Prospective students can request an unofficial transfer evaluation to determine the status of compliance with lower-division requirements. The unofficial transfer evaluation request form (https://nursing.unc.edu/academic-programs/bsn/who-can-apply/transcript-evaluation) should be attached to copies of all United States college transcripts and sent to the UNC-Chapel Hill School of Nursing address on the form.

All students must meet the Foundations and Approaches requirements outlined elsewhere in this catalog. Note: second degree applicants may meet either the global issues or U.S. diversity prerequisite. For nursing students, these requirements must include the following courses: Nursing students also must satisfy the following Connections requirements: global issues*, U.S.diversity*, and at least two others, bringing the total credit hours required of B.S.N.applicants to 68. Special

Facilities
The School of Nursing is located in Carrington Hall. The Education-Innovation-Simulation Learning Environment (EISLE) provides undergraduate students with a simulated clinical environment in which to practice and acquire fundamental psychomotor and psychosocial skills necessary for clinical application. Under the close supervision of nursing faculty and teaching assistants, students learn therapeutic techniques and procedures, utilize problem-solving approaches, and prioritize patient care in simulated situations.

Graduate School and Career Opportunities
The school offers a master of science in nursing (M.S.N.), a doctor of nursing practice (D.N.P.) degree in five advanced practice areas, and a Ph.D. degree in nursing science. B.S.N. graduates may pursue the M.S.N. or D.N.P. after one year of clinical practice, or they may pursue the Ph.D. directly following the B.S.N., prior to completion of any master’s-level coursework. For further information on the graduate program, contact the Office of Student Affairs as noted below or see the school Web site (http://nursing.unc.edu).

The school works closely with University Career Services to prepare all B.S.N. graduates for the transition from student to professional practitioner. A preparatory career development series and career fair are offered annually. Additionally, the school cooperates with clinical agencies across the country to make available to students an array of information on employment opportunities in a myriad of settings and entry-level roles.

Meet regularly with their advisor to learn the latest course requirements necessary to become an outstanding candidate for a career in nursing, and to review their Tar Heel Tracker each semester. In addition, students can visit the Health Professions Advising Office (second floor, Hanes Hall) soon after entering the University for specific guidance on career preparation. Advising information, advising hours, and information about joining the pre-health listserv may be found on the Office's Web site (http://careers.unc.edu/students/pre-professional-pre-graduate-advising/pre-health).
Note: Applicants must complete the two-course combination, Anatomy and Physiology I and Anatomy and Physiology II sequence from the same college/university, OR a complete course in anatomy and a complete course in physiology. If these courses are not completed on this campus, they must be approved equivalents to the courses offered at UNC–Chapel Hill.

First Degree Applicants

Students seeking a first bachelor’s degree are admitted to the upper-division (junior/senior) B.S.N. (six-semester) option, typically in the spring semester of the sophomore year. Students must complete all lower-division (first-year/sophomore) courses prior to matriculating into the School of Nursing. The first nursing courses begin in the first summer session (May) preceding the junior year.

Admission Criteria

Admission to the School of Nursing is competitive. The minimum cumulative grade point average for admission to the B.S.N. option is a 2.8 on a 4.0 scale. Admission to UNC–Chapel Hill as a first-year student or sophomore transfer does not guarantee admission to the School of Nursing as a junior. Applicants must be eligible to return to all institutions previously attended.

At the time of application, applicants to the B.S.N. option must have completed at least three of the five key science courses within the past five years. The key science courses are:

Second Degree Applicants

Students who have completed a bachelor’s degree in a subject other than nursing may pursue admission to the B.S.N. (six-semester) option OR the more accelerated and intensive A.B.S.N. (four-semester) option. Second degree students will have 60 credit hours from their previous degree counted toward the B.S.N. degree. Applicants have to complete (or verify completion as part of their previous degree) only six courses from the lower-division requirements:

Admission Criteria

The admissions committee critically evaluates each applicant’s academic performance, descriptive essays, community service history, and special skills and abilities that have the potential to affect care delivery or contribute overall to the nursing profession. The ideal applicant will clearly demonstrate a strong academic history as well as a commitment to the ideology of nursing and service to others. Performance in required science courses is particularly important.

Application

Applications for the B.S.N. option may be submitted by the December deadline for summer (May) matriculation, while applications to the A.B.S.N. option may be submitted by the August deadline for spring (January) matriculation. NURS—Nursing

Undergraduate-level

NURS 253. Individual Development across the Lifespan. 2 Credits.
Majors only. This course emphasizes a lifespan approach to theories and perspectives on individual growth and development. Content focuses on physical, cognitive, and socioemotional development, and risk factors from birth to death.
Grading status: Letter grade.

NURS 254. Discipline of Nursing I. 1 Credit.
Majors only. This course introduces the discipline, profession, and practice of nursing through a study of history, values, culture, legal issues, and education. Critical thinking central to nursing practice is introduced.
Grading status: Letter grade.

NURS 261. Nursing Role in Normal Nutrition. 2 Credits.
Majors only. This course involves the nursing application of nutritional concepts to the care of individuals, families, groups, and populations across the life span.
Grading status: Letter grade.

NURS 360. Concepts, Processes, and Skills for Evidence-Based Nursing. 4 Credits.
Majors only. The course introduces the discipline, profession, and practice of nursing through a study of history, values, culture, legal issues, and education. Critical thinking central to nursing practice is introduced. The lab setting provides practical application of principles and skills required for clinical practice.
Grading status: Letter grade.

NURS 361. Pathophysiology. 3 Credits.
Majors only. This course introduces fundamentals of nursing practice and integrates the nursing process with emphasis on the application of evidenced-based practice. The role of the nurse as a member of the healthcare team is emphasized. The lab setting provides practical application of principles and skills required for clinical practice.
Grading status: Letter grade.

NURS 362. Pharmacology across the Lifespan. 3 Credits.
Majors only. Using the science of pharmacology and pharmacologic principles underlying therapeutic interventions, this course focuses on an introduction to nursing responsibilities regarding pharmacologic therapy across the lifespan.
Grading status: Letter grade.

NURS 364. Nursing Care of Adults with Major Health Problems, I. 6 Credits.
Majors only. This is the first of two adult health courses in which students apply critical thinking skills to nursing care of adults with major health problems.
Requisites: Prerequisites, NURS 253, 261, 361, and 366. Corequisites, NURS 360 and 362.
Grading status: Letter grade.
NURS 366. Health Assessment. 3 Credits.  
Majors only. This course addresses concepts and methods of comprehensive health assessment of children, adults, and elders. Emphasis will be on data collection as a basis for initiation of caring and decision making in nursing practice.  
Grading status: Letter grade.

NURS 369. Physical Assessment. 3 Credits.  
Admission to the RN-BSN option or permission of the instructor. This course expands the student's previous knowledge base of the skills and principles of historical, psychological, and physical assessment and identifies these data as the basis for nursing care.  
Grading status: Letter grade.

NURS 371. Nursing Inquiry and Evidence-Based Practice. 3 Credits.  
Pre- or permission of the instructor for students lacking the prerequisite. Students are introduced to key concepts of evidence-based nursing practice, including the research process, protection of human subjects, and retrieval and appraisal of evidence to maintain a scientifically sound practice.  
Requisites: co-requisite, NURS 364;  
Grading status: Letter grade.

NURS 377. Research in Nursing Practice. 3 Credits.  
Majors only. This course introduces components of the research process with application to the theory and practice of nursing. The course provides the foundation for master's-level nursing research course.  
Grading status: Letter grade.

NURS 379. Leadership in Nursing Practice. 3 Credits.  
Majors only. Students will examine health care organizations from a systems perspective and develop leadership skills necessary in professional practice.  
Grading status: Letter grade.

NURS 382. Family-Centered Genomic Health Care. 1 Credit.  
Majors only. This course explores essential competencies in genetics and genomics for registered nurses. The learner gains knowledge about family assessment and the impact of genomic issues on individuals and families.  
Grading status: Letter grade.

Advanced Undergraduate and Graduate-level  
NURS 456. Discipline of Nursing II. 2 Credits.  
Majors only. This course emphasizes professional development through exploration of a variety of roles and practice environments. Students analyze personal and professional goals and values to develop a framework for nursing practice.  
Requisites: Prerequisites, NURS 254 and at least one of the following: NURS 470, 472, 477, or 479.  
Repeat rules: May be repeated for credit. 2 total credits. 1 total completions.  
Grading status: Letter grade.

NURS 470. Public Health Nursing. 5 Credits.  
Majors only. Students apply public health concepts to community practice to improve health and reduce disparities across the lifespan, emphasizing interventions using partnership strategies at individual/family, organizational, and policy levels.  
Requisites: Prerequisites, NURS 364 and 371. Co-requisites, NURS 472, 477, or 479.  
Grading status: Letter grade.

NURS 472. Nursing Care of Infants, Children, and Their Families. 5 Credits.  
Majors only. Nursing care of infants, children, and their families is explored. Knowledge from a variety of disciplines is applied through the nursing process to the direct care of infants and children.  
Requisites: Prerequisite, NURS 364.  
Grading status: Letter grade.

NURS 477. Psychiatric Mental Health Concepts for Broad Clinical Application in Nursing. 5 Credits.  
Majors only. Using theories of psychosocial development, psychopathology, therapeutic communication, and psychotherapy, this course requires students to examine the range and complexities of human emotional suffering and methods of effective intervention.  
Requisites: Prerequisites, NURS 253, 361, and 362. Co-requisites, NURS 364 and 362.  
Grading status: Letter grade.

NURS 479. Maternal/Newborn Nursing. 5 Credits.  
Majors only. The course focuses on application of caring and critical thinking skills in providing evidence-based nursing care to childbearing families.  
Requisites: Prerequisite, NURS 364.  
Grading status: Letter grade.

NURS 487. Practicum in Nursing: Work-Study Experience. 3 Credits.  
Majors only. This course provides the student an opportunity to participate in a work-study experience in participating health care agencies. Students participate in a reflective experience that integrates classroom and experiential learning.  
Requisites: Prerequisites, NURS 254 and 364.  
Grading status: Letter grade.

NURS 488. Practicum in Nursing: Health Services Improvement Work Experience. 3 Credits.  
Majors only. Certification as a Nurse Aide I and II also required as pre- or corequisite. Practice in health care settings is the course focus. Students participate in a reflective experience that provides the context to integrate classroom and experiential learning into an evolving professional identity.  
Requisites: Prerequisites, NURS 254 and 364.  
Grading status: Letter grade.

NURS 489. Practicum in Nursing: Global Health Experience. 3 Credits.  
Majors only. Certification as a Nurse Aide I and Nurse Aide II are recommended. Practice in global health care settings is the course focus. Students participate in a reflective experience that provides the context to integrate classroom and experiential learning into an evolving professional identity.  
Requisites: Prerequisites, NURS 254, 364, and two of the following: NURS 470, 472, 477, 479, 591.  
Grading status: Letter grade.

NURS 491. Improving Nursing Practice: Application of Concepts, Theories, and Research. 3 Credits.  
Majors only. This course emphasizes analysis of clinical problems that affect the nursing care of selected populations. Students also apply the nursing process, therapeutic communication skills, and teaching-learning principles in clinical situations.  
Grading status: Letter grade.
NURS 492. Conceptual Bases of Professional Nursing Practice. 3 Credits. Majors only. Selected concepts, theories, and models are synthesized, appraised, and applied as a basis for making judgments and decisions in nursing practice.
Grading status: Letter grade.

NURS 494. Community Health Nursing for the Public's Health. 3-6 Credits. Majors only. Prepares R.N. students for population-focused practice in community health nursing. Analyses and applications of selected theories; health promotion/protection and disease prevention strategies are emphasized.
Grading status: Letter grade.

NURS 496. Advanced Practicum in Nursing. 1-3 Credits. Majors only. The focus of this course is the development of knowledge and experience related to research or service learning and its application to the practice of nursing and health care.
Repeat rules: May be repeated for credit.
Grading status: Letter grade.

NURS 497. Preparation for Professional Practice. 1 Credit. Seniors only or permission of the instructor. This course will assist students in preparation for the NCLEX-RN examination through a strategic and systematic individualized plan of study that utilizes the ATI program and other relevant resources. Limited enrollment.
Repeat rules: May be repeated for credit. 3 total credits. 3 total completions.
Grading status: Letter grade.

NURS 585. Alternative Paradigms for Nursing Practice. 3 Credits. Majors only. Concepts and principles underlying biomedical and biopsychosocial approaches to health care delivery are analyzed to determine their impact on health and to provide a framework for integrating both approaches to care.
Grading status: Letter grade.

NURS 586. Contemporary Issues in Nursing Practice. 3 Credits. Majors only. The context of professional nursing practice will be analyzed from a social, economic, and policy perspective. Analysis will include projections for the future of the profession.
Grading status: Letter grade.

NURS 588. Leadership in Health Care Organizations. 4 Credits. Majors only. This course explores organizational leadership and management practices and theories. Current social, economic, legal, ethical, and policy issues affecting practice, education, and the profession of nursing are examined.
Requisites: Prerequisites, NURS 364, 371, and 487 or 489, and 472 or 477 or 479. Corequisite, NURS 488.
Grading status: Letter grade.

NURS 591. Nursing Care of Adults with Major Health Problems, II. 8 Credits. Majors only. This senior-level course focuses on applying critical thinking, clinical decision making, and evidence-based nursing practice to complex health problems of adults. Unique health needs of older adults are addressed.
Requisites: Prerequisites, NURS 364 and 371; co-requisite, NURS 456.
Gen Ed: EE: Field Work.
Grading status: Letter grade.

NURS 600. SHAC: Student Health Action Coalition. 0 Credits. This course provides service-learning opportunities to apply nursing practice within the context of interprofessional care for vulnerable populations by participating with Student Health Action Coalition (SHAC) activities.
Repeat rules: May be repeated for credit. 0 total credits. 8 total completions.
Grading status: Pass/Fail.

NURS 607I. Interprofessional Team Work and Communication - Key to Patient Safety. 3 Credits. Majors only. This interprofessional course focuses on understanding roles, teamwork, and communication to improve patient safety within the health care environment. National standards and initiatives will be the foundation of the course. Pass/Fail only.
Grading status: Pass/Fail.

NURS 609. Health Care in the Global Context. 1 Credit. Majors only or permission of the instructor. A faculty-led experiential learning opportunity focusing on development and knowledge related to research, health care systems, or service learning and its application to nursing and health care.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.
Grading status: Letter grade.

NURS 611. Supporting the Childbearing Family. 2 Credits. Application required. An interprofessional, service-learning approach to studying maternity care. Students will receive professional doula training and volunteer as birth doulas within the Volunteer Doula Service Program at North Carolina Women's Hospital.
Grading status: Letter grade.

NURS 613I. Intermediate Spanish for Health Care Care I. 3 Credits. This intermediate course is the equivalent of the third semester of college Spanish. Students will hone their listening and speaking skills in class primarily through role-playing activities and class discussion. Activities center on an original film set in a health clinic in rural North Carolina.
Grading status: Letter grade
Same as: PUBH 613, AHSC 613I, PHCY 613I, SOWO 613I.

NURS 614I. Intermediate Spanish for Health Care Care II. 3 Credits. Permission of the instructor. This primarily e-learning course provides public health students with the opportunity to improve their oral communication skills in Spanish at the intermediate level via DVD, Web, and workbook. Instructor-led. Online course.
Requisites: Prerequisite, PUBH 613I.
Grading status: Pass/Fail
Same as: PUBH 614I, AHSC 614I, PHCY 614I, SOWO 614I.

NURS 615I. Advanced Spanish for Health Care I. 3 Credits. Required preparation, third semester Spanish or equivalent. This advanced course reviews the grammar of the third and fourth semester of college Spanish. Students hone their listening and speaking skills through role-playing activities and class discussion. Activities center on an original film set in a Latino-run health clinic.
Grading status: Letter grade
Same as: PUBH 615, AHSC 615I, DENT 615I, MEDI 615I, PHCY 615I, SOWO 615I.
NURS 642. Health Promotion and Illness Prevention in Advanced Nursing Practice. 2 Credits.

NURS 647. Contemporary Issues in the Role of Advanced Practice Nursing. 3 Credits.
Graduate students only. This course examines the evolution, current issues, and roles in advanced practice nursing within the context of contemporary healthcare delivery.
Grading status: Letter grade.

NURS 671. Nursing Inquiry and Evidence-Based Practice for Advanced Scholarship. 3 Credits.
Students anticipating graduate study are introduced to scientific inquiry and principles of evidence-based practice, including theoretical perspectives related to inquiry; ethics; identification of research problems, development of research questions, and appropriate design; data interpretation with emphasis on statistical analysis; and rigorous appraisal of research reports.
Grading status: Letter grade.

NURS 675. Hillman Scholars in Nursing Innovation: Integrative Seminar. 1 Credit.
Admission to the Hillman Scholars Program in Nursing Innovation is required. This seminar will cultivate personal and professional skills essential for students' development and socialization as nurse innovators, leaders, researchers, and scholars. Content is iterative and progressive in depth and scope.
Repeat rules: May be repeated for credit.
Grading status: Letter grade.

NURS 680. Experimental Courses. 1-3 Credits.
Pilot test for new courses in the nursing program.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading status: Letter grade.

NURS 685. Care of the Dying and Bereaved throughout the Life Span. 3 Credits.
Students from a variety of health sciences-related disciplines gain an understanding of issues in working with dying and bereaved individuals of all ages and their families.
Grading status: Letter grade.

NURS 687. Ethical Issues in Nursing. 2 Credits.
Examination and discussion of major ethical issues arising in the professional practice of nursing in the context of systematic consideration of the nature of ethical choice.
Grading status: Letter grade.

NURS 691H. Honors in Nursing, Part I. 3 Credits.
Permission of the program director. Majors only. Preparation of a two-semester honors project under the direction of department advisors.
Gen Ed: EE- Mentored Research.
Grading status: Letter grade.

NURS 692H. Honors in Nursing, Part II. 3 Credits.
Permission of the program director. Majors only. Preparation of a two-semester honors project under the direction of department advisors.

Courses in the nursing major are taken at the upper-division level. The courses build on a strong foundation in the sciences and humanities to develop the knowledge and skills needed to practice nursing in contemporary society. Clinical experiences take place in a broad variety of settings that reflect current patterns of health care delivery and provide opportunities for students to develop competence in empathetic care, critical thinking, technical skills, clinical judgment and decision making, interdisciplinary collaboration, and management of care.

Admission (p. ...) to the program is required.

Program of Study
The School of Nursing at the University of North Carolina at Chapel Hill offers an undergraduate program of study designed to provide students with the knowledge, skill, and understanding necessary to function effectively in all areas of professional nursing. The curriculum leading to the bachelor of science in nursing (B.S.N.) degree offers two options for study:

1. two years of upper-division courses in the School of Nursing, which follow two years of lower-division courses in the General College (or equivalent courses completed at another college/university) OR a previously earned bachelor's degree plus the noted prerequisites (B.S.N. Option); and
2. an accelerated second degree option for students with a previous bachelor's degree (A.B.S.N. Option).

Students are subject to the requirements in place when they are admitted to the School of Nursing; consequently, the requirements described in this catalog particularly apply to students admitted to the School of Nursing during the 2018–2019 academic year.

Critical Information for ALL Nursing Students

Essential Standards for Admission, Progression, and Graduation
The curricula leading to degrees in nursing from the University of North Carolina at Chapel Hill School of Nursing require students to engage in diverse and complex experiences directed at the acquisition and practice of essential nursing skills and functions. Unique combinations of cognitive, affective, psychomotor, physical, and social abilities are required to perform these functions satisfactorily. In addition to being essential to the successful completion of the requirements of a nursing degree, these skills and functions are necessary to ensure the health and safety of patients, fellow students, faculty members, and other health care providers.

The Essential Standards document describes the nonacademic qualifications, required in addition to academic qualifications, which the school considers critical for entrance to, continuation in, and graduation
from a UNC–Chapel Hill School of Nursing degree program. Candidates for nursing degrees, with the exception noted for selected graduate programs, must be able to meet these minimum standards, with or without reasonable accommodation, for successful completion of degree requirements. Refer to the school’s Web site (https://nursing.unc.edu/academic-programs/bsn) for additional information.

**Professional Risk**

The practice of nursing involves the care of individuals who are ill or injured. Communicable diseases are common in health care delivery settings and may be a threat to nursing students. During the performance of clinical practice/research activities, a student may have contact with patients/subjects with HIV/AIDS, tuberculosis, hepatitis B, hepatitis C, and other infections. Such contact, although rare when proper preventive measures are used, may result in a student’s being exposed to infectious agents and/or transmitting an infectious disease to other students, faculty members, patients, family members, and subjects. During pregnancy, the fetus may be at risk. Students enrolled in the School of Nursing at UNC–Chapel Hill are expected to provide care to patients who may have known or unknown communicable diseases. Application to and acceptance of an offer from the School of Nursing indicates a student’s understanding of related professional risks.

**Fitness for Practice**

All students admitted to the School of Nursing are required by the North Carolina Board of Nursing to provide documentation of their fitness to provide safe nursing care to the public. Failure to provide requisite documentation will result in the withdrawal of the admission offer. Additionally, North Carolina law requires incoming students to present to the University, before the first day of enrollment, evidence verifying that the student has received all required immunizations.

Further, federal and state statutory regulations and clinical affiliate contractual mandates require that nursing students demonstrate particular cognitive and clinical competencies consistent with minimum professional practice standards. Students must attain and maintain full compliance with all such requirements. The school also requires students to undergo, at the student’s expense, a 12-panel urine drug screen and a criminal history database check following admission acceptance. The check covers all addresses where the student has lived, worked, or attended an educational institution in the past seven years or since the 16th birthday, whichever is less. Database checks will address all criminal charges, felony and misdemeanor level convictions (except minor traffic related violations), and the Sexual Offender/Predator Registry for all states in which the student has lived. Reports are shared with clinical agencies that require that all charges be resolved prior to the start of clinical practice. Clinical agencies may impose additional requirements at their discretion, which must be completed at the student’s expense. Questions about these requirements may be directed to the clinical contract and compliance coordinator.

**Disability Statement**

Consistent with its mission and philosophy, the School of Nursing at the University of North Carolina at Chapel Hill is committed to providing educational opportunities to students with disabilities. In accordance with the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act, the school provides reasonable accommodations to otherwise qualified students with disabilities. The decision regarding appropriate accommodations will be based on the specifics of each case.

Students who seek reasonable accommodations for disabilities must contact the Office of Accessibility Resources & Service (https://ars.unc.edu) (919) 962-8300). Staff in this office will determine a student’s eligibility for, and recommend, appropriate accommodations and services. Also see the School of Nursing’s policy (https://sonportal.unc.edu/current-students/student-handbook).

**Computer Requirements**

All School of Nursing students are required to use e-mail for conveying course/clinical/research/other school-related business. All e-mail communication regarding School of Nursing matters must utilize the student’s University e-mail address only. The use of external e-mail services is not permitted. School of Nursing courses use the Sakai learning management system, which requires frequent reliable access to Internet resources. For both these reasons, easy access to personal computers and the Web is imperative. The School of Nursing provides a PC laboratory solely for the use of undergraduate students, and students may also access PC laboratory facilities elsewhere on campus.

All B.S.N. and A.B.S.N. option students are required to have a laptop computer that meets the minimum requirements specified for the preloaded laptop computers available through the University’s Carolina Computing Initiative (CCI) program (http://cci.unc.edu/new-students/minimum-laptop-requirement). Choosing a vendor for the laptop purchase is the student’s prerogative; however, it is important to note that the University provides “software and operating system support for non-CCI laptops on a best-effort basis. Hardware support for non-CCI laptops is the responsibility of the owner” (source: CCI.unc.edu (http://CCI.unc.edu)). In addition to the computer itself, students must have an internet service provider (ISP) and an account for a high-speed access service.

Of note: The School of Nursing uses ExamSoft for testing. Students are required to purchase this program and ensure computer compatibility with the program.

**Vehicular Requirements**

Because of the broad scope of clinical facilities and locations, undergraduate nursing students must have access to a car. For information about the North Carolina requirements for automobile liability insurance, vehicle registration, and operator’s license, write to the North Carolina Department of Motor Vehicles, Raleigh, N.C. 27602. Students and/or parents are responsible for maintaining appropriate insurance coverage. Some insurance companies may consider such travel as “business driving.” Expenses for travel are the responsibility of the student.

**Registered Nurse Licensure Examination Requirements**

The North Carolina Board of Nursing (NCBON) requires all graduates of the School of Nursing who apply to take the National Council Licensure Examination (NCLEX) to undergo a routine criminal background check, which necessitates submission of a complete set of fingerprints with the NCLEX application. A Social Security Number is required for the licensure application to the NCBON.

**New Student Orientation**

All newly admitted B.S.N. and A.B.S.N. students are required to attend a mandatory orientation session one business day prior to the start of courses during their first semester. To determine when classes begin, view the University’s academic calendar (http://registrar.unc.edu/academic-calendar). UNC–Chapel Hill students who are studying abroad in the spring semester prior to matriculation should ensure their study
abroad program will allow them to return to Chapel Hill prior to the new student orientation.

**Student Learning Outcomes**

The B.S.N. program prepares graduates as nurse generalists to:

- Demonstrate care for individuals, families, groups, communities, and populations in a culturally responsive manner. Culturally responsive care includes the intersection of cultural humility and sensitivity, determinants of health, and individuality to promote health equity.
- Exhibit professional values reflective of ethical principles, consistent with the nursing code of ethics and the scope and standards of professional nursing practice.
- Develop global health knowledge and skills to engage in solutions to improve health equity in North Carolina and around the world.
- Contribute to the development and implementation of innovations as a way to improve health outcomes. Health innovations can be promotive, preventive, protective, and/or restorative.
- Use informatics to communicate, support clinical decision-making and patient education, and enhance the quality and safety of care.
- Exhibit patient advocacy, appraise and apply evidence, and evaluate policy within an ever-changing healthcare environment.
- Identify the needs of populations and implement interventions with other members of the healthcare team that are expected to promote optimal health.
- Contribute to a culture of safety and quality improvement by delivering evidence-based, patient-centered care within intra and interprofessional teams.
- Demonstrate empathy for, connection to, and being with the patient. This requires a balance between knowledge, skills, professional confidence, maturity, and compassion towards ourselves, our colleagues, patients, and families based in the principles of relationship-centered care.
- Use the research process to appraise and apply evidence with clinical knowledge to maintain a scientifically sound practice.
- Present written and verbal ideas in a logical and cohesive manner to effectively share evidence of best practice.

**Requirements of the Major**

**A.B.S.N. and B.S.N. Options**

Students are admitted to the baccalaureate nursing program at the upper-division level. All lower-division courses must be completed before beginning nursing courses.

Students are subject to the requirements in place when they are admitted to the School of Nursing; consequently, the requirements described in this catalog particularly apply to students admitted to the School of Nursing during the 2018–2019 academic year.

**Special Opportunities in Nursing**

**Hillman Scholars Program in Nursing Innovation**

UNC–Chapel Hill School of Nursing is one of only two schools nationally that has been awarded renewal funding for the Hillman Scholars Program in Nursing Innovation (https://nursing.unc.edu/academic-programs/bsn/hillman-scholars-program-in-nursing-innovation) grant. The program’s primary goal is to create a new cadre of nurse scientists and leaders who will design innovative solutions for health care delivery. This highly competitive program is open to new B.S.N. and A.B.S.N. students and provides a pathway for students to earn their B.S.N. and Ph.D. in five to six years. At least four academically talented nursing students will be admitted to the program each year and receive financial and enhanced mentoring support to facilitate their progress towards the Ph.D. By completing a Ph.D. early in their career, Hillman Scholars will have a longer time to influence patient care through leadership, innovation, and research in academic and clinical settings.

**Departmental Involvement**

Students are encouraged to participate in student leadership opportunities (http://nursing.unc.edu/current-students/student-handbook/student-organizations-and-activities-general). These include the elected class governance system, the dean’s Student Advisory Council or course management team options, the Association of Nursing Students (the only preprofessional nursing organization available), the Student Health Action Coalition, and a variety of special interest groups.

**Experiential Education**

The nursing program requires extensive direct clinical practice in a variety of acute care, chronic care, and community-based settings considered essential for the preparation of competent practitioners. Clinical contact time varies by study option and course but averages approximately 12 to 16 hours per week.

**Financial Aid**

Students granted admission to the School of Nursing seeking the baccalaureate degree at UNC–Chapel Hill may be considered for a variety of nursing-specific scholarships and other financial aid opportunities. For assistance, contact the Office of Scholarships and Student Aid by phone at (919) 962-8396 or through the Web at studentaid.unc.edu (http://studentaid.unc.edu), or call the Office of Students Affairs at (919) 966-4260.

**Undergraduate Awards**

During the final semester of study, high achieving students (GPA > 3.5) in each option will be invited to membership in Sigma Theta Tau International Nursing Honor Society. The George Livas Award recognizes the graduating student who most clearly demonstrates academic excellence and leadership. Other awards presented during the school’s commencement ceremony honor those students achieving the highest grade point average in their respective option.

**Undergraduate Research**

Through the honors program (http://honorscarolina.unc.edu) the University and the School of Nursing recognize undergraduates who have demonstrated exceptional academic ability and independent work in their major. Qualified and interested students in their last two semesters of study will be paired with a faculty advisor who guides the student in an independent study honors project. The Assistant Dean for the undergraduate program supervises the honors program. Students participating in the honors program must have a cumulative University grade point average that meets University requirements. In addition, students must have and maintain a 3.4 cumulative nursing grade point average. Calculation of the cumulative grade point average is based solely on the required hours earned to date for the nursing degree. Grade point averages are not rounded. The student and honors advisor must complete a written contract, and the student must register for NURS 691H and NURS 692H. Each honors course carries three hours of
credit and is assigned a letter grade by the advisor. A student's project must show evidence of independent, creative, abstract, analytical, and critical thinking.

History
The University of North Carolina at Chapel Hill established what was possibly the first United States summer school in 1877. It enrolled 235 students in courses from 10 disciplines. Women were first admitted into University courses during this summer session. Students came from 42 North Carolina counties and several neighboring states. By 1925, 19,983 students had enrolled in Summer School. The University has continued annually to provide a wide offering of summer academic opportunities to the people of North Carolina and other residents from this country and abroad. From 1934 to 1987 the programs were administered by the Office of Summer Sessions. The traditional name of Summer School was reinstated in 1988.

Opportunities
The College of Arts and Sciences as well as many professional schools offer summer courses for undergraduate and graduate students. The same faculty members who make the University one of the nation’s best teach the courses, assisted by visiting professors who are specially recruited by departments for this purpose.

Summer School is central to the teaching mission of the University. The summer is one of the three periods during which the campus is open for formal instruction. Summer courses are of comparable quality and provide the same credit as corresponding courses in the fall or spring terms.

For students who have problems in the fall or spring terms getting courses they need or have to choose between courses, summer provides a time when the courses can be taken. This option relieves pressure on fall and spring enrollments, creates opportunities to enhance students’ programs, increases student access to courses in nonmajor fields and other schools, and ensures that students can complete their degree requirements in a timely manner. Summer also allows incoming students the opportunity to take courses and become acclimated to campus before the fall term begins.

Because some subjects are best learned in an intensive and concentrated way, summer provides a time when students can focus on a single field. This learning style is particularly useful for some laboratory experiences, concentrated arts courses, and foreign languages. Some curricula require field study or research projects, and summer uniquely allows time for these studies.

During the summer, faculty members and students can concentrate on one or two courses without interruptions of other administrative, academic, and social events that exist during the year. The total number of students is fewer in the summer, and the mix includes greater diversity and a higher proportion of nontraditional and visiting students than during the fall or spring terms. Because class sizes are smaller and classes meet daily, students interact more with faculty members and with one another.

The summer program is also one of the key ways the campus reaches out to visiting and postdegree students who can benefit from what the University has to offer. Finally, summer is a time for faculty members to develop and experiment with new content and teaching models that can be incorporated into fall or spring courses.

Programs
Summer School offers two sessions of five weeks each, a three-week Maymester, and other short courses with various beginning and ending dates. In recent years about 600 sections of courses have been offered each summer to about 4,000 students in Summer Session I and about 3,000 in Summer Session II. The available courses include many that satisfy undergraduate degree requirements. Twelve semester hours of credit typically would be earned by a full-time summer student over both summer sessions. Many students take fewer hours or attend only one session. About 95 percent of summer students are regular UNC–Chapel Hill students, and the other 5 percent are visiting students.

In recent summers, enrolled students have come from all 100 counties in North Carolina and all 50 states, as well as the District of Columbia, Puerto Rico, the Virgin Islands, and 60 foreign countries.

Highlights
Summer School highlights include concentrated three-week courses offered in Maymester, five-week online courses, some field courses and law courses that extend beyond the usual Summer Session I, some courses taught especially for public school teachers that begin after mid-June when the public schools end their term, and other credit programs that operate on a concentrated schedule. Courses are offered in the late afternoon or evening. Some offerings combine off-campus activities and on-campus classes or combine online and face-to-face learning formats.

Student Services and Advising
Summer School coordinates and distributes information on summer course offerings for credit in all Academic Affairs units. Course offerings are available on the Summer School Web site in mid-December. Regular UNC–Chapel Hill students who need information on summer courses and early registration should contact their advisor, dean, or the relevant academic department. These students and all others can obtain updated information daily on the Web site (http://summer.unc.edu).

Summer School admits and advises visiting students. A potential visiting student can obtain information and an online application from the Web site (http://summer.unc.edu). The dean of Summer School serves as the dean for these students to approve any schedule adjustments and to represent their interests in other academic and administrative matters. All UNC–Chapel Hill majors and minors have a primary academic advisor in Steele Building. They are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker.

Summer School students are able to use most of the campus facilities enjoyed by students in the fall and spring semesters, such as the libraries, computer rooms, and athletic facilities. Information on summer University housing and on dining plans is available in March on the Summer School Web site. The Carolina Union, Carolina intramural coed recreational sports, and The Summer Tar Heel also provide activities, events, and information during the summer.

The Friday Center for Continuing Education is the University’s arm for extending credit and noncredit instruction to North Carolinians who wish to further their education on a part-time basis or through short, intensive periods of study.

Carolina Courses Online is a distance-education program that offers semester-based online courses. Class sessions are not required, but courses generally follow the semester schedule. Internet access and email are required in order to enroll. Through self-paced courses, students can complete degree-related correspondence and online courses under the direction of UNC–Chapel Hill instructors. UNC–Chapel Hill serves as the administrative center for this statewide program, which also offers courses from eight other member institutions of the University of North Carolina system.

Part-time Classroom Studies enables part-time students to enroll in undergraduate and graduate evening and daytime courses. Off-campus Credit Studies provides classroom instruction in locations away from campus or in flexible time formats. The Correctional Education Program enables qualified inmates in the North Carolina prison system to take correspondence courses and on-site classes, and provides assistance in the transition to study release.

The Professional Development and Enrichment Programs unit provides consultative and management services in developing continuing education programs in a variety of formats. A number of noncredit conferences and institutes are held at UNC–Chapel Hill each year, usually with the cosponsorship of a University school or department or an educational or professional organization. Enrichment programs for the local community also are offered. The Friday Center’s conference facility is designed to accommodate varied continuing education conferences and activities.

The Friday Center for Continuing Education maintains several social and digital media sites, including Facebook (http://facebook.com/uncfridaycenter), Twitter (http://twitter.com/uncfridaycenter), and the blog “Student Voices (http://fridaycenterblogs.web.unc.edu).”

Advisors

The Academic Advising Program (http://advising.unc.edu) serves all undergraduate students in the General College and the College of Arts and Sciences.

The charge of the Academic Advising Program is to assist students with all aspects of their academic planning while providing a foundation for appropriate academic decisions. Students are assigned a primary advisor but may see any advisor for their concerns. Advisors provide students with assistance and advice about options for course selection, maintaining required scholastic standards, and planning a complete educational program. Advisors help ensure that students are making satisfactory progress towards their degree. Advisors discuss choices about majors with advisees and help them identify appropriate courses to satisfy General Education and major/minor requirements. In addition, advisors explain academic policies, procedures, and regulations and provide referrals to appropriate campus resources as needed.

Advisors’ office locations, office hours, and contact information (http://advising.unc.edu) are posted online.

All first-year students and sophomores are enrolled in the General College and are assisted by advisors in the Academic Advising Program. During their junior and senior years, students pursue academic majors/minors either in the College of Arts and Sciences or in one of the professional schools. To enter a professional school, students must be accepted into the program and should consult admission information for that school.

As juniors and seniors, students may receive academic advice regarding major studies, course registration, graduate school, internships, and career opportunities from faculty advisors in their major department or curriculum offices, or from the professional school to which they have been admitted. Some departments and schools require students to meet with a departmental advisor each term before they can register for the next term. Students in majors/minors that are part of the College of Arts and Sciences should also consult with an advisor in the Academic Advising Program at least once each year to ensure that they are making acceptable progress toward meeting degree requirements, including General Education requirements. Consulting Tar Heel Tracker can help students keep track of requirements, anticipate “what-if” scenarios, and prepare for meetings with advisors.

Each student is ultimately responsible for selecting appropriate courses and complying fully with all published regulations and requirements.

To avoid problems with registration and to ensure graduation by the expected date, students are strongly encouraged to declare a major during their sophomore year or early in their junior year. Students who have not declared a major before registration opens for their sixth semester will not be permitted to register for their sixth semester until they have consulted with an advisor in the Academic Advising Program.

Center for Student Success and Academic Counseling
Marcus L. Collins, Ed.D., Associate Dean and Director
Kim Abels, Ph.D., Director, Writing Center and Learning Center
Chris Faison, M.A., Coordinator, Carolina Male Scholars
Erica Wallace, M. Ed., Coordinator, Peer Mentoring and Engagement
Euna Victoria Chavis, B.A., Coordinator, Summer Bridge
2203 SASB North; (919) 966-2143, (919) 962-7710.

CSSAC (http://cssac.unc.edu) is dedicated to promoting academic excellence and assisting students to achieve their academic goals while enrolled at Carolina. Its constituent programs—the Office for Student Academic Counseling, Summer Bridge, Carolina Male Scholars, and the Writing and Learning Center—provide support for students in developing the skills and strategies needed to achieve academic success and personal success. This commitment to student learning supports the University’s mission to “teach a diverse community of undergraduate, graduate, and professional students to become the next generation of leaders.”

CSSAC’s unit for Student Academic Counseling offers academic and personal support to all UNC-Chapel Hill students. Its primary objective is to sponsor programs and activities that promote academic excellence, increase retention, and improve the campus climate for diversity among American Indian and African American undergraduates. Support provided by Student Academic Counseling includes the Minority Advisory Program, individual academic counseling appointments, guidance for student led
initiatives and projects, and the annual Hayden B. Renwick Academic Achievement Awards Ceremony. Historically, this office has worked cooperatively with members of several student organizations, including the Black Student Movement, the Carolina Hispanic Student Association, the National Panhellenic Council, the Asian Student Association, Womxn of Worth, and the Carolina Indian Circle. CSSAC’s full-time and part-time professionals work with graduate assistants and undergraduate student assistants to meet the needs of any UNC–Chapel Hill student requesting assistance.

The Peer Mentoring Programs
The Minority Advisory Program (MAP) consists of students with cumulative grade point averages of 2.5 or higher who volunteer to serve as peer mentors mostly to minority first-year undergraduates. These peer mentors provide academic counseling, bridge communication between CSSAC and first-year students, and assist them with their transition from high school to university life. CSSAC also oversees the peer mentoring program for Carolina Covenant Scholars and community college students participating in the Carolina Student Transfer Excellence Program (C-STEP). As with MAP, Carolina Covenant Scholars and C-STEP volunteers serve as peer mentors to first-year Carolina Covenant Scholars and C-STEP participants to assist them with their academic and social transition to Carolina.

Hayden B. Renwick Academic Achievement (3.0) Recognition Ceremony
These ceremonies acknowledge primarily minority students who have excelled academically while attending UNC–Chapel Hill. Students achieving a cumulative grade point average of 3.0 or better are recognized each spring semester and awarded a certificate of achievement. Parents and friends are encouraged to attend this annual event.

UNC Summer Bridge Program
The UNC Summer Bridge program is a six-week transition program that helps incoming first-year students adjust to Carolina by providing academic enrichment, community building and, co-curricular and experiential learning activities. Any student who has been admitted to UNC–Chapel Hill and is a North Carolina resident is eligible to apply. Summer Bridge students have the opportunity to engage in support programming throughout the academic year as well.

Carolina Male Scholars
A community designed to help males of color develop academically, socially, and professionally. Our current initiatives include mentor-coaching, monthly networking gatherings, Start Strong summer program, and a first-year male student retreat.

Learning Center
Kim Abels, Ph.D., Director
Robert Pleasants, Ph.D., Assistant Director
0118 and 2109 SASB North, (919) 962-3782.

The Learning Center (http://learningcenter.unc.edu) helps students optimize their learning strategies to achieve their academic potential at Carolina. To make an appointment with an academic coach or check out this year’s event calendar, visit the Learning Center’s Web site (http://learningcenter.unc.edu). The Learning Center regularly offers an array of programs and services popular with many undergraduate students, including:

- One-on-one appointments with an academic coach. Coaching appointments provide opportunities for students to set personal academic goals and get support and accountability in the process.
- Peer tutoring for many introductory courses. Students can find drop-in support on Tuesday and Wednesday nights at Dey Hall or make an appointment for select courses.
- STEM support, including academic coaching and learning groups for BIOL 101, CHEM 101, CHEM 102, CHEM 261, MATH 130, and MATH 231.
- Workshops on topics such as metacognitive learning strategies, reading speed and comprehension, time management, and more.
- Handouts and videos (http://learningcenter.unc.edu/tips-and-tools) offering tips and tools to make students’ academic lives easier.
- Study groups and boot camps providing opportunities to gather with other students to maximize study time and strategies.
- Test prep courses for GRE, GMAT, MCAT, and LSAT in partnership with The Princeton Review, often at discounts of 30 to 50 percent.
- ADHD/LD services. Both individual appointments and coaching groups are available.

Writing Center
Kim Abels, Ph.D., Director
Vicki Behrens, Ph.D., Assistant Director
0127 SASB North; 221 Greenlaw Hall; (919) 962-7710.

The Writing Center (http://writingcenter.unc.edu) is a free service for students at UNC–Chapel Hill. Our main office is in SASB North, and we have a satellite location at 221 Greenlaw Hall. Our coaches are friendly graduate and undergraduate students from a variety of academic disciplines who are specially trained in teaching writing. We offer both 45-minute face-to-face sessions and an online system that allows students to submit writing and receive feedback via the Web. An array of popular handouts and videos (https://writingcenter.unc.edu/tips-and-tools) are available anytime via our Web site. Our face-to-face sessions take place by appointment. Additional services for international students and scholars and other multilingual writers are also available. Detailed information about our programs is available on our Web site (https://writingcenter.unc.edu).

What Happens During a Session?
When you arrive at the Writing Center, your coach will ask about your current writing task and help you set goals for your session. You can visit us at any point in the writing process for any kind of assignment. If you are just getting started, your coach might help you do some brainstorming or outlining. If you have a draft, your coach will read through it with you, ask questions to help you clarify your ideas, share some feedback, and teach you some new writing and revision strategies. You might do some writing during your session, and your coach will probably share some resources, such as handouts, videos, and information about other campus services. While we do not offer editing or proofreading, we are happy to help you work on these skills. Our goal is to support your long-term development as a writer, as well as help you improve your current paper or multimedia writing project.
Library System

- Library hours (http://library.unc.edu/hours)
- Ask a question (http://library.unc.edu/ask)

Everyone is welcome in all campus libraries, including the House Undergraduate Library (open 24/7), Davis Library, the Wilson Special Collections Library, the Health Sciences Library, and libraries with various subject specialties. Your OneCard is your library card.

The libraries’ Web page (http://library.unc.edu) provides direct access to many research materials including online books and journals, as well as information about places to study and experts who can help with research on any topic. You can contact the Library (http://library.unc.edu/ask) through e-mail, chat, and text messaging services.

Special facilities at the University Libraries include state-of-the-art design and media production labs in the R.B. House Undergraduate Library; a makerspace with 3D scanning and printing at the Kenan Science Library; and the Davis Library Research Hub, with equipment and expertise for GIS, data visualization, and digital humanities.

Math Help Center
Miranda Thomas, Ph.D., Director

The Math Help Center (http://math.unc.edu/undergraduate/math-help-center), located in 237 Phillips Hall, provides additional instructional support for students enrolled in MATH 110 through MATH 233. The center is staffed by both graduate and undergraduate tutors who work with students in small groups or individually. The center’s main purposes are to provide assistance and to increase the success rate for students in specific math courses.

Pre-Graduate School Advising
William Taylor, Ph.D., Coordinator

This resource is offered to students in the College of Arts and Sciences interested in pursuing graduate studies through the Pre-Graduate Education Advising Program (http://prechad.unc.edu) in Hanes Hall (second floor). The program advises undergraduate students considering a graduate degree in various disciplines (sciences, arts and humanities, social sciences, and professional arenas). These advisors can help clarify the differences between a doctorate and a master’s degree and the opportunities a terminal degree may offer. The program is primarily responsible for helping students considering graduate school understand what their next steps are in researching and applying to graduate programs, so that they can move forward independently and effectively. Students interested in graduate study also should speak with departmental or curricular advisors, the director of undergraduate studies for their major, and other faculty members. The advisors are also happy to help you identify the individuals you should contact.

Prehealth Advising
UNC–Chapel Hill has no formal prehealth curriculum or major. Instead, students should choose one of the four-year B.A. or B.S. degree programs and incorporate appropriate prerequisite courses in their planning. Health profession schools/programs encourage students to major in what they are interested in studying; no specific majors are recommended. A variety of support systems are in place for students who want to pursue prehealth careers, including the Academic Advising Program, University Career Services, the professional schools across campus, and many knowledgeable faculty members. Students are encouraged to research programs of interest and carefully follow the requirements of each program, as well as the national standards for various health professions, to best prepare for further study.

Prelaw Advising
William Taylor, Ph.D., Advisor

UNC–Chapel Hill has no formal prelaw curriculum or major. Instead, students should follow one of the four-year B.A. or B.S. degree programs. Most law schools do not require, or even recommend, that students major in any particular field; instead, most law schools prefer applicants who have pursued a course of study that gives a foundation for undertaking legal studies, with an emphasis on reading, writing, speaking, and analytical and critical thinking. However, a student wishing to practice patent law will need a degree in one of the sciences.

Prelaw students should emphasize academics. The campus Learning Center offers programs designed to help enhance reading skills. Students are encouraged to take advantage of this opportunity. Students also are encouraged to call University Career Services to schedule an appointment with Dr. Taylor in Hanes Hall (second floor). They may also wish to visit the prelaw Web site (http://prelaw.unc.edu), where they can gain helpful information and join the prelaw listserv to receive important announcements.

Research Institutes and Centers

The intellectual life of the University and the research activities of undergraduates, graduate students and faculty alike receive valuable encouragement and support from a variety of institutes and centers. These institutes do not operate as instructional agencies within the University; rather, they serve to obtain financial and organizational assistance for the scholars who constitute their membership.

Most research centers and institutes can be found on the UNC Research Web site (http://research.unc.edu/units/a-z).

Scholarly Journals

The University has published scholarly journals since 1884, when the Journal of the Elisha Mitchell Scientific Society first appeared.

The following list contains some of the publications currently produced by the University’s graduate and professional programs.

Annali d’Italianistica (http://www.ibiblio.org/annali). The mission of this publication is to promote the study of Italian literature in its cultural context, to foster scholarly excellence, and to select topics of interest to a large number of Italianists.

Carolina Papers in International Health and Development (http://cgi.unc.edu/about/history). A series of UNC–Chapel Hill graduate student working papers designed to promote scholarship in the fields of health and development and to raise awareness of such issues among international studies specialists.

Endeavors (http://endeavors.unc.edu). Features outstanding research and creative work undertaken by faculty and students at the University. Distributed free, the magazine reaches 8,600 on- and off-campus readers in an effort to engage others in Carolina research.
North Carolina Law Review (http://www.nclawreview.org). Published by the School of Law to stimulate research and publication by faculty and students.

Studies in the Romance Languages and Literatures (http://romlpub.unc.edu/ncsll). For 60 years, this publication has supported and disseminated scholarship in the romance literatures.

In addition, the University of North Carolina Press (http://uncpress.unc.edu/bm-journals.html) publishes the following journals

Social Forces, one of the best known journals in sociology and related fields.

The High School Journal, for educational practitioners and theorists nationwide.

Studies in Philology, publishing articles on British literature before 1900 and articles on relations between British literature and works in the classical, Romance, and Germanic languages.

Southeastern Geographer, publishing the academic work of geographers and other social and physical scientists since 1961.

Southern Literary Journal, premier publication devoted to the fiction, poetry, and drama of the American South.

Southern Cultures, dedicated to the exploration of what makes the South the South.

Early American Literature, journal of the Division on American Literature to 1800 of the Modern Language Association.

Appalachian Heritage, a leading literary magazine of the southern Appalachian region.

The University of North Carolina Press

The University of North Carolina Press (http://uncpress.unc.edu) is the primary publishing arm of the University in the scholarly field. In addition to its publication of the journals of research, it carries on a book publishing program of about 80 new titles a year. Electronic publications also are available. Although these books are the work of scholars from all parts of the world, the presence in the University of a professionally staffed book publishing organization, with facilities for the international distribution of works of scholarship, is a stimulus to research and writing by members of the University community. The Press' program is an important contribution to the development of that aspect of the University's service which has to do with the advancement of learning.
RESOURCES: CAMPUS LIFE

Campus Safety
285 Manning Drive (via Hardin Drive)
Monday - Friday, 7:30 a.m. to 5:00 p.m.
(919) 962-3951

UNC Police is committed to creating and maintaining an environment where students, employees, and visitors to campus can feel safe in this vital community. Through its philosophy of community-oriented policing (COP), the department strives to employ professionalism, problem solving, and innovative strategies to remain one of the premier public safety agencies in the nation.

Familiarize yourself with security resources such as the campus-wide network of emergency call boxes, Smart911, self-defense instruction, other crime prevention classes, and much more.

In addition, the University has the capacity to send emergency warnings by text message to students, faculty, and staff through its Alert Carolina initiative. The entire University community is encouraged to educate itself regarding UNC’s emergency communications resources and to register cell phones for this method of communication by visiting the Alert Carolina Web site (https://alertcarolina.unc.edu).

The LiveSafe App provides students, faculty, and staff a direct connection to UNC Police so that everyone can easily communicate all their safety needs. Its easy-to-use features help you stay safe every day and enable us to better protect you. Benefits include the ability to share information, tips, and safety concerns with UNC Police via pictures, video, or audio messaging; easy access to call or message UNC Police to summon help; access to SafeWalk, a GPS-tagged monitoring feature that allows your friends and family to keep you virtually covered until you arrive safely at a destination; and easy-to-find information and location of safety resources on and off campus. To download and set up LiveSafe on your iPhone or Android phone, select “University of North Carolina Chapel Hill” as your affiliation and fill in your user profile.

UNC–Chapel Hill students and staff can learn how to respond in an active shooter scenario by attending a “Shots Fired” training presentation offered by UNC officers.

Concerns may be addressed at the following campus telephone numbers:

Carolina Housing
Student and Academic Services Building North
CB# 5500
450 Ridge Road
(919) 962-5401
housing@unc.edu

Carolina Housing (https://housing.unc.edu) works to provide convenient housing that is secure, inclusive and supportive. Students create a home in our on-campus communities, build lifelong friendships and develop skills for their current and future successes as they journey through their Carolina experience. Students are encouraged to work towards leaving their “HEELprint” on the larger University by connecting with resources, taking advantage of leadership opportunities and making a difference while they are Carolina students. By getting involved, students develop an identity with the larger University community, create social networks and find opportunities for intellectual, spiritual, physical, and occupational growth.

Carolina Housing is an integral part of the academic and social community at UNC–Chapel Hill. It is committed to providing an environment conducive to the educational, psychological, and social development of residents. It strives to build a community that balances respect for the individual as well as the rights and interests of the whole community. All members of the residence hall and apartment community — residents, staff, and visitors — are expected to act in a manner that demonstrates respect and consideration for those around them.

Carolina Housing offers a variety of academic success and engagement initiatives to help student staff and on-campus residents develop healthy academic habits and support systems that lead to student success. These initiatives include residential learning programs, academic advising in the residence halls, transitional programming for first-year students, faculty engagement programs such as Meals with Heels and the Scholar in Residence, individual community programming on academic success, and an experiential education course, EDUC 318. This holistic approach complements classroom experiences and lays the foundation for students to become better prepared to succeed in life beyond college.

Graduate Student Housing. Carolina Housing recognizes that the living needs of graduate and professional students are usually different from those of undergraduates. At Carolina, graduate and professional students can enjoy the benefits of being affordably close to classes, facilities, and events, and living in a community of fellow graduate students where the atmosphere is characterized by early quiet hours and respect for personal time and space.

Baity Hill Graduate and Family Housing is Carolina’s on-campus community for graduate students providing apartment-style housing. The property houses students with families and graduate students with roommates. This one- and two-bedroom apartment community is situated on rolling hills adjacent to the campus. The apartments are within walking distance of the campus and are served by campus and city bus routes. Rental costs compare favorably with similar area housing.

Parking is available for graduate students on a limited basis, and a fare-free campus bus service offers several routes that connect the north, middle and south regions of campus. Find specifications for apartments by visiting the “Apartments” section of the Carolina Housing Web site (http://housing.unc.edu).

Generally, demand for on-campus housing for graduate students exceeds the supply. On-campus housing is not guaranteed for graduate students, although every effort is made to offer a space to all applicants. Returning residents have priority to re-contract for the following academic year before spaces are offered to new graduate students. Additional information is available in the “Apartments” section of the Carolina Housing Web site (http://housing.unc.edu).

Off-Campus Graduate Student Housing. Off-campus housing refers to any housing not owned and operated by the University of North Carolina at Chapel Hill. This category includes small group housing such as fraternities and sororities, as well as apartments, houses, and rooms. Two-thirds of the University’s students live in the off-campus market. Students will find furnished and unfurnished units, as well as units...
within walking distance to campus or spread throughout Chapel Hill and Carrboro.

**Carolina Union**

The Carolina Union ([https://carolinaunion.unc.edu](https://carolinaunion.unc.edu)) creates safe, inclusive, and educational experiences that enable students to maximize their time at Carolina. "Carolina Union" is the term used for both the Frank Porter Graham Student Union Building and the University department that serves students in many areas of their cocurricular lives. Governed by a board of directors consisting of students and faculty, the Carolina Union's role is to unify the campus community by providing programs, services, and facilities.

Cultural, educational, and social programs are planned and implemented by the Carolina Union Activities Board ([https://carolinaunion.unc.edu/programs-orgs/carolina-union-activities-board](https://carolinaunion.unc.edu/programs-orgs/carolina-union-activities-board)) (CUAB).

The Union contributes to the educational mission of the University by providing cultural, social, educational and entertainment programs. The Union also provides many services for the University community, supporting and enhancing student organizations and the programs they create.

**The Office of the Dean of Students**

Student Academic Services Building North, Suite 1106
450 Ridge Road
(919) 966-4042

The Office of the Dean of Students ([https://odos.unc.edu](https://odos.unc.edu)) provides support and assistance to the University of North Carolina at Chapel Hill community, empowering students to succeed in navigating the University environment. Its four pillars—Care, Collaborate, Celebrate, and Empower—inform its programs, services, and initiatives. The office often serves as a beginning point of contact for students, faculty members, staff, families, and community constituencies regarding various student concerns. It supports student academic, personal, and professional development through a combination of individual initiatives, innovative outreach programs, and cocurricular opportunities, as well as policy development and oversight.

**Off-Campus Student Life**

2100 Granville Towers Lane South
(919) 843-5827
offcampus@unc.edu (e-mail)
offcampus.unc.edu ([http://offcampus.unc.edu](http://offcampus.unc.edu)) (Web)
offcampushousing.unc.edu ([http://offcampushousing.unc.edu](http://offcampushousing.unc.edu)) (Web)

In alignment with the mission of Student Affairs at the University of North Carolina at Chapel Hill, Off-Campus Student Life ([http://offcampus.unc.edu](http://offcampus.unc.edu)) is committed to educating all students (undergraduate, graduate and professional) in life skills related to living off campus and in the community. These skills include:

- Becoming responsible tenants and community members knowledgeable of city ordinances and community quality of life issues
- Making informed choices about housing and roommates
- Gaining proficiency in problem solving when landlord and roommate difficulties arise
- Understanding personal safety and responsibility

For many students, transitioning into off-campus housing is as much a part of their college experience as first moving into the residence halls. For graduate and professional students, living in graduate housing like Baity Hill or in the community (Chapel Hill, Carrboro, or beyond) during their entire time at Carolina fits with their place in life and needs as a post-college adult. But, there can be significant challenges when leaving the intentional structure of an on-campus living environment. We are here to help students navigate their way as successful neighbors in our greater Chapel Hill-Carrboro community. We advocate for and educate toward the development of students as knowledgeable, active, and responsible community citizens. Students living off campus and in the community have rights and responsibilities associated with their pursuit of an enjoyable and safe living experience. We provide services and educational opportunities to promote the understanding of these rights and responsibilities throughout the off-campus student population.

**Fraternity and Sorority Life**

3508 FPG Student Union, CB# 5210
(919) 962-8298

Fraternity and Sorority Life ([https://ofslci.unc.edu](https://ofslci.unc.edu)) provides services, programs, and assistance to the 60 fraternities and sororities that make up the Chapel Hill Greek community. The office's mission is to enhance the academic experience, holistic development, and civic contribution of students by providing effective services and developmental opportunities that enrich the Carolina experience. Fraternity and Sorority Life advocates for the fraternal movement by educating, advising, and empowering fraternities and sororities and their members to live according to their organizational values and contribute to the University and greater community.

**Information Technology Services**

Web: its.unc.edu ([http://its.unc.edu](http://its.unc.edu))
E-mail: help@unc.edu
Telephone: (919) 962-HELP (4357)
T: 711 NC RELAY

Information Technology Services (ITS) leads UNC–Chapel Hill in planning, implementing and maintaining the University's technology services. The ITS staff is dedicated to delivering reliable, secure, and satisfying information technology solutions and experiences to the University community. ITS collaborates with a broad spectrum of faculty, student, and staff stakeholders to ensure effective, efficient, and timely services that meet their needs.
2-Step Verification

its.unc.edu/2-step (http://catalog.unc.edu/resources/campus-life/its.unc.edu/2-step)

The main benefit of activating 2-step verification is a significant increase in protection of your account from hackers. We are all used to having one layer of security — our password — to protect our accounts. With 2-Step, if a criminal gets through the password layer, he or she will still need your phone or other second verification method to get into your account.

Step is required within Connect Carolina to access W2s and student financial information. As of spring 2018, 2-step verification is also required for students to use Office 365, including Heelmail.

Adobe Creative Cloud

adobe.unc.edu (http://adobe.unc.edu)

UNC-Chapel Hill provides all students and instructional faculty and staff with access to Adobe Creative Cloud, a package of creative desktop applications for digital imaging, design, Web and video, plus online services and storage. Popular creative desktop and mobile tools available with Adobe Creative Cloud licenses include Photoshop, Illustrator, Acrobat Pro, and InDesign. These programs are utilized frequently in the classroom and are now available at no additional cost to students. New students can activate their license by visiting adobe.unc.edu (http://adobe.unc.edu).

Carolina Computing Initiative (CCI)

ci.unc.edu (http://cci.unc.edu)

As part of the University's coordinated technology plan, the Carolina Computing Initiative (CCI) aims to ensure that Carolina students, faculty, and staff have access to high-quality computers and exceptional support services. The CCI is one of a number of University initiatives to ensure that the academic community has the tools needed to prepare for 21st-century digital literacy. Undergraduate students are required to bring laptops that meet the minimum standards set by the University for their graduating class. Eight out of every 10 students choose a CCI laptop package to fulfill this requirement. Students who own a CCI model laptop receive the highest level of support available on campus, including on-campus hardware repairs and access to loaner laptops.

Many students who choose a CCI laptop package are eligible for assistance with purchasing the laptop. Laptop grants that cover the entire cost of the CCI laptop package are awarded to incoming students throughout the summer. New students can apply for this need-based financial aid by submitting the College Board CSS/Financial Aid Profile to UNC-Chapel Hill. Recipients of these laptop grants will be notified in April or just after being admitted and can redeem them at their time of purchase. For more information on the laptop grants, visit cci.unc.edu/new-students/laptop-grant (http://cci.unc.edu/new-students/laptop-grant).

Adopting the University's computer standards offers students and families the most value for their money, the highest level of technology at the best price, and access to convenient and reliable support on campus. Standardization reduces the number of problems that would typically arise from using a variety of hardware, software and operating systems. It also enables faculty members to more readily incorporate technology into their instruction and that the technology-related disruptions will be kept to a minimum.

Why Standardize?

- Enables faculty members to more readily incorporate technology into their instruction and that the technology-related disruptions will be kept to a minimum.

Why a Laptop for Your Student?

Portable laptops give students access to learning resources (online discussion forums, library resources, and class notes) and student services (grades, schedules, and registration) anytime, anywhere. Students are able to take laptops to class, remain in touch with their professors outside of class time, work with classmates anywhere on campus or at a Franklin Street café, or conduct research at home during the weekend.

Buying Your Student's Computer

The Tech Shop
(919) 962-2422

All CCI laptop package purchases are made through the Tech Shop, the technology division of the UNC-Chapel Hill’s Student Stores. For information on purchasing computers that meet the University's specifications, go to cci.unc.edu (http://cci.unc.edu).

First-Year Students

While first-year students are not required to purchase a Carolina Computing Initiative (CCI) laptop, the vast majority do (more than 80 percent on average). Students who opt to bring a different model laptop are still required to bring a laptop that meets the technology requirements specified by the University. For details on the University's laptop specification, visit cci.unc.edu/new-students/minimum-specs (https://cci.unc.edu/new-students/minimum-specs).

While software and operating system support is available for non-CCI laptops, the level of support for students who own a CCI laptop is much higher. Hardware support and loaner laptops are available on campus for students who own CCI laptops, while for non-CCI laptops, hardware support is the responsibility of the student. For more information about the advantages of owning a CCI model specifications, visit cci.unc.edu/new-students/why-buy-cci (http://cci.unc.edu/new-students/why-buy-cci).

Transfer Students' Minimum Laptop Specifications

Students are required to have a laptop that meets minimum specifications for their class year. All CCI computer models offered meet these requirements and are available for purchase by transfer students. For details on the University’s laptop specifications, visit cci.unc.edu/new-students/minimum-specs (http://cci.unc.edu/new-students/minimum-specs).

Insurance and Warranty

Laptops purchased through the CCI come with a comprehensive, four-year protection plan that exceeds the coverage available under standard homeowners insurance and the manufacturer's warranty. This protection plan covers theft, accidental damage, and damage from a power surge, fire, or natural disaster while in the United States, Canada, and Puerto Rico. The policies include a $100 deductible per incident. International insurance is also available upon request. For more insurance and warranty information, visit cci.unc.edu/new-students/insurance-warranty (http://cci.unc.edu/new-students/insurance-warranty).
Printing
ITS Labs offers the Pharos Printing System. UNC–Chapel Hill fee-paying students are given an allotment of pre-paid pages on their One Card for printing each semester. Once the allotted pages have been used, students may purchase additional pages. In addition to campus locations, print stations can also be found in most on-campus housing communities. Students can print directly to these print stations by installing the CCI Printing software from shareware.unc.edu (http://shareware.unc.edu). More details on this service are available at cci.unc.edu/printing (http://cci.unc.edu/printing).

ITS Service Desk
The ITS Service Desk is the central point of contact for students who need assistance with technology issues. Assistance is free and available 24 hours a day, seven days a week. Students who need help with a technology problem can call the Service Desk at (919) 962-HELP, chat live with the ITS Service Desk live via the Web at help.unc.edu (http://help.unc.edu), or visit one of two on-campus locations. The Service Desk can assist students with hardware and software problems as well as questions about UNC–Chapel Hill technology services.

CCI computers are repaired on campus. While students’ CCI machines are being repaired, the Service Desk may be able to provide students with one of a limited number of loaner laptops. For more information, students should inquire at the Service Desk when they request service.

ResNET: Residential Networking, Education, and Technology
The ITS ResNET team is responsible for providing on-site IT support and IT education for on-campus residents and the Department of Housing and Residential Education. The ResNET program, one of the largest in the nation, is comprised of student employees who live in the residence halls in addition to four full-time staff. ResNET also provides support for high-speed wired and Wi-Fi networking and maintain the IT systems and processes that run the Carolina Housing operation. Each semester ResNET hosts 30+ Tech Tune-Up service events in the residence halls at which residents can have their computers physically cleaned, updated, and scanned for malware.

Note: Granville Towers residents receive internet services from a third-party company and should contact Granville for more details.

Cable Television
Students living on campus have access to high-quality cable television service, including more than 100 cable television channels in high-definition (HD). Support for residence hall cable television service is provided by ResNET. For more information or to view the cable television channel line-up, visit help.unc.edu (http://help.unc.edu) and search for CATV.

Telephone Services
All residence hall telephone services are handled by AT&T (the local telephone franchise). There is no active phone service in the residence halls; residents must first contact AT&T to request residential service activation and to set up billing. For more information visit housing.unc.edu/residence-life/your-room/telephone.html (https://housing.unc.edu/residence-life/your-room/telephone.html).

Download CarolinaGO
CarolinaGO, the University’s official mobile app, is a collaboration between ITS and student leaders. With CarolinaGO, students can access a mobile version of ConnectCarolina, check dining hours, find bus schedules, check CCI printing availability, and more. A walking directions module also makes it easy for new students and families to navigate campus. Search “CarolinaGO” in the iTunes and Google Play app stores to download.

Stay Up To Date with ITS
During the course of the academic year, technology changes and/or unplanned outages sometimes occur. ITS encourages students and family members to follow us on Twitter @UNCTarHeelTech. We post upcoming maintenance windows, technology changes, outage information, training information, and more.

The James M. Johnston Center for Undergraduate Excellence
225 Graham Memorial
218 E. Franklin Street
(919) 966-5110

The James M. Johnston Center for Undergraduate Excellence (http://honorscarolina.unc.edu/johnston-center) is a "democracy of learning" open to students, faculty, alumni, and visitors from all corners of the Carolina campus and beyond. The mission is to encourage undergraduates’ active engagement with research, scholarship, and artistic endeavor; to promote innovative teaching; and to provide a social setting in which students can engage in thoughtfull discussions with professors and classmates.

The Johnston Center houses Honors Carolina (http://honorscarolina.unc.edu), the Office of Burch Programs (http://honorscarolina.unc.edu/fellowships/burch-fellowship) and Honors Study Abroad (http://honorscarolina.unc.edu/global-honors), the Office of Distinguished Scholarships (http://honorscarolina.unc.edu/ods), the Office for Undergraduate Research (http://honorscarolina.unc.edu/research), the Robertson Scholars Program, and the Beasley Multimedia Center.

The Johnston Center’s student-faculty advisory committee advises its director on all aspects of programming and planning.

LGBTQ Center
Student Academic Services Building South, Suite 3308
385 Manning Drive
(919) 843-5376
lgbtq@unc.edu

The Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) Center (https://lgbtq.unc.edu) works to foster a welcoming and inclusive environment for UNC–Chapel Hill community members of all sexual orientations, gender identities, and gender expressions. The LGBTQ Center offers educational programs such as Safe Zone, social events such as Center after Dark on Wednesday evenings, and direct support and advocacy to students, staff, and faculty.

Minority Male Mentoring and Engagement
Student Academic Services Building North, Suite 2203
(919) 966-5245
Christopher Faison (cdf@unc.edu), M.A., Coordinator

The Minority Male Mentoring and Engagement (http://menofcolor.unc.edu) initiative, housed in the Center for Student Success
afford students the opportunity to gain knowledge and develop skills to improve performance inside and outside the classroom; to enhance leadership potential; to find opportunities to serve fellow students and the community; to explore, plan, and prepare for a career; to plan for an active and rewarding life; to develop citizenship; and to improve interpersonal and life skills.

While Student Affairs offers programs designed primarily for undergraduate students, The Graduate School, on its own and in conjunction with various Student Affairs offices, offers programs and services intended to specifically address the needs of graduate and professional students.

The Office of the Vice Chancellor coordinates Student Affairs programs and provides guidance and leadership for its departments. The office also acts in a consulting role for faculty, administrators, and students who wish to raise issues that concern the University community, with a particular focus on student needs.

Student Dining Services

Carolina Dining Services (https://dining.unc.edu) operates 10 separate dining facilities at UNC—Chapel Hill. Meal purchases can be made with the UNC One Card using a meal plan, Dining Flex, À la carte, expense, or cash. All meal purchases made with the UNC One Card are not subject to the 6 percent North Carolina state sales tax on such items. Cash purchases are taxable. To find out more about acquiring a UNC One Card, visit the One Card Office Web site (https://onecard.unc.edu) or the UNC One Card office on the third floor of UNC Student Stores.

Students can use their meal plans at several of the campus all-you-care-to-eat dining facilities. Top of Lenoir is an award-winning facility with an array of menu choices. The Rams Head Dining Hall is a 30,000 square foot state-of-the-art facility that includes several restaurants and all-you-care-to-eat venues.

Carolina Dining Services offers several meal plans that offer the convenience and value of purchasing meals on campus ahead of time.

Student Government

The by-laws of the Board of Trustees of the University invest in the chancellor of the University "the duty . . . to exercise full authority in the regulation of student conduct and in matters of student discipline." At the same time the chancellor has delegated authority to exercise disciplinary and administrative functions in student life to agencies of student government. Within the context of this delegated authority and responsibility, the student body at the University has been self-governing for decades.

Student government at Carolina is more than 100 years old, and hundreds of students are involved in the various branches every year. From serving on the Board of Trustees to the appropriation, oversight, and authority of student fees, from instituting governmental service to enforcing the Honor Code, student government affects the life of every student every day.

The entire framework of student government’s activities rests on its ability to maintain the foundation of administrator-student relations. The University should serve as an advisor, not as a supervisor, to the student body. To enjoy this freedom, students at Carolina must be willing to take a certain amount of responsibility to develop their own community and community values. Student government serves to maintain this freedom and the advisory, not supervisory, relationship.
In 1876 the Honor System officially ended all vestiges of the monitorial system; in 1904 a judicial body, the University Council, was established; in 1938 the Student Legislature was established; and in 1946 a written constitution was approved. In 1968 the coeducational Honor Court was formed out of the Men’s Court and Women’s Court to hear all Honor Code cases. The Instrument of Student Judicial Governance was ratified and put into operation in 1974, was significantly revised in 2003, and then amended in 2015 and 2017.

Student government at UNC–Chapel Hill approximates the federal system of government with its three branches: an executive branch, a legislative branch, and a judicial branch.

The Executive Branch of Student Government

This group (http://execbranch.unc.edu) serves as the official voice of the student body to the University and broader community, including the town of Chapel Hill and the state of North Carolina. Heading the executive branch is the student body president, assisted by the vice president, the president of the Graduate and Professional Student Federation, student body treasurer, student body secretary, the chief of staff, and the senior advisor. As determined by and reflective of the needs of the student body, the president structures his/her cabinet and committees and makes appointments to a wide range of University committees that address those needs and other concerns as they arise during the year. These committees usually include hardship parking, elections board, University services, information technology, student life, minority affairs, first-year focus council, and public service.

Legislative Branch

Student Congress (http://congress.unc.edu) is unicameral, consisting of 41 representatives elected by the student body, with the student body president and the student body treasurer serving as nonvoting ex officio members. The speaker of the Student Congress is elected from among the 41 representatives. Graduate and professional students and on- and off-campus undergraduates are proportionally represented in the Congress.

Student Congress handles considerable legislation and, as one of its primary responsibilities, oversees the student activity fees budget and other student fee areas. Established by student and University committees before approval by the Board of Trustees, a predetermined amount of the fees paid by each student provides the source of funds for Student Congress’s annual allocation and subsequent appropriations budgets. These funds are allocated to petitioning student organizations that have received official University recognition. The student body can petition for changes in the student activities fee at any time.

Student Congress representatives are elected in the spring for one-year terms, and each member serves on one of three standing committees: finance, rules and judiciary, and student affairs. A fourth committee, ethics, is composed of senior members of the Congress.

Judicial Branch

There are two major areas that comprise the judicial branch; the first is responsible for the Instrument of Student Judicial Governance, and the second is responsible for resolving issues related to the Student Code (http://congress.unc.edu/student-code).

The Honor Court hears all cases involving potential violations of the Honor Code. There are separate courts for undergraduate students, graduate students, and students in the Schools of Law, Medicine, Dentistry, Pharmacy, and Business. The Honor Court is organized as follows:

- Office of the Student Attorneys General: The appropriate (undergraduate or graduate) student attorney general investigates all potential violations of the Honor Code. Staff members also present cases to the Honor Court and assist students accused of violating the Honor Code.
- University Hearings Board: These boards are made up of faculty, staff, and students. The University Hearings Board generally hears appeals of Honor Court cases.
- Students interested in serving on the Honor Court or the student attorney general’s staff should contact the Honor System Office at (919) 966-4084 for information about how to apply.
- Student Supreme Court: This court adjudicates all issues of student constitutional law to be decided under the Student Code. This body most closely fills the traditional judicial branch of government and consists largely of students with previous experience in student government, mediation, and/or law.

For Graduate Students

The Graduate and Professional Student Federation (GPSF) (http://gpsf.unc.edu), the official representative of graduate and professional students at the University, is organized based on school, departmental, and curricula organizations. The GPSF provides communication between graduate and professional students, represents graduate and professional students both within and outside the University community, and provides structures capable of dealing with ongoing issues and concerns. It also allocates and administers the funds appropriated to it from student fees. Every duly enrolled graduate and professional student is automatically a member of the GPSF.

Transportation and Parking

Public Safety Building at 285 Manning Drive (via Paul Hardin Drive) (919) 962-3951
Weekdays 7:30 a.m. to 5:00 p.m.

Transportation and Parking (https://move.unc.edu) is an essential part of UNC and is responsible for coordinating all traffic, parking, and transportation around campus.

Parking

Every student at UNC–Chapel Hill who parks an automobile on weekdays in University parking areas is required to obtain and display a parking permit. Parking permit holders must park only in specific zones as indicated on their parking permits. Please note the signs at the entrances to each lot which detail the hours of enforcement for that parking area.

Students may apply for parking permits during online registration procedures (https://move.unc.edu/parking/student-parking) or at the UNC Transportation & Parking offices in the Public Safety Building. Vehicles found parked illegally may be cited by Transportation & Parking’s Parking Control Division, and subsequent violations may result in further citations, immobilization (“booting”), or towing of the vehicle. Citations may be appealed through UNC Transportation & Parking’s Appeals Office within 10 calendar days upon receipt of the citation. Citations can be appealed in person during office hours Monday through Friday from 7:30 a.m. to 5:00 p.m., online (https://moveunc.t2hosted.com/cmn/auth.aspx), or by regular mail.

The Parking Control Division operates MAP, the cost-free Motorist Assistance Program. If a vehicle requires a jump start or if the keys
are locked inside the vehicle, motorists may call for assistance at (919) 962-8006, during business hours. During all other times (and on University holidays), UNC Police may be contacted for jump start at (919) 962-8100.

The Commuter Alternative Program

The Commuter Alternative Program (https://move.unc.edu/cap) (CAP) is designed to reward campus community members for the use of bicycling, walking, transit, and ridesharing. CAP is only available to off-campus students who do not have a parking permit. CAP offers prizes, discounts from local merchants, and other benefits to all members.

Local and Regional Transit

The University, Chapel Hill, and Carrboro work together to provide the fare-free Chapel Hill Transit (http://www.townofchapelhill.org/town-hall/departments-services/transit) system. No bus pass is needed when boarding a Chapel Hill Transit bus, and anyone can ride. Campus U route and RU (Reverse U) shuttles run in continuous loops from 7:00 a.m. to 8:00 p.m., serving nearly every area on campus.

Commuting students can use any of the Park & Ride lots served by Chapel Hill Transit. All Park & Ride lots require a permit, which may be purchased through UNC (https://move.unc.edu/transit/park-ride) or through the Town of Chapel Hill (http://www.townofchapelhill.org/town-hall/departments-services/transit/park-ride). In the case of an emergency, UNC–Chapel Hill’s Emergency Ride Back service is available to provide transportation to the Park & Ride lots or any location within Carrboro or Chapel Hill municipal boundaries.

Regional transit to RDU Airport, Raleigh, Durham, Hillsborough, and other nearby cities is available through GoTriangle (formerly Transit Transit). GoTriangle also provides free Park & Ride lots around the area. Get transit directions using Google Maps (https://maps.google.com/landing/transit) and see buses in real-time online (http://triangle.transloc.com) or by downloading the TransLoc Rider app. For more route information, call GoTriangle at (919) 485-RIDE or visit the GoTriangle Web site (https://gotriangle.org).

Point-to-Point

Point-to-Point (http://move.unc.edu/p2p) (P2P) offers fare-free, fixed-route service aboard the P2P Express buses, operating on a continuous loop around campus during evening hours, 7:00 p.m. until 4:00 a.m., seven nights a week when residence halls are open during fall, spring, and summer semesters. Students must show their UNC OneCard to board the P2P Express. After dark, a demand-response van can be accessed by students in areas that are not served by the P2P Express route. P2P also offers fare-free, demand-response transportation service to disabled students and students going to or from Campus Health Services 24 hours a day.

Safe Ride

Safe Ride, operated by Chapel Hill Transit (http://chttransit.org), aims to provide increased mobility between 11:00 p.m. and 2:30 a.m. There are three Safe Ride bus routes operating on Thursday, Friday, and Saturday nights. They provide service between campus and many private student housing developments, as well as other off-campus destinations.

UNC Bicycle Registration

Bicycle registration is required for bicycles on campus. The program serves as a deterrent to crime, aids in the identification of lost or stolen bicycles, and enables UNC to plan for improved bicycle parking facilities around campus in the future. All students who register their bikes will receive a 50-percent-off coupon for a u-lock from UNC Student Stores. Forms for the free bicycle registration are available online (http://move.unc.edu/bike) or at the Public Safety Building. Cyclists who live off-campus may join the Commuter Alternative Program.

ShareTheRideNC Rideshare Matching

ShareTheRideNC (http://unc.sharetheridenc.org) is an easy way to share the seats in your car or catch a ride. The UNC–Chapel Hill private ShareTheRideNC community allows you to find friends, classmates, and coworkers going the same way you are. ShareTheRideNC helps you offer or request rides for commutes, road trips, and popular events. If you have a car, split costs by offering rides. If you don’t have a car, find rides where you need to go.

Zipcar

In 2004 UNC–Chapel Hill introduced Zipcar (http://www.zipcar.com/universities/university-of-north-carolina-chapel-hill), the world’s largest provider of cars on demand by the hour or day. Since then, students, faculty members, and staff from UNC–Chapel Hill have been taking advantage of this car-sharing program by self-reserving Zipcars on campus, 24 hours a day, seven days a week, though online and mobile devices.

RESOURCES: CAREER PLANNING

University Career Services
219 Hanes Hall
204 E. Cameron Avenue
ucs@unc.edu

University Career Services (http://careers.unc.edu) (UCS) provides information, career counseling and coaching, interest assessments, and career-related programs and services to help students learn about various careers and how to prepare for them, make career decisions, acquire job/internship search skills, interact with potential employers, and apply for graduate and professional schools. The mission of University Career Services is to support the mission of the University and Student Affairs by providing personalized and innovative career education to empower student success and transformation.

Our vision is for all UNC–Chapel Hill students to create lives of purpose and prosperity in alignment with their personal goals.

Services for both undergraduate and graduate students include workshops, one-one-one meetings, full- and part-time job and internship opportunities online (Handshake (https://careers.unc.edu/students/resources/handshake)); CliftonStrengths and other assessments; and many print and electronic resources. Our programs include career panels and fairs, industry nights, and law school exploration day. Services are limited to students in a UNC–Chapel Hill degree or certification program and alumni who have graduated within six months.

Students in law, dentistry, and medicine and students enrolled in the M.B.A. and M.A.C. programs are served by career services in their departments, rather than by UCS.

Office hours are from 8:00 a.m. to 5:00 p.m. Monday through Friday.
RESOURCES: HEALTH AND WELLNESS

Accessibility Resources & Service
Accessibility Resources & Service (https://accessibility.unc.edu) (ARS) supports the University’s commitment to accessibility. In consultation with faculty members, staff, and students, ARS works to identify and eliminate barriers that limit a student’s ability to independently meet the demands of University life. Individual needs are addressed on a case-by-case basis through the provision of reasonable accommodations that allow the University to maintain the integrity of its programs and services.

Prospective and existing students may register with ARS through the submission of a self-id and documentation (https://accessibility.unc.edu/register).

ARS is located in the Student Academic Services Building North (Suite 2126) between the Rams Head Center and Morrison Residence Hall. Office hours are 8:00 a.m. to 5:00 p.m. Monday through Friday. The staff can be contacted by telephone at (919) 962-8300 (V) (TTY-711 [NC RELAY]) or by email at ars@unc.edu.

Campus Health Services
Campus Health Services (http://campushealth.unc.edu) (CHS), located next to Kenan Stadium in the James A. Taylor Building, provides a broad range of health care services including primary care, orthopedics, obstetrics and gynecology, nutrition services, dermatology, travel information and immunization, and allergy management. For convenience, in-house laboratory, radiology, pharmacy, and physical therapy services also are available. CHS also provides counseling and psychological services; please see the Counseling and Psychological Services section for greater detail about services offered.

Eligibility
Any student or postdoctoral fellow who has paid the campus health fee for the current semester or summer session is eligible for health care at CHS. Spouses of full-time students and postdoctoral fellows can receive care at CHS.

Health Fee
Currently, the fee covers the cost of most professional services (there is no charge for office visits) provided by CHS physicians, nurse practitioners, physician’s assistants, nurses, physical therapists, and registered dieticians. The health fee also provides reduced charges for prescription drugs, miscellaneous supplies, laboratory tests, X-rays, medical procedures, and specialty services. Spouses of students are eligible to receive the same services as students by paying the campus health fee at CHS and demonstrating appropriate insurance coverage.

Hours
Hours of operation vary according to the academic calendar. Hours of operation during the academic year are 8:00 a.m. to 6:00 p.m. Monday through Friday. Students are typically seen on an appointment basis from 8:00 a.m. to 5:00 p.m. Acute care services are provided between 8:00 p.m. and 6:00 p.m. Monday through Friday and from 8:00 a.m. to 5:00 p.m. on Saturday and Sunday during the fall and spring semesters. Weekend acute care services are considered premium services and there is an associated visit charge. Hours of operation in the summer are 8:00 a.m. to 5:00 p.m. Monday through Friday. If CHS is closed, students have access to a nurse advice line through UNC Healthlink, and there is always a CHS physician on call. Call (919) 966-2281 to verify hours of operation, schedule an appointment, or to speak with the Healthlink nurse when CHS is closed.

Immunizations
North Carolina law mandates that all new students at the University document the completion of immunization requirements. Failure to comply may result in cancellation of registration 30 days after classes begin. Vaccines are offered at Campus Health Services at reasonable rates for students who need to complete their immunization requirement.

Mandatory Health Insurance
The University requires proof of health insurance as a condition of enrollment. The University offers a group health insurance plan, including major medical benefits to single and married students, their spouses/partners, and children.

Campus Recreation
Campus Recreation offers amenities for all fitness and recreation wants, needs, and desires of the UNC population. It provides a diverse and intentional recreational program in a safe, inclusive, and accessible environment which enhances the social, mental, and physical well-being of the entire University community. Campus Recreation enjoys a unique dual reporting relationship with the Department of Exercise and Sport Science (EXSS) and its rich history and commitment to a healthy and active lifestyle, and with Student Affairs, which represents the Carolina spirit of student development and learning outside the classroom.

Facilities
Campus Recreation offers a variety of facilities to satisfy the wants and needs of all UNC students, faculty members, and staff. The two fitness centers, the Student Recreation Center and Rams Head Recreation Center, offer cardiovascular and weight training equipment, as well as an indoor track, locker rooms, and group fitness studios. Basketball, squash, and racquetball courts, along with equipment for check-out, can be found throughout Fetzer Hall and Woollen Gym. These facilities also feature a cycle studio, climbing walls, and multipurpose rooms that can function for practice and instruction of a variety of fitness types. Both an indoor and an outdoor pool are located near the heart of campus. North and South Campus feature recreation complexes and fields for playing basketball, volleyball, tennis, and any other sport. The Outdoor Education Center, located off Country Club Road, is also a great facility for experiencing how recreation and the outdoors can go hand-in-hand.

Intramural Sports
Intramural Sports offers opportunities for students to compete against their peers in a friendly and structured environment.

Sport Clubs
A sport club is a University-recognized student organization formed by individuals with a common interest in a sport. Its primary goal is to promote and develop interest in a particular sport and recruit new members. Clubs may be instructional, recreational, and/or competitive.

Fitness
Fitness is housed in the Student Recreation Center (SRC) and Rams Head Recreation Center (RHRC). Both facilities offer a wide variety
of cardiovascular equipment, including many stationary bikes, stair climbers, treadmills, and cross-trainers/elliptical machines.

Over the years, Fitness and Counseling and Wellness Services (of Campus Health Services) have teamed together to enhance student wellness through greater collaborative programming, such as Powerfully Pink (a breast cancer awareness program), Women’s Health and Fitness Day, the Farmer’s Market, Fit Wellness into Your Day, and the Get Fit from Head to Heel Challenge.

Counseling and Psychological Services
Counseling and Psychological Services (https://caps.unc.edu) (CAPS), a department of Campus Health Services, is located on the third floor of the James A. Taylor Building.

The CAPS staff is strongly committed to addressing the mental health needs of a diverse student body through timely access to consultation and connection to clinically appropriate services. CAPS affirms that people of every background are to be treated with respect and dignity. The professional ethics and standards of the multidisciplinary staff at CAPS set a framework for understanding how facets of identity (e.g., gender, ethnicity, race, sexual orientation, gender identity/expression, age, physical and mental abilities, religious beliefs, and socioeconomic background) impact life experience. The CAPS approach to mental health integrates physical, emotional, academic, spiritual, social, and cultural well-being. Counseling and Psychological Services include individual, couples, and group therapy, urgent consultation and crisis intervention, and medication evaluation/management. The CAPS staff consists of licensed psychologists, psychiatrists, clinical social workers, psychology practicum students, interns, and administrative support personnel.

Counseling and Psychological Services can be reached Monday through Friday from 8:00 a.m. to 5:00 p.m. at (919) 966-3658. CAPS invites initial evaluations without an appointment Monday through Thursday from 9:00 a.m. to noon and 1:00 p.m. to 4:00 p.m., and on Friday from 9:30 a.m. to noon and 1:00 p.m. to 4 p.m. Students who have a psychological crisis should call (919) 966-3658 immediately. If the crisis occurs after hours, call Campus Health Services at (919) 966-2281.

Student Wellness Services
Student Wellness Services (http://studentwellness.unc.edu) seeks to enhance the individual and collective health of the community through a wide range of programs, services, and resources. Through partnerships with other campus departments, community agencies, student organizations, and peer mentors, we work to develop and advocate for a campus and community environment that creates, emphasizes, and supports healthy choices and positive decision making regarding health, safety, and wellness.

Student Wellness promotes wellness as a journey rather than an outcome and believes that students’ health choices, as well as the culture of the community around them, involve a dynamic and multifaceted integration of eight dimensions of wellness: physical, emotional, spiritual, social, cultural, environmental, intellectual, and financial. Using these dimensions, Student Wellness provides integrative programs and services related to a variety of health topic areas, including healthy relationships and sexual health; stress management; sleep hygiene; alcohol and other substance education, interventions, and recovery supports; and violence prevention.
RESOURCES: SERVICE AND LEADERSHIP

Campus Y
The Campus Y (http://campus-y.unc.edu) is an extraordinarily vibrant, student-driven organization, promoting social justice and social innovation locally, nationally, and internationally. Over more than a century and a half of service, it has incubated such essential campus institutions as Student Stores, Career Services, Intramural Athletics, and New Student Orientation. It has also provided the incubation space and resources for launching fully independent nonprofit organizations such as Nourish International, the Student Environmental Action Coalition, and the Student Coalition for Action in Literacy Education. Over the course of a typical year, approximately 2,000 UNC-Chapel Hill students channel their idealism, passion, and sweat equity into a diverse array of service and advocacy initiatives, including but not limited to public health, youth development, education, human rights, micro-finance, food security, and environmental advocacy. The Campus Y is led by the student executive board and the chairs of more than 30 committees and is supported by a professional staff of three full-time employees. Students are encouraged to visit the Campus Y offices in the YMCA Building, adjacent to South Building, to learn about these opportunities and campus, community, youth, and global social justice issues.

Carolina Center for Public Service
The Carolina Center for Public Service (http://ccps.unc.edu) offers a variety of programs that support public service and engagement, providing students, faculty members, and staff with various ways to explore service opportunities, learn new skills, and link their academic endeavors to making a difference in communities across North Carolina and throughout the world. Through a variety of programs, including Buckley Public Service Scholars (BPSS), APPLES Service-Learning, and Thorp Faculty Engaged Scholars, the Carolina Center for Public Service uses scholarship and service to connect Carolina and communities. All undergraduates who have at least four semesters remaining (three for transfer students) are eligible to enroll in BPSS. To successfully complete the program, participants must complete 300 service hours, a service-learning class, four skills training sessions, reflective exercises, and have a minimum cumulative GPA of 3.0 to receive official University recognition on their transcripts. Since the program’s launch in 2003, more than 9,678 students have participated in BPSS, contributing 1.8 million hours of service. Other opportunities available through BPSS include the Arts in Public Service Fellows, First-Year Service Corps, Community Service scholarships, Outward Bound scholarships, and courses such as Philanthropy as a Tool for Social Change and SMART Mentoring. The APPLES Service-Learning program provides opportunities for undergraduate students to serve with community-based organizations through service-learning courses and internships, alternative breaks, fellowships, and the Service-Learning Initiative. Close to 2,000 students participate in APPLES programs each year, providing nearly 80,000 service hours to local, regional, national, and global communities. The center also offers funding and public service awards that provide opportunities for undergraduate and graduate students to further their involvement and community engagement through innovative service projects.
Policies and Procedures

The University provides a list of campuswide official policies (http://policies.unc.edu). The policies and procedures in this section of the catalog include information about course credit; registration and enrollment; attendance, grading, and examination; academic standing, transcripts; and other important information.

Regulations and Requirements for Undergraduate Students

Students are responsible for observing the procedures, regulations, and requirements of the University as they are set forth here and in other official University publications. This section describes many of the requirements and regulations that apply to undergraduates, but it is not a complete list of all such regulations and requirements. Unless otherwise stated, the regulations described in this section will govern the academic progress of students from their first year in the General College through their final semester in the College of Arts and Sciences or one of the undergraduate professional schools. The staff of the University will gladly provide students with detailed information concerning their academic program or academic problems, but this does not relieve any student of individual responsibility for meeting the University’s requirements and observing University regulations.

Regulations and Requirements for Graduate Students

The Graduate School Handbook contains most of the policies and procedures of The Graduate School at the University of North Carolina at Chapel Hill. Students should become familiar with the material pertaining to their degree programs, and, together with their faculty advisors, make certain that the chosen program of study complies with all policies.
CREDIT AND EVALUATION

Calculation of Transferred Semesters Based on the Number of Transferred Credit Hours

Several academic procedures, including the determination of academic eligibility, depend on the tally of semesters that students have completed. When credit hours are transferred, a calculation must be made as to the number of semesters the student is regarded as having used up. This calculation is based on the number of credit hours accepted by UNC–Chapel Hill for transfer, not on the number of semesters in which the student was enrolled at other colleges. Excluded from this calculation are transfer hours awarded for courses taken concurrent with high school.

Students are regarded as having used up one semester for every full multiple of 15.0 semester credit hours accepted for transfer. When credits are transferred from a college that operates on the quarter-term system, one quarter-term credit hour equals two-thirds of a semester credit hour.

See “Transfer Candidates” in the “Undergraduate Admissions (p. 17)” section of the Catalog for additional information.

The same formula is applied to credit hours that a student earns while enrolled in a part-time program of study at UNC–Chapel Hill, with 90 hours regarded as six semesters and 105 hours regarded as seven semesters. Note: Hours earned in any UNC–Chapel Hill summer term are not included in this formula.

The formula also applies to transfer credit hours awarded for any courses taken at other institutions during a fall or spring semester (but not during summer terms) after a student matriculates at UNC–Chapel Hill.

Credit by College Board Advanced Placement, International Baccalaureate, or SAT Subject Examinations

Students who meet UNC–Chapel Hill standards on certain approved College Board Advanced Placement examinations, examinations of the International Baccalaureate Program, or certain SAT Subject Tests (e.g., foreign language) may receive academic credit for comparable University coursework. Each year the Office of Undergraduate Admissions publishes the minimum scores necessary for the awarding of course credit; however, final authority for awarding this placement credit lies with the chair of the department or curriculum in which credit is to be received. Minimum scores for placement may change from year to year. Regulations for credit in the year in which the student began study at UNC–Chapel Hill as a full-time student determine the standards that apply, not the year in which the student took the examination. Such credit will not be contingent upon the completion of further work in the subject unless specified by an academic department.

By-Examination (BE) credit awarded based on a student’s scores on the Advanced Placement, International Baccalaureate, SAT Subject Tests, or departmental examinations may be used to fulfill General Education requirements. For students admitted as new first-year or transfer students beginning in fall 2009 or later, the following limitations apply to the use of By-Examination (BE) credit in a major or minor:

- No more than two courses (six to eight credit hours) of BE credit may be used as part of the major core.
- No more than one BE credit course (three to four credit hours) may be used as part of a minor.
- Grades of BE from an Advanced Placement, International Baccalaureate, or SAT Subject Test credit is awarded, the By-Examination credit will be forfeited when the course is completed, as well as any higher-level BE credit in that sequence. For example, a student whose test scores would award BE credit for MATH 231 and MATH 232 and who chooses to take MATH 231 at UNC–Chapel Hill will forfeit BE credit for both MATH 231 and MATH 232.

Credit by Departmental Examination

Enrolled students who, through individual study or experience, have gained knowledge of the content of undergraduate courses offered by the University may, with the approval of the relevant department and school or college, receive credit (without grade) for such courses by special examination. The student must receive the approval of the department and college/school at least 30 days before the examination is taken, and the examination must be taken before the beginning of the last semester or full summer session before the student’s graduation.

Policy on Credit for Internships—The College of Arts and Sciences

No internship automatically earns academic credit. Students who want academic credit for an internship should contact the director of undergraduate studies in a relevant academic department or curriculum before beginning the internship and must complete an internship course in that academic unit. Not all departments and curricula offer internship courses.

Internships may not be used to meet the experiential education (EE) requirement unless the student earns academic credit for the internship through a department or curriculum. A student must enroll in a course that has been approved as meeting the EE requirement in order for an internship to fulfill that requirement.

Students who must earn academic credit as a condition of doing the internship—and who cannot get credit through an academic department or curriculum—should contact a counselor at University Career Services for possible credit in SPCL 493 before beginning the internship. The student must write a statement describing his or her learning objectives and a paper reflecting on the experience. SPCL 493 is a one-credit, Pass/Fail course that does not count toward any graduation requirements.

Distance-Learning Courses

The policy governing the use of distance-learning courses applies to all new and continuing full-time and part-time degree-seeking students, and they refer to Carolina Courses Online (CCO), Summer School, and other for-credit UNC–Chapel Hill courses offered completely via similar
modalities. The regulations do not apply to coursework taken prior to matriculation as degree-seeking students.

The following policies apply to distance-learning courses:

1. The maximum number of credit hours, all of which must be designated UNC–Chapel Hill, that can be counted toward an undergraduate degree in the College of Arts and Sciences is 24. There can be no exceptions to this upper limit.
2. First-semester, first-year students may not enroll in for-credit online courses unless unusual circumstances prevail, nor may first-year students take an online course in the summer prior to matriculation.
3. Full-time undergraduate students may enroll in a maximum of one for-credit online course per regular semester (after the first semester, if they are a first-year student) and a maximum of two for-credit online courses per summer session (courses offered over the full summer would count in both Summer Session I and Summer Session II).
4. Degree-seeking students who are not enrolled may take a maximum of two for-credit online courses in a regular semester or summer.
5. No more than two for-credit online courses may count toward a major (core requirement) or minor in the College of Arts and Sciences.
6. Self-Paced courses cannot count toward a degree in the College of Arts and Sciences.
7. It is the responsibility of the Senior Associate Dean for Undergraduate Education, in consultation with the Associate Dean and Director of the Academic Advising Program, to determine whether students in unusual circumstances warrant an exception to these policies.

Distance-learning courses offered at UNC–Chapel Hill are identified with the following section numbers in Connect Carolina:

- 01W – 09W (On-Campus Web Delivery Courses)
- 975 – 989 (Friday Center Distance Learning)
- 990 – 994 (Friday Center Distance Learning Carolina Courses Online)
- 01W – 09W (On-Campus Web Delivery Courses)

This policy is maintained by the College of Arts and Sciences. Last revised September 20, 2016.

**Carolina Courses Online**

Carolina Courses Online is a distance-education program that offers courses over the Internet. Class attendance is not required, but courses follow the semester schedule. The courses are administered through the Friday Center for Continuing Education. To enroll, contact the Friday Center at (919) 962-1134 or visit its Web page (http://fridaycenter.unc.edu). Certain restrictions may apply. Students should consult the dean’s office of their school for details.

**Foreign Language Placement Credit**

Enrolled students who have learned a language currently offered at UNC–Chapel Hill by experience (i.e., having grown up speaking another language in the home or having lived several years in another country) and who are conversant and literate in that language and in English, may take a placement test in that language for placement (PL) only and not for credit hours. If the student places beyond level 3, the student can use that language to fulfill the General Education foreign language requirement, but again, no credit hours will be awarded. The placement test must be taken before the beginning of the last semester or full summer session before graduation.

**Native Speakers of a Foreign Language**

For academic purposes, a native speaker is a student raised in a country outside the United States and formally educated through all or most of high school in a language other than English. Native speakers cannot use By-Examination (BE) credit in their native language to reduce the requirements for a major in that language and will not receive credit for levels 1 through 4 of their native language(s). However, upon recommendation of the appropriate language department, they may receive credit for courses taken at UNC–Chapel Hill beyond level 4 if those courses are heavily based on literature, film, culture, or other content. Native speakers of languages other than English may use ENGL 105, or its transfer equivalent, to satisfy their General Education foreign language requirement. Native speakers who wish to pursue placement (PL) in their language should complete the online form (http://advising.unc.edu/for-students/advice-by-student-year/newly-admitted-students/newly-admitted-first-years/native-or-experiential-speakers-of-a-foreign-language).

**Hours of Credit**

Work is valued and credited toward degrees by semester hours, one such hour usually being awarded for one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week. One hour of credit is usually awarded for each three hours of faculty instruction and a minimum of two hours out of class student work each week. One hour of credit is usually awarded for each three hours of faculty instruction and a minimum of two hours out of class student work each week. **Independent Studies for Credit**

The University offers independent study experiences for undergraduate students. Such courses, including directed readings, internships/practica, mentored undergraduate research, and senior honors thesis courses for an individual student, are offered for academic credit through departments and curricula. Twelve hours of graded independent study credit may be counted toward graduation (excluding six hours of senior honors thesis credit). No more than six hours may be taken in any one semester, with the exception of students completing a full-time teaching internship program in the School of Education and other approved practicum/internship programs in the professional schools. Students may participate in formalized programs, or they may make individual learning contracts for work under the supervision of a member of the permanent faculty at the department/curriculum level. For information about independent study courses in their majors, students should consult the director of undergraduate studies or independent study coordinator in their major department or curriculum. Students, in consultation with the faculty member, must complete a learning contract and have it approved by the director of undergraduate studies (or designee). Registration for an independent study course must be completed after the learning contract has been approved and no later than the last day of “late registration” (the end of the second week of classes in fall or spring semester or the equivalent date in each summer session). A template (http://registrar.unc.edu/files/2014/02/Template-Adapted-for-Use-in-the-College-of-Arts-and-
Sciences.pdf) for such a learning contract is available online. Students are strongly encouraged to begin this process early, well before the beginning of the semester.

For more information, see UPM #30 (https://registrar.unc.edu/academic-services/policies-procedures/university-policy-memorandums/independent-study-policy).

**Semester Schedule**

The work of the University is arranged and offered on the semester system, the regular session being divided into two approximately equal parts called the fall and spring semesters. Summer School offers two sessions of five weeks each, a three-week Maymester, and other short courses with various beginning and ending dates.
REGISTRATION, ENROLLMENT, AND WITHDRAWAL

Registration General Policies
UNC-Chapel Hill students use the ConnectCarolina Student Center to register for courses. Students should refer to the Registration Guide (http://registrar.unc.edu/guide) on the Office of the University Registrar’s Web site for instructions regarding registration.

Students who register during the billing period must pay tuition and fees, or give notice of anticipated aid, to the Office of Student Accounts and University Receivables by the published tuition and fees due date or their schedule will be cancelled and all their classes dropped before the beginning of classes. Students who register after the billing period must pay estimated tuition and fees or give notice of anticipated aid before they can register for that semester. Students who register after the date designated for official registration must pay an additional fee of $20.00 for late registration. If the delay results from circumstances clearly beyond the student’s control, an appeal may be made in writing to the registrar. The appeal must show sufficient justification for the delay and has to be approved by the dean of the school in which the student is enrolled.

North Carolina law requires that no person shall attend a college or university in North Carolina without presenting a certificate of immunization to the college or university on or before the first day of matriculation. This certificate indicates that the student has received immunizations required by law. New students at UNC-Chapel Hill must provide the director of Campus Health Services with an immunization record certified by a physician. Students who fail to present the required certificate of immunization within 30 days of enrollment will be withdrawn from the University. Their enrollment will not be reinstated until they have provided a certificate of immunization to Campus Health Services.

Registration for credit for any course at the start of the semester is limited to the first five days of classes unless a late registration is approved by the course instructor and the student’s dean or academic advisor. Any student who has not registered for courses after the primary billing date will be restricted from accessing the registration system for that term and will be required to submit a prepayment. For more information, please see “Course Schedule Changes” below.

Registration Advising for First-Year Students and Sophomores
All first-year students and sophomores are assigned a primary academic advisor in the Academic Advising Program (Steele Building and Hardin Hall) in the College of Arts and Sciences but may see any advisor as appropriate. Advisors’ names and office locations (http://advising.unc.edu/see-an-advisor) are posted on the Web. First-year students must meet with an advisor for registration advising at least once during their first year before registering for their third semester on campus; an online module to assist students with registration, policies, and procedures is also available. All students are strongly encouraged to review their Tar Heel Tracker each semester and regularly meet with an advisor to ensure that they remain on track to graduate.

Advisors will answer students’ questions and review their tentative course selections to help students achieve appropriate academic progress. In subsequent semesters, students are encouraged to discuss academic progress with their academic advisor. Students should follow instructions received from the Office of the University Registrar, which may be accessed by logging on to ConnectCarolina.

Registration Advising for Juniors and Seniors
Juniors and seniors receive academic advising during registration periods according to the directives set out by their college/professional school and major. Juniors who have not yet declared a major must meet with an advisor in the Academic Advising Program before registration.

The department or curriculum in which the student’s primary major is housed determines the procedures juniors and seniors must follow for registration. In some cases, the student must meet with a faculty advisor in the department or curriculum of the primary major before being able to register each semester. These advisors answer questions specific to the major and about graduate and career opportunities in the field.

Students admitted to a professional school will receive advising and assistance on all academic matters from an advisor in their school.

Academic Level (Class Standing)
All students who begin their undergraduate careers at UNC-Chapel Hill are considered first-year students for the first and second semesters. In their third semester and thereafter, a student’s classification (sophomore, junior, senior) is determined by the cumulative number of credit hours earned:

- 1–29 credit hours earned: first-year student
- 30–59 credit hours earned: sophomore
- 60–89 credit hours earned: junior
- 90 + credit hours earned: senior

Registration Priority
A student’s first available date for registration (registration priority) is based on the number of semesters completed.

By policy of the Faculty Council (Resolution 2007–3), the University limits students to eight semesters of full-time study. Transfer students who transfer in the UNC-Chapel Hill equivalent of two or more semesters (see “Calculation of Transferred Semesters Based on the Number of Transfer Hours”) may enroll in up to 10 total semesters (Resolution 2017-1 (https://facultygov.unc.edu/files/2017/01/Res201701OnMultipleAreasofStudy.pdf)). To help ensure graduation within the eight-semester limit, students’ registration priority will be based on the number of semesters completed; the more semesters students have completed, the higher their registration priority.

Terms in residence are tallied in three ways:

1. UNC-Chapel Hill full-time enrollment
   Regardless of the number of credit hours, any fall or spring semester of enrollment in UNC-Chapel Hill courses (including UNC-Chapel Hill study abroad courses, but excluding Carolina Courses Online) counts as one semester of full-time study, unless the student is enrolled as a part-time student through Part-Time Classroom Studies. (Summer sessions at UNC-Chapel Hill do not count as semesters.)

2. UNC-Chapel Hill part-time enrollment
Each full multiple of 15 cumulative credit hours earned at UNC–Chapel Hill in fall or spring terms (not summer terms) counts as one semester of full-time study for any student enrolled as a part-time student through Part-Time Classroom Studies.

3. Transfer credits awarded for courses taken at other colleges
   Each full multiple of 15 cumulative transfer-credit hours counts as one semester of full-time study. Excluded from this calculation are transfer hours awarded for courses taken either concurrent with high school or during any summer term after the student has matriculated at UNC–Chapel Hill.

Any term in which a student is enrolled exclusively in online courses does not count as a semester of full-time study. Students may refer further questions to the Academic Advising Program (if the student is in the College of Arts and Sciences) or to their respective dean's office.

Repeating Course Enrollments
A student who proceeds with enrollment in a course not designated as repeatable can only earn credit once toward the fulfillment of the University's minimum undergraduate degree requirement. The credit is earned from the course with the highest passing grade or, if grades are the same, the latter attempt. The grades of all attempts of the course, however, are computed in the student's cumulative grade point average.

Certain University courses (e.g., applied music, special studies, undergraduate research, etc.) may be taken more than once for credit and are so designated in the course catalog as repeatable. A particular physical education activity (PHYA) course may be taken more than once, so long as a different level of the same course (beginning, intermediate, and advanced) is taken during each separate enrollment. PHYA courses do not award academic credit hours toward an undergraduate degree, but the grade is factored into the cumulative grade point average.

Students may enroll in no more than one lifetime fitness (LFIT) course, and only one LFIT course will count toward academic credit hours for an undergraduate degree.

For the purposes of receiving financial aid, hours for repeated courses will only be considered a part of the total upon which awards are based if:

1. the student is repeating a course previously failed, or
2. the course is the first repeat of a prior course in which a passing grade (D or higher) was received.

Cancellation of Enrollment
A cancellation is, in effect, the same as not having a registration at all. No entry is made on the student’s permanent record, and no tuition and fees are charged. A registration cancellation will be processed for any student who has a “hold” on the tuition and fees due date for each term, and students will be notified. A cancellation will be processed if a student is not cleared financially; is not academically eligible to continue in school; or shows a cashier’s hold, Office of Undergraduate Admissions hold, dean’s office hold, or Campus Health Services cancellation hold. In some cases, a student may need to cancel her or her registration for personal reasons and may do so by following instructions (http://registrar.unc.edu/academic-services/withdrawals-cancellations) listed on the Office of the University Registrar’s Web site. For a cancellation after classes begin, however, students must process the cancellation through their dean’s office.

Administrative Changes to Course Registration
Students have the responsibility to maintain the accuracy of their course schedule. A department or curriculum in the College of Arts and Sciences has the option to drop a course from a student’s registration if the student fails to attend both of the first two class meetings (or the first class meeting if the course meets only once each week). The appropriate dean's office will be responsible for informing departments of students who cannot attend the first two class meetings because of illness or other reasons approved by a dean. Students should never presume that an instructor or department/curriculum will systematically drop classes from the student’s schedule. However, if such an action is taken by a department/curriculum, the registration openings resulting from these drops will be offered to other students seeking enrollment in the courses during the official add period (first five days of classes) or thereafter, as determined by the instructor of the class or by the department, curriculum, or school.

Departments/curricula can drop students’ courses using the computerized registration system prior to the last day to reduce a course load for financial credit. To effect such a drop after that date but before the end of the eighth week, a student can drop the course through ConnectCarolina. (See “Course Schedule Changes” below.) Students who have applied for graduation and who have requested an academic underload must have that request approved to receive financial credit for reducing their course load.

Auditing Courses
To audit a class, registered students and persons not registered must obtain a registration/drop/add form from the teaching department offering the class. Permission from the class instructor and the department chair is required and should be indicated on the form with a written signature. This procedure applies to fall, spring, and both summer terms.

Requests to audit a class may be submitted only after the end of the official registration period (last day for students to add a class or late register) when it has been determined that there is still space available in the class. This date can be found on the University Registrar’s Calendar (http://registrar.unc.edu/academic-calendar) for the specific term.

Auditing classes is permitted only in lecture-based courses and never in courses that include laboratories or performances. Auditing is not permitted in courses that focus on the development of written or oral communication skills or that rely heavily on class participation. Auditing is not permitted in independent studies courses, internships, special topics, directed readings, or similar courses. Auditing is also not permitted in classes that are offered primarily online. Students may not audit courses offered through the Friday Center for Continuing Education (Part-Time Classroom Studies, Carolina Courses Online, Self-Paced Courses, or tutorial programs) or courses preparing students for credit by examination.

Students auditing a course do not write papers, take quizzes or examinations, or request review of their work, and do not participate in class discussions unless otherwise directed by the course instructor. Students who audit a course may not subsequently receive course credit for that course. Additional information on the University’s policy on auditing (http://registrar.unc.edu/academic-services/policies-procedures/university-policy-memorandums/upm-9-auditing-courses) is available online.
Students officially registered for other classes in the same term may audit a class without paying a fee. Persons not registered for classes must pay a $20.00 fee per class to the Office of Student Accounts and University Receivables, then bring the permission and receipt to the Office of the University Registrar to complete the process. Payments will only be accepted after the end of the official registration period. Effective fall 2017, individuals of age 65 or older may audit a class without paying a fee.

If requested, a copy of the registration transaction will be given to the student to provide to the class instructor at the beginning of the term.

Changes in Fall and Spring Semester Schedules

Continuous Course Enrollment: Foundations English Composition and Foreign Language Requirements

Effective in fall 2012, students admitted as first-year or as transfer students are required to complete ENGL 105/ENGL 105I (ENGL 100 and ENGL 105/ENGL 105I, if applicable) during their first year, and they must maintain continuous enrollment in Foundations foreign language courses until they have completed this requirement. Students are not permitted to drop ENGL 100, ENGL 105/ENGL 105I, or foreign language levels 1 through 3 being used to fulfill the Foundations requirement after the second week of the semester, unless approved by a dean in the Academic Advising Program. Such approval will be for exceptional circumstances only. Students should not stop attending English composition and rhetoric and Foundation foreign language classes without speaking with a dean in the Academic Advising Program.

Course Schedule Changes

Insofar as possible, changes in course registration schedules should be made during the first five days of classes. During this time, students may add courses using the online registration system. During days six through ten of classes, students must obtain permission to register or make additions to their schedule from the course instructor; if approved, the academic department, curriculum, or school will add the student through the computerized registration system. After the tenth day of classes, if students wish to register or make additions to their schedule, they must obtain a registration/drop/add form from their academic advisor, the concerned department, or their professional school and must obtain the signatures of both their instructor and their school dean (or dean’s designee). For students in the General College and the College of Arts and Sciences, only the associate dean for advising (or designee) has this authority. After the tenth day of classes, deans (or deans’ designees) will approve only those registrations or course additions that have first been approved by the instructor. Approval of additions to a student’s schedule during this period is at the deans’ (or the deans’ designees’) discretion.

Course Schedule Changes during Weeks One and Two

During the first two weeks of classes, students may drop a course using the online registration system, but they are responsible for ensuring that their schedules do not fall below the minimum 12 academic hours required for full-time registration.

Course Schedule Changes during Weeks Three through Eight

When a course is dropped between the second and eighth week of classes, a notation of WC (withdrawal by choice) shall be recorded and used internally for tracking and reporting purposes. For external purposes, the WC notation is equivalent to the W grade. Once declared, a WC notation cannot be rescinded except when a student withdraws from an entire semester due to extenuating circumstances. All first-year, first-time students entering the University in fall 2014 or thereafter are allowed to accumulate no more than 16 hours of WC notations during their undergraduate career.

Different drop-add procedures apply to first-year students who entered the University as degree-seeking students prior to fall 2014, along with sophomore and junior transfer students who entered in fall 2014, and junior transfer students who enter in fall 2015. Details on the previous policy (http://registrar.unc.edu/guide/registration-policies/drop-add-procedures/rules-course-drops) can be found on the University Registrar’s Web site.

Course Schedule Changes after the Eighth Week of Classes: The Appeal Process

After the eighth week of classes, students must petition to drop courses through the dean’s office of the school in which they are enrolled. For students in the General College and the College of Arts and Sciences, the associate dean for advising (or designee) has this authority.

To drop a course after the eighth week of classes, students must complete and submit an appeal to the appeals committee of their college or school. In the General College and the College of Arts and Sciences, an appeals committee meets weekly (except the week of July 4 and Christmas). Possible legitimate reasons for requesting a course drop after the eighth week of classes include serious illness, personal or family problems, financial problems requiring employment after the start of the semester, or other compelling and extenuating circumstances that prevent students from meeting their academic responsibilities.

Students must first discuss their reasons for requesting a late course drop with an academic advisor or their academic dean. The advisor or dean will explain the process for an appeal and refer the student to the online information and link to the online appeal form. The appeal must include a statement from the student and pertinent documentation that provides compelling support for the appeal. The student must submit all documents online to the office of the associate dean for advising in the Academic Advising Program of the College of Arts and Sciences and General College. Submission of an appeal does not ensure that the request will be granted, and students must continue to attend classes and complete all assignments until informed of the committee’s decision. If a course drop is approved, the registration/drop/add form is processed through the Office of the University Registrar.

Students enrolled in professional schools should acquaint themselves with the appropriate appeals procedures in their schools.

The notation of W (withdrawn) is entered in the grade column of academic transcripts if students are permitted by their school to drop a course after the eighth week of classes or proportional equivalent for summer terms and other nonstandard enrollment periods. This notation is automatically entered unless the student’s academic dean specifies otherwise.

Interinstitutional Registration

A student regularly enrolled in a degree program at the University may enroll by interinstitutional registration for a course at Duke University, North Carolina Central University, North Carolina State University, the University of North Carolina at Charlotte, or the University of North Carolina at Greensboro under the following conditions:

• Space must be available in the course.
• The student’s academic dean must certify
a. that the course is appropriate for the student’s degree program, and
b. that an equivalent course is not available at this university during the same term.

- Enrollment in interinstitutional registration is limited to one interinstitutional course per regular term, provided that the student is registered for the balance of her or his full-time load at UNC–Chapel Hill. All enrollment transactions must be processed by the Office of the University Registrar.

- A student will be billed by his or her home institution for all the courses taken (including interinstitutional courses) at the prevailing tuition rate. The University of North Carolina at Chapel Hill will receive no fees from an interinstitutional student taking courses at this campus unless there is a special fee associated with a particular course. In such a case, the student must pay the fee.

- The last day for a student to submit an interinstitutional request to the Office of the University Registrar will be the last day to add a course without departmental approval, according to the registrar’s calendar. If a student is interested in a course that begins after this deadline, due to differing university schedules, or separate modules that the course is being offered in, the deadline will be the fifth day after the start of that class. Start dates will be verified with the school offering the course.

- Students must comply with the academic calendar of their home institution for all dates, such as deadlines for adding and dropping courses.

- A student taking a course by interinstitutional registration will be graded in the course in accordance with the grading system of the institution where the course is taken, and grades will be converted in accordance with the grading system of the home institution. The transcript will identify the institution where the course was taken in the space where the descriptive course title is normally shown.

Additional information (http://registrar.unc.edu/guide/special-enrollments/inter-institutional-programs), procedural instructions, and forms are available at the Office of the University Registrar’s Web site.

### Academic Course Load

#### Fall and Spring Semesters

To meet the minimum graduation requirement of 120 academic hours within the eight-semester limit, students should average 15 hours each semester. However, four-hour foreign language courses and four-hour laboratory science courses often account for course loads of 16 to 18 hours. Students may not enroll in more than 18 academic hours unless they have earned a 3.000 grade point average in the preceding regular semester and have a cumulative 2.500 grade point average. Exceptions require the approval of the student’s dean. With approval of their dean, seniors meeting graduation requirements during their final semester in residence may enroll in up to 21 academic hours if they have a cumulative and preceding semester grade point average of 2.000.

The minimum course load for a single semester is 12 academic hours. Students may not go below the 12-academic-hour minimum without permission of their dean. All students should discuss semester enrollment of fewer than 15 academic hours with their advisor because such enrollments may affect academic eligibility and the ability to complete all degree requirements in the required eight semesters. PHYA courses are not considered academic hours and will not count toward the 12-hour minimum enrollment.

The approved maximum course load for students in a part-time program is eight credit hours in a fall, spring, or summer term.

### Summer School

The summer term begins with the first day of Maymester and continues through the last day of the Summer Session II. Administered by Summer School, summer courses are offered in two sessions (Summer Session I and Summer Session II), with a Maymester period overlapping the first three weeks of Summer Session I. For UNC–Chapel Hill students, credit hours and grades count the same as in fall or spring terms. For visiting students, transfer of grades or credit is determined by their home institution.

The typical full course load is two courses, usually six credit hours. However, students may enroll in up to eight credit hours each in Summer Session I and in Summer Session II to allow for a four-credit course or an extra one-credit laboratory or physical activity course. Students with a 2.000 cumulative grade point average may enroll in a maximum of nine hours during a summer session with the approval of their dean. It is recommended that, if students enroll in a Maymester course, they not enroll in a second Maymester or Summer Session I class.

### Carolina Courses Online

There are limits on the number of online courses that may be taken in a term and how they may apply to degree requirements. For full details, see “Distance-Learning Courses” (p. ) in this catalog.

### Pass/Fail Option

The Pass/Fail option provides students an opportunity to enroll in an additional course (beyond the usual load of five academic courses) or to reduce their concerns about competing with prospective majors in a course in which they have considerable interest. Students who declare a course on the Pass/Fail option will receive the grade of PS (pass) when a letter grade of A through D is recorded on the official grade roster and F when the course is failed. For the purpose of computing a grade point average, a PS grade does not count as hours attempted; therefore, a PS grade does not affect a student’s grade point average. However, an F under the Pass/Fail option counts as hours attempted and is treated in the same manner as F grades earned in any other course.

Course content and requirements are the same for Pass/Fail registrants as for regular registrants. The minimum performance for a PS grade is equivalent to the minimum performance for the letter grade of D.

### Regulations Governing the Pass/Fail Option

The following regulations govern the use of the Pass/Fail option:

1. Students may only take one student-elected Pass/Fail course each semester.
2. No more than 23 total credit hours of Pass/Fail credit hours will be allowed in a student’s undergraduate career, with no more than 16 hours (of the 23) from student-elected Pass/Fail classes and no more than 13 hours (of the 23) from established Pass/Fail courses.
3. The following courses may not be declared Pass/Fail:
   - Courses used to satisfy General Education requirements (with the exception of lifetime fitness courses and some experiential education courses that are only offered as Pass/Fail courses).
   - Courses a student has taken previously for a letter grade.
   - Courses in a student’s major or minor department or curriculum (or cross-listed with those departments or curricula), even if
undergraduates: threshold defined below for each of the following three categories of more terms in residence on all counted credit hours in excess of the surcharge should be imposed for students who exceed eight or Students Subject to the Surcharge Students Subject to the Surcharge (http://registrar.unc.edu/reg-guide/fifty-percent-tuition-surcharge). Fifty Percent Tuition Surcharge Fifty Percent Tuition Surcharge Undergraduate students seeking a baccalaureate degree at UNC–Chapel Hill are subject to a 50 percent tuition surcharge in some circumstances, as required by Section 9.10 (b), G.S. 116–143.7 (a). No surcharge will be Fifty Percent Tuition Surcharge Fifty Percent Tuition Surcharge Note: Prerequisites to courses specifically required for the major or minor may be taken Pass/Fail unless a specific grade is required in the prerequisite course.

Pass/Fail Declaration Procedure Pass/Fail Declaration Procedure To declare a course on the Pass/Fail grading system, a student must complete the Pass/Fail course declaration form. It is obtained from the academic advisor or dean’s office. Students should discuss the advisability of taking a course on the Pass/Fail grading system with their advisor before committing themselves to a formal declaration.

The period for making Pass/Fail declarations begins on the fifth day of classes of each semester and concludes at the end of the eighth week of classes. Pass/Fail declaration forms may not be submitted after the eighth week of classes.

Fifty Percent Tuition Surcharge Fifty Percent Tuition Surcharge Undergraduate students seeking a baccalaureate degree at UNC–Chapel Hill are subject to a 50 percent tuition surcharge in some circumstances, as required by Section 9.10 (b), G.S. 116–143.7 (a). No surcharge will be imposed on any student who exceeds the degree credit hour limits within the equivalent of four academic years of regular term enrollment, or within five years of regular term enrollment in a degree program officially designated by the Board of Governors as a five-year program. For detailed information, please see the Office of the University Registrar’s Web site (http://registrar.unc.edu/reg-guide/fifty-percent-tuition-surcharge).

Students Subject to the Surcharge Students Subject to the Surcharge The surcharge should be imposed for students who exceed eight or more terms in residence on all counted credit hours in excess of the threshold defined below for each of the following three categories of undergraduates:

1. For students earning a first baccalaureate degree in a program that requires no more than 128 credit hours, the surcharge shall be applied to all counted credit hours in excess of 140.
2. For students earning a first baccalaureate degree in a Board-approved program that requires more than 128 counted credit hours, the surcharge shall be applied to all credit hours that exceed 110 percent of the credit hours required for the degree. Such programs include those that have been officially designated by the Board of Governors as five-year programs, as well as those involving double majors or dual bachelor's/master's degrees.
3. For students earning a baccalaureate degree other than their first, the surcharge shall be applied to all counted credit hours that exceed 110 percent of the minimum additional credit hours needed to earn the additional baccalaureate degree.

Tuition Guarantee Program Tuition Guarantee Program Effective fall 2016, undergraduate students seeking a baccalaureate degree at UNC–Chapel Hill are eligible for fixed tuition as required by the North Carolina General Statute §116-143.9 and UNC Policy 1000.17, Policy for the Tuition Guarantee Program. Further information about the Tuition Guarantee Program can be found on the Web site for the Office of the University Registrar.

Withdrawal Withdrawal Students withdrawing from the University should submit an official withdrawal request through their ConnectCarolina Student Center to start the process (see sections on medical and academic withdrawal below) before the end of classes during a semester or summer session. Students considering withdrawal should contact their dean’s office, Campus Health Services, or Counseling and Psychological Services for additional information. Official withdrawal from the University is required if a student wishes to drop all classes after a semester begins. An official withdrawal may facilitate readmission in a future term. Leaving the University without completing the official withdrawal process results in the assignment of an IN or AB course grade that are computed as an F grade in establishing grade point averages and academic eligibility. Students who do not withdraw officially will be responsible for the tuition and fee payments associated with the course(s) in which they are enrolled.

Medical Withdrawal Medical Withdrawal If a student decides to withdraw for reasons of illness, either physical or psychological, the student should contact Campus Health Services or Counseling and Psychological Services, whether the treatment was received there or elsewhere. If a medical withdrawal is authorized, the official withdrawal will be handled through the Office of the Director of Campus Health Services or Counseling and Psychological Services. A medical withdrawal is effected without grades and without a semester in residence.

Administrative Withdrawal Administrative Withdrawal A student who is withdrawn for disciplinary purposes must comply with the specific requirements or conditions outlined by the adjudicating body (e.g., Honor Court, Emergency Evaluation and Action Committee, etc.) prior to readmission. Unless specified by the adjudicating body, the term(s) in which disciplinary suspension is active shall not be calculated in the four academic year degree credit hour equivalency. Preclearance from the adjudicating body may be required in certain cases.

Academic Withdrawal from All Courses Academic Withdrawal from All Courses If a student decides to withdraw for reasons other than health related, or if a withdrawal cannot be authorized through Campus Health Services or Counseling and Psychological Services, the student should submit an official withdrawal request through the ConnectCarolina Student Center. Grades are required from instructors once the drop deadline has passed. In determining an undergraduate student’s eligibility for readmission the following conditions apply:

1. For students who officially withdraw from the University after the second week of a fall or spring semester, a grade of W is assigned to each course the students were enrolled in at the time of withdrawal.
2. Students who officially withdraw from the University are assigned a semester in residence if their withdrawal is initiated before the end
of classes during a fall or spring semester and if it is accompanied by the recording of six or more academic hours of F grades for that semester’s work (grades recorded after the drop deadline). This means that the F grades and no others will be computed in the semester and cumulative grade point average.

- Withdrawal from a summer session is not counted as a semester in residence. If the withdrawal is initiated after the drop deadline during a summer session, a grade of W is assigned to each course that the student is enrolled in at the time of withdrawal. The credit hours associated with the withdrawal will count as attempted but not passed hours in the determination of the student’s academic eligibility. If the student is enrolled in five or more more academic hours, the student must obtain grades from their instructors before the withdrawal can be processed; if the withdrawal is accompanied by the recording of five or more academic hours of F grades for that semester’s work the F grades will be recorded and computed in the semester and cumulative grade point average.

- Students enrolled as summer session visitors from schools outside UNC-Chapel Hill must withdraw through the Office of the Dean of Summer School.

- If a student completes an official withdrawal or is withdrawn administratively for any reason from a fall or spring semester, tuition and fees will be prorated over a period of nine weeks at a rate of one-tenth of the semester’s bill, after deducting an administrative charge. The last date for credit on a student’s financial account for withdrawal is nine weeks after registration. If a student completes an official drop from a summer class within the first three days of classes for the session, tuition and fees will be prorated.

- If a student withdraws from the University during a semester and receives financial aid funds prior to the date of withdrawal, a portion of that money will be returned to the aid program(s). The repayment will be calculated by the Office of Scholarships and Student Aid when the official withdrawal is noted within the ConnectCarolina system.

**Retroactive Withdrawal**

- Students may request a retroactive withdrawal from a semester or summer session under extraordinary circumstances. Such requests must be made in writing to the appeals committee of the college or school in which the student is currently enrolled. The decision of that appeals committee is final. If the retroactive withdrawal is approved, the effective date of this action is always the last day of classes in the term or session. No refunds are ever provided when a retroactive withdrawal from a semester or summer session is approved.
ATTENDANCE, GRADING, AND EXAMINATION

Class Attendance Policy

(Maintained by the Education Policy Committee. Resolution 2018-1, passed on February 9, 2018)

This policy applies to University approved class absences (listed below). For final examination absences see the Policy on Final Examinations (p. 1048).

Regular class attendance is a student obligation. Students are responsible for all of their work, including assessments, tests, and written work, and for all class meetings. If a course instructor chooses to take attendance and sees that a student misses three or more consecutive class meetings or misses more classes than the course instructor thinks advisable, the instructor may report the facts to the student’s advisor and/or academic dean.

No right or privilege exists that permits a student to be absent from any class meetings, except for these University Approved Absences:

1. Authorized University activities
2. Disability/religious observance/pregnancy, as required by law and approved by Accessibility Resources and Service (https://ars.unc.edu) and/or the Equal Opportunity and Compliance Office (https://EOC.unc.edu/what-we-do/accommodations) (EOC)

Instructors may work with students to meet attendance needs that do not fall within University approved absences. For situations when an absence is not University approved (e.g., a job interview or club activity), instructors determine their own approach to missed classes and make-up assessments and assignments.

The University’s policy regarding University approved absences as well as the instructor’s course-level policies are communicated to students via the instructor’s course syllabus on the first day of class.

Students are encouraged to communicate with their instructors early about potential absences and are reminded that they are bound by the Honor Code (p. 1055) when making a request for a University approved absence.

Make-up Coursework and Assessment

All students with University approved absences will be treated fairly and equitably, regardless of the reason for the absence.

Instructors will provide reasonable alternatives that permit course objectives and learning outcomes to be met. Alternatives may include a make-up exam, alternative assessment, an additional paper or project of equivalent intellectual effort, an electronically-mediated participation opportunity, a due date extension, or other option that allows students to demonstrate what they have learned without being penalized for the University approved absence. It is a University expectation that instructor be prudent, fair, and equitable when a students misses an assessment due to a University approved absence. Course policies should avoid inequities, including discrepancies in preparation time for in-class versus make-up exams, missed opportunities to take and learn from an assessment, and policies that penalize students who must use their dropped grade option for a University approved absence.

The Undergraduate Testing Center (http://testingcenter.web.unc.edu) provides a secure, proctored environment for administration of makeup assessments, tests, and exams for undergraduate and graduate courses throughout each term. There are regularly scheduled session times each week in addition to the Center’s traditional use during final exams time. Please see the center’s web site for more information and instructions as well as teaching and learning resources provided by the Center for Faculty Excellence (https://cfe.unc.edu).

Final Examinations

(Maintained by the Education Policy Committee. Resolution 2017-5, passed on April 21, 2017; Resolution 2017-5.1, passed on May 15, 2017)

This policy applies to all undergraduate courses across the University.

Undergraduate courses taught on campus must include a final assessment of students’ mastery of course material (i.e., final examination) unless the provost grants an exception. A traditional final examination is administered at a predetermined time as specified in the official final examination schedule (http://registrar.unc.edu/academic-calendar), and takes place at a designated location in Chapel Hill. Any other type of final examination is considered nontraditional.

The final examination schedule, announced prior to the beginning of the semester, sets the day and time for each examination. No examination may start later than 7:00 p.m. Once having been established, the schedule cannot be changed. Traditional final examinations must be held at the day and time shown on the schedule unless an exception is granted as described below.

Only the provost can grant exceptions to the scheduled day or time of a traditional examination, after review and approval by the appropriate department head and the dean. No examination (except for laboratory sections) may be held at a time other than that specified in the general schedule except with the advance approval of the provost.

A course instructor may, due to highly unusual circumstances, petition for a change in the examination schedule. The instructor must submit the request in writing to his or her chair no later than the last day of late registration for that term, and it must be cleared by the chair and the appropriate dean (e.g., Associate Dean, Academic Advising) before consideration by the provost. If the petition is approved, the course instructor assumes responsibility for making special arrangements to give the examination to any student who has a schedule conflict as a result of the change. This process only applies to requests to change a day or time for an individual section.

Requests to combine all sections of a specific course into one final exam day and time (regardless of the number of sections involved), is considered a request for a Common Hour exam and has an earlier deadline for submission. Requests for all common hour exams must be cleared by the chair or appropriate dean and approved by the provost. Requests for common hour exams must be made to the registrar the first week of February for fall semester final examinations and the first week of September for spring semester final examinations. There is no exception to this deadline.
No graded quizzes or exams (excluding in-class presentations) may be given during the last five days of the semester (last two days of the session for summer school) before the beginning of the final examination period.

For a standard three-credit-hour course, the University has a required three-hour final examination period, which includes 180 minutes of instruction in each semester (see UPM #29 – Definition of a Credit Hour (http://registrar.unc.edu/academic-services/policies-procedures/university-policy-memorandums/upm-29-definition-of-a-credit-hour)). Thus, the University requires instructors to provide a full three hours of instruction for final assessment purposes (e.g., written final examination, presentations, portfolio review, performance, review and evaluation, or some combination of these assessments). It is up to the discretion of the instructor of record to determine the form, content, and function of the final examination (e.g., whether it is cumulative; whether it is a three-hour exam or a shorter exam preceded or followed by a period of review, etc.). A traditional final examination should not exceed a period of three hours. Only examinations requiring an exceptional portion of practical work should be longer than three hours (e.g., student teaching).

Chairs (i.e., heads of instructional units) must give permission for faculty members to use nontraditional examinations. Examples of nontraditional examinations include those requiring more than three hours to complete; or other final assessments such as a portfolio of a semester’s work, a final project, or a take-home examination. For multidisciplinary and cotaught courses, permission to give a nontraditional examination must be granted solely by the chair of the instructional unit in which the course is based. Even when faculty members have permission to administer nontraditional final examinations, the scheduled examination period must be utilized for instructional hours. The chair should submit to their academic dean’s office an annual summary of the exceptions that were granted.

Students who are absent from an examination receive a course grade of AB (absent), which is equivalent to F (zero quality points), or FA (absent and failing regardless of performance on the final examination). When students are unable, for reasons clearly beyond their control, to take a traditional final examination at the scheduled time, they can be excused only by the director of Campus Health Services or their academic dean (who can issue an "examination excuse"). An absence may be excused for severe health problems leading to the student’s placement on the Infirmary List by either Campus Health Services or Counseling and Psychological Services, for significant personal or family circumstances, for religious observances required by the student’s faith, for a scheduling conflict involving multiple examinations at the same time, or when a student has three or more final examinations scheduled in 24 hours. In cases of illness, personal or family emergency, or religious observance, additional documentation may be required by the dean. Primary holy days for religious observances are noted on a Web-based interfaith calendar site (http://www.interfaith-calendar.org). Students are responsible for providing the course instructor and the dean a written request for an excused absence from a final exam for a religious observance or for a scheduling conflict involving multiple examinations no later than the last day of classes. Students must be given the opportunity to make up final exams missed due to an excused absence.

For any University undergraduate courses offered entirely online or via other distance modalities, exams will be offered and must be completed during the scheduled final examination period, but requirements concerning the time of day and place of the exam will be appropriate to the course’s mode of delivery. Self-paced courses are exempt from both the time and place requirements of the exam policy and the requirement that exams be held during the scheduled final examination period.

**Campus Health Services**

Students who are seriously ill during the time of their final examination(s) (including complications related to pregnancy) should consult Campus Health Services or Counseling and Psychological Services about having their names entered on the Infirmary List. In some cases, outpatient treatment can also result in a student’s name being entered on the Infirmary List. Students on the Infirmary List may obtain an official permit from the Office of the University Registrar to take the final examination to remove a grade of AB. They must make arrangements with their course instructor to take the final examination and provide the instructor with their official permit. If students are treated at Campus Health Services or Counseling and Psychological Services but do not appear on the Infirmary List, they should see the dean of their college as soon as possible.

**Academic Dean**

If students know in advance that they must miss one or more final examinations because of illness, religious observance, or other serious problems, they should notify in writing both the course instructor and the dean of the school in which they are enrolled no later than the last day of classes. If this is not possible, they should see their dean as soon after the fact as possible. For students in the College of Arts and Sciences, only the associate dean for advising (or designee) is authorized to issue examination excuses for reasons other than three exams in 24 hours or two exams at the same time. For other students, only the dean of the school in which the student is enrolled has that authority. The dean may require documentation of a student’s religious observance, illness, or problems.

Assuming that a student did not take a final examination for one of the reasons previously cited, the dean will issue an official examination excuse, which the student must present to the course instructor when arrangements are made for a suitable time to take the final examination.

A student who has three final examinations scheduled by the Office of the University Registrar within a 24-hour period or two scheduled at the same time may request to his or her dean’s office for permission to have one of the scheduled examinations rescheduled. In the event that one of the scheduled examinations is a common final examination for a multiple-section course, that examination is the one to be rescheduled.

Students who have secured an examination excuse or an official permit and who transmit the document to the instructor or the instructor’s chair or dean must be granted permission to take the exam at an alternate time, although students will need to arrange a mutually convenient time with the instructor. Except when the provost has provided an exception in writing, the exam will be taken at a time subsequent to the regularly scheduled exam, though no later than the end of the following semester.

The final examination in any course may be taken only by regularly enrolled members of the class whose registration has been certified and by students certified to be eligible to take a special examination in that course. The certifying authority is the Office of the University Registrar.

Each student is required to sign a full and explicit Honor Code pledge certifying that he or she has neither given nor received aid during the examination.
Grading System

Permanent Letter Grades

A letter-grade and plus/minus system for evaluating academic performance is employed for all undergraduates. Each letter grade corresponds to a number of grade points. Each letter-graded course receives a numerical value of quality points (quality points equal grade points times semester credit hours per course) to use in determining a student's average (per credit hour) in a particular term and to find a student's cumulative grade point average (per credit hour).

A = 4.0  B- = 2.7  D+ = 1.3
A- = 3.7  C+ = 2.3  D = 1.0
B+ = 3.3  C = 2.0  F = 0.0
B = 3.0  C- = 1.7

To determine the grade point average for a term, first determine the total quality points earned in the term by multiplying the number of grade points awarded for each course by the course's assigned number of semester credit hours and adding the resulting quality points earned for each course in the term. Then divide the total quality points earned in the term by the number of semester credit hours attempted (for letter grades) in the term.

Total quality points earned: 47.80
Total graded hours: 18.0

Term grade point average: 47.80 ÷ 18.0 = 2.656

Permanent grades are defined as follows:

A
Mastery of course content at the highest level of attainment that can reasonably be expected of students at a given stage of development. The A grade states clearly that the student has shown such outstanding promise in the aspect of the discipline under study that he/she may be strongly encouraged to continue.

B
Strong performance demonstrating a high level of attainment for a student at a given stage of development. The B grade states that the student has shown solid promise in the aspect of the discipline under study.

C
A totally acceptable performance demonstrating an adequate level of attainment for a student at a given stage of development. The C grade states that while not yet showing any unusual promise, the student may continue to study in the discipline with reasonable hope of intellectual development.

D
A marginal performance in the required exercises demonstrating a minimal passing level of attainment for a student at a given stage of development. The D grade states that the student has given no evidence of prospective growth in the discipline; an accumulation of D grades should be taken to mean that the student would be well advised not to continue in the academic field.

F
For whatever reasons, an unacceptable performance. The F grade indicates that the student's performance in the required exercises has revealed almost no understanding of the course content. A grade of F should warrant questioning whether the student may suitably register for further study in the discipline before remedial work is undertaken.

Grades earned and semester hours attempted at other institutions are not included in the calculation of the University grade point average.

Records of progress are kept by this institution on all students. Students have two primary methods to gain access to term grades:

- Using a browser to access ConnectCarolina.
- Making a request in person at the Office of the University Registrar.

Students should call the Office of the University Registrar at (919) 962-0495 if they have questions about grade reporting services.

Temporary Grades (IN and AB) and FA Grades

Any student who ceases to attend a class without officially being dropped or withdrawn may receive a temporary grade of AB or IN or a permanent grade of FA.

Students who do not complete all requirements in a course by the end of the semester, but who could pass the course if they did, receive a temporary grade of IN (incomplete) or AB (absent from the final exam) in place of a permanent letter grade. Grades of IN and AB carry the value of an F grade (zero quality points) and are used in the computation of semester and cumulative grade point averages. Students who do not
complete the course requirements within a specified period of time are assigned permanent F* grades on their academic transcripts by the Office of the University Registrar.

The instructor must report the grade of AB for any student who did not take the final examination and who, by taking the final examination, could pass the course. This AB grade carries the value of an F in computing the student's cumulative and semester grade point average, and later converts to an F* unless the student arranges to take the final examination before the last class day of the next scheduled semester (fall or spring). If the student cannot pass the course regardless of a final examination performance, the instructor must report the grade FA. The grade of FA (cannot pass the class) is a permanent failing grade. A grade of F may be assigned instead of a temporary grade or a grade of FA when a final examination is not required in the course.

The grade IN may only be assigned by an instructor to a student who took the final examination in a course but did not complete some other course requirement (including signing the honor pledge) and who, by virtue of completing that missing work, might pass the course. An IN carries the value of an F (zero quality points) in computing a student’s cumulative and semester grade point average. Unless removed within eight weeks of the beginning of the regularly scheduled semester (fall or spring) following its assignment, an IN converts to an F*.

When submitting an AB or IN, an instructor must enter the grade on the instructor's grade roster and must also complete a temporary grade assignment form (http://registrar.sites.unc.edu/files/2012/03/CCM3_031444.pdf) available online through the Office of the University Registrar. The purpose of this form is to establish a record of what arrangements, if any, have been made between the student and instructor to clear the AB or IN.

Absence from a final examination may be officially excused only by the student's dean or the director of Campus Health Services or Counseling and Psychological Services. Please see “Final Examinations” above for information about final examination excuses.

Important Rules and Procedures Pertaining to AB and IN Grades

The decision to report an IN grade is solely the responsibility of the course instructor, however, a student may present proper justification for the instructor's consideration.

Temporary grades should be cleared by completing the work outstanding, preferably no later than the start of the following semester. The deadline for clearing a temporary grade of AB is the last class day of the next regularly scheduled semester (fall or spring) after the AB grade is awarded. A temporary grade of IN must be cleared within the first eight weeks of the regularly scheduled semester (fall or spring) after the IN grade is awarded.

If students intend to remove IN or excused AB grades, they should not officially enroll in the course(s) during the next semester or summer session. If recommended by the course instructor, a student may attend by officially auditing a part of that instructor’s section of the course or another instructor’s section of the same course in which the temporary grade was awarded.

If a student enrolls in a course in which a temporary grade has been previously received, the second enrollment is taken as evidence that the student could not or is not permitted to remove the temporary grade. This results in replacing the temporary grade by F* after the deadline for removing the temporary grade. The grade earned during the second enrollment is also reported on the student’s academic transcript and is used along with the F* grade in the computation of a cumulative grade point average.

Other Grades and Notations

A notation of BE (By-Examination) is entered in the grade column of academic transcripts if students are awarded credit for a course as a result of evaluation by departmental, Advanced Placement, International Baccalaureate, or SAT II Subject Test examinations. BE credit confers credit hours and can be used to fulfill General Education requirements. For first-time, first-year students entering UNC-Chapel Hill in fall 2009 or thereafter, no more than two courses (six to eight credit hours) of BE credit can be applied to a major and no more than one course (three to four credit hours) of BE credit can be applied to a minor in the College of Arts and Sciences. BE credit may not be used to satisfy the requirement that students earn at least 12 or 18 hours of C or better grades in courses making up the minor or major respectively.

A notation of NG (no grade) is not used by individual instructors but rather is assigned by the Office of the University Registrar when a permanent grade is pending a judicial review by the Honor Court.

A notation of PL (placement) is entered in the grade column of academic transcripts if students are awarded exemption for a course as a result of an evaluation that would ordinarily place them in a succeeding course. PL does not confer credit hours.

There are some courses for which only a grade of PS (pass) or F (fail) can be awarded. For all other courses, students may opt to take a class on a Pass/Fail basis (http://catalog.unc.edu/policies-procedures/registration-enrollment-withdrawal).

A grade of SP (satisfactory progress) may be used in the first course of a departmental undergraduate honors program. The honors program runs through two semesters, and a final grade is not reported until completion of the second course. When the final grade is reported, the previously assigned SP grade must be changed to the appropriate permanent letter grade by an official grade change form. Credit hours are awarded for the first honors course only after a letter grade replaces the SP grade. An SP grade is not computed in the grade point average.

A notation of W (withdrawn) is entered in the grade column of academic transcripts if students are permitted by their school to drop a course after the eighth week of classes or proportional equivalent for summer terms and other nonstandard enrollment periods. This notation is automatically entered unless the student’s academic dean specifies otherwise.

When a course is dropped between the second and eighth week of classes, a grade of WC (withdrawal by choice) shall be recorded and used internally for tracking and reporting purposes. For external purposes, the WC grade is equivalent to the W grade. Once declared, a WC grade cannot be rescinded except when a student withdraws from an entire semester due to extenuating circumstances.

A notation of XF is entered to indicate that a student has not passed a course as the result of an Honor Court violation. The grade of XF can be replaced by a final grade of F if the student follows prescribed steps to remediate the violation.

A blank space or a grade of NR (not reported) is shown in the grade column when the instructor has not submitted the official grade for the student.
Repeating Course Enrollments
See Registration, Enrollment, and Withdrawal (p. 1042).

Grades Earned at Other Institutions
With the exception of courses taken via interinstitutional registration (p. 1042), grades earned and semester hours attempted at other institutions are not included in the computation of a grade point average at the University. A grade point average earned at another university may not be used to restore academic eligibility; however, academic hours earned at another university may be used to restore academic eligibility if the student is lacking only credit hours and has a satisfactory grade point average. Special rules regarding transfer courses apply; see Transfer of Credit (p. 17) and Academic Eligibility (p. 1053).

Grade Appeals
The grades of H, HP, P, LP, L, A, A+, B+, B, B-, C+, C, C-, D+, D, PS, F, FA, F*, and numerical grades in the Law School are considered permanent grades. Once reported, the instructor’s grade report may not be changed except under certain conditions. For a grade change to be considered, it must be based upon one or more of the following grounds and upon allegation that the ground or grounds cited influenced the grade assignment to the student’s detriment:

- Arithmetic or clerical error
- Arbitrariness, possibly including discrimination or harassment based on the race, color, gender, national origin, age, religion, creed, disability, veteran’s status, sexual orientation, gender identity, or gender expression of the student
- Personal malice
- Student conduct cognizable under the Instrument of Student Judicial Governance

A grade appeal must be made no later than the last day of classes for the succeeding fall or spring semester.

Grade Appeals Correcting a Clerical or Arithmetical Error
An instructor who has reported an incorrect grade for a student because of an error in calculating the grade, or in entering it on the official grade roster, may change the grade to one of the other letter grades, provided this change is made no later than the last day of classes of the succeeding fall or spring semester. Grade changes are submitted online using the Grade Change Request process, with electronic approvals required by the instructor, the department chair, and student’s dean’s office.

Other Grade Appeals
Any student who protests a course grade shall first attempt to resolve this disagreement with the instructor concerned. (As explained in the preceding paragraph, an instructor may change a permanent grade only when a clerical or arithmetical error is involved.) Failing to reach a satisfactory resolution, the student may appeal the grade in accordance with the procedures outlined below. Such appeal must be made no later than the last day of classes of the succeeding fall or spring semester.

Students should present the appeal in writing to the dean of their school (students in the College of Arts and Sciences must submit it in writing to the associate dean for advising). The dean will refer the appeal to the administrative board of his/her school, which will meet to consider whether the student has offered sufficient grounds for referring the appeal to the chair of the department concerned. If the administrative board determines that further review by the academic department is appropriate, the department chair will then appoint a committee to consider the appeal and will make a recommendation to the administrative board based on the committee’s findings. The administrative board will make the final decision, and no change of grade will be made except as a result of the decision by the board. The chair will report such decision to change the grade to the Office of the University Registrar.
**ACADEMIC STANDING**

**Academic Eligibility Policy**

For students in the undergraduate career, the University’s academic eligibility policy specifies the minimum standards of academic performance required for continued enrollment. These standards apply to undergraduate students enrolled in courses during or after the fall 2016 semester.

**Degree-Seeking Programs**

To guide students toward timely degree completion, the University maintains academic eligibility standards. These standards are reviewed at the end of fall, spring, summer I, and summer II terms. These standards determine academic status for each undergraduate in a degree-seeking program. Academic status indicates eligibility to enroll in any course in any term including summer. Students must check their academic status in ConnectCarolina at the end of each enrolled fall, spring, or summer term.

Academic status is determined through four standards of satisfactory academic progress:

1. **Grade Point Average.** A cumulative UNC–Chapel Hill grade point average of at least 2.000 is required.
2. **Completion Rate.** Students must successfully complete at least 2/3 of cumulative attempted credit hours. By-Exam (BE) and credits transferred in to UNC–Chapel Hill count as both attempted and completed hours. Withdrawals, temporary grades including AB, IN, or SP, and failed courses count as attempted hours but not completed hours. Completed Hours/Attempted Hours=Completion Rate.
3. **Cumulative Hours Passed.** To enroll in courses, students must have earned the following:
   - After one full-time semester: 9 academic hours
   - After two full-time semesters: 24 academic hours
   - After three full-time semesters: 36 academic hours
   - After four full-time semesters: 51 academic hours
   - After five full-time semesters: 63 academic hours
   - After six full-time semesters: 78 academic hours
   - After seven full-time semesters: 93 academic hours

Students are expected to complete their degree within a maximum of eight full-time semesters. Transfer students (who transfer in the UNC–Chapel Hill equivalent of two or more semesters, see “Calculation of Transferred Semesters Based on the Number of Transfer Hours (p. 1039)”) may enroll in up to 10 total semesters. Students who enter as first years are required to apply for a ninth or tenth semester. For information about the application process, students in professional schools must contact their professional school dean, and students in the College of Arts and Sciences must contact the Academic Advising Program (http://advising.unc.edu).

*Part-time students are excluded from this standard.

4. **Maximum Time Frame.** Students must complete their degree within 180 attempted credit hours.

There are four academic statuses: good standing, warning, suspension, and probation.

Students who meet each of the four standards at the end of an enrolled term will have an academic status of **good standing**.

Students who begin an enrolled term in good standing but do not meet each of the four standards at the end of that enrolled term will receive an academic status of **warning**. Students with a status of warning may enroll in courses and must complete an academic intervention plan (http://studentsuccess.unc.edu/warning).

A student who begins an enrolled term with a status of warning and falls short of the standards at the end of that enrolled term will earn an academic status of **suspension**. Students with an academic status of suspension cannot enroll in any courses in any terms. Students with an academic status of suspension have two options:

a. **Appeal for probation.** Students granted academic probation by appeal must complete an academic intervention plan (http://studentsuccess.unc.edu/academic-probation-3). Students denied probation by appeal can pursue option b.

b. Spend a term engaging in study, work, or wellness activities away from UNC–Chapel Hill. These opportunities could include coursework at another institution, employment, volunteer work, or healthcare or wellness activities. During this time students should reflect on their academic path, development, choices, and actions. Students should also implement strategies that will enhance their effectiveness upon return to the University. After a term away from the University, students who have engaged in study, work, or wellness activities may appeal to return to the University on probation. Students appealing after a term or longer away from the University must include documentation of their experiences while away such as a transcript from another institution, a letter from an employer, or a letter from a healthcare provider. These documents must convey evidence of the student’s readiness to return to the University.

A student who begins an enrolled term with a status of probation and falls short of the standards at the end of that enrolled term will earn an academic status of **suspension**. Students with an academic status of suspension have two options (see above).

**Repeats, Withdrawals, and Incompletes**

**Attempted hours** include all those in which a student is enrolled as of the end of the second week of each fall or spring term (the 10th day of the term, generally known as the “census date”). Students may drop a course until the 10th day of the term. Dropped courses do not count in attempted hours.

The summer schedule is similar to fall/spring but is determined according to the summer calendar. Credit hours that are dropped or withdrawn prior to the census date are not considered attempted; credit hours that are dropped or withdrawn after the census date are considered attempted.

**Repeated courses** affect grade point average and Completion Rate.

**Transfer hours** do not affect grade point average. Transfer hours are added to both completed hours and attempted hours in the Completion Rate calculation.

**Courses with temporary grades of IN or AB** affect grade point average. A grade of IN (incomplete) or AB (absent from final exam) is calculated as an F until a permanent grade is assigned. If a grade of IN or AB is converted to a passing grade, grade point average will be recalculated.
accompanyingly. Grades of IN or AB will adversely affect Completion Rate, counting as attempted hours but not completed hours.

Withdrawn courses do not affect grade point average. Withdrawn courses are NOT considered a successful completion, though, and will adversely affect Completion Rate.

Failed courses influence grade point average. A failed course will also adversely affect Completion Rate, counting as attempted hours but not completed hours.

Academic Eligibility Policy for Non-Degree-Seeking Programs

For non-degree-seeking students there are three academic statuses: good standing, alert, and ineligible. A non-degree-seeking student with a 2.000 or higher cumulative grade point average will be in good standing and eligible to enroll in courses. If a non-degree-seeking student falls below a 2.000 cumulative grade point average, the student will be assigned a status of alert. A non-degree-seeking student who begins a term with a status of alert and does not raise his or her cumulative grade point average to 2.000 or higher at the end of the term will have an academic status of ineligible and will not be permitted to enroll in courses. Non-degree-seeking students with a status of ineligible may appeal to The Friday Center.

Appeals

Students may, under extraordinary circumstances, present an appeal in writing (or online for students in the College of Arts and Sciences) to the dean of their school (for students in the College of Arts and Sciences, this is the associate dean for advising). The dean will refer the appeal to the administrative board for his/her school.

Calculation of Transferred Semesters Based on the Number of Transferred Credit Hours

See the Credit and Evaluation (p. 1039) section of the catalog.

Additional Information for Students with an Academic Status of Suspension

- If students earn 15 or more transfer semester credit hours for courses taken at other institutions cumulatively over the fall or spring semesters before applying for readmission to the University, a calculation will be made as to how many semesters the student is regarded as having completed, based on the number of hours accepted for transfer credit. The resulting tally of total semesters completed will determine requirements for restoring academic eligibility.
  • Students should consult their academic advisor if they are considering taking classes at another institution. Grades do not transfer, and credit hours accumulated through enrollment in fall and spring semesters at other schools can affect the number of remaining semesters that students have left to complete their degree requirements at UNC–Chapel Hill.
  • Students who attend another institution (summer, fall, or spring), and who apply for readmission must have at least a 2.000 (C) average in work at the other institution.
  • Students who have a housing assignment or contract for the following semester should either cancel their application/contract or notify the University’s Department of Housing and Residential Education of their intention to restore academic eligibility before the following semester begins.

Students who are inactive during a semester because of ineligibility (or other reasons) must apply for readmission before registering for a full-time term.

Removing AB or IN Grades

For information about completing courses with grades of AB (absent from the final examination) or IN (incomplete), see the grading system information (p. 1048).
HONOR CODE

The Honor Code
The Honor System forms a bond of trust among students, faculty, and administrators. The University of North Carolina at Chapel Hill operates under a system of self-governance, as students are responsible for governing themselves. As such, our University is transformed into a powerful community of inquiry and learning. The Honor Code embodies the ideals of academic honesty, integrity, and responsible citizenship, and governs the performance of all academic work a student conducts at the University. Acceptance of an offer of admission to Carolina presupposes a commitment to the principles embodied in our century-old tradition of honor and integrity.

Mutual Responsibilities of the Faculty and Students
Academic work is a joint enterprise involving faculty and students. Both have a fundamental investment in the enterprise and both must share responsibility for ensuring its integrity. In relation to the Honor Code, therefore, specific responsibilities of the faculty which parallel the responsibilities of the students have been formally adopted by the Faculty Council.

Responsibilities of the Faculty
1. Awareness: To assure that community-wide expectations regarding academic integrity are understood and communicated, and that students are held accountable for conforming their conduct to such expectations.
2. Communicating Expectations and Administering Examinations: To assist students in complying with their responsibilities relating to academic integrity, faculty members, teaching assistants, and other instructional personnel should
   a. Use good judgment in setting and communicating clear ground rules for academic work conducted under their supervision.
   b. Require students to sign the honor pledge as a condition of submitting academic assignments.
   c. Take steps to prevent unauthorized access to examinations during development, duplication, and administration.
   d. Avoid reusing prior examinations in whole or in part to the extent possible.
   e. Take all reasonable steps consistent with physical classroom conditions to reduce the risk of cheating during the administration of examinations.
   f. Maintain proper security during the administration of examinations, including as appropriate overseeing distribution and collection of examinations and proctoring the examination session.
3. Oversight: In the event of student misconduct that appears to violate the requirements of the Honor Code, faculty members, teaching assistants, and other instructional personnel should
   a. Report to the appropriate Student Attorney General any instance in which the instructor has reasonable basis to conclude that a student under the faculty member’s supervision has engaged in academic dishonesty or substantially assisted another to do so in connection with academically related work.
   b. In the instructor’s discretion, notify the student of the instructor’s intention to report the suspected academic dishonesty and permit the student to provide relevant further information if the student chooses to do so.
   c. Refrain from taking unilateral punitive action as to a student rather than reporting conduct in suspected violation of the Honor Code.
   d. Cooperate with representatives of the Honor System in conducting necessary investigation, providing testimony or other evidence, recommending appropriate sanctions, or otherwise bringing the matter to prompt conclusion.
4. Involvement: To bring to bear requisite faculty judgment regarding the nature and importance of academic integrity, and to nourish a strong campus-wide understanding and commitment to associated intellectual and personal values, faculty members, teaching assistants, and other instructional personnel should
   a. Explore issues of integrity in connection with instructional activities where relevant and appropriate.
   b. Encourage their academic units to take matters of academic integrity seriously, become informed regarding related problems and advisable means of preventing problems from arising, and provide requisite training and support to instructional personnel.
   c. Participate upon request as part of educational initiatives, faculty advisory panels, and University Hearing Boards designed to create, nurture, and enforce high standards of academic integrity within the University community.

Responsibilities of Students
To ensure effective functioning of an Honor System worthy of respect in this institution, students are expected to

1. Conduct all academic work within the letter and spirit of the Honor Code, which prohibits the giving or receiving of unauthorized aid in all academic processes.
2. Consult with faculty and other sources to clarify the meaning of plagiarism, to learn the recognized techniques of proper attribution of sources used in the preparation of written work, and to identify allowable resource materials or aids to be used during examination or in completion of any graded work.
3. Sign a pledge on all graded academic work certifying that no unauthorized assistance has been received or given in the completion of the work.
4. Comply with faculty regulations designed to reduce the possibility of cheating—such as removing unauthorized materials or aids from the room and protecting one’s own examination paper from the view of others.
5. Maintain the confidentiality of examinations by divulging no information concerning an examination, directly or indirectly, to another student yet to write that same examination.
6. Treat all members of the University community with respect and fairness.
7. Report any instance in which reasonable grounds exist to believe that a student has given or received unauthorized aid in graded work or in other respects violated the Honor Code. Such report should be made to the Office of the Student Attorney General, the Office of the Dean of Students, or other appropriate officer or official of their college or school.
8. Cooperate with the Office of the Student Attorney General and the defense counsel in the investigation and hearing of any incident of alleged violation, including the giving of testimony when called upon.

Procedure for Reporting
Members of the University community who wish to report possible violations of the Honor Code should contact the Office of Student
Conduct at (919) 962-0805 or fill out the online form (https://studentconduct.unc.edu/report-violation-office-student-conduct). The Office of Student Conduct will review the report and refer it to the appropriate Student Attorney General for action.
UNIVERSITY POLICIES

Regulations and Policies

The personal conduct of the University student is subject to the moral and legal restraints found in any law-abiding community. Additionally, the Honor Code is a positive force for good citizenship. University regulations are not specifications for acceptable conduct or detailed lists of offenses subject to penal action. They are intended to provide information about systematic procedures and equitable decisions in many situations involving individual students and officers of the University.

Alcoholic Beverages

Possession and use of alcoholic beverages is substantially regulated by federal, state, and local laws and ordinances. Within this legal framework, the University’s Alcohol Policy (https://unc.policystat.com/policy/4467892/latest) sets out the conditions under which alcoholic beverages may be used on University property.

According to North Carolina law

- Generally, persons 21 or older may purchase or consume alcoholic beverages and may possess alcoholic beverages at their homes or temporary residences.
- It is against the law for any person under 21 to purchase or possess any alcoholic beverage. (General Statute 18B-302)
- It is against the law for anyone to sell or give any alcoholic beverage to a person under 21 or to aid or abet such a person in selling, purchasing, or possessing any alcoholic beverage. (General Statute 18B-302)
- No alcoholic beverages may be sold by any person, organization, or corporation on a college campus except as permitted by North Carolina General Statutes, Sect. 18B-1006 (a).

According to Chapel Hill ordinance, it is against the law for anyone to possess any open container of alcohol on streets, sidewalks, alleys, or any other property owned or controlled by the Town of Chapel Hill.

In addition to following the law, the Alcohol Policy of The University of North Carolina at Chapel Hill sets out special rules about alcohol for students and student organizations. The Office of the Dean of Students will provide copies of the policy and assistance in understanding its full implications. The text of the policy (https://unc.policystat.com/policy/4467892/latest) can be accessed on the Web.

Under the policy

- Alcohol may not be served, consumed, or sold in any University facility or open space except as provided in Appendix B of the policy.
- Common source containers of alcohol (e.g., kegs) are not permitted on campus.
- Students and their guests age 21 and older may possess and consume alcoholic beverages in individual campus residence hall rooms or apartments on campus, but not in the common areas of a campus residence hall.
- No student activity fees or other University-collected fees may be used to purchase alcohol.
- No other funds of an officially recognized student group deposited or administered through the University may be used to purchase alcohol.

Students who violate the policy face mandatory alcohol education, housing sanctions (for violations arising in University housing), and sanctions, including written reprimand, restitution, counseling/referral, and/or educational or community service activities. Student groups who violate the policy face sanctions of written reprimand, restitution, mandatory educational programs or community service, and/or loss of University recognition. Behavior that violates the Code of Student Conduct, state, or federal laws may also be referred to the Office of Student Conduct, the Emergency Evaluation and Action Committee, and/or state and federal authorities.

Code of the University of North Carolina

Section 502D(3)—Subject to any policies or regulations of the Board of Governors or of the Board of Trustees, it shall be the duty of the chancellor to exercise full authority in the regulation of student affairs and student conduct and discipline. In the discharge of this duty, delegation of such authority may be made by the chancellor to faculty committees and to administrative or other officers of the institution, or to agencies of student government, in such manner and to such extent as may by the chancellor be deemed necessary and expedient. In the discharge of the chancellor’s duty with respect to matters of student discipline, it shall be the duty of the chancellor to secure to every student the right to due process. Appeals from these disciplinary decisions are allowable only on the following grounds:

1. a violation of due process, or
2. a material deviation from Substantive and Procedural Standards adopted by the Board of Governors.

Where the sanction is suspension or expulsion, an appeal may be made to the Board of Trustees. No appeal to the president is permitted. When the sanction is expulsion, the final campus decision is appealable to the Board of Governors.

Commercial Activities

Commercial exchanges, including selling or soliciting for the sale of goods or services by any person on the campus of the University is prohibited except as provided for in the Policy (https://policies.unc.edu/policies/fac-use) on Use of University Facilities for Noncommercial and Commercial Purposes.

Emergency Action

Occasionally, emergency situations arise in connection with an applicant's and/or current student's behavior. These incidents may require a faster response than the University's student judicial system can provide. To address these situations and to support the University's obligation to provide a safe campus, the chancellor established the Emergency Evaluation and Action Committee. The emergency action taken varies based on the nature and severity of the allegations and can include, but is not limited to, denial of admission and/or separation from the University.

Students whose cases may require action by the committee fall into five categories:

- An applicant for admission or readmission to the University who has been convicted of a crime involving assaultive or felonious
behavior, who has a record of violent behavior, or who has a record of academic dishonesty or disciplinary rule violations elsewhere;

- A student whose behavior, on or off campus, is such that his/her presence in the University, in the judgment of the Committee, poses a serious threat of disruption of the academic process or a continuing danger to other members of the University community or University property;

- A student or applicant for admission who has been arrested and charged with a serious crime of a violent or dangerous nature, or a serious crime that involved placing another person in fear of imminent physical injury or danger, where, in the judgment of the Committee, if the student is found guilty, his/her presence in the University would pose a serious threat of disruption of the academic process or a continuing danger to other members of the University community or University property;

- A student, charged by the University with a violation of policies concerning illegal drugs, whose continued presence within the University community would, if the charges are true, constitute a clear and immediate danger to the health or welfare of other members of the University community; or

- A student whose behavior on or off campus is such that, in the judgment of the Committee, he/she poses a danger to himself/ herself.

Additional information on the committee and its procedures is available from Student Affairs through the Office of the Dean of Students. The text (https://unc.policystat.com/policy/4639588/latest) of the committee’s policy and procedures is on the Web.

Equity in Athletics Disclosure Act

Information compiled under the federal Equity in Athletics Disclosure Act is available on request from the Department of Athletics Business Office.

Expulsion

A student who has been expelled from an institution in The University of North Carolina System may not be admitted to another UNC System school unless the institution that originally expelled the student rescinds that expulsion.

Fireworks, Firearms, and Other Weapons

It is a felony, punishable by fine and/or imprisonment, to possess or carry, openly or concealed, any gun, rifle, pistol, or other firearm of any kind, or any dynamite cartridge, bomb, grenade, mine, or powerful explosive on any University campus, in any University-owned or operated facility, or at a curricular or extracurricular activity sponsored by the University. Such conduct also may constitute a violation of the Honor Code. (See North Carolina General Statute 14-269.2 (http://www.ncga.state.nc.us/EnactedLegislation/Statutes/PDF/BySection/Chapter_14/GS_14-269.2.pdf).)

A person who has a concealed handgun permit that is valid under North Carolina law, or who is exempt from obtaining a permit pursuant to North Carolina law, may have a handgun in a closed compartment or container within the person’s locked vehicle or in a locked container securely affixed to the person’s vehicle. A person may unlock the vehicle to enter or exit the vehicle provided the firearm remains in the closed compartment at all times and the vehicle is locked immediately following the entrance or exit.

It is a Class 1 misdemeanor, punishable by fine and/or imprisonment, to possess or carry any BB gun, stun gun, air rifle, air pistol, bowie knife, dirk, dagger, slingshot, leaded cane, switchblade knife, blackjack, metallic knuckles, razors and razor blades (except for personal shaving), fireworks, or any sharp-pointed or edged instrument (except instructional supplies, unaltered nail files, and clips and tools used solely for preparation of food, instruction, and maintenance) upon any University campus or in any University-owned or operated facility. Such conduct may also constitute a violation of the Honor Code.

Graduation Rate

Pursuant to the federal Student Right-to-Know Act, we report that, in 2016–2017, the six-year completion or graduation rate for undergraduates who entered the University of North Carolina at Chapel Hill in 2011 on a full-time basis was 90.9 percent.

Housing and Residential Education

For policies and procedures related to living on campus, visit the Housing and Residential Education (https://housing.unc.edu/about-us/policies/community-living-standards) Web site.

Immunization Requirement

Effective July 1, 1986, North Carolina state law requires that no person shall attend a college or university in North Carolina unless a certificate of immunization indicating that the person has received the immunizations required by the law is presented to the college or university on or before the first day of matriculation.

If a student’s Medical History Form containing the certificate of immunization is not in the possession of Campus Health Services 10 days prior to the registration date, the University shall present a notice of deficiency to the student in question. The student shall have 30 calendar days from the first day of attendance to obtain the required immunizations, or present evidence of exemption. Those persons who have not complied with the immunization requirements by the end of 30 calendar days will be administratively withdrawn from the University.

Improper Relationships between Students and Employees

On March 15, 1996, The University of North Carolina Board of Governors adopted a systemwide policy that prohibits amorous or sexual relationships between faculty or staff employees and

1. students they evaluate or supervise by virtue of their teaching, research, administrative, or other employment responsibility and
2. students who are minors below the age of 18.

The policy also states that faculty or staff employees may not supervise or evaluate students to whom they are related by blood, law, or marriage. The full guidelines (https://hr.unc.edu/employees/policies/relationships-students-employees) based on the board’s policy are available on the Web.

Veterans' Educational Benefits

Students who expect to use their veterans’ educational benefits must contact the Veterans’ Services Assistant in the Office of the University Registrar, located in the Student and Academic Services Building North. Students must maintain satisfactory academic progress to be eligible for VA educational benefits. Students who are not eligible at the end of the term will not be eligible for veterans’ educational benefits in subsequent terms until they regain their eligibility. For further information, please visit the Web site (http://registrar.unc.edu/academic-services/veteran-affairs) or call (919) 962-9864.
Military Tuition Benefit

The information in this section comes from two sources:

1. North Carolina General Statutes, Sect. 116–143.3 (http://www.ncleg.net/EnactedLegislation/Statutes/PDF/BySection/Chapter_116/GS_116-143.3.pdf); and

Please refer to the Manual for specific policy information regarding the military tuition benefit.

Certain members of the Armed Services and their dependent relatives who are not residents for tuition purposes may become eligible to be charged the in-state tuition rate under North Carolina General Statutes Section 116–143.3, the military tuition benefit provision. Any person seeking the military tuition benefit must qualify for admission to UNC–Chapel Hill and must file an application for the benefit with his or her admissions office. The burden of proving eligibility for the military tuition benefit lies with the applicant. Because of the time involved in securing the necessary affidavits from the appropriate military authorities, prospective applicants for the military tuition benefit are urged to secure application forms from their admissions offices and begin the application process several weeks before the first day of classes of the term for which they seek the benefit. The application deadlines (http://registrar.unc.edu/academic-services/residency/important-dates) are posted on the Office of the University Registrar’s Web site.

Eligibility of Members of the Armed Services

To be eligible for this military tuition benefit, the individual must be on active duty and a member of the United States Air Force, Army, Coast Guard, Marine Corps, Navy, North Carolina National Guard, or a reserve component of one of these services and must be abiding in North Carolina incident to active military duty.

Eligibility of Dependent Relatives of Service Members

If the service member meets the conditions set forth above, his or her dependent relatives may be eligible to pay the in-state tuition rate if they share the service member’s North Carolina abode, if they have complied with the requirements of the Selective Service System (if applicable), and if they qualify as military dependents of the service member.

Special exceptions apply to military personnel and their dependents if the military person is reassigned outside of North Carolina or retires in North Carolina. Please consult the Manual for specific policy information.

Eligibility for Certain Veterans, Their Spouses, and Dependent Relatives

Under North Carolina General Statute Section (G.S.) 116-143.3A (https://www.ncleg.net/EnactedLegislation/Statutes/PDF/BySection/Chapter_116/GS_116-143.3A.pdf), certain veterans and other individuals entitled to federal education benefits under 38 U.S.C. Chapter 30 or 38 U.S.C. Chapter 33 may be eligible to be charged the in-state tuition rate and applicable mandatory fees for enrollment without satisfying the 12-month residency requirement under G.S. 116-143.1 (https://www.ncleg.net/EnactedLegislation/Statutes/PDF/BySection/Chapter_116/GS_116-143.1.pdf).

A veteran is a person who served active duty for not less than 90 days in the Armed Forces, the Commissioned Corps of the U.S. Public Health Service, or the National Oceanic and Atmospheric Administration and who was discharged or released from such service under conditions other than dishonorable.

For a veteran to qualify:

- The veteran applies for admission to the institution of higher education and enrolls within three years of the veteran’s discharge or release from the Armed Forces, the Commissioned Corps of the U.S. Public Health Service, or the National Oceanic and Atmospheric Administration.
- The veteran qualifies for and uses educational benefits pursuant to 38 U.S.C. Chapter 30 (Montgomery G.I. Bill Active Duty Education Assistance Program) or 38 U.S.C. Chapter 33 (Post-9/11 Educational Assistance).
- The veteran’s abode is in North Carolina.
- The veteran provides the institution of higher education at which the veteran intends to enroll a letter of intent to establish residence in North Carolina.

Eligibility of Veteran’s Spouse and Dependent Relatives Who Are Recipients of Transferred Federal Educational Benefits

Any person who is the spouse or a dependent relative of a veteran is also eligible to be charged the in-state tuition rate and applicable mandatory fees for enrollment without satisfying the 12-month residency requirement under 6 G.S. 116-143.1, if the person meets all of the following criteria:

- The person qualifies for admission to the institution of higher education as defined in G.S. 116-143.1(a)(3) and enrolls in the institution of higher education within three years of the veteran’s discharge or release from the Armed Forces, the Commissioned Corps of the U.S. Public Health Service, or the National Oceanic and Atmospheric Administration.
- The person is the recipient of transferred federal educational benefits pursuant to 38 U.S.C. Chapter 30 (Montgomery G.I. Bill Active Duty 14 Education Assistance Program) or 38 U.S.C. Chapter 33 (Post-9/11 Educational Assistance).
- The person’s abode is in North Carolina.
- The person provides the institution of higher education at which the person intends to enroll a letter of intent to establish residence in North Carolina.

Application Process

- **Undergraduate Students.** Students who are claiming North Carolina residency for tuition purposes are required to submit a residency application with the North Carolina Residency Determination Services (RDS) (http://www.ncresidency.org). Note: This excludes first-year and transfer applicants for fall 2017 admission. The RDS will provide a Residency Certification Number (RCN) that students may enter on their application for admission or on their ConnectCarolina (https://connectcarolina.unc.edu) Student Center To-Do List. For additional information, students may contact their admissions office or refer to the residency FAQs (https://ncresidency.cfnc.org/residencyInfo/studentFAQ).
- **Graduate and Professional School Students.** Students who are claiming North Carolina residency for tuition purposes should follow the instructions in their application for admission. For additional information, they may contact their admissions office. The Manual contains an illustrative list. Students should keep a copy of all application materials and records. Beginning in the fall of 2018 UNC graduate and professional schools will migrate to a centralized model. For updated information students can visit the Residency Web page (http://catalog.unc.edu/policies-procedures/university-policies/20https://registrar.unc.edu/academic-services/residency).
Appeals

Undergraduate Students. Students who believe their residency classification is incorrect may appeal the decision through the Residency Determination System (RDS) (http://www.ncresidency.org). The RDS appeal process is for students whose circumstances have not changed, but who believe their residency classification is incorrect. Students have the ability to provide additional information and documentation relating to their appeal request. Some students will also have the ability for a face-to-face appeal hearing with RDS. If you do not have a RDS Residency Certification Number (RCN), contact your admissions office.

You have 10 calendar days from the date of the determination you are appealing, or a status change due to a failed validation, to submit a notification of appeal through the RDS online system.

For additional information, refer to the residency FAQs (https://ncresidency.cfnc.org/residencyInfo/studentFAQ).

Graduate and Professional School Students. Students who are classified as nonresidents may appeal the decision to the University’s Residency Appeals Board (the “Board”). The Board consists of members of the University community, appointed by the Chancellor, who are familiar with and who receive extensive training about the residency classification process.

Requests for appeals must be submitted to the admissions office where the classification decision was made within ten (10) business days of the student’s receipt of the classification letter. The appeal must be in writing and signed by the student. Students may also send their request to their admissions office from their University e-mail account.

Policies and Guidelines for a Cooperative Learning Environment

Teaching and learning occur simultaneously through a partnership between instructor and student. Instructors share knowledge, experience, and ideas with their students. Students process these thoughts, generate new ones, and share them with their teachers and classmates. In most cases, students and instructors communicate clearly and effectively. However, misunderstandings do occur. In an attempt to foster a positive academic environment, the Faculty Council, upon recommendation of the Educational Policy Committee, establishes the following policies and guidelines.

The Faculty Council resolves:

Part I. Policies

Section 1.

The Faculty Council recognizes and affirms the following policies. This recognition is not to be interpreted as precluding modification of any policy by the appropriate authority.

- The Honor Code. The faculty should inform students of the provisions of the honor code and be aware of their own responsibilities specified in the honor code. Faculty responsibilities are stated in the Instrument of Student Judicial Governance.
- Student Grievance Policy and Procedures (https://unc.policystat.com/policy/4469271/latest). According to UNC–Chapel Hill Student Grievance Committee procedures, students may file a grievance against a UNC–Chapel Hill employee, including faculty, EHRA non-faculty, staff, and student employee (when acting in the role of employee) when there is a violation of one of the following:
  b. The Americans with Disabilities Act (https://www.ada.gov);
  c. Title IX (http://eoc.unc.edu/our-policies/state-and-federal-laws/title-ix-and-vawa), which prohibits exclusion from participation on the basis of sex;
  d. Section 504 of the Rehabilitation Act of 1973 (https://accessibility.unc.edu/policies), which outlaws discrimination on the basis of a handicap; or
  e. The Family Educational Rights and Privacy Act, which allows students to challenge the content of their educational records.

Copies of these policies can be obtained from the Office of the Dean of Students (https://odos.unc.edu). They contain information about how to file a grievance. A grievance based on incidents that occurred more than six months before the complaint was filed will not be considered.

- Student Access to Academic Records—Protection against Improper Disclosure. As stated in The Family Educational Rights and Privacy Act of 1974, students may have access to their full academic records. Individuals who are, or have been, in attendance at UNC–Chapel Hill may inspect and review their education records. Otherwise, education records are subject to confidentiality requirements as specified by law and may not be disclosed improperly. Requests for recommendations imply that the student has given consent to the disclosure of information related to ability and performance. Judgments of ability and character may be provided under appropriate circumstances, normally with the knowledge or consent of the student. “Education records” are those records directly related to a student that are maintained by an educational institution. Particular University policy provisions are found in the University of North Carolina at Chapel Hill’s Policies and Procedures under the Family Educational Rights and Privacy Act of 1974.

- Appealing a Grade. The University has systems for appealing a grade. The exact procedures vary among the academic units. Students should consult with their dean or department chairperson to obtain information about grade appeal procedures. See the section on “Grade Appeals” (p. 1052) in this catalog.

Part II. Guidelines

Section 2.

The Faculty Council endorses the following guidelines for the faculty-student relationship. This endorsement shall not be construed as faculty legislation, is not intended to establish a contractual undertaking by the University or any individual, and shall not constitute the basis for civil action in a court or a claim in any administrative or judicial body of the University of North Carolina at Chapel Hill.

- Clear Definition of Potential Honor Code Violations. In an attempt to avoid unintended misunderstanding, instructors should clearly state what is acceptable in their classes. When study aids such as computers are allowed, the instructor is responsible for explaining what constitutes proper use of these items. These rules should be established at the beginning of the course and should not be changed without giving students proper notice.
- Assignment of Graded Work during the Last Week of the Semester. Instructors may not assign graded work during the last week of
classes unless the course syllabus clearly states that such an assignment will be given.

- **Suggested Classroom Procedures.** In general, instructors are strongly encouraged to follow the guidelines for course design and classroom procedures recommended by the Center for Faculty Excellence. When students enter into a learning relationship, they have certain needs and expectations. They are entitled to information about course procedures, attendance policy, content, and goals. Instructors should provide a syllabus that describes the course and methods of evaluation. Particular attention should be paid to several areas of special concern to students, including provision of reserve readings and grading policy.

Evaluated assignments should be returned to the students within a reasonable amount of time. Since part of the purpose of such assignments is to provide feedback, students should be given time to assess and to learn from their mistakes. Ideally, such assessment would take place while the relevant topics are still fresh in their minds. Extra credit, if offered, should be announced publicly and made available to the entire class.

- **Students Should Have Freedom of Expression.** Students should be free to take reasoned exception to the data or views offered in any course of study. They are responsible, however, for learning the content of any course of study in which they are enrolled. Incorrect facts and poorly supported arguments or opinions inevitably have an impact on grades. Nothing herein shall be construed to limit the freedom of the faculty to assign grades according to appropriate academic standards.

- **Responsibilities of Students and Teachers.** Just as students ought to expect instructors who are knowledgeable and well-prepared, so should teachers expect their students to be motivated, eager to learn, and actively engaged in class. It is the responsibility of teachers to make their courses serious intellectual experiences for themselves and for their students. It is the responsibility of students to take seriously the courses in which they enroll. Good teachers need good learners.

Students should understand that they are members of a community of scholars, and membership in such a community is not a passive activity. To be full participants in the educational community and to maximize the educational value of a class, preparation before class is necessary. Proper class preparation involves obtaining course materials as they are needed and completing assignments as they are due. Full participation in a class requires regular attendance, arriving on time and remaining until class conclusion, and active involvement in the work of the class. Students should also consider the extent of their own involvement in a class in assessing the educational value of the class.

**Policies on Prohibited Harassment and Nondiscrimination**

**Policy on Illegal Drugs**

Introduction

The Board of Trustees of the University of North Carolina at Chapel Hill, in conformity with the direction of the Board of Governors of The University of North Carolina, hereby adopts this Policy on Illegal Drugs (https://policies.unc.edu/policies/illegal-drugs), effective August 24, 1988. It is applicable to all students, faculty members, administrators, and other employees.

**Education, Counseling, and Rehabilitation**

1. The University of North Carolina at Chapel Hill has established and maintains a program of education designed to help all members of the University community avoid involvement with illegal drugs. This educational program emphasizes these subjects:
   - The incompatibility of the use or sale of illegal drugs with the goals of the University;
   - The legal consequences of involvement with illegal drugs;
   - The medical implications of the use of illegal drugs; and
   - The ways in which illegal drugs jeopardize an individual’s present accomplishments and future opportunities.

2. The University of North Carolina at Chapel Hill provides information about drug counseling and rehabilitation services available to members of the University community through campus-based programs and through community-based organizations. Persons who voluntarily avail themselves of University services are hereby assured that applicable professional standards of confidentiality will be observed.

**Enforcement and Penalties**

1. The University of North Carolina at Chapel Hill shall take all actions necessary, consistent with state and federal law and applicable University policy, to eliminate illegal drugs from the University community. The University’s Policy on Illegal Drugs is publicized in catalogs and other materials prepared for all enrolled and prospective students and in materials distributed to faculty members, administrators, and other employees.

2. Students, faculty members, administrators, and other employees are responsible, as citizens, for knowing about and complying with the provisions of North Carolina law that make it a crime to possess, sell, deliver, or manufacture those drugs designated collectively as controlled substances in Article 5 of Chapter 90 of the North Carolina General Statutes. Any member of the University community who violates that law is subject both to prosecution and punishment by the civil authorities and to disciplinary proceedings by the University. It is not “double jeopardy” for both the civil authorities and the University to proceed against and punish a person for the same specified conduct. The University will initiate its own disciplinary proceeding against a student, faculty member, administrator, or other employee when the alleged conduct is deemed to affect the interests of the University.

3. Penalties will be imposed by the University in accordance with procedural safeguards applicable to disciplinary actions against students, faculty members, administrators, and other employees, as required by Section 3 of the Trustee Policies and Regulations Governing Academic Tenure in The University of North Carolina at Chapel Hill; by Section III. D. of the Employment Policies for EHRA Non-Faculty Employees of The University of North Carolina at Chapel Hill; by regulations of the State Personnel Commission, and the Disciplinary Procedure of the Staff Personnel Administration Guides (Human Resources Manual for SHRA Employees); by the Instrument of Student Judicial Governance; and by all other applicable provisions of the policies and procedures of The University of North Carolina at Chapel Hill.

4. The penalties to be imposed by the University may range from written warnings with probationary status to expulsions from enrollment.
and discharges from employment. However, the following minimum penalties shall be imposed for the particular offenses described.

**Trafficking in Illegal Drugs**

1. For the illegal manufacture, sale, or delivery, or possession with intent to manufacture, sell, or deliver, of any controlled substance identified in Schedule I, North Carolina General Statutes 90–89, or Schedule II, North Carolina General Statutes 90–90 (including, but not limited to, heroin, mescaline, lysergic acid diethylamide, opium, cocaine, amphetamine, methaqualone), any student shall be expelled and any faculty member, administrator, or other employee shall be discharged.

2. For a first offense involving the illegal manufacture, sale, or delivery, or possession with intent to manufacture, sell, or deliver, of any controlled substance identified in Schedules III through VI, North Carolina General Statutes 90–91 through 90–94, (including, but not limited to, marijuana, anabolic steroids, pentobarbital, codeine), the minimum penalty shall be suspension from enrollment or from employment for a period of at least one semester or its equivalent. (Employees subject to the State Human Resources Act are governed by regulations of the State Human Resources Commission. Because the minimum penalty specified in this section and required by the Board of Governors exceeds the maximum period of suspension without pay that is permitted by State Human Resources Commission regulations, the penalty for a first offense for employees subject to the State Personnel Act is discharge.) For a second offense, any student shall be expelled and any faculty member, administrator, or other employee shall be discharged.

**Illegal Possession of Drugs**

1. For a first offense involving the illegal possession of any controlled substance identified in Schedule I, North Carolina General Statutes 90–89, or Schedule II, North Carolina General Statutes 90–90, the minimum penalty shall be suspension from enrollment or from employment for a period of at least one semester or its equivalent. (Employees subject to the State Human Resources Act are governed by regulations of the State Human Resources Commission. Because the minimum penalty specified in this section and required by the Board of Governors exceeds the maximum period of suspension without pay that is permitted by State Human Resources Commission regulations, the penalty for a first offense for employees subject to the State Human Resources Act is discharge.)

2. For a first offense involving the illegal possession of any controlled substance identified in Schedules III through VI, North Carolina General Statutes 90–91 through 90–94, (including, but not limited to, marijuana, anabolic steroids, pentobarbital, codeine), the minimum penalty shall be suspension from enrollment or from employment for a period of at least one semester or its equivalent. A person on probation must agree to participate in a drug education and counseling program, consent to regular drug testing, and accept such other conditions and restrictions, including a program of community service, as the Chancellor or the Chancellor’s designee deems appropriate. Refusal or failure to abide by the terms of probation shall result in suspension from enrollment or from employment for any unexpired balance of the prescribed period of probation. (If this balance for an employee subject to the State Human Resources Act exceeds one week, that employee shall be discharged.)

3. For second or other subsequent offenses involving the illegal possession of controlled substances, progressively more severe penalties shall be imposed, including expulsion of students and discharge of faculty members, administrators, or other employees.

**Suspension Pending Final Disposition**

When a student, faculty member, administrator, or other employee has been charged by the University with a violation of policies concerning illegal drugs, that person may be suspended from enrollment or employment before initiation or completion of regular disciplinary proceedings if, assuming the truth of the charges, the Chancellor, or in the Chancellor’s absence, the Chancellor's designee, concludes that the person’s continued presence within the University Community would constitute a clear and immediate danger to the health or welfare of other members of the University community; provided, that if such a suspension is imposed, an appropriate hearing of the charges against the suspended person shall be held as promptly as possible thereafter.

**Implementation and Reporting**

Annually, the Chancellor shall submit to the Board of Trustees a report on campus activities related to illegal drugs for the preceding year. The report shall include, as a minimum, the following information:

1. A listing of the major educational activities conducted during the year
2. A report on any illegal drug-related incidents, including any sanctions imposed
3. An assessment by the Chancellor of the effectiveness of the campus program
4. Any proposed changes in the Policy on Illegal Drugs

A copy of the report shall be provided to the President, who shall confer with the Chancellor about the effectiveness of campus programs.

**Policy Statement on Gender Inclusive Language**

The University of North Carolina at Chapel Hill is committed to providing an inclusive and welcoming environment for all members of our community. (See the policy here (https://unc.policystat.com/policy/4745272/latest).) Consistent with that commitment, gender inclusive terms (chair; first-year student; upper-level student, etc.) should be used on University documents, Web sites, and policies. A guidance handout (Gender-Sensitive Language (https://writingcenter.unc.edu/tips-and-tools/gender-inclusive-language)) may be found on the UNC Writing Center Web site.

**Residence Status for Tuition Purposes**

The information in this section comes from two sources:

1. North Carolina General Statutes, Sect. 116–143.1, and

The following sections summarize important aspects of the residency law. A complete explanation of the statute and the procedures under the statute is contained in A Manual to Assist the Public Higher Education Institutions of North Carolina in the Matter of State Residence (the Manual), available online.

Every applicant for admission is required to make a statement of his or her length of residence in North Carolina. A person who qualifies as a resident for tuition purposes under North Carolina law pays a lower rate of tuition than a nonresident. To qualify for in-state tuition, a legal resident must have been domiciled in North Carolina for at least 12 months immediately prior to the beginning of the term for which classification as a resident for tuition purposes is sought. The student must also establish that his or her presence in the state during such 12-month period was for purposes of maintaining a bona fide domicile
rather than for purposes of maintaining a mere temporary residence incident to enrollment in an institution of higher education. "Domicile" means one’s permanent home of indefinite duration, as distinguished from a temporary place of abode. Domicile is synonymous with legal residence and is established by being physically present in a place with the concurrent intent to make that place a domicile. To determine intent, the University evaluates an individual’s objectively verifiable conduct as an indicator of his or her state of mind.

Procedural Information

General
A student admitted to initial enrollment in an institution (or permitted to reenroll following an absence that involved a formal withdrawal from enrollment) is classified by North Carolina Residency Determination Services (RDS) either as a resident or as a nonresident for tuition purposes prior to actual matriculation. In the absence of a current and final determination of the student’s residence prior to matriculation, the student is classified as a nonresident for tuition purposes. The institution will thereafter reach a final determination of the student’s residence status. Unless a person supplies enough information to allow RDS to classify him or her as a resident for tuition purposes, the person will be classified a nonresident for tuition purposes. A residence classification once assigned (and confirmed pursuant to any appellate process invoked) may be changed thereafter (with a corresponding change in billing rates) only at the beginning of a term.

Transfer Students
When a student transfers from one North Carolina public institution of higher education to another, he or she is required to be treated as a new student by the institution to which he or she is transferring and must be assigned an initial residence classification for tuition purposes.

Responsibility of Students
Any student who is uncertain about the accuracy of his or her current residence classification for tuition purposes is responsible for securing a ruling by completing an application for resident status by applicable deadlines and filing it with the admissions officer. The student who subsequently becomes eligible for a change in classification, whether from out-of-state to in-state or the reverse, is responsible for immediately informing the Office of Admissions in writing of his or her new status. Failure to give complete and correct information regarding residence constitutes grounds for disciplinary action. The institution will not assume responsibility for initiating such an inquiry independently.

Application Process

Undergraduate Students. Students who are claiming North Carolina residency for tuition purposes are required to submit a residency application with the North Carolina Residency Determination Services (RDS) (http://www.ncresidency.org). Note: This excludes first-year and transfer applicants for fall 2018 admission. The RDS will provide a Residency Certification Number (RCN) that students may enter on their application for admission or on their ConnectCarolina (https://connectcarolina.unc.edu) Student Center To-Do List. For additional information, students may contact their admissions office or refer to the residency FAQs (https://ncresidency.cfcn.org/residencyInfo/studentFAQ).

Graduate and Professional School Students. Students who are claiming North Carolina residency for tuition purposes should follow the instructions in their application for admission. For additional information, they may contact their admissions office. The Manual contains an illustrative list. Students should keep a copy of all application materials for their records. Beginning in the fall of 2018, UNC graduate and professional schools will migrate to a centralized model. For updated information students can visit the Residency Web page (https://registrar.unc.edu/academic-services/residency).

When to File an Application
All applications for resident status must be filed with the proper office of admissions during the filing period posted at Office of the University Registrar’s Web site. The University follows the application guidelines of the State Residence Committee. The deadline to submit an application along with all supporting documentation cannot be later than the 10th business day of the term for which the applicant is seeking residency for tuition. Deadlines (http://registrar.unc.edu/academic-services/residency/important-dates) are posted on the Office of the University Registrar’s Web site. Applications not filed by the posted deadlines are not processed and will be returned to the student applicant. Appeals that do not comply with institutional procedures and deadlines are subject to dismissal.

The burden of proof remains the responsibility of the applicant. A preponderance of evidence that the applicant is a bona fide domiciliary for tuition purposes may be established by providing tangible evidence to support relevant conduct of legal residence and its duration. This evidence is required at the time of application. The RDS and the institution will not assume responsibility for initiating such an inquiry independently.

Evidence of North Carolina domicile for tuition purposes includes actions that would normally be characteristics and expected of any permanent resident. A variety of evidence is considered when evaluating requests for in-state tuition status; however, no single factor or combination of factors may be considered conclusive evidence of domicile. Please consult the Manual for illustrative lists of the kinds of information and conduct that may be considered as evidence in determining domicile, including financial dependency and independency.

When a student receives a request for additional documentation as evidence, he or she must supply the requested information no later than 10 business days after receipt of the request. Failure to supply the requested information within the specified time limit will result in a continuation of the student’s nonresident classification unless good cause is shown for such failure.

For more details about the residency application process and other important information about the resident status (http://registrar.unc.edu/academic-services/residency), visit the RDS Web site (https://ncresidency.cfcn.org/residencyInfo/home).

Fraudulent Applications
If a student is classified a resident for tuition purposes after submitting falsified residency information or after knowingly withholding residency information, the student’s application for in-state tuition status is fraudulent. The institution may reexamine any application suspected of being fraudulent and, if warranted, will change the student’s residence status retroactively to the beginning of the term for which the student originally made the fraudulent application. If this occurs, the student must pay the out-of-state tuition differential for all the enrolled terms intervening between the fraudulent application and its discovery. Further, knowing falsification of responses on a resident status application may subject the applicant to disciplinary action, including dismissal from the institution.

Burden of Proof and Statutory Prima Facie Evidence
A person has the burden of establishing facts that justify his or her classification as a resident for tuition purposes. The balancing of all the
evidence must produce a preponderance of evidence supporting the assertion of in-state residence. Under the statute, proof of resident status is controlled initially by one of two evidentiary beginning points which are stated in terms of prima facie evidence.

1. Even if the person is an adult, if his or her parents (or court-appointed guardian in the case of some minors) are not legal residents of North Carolina, this is prima facie evidence that the person is not a legal resident of North Carolina unless he or she has lived in this state the five consecutive years prior to enrolling or reregistering. To overcome this prima facie showing of nonresident, a person must produce evidence that he or she is a North Carolina domiciliary despite the parents' nonresident status.

2. Conversely, if the person's parents are domiciliaries of North Carolina under the statute, this fact constitutes prima facie evidence that the person is a domiciliary of North Carolina. This prima facie showing may also be overcome by other evidence to the contrary. If a person has neither living parents nor legal guardian, the prescribed prima facie evidence rule cannot and does not apply.

Erroneous Notices Concerning Classification
If a student who has been found to be a nonresident for tuition purposes receives an erroneous written notice from an institutional officer identifying the student as a resident for tuition purposes, the student is not responsible for paying the out-of-state tuition differential for any enrolled term beginning before the classifying institution notifies the student that the prior notice was erroneous.

Grace Period
If a student has been properly classified as a North Carolina resident for tuition purposes and, thereafter, his or her state of legal residence changes while he or she is enrolled in a North Carolina public institution of higher education, the statute provides for a grace period during which the student is allowed to pay tuition at the in-state rate despite the fact that the student is no longer a North Carolina legal resident. This grace period extends for a minimum of 12 months from the date of change in legal residence, and if the 12-month period ends during a semester or academic term in which the student is enrolled, the grace period extends also to the end of that semester or academic term.

Reacquisition of Resident Tuition Status
The prescribed 12-month period of legal residence may be shortened if the person seeking to be classified as a resident for tuition purposes was formerly classified a North Carolina resident for tuition purposes, abandoned North Carolina domicile, and reestablished North Carolina domicile within 12 months after abandoning it. Interested persons should consult their admissions offices for a detailed explanation of the conditions which must be met to qualify under this section.

Appeals
Undergraduate Students. Students who believe their residency classification is incorrect may appeal the decision through the Residency Determination System (RDS) at www.ncresidency.org (http://www.ncresidency.org). The RDS Appeal process is for students whose circumstances have not changed, but who believe their residency classification is incorrect. Students have the ability to provide additional information and documentation relating to their appeal request. Some students will also have the ability for a face-to-face appeal hearing with RDS. If you do not have a RDS Residency Certification Number (RCN), contact your admissions office.

Graduate and Professional School Students. Students who are classified as nonresidents may appeal the decision to the University's Residence Appeals Board (the "Board"). The Board consists of members of the University community, appointed by the Chancellor, who are familiar with and who receive extensive training about the residency classification process.

Requests for appeals must be submitted to the admissions office where the classification decision was made within ten (10) business days of the student's receipt of the classification letter. The appeal must be in writing and signed by the student. Students may also send their request to their admissions office from their University email account.

Tuition Payment
It is the responsibility of the student to pay tuition at the rate charged and billed while an appeal is pending. In effect, the student who is classified as a nonresident at the time of tuition billing pays the nonresident rate. Conversely, if a student is classified as a resident at the time of billing, he or she pays the resident rate. Any necessary adjustments in the rate paid will be made at the conclusion of the appeal.

Application of the Law to Specific Situations
Aliens
Aliens who are permanent residents of the United States, or who hold a visa that will permit eventual permanent residence in the United States, are subject to the same considerations with respect to determination of legal residence as citizens. An alien abiding in the United States under a visa conditioned at least in part upon intent not to abandon a foreign domicile cannot be classified a resident. An alien abiding in the United States under a visa issued for a purpose that is so restricted as to be fundamentally incompatible with an assertion by the alien of bona fide intent to establish a legal residence cannot be classified a resident.

Possession of certain other immigration documents may also allow an alien to be considered for in-state tuition status. For more details, aliens should consult their admissions offices and the Manual. Aliens must file a Residence Status Supplemental Form in addition to the forms normally required of applicants for resident status for tuition purposes. Aliens should also provide a copy of the front and back of the document(s) that they claim allow them to remain in the United States and establish a legal residence.

Married Persons
The North Carolina resident status for tuition purposes statute provides a special provision for legal residents who are married. This provision is called the "spouse-pair" provision.

The domicile of a married person, irrespective of sex, is determined by reference to all relevant evidence of domiciliary intent. No person is precluded, solely by reason of marriage to a person domiciled outside of North Carolina, from establishing or maintaining legal residence in North Carolina. No person is deemed, solely by reason of marriage to a person domiciled in North Carolina, to have established or maintained a legal residence in North Carolina. The fact of marriage and the place of the domicile of the student's spouse are deemed relevant evidence to be considered in ascertaining domiciliary intent.
If a person otherwise can demonstrate compliance with the fundamental statutory requirement that he or she be a legal resident of North Carolina before the beginning of the term for which resident status is sought, the second statutory requirement relating to duration of residence may be satisfied derivatively, in less than 12 months, by reference to the length of the legal residence of the person’s spouse, if the spouse has been a legal resident of the state for the requisite 12-month period.

If a person believes that he or she qualifies for the marital status provision, special application procedures must be followed. A separate supplemental spousal residency application should be filed at the same time as the residency form is submitted. Residency applications of persons who are married and claiming the North Carolina “spouse-pair” provision are not to be submitted to the admissions office. They should be filed with the Office of the University Registrar. Applications (http://registrar.unc.edu/academic-services/residency/application-forms) for residency and the spouse-pair provision are available online.

Military Personnel
The domicile of a person employed by the federal government, Department of Defense, is not necessarily affected by assignment in or reassignment out of North Carolina. Such a person may establish domicile by the usual requirements of residential act plus intent. No person loses his or her in-state resident status solely by serving in the armed forces outside of the state of North Carolina. See the section above entitled “Military Tuition Benefit” for other benefits provided to military personnel and their dependents.

Minors
A minor is any person who has not reached the age of 18 years. Under the common law, a minor child whose parents are not divorced or legally separated is presumed to have the domicile of his or her father. This presumption may be rebutted if a preponderance of the evidence indicates that the mother and father have separate domiciles and that, under the circumstances, the child can fairly be said to derive his or her domicile from the mother. If the father is deceased, the domicile of the minor is that of the surviving mother. If the parents are divorced or legally separated, the domicile of the minor is that of the parent having custody by virtue of a court order; or, if no custody has been granted by virtue of court order, the domicile of the minor is that of the parent with whom he or she lives; or, if the minor lives with neither parent, in the absence of a custody award, the domicile of the minor is presumed to remain that of the father. If the minor lives for part of the year with each parent, in the absence of a custody award, the minor’s domicile is presumed to remain that of the father. If the minor has lived in North Carolina for five years as set forth above in “Burden of Proof and Statutory Prima Facie Evidence,” Subsection A, the common law presumptions do not absolutely control on the issue of the minor’s domicile, but they continue to be very strong evidence thereof.

In determining residence status for tuition purposes, there are three exceptions to the above provisions:

- If a minor’s parents are divorced, separated, or otherwise living apart and one parent is a legal resident of North Carolina, during the time period when that parent is entitled to claim, and does claim, the minor as a dependent on the North Carolina individual income tax return, the minor is deemed to be a legal resident of North Carolina for tuition purposes, notwithstanding any judicially determined custody award with respect to the minor.
- If immediately prior to his or her 18th birthday a person would have been deemed a North Carolina legal resident under this provision but he or she achieves majority before enrolling in a North Carolina institution of higher education, that person will not lose the benefit of this provision if the following conditions are met:
  a. Upon achieving majority the person must act, as much as possible, in a manner consistent with bona fide legal residence in North Carolina; and
  b. The person must begin enrollment at a North Carolina institution of higher education not later than the fall academic term next following completion of education prerequisite to admission at the institution.
  c. If immediately prior to beginning an enrolled term the minor has lived in North Carolina for five or more consecutive years in the home of an adult relative (other than a parent) who is a legal resident of North Carolina, and if the adult relative during those years has functioned as a de facto guardian of the minor, then the minor is considered a legal resident of North Carolina for tuition purposes. If a minor qualifies for resident status for tuition purposes under this provision immediately prior to his or her 18th birthday, then, upon becoming 18, he or she will be deemed a legal resident of North Carolina of at least 12 months’ duration.

Even though a person is a minor, under certain circumstances the person may be treated by the law as being sufficiently independent from his or her parents as to enjoy a species of adulthood for legal purposes. If the minor marries or obtains a judicial decree of emancipation under North Carolina General Statutes Section 7A–717, et seq., he or she is emancipated. The consequence, for present purposes, of such emancipation is that the affected person is presumed to be capable of establishing a domicile independent of that of the parents; it remains for that person to demonstrate that a separate domicile has, in fact, been established.

Prisoners
There are special provisions concerning domicile of prisoners. For more information, persons to whom these provisions may apply should consult the Manual.

Property and Taxes
Ownership of property in or payment of taxes to the State of North Carolina apart from legal residence will not qualify one for the in-state tuition rate; home ownership alone does not necessarily qualify one for the tuition benefit.

Students or prospective students who believe that they are entitled to be classified residents for tuition purposes should be aware that the processing of requests and appeals can take a considerable amount of time. One should not apply until they have met the minimum requirements of having an established 12-month domicile along with physical presence.

The University follows the application guidelines of the State Residence Committee. Applications not received by the applicable deadlines are not accepted for consideration. The deadline to submit an application along with all supporting documentation cannot be later than the 10th business day of the term for which the applicant is seeking residency for tuition. Deadlines (http://registrar.unc.edu/academic-services/residency/important-dates) are posted on the Office of the University Registrar’s Web site.

Benefit for UNC Employees and Related Persons
Full-time, permanent employees of UNC who are legal residents of North Carolina may qualify for the in-state tuition rate even if they do not meet the 12-month requirement.
This provision includes spouses and dependent children of the employee. The employee must be full-time, permanent, and a legal resident of North Carolina. Further, if it is a child who seeks to qualify, the child must be a dependent (as defined by tax dependency laws). Finally, if the person qualifies for this benefit, there is no limit on the number or type of courses for which the classification will apply.

Please consult the Manual to learn more about the benefit. Application information may be obtained by visiting the Office of the University Registrar’s Web site.

**Tuition Waiver for Family Members of Deceased or Disabled Emergency Workers**

The information in this section comes from three sources:

1. North Carolina General Statutes, Section 115B-1 et seq.;
2. University of North Carolina Administrative Memorandum No. 377, dated November 17, 1997; and

Certain family members of emergency workers killed or permanently disabled in the line of duty may become eligible for tuition-free enrollment. The statute sets out the following requirements that must be met before the waiver can be obtained:

- The deceased or disabled emergency worker (firefighter, volunteer firefighter, law enforcement officer, or rescue squad member) must have been a North Carolina legal resident (domiciliary), in active service or training for active service at the time of death or disability occurring in the line of duty;
- The emergency worker’s death or disability must have occurred on or after October 1, 1997;
- The emergency worker must have been employed by the State of North Carolina or any of its departments, agencies, or institutions, or a county, city, town, or other political subdivision of the State of North Carolina;
- The applicant for the tuition waiver must be either a child or a widow or widower (who has not remarried) of a deceased emergency worker killed in the line of duty, or a spouse or a child (between the ages of 17 and 23; but not yet 24) of an emergency worker who became permanently and totally disabled as a result of a traumatic injury sustained in the line of duty as an emergency worker;
- The applicant must qualify academically for admission to UNC–Chapel Hill, must meet all the requirements of the statute and implementing University regulations, and there must be space available in the course(s) for which he or she intends to register;
- The completed application, with all supporting documents, must be submitted to the proper admissions office no later than the first day of class of the term for which the waiver is sought. If the applicant is under 18 years of age, a parent must also sign; and
- The time period for pursuing a baccalaureate degree is up to 54 months.

The following documents are required as proof of eligibility for this tuition waiver:

**To prove permanent and total disability of an emergency worker:**

- Documentation of the permanent and total disability from the North Carolina Industrial Commission

**To prove cause of death of an emergency worker:**

- Certification of the cause of death from the Department of State Treasurer; or
- The appropriate city or county law enforcement agency that employed the deceased; or
- The administrative agency for the fire department or fire protection district funded under the Department of State Auditor; or
- The administrative agency having jurisdiction over any paid firefighters of all counties and cities

**To prove the parent/child relationship:**

- Applicant’s birth certificate or legal adoption papers

**To prove the marital relationship:**

- Applicant’s marriage certificate

The Manual is available online.

Appeals of eligibility determinations of admissions offices must be in writing and signed by the applicant and must be filed by the applicant with that admissions officer within 15 working days after the applicant receives notice of the eligibility determination. The appeal is submitted to the Residence Appeals Board by that officer. The applicant is notified of the date set for consideration of the appeal, and, on request by the applicant, is afforded an opportunity to appear and be heard by the Board.

Any applicant desiring to appeal a determination of the Residence Appeals Board must give written notice of that fact to the chair of the Residence Status Committee within 10 days of receipt of the committee’s decision. The chair will promptly process the appeal for transmittal to the State Residence Committee.

**Out-of-State Disclosures for Distance Education Programs**

**Disclosure for Indiana Residents Enrolled in UNC–Chapel Hill Distance Education Programs**

The University of North Carolina at Chapel Hill is authorized by The Indiana Board for Proprietary Education, 101 W. Ohio St., Suite 670, Indianapolis, IN 46204.

**Disclosure for Louisiana Residents Enrolled in UNC–Chapel Hill Distance Education Programs**

The University of North Carolina at Chapel Hill is currently licensed by the Board of Regents of the State of Louisiana. Licenses are renewed by the State Board of Regents every two years. Licensed institutions have met minimal operational standards set forth by the state, but licensure does not constitute accreditation, guarantee the transferability of credit, nor signify that programs are certifiable by any professional agency or organization.

**Disclosure for Minnesota Residents Enrolled in UNC–Chapel Hill Distance Education Programs**

The University of North Carolina at Chapel Hill is registered as a private institution with the Minnesota Office of Higher Education pursuant to sections 136A.61 and 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.
Disclosure for Washington Residents Enrolled in UNC–Chapel Hill Distance Education Programs

The University of North Carolina at Chapel Hill is authorized by the Washington Student Achievement Council and meets the requirements and minimum educational standards established for degree-granting institutions under the Degree-Granting Institutions Act. This authorization is subject to periodic review and authorizes The University of North Carolina at Chapel Hill to advertise, recruit, and offer field placements for specific degree programs. The council may be contacted for a list of currently authorized programs. Authorization by the Council does not carry with it an endorsement by the Council of the institution or its programs. Any person desiring information about the requirements of the act or the applicability of those requirements to the institution may contact the Council at P.O. Box 43430, Olympia, WA 98504-3430.

Family Educational Rights and Privacy Act

As a general rule, under the federal Family Educational Rights and Privacy Act (“FERPA”), personally identifiable information may not be released from a student’s education records without the student’s prior written consent. Exceptions to this rule are set out in the FERPA regulations and the FERPA policy (https://unc.policystat.com/policy/4852661/latest) of The University of North Carolina at Chapel Hill. A few of the exceptions are listed below; the others may be found in the University’s FERPA policy and accompanying federal regulations. See also the Office of the University Registrar’s Web site (http://registrar.unc.edu/academic-services/uncferpa).

The University may disclose personally identifiable information from a student’s education records to officials of another institution (a) in which the student seeks or intends to enroll; (b) in which a currently enrolled UNC–Chapel Hill student is contemporaneously enrolled; and (c) in which a former UNC–Chapel Hill student is already enrolled; provided, however, the disclosures are for purposes related to the student’s enrollment or transfer. It is the policy of The University of North Carolina at Chapel Hill to forward education records upon request to officials of other institutions in these situations without notifying the student of such transfer of records.

The University may disclose, upon request, to the victim of an alleged crime of violence or a nonforcible sex offense, the final results of the campus disciplinary proceeding against the alleged perpetrator, regardless of whether the alleged perpetrator was found to have committed the violation charged. In such circumstance, the following information may be disclosed: the name of the alleged perpetrator; the rule or policy that was violated; any essential findings supporting the conclusion that the violation was committed; and the disciplinary sanction imposed, if any; and the duration of any sanction.

The University may release personally identifiable information from a student’s education records to school officials who have a legitimate educational interest in the information. The term “school official” includes, but is not limited to: (a) members of the Board of Trustees, administrators, faculty members, and staff members (including employees of the University Police) of UNC–Chapel Hill or of the System Office of The University of North Carolina System; (b) members of the North Carolina Attorney General’s Office; (c) students when functioning in an official University capacity (for example and without limitation, the Honor System); and (d) independent contractors to whom the University has outsourced institutional services or functions (for example, and without limitation, the National Student Clearinghouse, Sakai, entities providing practical or clinical training for students, and other similar or dissimilar contractors). Disclosures may only be made to these individuals and entities if they have a “legitimate educational interest” in the information. They are deemed to have a “legitimate educational interest” in the information if it is necessary for them to obtain the information in order to carry out their assigned duties or their contractual obligations to the University.

The University makes public certain information that has been designated as “directory information” unless the student has notified the Office of the University Registrar to restrict the release of this information. The University considers the following to be “directory information”: the student’s name; address (local and grade/billing addresses); student email address; telephone listing (local and grade/billing telephone numbers); date and place of birth; county, state, and/or United States territory from which the student entered the University; major field of study; class (e.g., sophomore, senior, etc.); enrollment status (full-time, half-time or part-time, withdrawal); Person ID Number (PID); anticipated graduation date; participation in officially recognized activities and sports; weight and height (for members of athletic teams only); dates of attendance; degrees and awards received; and the most recent previous educational agency or institution attended by the student. The University also maintains an online directory that includes faculty, staff and students. Some professional and graduate student groups publish directories of students in their departments or schools.

Students who do not want any of their directory information to be made public must come in person to the Office of the University Registrar (Suite 3100, SASB North) and fill out a Requesting FERPA Privacy Flag on Student’s Record, Non-Disclosure of Information form. Students completing this form will receive information about the consequences of placing a FERPA privacy flag on their records. Students who are not within commuting distance of the campus may contact the Office of the University Registrar for further instructions. Students may also email FERPA (http://ferpa@unc.edu).

Students who choose this option will not be able to receive any information about their education records by telephone. Instead, they must come in person and show a photo ID, or send a written request acknowledging that they have placed a restriction on their record but require specific information.

Once set, a FERPA privacy flag will remain on a student’s record until the student removes it. To remove a FERPA privacy flag, the student must come in person to the registration area of the Office of the University Registrar (Suite 3100, SASB North) and fill out a FERPA Release Authorization: To Remove Previously Set Restrictions on Release of Information form. Students who are not within commuting distance of the campus may contact the Office of the University Registrar for further instructions.

Students who wish to block certain information from the directory but do not wish to place a FERPA privacy flag on their records may do this through their ConnectCarolina Student Center (https://connectcarolina.unc.edu) by selecting the Update Personal Information link, located on the left in the Self Service menu. Checking the “Public” box next to an address or phone number causes that item to be included in the directory. Removing the checkmark from the “Public” box causes the item not to be included in the directory. Students who have questions about restricting information from the directory may contact the Office of the University Registrar.
In order to assure that new students have a meaningful opportunity to request that their directory information not be made public, it is the policy of the University that it will not release directory information on entering students until after the last day for late registration for the fall semester.

FERPA also gives students the right to inspect their own education records and to request amendment of those records if they are inaccurate, misleading, or otherwise in violation of the student's privacy rights. To inspect their own education records, students must file a written request with the office or individual who has custody of the records that the student wishes to inspect. To request an amendment of FERPA records, a student may discuss the matter informally with the records custodian and request that the record be amended, and if the custodian does not agree to amend the records, the custodian will inform the student of applicable hearing rights. Complaints alleging violations by the University of the provisions of FERPA may be submitted in writing to the Family Policy Compliance Office, United States Department of Education.
TRANSCRIPTS

Transcripts of Record
A statement of official academic record includes all significant recorded information concerning the student’s admission, classification, and scholarship. No partial or incomplete scholastic record will be given.

The student’s transcript notes his or her academic eligibility status. A statement of honorable dismissal will not be granted to students whose conduct and character would not entitle them to remain enrolled at the University or whose transcripts contain a notation of any probation, suspension, or other temporary restriction imposed for unsatisfactory conduct and still in force when the statement is made.

The University does not release an official transcript unless tuition, fees, and other obligations due the University have been paid. Students may order a transcript electronically through the link in their ConnectCarolina Student Center. This process provides an electronic authorization that allows the Office of the University Registrar to release the transcript at the student’s request. Students may inspect their academic records at the Office of the University Registrar, Student and Academic Services Building North. For more information on how to request a transcript, please visit the Office of the University Registrar’s Web site (http://registrar.unc.edu/academic-services/transcripts-certifications/order-a-transcript).

Policy on Awarding of Undergraduate Degrees and Transcript Notations
The University of North Carolina at Chapel Hill will award only one bachelor’s degree to a student, regardless of a possible second-major declaration, and will not admit or award a degree to a student who has already earned a bachelor’s degree through another school of the University or at another college. Undergraduates in the professional schools in the Divisions of Academic Affairs and Health Affairs may earn a second major (not a second degree) in the College of Arts and Sciences or another professional school, but the first major must be in the professional school. Exception: a student may earn a second bachelor’s degree in one of several health profession schools of the University after receiving a bachelor’s degree if the student is admitted to the professional school.

Students pursuing two major fields of study for the bachelor of arts or bachelor of science degree earn only one degree and receive only one diploma. Both the diploma and the official transcript will indicate the degree and the two majors.

Students completing the requirements for both a bachelor of science degree and a bachelor of arts degree earn only the bachelor of science degree and receive only that diploma. Students completing the requirements for both a bachelor of arts degree and a bachelor of fine arts or bachelor of music degree earn only the bachelor of fine arts or bachelor of music degree and receive only that diploma. Note that these students must complete General Education requirements pertinent to the bachelor of arts as well as all requirements for the bachelor of fine arts or bachelor of music degree. Both the diploma and the official transcript will indicate the degree (with its major) and the second major.

Related Policies
Under no circumstances can a second undergraduate degree be awarded in Academic Affairs after one has been earned in Health Affairs. In the rare instance that an undergraduate student completes the requirements for an undergraduate degree and a graduate degree at the same time, the two degrees cannot be awarded at the same graduation. The undergraduate degree must be awarded first, and the graduate degree awarded at a subsequent degree award date.

Students who apply to graduate on a given degree award date, but who must complete requirements (such as courses with grades of IN or AB) after that degree award date, must reapply to graduate on a degree award date that follows the actual completion of requirements. Coursework taken after the degree award date cannot be used to change a degree already awarded, or to complete retroactively a degree, or to add retroactively an additional major or minor.

Adjustments may be made to a transcript only for one year following the date of graduation. Grade appeals, for instance, can be initiated after graduation. Courses with temporary grades not affecting graduation (AB or IN) can be completed after the date of graduation and the grade point average changed accordingly; however, the student’s status at the time of graduation is not affected. Graduation with distinction or highest distinction is based only on the grade point average at the time that the degree is officially conferred and posted on the academic transcript, and may not be awarded retroactively. Students who neglect to declare a second major or a minor at the time of graduation may request that the dean’s office verify that the requirements had been satisfied at the time of graduation. In such cases, indication of the second major or minor can be added to the transcript within one year after the graduation date.

Loan Deferments and Certification/Verification of Enrollment Status
The Office of the University Registrar provides confirmation of student enrollment data to financial institutions, organizations, or agencies requiring proof of registration. Students can order an enrollment certification online through their ConnectCarolina Student Center. Additional information about ordering a certification (http://registrar.unc.edu/academic-services/transcripts-certifications/enrollment-certification) is available online or by calling (919) 962-3954.
TUITION AND FINANCIAL AID

Student Finances

Billing Policies
Charges for tuition and fees, on-campus housing, and meals are assessed on a semester basis. Billing statements will only be available online through the ConnectCarolina Student Center. Students are responsible for accessing their statements online and insuring they are paid on time.

Any past due charges will result in a hold on registration and transcripts. Students must pay past due balances from prior terms before they will be allowed to register for future semesters. Students registering after the first tuition bill of the semester must either prepay tuition and fees or provide documented eligibility of financial aid to the Office of the University Cashier.

Students who are receiving financial aid are eligible to request a student aid deferment to extend their payment due date until after the initial financial aid disbursement of the semester. Deferments (https://cashier.unc.edu/forms) can only be requested in ConnectCarolina by the student before the due date on the first bill of each semester.

It is extremely important for students to refer to the Office of the University Cashier Web site (http://cashier.unc.edu) prior to each term for announcements and up-to-date information, and to follow instructions concerning payment/deferment due dates to avoid registration cancellation.

Tuition and Fees
Tuition and fees (http://cashier.unc.edu/tuition-fees) for each academic year, including detailed information about the mandatory student fees, (http://cashier.unc.edu/tuition-fees/student-fees) are published on the Office of the University Cashier Web site. Additional fees such as incoming student, special laboratory, and other designated program and course fees also may be charged.

A late registration fee of $20 is charged for registration on or after the first day of class for a term.

Authorized Users
Federal law (FERPA (http://registrar.unc.edu/academic-services/uncferpa/#details-0-0)) restricts access to student information.

Students can designate up to five people as authorized users (http://cashier.unc.edu/student-account-policies/authorized-users) to access their student account information, pay bills, and discuss the account with the Office of the University Cashier. Students and authorized users will receive a courtesy email notification each month when billing statements are available.

Payment Options
Payments can be made in person at the Office of the University Cashier, through the mail, or by check or credit card online. For up-to-date information on payment options, please visit the payments section (http://cashier.unc.edu/payment-options) of our Web site. Our returned check fee is $25.

Each student is responsible for payment of his or her University charges. If a third party sponsor will be paying the charges, the Office of the University Cashier must receive a written authorization from the third party well in advance so that a separate invoice can be sent to the proper agency or organization in order to ensure timely payment.

Financial Aid Refunds
The Office of the University Cashier encourages students who are receiving financial aid in excess of tuition, fees, housing, and meal plan costs to sign up for direct deposit (http://cashier.unc.edu/student-account-policies/refunds) as soon as possible. Excess funds from the account will be deposited to either a checking or savings account at the student’s bank. Students should also promptly update their direct deposit information if there are any changes to their banking information.

Please note that it can take up to seven working days to generate a paper check for those students who are receiving a financial aid refund and have not signed up for direct deposit.

Drop/Withdrawal Policies for Tuition and Fees
The last day to reduce a course load for credit on a student's financial account is the tenth day of the semester, commonly referred to as the “census date.” Dropping the only course a student is registered for requires an official withdrawal.

In case of withdrawal from the University, tuition and fees will be prorated according to the withdrawal refund calendar posted on the Important Dates (http://cashier.unc.edu/tuition-fees/important-dates) section of our Web site for that semester. The last day for credit on a student’s financial account for withdrawal is nine weeks after the first day of classes for the fall and spring semesters. If a student drops the only course he or she is taking, this constitutes a withdrawal from the University.

Fifty Percent Tuition Surcharge
Effective Fall 2010, undergraduate students seeking a baccalaureate degree at UNC-Chapel Hill are subject to a 50 percent tuition surcharge as required by the North Carolina General Statute Section 9.10.(b) §116-143.7. Session Law 2009-451. Further information about the Tuition Surcharge Policy can be found on the Web site for the Office of the University Registrar (https://registrar.unc.edu/academic-services/policies-procedures/student-rights/tuition-surcharge).

Tuition Guarantee Program
Under a North Carolina state law effective Fall 2016, students classified as North Carolina residents for tuition purposes in undergraduate degree programs at UNC system schools are eligible for fixed (or guaranteed) tuition for up to eight consecutive semesters (or ten semesters, if enrolled in an approved five-year program). Further information about the Tuition Guarantee Program can be found on the Web site for the Office of the University Registrar (https://registrar.unc.edu/academic-services/policies-procedures/student-rights/guaranteed-tuition).

Scholarships and Financial Aid
For Undergraduates
The University works to keep Carolina is affordable for all students. Scholarships, grants, loans, and work-study funds are offered to help eligible students who cannot afford the full cost of attendance.

Detailed information on scholarships and student aid can be found at the Office of Scholarships and Student Aid (http://studentaid.unc.edu). Students and parents are also welcome to email aidinfo@unc.edu. We are here to help!
Applying for Financial Aid

The deadline for financial aid applications is March 1. Late applications are accepted, but earlier is better.

To apply for financial aid:

1. Complete the Free Application for Federal Student Aid (FAFSA) (http://fafsa.ed.gov) UNC school code 002974
2. Complete the CSS Profile (http://student.collegeboard.org/profile) (new students only, for University grants and scholarships) UNC school code 5816
3. Monitor UNC email and regularly check ConnectCarolina (http://connectcarolina.unc.edu) for updates.

If we need more information, we will notify you by email. The sooner you complete the application process, the more likely funding is available.

Aid is an annual process, so returning students should complete the FAFSA each year. The application is available by October 1 of the prior year.

Priority Deadline
Complete the FAFSA (http://fafsa.ed.gov) and CSS PROFILE (http://student.collegeboard.org/profile) by March 1 each year. Late forms are accepted, but some sources of aid may be limited for later applicants.

Students should apply as early as possible, even before admission to Carolina in the case of new students. Reapply by March 1 each year.

Award Decisions
Financial aid offers generally begin in February, after admissions decisions are released. Students who apply after March 1 are notified as soon as we are able.

Types of Need-Based Financial Aid
Scholarships, grants, and work-study do not have to be repaid; loans require repayment. Aid awards will include as much scholarship and grant aid as possible, with remaining need met through loans, a work-study job, or both. Graduate and professional students will receive loans and/or work to meet any eligibility remaining after awards from schools or departments.

Students always have the opportunity to reduce or decline loans before accepting an aid offer, so budget carefully before borrowing. See our budgeting and borrowing guide (https://studentaid.unc.edu/types-of-aid/loans/budgeting) for details.

Eligibility for Need-Based Financial Aid
To be eligible for financial aid, a student must be enrolled and making satisfactory academic progress in a degree or eligible certificate program. Information about the Satisfactory Academic Progress Policy can be found at studentaid.unc.edu/sap. Once all requirements of a degree are met, students may no longer receive financial aid.

Aid is restricted if a student is in default on a loan previously received for college expenses or owes a refund on a grant or loan from an earlier enrollment period. Both resident and nonresident students are eligible for financial aid, though different University policies may apply.

The Carolina Covenant
Covenant Scholars have the opportunity to graduate debt-free through a combination of scholarships, grants, and work-study. Covenant Scholars also have access to faculty and staff mentors, enrichment activities, and other personal support services.

The Carolina Covenant is offered to eligible undergraduates who have a family income at or below 200 percent of the federal poverty level and limited assets. No special application is necessary; eligible students will be notified after applying for financial aid. Details are on the Carolina Covenant site (http://carolinacovenant.unc.edu).

Federal Aid Programs
Rules for federal student aid are set by Congress. Eligibility is set by a federal formula that examines the income and assets of the student and family, household size, the number of people in college, taxes paid, and other factors. Scholarships and awards from private sources are also factored into the eligibility formula.

The Federal Pell Grant Program provides assistance to undergraduate students with demonstrated financial need. A Pell Grant will automatically be included as part of an eligible student’s financial aid package.

More detailed information is available at the Federal Student Aid site (https://studentaid.ed.gov/sa).

University Scholarships and Grants
Undergraduate students are considered for UNC-funded scholarships and grants, which do not have to be repaid, based on a detailed analysis of family financial circumstances. This may include home equity, other income, and family assets that may not have been considered in the calculation of federal aid. Institutional scholarship and grant funds are often combined with federal aid to provide a total package of financial aid.

The University also offers scholarship funding to enroll certain students with exceptional financial need who are likely to contribute to the intellectual experience and diversity of the undergraduate student body, as well as funds to assist eligible students who are residents of North Carolina and members of an Indian tribe recognized by the state or the federal government. No separate application is required; students will be considered based on their aid application and UNC admissions application.

Merit Scholarships
Each year, the University offers a limited number of merit scholarships to entering first-year students. These highly competitive programs recognize academic achievement, leadership, commitment to service, and potential for success at the University. Some of these awards consider a combination of financial need and academic merit.

Because Carolina is a highly selective university, competition for merit scholarships is strong. Very few merit scholarships are awarded each year.

There is no separate application for UNC merit scholarships. Selection is based on the information provided in a student’s admission application. Merit scholarship finalists will be notified in early February (for early admissions applicants) and late March (for regular deadline applicants).

The Morehead-Cain (http://moreheadcain.org) and the Robertson Scholars (http://robertsonscholars.org) programs are administered by private foundations and do require separate applications. Visit their Web sites for details.
More information about the University’s merit scholarships — including the Johnston, Pogue, Carolina, and Colonel Robinson programs — can be found at the Scholars Program site (http://scholarsprogram.unc.edu).

**Work-Study Employment**
A limited number of work-study jobs are available to help students earn a portion of their University expenses. Most of these jobs are on campus, with a small number in community service agencies. Undergraduate work-study jobs require an average of 10 to 12 hours per week, with wages that depend on the job.

Graduate students may be assigned work-study assistantships, with teaching and research responsibilities in their departments or schools. Eligible students can apply for a variety of work-study jobs to match their skills and interests. There is no separate application for undergraduate students; simply apply for financial aid by March 1.

**Need-Based Loans**
The University administers a number of student loan programs, both federal and institutional, which provide low-interest, long-term loans to undergraduate, graduate, and professional students who are eligible for aid. Most financial aid to undergraduate students includes loan offers, and the majority of aid to graduate and professional students is in the form of loans. Repayment of most loans begins six months after the student ceases to be enrolled at least half time.

After a student applies for aid, the Office of Scholarships and Student Aid determines which type of loan is most appropriate based on student need and available funds. More information on loan programs can be found at the Office of Scholarships and Student Aid site (http://studentaid.unc.edu/types-of-aid/loans).

Students always have the opportunity to reduce or decline loans when accepting a financial aid offer, so budget carefully (http://studentaid.unc.edu/budgeting) before borrowing. Contact aidinfo@unc.edu with any questions.

**Non-Need-Based Loans**
Students not eligible for need-based aid, or who require funds beyond available need-based aid, may apply for unsubsidized federal loans. Unlike need-based loans, these programs have higher interest rates, and interest is generally not deferred. Visit the Office of Scholarships and Student Aid loan site (https://studentaid.unc.edu/types-of-aid/loans/budgeting) for information about applying.

Federal Direct Unsubsidized Loans are available upon request, subject to borrowing limits. Overall loan limits and information about interest rates can be found through the Federal student aid website (https://studentaid.ed.gov/sa/types/loans/subsidized-unsubsidized/#how-much).

Parents of undergraduate students who do not receive need-based aid, or who need additional assistance, may apply for Federal Direct Parent PLUS Loans. More information about Parent PLUS Loans is available on the Federal Student Aid Web site (https://studentloans.gov/myDirectLoan/index.action).

**Laptop Grants**
All Carolina students are required to have a laptop computer. The University offers grants — in the form of a credit at Student Stores, which sells a variety of laptops — to cover the cost for qualifying first-year students who apply for financial aid.

You are welcome to combine the grant with your own money to purchase a more expensive laptop. But if you leave Carolina without completing a degree, the University keeps the computer.

**Questions and Assistance**
Financial aid counselors are eager to help. Visit the Office of Scholarships and Student Aid or email aidinfo@unc.edu to get in touch.

**For Graduate Students**
The Graduate School offers a variety of funding opportunities to assist graduate students. The Graduate School provides information and support to students applying for external fellowships, as well as providing fellowships and other direct financial support to graduate students, which supplements what the individual school or department provides. For updated information, please see The Graduate School’s funding resources Web site (http://gradschool.unc.edu/funding).

Graduate Tuition Incentive Scholarship (http://gradschool.unc.edu/funding/gradschool/gtis.html): Helps cover the remaining cost of in-state tuition for graduate students who are receiving external funding awards in support of their thesis or dissertation research

Graduate Student Opportunity Fund (http://gradschool.unc.edu/funding/gradschool/opportunityfund.html): Assists students with small, nonrecurring, unusual and unexpected academic expenses

Graduate Student Transportation Grant (http://gradschool.unc.edu/funding/gradschool/transportationgrant.html): Assists students with some of the transportation costs necessary for travel to a regional, national, or international academic conference or professional society meeting to present their dissertation research

The Graduate Funding Information Center (http://gradfunding.web.unc.edu) is a resource for graduate students seeking information on funding sources for independent research, collaborative projects, fellowships, program development, and other scholarly activities.

You are welcome to contact the Fellowships Office at gradfunding@unc.edu.

To receive alerts when funding opportunities are posted, subscribe to The Graduate School funding listserv (http://gradfunding.web.unc.edu).

**Departmental Awards**

**Teaching and Research Assistantships**
The majority of assistantships available to graduate students are awarded by academic schools and departments. Approximately 2,500 graduate, research, and teaching assistantships are available through specific departments. Graduate assistantships are also available through the University’s various research institutes and centers. Stipends, responsibilities, selection criteria, and application and notification procedures vary from department to department. Applicants should discuss with the program to which they are applying the specific funding opportunities available to graduate students.

**Federal/State Fellowships and Traineeships**
A number of state and federally funded fellowships and traineeships are also available in some departments. Students must be pursuing graduate training in specified fields of study to be eligible for these awards. Interested students should request additional information from their academic departments.
**Application Deadline**
Prospective graduate students may indicate when applying for admission their interest in an assistantship and should discuss application deadlines with their prospective departments.

If you have questions about departmental awards, please contact the department to which you are applying (https://gradschool.unc.edu/academics/degreeprograms).

**Financial Aid Regulations**
To be eligible for financial aid programs administered by the Office of Scholarships and Student Aid (http://studentaid.unc.edu), a student must be enrolled in a degree program on at least a half-time basis, a United States citizen or permanent resident, making satisfactory progress toward completion of the academic program, and, if applicable, registered for Selective Service. The student may not be in default on a loan previously received for college expenses nor owe a refund on a scholarship, grant, or loan from a previous enrollment period.

Graduate students who wish to apply for financial aid to meet the costs of attending the University must complete the Free Application for Federal Student Aid (FAFSA). The application should be completed online (http://www.fafsa.ed.gov). However, a paper application may be obtained from high schools, most college financial aid offices, or in person at the Office of Scholarships and Student Aid. In completing the FAFSA, the student must list UNC–Chapel Hill (code number 002974) as one of the schools to receive the FAFSA information. The information on the FAFSA will be analyzed by an agency contracted by the federal government. The agency will send information and an analysis of the student’s eligibility for financial aid funds to both the student and to the Office of Scholarships and Student Aid.

A student should not wait for admission to a graduate program before applying for aid. An applicant should submit the FAFSA by March 1. If additional documentation is needed to complete a student’s application for financial assistance, the Office of Scholarships and Student Aid will notify the student. A student who completes the file promptly can expect to receive notice of an award decision early in June.
