The Department of Sociology offers the master of arts and doctor of philosophy degrees in sociology. Students receive training that equips them for careers in both teaching and research. All sociology students take basic coursework in sociological theory, research methods and statistics, and substantive areas. The program emphasizes balanced training and the integration of theory, method, and substantive knowledge. Detailed information on graduate degree procedures is available online at the department’s Web site (http://sociology.unc.edu). For further information, including information about financial aid for students, contact the graduate student services manager (https://sociology.unc.edu/people/staff/).

Graduate students making adequate progress receive financial assistance during the first five years of the program. Sources of aid include teaching assistantships, research assistantships, and nonservice fellowships.

Department faculty work closely with the Carolina Population Center, the Odum Institute for Research in Social Science, and other research centers and institutes on campus. The department also sponsors and edits Social Science, one of the leading sociology journals in the world.
