

CLINICAL LABORATORY SCIENCE, A.S.-B.S.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

Students who transfer to UNC under the Comprehensive Articulation Agreement (CAA) have all lower-level General Education requirements completed, but must complete these requirements through transfer or UNC coursework: Global Language, Research and Discovery, Lifetime Fitness, Communication Beyond Carolina, Campus Life Experience, and, where applicable, Supplemental General Education. Students who do not transfer in under the CAA should work closely with their advisor to determine which requirements apply to them for the IDEAs in Action General Education curriculum (<http://catalog.unc.edu/undergraduate/ideas-in-action/>).

This catalog also includes a complete list of requirements for the Clinical Laboratory Science B.S. degree (<http://catalog.unc.edu/undergraduate/programs-study/clinical-laboratory-science-major-bs/#requirementstext>).

⁷ The biology prerequisite for the major includes BIOL 101/BIOL 101L and one additional biology course. While BIOL 202 (BIO 250) is recommended, other biology courses can meet the prerequisite requirement. Biology courses that will transfer to UNC at the 200 level are recommended if the student does not take BIO 250. Course equivalencies can be searched on the admissions website (<https://admissions.unc.edu/transfer-credit/>).
