Introduction

The Kenan–Flagler undergraduate business program offers a program of study that provides students with a thorough grounding in all areas of business and a broad introduction to the liberal arts. The Kenan–Flagler undergraduate experience is distinctive because the school offers

- An undergraduate business experience that is ranked highly in the nation by *U.S. News & World Report* and *Bloomberg BusinessWeek*
- Career services professionals who help students identify career interests and a plan for pursuing them
- A liberal arts-oriented curriculum
- A global perspective relevant to the needs of business today
- Activities and organizations for an active student life
- Individual attention usually associated with smaller schools
- Multiple opportunities provided by a leading, large research university
- Faculty who are outstanding in and out of the classroom

Students choose business electives to develop a specific area of business interest. Courses selected from other UNC–Chapel Hill schools and programs add to their depth of knowledge. The result is that students are able to see “the big picture.” The school believes that completion of the undergraduate business program provides students with a distinct advantage in a highly selective and competitive job market.

Students may choose to complete a minor in business administration instead of a business major, or they may take a limited number of business administration courses as general electives for their chosen degree program.

The business administration program is considered a broad-based, general management degree, and the Kenan–Flagler Business School encourages breadth in both the business curriculum and in the continuation of study in fine arts, humanities, and natural and social sciences. A second major may be possible and requires advance approval by both the undergraduate business program and the second academic unit. In all cases, undergraduate business majors are encouraged to take upper-level courses during the third and fourth years.

Taking Business Courses as a Nonmajor/Nonminor

Undergraduate students who do not intend to major or minor in business administration may take a limited number of business courses (limits may change based on course availability) as free electives for their particular major. The maximum number of courses in any semester is two, regardless of credit hours, and over the course of a student’s academic career the limit is five courses, regardless of credit hours. Registration in business courses for nonmajors and nonminors is made on a space-available basis. Preference is given to students with an overall grade point average of 3.0. Requests for available seats are made online through the undergraduate business program Web site during the first week of each academic semester. Final approval to take a business course is at the discretion of the undergraduate business program. Due to the program specific nature of BUSI 412, nonmajors and minors may not request this course. Additionally, nonmajors and minors may enroll themselves in BUSI 500 and BUSI 520. These courses have a reserved number of seats for nonbusiness students. Requests for these courses will not be accepted through the request form available the first week of the academic semester. Refer to the course description list for additional information concerning prerequisites for specific courses.

Advising

Once admitted to the business **major**, all academic matters, including academic advising, are handled in McColl Building. Students are assigned a primary academic advisor as indicated in their Student Center in ConnectCarolina.

Students admitted to the business **minor** should continue to work with their major department for academic matters outside of business minor requirements.

All students should meet regularly with their advisor and monitor their progress toward completion of both the business major and minor requirements utilizing Tar Heel Tracker. Upon admission, business majors and minors receive information on how to schedule appointments through the undergraduate business program intranet.

Admission to the Kenan–Flagler Business School

Kenan–Flagler’s undergraduate business program is a small, select program with approximately 350 majors and 50 minors admitted each year. The program seeks candidates whose analytical and organizational abilities, written and oral communication skills, leadership potential, a global mindset, and motivation indicate strong potential for success. Admission is competitive and based on academic achievement, leadership, cocurricular activities and involvement, work experience, diversity of skills and interests, and focus and depth of thought as expressed in a personal statement, essays, and résumé.

Preparation for the Business Administration Major or Minor

A student admitted to the Kenan–Flagler Business School typically begins the undergraduate business program in the spring semester of the second year or fall semester of the third year. First- and second-year students in the General College who consider themselves prebusiness majors complete certain prerequisite courses as part of their General Education requirements. Preparation for the business major and minor

is the same, except that ECON 410 is not a prerequisite for the business minor.

A prebusiness track includes successful completion (defined as earning a final grade of at least a C, not C-) of the following courses (or their equivalents):

BUSI 101	Management Accounting	4
ECON 101	Introduction to Economics ^H	3
ECON 410	Intermediate Theory: Price and Distribution ^H	3
ENGL 105	English Composition and Rhetoric	3
The calculus mathematics requirement can be fulfilled by taking one of the following:		
MATH 152	Calculus for Business and Social Sciences	
MATH 231	Calculus of Functions of One Variable I	
MATH 232	Calculus of Functions of One Variable II	
STOR 113	Decision Models for Business and Economics	
STOR 155	Introduction to Data Models and Inference	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Students are encouraged to take ENGL 105, the calculus mathematics requirement, ECON 101, and one of the BUSI 101, ECON 410, or STOR 155 courses in their first year at UNC. If students wish to be considered for admission in the spring semester of the second year, they need to complete all requirements by the end of the first semester of the second year. To be considered for admission in the fall semester of the third year, all requirements should be completed by the end of the second year.

For the foundational skills in foreign language, the business school neither requires a particular language nor requires coursework beyond level 3. Please note, however, that some overseas study programs are language-based and may necessitate a student's proficiency beyond level 3. An emphasis in international business requires completion of a foreign language through level 4.

The business school makes no other specific recommendations about courses for other General Education requirements. The school encourages students to challenge themselves by exploring unfamiliar, new disciplines and by strengthening written and verbal communication and critical thinking. It is possible for a business major to earn a second major and a minor, or two minors. First- and second-year students may wish to build a foundation for such a complementary academic track.

Prebusiness Advising

First- and second-year students in the General College who consider themselves prebusiness majors are encouraged to seek prebusiness advising from the social and behavioral sciences division in the Academic Advising Program (Steele Building). The admissions staff from the Kenan–Flagler Business School conducts a series of small group advising sessions to address application specific questions in Hardin Hub and Steele Building.

Prospective and current applicants should also frequently check the school's Web site (<http://www.kenan-flagler.unc.edu/admissions/undergraduate-business/deadlines-events>) for dates of upcoming information sessions, workshops, or important deadlines.

Admission from the General College

Students interested in pursuing the business major can apply to begin the program in the spring of the second year or the fall of the third year. The undergraduate business admissions process can begin as early as the summer after the first year. All business prerequisites must be completed prior to beginning the program. Applicants with a minimum cumulative grade point average of 3.0 in all coursework and in business prerequisites are given priority consideration in the admissions process. While all of the factors mentioned above are considered in the admissions process, academic performance at UNC–Chapel Hill is a critical component.

Admission to the business minor follows the same application schedule and process as the business major. Admission is both selective and competitive with approximately 50 students admitted to the business minor. Students from any discipline **excluding Business Journalism and Quantitative Physics** may apply to the business minor during the fall semester of their second year or the fall semester of their third year. Applications for the minor are not accepted once a student has entered the fourth year.

The business administration major is a four- or five-semester program. Students are required to graduate from UNC–Chapel Hill in eight semesters. The business minor requires a minimum of two semesters, preferably three, to complete.

Transfer Admission

Transfer students are an integral and vibrant part of the Carolina community. They bring a diversity and experience to the institution that enhances the overall experience for all students, faculty members, and staff. In the Kenan–Flagler undergraduate business program, we understand that transferring is a complex process and have outlined below the policies and guidelines to help students make informed decisions and achieve as smooth a transition as possible.

Transfer students must first be admitted to UNC–Chapel Hill by the Office of Undergraduate Admissions prior to applying to the undergraduate business major or minor. Students must spend at least one semester (fall) in the College of Arts and Sciences before they are eligible to *start* at the business school. (Students apply early in their first semester at UNC–Chapel Hill.)

Transfer students who transfer more than 30 hours to UNC are eligible to take an additional ninth or 10th semester at the University. This is sometimes useful and necessary in order for transfer students to complete the business prerequisites and/or business degree.

Transfer students should know that admission to the business school is extremely competitive. We admit 50 percent of our applicants each year. Students should review the eligibility requirements and class profile at the undergraduate business admissions section of the Kenan–Flagler Web site. Students who are currently enrolled in business programs at other four-year institutions should think carefully about their decision to leave those programs.

Transfer Applicants:

1. Must complete all business school prerequisites before they are eligible to *start* in the undergraduate business program. All students are allowed to have one prerequisite outstanding in the semester prior to starting in the business program. However, admission priority is given to students with fewer prerequisites remaining at the time of application.

- Should submit a Transfer Equivalency Credit Review form, located on the Kenan–Flagler Web site, for business courses as soon as they accept the offer to attend UNC–Chapel Hill. A course syllabus must be submitted with this form. While most transfer equivalencies will be determined through the Office of Undergraduate Admissions, the business school makes all decisions on business course transfers. Students should allow up to three weeks for a decision.
- Should consider whether or not they are willing to take an additional ninth and/or 10th semester at UNC, if necessary.
- Could consider attending UNC Summer School to catch up on completing business school prerequisites. UNC Summer School provides transfer students with an excellent opportunity to acclimate to life in Chapel Hill, as well as the academic environment, by completing one or two courses before taking a full course load during the fall semester.
- Could consider the undergraduate business minor instead of the business major, if they are finding it difficult to complete all of the prerequisites for the major. Business minors receive all of the benefits that business majors do (alumni network, access to global program opportunities, and career development initiatives, etc.), are highly sought after by recruiters, and achieve the same employment placement rates as business majors.
