

# ENVIRONMENTAL HEALTH SCIENCES, A.S.-B.S.P.H.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

Students who transfer to UNC under the Comprehensive Articulation Agreement (CAA) have all lower-level General Education requirements completed, but must complete these requirements through transfer or UNC coursework: Global Language, Research and Discovery, Lifetime Fitness, Communication Beyond Carolina, Campus Life Experience, and, where applicable, Supplemental General Education. Students who do not transfer in under the CAA should work closely with their advisor to determine which requirements apply to them for the IDEAs in Action General Education curriculum (<http://catalog.unc.edu/undergraduate/ideas-in-action/>).

This catalog also includes a complete list of requirements for the Environmental Health Sciences B.S.P.H. degree (<http://catalog.unc.edu/undergraduate/programs-study/environmental-health-sciences-major-bsph/#requirementstext>).

<sup>1</sup> Required in the major.

<sup>2</sup> Counts in the major.

<sup>3</sup> Applicants to the major should have earned a grade of C or better from UNC–Chapel Hill in at least one course per group in three of the five prerequisite groups. Please reference the admissions information (<http://catalog.unc.edu/undergraduate/programs-study/environmental-health-sciences-major-bsph/#admissionstext>) for full details. These courses can count toward this admissions requirement and have been grouped by prerequisite groups. Please be aware that this means student may not be eligible to apply to the major until after Semester 5 at UNC–Chapel Hill unless they choose to take some or all of the three courses at UNC–Chapel Hill in the summer prior to semester 5. Students also have the option to take MATH 233 to meet the minimum of three courses with a grade of C or better from UNC–Chapel Hill, but this course is not required in the major.

<sup>4</sup> Information on concentration options can be found on the degree requirements (<http://catalog.unc.edu/undergraduate/programs-study/environmental-health-sciences-major-bsph/#requirementsstext>). All concentrations require two advanced (400-level or above) courses selected from the concentration list.

<sup>5</sup> Environmental Chemistry and Environmental Physics Concentrations both require courses in addition to the two advance ENVR electives. Full information on these concentrations' requirements can be found on the degree requirements (<http://catalog.unc.edu/undergraduate/programs-study/environmental-health-sciences-major-bsph/#requirementsstext>).

**Note:** All ENVR courses (except for research and practicum: ENVR 695, ENVR 691H, ENVR 692H, and ENVR 593) are offered only once a year, as are SPHG 351 and SPHG 352. Students should keep this in mind as they are planning their courses at UNC–Chapel Hill.
