The Public Health Leadership Program (PHLP) is home to Master’s of Public Health (M.P.H.) concentrations in two areas: Leadership in Practice and Population Health for Clinicians. Additionally, PHLP faculty are engaged in leadership and teaching in the global health concentration. Both M.P.H. concentrations offered within PHLP consist of a 42-credit-hour interdisciplinary and practice-based curriculum addressing the core functions and competencies of public health.

The Leadership in Practice concentration is designed to support professionals at all areas of public health practice, at every level of their leadership journey whether they are entry-level public health practitioners, public health executives, or in between. This concentration provides students with the knowledge and skills necessary to lead teams, projects, organizations, and systems to eliminate inequities, improve conditions, and foster change in local and global communities. Through this concentration, students will be prepared to empower populations to live their best lives — no matter their location. The Leadership in Practice concentration is available in residential or online format, as a full-time or part-time course of study.

The Population Health for Clinicians concentration is designed for medical students, practicing physicians, and other clinicians who wish to increase their knowledge in public health and population science to better serve their communities. This concentration offers a unique interdisciplinary focus on clinical, prevention, population, and policy sciences which enable students to improve clinical environment when they complete the program. This concentration is available only in a full-time, residential format.

PHLP also offers four graduate-level academic certificate programs: the certificate in core concepts of public health, the field epidemiology certificate, the global health certificate, and the public health leadership certificate. These certificate programs are offered only in an online format.

**Professors of the Practice**

**Anna P. Schenck, Director Public Health Leadership Program; Health Outcomes, Public Health Quality and Quality of Care, Cancer Prevention and Treatment, Research Methods for Public Health Practice, Aging, Associate Dean for Public Health Practice, Online Education**

**Vaughn Upshaw, Concentration Lead (Leadership in Practice); Public Health Leadership, Online Education**

**Professors**

**William A. Sollecito, Certificate Administrator Public Health Leadership Online Certificate Programs; Leadership, Global Health, Continuous Quality Improvement, Project Management, Clinical Research, Online Education**

**Rohit Ramaswamy, Continuous Quality Improvement, Implementation Science, Online Education**

**Sue Tolleson-Rinehart, Population Health for Clinician, Health Policy**

**Associate Professors**

**Kauline Cipriani, Public Health Leadership, Diversity and Inclusion**

**Lori Carter-Edwards, Public Health Leadership, Online Education**

**Assistant Professors**

**Karine Dubé, Public Health Leadership, Online Education**

**Lori A. Evarts, Director Graduate Studies; Project Management, Team Effectiveness, Clinical Research, Leadership, Online Education**

**Cythnia Feltner, Concentration Lead (Population Health for Clinicians); Medicine**

**Travis Johnson, Public Health Leadership, Rural Health, Online Education**

**Aimee McHale, Public Health Leadership, Online Education**

**Dana Rice, Public Health Leadership, Online Education**

**Julea Steiner, Director Professional Development; Public Health Practice, Health Communications, Continuous Quality Improvement, Online Education**

**Adjunct Professors**

**Kathy Bradford, Population Health for Clinicians**

**Timothy Gabel, Population Health for Clinicians**

**Amy Lanou, Public Health Leadership**

**J Lloyd Michener, Population Health for Clinicians**

**Medge Owen, Public Health Leadership**

**Greg Randolph, Population Health for Clinicians, Quality Improvement**

**Kevin Sowers, Population Health for Clinicians**

**Paula Stafford, Public Health Leadership**

**Hugh Tilson, Public Health Practice, Leadership, Epidemiology**

**Anthony Viera, Population Health for Clinicians**

**Adam Zolotor, Population Health for Clinicians**

**Sanjay Zodpey, Public Health Leadership**

**Adjunct Associate Professors**

**Ameena Batada, Public Health Leadership, Rural Health**

**Martha Carlough, Population Health for Clinicians**

**Anthony Charles, Population Health for Clinicians**

**Daniel Jonas, Health Services Research, Comparative Effectiveness**

**Anant Kumar, Global Online**

**Nancy McGee, Public Health Leadership**

**Sandy Moulton, Leadership, Practicum Placements**

**Jacqueline Olich, Practicum Placements, Leadership, Global Online**

**Deborah Porterfield, Population Health for Clinicians**

**Richard Scoville, Population Health for Clinicians**

**Adjunct Assistant Professors**

**Kathryn Andolsek, Population Health for Clinicians**

**Gary Asher, Public Health Leadership**

**James Bowles, Public Health Practice**

**Marcella H. Boynton, Population Health for Clinicians**

**Kay Campbell, Occupational Health Nursing**

**Russell Coletti, Population Health for Clinicians**

**Pat Curran, Public Health Leadership**

**Diane Davis, Public Health Leadership**

**Pamela Dickens, Public Health Leadership**

**Donna Dinkin, Public Health Leadership**

**Marie Lina Excellent, Public Health Leadership**
Advanced Undergraduate and Graduate-level Courses

PUBH 420. The HIV/AIDS Course. 1 Credit.
This course offers participants a multidisciplinary perspective on HIV/AIDS – its etiology, immunology, epidemiology, and impact on individuals and society. How HIV/AIDS is framed by a society determines not only how affected persons are treated but also the degree to which the rights of the individual are upheld.
Grading status: Pass/Fail.

PUBH 423. AIDS Service. 3 Credits.
This course will integrate community service into the campus-wide AIDS course. Students will work as volunteer interns three to five hours per week for 10 weeks during the semester with Triangle-area community service organizations.
Gen Ed: EE- Service Learning.
Grading status: Letter grade.

PUBH 500. Global Health Discussion Series. 0.5 Credits.
Provides opportunities for students to get to know each other through an exchange and discussion. Students exchange points of view with globally experienced faculty at UNC-Chapel Hill.
Grading status: Letter grade.

PUBH 510. Interdisciplinary Perspectives in Global Health. 3 Credits.
Explores issues, problems, and controversies in global health through an interdisciplinary perspective; examines the complex tapestry of social, economic, political, and environmental factors that affect global health; analyzes global health disparities through a social justice and human rights lens; and exposes students to opportunities in global health work and research.
Repeat rules: May be repeated for credit.
Grading status: Letter grade.

PUBH 610. Introductory Spanish for Health Professionals. 3 Credits.
This course is intended for students who know no Spanish or so little that they feel the need to start over. Students with more than two semesters of college Spanish are not eligible. The course covers the curriculum of first-semester Spanish taught within a health context, with a focus on speaking.
Grading status: Letter grade.

PUBH 613. Intermediate Spanish for Health Care I. 3 Credits.
This intermediate course is the equivalent of the third semester of college Spanish. Students will hone their listening and speaking skills in class primarily through role-playing activities and class discussion. Activities center on an original film set in a health clinic in rural North Carolina.
Grading status: Letter grade
Same as: AHSC 613I, NURS 613I, SOWO 613I.

PUBH 614I. Intermediate Spanish for Health Care II. 3 Credits.
Permission of the instructor. This primarily e-learning course provides public health students with the opportunity to improve their oral communication skills in Spanish at the intermediate level via DVD, Web, and workbook. Instructor-led. Online course.
Requisites: Prerequisite, PUBH 613I.
Grading status: Pass/Fail
Same as: AHSC 614I, NURS 614I, SOWO 614I.
PUBH 615. Advanced Spanish for Health Care I. 3 Credits.
Required preparation, third semester Spanish or equivalent. This advanced course reviews the grammar of the third and fourth semester of college Spanish. Students hone their listening and speaking skills through role-playing activities and class discussion. Activities center on an original film set in a Latino-run health clinic.
Grading status: Letter grade
Same as: AHSC 615I, NURS 615I, SOWO 615I.

PUBH 616I. Health Care Informatics. 2 Credits.
Course designed to provide a multimodal learning experience that prepares health sciences students to learn to become proficient at selecting/using technology for organizing, analyzing, and managing information in health care settings.
Grading status: Letter grade.

PUBH 680. Public Health Practice. 3 Credits.
A comprehensive introduction to public health concepts and practice through an examination of the philosophy, purpose, history, organization, functions, tools, activities, and results of public health practice at the national, state, and community levels. Online course.
Grading status: Letter grade.

PUBH 690. Special Topics in Public Health Leadership. 1-3 Credits.
Permission of the instructor. Sections will focus on specific topics of current interest to health workers. Fliers describing the section offering will be distributed prior to registration each semester. Lecture hours per week dependent upon credit.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading status: Letter grade.

PUBH 696. Independent Study. 1-3 Credits.
Independent Study to address goals and objects of student. Prior faculty agreement is required. Registration for an independent study course must be completed after the learning contract has been approved and no later than the last day of "late registration" (the end of the first week of classes in F/S).
Grading status: Letter grade.

Graduate-level Courses

PUBH 700. MHCH Planning and Evaluation. 3 Credits.
Permission of the instructor for nonmajors. Limited to residential students in public health. This course will familiarize students with basic concepts and methodologies required for effective public health program planning and evaluation in a variety of settings, both domestic and global. The majority of this course is taught online.
Grading status: Letter grade
Same as: MHCH 700.

PUBH 701. Cost-Effectiveness in Health and Medicine. 2 Credits.
Overview of economic evaluations of public health and health care interventions, understanding basic methods of cost-effectiveness analyses (CEA) and use of CEA to inform resource allocation decisions. Critically appraise CEA for internal validity and applicability. Explore controversial CEA issues, including methodological controversies and ethical issues for the prioritization of resources.
Grading status: Letter grade.

PUBH 702. Systematic Review. 1 Credit.
Course gives students background in assessing and conducting systematic reviews. Focuses on 1) reading, discussing, and critiquing systematic reviews on various topics; 2) reading background and methods articles on systematic reviews; 3) developing a focused question for systematic review; and 4) working on the systematic review over the semester.
Grading status: Letter grade.

PUBH 703. Quality Improvement in Health Care and Public Health. 3 Credits.
This course provides students from public health and associated health professions with an understanding of the major quality improvement methodologies and tools, real-world application in healthcare and population health settings, and practice using the tools and techniques to solve local health delivery problems.
Grading status: Letter grade.

PUBH 704. Foundations of Global Health. 2-3 Credits.
Students will gain a broader understanding of population-based global health issues. Critically examines global health topics with learning from on-line modules and learning assignments and interactive seminars with student presentations.
Grading status: Letter grade.

PUBH 705. One Health: Philosophy to Practical Integration. 1-3 Credits.
This course explores the intersection of human, animal, and environmental health and facilitates the understanding of health as an inexorably linked system requiring multidisciplinary collaborative efforts. The One Health concept demonstrates the importance of a holistic approach to disease prevention and the maintenance of human, animal, and environmental health.
Grading status: Letter grade
Same as: ENVR 705.

PUBH 706. Advanced Health Policy for Clinicians. 3 Credits.
An introduction to the fundamental organization, behavior, financing, and challenges of the health system of the United States. The course treats the entire edifice of American health care as "the American health system," and intends to examine it in toto, including by comparing it to other national health systems, and in part, by examining critical components of the system. Students must be enrolled in the Population Health for Clinicians Concentration or have permission of the instructor.
Grading status: Letter grade.

PUBH 711. Critical Issues in Global Health. 3 Credits.
Explores contemporary issues/controversies in global health through an interdisciplinary perspective; examines complexity of social, economic, political, and environmental factors affecting global health; analyzes global health disparities through a social justice lens; and exposes students to opportunities in global health work and research.
Grading status: Letter grade.

PUBH 712. Global Health Ethics. 3 Credits.
This course will introduce students to the theoretical and practical aspects of public health ethics. Develop student's analytical skills to evaluate ethical issues related to public health policy, prevention, treatment, and research. Topics include: ethical reasoning; concepts of justice; principles of interacting with communities; professional conduct and research. Online course.
Grading status: Letter grade.
PUBH 713. Infectious Disease Epidemiology. 3 Credits.
This course presents an overview of basic principles of infectious diseases that affect public health in the United States and worldwide. Topics include biology of infectious agents, factors affecting emergence/re-emergence, mechanisms of pathogenesis, immunology of infection, epidemiology, and strategies for diagnosis, prevention, and control.
Grading status: Letter grade.

PUBH 714. Introduction to Monitoring and Evaluation of Global Health Programs. 3 Credits.
Fundamental concepts/tools for monitoring/evaluating public health programs including HIV/AIDS/STDs, maternal/child health, environment, and nutrition. Concepts and practices in M&E will be covered: logic models, theory of change, indicators, data collection methods, process evaluation, research design, and mixed methods. Small group work to create M&E plan for global health case-study. Online.
Grading status: Letter grade.

PUBH 715. Communication for Health-Related Decision Making. 2 Credits.
Course provides foundation and skills to understand and improve decision making that affects people's health. It teaches theoretical basis and evidence-based applications of health-related decision making.
Grading status: Letter grade
Same as: HBEH 715.

PUBH 716. Applied Quality Improvement Methods for Healthcare and Public Health. 3 Credits.
The course objective is to develop, implement, and test a solution to improve health care or public health delivery, using a model called the Model for Improvement (or MFI). The model uses three questions to scope the improvement project and four steps, Plan-Do-Check-Act, to implement and test solutions.
Grading status: Letter grade
Same as: HBHE 816, HPM 716.

PUBH 717. Gillings Global Implementation Lab. 2 Credits.
Interdisciplinary, field-based graduate course for teams of students to apply knowledge and experience to design/implement systemic solutions to improve the delivery of public health services in partnership with organizations around the world. Students develop general insights, learn effective implementation practices, and acquire evidence-based applied experience.
Requisites: Corequisite, PUBH 716.
Grading status: Letter grade
Same as: MHCH 816, HPM 716.

PUBH 718. Designing Public Health Systems. 3 Credits.
Using powerful tools from engineering and management, this course equips students to conceptualize, design, and analyze public health and healthcare delivery systems for successful implementation.
Grading status: Letter grade.

PUBH 719. Introduction to Implementation Research and Practice in Public Health. 3 Credits.
This course introduces the concepts, frameworks, and methods of implementation research and practice. By the end of this course, students will be able to explain the rationale for this field, identify guiding frameworks, assess multilevel barriers and facilitators, and address barriers and facilitators with implementation strategies tailored to specific contexts.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 99 total completions.
Grading status: Letter grade
Same as: HPM 719.

PUBH 720. The HIV/AIDS Course. 1 Credit.
This course offers participants a multidisciplinary perspective on HIV/AIDS – its etiology, immunology, epidemiology, and impact on individuals and society. How HIV/AIDS is framed by a society determines not only how affected persons are treated but also the degree to which the rights of the individual are upheld.
Grading status: Letter grade.

PUBH 725. The HIV/AIDS Course Online. 1 Credit.
This online course offers a multidisciplinary perspective on HIV/AIDS – its etiology, immunology, epidemiology, and impact on individuals and society. How HIV/AIDS is framed by a society determines not only how affected persons are treated but also the degree to which the rights of the individual are upheld.
Grading status: Letter grade.

PUBH 726. Western North Carolina Place-Based Approach to Public Health. 1 Credit.
Introduces concepts, issues, and examples related to public health in Western NC. We will explore "place", i.e. the histories, contexts, peoples, landscapes, and other aspects of what contributes to the current wellbeing of communities for developing and building on existing approaches to improving the public's health. Integrates critical reading and media with visits to and experiences with people/health institutions in Western NC, to better understand and plan relevant public health interventions. Asheville Cohort students only.
Grading status: Letter grade.

PUBH 730. Leading Quality Improvement in Public Health. 3 Credits.
Overview of quality improvement (QI) and its important relationship to leadership. Focus on practical skills with sufficient theory to understand the origins of the philosophy and processes encompassed by QI. For working practitioners with current or future management/leadership responsibilities within their organizations.
Grading status: Letter grade.

PUBH 731. Social Marketing. 3 Credits.
Course will orient students to market-based strategies, models, and tactics for improving individual and community health status within the framework of marketing, strategic communication, and advocacy. Online course.
Grading status: Letter grade.

PUBH 732. Cultural Competencies of Health Organizations. 3 Credits.
Course will provide health care professionals with a framework for the implementation of National Standards for Culturally and Linguistically Appropriate Services in Health Care (CLAS). Online course.
Grading status: Letter grade.

PUBH 735. Policy Development. 3 Credits.
SPH students or permission of the instructor. Focus is on institutional policy development, regulation and enforcement, and field observation. Online course.
Grading status: Letter grade.

PUBH 741. Quantitative Methods for Health Care Professionals I. 4 Credits.
Course is designed to meet the needs of health care professionals to appraise the design and analysis of medical and health care studies and who intend to pursue academic research careers. Covers basics of statistical inference, analysis of variance, multiple regression, categorical data analysis. Permission of instructor.
Grading status: Letter grade.
PUBH 742. Quantitative Methods for Health Care Professionals II. 4 Credits.
Continuation of PUBH 741. Main emphasis is on logistic regression; other topics include exploratory data analysis and survival analysis.
Requisites: Prerequisite, PUBH 741; Permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

PUBH 745. Community Improvement and Assessment. 3 Credits.
Development of knowledge/skills to aid communities in improving health outcomes: (a) analysis of community data; (b) establishment of collaborative efforts to prioritize health issues for action and identify evidence-based strategies to improve community health. Local public health system interaction in real-time case study involving collection/analysis of community data. Online.
Grading status: Letter grade
Same as: PHNU 745.

PUBH 746. Public Health Program Planning and Evaluation. 3 Credits.
SPH majors or permission of the instructor. Fundamentals of public health program planning and monitoring, with emphasis on applications in community settings and proposal development for program funding.
Grading status: Letter grade
Same as: PHNU 746.

PUBH 747. Project Management Principles and Practices. 3 Credits.
Graduate students only. Provides an overview of knowledge and skills required for effective project/team leadership and management. Includes modules on leadership, management techniques, application of continuous quality improvement, and organizational designs that complement team-based organizations. Online course.
Grading status: Letter grade.

PUBH 748. Leadership in Health Policy for Social Justice. 3 Credits.
This course will provide students with the knowledge and skills to develop policies that address public health challenges, with an emphasis on improving health equity, promoting social justice, and creating systems in which the human right to health is given full effect.
Grading status: Letter grade.

PUBH 749. MPH Year & Career. 0.5 Credits.
Designed for students in the Health Care and Prevention concentration in the M.P.H. program who are actively working on their master's paper. Five required evening sessions are scheduled in the fall and five required evening sessions are scheduled in the spring.
Repeat rules: May be repeated for credit. 1 total credits. 2 total completions.
Grading status: Letter grade.

PUBH 750. Strategies of Prevention for Clinicians. 3 Credits.
Designed for those interested in the clinical arena. Establishes a framework for examining prevention activities for clinicians, and then considers a number of important health problems and the evidence for applying prevention strategies to these health problems. Encourages active student participation and involves a multidisciplinary faculty. Students must be enrolled in the Population Health for Clinicians Concentration or have permission of the instructor to enroll.
Grading status: Letter grade.

PUBH 751. Critical Appraisal of Health Literature I. 2 Credits.
Emphasizes the process of critical appraisal of existing medical research literature, with examples from a variety of subject areas. Students must be enrolled in the Population Health for Clinicians Concentration or have permission of the instructor to enroll.
Grading status: Letter grade.

PUBH 752. Critical Appraisal of Health Literature II. 1 Credit.
Emphasizes the process of critical appraisal of existing medical research literature, with examples from a variety of subject areas. Student presentations of structured critical appraisals constitute about 50 percent of sessions. Students must be enrolled in the Population Health for Clinicians Concentration or have permission of the instructor to enroll.
Grading status: Letter grade.

PUBH 754. Research Frameworks and Methods for Assessing and Improving Population Health. 3 Credits.
This course is designed to provide students with the fundamental research and analytic methods needed by public health leaders to assess the effectiveness, efficiency, and equity of healthcare in order to improve population health. The focus will be on research skills needed by practitioners with the objective of improving health outcomes.
Grading status: Letter grade.

PUBH 755. Translating Evidence into Practice for Population Health. 2 Credits.
The course provides an engaging, intellectual environment for students to discuss conceptual frameworks, study designs, and population outcome measures for closing the gap between evidence and daily practice across important population subgroups and in diverse clinical settings. Students complete a series of assignments, including a final paper and presentation.
Grading status: Letter grade.

PUBH 756. Addressing Health Inequalities in the United States. 3 Credits.
Disparities in morbidity/mortality in sub-populations continue compared to other United States populations. Course explores contributors to inequalities and identifies strategies to counterbalance contributors to correct inequalities using public health resources.
Grading status: Letter grade
Same as: MHCH 756.

PUBH 760. Clinical Measurement/Evaluation. 3 Credits.
Focuses on work, workplace exposures and hazards, and their effect on health. Interdisciplinary approaches to risk identification, reduction, and communication will be emphasized within regulatory and ethical contexts.
Grading status: Letter grade
Same as: EPID 711.

PUBH 763. The Politics of Health Reform, Quality, Outcomes, and Effectiveness. 3 Credits.
Systematic analysis of recent reforms to the U.S. healthcare system, including passage and initial implementation of the Affordable Care Act, with particular attention to how reform is intended to improve access, quality, equity, and effectiveness and whether reform can accomplish this while controlling cost.
Grading status: Letter grade.

PUBH 764. Interdisciplinary Seminar in Refugee Health and Wellness. 1-3 Credits.
Academic year-long seminar for health profession students to engage in inter-professional teams, providing health care access and mental health assessment, case management, and health promotion to refugees resettled in the Triangle. Graduate course open to undergraduates. MUST enroll in both fall and spring semesters.
Repeat rules: May be repeated for credit. 3 total credits. 3 total completions.
Grading status: Letter grade.
PUBH 767. Team Leadership in Research Navigation. 3 Credits.  
Team leadership and management practices with an emphasis on successful team leadership in clinical research. Team effectiveness strategies provide framework for development of successful leadership of teams undertaking clinical research.  
Grading status: Letter grade.

PUBH 771. Communicating Public Health through Writing. 2 Credits.  
Students will develop writing skills needed for public health practice. Five writing projects are covered: literature reviews and syntheses, policy analyses and summaries, program planning papers, research and evaluation papers, and funding proposals.  
Grading status: Letter grade.

PUBH 781. Community Engagement and Leadership in Health. 3 Credits.  
Students will gain a basic understanding of how to be leaders in applying principles of community engagement in public health programs and organizational settings by engaging different stakeholder sectors, promoting multi-level cohesion among different audiences, communicating strategies, and collaboratively designing community engagement and implementation plans.  
Grading status: Letter grade.

PUBH 782. The Public Health Impact of Criminalizing the Marginalized. 2 Credits.  
permission from instructor for students lacking the prerequisite. This course will define criminalization and describe how this phenomenon disproportionately impacts the health of marginalized populations. Students will analyze the social construction of illicit behavior and subsequent criminal involvement and use the principles of life course theory and social ecological framework to explore associations between what is criminalized and health outcomes. The course will also describe the impact of criminalization on emerging health policy and introduce public health tools needed to address these challenges.  
Requisites: Pre- or corequisite, SPHG 711, SPHG 712, and SPHG 713;  
Grading status: Letter grade.

PUBH 783. Mass Incarceration & Public Health. 2 Credits.  
This course examines the public health implications of mass incarceration in the US. Using a public health prevention framework, students will investigate the intersection of the criminal justice system with health outcomes. Students will identify alternative strategies grounded in public health, social justice and human rights principles to create healthier communities.  
Requisites: Prerequisite, SPHG 711, 712, 713 preferred but not required; contact instructor for permission if SPHG 711, 712, 713 have not been undertaken.  
Grading status: Letter grade.

PUBH 784. Project Management Strategy and Application. 3 Credits.  
This course presents classic project management concepts and methods, applicable to research, public health, healthcare, information science and other team projects, with an aim to develop a toolbox of strategies to effectively manage projects using globally accepted theoretical frameworks; practice is gained via assignments, cases, lectures, and course project.  
Grading status: Letter grade.

PUBH 785. Interdisciplinary Approaches to Occupational Health. 3 Credits.  
Focuses on work, workplace exposures and hazards, and their effect on health. Interdisciplinary approaches to risk identification, reduction, and communication will be emphasized within regulatory and ethical contexts.  
Grading status: Letter grade  
Same as: PHNU 785.

PUBH 786. Occupational Safety and Ergonomics. 3 Credits.  
Fundamentals of occupational safety and ergonomics with emphasis on legislation and organization of industrial safety and ergonomic programs, including hazard recognition, analysis, control, and motivational factors pertaining to industrial accident and cumulative trauma disorder prevention.  
Grading status: Letter grade  
Same as: PHNU 786.

PUBH 790. The Leadership Assessment Workshop. 2 Credits.  
Intensive retreat program that introduces students to leadership theory as applied to MCH-Public Health issues. Course will focus on understanding self and others, building organizational culture, and applying leadership theory to MCH issues, among other issues.  
Grading status: Letter grade  
Same as: MHCH 790.

PUBH 791. Core Principles in Public Health Leadership. 3 Credits.  
Course will introduce students to leadership theories and research, provide a context for leadership in public health, and help students learn core leadership skills.  
Grading status: Letter grade.

PUBH 793. Global Public Health Leadership. 3 Credits.  
This course will make broad use of current events with a leadership relevance across the world, emerging global challenges, both strategic and ethical, and will make extensive use of global issues the students face, presented using the case study method. Online course.  
Grading status: Letter grade.

PUBH 804. Issues in Public Health Leadership. 1 Credit.  
This course will provide a case-based approach to the approaches different public health leaders have used to deal with a variety of public health issues. The course will focus on identifying the public health competencies used in real-world situations and how students can apply those competencies to their own work in public health.  
Grading status: Letter grade.

PUBH 805. Public Health in the Global Context: Service Learning with Vulnerable U.S. Populations. 1 Credit.  
A spring break interdisciplinary service-learning trip to rural Tyrrell County, NC to learn about the social determinants of health and to promote health and reduce risks. Health professional students from nursing, physical therapy, public health, and social work form interdisciplinary teams to provide population-centered services to residents of this county.  
Grading status: Letter grade.

PUBH 806. Data Skills Online. 1 Credit.  
This course focuses on training public health professions to apply basic analytic skills; students select a work-related public health topic of interest. The nine course modules engage students in active learning through the use of case studies, basic data descriptions, on-line discussions, quizzes, and a final project.  
Grading status: Letter grade.
PUBH 810. Population Health: Interprofessional Management in a Changing Healthcare System. 3 Credits.
Admission to SPH graduate program required for course enrollment. Course experience will involve medicine, nursing, pharmacy, and social work students engaging together to learn skills and knowledge to apply population health principles. Key themes include inter-professional collaboration and teamwork, identification and stratification of populations-at-risk, and discussion of evidence-based care planning/coordination.
**Grading status:** Letter grade.

PUBH 811. Population Health in Health Care: Field Experience. 3 Credits.
This inter-professional field-based course offers opportunities to engage with students from medicine, nursing, pharmacy, and social work to learn skills and knowledge to apply population health principles in a primary healthcare setting. Students will work on team-based projects in primary care settings.
**Requisites:** Prerequisite, PUBH 810; permission of instructor for students lacking the prerequisite.
**Grading status:** Letter grade.

PUBH 886. Field Practicum in Public Health. 1-6 Credits.
The practicum or field experience is intended to provide the student an opportunity to integrate course work in a new or different type of health-related setting. This experience will be completed after most regular course work. The practicum cannot be only an observational experience.
**Grading status:** Letter grade.

PUBH 890. Special Topics in Public Health Leadership. 1-3 Credits.
Permission of the instructor. A major paper on a problem relevant to public health practice. This study may extend over more than one semester. Credit is assigned accordingly.
**Repeat rules:** May be repeated for credit.

Master of Public Health (M.P.H.)

**Leadership in Practice Concentration Description**
Designed to teach professionals how to apply leadership principles in a public health context, the Leadership in Practice concentration (https://sph.unc.edu/resource-pages/master-of-public-health-2/leadership-in-practice-concentration) offers the knowledge and skills needed to lead teams, projects, organizations and systems in eliminating inequities and improving conditions in local and global communities. As a graduate with expertise in design thinking, evidence-based decision-making and mobilization for large-scale change, you’ll help empower populations to live their best lives — no matter their location.

**Competencies**
Students will develop the following Leadership in Practice competencies, building on the foundational public health knowledge they attain in the Gillings M.P.H. Integrated Core courses.

**LIP01.** Prioritize public health values and ethics in a philosophy of leadership relevant to adaptive public health challenges.

**LIP02.** Demonstrate effective communication skills to promote a compelling public health agenda.

**LIP03.** Facilitate inclusive engagement and collaborative decision-making across professions and with diverse stakeholders to lead in public health practice.

**LIP04.** Design transformational systems and innovative approaches to ensure effective public health practice.

**LIP05.** Integrate research and practice-based evidence to continuously improve the quality of public health practice.

**LIP06.** Develop structures of accountability to promote good governance and stewardship of resources to improve population health.

Master of Public Health (M.P.H.)

**Population Health for Clinicians Concentration Description**
graduates to provide excellent care to individuals and also improve systems of care for the benefit of all. Building on a decades-long collaboration between the UNC Schools of Medicine and Public Health, this program is widely regarded as one of the best opportunities for clinicians to gain mastery in public health and population science.

* Approved substitute for SPHG 711 for students in this concentration.
** Approved substitute for SPHG 712 for students in this concentration.

**Competencies**

Students will develop the following Population Health for Clinicians competencies, building on the foundational public health knowledge they attain in the Gillings M.P.H. Integrated Core courses.

**PHC01.**

Demonstrate the ability to think critically and analytically about the priority prevention needs of populations and appropriate prevention strategies, considering evidence about benefits, harms, and costs.

**PHC02.**

Adopt a systematic approach to critical appraisal of health literature to inform the appropriate use of evidence.

**PHC03.**

Demonstrate a clear understanding of, and ability to contribute to the creation and use of innovative system strategies that enable constructive dialogue and collaboration across all health stakeholders and build public health and medical systems that deliver quality, effectiveness, safety, and equity.

**PHC04.**

Apply appropriate data collection methods to measure the burden of disease in a population, and to assess potential benefits and harms of various strategies to improve health and advance health equity.

**PHC05.**

Synthesize evidence and disseminate findings that enhance the rapid translation of knowledge into policy and practice to promote population health priorities in clinical and community contexts.

**Admissions**

Please visit Applying to the Gillings School (https://sph.unc.edu/students/how-to-apply) first for details and information. Application to the residential M.P.H. is a two-step process. Please apply separately to (1) SOPHAS and (2) UNC–Chapel Hill (via the Graduate School application). Visit https://gradschool.sites.unc.edu/master-of-public-health/ for more details. If you are interested in the online M.P.H., please visit the M.P.H.@UNC (https://onlinemph.unc.edu) Web site and fill out an inquiry form.

**Practicum**

This 200 (minimum) hour planned, mentored, and evaluated work experience (paid or unpaid) gives students the real-world opportunity to integrate and apply knowledge, skills, and values from Year One of their Gillings M.P.H. training in a professional public health setting such as a nonprofit organization, hospital, local or state health department, or for-profit firm (public or private sectors). Please visit the M.P.H. Practicum Web site (https://sph.unc.edu/resource-pages/master-of-public-health-2/mph-practicum) for additional information. In order to meet graduation requirements, a Gillings M.P.H. practicum must:

1. Occur after a student has completed the Gillings M.P.H. Core courses, the M.P.H. practicum preparation course (SPHG 701), and at least one concentration-required course from the student’s declared concentration. In extenuating circumstances and with the approval from the student’s declared concentration, some exceptions may apply.

2. Yield a least two student-generated products, produced in the practicum setting for the practicum setting, that allow for attainment of at least three (CEPH) M.P.H. Foundational and two concentration-specific competencies (Appendix A). In extenuating circumstances and with the approval from the concentration, students can petition to substitute up to two CEPH Foundational competencies for the concentration-specific competencies.

3. Be mentored by a supervisor (preceptor) with an advanced degree in public health or equivalent experience with expertise in the practicum project area.
4. Comprise a minimum of 200 hours (equivalent to five weeks of full-time work) in a location approved for student travel (UNC Travel Policy [https://global.unc.edu/files/2018/02/UNC-Travel-Policy-Final.pdf]), and the student must complete UNC Gillings International Pre-Departure Travel Requirements prior to travel.

Culminating Experience
Each student completes a 3-credit culminating experience and produces a high-quality written product that is completed near the end of the program of study. This culminating experience ideally is delivered in a manner that is useful to external stakeholders, such as nonprofit or governmental organizations, and could take the form of a course-based capstone project or master’s paper, but will be tailored to the concentration a student chooses.

Academic Advising and Faculty Mentoring
We are committed to providing quality academic advising and mentoring for all students. We ensure that M.P.H. students get the guidance they need with several components: 1) an orientation program that provides an overview of the types and sources of M.P.H. advising; 2) cohort advising sessions to disseminate information that is relevant to course planning and registration; 3) faculty mentoring that provides students with tailored support for their academic, professional, personal development, and practicum support.

M.P.H. students will complete a 2-semester, 12-credit-hour Integrated Core taught by an interdisciplinary team of instructors. The 6-credit first semester (fall) focuses on understanding public health issues, and the second semester (6-credit spring courses) focuses on creating solutions to those issues.

All M.P.H. students take COMPASS (Core Online Modules to Promote and Accelerate Student Success). These brief, self-paced online modules are open for students prior to their first academic year. Students can complete any and all parts of COMPASS up to and including the first week of class.

Electives: For the remaining 9 credits, students are free to choose elective courses from any of the 12 concentration areas listed above or from other courses in the Gillings School.

For information on policies and procedures, please visit the Gillings School Student Handbook [https://sph.unc.edu/students/gillings-school-student-handbook] Web site.
