Accreditation

The University of North Carolina at Chapel Hill is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate, master's, doctoral, and professional degrees and certificates. For more information about the accreditation status of UNC–Chapel Hill contact: Southern Association of Colleges and Schools Commission on Colleges, 1866 Southern Lane, Decatur, Georgia 30033-4097; telephone number (404) 679-4500; www.sacsco.org (http://www.sacsco.org).

Mission Statement: The University of North Carolina at Chapel Hill

The University of North Carolina at Chapel Hill, the nation’s first public university, serves North Carolina, the United States, and the world through teaching, research, and public service. We embrace an unwavering commitment to excellence as one of the world’s great research universities.

Our mission is to serve as a center for research, scholarship, and creativity and to teach a diverse community of undergraduate, graduate, and professional students to become the next generation of leaders. Through the efforts of our exceptional faculty and staff, and with generous support from North Carolina’s citizens, we invest our knowledge and resources to enhance access to learning and to foster the success and prosperity of each rising generation. We also extend knowledge-based services and other resources of the University to the citizens of North Carolina and their institutions to enhance the quality of life for all people in the State.

With lux, libertas — light and liberty — as its founding principles, the University has charted a bold course of leading change to improve society and to help solve the world’s greatest problems.

Approved by the UNC Board of Governors, November 2009 and February 2014

UNC’s Commitment to Diversity and Inclusivity

UNC–Chapel Hill has a long-held tradition of striving for excellence. Quality education takes place among persons with differing social backgrounds, economic circumstances, personal characteristics, philosophical outlooks, life experiences, perspectives, beliefs, and expectations. We at the University acknowledge that we face ongoing challenges to overcome the effects and influences of adverse historical, social, political, and economic factors. A critical element for any 21st century educational institution is a diverse, equitable, and inclusive community that functions in a global context. The historical, political, economic, and educational backgrounds of the University, the state, and the nation shape our present circumstances and inform the measures we must take to accomplish our highest aspirations. The University engages in teaching, research, and service to expand and discover knowledge, promote educational enlightenment, and improve understanding. We work to assure that we have a complement of students, faculty, and staff that broadly reflects the ways in which people differ. We speak of these differences as representing “diversity.”

UNC’s commitment to inclusive excellence began in the 1960s through the support of minority programming and continues today through the work of the University Office for Diversity and Inclusion (D&I) (http://diversity.unc.edu). The office is led by the associate vice chancellor for diversity and inclusion, who serves as the chief diversity officer and advises the University community on diversity policies and issues. The office collaborates with University officers and campus units to identify and implement strategies and initiatives for achieving the core values with respect to diversity and the goal of increased diversity among students, staff, and faculty. The ultimate goal of both D&I and the University is building an inclusive and equitable environment that values and respects the contributions of all members of the Carolina community.

The University’s Policy on Prohibited Discrimination, Harassment, and Related Misconduct, Including Sexual and Gender-Based Harassment, Sexual Violence, Interpersonal Violence, and Stalking

The University is committed to providing an inclusive and welcoming environment for all members of our community. The University values safety, diversity, education, and equity and is firmly committed to maintaining a campus environment free from discrimination, harassment, and related misconduct. In accordance with its Policy Statement on Nondiscrimination, the University does not unlawfully discriminate in offering equal access to its educational programs and activities or with respect to employment terms and conditions on the basis of an individual’s age, color, disability, gender, gender expression, gender identity, genetic information, race, national origin, religion, sex, sexual orientation, or veteran status (collectively referred to as “protected statuses”). The University’s protection of these statuses is grounded in federal law. Federal law also governs the University’s response to sexual assault, sexual violence, interpersonal violence (including domestic and dating violence), and stalking. Such acts violate the essential dignity of our community member(s) and are contrary to our institutional values.

Policy Statement on Nondiscrimination: Educational and Employment Decisions

The University is committed to providing an inclusive and welcoming environment and to ensuring that educational and employment decisions are based on individuals' abilities and qualifications. Consistent with these principles and applicable laws, it is therefore the University's policy not to discriminate on the basis of age, color, disability, gender, gender expression, gender identity, genetic information, national origin, race, religion, sex, sexual orientation, or veteran status as consistent with the University's Policy on Prohibited Discrimination, Harassment, and Related Misconduct. No person, on the basis of protected status, shall be excluded from participation in, be denied the benefits of, or be subjected to unlawful discrimination, harassment, or retaliation under any University program or activity, including with respect to employment terms and conditions. Such a policy ensures that only relevant factors are considered and that equitable and consistent standards of conduct and performance are applied.

Resources for Information and Assistance

Individuals are encouraged to report incidents of prohibited conduct to the Equal Opportunity and Compliance Office, the Title IX Compliance Coordinator, the Report and Response Coordinators, the Office of the Dean of Students, or the UNC Department of Public Safety. As an alternative, an individual can also seek confidential assistance that does not involve notice to the University. If the conduct you have experienced is sexual violence or other criminal activity, including interpersonal (relationship) violence or stalking, you are also encouraged to report the incident to local law enforcement. See below for a comprehensive list of support and reporting options or refer to the University’s Policy on Prohibited Discrimination, Harassment, and Related Misconduct (https://unc.policystat.com/policy/4514917/latest).

UNIVERSITY OF NORTH CAROLINA AT CHAPEL HILL: AN INTRODUCTION

The University of North Carolina at Chapel Hill is the most comprehensive institution in North Carolina, both in the range of its programs at all levels and in the breadth of its specialized research and public service programs. Its 14 schools and the College of Arts and Sciences provide instruction in more than 100 fields, offering 70 bachelor’s, 113 master’s, 66 doctoral, and 8 professional degrees, as well as 16 certificates, in academic areas critical to North Carolina’s future: business, dentistry, education, information and library science, media and journalism, government, law, medicine, nursing, pharmacy, public health, and social work, among others.

Since 1795, when its doors first opened to students, the University has remained faithful to its founders’ charge to duly encourage and promote all useful learning for the betterment of humanity.

The University was anticipated by a section of the first state constitution drawn up in 1776 directing the establishment of “one or more universities” in which “all useful learning shall be duly encouraged and promoted.” State support, it directed, should be provided so that instruction might be available “at low prices.” The American Revolution intervened, and it was not until 1789, the year that George Washington became president of the new nation, that the University was chartered by the General Assembly. Despite constitutional instructions to the contrary, no state appropriations were made, and the trustees were left to secure land and money themselves. On October 12, 1793, the cornerstone was laid for a brick building on a hilltop near the center of the state amidst the colorful fall foliage of dogwood, oak, and tulip trees.

The site, lying at the crossing of north-south and east-west roads, was marked only by a small Anglican chapel that soon shared part of its name—New Hope Chapel Hill—with the community that developed there. Legislator and trustee William R. Davie, who had been instrumental in securing passage of the charter, took the lead in organizing the University. Davie presided over the Masonic ritual of the laying of the cornerstone. In time he came to be called “the Father of the University.” Many years later a large poplar or tulip tree, first mentioned in 1818 and still standing near the center of the old campus, was called Davie Poplar in his honor.

The first building and, indeed, the only building for two years, was a two-story brick structure that came to be called Old East. It is now a National Historic Landmark, the oldest state university building in America. Opened to students on January 15, 1795, the University of North Carolina received its first student, Hinton James of New Hanover County, on February 12. By March there were two professors and 41 students present.

The second state university did not begin classes until 1801, when a few students from nearby academies assembled under a large tree at Athens, Georgia, for instruction. By then four classes had already been graduated at Chapel Hill, and there were to be three more before the first diplomas were issued in Georgia. The next building on the Carolina campus was Person Hall, begun in 1796 and long used as the chapel. The cornerstone of Main or South Building was laid in 1798. All three are older than any other American state university building.

The Young University

During the early 19th century the trustees began a period of strong support in the development of the young University. Even though their proclaimed initial goal for the University had been to provide trained leadership for the state, the curriculum followed the customary classical trend. In 1815, however, the natural sciences were given equal place, and in the 1820s Professors Denison Olmstead and Elisha Mitchell prepared the nation’s first geological survey. In 1831 the first astronomical observatory at a state university was built under the direction of President Joseph Caldwell. Student enrollment increased steadily, and by 1860 only Harvard, Yale, and the University of Virginia had more students.

Young men from many states came to Chapel Hill for their education, particularly those from families who had recently left North Carolina to settle elsewhere in the South. The University of North Carolina provided governors not only for North Carolina but also for many other states; countless professions and occupations were represented among its graduates, including cabinet members, clergymen, diplomats, engineers, geologists, judges, legislators, surveyors, teachers, and a president and a vice president of the United States.

Though the Civil War closed many colleges and universities, the University at Chapel Hill remained open throughout the war, though its students were few. During Reconstruction, however, it was closed from 1870 until 1875. When it reopened, the University’s leadership began to inaugurate programs that once again marked it as a leading university.

The General Assembly in 1931 consolidated the University with the Woman’s College at Greensboro and North Carolina State College at Raleigh under a single board of trustees. As an economy measure during the Depression and as a means of eliminating duplication, the trustees allocated each unit specific roles in higher education for the state. The offices of the Consolidated University were established on the Chapel Hill campus and University President Frank Porter Graham became the Consolidated University’s first president.

The period of the Depression in the 1930s saw a great deal of new construction on the campus as federal funds became available to create jobs for the unemployed. New dormitories, classroom buildings, a gymnasium, and other buildings and improvements were built in part from this source. World War II also resulted in some new construction and alterations on campus as the University’s facilities were used to train military personnel.

Expansion continued throughout the 20th century, and today UNC-Chapel Hill ranks among the great institutions of higher education in the nation. Beginning with one building, 41 students, and two professors, the University has now grown to more than 300 buildings, 30,011 students annually, and 3,887 faculty members.

Top Rankings

The University has been recognized for the quality of its undergraduate and graduate programs in every national survey conducted in the last third of the 20th century and into the 21st. U.S. News and World Report’s survey of American colleges and universities consistently ranks the University among the best colleges in the nation and among the top research universities.

These accolades reflect the quality of the curriculum and of the faculty, whose research orientation allows them to share with their students not only the thrill of discovery but also the latest advancements and new knowledge. Another asset that contributes to this reputation is UNC-Chapel Hill’s superb library system containing more than nine million print and electronic volumes. It is ranked among the top research libraries in the United States and Canada by the Association of Research Libraries.
Commitment to Diversity

The University of North Carolina at Chapel Hill strives for excellence both in academic engagement and co-curricular support. Sustaining a diverse and inclusive community is critical to achieving educational excellence.

Framework for Understanding Diversity, Equity, and Inclusion at UNC–Chapel Hill

The work of the University in the 21st century functions in a global context. The historical, political, economic, and educational backgrounds of the University, the state, and the nation shape our present circumstances and inform the measures we must take to accomplish our highest aspirations. We acknowledge that we face an ongoing challenge to overcome the effects and influences of adverse historical, social, political, and economic factors. The University engages in teaching, research, and service to expand and discover knowledge, promote educational enlightenment, and improve understanding with the ultimate end of uplifting humankind. Education takes place most productively among persons with differing social backgrounds, economic circumstances, personal characteristics, philosophical outlooks, life experiences, perspectives, beliefs, and expectations. The University works to assure that we have a complement of students, faculty, and staff that broadly reflects the ways in which people differ. We believe that “diversity matters” within and beyond the campus community.

UNC–Chapel Hill’s commitment to inclusive excellence began in the 1960s through the support of minority programming and continues today through the establishment of the University Office for Diversity and Inclusion (D&I).

The University Office for Diversity and Inclusion serves as a resource to the entire Carolina campus and partners with all student, faculty, staff, and organizational entities. D&I collaborates with University officers and campus units to identify and implement strategies and initiatives for achieving the goals of increased diversity, with the goal of building an inclusive and equitable environment that values and respects the contributions of students, faculty, and staff. D&I provides diversity education, opportunities, and development for faculty, staff, students, and community members; develops, implements, and supports recruitment and leadership programs that facilitate access and retention and promote inclusive excellence across institutional segments (e.g., student enrollment, faculty hiring, staff development); conducts diversity research, assessment, and reporting to generate and inform the campus and beyond on diversity-related issues; and provides consultation and project management to promote and enhance diversity and community engagement.

Partnerships and collaborations with vice chancellors, deans, and other unit heads are leveraged to accomplish the University’s goals for establishing diversity within the faculty, staff, and student cohorts and for fulfilling the public university mission of service, outreach, and engagement. Additional information can be found at diversity.unc.edu (http://diversity.unc.edu).
THE UNC SYSTEM

History of the University

In North Carolina all the public educational institutions that grant baccalaureate degrees are part of the University of North Carolina. The University of North Carolina at Chapel Hill is one of the constituent institutions of the multicampus state university.

The University of North Carolina, chartered by the North Carolina General Assembly in 1789, was the first public university in the United States to open its doors and the only one to graduate students in the 18th century. The first class was admitted in Chapel Hill in 1795. For the next 136 years the only campus of the University of North Carolina was at Chapel Hill.

In 1877 the North Carolina General Assembly began sponsoring additional institutions of higher education, diverse in origin and purpose. Five were historically black institutions, and another was founded to educate Native Americans. Several were created to prepare teachers for the public schools. Others had a technological emphasis. One is a training school for performing artists.

In 1931 the North Carolina General Assembly redefined the University of North Carolina to include three-state-supported institutions: the campus at Chapel Hill (now the University of North Carolina at Chapel Hill), North Carolina State College of Agriculture and Engineering at Raleigh (now North Carolina State University), and the North Carolina College for Women (Woman's College) at Greensboro (now the University of North Carolina at Greensboro). The new multicampus University operated with one board of trustees and one president. By 1969 three additional campuses had joined the University through legislative action: the University of North Carolina at Charlotte, the University of North Carolina at Asheville, and the University of North Carolina at Wilmington.

In 1971 the General Assembly passed legislation bringing into the University of North Carolina the state's 10 remaining public senior institutions, each of which had until then been legally separate: Appalachian State University, East Carolina University, Elizabeth City State University, Fayetteville State University, North Carolina Agricultural and Technical State University, North Carolina Central University, North Carolina School of the Arts, Pembroke State University, Western Carolina University, and Winston-Salem State University. This action created a 16-campus University. In 1985 the North Carolina School of Science and Mathematics, a residential high school for gifted students, was declared an affiliated school of the University, and it became the 17th constituent institution.

The UNC Board of Governors is the policy-making body legally charged with “the general determination, control, supervision, management, and governance of all affairs of the constituent institutions.” It elects the president, who administers the University. The 32 voting members of the board are elected by the North Carolina General Assembly for four-year terms. Former board chairs and board members who are former governors of North Carolina may continue to serve for limited periods as nonvoting members emeriti. The president of the UNC Association of Student Governments, or that student's designee, is also a nonvoting member. The UNC System Office (http://www.northcarolina.edu) is in Chapel Hill, NC.

Each of the 17 institutions is headed by a chancellor, who is chosen by the Board of Governors on the president’s nomination and is responsible to the president. Each institution has a board of trustees, consisting of eight members elected by the Board of Governors, four appointed by the governor, and the president of the student body, who serves ex officio. (The North Carolina School of the Arts has two additional ex officio members.) Each board of trustees holds extensive powers over academic and other operations of its institution on delegation from the Board of Governors.

ADMISSIONS

The University Catalog contains information about admission requirements, placement tests, transfer of credit, readmission, online/self-paced/part-time studies, and summer orientation sessions.

Undergraduate students. The Office of Undergraduate Admissions (http://admissions.unc.edu) serves students interested in continuing their education at the University of North Carolina at Chapel Hill. Applications from all students are accepted and considered with care and respect.

Admission to the University of North Carolina at Chapel Hill is competitive. Although all 16 public universities in North Carolina share the same minimum course and admission requirements, which are published on the University of North Carolina’s Web site (http://www.northcarolina.edu), these minimum credentials do not guarantee admission to UNC–Chapel Hill, and successful candidates typically exceed them.

Graduate students. Admission to Graduate School academic programs (http://gradschool.unc.edu/admissions) is competitive and students are selected on the basis of their academic preparation, ability, and program fit. For some programs, an on-site preadmissions interview may be required. Early contact with your program of interest can be helpful in preparing your application.
Admission Requirements

In evaluating candidates for admission, the University seeks an entering class whose collective strengths will foster excellence within the University community; enhance the education of everyone within it; provide for the leadership of the educational, governmental, scientific, business, humanistic, artistic, and professional institution of the state, nation, and world; and enrich the lives of all the people of North Carolina.

The University evaluates individual candidates rigorously, holistically, and sympathetically. The members of the admissions committee seek to assess the ways in which each candidate will likely contribute to the campus community and enable the University to fulfill its mission. The qualities we seek include intellect, talent, curiosity, and creativity; leadership, kindness, and courage; honesty, perseverance, perspective, and diversity. Although we expect each successful candidate to demonstrate strength in many of these areas, we do not expect every candidate to be equally strong in all of them. Just as there is no formula for admission, there is no list of qualities or characteristics that every applicant must present.

In evaluating each candidate’s academic record, the admissions committee considers not only the student’s grades but also the courses attempted. Although each candidate’s academic record and standardized test scores are important elements in the admissions decision, the candidate’s essays, accomplishments outside the classroom, and personal qualities are also carefully considered.

By their anticipated date of enrollment, candidates for admission must have graduated from secondary school. In addition, the University asks that candidates present evidence of the capacity to cope with the demands of University life.

Items Necessary for a Complete Application

First-Year Admission

Students who are graduating from a Cooperative Innovative High School in North Carolina who are simultaneously earning a high school diploma and an associate degree may apply for either first-year or transfer admission. Students may apply for first-year admission by following the instructions available at the Office of Undergraduate Admissions (http://admissions.unc.edu). In addition to these materials, applicants may submit information that does not provide one or more of the additional materials listed above.

• Official transcript(s) from all secondary schools and all colleges or universities attended, including summer sessions and including any online or distance-education classes, regardless if college credit was earned or will transfer
• Official results from the SAT or the ACT examination (required only for applicants who would have first-year or sophomore standing upon UNC enrollment)
• Any additional items or information requested in the application or by the Office of Undergraduate Admissions

Applicants who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS), (https://ncresidency.cfnc.org/residencyInfo) and to provide a Residency Classification Number (RCN). (https://ncresidency.cfnc.org/residencyInfo)

The Office of Undergraduate Admissions, in its discretion, may deny admission to students who submit completed applications but who do not provide one or more of the materials listed above.

In addition to these materials, applicants may submit information that will enhance the University’s understanding of their background and preparation for college.

Transfer Admission

Students are considered transfer applicants if they have attended one or more post-secondary institutions after graduating from high school. Students may apply for transfer admission by following the instructions available at the Office of Undergraduate Admissions (http://admissions.unc.edu).

In addition to the completed application, which includes the nonrefundable application fee (or fee-waiver request) and required essays, students are expected to submit the following materials:

• Official transcript from all colleges attended, including summer sessions and including any online or distance-education classes, regardless if college credit was earned or will transfer
• Official secondary school transcript(s)
• Official results from the SAT or the ACT examination (required only for applicants who would have first-year or sophomore standing upon UNC enrollment)
• Any additional items or information requested in the application or by the Office of Undergraduate Admissions
• Recommendation letter (academic, personal, or professional)
• Community standards form or criminal background check (for all enrolling transfer students and for other candidates as requested by the Office of Undergraduate Admissions).

Applicants who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS) (https://ncresidency.cfnc.org/residencyInfo), and to provide a Residency Classification Number (RCN). (https://ncresidency.cfnc.org/residencyInfo)

The Office of Undergraduate Admissions, in its discretion, may deny admission to students who submit completed applications but who do not provide one or more of the additional materials listed above.

Standardized Testing

In accordance with University policy, as well as procedures approved by the Advisory Committee on Undergraduate Admissions, members of the admissions committee evaluate each candidate rigorously, holistically, and sympathetically, with an eye towards assessing the candidate’s capacity to contribute to the kind of campus community that will enable the University to fulfill its mission. Although each evaluation includes the results of standardized testing, these results do not constitute the sole or main criterion for admission. There are no cutoff or threshold scores — that is, no scores below which candidates are automatically denied admission, and no scores above which they are automatically offered admission. Instead, results from standardized testing represent one factor among many. For more about the role of
tests in admissions, please see the Office of Undergraduate Admissions (http://admissions.unc.edu).

Fall/Winter Grades for Transfer Applicants
The Fall (and if applicable Winter) grades should be submitted to the Office of Undergraduate Admissions as soon as they become available. An application will be considered incomplete without them.

High School Course Requirements
Students interested in attending the University should pursue a challenging high school curriculum. Such a curriculum will typically include at least five academic courses during each year of high school—preferably each in the core disciplines of English, mathematics, social science, natural science, and foreign language. We also encourage our candidates to take at least five of the most rigorous courses available to them, including college-level courses offered through programs such as Advanced Placement, International Baccalaureate, or dual-enrollment programs. In evaluating academic performance in such a curriculum, we pay less attention to class rank and grade point average than we do to grades and to trends and patterns in grades.

Since admitted students will take placement exams in foreign language, candidates should consider continuing in advanced foreign language courses during their final year in high school even if they have already met the minimum requirements.

Placement in courses during students’ first semester at the University will be based on their performance on placement tests. Students may also receive credit for University courses based on dual-enrollment courses taken during high school. Although the student will take placement exams in some subjects at the University before the first semester begins, it is to the student’s advantage to take placement tests in high school, especially those accepted by the University for placement purposes. For mathematics placement, the Department of Mathematics strongly recommends that enrolling students arrange to take the Mathematics SAT Subject Level 1 or 2 test, ACT, AP, or IB exams; although these tests are not required for admission, many majors at Carolina require a quantitative reasoning course for which a mathematics placement score is necessary. Foreign language placement may be based on University placement exams, SAT Subject Tests, or College Board Advanced Placement exams. For English placement, students are required to take either English 105 at the University, or present an equivalent transferable course from another college or university. Students also are encouraged to take standardized tests that are recognized for placement in other subject areas.

Dual Enrollment for High School Students
All courses attempted at UNC–Chapel Hill, including but not limited to summer session courses and dual-enrollment courses attempted while a student is still in secondary school, will be included in the UNC grade point average.

Cooperative Innovative High School (Early College) Graduates
Students who graduate from a Cooperative Innovative High School (also known as “Early College”) in North Carolina with an associate degree may apply either as first-year or as transfer candidates. For more information, please see the Office of Undergraduate Admissions. (http://admissions.unc.edu)

Home-Schooled Students
The University welcomes applications from students schooled at home and imposes on those students no special or additional requirements for admission. Since the credentials of home-schooled students may lack some or most of the contextualizing information typically found in the credentials of students schooled in more traditional settings, many home-schooled students take steps to contextualize and clarify their achievement and potential.

College Board Placement Tests
The University recognizes, for placement and degree credit, satisfactory scores on the College Board Advanced Placement, International Baccalaureate, and certain SAT Subject Tests. For more information, please visit the Office of Undergraduate Admissions (http://admissions.unc.edu).

Information about College Board tests and applications for specific tests may be obtained by visiting the College Board (http://collegeboard.org); by writing the Educational Testing Service (Rosedale Road, Princeton, NJ 08541) or by contacting a high school counselor. Applicants should apply to take a test six to eight weeks in advance of the actual test date.

Transfer Candidates
The university system-wide requirements for transfer applicants are listed in the UNC Policy Manual (Chapter 700.1.1.1[R] (http://www.northcarolina.edu/apps/policy/index.php?pg=dl&id=448&format=pdf&inline=1)). Candidates who do not fulfill these requirements or qualify for exemption under the terms outlined in the Policy Manual may still apply for admission and be considered for a possible exception, although such exceptions are made rarely.

To be considered for transfer admission, students must present at least a C average (2.0 on a 4.0 scale) in all courses attempted at other accredited colleges and universities. However, a much higher average is required to be competitive.

Students also must be eligible to return to all institutions previously attended. Students who have less than a C average and who are, therefore, academically ineligible for consideration as transfer students may complete courses at another university in order to raise their grade point average to the point where they may be considered for transfer admission to the University. Courses attempted through any academic program at UNC–Chapel Hill cannot be used to increase a student's grade point average for the purpose of establishing transfer eligibility.
Once an applicant is admitted as a transfer student, all course credits taken at UNC–Chapel Hill become part of the student’s official transcript, and grades received are included in the grade point average.

A transfer student’s class standing upon admission is based on the number of credit hours accepted for transfer by UNC–Chapel Hill, not on the number of semesters enrolled at other colleges. For each 15 hours transferred upon enrollment, the student is considered to have completed the equivalent of one UNC–Chapel Hill semester. Summer enrollment at UNC–Chapel Hill immediately before the first-semester of full-time, degree-seeking enrollment will not count towards the calculation of class standing or semesters completed; nor will Advanced Placement, International Baccalaureate, or other by-examination credit earned.

Although all students at UNC–Chapel Hill are expected to graduate within eight total semesters of postsecondary enrollment, transfer students who enter with 30 or more transferable hours will be granted permission to enter a ninth semester after meeting with an advisor.

Specifically:

- A new transfer student with fewer than 15.0 transferable credit hours will be regarded as having completed no semesters and will have first-year standing upon enrollment at UNC–Chapel Hill.
- A new transfer student having between 15.0 and 29.9 transferable credit hours will be regarded as having completed one semester and will have first-year standing upon enrollment at UNC–Chapel Hill.
- A new transfer student having between 30.0 and 44.9 transferable credit hours will be regarded as having completed two semesters and will have sophomore standing upon enrollment at UNC–Chapel Hill.
- A new transfer student having between 45.0 and 59.9 transferable credit hours will be regarded as having completed three semesters and will have sophomore standing upon enrollment at UNC–Chapel Hill.
- A new transfer student having between 60.0 and 75.0 transferable credit hours will be regarded as having completed four semesters and will have junior standing upon enrollment at UNC–Chapel Hill.

Offers of admission typically are extended before an applicant’s transfer credit can be fully evaluated. As a result, while transfer students are advised of their likely classification at the point of admission, this classification is provisional until confirmed by notification of transfer credits earned.

**Transfer of Credit**

The University will award credit hours for courses from other accredited institutions when the student has made a satisfactory grade (a C or its equivalent) and when a similar course is offered by the University. If a passing grade of D is earned for such a course, the course may be used to fulfill degree requirements (for example, general education and major/minor requirements), but no credit hours will be awarded. If no passing grade is earned, no credit or hours will be granted. In most cases, professional courses and courses taken from nonaccredited institutions (including foreign institutions) will not transfer. The Office of Undergraduate Admissions may grant credit from foreign institutions to entering transfer students when the student provides an evaluation conducted by the World Education Services (http://www.wes.org) (WES®). For other institutions, the courses must be approved through the appropriate University departments, and the departments will determine if the course(s) may be applied toward requirements for the degree.

The Office of Undergraduate Admissions will not award any credit hours to currently enrolled UNC–Chapel Hill students for courses taken outside the United States, including study abroad courses offered by colleges and universities accredited within the United States. Credit will only be awarded for such courses if the UNC–Chapel Hill Study Abroad Office in the College of Arts and Sciences has approved them. If a student enrolls in a study abroad program offered through a UNC professional school and not the College of Arts and Sciences, the student must seek approval through that professional school.

The University honors the official Comprehensive Articulation Agreement with the North Carolina Community College System.

The University will consult two publications when settling questions that arise concerning the transfer of credit. *Transfer Credit Practices*, published by the American Association of Collegiate Registrars and Admissions Officers, and *Accredited Institutions of Post-Secondary Education*, published by the American Council on Education.

A student may petition any University course credit evaluation provided by the Office of Undergraduate Admissions (http://admissions.unc.edu) through the appropriate academic department. Additional information about having courses reevaluated is available at Undergraduate Admissions. The academic department will determine how many, if any, credits can be awarded.

Students seeking transfer admission to the University may wish to plan their courses at their current institution in a way that will ensure the transfer of those courses. The University encourages such prior planning, and the Office of Undergraduate Admissions will assist prospective transfer students with this.

The University will award a maximum of 75 semester hours of transfer credit if the student’s last attended institution was a four-year institution. Students may transfer credit hours from a two-year institution only while they are earning their first 64 hours of college credit. For example, if a student has transferred fewer than 64 credit hours from two-year institutions but has earned 64 or more total credit hours (including hours from UNC–Chapel Hill or other four-year institutions), the student cannot transfer any additional credit hours from a two-year institution.

If a student enrolls in a course at a two-year institution concurrently with enrollment in courses at a four-year institution (including UNC–Chapel Hill), transfer credit hours will not be awarded for the course taken at the two-year institution if the hours from the concurrent courses at the four-year institution bring the total earned hours to 64 or more.

For the calculations described herein, credit hours are tallied according to the chronological order in which the courses are taken, not according to the sequence in which documentation of the credits are submitted to the Office of Undergraduate Admissions.

**Reverse Transfer Credit Initiative**

Students who transfer to UNC–Chapel Hill from a North Carolina community college lacking six or fewer credit hours required for an Associate of Arts (A.A.) or Associate of Sciences (A.S.) degree may transfer credit earned at UNC to fulfill their degree requirements, and they may subsequently use the A.A. or A.S. degree to fulfill all of the University’s lower-division, General Education requirements, with the exception of foreign language or lifetime fitness, provided they complete the following steps within the specified time frame. In order to apply this credit, students should:
• Consult with an academic advisor at their North Carolina community college before the first semester of full-time enrollment at UNC–Chapel Hill, whether fall or spring, to identify UNC–Chapel Hill courses that will satisfy the remaining requirements for the A.A. or A.S. degree;
• Meet with their UNC–Chapel Hill academic advisor no later than the first day of classes for the first semester of full-time enrollment at UNC–Chapel Hill, whether fall or spring, to discuss their intent to fulfill the University’s General Education requirements through the reverse transfer initiative;
• Complete the six or fewer required hours for the A.A. or A.S. within the first semester of full-time enrollment at UNC–Chapel Hill, whether fall or spring; and
• Provide proof from the community college of the A.A. or A.S. degree before the beginning of the third semester of full-time enrollment at UNC–Chapel Hill, whether fall or spring.

Military-Affiliated Students
We welcome applications from veterans of the United States military, active-duty servicemen and women, and their dependents. All persons who have completed a minimum of three years of active duty service will be considered transfer students with the branch of service functioning as the institution of transfer. Veterans and those who remain on active duty may earn as many as 12 hours of University credit for their military education and training, depending upon their experience. Those on active duty will be eligible to have the application fee waived and may qualify for the military tuition benefit, which allows them to attend the University at the in-state tuition rate. Students who are eligible for GI Bill or other veteran education benefits must apply directly to the U.S. Department of Veterans Affairs for these funds.

Active-duty service members and veterans may accelerate their degree path by participating in UNC Core, a program administered by the William and Ida Friday Center for Continuing Education (http://fridaycenter.unc.edu). They may enroll in online and/or correspondence general education courses. Students may:
• Earn the UNC Core Certificate: Students will complete nine courses from a distance for academic credit, earning a total of 27 to 28 academic credit hours in key subject areas. All courses are taken and a certificate is awarded through UNC–Chapel Hill.
• Take individual courses from a distance for academic credit through seven participating University of North Carolina universities.

With both options, students may fulfill most general education requirements for entry into a degree completion program. Admission to UNC Core does not guarantee admission to degree-seeking programs at UNC–Chapel Hill. Students who are ultimately interested in completing undergraduate degrees will need to apply separately for admission to their intended degree programs.

For more information, please visit the Office of Undergraduate Admissions (https://admissions.unc.edu).

Application and Notification Deadlines
First-year applicants may apply for admission for their choice of one of two deadlines, neither of which is binding. The Office of Undergraduate Admissions does its best to evaluate applications similarly across the two deadlines but cannot guarantee complete consistency between the two, since earlier decisions are made before the size and strength of the entire applicant pool is known.

Decisions will be posted securely online for all applicants. For the latest first-year admission deadlines and notification dates, please visit the Office of Undergraduate Admissions (http://admissions.unc.edu).

The application deadline and notification dates for sophomore and junior admission to the College of Arts and Sciences and the School of Media and Journalism are available at the Office of Undergraduate Admissions (http://admissions.unc.edu). The application deadlines and notification dates for junior transfer applicants to the professional schools with programs in dental hygiene, clinical laboratory science, education, health policy and management, information and library science, nursing, radiologic science, and biostatistics vary by department. Please contact the specific department for additional information.

Appeals of Admissions Decisions
For information on appealing an admissions decision, refer to the Admissions Appeal Procedure in the Admissions Policy (p. 24) section of this catalog.

Programs with Limited Admissions
Only a small number of transfer students will be admitted to the professional schools offering majors in allied health and public health, information and library science, and media and journalism programs. Junior transfer students planning to major in business administration, certain education programs, environmental health science, and nutrition must enroll in the College of Arts and Sciences and complete at least one semester before applying for admission to the professional schools offering these degree programs. Students interested in one of these fields may wish to consider another major as a second choice; however, even if admitted to an alternate program, students cannot be guaranteed subsequent admission to their first choice of major. In addition, notification of acceptance to these programs is generally later than for other programs.

Health Program Majors
Early applications for these programs are encouraged. After completion of the fall semester, a transcript of that semester’s work should be submitted. Applicants should also contact the specific department for additional application materials and specific program requirements.

Junior transfer applicants for the pharmacy program must apply directly to the School of Pharmacy. Junior transfer applicants also must provide Pharmacy College Admission Test scores as part of the application. Sophomore students must apply directly to the Office of Undergraduate Admissions.

Music or Dramatic Art Majors
First-year and transfer students applying as music majors should contact the director of undergraduate studies in music at 101 Hill Hall to arrange an audition. Please indicate whether you wish to study voice or an instrument; if an instrument, please indicate which one. Students applying to major in the dramatic arts should contact the director of undergraduate studies in dramatic art at 222 Center for Dramatic Art.

Confirmation of Acceptance
The University requires a nonrefundable enrollment deposit, due by May 1 for first-year admission or mid-May for transfer admission or within two weeks of receipt of the admission decision for students admitted after the deadline, whichever is later.
Degree-seeking students who wish to start their studies during the summer must notify the Office of Undergraduate Admissions of their plans and pay their fall term deposits to reserve a space for the fall term.

Admission of International Students

International students are considered for admission on the same basis as other candidates and must provide the same information required of all other applicants. Note: The following requirements were updated in the Catalog as of 7/24/19, after the original publishing date. See Policy Changes (p. 1166) page. In addition, international students are required to submit an English proficiency exam score from the Test of English as a Foreign Language (TOEFL) (strong applicants typically have a score of 100 or higher), the International English Language Testing System (IELTS) (strong applicants typically have a band score of 7.0 or higher), or the Pearson Test of English (strong applicants typically have a score of 68 or higher) if English is not their native language. As a condition of enrollment, all entering students who have completed coursework from a foreign college or university that is not accredited within the United States must have their official transcripts evaluated by World Education Services (http://www.wes.org) (WES®).

United States immigration law requires proof of financial support for the student’s entire program of study. Before enrollment, admitted students must provide documentation that they have sufficient funds in a bank to cover the first year of tuition and living expenses. See the section “Finances and Financial Aid” in this catalog for information on expenses. The University will issue the necessary visa documentation to those students who are formally admitted to the University. International students should not leave their native country intending to enroll at the University until they have received a formal letter of acceptance and appropriate visa documents.

Questions concerning international student life on the UNC–Chapel Hill campus should be referred to the Foreign Student Advisor, CB# 5240, Room 2004 FedEx Global Education Center, 301 Pittsboro Street, The University of North Carolina at Chapel Hill, Chapel Hill, NC 27599-5240.

Readmission

After their first enrollment at UNC–Chapel Hill, students who withdraw, or for any other reason fail to complete a semester, or who do not enroll in one or more fall or spring semesters, must apply for readmission through the Office of Undergraduate Admissions in order to return to courses on the UNC–Chapel Hill campus in a subsequent fall, spring, or summer term. Application for readmission should be made as early as possible and no later than the stated deadline found on the application for readmission. The readmission application is available at the Office of Undergraduate Admissions (http://admissions.unc.edu). Applicants who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS). (https://ncresidency.cfcn.org/residencyInfo)

Readmission applicants should check any potential holds within the student’s student services center in Connect Carolina before applying. Students leaving the University for disciplinary reasons must be cleared by the appropriate office before being readmitted.

Readmission applicants should be sure that all past due accounts with the Cashier, Student Loans, Libraries, Student Stores, or any other offices or agencies of the University have been brought current and cleared before applying for readmission. Readmission applicants will not be able to register for classes with any past due accounts.

A student leaving the University with an academic deficiency must restore his or her eligibility in order to be readmitted as a regular student. For restoration of eligibility, see the section on Academic Eligibility in the Academic Standing (http://catalog.unc.edu/policies-procedures/academic-standing) section of this catalog.

International Applicants: If an international student is applying for readmission and will require either an F1 or J1 visa, the student should submit the readmission application at least one month before the priority deadline for the term in which the student wishes to return in order to allow adequate time for the processing of the student’s visa paperwork.

Students who have enrolled in courses at another college or university since their last enrollment at the University of North Carolina at Chapel Hill must submit transcripts of these courses and must have maintained a C average for all such courses attempted in order to be eligible for readmission. The grade point average required for readmission is based on all courses attempted on all campuses. (By contrast, a student’s UNC–Chapel Hill grade point average is based on UNC–Chapel Hill courses only.)

To be readmitted, a student must have a 2.000 cumulative UNC–Chapel Hill grade point average, or have successfully appealed for probation through the Office of Undergraduate Retention, a cumulative ratio of completed-to-attempted credit hours of at least two thirds, and the following cumulative number of academic semester credit hours passed:

- 9 academic hours to enter a second semester
- 24 academic hours to enter a third semester
- 36 academic hours to enter a fourth semester
- 51 academic hours to enter a fifth semester
- 63 academic hours to enter a sixth semester
- 78 academic hours to enter a seventh semester
- 93 academic hours to enter an eighth semester
- Special permission of the dean to enter a ninth semester

If a student who earned the status of probation either withdraws from or does not enroll in that probationary semester, the student may employ that probationary status, if needed, when next applying for readmission to a fall or spring semester. By contrast, probationary status granted by the Academic Standing (http://catalog.unc.edu/policies-procedures/academic-standing) section of this catalog.

Nontraditional Readmission

The University’s policy for traditional readmission as an undergraduate requires former students to fulfill certain minimum requirements. These requirements include a specified cumulative grade point average and number of academic hours passed based on their total number of semesters in residence. However, the University recognizes that individuals can gain personal and intellectual maturity over time. In such cases, the University may choose to evaluate applicants for readmission on the basis of their current academic promise rather than their earlier academic performance.

Under this policy, the University will review applicants who have not been enrolled full time in a formal educational program for at least five years and who, by their life experiences, might be considered nontraditional applicants. Readmission to the College of Arts and Sciences under this policy requires the approval of the associate dean for advising or the appeals committee of the college. Readmission to a professional school under this policy requires the approval of the professional school to which the student is seeking readmission.
Advising and degree-granting bodies within the University will monitor the performances of all individuals admitted under this policy. This monitoring will provide up-to-date guidance and counseling and ensure that each person readmitted fulfills the requirements for continued enrollment as specified in the letter from the student’s dean’s office. Students who fail to meet these requirements and who lose their academic eligibility must then meet traditional readmission requirements before they will be permitted to continue their enrollment at the University. A nontraditional readmission to the University is granted only once.

Because the University must adhere to enrollment projections, readmission cannot be guaranteed even if the student is academically eligible.

Admission as a Summer School Visitor
Any student who has not been regularly enrolled or has not been admitted for a fall semester in any school in the University can obtain an application for admission as a visiting summer student on our Web site (http://summer.unc.edu). Applicants (undergraduates and high school students) who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS). (https://ncresidency.cfcn.org/residencyInfo)

Students who are in residence at the University will register for a summer session through Connect Carolina in Spring.

Admissions Confidentiality
The University of North Carolina at Chapel Hill will protect the privacy of all students seeking admission through the Office of Undergraduate Admissions by soliciting and receiving all academic and nonacademic records obtained for the purpose of admission on the condition that they be held in confidence by the University. No information obtained through the admissions process will be shared with individuals, internal or external to the University, other than the chancellor, the provost, and members of the Advisory Committee on Undergraduate Admissions and its subcommittees.

Though current federal legislation allows students enrolling at the University access to their files, candidates do not have access to their applications.

Exceptions to this confidentiality policy will be made only at the direction of the chancellor or the provost.

Intra-University Transfer
Transfer from one school or college within the University is possible with the approval of both academic deans concerned.

Other Credit Programs
Carolina Courses Online
Carolina Courses Online is a distance-education program that offers UNC–Chapel Hill courses over the Internet. For most courses, class sessions are not required, but courses follow the semester schedule. Access to the Internet and email are required in order to enroll. The courses are administered through the William and Ida Friday Center for Continuing Education (http://fridaycenter.unc.edu), (919) 962-1134, cco@unc.edu.

Undergraduate students in the College of Arts and Sciences are limited to 24 credit hours toward a degree at UNC–Chapel Hill through Carolina Courses Online, Summer School, and other for-credit UNC–Chapel Hill courses offered completely via similar modalities.

Self-Paced Courses
Many undergraduate distance-education opportunities are available through Self-Paced Courses, including online and print-based correspondence courses. Students can enroll at any time, work at their own pace, and take up to nine months to complete a course. Undergraduate students in the College of Arts and Sciences are not allowed to take Self-Paced Courses and have them count towards their degree except in unusual circumstances; written consent of the student’s dean is required in order to enroll.

Application forms and course listings for Self-Paced Courses may be found at the William and Ida Friday Center for Continuing Education (http://fridaycenter.unc.edu), CB# 1020, (919) 962-1134.

Admission to Part-Time Classroom Studies
Part-Time Classroom Studies is the academic unit in the William and Ida Friday Center for Continuing Education (http://fridaycenter.unc.edu) through which area adults (customarily students aged 24 and older) enroll in University courses part time. Both undergraduate and postbaccalaureate students are admitted without respect to age, gender, race, color, national origin, religion, creed, disability, veteran’s status, sexual orientation, gender identity, or gender expression.

Part-Time Classroom Studies students may register for a maximum course load of eight credit hours per semester. A small selection of courses is scheduled for the evening hours; the University’s daytime courses are also open to Part-Time Classroom Studies students if space permits.

Undergraduate or high school students desiring to enroll through Part-Time Classroom Studies must submit a nonrefundable application fee and apply through the Office (http://admissions.unc.edu) of Undergraduate Admissions. (https://admissions.unc.edu) Applicants (undergraduate and high school students) who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS). (https://ncresidency.cfcn.org/residencyInfo)

Admission is limited for both prospective degree candidates and for those seeking to take courses for personal benefit and enjoyment. To be eligible, students must have been away from a traditional school setting for at least 12 months and must have graduated from a secondary school. Admission is available to UNC–Chapel Hill faculty and staff employees. Traditional students who have been denied full-time admission to the University are not immediately eligible for enrollment through Part-Time Classroom Studies. All students admitted as prospective degree candidates must meet minimum University requirements for admission. In considering prospective degree candidates for admission, the Office of Undergraduate Admissions shall use the same admissions criteria that it uses to evaluate comparable full-time, degree-seeking students applying to the University. For information about those criteria, please see the sections on first-year and transfer admission above. Students who have a baccalaureate degree may apply online at the William and Ida Friday Center for Continuing Education. (http://fridaycenter.unc.edu)
Admission to Part-Time Classroom Studies does not constitute admission to a degree program at the University. Undergraduates wishing to pursue a degree must be accepted for transfer into one of the degree-granting schools or colleges of the University. For a bachelor’s degree a minimum of 45 academic credit hours must be earned from UNC–Chapel Hill, and at least 24 of the last 30 academic credits must be earned from UNC–Chapel Hill courses. Beyond these minimum course requirements, students attempting to transfer from Part-Time Classroom Studies into one of the degree-seeking schools or colleges of the University must present evidence that they are prepared to make satisfactory progress towards the degree. Postbaccalaureate students must apply and be accepted to a graduate degree program.

Undergraduate students enrolled through Part-Time Classroom Studies for personal benefit and enjoyment may apply to convert to degree-seeking status. Such applications will be reviewed in light of the criteria for admission to Part-Time Classroom Studies for degree-seeking status.

New Student Orientation and Course Registration
First-Year Student and Family Orientation
First-Year Student Orientation is the mandatory summer program designed to introduce first-year students to the University. Students will be acquainted with the academic opportunities and skills needed to take personal responsibility for their academic achievement and persistence, introduced to the programs and services available for UNC students, made aware of University traditions, and connected to their peers and other ways to broaden their Carolina community. First-year students receive information about their course registration process after paying their enrollment deposit. Family members and guests are invited to attend the non-mandatory Family Orientation program, which runs parallel to the student program. The transition process continues when new students arrive in the fall with a variety of activities in the fall through Tar Heel Beginnings programming, which kicks off with the 10-day Week of Welcome period.

Transfer Student and Family Orientation
All newly admitted undergraduate transfer students are required to attend one of the summer Transfer Orientation sessions designed specifically for transfer students to learn about life at Carolina. During this one-day transfer orientation program, new transfer students meet and interact with faculty, staff, and other new transfer students. Students attend formal sessions about UNC policies and services and have the opportunity to learn more about areas of interest to them individually.

To help ensure the availability of preferred courses, transfer students should register for fall classes prior to summer orientation. Transfer students may register for courses online as soon as their deposit is paid, ONYEN and UNC Heelmail are created, and after completing the online academic advising module within Sakai. Family members and guests can choose to attend the non-mandatory family orientation program, which runs parallel to the transfer student program. Transfer students are invited to numerous activities during the fall semester through Tar Heel Beginnings programming, which kicks off with the 10-day Week of Welcome period.

The University of North Carolina at Chapel Hill: Admissions Policy
1. All qualified persons are welcome to seek admission to the University of North Carolina at Chapel Hill, and all persons may apply for and accept admission confident that the policy and regular practice of the institution are not to discriminate in offering access to its educational programs and activities on the basis of age, gender, race, color, national origin, religion, creed, disability, veteran’s status, sexual orientation, gender identity, or gender expression. (See University and Administrative Policies (http://policies.unc.edu/policies/nondiscrim)).

2. Projections of the number of students to be admitted and enrolled in any year shall be determined:
   a. by the capacity of the institution to meet the instructional and other needs of students in the colleges, schools, departments, curricula, or other programs to which applicants seek admission
   b. by enrollment levels approved for budgetary or other appropriate purposes.

3. When at any time the number of qualified applicants for admission exceeds the number of persons who can be admitted and enrolled (as determined by the criteria specified in II above), those to be offered admission shall be selected on the basis of:
   a. recognition of the institution's special responsibility to residents of North Carolina and
   b. the institution’s judgment of the applicant's relative qualifications for satisfactory performance in the specific college, school, department, curriculum, or other program to which the applicant seeks admission.

Provided that the criteria set forth hereinafter are met, this policy of competitive admissions shall not prevent the admission of selected applicants:

1. who give evidence of possessing special talents for University programs requiring such special talents,
2. whose admission is designed to help achieve variety within the total number of students admitted and enrolled, or
3. who seek educational programs not readily available at other institutions.

In seeking variety within the total number of students admitted and enrolled, the University shall affirm its commitment to achieve excellence, to provide for the leadership of the educational, governmental, scientific, business, humanistic, artistic, and professional institutions of the state and nation, and to enrich the lives of all the people of North Carolina.

In the application of this policy of competitive admissions to nonresident students, preference for admission may be given to nonresident applicants who are children of alumni of the institution.

1. Admission of persons to the specific colleges, schools, curricula, or other programs of the institution shall be governed by the provisions set forth below.

Undergraduate Admissions
Admission of undergraduate students to colleges or schools to pursue programs leading to a baccalaureate degree shall be the responsibility of the Office of Undergraduate Admissions. The Admissions Office shall apply policies and procedures that, not inconsistent with policies adopted by the Board of Trustees, are approved by the Advisory Committee on Undergraduate Admissions.

In the application of the provisions set forth in III above, preference for admission shall be given to qualified residents of North Carolina; however, in recognition of the educational and other values accruing to North
Carolina students, to the institution, and to the state from participation of nonresident students in the programs of the institution, nonresidents may be admitted in the entering first-year class in numbers likely to result in no more than 18 percent nonresident enrollment in the entering first-year class.

Admission of undergraduates shall be to the first-year class, to other classes by transfer after satisfactory completion of one or more years of acceptable college-level work in some other institution(s) of higher education, or to Part-Time Classroom Studies.

Admission and enrollment of persons who are candidates for financial aid for which athletic ability is a consideration shall be conditional upon compliance with applicable regulations of the Atlantic Coast Conference and the National Collegiate Athletic Association.

Admission to the First-Year Class

Admission to and enrollment in the first-year class shall be conditional upon graduation from secondary school with such units of secondary school academic course credit as may be specified by the Office of Undergraduate Admissions; however, if all other criteria are met, the Admissions Office may make exceptions to the secondary school graduation and course credit requirements in accordance with procedures approved by the Advisory Committee on Undergraduate Admissions.

Criteria employed for determination of each applicant’s qualifications for admission shall include:

1. satisfactory evidence of scholastic promise based upon the applicant’s previous academic record, recommendations from schools previously attended, scores on selected tests of scholastic aptitude or achievement, and the applicant’s written application for admission, and
2. satisfactory evidence of the applicant’s capacity to cope with the demands of University life.

Admission by Transfer

Admission and enrollment by transfer from another institution shall be conditional upon a satisfactory academic record on work undertaken in all other institutions attended, satisfactory recommendations from institutions previously attended, and eligibility to return to all previously attended institutions of higher education.

Part-Time Classroom Studies Admissions

Eligibility for admission to Part-Time Classroom Studies shall normally be limited to adult individuals living within commuting distance of Chapel Hill.

Admission to Part-Time Classroom Studies of an applicant who does not hold a baccalaureate degree shall be the responsibility of the Office of Undergraduate Admissions. Such admissions shall be either

- For full credit, applicable toward fulfillment of degree requirements, in which case the minimum requirements shall be the same as those for admission to degree programs and in which case the Office of Undergraduate Admissions shall review each applicant using the same admissions criteria as for comparable full-time, degree-seeking students applying to the University; OR
- For personal benefit and enjoyment, in which case the applicant may be exempted from the qualitative requirements for admission to degree programs. Notwithstanding this exemption from qualitative requirements, the applicant must have graduated from an approved or accredited secondary school and must demonstrate the capacity to cope with the demands of University life.

Admission to Part-Time Classroom Studies of an applicant who is currently enrolled in high school shall be the responsibility of the Office of Undergraduate Admissions. Such admissions shall be considered only when an applicant:

1. seeks to enroll in a University course for which there is no comparable course at the student’s secondary school and
2. demonstrates adequate preparation for the course in which the student seeks to enroll.

Admission to Part-Time Classroom Studies of an applicant who holds a baccalaureate degree shall be the responsibility of the William and Ida Friday Center for Continuing Education. Such admissions shall be for personal benefit and enjoyment, for the satisfaction of prerequisite requirements for professional or graduate programs, or for transfer of credit to a postbaccalaureate degree program, in which case the applicant may be exempted from the qualitative requirements for admission to degree programs.

Graduate School Admissions

With recognition of the institution’s special responsibility to residents of North Carolina but without restrictions based on residence status, admission to The Graduate School shall be a selective process with the objective of enrolling from the pool of applicants for each discipline those students who, in the judgment of the institution, are best qualified to pursue graduate degrees in their chosen academic fields. Admission of graduate students shall be the responsibility of the dean of The Graduate School with the advice and assistance of the Administrative Board of The Graduate School and of the graduate faculties of the departments, schools, and curricula authorized to offer graduate degree programs.

For admission to The Graduate School, the applicant must

- Hold a baccalaureate degree from an accredited college or university in the United States or its equivalent from an institution abroad
- Present a strong overall record of academic achievement
- Be in good standing in the last-attended institution where graduate work has been or is being taken, and
- Be admitted as a degree student unless there are exceptional circumstances justifying admission for nondegree study with the approval of the dean of The Graduate School.

The graduate student enrollment level for each school, department, or curriculum shall be determined for each academic year by the dean of The Graduate School following consultation with each of the schools, departments, and curricula concerned.

Professional School Admissions

Admission of students to the professional degree programs in schools other than The Graduate School and to nondegree programs in the schools of the Division of Health Affairs shall be, in each of these schools, the responsibility of its established committee on admissions, which shall apply policies, procedures, and requirements, not inconsistent with the provisions of this policy, adopted by the faculty of the school and approved by the chancellor or his delegate.
Summer Admissions

Admission of applicants to any summer session shall be the responsibility of:

- Of the Office of Undergraduate Admissions with respect to those who wish to begin in the summer an undergraduate program of study that will continue into the following academic year or that is intended to lead to a baccalaureate degree from the University of North Carolina at Chapel Hill, as well as those undergraduates previously enrolled at this institution who would like to return for undergraduate work in the summer.
- Of The Graduate School with respect to those who wish to begin a degree program of graduate study in the summer, as well as those graduate students already enrolled in this institution who wish to return for graduate study in the summer.
- Of Part-Time Classroom Studies in the Friday Center for Continuing Education with respect to those who wish to begin in the summer on a part-time basis as a postbaccalaureate nondegree student, as well as those already enrolled in the University of North Carolina at Chapel Hill who wish to return for part-time study in the summer.

Admission to Summer School by the dean of Summer School shall be in conformity with the provisions set forth in this policy for other undergraduate and graduate admissions.

Admission to Summer School by the dean of Summer School shall be in conformity with policies, procedures, and requirements adopted by the Administrative Board of Summer School. Each such admission shall terminate as of the last day of that summer term and shall include no commitment, stated or implied, for admission of the student to any subsequent semester or session of the University of North Carolina at Chapel Hill.

1. Appeals concerning individual admission, or admission rescission, decisions shall be governed by the admissions appeal procedure contained in Appendix A.

* This policy adopted by resolution of the Board of Trustees on September 3, 1976.

* Amended by Board of Trustees, August 24, 1984.

* Amended by Board of Governors, March 14, 1986.

* Amended by Board of Trustees, May 27, 1994.

* Amended by Board of Trustees, effective January 1, 2006.

* Amended by Board of Trustees, effective January 23, 2014.

Appendix A: Admissions Appeal Procedure

Revised August 2016. This document sets forth the procedures to be followed with respect to the appeal of a negative admissions decision, including a decision to rescind an admission that has already been granted.

1. Appeal to Admissions Officer

Appeals concerning individual admission, or admission rescission, decisions may be had only if it is contended that:

a. a provision set forth in the University of North Carolina at Chapel Hill admissions policy ("admissions policy") has been violated or

b. the decision not to admit the individual or to rescind admission resulted from a material procedural error in the admissions process.

An applicant's omission of relevant information from the original application for admission will not ordinarily constitute grounds for an appeal; nor will academic or personal circumstances that changed after the submission of the application. Such an appeal shall be lodged by the applicant-appellant with the administrative officer (the director of undergraduate admissions, the dean of The Graduate School, the dean of the professional school concerned, or the dean of Summer School) whose office had responsibility for the admission in question (hereafter the "admissions officer") within 30 days after the University posts the appellant's online decision. The appeal shall be in writing and shall set forth the grounds for the appeal.

Upon receipt of the appeal, the admissions officer or the admissions officer's designee shall review the applicant-appellant's file and appeal letter and shall communicate his or her decision to the appellant in writing.

2. Appeal to Provost

The decision of the admissions officer may be appealed to the provost only if it is contended that:

a. a provision set forth in the admissions policy has been violated or

b. the decision not to admit the individual or to rescind admission resulted from a material procedural error in the admissions, or appeal, process.

An applicant's omission of relevant information from the original application for admission or from the appeal to the admissions officer will not ordinarily constitute grounds for an appeal; nor will academic or personal circumstances that changed after the submission of the application or the appeal to the admissions officer. Such an appeal shall be lodged with the provost by filing a letter of appeal specifying the grounds for the appeal within 15 days after the appellant has received the letter communicating the decision of the admissions officer.

The appeal shall be heard by the provost or the provost's designee, and the appellant, at his or her option, may appear in person or conduct the appeal by telephone. Following the hearing, the provost or designee will communicate the decision to the appellant in writing. The decision of the provost is final, and no further appeal is available.

N.C. Community College Transfer Articulation and Pathways

If you are currently attending a community college with plans to transfer to UNC, we have developed baccalaureate degree plans for our most popular majors which can help you select your coursework at the community college. By following these degree plans, you will best be positioned to transfer smoothly to UNC and complete your desired major. Please note that these are recommendations only. We do not require or expect that all transfer students will have completed the courses listed on these pathway documents.

To review recommended pathways from previous years (2014-2019), please see the Undergraduate Admissions Web site (https://admissions.unc.edu/credit/credit/information-for-transfers-from-nc-community-colleges).

1 Students who complete both ENG 111 and 112 receive credit for UNC ENGL 100 + ENGL 105.
2 Course may have prerequisite(s). Consult the North Carolina Community College Combined Course Library (https://www.nccommunitycolleges.edu/academic-programs/combined-course-library) for most current information.
3 ECO 251 + 252 = UNC ECON 101 + UNC GENR 140.

### Additional Resources

#### Applying to Carolina

- The Office of Undergraduate Admissions (https://admissions.unc.edu/apply/transfer-students) provides information about the application process for transfer students.

#### Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (https://www.nccommunitycolleges.edu/sites/default/files/basic-pages/academic-programs/attachments/transfer_course_list_appendixg_2019.pdf).
Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

**Additional Resources**

- To find out how your N.C. community college coursework will transfer to UNC, please view the Common Curriculum [here](https://admissions.unc.edu/files/2019/03/NCCC_Common_Curriculum_2018-2019.pdf).
- If you completed an associate's degree prior to 2014 or under the old common curriculum, please view the rules [here](https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

Applying to Carolina

- The Office of Undergraduate Admissions (https://admissions.unc.edu/apply/transfer-students) provides information about the application process for transfer students.
Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (https://www.nccommunitycolleges.edu/sites/default/files/basic-pages/academic-programs/attachments/transfer_course_list_appendixg_2019.pdf).
- Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

Additional Resources

- If you completed an associate’s degree prior to 2014 or under the old common curriculum, please view the rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

1 IMPORTANT Note: Junior transfer biology B.S. students MUST meet with Dr. Gidi Shemer when planning their courses at Carolina. If choosing to complete a minor, please work closely with your academic advisor to ensure you can complete all requirements and to discuss sequencing.

1 Required in the major.
2 Fulfills EE requirement (recommended). If EE is fulfilled by a course in the major, it can count as a BIOL elective or BIOL elective with lab (e.g., 1 or 2 semesters of BIOL 395, respectively).
3 PHY 114 and PHY 115 should not be separated; you should take both at either the community college or UNC. Do not take one at the community college and jump into the other at UNC.
4 Allied Sciences electives are determined based on science courses taken at the community college.
5 CHEM 262L is not needed if it is completed at the community college.

### Additional Resources

**Applying to Carolina**

- The Office of Undergraduate Admissions (https://admissions.unc.edu/apply/transfer-students) provides information about the application process for transfer students.

**Advising and Community College Course Selection**

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (https://www.nccommunitycolleges.edu/sites/default/files/basic-pages/academic-programs/attachments/transfer_course_list_appendixg_2019.pdf).
- Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

**Additional Resources**

If you completed an associate’s degree prior to 2014 or under the old common curriculum, please view the rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

### Additional Resources

#### Applying to Carolina

- The Office of Undergraduate Admissions (https://admissions.unc.edu/apply/transfer-students) provides information about the application process for transfer students.

#### Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (https://www.nccommunitycolleges.edu/sites/default/files/basic-pages/academic-programs/attachments/transfer_course_list_appendixg_2019.pdf).
Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

Additional Resources
• To find out how your N.C. community college coursework will transfer to UNC, please view the Common Curriculum (https://admissions.unc.edu/files/2019/03/NCCC_Common_Curriculum_2018-2019.pdf).
• If you completed an associate's degree prior to 2014 or under the old common curriculum, please view the rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

Linguistics, A.A.-B.A.

About the Undergraduate Catalog

The Undergraduate Catalog is a valuable resource that prospective and enrolled students can use throughout their days at the University of North Carolina at Chapel Hill. The Catalog supplies general information about the University to prospective students and their parents. It includes information about application procedures and about orientation and matriculation for undergraduate students who have been accepted.

Academic regulations, University facilities, and college life also are described. Departmental degree requirements and course offerings are included, but students in some specialized curricula will be referred to other publications for additional information. Enrolled students are encouraged to use the Catalog in addition to talking with advisors and consulting their Tar Heel Tracker for undergraduate degree requirements.

This catalog is concerned primarily with prospective students and with undergraduates enrolled in the General College, the College of Arts and Sciences, and the Schools of Business, Dentistry, Education, Information and Library Science, Media and Journalism, Medicine, Nursing, Pharmacy, and Public Health, as well as Summer School.

The following additional catalogs and admissions brochures are published by the University of North Carolina at Chapel Hill, in print form and/or on the Web: Kenan–Flagler Business School, School of Dentistry, School of Education, School of Government, School of Information and Library Science, School of Media and Journalism, School of Law, School of Medicine, School of Nursing, Gillings School of Global Public Health, School of Social Work, and Summer School. Part-Time Classroom Studies and Self-Paced Courses also publish course catalogs.

Students may expect to receive a degree by fulfilling the requirements of a curriculum as specified in the Undergraduate Catalog for the year in which the student matriculated at the University of North Carolina at Chapel Hill. The University is not strictly obligated to fulfill this expectation since changes to the structure of degree requirements may entail widespread curricular adjustments, but it will make every effort to modulate changes so that appropriate substitutes for particular requirements, or particular courses, are available to students operating under a previous set of expectations. The faculty reserves the right to make any changes deemed necessary in the curricula and in regulations. By University policy, the regulations in this catalog are not necessarily valid beyond the academic year for which it was published.
GENERAL EDUCATION CURRICULUM AND DEGREE REQUIREMENTS

Making Connections: The General Education Curriculum

The University of North Carolina at Chapel Hill strives to cultivate the range of skills, knowledge, values, and habits that will allow graduates to lead personally enriching and socially responsible lives as effective citizens of rapidly changing, richly diverse, and increasingly interconnected local, national, and worldwide communities. To this end the General Education curriculum seeks to provide for all students

1. the fundamental skills that will facilitate future learning,
2. broad experience with the methods and results of the most widely employed approaches to knowledge,
3. a sense of how one might integrate these approaches to knowledge in ways that cross traditional disciplinary and spatial boundaries, and
4. a thorough grounding in one particular subject.

The undergraduate major is dedicated to the last of these curricular objectives; the others fall under the purview of the General Education curriculum.

The Making Connections curriculum is divided into four broad categories (Foundations, Approaches, Connections, and Supplemental General Education) that can be described in the chart below and the sections that follow.

Foundations

General Education rests on certain foundational skills and knowledge, including the ability to communicate effectively both in English and another language and to apply quantitative reasoning skills in context. Consequently, the Foundations component of the curriculum includes courses in English composition and rhetoric, at least one foreign language, and quantitative reasoning. It also includes a lifetime fitness course that encourages the lifelong health of graduates. In most cases, students should be able to fulfill the Foundations requirements by taking no more than 15 credit hours.

Note on the Importance of Communication Skills

The faculty of the General College and the College of Arts and Sciences expects students to write and speak effectively. Instructors should help students realize that there is a direct relationship between thinking clearly, writing clearly, and speaking clearly. Faculty members in all disciplines and professions should therefore develop the writing and speaking skills of their students. Students should expect to be graded on spelling, grammar, and style, as well as on the content and organization of their written work; in addition, students should expect to be graded on presentation, style, poise, and diction, as well as on the content and organization of their oral presentations.

Students who wish to improve their writing can make appointments with a tutor in the Writing Center. This free, noncredit service is available to any member of the University community.

All entering first-year, first-time students at the University must complete, or transfer in, ENGL 105 or ENGL 105I. ENGL 105 introduces students to several disciplinary contexts for written work and oral presentations required in college courses, whereas ENGL 105I introduces students to one specific disciplinary context — digital humanities, natural sciences, social sciences, humanities, law, business, or health and medicine — for such written and oral assignments. Exempting the course on the basis of nationally normed examinations is not possible. Students may prepare for ENGL 105 or ENGL 105I while in high school by taking courses in English composition and speech communication beyond the requirements for admission to the University.

Transfer students who have not completed the CR Foundations requirement are strongly urged to register for ENGL 105 during their first semester at Carolina. Transfer students have the option of completing a portfolio of written work (http://englishcomplit.unc.edu/writingprogram/transfer-students-portfolio-placement-information) that will be evaluated by instructors in the Department of English and Comparative Literature to receive credit for ENGL 105. If placement scores or the portfolio indicates a need for instruction and practice in preparation for ENGL 105, students will be required to pass ENGL 100 (offered only in the fall) before taking ENGL 105.

Students must complete the CR requirement during the first academic year on campus. Any student whose native language is not English will be required, as all students are, to complete ENGL 105. However, such students may be permitted also to fulfill the Foundations foreign language requirement with ENGL 105, provided that an authorized representative of the appropriate University department has confirmed the student's native language proficiency up to or through level 4.

Foreign Languages (FL), Through Level 3

- Through level 3

The study of a foreign language enables students to see more clearly the nature and structure of their native language while gaining an understanding of a foreign culture. Students are required to complete courses or demonstrate proficiency in the study of a foreign language through level 3. Certain majors may require additional levels of foreign language study.

Students should improve their language preparation by continuing their foreign language study through the senior year of high school. It is preferable that they complete four years of one high school language rather than, for example, taking two years each of two different languages.

Placement in a foreign language is determined by the student's score on a College Board SAT Subject Test, the Advanced Placement Test in a foreign language (taken at the completion of language study in high school), or the appropriate placement test as determined by the UNC–Chapel Hill academic department offering foreign language instruction. Regardless of placement, continuous enrollment, beginning in the first or second semester, is strongly recommended until the Foundations foreign language requirement is completed.
In the following paragraphs, “high school foreign language” refers to the foreign language in which students received the equivalent of at least two years of instruction in grades nine through 12.

Students whose placement in their high school foreign language is below level 4 and who wish to continue in this language are required to take the number of courses that are needed to complete through level 3 of that language. That number varies depending on the level into which a student places. Credit hours toward the 120-academic-hour graduation requirement are not awarded for level 1 of a student’s high school foreign language (with the exceptions of Chinese, Japanese, and Modern Hebrew), even if students place by examination into level 1. Grades earned in level 1 courses, however, are computed in the students’ grade point average and are used in all academic eligibility and academic load considerations.

Note: This policy has changed since the publication date of this Catalog. See Policy Changes (p. 1166).

Students who enroll in a foreign language that they have not formally studied before are required to complete through level 3. In this case, credit hours toward the 120-academic-credit-hour graduation requirement are awarded for successful completion of level 1.

Students who place into level 4 of their high school foreign language have satisfied the Foundations foreign language requirement and will receive placement (PL) but no credit hours for level 3. Note: Students who place into level 4 of Latin on the online diagnostic exam are required to take an additional on-campus test if they wish to receive placement (PL) credit for level 3 and thus fulfill the foreign language General Education requirement; see the Department of Classics (https://classics.unc.edu) for additional information. Students who place beyond level 4 of their high school language have fulfilled the Foundations foreign language requirement and are awarded placement (PL) but no credit hours for levels 3 and 4.

For information about foreign language placement for native and experiential speakers, see Foreign Language Placement Credit (p. 1167).

### Quantitative Reasoning (QR), One Course

• One course (three hours)

Through the study of quantitative reasoning and methods, students acquire and reinforce the ability to use analytic and quantitative ideas in both theoretical and applied contexts. In today’s world of fast-paced scientific and technological advances, the importance of such skills cannot be overstated.

Students should prepare by taking precalculus and/or calculus in high school and by continuing their mathematical studies up through their senior year of high school. Not doing so may put them at a disadvantage when they arrive at the University.

Students may satisfy the quantitative reasoning requirement either by taking or receiving advanced placement for one of the courses listed below. Several of these courses have a prerequisite of MATH 110 (algebra) or a placement score beyond MATH 110 on the College Board SAT Subject Test in Mathematics, Level 1 or Level 2. Unless a particular major requires those specific courses, however, a student may fulfill the quantitative reasoning requirement with courses that do not require MATH 110 as a prerequisite. MATH 110 placement carries no credit hours, although students who place into MATH 110 and complete it successfully will earn credit hours towards graduation.

Students should be aware that some undergraduate degree programs require completion of specific mathematical sciences courses beyond those needed to fulfill General Education requirements.

Lifetime Fitness (LFIT), One Course

- One course (one hour)

Lifetime fitness (LFIT) courses combine the practice of a sport or physical activity that can be sustained in later life with broader instruction in lifelong health. These courses carry one hour of academic credit and may be declared Pass/Fail. Students can enroll in only one, one-credit lifetime fitness course during their career at the University, and only one lifetime fitness course can be counted toward the 120 hours needed for graduation.

Approaches

The Making Connections curriculum also acquaints students with six distinctive Approaches to knowledge, as represented by courses in the physical and life sciences, the social and behavioral sciences, historical analysis, philosophical and/or moral reasoning, literary arts, and the visual and performing arts. Students meet these requirements by taking courses worth a total of 25 credit hours.

Physical and Life Sciences (PL, PX), Two Courses

- Two courses (seven hours)

Students must take two courses, at least one of which has a required laboratory component. Science courses combining lecture and laboratory components normally constitute four hours of credit. Some lecture courses may be taken singly for three credit hours or combined with an optional matching laboratory for one additional credit hour. All courses in this category emphasize a physical science, a life science, the scientific basis of technology, or a combination of these topics. Students who have exceeded minimum high school science requirements typically have an advantage in the University’s science courses.

Some of the courses listed above have an optional laboratory and may be used to satisfy the physical and life sciences with laboratory (PX) requirement.

**Note:** The lecture is either a pre- or corequisite to the laboratory; see course description. The student must take both the lecture and the associated laboratory in order to receive credit for the physical and life sciences with laboratory (PX) requirement. Without the associated optional laboratory, the lecture course counts as a physical and life sciences (PL) class.

**Social and Behavioral Sciences (SS, HS), Three Courses**
- Three courses from at least two different academic units (nine hours); at least one of the three courses must be classified as a historical analysis (HS) course.

Courses in social and behavioral sciences focus on the scientific study of individual or collective behavior, considering the various dimensions of individual behavior, the family, society, culture, politics, and the economy.

**Social Sciences (SS)**

Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

**Connections**

The Making Connections curriculum builds on previously acquired knowledge and establishes links between discrete forms of knowledge, both by encouraging interdisciplinary contact and conversation and by inviting students to develop and apply their academic expertise in environments beyond the University classroom.

Because Connections courses may meet multiple requirements at once (including Approaches requirements, other Connections requirements, major and/or minor requirements, or the Supplemental General Education requirement), most students should be able to fulfill the eight Connections requirements without taking credit hours in addition to those needed to fulfill Foundations, Approaches, and major/minor requirements.

**Communication Intensive (CI), One Course**

Communication intensive courses integrate written work, oral presentations, and processes of revision into the course subject matter in substantive and important ways. They build on and enhance skills acquired in English composition and rhetoric classes as well as foreign language classes by preparing students to write and speak effectively in disciplinary areas.

Quantitative Intensive (QI), One Course

Quantitative intensive courses focus especially on the ways that quantitative reasoning can be applied within particular fields. They involve modeling and problem solving, numerical reasoning, the collection and interpretation of quantitative data, mathematical analysis, the application of formal logic and proofs, or some combination of these. The requirement can be satisfied by taking one course from the list below or by taking a second quantitative reasoning (QR) course from the list of approved courses in that category. Enrollment and GPA restrictions may apply.

Experiential Education (EE), One Course

- One course or credit-bearing activity is required.

Experiential education courses connect academic inquiry with a structured, active learning experience in which students exercise initiative and apply academic knowledge in various real-world contexts (geographic, social, cultural, etc.). Students may satisfy the experiential education requirement in a number of ways. They may participate in specifically approved undergraduate research programs or approved service-learning courses, take an approved course with a substantial field work component, participate in a University-approved study abroad program, complete an approved internship or honors thesis administered through an academic unit, or participate in an approved community- or audience-oriented creative activity. Please see the Study Abroad Program Office (http://studyabroad.unc.edu) for additional experiential education opportunities.

### U.S. Diversity (US), One Course

Courses in U.S. diversity help students develop a greater understanding of diverse peoples and cultures within the United States and thereby enhance their ability to fulfill the obligations of United States citizenship. These courses address in systematic fashion one or more aspects of diversity in the United States, whether arising from ethnic, generational, class, gender, sexual, regional, or religious differences.

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

**Global Issues (GL), One Course**

Courses in global issues provide knowledge and understanding of transnational connections and global forces. Those forces involve interrelationships among cultures, societies, nations, and other social units, and they include processes such as migration, urbanization, trade, diplomacy, cultural adaptation, and information flow.

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Supplemental General Education

Students who pursue the bachelor of arts degree also must satisfy a Supplemental General Education requirement. The intent of this requirement is to broaden a student’s perspective on the major by examining its relationship to work in at least one other field. Students may fulfill the Supplemental General Education requirement in three ways:

• By completing a second major or a minor; or
• By completing three courses (nine hours) above 199 that are offered outside the home department or curriculum of the first major. These three courses can neither be used to fulfill the requirements of the first major nor be cross-listed with courses that a student has used to satisfy major requirements; or
• By completing a concentration outside a professional school as part of the degree requirements for graduating from the school.

Catalog Year

The requirements of the Making Connections curriculum apply to students beginning undergraduate study in or after the fall semester of 2006. Because students are subject to the requirements in place when they were admitted to the University of North Carolina at Chapel Hill, the General Education requirements described in this catalog particularly apply to students entering the University during the 2019–2020 academic year.

The courses listed above satisfy the General Education requirements during the 2019–2020 academic year. Because the content and structure of a course may change, the requirements it fulfills also may change. To determine which courses will satisfy General Education requirements in future years, students should consult ConnectCarolina or subsequent issues of the Catalog.

Office of Undergraduate Curricula

James Thompson, Associate Dean
Nick Siedentop, Curriculum Director
The Office of Undergraduate Curricula (http://curricula.unc.edu) has primary responsibility for monitoring all curricular changes in the General College and the College of Arts and Sciences. This office receives and reviews all requests for new courses, course revisions, changes to degree programs, and proposals for new minors, majors, and curricula.

Requirements for Undergraduate Degree Programs

The requirements and limitations that apply to all undergraduate degree programs are as follows:

• Students must successfully complete at least 120 semester hours of coursework (requirements are higher than this minimum in some bachelor of science degree curricula)
• Students must have at least a 2.000 final cumulative grade point average on all work attempted at the University of North Carolina at Chapel Hill.
• Students must satisfy all General Education requirements. In some B.S. programs offered by professional schools, General Education requirements may be reduced. No course used as a General Education requirement may be declared Pass/Fail, except for lifetime fitness (LFIT) courses and some forms of experiential education that award only Pass/Fail credit.
• A minimum of 45 academic credit hours must be earned from UNC–Chapel Hill courses. These may include credits from study abroad programs sponsored by the University.
• At least 24 of the last 30 academic credit hours applied to the degree requirements must be earned in UNC–Chapel Hill courses.
• To earn a degree in the College of Arts and Sciences, students must complete a minimum of 90 credit hours of courses in the College.
• The maximum number of credit hours from distance-learning courses, all of which must be designated UNC–Chapel Hill, that can be counted toward an undergraduate degree in the College of Arts and Sciences is 24. Refer to Policies and Procedures (p. 1167) for more information.
• No more than 45 semester hours in any subject, as defined by subject code, may be used toward fulfilling the B.A. graduation requirement in the College of Arts and Sciences (excluding ENGL 100, ENGL 105, and ENGL 105I).

The Policies and Procedures (p. 1166) section of this catalog contains information on many important topics, including registration, academic course load, academic eligibility, repeating course enrollments, final examinations, and the grading system, among others.

Students who enter the University as first-year students are expected to complete their undergraduate degree in eight semesters. Summer terms are not included in the semester count. Students who wish to attend a ninth semester must submit a written petition to, and receive permission from, their dean’s office. Permission to enroll in a ninth semester or beyond must be secured in advance. Permission to enroll in a ninth semester or beyond will not be granted for the sole purpose of completing multiple areas of study (i.e., a secondary major and a minor or two minors). However, students who receive permission to enroll in a ninth semester or beyond for other reasons may retain a secondary major or minor.

Transfer students (who transfer in the UNC–Chapel Hill equivalent of two or more semesters) may enroll in up to 10 total semesters and complete up to three areas of study (i.e., a secondary major and a minor or two minors).

Requirements for Majors

The following requirements and limitations apply to all undergraduate academic majors at the University:

• Unless specifically prohibited by departments or curricula, major or minor courses may be used to satisfy General Education requirements.
• Courses in a student’s major academic unit, or specifically required by the major, including foreign language courses, electives, and any additional required courses (or any courses cross-listed with such required courses) may not be declared a Pass/Fail course (p. 1175).
• Although a specific grade point average in the major is not required, a minimum of 18 hours of C or better (C- does not qualify) in the major core is required. Certain majors require 21 hours of C or better grades in the major core.
• Students transferring credits in their major field must earn a grade of C (not C-) or better in at least three-fourths of those courses and credit hours in the major that are taken at UNC–Chapel Hill. Courses taken on a study abroad program through the UNC Study Abroad Office may receive TREQ credit; TREQ credit contributes to the hours of C in the major.
• All students, including students transferring from another institution, must take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill.
• Some majors require a gateway course that must be taken first, before enrolling in any other courses that satisfy the core requirements in the major. Students must earn a grade of C or better (C- does not qualify) in the gateway course. Unless otherwise noted, the gateway course is not counted in the hours of C in the major core.
• No more than two courses (six to eight credit hours) of BE credit (p. 1167) may be used as part of the major core.

Requirements for Minors

Students enrolled in the College of Arts and Sciences who wish to complete a minor in a professional school must receive permission from the professional school.

The following requirements and limitations apply to all undergraduate academic minors:

• A student may have no more than two minors, regardless of the student’s major degree program. Academic units may exclude certain minors from being elected and completed by students majoring in these units.
• More than half (not merely half) of the credit hours and courses (including cross-listed courses) taken to satisfy the minor
requirements must be counted exclusively in the minor and not
double-counted in other majors or minors.

- At least nine hours of the minor must be completed at UNC–Chapel
  Hill and not at other academic institutions. Certain academic units
  may require that more than nine hours must be completed at the
  University.

- Some academic units may disallow the double-counting of courses in
  the minor and as General Education courses.

- A minimum of 12 hours of C (not C-) grades or better is required in
  the minor, though some minors may require more. Students who
  transfer courses into the minor must earn C or better grades in three-
  quarters of the courses and hours that they take for the minor at
  UNC–Chapel Hill. Students who use By-Examination (BE) credit (see
  section below) toward a minor may have fewer than 12 hours of
  coursework remaining to complete the minor (especially for minors
  with fewer than five courses or 15 hours); in these situations, earning
  grades of C or better in all of the remaining coursework is required.

- No more than one BE credit (p. 1167) course (three to four credit
  hours) may be used as part of a minor.

- All courses in the minor unit must be taken for a regular letter grade.
  Courses in a student’s minor unit, or specifically required by the minor,
  including foreign language courses, electives, and any additional
  required courses (or any courses cross-listed with such required
courses) may not be declared a Pass/Fail course (p. 1175).

- If students plan to pursue the completion of a minor, they are
  encouraged to declare their minor by early in the junior year.

Combining Majors and Minors

Students in the College of Arts and Sciences are permitted to study up to
three subjects in depth. They may do this in one of the following ways:

- one major
- two majors
- one major and one minor
- two majors and one minor
- one major and two minors

Students enrolled in professional schools who wish to have a second
major or minor in the College of Arts and Sciences must receive
permission from their professional school and the College of Arts and
Sciences; students who receive permission to have a second major in
the College of Arts and Sciences are required to complete all General
Education requirements, including all eight Connections. Students
enrolled in professional schools who wish to have a second major or
minor in a different professional school must receive permission from
both professional schools.

A student may pursue in-depth study in multiple areas by fulfilling all
major/minor requirements in each of the selected disciplines, in addition
to General Education requirements. Students may not pursue two
concentrations (emphases, options, or tracks) within the same major.
In general, students may pursue a minor in the same department or
curriculum as the major; provided they follow the double-counting rules
described below and do not exceed 45 credit hours of coursework in any
one subject. For example, a major in Asian studies with a concentration
in Japanese and a minor in Korean, both housed in the Department of
Asian Studies, are permitted. Some departments may restrict majors and
minors within the same academic unit, so please consult an academic
advisor, the department, or the curriculum.

Courses that fulfill core requirements for a major or minor may be double-
counted (applied to a second major or minor) with the following general
limitation: more than half (not merely half) of the courses and course
credit hours taken in each major/minor must be exclusive to that major/
minor. In a 10-course major, for example, at least six courses, and at
least 51 percent of the credit hours, should be counted exclusively in that
major and should not double-count even if cross-listed with courses in
a student’s second major or a minor. Some majors may further restrict
double-counting courses. Students who are pursuing two majors and a
minor (or two minors and a major) may, in principle, use a single course
to satisfy requirements in all three areas of study, provided that more
than half (not merely half) of the courses and course credit hours taken in
each major/minor are exclusive to that major/minor.

Graduation

Beginning with the first day of registration for the term for which students
expect to graduate, they should file an application for graduation online in
ConnectCarolina or in person in the office of the dean. For students in the
College of Arts and Sciences, this is the office of the Academic Advising
Program. A student who has not filed an application for graduation on or
before the announced deadlines for fall or spring graduation will not be
included in the graduation program.

Students must pay tuition, fees, and other obligations owed the University
before receiving a diploma.

Graduation Requirements and Tar Heel Tracker

For students in the College of Arts and Sciences, total graduation
requirements are determined by advisors in the Academic Advising
Program (Steele Building) in conjunction with ConnectCarolina’s Tar Heel
Tracker degree-audit system. For students admitted to a professional
school (education, media and journalism, nursing, information and
library science, public health, business, dentistry), total graduation
requirements are determined by advisors in their school in conjunction
with ConnectCarolina’s Tar Heel Tracker.

Undergraduate Degree Programs

The University offers programs of study leading to the bachelor of arts
(B.A.), bachelor of arts in education (B.A.Ed.), bachelor of arts in media
and journalism (B.A.M.J.), bachelor of fine arts (B.F.A.), bachelor of music
(B.Mus.), bachelor of science (B.S.), bachelor of science in business
administration (B.S.B.A.), bachelor of science in information science
(B.S.I.S.), bachelor of science in nursing (B.S.N.), bachelor of science in
pharmaceutical sciences (B.S.Ph.S.), and bachelor of science in public
health (B.S.P.H.) degrees.

The College of Arts and Sciences offers more than 50 major fields
of study (p. 181). Professional school majors are also available to
undergraduates by application and acceptance. Specific requirements for
each major are included in this catalog. For information about the other
undergraduate degree programs, please refer to the professional schools’
sections in this catalog.

Bachelor of Arts

Students seeking a bachelor of arts (B.A.) degree must complete the
Supplemental General Education requirement. Among other options,
completing a minor or a second major fulfills the Supplemental General
Education requirement.
**Bachelor of Science**

Four-year programs leading to the degree of bachelor of science (B.S.) provide for specialization in a particular field and necessary instruction in related fields. In some B.S. programs offered by professional schools, General Education requirements may be reduced. Most B.S. programs, however, require students to complete quantitative reasoning courses beyond the General Education minimum and/or require specific quantitative reasoning courses.

**Bachelor of Fine Arts**

A four-year program leading to the degree of bachelor of fine arts (p. 298) is offered by the Department of Art and Art History. It provides, for qualified students, preprofessional training in creative aspects of the field of art. Approximately one-half of the program is in the field of the major, and the other half is in the liberal arts and sciences.

**Bachelor of Music**

The four-year program leading to the degree of bachelor of music (p. 787), housed in the Department of Music, emphasizes training and achievement in the performance or composition of music. Approximately one-half of the program (63 credit hours) is in the field of the major, and the other half (57 hours) is in the liberal arts and sciences.

**Dual Bachelor’s–Graduate Degree Programs**

The University offers several dual bachelor–graduate degree programs. The programs currently offered are listed below. The requirements for the bachelor’s degree must be completed within eight semesters of study (or 10 semesters of study for transfer students (p. 176)). The requirements for the graduate degree can be completed in as few as two additional semesters, for a possible total of 10 (or fewer) semesters of study. For information about the requirements and application process, please consult the relevant academic unit in this catalog.

- Biostatistics (p. 399) (B.S.P.H. – M.S.), Gillings School of Global Public Health
- Computer science (p. 475) (B.S. – M.S.), College of Arts and Sciences

- Nutrition (p. 801) (B.S.P.H. – M.S.), Gillings School of Global Public Health
- Statistics and analytics (p. 1019) and statistics and operations research (B.S. – M.S.), College of Arts and Sciences

**Joint Degree Programs with the National University of Singapore (NUS)**

UNC–Chapel Hill undergraduates can spend anywhere from two to four semesters at the National University of Singapore and receive a joint bachelor of arts degree from both institutions. Programs are offered in biology (p. 375), economics (p. 499), English (http://catalog.unc.edu/undergraduate/programs-study/english-major-ba), geography (p. 618), history (p. 719), and political science (p. 868).

**Undergraduate Honors: Degrees with Distinction**

To graduate with distinction or with highest distinction, students must have completed at least 45 academic hours at UNC–Chapel Hill and have an overall grade point average of at least 3.500 or 3.800 respectively. The grade point average is based on the grades received and recorded by the Office of the University Registrar as of the degree award date. No changes are permitted to the awards after that date.

**Undergraduate Honors: Degrees with Honors**

Students who wish to graduate from UNC–Chapel Hill with honors or highest honors must complete a senior honors thesis project in their major field(s) of study. Such students need not have been members of Honors Carolina. They must, however, meet academic eligibility standards set by Honors Carolina and the individual departments, curricula, and professional schools that sponsor senior honors thesis programs.

Students with double majors may graduate with honors or highest honors in both fields of study. To do so, they must complete a distinct project in each field. Students may not undertake a senior honors thesis project in a minor field (Creative Writing is the sole exception) or in a field outside of their declared major(s).

Students who successfully complete a senior honors thesis project will have the designation “Honors” or “Highest Honors” recorded on their diplomas and transcripts and will be denoted in the Commencement bulletin at graduation. Creative Writing minors earning honors or highest honors will also be recognized in the Commencement bulletin and have a special remark added to their transcripts, but no designation will appear on their diplomas.

**Application for honors work**: Students should apply to the honors advisor in the department or curriculum of the major. Ordinarily, application is made during the junior year, although it is done earlier in some departments. Detailed information concerning the application should be obtained from the honors advisor in the major.

**Requirements for eligibility**: Students who wish to undertake a senior honors thesis project must have a cumulative grade point average of 3.300 or higher. Academic units that wish to impose a higher grade point average eligibility standard may do so by requiring that students meet both the cumulative 3.300 grade point average standard set by Honors Carolina office and a higher grade point average standard for all coursework required for the major.
**Nature and purpose of honors study**: Programs are provided for students who have demonstrated a high level of scholastic ability and achievement and who desire to pursue an intensive, individualized program of study in their major discipline. Senior honors thesis students must complete an original and substantial research, performance, or creative project under direct supervision by a faculty advisor.

Senior honors thesis projects are scheduled as a two-semester sequence of honors courses led by unit-designated faculty, independent study overseen by the faculty thesis advisor, or a combination of the two. Detailed guidelines on approved senior honors thesis scheduling formats are available on the Honors Carolina Web site (http://honorscarolina.unc.edu). Regardless of the scheduling format used, students must complete a total of 6.0 credit hours of senior honors thesis coursework during consecutive semesters, not during summer sessions.

A special written or oral examination on the student's program is required during the final semester of honors study. The department or curriculum may impose other requirements that it deems appropriate. In every instance, study for honors will require academic excellence. When the student has fulfilled all requirements, the department or curriculum will recommend to the associate dean for honors that the degree be awarded with honors or with highest honors. The degree with highest honors is conferred in recognition of extraordinary achievement in a program of honors study.

**Procedures for granting degrees with honors**: The grade for coursework in connection with an honors project is determined by the faculty advisor and is (like all grades) subject to appeal. Successful completion of honors study does not automatically confer departmental honors. Before awarding a degree with honors or highest honors, the College of Arts and Sciences requires the recommendation of a student’s examining committee and the endorsement of that committee’s recommendation by the chair of the department or curriculum. A negative recommendation by the department is final and cannot be appealed. The associate dean for honors makes the final decision to award a degree with honors on the basis of the department’s positive recommendation and the student’s cumulative grade point average.

**Phi Beta Kappa**

This national collegiate honor society is open to undergraduate students in the College of Arts and Sciences and in exceptional circumstances (as described below) to students enrolled in undergraduate professional degree programs. The following students in the College of Arts and Sciences are eligible for membership:

- Students who have completed at least 75 semester hours of graded academic coursework in the liberal arts and sciences at UNC–Chapel Hill with a quality point average of at least 3.850
- Students who have completed at least 105 semester academic course hours in the liberal arts and sciences, at least 45 of which must have been graded coursework taken at UNC–Chapel Hill with a quality point average of at least 3.750

No grades made at an institution from which a student has transferred shall be included in determining a student’s eligibility. The quality point average shall include all academic coursework in the liberal arts and sciences taken and counted toward the candidate’s degree (physical activity grades and hours are not included). Grades and hours received on courses taken after the candidate has received his or her degree shall not be counted.

Undergraduate students not enrolled in the College of Arts and Sciences who meet the general semester hours and quality point average described in the second bullet above and who have completed at least 90 semester hours of coursework in the departments and curricula of the College of Arts and Sciences (or the equivalents accepted for transfer credit from other institutions) are eligible for election.

**Dean’s List**

To be eligible for the Dean’s List, full-time students who enter the University as first-time, first-year students beginning in fall 2010 must meet the following requirement:

- A 3.500 grade point average with no grade lower than a C and enrollment in at least 12 hours of letter-grade credit, exclusive of physical education activities (PHYA) courses.

The grade point average is based on the grades received and recorded by the Office of the University Registrar at the time the Dean’s List is published. No changes are permitted to the Dean’s List after that date.
COURSE NUMBERING

Courses are designated with a subject code and course number. The number assigned to a course generally denotes its level and may also indicate a course type. Suffixes may be appended to course numbers to indicate course format or honors status. For additional information about course numbering, see University Policy Memorandum #4 (http://registrar.unc.edu/academic-services/policies-procedures/university-policy-memorandums/upm-4-standard-course-numbering-system).

For courses in the Undergraduate and Graduate academic careers starting in Fall 2006, the numbers assigned to courses are normally categorized as follows:

**Course Numbers**
- **100-189**: Introductory Undergraduate Courses
- **190-399**: Courses for Undergraduate Students
- **400-699**: Courses for Advanced Undergraduate and Graduate Students
- **700-899**: Courses for Graduate Students (Undergraduate Students may enroll with department permission)
- **900-999**: Courses for Graduate Students only

**Special Course Numbers**
- **50-89**: First-Year Seminars
- **190, 290, 390**: Undergraduate Special Topics Courses
- **490, 590, 690**: Undergraduate and Graduate Special Topics Courses
- **193, 293, 393**: Undergraduate Internships and Practica
- **493, 593, 693**: Undergraduate and Graduate Internships and Practica
- **195, 295, 395**: Undergraduate Research Courses
- **495, 595, 695**: Undergraduate and Graduate Research Courses
- **196, 296, 396**: Undergraduate Independent Study/Reading Courses
- **496, 596, 696**: Undergraduate and Graduate Independent Study/Reading Courses
- **691H, 692H, 693H, 694H**: Senior (Undergraduate) Honors Thesis Courses

The First-Year Seminar Program at UNC–Chapel Hill builds and sustains a vibrant campus-based educational community committed to promoting the success of first-year college students by coordinating a varied offering of seminar-format courses that allow students to work closely with our best faculty on intriguing topics.

First-year seminars (FYS) introduce students to the intellectual life of the University. They are taught by faculty who are active scholars and accomplished teachers, and have a limited enrollment of only 24 students who are in the first two semesters of their undergraduate experience. The seminars address a range of topics across disciplines, often including the most pressing issues of the day. First-year seminars share a common focus on how scholars pose problems, discover solutions, resolve controversies, and evaluate knowledge. They also provide students with a comfortable and engaging social network.

Students in first-year seminars are active participants in the learning process. The seminars encourage self-directed inquiry by using a variety of activities inside and outside the classroom, including field work, case studies, performances, computer projects, laboratory explorations, archival research, and group presentations.

Eligibility and Enrollment

Enrollment in FYS is restricted to full-time students in their first two semesters of their first year of college and the summer after. Students are limited to a maximum of two FYS in any one semester, and a maximum of two FYS across the first two semesters at Carolina. Enrollment in a third FYS can only occur with an approved petition from the associate dean of first year curricula, and will not be approved for a third seminar in a single semester.

Study Abroad

Living and studying in another culture can positively impact a student’s academic program, career path, and personal growth. UNC–Chapel Hill’s study abroad programs are available to all students.

The Study Abroad Office (SAO) for the College of Arts & Sciences is located in the FedEx Global Education Center, and the Kenan–Flagler Business School’s Undergraduate Global Programs is located in the McColl Building. Both offices offer high-quality, for-credit academic experiences abroad that provide meaningful opportunities for academic, personal, and professional growth. Each office strives to ensure programs are accessible, cost-effective, and safe. UNC–Chapel Hill awards numerous scholarships to offset the cost of study abroad.

The Study Abroad Office facilitates study abroad programs for the entire campus, working with the College of Arts & Sciences, and schools and departments throughout the University. Programs include undergraduate student exchanges, faculty-led, and direct enroll programs during the summer (from three to eight weeks duration), semester, and academic year. Options are available throughout the world for every major and minor at UNC. Some programs offer a varied curriculum, while others focus on a particular academic discipline. Students may earn academic credit for approved internship and service-learning programs abroad.

The Kenan–Flagler Business School’s Undergraduate Global Programs administer semester, summer, and immersion programs available only to students admitted to the Kenan–Flagler Business School.

UNC students may fulfill elective, General Education, and major/minor requirements abroad. All students who participate in approved study abroad programs earn experiential education (EE) General Education credit. Approval for major/minor credits must be granted by the director of undergraduate studies or study abroad liaison in the relevant department. The Study Abroad Office approves General Education requirements and coordinates the credit approval process for both General Education and major/minor academic credit. Some programs, such as UNC–Chapel Hill faculty-led options, offer University graded course credits. Most programs offer transfer credit that can be used to fulfill requirements toward graduation. Study abroad credit is awarded to students participating in the programs administered by these UNC–Chapel Hill offices. Students seeking to participate in other programs for academic credit may submit an appeal or petition for approval to the Study Abroad Office.

Students are encouraged to begin planning for study abroad as early as possible after enrolling at UNC to ensure that a global experience is part of their academic program. The first step is to attend a Study Abroad 101 information session. Students can then schedule a one-on-one advising session in the Study Abroad Office. The SAO’s professional staff assist students in selecting the best programs for their academic, financial, personal, and professional goals.

The Office for Undergraduate Research (OUR) was established in 1999 to expand the opportunities for undergraduates at Carolina to engage in innovative research, mentored scholarship, and creative performance. It seeks to make research a distinctive feature of the undergraduate educational experience at this vibrant research university. By engaging in research, students learn how discoveries are made and become well prepared to address the unsolved problems of the future. The office is located in 220 Graham Memorial and is a part of the Johnston Center for Undergraduate Excellence.

All undergraduates are invited to register for the Carolina Research Scholar Program (CRSP). Requirements for CRSP include:

1. Completion of one (1) of the following courses:
   a. IDST 184 Research beyond Academia
   b. IDST 194 Modes of Inquiry
   c. One (1) research methods course
   d. One (1) research exposure course
2. Completion of two (2) research-intensive courses (or a total of 6 credits) OR one of the following options:
   a. One (1) research-intensive course (or a total of 3 credits) AND 150 hours of mentored research (equivalent of one semester at 10 hours per week)
   b. 300 hours of mentored research (equivalent of two semesters at 10 hours per week)
3. Attendance at two (2) CRSP workshops (e.g., getting started in research, research ethics, literature/database searches, citation/reference management software, digital media, etc.)
4. Presentation at the UNC–Chapel Hill Celebration of Undergraduate Research, a campus conference that is open to the public, or a professional conference.

All courses require a grade of C or better with the exception of IDST 184 and IDST 194 (Pass/Fail).

Participants who complete these requirements receive official University recognition on their transcripts for their contributions to undergraduate research.

The OUR maintains several searchable databases. These include listings of research methods courses, research-intensive courses in which over half of class time is devoted to students’ conducting original research and presenting research conclusions, and research exposure courses that provide students with research experiences guided by Graduate Research Consultants (GRCs). The OUR sponsors the Celebration of Undergraduate Research each spring, allowing students to present their results to the campus and community. In addition, OUR offers opportunities for undergraduate students to apply for Summer Undergraduate Research Fellowships (SURFs) and for travel awards to present their research at professional meetings.

Undergraduate Internships

Many departments and curricula offer internship credit (see list below). Students who are interested in this option should plan ahead by checking with the relevant department/curricula about available opportunities, deadlines, and the academic requirements for holding an internship.

Honors Carolina is a remarkable collection of courses, special events, and learning opportunities geared toward the top students at Carolina. It is the University’s way of investing in truly exceptional undergraduate
students by providing challenges and opportunities, both inside and outside the classroom.

Honors Carolina is more than honorific. It is a rigorous, interdisciplinary academic program designed for students who are eager to explore beyond their immediate academic concentrations and anticipated career trajectories. We want and expect our students to be committed to living a life of the mind.

Some enrolling first-year students are invited to participate immediately in Honors Carolina. Other students may apply to the program at the beginning of their second semester or first year of study. Details of the application process are available on the Honors Carolina (http://honorscarolina.unc.edu) Web site. Honors Carolina students must maintain a cumulative grade point average of 3.000 or higher and complete a minimum number of honors credit hours by graduation in order to receive the "Honors Carolina Laureate" distinction on their transcript.

Members of Honors Carolina receive priority registration for more than 200 honors courses each year. These are small classes, taught by award-winning professors who encourage classroom discussion and hands-on research. Departments and curricula often provide honors versions of the courses listed in their sections of this bulletin; interested students also should consult the course listings at the Honors Carolina (http://honorscarolina.unc.edu) Web site. Honors courses are open to all academically qualified students on a space-available basis.

Honors Carolina offers programs and resources to help students explore their interests, prepare for life after graduation, and connect with students, faculty, alumni, and leaders around the globe. From professional development workshops and informal dinners with alumni to information sessions with employers and graduate schools and professional development workshops and informal dinners with alumni, Honors Carolina helps students navigate their careers and professional schools throughout the University. Interested students should consult with the honors advisor in their major about department-specific requirements.

To graduate from the University with honors or highest honors (p. 177), students must complete a senior thesis in their academic major. Senior honors thesis programs are offered in nearly 50 departments, curricula, and professional schools throughout the University. Interested students should consult with the honors advisor in their major about department-specific requirements.

Honors Study Abroad offers innovative learning opportunities in London, Oxford, Rome, Cape Town, Singapore, and Washington, DC. Students take courses with UNC–Chapel Hill faculty program directors and with instructors from some of the world's leading institutions of higher education. The London program is based at Winston House, UNC–Chapel Hill's European Study Center, located in Bloomsbury close to the city's leading universities and cultural institutions. All of the programs provide graded honors credit and fulfill General Education and major requirements. All Honors Carolina programs and fellowships are open and accessible to all UNC undergraduates with a 3.0 GPA.

Burch Field Research Seminars deliver unique, hands-on learning experiences that showcase the relationship between faculty research and undergraduate teaching. Seminars are held in changing locations around the globe. Recent topics have included telling the story of renewable energy in Germany and Spain, nation-building and conflict resolution in Vienna and the Balkans, entrepreneurship in Silicon Valley, and international law in Rwanda and the Hague.

Burch Fellowships allow students to design an educational adventure anywhere in the world. Burch Fellows receive grants up to $6,000 to support self-designed, off-campus learning experiences like these: working with NASA astrobiologists to study the possibility of life on other planets; jamming with jazz musicians in Cuba; studying the impacts of medical training for rural women in India.

Carolina Blue Honors Fellowships enable students to embark on a summer internship focused on learning and working in sports entrepreneurship abroad. Grants of up to $5,000 support self-designed, international opportunities such as helping an athlete performance data start-up build its products in New Zealand, leading a fan engagement campaign for a sports marketing business in Barcelona, or helping a professional soccer club get off the ground in Tanzania.

Robinson Honors Fellowships focus on the history and culture of Europe and the Mediterranean from the golden age of Greece to the upheaval of World War I. Robinson Fellows pursue a project of their own design exploring the realms of art, art history, classics, literature, history, medieval and early modern studies, music, philosophy, political thought, and religious studies. Grants of up to $6,000 fund experiences such as studying the construction of the great cathedrals of Europe, interning in Sotheby's Old Master Paintings division in London, or working on a Roman archaeological dig site in Israel.

Weir Honors Fellowships in Asian Studies allow students to become fluent in Mandarin and gain practical, independent work experience in China, home to one of the world's oldest civilizations and the 21st century's fastest growing economy. Weir Fellows are awarded all funds above their normal UNC tuition to spend the spring semester in Beijing for intensive language study and then complete an eight-week summer internship in either Beijing or Shanghai exploring careers in fields such as banking, law, journalism, public health, and historic preservation.

Inger S. Brodey, Director
brodey@email.unc.edu

Program Assistant
The Office of Distinguished Scholarships (ODS) provides a central location for information about nationally and internationally competitive scholarships, fellowships, and internships and assists Carolina students and alumni in putting their best foot forward when applying for these awards. ODS offers regular information sessions and hands-on workshops. Staff members are available to provide general advising to any applicant for any nationally or internationally competitive award. They will also suggest interviewing strategies and can connect applicants to additional resources, including our library liaison who can assist with researching and writing project statements.

In addition, ODS administers the institutional vetting process called "endorsement" for 14 scholarship and fellowship programs:

- Beinecke (for juniors)
- Boren (all years)
- Churchill (for seniors and alumni)
- Goldwater (for sophomores and juniors)
- James C. Gaither (formerly Carnegie) (for seniors and alumni)
- Luce (for seniors and alumni)
- Marshall (for seniors and alumni)
- Michel David-Weill (for seniors)
- Mitchell (for seniors and alumni)
- Rhodes (for seniors and alumni)
- Schwarzman (for seniors and alumni)
- Truman (for juniors)
- Udall (for sophomores and juniors)
- Yenching (for seniors and alumni)

ODS strongly believes that the preparation required to compete for the prestigious scholarships is an important educational opportunity. In applying for these scholarships, candidates improve their self-awareness and ability to articulate not only their past accomplishments but also their goals and priorities for the future. See ODS's funding finder STRIVE (http://strive.unc.edu) to search for many more opportunities for students and alumni.

Languages Across the Curriculum

Languages Across the Curriculum

The LAC program offers students the opportunity to use world languages in a variety of courses outside the language and literature curricula.

The program aims to promote a better understanding of world regions while demonstrating the relevance of practical language skills across the disciplines.

Successful completion of a LAC course option will improve students’ ability to:

1. Communicate in the target language about course topics;
2. Describe how course topics relate to world regions that speak the target language;
3. Explain course topics from the perspective(s) of individuals who use the target language;
4. Use the target language to conduct course research.

Administratively housed in the Center for Global Initiatives, the LAC program receives support from the College of Arts and Sciences and from six Title VI National Resources Centers for international and area studies: the African Studies Center, the Carolina Asia Center, the Carolina Center for the Study of the Middle East and Muslim Civilizations, the Center for European Studies, the Center for Global Initiatives, and the Institute for the Study of the Americas.

Since spring 1996, the LAC program has offered course options in a variety of languages, disciplines and course formats. Currently, LAC courses are offered in Arabic, Chinese, French, German, Italian, Portuguese, Spanish, and Swahili. Students who enroll in LAC recitation or discussion sections can receive one graded hour of world language credit. Some three-hour seminars in the target language are also available.

There are several types of LAC courses. For course offerings (by semester) and additional information, visit the program’s Web site (http://areastudies.unc.edu/lac).

Bobby Kunstman, Director for Student Life and Leadership
bobby.kunstman@unc.edu

The Office of Student Life and Leadership is the center for student involvement and leadership at UNC. The office houses Student Organizations, Leadership Development, CUAB, Assessment and Development, and Student Government.

The Leadership Development team is committed to serving the Carolina community by advocating for leadership as a process of social change. Various programs and activities are offered that help students develop competencies needed to be effective leaders. Additionally, two academic courses are offered: EDUC 317 and EDUC 309 where students learn theory that will help them to develop their leadership style and skills as
well as understand how to incorporate those skills to lead and create positive social change.

The Carolina Union Activities Board (CUAB) enhances life at Carolina through high-quality programming and events for the entire University community. These include films, art, music, entertainment, and more. Students can become involved in CUAB and help to build the Carolina community by helping to plan and implement engaging activities to reach all students.

Assessment and Development focuses on measuring the impact of co-curricular programs and services championed by Student Life and Leadership and the Carolina Union. Additionally, this area of Student Life and Leadership also oversees the employment experiences of students working in the Carolina Union. This area offers professional and leadership development opportunities which empower participants to make connections between their aspirations and the transferrable skills gained through employment in the Carolina Union at the student and full-time staff level.

Student Government is the representative liaison before administrators, faculty, the Board of Trustees and Governors, and even the state legislature. Student Government works to address policy issues that matter to UNC and its students, handle funding requests for student organizations, maintain the Student Government Code (the rules by which Student Government operates), and respond to requests for help from students in a broad range of issues regarding student life at UNC–Chapel Hill.

North Carolina Fellows Program

The North Carolina Fellows Program is a three-year cohort-based leadership program housed in the Office of Student Life & Leadership, and has been present on the UNC–Chapel Hill campus since 1968. The mission of the North Carolina Fellows Program is to reimagine traditional understandings of leadership by engaging in meaningful dialogue, creating a supportive community, increasing self-awareness amongst its members, and encouraging positive change.

Program components include retreats, a three-credit-hour course for sophomore students, a junior seminar, a one-credit capstone course for senior students, and monthly seminars where all three cohorts come together to discuss a variety of topics. Interested students can apply during the spring semester of their first year.

Summer Bridge is a six-week transition program that helps incoming first-year students adjust to Carolina by providing academic enrichment, community building, and co-curricular and experiential learning activities. The program is designed to ease participants’ personal and academic transition from high school to the University. Students enroll in two academic courses, which usually represent a combination of English composition and quantitative skills. They also participate in activities designed to supplement their summer experience by engaging in high-impact learning experiences often facilitated by units such as the UNC Learning and Writing Centers, University Career Services, and Student Life and Leadership. Additionally, cultural and recreational activities are significant components of the program, as students are introduced to the University and the array of opportunities and resources available. Any student who has been admitted to UNC–Chapel Hill and is a North Carolina resident is eligible to apply.

Introduction
The United States Air Force Reserve Officer Training Corps (AFROTC) program provides leadership and Air Force-specific training to students pursuing a career as an officer in the United States Air Force. The AFROTC program is open to students looking for a challenging career and the opportunity to support and defend the Constitution of the United States. AFROTC is more than just a department in the College of Arts and Sciences; it is a professional organization designed to provide students growth, development, and leadership opportunities beyond the classroom. Cadets learn and develop these skills through hands-on experiences both inside and outside the traditional classroom setting.

The Air Force ROTC Program

Four-Year Traditional ROTC Program
This program is for students who enroll as cadets in AFROTC and plan to graduate in four years with a commission as an Air Force second lieutenant. Each year of the program cadets must take the appropriate aerospace studies course and AERO 500 Leadership Laboratory, and participate in weekly physical training. In the spring of the sophomore year, cadets will compete for an Officer Commissioning Enrollment Allocation, which gives them a spot to attend a four-week field training course in the summer. Successful completion of field training grants entry into the Professional Officer Corps (POC) for the junior and senior years. Cadets in the POC refine their leadership skills and prepare for a United States Air Force active duty commission upon graduation.

Nontraditional ROTC Program
Students who do not enroll in Air Force ROTC in their first semester are still eligible to participate in the program. They will participate in the same academic courses, leadership laboratory, and physical training as traditional students. All nontraditional cadets will be required to complete AERO 101, AERO 102, AERO 201, and AERO 202 prior to attending field training.

Interested Students
First- and second-year students seeking to learn more about the Air Force and ROTC can take AERO 101, AERO 102, AERO 201, or AERO 202 with no obligation. These courses provide a solid introduction to Air Force operations and culture, providing students with the necessary information to make an informed decision about whether the Air Force interests them.

Advising
All majors and minors have a primary academic advisor in Steele Building. At a minimum, students who join the AFROTC program are required to meet with their advisor every fall term to develop and update their academic plan. The department’s education officer and academic instructors help oversee this process. For information on Air Force officer careers, please visit the AFROTC Web site (http://www.afrotc.com).

Special Opportunities in Aerospace Studies

Scholarships and Financial Assistance
Two- to 3.5-year scholarships are available to students based on merit or specialized major (e.g., foreign language or nursing). In most cases, these scholarships cover tuition and fees, and provide a tax-free allowance ($250 to $400 each month) and a textbook allowance ($600) each semester. The scholarship does not cover room and board.

Foreign Language/Study Abroad Stipend and Opportunities
All contract and scholarship cadets are eligible to earn up to $3,000 per academic year for studying a foreign language or participating in a study abroad program.

Air Force ROTC cadets are uniquely eligible to participate in Department of Defense language grant programs through major universities, often involving study abroad. See Project GO (http://www.rotcprojectgo.org) or contact the unit admissions officer for more information.

Extracurricular Activities
The AFROTC experience is much more than classroom studies. Cadets participate in a range of activities. These include social functions such as a formal dinner, fundraising events, color guard at home football and basketball games, volunteer work in the community, and field trips to military bases. Recent cadet activities are highlighted on a public Facebook page (http://www.facebook.com/UNC.AFROTC.DET590).

Arnold Air Society (AAS) is a national service organization dedicated to furthering the traditions, purposes, and concepts of the United States Air Force as a military organization and a professional calling. The local AAS chapter is active nationwide, and AFROTC cadets attend the regional and national conventions each year.

Guaranteed Job Placement
Successful AFROTC program graduates are commissioned as second lieutenants in the United States Air Force.

The minor in aerospace studies is a 14-credit-hour, nontechnical course of study open to all UNC—Chapel Hill students. The minor entails topics such as the U.S. Air Force today; the history of U.S. Air Force air power; leadership, management, and ethics training; and national security affairs. An aerospace studies minor is useful to anyone interested in employment in federal government (particularly the Department of Defense) or the defense industry.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor course requirements at UNC—Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 176).

**Introduction**
The curriculum of the Department of African, African American, and Diaspora Studies emphasizes the histories, cultures, cultural linkages, and contemporary sociopolitical and economic realities of Africa and the African diasporas in the context of a globalizing world. Included on our faculty are award-winning teachers and recognized scholars whose work in and out of the classroom covers all major regions of Africa, the United States, and increasingly other parts of the Atlantic African Diaspora, including the Caribbean and Latin America. We approach these areas of study from multiple perspectives and disciplines, and the department's faculty members are trained in the fields of anthropology, film, history, international development studies, law, linguistics, literature, music, and political science.

**Advising**
We encourage students to talk with the director of undergraduate studies when they declare the major in African, African American, and Diaspora studies. The director of undergraduate studies is also available to students who are interested in the department's offerings at other times in their academic careers.

**Graduate School and Career Opportunities**
The skills and perspectives of African, African American, and Diaspora studies provide an excellent background for students considering careers in international development, education, business, government, or diplomacy. Students go on to a variety of managerial, teaching, and research positions. Other careers for which the major is excellent preparation include law, communication, social work, community development, and public administration.

**Major**
- African, African American, and Diaspora Studies Major, B.A. (p. 203)

**Minors**
- African Studies Minor (p. 206)
- African American and Diaspora Studies Minor (p. 206)

**Professors**

**Associate Professors**
Lydia Boyd, Perry Hall, Michael Lambert, David Pier, Charlene Regester, Eunice Sahle.

**Assistant Professors**
Maya Berry, Petal Samuel, Ronald Williams II.

**Teaching Assistant Professors**
Alphonse Mutima, Mohamed Mwamzandi, Robert Porter.

**AAAD–African, African American, and Diaspora Studies**
The department has adopted the following numbering system for all AAAD courses numbered above 99:
- Courses ending in 00 to 29: African studies
- Courses ending in 30 to 59: African American studies
- Courses ending in 60 to 84: African Diaspora outside the United States
- Courses ending in 85 to 99: Courses that cross geography; dedicated courses whose numbers are reserved by the University Registrar, such as independent studies and internships.

**Undergraduate-level Courses**

**AAAD 50. First-Year Seminar: Defining Blackness. 3 Credits.**
Blackness and whiteness as racial categories have existed in the United States from the earliest colonial times, but their meanings have shifted and continue to shift. Over the semester we will attempt to define and redefine blackness in the United States.

The curriculum of the Department of African, African American, and Diaspora Studies emphasizes the histories, cultures, cultural linkages, and contemporary sociopolitical and economic realities of Africa and the African diasporas in the context of a globalizing world. The major offers a concentration in African studies and a concentration in African American and diaspora studies.

**Department Programs**

**Major**
- African, African American, and Diaspora Studies Major, B.A. (p. 203)

**Minors**
- African Studies Minor (p. 206)
- African American and Diaspora Studies Minor (p. 206)

**Student Learning Outcomes**

Upon completion of the African, African American, and Diaspora studies program, students should be able to:

- Demonstrate in-depth knowledge of foundational intellectual currents (historical and contemporary) in African, African American, and Diaspora studies.
- Apply research skills by formulating a research project as outlined in the required literature, generating a research question, developing procedures for gathering research data, analyzing the data, and writing results and conclusions.
- Present research results effectively (clear and well-argued content, appropriate for audience, professional delivery).
- Identify and explain sources (national and global) of historical change that have shaped Africa and its diaspora.
- Draw on relevant theoretical insights and empirical data to analyze historical or contemporary issues pertaining to diverse societies in Africa, African American communities, and other African diasporic formations in Europe and Latin America.

**Requirements**

In addition to the program requirements, students must:

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC-Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC-Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 176).

Students may complete the requirements for the African studies concentration or the African American and diaspora studies concentration.

Special Opportunities in African, African American, and Diaspora Studies

Honors in African, African American, and Diaspora Studies

Students with an overall grade point average of 3.3 or higher at the beginning of their senior year and who have already completed AAAD 395 are encouraged to apply for candidacy for the B.A. with honors. Students interested in undertaking honors research and the writing of a thesis should consult with the department’s honors coordinator no later than in their junior year to discuss the process of applying to the program. Approved candidates will enroll in AAAD 691H in the fall semester of their senior year. Upon completion of AAAD 691H and with the approval of the student’s thesis director and the department’s honors coordinator, students enroll in AAAD 692H in the spring semester. AAAD 691H can count as one of the five courses students must take in their concentration of study.

Departmental Involvement

The department works closely with the African Studies Center, the Center for the Study of the American South, the Institute of African American Research, and the Sonja Haynes Stone Center for Black Culture and History. These units provide UNC-Chapel Hill and wider communities with important programming on and an opportunity for the advanced study of issues concerning Africa, African America, and other parts of the African Diaspora.

Study Abroad

There are several opportunities for study abroad. The department offers a summer abroad program in Malawi. Honors Carolina offers a Burch seminar in Cape Town, South Africa, during the fall semester.

Undergraduate Research

The department encourages undergraduate research. The required seminar for majors (AAAD 395) introduces students to research skills and
methods in African, African American, and Diaspora studies. The honors program (AAAD 691H and AAAD 692H) offers qualified students the opportunity to engage in a yearlong process of research and writing. The department hosts an undergraduate research symposium in the spring semester, and it also publishes a scholarly journal, the Global Africana Review, for which undergraduates may submit articles.

Introduction
The Department of American Studies is one of the oldest interdisciplinary programs at UNC-Chapel Hill, with roots in the study of folklore and the American South going back to the 1920s. A formal program in American studies was established in 1968, and exciting additions in American Indian studies, Southern studies, and global American studies have been added in the past two decades. The Department of American Studies has a tradition of rigorous teaching and an innovative curriculum that offers stimulating opportunities to study the United States and the diversity and influence of its peoples, institutions, texts, performances, and places. In addition, each of our areas of major concentration incorporates global and comparative perspectives. The department's commitment to interdisciplinary approaches empowers students to value the nation's complexity by engaging with a variety of historical, literary, artistic, political, social, cultural, legal, racial, ethnic, and ethnographic perspectives within and beyond the United States. American studies majors graduate with a comprehensive understanding of the dynamics of American culture that prepares them to make a responsible and critical difference in the variety of professions they choose to pursue.

The American studies major offers five areas of concentration, each with its own distinct degree requirements.

Advising
All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors and minors by appointment. Further information on courses, opportunities, and honors theses may be obtained from the department's Web site.

Graduate School and Career Opportunities
American studies provides a solid basis for a variety of career choices, including public service, business, teaching, museum curation, and journalism. It is an excellent liberal arts major that prepares students for graduate and professional school study in fields such as American history and literature. After receiving the baccalaureate degree, American studies majors consistently have been accepted in law and business schools, which are interested in students with a broad, interdisciplinary undergraduate education. The folklore concentration and minor are a productive component of study for those preparing for graduate school in anthropology, communication, journalism, music, and folklore itself, as well as for those planning careers in museum curation, public arts presentation, and music production.

CHER—Cherokee
Undergraduate-level Courses
CHER 101. Elementary Cherokee Language I. 3 Credits.
Provides an introduction to speaking, listening, reading, and writing in the Cherokee language. This course is part of an ongoing effort to revitalize Cherokee—an endangered language indigenous to North Carolina. Students will acquire basic conversational Cherokee and learn to read and write the Sequoyah syllabary.
Gen Ed: FL.
Grading status: Letter grade.

CHER 102. Elementary Cherokee Language II. 3 Credits.
This course expands on skills from CHER 101. We will begin reading longer texts in the Cherokee syllabary and learn to produce more complex narrative structures. Students will move toward discussing others around them, with an eye toward discussing the general world.
Requisites: Prerequisite, CHER 101; permission of the instructor for students lacking the prerequisite.
Gen Ed: FL.
Grading status: Letter grade.

CHER 203. Intermediate Cherokee Language I. 3 Credits.
This course reviews and deepens grammatical knowledge from CHER 101 and 102. We will increase extemporaneous speaking and produce new written texts in the Cherokee syllabary. Students will discuss the world around them in addition to the self and others.
Requisites: Prerequisite, CHER 102; permission of the instructor for students lacking the prerequisite.
Gen Ed: FL.
Grading status: Letter grade.

CHER 204. Intermediate Cherokee Language II. 3 Credits.
This course completes the study of basic Cherokee grammar. We will polish conversational fluency and proficiency, read and create new texts in the Cherokee syllabary. Students will discuss current events and offer opinions.
Requisites: Prerequisite, CHER 203; permission of the instructor for students lacking the prerequisite.
Gen Ed: FL.
Grading status: Letter grade.

CHER 305. Phonetics and General Linguistics. 3 Credits.
Introduction to linguistics; the Cherokee sound system from a phonetic and allophonic view; grammatical categories, morphology, syntax.
Requisites: Prerequisite, CHER 204.
Grading status: Letter grade.

FOLK—Folklore
Undergraduate-level Courses
FOLK 77. First-Year Seminar: The Poetic Roots of Hip-Hop: Hidden Histories of African American Rhyme. 3 Credits.
What are the roots of hip-hop’s masterful rhymes and tongue-tripping flow? This seminar explores hip-hop’s poetic prehistory, looking to the rhyming and oral poetics that have long defined African American experience. Grading status: Letter grade
Same as: GEOG 254.
FOLK 310. Fairy Tales. 3 Credits.  
A study of fairy tales as historical artifacts that reveal the concerns of their times and places, as narrative structures capable of remarkable transformation, and as artistic performances drawing upon the expressive resources of multiple media, intended to challenge conventional presuppositions about the genre.  
Gen Ed: LA, NA.  
Grading status: Letter grade  
Same as: ENGL 310.

FOLK 323. Magic, Ritual, and Belief. 3 Credits.  
Permission of the instructor. Starting with the late 19th-century evolutionists, this course discusses, intensively, major anthropological theories of magico-religious thought and practice, then offers an approach of its own.  
Grading status: Letter grade  
Same as: ANTH 323.

FOLK 334. Art, Nature, and Religion: Cross-Cultural Perspectives. 3 Credits.  
This cross-cultural study of art focuses on the forms, images, and meanings of paintings, drawings, and carvings produced by the Dine’ (Navajo), the Dogon (Mali, West Africa), and the Haida, Kwakiutl, Tlingit, and Tsimshian (northwest coast of North America).  
Gen Ed: VP.  
Grading status: Letter grade  
Same as: ANTH 334.

FOLK 340. Southern Styles, Southern Cultures. 4 Credits.  
A journey into hidden worlds of southern meaning, exploring the region from the experiential lens of African Americans and the South’s indigenous peoples, as a way of rethinking the question, “What does it mean to be a Southerner?” Students will explore focused issues each semester through intensive, group-based field work projects.  
Gen Ed: SS, EE - Field Work, US.  
Grading status: Letter grade  
Same as: ANTH 340.

FOLK 342. African-American Religious Experience. 3 Credits.

Grading status: Letter grade
Same as: AAAD 480.

FOLK 481. Jewish Belongings: Material Culture of the Jewish Experience. 3 Credits.
What makes an object "Jewish"? This seminar examines how we think about, animate, repurpose, and display "Jewish" objects in the public realm, cultural institutions, religious spaces, and the home. We consider how makers and users negotiate objects' various meanings within the domains of prayer, performance, entertainment, and exhibition. The class curates a final group exhibition of Jewish material culture based on original fieldwork.
Gen Ed: VP, EE: Field Work, US.
Grading status: Letter grade
Same as: JWST 481.

FOLK 484. Discourse and Dialogue in Ethnographic Research. 3 Credits.
Study of cultural variation in styles of speaking applied to collection of ethnographic data. Talk as responsive social action and its role in the constitution of ethnic and gender identities.
Gen Ed: SS, CI, US.
Grading status: Letter grade
Same as: ANTH 484, LING 484.

FOLK 487. Everyday Stories: Personal Narrative and Legend. 3 Credits.
Oral storytelling may seem old-fashioned, but we tell true (or possibly true) stories every day. We will study personal narratives (about our own experiences) and legends (about improbable, intriguing events), exploring the techniques and structures that make them effective communication tools and the influence of different contexts and audiences.
Gen Ed: CI, US.
Grading status: Letter grade
Same as: ENGL 487.

FOLK 488. No Place like Home: Material Culture of the American South. 3 Credits.
Seminar will explore the unique worlds of Southern material culture and how "artifacts" from barns to biscuits provide insight about the changing social and cultural history of the American South.

**Student Learning Outcomes**

Upon completion of the American studies program, students should be able to:

- Apply critical skills of analysis to a variety of primary historical sources and/or cultural expressions
- Exercise advanced writing skills that demonstrate clear articulation of ideas and effective expression of understanding
- Assess the value of interdisciplinary learning by engaging with a variety of disciplinary perspectives on the study of America within their major elective courses
- Interpret national traditions and ideals from different local, regional, transnational, and/or global situations and from diverse ideological and/or ethnic perspectives
- Report satisfaction with the American studies major and its value for their postgraduate academic and professional careers

**Requirements**

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC—Chapel Hill courses

- take at least half of their major course requirements (courses and credit hours) at UNC—Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 176).

The concentration in American studies consists of nine courses. Courses listed more than once can be counted for only one category. At least one course must be at the 300 level or above.

American studies (AMST) course descriptions (p. 209).

AMST 396, FOLK 490, and FOLK 690 may fall under various categories, depending on the focus of these courses in a given semester; the course instructor and director of undergraduate studies will decide which category they fulfill.

At the core of the undergraduate major concentration in American studies are two required courses in interdisciplinary cultural analysis (see above). Majors also choose at least two advanced seminars in the department that focus readings and research on topics representative of both the talents of its faculty members and emergent directions in American studies scholarship. For the remainder of their requirements, majors select a series of relevant electives offered by over a dozen different University departments and curricula. These courses deepen majors’ interdisciplinary awareness of American traditions, institutions, literature, and arts as well as expose students to a diversity of American experiences and perspectives. Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major requirements; such courses will be evaluated on a case-by-case basis.

### Special Opportunities in American Studies

#### Honors in American Studies

The American studies major offers a two-course honors program: AMST 691H in the fall semester and AMST 692H in the spring semester. Students must propose their thesis and contract with a faculty advisor during the semester prior to the beginning of their senior year. For each semester of honors work, students must submit a signed learning contract to the Department of American Studies during the registration period. During the two semesters devoted to honors work, students conduct individual research and prepare an honors thesis under the supervision of a faculty member. Students also will attend a weekly seminar at the discretion of the advisor. Students must maintain a 3.3 cumulative grade point average to be eligible. With the approval of the associate or the assistant dean for honors, students with a slightly lower average who have a reasonable expectation of meeting the requirement within one more semester may embark upon the honors thesis, understanding that if they do not attain the 3.3 standard they may continue the research project as independent study but are not eligible to graduate with honors or highest honors.

#### Experiential Education

The Department of American Studies offers a seminar on Service Learning in America (AMST 398) and offers credits for approved internship projects (AMST 493). Students have learned about American studies by serving the community in museums, schools, social agencies, and other cultural institutions. Many courses in the folklore program also offer experiential education credit through ethnographic training and fieldwork opportunities.

#### Study Abroad

The Department of American Studies encourages students to consider a semester or more of study abroad and has developed close relations with several American studies programs in different countries. Studying American experience in international contexts is an integral part of understanding the place and influence of the United States in the world. Student learning is enhanced by the perspectives gained by examining how American subjects are taught in universities around the globe as well as by encountering the international students who enroll in American studies courses in Chapel Hill. Study abroad offers students of folklore the opportunity to understand the rich vernacular and traditional cultures of other parts of the world from both a local and a comparative perspective. Students can receive American studies major credit for selected study abroad programs and are encouraged to make study abroad part of their academic plans. Study abroad courses can count toward the global American studies major or minor. Students interested in this experience should consult with the director of undergraduate studies or with the Study Abroad Office about international exchange programs sponsored by UNC-Chapel Hill. Furthermore, American studies majors and minors may apply for the Julia Preston Brumley Travel Scholarship, which is only available to American studies students, to help fund their study abroad.

Undergraduate Awards
The department awards Julia Preston Brumley Travel Scholarships to help fund international travel and study abroad. The Peter C. Baxter Memorial Prize is awarded annually to the outstanding senior majoring in American studies.

Undergraduate Research
The department offers credit for AMST 396 and FOLK 495. Majors can develop a two-semester honors thesis project (AMST 691H and AMST 692H) in consultation with an advisor. Students have received summer undergraduate research fellowships, earned research support and travel awards, and presented their work at the Annual Celebration of Undergraduate Research each spring.

The American Indian and indigenous studies concentration provides a meaningful grounding in the histories, cultures, and contemporary experiences of peoples indigenous to North America, as well as their encounters with settler states. The curriculum increasingly provides opportunities for students to gain a hemispheric perspective that includes the histories, cultures, and contemporary experiences of the indigenous peoples of the Americas. Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

Student Learning Outcomes

Upon completion of the American studies program, students should be able to:

- Apply critical skills of analysis to a variety of primary historical sources and/or cultural expressions
- Exercise advanced writing skills that demonstrate clear articulation of ideas and effective expression of understanding
- Assess the value of interdisciplinary learning by engaging with a variety of disciplinary perspectives on the study of America within their major elective courses
- Interpret national traditions and ideals from different local, regional, transnational, and/or global situations and from diverse ideological and/or ethnic perspectives
- Report satisfaction with the American studies major and its value for their postgraduate academic and professional careers

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 176).

The concentration in American Indian and indigenous studies consists of nine courses. Courses listed more than once can be counted for only one category. At least one course must be at the 300 level or above.

The concentration in folklore emphasizes the study of creativity and aesthetic expression in everyday life, focusing on those expressive realms that communities infuse with cultural meaning and through which they give voice to the issues and concerns they see as central to their being. These realms are often deeply grounded in tradition; this doesn't mean, however, that they're always or necessarily old. Just as communities change their own sense of self in response to shifting social, political, and economic realities, so too does the artistry they create evolve. Folklore also explores emergent meanings and cultural forms. Trending tweets, food trucks, slam poetry, and hip hop freestyling are just as relevant to folklorists’ study as are string-band tunes, Cherokee quilts, family recipes, and blues. The communities that our students study are equally broad, ranging from Lumbee sheetrock workers and Latino line cooks to urban homesteaders and Black Lives Matter activists. The main way that we explore contemporary folklore, in turn, is ethnographic fieldwork, the real-world study of people's lives in everyday settings, grounded in conversation and participatory engagement. Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

Upon completion of the American studies program, students should be able to:
• Apply critical skills of analysis to a variety of primary historical sources and/or cultural expressions
• Exercise advanced writing skills that demonstrate clear articulation of ideas and effective expression of understanding
• Assess the value of interdisciplinary learning by engaging with a variety of disciplinary perspectives on the study of America within their major elective courses
• Interpret national traditions and ideals from different local, regional, transnational, and/or global situations and from diverse ideological and/or ethnic perspectives
• Report satisfaction with the American studies major and its value for their postgraduate academic and professional careers

**Requirements**

In addition to the program requirements, students must

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 176).

The concentration in folklore consists of nine courses. Courses listed more than once can be counted for only one category. At least one course must be at the 300 level or above.

Special Opportunities in American Studies

Honors in American Studies
The American studies major offers a two-course honors program: AMST 691H in the fall semester and AMST 692H in the spring semester. Students must propose their thesis and contract with a faculty advisor during the semester prior to the beginning of their senior year. For each semester of honors work, thesis students must submit a signed learning contract to the Department of American Studies during the registration period. During the two semesters devoted to honors work, students conduct individual research and prepare an honors thesis under the supervision of a faculty member. Students also will attend a weekly seminar at the discretion of the advisor. Students must maintain a 3.3 cumulative grade point average to be eligible. With the approval of the associate or the assistant dean for honors, students with a slightly lower average who have a reasonable expectation of meeting the requirement within one more semester may embark upon the honors thesis, understanding that if they do not attain the 3.3 standard they may continue the research project as independent study but are not eligible to graduate with honors or highest honors.

Experiential Education
The Department of American Studies offers a seminar on Service Learning in America (AMST 398) and offers credits for approved internship projects (AMST 493). Students have learned about American studies by serving the community in museums, schools, social agencies, and other cultural institutions. Many courses in the folklore program also offer experiential education credit through ethnographic training and fieldwork opportunities.

Study Abroad
The Department of American Studies encourages students to consider a semester or more of study abroad and has developed close relations with several American studies programs in different countries. Studying American experience in international contexts is an integral part of understanding the place and influence of the United States in the world. Student learning is enhanced by the perspectives gained by examining how American subjects are taught in universities around the globe as well as by encountering the international students who enroll in American studies courses in Chapel Hill. Study abroad offers students of folklore the opportunity to understand the rich vernacular and traditional cultures of other parts of the world from both a local and a comparative perspective. Students can receive American studies major credit for selected study abroad programs and are encouraged to make study abroad part of their academic plans. Study abroad courses can count toward the global American studies major or minor. Students interested in this experience should consult with the director of undergraduate studies or with the Study Abroad Office about international exchange programs sponsored by UNC–Chapel Hill. Furthermore, American studies majors and minors may apply for the Julia Preston Brumley Travel Scholarship, which is only available to American studies students, to help fund their study abroad.

Undergraduate Awards
The department awards Julia Preston Brumley Travel Scholarships to help fund international travel and study abroad. The Peter C. Baxter Memorial Prize is awarded annually to the outstanding senior majoring in American studies.

Undergraduate Research
The department offers credit for AMST 396 and FOLK 495. Majors can develop a two-semester honors thesis project (AMST 691H and AMST 692H) in consultation with an advisor. Students have received summer undergraduate research fellowships, earned research support and travel awards, and presented their work at the Annual Celebration of Undergraduate Research each spring.

The major concentration in global American studies maps the reach of American cultures across political and geographical boundaries and through myriad exchanges and intersections. It encourages an engagement with “the global” that extends from the local and regional to the national and transnational, and back again. This major concentration situates the study of American culture in relation to both the recent effects of globalization and in recognition of the always-global character of “America.” Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

H: Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Students may elect to complete up to four approved American culture courses taken at an American studies international partner institution or other UNC-approved study abroad program. These courses should deal primarily with the United States, or with the interaction between American culture and one or more other cultures, or with the impact within the United States of other cultures. Courses must be approved by the director of undergraduate studies prior to beginning the study abroad experience.

If fewer than four courses are taken abroad, the student should increase the number of courses taken at UNC–Chapel Hill from the America in the World and The World in America lists above, to reach a total of nine courses in the major.

The Southern studies concentration focuses critical attention on the history, society, culture, and expression of the American South with its regional, state, and local distinctiveness. It allows students to examine the American South from many disciplinary perspectives, including anthropology, art, architecture, communication studies, cultural tourism, ecology, environment, folklore, foodways, geography, history, journalism, language, law, literature, material culture, myth and manners, music, oral history, politics, public health, religion, values, and more. Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

Special Opportunities in American Studies

Honors in American Studies
The American studies major offers a two-course honors program: AMST 691H in the fall semester and AMST 692H in the spring semester. Students must propose their thesis and contract with a faculty advisor during the semester prior to the beginning of their senior year. For each semester of honors work, thesis students must submit a signed learning contract to the Department of American Studies during the registration period. During the two semesters devoted to honors work, students conduct individual research and prepare an honors thesis under the supervision of a faculty member. Students also will attend a weekly seminar at the discretion of the advisor. Students must maintain a 3.3 cumulative grade point average to be eligible. With the approval of the associate or the assistant dean for honors, students with a slightly lower average who have a reasonable expectation of meeting the requirement within one more semester may embark upon the honors thesis, understanding that if they do not attain the 3.3 standard they may continue the research project as independent study but are not eligible to graduate with honors or highest honors.

Experiential Education
The Department of American Studies offers a seminar on Service Learning in America (AMST 398) and offers credits for approved internship projects (AMST 493). Students have learned about American studies by serving the community in museums, schools, social agencies, and other cultural institutions. Many courses in the folklore program also offer experiential education credit through ethnographic training and fieldwork opportunities.

Study Abroad
The Department of American Studies encourages students to consider a semester or more of study abroad and has developed close relations with several American studies programs in different countries. Studying American experience in international contexts is an integral part of understanding the place and influence of the United States in the world. Student learning is enhanced by the perspectives gained by examining how American subjects are taught in universities around the globe as well as by encountering the international students who enroll in American studies courses in Chapel Hill. Study abroad offers students of folklore the opportunity to understand the rich vernacular and traditional cultures of other parts of the world from both a local and a comparative perspective. Students can receive American studies major credit for selected study abroad programs and are encouraged to make study abroad part of their academic plans. Study abroad courses can count toward the global American studies major or minor. Students interested in this experience should consult with the director of undergraduate studies or with the Study Abroad Office about international exchange programs sponsored by UNC–Chapel Hill. Furthermore, American studies majors and minors may apply for the Julia Preston Brumley Travel Scholarship, which is only available to American studies students, to help fund their study abroad.

Undergraduate Awards
The department awards Julia Preston Brumley Travel Scholarships to help fund international travel and study abroad. The Peter C. Baxter Memorial Prize is awarded annually to the outstanding senior majoring in American studies.

Undergraduate Research
The department offers credit for AMST 396 and FOLK 495. Majors can develop a two-semester honors thesis project (AMST 691H and AMST 692H) in consultation with an advisor. Students have received summer undergraduate research fellowships, earned research support and travel awards, and presented their work at the Annual Celebration of Undergraduate Research each spring.

“What is America?” and “What does it mean to be American?” The American studies area encourages students to ask these questions for themselves and to develop well-researched answers rather than to accept conventional definitions. The undergraduate program in American studies offers its majors and minors the opportunity to explore American traditions, institutions, literature, and arts and exposes students to a diversity of American experiences and perspectives. Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

The American Indian and Indigenous Studies minor provides a meaningful grounding in the histories, cultures, and contemporary experiences of peoples indigenous to North America, as well as their encounters with settler states. The curriculum increasingly provides opportunities for students to gain a hemispheric perspective that includes the histories, cultures, and contemporary experiences of the indigenous peoples of the Americas. Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

The minor in global American studies maps the reach of American cultures across political and geographical boundaries and through myriad exchanges and intersections. It encourages an engagement with “the global” that extends from the local and regional to the national and transnational, and back again. This minor situates the study of American culture in relation to both the recent effects of globalization and in recognition of the always-global character of “America.” Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements. Such courses will be evaluated on a case-by-case basis.

If fewer than two courses are taken abroad, the student should increase the number of courses from the America in the World and The World in America lists above, to reach a total of five courses in the minor.

Students may elect to complete up to two approved American culture courses taken at an American studies international partner institution or other UNC-approved study abroad program. These courses should deal primarily with the United States, or with the interaction between American culture and one or more other cultures, or with the impact within the United States of other cultures. Courses must be approved by the director of undergraduate studies prior to beginning the study abroad experience.

If fewer than two courses are taken abroad, the student should increase the number of courses from the America in the World and The World in America lists above, to reach a total of five courses in the minor.

Introduction

Anthropology is the integrative study of human beings at all times and in all places. Anthropological expertise has special application for hidden histories and the ancient past; the intersection of human biology and ecology; and the way communities create and use meaning, values, and history in everyday life. We support studies, research, and professional applications in these areas with three programs of foundational training: archaeology; human biology, ecology, and evolution; and sociocultural anthropology.

Cutting across these specializations, the department supports concentrations that integrate anthropology’s diverse expertise to address contemporary world problems. Programming in these areas helps students connect their anthropological studies to work and life beyond the University. Current concentrations focus on health, medicine, and humanity; heritage and unwritten histories; global engagement; race, place and power; and food, environment, and sustainability.

Together, the Department of Anthropology’s programs and concentrations offer the undergraduate student one of the best introductions possible to our biological and cultural pasts and to our contemporary world. Anthropology majors thus develop the written and oral skills needed to live and work in a complex world marked by an accelerated rate of environmental, social, and cultural change. Anthropology majors acquire general knowledge and skills valued within a large number of occupations and professions, including but not limited to professional anthropology.

Advising

All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department’s director of undergraduate studies (see “Contact Information” above) works with current and prospective majors and minors by appointment. Students are encouraged to consult with the director of undergraduate studies about course choices and field work opportunities. Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, and the honors program may be obtained from the department’s Web site.

Graduate School and Career Opportunities

There are three basic career paths for B.A.-level anthropology majors:

- Anthropology majors have open to them all of the career options of any student with a bachelor of arts degree in the liberal arts and social sciences, with the added advantage that they surely are more prepared than most in the growing international arena of business, government, and nongovernmental organizations (NGOs). The resources and professional staff of University Career Services and the department’s director of undergraduate studies can provide guidance.

- Anthropology majors can seek a career that puts their anthropology degree directly into practice.

- Lastly, anthropology majors can continue with graduate education in order to seek a career in education, either as a social studies teacher in a school or a professor in a university. See Careers in Academic Anthropology—Graduate School Route (http://anthropology.unc.edu/undergraduate-program/career-tracks).

ANTH—Anthropology
The basic division in undergraduate anthropology courses is between lower-division courses numbered below 300 and upper-division courses numbered between 300 and 699. Sophomores should not hesitate to take courses numbered 300 to 699 because of fears of their difficulty but may wish to consult the instructor before enrolling.

Undergraduate-level Courses
ANTH 50. First-Year Seminar: Skeletons in the Closet. 3 Credits.
In this first-year seminar, students explore the use of the human skeleton to modern behavioral and biological investigations, focusing on observations that are used as evidence to prove or disprove hypotheses. Gen Ed: SS.
Grading status: Letter grade.

ANTH 51. First-Year Seminar: Environmentalism and American Society. 3 Credits.
This first-year seminar examines United States environmentalism and its relationship to power and privilege, consumer desire, and attachment to place. Students conduct original group research on the environmental movement. Gen Ed: SS.
Grading status: Letter grade.

ANTH 52. First-Year Seminar: Asian Cultures, Asian Cities, Asian Modernities. 3 Credits.
Introduction to the processes of cultural productions and the making of social diversity in large Southeast Asian cities, as they have experienced modernity and globalization during the last 30 years. Gen Ed: SS.
Grading status: Letter grade.

ANTH 53. First-Year Seminar: Darwin's Dangerous Idea. 3 Credits.
Exploration of how natural selection works, how it has been used and misused for understanding human nature, health and disease, aging, social behavior, how we choose mates, and more. Honors version available. Gen Ed: SS.
Grading status: Letter grade.

ANTH 53H. First-Year Seminar: Darwin's Dangerous Idea. 3 Credits.
Exploration of how natural selection works, how it has been used and misused for understanding human nature, health and disease, aging, social behavior, how we choose mates, and more. Gen Ed: SS.
Grading status: Letter grade.

ANTH 54. First-Year Seminar: The Indians' New Worlds: Southeastern Histories from 1200 to 1800. 3 Credits.
This course uses archaeological and historical scholarship to consider the histories of the Southern Indians from the Mississippian period to the end of the 18th century. Gen Ed: HS, US, WB.
Grading status: Letter grade
Same as: AMST 54.

ANTH 55. First-Year Seminar: The Right to Childhood: Global Efforts and Challenges. 3 Credits.
Do children have special needs and rights? This seminar will answer this question. Gen Ed: SS, CI, GL.
Grading status: Letter grade.

ANTH 56. First-Year Seminar: The Art of Healing, the Culture of Curing. 3 Credits.
This seminar focuses on cross-cultural healing beliefs and practices and on how social, economic, political, and ethical aspects of our lives relate to health and healing. Gen Ed: SS.
Grading status: Letter grade.

ANTH 57. First-Year Seminar: Today in Africa. 3 Credits.
Examination of the daily news as reported online by African newspapers, the BBC, etc. Readings and class discussions of ethnographic and historical background. Student projects based on following major stories. Gen Ed: SS.
Grading status: Letter grade.

ANTH 58. First-Year Seminar: Deep Economies. 3 Credits.
Adopting a long view of human societies, students examine responses to crises engendered by political, economic, and environmental factors. Perspectives on societal change - apocalyptic, transformational, and resilient - undergo scrutiny. Honors version available. Gen Ed: HS, BN, CI.
Grading status: Letter grade.

ANTH 59. First-Year Seminar: The Lives of Others: Exploring Ethnography. 3 Credits.
Can we truly access, understand, and represent the lives of others? In this class, students take on these questions by taking up the practice of ethnography, a research method consisting of entering into a community, interacting with its members, observing social life, asking questions, and writing about these experiences. Gen Ed: SS.
Grading status: Letter grade.
ANTH 64. First-Year Seminar: Public Archaeology in Bronzeville, Chicago's Black Metropolis. 3 Credits.
In the early 20th century millions of African Americans migrated to large northern cities. Requisites: Corequisite, ANTH 413L.
Gen Ed: PX, CI, EE- Mentored Research.
Grading status: Letter grade.

ANTH 413L. Archaeobotany Lab. 1 Credit.
Lab analysis of plant remains from archaeological sites with an emphasis on basic procedures for processing, sorting, and identifying macrobotanical remains.
Requisites: Corequisite, ANTH 413.
Gen Ed: EE- Mentored Research.
Grading status: Letter grade.

ANTH 414. Laboratory Methods: Human Osteology. 3 Credits.
This course will focus on the analysis of human skeletal materials in the laboratory and in the field, with an emphasis on basic identification, age and sex estimation, and quantitative analysis.
Gen Ed: PL.
Grading status: Letter grade.

ANTH 414L. Human Osteology Lab. 1 Credit.
The laboratory analysis of human skeletal materials with an emphasis on basic identification, age and sex estimation, and quantitative analysis.
Requisites: Corequisite, ANTH 414.
Grading status: Letter grade.

ANTH 415. Laboratory Methods: Zooarchaeology. 3 Credits.
This course will focus on the analysis of animal remains from archaeological sites. Introduction to laboratory methods, analytical approaches, and interpretive frameworks for zooarchaeology.
Gen Ed: SS.
Grading status: Letter grade.

ANTH 415L. Zooarchaeology Lab. 1 Credit.
Required preparation, an archaeological course or permission of instructor. Examination of identification techniques, quantitative methods, and interpretive frameworks used to analyze animal remains recovered from archaeological sites.
Requisites: Corequisite, ANTH 415.
Grading status: Letter grade.

ANTH 416. Bioarchaeology. 3 Credits.
The study of human skeletal remains from archaeological contexts. The collection and interpretation of quantitative and qualitative data is emphasized to assess the relationship between past biology, environment, culture, and behavior.
Gen Ed: SS.
Grading status: Letter grade.

ANTH 417. Laboratory Methods: Lithic Seminar. 3 Credits.
Laboratory techniques in stone tool research and experimental practice.
Gen Ed: SS.
Grading status: Letter grade.

ANTH 417L. Lithic Analysis Lab. 1 Credit.
Required preparation, any course in archaeology or permission of the instructor. This is a required one-hour laboratory section to be taken in conjunction with ANTH 417.
Requisites: Corequisite, ANTH 417.
Grading status: Letter grade.

ANTH 418. Laboratory Methods: Ceramic Analysis. 3 Credits.
A survey of the laboratory techniques used by archaeologists to study and draw social and behavioral inferences from ancient pottery.
Grading status: Letter grade.

ANTH 419. Anthropological Application of GIS. 3 Credits.
Permission of the instructor. GIS experience required. This course explores applying GIS science technologies to anthropological problems. Students will learn GIS skills and apply them using spatial data.

Gen Ed: HS, US.
Grading status: Letter grade.

ANTH 539. Environmental Justice. 3 Credits.
Course examining issues of race, poverty, and equity in the environmental movement. Cases include the siting of toxic incinerators in predominantly people-of-color communities to resource exploitation on indigenous lands.
Gen Ed: SS, EE-Service Learning, US.
Grading status: Letter grade.
ANTH 540. Planetary Crises and Ecological and Cultural Transitions. 3 Credits.
Analysis of the social-environmental crisis and approaches to redress it, particularly those that posit ecological and cultural transitions beyond current globalization models. Participants will construct their own scenarios for transitions to sustainable and pluralistic societies. The course will have an in-built, collective research component. Intended for upper-division undergraduates.
Gen Ed: GL.
Grading status: Letter grade.

ANTH 541. Sociolinguistics. 3 Credits.
Introduction to the study of language in relation to society; variation as it correlates with socioeconomic status, region, gender; the social motivation of change; language and equality; language maintenance, planning, shift.
Requisites: Prerequisite, LING 101 or 400.
Grading status: Letter grade
Same as: LING 541.

ANTH 542. Pidgins and Creoles. 3 Credits.
Examination of the social contexts of language contact and their linguistic outcomes, with particular emphasis on the formation of pidgins and creoles. The course investigates the structural properties of these new contact languages and evaluates the conflicting theories that explain their genesis.
Requisites: Prerequisite, LING 101 or 400.
Grading status: Letter grade
Same as: LING 542.

ANTH 545. The Politics of Culture in East Asia. 3 Credits.
Examines struggles to define culture and the nation in 20th-century China in domains like popular culture, museums, traditional medicine, fiction, film, ethnic group politics, and biography and autobiography.
Gen Ed: SS, BN, GL.
Grading status: Letter grade
Same as: ASIA 545.

ANTH 550. Archaeology of the American South. 3 Credits.
Current issues and interpretations in the archaeology of the American South. Through weekly readings and discussions, students will explore the lifeways and changes that characterized each major period of the South's ancient history, from 12,000 years ago to the beginnings of European colonization.
Gen Ed: HS, WB.
Grading status: Letter grade.

ANTH 551. Origins of Agriculture in the Ancient World. 3 Credits.
This course explores archaeological evidence for the origins of food production. We address when and where this profound change occurred as well as focusing on why it happened and what its consequences were. We will examine current evidence for the origins of agriculture in both Old and New Worlds.
Gen Ed: GL, WB.
Grading status: Letter grade.

ANTH 559. History in Person. 3 Credits.
Extends anthropological approaches to identity in social life. Examines social position, power, and cultural imagination; the personal and collective dynamics of sociocultural change; and the concept of agency.
Gen Ed: SS.
Grading status: Letter grade.

ANTH 574. Chinese World Views. 3 Credits.
Explores the indigenous Chinese sciences and the cosmological ideas that informed them. Topics include astronomy, divination, medicine, fengshui, and political and literary theory. Chinese sources in translation are emphasized.
Gen Ed: SS, BN.
Grading status: Letter grade
Same as: ASIA 574, RELI 574.

ANTH 584H. Conspiracy Thinking in Contemporary United States. 3 Credits.
We will consider the JFK assassination, in detail and in historical context, and several subsequent real and imagined conspiracies, including 9/11. The course focuses on a fundamental issue in social analysis: the empirical and epistemological bases of what we know about our society, its current events and recent history.
Grading status: Letter grade.

ANTH 584. Conspiracy Thinking in Contemporary United States. 3 Credits.
We will consider the JFK assassination, in detail and in historical context, and several subsequent real and imagined conspiracies, including 9/11. The course focuses on a fundamental issue in social analysis: the empirical and epistemological bases of what we know about our society, its current events and recent history. Honors version available
Grading status: Letter grade.

ANTH 585. Anthropology of Science. 3 Credits.
Cultural perspectives on science and technology at a global scale, including research settings and social contexts, knowledge claims and material practice, and relations between scientific worldviews, social institutions, and popular imagination.
Gen Ed: SS, GL, NA.
Grading status: Letter grade.

ANTH 586. The Gardens, Shrines, and Temples of Japan. 3 Credits.
The religious landscape and built environments of Japan. Attention to palace, courtyard, and teahouse architecture and gardens, with emphasis on Shinto shrines and the Zen Buddhist temple and garden.
Gen Ed: VP, BN.
Grading status: Letter grade.

ANTH 590. Special Topics in Anthropology I. 3 Credits.
Subject matter will vary with instructor but will focus on some particular topic or anthropological approach. Course description is available from the departmental office. Honors version available
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading status: Letter grade.

ANTH 590H. Special Topics in Anthropology I. 3 Credits.
Subject matter will vary with instructor but will focus on some particular topic or anthropological approach. Course description is available from the departmental office.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading status: Letter grade.
ANTH 623. Human Disease Ecology. 3 Credits.
This seminar considers cultural ecologies of disease by examining
how social, cultural, and historical factors shape disease patterns. We
examine how ecosystems are shaped by disease, how disease shapes
ecosystems, and how cultural processes (e.g., population movements,
transportation, economic shifts, landscape modifications, and built
environments) contribute to emerging infectious disease.
Gen Ed: SS, GL.
Grading status: Letter grade.

ANTH 624. Anthropology and Public Health. 3 Credits.
This course compares disciplinary approaches of public health and
anthropology. We begin by examining the social determinants of health
paradigms and relationships between inequality, poverty, and global
health. We will explore epidemiological, biocultural, and symbolic
approaches to these problems. Public policy and health development will
also be examined.
Gen Ed: SS, GL.
Grading status: Letter grade.

ANTH 625. Ethnography and Life Stories. 3 Credits.
The course focuses on the practical and research uses of ethnography
and oral history, emphasizing life histories, life stories, biographies, and
how these intersect with communities.
Gen Ed: SS, EE- Service Learning, EE- Field Work, US.
Grading status: Letter grade.

ANTH 626. African Cultural Dynamics. 3 Credits.
In-depth reading of several books and articles that consider the
interaction between indigenous African traditions and intrusive colonial
and postcolonial forces. Emphasis on class discussion. Short papers and
individual projects.
Gen Ed: SS, BN, GL.
Grading status: Letter grade.

ANTH 629. Language Minority Students: Issues for Practitioners. 3
Credits.
Permission of the instructor. Explores issues of culture and language
associated with teaching English as a second language.
Grading status: Letter grade
Same as: EDUC 629.

ANTH 649. Politics of Life and Death. 3 Credits.
The course examines intersections between life, death, and contemporary
politics, with a historical focus on the health of populations. It combines
theoretical discussions with comparative empirical cases in a global
frame and includes a research component.
Gen Ed: SS, GL.
Grading status: Letter grade.

ANTH 650. Reconstructing Life: Nutrition and Disease in Past
Populations. 3 Credits.
This is an advanced course in the reconstruction of nutrition and health
in past populations. Among the topics explored are epidemiology, disease
ecology, dietary reconstruction, and paleopathology.
Gen Ed: SS.
Grading status: Letter grade.

ANTH 651. Identity, Memory, and the Afterlife: The Space and Place of
Death. 3 Credits.
Death is a universal event, yet treatment of the dead varies from society
to society. This course will be directed at examining mortuary rituals,
memory and identity, and the scientific study of the dead to interpret the
space and place of death in archaeological contexts.
Grading status: Letter grade.
ANTH 691H. Seniors Honors Project in Anthropology. 3 Credits.
Permission of the instructor. Open only to honors candidates.
Gen Ed: SS, EE- Mentored Research.
Grading status: Letter grade.

ANTH 692H. Senior Honors Thesis in Anthropology. 3 Credits.
Open only to senior honors candidates. Permission of the instructor is required.

Anthropology is the integrative study of human beings at all times and in all places. Anthropological expertise has special application for hidden histories and the ancient past; the intersection of human biology and ecology; and the way communities create and use meaning, values, and history in everyday life. Students interested in choosing anthropology as a major or minor should visit the department’s Web site (http://anthropology.unc.edu) and click on the link for the undergraduate program. Students planning a major in anthropology should inform the department’s director of undergraduate studies. Students should consult with the director of undergraduate studies on a regular basis.

Department Programs
Major
• Anthropology Major, B.A. (p. 259)

Minors
• General Anthropology Minor (p. 261)
• Heritage and Global Engagement Minor (p. 261)
• Medical Anthropology Minor (p. 262)

Graduate Programs
• Ph.D. in Anthropology (http://catalog.unc.edu/graduate/schools-departments/anthropology)

Student Learning Outcomes
Upon completion of the anthropology program, students should be able to:
• Demonstrate an in-depth knowledge of human social, cultural, and biological heterogeneity, within a framework that affirms the essential unity of the human species

Requirements
In addition to the program requirements, students must
• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 176).

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

1 The theoretical perspectives requirement serves as the major’s core course; it offers an integrative perspective on the theories and history of anthropology and explores what it means to be an anthropologist. Majors should fulfill this requirement in their junior year. If they cannot do so, they should consult with the director of undergraduate studies.

The department recommends that majors enroll in some field-oriented coursework such as ANTH 393, ANTH 395, ANTH 451, ANTH 453, or in study abroad coursework.

**Special Opportunities in Anthropology**

- Honors in Anthropology

Writing an honors thesis is an excellent way to cap one’s major in anthropology. The process offers students the chance to carry out original research on a topic that they are passionate about. Our thesis writers work closely with a faculty advisor and committee members to develop their project. The department provides excellent support, offering a specific seminar during the fall (ANTH 691H) and a corresponding independent study (ANTH 692H), that together walk students through the essential steps of research design and writing. For our students, writing an honors thesis continues to prove a pivotal experience—at once a capstone to their studies at Carolina and an achievement to carry with them into their lives and careers beyond.

To pursue an honors thesis project, students must:

- Maintain a minimum grade point average of 3.3 from the spring semester of the junior year through the entirety of the senior year
- Secure a faculty advisor who is an anthropologist at UNC-Chapel Hill.
- Successfully complete the ANTH 691H and ANTH 692H sequence
- Receive approval from UNC’s Office for Human Research Ethics prior to the start of research, for all projects involving human subjects

The process for approval requires several steps:

- Students considering an honor thesis should first contact the director of undergraduate studies or the honors thesis seminar instructor, during their junior year (or earlier).
- Eligible students next should secure an advisor prior to enrolling in ANTH 691H for the fall semester of their senior year. Typically, the advisor is a professor that they have worked with in a class or faculty member with shared interests.
- In the fall students develop their research design and begin to write their thesis ANTH 691H.
- In the spring, students complete an independent study with their advisor, focusing on writing the thesis ANTH 692H. Students also form their committee, by adding two additional faculty members.
- To complete the process, students defend (i.e., present and discuss) their thesis to their committee.

**Internships, Field Work, and Independent Study**

Students who wish to explore an anthropological concern outside the conventional classroom setting, or who desire advanced or specialized work beyond current course offerings, should consider ANTH 393, ANTH 395, ANTH 396, ANTH 451, and ANTH 453.

ANTH 393 provides anthropology students the opportunity to engage in internships or other field experiences within or beyond the University that have a significant anthropological learning component. Variable credit may be obtained for this course. ANTH 393 is a controlled enrollment course; it requires the permission in advance of the faculty member sponsoring the internship, of a responsible official of the agency in which the internship is carried, and of the director of undergraduate studies. It is essential that students make arrangements and secure permissions prior to the semester of the internship.

ANTH 396 provides anthropology students the opportunity to engage in independent study, and ANTH 395, the opportunity to engage in field research, in both cases under the mentoring of a specific faculty member. Variable credit may be obtained for these courses, although three units are usually expected. ANTH 396 and ANTH 395 require the permission of the faculty member under whom the student wishes to conduct research prior to the semester in which ANTH 396 or ANTH 395 is taken. Both are controlled enrollment courses. In general, these courses should be taken only by students with some prior coursework in anthropology or a related social science.

ANTH 451 and ANTH 453 are six-unit field school courses in which the student gains hands-on experience in research and study in the field under the direction of a faculty member.

Anthropology majors are limited to having no more than six credit hours of field-oriented coursework (ANTH 393, ANTH 395, ANTH 451, or ANTH 453) count toward meeting the major requirement, although they are not restricted from enrolling in more than six credit hours of these courses combined.

**Study Abroad**

Anthropology majors are encouraged to enroll in a study abroad program. These programs can offer direct experience of another culture and intensive language training, as well as excellent coursework in anthropology. By consulting with their departmental advisors as well
as with the University’s Study Abroad Office, students can assess the relevance of available programs to their interests and arrange to transfer credit hours to count toward their undergraduate degree and, where appropriate, the anthropology major. Study abroad programs are often affordable even to students who require financial aid. Information about student loans and scholarships for the purpose of studying abroad can be obtained from the Study Abroad Office.

Undergraduate Awards
The Honigmann Undergraduate Honors Thesis Award is given each year to the student who completed the best undergraduate honors project.

Introduction
The heritage and global engagement minor offers students the opportunity to engage two critical issues of our times: globalization and heritage. Students will learn a wide range of culturally aware approaches to understanding the role of globalization and heritage in the modern world. Emphasizing experiential learning, the minor offers students guided training in a range of anthropological methodologies including ethnography, oral life-history, heritage conservation, and community-based, participatory research. Through designated engagement courses, student completing the minor will have developed a portfolio of extended cases studies, ethnographic projects, and designs for participatory heritage and globally-concerned projects. This emphasis on engagement —i.e. first-hand anthropological research—teaches students to connect new ideas about culture, history, globalization, and identity with real communities. This course of study therein prepares students to navigate the complex issues of globalization and heritage that they will encounter in their personal and professional lives beyond UNC. The minor is designed to complement other majors and careers, where cultural awareness is a must. Affording undergraduates the opportunity to anthropologically engage their world, the heritage and global engagement minor brings together UNC faculty, students, and communities—both
abroad and here in North Carolina—to create locally grounded, globally aware understandings of an increasingly interconnected world.

**Graduate School and Career Opportunities**

There are multiple career paths open to students with a minor in heritage and global engagement. The minor is designed to augment a range of courses of study and careers. From medical and health professions to business, government, and nongovernmental organizations (NGOs), anthropological perspective is increasingly at a premium in the world writ large. This minor gives students the global awareness and first-hand research skills to distinguish themselves in a variety of local and global fields.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor course requirements at UNC–Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

Total Hours: 15

Students must have a grade of C or better in at least four of the five courses, and at least three courses must be taken at UNC–Chapel Hill or in a program officially sponsored by the University. Students planning on a minor in medical anthropology should inform the department’s director of undergraduate studies. For more information about medical anthropology see medicalanthropology.unc.edu (http://medicalanthropology.unc.edu).

See the program page here (p. 259) for special opportunities.

The Department of Applied Physical Sciences was created to expand interdisciplinary research and teaching by strengthening an intellectual climate in which science is collaborative and focused on applications. The department has connections among disciplinary departments across the natural sciences. The graduate program in materials science (M.S. and Ph.D.) is housed in the department. The department offers undergraduate courses.

Ronit Freeman, Rene Lopez (Physics and Astronomy).

Assistant Professors
Daphne Klotsa, Ehssan Nazockdast, Scott Warren (Chemistry).

Affiliated Faculty
Nancy L. Allbritton (Biomedical Engineering and Chemistry), James Cahoon (Chemistry), Joseph M. DeSimone (Chemistry), Jianping Lu (Physics and Astronomy), Laurie E. McNeil (Physics and Astronomy), Jerry Meyer (Chemistry), Thomas Meyer (Chemistry), Lu-Chang Qin (Physics and Astronomy), J. Michael Ramsey (Chemistry), Sergei S. Sheiko (Chemistry), Frank Tsui (Physics and Astronomy), Sean Washburn (Physics and Astronomy), Yue Wu (Physics and Astronomy), Otto Zhou (Physics and Astronomy).

Advanced Undergraduate and Graduate-level Courses
APPL 411. Practical Electronics for Everyone. 1 Credit.
Design and fabrication for practical electronics circuits, including interfacing with sensors and actuators.
Grading status: Letter grade.

APPL 412. Turning Your Entrepreneurial Ideas Into Reality. 3 Credits.
Students will work in groups on a semester project to turn their entrepreneurial ideas into reality.
Requisites: Prerequisite, APPL 110; permission of the instructor for students lacking the prerequisite.
Gen Ed: EE- Field Work.
Grading status: Letter grade.

APPL 413. LabView for Data Acquisition. 1 Credit.
The basics of data acquisition and hardware interfacing using LabVIEW graphical programming.
Grading status: Letter grade.

APPL 420. Introduction to Polymer Chemistry. 3 Credits.
Chemical structure and nomenclature of macromolecules, synthesis of polymers, characteristic polymer properties.
Requisites: Prerequisite, CHEM 261 or 261H; pre- or corequisites, CHEM 262 or 262H, and 262L or 263L.
Grading status: Letter grade
Same as: CHEM 420.

APPL 421. Synthesis of Polymers. 3 Credits.
Synthesis and reactions of polymers; various polymerization techniques.
Requisites: Prerequisites, CHEM 251 and 262 or 262H.
Grading status: Letter grade
Same as: CHEM 421.

APPL 422. Physical Chemistry of Polymers. 3 Credits.
Polymerization and characterization of macromolecules in solution.
Requisites: Prerequisites, CHEM 420 and 481.
Grading status: Letter grade
Same as: CHEM 422.

APPL 423. Intermediate Polymer Chemistry. 3 Credits.
Polymer dynamics, networks and gels.
Requisites: Prerequisite, CHEM 422.
Grading status: Letter grade
Same as: CHEM 423.

APPL 460. Optical Instrumentation for Scientists and Engineers. 3 Credits.
This course introduces principles of optical system design, covering a broad variety of imaging and microscopy instruments. The material will include computational methods for optical signal processing and basic principles governing light-matter interactions. The course will include theory and hands-on experience to implement and test methods. We will discuss recent publications and state-of-the-art optical systems which are task-driven, controlled by computers, tailored to specific applications, and optimized to monitor or manipulate complex systems.
Requisites: Prerequisite, MATH 383; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

APPL 470. Fundamentals of Materials Science. 3 Credits.
Crystal geometry, diffusion in solids, mechanical properties of solids, electrical conduction in solids, thermal properties of materials, phase equilibria.
Requisites: Prerequisite, CHEM 482 or PHYS 128. Pre- or corequisite, PHYS 441.
Grading status: Letter grade
Same as: CHEM 470.

APPL 472. Chemistry and Physics of Electronic Materials Processing. 3 Credits.
Permission of the instructor. A survey of materials processing and characterization used in fabricating microelectronic devices. Crystal growth, thin film deposition and etching, and microlithography.
Requisites: Prerequisite, CHEM 482 or PHYS 117 or 119.
Grading status: Letter grade
Same as: PHYS 472, CHEM 472.
APPL 473. Chemistry and Physics of Surfaces. 3 Credits.
The structural and energetic nature of surface states and sites, experimental surface measurements, reactions on surfaces including bonding to surfaces and adsorption, interfaces.
Requisites: Prerequisite, CHEM 470.
Grading status: Letter grade
Same as: CHEM 473.

APPL 475. Design and Fabrication of Fluids Monitoring Devices. 1 Credit.
Review of fluid mechanics including the fundamentals of pressure/flow relationships, fluid properties, and flow regimes. Students will design and create physical prototypes that demonstrate specific concepts and measure defined parameters. Students will use the BeAM makerspace network extensively to make things that illustrate fluid device design.
Class time will include exercises to reinforce concepts and a guided design activity to create a physical device. Required preparation: BeAM orientation, laser training, and 3D-printer training.
Grading status: Letter grade.

APPL 490. Special Topics. 1-3 Credits.
Topics vary from semester to semester.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 9 total completions.
Grading status: Letter grade.

APPL 491L. Materials Laboratory I. 2 Credits.
Structure determination and measurement of the optical, electrical, and magnetic properties of solids.
Requisites: Prerequisites, APPL 470 and PHYS 351.
Grading status: Letter grade
Same as: PHYS 491L.

APPL 492L. Materials Laboratory II. 2 Credits.
Continuation of PHYS 491L with emphasis on low- and high-temperature behavior, the physical and chemical behavior of lattice imperfections and amorphous materials, and the nature of radiation damage.
Requisites: Prerequisite, APPL 491L or PHYS 491L.
Grading status: Letter grade
Same as: PHYS 492L.

APPL 520L. Polymer Chemistry Laboratory. 2 Credits.
Various polymerization techniques and characterization methods. One four-hour laboratory each week.
Requisites: Pre- or corequisite, CHEM 420 or 421 or 425.
Gen Ed: EE- Mentored Research.
Grading status: Letter grade
Same as: CHEM 520L.

APPL 573. Introductory Solid State Physics. 3 Credits.
Crystal symmetry, types of crystalline solids; electron and mechanical waves in crystals, electrical and magnetic properties of solids, semiconductors; low temperature phenomena; imperfections in nearly perfect crystals.
Requisites: Prerequisite, PHYS 421; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade
Same as: PHYS 573.

APPL 690. Special Topics in Applied Physical Sciences. 3 Credits.
Advanced specialty topics in applied physical sciences for undergraduates and graduates.
Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading status: Letter grade.

Material Science (MTSC)
Advanced Undergraduate and Graduate-level Courses
MTSC 615. Structure of Solids. 3 Credits.
Crystallography, reciprocal lattices, Bloch waves, band structure, electronic wave functions, phonons, thermal expansion. Superlattice structures, including liquid crystals. Overview of properties of ceramic, amorphous, polymeric, and composite materials.
Grading status: Letter grade.

Introduction

The undergraduate major in archaeology focuses on the systematic study of the human past through its material remains by means of the excavation, recovery, and interpretation of artifacts and other associated evidence. Historical, environmental, and comparative components enable the examination of different culture systems through time and space, as well as the reconstruction of past lifeways and the interpretation of ancient social, political, and economic systems. The geographic scope of the program includes the Americas, Europe and the Mediterranean, Egypt, and the Near East. The educational goal of the program is to provide the student with a component of a liberal arts education that draws on both the social sciences and the humanities. It also will effectively prepare students for graduate study in anthropological archaeology, Mediterranean archaeology, museology, and historical preservation, or careers in contract archaeology and cultural resource management. Students interested in applying to graduate programs in Mediterranean or Near Eastern archaeology may need ancient language classes not required for the major. Students should consult a faculty advisor in archaeology if they have questions.

Advising

All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The curriculum's director of undergraduate studies (see “Contact Information” above) works with current and prospective majors and minors by appointment. Students are encouraged to consult with the director of undergraduate studies about course choices and field work opportunities. Curriculum academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, and the honors program may be obtained from the curriculum's Web site (http://archaeology.unc.edu).

Graduate School and Career Opportunities

The undergraduate curriculum in archaeology prepares majors for specialized graduate study in archaeology and cognate fields. The specific area of graduate study will depend on the fields of concentration of major, minor, and supporting coursework. Graduating majors (and double majors and minors) may pursue degree programs and careers in fields such as anthropology, Latin American studies, classical and medieval archaeology, Egyptology and ancient Near Eastern archaeology, art history, ancient history, and linguistics. Provided with a well-rounded undergraduate degree in the liberal arts, graduating students may pursue professional and graduate programs in diverse fields of the humanities and social sciences, utilizing their skills in various professions such as field archaeology (professional or contract archaeology), museology, conservation and historical preservation, cultural resource and heritage management, and teaching. Career resources as well as a list of former graduates and their careers are available on the curriculum’s Web site (http://archaeology.unc.edu).

ARCH—Archaeology

Undergraduate-level Courses

ARCH 393. Internship in Archaeology. 3-6 Credits.
Permission of the instructor and the director of undergraduate studies. Internships combine substantive work experience with an academic project.
Gen Ed: EE- Academic Internship.
Repeat rules: May be repeated for credit. 12 total credits. 2 total completions.
Grading status: Letter grade.

ARCH 395. Research in Archaeology. 1-6 Credits.
Permission of the instructor. For students who wish to participate in laboratory or field research programs. May be taken twice.
Repeat rules: May be repeated for credit. 12 total credits. 2 total completions.
Grading status: Letter grade.

ARCH 396. Independent Study in Archaeology. 1-6 Credits.
Permission of the instructor. Special reading and research in archaeology under the supervision of a selected instructor. May be taken twice.
Repeat rules: May be repeated for credit. 12 total credits. 2 total completions.
Grading status: Letter grade.
Advanced Undergraduate and Graduate-level Courses

ARCH 691H. Seniors Honors Thesis, Part 1. 3 Credits.
Permission of the instructor. Restricted to senior honors candidates.
First semester of senior honors thesis. Independent research under the direction of an archaeology curriculum faculty member.
Gen Ed: EE- Mentored Research.
Grading status: Letter grade.

ARCH 692H. Senior Honors Thesis, Part 2. 3 Credits.
Permission of the instructor. Restricted to senior honors candidates.
Second semester of senior honors thesis. Independent research under the direction of an archaeology curriculum faculty member.

The undergraduate major in archaeology focuses on the systematic study of the human past through its material remains by means of the excavation, recovery, and interpretation of artifacts and other associated evidence.

Department Programs

Major
• Archaeology Major, B.A. (p. 267)

Minor
• Archaeology Minor (p. 271)

Student Learning Outcomes

Upon completion of the archaeology program, students should be able to:
• Demonstrate knowledge of the basic principles of archaeological reasoning (the ability to analyze ancient material culture and archaeological contexts)
• Demonstrate appropriate skills of archaeological exposition
• Demonstrate proficiency in recovering and documenting a variety of forms of material culture and archaeological contexts
• Demonstrate the ability to utilize both data sets and theoretical frameworks for interpreting and reconstructing long-term human history

Requirements

In addition to the program requirements, students must
• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 176).

Additional Requirements

- In choosing their comparative perspectives, long-term history, and topics in archaeology courses students are required to select courses from at least two of the participating departments (art, anthropology, classics, and religious studies).
- Of the 30 hours required for the major, at least 21 must be completed with a grade of C or better.
- Students may count only three introductory archaeology courses (numbered below 200) toward their major. This restriction does not include courses used to fill electives in related fields.
- For transfer students, at least half of the coursework in the major must be completed within the curriculum at UNC–Chapel Hill.

Subject to the approval of the advisor for the major, students may count graduate seminars towards fulfillment of their comparative perspectives, long-term history, and topics in archaeology or electives requirements. Also subject to the approval of the archaeology major advisor, field schools sponsored by Study Abroad or other universities may be used to fulfill the archaeological practice field experience requirement.

Special Opportunities in Archaeology

Honors in Archaeology

Students with a grade point average of 3.3 or higher are eligible to pursue a degree with honors. A student who wishes to take this track should identify and contact a faculty thesis advisor before the end of the junior year. During the senior year the student enrolls in a two-semester course sequence, ARCH 691H and ARCH 692H, which provides the opportunity to carry out an independent research project and write a thesis under the direction of the faculty advisor. Prior to registering for the honors courses, the student and faculty mentor must fill out a contract and have it signed by the curriculum's director of undergraduate studies. The thesis is evaluated by a committee consisting of the advisor and two readers. The advisor and at least one reader must be members of the Curriculum in Archaeology's faculty. A student who successfully completes the thesis may be awarded honors or highest honors by the committee. Highest honors is awarded only in cases where the thesis is judged to be exceptional in comparison to other such works.

Research Laboratories of Archaeology

Founded in 1939, the Research Laboratories of Archaeology (RLA) was the first center for the study of North Carolina archaeology. Serving the interests of students, scholars, and the general public, it is currently one of the leading institutes for archaeological teaching and research in the South. Located within the College of Arts and Sciences, it provides support and research opportunities for UNC-Chapel Hill students working not only in North Carolina but also throughout the Americas and overseas.

Duke–UNC Consortium for Classical and Mediterranean Archaeology (CCMA)

The Duke–UNC Consortium for Classical and Mediterranean Archaeology represents a collaboration between the institutions in order to enhance archaeology curricula and concentrations in the respective departments and programs in archaeology. The consortium fosters an interdisciplinary dialogue on methods, theory, and practice in classical archaeology and material culture, providing students access to coursework, seminars, excavations, and other research opportunities; academic advising; and avenues for curricular and extracurricular interaction.

Experiential Education

The development of skills and perspectives beyond the classroom is considered central to the curriculum in archaeology. Hands-on training in field archaeology provides students with the basic tools not only necessary for graduate training and advanced research in archaeology, but also for careers in cultural resource and heritage management through government agencies, contract firms, and museums. Developing an understanding of context and physical environment in archaeology requires field and laboratory experiences that are impossible to teach effectively in the classroom. Excavation and laboratory experiences allow students to participate directly in faculty research and to learn firsthand important aspects of the research process. Two or more field schools in archaeology are generally offered during summer sessions through the Study Abroad Office by faculty from the departments of anthropology, classics, religious studies, and history. In addition, many faculty research associates offer laboratory experiences through independent study projects and internships. These field work and laboratory experiences are designed to enhance the classroom training, allowing students to work as assistants to field archaeologists and specialists—such as surveyors, archaeological architects, palaeoethnobotanists, zooarchaeologists, biological anthropologists, and geomorphologists—learning firsthand
various aspects of data recovery, processing, and interpretation associated with archaeological field projects.

The minor in archaeology draws on a number of disciplines and departments—principally anthropology, classics, and art—in the study of the ancient world, the reconstruction of past lifeways, and the interpretation of ancient social, political, and economic systems.

The minor helps prepare students for graduate study in anthropological archaeology, classical archaeology, cultural resource management, and historical preservation. It also provides any student with a strong intellectual interest in archaeology with a structured introduction to this field. Students interested in the minor in archaeology may contact the Director of Undergraduate Studies and consult the Web site (http://archaeology.sites.unc.edu/home/ca).

Introduction
The Department of Art and Art History at UNC–Chapel Hill fosters exchange among creative endeavor, scholarly investigation, and bold expression, through faculty research, graduate student training, undergraduate programs, and public events. The department aims to be an integral part of the University community dedicated to free inquiry that is pursued through both the arts and sciences and expressed in objects, images and text.

Through an innovative and rigorous curriculum, students learn the critical skills of creative problem solving and self-expression. The undergraduate programs aim to help students articulate their individual perspectives on values and beliefs while discovering their places in a society that is increasingly shaped by visual communications, technology, and globalization. To do so, students develop their creative and scholarly vision and the technical skills to express that vision through their works of art and writing. The highly rated graduate programs in art history and studio art promote these ideals on an advanced level, and have proven their effectiveness through the post-graduate placement and national awards that students receive.

- **Mission**: Make | Frame | Reveal
- **Vision**: Thinking and Creating across Boundaries
- **Values**: The curiosity, empathy, and courage to engage diverse perspectives

As a department, we are committed to working closely with our students and to guiding them in developing an individual voice. We cultivate exchange between studio art and art history and offer maximum flexibility within our individual programs.

Majors and minors in art history become acquainted with the historical significance, cultural diversity, and intellectual richness of human artistic traditions, enabling students to investigate the complex roles played by the arts in a variety of social contexts.

The studio art program offers three different degree programs for majors as well as a minor, and each encourages experimentation, crossing boundaries, and hybrid processes as well as engaging the history and traditions of art. Through directed practice and creative research, faculty work closely with students to stimulate aesthetic and intellectual inquiry, impart portable skills, and motivate self-exploration to help students create outstanding works of art.

Students may choose from a range of studio coursework designed to develop both skills and a personal creative vision. Students develop two critical skills: the means of self-expression and techniques for creative thinking. While the undergraduate program focuses on the fine arts, the course of study nonetheless offers a sound foundation for students to move into art education, design fields, and other art-related careers as well as preparation for further study or careers in the fine arts.

Credit by Examination

**ART HISTORY**
Students who pass the Advanced Placement (AP) examination in art history and earn a score of 3 will receive credit for ARTH 152.

**STUDIO ART**
The Studio Art program awards placement only (PL) for work done in the Advanced Placement (AP) and International Baccalaureate (IB) programs. Students who pass the AP portfolio exam for 2-D Design, 3-D Design or Drawing with a score of 4 or 5 receive placement for ARTS 102, ARTS 103, or ARTS 104 respectively. Students earning a score of 6 or higher on the IB portfolio receive placement for ARTS 104. Placement effectively means that students can waive ARTS 102, 103 or 104 prerequisites.

Advanced Placement by Portfolio Review
Students who score a 3 on AP portfolios or 5 on the IB may petition for a portfolio review to determine if they can waive ARTS 102 or ARTS 104 requirements. In addition to these threshold scores, art majors who have broad experience in visual art may petition to waive some prerequisites by submitting a portfolio for review. If the review is successful, students receive placement only. Students then substitute any other ARTS coursework to satisfy the total credit hours required in the major. Portfolio requirements are modeled after the College Board Advanced Placement portfolios. These guidelines are available from the director of undergraduate studies in studio art, the student services specialist, or on the art majors' Sakai site. Portfolios are reviewed annually in September only. Contact the director of undergraduate studies in studio art at the beginning of the fall semester to make arrangements for submitting a portfolio.

Advising

**TWO ADVISORS**
All majors and minors have two advisors; a primary academic advisor in Steele Building and departmental advisors for program-specific planning. Students are strongly encouraged to meet regularly with both advisors and review their Tar Heel Tracker each semester. The undergraduate advisors in art history and studio art work with current and prospective majors and minors by appointment. On request, art history majors may be assigned an individual faculty advisor. Departmental academic advising is particularly important for those majors who are considering honors thesis work or graduate school.

INFORMATION, ANNOUNCEMENTS, AND SESSIONS
If in any semester curricular opportunities or changes are relevant to all majors and minors in either programmatic area of the department, students receive an advisory announcement with relevant details via the art and art history majors’ listserv. When issues are larger than can be accommodated by electronic communication, general advising sessions are scheduled prior to registration. Students are strongly encouraged to attend such sessions since questions of collective relevance often arise. Basic details are also posted on the majors’ Sakai site.

Additionally, special information sessions are held periodically to guide students on awards, study abroad, internships, and research
opportunities (especially the Summer Undergraduate Research Fellowships). These sessions are announced via the majors’ listerv and on the majors’ Sakai site, as well as by posters in the Hanes Art Center and Art Lab.

Facilities
CLASSROOMS AND STUDIOS
The department possesses outstanding facilities for the teaching of both art history and studio art in the Hanes Art Center. The building houses state-of-the-art facilities for image projection required in art history. Specialized classrooms for art practice include large studios for painting, drawing, and mixed media. A dedicated space is available for installation projects. The John C. Henry Printmaking Studio is a wonderfully spacious 3,325-square-foot laboratory providing ambient workspace for a variety of printmaking processes. Studios for photography include both darkroom (black and white) and digital photography and a dedicated shooting studio. The digital laboratories at UNC-Chapel Hill are Mac-based, with the most current software needed for work in photography (including large-scale output), video, and digital/electronic media. UNC also provides access to the entire Adobe Creative Suite for all students. Students enrolled in studio art classes have 24-hour access to these laboratories. In addition, the 17,686-square-foot Art Lab, located 1.8 miles north of the Hanes Art Center (108 Airport Drive), houses the department’s sculpture and ceramic facilities.

In addition to the departmental classroom spaces, the Hanes Art Center also houses one of the BeAM (Be A Maker) makerspaces at UNC. The BeAM space at Hanes is equipped with a variety of hand tools and some wonderful high-tech machines including a vinyl cutter, 3-D printers, a laser cutter, and a CNC router. All of this is provided at no charge to students.

LIBRARIES
Department of Art and Art History resources also include the Joseph C. Sloane Art Library with its collection of 100,000 volumes, which is supplemented by the University’s academic affairs libraries, with holdings of more than six million volumes. The department also has a Visual Resources Library, which oversees almost 300,000 slides and digital images for use in teaching and research.

EXHIBITION SPACES
The John and June Allcott Galleries in the Hanes Art Center are sites for numerous exhibitions throughout the year. The main gallery has an exhibition schedule of 12 to 15 shows each year, showing work by professional artists, faculty, and students. For a large portion of the spring semester, this gallery is dedicated to M.F.A. thesis exhibitions. The John and June Allcott Undergraduate Gallery is the exhibition space designed especially for work produced or chosen by undergraduate students. Both galleries are periodically used as an incubator space by the Curatorial Practices class where students explore concepts and logistics of curating exhibitions. The Hanes Art Center also houses the SAMple gallery. This space run by the Studio Art Majors Association (SAMA) to showcase work by SAMA members.

The Alumni Sculpture Garden occupies the grounds surrounding the Hanes Art Center. Temporary exhibitions of sculpture are commissioned by the department and are on display for a two-year period. Commissions are awarded annually to undergraduate and graduate students.

The Ackland Art Museum is located adjacent to the Hanes Art Center. The Ackland’s programming regularly augments the educational experience of the University community.

ARTH—Art History

Undergraduate-level Courses

ARTH 51. First-Year Seminar: Cathedrals, Abbeys, Castles: Gothic Art and Architecture (c. 1130-1450). 3 Credits.
The seminar explores Gothic church and secular art and architecture in France and Europe between c. 1130 and c.1450. It focuses not only on the formal and artistic progresses in architecture, sculpture, and stained glass windows during this period, but also on the social, political, and economic aspects of medieval society that affected these developments.
Gen Ed: VP, WB.
Grading status: Letter grade.

ARTH 52. First-Year Seminar: Celts—Druid Culture. 3 Credits.
Who were the Celts, and more specifically, who were the Druids? Little is known about the ancient Druids, yet they have captured the imagination of Western Europeans and North Americans for centuries. They have defined ethnic identity for disparate cultures. So who were they, and who are they today? Honors version available

Required preparation, any intermediate art history course or permission of the instructor. A study of theoretical issues central to the understanding of trends in modern art (e.g., modernism, the avant-garde, formalism, originality).
Grading status: Letter grade.

ARTH 586. Cultural Politics in Contemporary Art. 3 Credits.
Permission of the instructor. This course will examine strategies of critique in contemporary art. Organized thematically, it focuses on the tactics employed by artists who address political, social, or cultural issues through their work.
Grading status: Letter grade.

ARTH 588. Current Issues in Art. 3 Credits.
Addresses select issues that have gained or re-gained prominence in today's art world, for example globalization, training, the market, and the nature of the "contemporary.
Gen Ed: VP, NA.
Grading status: Letter grade.

ARTH 590. Topics in Connoisseurship. 3 Credits.
Permission of the instructor. Works in the Ackland Museum's collection will be studied directly as a means of training the eye and exploring the technical and aesthetic issues raised by art objects.
Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading status: Letter grade.

ARTH 592. History and Theory of Museums. 3 Credits.
Required preparation, any intermediate art history course or permission of the instructor. Provides an historical overview of museums. Serves as an introduction to many of the theoretical issues museums face including: ethics, audiences, the role of museums in society, exhibiting dilemmas.
Grading status: Letter grade.

ARTH 595. Experience in Research. 1-3 Credits.
Required preparation, one 100-level art history course and one 200- to 399-level art history course. An experiential learning opportunity in independent and original research on a topic or in a field of the student’s choosing under the close direction of a faculty supervisor.
Gen Ed: VP, EE- Mentored Research.
Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading status: Letter grade.

ARTH 597. Studiolo to Wunderkammer. 3 Credits.
Required preparation, any intermediate art history course or permission of the instructor. This course explores the history of early modern collecting, encompassing scholars' and merchants' "study rooms," aristocrats' menageries, humanists' "sculpture gardens," and princely cabinets of wonders.
Grading status: Letter grade.

ARTH 691H. Honors in Art History. 3 Credits.
Permission of the instructor. Independent research directed by a faculty member leading to an honors thesis.
Gen Ed: EE: Mentored Research.
Grading status: Letter grade.

ARTH 692H. Honors in Art History. 3 Credits.
Permission of the instructor. Independent research directed by a faculty member leading to an honors thesis.
Gen Ed: EE: Mentored Research.
Grading status: Letter grade.

ARTS—Studio Art
Registration for the studio art foundation courses (ARTS 102, ARTS 103, and ARTS 105) is limited to studio art majors and minors during the first part of the preregistration period. Remaining spaces are made available to nonmajors during the registration period for first-year students. Because the department gives this preference to studio art majors, nonmajors, undeclared students, or continuing study students often find it difficult to enroll in these courses. Individuals seriously considering a studio art major and experiencing such difficulty should see the undergraduate advisor for studio art. We reserve a small number of spaces for such students. Students may be asked to demonstrate a commitment to studio art with some examples of artwork. Students are also encouraged to contact instructors directly to secure a position on a waiting list.

In general, studio art courses are numbered to reflect media areas in the last digit. Painting courses end in 2, sculpture 3, drawing 4, photography 5, digital media 6, mixed media 7, and printmaking 8.

Undergraduate-level Courses
ARTS 50. First-Year Seminar: The Artistic Temperament. 3 Credits.
Class examines how to advance and sustain artistic production, focusing not only on being a successful artist, but also on the importance of creativity and hard work in any successful venture. Honors version available
Gen Ed: VP.
Grading status: Letter grade.

ARTS 50H. First-Year Seminar: The Artistic Temperament. 3 Credits.
Class examines how to advance and sustain artistic production, focusing not only on being a successful artist, but also on the importance of creativity and hard work in any successful venture.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 59. First-Year Seminar: Time, A Doorway to Visual Expression. 3 Credits.
This class will study one of the lesser considered, but most intriguing, visual components: the element of time.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 72. First-Year Seminar: Visualizing Women's Lives and Experiences. 3 Credits.
This seminar explores the experiences of women by integrating content and methodologies from psychology with perspectives on the depiction of women in the arts, namely digital media. Students will study gender socialization, body image, work/achievement, sex and romance, motherhood, aging, and mental health with attention given to diversity.
Gen Ed: SS, US.
Grading status: Letter grade.
Same as: PSYC 72.

ARTS 75. First-Year Seminar: Stories in Sight: The Narrative Image. 3 Credits.
This class looks at the theory and practice of telling stories through photographs.
Gen Ed: VP.
Grading status: Letter grade.
ARTS 78. First-Year Seminar: The Visual Culture of Photography. 3 Credits.
This course will investigate how photography is inextricably entwined in our lives and histories.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 80. First-Year Seminar: Please Save This: Exploring Personal Histories through Visual Language. 3 Credits.
This class will investigate the idea of personal histories in visual art. As a studio class, the course will be organized around several art making projects. As a catalyst to our own art making, we will explore the idea of personal history and memory through readings, as well as looking at contemporary artists whose work functions in an autobiographical framework.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 82. First-Year Seminar: Special Topics. 3 Credits.
Content varies by semester.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading status: Letter grade.

ARTS 102. Two-Dimensional Design. 3 Credits.
Studio course investigates concepts and strategies of two-dimensional image making. Introduces design elements of visual language (line, shape, value, texture, color). Considers the cultural codes that accompany visual information and how they combine with organizational structures to determine a variety of effects, influence responses, and inform meaning. Foundation requirement for studio majors.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 103. Sculpture I. 3 Credits.
Studio course introduces concepts and strategies of working in three dimensions. Project-based coursework develops understanding of ideation process and creative problem solving. Ideas about sculpture are further expanded by considering works by contemporary artists. Students develop aesthetic sensibility, analytical capacity, and fundamental skills in sculptural media. Foundation requirement for studio majors.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 104. Drawing I. 3 Credits.
Working out of an observational tradition, this course provides an introduction to the concepts and techniques of drawing. Paying attention to both representation and interpretation, the course is designed to develop fundamental skills, aesthetic sensibility, analytical capacity, and creative problem-solving in two-dimensional media.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 105. Photography I. 3 Credits.
Focusing on creative digital photography, this course provides an introduction to the concepts and techniques of digital imagery and lens-based media. Includes methods of interpretation, analysis of images, scanning, retouching, color correction, basic composition, and inkjet printing. Honors version available.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 105H. Photography I. 3 Credits.
Focusing on creative digital photography, this course provides an introduction to the concepts and techniques of digital imagery and lens-based media. Includes methods of interpretation, analysis of images, scanning, retouching, color correction, basic composition, and inkjet printing.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 106. Video I. 3 Credits.
This foundation course introduces concepts and techniques of temporally based media. Through projects designed to develop an understanding of the creative language unique to digital media, students will learn various software programs and basic digital strategies to realize time-based works of art. Foundation requirement for studio majors.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 116. Introduction to Web Media. 3 Credits.
Basic computer skills required. This course investigates the emergence of Web, interactive, and mobile technologies as artistic tools, communication technologies, and cultural phenomena. Students will design and produce interactive Web sites. The course covers principles of Web-based programming and design via HTML and CSS.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 132. Collage: Strategies for Thinking and Making. 3 Credits.
Collage is both an artistic technique and a way of thinking. Even though its historical roots stem from the early 20th century, it is an image construction strategy that is almost ubiquitous today. Using a variety of conceptual and media approaches, this course explores strategies of collage in contemporary studio practice.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 202. Painting I. 3 Credits.
Recommended preparation, ARTS 106. This course will introduce the fundamentals of painting and various painting techniques through studio lab activity, lectures, demonstrations, and discussions. The course intends to guide students through developing their technical, formal, conceptual, and creative sensibilities to the painting process.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 205. Photography II. 3 Credits.
Continuation of ARTS 105 with continued focus on advanced creative digital photography techniques.
Requisites: Prerequisite, ARTS 105.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 206. Video II. 3 Credits.
In this intermediate-level class students expand on video production strategies and concepts such as lighting theory, location sound recording, montage, and sound design while developing individual and collaborative processes for moving image production.
Requisites: Prerequisite, ARTS 106; permission of the instructor for students lacking the prerequisite.
Gen Ed: VP, EE-Performing Arts.
Grading status: Letter grade.
ARTS 208. Print I. 3 Credits.
Introduction to four basic approaches to printmaking: intaglio, relief, planographic, and stencil processes. Students will explore creative strategies unique to the printed process.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 209. 2D Animation. 3 Credits.
This class explores several techniques of 2D character animation, including storyboarding and conceptualizing, pencil testing and timing animation, animating simple sequences with Photoshop, experimenting with coloring and materials under a film camera, and compositing in After Effects.
Requisites: Prerequisite, ARTS 104.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 210. Exploring the City Through Visual Arts. 3 Credits.
This class examines metal sculpture from both a technical and intuitive perspective. Students are taught metalworking skills and are then encouraged to use these skills to discover their creative potential.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 211. Life Drawing. 3 Credits.
Through the study of anatomy and observation of the human form, students develop the ability to create powerful, realistic figure drawings. Fundamental skills and concepts include expressive use of line, value, weight, and volume plus classical techniques in shading, gesture, sighting, and composition.
Requisites: Prerequisite, ARTS 104; permission of the instructor for students lacking the prerequisite.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 212. Color: Theory and Concept. 3 Credits.
This course explores the intricacies of color theory with regard to perception, systems, and application in visual art. Further, the course considers color as subject and concept in contemporary art. Previously offered as ARTS 121.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 213. Ceramic I. 3 Credits.
An investigation of clay as a medium; developing technical skills, aesthetic awareness, and historical perspective.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 214. Life Drawing. 3 Credits.
Through the study of anatomy and observation of the human form, students develop the ability to create powerful, realistic figure drawings. Fundamental skills and concepts include expressive use of line, value, weight, and volume plus classical techniques in shading, gesture, sighting, and composition.
Requisites: Prerequisite, ARTS 104; permission of the instructor for students lacking the prerequisite.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 215. Exploring the City Through Visual Arts. 3 Credits.
This class examines metal sculpture from both a technical and intuitive perspective. Students are taught metalworking skills and are then encouraged to use these skills to discover their creative potential.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 216. New Technologies and Narrative Painting. 3 Credits.
This studio course will focus on immersing students in the culturally rich practice of narrative painting, and emphasize integrating BeAM space technology and equipment in the conceptual and creative process.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 217. Wood Sculpture. 3 Credits.
This class examines wood sculpture from both a technical and intuitive perspective. Students are taught woodworking skills and are then encouraged to use these skills to discover their creative potential.
Gen Ed: VP, EE- Performing Arts.
Grading status: Letter grade.

ARTS 218. Screen Printing. 3 Credits.
Recommended preparation, ARTS 104 and/or ARTS 105. An intermediate studio course focused on creating stencil-based print images. Students explore a range of technical approaches and will investigate art making concepts specific to screen printing as well as the intersections of screen printing with other two-dimensional art forms.
Requisites: Prerequisite, ARTS 102; permission of the instructor for students lacking the prerequisite.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 219. 2D Animation. 3 Credits.
This class explores several techniques of 2D character animation, including storyboarding and conceptualizing, pencil testing and timing animation, animating simple sequences with Photoshop, experimenting with coloring and materials under a film camera, and compositing in After Effects.
Requisites: Prerequisite, ARTS 104.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 220. Ceramic II. 3 Credits.
An investigation of clay as a medium; developing technical skills, aesthetic awareness, and historical perspective.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 221. Color: Theory and Concept. 3 Credits.
This course explores the intricacies of color theory with regard to perception, systems, and application in visual art. Further, the course considers color as subject and concept in contemporary art. Previously offered as ARTS 121.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 222. New Technologies and Narrative Painting. 3 Credits.
This studio course will focus on immersing students in the culturally rich practice of narrative painting, and emphasize integrating BeAM space technology and equipment in the conceptual and creative process.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 223. Wood Sculpture. 3 Credits.
This class examines wood sculpture from both a technical and intuitive perspective. Students are taught woodworking skills and are then encouraged to use these skills to discover their creative potential.
Gen Ed: VP, EE- Performing Arts.
Grading status: Letter grade.

ARTS 224. Design. 3 Credits.
This course continues an investigation of three-dimensional thought and process begun in Tier I sculpture. Projects explore an expanded definition of sculpture, considering a range of motivating concepts. These explorations build on basic skills and further develop technical and conceptual options for making sculpture.
Requisites: Prerequisite, ARTS 103, 213, or 233; permission of the instructor for students lacking the prerequisite.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 225. Life Drawing. 3 Credits.
Through the study of anatomy and observation of the human form, students develop the ability to create powerful, realistic figure drawings. Fundamental skills and concepts include expressive use of line, value, weight, and volume plus classical techniques in shading, gesture, sighting, and composition.
Requisites: Prerequisite, ARTS 104; permission of the instructor for students lacking the prerequisite.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 226. Color: Theory and Concept. 3 Credits.
This course explores the intricacies of color theory with regard to perception, systems, and application in visual art. Further, the course considers color as subject and concept in contemporary art. Previously offered as ARTS 121.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 227. New Technologies and Narrative Painting. 3 Credits.
This studio course will focus on immersing students in the culturally rich practice of narrative painting, and emphasize integrating BeAM space technology and equipment in the conceptual and creative process.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 228. Screen Printing. 3 Credits.
Recommended preparation, ARTS 104 and/or ARTS 105. An intermediate studio course focused on creating stencil-based print images. Students explore a range of technical approaches and will investigate art making concepts specific to screen printing as well as the intersections of screen printing with other two-dimensional art forms.
Requisites: Prerequisite, ARTS 102; permission of the instructor for students lacking the prerequisite.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 229. 2D Animation. 3 Credits.
This class explores several techniques of 2D character animation, including storyboarding and conceptualizing, pencil testing and timing animation, animating simple sequences with Photoshop, experimenting with coloring and materials under a film camera, and compositing in After Effects.
Requisites: Prerequisite, ARTS 104.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 230. Painting II. 3 Credits.
This course aims to continue guiding painting students through developing sensibilities to paint handling, color, composition, and spatial design, with an emphasis on experimentation. Students will develop their work in context to themes that are significant in painting history, relevant to contemporary art, and their personal lens.
Requisites: Prerequisite, ARTS 202.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 231. Sculpture II. 3 Credits.
This course continues an investigation of three-dimensional thought and process begun in Tier I sculpture. Projects explore an expanded definition of sculpture, considering a range of motivating concepts. These explorations build on basic skills and further develop technical and conceptual options for making sculpture.
Requisites: Prerequisite, ARTS 103, 213, or 233; permission of the instructor for students lacking the prerequisite.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 232. Color: Theory and Concept. 3 Credits.
This course explores the intricacies of color theory with regard to perception, systems, and application in visual art. Further, the course considers color as subject and concept in contemporary art. Previously offered as ARTS 121.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 233. Wood Sculpture. 3 Credits.
This class examines wood sculpture from both a technical and intuitive perspective. Students are taught woodworking skills and are then encouraged to use these skills to discover their creative potential.
Gen Ed: VP, EE- Performing Arts.
Grading status: Letter grade.
ARTS 309. 3D Animation. 3 Credits.
The primary goals of this class are to introduce students to three-dimensional computer modeling and animation in Maya. While the particular focus of the class is 3D character animation and most students will produce a short 3D animation as their final project, students may also explore a broad range of creative applications and avenues for development, including special effects, compositing with video, and motion graphics.
Requisites: Prerequisite, ARTS 209.
Grading status: Letter grade.

ARTS 313. Ceramic II. 3 Credits.
Continuation of ARTS 213.
Requisites: Prerequisite, ARTS 213.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 322. Narrative Painting. 3 Credits.
Students will explore themes in the vast history of narrative paintings by researching and responding to these themes, and create narrative paintings through their own personal lens. We will explore topics of the genre, from historical works, to how contemporary artists are interpreting and creating narratives that mirror the diverse spectrum of identities, materials, and histories in our lifetime.
Requisites: Prerequisite, ARTS 202.
Gen Ed: VP; EE: Performing Arts.
Grading status: Letter grade.

ARTS 324. Drawing II. 3 Credits.
This class builds on predominantly perceptually based concepts of basic drawing and introduces abstraction, interpretive, and conceptual drawing strategies. Class assignments develop understanding of the language of drawing and provide a foundation that aims to support independent investigation and personal approaches to drawing’s unique capabilities.
Requisites: Prerequisite, ARTS 104.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 337. The Aesthetics of Junk. 3 Credits.
From Dada to ArtBrut to Mix-tape, this course experiments with assemblage (accumulations of things forming a new whole) and destruction (taking apart and reconfiguring a thing). This course addresses issues of collage as both object and action, playing in the intersection of experimental theatre and design of mass-produced objects.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 343. MAKE: Art in the (New) Age. 3 Credits.
Suggested preparation, ARTS 103. This course examines the connecting trajectories of artistic and technological developments from early modernism to the contemporary. While addressing the interconnected nature of technology, technique, craft and art, students will work with our new technologies (Laser and Vinyl Cutter, 3D Printer, etc.) to create 3D work.
Gen Ed: VP; EE: Mentored Research.
Grading status: Letter grade.

ARTS 348. Lithography. 3 Credits.
Lithography is an intermediate printmaking class. The course provides basic technical introduction to stone and plate lithography. Students will investigate artistic strategies to forge visual literacy in print media.
Requisites: Prerequisite, ARTS 208; permission of the instructor for students lacking the prerequisite.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 352. Abstract Painting. 3 Credits.
This studio course will explore the vast visual language of abstract painting. Students will examine abstraction through creating paintings within a historical, visual, and cultural framework, and acquire context about the emergence and persistence of painted abstraction.
Requisites: Prerequisite, ARTS 202.
Grading status: Letter grade.

ARTS 353. Phantasmagoria: Haunted Art, History, and Installation. 3 Credits.
This course will be organized around four art making/art building projects, culminating in a class presentation of a multimedia phantasmagoria. Students will research early light/shadow, pre-cinema techniques, hauntings/horror and artists whose work is influenced by these tropes. We will work with Maker's Spaces to produce components for this course. Previously offered as ARTS 253.
Gen Ed: VP; EE; Performing Arts.
Grading status: Letter grade.

ARTS 354. Narrative Drawing. 3 Credits.
How does one tell a story in the form of a drawing? This class will investigate narrative composition as a genre using diverse and analytical methods in drawing. From life drawing sessions to exercises in diverse environments and public events.
Requisites: Prerequisite, ARTS 104.
Grading status: Letter grade.

ARTS 355. The Practice of Representation: Portraiture in Photography. 3 Credits.
This course examines the practical and theoretical issues of portraiture. Students will learn technical skills and conceptual strategies to engage with issues of representation and notions of identity. We will explore the history of the photographic portrait as well as work of contemporary portrait artists working in a post-modern age.
Requisites: Prerequisite, ARTS 105.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 358. Letterpress. 3 Credits.
This class explores the concepts and craft of letterpress printing. Technical skills include typesetting, linoleum carving, and digital interfaces for making image and text matrices. Projects explore the special relationship of image and word and are designed around specific text/image forms: broadside, poster, portfolio, and book.
Requisites: Prerequisite, ARTS 208.
Gen Ed: VP.
Grading status: Letter grade.
ARTS 364. The Walking Seminar: A Territorial Investigation. 3 Credits.
Recommended preparation, ARTS 104. This seminar engages students in a territorial investigation of the North Carolina landscape. Meandering through the landscape we will explore different art mediums while simultaneously fostering an appreciation for the natural environment. Through hiking and backpacking students will foster a means for understanding their location and documenting their experience.
Gen Ed: VP; EE- Field Work.
Grading status: Letter grade.

ARTS 368. Print II. 3 Credits.
This course continues an investigation of print techniques and concepts. Projects develop an understanding of print strategies, focusing on the affordances of processes unique to printmaking. This approach positions traditional techniques as a point of departure for seeking an expanded definition of printmaking.
Requisites: Prerequisite, ARTS 208.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 390. Special Topics in Studio Art. 3 Credits.
Required preparation, any intermediate studio art course or permission of the instructor. Selected topics in studio art.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading status: Letter grade.

ARTS 391. Theory, History, and Practice of Contemporary Curating. 3 Credits.
Required preparation, any Tier II ARTS course, any contemporary-focus ARTH course; permission of the instructor for students lacking the required preparation. How do curators assist the navigation of contemporary art? This course addresses this question and others concerning the history, trends, personalities, and sites involved in contemporary art exhibition. The class will mount actual exhibitions informed by readings and interaction with curators, artists, and stage performances.
Gen Ed: VP.
Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

ARTS 402. Advanced Painting Projects. 3 Credits.
This course focuses on the historically rich practice of painting, and is designed to guide the advanced painting student through the research, conceptual, aesthetic, and technical components of a comprehensive studio practice, and developing and maintaining a studio work ethic.
Requisites: Prerequisite, ARTS 302, 322, or 352; permission of the instructor for students lacking the prerequisite.
Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading status: Letter grade.

ARTS 403. Advanced Sculpture. 1-6 Credits.
Continuation of ARTS 303. May be repeated for credit.
Requisites: Prerequisite, ARTS 303; permission of the instructor for students lacking the prerequisite.
Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading status: Letter grade.

ARTS 405. Advanced Darkroom Photography. 3 Credits.
Continuation of ARTS 305 with advanced focus on conceptual topics and black and white analog photography techniques.
Requisites: Prerequisite, ARTS 105.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 409. Art and Science: Merging Printmaking and Biology. 3 Credits.
Permission of the instructors. This class explores the intersection of two disciplines, art and science. Research skills intrinsic to both include curiosity, close observation, experimentation, and visual analysis. Organized around printmaking projects informed by specific topics in biology, students adapt theory and practical skills from both disciplines to create artworks using several printmaking techniques. Honors version available.
Requisites: Prerequisite, one of BIOL 201, 202, ARTS 105, 106, 202, 205, 206, 208, 209, 238, 415, 458; corequisite, BIOL 409L.
Gen Ed: VP; EE- Performing Arts.
Grading status: Letter grade.

ARTS 409H. Art and Science: Merging Printmaking and Biology. 3 Credits.
Permission of the instructors. This class explores the intersection of two disciplines, art and science. Research skills intrinsic to both include curiosity, close observation, experimentation, and visual analysis. Organized around printmaking projects informed by specific topics in biology, students adapt theory and practical skills from both disciplines to create artworks using several printmaking techniques.
Requisites: Prerequisite, one of BIOL 201, 202, ARTS 105, 106, 202, 205, 206, 208, 209, 238, 415, 458; corequisite, BIOL 409L.
Gen Ed: VP EE- Performing Arts.
Grading status: Letter grade.

ARTS 410. Public Art. 3 Credits.
This studio class explores public art from historical and critical perspective. Students will propose and create works of public art. Opportunities to implement projects will be explored through the Department of Art and other resources.
Requisites: Prerequisite, ARTS 302, 303, or 305; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

ARTS 413. Advanced Ceramic Projects. 3 Credits.
Continuation of ARTS 313. May be repeated for credit.
Requisites: Prerequisite, ARTS 313; permission of the instructor for students lacking the prerequisite.
Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading status: Letter grade.

ARTS 415. Conceptual-Experimental Photography. 3 Credits.
An advanced photography course for students interested in contemporary photographic practices, critical theory, art history, and experimental processes: theory and practice, formal and conceptual investigations, and historical and contemporary strategies will all be given equal attention.
Grading status: Letter grade.
ARTS 416. Video Art. 3 Credits.
An introduction to the creative and technical processes in producing video art. Students will shoot and edit their own independent video projects. Some class time will be devoted to viewing video art and other media-based work.
Requisites: Prerequisite, ARTS 106; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

ARTS 417. Advanced Mixed Media Projects. 3 Credits.
Cultural production and practice, theory, and criticism. Pursuit of individual visual projects, formally and conceptually, through theoretical, poetic, art historical, and autobiographical texts, critiques, collaboration, and discussion using all media.
Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading status: Letter grade.

ARTS 418. Advanced Printmaking. 3 Credits.
This course is appropriate for students who have had a minimum of three semesters of prior printmaking experience. Students submit a proposal outlining technical and artistic goals for the semester.
Requisites: Prerequisites, ARTS 208 and any two of ARTS 238, 338, or 348; permission of the instructor for students lacking the prerequisites.
Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading status: Letter grade.

ARTS 423. Installation Art. 3 Credits.
This class explores art that encompasses its audience. Conceptual motivations as well as practical realities of dealing with a specific three-dimensional space will be considered.
Requisites: Prerequisite, ARTS 303; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

ARTS 428. Book Art. 3 Credits.
Required preparation, one additional two-dimensional studio course (drawing, photography, or printmaking). Defining the book as a "multiple and sequential picture plane," this course considers a range of traditional approaches and conceptual departures of the book as a format for creative expression.
Requisites: Prerequisite, ARTS 102.
Gen Ed: VP.
Grading status: Letter grade.

ARTS 458. Photo Printmaking. 3 Credits.
This course combines a technical approach (making printing matrices using photographic processes) with a conceptual framework (the photographic "voice" and its interpretation in printmaking). Artmaking projects explore salient ideas such as appropriation versus capture, documentation, truth-telling and fabrication, or narrative invention using specific technical processes such as photogravure and cyanotype.
Requisites: Prerequisites, ARTS 105 and 208; permission of the instructor for students lacking the prerequisites.
Gen Ed: VP; EE- Performing Arts.
Grading status: Letter grade.

ARTS 490. Advanced Special Topics in Studio Art. 3 Credits.
Required preparation, any intermediate studio art course or permission of the instructor. Advanced consideration of selected topics in studio art.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading status: Letter grade.

ARTS 493. Studio Art Practicum or Internship. 3 Credits.
Required preparation, 15 hours ARTS courses. Allows studio art majors to pursue unpaid practicums or internships for credit. Examples include working as a studio assistant or working in art-related fields, such as galleries, design firms, architectural firms, and nonprofit arts organizations. Work undertaken must comply with Federal criteria governing unpaid internships. Departmental approval required.
Gen Ed: EE- Academic Internship.
Grading status: Letter grade.

ARTS 499. Senior Projects. 3 Credits.
This research-intensive course is designed for B.F.A. students to define and execute a focused body of work or a single large project over the course of a semester. Work may be pursued individually or in collaborative teams. Required for B.F.A. studio art majors. B.A. studio art majors may seek permission from the instructor.
Gen Ed: VP; EE- Performing Arts.
Grading status: Letter grade.

ARTS 500. Senior Seminar. 3 Credits.
Restricted to senior studio art majors. This course is the capstone course for the studio art major. Topics covered include issues of professional development, curatorial practice, and presentation of works of art in exhibition. The culminating project is mounting the Senior Exhibition.
Gen Ed: VP; EE- Field Work.
Grading status: Letter grade.

ARTS 515. Advanced Topics in Photography. 3 Credits.
May be repeated for credit.
Requisites: Prerequisite, ARTS 305; permission of the instructor for students lacking the prerequisite.
Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading status: Letter grade.

ARTS 596. Independent Study in Studio Art. 1-4 Credits.
Permission of the instructor. For students wishing to pursue additional media or thematic study beyond the advanced level. Students register with section numbers designated for faculty. May be repeated for credit.
Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading status: Letter grade.

ARTS 637. Social Practice and Performance Art. 3 Credits.
Students will explore "socially engaged art" practices that challenge the distinction between art and life, are fundamentally collaborative, value process over end product, and utilize action, dialogue, and participation as strategies as an intervention in public discourse.
Gen Ed: VP.
Grading status: Letter grade
Same as: COMM 637.

ARTS 690. Advanced Topics in Studio Art. 3 Credits.
Required preparation, any intermediate studio art course or permission of the instructor. Selected topics in studio art.
Repeat rules: May be repeated for credit. 3 total credits. 1 total completions.
Grading status: Letter grade.

ARTS 691H. Senior Honors Thesis Project in Studio Art. 3 Credits.
Permission of the department. ARTS 691H is designed to enable studio art majors to pursue serious and substantial work. In addition to working with the instructor of record for ARTS 499/691H, students work under the supervision of an individual thesis advisor and committee.
Gen Ed: EE- Mentored Research.
Grading status: Letter grade.
ARTS 692H. Senior Honors Thesis Project in Studio Art. 3 Credits.
ARTS 692H is taught concurrently with and by the instructor for
ARTS 500. In addition to the classroom component, students continue
to work with an individual thesis advisor and committee. Successful
completion of ARTS 692H allows students to graduate with honors or
highest honors.
Requisites: Prerequisite, ARTS 691H.
Gen Ed: EE- Mentored Research.
Grading status: Letter grade.

The undergraduate program in art history is directed toward two main
educational goals:

1. to provide students with an excellent liberal arts foundation through
   an understanding of the historical and global significance, cultural
diversity, and intellectual richness of human artistic traditions from
prehistoric times to the present; and
2. to provide these students with the intellectual tools needed to
   investigate the complex roles played by the arts in a variety of social
contexts.

Skills in visual analysis, historical research, critical reading, analytical and
descriptive writing, and oral communication are developed throughout
the course of the study. The practice of art history is interdisciplinary,
dynamically engaged with many fields in the humanities and social
sciences, as well as with the University’s diverse area studies programs
and the Ackland Art Museum. The art history major equips students with
skills, knowledge, and values to negotiate rapidly changing, richly
diverse, and increasingly interconnected local, national, and worldwide
communities.

Student Learning Outcomes

Upon completion of the art history program, students should be able to:

• Demonstrate knowledge of the works of art, artists, viewers, and
  patrons in a variety of cultures and societies; and the visual arts in
  the context of the past and present societies that produced them
• Recognize that visual forms and symbols are historically and
culturally contingent, and that interpretation requires a knowledge of the
visual language specific to the work of art, as a result of studying the
arts in a variety of cultures and historical moments
• Pose an art historical question, pursue that question through
research in original and secondary sources, evaluate evidence, and
create an argument in response to that evidence
• Demonstrate deep content area knowledge by explaining and
discussing intelligently major issues related to that field

Requirements

In addition to the program requirements, students must

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–
  Chapel Hill courses
• take at least half of their major course requirements (courses and
  credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core
  requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of
the catalog (p. 176).

**Honors in Art History**

The honors program is open to students with a 3.3 grade point average who have demonstrated overall excellence in the discipline. Honors are generally pursued in the senior year. Students enroll in the honors courses (ARTH 691H in the fall; ARTH 692H in the spring) through the student services assistant in the Department of Art and Art History office. This should be done after consultation with the faculty honors advisor and department honors advisor. For more information, see the honors program description elsewhere in this catalog and the departmental honors announcement. Honors work will allow a student to graduate with honors or with highest honors.

**Special Opportunities in Art and Art History**

**Independent Study**

Students may pursue independent study coursework with individual faculty members. Such work may be undertaken only with the permission of the sponsoring faculty member. Students should consult individual faculty members prior to registration to secure permission. A proposal and a contract must be approved by the appropriate director of undergraduate studies (studio art or art history) before students may enroll. (See the the departmental majors’ Sakai site for instructions.) Since faculty members are limited to supervising only two independent study students each semester, students are strongly advised to contact the faculty member with whom they wish to work early in the registration period for the upcoming semester.

Independent study work requires a minimum of three hours per week per credit hour. For example, a typical three-credit-hour class would require at least nine hours of work per week. Once the semester begins, students must meet with the faculty member initially to confirm goals, review expectations, and establish semester deadlines. Thereafter, students must meet regularly to review work in progress, with a suggested biweekly frequency. Total time spent in direct interaction with the faculty member for the semester must average 45 minutes per week. This may be in the form of face-to-face meetings, blog or e-mail exchanges, or group critiques with other independent study students and their advisors.

**Departmental Involvement**

Students have opportunities to see and interact with a variety of arts professionals through exhibitions in the Allcott Galleries, installations of sculptural works in the Alumni Sculpture Garden, an artist-in-residence
program, the Visiting Arts Professionals Program, and the Hanes Visiting Artist Lecture Series.

There are several undergraduate student organizations serving the visual arts at Carolina. The Undergraduate Art Association (UAA) is a campuswide social club that supports and develops undergraduate visual artists at Carolina — regardless of their enrollment in art classes — and strengthens the impact of visual art in the university community. The Studio Art Majors Association (SAMA) is aimed at developing community and professional opportunities that augment the experience for studio art majors and minors, especially through programming of the Samiple Gallery in the Hanes Art Center. ArtHeels is a service-based organization that is passionate about bringing arts (visual, performing, and literary) to the healthcare setting. The Art History Liaisons is the undergraduate art history group. Kappa Pi is the department majors’ honors society which includes both studio and art history majors. These groups serve as an important link between the majors and the department’s administration. The department utilizes these organizations to facilitate communication about matters of interest, including participation in departmental initiatives or other extracurricular opportunities.

**Internships**

Art and art history majors are encouraged to pursue internships at local, regional, or national arts institutions or businesses. Students have worked in many art career contexts including museums and galleries, arts programming, and local businesses specializing in art-related production (photo studios, printmaking studios, illustration, design firms, and publishing). The departmental majors’ Sakai site has useful information about the requirements and how to set up the contracts for ARTh 293 and ARTS 493 as well as a partial listing of organizations that have worked with our students in the past. If you would like to discuss specific ideas about a possible internship, speak to any faculty member or the relevant director of undergraduate studies (art history or studio). All internships taken for UNC credit are subject to governmental guidelines, and students must have internships preapproved and under contract before enrolling for either ARTh 293 or ARTS 493.

**Study Abroad**

Students are encouraged to pursue study abroad opportunities. While there are many opportunities to study art abroad, the Department of Art and Art History maintains a special affiliation with the Studio Art Centers International (SACI) and the Lorenzo di Medici — both in Florence, Italy — and the Glasgow School of Art in Scotland. Students should discuss their study abroad plans with the undergraduate advisor in studio art to obtain prior approval for courses taken abroad. Basically, courses that have an equivalent in the UNC—Chapel Hill curriculum usually are approved. Courses that fall outside the UNC—Chapel Hill curriculum must be evaluated on a case-by-case basis. No guarantee exists that a course will transfer for credit unless preapproved. Contact the Study Abroad Office to discuss the procedures for approval.

**Undergraduate Awards**

UNDERGRADUATE AWARDS COMPETITION IN STUDIO ART

The studio program awards more than $24,000 annually to students, with individual awards ranging from a minimum of $500 to $3,000. A competition each November allows studio art majors to submit up to four works to be considered for the following scholarships:

- The Alexander Julian Prize (one award to our best student)
- The Sharpe Scholarships (multiple awards for students receiving financial aid)
- George Kachergis Studio Art Scholarships (multiple awards chosen by a student-designated committee)
- The Anderson Award
- The Penland School of Craft Scholarships (two awards cover expenses for a summer course at the Penland School of Craft)
- A design honorarium to develop proposals for the Alumni Sculpture Garden (see below).

ALUMNI SCULPTURE GARDEN COMPETITION

Every year, the Department of Art and Art History commissions student work for the Alumni Sculpture Garden. Commissions are a minimum of $5,000, and the department awards up to three commissions. The selection process occurs in three stages: identifying interested students, a design phase, and the production of the work. During the November Awards Competition, interested students compete for one of six $500 design honoraria that are to be used to develop proposals. Winners of this first phase are required attend a session early in the spring semester to learn about how to develop a proposal and the components that must be included. Proposals are reviewed in March to select winners.

**Undergraduate Research**

Opportunities for undergraduate research in the Department of Art and Art History exist in several forms. Detailed descriptions and application guidelines are available on the art majors’ Sakai site and from the department’s student services manager.

**Allcott Travel Fellowships** support two summer research projects in studio art and/or art history.

**The Beatrice Pearman Fund** supports special projects in both art history and studio art. Competitions for art history research funds are held in the fall and the spring. Studio art students may request funds for special projects by submitting a proposal to the director of undergraduate studies in studio art. Awards are $500 or less.

**Summer Undergraduate Research Fellowships (SURF)** are administered through the UNC Office for Undergraduate Research. These $3,000 awards support undergraduate research projects over the summer. UNC’s broad definition of research includes creative practices, and the James Boyd Gadson SURFs are specifically designated for studio art. SURF applications from studio art majors are automatically considered for these Gadson Fellowships. This fund typically supports at least two awards. Application deadlines (usually in February) are set by the Office for Undergraduate Research. Students interested in pursuing summer research should contact possible faculty sponsors toward the end of the fall semester.

**The Jacquelyn Friedman and Marvin Saltzman Fund in Art** provides supplemental monies for painting supplies for students who for economic reasons may be hindered from working to their full potential. Any undergraduate student with need, regardless of major, enrolled in a departmental studio art painting class during the fall and/or spring semesters is eligible. Students can contact their course instructor or the student services specialist for further information.

The B.A. degree is intended to expose undergraduate students to a range of studio art ideas and practices. Students should choose this degree option if they are seeking a general liberal arts education. It is also the most-often-selected degree option when pursuing a double major. Second majors are frequent with communication studies (media and technology studies and production), journalism (design track), biology, drama (costume and set design), and psychology (art therapy), but any field can be augmented by studying the visual arts. All General Education Foundations, Approaches, Connections, and Supplemental General Education requirements must be satisfied. While the major consists of 36 credit hours, students may earn up to 45 credits in studio art courses (ARTS) that will count toward graduation. Credits taken beyond 45 will not count toward overall graduation requirements.

Learning Outcomes

The overall goal of the studio art program at UNC–Chapel Hill is for students to develop interconnected skills of creative thinking and critical making in order to produce outstanding works of art.

Upon completion of the studio art program (B.A., B.F.A.), students should be able to demonstrate the following competencies:

• Understand fundamentals of studio practice shared across studio disciplines
• Document and present work (portfolio, exhibition, online gallery) that demonstrates a basic understanding of professional practices
• Develop the ability to think and act creatively through experimentation, and analysis of options and parameters — enabling work to progress from idea to physical form
• Develop an understanding of creative research as an iterative process that informs and allows artwork to evolve
• Develop effective vocabulary and skill (both verbal and written) to engage in critical analysis of form and content relationships in their own artwork and the work of others

Requirements

In addition to the program requirements, students must

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 176).

Honors in Studio Art

The Senior Honors Thesis Project is designed to provide senior studio art majors an opportunity to pursue serious and substantial work that may qualify them to graduate “with honors” or “with highest honors.” Students selected for the program conduct original creative research spanning the two semesters of the senior year.

To be eligible to apply for this opportunity, students must be rising senior studio art majors and meet the minimum GPA threshold of 3.3 established by the Honors Carolina office. The application consists of the following:

• A completed application form
• A proposal for the senior thesis project
• A digital portfolio demonstrating a mature capability to perform visual research

A call for applications is announced via the department student listserv in March. Applications are due in early to mid April and are reviewed by the studio faculty within two weeks of the application deadline. If accepted as a studio art honors candidate, students enroll in the honors courses through the student services manager.

</tbody>
</table>

ARTS 691H and ARTS 692H run concurrently with ARTS 499 and ARTS 500, and replace these course requirements for the B.F.A. major.

In addition to the scheduled coursework, studio honors students work with a thesis committee consisting of a thesis advisor – who must be a studio art faculty member – and two additional faculty members, typically the faculty teaching the ARTS 499 and ARTS 500 classes, but faculty from other disciplines may also serve on the honors thesis committee.

In studio art, the thesis project consists of the creative work produced and accompanying written components. Work is reviewed at the end of the fall semester to determine progress toward completion. In the spring semester, the completed honors project work and written thesis are presented to the honors committee for an oral defense. On the basis of this defense and the work presented, the committee determines whether or not a student graduates with an honors designation (honors or highest honors). Honors students exhibit their work in a formal exhibition either as a solo show at the time of the thesis defense and/or as a participant in the Senior Exhibition required for all graduating studio art majors. Studio art honors students also join their art history peers in a departmental honors symposium in April.

Current deadlines, details of the application process, and requirements for the senior studio art honors project (research, work and written
components) are available on the art and art history majors’ Sakai site or from the student services manager.

**Special Opportunities in Art and Art History**

**Independent Study**

Students may pursue independent study coursework with individual faculty members. Such work may be undertaken only with the permission of the sponsoring faculty member. Students should consult individual faculty members prior to registration to secure permission. A proposal and a contract must be approved by the appropriate director of undergraduate studies (studio art or art history) before students may enroll. (See the the departmental majors’ Sakai site for instructions.) Since faculty members are limited to supervising only two independent study students each semester, students are strongly advised to contact the faculty member with whom they wish to work early in the registration period for the upcoming semester.

Independent study work requires a minimum of three hours per week per credit hour. For example, a typical three-credit-hour class would require at least nine hours of work per week. Once the semester begins, students must meet with the faculty member initially to confirm goals, review expectations, and establish semester deadlines. Thereafter, students must meet regularly to review work in progress, with a suggested biweekly frequency. Total time spent in direct interaction with the faculty member for the semester must average 45 minutes per week. This may be in the form of face-to-face meetings, blog or e-mail exchanges, or group critiques with other independent study students and their advisors.

**Departmental Involvement**

Students have opportunities to see and interact with a variety of arts professionals through exhibitions in the Allcott Galleries, installations of sculptural works in the Alumni Sculpture Garden, an artist-in-residence program, the Visiting Arts Professionals Program, and the Hanes Visiting Artist Lecture Series.

There are several undergraduate student organizations serving the visual arts at Carolina. The Undergraduate Art Association (UAA) is a campuswide social club that supports and develops undergraduate visual artists at Carolina — regardless of their enrollment in art classes — and strengthens the impact of visual art in the University community. The Studio Art Majors Association (SAMA) is aimed at developing community and professional opportunities that augment the experience for studio art majors and minors, especially through programming of the SAMple Gallery in the Hanes Art Center. ArtHeels is a service-based organization that is passionate about bringing arts (visual, performing, and literary) to the healthcare setting. The Art History Liaisons is the graduate art history group. Kappa Pi is the department majors’ honors society which includes both studio and art history majors. These groups serve as an important link between the majors and the department’s administration. The department utilizes these organizations to facilitate communication about matters of interest, including participation in departmental initiatives or other extracurricular opportunities.

**Internships**

Art and art history majors are encouraged to pursue internships at local, regional, or national arts institutions or businesses. Students have worked in many art career contexts including museums and galleries, arts programming, and local businesses specializing in art-related production (photo studios, printmaking studios, illustration, design firms, and publishing). The departmental majors’ Sakai site has useful information about the requirements and how to set up the contracts for ARTH 293 and ARTS 493 as well as a partial listing of organizations that have worked with our students in the past. If you would like to discuss specific ideas about a possible internship, speak to any faculty member or the relevant director of undergraduate studies (art history or studio). All internships taken for UNC credit are subject to governmental guidelines, and students must have internships preapproved and under contract before enrolling for either ARTH 293 or ARTS 493.

**Study Abroad**

Students are encouraged to pursue study abroad opportunities. While there are many opportunities to study art abroad, the Department of Art and Art History maintains a special affiliation with the Studio Art Centers International (SACI) and the Lorenzo di Medici — both in Florence, Italy — and the Glasgow School of Art in Scotland. Students should discuss their study abroad plans with the undergraduate advisor in studio art to obtain prior approval for courses taken abroad. Basically, courses that have an equivalent in the UNC-Chapel Hill curriculum usually are approved. Courses that fall outside the UNC-Chapel Hill curriculum must be evaluated on a case-by-case basis. No guarantee exists that a course will transfer for credit unless preapproved. Contact the Study Abroad Office to discuss the procedures for approval.

**Undergraduate Awards**

**UNDERGRADUATE AWARDS COMPETITION IN STUDIO ART**

The studio program awards more than $24,000 annually to students, with individual awards ranging from a minimum of $500 to $3,000. A competition each November allows studio art majors to submit up to four works to be considered for the following scholarships:

- The Alexander Julian Prize (one award to our best student)
- The Sharpe Scholarships (multiple awards for students receiving financial aid)
- George Kachergis Studio Art Scholarships (multiple awards chosen by a student-designated committee)
- The Anderson Award
- The Penland School of Craft Scholarships (two awards cover expenses for a summer course at the Penland School of Craft)
- A design honorarium to develop proposals for the Alumni Sculpture Garden (see below).

**ALUMNI SCULPTURE GARDEN COMPETITION**

Every year, the Department of Art and Art History commissions student work for the Alumni Sculpture Garden. Commissions are a minimum of $5,000, and the department awards up to three commissions. The selection process occurs in three stages: identifying interested students, a design phase, and the production of the work. During the November Awards Competition, interested students compete for one of six $500 design honorariums that are to be used to develop proposals. Winners of this first phase are required attend a session early in the spring semester to learn about how to develop a proposal and the components that must be included. Proposals are reviewed in March to select winners.

**Undergraduate Research**

Opportunities for undergraduate research in the Department of Art and Art History exist in several forms. Detailed descriptions and application guidelines are available on the art majors’ Sakai site and from the department’s student services manager.

**Allcott Travel Fellowships** support two summer research projects in studio art and/or art history.
The Beatrice Pearman Fund supports special projects in both art history and studio art. Competitions for art history research funds are held in the fall and the spring. Studio art students may request funds for special projects by submitting a proposal to the director of undergraduate studies in studio art. Awards are $500 or less.

Summer Undergraduate Research Fellowships (SURF) are administered through the UNC Office for Undergraduate Research. These $3,000 awards support undergraduate research projects over the summer. UNC’s broad definition of research includes creative practices, and the James Boyd Gadson SURFs are specifically designated for studio art. SURF applications from studio art majors are automatically considered for these Gadson Fellowships. This fund typically supports at least two awards. Application deadlines (usually in February) are set by the Office for Undergraduate Research. Students interested in pursuing summer research should contact possible faculty sponsors toward the end of the fall semester.

The Jacquelyn Friedman and Marvin Saltzman Fund in Art provides supplemental monies for painting supplies for students who for economic reasons may be hindered from working to their full potential. Any undergraduate student with need, regardless of major, enrolled in a departmental studio art painting class during the fall and/or spring semesters is eligible. Students can contact their course instructor or the student services specialist for further information.

The B.F.A. is considered the preprofessional course of study, providing a more in-depth experience of visual concept and practice. Students intending to pursue further study in visual arts disciplines (master of fine arts, design fields, or architecture) should choose this degree option. Students considering the B.F.A. degree are advised to contact the undergraduate advisor for studio art during the first year and no later than the sophomore year.

### Learning Outcomes

The overall goal of the studio art program at UNC–Chapel Hill is for students to develop interconnected skills of creative thinking and critical making in order to produce outstanding works of art.

Upon completion of the studio art program (B.A., B.F.A.), students should be able to demonstrate the following competencies:

- Acquire the technical skills (informed control of technique, process, and materials) and an understanding of principles of visual organization sufficient to achieve basic visual communication and expression in one or more media
- Understand fundamentals of studio practice shared across studio disciplines
- Document and present work (portfolio, exhibition, online gallery) that demonstrates a basic understanding of professional practices
- Develop the ability to think and act creatively through experimentation, and analysis of options and parameters — enabling work to progress from idea to physical form
- Develop an understanding of creative research as an iterative process that informs and allows artwork to evolve
- Develop effective vocabulary and skill (both verbal and written) to engage in critical analysis of form and content relationships in their own artwork and the work of others

### Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

Students have opportunities to see and interact with a variety of arts professionals through exhibitions in the Allcott Galleries, installations of sculptural works in the Alumni Sculpture Garden, an artist-in-residence program, the Visiting Arts Professionals Program, and the Hanes Visiting Artist Lecture Series.

There are several undergraduate student organizations serving the visual arts at Carolina. The Undergraduate Art Association (UAA) is a campuswide social club that supports and develops undergraduate visual artists at Carolina — regardless of their enrollment in art classes — and strengthens the impact of visual art in the University community. The Studio Art Majors Association (SAMA) is aimed at developing community and professional opportunities that augment the experience for studio art majors and minors, especially through programming of the SAMple Gallery in the Hanes Art Center. ArtHeels is a service-based organization that is passionate about bringing arts (visual, performing, and literary) to the healthcare setting. The Art History Liaisons is the undergraduate art history group. Kappa Pi is the department majors’ honors society which includes both studio and art history majors. These groups serve as an important link between the majors and the department's administration. The department utilizes these organizations to facilitate communication about matters of interest, including participation in departmental initiatives or other extracurricular opportunities.

Internships

Art and art history majors are encouraged to pursue internships at local, regional, or national arts institutions or businesses. Students have worked in many art career contexts including museums and galleries, arts programming, and local businesses specializing in art-related production (photo studios, printmaking studios, illustration, design firms, and publishing). The departmental majors’ Sakai site has useful information about the requirements and how to set up the contracts for ARTH 293 and ARTS 493 as well as a partial listing of organizations that have worked with our students in the past. If you would like to discuss specific ideas about a possible internship, speak to any faculty member or the relevant director of undergraduate studies (art history or studio). All internships taken for UNC credit are subject to governmental guidelines, and students must have internships preapproved and under contract before enrolling for either ARTH 293 or ARTS 493.

Study Abroad

Students are encouraged to pursue study abroad opportunities. While there are many opportunities to study art abroad, the Department of Art and Art History maintains a special affiliation with the Studio Art Centers International (SACI) and the Lorenzo di Medici – both in Florence, Italy — and the Glasgow School of Art in Scotland. Students should discuss their study abroad plans with the undergraduate advisor in studio art to obtain prior approval for courses taken abroad. Basically, courses that have an equivalent in the UNC–Chapel Hill curriculum usually are approved. Courses that fall outside the UNC–Chapel Hill curriculum must
be evaluated on a case-by-case basis. No guarantee exists that a course will transfer for credit unless preapproved. Contact the Study Abroad Office to discuss the procedures for approval.

**Undergraduate Awards**

**UNDERGRADUATE AWARDS COMPETITION IN STUDIO ART**
The studio program awards more than $24,000 annually to students, with individual awards ranging from a minimum of $500 to $3,000. A competition each November allows studio art majors to submit up to four works to be considered for the following scholarships:

- The Alexander Julian Prize (one award to our best student)
- The Sharpe Scholarships (multiple awards for students receiving financial aid)
- George Kachergis Studio Art Scholarships (multiple awards chosen by a student-designated committee)
- The Anderson Award
- The Penland School of Craft Scholarships (two awards cover expenses for a summer course at the Penland School of Craft)
- A design honorarium to develop proposals for the Alumni Sculpture Garden (see below).

**ALUMNI SCULPTURE GARDEN COMPETITION**
Every year, the Department of Art and Art History commissions student work for the Alumni Sculpture Garden. Commissions are a minimum of $5,000, and the department awards up to three commissions. The selection process occurs in three stages: identifying interested students, a design phase, and the production of the work. During the November Awards Competition, interested students compete for one of six $500 design honoraria that are to be used to develop proposals. Winners of this first phase are required attend a session early in the spring semester to learn about how to develop a proposal and the components that must be included. Proposals are reviewed in March to select winners.

**Undergraduate Research**

Opportunities for undergraduate research in the Department of Art and Art History exist in several forms. Detailed descriptions and application guidelines are available on the art majors’ Sakai site and from the department’s student services manager.

**Allcott Travel Fellowships** support two summer research projects in studio art and/or art history.

**The Beatrice Pearman Fund** supports special projects in both art history and studio art. Competitions for art history research funds are held in the fall and the spring. Studio art students may request funds for special projects by submitting a proposal to the director of undergraduate studies in studio art. Awards are $500 or less.

**Summer Undergraduate Research Fellowships (SURF)** are administered through the UNC Office for Undergraduate Research. These $3,000 awards support undergraduate research projects over the summer. UNC’s broad definition of research includes creative practices, and the James Boyd Gadson SURFs are specifically designated for studio art. SURF applications from studio art majors are automatically considered for these Gadson Fellowships. This fund typically supports at least two awards. Application deadlines (usually in February) are set by the Office for Undergraduate Research. Students interested in pursuing summer research should contact possible faculty sponsors toward the end of the fall semester.

The **Jacquelyn Friedman and Marvin Saltzman Fund in Art** provides supplemental monies for painting supplies for students who for economic reasons may be hindered from working to their full potential. Any undergraduate student with need, regardless of major, enrolled in a departmental studio art painting class during the fall and/or spring semesters is eligible. Students can contact their course instructor or the student services specialist for further information.

The bachelor of fine arts with art history emphasis degree is designed for students interested in concentrated study in both studio art and art history. Unique to UNC—Chapel Hill, this degree is best suited for students wishing to pursue further education or employment in fields that demand knowledge in both history and practice such as curatorial studies, museum studies, or education. Students pursuing this degree are advised by the directors of undergraduate studies for both studio art and art history. Students interested in this degree should contact both advisors no later than the sophomore year.

- Doctor of Philosophy in Art History, Ph.D. (http://catalog.unc.edu/graduate/schools-departments/art/#programstext)
**Learning Outcomes**

The overall goal of the studio art program at UNC–Chapel Hill is for students to develop interconnected skills of creative thinking and critical making in order to produce outstanding works of art.

Upon completion of the studio art program (B.A., B.F.A.), students should be able to demonstrate the following competencies:

- Acquire the technical skills (informed control of technique, process, and materials) and an understanding of principles of visual organization sufficient to achieve basic visual communication and expression in one or more media
- Understand fundamentals of studio practice shared across studio disciplines
- Document and present work (portfolio, exhibition, online gallery) that demonstrates a basic understanding of professional practices
- Develop the ability to think and act creatively through experimentation, and analysis of options and parameters — enabling work to progress from idea to physical form
- Develop an understanding of creative research as an iterative process that informs and allows artwork to evolve
- Develop effective vocabulary and skill (both verbal and written) to engage in critical analysis of form and content relationships in their own artwork and the work of others

**Requirements**

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 176).

Special Opportunities in Art and Art History

Independent Study

Students may pursue independent study coursework with individual faculty members. Such work may be undertaken only with the permission of the sponsoring faculty member. Students should consult individual faculty members prior to registration to secure permission. A proposal and a contract must be approved by the appropriate director of undergraduate studies (studio art or art history) before students may enroll. (See the the departmental majors’ Sakai site for instructions.) Since faculty members are limited to supervising only two independent study students each semester, students are strongly advised to contact the faculty member with whom they wish to work early in the registration period for the upcoming semester.

Independent study work requires a minimum of three hours per week per credit hour. For example, a typical three-credit-hour class would require at least nine hours of work per week. Once the semester begins, students must meet with the faculty member initially to confirm goals, review expectations, and establish semester deadlines. Thereafter, students must meet regularly to review work in progress, with a suggested biweekly frequency. Total time spent in direct interaction with the faculty member for the semester must average 45 minutes per week. This may be in the form of face-to-face meetings, blog or e-mail exchanges, or group critiques with other independent study students and their advisors.

Departmental Involvement

Students have opportunities to see and interact with a variety of artists professionals through exhibitions in the Allcott Galleries, installations of sculptural works in the Alumni Sculpture Garden, an artist-in-residence program, the Visiting Arts Professionals Program, and the Hanes Visiting Artist Lecture Series.

There are several undergraduate student organizations serving the visual arts at Carolina. The art history curriculum is designed to help students acquire an individual perspective on their own values and beliefs and on their places in a society increasingly shaped by visual communication. Majors and minors in art history become acquainted with the historical significance, cultural diversity, and intellectual richness of human artistic traditions, enabling students to investigate the complex roles played by the arts in a variety of social contexts.

Introduction
The department offers students a range of language classes in Arabic, Chinese, Hebrew, Hindi-Urdu, Japanese, Korean, Persian, and Turkish, as well as a selection of courses taught by our core and affiliated faculty in the humanities (art, drama, linguistics, literature, and religious studies) and in the social sciences (anthropology, economics, geography, history, political science, sociology, and urban studies).

Students majoring in the Department of Asian Studies also may pursue a minor in the department that is different from their major.

Advising
All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. All majors are also required to meet each fall with a faculty advisor within the department. Departmental advising is an opportunity to discuss major progress, course selection and planning, study abroad, graduate school, career opportunities, and other matters pertinent to the major field. Advisors are assigned by concentration; advisor listings and contact information may be found on the department’s Web site and are also disseminated via the majors’ listserv.

Graduate School and Career Opportunities
As a liberal arts major, the Asian studies major trains undergraduates to read and think analytically and to present their ideas effectively orally and in writing, essential preparation for a variety of careers and for the responsibilities of living in an interdependent world. Graduates of the program have continued their academic preparation in top-ranked graduate programs across the country while others have built distinguished careers in fields including arts, banking, government, international education, journalism, law, medicine, and public health.

No more than one first-year seminar may be counted among the eight major courses.

With the approval of the associate chair of Asian studies, a student may substitute a course in directed readings (ASIA 496) for one of the major courses. To register for ASIA 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Of the eight major courses, at least six must be passed with a grade of C (not C-) or better.

One language course beyond level 4 or a course at level 2 or above in a second Asian language may count as a major course.

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

### Special Opportunities in Asian Studies

#### Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H, ASIA 692H may count as one of the interdisciplinary courses for the major; ASIA 691H will count for elective credit only. In the case of the concentrations in Arab cultures, Chinese, Japanese, Korean studies, and South Asian studies, ASIA 692H may count toward the major in the concentration.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University's requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

#### Departmental Involvement

The department sponsors a variety of cultural events — lectures, film series, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus, such as the Japan Club, Chinese Conversation Club, Hebrew Table, and more.

#### Languages across the Curriculum

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic or Chinese but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic or Chinese language skills in a broader intellectual context.

### Libraries

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media Resource Center at House Library.

#### Speaker Series

The department sponsors an annual speaker series. These events include lectures by prominent artists, scholars, and writers and are often cosponsored by other units on campus.

### Study Abroad

UNC–Chapel Hill sponsors several study programs (summer, semester, and yearlong) in China, Egypt, India, Israel, Japan, Jordan, Korea, Mongolia, Morocco, Nepal, Oman, Singapore, Taiwan, Thailand, Turkey, and Vietnam. Asian studies majors are strongly encouraged to take advantage of these opportunities to live and study in an Asian setting; UNC-approved study abroad programs also satisfy the experiential education requirement. For further information on these programs and other study abroad opportunities in Asia, contact the UNC Study Abroad Office.

### Undergraduate Research

The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Colloquium in Asian Studies and the campuswide Annual Celebration of Undergraduate Research in the spring.

• Japanese Minor (p. 353)
• Korean Minor (p. 353)
• Middle Eastern Languages Minor (p. 354)
• Persian Minor (p. 355)

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

• Identify or analyze significant aspects of the target cultures by interpreting texts and media
• Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language
• Demonstrate experience in the use of the target language outside the language classroom

Requirements

In addition to the program requirements, students must

• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 176).

**Note that ARAB 308 does not count toward this major.**

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian studies, a student may count a course in directed readings (ASIA 496 or ARAB 496) in the concentration in Arab cultures. To register for ASIA 496 or ARAB 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Of the eight courses in the concentration in Arab cultures, at least six must be passed with a grade of C (not C-) or better.

**Special Opportunities in Asian Studies**

**Honors in Asian Studies**

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. ASIA 692H may count as one of the interdisciplinary courses for the major; ASIA 691H will count for elective credit only. In the case of the concentrations in Arab cultures, Chinese, Japanese, Korean studies, and South Asian studies, ASIA 692H may count toward the major in the concentration.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University’s requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

**Departmental Involvement**

The department sponsors a variety of cultural events — lectures, film series, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus, such as the Japan Club, Chinese Conversation Club, Hebrew Table, and more.

**Languages across the Curriculum**

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic or Chinese but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic or Chinese language skills in a broader intellectual context.

**Libraries**

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media Resource Center at House Library.
Speaker Series
The department sponsors an annual speaker series. These events include lectures by prominent artists, scholars, and writers and are often cosponsored by other units on campus.

Study Abroad
UNC–Chapel Hill sponsors several study programs (summer, semester, and yearlong) in China, Egypt, India, Israel, Japan, Jordan, Korea, Mongolia, Morocco, Nepal, Oman, Singapore, Taiwan, Thailand, Turkey, and Vietnam. H  Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional Notes for Both Tracks
Approved language courses taken in UNC-Chapel Hill-sponsored study abroad programs may count in the concentration. However, study abroad courses may not substitute for the two required culture courses, which must be taken in the Department of Asian Studies. No more than one first-year seminar or senior honors thesis course may be included among the two culture courses.

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian studies, a student may count a course in directed readings (ASIA 496 or CHIN 496) in the concentration in Chinese. To register for ASIA 496 or CHIN 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Of the eight courses in the concentration in Chinese, at least six must be passed with a grade of C (not C-) or better.

Special Opportunities in Asian Studies
Honors in Asian Studies
A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. ASIA 692H may count as one of the interdisciplinary courses for the major; ASIA 691H will count for elective credit only. In the case of the concentrations in Arab cultures, Chinese, Japanese, Korean studies, and South Asian studies, ASIA 692H may count toward the major in the concentration.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University’s requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

Departmental Involvement
The department sponsors a variety of cultural events — lectures, films, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. This LAC recitation section offers students the opportunity to use their Arabic or Chinese language skills in a broader intellectual context.

Libraries
The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media Resource Center at House Library.

Speaker Series
The department sponsors an annual speaker series. These events include lectures by prominent artists, scholars, and writers and are often cosponsored by other units on campus.

Study Abroad
UNC-Chapel Hill sponsors several study programs (summer, semester, and yearlong) in China, Egypt, India, Israel, Japan, Jordan, Korea, Mongolia, Morocco, Nepal, Oman, Singapore, Taiwan, Thailand, Turkey, and Vietnam. Asian studies majors are strongly encouraged to take advantage of these opportunities to live and study in an Asian setting. UNC-approved study abroad programs also satisfy the experiential education requirement. For further information on these programs and other study abroad opportunities in Asia, contact the UNC Study Abroad Office.

Undergraduate Research
The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors
thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Colloquium in Asian Studies and the campuswide Annual Celebration of Undergraduate Research in the spring.

1 Students whose initial language placement is above JAPN 305 should consult the department.
2 No more than one first-year seminar or senior honors thesis course may be included among the culture courses.
3 The first three levels of Japanese (JAPN) can count toward the General Education Foundations requirement and have not been included as additional hours for the major.

Approved courses taken in UNC–Chapel Hill-sponsored study abroad programs may count in the concentration.

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian studies, a student may count a course in directed readings (ASIA 496 or JAPN 496) in the concentration in Japanese. To register for ASIA 496 or JAPN 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Of the eight courses in the concentration in Japanese, at least six must be passed with a grade of C (not C-) or better.

### Special Opportunities in Asian Studies

**Honors in Asian Studies**

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. ASIA 692H may count as one of the interdisciplinary courses for the major; ASIA 691H will count for elective credit only. In the case of the concentrations in Arab cultures, Chinese, Japanese, Korean studies, and South Asian studies, ASIA 692H may count toward the major in the concentration.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University's requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

**Departmental Involvement**

The department sponsors a variety of cultural events — lectures, film series, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus, such as the Japan Club, Chinese Conversation Club, Hebrew Table, and more.

**Languages across the Curriculum**

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic or Chinese but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic or Chinese language skills in a broader intellectual context.

**Libraries**

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media Resource Center at House Library.

H: Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Placement credit (PL) may not be used to meet core requirements for the concentration. However, the additional requirements may be met by placement.

Approved courses taken in UNC–Chapel Hill-sponsored study abroad programs may count in the concentration. No more than one first-year seminar may be counted among the eight major courses.

With the approval of the associate chair of Asian studies, a student may count a course in directed readings (ASIA 496 or HNUR 496) in the concentration in South Asian studies. To register for ASIA 496 or HNUR 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Of the eight courses in the concentration in South Asian studies, at least six must be passed with a grade of C (not C-) or better.

### Special Opportunities in Asian Studies

#### Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. ASIA 692H may count as one of the interdisciplinary courses for the major; ASIA 691H will count for elective credit only. In the case of the concentrations in Arab cultures, Chinese, Japanese, Korean studies, and South Asian studies, ASIA 692H may count toward the major in the concentration.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University’s requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.
Departmental Involvement
The department sponsors a variety of cultural events — lectures, film series, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus, such as the Japan Club, Chinese Conversation Club, Hebrew Table, and more.

Languages across the Curriculum
The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic or Chinese but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic or Chinese language skills in a broader intellectual context.

Libraries
The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media Resource Center at House Library.

Speaker Series
The department sponsors an annual speaker series. These events include lectures by prominent artists, scholars, and writers and are often cosponsored by other units on campus.

Study Abroad
UNC–Chapel Hill sponsors several study programs (summer, semester, and yearlong) in China, Egypt, India, Israel, Japan, Jordan, Korea, Mongolia, Morocco, Nepal, Oman, Singapore, Taiwan, Thailand, Turkey, and Vietnam. Asian studies majors are strongly encouraged to take advantage of these opportunities to live and study in an Asian setting; UNC-approved study abroad programs also satisfy the experiential education requirement. For further information on these programs and other study abroad opportunities in Asia, contact the UNC Study Abroad Office.

Undergraduate Research
The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Colloquium in Asian Studies and the campuswide Annual Celebration of Undergraduate Research in the spring.

Stretching from Japan to the Arab world, Asia is the largest and most populous continent in the world and home to an array of diverse cultures and political structures. A minor in interdisciplinary Asian studies offers students the opportunity to study a broad range of topics, building the global awareness that will be useful in government employment; internationally oriented business, journalism, law, and teaching; as well as graduate study in a range of humanistic and social science disciplines.

- earn a minimum of 12 hours of C or better in the minor (some minors require more)
For more information, please consult the degree requirements section of the catalog (p. 176).

A student may take an interdisciplinary minor in Asian studies by completing five courses from among those accepted for the interdisciplinary Asian studies major (p. 329). At least two courses must be taken within the Department of Asian Studies, chosen from the list in the section describing the major. (Study abroad courses may not be substituted for these two courses.) The courses taken for the minor must include one from three of the six regions of Asia (China, Japan, Korea, Middle East, South Asia, Southeast Asia), as defined in the section describing the major. Students interested in advanced Asian language training should consider the Arabic, Chinese, Hebrew, Hindi-Urdu, Japanese, Korean, Persian, or Middle Eastern languages minors.

No more than one first-year seminar may be counted toward the minor.

See program page here (p. 329) for special opportunities.

Political and economic developments in the Middle East, as well as the internationalization of many businesses and professions, have made understanding, speaking, reading, and writing Arabic an increasingly valuable skill. As the fifth most widely spoken language in the world, as one of the official languages of the United Nations, and as the religious language of a quarter of the world's population, Arabic is also a language with a rich literary and cultural heritage that deserves to be studied in its own right.

Chinese, a member of the Sino-Tibetan family of languages, is the most widely spoken language and the language with the longest continuous written history in the world. Modern standard Chinese (Putonghua/Guoyu) is a standardized form of spoken Chinese, based on the Beijing dialect of Mandarin Chinese. One of only six official languages of the United Nations, Chinese is spoken not only in China, Taiwan, and Singapore, but also throughout Southeast Asia, North America, Europe, and anywhere large Chinese communities congregate. In 2010, Chinese was named one of the languages considered critical to U.S. national security by the U.S. Department of Education.

Hebrew is one of the world’s oldest languages still spoken today. It was similar in origin to ancient Phoenician and developed into an independent language in the 12th century BCE. Hebrew was the spoken language of the Patriarchs during the Biblical period, and the Bible is written in Hebrew. While Aramaic, which utilizes the same alphabet, replaced Hebrew as the spoken language for centuries, Hebrew remained a language used for ritual, prayer, literature, and written communication. As a spoken language, Modern Hebrew began to emerge in the late 19th century and became, in 1913, the official language of instruction in
Jewish schools in the region of Palestine. In 1948, Hebrew (along with Arabic) became the official language of the modern state of Israel.

Hindi-Urdu is critical to global culture. South Asia is now a major economic and geopolitical power, and home to one-fifth of the world's population. By conservative estimates, over half a billion people speak the language in South Asia, and depending on chosen parameters, it is variously ranked as the second- to fourth-most widely spoken language in the world. To directly communicate with this vast population of Hindi-Urdu speakers and have unfiltered and unfiltered access to the rich cultural history of North India and Pakistan, fluency in Hindi-Urdu is essential. There a rich literary tradition in Hindi-Urdu and its dialectal ancestors, going back about a thousand years. There is also a thriving popular culture of South Asia – one which is very much dependent on Hindi-Urdu.

Japan has the world's third largest economy, advanced technology in many areas, and an exciting popular culture that influences the Euro-American cultural mainstream. Friendships with Japanese, experience traveling abroad, or even enjoying Japanese food locally, as well as the practice of a martial art and the love of Japanese popular media such as manga and anime have motivated students to pursue the study of Japanese language, culture, and history at Carolina. Once in the program, students enjoy meeting others with similar enthusiasms and often take part in related extracurricular activities such as the Japan Club and the anime club (COUp).

Korea occupies a place of significant geopolitical, economic, and cultural importance in the world. It is a unique country where five thousand years of history and tradition coexist with the most advanced technological and economic development. It is also a place where political and ideological differences divide the country into two Koreas (Republic of Korea, or South Korea, and Democratic Republic of Korea, or North Korea) that maintain one of the world's most fortified military zones. The Korean peninsula is home to over 72 million ethnic Koreans (North and South combined) and over 1.3 million recent migrants from all over the world. Approximately 7 million ethnic Koreans have migrated to other countries and have established diasporic communities in over 150 countries. The Korean language is spoken by over 75 million people around the world and ranks 13th among the most used languages in the world.

The minor in Middle Eastern languages is designed to encourage linguistic training that will prepare students for graduate study and for careers in journalism, foreign service, and international business, as well as other fields related to the Middle East. Students declaring this minor will be able to demonstrate commitment to Middle East studies,
which will be considered favorably in the selection process for Foreign Language and Area Studies (FLAS) fellowships. FLAS funding for Middle Eastern languages is available at UNC-Chapel Hill through five centers related to the Middle East, South Asia, and North Africa. Middle Eastern languages students can choose from Arabic, modern Hebrew, Hindi-Urdu, Persian, or Turkish.

Persian is an important language of the Middle East and Central Asia, spoken by approximately 70 million native speakers and roughly 110 million people worldwide. It is the official language of Iran. It also includes Persian Dari spoken in Afghanistan, and Tajik in Tajikistan. Studying Persian will also introduce you to the rich and diverse culture that produced major epic poets such as Ferdowsi, Sufi poets such as Rumi and Hafez, magnificent miniature paintings, fine carpets, and much more.

The Department of Biochemistry and Biophysics in the UNC School of Medicine offers a number of courses to undergraduate students, but offers only advanced degrees and not a B.A. or B.S. degree. Undergraduate students interested in these areas should take relevant courses in the biochemical division of the Department of Chemistry and the Department of Physics. The department serves undergraduate students who are interested in biochemical research or health-related careers. It offers a series of undergraduate biochemistry classes, research opportunities, and counseling to students taking premedical, prenursing, prepharmacy, or public health curricula.

Graduate Programs
• M.S. in Biochemistry and Biophysics (http://catalog.unc.edu/graduate/schools-departments/biochemistry-biophysics)
• Ph.D. in Biochemistry and Biophysics (http://catalog.unc.edu/graduate/schools-departments/biochemistry-biophysics)

BIOC–Biochemistry
Undergraduate-level Courses
BIOC 107. Introduction to Biochemistry. 4 Credits.
Recommended preparation, one year of high school chemistry. Designed for students who desire a background in biochemistry as it relates to the human body, such as premed, prenursing, preental hygiene, and allied health. Brief review of inorganic and organic chemistry, followed by a survey of biochemistry (survey continues in BIOC 108).
Gen Ed: PX.
Grading status: Letter grade.

BIOC 108. Introduction to Biochemistry. 4 Credits.
Designed for premed, prenursing, preental hygiene, allied health, and other students who desire a background in biochemistry as it relates to the human body. Continuation of BIOC 107; covers basic and clinically relevant aspects of biochemistry. Three lecture hours and one two-hour laboratory a week.
Gen Ed: PX.
Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses
BIOC 442. Biochemical Toxicology. 3 Credits.
Required preparation, one course in biochemistry. Biochemical actions of toxicants and assessment of cellular damage by biochemical measurements. Three lecture hours per week.
Requisites: Prerequisite, CHEM 430; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade
Same as: ENVR 442, TOXC 442.

BIOC 601. Enzyme Properties, Mechanisms, and Regulation. 3 Credits.
Focuses on enzyme architecture to illustrate how the shapes of enzymes are designed to optimize the catalytic step and become allosterically modified to regulate the rate of catalysis.
Requisites: Prerequisite, CHEM 430; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOC 631. Advanced Molecular Biology I. 3 Credits.
Required preparation for undergraduates, at least one undergraduate course in both biochemistry and genetics. DNA structure, function, and interactions in prokaryotic and eukaryotic systems, including chromosome structure, replication, recombination, repair, and genome fluidity. Three lecture hours a week.
Grading status: Letter grade
Same as: GNET 631, BIOL 631, MCRO 631.

BIOC 632. Advanced Molecular Biology II. 3 Credits.
Required preparation for undergraduates, at least one undergraduate course in both biochemistry and genetics. The purpose of this course is to provide historical, basic, and current information about the flow and regulation of genetic information from DNA to RNA in a variety of biological systems. Three lecture hours a week.
Grading status: Letter grade
Same as: GNET 632, BIOL 632, MCRO 632.

BIOC 643. Cell Structure, Function, and Growth Control I. 3 Credits.
Comprehensive introduction to cell structure, function, and transformation.
Requisites: Prerequisite, undergraduate cell biology or biochemistry or permission of the instructor.
Grading status: Letter grade
Same as: CBIO 643, PHCO 643, PHYI 643.

BIOC 649. Mathematics and Macromolecules. 1.5 Credit.
This course focuses on the application of mathematics to topics important in biophysics, such as thermodynamics and electrostatics. The unit is designed to help students perform more efficiently in BIOC 650, 651, and 652.
Grading status: Letter grade.

BIOC 650. Basic Principles: From Basic Models to Collections of Macromolecules. 1.5 Credit.
Required preparation, two semesters of physical chemistry or permission of the instructor. Basic molecular models and their use in developing statistical descriptions of macromolecular function. Course intended primarily for graduate students.
Requisites: Prerequisite, CHEM 430.
Grading status: Letter grade.
BIOC 651. Macromolecular Equilibria: Conformation Change and Binding. 1.5 Credit.
Required preparation, two semesters of physical chemistry or permission of the instructor. Macromolecules as viewed with modern computational methods. Course intended primarily for graduate students.
Requisites: Prerequisite, CHEM 430.
Grading status: Letter grade.

BIOC 652. Macromolecular Equilibria. 1.5 Credit.
Required preparation, two semesters of physical chemistry or permission of the instructor. Stability of macromolecules and their complexes with other molecules. Course intended primarily for graduate students.
Requisites: Prerequisite, CHEM 430.
Grading status: Letter grade.

BIOC 655. Case Studies in Structural Molecular Biology. 3 Credits.
Principles of macromolecular structure and function with emphasis on proteins, molecular assemblies, enzyme mechanisms, and ATP enzymology.
Requisites: Prerequisite, CHEM 430; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOC 660. Introduction to Light Microscopy. 1 Credit.
Fundamentals of optics and light microscope design for the novice student.
Requisites: Prerequisites, BIOC 650, 651, and 652 or permission of the course director.
Grading status: Letter grade.

BIOC 662. Macromolecular Interactions. 1 Credit.
Theory and practice of biophysical methods used in the study of interactions between macromolecules and their ligands, including surface plasmon resonance, analytical ultracentrifugation, and calorimetry.
Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOC 663A. Macromolecular NMR. 1 Credit.
Principles and practice of nuclear magnetic resonance spectroscopy applications to biological macromolecule structure and dynamics in solution. Course intended primarily for graduate students.
Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOC 663B. Macromolecular NMR Practice. 1 Credit.
Lab section for BIOC 663A. Course intended primarily for graduate students.
Requisites: Prerequisite, BIOC 664; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOC 664. Macromolecular Spectroscopy. 1 Credit.
Required preparation, two semesters of physical chemistry or permission of the instructor. Principles of UV, IR, Raman, fluorescence, and spin resonance spectroscopies; applications to the study of macromolecules and membranes. Course intended primarily for graduate students.
Requisites: Prerequisite, CHEM 430.
Grading status: Letter grade.

BIOC 665. Advanced NMR Spectroscopy Course. 1 Credit.
Advanced NMR Spectroscopy
Grading status: Pass/Fail.

BIOC 666. X Ray Crystallography of Macromolecules. 1 Credit.
Principles of protein crystallography, characterization of crystals, theory of diffraction, phasing of macromolecular crystals and structure refinement. Course intended primarily for graduate students.
Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOC 667. Macromolecular Crystallographic Methods. 2 Credits.
A combined lecture/laboratory workshop for serious students of protein crystallography. Course intended primarily for graduate students.
Requisites: Prerequisite, BIOC 666; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOC 668. Principles of and Simulation of Macromolecular Dynamics. 1 Credit.
A combined lecture/computer lab treatment of the principles of macromolecular dynamics and structure as approached using the tools of molecular dynamics simulations. Course intended primarily for graduate students.
Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOC 670. Biomolecular Informatics. 1 Credit.
A combined lecture/computer lab course introducing the methods and principles of biological data management as this relates to macromolecular sequence analysis. Course intended primarily for graduate students.
Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOC 671. Summer Research in Biophysics. 3 Credits.
This class is a 10-week summer course in biophysics.
Grading status: Letter grade.

BIOC 673. Proteomics, Protein Identification and Characterization by Mass Spectrometry. 1 Credit.
A lecture module that introduces students to mass spectrometry-based proteomics in new biology discovery and precision medicine. Course intended primarily for graduate students.
Requisites: Prerequisites, BIOC 650, 651, and 652, or one semester of physical chemistry; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOC 674. Ion Channels Transporters. 1 Credit.
Ion Channels Transporters
Grading status: Pass/Fail.

BIOC 678. Electrical Signals from Macromolecular Assemblages. 2 Credits.
An intensive, six-hour per week introduction to the fundamentals of ion channel biophysics, including laboratory sessions to demonstrate principles and methods. Course intended primarily for graduate students.
Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

Introduction
Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem. The major in biology provides a broad education directed toward an appreciation of the complexity of nature, and prepares students for careers in the biological, environmental, and medical sciences. The B.S. and B.A. majors in biology prepare students for careers in the health professions (including medical, dental, and veterinary) and in research or teaching in institutions of higher education, government, and private industry. Departmental majors gain a firm foundation in essential areas of biology through the core curriculum and have ample choices for study in various specialized subjects. A quantitative biology track in the B.S. major provides training in interdisciplinary computational approaches to studying biological questions. The department offers many opportunities for mentored undergraduate research and internships.

Advising
The biology department offers intensive advising services for our undergraduate students. The departmental advisor, Dr. Gidi Shemer (bishemer@email.unc.edu) (213A Coker Hall), will be happy to assist with course planning, career development, finding research opportunities, and any other question or concern with regards to the major. Biology majors interested in study abroad should contact Dr. Alain Laederach (alain@unc.edu) to learn about opportunities and transfer credits. For general assistance with registration in courses and various forms, please contact the biology undergraduate student services registrar, Ms. Summer Montgomery (sundance@unc.edu) in 213 Coker Hall.

Facilities
The Department of Biology occupies parts of four buildings: Wilson Hall and its annex, Coker Hall, Fordham Hall, and the Genome Sciences Building. The department is served by the Kenan Science Library, located in Venable Hall and Wilson Annex, which provides research information services and resources for the basic sciences. In addition, the department has greenhouses on the fifth floor of the Genome Sciences Building, a microscopy facility that contains three confocal microscopes and associated support facilities, a P3 laboratory, a small-mammal facility, insect culturing rooms, marine aquaria, and a microarray facility.

Graduate School and Career Opportunities
Those who plan careers in health sciences, including dentistry, medicine, veterinary medicine, and others, should consult with advisors in the Health Professions Advising Office in Steele Building. Those interested in science teaching can take the educational coursework required for a high school science teaching license through the UNC Baccalaureate Education in Science and Teaching (UNC–BEST (http://www.unc.edu/uncbest)) program. Special courses in marine science are offered through the Department of Biology and the Department of Marine Sciences at the Institute of Marine Sciences, Morehead City, NC.

Course List and Description
Stated prerequisites are understood to mean "or equivalent" and may be waived by the course instructor for students who are adequately prepared. BIOL 101/BIOL 101L is the prerequisite for most advanced work in biology. Entering first-year students may earn By-Examination (BE) credit for BIOL 101/BIOL 101L by either

1. scoring 3 or higher on the Biology Advanced Placement examination 
or
2. taking and passing the Department of Biology placement test offered several times during the year.

Sophomores, juniors, and seniors can earn only placement credit (PL, 0 hours) for passing the departmental examination. Additional information is available on the department Web site (http://bio.unc.edu/undergraduate/biology-101-placement-exam).

Course numbers in the Department of Biology have been assigned according to the following principles:

First Digit
- Under 100: first-year seminars
- 100 to 199: first-year courses
- 200 to 299: second-year courses
- 300 to 399: advanced undergraduates only
- 400 to 599: courses for advanced undergraduates and graduate students
- 600 to 699: courses for graduate students that are open to exceptionally well-prepared undergraduates
- 700 and above: courses for graduate students only

Second Digit
- 0–1 general topics courses
- 2 genetics and molecular genetics
- 3 molecular biology and biochemistry
- 4 cell and developmental biology
- 5 organismal and ecological courses
- 6 ecology courses
- 7 courses that fulfill the organismal biology requirement
- 8 special courses
- 9 special topics and research

BIOL–Biology
Undergraduate-level Courses
BIOL 53. First-Year Seminar: Biotechnology: Genetically Modified Foods to the Sequence of the Human Genome. 3 Credits.
Restricted to first-year students. Introduction, in a first-year seminar, to recent advances in genetics and cell biology, and discussion and debate concerning how these advances are changing medicine, agriculture, and other aspects of our lives.
Gen Ed: PL.
Grading status: Letter grade.

BIOL 54. First-Year Seminar: The Roots and Flowering of Civilization: A Seminar on Plants and People. 3 Credits.
Restricted to first-year students. The focus of this first-year seminar will be on the transition from hunter-gatherer, the interchange of crops, medicinal and psychoactive plants, and organic vs. industrial farming methods.
Gen Ed: PL.
Grading status: Letter grade.

BIOL 55. First-Year Seminar: Detecting the Future: Human Diseases and Genetic Tests. 3 Credits.
Restricted to first-year students. A first-year seminar focusing on the future of human diseases and genetic tests.
Gen Ed: PL.
Grading status: Letter grade.

BIOL 61. First-Year Seminar: Sea Turtles: A Case Study in the Biology of Conservation. 3 Credits.
Restricted to first-year students. An examination of the biology and conservation of sea turtles, with an emphasis on how current scientific research informs conservation practices.
Gen Ed: PL.
Grading status: Letter grade.

BIOL 62. First-Year Seminar: Mountains Beyond Mountains: Infectious Disease in the Developing World. 3 Credits.
Restricted to first-year students. In this course we will examine the challenges of treating infectious disease in the developing world, and explore the root causes of global health care inequity. Honors version available
Gen Ed: PL, GL.
Grading status: Letter grade.
BIOL 62H. First-Year Seminar: Mountains Beyond Mountains: Infectious Disease in the Developing World. 3 Credits.
Restricted to first-year students. In this course we will examine the challenges of treating infectious disease in the developing world, and explore the root causes of global health care inequity.
Gen Ed: PL, GL.
Grading status: Letter grade.

BIOL 64. First-Year Seminar: Modeling Fluid Flow through and around Organs and Organisms. 3 Credits.
The focus of this FYS will be on organisms living within moving fluids. The natural world is replete with examples of animals and plants whose shape influences flow to their benefit. For example, the shape of a maple seed generates lift to allow for long distance dispersal. The structure of a pinecone helps it to filter pollen from the air. A falcon’s form during a dive reduces drag and allows it to reach greater speeds.
Gen Ed: PL.
Grading status: Letter grade.

BIOL 65. First-Year Seminar: Pneumonia. 3 Credits.
Restricted to first-year students. Pneumonia will be a lens to examine a thread of history of biology and medicine. Current research to understand the condition, discover treatment and enact prevention options will be examined.
Gen Ed: PL.
Grading status: Letter grade.

BIOL 81. First-Year Seminar: Intuition, Initiative and Industry: Biologists as Entrepreneurs. 3 Credits.
Successful biologists are necessarily entrepreneurs. This course will explore the parallels between biology and entrepreneurship. We follow these steps: generating ideas, marketing those ideas, testing them, and producing a product.
Gen Ed: CI.
Grading status: Letter grade.

BIOL 89. First Year Seminar: Special Topics. 3 Credits.
Restricted to first-year students. This is a special topics course; content will vary.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading status: Letter grade.

BIOL 101. Principles of Biology. 3 Credits.
Open to all undergraduates. This course is the prerequisite to most higher courses in biology. An introduction to the fundamental principles of biology, including cell structure, chemistry, and function; genetics; evolution; adaptation; and ecology. (See department concerning Advanced Placement credit.) Three lecture hours a week. Honors version available
Gen Ed: PX.
Grading status: Letter grade.

BIOL 101L. Introductory Biology Laboratory. 1 Credit.
An examination of the fundamental concepts in biology with emphasis on scientific inquiry. Biological systems will be analyzed through experimentation, dissection, and observation. Three laboratory hours a week. Students may not receive credit for both BIOL 101L and BIOL 102L.
Requirements: Pre- or corequisite, BIOL 101.
Gen Ed: CI.
Grading status: Letter grade.

BIOL 101H. Principles of Biology. 3 Credits.
Open to all undergraduates. This course is the prerequisite to most higher courses in biology. An introduction to the fundamental principles of biology, including cell structure, chemistry, and function; genetics; evolution; adaptation; and ecology. (See department concerning Advanced Placement credit.) Three lecture hours a week. Honors version available
Gen Ed: PX.
Grading status: Letter grade.

BIOL 102L. Introductory Biology Laboratory with Research. 1 Credit.
This Course-based Undergraduate Research Experience (CURE) lab introduces students to the process of science through collaboration on a research project, learning relevant techniques and scientific skills, and presenting research results. Three laboratory hours a week. This lab can be taken in place of BIOL 101L. Students may not receive credit for both BIOL 101L and BIOL 102L.
Requirements: Pre- or corequisite, BIOL 101.
Gen Ed: CI, EE- Mentored Research.
Grading status: Letter grade.

BIOL 113. Issues in Modern Biology. 3 Credits.
For students not majoring in biology. Students who have taken any other course in the Department of Biology may not register for this course. Recent advances in the understanding of major principles in biology. Emphasis on genetics and medicine. Does not count as a course in the major. Three lecture hours a week.
Gen Ed: PL.
Grading status: Letter grade.

BIOL 117. Pre-Health Thrive-1 Considering Health Professions. 1 Credit.
This course provides exposure to a variety of health professions, emphasizing ways health care teams work together (interprofessional interactions). Self-assessments will be utilized to examine articulation between strengths and interests and the skills and competencies required in healthcare careers. Throughout the course, practitioners will provide insight into their professions such as allopathic and osteopathic medicine, podiatric medicine, veterinary medicine, optometry, dentistry, pharmacy, nursing, social work, and occupational therapy. Does not count toward major.
Grading status: Pass/Fail.

BIOL 118. Pre-Health Thrive-2 Pursuing Health Professions. 1 Credit.
This course will provide guidance to plan a path toward a profession of interest by selecting appropriate course, service, and research opportunities to include in a portfolio useful in completing applications. Application preparation and interview skills will be addressed for health professions programs such as allopathic and osteopathic medicine, podiatric medicine, veterinary medicine, optometry, dentistry, pharmacy, nursing, social work, occupational therapy, and many others. This does not count as a course in the major.
Grading status: Pass/Fail.

BIOL 150. First-Year Launch: The Creativity of Science, or Scientific Thinking in Biology. 3 Credits.
This course provides an introduction to the dynamic, creative, and open-ended process that is the scientific method. Through the analysis of news reports and primary scientific literature (covering a range of socially relevant biology topics), students will learn how to understand and interpret data, gain critical analysis skills, and begin to "think like scientists." Enrollment restricted to first-years and transfer students in their first year at UNC (transfer students, email instructor to be enrolled).
Gen Ed: PL.
Grading status: Letter grade.
BIOL 159. Prehistoric Life. 3 Credits.
Fossils and the origin and evolution of life, including micro- and macroevolution, mass extinctions, the evolution of dinosaurs and humans, and scientific perspectives on multicultural creationism.
Gen Ed: PL.
Grading status: Letter grade
Same as: GEOL 159.

BIOL 190. Special Topics in Biology at an Introductory Level. 3 Credits.
Special topics in biology at an introductory level. This course does not count as a course in the biology major.
Grading status: Letter grade.

BIOL 190L. Laboratory in Special Topics in Biology at an Introductory Level. 1 Credit.
Laboratory in special topics in biology at an introductory level. This course does not count as a course in the biology major.
Grading status: Letter grade.

BIOL 195. Introduction to Research. 1 Credit.
The research work must involve at least four hours per week of mentored research in a campus research laboratory. Does not count as a course in the major.
Repeat rules: May be repeated for credit. 2 total credits. 2 total completions.
Grading status: Pass/Fail.

BIOL 201. Ecology and Evolution. 4 Credits.
Principles governing the ecology and evolution of populations, communities, and ecosystems, including speciation, population genetics, population regulation, and community and ecosystem structure and dynamics. Three lecture hours and one recitation-demonstration-conference hour a week. Honors version available
Requisites: Prerequisites, BIOL 101 and CHEM 101 or 102; A grade of C or better in BIOL 101 and CHEM 101 or 102 is required.
Gen Ed: PL, QI.
Grading status: Letter grade.

BIOL 201H. Ecology and Evolution. 4 Credits.
Principles governing the ecology and evolution of populations, communities, and ecosystems, including speciation, population genetics, population regulation, and community and ecosystem structure and dynamics. Three lecture hours and one recitation-demonstration-conference hour a week. Honors version available
Requisites: Prerequisites, BIOL 101 and CHEM 101 or 102; A grade of C or better in BIOL 101 and CHEM 101 or 102 is required.
Gen Ed: PL, QI.
Grading status: Letter grade.

BIOL 202. Molecular Biology and Genetics. 4 Credits.
Structure and function of nucleic acids, principles of inheritance, gene expression, and genetic engineering. Three lecture hours and one recitation-demonstration-conference hour a week. Honors version available
Requisites: Prerequisites, BIOL 101 and CHEM 101 or 102; A grade of C or better in BIOL 101 and CHEM 101 or 102 is required.
Gen Ed: PL.
Grading status: Letter grade.

BIOL 202H. Molecular Biology and Genetics. 4 Credits.
Structure and function of nucleic acids, principles of inheritance, gene expression, and genetic engineering. Three lecture hours and one recitation-demonstration-conference hour a week.
Requisites: Prerequisites, BIOL 101 and CHEM 101 or 102; A grade of C or better in BIOL 101 and CHEM 101 or 102 is required.
Gen Ed: PL.
Grading status: Letter grade.

BIOL 205. Cellular and Developmental Biology. 4 Credits.
Fundamentals of cell structure and activity in relation to special functions, metabolism, reproduction, embryogenesis, and with an introduction to the experimental analysis of cell physiology and development. Three lectures and one recitation-demonstration-conference hour a week. Honors version available
Requisites: Prerequisite, BIOL 202; a grade of C- or better in BIOL 202 is required.
Grading status: Letter grade.

BIOL 205H. Cellular and Developmental Biology. 4 Credits.
Fundamentals of cell structure and activity in relation to special functions, metabolism, reproduction, embryogenesis, and with an introduction to the experimental analysis of cell physiology and development. Three lectures and one recitation-demonstration-conference hour a week. Honors version available
Requisites: Prerequisite, BIOL 202.
Grading status: Letter grade.

BIOL 211. Introduction to Research in Biology. 3 Credits.
Seminar based on current investigations at UNC. Students examine sources of scientific information, explore the logic of investigation, and develop proposals. Students with BIOL 211 credit may take a maximum of three hours of BIOL 395.
Requisites: Prerequisite, BIOL 201 or 202; permission of the instructor for students lacking the prerequisite; Not open to seniors.
Grading status: Letter grade.

BIOL 213. Evolution and Life. 3 Credits.
For students not majoring in biology. Introduction to the scientific study of biological evolution and its applications. The mechanisms that cause evolution and general patterns of evolution during the history of life. Does not count as a course in the major.
Requisites: Prerequisite, BIOL 101; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOL 214H. Mathematics of Evolutionary Processes. 3 Credits.
This Course-based Undergraduate Research Experience (CURE) class teaches students how scientists use mathematics to approach questions in evolutionary biology and ecology. Students learn both biological and mathematical concepts, taught using an array of pedagogical approaches. There are two group projects over the course of the semester, one involving the development of an original mathematical model.
Requisites: Prerequisites, BIOL 101 and MATH 231; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.
BIOL 214. Mathematics of Evolutionary Processes. 3 Credits.
This Course-based Undergraduate Research Experience (CURE) class teaches students how scientists use mathematics to approach questions in evolutionary biology and ecology. Students learn both biological and mathematical concepts, taught using an array of pedagogical approaches. There are two group projects over the course of the semester, one involving the development of an original mathematical model. Honors version available
Requisites: Prerequisites, BIOL 101 and MATH 231; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 217. The Physician's Garden. 3 Credits.
First-year transfer students only. This course combines human cell biology and classical botany elaborating the mode of action of plant metabolites in humans. Hands-on experience includes visits to a pharmaceutical company, a botanical garden, and maintaining the campus medicinal garden.
Requisites: Prerequisite, BIOL 101.
Grading status: Letter grade.

BIOL 221. Seafood Forensics. 3 Credits.
In this Course-based Undergraduate Research Experience (CURE) class, students will use forensic sciences (primarily DNA barcoding technology) to quantify seafood mislabeling. Students will learn the importance of food labeling as well as its impact on marine ecosystems and human health.
Requisites: Prerequisite, BIOL 101; corequisite, BIOL 221L; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 221L. Seafood Forensics Laboratory. 1 Credit.
In this Course-based Undergraduate Research Experience (CURE) lab, students will use forensic sciences (primarily DNA barcoding technology) to quantify seafood mislabeling. Students will perform experiments based on hypotheses formulated in the co-requisite lecture course.
Requisites: Prerequisite, BIOL 101; corequisite, BIOL 221; permission of the instructor for students lacking the prerequisites.
Gen Ed: EE: Mentored Research.
Grading status: Letter grade.

BIOL 224H. The Mathematics of Life. 3 Credits.
An accessible treatment of classic mathematical applications to molecules, cells, development, genetics, ecology, and evolution, complementing the material taught in BIOL 201, 202, and 205. Three lecture hours a week.
Requisites: prerequisite, MATH 231; Permission of the instructor for students lacking the prerequisite. Co-requisite, BIOL 224L;
Grading status: Letter grade.

BIOL 224L. The Mathematics of Life Laboratory. 1 Credit.
An accessible treatment of classic mathematical applications to molecules, cells, development, genetics, ecology, and evolution, complementing the material taught in BIOL 201, 202, and 205. This lab component is programming-based.
Requisites: prerequisite, MATH 231; Permission of the instructor for students lacking the prerequisite. Co-requisite, BIOL 224H;
Grading status: Letter grade.

BIOL 226. Mathematical Methods for Quantitative Biology. 3 Credits.
Introduction to quantitative biology with emphasis on applications that use mathematical modeling, linear algebra, differential equations, and computer programming. Applications may include neural networks, biomechanics, dispersion, and systems of biochemical reactions. Three lecture hours a week.
Requisites: Prerequisites, BIOL 201 or 202, and MATH 232 or 283. Corequisite, BIOL 226L.
Gen Ed: QI.
Grading status: Letter grade.

BIOL 226L. Mathematical Methods for Quantitative Biology Laboratory. 1 Credit.
Introduction to quantitative biology with emphasis on applications that use mathematical modeling, linear algebra, differential equations, and computer programming. Applications may include neural networks, biomechanics, dispersion, and systems of biochemical reactions. Three laboratory hours a week.
Requisites: Prerequisites, BIOL 201 or 202, and MATH 232 or 283. Corequisite, BIOL 226.
Grading status: Letter grade.

BIOL 251. Introduction to Human Anatomy and Physiology. 3 Credits.
This course relates the way in which the human body is constructed to the way in which it functions and is controlled. Students may not receive credit for both BIOL 251 and BIOL 252. Only offered through Continuing Studies.
Gen Ed: PX.
Grading status: Letter grade.

BIOL 251L. Human Physiology Virtual Laboratory. 1 Credit.
permission of the instructor for students lacking the prerequisite. This is a course of simulated laboratory measurements exercises using typical data derived from actual physiological measurements on human subjects. Only offered though continuing education. Students may not receive credit for both BIOL 251L and BIOL 252.
Requisites: Pre- or corequisite, BIOL 251;
Grading status: Letter grade.

BIOL 252. Fundamentals of Human Anatomy and Physiology. 3 Credits.
One biology course over 200 recommended. An introductory but comprehensive course emphasizing the relationship between form and function of the body's organ systems. Three lecture hours each week. Students may not receive credit for BIOL 252 and BIOL 251 or BIOL 251L or BIOL 352 or BIOL 353.
Requisites: Prerequisite, BIOL 101. Corequisite, BIOL 252L.
Gen Ed: PX.
Grading status: Letter grade.

BIOL 252L. Fundamentals of Human Anatomy and Physiology Laboratory. 1 Credit.
Organ level human structure and function. Three laboratory hours a week.
Requisites: Prerequisite, BIOL 101, and BIOL 101L or BIOL 102L; Corequisite, BIOL 252; Permission of the instructor for students lacking the pre- or corequisite.
Grading status: Letter grade.

BIOL 253L. Advanced Human Anatomy and Physiology Laboratory. 1 Credit.
In-depth study of physiological mechanisms by hands-on experimentation. Students gain experience in collecting, analyzing, and presenting human physiological data.
Requisites: Prerequisites, BIOL 252 and 252L; corequisite, BIOL 253.
Grading status: Letter grade.
BIOL 253. Advanced Human Anatomy and Physiology. 3 Credits.
In-depth study of physiological mechanisms at molecular, cellular, and system levels of organization. Students will develop analytical and problem solving skills. Intended for preprofessional students requiring a second semester of anatomy and physiology. Can be used as an allied science elective but not a biology elective course for the major or minor.
Requisites: Prerequisites, BIOL 252 and 252L; Corequisite, BIOL 253L.
Grading status: Letter grade.

BIOL 255. The Evolution of Extraordinary Adaptations. 3 Credits.
In this Course-based Undergraduate Research (CURE) class, students will learn how to do science. This includes formulating a question, collecting data, and statistical analysis, to presenting research results. Students will test new hypotheses in ecology and evolution for spectacular adaptations in the Venus flytrap and the scale-eating pupfish using field and laboratory experiments and observations. Honors version available
Requisites: Prerequisite, BIOL 101 and 101L; a grade of B or better in BIOL 101 is required. Corequisite, BIOL 255L.
Grading status: Letter grade.

BIOL 255L. The Evolution of Extraordinary Adaptations Laboratory. 1 Credit.
In this Course-based Undergraduate Research Experience (CURE) lab, students will learn how to do science. This includes formulating a question, collecting data, and statistical analysis, to presenting research results. Students will test new hypotheses in ecology and evolution for spectacular adaptations in the Venus flytrap and the scale-eating pupfish using field and laboratory experiments and observations.
Requisites: Prerequisite, BIOL 101 and 101L; corequisite, BIOL 255.
Grading status: Letter grade.

BIOL 255H. The Evolution of Extraordinary Adaptations. 3 Credits.
In this Course-based Undergraduate Research Experience (CURE) class, students will learn how to do science. This includes formulating a question, collecting data, and statistical analysis, to presenting research results. Students will test new hypotheses in ecology and evolution for spectacular adaptations in the Venus flytrap and the scale-eating pupfish using field and laboratory experiments and observations.
Requisites: Prerequisite, BIOL 101 and 101L; a grade of B or better in BIOL 101 is required. Corequisite, BIOL 255L.
Grading status: Letter grade.

BIOL 256. Mountain Biodiversity. 4 Credits.
Introduction to the new field of biodiversity studies, which integrates approaches from systematics, ecology, evolution, and conservation. Taught at off-campus field station.
Grading status: Letter grade.

Same as: ENEC 256.

BIOL 271. Plant Biology. 3 Credits.
Designed for students with an interest in natural sciences. An introduction to the principles of botany including structure, function, reproduction, heredity, environmental relationships, evolution and classification of plants. Three lecture hours a week.
Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 271L.
Gen Ed: PX.
Grading status: Letter grade.

BIOL 271L. Plant Biology Laboratory. 1 Credit.
Designed for students with an interest in natural sciences. An introduction to the principles of botany including structure, function, reproduction, heredity, environmental relationships, evolution and classification of plants. Three laboratory hours a week.
Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 271.
Grading status: Letter grade.

BIOL 272. Local Flora. 4 Credits.
Open to all undergraduates. North Carolina's flora: recognition, identification, classification, evolution, history, economics, plant families, ecology, and conservation. Three lecture and three laboratory hours per week.
Requisites: Prerequisites, BIOL 101, and 101L or 102L.
Gen Ed: PX.
Grading status: Letter grade.

Same as: ENEC 272.

BIOL 273. Horticulture. 4 Credits.
The cultivation, propagation and breeding of plants, with emphasis on ornamentals. Control of environmental factors for optimal plant growth. Laboratory exercises include plant culture, propagation, pruning, and identification of common ornamentals. Two lecture, one recitation, and three laboratory hours a week.
Requisites: Prerequisite, BIOL 101.
Gen Ed: PX.
Grading status: Letter grade.

BIOL 274. Plant Diversity. 3 Credits.
Survey of major groups of plants emphasizing interrelationships and comparative morphology. Culturing techniques and field work included. Three lecture hours a week.
Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 274L.
Gen Ed: PX, EE- Field Work.
Grading status: Letter grade.

BIOL 274L. Plant Diversity Laboratory. 1 Credit.
Survey of major groups of plants emphasizing interrelationships and comparative morphology. Culturing techniques and field work included. Three laboratory hours a week.
Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 274.
Grading status: Letter grade.

BIOL 277. Vertebrate Field Zoology. 3 Credits.
Introduction to the diversity, ecology, behavior, and conservation of living vertebrates. Three lecture hours a week.
Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L.
Gen Ed: PX.
Grading status: Letter grade.

BIOL 277L. Vertebrate Field Zoology Laboratory. 1 Credit.
Permission of the instructor for students lacking the corequisite. Study of the diversity of vertebrates in the field. Three laboratory and field hours a week, including one or two weekend trips.
Requisites: Corequisite, BIOL 277;
Gen Ed: EE- Field Work.
Grading status: Letter grade.
BIOL 278. Animal Behavior. 3 Credits.
Introduction to animal behavior with emphases on the diversity and adaptation of behavior in natural conditions. Three lecture hours a week.
Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L.
Gen Ed: PX.
Grading status: Letter grade.

BIOL 278L. Animal Behavior Laboratory. 1 Credit.
Techniques of observation and experiments in animal behavior. Three laboratory hours a week.
Requisites: Pre- or corequisite, BIOL 278.
Grading status: Letter grade.

BIOL 279. Seminar in Organismal Biology. 2-3 Credits.
Permission of the instructor. An undergraduate course devoted to consideration of pertinent aspects of a selected organismal biological discipline.
Gen Ed: PL.
Grading status: Letter grade.

BIOL 279L. Topics in Organismal Biology Laboratory. 1-2 Credits.
Permission of the instructor. An undergraduate laboratory course covering aspects of a specific organismal biological discipline. Laboratory reports will be required. Research work is not included in this course.
Grading status: Letter grade.

BIOL 290. Special Topics in Biology. 1-3 Credits.
Permission of the instructor. An undergraduate seminar course devoted to consideration of pertinent aspects of a selected biological discipline. Honors version available
Gen Ed: PL.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading status: Letter grade.

BIOL 290L. Special Topics in Biology Laboratory. 1-2 Credits.
Permission of the instructor. An undergraduate laboratory course covering aspects of a specific biological discipline. Laboratory reports will be required. Research work is not included in this course.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 3 total completions.
Grading status: Letter grade.

BIOL 290H. Special Topics in Biology. 1-3 Credits.
Permission of the instructor. An undergraduate seminar course devoted to consideration of pertinent aspects of a selected biological discipline.
Gen Ed: PL.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading status: Letter grade.

BIOL 291. Teaching Apprentice in Biology. 1 Credit.
Permission required. 3.0 or higher in course taught. Experience includes preparations, demonstrations, assistance, and attendance at weekly meetings. Apprentices will not be involved in any aspects of grading. May be repeated for credit.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 3 total credits. 3 total completions.
Grading status: Pass/Fail.

BIOL 292. Teaching Assistant in Biology. 2 Credits.
Permission required. 3.0 in course taught. Experience includes weekly meetings, preparations, demonstrations, instruction, and grading. May be repeated for credit. Six hours per week.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 3 total completions.
Grading status: Pass/Fail.

BIOL 293. Undergraduate Internship in Biology. 3 Credits.
Permission of the instructor. Biology majors only. The sponsored, off-campus work must involve at least 135 hours. Does not count as a course in the major.
Requisites: Prerequisite, BIOL 201 or 202.
Gen Ed: EE- Academic Internship.
Grading status: Letter grade.

BIOL 294. Service Learning in Biology: APPLES. 1-2 Credits.
Permission of the instructor. APPLES service-learning component for students enrolled in biology courses. Does not count as a course in the major. Honors version available
Gen Ed: EE- Service Learning.
Grading status: Letter grade.

BIOL 294H. Service Learning in Biology: APPLES. 1-2 Credits.
Permission of the instructor. APPLES service-learning component for students enrolled in biology courses. Does not count as a course in the major.
Gen Ed: EE- Service Learning.
Grading status: Letter grade.

BIOL 296. Directed Readings in Biology. 1-3 Credits.
Permission of the instructor. Extensive and intensive reading of the literature of a specific biological field directly supervised by a member of the biology faculty. Written reports on the readings, or a literature review paper will be required. Cannot be used as a course toward the major. Honors version available
Grading status: Letter grade.

BIOL 296H. Directed Readings in Biology. 1-3 Credits.
Permission of the instructor. Extensive and intensive reading of the literature of a specific biological field directly supervised by a member of the biology faculty. Written reports on the readings, or a literature review paper will be required. Cannot be used as a course toward the major.
Grading status: Letter grade.

BIOL 350. Oceanography. 3 Credits.
Required preparation, major in a natural science or two courses in natural sciences. Studies origin of ocean basins, seawater chemistry and dynamics, biological communities, sedimentary record, and oceanographic history. Term paper. Students lacking science background should see MASC 101. Students may not receive credit for both MASC 101 and MASC 401.
Grading status: Letter grade
Same as: MASC 401, ENVR 417, GEOL 403.

BIOL 390. Special Topics in Biology. 1-3 Credits.
Special topics course. Content and topics will vary each semester.
Repeat rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading status: Pass/Fail.
BIOL 395. Undergraduate Research in Biology. 1-3 Credits.
Permission of the instructor. Majors only. Hands-on research in the laboratory and/or field involving the study of biology. Requires written paper (first semester) or research poster (second semester). Up to five total hours counts as a lecture course. Six total hours counts as a biology elective with laboratory. Honors version available
Requisites: Prerequisite, BIOL 201 or 202.
Gen Ed: EE: Mentored Research.
Repeat rules: May be repeated for credit. 6 total credits. 3 total completions.
Grading status: Letter grade.

BIOL 395H. Undergraduate Research in Biology. 1-3 Credits.
Permission of the instructor. Majors only. Hands-on research in the laboratory and/or field involving the study of biology. Requires written paper (first semester) or research poster (second semester). Up to five total hours counts as a lecture course. Six total hours counts as a biology elective with laboratory.
Requisites: Prerequisite, BIOL 201 or 202.
Gen Ed: EE: Mentored Research.
Repeat rules: May be repeated for credit. 6 total credits. 3 total completions.
Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

BIOL 402. Infectious Disease in the Developing World. 3 Credits.
We will explore the challenges of infectious disease in the developing world, focusing on tuberculosis, HIV, and malaria. We will also examine the economics of different approaches to health care.
Requisites: Prerequisites, BIOL 202 and 205.
Grading status: Letter grade.

BIOL 409L. Art and Science: Merging Printmaking and Biology. 1 Credit.
Permission of the instructor. This is the lab component of ARTS 409 that brings together art majors and science majors to combine theory and practical learning in a biology laboratory, which focusing primarily on microscopic life and biological motion, with printmaking. Does not count as an elective towards the biology major.
Requisites: Prerequisite, BIOL 201, BIOL 202, or a 200-level ARTS course; corequisite, ARTS 409.
Grading status: Letter grade.

BIOL 410. Principles and Methods of Teaching Biology. 4 Credits.
This Makerspace designed course will develop the knowledge and skills teachers need to implement inquiry-based biology instruction: rich, conceptual knowledge of biology and mastery of inquiry-based teaching methods. Does not count as a laboratory course.
Requisites: Prerequisites, two of the three biology core courses: BIOL 201, 202, and/or 205.
Gen Ed: EE: Field Work.
Grading status: Letter grade.

BIOL 410L. Microbiology Laboratory with Research. 2 Credits.
Sterile technique, bacterial growth, physiology, genetics and diversity, and bacteriophage. Research in bacterial genetics.
Requisites: Pre- or corequisite, BIOL 422.
Gen Ed: EE: Mentored Research.
Grading status: Letter grade.

BIOL 422. Microbiology. 3 Credits.
Bacterial form, growth, physiology, genetics, and diversity. Bacterial interactions including symbiosis and pathogenesis (animal and plant). Use of bacteria in biotechnology. Brief introduction to viruses.
Requisites: Prerequisite, BIOL 202; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOL 422L. Microbiology Laboratory. 1-2 Credits.
Sterile technique, bacterial growth and physiology, bacterial genetics, bacteriophage, and bacterial diversity.
Requisites: Pre- or corequisite, BIOL 422.
Grading status: Letter grade.

BIOL 423. Genetics Experiments. 3 Credits.
This is a Course-based Undergraduate Research Experience (CURE) combination course/lab. Using genetics and genome biology, students will study DNA repair and chromosome stability using yeast as a model system in a cutting edge research laboratory.
Requisites: Prerequisite, BIOL 202; corequisite, BIOL 423L.
Grading status: Letter grade.

BIOL 423L. Genetics Experiments Laboratory. 1 Credit.
This is a Course-based Undergraduate Research Experience (CURE) combination course/lab. Using genetics and genome biology, students will study DNA repair and chromosome stability using yeast as a model system in a cutting edge research laboratory.
Requisites: Prerequisite, BIOL 202; corequisite BIOL 423.
Gen Ed: EE: Mentored Research.
Grading status: Letter grade.

BIOL 424. Microbial Ecology. 3 Credits.
Class emphasizes the creativity of the scientific process, using primary scientific literature as a framework to discuss topics in microbial ecology, including microbial diversity, distributions, genomics, and co-evolution; host-microbe and microbe-microbe interactions; nutrient cycling; and degradation of plant matter and biofuels.
Requisites: Prerequisites, BIOL 201 and 202; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 425. Human Genetics. 3 Credits.
Pedigree analysis, inheritance of complex traits, DNA damage and repair; human genome organization, DNA fingerprinting, the genes of hereditary diseases, chromosomal aberrations, cancer and oncogenes, immunogenetics and tissue transplants. Three lecture hours a week.
Requisites: Prerequisite, BIOL 202; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOL 426. Biology of Blood Diseases. 3 Credits.
An introduction to the biology and pathophysiology of blood and the molecular mechanisms of some human diseases: anemias; leukemias; hemorrhagic, thrombotic, and vascular disorders; and HIV disease/AIDS. Honors version available
Requisites: Prerequisite, BIOL 205; Permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade
Same as: PATH 426.
BIOL 426H. Biology of Blood Diseases. 3 Credits.
An introduction to the biology and pathophysiology of blood and the molecular mechanisms of some human diseases: anemias; leukemias; hemorrhagic, thrombotic, and vascular disorders; and HIV disease/AIDS.
**Requisites:** Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.
**Grading status:** Letter grade

BIOL 427. Human Diversity and Population Genetics. 3 Credits.
Permission of the instructor for students lacking the requisites. Specifically, it addresses questions of human origins, population structure, and genetic diversity. This course investigates the facts, methods, and theories behind human population genetics, evolution, and diversity.
**Requisites:** Pre- or corequisites, BIOL 201 and 202;
**Grading status:** Letter grade

BIOL 430. Introduction to Biological Chemistry. 3 Credits.
The study of cellular processes including catalysts, metabolism, bioenergetics, and biochemical genetics. The structure and function of biological macromolecules involved in these processes is emphasized. Honors version available
**Requisites:** Prerequisites, BIOL 101, and CHEM 262 or 262H.
**Grading status:** Letter grade

BIOL 430H. Introduction to Biological Chemistry. 3 Credits.
The study of cellular processes including catalysts, metabolism, bioenergetics, and biochemical genetics. The structure and function of biological macromolecules involved in these processes is emphasized.
**Requisites:** Prerequisites, BIOL 101, and CHEM 262 or 262H.
**Grading status:** Letter grade

BIOL 431. Biological Physics. 3 Credits.
How diffusion, entropy, electrostatics, and hydrophobicity generate order and force in biology. Topics include DNA manipulation, intracellular transport, cell division, molecular motors, single molecule biophysics techniques, nerve impulses, neuroscience.
**Requisites:** Prerequisites, PHYS 116 and 117, or PHYS 118 and 119.
**Grading status:** Letter grade

BIOL 434. Molecular Biology. 3 Credits.
Advanced studies in molecular biology from an experimental approach.
**Requisites:** Prerequisites, BIOL 202 and CHEM 261; permission of the instructor for students lacking the prerequisites.
**Grading status:** Letter grade

BIOL 436. Plant Genetics, Development, and Biotechnology. 3 Credits.
Recent advances in plant molecular biology, genetics, development, and biotechnology, and their potential relevance to agriculture. The course will include lectures, reading and discussions of papers from the primary literature, and student presentations. Honors version available
**Requisites:** Prerequisite, BIOL 271 or 202; Permission of the instructor for students lacking the prerequisite.
**Grading status:** Letter grade

BIOL 436H. Plant Genetics, Development, and Biotechnology. 3 Credits.
Recent advances in plant molecular biology, genetics, development, and biotechnology, and their potential relevance to agriculture. The course will include lectures, reading and discussions of papers from the primary literature, and student presentations.
**Requisites:** Prerequisite, BIOL 271 or 202; Permission of the instructor for students lacking the prerequisite.
**Grading status:** Letter grade

BIOL 439. Introduction to Signal Transduction. 3 Credits.
This course presents an introduction to signal transduction pathways used by higher eukaryotes. Several signaling paradigms will be discussed to illustrate the ways that cells transmit information. Three lecture hours per week.
**Requisites:** Prerequisites, BIOL 202 and 205; permission of the instructor for students lacking the prerequisite.
**Grading status:** Letter grade

BIOL 441. Vertebrate Embryology. 3 Credits.
Principles of development with special emphasis on gametogenesis, fertilization, cleavage, germ layer formation, organogenesis, and mechanisms, with experimental analysis of developmental processes. Three lecture hours a week.
**Requisites:** Prerequisite, BIOL 205 or 252; permission of the instructor for students lacking the prerequisite.
**Grading status:** Letter grade

BIOL 441L. Vertebrate Embryology Laboratory. 1 Credit.
Descriptive and some experimental aspects of vertebrate development. Three laboratory hours a week.
**Requisites:** Pre- or corequisite, BIOL 441.
**Grading status:** Letter grade

BIOL 442. Self Assembly in Cell Biology. 3 Credits.
In this class, we will read and discuss together the primary literature to understand how self-assembly in cell biology is harnessed in normal cells and goes awry in disease. A secondary goal will be for students to develop numeracy in cell biology so as to understand cell processes in a quantitative framework.
**Requisites:** Prerequisite, BIOL 205 and one additional course in biology numbered above BIOL 205.
**Grading status:** Letter grade

BIOL 443. Developmental Biology. 3 Credits.
An experimental approach to an understanding of animals and plants. The approach covers developmental processes, molecular, genetic, cell biological and biochemical techniques, with an emphasis on the molecules involved in development.
**Requisites:** Prerequisites, BIOL 205 and CHEM 261; permission of the instructor for students lacking the prerequisites.
**Grading status:** Letter grade

BIOL 444. Molecular Basis of Disease. 3 Credits.
This course investigates the biological causes behind human diseases via critical thinking and analysis of experimental research outcomes. It approaches topics from a research perspective similar to a graduate seminar. Topics covered include genetic/inherited diseases, metabolic diseases, immunological disorders, infectious diseases, cancer, cardiovascular diseases, and neurological diseases.
**Requisites:** Prerequisite, BIOL 205.
**Grading status:** Letter grade.
BIOL 445. Cancer Biology. 3 Credits.
Selected examples will be used to illustrate how basic research allows us to understand the mechanistic basis of cancer and how these insights offer hope for new treatments.
Requisites: Prerequisites, BIOL 202 and 205.
Grading status: Letter grade.

BIOL 446. Unsolved Problems in Cellular Biology. 3 Credits.
A survey of areas of current interest in cytology, embryology, and genetics with concentration on problems that remain unsolved but that appear to be near solution. Three lecture and discussion hours a week.
Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOL 447. Cell Biology: Beyond Core Basics. 1 Credit.
Modern methods in cell biology.
Requisites: Prerequisite, BIOL 205; co-requisite, BIOL 447L; Required preparation, a grade of C+ or better in BIOL 205.
Grading status: Letter grade.

BIOL 447L. Cell Biology: Beyond Core Basics Laboratory. 3 Credits.
Modern methods in cell biology lab.
Requisites: Prerequisite, BIOL 205; co-requisite, BIOL 447; Required preparation, a grade of C+ or better in BIOL 205.
Grading status: Letter grade.

BIOL 448. Advanced Cell Biology. 3 Credits.
An advanced course in cell biology, with emphasis on the biochemistry and molecular biology of cell structure and function. Three lecture hours a week.
Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOL 449. Introduction to Immunology. 3 Credits.
This course provides a general overview of the evolution, organization, and function of the immune system. Instruction will be inquiry-based with extensive use of informational and instructional technology tools.
Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade
Same as: MCRO 449.

BIOL 450. Neurobiology. 3 Credits.
Recommended preparation, BIOL 205. Survey of neurobiological principles in vertebrates and invertebrates, including development, morphology, physiology, and molecular mechanisms. Three lectures a week.
Grading status: Letter grade

BIOL 451. Comparative Physiology. 3 Credits.
An examination of the physiology of animals using a comparative approach. Both invertebrate and vertebrate animals are discussed in order to elucidate general principles.
Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L, and PHYS 104 or 114 or 116, and PHYS 105 or 115 or 117.
Grading status: Letter grade.

BIOL 451L. Comparative Physiology Laboratory. 1 Credit.
The fundamental principles of physiology are explored using physical models, animal experiments, and non invasive experiments on humans, reinforcing the understanding of concepts presented in lecture.
Requisites: Pre- or corequisite, BIOL 451.
Grading status: Letter grade.

BIOL 452. Marine Microbial Symbioses: Exploring How Microbial Interactions Affect Ecosystems and Human Health. 3 Credits.
Course material covers host-microbe and microbe-microbe interactions found in marine ecosystems, including beneficial and parasitic relationships among viruses, microbes, marine animals, and humans. Limited to upper-level undergraduate science majors and graduate students.
Gen Ed: PL.
Grading status: Letter grade

BIOL 454. Evolutionary Genetics. 3 Credits.
The roles of mutation, migration, genetic drift, and natural selection in the evolution of the genotype and phenotype. Basic principles are applied to biological studies. Three lecture hours a week.
Requisites: Prerequisites, BIOL 201 and 202; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 455. Behavioral Neuroscience. 3 Credits.
The neurobiological basis of animal behavior at the level of single cells, neural circuits, sensory systems, and organisms. Lecture topics range from principles of cellular neurobiology to ethological field studies.
Requisites: Prerequisite, BIOL 205; Permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOL 456. Marine Phytoplankton. 3 Credits.
Permission of the instructor. For junior and senior science majors or graduate students. Biology of marine photosynthetic protists and cyanobacteria. Phytoplankton evolution, biodiversity, structure, function, biogeochemical cycles and genomics. Harmful algal blooms, commercial products, and climate change. Three lecture/practical session hours per week.
Grading status: Letter grade
Same as: MASC 444, ENEC 444.

BIOL 457. Marine Biology. 3 Credits.
Recommended preparation, BIOL 201 or 475. A survey of plants and animals that live in the sea: characteristics of marine habitats, organisms, and the ecosystems will be emphasized. Marine environment, the organisms involved, and the ecological systems that sustain them.
Gen Ed: PL.
Grading status: Letter grade
Same as: MASC 442.

BIOL 458. Sensory Neurobiology and Behavior. 3 Credits.
Recommended preparation, BIOL 205. An exploration of sensory systems and sensory ecology in animals. Topics range from neurophysiological function of sensory receptors to the role of sensory cues in animal behavior.
Grading status: Letter grade.

BIOL 459. Field Biology at Highlands Biological Station. 1-4 Credits.
Content varies. Summer field biology at the Highlands Biological Station focuses on the special faunal and floristic processes and patterns characteristic of the southern Appalachian mountains. Five lecture and three to five laboratory and field hours per week, depending on credit.
Requisites: Prerequisite, BIOL 101; permission of the instructor for students lacking the prerequisite.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 2 total completions.
Grading status: Letter grade.
BIOL 461. Fundamentals of Ecology. 4 Credits. 
Students will develop a comprehensive understanding of the field of ecology, including modern and emerging trends in ecology. They will develop literacy in the fundamental theories and models that capture ecological processes; emphasis will also be placed on the relevance of ecology and ecological research for human society.
Requisites: Prerequisite, BIOL 201.
Grading status: Letter grade
Same as: ENEC 461.

BIOL 462. Marine Ecology. 3 Credits.
Survey of the ecological processes that structure marine communities in a range of coastal habitats. Course emphasizes experimental approaches to addressing basic and applied problems in marine systems.
Requisites: Prerequisite, BIOL 201 or 475.
Gen Ed: PL.
Grading status: Letter grade
Same as: MASC 440.

BIOL 463. Field Ecology. 4 Credits.
Application of ecological theory to terrestrial and/or freshwater systems. Lectures emphasize quantitative properties of interacting population and communities within these systems. Required laboratory teaches methodology applicable for analysis of these systems. Projects emphasize experimental testing of ecological theory in the field. Two lecture and six field hours a week.
Requisites: Prerequisite, BIOL 201.
Gen Ed: EE- Field Work.
Grading status: Letter grade.

BIOL 464. Global Change Ecology. 3 Credits.
Responses of plants, animals, and communities to climate and other global changes, emphasizing ecology, physiology, behavior, and evolution. Investigation of past responses and tools for predicting future responses.
Requisites: Prerequisite, BIOL 201.
Grading status: Letter grade.

BIOL 465. Global Biodiversity and Macroecology. 3 Credits.
We will explore global patterns of diversity of plants, animals, fungi, and microbes, and the insights gained by taking a statistical approach to describing these and other broad-scale ecological patterns.
Requisites: Prerequisite, BIOL 201; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOL 469. Behavioral Ecology. 3 Credits.
BIOL 278 recommended but not required and can be taken concurrently. Behavior as an adaptation to the environment. Evolution of behavioral strategies for survival and reproduction. Optimality and games that animals play. Three lecture hours a week.
Requisites: Prerequisite, BIOL 201.
Grading status: Letter grade.

BIOL 471. Evolutionary Mechanisms. 3 Credits.
Introduction to mechanisms of evolutionary change, including natural selection, population genetics, life history evolution, speciation, and micro- and macroevolutionary trends. Three lecture hours a week.
Requisites: Prerequisites, BIOL 201 and 202; Corequisite, BIOL 471L; Permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 471L. Evolutionary Mechanisms Laboratory. 1 Credit.
Introduction to mechanisms of evolutionary change, including natural selection, population genetics, life history evolution, speciation, and micro- and macroevolutionary trends. Three laboratory hours a week.
Requisites: Prerequisites, BIOL 201 and 202; Corequisite, BIOL 471; Permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 472. Introduction to Plant Taxonomy. 4 Credits.
Introduction to the taxonomy of vascular plants. Principles of classification, identification, nomenclature, and description. Laboratory and field emphasis on phytography, families, description, identification, and classification of vascular plant species. Three lecture and three laboratory hours a week.
Requisites: Prerequisites, BIOL 271 and/or 272; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 473. Mammalian Morphology and Adaptation. 3 Credits.
An in-depth examination of the morphological adaptations of mammals. Particular attention will be given to osteology, the locomotor system, and craniofacial structures.
Requisites: Corequisite, BIOL 473L.
Grading status: Letter grade.

BIOL 474. Evolution of Vertebrate Life. 3 Credits.
Evolutionary history of the vertebrates. Emphasis on anatomical, physiological, behavioral adaptations accompanying major transitions: the move from water to land, the development of complex integrating systems. Honors version available
Requisites: Prerequisite, BIOL 201 or 202; permission of the instructor for students lacking the prerequisite.
Gen Ed: PL.
Grading status: Letter grade.

BIOL 474L. Vertebrate Structure and Evolution Laboratory. 1 Credit.
Vertebrate comparative anatomy of organ systems and their evolution with emphasis on human anatomy. Three laboratory hours a week.
Requisites: Pre- or corequisite, BIOL 474.
Grading status: Letter grade.

BIOL 474H. Evolution of Vertebrate Life. 3 Credits.
Evolutionary history of the vertebrates. Emphasis on anatomical, physiological, behavioral adaptations accompanying major transitions: the move from water to land, the development of complex integrating systems.
Requisites: Prerequisite, BIOL 201 or 202; permission of the instructor for students lacking the prerequisite.
Gen Ed: PL.
Grading status: Letter grade.
BIOL 475. Biology of Marine Animals. 3 Credits.
Required preparation, one additional course in biology. An introduction to the major animal phyla emphasizing form, function, behavior, ecology, evolution, and classification of marine invertebrates. Three lecture and three laboratory hours per week.
\textbf{Requisites:} Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 475L.
\textbf{Grading status:} Letter grade.

BIOL 475L. Biology of Marine Animals Laboratory. 1 Credit.
This lab serves as an introduction to the major animal phyla emphasizing form, function, behavior, ecology, evolution, and classification of marine invertebrates.
\textbf{Requisites:} Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 475.
\textbf{Grading status:} Letter grade.

BIOL 476. Avian Biology. 3 Credits.
A study of avian evolution, anatomy, physiology, neurobiology, behavior, biogeography, and ecology. Three lecture hours a week.
\textbf{Requisites:} Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 476L.
\textbf{Grading status:} Letter grade.

BIOL 476L. Avian Biology Laboratory. 1 Credit.
Techniques for the study of avian evolution, ecology, and behavior with emphasis on North Carolina birds. Three laboratory or field hours a week, including one or two weekend field trips.
\textbf{Requisites:} Corequisite, BIOL 476.
\textbf{Grading status:} Letter grade.

BIOL 479. Topics in Organismal Biology at an Advanced Level. 3 Credits.
Topics in organismal biology at an advanced undergraduate or graduate student level.
\textbf{Grading status:} Letter grade.

BIOL 479L. Laboratory in Organismal Biology: Advanced Topics. 1-2 Credits.
Laboratory in topics in organismal biology for advanced undergraduates and graduate students.
\textbf{Grading status:} Letter grade.

BIOL 480. Discoveries in Prevention and Cure of Infectious Disease in London. 3 Credits.
This is a Burch summer honors course taught in London. We will examine three major discoveries relating to infectious disease (vaccination, transmission via water, and antibiotics) and one major epidemic (plague) which led to no scientific response and explore how the thought of the time influenced scientific research. Honors version available
\textbf{Requisites:} Prerequisite, BIOL 202.
\textbf{Grading status:} Letter grade.

BIOL 480H. Discoveries in Prevention and Cure of Infectious Disease in London. 3 Credits.
This is a Burch summer honors course taught in London. We will examine three major discoveries relating to infectious disease (vaccination, transmission via water, and antibiotics) and one major epidemic (plague) which led to no scientific response and explore how the thought of the time influenced scientific research.
\textbf{Requisites:} Prerequisite, BIOL 202.
\textbf{Grading status:} Letter grade.

BIOL 490. Advanced Topics in Biology. 3 Credits.
Permission of the instructor. Content will vary. Three lecture and discussion hours per week by visiting and resident faculty. Honors version available
\textbf{Repeat rules:} May be repeated for credit. 12 total credits. 4 total completions.
\textbf{Grading status:} Letter grade.

BIOL 490H. Advanced Topics in Biology. 3 Credits.
Permission of the instructor. Content will vary. Three lecture and discussion hours per week by visiting and resident faculty.
\textbf{Repeat rules:} May be repeated for credit. 12 total credits. 4 total completions.
\textbf{Grading status:} Letter grade.

BIOL 495. Undergraduate Research in Biology. 1-3 Credits.
Permission of the instructor. Biology majors only. A continuation of the hands-on research in the laboratory and/or field that was started in BIOL 395. A final written paper is required each term. May be repeated. Does not count as a course in the major. Pass/fail credit only. Honors version available
\textbf{Requisites:} Prerequisite, BIOL 395.
\textbf{Repeat rules:} May be repeated for credit. 12 total credits. 4 total completions.
\textbf{Grading status:} Pass/Fail.

BIOL 495H. Undergraduate Research in Biology. 1-3 Credits.
Permission of the instructor. Biology majors only. A continuation of the hands-on research in the laboratory and/or field that was started in BIOL 395. A final written paper is required each term. May be repeated. Does not count as a course in the major. Pass/fail credit only.
\textbf{Requisites:} Prerequisite, BIOL 395.
\textbf{Repeat rules:} May be repeated for credit. 12 total credits. 4 total completions.
\textbf{Grading status:} Pass/Fail.

BIOL 501. Ethical Issues in Life Sciences. 3 Credits.
Permission of the instructor. A consideration and discussion of ethical issues in life sciences including cloning humans, genetic engineering, stem cell research, organ transplantation, and animal experimentation. Counts as a course numbered below 400 for biology major requirements.
\textbf{Grading status:} Letter grade.

BIOL 514. Evolution and Development. 3 Credits.
The course examines the mechanisms by which organisms are built and evolve. In particular, it examines how novel and complex traits and organisms arise from interactions among genes and cells. Honors version available
\textbf{Requisites:} Prerequisites, BIOL 201, 202, and 205; permission of the instructor for students lacking the prerequisites.
\textbf{Grading status:} Letter grade.

BIOL 514H. Evolution and Development. 3 Credits.
The course examines the mechanisms by which organisms are built and evolve. In particular, it examines how novel and complex traits and organisms arise from interactions among genes and cells.
\textbf{Requisites:} Prerequisites, BIOL 201, 202, and 205; permission of the instructor for students lacking the prerequisites.
\textbf{Grading status:} Letter grade.
BIOL 524. Strategies of Host-Microbe Interactions. 3 Credits.
There is great variety in how microbes colonize and live with their hosts. The course will summarize strategies of pathogenicity, symbiosis, commensalism and mutualism. Evolutionary, cellular, and molecular aspects will be analyzed.
Requisites: Prerequisite, BIOL 205; Permission of the instructor for students lacking the prerequisite.
Gen Ed: CI.
Grading status: Letter grade.

BIOL 525. Analysis and Interpretation of Sequence-Based Functional Genomics Experiments. 3 Credits.
Practical introduction to functional genomics experiments, such as RNA-seq and ChIP-seq, and computational techniques for the analysis of these data derived from high-throughput sequencing. Interpretation of results will be stressed. Basic knowledge of molecular biology, beginning level computational skills, and familiarity with basic statistical concepts are expected. One laboratory hour a week.
Requisites: Prerequisites, BIOL 202, COMP 110 or 116, and STOR 155; corequisite, BIOL 525L.
Grading status: Letter grade.

BIOL 525L. Analysis and Interpretation of Sequence-Based Functional Genomics Experiments Laboratory. 1 Credit.
Computer lab will provide students with experience using computational software for analysis of functional genomics experiments. Basic knowledge of molecular biology, beginning level computer skills, and familiarity with basic statistical concepts are expected. One laboratory hour a week.
Requisites: Prerequisites, BIOL 202, COMP 110 or 116, and STOR 155; corequisite, BIOL 525.
Grading status: Letter grade.

BIOL 526. Computational Genetics. 4 Credits.
Introduction to computational principles underlying sequence alignment and phylogenetics, genome assembly and annotation, analysis of gene function, and other bioinformatics applications. Includes a one-hour computer laboratory. Honors version available
Requisites: Prerequisites, BIOL 202, STOR 155, and one of BIOL 226, COMP 110, or COMP 116; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 526H. Computational Genetics. 4 Credits.
Introduction to computational principles underlying sequence alignment and phylogenetics, genome assembly and annotation, analysis of gene function, and other bioinformatics applications. Includes a one-hour computer laboratory
Requisites: Prerequisites, BIOL 202, STOR 155, and one of BIOL 226, COMP 110, or COMP 116; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 527. Seminar in Quantitative Biology. 3 Credits.
Seminar in quantitative biology for advanced students. The course counts as a quantitative biology course for the major.
Requisites: Prerequisites, COMP 110 or COMP 116, and MATH 232 or MATH 283; Permission of the instructor for students lacking the prerequisites.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading status: Letter grade.

BIOL 527L. Laboratory in Quantitative Biology. 1 Credit.
Laboratory in quantitative biology for advanced students. The laboratory will involve mathematical analysis and modeling of biological systems and processes.
Repeat rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading status: Letter grade.

BIOL 528. Quantitative Personalized Genomics. 3 Credits.
Personalized medicine, specifically using genetic markers to improve outcomes and minimize side effects (pharmacogenomics) requires the development and application of advanced computational and quantitative techniques. Students will develop computational skills to address contemporary genomic and statistical problems.
Requisites: Prerequisites, BIOL 202 and one of COMP 116, COMP 110, BIOL 226/BIOL 226L; Corequisite, BIOL 528L; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 528L. Quantitative Personalized Genomics Laboratory. 1 Credit.
Personalized medicine, specifically using genetic markers to improve outcomes and minimize side effects (pharmacogenomics) requires the development and application of advanced computational and quantitative techniques. Students will develop computational skills to address contemporary genomic and statistical problems in a lab setting.
Requisites: Prerequisites, BIOL 202 and one of COMP 116, COMP 110, BIOL 226/BIOL 226L; Corequisite, BIOL 528; permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 529. Clinical and Counseling Aspects of Human Genetics. 3 Credits.
Topics in clinical genetics including pedigree analysis, counseling/ethical issues, genetic testing, screening, and issues in human research. Taught in a small group format. Active student participation is expected.
Requisites: Prerequisite, BIOL 425; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade
Same as: GNET 635.

BIOL 532. Recent Discoveries in Molecular Biology. 3 Credits.
This course examines recent insights into molecular and cellular processes obtained through modern experimental approaches. Extensive reading of primary literature, discussed in a seminar format.
Requisites: Prerequisites, BIOL 202, and either BIOL 205 or a 400-level BIOL course; Permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 534. Mathematical Modeling in the Life Sciences. 3 Credits.
Requires some knowledge of computer programming. Model validation and numerical simulations using ordinary, partial, stochastic, and delay differential equations. Applications to the life sciences may include muscle physiology, biological fluid dynamics, neurobiology, molecular regulatory networks, and cell biology.
Requisites: Prerequisite, MATH 383.
Gen Ed: QI.
Grading status: Letter grade
Same as: MATH 564.

BIOL 535. Molecular Biology Techniques. 4 Credits.
Permission of the instructor. Recommended preparation, BIOL 434. Experiments with bacterial phage, nucleic acid isolation and properties, recombinant DNA techniques, and DNA sequencing. Additional hours in laboratory will be necessary to complete assignments.
Grading status: Letter grade.
BIOL 537. Biotechnology and Synthetic Biology. 3 Credits.
Recent advances in biotechnology and synthetic biology, and their
potential relevance to medicine, agriculture, and engineering. The course
will include lectures, reading and discussions of papers from the primary
literature, and student projects and presentations.
Requisites: Prerequisite, BIOL 202.
Grading status: Letter grade.

BIOL 542. Light Microscopy for the Biological Sciences. 3 Credits.
Permission of the instructor. Introduction to various types of light
microscopy, digital and video imaging techniques, and their application in
biological sciences.
Requisites: Prerequisite, BIOL 205 for undergraduates.
Grading status: Letter grade.

BIOL 551. Comparative Biomechanics. 3 Credits.
Recommended preparation, PHYS 105. The structure and function of
organisms in relation to the principles of fluid mechanics and solid
mechanics.
Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L, and
PHYS 104 or PHYS 116.
Grading status: Letter grade.

BIOL 552. Behavioral Endocrinology. 3 Credits.
Undergraduates need permission of the instructor to enroll. The study
of the interactions among hormones, the brain, and behavior from how
hormones shape the development and expression of behaviors to how
behavioral interactions regulate endocrine physiology.
Grading status: Letter grade.

BIOL 553. Mathematical and Computational Models in Biology. 3 Credits.
This course introduces analytical, computational, and statistical
techniques, such as discrete models, numerical integration of ordinary
differential equations, and likelihood functions, to explore various fields of
biology.
Requisites: Prerequisites, BIOL 201 and 202, MATH 231, and either
MATH 232 or STOR 155; Co-requisite, BIOL 553L/MATH 553L; permission
of the instructor for students lacking the prerequisites.
Gen Ed: QI.
Grading status: Letter grade
Same as: MATH 553.

BIOL 553L. Mathematical and Computational Models in Biology
Laboratory. 1 Credit.
This lab introduces analytical, computational, and statistical techniques,
such as discrete models, numerical integration of ordinary differential
equations, and likelihood functions, to explore various fields of biology.
Requisites: Prerequisites, BIOL 201 and 202, MATH 231, and either
MATH 232 or STOR 155; Co-requisite, BIOL 553L/MATH 553; Permission
of the instructor for students lacking the prerequisites.
Grading status: Letter grade
Same as: MATH 553L.

BIOL 555. Paleobotany: An Introduction to the Past History of Plants. 3
Credits.
An introduction to the fossil record of plants, investigating how plants
originated and changed through geological time to produce the modern
flora. Both macrofossils and microfossils will be considered. Three
lecture hours a week.
Requisites: Prerequisites, BIOL 202, and one other BIOL course above
200; corequisite, BIOL 555L; permission of the instructor for students
lacking the prerequisites.
Gen Ed: EE: Field Work.
Grading status: Letter grade
Same as: GEOL 555.

BIOL 555L. Paleobotany: An Introduction to the Past History of Plants
Laboratory. 1 Credit.
The laboratory involves learning how to locate, collect, prepare, and
analyze fossil plants; it also provides fossils that illustrate topics covered
in lecture. Students will be involved in field trips to fossil sites and
museums to learn about fossil curation and display of fossils for public
education. Three laboratory hours a week.
Requisites: Prerequisites, BIOL 202 and one other BIOL course above 200;
corequisite, BIOL 555L.
Grading status: Letter grade.

BIOL 561. Ecological Plant Geography. 3 Credits.
Description of the major vegetation types of the world including their
distribution, structure, and dynamics. The principal causes for the
distribution of plant species and communities, such as climate, soils, and
history will be discussed.
Requisites: Prerequisite, BIOL 101 or GEOG 110; Permission of the
instructor for students lacking the prerequisite.
Grading status: Letter grade.

BIOL 562. Statistics for Environmental Scientists. 4 Credits.
Introduction to the application of quantitative and statistical methods in
environmental science, including environmental monitoring, assessment,
threshold exceedance, risk assessment, and environmental decision
making.
Requisites: Prerequisite, STOR 155.
Grading status: Letter grade
Same as: ENEC 562.

BIOL 563. Statistical Analysis in Ecology and Evolution. 4 Credits.
Application of modern statistical analysis and data modeling in
ecological and evolutionary research. Emphasis is on computer-intensive
methods and model-based approaches. Familiarity with standard
parametric statistics is assumed.
Requisites: Prerequisites, MATH 231 and STOR 151; Permission of the
instructor for students lacking the prerequisites.
Grading status: Letter grade
Same as: ENEC 563.

BIOL 565. Conservation Biology. 3 Credits.
The application of biological science to the conservation of populations,
communities, and ecosystems, including rare species management,
exotic species invasions, management of natural disturbance, research
strategies, and preserve design principles. Honors version available
Requisites: Prerequisite, BIOL 201; Permission of the instructor for
students lacking the prerequisite.
Grading status: Letter grade.

BIOL 565H. Conservation Biology. 3 Credits.
The application of biological science to the conservation of populations,
communities, and ecosystems, including rare species management,
exotic species invasions, management of natural disturbance, research
strategies, and preserve design principles.
Requisites: Prerequisite, BIOL 201; Permission of the instructor for
students lacking the prerequisite.
Grading status: Letter grade.

BIOL 567. Evolutionary Ecology. 3 Credits.
Advanced consideration of the evolution of form and function. May
include issues in life-history evolution, evolutionary physiology,
evolutionary morphology, and the evolution of complexity. Three lecture
hours per week.
Requisites: Prerequisite, BIOL 471; Permission of the instructor for
students lacking the prerequisite.
Grading status: Letter grade.
BIOL 568. Disease Ecology and Evolution. 3 Credits.
Recommended preparation, one course above 400 in ecology or evolution. An advanced class covering the causes and consequences of infectious disease at the levels of whole organisms, populations, communities, and ecosystems.
Requisites: Prerequisites, BIOL 201 and MATH 231; Permission of the instructor for students lacking the prerequisites.
Grading status: Letter grade.

BIOL 579. Organismal Structure and Diversity in the Southern Appalachian Mountains. 4 Credits.
Permission of the instructor. An examination of the field biology of selected fungi, plants, or animals of the Appalachian Mountains. The morphology, taxonomy, ecology, life history, and behavior of the organisms will be explored both in the laboratory and in the field.
Grading status: Letter grade.

BIOL 590. Advanced Special Topics in Biology. 3 Credits.
Special topics in biology for advanced undergraduate students and graduate students.
Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading status: Letter grade.

BIOL 590L. Laboratory in Advanced Special Topics in Biology. 1 Credit.
Laboratory at an advanced level in special topics in biology. Students should have had considerable previous laboratory experience.
Repeat rules: May be repeated for credit. 2 total credits. 2 total completions.
Grading status: Letter grade.

BIOL 602. Professional Development Skills for Ecologists and Biologists. 3 Credits.
The goal of this course is to help students who intend to become professional ecologists or biologists acquire critical skills and strategies needed for achieving their career goals.
Grading status: Letter grade
Same as: ENEC 602.

BIOL 604. Laboratory Practices for New Investigators. 1 Credit.
Required preparation, participation in an ongoing laboratory research project. Permission of the instructor. A seminar course designed to introduce students to approaches and methods needed in carrying out an independent research project in a particular focus area of biology. For advanced undergraduates and graduate students.
Repeat rules: May be repeated for credit. 2 total credits. 2 total completions.
Grading status: Letter grade.

BIOL 605. Reading and Writing Scientific Literature. 1 Credit.
A seminar course designed to introduce students to how to read and write scientific papers. For advanced undergraduates and graduate students.
Requisites: Prerequisite, BIOL 201 or 202.
Repeat rules: May be repeated for credit. 2 total credits. 2 total completions.
Grading status: Letter grade.

BIOL 620. Bacterial Genetics with Emphasis on Pathogenic and Symbiotic Interactions. 3 Credits.
Required preparation, a course in microbiology, a course in molecular biology numbered above 300, or research experience in microbiology or molecular biology. Molecular genetics of bacteria. The emphasis will be on pathogenic and symbiotic interactions of bacteria with eukaryotes, although other aspects of bacterial genetics will be considered.
Grading status: Letter grade.

BIOL 621. Principles of Genetic Analysis I. 3 Credits.
Prerequisite for undergraduates, BIOL 202. Permission of the instructor for undergraduates. Genetic principles of genetic analysis in prokaryotes and lower eukaryotes.
Grading status: Letter grade
Same as: GNET 621.

BIOL 622. Principles of Genetic Analysis II. 4 Credits.
Principles of genetic analysis in higher eukaryotes; genomics.
Requisites: Prerequisite, BIOL 621.
Grading status: Letter grade
Same as: GNET 622.

BIOL 624. Developmental Genetics. 3 Credits.
Permission of the instructor for undergraduates. Genetic and molecular control of plant and animal development. Extensive reading from primary literature.
Grading status: Letter grade
Same as: GNET 624.

BIOL 625. Seminar in Genetics. 2 Credits.
Permission of the instructor for undergraduates. Current and significant problems in genetics. May be repeated for credit.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 6 total completions.
Grading status: Letter grade
Same as: GNET 625.

BIOL 631. Advanced Molecular Biology I. 3 Credits.
Required preparation for undergraduates, at least one undergraduate course in both biochemistry and genetics. DNA structure, function, and interactions in prokaryotic and eukaryotic systems, including chromosome structure, replication, recombination, repair, and genome fluidity. Three lecture hours a week.
Grading status: Letter grade
Same as: GNET 631, BIOC 631, MCRO 631.

BIOL 632. Advanced Molecular Biology II. 3 Credits.
Required preparation for undergraduates, at least one undergraduate course in both biochemistry and genetics. The purpose of this course is to provide historical, basic, and current information about the flow and regulation of genetic information from DNA to RNA in a variety of biological systems. Three lecture hours a week.
Grading status: Letter grade
Same as: GNET 632, BIOC 632, MCRO 632.

BIOL 639. Seminar in Plant Molecular and Cell Biology. 1 Credit.
Permission of the instructor. May be repeated for credit. Current and significant problems in plant molecular and cell biology are discussed in a seminar format. Can count as BIOL elective credit in the major if combined with other 600-level courses for a total of three credit hours.
Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 12 total completions.
Grading status: Letter grade.

BIOL 642. Advanced Studies of Cell Division. 3 Credits.
An advanced course in cell and molecular biology integrating genetic, biochemical, and structural aspects of the cell cycle. Principles derived from a variety of biological systems. Extensive reading of classic papers as well as recent literature.
Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.
Grading status: Letter grade.
BIOL 643. Molecular Mechanisms of the Cytoskeleton. 3 Credits.
This seminar examines the cytoskeletal systems of eukaryotes and prokaryotes via primary literature. Architectures of cytoskeletal components are compared and contrasted along with their regulators, nucleators, and molecular motors.
**Requisites:** Prerequisites, BIOL 205 and CHEM 430; permission of the instructor for students lacking the prerequisites.
**Grading status:** Letter grade.

BIOL 648. Palynology. 5 Credits.
Permission of the instructor. A consideration of various aspects of palynology, including the morphology, structure, development, systematics, evolution, preparation techniques, and analysis of living and fossil pollen grains, spores, and other palynomorphs. Two lecture and six laboratory hours a week.
**Grading status:** Letter grade.

BIOL 649. Seminar in Cell Biology. 2 Credits.
May be repeated for credit. Can count as BIOL elective credit in the major if combined with other 600-level courses for a total of three credit hours.
**Requisites:** Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.
**Repeat rules:** May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 6 total completions.
**Grading status:** Letter grade.

BIOL 650. Animal Cognition. 3 Credits.
For advanced undergraduates and graduate students. The goal of the course is to gain an in-depth understanding of animal cognition in the context of evolution and neurobiology with an emphasis on recent research.
**Grading status:** Letter grade.

BIOL 657. Biological Oceanography. 4 Credits.
For graduate students; undergraduates need permission of the instructor. Marine ecosystem processes pertaining to the structure, function, and ecological interactions of biological communities; management of biological resources; taxonomy and natural history of pelagic and benthic marine organisms. Three lecture and one recitation hours per week. Two mandatory weekend fieldtrips.
**Gen Ed:** PL.
**Grading status:** Letter grade
**Same as:** MASC 504, ENVR 520.

BIOL 659. Seminar in Evolutionary Biology. 2 Credits.
Permission of the instructor. Advanced studies in evolutionary biology. Can count as BIOL elective credit in the major if combined with other 600-level courses for a total of three credit hours.
**Repeat rules:** May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 6 total completions.
**Grading status:** Letter grade.

BIOL 661. Plant Ecology. 4 Credits.
Consideration of terrestrial, vascular plant ecology including environmental physiology, population dynamics, and community structure. Laboratory stresses collection and interpretation of field data. Three lecture and three laboratory hours a week.
**Requisites:** Prerequisite, BIOL 201.
**Gen Ed:** EE- Field Work.
**Grading status:** Letter grade.

BIOL 662. Field Plant Geography. 2 Credits.
Intensive literature and field study of the plant geography and ecology of a selected region. Weekly seminar-style discussion followed by approximately nine days’ field experience. May be repeated for credit.
**Requisites:** Prerequisites, BIOL 661 or 561 and permission of the instructor.
**Grading status:** Letter grade.

BIOL 669. Seminar in Ecology. 1-3 Credits.
May be repeated for credit.
**Requisites:** Prerequisite, BIOL 201; permission of the instructor for students lacking the prerequisite.
**Repeat rules:** May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 12 total completions.
**Grading status:** Letter grade
**Same as:** ENEC 669.

BIOL 680. Advanced Seminar in Recent Biological Research and Methods. 1 Credit.
Permission of the instructor. The course will cover topics and experimental approaches of current interest. Students will learn intellectual and practical aspects of cutting-edge topics in biology. It will meet for one hour per week, in a lecture and discussion format.
**Repeat rules:** May be repeated for credit. 3 total credits. 3 total completions.
**Grading status:** Letter grade.

BIOL 690. Advanced Special Topics with an Emphasis on Recent Research. 3 Credits.
Permission of the instructor. Special topics in biology with an emphasis on recent research. For advanced undergraduates and graduate students.
**Repeat rules:** May be repeated for credit. 6 total credits. 2 total completions.
**Grading status:** Letter grade.

BIOL 692H. Senior Honors Thesis in Biology. 3 Credits.
Permission of a faculty research director and three credit hours of BIOL 395 in the same laboratory required. Must be taken in the final semester of senior year. Fall and spring only.
**Gen Ed:** CI, EE- Mentored Research.
**Grading status:** Letter grade.

Summer Montgomery, Assistant for Undergraduate Services
Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem. This program is designed for students who intend to continue graduate study in biological or health sciences.

**Department Programs**

**Majors**

- Biology Major, B.S. (p. 375)
- Biology Major, B.S.–Quantitative Biology Track (p. 379)
- Biology Major, B.A. (p. 383)

**Minor**

- Biology Minor (p. 386)

**Graduate Programs**

- M.A. in Biology (http://catalog.unc.edu/graduate/schools-departments/biology)
- M.S. in Biology (http://catalog.unc.edu/graduate/schools-departments/biology)
- Ph.D. in Biology (http://catalog.unc.edu/graduate/schools-departments/biology)

**Student Learning Outcomes**

Upon completion of the biology (B.A., B.S.) program, students should be able to:

- Knowledge Base: Demonstrate knowledge of major concepts, theoretical perspectives, empirical findings, and historical trends in the broad field of Biology
- Research Methods: Apply basic research methods in the biological sciences, including research design, data analysis, and data interpretation
- Critical Thinking Skills: Demonstrate the use of critical and creative thinking skills in upper-level biology courses and in their approach to undergraduate research
- Application of Knowledge, Research Methods, and Critical Thinking: Apply knowledge of the field of biology, research skills, and critical thinking skills to undertake a course-based, field, or laboratory research project

**Requirements**

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 176).

1. With a C grade or better in BIOL 101
2. Minimum C- in BIOL 202 required for enrollment
3. At least two courses out of the five courses (four electives and one organismal course) must be numbered above 400 (not including BIOL 501 and BIOL 692H).
4. A total of six hours from BIOL 295 (inactive fall 2017), BIOL 395, and/or BIOL 692H count as a laboratory course requirement. One additional elective may consist of a total of three hours of courses numbered above 600 (not including BIOL 692H).
5. A grade of C or better in CHEM 101 or CHEM 102 is required for BIOL 201 and BIOL 202.
Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.
