Summer Montgomery, Assistant for Undergraduate Services
sundance@unc.edu

Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem. The major in biology provides a broad education directed toward an appreciation of the complexity of nature and prepares students for careers in the biological, environmental, and medical sciences. This program is designed to provide greater flexibility than the B.S. degree in meeting broad student interests.

Department Programs

Majors

• Biology Major, B.S. (http://catalog.unc.edu/undergraduate/programs-study/biology-major-bs)
• Biology Major, B.S.–Quantitative Biology Track (http://catalog.unc.edu/undergraduate/programs-study/biology-major-bs-quantitative-biology-track)
• Biology Major, B.A. (p. 1)

Minor

• Biology Minor (http://catalog.unc.edu/undergraduate/programs-study/biology-minor)

Graduate Programs

• M.A. in Biology (http://catalog.unc.edu/graduate/schools-departments/biology)
• M.S. in Biology (http://catalog.unc.edu/graduate/schools-departments/biology)
• Ph.D. in Biology (http://catalog.unc.edu/graduate/schools-departments/biology)

Student Learning Outcomes

Upon completion of the biology (B.A., B.S.) program, students should be able to:

• Knowledge Base: Demonstrate knowledge of major concepts, theoretical perspectives, empirical findings, and historical trends in the broad field of Biology
• Research Methods: Apply basic research methods in the biological sciences, including research design, data analysis, and data interpretation
• Critical Thinking Skills: Demonstrate the use of critical and creative thinking skills in upper-level biology courses and in their approach to undergraduate research
• Application of Knowledge, Research Methods, and Critical Thinking: Apply knowledge of the field of biology, research skills, and critical thinking skills to undertake a course-based, field, or laboratory research project

Requirements

In addition to the program requirements, students must

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (http://catalog.unc.edu/undergraduate/general-education-curriculum-degree-requirements/#degreerequirementstext).

Core Requirements

Core Courses:

| BIOL 201 | Ecology and Evolution H | 4     |
| BIOL 202 | Molecular Biology and Genetics H | 4     |
| BIOL 205 | Cellular and Developmental Biology 2, H | 4     |

One organismal structure and diversity course chosen from:

| BIOL 271 & 271L | Plant Biology and Plant Biology Laboratory | 4     |
| BIOL 272 | Local Flora | 4     |
| BIOL 273 | Horticulture | 4     |
| BIOL 274 & 274L | Plant Diversity and Plant Diversity Laboratory | 4     |
| BIOL 277 & 277L | Vertebrate Field Zoology and Vertebrate Field Zoology Laboratory | 4     |
| BIOL 278 & 278L | Animal Behavior and Animal Behavior Laboratory | 4     |
| BIOL 279 & 279L | Seminar in Organismal Biology and Topics in Organismal Biology Laboratory | 4     |
| BIOL 471 & 471L | Evolutionary Mechanisms and Evolutionary Mechanisms Laboratory | 4     |
| BIOL 472 | Introduction to Plant Taxonomy | 4     |
| BIOL 474 & 474L | Evolution of Vertebrate Life and Vertebrate Structure and Evolution Laboratory H | 4     |
Biology Major, B.A.

Allied Science Electives

All allied science elective courses need to have a minimum of three credit hours.

<table>

</tbody>
</table>

Four additional allied science electives chosen from the course list below.

Students must fulfill all General Education requirements, including Supplemental General Education (http://catalog.unc.edu/undergraduate/general-education-curriculum-degree-requirements), and enough electives to complete 120 hours required for graduation.

Total Hours 120

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

1 With a C grade or better in BIOL 101
2 Minimum of C- in BIOL 202 required for enrollment
3 At least one course out of the four courses (three electives and one organismal course) must be numbered above 400 (not including BIOL 501 and BIOL 692H).
4 A total of six hours from BIOL 295 (inactivated fall 2017), BIOL 395, and/or BIOL 692H count as a laboratory course requirement. One additional elective may consist of a total of three hours of courses numbered above 600 (not including BIOL 692H).
5 A grade of C or better in CHEM 101 or CHEM 102 is required for BIOL 201 and BIOL 202.

PSYC 220 Biopsychology 3
PSYC 222 Learning 3
PSYC 225 Psychology of Sensation and Perception 3
PSYC 230 Cognitive Psychology 3
PSYC 240 Conditioning and Learning 3
Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Sophomore Year

Two of the three biology core courses;
- BIOL 201 Ecology and Evolution
- BIOL 202 Molecular Biology and Genetics
- BIOL 205 Cellular and Developmental Biology

Natural sciences electives (two courses) 6
Approaches (http://catalog.unc.edu/undergraduate/general-education-curriculum-degree-requirements) and Connections (http://catalog.unc.edu/undergraduate/general-education-curriculum-degree-requirements) (four courses) 12
Elective 3
Hours 29

Junior Year

Remaining biology core course 4
Organismal biology course 4
Biology electives (two courses) 7

Special Opportunities in Biology

Students are encouraged to speak with their advisor about opportunities to serve as peer advisors in the Health Professions Advising Office, or to join Tri-Beta, the National Biological Sciences Honor Society.

Honors in Biology

Candidates for honors or highest honors must secure approval from the departmental honors advisor. They must have three hours of BIOL 395, take BIOL 692H, and maintain a grade point average of 3.3, both overall and in biology courses (exclusive of BIOL 692H and including only one semester of BIOL 395), calculated at the end of the semester preceding the semester in which they graduate. Other requirements are detailed on the department Web site (http://bio.unc.edu/undergraduate/honors-info).

Experiential Education

After completing BIOL 201 or BIOL 202, students are encouraged to consider how they plan to meet the experiential education requirement. BIOL 293 and BIOL 395 fulfill this requirement and also connect students' academic coursework to current biological research and inquiry.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate science majors interested in teaching high school science the opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years. UNC–BEST students meet all the degree requirements for their biology degree using BIOL 410 as one of their upper-level biology courses.

Total Hours  26

For more details on admission requirements, application deadlines, and submitting an online application, visit the program’s Web site (http://soe.unc.edu/academics/uncbest) or catalog description (http://catalog.unc.edu/undergraduate/schools-college/education/#licensuretext).

Laboratory Teaching Apprenticeships and Assistantships

Opportunities exist for assisting graduate instructors (and for instruction in undergraduate laboratories). Interested students should contact the instructor of the course or obtain approval from either the departmental director of undergraduate studies or the department chair.

Undergraduate Awards

All awards include a personal plaque, a monetary gift, and a place on Coker Hall’s list of department honorees. The awards include

- The Stephen G. Brantley Award in honor of Henry Van Peters Wilson, given annually to a senior biology major for excellence in research in molecular and cellular biology.
- The Robert Ervin Coker Award, given annually to a senior biology major for excellence in research in organismal biology and ecology.
- The John N. Couch Award, given annually to a senior biology major with interests in plant biology who has demonstrated the highest ideals of scholarship and research.
- The Irvine R. Hagadorn Award, given annually to the junior biology major based on academic and research excellence. This award is also recognized by the UNC–Chapel Hill chancellor at the Annual Chancellor’s Awards Ceremony.
- The Francis J. LeClair Award, given annually to a senior biology major for academic excellence in biology with an emphasis in plant sciences.

Undergraduate Research

An undergraduate research experience is extremely valuable to a student who intends to pursue postgraduate work in the biological sciences. Undergraduates may participate directly in the research of faculty in the Department of Biology. This research opportunity allows students to put their knowledge of biology into practice through participation in a biological research program and is encouraged by faculty. Students’ participation in research can begin as early as their second year by registration in BIOL 395.

Undergraduates with a 2.0 grade point average or higher in biology courses are encouraged to enroll in BIOL 395. Information concerning the procedure for enrolling in a research course can be obtained from the chair of the department’s undergraduate honors research program. Additional information can be found on the department's Web site (http://bio.unc.edu/undergraduate/research).
