N.C. Community College Transfer Articulation and Pathways

If you are currently attending a community college with plans to transfer to UNC, we have developed baccalaureate degree plans that can help you select your coursework at the community college. By following these degree plans, you will best be positioned to transfer smoothly to UNC and complete your desired major. Please note that these are recommendations only. We do not require or expect that all transfer students will have completed the courses listed on these pathway documents.

To review recommended pathways from academic years 2019 and later, please see the University Catalog archive (https://catalog.unc.edu/archives/).

2023–2024 Recommended Pathways
