ACADEMIC CALENDAR

2020-2021

University Registrar calendars can be obtained on the University Registrar's Web site (<http://registrar.unc.edu>). For more information on Summer and Maymester Sessions, visit the Summer School's Web site (<http://summer.unc.edu>).

Summer Session I (SSI) and Maymester (MM) 2020

MM and SSI classes begin	Wednesday, May 13
MM last day for late registration	Wednesday, May 13
SSI last day for late registration	Thursday, May 14
Holiday (Memorial Day). No classes	Monday, May 25
MM classes end/exams	Thursday, May 28 Friday, May 29
SSI classes end	Monday, June 15
SSI reading day	Tuesday, June 16
SSI exam days	Wednesday, June 17 Thursday, June 18

Summer Session II (SSII) 2020

SSII classes begin	Monday, June 22
SSII last day for late registration	Tuesday, June 23
Holiday (Independence Day). No classes	Friday, July 3
SSII classes end	Thursday, July 23
SSII reading day	Friday, July 24
SSII exam days	Monday, July 27 Tuesday, July 28

Fall Semester 2020

New student convocation	Sunday, August 9
Classes begin	Monday, August 10
Last day for late registration	Sunday, August 16
Holiday (Labor Day). No classes	Monday, September 7
*Holiday (University Day) Classes cancelled during ceremony	Monday, October 12
Fall break. No classes	N/A
Classes end	Tuesday, November 17
Thanksgiving recess. No classes	Thursday, November 26
Reading days	Cancelled
Exam days	Wednesday, November 18 Thursday, November 19 Friday, November 20 Saturday, November 21 Monday, November 23 Tuesday, November 24
Fall Commencement	Sunday, December 13

Spring Semester 2021

Classes begin	Wednesday, January 6
Last day of late registration	Tuesday, January 12
Holiday (MLK Jr.). No classes	Monday, January 18
Spring break begins 5:00 p.m.	Friday, March 5

Classes resume 8:00 a.m.	Monday, March 15
Spring holiday. No classes	Friday, April 2
Classes end	Friday, April 23
Reading days	Wednesday, April 28 Saturday, May 1
Exam days	Monday, April 26 Tuesday, April 27 Thursday, April 29 Friday, April 30 Monday, May 3 Tuesday, May 4
Spring Commencement	Sunday, May 9

Summer Session I (SSI) and Maymester (MM) 2021

SSI and MM classes begin	Wednesday, May 12
MM last day for late registration	Wednesday, May 12
SSI last day for late registration	Thursday, May 13
MM classes end/exams	Thursday, May 27 Friday, May 28
Holiday (Memorial Day). No classes	Monday, May 31
SSI classes end	Monday, June 14
SSI reading day	Tuesday, June 15
SSI exam days	Wednesday, June 16 Thursday, June 17

Summer Session II (SSII) 2021

SSII classes begin	Monday, June 21
SSII last day for late registration	Tuesday, June 22
Holiday (Independence Day). No classes	Monday, July 5
SSII classes end	Thursday, July 22
SSII reading day	Friday, July 23
SSII exam days	Monday, July 26 Tuesday, July 27

ABOUT UNC

The University Catalog

Although the publisher of this catalog has made every reasonable effort to attain factual accuracy herein, no responsibility is assumed for editorial or clerical errors or errors occasioned by mistakes. The publisher has attempted to present information which, at the time of preparation for publication, most accurately describes the course offerings, faculty listings, policies, procedures, regulations, and requirements of the University. However, it does not establish contractual relationships. The University reserves the right to alter or change any statement contained herein without prior notice.

Published by the University of North Carolina at Chapel Hill, Chapel Hill, N.C.

Accreditation

The University of North Carolina at Chapel Hill is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate, master's, doctoral, and professional degrees and certificates. For more information about the accreditation status of UNC–Chapel Hill contact: Southern Association of Colleges and Schools Commission on Colleges, 1866 Southern Lane, Decatur, Georgia 30033-4097; telephone number (404) 679-4500; www.sacscoc.org (<http://www.sacscoc.org/>).

Mission Statement: The University of North Carolina at Chapel Hill

The University of North Carolina at Chapel Hill, the nation's first public university, serves North Carolina, the United States, and the world through teaching, research, and public service. We embrace an unwavering commitment to excellence as one of the world's great research universities.

Our mission is to serve as a center for research, scholarship, and creativity and to teach a diverse community of undergraduate, graduate, and professional students to become the next generation of leaders. Through the efforts of our exceptional faculty and staff, and with generous support from North Carolina's citizens, we invest our knowledge and resources to enhance access to learning and to foster the success and prosperity of each rising generation. We also extend knowledge-based services and other resources of the University to the citizens of North Carolina and their institutions to enhance the quality of life for all people in the State.

With *lux, libertas* — light and liberty — as its founding principles, the University has charted a bold course of leading change to improve society and to help solve the world's greatest problems.

Approved by the UNC Board of Governors, November 2009 and February 2014

UNC's Commitment to Diversity and Inclusivity

UNC–Chapel Hill has a long-held tradition of striving for excellence. Quality education takes place among persons with differing social backgrounds, economic circumstances, personal characteristics, philosophical outlooks, life experiences, perspectives, beliefs, and expectations. We at the University acknowledge that we face ongoing challenges to overcome the effects and influences of adverse historical, social, political, and economic factors. A critical element for any 21st

century educational institution is a diverse, equitable, and inclusive community that functions in a global context. The historical, political, economic, and educational backgrounds of the University, the state, and the nation shape our present circumstances and inform the measures we must take to accomplish our highest aspirations. The University engages in teaching, research, and service to expand and discover knowledge, promote educational enlightenment, and improve understanding. We work to assure that we have a complement of students, faculty, and staff that broadly reflects the ways in which people differ. We speak of these differences as representing “diversity.”

UNC's commitment to inclusive excellence began in the 1960s through the support of minority programming and continues today through the work of the University Office for Diversity and Inclusion (D&I) (<http://diversity.unc.edu>). The office is led by the special advisor to the provost and chancellor for equity and inclusion, who serves as the chief diversity officer and advises the University community on diversity policies and issues. The office collaborates with University officers and campus units to identify and implement strategies and initiatives for achieving the core values with respect to diversity and the goal of increased diversity among students, staff, and faculty. The ultimate goal of both D&I and the University is building an inclusive and equitable environment that values and respects the contributions of all members of the Carolina community.

The University's Policy on Prohibited Discrimination, Harassment, and Related Misconduct, Including Sexual and Gender-Based Harassment, Sexual Violence, Interpersonal Violence, and Stalking

The University is committed to providing an inclusive and welcoming environment for all members of our community. The University values safety, diversity, education, and equity and is firmly committed to maintaining a campus environment free from discrimination, harassment, and related misconduct. In accordance with its Policy Statement on Nondiscrimination, the University does not unlawfully discriminate in offering equal access to its educational programs and activities or with respect to employment terms and conditions on the basis of an individual's age, color, disability, gender, gender expression, gender identity, genetic information, race, national origin, religion, sex, sexual orientation, or veteran status (collectively referred to as “protected status”). The University's protection of these statuses is grounded in federal law. Federal law also governs the University's response to sexual assault, sexual violence, interpersonal violence (including domestic and dating violence), and stalking. Such acts violate the essential dignity of our community member(s) and are contrary to our institutional values.

For more information about the policy and procedures, visit the University's Policy on Prohibited Discrimination, Harassment and Related Misconduct (<https://unc.policystat.com/policy/4514917/latest/>), the University's Policy Statement on Nondiscrimination, (<https://unc.policystat.com/policy/4467906/latest/>) Nondiscrimination for Program Participants (<https://unc.policystat.com/policy/4469242/latest/>), Nondiscrimination for Student Organizations (<https://unc.policystat.com/policy/5429623/latest/>), or contact the Equal Opportunity and Compliance Office (<https://eoc.unc.edu/>).

Policy Statement on Nondiscrimination: Educational and Employment Decisions

The University is committed to providing an inclusive and welcoming environment and to ensuring that educational and employment decisions are based on individuals' abilities and qualifications. Consistent with these principles and applicable laws, it is therefore the University's policy not to discriminate on the basis of age, color, disability, gender, gender expression, gender identity, genetic information, national origin, race, religion, sex, sexual orientation, or veteran status as consistent with the University's Policy on Prohibited Discrimination, Harassment, and Related Misconduct. No person, on the basis of protected status, shall be excluded from participation in, be denied the benefits of, or be subjected to unlawful discrimination, harassment, or retaliation under any University program or activity, including with respect to employment terms and conditions. Such a policy ensures that only relevant factors are considered and that equitable and consistent standards of conduct and performance are applied.

Resources for Information and Assistance

Individuals are encouraged to report incidents of prohibited conduct to the Equal Opportunity and Compliance Office, the Title IX Compliance Coordinator, the Report and Response Coordinators, the Office of the Dean of Students, or the UNC Department of Public Safety. As an alternative, an individual can also seek confidential assistance that does not involve notice to the University. If the conduct you have experienced is sexual violence or other criminal activity, including interpersonal (relationship) violence or stalking, you are also encouraged to report the incident to local law enforcement. See below for a comprehensive list of support and reporting options or refer to the University's Policy on Prohibited Discrimination, Harassment, and Related Misconduct (<https://unc.policystat.com/policy/4514917/latest/>).

Confidential Resources

Carolina Ethics Line (<https://secure.ethicspoint.com/domain/media/en/gui/10808/>)

The University's Compliance Line, now called Carolina Ethics Line, is a secure method through which to submit an anonymous report regarding academic matters, athletics, financial improprieties, faculty and staff matters, health care, information technology, research, risk and safety, student affairs, or other matters either online or by telephone. All reports submitted through Carolina Ethics Line will be given careful attention by appropriate UNC–Chapel Hill offices and officials. Anyone filing a report via Carolina Ethics Line should retain the report key and password and return to the Web site within 10 working days to check for comments or followup questions.

Graduation Rate

Pursuant to the federal Student Right-to-Know Act, we report that, in 2018–2019, the six-year completion or graduation rate for undergraduates who entered the University of North Carolina at Chapel Hill in 2013 on a full-time basis was 90.9 percent.

ADMINISTRATIVE OFFICERS

Office of the Chancellor

Kevin M. Guskiewicz, *Chancellor*

Amy Hertel, *Chief of Staff*

Clayton Somers, *Vice Chancellor for Public Affairs and Secretary of the University*

Sibby Anderson-Thompkins, *Special Advisor to the Chancellor and Provost for Equity and Inclusion, Interim Chief Diversity Officer*

Joe Canady, *Senior Advisor to the Chancellor for University Initiatives*

Office of the Provost

Robert Blouin, *Executive Vice Chancellor and Provost*

Ronald P. Strauss, *Executive Vice Provost and Chief International Officer*

Rick Wernoski, *Senior Vice Provost, Business Operations*

Stephen M. Farmer, *Vice Provost, Enrollment and Undergraduate Admissions*

Joseph Jordan, *Interim Vice Provost, Academic and Community Engagement*

Todd Nicolet, *Vice Provost, Digital and Lifelong Learning*

Barbara Stephenson, *Vice Provost, Global Affairs and Chief Global Officer*

Elaine L. Westbrooks, *Vice Provost, Libraries and University Librarian*

Debbi Clarke, *Associate Provost, Strategy and Special Projects*

Raymond Farrow, *Associate Provost, Global Affairs*

Rachelle Feldman, *Associate Provost and Director, Scholarships and Student Aid*

Lauren DiGrazia, *Assistant Provost and University Registrar*

College of Arts and Sciences

Terry Ellen Rhodes, *Dean*

Elizabeth Engelhardt, *Senior Associate Dean, Fine Arts and Humanities*

Jaye Cable, *Senior Associate Dean, Natural Sciences*

Chris Clemens, *Senior Associate Dean, Research and Innovation*

Rudi Colloredo-Mansfeld, *Senior Associate Dean, Social Sciences and Global Programs*

Abigail T. Panter, *Senior Associate Dean, Undergraduate Education*

Robert J. Parker Jr., *Senior Associate Dean, Development and Executive Director, Arts and Sciences Foundation*

Office of Undergraduate Education

Troy Blackburn, *Associate Dean and Director, Office of Undergraduate Research*

Inger Brody, *Director, Office of Distinguished Scholarships*

Allen Chan, *Director, UNC–Duke Robertson Scholars Leadership Program*

Marcus Collins, *Associate Dean and Director, Center for Student Success and Academic Counseling*

Kelly Hogan, *Associate Dean and QEP Director, Office of Instructional Innovation*

Li-ling Hsiao, *Associate Dean, Office of First Year Curricula*

James L. Leloudis, *Associate Dean, Honors Carolina and Director, James M. Johnston Center for Undergraduate Excellence*

Lee May, *Associate Dean and Director, Academic Advising Program*

Abigail T. Panter, *Senior Associate Dean, Undergraduate Education*

James Thompson, *Associate Dean, Undergraduate Curricula*

School Deans

Douglas A. Shackelford, *Dean, Kenan–Flagler Business School*

Scott S. De Rossi, *Dean, School of Dentistry*

Fouad Abd-El-Khalick, *Dean, School of Education*

Michael R. Smith, *Dean, School of Government*

Suzanne Barbour, *Dean, The Graduate School*

Gary Marchionini, *Dean, School of Information and Library Science*

Susan Robinson King, *Dean, School of Journalism and Media*

Martin H. Brinkley, *Dean, School of Law*

Wesley Burks, *Dean, School of Medicine; Vice Chancellor, Medical Affairs; CEO, UNC Health Care System*

Nilda Peragallo Montano, *Dean, School of Nursing*

Angela Kashuba, *Dean, Eshelman School of Pharmacy*

Barbara K. Rimer, *Dean, Gillings School of Global Public Health*

Gary L. Bowen, *Dean, School of Social Work*

Sherry Salyer, *Interim Dean, Summer School*

Jessica Brinker, *Director, William and Ida Friday Center for Continuing Education*

Finance and Operations

Nathan Knuffman, *Interim Vice Chancellor, Finance and Operations*

Stephen Agostini, *Associate Vice Chancellor, Finance and Budget*

Derek Kemp, *Associate Vice Chancellor, Campus Safety and Risk Management*

Anna Wu, *Associate Vice Chancellor, Facilities Services*

Gordon Merklein, *Associate Vice Chancellor, Real Estate Development*

Human Resources

Becci Menghini, *Vice Chancellor, Human Resources and Equal Opportunity and Compliance*

Vicki Bradley, *Associate Vice Chancellor, Human Resources and Equal Opportunity and Compliance*

Linc Butler, *Associate Vice Chancellor, Human Resources*

Information Technology Services

J. Michael Barker, *Vice Chancellor, Information Technology and Chief Information Officer*

Mechelle Clayton, (<https://its.unc.edu/about-us/what-we-do/enterprise-applications/>) *Interim Assistant Vice Chancellor, Enterprise Applications*

Medical Affairs

Wesley Burks, *Dean, School of Medicine; Vice Chancellor, Medical Affairs; CEO, UNC Health Care System*

Research

Terry Magnuson, *Vice Chancellor, Research*

Craig Fletcher, *Associate Vice Chancellor, Research*

Don Hobart, *Associate Vice Chancellor, Research*

Andrew S. Johns, *Senior Associate Vice Chancellor, Research*

Joyce Tan, *Associate Vice Chancellor, Research*

Student Affairs

Amy Johnson, *Vice Chancellor, Student Affairs*

UNC-CHAPEL HILL: AN INTRODUCTION

The University of North Carolina at Chapel Hill is the most comprehensive institution in North Carolina, both in the range of its programs at all levels and in the breadth of its specialized research and public service programs. Its 14 schools and the College of Arts and Sciences provide instruction in more than 100 fields, offering 74 bachelor's, 104 master's, 65 doctoral, and 7 professional degrees, as well as 16 certificates, in academic areas critical to North Carolina's future: business, dentistry, education, information and library science, media and journalism, government, law, medicine, nursing, pharmacy, public health, and social work, among others.

Since 1795, when its doors first opened to students, the University has remained faithful to its founders' charge to duly encourage and promote all useful learning for the betterment of humanity.

The University was anticipated by a section of the first state constitution drawn up in 1776 directing the establishment of "one or more universities" in which "all useful learning shall be duly encouraged and promoted." State support, it directed, should be provided so that instruction might be available "at low prices." The American Revolution intervened, and it was not until 1789, the year that George Washington became president of the new nation, that the University was chartered by the General Assembly. Despite constitutional instructions to the contrary, no state appropriations were made, and the trustees were left to secure land and money themselves. On October 12, 1793, the cornerstone was laid for a brick building on a hilltop near the center of the state amidst the colorful fall foliage of dogwood, oak, and tulip trees.

The site, lying at the crossing of north-south and east-west roads, was marked only by a small Anglican chapel that soon shared part of its name — New Hope Chapel Hill — with the community that developed there. Legislator and trustee William R. Davie, who had been instrumental in securing passage of the charter, took the lead in organizing the University. Davie presided over the Masonic ritual of the laying of the cornerstone. In time he came to be called "the Father of the University." Many years later a large poplar or tulip tree, first mentioned in 1818 and still standing near the center of the old campus, was called Davie Poplar in his honor.

The first building and, indeed, the only building for two years, was a two-story brick structure that came to be called Old East. It is now a National Historic Landmark, the oldest state university building in America. Opened to students on January 15, 1795, the University of North Carolina received its first student, Hinton James of New Hanover County, on February 12. By March there were two professors and 41 students present.

The second state university did not begin classes until 1801, when a few students from nearby academies assembled under a large tree at Athens, Georgia, for instruction. By then four classes had already been graduated at Chapel Hill, and there were to be three more before the first diplomas were issued in Georgia. The next building on the Carolina campus was Person Hall, begun in 1796 and long used as the chapel. The cornerstone of Main or South Building was laid in 1798. All three are older than any other American state university building.

The Young University

During the early 19th century the trustees began a period of strong support in the development of the young University. Even though their

proclaimed initial goal for the University had been to provide trained leadership for the state, the curriculum followed the customary classical trend. In 1815, however, the natural sciences were given equal place, and in the 1820s Professors Denison Olmstead and Elisha Mitchell prepared the nation's first geological survey. In 1831 the first astronomical observatory at a state university was built under the direction of President Joseph Caldwell. Student enrollment increased steadily, and by 1860 only Harvard, Yale, and the University of Virginia had more students.

Young men from many states came to Chapel Hill for their education, particularly those from families who had recently left North Carolina to settle elsewhere in the South. The University of North Carolina provided governors not only for North Carolina but also for many other states; countless professions and occupations were represented among its graduates, including cabinet members, clergymen, diplomats, engineers, geologists, judges, legislators, surveyors, teachers, and a president and a vice president of the United States.

Though the Civil War closed many colleges and universities, the University at Chapel Hill remained open throughout the war, though its students were few. During Reconstruction, however, it was closed from 1870 until 1875. When it reopened, the University's leadership began to inaugurate programs that once again marked it as a leading university.

The General Assembly in 1931 consolidated the University with the Woman's College at Greensboro and North Carolina State College at Raleigh under a single board of trustees. As an economy measure during the Depression and as a means of eliminating duplication, the trustees allocated each unit specific roles in higher education for the state. The offices of the Consolidated University were established on the Chapel Hill campus and University President Frank Porter Graham became the Consolidated University's first president.

The period of the Depression in the 1930s saw a great deal of new construction on the campus as federal funds became available to create jobs for the unemployed. New dormitories, classroom buildings, a gymnasium, and other buildings and improvements were built in part from this source. World War II also resulted in some new construction and alterations on campus as the University's facilities were used to train military personnel.

Expansion continued throughout the 20th century, and today UNC—Chapel Hill ranks among the great institutions of higher education in the nation. Beginning with one building, 41 students, and two professors, the University has now grown to more than 300 buildings, 30,011 students annually, and 3,887 faculty members.

Top Rankings

The University has been recognized for the quality of its undergraduate and graduate programs in every national survey conducted in the last third of the 20th century and into the 21st. *U.S. News and World Report's* survey of American colleges and universities consistently ranks the University among the best colleges in the nation and among the top research universities.

These accolades reflect the quality of the curriculum and of the faculty, whose research orientation allows them to share with their students not only the thrill of discovery but also the latest advancements and new knowledge. Another asset that contributes to this reputation is UNC—Chapel Hill's superb library system containing more than nine million print and electronic volumes. It is ranked among the top research libraries in the United States and Canada by the Association of Research Libraries.

Commitment to Diversity

The University of North Carolina at Chapel Hill strives for excellence both in academic engagement and co-curricular support. Sustaining a diverse and inclusive community is critical to achieving educational excellence.

Framework for Understanding Diversity, Equity, and Inclusion at UNC–Chapel Hill

The work of the University in the 21st century functions in a global context. The historical, political, economic, and educational backgrounds of the University, the state, and the nation shape our present circumstances and inform the measures we must take to accomplish our highest aspirations. We acknowledge that we face an ongoing challenge to overcome the effects and influences of adverse historical, social, political, and economic factors. The University engages in teaching, research, and service to expand and discover knowledge, promote educational enlightenment, and improve understanding with the ultimate end of uplifting humankind. Education takes place most productively among persons with differing social backgrounds, economic circumstances, personal characteristics, philosophical outlooks, life experiences, perspectives, beliefs, and expectations. The University works to assure that we have a complement of students, faculty, and staff that broadly reflects the ways in which people differ. We believe that “diversity matters” within and beyond the campus community.

UNC–Chapel Hill’s commitment to inclusive excellence began in the 1960s through the support of minority programming and continues today through the establishment of the University Office for Diversity and Inclusion (D&I).

The University Office for Diversity and Inclusion (<https://diversity.unc.edu/>) serves as a resource to the entire Carolina campus and partners with all student, faculty, staff, and organizational entities. D&I collaborates with University officers and campus units to identify and implement strategies and initiatives for achieving the goals of increased diversity, with the goal of building an inclusive and equitable environment that values and respects the contributions of students, faculty, and staff. D&I provides diversity education, opportunities, and development for faculty, staff, students, and community members; develops, implements, and supports recruitment and leadership programs that facilitate access and retention and promote inclusive excellence across institutional segments (e.g., student enrollment, faculty hiring, staff development); conducts diversity research, assessment, and reporting to generate and inform the campus and beyond on diversity-related issues; and provides consultation and project management to promote and enhance diversity and community engagement.

Partnerships and collaborations with vice chancellors, deans, and other unit heads are leveraged to accomplish the University’s goals for establishing diversity within the faculty, staff, and student cohorts and for fulfilling the public university mission of service, outreach, and engagement. Additional information can be found at diversity.unc.edu (<http://diversity.unc.edu>).

THE UNC SYSTEM

History of the University

In North Carolina all the public educational institutions that grant baccalaureate degrees are part of the University of North Carolina. The University of North Carolina at Chapel Hill is one of the constituent institutions of the multicampus state university.

The University of North Carolina, chartered by the North Carolina General Assembly in 1789, was the first public university in the United States to open its doors and the only one to graduate students in the 18th century. The first class was admitted in Chapel Hill in 1795. For the next 136 years the only campus of the University of North Carolina was at Chapel Hill.

In 1877 the North Carolina General Assembly began sponsoring additional institutions of higher education, diverse in origin and purpose. Five were historically black institutions, and another was founded to educate Native Americans. Several were created to prepare teachers for the public schools. Others had a technological emphasis. One is a training school for performing artists.

In 1931 the North Carolina General Assembly redefined the University of North Carolina to include three state-supported institutions: the campus at Chapel Hill (now the University of North Carolina at Chapel Hill), North Carolina State College of Agriculture and Engineering at Raleigh (now North Carolina State University), and the North Carolina College for Women (Woman's College) at Greensboro (now the University of North Carolina at Greensboro). The new multicampus University operated with one board of trustees and one president. By 1969 three additional campuses had joined the University through legislative action: the University of North Carolina at Charlotte, the University of North Carolina at Asheville, and the University of North Carolina at Wilmington.

In 1971 the General Assembly passed legislation bringing into the University of North Carolina the state's 10 remaining public senior institutions, each of which had until then been legally separate: Appalachian State University, East Carolina University, Elizabeth City State University, Fayetteville State University, North Carolina Agricultural and Technical State University, North Carolina Central University, North Carolina School of the Arts, Pembroke State University, Western Carolina University, and Winston-Salem State University. This action created a 16-campus University. In 1985 the North Carolina School of Science and Mathematics, a residential high school for gifted students, was declared an affiliated school of the University, and it became the 17th constituent institution.

The UNC Board of Governors is the policy-making body legally charged with "the general determination, control, supervision, management, and governance of all affairs of the constituent institutions." It elects the president, who administers the University. The 32 voting members of the board are elected by the North Carolina General Assembly for four-year terms. Former board chairs and board members who are former governors of North Carolina may continue to serve for limited periods as nonvoting members emeriti. The president of the UNC Association of Student Governments, or that student's designee, is also a nonvoting member. The UNC System Office (<http://www.northcarolina.edu/>) is in Chapel Hill, NC.

Each of the 17 institutions is headed by a chancellor, who is chosen by the Board of Governors on the president's nomination and is responsible to the president. Each institution has a board of trustees, consisting of eight members elected by the Board of Governors, four appointed by the

governor, and the president of the student body, who serves ex officio. (The North Carolina School of the Arts has two additional ex officio members.) Each board of trustees holds extensive powers over academic and other operations of its institution on delegation from the Board of Governors.

ADMISSIONS

The University Catalog contains information about admission requirements, placement tests, transfer of credit, readmission, online/self-paced/part-time studies, and summer orientation sessions.

Undergraduate students. The Office of Undergraduate Admissions (<http://admissions.unc.edu/>) serves students interested in continuing their education at the University of North Carolina at Chapel Hill. Applications from all students are accepted and considered with care and respect.

Admission to the University of North Carolina at Chapel Hill is competitive. Although all 16 public universities in North Carolina share the same minimum course and admission requirements, which are published on the University of North Carolina's Web site (<http://www.northcarolina.edu>), these minimum credentials do not guarantee admission to UNC–Chapel Hill, and successful candidates typically exceed them.

Graduate students. Admission to Graduate School academic programs (<http://gradschool.unc.edu/admissions/>) is competitive and students are selected on the basis of their academic preparation, ability, and program fit. For some programs, an on-site preadmissions interview may be required. Early contact with your program of interest can be helpful in preparing your application.

UNDERGRADUATE ADMISSIONS

Admission Requirements

In evaluating candidates for admission, the University seeks an entering class whose collective strengths will foster excellence within the University community; enhance the education of everyone within it; provide for the leadership of the educational, governmental, scientific, business, humanistic, artistic, and professional institution of the state, nation, and world; and enrich the lives of all the people of North Carolina.

The University evaluates individual candidates rigorously, holistically, and sympathetically. The members of the admissions committee seek to assess the ways in which each candidate will likely contribute to the campus community and enable the University to fulfill its mission. The qualities we seek include intellect, talent, curiosity, and creativity; leadership, kindness, and courage; honesty, perseverance, perspective, and diversity. Although we expect each successful candidate to demonstrate strength in many of these areas, we do not expect every candidate to be equally strong in all of them. Just as there is no formula for admission, there is no list of qualities or characteristics that every applicant must present.

In evaluating each candidate's academic record, the admissions committee considers not only the student's grades but also the courses attempted. Although each candidate's academic record and standardized test scores are important elements in the admissions decision, the candidate's essays, accomplishments outside the classroom, and personal qualities are also carefully considered.

By their anticipated date of enrollment, candidates for admission must have graduated from secondary school. In addition, the University asks that candidates present evidence of the capacity to cope with the demands of University life.

Items Necessary for a Complete Application

First-Year Admission

Students who are graduating from a Cooperative Innovative High School in North Carolina who are simultaneously earning a high school diploma and an associate degree may apply for either first-year or transfer admission. Students may apply for first-year admission by following the instructions available at the Office of Undergraduate Admissions (<http://admissions.unc.edu>). In addition to the completed application, which includes the nonrefundable application fee (or fee-waiver request) and required essays, students are expected to submit the following materials:

- Official transcript(s) from all secondary schools and all colleges or universities attended, including summer sessions and including any online or distance-education classes, regardless if college credit was earned or will transfer
- Official results from the SAT or the ACT examination
- Counselor statement and one teacher recommendation (if the candidate is in his or her first year at a new school, a recommendation from the previous school is suggested)
- Any additional items or information requested in the application or by the Office of Undergraduate Admissions.

Applicants who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS), (<https://ncresidency.cfnc.org/residencyInfo/>) and to provide a Residency Classification Number (RCN). (<https://ncresidency.cfnc.org/residencyInfo/>)

The Office of Undergraduate Admissions, in its discretion, may deny admission to students who submit completed applications but who do not provide one or more of the materials listed above.

In addition to these materials, applicants may submit information that will enhance the University's understanding of their background and preparation for college.

Transfer Admission

Students are considered transfer applicants if they have attended one or more post-secondary institutions after graduating from high school. Students may apply for transfer admission by following the instructions available at the Office of Undergraduate Admissions (<http://admissions.unc.edu/>).

In addition to the completed application, which includes the nonrefundable application fee (or fee-waiver request) and required essays, students are expected to submit the following materials:

- Official transcript from all colleges attended, including summer sessions and including any online or distance-education classes, regardless if college credit was earned or will transfer
- Official secondary school transcript(s)
- Official results from the SAT or the ACT examination (required only for applicants who would have first-year or sophomore standing upon UNC enrollment)
- Any additional items or information requested in the application or by the Office of Undergraduate Admissions
- Recommendation letter (academic, personal, or professional)
- Community standards form or criminal background check (for all enrolling transfer students and for other candidates as requested by the Office of Undergraduate Admissions).

Applicants who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS) (<https://ncresidency.cfnc.org/residencyInfo/>), and to provide a Residency Classification Number (RCN). (<https://ncresidency.cfnc.org/residencyInfo/>)

The Office of Undergraduate Admissions, in its discretion, may deny admission to students who submit completed applications but who do not provide one or more of the additional materials listed above.

Standardized Testing

In accordance with University policy, as well as procedures approved by the Advisory Committee on Undergraduate Admissions, members of the admissions committee evaluate each candidate rigorously, holistically, and sympathetically, with an eye towards assessing the candidate's capacity to contribute to the kind of campus community that will enable the University to fulfill its mission. Although each evaluation includes the results of standardized testing, these results do not constitute the sole or main criterion for admission. There are no cutoff or threshold scores — that is, no scores below which candidates are automatically denied admission, and no scores above which they are automatically offered admission. Instead, results from standardized testing represent one factor among many. For more about the role of

tests in admissions, please see the Office of Undergraduate Admissions (<http://admissions.unc.edu>).

Fall/Winter Grades for Transfer Applicants

The fall (and if applicable winter) grades should be submitted to the Office of Undergraduate Admissions as soon as they become available. An application will be considered incomplete without them.

High School Course Requirements

Students interested in attending the University should pursue a challenging high school curriculum. Such a curriculum will typically include at least five academic courses during each year of high school — preferably one each in the core disciplines of English, mathematics, social science, natural science, and foreign language. We also encourage our candidates to take at least five of the most rigorous courses available to them, including college-level courses offered through programs such as Advanced Placement, International Baccalaureate, or dual-enrollment programs. In evaluating academic performance in such a curriculum, we pay less attention to class rank and grade point average than we do to grades and to trends and patterns in grades.

Applicants for first-year admission are expected to meet the minimum high school (including the ninth grade) course requirements of the University of North Carolina system, which are listed in the *UNC Policy Manual* (Chapter 700.1.1.1[R]). The Policy Manual also specifies the circumstances under which students may qualify for exemptions to these minimum requirements.

Candidates who do not fulfill these minimums may still apply for admission and be considered for a possible exception, although such exceptions are made rarely. Because admission to the University is competitive, candidates should normally enroll in courses beyond these minimum requirements.

Since admitted students will take placement exams in foreign language, candidates should consider continuing in advanced foreign language courses during their final year in high school even if they have already met the minimum requirements.

Placement in courses during students' first semester at the University will be based on their performance on placement tests. Students may also receive credit for University courses based on dual-enrollment courses taken during high school. Although the student will take placement exams in some subjects at the University before the first semester begins, it is to the student's advantage to take placement tests in high school, especially those accepted by the University for placement purposes. For mathematics placement, the Department of Mathematics strongly recommends that enrolling students arrange to take the Mathematics SAT Subject Level 1 or 2 test, ACT, AP, or IB exams; although these tests are not required for admission, many majors at Carolina require a quantitative reasoning course for which a mathematics placement score is necessary. Foreign language placement may be based on University placement exams, SAT Subject Tests, or College Board Advanced Placement tests. For English placement, students are required to take either English 105 at the University, or present an equivalent transferable course from another college or university. Students also are encouraged to take standardized tests that are recognized for placement in other subject areas.

Dual Enrollment for High School Students

All courses attempted at UNC–Chapel Hill, including but not limited to summer session courses and dual-enrollment courses attempted while

a student is still in secondary school, will be included in the UNC grade point average.

Cooperative Innovative High School (Early College) Graduates

Students who graduate from a Cooperative Innovative High School (also known as "Early College") in North Carolina with an associate degree may apply either as first-year or as transfer candidates. For more information, please see the Office of Undergraduate Admissions. (<http://admissions.unc.edu/>)

Home-Schooled Students

The University welcomes applications from students schooled at home and imposes on those students no special or additional requirements for admission. Since the credentials of home-schooled students may lack some or most of the contextualizing information typically found in the credentials of students schooled in more traditional settings, many home-schooled students take steps to contextualize and clarify their achievement and potential.

In recent years these steps have included taking courses in local colleges or community colleges; joining community organizations; providing samples of academic projects (for example, essays or research papers) and detailed descriptions of courses; sending recommendations from non-family members who know candidates well and can comment specifically on their capacity for advanced academic work; and taking and submitting optional SAT Subject Tests.

College Board Placement Tests

The University recognizes, for placement and degree credit, satisfactory scores on the College Board Advanced Placement, International Baccalaureate, and certain SAT Subject Tests. For more information, please visit the Office of Undergraduate Admissions (<http://admissions.unc.edu>).

Information about College Board tests and applications for specific tests may be obtained by visiting the College Board (<http://collegeboard.org>); by writing the Educational Testing Service (Rosedale Road, Princeton, NJ 08541) or by contacting a high school counselor. Applicants should apply to take a test six to eight weeks in advance of the actual test date.

Transfer Candidates

The university system-wide requirements for transfer applicants are listed in the UNC Policy Manual (Chapter 700.1.1.1[R] (<http://www.northcarolina.edu/apps/policy/?pg=dl&id=448&format=pdf&inline=1>)). Candidates who do not fulfill these requirements or qualify for exemption under the terms outlined in the *Policy Manual* may still apply for admission and be considered for a possible exception, although such exceptions are made rarely.

To be considered for transfer admission, students must present at least a C average (2.0 on a 4.0 scale) in all courses attempted at other accredited colleges and universities. However, a much higher average is required to be competitive.

Students also must be eligible to return to all institutions previously attended. Students who have less than a C average and who are, therefore, academically ineligible for consideration as transfer students may complete courses at another university in order to raise their grade point average to the point where they may be considered for transfer admission to the University. Courses attempted through any academic program at UNC–Chapel Hill cannot be used to increase a student's grade point average for the purpose of establishing transfer eligibility.

Once an applicant is admitted as a transfer student, all course credits taken at UNC–Chapel Hill become part of the student's official transcript, and grades received are included in the grade point average.

A transfer student's class standing upon admission is based on the number of credit hours accepted for transfer by UNC–Chapel Hill, not on the number of semesters enrolled at other colleges. For each 15 hours transferred upon enrollment, the student is considered to have completed the equivalent of one UNC–Chapel Hill semester. Summer enrollment at UNC–Chapel Hill immediately before the first-semester of full-time, degree-seeking enrollment will not count towards the calculation of class standing or semesters completed; nor will Advanced Placement, International Baccalaureate, or other by-examination credit earned.

Although all students at UNC–Chapel Hill are expected to graduate within eight total semesters of postsecondary enrollment, transfer students who enter with 30 or more transferable hours will be granted permission to enter a ninth semester after meeting with an advisor.

Specifically:

- A new transfer student with fewer than 15.0 transferable credit hours will be regarded as having completed no semesters and will have first-year standing upon enrollment at UNC–Chapel Hill.
- A new transfer student having between 15.0 and 29.9 transferable credit hours will be regarded as having completed one semester and will have first-year standing upon enrollment at UNC–Chapel Hill.
- A new transfer student having between 30.0 and 44.9 transferable credit hours will be regarded as having completed two semesters and will have sophomore standing upon enrollment at UNC–Chapel Hill.
- A new transfer student having between 45.0 and 59.9 transferable credit hours will be regarded as having completed three semesters and will have sophomore standing upon enrollment at UNC–Chapel Hill.
- A new transfer student having between 60.0 and 75.0 transferable credit hours will be regarded as having completed four semesters and will have junior standing upon enrollment at UNC–Chapel Hill.

Offers of admission typically are extended before an applicant's transfer credit can be fully evaluated. As a result, while transfer students are advised of their likely classification at the point of admission, this classification is provisional until confirmed by notification of transfer credits earned.

Transfer of Credit

The University will award credit for a course from another college or university when the student has earned a grade of C or its equivalent and when a similar course is offered by the University. Courses whose grades are reported on a scale other than A-F, such as pass/fail, will earn credit only if the transferring institution verifies that the passing grade represents achievement at the level of C or higher. Courses with final grades of C- or below (or the equivalent, if reported on a scale other than A-F) will not earn credit and will not satisfy University requirements. Courses completed in units other than semester hours will be converted to semester hours.

Students may receive no more than 75 total semester hours of credit for courses transferred from other colleges or universities. Credits earned by exam through Advanced Placement, International Baccalaureate, and similar programs are not included in this limit. When a student

has completed more than 75 transferable semester hours, credit will be awarded in this order:

- For courses that equate directly with specific courses in the UNC–Chapel Hill curriculum;
- For courses that do not equate directly with specific courses but are comparable to elective courses offered by UNC–Chapel Hill departments.

Courses that equate directly with specific courses in the UNC–Chapel Hill curriculum will fulfill the same course requirements as their equivalents at UNC–Chapel Hill, unless specifically identified otherwise at the time of the initial awarding of credit. Other transferable courses may not fulfill course requirements but may count towards the total semester hours required for graduation.

The Office of Undergraduate Admissions reviews and awards transfer credit to enrolling students based on their official transcripts. The admissions office typically cannot award credit for professional courses or courses taken from non-accredited colleges and universities. The admissions office may be able to award credit to enrolling students for courses from colleges and universities outside the United States, provided the college or university is recognized by the appropriate higher-education authority or government agency, and provided students submit their official transcripts and evaluations of those transcripts from World Education Services (WES®).

The Office of Undergraduate Admissions cannot award credit to currently enrolled UNC–Chapel Hill students for courses taken while participating in an exchange or study-abroad program. Credit for such courses must be approved before the program begins by the UNC Study Abroad Office or the UNC school sponsoring the program, and credit will be awarded after the program ends and official transcripts have been received. The admissions office may be able to award transfer credit to students for study-abroad courses they completed before enrolling at UNC–Chapel Hill, provided they completed the courses while attending colleges and universities in the United States, and provided the courses are reported on the official transcripts of their U.S. institutions.

An enrolling or enrolled student may request a review of transfer credit awarded or denied by the Office of Undergraduate Admissions by submitting course descriptions and syllabi through the ConnectCarolina Student Center no later than the last day of classes during the student's second semester in residence at the University. In those rare instances when a later change in transfer credit will enable a student to graduate on time, the student must appeal to the Office of Undergraduate Admissions. In the absence of such a request by a student, the University will not review or change transfer credit that has been awarded by the admissions office after the first day of the student's first semester in residence, except to correct clerical or other errors that may negatively affect the student.

The University honors the official Comprehensive Articulation Agreement (CAA) with the North Carolina Community College System. Students who transfer to UNC–Chapel Hill from a North Carolina community college lacking six or fewer credit hours required for an associate degree included in the CAA may transfer credit earned at UNC to fulfill their degree requirements, and they may subsequently use the associate degree to fulfill all of the University's lower-division general education requirements, with the exception of foreign language or lifetime fitness, provided they complete the following steps within the specified time frame. In order to apply this credit, students should:

- Consult with an academic advisor at their North Carolina community college before the first semester of full-time enrollment at UNC–Chapel Hill, whether fall or spring, to identify UNC–Chapel Hill courses that will satisfy the remaining requirements for the associate;
- Meet with their UNC–Chapel Hill academic advisor no later than the first day of classes for the first semester of full-time enrollment at UNC–Chapel Hill, whether fall or spring, to discuss their intent to fulfill the University's general education requirements through reverse transfer;
- Complete the six or fewer required hours for the associate degree within the first semester of full-time enrollment at UNC–Chapel Hill, whether fall or spring; and
- Provide proof from the community college of the associate degree before the beginning of the third semester of full-time enrollment at UNC–Chapel Hill, whether fall or spring.

The University will consult two publications when settling questions concerning the transfer of credit: Transfer Credit Practices, published by the American Association of Collegiate Registrars and Admissions Officers, and Accredited Institutions of Post-Secondary Education, published by the American Council on Education.

Military-Affiliated Students

We welcome applications from veterans of the United States military, active-duty servicemen and women, and their dependents. All persons who have completed a minimum of three years of active duty service will be considered transfer students with the branch of service functioning as the institution of transfer. Veterans and those who remain on active duty may earn as many as 12 hours of University credit for their military education and training, depending upon their experience. Those on active duty will be eligible to have the application fee waived and may qualify for the military tuition benefit, which allows them to attend the University at the in-state tuition rate. Students who are eligible for GI Bill or other veteran education benefits must apply directly to the U.S. Department of Veterans Affairs for these funds.

For more information, please visit the Office of Undergraduate Admissions (<https://admissions.unc.edu/>).

Application and Notification Deadlines

First-year applicants may apply for admission for their choice of one of two deadlines, neither of which is binding. The Office of Undergraduate Admissions does its best to evaluate applications similarly across the two deadlines but cannot guarantee complete consistency between the two, since earlier decisions are made before the size and strength of the entire applicant pool is known.

Decisions will be posted securely online for all applicants. For the latest first-year admission deadlines and notification dates, please visit the Office of Undergraduate Admissions (<http://admissions.unc.edu>).

The application deadline and notification dates for sophomore and junior admission to the College of Arts and Sciences and the School of Media and Journalism are available at the Office of Undergraduate Admissions (<http://admissions.unc.edu>). The admission deadlines and notification dates for junior transfer applicants to the professional schools with programs in dental hygiene, clinical laboratory science, education, health policy and management, information and library science, nursing, radiologic science, and biostatistics vary by department. Please contact the specific department for additional information.

Appeals of Admissions Decisions

For information on appealing an admissions decision, refer to the Admissions Appeal Procedure in the Admissions Policy (p. 24) section of this catalog.

Programs with Limited Admissions

Only a small number of transfer students will be admitted to the professional schools offering majors in allied health and public health, information and library science, and media and journalism programs. Junior transfer students planning to major in business administration, certain education programs, environmental health science, and nutrition must enroll in the College of Arts and Sciences and complete at least one semester before applying for admission to the professional schools offering these degree programs. Students interested in one of these fields may wish to consider another major as a second choice; however, even if admitted to an alternate program, students cannot be guaranteed subsequent admission to their first choice of major. In addition, notification of acceptance to these programs is generally later than for other programs.

Health Program Majors

Early applications for these programs are encouraged. After completion of the fall semester, a transcript of that semester's work should be submitted. Applicants should also contact the specific department for additional application materials and specific program requirements.

Junior transfer applicants for the pharmacy program must apply directly to the School of Pharmacy. Junior transfer applicants also must provide Pharmacy College Admission Test scores as part of the application. Sophomore students must apply directly to the Office of Undergraduate Admissions.

Music or Dramatic Art Majors

First-year and transfer students applying as music majors should contact the director of undergraduate studies in music at 101 Hill Hall to arrange an audition. Please indicate whether you wish to study voice or an instrument; if an instrument, please indicate which one. Students applying to major in the dramatic arts should contact the director of undergraduate studies in dramatic art at 222 Center for Dramatic Art.

Confirmation of Acceptance

The University requires a nonrefundable enrollment deposit, due by May 1 for first-year admission or mid-May for transfer admission or within two weeks of receipt of the admission decision for students admitted after the deadline, whichever is later.

Degree-seeking students who wish to start their studies during the summer must notify the Office of Undergraduate Admissions of their plans and pay their fall term deposits to reserve a space for the fall term.

Admission of International Students

International students are considered for admission on the same basis as other candidates and must provide the same information required of all other applicants. All non-US citizens and non-permanent resident students for whom English is not their first language must submit test scores to demonstrate their English proficiency. We will accept the TOEFL, IELTS, or PTE. Our TOEFL code is C182.

- TOEFL – Strong applicants typically score 100 or higher.
- IELTS – Strong applicants typically score 7.0 or higher.
- PTE – Strong applicants typically score 68.

We do not waive this proficiency requirement based on grades in English courses or SAT/ACT scores. However, we may waive this requirement if you meet one of the following conditions by the time you would enroll at Carolina:

- You will have lived for at least four years in a country where English is the primary language.

OR

- You will have attended a school for at least four years where English is the primary language of instruction.

To request this waiver, e-mail unchelp@admissions.unc.edu with a description of your circumstances. Waivers are granted on a case-by-case basis.

As a condition of enrollment, all entering students who have completed coursework from a foreign college or university that is not accredited within the United States must have their official transcripts evaluated by World Education Services (WES®).

United States immigration law requires proof of financial support for the student's entire program of study. Before enrollment, admitted students must provide documentation that they have sufficient funds in a bank to cover the first year of tuition and living expenses. See the section "Finances and Financial Aid" in this catalog for information on expenses. The University will issue the necessary visa documentation to those students who are formally admitted to the University. International students should not leave their native country intending to enroll at the University until they have received a formal letter of acceptance and appropriate visa documents.

Questions concerning international student life on the UNC–Chapel Hill campus should be referred to the Foreign Student Advisor, CB# 5240, Room 2004 FedEx Global Education Center, 301 Pittsboro Street, The University of North Carolina at Chapel Hill, Chapel Hill, NC 27599-5240.

Return to Carolina

After their first enrollment at UNC–Chapel Hill, students who withdraw, fail to complete, or do not enroll in one or more fall or spring semesters must submit the Return to Carolina survey to the Office of Undergraduate Admissions when they are ready to return to the University. The Return to Carolina survey should be submitted as soon as possible and no later than the stated deadline on the Office of Undergraduate Admissions Web site. Students who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS) (<https://ncresidency.cfnc.org/residencyInfo/>).

Returning students who have holds on their records — such as academic eligibility, medical, student conduct, or financial — will need to complete additional steps before they can be reenrolled and register for courses. For additional information, refer to the Office of Undergraduate Admissions.

International students who will require either an F1 or J1 visa should submit the Return to Carolina survey at least one month before the

deadline for the term in which the student wishes to return in order to allow adequate time to process the student's visa.

Nontraditional Readmission

The University's policy requires returning students to be academically eligible. However, the University recognizes that individuals can gain personal and intellectual maturity over time. In such cases, the University may choose to evaluate students on the basis of their current academic promise rather than their earlier academic performance. Under this policy, the University will review students who have not been enrolled full time in a formal educational program for at least five years and who, by their life experiences, might be considered nontraditional students. Reenrollment in the College of Arts and Sciences under this policy requires the approval of the associate dean for advising or the appeals committee of the college. Reenrollment in a professional school under this policy requires the approval of the professional school to which the student is seeking readmission.

Advising and degree-granting bodies within the University will monitor the performances of all individuals reenrolled under this policy. This monitoring will provide up-to-date guidance and counseling and ensure that each student fulfills the requirements for continued enrollment as specified in the letter from the student's dean's office. Students who fail to meet these requirements and who lose their academic eligibility must then restore their eligibility before they will be permitted to continue their enrollment at the University. A nontraditional return to the University is granted only once.

Admission as a Summer School Visitor

Any student who has not been regularly enrolled or has not been admitted for a fall semester in any school in the University can obtain an application for admission as a visiting summer student on our Web site (<http://summer.unc.edu>). Applicants (undergraduates and high school students) who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS). (<https://ncresidency.cfnc.org/residencyInfo/>)

Students who are in residence at the University will register for a summer session through Connect Carolina in spring.

Admissions Confidentiality

The University of North Carolina at Chapel Hill will protect the privacy of all students seeking admission through the Office of Undergraduate Admissions by soliciting and receiving all academic and nonacademic records obtained for the purpose of admission on the condition that they be held in confidence by the University. No information obtained through the admissions process will be shared with individuals, internal or external to the University, other than the chancellor, the provost, and members of the Advisory Committee on Undergraduate Admissions and its subcommittees.

Though current federal legislation allows students enrolling at the University access to their files, candidates do not have access to their applications.

Exceptions to this confidentiality policy will be made only at the direction of the chancellor or the provost.

Intra-University Transfer

Transfer from one school or college within the University is possible with the approval of both academic deans concerned.

Other Credit Programs

Carolina Courses Online

Carolina Courses Online is a distance education program that offers UNC–Chapel Hill courses online. Courses follow the semester schedule. The courses are administered through the William and Ida Friday Center for Continuing Education (<http://fridaycenter.unc.edu/>).

Undergraduate students in the College of Arts and Sciences are limited to 24 credit hours toward a degree at UNC–Chapel Hill through Carolina Courses Online, Summer School, UNC Online, and other for-credit UNC–Chapel Hill courses offered completely via similar modalities.

Self-Paced Courses

Self-paced courses are UNC–Chapel Hill general education courses offered at a distance. Courses are not tied to a semester schedule. Students can enroll at any time and work at their own pace.

Undergraduate students in the College of Arts and Sciences are not allowed to take self-paced courses and have them count towards their degree. Self-paced courses are for non-degree students only. Self-paced courses are administered through the William and Ida Friday Center for Continuing Education.

Admissions as a Part-Time, Non-Degree Student

The William and Ida Friday Center for Continuing Education provides advising and student services to non-degree students, including local high school students. Part-time students may register for a maximum of eight credit hours per semester. Courses are open to non-degree students as space permits.

Students are required to submit a Part-Time Classroom Studies application and a nonrefundable application fee through the Office of Undergraduate Admissions.

Admission as a non-degree student is limited and does not constitute admission to a degree program at the University. Part-time non-degree students wishing to pursue a degree must submit a degree-seeking application to the Office of Undergraduate Admissions.

Admissions as a Part-Time, Degree-Seeking Student

UNC–Chapel Hill admits a limited number of part-time, degree-seeking undergraduates. Part-time students may register for a maximum of eight credit hours per semester.

To be eligible, students must have been away from a traditional school setting for at least 12 months and must have graduated from a secondary school. Admission is available to UNC–Chapel Hill faculty and staff employees. Traditional students who have been denied full-time admission to the University are not immediately eligible for enrollment through Part-Time Classroom Studies.

Students who want to enroll as a part-time degree-seeking undergraduate are required to submit a Part-Time Classroom Studies application.

All students admitted as prospective degree candidates must meet minimum University requirements for admission. In considering prospective degree candidates for admission, the Office of Undergraduate Admissions shall use the same admissions criteria that it uses to evaluate comparable full-time, degree-seeking students applying to the University. For information about those criteria, please see the sections on first-year and transfer admission above.

Admission to Part-Time Classroom Studies as a degree-seeking student does not constitute admission to a full-time degree program at the University. Part-time degree-seeking students who want to enroll in a full-time degree-seeking program must present evidence that they are prepared to make satisfactory progress towards the degree.

New Student Orientation and Course Registration

First-Year Student and Family Orientation

First-Year Student Orientation is the mandatory summer program designed to introduce first-year students to the University. Students will be acquainted with the academic opportunities and skills needed to take personal responsibility for their academic achievement and persistence, introduced to the programs and services available for UNC students, made aware of University traditions, and connected to their peers and other ways to broaden their Carolina community. First-year students receive information about their course registration process after paying their enrollment deposit. Family members and guests are invited to attend the non-mandatory Family Orientation program, which runs parallel to the student program. The transition process continues when new students arrive in the fall with a variety of activities in the fall through Tar Heel Beginnings programming, which kicks off with the 10-day Week of Welcome period.

Transfer Student and Family Orientation

All newly admitted undergraduate transfer students are required to attend one of the summer Transfer Orientation sessions designed specifically for transfer students to learn about life at Carolina. During this one-day transfer orientation program, new transfer students meet and interact with faculty, staff, and other new transfer students. Students attend formal sessions about UNC policies and services and have the opportunity to learn more about areas of interest to them individually.

To help ensure the availability of preferred courses, transfer students should register for fall classes prior to summer orientation. Transfer students may register for courses online as soon as their deposit is paid, ONYEN and UNC Heelmail are created, and after completing the online academic advising module within Sakai. Family members and guests can choose to attend the non-mandatory family orientation program, which runs parallel to the transfer student program. Transfer students are invited to numerous activities during the fall semester through Tar Heel Beginnings programming, which kicks off with the 10-day Week of Welcome period.

The University of North Carolina at Chapel Hill: Admissions Policy

1. All qualified persons are welcome to seek admission to the University of North Carolina at Chapel Hill, and all persons may apply for and accept admission confident that the policy and regular practice of the institution are not to discriminate in offering access to its educational programs and activities on the basis of age, gender, race, color, national origin, religion, creed, disability, veteran's status, sexual

orientation, gender identity, or gender expression. (See University and Administrative Policies (<http://policies.unc.edu/policies/nondiscrim/>)).

2. Projections of the number of students to be admitted and enrolled in any year shall be determined:
 - a. by the capacity of the institution to meet the instructional and other needs of students in the colleges, schools, departments, curricula, or other programs to which applicants seek admission and
 - b. by enrollment levels approved for budgetary or other appropriate purposes.
3. When at any time the number of qualified applicants for admission exceeds the number of persons who can be admitted and enrolled (as determined by the criteria specified in II above), those to be offered admission shall be selected on the basis of:
 - a. recognition of the institution's special responsibility to residents of North Carolina and
 - b. the institution's judgment of the applicant's relative qualifications for satisfactory performance in the specific college, school, department, curriculum, or other program to which the applicant seeks admission.

Provided that the criteria set forth hereinafter are met, this policy of competitive admissions shall not prevent the admission of selected applicants:

1. who give evidence of possessing special talents for University programs requiring such special talents,
2. whose admission is designed to help achieve variety within the total number of students admitted and enrolled, or
3. who seek educational programs not readily available at other institutions.

In seeking variety within the total number of students admitted and enrolled, the University shall affirm its commitment to achieve excellence, to provide for the leadership of the educational, governmental, scientific, business, humanistic, artistic, and professional institutions of the state and nation, and to enrich the lives of all the people of North Carolina.

In the application of this policy of competitive admissions to nonresident students, preference for admission may be given to nonresident applicants who are children of alumni of the institution.

1. Admission of persons to the specific colleges, schools, curricula, or other programs of the institution shall be governed by the provisions set forth below.

Undergraduate Admissions

Admission of undergraduate students to colleges or schools to pursue programs leading to a baccalaureate degree shall be the responsibility of the Office of Undergraduate Admissions. The Admissions Office shall apply policies and procedures that, not inconsistent with policies adopted by the Board of Trustees, are approved by the Advisory Committee on Undergraduate Admissions.

In the application of the provisions set forth in III above, preference for admission shall be given to qualified residents of North Carolina; however, in recognition of the educational and other values accruing to North Carolina students, to the institution, and to the state from participation of nonresident students in the programs of the institution, nonresidents may be admitted in the entering first-year class in numbers likely to result in

no more than 18 percent nonresident enrollment in the entering first-year class.

Admission of undergraduates shall be to the first-year class, to other classes by transfer after satisfactory completion of one or more years of acceptable college-level work in some other institution(s) of higher education, or to Part-Time Classroom Studies.

Admission and enrollment of persons who are candidates for financial aid for which athletic ability is a consideration shall be conditional upon compliance with applicable regulations of the Atlantic Coast Conference and the National Collegiate Athletic Association.

Admission to the First-Year Class

Admission to and enrollment in the first-year class shall be conditional upon graduation from secondary school with such units of secondary school academic course credit as may be specified by the Office of Undergraduate Admissions; however, if all other criteria are met, the Admissions Office may make exceptions to the secondary school graduation and course credit requirements in accordance with procedures approved by the Advisory Committee on Undergraduate Admissions.

Criteria employed for determination of each applicant's qualifications for admission shall include:

1. satisfactory evidence of scholastic promise based upon the applicant's previous academic record, recommendations from schools previously attended, scores on selected tests of scholastic aptitude or achievement, and the applicant's written application for admission, and
2. satisfactory evidence of the applicant's capacity to cope with the demands of University life.

Admission by Transfer

Admission and enrollment by transfer from another institution shall be conditional upon a satisfactory academic record on work undertaken in all other institutions attended, satisfactory recommendations from institutions previously attended, and eligibility to return to all previously attended institutions of higher education.

Part-Time Classroom Studies Admissions

Eligibility for admission to Part-Time Classroom Studies shall normally be limited to adult individuals living within commuting distance of Chapel Hill.

Admission to Part-Time Classroom Studies of an applicant who does not hold a baccalaureate degree shall be the responsibility of the Office of Undergraduate Admissions. Such admissions shall be either

- For full credit, applicable toward fulfillment of degree requirements, in which case the minimum requirements shall be the same as those for admission to degree programs and in which case the Office of Undergraduate Admissions shall review each applicant using the same admissions criteria as for comparable full-time, degree-seeking students applying to the University; OR
- For personal benefit and enjoyment, in which case the applicant may be exempted from the qualitative requirements for admission to degree programs. Notwithstanding this exemption from qualitative requirements, the applicant must have graduated from an approved

or accredited secondary school and must demonstrate the capacity to cope with the demands of University life.

Admission to Part-Time Classroom Studies of an applicant who is currently enrolled in high school shall be the responsibility of the Office of Undergraduate Admissions. Such admissions shall be considered only when an applicant:

1. seeks to enroll in a University course for which there is no comparable course at the student's secondary school and
2. demonstrates adequate preparation for the course in which the student seeks to enroll.

Admission to Part-Time Classroom Studies of an applicant who holds a baccalaureate degree shall be the responsibility of the William and Ida Friday Center for Continuing Education. Such admissions shall be for personal benefit and enjoyment, for the satisfaction of prerequisite requirements for professional or graduate programs, or for transfer of credit to a postbaccalaureate degree program, in which case the applicant may be exempted from the qualitative requirements for admission to degree programs.

Graduate School Admissions

With recognition of the institution's special responsibility to residents of North Carolina but without restrictions based on residence status, admission to The Graduate School shall be a selective process with the objective of enrolling from the pool of applicants for each discipline those students who, in the judgment of the institution, are best qualified to pursue graduate degrees in their chosen academic fields. Admission of graduate students shall be the responsibility of the dean of The Graduate School with the advice and assistance of the Administrative Board of The Graduate School and of the graduate faculties of the departments, schools, and curricula authorized to offer graduate degree programs.

For admission to The Graduate School, the applicant must

- Hold a baccalaureate degree from an accredited college or university in the United States or its equivalent from an institution abroad
- Present a strong overall record of academic achievement
- Be in good standing in the last-attended institution where graduate work has been or is being taken, and
- Be admitted as a degree student unless there are exceptional circumstances justifying admission for nondegree study with the approval of the dean of The Graduate School.

The graduate student enrollment level for each school, department, or curriculum shall be determined for each academic year by the dean of The Graduate School following consultation with each of the schools, departments, and curricula concerned.

Professional School Admissions

Admission of students to the professional degree programs in schools other than The Graduate School and to nondegree programs in the schools of the Division of Health Affairs shall be, in each of these schools, the responsibility of its established committee on admissions, which shall apply policies, procedures, and requirements, not inconsistent with the provisions of this policy, adopted by the faculty of the school and approved by the chancellor or his delegate.

Summer Admissions

Admission of applicants to any summer session shall be the responsibility

- Of the Office of Undergraduate Admissions with respect to those who wish to begin in the summer an undergraduate program of study that will continue into the following academic year or that is intended to lead to a baccalaureate degree from the University of North Carolina at Chapel Hill, as well as those undergraduates previously enrolled at this institution who would like to return for undergraduate work in the summer.
- Of The Graduate School with respect to those who wish to begin a degree program of graduate study in the summer, as well as those graduate students already enrolled in this institution who wish to return for graduate study in the summer
- Of Part-Time Classroom Studies in the Friday Center for Continuing Education with respect to those who wish to begin in the summer on a part-time basis as a postbaccalaureate nondegree student, as well as those already enrolled in the University of North Carolina at Chapel Hill who wish to return for part-time study in the summer.

Admission to Summer School by the Office of Undergraduate Admissions, The Graduate School, and Part-Time Classroom Studies shall be in conformity with the provisions set forth in this policy for other undergraduate and graduate admissions.

Admission to Summer School by the dean of Summer School shall be in conformity with policies, procedures, and requirements adopted by the Administrative Board of Summer School. Each such admission shall terminate as of the last day of that summer term and shall include no commitment, stated or implied, for admission of the student to any subsequent semester or session of the University of North Carolina at Chapel Hill.

1. Appeals concerning individual admission, or admission rescission, decisions shall be governed by the admissions appeal procedure contained in Appendix A.

** This policy adopted by resolution of the Board of Trustees on September 3, 1976.*

** Amended by Board of Trustees, August 24, 1984.*

** Amended by Board of Governors, March 14, 1986.*

** Amended by Board of Trustees, May 27, 1994.*

** Amended by Board of Trustees, effective January 1, 2006.*

** Amended by Board of Trustees, effective January 23, 2014.*

Appendix A: Admissions Appeal Procedure

Revised August 2016. This document sets forth the procedures to be followed with respect to the appeal of a negative admissions decision, including a decision to rescind an admission that has already been granted.

1. Appeal to Admissions Officer

Appeals concerning individual admission, or admission rescission, decisions may be had only if it is contended that

- a. a provision set forth in the University of North Carolina at Chapel Hill admissions policy ('admissions policy') has been violated or

- b. the decision not to admit the individual or to rescind admission resulted from a material procedural error in the admissions process.

An applicant's omission of relevant information from the original application for admission will not ordinarily constitute grounds for an appeal; nor will academic or personal circumstances that changed after the submission of the application. Such an appeal shall be lodged by the applicant-appellant with the administrative officer (the director of undergraduate admissions, the dean of The Graduate School, the dean of the professional school concerned, or the dean of Summer School) whose office had responsibility for the admission in question (hereafter the 'admissions officer') within 30 days after the University posts the appellant's online decision. The appeal shall be in writing and shall set forth the grounds for the appeal.

Upon receipt of the appeal, the admissions officer or the admissions officer's designee shall review the applicant-appellant's file and appeal letter and shall communicate his or her decision to the appellant in writing

2. Appeal to Provost

The decision of the admissions officer may be appealed to the provost only if it is contended that

- a. a provision set forth in the admissions policy has been violated or
- b. the decision not to admit the individual or to rescind admission resulted from a material procedural error in the admissions, or appeal, process.

An applicant's omission of relevant information from the original application for admission or from the appeal to the admissions officer will not ordinarily constitute grounds for an appeal; nor will academic or personal circumstances that changed after the submission of the application or the appeal to the admissions officer. Such an appeal shall be lodged with the provost by filing a letter of appeal specifying the grounds for the appeal within 15 days after the appellant has received the letter communicating the decision of the admissions officer.

The appeal shall be heard by the provost or the provost's designee, and the appellant, at his or her option, may appear in person or conduct the appeal by telephone. Following the hearing, the provost or designee will communicate the decision to the appellant in writing. The decision of the provost is final, and no further appeal is available.

N.C. Community College Transfer Articulation and Pathways

If you are currently attending a community college with plans to transfer to UNC, we have developed baccalaureate degree plans for our most popular majors which can help you select your coursework at the community college. By following these degree plans, you will best be positioned to transfer smoothly to UNC and complete your desired major. Please note that these are recommendations only. We do not require or expect that all transfer students will have completed the courses listed on these pathway documents.

To review recommended pathways from academic years 2014–2019, please see the Undergraduate Admissions Web site (<https://admissions.unc.edu/credit/credit/information-for-transfers-from-nc-community-colleges/>).

To review recommended pathways from academic years 2019 and later, please see the University Catalog archive (p. 1290).

- ¹ Required in the major
² Counts in the major
³ If you take both MAT 172 and MAT 271, then MAT 172 can count as an 'Allied Sciences' course in the major.
⁴ Organismal structure & diversity course
⁵ 'Allied Science' elective

UNC-Chapel Hill

Semester 5 [†]

Code	Title	Hours
BIOL 202	Molecular Biology and Genetics ^{1, H}	4
CHEM 241 & 241L	Modern Analytical Methods for Separation and Characterization and Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds ^{1, H}	3
EDUC 301	Junior Transfer Seminar - Thriving in Transition (recommended) ²	3
LFIT ---	Lifetime Fitness	1
Electives		3
Total Hours		14

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Semester 6

Code	Title	Hours
BIOL 205	Cellular and Developmental Biology ^{1, H}	4
PHYS 114	General Physics I: For Students of the Life Sciences ^{1, 3}	4
Allied Science course #1 ^{1, 4}		3
Electives		6
Total Hours		17

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Semester 7

Code	Title	Hours
BIOL ---	Biology elective (above 205) with lab (e.g., BIOL 252) ¹	4
BIOL ---	Biology elective (above 400) ¹	3
PHYS 115	General Physics II: For Students of the Life Sciences ^{1, 3}	4
Allied Science course #2 ^{1, 4}		3
Elective		3
Total Hours		17

Semester 8

Code	Title	Hours
BIOL 201	Ecology and Evolution ^{1, H}	4
BIOL ---	Biology elective (above 205) with lab ¹	4
BIOL ---	Biology elective (above 400) ¹	3

CHEM 262 & 262L	Introduction to Organic Chemistry II and Laboratory in Organic Chemistry ^{1, 5, H}	4
-----------------	---	---

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- [†] **IMPORTANT Note:** Junior transfer biology B.S. students MUST meet with Dr. Gidi Shemer when planning their courses at Carolina. If choosing to complete a minor, please work closely with your academic advisor to ensure you can complete all requirements and to discuss sequencing.

- ¹ Required in the major.
² Fulfills EE requirement (recommended). If EE is fulfilled by a course in the major, it can count as a BIOL elective or BIOL elective with lab (e.g., 1 or 2 semesters of BIOL 395, respectively).
³ PHYS 114 and PHYS 115 should not be separated; you should take both at either the community college or UNC. Do not take one at the community college and jump into the other at UNC.
⁴ Allied Sciences electives are determined based on science courses taken at the community college.
⁵ CHEM 262L is not needed if it is completed at the community college.

PHYS 251 & 252	General Physics I & II (UNC PHYS 116 + PHYS 117)	
Total Hours		34

¹ Students who complete both ENG 111 and 112 receive credit for UNC ENGL 100 + ENGL 105.

² Course may have prerequisite(s). Consult the North Carolina Community College Combined Course Library (<https://www.nccommunitycolleges.edu/academic-programs/combined-course-library/>) for most current information.

³ ECO 251 + 252 = UNC ECON 101 + UNC GENR 140.

Additional Resources

Applying to Carolina

- The Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/transfer-students/>) provides information about the application process for transfer students.

Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (<https://www.nccommunitycolleges.edu/academic-programs/college-transferarticulation-agreements/comprehensive-articulation-agreement-caa/>).
- Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

Additional Resources

- To find out how your N.C. community college coursework will transfer to UNC, please view the Common Curriculum (<https://admissions.unc.edu/files/2019/10/NCCC-Tables-10.18.19.pdf>).
- If you completed an associate's degree prior to 2014 or under the old common curriculum, please view the rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

Biomedical and Health Sciences Engineering, A.S.-B.S.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

This catalog also includes a complete list of requirements for the Biomedical and Health Sciences Engineering B.S. degree (p. 401).

Total Hours		34

¹ Students who complete both ENG 111 and 112 receive credit for UNC ENGL 100 + ENGL 105.

² Course may have prerequisite(s). Consult the North Carolina Community College Combined Course Library (<https://www.nccommunitycolleges.edu/academic-programs/combined-course-library/>) for most current information.

³ ECO 251 + 252 = UNC ECON 101 + UNC GENR 140.

Additional Resources

Applying to Carolina

- The Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/transfer-students/>) provides information about the application process for transfer students.

Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (<https://www.nccommunitycolleges.edu/academic-programs/>)

college-transferarticulation-agreements/comprehensive-articulation-agreement-caa/).

- Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

Additional Resources

- To find out how your N.C. community college coursework will transfer to UNC, please view the Common Curriculum (<https://admissions.unc.edu/files/2019/10/NCCC-Tables-10.18.19.pdf>).
- If you completed an associate's degree prior to 2014 or under the old common curriculum, please view the rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

Chemistry, A.S.-B.A.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

This catalog also includes a complete list of requirements for the Chemistry major, B.A. degree. (p. 418)

PHY 110/110A	Conceptual Physics and Lab (UNC PHYS 101)

Total Hours		31-32
--------------------	--	--------------

¹ Students who complete both ENG 111 and 112 receive credit for UNC ENGL 100 + ENGL 105.

² Course may have prerequisite(s). Consult the North Carolina Community College Combined Course Library (<https://www.nccommunitycolleges.edu/academic-programs/combined-course-library/>) for most current information.

³ ECO 251 + 252 = UNC ECON 101 + UNC GENR 140.

Additional Resources

Applying to Carolina

- The Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/transfer-students/>) provides information about the application process for transfer students.

Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (<https://www.nccommunitycolleges.edu/academic-programs/college-transferarticulation-agreements/comprehensive-articulation-agreement-caa/>).
- Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

Additional Resources

- To find out how your N.C. community college coursework will transfer to UNC, please view the Common Curriculum (<https://admissions.unc.edu/files/2019/10/NCCC-Tables-10.18.19.pdf>).
- If you completed an associate's degree prior to 2014 or under the old common curriculum, please view the rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

Computer Science, A.S.-B.A.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

This catalog also includes a complete list of requirements for the Computer Science major, B.A. degree. (p. 480)

Minor course #5 or elective	3
Total Hours	9

Semester 9

Code	Title	Hours
COMP ---	Computer science electives numbered COMP 420 or higher (2 courses) ^{1,4}	6
Total Hours		6

¹ Required in the major.

² Fulfills EE and Supplemental Gen. Ed. requirement (recommended).

³ Four elective courses chosen from the following, with no more than two courses from other departments:

a. COMP courses numbered 420-599 (excluding honors thesis, internships, independent study).

b. Graduate-level courses (600 or higher) other than COMP 790

c. BIOL 525, INLS 318, INLS 609, INLS 613; LING 540; MATH 566, MATH 661; PHYS 231, PHYS 331.

d. Other courses must be approved by the director of undergraduate studies.

⁴ The Computer Science Department at UNC has a registration policy in place to help ensure all majors are able to take the electives they need:

All students are allowed to register for two COMP courses numbered 420 and above before any students are allowed to register for a third such course. This policy may necessitate transferring students to make use of a ninth semester to complete all major requirement. If seats are available, transfer students may be able to take more than two elective courses in semesters 7 or 8.

Transfer students (who transfer in the UNC–Chapel Hill equivalent of two or more semesters) may enroll in up to 10 total semesters and complete up to three areas of study (i.e., a secondary major and a minor or two minors). Additional degree requirement information (p. 196).

PHY 110/110A	Conceptual Physics and Lab (UNC PHYS 101)
Total Hours	31-32

- ¹ Students who complete both ENG 111 and 112 receive credit for UNC ENGL 100 + ENGL 105.
- ² Course may have prerequisite(s). Consult the North Carolina Community College Combined Course Library (<https://www.ncccommunitycolleges.edu/academic-programs/combined-course-library/>) for most current information.
- ³ ECO 251 + 252 = UNC ECON 101 + UNC GENR 140.

Additional Resources

Applying to Carolina

- The Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/transfer-students/>) provides information about the application process for transfer students.

Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (<https://www.ncccommunitycolleges.edu/academic-programs/college-transferarticulation-agreements/comprehensive-articulation-agreement-caa/>).
- Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

Additional Resources

- To find out how your N.C. community college coursework will transfer to UNC, please view the Common Curriculum (<https://admissions.unc.edu/files/2019/10/NCCC-Tables-10.18.19.pdf>).
- If you completed an associate's degree prior to 2014 or under the old common curriculum, please view the rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

Dental Hygiene, A.S.-B.S.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

This catalog also includes a complete list of requirements for the Dental Hygiene B.S. degree (p. 1072).

Option 2 (calculus sequence):		
MAT 171	Precalculus Algebra (UNC MAT 110P) ³	
MAT 172	Precalculus Trigonometry (UNC MATH 130 + MATH 110P)	
MAT 271	Calculus I (UNC MATH 231 + MATH 110P) ^{2, 4}	
Electives ⁵		3-7
Total Hours		16

Code	Title	Hours
Total Community College Hours		61

¹ Required in the major.

² Counts in the major.

³ UNC MATH 110P credit is for zero credit hours.

⁴ UNC MATH 152 or MATH 231 is required for the major.

⁵ Hours vary depending on whether the student takes MAT 271.

UNC-Chapel Hill

Semester 5

Code	Title	Hours
ECON 400	Introduction to Statistics and Econometrics ^{1, 2, H}	3
EDUC 301	Junior Transfer Seminar - Thriving in Transition ³	3
Minor course #1 or Sup Ed course #1		3
LFIT —	Lifetime Fitness	1
Electives		6
Total Hours		16

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Semester 6

Code	Title	Hours
ECON —	Economics elective course #1 ^{1, 4}	3
ECON 410	Intermediate Theory: Price and Distribution ^{1, 2, H}	4
Minor course #2 or Sup Ed course #2		3
Electives		6
Total Hours		16

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Semester 7

Code	Title	Hours
ECON 420	Intermediate Theory: Money, Income, and Employment ^{1, H}	3
ECON —	Economics elective course #2 ^{1, 4}	3
Minor course #3 or Sup Ed course #3		3
Minor course #4 or elective		3
Elective		3
Total Hours		15

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Semester 8

Code	Title	Hours
ECON —	Economics elective course #3 (numbered ECON 500 or higher) ^{1, 4}	3
ECON —	Economics elective course #4 ^{1, 4}	3
Minor course #5 or elective		3
Electives		6
Total Hours		15

¹ Required in the major.

² ECON courses numbered above 420 require a grade of C or better in ECON 400 and ECON 410.

³ Fulfills EE requirement (recommended).

⁴ Students may not receive credit for both ECON 470 and ECON 570.

CHM 151	General Chemistry I (UNC CHEM 101 & CHEM 101L)	
GEL 111	Introduction Geology (UNC GEOL 101 & GEOL 101L)	
PHY 110/110A	Conceptual Physics and Lab (UNC PHYS 101)	
Total Hours		31-32

¹ Students who complete both ENG 111 and 112 receive credit for UNC ENGL 100 + ENGL 105.

² Course may have prerequisite(s). Consult the North Carolina Community College Combined Course Library (<https://www.nccommunitycolleges.edu/academic-programs/combined-course-library/>) for most current information.

³ ECO 251 + 252 = UNC ECON 101 + UNC GENR 140.

Additional Resources

Applying to Carolina

- The Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/transfer-students/>) provides information about the application process for transfer students.

Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (<https://www.nccommunitycolleges.edu/academic-programs/college-transferarticulation-agreements/comprehensive-articulation-agreement-caa/>).
- Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

Additional Resources

- To find out how your N.C. community college coursework will transfer to UNC, please view the Common Curriculum (<https://admissions.unc.edu/files/2019/10/NCCC-Tables-10.18.19.pdf>).
- If you completed an associate's degree prior to 2014 or under the old common curriculum, please view the rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

Economics Major, A.S.-B.A.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

This catalog also includes a complete list of requirements for the Economics major B.A. degree (p. 505).

Total Hours		15

¹ Required in the major.

² Courses numbered LING 200- LING 699, excluding LING 400 (see Undergraduate Catalog (p. 753)); no more than two courses from another department may count (see course list in the Undergraduate Catalog (p. 753)).

³ Select three courses from the following four course pairs:

- LING 200 or LING 520
- LING 201 or LING 537
- LING 202 or LING 541
- LING 203 or LING 527

UGETC Course List (A.A. Curriculum)

Code	Title	Hours
English Composition (two courses)		6
ENG 111	Writing & Inquiry ¹	
ENG 112	Writing/Research in the Disciplines ¹	
Humanities/Fine Arts (three courses from at least two different disciplines)		9
ART 111	Art Appreciation (UNC GENR 180)	
ART 114	Art History Survey I (UNC ARTH 151)	
ART 115	Art History Survey II (UNC ARTH 152)	
COM 120	Introduction to Interpersonal Communication (UNC COMM 120), OR	
COM 231	Public Speaking (UNC COMM 113)	
DRA 111	Theatre Appreciation (UNC DRAM 116)	
ENG 231	American Literature I (UNC ENGL 128) ²	
ENG 232	American Literature II (UNC ENGL 128) ²	
ENG 241	British Literature I (UNC ENGL 120) ²	
ENG 242	British Literature II (UNC ENGL 121) ²	
MUS 110	Music Appreciation (UNC MUSC 141)	
MUS 112	Introduction to Jazz (UNC MUSC 145)	
PHI 215	Philosophical Issues (UNC PHIL 101) ²	
PHI 240	Introduction to Ethics (UNC PHIL 160) ²	
Social/Behavioral Science (three courses from at least two different disciplines)		9
ECO 251	Principles of Microeconomics (UNC GENR 140) ³	
ECO 252	Principles of Macroeconomics (UNC GENR 140) ³	
HIS 111	World Civilizations I (UNC GENR 157)	
HIS 112	World Civilizations II (UNC GENR 150)	
HIS 131	American History I (UNC HIST 127)	
HIS 132	American History II (UNC HIST 128)	
POL 120	American Government (UNC POLI 100)	
PSY 150	General Psychology (UNC PSYC 101)	
SOC 210	Introduction to Sociology (UNC SOCI 101)	
Mathematics (select one course)		3-4
MAT 143	Quantitative Literacy (UNC MATH 118)	
MAT 152	Statistical Methods I (UNC STOR 155)	
MAT 171	Pre-calculus Algebra (UNC MATH 110P)	
Natural Sciences (select 4 SCH from the following courses):		4
AST 111/111A	Descriptive Astronomy I and Lab (UNC ASTR 101 & ASTR 101L)	
AST 151/151A	General Astronomy I and lab I (UNC ASTR 101 and ASTR 101L)	
BIO 110	Principles of Biology (UNC GENR 130)	
BIO 111	General Biology (UNC BIOL 101 & BIOL 101L)	
CHM 151	General Chemistry I (UNC CHEM 101 & CHEM 101L)	
GEL 111	Introduction Geology (UNC GEOL 101 & GEOL 101L)	

PHY 110/110A	Conceptual Physics and Lab (UNC PHYS 101)	
Total Hours		31-32

- ¹ Students who complete both ENG 111 and 112 receive credit for UNC ENGL 100 + ENGL 105.
- ² Course may have prerequisite(s). Consult the North Carolina Community College Combined Course Library (<https://www.nccommunitycolleges.edu/academic-programs/combined-course-library/>) for most current information.
- ³ ECO 251 + 252 = UNC ECON 101 + UNC GENR 140.

Additional Resources

Applying to Carolina

- The Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/transfer-students/>) provides information about the application process for transfer students.

Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (<https://www.nccommunitycolleges.edu/academic-programs/college-transferarticulation-agreements/comprehensive-articulation-agreement-caa/>).
- Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

Additional Resources

- To find out how your N.C. community college coursework will transfer to UNC, please view the Common Curriculum (<https://admissions.unc.edu/files/2019/10/NCCC-Tables-10.18.19.pdf>).
- If you completed an associate's degree prior to 2014 or under the old common curriculum, please view the rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

Management and Society, A.A.-B.A.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

This catalog also includes a complete list of requirements for the Management and Society B.A. degree (<http://catalog.unc.edu/undergraduate/programs-study/management-society-major-ba/>).

Total Hours		34

¹ Students who complete both ENG 111 and 112 receive credit for UNC ENGL 100 + ENGL 105.

² Course may have prerequisite(s). Consult the North Carolina Community College Combined Course Library (<https://www.nccommunitycolleges.edu/academic-programs/combined-course-library/>) for most current information.

³ ECO 251 + 252 = UNC ECON 101 + UNC GENR 140.

Additional Resources

Applying to Carolina

- The Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/transfer-students/>) provides information about the application process for transfer students.

Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (<https://www.nccommunitycolleges.edu/academic-programs/college-transferarticulation-agreements/comprehensive-articulation-agreement-caa/>).
- Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

Additional Resources

- To find out how your N.C. community college coursework will transfer to UNC, please view the Common Curriculum (<https://admissions.unc.edu/files/2019/10/NCCC-Tables-10.18.19.pdf>).
- If you completed an associate's degree prior to 2014 or under the old common curriculum, please view the

rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

Media and Journalism, A.A.-B.A.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

This catalog also includes a complete list of requirements for the Media and Journalism B.A. degree (p. 1115).

Music, A.F.A.-B.Mus.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

This catalog also includes a complete list of requirements for the Music B.Mus. degree (p. 794).

Students pursuing the B.Mus. at UNC must complete at least 63 credit hours in music, which is combined with an additional 57 credit hours for a total of 120 credit hours. Students may receive no more than 66 credit hours in music and must complete a minimum of 54 credit hours of coursework outside music, including all General Education requirements.

- ¹ Counts in the major.
- ² Most transferred MUSC credit can be applied toward the B.Mus. but a transfer credit reevaluation request to the director of undergraduate studies will be required after matriculation at UNC. Information about the reevaluation process can be found on the Admissions website (<https://admissions.unc.edu/credit/credit/transfer-credit-evaluation-for-current-students/re-evaluation-of-transfer-credits/>).
- ³ Completion of MUS 121 and MUS 122 may prepare students to successfully earn placement exam credit for MUSC 131 at UNC. Students should contact the department upon acceptance to enquire about procedures for taking the placement exam. This Pathway does not assume placement credit for MUSC 131 will be earned.
- ⁴ Completion of MUS 125 and MUS 126 will likely prepare students to successfully earn placement exam credit for MUSC 130 at UNC. Students should contact the department upon acceptance to enquire about procedures for taking the placement exam. This Pathway does not assume MUSC 130 placement credit will be earned.
- ⁵ Applied Music courses transferred from an NCCC should be applicable to the 14 hours of individual lessons. This Pathway assumes that these 4 hours will be used toward the 14 required hours.
- ⁶ Ensemble courses transferred from an NCCC should be applicable to the 8 hours of ensemble performance. This Pathway assumes that 2 hours will be used toward the 8 required hours. Students who take 4 hours of ensemble at an NCCC may request all 4 hours be applied to the B.Mus. when submitting their transfer credit reevaluation requests.

MUSC	Music Elective ⁴	1-2
Total Hours		11-12

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Ensemble performance required hours can be met with a combination of MUSC 211 and MUSC 212. At least five hours of MUSC 211 credit must be used. MUSC 211 and MUSC 212 are repeatable for credit within the same term. This Pathway assumes 2 hours of ensemble credit from the NCCC will be approved. If 4 hours of ensemble credit from the NCCC is approved, students will only need 4 hours of ensemble at UNC instead of the above listed 6.

² Global music requirement (at least one hour): Within the required courses, ensembles, or electives, students must take at least one of the ensembles or courses that engage primarily with repertoires or concepts outside the tradition of Western art music, chosen from the 'Global Music Requirement' list on the B.Mus. degree requirements.

- ³ Individual Lessons (14 hours): chosen from MUSC 200–MUSC 207 taken over seven semesters (or the equivalent for students whose primary focus is composition; see B.Mus. requirements). Students may petition the director of undergraduate studies to count toward this requirement no more than two hours of MUSC 100–MUSC 107. Two of these 14 hours may be substituted by three of MUSC 300–MUSC 306. Students wishing to take an eighth semester of individual lessons may use an additional two hours of MUSC 200–MUSC 207 or three of MUSC 300–MUSC 306 for elective credit. In any case, MUSC 300–MUSC 306 may only be taken twice within the program.
- ⁴ This Pathway assumes that 7-10 hours of Music Elective credit from the NCCC will be applied toward the B.Mus. through transfer credit reevaluation requests, and displays 5-8 hours of elective credit at UNC. When submitting reevaluation requests and deciding on Music Elective courses to take at UNC, students should keep in mind the limit of 66 hours in MUSC that can be applied to the B.Mus. degree.
- ⁵ MUSC 130 should be taken in the student's first spring semester, concurrently with MUSC 131, unless placement credit for one or both courses has been awarded through department placement exam.

UGETC Course List (A.F.A. in Music Curriculum)

Code	Title	Hours
English Composition (two courses)		6
ENG 111	Writing & Inquiry ¹

¹ Students who complete both ENG 111 and 112 receive credit for UNC ENGL 100 + ENGL 105.

² Course may have prerequisite(s). Consult the North Carolina Community College Combined Course Library for most current information.

³ ECO 251 + 252 = UNC ECON 101 + UNC GENR 140.

Additional Resources

Applying to Carolina

- The Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/transfer-students/>) provides information about the application process for transfer students.

Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (<https://www.ncccommunitycolleges.edu/academic-programs/college-transferarticulation-agreements/comprehensive-articulation-agreement-caa/>).
- Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

Additional Resources

- To find out how your N.C. community college coursework will transfer to UNC, please view the Common Curriculum (<https://admissions.unc.edu/files/2019/10/NCCC-Tables-10.18.19.pdf>).
- If you completed an associate's degree prior to 2014 or under the old common curriculum, please view the rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

Nursing, A.A.-B.S.N.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

This catalog also includes a complete list of requirements for the Nursing, B.S.N. degree (p. 1142).

Total Hours		31-32

¹ Students who complete both ENG 111 and 112 receive credit for UNC ENGL 100 + ENGL 105.

² Course may have prerequisite(s). Consult the North Carolina Community College Combined Course Library (<https://www.nccommunitycolleges.edu/academic-programs/combined-course-library/>) for most current information.

³ ECO 251 + 252 = UNC ECON 101 + UNC GENR 140.

Additional Resources

Applying to Carolina

- The Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/transfer-students/>) provides information about the application process for transfer students.

Advising and Community College Course Selection

- For UGETC, Pre-Major, Elective, or GEC course options, please refer to the Comprehensive Articulation Agreement transfer course list (<https://www.nccommunitycolleges.edu/academic-programs/college-transferarticulation-agreements/comprehensive-articulation-agreement-caa/>).
- Students should work with their community college academic advisor to ensure appropriate course selection for AA/AS degree completion.

Additional Resources

- To find out how your N.C. community college coursework will transfer to UNC, please view the Common Curriculum (<https://admissions.unc.edu/files/2019/10/NCCC-Tables-10.18.19.pdf>).
- If you completed an associate's degree prior to 2014 or under the old common curriculum, please view the rules here (https://admissions.unc.edu/files/2014/06/Pre-2014_NCCC_CommonCurriculum.pdf).

Physics, A.S.-B.A.

This is a suggested course plan. It is highly recommended that you meet regularly with your academic advisor to determine your course selection and progress toward graduation.

This catalog also includes a complete list of requirements for the Physics B.A. degree (p. 847).

UNDERGRADUATE

About the Undergraduate Catalog

The *Undergraduate Catalog* is a valuable resource that prospective and enrolled students can use throughout their days at the University of North Carolina at Chapel Hill. The *Catalog* supplies general information about the University to prospective students and their parents. It includes information about application procedures and about orientation and matriculation for undergraduate students who have been accepted.

Academic regulations, University facilities, and college life also are described. Departmental degree requirements and course offerings are included, but students in some specialized curricula will be referred to other publications for additional information. Enrolled students are encouraged to use the *Catalog* in addition to talking with advisors and consulting their Tar Heel Tracker for undergraduate degree requirements.

This catalog is concerned primarily with prospective students and with undergraduates enrolled in the General College, the College of Arts and Sciences, and the Schools of Business, Dentistry, Education, Information and Library Science, Journalism and Media, Medicine, Nursing, Pharmacy, and Public Health, as well as Summer School.

The following additional catalogs and admissions brochures are published by the University of North Carolina at Chapel Hill, in print form and/or on the Web: Kenan–Flagler Business School, School of Dentistry, School of Education, School of Government, School of Information and Library Science, School of Journalism and Media, School of Law, School of Medicine, School of Nursing, Gillings School of Global Public Health, School of Social Work, and Summer School. Part-Time Classroom Studies and Self-Paced Courses also publish course catalogs.

Students may expect to receive a degree by fulfilling the requirements of a curriculum as specified in the *Undergraduate Catalog* for the year in which the student matriculated at the University of North Carolina at Chapel Hill. The University is not strictly obligated to fulfill this expectation since changes to the structure of degree requirements may entail widespread curricular adjustments, but it will make every effort to modulate changes so that appropriate substitutes for particular requirements, or particular courses, are available to students operating under a previous set of expectations. The faculty reserves the right to make any changes deemed necessary in the curricula and in regulations. By University policy, the regulations in this catalog are not necessarily valid beyond the academic year for which it was published.

GENERAL EDUCATION CURRICULUM AND DEGREE REQUIREMENTS

Making Connections: The General Education Curriculum

The University of North Carolina at Chapel Hill strives to cultivate the range of skills, knowledge, values, and habits that will allow graduates to lead personally enriching and socially responsible lives as effective citizens of rapidly changing, richly diverse, and increasingly interconnected local, national, and worldwide communities. To this end the General Education curriculum seeks to provide for all students

- 1. the fundamental skills that will facilitate future learning,
- 2. broad experience with the methods and results of the most widely employed approaches to knowledge,
- 3. a sense of how one might integrate these approaches to knowledge in ways that cross traditional disciplinary and spatial boundaries, and
- 4. a thorough grounding in one particular subject.

The undergraduate major is dedicated to the last of these curricular objectives; the others fall under the purview of the General Education curriculum.

The Making Connections curriculum is divided into four broad categories (Foundations, Approaches, Connections, and Supplemental General Education) that can be described in the chart below and the sections that follow.

Foundations

General Education rests on certain foundational skills and knowledge, including the ability to communicate effectively both in English and another language and to apply quantitative reasoning skills in context. Consequently, the Foundations component of the curriculum includes courses in English composition and rhetoric, at least one foreign language, and quantitative reasoning. It also includes a lifetime fitness course that encourages the lifelong health of graduates. In most cases, students should be able to fulfill the Foundations requirements by taking no more than 15 credit hours.

Note on the Importance of Communication Skills

The faculty of the General College and the College of Arts and Sciences expects students to write and speak effectively. Instructors should help students realize that there is a direct relationship between thinking clearly, writing clearly, and speaking clearly. Faculty members in all disciplines and professions should therefore develop the writing and speaking skills of their students. Students should expect to be graded on spelling, grammar, and style, as well as on the content and organization of their written work; in addition, students should expect to be graded on presentation, style, poise, and diction, as well as on the content and organization of their oral presentations.

Students who wish to improve their writing can make appointments with a tutor in the Writing Center. This free, noncredit service is available to any member of the University community.

English Composition and Rhetoric (CR), One Course		
• One course (three hours)		
Code	Title	Hours
ENGL 105	English Composition and Rhetoric	3
or ENGL 105I	English Composition and Rhetoric (Interdisciplinary)	

All entering first-year, first-time students at the University must complete, or transfer in, ENGL 105 or ENGL 105I. ENGL 105 introduces students to several disciplinary contexts for written work and oral presentations required in college courses, whereas ENGL 105I introduces students to one specific disciplinary context — digital humanities, natural sciences, social sciences, humanities, law, business, or health and medicine — for such written, digital, and oral assignments. Exempting the course on the basis of nationally normed examinations is not possible. Students may prepare for ENGL 105 or ENGL 105I while in high school by taking courses in English composition and speech communication beyond the requirements for admission to the University.

Transfer students who have not completed the CR Foundations requirement are strongly urged to register for ENGL 105 during their first semester at Carolina.

Students must complete the CR requirement during the first academic year on campus. Any student whose native language is not English will be required, as all students are, to complete ENGL 105. However, such students may be permitted also to fulfill the Foundations foreign language requirement with ENGL 105, provided that an authorized representative of the appropriate University department has confirmed the student's native language proficiency up to or through level 4.

Foreign Languages (FL), Through Level 3

- Through level 3

The study of a foreign language enables students to see more clearly the nature and structure of their native language while gaining an understanding of a foreign culture. Students are required to complete courses or demonstrate proficiency in the study of a foreign language through level 3. Certain majors may require additional levels of foreign language study.

Students should improve their language preparation by continuing their foreign language study through the senior year of high school. It is preferable that they complete four years of one high school language rather than, for example, taking two years each of two different languages.

Placement in a foreign language is determined by the student's score on a College Board SAT Subject Test, the Advanced Placement Test in a foreign language (taken at the completion of language study in high school), or the appropriate placement test as determined by the UNC–Chapel Hill academic department offering foreign language instruction. Regardless of placement, continuous enrollment, beginning in the first or second semester, is strongly recommended until the Foundations foreign language requirement is completed.

Students whose placement in a foreign language is below level 4 and who wish to continue in this language are required to take the number of courses that are needed to complete through level 3 of that language. That number varies depending on the level into which a student places.

Students who place into level 4 of a foreign language have satisfied the Foundations foreign language requirement and will receive placement

(PL) but no credit hours for level 3. Note: Students who place into level 4 of Latin on the online diagnostic exam are required to take an additional on-campus test if they wish to receive placement (PL) credit for level 3 and thus fulfill the foreign language General Education requirement; see the Department of Classics (<https://classics.unc.edu/>) for additional information. Students who place beyond level 4 of their high school language have fulfilled the Foundations foreign language requirement and are awarded placement (PL) but no credit hours for levels 3 and 4.

For information about foreign language placement for native and experiential speakers, see Foreign Language Placement Credit (p. 1257).

Code	Title	Hours

WOLO 403	Intermediate Wolof III	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Quantitative Reasoning (QR), One Course

- One course (three hours)

Through the study of quantitative reasoning and methods, students acquire and reinforce the ability to use analytic and quantitative ideas in both theoretical and applied contexts. In today's world of fast-paced scientific and technological advances, the importance of such skills cannot be overstated.

Students should prepare by taking precalculus and/or calculus in high school and by continuing their mathematical studies up through their senior year of high school. Not doing so may put them at a disadvantage when they arrive at the University.

Students may satisfy the quantitative reasoning requirement either by taking or receiving advanced placement for one of the courses listed below. Several of these courses have a prerequisite of MATH 110 (algebra) or a placement score beyond MATH 110 on the College Board SAT Subject Test in Mathematics, Level 1 or Level 2. Unless a particular major requires those specific courses, however, a student may fulfill the quantitative reasoning requirement with courses that do not require MATH 110 as a prerequisite. MATH 110 placement carries no credit hours, although students who place into MATH 110 and complete it successfully will earn credit hours towards graduation.

Students should be aware that some undergraduate degree programs require completion of specific mathematical sciences courses beyond those needed to fulfill General Education requirements.

Code	Title	Hours
BIOL 115	Reasoning with Data: Navigating a Quantitative World	3

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Lifetime Fitness (LFIT), One Course

- One course (one hour)

Lifetime fitness (LFIT) courses combine the practice of a sport or physical activity that can be sustained in later life with broader instruction in lifelong health. These courses carry one hour of academic credit and may be declared Pass/Fail. Students can enroll in only one, one-credit lifetime fitness course during their career at the University, and only one lifetime fitness course can be counted toward the 120 hours needed for graduation.

Code	Title	Hours
LFIT 102	Lifetime Fitness: Adapted Physical Activity	1

Approaches

The Making Connections curriculum also acquaints students with six distinctive Approaches to knowledge, as represented by courses in the physical and life sciences, the social and behavioral sciences, historical analysis, philosophical and/or moral reasoning, literary arts, and the visual and performing arts. Students meet these requirements by taking courses worth a total of 25 credit hours.

Physical and Life Sciences (PL, PX), Two Courses

- Two courses (seven hours)

Students must take two courses, at least one of which has a required laboratory component. Science courses combining lecture and laboratory

components normally constitute four hours of credit. Some lecture courses may be taken singly for three credit hours or combined with an optional matching laboratory for one additional credit hour. All courses in this category emphasize a physical science, a life science, the scientific basis of technology, or a combination of these topics. Students who have exceeded minimum high school science requirements typically have an advantage in the University's science courses.

Physical and Life Sciences without Laboratory (PL)

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Physical and Life Sciences with Laboratory (PX)

Some of the courses listed below have an optional laboratory and may be used to satisfy the physical and life sciences with laboratory (PX) requirement.

Note: The lecture is either a pre- or corequisite to the laboratory; see course description. The student must take both the lecture and the associated laboratory in order to receive credit for the physical and life sciences with laboratory (PX) requirement. Without the associated optional laboratory, the lecture course counts as a physical and life sciences (PL) class.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Social and Behavioral Sciences (SS, HS), Three Courses

- Three courses from at least two different academic units (nine hours); at least one of the three courses must be classified as a historical analysis (HS) course.

Courses in social and behavioral sciences focus on the scientific study of individual or collective behavior, considering the various dimensions of individual behavior, the family, society, culture, politics, and the economy.

Social Sciences (SS)

Humanities and Fine Arts (PH, LA, VP), Three Courses

- Three courses (nine hours), including one in philosophical and/or moral reasoning (PH), one in the literary arts (LA), and one in the visual and performing arts (VP).

The humanities and fine arts explore enduring issues of the human condition and develop and encourage the means of communicating, representing, and expressing the varieties of human experience.

Philosophical/Moral Reasoning (PH)

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Connections

The Making Connections curriculum builds on previously acquired knowledge and establishes links between discrete forms of knowledge, both by encouraging interdisciplinary contact and conversation and

by inviting students to develop and apply their academic expertise in environments beyond the University classroom.

Because Connections courses may meet multiple requirements at once (including Approaches requirements, other Connections requirements, major and/or minor requirements, or the Supplemental General Education requirement), most students should be able to fulfill the eight Connections requirements without taking credit hours in addition to those needed to fulfill Foundations, Approaches, and major/minor requirements.

Communication Intensive (CI), One Course

Communication intensive courses integrate written work, oral presentations, and processes of revision into the course subject matter in substantive and important ways. They build on and enhance skills acquired in English composition and rhetoric classes as well as foreign language classes by preparing students to write and speak effectively in disciplinary areas.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Quantitative Intensive (QI), One Course

Quantitative intensive courses focus especially on the ways that quantitative reasoning can be applied within particular fields. They involve modeling and problem solving, numerical reasoning, the collection and interpretation of quantitative data, mathematical analysis, the application of formal logic and proofs, or some combination of these. The requirement can be satisfied by taking one course from the list below or by taking a second quantitative reasoning (QR) course from the list of approved courses in that category.

Code	Title	Hours
ANTH 411	Laboratory Methods in Archaeology ^H	3
ASTR 63	First-Year Seminar: Catastrophe and Chaos: Unpredictable Physics ^H	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Experiential Education (EE), One Course

- One course or credit-bearing activity is required.

Experiential education courses connect academic inquiry with a structured, active learning experience in which students exercise initiative and apply academic knowledge in various real-world contexts (geographic, social, cultural, etc.). Students may satisfy the experiential education requirement in a number of ways. They may participate in specifically approved undergraduate research programs or approved service-learning courses, take an approved course with a substantial field work component, participate in a University-approved study abroad program, complete an approved internship or honors thesis administered through an academic unit, or participate in an approved community- or audience-oriented creative activity. Please see the Study Abroad Program Office (<http://studyabroad.unc.edu>) for additional experiential education opportunities.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

U.S. Diversity (US), One Course

Courses in U.S. diversity help students develop a greater understanding of diverse peoples and cultures within the United States and thereby enhance their ability to fulfill the obligations of United States citizenship. These courses address in systematic fashion one or more aspects of

diversity in the United States, whether arising from ethnic, generational, class, gender, sexual, regional, or religious differences.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Global Issues (GL), One Course

Courses in global issues provide knowledge and understanding of transnational connections and global forces. Those forces involve interrelationships among cultures, societies, nations, and other social units, and they include processes such as migration, urbanization, trade, diplomacy, cultural adaptation, and information flow.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Supplemental General Education

Students who pursue the bachelor of arts degree also must satisfy a Supplemental General Education requirement. The intent of this requirement is to broaden a student's perspective on the major by examining its relationship to work in at least one other field. Students may fulfill the Supplemental General Education requirement in three ways:

- By completing a second major or a minor; or
- By completing three courses (nine hours) above 199 that are offered outside the home department or curriculum of the first major. These three courses can neither be used to fulfill the requirements of the first major nor be cross-listed with courses that a student has used to satisfy major requirements; or
- By completing a concentration outside a professional school as part of the degree requirements for graduating from the school.

Catalog Year

The requirements of the Making Connections curriculum apply to students beginning undergraduate study in or after the fall semester of 2006. Because students are subject to the requirements in place when

they were admitted to the University of North Carolina at Chapel Hill, the General Education requirements described in this *Catalog* particularly apply to students entering the University during the 2020–2021 academic year.

The courses listed above satisfy the General Education requirements during the 2020–2021 academic year. Because the content and structure of a course may change, the requirements it fulfills also may change. To determine which courses will satisfy General Education requirements in future years, students should consult ConnectCarolina or subsequent issues of the *Catalog*.

Office of Undergraduate Curricula

James Thompson, Associate Dean

Nick Siedentop, Curriculum Director

The Office of Undergraduate Curricula (<http://curricula.unc.edu>) has primary responsibility for monitoring all curricular changes in the General College and the College of Arts and Sciences. This office receives and reviews all requests for new courses, course revisions, changes to degree programs, and proposals for new minors, majors, and curricula.

Requirements for Undergraduate Degree Programs

The requirements and limitations that apply to all undergraduate degree programs are as follows:

- Students must successfully complete at least 120 semester hours of coursework (requirements are higher than this minimum in some bachelor of science degree curricula)
- Students must have at least a 2.000 final cumulative grade point average on all work attempted at the University of North Carolina at Chapel Hill.
- Students must satisfy all General Education requirements. In some B.S. programs offered by professional schools, General Education requirements may be reduced. No course used as a General Education requirement may be *declared* Pass/Fail, except for lifetime fitness (LFIT) courses and some forms of experiential education that award only Pass/Fail credit.
- A minimum of 45 academic credit hours must be earned from UNC–Chapel Hill courses. These may include credits from study abroad programs sponsored by the University.
- At least 24 of the last 30 academic credit hours applied to the degree requirements must be earned in UNC–Chapel Hill courses.
- The maximum number of credit hours from distance-learning courses, all of which must be designated UNC–Chapel Hill, that can be counted toward an undergraduate degree in the College of Arts and Sciences is 24. Refer to Policies and Procedures (p. 1257) for more information.
- No more than 45 semester hours in any subject, as defined by subject code, may be used toward fulfilling the B.A. graduation requirement in the College of Arts and Sciences (excluding ENGL 100, ENGL 105, and ENGL 105I).
- Students completing the requirements for more than one major field of study will earn only one degree and receive only one diploma. For additional information, including which degree is awarded when completing more than one major field of study, refer to Policies and Procedures (p. 1285).

The Policies and Procedures (p. 1256) section of this catalog contains information on many important topics, including registration, academic course load, academic eligibility, repeating course enrollments, final examinations, and the grading system, among others.

Students who enter the University as first-year students are expected to complete their undergraduate degree in eight semesters. Summer terms are not included in the semester count. Students who wish to attend a ninth semester must submit a written petition to, and receive permission from, their dean's office. Permission to enroll in a ninth semester or beyond must be secured in advance. Permission to enroll in a ninth semester or beyond will not be granted for the sole purpose of completing multiple areas of study (i.e., a secondary major and a minor or two minors). However, students who receive permission to enroll in a ninth semester or beyond for other reasons may retain a secondary major or minor.

Transfer students (who transfer in the UNC–Chapel Hill equivalent of two or more semesters) may enroll in up to 10 total semesters and complete up to three areas of study (i.e., a secondary major and a minor or two minors).

Maintained by the Educational Policy Committee. Last approved on January 27, 2017, see Resolution 2017-1 (<https://facultygov.unc.edu/files/2017/01/Res201701OnMultipleAreasofStudy.pdf>).

Students must complete a major field of study as prescribed by the academic unit.

Requirements for Majors

The following requirements and limitations apply to all undergraduate academic majors at the University:

- Unless specifically prohibited by departments or curricula, major or minor courses may be used to satisfy General Education requirements.
- Courses in a student's major academic unit, or specifically required by the major, including foreign language courses, electives, and any additional required courses (or any courses cross-listed with such required courses) may not be declared a Pass/Fail course (p. 1264).
- Although a specific grade point average in the major is not required, a minimum of 18 hours of C or better (C- does not qualify) in the major core is required. Certain majors require 21 hours of C or better grades in the major core.
- Students transferring credits in their major field must earn a grade of C (not C-) or better in at least three-fourths of those courses and credit hours in the major that are taken at UNC–Chapel Hill. Courses taken on a study abroad program through the UNC Study Abroad Office may receive TREQ credit; TREQ credit contributes to the hours of C in the major.
- All students, including students transferring from another institution, must take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill.
- Some majors require a gateway course that must be taken first, before enrolling in any other courses that satisfy the core requirements in the major. Students must earn a grade of C or better (C- does not qualify) in the gateway course. Unless otherwise noted, the gateway course is not counted in the hours of C in the major core.
- No more than two courses (six to eight credit hours) of BE credit (p. 1257) may be used as part of the major core.

Requirements for Minors

Students enrolled in the College of Arts and Sciences who wish to complete a minor in a professional school must receive permission from the professional school.

The following requirements and limitations apply to all undergraduate academic minors:

- A student may have no more than two minors, regardless of the student's major degree program. Academic units may exclude certain minors from being elected and completed by students majoring in these units.
- More than half (not merely half) of the credit hours and courses (including cross-listed courses) taken to satisfy the minor requirements must be counted exclusively in the minor and not double-counted in other majors or minors.
- At least nine hours of 'core' requirements in the minor must be completed at UNC–Chapel Hill and not at other academic institutions. Certain academic units may require that more than nine hours must be completed at the University.
- Some academic units may disallow the double-counting of courses in the minor and as General Education courses.
- A minimum of 12 hours of C (not C-) grades or better is required in the minor, though some minors may require more. Students who transfer courses into the minor must earn C or better grades in three-quarters of the courses and hours that they take for the minor at UNC–Chapel Hill. Students who use By-Examination (BE) credit (see section below) toward a minor may have fewer than 12 hours of coursework remaining to complete the minor (especially for minors with fewer than five courses or 15 hours); in these situations, earning grades of C or better in all of the remaining coursework is required.
- No more than one BE credit (p. 1257) course (three to four credit hours) may be used as part of a minor.
- All courses in the minor unit must be taken for a regular letter grade. Courses in a student's minor unit, or specifically required by the minor, including foreign language courses, electives, and any additional required courses (or any courses cross-listed with such required courses) may not be declared a Pass/Fail course (p. 1264).
- If students plan to pursue the completion of a minor, they are encouraged to declare their minor by early in the junior year.

Combining Majors and Minors

Students in the College of Arts and Sciences are permitted to study up to three subjects in depth. They may do this in one of the following ways:

- one major
- two majors
- one major and one minor
- two majors and one minor
- one major and two minors

Students enrolled in professional schools who wish to have a second major or minor in the College of Arts and Sciences must receive permission from their professional school and the College of Arts and Sciences; students who receive permission to have a second major in the College of Arts and Sciences are required to complete all General Education requirements, including all eight Connections. Students enrolled in professional schools who wish to have a second major or

minor in a different professional school must receive permission from both professional schools.

A student may pursue in-depth study in multiple areas by fulfilling all major/minor requirements in each of the selected disciplines, in addition to General Education requirements. Students may not pursue two concentrations (emphases, options, or tracks) within the same major. In general, students may pursue a minor in the same department or curriculum as the major, provided they follow the double-counting rules described below and do not exceed 45 credit hours of coursework in any one subject. For example, a major in Asian studies with a concentration in Japanese and a minor in Korean, both housed in the Department of Asian Studies, are permitted. Some departments may restrict majors and minors within the same academic unit, so please consult an academic advisor, the department, or the curriculum.

Courses that fulfill core requirements for a major or minor may be double-counted (applied to a second major or minor) with the following general limitation: more than half (not merely half) of the courses and course credit hours taken in each major/minor must be exclusive to that major/minor. In a 10-course major, for example, at least six courses, and at least 51 percent of the credit hours, should be counted exclusively in that major and should not double-count even if cross-listed with courses in a student's second major or a minor. Some majors may further restrict double-counting courses. Students who are pursuing two majors and a minor (or two minors and a major) may, in principle, use a single course to satisfy requirements in all three areas of study, provided that more than half (not merely half) of the courses and course credit hours taken in each major/minor are exclusive to that major/minor.

Graduation

Beginning with the first day of registration for the term for which students expect to graduate, they should file an application for graduation online in ConnectCarolina or in person in the office of the dean. For students in the College of Arts and Sciences, this is the office of the Academic Advising Program. A student who has not filed an application for graduation on or before the announced deadlines for fall or spring graduation will not be included in the graduation program.

Students must pay tuition, fees, and other obligations owed the University before receiving a diploma.

Graduation Requirements and Tar Heel Tracker

For students in the College of Arts and Sciences, total graduation requirements are determined by advisors in the Academic Advising Program (Steele Building) in conjunction with ConnectCarolina's Tar Heel Tracker degree-audit system. For students admitted to a professional school (education, media and journalism, nursing, information and library science, public health, business, dentistry), total graduation requirements are determined by advisors in their school in conjunction with ConnectCarolina's Tar Heel Tracker.

Undergraduate Degree Programs

The University offers programs of study leading to the bachelor of arts (B.A.), bachelor of arts in education (B.A.Ed.), bachelor of arts in media and journalism (B.A.M.J.), bachelor of fine arts (B.F.A.), bachelor of music (B.Mus.), bachelor of science (B.S.), bachelor of science in business administration (B.S.B.A.), bachelor of science in information science (B.S.I.S.), bachelor of science in nursing (B.S.N.), bachelor of science in pharmaceutical sciences (B.S.Ph.S.), and bachelor of science in public health (B.S.P.H.) degrees.

The College of Arts and Sciences offers more than 50 major fields of study (p. 202). Professional school majors are also available to undergraduates by application and acceptance. Specific requirements for each major are included in this catalog. For information about the other undergraduate degree programs, please refer to the professional schools' sections in this catalog.

Bachelor of Arts

Students seeking a bachelor of arts (B.A.) degree must complete the Supplemental General Education requirement. Among other options, completing a minor or a second major fulfills the Supplemental General Education requirement.

Bachelor of Science

Four-year programs leading to the degree of bachelor of science (B.S.) provide for specialization in a particular field and necessary instruction in related fields. In some B.S. programs offered by professional schools, General Education requirements may be reduced. Most B.S. programs, however, require students to complete quantitative reasoning courses beyond the General Education minimum and/or require specific quantitative reasoning courses.

Bachelor of Fine Arts

A four-year program leading to the degree of bachelor of fine arts (p. 311) is offered by the Department of Art and Art History. It provides, for qualified students, preprofessional training in creative aspects of the field of art. Approximately one-half of the program is in the field of the major, and the other half is in the liberal arts and sciences.

Bachelor of Music

The four-year program leading to the degree of bachelor of music (p. 794), housed in the Department of Music, emphasizes training and achievement in the performance or composition of music. Approximately one-half of the program (63 credit hours) is in the field of the major, and the other half (57 hours) is in the liberal arts and sciences.

Dual Bachelor's–Graduate Degree Programs

The University offers several dual bachelor–graduate degree programs. The programs currently offered are listed below. The requirements for the bachelor's degree must be completed within eight semesters of study (or 10 semesters of study for transfer students (p. 196)). The requirements for the graduate degree can be completed in as few as two additional semesters, for a possible total of 10 (or fewer) semesters of study. For information about the requirements and application process, please consult the relevant academic unit in this catalog.

- Biostatistics (p. 408) (B.S.P.H. –M.S.), Gillings School of Global Public Health
- Computer science (p. 482) (B.S. –M.S.), College of Arts and Sciences
- Contemporary European studies (p. 596) and political science (B.A. –M.A. Trans-Atlantic Master's Program), College of Arts and Sciences
- Education M.A.T. (p. 1078) (multiple bachelor's degree majors possible), School of Education
- English and comparative literature (p. 542) with a concentration in literature, medicine, and culture (B.A. –M.A.), College of Arts and Sciences

- Environmental science and engineering (p. 590) (multiple B.S. degree majors possible or B.S.PH–M.S. or M.S.P.H.), Gillings School of Global Public Health
- Environmental science and information science (p. 574) (B.S.–M.S.I.S.), College of Arts and Sciences and the School of Information and Library Science
- Environmental studies or environmental science and public administration (p. 567) (B.A. or B.S.–M.P.A.), College of Arts and Sciences and the School of Government
- Environmental studies or environmental science and mass communication (p. 567) (B.A. or B.S.–M.A.), College of Arts and Sciences and the School of Media and Journalism
- Information science (p. 1102) (B.S.I.S.–M.S.I.S or M.S.L.S.), School of Information and Library Science
- Linguistics (p. 753) (B.A.–M.A.), College of Arts and Sciences
- Nutrition (p. 806) (B.S.PH.–M.S.), Gillings School of Global Public Health
- Statistics and analytics (p. 1023) and statistics and operations research (B.S.–M.S.), College of Arts and Sciences

Joint Degree Programs with the National University of Singapore (NUS)

UNC–Chapel Hill undergraduates can spend anywhere from two to four semesters at the National University of Singapore and receive a joint bachelor of arts degree from both institutions. Programs are offered in biology (p. 384), economics (p. 505), English (<http://catalog.unc.edu/undergraduate/programs-study/english-major-ba/>), geography (p. 625), history (p. 728), and political science (p. 871).

Undergraduate Honors: Degrees with Distinction

To graduate with distinction or with highest distinction, students must have completed at least 45 academic hours at UNC–Chapel Hill and have an overall grade point average of at least 3.500 or 3.800 respectively. The grade point average is based on the grades received and recorded by the Office of the University Registrar as of the degree award date. No changes are permitted to the awards after that date.

Undergraduate Honors: Degrees with Honors

Students who wish to graduate from UNC–Chapel Hill with honors or highest honors must complete a senior honors thesis project in their major field(s) of study. Such students need not have been members of Honors Carolina. They must, however, meet academic eligibility standards set by Honors Carolina and the individual departments, curricula, and professional schools that sponsor senior honors thesis programs.

Students with double majors may graduate with honors or highest honors in both fields of study. To do so, they must complete a distinct project in each field. Students may not undertake a senior honors thesis project in a minor field (Creative Writing is the sole exception) or in a field outside of their declared major(s).

Students who successfully complete a senior honors thesis project will have the designation “Honors” or “Highest Honors” recorded on their diplomas and transcripts and will be denoted in the Commencement bulletin at graduation. Creative Writing minors earning honors or highest honors will also be recognized in the Commencement bulletin and have a

special remark added to their transcripts, but no designation will appear on their diplomas.

Application for honors work: Students should apply to the honors advisor in the department or curriculum of the major. Ordinarily, application is made during the junior year, although it is done earlier in some departments. Detailed information concerning the application should be obtained from the honors advisor in the major.

Requirements for eligibility: Students who wish to undertake a senior honors thesis project must have a cumulative grade point average of 3.300 or higher. Academic units that wish to impose a higher grade point average eligibility standard may do so by requiring that students meet both the cumulative 3.300 grade point average standard set by Honors Carolina office and a higher grade point average standard for all coursework required for the major.

Nature and purpose of honors study: Programs are provided for students who have demonstrated a high level of scholastic ability and achievement and who desire to pursue an intensive, individualized program of study in their major discipline. Senior honors thesis students must complete an original and substantial research, performance, or creative project under direct supervision by a faculty advisor.

Senior honors thesis projects are scheduled as a two-semester sequence of honors courses led by unit-designated faculty, independent study overseen by the faculty thesis advisor, or a combination of the two. Detailed guidelines on approved senior honors thesis scheduling formats are available on the Honors Carolina Web site (<http://honorscarolina.unc.edu>). Regardless of the scheduling format used, students must complete a total of 6.0 credit hours of senior honors thesis coursework during consecutive semesters, not during summer sessions.

A special written or oral examination on the student’s program is required during the final semester of honors study. The department or curriculum may impose other requirements that it deems appropriate. In every instance, study for honors will require academic excellence. When the student has fulfilled all requirements, the department or curriculum will recommend to the associate dean for honors that the degree be awarded with honors or with highest honors. The degree with highest honors is conferred in recognition of extraordinary achievement in a program of honors study.

Procedures for granting degrees with honors: The grade for coursework in connection with an honors project is determined by the faculty advisor and is (like all grades) subject to appeal. Successful completion of honors study does not automatically confer departmental honors. Before awarding a degree with honors or highest honors, the College of Arts and Sciences requires the recommendation of a student’s examining committee and the endorsement of that committee’s recommendation by the chair of the department or curriculum. A negative recommendation by the department is final and cannot be appealed. The associate dean for honors makes the final decision to award a degree with honors on the basis of the department’s positive recommendation and the student’s cumulative grade point average.

Phi Beta Kappa

This national collegiate honor society is open to undergraduate students in the College of Arts and Sciences and in exceptional circumstances (as described below) to students enrolled in undergraduate professional degree programs. The following students in the College of Arts and Sciences are eligible for membership:

- Students who have completed at least 75 semester hours of graded academic coursework in the liberal arts and sciences at UNC–Chapel Hill with a quality point average of at least 3.850
- Students who have completed at least 105 semester academic course hours in the liberal arts and sciences, at least 45 of which must have been graded coursework taken at UNC–Chapel Hill with a quality point average of at least 3.750

No grades made at an institution from which a student has transferred shall be included in determining a student's eligibility. The quality point average shall include all academic coursework in the liberal arts and sciences taken and counted toward the candidate's degree (physical activity grades and hours are not included). Grades and hours received on courses taken after the candidate has received his or her degree shall not be counted.

Undergraduate students not enrolled in the College of Arts and Sciences who meet the general semester hours and quality point average described in the second bullet above and who have completed at least 90 semester hours of coursework in the departments and curricula of the College of Arts and Sciences (or the equivalents accepted for transfer credit from other institutions) are eligible for election.

Dean's List

To be eligible for the Dean's List, full-time students who enter the University as first-time, first-year students beginning in fall 2010 must meet the following requirement:

- A 3.500 grade point average with no grade lower than a C and enrollment in at least 12 hours of letter-grade credit, exclusive of physical education activities (PHYA) courses.

The grade point average is based on the grades received and recorded by the Office of the University Registrar at the time the Dean's List is published. No changes are permitted to the Dean's List after that date.

COURSE NUMBERING

Courses are designated with a subject code and course number. The number assigned to a course generally denotes its level and may also indicate a course type. Suffixes may be appended to course numbers to indicate course format or honors status. For additional information about course numbering, see University Policy Memorandum #4 (<http://registrar.unc.edu/academic-services/policies-procedures/university-policy-memorandums/upm-4-standard-course-numbering-system/>).

For courses in the Undergraduate and Graduate academic careers starting in Fall 2006, the numbers assigned to courses are normally categorized as follows:

Course Numbers

- **100-189:** Introductory Undergraduate Courses
- **190-399:** Courses for Undergraduate Students
- **400-699:** Courses for Advanced Undergraduate and Graduate Students
- **700-899:** Courses for Graduate Students (Undergraduate Students may enroll with department permission)
- **900-999:** Courses for Graduate Students only

Special Course Numbers

- **50-89:** First-Year Seminars
- **190, 290, 390:** Undergraduate Special Topics Courses
- **490, 590, 690:** Undergraduate and Graduate Special Topics Courses
- **193, 293, 393:** Undergraduate Internships and Practica
- **493, 593, 693:** Undergraduate and Graduate Internships and Practica
- **195, 295, 395:** Undergraduate Research Courses
- **495, 595, 695:** Undergraduate and Graduate Research Courses
- **196, 296, 396:** Undergraduate Independent Study/Reading Courses
- **496, 596, 696:** Undergraduate and Graduate Independent Study/Reading Courses
- **691H, 692H, 693H, 694H:** Senior (Undergraduate) Honors Thesis Courses
- **697, 698:** Undergraduate Capstone Courses
- **799:** Graduate Experimental Course Offering
- **890-899:** Graduate Special Topic Courses
- **900-991:** Graduate Research Courses
- **992, 993:** Master's Thesis Courses
- **994:** Doctoral Dissertation Course

Foreign Language Courses:

- **Beginning Level:** 101, 102 and 401, 402
- **Intermediate Level:** 203, 204 and 403, 404
- **Graduate Foreign Language Requirement:** 601, 602 and 603, 604

Suffixes

For courses in the Undergraduate and Graduate academic careers starting in Fall 2006, the following suffixes may be used:

- **H:** Honors Course or Course for Advanced Students¹
 - **L:** Credit-Bearing Laboratory Course
 - **I:** Interdisciplinary Course
-

¹ See the Honors Carolina website (<http://honorscarolina.unc.edu/>) for information on enrolling in honors courses.

UNDERGRADUATE

About the Undergraduate Catalog

The *Undergraduate Catalog* is a valuable resource that prospective and enrolled students can use throughout their days at the University of North Carolina at Chapel Hill. The *Catalog* supplies general information about the University to prospective students and their parents. It includes information about application procedures and about orientation and matriculation for undergraduate students who have been accepted.

Academic regulations, University facilities, and college life also are described. Departmental degree requirements and course offerings are included, but students in some specialized curricula will be referred to other publications for additional information. Enrolled students are encouraged to use the *Catalog* in addition to talking with advisors and consulting their Tar Heel Tracker for undergraduate degree requirements.

This catalog is concerned primarily with prospective students and with undergraduates enrolled in the General College, the College of Arts and Sciences, and the Schools of Business, Dentistry, Education, Information and Library Science, Journalism and Media, Medicine, Nursing, Pharmacy, and Public Health, as well as Summer School.

The following additional catalogs and admissions brochures are published by the University of North Carolina at Chapel Hill, in print form and/or on the Web: Kenan–Flagler Business School, School of Dentistry, School of Education, School of Government, School of Information and Library Science, School of Journalism and Media, School of Law, School of Medicine, School of Nursing, Gillings School of Global Public Health, School of Social Work, and Summer School. Part-Time Classroom Studies and Self-Paced Courses also publish course catalogs.

Students may expect to receive a degree by fulfilling the requirements of a curriculum as specified in the *Undergraduate Catalog* for the year in which the student matriculated at the University of North Carolina at Chapel Hill. The University is not strictly obligated to fulfill this expectation since changes to the structure of degree requirements may entail widespread curricular adjustments, but it will make every effort to modulate changes so that appropriate substitutes for particular requirements, or particular courses, are available to students operating under a previous set of expectations. The faculty reserves the right to make any changes deemed necessary in the curricula and in regulations. By University policy, the regulations in this catalog are not necessarily valid beyond the academic year for which it was published.

Undergraduate Programs of Study: Majors and Minors

A

- Aerospace Studies Minor (p. 207)
- African American and Diaspora Studies Minor (p. 218)
- African Studies Minor (p. 217)
- African, African American, and Diaspora Studies Major, B.A. (p. 216)
- American Indian and Indigenous Studies Minor (p. 247)
- American Studies Major, B.A. (p. 230)
- American Studies Major, B.A.–American Indian and Indigenous Studies Concentration (p. 237)
- American Studies Major, B.A.–Folklore Concentration (p. 239)

- American Studies Major, B.A.–Global American Studies Concentration (p. 241)
- American Studies Major, B.A.–Southern Studies Concentration (p. 243)
- American Studies Minor (p. 246)
- Anthropology (General) Minor (p. 273)
- Anthropology Major, B.A. (p. 269)
- Applied Sciences and Engineering Minor (p. 278)
- Arabic Minor (p. 357)
- Archaeology Major, B.A. (p. 281)
- Archaeology Minor (p. 285)
- Art History Major, B.A. (p. 304)
- Art History Minor (p. 317)
- Asian Studies Major, B.A.–Arab Cultures Concentration (p. 345)
- Asian Studies Major, B.A.–Chinese Concentration (p. 347)
- Asian Studies Major, B.A.–Interdisciplinary Concentration (p. 339)
- Asian Studies Major, B.A.–Japanese Concentration (p. 350)
- Asian Studies Major, B.A.–Korean Studies Concentration (p. 352)
- Asian Studies Major, B.A.–South Asian Studies Concentration (p. 354)
- Asian Studies Minor (p. 356)
- Astronomy Minor (p. 858)

Eric Theriault, Chair

Introduction

The United States Air Force Reserve Officer Training Corps (AFROTC) program provides leadership training to students pursuing a career as an officer in the United States Air Force. The AFROTC program is open to students looking for a challenging career and the opportunity to support and defend the Constitution of the United States. AFROTC is more than just a department in the College of Arts and Sciences; it is a professional organization designed to provide students growth, development, and leadership opportunities beyond the classroom. Cadets learn and develop these skills through hands-on experiences both inside and outside the traditional classroom setting.

The Air Force ROTC Program

Four-Year Traditional ROTC Program

This program is for students who enroll as cadets in AFROTC and plan to graduate in four years with a commission as an Air Force second lieutenant. Cadets must take aerospace studies courses, AERO 500 Leadership Laboratory, and participate in weekly physical training. In the spring of their sophomore years, cadets will compete for a spot to attend a two-week field training course in the summer. Successful completion of field training grants entry into the Professional Officer Course (POC) for their junior and senior years. Cadets in the POC refine their leadership skills and prepare for a United States Air Force active duty commission upon graduation.

Non-traditional ROTC Program

Students who do not enroll in Air Force ROTC in their first semester are still eligible to participate in the program. They will participate in the same academic courses, leadership laboratory, and physical training as traditional cadets. All non-traditional cadets will be required to complete AERO 101, AERO 102, AERO 201, and AERO 202 prior to attending field training.

Interested Students

Students seeking to learn more about the Air Force or ROTC can take AERO 101, AERO 102, AERO 201, or AERO 202 with no obligation. These courses provide an introduction to Air Force operations and culture, providing students with the necessary information to make an informed decision about whether the Air Force interests them.

Advising

All majors and minors have a primary academic advisor in Steele Building. At a minimum, students who join the AFROTC program are required to meet with their advisor every fall to develop and update their academic plan. The department's education officer and academic instructors help oversee this process. For information on Air Force officer careers, please visit the AFROTC Web site (<http://www.afrotc.com>).

Special Opportunities in Aerospace Studies

Scholarships and Financial Assistance

Two- to 3.5-year scholarships are available to students based on merit or specialized major (e.g., foreign language or nursing). In most cases, these scholarships cover tuition and fees, provide a monthly stipend (\$300 to \$500 each month), and a textbook allowance (\$450) each semester. The scholarship does not cover room and board.

Foreign Language/Study Abroad Stipend and Opportunities

All contract and scholarship cadets are eligible to earn up to \$3,000 per academic year for studying a foreign language or participating in a study abroad program.

Air Force ROTC cadets are uniquely eligible to participate in Department of Defense language grant programs through major universities, often involving study abroad. See Project GO (<http://www.rotcprojectgo.org>) or contact the unit admissions officer for more information.

Extracurricular Activities

The AFROTC experience is more than classroom study; cadets participate in a variety of extracurricular activities. These include social functions such as a heritage dinners, fundraising events, presenting the flag at home football and basketball games, volunteer work in the community, and trips to military bases. Recent cadet activities are highlighted on a public Facebook page (<http://www.facebook.com/UNC.AFROTC.DET590/>).

Arnold Air Society (AAS) is a national service organization dedicated to furthering the traditions, purposes, and concepts of the United States Air Force as a military organization and a professional calling. The local AAS chapter is active nationwide and AFROTC cadets attend the regional and national conventions each year.

Guaranteed Job Placement

Successful completion of the AFROTC program guarantees commission as a second lieutenant in the United States Air Force.

Minor

- Aerospace Studies Minor (p. 207)

Professor

Eric Theriault, Lieutenant Colonel, U.S. Air Force.

Assistant Professors

Howard Church, Major, U.S. Air Force.

Kendrick Fitzgerald, Captain, U.S. Air Force.

AERO—Aerospace Studies

Undergraduate-level Courses

AERO 101. Heritage and Values of the United States Air Force. 1 Credit.

Part one of a two-part course that examines the opportunities of an Air Force officer, as well as the structure and function of the Air Force.

Grading status: Letter grade.

AERO 102. Heritage and Values of the United States Air Force. 1 Credit.

Part two of a two-part course that examines the opportunities of an Air Force officer, as well as the structure and function of the Air Force.

Grading status: Letter grade.

AERO 190. Seminar. 1-3 Credits.

Seminar in topics related to the United States Air Force.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

AERO 196. Independent Study. 1-3 Credits.

Readings and research of topics regarding the United States Air Force.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

AERO 201. Team and Air Force Leadership Fundamentals. 1 Credit.

This course lays the foundation for leading effective teams and developing leadership skills.

Grading status: Letter grade.

AERO 202. Team and Air Force Leadership Fundamentals II. 1 Credit.

This course continues to lay the foundation for leading effective teams and developing leadership skills.

Grading status: Letter grade.

AERO 213. Air Power and Modern Warfare. 3 Credits.

Examines air power theory and practice from 1914 to the present.

Focuses on the application of air power as an instrument of war and the effectiveness of that application.

Gen Ed: HS, GL.

Grading status: Letter grade

Same as: HIST 213, PWAD 213.

AERO 301. Leading People and Effective Communication I. 3 Credits.

Part one of a two-part course concerning contemporary leadership and management of the Air Force Officer.

Requisites: Prerequisites, AERO 101, 102, 201, and 202.

Gen Ed: CI.

Grading status: Letter grade.

AERO 302. Leading People and Effective Communication II. 3 Credits.

Part two of a two-part course concerning contemporary leadership and management of the Air Force Officer.

Requisites: Prerequisites, AERO 101, 102, 201, and 202.

Gen Ed: CI.

Grading status: Letter grade.

AERO 393. Air and Space Expeditionary Training. 1 Credit.

Provides leadership training in a military environment. Professional development is achieved through academics, physical fitness, marksmanship, and leadership exercises. Course reviews leadership lessons in a simulated expeditionary deployment to a combat zone. Restricted to ROTC cadets from all services.

Gen Ed: EE- Field Work.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

AERO 401. National Security Affairs and Preparation for Active Duty. 3 Credits.

Part one of a two-part class that examines the basic elements of national security policy and process issues relevant to new Air Force officers.

Requisites: Prerequisites, AERO 101, 102, 201, and 202.

Grading status: Letter grade.

AERO 402. National Security Affairs and Preparation for Active Duty. 3 Credits.

Part two of a two-part class that examines the basic elements of national security policy and process issues relevant to new Air Force officers.

Requisites: Prerequisites, AERO 101, 102, 201, 202, 301, and 302.

Grading status: Letter grade.

AERO 500. Leadership Laboratory. 0 Credits.

Required for all AFROTC cadets. The purpose of the LLAB program is to augment the AFROTC academic curriculum by providing prospective Air Force officers the opportunities and feedback needed to develop the leadership, managerial, and supervisory skills required of successful Air Force officers. The laboratory also offers insight into career opportunities in the USAF, life, and work of the USAF junior officer, and military ceremonies.

Repeat rules: May be repeated for credit.

Grading status: Letter grade.

Aerospace Studies Minor

Contact Information

Department of Aerospace Studies

Visit Program Website (<http://afrotc.unc.edu>)

ROTC Armory, 221 South Columbia Street, CB# 7480
(919) 962-2074

Eric Theriault, Chair

The aerospace studies minor is for students looking to explore topics such as heritage and values of the U.S. Air Force; the application of air power; leadership, management, and ethics training; and national security affairs with Air Force officers and AFROTC cadets. The minor in aerospace studies is open to all UNC—Chapel Hill students.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor 'core' requirements at UNC—Chapel Hill

- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
Students may select courses for the minor from the following list:		14
AERO 101	Heritage and Values of the United States Air Force	
AERO 102	Heritage and Values of the United States Air Force	
AERO 201	Team and Air Force Leadership Fundamentals	
AERO 202	Team and Air Force Leadership Fundamentals II	
AERO 301	Leading People and Effective Communication I	
AERO 302	Leading People and Effective Communication II	
AERO 393	Air and Space Expeditionary Training	
AERO 401	National Security Affairs and Preparation for Active Duty	
AERO 402	National Security Affairs and Preparation for Active Duty	
AERO/HIST/ PWAD 213	Air Power and Modern Warfare	
Total Hours		14

Students must complete a minimum of 12 hours of coursework with a grade of C or better. The remaining two hours must be completed with a grade of C- or better.

Eunice Sahle, Chair

Kenneth Janken, Director of Undergraduate Studies
krjanken@email.unc.edu

Introduction

The curriculum of the Department of African, African American, and Diaspora Studies emphasizes the histories, cultures, cultural linkages, and contemporary sociopolitical and economic realities of Africa and the African diasporas in the context of a globalizing world. Included on our faculty are award-winning teachers and recognized scholars whose work in and out of the classroom covers all major regions of Africa, the United States, and increasingly other parts of the Atlantic African Diaspora, including the Caribbean and Latin America. We approach these areas of study from multiple perspectives and disciplines, and the department's faculty members are trained in the fields of anthropology, film, history, international development studies, law, linguistics, literature, music, and political science.

Advising

We encourage students to talk with the director of undergraduate studies when they declare the major in African, African American, and Diaspora studies. The director of undergraduate studies is also available to students who are interested in the department's offerings at other times in their academic careers.

Graduate School and Career Opportunities

The skills and perspectives of African, African American, and Diaspora studies provide an excellent background for students considering careers in international development, education, business, government, or diplomacy. Students go on to a variety of managerial, teaching, and research positions. Other careers for which the major is excellent preparation include law, communication, social work, community development, and public administration.

Major

- African, African American, and Diaspora Studies Major, B.A. (p. 216)

Minors

- African Studies Minor (p. 217)
- African American and Diaspora Studies Minor (p. 218)

Professors

Kia Caldwell, Claude A. Clegg III, Kenneth Janken, Georges Nzongola-Ntalaja.

Associate Professors

Lydia Boyd, Perry Hall, Michael Lambert, David Pier, Charlene Register, Eunice Sahle.

Assistant Professors

Maya Berry, Petal Samuel, Ronald Williams II.

Teaching Assistant Professors

Samba Camara, Alicia Monroe, Alphonse Mutima, Mohamed Mwamzandi, Robert Porter.

AAAD—African, African American, and Diaspora Studies

The department has adopted the following numbering system for all AAAD courses numbered above 99:

- Courses ending in 00 to 29: African studies
- Courses ending in 30 to 59: African American studies
- Courses ending in 60 to 84: African Diaspora outside the United States
- Courses ending in 85 to 99: Courses that cross geography; dedicated courses whose numbers are reserved by the University Registrar, such as independent studies and internships.

Undergraduate-level Courses

AAAD 50. First-Year Seminar: Defining Blackness. 3 Credits.

Blackness and whiteness as racial categories have existed in the United States from the earliest colonial times, but their meanings have shifted and continue to shift. Over the semester we will attempt to define and redefine blackness in the United States.

Gen Ed: SS, US.

Grading status: Letter grade.

AAAD 51. First-Year Seminar: Masquerades of Blackness. 3 Credits.

This course is designed to investigate how race has been represented in cinema historically with a emphasis on representations of race when blackness is masqueraded.

Gen Ed: VP, US.

Grading status: Letter grade.

AAAD 53. First-Year Seminar: Experimentalism in Global Black Music and Performance Arts. 3 Credits.

This seminar focuses on artists from around the world who have taken an experimental approach to music-making and performance, inspired by black politics, culture, and history. Considers the special challenges blacks have faced in the field of 'modernism.' Students may opt to do creative artistic projects in lieu of a final research paper.

Gen Ed: VP, GL.

Grading status: Letter grade.

AAAD 54. First-Year Seminar: African Migrations, Boundaries, Displacements, and Belonging. 3 Credits.

This discussion-oriented seminar will use the works of African authors and filmmakers to explore how this dimension of the African experience has in part shaped the everyday lives of the peoples of the African continent.

Gen Ed: SS, GL.

Grading status: Letter grade.

AAAD 89. First Year Seminar: Special Topics. 3 Credits.

Special Topics Course: content will vary each semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

AAAD 101. Introduction to Africa. 3 Credits.

Introduction to the study of the African continent, its peoples, history, and contemporary problems of development in a globalized world, including a survey of the African past, society and culture, and contemporary political, economic, and social issues.

Gen Ed: BN, GL.

Grading status: Letter grade.

AAAD 130. Introduction to African American and Diaspora Studies. 3 Credits.

The course tracks the contours of history, life, societies, and cultures of the Atlantic African diaspora from their origins through Emancipation in the United States, the Caribbean, and South America.

Gen Ed: HS, US.

Grading status: Letter grade.

AAAD 159. The History of the Black Church and Social Change. 3 Credits.

A survey of the historical development of the black church in America, beginning during the antebellum period and continuing to the present day.

Grading status: Letter grade.

AAAD 200. Gender and Sexuality in Africa. 3 Credits.

Introduction to the study of gender and sexuality in African societies. Theoretical questions relating to the cross-cultural study of gender will be a primary focus. Topics include historical perspectives on the study of kinship and family in Africa and the impact of colonialism and other forms of social change.

Gen Ed: SS, BN.

Grading status: Letter grade

Same as: WGST 200.

AAAD 201. Introduction to African Literature. 3 Credits.

An introduction to African literature, with an emphasis on works by writers from the late colonial period to the present, and including a survey of different genres.

Gen Ed: LA, BN.

Grading status: Letter grade.

AAAD 202. African Film and Performance. 3 Credits.

This course examines the misrepresentation of Africa and Africans in western colonial films and how African filmmaking and performing have responded to the colonialist narrative.

Gen Ed: VP, BN.

Grading status: Letter grade.

AAAD 210. African Belief Systems: Religion and Philosophy in Sub-Saharan Africa. 3 Credits.

Topics such as the impact of colonialism and missionization on African societies, the changing practice of Islam in Africa, and the intersection of religious and political unrest in postcolonial societies are addressed.

Gen Ed: SS, BN.

Grading status: Letter grade.

AAAD 211. African Art and Culture. 3 Credits.

Introduction to the plastic arts of sub-Saharan Africa through study of their relationship to the human values, institutions, and modes of aesthetic expression of select traditional and modern African societies.

Gen Ed: VP, BN.

Grading status: Letter grade.

AAAD 212. Africa in the Global System. 3 Credits.

This course provides a critical examination of the historical and theoretical bases for understanding the challenges and opportunities facing African states and societies in the current global system, which is dominated by neoliberal globalization.

Gen Ed: BN, GL.

Grading status: Letter grade.

AAAD 214. Africa through the Ethnographic Lens. 3 Credits.

This course examines the ways by which anthropologists have used ethnographic texts to describe and frame African societies. Among the topics explored through a close textual reading of both classical and contemporary ethnographic texts are systems of thought, politics, economics, social organization and the politics of representation.

Gen Ed: SS, BN.

Grading status: Letter grade.

AAAD 231. African American History since 1865. 3 Credits.

Special emphasis on postemancipation developments.

Gen Ed: HS, US.

Grading status: Letter grade.

AAAD 232. Black Women in America. 3 Credits.

An examination of the individual and collective experiences of black women in America from slavery to the present and the evolution of feminist consciousness.

Gen Ed: SS.

Grading status: Letter grade

Same as: WGST 266.

AAAD 237. African American Art Survey. 3 Credits.

An introduction to African American art and artists and their social contexts from early slavery.

Gen Ed: VP, NA.

Grading status: Letter grade

Same as: ARTH 287.

AAAD 238. African American Literature Survey. 3 Credits.

This course is an introductory and chronological study of the African American literary canon. It examines various African American literary genres, including slave narratives, poetry, and the novel.

Gen Ed: LA, US.

Grading status: Letter grade.

AAAD 239. Disaster, Recovery, Resistance in Southern Black History. 3 Credits.

Since the 1920s environmental, health, industrial and other disasters have shaped southern African American culture, communities, and politics. The mass dislocation and despair brought by disasters and the manners in which African Americans resisted and struggled to overcome them have significantly changed the country's geographic, cultural, and political landscape. This course examines such epic disasters as floods, hurricanes, disease, and work-related tragedies and their long-term consequences and meanings.

Gen Ed: HS.

Grading status: Letter grade.

AAAD 240. African American Politics. 3 Credits.

A survey of African American political development from emancipation to the present. The course examines the dynamics of minority group politics with African Americans as the primary unit of analysis. Students consider African American politics in domestic and global contexts and issues of local, regional, national, and international relevance.

Gen Ed: HS.

Grading status: Letter grade

Same as: POLI 240.

AAAD 250. The African American in Motion Pictures: 1900 to the Present. 3 Credits.

This course will analyze the role of the African American in motion pictures, explore the development of stereotypical portrayals, and investigate the efforts of African American actors and actresses to overcome these portrayals.

Gen Ed: VP.

Grading status: Letter grade.

AAAD 252. African Americans in the West. 3 Credits.

African Americans in the West is a survey course that examines the origins, migration, and development of African descended peoples in the United States west of the Mississippi River.

Gen Ed: US.

Grading status: Letter grade.

AAAD 254. African Americans in North Carolina. 3 Credits.

This course is an overview of the black experience in North Carolina with special emphasis on Chapel Hill and Wilmington.

Gen Ed: HS, US.

Grading status: Letter grade.

AAAD 257. Black Nationalism in the United States. 3 Credits.

This course traces the evolution of black nationalism, both as an idea and a movement, from the era of the American Revolution to its current Afrocentric expressions.

Grading status: Letter grade.

AAAD 258. The Civil Rights Movement. 3 Credits.

An examination of the struggle by black Americans for social justice since World War II and of the systemic responses.

Gen Ed: HS.

Grading status: Letter grade.

AAAD 259. Black Influences on Popular Culture. 3 Credits.

This course examines the influence of African American expressive culture, particularly popular music, on American mainstream culture.

Gen Ed: VP.

Grading status: Letter grade.

AAAD 260. Blacks in Latin America. 3 Credits.

The majority of people of African descent in this hemisphere live in Latin America. This course will explore various aspects of the black experience in Latin America.

Gen Ed: HS, BN, GL.

Grading status: Letter grade.

AAAD 261. Afro-Cuban Dance: History, Theory, and Practice. 3 Credits.

Course interrogates concepts such as religion, folklore, nation, blackness, gender, history, and dance. Concepts illustrated through readings, movement practice (dance classes), and spectatorship.

Gen Ed: VP, BN.

Grading status: Letter grade.

AAAD 278. Black Caribbeans in the United States. 3 Credits.

This course will look at the experiences of black Caribbean immigrants in the United States and the activities in which they participate, as well as their shifting senses of their identities.

Gen Ed: SS.

Grading status: Letter grade.

AAAD 282. Afropessimism in American and European Film. 3 Credits.

Scholars of Afropessimism argue that we are not living in the age of post-slavery, but in the 'afterlife of slavery' and that Blacks exist outside of the world, because the social world is held together by anti-Blackness. This argumentation has had important effects within Black German and Black European Studies. This course seeks to explore these philosophical claims, by comparing American films with European films that deal with anti-Black racism.

Gen Ed: VP, NA.

Grading status: Letter grade

Same as: GSLL 282.

AAAD 284. Contemporary Perspectives on the African Diaspora in the Americas. 3 Credits.

An interdisciplinary survey of African-descendant communities and the development and expression of African/black identities in the context of competing definitions of diaspora.

Gen Ed: HS, BN.

Grading status: Letter grade.

AAAD 286. The African Diaspora in the Colonial Americas, 1450-1800. 3 Credits.

Explores the experiences of Africans in European colonies in locations such as colonial Mexico, Brazil, the Caribbean, and mainland North America. Lecture and discussion format. The major themes of inquiry include labor, law, gender, culture, and resistance, exploring differing experiences based on gender, location, and religion.

Gen Ed: HS, WB.

Grading status: Letter grade.

AAAD 287. Health Equity in the African Diaspora. 3 Credits.

Examines historical and contemporary processes shaping health and well-being in Africa Diaspora communities. Emphasis will be placed on health and health equity within African-descendant communities in the United States, Haiti, and Brazil.

Gen Ed: BN.

Grading status: Letter grade.

AAAD 288. Black Popular Cultures: Global Scopes. 3 Credits.

Through profound analysis of key aspects of black popular cultures in their global diversity, this course tackles fundamental questions about the meanings of black identity, identification, and belonging.

Gen Ed: SS, GL.

Grading status: Letter grade.

AAAD 290. Topics in African, African American, and Diaspora Studies. 3 Credits.

Subject matter will vary by instructor. Course description available from department office.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

AAAD 293. Individual Internships for Majors and Minors. 1-3 Credits.

Students work internships and develop, in conjunction with a faculty supervisor, an academic project relating to their internship experience. Permission of the director of undergraduate studies required.

Gen Ed: EE- Academic Internship.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Pass/Fail.

AAAD 298. Blacks in British North America to 1833. 3 Credits.

This course looks at blacks in the British world to 1833, with particular attention on the 13 colonies and the lands that would eventually form the Dominion of Canada.

Gen Ed: NA, WB.

Grading status: Letter grade.

AAAD 300. Cultures of Health and Healing in Africa. 3 Credits.

This course explores contemporary economic, political, and social factors influencing the health and welfare of African peoples. Emphasis is placed on understanding the cultural perspectives that shape non-Western experiences of health, disease, and notions of spiritual and physical well-being. Readings draw from the fields of anthropology, history, and public health.

Gen Ed: HS, BN.

Grading status: Letter grade.

AAAD 301. Contemporary China-Africa Relations. 3 Credits.

The course examines the contemporary relationship between China and Africa. This includes China and Africa's history; China's economic, trade, strategic, and foreign policy towards Africa; as well as the relationship between China and the Africans who live and work there.

Gen Ed: GL.

Grading status: Letter grade.

AAAD 302. West African History, Politics, and Culture. 3 Credits.

The first half of this course introduces students to the broad themes of West African history. The second half builds on this historical background by exploring case studies on a range of issues. Among the topics addressed in the case studies are Islam, gender, health, political violence, and globalization.

Gen Ed: SS, BN.

Grading status: Letter grade.

AAAD 303. Islamic Cultures in Contemporary Africa. 3 Credits.

This course explores the cultural practices and popular artistic expressions that have shaped the identities of modern African Muslims. The course lays emphasis on the contemporary era, but, when necessary, resorts to history to shed light on present-day Muslim cultures and arts in the continent.

Gen Ed: VP, BN.

Grading status: Letter grade.

AAAD 307. 21st-Century Scramble for Africa. 3 Credits.

Examines the 21st-century global competition for African resources and compares it to the 19th-century 'scramble for Africa.' Major actors include the European Union, the United States, and China.

Gen Ed: BN, GL.

Grading status: Letter grade.

AAAD 312. Terrorism in Africa. 3 Credits.

This course introduces students to the phenomenon of religious-based terrorism in Africa today, its causes, dynamics, and what the states affected, regional organizations, and the international community are doing to eradicate it.

Gen Ed: SS, GL.

Grading status: Letter grade.

AAAD 315. Political Protest and Conflict in Africa. 3 Credits.

This course surveys contemporary forms of political conflict and protest in Africa. The nature, causes, and consequences of these conflicts will be examined.

Gen Ed: SS, BN.

Grading status: Letter grade.

AAAD 316. Public Policy and Development in Africa. 3 Credits.

This course is a study of policy making in African states with respect to issues of sustainable development.

Gen Ed: SS, BN.

Grading status: Letter grade.

AAAD 318. Politics of Art in Africa. 3 Credits.

This course considers a variety of modern African artists and art scenes in their political, economic, and cultural contexts. Likely topics include artists under Apartheid, the global trade in traditional wood carvings, and Africa's place in the global contemporary art circuit.

Gen Ed: VP, BN.

Grading status: Letter grade.

AAAD 319. Africa and Masks. 3 Credits.

Examines the production, circulation, and consumption of masks in both African and non-African contexts. Expands, nuances, and sometimes undoes our notions of mask, masquerade, and masking.

Gen Ed: VP, BN, CI.

Grading status: Letter grade

Same as: ARTH 353, ANTH 343.

AAAD 320. Music of Africa. 3 Credits.

An introduction to African music new and old, focusing on the continent's distinctive techniques and concepts, and on its musical interactions with the rest of the world. The politics of music making in various historical settings will be explored. Prior musical experience is helpful, but not required.

Gen Ed: VP, BN.

Grading status: Letter grade.

AAAD 329. Islamic Cultures and Societies in East Africa. 3 Credits.

This course examines Islamic influences on the cultures and societies of East Africa. Topics include introduction of Islam in the region, Swahili city states, hybrid Islamic cultures, Islam in the constitution, Wahhabi and Salafist puritanical Islam, Islam and politics, and secessionist movements and terrorism in East Africa Muslim societies.

Gen Ed: SS, BN.

Grading status: Letter grade.

AAAD 330. 20th-Century African American Art. 3 Credits.

Focus on the historical development of African American art from the Harlem Renaissance of early 20th century through the Black Arts Movement and Feminist Art Movement 1960s and early 1970s.

Gen Ed: VP, US.

Grading status: Letter grade

Same as: ARTH 387.

AAAD 332. Remembering Race and Slavery. 3 Credits.

The course provides an examination of the ways that the past plays out in the present. Specifically this course examines memorials, monuments, and museums that remember and reinvent slavery and race in the United States and throughout the rest of the Diaspora.

Gen Ed: SS, US.

Grading status: Letter grade.

AAAD 333. Race and Public Policy in the United States. 3 Credits.

Exploration of the relationship between race and public policy in the U.S. Primary focus on African Americans, but other racial groups also studied. Key areas include reproductive justice, health care, employment, labor, welfare, education, housing, environmental justice, policing, criminalization, foreign policy, immigration, and war.

Gen Ed: SS, US.

Grading status: Letter grade

Same as: POLI 333.

AAAD 334. Performing African American History. 3 Credits.

Taking an issue of current or historic importance to African American communities, students conduct archival research and collect and/or analyze oral histories and work to create a documentary play that will be publicly performed.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

AAAD 335. Structure of African American English. 3 Credits.

This course treats the structural properties of African American English. Students will learn to use sentence data to test hypotheses about language structure by investigating the syntax and semantics of African American English.

Grading status: Letter grade

Same as: LING 335.

AAAD 340. Diaspora Art and Cultural Politics. 3 Credits.

Examines the socio-political dimensions of African diaspora art and culture with a focus on African Americans in the 20th century.

Gen Ed: VP.

Grading status: Letter grade.

AAAD 341. Law and Society. 3 Credits.

This course explores the intersection of law and societal developments drawing from the disciplines of history, political science, anthropology, feminist legal studies, and constitutional law. The themes of the course will vary depending on the training, research interests, and geographical concentration of the faculty teaching the course.

Gen Ed: HS.

Grading status: Letter grade.

AAAD 344. African American Theatre: Exploring Legacy and Contemporary Voices. 3 Credits.

This course investigates the history and legacy, as well as contemporary trends and ideas of African American drama through the study of its literary texts, performance styles, and cultural history. We will explore how the African American's dramatists voice is shaping cultural landscapes and ongoing conversations.

Grading status: Letter grade.

AAAD 350. The Harlem Renaissance. 3 Credits.

An exploration of outstanding themes of the Harlem Renaissance's poetry, fiction, painting and visual art, and political journalism. The course includes excursions to museums and libraries. Previously offered as AAAD 450.

Gen Ed: HS.

Grading status: Letter grade.

AAAD 356. The History of Hip-Hop Culture. 3 Credits.

Examines the emergence and impact of hip-hop music and culture and its broad influence in mainstream culture, as a global phenomenon and as a vehicle embodying formative ideas of its constituent communities.

Gen Ed: VP.

Grading status: Letter grade.

AAAD 385. Emancipation in the New World. 3 Credits.

Will examine the way that the process of emancipation unfolded in Haiti, Jamaica, and Cuba, with major emphasis on emancipation in the United States.

Gen Ed: HS, GL, NA.

Grading status: Letter grade.

AAAD 386. Comparative Studies in Culture, Gender, and Global Forces. 3 Credits.

Examines participatory development theory and practice in Africa and the United States in the context of other intervention strategies and with special attention to culture and gender.

Requisites: Prerequisites, AAAD 101 and 130.

Grading status: Letter grade

Same as: WGST 386.

AAAD 387. HIV/AIDS in Africa and the Diaspora. 3 Credits.

This course explores the history and contemporary politics of HIV/AIDS in African communities and across the Diaspora. The differing trajectories of the epidemic on the continent, in the West, and in the Caribbean and Latin America will be explored.

Gen Ed: HS, GL.

Grading status: Letter grade.

AAAD 388. Global Black Feminisms and Women's Apocalyptic Writing. 3 Credits.

This class examines black women's omission from our accounts of structural oppression and catastrophe. Reading black women's apocalyptic fiction alongside global black feminist writing, we study how both genres challenge our conceptions, responses to, and preventative measures against violence and catastrophe.

Gen Ed: LA, GL.

Grading status: Letter grade.

AAAD 389. The Caribbean Anticolonial: Caribbean Literature, Film, Aesthetics, and Politics. 3 Credits.

This course will examine literature, film, art, and music from the Caribbean that illustrates and critiques the past and present impacts of colonial rule in the region. What role has anticolonial Caribbean literature and art played in shaping the region's present and future, and in shaping global anticolonial politics?

Gen Ed: BN.

Grading status: Letter grade.

AAAD 395. Undergraduate Research Seminar. 3 Credits.

Permission of the instructor for nonmajors. Subject matter will vary with each instructor. Each course will concern itself with a study in depth of some problem in African, African American, or diaspora studies.

Gen Ed: CI, EE- Mentored Research.

Grading status: Letter grade.

AAAD 396. Independent Studies. 3 Credits.

Permission of the director of undergraduate studies. Independent study projects defined by student and faculty advisor. Majors only.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**AAAD 400. The Challenges of Democratic Governance in Africa. 3 Credits.**

An in-depth examination of trends and theories on democratic governance since the end of the Cold War, together with the implications of these trends and theories for Africa.

Gen Ed: GL.

Grading status: Letter grade.

AAAD 402. African Media and Film: History and Practice. 3 Credits.

This course explores forms of filmic and photographic representation of and by Africans. An introduction to key concepts in social theory and their application to the field of media studies and ethnography is a primary focus.

Gen Ed: HS, EE- Field Work.

Grading status: Letter grade.

AAAD 403. Human Rights: Theories and Practices in Africa. 3 Credits.

This course explores major conceptual debates in the field of human rights. Further, it examines human rights practices and struggles in selected countries in Africa.

Gen Ed: SS.

Grading status: Letter grade.

AAAD 404. Music of African Diasporas. 3 Credits.

An exploration of musical articulations of African diasporic identity focusing on aesthetics, social fields of production, and the historical development of the diaspora concept around music.

Gen Ed: BN.

Grading status: Letter grade.

AAAD 405. Contemporary African Art. 3 Credits.

Examines modern and contemporary African art (1940s to the present) for Africans on the continent and abroad. Examines tradition, cultural heritage, colonialism, postcolonialism, local versus global, nationalism, gender, identity, diaspora.

Requisites: Prerequisite, AAAD 101 or ARTH 152 or 155; permission of the instructor for students lacking the prerequisite.

Gen Ed: BN, GL.

Grading status: Letter grade

Same as: ARTH 488.

AAAD 410. Gender, Sexuality, and Development in Contemporary Africa. 3 Credits.

This upper-level seminar focuses on debates in international development studies exploring theories and policies of development, particularly those pertaining to gender, sexuality, masculinities, and women's political agency in contemporary Africa.

Gen Ed: BN, GL.

Grading status: Letter grade.

AAAD 414. Senegalese Society and Culture. 3 Credits.

This course provides an overview of Senegalese culture through movies, literary works, and scholarly books and articles. The course examines the geography, population, ethnic composition, thoughts and religious beliefs, arts and music, polygamy, status of women, and the impact of the tariqas or Sufi orders on people's daily lives.

Grading status: Letter grade.

AAAD 419. African Studies Colloquium. 3 Credits.

This course will equip students to analyze critically cutting-edge issues concerning Africa today through readings, lectures, and research. For junior/senior majors and students with an interest in Africa.

Grading status: Letter grade.

AAAD 421. Introduction to the Languages of Africa. 3 Credits.

This course is an introduction to the languages of Africa. No linguistics background is required. Topics include classification, characteristic linguistic features of African languages, and their role in their respective societies.

Gen Ed: BN.

Grading status: Letter grade.

AAAD 430. African American Intellectual History. 3 Credits.

An examination of major intellectual trends in African American life from the 19th to the early 21st century.

Gen Ed: HS.

Grading status: Letter grade.

AAAD 444. Race, Ethnicity, and Blackness in Comparative Perspective. 3 Credits.

This course will provide students the opportunity to compare and contrast how race, especially Blackness, and ethnicity are constructed across the globe as well as how race, politics, and policy interact in various countries. We will examine the phenomena of race and ethnicity in the political development of several countries including the U.S., South Africa, France, Australia, Brazil, and several others.

Gen Ed: BN.

Grading status: Letter grade.

AAAD 449. Black Women in Cinema: From the Early 1900s to the Present. 3 Credits.

This course interrogates the diverse representations that black women personified on screen, investigates intersections between their off-screen lives and on-screen images, and explores what and how they contributed to the cinema industry. This course is a theoretical, critical, and historical examination of the black woman's cinematic experience.

Gen Ed: VP, US.

Grading status: Letter grade.

AAAD 451. Orality, Literacy, and Cultural Production: African Americans and Racial Modernity. 3 Credits.

Examines the divide between literacy- and orality-based modes of self-expression and cultural production, and the effects of this fault line on the African American struggle for inclusion and self-definition in the United States.

Grading status: Letter grade.

AAAD 460. Race, Culture, and Politics in Brazil. 3 Credits.

Examines race, culture, and politics in Brazil from historical and contemporary perspectives. Focuses on dynamics of race, gender, class, and nation in shaping Brazilian social relations.

Gen Ed: SS, GL.

Grading status: Letter grade.

AAAD 461. Race, Gender, and Activism in Cuba. 3 Credits.

The course is designed to give students a simulated experience of ethnographic fieldwork and qualitative research. Students are led through a learning experience where they will examine black activism in Cuba from historical and contemporary perspectives.

Gen Ed: SS, BN.

Grading status: Letter grade.

AAAD 480. Vernacular Traditions in African American Music. 4 Credits.

Explores performance traditions in African American music, tracing development from African song through reels, blues, gospel, and contemporary vernacular expression. Focuses on continuity, creativity, and change within African American aesthetics. Previously offered as FOLK 610/AAAD 432.

Gen Ed: HS, EE- Field Work, US.

Grading status: Letter grade

Same as: FOLK 480.

AAAD 485. Transnational Black Feminist Thought and Practice. 3 Credits.

This course uses social science approaches to explore the development of black feminist thought and activism in diverse cultural and national contexts. Students will gain knowledge of black feminist thought writing and activism in Europe, Latin America, the Caribbean, and the United States.

Gen Ed: SS, GL.

Grading status: Letter grade.

AAAD 486. Africa in the American Imagination. 3 Credits.

Examines the ways African art appears in United States popular culture (advertisements, magazines, toys, films, art) to generate meanings about Africa. Addresses intersecting issues of nationalism, multiculturalism, imperialism, nostalgia, race. Restricted to sophomores, juniors, and seniors. Honors version available

Gen Ed: VP, CI, NA.

Grading status: Letter grade

Same as: ARTH 453.

AAAD 486H. Africa in the American Imagination. 3 Credits.

Examines the ways African art appears in United States popular culture (advertisements, magazines, toys, films, art) to generate meanings about Africa. Addresses intersecting issues of nationalism, multiculturalism, imperialism, nostalgia, race. Restricted to sophomores, juniors, and seniors.

Gen Ed: VP, CI, NA.

Grading status: Letter grade

Same as: ARTH 453H.

AAAD 487. Intellectual Currents in African and African Diaspora Studies. 3 Credits.

In this seminar students will examine primary documents of engaged scholarship written by Africans and people of African descent in the Americas, Europe, and elsewhere in the African Diaspora.

Requisites: Prerequisites, AAAD 101 and 130; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

AAAD 488. Human Rights and Democracy in African Diaspora Communities. 3 Credits.

This course examines how questions of democracy and human rights have been conceptualized in African Diaspora communities in the Americas and Europe.

Gen Ed: SS, GL.

Grading status: Letter grade.

AAAD 491. Class, Race, and Inequality in America. 3 Credits.

Examines the origins of race in America, the relationship of racial oppression to class struggle at key points in American history, the proliferation of versions of the concept of privilege, and approaches to eliminating class and racial privilege.

Gen Ed: SS, US.

Grading status: Letter grade.

AAAD 691H. Honors Research I. 3 Credits.

Permission of the department. Beginning of mentored research on an honors thesis. Required of all candidates for graduation with honors in African, African American, and Diaspora studies.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

AAAD 692H. Honors Research II. 3 Credits.

Permission of the department. Completion of an honors thesis under the direction of a member of the faculty. Required of all candidates for graduation with honors in African, African American, and Diaspora studies.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

CHWA—Chichewa

Advanced Undergraduate and Graduate-level Courses

CHWA 401. Elementary Chichewa I. 3 Credits.

The course introduces the essential elements of the Chichewa language. Emphasis is on speaking and writing grammatically acceptable Chichewa and on aspects of central African culture.

Gen Ed: FL.

Grading status: Letter grade.

CHWA 402. Elementary Chichewa II. 3 Credits.

Emphasis is on speaking and writing grammatically acceptable Chichewa to a proficiency level that will enable the student to live among the Chichewa-speaking people of central southern Africa.

Requisites: Prerequisite, CHWA 401.

Gen Ed: FL.

Grading status: Letter grade.

CHWA 403. Intermediate Chichewa I. 3 Credits.

Continued instruction in Chichewa following the materials introduced in CHWA 401 and 402.

Requisites: Prerequisite, CHWA 402.

Gen Ed: FL.

Grading status: Letter grade.

LGLA—Lingala

Advanced Undergraduate and Graduate-level Courses

LGLA 401. Elementary Lingala I. 3 Credits.

Introduces the essential elements of Lingala structure and vocabulary and aspects of African cultures. Aural comprehension, reading, speaking, and writing are stressed.

Gen Ed: FL.

Grading status: Letter grade.

LGLA 402. Elementary Lingala II. 3 Credits.

Continues the introduction of the essential elements of Lingala structure and vocabulary and aspects of African cultures. Aural comprehension, reading, speaking, and writing are stressed.

Requisites: Prerequisite, LGLA 401.

Gen Ed: FL.

Grading status: Letter grade.

LGLA 403. Intermediate Lingala III. 3 Credits.

This course increases language learning ability, communicative proficiency, and proficiency in the cultures of the Lingala-speaking people.

Gen Ed: FL.

Grading status: Letter grade.

LGLA 404. Intermediate Lingala IV. 3 Credits.

This course reinforces language learning ability, communicative proficiency in the culture of the Lingala-speaking people through gradual exposure to more challenging tasks, with emphasis on poetry and prose reading, and creative writing.

Gen Ed: FL.

Grading status: Letter grade.

SWAH–Kiswahili

Undergraduate-level Courses

SWAH 112. Intensive Kiswahili 1-2. 6 Credits.

The 112 course covers the material in the SWAH 401 and 402 sequence in a single semester. Students may not receive credit for both SWAH 401 and SWAH 402 or SWAH 112.

Gen Ed: FL.

Grading status: Letter grade.

SWAH 234. Intensive Kiswahili 3-4. 6 Credits.

The course covers the material in the SWAH 403 and 404 sequence in a single semester. Students may not receive credit for both SWAH 403 and SWAH 404 or SWAH 234.

Requisites: Prerequisite, SWAH 112 or 402.

Gen Ed: FL.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

SWAH 401. Elementary Kiswahili I. 3 Credits.

Introduces the essential elements of Kiswahili structure and vocabulary and aspects of African cultures. Aural comprehension, reading, speaking, and writing are stressed. Students may not receive credit for both SWAH 401 and SWAH 402 or SWAH 112.

Gen Ed: FL.

Grading status: Letter grade.

SWAH 402. Elementary Kiswahili II. 3 Credits.

Continues the introduction of essential elements of Kiswahili structure and vocabulary and aspects of African cultures. Aural comprehension, reading, speaking, and writing are stressed. Students may not receive credit for both SWAH 401 and SWAH 402 or SWAH 112.

Requisites: Prerequisite, SWAH 401.

Gen Ed: FL.

Grading status: Letter grade.

SWAH 403. Intermediate Kiswahili III. 3 Credits.

Third-semester Kiswahili, designed to increase reading and writing skills. Introduction of literature. Aural comprehension and speaking skills stressed. Students may not receive credit for SWAH 403 and SWAH 234.

Requisites: Prerequisite, SWAH 112 or 402.

Gen Ed: FL.

Grading status: Letter grade.

SWAH 404. Intermediate Kiswahili IV. 3 Credits.

Fourth-semester Kiswahili, designed to increase reading and writing skills. Introduction of more compound structures. Emphasis on literature, including drama, prose and poetry, and creative writing. Aural comprehension and speaking skills stressed. Students may not receive credit for SWAH 404 and SWAH 234.

Requisites: Prerequisite, SWAH 403.

Gen Ed: FL.

Grading status: Letter grade.

SWAH 405. Advanced Kiswahili V. 3 Credits.

This course is offered to students who have completed SWAH 404. It is taught in Swahili and aims at enabling students with grammatical and communicative competence.

Requisites: Prerequisite, SWAH 404.

Grading status: Letter grade.

SWAH 406. Advanced Plus Kiswahili VI. 3 Credits.

This course reinforces and expands the grammatical, cultural, and communicative competence achieved in SWAH 405.

Requisites: Prerequisite, SWAH 405; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

SWAH 408. Swahili Across the Curriculum Recitation. 1 Credit.

Swahili recitation offered in conjunction with selected content courses. Weekly discussion and readings in Swahili relating to attached content courses.

Requisites: Prerequisite, SWAH 403; permission of the instructor for students lacking the prerequisite.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.

Grading status: Letter grade.

WOLO–Wolof

Advanced Undergraduate and Graduate-level Courses

WOLO 401. Elementary Wolof I. 3 Credits.

This course enables students who have no previous experience in Wolof to develop speaking, listening and understanding, writing, and reading skills in Wolof. Students will also be exposed to Wolof culture.

Gen Ed: FL.

Grading status: Letter grade.

WOLO 402. Elementary Wolof II. 3 Credits.

This course is for students who have already acquired the basics of Wolof to reinforce their ability to learn speaking, listening and understanding, writing, and reading Wolof. Evidence of basic knowledge of Wolof is required.

Requisites: Prerequisite, WOLO 401.

Gen Ed: FL.

Grading status: Letter grade.

WOLO 403. Intermediate Wolof III. 3 Credits.

This course is intended for learners who have already acquired Wolof proficiency in WOLO 401 and 402. It increases communicative proficiency and language learning ability as well as proficiency in cultures of the Wolof people.

Requisites: Prerequisite, WOLO 402.

Gen Ed: FL.

Grading status: Letter grade.

WOLO 404. Intermediate Wolof IV. 3 Credits.

This course reinforces students' communicative and cultural skills via gradual exposure to increasingly challenging tasks. Reading poetry and prose, and introduction to creative writing will be stressed.

Requisites: Prerequisite, WOLO 403.

Gen Ed: FL.

Grading status: Letter grade.

WOLO 405. Advanced Wolof V. 3 Credits.

This course is intended for learners who have acquired Wolof proficiency in WOLO 403 and 404. It provides students with the communication and linguistic skills needed to communicate fluently at the near-native level.

Requisites: Prerequisite, WOLO 404.

Grading status: Letter grade.

WOLO 406. Advanced Wolof VI. 3 Credits.

This course is intended for learners who have acquired Wolof proficiency in WOLO 405. It provides students with the advanced communication and linguistic skills needed to communicate fluently at the native level.

Requisites: Prerequisite, WOLO 405.

Grading status: Letter grade.

African, African American, and Diaspora Studies Major, B.A.

Contact Information

Department of African, African American, and Diaspora Studies
Visit Program Website (<http://aaad.unc.edu>)
104 Battle Hall, CB# 3395
(919) 966-5496

Eunice Sahle, Chair

Kenneth Janken, Director of Undergraduate Studies
krjanken@email.unc.edu

The curriculum of the Department of African, African American, and Diaspora Studies emphasizes the histories, cultures, cultural linkages, and contemporary sociopolitical and economic realities of Africa and the African diasporas in the context of a globalizing world. The major offers a concentration in African studies and a concentration in African American and diaspora studies.

Department Programs

Major

- African, African American, and Diaspora Studies Major, B.A. (p. 216)

Minors

- African Studies Minor (p. 217)
- African American and Diaspora Studies Minor (p. 218)

Student Learning Outcomes

Upon completion of the African, African American, and Diaspora studies program, students should be able to:

- Demonstrate in-depth knowledge of foundational intellectual currents (historical and contemporary) in African, African American, and Diaspora studies.
- Apply research skills by formulating a research project as outlined in the required literature, generating a research question, developing

- procedures for gathering research data, analyzing the data, and writing results and conclusions.
- Present research results effectively (clear and well-argued content, appropriate for audience, professional delivery).
 - Identify and explain sources (national and global) of historical change that have shaped Africa and its diaspora
 - Draw on relevant theoretical insights and empirical data to analyze historical or contemporary issues pertaining to diverse societies in Africa, African American communities, and other African diasporic formations in Europe and Latin America

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

Students may complete the requirements for the African studies concentration or the African American and diaspora studies concentration.

African Studies Concentration

Code	Title	Hours
Core Requirements		
AAAD 101	Introduction to Africa	3
AAAD 130	Introduction to African American and Diaspora Studies	3
AAAD 395	Undergraduate Research Seminar (offered fall semester only)	3
AAAD 487	Intellectual Currents in African and African Diaspora Studies (offered spring semester only)	3
Six additional courses apportioned in the following way: ^{1,2}		18
One African American and Diaspora studies, or transnational, course chosen from AAAD 130–AAAD 184, AAAD 230–AAAD 284, AAAD 286, AAAD 298, AAAD 330–AAAD 384, AAAD 385, AAAD 430–AAAD 484, AAAD 485, AAAD 488, AAAD 489		
As many as three courses chosen from AAAD 100–AAAD 129, AAAD 200–AAAD 229, AAAD 300–AAAD 329, AAAD 386, AAAD 387; LGLA 404; SWAH 404, SWAH 405, SWAH 406; WOLO 404		
At least two courses chosen from AAAD 400–AAAD 429, AAAD 485		
Total Hours		30

¹ First-year seminars do not count toward the major.
² Please contact the director of undergraduate studies if you have questions about this requirement.

Recommended

Three semesters of one African language (either to fulfill the foreign language Foundations requirement or in addition to it) are recommended for the concentration in African studies. The following African language courses currently are offered:

Code	Title	Hours
Arabic:		
ARAB 101	Elementary Arabic I	4
ARAB 102	Elementary Arabic II	4
ARAB 203	Intermediate Arabic I	4
ARAB 204	Intermediate Arabic II	4
ARAB 305	Advanced Arabic I	3
ARAB 306	Advanced Arabic II	3
Chichewa:		
CHWA 401	Elementary Chichewa I	3
CHWA 402	Elementary Chichewa II	3
CHWA 403	Intermediate Chichewa I	3
Lingala:		
LGLA 401	Elementary Lingala I	3
LGLA 402	Elementary Lingala II	3
LGLA 403	Intermediate Lingala III	3
LGLA 404	Intermediate Lingala IV	3
Kiswahili:		
SWAH 112	Intensive Kiswahili 1-2	6
SWAH 234	Intensive Kiswahili 3-4	6
SWAH 401	Elementary Kiswahili I	3
SWAH 402	Elementary Kiswahili II	3
SWAH 403	Intermediate Kiswahili III	3
SWAH 404	Intermediate Kiswahili IV	3
SWAH 405	Advanced Kiswahili V	3
SWAH 406	Advanced Plus Kiswahili VI	3
Wolof:		
WOLO 401	Elementary Wolof I	3
WOLO 402	Elementary Wolof II	3
WOLO 403	Intermediate Wolof III	3
WOLO 404	Intermediate Wolof IV	3

African American and Diaspora Studies Concentration

Code	Title	Hours
Core Requirements		
AAAD 101	Introduction to Africa	3
AAAD 130	Introduction to African American and Diaspora Studies	3
AAAD 395	Undergraduate Research Seminar (offered fall semester only)	3
AAAD 487	Intellectual Currents in African and African Diaspora Studies (offered spring semester only)	3
Six additional courses apportioned in the following way: ^{1,2}		18

One African studies or transnational course chosen from AAAD 100–AAAD 129, AAAD 200–AAAD 229, AAAD 300–AAAD 329, AAAD 386, AAAD 387, AAAD 400–AAAD 429, AAAD 485

As many as three courses chosen from AAAD 130–AAAD 184, AAAD 230–AAAD 284, AAAD 286, AAAD 298, AAAD 330–AAAD 384, AAAD 385

At least two courses chosen from AAAD 430–AAAD 484, AAAD 485, AAAD 488, AAAD 489

Total Hours 30

¹ First-year seminars do not count toward the major.

² Please contact the director of undergraduate studies if you have questions about this requirement.

Special Opportunities in African, African American, and Diaspora Studies

Honors in African, African American, and Diaspora Studies

Students with an overall grade point average of 3.3 or higher at the beginning of their senior year *and who have already completed* AAAD 395 are encouraged to apply for candidacy for the B.A. with honors. Students interested in undertaking honors research and the writing of a thesis should consult with the department's honors coordinator no later than in their junior year to discuss the process of applying to the program. Approved candidates will enroll in AAAD 691H in the fall semester of their senior year. Upon completion of AAAD 691H and with the approval of the student's thesis director and the department's honors coordinator, students enroll in AAAD 692H in the spring semester. AAAD 691H can count as one of the five courses students must take in their concentration of study.

Departmental Involvement

The department works closely with the African Studies Center, the Center for the Study of the American South, the Institute of African American Research, and the Sonja Haynes Stone Center for Black Culture and History. These units provide UNC–Chapel Hill and wider communities with important programming on and an opportunity for the advanced study of issues concerning Africa, African America, and other parts of the African Diaspora.

Study Abroad

There are several opportunities for study abroad. The department offers a summer abroad program in Malawi. Honors Carolina offers a Burch seminar in Cape Town, South Africa, during the fall semester.

Undergraduate Research

The department encourages undergraduate research. The required seminar for majors (AAAD 395) introduces students to research skills and methods in African, African American, and Diaspora studies. The honors program (AAAD 691H and AAAD 692H) offers qualified students the opportunity to engage in a yearlong process of research and writing. The department hosts an undergraduate research symposium in the spring semester, and it also publishes a scholarly journal, the *Global Africana Review*, for which undergraduates may submit articles.

Kenneth Janken, Director of Undergraduate Studies
krjanken@email.unc.edu

The curriculum of the Department of African, African American, and Diaspora Studies emphasizes the histories, cultures, cultural linkages, and contemporary sociopolitical and economic realities of Africa and the African diasporas in the context of a globalizing world.

Department Programs

Major

- African, African American, and Diaspora Studies Major, B.A. (p. 216)

Minors

- African Studies Minor (p. 217)
- African American and Diaspora Studies Minor (p. 218)

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor 'core' requirements at UNC–Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
AAAD 130	Introduction to African American and Diaspora Studies	3
Four additional AAAD courses at or above the 100 level whose last two digits are from 30 to 84, and African American and Diaspora studies courses whose last two digits are from 85 to 99		12
Total Hours		15

African, African American and Diaspora Studies (AAAD) course descriptions (p. 208).

See program page here (p. 217) for special opportunities.

amstdus@unc.edu

Introduction

The Department of American Studies is one of the oldest interdisciplinary programs at UNC–Chapel Hill, with roots in the study of folklore and the American South going back to the 1920s. A formal program in American studies was established in 1968, and exciting additions in American Indian and indigenous studies, Southern studies, and global American studies have been added in the past two decades. The Department of American Studies has a tradition of vigorous teaching and an innovative curriculum that offers stimulating opportunities to study the United States and the diversity and influence of its peoples, institutions, texts, performances, and places. In addition, each of our areas of major concentration incorporates global and comparative perspectives. The department's commitment to interdisciplinary approaches empowers students to value the nation's complexity by engaging with a variety of historical, literary, artistic, political, social, cultural, legal, racial, ethnic, and ethnographic perspectives within and beyond the United States. American studies majors graduate with a comprehension of the dynamics of American culture that prepares them to make a responsible and critical difference in the variety of professions they choose to pursue.

The American studies major offers five areas of concentration, each with its own distinct degree requirements.

Advising

All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors and minors by appointment. Further information on courses, opportunities, and honors theses may be obtained from the department's Web site.

Graduate School and Career Opportunities

American studies provides a solid basis for a variety of career choices, including public service, business, teaching, museum curation, and journalism. It is an excellent liberal arts major that prepares students for graduate and professional school study in fields such as American history and literature. After receiving the baccalaureate degree, American studies majors consistently have been accepted in law and business schools, which are interested in students with a broad, interdisciplinary undergraduate education. The folklore concentration and minor are a productive component of study for those preparing for graduate school in anthropology, communication, journalism, music, and folklore itself, as well as for those planning careers in museum curation, public arts presentation, and music production.

Majors

- American Studies Major, B.A. (p. 230)
- American Studies Major, B.A. – American Indian and Indigenous Studies Concentration (p. 237)
- American Studies Major, B.A. – Folklore Concentration (p. 239)
- American Studies Major, B.A. – Global American Studies Concentration (p. 241)
- American Studies Major, B.A. – Southern Studies Concentration (p. 243)

Minors

- American Studies Minor (p. 246)
- American Indian and Indigenous Studies Minor (p. 247)
- Folklore Minor (p. 248)
- Global American Studies Minor (p. 250)
- Southern Studies Minor (p. 251)

Graduate Programs

- Ph.D. in American Studies (<http://catalog.unc.edu/graduate/schools-departments/american-studies/>)
- M.A. in Folklore (<http://catalog.unc.edu/graduate/schools-departments/american-studies/>)
- Graduate Minor in American Studies (<http://catalog.unc.edu/graduate/schools-departments/american-studies/#programtext>)
- Graduate Minor in Folklore (<http://catalog.unc.edu/graduate/schools-departments/american-studies/#programtext>)

Professors

Robert Allen, Daniel Cobb, Elizabeth Engelhardt, Bernard Herman¹, Sharon Holland, Rachel Willis.

Associate Professors

Glenn D. Hinson (Anthropology)¹, Seth Kotch, Tim Marr, Michelle Robinson, Patricia Sawin¹, Jenny Tone-Pah-Hote.

Assistant Professors

Gabrielle Berlinger¹, Ben Frey, Keith Richotte Jr.

Adjunct/Affiliated Faculty

Daniel Anderson (English and Comparative Literature), Fitzhugh Brundage (History), Maggie Cao (Art History), Claude Clegg (African, African American and Diaspora Studies; History), Maria DeGuzman (English and Comparative Literature), Kathleen DuVal (History), Rebecka Rutledge Fisher (English and Comparative Literature), Bryan Giemza (Southern Historical Collection), Lawrence Grossberg (Communication), Philip Gura (English and Comparative Literature), Amy Hertel (American Indian Center), Jordynn Jack (English and Comparative Literature), Scott Kirsch (Geography), Valerie Lambert (Anthropology), Malinda Maynor Lowey (History), Jocelyn Neal (Music)¹, Michael Palm (Communication), Eliza Richards (English and Comparative Literature), Katherine Roberts, Rachel Seidman, Robyn Schroeder, William Sturkey (History), Jane Thraikill (English and Comparative Literature), Timothy Tyson, Ariana Vigil (Women's and Gender Studies), Harry Watson (History), Eric King Watts (Communication).

¹ Core members of the Folklore program

Professors Emeriti

Marcie Cohen Ferris, William Ferris, Peter Filene, Jacquelyn Hall, Trudier Harris, John Kasson, Joy Kasson, Townsend Luddington, Daniel W. Patterson, Theda Perdue, Charles Gordon Zug.

AMST–American Studies

Undergraduate-level Courses

AMST 51. First-Year Seminar: Navigating America. 3 Credits.

Analyze American journeys and destinations, focusing on how resources, technology, transportation, and cultural influences have transformed the navigation and documentation of America. Multimedia documentation of personal journey required.

Gen Ed: SS, CI, EE- Field Work.

Grading status: Letter grade.

AMST 53. First-Year Seminar: The Family and Social Change in America. 3 Credits.

This course uses changes in the American family over the past century as a way of understanding larger processes of social change. Honors version available

Gen Ed: HS, CI, NA.

Grading status: Letter grade.

AMST 53H. First-Year Seminar: The Family and Social Change in America. 3 Credits.

This course uses changes in the American family over the past century as a way of understanding larger processes of social change.

Gen Ed: HS, CI, NA.

Grading status: Letter grade.

AMST 54. First-Year Seminar: The Indians' New Worlds: Southeastern Histories from 1200 to 1800. 3 Credits.

This course uses archaeological and historical scholarship to consider the histories of the Southern Indians from the Mississippian period to the end of the 18th century.

Gen Ed: HS, US, WB.

Grading status: Letter grade

Same as: ANTH 54.

AMST 55. First-Year Seminar: Birth and Death in the United States. 3 Credits.

This course explores birth and death as essential human rites of passage that are invested with significance by changing and diverse American historical, cultural, ethnic, and ethical contexts. Honors version available

Gen Ed: PH, CI, US.

Grading status: Letter grade.

AMST 55H. First-Year Seminar: Birth and Death in the United States. 3 Credits.

This course explores birth and death as essential human rites of passage that are invested with significance by changing and diverse American historical, cultural, ethnic, and ethical contexts.

Gen Ed: PH, CI, US.

Grading status: Letter grade.

AMST 59. First-Year Seminar: American Indian Art in the 20th Century. 3 Credits.

This course examines 20th-century American Indian art within the context of critical topics in the field such as sovereignty, colonialism, modernity, modernism, gender, and representation.

Gen Ed: VP, CI, US.

Grading status: Letter grade.

AMST 60. First-Year Seminar: American Indians in History, Law, and Literature. 3 Credits.

This research seminar provides a grounding in American Indian law, history, and literature. Students will conduct research for presentation on Wikipedia.

Gen Ed: HS, US.

Grading status: Letter grade.

AMST 61. First-Year Seminar: Navigating the World through American Eyes. 3 Credits.

Designed to help prepare students for future study abroad opportunities and travel, service, and work in a global environment, the seminar focuses on critical differences, including transportation and other forms of infrastructure, that impact navigating places, people, and information. Individual competitive global travel proposals will be developed and presented.

Gen Ed: GL.

Grading status: Letter grade.

AMST 62. First-Year Seminar: Mobility, Roads, NASCAR, and Southern Culture. 3 Credits.

This seminar looks at the culture, history, memories, and meanings of mobility for a diverse range of people in southern cultures. In particular, students will read and discuss books and articles by scholars on roads, cars, access, and diverse southern cultures.

Gen Ed: LA, US.

Grading status: Letter grade.

AMST 89. First Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester. Honors version available

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

AMST 89H. First Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

AMST 101. The Emergence of Modern America. 3 Credits.

Interdisciplinary examination of two centuries of American culture, focusing on moments of change and transformation.

Gen Ed: HS, NA.

Grading status: Letter grade.

AMST 102. Myth and History in American Memory. 3 Credits.

Examines the role of memory in constructing historical meaning and in imagining the boundaries of American cultural communities. Explores popular rituals, artifacts, monuments, and public performances. Previously offered as AMST 384.

Gen Ed: HS, NA, US.

Grading status: Letter grade.

AMST 110. Introduction to the Cultures and Histories of Native North America. 3 Credits.

An interdisciplinary introduction to Native American history and studies. The course uses history, literature, art, and cultural studies to study the Native American experience.

Gen Ed: HS, NA, US.

Grading status: Letter grade

Same as: HIST 110.

AMST 175. Introduction to Food Studies: From Science to Society. 3 Credits.

Introduction to food studies covering a variety of topics including how food was consumed over history, land use and aquaculture, food in the arts, food and culture in the American South, food politics, and nutrition science.

Gen Ed: GL, NA.

Grading status: Letter grade

Same as: NUTR 175, ANTH 175.

AMST 201. Literary Approaches to American Studies. 3 Credits.

A study of interdisciplinary methods and the concept of American Studies with an emphasis on the historical context for literary texts.

Gen Ed: LA, NA, US.

Grading status: Letter grade.

AMST 202. Historical Approaches to American Studies. 3 Credits.

A study of interdisciplinary methods and the concept of American studies with an emphasis on historical and cultural analysis.

Gen Ed: HS, NA.

Grading status: Letter grade.

AMST 203. Approaches to American Indian Studies. 3 Credits.

Introduces students to the disciplines comprising American Indian studies and teaches them how to integrate disciplines for a more complete understanding of the experiences of American Indian peoples.

Gen Ed: HS, NA, US.

Grading status: Letter grade

Same as: ANTH 203.

AMST 210. Approaches to Southern Studies: A Historical Analysis of the American South. 3 Credits.

An examination of both the mythical and real American South and its diverse peoples through the study of the region's archaeological, geographical, and environmental history integrated with the study of the region's sociology and its economic, political, intellectual, and religious history.

Gen Ed: HS, NA, US.

Grading status: Letter grade.

AMST 211. Approaches to Southern Studies: The Literary and Cultural Worlds of the American South. 3 Credits.

An examination of Southern cultural identity, literary imagination, and sense of place with an emphasis on the fiction, folklore, foodways, art, architecture, music, and material culture of the American South.

Gen Ed: LA, NA, US.

Grading status: Letter grade.

AMST 220. On the Question of the Animal: Contemporary Animal Studies. 3 Credits.

This course is an introduction to 'animal studies,' through animal rights, animal welfare, food studies, and the human/animal distinction in philosophical inquiry. We will read work from dog and horse trainers, and explore the history of the American racetrack. This course builds a moral and ethical reasoning skill set.

Gen Ed: PH, NA.

Grading status: Letter grade.

AMST 225. Comedy and Ethics. 3 Credits.

This course explores the historical, sociocultural, and legal significance of 20th- and 21st-century comedy in the United States. We will consider comedy as public voice; examine how humor constructs and disrupts American identities; and discuss the ethics of the creative process, performance, and reception.

Gen Ed: PH, NA.

Grading status: Letter grade.

AMST 225L. The Practice of Stand Up Comedy. 1 Credit.

Students will learn and practice the art of stand up comedy via structured assignments, group workshops, live performances and conversations that build on topics introduced in AMST 225. Class size is limited to 15 students. Instructor permission required.

Requisites: Pre- or corequisite, AMST 225.

Gen Ed: EE- Performing Arts.

Grading status: Letter grade.

AMST 231. Native American History: The East. 3 Credits.

Covers the histories of American Indians east of the Mississippi River and before 1840. The approach is ethnohistorical.

Gen Ed: HS, NA, US.

Grading status: Letter grade

Same as: HIST 231.

AMST 233. Native American History: The West. 3 Credits.

Deals with the histories of Native Americans living west of the Mississippi River. It begins in the pre-Columbian past and extends to the end of the 19th century.

Gen Ed: HS, NA.

Grading status: Letter grade

Same as: HIST 233.

AMST 234. Native American Tribal Studies. 3 Credits.

This course introduces students to a tribally specific body of knowledge. The tribal focus of the course and the instructor change from term to term. Honors version available

Gen Ed: HS, NA, US.

Grading status: Letter grade

Same as: HIST 234, ANTH 234.

AMST 234H. Native American Tribal Studies. 3 Credits.

This course introduces students to a tribally specific body of knowledge. The tribal focus of the course and the instructor change from term to term.

Gen Ed: HS, NA, US.

Grading status: Letter grade

Same as: HIST 234H, ANTH 234H.

AMST 235. Native America in the 20th Century. 3 Credits.

This course deals with the political, economic, social, and cultural issues important to 20th-century Native Americans as they attempt to preserve tribalism in the modern world.

Gen Ed: HS, NA.

Grading status: Letter grade

Same as: HIST 235.

AMST 246. Indigenous Storytelling: Oral, Written, and Visual Literatures of Native America. 3 Credits.

Offers a historically, politically, and culturally contextualized examination of Native America through oral, written, and visual storytelling. Covering a wide range of genres, including oral narratives, novels, and visual arts, this introductory course showcases the fluidity of Indigenous artistic forms and their continuing centrality in Native America.

Gen Ed: LA, US.

Grading status: Letter grade.

AMST 248. Intersectionality: Race, Gender, Sexuality, and Social Justice. 3 Credits.

The first goal of this super course is to give students real tools for how to address multiple modes of difference and identity formations like race, gender, class, and sexuality.

Gen Ed: CI, US.

Grading status: Letter grade

Same as: ENGL 248, POLI 248, PSYC 348, WGST 249.

AMST 252. Muslim American Literatures and Cultures. 3 Credits.

This course examines the diversity of Muslims in America and the variety of creative expression created throughout this long history of transcultural involvement.

Gen Ed: LA, CI, US.

Grading status: Letter grade.

AMST 253. A Social History of Jewish Women in America. 3 Credits.

Course examines the history and culture of Jewish women in America from their arrival in New Amsterdam in 1654 to the present and explores how gender shaped this journey.

Gen Ed: HS, NA.

Grading status: Letter grade

Same as: JWST 253, WGST 253.

AMST 255. Mid-20th-Century American Thought and Culture. 3 Credits.

This course examines topics in the intellectual and cultural history of the United States in the mid-20th century, including issues of race thinking, mass culture, and gender ideologies.

Gen Ed: HS, NA, US.

Grading status: Letter grade.

AMST 256. Anti-'50s: Voices of a Counter Decade. 3 Credits.

We remember the 1950s as a period of relative tranquility, happiness, optimism, and contentment. This course will consider a handful of countertexts: voices from literature, politics, and mass culture of the 1950s that for one or another reason found life in the postwar world repressive, empty, frightening, or insane and predicted the social and cultural revolutions that marked the decade that followed.

Gen Ed: LA, NA.

Grading status: Letter grade.

AMST 257. Melville: Culture and Criticism. 3 Credits.

Investigates the significance of Herman Melville as a representative 19th-century American author. Includes issues of biography, historical context, changing reception, cultural iconography, and the politics of the literary marketplace.

Gen Ed: LA, CI, NA.

Grading status: Letter grade.

AMST 258. Captivity and American Cultural Definition. 3 Credits.

Examines how representations of captivity and bondage in American expression worked to construct and transform communal categories of religion, race, class, gender, and nation.

Gen Ed: LA, NA, US.

Grading status: Letter grade.

AMST 259. Tobacco and America. 3 Credits.

Explores the significance of tobacco from Native American ceremony to the Southern economy by focusing on changing attitudes toward land use, leisure, social style, public health, litigation, and global capitalism.

Gen Ed: HS, CI, US.

Grading status: Letter grade.

AMST 268. American Cinema and American Culture. 3 Credits.

Examines the relationship between cinema and culture in America with a focus on the ways cinema has been experienced in American communities since 1896.

Gen Ed: VP, NA.

Grading status: Letter grade.

AMST 269. Mating and Marriage in American Culture. 3 Credits.

Interdisciplinary examination of the married condition from colonial times to the present. Themes include courtship and romance, marital power and the egalitarian ideal, challenges to monogamy.

Gen Ed: HS, CI, US.

Grading status: Letter grade.

AMST 276. Food and American Culture: What We Eat and Who We Are. 3 Credits.

This course will take students on a journey through some of the key moments in 'American' food studies and its beginnings across a range of disciplinary homes: the study of nutrition and food security; the study of food systems and the vocabularies that subtend them.

Gen Ed: CI, US.

Grading status: Letter grade.

AMST 277. Globalization and National Identity. 3 Credits.

Considers the meanings and implications of globalization especially in relation to identity, nationhood, and America's place in the world. Honors version available

Gen Ed: HS, GL, NA.

Grading status: Letter grade.

AMST 277H. Globalization and National Identity. 3 Credits.

Considers the meanings and implications of globalization especially in relation to identity, nationhood, and America's place in the world.

Gen Ed: HS, GL, NA.

Grading status: Letter grade.

AMST 278. Crimes and Punishments. 3 Credits.

This course explores the social history and culture of crime, deviant behavior, and punishment in America between the pre-revolutionary period and today. It traces the history of longstanding institutions; examines elements of American history from a criminal justice perspective; and seeks historical origins and continuities for contemporary problems.

Gen Ed: HS, CI, NA.

Grading status: Letter grade.

AMST 283. American Home. 3 Credits.

Examines themes in the history and design of the most intimate and most public of objects - the house. Residences, from tract house mansions to apartment buildings, are powerful statements about how we see our society and how circumstances and choice lead us to house ourselves. Previously offered as AMST 466.

Gen Ed: HS, CI, EE- Field Work.

Grading status: Letter grade.

AMST 284. Visual Culture. 3 Credits.

This course investigates how we make and signify meaning through images, ranging from art to advertising to graffiti, and provides the critical tools to understand the visual worlds we inhabit.

Gen Ed: VP.

Grading status: Letter grade.

AMST 285. Access to Work in America. 3 Credits.

Focus on systemic and individual factors affecting access to work including gender, race, age, disability, transportation, international competition, technological progress, change in labor markets, educational institutions, and public policy.

Gen Ed: SS, CI, EE- Field Work.

Grading status: Letter grade

Same as: ECON 285.

AMST 287. Introduction to American Legal Education. 3 Credits.

Introduces students to how legal education is conducted in the United States by mimicking the '1L' experience, or first year in law school. It is broken into units that represent classes every law school teaches in the first year: contracts, property, torts, criminal law, civil procedure, and constitutional law.

Gen Ed: SS.

Grading status: Letter grade.

AMST 290. Topics in American Studies. 3 Credits.

Special topics in American studies.

Gen Ed: LA, NA.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

AMST 291. Ethics and American Studies. 3 Credits.

An interdisciplinary seminar in American studies addressing ethical issues in the United States.

Gen Ed: PH, NA.

Grading status: Letter grade.

AMST 292. Historical Seminar in American Studies. 3 Credits.

Topics in American history in American studies. Honors version available

Gen Ed: HS, NA.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

AMST 292H. Historical Seminar in American Studies. 3 Credits.

Topics in American history from the perspective of American studies.

Gen Ed: HS, NA.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

AMST 294. American Studies Seminar on Aesthetic Perspective. 3 Credits.

Topics in arts and literature from the perspective of American studies.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

AMST 317. Adoption in America. 3 Credits.

An interdisciplinary approach to the history of adoption and related practices in the United States, employing the provisions society has made for the welfare of children deemed to be orphans as a powerful lens into changing values and attitudes toward childhood, race, class, gender, reproduction, parenthood, and family.

Gen Ed: HS, US.

Grading status: Letter grade.

AMST 325. Encountering Art in the Unexpected: Borderlands and Story in Contemporary American Visual Art. 3 Credits.

This course focuses on the contemporary art and social change movement. We will learn how to use site-specific and performative art interventions to make invisible borders, boundaries, and other issues visible and innovatively to create engaged and sustained dialogue.

Gen Ed: VP, US.

Grading status: Letter grade

Same as: WGST 325.

AMST 330. del norte a norte: An American Songbook. 3 Credits.

Through the examination of a variety of song cultures and its artistic and cultural expressions, we explore the interdisciplinary methods of American studies and contemporary approaches to the study of American society and cultures, with an emphasis on musical performance. In partnership with Carolina Performing Arts, students will learn about the sociocultural, aesthetic, and critical components of song cultures associated with social change, exploring identity, diversity, privilege, cultures, and justice while participating in community service.

Gen Ed: VP, EE- Service Learning, US.

Grading status: Letter grade.

AMST 334H. Defining America I. 3 Credits.

An interdisciplinary seminar that considers the changing understandings of what it meant to be American up through the United States Civil War.

Gen Ed: HS, NA.

Grading status: Letter grade.

AMST 334. Defining America I. 3 Credits.

An interdisciplinary seminar that considers the changing understandings of what it meant to be American up through the United States Civil War.

Honors version available

Gen Ed: HS, NA.

Grading status: Letter grade.

AMST 335. Defining America II. 3 Credits.

An interdisciplinary seminar that investigates the changing meanings of being American since the United States Civil War. Honors version available

Gen Ed: LA, NA, US.

Grading status: Letter grade.

AMST 335H. Defining America II. 3 Credits.

An interdisciplinary seminar that investigates the changing meanings of being American since the United States Civil War.

Gen Ed: LA, NA, US.

Grading status: Letter grade.

AMST 336. Native Americans in Film. 3 Credits.

This course is about Hollywood's portrayal of Indians in film, how Indian films have depicted Native American history, and why the filmic representation of Indians has changed over time.

Gen Ed: VP, NA, US.

Grading status: Letter grade.

AMST 337. Beyond Red Power: American Indian Activism since 1900. 3 Credits.

This course seeks to understand how American Indian individuals and communities survived a century that began with predictions of their disappearance. To answer that question, we take a broad view of politics and activism, exploring everything from the radical protest to art and everyday forms of resistance.

Gen Ed: HS, US.

Grading status: Letter grade.

AMST 338. Native American Novel. 3 Credits.

This course examines this art form's development by indigenous writers as a mode of storytelling that explores the continuing effects of settler colonialism upon indigenous peoples and foregrounds indigenous notions of land, culture, and community.

Gen Ed: LA, CI, US.

Grading status: Letter grade.

AMST 339. The Long 1960s in Native America. 3 Credits.

An interdisciplinary exploration of Native America during the 'long 1960s' (1954-1973), this course focuses on how American Indian experiences intersected with and diverged from those of non-native groups via topics such as the youth movement, women's rights, nationalism, civil rights, radical protest, and creative expression.

Gen Ed: HS, CI, US.

Grading status: Letter grade.

AMST 340. American Indian Art and Material Culture through Interdisciplinary Perspectives. 3 Credits.

Analyzes material culture created by Native artists throughout the United States and portions of Canada. Examines the role of art and artists and how material culture is studied and displayed. Students study objects, texts, and images, exploring mediums such as painting, sculpture, basket making, beadwork, and photography.

Gen Ed: VP, NA.

Grading status: Letter grade.

AMST 341. Digital Native America. 3 Credits.

This is a project-based course that explores settler colonial appropriations of American Indian knowledge. Students then use new technologies as a means of engaging in the digital re-representation and return of this knowledge. Instructor and topics vary.

Gen Ed: SS, US.

Grading status: Letter grade.

AMST 345. Issues in the Indigenous World. 3 Credits.

This course will explore the Indigenous world in various settler colonial contexts. We will come to understand the communities who claim Indigenous status, commonalities among Indigenous peoples, and differences that create important distinctions in places like the U.S. Australia, Canada, and New Zealand. We will also learn how Indigenous peoples around the world continue to respond to various aspects of colonialism, including but not limited to law and policy, representation, art, and human rights.

Gen Ed: BN, EE- Study Abroad, GL.

Grading status: Letter grade.

AMST 350. Main Street Carolina: A Cultural History of North Carolina Downtowns. 3 Credits.

An introduction to the interdisciplinary scholarly approaches to the physical, social, economic, and cultural developments of downtowns. Students will conduct and share original research. Honors version available

Gen Ed: HS, EE- Mentored Research, NA.

Grading status: Letter grade.

AMST 350H. Main Street Carolina: A Cultural History of North Carolina Downtowns. 3 Credits.

An introduction to the interdisciplinary scholarly approaches to the physical, social, economic, and cultural developments of downtowns. Students will conduct and share original research.

Gen Ed: HS, EE- Mentored Research, NA.

Grading status: Letter grade.

AMST 351. Global Waters, American Impacts, and Critical Connections. 3 Credits.

Water is a vital element for life, food, energy, and transportation. Nations are connected and separated by water through borders and trade. This seminar will examine key impacts on American port cities with respect to water: global infrastructure, foodsheds, health, and diseases.

Gen Ed: PH, CI, GL.

Grading status: Letter grade.

AMST 352. The Asian American Experience. 3 Credits.

The course addresses the history and sociology of Asian immigration and experience in the United States, as well as the formation of diasporic identities among Asian Americans.

Gen Ed: HS, NA, US.

Grading status: Letter grade

Same as: ASIA 350.

AMST 360. The Jewish Writer in American Life. 3 Credits.

This course will investigate, through literature, film, and song, the encounter of Eastern European Jews and their descendants with Anglo-Protestant America over four generations.

Gen Ed: LA, NA, US.

Grading status: Letter grade.

AMST 365. Women and Detective Fiction: From Miss Violet Strange to Veronica Mars. 3 Credits.

Traces the origins of detective fiction and major developments in the history of the genre with a focus on women authors and protagonists. Examines literary texts including fiction and film, with close attention to historical and social contexts and to theoretical arguments relating to popular fiction, genre studies, and gender.

Gen Ed: LA.

Grading status: Letter grade.

AMST 371. LGBTQ Film and Fiction from 1950 to the Present. 3 Credits.

An interdisciplinary seminar that explores stylistic choices and representational modes available to LGBTQ artists in the United States since 1950. We will relate shifts in cinematic and literary representations and aesthetic strategies to developments in political, social, and economic life.

Gen Ed: VP, US.

Grading status: Letter grade.

AMST 374. America's Threatened Languages. 3 Credits.

This course introduces the phenomena of language shift, endangerment, and revitalization in America. In both indigenous and immigrant communities, the mid-1800s initiated a widespread shift toward English. Through readings and discussions, we examine the social and historical motivations for this trend, and explore critical thinking skills for analyzing language shift.

Gen Ed: SS, CI, US.

Grading status: Letter grade.

AMST 375. Southern Food Studies: Beyond the Plate. 3 Credits.

Explores the historical arc and study of food in America and how culinary cultures reflect regional, national, and global narratives, challenges, and identities. As an intriguing lens on to the American experience, food reveals how race, class, gender, and place are entwined in cuisine, food economies, and interactions.

Gen Ed: SS, US.

Grading status: Letter grade

Same as: FOLK 375.

AMST 378. Nation Building and National Identity in Australia and the United States. 3 Credits.

This course compares the cultural and social histories of two settler societies: the United States and Australia. Focus on selected topics, including landscape, indigenous peoples, national identity, exploration. Honors version available

Gen Ed: HS, BN, GL.

Grading status: Letter grade.

AMST 378H. Nation Building and National Identity in Australia and the United States. 3 Credits.

This course compares the cultural and social histories of two settler societies, the United States and Australia. Focus on selected topics, including landscape, indigenous peoples, national identity, exploration.

Gen Ed: HS, BN, GL.

Grading status: Letter grade.

AMST 387. Race and Empire in 20th-Century American Intellectual History. 3 Credits.

This upper-level seminar explores influential 20th-century writings on race and empire and colonialism by intellectuals from America and around the world.

Gen Ed: HS, CI.

Grading status: Letter grade.

AMST 390. Seminar in American Studies. 3 Credits.

Seminar in American studies topics with a focus on historical inquiry from interdisciplinary angles.

Gen Ed: HS, NA.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

AMST 392. Radical Communities in Twentieth Century American Religious History. 3 Credits.

How the language, ideas, and cultural products of religious outsiders responded to and influenced mainstream ideas about what American religious communities could and should look like in terms of gender, race, economics, and faith-based practices.

Gen Ed: PH, NA.

Grading status: Letter grade.

AMST 394. The University in American Life: The University of North Carolina. 3 Credits.

This team-taught course is for juniors and seniors and is multifaceted in its inquiry into the role of the university in American life. UNC–Chapel Hill is used as the case study.

Gen Ed: CI, EE- Field Work, US.

Grading status: Letter grade.

AMST 394L. Role of the University. 1 Credit.

Field laboratory explores UNC–Chapel Hill campus sites and Triangle-area universities. One four-hour laboratory a week.

Requisites: Pre- or corequisite, AMST 394.

Gen Ed: EE- Field Work.

Grading status: Letter grade.

AMST 396. Independent Study in American Studies. 3 Credits.

Permission of the department. Directed reading under the supervision of a faculty member.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

AMST 398. Service Learning in America. 3 Credits.

Explores history and theory of volunteerism and service learning in America. Includes a weekly academic seminar and placement in a service learning project.

Gen Ed: CI, EE- Service Learning.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**AMST 410. Senior Seminar in Southern Studies. 3 Credits.**

We will engage such topics as race, immigration, cultural tourism, and memory to consider conceptions of the South. Students will research a subject they find compelling and write a 20- to 25-page paper.

Gen Ed: HS, EE- Mentored Research, NA.

Grading status: Letter grade.

AMST 420. Theories in American Studies. 3 Credits.

This course will move through prevalent theories in American studies to familiarize students with theoretical concepts and to ascertain both the advantages and pitfalls of theoretical landscapes. Students will become familiar with critical race (postcoloniality and settler-colonialism, for example), feminist, 'queer' theories, historical materialism, political economy, postcolonialism, and bio-power.

Grading status: Letter grade.

AMST 439. Meaning and Makers: Indigenous Artists and the Marketplace. 3 Credits.

This course examines how indigenous artists have negotiated, shaped, and pursued markets and venues of display ranging from 'fine' art markets, galleries, and museums to popular markets associated with tourism.

Gen Ed: VP, CI, GL.

Grading status: Letter grade.

AMST 440. American Indian Poetry. 3 Credits.

This course explores the relation of American Indian poetry and music in English to the history and culture of indigenous communities and their relation to the United States.

Gen Ed: LA.

Grading status: Letter grade.

AMST 460. Rising Waters: Strategies for Resilience to the Challenges of Climate and the Built Environment. 3 Credits.

This service-learning seminar examines water threats to port cities and low-lying areas from sea-level rise, extreme weather, and inadequate infrastructure. The focus is on the Americas, small and barrier islands, and high hazard regions including the South East and Gulf Coast communities. The APPLES project will focus on North Carolina resilience strategies.

Gen Ed: SS, CI, EE- Service Learning.

Grading status: Letter grade.

AMST 475. Documenting Communities. 3 Credits.

Covers the definition and documentation of communities within North Carolina through research, study, and field work of communities. Each student produces a documentary on a specific community. Previously offered as AMST 275. Honors version available

Gen Ed: SS, CI, EE- Field Work.

Grading status: Letter grade.

AMST 475H. Documenting Communities. 3 Credits.

Covers the definition and documentation of communities within North Carolina through research, study, and field work of communities. Each student produces a documentary on a specific community.

Gen Ed: SS, CI, EE- Field Work.

Grading status: Letter grade.

AMST 482. Images of the American Landscape. 3 Credits.

This course will consider how real estate speculation, transportation, suburbanization, and consumerism have shaped a landscape whose many representations in art and narrative record our ongoing struggle over cultural meaning.

Gen Ed: HS, NA.

Grading status: Letter grade.

AMST 483. Seeing the USA: Visual Arts and American Culture. 3 Credits.

Examines the ways in which visual works - paintings, photographs, sculpture, architecture, film, advertising, and other images - communicate the values of American culture and raise questions about American experiences.

Gen Ed: VP, NA.

Grading status: Letter grade.

AMST 485. Folk, Self-Taught, Vernacular, and Outsider Arts. 3 Credits.

Drawing on American and international examples, this course addresses a body of art that occupies the borderlands of contemporary art, examining questions of authenticity, dysfunction, aesthetics, and identity.
Gen Ed: VP.

Grading status: Letter grade.

AMST 486. Shalom Y'all: The Jewish Experience in the American South. 3 Credits.

This course explores ethnicity in the South and focuses on the history and culture of Jewish Southerners from their arrival in the Carolinas in the 17th century to the present day.

Gen Ed: HS, CI, US.

Grading status: Letter grade

Same as: JWST 486.

AMST 487. Early American Architecture and Material Life. 3 Credits.

This course explores, through lecture and discussion, the experiences of everyday life from 1600 through the early 19th century, drawing on the evidence of architecture, landscape, images, and objects.

Gen Ed: VP, NA.

Grading status: Letter grade.

AMST 488. No Place like Home: Material Culture of the American South. 3 Credits.

Seminar will explore the unique worlds of Southern material culture and how 'artifacts' from barns to biscuits provide insight about the changing social and cultural history of the American South.

Gen Ed: VP, NA.

Grading status: Letter grade

Same as: FOLK 488.

AMST 489. Writing Material Culture. 3 Credits.

A reading seminar that examines multiple critical perspectives that shape the reception and interpretation of objects, with a particular emphasis on things in American life.

Gen Ed: VP.

Grading status: Letter grade.

AMST 493. Internship. 1-3 Credits.

Permission of the department and the instructor. Internship. Variable credit.

Gen Ed: EE- Academic Internship.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

AMST 498. Advanced Seminar in American Studies. 3 Credits.

Graduate or junior/senior standing. Examines American civilization by studying social and cultural history, criticism, art, architecture, music, film, popular pastimes, and amusements, among other possible topics.

Gen Ed: VP, NA.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading status: Letter grade.

AMST 510. Federal Indian Law and Policy. 3 Credits.

This course gives an introduction to the American government's law and policy concerning tribal nations and tribal peoples. We examine a number of legal and political interactions to determine how the United States has answered the 'Indian problem' throughout its history and the status of tribal peoples and nations today.

Gen Ed: HS, US.

Grading status: Letter grade.

AMST 511. American Indians and American Law. 3 Credits.

This course explores the history of Native interaction with the American legal system in order to understand how the law affects Native peoples and others today. Students are encouraged (but not required) to take AMST 510 before enrolling in this course.

Gen Ed: HS, US.

Grading status: Letter grade.

AMST 512. Race and American Law. 3 Credits.

This class will explore the intersection between race and American law, both in a historical and contemporary context. It will ask how both of these major social forces have informed and defined each other and what that means for how we think about race and law today.

Gen Ed: US.

Grading status: Letter grade.

AMST 641. Communicating Water Challenges of Climate Change with the Visual and Performing Arts. 3 Credits.

Climate change means water challenges that threaten people, property, and the existence of nation states. Severe precipitation events from warmer air holding more water, sea-level rise, and more intense hurricanes, mean flooding, water quality, and foodshed issues for more than half the world's population. Drought, resulting wildfires, and the availability of life-sustaining water is a problem in others. The visual and performing arts are used to explore more effective ways to communicate this growing crisis.

Gen Ed: CI, US.

Grading status: Letter grade.

AMST 671. Introduction to Public History. 3 Credits.

Introduces the theory, politics, and practice of historical work conducted in public venues (museums, historic sites, national parks, government agencies, archives), directed at public audiences, or addressed to public issues.

Gen Ed: HS, EE- Mentored Research, NA.

Grading status: Letter grade

Same as: HIST 671.

AMST 685. Literature of the Americas. 3 Credits.

Multidisciplinary examination of texts and other media of the Americas, in English and Spanish, from a variety of genres. Two years of college-level Spanish or the equivalent strongly recommended.

Gen Ed: LA, NA.

Grading status: Letter grade

Same as: ENGL 685, CMPL 685.

AMST 691H. Honors in American Studies. 3 Credits.

Directed independent research leading to the preparation of an honors thesis and an oral examination on the thesis. Required of candidates for graduation with honors in American studies who enroll in the class once permission to pursue honors is granted.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

AMST 692H. Honors in American Studies. 3 Credits.

Directed independent research leading to the preparation of an honors thesis and an oral examination on the thesis. Required of candidates for graduation with honors in American studies who enroll in the class once permission to pursue honors is granted.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

CHER—Cherokee

Undergraduate-level Courses

CHER 101. Elementary Cherokee Language I. 3 Credits.

Provides an introduction to speaking, listening, reading, and writing in the Cherokee language. This course is part of an ongoing effort to revitalize Cherokee—an endangered language indigenous to North Carolina.

Students will acquire basic conversational Cherokee and learn to read and write the Sequoyah syllabary.

Gen Ed: FL.

Grading status: Letter grade.

CHER 102. Elementary Cherokee Language II. 3 Credits.

This course expands on skills from CHER 101. We will begin reading longer texts in the Cherokee syllabary and learn to produce more complex narrative structures. Students will move toward discussing others around them, with an eye toward discussing the general world.

Requisites: Prerequisite, CHER 101; permission of the instructor for students lacking the prerequisite.

Gen Ed: FL.

Grading status: Letter grade.

CHER 203. Intermediate Cherokee Language I. 3 Credits.

This course reviews and deepens grammatical knowledge from CHER 101 and 102. We will increase extemporaneous speaking and produce new written texts in the Cherokee syllabary. Students will discuss the world around them in addition to the self and others.

Requisites: Prerequisite, CHER 102; permission of the instructor for students lacking the prerequisite.

Gen Ed: FL.

Grading status: Letter grade.

CHER 204. Intermediate Cherokee Language II. 3 Credits.

This course completes the study of basic Cherokee grammar. We will polish conversational fluency and proficiency, read and create new texts in the Cherokee syllabary. Students will discuss current events and offer opinions.

Requisites: Prerequisite, CHER 203; permission of the instructor for students lacking the prerequisite.

Gen Ed: FL.

Grading status: Letter grade.

CHER 305. Phonetics and General Linguistics. 3 Credits.

Introduction to linguistics; the Cherokee sound system from a phonetic and allophonic view; grammatical categories, morphology, syntax.

Requisites: Prerequisite, CHER 204.

Grading status: Letter grade.

FOLK—Folklore

Undergraduate-level Courses

FOLK 77. First-Year Seminar: The Poetic Roots of Hip-Hop: Hidden Histories of African American Rhyme. 3 Credits.

What are the roots of hip-hop's masterful rhymes and tongue-tripping flow? This seminar explores hip-hop's poetic prehistory, looking to the rhyming and oral poetics that have long defined African American experience. In so doing, we'll uncover hidden histories of everyday eloquence and explore spoken/sung poetry's role in marking cultural identity. Honors version available

Gen Ed: VP, US.

Grading status: Letter grade.

FOLK 77H. First-Year Seminar: The Poetic Roots of Hip-Hop: Hidden Histories of African American Rhyme. 3 Credits.

What are the roots of hip-hop's masterful rhymes and tongue-tripping flow? This seminar explores hip-hop's poetic prehistory, looking to the rhyming and oral poetics that have long defined African American experience. In so doing, we'll uncover hidden histories of everyday eloquence and explore spoken/sung poetry's role in marking cultural identity.

Gen Ed: VP, US.

Grading status: Letter grade.

FOLK 89. First-Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

FOLK 130. Anthropology of the Caribbean. 3 Credits.

Theories and examples of how Caribbean people live, act, and see themselves within various cultural, social, economic, and political contexts across time. Attention to North American views of the Caribbean.

Gen Ed: SS, BN, GL.

Grading status: Letter grade

Same as: ANTH 130.

FOLK 202. Introduction to Folklore. 3 Credits.

An introduction to the study of creativity and aesthetic expression in everyday life, considering both traditional genres and contemporary innovations in the material, verbal, and musical arts.

Gen Ed: SS, US.

Grading status: Letter grade

Same as: ENGL 202, ANTH 202.

FOLK 230. Native American Cultures. 3 Credits.

Broad survey of contemporary American Indian societies and cultures in the United States. Explores socio-cultural and historical diversity of tribes through film, autobiography, literature, current issues, guest speakers, archaeology, and history.

Gen Ed: SS, NA.

Grading status: Letter grade

Same as: ANTH 230.

FOLK 254. American Historical Geographies. 3 Credits.

A study of selected past geographies of the United States with emphasis on the significant geographic changes in population, cultural, and economic conditions through time. Previously offered as FOLK/GEOG 454. (GHA)

Grading status: Letter grade

Same as: GEOG 254.

FOLK 310. Fairy Tales. 3 Credits.

A study of fairy tales as historical artifacts that reveal the concerns of their times and places, as narrative structures capable of remarkable transformation, and as artistic performances drawing upon the expressive resources of multiple media, intended to challenge conventional presuppositions about the genre.

Gen Ed: LA, NA.

Grading status: Letter grade

Same as: ENGL 310.

FOLK 323. Magic, Ritual, and Belief. 3 Credits.

Permission of the instructor. Starting with the late 19th-century evolutionists, this course discusses, intensively, major anthropological theories of magico-religious thought and practice, then offers an approach of its own.

Grading status: Letter grade

Same as: ANTH 323.

FOLK 334. Art, Nature, and Religion: Cross-Cultural Perspectives. 3 Credits.

This cross-cultural study of art focuses on the forms, images, and meanings of paintings, drawings, and carvings produced by the Diyin Dine'é (Navajo), the Dogon (Mali, West Africa), and the Haida, Kwagiutl, Tlingit, and Tshimshian (northwest coast of North America).

Gen Ed: VP.

Grading status: Letter grade

Same as: ANTH 334.

FOLK 340. Southern Styles, Southern Cultures. 4 Credits.

A journey into hidden worlds of southern meaning, exploring the region from the experiential lens of African Americans and the South's indigenous peoples, as a way of rethinking the question, 'What does it mean to be a Southerner?' Students will explore focused issues each semester through intensive, group-based field work projects.

Gen Ed: SS, EE- Field Work, US.

Grading status: Letter grade

Same as: ANTH 340.

FOLK 342. African-American Religious Experience. 3 Credits.

Permission of the instructor. An introduction to the diversity of African American beliefs, experiences, and expressions from the colonial era to the present. Exploration will be both historical and thematic.

Gen Ed: SS, NA.

Grading status: Letter grade

Same as: RELI 342, ANTH 342.

FOLK 370. Southern Legacies: The Descendants Project. 4 Credits.

In this Course-based Undergraduate Research Experience (CURE) class, students will explore the legacy of racial terrorism in North Carolina. Students will search archival sources to discover the family histories of lynching victims, tracing those families to the present, interviewing their descendants, and working with communities to build public awareness of – and perhaps public memorials to – the victims of racial violence.

Gen Ed: SS, EE- Field Work, US.

Grading status: Letter grade

Same as: ANTH 370.

FOLK 375. Southern Food Studies: Beyond the Plate. 3 Credits.

Explores the historical arc and study of food in America and how culinary cultures reflect regional, national, and global narratives, challenges, and identities. As an intriguing lens on to the American experience, food reveals how race, class, gender, and place are entwined in cuisine, food economies, and interactions.

Gen Ed: SS, US.

Grading status: Letter grade

Same as: AMST 375.

FOLK 380. Traditions in Transition: Jewish Folklore and Ethnography. 3 Credits.

This seminar examines Jewish stories, humor, ritual, custom, belief, architecture, dress, and food as forms of creative expression that have complex relationships to Jewish experience, representation, identity, memory, and tradition. What makes these forms of folklore Jewish, how do source communities interpret them, and how do ethnographers document them? Previously offered as FOLK/JWST 505.

Gen Ed: VP, EE- Field Work, US.

Grading status: Letter grade

Same as: JWST 380.

Advanced Undergraduate and Graduate-level Courses**FOLK 424. Ritual, Festival, and Public Culture. 3 Credits.**

This course explores rituals, festivals, and public cultural performances as forms of complex, collective, embodied creative expression. As sites of popular celebration, conflict resolution, identity definition, and social exchange, they provide rich texts for folkloristic study. We consider how local and global forces both sustain and challenge these forms.

Gen Ed: SS, EE- Field Work.

Grading status: Letter grade

Same as: ANTH 424.

FOLK 428. Religion and Anthropology. 3 Credits.

Religion studied anthropologically as a cultural, social, and psychological phenomenon in the works of classical and contemporary social thought. Honors version available

Gen Ed: SS.

Grading status: Letter grade

Same as: ANTH 428, RELI 428.

FOLK 428H. Religion and Anthropology. 3 Credits.

Religion studied anthropologically as a cultural, social, and psychological phenomenon, in the works of classical and contemporary social thought.

Gen Ed: SS.

Grading status: Letter grade

Same as: ANTH 428H, RELI 428H.

FOLK 429. Culture and Power in Southeast Asia. 3 Credits.

The formation and transformation of values, identities, and expressive forms in Southeast Asia in response to forms of power. Emphasis on the impact of colonialism, the nation-state, and globalization.

Gen Ed: SS, BN, GL.

Grading status: Letter grade

Same as: ANTH 429, ASIA 429.

FOLK 435. Consciousness and Symbols. 3 Credits.

This course explores consciousness through symbols. Symbols from religion, art, politics, and self are studied in social, psychological, historical, and ecological context to ascertain meanings in experience and behavior.

Gen Ed: SS.

Grading status: Letter grade

Same as: ANTH 435.

FOLK 455. Ethnohistory. 3 Credits.

Integration of data from ethnographic and archaeological research with pertinent historic information. Familiarization with a wide range of sources for ethnohistoric data and practice in obtaining and evaluating information. Pertinent theoretical concepts will be explored.

Gen Ed: HS.

Grading status: Letter grade

Same as: ANTH 455.

FOLK 470. Medicine and Anthropology. 3 Credits.

This course examines cultural understandings of health, illness, and medical systems from an anthropological perspective with a special focus on Western medicine.

Gen Ed: SS.

Grading status: Letter grade

Same as: ANTH 470.

FOLK 473. Anthropology of the Body and the Subject. 3 Credits.

Anthropological and historical studies of cultural constructions of bodily experience and subjectivity are reviewed, with emphasis on the genesis of the modern individual and cultural approaches to gender and sexuality.

Gen Ed: SS.

Grading status: Letter grade

Same as: ANTH 473.

FOLK 476. Graffiti, Gods, and Gardens: Urban Folklore. 3 Credits.

What is the relationship between distinctive features of urban environments and the expressive forms found in those settings? This course explores the impact of the urban setting on folk traditions. We examine how people transform urban spaces into places of meaning through storytelling, festival, ritual, food, art, music, and dance.

Gen Ed: VP, EE- Field Work, US.

Grading status: Letter grade.

FOLK 480. Vernacular Traditions in African American Music. 4 Credits.

Explores performance traditions in African American music, tracing development from African song through reels, blues, gospel, and contemporary vernacular expression. Focuses on continuity, creativity, and change within African American aesthetics. Previously offered as FOLK 610/AAAD 432.

Gen Ed: HS, EE- Field Work, US.

Grading status: Letter grade

Same as: AAAD 480.

FOLK 481. Jewish Belongings: Material Culture of the Jewish Experience. 3 Credits.

What makes an object 'Jewish'? This seminar examines how we think about, animate, repurpose, and display 'Jewish' objects in the public realm, cultural institutions, religious spaces, and the home. We consider how makers and users negotiate objects' various meanings within the domains of prayer, performance, entertainment, and exhibition. The class curates a final group exhibition of Jewish material culture based on original fieldwork.

Gen Ed: VP, EE- Field Work, US.

Grading status: Letter grade

Same as: JWST 481.

FOLK 484. Discourse and Dialogue in Ethnographic Research. 3 Credits.

Study of cultural variation in styles of speaking applied to collection of ethnographic data. Talk as responsive social action and its role in the constitution of ethnic and gender identities.

Gen Ed: SS, CI, US.

Grading status: Letter grade

Same as: ANTH 484, LING 484.

FOLK 487. Everyday Stories: Personal Narrative and Legend. 3 Credits.

Oral storytelling may seem old-fashioned, but we tell true (or possibly true) stories every day. We will study personal narratives (about our own experiences) and legends (about improbable, intriguing events), exploring the techniques and structures that make them effective communication tools and the influence of different contexts and audiences.

Gen Ed: CI, US.

Grading status: Letter grade

Same as: ENGL 487.

FOLK 488. No Place like Home: Material Culture of the American South. 3 Credits.

Seminar will explore the unique worlds of Southern material culture and how 'artifacts' from barns to biscuits provide insight about the changing social and cultural history of the American South.

Gen Ed: VP, NA.

Grading status: Letter grade

Same as: AMST 488.

FOLK 490. Topics in Folklore. 3 Credits.

Topics vary from semester to semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

FOLK 495. Field Research. 3 Credits.

Research at sites that vary.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

FOLK 496. Directed Readings in Folklore. 3 Credits.

Permission of the department. Topic varies depending on the instructor.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

FOLK 502. Myths and Epics of the Ancient Near East. 3 Credits.

An examination of Babylonian, Canaanite, Egyptian, Hittite, and Sumerian texts from the prebiblical era, focusing on representative myths, epics, sagas, songs, proverbs, prophecies, and hymns. Honors version available

Gen Ed: LA, WB.

Grading status: Letter grade

Same as: RELI 502.

FOLK 502H. Myths and Epics of the Ancient Near East. 3 Credits.

An examination of Babylonian, Canaanite, Egyptian, Hittite, and Sumerian texts from the prebiblical era, focusing on representative myths, epics, sagas, songs, proverbs, prophecies, and hymns.

Gen Ed: LA, WB.

Grading status: Letter grade

Same as: RELI 502H.

FOLK 525. Culture and Personality. 3 Credits.

Systems theory used to conceptualize relationship between cultural patterns and individual minds. Functional, dysfunctional, and therapeutic processes considered. Examples from Africa, Asia, Europe, and Native America. Lectures, films, recitations.

Gen Ed: SS.

Grading status: Letter grade

Same as: ANTH 525.

FOLK 537. Gender and Performance: Constituting Identity. 3 Credits.

Examines the culturally and historically variable ways in which individuals constitute themselves as cis- or transgendered subjects, drawing upon extant expressive resources, modifying them, and expanding options available to others. Performance of self as the product of esthetically marked or unmarked, everyday actions.

Gen Ed: SS, GL.

Grading status: Letter grade

Same as: ANTH 537, WGST 438.

FOLK 550. Introduction to Material Culture. 3 Credits.

An introduction to material folk culture, exploring the meanings that people bring to traditional arts and the artful creations with which they surround themselves (e.g., architecture, clothing, altars, tools, food).

Gen Ed: VP.

Grading status: Letter grade.

FOLK 560. Southern Literature and the Oral Tradition. 3 Credits.

Course considers how Southern writers employ folklore genres such as folk tales, sermons, and music and how such genres provide structure for literary forms like the novel and the short story.

Gen Ed: HS, NA, US.

Grading status: Letter grade.

FOLK 562. Oral History and Performance. 3 Credits.

This course combines readings and field work in oral history with the study of performance as a means of interpreting and conveying oral history texts. Honors version available

Gen Ed: EE- Performing Arts.

Grading status: Letter grade

Same as: COMM 562, HIST 562, WGST 562.

FOLK 562H. Oral History and Performance. 3 Credits.

This course combines readings and field work in oral history with the study of performance as a means of interpreting and conveying oral history texts.

Gen Ed: EE- Performing Arts.

Grading status: Letter grade

Same as: COMM 562H, HIST 562H, WGST 562H.

FOLK 565. Ritual, Theatre, and Performance Art. 3 Credits.

Explores how each of these forms of performance communicates meaning and feeling and points to possibility. Students develop performances in each mode, informed by readings in anthropology and directing theory.

Requisites: Prerequisite, COMM 160; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade

Same as: COMM 362.

FOLK 571. Southern Music. 3 Credits.

Explores the history of music in the American South from its roots to 20th-century musical forms, revealing how music serves as a window on the region's history and culture.

Gen Ed: HS, NA.

Grading status: Letter grade

Same as: HIST 571.

FOLK 587. Folklore in the South. 3 Credits.

An issue-oriented study of Southern folklore, exploring the ways that vernacular artistic expression (from barns and barbecue to gospel and well-told tales) come to define both community and region.

Gen Ed: VP, NA.

Grading status: Letter grade.

FOLK 670. Introduction to Oral History. 3 Credits.

Introduces students to the uses of interviews in historical research. Questions of ethics, interpretation, and the construction of memory will be explored, and interviewing skills will be developed through field work.

Gen Ed: HS, CI.

Grading status: Letter grade

Same as: HIST 670.

FOLK 675. Ethnographic Method. 3 Credits.

Intensive study and practice of the core research methods of cultural and social anthropology.

Gen Ed: SS, CI.

Grading status: Letter grade

Same as: ANTH 675.

FOLK 688. Observation and Interpretation of Religious Action. 3 Credits.

Permission of the instructor. Exercises (including field work) in learning to read the primary modes of public action in religious traditions, e.g., sermons, testimonies, rituals, and prayers.

Gen Ed: SS, EE- Mentored Research.

Grading status: Letter grade

Same as: ANTH 688, RELI 688.

FOLK 690. Studies In Folklore. 3 Credits.

Topic varies from semester to semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

FOLK 691H. Honors Project in Folklore. 3 Credits.

Permission of the instructor. For honors candidates. Ethnographic and/or library research and analysis of the gathered materials, leading to a draft of an honors thesis.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

FOLK 692H. Honors Thesis in Folklore. 3 Credits.

Writing of an honors thesis based on independent research conducted in FOLK 691H. Open only to senior honors candidates who work under the direction of a faculty member.

Requisites: Prerequisite, FOLK 691H.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

Gabrielle Berlinger, Director of Undergraduate Studies

amstdus@unc.edu

The B.A. major in the American Studies area provides students with a broad foundation in ways of studying and researching American culture, exposure, and the opportunity to explore specific eras and genres in depth.

Department Programs

Majors

- American Studies Major, B.A. (p. 230)
- American Studies Major, B.A.–American Indian and Indigenous Studies Concentration (p. 237)
- American Studies Major, B.A.–Folklore Concentration (p. 239)

- American Studies Major, B.A.—Global American Studies Concentration (p. 241)
- American Studies Major, B.A.—Southern Studies Concentration (p. 243)

Minors

- American Studies Minor (p. 246)
- American Indian and Indigenous Studies Minor (p. 247)
- Folklore Minor (p. 248)
- Global American Studies Minor (p. 250)
- Southern Studies Minor (p. 251)

Graduate Programs

- Ph.D. in American Studies (<http://catalog.unc.edu/graduate/schools-departments/american-studies/>)
- M.A. in Folklore (<http://catalog.unc.edu/graduate/schools-departments/american-studies/>)
- Graduate Minor in American Studies (<http://catalog.unc.edu/graduate/schools-departments/american-studies/#programstext>)
- Graduate Minor in Folklore (<http://catalog.unc.edu/graduate/schools-departments/american-studies/#programstext>)

Student Learning Outcomes

Upon completion of the American studies program, students should be able to:

- Apply critical skills of analysis to a variety of primary historical sources and/or cultural expressions
- Exercise advanced writing skills that demonstrate clear articulation of ideas and effective expression of understanding
- Assess the value of interdisciplinary learning by engaging with a variety of disciplinary perspectives on the study of America within their major elective courses
- Interpret national traditions and ideals from different local, regional, transnational, and/or global situations and from diverse ideological and/or ethnic perspectives
- Report satisfaction with the American studies major and its value for their postgraduate academic and professional careers

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

The concentration in American studies consists of nine courses. Courses listed more than once can be counted for only one category. At least one course must be at the 300 level or above.

Code	Title	Hours
Core Requirements		
Introduction (one of the following):		3
AMST 101	The Emergence of Modern America	
AMST 102	Myth and History in American Memory	
AMST 334	Defining America I ^H	
AMST 335	Defining America II ^H	
AMST 201	Literary Approaches to American Studies	3
or AMST 202	Historical Approaches to American Studies	
Topics: At least two AMST courses numbered above 202 (not including independent study or honors thesis research)		6
Literature (one course, see list below)		3
Ideas and Traditions (one course, see list below)		3
Expressive Arts and Popular Culture (one course, see list below)		3
Regionalism, Transnationalism, and the Public Sphere (one course, see list below)		3
Ethnicity and Diversity (one course, see list below)		3
Total Hours		27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

American studies (AMST) course descriptions (p. 220).

AMST 396, FOLK 490, and FOLK 690 may fall under various categories, depending on the focus of these courses in a given semester; the course instructor and director of undergraduate studies will decide which category they fulfill.

At the core of the undergraduate major concentration in American studies are two required courses in interdisciplinary cultural analysis (see above). Majors also choose at least two advanced seminars in the department that focus readings and research on topics representative of both the talents of its faculty members and emergent directions in American studies scholarship. For the remainder of their requirements, majors select a series of relevant electives offered by over a dozen different University departments and curricula. These courses deepen majors' interdisciplinary awareness of American traditions, institutions, literature, and arts as well as expose students to a diversity of American experiences and perspectives. Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major requirements; such courses will be evaluated on a case-by-case basis.

Literature

Code	Title	Hours
AMST 246	Indigenous Storytelling: Oral, Written, and Visual Literatures of Native America	3
AMST 252	Muslim American Literatures and Cultures	3

Special Opportunities in American Studies

Honors in American Studies

The American studies major offers a two-course honors program: AMST 691H in the fall semester and AMST 692H in the spring semester. Students must propose their thesis and contract with a faculty advisor during the semester prior to the beginning of their senior year. For each

semester of honors work, thesis students must submit a signed learning contract to the Department of American Studies during the registration period. During the two semesters devoted to honors work, students conduct individual research and prepare an honors thesis under the supervision of a faculty member. Students also will attend a weekly seminar at the discretion of the advisor. Students must maintain a 3.3 cumulative grade point average to be eligible. With the approval of the associate or the assistant dean for honors, students with a slightly lower average who have a reasonable expectation of meeting the requirement within one more semester may embark upon the honors thesis, understanding that if they do not attain the 3.3 standard they may continue the research project as independent study but are not eligible to graduate with honors or highest honors.

Experiential Education

The Department of American Studies offers a seminar on Service Learning in America (AMST 398) and offers credits for approved internship projects (AMST 493). Students have learned about American studies by serving the community in museums, schools, social agencies, and other cultural institutions. Many courses in the folklore program also offer experiential education credit through ethnographic training and fieldwork opportunities.

Study Abroad

The Department of American Studies encourages students to consider a semester or more of study abroad and has developed close relations with several American studies programs in different countries. Studying American experience in international contexts is an integral part of understanding the place and influence of the United States in the world. Student learning is enhanced by the perspectives gained by examining how American subjects are taught in universities around the globe as well as by encountering the international students who enroll in American studies courses in Chapel Hill. Study abroad offers students of folklore the opportunity to understand the rich vernacular and traditional cultures of other parts of the world from both a local and a comparative perspective. Students can receive American studies major credit for selected study abroad programs and are encouraged to make study abroad part of their academic plans. Study abroad courses can count toward the global American studies major or minor. Students interested in this experience should consult with the director of undergraduate studies or with the Study Abroad Office about international exchange programs sponsored by UNC—Chapel Hill. Furthermore, American studies majors and minors may apply for the Julia Preston Brumley Travel Scholarship, which is only available to American studies students, to help fund their study abroad.

Undergraduate Awards

The department awards Julia Preston Brumley Travel Scholarships to help fund international travel and study abroad. The Peter C. Baxter Memorial Prize is awarded annually to the outstanding senior majoring in American studies.

Undergraduate Research

The department offers credit for AMST 396 and FOLK 495. Majors can develop a two-semester honors thesis project (AMST 691H and AMST 692H) in consultation with an advisor. Students have received summer undergraduate research fellowships, earned research support and travel awards, and presented their work at the Annual Celebration of Undergraduate Research each spring.

amstdus@unc.edu

The American Indian and indigenous studies concentration provides a meaningful grounding in the histories, cultures, and contemporary experiences of peoples indigenous to North America, as well as their encounters with settler states. The curriculum increasingly provides opportunities for students to gain a hemispheric perspective that includes the histories, cultures, and contemporary experiences of the indigenous peoples of the Americas. Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

Department Programs

Majors

- American Studies Major, B.A. (p. 230)
- American Studies Major, B.A. – American Indian and Indigenous Studies Concentration (p. 237)
- American Studies Major, B.A. – Folklore Concentration (p. 239)
- American Studies Major, B.A. – Global American Studies Concentration (p. 241)
- American Studies Major, B.A. – Southern Studies Concentration (p. 243)

Minors

- American Studies Minor (p. 246)
- American Indian and Indigenous Studies Minor (p. 247)
- Folklore Minor (p. 248)
- Global American Studies Minor (p. 250)
- Southern Studies Minor (p. 251)

Graduate Programs

- Ph.D. in American Studies (<http://catalog.unc.edu/graduate/schools-departments/american-studies/>)
- M.A. in Folklore (<http://catalog.unc.edu/graduate/schools-departments/american-studies/>)
- Graduate Minor in American Studies (<http://catalog.unc.edu/graduate/schools-departments/american-studies/#programstext>)
- Graduate Minor in Folklore (<http://catalog.unc.edu/graduate/schools-departments/american-studies/#programstext>)

Student Learning Outcomes

Upon completion of the American studies program, students should be able to:

- Apply critical skills of analysis to a variety of primary historical sources and/or cultural expressions
- Exercise advanced writing skills that demonstrate clear articulation of ideas and effective expression of understanding
- Assess the value of interdisciplinary learning by engaging with a variety of disciplinary perspectives on the study of America within their major elective courses
- Interpret national traditions and ideals from different local, regional, transnational, and/or global situations and from diverse ideological and/or ethnic perspectives
- Report satisfaction with the American studies major and its value for their postgraduate academic and professional careers

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

The concentration in American Indian and indigenous studies consists of nine courses. Courses listed more than once can be counted for only one category. At least one course must be at the 300 level or above.

amstdus@unc.edu

The concentration in folklore emphasizes the study of creativity and aesthetic expression in everyday life, focusing on those expressive realms that communities infuse with cultural meaning and through which they give voice to the issues and concerns they see as central to their being. These realms are often deeply grounded in tradition; this doesn't mean, however, that they're always or necessarily *old*. Just as communities change their own sense of self in response to shifting social, political, and economic realities, so too does the artistry they create evolve. Folklore also explores emergent meanings and cultural forms. Trending tweets, food trucks, slam poetry, and hip hop freestyling are just as relevant to folklorists' study as are string-band tunes, Cherokee quilts, family recipes, and blues. The communities that our students study are equally broad, ranging from Lumbee sheetrock workers and Latino line cooks to urban homesteaders and Black Lives Matter activists. The main way that we explore contemporary folklore, in turn, is ethnographic fieldwork, the real-world study of people's lives in everyday settings, grounded in conversation and participatory engagement. Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

amstdus@unc.edu

The major concentration in global American studies maps the reach of American cultures across political and geographical boundaries and through myriad exchanges and intersections. It encourages an engagement with “the global” that extends from the local and regional to the national and transnational, and back again. This major concentration situates the study of American culture in relation to both the recent effects of globalization and in recognition of the always-global character of “America.” Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

America in the World (at least one from the list below)		3-18
The World in America (at least one from the list below)		3-18
Total Hours		27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Students may elect to complete up to four approved American culture courses taken at an American studies international partner institution or other UNC-approved study abroad program. These courses should deal primarily with the United States, or with the interaction between American culture and one or more other cultures, or with the impact within the United States of other cultures. Courses must be approved by the director of undergraduate studies prior to beginning the study abroad experience.

If fewer than four courses are taken abroad, the student should increase the number of courses taken at UNC–Chapel Hill from the America in the World and The World in America lists above, to reach a total of nine courses in the major.

Special Opportunities in American Studies

Honors in American Studies

The American studies major offers a two-course honors program: AMST 691H in the fall semester and AMST 692H in the spring semester. Students must propose their thesis and contract with a faculty advisor during the semester prior to the beginning of their senior year. For each semester of honors work, thesis students must submit a signed learning contract to the Department of American Studies during the registration period. During the two semesters devoted to honors work, students conduct individual research and prepare an honors thesis under the supervision of a faculty member. Students also will attend a weekly seminar at the discretion of the advisor. Students must maintain a 3.3 cumulative grade point average to be eligible. With the approval of the associate or the assistant dean for honors, students with a slightly lower average who have a reasonable expectation of meeting the requirement within one more semester may embark upon the honors thesis, understanding that if they do not attain the 3.3 standard they may continue the research project as independent study but are not eligible to graduate with honors or highest honors.

Experiential Education

The Department of American Studies offers a seminar on Service Learning in America (AMST 398) and offers credits for approved internship projects (AMST 493). Students have learned about American studies by serving the community in museums, schools, social agencies, and other cultural institutions. Many courses in the folklore program also offer experiential education credit through ethnographic training and fieldwork opportunities.

Study Abroad

The Department of American Studies encourages students to consider a semester or more of study abroad and has developed close relations with several American studies programs in different countries. Studying American experience in international contexts is an integral part of understanding the place and influence of the United States in the world. Student learning is enhanced by the perspectives gained by examining how American subjects are taught in universities around the globe as well as by encountering the international students who enroll in American studies courses in Chapel Hill. Study abroad offers students of folklore the opportunity to understand the rich vernacular and traditional cultures of other parts of the world from both a local and a comparative perspective. Students can receive American studies major credit for selected study abroad programs and are encouraged to make study abroad part of their academic plans. Study abroad courses can count toward the global American studies major or minor. Students interested in this experience should consult with the director of undergraduate studies or with the Study Abroad Office about international exchange programs sponsored by UNC–Chapel Hill. Furthermore, American studies majors and minors may apply for the Julia Preston Brumley Travel Scholarship, which is only available to American studies students, to help fund their study abroad.

Undergraduate Awards

The department awards Julia Preston Brumley Travel Scholarships to help fund international travel and study abroad. The Peter C. Baxter Memorial Prize is awarded annually to the outstanding senior majoring in American studies.

Undergraduate Research

The department offers credit for AMST 396 and FOLK 495. Majors can develop a two-semester honors thesis project (AMST 691H and AMST 692H) in consultation with an advisor. Students have received summer undergraduate research fellowships, earned research support and travel awards, and presented their work at the Annual Celebration of Undergraduate Research each spring.

American Studies Major, B.A. – Southern Studies Concentration

Gabrielle Berlinger, Director of Undergraduate Studies

amstdus@unc.edu

The Southern studies concentration focuses critical attention on the history, society, culture, and expression of the American South with its regional, state, and local distinctiveness. It allows students to examine the American South from many disciplinary perspectives, including anthropology, art, architecture, communication studies, cultural tourism, ecology, environment, folklife, foodways, geography, history, journalism, language, law, literature, material culture, myth and manners, music, oral history, politics, public health, religion, values, and more. Students may petition the director of undergraduate studies to have courses not listed

approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

Department Programs

Majors

- American Studies Major, B.A. (p. 230)
- American Studies Major, B.A.—American Indian and Indigenous Studies Concentration (p. 237)
- American Studies Major, B.A.—Folklore Concentration (p. 239)
- American Studies Major, B.A.—Global American Studies Concentration (p. 241)
- American Studies Major, B.A.—Southern Studies Concentration (p. 243)

Minors

- American Studies Minor (p. 246)
- American Indian and Indigenous Studies Minor (p. 247)
- Folklore Minor (p. 248)
- Global American Studies Minor (p. 250)
- Southern Studies Minor (p. 251)

Graduate Programs

- Ph.D. in American Studies (<http://catalog.unc.edu/graduate/schools-departments/american-studies/>)
- M.A. in Folklore (<http://catalog.unc.edu/graduate/schools-departments/american-studies/>)
- Graduate Minor in American Studies (<http://catalog.unc.edu/graduate/schools-departments/american-studies/#programstext>)
- Graduate Minor in Folklore (<http://catalog.unc.edu/graduate/schools-departments/american-studies/#programstext>)

Student Learning Outcomes

Upon completion of the American studies program, students should be able to:

- Apply critical skills of analysis to a variety of primary historical sources and/or cultural expressions
- Exercise advanced writing skills that demonstrate clear articulation of ideas and effective expression of understanding
- Assess the value of interdisciplinary learning by engaging with a variety of disciplinary perspectives on the study of America within their major elective courses
- Interpret national traditions and ideals from different local, regional, transnational, and/or global situations and from diverse ideological and/or ethnic perspectives
- Report satisfaction with the American studies major and its value for their postgraduate academic and professional careers

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC—Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC—Chapel Hill

- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

The concentration in Southern studies consists of nine courses. Courses listed more than once can be counted for only one category. At least one course must be at the 300 level or above.

Code	Title	Hours
Core Requirements		
Introduction:		
AMST 210	Approaches to Southern Studies: A Historical Analysis of the American South	3
or AMST 211	Approaches to Southern Studies: The Literary and Cultural Worlds of the American South	
One AMST course AMST 101 or above other than those that count in the categories below.		3

“What is America?” and “What does it mean to be American?” The American studies area encourages students to ask these questions for themselves and to develop well-researched answers rather than to accept conventional definitions. The undergraduate program in American studies offers its majors and minors the opportunity to explore American traditions, institutions, literature, and arts and exposes students to a diversity of American experiences and perspectives. Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

The American Indian and Indigenous Studies minor provides a meaningful grounding in the histories, cultures, and contemporary experiences of peoples indigenous to North America, as well as their encounters with settler states. The curriculum increasingly provides opportunities for students to gain a hemispheric perspective that includes the histories, cultures, and contemporary experiences of the indigenous peoples of the Americas.

FOLK 476	Graffiti, Gods, and Gardens: Urban Folklore	3
FOLK/AAAD 480	Vernacular Traditions in African American Music	4
FOLK/JWST 481	Jewish Belongings: Material Culture of the Jewish Experience	3

FOLK/ANTH/LING 484	Discourse and Dialogue in Ethnographic Research	3
FOLK/ENGL 487	Everyday Stories: Personal Narrative and Legend	3
FOLK 490	Topics in Folklore	3
FOLK/ANTH 537/WGST 438	Gender and Performance: Constituting Identity	3
FOLK 550	Introduction to Material Culture	3
FOLK 560	Southern Literature and the Oral Tradition	3
FOLK/COMM/HIST/WGST 562	Oral History and Performance ^H	3
FOLK/HIST 571	Southern Music	3
FOLK/HIST 670	Introduction to Oral History	3
FOLK/ANTH 675	Ethnographic Method	3
FOLK 690	Studies In Folklore	3
ANTH 356	Artisans and Global Culture: Economic, Historical, Experiential, and Cross-Cultural Dimensions ^H	3
ANTH 454	The Archaeology of African Diasporas	3
MUSC 144	Introduction to Country Music	3
MUSC 291	Music and Politics	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Ethnographic-Intensive Course

Code	Title	Hours
AMST 475	Documenting Communities ^H	3
AMST 482	Images of the American Landscape	3
FOLK/JWST 380	Traditions in Transition: Jewish Folklore and Ethnography	3
FOLK/ANTH 424	Ritual, Festival, and Public Culture	3
FOLK 476	Graffiti, Gods, and Gardens: Urban Folklore	3
FOLK/AAAD 480	Vernacular Traditions in African American Music	4
FOLK/JWST 481	Jewish Belongings: Material Culture of the Jewish Experience	3
FOLK/ANTH/LING 484	Discourse and Dialogue in Ethnographic Research	3
FOLK/ENGL 487	Everyday Stories: Personal Narrative and Legend	3
FOLK 550	Introduction to Material Culture	3
FOLK/ANTH 675	Ethnographic Method	3
ANTH 477	Visual Anthropology	3
ANTH 625	Ethnography and Life Stories	3
WGST 230	Women in Contemporary Art: A Field Study	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

AMST 396, FOLK 490, or FOLK 690 may be counted if appropriate with permission of the director of undergraduate studies.

Many of these courses fulfill the experiential education component of the General Education requirements.

See program page here (p. 236) for special opportunities.

Global American Studies Minor

Gabrielle Berlinger, Director of Undergraduate Studies

amstdus@unc.edu

The minor in global American studies maps the reach of American cultures across political and geographical boundaries and through myriad exchanges and intersections. It encourages an engagement with “the global” that extends from the local and regional to the national and transnational, and back again. This minor situates the study of American culture in relation to both the recent effects of globalization and in recognition of the always-global character of “America.” Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements. Such courses will be evaluated on a case-by-case basis.

Department Programs

Majors

- American Studies Major, B.A. (p. 230)
- American Studies Major, B.A. – American Indian and Indigenous Studies Concentration (p. 237)
- American Studies Major, B.A. – Folklore Concentration (p. 239)
- American Studies Major, B.A. – Global American Studies Concentration (p. 241)
- American Studies Major, B.A. – Southern Studies Concentration (p. 243)

Minors

- American Studies Minor (p. 246)
- American Indian and Indigenous Studies Minor (p. 247)
- Folklore Minor (p. 248)
- Global American Studies Minor (p. 250)
- Southern Studies Minor (p. 251)

Graduate Programs

- Ph.D. in American Studies (<http://catalog.unc.edu/graduate/schools-departments/american-studies/>)
- M.A. in Folklore (<http://catalog.unc.edu/graduate/schools-departments/american-studies/>)
- Graduate Minor in American Studies (<http://catalog.unc.edu/graduate/schools-departments/american-studies/#programstext>)
- Graduate Minor in Folklore (<http://catalog.unc.edu/graduate/schools-departments/american-studies/#programstext>)

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor ‘core’ requirements at UNC–Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 196).

The undergraduate minor in global American studies consists of five courses. Courses listed more than once can be counted for only one category. At least one course must be at the 300 level or above.

Code	Title	Hours
Core Requirements		
Introduction (one of the following):		3
AMST 101	The Emergence of Modern America	
AMST 102	Myth and History in American Memory	
AMST 201	Literary Approaches to American Studies	
AMST 202	Historical Approaches to American Studies	
AMST 334	Defining America I ^H	
AMST 335	Defining America II ^H	
America in the World (at least one from the list below)		3-9
The World in America (at least one from the list below)		3-9
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Students may elect to complete up to two approved American culture courses taken at an American studies international partner institution or other UNC-approved study abroad program. These courses should deal primarily with the United States, or with the interaction between American culture and one or more other cultures, or with the impact within the United States of other cultures. Courses must be approved by the director of undergraduate studies prior to beginning the study abroad experience.

If fewer than two courses are taken abroad, the student should increase the number of courses from the America in the World and The World in America lists above, to reach a total of five courses in the minor.

America in the World

Code	Title	Hours
AMST 259	Tobacco and America	3
AMST 277	Globalization and National Identity ^H	3
AMST 378	Nation Building and National Identity in Australia and the United States ^H	3
AMST 387	Race and Empire in 20th-Century American Intellectual History	3
CMPL 379	Cowboys, Samurai, and Rebels in Film and Fiction ^H	3
GSL 280	The Dialectic of Whiteness and Blackness in Atlantic Cultures	3
HIST 212	History of Sea Power	3
HIST 213	Air Power and Modern Warfare	3
HIST 242	United States-Latin American Relations	3
HIST 281	The Pacific War, 1937-1945: Its Causes and Legacy	3

HIST 325	Food and History: The Local and Global, the United Kingdom and the United States	3
HIST 373	The United States in World War II	3
HIST 570	The Vietnam War	3
HIST 577	United States Foreign Relations in the 20th Century	3
HIST 578	Transatlantic Relations and Contemporary Geo-Politics from the Cold War to the Present	3
HIST/PWAD 205	War, Diplomacy, and Statecraft, 1618-1815	3
HIST/PWAD 206	War, Diplomacy, and Statecraft, 1815-1945	3
ITAL 339	US-Italian Encounters: War, Tourism, Myth	3
POLI 231	Latin America and the United States in World Politics	3
POLI 443	American Foreign Policy: Formulation and Conduct	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

The World in America

Code	Title	Hours
AMST 258	Captivity and American Cultural Definition	3
AMST 685	Literature of the Americas	3
AAAD 278	Black Caribbeans in the United States	3
AAAD 284	Contemporary Perspectives on the African Diaspora in the Americas	3
AAAD 286	The African Diaspora in the Colonial Americas, 1450-1800	3
AAAD 340	Diaspora Art and Cultural Politics	3
AAAD 385	Emancipation in the New World	3
AAAD 485	Transnational Black Feminist Thought and Practice	3
AAAD 486/ ARTH 453	Africa in the American Imagination ^H	3
ASIA 350	The Asian American Experience	3
EDUC 510	Mexican American and Chicana/o Experience in Education	3
ENGL 164	Introduction to Latina/o Studies ^H	3
ENGL 265	Literature and Race, Literature and Ethnicity ^H	3
ENGL 279	Migration and Globalization	3
ENGL 361	Asian American Women's Writing	3
GEOG 430	Global Migrations, Local Impacts: Urbanization and Migration in the United States	3
GEOG 452	Mobile Geographies: The Political Economy of Migration	3
HIST 271	Ancient and Medieval Japanese History and Culture	3
HIST 278	The Trans-Atlantic Slave Trade ^H	3
PLCY 349	Immigration Policy in the 21st Century	3
POLI 450	Contemporary Inter-American Relations ^H	3
RELI 345	Black Atlantic Religions ^H	3
RELI 423	Ethnicity, Race, and Religion in America	3
RELI 445	Asian Religions in America	3
RELI 580	African American Islam	3

SLAV 469	Coming to America: The Slavic Immigrant Experience in Literature	3
WGST 211	Introduction to Latina Feminisms: Literature, Theory, and Activism	3
WGST 233	Introduction to Latina Literature	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

See the program page here (p. 236) for special opportunities.

Southern Studies Minor

amstdus@unc.edu

Southern studies focuses critical attention on the history, society, culture, and expression of the American South with its regional, state, and local distinctiveness. The curriculum allows students to examine the American South from many disciplinary perspectives, including anthropology, art, architecture, communication studies, cultural tourism, ecology, environment, folklore, foodways, geography, history, journalism, language, law, literature, material culture, myth and manners, music, oral history, politics, public health, religion, values, and more. Students may petition the director of undergraduate studies to have courses not listed approved to fulfill major or minor requirements; such courses will be evaluated on a case-by-case basis.

agbe-davies@unc.edu

Introduction

Anthropology is the integrative study of human beings at all times and in all places. Anthropological expertise has special application for hidden histories and the ancient past; the intersection of human biology and ecology; and the way communities create and use meaning, values, and history in everyday life. We support studies, research, and professional applications in these areas with three programs of foundational training:

archaeology; human biology, ecology, and evolution; and sociocultural anthropology.

Cutting across these specializations, the department supports concentrations that integrate anthropology's diverse expertise to address contemporary world problems. Programming in these areas helps students connect their anthropological studies to work and life beyond the University. Current concentrations focus on health, medicine, and humanity; heritage and unwritten histories; global engagement; race, place and power; and food, environment, and sustainability.

Together, the Department of Anthropology's programs and concentrations offer the undergraduate student one of the best introductions possible to our biological and cultural pasts and to our contemporary world. Anthropology majors thus develop the written and oral skills needed to live and work in a complex world marked by an accelerated rate of environmental, social, and cultural change. Anthropology majors acquire general knowledge and skills valued within a large number of occupations and professions, including but not limited to professional anthropology.

Advising

All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies (see "Contact Information" above) works with current and prospective majors and minors by appointment. Students are encouraged to consult with the director of undergraduate studies about course choices and field work opportunities. Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, and the honors program may be obtained from the department's Web site.

Graduate School and Career Opportunities

- There are three basic career paths for B.A.-level anthropology majors:
- Anthropology majors have open to them all of the career options of any student with a bachelor of arts degree in the liberal arts and social sciences, with the added advantage that they surely are more prepared than most in the growing international arena of business, government, and nongovernmental organizations (NGOs). The resources and professional staff of University Career Services and the department's director of undergraduate studies can provide guidance.
 - Anthropology majors can seek a career that puts their anthropology degree directly into practice.
 - Lastly, anthropology majors can continue with graduate education in order to seek a career in education, either as a social studies teacher in a school or a professor in a university. See Careers in Academic Anthropology—Graduate School Route (<http://anthropology.unc.edu/undergraduate-program/career-tracks/>).

Major

- Anthropology Major, B.A. (p. 269)
- Medical Anthropology Major, B.A. (p. 271)

Minors

- General Anthropology Minor (p. 273)
- Heritage and Global Engagement Minor (p. 273)
- Medical Anthropology Minor (p. 275)

Graduate Programs

- Ph.D. in Anthropology (<http://catalog.unc.edu/graduate/schools-departments/anthropology/>)

Professors

Florence Babb, Rudi Colloredo-Mansfeld, Dale L. Hutchinson, Paul W. Leslie, Patricia A. McAnany, Donald M. Nonini, Peter Redfield, C. Margaret Scarry, Karla Slocum, Vincas P. Steponaitis, Silvia Tomášková.

Associate Professors

Anna Agbe-Davies, Benjamin Arbuckle, Brian Billman, Jocelyn Chua, Glenn D. Hinson, Valerie Lambert, Christopher T. Middleton, Christopher T. Nelson, Michele Rivkin-Fish, Mark Sorensen, Angela Stuesse, Amanda Thompson, Colin T. West, Margaret J. Wiener.

Assistant Professor

Caela O'Connell.

Research Associate Professors

William H. Jansen II, Scott L.H. Madry.

Adjunct Professors

Jonathan Boyarin, R.P. Stephen Davis, Sue E. Estroff, Richard G. Fox, Lawrence Grossberg, John Pickles, Debra G. Skinner.

Adjunct Associate Professors

Lorraine V. Aragon, Marisol de la Cadena, Kia Caldwell, Michael C. Lambert, Heather A. Lapham, Lauren Leve, Barry F. Saunders, Patricia Sawin, John F. Scarry, Philip W. Setel.

Adjunct Assistant Professors

Hannah Gill, Flora Lu, Todd Ramon Ochoa, Karaleah Reichart, Beverly A. Sizemore, Sandy Smith-Nonini, Laurie C. Steponaitis.

Professors Emeriti

Carole L. Crumley, Robert E. Daniels, Arturo Escobar, Terence M.S. Evens, Dorothy C. Holland, Norris B. Johnson, James L. Peacock.

ANTH–Anthropology

The basic division in undergraduate anthropology courses is between lower-division courses numbered below 300 and upper-division courses numbered between 300 and 699. Sophomores should not hesitate to take courses numbered 300 to 699 because of fears of their difficulty but may wish to consult the instructor before enrolling.

Undergraduate-level Courses

ANTH 50. First-Year Seminar: Skeletons in the Closet. 3 Credits.

In this first-year seminar, students explore the use of the human skeleton to modern behavioral and biological investigations, focusing on observations that are used as evidence to prove or disprove hypotheses.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 51. First-Year Seminar: Environmentalism and American Society. 3 Credits.

This first-year seminar examines United States environmentalism and its relationship to power and privilege, consumer desire, and attachment to place. Students conduct original group research on the environmental movement.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 52. First-Year Seminar: Asian Cultures, Asian Cities, Asian Modernities. 3 Credits.

Introduction to the processes of cultural productions and the making of social diversity in large Southeast Asian cities, as they have experienced modernity and globalization during the last 30 years.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 53. First-Year Seminar: Darwin's Dangerous Idea. 3 Credits.

Exploration of how natural selection works, how it has been used and misused for understanding human nature, health and disease, aging, social behavior, how we choose mates, and more. Honors version available

Gen Ed: SS.

Grading status: Letter grade.

ANTH 53H. First-Year Seminar: Darwin's Dangerous Idea. 3 Credits.

Exploration of how natural selection works, how it has been used and misused for understanding human nature, health and disease, aging, social behavior, how we choose mates, and more.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 54. First-Year Seminar: The Indians' New Worlds: Southeastern Histories from 1200 to 1800. 3 Credits.

This course uses archaeological and historical scholarship to consider the histories of the Southern Indians from the Mississippian period to the end of the 18th century.

Gen Ed: HS, US, WB.

Grading status: Letter grade

Same as: AMST 54.

ANTH 56. First-Year Seminar: The Art of Healing, the Culture of Curing. 3 Credits.

This seminar focuses on cross-cultural healing beliefs and practices and on how social, economic, political, and ethical aspects of our lives relate to health and healing

Gen Ed: SS.

Grading status: Letter grade.

ANTH 57. First-Year Seminar: Today in Africa. 3 Credits.

Examination of the daily news as reported online by African newspapers, the BBC, etc. Readings and class discussions of ethnographic and historical background. Student projects based on following major stories

Gen Ed: SS.

Grading status: Letter grade.

ANTH 59. First-Year Seminar: The Right to Childhood: Global Efforts and Challenges. 3 Credits.

Do children have special needs and rights? This seminar will answer this question.

Gen Ed: SS, CI, GL.

Grading status: Letter grade.

ANTH 60. First-Year Seminar: Crisis & Resilience: Past and Future of Human Societies. 3 Credits.

Adopting a long view of human societies, students examine responses to crises engendered by political, economic, and environmental factors. Perspectives on societal change - apocalyptic, transformational, and resilient - undergo scrutiny. Honors version available

Gen Ed: HS, BN, CI.

Grading status: Letter grade.

ANTH 60H. First-Year Seminar: Crisis & Resilience: Past and Future of Human Societies. 3 Credits.

Adopting a long view of human societies, students examine responses to crises engendered by political, economic, and environmental factors. Perspectives on societal change - apocalyptic, transformational, and resilient - undergo scrutiny.

Gen Ed: HS, BN, CI.

Grading status: Letter grade.

ANTH 61. First-Year Seminar: Deep Economies. 3 Credits.

Using cultural case studies, the course examines how communities organize an economy to promote local well-being. Readings emphasize cross-cultural problems of status, trust, property, exchange and political authority.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 62. First-Year Seminar: Indian Country Today. 3 Credits.

This course examines current topics in American Indian country today through the use of films and interactive case studies.

Gen Ed: SS, US.

Grading status: Letter grade.

ANTH 63. First-Year Seminar: The Lives of Others: Exploring Ethnography. 3 Credits.

Can we truly access, understand, and represent the lives of others? In this class, students take on these questions by taking up the practice of ethnography, a research method consisting of entering into a community, interacting with its members, observing social life, asking questions, and writing about these experiences.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 64. First-Year Seminar: Public Archaeology in Bronzeville, Chicago's Black Metropolis. 3 Credits.

In the early 20th century millions of African Americans migrated to large northern cities. The Phyllis Wheatley Home for Girls was run by black women to provide social services for female migrants to Chicago starting in 1926. The course combines elements of archaeology, anthropology, and history to study their lives.

Gen Ed: HS, NA.

Grading status: Letter grade.

ANTH 65. First-Year Seminar: Humans and Animals: Anthropological Perspectives. 3 Credits.

In this course we explore the complex relationships between people and animals cross-culturally and through time. Taking both anthropological and archaeological perspectives we address a wide range of topics, including the origins and uses of domestic animals, the history of dogs and cats, animal symbolism, hunting, and animal rights.

Gen Ed: HS.

Grading status: Letter grade.

ANTH 66H. First-Year Seminar: Saving the World? Humanitarianism in Action. 3 Credits.

In this seminar we will explore international aid, with an emphasis on its medical end and the set of organizations and institutions that exist to offer assistance to people suffering from disaster, endemic poverty, and health disparities.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 67. First-Year Seminar: Blackness and Racialization: A Multidimensional Approach. 3 Credits.

This seminar is an introduction to the history, social construction, cultural production, and lived experience of race in the United States and Jamaica (for comparison). The seminar will utilize historical, theoretical, ethnographic, and popular culture content to explain the effects, uses, durability, and pliability of racial formations.

Gen Ed: HS, US.

Grading status: Letter grade.

ANTH 68. Forced Out and Fenced In: Ethnography of Latinx Immigration. 3 Credits.

Undocumented immigration receives considerable attention in the U.S., but what does it mean to be undocumented? How does illegality shape the lived realities of migrants themselves? Through in-depth engagement with ethnographic research on the topic, this course examines the social, political, and legal challenges faced by undocumented Latinx migrants and their families.

Gen Ed: SS, US.

Grading status: Letter grade.

ANTH 77. First-Year Seminar: Windows of Mystery and Wonder: Exploring Self-Taught Art. 3 Credits.

Folk, outsider, visionary: these terms invoke artistry that unfolds outside of mainstream artistic traditions. This seminar explores these worlds of self-taught art, addressing issues of inspiration, authenticity, and cultural (mis)representation.

Gen Ed: VP.

Grading status: Letter grade.

ANTH 89. First-Year Seminar: Special Topics. 3 Credits.

Special topics course; content will vary each semester. Honors version available

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 89H. First-Year Seminar: Special Topics. 3 Credits.

Special topics course; content will vary each semester.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 92. UNITAS. 3 Credits.

Fall component of a two-semester course. A seminar that explores issues of social and cultural diversity. Students must be residents of UNITAS residence hall.

Gen Ed: SS, US.

Grading status: Letter grade.

ANTH 93. UNITAS. 3 Credits.

Spring component of a two-semester course. Students engage in service learning through APPLES and produce a final product that thoughtfully reflects on their experience. Students must be residents of UNITAS residence hall.

Requisites: Prerequisite, ANTH 92; permission of the instructor for students lacking the prerequisite.

Gen Ed: SS, EE- Service Learning, US.

Grading status: Letter grade.

ANTH 101. General Anthropology. 3 Credits.

An introduction to anthropology, the science of humans, the culture-bearing animal. Topics considered: human evolution and biological variations within and between modern populations, prehistoric and historic developments of culture, cultural dynamics viewed analytically and comparatively. Honors version available

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 101H. General Anthropology. 3 Credits.

An introduction to anthropology, the science of humans, the culture-bearing animal. Topics considered: human evolution and biological variations within and between modern populations, prehistoric and historic developments of culture, cultural dynamics viewed analytically and comparatively.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 102. Introduction to Cultural Anthropology. 3 Credits.

An introduction to non-Western cultures studied by anthropologists. Includes an in-depth focus on the cultural and social systems of several groups.

Gen Ed: SS, BN.

Grading status: Letter grade.

ANTH 103. Anthropology of Globalization. 3 Credits.

The study of different approaches to globalization and of inequalities in power between nation-states, ethnic groups, classes, and locales experiencing globalization. Uses ethnographic materials to examine effects of transnational migrations and other processes of globalization.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 120. Anthropology through Expressive Cultures. 3 Credits.

Introduction to cultural analysis and the anthropological point of view through analytic and interpretive readings of films, fiction, and ethnography. Emphasis on social conditions and native points of view.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 121. Ancient Cities of the Americas. 3 Credits.

An introduction to archaeology through the study of towns and cities built by the ancient peoples of the Americas. The focus is on historical processes by which these centers arose.

Gen Ed: HS, BN, WB.

Grading status: Letter grade.

ANTH 123. Habitat and Humanity. 3 Credits.

Cross-cultural survey of building and landscape architecture, including prehistoric dwellings and sacred structures such as shrines and temples. Emphasis on architecture as symbolic form and cultural meaning.

Gen Ed: VP.

Grading status: Letter grade.

ANTH 125. Canine Cultures. 3 Credits.

Introduces anthropology through human-dog relations across time and space. Theories about domestication; canine versus primate cognition and perception; working and service dogs; street dogs; the development and global spread of breeds; impact of human values and politics on dog lives around the world. Honors version available

Gen Ed: SS, EE- Field Work, GL.

Grading status: Letter grade.

ANTH 125H. Canine Cultures. 3 Credits.

Introduces anthropology through human-dog relations across time and space. Theories about domestication; canine versus primate cognition and perception; working and service dogs; street dogs; the development and global spread of breeds; impact of human values and politics on dog lives around the world.

Gen Ed: SS, EE- Field Work, GL.

Grading status: Letter grade.

ANTH 130. Anthropology of the Caribbean. 3 Credits.

Theories and examples of how Caribbean people live, act, and see themselves within various cultural, social, economic, and political contexts across time. Attention to North American views of the Caribbean.

Gen Ed: SS, BN, GL.

Grading status: Letter grade

Same as: FOLK 130.

ANTH 138. Linguistic Anthropology. 3 Credits.

An introduction to linguistic anthropology and anthropological linguistics. The course approaches the complex interconnections between language, culture, and cognition; theoretical approaches employed during the past century (structuralism, functionalism, ethnoscience, universalism, linguistic relativity); common case studies (spatial language, colors, classifiers, deixis); verbal art (orality, literacy), linguistic ideology; and ethnolinguistic vitality.

Gen Ed: SS.

Grading status: Letter grade

Same as: LING 138.

ANTH 139. Ecological Anthropology. 3 Credits.

Examines how human-environmental adaptations shape the economic, social, and cultural lives of hunter-gatherers, pastoralists, and agriculturalists. Approaches include optimal foraging theory, political ecology, and subsistence risk.

Grading status: Letter grade.

ANTH 142. Local Cultures, Global Forces. 3 Credits.

Globalization as a cultural and economic phenomenon, emphasizing the historical development of the current world situation and the impact of increasing global interconnection on local cultural traditions. Honors version available

Gen Ed: SS, BN, GL.

Grading status: Letter grade.

ANTH 142H. Local Cultures, Global Forces. 3 Credits.

Globalization as a cultural and economic phenomenon, emphasizing the historical development of the current world situation and the impact of increasing global interconnection on local cultural traditions.

Gen Ed: SS, BN, GL.

Grading status: Letter grade.

ANTH 143. Human Evolution and Adaptation. 3 Credits.

Evolutionary and ecological approach to understanding the human species' past and contemporary human variation. Emphasis on evolutionary processes, biological adaptation, and biocultural interactions with diverse environments.

Gen Ed: PL.

Grading status: Letter grade.

ANTH 144. Archaeology and the Media. 3 Credits.

This class will examine how archaeology is represented in the media. This will include the characterization of archaeology and archaeologists in film and written fiction. This course will also examine the dissemination of archaeological findings through fact based presentations such as television documentaries and material published for the general public's consumption.

Gen Ed: HS.

Grading status: Letter grade.

ANTH 145. Introduction to World Prehistory. 3 Credits.

Introduction to world prehistory and archaeological methods. Examines the development of human society from the emergence of modern human beings 100,000 years ago through the formation of ancient civilizations.

Gen Ed: HS, WB.

Grading status: Letter grade.

ANTH 146. The Nature of Moral Consciousness: A Course in General Anthropology. 3 Credits.

An introductory course in general anthropology focusing on the development of moral consciousness. Western and non-Western patterns of thought and culture are compared and contrasted. The course has a strongly philosophical orientation.

Gen Ed: PH.

Grading status: Letter grade.

ANTH 147. Comparative Healing Systems. 3 Credits.

In this course we compare a variety of healing beliefs and practices so that students may gain a better understanding of their own society, culture, and medical system.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 148. Human Origins. 3 Credits.

Study of human evolution. Focus on the fossil record of humans and human-like ancestors. Topics include communication, aggression, dietary adaptations, locomotion, major anatomical changes, and behavioral shifts in an evolutionary framework.

Gen Ed: PL.

Grading status: Letter grade.

ANTH 149. Great Discoveries in Archaeology. 3 Credits.

This course provides students with a detailed look at some of the most significant archaeological discoveries from around the world, including Neanderthals, Stonehenge, and the Egyptian pyramids.

Gen Ed: HS, WB.

Grading status: Letter grade.

ANTH 151. Anthropological Perspectives on Food and Culture. 3 Credits.

Anthropological perspectives on foodways. This course examines the biological basis of human diets as well as the historical and cultural contexts of food production, preparation, presentation, and consumption.

Gen Ed: HS.

Grading status: Letter grade.

ANTH 175. Introduction to Food Studies: From Science to Society. 3 Credits.

Introduction to food studies covering a variety of topics including how food was consumed over history, land use and aquaculture, food in the arts, food and culture in the American South, food politics, and nutrition science.

Gen Ed: GL, NA.

Grading status: Letter grade

Same as: NUTR 175, AMST 175.

ANTH 190. Special Topics in Anthropology I. 1-4 Credits.

Examines selected topics from an anthropological perspective. Course description is available from the departmental office.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 191. Peoples of Siberia. 3 Credits.

Comparative study of the cultural and biological diversity of peoples of Siberia from prehistoric through contemporary times. Course topics include the biological diversity, culture, behavior, and history of Siberian populations.

Grading status: Letter grade

Same as: ENEC 191.

ANTH 194. Anthropology and Community Development. 3 Credits.

The course examines ethnographic, theoretical, practical, and policy approaches to community development and community organizations in America and the English-speaking Caribbean. Students can work with a local community organization.

Gen Ed: US.

Grading status: Letter grade.

ANTH 195. Research in Anthropology I. 1-3 Credits.

Permission of the instructor. Data collection, analysis, and interpretation for independent research project.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 196. Independent Reading or Study in Anthropology I. 1-3 Credits.

Permission of the instructor. Reading and study under a faculty member whose interests coincide with those of the individual student.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

ANTH 198H. First Year Honors in Anthropology II. 3 Credits.

Open to honors candidates. Permission of the instructor is required.

Reading or study under a faculty member whose interests coincide with those of the individual student.

Grading status: Letter grade.

ANTH 202. Introduction to Folklore. 3 Credits.

An introduction to the study of creativity and aesthetic expression in everyday life, considering both traditional genres and contemporary innovations in the material, verbal, and musical arts.

Gen Ed: SS, US.

Grading status: Letter grade

Same as: ENGL 202, FOLK 202.

ANTH 203. Approaches to American Indian Studies. 3 Credits.

Introduces students to the disciplines comprising American Indian studies and teaches them how to integrate disciplines for a more complete understanding of the experiences of American Indian peoples.

Gen Ed: HS, NA, US.

Grading status: Letter grade

Same as: AMST 203.

ANTH 206. American Indian Societies. 3 Credits.

Explores the tremendous diversity that exists within and across American Indian nations, together with the concerns, issues, and challenges that shape the futures American Indians are charting for themselves.

Gen Ed: SS, US.

Grading status: Letter grade.

ANTH 210. Global Issues and Globalization. 3 Credits.

Survey of international social, political, and cultural patterns in selected societies of Africa, Asia, America, and Europe, stressing comparative analysis of conflicts and change in different historical contexts. LAC recitation sections offered in French, German, and Spanish.

Gen Ed: GL.

Grading status: Letter grade

Same as: GLBL 210, GEOG 210, HIST 210, POLI 210.

ANTH 217. Human Biology in Comparative Perspective. 3 Credits.

Students explore the biological and biocultural factors that shape human biology and health from the cellular to the societal levels. This course compares human biology, health, and development across a range of international settings. Students have the opportunity to analyze current research in human biology and conduct independent research.

Gen Ed: PL.

Grading status: Letter grade.

ANTH 220. Principles of Archaeology. 3 Credits.

Introduction to method and theory in archaeology. An examination of how archaeologists make inferences about past societies, including reconstruction of culture histories; lifeways; ideologies; and social, political, and economic relationships.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 222. Prehistoric Art. 3 Credits.

A survey of prehistoric art in Africa, the Americas, Australia, and Europe.

Gen Ed: BN, WB.

Grading status: Letter grade

Same as: WGST 222.

ANTH 226. The Peoples of Africa. 3 Credits.

Introductory ethnographic survey emphasizing 1) diversity of kinship systems, economies, polities, religious beliefs, etc.; 2) transformations during the colonial era; and 3) political and economic challenges of independent nations. Lectures, films, recitation.

Grading status: Letter grade.

ANTH 230. Native American Cultures. 3 Credits.

Broad survey of contemporary American Indian societies and cultures in the United States. Explores socio-cultural and historical diversity of tribes through film, autobiography, literature, current issues, guest speakers, archaeology, and history.

Gen Ed: SS, NA.

Grading status: Letter grade

Same as: FOLK 230.

ANTH 231. The Inca and Their Ancestors: The Archaeology of Andean South America. 3 Credits.

An examination of the prehistory of Andean South America (Ecuador, Peru, and Bolivia) from first colonization 12,000 years ago to the fall of the Inca Empire in 1532 CE.

Gen Ed: HS, BN, WB.

Grading status: Letter grade.

ANTH 232. Ancestral Maya Civilizations. 3 Credits.

Maya civilization is prominent among American societies that flourish prior to European incursions. Archaeological, epigraphic, and historical materials provide the foundation for understanding this past and its romance allure. Honors version available

Gen Ed: HS, BN.

Grading status: Letter grade.

ANTH 232H. Ancestral Maya Civilizations. 3 Credits.

Maya civilization is prominent among American societies that flourish prior to European incursions. Archaeological, epigraphic, and historical materials provide the foundation for understanding this past and its romance allure.

Gen Ed: HS, BN.

Grading status: Letter grade.

ANTH 233. Prehistory of Southwest Asia and Egypt: From the Earliest Humans to the Rise of Civilization. 3 Credits.

This course surveys the archaeology of the Middle East focusing on major milestones in human history, including the initial expansion of humans out of Africa, human-Neanderthal interactions, the development of agriculture, and the rise of the world's first states and empires.

Gen Ed: BN, WB.

Grading status: Letter grade.

ANTH 234. Native American Tribal Studies. 3 Credits.

This course introduces students to a tribally specific body of knowledge. The tribal focus of the course and the instructor change from term to term. Honors version available

Gen Ed: HS, NA, US.

Grading status: Letter grade

Same as: HIST 234, AMST 234.

ANTH 234H. Native American Tribal Studies. 3 Credits.

This course introduces students to a tribally specific body of knowledge. The tribal focus of the course and the instructor change from term to term.

Gen Ed: HS, NA, US.

Grading status: Letter grade

Same as: HIST 234H, AMST 234H.

ANTH 235. Origins of Civilization: Archaeology of the British Museum. 3 Credits.

In this course we explore archaeological evidence for the rise of western civilizations from 10,000-1000 BC focusing on the collections of the world famous British Museum. We will use the collections of the British Museum, including exhibits on prehistoric Israel, Mesopotamia, Egypt, and Turkey; the world's first cities; and early writing (including objects such as the Rosetta Stone) to understand the technological and social changes that underpin and have influenced western civilization.

Gen Ed: BN, EE- Study Abroad, WB.

Grading status: Letter grade.

ANTH 237. Food, Environment, and Sustainability. 3 Credits.

Explores the nexus of agricultural, ecological, and food systems as they dynamically interact. The class examines case studies from North Carolina and other parts of the world. Themes include nutrition, food security, agroecology, and sustainable livelihoods. Students engage in readings, class projects, and hands-on activities in a laboratory setting.

Grading status: Letter grade

Same as: ENEC 237.

ANTH 238. Human Ecology of Africa. 3 Credits.

Course examines human adaptations to environments across Africa. Focuses on livelihood systems such as farming, herding and hunting/gathering.

Grading status: Letter grade

Same as: ENEC 238.

ANTH 240. Action Research. 3 Credits.

Action research is a strategy for answering important questions, solving problems, and generating meaningful and democratic relationships. Through this course you will learn action research from an anthropological perspective through readings, essays, discussion, and hands-on experience. APPLS leadership and service students have seating priority.

Gen Ed: SS, EE- Mentored Research.

Grading status: Letter grade.

ANTH 248. Anthropology and Public Interest. 3 Credits.

Explores how anthropologists can impact or participate in policy debates regarding contemporary social problems. Involves professional and internship options in public service fields. APPLS service-learning course.

Gen Ed: SS, EE- Mentored Research.

Grading status: Letter grade.

ANTH 250. Archaeology of North America. 3 Credits.

The history of North American Indian cultures from 10,000 BCE to the time of the European colonization as reconstructed by archaeological research. Special emphasis on the eastern and southwestern United States. Honors version available

Gen Ed: HS, WB.

Grading status: Letter grade.

ANTH 250H. Archaeology of North America. 3 Credits.

The history of North American Indian cultures from 10,000 BCE to the time of the European colonization as reconstructed by archaeological research. Special emphasis on the eastern and southwestern United States.

Gen Ed: HS, WB.

Grading status: Letter grade.

ANTH 252. Archaeology of Food. 3 Credits.

Examines how people in the past acquired, distributed, prepared, presented, consumed, and thought about food. Considers the questions that archaeologists ask, the data and methods they use to answer those questions, and how the study of food contributes to understanding people in the distant and recent past.

Gen Ed: HS, WB.

Grading status: Letter grade.

ANTH 259. Culture and Identity. 3 Credits.

Introduces anthropological approaches to identity. Explores the relationship of identity, cultural contexts, and social life. Emphasizes contemporary global cultural interchange and visual media as tools of self-expression.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 270. Living Medicine. 3 Credits.

This course examines the social and cultural experience of medicine, the interpersonal and personal aspects of healing and being healed. It explores how medicine shapes and is shaped by those who inhabit this vital arena of human interaction: physicians, nurses, other professionals and administrators; patients; families; friends and advocates.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 272. Healing in Ethnography and Literature. 3 Credits.

This course brings together literary and ethnographic methods to explore narratives of illness, suffering, and healing, and medicine's roles in these processes. Themes include illness narratives, outbreak narratives, collective memory and healing from social trauma, and healers' memoirs.

Gen Ed: SS.

Grading status: Letter grade

Same as: ENGL 264.

ANTH 277. Gender and Culture. 3 Credits.

Examines what it means to be male, female, and other gendered categories in different societies. Focus on institutions, groups, and individuals that both shape and challenge how gender is understood, organized, and enacted.

Gen Ed: SS.

Grading status: Letter grade

Same as: WGST 277.

ANTH 278. Women in Science. 3 Credits.

The role of women in scientific domains throughout history and a consideration of the status of women and men as scientists. The development of science as a cultural practice.

Gen Ed: HS, CI, EE- Mentored Research.

Grading status: Letter grade

Same as: WGST 278.

ANTH 280. Anthropology of War and Peace. 3 Credits.

Cross-cultural perspectives on war in its relation to society, including Western and non-Western examples. Surveys political, economic, and cultural approaches to warfare and peacemaking.

Gen Ed: SS, GL.

Grading status: Letter grade

Same as: PWAD 280.

ANTH 284. Culture and Consumption. 3 Credits.

A cross-cultural look at gift giving, commodities, and status symbols. Course explores branded commodities, materialism as a factor in cultural change, global consumer culture, and local alternatives.

Gen Ed: SS, CI.

Grading status: Letter grade.

ANTH 290. Special Topic in Anthropology II. 3 Credits.

Examines selected topics from an anthropological perspective. Course description is available from the departmental office. Honors version available

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 290H. Special Topic in Anthropology II. 3 Credits.

Examines selected topics from an anthropological perspective. Course description is available from the departmental office.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 291. Archaeological Theory and Practice. 3 Credits.

A review of historical and theoretical developments that have framed archaeological research, including a discussion of substantive changes in research questions, topics, methods, and analyses that reshaped the field. Course will place American archaeology in a wider international context.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 294. Anthropological Perspectives on Society and Culture. 3 Credits.

Examines major theoretical perspectives that anthropologists have used to explain cultural diversity, social organization, and relations among societies. The class will offer a historical look at how anthropology developed its commitment to holism and ethnography and how contemporary debates have reshaped the field. Restricted to anthropology majors.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 295. Research in Anthropology II. 1-3 Credits.

Permission of the instructor. Data collection, analysis, and interpretation for independent research project.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 296. Independent Reading or Study in Anthropology II. 1-3 Credits.

Permission of the instructor. Reading or study under a faculty member whose interests coincide with those of the individual student.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 297. Directions in Anthropology. 3 Credits.

Open only to and required of anthropology majors in their junior or senior year. Historical and contemporary issues and directions in the discipline as reflected in various concepts, theories, and research strategies.

Honors version available

Gen Ed: SS.

Grading status: Letter grade.

ANTH 297H. Directions in Anthropology. 3 Credits.

Open only to and required of anthropology majors in their junior or senior year. Historical and contemporary issues and directions in the discipline as reflected in various concepts, theories, and research strategies.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 298. Biological Anthropology Theory and Practice. 3 Credits.

Biological anthropology theory and practice, including human natural history, human genetics, epigenetics, and evolution; primatology; paleoanthropology; human biological variation; human biology and ecology; natural selection and adaptation in human evolution; and evolutionary, ecological, and biocultural perspectives on health and disease.

Gen Ed: PL.

Grading status: Letter grade.

ANTH 300. Hip Hop Roots: The Politics and Passions of Black Oral Poetry. 3 Credits.

A journey into the prehistory of hip hop, exploring the hidden and erased legacies of Black oral poetry. Guided by poets and emcees, we'll demonstrate oral poetry's longstanding role as a key marker of Black identity, and as a critical voice of cultural affirmation and political dissent. Rather than focusing on contemporary hip hop, this course instead explores the roots that gave it rise, with students conducting original research to re-write the music's history. Honors version available

Gen Ed: VP, US.

Grading status: Letter grade.

ANTH 300H. Hip Hop Roots: The Politics and Passions of Black Oral Poetry. 3 Credits.

A journey into the prehistory of hip hop, exploring the hidden and erased legacies of Black oral poetry. Guided by poets and emcees, we'll demonstrate oral poetry's longstanding role as a key marker of Black identity, and as a critical voice of cultural affirmation and political dissent. Rather than focusing on contemporary hip hop, this course instead explores the roots that gave it rise, with students conducting original research to re-write the music's history.

Gen Ed: VP, US.

Grading status: Letter grade.

ANTH 302. Language and Power. 3 Credits.

This course provides an overview of language and power studies. Issues: sexist and sex-neutral language; languages of subcultures defined by gender, sexual orientation, ethnicity; hate speech; 'politically correct' language.

Grading status: Letter grade

Same as: LING 302, WGST 302.

ANTH 303. Native Languages of the Americas. 3 Credits.

This course is an introduction to languages indigenous to the Americas. The course touches on the linguistic structure and classification of Native American languages as well as on social issues.

Grading status: Letter grade

Same as: LING 303.

ANTH 306. Water and Inequality: Anthropological Perspectives. 3 Credits.

This course aims to foster an appreciation of the tremendous role of water in shaping human experience, including the ways water shapes where people live, constrains what they do, and plays a major role in the institutionalization of social, political, and economic inequalities. No prerequisites or permissions.

Gen Ed: HS, GL.

Grading status: Letter grade.

ANTH 312. From the Equator to the Poles: Case Studies in Global Environmental Change. 3 Credits.

Case studies in environmental change, highlighting human and environmental dynamics in terrestrial and marine ecosystems on multiple spatial and temporal scales. Includes active learning modules, group presentations, writing assignments.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 315. Human Genetics and Evolution. 3 Credits.

Interaction of heredity, environment, and culture in shaping human biological diversity and behavior, and what such patterns of diversity reveal about our evolutionary past.

Gen Ed: PL.

Grading status: Letter grade.

ANTH 317. Evolutionary Perspectives on Human Adaptation and Behavior. 3 Credits.

Critical, partially historical discussion of evolutionary theories, including Darwinism, neo-Darwinism, ethnology and sociobiology, and their social-science analogs. Focus on the relevance and limitations of these theories for anthropology.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 318. Human Growth and Development. 3 Credits.

Comparative study of human growth and development from conception through adulthood. Special emphasis on evolutionary, biocultural, ecological, and social factors that influence growth.

Gen Ed: PL.

Grading status: Letter grade.

ANTH 319. Global Health. 3 Credits.

This class explores some of the historical, biological, economic, medical, and social issues surrounding globalization and health consequences.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 320. Anthropology of Development. 3 Credits.

Critical exploration of current debates in the anthropology of Third World development, the production of global inequality, and the construction of parts of the world as underdeveloped through discourses and practices of development.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 323. Magic, Ritual, and Belief. 3 Credits.

Permission of the instructor. Starting with the late 19th-century evolutionists, this course discusses, intensively, major anthropological theories of magico-religious thought and practice, then offers an approach of its own.

Grading status: Letter grade

Same as: FOLK 323.

ANTH 325. Emotions and Society. 3 Credits.

Survey of the interplay between emotional experience and social life. Emotions as learned, culturally variable, and socially performed perceptions, understandings, and actions.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 326. Practicing Medical Anthropology. 3 Credits.

A workshop on careers in medical anthropology and the kinds of contributions that medical anthropologists make to health care professions. Students will learn skills including interviewing methods, writing for diverse audiences, blogging. Intended for medical anthropology minors and students interested in bringing anthropological perspectives to a range of practical contexts.

Grading status: Letter grade.

ANTH 330. Melancholy Japan: Myth, Memory, and Everyday Life. 3 Credits.

Ethnographic study of the profound social and cultural transformations that accompanied the capitalist modernization of Japan. Considers the emergence of native ethnology and state interventions into everyday life.

Gen Ed: SS, BN, CI.

Grading status: Letter grade

Same as: ASIA 330.

ANTH 331. The Anthropology of Memory. 3 Credits.

This course is a historical and ethnographic study of the problems of history, memory, and forgetting in contemporary society.

Gen Ed: SS, CI.

Grading status: Letter grade.

ANTH 333. Anthropology of Democracy. 3 Credits.

This course explores how anthropological perspectives might take understandings of democracy in new and unanticipated directions. Using examples from across the globe students will investigate the forces and impacts of democracy. Through hands-on assignments, students will implement a local research project related to the theme of democracy.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 334. Art, Nature, and Religion: Cross-Cultural Perspectives. 3 Credits.

This cross-cultural study of art focuses on the forms, images, and meanings of paintings, drawings, and carvings produced by the Diyin Dine'  (Navajo), the Dogon (Mali, West Africa), and the Haida, Kwagiutl, Tlingit, and Tshimshian (northwest coast of North America).

Gen Ed: VP.

Grading status: Letter grade

Same as: FOLK 334.

ANTH 335. The Commons, Ecology, and Human Futures. 3 Credits.

Commons are shared resources that make human life sustainable over time, and are an alternative to private property and the state. This course explores the Commons in terms of property rights, environmental problems, and political challenges using case studies from the fisheries, waterways, forests, and pasture management. Previously offered as ANTH 440.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 340. Southern Styles, Southern Cultures. 4 Credits.

A journey into hidden worlds of southern meaning, exploring the region from the experiential lens of African Americans and the South's indigenous peoples, as a way of rethinking the question, 'What does it mean to be a Southerner?' Students will explore focused issues each semester through intensive, group-based field work projects.

Gen Ed: SS, EE- Field Work, US.

Grading status: Letter grade

Same as: FOLK 340.

ANTH 342. African-American Religious Experience. 3 Credits.

Permission of the instructor. An introduction to the diversity of African American beliefs, experiences, and expressions from the colonial era to the present. Exploration will be both historical and thematic.

Gen Ed: SS, NA.

Grading status: Letter grade

Same as: RELI 342, FOLK 342.

ANTH 343. Africa and Masks. 3 Credits.

Examines the production, circulation, and consumption of masks in both African and non-African contexts. Expands, nuances, and sometimes undoes our notions of mask, masquerade, and masking.

Gen Ed: VP, BN, CI.

Grading status: Letter grade

Same as: ARTH 353, AAAD 319.

ANTH 345. Alternatives to Capitalism. 3 Credits.

An investigation of economic systems that are sustainable alternatives to the globally dominant political and economic order. Topics include markets, the Commons, cooperatives, local trading systems, participatory budgeting, and social movements seeking to bring these alternatives about. Throughout, the course asks: what can anthropology tell us about the potentials and limits of social transformation? Previously offered as ANTH 466.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 347. Anthropology of Travel and Tourism. 3 Credits.

This course considers anthropological approaches to travel and tourism in the contemporary world. We examine differences of race, class, gender, sexual orientation, and nationality in the experiences of travelers as well as of those who work in the service industries that accommodate travelers' needs--and the ways in which travel destinations are represented and marketed.

Gen Ed: SS, BN.

Grading status: Letter grade.

ANTH 350. Anthropology of the State, Civil Society, and Politics. 3 Credits.

This course is a thematically organized investigation of political processes in modern nation-states and corporate states in the current era of globalization. Using ethnographic and historical studies, we ask: what is happening to the contemporary nation-state, social and political life, and the conditions for human welfare given these processes? Previously offered as ANTH 491.

Gen Ed: SS, EE- Mentored Research, GL.

Grading status: Letter grade.

ANTH 355. Life, Society and Work in the Globalized City. 3 Credits.

Contemporary cities are undergoing major transformations due to globalization, economic restructuring, political conflict, and transnational migration. This course is a comparative study of the structures of power, everyday life, and social inequalities in globalized cities in North America, Asia, and Europe. Previously offered as ANTH 567.

Gen Ed: SS, CI, GL.

Grading status: Letter grade.

ANTH 356. Artisans and Global Culture: Economic, Historical, Experiential, and Cross-Cultural Dimensions. 3 Credits.

An anthropological investigation of the role of skilled handiwork in the creation of contemporary culture and society. It includes field work with a local artisan. Ethnographies about artisan industries and apprenticeship in Latin America, Africa, and Southeast Asia guide our conceptual focus.

Honors version available

Gen Ed: VP, BN, EE- Field Work.

Grading status: Letter grade.

ANTH 356H. Artisans and Global Culture: Economic, Historical, Experiential, and Cross-Cultural Dimensions. 3 Credits.

An anthropological investigation of the role of skilled handiwork in the creation of contemporary culture and society. It includes field work with a local artisan. Ethnographies about artisan industries and apprenticeship in Latin America, Africa, and Southeast Asia guide our conceptual focus.

Gen Ed: VP, BN, EE- Field Work.

Grading status: Letter grade.

ANTH 360. Latin American Economy and Society. 3 Credits.

Examines economic and cultural diversity of Latin America. Using case studies, class focuses on community social organization, work habits, family life and cosmologies, and the problem of inclusion in national cultures.

Grading status: Letter grade.

ANTH 361. Community in India and South Asia. 3 Credits.

This course offers an introduction to the peoples and current dynamics of South Asia by focusing on how communities are constituted and mobilized in India, Pakistan, Nepal, Sri Lanka, and Bangladesh. No prior knowledge of this world area is needed.

Gen Ed: BN, GL.

Grading status: Letter grade.

ANTH 365. Chinese Diaspora in the Asia Pacific. 3 Credits.

This course is an examination of the histories, social organization, and cultures of the Chinese diaspora in the Asia-Pacific region, focusing on contemporary issues in the cultural politics and identities of 'overseas Chinese.' Previously offered as ANTH/ASIA 578.

Gen Ed: BN, CI, GL.

Grading status: Letter grade

Same as: ASIA 365.

ANTH 370. Southern Legacies: The Descendants Project. 4 Credits.

In this Course-based Undergraduate Research Experience (CURE) class, students will explore the legacy of racial terrorism in North Carolina. Students will search archival sources to discover the family histories of lynching victims, tracing those families to the present, interviewing their descendants, and working with communities to build public awareness of -- and perhaps public memorials to -- the victims of racial violence.

Gen Ed: SS, EE- Field Work, US.

Grading status: Letter grade

Same as: FOLK 370.

ANTH 375. Memory, Massacres, and Monuments in Southeast Asia. 3 Credits.

The past in Southeast Asia's present, focusing on global, national, and local processes; individual and collective memory; and the legacies of violent death.

Gen Ed: BN, GL.

Grading status: Letter grade

Same as: ASIA 375.

ANTH 377. European Societies. 3 Credits.

This course explores many cultural factors and diverse peoples, non-Greco-Roman as well as Greco-Roman, that have formed the European identity from the earliest human occupation of Europe to present.

Gen Ed: HS, NA, WB.

Grading status: Letter grade.

ANTH 380. Anthropological Perspectives on Cultural Diversity. 3 Credits.

Introduction to theories of cultural and social difference. Encourages students to use social theory and ethnography to understand how various societies imagine and enact their cultural and political worlds.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 390. Special Topics in Medical Anthropology. 3 Credits.

A rotating topics course related to any of the subject areas and methodological approaches in medical anthropology. Seminar format will enable students to engage closely with a faculty member on his or her area of research. Intended for medical anthropology minors with enrollment open to other students if space allows.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 393. Internship in Anthropology. 1-12 Credits.

Permission of the instructor and the director of undergraduate studies.

Gen Ed: EE- Academic Internship.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

ANTH 395. Research in Anthropology. 1-6 Credits.

Permission of the instructor. Honors version available

Gen Ed: EE- Field Work.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

ANTH 395H. Research in Anthropology. 1-6 Credits.

Permission of the instructor.

Gen Ed: EE- Field Work.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

ANTH 396. Independent Reading or Study in Anthropology. 1-6 Credits.

Permission of the instructor. Honors version available

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

ANTH 396H. Independent Reading or Study in Anthropology. 1-6 Credits.

Permission of the instructor.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**ANTH 400. Introduction to General Linguistics. 3 Credits.**

An introduction to the scientific study of language. The nature of language structure. How languages are alike and how they differ.

Grading status: Letter grade

Same as: LING 400.

ANTH 405. Mental Health, Psychiatry, and Culture. 3 Credits.

This course explores mental illness as subjective experience, social process, key cultural symbol, and object of intervention and expert knowledge. Our questions include: Does mental illness vary across cultural and social settings? How do psychiatric ways of categorizing, diagnosing, and treating mental illness shape people's subjective experience of their affliction? How is psychiatry predicated on cultural ideas about self and society? What does this contingency mean for the movement for global mental health?

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 406. Native Writers. 3 Credits.

Exploration of a broad selection of writings by native or indigenous scholars from tribal societies throughout the world. Seeks to understand the hopes, dreams, priorities, and perspectives of native peoples as expressed by and through their writers.

Gen Ed: SS, NA.

Grading status: Letter grade.

ANTH 410. The Identification and Analysis of Historical Artifacts. 3 Credits.

This is a hands-on lab class on the identification and analysis of ceramics, tobacco pipes, glassware, small finds, and personal objects produced or traded in Northern Europe and Eastern North America. Students will be instructed on how to identify, date, and analyze artifacts from the 17th century through the middle of the 20th century. In addition, topics such as function, technology, and socioeconomic status will be discussed.

Gen Ed: NA.

Grading status: Letter grade.

ANTH 411. Laboratory Methods in Archaeology. 3 Credits.

An examination of the laboratory techniques used by archaeologists to analyze artifacts and organic remains, including the analysis of stone tools, pottery, botanical remains, and bone. Honors version available

Gen Ed: SS, QI, WB.

Grading status: Letter grade.

ANTH 411H. Laboratory Methods in Archaeology. 3 Credits.

An examination of the laboratory techniques used by archaeologists to analyze artifacts and organic remains, including the analysis of stone tools, pottery, botanical remains, and bone.

Gen Ed: SS, QI, WB.

Grading status: Letter grade.

ANTH 412. Paleoanthropology. 3 Credits.

This course traces the evolution of humans and nonhuman primates—including behaviors, tools, and bodies of monkeys, apes, and human hunters and gatherers—evolutionary theory, and paleoanthropological methods.

Gen Ed: PL.

Grading status: Letter grade.

ANTH 413. Laboratory Methods: Archaeobotany. 3 Credits.

This course will focus on the analysis of plant remains from archaeological sites. Introduction to laboratory methods, analytical approaches, and interpretive framework for archaeobotany. Prior course in archaeology recommended but not required.

Requisites: Corequisite, ANTH 413L.

Gen Ed: PX, CI, EE- Mentored Research.

Grading status: Letter grade.

ANTH 413L. Archaeobotany Lab. 1 Credit.

Lab analysis of plant remains from archaeological sites with an emphasis on basic procedures for processing, sorting, and identifying macrobotanical remains.

Requisites: Corequisite, ANTH 413.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

ANTH 414. Laboratory Methods: Human Osteology. 3 Credits.

This course will focus on the analysis of human skeletal materials in the laboratory and in the field, with an emphasis on basic identification, age and sex estimation, and quantitative analysis.

Gen Ed: PL.

Grading status: Letter grade.

ANTH 414L. Human Osteology Lab. 1 Credit.

The laboratory analysis of human skeletal materials with an emphasis on basic identification, age and sex estimation, and quantitative analysis.

Requisites: Corequisite, ANTH 414.

Grading status: Letter grade.

ANTH 415. Laboratory Methods: Zooarchaeology. 3 Credits.

This course will focus on the analysis of animal remains from archaeological sites. Introduction to laboratory methods, analytical approaches, and interpretive frameworks for zooarchaeology.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 415L. Zooarchaeology Lab. 1 Credit.

Required preparation, an archaeological course or permission of instructor. Examination of identification techniques, quantitative methods, and interpretive frameworks used to analyze animal remains recovered from archaeological sites.

Requisites: Corequisite, ANTH 415.

Grading status: Letter grade.

ANTH 416. Bioarchaeology. 3 Credits.

The study of human skeletal remains from archaeological contexts. The collection and interpretation of quantitative and qualitative data is emphasized to assess the relationship between past biology, environment, culture, and behavior.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 417. Laboratory Methods: Lithic Seminar. 3 Credits.

Laboratory techniques in stone tool research and experimental practice.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 417L. Lithic Analysis Lab. 1 Credit.

Required preparation, any course in archaeology or permission of the instructor. This is a required one-hour laboratory section to be taken in conjunction with ANTH 417.

Requisites: Corequisite, ANTH 417.

Grading status: Letter grade.

ANTH 418. Laboratory Methods: Ceramic Analysis. 3 Credits.

A survey of the laboratory techniques used by archaeologists to study and draw social and behavioral inferences from ancient pottery.

Grading status: Letter grade.

ANTH 419. Anthropological Application of GIS. 3 Credits.

Permission of the instructor. GIS experience required. This course explores applying GIS science technologies to anthropological problems. Students will learn GIS skills and apply them using spatial data.

Grading status: Letter grade.

ANTH 420. Public Archaeology. 3 Credits.

The aim of the course is to build an understanding of archaeology as a discipline that involves and affects the public. Among the areas to be covered are the implementation of federal, state, and other statutes, and the presentation of archaeological knowledge through museums and public media.

Grading status: Letter grade.

ANTH 421. Archaeological Geology. 3 Credits.

Permission of the instructor. The application of geological principles and techniques to the solution of archaeological problems. Studies geological processes and deposits pertinent to archaeological sites, geologic framework of archaeology in the southeastern United States, and techniques of archaeological geology. Field trips to three or more sites; written reports required.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade

Same as: GEOL 421.

ANTH 422. Anthropology and Human Rights. 3 Credits.

An examination human rights issues from an anthropological perspective, addressing the historical formation of rights, their cross-cultural context and the emergence of humanitarian and human rights organizations on a global scale.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 423. Written in Bone: CSI and the Science of Death Investigation from Skeletal Remains. 3 Credits.

This course combines laboratory training, field projects, lectures, films, discussion, and student presentations into a course on the science of human skeletal analysis. Students learn the laboratory methods scientists use to study human remains and the role of skeletal analysis in the study of contemporary forensic cases.

Gen Ed: PL.

Grading status: Letter grade.

ANTH 424. Ritual, Festival, and Public Culture. 3 Credits.

This course explores rituals, festivals, and public cultural performances as forms of complex, collective, embodied creative expression. As sites of popular celebration, conflict resolution, identity definition, and social exchange, they provide rich texts for folkloristic study. We consider how local and global forces both sustain and challenge these forms.

Gen Ed: SS, EE- Field Work.

Grading status: Letter grade

Same as: FOLK 424.

ANTH 425. Public Archaeology Practicum. 3 Credits.

An opportunity for archaeology students to apply their field and/or lab skills to a semester long, team-based research project developed to address the needs of a community partner.

Requisites: Prerequisite, ANTH 410, 411, 420, 451 or CLAR 411; permission of the instructor for students lacking the prerequisite.

Gen Ed: EE- Service Learning.

Grading status: Letter grade.

ANTH 426. Making Magic. 3 Credits.

Magic in anthropology and popular culture, from the 19th century to the present. Focuses on witchcraft and healing; arts of illusion; fantasy and (multiple) realities. Examines how realities are made and unmade through speech, rites, relations of power.

Gen Ed: HS.

Grading status: Letter grade.

ANTH 427. Race. 3 Credits.

This course explores the history, politics, and social dimensions of race as a category. It examines the lived experience of race, racialization and racism, as well as the role of anthropology in contemporary and historic definitions of race.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 428. Religion and Anthropology. 3 Credits.

Religion studied anthropologically as a cultural, social, and psychological phenomenon in the works of classical and contemporary social thought.

Honors version available

Gen Ed: SS.

Grading status: Letter grade

Same as: FOLK 428, RELI 428.

ANTH 428H. Religion and Anthropology. 3 Credits.

Religion studied anthropologically as a cultural, social, and psychological phenomenon, in the works of classical and contemporary social thought.

Gen Ed: SS.

Grading status: Letter grade

Same as: FOLK 428H, RELI 428H.

ANTH 429. Culture and Power in Southeast Asia. 3 Credits.

The formation and transformation of values, identities, and expressive forms in Southeast Asia in response to forms of power. Emphasis on the impact of colonialism, the nation-state, and globalization.

Gen Ed: SS, BN, GL.

Grading status: Letter grade

Same as: ASIA 429, FOLK 429.

ANTH 435. Consciousness and Symbols. 3 Credits.

This course explores consciousness through symbols. Symbols from religion, art, politics, and self are studied in social, psychological, historical, and ecological context to ascertain meanings in experience and behavior.

Gen Ed: SS.

Grading status: Letter grade

Same as: FOLK 435.

ANTH 437. Evolutionary Medicine. 3 Credits.

This course explores evolutionary dimensions of variation in health and disease in human populations. Topics include biocultural and evolutionary models for the emergence of infectious and chronic diseases and cancers.

Gen Ed: PL.

Grading status: Letter grade.

ANTH 438. Religion, Nature, and Environment. 3 Credits.

A seminar on concepts of nature within religions and a variety of world-wide spiritual traditions. Emphasis on sacred space, place, and pilgrimage as a vital intersection of religion and nature. Honors version available

Grading status: Letter grade.

ANTH 438H. Religion, Nature, and Environment. 3 Credits.

A seminar on concepts of nature within religions and a variety of world-wide spiritual traditions. Emphasis on sacred space, place, and pilgrimage as a vital intersection of religion and nature.

Grading status: Letter grade.

ANTH 439. Political Ecology. 3 Credits.

Examines environmental degradation, hunger, and poverty through the lens of power relationships, particularly inequality, political and economic disenfranchisement, and discrimination. Discussion of global case studies, with a Latin American focus.

Gen Ed: SS, CI, GL.

Grading status: Letter grade.

ANTH 441. The Anthropology of Gender, Health, and Illness. 3 Credits.

The course explores cultural beliefs, practices, and social conditions that influence health and sickness of women and men from a cross-cultural perspective.

Gen Ed: SS, GL.

Grading status: Letter grade

Same as: WGST 441.

ANTH 442. Health and Gender after Socialism. 3 Credits.

This course examines postsocialist experiences of the relationship between political, economic, social, and cultural transitions, and challenges in public health and gender relations.

Grading status: Letter grade

Same as: WGST 440.

ANTH 443. Cultures and Politics of Reproduction. 3 Credits.

This course takes a cross-cultural approach to understanding how reproduction and associated phenomena become arenas where political debates are played out, and where global and local social relations are contested.

Grading status: Letter grade

Same as: WGST 443.

ANTH 444. Medicine, Politics, and Justice. 3 Credits.

This course brings an anthropological approach to understanding the intersections between medicine, politics, and public health.

Grading status: Letter grade.

ANTH 445. Migration and Health. 3 Credits.

This course examines the intersections between migration processes and the political, economic, and social dimensions of health and well-being among migrants, their families, and their communities.

Gen Ed: SS, GL.

Grading status: Letter grade

Same as: WGST 445.

ANTH 446. Poverty, Inequality, and Health. 3 Credits.

This course examines poverty, inequalities, and health from a global and historical perspective. We will study the role of sociopolitical context, individual behavior, and human biology, and will pay particular attention to the roles of psychosocial stress, material conditions, and policy in shaping health differences within and between populations.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 447. The Anthropology of Work. 3 Credits.

Anthropological investigations of work and the relationship between work, family life, and community in contemporary societies in the United States, Asia, and Latin America, within the framework of globalization.

Honors version available

Gen Ed: SS, CI, GL.

Grading status: Letter grade.

ANTH 447H. The Anthropology of Work. 3 Credits.

Anthropological investigations of work and the relationship between work, family life, and community in contemporary societies in the United States, Asia, and Latin America, within the framework of globalization.

Gen Ed: SS, CI, GL.

Grading status: Letter grade.

ANTH 448. Health and Medicine in the American South. 3 Credits.

This course examines ways we can understand the history and culture of a region through the experience of health and healthcare among its people. With an anthropological approach, this course considers the individual, social, and political dimensions of medicalized bodies in the American South from the 18th century through the current day.

Gen Ed: HS, US.

Grading status: Letter grade.

ANTH 449. Anthropology and Marxism. 3 Credits.

Critical study of Marx' mature social theory and its relationship to contemporary anthropology.

Gen Ed: HS.

Grading status: Letter grade.

ANTH 451. Field School in North American Archaeology. 6 Credits.

Intensive training in archaeological field methods and techniques. Students participate in the excavation, recovery, recording, and interpretation of archaeological remains. Instruction given in survey, mapping, photography, flotation recovery, etc. Honors version available

Gen Ed: HS, EE- Field Work, WB.

Grading status: Letter grade.

ANTH 451H. Field School in North American Archaeology. 6 Credits.

Intensive training in archaeological field methods and techniques. Students participate in the excavation, recovery, recording, and interpretation of archaeological remains. Instruction given in survey, mapping, photography, flotation recovery, etc.

Gen Ed: HS, EE- Field Work, WB.

Grading status: Letter grade.

ANTH 452. The Past in the Present. 3 Credits.

Memory and history, history and politics, national narratives, the past in the present, and the present in the past; a cross-cultural examination of ways of connecting the present and the past.

Gen Ed: HS, WB.

Grading status: Letter grade.

ANTH 453. Field School in South American Archaeology. 6 Credits.

Intensive study of archaeological field and laboratory methods and prehistory of the Andes through excavation and analysis of materials from archaeological sites in Peru. Includes tours of major archaeological sites. Honors version available

Gen Ed: HS, EE- Study Abroad, EE- Field Work, WB.

Grading status: Letter grade.

ANTH 453H. Field School in South American Archaeology. 6 Credits.

Intensive study of archaeological field and laboratory methods and prehistory of the Andes through excavation and analysis of materials from archaeological sites in Peru. Includes tours of major archaeological sites.

Gen Ed: HS, EE- Study Abroad, EE- Field Work, WB.

Grading status: Letter grade.

ANTH 454. The Archaeology of African Diasporas. 3 Credits.

How is archaeological evidence used to understand the movement of Africans and their descendants across the globe? This course focuses on what archaeologists have learned about the transformation of societies on the African continent and in the Americas from the era of the trans-Atlantic slave trade to the present.

Gen Ed: HS, GL.

Grading status: Letter grade.

ANTH 455. Ethnohistory. 3 Credits.

Integration of data from ethnographic and archaeological research with pertinent historic information. Familiarization with a wide range of sources for ethnohistoric data and practice in obtaining and evaluating information. Pertinent theoretical concepts will be explored.

Gen Ed: HS.

Grading status: Letter grade

Same as: FOLK 455.

ANTH 456. Archaeology and Ethnography of Small-Scale Societies. 3 Credits.

The study of small-scale hunter-gatherer and farming societies from archaeological and ethnographic perspectives. Methods and theories for investigating economic, ecological, and social relations in such societies are explored.

Gen Ed: HS.

Grading status: Letter grade.

ANTH 457. Perspectives in Historical Archaeology. 3 Credits.

This class will examine the development of historical archaeology as a distinct subdiscipline as well as investigating how the field is being practiced currently around the world.

Gen Ed: HS, WB.

Grading status: Letter grade.

ANTH 458. Archaeology of Sex and Gender. 3 Credits.

Required preparation, at least one ANTH or one WMST course. A discussion of gender and sex roles and sexuality in past cultures; a cross-cultural examination of ways of knowing about past human behavior.

Gen Ed: SS, WB.

Grading status: Letter grade

Same as: WGST 458.

ANTH 459. Ecological Anthropology. 3 Credits.

Examines how human-environmental adaptations shape the economic, social, and cultural lives of hunter-gatherers, pastoralists and agriculturalists. Approaches include optimal foraging theory, political ecology and subsistence risk.

Gen Ed: SS.

Grading status: Letter grade

Same as: ENEC 459.

ANTH 460. Historical Ecology. 3 Credits.

Historical ecology is a framework for integrating physical, biological, and social science data with insights from the humanities to understand the reciprocal relationship between human activity and the Earth system.

Gen Ed: HS, GL.

Grading status: Letter grade

Same as: ENEC 460.

ANTH 461. Colonialism and Postcolonialism: History and Anthropology. 3 Credits.

This course examines colonialism and postcolonialism through the lenses of history and anthropology respectively. Through history, it asks, What were the dynamics of colonialism then? Through anthropology, it questions, What are the conditions, quandaries, and possibilities of postcolonialism now? Regional focus varies by instructor and year.

Gen Ed: HS, BN.

Grading status: Letter grade.

ANTH 463. Settler Colonialism. 3 Credits.

This class will be framed around readings that explore the varied impact of European settlement across the globe. In focusing on both the varied global legacies of colonialism and the continued sociopolitical movements of indigenous populations, this class will encourage a broad perspective on what settler colonialism looks like today.

Gen Ed: CI, GL.

Grading status: Letter grade.

ANTH 467. Culture, Wealth, and Poverty. 3 Credits.

Examines three broad perspectives used to explain inequality: ecological, cultural, and political. Students read theoretical works and evaluate arguments using ethnographies that describe local economies, institutions, and adaptive practices.

Grading status: Letter grade.

ANTH 468. State Formation. 3 Credits.

The course examines the state, from its initial appearance 5,000 years ago to newly established nation-states, exploring the concepts of ethnicity, class, race, and history in state formation and maintenance.

Gen Ed: HS.

Grading status: Letter grade.

ANTH 469. History and Anthropology. 3 Credits.

Studies links between history and anthropology; cultures in historical perspective and history in cultural perspective; and effects of relations of power and historical interconnections on the peoples of the world.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 470. Medicine and Anthropology. 3 Credits.

This course examines cultural understandings of health, illness, and medical systems from an anthropological perspective with a special focus on Western medicine.

Gen Ed: SS.

Grading status: Letter grade

Same as: FOLK 470.

ANTH 471. Biocultural Perspectives on Maternal and Child Health. 3 Credits.

This course explores maternal and child health from an evolutionary, biocultural, and global health perspective. It focuses on the physiological, ecological, and cultural factors shaping health and takes a life course perspective to examine childhood development, reproductive processes such as pregnancy, birth and lactation, and menopause and aging.

Gen Ed: PL.

Grading status: Letter grade.

ANTH 473. Anthropology of the Body and the Subject. 3 Credits.

Anthropological and historical studies of cultural constructions of bodily experience and subjectivity are reviewed, with emphasis on the genesis of the modern individual and cultural approaches to gender and sexuality.

Gen Ed: SS.

Grading status: Letter grade

Same as: FOLK 473.

ANTH 474. The Anthropology of Disability. 3 Credits.

Investigates the social, cultural, and historical variation in the conception of disability, in its practical meaning and performance, and in its social and medical management. Special attention is paid to the interplay of embodiment, identity, and agency in work and everyday life and in political action and advocacy.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 477. Visual Anthropology. 3 Credits.

This course introduces students to visual forms of communication through both the analysis and production of still and video materials. Ethics, cross-cultural representations, and ethnographic theory will all be explored.

Gen Ed: VP, EE- Mentored Research.

Grading status: Letter grade.

ANTH 484. Discourse and Dialogue in Ethnographic Research. 3 Credits.

Study of cultural variation in styles of speaking applied to collection of ethnographic data. Talk as responsive social action and its role in the constitution of ethnic and gender identities.

Gen Ed: SS, CI, US.

Grading status: Letter grade

Same as: FOLK 484, LING 484.

ANTH 490. Undergraduate Seminar in Anthropology. 3 Credits.

The subject matter will vary with the instructor. Each course will concern itself with a study in contemporary anthropology and new directions in research or applications. Restricted to junior and senior anthropology majors; generally the course is limited to 18 students.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 502. Globalization and Transnationalism. 3 Credits.

Anthropological examination of processes of globalization and transnationalism, with special attention to transnational migration, emergence of transnational ('global') institutions, commodity flows, and dissemination of ideologies, cultural frameworks, and media imagery.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 503. Gender, Culture, and Development. 3 Credits.

Classic writings and debates relating to gender and development, with emphasis on recent work that critiques conventional development models. The scope is global, with special attention to Latin America and to such questions as how alternative approaches to gender, culture, and development may be more inclusive of diverse peoples and grassroots movements for change.

Gen Ed: SS, GL.

Grading status: Letter grade

Same as: WGST 503.

ANTH 520. Linguistic Phonetics. 3 Credits.

Introduction to the general principles of linguistic phonetics; anatomy of vocal tract, physiology of speech production, universal phonetic theory. Practice in the recognition and transcription of speech sounds.

Grading status: Letter grade

Same as: LING 520.

ANTH 523. Phonological Theory I. 3 Credits.

Permission of the instructor for undergraduates. Introduction to the principles of modern generative phonology. Methods and theory of phonological analysis. Students may not receive credit for both LING 200 and LING 523.

Requisites: Prerequisite, LING 520, or SPHS 530 or 540.

Grading status: Letter grade

Same as: LING 523.

ANTH 525. Culture and Personality. 3 Credits.

Systems theory used to conceptualize relationship between cultural patterns and individual minds. Functional, dysfunctional, and therapeutic processes considered. Examples from Africa, Asia, Europe, and Native America. Lectures, films, recitations.

Gen Ed: SS.

Grading status: Letter grade

Same as: FOLK 525.

ANTH 535. The Archaeology of Health and Well-Being. 3 Credits.

In this course, we will engage the juxtaposition between traditional cures and the institutionalized ones of the 21st century through analyzing earlier material manifestations of health care and well-being. We will trace the growth of medical care in America from the early colonial years, and consider how they resulted in wholly American circumstances and applications.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 537. Gender and Performance: Constituting Identity. 3 Credits.

Examines the culturally and historically variable ways in which individuals constitute themselves as cis- or transgendered subjects, drawing upon extant expressive resources, modifying them, and expanding options available to others. Performance of self as the product of esthetically marked or unmarked, everyday actions.

Gen Ed: SS, GL.

Grading status: Letter grade

Same as: FOLK 537, WGST 438.

ANTH 538. Disease and Discrimination in Colonial Atlantic America. 3 Credits.

Colonization of Atlantic America between 1500 and 1900, through landscape change, agriculture, poverty, labor discrimination, and slavery differentially placed subsets of the general population at risk for infectious disease and other insults to their health. Lecture and discussion using archaeological and bioarchaeological studies, modern disease studies, and historic documents.

Gen Ed: HS, US.

Grading status: Letter grade.

ANTH 539. Environmental Justice. 3 Credits.

Course examining issues of race, poverty, and equity in the environmental movement. Cases include the siting of toxic incinerators in predominantly people-of-color communities to resource exploitation on indigenous lands.

Gen Ed: SS, EE- Service Learning, US.

Grading status: Letter grade.

ANTH 540. Planetary Crises and Ecological and Cultural Transitions. 3 Credits.

Analysis of the social-environmental crisis and approaches to redress it, particularly those that posit ecological and cultural transitions beyond current globalization models. Participants will construct their own scenarios for transitions to sustainable and pluralistic societies. The course will have an in-built, collective research component. Intended for upper-division undergraduates.

Gen Ed: GL.

Grading status: Letter grade.

ANTH 541. Sociolinguistics. 3 Credits.

Introduction to the study of language in relation to society; variation as it correlates with socioeconomic status, region, gender; the social motivation of change; language and equality; language maintenance, planning, shift.

Requisites: Prerequisite, LING 101 or 400.

Grading status: Letter grade

Same as: LING 541.

ANTH 542. Pidgins and Creoles. 3 Credits.

Examination of the social contexts of language contact and their linguistic outcomes, with particular emphasis on the formation of pidgins and creoles. The course investigates the structural properties of these new contact languages and evaluates the conflicting theories that explain their genesis.

Requisites: Prerequisite, LING 101 or 400.

Grading status: Letter grade

Same as: LING 542.

ANTH 545. The Politics of Culture in East Asia. 3 Credits.

Examines struggles to define culture and the nation in 20th-century China in domains like popular culture, museums, traditional medicine, fiction, film, ethnic group politics, and biography and autobiography.

Gen Ed: SS, BN, GL.

Grading status: Letter grade

Same as: ASIA 545.

ANTH 550. Archaeology of the American South. 3 Credits.

Current issues and interpretations in the archaeology of the American South. Through weekly readings and discussions, students will explore the lifeways and changes that characterized each major period of the South's ancient history, from 12,000 years ago to the beginnings of European colonization.

Gen Ed: HS, WB.

Grading status: Letter grade.

ANTH 551. Origins of Agriculture in the Ancient World. 3 Credits.

This course explores archaeological evidence for the origins of food production. We address when and where this profound change occurred as well as focusing on why it happened and what its consequences were. We will examine current evidence for the origins of agriculture in both Old and New Worlds.

Gen Ed: GL, WB.

Grading status: Letter grade.

ANTH 559. History in Person. 3 Credits.

Extends anthropological approaches to identity in social life. Examines social position, power, and cultural imagination; the personal and collective dynamics of sociocultural change; and the concept of agency.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 574. Chinese World Views. 3 Credits.

Explores the indigenous Chinese sciences and the cosmological ideas that informed them. Topics include astronomy, divination, medicine, fengshui, and political and literary theory. Chinese sources in translation are emphasized.

Gen Ed: SS, BN.

Grading status: Letter grade

Same as: ASIA 574, RELI 574.

ANTH 584H. Conspiracy Thinking in Contemporary United States. 3 Credits.

We will consider the JFK assassination, in detail and in historical context, and several subsequent real and imagined conspiracies, including 9/11. The course focuses on a fundamental issue in social analysis: the empirical and epistemological bases of what we know about our society, its current events and recent history.

Grading status: Letter grade.

ANTH 584. Conspiracy Thinking in Contemporary United States. 3 Credits.

We will consider the JFK assassination, in detail and in historical context, and several subsequent real and imagined conspiracies, including 9/11. The course focuses on a fundamental issue in social analysis: the empirical and epistemological bases of what we know about our society, its current events and recent history. Honors version available

Grading status: Letter grade.

ANTH 585. Anthropology of Science. 3 Credits.

Cultural perspectives on science and technology at a global scale, including research settings and social contexts, knowledge claims and material practice, and relations between scientific worldviews, social institutions, and popular imagination.

Gen Ed: SS, GL, NA.

Grading status: Letter grade.

ANTH 586. The Gardens, Shrines, and Temples of Japan. 3 Credits.

The religious landscape and built environments of Japan. Attention to palace, courtyard, and teahouse architecture and gardens, with emphasis on Shinto shrines and the Zen Buddhist temple and garden.

Gen Ed: VP, BN.

Grading status: Letter grade

Same as: ASIA 586.

ANTH 590. Special Topics in Anthropology I. 3 Credits.

Subject matter will vary with instructor but will focus on some particular topic or anthropological approach. Course description is available from the departmental office. Honors version available

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 590H. Special Topics in Anthropology I. 3 Credits.

Subject matter will vary with instructor but will focus on some particular topic or anthropological approach. Course description is available from the departmental office.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 623. Human Disease Ecology. 3 Credits.

This seminar considers cultural ecologies of disease by examining how social, cultural, and historical factors shape disease patterns. We examine how ecosystems are shaped by disease, how disease shapes ecosystems, and how cultural processes (e.g., population movements, transportation, economic shifts, landscape modifications, and built environments) contribute to emerging infectious disease.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 624. Anthropology and Public Health. 3 Credits.

This course compares disciplinary approaches of public health and anthropology. We begin by examining the social determinants of health paradigms and relationships between inequality, poverty, and global health. We will explore epidemiological, biocultural, and symbolic approaches to these problems. Public policy and health development will also be examined.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 625. Ethnography and Life Stories. 3 Credits.

The course focuses on the practical and research uses of ethnography and oral history, emphasizing life histories, life stories, biographies, and how these intersect with communities.

Gen Ed: SS, EE- Service Learning, EE- Field Work, US.

Grading status: Letter grade.

ANTH 626. African Cultural Dynamics. 3 Credits.

In-depth reading of several books and articles that consider the interaction between indigenous African traditions and intrusive colonial and postcolonial forces. Emphasis on class discussion. Short papers and individual projects.

Gen Ed: SS, BN, GL.

Grading status: Letter grade.

ANTH 629. Language Minority Students: Issues for Practitioners. 3 Credits.

Permission of the instructor. Explores issues of culture and language associated with teaching English as a second language.

Grading status: Letter grade

Same as: EDUC 629.

ANTH 649. Politics of Life and Death. 3 Credits.

The course examines intersections between life, death, and contemporary politics, with a historical focus on the health of populations. It combines theoretical discussions with comparative empirical cases in a global frame and includes a research component.

Gen Ed: SS, GL.

Grading status: Letter grade.

ANTH 650. Reconstructing Life: Nutrition and Disease in Past Populations. 3 Credits.

This is an advanced course in the reconstruction of nutrition and health in past populations. Among the topics explored are epidemiology, disease ecology, dietary reconstruction, and paleopathology.

Gen Ed: SS.

Grading status: Letter grade.

ANTH 651. Identity, Memory, and the Afterlife: The Space and Place of Death. 3 Credits.

Death is a universal event, yet treatment of the dead varies from society to society. This course will be directed at examining mortuary rituals, memory and identity, and the scientific study of the dead to interpret the space and place of death in archaeological contexts.

Grading status: Letter grade.

ANTH 660. Kinship, Reproduction, Reproductive Technology, and the New Genetics. 3 Credits.

This course focuses on the relationship between family, kinship, new reproductive technologies, and the new genetics from a cross-cultural perspective. Honors version available

Gen Ed: SS.

Grading status: Letter grade

Same as: WGST 660.

ANTH 660H. Kinship, Reproduction, Reproductive Technology, and the New Genetics. 3 Credits.

This course focuses on the relationship between family, kinship, new reproductive technologies, and the new genetics from a cross cultural perspective.

Gen Ed: SS.

Grading status: Letter grade

Same as: WGST 660H.

ANTH 674. Issues in Cultural Heritage. 3 Credits.

This course examines entanglements between the past and present from multiple and conflicting perspectives, highlighting an archaeological point of view. Models of participatory research are considered in relation to cultural heritage, and indigenous-rights perspectives are discussed in reference to archaeological, nation-state, and global interests.

Gen Ed: GL.

Grading status: Letter grade.

ANTH 675. Ethnographic Method. 3 Credits.

Intensive study and practice of the core research methods of cultural and social anthropology.

Gen Ed: SS, CI.

Grading status: Letter grade

Same as: FOLK 675.

ANTH 676. Research Methods in Human Biology. 3 Credits.

This course focuses on laboratory and field research methods in human biology. Through readings, in-class exercises, data collection outside of class, and laboratory analysis, students will examine issues of epistemology, ethics, data and biomarker collection methods, analysis and data processing. We will pay particular attention to issues of bias and validity, as well as precision and accuracy in human biology research.

Grading status: Letter grade.

ANTH 682. Contemporary Chinese Society. 3 Credits.

Presents recent anthropological research on the People's Republic of China. In addition to social sciences sources, fictional genres are used to explore the particular modernity of Chinese society and culture.

Gen Ed: SS, BN.

Grading status: Letter grade

Same as: ASIA 682.

ANTH 688. Observation and Interpretation of Religious Action. 3 Credits.

Permission of the instructor. Exercises (including field work) in learning to read the primary modes of public action in religious traditions, e.g., sermons, testimonies, rituals, and prayers.

Gen Ed: SS, EE- Mentored Research.

Grading status: Letter grade

Same as: FOLK 688, RELI 688.

ANTH 690. Special Topics in Anthropology II. 2-3 Credits.

Subject matter will vary with instructor but will focus on some particular topic or anthropological approach. Course description is available from the departmental office.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

ANTH 691H. Seniors Honors Project in Anthropology. 3 Credits.

Permission of the instructor. Open only to honors candidates.

Gen Ed: SS, EE- Mentored Research.

Grading status: Letter grade.

ANTH 692H. Senior Honors Thesis in Anthropology. 3 Credits.

Open only to senior honors candidates. Permission of the instructor is required.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

Patricia McAnany, Chair**Anna Agbe-Davies, Director of Undergraduate Studies**

agbe-davies@unc.edu

Anthropology is the integrative study of human beings at all times and in all places. Anthropological expertise has special application for hidden histories and the ancient past; the intersection of human biology and ecology; and the way communities create and use meaning, values, and history in everyday life. Students interested in choosing anthropology as a major or minor should visit the department's Web site (<http://anthropology.unc.edu>) and click on the link for the undergraduate program. Students planning a major in anthropology should inform the department's director of undergraduate studies. Students should consult with the director of undergraduate studies on a regular basis.

Department Programs

Major

- Anthropology Major, B.A. (p. 269)
- Medical Anthropology Major, B.A. (p. 271)

Minors

- General Anthropology Minor (p. 273)
- Heritage and Global Engagement Minor (p. 273)
- Medical Anthropology Minor (p. 275)

Graduate Programs

- Ph.D. in Anthropology (<http://catalog.unc.edu/graduate/schools-departments/anthropology/>)

Student Learning Outcomes

Upon completion of the anthropology program, students should be able to:

- Discuss and critically assess theories and concepts for the study of social, cultural, and biological forms, phenomena, and change in the human species
- Engage in the coherent, holistic, integrative study of humans over time and space
- Demonstrate an in-depth knowledge of human social, cultural, and biological heterogeneity, within a framework that affirms the essential unity of the human species

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
One course from biological anthropology chosen from the following list:		3
ANTH 143	Human Evolution and Adaptation	
ANTH 148	Human Origins	
ANTH 217	Human Biology in Comparative Perspective	
ANTH 315	Human Genetics and Evolution	
ANTH 319	Global Health	
One course from archaeology chosen from the following list:		3
ANTH 121	Ancient Cities of the Americas	
ANTH 145	Introduction to World Prehistory	
ANTH 149	Great Discoveries in Archaeology	
ANTH 220	Principles of Archaeology	
ANTH 222	Prehistoric Art	
ANTH 231	The Inca and Their Ancestors: The Archaeology of Andean South America	
ANTH 232	Ancestral Maya Civilizations ^H	
ANTH 250	Archaeology of North America ^H	
ANTH 454	The Archaeology of African Diasporas	
ANTH 457	Perspectives in Historical Archaeology	
One course from sociocultural anthropology chosen from the following list:		3
ANTH 102	Introduction to Cultural Anthropology	
ANTH 120	Anthropology through Expressive Cultures	
ANTH 147	Comparative Healing Systems	
ANTH 240	Action Research	
ANTH 280	Anthropology of War and Peace	
ANTH 284	Culture and Consumption	
One theoretical perspectives course chosen from the following list (taken in the junior year): ¹		3
ANTH 291	Archaeological Theory and Practice	
ANTH 294	Anthropological Perspectives on Society and Culture	
ANTH 297	Directions in Anthropology ^H	
ANTH 298	Biological Anthropology Theory and Practice	
Capstone Seminar in Anthropology		3
ANTH 490	Undergraduate Seminar in Anthropology	
Four additional three-hour courses in anthropology		12
Additional Requirements		

No more than three courses used to fulfill the major can be numbered below 200.

No more than six hours of field-oriented coursework can be counted toward the major.

ANTH 393	Internship in Anthropology
ANTH 395	Research in Anthropology ^H
ANTH 451	Field School in North American Archaeology ^H
ANTH 453	Field School in South American Archaeology ^H

No more than three hours of coursework from the following list may be counted toward the major:

ANTH 92	UNITAS
ANTH 93	UNITAS
ANTH 195	Research in Anthropology I
ANTH 196	Independent Reading or Study in Anthropology I
ANTH 295	Research in Anthropology II
ANTH 296	Independent Reading or Study in Anthropology II
ANTH 396	Independent Reading or Study in Anthropology ^H
ANTH 691H	Seniors Honors Project in Anthropology
ANTH 692H	Senior Honors Thesis in Anthropology

Total Hours 27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ The theoretical perspectives requirement serves as the major’s core course; it offers an integrative perspective on the theories and history of anthropology and explores what it means to be an anthropologist. Majors should fulfill this requirement in their junior year. If they cannot do so, they should consult with the director of undergraduate studies.

The department recommends that majors enroll in some field-oriented coursework such as ANTH 393, ANTH 395, ANTH 451, ANTH 453, or in study abroad coursework.

Special Opportunities in Anthropology Honors in Anthropology

Writing an honors thesis is an excellent way to cap one’s major in anthropology. The process offers students the chance to carry out original research on a topic that they are passionate about. Our thesis writers work closely with a faculty advisor and committee members to develop their project. The department provides excellent support, offering a specific seminar during the fall (ANTH 691H) and a corresponding independent study (ANTH 692H), that together walk students through the essential steps of research design and writing. For our students, writing an honors thesis continues to prove a pivotal experience—at once a capstone to their studies at Carolina and an achievement to carry with them into their lives and careers beyond.

To pursue an honors thesis project, students must:

- Maintain a minimum grade point average of 3.3 from the spring semester of the junior year through the entirety of the senior year
- Secure a faculty advisor who is an anthropologist at UNC-Chapel Hill.
- Successfully complete the ANTH 691H and ANTH 692H sequence

- Receive approval from UNC's Office for Human Research Ethics prior to the start of research, for all projects involving human subjects

The process for approval requires several steps:

- Students considering an honor thesis should first contact the director of undergraduate studies or the honors thesis seminar instructor, during their junior year (or earlier).
- Eligible students next should secure an advisor prior to enrolling in ANTH 691H for the fall semester of their senior year. Typically, the advisor is a professor that they have worked with in a class or faculty member with shared interests.
- In the fall students develop their research design and begin to write their thesis ANTH 691H.
- In the spring, students complete an independent study with their advisor, focusing on writing the thesis ANTH 692H. Students also form their committee, by adding two additional faculty members.
- To complete the process, students defend (i.e., present and discuss) their thesis to their committee.

Internships, Field Work, and Independent Study

Students who wish to explore an anthropological concern outside the conventional classroom setting, or who desire advanced or specialized work beyond current course offerings, should consider ANTH 393, ANTH 395, ANTH 396, ANTH 451, and ANTH 453.

ANTH 393 provides anthropology students the opportunity to engage in internships or other field experiences within or beyond the University that have a significant anthropological learning component. Variable credit may be obtained for this course. ANTH 393 is a controlled enrollment course; it requires the permission in advance of the faculty member sponsoring the internship, of a responsible official of the agency in which the internship is carried, and of the director of undergraduate studies. It is essential that students make arrangements and secure permissions prior to the semester of the internship.

ANTH 396 provides anthropology students the opportunity to engage in independent study, and ANTH 395, the opportunity to engage in field research, in both cases under the mentoring of a specific faculty member. Variable credit may be obtained for these courses, although three units are usually expected. ANTH 396 and ANTH 395 require the permission of the faculty member under whom the student wishes to conduct research prior to the semester in which ANTH 396 or ANTH 395 is taken. Both are controlled enrollment courses. In general, these courses should be taken only by students with some prior coursework in anthropology or a related social science.

ANTH 451 and ANTH 453 are six-unit field school courses in which the student gains hands-on experience in research and study in the field under the direction of a faculty member.

Anthropology majors are limited to having no more than six credit hours of field-oriented coursework (ANTH 393, ANTH 395, ANTH 451, or ANTH 453) count toward meeting the major requirement, although they are not restricted from enrolling in more than six credit hours of these courses combined.

Study Abroad

Anthropology majors are encouraged to enroll in a study abroad program. These programs can offer direct experience of another culture and intensive language training, as well as excellent coursework in anthropology. By consulting with their departmental advisors as well

as with the University's Study Abroad Office, students can assess the relevance of available programs to their interests and arrange to transfer credit hours to count toward their undergraduate degree and, where appropriate, the anthropology major. Study abroad programs are often affordable even to students who require financial aid. Information about student loans and scholarships for the purpose of studying abroad can be obtained from the Study Abroad Office.

Undergraduate Awards

The Honigsmann Undergraduate Honors Thesis Award is given each year to the student who completed the best undergraduate honors project.

Patricia McNany, Chair

Anna Agbe-Davies, Director of Undergraduate Studies

agbe-davies@unc.edu

Medical anthropology addresses the biological, cultural, and political-economic dimensions of health, illness, and healing historically and at present. Reflecting the multi-disciplinary character of its parent field of anthropology, medical anthropology deploys quantitative and qualitative methods to examine the body as a site of evolutionary processes and cultural symbols, and healing as interpretive processes at macro, meso, and micro levels.

This program provides students with the fundamental knowledge and exposure needed to pursue careers and post-graduate studies in fields related to global health, public health, allied health care and health and human services, medicine, dentistry, and other emerging disciplines.

For students seeking a career in the health professions, the program in medical anthropology complements training in the natural sciences. Courses in medical anthropology explore population variations in health outcomes due to the influence of culture. The curriculum also equips students with ways to understand the meanings people find in illness and healing and the moral stakes of medical decisions. Additionally, courses in medical anthropology give students awareness of the formal institutions and social relations that become the channels and limitations of technical knowledge about illness and healing.

Department Programs

Major

- Anthropology Major, B.A. (p. 269)
- Medical Anthropology Major, B.A. (p. 271)

Minors

- General Anthropology Minor (p. 273)
- Heritage and Global Engagement Minor (p. 273)
- Medical Anthropology Minor (p. 275)

Graduate Programs

- Ph.D. in Anthropology (<http://catalog.unc.edu/graduate/schools-departments/anthropology/>)

Student Learning Outcomes

Upon completion of the medical anthropology program, students should be able to:

- Demonstrate knowledge of the relationships between humans' health and historical, biocultural, and societal dynamics
- Demonstrate understanding of the ways comparative cultural and historical experiences impact health-related values and practices, definitions of illness, and methods of healing
- Demonstrate competence in reading, analyzing, and communicating social science research on health
- Gain experience conducting and/or applying research using medical anthropology's methods
- Gain an understanding of medical anthropology's relationships to the holistic, parent discipline of anthropology and its contributions to applied professional fields such as medicine and global health.

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
Select two foundational courses:		6
ANTH 53	First-Year Seminar: Darwin's Dangerous Idea ^H	
ANTH 66H	First-Year Seminar: Saving the World? Humanitarianism in Action	
ANTH 1--	Introduction to Biocultural Medical Anthropology	
ANTH 147	Comparative Healing Systems	
ANTH 270	Living Medicine	
ANTH 319	Global Health	
Select two research methods and experience courses (see list below)		6
Select five elective courses, apportioned in the following ways: ¹		15
At least one from the biological/ecological elective list (see below)		
At least one from the sociocultural elective list (see below)		
No more than two of the five courses can be at the 100-level or below		
Total Hours		27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ These courses can be taken at any time during the student's tenure at UNC. Students may count up to two (2) ANTH courses not included in this elective list, or up to two (2) courses from outside the department that relate to the student's area of interest in medical anthropology.

Introduction

The heritage and global engagement minor offers students the opportunity to engage two critical issues of our times: globalization and heritage. Students will learn a wide range of culturally aware approaches to understanding the role of globalization and heritage in the modern

world. Emphasizing experiential learning, the minor offers students guided training in a range of anthropological methodologies including ethnography, oral life-history, heritage conservation, and community-based, participatory research. Through designated engagement courses, student completing the minor will have developed a portfolio of extended cases studies, ethnographic projects, and designs for participatory heritage and globally-concerned projects. This emphasis on engagement —i.e. first-hand anthropological research—teaches students to connect new ideas about culture, history, globalization, and identity with real communities. This course of study therein prepares students to navigate the complex issues of globalization and heritage that they will encounter in their personal and professional lives beyond UNC. The minor is designed to complement other majors and careers, where cultural awareness is a must. Affording undergraduates the opportunity to anthropologically engage their world, the heritage and global engagement minor brings together UNC faculty, students, and communities—both abroad and here in North Carolina—to create locally grounded, globally aware understandings of an increasingly interconnected world.

Graduate School and Career Opportunities

There are multiple career paths open to students with a minor in heritage and global engagement. The minor is designed to augment a range of courses of study and careers. From medical and health professions to business, government, and nongovernmental organizations (NGOs), anthropological perspective is increasingly at a premium in the world writ large. This minor gives students the global awareness and first-hand research skills to distinguish themselves in a variety of local and global fields.

ANTH 473	Anthropology of the Body and the Subject	
ANTH 474	The Anthropology of Disability	
ANTH 535	The Archaeology of Health and Well-Being	
ANTH 538	Disease and Discrimination in Colonial Atlantic America	
ANTH 585	Anthropology of Science	
ANTH 623	Human Disease Ecology	
ANTH 624	Anthropology and Public Health	

ANTH 649	Politics of Life and Death
ANTH 650	Reconstructing Life: Nutrition and Disease in Past Populations
Total Hours	

15

Students must have a grade of C or better in at least four of the five courses, and at least three courses must be taken at UNC–Chapel Hill or in a program officially sponsored by the University. Students planning on a minor in medical anthropology should inform the department's director of undergraduate studies. For more information about medical anthropology see medicalanthropology.unc.edu (<http://medicalanthropology.unc.edu>).

See the program page here (p. 269) for special opportunities.

Rich Goldberg, Director of Undergraduate Studies

r.goldberg@unc.edu

The Department of Applied Physical Sciences expands interdisciplinary research and teaching by strengthening an intellectual climate in which science is collaborative and focused on applications. The department has connections among disciplinary departments across the natural sciences. The doctoral graduate program in materials science is housed in the department. The department offers undergraduate courses and a minor in applied sciences and engineering. APS is also home to BeAM (<https://beam.unc.edu>) (Be A Maker), the UNC network of makerspaces, and CHANL (<https://chanl.unc.edu>) (Chapel Hill Analytical and Nanofabrication Laboratory).

Minor

- Applied Sciences and Engineering Minor (p. 278)

Graduate Programs

- Ph.D. in Applied Physical Sciences (<http://catalog.unc.edu/graduate/schools-departments/applied-physical-sciences/>)

Professors

Theo J. Dingemans (APS), High-Performance Polymers and (Nano)composites.

Greg Forest (Mathematics), Flow and Structure of Complex Polymeric Fluids.

Jinsong Huang (APS), Perovskite Solar Cells, Photodetectors, X-ray Imaging, Radiation Detectors, Electronic Devices.

Rene Lopez (Physics and Astronomy – APS), Optical Materials, Photonic Structures, Photovoltaics.

Peter Mucha (Mathematics), Complex Systems, Networks, Complex Fluids.

Richard Superfine (APS), Biological Physics, Soft Matter, Biomedical Device Technologies.

Sean Washburn (Physics and Astronomy – APS), Quantum Transport, Mechanical and Electrical Response of Nanostructures.

Associate Professor

Ronit Freeman (APS), Development of Novel Designer Materials Using Self-Assembling Biological Components.

Teaching Associate Professors

Richard Goldberg (APS), Assistive Technology, Rehabilitation Engineering, Engineering Education.

Glenn Walters (APS), Instrumentation for Innovation, BeAM Design Center, Engineering Education.

Assistant Professors

Daphne Klotsa (APS), Computational Soft and Active Matter.

Ehssan Nazockdast (APS), Modeling/Simulation of Biophysical Phenomena.

Nico Pegard (APS), Computational Optics, Imaging Systems, Optical Instrumentation and Digital Interfaces for Systems Biology and Neuroscience.

Scott Warren (Chemistry – APS), Supramolecular and Solid-State Chemistry for Materials Design.

Zijie Yan (APS), Optical Trapping and Manipulation, Holography, Microfluidics, Electronic and Photonics Nanomaterials.

Affiliated Faculty

James Cahoon (Chemistry), Nanoparticle Synthesis and Characterization.

Orlando Coronell (Environmental Sciences and Engineering), Wet Chemistry, Polymer Synthesis, Membrane Systems.

Joseph M. DeSimone (Chemistry), Polymeric Materials Synthesis.

J. Michael Ramsey (Chemistry), Analytical Chemistry, Microfabricated Chemical Instrumentation, Microfluidics, Nanofluidics.

Edward T. Samulski (Chemistry – APS), Liquid Crystals and Liquid Crystal Polymers.

Wei You (Chemistry), Organic and Polymer Synthesis, Organic Solar Cells, Molecular Electronics, Organic Spintronics.

Advanced Undergraduate and Graduate-level Courses

APPL 405. Convergent Engineering: Team-Science Approaches to Discovery and Innovation. 3 Credits.

Students will participate in activities, group discussion, and problem-solving coaching to understand how chemistry, physics, materials science, and biology are applied to engineering. Topics are introduced through discussing relevant scientific literature, and guest lecturers and faculty discuss expertise in fields like mathematical modeling, mechanical engineering, or circuit design. Guest lecturers can provide new perspective on the problems so students gain an interdisciplinary view of the subject.

Grading status: Letter grade.

APPL 411. Practical Electronics for Everyone. 1 Credit.

Design and fabrication for practical electronics circuits, including interfacing with sensors and actuators.

Grading status: Pass/Fail.

APPL 412. Turning Your Entrepreneurial Ideas Into Reality. 3 Credits.

Students will work in groups on a semester project to turn their entrepreneurial ideas into reality.

Requisites: Prerequisite, APPL 110; permission of the instructor for students lacking the prerequisite.

Gen Ed: EE- Field Work.

Grading status: Letter grade.

APPL 413. LabView for Data Acquisition. 1 Credit.

The basics of data acquisition and hardware interfacing using LabVIEW graphical programming.

Grading status: Pass/Fail.

APPL 414. Electronics for Measurement, Control, and the Internet of Things. 1 Credit.

This class builds on APPL 411. Students will acquire signals from sensors and send them to an Arduino or other microcontroller. Students will also learn how to develop circuits that are part of the 'Internet of Things' so that they can transmit sensor readings on the Internet. Most of the class time will be hands-on activities.

Requisites: Prerequisite, APPL 411; permission from the instructor for students lacking the prerequisite.

Grading status: Pass/Fail.

APPL 418. 3D Printing Technology and Practice. 1 Credit.

3D Printing, or additive manufacturing (AM), is used broadly from manufacturing to medical research. AM will play an increasingly large role in virtually all areas of research, industry, and commerce with new technologies and significant improvements occurring continually. The course will delve deeply into the major existing and developing technologies. We will explore the elements of design for AM, motion control and imaging technologies, materials performance and selection, and the physics of parts production.

Grading status: Pass/Fail.

APPL 420. Introduction to Polymers. 3 Credits.

Chemical structure and nomenclature of macromolecules, synthesis of polymers, characteristic polymer properties.

Requisites: Prerequisite, CHEM 261 or 261H; pre- or corequisites, CHEM 262 or 262H, and 262L or 263L.

Grading status: Letter grade

Same as: CHEM 420.

APPL 421. Synthesis of Polymers. 3 Credits.

Synthesis and reactions of polymers; various polymerization techniques.

Requisites: Prerequisites, CHEM 251 and 262 or 262H.

Grading status: Letter grade

Same as: CHEM 421.

APPL 422. Physical Chemistry of Polymers. 3 Credits.

Polymerization and characterization of macromolecules in solution.

Requisites: Prerequisites, CHEM 420 and 481.

Grading status: Letter grade

Same as: CHEM 422.

APPL 423. Intermediate Polymer Chemistry. 3 Credits.

Polymer dynamics, networks and gels.

Requisites: Prerequisite, CHEM 422.

Grading status: Letter grade

Same as: CHEM 423.

APPL 430. Optical Instrumentation for Scientists and Engineers. 3 Credits.

This is an introduction to methods of automatic computation of specific relevance to biomedical problems. Sampling theory, analog-to-digital conversion, and digital filtering will be explored in depth. Previously offered as APPL 460.

Requisites: Prerequisite, MATH 383.

Grading status: Letter grade.

APPL 435. Nanophotonics. 3 Credits.

This course introduces the principles of nanophotonics - an emerging frontier at the nexus of nanotechnology and photonics that deals with light-matter interactions at the nanometer scale. The course will cover the theoretical foundations of nanoscale materials and optics, fabrication and characterization of optical nanostructures, plasmonics, nanomanipulation by optical tweezers, electrodynamic simulations, nanoscale light emitters, and applications of nanophotonics.

Requisites: Prerequisites, PHYS 117 and CHEM 251.

Grading status: Letter grade.

APPL 465. Sponge Bob Square Pants and Other Soft Materials. 3 Credits.

What kind of material is Sponge Bob made of? What about the slime of his pet snail, Gary? We are taught that there are three states of matter: solid, gas, and liquid. However, in our daily lives we encounter materials that challenge this simple description such as foams, pastes, gels, soap, and rubber. These are Soft Materials and in this course we will learn about their special properties.

Grading status: Letter grade.

APPL 470. Fundamentals of Materials Science. 3 Credits.

Crystal geometry, diffusion in solids, mechanical properties of solids, electrical conduction in solids, thermal properties of materials, phase equilibria.

Requisites: Prerequisite, CHEM 482 or PHYS 128. Pre- or corequisite, PHYS 441.

Grading status: Letter grade

Same as: CHEM 470.

APPL 472. Chemistry and Physics of Electronic Materials Processing. 3 Credits.

Permission of the instructor. A survey of materials processing and characterization used in fabricating microelectronic devices. Crystal growth, thin film deposition and etching, and microlithography.

Requisites: Prerequisite, CHEM 482 or PHYS 117 or 119.

Grading status: Letter grade

Same as: PHYS 472, CHEM 472.

APPL 473. Chemistry and Physics of Surfaces. 3 Credits.

The structural and energetic nature of surface states and sites, experimental surface measurements, reactions on surfaces including bonding to surfaces and adsorption, interfaces.

Requisites: Prerequisite, CHEM 470.

Grading status: Letter grade

Same as: CHEM 473.

APPL 475. Design and Fabrication of Fluids Monitoring Devices. 1 Credit.

Review of fluid mechanics including the fundamentals of pressure/flow relationships, fluid properties, and flow regimes. Students will design and create physical prototypes that demonstrate specific concepts and measure defined parameters. Students will use the BeAM makerspace network extensively to make things that illustrate fluid device design.

Class time will include exercises to reinforce concepts and a guided design activity to create a physical device. Required preparation: BeAM orientation, laser training, and 3D-printer training.

Grading status: Letter grade.

APPL 490. Special Topics. 1-3 Credits.

Topics vary from semester to semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 9 total completions.

Grading status: Letter grade.

APPL 491L. Materials Laboratory I. 2 Credits.

Structure determination and measurement of the optical, electrical, and magnetic properties of solids.

Requisites: Prerequisites, APPL 470 and PHYS 351.

Grading status: Letter grade

Same as: PHYS 491L.

APPL 492L. Materials Laboratory II. 2 Credits.

Continuation of PHYS 491L with emphasis on low- and high-temperature behavior, the physical and chemical behavior of lattice imperfections and amorphous materials, and the nature of radiation damage.

Requisites: Prerequisite, APPL 491L or PHYS 491L.

Grading status: Letter grade

Same as: PHYS 492L.

APPL 493. Internship in Applied Physical Sciences. 3 Credits.

An ideal internship provides students with practical experience in an organization outside of UNC, doing work that is relevant to their UNC education. The internship should develop and enhance the students' professional skill sets and involve experiences that allow students to have responsibility for results that are of value to the organization.

Gen Ed: EE- Academic Internship.

Grading status: Letter grade.

APPL 495. Mentored Research in Applied Physical Sciences. 3 Credits.

Students undertake independent research with a faculty mentor.

In order to register for this class, students must submit a learning contract and research proposal for approval. At the end of the semester, students submit a final report that describes their research. Students are encouraged to present their work either internally at UNC or externally at a conference or symposium.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

APPL 520L. Polymer Chemistry Laboratory. 2 Credits.

Various polymerization techniques and characterization methods. One four-hour laboratory each week.

Requisites: Pre- or corequisite, CHEM 420 or 421 or 425.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade

Same as: CHEM 520L.

APPL 573. Introductory Solid State Physics. 3 Credits.

Crystal symmetry, types of crystalline solids; electron and mechanical waves in crystals, electrical and magnetic properties of solids, semiconductors; low temperature phenomena; imperfections in nearly perfect crystals.

Requisites: Prerequisite, PHYS 421; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade

Same as: PHYS 573.

APPL 590. Special Topics in Applied Physical Sciences. 3 Credits.

Advanced specialty topics in applied physical sciences for undergraduates and graduates.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

APPL 690. Special Topics in Applied Physical Sciences. 3 Credits.

Advanced specialty topics in applied physical sciences for undergraduate and graduates.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

Material Science (MTSC)

Advanced Undergraduate and Graduate-level Courses

MTSC 615. Structure of Solids. 3 Credits.

Crystallography, reciprocal lattices, Bloch waves, band structure, electronic wave functions, phonons, thermal expansion. Superlattice structures, including liquid crystals. Overview of properties of ceramic, amorphous, polymeric, and composite materials.

Grading status: Letter grade.

(919) 843-9334

Richard Superfine, Chair**Rich Goldberg, Director of Undergraduate Studies**

r.goldberg@unc.edu

The applied sciences and engineering minor is designed to train students with an engineering and entrepreneurial mindset. You will build on the foundation from your math and science courses, and engage in hands-on engineering applications of real-world challenges.

Join the minor to learn about materials sciences, optics, fluid mechanics, sensors, and more.

- Model and simulate systems using modern engineering tools and software
- Design and build systems for real-world applications using engineering tools in the BeAM makerspace and across campus
- Use fundamental principles in math and sciences to address applications in at least one area of engineering, such as material science, environmental engineering, instrumentation, or optics

- Communicate to a wide range of audiences in both oral and written form
- Understand the ethical and professional responsibilities of engineers
- Work within teams to design solutions and solve problems

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor 'core' requirements at UNC–Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 196).

Prerequisite Courses

Code	Title	Hours
MATH 231	Calculus of Functions of One Variable I ^H	4
MATH 232	Calculus of Functions of One Variable II ^H	4
MATH 233	Calculus of Functions of Several Variables ^H	4
Select one:		4
PHYS 104	General Physics I	
PHYS 114	General Physics I: For Students of the Life Sciences	
PHYS 116	Mechanics ^H	
PHYS 118	Introductory Calculus-based Mechanics and Relativity	
Select one:		4
PHYS 105	General Physics II	
PHYS 115	General Physics II: For Students of the Life Sciences	
PHYS 117	Electromagnetism and Optics ^H	
PHYS 119	Introductory Calculus-based Electromagnetism and Quanta	
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I	4
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^H	4
Select one course:		3
COMP 110	Introduction to Programming ^H	
COMP 116	Introduction to Scientific Programming	
Total Hours		31

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

The minor consists of five courses for a total of 15 credit hours.

Code	Title	Hours
Core Requirements		
APPL 101	Exploring Engineering	3
APPL 110	Introduction to Design and Making: Developing Your Personal Design Potential	3
Select one course from the following list:		3

APPL 240	Developing Your Sixth Sense: Designing Sensors and Electrical Circuits to Make Measurements	
APPL 260	Materials Science and Engineering: Living in a Material World	
APPL 280	Fluid Relationships: An Intuition Building Approach to Fluid Mechanics	
PHYS 231	Physical Computing	
ENVR 205	Engineering Tools for Environmental Problem Solving	
Select two engineering topic courses from the list below.		6
Total Hours		15

Margaret Scarry, Director of Undergraduate Study, Spring 2021
scarry@email.unc.edu

Introduction

The undergraduate major in archaeology focuses on the systematic study of the human past through its material remains by means of the excavation, recovery, and interpretation of artifacts and other associated evidence. Historical, environmental, and comparative components enable the examination of different culture systems through time and space, as well as the reconstruction of past lifeways and the interpretation of ancient social, political, and economic systems. The geographic scope of the program includes the Americas, Europe and the Mediterranean, Egypt, and the Near East. The educational goal of the program is to provide the student with a component of a liberal arts education that draws on both the social sciences and the humanities. It also will effectively prepare students for graduate study in anthropological archaeology, Mediterranean archaeology, museology, and historical preservation, or careers in contract archaeology and cultural resource management. Students interested in applying to graduate programs in Mediterranean or Near Eastern archaeology may need ancient language classes not required for the major. Students should consult a faculty advisor in archaeology if they have questions.

Advising

All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The curriculum's director of undergraduate studies (see "Contact Information" above) works with current and prospective majors and minors by appointment. Students are encouraged to consult with the director of undergraduate studies about course choices and field work opportunities. Curriculum academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, and the honors program may be obtained from the curriculum's Web site (<http://archaeology.unc.edu>).

Graduate School and Career Opportunities

The undergraduate curriculum in archaeology prepares majors for specialized graduate study in archaeology and cognate fields. The specific area of graduate study will depend on the fields of concentration of major, minor, and supporting coursework. Graduating majors (and double majors and minors) may pursue degree programs and careers in fields such as anthropology, Latin American studies, classical and medieval archaeology, Egyptology and ancient Near Eastern archaeology, art history, ancient history, and linguistics. Provided with a well-rounded undergraduate degree in the liberal arts, graduating students may pursue professional and graduate programs in diverse fields of the humanities and social sciences, utilizing their skills in various professions such as field archaeology (professional or contract archaeology), museology, conservation and historical preservation, cultural resource and heritage management, and teaching. Career resources as well as a list of former graduates and their careers are available on the curriculum's Web site (<http://archaeology.unc.edu>).

Major

- Archaeology Major, B.A. (p. 281)

Minor

- Archaeology Minor (p. 285)

Adjunct Professors

R.P. Stephen Davis Jr., Donald C. Haggis, Dale L. Hutchinson, Jodi Magness, Patricia M. McAnany, C. Margaret Scarry, Vincas P. Steponaitis, Šilvia Tomášková.

Adjunct Associate Professors

Anna Agbe-Davies, Benjamin Arbuckle, Brian Billman, Heather Lapham, David Mora-Marín, John F. Scarry.

Adjunct Assistant Professors

Jennifer Gates-Foster, Laurie Cameron Steponaitis, Hérica Valladares.

Adjunct Assistant Teaching Professors

Rachel Briggs, Kristina Killgrove.

Professors Emeriti

Carole L. Crumley, Mary C. Sturgeon.

ARCH–Archaeology

Undergraduate-level Courses

ARCH .094. Greek Art. 3 Credits.

ARCH 393. Internship in Archaeology. 3-6 Credits.

Permission of the instructor and the director of undergraduate studies. Internships combine substantive work experience with an academic project.

Gen Ed: EE- Academic Internship.

Repeat rules: May be repeated for credit. 12 total credits. 2 total completions.

Grading status: Letter grade.

ARCH 395. Research in Archaeology. 1-6 Credits.

Permission of the instructor. For students who wish to participate in laboratory or field research programs. May be taken twice.

Repeat rules: May be repeated for credit. 12 total credits. 2 total completions.

Grading status: Letter grade.

ARCH 396. Independent Study in Archaeology. 1-6 Credits.

Permission of the instructor. Special reading and research in archaeology under the supervision of a selected instructor. May be taken twice.

Repeat rules: May be repeated for credit. 12 total credits. 2 total completions.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

ARCH 691H. Seniors Honors Thesis, Part 1. 3 Credits.

Permission of the instructor. Restricted to senior honors candidates.

First semester of senior honors thesis. Independent research under the direction of an archaeology curriculum faculty member.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

ARCH 692H. Senior Honors Thesis, Part 2. 3 Credits.

Permission of the instructor. Restricted to senior honors candidates.

Second semester of senior honors thesis. Independent research under the direction of an archaeology curriculum faculty member.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

bsarbu@email.unc.edu

Margaret Scarry, Director of Undergraduate Study, Spring 2021

scarry@email.unc.edu

The undergraduate major in archaeology focuses on the systematic study of the human past through its material remains by means of the excavation, recovery, and interpretation of artifacts and other associated evidence.

Department Programs

Major

- Archaeology Major, B.A. (p. 281)

Minor

- Archaeology Minor (p. 285)

Student Learning Outcomes

Upon completion of the archaeology program, students should be able to:

- Demonstrate knowledge of the basic principles of archaeological reasoning (the ability to analyze ancient material culture and archaeological contexts)
- Demonstrate appropriate skills of archaeological exposition
- Demonstrate proficiency in recovering and documenting a variety of forms of material culture and archaeological contexts
- Demonstrate the ability to utilize both data sets and theoretical frameworks for interpreting and reconstructing long-term human history

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
One course in the logic of archaeological inference:		3
ANTH 220	Principles of Archaeology	
ANTH 291	Archaeological Theory and Practice	
CLAR 411	Archaeological Field Methods	
Two courses in archaeological practice.		6-10
One must be a laboratory course:		
ANTH 410	The Identification and Analysis of Historical Artifacts	
ANTH 411	Laboratory Methods in Archaeology ^H	
ANTH 413 & 413L	Laboratory Methods: Archaeobotany and Archaeobotany Lab	
ANTH 414 & 414L	Laboratory Methods: Human Osteology and Human Osteology Lab	
ANTH 415 & 415L	Laboratory Methods: Zooarchaeology and Zooarchaeology Lab	
ANTH 416	Bioarchaeology	
ANTH 417 & 417L	Laboratory Methods: Lithic Seminar and Lithic Analysis Lab	
ANTH 418	Laboratory Methods: Ceramic Analysis	
ANTH 425	Public Archaeology Practicum	
One must be a field school (may be satisfied with a minimum of 3 hours of transfer credit):		
ANTH 451	Field School in North American Archaeology ^H	
ANTH 453	Field School in South American Archaeology ^H	
CLAR 650	Field School in Classical Archaeology	
One course in comparative perspectives from the following list:		3
ANTH 121	Ancient Cities of the Americas	
ANTH 123	Habitat and Humanity	
ANTH 145	Introduction to World Prehistory	
ANTH 222	Prehistoric Art	

ANTH 456	Archaeology and Ethnography of Small-Scale Societies	
ANTH 468	State Formation	
ANTH 551	Origins of Agriculture in the Ancient World	
CLAR 50	First-Year Seminar: Art in the Ancient City ^H	
CLAR 120	Ancient Cities ^H	
Two courses in long-term history from the list below		6
One course in topics in archaeology from the list below		3
One elective course chosen from any of the courses/requirements listed above. Internship, independent research, directed readings, or honors thesis hours selected from ARCH 393, ARCH 395, ARCH 396, ARCH 691H, or ARCH 692H may be substituted for the elective.		3
Two additional electives from related fields (see lists below). The elective courses are listed by potential student interest. Any two may be used to fulfill the major requirement.		6
Total Hours		30-34

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional Requirements

- In choosing their comparative perspectives, long-term history, and topics in archaeology courses, students are required to select courses from at least two of the participating departments (art, anthropology, classics, and religious studies).
- Of the 30 hours required for the major, at least 21 must be completed with a grade of C or better.
- Students may count only three introductory archaeology courses (numbered below 200) toward their major. This restriction does not include courses used to fill electives in related fields.
- For transfer students, at least half of the coursework in the major must be completed within the curriculum at UNC–Chapel Hill.

Subject to the approval of the advisor for the major, students may count graduate seminars towards fulfillment of their comparative perspectives, long-term history, and topics in archaeology or electives requirements. Also subject to the approval of the archaeology major advisor, field schools sponsored by Study Abroad or other universities may be used to fulfill the archaeological practice field experience requirement.

Long-term History

Code	Title	Hours
ANTH 148	Human Origins	3
ANTH 231	The Inca and Their Ancestors: The Archaeology of Andean South America	3
ANTH 233	Prehistory of Southwest Asia and Egypt: From the Earliest Humans to the Rise of Civilization	3
ANTH 250	Archaeology of North America ^H	3
ANTH 457	Perspectives in Historical Archaeology	3
ARTH/CLAR 262	Art of Classical Greece	3
ARTH/CLAR 263	Roman Art	3
CLAR 241	Archaeology of Ancient Near East	3

Special Opportunities in Archaeology

Honors in Archaeology

Students with a grade point average of 3.3 or higher are eligible to pursue a degree with honors. A student who wishes to take this track should identify and contact a faculty thesis advisor before the end of the junior year. During the senior year the student enrolls in a two-semester course sequence, ARCH 691H and ARCH 692H, which provides the opportunity to carry out an independent research project and write a thesis under the direction of the faculty advisor. Prior to registering for the honors courses, the student and faculty mentor must fill out a contract and have it signed by the curriculum's director of undergraduate studies. The thesis is evaluated by a committee consisting of the advisor and two readers. The advisor and at least one reader must be members of the Curriculum in Archaeology's faculty. A student who successfully completes the thesis may be awarded honors or highest honors by the committee. Highest honors is awarded only in cases where the thesis is judged to be exceptional in comparison to other such works.

Research Laboratories of Archaeology

Founded in 1939, the Research Laboratories of Archaeology (RLA) was the first center for the study of North Carolina archaeology. Serving the interests of students, scholars, and the general public, it is currently one of the leading institutes for archaeological teaching and research in the South. Located within the College of Arts and Sciences, it provides support and research opportunities for UNC–Chapel Hill students working not only in North Carolina but also throughout the Americas and overseas.

Duke–UNC Consortium for Classical and Mediterranean Archaeology (CCMA)

The Duke–UNC Consortium for Classical and Mediterranean Archaeology represents a collaboration between the institutions in order to enhance archaeology curricula and concentrations in the respective departments and programs in archaeology. The consortium fosters an interdisciplinary dialogue on methods, theory, and practice in classical archaeology and material culture, providing students access to coursework, seminars, excavations, and other research opportunities; academic advising; and avenues for curricular and extracurricular interaction.

Experiential Education

The development of skills and perspectives beyond the classroom is considered central to the curriculum in archaeology. Hands-on training in field archeology provides students with the basic tools not only necessary for graduate training and advanced research in archaeology, but also for careers in cultural resource and heritage management through government agencies, contract firms, and museums. Developing an understanding of context and physical environment in archaeology requires field and laboratory experiences that are impossible to teach effectively in the classroom. Excavation and laboratory experiences allow students to participate directly in faculty research and to learn firsthand important aspects of the research process. Two or more field schools in

archaeology are generally offered during summer sessions through the Study Abroad Office by faculty from the departments of anthropology, classics, religious studies, and history. In addition, many faculty research associates offer laboratory experiences through independent study projects and internships. These field work and laboratory experiences are designed to enhance the classroom training, allowing students to work as assistants to field archaeologists and specialists—such as surveyors, archaeological architects, palaeoethnobotanists, zooarchaeologists, biological anthropologists, and geomorphologists—learning firsthand various aspects of data recovery, processing, and interpretation associated with archaeological field projects.

Archaeology Minor

Contact Information

Department of Archaeology

108 Alumni Building, CB# 3120
(919) 962-6574

C. Margaret Scarry, Chair

Ben Arbuckle, Director of Undergraduate Study, Fall 2020

bsarbu@email.unc.edu

Margaret Scarry, Director of Undergraduate Study, Spring 2021

scarry@email.unc.edu

The minor in archaeology draws on a number of disciplines and departments—principally anthropology, classics, and art—in the study of the ancient world, the reconstruction of past lifeways, and the interpretation of ancient social, political, and economic systems.

The minor helps prepare students for graduate study in anthropological archaeology, classical archaeology, cultural resource management, and historical preservation. It also provides any student with a strong intellectual interest in archaeology with a structured introduction to this field. Students interested in the minor in archaeology may contact the Director of Undergraduate Studies and consult the Web site (<http://archaeology.sites.unc.edu/home/ca/>).

Department Programs

Major

- Archaeology Major, B.A. (p. 281)

Minor

- Archaeology Minor (p. 285)

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor 'core' requirements at UNC–Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
Two core courses (no more than one of which is a field school) from the following list:		6-9
ANTH 220	Principles of Archaeology	
ANTH 291	Archaeological Theory and Practice	
ANTH 425	Public Archaeology Practicum	
ANTH 451	Field School in North American Archaeology ^H	
ANTH 453	Field School in South American Archaeology ^H	
CLAR 411	Archaeological Field Methods	
CLAR 650	Field School in Classical Archaeology	
One comparative course from the following list:		3
ANTH 121	Ancient Cities of the Americas	
ANTH 123	Habitat and Humanity	
ANTH 145	Introduction to World Prehistory	
ANTH 222	Prehistoric Art	
ANTH 456	Archaeology and Ethnography of Small-Scale Societies	
ANTH 468	State Formation	
ANTH 551	Origins of Agriculture in the Ancient World	
CLAR 50	First-Year Seminar: Art in the Ancient City ^H	
CLAR 120	Ancient Cities ^H	
One area-studies course from the list below		3
One topical course from the list below		3
Total Hours		15-18

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional Requirements

- The courses used to satisfy these requirements must come from at least two departments.
- Three of the courses must be numbered 200 or above and come from two different divisions.
 - Courses in the Division of the Humanities include AMST (<http://catalog.unc.edu/courses/amst/>), CLAR (<http://catalog.unc.edu/courses/clar/>), CLAS (<http://catalog.unc.edu/courses/clas/>), LING (<http://catalog.unc.edu/courses/ling/>), and RELI (<http://catalog.unc.edu/courses/reli/>).
 - Courses in the Division of the Social and Behavioral Sciences include ANTH (<http://catalog.unc.edu/courses/anth/>) and ARCH (<http://catalog.unc.edu/courses/arch/>).
- At least one course must be numbered 300 or above.

Area-studies Course

Code	Title	Hours
ANTH 231	The Inca and Their Ancestors: The Archaeology of Andean South America	3

Introduction

The Department of Art and Art History at UNC–Chapel Hill fosters exchange among creative endeavor, scholarly investigation, and bold expression, through faculty research, graduate student training, undergraduate programs, and public events. The department aims to be an integral part of the University community dedicated to free inquiry that is pursued through both the arts and sciences and expressed in objects, images and text.

Through an innovative and rigorous curriculum, students learn the critical skills of creative problem solving and self-expression. The undergraduate

programs aim to help students articulate their individual perspectives on values and beliefs while discovering their places in a society that is increasingly shaped by visual communications, technology, and globalization. To do so, students develop their creative and scholarly vision and the technical skills to express that vision through their works of art and writing. The highly rated graduate programs in art history and studio art promote these ideals on an advanced level, and have proven their effectiveness through the post-graduate placement and national awards that students receive.

- **Mission:** Make | Frame | Reveal
- **Vision:** Thinking and Creating across Boundaries
- **Values:** The curiosity, empathy, and courage to engage diverse perspectives

As a department, we are committed to working closely with our students and to guiding them in developing an individual voice. We cultivate exchange between studio art and art history and offer maximum flexibility within our individual programs.

Majors and minors in art history become acquainted with the historical significance, cultural diversity, and intellectual richness of human artistic traditions, enabling students to investigate the complex roles played by the arts in a variety of social contexts.

The studio art program offers three different degree programs for majors as well as a minor, and each encourages experimentation, crossing boundaries, and hybrid processes as well as engaging the history and traditions of art. Through directed practice and creative research, faculty work closely with students to stimulate aesthetic and intellectual inquiry, impart portable skills, and motivate self-exploration to help students create outstanding works of art.

Students may choose from a range of studio coursework designed to develop both skills and a personal creative vision. Students develop two critical skills: the means of self-expression and techniques for creative thinking. While the undergraduate program focuses on the fine arts, the course of study nonetheless offers a sound foundation for students to move into art education, design fields, and other art-related careers as well as preparation for further study or careers in the fine arts.

Credit by Examination

ART HISTORY

Students who pass the Advanced Placement (AP) examination in art history and earn a score of 3 will receive credit for ARTH 152.

STUDIO ART

The Studio Art program awards placement only (PL) for work done in the Advanced Placement (AP) and International Baccalaureate (IB) programs. Students who pass the AP portfolio exam for 2-D Design, 3-D Design or Drawing with a score of 4 or 5 receive placement for ARTS 102, ARTS 103, or ARTS 104 respectively. Students earning a score of 6 or higher on the IB portfolio receive placement for ARTS 104. Placement effectively means that students can waive ARTS 102, 103 or 104 prerequisites.

Advanced Placement by Portfolio Review

Students who score a 3 on AP portfolios or 5 on the IB may petition for a portfolio review to determine if they can waive ARTS 102 or ARTS 104 requirements. In addition to these threshold scores, art majors who have broad experience in visual art may petition to waive some prerequisites by submitting a portfolio for review. If the review is successful, students receive placement only. Students then substitute any other ARTS coursework to satisfy the total credit hours

required in the major. Portfolio requirements are modeled after the College Board Advanced Placement portfolios. These guidelines are available from the director of undergraduate studies in studio art, the student services specialist, or on the art majors' Sakai site. Portfolios are reviewed annually in September only. Contact the director of undergraduate studies in studio art at the beginning of the fall semester to make arrangements for submitting a portfolio.

Advising

TWO ADVISORS

All majors and minors have two advisors; a primary academic advisor in Steele Building and departmental advisors for program-specific planning. Students are strongly encouraged to meet regularly with both advisors and review their Tar Heel Tracker each semester. The undergraduate advisors in art history and studio art work with current and prospective majors and minors by appointment. On request, art history majors may be assigned an individual faculty advisor. Departmental academic advising is particularly important for those majors who are considering honors thesis work or graduate school.

INFORMATION, ANNOUNCEMENTS, AND SESSIONS

If in any semester curricular opportunities or changes are relevant to all majors and minors in either programmatic area of the department, students receive an advisory announcement with relevant details via the art and art history majors' listserv. When issues are larger than can be accommodated by electronic communication, general advising sessions are scheduled prior to registration. Students are strongly encouraged to attend such sessions since questions of collective relevance often arise. Basic details are also posted on the majors' Sakai site.

Additionally, special information sessions are held periodically to guide students on awards, study abroad, internships, and research opportunities (especially the Summer Undergraduate Research Fellowships). These sessions are announced via the majors' listserv and on the majors' Sakai site, as well as by posters in the Hanes Art Center and Art Lab.

Course Enrollment and Audit Policies

STUDIO ART

During the fall and spring semester registration periods, enrollment in studio art (ARTS) courses is temporarily restricted to students who have declared a major or minor in studio art to ensure that the students can graduate in a timely manner. Students who are not part of the studio art program will have the opportunity to enroll only when the restriction period has ended — no exceptions. Please refer to the "Notes" section in ConnectCarolina ARTS course listings to determine restriction dates established by the department. Major and minor enrollment restrictions do not apply to the following types of ARTS courses: Honors, Carolina Courses Online, or First-Year Seminars.

Unfortunately, ARTS courses cannot be audited by current students or members of the community. This is due to the participatory nature of studio courses and finite resources, which includes classroom space and potential safety hazards associated with overcrowding. Prospective auditors are encouraged to audit art history courses with instructor consent.

Facilities

CLASSROOMS AND STUDIOS

The department possesses outstanding facilities for the teaching of both art history and studio art in the Hanes Art Center. The building houses

state-of-the-art facilities for image projection required in art history. Specialized classrooms for art practice include large studios for painting, drawing, and mixed media. A dedicated space is available for installation projects. The John C. Henry Printmaking Studio is a wonderfully spacious 3,325-square-foot laboratory providing ambient workspace for a variety of printmaking processes. Studios for photography include both darkroom (black and white) and digital photography and a dedicated shooting studio. The digital laboratories at UNC–Chapel Hill are Mac-based, with the most current software needed for work in photography (including large-scale output), video, and digital/electronic media. UNC also provides access to the entire Adobe Creative Suite for all students. Students enrolled in studio art classes have 24-hour access to these laboratories. In addition, the 17,686-square-foot Art Lab, located 1.8 miles north of the Hanes Art Center (108 Airport Drive), houses the department's sculpture and ceramic facilities.

In addition to the departmental classroom spaces, the Hanes Art Center also houses one of the BeAM (Be A Maker) makerspaces at UNC. The BeAM space at Hanes is equipped with a variety of hand tools and some wonderful high-tech machines including a vinyl cutter, 3-D printers, a laser cutter, and a CNC router. All of this is provided at no charge to students.

LIBRARIES

Department of Art and Art History resources also include the Joseph C. Sloane Art Library with its collection of 100,000 volumes, which is supplemented by the University's academic affairs libraries, with holdings of more than six million volumes. The department also has a Visual Resources Library, which oversees almost 300,000 slides and digital images for use in teaching and research.

EXHIBITION SPACES

The John and June Allcott Galleries in the Hanes Art Center are sites for numerous exhibitions throughout the year. The main gallery has an exhibition schedule of 12 to 15 shows each year, showing work by professional artists, faculty, and students. For a large portion of the spring semester, this gallery is dedicated to M.F.A. thesis exhibitions. The John and June Allcott Undergraduate Gallery is the exhibition space designed especially for work produced or chosen by undergraduate students. Both galleries are periodically used as an incubator space by the Curatorial Practices class where students explore concepts and logistics of curating exhibitions. The Hanes Art Center also houses the SAMple gallery. This space run by the Studio Art Majors Association (SAMA) to showcase work by SAMA members.

The Alumni Sculpture Garden occupies the grounds surrounding the Hanes Art Center. Temporary exhibitions of sculpture are commissioned by the department and are on display for a two-year period. Commissions are awarded annually to undergraduate and graduate students.

The Ackland Art Museum is located adjacent to the Hanes Art Center. The Ackland's programming regularly augments the educational experience of the University community.

Majors

- Art History Major, B.A. (p. 304)
- Studio Art Major, B.A. (p. 307)
- Studio Art Major, Bachelor of Fine Arts (B.F.A.) (p. 311)
- Studio Art Major, Bachelor of Fine Arts (B.F.A.)—Art History Emphasis (p. 314)

Minors

- Art History Minor (p. 317)
- Studio Art Minor (p. 317)

Graduate Programs

- Master of Art in Art History, M.A. (<http://catalog.unc.edu/graduate/schools-departments/art/#programstext>)
- Master of Fine Arts in Art, M.F.A. (<http://catalog.unc.edu/graduate/schools-departments/art/#programstext>)
- Doctor of Philosophy in Art History, Ph.D. (<http://catalog.unc.edu/graduate/schools-departments/art/#programstext>)

Professors

Christoph Brachmann, S. Elizabeth Grabowski, Jim Hirschfield, Yun-Dong Nam, Victoria Rovine, Daniel J. Sherman, elin o'Hara slavick.

Associate Professors

John Bowles, Eduardo Douglas, Sabine Gruffat, Cary Levine, Carol Magee, Mario Marzan, Roxana Pérez-Méndez, Tatiana String, Hong-An Truong, Dorothy Verkerk, Lyneise Williams.

Assistant Professors

Maggie Cao, Kathryn Desplanque, Lien Truong.

Teaching Assistant Professors

Jennifer J. Bauer, Joy Cox, Gesche Wüerful.

Professor of the Practice

Deepanjan Mukhopadhyay.

Adjunct Professor

Bernard Herman.

Adjunct Associate Professors

Peter Nisbet (Ackland Art Museum).

Adjunct Assistant Professors

Carolyn Allmendinger (Ackland Art Museum), Ross Barrett (Boston University), Hérica Valladares (Classics).

Adjunct Professor of the Practice

Elizabeth Manekin (Ackland Art Museum).

Professors Emeriti

Jaroslav T. Folda, Arthur Marks, Jerry Noe, Mary Pardo, Marvin Saltzman, Mary C. Sturgeon, Dennis Zaborowski.

ARTH–Art History Undergraduate-level Courses

ARTH 51. First-Year Seminar: Cathedrals, Abbeys, Castles: Gothic Art and Architecture (c. 1130-1450). 3 Credits.

The seminar explores Gothic church and secular art and architecture in France and Europe between c. 1130 and c.1450. It focuses not only on the formal and artistic progresses in architecture, sculpture, and stained glass windows during this period, but also on the social, political, and economic aspects of medieval society that affected these developments.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 52. First-Year Seminar: Celts--Druid Culture. 3 Credits.

Who were the Celts, and more specifically, who were the Druids? Little is known about the ancient Druids, yet they have captured the imagination of Western Europeans and North Americans for centuries. They have defined ethnic identity for disparate cultures. So who were they, and who are they today? Honors version available

Gen Ed: WB.

Grading status: Letter grade.

ARTH 52H. First-Year Seminar: Celts--Druid Culture. 3 Credits.

Who were the Celts, and more specifically, who were the Druids? Little is known about the ancient Druids, yet they have captured the imagination of Western Europeans and North Americans for centuries. They have defined ethnic identity for disparate cultures. So who were they, and who are they today?

Gen Ed: WB.

Grading status: Letter grade.

ARTH 53. First-Year Seminar: Art and the Body. 3 Credits.

This course will examine presentations and representations of the body in Western art and how such portrayals relate to their social, cultural, and political contexts.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 54. First-Year Seminar: Art, War, and Revolution. 3 Credits.

Focusing on one or two works of art per week in a variety of media, this course explores the complex relationship between art, war, and conflict in the modern world. Honors version available

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 54H. First-Year Seminar: Art, War, and Revolution. 3 Credits.

Focusing on one or two works of art per week in a variety of media, this course explores the complex relationship between art, war, and conflict in the modern world.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 55. First-Year Seminar: Art, Gender, and Power in Early Modern Europe. 3 Credits.

This first-year seminar introduces students to some of the issues related to representations of western European men and women in the period 1400-1700. Portraits, mythological and biblical imagery, and even architecture will be studied for their attention to gender. Honors version available

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 55H. First-Year Seminar: Art, Gender, and Power in Early Modern Europe. 3 Credits.

This first-year seminar introduces students to some of the issues related to representations of western European men and women in the period 1400-1700. Portraits, mythological and biblical imagery, and even architecture will be studied for their attention to gender.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 59. World's Fairs. 3 Credits.

This first-year seminar focuses on the constructed images of the modern American city. We have selected six U.S. World's Fairs between 1893 and 1965 (1884 World Cotton Centennial, New Orleans; 1893 World's Colombian Exposition, Chicago; 1904 Louisiana Purchase Exposition, Saint Louis; 1939 New York World's Fair, New York City; 1962 Seattle World's Fair; 1964/1965 New York World's Fair). By examining them in detail, we can follow shifts in conceptions of cities (and the world).

Grading status: Letter grade

Same as: PLAN 59.

ARTH 61. First-Year Seminar: African American Art of the Carolinas. 3 Credits.

This course explores the visual arts created by African Americans living and working in the Carolinas from the era of plantation slavery through the 20th century.

Gen Ed: VP, CI.

Grading status: Letter grade.

ARTH 64. First-Year Seminar: Picturing Nature. 3 Credits.

This seminar focuses on how the collecting and study of natural and aesthetic wonders shaped ideas about knowledge in the arts and sciences.

Gen Ed: VP, CI, NA.

Grading status: Letter grade.

ARTH 66. First-Year Seminar: Art, Money, and the Market. 3 Credits.

This seminar explores the complex relationship between art and economy in the age of capitalism, focusing on artworks that interpret market activities and address the subject of economic value.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 77. First-Year Seminar: Seeing the Past. 3 Credits.

This seminar will introduce students to practices of critical analysis that inform academic work in all the core humanistic disciplines: how do we ask analytical questions about texts, artwork, and other cultural artifacts that come down to us from the past or circulate in our own culture?

Gen Ed: VP.

Grading status: Letter grade.

ARTH 79. First-Year Seminar: Meaning and the Visual Arts. 3 Credits.

In the course of the semester, each student will learn to become an art historian. Students will undertake a series of viewing, research, and writing exercises, which will culminate in the production of an exhibition catalogue on world art titled 'In the Eye of the Beholder.' Honors version available

Gen Ed: VP.

Grading status: Letter grade.

ARTH 79H. First-Year Seminar: Meaning and the Visual Arts. 3 Credits.

In the course of the semester, each student will learn to become an art historian. Students will undertake a series of viewing, research, and writing exercises, which will culminate in the production of an exhibition catalogue on world art titled 'In the Eye of the Beholder.'

Gen Ed: VP.

Grading status: Letter grade.

ARTH 84. First-Year Seminar: Society of the Spectacle: Impressionism and Post-Impressionism. 3 Credits.

Students will pay special attention to recent historical and theoretical studies of Impressionist and post-Impressionist painting, as well as selected French novels of the period.

Gen Ed: VP.

Grading status: Letter grade.

ARTH 85. First-Year Seminar: Art and Technology. 3 Credits.

This course examines the relationships between the history of technology and artistic practice. Our conception of 'technology' is broad, extending beyond mere tools to include a host of apparatuses and their relationships to perception, experience, representation, and communication. This course will explore the impacts of technological innovation on society and culture, and vice versa, along with the ways in which artists have addressed, responded to, and critiqued technological progress and invention.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 89. First-Year Seminar: Special Topics. 3 Credits.

Content varies by semester. Honors version available

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

ARTH 89H. First-Year Seminar: Special Topics. 3 Credits.

Content varies by semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

ARTH 111. Art and Death. 3 Credits.

The course covers medieval/early modern artifacts connected to the phenomenon of death as well as the diversity of donations for individual commemoration in Europe. It will explore the social, political, and economic aspects of the societies that affected these phenomena. Invited speakers will open up the perspective to other cultures and time periods.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 112. The Art of Animals: Africa and Beyond. 3 Credits.

This class views the relationship between humans and animals through works of art. Drawing examples from cultures across the world, we address animals as symbols of leadership, beauty, and extraordinary powers. Elephants, leopards, spiders, and dogs of all kinds, along with many other mammals, reptiles, birds, and insects will be studied.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 113. Art and Sports in the Americas. 3 Credits.

Representations of sports tell us a lot about artistic, historic, and contemporary Latin America, the Caribbean, and the United States. This course focuses on depictions of sports in these regions and the varied meanings they communicate.

Gen Ed: VP, US.

Grading status: Letter grade.

ARTH 150. World Art. 3 Credits.

This course provides an introductory survey of some of the major traditions of art making throughout the world, from prehistory to the present. Honors version available

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 150H. World Art. 3 Credits.

This course provides an introductory survey of some of the major traditions of art making throughout the world, from prehistory to the present.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 151. History of Western Art I. 3 Credits.

This is the first semester of a two-semester survey that is designed to acquaint the beginning student with the historical development of art and with the offerings and instructors of the art history faculty. ARTH 151 covers ancient, medieval, and early Renaissance periods. Honors version available

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 151H. History of Western Art I. 3 Credits.

This is the first semester of a two-semester survey that is designed to acquaint the beginning student with the historical development of art and with the offerings and instructors of the art history faculty. ARTH 151 covers ancient, medieval, and early Renaissance periods.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 152. History of Western Art II. 3 Credits.

This is the second semester of the two-semester survey course including Western art from the Renaissance to the modern period. ARTH 151 is not a prerequisite for ARTH 152. Honors version available

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 152H. History of Western Art II. 3 Credits.

This is the second semester of the two-semester survey course including Western art from the Renaissance to modern art. ARTH 151 is not a prerequisite for ARTH 152.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 153. Introduction to South Asian Art. 3 Credits.

An introductory survey of the visual arts of South Asia.

Gen Ed: VP, BN, WB.

Grading status: Letter grade

Same as: ASIA 153.

ARTH 155. African Art Survey. 3 Credits.

A selective survey of sub-Saharan African art (sculpture, painting, architecture, performance, personal decoration) in myriad social contexts (ceremony, politics, royalty, domestic arenas, cross-cultural exchanges, colonialism, postcolonialism, the international art world).

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 156. Introduction to Architecture. 3 Credits.

What is architecture? What does it do? This course is designed to encourage students to consider architecture less as something technical, existing in a separate sphere from everyday life, but as social space.

Honors version available

Gen Ed: VP, GL.

Grading status: Letter grade.

ARTH 156H. Introduction to Architecture. 3 Credits.

What is architecture? What does it do? This course is designed to encourage students to consider architecture less as something technical, existing in a separate sphere from everyday life, but as social space.

Gen Ed: VP, GL.

Grading status: Letter grade.

ARTH 157. Introduction to Latin American Visual Culture. 3 Credits.

This course examines manifestations of visual culture such as festivals and their related objects, comics, and painting in Latin America according to themes like indigenismo, religion, race, modernism, and identity.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 159. The Film Experience: Introduction to the Visual Study of Film. 3 Credits.

A critical and historical introduction to film from a visual arts perspective. The course surveys the history of film from its inception to the present, drawing upon both foreign and American traditions.

Gen Ed: VP.

Grading status: Letter grade.

ARTH 160. Introduction to the Art and Architecture of Pre-Hispanic Mesoamerica. 3 Credits.

This course introduces the art, architecture, and cultures of Pre-Hispanic Mesoamerica, from the rise of Mesoamerica's first high civilization in the second millennium BCE to the defeat of the Aztec Empire in 1521 CE.

Honors version available

Gen Ed: VP, BN, WB.

Grading status: Letter grade.

ARTH 160H. Introduction to the Art and Architecture of Pre-Hispanic Mesoamerica. 3 Credits.

This course introduces the art, architecture, and cultures of Pre-Hispanic Mesoamerica, from the rise of Mesoamerica's first high civilization in the second millennium BCE to the defeat of the Aztec Empire in 1521 CE.

Gen Ed: VP, BN, WB.

Grading status: Letter grade.

ARTH 161. Introduction to American Art. 3 Credits.

This course surveys American art, architecture, and material culture from early European exploration of the Americas to the 1960s. Previously offered as ARTH 261.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 200. Art and Fashion from Rome to Timbuktu. 3 Credits.

In the Roman Empire and in contemporary Africa, clothing reflects local symbolic systems and global trade networks. Rome is imagined as the source of Western culture, and Africa evokes distant exoticism; this course will complicate such conceptions. Through fashion we explore political, economic, and religious systems, as well as creativity.

Gen Ed: VP, WB.

Grading status: Letter grade

Same as: CLAR 200.

ARTH 201. Making Material Histories: A Makerspace Course. 3 Credits.

This course explores the history and technology of materials from wood and glass to steel and plastic in art, culture, and science. Students will engage with materials both through hands-on fabrication at BeAM and through researching historical debates surrounding material invention and use by artists, scientists, and industries.

Gen Ed: VP, EE- Field Work.

Grading status: Letter grade.

ARTH 242. Archaeology of Egypt. 3 Credits.

A survey of the archaeological remains of ancient Egypt, from the earliest settlements of the Neolithic period until the end of the New Kingdom.

Gen Ed: HS, BN, WB.

Grading status: Letter grade

Same as: CLAR 242.

ARTH 247. Roman Archaeology. 3 Credits.

This course explores the archaeology of the Roman world between the eighth century BCE and the fifth century CE, focusing on issues of urbanization, trade and consumption, colonization, and the Roman army.

Gen Ed: VP, NA, WB.

Grading status: Letter grade

Same as: CLAR 247.

ARTH 250. Objects, Museums, and Meanings. 3 Credits.

This course explores objects and meaning in the context of museums. How does one 'read' an object? What do works of art communicate on their own, and how do a series of decisions - made by individuals and institutions - shape how we understand them? Through museum visits, object-based learning and research, readings, and discussion, this course will consider how objects, and their collection and display, shape our understanding of the world around us. Honors version available

Gen Ed: VP, EE- Field Work.

Grading status: Letter grade.

ARTH 250H. Objects, Museums, and Meanings. 3 Credits.

This course explores objects and meaning in the context of museums. How does one 'read' an object? What do works of art communicate on their own, and how do a series of decisions - made by individuals and institutions - shape how we understand them? Through museum visits, object-based learning and research, readings, and discussion, this course will consider how objects, and their collection and display, shape our understanding of the world around us.

Gen Ed: VP, EE- Field Work.

Grading status: Letter grade.

ARTH 254. Women in the Visual Arts I. 3 Credits.

This course analyzes the role of women in Western art as art producers and consumers of art and looks at how women have been represented.

Gen Ed: VP, CI, NA.

Grading status: Letter grade

Same as: WGST 254.

ARTH 255. African Art and Culture. 3 Credits.

This course explores the art and culture of sub-Saharan Africa on the levels of both production and consumption both locally and globally.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 262. Art of Classical Greece. 3 Credits.

Required preparation, any introductory art history course or permission of the instructor. A chronological study of the main development of Greek sculpture, architecture and painting from the fifth to the first centuries BCE.

Gen Ed: VP, NA.

Grading status: Letter grade

Same as: CLAR 262.

ARTH 263. Roman Art. 3 Credits.

The arts of Rome, particularly architecture, sculpture, and painting, proceeded by a survey of Etruscan and Hellenic art and their influence on Rome.

Gen Ed: VP, NA, WB.

Grading status: Letter grade

Same as: CLAR 263.

ARTH 264. Medieval Art in Western Europe. 3 Credits.

Survey of major developments in painting and sculpture in Europe during the Latin Middle Ages (300-1400 CE).

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 265. Medieval Iconography. 3 Credits.

Required preparation, any introductory art history course or permission of the instructor. Understanding the meaning of medieval art by examining the iconography of selected important works. Honors version available

Grading status: Letter grade.

ARTH 265H. Medieval Iconography. 3 Credits.

Required preparation, any introductory art history course or permission of the instructor. Understanding the meaning of medieval art by examining the iconography of selected important works.

Grading status: Letter grade.

ARTH 267. Latin American Modernisms. 3 Credits.

This course focuses on the relationship between the national and international and art and politics within Latin American modernist movements from ca. 1900 to 1960.

Grading status: Letter grade.

ARTH 268. Hellenistic Art and Archaeology (350-31 BCE). 3 Credits.

Survey of the archaeology of the Hellenistic Mediterranean from the time of Alexander the Great until the Roman conquest (350-31 BCE), with emphasis on art and architecture of cities and sanctuaries.

Gen Ed: VP, NA, WB.

Grading status: Letter grade

Same as: CLAR 268.

ARTH 269. Cathedrals, Abbeys, Castles: Gothic Art and Architecture (c. 1130-1450). 3 Credits.

This course covers the development of Gothic church and secular architecture in Europe between 1130 and 1500. It explores the formal and constructive progress in architecture (including its decoration: sculpture, stained glass windows) as well as the social, political, and economic aspects of medieval society that affected these developments.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 270. Early Renaissance Art in Italy. 3 Credits.

Required preparation, any introductory art history course or permission of the instructor. The course develops a solid acquaintance with representative aspects of Italian art from about 1250 to 1450. In alternate semesters the emphasis may change from central (Florence, Rome) to northern (Venice) Italy.

Gen Ed: VP, NA, WB.

Grading status: Letter grade.

ARTH 271. High Renaissance Art in Italy. 3 Credits.

Required preparation, any introductory art history course or permission of the instructor. The course is a survey of major Italian painting from about 1490 to 1575. From semester to semester the emphasis may alternate between central Italian and Venetian/northern Italian works.

Gen Ed: VP, NA, WB.

Grading status: Letter grade.

ARTH 272. Northern European Art: Van Eyck to Bruegel. 3 Credits.

Required preparation, any introductory art history course or permission of the instructor. Survey of painting and sculpture ca. 1400-1600 in the Netherlands-Belgium (Flanders) and Holland-as well as France and England.

Grading status: Letter grade.

ARTH 274. European Baroque Art. 3 Credits.

Required preparation, any introductory art history course or permission of the instructor. This course examines 17th-century art and architecture in Europe.

Gen Ed: VP, NA, WB.

Grading status: Letter grade.

ARTH 275. 18th-Century Art. 3 Credits.

An introductory survey of architecture, sculpture, and painting with emphasis on European developments in the fine and decorative arts from the late 17th century to the Napoleonic era.

Gen Ed: VP, CI, NA.

Grading status: Letter grade.

ARTH 277. Art and Architecture of Viceregal Latin America. 3 Credits.

This course surveys the art and architecture of Hispanophone and Lusophone America of the Viceregal period (1492-ca. 1810).

Gen Ed: VP, BN, WB.

Grading status: Letter grade.

ARTH 279. The Arts in England, 1450-1650. 3 Credits.

This course explores the visual culture of England during the reigns of the Tudors and Stuarts. This will include portraits of Henry VIII, Elizabeth I, and Charles I by artists such as Holbein, Van Dyck, and Rubens, royal palaces, printed books, tomb monuments, heraldry, spectacles, as well as portraits of the middle classes. Honors version available

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 279H. The Arts in England, 1450-1650. 3 Credits.

This course explores the visual culture of England during the reigns of the Tudors and Stuarts. This will include portraits of Henry VIII, Elizabeth I, and Charles I by artists such as Holbein, Van Dyck, and Rubens, royal palaces, printed books, tomb monuments, heraldry, spectacles, as well as portraits of the middle classes.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 280. Picture That: History of Photography from Tintypes to Instagram. 3 Credits.

This course presents a select history of photography from its invention to its most recent manifestations. Global in its orientation, this course is designed thematically rather than chronologically to develop dialogues between places and ideas.

Gen Ed: VP, BN, CI.

Grading status: Letter grade.

ARTH 281. Art of Exchange and Exploration: Early America and the Globe. 3 Credits.

This course offers a transnational look at American visual culture. It considers the encounters, exchanges, and circulations of art, artists, and ideas across boundaries and oceans from the colonial eighteenth century to the Civil War.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 282. Modernism I: Realism, Impressionism, Post-Impressionism. 3 Credits.

The development of European art from 1850 to 1905, with an emphasis on French avant-garde movements including realism and impressionism, as well as international movements such as symbolism and art nouveau.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 283. Picturing Paris: 1800-2000. 3 Credits.

This class explores the cultural, political, and artistic circumstances in which images of Paris have been made and viewed, as well as various visual technologies that have disseminated and marketed.

Gen Ed: VP, CI, NA.

Grading status: Letter grade.

ARTH 284. Modernism II: 1905-1960. 3 Credits.

Required preparation, any introductory art history course or permission of the instructor. Major figures, movements, and themes of modernism from cubism and the emergence of abstraction to the transfer of artistic energy and innovation to the United States after World War II.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 285. Art Since 1960. 3 Credits.

This course will explore major trends in Western art since 1960. It focuses on key contemporary movements and their relations to social, cultural and political contexts. Honors version available

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 285H. Art Since 1960. 3 Credits.

This course will explore major trends in Western art since 1960. It focuses on key contemporary movements and their relations to social, cultural and political contexts.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 287. African American Art Survey. 3 Credits.

An introduction to African American art and artists and their social contexts from early slavery.

Gen Ed: VP, NA.

Grading status: Letter grade

Same as: AAAD 237.

ARTH 288. 19th-Century American Art. 3 Credits.

This course surveys the broad spectrum of 19th-century artistic practice in the United States, focusing on academic and popular artworks that addressed the major conflicts and crises of the period.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 289. Art in the United States, 1890-1945: American Modernisms. 3 Credits.

This course surveys the wide field of early 20th-century American art, stressing the diverse and contested character of artistic modernism in the United States.

Requisites: Prerequisite, ARTH 53, 54, 61, 64, 77, 79, 84, 151, 152, 153, 154, 155, 156, 157, 158, 159, or 160.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 290. Special Topics in Art History. 3 Credits.

Required preparation, any introductory art history course or permission of the instructor. Selected topics in art history.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

ARTH 291. Art, Culture, and Power in Africa. 3 Credits.

This course explores how power operates through objects in Africa, including royal regalia, objects used in healing and other ritual contexts, and African art as commodity in international markets.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 292. Egyptian, Near Eastern, & Aegean Art. 3 Credits.

Required preparation, any introductory art history course or permission of the instructor. This course surveys the ancient art and architecture of Egypt, the Near East, and the Aegean Bronze Age, from the Neolithic period to the end of the Neo-Assyrian empire.

Grading status: Letter grade.

ARTH 293. Art History Practicum. 3 Credits.

Students complete an internship in an art history related field. Students will gain practical knowledge of the practice of art history. Studio majors may use this course to fulfill an art history requirement by pursuing faculty-approved, nonpaid internships working in nonprofit or commercial art sectors.

Gen Ed: VP, EE- Academic Internship.

Grading status: Letter grade.

ARTH 294. Arts of Southern Africa. 3 Credits.

This course focuses on a wide range of regions, time periods, and genres in the visual arts in southern Africa, including archaeological materials, arts associated with longstanding indigenous cultures, art that reflects the often violent encounter with European cultures, and contemporary arts that are produced in the region today.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 297. Clothing and Textiles in Africa. 3 Credits.

This class explores how dress reveals information about African aesthetics, culture, and history, including its roles in political systems, religious worship, fashion trends, and other aspects of social life.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 299. Arts of West Africa. 3 Credits.

This course addresses the roles of art in the lives of West Africans who make and use it, spanning centuries of African creativity from archaeological sites to 21st-century artists.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 300. Art of African Independence. 3 Credits.

This course focuses on African art produced in the mid-twentieth century. It promotes comparative analysis around themes of modernity, nationalism, independence, identity, and the role of the artist in society.

Gen Ed: BN, GL.

Grading status: Letter grade.

ARTH 301. Irish Art and Architecture: Ériu/Éire in the Early Medieval Period. 3 Credits.

This course will provide an in-depth study of early Irish art and architecture from the pre-Christian La Tène period (c. 100 CE) to the 12th century when the Norman invasion introduced English involvement in Ireland that continues to this day.

Gen Ed: VP, CI, WB.

Grading status: Letter grade.

ARTH 302. Fashioning Identities. 3 Credits.

This course examines fashion and the political, social, and cultural discourses, conditions, and institutional formations used in the creation of varied social and personal identities.

Gen Ed: VP.

Grading status: Letter grade.

ARTH 303. Art and Colonialism: France in Africa/Africa in France. 3 Credits.

Art elucidates French and African experiences of colonial rule, as a record of political transformations and a tool for resistance and the assertion of local cultures.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 304. Islam and African Art. 3 Credits.

People everywhere use works of art to facilitate worship, to depict spirits, and to celebrate their beliefs. Islam, a major religion in Africa, is no exception. This course focuses on Islam in African visual arts.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 330. Art and the History of Museums, 1750-2000. 3 Credits.

Focusing on art museums in Europe and North America, this course considers the emergence and development of museums as powerful social and cultural institutions from the mid-18th century to the late 20th century. Topics include museums and national identity, museum architecture, and changing conceptions of the public.

Gen Ed: HS, NA.

Grading status: Letter grade.

ARTH 340. Art and Interchange in Medieval Iberia. 3 Credits.

Undergraduate seminar on visual arts and cultural interchange between the Muslim, Christian, and Jewish communities of medieval Spain. Combines intensive reading and discussion with introduction to art historical research.

Gen Ed: HS, WB.

Grading status: Letter grade.

ARTH 352. Religious Architecture and Visual Culture in Latin America. 3 Credits.

This course uses case studies to introduce students to the visual culture manifested in architecture, festivals, ritual spaces, clothing, and objects associated with religious practices of Latin America.

Requisites: Prerequisite, ARTH 157; permission of the instructor for students lacking the prerequisite.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 353. Africa and Masks. 3 Credits.

Examines the production, circulation, and consumption of masks in both African and non-African contexts. Expands, nuances, and sometimes undoes our notions of mask, masquerade, and masking.

Gen Ed: VP, BN, CI.

Grading status: Letter grade

Same as: AAAD 319, ANTH 343.

ARTH 360. The Art of Dying Well: Death and Commemoration in the Middle Ages and Early Modern Times. 3 Credits.

Covers medieval and early modern artifacts and monuments connected with death as well as the diversity of donations for individual commemoration. Explores the social, political, and economic aspects of medieval/early modern society that affected these developments and phenomena.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 361. Saints in Medieval Art. 3 Credits.

This course will explore the modes in which saints and issues related to sainthood are visualized in medieval art.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 362. Early Christian Art and Modern Responses. 3 Credits.

The early Christian origins of art and architecture in domestic and public contexts of the 200-600 CE Christian communities; the 18th- and 20th-century adaptation of early Christian art.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 365. Late Medieval Art. 3 Credits.

This course explores the art of the late medieval period in Byzantium and the Latin West.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 368. The Renaissance Portrait. 3 Credits.

This course focuses on European portraits produced in the period c. 1400-1600. Through careful study of specific paintings, prints, and sculptures, by artists such as Leonardo da Vinci, Michelangelo, and Albrecht Dürer, we will explore different ways of interpreting portraiture in the Renaissance, addressing issues of identity, reception, and function.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 369. European Art and Sexuality. 3 Credits.

Between 1400 and 1600, major European artists (Hieronymus Bosch, Leonardo da Vinci, Michelangelo, Titian, Dürer) made radical contributions to the representation of the sexual body. This course will use Northern European and Italian art as a lens for investigating Early Modern approaches to the figuration of sexuality and gender.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 370. Visual Art in the Age of Revolution. 3 Credits.

This course focuses on the visual arts of Europe between 1750 and 1830, and addresses the political, social, cultural, and aesthetic issues pertinent to art in an age of revolution.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 383. Modern Architecture. 3 Credits.

Required preparation, any introductory art history course or permission of the instructor. This course will examine the history of architecture from the late 19th century to the present.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 385. Pop Art and Its Legacy. 3 Credits.

This course will investigate what is commonly termed 'pop art.' We will examine the various issues at stake in the appropriation of mass media imagery and techniques, the diversity within the movement, the different arguments surrounding particular artists and artworks, and pop art's continuing legacy in work by contemporary artists.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 387. 20th-Century African American Art. 3 Credits.

Focus on the historical development of African American art from the Harlem Renaissance of early 20th century through the Black Arts Movement and Feminist Art Movement 1960s and early 1970s.

Gen Ed: VP, US.

Grading status: Letter grade

Same as: AAAD 330.

ARTH 390. Special Topics in Art History. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. Selected topics in art history.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

ARTH 391. Undergraduate Research Seminar. 3 Credits.

Required preparation, art history major and sophomore standing or permission of the instructor. Introduces students to research in art history. Seminar involves a multi-stage research project beginning with close analysis of an art object and culminating with a research paper. Topics are drawn from ancient/medieval, early modern, and modern/contemporary art.

Gen Ed: VP.

Grading status: Letter grade.

ARTH 396. Directed Readings in Art History. 1-3 Credits.

Permission of the instructor. Independent study under the direction of a faculty member.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**ARTH 400. German and Netherlandish Renaissance. 3 Credits.**

The course focuses on a crucial period of German and Netherlandish art around 1500, referred to as the so-called Age of Dürer, which still shows influences of Gothic art but also of new Italian Renaissance. Often based on artifacts of the Ackland Art Museum, case studies explore the interaction of artists and patrons in important art centers of the time.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 445. The Mexican Mural Renaissance, 1921-1945. 3 Credits.

This course investigates mural painting and state patronage in post-Revolutionary Mexico, from 1921 to 1945, when artists engaged politics in monumental public works. Focuses on the murals of Diego Rivera, José Clemente Orozco, and David Alfaro Siqueiros, as well as on the relationship between art and politics.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 450. The City as Monument. 3 Credits.

A city or cities will be considered as cultural artifact(s), with emphasis given to plans and planning, architecture, public monuments and to various institutions, such as religion, government, the arts, and commerce that initiate or affect these urban developments and forms. Honors version available

Gen Ed: VP.

Grading status: Letter grade.

ARTH 450H. The City as Monument. 3 Credits.

A city or cities will be considered as cultural artifact(s), with emphasis given to plans and planning, architecture, public monuments and to various institutions, such as religion, government, the arts, and commerce that initiate or affect these urban developments and forms.

Gen Ed: VP.

Grading status: Letter grade.

ARTH 451. Women in the Visual Arts II. 3 Credits.

Discussion of topics related to the representation of women in Western art and/or women as producers of art.

Grading status: Letter grade

Same as: WGST 451.

ARTH 452. Brazilian Modernism. 3 Credits.

This course covers the development of modernism in the visual arts in Brazil from 1917, the year in which a Brazilian artist first exhibited 'modernist' artworks in Brazil, to 1960.

Gen Ed: VP, BN.

Grading status: Letter grade.

ARTH 453. Africa in the American Imagination. 3 Credits.

Examines the ways African art appears in United States popular culture (advertisements, magazines, toys, films, art) to generate meanings about Africa. Addresses intersecting issues of nationalism, multiculturalism, imperialism, nostalgia, race. Restricted to sophomores, juniors, and seniors. Honors version available

Gen Ed: VP, CI, NA.

Grading status: Letter grade

Same as: AAAD 486.

ARTH 453H. Africa in the American Imagination. 3 Credits.

Examines the ways African art appears in United States popular culture (advertisements, magazines, toys, films, art) to generate meanings about Africa. Addresses intersecting issues of nationalism, multiculturalism, imperialism, nostalgia, race. Restricted to sophomores, juniors, and seniors.

Gen Ed: VP, CI, NA.

Grading status: Letter grade

Same as: AAAD 486H.

ARTH 454. Cathedrals, Abbeys, Castles: Gothic Art and Architecture, ca.1130-1500. 3 Credits.

Covers the development of Gothic church and secular architecture in Europe between 1130 and 1500. Explores formal and constructive progress in architecture (including sculpture and stained glass windows) and social, political, and economic aspects of medieval society that affected these developments.

Gen Ed: VP.

Grading status: Letter grade.

ARTH 455. City, Architecture, Art: Nuremberg as a European Artistic Center,1300-1600. 3 Credits.

The course covers the development of art and architecture from ca. 1300 to ca. 1600 in one of the most important medieval and early modern art centers in Europe: Nuremberg, the hometown of the famous German painter Albrecht Dürer (1471-1528).

Requisites: Prerequisite, ARTH 151; permission of the instructor for students lacking the prerequisite.

Gen Ed: VP.

Grading status: Letter grade.

ARTH 457. Studies in the History of Graphic Art. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. Study of prints and printmaking in Western art from ca. 1400 to the present focusing on selected topics.

Grading status: Letter grade.

ARTH 460. Greek Painting. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. A survey of the development of Greek art from geometric to Hellenistic painting through a study of Greek vases, mosaics, and mural paintings.

Grading status: Letter grade

Same as: CLAR 460.

ARTH 461. Archaic Greek Sculpture. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. A focused study of sculpture during the Archaic period in Greece.

Grading status: Letter grade

Same as: CLAR 461.

ARTH 462. Classical Greek Sculpture. 3 Credits.

Permission of the instructor. A focused study of Greek sculpture during the classical period.

Grading status: Letter grade

Same as: CLAR 462.

ARTH 463. Hellenistic Greek Sculpture. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. A focused study of Greek sculpture in the Hellenistic period.

Grading status: Letter grade

Same as: CLAR 463.

ARTH 464. Greek Architecture. 3 Credits.

A survey of Greek architectural development from the Dark Ages through the fourth century BCE. Special topics include the beginnings of monumental architecture, the development of the orders, and interpretations of individual architects in terms of style and proportions.

Requisites: Prerequisite, CLAR 244; permission of the instructor for students lacking the prerequisite.

Gen Ed: HS, NA, WB.

Grading status: Letter grade

Same as: CLAR 464.

ARTH 465. Architecture of Etruria and Rome. 3 Credits.

The development of architecture in the Roman world from the ninth century BCE through the fourth century CE. The course focuses on the development of urbanism and the function, significance, and evolution of the main building types and their geographic distribution.

Requisites: Prerequisite, CLAR 245, CLAR 247, or CLAR/ARTH 263; permission of the instructor for students lacking the prerequisite.

Gen Ed: VP, NA, WB.

Grading status: Letter grade

Same as: CLAR 465.

ARTH 466. History of the Illuminated Book. 3 Credits.

Chronological survey of major developments in book painting during the European Middle Ages from 300 to 1450 CE.

Grading status: Letter grade.

ARTH 467. Celtic Art and Cultures. 3 Credits.

This course explores the art and culture from the Hallstat and La Tène periods (seventh century BCE) to the Celtic 'renaissance' (ca. 400-1200 CE).

Gen Ed: HS, WB.

Grading status: Letter grade.

ARTH 469. Art of the Aztec Empire. 3 Credits.

This course provides a comprehensive introduction to the art of the Aztec Empire, including architecture, monumental sculpture, small-scale sculpture, ceramics, painting, lapidary work, gold work, and feather work.

Grading status: Letter grade.

ARTH 470. The Moving Image in the Middle Ages. 3 Credits.

The course explores the range of contexts in which images in the medieval period were made to move; for instance, in rituals, processions, and miracles.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 471. Northern European Art of the 14th and 15th Centuries. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. Advanced study of painting and sculpture in France, England, and the Netherlands, 1300 to 1400.

Grading status: Letter grade.

ARTH 472. Early Modern Art, 1400-1750. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. This course explores specialized themes and/or broad topics in Western European art of the early modern period. Honors version available

Grading status: Letter grade.

ARTH 472H. Early Modern Art, 1400-1750. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. This course explores specialized themes and/or broad topics in Western European art of the early modern period.

Grading status: Letter grade.

ARTH 473. Early Modern and Modern Decorative Arts. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. This course traces major historical developments in the decorative and applied arts, landscape design, and material culture of Western society from the Renaissance to the present.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 474. Roman Sculpture. 3 Credits.

Survey of Roman sculpture (200 BCE-300 CE), including portraiture, state reliefs, funerary monuments, and idealizing sculpture, with emphasis on style, iconography, and historical development of sculpture in its sociocultural, political, and religious contexts.

Requisites: Prerequisite, CLAR 245, CLAR 247 or CLAR/ARTH 263; permission of the instructor for students lacking the prerequisite.

Gen Ed: VP, WB.

Grading status: Letter grade

Same as: CLAR 474.

ARTH 475. Icons and Idols: Debates in Medieval Art. 3 Credits.

This course will examine theories and instances of image making and breaking from the classical world to the early modern world, covering late antiquity, iconoclasm in Byzantium, and the medieval West.

Gen Ed: VP, WB.

Grading status: Letter grade.

ARTH 476. Roman Painting. 3 Credits.

Surveys Roman painting from 200 BCE to 300 CE, with emphasis on style, iconography, historical development of painting in its sociocultural, political, and religious contexts. Treats current debates in scholarship.

Requisites: Prerequisite, any CLAR or ARTH course at the 200-level or higher (preferably CLAR 245, CLAR 247, or CLAR/ARTH 263); permission of the instructor for students lacking the prerequisite.

Gen Ed: VP, WB.

Grading status: Letter grade

Same as: CLAR 476.

ARTH 482. Art and Archaeology of Achaemenid Persia. 3 Credits.

This course will examine the history and material culture of the ancient state known as the Achaemenid Persian Empire through ancient texts and archaeological sources. Beginning in the sixth century BCE, this ancient superpower ruled a vast and culturally diverse empire that stretched from Northern Libya to central Asia. Through an examination of key sites, objects, and texts we will explore the history and diversity of this multicultural empire.

Gen Ed: VP, BN.

Grading status: Letter grade

Same as: CLAR 482.

ARTH 483. Art, Politics, and Society in France, 1850-1914. 3 Credits.

An examination of the interaction of artists, criticism, and the market with larger political and social developments in France, with an emphasis on primary sources.

Gen Ed: VP, NA.

Grading status: Letter grade

Same as: HIST 468.

ARTH 485. Art of the Harlem Renaissance. 3 Credits.

Examines the Harlem Renaissance (1918-1942) as an instance of both transnational modernism and cultural nationalism through study of how artworks articulate interrelated conceptions of race, gender, sexuality, and social class.

Gen Ed: VP, CI, US.

Grading status: Letter grade.

ARTH 488. Contemporary African Art. 3 Credits.

Examines modern and contemporary African art (1940s to the present) for Africans on the continent and abroad. Examines tradition, cultural heritage, colonialism, postcolonialism, local versus global, nationalism, gender, identity, diaspora.

Requisites: Prerequisite, AAAD 101 or ARTH 152 or 155; permission of the instructor for students lacking the prerequisite.

Gen Ed: BN, GL.

Grading status: Letter grade

Same as: AAAD 405.

ARTH 490. Special Topics in Art History. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. Selected topics in art history.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

ARTH 514. Monuments and Memory. 3 Credits.

Explores the role of monuments in the formation of cultural memory and identity, both nationally and globally. Topics include the construction of identities in and through public spaces, commemoration of both singular individuals and ordinary citizens, and the appearance of new types of post-traumatic monuments in the 20th century.

Gen Ed: HS, NA.

Grading status: Letter grade

Same as: HIST 514.

ARTH 551. Introduction to Museum Studies. 3 Credits.

Introduces careers in museums and other cultural institutions. Readings and interactions with museum professionals expose participants to curation, collection management, conservation, exhibition design, administration, publication, educational programming, and fundraising.

Gen Ed: VP, EE- Field Work, NA.

Grading status: Letter grade.

ARTH 552. The Literature of Art. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. A study of the principal critics and historians who have contributed to the development of modern art history. Also application of the principles to specific works of art.

Grading status: Letter grade.

ARTH 553. The Body in Social Theory and Visual Representation. 3 Credits.

A study of how the human body has been represented in contemporary art and the relation of those representations to theories of the individual and society.

Grading status: Letter grade.

ARTH 554. Imagining Otherness in Visual Culture in the Americas. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. This course examines representational othering of black, Asian, Latina/o, and Native American people in images in the Americas through postcolonial topics like racial stereotyping, Orientalism, primitivism, essentialism, and universalism.

Grading status: Letter grade.

ARTH 555. Urban Africa and Global Mobility. 3 Credits.

The contemporary arts of Africa are framed by urbanization and global mobility. This course examines how artists examine, reflect on, and express visually experiences of these conditions.

Gen Ed: BN, CI, GL.

Grading status: Letter grade.

ARTH 556. Visual Cultures of the American City, 1750-1950. 3 Credits.

An exploration of the wide field of American art and visual culture inspired by the spaces and social life of the modern city.

Requisites: Prerequisite, ARTH 53, 54, 61, 64, 77, 79, 84, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, or 261; permission of the instructor for students lacking the prerequisite.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 557. Art and Money. 3 Credits.

This course explores intersection of art and economics from the 18th century to the present through themes such as value, markets, counterfeiting, and circulation. It examines money as a visual artifact and artworks that engage with monetary questions in the context of art history and Western economic theory.

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 583. Theories of Modern Art. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. A study of theoretical issues central to the understanding of trends in modern art (e.g., modernism, the avant-garde, formalism originality).

Grading status: Letter grade.

ARTH 586. Cultural Politics in Contemporary Art. 3 Credits.

Permission of the instructor. This course will examine strategies of critique in contemporary art. Organized thematically, it focuses on the tactics employed by artists who address political, social, or cultural issues through their work.

Grading status: Letter grade.

ARTH 588. Current Issues in Art. 3 Credits.

Addresses select issues that have gained or re-gained prominence in today's art world, for example globalization, training, the market, and the nature of the 'contemporary.'

Gen Ed: VP, NA.

Grading status: Letter grade.

ARTH 590. Topics in Connoisseurship. 3 Credits.

Permission of the instructor. Works in the Ackland Museum's collection will be studied directly as a means of training the eye and exploring the technical and aesthetic issues raised by art objects.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ARTH 592. History and Theory of Museums. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. Provides an historical overview of museums. Serves as an introduction to many of the theoretical issues museums face including: ethics, audiences, the role of museums in society, exhibiting dilemmas.

Grading status: Letter grade.

ARTH 595. Experience in Research. 1-3 Credits.

Required preparation, one 100-level art history course and one 200- to 399-level art history course. An experiential learning opportunity in independent and original research on a topic or in a field of the student's choosing under the close direction of a faculty supervisor.

Gen Ed: VP, EE- Mentored Research.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ARTH 597. Studiolo to Wunderkammer. 3 Credits.

Required preparation, any intermediate art history course or permission of the instructor. This course explores the history of early modern collecting, encompassing scholars' and merchants' 'study rooms,' aristocrats' menageries, humanists' 'sculpture gardens,' and princely cabinets of wonders.

Grading status: Letter grade.

ARTH 691H. Honors in Art History. 3 Credits.

Permission of the instructor. Independent research directed by a faculty member leading to an honors thesis.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

ARTH 692H. Honors in Art History. 3 Credits.

Permission of the instructor. Independent research directed by a faculty member leading to an honors thesis.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

ARTS–Studio Art

Registration for the studio art foundation courses (ARTS 102, ARTS 103, and ARTS 106) is limited to studio art majors and minors during the first part of the preregistration period. Remaining spaces are made available to nonmajors during the registration period for first-year students. Because the department gives this preference to studio art majors, nonmajors, undeclared students, or continuing study students often find it difficult to enroll in these courses. Individuals seriously considering a studio art major and experiencing such difficulty should see the undergraduate advisor for studio art. We reserve a small number of spaces for such students. Students may be asked to demonstrate a commitment to studio art with some examples of artwork. Students are also encouraged to contact instructors directly to secure a position on a waiting list.

In general, studio art courses are numbered to reflect media areas in the last digit. Painting courses end in 2, sculpture 3, drawing 4, photography 5, digital media 6, mixed media 7, and printmaking 8.

Undergraduate-level Courses

ARTS 50. First-Year Seminar: The Artistic Temperament. 3 Credits.

Class examines how to advance and sustain artistic production, focusing not only on being a successful artist, but also on the importance of creativity and hard work in any successful venture. Honors version available

Gen Ed: VP.

Grading status: Letter grade.

ARTS 50H. First-Year Seminar: The Artistic Temperament. 3 Credits.

Class examines how to advance and sustain artistic production, focusing not only on being a successful artist, but also on the importance of creativity and hard work in any successful venture.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 59. First-Year Seminar: Time, A Doorway to Visual Expression. 3 Credits.

This class will study one of the lesser considered, but most intriguing, visual components: the element of time.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 72. First-Year Seminar: Visualizing Women's Lives and Experiences. 3 Credits.

This seminar explores the experiences of women by integrating content and methodologies from psychology with perspectives on the depiction of women in the arts, namely digital media. Students will study gender socialization, body image, work/achievement, sex and romance, motherhood, aging, and mental health with attention given to diversity.

Gen Ed: SS, US.

Grading status: Letter grade

Same as: PSYC 72.

ARTS 75. First-Year Seminar: Stories in Sight: The Narrative Image. 3 Credits.

This class looks at the theory and practice of telling stories through photographs.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 78. First-Year Seminar: The Visual Culture of Photography. 3 Credits.

This course will investigate how photography is inextricably entwined in our lives and histories.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 82. First-Year Seminar: Please Save This: Exploring Personal Histories through Visual Language. 3 Credits.

This class will investigate the idea of personal histories in visual art. As a studio class, the course will be organized around several art making projects. As a catalyst to our own art making, we will explore the idea of personal history and memory through readings, as well as looking at contemporary artists whose work functions in an autobiographical framework.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 89. First-Year Seminar: Special Topics. 3 Credits.

Content varies by semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

ARTS 102. Two-Dimensional Design. 3 Credits.

Studio course investigates concepts and strategies of two-dimensional image making. Introduces design elements of visual language (line, shape, value, texture, color). Considers the cultural codes that accompany visual information and how they combine with organizational structures to determine a variety of effects, influence responses, and inform meaning. Foundation requirement for studio majors.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 103. Sculpture I. 3 Credits.

Studio course introduces concepts and strategies of working in three dimensions. Project-based coursework develops understanding of ideation process and creative problem solving. Ideas about sculpture are further expanded by considering works by contemporary artists. Students develop aesthetic sensibility, analytical capacity, and fundamental skills in sculptural media. Foundation requirement for studio majors.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 104. Drawing I. 3 Credits.

Working out of an observational tradition, this course provides an introduction to the concepts and techniques of drawing. Paying attention to both representation and interpretation, the course is designed to develop fundamental skills, aesthetic sensibility, analytical capacity, and creative problem-solving in two-dimensional media.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 105. Photography I. 3 Credits.

Focusing on creative digital photography, this course provides an introduction to the concepts and techniques of digital imagery and lens-based media. Includes methods of interpretation, analysis of images, scanning, retouching, color correction, basic composition, and inkjet printing. Honors version available

Gen Ed: VP.

Grading status: Letter grade.

ARTS 105H. Photography I. 3 Credits.

Focusing on creative digital photography, this course provides an introduction to the concepts and techniques of digital imagery and lens-based media. Includes methods of interpretation, analysis of images, scanning, retouching, color correction, basic composition, and inkjet printing.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 106. Video I. 3 Credits.

This foundation course introduces concepts and techniques of temporal art making. Through projects designed to develop an understanding of the creative language unique to digital media, students will learn various software programs and basic digital strategies to realize time-based works of art. Foundation requirement for studio majors.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 115. Darkroom Photography I. 3 Credits.

Introduction to black and white photography in the darkroom through photograms, pinhole, and SLR cameras, processing film, and making gelatin silver prints. Concepts are developed through making, reading and writing, engaging with established and historical artists, and critiquing peers' work. B&W process and aesthetic is approached as tradition, genre, abstraction.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 116. Introduction to Web Media. 3 Credits.

Basic computer skills required. This course investigates the emergence of Web, interactive, and mobile technologies as artistic tools, communication technologies, and cultural phenomena. Students will design and produce interactive Web sites. The course covers principles of Web-based programming and design via HTML and CSS.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 132. Collage: Strategies for Thinking and Making. 3 Credits.

Collage is both an artistic technique and a way of thinking. Even though its historical roots stem from the early 20th century, it is an image-construction strategy that is almost ubiquitous today. Using a variety of conceptual and media approaches, this course explores strategies of collage in contemporary studio practice.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 202. Painting I. 3 Credits.

Recommended preparation, ARTS 104. This course will introduce the fundamentals of painting and various painting techniques through studio lab activity, lectures, demonstrations, and discussions. The course intends to guide students through developing their technical, formal, conceptual, and creative sensibilities to the painting process.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 205. Photography II. 3 Credits.

Continuation of ARTS 105 with continued focus on advanced creative digital photography techniques.

Requisites: Prerequisite, ARTS 105.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 206. Video II. 3 Credits.

In this intermediate-level class students expand on video production strategies and concepts such as lighting theory, location sound recording, montage, and sound design while developing individual and collaborative processes for moving image production.

Requisites: Prerequisite, ARTS 106; permission of the instructor for students lacking the prerequisite.

Gen Ed: VP, EE- Performing Arts.

Grading status: Letter grade.

ARTS 208. Print I. 3 Credits.

Introduction to four basic approaches to printmaking: intaglio, relief, planographic, and stencil processes. Students will explore creative strategies unique to the printed process.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 209. 2D Animation. 3 Credits.

This class explores several techniques of 2D character animation, including storyboarding and conceptualizing, pencil testing and timing animation, animating simple sequences with Photoshop, experimenting with coloring and materials under a film camera, and compositing in After Effects.

Requisites: Prerequisite, ARTS 104.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 210. Exploring the City Through Visual Arts. 3 Credits.

Since the beginning of the twentieth century art, architecture, urbanism, and other related fields have investigated the production of images that shape the symbolic dimension of our experience of large cities. The main goal of this course is to critically explore representations of the contemporary city through different media (photography, video, drawing, painting, etc.).

Requisites: Prerequisite, any ARTS course at the 100-level.

Grading status: Letter grade.

ARTS 213. Ceramic I. 3 Credits.

An investigation of clay as a medium; developing technical skills, aesthetic awareness, and historical perspective.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 214. Life Drawing. 3 Credits.

Through the study of anatomy and observation of the human form, students develop the ability to create powerful, realistic figure drawings.

Fundamental skills and concepts include expressive use of line, value, weight, and volume plus classical techniques in shading, gesture, sighting, and composition.

Requisites: Prerequisite, ARTS 104; permission of the instructor for students lacking the prerequisite.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 215. Darkroom Photography II. 3 Credits.

Continuation of ARTS 115 with advanced focus on conceptual topics and techniques of black and white analog photography. This course will provide students with proficiency in the operation of medium and large format cameras and advanced printing techniques. Concepts are developed through making, reading and writing, engaging with established and historical artists, and critiquing peers' work.

Requisites: Prerequisite, ARTS 115.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 221. Color: Theory and Concept. 3 Credits.

This course explores the intricacies of color theory with regard to perception, systems, and application in visual art. Further, the course considers color as subject and concept in contemporary art. Previously offered as ARTS 121.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 222. New Technologies and Narrative Painting. 3 Credits.

This studio course will focus on immersing students in the culturally rich practice of narrative painting, and emphasize integrating BeAM space technology and equipment in the conceptual and creative process.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 233. Wood Sculpture. 3 Credits.

This class examines wood sculpture from both a technical and intuitive perspective. Students are taught woodworking skills and are then encouraged to use these skills to discover their creative potential.

Gen Ed: VP, EE- Performing Arts.

Grading status: Letter grade.

ARTS 238. Screen Printing. 3 Credits.

Recommended preparation, ARTS 104 and/or ARTS 105. An intermediate studio course focused on creating stencil-based print images. Students explore a range of technical approaches and will investigate art making concepts specific to screen printing as well as the intersections of screen printing with other two-dimensional art forms.

Requisites: Prerequisite, ARTS 102; permission of the instructor for students lacking the prerequisite.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 243. Metal Sculpture. 3 Credits.

This class examines metal sculpture from both a technical and intuitive perspective. Students are taught metalworking skills and are then encouraged to use these skills to discover their creative potential.

Gen Ed: VP, EE- Performing Arts.

Grading status: Letter grade.

ARTS 290. Special Topics in Studio Art. 3 Credits.

Required preparation, any introductory studio art course or permission of the instructor. Selected topics in studio art.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

ARTS 302. Painting II. 3 Credits.

This course aims to continue guiding painting students through developing sensibilities to paint handling, color, composition, and spatial design, with an emphasis on experimentation. Students will develop their work in context to themes that are significant in painting history, relevant to contemporary art, and their personal lens.

Requisites: Prerequisite, ARTS 202.

Grading status: Letter grade.

ARTS 309. 3D Animation. 3 Credits.

The primary goals of this class are to introduce students to three-dimensional computer modeling and animation in Maya. While the particular focus of the class is 3D character animation and most students will produce a short 3D animation as their final project, students may also explore a broad range of creative applications and avenues for development, including special effects, compositing with video, and motion graphics.

Requisites: Prerequisite, ARTS 209.

Grading status: Letter grade.

ARTS 313. Ceramic II. 3 Credits.

Continuation of ARTS 213.

Requisites: Prerequisite, ARTS 213.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 322. Narrative Painting. 3 Credits.

Students will explore themes in the vast history of narrative paintings by researching and responding to these themes, and create narrative paintings through their own personal lens. We will explore topics of the genre, from historical works, to how contemporary artists are interpreting and creating narratives that mirror the diverse spectrum of identities, materials, and histories in our lifetime.

Requisites: Prerequisite, ARTS 202.

Gen Ed: VP, EE- Performing Arts.

Grading status: Letter grade.

ARTS 324. Drawing II. 3 Credits.

This class builds on predominantly perceptually based concepts of basic drawing and introduces abstraction, interpretive, and conceptual drawing strategies. Class assignments develop understanding of the language of drawing and provide a foundation that aims to support independent investigation and personal approaches to drawing's unique capabilities.

Requisites: Prerequisite, ARTS 104.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 343. MAKE: Art in the (New) Age. 3 Credits.

Suggested preparation, ARTS 103. This course examines the connecting trajectories of artistic and technological developments from early modernism to the contemporary. While addressing the interconnected nature of technology, technique, craft and art, students will work with our new technologies (Laser and Vinyl Cutter, 3D Printer, etc.) to create 3D work.

Gen Ed: VP, EE- Mentored Research.

Grading status: Letter grade.

ARTS 352. Abstract Painting. 3 Credits.

This studio course will explore the vast visual language of abstract painting. Students will examine abstraction through creating paintings within a historical, visual, and cultural framework, and acquire context about the emergence and persistence of painted abstraction.

Requisites: Prerequisite, ARTS 202.

Grading status: Letter grade.

ARTS 353. Phantasmagoria: Haunted Art, History, and Installation. 3 Credits.

This course will be organized around four art making/art building projects, culminating in a class presentation of a multimedia phantasmagoria. Students will research early light/shadow, pre-cinema techniques, hauntings/horror and artists whose work is influenced by these tropes. We will work with Maker's Spaces to produce components for this course. Previously offered as ARTS 253.

Gen Ed: VP, EE- Performing Arts.

Grading status: Letter grade.

ARTS 354. Narrative Drawing. 3 Credits.

How does one tell a story in the form of a drawing? This class will investigate narrative composition as a genre using diverse and analytical methods in drawing. From life drawing sessions to exercises in diverse environments and public events.

Requisites: Prerequisite, ARTS 104.

Grading status: Letter grade.

ARTS 355. The Practice of Representation: Portraiture in Photography. 3 Credits.

This course examines the practical and theoretical issues of portraiture. Students will learn technical skills and conceptual strategies to engage with issues of representation and notions of identity. We will explore the history of the photographic portraiture as well as work of contemporary portrait artists working in a post-modern age.

Requisites: Prerequisite, ARTS 105.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 358. Letterpress. 3 Credits.

This class explores the concepts and craft of letterpress printing. Technical skills include typesetting, linoleum carving, and digital interfaces for making image and text matrices. Projects explore the special relationship of image and word and are designed around specific text/image forms: broadside, poster, portfolio, and book.

Requisites: Prerequisite, ARTS 208.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 364. The Walking Seminar: A Territorial Investigation. 3 Credits.

Recommended preparation, ARTS 104. This seminar engages students in a territorial investigation of the North Carolina landscape. Meandering through the landscape we will explore different art mediums while simultaneously fostering an appreciation for the natural environment. Through hiking and backpacking students will foster a means for understanding their location and documenting their experience.

Gen Ed: VP, EE- Field Work.

Grading status: Letter grade.

ARTS 368. Print II. 3 Credits.

This course continues an investigation of print techniques and concepts. Projects develop an understanding of print strategies, focusing on the affordances of processes unique to printmaking. This approach positions traditional techniques as a point of departure for seeking an expanded definition of printmaking.

Requisites: Prerequisite, ARTS 208.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 390. Special Topics in Studio Art. 3 Credits.

Required preparation, any intermediate studio art course or permission of the instructor. Selected topics in studio art.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

ARTS 391. Theory, History, and Practice of Contemporary Curating. 3 Credits.

Required preparation, any Tier II ARTS course, any contemporary-focus ARTH course; permission of the instructor for students lacking the required preparation. How do curators assist the navigation of contemporary art? This course addresses this question and others concerning the history, trends, personalities, and sites involved in contemporary art exhibition. The class will mount actual exhibitions informed by readings and interaction with curators, artists, and stage performances.

Gen Ed: VP.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**ARTS 402. Advanced Painting Projects. 3 Credits.**

This course focuses on the historically rich practice of painting, and is designed to guide the advanced painting student through the research, conceptual, aesthetic, and technical components of a comprehensive studio practice, and developing and maintaining a studio work ethic.

Requisites: Prerequisite, ARTS 302, 322, or 352; permission of the instructor for students lacking the prerequisite.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ARTS 403. Advanced Sculpture. 1-6 Credits.

Continuation of ARTS 303. May be repeated for credit.

Requisites: Prerequisite, ARTS 303; permission of the instructor for students lacking the prerequisite.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ARTS 409. Art and Science: Merging Printmaking and Biology. 3 Credits.

Permission of the instructors. This class explores the intersection of two disciplines, art and science. Research skills intrinsic to both include curiosity, close observation, experimentation, and visual analysis. Organized around printmaking projects informed by specific topics in biology, students adapt theory and practical skills from both disciplines to create artworks using several printmaking techniques Honors version available

Requisites: Prerequisite, one of BIOL 201, 202, ARTS 105, 106, 202, 205, 206, 208, 209, 238, 415, 458; corequisite, BIOL 409L.

Gen Ed: VP, EE- Performing Arts.

Grading status: Letter grade.

ARTS 409H. Art and Science: Merging Printmaking and Biology. 3 Credits.

Permission of the instructors. This class explores the intersection of two disciplines, art and science. Research skills intrinsic to both include curiosity, close observation, experimentation, and visual analysis. Organized around printmaking projects informed by specific topics in biology, students adapt theory and practical skills from both disciplines to create artworks using several printmaking techniques

Requisites: Prerequisite, one of BIOL 201, 202, ARTS 105, 106, 202, 205, 206, 208, 209, 238, 415, 458; corequisite, BIOL 409L.

Gen Ed: VP, EE- Performing Arts.

Grading status: Letter grade.

ARTS 410. Public Art. 3 Credits.

This studio class explores public art from historical and critical perspective. Students will propose and create works of public art. Opportunities to implement projects will be explored through the Department of Art and other resources.

Requisites: Prerequisite, ARTS 302, 303, or 305; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

ARTS 413. Advanced Ceramic Projects. 3 Credits.

Continuation of ARTS 313. May be repeated for credit.

Requisites: Prerequisite, ARTS 313; permission of the instructor for students lacking the prerequisite.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ARTS 415. Conceptual-Experimental Photography. 3 Credits.

An advanced photography course for students interested in contemporary photographic practices, critical theory, art history, and experimental processes: theory and practice, formal and conceptual investigations, and historical and contemporary strategies will all be given equal attention.

Grading status: Letter grade.

ARTS 416. Advanced Video. 3 Credits.

An introduction to the creative and technical processes in producing video art. Students will shoot and edit their own independent video projects. Some class time will be devoted to viewing video art and other media-based work.

Requisites: Prerequisite, ARTS 106; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

ARTS 417. Advanced Mixed Media Projects. 3 Credits.

Cultural production and practice, theory, and criticism. Pursuit of individual visual projects, formally and conceptually, through theoretical, poetic, art historical, and autobiographical texts, critiques, collaboration, and discussion using all media.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ARTS 418. Advanced Printmaking. 3 Credits.

This course is appropriate for students who have had a minimum of three semesters of prior printmaking experience. Students submit a proposal outlining technical and artistic goals for the semester.

Requisites: Prerequisites, ARTS 208 and any two of ARTS 238, 338, or 348; permission of the instructor for students lacking the prerequisites.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ARTS 423. Installation Art. 3 Credits.

This class explores art that encompasses its audience. Conceptual motivations as well as practical realities of dealing with a specific three-dimensional space will be considered.

Requisites: Prerequisite, ARTS 303; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

ARTS 428. Book Art. 3 Credits.

Required preparation, one additional two-dimensional studio course (drawing, photography, or printmaking). Defining the book as a 'multiple and sequential picture plane,' this course considers a range of traditional approaches and conceptual departures of the book as a format for creative expression.

Requisites: Prerequisite, ARTS 102.

Gen Ed: VP.

Grading status: Letter grade.

ARTS 458. Photo Printmaking. 3 Credits.

This course combines a technical approach (making printing matrices using photographic processes) with a conceptual framework (the photographic 'voice' and its interpretation in printmaking). Artmaking projects explore salient ideas such as appropriation versus capture, documentation, truth-telling and fabrication, or narrative invention using specific technical processes such as photogravure and cyanotype.

Requisites: Prerequisites, ARTS 105 and 208; permission of the instructor for students lacking the prerequisites.

Gen Ed: VP, EE- Performing Arts.

Grading status: Letter grade.

ARTS 490. Advanced Special Topics in Studio Art. 3 Credits.

Required preparation, any intermediate studio art course or permission of the instructor. Advanced consideration of selected topics in studio art.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

ARTS 493. Studio Art Practicum or Internship. 3 Credits.

Required preparation, 15 hours ARTS courses. Allows studio art majors to pursue unpaid practicums or internships for credit. Examples include working as a studio assistant or working in art-related fields, such as galleries, design firms, architectural firms, and nonprofit arts organizations. Work undertaken must comply with Federal criteria governing unpaid internships. Departmental approval required.

Gen Ed: EE- Academic Internship.

Grading status: Letter grade.

ARTS 499. Senior Projects. 3 Credits.

This research-intensive course is designed for B.F.A. students to define and execute a focused body of work or a single large project over the course of a semester. Work may be pursued individually or in collaborative teams. Required for B.F.A. studio art majors. B.A. studio art majors may seek permission from the instructor.

Gen Ed: VP, EE- Performing Arts.

Grading status: Letter grade.

ARTS 500. Senior Seminar. 3 Credits.

Restricted to senior studio art majors. This course is the capstone course for the studio art major. Topics covered include issues of professional development, curatorial practice, and presentation of works of art in exhibition. The culminating project is mounting the Senior Exhibition.

Gen Ed: VP, EE- Field Work.

Grading status: Letter grade.

ARTS 515. Advanced Topics in Photography. 3 Credits.

May be repeated for credit.

Requisites: Prerequisite, ARTS 305; permission of the instructor for students lacking the prerequisite.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

ARTS 596. Independent Study in Studio Art. 1-4 Credits.

Permission of the instructor. For students wishing to pursue additional media or thematic study beyond the advanced level. Students register with section numbers designated for faculty. May be repeated for credit.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

ARTS 637. Social Practice and Performance Art. 3 Credits.

Students will explore 'socially engaged art' practices that challenge the distinction between art and life, are fundamentally collaborative, value process over end product, and utilize action, dialogue, and participation as strategies as an intervention in public discourse.

Gen Ed: VP.

Grading status: Letter grade

Same as: COMM 637.

ARTS 657. Movie Making Machines: Learning About Cinema in the Maker Space. 3 Credits.

This projects-based seminar will introduce students to the fundamental optical and technological principles of motion pictures. By using the Maker Space to design and fabricate pinhole cameras, zoetropes, and 16mm film strips, students will gain a deep understanding of the material and technological foundations of the cinema, and the operating principles that are behind not only the classic films of Hollywood's past, but the high-definition digital imaging technologies of the present.

Requisites: Prerequisite, ARTS 105, 106, 209, or COMM 130; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade

Same as: COMM 657.

ARTS 690. Advanced Topics in Studio Art. 3 Credits.
Required preparation, any intermediate studio art course or permission of the instructor. Selected topics in studio art.
Repeat rules: May be repeated for credit. 3 total credits. 1 total completions.
Grading status: Letter grade.

ARTS 691H. Senior Honors Thesis Project in Studio Art. 3 Credits.
Permission of the department. ARTS 691H is designed to enable studio art majors to pursue serious and substantial work. In addition to working with the instructor of record for ARTS 499/691H, students work under the supervision of an individual thesis advisor and committee.
Gen Ed: EE- Mentored Research.
Grading status: Letter grade.

ARTS 692H. Senior Honors Thesis Project in Studio Art. 3 Credits.
ARTS 692H is taught concurrently with and by the instructor for ARTS 500. In addition to the classroom component, students continue to work with an individual thesis advisor and committee. Successful completion of ARTS 692H allows students to graduate with honors or highest honors.
Requisites: Prerequisite, ARTS 691H.
Gen Ed: EE- Mentored Research.
Grading status: Letter grade.

Art History Major, B.A.

Eduardo Douglas, Director of Undergraduate Studies (Art History)
eduardod@email.unc.edu

Carol Magee, Chair
cmagee@email.unc.edu

Yulianna Aparicio, Student Services
yulipo@email.unc.edu

The undergraduate program in art history is directed toward two main educational goals:

1. to provide students with an excellent liberal arts foundation through an understanding of the historical and global significance, cultural diversity, and intellectual richness of human artistic traditions from prehistoric times to the present; and
2. to provide these students with the intellectual tools needed to investigate the complex roles played by the arts in a variety of social contexts.

Skills in visual analysis, historical research, critical reading, analytical and descriptive writing, and oral communication are developed throughout the course of the study. The practice of art history is interdisciplinary, dynamically engaged with many fields in the humanities and social sciences, as well as with the University's diverse area studies programs and the Ackland Art Museum. The art history major equips students with skills, knowledge, and values to negotiate rapidly changing, richly diverse, and increasingly interconnected local, national, and worldwide communities.

Department Programs

- Majors**
- Art History Major, B.A. (p. 304)
 - Studio Art Major, B.A. (p. 307)
 - Studio Art Major, Bachelor of Fine Arts (B.F.A) (p. 311)
 - Studio Art Major, Bachelor of Fine Arts (B.F.A)–Art History Emphasis (p. 314)

- Minors**
- Art History Minor (p. 317)
 - Studio Art Minor (p. 317)

- Graduate Programs**
- Master of Art in Art History, M.A. (<http://catalog.unc.edu/graduate/schools-departments/art/#programstext>)
 - Master of Fine Arts in Art, M.F.A. (<http://catalog.unc.edu/graduate/schools-departments/art/#programstext>)
 - Doctor of Philosophy in Art History, Ph.D. (<http://catalog.unc.edu/graduate/schools-departments/art/#programstext>)

Student Learning Outcomes

- Upon completion of the art history program, students should be able to:
- Demonstrate knowledge of the works of art, artists, viewers, and patrons in a variety of cultures and societies; and the visual arts in the context of the past and present societies that produced them
 - Recognize that visual forms and symbols are historically and culturally contingent, and that interpretation requires a knowledge of the visual language specific to the work of art, as a result of studying the arts in a variety of cultures and historical moments
 - Pose an art historical question, pursue that question through research in original and secondary sources, evaluate evidence, and create an argument in response to that evidence
 - Demonstrate deep content area knowledge by explaining and discussing intelligently major issues related to that field

Requirements

- In addition to the program requirements, students must
- attain a final cumulative GPA of at least 2.0
 - complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
 - take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
 - earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
Two art history foundation courses from ARTH 100 to ARTH 200		6
Eight ARTH courses above 200, apportioned in the following way ¹		24
At least one course from each of the three geographic areas (see course lists below)		

At least one course from each of the three chronological periods (see course lists below)

At least three courses must be numbered above 399		
ARTH 391	Undergraduate Research Seminar ²	3
ARTS---	One studio art course	3
Total Hours		36

¹ A first-year seminar taught by an art history faculty member may be substituted for one art history course numbered above 200.

² Offered with three chronological topic areas. It is strongly recommended that students take this seminar no later than the spring of their junior year.

Distribution Course List–The Americas (AA)

Code	Title	Hours
1300–1800 (II)		
ARTH 254	Women in the Visual Arts I	
ARTH 277	Art and Architecture of Viceregal Latin America	
ARTH 469	Art of the Aztec Empire	
1800–Present (III)		
ARTH 53	First-Year Seminar: Art and the Body

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Honors in Art History

The honors program is open to students with a 3.3 grade point average who have demonstrated overall excellence in the discipline. Honors are generally pursued in the senior year. Students enroll in the honors courses (ARTH 691H in the fall; ARTH 692H in the spring) through the student services assistant in the Department of Art and Art History office. This should be done after consultation with the faculty honors advisor and department honors advisor. For more information, see the honors program description elsewhere in this catalog and the departmental honors announcement. Honors work will allow a student to graduate with honors or with highest honors.

Special Opportunities in Art and Art History

Independent Study

Students may pursue independent study coursework with individual faculty members. Such work may be undertaken *only* with the permission of the sponsoring faculty member. Students should consult individual faculty members prior to registration to secure permission. A proposal and a contract must be approved by the appropriate director of undergraduate studies (studio art or art history) before students may enroll. (See the the departmental majors' Sakai site for instructions.) Since faculty members are limited to supervising only two independent study students each semester, students are strongly advised to contact the faculty member with whom they wish to work early in the registration period for the upcoming semester.

Independent study work requires a minimum of three hours per week per credit hour. For example, a typical three-credit-hour class would require at least nine hours of work per week. Once the semester begins, students must meet with the faculty member initially to confirm goals, review expectations, and establish semester deadlines. Thereafter, students must meet regularly to review work in progress, with a suggested biweekly frequency. Total time spent in direct interaction with the faculty member for the semester must average 45 minutes per week. This may be in the form of face-to-face meetings, blog or e-mail exchanges, or group critiques with other independent study students and their advisors.

Departmental Involvement

Students have opportunities to see and interact with a variety of arts professionals through exhibitions in the Allcott Galleries, installations of sculptural works in the Alumni Sculpture Garden, an artist-in-residence

program, the Visiting Arts Professionals Program, and the Hanes Visiting Artist Lecture Series.

There are several undergraduate student organizations serving the visual arts at Carolina. The Undergraduate Art Association (UAA) is a campuswide social club that supports and develops undergraduate visual artists at Carolina — regardless of their enrollment in art classes — and strengthens the impact of visual art in the University community. The Studio Art Majors Association (SAMA) is aimed at developing community and professional opportunities that augment the experience for studio art majors and minors, especially through programming of the SAMple Gallery in the Hanes Art Center. ArtHeels is a service-based organization that is passionate about bringing arts (visual, performing, and literary) to the healthcare setting. The Art History Liaisons is the undergraduate art history group. Kappa Pi is the department majors' honors society which includes both studio and art history majors. These groups serve as an important link between the majors and the department's administration. The department utilizes these organizations to facilitate communication about matters of interest, including participation in departmental initiatives or other extracurricular opportunities.

Internships

Art and art history majors are encouraged to pursue internships at local, regional, or national arts institutions or businesses. Students have worked in many art career contexts including museums and galleries, arts programming, and local businesses specializing in art-related production (photo studios, printmaking studios, illustration, design firms, and publishing). The departmental majors' Sakai site has useful information about the requirements and how to set up the contracts for ARTH 293 and ARTS 493 as well as a partial listing of organizations that have worked with our students in the past. If you would like to discuss specific ideas about a possible internship, speak to any faculty member or the relevant director of undergraduate studies (art history or studio). All internships taken for UNC credit are subject to governmental guidelines, and students must have internships preapproved and under contract before enrolling for either ARTH 293 or ARTS 493.

Study Abroad

Students are encouraged to pursue study abroad opportunities. While there are many opportunities to study art abroad, the Department of Art and Art History maintains a special affiliation with the Studio Art Centers International (SACI) and the Lorenzo di Medici — both in Florence, Italy — and the Glasgow School of Art in Scotland. Students should discuss their study abroad plans with the undergraduate advisor in studio art to obtain prior approval for courses taken abroad. Basically, courses that have an equivalent in the UNC–Chapel Hill curriculum usually are approved. Courses that fall outside the UNC–Chapel Hill curriculum must be evaluated on a case-by-case basis. No guarantee exists that a course will transfer for credit unless preapproved. Contact the Study Abroad Office to discuss the procedures for approval.

Undergraduate Awards

UNDERGRADUATE AWARDS COMPETITION IN STUDIO ART

The studio program awards more than \$24,000 annually to students, with individual awards ranging from a minimum of \$500 to \$3,000. A competition each November allows studio art majors to submit up to four works to be considered for the following scholarships:

- The Alexander Julian Prize (one award to our best student)
- The Sharpe Scholarships (multiple awards for students receiving financial aid)

- George Kachergis Studio Art Scholarships (multiple awards chosen by a student-designated committee)
- The Anderson Award
- The Penland School of Craft Scholarships (two awards cover expenses for a summer course at the Penland School of Craft)
- A design honorarium to develop proposals for the Alumni Sculpture Garden (see below).

ALUMNI SCULPTURE GARDEN COMPETITION

Every year, the Department of Art and Art History commissions student work for the Alumni Sculpture Garden. Commissions are a minimum of \$5,000, and the department awards up to three commissions. The selection process occurs in three stages: identifying interested students, a design phase, and the production of the work. During the November Awards Competition, interested students compete for one of six \$500 design honorariums that are to be used to develop proposals. Winners of this first phase are required attend a session early in the spring semester to learn about how to develop a proposal and the components that must be included. Proposals are reviewed in March to select winners.

Undergraduate Research

Opportunities for undergraduate research in the Department of Art and Art History exist in several forms. Detailed descriptions and application guidelines are available on the art majors' Sakai site and from the department's student services manager.

Allcott Travel Fellowships support two summer research projects in studio art and/or art history.

The Beatrice Pearman Fund supports special projects in both art history and studio art. Competitions for art history research funds are held in the fall and the spring. Studio art students may request funds for special projects by submitting a proposal to the director of undergraduate studies in studio art. Awards are \$500 or less.

Summer Undergraduate Research Fellowships (SURF) are administered through the UNC Office for Undergraduate Research. These \$3,000 awards support undergraduate research projects over the summer. UNC's broad definition of research includes creative practices, and the James Boyd Gadson SURFs are specifically designated for studio art. SURF applications from studio art majors are automatically considered for these Gadson Fellowships. This fund typically supports at least two awards. Application deadlines (usually in February) are set by the Office for Undergraduate Research. Students interested in pursuing summer research should contact possible faculty sponsors toward the end of the fall semester.

The Jacquelyn Friedman and Marvin Saltzman Fund in Art provides supplemental monies for painting supplies for students who for economic reasons may be hindered from working to their full potential. Any undergraduate student with need, regardless of major, enrolled in a departmental studio art painting class during the fall and/or spring semesters is eligible. Students can contact their course instructor or the student services specialist for further information.

Mario Mazán, Director of Undergraduate Studies (Studio Art)
mmarzan@email.unc.edu

Carol Magee, Chair
cmagee@email.unc.edu

Yulianna Aparicio, Student Services
yulipo@email.unc.edu

The B.A. degree is intended to expose undergraduate students to a range of studio art ideas and practices. Students should choose this degree option if they are seeking a general liberal arts education. It is also the most-often-selected degree option when pursuing a double major. Second majors are frequent with communication studies (media and technology studies and production), journalism (design track), biology, drama (costume and set design), and psychology (art therapy), but any field can be augmented by studying the visual arts. All General Education Foundations, Approaches, Connections, and Supplemental General Education requirements must be satisfied. While the major consists of 36 credit hours, students may earn up to 45 credits in studio art courses (ARTS) that will count toward graduation. Credits taken beyond 45 will not count toward overall graduation requirements.

- Studio Art Major, B.A. (p. 307)
- Studio Art Major, Bachelor of Fine Arts (B.F.A) (p. 311)
- Studio Art Major, Bachelor of Fine Arts (B.F.A)–Art History Emphasis (p. 314)

Minors

- Art History Minor (p. 317)
- Studio Art Minor (p. 317)

Graduate Programs

- Master of Art in Art History, M.A. (<http://catalog.unc.edu/graduate/schools-departments/art/#programtext>)
- Master of Fine Arts in Art, M.F.A. (<http://catalog.unc.edu/graduate/schools-departments/art/#programtext>)
- Doctor of Philosophy in Art History, Ph.D. (<http://catalog.unc.edu/graduate/schools-departments/art/#programtext>)

Learning Outcomes

The overall goal of the studio art program at UNC–Chapel Hill is for students to develop interconnected skills of creative thinking and critical making in order to produce outstanding works of art.

Upon completion of the studio art program (B.A., B.F.A.), students should be able to demonstrate the following competencies:

- Acquire the technical skills (informed control of technique, process, and materials) and an understanding of principles of visual organization sufficient to achieve basic visual communication and expression in one or more media
- Understand fundamentals of studio practice shared across studio disciplines

- Document and present work (portfolio, exhibition, online gallery) that demonstrates a basic understanding of professional practices
- Develop the ability to think and act creatively through experimentation, and analysis of options and parameters — enabling work to progress from idea to physical form
- Develop an understanding of creative research as an iterative process that informs and allows artwork to evolve
- Develop effective vocabulary and skill (both verbal and written) to engage in critical analysis of form and content relationships in their own artwork and the work of others

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Honors in Studio Art

The Senior Honors Thesis Project is designed to provide senior studio art majors an opportunity to pursue serious and substantial work that may qualify them to graduate 'with honors' or 'with highest honors.' Students selected for the program conduct original creative research spanning the two semesters of the senior year.

To be eligible to apply for this opportunity, students must be rising senior studio art majors and meet the minimum GPA threshold of 3.3 established by the Honors Carolina office. The application consists of the following:

- A completed application form
- A proposal for the senior thesis project
- A digital portfolio demonstrating a mature capability to perform visual research

A call for applications is announced via the department student listserv in March. Applications are due in early to mid April and are reviewed by the studio faculty within two weeks of the application deadline. If accepted as a studio art honors candidate, students enroll in the honors courses through the student services manager.

Code	Title	Hours
ARTS 691H	Senior Honors Thesis Project in Studio Art (fall) ¹	3
ARTS 692H	Senior Honors Thesis Project in Studio Art (spring) ¹	3

¹ ARTS 691H and ARTS 692H run concurrently with ARTS 499 and ARTS 500, and replace these course requirements for the B.F.A. major.

In addition to the scheduled coursework, studio honors students work with a thesis committee consisting of a thesis advisor – who must be a studio art faculty member – and two additional faculty members, typically the faculty teaching the ARTS 499 and ARTS 500 classes, but faculty from other disciplines may also serve on the honors thesis committee.

In studio art, the thesis project consists of the creative work produced and accompanying written components. Work is reviewed at the end of the fall semester to determine progress toward completion. In the spring semester, the completed honors project work and written thesis are presented to the honors committee for an oral defense. On the basis of this defense and the work presented, the committee determines whether or not a student graduates with an honors designation (honors or highest honors). Honors students exhibit their work in a formal exhibition either as a solo show at the time of the thesis defense and/or as a participant in the Senior Exhibition required for all graduating studio art majors. Studio art honors students also join their art history peers in a departmental honors symposium in April.

Current deadlines, details of the application process, and requirements for the senior studio art honors project (research, work and written components) are available on the art and art history majors' Sakai site or from the student services manager.

Special Opportunities in Art and Art History

Independent Study

Students may pursue independent study coursework with individual faculty members. Such work may be undertaken *only* with the permission of the sponsoring faculty member. Students should consult individual faculty members prior to registration to secure permission. ARTS 692H	Senior Honors Thesis Project in Studio Art (spring) ¹	3

¹ ARTS 691H and ARTS 692H run concurrently with ARTS 499 and ARTS 500, and replace these course requirements for the B.F.A. major.

In addition to the scheduled coursework, studio honors students work with a thesis committee consisting of a thesis advisor – who must be a studio art faculty member – and two additional faculty members, typically the faculty teaching the ARTS 499 and ARTS 500 classes, but faculty from other disciplines may also serve on the honors thesis committee.

In studio art, the thesis project consists of the creative work produced and accompanying written components. Work is reviewed at the end of the fall semester to determine progress toward completion. In the spring semester, the completed honors project work and written thesis are presented to the honors committee for an oral defense. On the basis of this defense and the work presented, the committee determines whether or not a student graduates with an honors designation (honors or highest honors). Honors students exhibit their work in a formal exhibition either as a solo show at the time of the thesis defense and/or as a participant in the Senior Exhibition required for all graduating studio art majors. Studio art honors students also join their art history peers in a departmental honors symposium in April.

Current deadlines, details of the application process, and requirements for the senior studio art honors project (research, work and written components) are available on the art and art history majors' Sakai site or from the student services manager.

Special Opportunities in Art and Art History

Independent Study

Students may pursue independent study coursework with individual faculty members. Such work may be undertaken *only* with the permission of the sponsoring faculty member. Students should consult individual faculty members prior to registration to secure permission. A proposal and a contract must be approved by the appropriate director of undergraduate studies (studio art or art history) before students may enroll. (See the the departmental majors' Sakai site for instructions.) Since faculty members are limited to supervising only two independent study students each semester, students are strongly advised to contact the faculty member with whom they wish to work early in the registration period for the upcoming semester.

Independent study work requires a minimum of three hours per week per credit hour. For example, a typical three-credit-hour class would require at least nine hours of work per week. Once the semester begins, students must meet with the faculty member initially to confirm goals, review expectations, and establish semester deadlines. Thereafter, students must meet regularly to review work in progress, with a suggested biweekly frequency. Total time spent in direct interaction with the faculty member for the semester must average 45 minutes per week. This may be in the form of face-to-face meetings, blog or e-mail exchanges, or group critiques with other independent study students and their advisors.

Departmental Involvement

Students have opportunities to see and interact with a variety of arts professionals through exhibitions in the Allcott Galleries, installations of sculptural works in the Alumni Sculpture Garden, an artist-in-residence program, the Visiting Arts Professionals Program, and the Hanes Visiting Artist Lecture Series.

There are several undergraduate student organizations serving the visual arts at Carolina. The Undergraduate Art Association (UAA) is a campuswide social club that supports and develops undergraduate visual artists at Carolina – regardless of their enrollment in art classes – and strengthens the impact of visual art in the University community. The Studio Art Majors Association (SAMA) is aimed at developing community and professional opportunities that augment the experience for studio art majors and minors, especially through programming of the SAMple Gallery in the Hanes Art Center. ArtHeels is a service-based organization that is passionate about bringing arts (visual, performing, and literary) to the healthcare setting. The Art History Liaisons is the undergraduate art history group. Kappa Pi is the department majors' honors society which includes both studio and art history majors. These groups serve as an important link between the majors and the department's administration. The department utilizes these organizations to facilitate communication about matters of interest, including participation in departmental initiatives or other extracurricular opportunities.

Internships

Art and art history majors are encouraged to pursue internships at local, regional, or national arts institutions or businesses. Students have worked in many art career contexts including museums and galleries, arts programming, and local businesses specializing in art-related production (photo studios, printmaking studios, illustration, design firms, and publishing). The departmental majors' Sakai site has useful information about the requirements and how to set up the contracts for ARTH 293 and ARTS 493 as well as a partial listing of organizations that have worked with our students in the past. If you would like to discuss specific ideas about a possible internship, speak to any faculty member or the relevant director of undergraduate studies (art history or studio). All internships taken for UNC credit are subject to governmental guidelines, and students must have internships preapproved and under contract before enrolling for either ARTH 293 or ARTS 493.

Study Abroad

Students are encouraged to pursue study abroad opportunities. While there are many opportunities to study art abroad, the Department of Art and Art History maintains a special affiliation with the Studio Art Centers International (SACI) and the Lorenzo di Medici – both in Florence, Italy – and the Glasgow School of Art in Scotland. Students should discuss their study abroad plans with the undergraduate advisor in studio art to obtain prior approval for courses taken abroad. Basically, courses that have an equivalent in the UNC–Chapel Hill curriculum usually are approved. Courses that fall outside the UNC–Chapel Hill curriculum must be evaluated on a case-by-case basis. No guarantee exists that a course will transfer for credit unless preapproved. Contact the Study Abroad Office to discuss the procedures for approval.

Undergraduate Awards

UNDERGRADUATE AWARDS COMPETITION IN STUDIO ART

The studio program awards more than \$24,000 annually to students, with individual awards ranging from a minimum of \$500 to \$3,000. A competition each November allows studio art majors to submit up to four works to be considered for the following scholarships:

- The Alexander Julian Prize (one award to our best student)
- The Sharpe Scholarships (multiple awards for students receiving financial aid)
- George Kachergis Studio Art Scholarships (multiple awards chosen by a student-designated committee)
- The Anderson Award
- The Penland School of Craft Scholarships (two awards cover expenses for a summer course at the Penland School of Craft)
- A design honorarium to develop proposals for the Alumni Sculpture Garden (see below).

ALUMNI SCULPTURE GARDEN COMPETITION

Every year, the Department of Art and Art History commissions student work for the Alumni Sculpture Garden. Commissions are a minimum of \$5,000, and the department awards up to three commissions. The selection process occurs in three stages: identifying interested students, a design phase, and the production of the work. During the November Awards Competition, interested students compete for one of six \$500 design honorariums that are to be used to develop proposals. Winners of this first phase are required attend a session early in the spring semester to learn about how to develop a proposal and the components that must be included. Proposals are reviewed in March to select winners.

Undergraduate Research

Opportunities for undergraduate research in the Department of Art and Art History exist in several forms. Detailed descriptions and application guidelines are available on the art majors' Sakai site and from the department's student services manager.

Allcott Travel Fellowships support two summer research projects in studio art and/or art history.

The Beatrice Pearman Fund supports special projects in both art history and studio art. Competitions for art history research funds are held in the fall and the spring. Studio art students may request funds for special projects by submitting a proposal to the director of undergraduate studies in studio art. Awards are \$500 or less.

Summer Undergraduate Research Fellowships (SURF) are administered through the UNC Office for Undergraduate Research. These \$3,000 awards support undergraduate research projects over the summer. UNC's broad definition of research includes creative practices, and the James Boyd Gadson SURFs are specifically designated for studio art. SURF applications from studio art majors are automatically considered for these Gadson Fellowships. This fund typically supports at least two awards. Application deadlines (usually in February) are set by the Office for Undergraduate Research. Students interested in pursuing summer research should contact possible faculty sponsors toward the end of the fall semester.

The Jacquelyn Friedman and Marvin Saltzman Fund in Art provides supplemental monies for painting supplies for students who for economic reasons may be hindered from working to their full potential. Any undergraduate student with need, regardless of major, enrolled in a departmental studio art painting class during the fall and/or spring semesters is eligible. Students can contact their course instructor or the student services specialist for further information.

Yulianna Aparicio, Student Services

yulipo@email.unc.edu

The bachelor of fine arts with art history emphasis degree is designed for students interested in concentrated study in both studio art and art history. Unique to UNC–Chapel Hill, this degree is best suited for students wishing to pursue further education or employment in fields that demand knowledge in both history and practice such as curatorial studies, museum studies, or education. Students pursuing this degree are advised by the directors of undergraduate studies for both studio art and art history. Students interested in this degree should contact both advisors no later than the sophomore year.

Graduate Programs

- Master of Art in Art History, M.A. (<http://catalog.unc.edu/graduate/schools-departments/art/#programtext>)
- Master of Fine Arts in Art, M.F.A. (<http://catalog.unc.edu/graduate/schools-departments/art/#programtext>)
- Doctor of Philosophy in Art History, Ph.D. (<http://catalog.unc.edu/graduate/schools-departments/art/#programtext>)

Learning Outcomes

The overall goal of the studio art program at UNC–Chapel Hill is for students to develop interconnected skills of creative thinking and critical making in order to produce outstanding works of art.

Upon completion of the studio art program (B.A., B.F.A.), students should be able to demonstrate the following competencies:

- Acquire the technical skills (informed control of technique, process, and materials) and an understanding of principles of visual

organization sufficient to achieve basic visual communication and expression in one or more media

- Understand fundamentals of studio practice shared across studio disciplines
- Document and present work (portfolio, exhibition, online gallery) that demonstrates a basic understanding of professional practices
- Develop the ability to think and act creatively through experimentation, and analysis of options and parameters — enabling work to progress from idea to physical form
- Develop an understanding of creative research as an iterative process that informs and allows artwork to evolve
- Develop effective vocabulary and skill (both verbal and written) to engage in critical analysis of form and content relationships in their own artwork and the work of others

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
Studio Courses		
Three Tier I studio courses		9
Select one 2-D course (see list below)		
Select one 3-D course (see list below)		
Select one 4-D course (see list below)		
Three Tier II studio courses (see list below)		9
Two Tier III studio courses (see list below)		6
Two studio art elective courses ^{1,2}		6
Art History Courses		
Two art history survey courses numbered ARTH 100 to ARTH 200		6
Seven ARTH courses numbered from ARTH 201 to ARTH 699, with at least two numbered 400 and above ¹		21
Professional Development/Capstone		
ARTS 500	Senior Seminar ³	3
Total Hours		60

¹ Students can count senior honors thesis credits (up to six hours) as studio or art history electives or split between the two, depending on the nature of the thesis project.

² Any ARTS classes, including first-year seminars

³ May be substituted with an art history (ARTH) capstone.

B.F.A.–A.H. students should be aware that courses taken in the Department of Art beyond the 60 credits outlined in the major will not count toward graduation.

All General Education Foundations, Approaches, and Connections requirements must be satisfied.

cmagee@email.unc.edu

Yulianna Aparicio, Student Services

yulipo@email.unc.edu

The art history curriculum is designed to help students acquire an individual perspective on their own values and beliefs and on their places in a society increasingly shaped by visual communication. Majors and minors in art history become acquainted with the historical significance, cultural diversity, and intellectual richness of human artistic traditions, enabling students to investigate the complex roles played by the arts in a variety of social contexts.

- Master of Fine Arts in Art, M.F.A. (<http://catalog.unc.edu/graduate/schools-departments/art/#programstext>)
- Doctor of Philosophy in Art History, Ph.D. (<http://catalog.unc.edu/graduate/schools-departments/art/#programstext>)

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor 'core' requirements at UNC—Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 196).

The minor consists of five courses at any level in art history (p. 289).

Students majoring in another department may elect to pursue a minor in art history. Studio art majors may not pursue an art history minor. Students interested in pursuing both programmatic areas of the department may wish to consider the B.F.A.-A.H. degree (p. 314).

See program page here (p. 304) for special opportunities.

Introduction

The department offers students a range of language classes in Arabic, Chinese, Hebrew, Hindi-Urdu, Japanese, Korean, Persian, and Turkish, as well as a selection of courses taught by our core and affiliated faculty in the humanities (art, drama, linguistics, literature, and religious studies) and in the social sciences (anthropology, economics, geography, history, political science, sociology, and urban studies).

Students majoring in the Department of Asian and Middle Eastern Studies also may pursue a minor in the department that is different from their major.

Advising

All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. All majors

are also required to meet each fall with a faculty advisor within the department. Departmental advising is an opportunity to discuss major progress, course selection and planning, study abroad, graduate school, career opportunities, and other matters pertinent to the major field. Advisors are assigned by concentration; advisor listings and contact information may be found on the department's Web site and are also disseminated via the majors' listserv.

Graduate School and Career Opportunities

As a liberal arts major, the Asian studies major trains undergraduates to read and think analytically and to present their ideas effectively orally and in writing, essential preparation for a variety of careers and for the responsibilities of living in an interdependent world. Graduates of the program have continued their academic preparation in top-ranked graduate programs across the country while others have built distinguished careers in fields including arts, banking, government, international education, journalism, law, medicine, and public health.

Majors

- Asian Studies Major, B.A.—Interdisciplinary Concentration (p. 339)
- Asian Studies Major, B.A.—Arab Cultures Concentration (p. 345)
- Asian Studies Major, B.A.—Chinese Concentration (p. 347)
- Asian Studies Major, B.A.—Japanese Concentration (p. 350)
- Asian Studies Major, B.A.—Korean Studies Concentration (p. 352)
- Asian Studies Major, B.A.—South Asian Studies Concentration (p. 354)

Minors

- Arabic Minor (p. 357)
- Asian Studies Minor (p. 356)
- Chinese Minor (p. 358)
- Modern Hebrew Minor (p. 359)
- Hindi-Urdu Minor (p. 360)
- Japanese Minor (p. 362)
- Korean Minor (p. 362)
- Middle Eastern Languages Minor (p. 363)
- Persian Minor (p. 364)

Professors

Wendan Li, Morgan Pitelka, Nadia Yaqub.

Associate Professors

Uffe Bergeton, Mark Driscoll, Li-ling Hsiao, Ji-Yeon Jo, Pamela Lothspeich, Yaron Shemer, Afroz Taj, Robin Visser, Gang Yue.

Assistant Professors

I Jonathan Kief, Ana Vineá, Claudia Yaghoobi.

Teaching Professors

Yuki Aratake, Yi Zhou.

Teaching Associate Professors

Shahla Adel, John Caldwell, Doria El Kerdany, Yuko Kato, Hanna Sprintzik.

Teaching Assistant Professors

Dongsoo Bang, Luoyi Cai, Lini Ge, Didem Havlioglu, Fumi Iwashita, Bud Kauffman, Eunji Lee, Jia Lin, Katsu Sawamura, Khalid Shahu.

Affiliated Faculty

Barbara Ambros (Religious Studies), Lorraine Aragon (Anthropology), Benjamin Arbuckle (Anthropology), Cemil Aydin (History), Inger Brodey (English and Comparative Literature), Yong Cai (Sociology), Jocelyn Chua (Anthropology), Peter A. Coclanis (History), Barbara Entwisle (Sociology), Carl Ernst (Religious Studies), Emma Flatt (History), Banu Gökarişel (Geography), Guang Guo (Sociology), Juliane Hammer (Religious Studies), Gail Henderson (Social Medicine), Carmen Hsu (Romance Studies), Heidi Kim (English and Comparative Literature), Michelle King (History), Charles Kurzman (Sociology), David Lambert (Religious Studies), Christian Lentz (Geography), Lauren Leve (Religious Studies), Townsend Middleton (Anthropology), Christopher Nelson (Anthropology), Donald M. Nonini (Anthropology), Lisa Pearce (Sociology), Steven Rosefielde (Economics), Iqbal Sevea (History), Sarah Shields (History), Kumi Silva (Communication), Jennifer Smith (Linguistics), Sara Smith (Geography), Yan Song (City and Regional Planning), Eren Tasar (History), Meenu Tewari (City and Regional Planning), Michael Tsin (History), Margaret Wiener (Anthropology).

Professors Emeriti

Jan Bardsley, Jerome P. Seaton.

Senior Lecturer Emeritus

Eric Henry.

ASIA–Asian Studies (in English)

Undergraduate-level Courses

ASIA 52. First-Year Seminar: Food in Chinese Culture. 3 Credits.

Examines the cultural practice and meanings of food, cooking, eating, and drinking through Chinese literature and cinema. Main themes include food and rituals, gourmandism and poetic taste, cannibalism and the grotesque, and hunger and revolution.

Gen Ed: LA, BN.

Grading status: Letter grade.

ASIA 55. First-Year Seminar: Kung-Fu: The Concept of Heroism in Chinese Culture. 3 Credits.

Film, history, novels, and theater are used to explore the rich, complex kung-fu tradition in Chinese culture from ancient to modern times, as well as its appropriation in foreign films.

Gen Ed: PH, BN.

Grading status: Letter grade.

ASIA 56. First-Year Seminar: Writing Women in Modern China. 3 Credits.

Compares the rhetoric of equality between the sexes presented by late Qing, May Fourth, and communist thinkers to perspectives on gender and society by 20th-century Chinese women writers. Honors version available

Gen Ed: LA, BN.

Grading status: Letter grade

Same as: WGST 56.

ASIA 56H. First-Year Seminar: Writing Women in Modern China. 3 Credits.

Compares the rhetoric of equality between the sexes presented by late Qing, May Fourth, and communist thinkers to perspectives on gender and society by 20th-century Chinese women writers.

Gen Ed: LA, BN.

Grading status: Letter grade

Same as: WGST 56H.

ASIA 57. First-Year Seminar: Dis-Orienting the Orient. 3 Credits.

Examines how the East is constructed as the Orient in different historical periods: 19th-century European colonialism, 1950s to 1960s Hollywood films, contemporary Japanese animation, and the current global war on terrorism.

Gen Ed: VP, BN.

Grading status: Letter grade.

ASIA 59. First-Year Seminar: Media Masala: Popular Music, TV, and the Internet in Modern India and Pakistan. 3 Credits.

Explores different examples of broadcast and digital media (music videos, soap operas and reality shows, radio, and the Internet) with respect to history, gender, sexuality, globalization, religion, regionalism, and activism.

Gen Ed: VP, BN.

Grading status: Letter grade.

ASIA 60. First-Year Seminar: Israeli Culture and Society: Collective Memories and Fragmented Identities. 3 Credits.

The course explores selected themes and case studies pertinent to culture and society in modern Israel, with emphasis on debates about 'Israeliness' in various cultural and social arenas.

Gen Ed: BN.

Grading status: Letter grade

Same as: JWST 60.

ASIA 61. First-Year Seminar: India through the Lens of Master Filmmakers. 3 Credits.

Elements of Indian culture and history are illuminated through works chiefly in the art film genre. Basic film theory is also introduced to help students read the text of film.

Gen Ed: VP, BN, CI.

Grading status: Letter grade.

ASIA 63. First-Year Seminar: Japanese Tea Culture. 3 Credits.

This seminar explores the history of tea culture in Japan, particularly the emergence in the 16th and 17th centuries of the ritualized practice often referred to in English as the 'tea ceremony' (chanoyu). Practitioners included merchants, Buddhist monks, warlords, European Jesuits, and professional tea masters.

Gen Ed: HS, BN.

Grading status: Letter grade.

ASIA 65. First-Year Seminar: Philosophy on Bamboo: Rethinking Early Chinese Thought. 3 Credits.

This course will introduce students to the main works and themes in early Chinese thought from the earliest recorded writings down to the Qin unification in 221 BCE.

Gen Ed: PH, WB.

Grading status: Letter grade.

ASIA 69. First-Year Seminar: Wars and Veterans: Iran, Iraq, and Afghanistan. 3 Credits.

In this seminar, we will explore the various ways that Iran-Iraq, United States-Iraq, and United States-Afghanistan wars have been portrayed in literature, film, and photography. We will deepen and enrich our understanding of war experienced by both veterans and civilians. We will also read articles on war criticism and psychology.

Gen Ed: LA, CI, GL.

Grading status: Letter grade

Same as: PWAD 69.

ASIA 71. First-Year Seminar: Asia in Iberian Converso Literature, 1500s-1650s. 3 Credits.

This course examines how 16th- and 17th-century Iberian authors of Jewish heritage imagined and represented Chinese, Filipinos, Japanese, and Indonesians in their writings (e.g. plays, historical narratives, economic treatises, travel accounts, maps, etc.). We explore how these authors' representations of Asians not only dialogued with various interwoven variables (political, economic, and religious factors), but also revealed the historically complex issue regarding notions of personal identities and nationhood.

Gen Ed: LA, WB.

Grading status: Letter grade

Same as: ROML 71.

ASIA 72. First-Year Seminar: Transnational Korea: Literature, Film, and Popular Culture. 3 Credits.

This first-year seminar introduces students to the history of transnational imaginations in modern Korea. Using literature, film, and television, it explores the ways in which Korean cultural producers have used narratives of transnational travel and exchange to rethink Korea's place in the world and refashion the bounds of Korean identity.

Gen Ed: LA, BN, CI.

Grading status: Letter grade.

ASIA 73. First-Year Seminar: Popular Culture in the Arab World. 3 Credits.

This first-year seminar introduces students to aspects of popular culture in the Arab world, taking it as an entry point for understanding the histories, cultures, and societies of the region. The course relies on anthropological readings alongside direct engagements with examples of popular culture from the Arab world.

Gen Ed: SS, BN.

Grading status: Letter grade.

ASIA 89. First Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester. Honors version available

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

ASIA 89H. First Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

ASIA 106. Israeli Popular Culture: The Case of Music. 3 Credits.

An introduction to Israeli popular culture, with a transnational and interdisciplinary frame. Focusing on Israeli music, exploring its different genres and the cultural richness developed since Zionism, reaching along the way a broad understanding of Israeli society. Students may not receive credit for both ASIA 53 and ASIA 106.

Gen Ed: BN, CI.

Grading status: Letter grade.

ASIA 124. Iranian Post-1979 Cinema. 3 Credits.

We examine the ways the medium has been used to incorporate political and social perspectives, challenge the government, and document the lives and struggles of Iranian people. Among the topics explored are Iranian culture and society, gender politics, ethnicity, attitudes about religion, role of children, and various schools of realism. Previously offered as ASIA 224.

Gen Ed: LA, BN, EE- Performing Arts.

Grading status: Letter grade.

ASIA 126. Introduction to Persian Literature. 3 Credits.

This course introduces students to Persian literature from classical to contemporary writers in translation to help them understand the efforts of the Iranian literati in addressing issues surrounding love, the sacred, human diversity, inclusiveness, and the rise of the modern nation-state in Iran through the use of literature.

Gen Ed: LA, BN, CI.

Grading status: Letter grade.

ASIA 127. Iranian Women Writers. 3 Credits.

This course introduces students to Iranian women's issues through their literary works. To contextualize, we will read articles and essays on the historical, cultural, social, political, and economic backgrounds. In order to approach these literary works in a more effective manner, we will also be reading various secondary materials.

Gen Ed: LA, BN, CI.

Grading status: Letter grade

Same as: WGST 127.

ASIA 131. Southeast Asia to the Early 19th Century. 3 Credits.

The history of Southeast Asia from prehistory to 'high imperialism.' Long-term political, economic, social, and religious developments, including Indianization, the impact of China, and the first contacts with Europeans.

Gen Ed: HS, BN, WB.

Grading status: Letter grade

Same as: HIST 131.

ASIA 133. Introduction to Chinese History. 3 Credits.

Chinese history from its beginnings to the present, organized around the central theme of how the identity of China and 'Chineseness' was created.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 133.

ASIA 134. Modern East Asia. 3 Credits.

Comparative and interdisciplinary introduction to China and Japan in the 19th and 20th centuries, focusing on impact of the West, nation building, industrialization, and evolution of mass society.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 134, PWAD 134.

ASIA 135. History of the Indian Subcontinent to 1750. 3 Credits.

An introduction to major political, religious, social, and cultural events from 3500 BCE to 1750 CE with a focus on Hindu, Muslim, and Buddhist groups before British colonial rule.

Gen Ed: HS, BN, WB.

Grading status: Letter grade

Same as: HIST 135.

ASIA 136. History of India, Pakistan, and Bangladesh: South Asia since 1750. 3 Credits.

This course is an introduction to modern India, Pakistan, and Bangladesh. We will investigate major political, social, economic, and cultural issues from 1750 to the present.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 136.

ASIA 138. History of Muslim Societies to 1500. 3 Credits.

A broad, comprehensive, and interdisciplinary introduction to the traditional civilization of the Muslim world. Students may not receive credit for both HIST 138/ASIA 138 and ASIA 180/RELI 180.

Gen Ed: HS, BN, WB.

Grading status: Letter grade

Same as: HIST 138.

ASIA 139. History of Muslim Societies since 1500. 3 Credits.

A broad interdisciplinary survey of the later Islamic empires since the 15th century and their successor societies in the modern Muslim world. Students may not receive credit for both ASIA 139/HIST 139 and ASIA 181/RELI 181

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 139.

ASIA 150. Asia: An Introduction. 3 Credits.

The course introduces Asia's historical, cultural, and political diversity by examining some of the global forces that have shaped Asian societies (e.g., colonialism, orientalism, and neoliberalism).

Gen Ed: SS, BN, GL.

Grading status: Letter grade.

ASIA 151. Literature and Society in Southeast Asia. 3 Credits.

This course is an introduction to the societies of Southeast Asia through literature. Background materials and films will supplement the comparative study of traditional works, novels, short stories, and poems.

Gen Ed: LA, BN.

Grading status: Letter grade.

ASIA 152. Survey of South Asian Cultural History. 3 Credits.

Readings from diverse disciplines illuminate the broad features of South Asia throughout history. Topics include political history and social thought, including gender and caste, and religious and imaginative literature.

Gen Ed: LA, BN, WB.

Grading status: Letter grade.

ASIA 153. Introduction to South Asian Art. 3 Credits.

An introductory survey of the visual arts of South Asia.

Gen Ed: VP, BN, WB.

Grading status: Letter grade

Same as: ARTH 153.

ASIA 163. Hindi-Urdu Poetry in Performance. 3 Credits.

This course examines the connection between poetry and performance in the context of Hindi-Urdu literature, particularly the genres of Sufi poetry (qawwali), Bhakti poetry, and the Ghazal.

Gen Ed: LA, BN.

Grading status: Letter grade.

ASIA 164. Music of South Asia. 3 Credits.

This course provides a comprehensive overview of the music of South Asia, focusing on India, Pakistan, and Bangladesh. The entire spectrum of musical genres will be covered.

Gen Ed: VP, BN.

Grading status: Letter grade

Same as: MUSC 164.

ASIA 180. Introduction to Islamic Civilization. 3 Credits.

A broad, comprehensive, and interdisciplinary introduction to the traditional civilization of the Muslim world. Students may not receive credit for both RELI 180/ASIA 180 and ASIA 138/HIST 138.

Gen Ed: HS, BN, WB.

Grading status: Letter grade

Same as: RELI 180.

ASIA 181. Modern Muslim Societies. 3 Credits.

This course surveys important developments in modern Muslim societies since the 16th century and up to the present. Topics covered include Muslim experiences with colonialism and nationalism, modernist reform movements, fundamentalism, women's activism and changes in Qur'an interpretation, Islamic law, and religious practice. Students may not receive credit for both RELI 181/ASIA 181 and ASIA 139/HIST 139.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: RELI 181.

ASIA 183. Asian Religions. 3 Credits.

An introduction to major religions of South Asia and East Asia, such as Hinduism, Sikhism, Buddhism, Confucianism, Daoism, and Shinto.

Gen Ed: BN, WB.

Grading status: Letter grade

Same as: RELI 183.

ASIA 211. The Silk Road: Markets, Metaphysics, and Music. 3 Credits.

This course examines interactions across the Eurasian continent between Russians, Chinese, Mongolian nomads, Arabs, and Europeans during the last millennium and a half as empires rose and religions, trade, and cultures flowed across this vast space. While we will treat the Silk Road as one entity, there were actually three distinct Silk Roads.

Gen Ed: BN, GL.

Grading status: Letter grade.

ASIA 228. Contested Souls: Literature, the Arts, and Religious Identity in Modern India. 3 Credits.

An analysis of how historical interactions between Hinduism and Islam have inspired the creation of philosophies and great works of literature and art that continue to inform Indian society today.

Gen Ed: LA, BN.

Grading status: Letter grade.

ASIA 229. Breakdancers, Vocaloids, and Gamers: East Asian Youth Cultures. 3 Credits.

Youth subcultural practices studied across East Asia. Course examines how young people create meaningful social worlds, from cosplay to skateboarding to video gaming communities. Considers how changes in consumerism, body image, education, and family produce a volatile landscape for youth along the Pacific Rim.

Gen Ed: SS, BN.

Grading status: Letter grade.

ASIA 231. Bollywood Cinema. 3 Credits.

This course explores the development of the Indian cinema, with particular emphasis on the Hindi-Urdu films produced in Mumbai (Bollywood).

Gen Ed: VP, BN.

Grading status: Letter grade.

ASIA 233. Drugs, Sex, and Sovereignty in East Asia, 1800-1945. 3 Credits.

East Asia's thousand-year superiority in global trade was lost when Britain began illegally selling massive amounts of opium in the 18th century, causing cultural and political changes in Japan and China. This course will analyze these changes in terms of sexuality and political sovereignty from 1800 until World War II.

Gen Ed: BN, GL.

Grading status: Letter grade.

ASIA 235. Israeli Cinema: Gender, Nation, and Ethnicity. 3 Credits.

The course explores major periods and trends in Israeli cinema. Focus is given to issues pertaining to gender, ethnicity, and the construction of national identity. Honors version available

Gen Ed: VP, BN, GL.

Grading status: Letter grade

Same as: JWST 235, PWAD 235.

ASIA 235H. Israeli Cinema: Gender, Nation, and Ethnicity. 3 Credits.

The course explores major periods and trends in Israeli cinema. Focus is given to issues pertaining to gender, ethnicity, and the construction of national identity.

Gen Ed: VP, BN, GL.

Grading status: Letter grade

Same as: JWST 235H, PWAD 235H.

ASIA 240. Performance in Southeast Asia: Gongs, Punks, and Shadow Plays. 3 Credits.

The study and comparison of contemporary Southeast Asian performance genres (music, theatre, dance, ritual) in historical and cultural contexts.

Gen Ed: BN, GL.

Grading status: Letter grade

Same as: MUSC 240.

ASIA 241. Asian Literature/Study Abroad Program. 3-6 Credits.

This course, taught in a study abroad program in Asia, will focus on topics related to Asian literature.

Gen Ed: LA, BN.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

ASIA 242. Asian Fine Arts/Study Abroad Program. 3-6 Credits.

This course, taught in a study abroad program in Asia, will focus on topics related to Asian fine arts.

Gen Ed: VP, BN.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

ASIA 243. Asian Societies/Study Abroad Program. 3 Credits.

This course, taught in a study abroad program in Asia, will examine Asian society from a social science perspective.

Gen Ed: SS, BN.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

ASIA 244. Asian History/Study Abroad Program. 3-6 Credits.

This course, taught in a study abroad program in Asia, will focus on topics related to Asian history.

Gen Ed: HS, BN.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

ASIA 252. Popular Culture in Modern Southeast Asia. 3 Credits.

This course examines popular culture in Southeast Asia as a response to colonialism, nationalism, modernization, the state, and globalization. Topics include theater, film, pop songs, television, rituals, and the Internet.

Gen Ed: VP, BN.

Grading status: Letter grade

Same as: CMPL 252.

ASIA 255. The Feast in Film, Fiction, and Philosophy. 3 Credits.

Comparative and interdisciplinary study of feasting and its philosophical underpinnings, with special attention to the multiple purposes and nuances of food and feasting in literature, film, and the visual arts.

Honors version available

Gen Ed: VP.

Grading status: Letter grade

Same as: CMPL 255.

ASIA 255H. The Feast in Film, Fiction, and Philosophy. 3 Credits.

Comparative and interdisciplinary study of feasting and its philosophical underpinnings, with special attention to the multiple purposes and nuances of food and feasting in literature, film, and the visual arts.

Gen Ed: VP.

Grading status: Letter grade

Same as: CMPL 255H.

ASIA 256. Love in Classical Persian Poetry. 3 Credits.

We will examine the binaries of sacred and profane love, transgression and the law, self and the other, human diversity and inclusiveness in classical Persian poetry. We will explore the intersections of class, gender, sexuality, religion, etc. We will explore the poems inside their historical, cultural, and social contexts.

Gen Ed: LA, CI, WB.

Grading status: Letter grade

Same as: CMPL 256.

ASIA 258. Iranian Prison Literature. 3 Credits.

This course explores literature written in prisons, particularly under the Islamic Republic. Students will read documents to understand human rights (and violations thereof) from a historical perspective. Since literature, film, philosophy, and theory offer invaluable perspectives, we will examine their contributions in the reflection on human rights in Iran's prisons.

Gen Ed: LA, BN, CI.

Grading status: Letter grade

Same as: CMPL 258.

ASIA 260. Languages of Southeast Asia. 3 Credits.

This course surveys languages spoken in Southeast Asia, an area rich in linguistic diversity, which is home to five distinct language families and well over 1,000 individual languages. Students will investigate the languages—in situ and in the diaspora—through the lens of descriptive linguistics, and will explore the social, cultural, and political aspects of languages in the region. This course is appropriate for students with an interest in linguistics or in Southeast Asia.

Gen Ed: BN.

Grading status: Letter grade

Same as: LING 260.

ASIA 261. India through Western Eyes. 3 Credits.

Examines Western views of India and Indian culture and how these views differ from the way Indians in India and Indian immigrants in the West understand themselves and express their relationship to India through novels and travelogues.

Gen Ed: LA, GL.

Grading status: Letter grade

Same as: CMPL 261.

ASIA 262. Nation, Film, and Novel in Modern India. 3 Credits.

Focus on how modern Indian writers and filmmakers have represented the creation of an Indian national identity through such historical periods as British colonialism, the Rebellion of 1857, the Indian Independence Movement, the Partition, and the eras of national integration and globalization.

Gen Ed: LA, GL.

Grading status: Letter grade.

ASIA 265. Eastern Asia. 3 Credits.

Spatial structure of population, urbanization, agriculture, industrialization, and regional links in China, Japan, and Korea. (Regional)

Grading status: Letter grade

Same as: GEOG 265.

ASIA 267. South Asia. 3 Credits.

Introduces students to the geography of South Asia, including an overview of the physical environment, cultural practices, and economic development. Emphasizes the political geography of South Asia and political and social processes such as nationalism and colonialism that have played a formative role in the region.

Gen Ed: BN.

Grading status: Letter grade

Same as: GEOG 267.

ASIA 272. Contemporary India, Pakistan, and Bangladesh. 3 Credits.

Provides students with a critical understanding of the political, economic, and social dynamics of contemporary South Asia. Themes explored include the development (or lack of) democratic structures, continuing relevance of caste and religion, emergence of right wing movements, contesting representations of the past, and the prospects and challenges confronting the region.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 272.

ASIA 276. The Modern Middle East. 3 Credits.

This course introduces students to the recent history of the Middle East, including a comparison of the Middle East to the United States.

Gen Ed: HS, BN, GL.

Grading status: Letter grade

Same as: HIST 276.

ASIA 277. The Conflict over Israel/Palestine. 3 Credits.

Explores the conflict over Palestine during the last 100 years. Surveys the development of competing nationalisms, the contest for resources and political control that led to the partition of the region, the war that established a Jewish state, and the subsequent struggles between conflicting groups for land and independence.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 277, PWAD 277.

ASIA 280. Hindu Gods and Goddesses. 3 Credits.

This course focuses on the ways Hindu gods and goddesses are experienced in South Asia through analysis of literary works, including texts, film, comic books, performance, and ethnography. We will also examine key Hindu concepts (dharma, karma, and caste) in Hindu religious narratives. Honors version available

Gen Ed: LA, BN.

Grading status: Letter grade

Same as: RELI 280.

ASIA 280H. Hindu Gods and Goddesses. 3 Credits.

This course focuses on the ways Hindu gods and goddesses are experienced in South Asia through analysis of literary works, including texts, film, comic books, performance, and ethnography. We will also examine key Hindu concepts (dharma, karma, and caste) in Hindu religious narratives.

Gen Ed: LA, BN.

Grading status: Letter grade

Same as: RELI 280H.

ASIA 281. The Pacific War, 1937-1945: Its Causes and Legacy. 3 Credits.

An examination of the origins of the Pacific War, the course of this bitter and momentous conflict, and its complex legacy for both Asia and the United States.

Gen Ed: HS, BN, GL.

Grading status: Letter grade

Same as: HIST 281, PWAD 281.

ASIA 282. China in the World. 3 Credits.

This course explores the evolution of China as a geopolitical entity from global perspectives, 1350 to the present.

Gen Ed: HS, BN, HS, BN.

Grading status: Letter grade

Same as: HIST 282, HIST 282.

ASIA 284. The Buddhist Tradition: East Asia. 3 Credits.

An examination of the development of Buddhism after its importation to East Asia.

Gen Ed: BN, WB.

Grading status: Letter grade

Same as: RELI 284.

ASIA 285. The Buddhist Tradition: Southeast Asia and Sri Lanka. 3 Credits.

This course explores the Theravada school of Buddhism and themes in the social, cultural, and political lives of the Theravada Buddhist countries of Southeast Asia and Sri Lanka.

Gen Ed: BN, CI.

Grading status: Letter grade

Same as: RELI 285.

ASIA 287. Japan's Modern Revolution. 3 Credits.

Covering the period from 1600 to 1900, this course examines the causes and impact of the Meiji Restoration of 1868, which marked the start of modern Japan.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 287.

ASIA 288. Japan in the 20th Century. 3 Credits.

Topics include the Japanese Empire, the road to the Pacific War, defeat, the Allied occupation, Japan's recovery from war, and development into a democracy and the world's second largest economy.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 288.

ASIA 300. The Buddhist Tradition: India, Nepal, and Tibet. 3 Credits.

Examines the diverse beliefs, practices, and cultures associated with Buddhism in the Himalayan regions of India, Nepal, and Tibet. Topics include Buddhism's development and spread, the cultural dynamics of Himalayan societies, monasticism, folk religion, revivalism, tourism, gender, globalization, and the role of the state in shaping Buddhist life and culture.

Gen Ed: PH, BN.

Grading status: Letter grade

Same as: RELI 283.

ASIA 301. Premodern Japanese Religions. 3 Credits.

Historical survey of the major premodern religious traditions in Japan: Shinto, Buddhism, Shugendo, and Christianity.

Gen Ed: BN, WB.

Grading status: Letter grade

Same as: RELI 286.

ASIA 302. Modern Japanese Religions. 3 Credits.

Survey of the major religious traditions in modern and contemporary Japan: Shinto, Buddhism, and the New Religions.

Gen Ed: SS, BN.

Grading status: Letter grade

Same as: RELI 287.

ASIA 303. Chinese Religions. 3 Credits.

Historical introduction to Chinese religions: Confucianism, Daoism, Buddhism, and folk religion.

Gen Ed: BN, WB.

Grading status: Letter grade

Same as: RELI 288.

ASIA 304. Sex, Religion, and Violence: Revolutionary Thought in Modern South Asia. 3 Credits.

Which of the following would you consider potentially political issues: celibacy; semen retention; body-building; depiction of gods/goddesses; or bomb making? Well, they all are. This course examines debates over sex, religion, and violence that constituted a key part of revolutionary thought and anti-colonial struggles in modern South Asia.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 331.

ASIA 329. Middle East Women Writers. 3 Credits.

We examine works written by Middle Eastern women. We will begin with reading speeches and short stories in the 1860s. We will focus on topics such as Middle Eastern women and feminism and the West; women and nationalism; women and colonialism; women and patriarchy; women, sexuality, and religion.

Gen Ed: LA, CI, GL.

Grading status: Letter grade

Same as: WGST 329.

ASIA 330. Melancholy Japan: Myth, Memory, and Everyday Life. 3 Credits.

Ethnographic study of the profound social and cultural transformations that accompanied the capitalist modernization of Japan. Considers the emergence of native ethnology and state interventions into everyday life.

Gen Ed: SS, BN, CI.

Grading status: Letter grade

Same as: ANTH 330.

ASIA 331. Cracking India: Partition and Its Legacy in South Asia. 3 Credits.

What happened when the British carved Pakistan out of the predominately Muslim corners of India? Readings and films focus on the causes and consequences of this event, the Partition of India.

Gen Ed: HS, BN, GL.

Grading status: Letter grade

Same as: PWAD 331, HIST 335.

ASIA 332. The Story of Rama in India. 3 Credits.

Centered on the story of the Hindu god Rama, this course explores Valmiki's Ramayana, alternate versions of the story, its performance in theatre, and its role in politics. Students may not receive credit for both ASIA 332 and ASIA 382.

Gen Ed: LA, BN.

Grading status: Letter grade.

ASIA 333. The Mahabharata: Remembered and Reimagined. 3 Credits.

This course offers an introduction to the Sanskrit Mahabharata as well as modern retellings of the epic in contemporary literature, film, and theatre of India. Students may not receive credit for both ASIA 333 and ASIA 383.

Gen Ed: LA, WB.

Grading status: Letter grade.

ASIA 350. The Asian American Experience. 3 Credits.

The course addresses the history and sociology of Asian immigration and experience in the United States, as well as the formation of diasporic identities among Asian Americans.

Gen Ed: HS, NA, US.

Grading status: Letter grade

Same as: AMST 352.

ASIA 357. The Arab-Jews: Culture, Community, and Coexistence. 3 Credits.

This course is designed to examine Jewish life in Arab lands in the last century by examining culture, language, and the communal life that the Arab-Jews shared with their neighbors.

Gen Ed: BN, GL.

Grading status: Letter grade

Same as: JWST 357, PWAD 362.

ASIA 358. Religion and Tradition in Israeli Cinema, TV, and Literature. 3 Credits.

This research-intensive course focuses on the ways religion and religious practices are represented in Israeli literature and media. The greater part of the semester will explore the variety of religious traditions in Israel within the framework of Zionist thought, gender and sexuality issues, and ethnic differences.

Gen Ed: LA, BN, CI.

Grading status: Letter grade.

ASIA 359. Literary Diasporas of the Middle East. 3 Credits.

Analyzing the relationship between the diaspora communities and their new surroundings by drawing on theories of migration, narration, and identity, we will examine the literature born out of this discourse. We will shed light on the historical, cultural, and aesthetic value of this literary production in the Middle East.

Gen Ed: LA, BN, CI.

Grading status: Letter grade

Same as: CMPL 359.

ASIA 360. Contemporary Asian American Literature and Theory. 3 Credits.

This course will explore contemporary Asian American literature and theory and will examine how Asian American literature fits into, yet extends beyond, the canon of American literature.

Gen Ed: LA, US.

Grading status: Letter grade

Same as: ENGL 360.

ASIA 365. Chinese Diaspora in the Asia Pacific. 3 Credits.

This course is an examination of the histories, social organization, and cultures of the Chinese diaspora in the Asia-Pacific region, focusing on contemporary issues in the cultural politics and identities of 'overseas Chinese.' Previously offered as ANTH/ASIA 578.

Gen Ed: BN, CI, GL.

Grading status: Letter grade

Same as: ANTH 365.

ASIA 375. Memory, Massacres, and Monuments in Southeast Asia. 3 Credits.

The past in Southeast Asia's present, focusing on global, national, and local processes; individual and collective memory; and the legacies of violent death.

Gen Ed: BN, GL.

Grading status: Letter grade

Same as: ANTH 375.

ASIA 379. Cowboys, Samurai, and Rebels in Film and Fiction. 3 Credits.

Cross-cultural definitions of heroism, individualism, and authority in film and fiction, with emphasis on tales or images that have been translated across cultures. Includes films of Ford, Kurosawa, and Visconti. Honors version available

Gen Ed: VP.

Grading status: Letter grade

Same as: CMPL 379.

ASIA 379H. Cowboys, Samurai, and Rebels in Film and Fiction. 3 Credits.

Cross-cultural definitions of heroism, individualism, and authority in film and fiction, with emphasis on tales or images that have been translated across cultures. Includes films of Ford, Kurosawa, and Visconti.

Gen Ed: VP.

Grading status: Letter grade

Same as: CMPL 379H.

ASIA 380. Almost Despicable Heroines in Japanese and Western Literature. 3 Credits.

Authors' use of narrative techniques to create the separation between heroines and their fictional societies and sometimes also to alienate readers from the heroines. Austen, Flaubert, Ibsen, Arishima, Tanizaki, Abe.

Gen Ed: LA.

Grading status: Letter grade

Same as: CMPL 380, WGST 380.

ASIA 381. Religions of South Asia. 3 Credits.

Exploration of the major religious traditions of South Asia. Focuses on the beliefs and practices associated with different traditions, and the ways that these relate to one another and to broader political, historical, and cultural formations. Also addresses questions of modernization, reform, communal violence, and other transformations of religious life.

Gen Ed: SS, BN.

Grading status: Letter grade

Same as: RELI 381.

ASIA 382. The Story of Rama in Indian Culture--Experiential. 3 Credits.

Explores Valmiki's Ramayana (story of the Hindu god Rama), alternate versions of the story, its performance in theater, and its role in politics. Students work outside of class to stage scenes from the Ramayana, open to the public. Students may not receive credit for both ASIA 332 and ASIA 382.

Gen Ed: LA, BN, EE- Performing Arts.

Grading status: Letter grade

Same as: RELI 382.

ASIA 383. The Mahabharata: Remembered and Reimagined--Experiential. 3 Credits.

Introduction to the classical Mahabharata as well as modern retellings of the epic in contemporary literature, film, and theater of India. Students work outside class to stage one or more scenes from the Mahabharata, open to the public. Students may not receive credit for both ASIA 333 and ASIA 383.

Gen Ed: LA, BN, EE- Performing Arts.

Grading status: Letter grade

Same as: RELI 383.

ASIA 384. Religion and Globalization in Southeast Asia. 3 Credits.

How does globalization affect religious life? How do historical, cultural, and religious traditions mediate the experience of globalization in particular locales? This course analyzes the forces and practices associated with political-economic and cultural globalization in Southeast Asia and explores the religious transformations and innovations that these processes have inspired.

Gen Ed: SS, BN.

Grading status: Letter grade

Same as: RELI 384.

ASIA 386. Dance and Embodied Knowledge in the Indian Context. 3 Credits.

In this theory-practice course focusing on religion, performance, and South Asian studies we will analyze the nature of embodied knowledge, aesthetic theory, and the creative power of dance performance in the Indian context. The course also includes a practical component involving embodied experience with Indian classical dance forms.

Gen Ed: VP, BN.

Grading status: Letter grade

Same as: RELI 386, COMM 386.

ASIA 387. Disciplining the Body and Mind: The Martial Arts of East Asia in Religion, History, and Culture. 3 Credits.

This course offers an introduction to the history and practice of East Asian martial arts. We will explore the social, political, and cultural contexts of the martial arts, from the classical period to the present. Integral to this course is a practical component involving embodied experience with martial arts training.

Gen Ed: BN, EE- Performing Arts.

Grading status: Letter grade

Same as: RELI 387, COMM 387.

ASIA 390. Seminar in Asian Studies. 3 Credits.

When offered, the topic will vary with the instructor. The class will be limited to a seminar size.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

ASIA 425. Beyond Hostilities: Israeli-Palestinian Exchanges and Partnerships in Film, Literature, and Music. 3 Credits.

Focuses on the various collaborations, exchanges, and mutual enrichment between Israelis and Palestinians in the realm of culture, particularly literature and cinema. These connections include language (Israeli Jewish authors writing in Arabic and Palestinian writers who choose Hebrew as their language of expression), collaborating in filmmaking, and joint educational initiatives.

Gen Ed: BN, GL.

Grading status: Letter grade

Same as: PWAD 425, JWST 425.

ASIA 427. Cold War Culture in East Asia: Transnational and Intermedial Connections. 3 Credits.

This course introduces students to the specific contours that the Cold War accrued in East Asia. Focusing on literature and film, it explores what the fall of the Japanese Empire and the emergence of the post-1945 world meant across the region.

Gen Ed: LA, BN, CI.

Grading status: Letter grade

Same as: CMPL 527, PWAD 427.

ASIA 429. Culture and Power in Southeast Asia. 3 Credits.

The formation and transformation of values, identities, and expressive forms in Southeast Asia in response to forms of power. Emphasis on the impact of colonialism, the nation-state, and globalization.

Gen Ed: SS, BN, GL.

Grading status: Letter grade

Same as: ANTH 429, FOLK 429.

ASIA 431. Persian Sufi Literature. 3 Credits.

This course aims to explore Persian Sufism, its foundation, Sufi practices and doctrines, and Sufi themes in literature. By looking at its development, we will examine the nature of Sufism, the controversies and debates, and the influence of Sufism on the literary dimension of the Islamic world.

Gen Ed: LA, CI, GL.

Grading status: Letter grade.

ASIA 435. The Cinemas of the Middle East and North Africa. 3 Credits.

This course explores the social, cultural, political, and economic contexts in which films are made and exhibited and focuses on shared intra-regional cinematic trends pertaining to discourse, aesthetics, and production.

Gen Ed: VP, BN, GL.

Grading status: Letter grade

Same as: PWAD 435, CMPL 535.

ASIA 436. Language, Exile, and Homeland in Zionist Thought and Practice. 3 Credits.

Employing Zionist and post- and anti-Zionist documents, treatises, and mostly literary and cinematic texts, this class will focus on the relations between language, Jewish-Israeli identity, and the notion of homeland. Previously offered as HEBR 436.

Gen Ed: BN, GL.

Grading status: Letter grade

Same as: JWST 436.

ASIA 440. Gender in Indian History. 3 Credits.

An analysis of the roles of women and men in Indian societies from the early to the modern periods. Topics include the cultural construction of gender and sexuality; beauty and bodily practices; gender and religion; gender and politics; race, imperialism, and gender. Previously offered as HIST/ASIA 556.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 440.

ASIA 441. Religion, Co-existence, and Conflict in Pre-Colonial India. 3 Credits.

This course traces the fascinating history of material, cultural, and theological exchanges and conflicts between individuals belonging to two of the world's major religions: Hinduism and Islam. Throughout the course we will also analyze how modern commentators have selectively used the past to inform their understandings of the present. Previously offered as HIST/ASIA 555.

Gen Ed: HS, WB.

Grading status: Letter grade

Same as: HIST 442.

ASIA 442. Postcolonial Literature of the Middle East. 3 Credits.

This course introduces students to postcolonial literature and theory. The main focus in the course is on literary texts and literary analysis. However, we will use postcolonial theory to engage critically with the primary texts within a postcolonial framework. We will explore language, identity, physical and mental colonization, and decolonization.

Gen Ed: LA, CI, GL.

Grading status: Letter grade

Same as: CMPL 442.

ASIA 445. Asian Religions in America. 3 Credits.

A study of intercultural interaction and interreligious encounter focusing on Asian religions in America, 1784 to the present.

Gen Ed: GL, US.

Grading status: Letter grade

Same as: RELI 445.

ASIA 447. Gender, Space, and Place in the Middle East. 3 Credits.

Examines gender, space, and place relationships in the modern Middle East. Investigates shifting gender geographies of colonialism, nationalism, modernization, and globalization in this region. (GHA)

Grading status: Letter grade

Same as: GEOG 447, WGST 447.

ASIA 453. Global Shangri-La: Tibet in the Modern World. 3 Credits.

An examination of the history, society, and culture of modern Tibet and its imagination in the context of international politics and from a multidisciplinary perspective.

Gen Ed: SS, BN, GL.

Grading status: Letter grade.

ASIA 469. Asian Economic Systems. 3 Credits.

This course provides an in-depth examination of the behavioral principles and performances of five core Asian economic systems: Japan, China, Taiwan/South Korea, North Korea and Thailand.

Requisites: Prerequisites, ECON 400, and 310 or 410; a grade of C or better in ECON 400, and 310 or 410 is required.

Grading status: Letter grade

Same as: ECON 469.

ASIA 471. Gender and Sexuality in Middle Eastern Literature. 3 Credits.

We examine gender and sexuality in literature written by various authors from the Middle East. Our discussions will focus on the significance of sexuality, harems, same-sex desire and homosexuality, construction of female sexuality, masculinity, contraception and abortion, the institution of marriage, gay/lesbian underground subcultures, and social media as sexual outlet.

Gen Ed: LA, CI, GL.

Grading status: Letter grade

Same as: WGST 471.

ASIA 482. Sex, Gender, and Religion in South Asia. 3 Credits.

This seminar draws on feminist and philosophical theory, including the works of Plato, Butler, and Foucault, as well as postcolonial theory, to explore the categories of sex and gender in South Asian religions. We also analyze the moral cultivation of the self in relation to gender identity in South Asia.

Gen Ed: PH, BN.

Grading status: Letter grade

Same as: RELI 482, WGST 482.

ASIA 483. Cross-Currents in East-West Literature. 3 Credits.

The study of the influence of Western texts upon Japanese authors and the influence of conceptions of 'the East' upon Western writers. Goldsmith, Voltaire, Soseki, Sterne, Arishima, Ibsen, Yoshimoto, Ishiguro.

Gen Ed: LA, BN.

Grading status: Letter grade

Same as: CMPL 483.

ASIA 487. Mountains, Pilgrimage, and Sacred Places in Japan. 3 Credits.

This course explores the role that mountains and pilgrimage have played in Japanese cosmology and how they relate to methodology of studying place and space.

Gen Ed: BN, CI.

Grading status: Letter grade

Same as: RELI 487.

ASIA 488. Shinto in Japanese History. 3 Credits.

This course discusses the development of Shinto in Japanese history and covers themes such as myths, syncretism, sacred sites, iconography, nativism, religion and the state, and historiography.

Gen Ed: BN, CI, WB.

Grading status: Letter grade

Same as: RELI 488.

ASIA 489. Animals in Japanese Religion. 3 Credits.

Permission of the instructor. This course examines the cultural construction of animals in Japanese myth, folklore, and religion.

Gen Ed: LA, BN.

Grading status: Letter grade

Same as: RELI 489.

ASIA 490. Advanced Topics in Asian Studies. 1-4 Credits.

The course topic will vary with the instructor.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 3 total completions.

Grading status: Letter grade.

ASIA 496. Independent Readings. 1-3 Credits.

Permission of the department. For the student who wishes to create and pursue a project in Asian studies under the supervision of a selected instructor. Course is limited to three credit hours per semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

ASIA 522. The Beauty and the Power of the Classical Indian World. 3 Credits.

This course combines readings in representative literary cultures in Sanskrit and several other literary languages from India's classical period (circa 300 BCE to 1200 CE) in translation, emphasizing kavya or poetry and related aesthetic theories, with scholarly readings on Sanskrit poetics, and the literary and political history of the period. Seminar format.

Gen Ed: LA, WB.

Grading status: Letter grade.

ASIA 536. Revolution in the Modern Middle East. 3 Credits.

This course will focus on revolutionary change in the Middle East during the last century, emphasizing internal social, economic, and political conditions as well as international contexts.

Grading status: Letter grade

Same as: HIST 536.

ASIA 537. Women in the Middle East. 3 Credits.

Explores the lives of women in the Middle East and how they have changed over time. Focus will change each year.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 537, WGST 537.

ASIA 538. The Middle East and the West. 3 Credits.

This course explores changing interactions between the Middle East and the West, including trade, warfare, scientific exchange, and imperialism, and ends with an analysis of contemporary relations in light of the legacy of the past.

Grading status: Letter grade

Same as: HIST 538.

ASIA 539. The Economic History of Southeast Asia. 3 Credits.

This course is intended as a broad overview of Southeast Asian economic history from premodern times to the present day.

Grading status: Letter grade

Same as: HIST 539.

ASIA 545. The Politics of Culture in East Asia. 3 Credits.

Examines struggles to define culture and the nation in 20th-century China in domains like popular culture, museums, traditional medicine, fiction, film, ethnic group politics, and biography and autobiography.

Gen Ed: SS, BN, GL.

Grading status: Letter grade

Same as: ANTH 545.

ASIA 557. Bandits, Rebels and Storytellers: Fiction and History in India. 3 Credits.

This course examines the histories, representations, and cultural perceptions surrounding bandits and rebels in modern India. The representations of bandits and rebels are studied in the light of the emergence of nationalism, shifting notions of gender and masculinity, race relations, and emergence of capitalist structures.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 557.

ASIA 570. The Vietnam War. 3 Credits.

A wide-ranging exploration of America's longest war, from 19th-century origins to 1990s legacies, from village battlegrounds to the Cold War context, from national leadership to popular participation and impact.

Gen Ed: HS, GL.

Grading status: Letter grade

Same as: HIST 570, PWAD 570.

ASIA 574. Chinese World Views. 3 Credits.

Explores the indigenous Chinese sciences and the cosmological ideas that informed them. Topics include astronomy, divination, medicine, fengshui, and political and literary theory. Chinese sources in translation are emphasized.

Gen Ed: SS, BN.

Grading status: Letter grade

Same as: ANTH 574, RELI 574.

ASIA 581. Sufism. 3 Credits.

Permission of the instructor. A survey of Islamic mysticism, its sources in the Qur'an and the Prophet Muhammad, and its literary, cultural, and social deployment in Arab, Persian, Indic, and Turkish regions.

Gen Ed: BN, WB.

Grading status: Letter grade

Same as: RELI 581.

ASIA 582. Islam and Islamic Art in South Asia. 3 Credits.

A survey of the formation of Islamic traditions in the subcontinent from the eighth century to the present, with emphasis on religion and politics, the role of Sufism, types of popular religion, and questions of Islamic identity.

Gen Ed: HS, BN, WB.

Grading status: Letter grade

Same as: RELI 582.

ASIA 583. Religion and Culture in Iran, 1500-Present. 3 Credits.

Iran from the rise of the Safavid empire to the Islamic Republic. Topics include Shi'ism, politics, intellectual and sectarian movements, encounters with colonialism, art and architecture, music, literature.

Gen Ed: HS, BN, WB.

Grading status: Letter grade

Same as: RELI 583.

ASIA 584. The Qur'an as Literature. 3 Credits.

A nontheological approach to the Qur'an as a literary text, emphasizing its history, form, style, and interpretation.

Gen Ed: LA, BN.

Grading status: Letter grade

Same as: RELI 584.

ASIA 586. The Gardens, Shrines, and Temples of Japan. 3 Credits.

The religious landscape and built environments of Japan. Attention to palace, courtyard, and teahouse architecture and gardens, with emphasis on Shinto shrines and the Zen Buddhist temple and garden.

Gen Ed: VP, BN.

Grading status: Letter grade

Same as: ANTH 586.

ASIA 681. Readings in Islamicate Literatures. 3 Credits.

Permission of the instructor. Study of selected religious, literary, and historical texts in Arabic, Persian, or Urdu.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade

Same as: RELI 681, ARAB 681.

ASIA 682. Contemporary Chinese Society. 3 Credits.

Presents recent anthropological research on the People's Republic of China. In addition to social sciences sources, fictional genres are used to explore the particular modernity of Chinese society and culture.

Gen Ed: SS, BN.

Grading status: Letter grade

Same as: ANTH 682.

ASIA 691H. Senior Honors Thesis I. 3 Credits.

Permission of the department. Required for honors students in Asian studies.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

ASIA 692H. Senior Honors Thesis II. 3 Credits.

Permission of the department. Required for honors students in Asian studies.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

ARAB–Arab World (in English)

Undergraduate-level Courses

ARAB 150. Introduction to Arab Cultures. 3 Credits.

Introduction to the cultures of the Arab world and of the Arabs in diasporas: art, literature, film, music, dance, food, history, religion, folklore, etc.

Gen Ed: LA, BN.

Grading status: Letter grade.

ARAB 151. Arabic Literature through the Ages. 3 Credits.

Introduces the rich literary heritage of the Arabic language from pre-Islamic to modern times and covers major genres. Emphasis on critical thinking, literary analysis, and academic writing.

Gen Ed: LA, BN.

Grading status: Letter grade.

ARAB 250. Introduction to the Languages of Morocco. 3 Credits.

This English-language course introduces students to the sociolinguistic and cultural developments that shape the linguistic map of Morocco. It also analyzes the speakers' attitudes toward the use of the different linguistic varieties (Arabic, Moroccan, French, Spanish, Tamazight) and their pragmatic reasons for activating them.

Gen Ed: SS, BN.

Grading status: Letter grade.

ARAB 253. Contemporary Moroccan Literature. 3 Credits.

This course introduces students to key aspects of Moroccan history, society, and culture through literary and cinematic texts produced since the country's independence. The close reading of these works helps students engage with the social, economic, cultural, and political transformations that have shaped modern Morocco.

Gen Ed: LA, BN.

Grading status: Letter grade.

ARAB 337. Borders and Walls in the Arab World. 3 Credits.

Can art, film, and literature undo cultural, social, and political divisions created by borders and walls in the Arab world?

Gen Ed: VP, BN.

Grading status: Letter grade.

ARAB 350. Women and Leadership in the Arab World. 3 Credits.

A service-learning, study abroad course focusing on women and leadership in the Arab world. Topics include women and religion, family, community and selfhood, citizenship and legal rights, and politics.

Gen Ed: SS, BN.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

ARAB 434. Modern Arabic Literature in Translation. 3 Credits.

Course treats a variety of themes and genres of Arabic literature from the mid-20th century to the present.

Gen Ed: LA, BN.

Grading status: Letter grade.

ARAB 453. Film, Nation, and Identity in the Arab World. 3 Credits.

Introduction to history of Arab cinema from 1920s to present. Covers film industries in various regions of the Arab world and transnational Arab film. All materials and discussion in English.

Gen Ed: VP, BN.

Grading status: Letter grade.

CHIN—China (in English)

Undergraduate-level Courses

CHIN 150. Introduction to Chinese Civilization. 3 Credits.

A course designed to introduce students to the Chinese world of past and present. Chinese civilization is explored from a variety of perspectives: political, social, cultural, intellectual, and economic.

Gen Ed: BN, WB.

Grading status: Letter grade.

CHIN 242. Chinese Qin Music. 3 Credits.

This course offers students an opportunity to learn the aesthetics, culture, and history of qin, and study the music through learning the beginning levels of qin pieces.

Gen Ed: VP, BN, EE- Performing Arts.

Grading status: Letter grade.

CHIN 244. Introduction to Modern Chinese Culture through Cinema. 3 Credits.

This course uses select feature and documentary films, supplemented by texts of critical and creative literature, to introduce students to a broad overview of modern China since the mid-19th century, focusing on the major events that have shaped a turbulent course of decline, revolution, and resurgence.

Gen Ed: VP, BN.

Grading status: Letter grade.

CHIN 252. Introduction to Chinese Culture through Narrative. 3 Credits.

This course shows how Chinese historical legends define and transmit the values, concepts, figures of speech, and modes of behavior that constitute Chinese culture.

Gen Ed: LA, BN, WB.

Grading status: Letter grade.

CHIN 253. Chinese Language and Society. 3 Credits.

Chinese language in social, cultural, historical, and political contexts in China. Topics include basic linguistic features, dialects, writing, literacy, and language reform in the era of modernization and globalization.

Requisites: Prerequisite, CHIN 102 or 111.

Gen Ed: SS, BN.

Grading status: Letter grade.

CHIN 255. Bandit or Hero: Outlawry in Chinese Literature and Films. 3 Credits.

This course explores the idea of outlaws as hero in the 16th-century kung-fu novel Outlaws of the Marsh and its influence on modern kung-fu and gangster films.

Gen Ed: LA, BN.

Grading status: Letter grade.

CHIN 342. The Rise of China: A Global and Multidisciplinary Approach. 3 Credits.

The rise of China has altered the economic and political order of the post-Cold War world. This course examines the historical context and trajectory of China's rise, its internal dynamics, and the challenges it poses to the rest of the world.

Gen Ed: SS, GL.

Grading status: Letter grade.

CHIN 346. History as Fiction or Fiction as History? Early Chinese History in Film and Literature. 3 Credits.

Through analysis of the role movies play in the formation of popular perceptions of the past, this course provides an introduction to the history of the Qin and Han dynasties.

Gen Ed: HS, WB.

Grading status: Letter grade.

CHIN 354. Chinese Culture through Calligraphy. 3 Credits.

For second-language Chinese learners without calligraphy experience.

Includes cultural, historical, and linguistic knowledge about Chinese calligraphy; basic brush writing skills; structure and composition of Chinese characters; how to assemble a calligraphy artwork. Lecture followed by studio session of writing practice. Taught in English and Chinese.

Requisites: Prerequisite, CHIN 102 or 111.

Gen Ed: VP, BN, EE- Performing Arts.

Grading status: Letter grade.

CHIN 356. Chinese Environmental Literature. 3 Credits.

Introduces students to Chinese and Taiwanese cultural understandings of human relations to the natural environment. Analyzes classical and modern environmental literature (poetry, essays, fiction, and philosophy) and evaluates how contemporary building practices, governmental policies, and green technologies may be influenced by diverse Chinese philosophical traditions.

Gen Ed: PH, WB.

Grading status: Letter grade.

CHIN 361. Chinese Traditional Theater. 3 Credits.

This course introduces traditional Chinese theater from its earliest development to modern times by examining the interrelation of its elements—music, dance, poetry, and illustration—with performance footage, visual art, and dramatic texts.

Gen Ed: VP, BN, WB.

Grading status: Letter grade.

CHIN 367. Illustration and the Animation of Text. 3 Credits.

This course examines illustration as both a form of literary criticism and a narrative tradition in its own right.

Gen Ed: VP, WB.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

CHIN 463. Narrative Ethics in Modern China. 3 Credits.

By exploring intersections of the narrative and the normative, this course considers relations between text, ethics, and everyday life in 20th-century China by reading texts on aesthetics.

Gen Ed: PH, BN.

Grading status: Letter grade.

CHIN 464. The City in Modern Chinese Literature and Film. 3 Credits.

This course analyzes historical changes of the city through examining the individual, national, and global identity of Shanghai, Beijing, Taipei, and Hong Kong as reflected in their histories, politics, built environment, ethos, language, and culture.

Gen Ed: LA, BN.

Grading status: Letter grade.

CHIN 551. Chinese Poetry in Translation. 3 Credits.

Selected topics in Chinese poetry concentrating on one period or one genre.

Gen Ed: LA, BN.

Grading status: Letter grade.

CHIN 552. Chinese Prose in Translation. 3 Credits.

Selected topics in Chinese fiction, historical writing, and prose belles lettres, concentrating on one period or one genre.

Gen Ed: LA, BN.

Grading status: Letter grade.

CHIN 562. Contemporary Chinese Urban Culture and Arts. 3 Credits.

This course analyzes contemporary Chinese urban art, architecture, cinema, and fiction to elucidate dynamics between the built environment and subjectivity. Students analyze how social, economic, and political factors shape environments, and debate whether new urban spaces create social conflict or new civil possibilities.

Gen Ed: VP, BN.

Grading status: Letter grade.

HEBR–Israel (in English)

Advanced Undergraduate and Graduate-level Courses

HNUR–India/Pakistan (in English)

Advanced Undergraduate and Graduate-level Courses

HNUR 592. Religious Conflict and Literature in India. 3 Credits.

Historical causes of violence between Hindus and Muslims in modern India. Short stories, poetry, and novels in translation are used to explore how conflicts over religious sites, religious conversion, image worship, and language contributed to a sense of conflicting religious identity.

Gen Ed: LA, BN.

Grading status: Letter grade

Same as: RELI 592.

JAPN–Japan (in English)

Undergraduate-level Courses

JAPN 160. Introduction to Japanese Literature in Translation. 3 Credits.

The major genres, aesthetic concepts, and classic and modern works of Japanese literature in English translation.

Gen Ed: LA, BN.

Grading status: Letter grade.

JAPN 162. Japanese Popular Culture. 3 Credits.

This course will examine how and why Tokyo emerged as a dominant locale in global mass culture. Students will be introduced to major figures and genres in Japanese pop culture.

Gen Ed: VP, BN.

Grading status: Letter grade.

JAPN 231. Ancient and Medieval Japanese History and Culture. 3 Credits.

This survey examines Japanese history from early times to the Tokugawa settlement of 1603. We will consider the archaeology of prehistoric Japan; the first great capitals at Nara and Heian; the rise of the samurai; and the tenuous medieval balance of power between the court, warrior government, and Buddhist institutions.

Gen Ed: HS, WB.

Grading status: Letter grade

Same as: HIST 271.

JAPN 246. Early Modern Japanese History and Culture. 3 Credits.

This course focuses on Japan's early modern period (1600-1868) and explores the historicism of the artist Hon'ami Koetsu; the status system and village life; the writings of Matsuo Basho; dramatic culture and the life of the city; and the interplay between sex, gender, and commerce.

Gen Ed: HS, BN.

Grading status: Letter grade

Same as: HIST 247.

JAPN 277. Empire of Sex: Eroticism, Mass Culture, and Geopolitics in Japan, 1945-Present. 3 Credits.

Tokyo, Japan, became the center of global pornographic culture after the United States occupation ended in 1952. This course will use film, animation, and historical texts to try to understand how and why this happened. Moreover, we will identify how this phenomenon impacted the lives of Japanese men and women.

Gen Ed: GL.

Grading status: Letter grade.

JAPN 363. Samurai, Monks, and Pirates: History and Historiography of Japan's Long 16th Century. 3 Credits.

This course will examine Japan's long 16th century. Introduces students to the history of, and historiographical problems with the representation of, some of the most fascinating characters in Japanese history, including pirates, warlords, tea masters, Jesuit monks, Buddhist priests, and peripatetic artists.

Gen Ed: BN, WB.

Grading status: Letter grade

Same as: HIST 370.

This course will examine the various expressions of cultural modernity in Japan with a focus on film, literature, and popular culture from 1900 to the end of the Pacific War.

Gen Ed: LA, BN.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

JAPN 451. Swords, Tea Bowls, and Woodblock Prints: Exploring Japanese Material Culture. 3 Credits.

This course surveys Japanese material culture. Each week we will examine a different genre of visual or material culture in terms of its production, circulation through time and space, and modern deployment in narratives of national identity. This course includes regular engagement with the Ackland Art Museum at UNC.

Gen Ed: HS, EE- Field Work.

Grading status: Letter grade.

JAPN 482. Embodying Japan: The Cultures of Beauty, Sports, and Medicine in Japan. 3 Credits.

Explores Japanese culture and society through investigating changing concepts of the human body. Sources include anthropological and history materials, science fiction, and film.

Gen Ed: SS, BN.

Grading status: Letter grade.

JAPN 563. Structure of Japanese. 3 Credits.

Introductory linguistic description of modern Japanese. For students of linguistics with no knowledge of Japanese and students of Japanese with no knowledge of linguistics.

Requisites: Prerequisite, JAPN 102 or LING 101.

Gen Ed: SS.

Grading status: Letter grade

Same as: LING 563.

KOR–Korea (in English)**Undergraduate-level Courses****KOR 150. History, Memory, and Reality in Contemporary Korea. 3 Credits.**

This course will provide an introduction to Korean studies and examine contemporary issues in Korean society and culture through social and cultural movements, multiple genres of texts, and artistic manifestations.

Gen Ed: SS, BN.

Grading status: Letter grade.

KOR 151. Education and Social Changes in Contemporary Korea. 3 Credits.

This course will provide an introduction to Korean studies and examine contemporary issues in Korean society through policies and systems in education, social and cultural trends and phenomena, and globalism.

Gen Ed: SS, BN.

Grading status: Letter grade.

KOR 232. Imagining the City in Modern Korea: Text, Image, Space. 3 Credits.

This course introduces students to modern Korea through the lens of the city. It explores the changing shape of urban space on the Korean peninsula as well as the central role that visions of the city and of city life have played in the development of modern Korean literature, television, and film.

Gen Ed: LA, BN.

Grading status: Letter grade

Same as: CMPL 232.

KOR 237. Rebel, Lover, Martyr: Gender and Sexuality in North and South Korean Screen Cultures. 3 Credits.

This course introduces students to the history of North and South Korean film and television through the lens of gender and sexuality. In so doing, it explores the multiple forms of the Korean self and the diverse shapes that Korean identity has taken across the modern and contemporary eras.

Gen Ed: LA, BN.

Grading status: Letter grade

Same as: CMPL 237, WGST 237.

KOR 327. Korean Diasporas. 3 Credits.

This course will explore multiple contexts of the Korean diaspora such as historical, political, social, and educational contexts. Examines uniqueness and commonalities among various Korean diasporic communities around the world.

Gen Ed: HS, GL.

Grading status: Letter grade.

KOR 346. Body Politics in Modern Korean Literature. 3 Credits.

This course surveys twentieth- and early twenty-first-century Korean literature through the lens of representations of the body. Bringing together works of fiction, poetry, drama, and secondary scholarship, it explores how modern Korean literature has imagined the body, defined its multiple natures and identities, and delineated its shifting boundaries. Honors version available

Gen Ed: LA, BN, CI.

Grading status: Letter grade

Same as: CMPL 246.

ARAB–Arabic (Language Courses)**Undergraduate-level Courses****ARAB 101. Elementary Arabic I. 4 Credits.**

First semester of Arabic language instruction, comprising both Modern Standard Arabic and one spoken dialect. Coursework includes Arabic script, basic grammar and vocabulary, and culturally relevant activities.

Gen Ed: FL.

Grading status: Letter grade.

ARAB 102. Elementary Arabic II. 4 Credits.

Second semester of Arabic language instruction, comprising both Modern Standard Arabic and one spoken dialect. Coursework includes expanded grammar and vocabulary and culturally relevant activities.

Requisites: Prerequisite, ARAB 101.

Gen Ed: FL.

Grading status: Letter grade.

ARAB 123. Conversational Arabic Abroad. 3 Credits.

Conversational course introducing one of the major dialects of Arabic. Only offered within the context of a University faculty-led study abroad program in the Arab world.

Grading status: Letter grade.

ARAB 203. Intermediate Arabic I. 4 Credits.

Third semester of Arabic language instruction, comprising both Modern Standard Arabic and one spoken dialect. Coursework includes expanded grammar and vocabulary, and culturally relevant activities.

Requisites: Prerequisite, ARAB 102.

Gen Ed: FL.

Grading status: Letter grade.

ARAB 204. Intermediate Arabic II. 4 Credits.

Fourth semester of Arabic language instruction, comprising both Modern Standard Arabic and one spoken dialect. Coursework includes expanded grammar and vocabulary, and culturally relevant activities.

Requisites: Prerequisite, ARAB 203.

Gen Ed: FL.

Grading status: Letter grade.

ARAB 300. Arabic Grammar and Composition. 3 Credits.

Intensive grammar review and composition to improve accuracy and develop writing skills in Modern Standard Arabic.

Requisites: Prerequisite, ARAB 204.

Gen Ed: BN, CI.

Grading status: Letter grade.

ARAB 301. Introduction to Qur'anic Arabic. 3 Credits.

A text-based course for students interested in acquiring a foundation in the language of the Qur'an and cultural aspects related to it. Chapters of Qur'an will be presented and analyzed; vocabulary and grammatical structures will be discussed and activated; and cultural aspects of the Qur'an will be introduced through Arabic readings, audio, and video.

Requisites: Prerequisite, ARAB 204.

Grading status: Letter grade.

ARAB 305. Advanced Arabic I. 3 Credits.

Fifth semester of Arabic language instruction, comprising both Modern Standard Arabic and one spoken dialect. Coursework includes intensive reading of a variety of texts; films, oral presentations, and writing; extensive vocabulary development.

Requisites: Prerequisite, ARAB 204.

Grading status: Letter grade.

ARAB 306. Advanced Arabic II. 3 Credits.

Sixth semester of Arabic language instruction, comprising both Modern Standard Arabic and one spoken dialect. Coursework includes intensive reading of a variety of texts; films, oral presentations, and writing; extensive vocabulary development.

Requisites: Prerequisite, ARAB 305.

Grading status: Letter grade.

ARAB 308. Arabic Languages across the Curriculum Recitation. 1 Credit.

Arabic recitation offered in conjunction with selected content courses. Weekly discussion and readings in Arabic relating to attached content courses.

Requisites: Prerequisite, ARAB 204.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**ARAB 407. Readings in Arabic I. 3 Credits.**

Classical and/or modern readings in Arabic and discussions in conversational Arabic, according to the students' interest.

Requisites: Prerequisite, ARAB 306.

Gen Ed: LA, BN, CI.

Grading status: Letter grade.

ARAB 408. Readings in Arabic II. 3 Credits.

Classical and/or modern readings in Arabic and discussions in conversational Arabic, according to the students' interest.

Requisites: Prerequisite, ARAB 306.

Gen Ed: LA, BN.

Grading status: Letter grade.

ARAB 496. Independent Readings in Arabic. 1-3 Credits.

Permission of the department. For the student who wishes to create and pursue an independent project in Arabic under the supervision of a selected instructor. Maximum three credit hours per semester.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

ARAB 681. Readings in Islamicate Literatures. 3 Credits.

Permission of the instructor. Study of selected religious, literary, and historical texts in Arabic, Persian, or Urdu.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade

Same as: RELI 681, ASIA 681.

**CHIN–Chinese (Language Courses)
Undergraduate-level Courses****CHIN 101. Elementary Chinese I. 4 Credits.**

Introduction to Mandarin Chinese, focusing on pronunciation, simple conversation, and basic grammar. Reading and writing Chinese characters are also taught. Writing Chinese characters is required. Four hours per week. Students may not receive credit for both CHIN 101 or CHIN 102 and CHIN 111.

Gen Ed: FL.

Grading status: Letter grade.

CHIN 102. Elementary Chinese II. 4 Credits.

Continued training in listening, speaking, reading, and writing on everyday topics. Writing Chinese characters is required. Four hours per week. Students may not receive credit for both CHIN 101 or CHIN 102 and CHIN 111.

Requisites: Prerequisite, CHIN 101.

Gen Ed: FL.

Grading status: Letter grade.

CHIN 111. Elementary Written Chinese. 3 Credits.

For students who already understand and speak some Chinese; entry to this course is by placement only. The course focuses on reading and writing. Writing Chinese characters is required. Three hours per week. Students may not receive credit for both CHIN 101 or CHIN 102 and CHIN 111.

Gen Ed: FL.

Grading status: Letter grade.

CHIN 203. Intermediate Chinese I. 4 Credits.

Second-year level of modern standard Chinese. Writing Chinese characters is required. Four hours per week.

Requisites: Prerequisite, CHIN 102.

Gen Ed: FL.

Grading status: Letter grade.

CHIN 204. Intermediate Chinese II. 4 Credits.

Second-year level of modern standard Chinese. Writing Chinese characters is required. Four hours per week. Students may not receive credit for both CHIN 204 and CHIN 212.

Requisites: Prerequisite, CHIN 203.

Gen Ed: FL.

Grading status: Letter grade.

CHIN 212. Intermediate Written Chinese. 3 Credits.

For students who already understand and speak some Chinese. The training course focuses on reading and writing. Writing Chinese characters is required. Three hours per week. Students may not receive credit for both CHIN 204 and CHIN 212.

Requisites: Prerequisite, CHIN 111.

Gen Ed: FL.

Grading status: Letter grade.

CHIN 305. Advanced Chinese I. 3 Credits.

This course emphasizes the development of conversational skills and vocabulary building with readings on everyday topics. Writing Chinese characters is required. Three hours per week. Students may not receive credit for both CHIN 305 or CHIN 306 and CHIN 313.

Requisites: Prerequisite, CHIN 204.

Grading status: Letter grade.

CHIN 306. Advanced Chinese II. 3 Credits.

This course emphasizes the development of conversational skills and vocabulary building with readings on everyday topics. Writing Chinese characters is required. Three hours per week. Students may not receive credit for both CHIN 305 or CHIN 306 and CHIN 313.

Requisites: Prerequisite, CHIN 305.

Grading status: Letter grade.

CHIN 308. Chinese Languages across the Curriculum Recitation. 1 Credit.

Chinese-language seminar offered in conjunction with selected Chinese content courses taught in English. Students will use the target language (Chinese) to read and discuss weekly topics related to the corresponding content courses. Not intended for native Chinese speakers.

Requisites: Prerequisite, CHIN 212 or CHIN 305.

Grading status: Letter grade.

CHIN 313. Advanced Written Chinese. 3 Credits.

The third course for Chinese heritage students. Course materials correspond to those in CHIN 305 and CHIN 306. Writing Chinese characters is required. Three hours per week. Students may not receive credit for both CHIN 305 or CHIN 306 and CHIN 313.

Requisites: Prerequisite, CHIN 212.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

CHIN 407. Readings in Modern Chinese I. 3 Credits.

Read authentic texts of modern Chinese, including newspaper articles and writings of literary, cultural, and social interest. Writing Chinese characters is required. Students may not receive credit for both CHIN 407 or CHIN 408 and CHIN 414.

Requisites: Prerequisite, CHIN 306.

Gen Ed: BN.

Grading status: Letter grade.

CHIN 408. Readings in Modern Chinese II. 3 Credits.

Read authentic texts of modern Chinese, including newspaper articles and writings of literary, cultural, and social interest. Writing Chinese characters is required. Students may not receive credit for both CHIN 407 or CHIN 408 and CHIN 414.

Requisites: Prerequisite, CHIN 407.

Gen Ed: BN.

Grading status: Letter grade.

CHIN 414. Advanced Reading and Composition. 3 Credits.

Fourth course for heritage students, comparable to CHIN 407 and CHIN 408. Writing Chinese characters is required. Three hours per week. Students may not receive credit for both CHIN 407 or CHIN 408 and CHIN 414.

Requisites: Prerequisite, CHIN 313.

Grading status: Letter grade.

CHIN 441. Chinese-English Translation and Interpreting. 3 Credits.

Instruction and practice in Chinese-to-English translation (written) and interpreting (oral), designed for second-language learners of Chinese. Students work with materials covering many fields.

Requisites: Pre- or corequisite, CHIN 407 or 414.

Gen Ed: SS, CI.

Grading status: Letter grade.

CHIN 443. Business Communication in Chinese. 3 Credits.

The goal of this course is to improve students' overall language proficiency using Chinese for business purposes. They will develop enhanced skills of reading business journalism and case studies and writing business letters or email messages.

Requisites: Pre- or corequisite, CHIN 407 or 414.

Gen Ed: BN, CI.

Grading status: Letter grade.

CHIN 490. Topics in Chinese Literature and Language. 3 Credits.

Readings in Chinese literature and language on varying topics. May be taken more than once for credit as topics change.

Requisites: Pre- or corequisite, CHIN 407 or 414.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

CHIN 496. Independent Readings in Chinese. 1-3 Credits.

Permission of the department. For the student who wishes to create and pursue an independent project in Chinese under the supervision of a selected instructor. Maximum three credit hours per semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

CHIN 510. Introduction to Classical Chinese. 3 Credits.

Advanced study of Chinese classics.

Requisites: Pre- or corequisite, CHIN 407 or 414.

Gen Ed: BN, WB.

Grading status: Letter grade.

CHIN 511. Literary Chinese. 3 Credits.

Introduction to the classical Chinese language through reading short essays and poems. Instruction focuses on the similarities and differences between classical and modern Chinese in sentence structure and vocabulary.

Requisites: Pre- or corequisite, CHIN 408 or 414.

Gen Ed: BN, WB.

Grading status: Letter grade.

CHIN 521. Chinese History in Chinese. 3 Credits.

This is a fifth-year Chinese course offered as a language course to improve students' language abilities and as a content course surveying Chinese history in Chinese.

Requisites: Prerequisite, CHIN 408 or CHIN 414.

Gen Ed: HS, WB.

Grading status: Letter grade.

CHIN 525. Ancient Philosophers and Their Modern Reincarnation. 3 Credits.

Recommended preparation, CHIN 510 or 511. This course examines the reinterpretation and appropriation of ancient Chinese philosophy in contemporary China, on such themes as Confucian ethics and Daoist metaphysics and aesthetics.

Requisites: Prerequisite, CHIN 408 or 414.

Gen Ed: PH, BN.

Grading status: Letter grade.

CHIN 590. Advanced Topics in Chinese Literature and Language. 3 Credits.

This is an advanced topics course in Chinese literature and language, culture and society. The instruction is entirely in Chinese with the use of authentic materials. Three hours per week.

Requisites: Prerequisite, CHIN 408 or 414.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

CHIN 624. Chinese Internet Literature. 3 Credits.

This is a content and language course designed for advanced (native or near-native fluency) undergraduate and graduate students to enhance the four language abilities and cultural literacy. Students will read The Story of Minglan, and analyze the problematic portrayals of traditional women's domestic lives.

Requisites: Prerequisite, CHIN 441, 442, 443, 490, 510, 511, or 525.

Gen Ed: LA, BN.

Grading status: Letter grade.

CHIN 631. Writing Chinese (in) America: Advanced Studies of a Foreign Literature from United States Homeland. 3 Credits.

Encompasses a century of literary writings on the experiences of Chinese in the United States. The select works are written for Chinese communities worldwide, hence 'writing Chinese in America,' while they reflect upon the formation of Chinese American identity, therefore 'writing Chinese America.'

Requisites: Prerequisites, CHIN 510 or 511, and 525.

Gen Ed: LA, CI, US.

Grading status: Letter grade.

HEBR–Hebrew (Language Courses)

Undergraduate-level Courses

HEBR 101. Elementary Modern Hebrew I. 3 Credits.

Introduces the essential elements of modern Hebrew structure and vocabulary and aspects of modern Israeli culture. Aural comprehension, reading, speaking, and writing are stressed.

Gen Ed: FL.

Grading status: Letter grade

Same as: JWST 101.

HEBR 102. Elementary Modern Hebrew II. 3 Credits.

Continued instruction in the essential elements of modern Hebrew structure and vocabulary and aspects of modern Israeli culture. Aural comprehension, reading, speaking, and writing are stressed.

Requisites: Prerequisite, HEBR 101.

Gen Ed: FL.

Grading status: Letter grade

Same as: JWST 102.

HEBR 203. Intermediate Modern Hebrew I. 3 Credits.

Second-year instruction in the essential elements of modern Hebrew structure and vocabulary and aspects of modern Israeli culture. Aural comprehension, reading, speaking, and writing are stressed. An introduction to representative literary works is included.

Requisites: Prerequisite, HEBR 102.

Gen Ed: FL.

Grading status: Letter grade

Same as: JWST 203.

HEBR 204. Intermediate Modern Hebrew II. 3 Credits.

Continued instruction in the essential elements of modern Hebrew structure and vocabulary and aspects of modern Israeli culture.

Aural comprehension, reading, speaking, and writing are stressed. An introduction to representative literary works is included.

Requisites: Prerequisite, HEBR 203.

Gen Ed: FL.

Grading status: Letter grade

Same as: JWST 204.

HEBR 305. Advanced Composition and Conversation: Immigration, Ethnicities, and Religious Traditions. 3 Credits.

Third year of instruction in modern Hebrew with an emphasis on Israeli culture, literature, and media.

Requisites: Prerequisite, HEBR 204.

Grading status: Letter grade

Same as: JWST 305.

HEBR 306. Advanced Composition and Conversation: Zionism and the Hebrew Language. 3 Credits.

Third year of instruction in modern Hebrew with an emphasis on Israeli culture, literature, and media.

Requisites: Prerequisite, HEBR 204.

Grading status: Letter grade

Same as: JWST 306.

HNUR–Hindi-Urdu (Language Courses)

Undergraduate-level Courses

HNUR 101. Elementary Hindi-Urdu I. 4 Credits.

Introduction to modern spoken and written Hindi-Urdu. Speaking and listening practice, basic sentence pattern exercises, grammar fundamentals, the writing system, and creative applications exploring South Asian culture are included.

Gen Ed: FL.

Grading status: Letter grade.

HNUR 102. Elementary Hindi-Urdu II. 4 Credits.

Continued instruction in modern spoken and written Hindi-Urdu. Sessions include speaking and listening drills, skits, role-play, and discussion of video and audio materials.

Requisites: Prerequisite, HNUR 101.

Gen Ed: FL.

Grading status: Letter grade.

HNUR 203. Intermediate Hindi-Urdu I. 4 Credits.

Second year of instruction in modern spoken and written Hindi-Urdu, including situational speaking and listening practice, complex sentence pattern exercises and idioms, vocabulary building, intermediate grammar topics, and reading exercises.

Requisites: Prerequisite, HNUR 102.

Gen Ed: FL.

Grading status: Letter grade.

HNUR 204. Intermediate Hindi-Urdu II. 4 Credits.

Continued second year of instruction in modern spoken and written Hindi-Urdu. Students practice writing short essays and letters and continue to develop mature oral competency in Hindi-Urdu.

Requisites: Prerequisite, HNUR 203.

Gen Ed: FL.

Grading status: Letter grade.

HNUR 220. Introduction to the Hindi Script (Devanagari). 1 Credit.

In this course, students will master the Hindi alphabet, the Sanskrit-based Devanagari writing system. This course complements the regular Hindi-Urdu language sequence. Prior knowledge of spoken Hindi or Urdu is required; entry to this class is by placement only.

Grading status: Letter grade.

HNUR 221. Introduction to the Urdu Script (Nastaliq). 1 Credit.

This course introduces the Urdu alphabet (Nastaliq). Prior knowledge of spoken Urdu or Hindi is required; entry to this class is by placement only.

Grading status: Letter grade.

HNUR 305. Advanced Hindi-Urdu I. 3 Credits.

Third year of instruction in spoken and written Hindi-Urdu with an emphasis on the reading and discussion of short stories, prose articles, and interviews.

Requisites: Prerequisite, HNUR 204.

Gen Ed: LA, BN.

Grading status: Letter grade.

HNUR 306. Advanced Hindi-Urdu II. 3 Credits.

Third year of instruction in spoken and written Hindi-Urdu with an emphasis on the reading and analysis of poetry.

Requisites: Prerequisite, HNUR 204.

Gen Ed: LA, BN.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**HNUR 407. South Asian Society and Culture. 3 Credits.**

Advanced language course introducing authentic readings on cultural and social topics relating to modern South Asian society. Texts are supplemented by case studies and interviews. Course is taught in Hindi-Urdu and provides further training in speaking and writing. Participation in extracurricular activities is encouraged.

Requisites: Prerequisites, HNUR 305 and 306.

Gen Ed: BN.

Grading status: Letter grade.

HNUR 408. South Asian Media and Film. 3 Credits.

This advanced language course introduces students to authentic film and visual and print media from modern South Asia, analyzed within historical, social, and aesthetic contexts. Course is taught in Hindi-Urdu with further training in speaking and writing. Participation in relevant extracurricular activities is encouraged.

Requisites: Prerequisites, HNUR 305 and 306.

Gen Ed: BN.

Grading status: Letter grade.

HNUR 409. Sex and Social Justice in South Asia. 3 Credits.

This seminar explores the issues of gender, sexuality, and social justice in modern India and Pakistan. The course uses a variety of media sources, including monographs, films, television shows, documentaries, newspapers, and magazines.

Requisites: Prerequisites, HNUR 305 and 306.

Gen Ed: SS, BN.

Grading status: Letter grade.

Ghazal is the most important genre of Urdu-Hindi poetry from the 18th century to the present. This course, taught in Hindi-Urdu, concerns the analysis and interpretation of ghazals.

Requisites: Prerequisite, HNUR 305 and 306.

Gen Ed: LA, BN.

Grading status: Letter grade.

HNUR 411. Health and Medicine in South Asia. 3 Credits.

This seminar explores approaches to health and medicine in India and Pakistan, and contemporary public health challenges in South Asia and diaspora communities in North Carolina. Also addresses 'alternative' systems of medical thought in South Asia including Ayurveda, Unani Medicine, Yoga, Naturopathy, and Homeopathy.

Requisites: Prerequisites, HNUR 305 and 306.

Gen Ed: SS, BN.

Grading status: Letter grade.

HNUR 490. Topics in Hindi-Urdu Literature and Language. 3 Credits.

Course may be repeated for credit as topic changes. Possible areas of study include Indian film and literature, Hindi-English translations, the Indian diaspora, Hindi journalism, and readings in comparative religions.

Requisites: Prerequisites, HNUR 305 and 306.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

HNUR 496. Independent Readings in Hindi-Urdu. 1-3 Credits.

Permission of the department. For the student who wishes to create and pursue an independent project in Hindi-Urdu under the supervision of a selected instructor. Maximum three credit hours per semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

JAPN–Japanese (Language Courses)
Undergraduate-level Courses**JAPN 101. Elementary Japanese I. 4 Credits.**

Introduction to modern Japanese with text and supplementary materials. Hiragana, katakana, and basic kanji are introduced. Weekly class hours devoted to basic sentence pattern exercises, speaking and writing practice, and creative application. Participation in relevant extracurricular activities encouraged.

Gen Ed: FL.

Grading status: Letter grade.

JAPN 102. Elementary Japanese II. 4 Credits.

Continued beginning course of modern Japanese with text and supplementary materials. Approximately 150 additional kanji are introduced. Focus on basic sentence pattern exercises, speaking and writing practice, and creative application. Participation in relevant extracurricular activities encouraged.

Requisites: Prerequisite, JAPN 101 or permission of the instructor.

Gen Ed: FL.

Grading status: Letter grade.

JAPN 203. Intermediate Japanese I. 4 Credits.

Emphasis on situational expressions, mastery of basic structures, and approximately 150 new kanji. Conversation practice, reading and writing of passages, and creative application expected. Participation in relevant extracurricular activities encouraged.

Requisites: Prerequisite, JAPN 102.

Gen Ed: FL.

Grading status: Letter grade.

JAPN 204. Intermediate Japanese II. 4 Credits.

Continued emphasis on situational expressions, mastery of basic structures, and approximately 150 to 200 new kanji. Conversation practice, reading and writing of passages, and creative application expected. Participation in relevant extracurricular activities encouraged.

Requisites: Prerequisite, JAPN 203.

Gen Ed: FL.

Grading status: Letter grade.

JAPN 305. Advanced Japanese I. 3 Credits.

Advanced written and spoken Japanese introduced to students who have learned more than 500 kanji. Emphasis is placed on advanced expressions, conversation for a variety of situations, reading and writing longer texts, and approximately 150 additional kanji. Class conducted in Japanese. Participation in relevant extracurricular activities encouraged.

Requisites: Prerequisite, JAPN 204.

Grading status: Letter grade.

JAPN 306. Advanced Japanese II. 3 Credits.

Second semester of third-year Japanese, continuing the study of written and spoken Japanese at the advanced level. Participation in relevant extracurricular activities encouraged.

Requisites: Prerequisite, JAPN 305.

Gen Ed: BN.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

JAPN 401. Gateway to Mastering Japanese. 3 Credits.

This course reviews the key grammar, vocabulary, and characters from the first three years of Japanese in preparation for the more advanced work of fourth-year elective courses.

Requisites: Prerequisite, JAPN 306.

Grading status: Letter grade.

JAPN 408. Japanese Journalism. 3 Credits.

Uses newspaper and magazine articles and television broadcasts to introduce journalistic writing and speech as well as contemporary social and cultural issues. Class conducted in Japanese. Participation in relevant extracurricular activities encouraged.

Requisites: Prerequisite, JAPN 306.

Gen Ed: BN.

Grading status: Letter grade.

This course helps students to improve their Japanese language skills while developing an understanding of Japanese culture through films and literature. Exercises include reading novels in Japanese, close observation of Japanese films, analysis of cultural context, writing summaries, and frequent discussion.

Requisites: Prerequisite, JAPN 306.

Gen Ed: LA, BN.

Grading status: Letter grade.

JAPN 490. Topics in Japanese Language and Literature. 3 Credits.

Possible areas of study include popular culture, business Japanese, and Japanese-English translation. Course may be repeated for credit as topic changes. Participation in relevant extracurricular activities encouraged.

Requisites: Prerequisite, JAPN 306.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

JAPN 496. Independent Readings in Japanese. 1-3 Credits.

Permission of the department. For the student who wishes to create and pursue an independent project in Japanese under the supervision of a selected instructor. Maximum three credit hours per semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

JAPN 521. Investigating Japanese Culture through TV Dramas. 3 Credits.
Students will improve Japanese language skills while they develop an understanding of Japanese culture through TV dramas. Exercises include intensive listening, reading and analyzing drama scripts, writing summaries, and frequent discussions on various topics.

Requisites: Prerequisite, JAPN 401, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, or 490.

Gen Ed: VP, BN.

Grading status: Letter grade.

KOR–Korean (Language Courses)

Undergraduate-level Courses

KOR 101. Elementary Korean I. 4 Credits.

Introduction to the basics of modern Korean, including the pronunciation of spoken Korean, the writing system of Hangul, communication and reading skills in controlled contexts, and fundamentals of grammar.

Gen Ed: FL.

Grading status: Letter grade.

KOR 102. Elementary Korean II. 4 Credits.

Develops speaking and listening skills for everyday communication, reading skills for simple narratives and descriptive texts, and understanding for core grammatical patterns.

Requisites: Prerequisite, KOR 101.

Gen Ed: FL.

Grading status: Letter grade.

KOR 203. Intermediate Korean I. 4 Credits.

Continues developing reading and writing skills for narrative and descriptive texts and increasing communicative competence in applied social contexts.

Requisites: Prerequisite, KOR 102.

Gen Ed: FL.

Grading status: Letter grade.

KOR 204. Intermediate Korean II. 4 Credits.

Develops and applies comprehensive grammatical knowledge and vocabularies in complex listening, speaking, reading, and writing contexts. Emphasis on Korean cultural and historical understanding.

Requisites: Prerequisite, KOR 203.

Gen Ed: FL.

Grading status: Letter grade.

KOR 305. Advanced Korean I. 3 Credits.

Advanced study of written and spoken Korean language and Korean culture. Three hours per week.

Requisites: Prerequisite, KOR 204.

Grading status: Letter grade.

KOR 306. Advanced Korean II. 3 Credits.

Advanced study of written and spoken Korean language and Korean culture. Three hours per week.

Requisites: Prerequisite, KOR 305.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

KOR 407. Modern Korean Literature and Culture. 3 Credits.

Modern Korean literature by major authors, from around 1940 to the present. Emphasis on reading, translation, and criticism. Students will improve their written and oral communication skills in Korean through the study of literary works in their social, cultural, and historical context.

Requisites: Prerequisite, KOR 306.

Gen Ed: BN, CI.

Grading status: Letter grade.

KOR 408. Changes and Continuities in Korean History. 3 Credits.

This course is conducted in Korean, emphasizing reading, translating, and criticism. This is a general introduction to Korean history from the first kingdom of the Korean Peninsula, Gojoseon, to the last kingdom, Joseon Dynasty.

Requisites: Prerequisite, KOR 306.

Gen Ed: BN, CI.

Grading status: Letter grade.

KOR 409. Korean Through Current Affairs. 3 Credits.

This course aims at a deeper understanding of Korean society, through critical analysis of language use and viewpoints expressed in various types of media. This course will also focus on cultural products and practices.

Requisites: Prerequisite, KOR 306.

Gen Ed: BN, CI.

Grading status: Letter grade.

KOR 447. Documenting Diasporas: Korean Diasporas in Films and Documentaries. 3 Credits.

In this course, we will explore the multiple, shifting, and often contested diasporic subjectivities represented and produced in Korean diaspora cinemas; these subjectivities encompass various Korean diaspora communities in Asia, Central Asia, Europe, and the Americas.

Gen Ed: VP, GL.

Grading status: Letter grade

Same as: CMPL 547.

KOR 490. Topics in Korean Language and Literature. 3 Credits.

Topic varies and course may be repeated for credit as topics change.

Requisites: Prerequisite, KOR 306.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

KOR 496. Independent Readings in Korean. 1-3 Credits.

Permission of the department. For the student who wishes to create and pursue an independent project in Korean under the supervision of a selected instructor. Maximum three credit hours per semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

PRSN–Persian (Language Courses)

Undergraduate-level Courses

PRSN 101. Elementary Persian I. 3 Credits.

Introduction to the spoken and written Persian (Farsi) language.

Gen Ed: FL.

Grading status: Letter grade.

PRSN 102. Elementary Persian II. 3 Credits.

Introduction to the spoken and written Persian (Farsi) language.

Requisites: Prerequisite, PRSN 101.

Gen Ed: FL.

Grading status: Letter grade.

PRSN 203. Intermediate Persian I. 3 Credits.

Second-year instruction in the spoken and written Persian (Farsi) language.

Requisites: Prerequisite, PRSN 102.

Gen Ed: FL.

Grading status: Letter grade.

PRSN 204. Intermediate Persian II. 3 Credits.

Second-year instruction in the spoken and written Persian (Farsi) language.

Requisites: Prerequisite, PRSN 203.

Gen Ed: FL.

Grading status: Letter grade.

PRSN 305. Persian Short Stories. 3 Credits.

This course focuses on further development of all language skills through studying Persian short stories. Short stories are effective in language teaching because of their readability in limited class time. They offer authentic reading materials that allow language learners to engage in close readings and creative interpretations.

Requisites: Prerequisite, PRSN 204.

Gen Ed: BN.

Grading status: Letter grade.

PRSN 306. Persian Language through Literature, Film, and Media. 3 Credits.

Students will study literary writings and filmic texts from traditional literature to contemporary media (including plays, film, television, etc.). Students will engage in various communicative activities focusing on all language skills and building vocabulary and idiomatic expressions. Literary and filmic texts will also improve students' cultural awareness.

Requisites: Prerequisite, PRSN 204.

Gen Ed: BN.

Grading status: Letter grade.

TURK–Turkish (Language Courses)

Undergraduate-level Courses

TURK 101. Elementary Turkish I. 3 Credits.

Introduces the essential elements of Turkish structure and vocabulary and aspects of Turkish culture. Aural comprehension, reading, speaking, and writing are stressed.

Gen Ed: FL.

Grading status: Letter grade.

TURK 102. Elementary Turkish II. 3 Credits.

Continued instruction in the essential elements of Turkish structure and vocabulary and aspects of Turkish culture. Aural comprehension, reading, speaking, and writing are stressed.

Requisites: Prerequisite, TURK 101.

Gen Ed: FL.

Grading status: Letter grade.

TURK 203. Intermediate Turkish I. 3 Credits.

Second-year level instruction in the essential elements of Turkish structure and vocabulary and aspects of Turkish culture. Aural comprehension, reading, speaking, and writing are stressed. Introduces representative literary works.

Requisites: Prerequisite, TURK 102.

Gen Ed: FL.

Grading status: Letter grade.

TURK 204. Intermediate Turkish II. 3 Credits.

A proficiency-based course centered on reading, writing, speaking, and listening to Turkish with an emphasis on understanding the application of grammatical structures and vocabulary development through the study of literature.

Requisites: Prerequisite, TURK 203.

Gen Ed: FL.

Grading status: Letter grade.

TURK 305. Advanced Turkish I. 3 Credits.

Students in this advanced class will explore various discourses through media and literature in order to develop a deeper understanding of modern Turkish language. This is a hybrid/blended course taught synchronically with the same course at Duke University, taking advantage of the best aspects of both face-to-face and online instruction with the use of technology to enhance the classroom experience.

Requisites: Prerequisite, TURK 204.

Grading status: Letter grade.

Asian Studies Major, B.A. – Interdisciplinary Concentration

Contact Information

Department of Asian and Middle Eastern Studies

Visit Program Website (<http://asianstudies.unc.edu>)

New West 113, CB# 3267

(919) 962-4294

Dwayne Dixon, Interdisciplinary Program Advisor

dedixon@email.unc.edu

Morgan Pitelka, Chair

mpitelka@unc.edu

Pamela Lothspeich, Associate Chair and Director of Undergraduate Studies

ploth@email.unc.edu

Ash Barnes, Student Services Specialist

wow@unc.edu

The interdisciplinary major within the Department of Asian Studies provides an intellectual challenge as well as sound training for students who intend to go on to graduate school in the social sciences or humanities and focus their research on Asia. It also provides an essential background for students who are contemplating professions such as business, law, or journalism with the intent of doing extensive work in Asia.

Department Programs

Majors

- Asian Studies Major, B.A. – Interdisciplinary Concentration (p. 339)
- Asian Studies Major, B.A. – Arab Cultures Concentration (p. 345)
- Asian Studies Major, B.A. – Chinese Concentration (p. 347)
- Asian Studies Major, B.A. – Japanese Concentration (p. 350)
- Asian Studies Major, B.A. – Korean Studies Concentration (p. 352)
- Asian Studies Major, B.A. – South Asian Studies Concentration (p. 354)

Minors

- Arabic Minor (p. 357)
- Asian Studies Minor (p. 356)
- Chinese Minor (p. 358)
- Modern Hebrew Minor (p. 359)
- Hindi-Urdu Minor (p. 360)
- Japanese Minor (p. 362)
- Korean Minor (p. 362)

- Middle Eastern Languages Minor (p. 363)
- Persian Minor (p. 364)

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

- Identify or analyze significant aspects of the target cultures by interpreting texts and media
- Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language
- Demonstrate experience in the use of the target language outside the language classroom

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
The major consists of eight courses which must include the following: ¹		24
ASIA 150	Asia: An Introduction	
At least one other course (other than a language course or senior honors thesis course) taken within the Department of Asian Studies and chosen from the list below ²		
At least one course each from any two other departments		
At least one course numbered 400 or above ³		
At least two courses each from any two of the six geographic regions: China, Japan, Korea, Middle East, South Asia, Southeast Asia (see lists below)		
Additional Requirements		
Any Asian language through level 4 ⁴		4
Total Hours		28

¹ The same courses can be used to fulfill multiple requirements within the major.

² May not substitute a study abroad course.

³ May not be a language course.

⁴ The first three levels of a foreign language can count toward the General Education Foundations requirement and have not been included as additional hours for the major.

No more than one first-year seminar may be counted among the eight major courses.

With the approval of the associate chair of Asian studies, a student may substitute a course in directed readings (ASIA 496) for one of the major courses. To register for ASIA 496, a student must obtain the approval

of the associate chair and the faculty member who will supervise the project.

Of the eight major courses, at least six must be passed with a grade of C (not C-) or better.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Special Opportunities in Asian Studies

Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. ASIA 692H may count as one of the interdisciplinary courses for the major; ASIA 691H will count for elective credit only. In the case of the concentrations in Arab cultures, Chinese, Japanese, Korean studies, and South Asian studies, ASIA 692H may count toward the major in the concentration.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University's requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field

to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

Departmental Involvement

The department sponsors a variety of cultural events — lectures, film series, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus, such as the Japan Club, Chinese Conversation Club, Hebrew Table, and more.

Languages across the Curriculum

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic or Chinese but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic or Chinese language skills in a broader intellectual context.

Libraries

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media Resource Center at House Library.

Speaker Series

The department sponsors an annual speaker series. These events include lectures by prominent artists, scholars, and writers and are often cosponsored by other units on campus.

Study Abroad

UNC–Chapel Hill sponsors several study programs (summer, semester, and yearlong) in China, Egypt, India, Israel, Japan, Jordan, Korea, Mongolia, Morocco, Nepal, Oman, Singapore, Taiwan, Thailand, Turkey, and Vietnam. Asian studies majors are strongly encouraged to take advantage of these opportunities to live and study in an Asian setting; UNC-approved study abroad programs also satisfy the experiential education requirement. For further information on these programs and other study abroad opportunities in Asia, contact the UNC Study Abroad Office.

Undergraduate Research

The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Colloquium in Asian Studies and the campuswide Annual Celebration of Undergraduate Research in the spring.

Ash Barnes, Student Services Specialist

wow@unc.edu

The Department of Asian Studies offers six major concentrations, nine minors, and instruction in Asian and Middle Eastern languages. Students pursuing the B.A. degree in Asian Studies can complete the interdisciplinary major in Asian Studies, or concentrate in Arab Cultures, Chinese, Japanese, Korean Studies, or South Asian Studies.

Department Programs

Majors

- Asian Studies Major, B.A. – Interdisciplinary Concentration (p. 339)
- Asian Studies Major, B.A. – Arab Cultures Concentration (p. 345)
- Asian Studies Major, B.A. – Chinese Concentration (p. 347)
- Asian Studies Major, B.A. – Japanese Concentration (p. 350)
- Asian Studies Major, B.A. – Korean Studies Concentration (p. 352)
- Asian Studies Major, B.A. – South Asian Studies Concentration (p. 354)

Minors

- Arabic Minor (p. 357)
- Asian Studies Minor (p. 356)
- Chinese Minor (p. 358)
- Modern Hebrew Minor (p. 359)
- Hindi-Urdu Minor (p. 360)
- Japanese Minor (p. 362)
- Korean Minor (p. 362)
- Middle Eastern Languages Minor (p. 363)
- Persian Minor (p. 364)

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

- Identify or analyze significant aspects of the target cultures by interpreting texts and media
- Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language

- Demonstrate experience in the use of the target language outside the language classroom

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
ARAB 300	Arabic Grammar and Composition	3
or ARAB 301	Introduction to Qur'anic Arabic	
Two additional Arabic language courses beyond ARAB 204 ¹		6
One of the following introductory-level classes: ²		3
ASIA 73	First-Year Seminar: Popular Culture in the Arab World ³	
ARAB 150	Introduction to Arab Cultures	
ARAB 151	Arabic Literature through the Ages	
Four Arabic literature and culture courses (list below)		12
Additional Requirements		
Arabic through level 4 ⁴		4
Total Hours		28

¹ Students whose initial language placement is above ARAB 305 should consult the department.

² It is recommended that students take this course either prior to or concurrent with upper-level Arabic literature and culture classes.

³ No more than one first-year seminar may be counted among the eight major courses.

⁴ The first three levels of Arabic (ARAB) can count toward the General Education Foundations requirement and have not been included as additional hours for the major.

Arabic Literature and Culture Courses

Code	Title	Hours
At least three must be chosen from:		
ARAB 214	Medicine and Modernity in the Arab World	
ARAB 250	Introduction to the Languages of Morocco	
ARAB 253	Contemporary Moroccan Literature	
ARAB 337	Borders and Walls in the Arab World	
ARAB 350	Women and Leadership in the Arab World	
ARAB 353	Science and Society in the Middle East	
ARAB 407	Readings in Arabic I (taught in Arabic)	
ARAB 408	Readings in Arabic II (taught in Arabic)	
ARAB 434	Modern Arabic Literature in Translation	
ARAB 453	Film, Nation, and Identity in the Arab World	
ASIA 692H	Senior Honors Thesis II	

ASIA/CMPL 359	Literary Diasporas of the Middle East
ASIA/CMPL 442	Postcolonial Literature of the Middle East
ASIA/JWST/PWAD 357/362	The Arab-Jews: Culture, Community, and Coexistence
ASIA/JWST/PWAD 425	Beyond Hostilities: Israeli-Palestinian Exchanges and Partnerships in Film, Literature, and Music
ASIA/WGST 329	Middle East Women Writers
ASIA/WGST 471	Gender and Sexuality in Middle Eastern Literature
At most one course may be chosen from:	
ARAB/ASIA/RELI 681	Readings in Islamicate Literatures
ASIA/GEOG 447	Gender, Space, and Place in the Middle East
ASIA/HIST 138	History of Muslim Societies to 1500
ASIA/HIST 139	History of Muslim Societies since 1500
ASIA/HIST 276	The Modern Middle East
ASIA/HIST 277	The Conflict over Israel/Palestine
ASIA/HIST 536	Revolution in the Modern Middle East
ASIA/HIST 537	Women in the Middle East
ASIA/HIST 538	The Middle East and the West
ASIA/PWAD 435	The Cinemas of the Middle East and North Africa
ASIA/RELI 180	Introduction to Islamic Civilization
ASIA/RELI 181	Modern Muslim Societies
ASIA/RELI 581	Sufism
ASIA/RELI 582	Islam and Islamic Art in South Asia
ASIA/RELI 584	The Qur'an as Literature
FREN 617	Framing Identities: Franco-Arab Transvisual Transcultural Contexts
GEOG 59	First-Year Seminar: Space, Identity, and Power in the Middle East ¹
GEOG 448	Transnational Geographies of Muslim Societies
RELI 185	Women/Gender/Islam ^H
RELI 480	Modern Muslim Literatures
SOCI 60	First-Year Seminar: Sociology of the Islamic World ¹
SOCI 419	Sociology of the Islamic World
or approved courses taken in UNC–Chapel Hill-sponsored study abroad programs	

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ No more than one first-year seminar may be counted among the eight major courses.

Students majoring in Arab cultures are strongly encouraged to take additional Arabic literature or culture courses as electives or to fulfill General Education requirements.

Note that ARAB 308 does not count toward this major.

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian studies, a student may count a course in directed readings (ASIA 496 or ARAB 496) in the concentration in Arab cultures. To register for ASIA 496 or ARAB 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Of the eight courses in the concentration in Arab cultures, at least six must be passed with a grade of C (not C-) or better.

Special Opportunities in Asian Studies

Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. ASIA 692H may count as one of the interdisciplinary courses for the major; ASIA 691H will count for elective credit only. In the case of the concentrations in Arab cultures, Chinese, Japanese, Korean studies, and South Asian studies, ASIA 692H may count toward the major in the concentration.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University's requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

CHIN 551	Chinese Poetry in Translation	3
CHIN 552	Chinese Prose in Translation	3
CHIN 562	Contemporary Chinese Urban Culture and Arts	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional Notes for Both Tracks

Approved language courses taken in UNC–Chapel Hill-sponsored study abroad programs may count in the concentration. However, study abroad courses may not substitute for the two required culture courses, which must be taken in the Department of Asian Studies. No more than one first-year seminar or senior honors thesis course may be included among the two culture courses.

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian studies, a student may count a course in directed readings (ASIA 496 or CHIN 496) in the concentration in Chinese. To register for ASIA 496 or CHIN 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Of the eight courses in the concentration in Chinese, at least six must be passed with a grade of C (not C-) or better.

Special Opportunities in Asian Studies

Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. ASIA 692H may count as one of the interdisciplinary courses for the major; ASIA 691H will count for elective credit only. In the case of the concentrations in Arab cultures, Chinese, Japanese, Korean studies, and South Asian studies, ASIA 692H may count toward the major in the concentration.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University's requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

Departmental Involvement

The department sponsors a variety of cultural events — lectures, film series, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on

campus, such as the Japan Club, Chinese Conversation Club, Hebrew Table, and more.

Languages across the Curriculum

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic or Chinese but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic or Chinese language skills in a broader intellectual context.

The Department of Asian Studies offers six major concentrations, nine minors, and instruction in Asian and Middle Eastern languages. Students pursuing the B.A. degree in Asian Studies can complete the interdisciplinary major in Asian Studies, or concentrate in Arab Cultures, Chinese, Japanese, Korean Studies, or South Asian Studies.

Department Programs

Majors

- Asian Studies Major, B.A. –Interdisciplinary Concentration (p. 339)
- Asian Studies Major, B.A. –Arab Cultures Concentration (p. 345)
- Asian Studies Major, B.A. –Chinese Concentration (p. 347)
- Asian Studies Major, B.A. –Japanese Concentration (p. 350)
- Asian Studies Major, B.A. –Korean Studies Concentration (p. 352)
- Asian Studies Major, B.A. –South Asian Studies Concentration (p. 354)

Minors

- Arabic Minor (p. 357)
- Asian Studies Minor (p. 356)
- Chinese Minor (p. 358)
- Modern Hebrew Minor (p. 359)
- Hindi-Urdu Minor (p. 360)
- Japanese Minor (p. 362)
- Korean Minor (p. 362)
- Middle Eastern Languages Minor (p. 363)
- Persian Minor (p. 364)

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

- Identify or analyze significant aspects of the target cultures by interpreting texts and media
- Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language
- Demonstrate experience in the use of the target language outside the language classroom

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses

- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
JAPN 305	Advanced Japanese I ¹	3
JAPN 306	Advanced Japanese II	3
At least three advanced Japanese courses from the list below		9
At least two culture courses from the list below ²		6
One more course that may be from either the advanced Japanese list or the culture list ²		3
Additional Requirements		
Japanese through level 4 ³		4
Total Hours		28

¹ Students whose initial language placement is above JAPN 305 should consult the department.

² No more than one first-year seminar or senior honors thesis course may be included among the culture courses.

³ The first three levels of Japanese (JAPN) can count toward the General Education Foundations requirement and have not been included as additional hours for the major.

Approved courses taken in UNC–Chapel Hill-sponsored study abroad programs may count in the concentration.

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian studies, a student may count a course in directed readings (ASIA 496 or JAPN 496) in the concentration in Japanese. To register for ASIA 496 or JAPN 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Of the eight courses in the concentration in Japanese, at least six must be passed with a grade of C (not C-) or better.

Advanced Japanese Courses

Code	Title	Hours
JAPN 401	Gateway to Mastering Japanese	3
JAPN 408	Japanese Journalism	3
JAPN 410	Topics in Contemporary Japanese Literature	3
JAPN 411	Food and Culture in Japan	3
JAPN 412	Making Music in Japan	3
JAPN 414	Manga as a Japanese Art and Culture	3
JAPN 415	Sports in Japanese Culture	3
JAPN 416	Understanding Japanese Business Culture and Its Practice	3
JAPN 417	Japanese Culture through Film and Literature	3
JAPN 490	Topics in Japanese Language and Literature	3
JAPN 521	Investigating Japanese Culture through TV Dramas	3

JAPN 590	Advanced Topics in Japanese Language and Literature	3
----------	---	---

Culture Courses

Code	Title	Hours
ASIA 63	First-Year Seminar: Japanese Tea Culture	3
ASIA 233	Drugs, Sex, and Sovereignty in East Asia, 1800-1945	3
ASIA 692H	Senior Honors Thesis II	3
ASIA/CMPL 379 H	Cowboys, Samurai, and Rebels in Film and Fiction	3

HIST 271/ JAPN 231	Ancient and Medieval Japanese History and Culture	3
HIST 370/ JAPN 363	Samurai, Monks, and Pirates: History and Historiography of Japan's Long 16th Century	3
JAPN 160	Introduction to Japanese Literature in Translation	3
JAPN 162	Japanese Popular Culture	3
JAPN 246/ HIST 247	Early Modern Japanese History and Culture	3
JAPN 277	Empire of Sex: Eroticism, Mass Culture, and Geopolitics in Japan, 1945-Present	3
JAPN 375	The Culture of Modern, Imperial Japan, 1900-1945	3
JAPN 451	Swords, Tea Bowls, and Woodblock Prints: Exploring Japanese Material Culture	3
JAPN 482	Embodying Japan: The Cultures of Beauty, Sports, and Medicine in Japan	3
JAPN/LING 563	Structure of Japanese	3

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Special Opportunities in Asian Studies

Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. ASIA 692H may count as one of the interdisciplinary courses for the major; ASIA 691H will count for elective credit only. In the case of the concentrations in Arab cultures, Chinese, Japanese, Korean studies, and South Asian studies, ASIA 692H may count toward the major in the concentration.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University's requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

Departmental Involvement

The department sponsors a variety of cultural events — lectures, film series, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as

advisors to some of the many Asia-related student organizations on campus, such as the Japan Club, Chinese Conversation Club, Hebrew Table, and more.

Languages across the Curriculum

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic or Chinese but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic or Chinese language skills in a broader intellectual context.

Libraries

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media Resource Center at House Library.

Speaker Series

The department sponsors an annual speaker series. These events include lectures by prominent artists, scholars, and writers and are often cosponsored by other units on campus.

Study Abroad

UNC–Chapel Hill sponsors several study programs (summer, semester, and yearlong) in China, Egypt, India, Israel, Japan, Jordan, Korea, Mongolia, Morocco, Nepal, Oman, Singapore, Taiwan, Thailand, Turkey, and Vietnam. Asian studies majors are strongly encouraged to take advantage of these opportunities to live and study in an Asian setting; UNC-approved study abroad programs also satisfy the experiential education requirement. For further information on these programs and other study abroad opportunities in Asia, contact the UNC Study Abroad Office.

Undergraduate Research

The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Colloquium in Asian Studies and the campuswide Annual Celebration of Undergraduate Research in the spring.

Students pursuing the B.A. degree in Asian Studies can complete the interdisciplinary major in Asian Studies, or concentrate in Arab Cultures, Chinese, Japanese, Korean Studies, or South Asian Studies.

Department Programs

Majors

- Asian Studies Major, B.A. –Interdisciplinary Concentration (p. 339)
- Asian Studies Major, B.A. –Arab Cultures Concentration (p. 345)
- Asian Studies Major, B.A. –Chinese Concentration (p. 347)
- Asian Studies Major, B.A. –Japanese Concentration (p. 350)
- Asian Studies Major, B.A. –Korean Studies Concentration (p. 352)
- Asian Studies Major, B.A. –South Asian Studies Concentration (p. 354)

Minors

- Arabic Minor (p. 357)
- Asian Studies Minor (p. 356)
- Chinese Minor (p. 358)
- Modern Hebrew Minor (p. 359)
- Hindi-Urdu Minor (p. 360)
- Japanese Minor (p. 362)
- Korean Minor (p. 362)
- Middle Eastern Languages Minor (p. 363)
- Persian Minor (p. 364)

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

- Identify or analyze significant aspects of the target cultures by interpreting texts and media
- Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language
- Demonstrate experience in the use of the target language outside the language classroom

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

The eight core courses (24 credit hours) consist of two to four language courses and four to six literature and culture courses, as described below.

Code	Title	Hours
Core Requirements		
At least two Korean language courses beyond KOR 204. ¹		6-12
KOR 305	Advanced Korean I	
KOR 306	Advanced Korean II	
KOR 407	Modern Korean Literature and Culture	
KOR 408	Changes and Continuities in Korean History	
KOR 409	Korean Through Current Affairs	
KOR 490	Topics in Korean Language and Literature	
At least one introductory-level course chosen from the following list: ²		3-6
ASIA 72	First-Year Seminar: Transnational Korea: Literature, Film, and Popular Culture	
KOR 150	History, Memory, and Reality in Contemporary Korea	
KOR 151	Education and Social Changes in Contemporary Korea	
At least two Korean literature and culture courses chosen from the following list:		6-15
ASIA 350	The Asian American Experience	
ASIA 427/ CMPL 527/ PWAD 427	Cold War Culture in East Asia: Transnational and Intermedial Connections	
KOR/CMPL 232	Imagining the City in Modern Korea: Text, Image, Space	
KOR/CMPL/ WGST 237	Rebel, Lover, Martyr: Gender and Sexuality in North and South Korean Screen Cultures	
KOR 327	Korean Diasporas	
KOR 346/ CMPL 246	Body Politics in Modern Korean Literature ^H	
KOR 447/ CMPL 547	Documenting Diasporas: Korean Diasporas in Films and Documentaries	
Other major courses		0-9
ASIA/ECON 469	Asian Economic Systems	
ASIA 692H	Senior Honors Thesis II	
Additional Requirements		
Korean through level 4		4
Total Hours		28

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Students whose initial language placement is above KOR 305 should consult the department.

² No more than two introductory courses (6 hours) may count toward the major. It is recommended that students take at least one of these courses either prior to or concurrent with upper-level Korean literature and culture classes.

Approved courses taken in UNC–Chapel Hill-sponsored study abroad programs or taken from another institution may count in the concentration. No more than one first-year seminar may be counted among the eight major courses.

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian studies, a student may count a course in directed readings (KOR 496) in the concentration in Korean studies. To register, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Of the eight courses in the concentration in Korean studies, at least six must be passed with a grade of C (not C-) or better.

Stretching from Japan to the Arab world, Asia is the largest and most populous continent in the world and home to an array of diverse cultures and political structures. A minor in interdisciplinary Asian studies offers students the opportunity to study a broad range of topics, building the global awareness that will be useful in government employment; internationally oriented business, journalism, law, and teaching; as well as graduate study in a range of humanistic and social science disciplines.

Department Programs

Majors

- Asian Studies Major, B.A.—Interdisciplinary Concentration (p. 339)
- Asian Studies Major, B.A.—Arab Cultures Concentration (p. 345)
- Asian Studies Major, B.A.—Chinese Concentration (p. 347)
- Asian Studies Major, B.A.—Japanese Concentration (p. 350)
- Asian Studies Major, B.A.—Korean Studies Concentration (p. 352)
- Asian Studies Major, B.A.—South Asian Studies Concentration (p. 354)

Minors

- Arabic Minor (p. 357)
- Asian Studies Minor (p. 356)

- Chinese Minor (p. 358)
- Modern Hebrew Minor (p. 359)
- Hindi-Urdu Minor (p. 360)
- Japanese Minor (p. 362)
- Korean Minor (p. 362)
- Middle Eastern Languages Minor (p. 363)
- Persian Minor (p. 364)

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor 'core' requirements at UNC–Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 196).

A student may take an interdisciplinary minor in Asian studies by completing five courses from among those accepted for the interdisciplinary Asian studies major (p. 339). At least two courses must be taken within the Department of Asian Studies, chosen from the list in the section describing the major. (Study abroad courses may not be substituted for these two courses.) The courses taken for the minor must include one from three of the six regions of Asia (China, Japan, Korea, Middle East, South Asia, Southeast Asia), as defined in the section describing the major. Students interested in advanced Asian language training should consider the Arabic, Chinese, Hebrew, Hindi-Urdu, Japanese, Korean, Persian, or Middle Eastern languages minors.

No more than one first-year seminar may be counted toward the minor.

See program page here (p. 339) for special opportunities.

Political and economic developments in the Middle East, as well as the internationalization of many businesses and professions, have made understanding, speaking, reading, and writing Arabic an increasingly valuable skill. As the fifth most widely spoken language in the world, as one of the official languages of the United Nations, and as the religious language of a quarter of the world's population, Arabic is also a language

with a rich literary and cultural heritage that deserves to be studied in its own right.

Department Programs

Majors

- Asian Studies Major, B.A.–Interdisciplinary Concentration (p. 339)
- Asian Studies Major, B.A.–Arab Cultures Concentration (p. 345)
- Asian Studies Major, B.A.–Chinese Concentration (p. 347)

Chinese, a member of the Sino-Tibetan family of languages, is the most widely spoken language and the language with the longest continuous written history in the world. Modern standard Chinese (Putonghua/Guoyu) is a standardized form of spoken Chinese, based on the Beijing dialect of Mandarin Chinese. One of only six official languages of the United Nations, Chinese is spoken not only in China, Taiwan, and Singapore, but also throughout Southeast Asia, North America, Europe, and anywhere large Chinese communities congregate. In 2010, Chinese was named one of the languages considered critical to U.S. national security by the U.S. Department of Education.

Hebrew is one of the world's oldest languages still spoken today. It was similar in origin to ancient Phoenician and developed into an independent language in the 12th century BCE. Hebrew was the spoken language of the Patriarchs during the Biblical period, and the Bible is written in Hebrew. While Aramaic, which utilizes the same alphabet, replaced Hebrew as the spoken language for centuries, Hebrew remained a language used for ritual, prayer, literature, and written communication. As a spoken language, Modern Hebrew began to emerge in the late 19th century and became, in 1913, the official language of instruction in Jewish schools in the region of Palestine. In 1948, Hebrew (along with Arabic) became the official language of the modern state of Israel.

Hindi-Urdu is critical to global culture. South Asia is now a major economic and geopolitical power, and home to one-fifth of the world's population. By conservative estimates, over half a billion people speak the language in South Asia, and depending on chosen parameters, it is variously ranked as the second- to fourth-most widely spoken language in the world. To directly communicate with this vast population of Hindi-Urdu speakers and have unfettered and unfiltered access to the rich cultural history of North India and Pakistan, fluency in Hindi-Urdu is essential. There a rich literary tradition in Hindi-Urdu and its dialectal ancestors, going back about a thousand years. There is also a thriving popular culture of South Asia – one which is very much dependent on Hindi-Urdu.

Japan has the world's third largest economy, advanced technology in many areas, and an exciting popular culture that influences the Euro-American cultural mainstream. Friendships with Japanese, experience traveling abroad, or even enjoying Japanese food locally, as well as the practice of a martial art and the love of Japanese popular media such as manga and anime have motivated students to pursue the study of Japanese language, culture, and history at Carolina. Once in the program, students enjoy meeting others with similar enthusiasms and often take part in related extracurricular activities such as the Japan Club and the anime club (COUp).

Korea occupies a place of significant geopolitical, economic, and cultural importance in the world. It is a unique country where five thousand years of history and tradition coexist with the most advanced technological and

economic development. It is also a place where political and ideological differences divide the country into two Koreas (Republic of Korea, or South Korea, and Democratic Republic of Korea, or North Korea) that maintain one of the world's most fortified military zones. The Korean peninsula is home to over 72 million ethnic Koreans (North and South combined) and over 1.3 million recent migrants from all over the world. Approximately 7 million ethnic Koreans have migrated to other countries and have established diasporic communities in over 150 countries. The Korean language is spoken by over 75 million people around the world and ranks 13th among the most used languages in the world.

The minor in Middle Eastern languages is designed to encourage linguistic training that will prepare students for graduate study and for careers in journalism, foreign service, and international business, as

well as other fields related to the Middle East. Students declaring this minor will be able to demonstrate commitment to Middle East studies, which will be considered favorably in the selection process for Foreign Language and Area Studies (FLAS) fellowships. FLAS funding for Middle Eastern languages is available at UNC–Chapel Hill through five centers related to the Middle East, South Asia, and North Africa. Middle Eastern languages students can choose from Arabic, modern Hebrew, Hindi-Urdu, Persian, or Turkish.

Department Programs

Majors

- Asian Studies Major, B.A.–Interdisciplinary Concentration (p. 339)
- Asian Studies Major, B.A.–Arab Cultures Concentration (p. 345)
- Asian Studies Major, B.A.–Chinese Concentration (p. 347)
- Asian Studies Major, B.A.–Japanese Concentration (p. 350)
- Asian Studies Major, B.A.–Korean Studies Concentration (p. 352)
- Asian Studies Major, B.A.–South Asian Studies Concentration (p. 354)

Minors

- Arabic Minor (p. 357)
- Asian Studies Minor (p. 356)
- Chinese Minor (p. 358)
- Modern Hebrew Minor (p. 359)
- Hindi-Urdu Minor (p. 360)
- Japanese Minor (p. 362)
- Korean Minor (p. 362)
- Middle Eastern Languages Minor (p. 363)
- Persian Minor (p. 364)

Requirements

- In addition to the program requirements listed below, students must:
- take at least nine hours of their minor ‘core’ requirements at UNC–Chapel Hill
 - earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
The minor consists of five courses taken in any two of the Middle Eastern languages listed below.		
Three courses above 203 in one Middle Eastern language.		9-10
Two courses at any level in a second Middle Eastern language.		6-8
Total Hours		15-18

All courses must be selected from the list below:

Code	Title	Hours
Arabic		
ARAB 101	Elementary Arabic I	4
ARAB 102	Elementary Arabic II	4
ARAB 203	Intermediate Arabic I	4

ARAB 204	Intermediate Arabic II	4
ARAB 300	Arabic Grammar and Composition	3
ARAB 301	Introduction to Qur’anic Arabic	3
ARAB 305	Advanced Arabic I	3
ARAB 306	Advanced Arabic II	3
ARAB 407	Readings in Arabic I	3
ARAB 408	Readings in Arabic II	3
Modern Hebrew		
HEBR 101	Elementary Modern Hebrew I	3
HEBR 102	Elementary Modern Hebrew II	3
HEBR 203	Intermediate Modern Hebrew I	3
HEBR 204	Intermediate Modern Hebrew II	3
HEBR 305	Advanced Composition and Conversation: Immigration, Ethnicities, and Religious Traditions	3
HEBR 306	Advanced Composition and Conversation: Zionism and the Hebrew Language	3
Hindi-Urdu		
HNUR 101	Elementary Hindi-Urdu I	4
HNUR 102	Elementary Hindi-Urdu II	4
HNUR 203	Intermediate Hindi-Urdu I	3
HNUR 204	Intermediate Hindi-Urdu II	3
HNUR 305	Advanced Hindi-Urdu I	3
HNUR 306	Advanced Hindi-Urdu II	3
HNUR 407	South Asian Society and Culture	3
HNUR 408	South Asian Media and Film	3
HNUR 409	Sex and Social Justice in South Asia	3
HNUR 410	Seminar on the Urdu-Hindi Ghazal	3
HNUR 411	Health and Medicine in South Asia	3
HNUR 490	Topics in Hindi-Urdu Literature and Language	3
Persian		
PRSN 101	Elementary Persian I	3
PRSN 102	Elementary Persian II	3
PRSN 203	Intermediate Persian I	3
PRSN 204	Intermediate Persian II	3
PRSN 305	Persian Short Stories	3
PRSN 306	Persian Language through Literature, Film, and Media	3
Turkish		
TURK 101	Elementary Turkish I	3
TURK 102	Elementary Turkish II	3
TURK 203	Intermediate Turkish I	3
TURK 204	Intermediate Turkish II	3
TURK 305	Advanced Turkish I	3.0

Note that ARAB 308, HNUR 220, and HNUR 221 do not count toward this minor. Placement credit (PL) may not be used to meet minor requirements.

See the program page here (p. 339) for special opportunities.

Persian is an important language of the Middle East and Central Asia, spoken by approximately 70 million native speakers and roughly 110 million people worldwide. It is the official language of Iran. It also includes Persian Dari spoken in Afghanistan, and Tajik in Tajikistan. Studying Persian will also introduce you to the rich and diverse culture that produced major epic poets such as Ferdowsi, Sufi poets such as Rumi and Hafez, magnificent miniature paintings, fine carpets, and much more.

Department Programs

Majors

- Asian Studies Major, B.A. –Interdisciplinary Concentration (p. 339)
- Asian Studies Major, B.A. –Arab Cultures Concentration (p. 345)
- Asian Studies Major, B.A. –Chinese Concentration (p. 347)
- Asian Studies Major, B.A. –Japanese Concentration (p. 350)
- Asian Studies Major, B.A. –Korean Studies Concentration (p. 352)
- Asian Studies Major, B.A. –South Asian Studies Concentration (p. 354)

Minors

- Arabic Minor (p. 357)
- Asian Studies Minor (p. 356)
- Chinese Minor (p. 358)
- Modern Hebrew Minor (p. 359)
- Hindi-Urdu Minor (p. 360)
- Japanese Minor (p. 362)
- Korean Minor (p. 362)
- Middle Eastern Languages Minor (p. 363)
- Persian Minor (p. 364)

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor 'core' requirements at UNC–Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 196).

The undergraduate minor in Persian consists of four courses. Students may complete either two language courses and two culture courses, or three language courses and one culture course.

Code	Title	Hours
Core Requirements		
Two language courses beyond PRSN 203 (the first semester of intermediate Persian), chosen from:		6
PRSN 204	Intermediate Persian II	
PRSN 305	Persian Short Stories	
PRSN 306	Persian Language through Literature, Film, and Media	
One course chosen from among the following:		3
ASIA 124	Iranian Post-1979 Cinema	
ASIA 126	Introduction to Persian Literature	
ASIA 431	Persian Sufi Literature	
ASIA/CMPL 256	Love in Classical Persian Poetry	
ASIA/CMPL 258	Iranian Prison Literature	
ASIA/CMPL 359	Literary Diasporas of the Middle East	
ASIA/CMPL 442	Postcolonial Literature of the Middle East	
ASIA/GEOG/ WGST 447	Gender, Space, and Place in the Middle East	
ASIA/HIST 135	History of the Indian Subcontinent to 1750	
ASIA/HIST 138	History of Muslim Societies to 1500	
ASIA/HIST 139	History of Muslim Societies since 1500	
ASIA/HIST 276	The Modern Middle East	
ASIA/HIST 536	Revolution in the Modern Middle East	
ASIA/HIST 538	The Middle East and the West	
ASIA/HIST/ WGST 537	Women in the Middle East	
ASIA/PWAD 69	First-Year Seminar: Wars and Veterans: Iran, Iraq, and Afghanistan	
ASIA/PWAD 435	The Cinemas of the Middle East and North Africa	
ASIA/RELI 180	Introduction to Islamic Civilization	
ASIA/RELI 181	Modern Muslim Societies	
ASIA/RELI 581	Sufism	
ASIA/RELI 582	Islam and Islamic Art in South Asia	
ASIA/RELI 583	Religion and Culture in Iran, 1500-Present	
ASIA/WGST 127	Iranian Women Writers	
ASIA/WGST 329	Middle East Women Writers	
ASIA/WGST 471	Gender and Sexuality in Middle Eastern Literature	
HIST 74	First-Year Seminar: Emperors, Courts, and Consumption: The Mughals of India	
HIST 163	Modern Central Asia	
RELI 480	Modern Muslim Literatures	
SOCI 419	Sociology of the Islamic World	

A fourth course chosen from either the language or culture list above. 3

Total Hours 12

Placement credit (PL) may not be used to meet minor requirements.

See the program page here (p. 339) for special opportunities.

Leslie V. Parise, Chair

The Department of Biochemistry and Biophysics in the UNC School of Medicine offers a number of courses to undergraduate students, but offers only advanced degrees and not a B.A. or B.S. degree. Undergraduate students interested in these areas should take relevant courses in the biochemical division of the Department of Chemistry and the Department of Physics. The department serves undergraduate students who are interested in biochemical research or health-related careers. It offers a series of undergraduate biochemistry classes, research opportunities, and counseling to students taking premedical, predoctoral, prenursing, prepharmacy, or public health curricula.

Graduate Programs

- M.S. in Biochemistry and Biophysics (<http://catalog.unc.edu/graduate/schools-departments/biochemistry-biophysics/>)
- Ph.D. in Biochemistry and Biophysics (<http://catalog.unc.edu/graduate/schools-departments/biochemistry-biophysics/>)

BIOC–Biochemistry Undergraduate-level Courses

BIOC 107. Introduction to Biochemistry. 4 Credits.

Recommended preparation, one year of high school chemistry. Designed for students who desire a background in biochemistry as it relates to the human body, such as premed, prenursing, predoctoral hygiene, and allied health. Brief review of inorganic and organic chemistry, followed by a survey of biochemistry (survey continues in BIOC 108).

Gen Ed: PX.

Grading status: Letter grade.

BIOC 108. Introduction to Biochemistry. 4 Credits.

Designed for premed, prenursing, predoctoral hygiene, allied health, and other students who desire a background in biochemistry as it relates to the human body. Continuation of BIOC 107; covers basic and clinically relevant aspects of biochemistry. Three lecture hours and one two-hour laboratory a week.

Gen Ed: PX.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

BIOC 442. Biochemical Toxicology. 3 Credits.

Required preparation, one course in biochemistry. Biochemical actions of toxicants and assessment of cellular damage by biochemical measurements. Three lecture hours per week.

Requisites: Prerequisite, CHEM 430; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade

Same as: ENVR 442, TOXC 442.

BIOC 601. Enzyme Properties, Mechanisms, and Regulation. 3 Credits.

Focuses on enzyme architecture to illustrate how the shapes of enzymes are designed to optimize the catalytic step and become allosterically modified to regulate the rate of catalysis.

Requisites: Prerequisite, CHEM 430; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOC 631. Advanced Molecular Biology I. 3 Credits.

Required preparation for undergraduates, at least one undergraduate course in both biochemistry and genetics. DNA structure, function, and interactions in prokaryotic and eukaryotic systems, including chromosome structure, replication, recombination, repair, and genome fluidity. Three lecture hours a week.

Grading status: Letter grade

Same as: GNET 631, BIOL 631, MCRO 631.

BIOC 632. Advanced Molecular Biology II. 3 Credits.

Required preparation for undergraduates, at least one undergraduate course in both biochemistry and genetics. The purpose of this course is to provide historical, basic, and current information about the flow and regulation of genetic information from DNA to RNA in a variety of biological systems. Three lecture hours a week.

Grading status: Letter grade

Same as: GNET 632, BIOL 632, MCRO 632.

BIOC 643. Cell Structure, Function, and Growth Control I. 3 Credits.

Comprehensive introduction to cell structure, function, and transformation.

Requisites: Prerequisite, undergraduate cell biology or biochemistry or permission of the instructor.

Grading status: Letter grade

Same as: CBIO 643, PHCO 643, PHYI 643.

BIOC 649. Mathematics and Macromolecules. 1.5 Credit.

This course focuses on the application of mathematics to topics important in biophysics, such as thermodynamics and electrostatics. The unit is designed to help students perform more efficiently in BIOC 650, 651, and 652.

Grading status: Letter grade.

BIOC 650. Basic Principles: From Basic Models to Collections of Macromolecules. 1.5 Credit.

Required preparation, two semesters of physical chemistry or permission of the instructor. Basic molecular models and their use in developing statistical descriptions of macromolecular function. Course intended primarily for graduate students.

Requisites: Prerequisite, CHEM 430.

Grading status: Letter grade.

BIOC 651. Macromolecular Equilibria: Conformation Change and Binding. 1.5 Credit.

Required preparation, two semesters of physical chemistry or permission of the instructor. Macromolecules as viewed with modern computational methods. Course intended primarily for graduate students.

Requisites: Prerequisite, CHEM 430.

Grading status: Letter grade.

BIOC 652. Macromolecular Equilibria. 1.5 Credit.

Required preparation, two semesters of physical chemistry or permission of the instructor. Stability of macromolecules and their complexes with other molecules. Course intended primarily for graduate students.

Requisites: Prerequisite, CHEM 430.

Grading status: Letter grade.

BIOC 655. Case Studies in Structural Molecular Biology. 3 Credits.

Principles of macromolecular structure and function with emphasis on proteins, molecular assemblies, enzyme mechanisms, and ATP enzymology.

Requisites: Prerequisite, CHEM 430; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOC 660. Introduction to Light Microscopy. 1 Credit.

Fundamentals of optics and light microscope design for the novice student.

Requisites: Prerequisites, BIOC 650, 651, and 652 or permission of the course director.

Grading status: Letter grade.

BIOC 662. Macromolecular Interactions. 1 Credit.

Theory and practice of biophysical methods used in the study of interactions between macromolecules and their ligands, including surface plasmon resonance, analytical ultracentrifugation, and calorimetry.

Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOC 663A. Macromolecular NMR. 1 Credit.

Principles and practice of nuclear magnetic resonance spectroscopy: applications to biological macromolecule structure and dynamics in solution. Course intended primarily for graduate students.

Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOC 663B. Macromolecular NMR Practice. 1 Credit.

Lab section for BIOC 663A. Course intended primarily for graduate students.

Requisites: Prerequisite, BIOC 664; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOC 664. Macromolecular Spectroscopy. 1 Credit.

Required preparation, two semesters of physical chemistry or permission of the instructor. Principles of UV, IR, Raman, fluorescence, and spin resonance spectroscopies; applications to the study of macromolecules and membranes. Course intended primarily for graduate students.

Requisites: Prerequisite, CHEM 430.

Grading status: Letter grade.

BIOC 665. Advanced NMR Spectroscopy Course. 1 Credit.

Advanced NMR Spectroscopy

Grading status: Pass/Fail.

BIOC 666. X Ray Crystallography of Macromolecules. 1 Credit.

Principles of protein crystallography, characterization of crystals, theory of diffraction, phasing of macromolecular crystals and structure refinement. Course intended primarily for graduate students.

Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOC 667. Macromolecular Crystallographic Methods. 2 Credits.

A combined lecture/laboratory workshop for serious students of protein crystallography. Course intended primarily for graduate students.

Requisites: Prerequisite, BIOC 666; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOC 668. Principles of and Simulation of Macromolecular Dynamics. 1 Credit.

A combined lecture/computer lab treatment of the principles of macromolecular dynamics and structure as approached using the tools of molecular dynamics simulations. Course intended primarily for graduate students.

Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOC 670. Biomolecular Informatics. 1 Credit.

A combined lecture/computer lab course introducing the methods and principles of biological data management as this relates to macromolecular sequence analysis. Course intended primarily for graduate students.

Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOC 671. Summer Research in Biophysics. 3 Credits.

This class is a 10-week summer course in biophysics.

Grading status: Letter grade.

BIOC 673. Proteomics, Protein Identification and Characterization by Mass Spectrometry. 1 Credit.

A lecture module that introduces students to mass spectrometry-based proteomics in new biology discovery and precision medicine. Course intended primarily for graduate students.

Requisites: Prerequisites, BIOC 650, 651, and 652, or one semester of physical chemistry; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOC 674. Ion Channels Transporters. 1 Credit.

Ion Channels Transporters

Grading status: Pass/Fail.

BIOC 678. Electrical Signals from Macromolecular Assemblages. 2 Credits.

An intensive, six-hour per week introduction to the fundamentals of ion channel biophysics, including laboratory sessions to demonstrate principles and methods. Course intended primarily for graduate students.

Requisites: Prerequisites, BIOC 650, 651, and 652; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOC 690. Special Topics in Biochemistry. 1-3 Credits.

Special topics course. Content and topics will vary each semester.

Grading status: Letter grade.

Introduction

Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem. The major in biology provides a broad education directed toward an appreciation of the complexity of nature, and prepares students for careers in the biological, environmental, and medical sciences. The B.S. and B.A. majors in biology prepare students for careers in the health professions (including medical, dental, and veterinary) and in research or teaching in institutions of higher education, government, and private industry. Departmental majors gain a firm foundation in essential areas of biology through the core curriculum and have ample choices for study in various specialized subjects. A quantitative biology track in the B.S. major provides training in interdisciplinary computational approaches to studying biological questions. The department offers many opportunities for mentored undergraduate research and internships.

Advising

The biology department offers intensive advising services for our undergraduate students. The departmental advisor, Dr. Gidi Shemer (bishemer@email.unc.edu) (213A Coker Hall), will be happy to assist with course planning, career development, finding research opportunities, and any other question or concern with regards to the major. Biology majors interested in study abroad should contact Dr. Alain Laederach (alain@unc.edu) to learn about opportunities and transfer credits. For general assistance with registration in courses and various forms, please contact the biology undergraduate student services registrar, Ms. Summer Montgomery (sundance@unc.edu) in 213 Coker Hall.

Facilities

The Department of Biology occupies parts of four buildings: Wilson Hall and its annex, Coker Hall, Fordham Hall, and the Genome Sciences Building. The department is served by the Kenan Science Library, located in Venable Hall and Wilson Annex, which provides research information services and resources for the basic sciences. In addition, the department has greenhouses on the fifth floor of the Genome Sciences Building,

a microscopy facility that contains three confocal microscopes and associated support facilities, a P3 laboratory, a small-mammal facility, insect culturing rooms, and marine aquaria.

Graduate School and Career Opportunities

Those who plan careers in health sciences, including dentistry, medicine, veterinary medicine, and others, should consult with advisors in the Health Professions Advising Office in Steele Building. Those interested in science teaching can take the educational coursework required for a high school science teaching license through the UNC Baccalaureate Education in Science and Teaching (UNC-BEST (<http://www.unc.edu/uncbest/>)) program. Special courses in marine science are offered through the Department of Biology and the Department of Marine Sciences at the Institute of Marine Sciences, Morehead City, NC.

Majors

- Biology Major, B.S. (p. 384)
- Biology Major, B.S.—Quantitative Biology Track (p. 388)
- Biology Major, B.A. (p. 392)

Minor

- Biology Minor (p. 395)

Graduate Programs

- M.A. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)
- M.S. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)
- Ph.D. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)

Professors

Shawn Ahmed, Albert S. Baldwin Jr., Victoria L. Bautch, Kerry S. Bloom, John F. Bruno, Christina L. Burch, Frank L. Conlon, Gregory P. Copenhaver, Jeffrey L. Dangel, Robert J. Duronio, Carol L. Folt, Patricia G. Gensel, Amy Gladfelter, Robert P. Goldstein, Albert K. Harris, Tyson L. Hedrick, Alan M. Jones, Corbin D. Jones, Joseph J. Kieber, William M. Kier, Joel G. Kingsolver, Kenneth J. Lohmann, A. Gregory Matera, Steven W. Matson, Ann G. Matthyse, Laura A. Miller, Charles E. Mitchell, Mark A. Peifer, Charles H. Peterson, David W. Pfennig, Karin S. Pfennig, Jeff J. Sekelsky, Maria R. Servedio, Darrel W. Stafford.

Associate Professors

Sabrina E. Burmeister, Terrence S. Furey, Allen H. Hurlbert, Alain Laederach, Amy S. Maddox, Paul S. Maddox, Daniel R. Matute, Daniel J. McKay, Jason W. Reed, Stephen L. Rogers, Kevin C. Slep, Keith W. Sockman, Todd J. Vision.

Assistant Professors

Bradley Dickerson, Jill Downen, Rob Downen, Kacy Gordon, Toshihide Hige, Zachary Nimchuk, Celia Shiau, Brian Taylor, Caroline Tucker.

Teaching Professor

Kelly A. Hogan.

Teaching Associate Professors

Jennifer S. Coble, Corey S. Johnson, Gidi Shemer.

Teaching Assistant Professors

Mara Evans, Alaina Garland, Catherine M.F. Lohmann.

Affiliated Faculty

James Costa, Stephen T. Crews, Jean DeSaix, Joel Fodrie, Paul Gabrielson, William F. Marzluff, Robert K. Peet, Joseph Ruiz, John Salmeron, Edward D. Salmon, Aziz Sancar, Barbara D. Stegenga, Bryan Stuart, Damon Waitt, Alan S. Weakley, Scott E. Williams.

Research Faculty

Sarah R. Grant, Punita Nagpal, Mark Slabodnick, Jianke Tie, James Umbanhowar, Michael Werner, Christopher S. Willett, Elaine Y. Yeh.

Universidad San Francisco de Quito, Ecuador Affiliated Faculty

Paul Cardenas, Jaime Chaves, Juan Guayasamin, Alex Hearn, Antonio Leon-Reyes, Maria de Lourdes Torres, Gabriel Trueba.

Professors Emeriti

Edward G. Barry, Aristotle Domnas, J. Alan Feduccia, Max H. Hommersand, Gustavo P. Maroni, Donald W. Misch, Helmut C. Mueller, Clifford R. Parks, Tom K. Scott, Lillie L. Searles, Alan E. Stiven, Peter S. White, R. Haven Wiley.

Course List and Description

Stated prerequisites are understood to mean “or equivalent” and may be waived by the course instructor for students who are adequately prepared. BIOL 101/BIOL 101L is the prerequisite for most advanced work in biology. Entering first-year students may earn By-Examination (BE) credit for BIOL 101/BIOL 101L by either

1. scoring 3 or higher on the Biology Advanced Placement examination or
2. taking and passing the Department of Biology placement test offered several times during the year.

Sophomores, juniors, and seniors can earn only placement credit (PL, 0 hours) for passing the departmental examination. Additional information is available on the department Web site (<http://bio.unc.edu/undergraduate/biology-101-placement-exam/>).

Course numbers in the Department of Biology have been assigned according to the following principles:

First Digit

- Under 100: first-year seminars
- 100 to 199: first-year courses
- 200 to 299: second-year courses
- 300 to 399: advanced undergraduates only
- 400 to 599: courses for advanced undergraduates and graduate students

- 600 to 699: courses for graduate students that are open to exceptionally well-prepared undergraduates
- 700 and above: courses for graduate students only

Second Digit

- 0–1 general topics courses
- 2 genetics and molecular genetics
- 3 molecular biology and biochemistry
- 4 cell and developmental biology
- 5 organismal and ecological courses
- 6 ecology courses
- 7 courses that fulfill the organismal biology requirement
- 8 special courses
- 9 special topics and research

BIOL–Biology

Undergraduate-level Courses

BIOL 53. First-Year Seminar: Biotechnology: Genetically Modified Foods to the Sequence of the Human Genome. 3 Credits.

Restricted to first-year students. Introduction, in a first-year seminar, to recent advances in genetics and cell biology, and discussion and debate concerning how these advances are changing medicine, agriculture, and other aspects of our lives.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 55. First-Year Seminar: The Roots and Flowering of Civilization: A Seminar on Plants and People. 3 Credits.

Restricted to first-year students. The focus of this first-year seminar will be on the transition from hunter-gatherer, the interchange of crops, medicinal and psychoactive plants, and organic vs. industrial farming methods.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 57. First-Year Seminar: Detecting the Future: Human Diseases and Genetic Tests. 3 Credits.

Restricted to first-year students. A first-year seminar focusing on the future of human diseases and genetic tests.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 61. First-Year Seminar: Sea Turtles: A Case Study in the Biology of Conservation. 3 Credits.

Restricted to first-year students. An examination of the biology and conservation of sea turtles, with an emphasis on how current scientific research informs conservation practices.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 62. First-Year Seminar: Mountains Beyond Mountains: Infectious Disease in the Developing World. 3 Credits.

Restricted to first-year students. In this course we will examine the challenges of treating infectious disease in the developing world, and explore the root causes of global health care inequity. Honors version available

Gen Ed: PL, GL.

Grading status: Letter grade.

BIOL 62H. First-Year Seminar: Mountains Beyond Mountains: Infectious Disease in the Developing World. 3 Credits.

Restricted to first-year students. In this course we will examine the challenges of treating infectious disease in the developing world, and explore the root causes of global health care inequity.

Gen Ed: PL, GL.

Grading status: Letter grade.

BIOL 64. First-Year Seminar: Modeling Fluid Flow through and around Organs and Organisms. 3 Credits.

The focus of this FYS will be on organisms living within moving fluids. The natural world is replete with examples of animals and plants whose shape influences flow to their benefit. For example, the shape of a maple seed generates lift to allow for long distance dispersal. The structure of a pinecone helps it to filter pollen from the air. A falcon's form during a dive reduces drag and allows it to reach greater speeds.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 65. First-Year Seminar: Pneumonia. 3 Credits.

Restricted to first-year students. Pneumonia will be a lens to examine a thread of history of biology and medicine. Current research to understand the condition, discover treatment and enact prevention options will be examined.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 81. First-Year Seminar: Intuition, Initiative and Industry: Biologists as Entrepreneurs. 3 Credits.

Successful biologists are necessarily entrepreneurs. This course will explore the parallels between biology and entrepreneurship. We follow these steps: generating ideas, marketing those ideas, testing them, and producing a product.

Gen Ed: CI.

Grading status: Letter grade.

BIOL 89. First Year Seminar: Special Topics. 3 Credits.

Restricted to first-year students. This is a special topics course; content will vary.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

BIOL 101. Principles of Biology. 3 Credits.

Open to all undergraduates. This course is the prerequisite to most higher courses in biology. An introduction to the fundamental principles of biology, including cell structure, chemistry, and function; genetics; evolution; adaptation; and ecology. (See department concerning Advanced Placement credit.) Three lecture hours a week. Honors version available

Gen Ed: PX.

Grading status: Letter grade.

BIOL 101L. Introductory Biology Laboratory. 1 Credit.

An examination of the fundamental concepts in biology with emphasis on scientific inquiry. Biological systems will be analyzed through experimentation, dissection, and observation. Three laboratory hours a week. Students may not receive credit for both BIOL 101L and BIOL 102L.

Requisites: Pre- or corequisite, BIOL 101.

Gen Ed: CI.

Grading status: Letter grade.

BIOL 101H. Principles of Biology. 3 Credits.

Open to all undergraduates. This course is the prerequisite to most higher courses in biology. An introduction to the fundamental principles of biology, including cell structure, chemistry, and function; genetics; evolution; adaptation; and ecology. (See department concerning Advanced Placement credit.) Three lecture hours a week.

Gen Ed: PX.

Grading status: Letter grade.

BIOL 102L. Introductory Biology Laboratory with Research. 1 Credit.

This Course-based Undergraduate Research Experience (CURE) lab introduces students to the process of science through collaboration on a research project, learning relevant techniques and scientific skills, and presenting research results. Three laboratory hours a week. This lab can be taken in place of BIOL 101L. Students may not receive credit for both BIOL 101L and BIOL 102L.

Requisites: Pre- or corequisite, BIOL 101.

Gen Ed: CI, EE- Mentored Research.

Grading status: Letter grade.

BIOL 113. Issues in Modern Biology. 3 Credits.

For students not majoring in biology. Students who have taken any other course in the Department of Biology may not register for this course. Recent advances in the understanding of major principles in biology. Emphasis on genetics and medicine. Does not count as a course in the major. Three lecture hours a week.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 115. Reasoning with Data: Navigating a Quantitative World. 3 Credits.

Students will use mathematical and statistical methods to address societal problems, make personal decisions, and reason critically about the world. Authentic contexts may include voting, health and risk, digital humanities, finance, and human behavior. This course does not count as credit towards the psychology or neuroscience majors.

Gen Ed: QR.

Grading status: Letter grade

Same as: MATH 115, PSYC 115, STOR 115.

BIOL 117. Pre-Health Thrive-1 Considering Health Professions. 1 Credit.

This course provides exposure to a variety of health professions, emphasizing ways health care teams work together (interprofessional interactions). Self-assessments will be utilized to examine articulation between strengths and interests and the skills and competencies required in healthcare careers. Throughout the course, practitioners will provide insight into their professions such as allopathic and osteopathic medicine, podiatric medicine, veterinary medicine, optometry, dentistry, pharmacy, nursing, social work, and occupational therapy. Does not count toward major.

Grading status: Pass/Fail.

BIOL 118. Pre-Health Thrive-2 Pursuing Health Professions. 1 Credit.

This course will provide guidance to plan a path toward a profession of interest by selecting appropriate course, service, and research opportunities to include in a portfolio useful in completing applications. Application preparation and interview skills will be addressed for health professions programs such as allopathic and osteopathic medicine, podiatric medicine, veterinary medicine, optometry, dentistry, pharmacy, nursing, social work, occupational therapy, and many others. This does not count as a course in the major.

Grading status: Pass/Fail.

BIOL 150. First-Year Launch: The Creativity of Science, or Scientific Thinking in Biology. 3 Credits.

This course provides an introduction to the dynamic, creative, and open-ended process that is the scientific method. Through the analysis of news reports and primary scientific literature (covering a range of socially relevant biology topics), students will learn how to understand and interpret data, gain critical analysis skills, and begin to 'think like scientists.' Enrollment restricted to first-years and transfer students in their first year at UNC (transfer students, email instructor to be enrolled).

Gen Ed: PL.

Grading status: Letter grade.

BIOL 159. Prehistoric Life. 3 Credits.

Fossils and the origin and evolution of life, including micro- and macroevolution, mass extinctions, the evolution of dinosaurs and humans, and scientific perspectives on multicultural creationism.

Gen Ed: PL.

Grading status: Letter grade

Same as: GEOL 159.

BIOL 190. Special Topics in Biology at an Introductory Level. 3 Credits.

Special topics in biology at an introductory level. This course does not count as a course in the biology major.

Grading status: Letter grade.

BIOL 190L. Laboratory in Special Topics in Biology at an Introductory Level. 1 Credit.

Laboratory in special topics in biology at an introductory level. This course does not count as a course in the biology major.

Grading status: Letter grade.

BIOL 195. Introduction to Research. 1 Credit.

The research work must involve at least four hours per week of mentored research in a campus research laboratory. Does not count as a course in the major.

Repeat rules: May be repeated for credit. 2 total credits. 2 total completions.

Grading status: Pass/Fail.

BIOL 201. Ecology and Evolution. 4 Credits.

Principles governing the ecology and evolution of populations, communities, and ecosystems, including speciation, population genetics, population regulation, and community and ecosystem structure and dynamics. Three lecture hours and one recitation-demonstration-conference hour a week. Honors version available

Requisites: Prerequisites, BIOL 101 and CHEM 101 or 102; A grade of C or better in BIOL 101 and CHEM 101 or 102 required.

Gen Ed: PL, QI.

Grading status: Letter grade.

BIOL 201H. Ecology and Evolution. 4 Credits.

Principles governing the ecology and evolution of populations, communities, and ecosystems, including speciation, population genetics, population regulation, and community and ecosystem structure and dynamics. Three lecture hours and one recitation-demonstration-conference hour a week.

Requisites: Prerequisites, BIOL 101 and CHEM 101 or 102; A grade of C or better in BIOL 101 and CHEM 101 or 102 required.

Gen Ed: PL, QI.

Grading status: Letter grade.

BIOL 202. Molecular Biology and Genetics. 4 Credits.

Structure and function of nucleic acids, principles of inheritance, gene expression, and genetic engineering. Three lecture hours and one recitation-demonstration-conference hour a week. Honors version available

Requisites: Prerequisites, BIOL 101 and CHEM 101 or 102; A grade of C or better in BIOL 101 and CHEM 101 or 102 is required.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 202H. Molecular Biology and Genetics. 4 Credits.

Structure and function of nucleic acids, principles of inheritance, gene expression, and genetic engineering. Three lecture hours and one recitation-demonstration-conference hour a week.

Requisites: Prerequisites, BIOL 101 and CHEM 101 or 102; A grade of C or better in BIOL 101 and CHEM 101 or 102 is required.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 205. Cellular and Developmental Biology. 4 Credits.

Fundamentals of cell structure and activity in relation to special functions, metabolism, reproduction, embryogenesis, and with an introduction to the experimental analysis of cell physiology and development. Three lectures and one recitation-demonstration-conference hour a week. Honors version available

Requisites: Prerequisite, BIOL 202; a grade of C- or better in BIOL 202 is required.

Grading status: Letter grade.

BIOL 205H. Cellular and Developmental Biology. 4 Credits.

Fundamentals of cell structure and activity in relation to special functions, metabolism, reproduction, embryogenesis, and with an introduction to the experimental analysis of cell physiology and development. Three lectures and one recitation-demonstration-conference hour a week.

Requisites: Prerequisite, BIOL 202.

Grading status: Letter grade.

BIOL 211. Introduction to Research in Biology. 3 Credits.

Seminar based on current investigations at UNC. Students examine sources of scientific information, explore the logic of investigation, and develop proposals. Students with BIOL 211 credit may take a maximum of three hours of BIOL 395.

Requisites: Prerequisite, BIOL 201 or 202; permission of the instructor for students lacking the prerequisite; Not open to seniors.

Grading status: Letter grade.

BIOL 213. Evolution and Life. 3 Credits.

For students not majoring in biology. Introduction to the scientific study of biological evolution and its applications. The mechanisms that cause evolution and general patterns of evolution during the history of life. Does not count as a course in the major.

Requisites: Prerequisite, BIOL 101; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 214H. Mathematics of Evolutionary Processes. 3 Credits.

This Course-based Undergraduate Research Experience (CURE) class teaches students how scientists use mathematics to approach questions in evolutionary biology and ecology. Students learn both biological and mathematical concepts, taught using an array of pedagogical approaches. There are two group projects over the course of the semester, one involving the development of an original mathematical model.

Requisites: Prerequisites, BIOL 101 and MATH 231; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 214. Mathematics of Evolutionary Processes. 3 Credits.

This Course-based Undergraduate Research Experience (CURE) class teaches students how scientists use mathematics to approach questions in evolutionary biology and ecology. Students learn both biological and mathematical concepts, taught using an array of pedagogical approaches. There are two group projects over the course of the semester, one involving the development of an original mathematical model. Honors version available

Requisites: Prerequisites, BIOL 101 and MATH 231; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 217. The Physician's Garden. 3 Credits.

First-year transfer students only. This course combines human cell biology and classical botany elaborating the mode of action of plant metabolites in humans. Hands-on experience includes visits to a pharmaceutical company, a botanical garden, and maintaining the campus medicinal garden.

Requisites: Prerequisite, BIOL 101.

Grading status: Letter grade.

BIOL 221. Seafood Forensics. 3 Credits.

In this Course-based Undergraduate Research Experience (CURE) class, students will use forensic sciences (primarily DNA barcoding technology) to quantify seafood mislabeling. Students will learn the importance of food labeling as well as its impact on marine ecosystems and human health.

Requisites: Prerequisite, BIOL 101; corequisite, BIOL 221L; permission of the instructor for students lacking the requisites.

Grading status: Letter grade.

BIOL 221L. Seafood Forensics Laboratory. 1 Credit.

In this Course-based Undergraduate Research (CURE) lab, students will use forensic sciences (primarily DNA barcoding technology) to quantify seafood mislabeling. Students will perform experiments based on hypotheses formulated in the co-requisite lecture course.

Requisites: Prerequisite, BIOL 101; corequisite, BIOL 221; permission of the instructor for students lacking the requisites.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

BIOL 224H. The Mathematics of Life. 3 Credits.

Three lecture hours a week.

Requisites: prerequisite, MATH 231; Permission of the instructor for students lacking the prerequisite. Co-requisite, BIOL 224L; An accessible treatment of classic mathematical applications to molecules, cells, development, genetics, ecology, and evolution, complementing the material taught in BIOL 201, 202, and 205.

Grading status: Letter grade.

BIOL 224L. The Mathematics of Life Laboratory. 1 Credit.

An accessible treatment of classic mathematical applications to molecules, cells, development, genetics, ecology, and evolution, complementing the material taught in BIOL 201, 202, and 205. This lab component is programming-based.

Requisites: Prerequisite, MATH 231; Permission of the instructor for students lacking the prerequisite; corequisite, BIOL 224H.

Grading status: Letter grade.

BIOL 226. Mathematical Methods for Quantitative Biology. 3 Credits.

Introduction to quantitative biology with emphasis on applications that use mathematical modeling, linear algebra, differential equations, and computer programming. Applications may include neural networks, biomechanics, dispersion, and systems of biochemical reactions. Three lecture hours a week.

Requisites: Prerequisites, BIOL 201 or 202, and MATH 232 or 283.

Corequisite, BIOL 226L.

Gen Ed: QI.

Grading status: Letter grade.

BIOL 226L. Mathematical Methods for Quantitative Biology Laboratory. 1 Credit.

Introduction to quantitative biology with emphasis on applications that use mathematical modeling, linear algebra, differential equations, and computer programming. Applications may include neural networks, biomechanics, dispersion, and systems of biochemical reactions. Three laboratory hours a week.

Requisites: Prerequisites, BIOL 201 or 202, and MATH 232 or 283.

Corequisite, BIOL 226.

Grading status: Letter grade.

BIOL 251. Introduction to Human Anatomy and Physiology. 3 Credits.

This course relates the way in which the human body is constructed to the way in which it functions and is controlled. Students may not receive credit for both BIOL 251 and BIOL 252. Only offered through Continuing Studies.

Gen Ed: PX.

Grading status: Letter grade.

BIOL 251L. Human Physiology Virtual Laboratory. 1 Credit.

This is a course of simulated laboratory measurements exercises using typical data derived from actual physiological measurements on human subjects. Only offered through continuing education. Students may not receive credit for both BIOL 251L and BIOL 252.

Requisites: Pre- or corequisite, BIOL 251; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 252. Fundamentals of Human Anatomy and Physiology. 3 Credits.

One biology course over 200 recommended. An introductory but comprehensive course emphasizing the relationship between form and function of the body's organ systems. Three lecture hours each week. Students may not receive credit for BIOL 252 and BIOL 251 or BIOL 251L or BIOL 352 or BIOL 353. Honors version available

Requisites: Prerequisites, BIOL 101; corequisite, BIOL 252L.

Gen Ed: PX.

Grading status: Letter grade.

BIOL 252L. Fundamentals of Human Anatomy and Physiology Laboratory. 1 Credit.

Organ level human structure and function. Three laboratory hours a week.

Requisites: Prerequisite, BIOL 101, and BIOL 101L or BIOL 102L;

Corequisite, BIOL 252; Permission of the instructor for students lacking the pre- or corequisite.

Grading status: Letter grade.

BIOL 252H. Fundamentals of Human Anatomy and Physiology. 3 Credits.

One biology course over 200 recommended. An introductory but comprehensive course emphasizing the relationship between form and function of the body's organ systems. Three lecture hours each week. Students may not receive credit for BIOL 252 and BIOL 251 or BIOL 251L or BIOL 352 or BIOL 353.

Requisites: Prerequisites, BIOL 101; corequisite, BIOL 252L.

Gen Ed: PX.

Grading status: Letter grade.

BIOL 253L. Advanced Human Anatomy and Physiology Laboratory. 1 Credit.

In-depth study of physiological mechanisms by hands-on experimentation. Students gain experience in collecting, analyzing, and presenting human physiological data.

Requisites: Prerequisites, BIOL 252 and 252L; corequisite, BIOL 253.

Grading status: Letter grade.

BIOL 253. Advanced Human Anatomy and Physiology. 3 Credits.

In-depth study of physiological mechanisms at molecular, cellular, and system levels of organization. Students will develop analytical and problem solving skills. Intended for preprofessional students requiring a second semester of anatomy and physiology. Can be used as an allied science elective but not a biology elective course for the major or minor.

Requisites: Prerequisites, BIOL 252 and 252L; Corequisite, BIOL 253L.

Grading status: Letter grade.

BIOL 255. The Evolution of Extraordinary Adaptations. 3 Credits.

In this Course-based Undergraduate Research (CURE) class, students will learn how to do science. This includes formulating a question, collecting data, and statistical analysis, to presenting research results. Students will test new hypotheses in ecology and evolution for spectacular adaptations in the Venus flytrap and the scale-eating pupfish using field and laboratory experiments and observations. Honors version available

Requisites: Prerequisite, BIOL 101 and 101L; a grade of B or better in BIOL 101 is required. Corequisite, BIOL 255L.

Grading status: Letter grade.

BIOL 255L. The Evolution of Extraordinary Adaptations Laboratory. 1 Credit.

In this Course-based Undergraduate Research Experience (CURE) lab, students will learn how to do science. This includes formulating a question, collecting data, and statistical analysis, to presenting research results. Students will test new hypotheses in ecology and evolution for spectacular adaptations in the Venus flytrap and the scale-eating pupfish using field and laboratory experiments and observations.

Requisites: Prerequisite, BIOL 101 and 101L; corequisite, BIOL 255.

Grading status: Letter grade.

BIOL 255H. The Evolution of Extraordinary Adaptations. 3 Credits.

In this Course-based Undergraduate Research (CURE) class, students will learn how to do science. This includes formulating a question, collecting data, and statistical analysis, to presenting research results. Students will test new hypotheses in ecology and evolution for spectacular adaptations in the Venus flytrap and the scale-eating pupfish using field and laboratory experiments and observations.

Requisites: Prerequisite, BIOL 101 and 101L; a grade of B or better in BIOL 101 is required. Corequisite, BIOL 255L.

Grading status: Letter grade.

BIOL 256. Mountain Biodiversity. 4 Credits.

Introduction to the new field of biodiversity studies, which integrates approaches from systematics, ecology, evolution, and conservation. Taught at off-campus field station.

Grading status: Letter grade

Same as: ENEC 256.

BIOL 271. Plant Biology. 3 Credits.

Designed for students with an interest in natural sciences. An introduction to the principles of botany including structure, function, reproduction, heredity, environmental relationships, evolution and classification of plants. Three lecture hours a week.

Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 271L.

Gen Ed: PX.

Grading status: Letter grade.

BIOL 271L. Plant Biology Laboratory. 1 Credit.

Designed for students with an interest in natural sciences. An introduction to the principles of botany including structure, function, reproduction, heredity, environmental relationships, evolution and classification of plants. Three laboratory hours a week.

Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 271.

Grading status: Letter grade.

BIOL 272. Local Flora. 4 Credits.

Open to all undergraduates. North Carolina's flora: recognition, identification, classification, evolution, history, economics, plant families, ecology, and conservation. Three lecture and three laboratory hours per week.

Requisites: Prerequisites, BIOL 101, and 101L or 102L.

Gen Ed: PX.

Grading status: Letter grade

Same as: ENEC 272.

BIOL 273. Horticulture. 4 Credits.

The cultivation, propagation and breeding of plants, with emphasis on ornamentals. Control of environmental factors for optimal plant growth. Laboratory exercises include plant culture, propagation, pruning, and identification of common ornamentals. Two lecture, one recitation, and three laboratory hours a week.

Requisites: Prerequisite, BIOL 101.

Gen Ed: PX.

Grading status: Letter grade.

BIOL 274. Plant Diversity. 3 Credits.

Survey of major groups of plants emphasizing interrelationships and comparative morphology. Culturing techniques and field work included. Three lecture hours a week.

Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 274L.

Gen Ed: PX, EE- Field Work.

Grading status: Letter grade.

BIOL 274L. Plant Diversity Laboratory. 1 Credit.

Survey of major groups of plants emphasizing interrelationships and comparative morphology. Culturing techniques and field work included. Three laboratory hours a week.

Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 274.

Grading status: Letter grade.

BIOL 277. Vertebrate Field Zoology. 3 Credits.

Introduction to the diversity, ecology, behavior, and conservation of living vertebrates. Three lecture hours a week.

Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L.

Gen Ed: PX.

Grading status: Letter grade.

BIOL 277L. Vertebrate Field Zoology Laboratory. 1 Credit.

Study of the diversity of vertebrates in the field. Three laboratory and field hours a week, including one or two weekend trips.

Requisites: Corequisite, BIOL 277; Permission of the instructor for students lacking the corequisite.

Gen Ed: EE- Field Work.

Grading status: Letter grade.

BIOL 278. Animal Behavior. 3 Credits.

Introduction to animal behavior with emphases on the diversity and adaptation of behavior in natural conditions. Three lecture hours a week.

Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L.

Gen Ed: PX.

Grading status: Letter grade.

BIOL 278L. Animal Behavior Laboratory. 1 Credit.

Techniques of observation and experiments in animal behavior. Three laboratory hours a week.

Requisites: Pre- or corequisite, BIOL 278.

Grading status: Letter grade.

BIOL 279. Seminar in Organismal Biology. 2-3 Credits.

Permission of the instructor. An undergraduate course devoted to consideration of pertinent aspects of a selected organismal biological discipline.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 279L. Topics in Organismal Biology Laboratory. 1-2 Credits.

Permission of the instructor. An undergraduate laboratory course covering aspects of a specific organismal biological discipline. Laboratory reports will be required. Research work is not included in this course.

Grading status: Letter grade.

BIOL 290. Special Topics in Biology. 1-3 Credits.

Permission of the instructor. An undergraduate seminar course devoted to consideration of pertinent aspects of a selected biological discipline. Honors version available

Gen Ed: PL.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading status: Letter grade.

BIOL 290L. Special Topics in Biology Laboratory. 1-2 Credits.

Permission of the instructor. An undergraduate laboratory course covering aspects of a specific biological discipline. Laboratory reports will be required. Research work is not included in this course.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 3 total completions.

Grading status: Letter grade.

BIOL 290H. Special Topics in Biology. 1-3 Credits.

Permission of the instructor. An undergraduate seminar course devoted to consideration of pertinent aspects of a selected biological discipline.

Gen Ed: PL.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading status: Letter grade.

BIOL 291. Teaching Apprentice in Biology. 1 Credit.

Permission required. 3.0 or higher in course taught. Experience includes preparations, demonstrations, assistance, and attendance at weekly meetings. Apprentices will not be involved in any aspects of grading. May be repeated for credit.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 3 total credits. 3 total completions.

Grading status: Pass/Fail.

BIOL 292. Teaching Assistant in Biology. 2 Credits.

Permission required. 3.0 in course taught. Experience includes weekly meetings, preparations, demonstrations, instruction, and grading. May be repeated for credit. Six hours per week.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 3 total completions.

Grading status: Pass/Fail.

BIOL 293. Undergraduate Internship in Biology. 3 Credits.

Permission of the instructor. Biology majors only. The sponsored, off-campus work must involve at least 135 hours. Does not count as a course in the major.

Requisites: Prerequisite, BIOL 201 or 202.

Gen Ed: EE- Academic Internship.

Grading status: Letter grade.

BIOL 294. Service Learning in Biology: APPLES. 1-2 Credits.

Permission of the instructor. APPLES service-learning component for students enrolled in biology courses. Does not count as a course in the major. Honors version available

Gen Ed: EE- Service Learning.

Grading status: Letter grade.

BIOL 294H. Service Learning in Biology: APPLES. 1-2 Credits.

Permission of the instructor. APPLES service-learning component for students enrolled in biology courses. Does not count as a course in the major.

Gen Ed: EE- Service Learning.

Grading status: Letter grade.

BIOL 296. Directed Readings in Biology. 1-3 Credits.

Permission of the instructor. Extensive and intensive reading of the literature of a specific biological field directly supervised by a member of the biology faculty. Written reports on the readings, or a literature review paper will be required. Cannot be used as a course toward the major. Honors version available

Grading status: Letter grade.

BIOL 296H. Directed Readings in Biology. 1-3 Credits.

Permission of the instructor. Extensive and intensive reading of the literature of a specific biological field directly supervised by a member of the biology faculty. Written reports on the readings, or a literature review paper will be required. Cannot be used as a course toward the major.

Grading status: Letter grade.

BIOL 350. Oceanography. 3 Credits.

Required preparation, major in a natural science or two courses in natural sciences. Studies origin of ocean basins, seawater chemistry and dynamics, biological communities, sedimentary record, and oceanographic history. Term paper. Students lacking science background should see MASC 101. Students may not receive credit for both MASC 101 and MASC 401.

Grading status: Letter grade

Same as: MASC 401, ENVR 417, GEOL 403.

BIOL 390. Special Topics in Biology. 1-3 Credits.

Special topics course. Content and topics will vary each semester.

Repeat rules: May be repeated for credit. 9 total credits. 3 total completions.

Grading status: Pass/Fail.

BIOL 395. Undergraduate Research in Biology. 1-3 Credits.

Permission of the instructor. Majors only. Hands-on research in the laboratory and/or field involving the study of biology. Requires written paper (first semester) or research poster (second semester). Up to five total hours counts as a lecture course. Six total hours counts as a biology elective with laboratory. Honors version available

Requisites: Prerequisite, BIOL 201 or 202.

Gen Ed: EE- Mentored Research.

Repeat rules: May be repeated for credit. 6 total credits. 3 total completions.

Grading status: Letter grade.

BIOL 395H. Undergraduate Research in Biology. 1-3 Credits.

Permission of the instructor. Majors only. Hands-on research in the laboratory and/or field involving the study of biology. Requires written paper (first semester) or research poster (second semester). Up to five total hours counts as a lecture course. Six total hours counts as a biology elective with laboratory.

Requisites: Prerequisite, BIOL 201 or 202.

Gen Ed: EE- Mentored Research.

Repeat rules: May be repeated for credit. 6 total credits. 3 total completions.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**BIOL 402. Infectious Disease in the Developing World. 3 Credits.**

We will explore the challenges of infectious disease in the developing world, focusing on tuberculosis, HIV, and malaria. We will also examine the economics of different approaches to health care.

Requisites: Prerequisites, BIOL 202 and 205.

Grading status: Letter grade.

BIOL 409L. Art and Science: Merging Printmaking and Biology. 1 Credit.

Permission of the instructor. This is the lab component of ARTS 409 that brings together art majors and science majors to combine theory and practical learning in a biology laboratory, which focusing primarily on microscopic life and biological motion, with printmaking. Does not count as an elective towards the biology major.

Requisites: Prerequisite, BIOL 201, BIOL 202, or a 200-level ARTS course; corequisite, ARTS 409.

Grading status: Letter grade.

BIOL 410. Principles and Methods of Teaching Biology. 4 Credits.

This Makerspace designed course will develop the knowledge and skills teachers need to implement inquiry-based biology instruction: rich, conceptual knowledge of biology and mastery of inquiry-based teaching methods. Does not count as a laboratory course.

Requisites: Prerequisites, two of the three biology core courses: BIOL 201, 202, and/or 205.

Gen Ed: EE- Field Work.

Grading status: Letter grade.

BIOL 421L. Microbiology Laboratory with Research. 2 Credits.

Sterile technique, bacterial growth, physiology, genetics and diversity, and bacteriophage. Research in bacterial genetics.

Requisites: Pre- or corequisite, BIOL 422.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

BIOL 422. Microbiology. 3 Credits.

Bacterial form, growth, physiology, genetics, and diversity. Bacterial interactions including symbiosis and pathogenesis (animal and plant). Use of bacteria in biotechnology. Brief introduction to viruses.

Requisites: Prerequisite, BIOL 202; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 422L. Microbiology Laboratory. 1-2 Credits.

Sterile technique, bacterial growth and physiology, bacterial genetics, bacteriophage, and bacterial diversity.

Requisites: Pre- or corequisite, BIOL 422.

Grading status: Letter grade.

BIOL 423. Genetics Experiments. 3 Credits.

This is a Course-based Undergraduate Research Experience (CURE) combination course/lab. Using genetics and genome biology, students will study DNA repair and chromosome stability using yeast as a model system in a cutting edge research laboratory.

Requisites: Prerequisite, BIOL 202; corequisite, BIOL 423L.

Grading status: Letter grade.

BIOL 423L. Genetics Experiments Laboratory. 1 Credit.

This is a Course-based Undergraduate Research Experience (CURE) combination course/lab. Using genetics and genome biology, students will study DNA repair and chromosome stability using yeast as a model system in a cutting edge research laboratory.

Requisites: Prerequisite, BIOL 202; corequisite BIOL 423.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

BIOL 424. Microbial Ecology. 3 Credits.

Class emphasizes the creativity of the scientific process, using primary scientific literature as a framework to discuss topics in microbial ecology, including microbial diversity, distributions, genomics, and co-evolution; host-microbe and microbe-microbe interactions; nutrient cycling; and degradation of plant matter and biofuels.

Requisites: Prerequisites, BIOL 201 and 202; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 425. Human Genetics. 3 Credits.

Pedigree analysis, inheritance of complex traits, DNA damage and repair, human genome organization, DNA fingerprinting, the genes of hereditary diseases, chromosomal aberrations, cancer and oncogenes, immunogenetics and tissue transplants. Three lecture hours a week.

Requisites: Prerequisite, BIOL 202; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 426. Biology of Blood Diseases. 3 Credits.

An introduction to the biology and pathophysiology of blood and the molecular mechanisms of some human diseases: anemias; leukemias; hemorrhagic, thrombotic, and vascular disorders; and HIV disease/AIDS. Honors version available

Requisites: Prerequisite, BIOL 205; Permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade

Same as: PATH 426.

BIOL 426H. Biology of Blood Diseases. 3 Credits.

An introduction to the biology and pathophysiology of blood and the molecular mechanisms of some human diseases: anemias; leukemias; hemorrhagic, thrombotic, and vascular disorders; and HIV disease/AIDS.

Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade

Same as: PATH 426H.

BIOL 427. Human Diversity and Population Genetics. 3 Credits.

Specifically, it addresses questions of human origins, population structure, and genetic diversity. This course investigates the facts, methods, and theories behind human population genetics, evolution, and diversity.

Requisites: Pre- or corequisites, BIOL 201 and 202; permission of the instructor for students lacking the requisites.

Grading status: Letter grade.

BIOL 430. Introduction to Biological Chemistry. 3 Credits.

The study of cellular processes including catalysts, metabolism, bioenergetics, and biochemical genetics. The structure and function of biological macromolecules involved in these processes is emphasized.

Honors version available

Requisites: Prerequisites, BIOL 101, and CHEM 262 or 262H.

Grading status: Letter grade

Same as: CHEM 430.

BIOL 430H. Introduction to Biological Chemistry. 3 Credits.

The study of cellular processes including catalysts, metabolism, bioenergetics, and biochemical genetics. The structure and function of biological macromolecules involved in these processes is emphasized.

Requisites: Prerequisites, BIOL 101, and CHEM 262 or 262H.

Grading status: Letter grade

Same as: CHEM 430H.

BIOL 431. Biological Physics. 3 Credits.

How diffusion, entropy, electrostatics, and hydrophobicity generate order and force in biology. Topics include DNA manipulation, intracellular transport, cell division, molecular motors, single molecule biophysics techniques, nerve impulses, neuroscience.

Requisites: Prerequisites, PHYS 116 and 117, or PHYS 118 and 119.

Grading status: Letter grade

Same as: PHYS 405, BMME 435.

BIOL 434. Molecular Biology. 3 Credits.

Advanced studies in molecular biology from an experimental approach.

Requisites: Prerequisites, BIOL 202 and CHEM 261; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 436. Plant Genetics, Development, and Biotechnology. 3 Credits.

Recent advances in plant molecular biology, genetics, development, and biotechnology, and their potential relevance to agriculture. The course will include lectures, reading and discussions of papers from the primary literature, and student presentations. Honors version available

Requisites: Prerequisite, BIOL 271 or 202; Permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 436H. Plant Genetics, Development, and Biotechnology. 3 Credits.

Recent advances in plant molecular biology, genetics, development, and biotechnology, and their potential relevance to agriculture. The course will include lectures, reading and discussions of papers from the primary literature, and student presentations.

Requisites: Prerequisite, BIOL 271 or 202; Permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 439. Introduction to Signal Transduction. 3 Credits.

This course presents an introduction to signal transduction pathways used by higher eukaryotes. Several signaling paradigms will be discussed to illustrate the ways that cells transmit information. Three lecture hours per week.

Requisites: Prerequisites, BIOL 202 and 205; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 440. Stem Cell Biology. 3 Credits.

Stem cells are important for a number of biological processes and have become topics of fascination in popular science and culture. This course will build from a solid foundation of genetics, cell, and developmental biology to give students a broad appreciation of stem cells in development, aging, disease, and bioengineering. Students will understand key concepts in stem cell biology like potential and immortality as well as understand stem cells' promise and limitations in therapeutic settings.

Requisites: Prerequisite, BIOL 202.

Grading status: Letter grade.

BIOL 441. Vertebrate Embryology. 3 Credits.

Principles of development with special emphasis on gametogenesis, fertilization, cleavage, germ layer formation, organogenesis, and mechanisms, with experimental analysis of developmental processes. Three lecture hours a week.

Requisites: Prerequisite, BIOL 205 or 252; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 441L. Vertebrate Embryology Laboratory. 1 Credit.

Descriptive and some experimental aspects of vertebrate development.

Three laboratory hours a week.

Requisites: Pre- or corequisite, BIOL 441.

Grading status: Letter grade.

BIOL 442. Self Assembly in Cell Biology. 3 Credits.

In this class, we will read and discuss together the primary literature to understand how self-assembly in cell biology is harnessed in normal cells and goes awry in disease. A secondary goal will be for students to develop numeracy in cell biology so as to understand cell processes in a quantitative framework.

Requisites: Prerequisite, BIOL 205 and one additional course in biology numbered above BIOL 205.

Grading status: Letter grade.

BIOL 443. Developmental Biology. 3 Credits.

An experimental approach to an understanding of animals and plants. The approach covers developmental processes, molecular, genetic, cell biological and biochemical techniques, with an emphasis on the molecules involved in development.

Requisites: Prerequisites, BIOL 205 and CHEM 261; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 444. Molecular Basis of Disease. 3 Credits.

This course investigates the biological causes behind human diseases via critical thinking and analysis of experimental research outcomes. It approaches topics from a research perspective similar to a graduate seminar. Topics covered include genetic/inherited diseases, metabolic diseases, immunological disorders, infectious diseases, cancer, cardiovascular diseases, and neurological diseases.

Requisites: Prerequisite, BIOL 205.

Grading status: Letter grade.

BIOL 445. Cancer Biology. 3 Credits.

Selected examples will be used to illustrate how basic research allows us to understand the mechanistic basis of cancer and how these insights offer hope for new treatments.

Requisites: Prerequisites, BIOL 202 and 205.

Grading status: Letter grade.

BIOL 446. Unsolved Problems in Cellular Biology. 3 Credits.

A survey of areas of current interest in cytology, embryology, and genetics with concentration on problems that remain unsolved but that appear to be near solution. Three lecture and discussion hours a week.

Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 447. Cell Biology: Beyond Core Basics. 1 Credit.

Modern methods in cell biology.

Requisites: Prerequisite, BIOL 205; co-requisite, BIOL 447L; Required preparation, a grade of C+ or better in BIOL 205.

Grading status: Letter grade.

BIOL 447L. Cell Biology: Beyond Core Basics Laboratory. 3 Credits.

Modern methods in cell biology lab.

Requisites: Prerequisite, BIOL 205; co-requisite, BIOL 447; Required preparation, a grade of C+ or better in BIOL 205.

Grading status: Letter grade.

BIOL 448. Advanced Cell Biology. 3 Credits.

An advanced course in cell biology, with emphasis on the biochemistry and molecular biology of cell structure and function. Three lecture hours a week.

Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 449. Introduction to Immunology. 3 Credits.

This course provides a general overview of the evolution, organization, and function of the immune system. Instruction will be inquiry-based with extensive use of informational and instructional technology tools.

Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade

Same as: MCRO 449.

BIOL 450. Neurobiology. 3 Credits.

Recommended preparation, BIOL 205. Survey of neurobiological principles in vertebrates and invertebrates, including development, morphology, physiology, and molecular mechanisms. Three lectures a week.

Grading status: Letter grade.

BIOL 451. Comparative Physiology. 3 Credits.

An examination of the physiology of animals using a comparative approach. Both invertebrate and vertebrate animals are discussed in order to elucidate general principles.

Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L, and PHYS 104 or 114 or 116, and PHYS 105 or 115 or 117.

Grading status: Letter grade.

BIOL 451L. Comparative Physiology Laboratory. 1 Credit.

The fundamental principles of physiology are explored using physical models, animal experiments, and non invasive experiments on humans, reinforcing the understanding of concepts presented in lecture.

Requisites: Pre- or corequisite, BIOL 451.

Grading status: Letter grade.

BIOL 452. Marine Microbial Symbioses: Exploring How Microbial Interactions Affect Ecosystems and Human Health. 3 Credits.

Course material covers host-microbe and microbe-microbe interactions found in marine ecosystems, including beneficial and parasitic relationships among viruses, microbes, marine animals, and humans. Limited to upper-level undergraduate science majors and graduate students.

Gen Ed: PL.

Grading status: Letter grade

Same as: MASC 446.

BIOL 453. Molecular Control of Metabolism and Metabolic Disease. 3 Credits.

This class will cover the small molecules, enzymes, signaling proteins, and pathways that control metabolic processes and that are altered in metabolic disease. We will generally take an experimental approach to explore and understand the fundamental aspects of metabolism.

Requisites: Prerequisites, BIOL 202 and CHEM 261; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 454. Evolutionary Genetics. 3 Credits.

The roles of mutation, migration, genetic drift, and natural selection in the evolution of the genotype and phenotype. Basic principles are applied to biological studies. Three lecture hours a week.

Requisites: Prerequisites, BIOL 201 and 202; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 455. Behavioral Neuroscience. 3 Credits.

The neurobiological basis of animal behavior at the level of single cells, neural circuits, sensory systems, and organisms. Lecture topics range from principles of cellular neurobiology to ethological field studies.

Requisites: Prerequisite, BIOL 205; Permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 456. Marine Phytoplankton. 3 Credits.

Permission of the instructor. For junior and senior science majors or graduate students. Biology of marine photosynthetic protists and cyanobacteria. Phytoplankton evolution, biodiversity, structure, function, biogeochemical cycles and genomics. Harmful algal blooms, commercial products, and climate change. Three lecture/practical session hours per week.

Grading status: Letter grade

Same as: MASC 444, ENEC 444.

BIOL 457. Marine Biology. 3 Credits.

Recommended preparation, BIOL 201 or 475. A survey of plants and animals that live in the sea: characteristics of marine habitats, organisms, and the ecosystems will be emphasized. Marine environment, the organisms involved, and the ecological systems that sustain them.

Gen Ed: PL.

Grading status: Letter grade

Same as: MASC 442.

BIOL 458. Sensory Neurobiology and Behavior. 3 Credits.

Recommended preparation, BIOL 205. An exploration of sensory systems and sensory ecology in animals. Topics range from neurophysiological function of sensory receptors to the role of sensory cues in animal behavior.

Grading status: Letter grade.

BIOL 459. Field Biology at Highlands Biological Station. 1-4 Credits.

Content varies. Summer field biology at the Highlands Biological Station focuses on the special faunal and floristic processes and patterns characteristic of the southern Appalachian mountains. Five lecture and three to five laboratory and field hours per week, depending on credit.

Requisites: Prerequisite, BIOL 101; permission of the instructor for students lacking the prerequisite.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 2 total completions.

Grading status: Letter grade.

BIOL 461. Fundamentals of Ecology. 4 Credits.

Students will develop a comprehensive understanding of the field of ecology, including modern and emerging trends in ecology. They will develop literacy in the fundamental theories and models that capture ecological processes; emphasis will also be placed on the relevance of ecology and ecological research for human society.

Requisites: Prerequisite, BIOL 201.

Grading status: Letter grade

Same as: ENEC 461.

BIOL 462. Marine Ecology. 3 Credits.

Survey of the ecological processes that structure marine communities in a range of coastal habitats. Course emphasizes experimental approaches to addressing basic and applied problems in marine systems.

Requisites: Prerequisite, BIOL 201 or 475.

Gen Ed: PL.

Grading status: Letter grade

Same as: MASC 440.

BIOL 463. Field Ecology. 4 Credits.

Application of ecological theory to terrestrial and/or freshwater systems. Lectures emphasize quantitative properties of interacting population and communities within these systems. Required laboratory teaches methodology applicable for analysis of these systems. Projects emphasize experimental testing of ecological theory in the field. Two lecture and six field hours a week.

Requisites: Prerequisite, BIOL 201.

Gen Ed: EE- Field Work.

Grading status: Letter grade.

BIOL 464. Global Change Ecology. 3 Credits.

Responses of plants, animals, and communities to climate and other global changes, emphasizing ecology, physiology, behavior, and evolution. Investigation of past responses and tools for predicting future responses.

Requisites: Prerequisite, BIOL 201.

Grading status: Letter grade.

BIOL 465. Global Biodiversity and Macroecology. 3 Credits.

We will explore global patterns of diversity of plants, animals, fungi, and microbes, and the insights gained by taking a statistical approach to describing these and other broad-scale ecological patterns.

Requisites: Prerequisite, BIOL 201; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 469. Behavioral Ecology. 3 Credits.

BIOL 278 recommended but not required and can be taken concurrently. Behavior as an adaptation to the environment. Evolution of behavioral strategies for survival and reproduction. Optimality and games that animals play. Three lecture hours a week.

Requisites: Prerequisite, BIOL 201.

Grading status: Letter grade.

BIOL 471. Evolutionary Mechanisms. 3 Credits.

Introduction to mechanisms of evolutionary change, including natural selection, population genetics, life history evolution, speciation, and micro- and macroevolutionary trends. Three lecture hours a week.

Requisites: Prerequisites, BIOL 201 and 202; Corequisite, BIOL 471L; Permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 471L. Evolutionary Mechanisms Laboratory. 1 Credit.

Introduction to mechanisms of evolutionary change, including natural selection, population genetics, life history evolution, speciation, and micro- and macroevolutionary trends. Three laboratory hours a week.

Requisites: Prerequisites, BIOL 201 and 202; Corequisite, BIOL 471; Permission of the instructor for students lacking the requisites.

Grading status: Letter grade.

BIOL 472. Introduction to Plant Taxonomy. 4 Credits.

Introduction to the taxonomy of vascular plants. Principles of classification, identification, nomenclature, and description. Laboratory and field emphasis on phytography, families, description, identification, and classification of vascular plant species. Three lecture and three laboratory hours a week.

Requisites: Prerequisites, BIOL 271 and/or 272; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 473L. Mammalian Morphology Laboratory. 1 Credit.

Laboratory includes a detailed dissection of a representative mammal, emphasizing the common structure of mammals. Opportunity for independent investigation of specific functional adaptations of specialized forms.

Requisites: Corequisite, BIOL 473.

Grading status: Letter grade.

BIOL 473. Mammalian Morphology and Adaptation. 3 Credits.

An in-depth examination of the morphological adaptations of mammals. Particular attention will be given to osteology, the locomotor system, and craniofacial structures.

Requisites: Corequisite, BIOL 473L.

Grading status: Letter grade.

BIOL 474. Evolution of Vertebrate Life. 3 Credits.

Evolutionary history of the vertebrates. Emphasis on anatomical, physiological, behavioral adaptations accompanying major transitions: the move from water to land, the development of complex integrating systems. Honors version available

Requisites: Prerequisite, BIOL 201 or 202; permission of the instructor for students lacking the prerequisite.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 474L. Vertebrate Structure and Evolution Laboratory. 1 Credit.

Vertebrate comparative anatomy of organ systems and their evolution with emphasis on human anatomy. Three laboratory hours a week.

Requisites: Pre- or corequisite, BIOL 474.

Grading status: Letter grade.

BIOL 474H. Evolution of Vertebrate Life. 3 Credits.

Evolutionary history of the vertebrates. Emphasis on anatomical, physiological, behavioral adaptations accompanying major transitions: the move from water to land, the development of complex integrating systems.

Requisites: Prerequisite, BIOL 201 or 202; permission of the instructor for students lacking the prerequisite.

Gen Ed: PL.

Grading status: Letter grade.

BIOL 475. Biology of Marine Animals. 3 Credits.

Required preparation, one additional course in biology. An introduction to the major animal phyla emphasizing form, function, behavior, ecology, evolution, and classification of marine invertebrates. Three lecture and three laboratory hours per week.

Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; co-requisite, BIOL 475L.

Grading status: Letter grade.

BIOL 475L. Biology of Marine Animals Laboratory. 1 Credit.

This lab serves as an introduction to the major animal phyla emphasizing form, function, behavior, ecology, evolution, and classification of marine invertebrates.

Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; co-requisite, BIOL 475.

Grading status: Letter grade.

BIOL 476. Avian Biology. 3 Credits.

A study of avian evolution, anatomy, physiology, neurobiology, behavior, biogeography, and ecology. Three lecture hours a week.

Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L; corequisite, BIOL 476L.

Grading status: Letter grade.

BIOL 476L. Avian Biology Laboratory. 1 Credit.

Techniques for the study of avian evolution, ecology, and behavior with emphasis on North Carolina birds. Three laboratory or field hours a week, including one or two weekend field trips.

Requisites: Corequisite, BIOL 476.

Gen Ed: EE- Field Work.

Grading status: Letter grade.

BIOL 479. Topics in Organismal Biology at an Advanced Level. 3 Credits.

Topics in organismal biology at an advanced undergraduate or graduate student level.

Grading status: Letter grade.

BIOL 479L. Laboratory in Organismal Biology: Advanced Topics. 1-2 Credits.

Laboratory in topics in organismal biology for advanced undergraduates and graduate students.

Grading status: Letter grade.

BIOL 480. Discoveries in Prevention and Cure of Infectious Disease in London. 3 Credits.

This is a Burch summer honors course taught in London. We will examine three major discoveries relating to infectious disease (vaccination, transmission via water, and antibiotics) and one major epidemic (plague) which led to no scientific response and explore how the thought of the time influenced scientific research. Honors version available

Requisites: Prerequisite, BIOL 202.

Grading status: Letter grade.

BIOL 480H. Discoveries in Prevention and Cure of Infectious Disease in London. 3 Credits.

This is a Burch summer honors course taught in London. We will examine three major discoveries relating to infectious disease (vaccination, transmission via water, and antibiotics) and one major epidemic (plague) which led to no scientific response and explore how the thought of the time influenced scientific research.

Requisites: Prerequisite, BIOL 202.

Grading status: Letter grade.

BIOL 490. Advanced Topics in Biology. 3 Credits.

Permission of the instructor. Content will vary. Three lecture and discussion hours per week by visiting and resident faculty. Honors version available

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

BIOL 490H. Advanced Topics in Biology. 3 Credits.

Permission of the instructor. Content will vary. Three lecture and discussion hours per week by visiting and resident faculty.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

BIOL 495. Undergraduate Research in Biology. 1-3 Credits.

Permission of the instructor. Biology majors only. A continuation of the hands-on research in the laboratory and/or field that was started in BIOL 395. A final written paper is required each term. May be repeated. Does not count as a course in the major. Pass/fail credit only. Honors version available

Requisites: Prerequisite, BIOL 395.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Pass/Fail.

BIOL 495H. Undergraduate Research in Biology. 1-3 Credits.

Permission of the instructor. Biology majors only. A continuation of the hands-on research in the laboratory and/or field that was started in BIOL 395. A final written paper is required each term. May be repeated. Does not count as a course in the major. Pass/fail credit only.

Requisites: Prerequisite, BIOL 395.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Pass/Fail.

BIOL 501. Ethical Issues in Life Sciences. 3 Credits.

Permission of the instructor. A consideration and discussion of ethical issues in life sciences including cloning humans, genetic engineering, stem cell research, organ transplantation, and animal experimentation. Counts as a course numbered below 400 for biology major requirements.

Grading status: Letter grade.

BIOL 514. Evolution and Development. 3 Credits.

The course examines the mechanisms by which organisms are built and evolve. In particular, it examines how novel and complex traits and organisms arise from interactions among genes and cells. Honors version available

Requisites: Prerequisites, BIOL 201, 202, and 205; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 514H. Evolution and Development. 3 Credits.

The course examines the mechanisms by which organisms are built and evolve. In particular, it examines how novel and complex traits and organisms arise from interactions among genes and cells.

Requisites: Prerequisites, BIOL 201, 202, and 205; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 523. Sex Differences in Human Disease. 3 Credits.

Many human diseases including cancer, cardiovascular disease, dementia, chronic kidney disease, obesity, and auto-immune disease differ in their pathology and treatment between males and females. The class will first cover the hormonal and genetic mechanisms of sex determination, and then build on this knowledge to understand sexual disparities in the development and potential treatments of disease. The course will be based on primary literature and discussions of experimental evidence.

Requisites: Prerequisite, BIOL 202 or 205.

Grading status: Letter grade.

BIOL 524. Strategies of Host-Microbe Interactions. 3 Credits.

There is great variety in how microbes colonize and live with their hosts. The course will summarize strategies of pathogenicity, symbiosis, commensalism and mutualism. Evolutionary, cellular, and molecular aspects will be analyzed.

Requisites: Prerequisite, BIOL 205; Permission of the instructor for students lacking the prerequisite.

Gen Ed: Cl.

Grading status: Letter grade.

BIOL 525. Analysis and Interpretation of Sequence-Based Functional Genomics Experiments. 3 Credits.

Practical introduction to functional genomics experiments, such as RNA-seq and ChIP-seq, and computational techniques for the analysis of these data derived from high-throughput sequencing. Interpretation of results will be stressed. Basic knowledge of molecular biology, beginning level computational skills, and familiarity with basic statistical concepts are expected. Three lecture hours a week.

Requisites: Prerequisites, BIOL 202, COMP 110 or 116, and STOR 155; corequisite, BIOL 525L.

Grading status: Letter grade.

BIOL 525L. Analysis and Interpretation of Sequence-Based Functional Genomics Experiments Laboratory. 1 Credit.

Computer lab will provide students with experience using computational software for analysis of functional genomics experiments. Basic knowledge of molecular biology, beginning level computer skills, and familiarity with basic statistical concepts are expected. One laboratory hour a week.

Requisites: Prerequisites, BIOL 202, COMP 110 or 116, and STOR 155; corequisite, BIOL 525.

Grading status: Letter grade.

BIOL 526. Computational Genetics. 4 Credits.

Introduction to computational principles underlying sequence alignment and phylogenetics, genome assembly and annotation, analysis of gene function, and other bioinformatics applications. Includes a one-hour computer laboratory. Honors version available

Requisites: Prerequisites, BIOL 202, STOR 155, and one of BIOL 226, COMP 110, or COMP 116; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 526H. Computational Genetics. 4 Credits.

Introduction to computational principles underlying sequence alignment and phylogenetics, genome assembly and annotation, analysis of gene function, and other bioinformatics applications. Includes a one-hour computer laboratory.

Requisites: Prerequisites, BIOL 202, STOR 155, and one of BIOL 226, COMP 110, or COMP 116; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 527. Seminar in Quantitative Biology. 3 Credits.

Seminar in quantitative biology for advanced students. The course counts as a quantitative biology course for the major.

Requisites: Prerequisites, COMP 110 or COMP 116, and MATH 232 or MATH 283; Permission of the instructor for students lacking the prerequisites.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

BIOL 527L. Laboratory in Quantitative Biology. 1 Credit.

Laboratory in quantitative biology for advanced students. The laboratory will involve mathematical analysis and modeling of biological systems and processes.

Repeat rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading status: Letter grade.

BIOL 528. Quantitative Personalized Genomics. 3 Credits.

Personalized medicine, specifically using genetic markers to improve outcomes and minimize side effects (pharmacogenomics) requires the development and application of advanced computational and quantitative techniques. Students will develop computational skills to address contemporary genomic and statistical problems.

Requisites: Prerequisites, BIOL 202 and one of COMP 116, COMP 110, BIOL 226/BIOL 226L; Corequisite, BIOL 528L; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 528L. Quantitative Personalized Genomics Laboratory. 1 Credit.

Personalized medicine, specifically using genetic markers to improve outcomes and minimize side effects (pharmacogenomics) requires the development and application of advanced computational and quantitative techniques. Students will develop computational skills to address contemporary genomic and statistical problems in a lab setting.

Requisites: Prerequisites, BIOL 202 and one of COMP 116, COMP 110, BIOL 226/BIOL 226L; Corequisite, BIOL 528; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 529. Clinical and Counseling Aspects of Human Genetics. 3 Credits.

Topics in clinical genetics including pedigree analysis, counseling/ethical issues, genetic testing, screening, and issues in human research. Taught in a small group format. Active student participation is expected.

Requisites: Prerequisite, BIOL 425; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade

Same as: GNET 635.

BIOL 532. Recent Discoveries in Molecular Biology. 3 Credits.

This course examines recent insights into molecular and cellular processes obtained through modern experimental approaches. Extensive reading of primary literature, discussed in a seminar format.

Requisites: Prerequisites, BIOL 202, and either BIOL 205 or a 400-level BIOL course; Permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 534. Mathematical Modeling in the Life Sciences. 3 Credits.

Requires some knowledge of computer programming. Model validation and numerical simulations using ordinary, partial, stochastic, and delay differential equations. Applications to the life sciences may include muscle physiology, biological fluid dynamics, neurobiology, molecular regulatory networks, and cell biology.

Requisites: Prerequisite, MATH 383.

Gen Ed: QI.

Grading status: Letter grade

Same as: MATH 564.

BIOL 535. Molecular Biology Techniques. 4 Credits.

Permission of the instructor. Recommended preparation, BIOL 434. Experiments with bacterial phage, nucleic acid isolation and properties, recombinant DNA techniques, and DNA sequencing. Additional hours in laboratory will be necessary to complete assignments.

Grading status: Letter grade.

BIOL 537. Biotechnology and Synthetic Biology. 3 Credits.

Recent advances in biotechnology and synthetic biology, and their potential relevance to medicine, agriculture, and engineering. The course will include lectures, reading and discussions of papers from the primary literature, and student projects and presentations.

Requisites: Prerequisite, BIOL 202.

Grading status: Letter grade.

BIOL 542. Light Microscopy for the Biological Sciences. 3 Credits.

Permission of the instructor. Introduction to various types of light microscopy, digital and video imaging techniques, and their application in biological sciences.

Requisites: Prerequisite, BIOL 205 for undergraduates.

Grading status: Letter grade.

BIOL 543. Cardiovascular Biology. 3 Credits.

An experimental approach to understanding cardiovascular development, function, and disease. It covers cardiovascular development (heart, blood vasculature, lymphatic vasculature) and cardiovascular function as linked to selected diseases. Focus on molecular, genetic, cell biological, and biochemical techniques used to study the cardiovascular system, with an emphasis on the genes and signaling pathways involved in cardiovascular development and disease. Most topics will be paired with a research paper from the primary literature. Honors version available

Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 543H. Cardiovascular Biology. 3 Credits.

An experimental approach to understanding cardiovascular development, function, and disease. It covers cardiovascular development (heart, blood vasculature, lymphatic vasculature) and cardiovascular function as linked to selected diseases. Focus on molecular, genetic, cell biological, and biochemical techniques used to study the cardiovascular system, with an emphasis on the genes and signaling pathways involved in cardiovascular development and disease. Most topics will be paired with a research paper from the primary literature.

Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 544L. Laboratory in Diseases of the Cytoskeleton. 3 Credits.

This laboratory course offers students the chance to engage in cutting-edge biochemical and cell biological research related to ongoing cytoskeletal research projects in the labs of two UNC faculty members. The course is composed of lectures and laboratory research. Students will become involved in all scientific processes: analysis of prior work, hypothesis generation and testing, data analysis and quantitation, and the presentation of data and conclusions.

Requisites: Prerequisites, BIOL 205 and CHEM 430; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 545. Exploring Brain, Gut, and Immunity. 3 Credits.

The course will explore topics that relate to how the brain and the gut communicate with one another. The course will also examine the connection between the brain-gut axis to the immune system and the microbiota at a molecular, cellular, and organismal level. Students will survey these emerging research topics and critically think, critique, and understand the experimental evidence for what we understand today about the gut and brain relationship. Honors version available

Requisites: Prerequisite, BIOL 205.

Grading status: Letter grade.

BIOL 545H. Exploring Brain, Gut, and Immunity. 3 Credits.

The course will explore topics that relate to how the brain and the gut communicate with one another. The course will also examine the connection between the brain-gut axis to the immune system and the microbiota at a molecular, cellular, and organismal level. Students will survey these emerging research topics and critically think, critique, and understand the experimental evidence for what we understand today about the gut and brain relationship.

Requisites: Prerequisite, BIOL 205.

Grading status: Letter grade.

BIOL 547. Synaptic Plasticity: Analysis of Primary Literature. 3 Credits.

In this highly interactive, small-group course, we will read a series of scientific papers that elegantly demonstrate molecular events that are fundamental to synaptic plasticity, a key mechanism of learning and memory. Students will become familiar with this exciting neuroscience topic, and also learn how to interpret experimental data and read papers critically and objectively. We will also think about the future experiments suggested by each paper we read.

Requisites: Prerequisite, BIOL 202.

Grading status: Letter grade.

BIOL 551. Comparative Biomechanics. 3 Credits.

Recommended preparation, PHYS 105. The structure and function of organisms in relation to the principles of fluid mechanics and solid mechanics.

Requisites: Prerequisites, BIOL 101, and BIOL 101L or BIOL 102L, and PHYS 104 or PHYS 116.

Grading status: Letter grade.

BIOL 552. Behavioral Endocrinology. 3 Credits.

Undergraduates need permission of the instructor to enroll. The study of the interactions among hormones, the brain, and behavior from how hormones shape the development and expression of behaviors to how behavioral interactions regulate endocrine physiology.

Grading status: Letter grade.

BIOL 553. Mathematical and Computational Models in Biology. 3 Credits.

This course introduces analytical, computational, and statistical techniques, such as discrete models, numerical integration of ordinary differential equations, and likelihood functions, to explore various fields of biology.

Requisites: Prerequisites, BIOL 201 and 202, MATH 231, and either MATH 232 or STOR 155; Co-requisite, BIOL 553L/MATH 553L; permission of the instructor for students lacking the requisites.

Gen Ed: QI.

Grading status: Letter grade

Same as: MATH 553.

BIOL 553L. Mathematical and Computational Models in Biology Laboratory. 1 Credit.

This lab introduces analytical, computational, and statistical techniques, such as discrete models, numerical integration of ordinary differential equations, and likelihood functions, to explore various fields of biology.

Requisites: Prerequisites, BIOL 201 and 202, MATH 231, and either MATH 232 or STOR 155; Co-requisite, BIOL 553/MATH 553; Permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade

Same as: MATH 553L.

BIOL 554. Introduction to Computational Neuroscience. 3 Credits.

This course covers various mathematical tools and techniques for modeling the various elements and phenomena that comprise the nervous system and brain.

Requisites: Prerequisites, BIOL 201 or 202; MATH 231; and one of BIOL 226, COMP 110, or COMP 116; permission of the instructor for students lacking the prerequisites .

Grading status: Letter grade.

BIOL 555. Paleobotany: An Introduction to the Past History of Plants. 3 Credits.

An introduction to the fossil record of plants, investigating how plants originated and changed through geological time to produce the modern flora. Both macrofossils and microfossils will be considered. Three lecture hours a week.

Requisites: Prerequisites, BIOL 202, and one other BIOL course above 200; corequisite, BIOL 555L; permission of the instructor for students lacking the requisites.

Gen Ed: EE- Field Work.

Grading status: Letter grade

Same as: GEOL 555.

BIOL 555L. Paleobotany: An Introduction to the Past History of Plants Laboratory. 1 Credit.

The laboratory involves learning how to locate, collect, prepare, and analyze fossil plants; it also provides fossils that illustrate topics covered in lecture. Students will be involved in field trips to fossil sites and museums to learn about fossil curation and display of fossils for public education. Three laboratory hours a week.

Requisites: Prerequisites, BIOL 202 and one other BIOL course above 200; corequisite, BIOL 555.

Grading status: Letter grade.

BIOL 561. Ecological Plant Geography. 3 Credits.

Description of the major vegetation types of the world including their distribution, structure, and dynamics. The principal causes for the distribution of plant species and communities, such as climate, soils, and history will be discussed.

Requisites: Prerequisite, BIOL 101 or GEOG 110; Permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 562. Statistics for Environmental Scientists. 4 Credits.

Introduction to the application of quantitative and statistical methods in environmental science, including environmental monitoring, assessment, threshold exceedance, risk assessment, and environmental decision making.

Requisites: Prerequisite, STOR 155.

Grading status: Letter grade

Same as: ENEC 562.

BIOL 563. Statistical Analysis in Ecology and Evolution. 4 Credits.

Application of modern statistical analysis and data modeling in ecological and evolutionary research. Emphasis is on computer-intensive methods and model-based approaches. Familiarity with standard parametric statistics is assumed.

Requisites: Prerequisites, MATH 231 and STOR 151; Permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade

Same as: ENEC 563.

BIOL 565. Conservation Biology. 3 Credits.

The application of biological science to the conservation of populations, communities, and ecosystems, including rare species management, exotic species invasions, management of natural disturbance, research strategies, and preserve design principles. Honors version available

Requisites: Prerequisite, BIOL 201; Permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 565H. Conservation Biology. 3 Credits.

The application of biological science to the conservation of populations, communities, and ecosystems, including rare species management, exotic species invasions, management of natural disturbance, research strategies, and preserve design principles.

Requisites: Prerequisite, BIOL 201; Permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 567. Evolutionary Ecology. 3 Credits.

Advanced consideration of the evolution of form and function. May include issues in life-history evolution, evolutionary physiology, evolutionary morphology, and the evolution of complexity. Three lecture hours per week.

Requisites: Prerequisite, BIOL 471; Permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 568. Disease Ecology and Evolution. 3 Credits.

Recommended preparation, one course above 400 in ecology or evolution. An advanced class covering the causes and consequences of infectious disease at the levels of whole organisms, populations, communities, and ecosystems.

Requisites: Prerequisites, BIOL 201 and MATH 231; Permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 579. Organismal Structure and Diversity in the Southern Appalachian Mountains. 4 Credits.

Permission of the instructor. An examination of the field biology of selected fungi, plants, or animals of the Appalachian Mountains. The morphology, taxonomy, ecology, life history, and behavior of the organisms will be explored both in the laboratory and in the field.

Grading status: Letter grade.

BIOL 590. Advanced Special Topics in Biology. 3 Credits.

Special topics in biology for advanced undergraduate students and graduate students.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

BIOL 590L. Laboratory in Advanced Special Topics in Biology. 1 Credit.

Laboratory at an advanced level in special topics in biology. Students should have had considerable previous laboratory experience.

Repeat rules: May be repeated for credit. 2 total credits. 2 total completions.

Grading status: Letter grade.

BIOL 602. Professional Development Skills for Ecologists and Biologists. 3 Credits.

The goal of this course is to help students who intend to become professional ecologists or biologists acquire critical skills and strategies needed for achieving their career goals.

Grading status: Letter grade

Same as: ENEC 602.

BIOL 604. Laboratory Practices for New Investigators. 1 Credit.

Required preparation, participation in an ongoing laboratory research project. Permission of the instructor. A seminar course designed to introduce students to approaches and methods needed in carrying out an independent research project in a particular focus area of biology. For advanced undergraduates and graduate students.

Repeat rules: May be repeated for credit. 2 total credits. 2 total completions.

Grading status: Letter grade.

BIOL 605. Reading and Writing Scientific Literature. 1 Credit.

A seminar course designed to introduce students to how to read and write scientific papers. For advanced undergraduates and graduate students.

Requisites: Prerequisite, BIOL 201 or 202.

Repeat rules: May be repeated for credit. 2 total credits. 2 total completions.

Grading status: Letter grade.

BIOL 620. Bacterial Genetics with Emphasis on Pathogenic and Symbiotic Interactions. 3 Credits.

Required preparation, a course in microbiology, a course in molecular biology numbered above 300, or research experience in microbiology or molecular biology. Molecular genetics of bacteria. The emphasis will be on pathogenic and symbiotic interactions of bacteria with eukaryotes, although other aspects of bacterial genetics will be considered.

Grading status: Letter grade.

BIOL 621. Principles of Genetic Analysis I. 3 Credits.

Prerequisite for undergraduates, BIOL 202. Permission of the instructor for undergraduates. Genetic principles of genetic analysis in prokaryotes and lower eukaryotes.

Grading status: Letter grade

Same as: GNET 621.

BIOL 622. Principles of Genetic Analysis II. 4 Credits.

Principles of genetic analysis in higher eukaryotes; genomics.

Requisites: Prerequisite, BIOL 621.

Grading status: Letter grade

Same as: GNET 622.

BIOL 624. Developmental Genetics. 3 Credits.

Permission of the instructor for undergraduates. Genetic and molecular control of plant and animal development. Extensive reading from primary literature.

Grading status: Letter grade

Same as: GNET 624.

BIOL 625. Seminar in Genetics. 2 Credits.

Permission of the instructor for undergraduates. Current and significant problems in genetics. May be repeated for credit.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 6 total completions.

Grading status: Letter grade

Same as: GNET 625.

BIOL 631. Advanced Molecular Biology I. 3 Credits.

Required preparation for undergraduates, at least one undergraduate course in both biochemistry and genetics. DNA structure, function, and interactions in prokaryotic and eukaryotic systems, including chromosome structure, replication, recombination, repair, and genome fluidity. Three lecture hours a week.

Grading status: Letter grade

Same as: GNET 631, BIOC 631, MCRO 631.

BIOL 632. Advanced Molecular Biology II. 3 Credits.

Required preparation for undergraduates, at least one undergraduate course in both biochemistry and genetics. The purpose of this course is to provide historical, basic, and current information about the flow and regulation of genetic information from DNA to RNA in a variety of biological systems. Three lecture hours a week.

Grading status: Letter grade

Same as: GNET 632, BIOC 632, MCRO 632.

BIOL 635. Careers in Biotechnology. 1 Credit.

This seminar course will provide graduate and advanced undergraduate students information on career opportunities and culture in the field of biotechnology. The instructor and guest lecturers will present examples of global challenges addressed by modern biotechnology, and how research and development are carried out in the industry. Students will develop and present their own plan for a new biotechnology venture.

Grading status: Pass/Fail.

BIOL 639. Seminar in Plant Molecular and Cell Biology. 1 Credit.

Permission of the instructor. May be repeated for credit. Current and significant problems in plant molecular and cell biology are discussed in a seminar format. Can count as BIOL elective credit in the major if combined with other 600-level courses for a total of three credit hours.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 12 total completions.

Grading status: Letter grade.

BIOL 642. Advanced Studies of Cell Division. 3 Credits.

An advanced course in cell and molecular biology integrating genetic, biochemical, and structural aspects of the cell cycle. Principles derived from a variety of biological systems. Extensive reading of classic papers as well as recent literature.

Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOL 643. Molecular Mechanisms of the Cytoskeleton. 3 Credits.

This seminar examines the cytoskeletal systems of eukaryotes and prokaryotes via primary literature. Architectures of cytoskeletal components are compared and contrasted along with their regulators, nucleators, and molecular motors.

Requisites: Prerequisites, BIOL 205 and CHEM 430; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOL 648. Palynology. 5 Credits.

Permission of the instructor. A consideration of various aspects of palynology, including the morphology, structure, development, systematics, evolution, preparation techniques, and analysis of living and fossil pollen grains, spores, and other palynomorphs. Two lecture and six laboratory hours a week.

Grading status: Letter grade.

BIOL 649. Seminar in Cell Biology. 2 Credits.

May be repeated for credit. Can count as BIOL elective credit in the major if combined with other 600-level courses for a total of three credit hours.

Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 6 total completions.

Grading status: Letter grade.

BIOL 650. Animal Cognition. 3 Credits.

For advanced undergraduates and graduate students. The goal of the course is to gain an in-depth understanding of animal cognition in the context of evolution and neurobiology with an emphasis on recent research.

Grading status: Letter grade.

BIOL 657. Biological Oceanography. 4 Credits.

For graduate students; undergraduates need permission of the instructor. Marine ecosystem processes pertaining to the structure, function, and ecological interactions of biological communities; management of biological resources; taxonomy and natural history of pelagic and benthic marine organisms. Three lecture and one recitation hours per week. Two mandatory weekend fieldtrips.

Gen Ed: PL.

Grading status: Letter grade

Same as: MASC 504, ENVR 520.

BIOL 659. Seminar in Evolutionary Biology. 2 Credits.

Permission of the instructor. Advanced studies in evolutionary biology. Can count as BIOL elective credit in the major if combined with other 600-level courses for a total of three credit hours.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 6 total completions.

Grading status: Letter grade.

BIOL 661. Plant Ecology. 4 Credits.

Consideration of terrestrial, vascular plant ecology including environmental physiology, population dynamics, and community structure. Laboratory stresses collection and interpretation of field data. Three lecture and three laboratory hours a week.

Requisites: Prerequisite, BIOL 201.

Gen Ed: EE- Field Work.

Grading status: Letter grade.

BIOL 662. Field Plant Geography. 2 Credits.

Intensive literature and field study of the plant geography and ecology of a selected region. Weekly seminar-style discussion followed by approximately nine days' field experience. May be repeated for credit.

Requisites: Prerequisites, BIOL 661 or 561 and permission of the instructor.

Grading status: Letter grade.

BIOL 669. Seminar in Ecology. 1-3 Credits.

May be repeated for credit.

Requisites: Prerequisite, BIOL 201; permission of the instructor for students lacking the prerequisite.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 12 total completions.

Grading status: Letter grade

Same as: ENEC 669.

BIOL 680. Advanced Seminar in Recent Biological Research and Methods. 1 Credit.

Permission of the instructor. The course will cover topics and experimental approaches of current interest. Students will learn intellectual and practical aspects of cutting-edge topics in biology. It will meet for one hour per week, in a lecture and discussion format.

Repeat rules: May be repeated for credit. 3 total credits. 3 total completions.

Grading status: Letter grade.

BIOL 690. Advanced Special Topics with an Emphasis on Recent Research. 3 Credits.

Permission of the instructor. Special topics in biology with an emphasis on recent research. For advanced undergraduates and graduate students.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

BIOL 692H. Senior Honors Thesis in Biology. 3 Credits.

Preparation of a written and oral presentation of honors thesis research. Research must continue in the same laboratory used in BIOL 395. Senior biology majors only (first or second majors). Required of all candidates for Highest Honors or Honors. Can be taken in either the fall or spring semester of their senior year. Approval of the Biology Honors Director required. Permission of a faculty research director and three credit hours of BIOL 395 in the same laboratory required.

Gen Ed: CI, EE- Mentored Research.

Grading status: Letter grade.

sundance@unc.edu

Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem. This program is designed for students who intend to continue graduate study in biological or health sciences.

Department Programs

Majors

- Biology Major, B.S. (p. 384)
- Biology Major, B.S.–Quantitative Biology Track (p. 388)
- Biology Major, B.A. (p. 392)

Minor

- Biology Minor (p. 395)

Graduate Programs

- M.A. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)
- M.S. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)
- Ph.D. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)

Student Learning Outcomes

Upon completion of the biology (B.A., B.S.) program, students should be able to:

- Knowledge Base: Demonstrate knowledge of major concepts, theoretical perspectives, empirical findings, and historical trends in the broad field of Biology
- Research Methods: Apply basic research methods in the biological sciences, including research design, data analysis, and data interpretation
- Critical Thinking Skills: Demonstrate the use of critical and creative thinking skills in upper-level biology courses and in their approach to undergraduate research
- Application of Knowledge, Research Methods, and Critical Thinking: Apply knowledge of the field of biology, research skills, and critical thinking skills to undertake a course-based, field, or laboratory research project

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Gateway Course		
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{1, H}	4
Core Requirements		
Core Courses:		
BIOL 201	Ecology and Evolution ^H	4
BIOL 202	Molecular Biology and Genetics ^H	4
BIOL 205	Cellular and Developmental Biology ^{2, H}	4
One organismal structure and diversity course chosen from: ³		4
BIOL 271 & 271L	Plant Biology and Plant Biology Laboratory	
BIOL 272	Local Flora	
BIOL 273	Horticulture	
BIOL 274 & 274L	Plant Diversity and Plant Diversity Laboratory	
BIOL 277 & 277L	Vertebrate Field Zoology and Vertebrate Field Zoology Laboratory	
BIOL 278 & 278L	Animal Behavior and Animal Behavior Laboratory	
BIOL 279 & 279L	Seminar in Organismal Biology and Topics in Organismal Biology Laboratory	
BIOL 422 & BIOL 421L or BIOL 422 & 422L	Microbiology and Microbiology Laboratory with Research or Microbiology and Microbiology Laboratory	
BIOL 441 & 441L	Vertebrate Embryology and Vertebrate Embryology Laboratory	
BIOL 451 & 451L	Comparative Physiology and Comparative Physiology Laboratory	
BIOL 471 & 471L	Evolutionary Mechanisms and Evolutionary Mechanisms Laboratory	
BIOL 472	Introduction to Plant Taxonomy	
BIOL 474 & 474L	Evolution of Vertebrate Life and Vertebrate Structure and Evolution Laboratory ^H	
BIOL 475 & 475L	Biology of Marine Animals and Biology of Marine Animals Laboratory	
BIOL 476 & 476L	Avian Biology and Avian Biology Laboratory	
BIOL 479 & 479L	Topics in Organismal Biology at an Advanced Level and Laboratory in Organismal Biology: Advanced Topics	
BIOL 579	Organismal Structure and Diversity in the Southern Appalachian Mountains	
Four biology electives (each of three or more credits) numbered above 205 (not including BIOL 213, BIOL 253, BIOL 291, BIOL 292, BIOL 293, BIOL 294, BIOL 296, BIOL 353, and BIOL 495), at least two of them with a laboratory ^{3,4}		14
Additional Requirements		
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ⁵	4

CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{5, H}	4
CHEM 241 & 241L	Modern Analytical Methods for Separation and Characterization and Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds ^H	3
CHEM 261	Introduction to Organic Chemistry I ^H	3
CHEM 262 & 262L	Introduction to Organic Chemistry II and Laboratory in Organic Chemistry ^H	4
MATH 231	Calculus of Functions of One Variable I ^H	4
One of the following:		3-4
MATH 232	Calculus of Functions of One Variable II ^H	
COMP 110	Introduction to Programming ^H	
COMP 116	Introduction to Scientific Programming	
STOR 155	Introduction to Data Models and Inference	
STOR 215	Foundations of Decision Sciences	
One of the following:		4
PHYS 104	General Physics I	
PHYS 114	General Physics I: For Students of the Life Sciences	
PHYS 116	Mechanics ^H	
PHYS 118	Introductory Calculus-based Mechanics and Relativity	
One of the following:		4
PHYS 105	General Physics II	
PHYS 115	General Physics II: For Students of the Life Sciences	
PHYS 117	Electromagnetism and Optics ^H	
PHYS 119	Introductory Calculus-based Electromagnetism and Quanta	
A choice of two additional allied sciences electives selected from the course list below		6-9
Remaining General Education (p. 120) requirements and enough free electives to accumulate 123 academic hours		46-50
Total Hours		123

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ With a C grade or better in BIOL 101

² Minimum C- in BIOL 202 required for enrollment

³ At least two courses out of the five courses (four electives and one organismal course) must be numbered above 400 (not including BIOL 501 and BIOL 692H).

⁴ A total of six hours from BIOL 295 (inactive fall 2017), BIOL 395, and/or BIOL 692H count as a laboratory course requirement. One additional elective may consist of a total of three hours of courses numbered above 600 (not including BIOL 692H).

⁵ A grade of C or better in CHEM 101 or CHEM 102 is required for BIOL 201 and BIOL 202.

Allied Science Electives

All allied science elective courses need to have a minimum of three credit hours.

Code	Title	Hours
ANTH 143	Human Evolution and Adaptation	3
ANTH 148	Human Origins	3
ANTH 298	Biological Anthropology Theory and Practice	3
ANTH 315	Human Genetics and Evolution	3
ANTH 317	Evolutionary Perspectives on Human Adaptation and Behavior	3
ANTH 318	Human Growth and Development	3

PHYS —	Any PHYS course above 99, except PHYS 132	

PSYC 101	General Psychology	3
PSYC 210	Statistical Principles of Psychological Research ^H	4
PSYC 220	Biopsychology ^H	3
PSYC 230	Cognitive Psychology ^H	3
STOR ---	Any STOR course above 151	3
SPHS 570	Anatomy and Physiology of the Speech, Language, and Hearing Mechanisms	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Suggested Program of Study for B.S. Majors

First Year		Hours
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^H	4
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I	4
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^H	4
ENGL 105	English Composition and Rhetoric	3
Language levels 2 and 3		6
MATH 231	Calculus of Functions of One Variable I ^H	4
Plus a second course in mathematics, computer science, or statistics/operations research.		3-4
Lifetime Fitness		1
Elective		3
Hours		32
Sophomore Year		
Two of the three biology core courses:		8
BIOL 201	Ecology and Evolution ^H	
BIOL 202	Molecular Biology and Genetics ^H	
BIOL 205	Cellular and Developmental Biology ^H	
CHEM 241 & 241L	Modern Analytical Methods for Separation and Characterization and Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds ^H	3
CHEM 261	Introduction to Organic Chemistry I ^H	3
Approaches (p. 120) (two courses)		6
Elective		6
Hours		26

Junior Year

Remaining biology core course		4
Organismal biology course		4
Biology electives (three courses)		9
PHYS 114 or PHYS 118	General Physics I: For Students of the Life Sciences or Introductory Calculus-based Mechanics and Relativity	4
PHYS 115 or PHYS 119	General Physics II: For Students of the Life Sciences or Introductory Calculus-based Electromagnetism and Quanta	4
Approaches (p. 120) and Connections (p. 120) (two courses)		6
CHEM 262	Introduction to Organic Chemistry II ^H	3
CHEM 262L	Laboratory in Organic Chemistry	1
Hours		35
Senior Year		
Biology electives (two courses)		8
Natural science or biology electives (two courses)		6
Approaches (p. 120) and Connections (p. 120) (two courses)		6
Free electives as needed to complete 123 academic hours		10
Hours		30
Total Hours		123

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Biology Major, NUS Joint Degree

Biology B.S. majors may wish to consider applying for the Joint Degree Program, an innovative joint undergraduate degree program between the University of North Carolina at Chapel Hill and the National University of Singapore. UNC–Chapel Hill undergraduates spend anywhere from two to four semesters at the National University of Singapore and receive a joint bachelor of science degree from both institutions. For further information, contact the Study Abroad Office.

Special Opportunities in Biology

Students are encouraged to speak with their advisor about opportunities to serve as peer advisors in the Health Professions Advising Office, or to join Tri-Beta, the National Biological Sciences Honor Society.

Honors in Biology

Candidates for honors or highest honors must secure approval from the departmental honors advisor. They must have three hours of BIOL 395, take BIOL 692H, and maintain a grade point average of 3.3, both overall and in biology courses (exclusive of BIOL 692H and including only one semester of BIOL 395), calculated at the end of the semester preceding the semester in which they graduate. Other requirements are detailed on the department Web site (<http://bio.unc.edu/undergraduate/honors-info/>).

Experiential Education

After completing BIOL 201 or BIOL 202, students are encouraged to consider how they plan to meet the experiential education requirement. BIOL 293 and BIOL 395 fulfill this requirement and also connect students' academic coursework to current biological research and inquiry.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate science majors interested in teaching high school science the opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years. UNC–BEST students meet all the degree requirements for their biology degree using BIOL 410 as one of their upper-level biology courses.

Code	Title	Hours
BIOL 410	Principles and Methods of Teaching Biology	4
EDUC 689	Foundations of Special Education (may substitute EDUC 516)	3
EDUC 532	Human Development and Learning (may substitute EDUC 403)	3
EDUC 615	Schools and Community Collaboration (may substitute EDUC 533)	3
EDUC 593	Internship/Student Teaching	12
EDUC 601	Education Workshops	1
Total Hours		26

For more details on admission requirements, application deadlines, and submitting an online application, visit the program's Web site (<http://soe.unc.edu/academics/uncbest/>) or catalog description (p. 1080).

Laboratory Teaching Apprenticeships and Assistantships

Opportunities exist for assisting graduate instructors (and for instruction in undergraduate laboratories). Interested students should contact the instructor of the course or obtain approval from either the departmental director of undergraduate studies or the department chair.

Undergraduate Awards

All awards include a personal plaque, a monetary gift, and a place on Coker Hall's list of department honorees. The awards include

- The Stephen G. Brantley Award in honor of Henry Van Peters Wilson, given annually to a senior biology major for excellence in research in molecular and cellular biology.
- The Robert Ervin Coker Award, given annually to a senior biology major for excellence in research in organismal biology and ecology.
- The John N. Couch Award, given annually to a senior biology major with interests in plant biology who has demonstrated the highest ideals of scholarship and research.
- The Irvine R. Hagadorn Award, given annually to the junior biology major based on academic and research excellence. This award is also recognized by the UNC–Chapel Hill chancellor at the Annual Chancellor's Awards Ceremony.
- The Francis J. LeClair Award, given annually to a senior biology major for academic excellence in biology with an emphasis in plant sciences.

Undergraduate Research

An undergraduate research experience is extremely valuable to a student who intends to pursue postgraduate work in the biological sciences. Undergraduates may participate directly in the research of faculty in the Department of Biology. This research opportunity allows students to put their knowledge of biology into practice through participation in

a biological research program and is encouraged by faculty. Students' participation in research can begin as early as their second year by registration in BIOL 395.

Undergraduates with a 2.0 grade point average or higher in biology courses are encouraged to enroll in BIOL 395. Information concerning the procedure for enrolling in a research course can be obtained from the chair of the department's undergraduate honors research program. Additional information can be found on the department's Web site (<http://bio.unc.edu/undergraduate/research/>).

Summer Montgomery, Assistant for Undergraduate Services

sundance@unc.edu

Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem.

This program is designed for students with a strong interest in a multidisciplinary approach to biological problems in preparation for graduate study in biological or health sciences.

Department Programs

Majors

- Biology Major, B.S. (p. 384)
- Biology Major, B.S.—Quantitative Biology Track (p. 388)
- Biology Major, B.A. (p. 392)

Minor

- Biology Minor (p. 395)

Graduate Programs

- M.A. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)
- M.S. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)

- Ph.D. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)

Student Learning Outcomes

Upon completion of the biology (B.A., B.S.) program, students should be able to:

- **Knowledge Base:** Demonstrate knowledge of major concepts, theoretical perspectives, empirical findings, and historical trends in the broad field of Biology
- **Research Methods:** Apply basic research methods in the biological sciences, including research design, data analysis, and data interpretation
- **Critical Thinking Skills:** Demonstrate the use of critical and creative thinking skills in upper-level biology courses and in their approach to undergraduate research
- **Application of Knowledge, Research Methods, and Critical Thinking:** Apply knowledge of the field of biology, research skills, and critical thinking skills to undertake a course-based, field, or laboratory research project

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Gateway Course		
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{1, H}	4

PHYS 405	Biological Physics	
MATH 553 & 553L	Mathematical and Computational Models in Biology and Mathematical and Computational Models in Biology Laboratory	
MATH 564	Mathematical Modeling in the Life Sciences	
Additional Requirements		
BIOS 600	Principles of Statistical Inference	3
or STOR 155	Introduction to Data Models and Inference	
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ⁶	4
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{6, H}	4
CHEM 261	Introduction to Organic Chemistry I ^H	3
Select one of the following:		3
COMP 110	Introduction to Programming ^H	
COMP 116	Introduction to Scientific Programming	
COMP 401	Foundation of Programming ^H	
MATH 231	Calculus of Functions of One Variable I ^H	4
MATH 232	Calculus of Functions of One Variable II ^H	4
MATH 233	Calculus of Functions of Several Variables ^H	4
One of the following:		4
PHYS 104	General Physics I	
PHYS 114	General Physics I: For Students of the Life Sciences	
PHYS 116	Mechanics ^H	
PHYS 118	Introductory Calculus-based Mechanics and Relativity	
One of the following:		4
PHYS 105	General Physics II	
PHYS 115	General Physics II: For Students of the Life Sciences	
PHYS 117	Electromagnetism and Optics ^H	
PHYS 119	Introductory Calculus-based Electromagnetism and Quanta	
A choice of two additional allied sciences electives selected from the 6-9 course list below ⁷		
Enough general education (p. 120) and free electives to accumulate 127 academic hours		
Total Hours		127

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ With a C grade or better in BIOL 101

² Minimum of C- in BIOL 202 required for enrollment

³ One must be a quantitative laboratory chosen from BIOL 224H/BIOL 224L, BIOL 226/BIOL 226L, BIOL 525/BIOL 525L, BIOL 526, BIOL 527/BIOL 527L, BIOL 528/BIOL 528L, or BIOL 553/BIOL 553L. The other can be any biology laboratory course, including two semesters of BIOL 395.

⁴ A total of six hours from BIOL 295 (inactive fall 2017), BIOL 395, and/or BIOL 692H count as a laboratory course requirement. One additional elective may consist of a total of three hours of courses numbered above 600 (not including BIOL 692H).

⁵ Courses cannot count as both a quantitative laboratory and a quantitative elective

⁶ A grade of C or better in CHEM 101 or CHEM 102 is required for BIOL 201 and BIOL 202.

⁷ Premedical students are encouraged to take CHEM 241/CHEM 241L and CHEM 262/CHEM 262L.

Allied Science Electives

All allied science elective courses need to have a minimum of three credit hours.

SPHS 570	Anatomy and Physiology of the Speech, Language, and Hearing Mechanisms	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Total Hours		127

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Biology Major, NUS Joint Degree

Biology B.S. majors may wish to consider applying for the Joint Degree Program, an innovative joint undergraduate degree program between the University of North Carolina at Chapel Hill and the National University of Singapore. UNC–Chapel Hill undergraduates spend anywhere from two to four semesters at the National University of Singapore and receive a joint bachelor of science degree from both institutions. For further information, contact the Study Abroad Office.

Special Opportunities in Biology

Students are encouraged to speak with their advisor about opportunities to serve as peer advisors in the Health Professions Advising Office, or to join Tri-Beta, the National Biological Sciences Honor Society.

Honors in Biology

Candidates for honors or highest honors must secure approval from the departmental honors advisor. They must have three hours of BIOL 395, take BIOL 692H, and maintain a grade point average of 3.3, both overall and in biology courses (exclusive of BIOL 692H and including only one semester of BIOL 395), calculated at the end of the semester preceding the semester in which they graduate. Other requirements are detailed on the department Web site (<http://bio.unc.edu/undergraduate/honors-info/>).

Experiential Education

After completing BIOL 201 or BIOL 202, students are encouraged to consider how they plan to meet the experiential education requirement. BIOL 293 and BIOL 395 fulfill this requirement and also connect students' academic coursework to current biological research and inquiry.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate science majors interested in teaching high school science the opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years. UNC–BEST students meet all the degree requirements for their biology degree using BIOL 410 as one of their upper-level biology courses.

Code	Title	Hours
BIOL 410	Principles and Methods of Teaching Biology	4
EDUC 689	Foundations of Special Education (may substitute EDUC 516)	3
EDUC 532	Human Development and Learning (may substitute EDUC 403)	3
EDUC 615	Schools and Community Collaboration (may substitute EDUC 533)	3
EDUC 593	Internship/Student Teaching	12
EDUC 601	Education Workshops	1
Total Hours		26

For more details on admission requirements, application deadlines, and submitting an online application, visit the program's Web site (<http://soe.unc.edu/academics/uncbest/>) or catalog description (p. 1080).

Laboratory Teaching Apprenticeships and Assistantships

Opportunities exist for assisting graduate instructors (and for instruction in undergraduate laboratories). Interested students should contact the instructor of the course or obtain approval from either the departmental director of undergraduate studies or the department chair.

Undergraduate Awards

All awards include a personal plaque, a monetary gift, and a place on Coker Hall's list of department honorees. The awards include

- The Stephen G. Brantley Award in honor of Henry Van Peters Wilson, given annually to a senior biology major for excellence in research in molecular and cellular biology.
- The Robert Ervin Coker Award, given annually to a senior biology major for excellence in research in organismal biology and ecology.
- The John N. Couch Award, given annually to a senior biology major with interests in plant biology who has demonstrated the highest ideals of scholarship and research.
- The Irvine R. Hagadorn Award, given annually to the junior biology major based on academic and research excellence. This award is also recognized by the UNC–Chapel Hill chancellor at the Annual Chancellor's Awards Ceremony.
- The Francis J. LeClair Award, given annually to a senior biology major for academic excellence in biology with an emphasis in plant sciences.

Undergraduate Research

An undergraduate research experience is extremely valuable to a student who intends to pursue postgraduate work in the biological sciences. Undergraduates may participate directly in the research of faculty in the Department of Biology. This research opportunity allows students to put their knowledge of biology into practice through participation in a biological research program and is encouraged by faculty. Students' participation in research can begin as early as their second year by registration in BIOL 395.

Undergraduates with a 2.0 grade point average or higher in biology courses are encouraged to enroll in BIOL 395. Information concerning the procedure for enrolling in a research course can be obtained from the chair of the department's undergraduate honors research program. Additional information can be found on the department's Web site (<http://bio.unc.edu/undergraduate/research/>).

Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem. The major in biology provides a broad education directed toward an appreciation of the complexity of nature and prepares students for careers in the biological, environmental, and medical sciences. This program is designed to provide greater flexibility than the B.S. degree in meeting broad student interests.

Department Programs

Majors

- Biology Major, B.S. (p. 384)
- Biology Major, B.S.—Quantitative Biology Track (p. 388)
- Biology Major, B.A. (p. 392)

Minor

- Biology Minor (p. 395)

Graduate Programs

- M.A. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)
- M.S. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)
- Ph.D. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)

Student Learning Outcomes

Upon completion of the biology (B.A., B.S.) program, students should be able to:

- Knowledge Base: Demonstrate knowledge of major concepts, theoretical perspectives, empirical findings, and historical trends in the broad field of Biology
- Research Methods: Apply basic research methods in the biological sciences, including research design, data analysis, and data interpretation
- Critical Thinking Skills: Demonstrate the use of critical and creative thinking skills in upper-level biology courses and in their approach to undergraduate research
- Application of Knowledge, Research Methods, and Critical Thinking: Apply knowledge of the field of biology, research skills, and critical thinking skills to undertake a course-based, field, or laboratory research project

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses

- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

EXSS 276	Human Physiology	3
GEOG 110	The Blue Planet: An Introduction to Earth's Environmental Systems ^H	3
GEOG 111	Weather and Climate	3
GEOG 212	Environmental Conservation and Global Change	3
GEOG 222	Health and Medical Geography	3
GEOG 253	Introduction to Atmospheric Processes	4
GEOL ---	Any GEOL course above 100	3
MASC ---	Any MASC course above 100	3
MATH ---	Any MATH course above 110, except MATH 129P	3
MCRO 251	Introductory Medical Microbiology	4
NSCI 175	Introduction to Neuroscience	3
NSCI 222	Learning ^H	3
NSCI 225	Sensation and Perception ^H	3
NSCI 401	Animal Behavior	3
NSCI 403	Advanced Biopsychology Laboratory ^H	3
NUTR 240	Introduction to Human Nutrition	3
PHIL 155	Truth and Proof: Introduction to Mathematical Logic ^H	3
PHYI 292		5
PHYS ---	Any PHYS course above 99, except PHYS 132	3
PSYC 101	General Psychology	3
PSYC 210	Statistical Principles of Psychological Research ^H	4
PSYC 220	Biopsychology ^H	3
PSYC 230	Cognitive Psychology ^H	3
STOR ---	Any STOR course above 151	3
SPHS 570	Anatomy and Physiology of the Speech, Language, and Hearing Mechanisms	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan

may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Suggested Program of Study for B.A. Majors

First Year		Hours
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^H	4
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I	4
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^H	4
ENGL 105	English Composition and Rhetoric	3
Language levels 2 and 3		6
Foundations quantitative reasoning requirement as specified in requirements		3
Lifetime fitness		1
Electives		6
Hours		31
Sophomore Year		
Two of the three biology core courses:		8
BIOL 201	Ecology and Evolution ^H	
BIOL 202	Molecular Biology and Genetics ^H	
BIOL 205	Cellular and Developmental Biology ^H	
Natural sciences electives (two courses)		6
Approaches (p. 120) and Connections (p. 120) (four courses)		12
Elective		3
Hours		29
Junior Year		
Remaining biology core course		4
Organismal biology course		4
Biology electives (two courses)		7
Natural sciences electives (two courses)		6
Approaches (p. 120) and Connections (p. 120) (two courses)		6
Supplemental General Education (p. 120) requirement or free electives (two courses)		6
Hours		33
Senior Year		
Biology electives (two courses)		6
Approaches (p. 120) and Connections (p. 120) (one course)		3
Supplemental General Education (p. 120) requirement and free electives as needed to complete 120 academic hours and other requirements		18
Hours		27
Total Hours		120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Special Opportunities in Biology

Students are encouraged to speak with their advisor about opportunities to serve as peer advisors in the Health Professions Advising Office, or to join Tri-Beta, the National Biological Sciences Honor Society.

Honors in Biology

Candidates for honors or highest honors must secure approval from the departmental honors advisor. They must have three hours of BIOL 395, take BIOL 692H, and maintain a grade point average of 3.3, both overall and in biology courses (exclusive of BIOL 692H and including only one semester of BIOL 395), calculated at the end of the semester preceding the semester in which they graduate. Other requirements are detailed on the department Web site (<http://bio.unc.edu/undergraduate/honors-info/>).

Experiential Education

After completing BIOL 201 or BIOL 202, students are encouraged to consider how they plan to meet the experiential education requirement. BIOL 293 and BIOL 395 fulfill this requirement and also connect students' academic coursework to current biological research and inquiry.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate science majors interested in teaching high school science the opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years. UNC–BEST students meet all the degree requirements for their biology degree using BIOL 410 as one of their upper-level biology courses.

Code	Title	Hours
BIOL 410	Principles and Methods of Teaching Biology	4
EDUC 689	Foundations of Special Education (may substitute EDUC 516)	3
EDUC 532	Human Development and Learning (may substitute EDUC 403)	3
EDUC 615	Schools and Community Collaboration (may substitute EDUC 533)	3
EDUC 593	Internship/Student Teaching	12
EDUC 601	Education Workshops	1
Total Hours		26

For more details on admission requirements, application deadlines, and submitting an online application, visit the program's Web site (<http://soe.unc.edu/academics/uncbest/>) or catalog description (p. 1080).

Laboratory Teaching Apprenticeships and Assistantships

Opportunities exist for assisting graduate instructors (and for instruction in undergraduate laboratories). Interested students should contact the instructor of the course or obtain approval from either the departmental director of undergraduate studies or the department chair.

Undergraduate Awards

All awards include a personal plaque, a monetary gift, and a place on Coker Hall's list of department honorees. The awards include

- The Stephen G. Brantley Award in honor of Henry Van Peters Wilson, given annually to a senior biology major for excellence in research in molecular and cellular biology.
- The Robert Ervin Coker Award, given annually to a senior biology major for excellence in research in organismal biology and ecology.
- The John N. Couch Award, given annually to a senior biology major with interests in plant biology who has demonstrated the highest ideals of scholarship and research.
- The Irvine R. Hagadorn Award, given annually to the junior biology major based on academic and research excellence. This award is also recognized by the UNC–Chapel Hill chancellor at the Annual Chancellor's Awards Ceremony.
- The Francis J. LeClair Award, given annually to a senior biology major for academic excellence in biology with an emphasis in plant sciences.

Undergraduate Research

An undergraduate research experience is extremely valuable to a student who intends to pursue postgraduate work in the biological sciences. Undergraduates may participate directly in the research of faculty in the Department of Biology. This research opportunity allows students to put their knowledge of biology into practice through participation in a biological research program and is encouraged by faculty. Students' participation in research can begin as early as their second year by registration in BIOL 395.

Undergraduates with a 2.0 grade point average or higher in biology courses are encouraged to enroll in BIOL 395. Information concerning the procedure for enrolling in a research course can be obtained from the chair of the department's undergraduate honors research program. Additional information can be found on the department's Web site (<http://bio.unc.edu/undergraduate/research/>).

Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem.

Department Programs

Majors

- Biology Major, B.S. (p. 384)
- Biology Major, B.S.–Quantitative Biology Track (p. 388)
- Biology Major, B.A. (p. 392)

Minor

- Biology Minor (p. 395)

Graduate Programs

- M.A. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)
- M.S. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)
- Ph.D. in Biology (<http://catalog.unc.edu/graduate/schools-departments/biology/>)

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor ‘core’ requirements at UNC–Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (p. 196).

A student may minor in biology by taking four biology courses beyond BIOL 101/BIOL 101L.

Code	Title	Hours
Core Requirements		
Two of the three core courses:		8
BIOL 201	Ecology and Evolution ^H	
BIOL 202	Molecular Biology and Genetics ^H	
BIOL 205	Cellular and Developmental Biology ^{1, H}	
One course with a laboratory ²		4
One course numbered above 400		3-4
Total Hours		15-16

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ A grade of C- or better in BIOL 202 is required.

² Excluding BIOL 253/BIOL 253L.

Biology (BIOL) course descriptions (p. 369).

See program page here (p. 392) for special opportunities.

Introduction

The joint Department of Biomedical Engineering (BME) is a department of both the University of North Carolina at Chapel Hill (UNC–Chapel Hill) and North Carolina State University (NC State). The department oversees a joint graduate and undergraduate program at these institutions. While a complete curriculum is offered on the UNC–Chapel Hill campus, students can elect to take any number of classes at NC State. The joint program also leverages the industry resources in Research Triangle Park, located roughly half way between the two campuses, providing unique opportunities for students.

Biomedical engineering is a profession that develops and applies engineering knowledge and experience to solve problems in biology and medicine and to enhance health care. Biomedical engineers are professionally trained to combine the rigors of medical and biological studies with the power of engineering analysis and design. People become biomedical engineers to be of service to others, to enjoy the excitement of understanding living systems, and to use state-of-the-art science and technology to solve the complex problems of medical care. The emphasis in biomedical engineering is on finding solutions by researching, testing, and applying medical, biological, chemical, electrical, and materials engineering approaches. Biomedical engineers are unique individuals who make contributions to health care that are both satisfying to themselves and beneficial to others.

Facilities

The Department of Biomedical Engineering houses an undergraduate student design laboratory. It contains equipment for rapid prototyping (three-dimensional printer and laser cutter), as well as electronics and microcontroller design and development. Students also use facilities in other departments that have laboratory-based courses. The BeAM Makerspace facilities are available to all UNC students, and these facilities house a variety of mechanical and electronic fabrication tools. More information is available at the UNC BeAM Web site.

Graduate School and Career Opportunities

Many students from this program have pursued further education in graduate school in biomedical engineering. Our alumni have attended

many of the top-ranked biomedical engineering programs. In addition, some students have pursued graduate degrees in other disciplines in engineering, as well as related fields such as microbiology, sports physiology, public health, and business/engineering management, among others. Students have also been accepted into clinical programs such as medical, dental, physical therapy, and pharmacy schools (in many cases, the student must take several additional courses to meet the requirements for clinical programs).

For those interested in going directly into a career, biomedical engineering is one of the fastest growing career opportunities. Graduates are employed by hospitals, pharmaceutical companies, medical device and testing companies, government agencies, universities, and medical schools.

Major

- Biomedical and Health Sciences Engineering Major, B.S. (p. 401)

Graduate Programs

- M.S. in Biomedical Engineering (<http://catalog.unc.edu/graduate/schools-departments/biomedical-engineering/>)
- Ph.D. in Biomedical Engineering (<http://catalog.unc.edu/graduate/schools-departments/biomedical-engineering/>)

Professors

Lianne Cartee, Ke Cheng, Paul Dayton, M. Gregory Forest, Edward Grant, Helen Huang, Leaf Huang, Mike Jay, Melina Kibbe, Frances Ligler, Weili Lin, Matthew Mauro, H. Troy Nagle, Roger Narayan, Hatice Ozturk, Harold Pillsbury, J. Michael Ramsey, Koji Sode.

Associate Professors

Ted Bateman, Bob Dennis, Oleg Favorov, Caterina Gallippi, Michael Gamcsik, Shawn Gomez, Zhen Gu, Derek Kamper, David Lalush, Jeffrey Macdonald, Scott Magness, Gianmarco Pinton, Nitin Sharma, Mark Tommerdahl, Anka Veleva, Paul Weinhold, David Zaharoff.

Assistant Professors

Rahima Benhabbour, Ashley Brown, Yevgeny Brudno, Jacqueline Cole, Michael Daniele, Brian Diekman, Kenneth Donnelly, Matthew Fisher, Jason Franz, Donald Freytes, Andrea Giovannuci, Alon Greenbaum, Devin Hubbard, Naji Hussein, Xiaogang Hu, Stephanie Huang, Kennita Johnson, Wesley Legant, Ming Liu, Virginie Papadopoulos, Ross Petrella, Gianmarco Pinton, William Polachek, Imran Rizvi, Michael Sano, James Tsuruta.

Professors Emeriti

Frank Abrams, Albert Baner, Carol Lucas.

Professor of the Practice

George Ligler.

BMME—Biomedical Engineering Undergraduate-level Courses

BMME 89. First Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

BMME 101. Frontiers of Biomedical Engineering. 1 Credit.

Restricted to first-year students only. An introduction to the groundbreaking tools and topics of biomedical engineering, including medical imaging, medical robotics, rehabilitative engineering, regenerative medicine, and medical device design.

Grading status: Letter grade.

BMME 150. Introduction to Materials Science. 3 Credits.

Focus on the materials science and processing of electronic, metallic, polymeric, ceramic, and composite materials. The electronic, optical, magnetic, and structural properties of materials are related to their applications. Majors only.

Requisites: Prerequisites, CHEM 102; co-requisites, MATH 383 and PHYS 117 or 119.

Grading status: Letter grade.

BMME 160. Statics. 3 Credits.

Course restricted to admitted majors only. Course covers rigid body mechanics of bodies at equilibrium or at rest (statics), and an introduction to rigid body mechanics of bodies in motion (dynamics). A foundation in engineering concepts and practices required to design and analyze many types of structural members is presented. Provides a foundation for more advanced courses.

Requisites: Prerequisites, MATH 232, and PHYS 116 or 118.

Grading status: Letter grade.

BMME 190. Special Topics in Biomedical Engineering. 1-3 Credits.

A study in the special fields under the direction of the faculty. Offered as needed for presenting material not normally available in regular BMME courses. Honors version available

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading status: Letter grade.

BMME 190H. Special Topics in Biomedical Engineering. 1-3 Credits.

A study in the special fields under the direction of the faculty. Offered as needed for presenting material not normally available in regular BMME courses.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading status: Letter grade.

BMME 201. Computer Methods in Biomedical Engineering. 3 Credits.

This course introduces students to problem-solving techniques using the MATLAB programming language. Fundamental computer science basics are taught as they relate to problems encountered in biomedical engineering and other scientific disciplines. Programming activities will incorporate actual data (e.g., stress/strain data and microscopy images) for relevant, real-world examples. Course restricted to admitted majors only.

Grading status: Letter grade.

BMME 205. Biomedical Mechanics. 4 Credits.

Study of the state of rest or motion of bodies subjected to the action of forces. Properties of force systems, free body diagrams, concepts of equilibrium, kinematics of particles, Newton's laws, conservational principles of energy of momentum in mechanics, mechanical vibrations, and their applications in biomedical systems. Biomedical Engineering majors only.

Grading status: Letter grade.

BMME 207. Biomedical Electronics. 4 Credits.

Fundamentals of analog and digital circuit analysis and design as applied to biomedical instrumentation and measurement of biological potentials. Passive circuit components, node and mesh analysis, transient behavior, operational amplifiers, frequency response, analog filter design, diode, transistors, biological signal acquisition, binary math and logical operators, digital circuit design, circuit simulation tools and techniques. Laboratory exercises supplement the topics presented in class lectures. Previously offered as BMME 350. Majors only.

Requisites: Prerequisite, PHYS 117 or 119.

Grading status: Letter grade.

BMME 209. Materials Science of Biomaterials. 4 Credits.

Focus on the materials science and processing of electronic, metallic, polymeric, ceramic, and composite materials. The electronic, optical, magnetic, and structural properties of materials are related to their applications. Lab component focused on integrating biological engineering and materials engineering principles by exploring key topics in materials science. Topics include biomaterial fabrication, evaluation of their physical properties and interpretation of results. Majors only.

Requisites: Pre- or Corequisite, PHYS 117 or 119.

Grading status: Letter grade.

BMME 215L. Biomedical Mechanics Lab. 1 Credit.

Statics and dynamics subjects will be studied with experimental techniques, including strain gauges and accelerometers, and computational methods, including finite-element analysis and motion capture.

Requisites: Prerequisite, BMME 160; Pre- or corequisite, BMME 201 or COMP 116.

Grading status: Letter grade.

BMME 217L. Biomedical Electronics Laboratory. 1 Credit.

This laboratory course is a corequisite to BMME 207 and complements it with relevant labs and examples. Laboratory in analog and digital circuit analysis. Electrical safety, exercises in resistor networks, capacitors and inductors, steady-state and dynamic circuit behavior, active circuits, amplifiers, logic gates, combinatorial and sequential circuits, elementary digital system design, A/D conversion, and biomedical applications. Biomedical and health sciences engineering majors only.

Requisites: Prerequisite, PHYS 117 or 119.

Grading status: Letter grade.

BMME 219L. Materials Science of Biomaterials Lab. 1 Credit.

Introductory laboratory experience focused on integrating biological engineering and materials engineering principles by exploring key topics in materials science. Topics include biomaterial fabrication, evaluation of their physical properties and interpretation of results.

Requisites: Prerequisite, BMME 150.

Grading status: Letter grade.

BMME 295. Research in Biomedical Engineering for Undergraduates. 1-3 Credits.

Permission of the director of undergraduate studies. At least three hours per credit hour of independent work a week. Research with a faculty mentor. Approved learning contract required. Research proposal and final research paper also required. Previously offered as BMME 395.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

BMME 298. Biomedical Engineering Design and Manufacturing I. 2 Credits.

Students will learn: use of design software (SolidWorks and support/analysis programs); basic techniques for directly measuring solid objects; electronic assembly techniques; and how to design simple electronic circuits. Note: BME Toolkit purchase is required for this course. Previously offered as BMME 210. Majors only.

Requisites: Pre- or corequisite, PHYS 117 or 119.

Grading status: Letter grade.

BMME 301. Human Physiology : Electrical Analysis. 4 Credits.

This course includes an electrical analysis approach to human physiology from the biomedical engineering perspective with an emphasis on neural, sensory, and cardiac physiology. Autonomic and somatic motor control will be discussed. Engineering applications, including neural stimulator, functional imaging, cochlear implants, artificial noses, vestibular implants, visual implants, artificial larynges, pacemakers and defibrillators will be discussed. Assignments include computer-based exercises using MATLAB. Majors only.

Requisites: Prerequisite, BIOL 101L, (BMME 207 or BMME 350), (BMME 201 or COMP 116).

Grading status: Letter grade.

BMME 302. Human Physiology: Mechanical Analysis. 4 Credits.

Explores a quantitative approach to human physiology from the biomedical engineering perspective with an emphasis on systems physiology described using mechanical properties. Topics include the physiological and mechanical behavior of the blood vessels, lungs, kidney, and muscles. In lab exercises, students investigate mechanical properties of fluids, electrolyte exchange in dialysis, spirometry, and blood pressure measurement among other topics. Culminates with the design of a novel laboratory experiment.

Requisites: Prerequisites, BIOL 101, BMME 160 or BMME 205, and BMME 150 or BMME 209.

Grading status: Letter grade.

BMME 315. Biotransport. 3 Credits.

This course serves as introduction for engineers pursuing transport phenomena and for future pharmaco-engineers requiring predictive models of mass transfer or pharmacodynamic models. Material is designed to address heat and mass transfer issues in nanotechnology, microfabrication, mems, cell therapies, bioartificial organs, as well as pharmacodynamic modeling of dynamic 'omics' datasets. Previously offered as BMME 475

Requisites: Prerequisites, BIOL 101, BMME 205 or BMME 160, and MATH 383.

Grading status: Letter grade.

BMME 325. Biochemistry for Biomedical Engineers. 3 Credits.

An overview of how alterations in bioenergetics, enzyme catalysis, protein and membrane structure, carbohydrate, lipid and nucleic acid metabolism affect human health. Topics include: biological thermodynamics, energy of macromolecular structure and binding, structure/function of proteins, enzymes and nucleic acids, kinetics, enzyme catalysis and biochemical network analysis, generation of chemical and electrical potential in membranes, carbohydrate/lipid/protein metabolism and energy production, DNA synthesis, transcription, and the technologies used to monitor/detect biochemical processes.

Requisites: Prerequisites, CHEM 261 and BMME 150 or BMME 209.

Grading status: Letter grade.

BMME 335. Biomaterials. 3 Credits.

Focus on the mechanical, chemical, and biocompatibility considerations of any material (e.g., metal, ceramic, or polymer) designed to interface with the body. Various applications of biomaterials are presented and analyzed, including femoral implants and vascular grafts, in order to guide students in a semester-long design project. Previously offered as BMME 510. Majors only.

Requisites: Prerequisites, BIOL 101 and BMME 209 or BMME 150.

Grading status: Letter grade.

BMME 345. Biomedical Solid Mechanics. 3 Credits.

This course covers topics ranging from multi-body systems to stress superposition to failure criteria to prepare students for the more advanced subjects of biomechanics and rehabilitation engineering. Topics include free-body diagrams, multibody statics and dynamics, linkage kinematics and kinetics, anthropometric kinematics, stress/strain/torsion, beam bending, stress superposition, constitutive relationship, strain gauges, finite-element analysis, failure analysis, and failure mechanisms.

Requisites: Prerequisites, BMME 205, 215L, 150, 160, 209 or 219L, and BMME 201 or COMP 116.

Grading status: Letter grade.

BMME 355. Biocontrols. 3 Credits.

Quantitative analysis of dynamic and feedback control systems, including modeling of physiological systems and physiological control systems, system time and frequency responses, control characteristics, and stability analysis. Design techniques for feedback systems in biomedical applications.

Requisites: Prerequisites, BMME 350 and MATH 383; Pre- or corequisite, BMME 410.

Grading status: Letter grade.

BMME 365. Systems and Signals. 3 Credits.

Analysis of linear systems by transform methods to networks, including Fourier transforms, Laplace transforms, and convolution. Survey of linear systems applications to biomedical problems. Previously offered as BMME 410. Majors only.

Requisites: Pre- or corequisite, MATH 383.

Grading status: Letter grade.

BMME 375. Biomedical Microcontroller Applications. 3 Credits.

Introduction to digital computers for real-time processing and control of signals and systems. Programming input and output devices using C and assembly language is stressed. Case studies are used to present software design strategies for real-time laboratory systems. Previously offered as BMME 580. Majors only.

Requisites: Pre- or corequisites, BMME 301 and 385.

Grading status: Letter grade.

BMME 385. Biomedical Instrumentation. 3 Credits.

Fundamentals of biomedical instrument design and implementation.

Topics include basic electronic circuit design, analysis of medical instrumentation circuits, analog-to-digital signal conversion, biosignal capture and storage, embedded microprocessors, system integration and prototyping. This course is a lecture course with a project component. Previously offered as BMME 465. Majors only.

Requisites: Pre- or corequisite, BMME 350 or BMME 207.

Grading status: Letter grade.

BMME 396. Independent Study in Biomedical Engineering. 1-3 Credits.

Permission of the director of undergraduate studies. Independent study under a member of the biomedical engineering faculty. Approved learning contract required.

Repeat rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading status: Letter grade.

BMME 398. Biomedical Engineering Design and Manufacturing II. 2 Credits.

This course is a part of a three year sequence and it expands on the skills and knowledge gained in BMME 298. Students continue to learn the process of engineering design and develop technical skills to produce solutions for unmet medical needs. Previously offered as BMME 310. Honors version available

Requisites: Prerequisite, BMME 298.

Grading status: Letter grade.

BMME 398H. Biomedical Engineering Design and Manufacturing II. 2 Credits.

This course is a part of a three year sequence and it expands on the skills and knowledge gained in BMME 298. Students continue to learn the process of engineering design and develop technical skills to produce solutions for unmet medical needs. Previously offered as BMME 310.

Requisites: Prerequisite, BMME 298.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**BMME 405. Biomechanics of Movement. 3 Credits.**

This course provides an overview of musculoskeletal anatomy, and of the mechanical behavior of biological tissues and biological systems. Students learn to apply fundamental principles of mechanics to analyze movement in humans and other animals. Applications in rehabilitation and orthopedics are emphasized.

Requisites: Prerequisites, BMME 160 and MATH 383.

Grading status: Letter grade.

BMME 420. Introduction to Synthetic Biology. 3 Credits.

This course provides an introduction to the ideas and methodologies in the field of synthetic biology. Lectures focus on fundamental concepts in molecular biology and engineering as applied to biological system design. The laboratory portion of the course provides hands-on application of fundamental techniques in synthetic biology research. Majors only.

Requisites: Pre- or corequisites, BMME 325 or CHEM 430; and BMME 335.

Grading status: Letter grade.

BMME 435. Biological Physics. 3 Credits.

How diffusion, entropy, electrostatics, and hydrophobicity generate order and force in biology. Topics include DNA manipulation, intracellular transport, cell division, molecular motors, single molecule biophysics techniques, nerve impulses, neuroscience.

Requisites: Prerequisites, PHYS 116 and 117, or PHYS 118 and 119.

Grading status: Letter grade

Same as: PHYS 405, BIOL 431.

BMME 441. Thermal Physics. 3 Credits.

Equilibrium statistical mechanics; the laws of thermodynamics, internal energy, enthalpy, entropy, thermodynamic potentials, Maxwell's equations.

Requisites: Prerequisites, MATH 233, and PHYS 117 or 119; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade

Same as: PHYS 441.

BMME 445. Systems Neuroscience. 3 Credits.

Introduction to methodologies used to characterize a) the aggregate behavior of living neural networks and b) the changes in that behavior that occur as a function of stimulus properties, pharmacological manipulations, and other factors that dynamically modify the functional status of the network.

Requisites: Prerequisite, BMME 351 or BMME 301 or BIOL 252.

Grading status: Letter grade.

BMME 447. Neural Basis of Rehabilitation Engineering. 3 Credits.

The course will 1) introduce basic neuroscience topics underlying sensorimotor control, and 2) introduce different types of childhood and adult neuromuscular disorders with both central and peripheral origins. The main focus of the class will be on the different techniques used for diagnosis, assessment, and rehabilitation interventions.

Requisites: Prerequisites, BMME 351, and BMME 160 or BMME 345.

Grading status: Letter grade.

BMME 455. Biofluid Mechanics. 3 Credits.

This course introduces students to basics of fluid mechanics (steady and pulsatile flows, laminar and turbulent flows, and Newtonian and non-Newtonian flows). Students learn the fundamental relationships and governing equations describing these types of flows and the basic physiology of certain systems that are highly associated with fluid flows.

Requisites: Prerequisites, BMME 315, or BMME 160 and MATH 528 and COMP 116.

Grading status: Letter grade.

BMME 461. Introduction to Medical Imaging. 3 Credits.

This class covers the underlying concepts and instrumentation of modern medical imaging modalities. Review of applicable linear systems theory and relevant principles of physics. Modalities covered include X-ray radiography (conventional film-screen imaging and modern electronic imaging), computerized tomography (including the theory of reconstruction), magnetic resonance imaging, SPECT/PET, and ultrasound imaging.

Requisites: Prerequisite, BMME 410.

Grading status: Letter grade.

BMME 470. Analysis of Tissue Engineering Technologies. 3 Credits.

Lectures in this course address how to quantitatively evaluate functional engineered tissues. The course provides an overview of the field, with emphasis on detailed evaluation of scientific and commercial progress over time, and design principles that must be met to develop a process or fabricate a functional tissue-engineered part.

Requisites: Prerequisites, BMME 335 or BMME 351, and BMME 302 or BIOL 252.

Grading status: Letter grade.

BMME 485. Biotechnology. 3 Credits.

This course is designed to prepare a biomedical engineering student with the survey tools to understand key components in modern biotechnologies. Fundamental concepts, theory, design, operation, and analysis of the most common biotechnologies in bioengineering will be presented.

Requisites: Prerequisite, BMME 210.

Grading status: Letter grade.

BMME 490. Special Topics in Biomedical Engineering. 3-9 Credits.

A study in the special fields under the direction of the faculty. Offered as needed for presenting material not normally available in regular BMME courses.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

BMME 495. Undergraduate Research in Biomedical Engineering as a Technical Elective. 3 Credits.

Opportunity for hands-on faculty mentored research project in biomedical engineering. Approved plan of work required with significant independent research culminating in a final paper and presentation at an appropriate venue. Departmental approval required. Course may not be repeated.

Grading status: Letter grade.

BMME 505. Skeletal Biomechanics. 3 Credits.

A firm understanding of the principles of mechanics is an important foundation to biomechanics. In this course, students will study the mechanics of materials with applications to the strength of bone, implant analysis, and testing of biological materials. A goal of this course is for students to understand how the interface of biology, mechanics, and therapies affect skeletal pathological conditions.

Requisites: Prerequisites, BMME 160 and MATH 383.

Grading status: Letter grade.

BMME 550. Medical Imaging I: Ultrasonic, Optical, and Magnetic Resonance Systems. 3 Credits.

Physical and mathematical foundations of ultrasonic, optical, and magnetic resonance imaging systems in application to medical diagnostics. Each imaging modality is examined, highlighting critical system characteristics: underlying physics of the imaging system, including mechanisms of data generation and acquisition; image creation; and relevant image processing methods, such as noise reduction.

Requisites: Prerequisites, BIOS 550 and PHYS 128.

Grading status: Letter grade.

BMME 551. Medical Device Design I. 3 Credits.

Student multidisciplinary teams work with local medical professionals to define specific medical device concepts for implementation.

Grading status: Letter grade.

BMME 552. Medical Device Design II. 3 Credits.

Device prototypes designed in the first course in series. Good manufacturing practices; process validation; FDA quality system regulations; design verification and validation; regulatory approval planning; and intellectual property protection.

Grading status: Letter grade.

BMME 560. Medical Imaging II: X-Ray, CT, and Nuclear Medicine Systems. 3 Credits.

Overview of medical imaging systems using ionizing radiation. Interaction of radiation with matter. Radiation production and detection. Radiography systems and applications. Tomography. PET and SPECT systems and applications.

Requisites: Prerequisites, BIOS 550, BMME 410, and PHYS 128.

Grading status: Letter grade.

BMME 565. Biomedical Instrumentation I. 4 Credits.

Graduate students or permission of the instructor. Topics include basic electronic circuit design, analysis of medical instrumentation circuits, physiologic transducers (pressure, flow, bioelectric, temperate, and displacement). This course includes a laboratory where the student builds biomedical devices.

Grading status: Letter grade.

BMME 576. Mathematics for Image Computing. 3 Credits.

Mathematics relevant to image processing and analysis using real image computing objectives and provided by computer implementations.

Requisites: Prerequisites, COMP 116 or 210 or 401, and MATH 233; a grade of C or better is required in all prerequisites.

Grading status: Letter grade

Same as: COMP 576.

BMME 581. Microcontroller Applications II. 3 Credits.

Advanced topics in microcontroller systems used for biomedical instruments. Problems of interfacing computers with biomedical systems are studied. Students collaborate to develop a new biomedical instrument. Platforms could include the use of digital signal processing (DSP) microcontrollers or field programmable gate arrays (FPGAs), and topics could include applications such as digital signal processing and high speed data acquisition to computers.

Requisites: Prerequisites, BMME 465 and 580.

Grading status: Letter grade.

BMME 681. Human Factors Engineering and Quality Management Systems for Engineers. 3 Credits.

This course teaches human factors engineering, risk assessment, and quality management systems. At the end of the course, students will be able to apply their knowledge to their senior design project and test for a six sigma green belt certification.

Grading status: Letter grade.

BMME 691H. Honors Thesis. 3 Credits.

Research honors course. Prior approval needed from the chair or associate chair of the program for topic selection and faculty research mentor. Minimum GPA requirement, written report, and abstract requirements as set forth by the honors program.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

BMME 692H. Honors Thesis. 3 Credits.

Research honors thesis continuation with required GPA, research topic selection with approved faculty mentor. Written abstract and report per honors program guidelines submitted by specific deadlines.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

BMME 697. BME Senior Design I. 3 Credits.

This course is part of a three year sequence and it expands on the skills and knowledge gained in BM(M)E 398. Students continue to learn the process of engineering design and learn new skills to produce solutions for unmet medical needs. Majors only.

Requisites: Prerequisites, BMME 398 or 310, BMME 301 or 351; and two BME elective courses 300 level or higher.

Grading status: Letter grade.

BMME 698. Biomedical Engineering Senior Design II. 3 Credits.

This course is part of a three-year sequence and it expands on the skills and knowledge gained in BME Senior Design I. Students continue to learn the process of engineering design and learn new skills to produce solutions for unmet medical needs. Implementation phase of the senior design experience.

Requisites: Prerequisite, BMME 697.

Grading status: Letter grade.

In this major, students learn to apply engineering principles to solve problems in medicine and biology. This is a field of great breadth that incorporates medical imaging, informatics, micro and nanosystems, prosthetics, medical devices, tissue engineering and genomics, drug delivery, and applications of signal processing and control.

Admission

Students may declare the biomedical and health sciences engineering major as early as their first year. However, students who wish to complete the biomedical and health sciences engineering major must apply for admission to the program. Admission to the university does not guarantee admission to the program. Admission to the program is granted to rising sophomores, and students will apply in the fall, spring or summer of their first year. Rising juniors may also apply, but admission to rising juniors will only be granted on a limited basis if space is available.

Students who are not accepted to the program must select a different major.

In order to apply, students must complete the following courses.

Code	Title	Hours
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ¹	4
ENGL 105	English Composition and Rhetoric ²	3
MATH 231	Calculus of Functions of One Variable I ^{1, H}	4
MATH 232	Calculus of Functions of One Variable II ^{1, H}	4
PHYS 118 or PHYS 116	Introductory Calculus-based Mechanics and Relativity ¹ Mechanics	4

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ With a grade of C or better. AP, IB, or transfer credit will be accepted according to university policies.

² With a grade of C- or better. Transfer credit will be accepted according to university policies.

More information about this process is available on the department Web site (<http://bmeundergrad.bme.unc.edu/unc-biomedical-engineering/admission/>).

Program Enhancement Fee

Students will be charged an additional fee of \$750/semester (\$1,500/year). The money is directly applied to the undergraduate program to enhance the undergraduate laboratory, internship, and outreach experience.

Advising

The department provides both curriculum advising and career advising. BME curriculum advisors provide guidance on course and curriculum issues. The advisors are a small group of faculty members and staff who have expertise in the BME curriculum. Students can meet with their designated curriculum advisors at any time. After admission to the program, BME students must get their planned courses approved by a curriculum advisor each semester in order to register for classes. Students can also schedule a meeting with an advisor for additional assistance. The department sends out instructions on this procedure every semester.

BME career advisors provide guidance on issues related to careers, internships, graduate school, etc. Starting in the sophomore year, each student is assigned to a BME faculty member as his or her career advisor.

First-year students receive advising through the Academic Advising Program. A first-year student can also meet their designated curriculum advisor in BME by scheduling an advising appointment. BME curriculum advisors do not advise students on General Education requirements. Advisors from the Academic Advising Program can provide assistance with these requirements.

Other resources for help: The BME Club offers peer advising around the time of registration each semester. Through this program, seniors provide

advising assistance to younger students. More information is sent out to students before these sessions.

Student Learning Outcomes

Upon completion of the biomedical and health sciences engineering program, students should be able to:

General engineering outcomes:

- Demonstrate an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- Demonstrate an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare, as well as global, cultural, social, environmental, and economic factors
- Demonstrate an ability to communicate effectively with a range of audiences
- Demonstrate an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- Demonstrate an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- Demonstrate an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions
- Demonstrate an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

BME-specific program criteria:

- Apply principles of engineering, biology, human physiology, chemistry, calculus-based physics, mathematics (through differential equations), and statistics
- Solve bio/biomedical engineering problems, including those associated with the interaction between living and non-living systems
- Analyze, model, design, and realize bio/biomedical engineering devices, systems, components, or processes
- Make measurements on and interpret data from living systems

Requirements

In addition to the program requirements listed below, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill or North Carolina State University (N.C. State) courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill or N.C. State
- earn a minimum of 18 hours of C or better in the major core requirements

For more information, please consult the degree requirements section of the catalog (p. 196).

The first two years of study have many courses in common with the B.S. programs in chemistry, physics, computer science, or mathematical sciences. The curriculum, as for all sciences, is vertically structured, with experience and knowledge from each course serving as a foundation for

subsequent courses. Students' attention to prerequisites is important. The specific requirements are listed below. Students are also encouraged to engage in research in a laboratory at UNC–Chapel Hill or elsewhere, or have an internship experience in industry.

The degree program requires **124 hours**.

Students who are admitted to the program may take courses at N.C. State. Most classes designated BMME ### are offered as BMME ### on the UNC campus and BME ### on the N.C. State campus. Other N.C. State course numbers are designated in parentheses.

Code	Title	Hours
Core Requirements		

Students should take the following courses, preferably in their second year:

BMME 201	Computer Methods in Biomedical Engineering (CSC 113)	3
or COMP 116	Introduction to Scientific Programming	
BMME 205	Biomedical Mechanics	4
or BMME 160	Statics	
& BMME 215L	and Biomedical Mechanics Lab	
BMME 209	Materials Science of Biomaterials	4
or BMME 150	Introduction to Materials Science	
& BMME 219L	and Materials Science of Biomaterials Lab	
BMME 298	Biomedical Engineering Design and Manufacturing I	2

Students should take the following courses, preferably in their third year:

BMME 207	Biomedical Electronics	4
BMME 301	Human Physiology : Electrical Analysis	4
BMME 302	Human Physiology: Mechanical Analysis	4
BMME 398	Biomedical Engineering Design and Manufacturing II ^H	2

Take three gateway electives to prepare for specialty electives in two areas

BMME 315	Biotransport	
BMME 325	Biochemistry for Biomedical Engineers	
BMME 335	Biomaterials	
BMME 345	Biomedical Solid Mechanics	
BMME 355	Biocontrols	
BMME 365	Systems and Signals	
BMME 375	Biomedical Microcontroller Applications	
BMME 385	Biomedical Instrumentation	

Students should take the following courses, preferably in their final year:

BMME 697	BME Senior Design I (BME 451)	3
BMME 698	Biomedical Engineering Senior Design II (BME 452)	3
Four electives from no more than two specialization areas		12
Engineering elective - an upper level (300 or greater) engineering course		3

Additional Requirements

Students should take the following courses, preferably in their first two years:

BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory (BIO 183) ^H	4
-----------------	--	---

CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I (CH 101 + 102)	4
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II (CH 201 + 202) ^H	4
CHEM 261	Introduction to Organic Chemistry I (CH 221 + CH 222) ^H	3
MATH 231	Calculus of Functions of One Variable I (MA 141) ^H	4
MATH 232	Calculus of Functions of One Variable II (MA 241) ^H	4
MATH 233	Calculus of Functions of Several Variables (MA 242) ^H	4
MATH 383 & 383L	First Course in Differential Equations and First Course in Differential Equations Laboratory ^H	4
PHYS 116	Mechanics (PY 205 + 206) ^H	4
or PHYS 118	Introductory Calculus-based Mechanics and Relativity	
PHYS 117	Electromagnetism and Optics (PY 208 + 209) ^H	4
or PHYS 119	Introductory Calculus-based Electromagnetism and Quanta	
Remaining General Education (p. 120) courses and electives to reach 124 hours		28
Total Hours		124

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Students must satisfy all Foundations, Approaches, and Connections requirements, as outlined elsewhere in this catalog. Some General Education requirements should be met with specific courses as listed above.

Biosignals and Imaging

Code	Title	Hours
UNC Campus		
BMME 461	Introduction to Medical Imaging	3
BMME 576	Mathematics for Image Computing	3
BMME 581	Microcontroller Applications II	3
MATH 528	Mathematical Methods for the Physical Sciences I	3
N.C. State Campus		
BME 412	Biomedical Signal Processing	3
ECE 455	Computer Control of Robots	3
ECE 456	Mechatronics	3
ECE 461	Embedded Systems	3

Medical Microdevices

Code	Title	Hours
UNC Campus		
BMME 441	Thermal Physics (or MAE 201, or MSE 301)	3
BMME 455	Biofluid Mechanics (or MAE 308, or CE 382)	3
BMME 581	Microcontroller Applications II	3
N.C. State Campus		
BME 412	Biomedical Signal Processing	3
BME 418	Wearable Biosensors	3
BME 522	Medical Instrumentation	3

BME 536	Digital Control Systems	3
ECE 505	Neural Interface Engineering	3
E 304	Intro to Nano Science and Technology	3

Regenerative Medicine

Code	Title	Hours
UNC Campus		
BMME 420	Introduction to Synthetic Biology	3
BMME 441	Thermal Physics (or MAE 201, or MSE 301)	3
BMME 455	Biofluid Mechanics (or MAE 308, or CE 382)	3
BMME 470	Analysis of Tissue Engineering Technologies	3
PHYS 405	Biological Physics	3
N.C. State Campus		
BME 462	Biomaterials Characterization	3
BME 484	Fundamentals of Tissue Engineering	3
BIT 466 & BME 483	Animal Cell Culture; Tissue Engineering Technologies	2+2
TE 463	Polymer Engineering	3

Rehabilitation Engineering

Code	Title	Hours
UNC Campus		
BMME 405	Biomechanics of Movement	3
BMME 445	Systems Neuroscience	3
BMME 447	Neural Basis of Rehabilitation Engineering	3
BMME 505	Skeletal Biomechanics	3
N.C. State Campus		
BME 418	Wearable Biosensors	3
BME 425	Bioelectricity	3
BME 444	Orthopedic Biomechanics	3
BME 467	Mechanics of Tissues and Implants Requirements	3

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

First Year		Hours
BMME 101	Frontiers of Biomedical Engineering ¹	1
MATH 231	Calculus of Functions of One Variable I ^{2, H}	4
MATH 232	Calculus of Functions of One Variable II ^{2, H}	4
PHYS 116 or PHYS 118	Mechanics ^{2, H} or Introductory Calculus-based Mechanics and Relativity	4
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ²	4
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^H	4
ENGL 105	English Composition and Rhetoric ³	3

Foreign Language level 3	3
Approaches (p. 120) and Connections (p. 120) (1 course)	3
Lifetime Fitness	1

Remaining General Education (p. 120) courses and electives to reach 124 credits	11
Hours	29
Total Hours	124

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Strongly recommended, but not required.

² With a grade of C or better. AP, IB, or transfer credit will be accepted according to university policies.

³ With a grade of C- or better. Transfer credit will be accepted according to university policies.

Special Opportunities in Biomedical Engineering

Honors in Biomedical and Health Sciences Engineering

Students who successfully complete a research project and have a sufficiently outstanding academic record are eligible for graduation with honors or highest honors. The requirements for graduation with honors or highest honors include

1. overall grade point average of 3.3 or higher;
2. completion of a two-semester research project, with course credit given in BMME 691H and BMME 692H;
3. presentation of the research to a committee of three faculty members, both as an oral presentation and a written honors thesis; and,
4. approval by that committee.

Additional requirements for BMME 691H and BMME 692H are given to students in those classes. For consideration for highest honors, the research project must be judged to be of publishable quality.

Students wishing to be considered for graduation with honors should apply to the director of undergraduate studies by September 15th. Additional information is sent to all students at the start of the fall semester.

Departmental Involvement

Student organizations include the BME Club. This is an official UNC–Chapel Hill club that organizes speakers, outreach to industry and the medical school, and mentoring, among other activities. This is also a joint club with the BME students at North Carolina State University.

Experiential Education

All students in biomedical engineering participate in a capstone design experience in which they develop a device or system that has biomedical applications. This project fulfills the General Education experiential education requirement. There are also opportunities for experiential education outside of the curriculum. These opportunities include Helping Hands, which develops 3-D printed prosthetic hands, and Engineering World Health, which develops medical equipment for under-resourced populations.

Undergraduate Awards

Awards are given to students in the graduating class each spring.

Undergraduate Research

Students are strongly encouraged to undertake a research project at any time during their education, but particularly during their junior and/or senior years. Through the challenge of a research project, students come face to face with the leading edge of an area, gain expertise with state-of-the-art techniques and instrumentation, and experience a professional scientific career firsthand. Many undergraduate students work in the research laboratories of BME faculty members. In addition, faculty across campus conduct BME-related research, and many undergraduate students take advantage of these research opportunities in the School of Medicine, School of Dentistry, School of Pharmacy, and in the Departments of Biology, Chemistry, Physics and Astronomy, Computer Science, and Exercise and Sport Science.

The BME department helps to coordinate research activities and facilitates connections between students and research laboratories. This is accomplished through communication via e-mail and the department Web site. Also, the department organizes laboratory open houses, enabling students to visit faculty laboratories and learn about their research opportunities. The UNC–Chapel Hill Office for Undergraduate Research is also an excellent resource for finding research opportunities.

Introduction

The Department of Biostatistics in the Gillings School of Global Public Health is recognized as a worldwide leader in research and practice. The B.S.P.H. in biostatistics provides highly qualified undergraduates with a curriculum consisting of a strong mathematical foundation; advanced coursework in statistical applications, theory, and computing; and an understanding of the public health sciences.

The undergraduate major in biostatistics prepares students to apply quantitative methods to design studies, implement methods, analyze data, and interpret results across a range of disciplines.

The degree provides an excellent foundation for continued studies (primarily graduate school in biostatistics, statistics, data science, or medical school). The job market for B.S.P.H. biostatistics graduates is strong, with previous students employed in a variety of fields including public health, pharmaceuticals, and medicine. This undergraduate program is believed to be the first undergraduate degree in biostatistics in the country.

Advising

The academic coordinator and director of undergraduate studies advise biostatistics undergraduates. Undergraduate students are encouraged to meet regularly with these advisors and review their Tar Heel Tracker each semester. Departmental academic advising is particularly important for those students who are considering proceeding to graduate school,

double majoring, or pursuing the dual B.S.P.H.–M.S. degree. Further information may be obtained through the departmental Web site (<http://sph.unc.edu/bios/bios-degrees/>).

Facilities

The Department of Biostatistics has a student library, a student study room, and computer facilities for its students.

Graduate School and Career Opportunities

In recent years, the majority of undergraduate biostatistics students from this program have chosen to attend medical school or graduate school in biostatistics (or other closely related fields) following graduation. More than 65 percent of recent graduates have entered medical school or graduate programs (primarily biostatistics) immediately following graduation. Recent graduates are attending top-ranked medical schools at Johns Hopkins University, Vanderbilt University, University of Virginia, Duke University, and UNC–Chapel Hill. Biostatistics graduate programs where students have matriculated immediately following completion of this undergraduate program include the University of Washington–Seattle, Harvard, UNC–Chapel Hill, and the University of Michigan. Previous graduates who chose to seek employment have taken positions in the pharmaceutical industry, contract research organizations (CROs), and medical settings. Examples of employers of recent graduates include Duke Clinical Research Institute, Blue Cross Blue Shield, IQVIA, Rho, PPD, National Institutes of Environmental Health Science, and Research Triangle Institute. Traditionally, career opportunities have been outstanding for skilled biostatisticians.

Major

Professors

Jianwen Cai, Ding-Geng (Din) Chen, David J. Couper, Jason P. Fine, Michael G. Hudgens, Joseph G. Ibrahim, Anastasia Ivanova, Gary G. Koch, Michael R. Kosorok, Lisa M. Lavange, Danyu Lin, Yufeng Liu, James Stephen Marron, Andrew B. Nobel, John S. Preisser, Bahjat Qaqish, Richard Smith, Paul W. Stewart, Kinh Truong, Donglin Zeng, Haibo Zhou, Hongtu Zhu, Fei Zou.

Associate Professors

Robert Agans, Jamie L. Crandell, Annie Green Howard, Yun Li, Fang-Cheng Lin, Jane Monaco, Todd A. Schwartz, Daniela Sotres-Alvarez, Xianming Tan.

Assistant Professors

Yuchao Jiang, Quefeng Li, Matthew Loop, Michael Love, Matthew Psioda, Naim Rashid, Di Wu.

Instructors

Marcus Herman-Giddens, Kathy Roggenkamp.

Adjunct Professor

Clarice Weinberg.

Adjunct Associate Professors

Eric Laber, Wei Sun, William Valdar.

Adjunct Assistant Professors

Matthew Biggs, Liddy Chen, Charles Pepe Ranney, Shanshan Zhao, Xiaojing Zheng, Richard Zink.

Professors Emeriti

Shrikant Bangdiwala, Lloyd E. Chambless, Clarence E. Davis, James E. Grizzle, Ronald W. Helms, William D. Kalsbeek, Lawrence L. Kupper, Keith E. Muller, Dana E. Quade, Pranab K. Sen, Chirayath M. Suchindran, Michael J. Symons, Craig D. Turnbull.

BIOS–Biostatistics

Undergraduate-level

BIOS 392. Undergraduate Internship. 1-3 Credits.

Academic credit for approved internship experience.

Gen Ed: EE- Academic Internship.

Repeat rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading status: Letter grade.

BIOS 396. Readings in Biostatistics. 1-12 Credits.

Directed readings or laboratory study. May be taken more than once. Two to six laboratory hours a week.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level

BIOS 500H. Introduction to Biostatistics. 3 Credits.

Access to SAS, Excel required. Permission of instructor for nonmajors. Introductory course in probability, data analysis, and statistical inference designed for B.S.P.H. biostatistics students. Topics include sampling, descriptive statistics, probability, confidence intervals, tests of hypotheses, chi-square distribution, 2-way tables, power, sample size, ANOVA, non-parametric tests, correlation, regression, survival analysis.

Requisites: Prerequisite, MATH 231 and 232; corequisite, BIOS 511.

Grading status: Letter grade.

BIOS 511. Introduction to Statistical Computing and Data Management. 4 Credits.

Required preparation, previous or concurrent course in applied statistics. Permission of instructor for nonmajors. Introduction to use of computers to process and analyze data, concepts and techniques of research data management, and use of statistical programming packages and interpretation. Focus is on use of SAS for data management and reporting.

Grading status: Letter grade.

BIOS 512. Data Science Basics. 3 Credits.

Students will gain proficiency with R, data wrangling, data quality control and cleaning, data visualization, exploratory data analysis, with an overall emphasis on the principles of good data science, particularly reproducible research. The course will also develop familiarity with several software tools for data science best practices, such as Git, Docker, Jupyter, Make, and Nextflow.

Requisites: Pre- or corequisite, BIOS 600.

Grading status: Letter grade.

BIOS 540. Problems in Biostatistics. 1-15 Credits.

Arrangements to be made with the faculty in each case. A course for students of public health who wish to make a study of some special problem in the statistics of the life sciences and public health. Honors version available

Repeat rules: May be repeated for credit. 15 total credits. 4 total completions.

Grading status: Letter grade.

BIOS 540H. Problems in Biostatistics. 1-15 Credits.

Arrangements to be made with the faculty in each case. A course for students of public health who wish to make a study of some special problem in the statistics of the life sciences and public health.

Repeat rules: May be repeated for credit. 15 total credits. 4 total completions.

Grading status: Letter grade.

BIOS 600. Principles of Statistical Inference. 3 Credits.

Required preparation, knowledge of basic descriptive statistics. Major topics include elementary probability theory, probability distributions, estimation, tests of hypotheses, chi-squared procedures, regression, and correlation.

Grading status: Letter grade.

BIOS 611. Introduction to Data Science. 4 Credits.

Topics will include gaining proficiency with R and Python, data wrangling, data quality control and cleaning, data visualization, exploratory data analysis, and introductory applied optimization, with an overall emphasis on the principles of good data science, particularly reproducible research. Some emphasis will be given to large data settings such as genomics or claims data. The course will also develop familiarity with software tools for data science best practices, such as Git, Docker, Jupyter, and Nextflow.

Requisites: Prerequisites, MATH 232 and 416, and STOR 151.

Grading status: Letter grade.

BIOS 635. Introduction to Machine Learning. 3 Credits.

This course will be an introductory course to machine learning. The goal is to equip students with knowledge of existing tools for data analysis and to get students prepared for more advanced courses in machine learning. This course is restricted to SPH Master of Public Health students.

Requisites: Prerequisite, BIOS 512 or 650; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOS 645. Principles of Experimental Analysis. 3 Credits.

Required preparation, basic familiarity with statistical software (preferably SAS able to do multiple linear regression) and introductory biostatistics, such as BIOS 600. Continuation of BIOS 600. Analysis of experimental and observational data, including multiple regression and analysis of variance and covariance. Previously offered as BIOS 545.

Permission of the instructor for nonmajors.

Requisites: Prerequisites, BIOS 600 or SPHG 711.

Grading status: Letter grade.

BIOS 650. Basic Elements of Probability and Statistical Inference I. 3 Credits.

Required preparation, two semesters of calculus (such as MATH 231, 232). Fundamentals of probability; discrete and continuous distributions; functions of random variables; descriptive statistics; fundamentals of statistical inference, including estimation and hypothesis testing.

Grading status: Letter grade.

BIOS 660. Probability and Statistical Inference I. 3 Credits.

Required preparation, three semesters of calculus (such as MATH 231, 232, 233). Introduction to probability; discrete and continuous random variables; expectation theory; bivariate and multivariate distribution theory; regression and correlation; linear functions of random variables; theory of sampling; introduction to estimation and hypothesis testing. Students may not receive credit for both BIOS 660 and BIOS 672.

Grading status: Letter grade.

BIOS 661. Probability and Statistical Inference II. 3 Credits.

Distribution of functions of random variables; Helmer transformation theory; central limit theorem and other asymptotic theory; estimation theory; maximum likelihood methods; hypothesis testing; power; Neyman-Pearson Theorem, likelihood ratio, score, and Wald tests; noncentral distributions. Students may not receive credit for both BIOS 661 and BIOS 673.

Requisites: Prerequisite, BIOS 660; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOS 662. Intermediate Statistical Methods. 4 Credits.

Principles of study design, descriptive statistics, sampling from finite and infinite populations, inferences about location and scale. Both distribution-free and parametric approaches are considered. Gaussian, binomial, and Poisson models, one-way and two-way contingency tables.

Requisites: Pre- or corequisites, BIOS 511 and 650.

Grading status: Letter grade.

BIOS 663. Intermediate Linear Models. 4 Credits.

Required preparation, BIOS 662. Matrix-based treatment of regression, one-way and two-way ANOVA, and ANCOVA, emphasizing the general linear model and hypothesis, as well as diagnostics and model building. Reviews matrix algebra. Includes statistical power for linear models and binary response regression methods.

Grading status: Letter grade.

BIOS 664. Sample Survey Methodology. 4 Credits.

Fundamental principles and methods of sampling populations, with emphasis on simple, random, stratified, and cluster sampling. Sample weights, nonsampling error, and analysis of data from complex designs are covered. Practical experience through participation in the design, execution, and analysis of a sampling project.

Requisites: Prerequisite, BIOS 550; permission of the instructor for students lacking the prerequisite.

Gen Ed: EE- Field Work.

Grading status: Letter grade

Same as: STOR 358.

BIOS 665. Analysis of Categorical Data. 3 Credits.

Introduction to the analysis of categorized data: rates, ratios, and proportions; relative risk and odds ratio; Cochran-Mantel-Haenszel procedure; survivorship and life table methods; linear models for categorical data. Applications in demography, epidemiology, and medicine.

Requisites: Prerequisites, BIOS 645, 650, and 662; permission of the instructor for students lacking the prerequisites.

Grading status: Letter grade.

BIOS 667. Applied Longitudinal Data Analysis. 3 Credits.

Analysis of variance and multiple linear regression course at the level of BIOS 645 or 663 required. Familiarity with matrix algebra recommended. Univariate and multivariate repeated measures ANOVA, GLM for longitudinal data, linear mixed models. Estimation and inference, maximum and restricted maximum likelihood, fixed and random effects.

Grading status: Letter grade.

BIOS 668. Design of Public Health Studies. 3 Credits.

Statistical concepts in basic public health study designs: cross-sectional, case-control, prospective, and experimental (including clinical trials). Validity, measurement of response, sample size determination, matching and random allocation methods.

Requisites: Prerequisites, BIOS 645 and 650.

Grading status: Letter grade.

BIOS 669. Working with Data in a Public Health Research Setting. 3 Credits.

Provides a foundation and training for working with data from clinical trials or research studies. Topics: issues in study design, collecting quality data, using SAS and SQL to transform data, typical reports, data closure and export, and working with big data.

Requisites: Prerequisite, BIOS 511 or EPID 700; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOS 670. Demographic Techniques I. 3 Credits.

Source and interpretation of demographic data; rates and ratios, standardization, complete and abridged life tables; estimation and projection of fertility, mortality, migration, and population composition.

Grading status: Letter grade.

BIOS 672. Probability and Statistical Inference I. 4 Credits.

Required preparation, three semesters of calculus. Introduction to probability; discrete and continuous random variables; combinatorics; expectation; random sums, multivariate distributions; functions of random variables; theory of sampling; convergence of sequences, power series, types of convergence, L'Hopital's rule, differentiable functions, Lebesgue integration, Fubini's theorem, convergence theorems, complex variables, Laplace transforms, inversion formulas.

Grading status: Letter grade.

BIOS 673. Probability and Statistical Inference II. 4 Credits.

Distribution of functions of random variables; central limit theorem and other asymptotic theory; estimation theory; hypothesis testing; Neyman-Pearson Theorem, likelihood ratio, score, and Wald tests; noncentral distributions. Advanced problems in statistical inferences, including information inequality, best unbiased estimators, Bayes estimators, asymptotically efficient estimation, nonparametric estimation and tests, simultaneous confidence intervals.

Requisites: Prerequisite, BIOS 660; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOS 680. Introductory Survivorship Analysis. 3 Credits.

Introduction to concepts and techniques used in the analysis of time to event data, including censoring, hazard rates, estimation of survival curves, regression techniques, applications to clinical trials.

Requisites: Prerequisite, BIOS 661; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

BIOS 690. Special Topics in Biostatistics. 1-3 Credits.

Field/topical/research seminar. Instructors use this course to offer instruction in particular topics or approaches.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.

Grading status: Letter grade.

BIOS 691. Field Observations in Biostatistics. 1 Credit.

Field visits to, and evaluation of, major nonacademic biostatistical programs in the Research Triangle area. Field fee: \$25.

Grading status: Letter grade.

BIOS 693H. Honors Research in Biostatistics. 3 Credits.

Directed research. Written and oral reports required.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

BIOS 694H. Honors Research in Biostatistics. 3 Credits.

Directed research. Written and oral reports required.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

Biostatistics Major, B.S.P.H.

Michael R. Kosorok, Chair

Jane Monaco, Program Director

monaco@email.unc.edu

Biostatistics is a discipline concerned with the improvement of human health through the application and advancement of statistical science. The B.S.P.H. biostatistics curriculum consists of a strong mathematical foundation; advanced coursework in statistical applications, theory, and computing; and an understanding of the public health sciences.

The undergraduate major in biostatistics prepares students to apply quantitative methods to design studies, implement methods, analyze data, and interpret results across a range of disciplines. The degree provides an excellent foundation for continued studies (primarily graduate school in biostatistics, statistics, data science, or medical school). The job market for B.S.P.H. biostatistics graduates is strong, with previous students employed in a variety of fields including public health, pharmaceuticals, and medicine.

Admission (p. 409) to the program is required.

Student Learning Outcomes

Upon completion of the biostatistics program, students should be able to:

1. Perform descriptive and inferential data analyses to answer varied research questions (BIOS 500H)
2. Interpret data analysis results for a variety of audiences (BIOS 500H)
3. Use software appropriately in data collection, data management, and analysis (BIOS 511)
4. Demonstrate the use of elementary statistical theory including the use of basic concepts of probability, random variation and common statistical probability distributions (BIOS 650)
5. Demonstrate strong quantitative skills through the successful completion of calculus, linear algebra, and discrete mathematics (MATH 233, MATH 347, and MATH 381)

In addition to these competencies, all BSPH biostatistics students meet the Public Health CEPH competencies through the Public Health Core coursework.

Prerequisite Courses Required for Admission

Code	Title	Hours
MATH 231	Calculus of Functions of One Variable I ^H	4
MATH 232	Calculus of Functions of One Variable II ^H	4
MATH 233	Calculus of Functions of Several Variables ^H	4
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^H	4
COMP 116 or COMP 110	Introduction to Scientific Programming or Introduction to Programming	3
Total Hours		19

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Admission

The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Four majors are available to undergraduate students: biostatistics, environmental health sciences, health policy and management, and nutrition. Each of these combines features of a broad-based education with concentrated study in a specific public health discipline. The programs prepare individuals for preprofessional positions in health-related fields and provide a firm base for graduate study. Students are permitted to pursue two majors in the school. Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, requirements described in this catalog particularly apply to students admitted to the school during the 2020–2021 academic year. In addition to the information presented below please see the Gillings Program Search (GPS) (<http://sph.unc.edu/gps/>) for the most up to date information on the school.

Students who wish to obtain the B.S.P.H. degree typically spend two years in the General College of the University of North Carolina at Chapel Hill (or in an equivalent core program of academic study elsewhere) and two subsequent years under the administration of the Gillings School of Global Public Health. Enrollment in the B.S.P.H. degree programs is limited. Typically a student is selected in the latter half of the sophomore year and admitted on a competitive basis for junior year entry to the major. The minimum recommended grade point average for admission to programs in biostatistics, environmental health sciences, health policy and management, and nutrition is 3.0.

For current UNC–Chapel Hill students, the initial step of B.S.P.H. application is available in ConnectCarolina under the 'Apply Majors' tab.

Transfer students interested in biostatistics and health policy and management majors must apply through the Office of Undergraduate Admissions (<http://admissions.unc.edu/apply/transfer-students/>) using the Transfer Common application. Transfer students interested in environmental health sciences and nutrition majors must be accepted to UNC–Chapel Hill first and then satisfy campus residency requirements during their first and/or second semester at UNC–Chapel Hill, and then apply as a current UNC–Chapel Hill student.

For high school seniors, our four majors participate in the University Assured Enrollment Programs under EXCEL@Carolina. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina's professional schools or a spot in an

accelerated undergraduate/graduate program. Programs include unique opportunities such as early access to classes, individualized mentorship, and career connections. For additional information, please visit EXCEL@Carolina (<https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/>).

Requirements

In addition to the program requirements listed below, students must:

- attain a final cumulative grade point average of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a C (not C-) or better in prerequisite, core public health, and department-required courses

For more information, please consult the degree requirements section of the catalog (p. 196).

Code	Title	Hours
Core Requirements		
Public health core courses:		
SPHG 351	Foundations of Public Health	3
SPHG 352	Public Health Systems and Solutions	4.0
EPID 600	Principles of Epidemiology for Public Health	3
Biostatistics courses:		
BIOS 500H	Introduction to Biostatistics	3
BIOS 511	Introduction to Statistical Computing and Data Management	4
BIOS 645	Principles of Experimental Analysis	3
BIOS 650	Basic Elements of Probability and Statistical Inference I	3
BIOS 664	Sample Survey Methodology	4
BIOS 668	Design of Public Health Studies	3
BIOS 691	Field Observations in Biostatistics	1
Additional Requirements		
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{1, H}	4
COMP 110 or COMP 116	Introduction to Programming ^{1, H} or Introduction to Scientific Programming	3
MATH 231	Calculus of Functions of One Variable I ^{1, H}	4
MATH 232	Calculus of Functions of One Variable II ^{1, H}	4
MATH 233	Calculus of Functions of Several Variables ^{1, H}	4
BIOL 201 or BIOL 202	Ecology and Evolution ^{2, H} or Molecular Biology and Genetics	4
MATH 381 or STOR 215	Discrete Mathematics ^H or Foundations of Decision Sciences	3
MATH 347	Linear Algebra for Applications	3
MATH 521 or MATH 528	Advanced Calculus I ^H or Mathematical Methods for the Physical Sciences I	3
Total Hours		63

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Required before matriculation into the program

² Have prerequisites, BIOL 101 and CHEM 101 or CHEM 102

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

First Year		Hours
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^H	4
MATH 231	Calculus of Functions of One Variable I ^H	4
MATH 232	Calculus of Functions of One Variable II ^H	4
Hours		12
Sophomore Year		
COMP 110 or COMP 116	Introduction to Programming ^H or Introduction to Scientific Programming	3
MATH 233	Calculus of Functions of Several Variables ^H	4
Hours		7
Junior Year		
Fall Semester		
BIOS 500H	Introduction to Biostatistics (fall only)	3
BIOS 511	Introduction to Statistical Computing and Data Management (fall only)	4
MATH 381 or STOR 215	Discrete Mathematics ^H or Foundations of Decision Sciences	3
SPHG 351	Foundations of Public Health	3
EPID 600	Principles of Epidemiology for Public Health ¹	3
Hours		16
Spring Semester		
BIOS 645	Principles of Experimental Analysis (spring only)	3
MATH 521 or MATH 528	Advanced Calculus I ^H or Mathematical Methods for the Physical Sciences I	3
SPHG 352	Public Health Systems and Solutions	4
Hours		10
Senior Year		
Fall Semester		
BIOS 650	Basic Elements of Probability and Statistical Inference I (fall only)	3
BIOS 691	Field Observations in Biostatistics (fall only)	1
MATH 347	Linear Algebra for Applications	3
Hours		7

Spring Semester

BIOS 664	Sample Survey Methodology (spring only)	4
BIOS 668	Design of Public Health Studies (spring only)	3
BIOL 201 or BIOL 202	Ecology and Evolution ^H or Molecular Biology and Genetics	4
Hours		11
Total Hours		63

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ EPID 600 strongly recommended in the junior year, but may be taken in the senior year.

Special Opportunities in the Department of Biostatistics

Dual Bachelor's–Master's Degree Program

Undergraduate students with appropriate math and biostatistics backgrounds have the opportunity to pursue a dual bachelor's–graduate degree. This dual B.S.P.H.–M.S. program identifies a coherent course of study for students to complete some of the M.S. degree requirements in biostatistics while pursuing a B.S.P.H. degree with a major in biostatistics. More information is available on the department Web site (<http://sph.unc.edu/bios/faqs-undergraduates-2/>).

Honors in Biostatistics

The Department of Biostatistics offers an honors program in which undergraduates can pursue individualized study and undertake a research project in their senior year. Students who have a grade point average of 3.3 or higher are eligible to participate in honors research and write an honors thesis. Faculty members' readiness to guide the students in their honors work governs the final selection of those allowed to enter the program. Students completing an honors thesis must register for BIOS 693H and BIOS 694H.

Experiential Education

The required course, BIOS 664, fulfills the General Education experiential education requirement. In addition, students are required to take BIOS 691 (usually during the fall semester of the senior year). This course consists of an orientation to and observation of six or more major nonacademic institutions in North Carolina's Research Triangle Park area that employ biostatisticians, including contract research organizations and nonprofit companies. BIOS 691 does not fulfill the General Education experiential education requirement.

Laboratory Teaching Internships and Assistantships

Students are encouraged to investigate part-time employment during the academic year and full-time employment during the summer after their junior year with members of our faculty and their collaborators on current research and service projects.

Study Abroad

Students are encouraged to participate in the University's study abroad programs in the summers or before matriculating to the B.S.P.H. in biostatistics program. Identification of a study abroad program early in the student's career is necessary for course planning purposes.

Undergraduate Awards

The Theta Chapter of Delta Omega honors up to two students among the department's graduates with an award of excellence. Awards are presented in the spring as part of the biostatistics awards ceremony. Among the recent graduates, a notable proportion of students have been inducted into Phi Beta Kappa.

Undergraduate Research

Students are encouraged to consider doing senior honors research and should consult individual faculty members for opportunities. However, some students choose to take advantage of the myriad part-time employment opportunities with our faculty members on their research and service projects or opportunities within nearby Research Triangle Park.

Kathleen Caron, Chair

kathleen_caron@med.unc.edu

The Department of Cell Biology and Physiology in the UNC School of Medicine was formed in July 2012 through the merger of the Department of Cell and Developmental Biology and the Department of Cell and Molecular Physiology. The department offers courses for premedical, predoctoral, nursing, pharmacy, physical therapy, and allied health students, as well as students pursuing science majors. However, the department does not offer a formal program leading to an undergraduate degree. Students interested in independent research may register for PHYI 395 for directed readings or laboratory study with a member of the faculty. The following courses are open to undergraduate students majoring in the sciences.

Graduate Programs

- M.S. in Cell Biology and Physiology (<http://catalog.unc.edu/graduate/schools-departments/cell-biology-physiology/>)
- Ph.D. in Cell Biology and Physiology (<http://catalog.unc.edu/graduate/schools-departments/cell-biology-physiology/>)

Subjects in this department include: Cell and Development Biology (CBIO) and Physiology (PHYI).

CBIO

Advanced Undergraduate and Graduate-level Courses

CBIO 400. Introduction to Medical Simulation. 3 Credits.

This entry-level medical simulation course focuses on understanding the integration of simulation technology into clinical education, patient safety, and research applications to include the teamwork and communication skills related to these applications.

Grading status: Letter grade.

CBIO 423. Developmental Toxicology and Teratology. 3 Credits.

Emphasizes topics of current research interest relative to the genesis of environmentally caused and genetically based birth defects. One two-hour session per week (evening).

Grading status: Letter grade

Same as: TOXC 423.

CBIO 607. Gross Anatomy. 2-4 Credits.

Permission of the instructor. Primarily for graduate students. Enrollment by availability of space and material.

Grading status: Letter grade.

CBIO 627. Regional Anatomy. 3 Credits.

Permission of the instructor. For students of oral surgery, surgical residents, and graduate students.

Grading status: Letter grade.

CBIO 643. Cell Structure, Function, and Growth Control I. 3 Credits.

Comprehensive introduction to cell structure, function, and transformation.

Requisites: Prerequisite, undergraduate cell biology or biochemistry or permission of the instructor.

Grading status: Letter grade

Same as: BIOC 643, PHCO 643, PHYI 643.

PHYI

Undergraduate-level Courses

PHYI 50. First-Year Seminar: Human Physiology. 3 Credits.

Clinical cases are used to introduce the study of physiology. Students develop learning objectives and research selected topics in health and disease. Final class project is a group endeavor.

Gen Ed: PL.

Grading status: Letter grade.

PHYI 395. Undergraduate Research in Physiology. 1-6 Credits.

Permission of the instructor. Directed readings or laboratory study on a selected topic. Final written report required in each term. At least three hours of independent work per week for each unit of credit.

Requisites: Prerequisites, BIOL 101/101L and CHEM 101/101L.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

PHYI 643. Cell Structure, Function, and Growth Control I. 3 Credits.

Comprehensive introduction to cell structure, function, and transformation.

Requisites: Prerequisite, undergraduate cell biology or biochemistry or permission of the instructor.

Grading status: Letter grade

Same as: CBIO 643, BIOC 643, PHCO 643.

Introduction

Chemistry is the scientific study of the composition and properties of matter and the investigation of the laws that govern them. Classically, chemistry is divided into several subdisciplines. Organic chemistry deals primarily with carbon compounds; inorganic chemistry, with compounds of the other elements. Physical chemistry seeks to describe relationships between the chemical and physical properties of all substances. Analytical chemistry studies the analysis of the chemical composition of all substances. Biological chemistry pursues the chemistry of living organisms. At the borders of these subdisciplines are many hybrid areas of study: physical organic, organometallic, bioinorganic, and others. At the interface of chemistry with other sciences, several active fields are fueled by insights gained from two ways of thinking about things: for example, chemical physics, chemical biology, organic geochemistry, and the extensive chemical problems in biotechnology, nanotechnology, material sciences, and molecular medicine. In all of these areas the chemist's approach may be theoretical, experimental, or both.

All chemists have a common core of knowledge, learned through a highly structured sequence of undergraduate courses in which the content is divided into the classical subdisciplines. Toward the end of students' progress through their four years of undergraduate study, they may choose to concentrate in one or more areas of chemistry through the courses selected to fulfill the chemistry elective requirements and through undergraduate research.

Advising

Faculty advisors are available in the Department of Chemistry for both walk-in meetings and scheduled advising appointments. The departmental advisors assist students with a variety of areas: course planning for the chemistry major, career/graduate school planning, study abroad opportunities, undergraduate research opportunities, and how to deal with academic difficulties. Chemistry majors are required to meet with a departmental advisor by appointment prior to registering for any semester beyond the fourth term in residence. The faculty advisors also schedule many events for the majors.

Graduate School and Career Opportunities

An undergraduate degree tailored according to the student's interests can open doors to graduate programs in many academic disciplines: chemistry, environmental science, materials science, polymer science, chemical engineering, geochemistry, chemical physics, and several disciplines at the interface between biology and chemistry. A technically oriented administrator in the chemical industry might choose to obtain a master's degree in business administration. More than 100 schools in the United States offer graduate programs in chemistry and related areas, and the usual practice is to complete a graduate degree at an institution different from the undergraduate institution. It is necessary to specialize in graduate study, either within one of the branches previously mentioned or at the interface between two of them. A student admitted to a graduate program in chemistry in the United States is usually offered a teaching assistantship or fellowship.

Chemists have a wide choice of academic, governmental, or industrial positions. By far the greatest percentage accept industrial positions, mostly in chemical manufacturing or the petroleum, food, and pharmaceutical industries, where they may be developing new products to benefit humanity or assessing the level of risk in the processes for

some proposed production methods, for example. Most government chemists are employed in agriculture, health, energy, environmental, and defense-related areas. In the academic field, with such a broad spectrum of colleges and universities in this country, chemists can set career goals with varying levels of emphasis on training students in research and teaching in the classroom and instructional laboratory.

Majors

- Chemistry Major, B.A. (p. 418)
- Chemistry Major, B.S. (p. 422)
- Chemistry Major, B.S.—Biochemistry Track (p. 425)
- Chemistry Major, B.S.—Polymer Track (p. 428)

Minor

- Chemistry Minor (p. 431)

Graduate Programs

- M.A. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)
- M.S. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)
- Ph.D. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)

Professors

Erik J. Alexanian, Jeffrey Aubé, Max L. Berkowitz, Michael T. Crimmins, Joseph M. DeSimone, Dorothy A. Erie, Michel R. Gagné, Gary L. Glish, Jeffrey S. Johnson, James W. Jorgenson, David S. Lawrence, Gerald J. Meyer, Thomas J. Meyer, David A. Nicewicz, John M. Papanikolas, Gary J. Pielak, J. Michael Ramsey, Matthew R. Redinbo, Mark H. Schoenfish, Sergey S. Sheiko, Joseph L. Templeton, Nancy L. Thompson, Marcey L. Waters, Kevin M. Weeks, Wei You.

Associate Professors

James F. Cahoon, Jillian L. Dempsey, Leslie M. Hicks, Yosuke Kanai, Bo Li, Alexander J.M. Miller, Andrew M. Moran, Cindy K. Schauer.

Assistant Professors

Joanna M. Atkin, Jeffrey E. Dick, Abigail Knight, Frank A. Leibfarth, Matthew R. Lockett, Zhiyue Lu, Simon J. Meek, Scott C. Warren, Sidney Wilkerson-Hill, Aleksandr V. Zhukhovitskiy.

Teaching Professor

Todd L. Austell.

Teaching Associate Professors

Nita Eskew, Brian P. Hogan, Domenic J. Tiani.

Teaching Assistant Professors

Joshua E. Beaver, Carrieth L. Bliem, Anna C. Curtis, Thomas C. Freeman, Danielle Zurcher.

Course Sequencing

Careful attention should be given to prerequisites and course timing when planning a long-term schedule. A C- or better grade in CHEM 101 is required to continue into CHEM 102/CHEM 102L. CHEM 102 is a

prerequisite for CHEM 241/CHEM 241L, CHEM 251, and CHEM 261. A C- or better grade in CHEM 102 is required to continue into ANY higher-level chemistry course. A C- or better grade in CHEM 261 is a prerequisite for CHEM 262, and CHEM 241L is a prerequisite for CHEM 262L. Students intending to take pregraduate or preprofessional exams (such as the GRE or MCAT) should plan accordingly.

CHEM—Chemistry

Undergraduate-level Courses

CHEM 70. First-Year Seminar: You Don't Have to Be a Rocket Scientist. 3 Credits.

The goal of this seminar is to develop tools for extracting information from or finding flaws in news reports and popular science writing. Group work on such issues as biomass fuels, the hydrogen economy, and other alternative energy sources will develop an understanding of their economic and environmental impact.

Gen Ed: PL.

Grading status: Letter grade.

CHEM 71. First-Year Seminar: Foundations of Chemistry: A Historical and Modern Perspective. 3 Credits.

Students will learn about ways in which scientists think. They will explore how new knowledge is generated and examine the impact of science on society. Topics to be considered include the nature of gases, atomic structure and radioactivity, and molecules and the development of new materials.

Gen Ed: PL.

Grading status: Letter grade.

CHEM 72. First-Year Seminar: From Imagination to Reality: Idea Entrepreneurism in Science, Business, the Arts. 3 Credits.

Bringing ideas to fruition is a multistep process. In the present knowledge economy, high value is placed on individuals who both formulate new concepts and bring them to reality. This process requires a number of important skills that will be explored in this course.

Gen Ed: PL.

Grading status: Letter grade.

CHEM 73. First-Year Seminar: From Atomic Bombs to Cancer Treatments: The Broad Scope of Nuclear Chemistry. 3 Credits.

A course engaging the topic of nuclear chemistry on the introductory chemistry course level (e.g., CHEM 101/102). Atomic structure, nuclear fission, and nuclear fusion processes will be introduced to provide the background necessary to understand applications of the processes. Applications discussed will include power generation, medical treatments, weapons, and more.

Gen Ed: PL.

Grading status: Letter grade.

CHEM 89. First-Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

CHEM 100. Foundations of Chemistry. 3 Credits.

This course is an introduction to fundamental threshold concepts in chemistry as preparation for the two-course sequence of General Descriptive Chemistry (CHEM 101 and 102). This course emphasizes developing contextualized algebra skills for solving chemistry problems including physical unit conversions, molar mass, and reaction stoichiometry. Permission of instructor required.

Requisites: Prerequisite, MATH 110.

Grading status: Letter grade.

CHEM 101. General Descriptive Chemistry I. 3 Credits.

The first course in a two-semester sequence. See also CHEM 102. Atomic and molecular structure, stoichiometry and conservation of mass, thermochemical changes and conservation of energy.

Requisites: Prerequisite, MATH 110.

Gen Ed: PX.

Grading status: Letter grade.

CHEM 101L. Quantitative Chemistry Laboratory I. 1 Credit.

Computerized data collection, scientific measurement, sensors, thermochemistry, spectroscopy, and conductometric titration. Laptop computer required. One four-hour laboratory a week.

Requisites: Pre- or corequisite, CHEM 101.

Grading status: Letter grade.

CHEM 102. General Descriptive Chemistry II. 3 Credits.

The course is the second in a two-semester sequence. See also CHEM 101. Gases, intermolecular forces, solutions, reaction rates, chemical equilibria including acid-base chemistry, thermochemistry, electrochemistry. Honors version available

Requisites: Prerequisites, CHEM 101 and 101L; C- or better required in CHEM 101.

Gen Ed: PX.

Grading status: Letter grade.

CHEM 102L. Quantitative Chemistry Laboratory II. 1 Credit.

Computerized data collection, gas laws, intermolecular forces, redox reactions, chemical kinetics, and acid-base titrations. Laptop computer required. One four-hour laboratory a week.

Requisites: Prerequisite, CHEM 101L; pre- or corequisite, CHEM 102 or 102H.

Grading status: Letter grade.

CHEM 102H. General Descriptive Chemistry II. 3 Credits.

The course is the second in a two-semester sequence. See also CHEM 101. Gases, intermolecular forces, solutions, reaction rates, chemical equilibria including acid-base chemistry, thermochemistry, electrochemistry.

Requisites: Prerequisites, CHEM 101 and 101L; C- or better required in CHEM 101.

Gen Ed: PX.

Grading status: Letter grade.

CHEM 105L. Advanced Quantitative Chemistry Laboratory. 1 Credit.

CHEM 190. Special Topics in Chemistry. 3 Credits.

An undergraduate seminar course that is designated to be a participatory intellectual adventure on an advanced, emergent, and stimulating topic within a selected discipline in chemistry. This course does not count as credit towards the chemistry major.

Grading status: Letter grade.

CHEM 200. Extraordinary Chemistry of Ordinary Things. 3 Credits.

Coregistration in CHEM 200 and 101L fulfills the physical and life science with a laboratory requirement (PX). This course helps students understand the chemistry behind important societal issues and the consequences of actions aimed at addressing the issues. Students who have taken CHEM 200 cannot take CHEM 101 for credit.

Requisites: Prerequisite, MATH 110.

Gen Ed: PX.

Grading status: Letter grade.

CHEM 210. Service Learning in Chemistry. 1 Credit.

This is an APPLES service-learning course that collaborates with a community partner. Students will develop research questions and test their hypotheses using chemistry lab techniques and instrumentation. Students will keep a reflection journal on their service work and a lab notebook for recording all experimentation. At the end of the semester, students will write a paper and present research posters. Findings will be shared with the community partner. Students must send applications to the instructor.

Requisites: Prerequisite, Permission of the instructor.

Gen Ed: EE- Service Learning, EE- Mentored Research.

Grading status: Letter grade.

CHEM 241. Modern Analytical Methods for Separation and Characterization. 2 Credits.

Analytical separations, chromatographic methods, spectrophotometry, acid-base equilibria and titrations, fundamentals of electrochemistry.

Honors version available

Requisites: Prerequisite, CHEM 102 or 102H; C- or better required.

Grading status: Letter grade.

CHEM 241L. Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds. 1 Credit.

Applications of separation and spectrophotometric techniques to organic compounds, including some of biological interest. One three-hour laboratory a week. Students may not receive credit for both CHEM 241L and CHEM 245L.

Requisites: Prerequisite, CHEM 102L; pre- or corequisite, CHEM 241 or 241H.

Grading status: Letter grade.

CHEM 241H. Modern Analytical Methods for Separation and Characterization. 2 Credits.

Analytical separations, chromatographic methods, spectrophotometry, acid-base equilibria and titrations, fundamentals of electrochemistry.

Requisites: Prerequisite, CHEM 102 or 102H; C- or better required.

Grading status: Letter grade.

CHEM 245L. Honors Laboratory in Separations and Analytical Characterization of Organic and Biological Compound. 1 Credit.

Applications of separation and spectrophotometric techniques to samples from the real world, including some of biological interest. Final portion of course consists of group research projects presented to the Department of Chemistry in poster session format. Honors equivalent of CHEM 241L. Students may not receive credit for both CHEM 241L and CHEM 245L. One three-hour laboratory each week.

Requisites: Prerequisite, CHEM 102L; pre- or corequisite, CHEM 241H.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

CHEM 251. Introduction to Inorganic Chemistry. 2 Credits.

Chemical periodicity, introductory atomic theory and molecular orbital theory, structure and bonding in solids, descriptive nonmetal chemistry, structures and reactions of transition metal complexes, applications of inorganic complexes and materials.

Requisites: Prerequisite, CHEM 102 or 102H; C- or better required.

Grading status: Letter grade.

CHEM 261. Introduction to Organic Chemistry I. 3 Credits.

Molecular structure and its determination by modern physical methods, correlation between structure and reactivity and the theoretical basis for these relationships, classification of reaction types exhibited by organic molecules using as examples molecules of biological importance. Honors version available

Requisites: Prerequisite, CHEM 102 or 102H; C- or better required.

Grading status: Letter grade.

CHEM 261H. Introduction to Organic Chemistry I. 3 Credits.

Molecular structure and its determination by modern physical methods, correlation between structure and reactivity and the theoretical basis for these relationships, classification of reaction types exhibited by organic molecules using as examples molecules of biological importance.

Requisites: Prerequisite, CHEM 102 or 102H; C- or better required.

Grading status: Letter grade.

CHEM 262. Introduction to Organic Chemistry II. 3 Credits.

Continuation of CHEM 261, with particular emphasis on the chemical properties of organic molecules of biological importance. Honors version available

Requisites: Prerequisite, CHEM 261 or 261H; C- or better required.

Grading status: Letter grade.

CHEM 262L. Laboratory in Organic Chemistry. 1 Credit.

Continuation of CHEM 241L or 245L with particular emphasis on organic chemistry synthesis protocols, separation techniques, and compound characterization using modern spectroscopic instrumentation. This course serves as an organic chemistry laboratory for premedical and pre dental students. Students may not receive credit for both CHEM 262L and CHEM 263L. One three-hour laboratory each week.

Requisites: Prerequisites, CHEM 102L, and CHEM 241L or 245L; pre- or corequisite, CHEM 262 or 262H.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

CHEM 262H. Introduction to Organic Chemistry II. 3 Credits.

Continuation of CHEM 261, with particular emphasis on the chemical properties of organic molecules of biological importance.

Requisites: Prerequisite, CHEM 261 or 261H; C- or better required.

Grading status: Letter grade.

CHEM 263L. Honors Laboratory in Organic Chemistry. 1 Credit.

Continuation of CHEM 245L with particular emphasis on organic chemistry synthesis protocols, separation techniques, and compound characterization using modern spectroscopic instrumentation. An organic chemistry laboratory for premedical and pre dental students. Honors equivalent of CHEM 262L. Students may not receive credit for both CHEM 262L and CHEM 263L. One three-hour laboratory each week.

Requisites: Prerequisites, CHEM 102L, and CHEM 241L or 245L; pre- or corequisite, CHEM 262H; permission of the instructor for students lacking CHEM 262H.

Grading status: Letter grade.

CHEM 290. Special Topics in Chemistry. 1-3 Credits.

Elective topics in the field of chemistry. This course has variable content and may be taken multiple times for credit.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading status: Letter grade.

CHEM 291. Seminar on Academic Mentoring. 1-3 Credits.

Experience includes academic mentoring for small groups, preparing review sessions, and facilitating lecture hall activity. Students will explore concepts in pedagogy, leadership, communication, and group dynamics. Does not fulfill chemistry major requirements. GPA above 3.0 required.

Requisites: Prerequisites, CHEM 102 or 102H, and MATH 231; permission of the instructor for students lacking the prerequisites.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.

Grading status: Pass/Fail.

CHEM 293. Undergraduate Internship in Chemistry. 3 Credits.

The sponsored, off-campus work must involve at least 135 hours. Does not fulfill any requirement in the chemistry major or minor. Chemistry majors only. Permission of the department and supervision of chemistry faculty member required.

Gen Ed: EE- Service Learning, EE- Field Work.

Grading status: Pass/Fail.

CHEM 395. Research in Chemistry for Undergraduates. 3 Credits.

Required preparation, one CHEM course 420 or higher, or permission of the instructor. For advanced chemistry and applied sciences majors conducting on-campus research. Students prepare a report for their faculty supervisor and present their work at a poster session. May count only once as a chemistry elective. Honors version available

Gen Ed: EE- Mentored Research.

Repeat rules: May be repeated for credit. 9 total credits. 3 total completions.

Grading status: Letter grade.

CHEM 395H. Research in Chemistry for Undergraduates. 3 Credits.

Required preparation, one CHEM course 420 or higher, or permission of the instructor. For advanced chemistry and applied sciences majors conducting on-campus research. Students prepare a report for their faculty supervisor and present their work at a poster session. May count only once as a chemistry elective.

Gen Ed: EE- Mentored Research.

Repeat rules: May be repeated for credit. 9 total credits. 3 total completions.

Grading status: Letter grade.

CHEM 396. Special Problems in Chemistry. 1-3 Credits.

Permission of the director of undergraduate studies. Literature or laboratory work equivalent of one to three hours each week. Honors version available

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading status: Letter grade.

CHEM 396H. Special Problems in Chemistry. 1-3 Credits.

Permission of the director of undergraduate studies. Literature or laboratory work equivalent of one to three hours each week.

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading status: Letter grade.

CHEM 397H. Honors Colloquium in Chemistry. 1 Credit.

Weekly meetings complement research carried out under CHEM 395H. Expands students' exposure to specialized areas of research through guided readings and seminars with invited speakers. Aids students in preparing their research for evaluation. CHEM 395H and 397H together can contribute no more than nine total hours toward graduation.

Requisites: Corequisite, CHEM 395H.

Gen Ed: EE- Mentored Research.

Repeat rules: May be repeated for credit. 2 total credits. 2 total completions.

Grading status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**CHEM 400. GEN REGISTRATION. 21.00 Credits.**

GEN REGISTRATION

Repeat rules: May be repeated for credit; may be repeated in the same term for different topics.

Grading status: Letter grade.

CHEM 410. Instructional Methods in the Chemistry Classroom. 4 Credits.

Permission of the instructor. This course explores secondary school chemical education through current chemical education theory and classroom teaching. Students will develop a comprehensive approach to teaching chemistry content through student-centered activities.

Requisites: Prerequisites, CHEM 241, 251, 262, and 262L.

Gen Ed: EE- Field Work.

Grading status: Letter grade.

CHEM 420. Introduction to Polymers. 3 Credits.

Chemical structure and nomenclature of macromolecules, synthesis of polymers, characteristic polymer properties.

Requisites: Prerequisite, CHEM 261 or 261H; pre- or corequisites, CHEM 262 or 262H, and 262L or 263L.

Grading status: Letter grade

Same as: APPL 420.

CHEM 421. Synthesis of Polymers. 3 Credits.

Synthesis and reactions of polymers; various polymerization techniques.

Requisites: Prerequisites, CHEM 251 and 262 or 262H.

Grading status: Letter grade

Same as: APPL 421.

CHEM 422. Physical Chemistry of Polymers. 3 Credits.

Polymerization and characterization of macromolecules in solution.

Requisites: Prerequisites, CHEM 420 and 481.

Grading status: Letter grade

Same as: APPL 422.

CHEM 423. Intermediate Polymer Chemistry. 3 Credits.

Polymer dynamics, networks and gels.

Requisites: Prerequisite, CHEM 422.

Grading status: Letter grade

Same as: APPL 423.

CHEM 425. Polymer Materials. 3 Credits.

Solid-state properties of polymers; polymer melts, glasses and crystals.

Requisites: Prerequisite, CHEM 421 or 422.

Grading status: Letter grade.

CHEM 430. Introduction to Biological Chemistry. 3 Credits.

The study of cellular processes including catalysts, metabolism, bioenergetics, and biochemical genetics. The structure and function of biological macromolecules involved in these processes is emphasized. Honors version available

Requisites: Prerequisites, BIOL 101, and CHEM 262 or 262H.

Grading status: Letter grade

Same as: BIOL 430.

CHEM 430H. Introduction to Biological Chemistry. 3 Credits.

The study of cellular processes including catalysts, metabolism, bioenergetics, and biochemical genetics. The structure and function of biological macromolecules involved in these processes is emphasized.

Requisites: Prerequisites, BIOL 101, and CHEM 262 or 262H.

Grading status: Letter grade

Same as: BIOL 430H.

CHEM 431. Macromolecular Structure and Metabolism. 3 Credits.

Structure of DNA and methods in biotechnology; DNA replication and repair; RNA structure, synthesis, localization and transcriptional reputation; protein structure/function, biosynthesis, modification, localization, and degradation.

Requisites: Prerequisites, BIOL 202 and CHEM 430.

Grading status: Letter grade.

CHEM 432. Metabolic Chemistry and Cellular Regulatory Networks. 3 Credits.

Biological membranes, membrane protein structure, transport phenomena; metabolic pathways, reaction themes, regulatory networks; metabolic transformations with carbohydrates, lipids, amino acids, and nucleotides; regulatory networks, signal transduction.

Requisites: Prerequisite, CHEM 430.

Grading status: Letter grade.

CHEM 433. Transport in Biological Systems. 1 Credit.

Permission of the instructor for undergraduates. Diffusion, sedimentation, electrophoresis, flow. Basic principles, theoretical methods, experimental techniques, role in biological function, current topics.

Requisites: Prerequisites, CHEM 430 and MATH 383.

Grading status: Letter grade.

CHEM 441. Intermediate Analytical Chemistry. 2 Credits.

Spectroscopy, electroanalytical chemistry, chromatography, thermal methods of analysis, signal processing.

Requisites: Prerequisites, CHEM 241, 241L, 262, and 480 or 481.

Grading status: Letter grade.

CHEM 441L. Intermediate Analytical Chemistry Laboratory. 2 Credits.

Experiments in spectroscopy, electroanalytical chemistry, chromatography, thermal methods of analysis, and signal processing. One four-hour laboratory a week and one one-hour lecture.

Requisites: Corequisite, CHEM 441.

Grading status: Letter grade.

CHEM 443. Surface Analysis. 3 Credits.

This class will focus on analytical techniques capable of probing the physical and chemical properties of surfaces and interfaces. These analyses are extremely challenging, as the sample sizes are small (e.g., 1×10^{14} molecules/cm² of a material). The course will focus on complementary techniques to assess surface structure and topography, atomic and molecular composition, organization or disorder, and reactivity.

Requisites: Prerequisite, CHEM 441 or CHEM 481; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

CHEM 444. Separations. 3 Credits.

Theory and applications of equilibrium and nonequilibrium separation techniques. Extraction, countercurrent distribution, gas chromatography, column and plane chromatographic techniques, electrophoresis, ultra-centrifugation, and other separation methods.

Requisites: Prerequisites, CHEM 441 and CHEM 480 or 481.

Grading status: Letter grade.

CHEM 445. Electroanalytical Chemistry. 3 Credits.

Basic principles of electrochemical reactions, electroanalytical voltammetry as applied to analysis, the chemistry of heterogeneous electron transfers, and electrochemical instrumentation.

Requisites: Prerequisites, CHEM 480 or 481, and CHEM 441.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

CHEM 446. Analytical Spectroscopy. 3 Credits.

Optical spectroscopic techniques for chemical analysis including conventional and laser-based methods. Absorption, fluorescence, scattering and nonlinear spectroscopies, instrumentation and signal processing.

Requisites: Prerequisites, CHEM 441 and 482.

Grading status: Letter grade.

CHEM 447. Bioanalytical Chemistry. 3 Credits.

Principles and applications of biospecific binding as a tool for performing selective chemical analysis.

Requisites: Prerequisite, CHEM 441.

Grading status: Letter grade.

CHEM 448. Mass Spectrometry. 3 Credits.

Fundamental theory of gaseous ion chemistry, instrumentation, combination with separation techniques, spectral interpretation for organic compounds, applications to biological and environmental chemistry.

Requisites: Prerequisites, CHEM 480 or 481, and CHEM 441.

Grading status: Letter grade.

CHEM 449. Microfabricated Chemical Measurement Systems. 3 Credits.

Introduction to micro and nanofabrication techniques, fluid and molecular transport at the micrometer to nanometer length scales, applications of microtechnology to chemical and biochemical measurements.

Requisites: Prerequisite, CHEM 441.

Grading status: Letter grade.

CHEM 450. Intermediate Inorganic Chemistry. 3 Credits.

Introduction to symmetry and group theory; bonding, electronic spectra, and reaction mechanisms of coordination complexes; organometallic complexes, reactions, and catalysis; bioinorganic chemistry.

Requisites: Prerequisite, CHEM 251.

Grading status: Letter grade.

CHEM 451. Theoretical Inorganic Chemistry. 3 Credits.

Chemical applications of symmetry and group theory, crystal field theory, molecular orbital theory. The first third of the course, corresponding to one credit hour, covers point symmetry, group theoretical foundations and character tables.

Requisites: Prerequisites, CHEM 262 or 262H and 450.

Grading status: Letter grade.

CHEM 452. Electronic Structure of Transition Metal Complexes. 3 Credits.

A detailed discussion of ligand field theory and the techniques that rely on the theoretical development of ligand field theory, including electronic spectroscopy, electron paramagnetic resonance spectroscopy, and magnetism.

Requisites: Prerequisite, CHEM 451.

Grading status: Letter grade.

CHEM 453. Organotransition Metal Chemistry. 2 Credits.

Exploring the synthesis, bonding, and reactivity of organotransition metal complexes. Topics typically include organometallic ligand classification, the elementary steps of organometallic reactions, and applications in catalysis.

Requisites: Prerequisite, CHEM 465.

Grading status: Letter grade.

CHEM 460. Intermediate Organic Chemistry. 3 Credits.

Modern topics in organic chemistry. Honors version available

Requisites: Prerequisite, CHEM 262 or 262H.

Grading status: Letter grade.

CHEM 460H. Intermediate Organic Chemistry. 3 Credits.

Modern topics in organic chemistry.

Requisites: Prerequisite, CHEM 262 or 262H.

Grading status: Letter grade.

CHEM 463. Bioorganic Chemistry. 3 Credits.

Bioorganic chemistry integrates topics from synthetic chemistry, biochemistry, and biophysics to study biomacromolecules and develop tools and materials that utilize them.

Requisites: Prerequisites, CHEM 262 and CHEM 430.

Grading status: Letter grade.

CHEM 465. Mechanisms of Organic and Inorganic Reactions. 4 Credits.

Kinetics and thermodynamics, free energy relationships, isotope effects, acidity and basicity, kinetics and mechanisms of substitution reactions, one- and two-electron transfer processes, principles and applications of photochemistry, organometallic reaction mechanisms.

Requisites: Prerequisite, CHEM 450.

Grading status: Letter grade.

CHEM 466. Advanced Organic Chemistry I. 3 Credits.

A survey of fundamental organic reactions including substitutions, additions, elimination, and rearrangements; static and dynamic stereochemistry; conformational analysis; molecular orbital concepts and orbital symmetry.

Requisites: Prerequisite, CHEM 460.

Grading status: Letter grade.

CHEM 467. Advanced Organic Chemistry II. 2 Credits.

Spectroscopic methods of analysis with emphasis on elucidation of the structure of organic molecules: ¹H and ¹³C NMR, infrared, ultraviolet, ORD-CD, mass, and photoelectron spectroscopy.

Requisites: Prerequisite, CHEM 466.

Grading status: Letter grade.

CHEM 468. Synthetic Aspects of Organic Chemistry. 3 Credits.

Modern synthetic methods and their application to the synthesis of complicated molecules.

Requisites: Prerequisite, CHEM 466.

Grading status: Letter grade.

CHEM 469. Organometallics and Catalysis. 3 Credits.

Structure and reactivity of organometallic complexes and their role in modern catalytic reactions

Requisites: Prerequisites, CHEM 450 and 466.

Grading status: Letter grade.

CHEM 470. Fundamentals of Materials Science. 3 Credits.

Crystal geometry, diffusion in solids, mechanical properties of solids, electrical conduction in solids, thermal properties of materials, phase equilibria.

Requisites: Prerequisite, CHEM 482 or PHYS 128. Pre- or corequisite, PHYS 441.

Grading status: Letter grade

Same as: APPL 470.

CHEM 471. Mathematical Techniques for Chemists. 3 Credits.

Knowledge of differential and integral calculus. Chemical applications of higher mathematics.

Requisites: Prerequisite, MATH 383; permission of the instructor for students lacking the prerequisite.

Grading status: Letter grade.

CHEM 472. Chemistry and Physics of Electronic Materials Processing. 3 Credits.

Permission of the instructor. A survey of materials processing and characterization used in fabricating microelectronic devices. Crystal growth, thin film deposition and etching, and microlithography.

Requisites: Prerequisite, CHEM 482 or PHYS 117 or 119.

Grading status: Letter grade

Same as: PHYS 472, APPL 472.

CHEM 473. Chemistry and Physics of Surfaces. 3 Credits.

The structural and energetic nature of surface states and sites, experimental surface measurements, reactions on surfaces including bonding to surfaces and adsorption, interfaces.

Requisites: Prerequisite, CHEM 470.

Grading status: Letter grade

Same as: APPL 473.

CHEM 480. Introduction to Biophysical Chemistry. 3 Credits.

Does not carry credit toward graduate work in chemistry or credit toward any track of the B.S. degree with a major in chemistry. Application of thermodynamics to biochemical processes, enzyme kinetics, properties of biopolymers in solution.

Requisites: Prerequisites, CHEM 261 or 261H, MATH 232, and PHYS 105.

Grading status: Letter grade.

CHEM 481. Physical Chemistry I. 3 Credits.

Thermodynamics, kinetic theory, chemical kinetics.

Requisites: Prerequisites, CHEM 102 or 102H, PHYS 118 or 116; pre- or corequisites, MATH 383 and PHYS 119 or 117; C- or better required in chemistry course prerequisites.

Grading status: Letter grade.

CHEM 481L. Physical Chemistry Laboratory I. 2 Credits.

Experiments in physical chemistry. One four-hour laboratory each week.

Requisites: Pre- or corequisite, CHEM 482.

Grading status: Letter grade.

CHEM 482. Physical Chemistry II. 3 Credits.

Introduction to quantum mechanics, atomic and molecular structure, spectroscopy, statistical mechanics.

Requisites: Prerequisite, CHEM 481.

Grading status: Letter grade.

CHEM 482L. Physical Chemistry Laboratory II. 2 Credits.

Experiments in physical chemistry. Solving thermodynamic and quantum mechanical problems using computer simulations. One three-hour laboratory and a single one-hour lecture each week.

Requisites: Prerequisite, CHEM 482.

Grading status: Letter grade.

CHEM 484. Thermodynamics and Introduction to Statistical Thermodynamics. 1-21 Credits.

Thermodynamics, followed by an introduction to the classical and quantum statistical mechanics and their application to simple systems. The section on thermodynamics can be taken separately for one hour credit.

Requisites: Prerequisite, CHEM 482.

Grading status: Letter grade.

CHEM 485. Chemical Dynamics. 3 Credits.

Experimental and theoretical aspects of atomic and molecular reaction dynamics.

Requisites: Prerequisites, CHEM 481 and 482.

Grading status: Letter grade.

CHEM 486. Introduction to Quantum Chemistry. 3 Credits.

Introduction to the principles of quantum mechanics. Approximation methods, angular momentum, simple atoms and molecules.

Requisites: Prerequisites, CHEM 481 and 482.

Grading status: Letter grade.

CHEM 487. Introduction to Molecular Spectroscopy. 3 Credits.

Interaction of radiation with matter; selection rules; rotational, vibrational, and electronic spectra of molecules; laser based spectroscopy and nonlinear optical effects.

Requisites: Prerequisite, CHEM 486.

Grading status: Letter grade.

CHEM 488. Quantum Chemistry. 3 Credits.

Applications of quantum mechanics to chemistry. Molecular structure, time-dependent perturbation theory, interaction of radiation with matter.

Requisites: Prerequisite, CHEM 486.

Grading status: Letter grade.

CHEM 489. Statistical Mechanics. 3 Credits.

Applications of statistical mechanics to chemistry. Ensemble formalism, condensed phases, nonequilibrium processes.

Requisites: Prerequisite, CHEM 484.

Grading status: Letter grade.

CHEM 520L. Polymer Chemistry Laboratory. 2 Credits.

Various polymerization techniques and characterization methods. One four-hour laboratory each week.

Requisites: Pre- or corequisite, CHEM 420 or 421 or 425.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade

Same as: APPL 520L.

CHEM 530L. Laboratory Techniques for Biochemistry. 3 Credits.

An introduction to chemical techniques and research procedures of use in the fields of protein and nucleic acid chemistry. Two four-hour laboratories and one one-hour lecture a week.

Requisites: Prerequisites, BIOL 202; pre- or co-requisite, CHEM 430.

Gen Ed: EE- Mentored Research.

Grading status: Letter grade.

CHEM 541. Analytical Microscopy. 3 Credits.

Introduction to microscopy techniques utilized in the analysis of chemical and biological samples with a focus on light, electron, and atomic force microscopy. Permission of instructor required for those missing prerequisites.

Grading status: Letter grade.

CHEM 550L. Synthetic Chemistry Laboratory I. 2 Credits.

A laboratory devoted to synthesis and characterization of inorganic complexes and materials. A four-hour synthesis laboratory, a characterization laboratory outside of the regular laboratory period, and a one-hour recitation each week.

Requisites: Prerequisites, CHEM 241L or 245L, 251, and 262L or 263L.

Gen Ed: CI.

Grading status: Letter grade.

CHEM 551L. Honors Synthetic Chemistry Lab. 2 Credits.

This is an honors laboratory course designed to lead you from challenging introductory experiments to five weeks of laboratory work on an independent research project. In addition to exposing you to advanced synthetic techniques, this course will allow you to use multiple modern techniques to characterize the inorganic and organometallic complexes you prepare. Students may not receive credit in both CHEM 551L and CHEM 550L.

Requisites: Prerequisites, CHEM 262L and 251.

Grading status: Letter grade.

CHEM 560L. Synthetic Organic Laboratory. 2 Credits.

An advanced synthesis laboratory focused on topics in organic chemistry. A four-hour synthesis laboratory, a characterization laboratory outside of the regular laboratory period, and a one-hour recitation each week.

Requisites: Prerequisites, CHEM 241L, 245L, 262L, 263L.

Grading status: Letter grade.

CHEM 692H. Senior Honors Thesis. 3 Credits.

CHEM 395 must have been in the same laboratory as 692H. Senior majors only. Required of all candidates for honors or highest honors.

Requisites: Prerequisite, six credit hours of CHEM 395.

Grading status: Letter grade.

Chemistry Major, B.A.

chemus@unc.edu

Chemistry is the scientific study of the composition and properties of matter and the investigation of the laws that govern them. All chemists have a common core of knowledge, learned through a highly structured sequence of undergraduate courses in which the content is divided into the classical subdisciplines. Toward the end of students' progress through their four years of undergraduate study, they may choose to concentrate in one or more areas of chemistry through the courses selected to fulfill the chemistry elective requirements and through undergraduate research.

Department Programs

Majors

- Chemistry Major, B.A. (p. 418)
- Chemistry Major, B.S. (p. 422)
- Chemistry Major, B.S.–Biochemistry Track (p. 425)
- Chemistry Major, B.S.–Polymer Track (p. 428)

Minor

- Chemistry Minor (p. 431)

Graduate Programs

- M.A. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)
- M.S. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)
- Ph.D. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)

Student Learning Outcomes

Upon completion of the chemistry (B.A.) program, students should be able to:

- Demonstrate a solid understanding of basic chemical principles (knowledge base in chemistry)
- Demonstrate the ability to solve chemical problems (analytical skills)
- Demonstrate the use of critical and creative thinking skills in conducting research with mentoring from a faculty member (critical thinking skills in chemistry)

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

PHYS 119	Introductory Calculus-based Electromagnetism and Quanta	
Total Hours		50

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Other courses numbered above 420 may be substituted with the permission of the instructor.

² BIOL 101 is a required prerequisite for CHEM 430.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major,

minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The recommended course sequence for the bachelor of arts degree is listed below. At least 18 semester hours of credit in chemistry courses above CHEM 101/CHEM 101L with individual grades of C or better are required. Grades of C- do not satisfy this requirement. Courses in chemistry and other courses specifically required (and designated by number) may not be declared Pass/Fail.

Code	Title	Hours

Other Connections (p. 120); Supplemental General Education (p. 120); three courses		9

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Placement (PL) credits (zero hours) for MATH 232, MATH 233, or MATH 383 do not satisfy chemistry major requirements.

² PHYS 118 and PHYS 119 are encouraged for those students considering careers as professional chemists or those students who want the option to switch from the B.A. program to the B.S. program.

³ With the permission of the course instructor, CHEM 420 or other chemistry courses numbered above 420 may be substituted for the listed courses.

Special Opportunities in Chemistry

Honors in Chemistry

Upon the recommendation of the Department of Chemistry, the B.A. or B.S. degree with a major in chemistry may be awarded with honors in chemistry or highest honors in chemistry.

Highest honors in chemistry is a distinction bestowed on a truly exceptional student who has excelled in coursework and who has completed a research project of considerable depth and significance. To attain this distinction the candidate must have nominally satisfied the following guidelines:

- B.A. candidates must have achieved a chemistry major grade point average of 3.85 or higher; B.S. candidates, a chemistry major grade point average of 3.75 or higher.
- Have completed at least five courses in chemistry numbered CHEM 420 or above. For B.A. candidates one of these may be a laboratory course; for B.S. candidates they must all be lecture courses.

- Have completed or be about to complete a research project certified to be of publishable quality by the research advisor and two faculty members appointed by the director of undergraduate studies

Honors in chemistry is a distinction bestowed on an outstanding student who has demonstrated marked competence in the coursework and who has completed a research project of considerable merit. To attain this distinction the candidate must have nominally satisfied the following guidelines:

- Have achieved a chemistry major grade point average of 3.40 or higher
- Have received no grade below B- in junior- or senior-level chemistry courses
- Have completed at least three lecture courses in chemistry numbered CHEM 420 or above
- Have completed or be about to complete a research project certified to be of honors quality by the research advisor and two faculty members appointed by the vice chair for undergraduate studies

Students who wish to qualify for either of these awards should begin planning their course programs and research activities in the junior year so that ample time and effort may be devoted to succeeding in upper-level courses and research.

Departmental Involvement

Majors are encouraged to participate in AXE (chemistry fraternity) and the undergraduate advisory board.

Laboratory Teaching Internships and Assistantships

Undergraduates have the opportunity to serve as laboratory teaching assistants for entry-level undergraduate laboratory courses.

Special Topics

Special topics not offered through the normal course sequence may be pursued through directed reading and registration in CHEM 396 with the approval of the supervising faculty member, advisor, and vice chair for undergraduate studies. An approved learning contract is required, and students must be registered no later than the end of the second week of classes (fall and spring semesters).

Undergraduate Awards

Excellent performances by undergraduates in chemistry are recognized by the department through the following awards:

- Francis P. Venable Medal: A medallion and cash award are presented to the two most outstanding graduating seniors majoring in chemistry in honor of Dr. Francis P. Venable, who was chair of the department, president of the University from 1900 to 1914, and president of the American Chemical Society.
- Emmett Gladstone Rand Premedical Scholarship: A scholarship is presented to an exceptionally talented graduating senior intending to pursue a career in medicine.
- Jason D. Altom Memorial Award for Undergraduate Research: This cash award recognizes research potential of an undergraduate chemistry major.
- J. Thurman Freeze Scholarship: This scholarship serves to fund summer research between a student's junior and senior years.
- E.C. Markham Summer Research Fund: The department chair selects the recipient of this award, who will use the salary to perform research between the junior and senior years.

- Carrie Largent Award for Research Excellence: This award is given annually to a graduating senior who has excelled in research.
- David L. Stern Scholar: Top students from upper-division laboratory courses are chosen for this cash award.
- AXE Sophomore Chemist Award: A cash award and certificate are presented to an outstanding sophomore chemistry major.
- James H. Maguire Memorial Award: This award goes to an outstanding and academically gifted junior honors student majoring in chemistry.
- Tanya R. Ellison Scholarship: A female, junior or senior B.S. chemistry major is selected for this cash award on the basis of character and academic commitment.
- Hypercube Scholar Award: An outstanding senior majoring in chemistry is given this chemical software package.

Undergraduate Research

Almost every undergraduate chemistry major who has undertaken a research project has found it to be an exciting and rewarding experience. The reasons are many. One certainly is that it affords an opportunity to make pioneering discoveries at the forefront of science, using instrumentation and techniques far more sophisticated than those usually encountered in standard laboratory courses.

More than 80 students are involved in undergraduate research projects in chemistry each year. Although successful completion of an undergraduate research project is a requirement for graduation with honors or highest honors (see above), it is not necessary to be a participant in Honors Carolina to undertake a research project.

The usual mechanism for becoming involved in a research project is to register for CHEM 395. This process begins well in advance of a preregistration or registration period with a visit to the Chemistry Student Services office, where a student may obtain a list of undergraduate research opportunities and a form titled Request for Registration in CHEM 395.

Most students begin research during the spring semester of their junior year and continue throughout their senior year. CHEM 395 and CHEM 396 together may be taken for credit as many times as desired but may be counted for no more than nine hours total credit toward graduation in either the B.A. or B.S. traditional and polymer tracks and for no more than six hours in the B.S. biochemistry track. In the B.S. curriculum CHEM 395 may be counted no more than once as an advanced chemistry elective.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate science majors interested in teaching high school science the opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years. UNC–BEST students meet all the degree requirements for their chemistry degree using CHEM 410 as one of their upper-level chemistry courses. UNC–BEST students also fulfill teaching licensure coursework requirements as well as many General Education and elective requirements as they complete courses in teaching and learning.

Chemistry is the scientific study of the composition and properties of matter and the investigation of the laws that govern them. All chemists have a common core of knowledge, learned through a highly structured sequence of undergraduate courses in which the content is divided into the classical subdisciplines. Toward the end of students' progress through their four years of undergraduate study, they may choose to concentrate in one or more areas of chemistry through the courses selected to fulfill the chemistry elective requirements and through undergraduate research.

- Chemistry Major, B.S. (p. 422)
- Chemistry Major, B.S.—Biochemistry Track (p. 425)
- Chemistry Major, B.S.—Polymer Track (p. 428)

Minor

- Chemistry Minor (p. 431)

Graduate Programs

- M.A. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)
- M.S. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)
- Ph.D. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)

Student Learning Outcomes

Upon completion of the chemistry B.S. program, students are expected to be able to:

- Demonstrate a solid understanding of basic chemical principles (knowledge base in chemistry)
- Demonstrate the ability to solve chemical problems (analytical skills)
- Demonstrate the use of critical and creative thinking skills in conducting research with mentoring from a faculty member (critical thinking skills in chemistry)

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

This program meets the requirements of the American Chemical Society for the training of professional chemists.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Placement (PL) credits (zero hours) for MATH 232, MATH 233, or MATH 383 do not satisfy chemistry major requirements.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The recommended course sequence for the bachelor of science (biochemistry track) degree is listed below. At least 18 semester hours of credit in chemistry courses above CHEM 101/CHEM 101L with individual grades of C or better are required. Grades of C- do not satisfy this requirement. Courses in chemistry and other courses specifically required (and designated by number) may not be declared Pass/Fail.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- ¹ Placement (PL) credits (zero hours) for MATH 232, MATH 233, or MATH 383 do not satisfy chemistry major requirements.
- ² CHEM 395 may be taken for credit as many times as desired but may be counted for no more than nine hours of total credit toward fulfillment of graduation requirements. Additionally, CHEM 395 may not be counted more than once as an advanced chemistry elective in the B.S. chemistry degree, B.S. chemistry degree (biochemistry track), or B.S. chemistry degree (polymer track). Only one of CHEM 395 or CHEM 396 may be counted as an advanced chemistry elective. Students must sign up for CHEM 395 and CHEM 396 within the first week of classes. CHEM 396 may only be counted as an advanced chemistry elective with departmental permission.
- ³ One course must be taken from the following list: BIOC 601, BIOC 650; BIOL 422; CHEM 395; or any two- or three-credit chemistry lecture course numbered 420 or above that is not already required.

Special Opportunities in Chemistry

Honors in Chemistry

Upon the recommendation of the Department of Chemistry, the B.A. or B.S. degree with a major in chemistry may be awarded with honors in chemistry or highest honors in chemistry.

Highest honors in chemistry is a distinction bestowed on a truly exceptional student who has excelled in coursework and who has completed a research project of considerable depth and significance. To attain this distinction the candidate must have nominally satisfied the following guidelines:

- B.A. candidates must have achieved a chemistry major grade point average of 3.85 or higher; B.S. candidates, a chemistry major grade point average of 3.75 or higher.
- Have completed at least five courses in chemistry numbered CHEM 420 or above. For B.A. candidates one of these may be a laboratory course; for B.S. candidates they must all be lecture courses.
- Have completed or be about to complete a research project certified to be of publishable quality by the research advisor and two faculty members appointed by the director of undergraduate studies

Honors in chemistry is a distinction bestowed on an outstanding student who has demonstrated marked competence in the coursework and who has completed a research project of considerable merit. To attain this distinction the candidate must have nominally satisfied the following guidelines:

- Have achieved a chemistry major grade point average of 3.40 or higher
- Have received no grade below B- in junior- or senior-level chemistry courses
- Have completed at least three lecture courses in chemistry numbered CHEM 420 or above
- Have completed or be about to complete a research project certified to be of honors quality by the research advisor and two faculty members appointed by the vice chair for undergraduate studies

Students who wish to qualify for either of these awards should begin planning their course programs and research activities in the junior year so that ample time and effort may be devoted to succeeding in upper-level courses and research.

Departmental Involvement

Majors are encouraged to participate in AXE (chemistry fraternity) and the undergraduate advisory board.

Laboratory Teaching Internships and Assistantships

Undergraduates have the opportunity to serve as laboratory teaching assistants for entry-level undergraduate laboratory courses.

Special Topics

Special topics not offered through the normal course sequence may be pursued through directed reading and registration in CHEM 396 with the approval of the supervising faculty member, advisor, and vice chair for undergraduate studies. An approved learning contract is required, and students must be registered no later than the end of the second week of classes (fall and spring semesters).

Undergraduate Awards

Excellent performances by undergraduates in chemistry are recognized by the department through the following awards:

- Francis P. Venable Medal: A medallion and cash award are presented to the two most outstanding graduating seniors majoring in chemistry in honor of Dr. Francis P. Venable, who was chair of the department, president of the University from 1900 to 1914, and president of the American Chemical Society.
- Emmett Gladstone Rand Premedical Scholarship: A scholarship is presented to an exceptionally talented graduating senior intending to pursue a career in medicine.
- Jason D. Altom Memorial Award for Undergraduate Research: This cash award recognizes research potential of an undergraduate chemistry major.
- J. Thurman Freeze Scholarship: This scholarship serves to fund summer research between a student's junior and senior years.
- E.C. Markham Summer Research Fund: The department chair selects the recipient of this award, who will use the salary to perform research between the junior and senior years.
- Carrie Largent Award for Research Excellence: This award is given annually to a graduating senior who has excelled in research.
- David L. Stern Scholar: Top students from upper-division laboratory courses are chosen for this cash award.
- AXE Sophomore Chemist Award: A cash award and certificate are presented to an outstanding sophomore chemistry major.
- James H. Maguire Memorial Award: This award goes to an outstanding and academically gifted junior honors student majoring in chemistry.
- Tanya R. Ellison Scholarship: A female, junior or senior B.S. chemistry major is selected for this cash award on the basis of character and academic commitment.
- Hypercube Scholar Award: An outstanding senior majoring in chemistry is given this chemical software package.

Undergraduate Research

Almost every undergraduate chemistry major who has undertaken a research project has found it to be an exciting and rewarding experience. The reasons are many. One certainly is that it affords an opportunity to make pioneering discoveries at the forefront of science, using instrumentation and techniques far more sophisticated than those usually encountered in standard laboratory courses.

More than 80 students are involved in undergraduate research projects in chemistry each year. Although successful completion of an undergraduate research project is a requirement for graduation with honors or highest honors (see above), it is not necessary to be a participant in Honors Carolina to undertake a research project.

The usual mechanism for becoming involved in a research project is to register for CHEM 395. This process begins well in advance of a preregistration or registration period with a visit to the Chemistry Student Services office, where a student may obtain a list of undergraduate research opportunities and a form titled Request for Registration in CHEM 395.

Most students begin research during the spring semester of their junior year and continue throughout their senior year. CHEM 395 and CHEM 396 together may be taken for credit as many times as desired but may be counted for no more than nine hours total credit toward graduation in either the B.A. or B.S. traditional and polymer tracks and for no more than six hours in the B.S. biochemistry track. In the B.S. curriculum CHEM 395 may be counted no more than once as an advanced chemistry elective.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate science majors interested in teaching high school science the opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years. UNC–BEST students meet all the degree requirements for their chemistry degree using CHEM 410 as one of their upper-level chemistry courses. UNC–BEST students also fulfill teaching licensure coursework requirements as well as many General Education and elective requirements as they complete courses in teaching and learning.

Chemistry is the scientific study of the composition and properties of matter and the investigation of the laws that govern them. All chemists have a common core of knowledge, learned through a highly structured sequence of undergraduate courses in which the content is divided into the classical subdisciplines. Toward the end of students' progress through their four years of undergraduate study, they may choose to concentrate in one or more areas of chemistry through the courses selected to fulfill the chemistry elective requirements and through undergraduate research.

Department Programs

Majors

- Chemistry Major, B.A. (p. 418)
- Chemistry Major, B.S. (p. 422)
- Chemistry Major, B.S.–Biochemistry Track (p. 425)
- Chemistry Major, B.S.–Polymer Track (p. 428)

Minor

- Chemistry Minor (p. 431)

Graduate Programs

- M.A. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)
- M.S. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)
- Ph.D. in Chemistry (<http://catalog.unc.edu/graduate/schools-departments/chemistry/>)

Student Learning Outcomes

Upon completion of the chemistry B.S. program, students are expected to be able to:

- Demonstrate a solid understanding of basic chemical principles (knowledge base in chemistry)
- Demonstrate the ability to solve chemical problems (analytical skills)
- Demonstrate the use of critical and creative thinking skills in conducting research with mentoring from a faculty member (critical thinking skills in chemistry)

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum of 18 hours of C or better in the major core requirements (some majors require 21 hours).

For more information, please consult the degree requirements section of the catalog (p. 196).

This program meets the requirements of the American Chemical Society for the training of professional chemists.

sandral@unc.edu

Introduction

City and regional planning is an interdisciplinary field that seeks to improve the quality of life for people in human settlements. Planners are involved, for example, in forecasting alternative futures of a city or region, guiding the type and location of new development, analyzing

transportation systems, encouraging economic development, protecting the environment, mediating diverse interests, and revitalizing urban neighborhoods. They are involved in designing solutions to pressing societal problems such as urban sprawl, unemployment, homelessness, environmental pollution, and urban decay.

City and regional planners work for a variety of public, nonprofit, and private organizations. In the public sector local, state, and federal governments all employ city and regional planners. In the nonprofit sector, planners work for national, state, and local advocacy groups promoting sustainable development. In the private sector, planners work for development companies and consulting firms.

For undergraduates the Department of City and Regional Planning offers basic coursework, opportunities for supervised practical experience, and an academic minor. Undergraduate students take courses in the department for several reasons: to learn about cities and planning processes, to enrich or expand their current area of interest in different aspects of urbanization, or to explore the possibility of graduate work leading to a career in planning. Planning courses allow students to see how the arts and sciences can be applied to improve the prosperity and livability of cities, towns, and regions. In this way they help students deepen their appreciation of their major field of study. Some planning courses may fulfill General Education requirements.

Advising

The department's director of undergraduate studies serves as the primary point of contact for students participating in the minor. (See contact information above.) Student advising and approval of equivalent courses are handled by the director. Students also have a primary academic advisor in Steele Building.

Facilities

The Department of City and Regional Planning is located in New East Building on Cameron Avenue. An important resource available to the department is the Center for Urban and Regional Studies, located in Hickerson House, where the research and service programs of the department are housed. The department also has strong ties to the Institute for the Environment. Other research centers that are of interest are Center for Community Capital, Program on Chinese Cities, Carolina Transportation Program, and the UNC Hazards Center.

Graduate School and Career Opportunities

Undergraduates interested in a career in city and regional planning can pursue postgraduate work in planning at UNC–Chapel Hill. The Department of City and Regional Planning offers several degree programs at the graduate level. A two-year program preparing students for advanced positions in professional practice in city and regional planning leads to the degree of master in city and regional planning. A program leading to the degree of doctor of philosophy prepares for careers in teaching and research. Dual graduate degree programs are offered in collaboration with related professional programs (law, business, public administration, public health, landscape architecture, and environmental sciences and engineering).

For more information please contact Dr. Andrew Whittemore, director of undergraduate studies.

Minor

- Urban Studies and Planning Minor (p. 436)

Graduate Programs

- M.C.R.P. in City and Regional Planning (<http://catalog.unc.edu/graduate/schools-departments/city-regional-planning/>)
- Ph.D. in City and Regional Planning (<http://catalog.unc.edu/graduate/schools-departments/city-regional-planning/>)

Professors

Todd BenDor, Nichola Lowe, Noreen McDonald, Roberto G. Quercia, William M. Rohe, Yan Song, Dale Whittington.

Associate Professors

Nikhil Kaza, Mai Nguyen, Meenu Tewari.

Assistant Professors

Miyuki Hino, Noah Kittner, Danielle Spurlock, Allie Thomas, Andrew Whittemore.

Research Professors

Phillip Berke, David J. Brower, Emil Malizia, David H. Moreau.

Affiliated Faculty

Michele Berger (Women's and Gender Studies), Maryann Feldman (Public Policy), David J. Hartzell (Kenan–Flagler Business School), Adam Lovelady (School of Government), Judith W. Wegner (School of Law), Jesse White (School of Government).

Professors Emeriti

Richard N.L. Andrews, Raymond J. Burby, F. Stuart Chapin Jr., David R. Godschalk, Edward J. Kaiser.

Adjunct Faculty

Tabitha Combs, Charles Edwards, James Myrick Howard, Leta Huntsinger.

PLAN–City and Regional Planning Undergraduate-level Courses

PLAN 50. First-Year Seminar: This Land Is Your Land. 3 Credits.

An issue encountered in managing urban communities and environmental quality concerns rights to land ownership. Environmental regulations limit people's rights to use land as they see fit. This seminar explores processes whereby rights to land, water, and environmental resources of the United States have been acquired, reserved, distributed, and regulated.

Grading status: Letter grade.

PLAN 51. First-Year Seminar: Envisioning Community. 3 Credits.
