This course explores the archaeological and historical evidence for life in Egypt between 332 BCE and 324 CE, when the traditions of Pharaonic Egypt came together with the customs and culture of Greek and Roman conquerors to create a society incorporating the traditions of native Egyptian and Mediterranean peoples.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: BN, WB.

Requisites: Prerequisite, any CLAR course at the 200-level of higher (preferably CLAR 242 or CLAR 247); permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

CLAR 482. Art and Archaeology of Achaemenid Persia. 3 Credits.

This course will examine the history and material culture of the ancient state known as the Achaemenid Persian Empire through ancient texts and archaeological sources. Beginning in the sixth century BCE, this ancient superpower ruled a vast and culturally diverse empire that stretched from Northern Libya to central Asia. Through an examination of key sites, objects, and texts we will explore the history and diversity of this multicultural empire.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.

Making Connections Gen Ed: VP, BN.

Grading Status: Letter grade.

Same as: ARTH 482.

CLAR 491. The Archaeology of Early Greece (1200-500 BCE). 3 Credits.

This course surveys the development of Greek material culture from 1200 to 500 BCE, exploring the origins of Greek art, architecture, cities, and sanctuaries in the Aegean and eastern Mediterranean.

Rules & Requirements

Making Connections Gen Ed: HS, NA, WB.

Requisites: Prerequisite, any CLAR course at the 200-level or higher (preferably CLAR 243 or CLAR 244); permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

CLAR 492. Archaeology of Greek Sanctuaries. 3 Credits.

This course is a survey of the archaeology and architecture of ancient Greek sanctuaries from the Late Bronze Age to the Roman period. We will discuss the development of temple architecture, ritual assemblages, and votive practices.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Requisites: Prerequisite, Any CLAR/CLAS course at the 200-level or higher.

Grading Status: Letter grade.

CLAR 512. Ancient Synagogues. 3 Credits.

This is a course on ancient synagogues in Palestine and the Diaspora from the Second Temple period to the seventh century CE.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST, RESEARCH.

Making Connections Gen Ed: VP, BN, WB.

Grading Status: Letter grade.

Same as: RELI 512, JWST 512.

CLAR 650. Field School in Classical Archaeology. 6 Credits.

This course is an introduction to archaeological field methods and excavation techniques, through participation in archaeological excavation.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Grading Status: Letter grade.

CLAS—Classics in English/Classical Civilization**Undergraduate-level Courses****CLAS 51. First-Year Seminar: Greek Drama from Page to Stage. 3 Credits.**

This seminar takes a participatory approach to ancient Greek theater, exploring the dual nature of drama as performance and script. It provides a historical overview of the extraordinary Athenian fifth century (BCE), emphasizing ways theater interacts with art, law, myth, and politics. Theatrical exercises and performances complement several writing assignments. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: LA, CI, WB.

Grading Status: Letter grade.

CLAS 55. First-Year Seminar: Three Greek and Roman Epics. 3 Credits.

This first-year seminar will involve a close reading of Homer's Iliad and Odyssey and Vergil's Aeneid, and as a transition from Homer to Vergil, students will also read the tragedies of Sophocles from fifth-century Athens. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

 **CLAS 57. First-Year Seminar: Dead and Deadly Women: Greek Tragic Heroines from Aeschylus to Eliot. 3 Credits.**

This seminar will study the great tragic heroines of ancient Greek drama, focusing on Clytemnestra, Medea, Alcestis, Phaedra, the Trojan Women, Antigone. Students will also read a contemporary novel, by Fay Weldon, that engages many of these mythic women. Students will study the Greek tragedies intensively, along with their reception in later literature and art. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **CLAS 59. First-Year Seminar: Ancient Magic and Religion. 3 Credits.**

In this class, we examine descriptions of religious and magical practices in the multicultural contexts of ancient Greece and Rome. Our sources include literary accounts, legal documents, and material objects, such as inscriptions, amulets, tablets, magical images, and papyri.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-CREATE or FC-GLOBAL.

Making Connections Gen Ed: CI, EE- Mentored Research, WB.

Grading Status: Letter grade.

 **CLAS 61. First-Year Seminar: Writing the Past. 3 Credits.**

Translated works of three Greek historians—Herodotus, Thucydides, and Polybius—will provide a lens through which to explore the capacity for literature and other modes of representation to convey history. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-KNOWING or FC-PAST.

Making Connections Gen Ed: LA, CI, WB.

Grading Status: Letter grade.

 **CLAS 62. First-Year Seminar: Bandits, Barbarians, and Rebels in the Ancient Mediterranean. 3 Credits.**

A study of Greek and Roman depictions of marginalized and peripheral peoples in both literary and visual sources, with consideration of the origin, development, and social roles ascribed to these groups.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: HS, CI, WB.

Grading Status: Letter grade.

 **CLAS 63. First-Year Seminar: The Politics of Persuasion in the Ancient and Modern Worlds. 3 Credits.**

Are there rules for crafting a successful speech? The art and the mechanisms of persuasion will be considered both as a discipline with its own laws and practices and as a window into the values and debates that animate the public life of diverse civilizations.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

 **CLAS 64. First-Year Seminar: Cinema and the Ancient World. 3 Credits.**

In this first-year seminar, students will investigate what films set in classical Roman antiquity say about contemporary culture, and will also attempt to understand their impact on the shaping of our sense of history.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **CLAS 65. First-Year Seminar: The City of Rome. 3 Credits.**

This first-year seminar is an introduction to the history and art of Rome from antiquity through the present. Students will survey the entire period, but will look in particular at four specific periods in the city's life from the early second century CE until the present day.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **CLAS 67. First-Year Seminar: Helen of Troy: From Homer to Hollywood. 3 Credits.**

The myth of Helen of Troy has inspired countless creative responses, from Homer's Iliad to Hollywood's Troy; all of them raise questions about the value of beauty and love within society. The course requires no prior knowledge of the classics, although you should be familiar with Homer's Iliad and Odyssey.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

 **CLAS 89. First-Year Seminar: Special Topics. 3 Credits.**

Special topics course; contents will vary each semester. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

 **CLAS 121. The Greeks. 3 Credits.**

Introduction to the history, literature, religion, philosophy, science, art and architecture of Greece from Homer to Alexander the Great. Emphasis on primary sources. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

CLAS 122. The Romans. 3 Credits.

A survey of Roman civilization from the beginning to the late empire, dealing with history, literature, art and architecture, philosophy and religion, and social and political institutions. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

CLAS 123. Summer Study Abroad in Greece. 3 Credits.

Introduction to the history and culture of ancient Greece, from the Bronze Age to the end of the Roman period, through field study of historical and archaeological sites in Greece.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work, NA, WB.

Grading Status: Letter grade.

CLAS 126. Medical Word Formation and Etymology. 3 Credits.

Systematic study of the formation of medical terms from Greek and Latin roots, to build vocabulary and recognition. For general etymology see CLAS 125.

Rules & Requirements

Grading Status: Letter grade.

CLAS 131. Classical Mythology. 3 Credits.

An introduction to the mythology of the ancient Greek and Roman world. Readings may include selections from Homer, Hesiod, Greek tragedy, and Vergil. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

CLAS 133H. Epic and Tragedy. 3 Credits.

Study of classical epic and tragedy. Special emphasis on Homer's Iliad and Odyssey, and on the rethinking of Homeric epic in the tragedies of Aeschylus, Sophocles, and Euripides.

Rules & Requirements

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

CLAS 231. The Theater in the Greek and Roman World. 3 Credits.

An investigation of the history, aesthetics, politics, and influence of theater in the ancient Greek and Roman world, with attention to themes of power, passion, rhetoric, resistance, gender, and identity. The course also includes a substantial practical component, with students taking on a number of the dramaturgical roles involved in the production of ancient drama.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE or FC-POWER, COMMBEYOND.

Making Connections Gen Ed: VP, WB.

Grading Status: Letter grade.

CLAS 240. Women in Greek Art and Literature. 3 Credits.

Course examines law, religion, medicine, social practices, and ideologies in the lives of women in ancient Greece, from Homer to Hellenistic Egypt, using literature, art, and epigraphy. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

Same as: WGST 240.

CLAS 241. Women in Ancient Rome. 3 Credits.

Course examines the life of women in ancient Rome, from the first beginnings of the organized community in Rome through the early Empire, a period of about 900 years. Also explores aspects of the lives of women in provinces governed by Rome. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

Same as: WGST 241.

CLAS 242. Sex and Gender in Antiquity. 3 Credits.

Exploration of gender constructs, what it meant to be a woman or a man, in antiquity, as revealed in literary, historical, and archaeological sources. Readings from Homer, Euripides, Plato, Ovid, Virgil, Juvenal, Petronius, and other ancient authors.

Rules & Requirements

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

Same as: WGST 242.

CLAS 243. Race and Ethnicity in the Ancient Mediterranean. 3 Credits.

This course examines constructions of race and ethnicity in the ancient Mediterranean through art, literature, and archaeology. Students gain a background in the history and culture of the classical world that grounds critical analysis of the primary source evidence, both textual and material. By engaging with modern scholarship on ancient ideas about race and ethnic identity, students also learn to evaluate and critique secondary source material in their original contexts.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

CLAS 253. Pericles and Athens. 3 Credits.

An introduction to classical civilization through study of its most important period in Greece. Attention to history, philosophy, and art. Lecture and discussion. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

CLAS 254. Alexander and the Hellenistic World. 3 Credits.

An introduction to classical civilization through study of the period in which it spreads beyond mainland Greece to influence and partially merge with the cultures of the Near East, Egypt, and Rome. Attention to history, literature, philosophy, and art. Lectures and discussion.

Rules & Requirements

Grading Status: Letter grade.

 **CLAS 257. Augustus and Rome. 3 Credits.**

An introduction to classical civilization through study of the literature, history, and art of one of the most crucial periods in Roman history. Lectures and discussion. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

CLAS 258. The Early Roman Empire. 3 Credits.

An introduction to the civilization of the Roman Empire through study of the literature, history, and archaeology of its most colorful period.

Rules & Requirements

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

CLAS 259. Pagans and Christians. 3 Credits.

Pagans and Christians in the Roman Empire. Special attention to the fundamental cultural and social changes resulting from the Christianization of the Empire.

Rules & Requirements

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

 **CLAS 260. Ancient Medicine. 3 Credits.**

Study of medicine in the ancient Mediterranean world focusing on Greek and Roman understandings of the body, medical theories, and health-care practices. Consideration of medicine and healing traditions as culturally embedded practices using literary and archaeological sources. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-PAST.

Grading Status: Letter grade.

 **CLAS 263. Athletics in the Greek and Roman Worlds. 3 Credits.**

Study of athletics as a unifying force in ancient society, emphasizing the Olympic games and other religious festivals. Consideration of athletic professionalism, propaganda, and social trends using literary and archaeological sources. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-POWER.

Making Connections Gen Ed: NA, WB.

Grading Status: Letter grade.

CLAS 361. Homer and the Heroic Age of Greece. 3 Credits.

The Iliad, the Odyssey. Hesiod, heroic and oral poetry.

Rules & Requirements

Grading Status: Letter grade.

 **CLAS 362. Greek Tragedy. 3 Credits.**

An introduction to the three great tragedians of ancient Greece and to their historical and cultural context. Discussion is based on close readings of the English translations of selected plays by Aeschylus, Euripides, and Sophocles. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-VALUES.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

 **CLAS 363. Latin and Greek Lyric Poetry in Translation. 3 Credits.**

Introduction to the lyric and elegiac poetry of antiquity in English translation, including Hesiod, Sappho, Catullus, Ovid, and Horace. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

CLAS 364. The Classical Background of English Poetry. 3 Credits.

Study of classical writers' influence on selected genres of English poetry. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

Same as: CMPL 364.

 **CLAS 365. The Lives of Others from Herodotus to Tacitus. 3 Credits.**

Explores ethnographic writing in the Ancient Mediterranean. How did the Greeks and Romans write about Persians, Egyptians, Scythians, Gauls, Germans, Britons, Hyperboreans, Spartans, and other peoples across time? In what ways did they understand their own identities and explain the distinctions they perceived between other peoples? The course will include some comparison of modern conceptions of ethnicity and depictions of group identities (in film, literature, and other media).

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-PAST.

Grading Status: Letter grade.

CLAS 371. Cicero, Caesar, and the End of the Roman Republic. 3 Credits.

Cicero and Caesar provide a window into the end of the Roman Republic, and the end of the Republic provides a privileged ground for applying different methodologies of research (e.g. history, literature, political science, philosophy, etc.). This interdisciplinary course includes student presentations.

Rules & Requirements

Making Connections Gen Ed: LA, CI, WB.

Grading Status: Letter grade.

CLAS 391. Junior Seminar. 3 Credits.

The topic of this course varies according to instructor, but in all cases is designed to bring together all departmental majors in their examination of a particular topic in the study of the ancient Mediterranean from an interdisciplinary perspective. Seminar format and research focus. Majors only, junior or senior standing required.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

CLAS 395. Independent Research in Classics. 3 Credits.

This course allows a student to design and execute an independent research project under the supervision of a faculty member. Although the specifics will be determined on a case-by-case basis by the student and the faculty supervisor, the project will normally involve the careful study of key primary sources and engagement with relevant scholarship, and culminate in a major research paper (around 25 pages) or a suitable equivalent in another format (e.g., website, video). Permission of the Instructor.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

CLAS 396. Independent Study in Classical Studies. 3 Credits.

Students may suggest to the chair of the department topics for individual or group study. Advance arrangements required.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**CLAS 409. Greek and Roman Historians. 3 Credits.**

The study in English translation of selections from Herodotus, Thucydides, Livy, Tacitus, and others, with consideration of their literary qualities and their readability as historians. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

CLAS 415. Roman Law. 3 Credits.

This course combines a survey of the main areas of Roman law in their social and historical context with the close study of primary texts illustrating Roman law in practice, especially case studies from the writings of Roman legal experts; particular attention is given to the logic and application of ancient Roman legal thought and to its social and ethical implications. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-VALUES.

Making Connections Gen Ed: PH, WB.

Grading Status: Letter grade.

CLAS 511. Grammar as a Guide to Effective Writing. 1 Credits.

A systematic review of English grammar for students of Latin and Greek, combined with practical exercises in prose style and effective writing.

Rules & Requirements

Requisites: Prerequisite, GREK 204 or LATN 204.

Grading Status: Letter grade.

CLAS 691H. Honors Course. 3 Credits.

Honors course for departmental majors in classical archaeology, classical civilization, Greek, and Latin.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

CLAS 692H. Honors Course. 3 Credits.

Honors course for departmental majors in classical archaeology, classical civilization, Greek, and Latin.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

GREK-Greek**Undergraduate-level Courses****GREK 101. Elementary Classical Greek I. 4 Credits.**

Comprehensive coverage of basic grammar and syntax in two semesters, preparing students for reading Plato or Xenophon in GREK 203 (and with the instructor's permission, New Testament Greek in GREK 205).

Rules & Requirements

Making Connections Gen Ed: FL.

Grading Status: Letter grade.

LATN–Latin**Undergraduate-level Courses****LATN 101. Elementary Latin I. 4 Credits.**

The basic elements of Latin grammar, practice in reading and writing Latin, introduction to Roman civilization through a study of the language of the Romans.

Rules & Requirements

Making Connections Gen Ed: FL.

Grading Status: Letter grade.

Global Language: Level 1.

LATN 102. Elementary Latin II. 4 Credits.

Continuation of LATN 101. The basic elements of Latin grammar, practice in reading and writing Latin, introduction to Roman civilization through a study of the language of the Romans.

Rules & Requirements

Making Connections Gen Ed: FL.

Grading Status: Letter grade.

Global Language: Level 2.

 **LATN 203. Intermediate Latin I. 3 Credits.**

Review of fundamentals. Reading in selected texts such as Catullus, Ovid, Cicero, or others.

Rules & Requirements

 **IDEAs in Action Gen Ed:** GLBL-LANG.

Making Connections Gen Ed: FL.

Grading Status: Letter grade.

Global Language: Level 3.

LATN 204. Intermediate Latin II. 3 Credits.

Review of fundamentals. Reading in selected texts such as Catullus, Ovid, Cicero, or others.

Rules & Requirements

Making Connections Gen Ed: FL.

Requisites: Prerequisite, LATN 203; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 4.

LATN 205. Medieval Latin. 3 Credits.

Reading in selected texts of medieval Latin literature.

Rules & Requirements

Making Connections Gen Ed: WB, FL.

Requisites: Prerequisite, LATN 203; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 4.

LATN 221. Vergil. 3 Credits.

Systematic review of Latin grammar. Reading in Vergil's Aeneid, normally two books in Latin, and the remainder in translation.

Rules & Requirements

Making Connections Gen Ed: LA, NA, WB.

Requisites: Prerequisite, LATN 204 or 205; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 5.

LATN 222. Cicero. 3 Credits.

Careful reading of selected works of Cicero, exercises in Latin composition.

Rules & Requirements

Making Connections Gen Ed: LA.

Requisites: Prerequisite, LATN 204 or 205; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 5.

LATN 223. Ovid. 3 Credits.

Systematic review of Latin grammar. Reading in Ovid's Metamorphoses, normally two books in Latin, and the remainder in translation.

Rules & Requirements

Making Connections Gen Ed: LA, WB.

Requisites: Prerequisite, LATN 204 or 205; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 5.

LATN 224. Augustine's Confessions. 3 Credits.

This class will read and examine substantial portions of the Latin text of Augustine's autobiographical masterpiece, The Confessions, the most important of his writings, and a seminal work of Greco-Roman literature. Students will also read the entire text in English translation. Through background readings and lectures students will gain a broader understanding of the Late Antiquity, the end of the Roman Empire, the conflicts of Christianity and paganism, and the genres of biography and autobiography.

Rules & Requirements

Requisites: Prerequisite, LATN 204 or 205; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

LATN 331. Roman Historians. 3 Credits.

Readings in Caesar, Sallust, and/or Livy.

Rules & Requirements

Making Connections Gen Ed: NA.

Requisites: Prerequisite, any LATN course numbered 220 or higher; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

LATN 332. Roman Comedy. 3 Credits.

Readings in Plautus and Terence, or both.

Rules & Requirements

Making Connections Gen Ed: LA, WB.

Requisites: Prerequisite, any LATN course numbered 220 or higher; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

LATN 333. Lyric Poetry. 3 Credits.

Readings in Catullus and Horace.

Rules & Requirements

Making Connections Gen Ed: LA.

Requisites: Prerequisite, any LATN course numbered 220 or higher; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

LATN 334. Augustan Poetry. 3 Credits.

Readings in Ovid, Tibullus, Propertius, or other poets.

Rules & Requirements

Making Connections Gen Ed: LA.

Requisites: Prerequisite, any LATN course numbered 220 or higher; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

LATN 335. Roman Elegy. 3 Credits.

This course studies Ovid, Propertius, and Tibullus, focusing on themes such as love, male-female relations, politics, war, Roman culture, and poetry itself.

Rules & Requirements

Making Connections Gen Ed: LA, WB.

Requisites: Prerequisite, any LATN course numbered 220 or higher; permission of the instructor for students lacking the prerequisite.

Global Language: Level 6.

LATN 351. Lucretius. 3 Credits.

Readings in Lucretius and related works.

Rules & Requirements

Making Connections Gen Ed: LA.

Requisites: Prerequisite, any LATN course numbered 220 or higher; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

LATN 352. Petronius. 3 Credits.

Readings in Petronius and related works.

Rules & Requirements

Making Connections Gen Ed: LA.

Requisites: Prerequisite, any LATN course numbered 220 or higher; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

LATN 353. Roman Satire. 3 Credits.

Readings in the satires of Horace and Juvenal.

Rules & Requirements

Making Connections Gen Ed: LA, NA, WB.

Requisites: Prerequisite, any LATN course numbered 220 or higher; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

LATN 354. Tacitus and Pliny's Letters. 3 Credits.

Readings in Tacitus and Pliny

Rules & Requirements

Making Connections Gen Ed: LA.

Requisites: Prerequisite, any LATN course numbered 220 or higher; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

 **LATN 395. Independent Research in Latin. 3 Credits.**

This course allows a student to design and execute an independent research project under the supervision of a faculty member. Although the specifics will be determined on a case-by-case basis by the student and the faculty supervisor, the project will normally involve the careful study of key primary sources and engagement with relevant scholarship, and culminate in a major research paper (around 25 pages) or a suitable equivalent in another format (e.g., website, video). Permission of the Instructor.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

LATN 396. Special Readings in Latin Literature. 3 Credits.

Special Readings in Latin Literature.

Rules & Requirements

Requisites: Prerequisites, LATN 221; Permission of the instructor for students lacking the prerequisite.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**LATN 601. Accelerated Elementary Latin. 3 Credits.**

An intensive introduction to Latin grammar and syntax, equivalent to LATN 101 and 102. Students may not receive credit for the following course pairs: LATN 101 and 601; LATN 102 and 601.

Rules & Requirements

Grading Status: Letter grade.

LATN 602. Accelerated Intermediate Latin. 3 Credits.

An intensive review of Latin grammar, along with vocabulary building and the development of reading and translation skills, equivalent to LATN 203 and 204. Students may not receive credit for the following course pairs: LATN 203 and 602; LATN 204 and 602.

Rules & Requirements

Grading Status: Letter grade.

Classics Major, B.A.–Classical Archaeology

This concentration focuses on the material remains of prehistoric and classical antiquity, while also providing a background in civilization, history, and at least one classical language. The program of study is designed to give students a basic knowledge of the art and architecture of the Greeks and Romans and to introduce them to the use of archaeology in the reconstruction of the past, including Egypt and the ancient Near East.

Majors in classical archaeology may not elect a minor in the classical language that they use to satisfy their major requirements, although they may elect a minor in the other classical language. Students interested in majoring in classical archaeology should consult the department as early as possible.

Student Learning Outcomes

Upon completion of the classical archaeology program, students should be able to:

- Recognize and discuss the main monuments of the Graeco-Roman world and place them within their broader historical context
- Read either Latin or ancient Greek and interpret the literature of that language at a level appropriate for continuation in graduate school
- Analyze and assess the material remains of classical antiquity, employing current and standard archaeological methods and theory
- Carry out independent research projects. They will be able to propose a useful research topic, gather evidence (employing both ancient materials and secondary scholarship, as appropriate), formulate theses based on the evidence, and set out the evidence, arguments for and against the theses, and conclusions. They will be able to do this employing the methods and conventions of modern scholarship.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
Select one of the following options:		3
CLAR 244	 Greek Art and Archaeology	
CLAR 375	Archaeology of Cult	
CLAR 491	The Archaeology of Early Greece (1200-500 BCE)	
CLAR 492	 Archaeology of Greek Sanctuaries	
CLAR 247	 Roman Art and Archaeology	3

CLAS 391	 Junior Seminar	3
Four additional courses in Classical Archaeology (CLAR), including two numbered between CLAR 400 and CLAR 699 ¹		12
Three courses in one of the following configurations:		9
Three courses in Classical Civilization (CLAS), including at least one numbered 200 or above. CLAS 125 and CLAS 126 do not satisfy this requirement. ¹		
Three courses in GREK or LATN at any level.		
Three courses combining GREK or LATN at any level and CLAS courses at any level, excluding CLAS 125 and CLAS 126. ¹		
Total Hours		30

¹ A first-year seminar may be used to fulfill this requirement.

Classical Archaeology (CLAR) course descriptions (p. 427).

Special Opportunities in Classics Honors in Classics

Classics majors wishing to take part in the departmental honors program during their senior year must have a grade point average of at least 3.3 at the beginning of their senior year and maintain an average no lower than this through their final semester in order to be eligible for honors consideration.

The program consists of two courses, CLAS 691H and CLAS 692H, taken sequentially in the fall and spring semesters. CLAS 691H involves a directed reading in Greek, Latin, or archaeology in a general area of the student's interest and is conducted under the supervision of a faculty member chosen by the student to serve as the honors advisor. Requirements of the course include the preparation of a thesis prospectus with accompanying bibliography and a preliminary oral examination by the student's thesis committee. A grade for CLAS 691H is assigned on the basis of the total semester's work. CLAS 692H entails the writing of the thesis under the direction of the honors advisor and a final oral defense before the candidate's committee. This body, in turn, reports its judgment to the department. If a degree with honors is to be awarded, a recommendation for either honors or, for particular merit, highest honors is made.

Additional Opportunities

The Department of Classics supports a number of activities, including informal reading groups; the local chapter of Eta Sigma Phi, the national undergraduate classics honorary society; and annual oral performances and prize competitions in reciting and translating Greek and Latin texts. Several of the prize competitions involve substantial cash awards. Opportunities for undergraduate research include especially the senior honors thesis and participation in archaeological fieldwork as research assistants. The department encourages majors and minors to take part in summer archaeological field projects. Other opportunities for study abroad include the programs of the Intercollegiate Center for Classical Studies in Rome and the College Year in Athens, and the exchange with King's College London. A number of departmental fellowships and other funding opportunities can help support participation in archaeological field projects and other research projects. Lastly, the Duke–UNC Consortium for Classical and Mediterranean Archaeology provides archaeology students access to coursework, seminars, excavations and other research opportunities, academic advising, and avenues for curricular and extracurricular interaction across both institutions. For further information about prizes, fellowships, and

opportunities for research and study abroad, see the departmental website (<http://classics.unc.edu/undergraduate-2/study-abroad-and-summer-programs/>) or the departmental website (<http://classics.unc.edu/undergraduate-2/study-abroad-and-summer-programs/>).

Classics Major, B.A.—Classical Civilization

This concentration is designed to provide students with a broad, basic knowledge of the classical world and with skills in analysis, written and oral communication, and logical argument that will be applicable in any profession. The civilization program is not designed to lead to graduate work in classics, although students do sometimes go on in the field, and it is often taken as part of a double major.

Majors in classical civilization may not elect a minor in the classical language that they use to satisfy their major requirements, although they may elect a minor in the other classical language. Students considering a major in classical civilization should consult the department as soon as possible.

Student Learning Outcomes

Upon completion of the classical civilization program, students should be able to:

- Read and translate either Latin or Greek at an intermediate level.
- Outline the main periods and events in ancient history and discuss in detail several specific periods in that history. They will be able to relate the literatures of Greece and Rome to the historical developments.
- Analyze and assess the various types of evidence that survive from the ancient world, including written texts, historical materials, ancient art, and a range of material remains. They will be able to employ current and standard methods and theory in such analyses. They will be able to write essays and expository papers in which they demonstrate these abilities.
- Carry out independent research projects. They will be able to propose a useful research topic, gather evidence (employing both ancient materials and secondary scholarship, as appropriate), formulate theses based on the evidence, and set out the evidence, arguments for and against the theses, and conclusions. They will be able to do this employing the methods and conventions of modern scholarship.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

Classics Major, B.A. –Greek, Latin, and Combined Greek and Latin

Classics Major, B.A. –Greek

The goal of the concentration in Greek is the development of a basic command of the language and a solid knowledge of the literature, history, and culture of the Greeks. Students interested in an undergraduate major in Greek or in a combined major in Greek and Latin should consult the department by the second semester of the sophomore year. For Greek as satisfying the language requirement for the B.A. degree, see the General Education section in this catalog.

Classics Major, B.A. –Latin

The goal of the concentration in Latin is the development of a basic command of the language and a solid knowledge of the literature, history, and culture of the Romans. Students interested in an undergraduate major in Latin or a combined major in Latin and Greek should consult the department by the second semester of the sophomore year. For Latin as satisfying the language requirement for the B.A. degree, see the General Education section in this catalog.

Classics Major, B.A. –Combined Greek and Latin

This is not a double major, but a concentration designed to develop facility in both ancient languages and in the literatures of both Greece and Rome. This program is recommended for students who have a strong interest in continuing classical languages at the graduate level. In this major students emphasize one language yet acquire facility in the other.

Student Learning Outcomes

Upon completion of the Greek, Latin, and combined programs, students should be able to:

- Translate into idiomatic English passages in prose and poetry in the target languages
- Analyze and evaluate the works of Greek and Latin authors, both in writing and orally. If appropriate given the nature of the material, they will be able to place the passages within their historical or literary contexts, and they will demonstrate an ability to employ earlier scholarship as well as current methodological and theoretical approaches.

- Conduct independent research projects. Their work will demonstrate an ability to employ scholarly conventions and current methodologies.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Classical Humanities Minor

Classics is the study of the ancient Greek and Roman world; the Greek and Latin languages and literature; and the history, art, and culture that have been fundamental in shaping modern society. The minor in classical humanities is ideal for students who would like a structured introduction to ancient Greek and Roman civilization without the need to study one of the classical languages.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Greek Minor

Classics is the study of the ancient Greek and Roman world; the Greek and Latin languages and literature; and the history, art, and culture that have been fundamental in shaping modern society. The Greek minor is a less intensive version of the Greek concentration in the major, and requires only three courses in Greek beyond the fourth semester. It is a useful option for students with a particular interest in ancient philosophy or early Christianity.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements ¹

Latin Minor

Classics is the study of the ancient Greek and Roman world; the Greek and Latin languages and literature; and the history, art, and culture that have been fundamental in shaping modern society. The Latin minor is a less intensive version of the Latin concentration in the major, and requires only four courses in Latin beyond the fourth semester. It is a useful option for students who have studied Latin in high school and would like to continue for their own enjoyment, as well as for students with a particular interest in medieval or early modern studies.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
Four (4) courses in Latin numbered LATN 221 or higher		12
Total Hours		12

The minor in Latin may not be used as an option for majors in classical archaeology or classical civilization who have chosen that language to fulfill degree requirements in that major.

Latin (LATN) course descriptions (p. 427).

See the program page here (p. 442) for special opportunities.

Department Programs

Majors

- Classics Major, B.A.–Classical Archaeology (p. 438)
- Classics Major, B.A.–Classical Civilization (p. 439)
- Classics Major, B.A.–Greek, Latin, and Combined Greek and Latin (p. 441)

Minors

- Classical Humanities Minor (p. 443)
- Greek Minor (p. 443)
- Latin Minor (p. 444)

Graduate Programs

- M.A. in Classics (<https://catalog.unc.edu/graduate/schools-departments/classics/>)
- Ph.D. in Classics (<https://catalog.unc.edu/graduate/schools-departments/classics/>)

Department of Communication

Introduction

The study of communication is essential for participating in an increasingly complex and mediated global environment. The Department of Communication's mission is to advance communication for the public good. Through its teaching, research, and service, the department addresses the many ways communication functions to create, sustain, and transform personal life, social relations, political institutions, economic organizations, and cultural and aesthetic conventions in society; promotes competencies required for various modes of mediated and non-mediated communication; and develops skills for analyzing, interpreting, and critiquing communication problems and questions. The curriculum is designed to enable students to develop the capacities to be knowledgeable and responsible producers and consumers of communication through engagement, critique, and creativity. The programs of study offered by the department reflects its vision of citizen-scholars building a better North Carolina and world.

Advising

Department advising for the major in communication studies is conducted by

1. a full-time lecturer/advisor who holds office hours in Bynum Hall and Steele Building (see the department's website (<https://comm.unc.edu/>) for the advisor's office and office hours),
2. the director of undergraduate studies for the Department of Communication (see the department's website (<https://comm.unc.edu/>) for the director's office and office hours), and
3. representative faculty members.

Facilities

The department has extensive media production and performance studies facilities located in the Media Arts Space at 108 East Franklin Street, Swain Hall and Bingham Hall. The Media Arts Space is home to state-of-the-art media production equipment, classroom space, and editing suites. Swain houses Studio 6, where numerous live performances

are staged. Bingham Hall contains the Martha Nell Hardy Performance Space.

Graduate School and Career Opportunities

Upon completion of their degrees, students are prepared for graduate study and research in communication. Advanced study may be pursued in a problem-defined approach to communication research. A substantial number of graduate assistantships allow M.A.-through-Ph.D. and Ph.D.-only candidates to gain experience in research, teaching, production, and administration. Graduate study is characterized by intensive participation in seminars, original research and creative activities, and close work with individual faculty members. Students are also prepared for advanced study in related academic disciplines such as law, public policy, and leadership.

The career outlook for students with degrees in communication studies is promising, and graduates enter a variety of professions that value communication knowledge and skills. Communication studies majors are prepared to serve as communication specialists in business; in federal, state, and local governments and agencies; and in public service. Some of the specific areas in which majors pursue careers are teaching, social advocacy, nonprofit leadership and management, public relations and advertising, personnel management and training, management consulting, video and film production, and game design.

According to the Federal Bureau of Labor, overall employment in media and communication occupations is projected to grow 6 percent by 2032, resulting in 68,600 currently non-existing jobs over the decade. About 114,300 jobs are projected each year. The median annual salary for media and communication professionals was \$66,320 in May 2023, which was higher than the median annual salary for all occupations of \$48,060.

An understanding of communication provides a strong base for a range of career options. A majority of employers surveyed stress the need to hire people with strong oral and written communication skills, critical thinking and interpretive skills, and the ability to communicate through multiple modalities across different audience types. These are all tools that communication majors learn to use effectively. The mission of the department is to go beyond narrow technical training by providing a liberal arts approach to communication. This provides the student with maximum latitude for promotion and advancement and avoids limited career opportunities resulting from narrow approaches to the field.

The burgeoning growth of communication industries and support fields provides a range of career opportunities. Graduates of the department, who number well over 4,000, are engaged in a variety of occupations ranging from work for international corporations to jobs at local nonprofit organizations.

Majors

- Communication Studies Major, B.A. (p. 459)

Minor

- Writing for the Screen and Stage Minor (p. 465)

Graduate Programs

- Ph.D. in Communication Studies (<https://catalog.unc.edu/graduate/schools-departments/communication/>)

Professors

Renee Alexander Craft, Cori Dauber, Torin Monahan, Patricia Parker, Tony Perucci, Joyce Rudinsky, Avi Santo.

Associate Professors

Bill Brown, Sarah E. Dempsey, Julia Haslett, Christian O. Lundberg, Steven K. May, Alice Marwick, Michael Palm, Kumi Silva, Michael S. Waltman.

Assistant Professors

Kelsey Brod, Lisa Calvente, E. Chebrolu, David Dooling, Aaron Shapiro.

Adjunct Professors

Greg Flaxman, Amanda Graham, Mark Katz, Daniel Kreiss, Chérie Rivers Ndaliko, Christopher Nelson, John Pickles, Barry Saunders, Randall Styers.

Teaching Professor

Joseph Megel.

Teaching Associate Professors

Michael Acosta, Kristin Hondros, Kevin Marinelli, David Monje.

Teaching Assistant Professors

Megan Fitzmaurice Mahan, Irina Kruchinina, Jessica Speed Wiley.

Professor of the Practice

Dayci Brookshire, Maxwell Carraher, Joy Goodwin, James Lampley.

Visiting Lecturers

Eric Barstow, Howard Craft, Raphael Ginsburg, Stella Rosen, Emily Spivey.

Professors Emeriti

Bill Balthrop, Carole Blair, Beverly Long Chapin, Dana Coen, Robert Cox, Howard D. Doll, Paul Ferguson, Lawrence Grossberg, Ken Hillis, Gorham A. Kindem, Dennis Mumby, James W. Pence Jr., Della Pollock, Edward Rankus, Lawrence B. Rosenfeld, Francesca Talenti, Julia Wood.

COMM—Communication Studies

Undergraduate-level Courses

 **COMM 51. First-Year Seminar: Organizing and Communicating for Social Entrepreneurs. 3 Credits.**

This course examines the historical and current development of social entrepreneurship as a field of study and practice, with particular attention to successful organizational communication strategies designed to solve community problems.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

 **COMM 53. First-Year Seminar: Collective Leadership Models for Community Change. 3 Credits.**

This course will explore communication models for collective leadership involving youth and adults in vulnerable communities. Partnering with local youth-focused organizations, students will work in teams to research and design community-based change projects.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS, EE- Field Work.

Grading Status: Letter grade.

 **COMM 57. First-Year Seminar: Is There Life after College?: The Meaning of Work in Contemporary Life. 3 Credits.**

Examines the historical emergence of work as a defining feature of contemporary life. The course asks, What is a "career"? How have neoliberalism and post-Fordism influenced understandings of work and career? How have changing conceptions of work influenced other aspects of life, including family, leisure, consumption, and self-identity?

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

 **COMM 61. First-Year Seminar: The Politics of Performance. 3 Credits.**

In this course students will explore the possibilities of making political performances, or making performances political. We will be particularly concerned with how performance may contribute to processes of social change.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-CREATE or FC-POWER.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **COMM 62. First-Year Seminar: African American Literature and Performance. 3 Credits.**

This course examines the question of what characterizes "Blackness" as it manifests through experience, history, and symbol in the United States, as well as the impact of African practices and identities upon blackness in the United States. The course is concerned with what has been termed the "black literary imagination".

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **COMM 63. First-Year Seminar: The Creative Process in Performance. 3 Credits.**

Students will be engaged with multimedia, music, dance, and theater performances. We will explore the creative processes and cultural contexts of these performances and will compare the arts as a way of knowing the world to the creative processes of academic scholarship.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: VP, CI, US.

Grading Status: Letter grade.

 **COMM 73. First-Year Seminar: Understanding Place through Rhetoric. 3 Credits.**

This seminar explores how we come to understand what places are and how they are meaningful. We will look at places "rhetorically": how they were designed to persuade those who inhabit them, how we actually experience them, and how we make sense of them in our individual lives.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

 **COMM 75. First-Year Seminar: Researching Society and Culture. 3 Credits.**

Qualitative research offers an exciting way to discover the world. In this course, students will gain focused training in qualitative research methods, learn how to analyze qualitative data, design and perform qualitative research studies, and report research findings.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, RESEARCH.

Grading Status: Letter grade.

 **COMM 82. First-Year Seminar: Food Politics from an Organizational Communication Perspective. 3 Credits.**

This course provides an applied introduction to food politics by adopting a critical organizational communication lens on our globalized food system. We explore food system labor practices, the role of multinational companies and global commodity chains, the status of hunger and food deserts, the role of food marketing and consumption practices, and the growth of local and sustainable movements devoted to food justice.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-POWER, HI-SERVICE.

Making Connections Gen Ed: SS, CI, EE- Service Learning.

Grading Status: Letter grade.

 **COMM 83. First-Year Seminar: Networked Societies. 3 Credits.**

This seminar is designed to introduce early-career students to the role that networks play in contemporary global societies. We will examine key ways to think about network societies by taking up the idea of the network in social, political, economic, cultural, and technological terms.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-POWER.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

 **COMM 84. First-Year Seminar: Make A Zine! Do-It-Yourself Writing, Publishing, and Distribution. 3 Credits.**

An introduction to the history, culture, and politics of "zines," self-published, small-circulation, noncommercial printed work. In this hands-on course, students will read, discuss, and create a wide variety of zines that explore a multitude of forms and genres. Students will be visited by local zine makers and participate in zine-making workshops; create a collection of their own zines; and participate in the Zine Machine: Durham Printed Matter Festival.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-CREATE, RESEARCH.

Grading Status: Letter grade.

 **COMM 85. First-Year Seminar: Think, Speak, Argue. 3 Credits.**

This is a course in learning to think more critically, speak more persuasively, and argue more effectively by focusing on practical skill development in reasoning and debate.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

 **COMM 86. First-Year Seminar: Surveillance and Society. 3 Credits.**

How are surveillance technologies altering social life? This course will explore this question by mapping the complex ways that technologies and societies interact to produce security, fear, control, vulnerability, and/or empowerment.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS, NA.

Grading Status: Letter grade.

 **COMM 88. First-Year Seminar: Technologies of Popular Culture. 3 Credits.**

This seminar takes an historical approach to the relationship between popular culture and technological change. We will explore how artists and other workers (including audiences) in the TV, smart phone, and especially music industries have incorporated new technology into the production, distribution, and consumption of cultural commodities and experiences.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

 **COMM 89. First-Year Seminar: Special Topics. 3 Credits.**

Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

COMM 100. Communication and Social Process. 3 Credits.

Addresses the many ways our communication—including language, discourse, performance, and media—reflects, creates, sustains, and transforms prevailing social and cultural practices.

Rules & Requirements

Grading Status: Letter grade.

 **COMM 113. Public Speaking. 3 Credits.**

Theory and extensive practice in various types of speaking.

Rules & Requirements

 **IDEAs in Action Gen Ed:** COMMBEYOND.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

 **COMM 120. Introduction to Interpersonal and Organizational Communication. 3 Credits.**

An introduction to communication theory, research, and practice in a variety of interpersonal and organizational contexts. This course examines the role of communication in both personal and professional relationships. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-LAUNCH (only designated sections), RESEARCH.

Grading Status: Letter grade.

Same as: MNGT 120.

 **COMM 130. Introduction to Media Production. 3 Credits.**

Permission of the instructor for nonmajors. Prerequisite for all production courses. Introduces students to basic tools, techniques, and conventions of production in audio, video, and film.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

COMM 131. Writing for the Screen and Stage. 3 Credits.

Restricted course. Dramatic writing workshop open only to students in the writing for the screen and stage minor.

Rules & Requirements

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

Same as: DRAM 131.

 **COMM 140. Introduction to Media History, Theory, and Criticism. 3 Credits.**

An introduction to the critical analysis of film, television, advertising, video, and new media texts, contexts, and audiences. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-LAUNCH (only designated sections).

Grading Status: Letter grade.

 **COMM 142. Popular Music. 3 Credits.**

This class explores the historical, social, political, and cultural significances of popular music as a communicative practice in the United States from 1950 to the present.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Requisites: Prerequisite, COMM 140 or COMM 249.

Grading Status: Letter grade.

 **COMM 150. Introduction to New Media. 3 Credits.**

An introduction to the design, aesthetics, and analysis of various forms of digital media. Hands-on experience with different modes of creation, including graphics, web-based communication, and social media.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-CREATE.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **COMM 160. Introduction to Performance Studies. 3 Credits.**

As the introductory course in performance studies, students will explore and experiment with performance as ritual, performance in everyday life, and the performance of literature. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **COMM 170. Rhetoric and Public Issues. 3 Credits.**

Examines the basic nature and importance of rhetoric and argumentation. Attention is devoted to interpreting the persuasive function of texts and their relation to modern forms of life.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Making Connections Gen Ed: PH.

Grading Status: Letter grade.

 **COMM 171. Argumentation and Debate. 3 Credits.**

Analysis of issues, use of evidence, reasoning, briefmaking, and refutation. Argumentative speeches and debates on legal cases and on current events. Designed for prospective law students, public policy students, speech teachers, and college debaters.

Rules & Requirements

 **IDEAs in Action Gen Ed:** COMMBEYOND.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

 **COMM 223. Small Group Communication. 3 Credits.**

Introduction to the theory and practice of communication in the small group setting. Topics may include group development, conformity and deviation, gender, problem solving, and power and leadership. Permission of the instructor for nonmajors.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES, COMMBEYOND.

Grading Status: Letter grade.

Same as: MNGT 223.

COMM 224. Introduction to Gender and Communication. 3 Credits.

Examines multiple relationships among gender, communication and culture. Explores how communication creates gender and shapes relationships and how communication reflects, sustains, and alters cultural views of gender. Honors version available.

Rules & Requirements

Making Connections Gen Ed: CI, US.

Grading Status: Letter grade.

Same as: WGST 224.

COMM 230. Audio/Video/Film Production and Writing. 3 Credits.

The material, processes, and procedures of audio, video, and film production; emphasis on the control of those elements of convention that define form in the appropriate medium. Lecture and laboratory hours.

Rules & Requirements

Requisites: Prerequisites, COMM 130 and 140; Grade of C or better in COMM 130; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

COMM 249. Introduction to Communication Technology, Culture, and Society. 3 Credits.

Historical exploration of the sociocultural import of communication technologies, from the introduction of the telegraph in the mid-1800s through current implications of the Internet and various digital devices.

Rules & Requirements

Making Connections Gen Ed: HS.

Grading Status: Letter grade.

COMM 251. Introduction to American Film and Culture, 1965-Present. 3 Credits.

An introduction to some key connections between American film history and cultural history since 1965, most of which remain backbones of United States film culture to this day.

Rules & Requirements

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

COMM 260. Introduction to Performance and Social Change. 3 Credits.

This course addresses the relationship between performance and power, focusing on topics concerned with the potential for performance to contribute to social change.

Rules & Requirements

Grading Status: Letter grade.

COMM 262. Introduction to the Performance of Culture. 3 Credits.

Introduces students to performance as a way of studying culture in all of its creative, dynamic forms, including family stories, joking, rituals, and practices of everyday life. The course emphasizes field methods and experiential research. Honors version available.

Rules & Requirements

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

COMM 263. Performing Literature. 3 Credits.

Introduction to the study and practice of performing literature. Students will create, rehearse, and stage performances that draw on fiction, poetry, non-fiction, and/or memoir. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-CREATE.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

COMM 288. Media Studies of Japan. 3 Credits.

This course introduces Japanese thoughts and culture through the lens of media cultural studies, and studies socio-cultural issues of Japan through media productions and trends. We will learn about Japan's nationalism and imperialism, gender and family ideologies, post-Bubble economic misery and homelessness, memories of war, feminist and minority struggles, working culture, technology, and post-Fukushima philosophy of survival in film, commercials, print media, news, and TV shows.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Grading Status: Letter grade.

Same as: JAPN 288.

COMM 291. Undergraduate Learning Assistant in Media Production. 3 Credits.

Instruction is a path to deep understanding. This ULA is for the student interested in pedagogy and media production. In assisting students currently enrolled in COMM 130 labs, the intern extends and complements the skills they acquired in introductory Media Production classes. Typical tasks include equipment and software instruction, as well as conceptual and aesthetic consultation. ULA model themes: pedagogy, content, and practice.

Rules & Requirements

IDEAs in Action Gen Ed: HI-LEARNTA.

Requisites: Prerequisites, COMM 130 and COMM 230.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

COMM 312. Persuasion. 3 Credits.

Examines contemporary theory and practice of influencing others' attitudes, beliefs, and actions. Focuses particularly on analyzing and developing persuasive messages. Permission of the instructor for nonmajors.

Rules & Requirements

Requisites: Prerequisite, COMM 120 or COMM 170.

Grading Status: Letter grade.

COMM 318. Cultural Diversity. 3 Credits.

Introduction to basic paradigms of thinking about cultural difference, encouraging students to examine how these paradigms shape how we think, act, and imagine ourselves/others as members of diverse cultures.

Rules & Requirements

IDEAs in Action Gen Ed: FC-POWER.

Making Connections Gen Ed: CI, US.

Grading Status: Letter grade.

COMM 325. Introduction to Organizational Communication. 3 Credits.

The course explores the historical and theoretical developments in the research and practice of organizational communication. Permission of the instructor for nonmajors. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Grading Status: Letter grade.

Same as: MNGT 325.

COMM 330. Introduction to Writing for Film and Television. 3 Credits.

An introduction to screenwriting for film and television with strong emphasis on the scene.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-CREATE.

Grading Status: Letter grade.

COMM 331. Writing the Short Film. 3 Credits.

Students practice and learn the craft of narrative, short film writing by conceptualizing, outlining, writing, and rewriting three short film scripts. They include one three-minute silent, one five-minute script with dialogue, and one 15-minute script with dialogue.

Rules & Requirements

Grading Status: Letter grade.

COMM 334. Writing the One-Hour TV Drama. 3 Credits.

Students in this class will live the life of a writing staff on a just-picked-up, fictional, one-hour television series. As if on a real series, they will individually and cooperatively create story ideas, treatments, and outlines, as well as write scenes, acts, and entire scripts.

Rules & Requirements

Making Connections Gen Ed: CI.

Requisites: Prerequisite, COMM 330.

Grading Status: Letter grade.

COMM 335. Film Story Analysis. 3 Credits.

A variety of feature films (both domestic and foreign) are screened in class and analyzed from a storytelling perspective. Emphasis is on the range of possibilities the screenwriter and film director face in the process of managing the audience's emotional involvement in a story.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Grading Status: Letter grade.

COMM 337. Visual Storytelling for Screenwriters. 3 Credits.

Priority given to majors. This course instructs students on how to tell stories in a visual manner. How do the words on a page get translated onto a screen and how will the writer collaborate visually with a director? It is designed for writers to better understand how their scripts are interpreted and to improve visual writing.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-CREATE.

Grading Status: Letter grade.

COMM 340. The Social Life of Things. 3 Credits.

This seminar-style class invites students to learn about the world through objects. What stories can "things" tell us about the culture, economy, and politics of the societies that produce and consume them? What can we learn about ourselves by studying objects and their histories? Through a range of case studies, students will learn about how the production, distribution, consumption, and disposal of things structures and animates the worlds we build and occupy.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Requisites: Prerequisite, COMM 140 or COMM 249.

Grading Status: Letter grade.

COMM 345. Gender and Film. 3 Credits.

This course examines the representations of women in contemporary American film and also considers women as producers of film.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

Same as: WGST 345.

COMM 348. Algorithms and Society. 3 Credits.

Society, we're told, is increasingly subject to automated decisions rendered by algorithm. What effects do algorithmic classifications have on social, cultural, and economic life? When, how, and why do institutions use algorithms? Are they really more "objective" than human decisions? How are the costs and benefits of algorithmic systems distributed? What does it mean to say we now live in an "algorithmic society"?

Rules & Requirements

IDEAs in Action Gen Ed: FC-POWER.

Grading Status: Letter grade.

COMM 349. Technology and Social Justice. 3 Credits.

Technological systems permeate our lives. They facilitate communication, transportation, commerce, and governance. In order to actualize a more fair, just, and equitable society, it is essential that we hone an awareness of the "political" dimensions of technological systems and work toward the design of better ones. The goal of this course is to foster just such a critical technological literacy.

Rules & Requirements

IDEAs in Action Gen Ed: FC-POWER, RESEARCH.

Grading Status: Letter grade.

COMM 350. Practices of Cultural Studies. 3 Credits.

Introduces students to the history, methods, and central intellectual questions of cultural studies.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER, RESEARCH.

Making Connections Gen Ed: SS, CI, GL.

Grading Status: Letter grade.

COMM 355. Terrorism and Political Violence. 3 Credits.

This course is a multi-disciplinary analysis of the phenomena of terrorism and political violence, their history, causes, the threat they pose, and what steps the United States can take in response.

Rules & Requirements

Grading Status: Letter grade.

Same as: PWAD 355.

COMM 360. Social Media and Society. 3 Credits.

This class examines the relationship between society and computer-mediated communication technologies known as "social media," including Facebook, Snapchat, Instagram, Twitter, YouTube, and more. It aims to break down the mythologies of social media and develop methods of analysis and critical understanding. Drawing from communication, sociology, anthropology, and cultural studies, students will understand social media's role within a larger social context.

Rules & Requirements

IDEAs in Action Gen Ed: FC-POWER.

Requisites: Prerequisite, COMM 140 or COMM 249.

Grading Status: Letter grade.

COMM 371. Argumentation. 3 Credits.

This course examines the theory and practice of argument and deliberation in communication studies, drawing from resources in rhetorical studies, informal logic, and argumentation. Intended for pre-law, public policy and other students interested in argumentation.

Rules & Requirements

Grading Status: Letter grade.

COMM 372. The Rhetoric of Social Movements. 3 Credits.

Explores the discourse of dissident voices in American society, particularly as they speak about grievances pertaining to race, gender, the environment; focuses on rhetorical strategies that initiate and sustain social movements.

Rules & Requirements

Grading Status: Letter grade.

COMM 374. The Southern Experience in Rhetoric. 3 Credits.

Examines recurrent themes in the rhetoric of significant Southerners and important campaigns. Considers both the rhetoric of the establishment and the rhetoric of change.

Rules & Requirements

Making Connections Gen Ed: PH, US.

Grading Status: Letter grade.

COMM 375. Environmental Advocacy. 3 Credits.

Explores rhetorical means of citizen influence of practices affecting our natural and human environment; also, study of communication processes and dilemmas of redress of environmental grievances in communities and workplace.

Rules & Requirements

Making Connections Gen Ed: PH, CI.

Grading Status: Letter grade.

Same as: ENEC 375.

COMM 378. Environmental Filmmaking: Creative Production and Social Impact. 3 Credits.

A workshop to study and create non-fiction films about the environment. The course examines aesthetic, narrative, and representational strategies with an eye to how these films can contribute to critical conversations about our species' impact on the natural world. Special attention will be paid to questions of environmental justice and the disproportionate effects of environmental hazards on communities of color and low-income communities. Previously offered as COMM 622.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-CREATE.

Requisites: Prerequisite, COMM 130 or Permission of the Instructor.

Grading Status: Letter grade.

COMM 386. Dance and Embodied Knowledge in the Indian Context. 3 Credits.

In this theory-practice course focusing on religion, performance, and South Asian studies we will analyze the nature of embodied knowledge, aesthetic theory, and the creative power of dance performance in the Indian context. The course also includes a practical component involving embodied experience with Indian classical dance forms.

Rules & Requirements

Making Connections Gen Ed: VP, BN.

Grading Status: Letter grade.

Same as: RELI 386, ASIA 386.

COMM 387. Disciplining the Body and Mind: The Martial Arts of East Asia in Religion, History, and Culture. 3 Credits.

This course offers an introduction to the history and practice of East Asian martial arts. We will explore the social, political, and cultural contexts of the martial arts, from the classical period to the present. Integral to this course is a practical component involving embodied experience with martial arts training.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-KNOWING, HI-PERFORM.

Making Connections Gen Ed: BN, EE- Performing Arts.

Grading Status: Letter grade.

Same as: RELI 387, ASIA 387.

COMM 390. Special Topics in Communication Study. 3 Credits.

A special topics course on a selected aspect of communication studies.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

COMM 393. Internships. 1-3 Credits.

Permission of the department. Majors only. 2.5 cumulative grade point average required. Individualized study closely supervised by a faculty advisor and by the departmental coordinator of internships. Cannot count toward the COMM major.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

COMM 396. Independent Study and Directed Research. 1-3 Credits.
Permission of the department. Majors only. 3.0 cumulative grade point average and 3.5 communication studies grade point average required. For communication studies majors who wish to pursue independent research projects or reading programs under the supervision of a selected instructor. Intensive individual research on a problem designed by instructor and student in conference.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

COMM 412. Critical Theory. 3 Credits.

An introduction to European modern and contemporary philosophy, from the enlightenment to contemporary postmodernism.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Making Connections Gen Ed: PH, NA.

Grading Status: Letter grade.

COMM 422. Family Communication. 3 Credits.

Growth in technologies, more frequent travel, and movements of products and people across the borders of nation states change concepts of family and community. Foregrounded by these realities, this course combines theories of family and communication with documentation of lived experience to interrogate family communication patterns in contemporary culture. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Making Connections Gen Ed: GL, US.

Requisites: Prerequisite, COMM 120.

Grading Status: Letter grade.

COMM 423. Critical Perspectives on Work, Labor, and Professional Life. 3 Credits.

This upper level seminar develops a critical perspective on work, labor, and professional life within the global context. Throughout, we will engage in moral and philosophical debates about the status of labor and the meanings of work in our daily lives.

Rules & Requirements

Grading Status: Letter grade.

COMM 430. History of American Screenwriting. 3 Credits.

This viewing and research-intensive course examines the history of American narrative film through the screenwriter's experience, using a decade-by-decade approach to examine the political, social, global, psychological, religious, and cultural influences on the art, process, and careers of screenwriters.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Grading Status: Letter grade.

COMM 431. Advanced Audio Production. 3 Credits.

Advanced analysis and application of the principles and methods of audio production.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Requisites: Prerequisite, COMM 130 or 150; Grade of C or better in COMM 130; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMM 432. Visual Culture. 3 Credits.

Course provides an overview of theories of visual culture. We apply these theories to better understand contemporary visual media and technologies, along with the everyday media practices they support.

Rules & Requirements

Making Connections Gen Ed: CI.

Requisites: Prerequisite, COMM 140 or COMM 249; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMM 433. Intermediate Screenwriting. 3 Credits.

Open only to students in the writing for the screen and stage minor. Conceiving and outlining a feature-length screenplay.

Rules & Requirements

Requisites: Prerequisite, COMM 131.

Grading Status: Letter grade.

COMM 435. Memory Acts. 3 Credits.

Advanced introduction to foundational work in memory and performance studies, emphasizing theory and practice of various forms of remembering. Honors version available.

Rules & Requirements

Grading Status: Letter grade.

COMM 437. United States Black Culture and Performance. 3 Credits.

Examines how the United States Black experience is constituted in and through performance across a range of cultural contexts including the antebellum South, Reconstruction, the Harlem Renaissance, the Black Aesthetic, and contemporary urban life.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP, US.

Requisites: Prerequisite, COMM 160.

Grading Status: Letter grade.

COMM 450. Media and Popular Culture. 3 Credits.

Examination of communication processes and cultural significance of film, television, and other electronic media. Permission of the instructor for nonmajors.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Making Connections Gen Ed: PH.

Requisites: Prerequisite, COMM 140 or COMM 249.

Grading Status: Letter grade.

 **COMM 453. The History of New Media Technology in Everyday Life. 3 Credits.**

The starting point for this course, chronologically and conceptually, is the emergence of popular media technology. Our purview includes transformative innovations in mediated communication, such as telephony and e-mail, alongside familiar media technologies such as televisions and computers.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Requisites: Prerequisite, COMM 140 or COMM 249.

Grading Status: Letter grade.

COMM 454. Media and Activism. 3 Credits.

A study of the electronic media as a feedback mechanism for community organization and social change. A variety of broadcast and nonbroadcast uses of the media are studied.

Rules & Requirements

Grading Status: Letter grade.

 **COMM 455. Sound Studies. 3 Credits.**

This course is about sound and the auditory dimension. In a society dominated by images and spectacle, sound and listening have been remarkably under-appreciated. Sound is physical—the vibration of molecules according to frequencies, pitches, and intensities—and biological—our ability to hear is an evolutionary trait. But sound is also cultural (what qualifies as signal or noise?), technological (how is sound recorded and reproduced?), and historical (how has the soundscape changed and how have we listened differently).

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Requisites: Prerequisite, COMM 140 or COMM 249; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMM 463. Creating the Solo Performance. 3 Credits.

This course examines processes of creating and performing solo work. Students engage a variety of performances: autobiographical, representation of the lives of other/s, and exploration of cultural or political ideas.

Rules & Requirements

Making Connections Gen Ed: VP.

Requisites: Prerequisite, COMM 160, DRAM 120, or ENGL 206, 207, or 208; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

 **COMM 464. Collaborative Performance. 3 Credits.**

Theory and practice of collaborative performance, emphasizing image, intertextual adaptation, site-specific and installation work, avant-garde traditions, and the play of time and space. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **COMM 466. Advanced Study in Performing Literature. 3 Credits.**

This course engages the theory and embodiment of prose fiction, poetry, and other kinds of literary texts, including nonfiction. Students practice adaptation and script preparation, solo/group performance, and performance critique.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE or FC-KNOWING, HI-PERFORM.

Making Connections Gen Ed: LA, EE- Performing Arts.

Requisites: Prerequisite, COMM 160 or COMM 260.

Grading Status: Letter grade.

COMM 470. Political Communication and the Public Sphere. 3 Credits.

A course covering the relationship between communication and political processes and institutions. Topics include media coverage and portrayal of political institutions, elections, actors, and media influence on political beliefs.

Rules & Requirements

Making Connections Gen Ed: PH, NA.

Grading Status: Letter grade.

COMM 471. Rhetorics of Public Memory. 3 Credits.

Takes up the fundamental assumptions of contemporary memory studies and the centrality of rhetoric to memory. Research focus on how constructions of the past respond to the present and future.

Rules & Requirements

Grading Status: Letter grade.

COMM 472. Rhetorical Criticism. 3 Credits.

Approaches to the analysis and assessment of rhetorical practice with a focus on how rhetoric reflects and shapes public culture.

Rules & Requirements

Making Connections Gen Ed: CI, EE- Mentored Research.

Requisites: Prerequisite, COMM 170.

Grading Status: Letter grade.

 **COMM 475. Fostering Civil Discourse: Reasoning Together for Common Good. 3 Credits.**

People are finding it increasingly difficult to reason with anyone outside their political affiliations. Must that be the case? This course is founded on the belief that democratic participation begins with earnest conversation and, given the right tools, we can do democracy better. The course is committed to the promise of shared reasoning and aims to foster student capacities for robust deliberative practices, rooted in the rhetorical tradition and tackling the most challenging public issues.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES, COMMBEYOND.

Grading Status: Letter grade.

COMM 490. Special Topics in Communication Studies. 3 Credits.

Permission of the instructor for nonmajors. A special topics course on a selected aspect of communication studies.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **COMM 499. The Dark Side of Interpersonal Communication. 3 Credits.**

The "dark side" of communication is a metaphor describing the study of disruptive, dysfunctional, distorted, distressing, and destructive aspects of communication. This course explores humanity's darker side that allows us to reject, exclude, stigmatize, exploit, objectify, misguide, lie, and cheat. The course examines various theoretical perspectives and applies them to everyday problems in interpersonal encounters. A sample of topics discussed include: prejudice, stigma, marginalization, bullying, ostracism, resistance, manipulation, conformity, deceit, gossip, rumors, infidelity, and revenge.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING, RESEARCH.

Making Connections Gen Ed: SS, CI, EE- Mentored Research.

Grading Status: Letter grade.

COMM 500. Visual and Material Rhetoric. 3 Credits.

This course explores the use of rhetorical criticism as a way to understand how the visual and material are used for symbolic and political purposes. Examples ranging from news images to public art will be studied.

Rules & Requirements

Requisites: Prerequisite, COMM 170 or permission of the instructor.

Grading Status: Letter grade.

COMM 521. Communication and Social Memory. 3 Credits.

Permission of the instructor for nonmajors. An investigation of psychological aspects of communication, particularly the perceptual and interpretive processes underlying the sending and receiving of messages.

Rules & Requirements

Grading Status: Letter grade.

COMM 523. Communication and Leadership. 3 Credits.

Critical examination of alternative theories of leadership and trends in the study of leadership; focuses on the communicative dimensions of leadership. Permission of the instructor for nonmajors.

Rules & Requirements

Requisites: Prerequisite, COMM 120 or COMM 170.

Grading Status: Letter grade.

 **COMM 524. Gender, Communication, and Culture. 3 Credits.**

Course examines the speeches and other texts that announced and embodied the goals and political strategies of multiple branches of three waves of feminist activism in the United States.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-POWER.

Requisites: Prerequisite, COMM 224; permission of the instructor for non-majors.

Grading Status: Letter grade.

Same as: WGST 524.

COMM 525. Organizational Communication. 3 Credits.

Permission of the instructor for nonmajors. Provides a critical exploration of organizational communication theory, research, and application, examining the factors involved in the functioning and analysis of complex organizations.

Rules & Requirements

Requisites: Prerequisites, COMM 120 and 325.

Grading Status: Letter grade.

 **COMM 526. Critical-Cultural Approaches to Organizational Communication. 3 Credits.**

The study of organizational culture operates on a set of assumptions distinct from traditional management perspectives. This course explores the cultural perspective as an alternative approach to understanding organizational communication processes.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-POWER.

Making Connections Gen Ed: SS.

Requisites: Prerequisite, COMM 325; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

 **COMM 527. Organizational Ethics. 3 Credits.**

A critical examination of the theory, research, and practice of organizational ethics.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Requisites: Prerequisite, COMM 325 or permission of instructor.

Grading Status: Letter grade.

COMM 532. Performing the Screenplay. 3 Credits.

Introduces students to approaches for creating performance from screenplays and other texts for electronic media forms, focusing on scripts as literature and the tensions between live and electronically delivered performances.

Rules & Requirements

Grading Status: Letter grade.

 **COMM 534. Aesthetic and Technical Considerations in Making Short Videos. 3 Credits.**

The course examines the aesthetic and technical elements at work and play in cinematic storytelling. The student is required to complete three projects and will gain hands-on experience in narrative filmmaking.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-CREATE.

Requisites: Prerequisite, COMM 230.

Grading Status: Letter grade.

COMM 535. Introduction to Screen Adaptation. 3 Credits.

Students practice the craft of screen adaptation by conceptualizing, outlining, and writing scenes based on material from another medium (both fiction and nonfiction). Work is presented, discussed, and performed in a workshop environment.

Rules & Requirements

Making Connections Gen Ed: CI.

Requisites: Prerequisite, COMM 131, 330, ENGL 130, or 132H.

Grading Status: Letter grade.

COMM 537. Master Screenwriting. 3 Credits.

Open only to students in the writing for the screen and stage minor. Students will write and workshop a full-length feature film screenplay. Students will learn about the film and television business through a combination of research, in-class discussions, and interactive interviews with industry insiders.

Rules & Requirements

Requisites: Prerequisite, COMM 433.

Grading Status: Letter grade.

COMM 549. Sexuality and Visual Culture. 3 Credits.

Examines questions about sexuality and how it has changed over time, through various media of visual communication.

Rules & Requirements

Grading Status: Letter grade.

 **COMM 561. Performance of Women of Color. 3 Credits.**

Explores through performance contemporary poetry, fiction, nonfiction, and feminist thought by women of color in the United States. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Requisites: Prerequisite, COMM 160 or COMM 260 or COMM 263.

Grading Status: Letter grade.

Same as: WGST 561.

 **COMM 562. Oral History and Performance. 3 Credits.**

This course combines readings and field work in oral history with the study of performance as a means of interpreting and conveying oral history texts. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-PERFORM.

Making Connections Gen Ed: EE- Performing Arts.

Grading Status: Letter grade.

Same as: FOLK 562, HIST 562, WGST 562.

COMM 564. Performance and Popular Culture. 3 Credits.

Critical examination of the operation of performance as a cultural phenomenon, with an emphasis on meaning, power, and resistance in cultural events, social practices, and media spectacles.

Rules & Requirements

Requisites: Prerequisite, COMM 160 or COMM 260 or COMM 263.

Grading Status: Letter grade.

COMM 568. Adapting and Directing for the Stage. 3 Credits.

This course introduces students to practices in adapting and directing literary texts for live ensemble performance. Students will create original performance work, engage in collaborative critique, and discuss the development of aesthetic value.

Rules & Requirements

Requisites: Prerequisite, COMM 160 or COMM 260 or COMM 263.

Grading Status: Letter grade.

COMM 571. Rhetorical Theory and Practice. 3 Credits.

Investigates the theoretical definitions and uses of rhetorical interpretation and action in spoken, written, visual, material practices, discourses, and events.

Rules & Requirements

Requisites: Prerequisite, COMM 170 or permission of the instructor.

Grading Status: Letter grade.

 **COMM 572. Public Policy Argument. 3 Credits.**

Analyzes argument in a variety of contexts with an emphasis on public policy and exploring tensions involved in addressing both expert and public audience in the political sphere.

Rules & Requirements

 **IDEAs in Action Gen Ed:** COMMBEYOND.

Requisites: Prerequisite, COMM 170.

Grading Status: Letter grade.

COMM 573. The American Experience in Rhetoric. 3 Credits.

Examines public discourse from the colonial period to the present. Discourses, critical perspectives, and historical periods studied will vary.

Rules & Requirements

Requisites: Prerequisite, COMM 170.

Grading Status: Letter grade.

COMM 574. War and Culture. 3 Credits.

Examines American cultural myths about war generally and specifically about the causes of war, enemies, weapons, and warriors, and the way these myths constrain foreign and defense policy, military strategy, and procurement.

Rules & Requirements

Grading Status: Letter grade.

Same as: PWAD 574.

COMM 575. Presidential Rhetoric. 3 Credits.

The power of the presidency depends in part upon the president's ability to rally public opinion, which depends upon the president's ability to use the "bully pulpit." This course examines the hurdles presidents face and the steps presidents take to shape opinion.

Rules & Requirements

Requisites: Prerequisite, COMM 170.

Grading Status: Letter grade.

Same as: PWAD 575.

COMM 576. Making and Manipulating "Race" in the United States. 3 Credits.

This course will examine how tropes of "race" are symbolically invented and experienced psychologically and emotionally. This course assesses how "race" reflects and shapes cultural politics.

Rules & Requirements

Making Connections Gen Ed: HS, US.

Grading Status: Letter grade.

COMM 577. Rhetoric and Black Culture. 3 Credits.

This course will explore the complex ways in which Black aesthetic forms and creative expression function as public discourse.

Rules & Requirements

Making Connections Gen Ed: SS, US.

Grading Status: Letter grade.

COMM 596. Advanced Independent Study/Directed Reading. 1-3 Credits.

Permission of the department. Majors only. 3.0 cumulative grade point average and 3.5 communication studies grade point average required. For the communication studies major who wishes to pursue an advanced independent research project under the supervision of a selected instructor. Intensive individual research on a problem designed by instructor and student in conference.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

COMM 600. Screenwriting: The Re-Write. 3 Credits.

This course is designed to take the completed feature screenplay written in COMM 537 and prepare the re-written final draft for production companies and agencies. It will begin with a complete structural review, character analysis, and dialog polish. A logline, synopsis and one sheet shall be developed. Critical analysis will be given, received, and addressed, resulting in a final screenplay package that is prepared to be submitted to professionals. Students must be in WSS program.

Rules & Requirements

Requisites: Prerequisite, COMM 537.

Grading Status: Letter grade.

COMM 620. Theories of Interpersonal Communication. 3 Credits.

Permission of the instructor for nonmajors. Course focuses on how communication is used to build and sustain interpersonal relationships. Forms and functions of communication are examined as a means of testing and defining relationships.

Rules & Requirements

Requisites: Prerequisite, COMM 120.

Grading Status: Letter grade.

COMM 624. Hate Speech. 3 Credits.

The primary focus of hate speech is on the ways that interactants manipulate hatred to accomplish a variety of social and personal goals. The pursuit of this focus will allow the student to appreciate the operation of hatred in a variety of contexts. Often taught as a service-learning course.

Rules & Requirements

IDEAs in Action Gen Ed: FC-POWER.

Grading Status: Letter grade.

COMM 625. Communication and Nonprofits in the Global Context. 3 Credits.

Introduces students to the opportunities, challenges, and rewards of participation within the nonprofit/NGO sector. The course also equips students with the skills needed to design and conduct engaged scholarship.

Rules & Requirements

IDEAs in Action Gen Ed: HI-SERVICE.

Making Connections Gen Ed: EE- Service Learning, EE- Mentored Research, GL.

Grading Status: Letter grade.

COMM 635. Documentary Production. 3 Credits.

A workshop in the production of video and/or film nonfiction or documentary projects. The course will focus on narrative, representational, and aesthetic strategies of documentary production.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE, RESEARCH.

Requisites: Prerequisite, COMM 230.

Grading Status: Letter grade.

COMM 636. Interactive Media. 3 Credits.

Explores interactive media through creative projects that include sound, video, and graphic elements. Technical information will serve the broader goal of understanding the aesthetics and critical issues of interactive media.

Rules & Requirements

Grading Status: Letter grade.

COMM 638. Game Design. 3 Credits.

Permission of the instructor for nonmajors. Studio course that explores gaming critically and aesthetically. Practice in game design and production including 3-D worlds and scripting.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: VP.

Requisites: Prerequisite, COMM 150.

Grading Status: Letter grade.

COMM 640. Game Studio. 3 Credits.

Game Studio is a project-based course in the new media track. This course is designed to provide a structured environment, instructor and peer feedback, along with technical and conceptual resources in which to complete a new media project. Students may work individually or on collaborative teams. The class focuses on idea development, design, and experimentation.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: VP.

Requisites: Prerequisite, COMM 638; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMM 642. Special Topics in Cultural Studies. 3 Credits.

Permission of the instructor for nonmajors. This course will explore various specific topics, theories, and methodologies in cultural studies.

Rules & Requirements

Requisites: Prerequisite, COMM 350.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **COMM 644. Documentary Production: First Person Filmmaking. 3 Credits.**

Students create documentaries emphasizing the filmmaker's personal perspective and experience: essay, diary, and autobiographical films, and pieces in which the filmmaker performs a role for expressive or political ends. Significant class time is devoted to work-shopping student films.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-PERFORM.

Making Connections Gen Ed: EE- Performing Arts.

Requisites: Prerequisite, COMM 230; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMM 645. The Documentary Idea. 3 Credits.

Historical and theoretical examination of expressions of the documentary idea in different eras and various modes including film, television, and radio. Permission of the instructor for nonmajors.

Rules & Requirements

Requisites: Prerequisite, COMM 140 or COMM 249.

Grading Status: Letter grade.

COMM 646. Introduction to the Art and Mechanics of Two-Dimensional Digital Animation. 3 Credits.

Students use Adobe After-Effects and Adobe Photoshop as their primary image software to create several original animations. Assignments are given weekly, and a substantial final project is expected.

Rules & Requirements

Requisites: Prerequisite, COMM 130 or 150; Grade of C or better required in COMM 130.

Grading Status: Letter grade.

 **COMM 647. Advanced Projects in Media Production. 3 Credits.**

Recommended preparation, several production courses above COMM 230. Course provides a structured environment, instructor and peer feedback, along with production and postproduction resources for completing advanced near-to-graduation media projects. Projects can be narrative, documentary, experimental, or interactive.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Making Connections Gen Ed: VP.

Requisites: Prerequisites, COMM 230 and one of COMM 534, 635, 646, 653, or 654.

Grading Status: Letter grade.

COMM 650. Cultural Politics of Global Media Economies. 3 Credits.

Primary subjects will be popular culture and media technology, and guiding questions will be organized around the relationships of each to commerce and/as social change.

Rules & Requirements

Making Connections Gen Ed: CI, GL.

Requisites: Prerequisite, COMM 140 or COMM 249; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMM 652. Media and Difference. 3 Credits.

This course examines critical and theoretical issues concerning the representation and study of various modes of difference, such as sexuality, race, and gender, in specific media texts. Permission of the instructor for nonmajors.

Rules & Requirements

Requisites: Prerequisite, COMM 140 or COMM 249.

Grading Status: Letter grade.

 **COMM 653. Experimental Video. 3 Credits.**

This course allows students to create video productions that play with forms that lie outside of mainstream media.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-CREATE.

Making Connections Gen Ed: VP.

Requisites: Prerequisite, COMM 230; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

 **COMM 654. Motion Graphics, Special Effects, and Compositing. 3 Credits.**

In this course students learn a wide range of video post production techniques working mostly with the application After Effects.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Requisites: Prerequisite, COMM 130 or 150; Grade of C or better in COMM 130; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMM 655. Television Culture. 3 Credits.

This course introduces students to critical television studies. The course emphasizes not television or culture as separate entities but instead "Television Culture." The focus of the class is on the interrelationship between television and contemporary culture.

Rules & Requirements

Requisites: Prerequisite, COMM 140 or COMM 249.

Grading Status: Letter grade.

 **COMM 656. Sound for Film and Video: Theory and Practice for Motion Picture Sound Design. 3 Credits.**

The aim of this course is to provide students who have an interest in film and video production with an understanding of the technical, conceptual, and aesthetic implications of the motion picture soundtrack, with a special emphasis on sound-image relationships. Students who have already developed a basic proficiency in the use of video cameras, audio recorders, and editing software will be asked to cultivate an understanding of and appreciation for the expressive and artistic possibilities.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-CREATE.

Requisites: Prerequisite, COMM 130.

Grading Status: Letter grade.

 **COMM 657. Movie Making Machines: Learning About Cinema in the Maker Space. 3 Credits.**

This projects-based seminar will introduce students to the fundamental optical and technological principles of motion pictures. By using the Maker Space to design and fabricate pinhole cameras, zoetropes, and 16mm film strips, students will gain a deep understanding of the material and technological foundations of the cinema, and the operating principles that are behind not only the classic films of Hollywood's past, but the high-definition digital imaging technologies of the present.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Requisites: Prerequisite, ARTS 105, 106, 209, or COMM 130; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: ARTS 657.

COMM 658. Surveillance Cultures. 3 Credits.

We live in surveillance societies. Just about every element of our lives is affected by surveillance: workplaces and schools, social media sites and mobile phone use, police encounters and security screening. Surveillance practices shape how institutions operate and how people see themselves and others. The goal of this course is to develop a critical awareness of surveillance and its implications for society.

Rules & Requirements

Grading Status: Letter grade.

COMM 660. Advanced Projects in Performance Studies. 3 Credits.

Course provides a workshop setting for the process of creation, dramaturgy, development, analysis, and critique of graduates' and undergraduates' original performance work, focusing on the needs of each project in progress.

Rules & Requirements

Requisites: Prerequisite, COMM 160 or COMM 260 or COMM 263.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **COMM 661. Race and Ethnicity. 3 Credits.**

Examines race and ethnicity in specific geopolitical contexts as discursive formations, performative identities, and lived realities. Studies disciplinary/political boundaries that are produced and maintained through acts of performance.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: GL.

Requisites: Prerequisite, COMM 160 or COMM 260 or COMM 263.

Grading Status: Letter grade.

 **COMM 662. Black/African Diaspora Performance. 3 Credits.**

Recommended preparation, COMM 160. Relying on critical race theories, colonial and postcolonial theories, and theories of performance, this course engages comparative discourses of Black/African diaspora citizenship through the literature, poetry, fiction, nonfiction, drama, and cultural performances of people of African descent, particularly in Africa, Europe, and the Americas.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP, GL.

Requisites: Prerequisite, COMM 160 or COMM 260 or COMM 263.

Grading Status: Letter grade.

 **COMM 665. Performance, Politics, and Culture. 3 Credits.**

This course is a arts-based inquiry into the ways in which performance and theatricality structure contemporary politics, culture, and everyday life, as well as the ways in which artists utilize performance as mode of political engagement.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-PERFORM.

Making Connections Gen Ed: EE- Performing Arts.

Requisites: Prerequisite, COMM 160, COMM 260, COMM 262, or COMM 263.

Grading Status: Letter grade.

 **COMM 666. Media in Performance. 3 Credits.**

Required preparation, one performance studies course above COMM 400. Permission of the instructor for students lacking the required preparation. Project-based class where students acquire skills and critical approaches to create collaborative, professional, multimedia works.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-PERFORM.

Making Connections Gen Ed: VP, EE- Performing Arts.

Grading Status: Letter grade.

Same as: DRAM 666.

COMM 667. Performance Activism. 3 Credits.

History and practice of performance in contemporary social movements. Practical exploration of direct action, guerilla theatre, and performance interventions.

Rules & Requirements

Requisites: Prerequisite, COMM 160 or COMM 260 or COMM 263.

Grading Status: Letter grade.

COMM 676. Digital Media and Live Performance. 3 Credits.

Permission of the instructor for undergraduates. Intended for students from various majors, this course provides a foundation in the history, theory, and practice of developing live, technologically-intensive, multimedia performance works. The course analyzes new media masterworks, addresses techniques of interdisciplinary collaboration, and offers workshops in specific software/technology applications.

Rules & Requirements

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

Same as: MUSC 676.

 **COMM 681. Contemporary Film Theory. 3 Credits.**

Overview of poststructuralist, or "contemporary" film theory. Traces its development, its techniques, fierce critiques lobbed at it since the early 1980s, and its points of continuing importance.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Requisites: Prerequisite, ARTH 159, COMM 140, or ENGL 142; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMM 682. History of the Moving Image: Pasts, Presents, Futures. 3 Credits.

Theories of moving images and imaging technologies—from the primitive to the not-yet-existing—that focus on their multifaceted relations with various registers of time, memory, flux, and futurity.

Rules & Requirements

Requisites: Prerequisite, ARTH 159, COMM 140, or ENGL 142; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMM 690. Advanced Topics in Communication Studies. 3 Credits.

Permission of the instructor for nonmajors. A special topics course on a selected aspect of communication studies. May be repeated. Honors version available.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **COMM 691H. Honors in Cultural Studies. 3 Credits.**

Permission of the instructor. Required of all senior honors candidates in cultural studies. First semester of senior honors thesis.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 **COMM 692H. Honors in Cultural Studies. 3 Credits.**

Permission of the instructor. Required of all senior honors candidates in cultural studies. Second semester of senior honors thesis.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 **COMM 693H. Honors. 3 Credits.**

Permission of the department. Majors only. Cumulative grade point average must meet University standard. Individual projects designed by students and supervised by a faculty member.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 **COMM 694H. Honors. 3 Credits.**

Permission of the department. Majors only. Cumulative grade point average must meet University standard. Individual projects designed by students and supervised by a faculty member.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

COMM 695. Field Methods. 3 Credits.

Recommended preparation, COMM 562 or 841. A bridge course designed to offer graduate students and advanced undergraduates a practicum in fieldwork methods and performance ethnography.

Rules & Requirements

Grading Status: Letter grade.

Communication Studies Major, B.A. Overview

The study of communication is essential for participating in an increasingly complex and mediated global environment. The Department of Communication's mission is to advance communication for the public good. Through its teaching, research, and service, the department addresses the many ways communication functions to create, sustain, and transform personal life, social relations, political institutions, economic organizations, and cultural and aesthetic conventions in society; promotes competencies required for various modes of mediated and non-mediated communication; and develops skills for analyzing, interpreting, and critiquing communication problems and questions.

The curriculum is designed to enable students to develop the capacities to be knowledgeable and responsible producers and consumers of communication through engagement, critique, and creativity. The programs of study offered by the department support a vision of citizen-scholars building a better North Carolina and world.

New Curriculum in 2024–2025

The new curriculum is intended to be more interdisciplinary, flexible, and student-centric. We are calling it a *pathways approach* to communication. We will continue to give students focused opportunities to engage with the department's core areas of expertise — interpersonal and organizational communication, media arts, media and technology studies, new media, performance studies, rhetoric, and writing for screen

and stage — but the new curriculum allows students to bring these areas together in new combinations.

The new curriculum offers students five pathways they can pursue:

1. Communication and Everyday Life
2. Media Arts, Performance, and Critical Practice
3. Media Technologies and Public Culture
4. Organization, Communication, and Work
5. Rhetoric, Activism, and Advocacy

Details about the curriculum can be found on the Requirements tab.

Student Learning Outcomes

- An understanding of the major theories that define the field of communication and the relevance of these theories to sub-areas of the field. To demonstrate accomplishment of this objective, students should be able to
 - identify and apply major theories of communication
 - discuss the implications of selected communication theories for practice
 - describe the relevance of appropriate communication theories to the students' chosen areas of focus and show how theories can be applied productively to those areas
- An understanding of appropriate research methods in the field of communication and the relevance of these methods to their sub-areas of the field. Specifically, students should demonstrate that they can
 - describe the fundamental procedures of research methods in communication
 - critically assess research procedures used in communication research
 - make a research argument
 - utilize research skills, including finding library and electronic sources, citing and documenting research materials, synthesizing and drawing conclusions from research, and organizing and presenting original research
 - describe how communication research methods may be used to answer research questions in the students' chosen areas of specialization.
- A critical approach to the consumption and creation of communication in a communication rich and democratic environment. Specifically, students should demonstrate that they can
 - analyze and evaluate the use and meaning of visual, audio, and other sensory information and the way it conveys information to a viewer, reader, or listener
 - exhibit competence in oral, verbal, and written communication skills
 - critique and engage in performative and mediated forms of communication in "real world" contexts
 - demonstrate knowledge of how communication practices may be used to transform and redefine specific communication situations (e.g., the use of communication strategies to resolve conflict in interpersonal, group, and organizational contexts).

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
Three courses from the following with a grade of C or better in each:		9
COMM 120	Introduction to Interpersonal and Organizational Communication ^H	
COMM 140	Introduction to Media History, Theory, and Criticism ^F	
COMM 160	Introduction to Performance Studies ^H	
COMM 170	Rhetoric and Public Issues	
Four COMM courses in a concentration (see descriptions below)		12
Three COMM electives		9
A minimum of 10 COMM courses, except for those students pursuing the new media option in the media and technology studies and production concentration described below		
Three COMM courses must be numbered 400 or higher.		
Total Hours		30

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

A maximum of 15 COMM courses (45 hours) may be applied toward the B.A. degree.

Students are invited to work closely with faculty members in courses and through independent study, cocurricular programs, and research projects. Many courses are also open to nonmajors whose personal and professional goals require an understanding of human communication (consult course descriptions for restrictions).

Communication Studies (COMM) course descriptions (p. 446).

Students should select one of the following concentrations and take a minimum of four courses within that concentration. Core courses do not count as one of the four required courses within the selected concentration. Additional courses that are not listed under any concentration may be used to meet major requirements.

Interpersonal and Organizational Communication

COMM 120/MNGT 120 is a prerequisite for most of the interpersonal and organizational communication courses; consult course descriptions.

Code	Title	Hours
COMM 312	Persuasion	3
COMM 390	Special Topics in Communication Study (based on topic)	3
COMM 411		3
COMM 422	 Family Communication ^H	3
COMM 423	Critical Perspectives on Work, Labor, and Professional Life	3
COMM 490	Special Topics in Communication Studies (based on topic)	3
COMM 499	 The Dark Side of Interpersonal Communication	3
COMM 500	Visual and Material Rhetoric	3
COMM 521	Communication and Social Memory	3
COMM 523	Communication and Leadership	3
COMM 525	Organizational Communication	3
COMM 526	 Critical-Cultural Approaches to Organizational Communication	3
COMM 527	 Organizational Ethics	3
COMM 610		3
COMM 620	Theories of Interpersonal Communication	3
COMM 624	 Hate Speech	3
COMM 625	 Communication and Nonprofits in the Global Context	3
COMM 690	Advanced Topics in Communication Studies (based on topic) ^H	3
COMM/MNGT 223	 Small Group Communication	3
COMM/MNGT 325	 Introduction to Organizational Communication ^H	3
COMM/WGST 224	Introduction to Gender and Communication ^H	3
COMM/WGST 524	 Gender, Communication, and Culture	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Media and Technology Studies and Production

COMM 140 is a prerequisite for most of the media studies courses; consult course descriptions.

Code	Title	Hours
COMM 130	 Introduction to Media Production	3
COMM 142	 Popular Music	3
COMM 150	 Introduction to New Media	3
COMM 230	Audio/Video/Film Production and Writing	3
COMM 249	Introduction to Communication Technology, Culture, and Society	3
COMM 251	Introduction to American Film and Culture, 1965-Present	3
COMM 330	Introduction to Writing for Film and Television	3

COMM 390	Special Topics in Communication Study (based on topic)	3
COMM 411		3
COMM 412	 Critical Theory	3
COMM 413		3
COMM 431	 Advanced Audio Production	3
COMM 432	Visual Culture	3
COMM 450	 Media and Popular Culture	3
COMM 452		3
COMM 453	 The History of New Media Technology in Everyday Life	3
COMM 454	Media and Activism	3
COMM 490	Special Topics in Communication Studies (based on topic)	3
COMM 534	 Aesthetic and Technical Considerations in Making Short Videos	3
COMM 545		3
COMM 546		3
COMM 547		3
COMM 548		3
COMM 549	Sexuality and Visual Culture	3
COMM 550		3
COMM 551		3
COMM 635	 Documentary Production	3
COMM 636	Interactive Media	3
COMM 638	 Game Design	3
COMM 645	The Documentary Idea	3
COMM 646	Introduction to the Art and Mechanics of Two-Dimensional Digital Animation	3
COMM 647	 Advanced Projects in Media Production	3
COMM 650	Cultural Politics of Global Media Economies	3
COMM 652	Media and Difference	3
COMM 653	 Experimental Video	3
COMM 654	 Motion Graphics, Special Effects, and Compositing	3
COMM 655	Television Culture	3
COMM 656	 Sound for Film and Video: Theory and Practice for Motion Picture Sound Design	3
COMM 681	 Contemporary Film Theory	3
COMM 682	History of the Moving Image: Pasts, Presents, Futures	3
COMM 683		3
COMM 690	Advanced Topics in Communication Studies (based on topic) ^H	3
COMM/WGST 345	 Gender and Film	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Please note that enrollment in advanced media and technology production classes is limited, and many production classes have prerequisites.

New Media

Students wishing to pursue the new media option in the media and technology studies and production concentration should consult the departmental advisor.

In addition to the preliminary core requirements (including COMM 140) above, students must take:

- COMM 150
- COMP 110
- two approved courses from the Department of Computer Science (COMP) (p. 467) or the School of Information and Library Science (INLS) (p. 99) (see recommendations below)
- three COMM classes above 400 selected from the following list:

Code	Title	Hours
COMM 431	 Advanced Audio Production	3
COMM 490	Special Topics in Communication Studies (based on topic, prior approval required)	3
COMM 636	Interactive Media	3
COMM 638	 Game Design	3
COMM 646	Introduction to the Art and Mechanics of Two-Dimensional Digital Animation	3
COMM 650	Cultural Politics of Global Media Economies	3
COMM 654	 Motion Graphics, Special Effects, and Compositing	3
COMM 690	Advanced Topics in Communication Studies (based on topic, prior approval required) ^H	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Recommended cross-disciplinary classes include:

Code	Title	Hours
COMP 180	 Enabling Technologies ^H	3
COMP 185	Serious Games ^H	3
INLS 151	 Retrieving and Analyzing Information	3
INLS 161	Tools for Information Literacy	3
INLS 201	 Foundations of Information Science	3
INLS 318	Human Computer Interaction	3
INLS 560	Programming for Information Science	3
INLS 572	Web Development I	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Performance Studies

COMM 160 is a prerequisite for most of the performance studies courses; consult course descriptions.

Code	Title	Hours
COMM 260	Introduction to Performance and Social Change	3
COMM 262	Introduction to the Performance of Culture ^H	3
COMM 263	 Performing Literature ^H	3
COMM 364		3
COMM 365		3
COMM 390	Special Topics in Communication Study (based on topic)	3
COMM 411		3
COMM 435	Memory Acts ^H	3
COMM 437	 United States Black Culture and Performance	3
COMM 463	Creating the Solo Performance	3
COMM 464	 Collaborative Performance ^H	3
COMM 466	 Advanced Study in Performing Literature	3
COMM 490	Special Topics in Communication Studies (based on topic)	3
COMM 532	Performing the Screenplay	3
COMM 564	Performance and Popular Culture	3
COMM 568	Adapting and Directing for the Stage	3
COMM 636	Interactive Media	3
COMM 660	Advanced Projects in Performance Studies	3
COMM 661	 Race and Ethnicity	3
COMM 662	 Black/African Diaspora Performance	3
COMM 665	 Performance, Politics, and Culture	3
COMM 667	Performance Activism	3
COMM 668		3
COMM 690	Advanced Topics in Communication Studies (based on topic) ^H	3
COMM 695	Field Methods	3
COMM/ASIA/RELI 386	Dance and Embodied Knowledge in the Indian Context	3
COMM/DRAM 666	 Media in Performance	3
COMM 362/ FOLK 565		3
COMM/FOLK/ HIST/WGST 562	 Oral History and Performance ^H	3
COMM/WGST 561	 Performance of Women of Color ^H	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Rhetorical Studies

COMM 170 is a prerequisite for most of the rhetorical studies courses; consult course descriptions.

Code	Title	Hours
COMM 171	Argumentation and Debate	3
COMM 312	Persuasion	3
COMM 371	Argumentation	3
COMM 372	The Rhetoric of Social Movements	3

COMM 374	The Southern Experience in Rhetoric	3
COMM 390	Special Topics in Communication Study (based on topic)	3
COMM 470	Political Communication and the Public Sphere	3
COMM 471	Rhetorics of Public Memory	3
COMM 472	Rhetorical Criticism	3
COMM 490	Special Topics in Communication Studies (based on topic)	3
COMM 500	Visual and Material Rhetoric	3
COMM 571	Rhetorical Theory and Practice	3
COMM 572	Public Policy Argument ^H	3
COMM 573	The American Experience in Rhetoric	3
COMM 575	Presidential Rhetoric	3
COMM 576	Making and Manipulating "Race" in the United States	3
COMM 577	Rhetoric and Black Culture	3
COMM 690	Advanced Topics in Communication Studies (based on topic) ^H	3
COMM/ENEC 375	Environmental Advocacy	3
COMM/PWAD 355	Terrorism and Political Violence	3
COMM/PWAD 376		3
COMM/PWAD 574	War and Culture	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Specialized Concentration in Communication Studies

Students may create their own concentrations by selecting at least four courses that constitute a coherent program of study. The courses selected in this concentration must be justified by the student and must be approved by the director of undergraduate studies.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Rhetorical Studies Concentration

First Year	Hours
First-Year Foundation Courses	
IDST 101 College Thriving	1
ENGL 105 English Composition and Rhetoric or ENGL 105I or English Composition and Rhetoric (Interdisciplinary)	3
First-Year Seminar or First-Year Launch (p. 1202) ^F	3
Triple-I and Data Literacy (p. 1210)	4

Global Language through level 3 (p. 1211)	varies
Major Courses	
COMM 120 Introduction to Interpersonal and Organizational Communication (core course #1) ^H	3
COMM 170 Rhetoric and Public Issues (core course #2)	3
Hours	17
Sophomore Year	
COMM 160 Introduction to Performance Studies (core course #3) ^H	3
COMM 171 Argumentation and Debate (concentration course #1)	3
COMM 312 Persuasion (concentration course #2)	3
Hours	9
Junior Year	
COMM 470 Political Communication and the Public Sphere (concentration course #3) ¹	3
COMM 573 The American Experience in Rhetoric (concentration course #4) ¹	3

COMM 390	Special Topics in Communication Study (concentration course #2)	3
COMM 450	 Media and Popular Culture (concentration course #3)	3
Hours		9
Senior Year		
COMM 453	 The History of New Media Technology in Everyday Life (concentration course #4)	3
COMM 372	The Rhetoric of Social Movements (elective course #2)	3
COMM 526	 Critical-Cultural Approaches to Organizational Communication (elective course #3)	3
Hours		9
Total Hours		41

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Special Opportunities in Communication Honors in Communication Studies

The department participates in the University's Honors Program. Students eligible for the program (see University requirements (p. 1277)) may consult with the departmental honors advisor about enrolling in COMM 693H and COMM 694H, or COMM 691H and COMM 692H for honors students in cultural studies. These courses can be used for elective credit in the major but not for satisfying core course or concentration requirements. Additional information can be found on the department website (<http://comm.unc.edu/undergraduate-studies/honors-thesis/>).

Independent Study

The opportunity for independent study is available through enrollment in COMM 396 or COMM 596. Interested students should consult a faculty advisor in the department. Please see the department website (<http://comm.unc.edu/undergraduate-studies/independent-study/>) for details.

Internships

The department has an extensive internship program (<http://comm.unc.edu/undergraduate-studies/internships/>) in media-related industries, business, public service, and other organizations. Internships allow students to explore the relationship between communication theory and its practice in everyday life. Credit can be obtained through consultation with the internship advisor and enrollment in COMM 393. More than 100 organizations have participated in the program. The department also offers the Hollywood Internship Program, a summer study and work opportunity for selected students interested in pursuing

careers in the film industry. Note: Internship credit counts as elective hours and does not count toward the 30 credit hours required for the major.

WUNC Radio and WUNC-TV

Limited opportunities exist for internships and employment with the public radio and television stations in Chapel Hill and in the Research Triangle Park.

Performance Opportunities

Students are involved in writing and adapting plays and screenplays, directing, and participating in staged productions for the public. Additionally, students often appear in regular performances sponsored by graduate students in the Department of Communication and in productions directed by faculty members.

Student Television (STV)

STV is a student-run video production operation that provides hands-on opportunities in a variety of programming assignments.

Carolina Film Association (CFA)

About

This association is committed to enabling students in developing their cinematic craft. It accomplishes its mission by offering resources and guidance to students pursuing cinematic projects through self-contained or episodic forms.

Study Abroad

Students may take coursework toward the major through the University's study abroad program. Departmental approval for major credit is required.

Undergraduate Awards

The department offers a number of awards for leadership and contributions to the field, in all areas of specialization. Awards are presented at a department ceremony in the spring semester.

Writing for the Screen and Stage Minor

The minor in writing for the screen and stage is a two-year interdisciplinary program housed in the Department of Communication that offers undergraduates from all departments the unique opportunity to focus specifically on the craft of dramatic writing. The minor is designed for students considering writing careers in theater, film, and television.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Candidates must be first-year or sophomore students with a 2.4 grade point average or better to begin the minor and must have taken one of the following prerequisite courses.

Code	Title	Hours
Prerequisite (select one):		
COMM 330	 Introduction to Writing for Film and Television ¹	3
DRAM 231	Playwriting I ²	3
ENGL 130	 Introduction to Fiction Writing ³	3
ENGL 132H	 First-Year Honors: Introduction to Fiction Writing ⁴	3

- ¹ Preference given to communication studies majors.
² Requires permission from the department.
³ Open to all students.
⁴ Restricted to honor students.

The prerequisite may be waived with the approval of the director of the minor.

An application is required for acceptance; please visit the Writing for Screen and Stage Minor's Web site (<http://comm.unc.edu/undergraduate-studies/writing-for-the-screen-and-stage-minor/>) to review this process. Continued participation in the minor is based on the student's work and the recommendation of the program's instructors.

Code	Title	Hours
Core Requirements ¹		
COMM/DRAM 131	Writing for the Screen and Stage ²	3

COMM 430	 History of American Screenwriting	3
COMM 433	Intermediate Screenwriting ²	3
COMM 537	Master Screenwriting ²	3
DRAM 120	 Play Analysis ^{H, F}	3
Total Hours		15

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

- ¹ Students must achieve a C grade or better in core requirements.
² COMM 131/DRAM 131, COMM 433, and COMM 537 must be taken in consecutive semesters beginning with the first semester of the minor.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The following sequence of courses is recommended:

Code	Title	Hours
Junior (or Sophomore) Year Fall Semester		
COMM/DRAM 131	Writing for the Screen and Stage	3
DRAM 120	 Play Analysis ^{H, F}	3
Junior (or Sophomore) Year Spring Semester		
COMM 430	 History of American Screenwriting	3
COMM 433	Intermediate Screenwriting	3
Senior (or Junior) Year Fall Semester		
COMM 537	Master Screenwriting	3

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

The following courses are recommended but are not required to complete the minor.

Code	Title	Hours
COMM 334	Writing the One-Hour TV Drama	3
COMM 335	 Film Story Analysis	3
COMM 337	 Visual Storytelling for Screenwriters	3
COMM 390	Special Topics in Communication Study (Writing the Full-Length Play)	3
COMM 535	Introduction to Screen Adaptation	3
COMM 600	Screenwriting: The Re-Write	3
DRAM 135	 Acting for Nonmajors	3

See the program pages in Communication (p. 464), Dramatic Art (p. 490), and English and Comparative Literature (<https://catalog.unc.edu/undergraduate/programs-study/english-major-ba/#opportunities>) for special opportunities.

Department of Computer Science

Introduction

The Department of Computer Science offers instruction and performs research in the essential areas of computer science. Majors receive rigorous training in the foundations of computer science and the relevant mathematics, then have ample opportunity to specialize in advanced courses.

Majors can receive credit for practical training as a computing professional through an internship with a company or organization in the computing or information technology fields. Internships typically are paid positions and involve the student working off campus. All internships for credit must be approved in advance. Students interested in pursuing such an internship must submit a learning contract prior to the start of the internship. See the department's website (<https://cs.unc.edu/undergraduate/learning-contracts/>) for additional information.

Majors who excel in the program also have the opportunity to perform undergraduate research in computer science. Students can receive credit for conducting research that can be applied to the upper division elective requirement for the major and/or may be used as a vehicle for graduating with department honors. Students interested in receiving credit for research must submit a learning contract prior to the start of the semester in which credit is earned. See the department's website (<https://cs.unc.edu/undergraduate/learning-contracts/>) for additional information.

Students with no prior programming experience should consider taking one of the introductory courses, COMP 110 or COMP 116. COMP 110 is intended for potential majors and COMP 116 for non-majors. Students with prior programming experience should begin their studies with COMP 210. COMP 380 and COMP 388 are philosophical and moral reasoning courses that have no programming prerequisite.

Advising

In addition to general advising through the Academic Advising Program (<https://advising.unc.edu/>), students can consult designated faculty members within the Department of Computer Science who act as departmental advisors for requirements specific to the department's degree programs. Beyond course selection, advisors are also available for discussing internships, study abroad in computer science, honors projects, and undergraduate research opportunities. See the department website (<https://cs.unc.edu/undergraduate/ug-advising/>) for a list of current department advisors and walk-in advising times.

Majors

- Computer Science Major, B.A. (p. 475)
- Computer Science Major, B.S. (p. 478)

Minor

- Computer Science Minor (p. 481)

Graduate Programs

- M.S. in Computer Science (<https://catalog.unc.edu/graduate/schools-departments/computer-science/>)
- Ph.D. in Computer Science (<https://catalog.unc.edu/graduate/schools-departments/computer-science/>)

Professors

Stan Ahalt, Ron Alterovitz, James Anderson, Mohit Bansal, Samarjit Chakraborty, Prasun Dewan, Henry Fuchs, Kevin Jeffay, Marc Niethammer, Stephen M. Pizer, Donald Porter, Jack Snoeyink, David Stotts.

Associate Professors

Jasleen Kaur, Ketan Mayer-Patel, Leonard McMillan, Shahriar Nirjon, Montek Singh, Cynthia Sturton.

Assistant Professors

Benjamin Berg, Gedas Bertasius, Praneeth Chakravarthula, Snigdha Chaturvedi, Parasara Sridhar Duggirala, Saba Eskandarian, Andrew Kwong, Junier Oliva, Roni Sengupta, Shashank Srivastava, Natalie Stanley, Daniel Szafir, Danielle Szafir, Huaxiu Yao.

Research Professors

Jay Aikat, Jan-Michael Frahm, Ashok Krishnamurthy, David Luebke, Dinesh Manocha, David A. Plaisted, Diane Pozefsky, Michael K. Reiter, F. Donelson Smith, Mary C. Whitton.

Research Associate Professors

Alexander C. Berg, Martin Styner.

Adjunct Professors

J. Steven Marron, Julian Rosenman, Dinggang Shen, P.S. Thiagarajan, Alexander Tropsha, Gregory F. Welch, Turner Whitted, Hongtu Zhu.

Adjunct Associate Professors

Jaime Arguello, Stephen Aylward, Tamara L. Berg, David Gotz, Pew-Thian Yap.

Adjunct Assistant Professors

Harlin Lee, Beatriz Paniagua, Quoc Tran-Dinh, Guorong Wu.

Adjunct Research Professor

Russell M. Taylor II.

Teaching Professor

Tessa Joseph-Nicholas.

Teaching Associate Professor

Sayed Ghani.

Teaching Assistant Professors

Alyssa Lytle, Connor McMahon, Brent Munsell, Jorge Silva, Kevin Sun.

Adjunct Teaching Assistant Professor

Jorge Silva.

Professors of the Practice

Kris Jordan.

Professors Emeriti

Gary Bishop, Peter Calingaert, John Halton, Anselmo Lastra, Ming C. Lin, John B. Smith, Donald F. Stanat, Stephen Weiss, William Wright.

COMP–Computer Science Undergraduate-level Courses

COMP 50. First-Year Seminar: Everyday Computing. 3 Credits.

The goal of this first-year seminar is to understand the use of computing technology in our daily activities. In this course, we will study various examples of how computing solves problems in different aspects in our daily life. Honors version available.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

COMP 60. First-Year Seminar: Robotics with LEGO®. 3 Credits.

This seminar explores the process of design and the nature of computers by designing, building, and programming LEGO robots. Competitions to evaluate various robots are generally held at the middle and at the end of the semester. Previous programming experience is not required. Honors version available.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

COMP 65. First-Year Seminar: Folding, from Paper to Proteins. 3 Credits.

Explore the art of origami, the science of protein, and the mathematics of robotics through lectures, discussions, and projects involving artistic folding, mathematical puzzles, scientific exploration, and research. Honors version available.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

COMP 80. First-Year Seminar: Enabling Technology--Computers Helping People. 3 Credits.

Service-learning course exploring issues around computers and people with disabilities. Students work with users and experts to develop ideas and content for new technologies. No previous computer experience required. Honors version available.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR, HI-SERVICE.

Making Connections Gen Ed: EE- Service Learning, US.

Grading Status: Letter grade.

COMP 85. First-Year Seminar: The Business of Games. 3 Credits.

This seminar will study the concepts associated with video gaming by having small teams design a game, build a prototype, and put together a business proposal for the game. Honors version available.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Grading Status: Letter grade.

COMP 89. First -Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.

Grading Status: Letter grade.

COMP 101. Fluency in Information Technology. 3 Credits.

The nature of computers, their capabilities, and limitations. How computers work, popular applications, problem-solving skills, algorithms and programming. Lectures and laboratory assignments. Students may not receive credit for this course after receiving credit for COMP 110 or higher.

Rules & Requirements

Making Connections Gen Ed: QR.

Requisites: Prerequisite, MATH 110 with a grade of C or better or MATH 130.

Grading Status: Letter grade.

COMP 110. Introduction to Programming and Data Science. 3 Credits.

Introduces students to programming and data science from a computational perspective. With an emphasis on modern applications in society, students gain experience with problem decomposition, algorithms for data analysis, abstraction design, and ethics in computing. No prior programming experience expected. Foundational concepts include data types, sequences, boolean logic, control flow, functions/methods, recursion, classes/objects, input/output, data organization, transformations, and visualizations. Students may not enroll in COMP 110 after receiving credit for COMP 210. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Making Connections Gen Ed: QR.

Requisites: Prerequisite, A C or better in one of the following courses: MATH 130, 152, 210, 231, 129P, or PHIL 155, or STOR 120, 151, 155.

Grading Status: Letter grade.

COMP 116. Introduction to Scientific Programming. 3 Credits.

An introduction to programming for computationally oriented scientists. Fundamental programming skills, typically using MATLAB or Python. Problem analysis and algorithm design with examples drawn from simple numerical and discrete problems.

Rules & Requirements

Making Connections Gen Ed: QR.

Requisites: Prerequisite, A grade of C or better in one of the following courses: MATH 130, 152, 210, 231, 129P, or PHIL 155, or STOR 120, 151, 155.

Grading Status: Letter grade.

COMP 126. Practical Web Design and Development for Everyone. 3 Credits.

A ground-up introduction to current principles, standards, and best practice in website design, usability, accessibility, development, and management through project-based skills development in HTML5, CSS, and basic JavaScript. Intended for nonmajors.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Grading Status: Letter grade.

COMP 180. Enabling Technologies. 3 Credits.

We will investigate ways computer technology can be used to mitigate the effects of disabilities and the sometimes surprising response of those we intended to help. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: HI-SERVICE.

Making Connections Gen Ed: EE- Service Learning.

Grading Status: Letter grade.

COMP 185. Serious Games. 3 Credits.

Concepts of computer game development and their application beyond entertainment to fields such as education, health, and business. Course includes team development of a game. Excludes COMP majors. Honors version available.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Grading Status: Letter grade.

COMP 190. Topics in Computing. 3 Credits.

Special topics in computing targeted primarily for students with no computer science background. This course has variable content and may be taken multiple times for credit. As the content will vary with each offering, there are no set requisites but permission from instructor is required.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

COMP 210. Data Structures and Analysis. 3 Credits.

This course will teach you how to organize the data used in computer programs so that manipulation of that data can be done efficiently on large problems and large data instances. Rather than learning to use the data structures found in the libraries of programming languages, you will be learning how those libraries are constructed, and why the items that are included in them are there (and why some are excluded).

Rules & Requirements

Requisites: Prerequisites, COMP 110 and MATH 231; a grade of C or better is required in both prerequisite courses ; Pre- or corequisite, COMP 283 or MATH 381 or STOR 315.

Grading Status: Letter grade.

COMP 211. Systems Fundamentals. 3 Credits.

This is the first course in the introductory systems sequence. Students enter the course having taken an introductory programming course in a high-level programming language (COMP 110) and a course in discrete structures. The overarching goal is to bridge the gap between a students' knowledge of a high-level programming language (COMP 110) and computer organization (COMP 311).

Rules & Requirements

Requisites: Prerequisite, COMP 210; COMP 283 or MATH 381 or STOR 315; a grade of C or better is required in both prerequisite courses.

Grading Status: Letter grade.

COMP 222. ACM Programming Competition Practice. 1 Credits.

Structured practice to develop and refine programming skills in preparation for the ACM programming competition.

Rules & Requirements

Grading Status: Letter grade.

COMP 227. Effective Peer Teaching in Computer Science. 3 Credits.

Fundamentals of computer science pedagogy and instructional practice with primary focus on training undergraduate learning assistants for computer science courses. Emphasis on awareness of social identity in learning, active learning in the computer science classroom, and effective mentorship. All students must be granted a computer science learning assistantship or obtain prior approval to substitute relevant practicum experience prior to enrollment.

Rules & Requirements

IDEAs in Action Gen Ed: HI-LEARNNTA.

Making Connections Gen Ed: EE - Undergraduate Learning Assistant, ULA.

Requisites: Pre- or corequisite, COMP 210 or 401.

Grading Status: Letter grade.

COMP 283. Discrete Structures. 3 Credits.

Introduces discrete structures (sets, tuples, relations, functions, graphs, trees) and the formal mathematics (logic, proof, induction) used to establish their properties and those of algorithms that work with them. Develops problem-solving skills through puzzles and applications central to computer science. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Requisites: Prerequisite, MATH 231 or MATH 241; a grade of C or better is required.

Grading Status: Letter grade.

COMP 290. Special Topics in Computer Science. 1 Credits.

Non-technical topics in computer science for computer science majors. May not be used to satisfy any degree requirements for a computer science major. This course has variable content and may be taken multiple times for credit.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade.

COMP 293. Internship in Computer Science. 3 Credits.

Computer science majors only. A signed learning contract is required before a student may register. Work experience in non-elementary computer science. Permission of instructor and director of undergraduate studies required.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Requisites: Prerequisites, MATH 231 or 241; COMP 210, COMP 211, and COMP 301; a grade of C or better is required in COMP 210, 211, and 301.

Grading Status: Pass/Fail.

COMP 301. Foundations of Programming. 3 Credits.

Students will learn how to reason about how their code is structured, identify whether a given structure is effective in a given context, and look at ways of organizing units of code that support larger programs. In a nutshell, the primary goal of the course is to equip students with tools and techniques that will help them not only in later courses in the major but also in their careers afterwards.

Rules & Requirements

Requisites: Prerequisite, COMP 210; COMP 283 or MATH 381 or STOR 315; a grade of C or better is required in both prerequisite courses.

Grading Status: Letter grade.

COMP 311. Computer Organization. 3 Credits.

Introduction to computer organization and design. Students will be introduced to the conceptual design of a basic microprocessor, along with assembly programming. The course includes fundamental concepts such as binary numbers, binary arithmetic, and representing information as well as instructions. Students learn to program in assembly (i.e., machine) language. The course covers the fundamentals of computer hardware design, transistors and logic gates, progressing through basic combinational and sequential components, culminating in the conceptual design CPU.

Rules & Requirements

Requisites: Prerequisite, COMP 211; a grade of C or better is required.

Grading Status: Letter grade.

COMP 325. How to Build a Software Startup. 3 Credits.

Explores real-world skills for successfully developing and launching a software startup in an experiential learning environment. Customer outreach and feedback, market analysis, business model development, agile product development, with mentors from the entrepreneurship community.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Grading Status: Letter grade.

COMP 380. Technology, Ethics, & Culture. 3 Credits.

This discussion-based, participatory course explores the personal, sociocultural, and ethical effects and implications of the development and use of computing technologies and the Internet. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-VALUES.

Making Connections Gen Ed: PH.

Grading Status: Letter grade.

COMP 388. Advanced Cyberculture Studies. 3 Credits.

Explores Internet history and cyberphilosophy; online identify construction, community, communication, creativity; bodies/cyborgs; intelligence and AI. Students perform independent research into and analyze virtual worlds, social media, anonymous bulletin boards, mobile media, and more, and create digital art and literature. Seminar-style; students collaborate on designing and leading class.

Rules & Requirements

Making Connections Gen Ed: PH.

Requisites: Prerequisite, COMP 380; a grade of C or better is required; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMP 390. Computer Science Elective Topics. 3 Credits.

Elective topics in computer science for computer science majors. May not be used to satisfy any degree requirements for a computer science major. This course has variable content and may be taken multiple times for credit.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

COMP 393. Software Engineering Practicum. 1-3 Credits.

Students develop a software program for a real client under the supervision of a faculty member. Projects may be proposed by the student but must have real users. Course is intended for students desiring practical experiences in software engineering but lacking the experience required for external opportunities. Majors only.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisites, COMP 211 and 301, or COMP 401, 410, and 411; a grade of C or better is required in all prerequisite courses.

Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**COMP 401. Foundation of Programming. 4 Credits.**

Required preparation, a first formal course in computer programming (e.g., COMP 110, COMP 116). Advanced programming: object-oriented design, classes, interfaces, packages, inheritance, delegation, observers, MVC (model view controller), exceptions, assertions. Students may not receive credit for this course after receiving credit for COMP 301. Honors version available.

Rules & Requirements

Making Connections Gen Ed: QR.

Requisites: Prerequisite, MATH 231 or MATH 241; a grade of C or better is required.

Grading Status: Letter grade.

COMP 410. Data Structures. 3 Credits.

The analysis of data structures and their associated algorithms. Abstract data types, lists, stacks, queues, trees, and graphs. Sorting, searching, hashing. Students may not receive credit for this course after receiving credit for COMP 210.

Rules & Requirements

Requisites: Prerequisites, MATH 231 or 241, and COMP 401; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 411. Computer Organization. 4 Credits.

Digital logic, circuit components. Data representation, computer architecture and implementation, assembly language programming. Students may not receive credit for this course after receiving credit for COMP 311.

Rules & Requirements

Requisites: Prerequisite, MATH 231 or 241, and COMP 401; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 421. Files and Databases. 3 Credits.

Placement of data on secondary storage. File organization. Database history, practice, major models, system structure and design. Previously offered as COMP 521.

Rules & Requirements

Requisites: Prerequisites, COMP 210, 211, and 301; or COMP 401, 410, and 411; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 426. Modern Web Programming. 3 Credits.

Developing applications for the World Wide Web including both client-side and server-side programming. Emphasis on Model-View-Controller architecture, AJAX, RESTful Web services, and database interaction.

Rules & Requirements

Requisites: Prerequisites, COMP 211 and 301; or COMP 401 and 410; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 431. Internet Services and Protocols. 3 Credits.

Application-level protocols HTTP, SMTP, FTP, transport protocols TCP and UDP, and the network-level protocol IP. Internet architecture, naming, addressing, routing, and DNS. Sockets programming. Physical-layer technologies. Ethernet, ATM, and wireless.

Rules & Requirements

Requisites: Prerequisites, COMP 210, 211, and 301; or COMP 401, 410, and 411; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 433. Mobile Computing Systems. 3 Credits.

Principles of mobile applications, mobile OS, mobile networks, and embedded sensor systems. Coursework includes programming assignments, reading from recent research literature, and a semester long project on a mobile computing platform (e.g., Android, Arduino, iOS, etc.).

Rules & Requirements

Requisites: Prerequisites, COMP 210, 211, and 301; or COMP 401, 410, and 411; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 435. Computer Security Concepts. 3 Credits.

Introduction to topics in computer security including confidentiality, integrity, availability, authentication policies, basic cryptography and cryptographic protocols, ethics, and privacy. A student may not receive credit for this course after receiving credit for COMP 535.

Rules & Requirements

Requisites: Prerequisites, COMP 210, 211, and 301; or COMP 401, 410, and 411; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 447. Quantum Computing. 3 Credits.

Recommended preparation, some knowledge of basic linear algebra. An introduction to quantum computing. Basic math and quantum mechanics necessary to understand the operation of quantum bits. Quantum gates, circuits, and algorithms, including Shor's algorithm for factoring and Grover's search algorithm. Entanglement and error correction. Quantum encryption, annealing, and simulation. Brief discussion of technologies.

Rules & Requirements

Requisites: Prerequisites, MATH 232, and PHYS 116 or 118.

Grading Status: Letter grade.

Same as: PHYS 447.

COMP 455. Models of Languages and Computation. 3 Credits.

Introduction to the theory of computation. Finite automata, regular languages, pushdown automata, context-free languages, and Turing machines. Undecidable problems.

Rules & Requirements

Requisites: Prerequisites, COMP 210 or 410 and COMP 283 or MATH 381 or STOR 315; a grade of C or better in all prerequisite courses is required.

Grading Status: Letter grade.

COMP 475. 2D Computer Graphics. 3 Credits.

Fundamentals of modern software 2D graphics; geometric primitives, scan conversion, clipping, transformations, compositing, texture sampling. Advanced topics may include gradients, antialiasing, filtering, parametric curves, and geometric stroking.

Rules & Requirements

Requisites: Prerequisites, COMP 210, 211, and 301; or COMP 401, 410, and 411; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 486. Applications of Natural Language Processing. 3 Credits.

Natural language processing (NLP) uses mathematics, machine learning, linguistics, and computer science to make language computationally accessible and analyzable. In this course, you will learn to do essential NLP tasks using Python and survey a selection of NLP applications to describe the problems or tasks each addresses, the materials and methods used, and how the applications are evaluated. At least a semester of Python or equivalent practical experience is highly recommended.

Rules & Requirements

Grading Status: Letter grade.

Same as: INLS 512.

COMP 487. Information Retrieval. 3 Credits.

Study of information retrieval and question answering techniques, including document classification, retrieval and evaluation techniques, handling of large data collections, and the use of feedback.

Rules & Requirements

Grading Status: Letter grade.

Same as: INLS 509.

COMP 488. Data Science in the Business World. 3 Credits.

Business and Computer Science students join forces in this course to create data-driven business insights. We transgress the data science pipeline using cloud computing, artificial intelligence, and real-world datasets. Students acquire hands-on skills in acquiring data, wrangling vast unstructured data, building advanced models, and telling compelling stories with data that managers can understand.

Rules & Requirements

Grading Status: Letter grade.

Same as: BUSI 488.

 **COMP 495. Mentored Research in Computer Science. 3 Credits.**

Independent research conducted under the direct mentorship of a computer science faculty member. If repeated, the repeated course can not be counted for the major. For computer science majors only. Permission of instructor required.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

COMP 496. Independent Study in Computer Science. 3 Credits.

Permission of the department. Computer science majors only. For advanced majors in computer science who wish to conduct an independent study or research project with a faculty supervisor. May be taken repeatedly for up to a total of six credit hours.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

COMP 520. Compilers. 3 Credits.

Design and construction of compilers. Theory and pragmatics of lexical, syntactic, and semantic analysis. Interpretation. Code generation for a modern architecture. Run-time environments. Includes a large compiler implementation project.

Rules & Requirements

Requisites: Prerequisites, COMP 301, 311, and 455 or COMP 410, 411, and 455; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

 **COMP 523. Software Engineering Laboratory. 4 Credits.**

Organization and scheduling of software engineering projects, structured programming, and design. Each team designs, codes, and debugs program components and synthesizes them into a tested, documented program product.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Making Connections Gen Ed: CI, EE- Mentored Research.

Requisites: Prerequisites, COMP 301 and 311; or COMP 401, 410, and 411; as well as at least two chosen from COMP 421, 426, 431, 433, 520, 530, 535, 575, 580, 590.

Grading Status: Letter grade.

COMP 524. Programming Language Concepts. 3 Credits.

Concepts of high-level programming and their realization in specific languages. Data types, scope, control structures, procedural abstraction, classes, concurrency. Run-time implementation.

Rules & Requirements

Requisites: Prerequisite, COMP 301 or COMP 401; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 530. Operating Systems. 3 Credits.

Types of operating systems. Concurrent programming. Management of storage, processes, devices. Scheduling, protection. Case study. Course includes a programming laboratory. Honors version available.

Rules & Requirements

Requisites: Prerequisites, COMP 301 and 311; or COMP 401, 410, and 411; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 533. Distributed Systems. 3 Credits.

Distributed systems and their goals; resource naming, synchronization of distributed processes; consistency and replication; fault tolerance; security and trust; distributed object-based systems; distributed file systems; distributed Web-based systems; and peer-to-peer systems.

Rules & Requirements

Requisites: Prerequisite, COMP 301; a grade of C or better is required.

Grading Status: Letter grade.

COMP 535. Introduction to Computer Security. 3 Credits.

Principles of securing the creation, storage, and transmission of data and ensuring its integrity, confidentiality and availability. Topics include access control, cryptography and cryptographic protocols, network security, and online privacy.

Rules & Requirements

Requisites: Prerequisites, COMP 301 and 311; or COMP 401, 410, and 411; as well as COMP 550, and COMP 283 or MATH 381 or STOR 315; a grade of C or better is required in all prerequisites.

Grading Status: Letter grade.

COMP 537. Cryptography. 3 Credits.

Introduces both the applied and theoretical sides of cryptography. Main focus will be on the inner workings of cryptographic primitives and how to use them correctly. Begins with standard cryptographic tools such as symmetric and public-key encryption, message authentication, key exchange, and digital signatures before moving on to more advanced topics. Potential advanced topics include elliptic curves, post-quantum cryptography, and zero-knowledge proofs. Honors version available.

Rules & Requirements

Requisites: Prerequisites, COMP 211 and COMP 301; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

COMP 541. Digital Logic and Computer Design. 4 Credits.

This course is an introduction to digital logic as well as the structure and electronic design of modern processors. Students will implement a working computer during the laboratory sessions.

Rules & Requirements

Requisites: Prerequisites, COMP 301 and 311; or COMP 401, 410, and 411; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 545. Programming Intelligent Physical Systems. 3 Credits.

Introduction to programming embedded control systems that lie at the heart of robots, drones, and autonomous vehicles. Topics will include modeling physical systems, designing feedback controllers, timing analysis of embedded systems and software, software implementations of controllers on distributed embedded platforms and their verification. Honors version available.

Rules & Requirements

Requisites: Prerequisites, COMP 301 and COMP 311; or COMP 411; a C or better is required in all pre-requisites.

Grading Status: Letter grade.

 **COMP 550. Algorithms and Analysis. 3 Credits.**

Formal specification and verification of programs. Techniques of algorithm analysis. Problem-solving paradigms. Survey of selected algorithms.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-QUANT.

Requisites: Prerequisites, COMP 211 and 301; or COMP 410; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 555. Bioalgorithms. 3 Credits.

Bioinformatics algorithms. Topics include DNA restriction mapping, finding regulatory motifs, genome rearrangements, sequence alignments, gene prediction, graph algorithms, DNA sequencing, protein sequencing, combinatorial pattern matching, approximate pattern matching, clustering and evolution, tree construction, Hidden Markov Models, randomized algorithms.

Rules & Requirements

Requisites: Prerequisites, COMP 210, and 211; or COMP 401, and 410; and MATH 231, or 241; or BIOL 452; or MATH 553; or BIOL 525; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

Same as: BCB 555.

COMP 560. Artificial Intelligence. 3 Credits.

Introduction to techniques and applications of modern artificial intelligence. Combinatorial search, probabilistic models and reasoning, and applications to natural language understanding, robotics, and computer vision.

Rules & Requirements

Requisites: Prerequisites, COMP 211 and 301; or COMP 401 and 410; as well as MATH 231; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 562. Introduction to Machine Learning. 3 Credits.

Machine learning as applied to speech recognition, tracking, collaborative filtering, and recommendation systems. Classification, regression, support vector machines, hidden Markov models, principal component analysis, and deep learning. Honors version available.

Rules & Requirements

Requisites: Prerequisites, COMP 211 and 301; or COMP 401 and 410; as well as MATH 233, 347, and STOR 435 or STOR 535 or BIOS 650; a grade of C or better is required in all prerequisite courses; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

COMP 572. Computational Photography. 3 Credits.

The course provides a hands on introduction to techniques in computational photography—the process of digitally recording light and then performing computational manipulations on those measurements to produce an image or other representation. The course includes an introduction to relevant concepts in computer vision and computer graphics.

Rules & Requirements

Requisites: Prerequisites, COMP 301; or COMP 401 and 410; as well as MATH 347 or 577; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 575. Introduction to Computer Graphics. 3 Credits.

Hardware, software, and algorithms for computer graphics. Scan conversion, 2-D and 3-D transformations, object hierarchies. Hidden surface removal, clipping, shading, and antialiasing. Not for graduate computer science credit.

Rules & Requirements

Requisites: Prerequisites, COMP 301 and 311; or COMP 401, 410 and 411; as well as MATH 347 or MATH 577; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 576. Mathematics for Image Computing. 3 Credits.

Mathematics relevant to image processing and analysis using real image computing objectives and provided by computer implementations.

Rules & Requirements

Requisites: Prerequisites, COMP 116 or 210 or 401, and MATH 233; a grade of C or better is required in all prerequisites.

Grading Status: Letter grade.

Same as: BMME 576.

COMP 580. Enabling Technologies. 3 Credits.

We will investigate ways computer technology can be used to mitigate the effects of disabilities and the sometimes surprising response of those we intended to help.

Rules & Requirements

IDEAs in Action Gen Ed: HI-SERVICE.

Making Connections Gen Ed: EE- Service Learning.

Requisites: Prerequisites, COMP 211 and 301; or COMP 401 and 410; a grade of C or better is required in all prerequisites.

Grading Status: Letter grade.

COMP 581. Introduction to Robotics. 3 Credits.

Hands-on introduction to robotics with a focus on the computational aspects. Students will build and program mobile robots. Topics include kinematics, actuation, sensing, configuration spaces, control, and motion planning. Applications include industrial, mobile, personal, and medical robots. Honors version available.

Rules & Requirements

Requisites: Prerequisites, COMP 301 and 311; or COMP 401, 410, and 411; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 585. Serious Games. 3 Credits.

Concepts of computer game development and their application beyond entertainment to fields such as education, health, and business. Course includes team development of a game. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisites, COMP 301 and 311; or COMP 401, 410, and 411; as well as at least two chosen from COMP 421, 426, 431, 433, 520, 523, 530, 535, 575; a grade of C or better in all prerequisite courses.

Grading Status: Letter grade.

COMP 586. Natural Language Processing. 3 Credits.

Through this course, students will develop an understanding of the general field of Natural Language Processing with an emphasis on state-of-the-art solutions for classic NLP problems. Topics include: text representation and classification, parts-of-speech tagging, parsing, translation, and language modeling.

Rules & Requirements

Requisites: Prerequisites, COMP 301, COMP 311, and COMP 562 or COMP 755 or STOR 565 or equivalent machine learning course; a grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 590. Topics in Computer Science. 3 Credits.

This course has variable content and may be taken multiple times for credit. Different sections may be taken in the same semester. Honors version available.

Rules & Requirements

Requisites: Prerequisites, COMP 211 and COMP 301.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

COMP 630. Operating System Implementation. 3 Credits.

Students will learn how to write OS kernel code in C and a small amount of assembly. Students will implement major components of the OS kernel, such as page tables, scheduling, and program loading.

Rules & Requirements

Requisites: Prerequisite, COMP 530; a grade of B+ or better is required; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMP 631. Networked and Distributed Systems. 3 Credits.

Topics in designing global-scale computer networks (link layer, switching, IP, TCP, congestion control) and large-scale distributed systems (data centers, distributed hash tables, peer-to-peer infrastructures, name systems).

Rules & Requirements

Requisites: Prerequisites, COMP 431 and COMP 530; a grade of C or better is required in all prerequisite courses; Permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

COMP 633. Parallel and Distributed Computing. 3 Credits.

Required preparation, a first course in operating systems and a first course in algorithms (e.g., COMP 530 and 550). Principles and practices of parallel and distributed computing. Models of computation. Concurrent programming languages and systems. Architectures. Algorithms and applications. Practicum.

Rules & Requirements

Grading Status: Letter grade.

COMP 635. Wireless and Mobile Communications. 3 Credits.

This course builds an understanding of the core issues encountered in the design of wireless (vs. wired) networks. It also exposes students to fairly recent paradigms in wireless communication.

Rules & Requirements

Requisites: Prerequisite, COMP 431.

Grading Status: Letter grade.

COMP 636. Distributed Collaborative Systems. 3 Credits.

Design and implementation of distributed collaborative systems. Collaborative architectures, consistency of replicated objects, collaborative user-interfaces, application and system taxonomies, application-level multicast, performance, causality, operation transformation, and concurrency and access control.

Rules & Requirements

Requisites: Prerequisite, COMP 431 or 530; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

COMP 651. Computational Geometry. 3 Credits.

Required preparation, a first course in algorithms (e.g., COMP 550). Design and analysis of algorithms and data structures for geometric problems. Applications in graphics, CAD/CAM, robotics, GIS, and molecular biology.

Rules & Requirements

Requisites: Prerequisite, COMP 550.

Grading Status: Letter grade.

COMP 662. Scientific Computation II. 3 Credits.

Theory and practical issues arising in linear algebra problems derived from physical applications, e.g., discretization of ODEs and PDEs. Linear systems, linear least squares, eigenvalue problems, singular value decomposition.

Rules & Requirements

Requisites: Prerequisite, MATH 661.

Grading Status: Letter grade.

Same as: MATH 662, ENVR 662.

COMP 664. Deep Learning. 3 Credits.

Introduction to the field of deep learning and its applications. Basics of building and optimizing neural networks, including model architectures and training schemes.

Rules & Requirements

Requisites: Prerequisites, COMP 562, COMP 755, or STOR 565 and MATH 201, 347, or 577 and MATH 233 or 522; permission of the instructor for student lacking the prerequisites.

Grading Status: Letter grade.

COMP 665. Images, Graphics, and Vision. 3 Credits.

Required preparation, a first course in data structures and a first course in discrete mathematics (e.g., COMP 410 and MATH 383). Display devices and procedures. Scan conversion. Matrix algebra supporting viewing transformations in computer graphics. Basic differential geometry. Coordinate systems, Fourier analysis, FDFT algorithm. Human visual system, psychophysics, scale in vision.

Rules & Requirements

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

COMP 672. Simulation Modeling and Analysis. 3 Credits.

Introduces students to modeling, programming, and statistical analysis applicable to computer simulations. Emphasizes statistical analysis of simulation output for decision-making. Focuses on discrete-event simulations and discusses other simulation methodologies such as Monte Carlo and agent-based simulations. Students model, program, and run simulations using specialized software. Familiarity with computer programming recommended.

Rules & Requirements

Requisites: Prerequisites, STOR 555 and 641.

Grading Status: Letter grade.

Same as: STOR 672.

COMP 683. Computational Biology. 3 Credits.

Algorithms and data mining techniques used in modern biomedical data science and single-cell bioinformatics. Graph signal processing, graph diffusion, clustering, multimodal data integration.

Rules & Requirements

Requisites: Prerequisite, MATH 577 or MATH 347; COMP 562 or STOR 520 or STOR 565; grade of C or better is required in all prerequisite courses.

Grading Status: Letter grade.

COMP 690. Special Topics in Computer Science. 1-4 Credits.

This course has variable content and may be taken multiple times for credit. COMP 690 courses do not count toward the major or minor.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 2 total completions.

Grading Status: Letter grade.

 **COMP 691H. Honors Thesis in Computer Science. 3 Credits.**

For computer science majors only and by permission of the department. Individual student research for students pursuing an honors thesis in computer science under the supervision of a departmental faculty adviser.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

COMP 692H. Honors Thesis in Computer Science. 3 Credits.

Permission of the department. Required of all students in the honors program in computer science. The construction of a written honors thesis and an oral public presentation of the thesis are required.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

Computer Science Major, B.A.

The bachelor of arts degree with a major in computer science will prepare students for a career in either a traditional computing field or a field in which computing is a significant enabling technology. The B.A. degree is the preferred degree for those who wish more flexibility in their program of study.

Admission to the Major

The demand for concentrating in a computer science program has grown significantly at UNC–Chapel Hill over the past decade. In order to maintain the quality of educational experiences that Carolina students studying computer science deserve, we must restrict the number of students majoring in computer science relative to our faculty size's ability to sustain the programs.

Those wishing to concentrate in computer science must be admitted to a major program (B.A. or B.S.). Students are eligible to apply in the spring semester after completing or while currently enrolled in COMP 210. Students who are admitted to the program continue through the introductory course sequence with COMP 301 and COMP 211 and will have access to upper-division electives to complete their degree programs. Please see the department's website (<https://cs.unc.edu/undergraduate/cs-admissions/>) for the most up-to-date information about the admission to the major process.

Student Learning Outcomes

Upon completion of the computer science program (B.A.), students should be able to:

- Understand major concepts, theoretical perspectives, empirical findings, and historical trends in the core of computer science

- Gain employment in highly competitive industries and companies and be successful in those positions
- Use critical and creative thinking skills in their approach to analyzing and solving computational problems
- Apply their knowledge in the completion of a significant real-world experience

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
COMP 210	Data Structures and Analysis ¹	3
COMP 211	Systems Fundamentals ¹	3
COMP 301	Foundations of Programming ¹	3
COMP 311	Computer Organization ¹	3
COMP 283	 Discrete Structures ^{1, H}	3
or MATH 381	Discrete Mathematics	
or STOR 315	 Discrete Mathematics for Data Science	
Two additional COMP elective courses numbered 420 or higher (at least three credits each) ²		6
Four additional elective courses chosen from the following, with no more than two courses from other departments:		12
COMP courses numbered 420 - 599 (excluding COMP 496)		
Graduate level courses (600 or higher) excluding COMP 690, COMP 692H, and COMP 790 ³		
BIOL 525	Analysis and Interpretation of Sequence-Based Functional Genomics Experiments	
BIOL 554	Introduction to Computational Neuroscience	
BIOS 512	Data Science Basics	
BIOS 611	Introduction to Data Science	
BIOS 635	Introduction to Machine Learning	
ECON 525	 Advanced Financial Economics	
ECON 573	 Machine Learning and Econometrics	
INLS 318	Human Computer Interaction	
INLS 418	Human Factors in System Design	
INLS 509	Information Retrieval	
INLS 512	Applications of Natural Language Processing	
INLS 523	Introduction to Database Concepts and Applications	
INLS 609	Experimental Information Retrieval	
INLS 613	Text Mining	
INLS 623	Database Systems II: Intermediate Databases	

INLS 672	Web Development II	
INLS 718	User Interface Design	
LING 401	Language and Computers	
LING 540	Mathematical Linguistics	
MATH 566	Introduction to Numerical Analysis	
MATH/ENVR 661	Scientific Computation I	
PHYS 231	Physical Computing ^H	
PHYS 331	Numerical Techniques for the Sciences I	
PSYC 559	Applied Machine Learning in Psychology	
STOR 520	Statistical Computing for Data Science	
STOR 565	Machine Learning	
STOR 566	Introduction to Deep Learning	
Other courses must be approved by the director of undergraduate studies and must have a significant computer or computing technology component.		
Additional Requirements		
MATH 231	Calculus of Functions of One Variable I (A grade of C or better is required) ^{1, H, F}	4
STOR 155	Introduction to Data Models and Inference ^{4, F}	3
or STOR 435	Introduction to Probability	
or STOR 535	Probability for Data Science	
or PSYC 210	Statistical Principles of Psychological Research	
or EMES 520	Data Analysis for Earth and Marine Sciences	
or BIOS 650	Basic Elements of Probability and Statistical Inference I	
B.A. majors in computer science must fulfill all General Education requirements, including the Supplemental General Education requirement.		
Total Hours		40

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A grade of C or better is required in each of COMP 283 (or MATH 381), COMP 210, COMP 211, COMP 301, COMP 311, and MATH 231.

² Excluding COMP 496, COMP 690, and COMP 692H

³ COMP 790 courses are general seminar courses that are not appropriate for this requirement and may only be counted with the approval of the director of undergraduate studies.

⁴ PSYC 210 requires PSYC 101 as a prerequisite. Both STOR 435 and STOR 535 require MATH 233 as a prerequisite.

Computer science (COMP) course descriptions (p. 467).

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree

completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The following is a suggested four-year plan of study for B.A. majors.

First Year		Hours
First-Year Foundation Courses		
IDST 101	College Thriving	1
ENGL 105	English Composition and Rhetoric	3
or ENGL 105I	or English Composition and Rhetoric (Interdisciplinary)	
First-Year Seminar or First-Year Launch (p. 1202) ^F		3
Triple-I and Data Literacy (p. 1210)		4
Global Language through level 3 (p. 1211)		varies
Major Courses		
COMP 110	Introduction to Programming and Data Science (if needed) ^H	3
COMP 283	Discrete Structures ^H	3
or MATH 381	or Discrete Mathematics	
or STOR 315	or Discrete Mathematics for Data Science	
COMP 210	Data Structures and Analysis	3
MATH 231	Calculus of Functions of One Variable I (fulfills FC-QUANT) ^{H, F}	4
Additional Courses		
Lifetime Fitness (p. 1269)		1
Electives or IDEAs in Action Requirements		5
Hours		30
Sophomore Year		
COMP 211	Systems Fundamentals	3
COMP 301	Foundations of Programming	3
COMP 311	Computer Organization	3
An appropriate physical and life sciences IDEAs in Action course		4
Two additional IDEAs in Action courses		6
Free elective		11
Hours		30
Junior Year		
STOR 155	Introduction to Data Models and Inference ^F	3
Three upper division COMP electives or approved non-COMP electives		9
Four additional IDEAs in Action courses		12
Two supplemental General Education courses		6
Hours		30
Senior Year		
Three COMP courses numbered 420 or higher		9
One Supplemental General Education course		3

IDEAs in Action and free elective courses	18
Hours	30
Total Hours	120

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Notes on the Suggested Plan of Study

A first formal course in computer programming (such as COMP 110) is a prerequisite for COMP 210. Students with no programming experience should begin their program of study with COMP 110. Students who are unsure if their background preparation enables them to begin their studies with COMP 210 are encouraged to consult a departmental advisor. Placement exams for COMP 110 and COMP 210 may be available, please consult the department's website.

Students are required to apply for the major in the Spring semester after taking COMP 210. The plan of study reflects applying at the end of the first year and presumes acceptance into the program. Students who take COMP 210 in their sophomore year would apply at the end of their sophomore year. In this case, COMP 211, COMP 301, and all subsequent upper division electives would move to the junior and senior years; and electives and general education courses would come forward.

This plan of study further assumes that students will place out of Global Language 1. If this is not the case, then the student should start with Global Language 1 (and have one fewer free elective in the senior year).

Special Opportunities in Computer Science

Honors in Computer Science

Students are eligible for graduation with honors if they complete the following requirements:

- A cumulative grade point average of 3.3 or better
- A grade point average of 3.3 or better from among the set of COMP, MATH, PHYS, and STOR courses taken to fulfill the graduation requirements for the major
- Graduation with honors requires the completion of two semesters of research (COMP 691H and COMP 692H). As part of COMP 692H, students must submit a written honors thesis and complete an oral public presentation of the thesis. Graduation with highest honors in computer science is possible for those students whose honors project and thesis are judged by a faculty committee to be particularly distinguished.

Students interested in pursuing honors in computer science are encouraged to contact the director of undergraduate studies.

High-Impact Experiences

Courses arranged in advance with a supervising faculty member offer a number of high-impact experiences. These courses include:

- COMP 227, earning credit for serving as an undergraduate learning assistant;
- COMP 293, earning credit for appropriate work experience;
- COMP 495, conducting mentored research with a faculty member;
- and study abroad while earning credit that counts toward the major (see below).

Assistantships and Internships

In addition to their classroom experiences, undergraduates may enhance their learning experience as research assistants or learning assistants. Students also can participate in nationally recognized research programs or use the department's facilities to pursue self-directed research with a faculty member.

Work-study students can gain valuable work experience as assistants on the department's computer services staff or on development or research activities with faculty. The department also encourages students to pursue internship experiences. Carolina's proximity to Research Triangle Park means that computer science majors have many internship and postgraduation opportunities available in their own backyard.

Study Abroad

Study abroad opportunities with priority for computer science students are offered through a number of international institutions including the National University of Singapore (NUS) School of Computing, Lancaster University, Trinity University–Dublin, University of New South Wales, and Seoul National University. Study abroad at NUS is eligible for the Phillips Ambassadors Scholarship. Please see the Phillips Ambassadors website (<http://phillips.unc.edu>) for more information. Availability of these programs may vary and additional programs may be available. Application for study abroad is through the University's Study Abroad Office.

Study abroad satisfies the experiential education General Education requirement of the undergraduate curriculum. Up to two computer science courses taken at these institutions may be counted toward the major as computer science electives beyond the introductory sequence. Specific course equivalencies for some programs are posted on the department's website (<https://cs.unc.edu/>). Students interested in taking a course not listed should contact the director of undergraduate studies before registering for courses at the school.

Undergraduate Awards

The department awards two yearly prizes to computer science majors. In conjunction with SAS Institute, the department annually presents the Charles H. Dunham Scholarship. The Dunham scholarship includes a scholarship and a summer internship at SAS and is awarded in the fall semester to a student in their junior year. The department also annually presents the Stephen F. Weiss Award for Outstanding Achievement in Computer Science, which includes a cash prize. The Weiss award is presented to a student in the spring of their senior year.

Computer Science Major, B.S.

The bachelor of science with a major in computer science is the preferred degree both for graduate study in computer science and for technical careers in software development, computational science, networking, information systems, and electronic commerce. Graduates of the program are well-suited for professional employment in traditional computer and communications industries, as well as in such diverse industries as financial services and consulting practices in which computing and information management are central to the operation of the enterprise. Students who desire a more in-depth knowledge of computing have the option of receiving a bachelor's degree and a master's degree in as few as five years.

Admission to the Major

The demand for concentrating in a computer science program has grown significantly at UNC–Chapel Hill over the past decade. In order to maintain the quality of educational experiences Carolina students studying computer science deserve, we must restrict the number of students majoring in computer science relative to our faculty size's ability to sustain the programs.

Those wishing to concentrate in computer science must be admitted to a major program (B.A. or B.S.). Students are eligible to apply in the spring semester after completing or while currently enrolled in COMP 210. Students who are admitted to the program continue through the introductory course sequence with COMP 301 and COMP 211 and will have access to upper-division electives to complete their degree programs. Please see the department's website (<https://cs.unc.edu/undergraduate/cs-admissions/>) for the most up-to-date information about the admission to the major process.

Student Learning Outcomes

Upon completion of the computer science program (B.S.), students should be able to:

- Understand major concepts, theoretical perspectives, empirical findings, and historical trends in the core of computer science
- Gain technical employment in computing or related fields, or gain admission to high-quality graduate programs, either in computing or related professions
- Use critical and creative thinking skills in their approach to analyzing and solving computational problems
- Apply their knowledge, research skills, and critical thinking in the completion of a significant research project

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Total Hours		120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Notes on the Suggested Plan of Study

A first formal course in computer programming (such as COMP 110) or equivalent experience is a prerequisite for COMP 210. Students with no programming experience should begin their program of study with COMP 110. Students who are unsure if their background preparation enables them to begin their studies with COMP 210 are encouraged to consult a departmental advisor. Placement exams for COMP 110 and COMP 210 may be available, please consult the department's website.

Students are required to apply for the major in the Spring semester after taking COMP 210. The plan of study reflects applying at the end of the first year and presumes acceptance into the program. Students who take COMP 210 in their sophomore year would apply at the end of their sophomore year. In this case, COMP 211, COMP 301, COMP 550 and all subsequent upper division electives would move to the junior and senior years; and electives and general education courses would come forward.

This plan of study further assumes that students will place out of Global Language 1. If this is not the case, then the student should start with Global Language 1 (and have one fewer free elective).

Special Opportunities in Computer Science

Honors in Computer Science

Students are eligible for graduation with honors if they complete the following requirements:

- A cumulative grade point average of 3.3 or better
- A grade point average of 3.3 or better from among the set of COMP, MATH, PHYS, and STOR courses taken to fulfill the graduation requirements for the major
- Graduation with honors requires the completion of two semesters of research (COMP 691H and COMP 692H). As part of COMP 692H, students must submit a written honors thesis and complete an oral public presentation of the thesis. Graduation with highest honors in computer science is possible for those students whose honors project and thesis are judged by a faculty committee to be particularly distinguished.

Students interested in pursuing honors in computer science are encouraged to contact the director of undergraduate studies.

High-Impact Experiences

Courses arranged in advance with a supervising faculty member offer a number of high-impact experiences. These courses include:

- COMP 227, earning credit for serving as an undergraduate learning assistant;
- COMP 293, earning credit for appropriate work experience;
- COMP 495, conducting mentored research with a faculty member;
- and study abroad while earning credit that counts toward the major (see below).

Assistantships and Internships

In addition to their classroom experiences, undergraduates may enhance their learning experience as research assistants or learning assistants. Students also can participate in nationally recognized research programs or use the department's facilities to pursue self-directed research with a faculty member.

Work-study students can gain valuable work experience as assistants on the department's computer services staff or on development or research activities with faculty. The department also encourages students to pursue internship experiences. Carolina's proximity to Research Triangle Park means that computer science majors have many internship and postgraduation opportunities available in their own backyard.

Study Abroad

Study abroad opportunities with priority for computer science students are offered through a number of international institutions including the National University of Singapore (NUS) School of Computing, Lancaster University, Trinity University–Dublin, University of New South Wales, and Seoul National University. Study abroad at NUS is eligible for the Phillips Ambassadors Scholarship. Please see the Phillips Ambassadors website (<http://phillips.unc.edu>) for more information. Availability of these programs may vary and additional programs may be available. Application for study abroad is through the University's Study Abroad Office.

Study abroad satisfies the experiential education General Education requirement of the undergraduate curriculum. Up to two computer science courses taken at these institutions may be counted toward the major as computer science electives beyond the introductory sequence. Specific course equivalencies for some programs are posted on the department's website (<https://cs.unc.edu/>). Students interested in taking a course not listed should contact the director of undergraduate studies before registering for courses at the school.

Undergraduate Awards

The department awards two yearly prizes to computer science majors. In conjunction with SAS Institute, the department annually presents the Charles H. Dunham Scholarship. The Dunham scholarship includes a scholarship and a summer internship at SAS and is awarded in the fall semester to a student in their junior year. The department also annually presents the Stephen F. Weiss Award for Outstanding Achievement in Computer Science, which includes a cash prize. The Weiss award is presented to a student in the spring of their senior year.

Dual Bachelor's–Master's Degree Program

Students in the B.S. degree program with a GPA of 3.2 or better after five or more semesters of study have the option of applying to the dual B.S.–M.S. program at UNC–Chapel Hill to pursue graduate coursework leading to the degree of master of science. Such students must complete the requirements for the bachelor of science degree within eight semesters. Upon completion of the B.S. degree, students then enroll as a graduate student to continue work towards the master of science degree.

The requirements for the master of science degree can be found in the *Graduate Catalog*. Generally, the master's degree requires 30 additional hours of computer science coursework. Up to nine credit hours of computer science coursework taken while an undergraduate can be applied to the master's degree if the coursework is not also used to satisfy the graduation requirements for the bachelor's degree. The

requirements for the master's can be completed in as few as two additional semesters, for a total of 10 semesters of study.

Students interested in the dual-degree program should have completed (or be on track to complete) seven computer science courses at the 400 level or higher by the end of their sixth semester. Students must formally apply for admission to the combined B.S.–M.S. program, and it is expected that the application process would take place in the student's sixth semester. Students applying in their sixth semester of study will be notified of the outcome of their application by the end of their sixth semester.

Students interested in the dual-degree program are strongly advised to consult the director of undergraduate studies in the Department of Computer Science in their sophomore year to discuss eligibility and an appropriate plan of study.

Department Programs

Majors

- Computer Science Major, B.A. (p. 475)
- Computer Science Major, B.S. (p. 478)

Minor

- Computer Science Minor (p. 481)

Graduate Programs

- M.S. in Computer Science (<https://catalog.unc.edu/graduate/schools-departments/computer-science/>)
- Ph.D. in Computer Science (<https://catalog.unc.edu/graduate/schools-departments/computer-science/>)

Computer Science Minor

The Department of Computer Science offers instruction and performs research in the essential areas of computer science including software, Web and Internet computing, networking, hardware systems, operating systems, compilers, parallel and distributed computing, theory of computing, and computer graphics.

The computer science minor program is currently only available to students who have applied for and been admitted to the computer science program.

Please see the program website (<https://cs.unc.edu>) for more information about the application process.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

A student may minor in computer science by completing five courses within these restrictions:

Code	Title	Hours
Core Requirements		
COMP 210	Data Structures and Analysis	3
COMP 211	Systems Fundamentals	3
COMP 301	Foundations of Programming	3
Two courses from the following options:		6
COMP 311	Computer Organization	
COMP courses 420 or greater excluding COMP 495, COMP 496, COMP 691H, and COMP 692H		
Total Hours		15

Alternatives to these requirements must be approved by the director of undergraduate studies.

Department of Dramatic Art

Introduction

The study of dramatic art focuses upon the dramatic texts of the classical and modern periods from across the globe and introduces the student to the variety of artistic endeavors necessary to realize the text in theatrical performance. Majors concentrate on the literature and history of the theatre while investigating the processes involved in acting, directing, design, costume, and technical production.

Courses focus on the connections between theatre and society, between theatrical performance and the visual arts, and between dramatic literature and philosophy, history, and other literary forms. The study of theatre embraces a range of subjects in the humanities and fine arts, including literature, language, aesthetics, culture, and performance.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. Every student whose primary major is dramatic art will also be assigned a departmental advisor, beginning in the semester that 60 hours will be completed. The department's director of undergraduate studies and undergraduate advisor work with current and prospective majors by appointment. Please contact the department at CB# 3230, (919) 962-1132. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<http://drama.unc.edu/>).

Facilities

The Department of Dramatic Art's offices, classrooms, studios, rehearsal hall, and construction shops are located in the Joan H. Gillings Center for Dramatic Art. Each year the Department of Dramatic Art's Kenan Theatre Company (KTC) supports four full productions in the Elizabeth Price Kenan Theatre. The Department also sponsors a variety of other productions such as student-directed work in the smaller classroom environment. The department provides showcase venues for new student writing, including readings and fully produced plays.

Graduate School and Career Opportunities

The dramatic art major is associated with a variety of career opportunities, including graduate study, public relations, communications, arts management, public service, teaching, and theatre-related careers, including literary management, stage management, acting, design, publicity, marketing, fund-raising, technical production, sound and lighting technology, box office management, costuming, electrics, and stage craft.

Major

- Dramatic Art Major, B.A. (p. 489)

Minors

- Dramatic Art Minor (p. 491)
- Musical Theatre Performance Minor (p. 492)

Graduate Program

- M.F.A. in Dramatic Art (<https://catalog.unc.edu/graduate/schools-departments/dramatic-art/>)

Professors

Janet A. Chambers, McKay Coble, David Navalinsky, Michael J. Rolleri, Adam N. Versényi.

Associate Professors

Julia Gibson, Jacqueline Lawton.

Assistant Professors

Tracy Bersley, Samuel Gates, Tia James, Gwendolyn Schwinke, Kathryn Williams.

Professors of the Practice

Vivienne Benesch, Triffin Morris.

Teaching Professors

Jeffrey Blair Cornell, Gregory Kable.

Teaching Assistant Professors

Laura Pates, Mark Perry, Rachel Pollock, Aubrey Snowden.

Professors Emeriti

Judith L. Adamson, Raymond E. Dooley, David A. Hammond, Roberta A. (Bobbi) Owen (Michael R. McVaugh Distinguished Professor in Dramatic Art), Kathy Perkins, Bonnie N. Raphael, Craig W. Turner.

DRAM—Dramatic Art

Undergraduate-level Courses

 **DRAM 79. First-Year Seminar: The Heart of the Play: Fundamentals of Acting, Playwriting, and Collaboration. 3 Credits.**

This seminar is designed to get the student doing theatre, sparking creativity, and making connections with the deeper lessons of this dynamic art form. Students will write, stage, and perform their own 10-minute plays.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-CREATE.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

 **DRAM 80. First-Year Seminar: Psychology of Clothes: Motivations for Dressing Up and Dressing Down. 3 Credits.**

The course seeks to help students find ways to articulate their own motivations for dress and then apply the ideas they have discovered to the ways in which individuality as well as group attitudes are expressed through clothing. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-GLOBAL.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

 **DRAM 81. First-Year Seminar: Staging America: The American Drama. 3 Credits.**

This seminar examines American drama from its colonial origins to the present as both a literary and commercial art form. The focus throughout will be on the forces that shaped American drama as well as drama's ability to shed light on the national experience. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH.

Making Connections Gen Ed: VP, CI, NA.

Grading Status: Letter grade.

 **DRAM 83. First-Year Seminar: Spectacle in the Theatre. 3 Credits.**

This course examines how the theatrical designer uses scenery, costumes, and lighting to help create a production. Students will apply these techniques in creating their own design projects.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-CREATE.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **DRAM 85. First-Year Seminar: Documentary Theatre. 3 Credits.**

This course explores the political and social ramifications of documentary theatre in the United States. Students will investigate a local community of their choosing and create an interview-based performance. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, HI-PERFORM.

Making Connections Gen Ed: VP, EE- Performing Arts, NA.

Grading Status: Letter grade.

 **DRAM 87. First-Year Seminar: Style: A Mode of Expression. 3 Credits.**

This seminar studies the elements of design in their pure form, surveys a history of period styles and theatre, and identifies their causes. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: VP, CI, NA.

Grading Status: Letter grade.

 **DRAM 89. First Year Seminar: Special Topics. 3 Credits.**

This is a special topics course. Content will vary.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

 **DRAM 115. Perspectives in Drama. 3 Credits.**

A survey of plays from the Greeks to the present, analyzed through such elements of the dramatic text as action, character, structure, and language. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **DRAM 116. Perspectives in the Theatre: Page to Stage. 3 Credits.**

A survey of the interrelationships of acting, directing, designing, and playwriting through the study of major periods of theatrical expression and representative plays. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

DRAM 117. Perspectives in World Drama. 3 Credits.

A survey of non-Western drama and theatre with emphasis on the historical and aesthetic development of those regions. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

 **DRAM 120. Play Analysis. 3 Credits.**

Development of the skill to analyze plays for academic and production purposes through the intensive study of representative plays. DRAM 120 is the first course in the major and the minor in dramatic art. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-LAUNCH (only designated sections), FC-AESTH.

Making Connections Gen Ed: VP, CI, NA.

Grading Status: Letter grade.

DRAM 131. Writing for the Screen and Stage. 3 Credits.

Restricted course. Dramatic writing workshop open only to students in the writing for the screen and stage minor.

Rules & Requirements

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

Same as: COMM 131.

 **DRAM 135. Acting for Nonmajors. 3 Credits.**

Introduction to basic processes and techniques of acting for the stage.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Grading Status: Letter grade.

DRAM 140. Voice Training I. 3 Credits.

Fundamental principles underlying the effective use of voice and speech in performance.

Rules & Requirements

Grading Status: Letter grade.

DRAM 144. Acting the Song. 3 Credits.

The course explores how to gain facility in expression and truthfulness in action while communicating through a dramatic song. Challenges include how to navigate a scene that moves into song and how to manage breath and vulnerability in performance. Permission of the instructor required.

Rules & Requirements

Grading Status: Letter grade.

 **DRAM 150. Beginning Acting for the Major. 3 Credits.**

Introduction to acting tools, emphasizing playing actions and pursuing an objective by personalized given circumstances. Performance work drawn from short scripted, improvised, and contemporary scenes.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Requisites: Prerequisite, DRAM 120.

Grading Status: Letter grade.

 **DRAM 151. Introduction to the American Stage Musical. 3 Credits.**

A topical survey of musical theater repertoire from its early inception in 18th-century Europe to current 21st-century incarnations. Various stylistic approaches, historical periods, and creative contributions to the genre will be explored. Examination of case studies through diverse perspectives of class, gender and race will situate the repertoire in a broad artistic and social context.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Grading Status: Letter grade.

Same as: MUSC 151.

DRAM 154. Performers' Awareness. 3 Credits.

This course focuses on developing body and mind awareness and undoing habits (including habits of thought) which restrict the performer. The class explores strategies for reducing tension, re-discovering natural alignment, and replacing self-judgement with self-confidence.

Rules & Requirements

Grading Status: Letter grade.

DRAM 155. Movement for the Actor. 3 Credits.

Introduction to physical training. Individual/group exercises explore relaxation, breath, concentration, flexibility, and imaginative response that become physical tools for acting. May include stage combat, juggling, mime, improvisation, games, and yoga.

Rules & Requirements

Grading Status: Letter grade.

DRAM 156. Physical Comedy, Farce Techniques, and Clown. 3 Credits.

Beginning with a history of physical comedy and performance techniques, this experiential class will explore vulnerability and self-discovery through clown. Students will learn farce techniques which strengthen physical agility and comic timing. Through a process of rediscovering innocence in sound and movement, the student will begin to forget the filter of the socialized body, achieving a heightened presence.

Rules & Requirements

Grading Status: Letter grade.

DRAM 160. Stagecraft. 3 Credits.

General survey of materials, equipment, and processes used in technical theatre.

Rules & Requirements

Grading Status: Letter grade.

DRAM 170. The Playful Actor: Theatre Games and Improvisation. 3 Credits.

This course seeks to strengthen the powers of imagination, courage, spontaneity, and presence of the actor through theatre games and improvisation.

Rules & Requirements

Grading Status: Letter grade.

 **DRAM 191. Technical Methods: Scenery. 3 Credits.**

DRAM 191 or 192 required for dramatic art majors. Permission of the instructor for nonmajors. Introduction to equipment, procedures, and personnel in the design and execution of plans for scenery, lighting, properties, and sound for theatrical productions.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE, HI-PERFORM.

Making Connections Gen Ed: EE- Performing Arts.

Grading Status: Letter grade.

 **DRAM 192. Technical Methods: Costume. 3 Credits.**

DRAM 191 or 192 required for dramatic art majors. Introduction to equipment, procedures, and personnel in the design and execution of costumes for theatrical productions. Permission of the instructor for nonmajors.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE, HI-PERFORM.

Making Connections Gen Ed: VP, EE- Performing Arts.

Grading Status: Letter grade.

 **DRAM 193. Production Practicum. 3 Credits.**

Permission of the instructor for nonmajors. Required for the dramatic art major. Practicum in production with PlayMakers Repertory Company in costuming, scenery, lighting, sound, or theatre management.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-PERFORM.

Making Connections Gen Ed: EE- Performing Arts.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **DRAM 196. Dramatic Art Projects. 1-3 Credits.**

Permission of the department. May be repeated for credit. Restricted to juniors and seniors majoring in dramatic art. Intensive individual work in major areas of theatrical production: design, technical, directing, acting, playwriting, management.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-PERFORM.

Making Connections Gen Ed: EE- Performing Arts.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.

Grading Status: Letter grade.

DRAM 220. Theatre Histories. 3 Credits.

This course introduces students to theatre histories and cultures from India, Asia, Africa, and Latin America, with reference to Western European/North American traditions. Students will investigate how drama, theatre, and performance develops both within individual cultural milieus and through contact with other cultures.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Requisites: Prerequisite, DRAM 120.

Grading Status: Letter grade.

DRAM 230. Theatre of the Word. 3 Credits.

This course, with a theatre and social justice theme, is structured to give students an understanding of the role of the speaker before the public, the logical and sequential development of an idea, and the methodology for organizing and presenting materials and information. The course will cover information gathering, speech outlining, small group discussion, and provide extemporaneous, informative, and persuasive speaking opportunities.

Rules & Requirements

IDEAs in Action Gen Ed: COMMBEYOND.

Grading Status: Letter grade.

DRAM 231. Playwriting I. 3 Credits.

Permission of the department. A practical course in writing for the stage with studio productions of selected works.

Rules & Requirements

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

DRAM 240. Voice Training II. 3 Credits.

A continuation of DRAM 140.

Rules & Requirements

Requisites: Prerequisite, DRAM 140.

Grading Status: Letter grade.

DRAM 245. Acting for the Camera. 3 Credits.

The process of acting and its relationship to the technical and artistic demands of television/film production. Problems of continuity and out-of-sequence filming. Concentration and thinking on camera.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Requisites: Prerequisite, DRAM 135 or 150; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

DRAM 250. Intermediate Acting for the Major. 3 Credits.

A deeper exploration of fulfilled actions prompted by an objective, with emphasis on developing techniques required by more formally structured texts such as Sophocles, Molière, Ibsen, Shaw, and Chekhov.

Rules & Requirements

Requisites: Prerequisite, DRAM 150.

Grading Status: Letter grade.

DRAM 255. Movement for the Actor II. 3 Credits.

Development of balance, flexibility, strength, focus, grace, and precision through martial art of T'ai Chi Ch'uan. Emphasis on applying T'ai Chi principles to acting. Chinese philosophical bases for T'ai Chi explored.

Rules & Requirements

Requisites: Prerequisite, DRAM 155; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

DRAM 260. Advanced Stagecraft. 3 Credits.

The course provides practical applications of principles and techniques used in technical theatre. Lectures are supported by individually scheduled workshop sessions where techniques are applied to a theatrical production.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE, HI-PERFORM.

Making Connections Gen Ed: VP, EE- Performing Arts.

Requisites: Prerequisite, DRAM 160; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

DRAM 277. Introduction to Theatrical Design. 3 Credits.

General principles of scenic, costume, and lighting design for the theatre.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-CREATE.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

DRAM 279. Introduction to Theatre Management. 3 Credits.

An overview of the major functions of management in the American nonprofit theatre including marketing, fundraising, finances, strategy and operations. Presentation skills will be practiced.

Rules & Requirements

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

DRAM 281. Theatre History and Literature I. 3 Credits.

Survey of theatre practice and writing from the Greeks to 1700.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: VP, WB.

Requisites: Prerequisite, DRAM 120 and 220.

Grading Status: Letter grade.

DRAM 282. Theatre History and Literature II. 3 Credits.

Survey of theatre practice and writing from 1700 to 1920.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, CI, NA.

Requisites: Prerequisites, DRAM 120 and 220.

Grading Status: Letter grade.

 **DRAM 283. Theatre History and Literature III. 3 Credits.**
Survey of theatre practice and writing from 1930 to the present.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP, CI, NA.

Requisites: Prerequisite, DRAM 120.

Grading Status: Letter grade.

DRAM 284. Studies in Dramatic Theory and Criticism. 3 Credits.
May be repeated for credit. Seminar in dramatic theory and criticism with emphasis on the modern period. Honors version available.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **DRAM 285. Modern British Drama. 3 Credits.**
Evolution of modern British drama from 1956 through the present. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, CI, NA.

Grading Status: Letter grade.

 **DRAM 287. African American Theatre. 3 Credits.**
This course investigates the history and legacy of African American drama through the study of its literary texts, performance styles, and cultural history.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

 **DRAM 288. Theatre for Social Change. 3 Credits.**
This course assesses different models of theatre for social change through change theory, playwriting, and collaboration. Students will be guided through the process of creating new works.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-POWER.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

DRAM 290. Special Topics in Dramatic Art. 0.5-3 Credits.
The study of a topic in dramaturgy, theatrical design, or theatrical production. Content and instructor will vary. May be repeated for credit.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **DRAM 292. "Corner of the Sky": The American Musical. 3 Credits.**
This course considers the anatomy and diversity of the American musical, exploring its history and aesthetics and employing an interdisciplinary approach to examining and celebrating its shows, sounds, stars, structures, styles, and sensibilities, within the genre's dominant contexts of Broadway, Hollywood, and Utopia.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **DRAM 294. Arts Criticism. 3 Credits.**
An introduction to the principles of arts criticism through study of the work of a variety of critics, by distinguishing between the nature of criticism and reviewing the arts (both performing and plastic), and through the students' own practice of critical writing by means of a series of short essays.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

 **DRAM 300. Directing. 3 Credits.**
Generally limited to majors. An introductory course in the principles of stage directing; analysis for concept, organization of production, and methodology of staging.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-CREATE.

Making Connections Gen Ed: CI.

Requisites: Prerequisite, DRAM 120; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

DRAM 331. Playwriting II. 3 Credits.
A practical course in writing for the theatre, taught at an advanced level.

Rules & Requirements

Making Connections Gen Ed: VP.

Requisites: Prerequisite, DRAM 231; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

DRAM 334. Theatrical Auditions. 3 Credits.
Practice in the techniques necessary for successful auditions for the theatre. Previously offered as DRAM 134. Permission of the instructor.

Rules & Requirements

Requisites: Prerequisite, DRAM 150.

Grading Status: Letter grade.

DRAM 350. Advanced Acting for the Major. 3 Credits.

Development of the actor's technique in verse drama with emphasis on scansion and textual analysis as guidelines for actions, characterization, and given circumstances. Scene and monologue work drawn from the works of Shakespeare.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Requisites: Prerequisite, DRAM 250; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

DRAM 365. Introduction to Projection Design and Mapping. 3 Credits.

This course aims to provide an in-depth understanding of projection mapping in the context of theatre and entertainment design. Through a combination of theoretical and hands-on learning, students will gain the skills necessary to conceptualize, design, and implement projection mapping projects.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Grading Status: Letter grade.

DRAM 393. Professional Theatre Laboratory. 1-12 Credits.

Permission of the department. Individual programs or internship in acting, directing, design, management, and playwriting under the guidance of professional practitioners in conjunction with PlayMakers Repertory Company or other professional theatre organizations.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 12 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**DRAM 431. Playwriting Workshop. 3 Credits.**

As image makers, the work we do has a powerful and lasting impact on perception. When writing beyond ourselves and our experience, special care must be given the development of characters and exploration of the world of the play. This class explores the impact of social identity on playwriting and how we can use the power of storytelling to reflect a greater vision for humanity.

Rules & Requirements

Requisites: Prerequisites, DRAM 231 and DRAM 331.

Grading Status: Letter grade.

DRAM 460. Stage Management. 3 Credits.

Permission of the department. A study of the basic principles and practices of modern stage management.

Rules & Requirements

IDEAs in Action Gen Ed: HI-PERFORM.

Making Connections Gen Ed: EE- Performing Arts.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

DRAM 465. Sound Design. 3 Credits.

The study of general principles of sound design for the theatre. Theory and application of sound design techniques for the stage, including script analysis, staging concepts, special effects, sound plots, and technology.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Grading Status: Letter grade.

DRAM 466. Scene Design. 3 Credits.

Permission of the instructor. General principles of visual design as applied to scenery for the theatre. Instruction in standard techniques of planning and rendering scene design.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-CREATE.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

DRAM 467. Costume Design I. 3 Credits.

Permission of the instructor. Studies and practicum in play analysis and costume design for the theatre. Instruction in techniques of planning and rendering costume design.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-CREATE.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

DRAM 468. Lighting Design I. 3 Credits.

Permission of the instructor. General principles of lighting design as applied to the performing arts. Theory and instruction in standard techniques of lighting for the stage.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

DRAM 470. Survey of Costume History. 3 Credits.

A survey of historic costume forms from ancient Egypt to the present time. Honors version available.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

DRAM 484. Studies in Dramaturgy and Criticism. 3 Credits.

This seminar seeks to introduce students to the principles of arts criticism through study of the work of a variety of different critics, by distinguishing between the nature of criticism and reviewing the arts, and through the students' own practice of critical writing.

Rules & Requirements

Grading Status: Letter grade.

DRAM 486. Latin American Theatre. 3 Credits.

This course explores the historical and aesthetic development of Latin American theatre, focusing on particular factors that distinguish this theatre from the Western European tradition.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: VP, BN.

Grading Status: Letter grade.

DRAM 488. United States Latino/a Theatre. 3 Credits.

Investigation of United States Latino/a theatre texts and performance practices as a discreet genre. United States Latino/a theatre will be distinguished from the dominant culture, and the diversity of forms and styles will be discussed.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

DRAM 491. Issues in Arts Management. 3 Credits.

Arts management issues taught through analysis of case studies. Course includes management theories, organizational structures, and current issues.

Rules & Requirements

Grading Status: Letter grade.

DRAM 493. Theatre Management. 3 Credits.

Practicum in theatre management procedures and business of the theatre involving box office, audience development, research, publicity, operational, and contract procedures in regard to artists, technicians, managers, and producers. Students actively engage in management areas of the PlayMakers Repertory Company and productions of the Department of Dramatic Art.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Making Connections Gen Ed: CI, EE- Academic Internship.

Grading Status: Letter grade.

DRAM 586. Costume Seminars I: Dyeing and Painting. 1-3 Credits.

Permission of the instructor. Taught in a four-semester rotation. May be repeated for credit for a total of six hours for undergraduates and 12 hours for graduate students. Series of topics in costume for use in design and production for the stage.

Rules & Requirements

Requisites: Prerequisite, DRAM 192.

Grading Status: Letter grade.

DRAM 587. Costume Seminars II: Millinery. 1-3 Credits.

Advanced costume production techniques with an emphasis on millinery. Undergraduates-Instructor permission only. Permission of the instructor.

Rules & Requirements

Requisites: Prerequisite, DRAM 192.

Grading Status: Letter grade.

DRAM 588. Costume Seminars III: Masks and Armor. 1-3 Credits.

Permission of the instructor. Advanced costume production techniques with an emphasis on creating masks and armor.

Rules & Requirements

Grading Status: Letter grade.

DRAM 589. Costume Seminars IV: Decorative Arts. 1-3 Credits.

Advanced costume production techniques with an emphasis on decorative arts, with an emphasis on fans and shoes. This class requires permission of the instructor.

Rules & Requirements

Grading Status: Letter grade.

DRAM 590. Advanced Special Topics in Dramatic Art. 0.5-3 Credits.

The study of a topic in dramaturgy, theatrical design, or theatrical production for advanced undergraduates and graduate students. Content and instructor will vary. May be repeated for credit.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

DRAM 666. Media in Performance. 3 Credits.

Required preparation, one performance studies course above COMM 400. Permission of the instructor for students lacking the required preparation. Project-based class where students acquire skills and critical approaches to create collaborative, professional, multimedia works.

Rules & Requirements

IDEAs in Action Gen Ed: HI-PERFORM.

Making Connections Gen Ed: VP, EE- Performing Arts.

Grading Status: Letter grade.

Same as: COMM 666.

DRAM 667. Costume Design for the Body. 3 Credits.

Study of proportions and the effects of corsetry and body padding to body proportions. This class requires permission of the instructor.

Rules & Requirements

Requisites: Prerequisite, DRAM 192 or permission of the instructor.

Grading Status: Letter grade.

DRAM 691H. Honors Project in Dramatic Art. 3 Credits.

Required preparation, 3.3 cumulative grade point average and permission of the department. The commencement of a special project (essay or creative endeavor), approved by the department, by a student who has been designated a candidate for undergraduate honors.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

DRAM 692H. Honors Project in Dramatic Art. 3 Credits.

Permission of the department. The completion of a special project by a student who has been designated a candidate for undergraduate honors.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisite, DRAM 691H.

Grading Status: Letter grade.

DRAM 697. Senior Seminar. 3 Credits.

Close study of the interrelationships between theory and practice in contemporary world theatre, placing developments in their cultural contexts, and exploring current theatrical trends in an international framework.

Rules & Requirements

Grading Status: Letter grade.

Dramatic Art Major, B.A.

The study of dramatic art focuses on dramatic texts of the classical and modern periods from across the globe and introduces the student to the variety of artistic endeavors necessary to realize the text in theatrical performance. Majors concentrate on the literature and history of the theatre while investigating the processes involved in acting, directing, design, costume, and technical production.

Courses focus on the connections between theatre and society, between theatrical performance and the visual arts, and between dramatic literature and philosophy, history, and other literary forms. The study of theatre embraces a range of subjects in the humanities and fine arts, including literature, language, aesthetics, culture, and performance.

Student Learning Outcomes

Upon completion of the dramatic art program, students should be able to:

- Analyze a play through identification and evaluation of its dramatic structure, character, language, genre, action, and themes
- Demonstrate critical thinking skills and the ability to write cogently about creative, artistic process of theatre, its literature, and its history
- Recognize and comprehend the impact of culture, society, and language on drama
- Demonstrate proficiency in the basic skills of a particular area of dramatic practice (e.g., acting, direction, or design)
- Employ problem-solving skills in various aspects of theatrical production

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill

- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
DRAM 120	 Play Analysis ^{1, H, F}	3
Three courses in dramatic literature/theatre history/criticism:		9
DRAM 220	 Theatre Histories ²	
And two courses chosen from:		
DRAM 281	 Theatre History and Literature I	
DRAM 282	 Theatre History and Literature II	
DRAM 283	 Theatre History and Literature III	
DRAM 284	Studies in Dramatic Theory and Criticism ^H	
DRAM 285	 Modern British Drama ^H	
DRAM 287	 African American Theatre	
DRAM 292	 "Corner of the Sky": The American Musical	
DRAM 294	 Arts Criticism	
DRAM 486	 Latin American Theatre	
DRAM 488	 United States Latino/a Theatre	
AAAD 334	Performing African American History	
AAAD 344	African American Theatre: Exploring Legacy and Contemporary Voices	
ASIA 163	 Hindi-Urdu Poetry in Performance	
ASIA 332	 The Story of Rama in India	
ASIA 382	 The Story of Rama in Indian Culture—Experiential	
ASIA 383	 The Mahabharata: Remembered and Reimagined—Experiential	
CHIN 361	 Chinese Traditional Theater	
Three foundational courses in acting, design, and directing:		
DRAM 150	 Beginning Acting for the Major	3
DRAM 277	 Introduction to Theatrical Design	3
DRAM 300	 Directing	3
One course in technical production or costume production:		
DRAM 191	 Technical Methods: Scenery	3
or DRAM 192	 Technical Methods: Costume	
Production Practicum:		
DRAM 193	 Production Practicum (with PlayMakers Repertory Company; transfer credit not allowed.) ³	3
Total Hours		27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students planning to major in dramatic art should complete DRAM 120 preferably during their first year as it is the pre-requisite for the rest of the major.

² DRAM 220 is the pre-requisite for the rest of the dramatic literature/theatre/history/criticism courses.

³ This course fulfills the High Impact Gen Ed requirement in the IDEAs in Action curriculum and the experiential education Gen Ed requirement in the Making Connections curriculum.

The major provides a broad basis for understanding and appreciating theatre as a cultural entity and as an artistic process. The program also provides opportunities for students to learn and develop basic skills in the various areas of theatre practice. All General Education requirements apply.

Because the College of Arts and Sciences allows a total of 45 credit hours (15 three-hour courses) in a student's major to count toward graduation, as many as six electives can be selected from the range of offerings in the department. Students may choose to concentrate on an area (or areas) of special interest within the major: acting, directing, voice, movement, technical production, design (scenic, costume, sound, and lighting), costume history, costume construction, dramatic literature and criticism, dramaturgy, stage management, theatre management, and playwriting.

Students majoring in dramatic art cannot pursue the minor in dramatic art.

Special Opportunities in Dramatic Art Honors in Dramatic Art

In order to receive departmental honors, students must have a 3.3 overall grade point average, a 3.6 grade point average in dramatic art, and complete at least five of the eight core courses in the major by the end of the junior year. Students enroll in DRAM 691H (three hours credit) and DRAM 692H (three hours credit) during their senior year and complete a special project (essay or creative endeavor) approved by the department. A student may then be designated as a candidate for undergraduate honors or highest honors based on department review of the special project or performance.

Departmental Involvement

Two undergraduate students are elected each year from among the majors to serve as representatives to the faculty. They attend faculty meetings and host events that bring students and faculty together.

Performance/Production Opportunities

The Department of Dramatic Art's Kenan Theatre Company (KTC), offers many opportunities for interested students — majors and nonmajors alike — to participate in performance and production. Each year the department supports four full productions in the Elizabeth Price Kenan Theatre. Seasons may include classic plays, contemporary plays, musicals, and original works. The director of undergraduate production and a board of undergraduate students fill leadership roles within KTC and oversee the department season. Productions are directed by faculty or guest artists. Undergraduate students are involved in

the technical components of production as designers, carpenters, painters, electricians, costumers, and sound engineers. The KTC board typically includes producers, a publicity team, prop supervisor, wardrobe supervisor, master electrician, and a technical director for the entire season. Designers are selected on a per-show basis and can include undergraduates, graduate students, and faculty members.

PlayMakers Repertory Company

Named one of America's "best regional theaters" by American Theatre Magazine, PlayMakers Repertory Company is North Carolina's premiere professional theater company, located in the Joan H. Gillings Center for Dramatic Art. With reduced rate student ticket prices available for all shows, and unique opportunities to observe, work alongside and learn from professional theater artists throughout the year, PlayMakers serves as a hands-on research laboratory and educational resource to both undergraduate and graduate students. PlayMakers rehearsals are open to the entire UNC community, and company members strive to make themselves available for student mentoring. Undergraduate performers are invited to audition for supporting and understudy roles in PlayMakers productions twice a year. Undergraduates can also contribute backstage, stage managers or technicians alongside industry experts, or working as interns in the theatre's administrative offices. PlayMakers makes available to every UNC student the experience of working for an award-winning professional theatre.

Study Abroad

With more than 300 programs available in 70 countries, there are many international experiences structured to enhance the student's undergraduate career. Major and minor credit is available as well as General Education credit. Departmental approval for theatre courses is arranged with the director of undergraduate studies and is coordinated by the Study Abroad Office.

Specific study abroad opportunities for dramatic art students include, but are not limited to, semester or yearlong exchange programs at Trinity College Dublin, the National University of Ireland in Galway, the University of Glasgow, and Queens University Belfast. Students can also spend the summer or a semester with programs at the London Academy of Music and Dramatic Art (LAMDA) and the Gaiety School of Acting, Dublin.

Students are also eligible for the Elizabeth Malone Roughton Study Abroad Scholarship, a scholarship awarded to a dramatic art student studying in Ireland for a semester and completing a theatre-related internship as part of the program, and for three Joan H. Gillings Study Abroad Scholarships for drama majors and minors completing a theatre-related program for either semester or year-long study abroad.

Undergraduate Awards

Each spring the Department of Dramatic Art awards several monetary prizes to its undergraduate majors (and graduate students) who are continuing into the next academic year. The prizes have been endowed by generous alumni and friends, including Andy Griffith and George Grizzard. In addition, the Sam Selden Prize in Playwriting, the Wes Egan Award in Design, and the Lillian Chason Scholarship are awarded competitively each year.

Undergraduate Research

Faculty and departmental advisors are available to help students define areas of interest, understand the existing knowledge base in a particular area, and develop a plan for meaningful undergraduate research. These goals can be realized through departmental independent study and

honors research. See the director of undergraduate studies and the honors advisor for more information. Additional resources are available through the Office for Undergraduate Research (<https://our.unc.edu/>).

Musical Theatre Performance Minor

The minor in musical theatre performance, a joint program in the Department of Music and the Department of Dramatic Art, provides students with opportunities to improve their abilities in musical theatre performance. The minor has three components including acting literacy, music literacy, and movement literacy.

Students will have ample opportunity for performance experience through the department's and student group productions.

The minor has three tracks, depending on the student's major status:

1. Music track (taken by students pursuing the dramatic art major or music majors in instruments other than voice)
2. Dramatic track (taken by students pursuing the music major)
3. Hybrid track (taken by students pursuing a double major in dramatic art and music, or by students majoring in other disciplines)

Departmental advising is available for students with questions about course and program expectation and opportunities, both on campus and in the professional world.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill

- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The minor requires 15 credit hours. Students can pursue one of three tracks.

Music Track

Code	Title	Hours
Core Requirements		
DRAM/MUSC 151	 Introduction to the American Stage Musical	3
At least 4 hours in Music Literacy:		4
MUSC 102	Individual Voice Lessons	
MUSC 111	Group Lessons in Voice	
MUSC 121	 Fundamentals of Tonal Music I	
MUSC 202	Advanced Individual Lessons in Voice ^H	
At least 4 hours in Movement Literacy:		4
EXSS 10	Beginning Ballet	
EXSS 11	Introduction to Dance Technique	
EXSS 12	Beginning Modern Dance	
EXSS 20	Intermediate Ballet	
EXSS 22	Intermediate Modern Dance	
EXSS 30	Advanced Ballet	
DRAM 154	Performers' Awareness	
DRAM 155	Movement for the Actor	
The remaining 4 hours can come from either list above or from the Acting Literacy list below:		4
DRAM 144	Acting the Song	
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Students in the music track may not also pursue the music major (B.A., B.Mus) in voice or the music minor.

Dramatic Track

Code	Title	Hours
Core Requirements		
DRAM/MUSC 151	 Introduction to the American Stage Musical	3
At least 4 hours in Acting Literacy:		4
DRAM 135	 Acting for Nonmajors	
DRAM 140	Voice Training I	
DRAM 144	Acting the Song	
At least 4 hours in Movement Literacy:		4
EXSS 10	Beginning Ballet	
EXSS 11	Introduction to Dance Technique	
EXSS 12	Beginning Modern Dance	
EXSS 20	Intermediate Ballet	
EXSS 22	Intermediate Modern Dance	
EXSS 30	Advanced Ballet	

DRAM 154	Performers' Awareness	
DRAM 155	Movement for the Actor	
The remaining 4 hours can come from either list above		4
Total Hours		15

Students in the dramatic track may not also pursue the dramatic art major or minor.

Hybrid Track

Code	Title	Hours
Core Requirements		
DRAM/MUSC 151	 Introduction to the American Stage Musical	3
Any combination of courses from the Music, Acting, and Movement Literacy lists (see below):		12
Music Literacy		
MUSC 102	Individual Voice Lessons	
MUSC 111	Group Lessons in Voice	
MUSC 121	 Fundamentals of Tonal Music I	
MUSC 202	Advanced Individual Lessons in Voice ^H	
Acting Literacy		
DRAM 135	 Acting for Nonmajors	
DRAM 140	Voice Training I	
DRAM 144	Acting the Song	
Movement Literacy		
EXSS 10	Beginning Ballet	
EXSS 11	Introduction to Dance Technique	
EXSS 12	Beginning Modern Dance	
EXSS 20	Intermediate Ballet	
EXSS 22	Intermediate Modern Dance	
EXSS 30	Advanced Ballet	
DRAM 154	Performers' Awareness	
DRAM 155	Movement for the Actor	
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Students pursuing both the dramatic art and music major (double majors) should follow the hybrid track.

Writing for the Screen and Stage Minor

The minor in writing for the screen and stage is a two-year interdisciplinary program housed in the Department of Communication that offers undergraduates from all departments the unique opportunity to focus specifically on the craft of dramatic writing. The minor is designed for students considering writing careers in theater, film, and television.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill

- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Candidates must be first-year or sophomore students with a 2.4 grade point average or better to begin the minor and must have taken one of the following prerequisite courses.

Code	Title	Hours
Prerequisite (select one):		
COMM 330	Introduction to Writing for Film and Television ¹	3
DRAM 231	Playwriting I ²	3
ENGL 130	Introduction to Fiction Writing ³	3
ENGL 132H	First-Year Honors: Introduction to Fiction Writing ⁴	3

¹ Preference given to communication studies majors.

² Requires permission from the department.

³ Open to all students.

⁴ Restricted to honor students.

The prerequisite may be waived with the approval of the director of the minor.

An application is required for acceptance; please visit the Writing for Screen and Stage Minor's Web site (<http://comm.unc.edu/undergraduate-studies/writing-for-the-screen-and-stage-minor/>) to review this process. Continued participation in the minor is based on the student's work and the recommendation of the program's instructors.

Code	Title	Hours
Core Requirements ¹		
COMM/DRAM 131	Writing for the Screen and Stage ²	3
COMM 430	History of American Screenwriting	3
COMM 433	Intermediate Screenwriting ²	3
COMM 537	Master Screenwriting ²	3
DRAM 120	Play Analysis ^{H, F}	3
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students must achieve a C grade or better in core requirements.

² COMM 131/DRAM 131, COMM 433, and COMM 537 must be taken in consecutive semesters beginning with the first semester of the minor.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The following sequence of courses is recommended:

Code	Title	Hours
Junior (or Sophomore) Year Fall Semester		
COMM/DRAM 131	Writing for the Screen and Stage	3
DRAM 120	 Play Analysis ^{H, F}	3
Junior (or Sophomore) Year Spring Semester		
COMM 430	 History of American Screenwriting	3
COMM 433	Intermediate Screenwriting	3
Senior (or Junior) Year Fall Semester		
COMM 537	Master Screenwriting	3

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

The following courses are recommended but are not required to complete the minor:

Code	Title	Hours
COMM 334	Writing the One-Hour TV Drama	3
COMM 335	 Film Story Analysis	3
COMM 337	 Visual Storytelling for Screenwriters	3
COMM 390	Special Topics in Communication Study (Writing the Full-Length Play)	3
COMM 535	Introduction to Screen Adaptation	3
COMM 600	Screenwriting: The Re-Write	3
DRAM 135	 Acting for Nonmajors	3

See the program pages in Communication (p. 464), Dramatic Art (p. 490), and English and Comparative Literature (<https://catalog.unc.edu/undergraduate/programs-study/english-major-ba/#opportunitiestext>) for special opportunities.

Department Programs

Majors

- Communication Studies Major, B.A. (p. 459)

Minor

- Writing for the Screen and Stage Minor (p. 465)

Graduate Programs

- Ph.D. in Communication Studies (<https://catalog.unc.edu/graduate/schools-departments/communication/>)

Department of Earth, Marine, and Environmental Sciences

Introduction

The Department of Earth, Marine, and Environmental Sciences (EMES) launched in 2021–2022, combining the departments of Geological Sciences (GEOL) and Marine Sciences (MASC) with the Institute for Marine Sciences (IMS). The new department provides instruction and conducts research into the physical, chemical, and biologic processes that operate within the Earth and its oceans. Research seeks to understand how the dynamic interplay among these processes shape the Earth's surface, govern environmental change, generate natural hazards, supply energy and resources, and sustain life. The department has a strong tradition of undergraduate students conducting independent and guided research as part of their training.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's directors of undergraduate studies work with current and prospective majors by appointment. Departmental academic advising is particularly important for those majors who are considering continuing graduate education. Further information on courses, undergraduate research opportunities, the honors program, career opportunities, and graduate schools may be obtained from the department's website. Prospective students in the department are encouraged to meet with one of the directors of undergraduate studies.

Facilities

The department maintains laboratory facilities, many of which are available for undergraduate students to use in research and classroom learning. These include several mass spectrometers for isotopic, geochronology, and geochemical research, a scanning electron microscope, x-ray fluorescence and diffractometers, geophysical and seismic imaging facilities, and a paleoclimate laboratory. Research laboratories are equipped for studies in all aspects of marine sciences – physical, chemical, and biologic. In addition, the Institute for Marine Sciences, located in Morehead City, N.C., houses laboratory buildings with dock and ocean access. The institute operates a modern 48-foot coastal vessel, the R.V. Capricorn, as well as a fleet of outboard-powered boats.

Graduate School and Career Opportunities

In the earth sciences, geologists are employed in the commercial/ industrial, educational, and governmental sectors. Graduates may find employment in private industry and consulting firms, including hydrology, environmental geology, engineering geology, the energy industry, and/ or resource extraction. Job opportunities exist within both state and federal geologic and environmental agencies. Many positions prefer some graduate training at the master's level, and a doctoral degree is typically required for employment in higher education.

In the marine sciences, graduates often seek postgraduate training to develop expertise in a field of particular interest.

Majors

- Geological Sciences Major, B.A.–Earth Science (p. 510)
- Earth and Marine Sciences Major, B.S. (p. 507)

Minors

- Environmental Microbiology Minor (p. 512)
- Geological Sciences Minor (p. 513)
- Hydrology Minor (p. 515)
- Marine Sciences Minor (p. 515)

Graduate Programs

- M.S. in Geological Sciences (<https://catalog.unc.edu/graduate/schools-departments/geological-sciences/>)
- M.S. in Marine Sciences (<https://catalog.unc.edu/graduate/schools-departments/marine-sciences/>)
- Ph.D. in Geological Sciences (<https://catalog.unc.edu/graduate/schools-departments/geological-sciences/>)
- Ph.D. in Marine Sciences (<https://catalog.unc.edu/graduate/schools-departments/marine-sciences/>) (<https://catalog.unc.edu/graduate/schools-departments/geological-sciences/>)

Distinguished Professors

Christopher S. Martens, Richard A. Luetlich, Brent A. McKee, Rachel Noble, Hans Pearl.

Professors

Carol Arnosti, John M. Bane Jr., Jaye E. Cable, Drew S. Coleman, Joel Fodrie, Eric Kirby, Jonathan Lees, Niels Lindquist, Richard A. Luetlich,

Laura Moore, Rachel Noble, Janet Nye, Tamlin M. Pavelsky, Michael Piehler, Antonio Rodriguez, Harvey Seim, Donna Surge, Andreas Teske.

Associate Professors

Marc J. Alperin, Karl Castillo, F. Joel Fodrie, Scott Gifford, Xiaoming Liu, Adrian Marchetti, Johanna Rosman, Alicia Septer, Kevin G. Stewart, Brian L. White.

Assistant Professors

Wei Mei, Antonia Sebastian.

Adjunct Professors

Frederick Bingham (UNC–Wilmington), Alan Boudreau, Carolyn Currin (National Oceanic and Atmospheric Administration Lab, Beaufort, N.C.), Stephen Fegley (UNC Institute of Marine Sciences), Jeffrey Hanson (Waveforce), Mandy Joye (University of Georgia), R. Wayne Litaker (National Oceanic and Atmospheric Administration Lab, Beaufort, N.C.), Kenneth J. Lohmann (Biology), Stephen A. Skrabal (UNC–Wilmington), Jill Stewart (Environmental Sciences and Engineering), William Sunda (National Oceanic and Atmospheric Administration Lab, Beaufort, NC, retired), Patricia Tester (National Oceanic and Atmospheric Administration Lab, Beaufort, N.C.).

Adjunct Assistant Professor

Julia Barzyk.

Research Professor

Michael Shore.

Research Assistant Professors

Nathan Hall, Ryan D. Mills.

Teaching Assistant Professors

Michelle Haskin, Joel Hudley, Megan Plenge.

Professors Emeriti

Dan Albert, Larry K. Benninger, Paul D. Fullagar, Allen F. Glazner, Brigitte Kohlmeier, Jan J. Kohlmeier, Charles H. Peterson, Daniel Textoris.

Courses

EMES–Earth, Marine, and Environmental Sciences Undergraduate-level Courses

 **EMES 51. First-Year Seminar: Global Warming: Science, Social Impacts, Solutions. 3 Credits.**

Students will examine evidence that human activity has caused global warming, investigate scientists' ability to predict climate change, and discuss the political and social dimensions of global climate change. Course previously offered as MASC 51.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: PL, QI.

Grading Status: Letter grade.

 **EMES 52. First-Year Seminar: Living with Our Oceans and Atmosphere. 3 Credits.**

Modern theories of changing weather, severe weather events, oceanic hazards, interactions between the oceans and atmosphere, and changes that are linked to human activity. Course previously offered as MASC 52.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

 **EMES 53. First-Year Seminar: The Ends of the Earth: Polar Oceanography and Exploration. 3 Credits.**

What explains the "pull of the poles"? This seminar combines a modern survey of polar oceanography with historical views of early polar explorations, as reported by the explorers themselves. Course previously offered as MASC 53.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

 **EMES 55. First-Year Seminar: Change in the Coastal Ocean. 3 Credits.**

This course provides an opportunity to explore changes in marine and closely linked terrestrial environments caused by the interactions of fascinating oceanographic processes. Introductory presentations and discussions will focus on published works of active marine scientists who combine disciplinary training with knowledge and skills from other fields. Course previously offered as MASC 55.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

 **EMES 59. First-Year Seminar: Extreme Microorganisms: Pushing the Limits of Life on Earth and Beyond. 3 Credits.**

This seminar focuses on some of the most extreme microorganisms on the planet, microorganisms that thrive without oxygen, under high temperatures (e.g., in pressurized water above the boiling point), and under chemical stress factors (high sulfide and heavy metal concentrations) that were once thought to be incompatible with life. Course previously offered as MASC 59.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

 **EMES 68. First-Year Seminar: Soundscape of Our Planet. 3 Credits.**

This seminar explores acoustic waves in the Earth's environment including ambient biological, physical, and human communication with an emphasis on observation and laboratory analysis. Course previously offered as GEOL 68.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

 **EMES 72H. First-Year Seminar: Field Geology of Eastern California. 3 Credits.**

This seminar provides a hands-on introduction to active geologic and environmental processes in eastern California, including active volcanoes, earthquake-producing faults, and extreme climate change. Course previously offered as GEOL 72H.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, RESEARCH.

Making Connections Gen Ed: PL, EE- Field Work, EE- Mentored Research.

Grading Status: Letter grade.

 **EMES 76. First-Year Seminar: Energy Resources for a Hungry Planet. 3 Credits.**

Discussions are centered on the most pressing issues of our time: environmental deterioration and construction of a sustainable (livable) world during and after the depletion of traditional energy resources. Course previously offered as GEOL 76.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

 **EMES 77. First-Year Seminar: Volcanoes and Civilization: An Uneasy Coexistence. 3 Credits.**

Volcanoes provide a breathable atmosphere, a habitable climate, and precious ores, but they have the potential to destroy civilization. This seminar will explore the uneasy coexistence of volcanoes and civilization. Course previously offered as GEOL 77.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

 **EMES 79. First-Year Seminar: Coasts in Crisis. 3 Credits.**

An investigation of the geologic evolution and function of coastal environments, the recent effects of coastal development and engineering, and an examination of existing coastal management strategies and the tensions between coastal development and the desire to preserve natural environments. Course previously offered as GEOL 79.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

 **EMES 89. First-Year Seminar: Special Topics. 3 Credits.**

Special topics course. Content will vary each semester. Course previously offered as GEOL 89.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

EMES 101. Planet Earth. 3 Credits.

Major geologic events: earthquakes, volcanic activity, mountain formation, plate tectonics, and erosion. Landscape development by glaciers, streams and groundwater, ocean currents and waves, wind. Optional laboratory: EMES 101L. PX credit for EMES 101+101L. Course previously offered as GEOL 101.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-NATSCI.

Making Connections Gen Ed: PX.

Grading Status: Letter grade.

EMES 101L. Planet Earth Laboratory. 1 Credits.

Study of common minerals and rocks. Use of topographic and geologic maps to illustrate geologic processes. Two laboratory hours a week. Course previously offered as GEOL 101L.

Rules & Requirements

IDEAs in Action Gen Ed: FC-LAB.

Requisites: Pre- or corequisite, EMES 101, 200, or 201.

Grading Status: Letter grade.

EMES 103. The Marine Environment. 3 Credits.

Introduction to marine sciences emphasizing physical, chemical, biological, and geological phenomenon in oceanic and coastal environments. Human use of, and impact on, marine resources. Science majors should take EMES 401. Students may not receive credit for both EMES 103 and EMES 401. Course previously offered as GEOL 103/MASC 101.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-NATSCI.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

EMES 103L. The Marine Environment Laboratory. 1 Credits.

Laboratory exercises aimed at investigating the marine environment including physical, chemical, and biological processes. Two laboratory hours per week. Students must also enroll in the EMES 103 lecture. Course previously offered as MASC 101L.

Rules & Requirements

IDEAs in Action Gen Ed: FC-LAB.

Making Connections Gen Ed: PX.

Requisites: Corequisite, EMES 103.

Grading Status: Letter grade.

EMES 105. Natural Disasters: Hollywood versus Reality. 4 Credits.

Natural hazards arise from a suite of dynamic processes that operate within the Earth and along its surface. How individuals and communities prepare for and respond to natural disasters is strongly influenced by our perception of the risk associated with these processes. This course investigates a range of natural hazards, using the popular media as a starting point for analyses and discussions of the causes of disasters.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI, FC-LAB.

Grading Status: Letter grade.

EMES 106. Diving into Drawdown. 3 Credits.

This course will take a deep dive into Project Drawdown (<https://drawdown.org>), which seeks to quantify and rank contributions to global warming of diverse human activities and offer truly impactful solutions for climate change mitigation from direct atmospheric capture of CO₂ to modifying food production practices and blue carbon sequestration. The class will explore the range of proposed climate change solutions and conduct a capstone-type project examining topics of relevance to NC in the Drawdown framework.

Rules & Requirements

Grading Status: Letter grade.

EMES 108. Climate and Energy Transitions: Understanding the Forecasts. 4 Credits.

This course examines uncertainties in projecting future fossil fuel consumption and impact on global climate by quantifying how effectively alternative power-generation and energy-storage technologies can scale to meet needs in developing and developed nations, and by understanding past and present climates. Course previously offered as GEOL 108/MASC 108.

Rules & Requirements

Making Connections Gen Ed: PX, GL.

Grading Status: Letter grade.

Same as: PHYS 108.

EMES 190. Special Topics in Earth, Marine, and Environmental Sciences at an Introductory Level. 3 Credits.

An undergraduate seminar course that is designed to be a participatory intellectual adventure on an advanced, emergent, and stimulating topic within a selected discipline in earth, marine and environmental sciences. Course previously offered as GEOL 190.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

EMES 200. The Solid Earth. 3 Credits.

An introduction to the solid earth for students continuing in EMES and other sciences. Topics include synthesis of the elements, formation of the solar system and earth, plate tectonics, earth materials, internal energy, magnetism, geochemical cycles, and earth resources. Course previously offered as GEOL 200.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

EMES 201. Earth's Surface: Processes, Landforms, and History. 3 Credits.

This course focuses on the biological, chemical, and physical processes that shape the surface of the earth. Major points of emphasis will include earth's climate, the global water cycle, geomorphic processes and the landforms they create, sedimentology and depositional environments, and elements of earth history recorded by earth surface processes. Course previously offered as GEOL 201.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

 **EMES 203. Data Analysis for Earth, Marine, and Environmental Sciences. 3 Credits.**

Introduction to the analysis, manipulation, presentation and interpretation of data, with a focus on Earth and marine sciences, environmental sciences, ecology, and geography.

Rules & Requirements **IDEAs in Action Gen Ed:** FC-QUANT.**Making Connections Gen Ed:** QI.**Grading Status:** Letter grade. **EMES 204. The Microbial World: Foundations in Structure, Metabolism, and Ecology. 3 Credits.**

This course will provide a basic introduction to microbiology and microbial ecology and evolution, covering topics such as cell structure, energetics, genomics, evolution and gene flow, ecological interactions, population and community dynamics, and biogeochemical cycling.

Rules & Requirements **IDEAs in Action Gen Ed:** FC-NATSCI.**Requisites:** Prerequisite, BIOL 101 or BIOL 103; permission of the instructor.**Grading Status:** Letter grade.**Same as:** BIOL 204.**EMES 220. North Carolina Estuaries: Environmental Processes and Problems. 3 Credits.**

Natural processes and human impacts on estuarine systems using the Neuse River estuary as a case study. Course includes one week of intensive field work based at the Institute of Marine Sciences. A student may not receive credit for this course after receiving credit for ENEC 222. Course previously offered as MASC 220.

Rules & Requirements**Making Connections Gen Ed:** PX, EE- Field Work.**Grading Status:** Letter grade.**Same as:** ENEC 220.**EMES 301. Earth Materials: Minerals. 4 Credits.**

Minerals in sedimentary, igneous, and metamorphic environments: their properties, occurrence, and uses. Methods of identifying minerals, including use of optical properties. Three lecture and three laboratory hours a week. Course previously offered as GEOL 301.

Rules & Requirements**Requisites:** Prerequisite, EMES 101 or EMES 200 or any EMES FYS; Pre- or corequisite, CHEM 101; permission of the instructor for students lacking the pre- or corequisite.**Grading Status:** Letter grade.**EMES 302. Structural Geology. 4 Credits.**

Introduction to the mechanical behavior and dynamic evolution of the earth's crust through the study of deformed rocks. Course previously offered as GEOL 302.

Rules & Requirements**Requisites:** Prerequisite, EMES 101 or 200.**Grading Status:** Letter grade.**EMES 303. Sedimentology and Stratigraphy. 4 Credits.**

Introduction of principles involved in description and classification of sedimentary rocks and stratigraphic units as well as stratigraphic correlation. Students will be introduced to relationships of processes, depositional environments, and sedimentary facies. Course previously offered as GEOL 303.

Rules & Requirements**Requisites:** Prerequisites, EMES 200 and 201; permission of the instructor for students lacking the prerequisites.**Grading Status:** Letter grade.**EMES 304. Petrology and Plate Tectonics. 4 Credits.**

Studies of the origin and evolution of igneous and metamorphic rocks, including microscopic, X-ray, and field methods; volcanology; plate-tectonic interpretation of rock sequences. Three lecture and three laboratory hours a week. Course previously offered as GEOL 304.

Rules & Requirements**Requisites:** Prerequisites, EMES 200 and 301; permission of the instructor for students lacking the prerequisite.**Grading Status:** Letter grade.**EMES 305. Planetary Geology: Meteorites and Asteroids. 3 Credits.**

Required preparation, one introductory geology course numbered below EMES 202, except first-year seminar. Effects and probable effects of meteorite and asteroid impacts on earth and other planets: craters, new meteorites, and tektites; giant sea waves; reduction of species and extinction of organisms. Course previously offered as GEOL 204/GEOL 305.

Rules & Requirements**Making Connections Gen Ed:** PL.**Requisites:** Pre- or corequisite, CHEM 101.**Grading Status:** Letter grade. **EMES 306. Earth Systems History. 3 Credits.**

Required preparation, one introductory EMES course numbered below 204, except first-year seminar. History of the earth (including its oceans, atmosphere, and life forms) as deciphered from the geologic record. Birth of continents/oceans; evolution and extinction of life forms; the changing global environment. Course previously offered as GEOL 202.

Rules & Requirements **IDEAs in Action Gen Ed:** FC-NATSCI.**Making Connections Gen Ed:** PL.**Requisites:** Prerequisite, EMES 101, 200 or 201.**Grading Status:** Letter grade.**EMES 310. Coastal Environmental Change. 3 Credits.**

An exploration of the large-scale evolution of coastal environments, including relevance of geologic setting, wave and sediment transport processes, the evolution of beach and barrier island morphology, and issues of coastal environmental management. Course previously offered as GEOL 310/MASC 316.

Rules & Requirements**Requisites:** Prerequisite, EMES 101, 103, 200, 201, or 401; permission of the instructor for students lacking the prerequisite.**Grading Status:** Letter grade.**Same as:** ENEC 310.

EMES 314. Earth Systems in a Changing World. 3 Credits.

This course presents an integrated view of our planet, how it evolved during the past, why it has changed (and continues to change), and what makes Earth a habitable planet. Course previously offered as MASC 314.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI.

Grading Status: Letter grade.

EMES 320. Marine Life in a Fluid World. 3 Credits.

This course examines how the functioning of marine organisms and ecosystems is impacted by water motion. Hydrodynamic forces as applied to locomotion and disturbance. Advective and diffusive transport as applied to nutrient supply and acquisition, larval transport, phytoplankton dynamics. The role of ocean circulation in establishing environmental conditions and distributions of organisms. Covers processes from the microscale to the ocean basin scale.

Rules & Requirements

Requisites: Prerequisites, PHYS 114 or 118, and MATH 231; Pre- or corequisite, Math 232.

Grading Status: Letter grade.

EMES 321. Geology of North America. 3 Credits.

General introduction to the geologic evolution of North America through intensive study of a particular region. Includes mandatory Spring Break field trip. Course previously offered as GEOL 221/EMES 221.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisite, EMES 72H, 101, 200, or 201; Permission of instructor for students lacking the prerequisites.

Grading Status: Letter grade.

EMES 324. Water in Our World: Introduction to Hydrologic Science and Environmental Problems. 3 Credits.

This introductory course will cover two broad themes: the physical processes of the hydrologic cycle and how human use (and abuse) of freshwater resources can lead to major environmental problems. PX credit for ENEC/EMES 324 + 324L. PL credit for ENEC/EMES 324. Course previously offered as GEOL 324.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI.

Making Connections Gen Ed: PX.

Grading Status: Letter grade.

Same as: ENEC 324.

EMES 324L. Water in Our World Laboratory. 1 Credits.

Students will conduct laboratory and field experiments to reinforce the topics covered in ENEC/GEOL 324. PX credit for ENEC/EMES 324 + 324L. Course previously offered as GEOL 324L.

Rules & Requirements

IDEAs in Action Gen Ed: FC-LAB.

Requisites: Pre- or corequisite, ENEC/GEOL 324.

Grading Status: Letter grade.

Same as: ENEC 324L.

EMES 352. Marine Fisheries Ecology. 3 Credits.

Gives students a foundation in population biology and the ecological processes that influence populations of economically important fish and shellfish. Students will gain practical quantitative skills including statistical analyses, model development, and data visualization. Familiarity with introductory statistics concepts is preferred but not necessary.

Rules & Requirements

Requisites: Prerequisite, EMES 103, 401, or ENEC 202.

Grading Status: Letter grade.

Same as: ENEC 352.

EMES 390. Special Topics in Earth, Marine, and Environmental Sciences. 1-4 Credits.

Topics and instructors vary from semester to semester. Course may be repeated. Course previously offered as GEOL 390/GEOL 390H. Permission of the department. Honors version available.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 12 total completions.

Grading Status: Letter grade.

EMES 395. Undergraduate Research in Earth, Marine, and Environmental Sciences. 1-3 Credits.

Directed readings with laboratory study on a selected topic. Course previously offered as MASC 395. Permission of a faculty research director.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit. 8 total credits. 8 total completions.

Grading Status: Letter grade.

EMES 396. Independent Study in Earth, Marine, and Environmental Sciences. 1-4 Credits.

Independent study under the supervision of a selected instructor. Learning contract required. May be repeated up to four times for a maximum of 12 credits. Course previously offered as GEOL 396. Permission of the instructor.

Rules & Requirements

Repeat Rules: May be repeated for credit. 12 total credits. 12 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**EMES 401. Oceanography. 3 Credits.**

Required preparation, major in a natural science or two courses in natural sciences. Studies origin of ocean basins, seawater chemistry and dynamics, biological communities, sedimentary record, and oceanographic history. Term paper. Students lacking science background should see EMES 103. Students may not receive credit for both EMES 103 and EMES 401. Course previously offered as GEOL 403/MASC 401.

Rules & Requirements

Grading Status: Letter grade.

Same as: BIOL 350, ENVR 417.

EMES 405. Geochemistry. 3 Credits.

Dive into the world of geochemistry, now enriched with data analytics and machine learning techniques. Engage with thermodynamics, kinetics, and isotope geochemistry through a contemporary lens. This course is a reimagined version tailored for the forward-thinking Earth, Marine and Environmental scientists. Previously offered as GEOL 405/MASC 455.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Requisites: Prerequisite, EMES 101, 200, or 201; permission of instructor for those students who lack the prerequisites.

Grading Status: Letter grade.

EMES 406. Introduction to Geophysics. 3 Credits.

Introduction to the fundamentals of global geophysics: gravity, seismology, magnetism, heat, and plate tectonics. Both shallow and deep processes are considered. Emphasis is aimed at problem solving by applying concepts. Course previously offered as GEOL 406.

Rules & Requirements

Requisites: Prerequisites, PHYS 114 or 118, and either PHYS 115 or 119.

Grading Status: Letter grade.

EMES 410. Earth Processes in Environmental Systems. 4 Credits.

Principles of geological and related Earth systems sciences are applied to analyses of environmental phenomena. The link between the lithosphere and other environmental compartments is explored through case studies of environmental issues. Three lecture hours and one laboratory hour a week.

Rules & Requirements

Requisites: Prerequisites, CHEM 102, GEOL 200, and MATH 231; and PHYS 115 or 119; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: ENEC 410.

EMES 411. Oceanic Processes in Environmental Systems. 4 Credits.

Principles of analysis of the ocean, coast, and estuarine environments and the processes that control these environments are applied to the analysis of environmental phenomena. Case studies of environmental issues. Three lecture hours and one laboratory hour a week.

Rules & Requirements

Requisites: Prerequisite, BIOL 101, CHEM 102, ENEC 222, MATH 231, PHYS 115 or PHYS 119; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: ENEC 411.

EMES 412. Principles and Methods of Teaching Earth Science. 4 Credits.

Required preparation, any introductory geology course. This course develops the knowledge and skills teachers need to implement inquiry-based earth science instruction: conceptual knowledge of earth sciences and mastery of inquiry instructional methods. Students study inquiry in cognitive science and learning theory. This course is a requirement for the UNC-BEST program in geological sciences. Course previously offered as GEOL 412.

Rules & Requirements

IDEAs in Action Gen Ed: HI-SERVICE.

Making Connections Gen Ed: EE- Service Learning.

Grading Status: Letter grade.

Same as: ENEC 412.

EMES 414. Flood Hydrology: Models and Data Analysis. 3 Credits.

River floods are critically important in the global hydrologic cycle. While seasonal floods can be environmentally restorative, they can also have devastating socio-economic and public health consequences. Beginning with the hydrologic cycle, this course will cover concepts related to rainfall runoff and hydrologic response, flood frequency analysis, the mechanics of open channel flow, and overland and channel routing. Students will also gain experience working with real-world data and engineering software. Previously offered as GEOL 514.

Rules & Requirements

Requisites: Prerequisites, EMES 201, EMES 324, MATH 232, and PHYS 114 or 118; or permission of instructor for students missing prerequisites or graduate students.

Grading Status: Letter grade.

Same as: ENEC 514.

EMES 415. Environmental Systems Modeling. 3 Credits.

This course explores principles and strategies for studying environmental phenomena, and presents methods for developing explanatory and predictive models of environmental systems, e.g., predator-prey, estuaries, greenhouse gases, and ecosystem material cycles.

Rules & Requirements

Requisites: Prerequisite, MATH 383; pre- or corequisite, PHYS 115 or 118, and COMP 116.

Grading Status: Letter grade.

Same as: ENEC 415.

EMES 417. Surface Processes and Landscape Evolution. 4 Credits.

The interplay among the fluxes of water, energy, and sediment through geologic time sculpt landscapes and drive environmental change. In both lectures and laboratory exercises, students will learn how simple physical principles applied to rivers and hillslopes allow us to understand the evolution of topography and mountain belts, predict hazards arising from floods, landslides and debris flows, and lead to sustainable management of natural resources such as soil. Previously offered as GEOL 417.

Rules & Requirements

Requisites: Pre- or corequisites, EMES 200 and EMES 201; permission of the instructor for students lacking the pre- or corequisites.

Grading Status: Letter grade.

Same as: ENEC 417.

EMES 421. Archaeological Geology. 3 Credits.

The application of geological principles and techniques to the solution of archaeological problems. Studies geological processes and deposits pertinent to archaeological sites, geologic framework of archaeology in the southeastern United States, and techniques of archaeological geology. Field trips to three or more sites; written reports required. Course previously offered as GEOL 421. Permission of the instructor.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

Same as: ANTH 421.

EMES 422. Physics of the Earth's Interior. 3 Credits.

Origin of the solar system: the nebular hypothesis. Evolution of the earth and its accretionary history. Earthquakes: plate tectonics and the interior of the earth. The earth's magnetic field. Mantle convection.

Rules & Requirements

Requisites: Prerequisites, MATH 383, and either PHYS 201 and 211 or 311 and 401.

Grading Status: Letter grade.

Same as: PHYS 422.

EMES 425. Introduction to Field Geology. 3 Credits.

Introduction to geologic field methods. Includes making observations, mapping, identification of structures and features, and interpretation to solve basic geologic problems. Many field trips. Course previously offered as GEOL 425.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisites, GEOL 200 and 201; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

EMES 431. Major World Rivers and Global Change: From Mountains to the Sea. 3 Credits.

What are the linkages between rivers and global change? This course examines the hydrological, geological and biogeochemical processes that control material flux from land to the oceans via rivers. Course previously offered as MASC 432.

Rules & Requirements

Grading Status: Letter grade.

EMES 432. Paleoclimatology. 3 Credits.

Introduction to mechanisms that drive climate. Examination of past climate reconstructions using ecological and geochemical proxies. Utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on late Quaternary. Course previously offered as GEOL 432.

Rules & Requirements

Requisites: Prerequisite, EMES 303 or 306; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

EMES 433. Wetland Hydrology. 3 Credits.

Study of wetland ecosystems with particular emphasis on hydrological functioning, the transition from terrestrial to aquatic systems, wetlands as filtration systems, and exchange between wetlands and other environments. Course previously offered as MASC 433.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENEC 433.

EMES 434. Blue Carbon and Coastal Environments. 3 Credits.

Readings and discussions about processes in traditional "Blue Carbon" environments (marshes, sea grass beds, and mangroves) and an exploration of carbon burial in other coastal ecosystems such as floodplains and oyster reefs. Course previously offered as MASC 434. Permission of the instructor is required.

Rules & Requirements

Grading Status: Letter grade.

EMES 435. Principles of Environmental Consulting: Mechanics of Groundwater Flow. 3 Credits.

Water is an essential resource for all life, and the availability of clean water will become one of the most important socio-political and economic discussions over the coming decades. This course covers fundamentals of groundwater storage, subsurface flow, and contaminant transport, emphasizing the role of groundwater in the hydrologic cycle, the relation of groundwater flow to geologic structure, and the management of contaminated groundwater and drinking water resources. Course previously offered as GEOL 435.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, EMES 324; MATH 232; PHYS 114 or 118; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: ENEC 435.

EMES 436. Geochemistry of Natural Waters. 3 Credits.

Required preparation, one introductory geology course. Survey of processes affecting the compositions of streams, lakes, the ocean, and shallow ground waters. Course previously offered as GEOL 436.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisites, CHEM 102 and MATH 231; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

EMES 438. Principles of Seismology. 3 Credits.

Descriptive account of global seismology, earthquake distribution, and focal mechanics. Principles of geometrical optics and applications to imaging the earth's interior. Principles of seismic prospecting of hydrocarbon and geothermal reservoirs. Course previously offered as GEOL 440.

Rules & Requirements

Requisites: Prerequisite, EMES 200, 302; MATH 231; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

EMES 440. Marine Ecology. 3 Credits.

Survey of the ecological processes that structure marine communities in a range of coastal habitats. Course emphasizes experimental approaches to addressing basic and applied problems in marine systems. Course previously offered as MASC 440.

Rules & Requirements

Requisites: Prerequisites, BIOL 201; or BIOL 475; or BIOL 103, BIOL 104, and BIOL 260.

Grading Status: Letter grade.

Same as: BIOL 462.

EMES 441. Marine Physiological Ecology. 3 Credits.

This course introduces students to the physiological, morphological, and behavioral factors employed by marine organisms to cope with their physical environment. Emphasis will be placed on the response of marine organisms to environmental factors such as seawater temperature, light, water salinity, ocean acidification, etc. Course previously offered as MASC 441.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENEC 441.

EMES 442. Marine Biology. 3 Credits.

Recommended preparation, BIOL 201 or 475. A survey of plants and animals that live in the sea: characteristics of marine habitats, organisms, and the ecosystems will be emphasized. Marine environment, the organisms involved, and the ecological systems that sustain them. Course previously offered as MASC 442.

Rules & Requirements

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

Same as: BIOL 457.

EMES 443. Marine Microbiology. 3 Credits.

Seminar class focuses on the primary research literature. Physiology of marine microorganisms, microbial diversity and ecology of the marine environment, biogeochemical processes catalyzed by marine microorganisms. Course previously offered as MASC 443. Restricted to junior or senior science majors or graduate students, with permission of the instructor.

Rules & Requirements

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

EMES 444. Marine Phytoplankton. 3 Credits.

For junior and senior science majors or graduate students. Biology of marine photosynthetic protists and cyanobacteria. Phytoplankton evolution, biodiversity, structure, function, biogeochemical cycles and genomics. Harmful algal blooms, commercial products, and climate change. Three lecture/practical session hours per week. Course previously offered as MASC 444. Permission of the instructor.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENEC 444, BIOL 456.

EMES 446. Marine Microbial Symbioses: Exploring How Microbial Interactions Affect Ecosystems and Human Health. 3 Credits.

Course material covers host-microbe and microbe-microbe interactions found in marine ecosystems, including beneficial and parasitic relationships among viruses, microbes, marine animals, and humans. Limited to upper-level undergraduate science majors and graduate students. Course previously offered as MASC 446.

Rules & Requirements

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

Same as: BIOL 452.

EMES 447. Microbial Ecological Genomics. 3 Credits.

For junior and senior science majors and graduate students. Active learning class focused on sequencing and bioinformatic analysis of microbial genomes to identify their ecological function. Topics include sequencing technologies, genome assembly and analysis, command line, bioinformatic tools, and genes mediating microbial physiology and metabolism in natural ecosystems. Course previously offered as MASC 447. Permission of the instructor.

Rules & Requirements

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

EMES 448. Coastal and Estuarine Ecology. 4 Credits.

A field-intensive study of the ecology of marine organisms and their interactions with their environment, including commercially important organisms. Laboratory/recitation/field work is included and contributes two credit hours to the course. Course previously offered as MASC 448.

Rules & Requirements

Requisites: Prerequisites, CHEM 102 and MATH 231.

Grading Status: Letter grade.

Same as: ENEC 448.

EMES 450. Biogeochemical Processes. 4 Credits.

Principles of chemistry, biology, and geology are applied to analysis of the fate and transport of materials in environmental systems, with an emphasis on those materials that form the most significant cycles. Three lecture hours and one laboratory hour a week. Previously offered as GEOL 450/MASC 450.

Rules & Requirements

Making Connections Gen Ed: PL.

Requisites: Prerequisites, CHEM 101 or permission of instructor.

Grading Status: Letter grade.

Same as: ENEC 450.

EMES 460. Fluid Dynamics of the Environment. 3 Credits.

Principles and applications of fluid dynamics to flows of air and water in the natural environment. Conservation of momentum, mass, and energy applied to lakes, rivers, estuaries, and the coastal ocean. Dimensional analysis and scaling emphasized to promote problem-solving skills. Course previously offered as GEOL 460.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 232; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

EMES 466. Environmental Microbiology. 3 Credits.

This course surveys multiple dimensions of environmental microbiology, including methods and techniques for microbial genomics, transcriptomics, and metabolomics, ecological and evolutionary microbiology, the roles of microbes in ecological systems, and current applications of and issues in environmental microbiology.

Rules & Requirements

Requisites: Prerequisites, BIOL 103 and BIOL 104.

Grading Status: Letter grade.

Same as: BIOL 466.

EMES 470. Estuarine and Coastal Marine Science. 4 Credits.

For graduate students; undergraduate students should take ENEC 222 or have permission of the instructor. Introduction to estuarine environments: geomorphology, physical circulation, nutrient loading, primary and secondary production, carbon and nitrogen cycling, benthic processes and sedimentation. Considers human impacts on coastal systems, emphasizing North Carolina estuaries. Course previously offered as MASC 470.

Rules & Requirements

Making Connections Gen Ed: PL, QI.

Grading Status: Letter grade.

EMES 471. Human Impacts on Estuarine Ecosystems. 4 Credits.

A cohesive examination of the human impacts on biological processes in estuarine ecosystems. Laboratory/recitation/field work is included and contributes two credit hours to the course. Taught at off-campus field station.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisites, CHEM 102 and MATH 231.

Grading Status: Letter grade.

Same as: ENEC 471.

EMES 472. Barrier Island Ecology and Geology. 6 Credits.

Recommended preparation, one introductory geology course. An integration of barrier island plant and animal ecology within the context of physical processes and geomorphological change. Emphasis on management and impact of human interference with natural processes. Course previously offered as MASC 472.

Rules & Requirements

Making Connections Gen Ed: PL, EE- Field Work.

Grading Status: Letter grade.

 **EMES 473. The Changing Coasts of Carolina. 3 Credits.**

A rigorous combination of field work, lab work, and colorful, original contemporary writing on the natural world will help tell the story of our many, evolving North Carolina coasts. Combining marine science and the creative literary arts, this immersive course will explore issues of change over many eras. This combination of social, cultural, and scientific observation will lead to imaginatively constructed, well-written non-fiction reportage about one of North America's most productive, compelling, and challenging regions.

Rules & Requirements

 **IDEAs in Action Gen Ed:** COMMBEYOND.

Making Connections Gen Ed: CI, EE- Field Work.

Grading Status: Letter grade.

Same as: ENGL 473.

EMES 483. Geologic and Oceanographic Applications of Geographical Information Systems. 4 Credits.

Required preparation, four EMES courses or permission of the instructor. Focus is on applying GIS concepts and techniques to mining and petroleum geology, resource assessment, hydrogeology, coastal and marine geology, physical oceanography, engineering geology, and a geologic perspective on land use. Three lecture and two laboratory hours a week. Course previously offered as GEOL 483/MASC 483.

Rules & Requirements

Grading Status: Letter grade.

EMES 485. Summer Field Course in Geology. 3 Credits.

Field camp teaching the proper use of geology field tools and how to make a geologic map. Field interpretation of rocks and their deformation. Course previously offered as GEOL 485.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisites, EMES 302, 303, and 304; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

EMES 486. Summer Field Course in Geology. 3 Credits.

Field camp teaching advanced mapping skills necessary to interpret geologic history of complexly deformed rocks. Course previously offered as GEOL 486.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisites, EMES 302, 303, and 304; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

EMES 490. Special Topics in Earth, Marine, and Environmental Sciences for Undergraduates and Graduates. 1-3 Credits.

Directed readings, laboratory, and/or field study of earth, marine, and environmental science topics not covered in scheduled courses. Course previously offered as MASC 490.

Rules & Requirements

Repeat Rules: May be repeated for credit. 12 total credits. 12 total completions.

Grading Status: Letter grade.

EMES 501. Geological Research Techniques. 3 Credits.

Theory and practice of analytical methods in geochemistry including X-ray diffraction, X-ray fluorescence, and scanning electron microscopy; introduction to electronics. Course previously offered as GEOL 501. Permission of the instructor.

Rules & Requirements

Grading Status: Letter grade.

EMES 502. Earth Surface Processes. 3 Credits.

This course will focus on the processes of soil formation, erosion, and landform evolution with an emphasis on the interaction of geomorphic processes with surface hydrology and ecosystems. (EES) Course previously offered as GEOL 502.

Rules & Requirements

Making Connections Gen Ed: PL.

Requisites: Prerequisite, GEOG 110.

Grading Status: Letter grade.

Same as: GEOG 440.

EMES 503. Marine Geology. 4 Credits.

For graduate students; undergraduates need permission of the instructor. Investigates formation of the oceans, plate tectonics, carbonate reefs and platforms, sediment transport from the land to deep-sea fans, glacial-marine geology, marine records of changes in sea level and climate, and the evolution of barrier islands, estuaries, and deltas. Mandatory weekend field trip to the Southern Outer Banks. Course previously offered as MASC 503/GEOL 503.

Rules & Requirements

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

EMES 504. Advanced Petrology. 3 Credits.

Origin of magmas and evolution of igneous and metamorphic rocks, combined with petrographic study of selected sites. Course previously offered as GEOL 504.

Rules & Requirements

Requisites: Prerequisite, EMES 304.

Grading Status: Letter grade.

EMES 505. Chemical Oceanography. 4 Credits.

Graduate students only; undergraduates must have permission of the instructor. Overview of chemical processes in the ocean. Topics include physical chemistry of seawater, major element cycles, hydrothermal vents, geochemical tracers, air-sea gas exchange, particle transport, sedimentary processes, and marine organic geochemistry. Three lecture and two recitation hours per week. Course previously offered as GEOL 505/MASC 505.

Rules & Requirements

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

Same as: ENVR 505.

EMES 506. Physical Oceanography. 4 Credits.

For graduate students; undergraduates need permission of the instructor. Descriptive oceanography, large-scale wind-driven and thermohaline circulations, ocean dynamics, regional and nearshore/estuarine physical processes, waves, tides. Three lecture and one recitation hour per week. Course previously offered as GEOL 506/MASC 506.

Rules & Requirements

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

EMES 507. Biological Oceanography. 4 Credits.

For graduate students; undergraduates need permission of the instructor. Marine ecosystem processes pertaining to the structure, function, and ecological interactions of biological communities; management of biological resources; taxonomy and natural history of pelagic and benthic marine organisms. Three lecture and recitation hours per week. One mandatory weekend fieldtrip. Course previously offered as MASC 504.

Rules & Requirements

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

Same as: BIOL 657, ENVR 520.

EMES 508. Global Hydrology. 3 Credits.

An introduction to methodologies and instrumentation for quantifying the movement of water in the earth system focusing on components of the hydrologic cycle. Course previously offered as GEOL 508.

Rules & Requirements

Requisites: Prerequisites, ENEC/EMES 324 and MATH 231; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

EMES 511. Stable Isotopes in the Environment. 3 Credits.

Introduction to the theory, methods, and applications of stable isotopes to environmental problems. Primary focus will be on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, and nitrogen isotopes. Course previously offered as GEOL 511.

Rules & Requirements

Requisites: Prerequisite, CHEM 102.

Grading Status: Letter grade.

Same as: ENEC 511.

EMES 512. Advanced Coastal Environmental Change. 3 Credits.

This 3-credit seminar-style class for graduate students and advanced undergraduate students focuses on developing a deeper understanding of coastal environmental change as illuminated by the scientific literature, including topics such as climate change impacts; coupled human-natural coastal dynamics; feedbacks between biological and physical processes; carbon storage and flux; adaptive coastal management; and the role of science, policy and communication in coastal resilience. Course previously offered as ENEC 710/GEOL 710/MASC 730.

Rules & Requirements

Requisites: Prerequisite, EMES 303, 310, 410, 417, or 503; permission of the instructor for students lacking the prerequisite.

Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading Status: Letter grade.

Same as: ENEC 512.

EMES 520. Data Analysis for Earth and Marine Sciences. 3 Credits.

Introduction to quantitative analysis in earth and marine sciences: solid earth, atmospheres, oceans, geochemistry, and paleontology. Topics covered: univariate and multivariate statistics, testing, nonparametric methods, time series, spatial and cluster analysis, shapes. A required course for EMES graduate students. Course previously offered as GEOL 520.

Rules & Requirements

Requisites: Prerequisites, MATH 231 and 232.

Grading Status: Letter grade.

EMES 525. Modelling in Earth and Marine Sciences. 3 Credits.

The course deals with earth science problems related to extracting model parameters from data and field observations. Details of mathematical concepts, real world examples, and practical applications associated with noisy or incomplete data are covered. Key concepts include multivariate regression, model discretization, Tikhonov regularization, and Bayesian methods. Course previously offered as GEOL 525.

Rules & Requirements

Grading Status: Letter grade.

EMES 530. Tectonic Geomorphology. 3 Credits.

Topography in actively deforming mountain ranges represents an interplay between tectonic processes that build and sustain elevation gradients, surface processes that are modulated by climate, and earth materials. This course provides an introduction to how these processes sculpt the topography of Earth's mountain ranges. Students will learn to read signatures of tectonic activity in the sediment efflux from active orogens, in the isotopic proxies of erosional denudation, and in the topography of actively deforming mountains.

Rules & Requirements

Grading Status: Letter grade.

EMES 555. Paleobotany: An Introduction to the Past History of Plants. 3 Credits.

An introduction to the fossil record of plants, investigating how plants originated and changed through geological time to produce the modern flora. Both macrofossils and microfossils will be considered. Three lecture hours a week. Previously offered as GEOL 555.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisites, BIOL 103, BIOL 104, and either BIOL 250 or BIOL 271; or permission of the instructor for students lacking the prerequisites; Corequisite, BIOL 555L; permission of the instructor for students lacking the requisites.

Grading Status: Letter grade.

Same as: BIOL 555.

EMES 560. Fluid Dynamics. 3 Credits.

The physical properties of fluids, kinematics, governing equations, viscous incompressible flow, vorticity dynamics, boundary layers, irrotational incompressible flow. Course previously offered as GEOL 560/MASC 560.

Rules & Requirements

Requisites: Prerequisite, PHYS 401; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: ENVR 452, PHYS 660.

EMES 561. Time Series and Spatial Data Analysis. 3 Credits.

Three components: statistics and probability, time series analysis, and spatial data analysis. Harmonic analysis, nonparametric spectral estimation, filtering, objective analysis, empirical orthogonal functions. Course previously offered as MASC 561.

Rules & Requirements

Making Connections Gen Ed: PL, QI.

Requisites: Prerequisite, MATH 233; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

EMES 563. Descriptive Physical Oceanography. 3 Credits.

Observed structure of the large-scale and mesoscale ocean circulation and its variability, based on modern observations. In-situ and remote sensing techniques, hydrographic structure, circulation patterns, ocean-atmosphere interactions. Course previously offered as GEOL 563/MASC 563.

Rules & Requirements

Making Connections Gen Ed: PL.

Requisites: Prerequisite, MASC 506; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

EMES 567. Application of Plasma Mass Spectrometry in Earth and Environmental Sciences. 3 Credits.

This class is an introduction to one of the state-of-the-art analytical techniques in geological and environmental research - the ICP-MS (Inductively Coupled Plasma - Mass Spectrometry). Students will have hands-on experiences with ICP-MS sample preparation and analysis, and they will design their own hypothesis-driven research projects to analyze major and trace elements in geological and environmental samples including water, rock, and soil. Course previously offered as GEOL 567.

Rules & Requirements

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisite, EMES 101, 200, or 201.

Grading Status: Letter grade.

EMES 580. Evolution of Earth's Surface Environment. 3 Credits.

The course combines geology, climatology, hydrology, and soil science to explore the evolution of the surface environment of the earth from the Archean to the present, including the great oxidation event and modern ocean anoxia. Students will read research papers and will be encouraged to question and debate course topics. Course previously offered as GEOL 580.

Rules & Requirements

Grading Status: Letter grade.

EMES 590. Special Topics in Earth, Marine, and Environmental Sciences. 1-4 Credits.

Discussion or lab-based consideration of topical issues in earth, marine, and environmental sciences. Course previously offered as GEOL 590.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.

Grading Status: Letter grade.

EMES 608. Continuum Mechanics in the Earth Sciences. 3 Credits.

Applications of continuum mechanics in the earth sciences, including stress, strain, elasticity, and viscous flow. Numerical solutions to problems in heterogeneous finite strain including finite element analysis. Course previously offered as GEOL 608.

Rules & Requirements

Requisites: Prerequisites, EMES 302, and PHYS 114 or 118.

Grading Status: Letter grade.

Same as: ENEC 608.

EMES 612. Isotope Geochemistry. 3 Credits.

Survey of isotopic studies in geology; geochronology, crustal evolution, heat flow, paleotemperatures, origin of ore deposits.

Rules & Requirements

Requisites: Prerequisites, CHEM 102, EMES 301, 303, and 304.

Grading Status: Letter grade.

EMES 655. Recent Advances in Non-Traditional Stable Isotope Geochemistry. 3 Credits.

This seminar will introduce students to state of the art analytical techniques, current theories, and their applications in various geological processes regarding the non-traditional stable isotopes (e.g., Li, Mg, Fe, Mo, and Cr). After introducing some basic principles and analytical techniques of these so called "non-traditional" stable isotopes, students will present and discuss recent literature in this arena. Course previously offered as GEOL 655.

Rules & Requirements

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

EMES 691H. Honors in Earth, Marine, and Environmental Sciences. 3 Credits.

By permission of the department. For details, see Department degree requirements. Course previously offered as GEOL 691H.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

EMES 692H. Honors in Earth, Marine, and Environmental Sciences. 3 Credits.

For details, see Department degree requirements. Course previously offered as GEOL 692H.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisite, EMES 691H.

Grading Status: Letter grade.

Earth and Marine Sciences Major, B.S.

The B.S. degree program aims to prepare students for employment in the fields of earth and marine sciences as well as graduate study. Students in this program will understand the processes that shaped the Earth and continue to shape it today. By studying earth and marine sciences, students learn about the structure, composition, and history of the planet we live on. They will learn the importance of managing natural resources like water, minerals, and fossil fuels. Students will learn how

to assess and mitigate natural hazards such as earthquakes, landslides, floods, coastal erosion, and volcanic eruptions. They will learn to identify potential hazards and develop strategies to minimize their impact. Earth and marine science plays a crucial role in managing our environment. Students will learn to assess the impact of human activities on the Earth and develop strategies to minimize negative effects. They will study processes like climate change that can impact ecosystems.

In addition to the goals listed above, the geoscience concentration is designed to permit students to pursue professional licensure in geology and the hydrology concentration is designed to permit students to pursue professional certification in hydrology. Professional licensure and certification are significant enhancements to career paths in these fields.

Please note that B.S. in geological sciences is available for students who started at the University prior to fall 2023. Please see the Catalog Archives (p. 1327) for program requirements.

Student Learning Outcomes

Upon completion of the Earth and marine sciences program (B.S.), students should be able to:

- Recognize foundational concepts in earth and marine sciences and identify how these disciplines are relevant to humans and society.
- Assess real-world problems in the earth and marine sciences and apply scientific reasoning to solve them.
- Communicate clearly and effectively to a range of audiences.
- Collect, analyze and evaluate earth and marine science data from both field and laboratory settings.

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Students can pursue one of three concentrations, as outlined below.

Geoscience Concentration

Code	Title	Hours
Core Requirements		
EMES 200	 The Solid Earth	3
EMES 201	 Earth's Surface: Processes, Landforms, and History	3
EMES 203	 Data Analysis for Earth, Marine, and Environmental Sciences	3
Select four fundamentals courses (at least one with a lab)		13
EMES 301	Earth Materials: Minerals	
EMES 302	Structural Geology	
EMES 303	Sedimentology and Stratigraphy	
EMES 304	Petrology and Plate Tectonics	

EMES 306	Earth Systems History	
EMES 405	Geochemistry	
EMES 406	Introduction to Geophysics	
EMES 417	Surface Processes and Landscape Evolution	
EMES 435	Principles of Environmental Consulting: Mechanics of Groundwater Flow	
Select three EMES specialization courses numbered 300 and higher		9-12
Six credits of a capstone experience:		6
EMES 395	Undergraduate Research in Earth, Marine, and Environmental Sciences (6 credit hours total)	
EMES 485 & EMES 486	Summer Field Course in Geology and Summer Field Course in Geology	
EMES 691H & EMES 692H	Honors in Earth, Marine, and Environmental Sciences and Honors in Earth, Marine, and Environmental Sciences	
Additional Requirements		
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
MATH 231	Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	Calculus of Functions of One Variable II ^{H, F}	4
PHYS 114	General Physics I: For Students of the Life Sciences ^F	4
or PHYS 118	Introductory Calculus-based Mechanics and Relativity	
Select two of the following options:		6-8
BIOL 101/101L or BIOL 101/102L		
COMP 110	Introduction to Programming and Data Science ^H	
or COMP 111 (Introduction to Scientific Programming)		
Any MATH above MATH 232 or MATH 210		
STOR 120, 151, or 155		
PHYS 115	General Physics II: For Students of the Life Sciences ^F	
or PHYS 119 Introductory Calculus-based Electromagnetism and Quanta		
Total Hours		63-68

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Must be pre-approved by the Director of Undergraduate Studies.

² This course may also be used to satisfy one of the required GEOL courses numbered above 300

Hydrology Concentration

Code	Title	Hours
Core Requirements		
EMES 201	Earth's Surface: Processes, Landforms, and History	3
EMES 203	Data Analysis for Earth, Marine, and Environmental Sciences	3
Select one of the following options:		3
EMES 200	The Solid Earth	
EMES 103 & 103L	The Marine Environment and The Marine Environment Laboratory ^F	
EMES 401	Oceanography	
Select four fundamentals courses (at least one with a lab)		13
EMES 303	Sedimentology and Stratigraphy

Geological Sciences Major, B.A.— Earth Science Concentration

The study of earth's dynamic systems is a field that has seen major advances over the last few decades. Geologists investigate diverse systems that play a large role in controlling the environment at the earth's surface. The B.A. degree is designed to prepare students for professional employment in the earth and environmental sciences and is an ideal degree program for students who wish to pursue a double major.

Student Learning Outcomes

Upon completion of the geological sciences program (B.A.), students should be able to:

- Demonstrate broad knowledge of core geological concepts
- Produce written synthesis of professional journal articles dealing with topics covered in advanced courses
- Make a clear and effective oral presentation
- Apply knowledge and skills from coursework in a significant field experience in an area of geological sciences

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
EMES 200	 The Solid Earth	3
EMES 201	 Earth's Surface: Processes, Landforms, and History	3
A minimum of 11 credits from the following EMES courses:		11
EMES 221	Geology of North America	
EMES 301	Earth Materials: Minerals	
EMES 302	Structural Geology	
EMES 303	Sedimentology and Stratigraphy	
EMES 304	Petrology and Plate Tectonics	
EMES 306	 Earth Systems History	
EMES 324 & 324L	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems and  Water in Our World Laboratory	6
Capstone requirement:		6
EMES 485 & EMES 486	Summer Field Course in Geology and Summer Field Course in Geology	
EMES 691H & EMES 692H	 Honors in Earth, Marine, and Environmental Sciences and  Honors in Earth, Marine, and Environmental Sciences	
EMES 395	 Undergraduate Research in Earth, Marine, and Environmental Sciences ¹	
Science-oriented Experiential Education (EE) courses (6 credits total). ²		
Additional Requirements		
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
MATH 130	 Precalculus Mathematics ^F	3
At least three geology and/or allied science electives not otherwise required for the major (see below chart)		9
Total Hours		39

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ 6 credits of independent research

² Must be pre-approved by the director of undergraduate studies.

Special Opportunities in Earth, Marine, and Environmental Sciences Honors in Geological Sciences

The honors program is open to undergraduates with an overall grade point average of 3.3 or better as of the beginning of the fall semester of the senior year. To participate in this program, the student chooses a research topic in consultation with his or her chosen faculty sponsor and conducts the research during the last two semesters in residence. The research project should represent the equivalent time expenditure of six hours of course credit and is taken as EMES 691H (fall semester) and EMES 692H (spring semester).

Upon recommendation of the faculty, students may be awarded the degree with honors or highest honors. Highest honors is reserved for students who have distinguished themselves in both coursework and independent research. In order to obtain this distinction the student must maintain a grade point average of 3.60 or higher and complete a research project that is worthy of peer-reviewed publication.

Departmental Involvement

The department encourages the active participation of undergraduates in department research, teaching, and social life. In addition to opportunities for experiential education and teaching internships described below, the department has an active Geology Honor Fraternity and Geology Club and regularly sponsors field excursions, career information sessions, and social events. Dates, times, and locations for all events are posted on the website and in the main lobby on the first floor of Mitchell Hall.

Experiential Education

Many department courses emphasize experiential learning through field and laboratory work. Most degree tracks include a field geology course (EMES 485 and EMES 486 or a similar course in another department) that fulfills the experiential education General Education requirement (in the Making Connections curriculum). Additionally, all students are encouraged to contact faculty members about conducting independent research, either as an honors thesis or a senior thesis project.

UNC-BEST

The UNC Baccalaureate Education in Science and Teaching (UNC-BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate science majors interested in teaching high school science the

opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years.

Code	Title	Hours
Educational Foundations

Total Hours		26

For more details on admission requirements, application deadlines, and submitting an online application, visit the School of Education website (<http://soe.unc.edu/academics/uncbest/>).

Study Abroad

Although the department has no formalized study abroad program, many students participate in a study abroad program, and some receive credit for geology coursework completed abroad. Students interested in a study abroad program should contact the director of undergraduate studies. Students must receive approval from the director of undergraduate studies prior to taking courses abroad for geology credit.

Undergraduate Awards

The Op White Prize in Geology, established in 1966, consists of a cash prize and an engraved bronze plaque displayed in the geology office. The award is given annually to the outstanding senior in geology.

Field Camp Scholarships

Several scholarships for geology field camp are awarded each year from the Grover Murray and Anadarko funds.

Undergraduate Research

The department encourages qualified undergraduate students to conduct independent research on an interesting geologic topic under the direction of a geological sciences faculty member. This research can be conducted as a one- to four-credit hour project (EMES 395) or in conjunction with the geology honors program.

Environmental Microbiology Minor

Microbes are responsible for controlling the movement of energy, mass, and information through ecosystems (natural, artificial, and human). The environmental microbiology minor will develop students understanding of fundamental concepts in microbiology (cell structure, physiology, metabolism) together with an understanding of the evolutionary and ecological processes that shape their activities in earth's environments. By completing the minor, students will gain training to prepare them for a wide variety of microbiology careers, including environmental sciences, health sciences, biotechnology industries, and more.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
One course emphasizing microbiology fundamentals, chosen from:		3-4
EMES 204	 The Microbial World: Foundations in Structure, Metabolism, and Ecology ¹	
BIOL 422 & 422L	Microbiology and Microbiology Laboratory ¹	
MCRO 251	Introductory Medical Microbiology	

Four courses emphasizing microbial ecological theory, evolution, or within the environment, chosen from: 12

EMES 443	Marine Microbiology
EMES 444/ BIOL 456/ ENEC 444	Marine Phytoplankton
EMES 446/ BIOL 452	Marine Microbial Symbioses: Exploring How Microbial Interactions Affect Ecosystems and Human Health

Geological Sciences Minor

The minor in geological sciences is designed for students who would like to acquire a basic knowledge of geology in addition to their major area of study. The minor requirements can be satisfied with a wide variety of course work that will provide students with an understanding of earth resources, structure, processes, and history. These topics are particularly valuable to students who are interested in natural resources, including energy and water, and environmental hazards.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC—Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Hydrology Minor

Water is critical to all life on earth. The hydrology minor at UNC is designed to provide students with fundamental knowledge of the natural and societal processes which govern the occurrence, distribution, and biogeochemical properties of water on the Earth, and the ability to use that knowledge to address modern societal challenges. Students who complete the minor will be well-qualified to pursue careers in environmental consulting, water management and/or policy, climate services, and more.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours

Marine Sciences Minor

The minor in marine sciences is designed to allow students access to departmental courses, facilities, and advisors in order to develop marine specializations related to their majors and to prepare for postgraduate study in marine sciences or a related field.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
One course emphasizing global oceanic processes:		3
EMES 103	The Marine Environment ¹ or EMES 401 Oceanography	
One course emphasizing the coastal ocean		3
ENEC 222	Estuarine and Coastal Marine Science	
EMES 55	First-Year Seminar: Change in the Coastal Ocean	
EMES/ENEC 220	North Carolina Estuaries: Environmental Processes and Problems	
EMES/ENEC 411	Oceanic Processes in Environmental Systems	
EMES 431	Major World Rivers and Global Change: From Mountains to the Sea	
EMES/ENEC 433	Wetland Hydrology	
EMES 442/ BIOL 457	Marine Biology	
EMES/ENEC 448	Coastal and Estuarine Ecology	
EMES/ENEC 471	Human Impacts on Estuarine Ecosystems	
EMES 472	Barrier Island Ecology and Geology	
MASC 440/ BIOL 462	Marine Ecology	
or an equivalent course with a focus on the coastal ocean and approved by the director of undergraduate studies		
One course featuring practical experience in marine sciences. Choose one from the following four groups:		3
Group 1:		
ENEC 222	Estuarine and Coastal Marine Science	
EMES 52	First-Year Seminar: Living with Our Oceans and Atmosphere	
EMES/ENEC 220	North Carolina Estuaries: Environmental Processes and Problems	
EMES 431	Major World Rivers and Global Change: From Mountains to the Sea	
EMES/ENEC 448	Coastal and Estuarine Ecology	
EMES/ENEC 471	Human Impacts on Estuarine Ecosystems	
EMES 472	Barrier Island Ecology and Geology	
EMES 503/ BIOL 657/ ENVR 520	Marine Geology	
EMES 507	Biological Oceanography	
or an equivalent field course approved by the director of undergraduate studies		

Group 2:

EMES/ENEC 415 Environmental Systems Modeling

EMES 483 Geologic and Oceanographic Applications of Geographical Information Systems

EMES 561 Time Series and Spatial Data Analysis

or an equivalent mathematical modeling or data analysis course approved by the director of undergraduate studies

Group 3:

EMES 444/
BIOL 456/
ENEC 444

or an equivalent laboratory course approved by the director of undergraduate studies

Group 4:

EMES 395 Undergraduate Research in Earth, Marine, and Environmental Sciences

A marine sciences course of the student's choosing 3

Total Hours 12

¹ Students may not receive credit for both EMES 103 and EMES 401.

Earth, Marine, and Environmental Sciences (EMES) course descriptions (<https://catalog.unc.edu/courses/emes/>).

Special Opportunities in Marine Sciences Undergraduate Research

The department offers opportunities to undergraduates to conduct directed research in our laboratories. Students work directly with faculty members and may enroll for credit as part of an honors or research project. The liaison for undergraduate research provides information about research opportunities in marine sciences, and assists undergraduates in finding a faculty advisor/research group that matches their interests.

Experiential Education

There are three opportunities for experiential education in Marine Sciences:

- EMES 220 is taught during Maymester at the main campus with one week at the UNC–Chapel Hill Institute of Marine Sciences in Morehead City, NC.
- EMES 395 can be taken with the permission of a faculty advisor.
- EMES 472 is taught at the UNC–Chapel Hill Institute of Marine Sciences in Morehead City, NC, during the summer session and provides an experience in the field.

Department of Economics

Introduction

Economics is commonly defined as the study of how society allocates scarce resources to satisfy unlimited wants. It focuses upon the fact that we wish to maximize our satisfaction through the consumption of goods and services (including leisure time); however, the resources available for production are limited. Hence, decisions must be made regarding what to produce, how to produce it most efficiently, and how to distribute the output among the various members of the society. Economics analyzes the market framework for making such choices.

At the microeconomic or “individual unit” level, economics examines the behavior of consumers, business firms, workers, and individual markets. At the macroeconomic or “aggregate” level, attention is given to the national and international problems of unemployment, inflation, balance of payments, and economic growth.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department’s director of undergraduate studies and undergraduate advisor work with current and prospective majors by appointment. (See contact information above.) Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, the

honors program, careers, and graduate schools may be obtained from the department’s website.

Graduate School and Career Opportunities

Economics students in recent years have frequently pursued graduate work in law and business administration, as well as the Ph.D. degree in economics. Others have entered international affairs/international studies programs. Students planning to pursue graduate work in economics should continue to take mathematics courses beyond the required level, and a minor or second major in mathematics is recommended.

Most students have accepted employment with commercial and investment banks, accounting and insurance firms, and a variety of other corporations. The economics major competes well with other majors (including business administration) in the job market. Employment surveys of recent graduates by UNC–Chapel Hill’s University Career Services indicate a relatively high ranking for economics majors in terms of employment rates and starting salaries. Note: Recent majors have found that job possibilities are enhanced if at least one accounting course has been completed at the undergraduate level.

Major

- Economics Major, B.A. (p. 527)
- Economics Major, B.S. (p. 530)

Minor

- Economics Minor (p. 532)
- Entrepreneurship Minor (p. 534)

Graduate Programs

- M.S. in Economics (<https://catalog.unc.edu/graduate/schools-departments/economics/>)
- Ph.D. in Economics (<https://catalog.unc.edu/graduate/schools-departments/economics/>)

Professors

Gary A. Biglaiser, Anusha Chari, Luca Flabbi, Neville Francis, Jane Fruehwirth, Eric Ghysels, Donna B. Gilleskie, Peter R. Hansen, Lutz Hendricks, Jonathan Hill, Brian McManus, Steven S. Rosefield, Jonathan Williams, Andrew Yates.

Associate Professors

Andrii Babii, Fei Li, Peter Norman, Sergio Parreiras, Klara Peter, Stanislav Rabinovich, Valentin Verdier.

Assistant Professors

Jaden Chen, Marco Duarte, Qing Gong, Andrés Hincapié, Désiré Kédagni, Jacob Kohlhepp, Can Tian.

Teaching Professors

Michelle Sheran-Andrews, Geetha Vaidyanathan.

Teaching Associate Professors

Christopher Handy, Christopher Roark, Kalina Staub.

Teaching Assistant Professors

Robert McDonough.

Professor of the Practice

Bernard Bell.

Adjunct Faculty

Simon Alder, James Anton, Clement Joubert, Ju Hyun Kim, Asger Lunde, Nathan Letts, Gordon Liu, Michael T. Owyang, Toan Phan, Frank Sloan, Duncan Thomas.

Professors Emeriti

John S. Akin, Dennis Appleyard, Rita Anne Balaban, Ralph Byrns, Patrick J. Conway, William A. Darity Jr., Alfred J. Field Jr., A. Ronald Gallant, David K. Guilkey, Dell B. Johannesen, James L. Murphy, Michael K. Salemi, John Stewart, Helen Tauchen, Boone Turchi, Roger Waud, James Wilde, Xiaodong Wu.

ECON–Economics

ECON 101 or equivalent is a prerequisite to all courses numbered above the 100 level. In addition, University graduation credit will be given for only one course in each of the following sets of courses: ECON 310 and ECON 410, ECON 320 and ECON 420, ECON 320 and ECON 423, ECON 345 and ECON 445, ECON 380 and ECON 480.

Undergraduate-level Courses

ECON 54. First-Year Seminar: The Entrepreneurial Imagination: Turning Ideas into Reality. 3 Credits.

What are the skills and competencies that great entrepreneurs have in common and how might first-year students begin to acquire such skills? This course will answer the question by combining a study of the writings of leading scholars on innovation and entrepreneurship with analytical case studies on successful entrepreneurs.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

ECON 55. First-Year Seminar: Economics of Sports. 3 Credits.

This course teaches you some basic economic principles by using examples from the world of sport. Through readings, videos, lectures, discussions, and personal experiences we will use the sports industry to learn about the economic way of thinking, market structures, labor markets, game theory, market failure, and public finance. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-KNOWING.

Making Connections Gen Ed: CI, EE- Mentored Research.

Grading Status: Letter grade.

ECON 56. First-Year Seminar: Entrepreneurship: Asia and the West. 3 Credits.

This course fits the Carolina Entrepreneurial Initiative (CEI), with a communication intensive, global issues framework.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

ECON 57H. First-Year Seminar: Constructing Your Own Venture. 3 Credits.

This class presents principles of entrepreneurship in the context of creating an entrepreneurial venture. You will work in teams over the semester to take an idea, identify its customers and bring it to life, working intensively with instructors and designated advisors. Teams will present a viable product at semester end.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS, CI.

Grading Status: Letter grade.

ECON 58. First-Year Seminar: Researching the Tools for Success in College. 3 Credits.

In this Course-based Undergraduate Research Experience (CURE), we will study the barriers and tools for success in college. Students will develop a measure of success and identify a focal barrier to success in collaboration with classmates and drawing on existing research. Students will synthesize existing evidence in the related literature, collect their own data, and create their own evidence on the topic. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, RESEARCH.

Making Connections Gen Ed: SS, EE- Mentored Research.

Grading Status: Letter grade.

ECON 89. First Year Seminar: Special Topics. 3 Credits.

This is a special topics course. Content will vary each semester. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

ECON 100. Economic Principles. 3 Credits.

Discussion of economic topics of current interest for students with little or no background in economics.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Grading Status: Letter grade.

 **ECON 101. Introduction to Economics. 4 Credits.**

Introduction to fundamental issues in economics including competition, scarcity, opportunity cost, resource allocation, unemployment, inflation, and the determination of prices. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-LAUNCH (only designated sections), FC-KNOWING.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

 **ECON 111. The Economics of Entrepreneurship and Innovation. 3 Credits.**

This course will present the fundamental concepts of economics necessary to the understanding of the theory and practice of entrepreneurship. Topics include supply and demand, consumer choice, profit maximization and choice under uncertainty. The presentation of these topics will be structured around a series of case studies of entrepreneurial innovation.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Grading Status: Letter grade.

 **ECON 125. Introduction to Entrepreneurship. 3 Credits.**

This course covers both theoretical frameworks and practical examples of how to think like an entrepreneur and identify innovative opportunities. Students will learn about innovating, marshalling limited resources, inspiring teams, and persisting through challenges and uncertainty, often by trying, learning from what happens, and trying something better. Students will be applying the concepts of high-performing teams, design thinking, lean startup, pitching, as well as a range of different tools for evaluating venture feasibility and viability. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

 **ECON 193. Internship in Shuford Program in Entrepreneurship. 1-3 Credits.**

This is an internship credit course for the internship completed by students in the Entrepreneurship minor. The internship is a requirement for the Entrepreneurship minor. The internship should be approved for credit by the Career Development Manager in the Shuford Program in Entrepreneurship. This is a controlled enrollment course and students cannot enroll by themselves in ConnectCarolina. The Shuford Program's Coordinator will enroll the students after the internship is approved for credit.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Requisites: Prerequisites, ECON 125 and ECON 325.

Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.

Grading Status: Pass/Fail.

ECON 290. Special Topics. 1-3 Credits.

The goal of the course is to better prepare ECON majors for their careers upon graduation. We will work on building real-life core transferable skills that will help students in their pursuit of careers not just right out of college but years down the road for jobs that may not have even been created yet. The skills will be both technical as well as working on leadership and teamwork attributes.

Rules & Requirements

Requisites: Prerequisites, ECON 400 and 410 or permission of the instructor.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading Status: Pass/Fail.

 **ECON 291. Undergraduate Learning Assistant Seminar and Practicum. 1-3 Credits.**

Permission of the instructor. Studies have shown that courses utilizing undergraduate learning assistants have improved quality of instruction, sensitivity to student concerns, and overall student contact. Undergraduate learning assistants also gain an improved knowledge of the subject matter, heightened communication skills, and a sense of membership in the academic community.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-LEARNTA.

Making Connections Gen Ed: EE - Undergraduate Learning Assistant, ULA.

Repeat Rules: May be repeated for credit. 12 total credits. 12 total completions.

Grading Status: Letter grade.

ECON 292. Career Preparation for Economics Majors. 1 Credits.

This course prepares ECON majors for their careers upon graduation. This class will teach students skills needed to shape their career from first job through last. We emphasize how to market yourself, network, interview techniques and creating an effective resume. We will build core transferable skills that will help students in pursuing a career not just right out of college but years in the future for jobs that may not have even been created yet. Majors only.

Rules & Requirements

Requisites: Prerequisites, ECON 400 and ECON 410; permission from instructor for students lacking the prerequisites.

Grading Status: Pass/Fail.

 **ECON 293. Internship. 3 Credits.**

Permission of the director of undergraduate studies. Majors only. A supervised internship appropriate for experiential education in economics. Cannot count toward the economics major. Pass/Fail only.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Grading Status: Pass/Fail.

ECON 310. Microeconomics: Theory and Applications. 3 Credits.

Analysis of the ways in which consumers and business firms interact in a market economy. Students may not receive credit for both ECON 310 and 410.

Rules & Requirements

Requisites: Prerequisite, ECON 101.

Grading Status: Letter grade.

Same as: MNGT 310.

ECON 320. Macroeconomics: Theory and Policy. 3 Credits.

Analysis of economic theory and government policy as they relate to such national economic variables as output, income, employment, inflation, investment, and budget and trade deficits. Students may not receive credit for both ECON 320 and 420 or both ECON 320 and 423.

Rules & Requirements

Grading Status: Letter grade.

ECON 325. Entrepreneurship: Principles, Concepts, Frameworks, and Fluency. 3 Credits.

This class provides a foundation in key principles, concepts, and fluency in entrepreneurship, specifically in the areas of design thinking, understanding consumers and customers, company strategy, and entrepreneurial finance and capital formation. Additionally, the class introduces important skills and tools important in startups and growth companies such as branding, storytelling and video making. Priority is given to students accepted into the Shuford Minor in Entrepreneurship. Honors version available.

Rules & Requirements

Requisites: Prerequisite, ECON 125; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

ECON 326. Social Entrepreneurship. 3 Credits.

Examines students' knowledge and understanding of social entrepreneurship as an innovative approach to addressing complex social needs. Affords students the opportunity to engage in a business planning exercise designed to assist them in establishing and launching a social purpose entrepreneurial venture. Honors version available.

Rules & Requirements

Grading Status: Letter grade.

Same as: PLCY 326, PLAN 326.

 **ECON 327. Venture-Creation Workshop. 3 Credits.**

This course applies to the entrepreneurial process with hands-on activities and guidance from experienced entrepreneurs. Students work in teams to experience first-hand what it is like to create a new venture. Different sections are offered for the following types of ventures: commercial, sports management, media and entertainment, arts, and scientific. Each section instructor has entrepreneurial experience in that venture type. Other track courses for the Entrepreneurship Minor are listed at Shuford.unc.edu. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Requisites: Prerequisite, ECON 325; permission of the instructor for students lacking the prerequisite.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

ECON 328. Arts Entrepreneurship. 3 Credits.

The goal of this course is to build upon the teachings of ECON 125 and ECON 325 by conceptualizing, writing, preparing, and presenting formal business plans for entrepreneurial ventures in the arts. We will examine the challenges and changing nature of entrepreneurship and innovation as they relate to the arts with a goal to provide business world examples of such challenges.

Rules & Requirements

Requisites: Prerequisites, ECON 101, 125, and 325.

Grading Status: Letter grade.

ECON 330. Economic History of the United States. 3 Credits.

Main features of the American economy: colonial times to the present. Students may not receive credit for both ECON 330 and ECON 430.

Rules & Requirements

Grading Status: Letter grade.

Same as: MNGT 330.

 **ECON 345. Public Policy Toward Business. 3 Credits.**

Industry structure and its relation to performance; market imperfections; description and analysis of antitrust and regulation. Students may not receive credit for both ECON 345 and ECON 445.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Requisites: Prerequisite, ECON 310 or 410.

Grading Status: Letter grade.

Same as: MNGT 345.

ECON 360. Survey of International and Development Economics. 3 Credits.

An introduction to basic economic concepts critical to understanding issues of economic development and international economics, particularly as they relate to contemporary policy issues facing both developing and industrialized countries. Honors version available.

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

 **ECON 362. Exploring Economies. 3 Credits.**

During this course, students will explore both microeconomic and macroeconomic principles in the context of a host country. Students will hone their ability to think like an economist while examining the host country's culture and economy through interactive discussions, activities, and site-visits. Topics will vary based on location, but could include market structures and prices, market failures, labor markets, trade, economic growth and inequality, fiscal and monetary policy, exchange rates, and costs of living.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.

Making Connections Gen Ed: SS, GL.

Requisites: Prerequisite, ECON 101; a grade of C or better is required.

Grading Status: Letter grade.

ECON 370. Economic Applications of Data Science. 3 Credits.

This course is a broad-based introduction to numerical and data-science methods used in economics. The R programming language will be introduced assuming no prior experience. Subsequent lectures will focus on real-world data with economic applications. Methods will include wrangling, cleaning, and visualizing data, descriptive analysis, optimization, and statistical learning. Majors only.

Rules & Requirements

Requisites: Prerequisite, ECON 101.

Grading Status: Letter grade.

ECON 380. The Economics of Labor Relations. 3 Credits.

An economic analysis of workplace issues, including worker quits, layoffs and unemployment, discrimination and affirmative action, and the setting of pay, fringe benefits, and working conditions. Students may not receive credit for both ECON 380 and ECON 480.

Rules & Requirements

Requisites: Prerequisite, ECON 310 or 410.

Grading Status: Letter grade.

Same as: MNGT 380.

ECON 384. Gateway to Philosophy, Politics, and Economics. 3 Credits.

One course in economics strongly recommended. This interdisciplinary gateway course provides an introduction to subjects and quantitative techniques used to analyze problems in philosophy, political science, and economics. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-VALUES.

Making Connections Gen Ed: PH.

Grading Status: Letter grade.

Same as: PHIL 384, POLI 384.

ECON 390. Special Topics. 1-3 Credits.

Topic varies from semester to semester.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

ECON 393. Practicum in Entrepreneurship. 3-6 Credits.

This capstone course is a hands-on learning lab to prepare you for entrepreneurial life. This class introduces you to speakers, readings, podcasts, exercises, assignments and practical lessons about entrepreneurship. It provides you with critical analysis of your performance as seen through the lens of other Founders, Entrepreneurs, and Senior Executives. You develop both practical skills of financial and operational management and soft skills for personal and professional development needed to be competitive in entrepreneurial activity. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Requisites: Prerequisites, ECON 125, 325, and an internship approved by the Shuford coordinator.

Grading Status: Letter grade.

ECON 394. Advanced Entrepreneurship Practicum. 3 Credits.

An advanced, hands-on course for students with the academic learning of the Shuford Minor and a passion for launching a venture, whether for-profit or nonprofit. You will work with entrepreneurship mentors and coaches to apply the lessons of the Shuford Minor and to convert your idea into an enterprise that launches your solution into its intended market. Teaching style is practical, collaborative, and devoted to learning-by-doing.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Requisites: Prerequisites, ECON 325 and ECON 327 or equivalent; permission from instructor for students lacking the prerequisites.

Grading Status: Letter grade.

ECON 395. Research Course. 1-3 Credits.

Topic varies from semester to semester.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ECON 396. Independent Study. 1-3 Credits.

Permission of the director of undergraduate studies. Readings and research under the supervision of a member of the department.

Rules & Requirements

Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**ECON 400. Introduction to Data Science and Econometrics. 4 Credits.**

This course is a comprehensive introduction to statistics, including descriptive statistics and statistical graphics, probability theory, distributions, parameter estimation, hypothesis testing, simple and multiple regression, and use of powerful statistical estimation software. This course includes a substantial introduction to basic econometrics. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Making Connections Gen Ed: QI.

Requisites: Prerequisites, ECON 101 with a grade of C or better; MATH 152, 231, STOR 112, or 113 with a grade of C- or better.

Grading Status: Letter grade.

ECON 410. Intermediate Microeconomics. 4 Credits.

This course explores the foundations of Microeconomic theory, focusing on the choices of consumers and producers. The organization of markets and its implications for firm behavior and market equilibrium are also examined. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Requisites: Prerequisite, ECON 101 with a grade of C or better; MATH 152, 231, STOR 112, or 113 with a grade of C- or better.

Grading Status: Letter grade.

ECON 411. Game Theory. 3 Credits.

Game theory is the study of strategic interactions, where the best choice for the individual depends directly on what other individuals are doing. This course formalizes strategic interactions as mathematical games. Students examine the concept of a strategy, examine what it means to be rational or irrational, and define solution concepts that correspond to different assumptions.

Rules & Requirements

Requisites: Prerequisite, ECON 410 with a grade of C or better, or COMP 550, POLI 287, or POLI 288; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

ECON 415. Market Failures. 3 Credits.

This course is a continuation of ECON 410. While ECON 410 dealt with basic price theory and market successes, this course will mainly cover market failures. In particular, we will first explore the notion of efficiency and equity in a partial and general equilibrium framework. We will then add asymmetric information, behavioral economics, externalities, public goods, and market power to models learned in ECON 101 and ECON 410 to analyze the effects on economic efficiency.

Rules & Requirements

Requisites: Prerequisite, ECON 410 with a grade of C or better.

Grading Status: Letter grade.

ECON 416. Behavioral Economics. 3 Credits.

This course covers alternatives to the standard rational choice model featured in ECON 410. The course covers four themes: choice under certainty (e.g. menu and endowment effects), choice under uncertainty (e.g. prospect theory), intertemporal choice (e.g. hyperbolic preferences), and strategic choices by individuals (e.g., social preferences, envy, altruism). The readings focus on the contributions of experimental economics and neuroeconomics.

Rules & Requirements

Requisites: Prerequisite, ECON 410 with a grade of C or better.

Grading Status: Letter grade.

ECON 420. Intermediate Macroeconomics. 3 Credits.

An introduction to contemporary macroeconomic concepts and analysis. Topics include the level, fluctuations, and growth of national income, and monetary and fiscal policies designed to achieve economic goals. Students may not receive credit for both ECON 320 and ECON 420. Honors version available.

Rules & Requirements

Requisites: Prerequisite, ECON 410 with a grade of C or better.

Grading Status: Letter grade.

ECON 423. Financial Markets and Economic Fluctuations. 3 Credits.

An examination of financial institutions and markets, their role in economic conditions, and the use of macroeconomic policies in affecting those conditions. Students may not receive credit for both ECON 320 and ECON 423. Honors version available.

Rules & Requirements

Requisites: Prerequisites, ECON 400, 410, and 420; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 425. Financial Economics. 3 Credits.

How does a risk averse individual allocate their funds? Students begin by defining and measuring risk, making connection to their microeconomics training. They then develop and use asset pricing models to explore the interplay between risk and return. Finally, students use these tools to develop a mean-variance optimal portfolio allocation. Students are introduced to basic quantitative tools and participate in myriad practical applications.

Rules & Requirements

Requisites: Prerequisites, ECON 400, 410, and 420; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 434. History of Economic Doctrines. 3 Credits.

A survey of the fundamental forms of economic thought from the scholastics through Keynes.

Rules & Requirements

Making Connections Gen Ed: SS.

Requisites: Prerequisites, ECON 101, 400, and 410; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 436. Urban Economics. 3 Credits.

This course introduces space into economic models to study the location of economic activity and implications for business and individuals. We examine contemporary issues of housing, transportation, education, employment, poverty, and crime, exploring possible solutions. Also considered will be theories of why cities exist, causes of their growth and decline.

Rules & Requirements

Requisites: Prerequisites, ECON 400 and 410; both with a grade of C or better.

Grading Status: Letter grade.

ECON 440. Analysis of Public Finance. 3 Credits.

Application of economic analysis to the taxing and spending functions of government. Students may not receive credit for both ECON 340 and ECON 440.

Rules & Requirements

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

 **ECON 445. Industrial Organization. 3 Credits.**

The course covers the causes and consequences of firms' strategic behavior, focusing on situations in which firms have market power. The main analytical tools are microeconomic theory and game theory. Topics covered include: pricing, product design, imperfect competition, collusion and cartels, firm-to-firm supply relationships, mergers, and antitrust policy. Students may not receive credit for both ECON 345 and 445.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-QUANT.

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 450. Health Economics: Problems and Policy. 3 Credits.

Economic analysis applied to problems and public policy in health care.

Rules & Requirements

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

ECON 452. Economics of Global Pandemics. 3 Credits.

During this course, students will explore the effects of past pandemics and consider the micro- and macroeconomic impacts of the COVID19 pandemic on individuals, firms, and societies. Some topics include interpreting infection and mortality data, fiscal and monetary policy responses, encouraging research and development of vaccines, effects of pandemics on labor markets, allocation of scarce resources during pandemics, and the implications of the pandemic on racial, gender, and income inequality.

Rules & Requirements

IDEAs in Action Gen Ed: COMMBEYOND.

Requisites: Prerequisites, ECON 400 and ECON 410 with a grade C or better.

Grading Status: Letter grade.

ECON 455. Environmental Economic Theory. 3 Credits.

A rigorous economic analysis of environmental issues, with particular emphasis on the problem of designing appropriate institutions and regulations under private information and the interaction between economic and ecological systems. Topics include emission fees and marketable permits, pollution models, carbon regulation, and ecosystem service markets.

Rules & Requirements

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 460. International Economics. 3 Credits.

An introduction to international trade, the balance of payments, and related issues of foreign economic policy.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

Same as: EURO 460, PWAD 460.

ECON 461. European Economic Integration. 3 Credits.

Economic and political aspects of European economic integration, the EC customs union, barriers to integration, convergence vs. divergence of inflation rates and income levels, enlargement of the EC.

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better is required in ECON 400 and 410; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

ECON 465. Economic Development. 3 Credits.

An introduction to the economic characteristics and problems of the less developed countries and to the theories and policies applicable to the developing economy.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.

Making Connections Gen Ed: SS, GL.

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

ECON 468. Socialism, Planning, and the Contemporary Russian Economy. 3 Credits.

Study of the principles, design, organization, and performance of state-controlled economies relying on planning or regulated markets, with an emphasis on continuity and post-communist transition.

Rules & Requirements

Requisites: Prerequisites, ECON 400, and 310 or 410; a grade of C or better in ECON 400, and 310 or 410 is required.

Grading Status: Letter grade.

ECON 469. Asian Economic Systems. 3 Credits.

This course provides an in-depth examination of the behavioral principles and performances of five core Asian economic systems: Japan, China, Taiwan/South Korea, North Korea and Thailand.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.

Requisites: Prerequisites, ECON 400, and 310 or 410; a grade of C or better in ECON 400, and 310 or 410 is required.

Grading Status: Letter grade.

Same as: ASIA 469.

ECON 470. Econometrics. 3 Credits.

Econometrics is the application of statistical methods and economic theory to the problem of identifying, estimating, and testing economic models. This course covers concepts and methods used in empirical economic research. Students will learn how to conduct and how to critique empirical studies in economics. Students may not receive credit for both ECON 470 and 570. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Making Connections Gen Ed: QI.

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 480. Labor Economics. 3 Credits.

An introduction to the field of labor economics with emphasis on how the interactions between firms and workers influence wages, employment, unemployment, and inflation. Students may not receive credit for both ECON 380 and ECON 480.

Rules & Requirements

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 485. Economics of Sports. 3 Credits.

This course applies microeconomic techniques to study the allocation of resources in professional and collegiate sports, the determinants of an athlete's salary, racial discrimination, gender wage differentials, and the economic impact of sports within the local community. The course engages students with real-world sports stories and incorporates empirical research and statistical analysis to test different economic theories.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 486. Gender and Economics. 3 Credits.

This course uses basic microeconomic theory and recent empirical studies to examine the causes and consequences of gender differences in economic outcomes. Topics covered may include family formation and dissolution, fertility decisions, human capital investment, labor force participation, the gender earnings gap, and occupational choice.

Rules & Requirements

IDEAs in Action Gen Ed: FC-POWER.

Making Connections Gen Ed: SS, CI.

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 487. Economics of Life: Applying Economics to Life's Big Questions. 3 Credits.

This course explores the intersection of economics and self-examination in trying to live a good life. Students will learn about economic models, data, and research in the following areas: 1.) education, 2.) career, 3.) finance, 4.) well-being, 5.) family, and 6.) groups. Students will review evidence and readings from published economic research, classic economic thinkers, contemporary economists, and academic thinkers from related fields (primarily philosophy, psychology, and political science).

Rules & Requirements

Requisites: Prerequisite, ECON 410.

Grading Status: Letter grade.

ECON 490. Special Topics. 1-3 Credits.

Topic varies from semester to semester.

Rules & Requirements

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

ECON 493. Practicum in Quantitative Financial Economics. 1 Credits.

This practicum provides students the opportunity to implement and test the models being developed in ECON 525. Students will work with multiple data sources and programming platforms, and engage in a series of practical experiments using live market information.

Rules & Requirements

Requisites: Prerequisites, ECON 400, 410, and 425; a grade of C or better in ECON 400 and 410 is required; corequisite, ECON 525.

Grading Status: Letter grade.

ECON 495. Research Course. 1-3 Credits.

Topic varies from semester to semester. Permission of the instructor.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.

Grading Status: Letter grade.

ECON 496. Independent Study. 1-3 Credits.

Permission of the director of undergraduate studies. Readings and research under the supervision of a member of the department.

Rules & Requirements

Requisites: Prerequisite, ECON 410; a grade of C or better in ECON 410 is required.

Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading Status: Letter grade.

ECON 510. Advanced Microeconomic Theory. 3 Credits.

A treatment of topics in microeconomic theory not normally covered in ECON 410. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 511. Advanced Game Theory in Economics. 3 Credits.

Topics in noncooperative and cooperative game theory are covered, along with a selection of applications to economics in areas such as industrial organization, international trade, public finance, and general equilibrium. Honors version available.

Rules & Requirements

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better is required; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

ECON 520. Advanced Macroeconomic Theory. 3 Credits.

This course will emphasize theoretical and empirical topics such as growth, labor search, Phillips curves, stagflation, and optimal government policy. Honors version available.

Rules & Requirements

Requisites: Prerequisites, ECON 400, 410, and 420; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 522. Macroeconomic Analysis of the Labor Market. 3 Credits.

This course addresses all aspects of the labor market that have economy-wide relevance. Both in the long run and in the short run, the labor market is of central importance for the national economy for many key policy questions, and for individual well-being. We will cover topics such as long-term trends in income, employment, and hours worked; determinants and consequences of income inequality; and application to minimum-wage, transfer-program, fiscal-stimulus and unemployment-insurance policies.

Rules & Requirements

Requisites: Prerequisites, ECON 400, 410, and 420 with a grade of C or better.

Grading Status: Letter grade.

ECON 525. Advanced Financial Economics. 3 Credits.

Building upon the foundation developed in ECON 425, students take part in each of the five steps of the asset allocation process (explore, explain, predict, allocate, and protect) by addressing the following questions. How does the modern financial economist acquire, clean, and transform data? What drives asset returns? Can we forecast returns? How do we form a portfolio in the presence of risk? How do we assess and manage risk?

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisites, ECON 400, 410, 425 and 470; a grade of C or better in ECON 400, 410 and 470 is required; Corequisite, ECON 493.

Grading Status: Letter grade.

ECON 540. Advanced Public Finance. 3 Credits.

Selected topics in taxation, public expenditures, and governmental transfer programs.

Rules & Requirements

Requisites: Prerequisites, ECON 400, 410, and 340 or 440; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 545. Advanced Industrial Organization. 3 Credits.

This course covers empirical and numerical techniques for the study of market power and market failure. The covered methods are commonly applied in antitrust and regulatory policy analysis, economic consulting, and quantitative marketing studies.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisites, ECON 400, 410, and 445; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 550. Advanced Health Econometrics. 3 Credits.

Get your hands dirty with health data. Learn the econometric tools necessary for empirical analysis of health-related outcomes and behaviors. Use economic theory to construct hypotheses and use econometrics to measure effects of individual, organizational, and public policy determinants. Empirically analyze detailed data to understand medical care demand, health behaviors, and health production. Interpret statistical findings using health-related applications.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: SS, EE- Mentored Research, QI.

Requisites: Prerequisites, ECON 400, 410 and 470; a grade of C- or better in ECON 470 and a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 551. Economics of Education. 3 Credits.

This course will apply and build on existing economic theory and econometric skills to study education policy. Topics include education production, teacher quality, and investment in education, with a particular emphasis on recent policies aimed at reducing inequality. Students will learn how to conduct and how to critique empirical studies in economics of education.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: CI, EE- Mentored Research.

Requisites: Prerequisites, ECON 400 and 410; Co-requisite, ECON 470 or 570, or permission of instructor.

Grading Status: Letter grade.

ECON 552. The Economics of Health Care Markets and Policy. 3 Credits.

This course explores the strategic choices of insurers and health care providers, their effect on patient welfare, and the role of government regulation in shaping health-care market outcomes. We will read academic papers covering topics such as moral hazard in health insurance provision, the impact of capitation on cost and quality of care, and the effect of hospital mergers on prices and insurance premiums. We will use tools from Industrial Organization and related empirical literatures.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisites, ECON 400, 410, and ECON 445 or 450; all with a grade of C or better.

Grading Status: Letter grade.

ECON 560. Advanced International Economics. 3 Credits.

Analysis and interpretation of selected problems and policy issues. Content varies, but attention is given to such topics as trade barriers, trade patterns, floating exchange rates, and international monetary policy.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: SS, EE- Mentored Research, GL.

Requisites: Prerequisites, ECON 400, 410, and 460; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 565. Research in Development Economics. 3 Credits.

The course is designed to advance analytical skills in the field of development economics. The course covers empirical models of development gap, economic growth, human capital, income inequality, corruption, immigration, informality, and current COVID-19 crisis.

Students will learn how researchers evaluate development policies, including tax and welfare reforms, education programs, privatization, regulation, immigration, and COVID-19-related policies. Students will improve programming skills in Stata and use real-world survey data in writing a research project.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisites, ECON 400 and 410 with a grade of C or better; Pre- or corequisite, ECON 470 or 570.

Grading Status: Letter grade.

ECON 571. Advanced Econometrics. 3 Credits.

Econometric models and inference methods. Topics include non-linear econometric models, quasi-experimental methods for program evaluation (heterogeneous treatment effect models, differences-in-differences methods, and regression discontinuity designs), and advanced methods for panel data.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-QUANT.

Requisites: Prerequisites, ECON 400, 410, and ECON 470 or 570; a grade of C- or better in ECON 470 is required; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 573. Machine Learning and Econometrics. 3 Credits.

Big data and Machine learning techniques with economic applications. Students will learn how to explore, visualize, and analyze high-dimensional datasets, build predictive models, and estimate causal effects in R. Topics include an advanced overview of linear and logistic regression, model selection and regularization, LASSO, cross-validation, experiments and causal inference, treatment effects with high-dimensional controls, difference-in-differences, networks, classification and clustering, latent variable models, bagging and the bootstrap, decision trees and random forests, deep learning, textual analysis.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisites, ECON 400, 410 and 470; a grade of C- or better in ECON 470 and a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

ECON 575. Applied Time Series Analysis and Forecasting. 3 Credits.

Econometric techniques for time series data. Topics include ARMA models, forecasting, nonstationarity, conditional heteroskedasticity, and multiple equation models.

Rules & Requirements

Making Connections Gen Ed: SS, QI.

Requisites: Prerequisites, ECON 400, 410 and 470; a grade of C- or better in ECON 470 is required; a grade of C or better in ECON 400 and 410 is required; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

ECON 580. Advanced Labor Economics. 3 Credits.

A theoretical and empirical analysis of labor supply, human capital, income inequality, discrimination, and labor market policies. Using real-world survey data, students will gain skills in data management, programming, and policy evaluation.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisites, ECON 400 and 410 with a grade of C or better in both; permission of the instructor for students lacking the prerequisites ; Pre- or corequisite, ECON 470 or 570.

Grading Status: Letter grade.

ECON 590. Special Topics. 1-3 Credits.

Topic varies from semester to semester.

Rules & Requirements

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

ECON 595. Research Course. 1-3 Credits.

Topic varies from semester to semester.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ECON 596. Independent Study. 1-3 Credits.

Permission of the director of undergraduate studies. Readings and research under the supervision of a member of the department.

Rules & Requirements

Requisites: Prerequisite, ECON 410; a grade of C or better in ECON 410 is required.

Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading Status: Letter grade.

ECON 691H. Honors Course. 3 Credits.

Permission of the instructor. Readings in economics and beginning of directed research on an honors thesis. Required of all candidates for graduation with honors in economics.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

ECON 692H. Honors Course. 3 Credits.

Permission of the instructor. Completion of an honors thesis under the direction of a member of the faculty. Required of all candidates for graduation with honors in economics.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisite, ECON 691H.

Grading Status: Letter grade.

ECON 698. Philosophy, Politics, and Economics: Capstone Course. 3 Credits.

Permission of the department. This capstone course advances PHIL 384, focusing on such theoretical and philosophical issues as the analysis of rights or distributive justice and the institutional implications of moral forms.

Rules & Requirements

IDEAs in Action Gen Ed: FC-VALUES.

Requisites: Prerequisite, PHIL 384.

Grading Status: Letter grade.

Same as: PHIL 698, POLI 698.

Economics Major, B.A.

The courses leading to a B.A. degree with a major in economics comprise a large area of inquiry into the problems and structure of the economic segment of society. The curriculum provides the opportunity to achieve one or more of the following objectives:

- General education for intelligent citizenship with special emphasis on understanding the principles and problems of modern economic life
- Preparation for private employment. In pursuing this objective, supplementary courses in business administration (especially accounting courses) may be selected and integrated with the student's program.
- Preparation for government employment
- Preparation for graduate programs in economics, business administration, international studies, law, health and hospital administration, city planning, public policy, and other fields
- Specialized undergraduate programs incorporating double majors and interdisciplinary studies

Student Learning Outcomes

Upon completion of the economics program, students should be able to:

- Define common economic concepts
- Apply these concepts to understand and analyze observed economic phenomena

- Demonstrate the ability to use empirical and econometric methods in economic analysis
- Evaluate the impact of economic phenomena on welfare and standard of living

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Gateway Course		
ECON 101	Introduction to Economics (with a grade of C or better) ^{H,F}	4
Core Requirements		
ECON 400	Introduction to Data Science and Econometrics (with a grade of C or better) ^H	4
ECON 410	Intermediate Microeconomics (with a grade of C or better) ^H	4
ECON 420	Intermediate Macroeconomics ^H	3
	Four ECON courses at the 400, 500, or 600 level, with at least one course numbered ECON 500 or higher. ^{1,3}	12
Additional Requirements		
	One calculus course chosen from: ²	3-4
MATH 152	Calculus for Business and Social Sciences ^F	
MATH 231	Calculus of Functions of One Variable I ^{H,F}	
STOR 113	Decision Models for Business and Economics	
Total Hours		30-31

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Note that 200- and 300-level courses do not count toward the major. ECON 698 will count for 400-level credit only if ECON 384 has been taken; ECON 698 alone will not count toward the major in economics.

² The calculus course is a prerequisite for both ECON 400 and ECON 410, and ECON 400 and ECON 410 are both prerequisites for economics courses numbered above 420.

³ Students may not receive credit for both ECON 470 and ECON 570.

Note: MATH 231 is recommended for students who plan to take the calculus sequence (MATH 231, MATH 232, and MATH 233). MATH 116 is not acceptable.

An economics major may apply as many as 15 economics courses, or 45 hours, toward the B.A. degree.

Economics (ECON) course descriptions (p. 518).

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Sample Plan 1

First Year	Hours
First-Year Foundation Courses	
IDST 101 College Thriving	1
ENGL 105 English Composition and Rhetoric or ENGL 105I English Composition and Rhetoric (Interdisciplinary)	3
First-Year Seminar or First-Year Launch (p. 1202) ^F	3
Triple-I and Data Literacy (p. 1210)	4
Global Language through level 3 (p. 1211)	varies
Major Courses	
MATH 231 Calculus of Functions of One Variable I ^{H, F} or STOR 113 Decision Models for Business and Economics or MATH 152 Calculus for Business and Social Sciences	4
ECON 101 Introduction to Economics ^{H, F}	4
Hours	19
Sophomore Year	
ECON 400 Introduction to Data Science and Econometrics ^H	4
ECON 410 Intermediate Microeconomics ^H	4
ECON 420 Intermediate Macroeconomics ^H	3
Hours	11
Junior Year	
ECON 4-- Two 400-level ECON electives	6
Hours	6
Senior Year	
ECON 4-- One 400-level ECON elective	3
ECON 5-- One 500-level ECON elective	3
Hours	6
Total Hours	42

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan 2 (Honors Thesis Track)

First Year	Hours
First-Year Foundation Courses	
IDST 101 College Thriving	1
ENGL 105 English Composition and Rhetoric or ENGL 105I English Composition and Rhetoric (Interdisciplinary)	3
First-Year Seminar or First-Year Launch (p. 1202) ^F	3
Triple-I and Data Literacy (p. 1210)	4
Global Language through level 3 (p. 1211)	varies
Major Courses	
MATH 231 Calculus of Functions of One Variable I ^{H, F} or STOR 113 Decision Models for Business and Economics or MATH 152 Calculus for Business and Social Sciences	4
ECON 101 Introduction to Economics ^{H, F}	4
Hours	19
Sophomore Year	
ECON 400 Introduction to Data Science and Econometrics ^H	4
ECON 410 Intermediate Microeconomics ^H	4
ECON 420 Intermediate Macroeconomics ^H	3
Hours	11
Junior Year	
ECON 4-- Two 400-level ECON electives	6
ECON 470 Econometrics ^H	3
Hours	9
Senior Year	
ECON 691H Honors Course	3
ECON 692H Honors Course	3
Hours	6
Total Hours	45

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Special Opportunities in Economics

National University of Singapore Joint Degree Program

UNC–Chapel Hill undergraduates can spend between two and four semesters at the National University of Singapore (NUS) and receive a joint bachelor of arts degree with a major in economics from both institutions. Qualified UNC–Chapel Hill students will have at least a 3.3 grade point average and can apply for the joint degree beginning in the second semester of their first year until the second semester of their junior year. UNC joint-degree students can decide how many semesters (between two and four) and at which point in their undergraduate career they would like to study at NUS, as long as it is after their first year at Carolina.

A minimum of 120 credit hours is required for graduation. They consist of a total of 60 hours in the major (including as many as six to 12 hours of honors work if applicable) and 45 hours of General Education requirements. The remaining 15 hours consist of electives, the Supplemental General Education requirement, and possibly one minor. All General Education and graduation requirements of both UNC–Chapel Hill and NUS must be met. A detailed listing of the requirements for both schools and how to satisfy those requirements is available at the UNC Study Abroad Office.

Honors in Economics

The Department of Economics honors program offers outstanding economics students the opportunity to work closely with an individual faculty member on a specialized research topic of the student's choice during the senior year. Generally, students with a 3.5 grade point average in economics courses and 3.3 in all University coursework may be invited to participate in this two-course program (ECON 691H and ECON 692H).

In the first semester (ECON 691H), students become familiar with the recent literature on topics of major interest. Each candidate formulates an honors thesis proposal and initiates work on the project. In ECON 692H, the thesis work is conducted under the supervision of a faculty advisor who is a specialist in the general topic area of the research.

Near the end of the second semester (ECON 692H), the student stands for an oral examination on the thesis. Upon successful completion of the program, the student receives the bachelor of arts degree with honors or with highest honors. Students in the honors program are also required to complete at least an eight-course major rather than the minimum seven courses, including ECON 691H and ECON 692H.

The DATA (Data-Acumen-Theory-Application) Science Credential in Economics

The DATA Science Credential in Economics provides experience in combining data skills with foundational knowledge of economics to frame and solve economic questions using real data from finance, industry, government, health, and environment, among others.

Students will be introduced to programming languages (e.g., R/Python) commonly used in applications of data science, and practical data skills: collecting, scraping, cleaning, merging, processing, and visualizing data, descriptive analysis, optimization, and supervised/unsupervised statistical learning.

Code	Title	Hours
To earn a credential a student should complete three courses:		
ECON 390	Special Topics (Economic Applications of Data Science)	3
ECON 470	 Econometrics ^H	3
ECON 573 or ECON 575	 Machine Learning and Econometrics Applied Time Series Analysis and Forecasting	3
Total Hours		9

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Seminars

Attendance at seminars of invited speakers from industry (~3 per semester) to learn about practice of data science, and to provide opportunities for career networking.

Credential in Quantitative Financial Economics (QFE)

(This program WILL NOT be offered in 2022–2023)

The QFE credential provides students with both the theoretical knowledge of financial markets and the practical experience of financial-market transactions. This combination of classroom study and practical application leads to a more detailed and profound understanding of the economics of financial markets.

The QFE credential also introduces students to the tools and skills necessary to be effective financial-market participants in their post-graduate lives. Students acquire a familiarity with the general workings of the financial market and its connections to the real economy. They also acquire fluency in asset pricing and portfolio allocation, with a special emphasis on the quantitative tools necessary for estimation, testing, and optimization. Students are exposed to advanced quantitative tools such as Matlab, structured data storage, computational clusters, and APIs for real-time data extraction.

Code	Title	Hours
To earn the credential a student must complete three courses:		
ECON 425	Financial Economics	3
ECON 493	Practicum in Quantitative Financial Economics	1
ECON 525	 Advanced Financial Economics	3
Total Hours		7

Departmental Involvement

Clubs

Undergraduates in economics have organized two active clubs, the Carolina Economics Club (CEC) and the Women in Economics (WIE) Club. Seminars, resumé workshop, social activities, case competition, and greater interaction among students and with faculty have resulted from the formation of these ongoing organizations. All majors are invited to participate in the activities of these organizations.

Competitions

The Fed Challenge Competition conducted by the Board of Governors of the Federal Reserve System is an opportunity for students to participate in a competition where they can apply their skills from courses in the

economics major. Each year, a team of three to five advanced students undertakes research and data analysis on U.S. monetary policy under faculty supervision to participate in the annual competition.

The Federal Deposit Insurance Corporation (FDIC) Challenge is a faculty supervised opportunity for students to use their data analysis and research skills to analyze data on financial institutions and economic variables and present the results in the annual competition.

Honor Society

The local chapter of Omicron Delta Epsilon, the national economics honor society, annually extends membership to those outstanding junior and senior economics majors who have demonstrated strong academic performance both overall and in their economics courses.

Summer Research Opportunities

Funded faculty-led research opportunities are available through the following grants:

- The Guest Family Fund for Excellence in Economics
- Ryan Wesslen Fund
- Mayo Grant for Research in Financial Economics
- The Minority Research Fund

Study Abroad Opportunities

There are two study abroad opportunities offered through the economics department: Exploring Economies in Scandinavia and UNC Economics in Croatia.

Exploring Economies in Scandinavia exposes students to economic concepts by exploring and experiencing Stockholm's history and culture through an economic lens. This course complements study in political science, business, sociology, women's and gender studies, health policy and management, public policy, etc.

UNC Economics in Croatia is a six-week experience where students are immersed in the life and culture of Split, Croatia. Students take two courses at the University of Split and visit a number of surrounding areas, including the Istrian Peninsula, the birthplace of sports tourism in Croatia.

Adventures in Economics

Andrew Pike, a UNC graduate with a degree in economics, created this fund to encourage students to explore application of the economics curriculum through life experience. Adventures could include attending a conference on economic topics, making a trip to interview someone you have learned about in an economics course, do research at the Library of Congress, or any other experience related to economics.

EconAid Center

The EconAid Center provides free, drop-in tutoring with undergraduate peer tutors, for students in the core economics courses (101, 400, 410, and 420) as well as select upper-division economics courses. It is also a space for professors, TAs, and ULAs to hold office hours and help sessions as well as a general study space for economics students.

Undergraduate Awards

Each spring the Chancellor awards the Undergraduate Prize in Economics to the undergraduate student majoring in economics who has been judged the most outstanding on the basis of major and related course performances.

Economics Major, B.S.

The B.S. degree in economics provides an overview of methods for studying activity and outcomes in market settings and beyond, considers the impact of public policy and business activity through the lens of economic models, and covers techniques in quantitative and data analysis that are the foundation of modern economic analysis. Relative to the B.A. degree in economics, the B.S. degree puts a greater emphasis on quantitative methods and student-conducted economic research, and it includes additional training beyond the B.A. degree. The B.S. degree is interdisciplinary, with required courses from mathematics, statistics and computer science. The B.S. major is classified as a STEM program with CIP code 45.0603.

This major provides the opportunity to achieve one or more of the following objectives:

- General education for intelligent citizenship with special emphasis on economic principles and the quantitative methods that economists use in applied analysis.
- Preparation for private employment, including finance, marketing, consulting, and data analytics.

- Preparation for government employment, with emphasis on methods to analyze the impacts of public policy.
- Preparation for graduate programs in economics, business administration, data analytics, international studies, law, health and hospital administration, city planning, public policy, and other fields.
- Creation of double majors and interdisciplinary majors with other STEM disciplines.

Student Learning Outcomes

Upon completion of the economics program, students should be able to:

- Define common economic concepts
- Apply these concepts to understand and analyze observed economic phenomena
- Demonstrate the ability to use empirical and econometric methods in economic analysis
- Evaluate the impact of economic phenomena on welfare and standard of living

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Gateway Requirement		
ECON 101	 Introduction to Economics (with a grade of C or better) ^{H, F}	4
Core Requirements		
ECON 400	 Introduction to Data Science and Econometrics (with a grade of C or better) ^H	4
ECON 410	 Intermediate Microeconomics (with a grade of C or better) ^H	4
ECON 420	Intermediate Macroeconomics ^H	3
ECON 470	 Econometrics ^H	3
Five ECON courses at the 400, 500, or 600 level, with at least two numbered 500 or higher ^{1, 3}		15
Additional Requirements		
MATH 231	 Calculus of Functions of One Variable I ^{2, H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4
or MATH 235	 Mathematics for Data Science	
Select two of the following:		6
COMP 110	 Introduction to Programming and Data Science ^H	

or COMP 110 Introduction to Scientific Programming	
MATH 347	Linear Algebra for Applications
MATH 381	Discrete Mathematics ^H
or COMP 280  Discrete Structures	
STOR 415	Introduction to Optimization
STOR 435	Introduction to Probability
or STOR 535 Probability for Data Science	
Total Hours	51

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- ^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

- ¹ Note that 200- and 300-level courses do not count toward the major. ECON 698 will count for 400-level credit only if ECON 384 has been taken; ECON 698 alone will not count toward the major in economics.
- ² The calculus course is a prerequisite for both ECON 400 and ECON 410, and ECON 400 and ECON 410 are both prerequisites for economics courses numbered above 420.
- ³ Students may not receive credit for both ECON 470 and ECON 570.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Economics Minor

The minor in economics provides an understanding of activities and outcomes in market settings and beyond, uses economic models and concepts to study the impact of public policy and business activity, and teaches techniques in quantitative and data analysis that are the foundation of modern economic analysis.

This minor provides the opportunity to achieve one or more of the following objectives:

- Integrate knowledge and skills acquired through a non-Economics major.
- Acquire general education for intelligent citizenship with special emphasis on economic principles and the quantitative methods that economists use in applied analysis.
- Prepare for private employment, including finance, marketing, consulting, and data analytics.
- Prepare for government employment, with emphasis on methods to analyze the impacts of public policy.
- Prepare for graduate programs in economics, business administration, data analytics, international studies, law, health and hospital administration, city planning, public policy, and other fields.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Gateway Course		
ECON 101	 Introduction to Economics ^{H, F}	4

Core Requirements

Select at least two courses from the following list: 7-8

ECON 400	 Introduction to Data Science and Econometrics 1, H	
ECON 410	 Intermediate Microeconomics ^{1, H}	
ECON 420	Intermediate Macroeconomics ^{1, H}	
Two additional ECON courses at the 400 level ²		6
Total Hours		17-18

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Check course description for required prerequisites.

² ECON 493 may not be used in the minor. ECON 495 and ECON 496 may count in the minor, if taken for 3 credit hours.

Suggested Pathways**Microeconomics Plan**

Code	Title	Hours
ECON 101	 Introduction to Economics ^{H, F}	4
ECON 400	 Introduction to Data Science and Econometrics 1, H	4
ECON 410	 Intermediate Microeconomics ^{1, H}	4
Two 400-level ECON electives in Applied Microeconomics or Microeconomic Theory		6
Total Hours		18

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Check course description for required prerequisites.

Macroeconomics Plan

Code	Title	Hours
ECON 101	 Introduction to Economics ^{H, F}	4
ECON 400	 Introduction to Data Science and Econometrics 1, H	4
ECON 410	 Intermediate Microeconomics ^{1, H}	4
ECON 420	Intermediate Macroeconomics ^{1, H}	3

One 400-level ECON elective in Macroeconomics or Time Series Econometrics 3

Total Hours **18**

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Check course description for required prerequisites.

Econometrics Plan

Code	Title	Hours
ECON 101	 Introduction to Economics ^{H, F}	4
ECON 400	 Introduction to Data Science and Econometrics 1, H	4
ECON 410	 Intermediate Microeconomics ^{1, H}	4
or ECON 420 Intermediate Macroeconomics		
ECON 470	 Econometrics ^{1, H}	3
One 400-level ECON elective in Econometrics or Data Science		3
Total Hours		18

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Check course description for required prerequisites.

Entrepreneurship Minor

This minor is designed for students who wish to major in another discipline but who have an interest in the process of entrepreneurship. Entrepreneurship is the mechanism by which new products, services, and organizational processes are identified, refined, and ultimately realized as a sustainable part of the society. There is a common process for realizing all types of ventures. The minor will provide the student with the background to undertake entrepreneurial activity in the business, social, artistic, or scientific realm. The venture workshop course requirement allows students to select an area of focus from among topics including commercial, media, social, arts, science, marketing, sports, computer science, and public health. An internship opportunity is a key component of the minor.

Students must apply to and be admitted to the Shuford program minor in entrepreneurship. Information on this application process is available on the program website. (<https://shuford.unc.edu/apply/>)

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The minor consists of five courses:

Code	Title	Hours
Core Requirements		
One principles of economics course:		3-4
ECON 101	Introduction to Economics (with a grade of C or better) ^{H, F}	
ECON 111	The Economics of Entrepreneurship and Innovation (with a grade of C or better) ¹	
One principles of entrepreneurship course:		3

ECON 125	Introduction to Entrepreneurship ^{1, H}	
ECON 57H	First-Year Seminar: Constructing Your Own Venture ¹	
The core course in entrepreneurship:		3
ECON 325	Entrepreneurship: Principles, Concepts, Frameworks, and Fluency ^{1, H}	
One track course: ²		3
COMP 325	How to Build a Software Startup	
ECON 327	Venture-Creation Workshop (sections in commercial, arts, science, sports, and media tracks.) ^{1, H}	
ENEC 473	Business and Finance Fundamentals for Change Makers	
MEJO 592	Workroom FashionMash Product Design	
PLCY 326	Social Entrepreneurship ^H	
SPHG 428H	Public Health Entrepreneurship	
SOCI 302	Fieldwork in Entrepreneurship	
SOCI 427	The Labor Force	
Capstone course:		
ECON 393	Practicum in Entrepreneurship ^{1, H}	3

Additional Requirements

Complete a 320-hour internship with a start-up or employer approved by the internship coordinator of the minor.

Total Hours **15-16**

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ ECON 57H, ECON 111, ECON 125, ECON 325, ECON 327, and ECON 393 cannot be counted toward an economics major.

² The minor in entrepreneurship anticipates adding additional track courses. For a complete listing of these courses contact the Minor in Entrepreneurship office. One track course must be taken for students to complete the minor. Students are able to take more than one track course for elective credit and hours toward graduation.

It is also possible to complete the entrepreneurship minor through completing one economics course and then a one-semester Shuford Away program in Silicon Valley (California) or London. These are programs run jointly with Honors Carolina. To learn more, contact the Minor in Entrepreneurship office.

For more information, visit the Minor in Entrepreneurship website (<https://shuford.unc.edu/>).

Department of English and Comparative Literature

Introduction

The Department of English and Comparative Literature is a vibrant and diverse department with a global reach. Our course offerings present a diversity of approaches to the study, production, and appreciation of literary and nonliterary texts. We pursue a four-fold mission to:

1. explore the history and significance of American, British, and world literatures;
2. promote interdisciplinary connections and incorporate the study of culture, theory, and history into our research and courses;

3. offer training in rigorous thinking, precise analysis, and critical reading; and
4. foster practical skills in rhetoric, composition, and expression in essays, creative pieces, even emerging forms of digital media.

Majors

- English and Comparative Literature Major, B.A. (p. 574)

Minors

- Comparative Literature Minor (p. 582)
- Composition, Rhetoric, and Digital Literacy Minor (p. 583)
- Creative Writing Minor (p. 585)
- English Minor (p. 587)
- Global Cinema Minor (p. 588)
- Latina/o Studies Minor (p. 590)
- Medicine, Literature, and Culture Minor (p. 591)
- Medieval and Early Modern Studies Minor (p. 815)

Graduate Programs

- Ph.D. in English and Comparative Literature (https://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/#PhD_English)
- M.A. in English (<https://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/>) with a Concentration in Literature, Medicine, and Culture (https://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/#MA_English)

Professors

Daniel Anderson, David J. Baker, A. Reid Barbour, Marsha Collins, María DeGuzmán, Florence Dore, Eric S. Downing, Mary Floyd-Wilson, Philip Gura, Jordynn Jack, Heidi Kim, Laurie Langbauer, Michael A. McFee, Jeanne Moskal, Eliza Richards, Bland Simpson, Jane F. Thrailkill, Joseph S. Viscomi, Daniel Wallace, Jessica Wolfe.

Associate Professors

Inger S. Brodey, Gabrielle Calvocoressi, Danielle Christmas, Taylor Cowdery, Tyler Curtain, Candace Epps-Robertson, Rebecka Rutledge Fisher, Gregory Flaxman, Stephanie Elizondo Griest, Ylce Irizarry, Martin Johnson, Meta DuEwa Jones, Shayne Legassie, Theodore H. Leinbaugh, Inga Pollmann, Kimberly Stern, Matthew Taylor, Rick Warner.

Assistant Professors

Gabriel Bump, H.M. Cushman, Tyree Daye, Stephanie DeGooyer, Courtney Rivard.

Teaching Professors

Elyse Crystall, Leslie Frost, Bradley Hammer, Hilary Lithgow, David Ross, Henry Veggian, Kym Weed-Buzinski.

Teaching Associate Professors

Marc Cohen, Cynthia Current, Joseph Fletcher, Elizabeth Gualtieri-Reed, S. Michael Gutierrez, Søren Palmer, Wendy Weber.

Teaching Assistant Professors

Nicole Berland, Sarah Boyd, Graham Culbertson, Sarah Ficke, Michael Gadaletto, Steven Gotzler, Destiny Hemphill, Kelli Holt, Sophia Klahr,

Matthew O'Wain, Ruby Pappoe, Shane Peterson, Adam Price, Julia Ridley Smith, Hill Taylor, Joseph Telegen, Karen Tucker, Angela Velez, Ross White.

Adjunct Professors

Hassan Melehy, Morgan Pitelka, Michael Silk.

Adjunct Associate Professors

Terrence Holt, Sharon James, Pamela Lothspeich, Timothy Marr, Alicia Rivero, Yaron Shemer, Gabriel Trop, Ariana Vigil, Robin Visser, Nadia Yaqub.

Adjunct Assistant Professors

Janice Koelb, Petal Samuel.

Professors Emeriti

William L. Andrews, Christopher M. Armitage, Laurence G. Avery, James W. Coleman, Pamela Cooper, Jane M. Danielewicz, Alan C. Dessen, Rosa Palmer Durban, Connie C. Eble, Kathleen Flanagan, Joseph M. Flora, Marianne Gingham, Larry Goldberg, J. Lee Greene, Minrose Gwin, William R. Harmon, Howard M. Harper Jr., Trudier Harris, Mae Henderson, Fred Hobson, Susan Irons, Randall Kenan, Clayton Koelb, Ritchie D. Kendall, George A. Kennedy, Edward D. Kennedy, Joy S. Kasson J. Kimball King, George S. O'Neill, Maggie O'Shaughnessey, Daniel W. Patterson, Julius R. Raper III, Mark L. Reed, Thomas J. Reinert, Richard D. Rust, Ruth Salvaggio, James Seay, Alan R. Shapiro, Richard A. Smyth, Philip A. Stadter, Thomas A. Stumpf, Beverly Taylor, James Thompson, Weldon E. Thornton, Linda Wagner-Martin, David Whisnant, Joseph S. Wittig, Charles G. Zug III.

CMPL—Comparative Literature

Undergraduate-level Courses

CMPL 55. First-Year Seminar: Comics as Literature. 3 Credits.

Comic books, Manga, and the graphic novel have almost vanished from the realm of serious literature. Recently, graphic literature has addressed controversial topics and reached readers across the globe. We will explore graphic literature's unique ability to be a medium for the marginal and oppressed in the 21st century.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

CMPL 62. Curiosity and the Birth of the Imagination. 3 Credits.

This is a first-year seminar that analyzes the changing values and relationship of curiosity and the imagination over time. We will examine literary texts and cultural artifacts (maps, paintings, chronicles, instruments of discovery, and more) to study how attitudes towards curiosity and imagination have evolved over time, and how working together, they now fuel invention, innovation, and artistic achievement. Authors studied include Apuleius, Cervantes, Galileo, Mary Shelley, and more. Reserved for First-Year students only.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

CMPL 89. First-Year Seminar: Special Topics. 3 Credits.

Specials topics course. Content will vary each semester.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

CMPL 120. Great Books I: Epic and Lyric Traditions. 3 Credits.

Fulfills a major core requirement. Major works of literature central to the formation of Western culture from antiquity to 1750. Considers epic, lyric, drama, and prose; core authors such as Homer, Virgil, Dante, and Milton.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

CMPL 121. Great Books I: Romancing the World. 3 Credits.

Fulfills a major core requirement. This course focuses on the literary mode of romance, with particular attention to cross-cultural contact and exchange from classical antiquity to the present in both European and non-European literature. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

CMPL 122. Great Books I: Visual Arts and Literature from Antiquity to 1750. 3 Credits.

This course offers students a survey of mutually supportive developments in literature and the visual arts from classical antiquity until around 1700. Fulfills a major core requirement. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

 **CMPL 123. Great Books I: Politics and Literature from Antiquity to 1750. 3 Credits.**

Fulfills a major core requirement. This course examines comparative literary texts in literature and political philosophy in the context of developments in political thought and practice from classical Greece through the French Revolution.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

 **CMPL 124. Great Books I: Science and Literature from Antiquity to 1750. 3 Credits.**

Fulfills a major core requirement. This course examines developments in literary and scientific thought, including the literary depiction of the disciplines of natural philosophy, including magic, cosmology, natural history, and physiology.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

 **CMPL 130. Great Books II. 3 Credits.**

Fulfills a major core requirement. An introduction to some of the major texts of 19th- and 20th-century literature, focusing on periods of romanticism, realism, and modernism and with some attention given to parallel developments in the arts and philosophy. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **CMPL 131. Great Books II: Savage, Native, Stranger, Other. 3 Credits.**

Fulfills a major core requirement. Using readings in literature and philosophy, as well as film screenings, this course explores comparative literature's reconciliation over time of its own, predominantly Western, lineage with other non-Western textual traditions.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

 **CMPL 132. Great Books II: Performance and Cultural Identity in the African Diaspora. 3 Credits.**

Fulfills a major core requirement. The focus of this course is inquiry into how we theorize the existence of the African diaspora, cultural identity/-ies, and the role that performance plays in the articulation of experiences.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

CMPL 133. Great Books II: Imaging the Americas from the Late 18th Century to the Present. 3 Credits.

Fulfills a major core requirement. This course studies the intersection between word and image, especially verbal and photographic cultural production, in the representation of the Americas in the hemispheric sense from the mid-18th century to present.

Rules & Requirements

Making Connections Gen Ed: VP, US.

Grading Status: Letter grade.

 **CMPL 134. Great Books II: Travel and Identity. 3 Credits.**

Fulfills a major core requirement. Introduces students to representative literary and intellectual texts from 1750 to the present and to relevant techniques of literary analysis. Works originally written in foreign languages are studied in translation. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **CMPL 142. Visual Culture II. 3 Credits.**

Fulfills a major core requirement. This course surveys the visual arts, in particular painting and photography, from roughly 1750 to the present. Pictorial traditions, styles, and genres (as well as the traditions of critical writing that respond to them) will be considered from a proto-cinematic perspective. Theater and the novel may also be examined comparatively.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **CMPL 143. History of Global Cinema. 3 Credits.**

This course is designed to introduce students to the field of global cinema and, thence, to the methods of comparativist film study.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP, GL.

Grading Status: Letter grade.

 **CMPL 144. Engaging Film and Media. 3 Credits.**

This viewing-intensive course introduces students to topics and traditions in film and other media.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP, GL.

Grading Status: Letter grade.

 **CMPL 150. Critical Theory: Fear, Love, Laughter, and Loss - Film Genres and Spectatorship. 3 Credits.**

Why do we laugh, cry, cringe, or scream at the movies? We will study emotionally intense genres such as melodrama, comedy and horror to think about effective responses to films. Students practice film analysis, gain an overview over genre cinema, and study approaches to emotion, affect, and the body.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

 **CMPL 180. Race and Ethnicity in Hollywood Productions and Beyond. 3 Credits.**

Studies in African American, Asian American, Hispanic American, Native American, Anglo-Indian, Caribbean, and other films that touch on themes of race and ethnicity in the American context.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, US.

Grading Status: Letter grade.

CMPL 198H. Literature in Eastern Europe. 3 Credits.

An introduction to the literatures of Eastern Europe, including consideration of political influences on literary creation within different cultural traditions.

Rules & Requirements

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

 **CMPL 212. The Cinematic City. 3 Credits.**

This course traces the interconnected evolutions of cinema and modern urban life. Versions of the course may address the problem of the city in the abstract or focus on how filmmakers have treated one or more specific cities (New York, Hong Kong, Cairo, Buenos Aires, Rome, Mexico City, Mumbai, Tokyo, etc.).

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

 **CMPL 220. Global Authors: Jane Austen. 3 Credits.**

Fulfills a major core requirement. This course examines the fiction of Jane Austen and her literary and cultural influence across the globe. We will see echoes of Austen in novels and films from around the world and explore how her work transcends generational, cultural, and geographical boundaries. What is the secret of her global appeal? Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

 **CMPL 223. Global Authors: Cervantes. 3 Credits.**

Fulfills a major core requirement. Close study of Cervantes' Don Quixote, its reception and impact on varied works of world literature.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

 **CMPL 225. Global Authors: The Worlds of Shakespeare. 3 Credits.**

Fulfills a major core requirement. Recommended preparation, ENGL 225 or familiarity with at least four Shakespeare plays. Explores the afterlife of Shakespeare's plays from a transnational and multidisciplinary perspective, paying attention to the ways in which several of his plays have been dislocated and reconstituted for different audiences and different artistic and political aims.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

 **CMPL 227. Global Authors: The Middle Ages in World Cinema. 3 Credits.**

Traces major points of convergence among the thematic concerns of medieval literature, global cinema, and academic constructions of "the Middle Ages." Considers the aesthetic and technological development of film and of medieval painting, sculpture, and dramatic performance.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: VP, WB.

Grading Status: Letter grade.

 **CMPL 230. Global Crusoe: The Desert-Island Idea in Film and Fiction. 3 Credits.**

The desert-island scenario involves a sophisticated and culturally central thought experiment in which the constraints of history and society are suspended and human nature is exposed in its essence. This course considers the permutations of this scenario in film and fiction from around the world.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **CMPL 232. Imagining the City in Modern Korea: Text, Image, Space. 3 Credits.**

This course introduces students to modern Korea through the lens of the city. It explores the changing shape of urban space on the Korean peninsula as well as the central role that visions of the city and of city life have played in the development of modern Korean literature, television, and film.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-PAST, RESEARCH.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

Same as: KOR 232.

 **CMPL 237. Rebel, Lover, Martyr: Gender and Sexuality in North and South Korean Screen Cultures. 3 Credits.**

This course introduces students to the history of North and South Korean film and television through the lens of gender and sexuality. In so doing, it explores the multiple forms of the Korean self and the diverse shapes that Korean identity has taken across the modern and contemporary eras.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

Same as: KOR 237, WGST 237.

 **CMPL 238. From Martial Arts to Street Dance: Rebellion with Chinese Characteristics. 3 Credits.**

This course leverages the trope of martial arts to examine forms of resistance and counterculture in the Chinese-speaking world. Contextualizing visual representations of martial arts within moments of profound sociopolitical transformations in China and beyond, we will explore the many complexities and dilemmas of political action, in particular the tension between justice and violence, emotion and motion, self-assertion and self-sacrifice, traditional chivalry and radical commitment, as well as between local allegiance and transnational alliance.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-VALUES.

Making Connections Gen Ed: VP, BN.

Grading Status: Letter grade.

Same as: CHIN 238.

 **CMPL 240. Introduction to Film Theory. 3 Credits.**

This course introduces students to debates in classical and post-classical film theory. Likely topics include medium specificity; the ideological functions of narrative cinema; film theory's investments in psychoanalysis, linguistics, semiotics, and phenomenology; the advent of digital media; feminism; national and transnational cinema; spectatorship; authorship; genre theory; and film and philosophy.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **CMPL 246. Body Politics in Modern Korean Literature. 3 Credits.**

This course surveys twentieth- and early twenty-first-century Korean literature through the lens of representations of the body. Bringing together works of fiction, poetry, drama, and secondary scholarship, it explores how modern Korean literature has imagined the body, defined its multiple natures and identities, and delineated its shifting boundaries. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, BN, CI.

Grading Status: Letter grade.

Same as: KOR 346.

 **CMPL 247. Indigenous Spiritualities in Literatures of China and Taiwan. 3 Credits.**

This course examines spiritual motifs in Asian literature by Indigenous writers in China and Taiwan. Works by Tibetan, Mongol, Uyghur, Kazakh, Bunun, Tao, Hui, Yi, and Wa writers express spiritual principles from a wide variety of beliefs and cosmologies, including Tibetan and Mongolian Buddhism, Islam, Shamanism, Animism, and Christianity. As forced assimilation threatens native languages and cultural heritage, Indigenous writers function as "priests of culture," providing spiritual inspiration by lyrically evoking powers beyond the human. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-VALUES.

Making Connections Gen Ed: PH, BN.

Grading Status: Letter grade.

Same as: CHIN 247.

 **CMPL 250. Approaches to Comparative Literature. 3 Credits.**

This communications-intensive course familiarizes students with the theory and practice of comparative literature: the history of literary theory; translation; and literature combined with disciplines such as music, architecture, and philosophy. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, CI, NA.

Grading Status: Letter grade.

 **CMPL 251. Introduction to Literary Theory. 3 Credits.**

Familiarizes students with the theory and practice of comparative literature. Against a background of classical poetics and rhetoric, explores various modern literary theories, including Russian formalism, Frankfurt School, feminism, psychoanalysis, deconstruction, new historicism, and others. All reading in theory is paired with that of literary texts drawn from a wide range of literary periods and national traditions.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, CI, NA.

Grading Status: Letter grade.

 **CMPL 254. Horror and the Global Gothic: Film, Literature, Theory. 3 Credits.**

This course traces the development of horror in film and writing from the 18th-century European novel to contemporary Asian film. Theoretical readings will embrace a range of disciplines, from literary and film theory to anthropology, feminism and gender studies, and psychoanalysis.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **CMPL 255. The Feast in Film, Fiction, and Philosophy. 3 Credits.**
Comparative and interdisciplinary study of feasting and its philosophical underpinnings, with special attention to the multiple purposes and nuances of food and feasting in literature, film, and the visual arts. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

Same as: ASIA 255.

 **CMPL 256. Love in Classical Persian Poetry. 3 Credits.**

We will examine the binaries of sacred and profane love, transgression and the law, self and the other, human diversity and inclusiveness in classical Persian poetry. We will explore the intersections of class, gender, sexuality, religion, etc. We will explore the poems inside their historical, cultural, and social contexts.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: LA, CI, WB.

Grading Status: Letter grade.

Same as: ASIA 256.

 **CMPL 257. The Crisis of Modernity in World Cinema. 3 Credits.**

This course surveys world cinema in the attempt to identify the disjunctions that sever past and present. This course will ask the most basic questions: What is the nature of modernity? What are the challenges of modernity? How does the modern experience differ across the globe?

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: VP, GL.

Grading Status: Letter grade.

 **CMPL 258. Iranian Prison Literature. 3 Credits.**

This course explores literature written in prisons, particularly under the Islamic Republic. Students will read documents to understand human rights (and violations thereof) from a historical perspective. Since literature, film, philosophy, and theory offer invaluable perspectives, we will examine their contributions in the reflection on human rights in Iran's prisons.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-POWER, COMMBEYOND.

Making Connections Gen Ed: LA, BN, CI.

Grading Status: Letter grade.

Same as: ASIA 258.

 **CMPL 259. Ideology and Aesthetics: Marxism and Literature. 3 Credits.**

This seminar provides students with a general introduction to Marxist thought with particular attention to its critical importance for interpreting the role of ideology in modern literature. Readings and class discussions in English. Previously taught as GSLL 251.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

Same as: GSLL 259.

 **CMPL 260. Landscape: Re-Imagining the Natural World. 3 Credits.**

Explores how human interaction with the natural world is represented in the literary, visual, and performing arts from Roman fresco to the ecological art and fiction of the 21st century. Students conduct mentored research at Ackland Art Museum with peer and faculty feedback at every stage.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP, CI, EE- Mentored Research.

Grading Status: Letter grade.

 **CMPL 261. India and Orientalism. 3 Credits.**

This course examines the history of Orientalism with respect to India, and in particular, the ways in which the people and cultures of India have been (mis)represented by Europeans and North Americans in fiction, travel writing, TV shows, and films, from the colonial period to the present.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

Same as: ASIA 261.

 **CMPL 262. Film and Politics. 3 Credits.**

This course investigates the complex relations between cinema and politics in particular national and/or global contexts. Examining not merely films with narratives about politically charged themes but also the political and ideological nature of filmic representation itself, this course focuses on questions that link politics and aesthetics.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP, GL.

Grading Status: Letter grade.

 **CMPL 263. European Exile Cinema. 3 Credits.**

This course examines the work of one or several film directors who went into exile during the Third Reich to discuss: How does the experience of exile influence film style? What are theories and histories of exile and exile cinema, and how do they relate to other approaches to film, via national film histories, genre, style, etc.? How does a biography of exile relate to so-called auteur theory? Readings and Discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: GERM 263.

CMPL 266. Weimar Cinema. 3 Credits.

Explores important German films of 1919 to 1933, locating them in their artistic, cultural, and historical context. Treats the contested course of Weimar film history and culture and provides a theoretically informed introduction to the study of film and visual materials. Films with English subtitles; readings and discussions in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: GERM 266.

CMPL 269. Springtime for Hitler: Jews on Stage from Shakespeare to Mel Brooks. 3 Credits.

This course examines the roles and representations of Jews in the world of the theater from Shakespeare's *The Merchant of Venice* to the present, considering dramas, operas, musicals, film adaptations, and films. Readings and discussions in English.

Rules & Requirements

Making Connections Gen Ed: VP, CI, NA.

Grading Status: Letter grade.

Same as: GSLL 269, JWST 269.

CMPL 270. German Culture and the Jewish Question. 3 Credits.

A study of the role of Jews and the "Jewish question" in German culture from 1750 to the Holocaust and beyond. Discussions and texts (literary, political, theological) in English. Previously offered as GERM 270.

Rules & Requirements

Making Connections Gen Ed: HS, GL, NA.

Grading Status: Letter grade.

Same as: GSLL 270, JWST 239, RELI 239.

CMPL 271. Women in German Cinema. 3 Credits.

Introduction to feminist aesthetics and film theory by the examination of the representation of women in German cinema from expressionism to the present. All materials and discussions in English. Previously offered as GERM/WGST 250.

Rules & Requirements

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: GERM 271, WGST 271.

CMPL 272. History of German Cinema. 3 Credits.

This course explores the major developments of German cinema. All films with English subtitles. Readings and discussions in English. Previously offered as GERM 275.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: GERM 272.

CMPL 275. Literature of Pilgrimage. 3 Credits.

Analyzes literature of pilgrimage, a literal or figurative journey of transformation, from a variety of times and cultures from classical antiquity to the present, including such works as Apuleius' *Golden Ass*, Cervantes' *Persiles*, and Basho's *Narrow Road to the Deep North*.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

CMPL 277H. Myth, Fable, Novella: The Long History of the Short Story. 3 Credits.

Traces the development of European short fiction from the 12th through the 17th centuries, taking brief looks backward toward the ancient world and forward to the modern short story.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

CMPL 279. Once Upon A Fairy Tale: Fairy Tales and Childhood, Then and Now. 3 Credits.

Considers fairy tales from several different national traditions and historical periods against the backdrop of folklore, literature, psychoanalysis, and the socializing forces directed at children. Students may not receive credit for both GERM 279/CMPL 279 and GSLL 54.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

Same as: GERM 279.

CMPL 280. Film Genres. 3 Credits.

This course introduces students to the methods of genre theory and analysis as they pertain to cinema. The course may either provide a survey of several different genres or examine a particular genre in depth as it has evolved historically. National and/or transnational dimensions of popular genres may be emphasized.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

CMPL 281. Holocaust Cinema in Eastern Europe. 3 Credits.

A critical look at varieties of cinematic representation and memorialization of the Holocaust, from those countries of Europe where it mostly took place. Taught in English. All films in (or subtitled in) English. Previously offered as SLAV 281.

Rules & Requirements

Making Connections Gen Ed: VP, BN.

Grading Status: Letter grade.

Same as: GSLL 281.

 **CMPL 282. Russian Literature in World Cinema. 3 Credits.**
Survey of masterpieces of Russian literature in the context of their transcultural cinematic adaptations. Lectures and readings in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

Same as: RUSS 282.

 **CMPL 288. Graphic Medicine: The Intersection of Health and Comics. 3 Credits.**

We will explore the unique possibilities of comics in the form of graphic medicine: namely comics that thematize physical and mental health. How do comic artists work through issues of trauma and pain? How do artists with chronic illness and disabilities articulate their experience through comics? This course engages with the Medical Humanities, seeking to bring together students of medicine along with students of the humanities to contemplate how we communicate physical and mental illness.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: GSLL 288.

 **CMPL 317. Myth, Fable, Novella: The Long History of the Short Story. 3 Credits.**

Traces the development of European short fiction from the 12th through the 17th centuries, taking brief looks backward toward the ancient world and forward to the modern short story. Previously offered as CMPL 277. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

 **CMPL 359. Literary Diasporas of the Middle East. 3 Credits.**

Analyzing the relationship between the diaspora communities and their new surroundings by drawing on theories of migration, narration, and identity, we will examine the literature born out of this discourse. We will shed light on the historical, cultural, and aesthetic value of this literary production in the Middle East.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: LA, BN, CI.

Grading Status: Letter grade.

This course surveys European "new wave" cinemas post-1945. Movements in Italy, France, the Czech Republic, Britain, Poland, Germany, and other national or transnational contexts may be examined. Movements in Asia, Latin America, and North America may be considered. Or the course may focus on one or two new waves.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

 **CMPL 377. The World of the Beat Generation: Transcultural Connections. 3 Credits.**

A consideration of authors of the Beat Generation, including Jack Kerouac, Diane di Prima, William S. Burroughs, and Allen Ginsberg, particularly with regard to their interest in narrative depictions, poetics, and other meditations that bear on crossing national and territorial borders.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **CMPL 379. Cowboys, Samurai, and Rebels in Film and Fiction. 3 Credits.**

Cross-cultural definitions of heroism, individualism, and authority in film and fiction, with emphasis on tales or images that have been translated across cultures. Includes films of Ford, Kurosawa, and Visconti. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

Same as: ASIA 379.

 **CMPL 380. Almost Despicable Heroines in Japanese and Western Literature. 3 Credits.**

Authors' use of narrative techniques to create the separation between heroines and their fictional societies and sometimes also to alienate readers from the heroines. Austen, Flaubert, Ibsen, Arishima, Tanizaki, Abe.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

Same as: ASIA 380, WGST 380.

 **CMPL 382. Film and Nature. 3 Credits.**

Examines the complex aesthetic relationship between cinema and nature through a range of different genres, traditions, and theoretical frameworks. Films in which natural landscape, animals, and/or plant life receive special attention may be addressed. Thinkers as disparate as Kant, Thoreau, and recent proponents of eco-critical perspectives may be deployed.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

CMPL 383. Literature and Medicine. 3 Credits.

Examines the presentation of medical practice in literature from the mid-19th century to the present. Readings include some medical history, novels, stories, and recent autobiographies of medical training. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

CMPL 385. Modernist and Postmodernist Narrative. 3 Credits.

A study of the structure of various types of modernist and postmodernist narrative, including texts by such writers as Proust, Faulkner, Camus, Hesse, Duras, Mann, Woolf, Robbe-Grillet, Kundera, Simon.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **CMPL 386. Adolescence in 20th- and 21st-Century Literature. 3 Credits.**

Literary portrayal of adolescence in times of cultural upheaval. Although adolescence is often considered a transitional period from carefree childhood to responsible adulthood, we focus on works that explore adolescence primarily as a creative quest for a more meaningful way of life than the one bequeathed by the previous generation.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

CMPL 387. French New Wave Cinema. 3 Credits.

Films of the major directors of the French New Wave of the 1950s through the 1970s, including Jean-Luc Godard, François Truffaut, and Eric Rohmer. Examination of earlier films informing these directors. The impact of the New Wave on global cinema. In English. Recommended preparation: FREN 260 or CMPL 143 or the equivalent.

Rules & Requirements

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: FREN 386.

CMPL 388. History of French Cinema I: 1895-1950. 3 Credits.

Study of French cinema from 1895 through 1950, including early French film, silent cinema, surrealism, poetic realism, and postwar cinema. Concepts and vocabulary for film criticism. Conducted in English. Recommended preparation: FREN 260 or CMPL 143 or the equivalent.

Rules & Requirements

CMPL 390. Special Topics in Comparative Literature. 3 Credits.

Course topics vary from semester to semester.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading Status: Letter grade.

 **CMPL 395. Research, Creativity, and Innovation in the Humanities. 3 Credits.**

This course serves as an introduction to research methodologies, theories, and the university resources available to students seeking to perform cutting-edge research in the humanities. The goal of the course is to produce a substantial research project. The capacities developed in this course as well as the project itself could be used as the basis for grants, scholarships, internship applications, or an honors thesis. Taught in English. Previously offered as CMPL 395H/GSLL 295H/ROML 295H.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH, RESEARCH.

Making Connections Gen Ed: CI, EE- Mentored Research.

Grading Status: Letter grade.

Same as: GSLL 295, ROML 295.

Advanced Undergraduate and Graduate-level Courses**CMPL 411. Critical Theory. 3 Credits.**

Overview of those realms of modern and contemporary thought and writing that are known as, and closely associated with, "critical theory."

Rules & Requirements

Grading Status: Letter grade.

CMPL 420. Film, Photography, and the Digital Image. 3 Credits.

This course examines the shifting nature of the cinematic medium in relation to both traditional photography and newer digital forms of image production. The aesthetic, ethical, and ontological aspects of cinema are explored in light of emergent technological and cultural conditions that demand a full-scale reconsideration of cinema's specificity.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

CMPL 442. Postcolonial Literature of the Middle East. 3 Credits.

This course introduces students to postcolonial literature and theory. The main focus in the course is on literary texts and literary analysis. However, we will use postcolonial theory to engage critically with the primary texts within a postcolonial framework. We will explore language, identity, physical and mental colonization, and decolonization.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-GLOBAL, RESEARCH.

Making Connections Gen Ed: LA, CI, GL.

Grading Status: Letter grade.

Same as: ASIA 442.

CMPL 450. Major Works of 20th-Century Literary Theory. 3 Credits.

Comparative study of representative works on literary and cultural theory or applied criticism to be announced in advance.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

CMPL 452. The Middle Ages. 3 Credits.

Study of select examples of Western medieval literature in translation, with particular attention paid to the development of different genres, subjects, styles, and themes. Texts may be drawn from, among others, the French, Spanish, German, English, and Italian literary traditions, and may range in date from the eighth to the fifteenth centuries.

Rules & Requirements

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

CMPL 453. The Erotic Middle Ages. 3 Credits.

Readings of major works of medieval European literature in translation from the 12th to 15th centuries, focusing on topics such as courtship, marriage, adultery, homoeroticism, domestic violence, mystical visions, and prostitution.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

CMPL 454. Literature of the Continental Renaissance in Translation. 3 Credits.

Discussion of the major works of Petrarch, Boccaccio, Machiavelli, Castiglione, Ariosto, Tasso, Rabelais, Ronsard, Montaigne, Cervantes, and Erasmus. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: NA, WB.

Grading Status: Letter grade.

CMPL 456. The 18th-Century Novel. 3 Credits.

English, French, and German 18th-century narrative fiction with emphasis on epistolary novel. The relation of the novel to the Enlightenment and its counterpart, the cult of sentimentality, and on shifting paradigms for family education, gender, and erotic desire.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

CMPL 460. Transnational Romanticism: Romantic Movements in Europe and the Americas. 3 Credits.

Research-intensive course that explores how the Romantic movement beginning in 18th-century Europe has shaped the world we experience now. Topics vary and include revolutionary republicanism; slavery and abolition; quests for originality, expressiveness, and spiritual renovation; critiques of progress and modern urban culture; and revaluations of the natural world.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST, RESEARCH.

Making Connections Gen Ed: LA, CI, EE- Mentored Research.

Requisites: Prerequisite, ENGL 105.

Grading Status: Letter grade.

CMPL 462. Realism and Naturalism. 3 Credits.

An exploration of Realism and Naturalism in European and American literature, focusing on the movements' philosophical, psychological, and literary manifestations in selected texts.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

CMPL 463. Cinema and Surrealism. 3 Credits.

This course examines surrealism as an inter-art development between the First and Second World Wars. Taking a comparativist view, it focuses mainly on cinema but explores surrealist literature, painting, and sculpture as well. Much of the course traces the continuing relevance of surrealist practices in contemporary cinema.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

CMPL 466. Modernism. 3 Credits.

An exploration of the period concept of modernism in European literature, with attention to central works in poetry, narrative, and drama, and including parallel developments in the visual arts.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

CMPL 467. Contemporary German and Austrian Cinema. 3 Credits.

Examines exciting new directions in German and Austrian cinema from the past 20 years. By analyzing weekly films, students develop skills in film analysis and criticism; read reviews, interviews, and film-theoretical texts; write a film review; and produce a critical essay. Films with English subtitles; readings and discussions in English. Students may not receive credit for both GERM 367 and 467. Previously offered as CMPL 267/GERM 267.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP, CI, NA.

Grading Status: Letter grade.

Same as: GERM 467.

CMPL 468. Aestheticism. 3 Credits.

Aestheticism as a discrete 19th-century movement and as a major facet of modernism in literature and literary theory. Authors include Kierkegaard, Baudelaire, Nietzsche, Huysmans, Wilde, Mann, Rilke, Nabokov, Dinesen, Barthes, Sontag.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

CMPL 469. Milan Kundera and World Literature. 3 Credits.

This course traces Milan Kundera's literary path from his communist poetic youth to his present postmodern Francophilia. His work will be compared with those authors he considers his predecessors and influences in European literature. Taught in English. Some readings in Czech for qualified students.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

Same as: CZCH 469.

CMPL 470. Concepts and Perspectives of the Tragic. 3 Credits.

History and theory of tragedy as a distinctive literary genre and as a more general literary and cultural problem. Authors include Aeschylus, Sophocles, Euripides, Shakespeare, Racine, Goethe, Nietzsche, Wagner, Mann, Samuel I and II, Faulkner. Also engages theorists, ancient and modern.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

CMPL 472. The Drama from Ibsen to Beckett. 3 Credits.

The main currents of European drama from the end of the 19th century to the present. Includes Chekhov, Strindberg, Pirandello, Lorca, Brecht, Anouilh.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

CMPL 473. Drama, Pageantry, and Spectacle in Medieval Europe. 3 Credits.

An introduction to many different forms of medieval drama and pageantry, including plays, tournaments, public executions, and religious processions. Plays, artwork, and texts from a range of Western European countries, ranging in date from the eighth to the 16th centuries, may be considered.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

CMPL 477. Wicked Desire: Vladimir Nabokov, Lolita, on Page and Screen. 3 Credits.

Vladimir Nabokov's novel *Lolita* (1955) became a global phenomenon due to its unflinching portrayal of pedophilia. This course will delve deeper into the novel's moral complexity, its international context, and its reflection in mass culture, including movies by Stanley Kubrick (1962) and Adrian Lyne (1997). Taught in English; some readings in Russian for qualified students.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

Same as: RUSS 477.

CMPL 480. Queering China. 3 Credits.

This course explores "queer" expressions in Chinese literature and visual culture from 1949 through the twenty-first century. It surveys a combination of all-time classics and lesser-known cultural texts featuring non-heteronormative sexual desire and gender-bending performance. We mobilize queer as a broad site of critique beyond Western models of the concept, asking not only how queer challenges normative bodyminds, but also how it negotiates notions of age, family, race, and the neoliberal order.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.

Making Connections Gen Ed: BN.

Grading Status: Letter grade.

Same as: CHIN 480, WGST 480.

CMPL 482. Philosophy and Literature. 3 Credits.

Philosophical readings of literary texts, including novels, plays, and poems.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

Same as: PHIL 482.

 **CMPL 483. Cross-Currents in East-West Literature. 3 Credits.**

The study of the influence of Western texts upon Japanese authors and the influence of conceptions of "the East" upon Western writers. Goldsmith, Voltaire, Soseki, Sterne, Arishima, Ibsen, Yoshimoto, Ishiguro.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: VP, BN, GL.

Grading Status: Letter grade.

Same as: ASIA 435, PWAD 435.

 **CMPL 545. Chinese Science Fiction. 3 Credits.**

This research seminar contextualizes the contemporary explosion of Chinese science fiction within modern Chinese intellectual history and SF studies worldwide. We read globally influential novels such as *The Three-Body Problem* and trace several waves of the genre's century-long evolution within Chinese literature. We ask how threats of global annihilation, the exhaustion of environmental resources, discoveries in virology, epigenetics, and innovations in cybernetics intersect with global development, climate migration, decolonization, and structures of race and class.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL, RESEARCH.

Making Connections Gen Ed: LA, BN, CI.

Grading Status: Letter grade.

Same as: CHIN 545.

 **CMPL 547. Documenting Diasporas: Korean Diasporas in Films and Documentaries. 3 Credits.**

In this course, we will explore the multiple, shifting, and often contested diasporic subjectivities represented and produced in Korean diaspora cinemas; these subjectivities encompass various Korean diaspora communities in Asia, Central Asia, Europe, and the Americas.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP, GL.

Grading Status: Letter grade.

Same as: KOR 447.

 **CMPL 558. The Lives and Times of Medieval Corpses. 3 Credits.**

An investigation of the social, political, and literary uses of corpses in the Middle Ages.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, EE- Mentored Research, WB.

Grading Status: Letter grade.

CMPL 560. Reading Other Cultures: Issues in Literary Translation. 3 Credits.

Permission of the instructor. Reading knowledge of a language other than English recommended. Starting from the proposition that cultural literacy would be impossible without reliance on translations, this course addresses fundamental issues in the practice, art, and politics of literary translation. Previously offered as SLAV 560.

Rules & Requirements

Grading Status: Letter grade.

Same as: GSLL 560.

CMPL 563. Studies in the Anglo-French Renaissance. 3 Credits.

Recommended preparation, FREN 370 (for students taking the course for French credit), or one course from ENGL 225 to ENGL 229, or one course from CMPL 120 to CMPL 124. Study of French-English literary relations in the Renaissance, focusing on literary adaptation and appropriation, poetics, political writing, and related areas. Conducted in English; students may do written work in French for major or minor credit.

Rules & Requirements

Making Connections Gen Ed: LA, WB.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

Same as: FREN 563.

 **CMPL 579. What is a Medium? German Media Theory from Aesthetics to Cultural Techniques. 3 Credits.**

This seminar provides students across the humanities with an overview of the historical and cultural relevance of German media theories. We will discuss the distinction between "art" and "medium", the role of technology and techniques, as well as the interaction of media theory and practice with politics. Films with English subtitles; readings and discussions in English. Previously offered as CMPL 479/GERM 479.

 **ENGL 59. First-Year Seminar: Black Masculinity and Femininity. 3 Credits.**

This first year seminar will use literature, film, and popular culture to explore different expressions of masculinity and femininity in the African American and Black diasporic context. Students will evaluate how artists use gender and sexuality for social critique and artistic innovation.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, CI, US.

Grading Status: Letter grade.

 **ENGL 63. First-Year Seminar: Banned Books. 3 Credits.**

This course will focus on issues of intellectual freedom and censorship, with particular attention to the ways in which these issues are racialized. Why do people ban books? What makes a book "scandalous" or "immoral"? Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH.

Making Connections Gen Ed: LA, US.

Grading Status: Letter grade.

 **ENGL 66. First-Year Seminar: Blake 2.0: William Blake in Popular Culture. 3 Credits.**

William Blake, the visionary poet, artist, and printmaker of the British Romantic period, has had enormous influence on modern art and popular culture. Using the Blake Archive, a hypertext of Blake's poetry and art, we will study key Blake works as well as the digital medium that enables us to study these works in new ways and performances and adaptations of them.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **ENGL 69. First-Year Seminar: Entrepreneurial on the Web. 3 Credits.**

This course explores trends in online communication, emphasizing composition for the Web. The study of these writing activities is linked with a focus on innovation and on entrepreneurship.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH or FC-CREATE.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

 **ENGL 70. First-Year Seminar: Courtly Love, Then and Now. 3 Credits.**

This course examines the medieval concept of courtly love, or fin amour in a range of classical, medieval, and early modern texts. Questions that it might consider include the following: How does courtly love differ from modern visions of ideal love? Why is courtly love so often adulterous? And what is the relation of sex to love, in both the present and in the past?

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **ENGL 71. First-Year Seminar: Healers and Patients. 3 Credits.**

This course explores the human struggle to make sense of suffering and debility. Texts are drawn from literature, anthropology, film, art history, philosophy, and biology. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH, COMMBEYOND.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **ENGL 72. First-Year Seminar: Literature of 9/11. 3 Credits.**

This first-year seminar will introduce students to college-level critical analysis, writing, and oral communication by exploring representations of the 9/11 attacks and the "war on terrorism" in literature and popular culture.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH.

Making Connections Gen Ed: LA, CI, GL.

Grading Status: Letter grade.

 **ENGL 73. First-Year Seminar: Literature of War from World War I to the 21st Century. 3 Credits.**

This is a course about literature and war and what they might teach us about each other. Our work will be oriented around one central question: what, if anything, can a work of art help us see or understand about war that cannot be shown by other means? Students may not receive credit for both ENGL 73 and ENGL 161.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

 **ENGL 74. First-Year Seminar: Epic/Anti-Epic in Western Literature. 3 Credits.**

In this course, students will study epic and anti-epic strains in Western literature, reading key texts in the epic tradition from Homer and Virgil through the 20th century in light of various challenges to that tradition and tensions within it.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

 **ENGL 75. First-Year Seminar: Interpreting the South from Manuscripts. 3 Credits.**

The aim of the course is to give beginning university students the requisite research skills to allow them to appreciate and to contribute to an understanding of the past by directly experiencing and interpreting records from the past. Students will actually get to work with historical documents, some more than 200 years old.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: HS, CI, EE- Mentored Research.

Grading Status: Letter grade.

 **ENGL 76H. First-Year Seminar: Biography: People and Places, Chapel Hill. 3 Credits.**

This seminar focuses on biography, specifically on persons and places in Chapel Hill. Students will engage in basic research to create a final project around a person or place of their choice from any field or profession. Students will design and produce the biography in any format, from print to digital.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA, CI, EE- Mentored Research.

Making Connections Gen Ed: CR.

Grading Status: Letter grade.

 **ENGL 105. English Composition and Rhetoric. 3 Credits.**

This college-level course focuses on written and oral argumentation, composition, research, information literacy, and rhetorical analysis. The course introduces students to the specific disciplinary contexts for written work and oral presentations required in college courses. Students may not receive credit for both ENGL 102 and ENGL 102I, 105, or 105I.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-WRITING.

Making Connections Gen Ed: CR.

Grading Status: Letter grade.

 **ENGL 105I. English Composition and Rhetoric (Interdisciplinary). 3 Credits.**

This college-level course focuses on written and oral argumentation, composition, research, information literacy, and rhetorical analysis. The course introduces students to one specific disciplinary context for written work and oral presentations required in college courses: natural sciences, social sciences, humanities, law, business, or medicine. Students may not receive credit for both ENGL 105 and ENGL 102, 102I, or 105I.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-WRITING.

Making Connections Gen Ed: CR.

Grading Status: Letter grade.

 **ENGL 112. One Big Book That's Worth It. 3 Credits.**

This course guides students slowly and carefully through one extraordinary long book that is well worth the time and effort. Texts vary year to year. Required text: one inexpensive book that you will never want to sell back.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **ENGL 113. Introduction to Critical Game Studies. 3 Credits.**

This course introduces students to the new field of critical game studies, which uses rhetorical and literary theories to explore the impact that games have on our culture. Students will analyze the impact of immersive narratives on players and explore issues of representation and identity by playing through selected games and reading core texts. No gaming experience or equipment is needed.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Grading Status: Letter grade.

 **ENGL 114. The Rhetoric of Data. 3 Credits.**

This course uses a rhetorical approach to explore the concept of data. Questions of race, gender, class and other markers of identity will guide our analysis of how data is rhetorically used to shape knowledge in our contemporary world. This course is especially well suited for those in the WEDP concentration in English & Comparative Literature as well as those interested in fields such as data science, social media, technical communication, and digital humanities.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Grading Status: Letter grade.

 **ENGL 115. History of the English Language. 3 Credits.**

A study of the development of English from its Proto-Indo-European origins to modern English, with emphasis on how events and contacts with other languages influenced the vocabulary of English. Course previously offered as ENGL 314.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

 **ENGL 116. History of Writing: From Pen to Pixel. 3 Credits.**

Fulfills a major core requirement. This course examines how writing has evolved from ancient times to the present, with a focus on how writing technologies (from clay tablets to typewriters, pictographs to emojis) have shaped written languages and writing instruction. Activities will include making cylinder seals, writing with wax tablets, composing videos and comic books.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

 **ENGL 117. Arguing on the Internet: Rhetoric in the Age of Social Media. 3 Credits.**

In this course, students will draw on classical rhetoric—the ancient art of persuasion—to analyze how people argue today, in online contexts. We will use rhetoric to examine the strategies internet trolls use, what makes a post go viral, and whether online arguments can actually change people's minds. We will also develop our own arguments in oral, written and digital formats.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING, COMMBEYOND.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

 **ENGL 118. Storytelling and Game Development. 3 Credits.**

This course examines video games as narrative texts through game play and game design. By the end of the semester, students will develop and create an original interactive narrative video game using the open-source software Twine. Through this making-centered course, students will study existing non-linear narratives to explore the basic principles of writing and examine the needs and expectations of the audience/viewer/player for immersive/interactive media and that of established media.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

 **ENGL 119. Picture This: Principles of Visual Rhetoric. 3 Credits.**

Today, writers in almost every profession use visual evidence persuasively and effectively. How do we interpret and analyze those messages? How do we generate effective visuals that avoid misleading audiences? That is the domain of visual rhetoric, an area of study we will explore in this course. This course is useful for those planning careers in science, computer science, technical communication, business, and data science as well as those interested in cultural and historical aspects.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-CREATE.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

ENGL 120. British Literature, Medieval to 18th Century. 3 Credits.

Survey of medieval, Renaissance, and neoclassical periods. Drama, poetry, and prose. Fulfills a major core requirement. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 121. British Literature, 19th and Early 20th Century. 3 Credits.

Fulfills a major core requirement. Seminar focusing on later British literature covering the Romantic, Victorian, and Modern periods—great foundation for studying later periods. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, CI, NA.

Grading Status: Letter grade.

ENGL 122. Introduction to American Literature. 3 Credits.

Fulfills a major core requirement. A survey of literary movements over the course of American history. Movements studied include romanticism, naturalism, realism, modernism, and post-modernism. Poe, Melville, Hawthorne, Dickinson, Wharton, Fitzgerald, Ellison, Morrison. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 123. Introduction to Fiction. 3 Credits.

Novels and shorter fiction by Defoe, Austen, Dickens, Faulkner, Wolfe, Fitzgerald, Joyce, and others. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 124. Contemporary Literature. 3 Credits.

Fulfills a major core requirement. The literature of the present generation.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 125. Introduction to Poetry. 3 Credits.

A course designed to develop basic skills in reading poems from all periods of English and American literature.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 126. Introduction to Drama. 3 Credits.

Drama of the Greek, Renaissance, and modern periods.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 127. Writing about Literature. 3 Credits.

Course emphasizes literature, critical thinking, and the writing process. Students explore the relationship between thinking, reading, and writing by studying poetry, fiction, drama, art, music, and film.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

ENGL 128. Major American Authors. 3 Credits.

A study of approximately six major American authors drawn from Emerson, Thoreau, Hawthorne, Melville, Stowe, Whitman, Clemens, Dickinson, Chesnut, James, Eliot, Stein, Hemingway, O'Neill, Faulkner, Hurston, or others.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 129. Literature and Cultural Diversity. 3 Credits.

Fulfills a major core requirement. Studies in African American, Asian American, Hispanic American, Native American, Anglo-Indian, Caribbean, gay-lesbian, and other literatures written in English. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, NA, US.

Grading Status: Letter grade.

ENGL 130. Introduction to Fiction Writing. 3 Credits.

Intended for sophomores and first-year students. A writing-intensive introductory workshop in fiction. Close study of a wide range of short stories; emphasis on technical problems. Composition, discussion, and revision of original student stories. Students may not receive credit for both ENGL 130 and ENGL 132H. This course (or ENGL 132H) serves as a prerequisite for other courses in the fiction sequence of the creative writing program.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: LA.

Requisites: Prerequisite, for other courses in the fiction sequence of the creative writing program.

Grading Status: Letter grade.

ENGL 131. Introduction to Poetry Writing. 3 Credits.

Intended for sophomores and first-year students. A writing-intensive introductory workshop in poetry. Close study of a wide range of published poetry and of poetic terms and techniques. Composition, discussion, and revision of original student poems. Students may not receive credit for both ENGL 131 and ENGL 133H. This course (or ENGL 133H) serves as a prerequisite for other courses in the poetry sequence of the creative writing concentration and minor.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 132H. First-Year Honors: Introduction to Fiction Writing. 3 Credits.

Intended for first-year honors students. A writing-intensive introductory workshop in fiction. Close study of a wide range of short stories; emphasis on technical problems. Composition, discussion, and revision of original student stories. Students may not receive credit for both ENGL 130 and ENGL 132H. This course (or ENGL 130) serves as a prerequisite for other courses in the fiction sequence of the creative writing concentration and minor.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

ENGL 133H. First-Year Honors: Introduction to Poetry Writing. 3 Credits.

Intended for first-year honors students. A writing-intensive introductory workshop in poetry. Close study of a wide range of published poems and of the basic terms and techniques of poetry. Composition, discussion, and revision of a number of original poems. Students may not receive credit for both ENGL 131 and ENGL 133H. This course (or ENGL 131) serves as a prerequisite for other courses in the poetry sequence of the creative writing concentration and minor.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

ENGL 134H. First-Year Honors: Women's Lives. 3 Credits.

First-year honors students only. This course focuses on women's life writing, including autobiography, biography, autoethnography, personal essay. Includes theories of life writing. Students will read contemporary works in each genre and write their own versions. Students may not receive credit for both ENGL 55 and ENGL 134H.

Rules & Requirements

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 135H. First-Year Honors: Types of Literature. 3 Credits.

First-year honors students only. Study of literary forms (epic, drama, lyric, novel), beginning in the fall term and concluding in the spring, with three hours credit for each term. Students should consult the assistant dean for honors or the Department of English and Comparative Literature for offerings.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Making Connections Gen Ed: LA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 136. The Publishing Industry: Editing, Design, and Production. 3 Credits.

Students explore the many areas of the publishing industry and practice basic skills widely used in publishing, including submissions management, copy editing, proofreading, and book and ebook design. Through hands-on practice and meetings with experts in the field, students develop a solid foundation in publication design and the editorial process. Students may not receive credit for both ENGL 136 and ENGL 351.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

ENGL 137. Digital Literature. 3 Credits.

In this course students learn to study emergent relationships between print and digital literary cultures. In addition to reading and discussion, the course requires that students conduct original research (individual and also collaborative) in both print and digital formats.

Rules & Requirements

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

ENGL 138. Introduction to Creative Nonfiction. 3 Credits.

Intended for sophomores and first-year students. An introductory workshop in creative nonfiction, a genre that is rooted in fact and composed in artful prose. Through readings and writing prompts, we will explore the full spectrum of the genre, including memoir, travelogues, nature writing, literary journalism, lyric essays, and visual autobiography. We will workshop and revise student essays as well. This course serves as a prerequisite for other courses in the creative writing concentration and minor. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **ENGL 140. Introduction to Gay and Lesbian Culture and Literature. 3 Credits.**

Introduces students to concepts in queer theory and recent sexuality studies. Topics include queer lit, AIDS, race and sexuality, representations of gays and lesbians in the media, political activism/literature.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, US.

Grading Status: Letter grade.

Same as: WGST 140.

 **ENGL 141. World Literatures in English. 3 Credits.**

This course will be a basic introduction to literatures in English from Africa, the Caribbean, South Asia, Canada, Australia, New Zealand, and other Anglophone literary traditions.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

 **ENGL 142. Film Analysis. 3 Credits.**

This course offers an introduction to the technical, formal, and narrative elements of the cinema. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **ENGL 143. Film and Culture. 3 Credits.**

Examines the ways culture shapes and is shaped by film. This course uses comparative methods to contrast films as historic or contemporary, mainstream or cutting-edge, in English or a foreign language, etc.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP, GL.

Grading Status: Letter grade.

 **ENGL 144. Popular Genres. 3 Credits.**

Introductory course on popular literary genres. Students will read and discuss works in the area of mystery, romance, westerns, science fiction, children's literature, and horror fiction.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **ENGL 146. Science Fiction/Fantasy/Utopia. 3 Credits.**

Readings in and theories of science fiction, utopian and dystopian literatures, and fantasy fiction.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **ENGL 147. Mystery Fiction. 3 Credits.**

Studies in classic and contemporary mystery and detective fiction.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **ENGL 148. Horror. 3 Credits.**

This course examines the complexities and pleasures of horror, from its origins in Gothic and pre-Gothic literatures and arts. Topics include psychology, aesthetics, politics, allegory, ideology, and ethics.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **ENGL 149. Digital Composition. 3 Credits.**

In this class students will practice composing in contemporary digital writing spaces. Students will study theories of electronic networks and mediation, and their connections to literacy, creativity, and collaboration. Students will also develop their own multimedia projects using images, audio, video, and words. Topics include the rhetoric of the Internet, online communities, and digital composition.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

 **ENGL 150. Introductory Seminar in Literary Studies. 3 Credits.**

Introduces students to methods of literary study. Students learn to read and interpret a range of literary works, develop written and oral arguments about literature, and conduct literary research.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

ENGL 151. Nineteenth-Century American Literature. 3 Credits.

Survey of American literature from 1789-1900. Students will gain expertise in the major literary movements of the century in their historical contexts. Fulfills a major core requirement.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics.

Grading Status: Letter grade.

ENGL 152. Twentieth-Century American Literature. 3 Credits.

Survey of American literature in the twentieth century covering the major literary movements of the century: realism, modernism, postmodernism, and contemporary. Fulfills a major core requirement.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **ENGL 153. Sex, Gender, and Sexuality in the Premodern World. 3 Credits.**

What did people think about sex, and how did they do it, before Darwin, Stonewall, and the Sexual Revolution? This course will introduce students to the rich and varied history of sex, sexuality, and gender in Western culture before 1700. Topics to be considered may include the evolution of marriage, same-sex love in the classical world, trans identities in medieval Europe, and the history of true love.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

ENGL 154. Race and Racism in the Premodern World. 3 Credits.

This course investigates the history of race (as an idea) and racism (as a practice) in Western culture, from the very first discussions of race in classical antiquity until 1700. Topics to be considered may include the history of slavery, the origins of "scientific" racism, early examples of resistance to racial prejudice, and the historical intersection of race with gender and class.

Rules & Requirements

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

 **ENGL 155. The Visual and Graphic Narrative. 3 Credits.**

This course examines various visual texts, including graphic novels and emerging narrative forms, and explores how meaning is conveyed through composition, the juxtaposition and framing of images, and the relationship between words and images. Students create their own visual narratives.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

ENGL 158. Postcolonial Literature. 3 Credits.

This course is a multigenre introduction to postcolonial literatures. Topics will include postcolonial Englishes, nationalism, anti-imperialism, postcolonial education, and the intersections between national and gender identities in literature. Previously offered as ENGL 463. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

 **ENGL 161. Literature of War from World War I to the 21st Century. 3 Credits.**

This is a class about literature and war and what each might teach us about the other. We will consider a range of texts and center our work around this question: what, if anything, can a work of art help us see or understand about war that might not be shown by other means? Students may not receive credit for both ENGL 73 and ENGL 161.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

Same as: PWAD 161.

 **ENGL 163. Introduction to Health Humanities. 3 Credits.**

This course will introduce students to the key critical concepts, debates, and questions of practice in the interdisciplinary field of health humanities. Students will draw on humanities methods to analyze topics related to human health, illness, and disability. Topics to be considered may include narrative medicine, disability studies, chronic illness, graphic medicine, health activism, mortality, and healthcare systems.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **ENGL 164. Introduction to Latina/o Studies. 3 Credits.**

Introduction to major questions of Latina/o Studies through an examination of literature, culture, the visual arts, and music. Topics include imperialism, colonialism, labor, decolonization, nationalism, ethnicity and other aspects of identity and identification, and new rubrics. Previously offered as ENGL 364. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, US.

Grading Status: Letter grade.

 **ENGL 184. Children's Literature in Contemporary Society. 3 Credits.**

This course is a survey of children's literature (broadly defined in terms of age range and medium), which considers the current significance of the genre, focusing on its reception in terms of contemporary experience and concerns.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Grading Status: Letter grade.

ENGL 190. Exploring Topics in English Studies. 3 Credits.

Introduction to a popular genre, cultural context, group of writers, or contemporary issue in literature, composition, and/or film.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 191. Introduction to Literary Studies. 3 Credits.

Introduces students to the field of literary studies while emphasizing a single writer, group, movement, theme, or period. Students conduct research, develop readings, and compose literary interpretations.

Rules & Requirements

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **ENGL 202. Everyday Cultures: Folklore in America. 3 Credits.**

An introduction to the study of creativity and aesthetic expression in everyday life, considering both traditional genres and contemporary innovations in the material, verbal, and musical arts.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: SS, US.

Grading Status: Letter grade.

Same as: ANTH 202, FOLK 202.

 **ENGL 205. Word, Sound, Image: Multimedia Communication. 3 Credits.**

In this course, we will draw on classical and digital rhetoric to analyze contemporary forms of communication and to develop their own messages for multiple audiences. We will learn to conduct research into online discourse. We will create research-informed communication in written, oral, and digital modes. And we will share that communication with classmates and publicly with the campus and beyond.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE, COMMBEYOND.
Grading Status: Letter grade.

 **ENGL 206. Intermediate Fiction Writing. 3 Credits.**

Substantial practice in those techniques employed in introductory course. A workshop devoted to the extensive writing of fiction (at least two short stories), with an emphasis on style, structure, dramatic scene, and revision.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.
Making Connections Gen Ed: LA, CI.
Requisites: Prerequisite, ENGL 130 or 132H; a grade of B or better in ENGL 130 or 132H is required; permission of the program director for students lacking the prerequisite.
Grading Status: Letter grade.

 **ENGL 207. Intermediate Poetry Writing. 3 Credits.**

An intensification of the introductory class. A workshop devoted to close examination of selected exemplary poems and the students' own poetry, with an emphasis on regular writing and revising. This course serves as a prerequisite for other courses in the poetry sequence of the creative writing concentration and minor.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.
Making Connections Gen Ed: LA, CI.
Requisites: Prerequisite, ENGL 131 or 133H; a grade of B or better in ENGL 131 or 133H is required; permission of the program director for students lacking prerequisite.
Grading Status: Letter grade.

 **ENGL 208. Reading and Writing Creative Nonfiction. 3 Credits.**

An intermediate-level workshop in creative nonfiction that focuses on a particular sub-genre, such as memoir, travel writing, food writing, or nature writing. Students will workshop and revise their own original compositions as well. This course can be repeated under a different professor or sub-genre. This course serves as a prerequisite for other courses in the nonfiction sequence of the creative writing concentration and minor.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.
Making Connections Gen Ed: LA, CI.
Requisites: Prerequisite, ENGL 138 or ENGL 283 with a grade of B or better is required; permission of the program director for students lacking the prerequisite.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

 **ENGL 210. Writing Young Adult Literature. 3 Credits.**

In this writing-intensive workshop, we will explore the ever-expansive category of Young Adult ("YA") Literature, examining genre, plot, and character through our own writing, in addition to YA novels, novel excerpts, and craft essays.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.
Making Connections Gen Ed: LA, CI.
Requisites: Prerequisite, ENGL 130 or 132H.
Grading Status: Letter grade.

 **ENGL 211. Writing Political Fiction. 3 Credits.**

An intermediate-level creative writing workshop intended for students who have already taken ENGL 130 or ENGL 132H, this course focuses on the art and craft of fiction that features visible politics. Rather than encouraging a didactic approach to storytelling, this course teaches students to ask better questions of themselves and their readers. Instead of using storytelling as a tool for propaganda, students will learn how well-crafted fiction can combat false narratives, social injustices, and tyranny.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.
Making Connections Gen Ed: CI.
Requisites: Prerequisite, ENGL 130 or ENGL 132H.
Grading Status: Letter grade.

 **ENGL 212. Writing Crime and Mystery Fiction. 3 Credits.**

An intermediate-level creative writing workshop intended for students who have already taken ENGL 130 or ENGL 132H. This course focuses on the art and craft of fiction that features crime or mystery. Students will use the tools of literary fiction, while also learning the conventions of the genre and apply them to their fiction. Close study of crime and mystery novels and short stories. Composition, discussion, and revision of original student stories.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.
Making Connections Gen Ed: CI.
Requisites: Prerequisite, ENGL 130 or ENGL 132H.
Grading Status: Letter grade.

ENGL 213. Grammar of Current English. 3 Credits.

An introductory course in descriptive English linguistics that studies the sounds, word-building processes, and sentence structures of current English as well as general notions of correctness and variation. Previously offered as ENGL 313.

Rules & Requirements

Grading Status: Letter grade.

ENGL 215. English in the U.S.A.. 3 Credits.

A historical and critical examination of regional, social, and stylistic variation in English in the United States, including correctness, legal and educational issues, and the influence of mass media. Previously offered as ENGL 315. Honors version available.

Rules & Requirements

Making Connections Gen Ed: US.
Grading Status: Letter grade.

ENGL 218. American Poetry. 3 Credits.

Content of course varies with instructor, but students are given a sense of the chronological, stylistic, and thematic development of American poetry over two centuries. Previously offered as ENGL 348. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 219. The American Novel. 3 Credits.

The development of the American novel from the late 18th century through the 20th century. May proceed chronologically or thematically. Previously offered as ENGL 347. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 220. American Literature, Before 1900. 3 Credits.

Instructors choose authors or topics from the period before 1900. The course may be organized chronologically or thematically, but is not intended as a survey. Previously offered as ENGL 344. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 221. American Literature, 1900-2000. 3 Credits.

Instructors choose authors or topics from the period 1900 to 2000. The course may be organized chronologically or thematically, but is not intended as a survey. Previously offered as ENGL 345. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 223. Chaucer. 3 Credits.

Fulfills a major core requirement. An introduction to Chaucer's major poetry: Troilus and Criseyde, the "dream" poems (e.g., Parliament of Fowls), and The Canterbury Tales. Previously offered as ENGL 320. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 224. Survey of Medieval English Literature, excluding Chaucer. 3 Credits.

This course surveys the canonical works of Old and Middle English literature from the eighth to the 15th centuries, with the sole exception of the poetry of Geoffrey Chaucer. Topics to be considered may include the development of courtly love, the history of meter, religious visions and visionary experience, and the birth of modern English. Previously offered as ENGL 319. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 225. Shakespeare. 3 Credits.

Fulfills a major core requirement. A survey of representative comedies, tragedies, histories, and romances by William Shakespeare. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 226. Renaissance Drama. 3 Credits.

A survey of Renaissance drama focusing on contemporaries and successors of Shakespeare during the Elizabethan and Jacobean periods. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 227. Literature of the Earlier Renaissance. 3 Credits.

Poetry and prose of the earlier English Renaissance (from 1485 until 1600), including More, Wyatt, Sidney, Spenser, Bacon, and Marlowe. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 228. Literature of the Later Renaissance. 3 Credits.

Poetry and prose of the later English Renaissance (from 1600 until the early 1660s), including Donne, Jonson, Bacon, Herbert, Burton, Browne, Marvell, Herrick, and others. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 230. Milton. 3 Credits.

Fulfills a major core requirement. A study of Milton's prose and poetry in the extraordinary context of 17th-century philosophy, politics, religion, science, and poetics, and against the backdrop of the English Civil War. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 232. English Literature, 1832-1890. 3 Credits.

Poetry and prose of the Victorian period, including such writers as Tennyson, the Brownings, Arnold, the Brontës, Dickens, G. Eliot. Previously offered as ENGL 439. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 233. Contemporary Approaches to 18th-Century Literature and Culture. 3 Credits.

Focuses on particular forms, authors, or issues in the period. Previously offered as ENGL 436. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 234. The British Novel from 1870 to World War II. 3 Credits.

Students will read novels in English, including Joyce, Woolf, and Proust, to explore how writers from across cultures created new strategies to represent the late 19th and 20th century worlds of imperialism, science, and experiment. Previously offered as ENGL 355. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 235. Studies in Jane Austen. 3 Credits.

Fulfills a major core requirement. This course focuses on both the novels of Jane Austen and their fate since publication in the early 19th century. They have inspired countless imitations, over 150 sequels and continuations, and more than 30 full-length films. We will trace the transmission and transformation of the original texts across time and cultures. Previously offered as ENGL 340.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 236. 18th-Century Fiction. 3 Credits.

A survey of 18th-century fiction from Behn to Austen. Previously offered as ENGL 333. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 237. 18th-Century Drama. 3 Credits.

A survey of Restoration and 18th-century drama from Ethredge to Sheridan. Previously offered as ENGL 332. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 238. 19th-Century British Novel. 3 Credits.

Important novelists in the tradition, from Austen to Wilde. Previously offered as ENGL 338. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 239. 20th-Century British and American Poetry. 3 Credits.

Twentieth-century poetry in English, approached historically, thematically, formally, politically, and aesthetically. Previously offered as ENGL 350. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 240. Caribbean Literature. 3 Credits.

An introductory exploration of key topics in the literatures of the Caribbean basin, Bermuda, and the Caribbean diaspora.

Rules & Requirements

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

ENGL 241. Studies in Oscar Wilde. 3 Credits.

This course focuses on the life and works of one of the most striking personalities of the nineteenth century: Oscar Wilde. In addition to reading numerous works by Wilde (including short fiction, poetry, drama, fairy tales, and critical essays), we consider the scientific, religious, and aesthetic contexts that shaped Wilde's work.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 242. Victorian Literature--Contemporary Issues. 3 Credits.

The study of an individual Victorian writer, a group (such as the Pre-Raphaelites), a theme (such as imperialism), or genre (such as Victorian epic or the serialized novel). Previously offered as ENGL 442.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 243. Studies in Virginia Woolf. 3 Credits.

An in-depth single-author course examining the fiction and non-fiction writings of Virginia Woolf.

Rules & Requirements

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 244. Queer Cinema. 3 Credits.

This course focuses on gender and sexuality by examining the history, theory, politics, and aesthetics of queer identities in film and possibly other audiovisual media. Questions of representation, authorship, genre, and performance are addressed, either in national or transnational contexts.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.

Making Connections Gen Ed: VP, US.

Grading Status: Letter grade.

ENGL 248. Intersectionality: Race, Gender, Sexuality, and Social Justice. 3 Credits.

The first goal of this super course is to give students real tools for how to address multiple modes of difference and identity formations like race, gender, class, and sexuality.

Rules & Requirements

IDEAs in Action Gen Ed: FC-POWER.

Making Connections Gen Ed: CI, US.

Grading Status: Letter grade.

Same as: AMST 248, POLI 248, WGST 249.

ENGL 249. Romantic Literature--Contemporary Issues. 3 Credits.

Devoted to British Romantic-period literature's engagement with a literary mode (such as the Gothic) or a historical theme (such as war or abolition) or to an individual author. Previously offered as ENGL 441. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 250. Faulkner. 3 Credits.

The writings, contexts, and legacy of William Faulkner. Fulfills a major core requirement.

Rules & Requirements

Making Connections Gen Ed: LA, CI, NA.

Grading Status: Letter grade.

ENGL 251. Film Performance and Stardom. 3 Credits.

This course focuses on performances in cinema, as well as the concept of stardom. This course surveys a diverse range of performances across cinema history, through a variety of different genres and production modes. Close attention is paid to actorly expression, and to the creation of star images in media.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

ENGL 252. National and Transnational Cinemas. 3 Credits.

Historical, theoretical, and analytical approaches to the intersection of nation and cinema. This course may focus on films made within a particular nation or serve as a comparative analysis of the cinemas of several nations.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: VP, GL.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 253. Space and Place in Literature/Film. 3 Credits.

In this course, students consider the relationship between space and place in literature or film. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 255. Introduction to Media Studies. 3 Credits.

This course provides an introduction to concepts of media studies as they bear on the critical examination of cinema, television, and other cultural forms. Students explore different theoretical perspectives on the role and power of media in society in influencing social values, political beliefs, identities, and behaviors.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

ENGL 256. Crafting the Dramatic Film: Theory Meets Practice. 3 Credits.

This course places students behind the camera and in front of the screen as they alternate between creative and critical approaches to cinema. They learn how to practice the basic principles of narrative film production (producing, directing, cinematography, editing, and sound design) while engaging critically with key debates in film theory and criticism (semiotic, cognitive, psychoanalytic, feminist, and phenomenological). Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-CREATE.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

ENGL 257. Video Games and Narrative Cinema. 3 Credits.

In this hands-on gaming course, students decipher the narrative design of video games while exploring the legacy of cinema to gameplay. They also apply critical gaming concepts (agency, world-building, point of view, authorship, representation, narrative choice, play) to evaluate cinema as a ludic and participatory artform beyond conventional narrative elements.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

ENGL 258. Games and Literature. 3 Credits.

Part hands-on gaming studio, part literature seminar--students in this course will play a range of digital and analog games while reading key works of English literature. Students will use literary critical concepts (plot, narrative, dialogue, imagery, characterization, symbol, voice, genre) to interrogate games as cultural texts. They will also apply their experience of critical play to consider the shared affordances of literature and games: as frameworks for play, mechanisms for world-building, and equipment for living.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.
Grading Status: Letter grade.

ENGL 261. An Introduction to Literary Criticism. 3 Credits.

An introduction to literary criticism in English studies, with an emphasis on historical developments from Plato to the present. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 263. Literature and Gender. 3 Credits.

Focused study of how issues of gender shape literary themes, characters, and topics, and the composition and reception of literary texts. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA.
Grading Status: Letter grade.
Same as: WGST 263.

ENGL 264. Healing in Ethnography and Literature. 3 Credits.

This course brings together literary and ethnographic methods to explore narratives of illness, suffering, and healing, and medicine's roles in these processes. Themes include illness narratives, outbreak narratives, collective memory and healing from social trauma, and healers' memoirs.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.
Same as: ANTH 272.

ENGL 265. Literature and Race, Literature and Ethnicity. 3 Credits.

Considers texts in a comparative ethnic/race studies framework and examines how these texts explore historical and contemporary connections between groups of people in the United States and the Americas. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, US.
Grading Status: Letter grade.

ENGL 266. Science and Literature. 3 Credits.

Introductory exploration of the relation between science and literature, as well as the place and value of both in the contemporary world. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 267. Growing Up Latina/o. 3 Credits.

This interdisciplinary course will examine what it means to grow up Latina/o through an exploration of childhood narratives, linguistic debates, education policies and legislation, and censored books.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, US.
Grading Status: Letter grade.

ENGL 268. Medicine, Literature, and Culture. 3 Credits.

An introduction to key topics that focus on questions of representation at the intersections of medicine, literature, and culture. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 269. Introduction to Disability Studies. 3 Credits.

This course will introduce students to the key critical concepts, debates, and questions of practice in the emerging scholarly field of disability studies.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

ENGL 270. Studies in Asian American Literature. 3 Credits.

This course introduces students to the study of Asian American literature and culture. The focus of the course may include examining coming-of-age novels, immigration narratives, or other genre explorations.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, US.
Grading Status: Letter grade.

ENGL 271. Mixed-Race America: Race in Contemporary American Literature and Culture. 3 Credits.

This service-learning course is partnered with a charter school, and together UNC-Chapel Hill and high school students will explore issues of race in American literature and culture.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-POWER, HI-SERVICE.
Making Connections Gen Ed: LA, EE- Service Learning, US.
Grading Status: Letter grade.

ENGL 272. Studies in African American Authors. 3 Credits.

This course focuses on the life and writings of a specific African American author. In addition to examining numerous texts by the author, we will consider the cultural, political, and artistic contexts that shaped the author's work. Fulfills a major core requirement.

Rules & Requirements

Making Connections Gen Ed: LA, US.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 274. Drama: PlayMakers Current Season. 3 Credits.

Approaches to the literary interpretation of drama through consideration of PlayMakers Repertory Company's current season, stressing original research into literary history, genre, and social and cultural contexts.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, CI, EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 278. Irish Writing, 1800-2000. 3 Credits.

This course introduces major texts and current themes, from Joyce to the postcolonial, in Irish writing from 1800 to 2000.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 279. Migration and Globalization. 3 Credits.

Covers literary and other social texts associated with the legacies of population transfers and the movements, forced or voluntary, of people across borders. Course previously offered as ENGL 365.

Rules & Requirements

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

ENGL 282. Travel Literature. 3 Credits.

Students will analyze and compose various types of travel literature, such as voyage, pilgrimage, and tour, in terms of literary conventions, historical conditions, and considerations of gender, ethnicity, economics, empire, and religion. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

ENGL 283. Life Writing. 3 Credits.

Students will analyze and compose different forms of life writing such as autobiography, biography, and autoethnography. Readings will include theories of autobiography and selected literature. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-CREATE.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

ENGL 284. Reading Children's Literature. 3 Credits.

An overview of the tradition of children's literature, considering the ways those books point to our basic assumptions about meaning, culture, self, society, gender, and economics. The course stresses original student research and oral and written presentation. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING, RESEARCH.

Making Connections Gen Ed: LA, EE- Mentored Research, NA.

Grading Status: Letter grade.

ENGL 287. Black Horror and the Moving Image. 3 Credits.

This course explores Black horror as a cinematic universe held together through the logics, sounds, and aesthetics of anti-blackness, violence, nostalgia, Black trauma, and themes/tropes from horror media. We will consider the relationship between horror and Black modes of expression focusing on the various ways Black filmmakers, writers, and artists have attempted to visualize the haunting connections between the body, the flesh, and the cultural geography of America and the Black Diaspora.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Grading Status: Letter grade.

ENGL 288. Literary Modernism. 3 Credits.

In this course students will read early 20th-century poetry, fiction, films, and criticism, and consider the ways these works constituted, defined, and challenged the phenomenon known as literary modernism.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 289. Jewish American Literature and Culture. 3 Credits.

This course examines Jewish American literary works in various genres from the nineteenth century to the present day. Together, we will interpret and critique the aesthetic and moral "worldview" of each work while simultaneously situating these works in the historical and cultural contexts in which they were created.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Grading Status: Letter grade.

Same as: AMST 289, JWST 289.

ENGL 290. Engaging Topics in English Studies. 3 Credits.

Focused study of a popular genre, cultural context, group of writers, or contemporary issue in literature and/or composition.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 291. Picture Books. 3 Credits.

A survey of illustrated books for children in Britain and America considering both image and text. The course stresses original student research and oral and written presentation. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING, RESEARCH.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 292. Youth in Culture. 3 Credits.

An examination of youth in culture through a range of texts that focus on the aesthetic, historical, and social factors grounding the depiction of youth in the past and its experience and representation today. The course stresses original student research and oral and written presentation.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, CI, EE- Mentored Research.

Grading Status: Letter grade.

ENGL 293. Internship for Credit. 3 Credits.

An opportunity to gain credit for an internship in a field related to the study of English, such as publishing, teaching, business writing, or law. Available to majors with at least a 2.5 GPA. Requirements include portfolio of work completed for the internship, meetings with the academic advisor, and a 4000-word writing project related to the internship.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Requisites: Prerequisite, Two ENGL or CMPL courses at any level.

Grading Status: Pass/Fail.

ENGL 295. Undergraduate Research Seminar. 3 Credits.

Guides students through the processes of developing an original research topic, conducting research, and analyzing research, leading students to produce a high-quality presentation of their findings. Topic varies by instructor but may focus on literary studies or closely-related arenas such as medical humanities, digital humanities, and creative writing, among others. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: LA, CI, EE- Mentored Research.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading Status: Letter grade.

ENGL 300. Professional Writing and Editing. 3 Credits.

Advanced practice with writing for professional audiences, based on attention to theories of genre, audience, rhetoric, and style. Students will develop skills in professional writing, editing, copyediting, proofreading, and publishing.

Rules & Requirements

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

ENGL 300I. Professional Writing in Health and Medicine (Interdisciplinary). 3 Credits.

Advanced practice with writing about health from medical and humanistic perspectives, ranging from grant proposals to qualitative research articles to the personal illness narrative.

Rules & Requirements

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

ENGL 301. Professional Writing in the Arts. 3 Credits.

A course focused on writing in professional settings focused on the arts and humanities. Students will compose documents such as funding proposals, performance reviews, artists' statements, or promotional educational materials. Includes oral, written, and digital compositions.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

ENGL 302. Professional Communication for Social Movements. 3 Credits.

Advanced course focused on writing for professional audiences in non-profit, public policy, social justice, and social entrepreneurship settings. Includes oral, written, and digital compositions. Students will compose documents such as grant proposals, policy reports, websites, public presentations, or multimedia videos to advance social causes.

Rules & Requirements

IDEAs in Action Gen Ed: COMMBEYOND.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

ENGL 303. Scientific and Technical Communication. 3 Credits.

Advanced course focused on adapting scientific and technical content to public or non-expert audiences in oral, written, and digital forms. Assignments may include composing professional reports, developing multimedia instructions for a product, or developing an interactive exhibit.

Rules & Requirements

IDEAs in Action Gen Ed: COMMBEYOND.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

ENGL 304. Advanced Business Communication. 3 Credits.

Advanced practice with business and professional oral, written, and multimedia forms. Students will develop business proposals, reports, plans, and professional oral presentations for professional audiences.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING, COMMBEYOND.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

ENGL 305. Advanced Legal Communication. 3 Credits.

Advanced practice with oral, written, and digital composition for legal settings.

Rules & Requirements

IDEAs in Action Gen Ed: FC-VALUES.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

ENGL 306. Playwriting. 3 Credits.

A workshop for people interested in writing plays, focusing on elements that make them work on stage, such as characterization, climax, dialogue, exposition, momentum, setting, and visual effects.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: LA.

Requisites: Prerequisite, ENGL 130, 131, 132H, or 133H.

Grading Status: Letter grade.

ENGL 307. Studies in Fiction and Poetry: Stylistics. 3 Credits.

An occasional intermediate course that may focus on such topics as living writers, poetic forms, flash fiction, or imitation. Permission of the program director.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: LA, CI.

Requisites: Prerequisite, ENGL 130, 131, 132H, or 133H.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 308. Gram-O-Rama: Grammar in Performance. 4 Credits.

Studies of syntax, parts of speech, types of sentences, wordplay, the narrative and non-narrative power of words, prose style, and the relationships between language, rhythm, and culture culminate with students performing a selection of the comedic and dramatic sketches written during the semester.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: VP, CI, EE- Performing Arts.

Grading Status: Letter grade.

ENGL 310. Fairy Tales. 3 Credits.

A study of fairy tales as historical artifacts that reveal the concerns of their times and places, as narrative structures capable of remarkable transformation, and as artistic performances drawing upon the expressive resources of multiple media, intended to challenge conventional presuppositions about the genre.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

Same as: FOLK 310.

ENGL 312. Oral Presentations in the Professional World. 3 Credits.

Students will focus on learning skills and strategies to deliver effective oral presentations. The course will be organized around an individual research project that will culminate in a major presentation following the "best practices" of that discipline. During the semester, students will deliver presentations of various lengths and genres and will learn effective use of media support. Course standards will emphasize professional-level expectations and current "best practices" in the field.

Rules & Requirements

IDEAs in Action Gen Ed: COMMBEYOND.

Requisites: Prerequisite, ENGL 105 or ENGL 105I.

Grading Status: Letter grade.

ENGL 317. Writing and Social Networks. 3 Credits.

This class explores writing in and about contemporary social media spaces. The course focuses on developing writing projects that study and participate in online social networks. Topics include the rhetoric of the Internet; collaboration online; information ethics; amateur content creation; networks and social interaction; networks and literacy; data and privacy; and remix composition.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

ENGL 318. Multimedia Composition. 3 Credits.

This class studies composing in a variety of modes, including visuals, moving images, gestures, sounds, and words. Students develop projects using image, audio, and video editors, examining how multimedia fits within the history of rhetoric and writing and relates with concerns such as purposes, audiences, contexts, arguments, genres, and mediums. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

ENGL**323. American Cinema of the 1970s: New Hollywood and Beyond. 3 Credits.**

This course examines one of the most adventurous decades in U.S. film history, from the "Auteur Renaissance," to independent cinema, through to the politically conscious reconfiguration of popular genres. Films are discussed in the context of social changes and anxieties in the years surrounding Watergate and the Vietnam War.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

ENGL 324. Creating the Video Essay. 3 Credits.

This instructional course gives students the opportunity to make video essays. Students learn how to use creative audiovisual media tools, in particular those related to the moving image. Students gain familiarity with digital production and editing technology, which they use as instruments of critical expression and argumentation.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

ENGL 325. Shakespeare and His Contemporaries. 3 Credits.

This course explores the wide range of drama produced in England between the 1570s and 1640s, including work by Shakespeare and his many rivals. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 327. Renaissance Literature and Its Intellectual Contexts. 3 Credits.

An introduction to one or two intellectual movements of the Renaissance, such as humanism, the protestant reformation, the baroque, or the scientific revolution, through the examination of both literary and non-literary texts of the period.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 329. Medieval Feminisms. 3 Credits.

This course explores the contributions of the Middle Ages, and of medieval women, to the history of feminism and women's writing. Over the course of the semester, we will explore four different types of work by and about women: literary writing, theological writing, life writing, and the performance of identity and dramatic character. Along the way, we will also read selections from contemporary feminist theory, including Sara Ahmed, Lauren Berlant, Luce Irigaray, and Judith Butler.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

ENGL 330. Perspectives on the Renaissance. 3 Credits.

Students will study Renaissance literature through one or more contemporary theoretical lenses, which might include feminist theory, queer theory, cultural materialism, new historicism, or psychoanalytic theory. Texts may range in date from the early 16th century to the late 20th and early 21st century.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 331. 18th-Century Literature. 3 Credits.

A survey of British literature from Dryden to Paine. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

ENGL 337H. The Romantic Revolution in the Arts. 3 Credits.

This course examines the technical and aesthetic revolutions in the fine arts of the English Romantic Period, focusing on lyrical poetry, landscape painting, and original printmaking and works by Wordsworth, Turner, and Blake.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 341. Tabletop Games: Narrative, History, and Design. 3 Credits.

This course introduces students to developments in modern tabletop gaming. Students will analyze the mechanics and thematics that tabletop games use to create narratives. Particular attention will be paid to the values and stories that emerge from the decisions made by designers. This course culminates in a capstone project in which students create their own tabletop game. No prior experience with tabletop gaming is required.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Grading Status: Letter grade.

ENGL 346. U.S. Literature on Page and Screen. 3 Credits.

This course pairs selected canonical works of U.S. literature (short stories, poems, essays, and short novels) with films that adapt or translate the original text for cinema. Works range from westerns and war movies to psychological thrillers, biopics, and comedies. By comparing text and film, the course deepens students' understanding of both aesthetic forms and traces the sometimes conflicting ideals, myths, and narratives that gave shape to different historical versions of American national identity. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Requisites: Prerequisite, ENGL 105 or ENGL 105I.

Grading Status: Letter grade.

ENGL 351. From Manuscript to Press: Writer as Publisher. 3 Credits.

Students learn the basics of book production, including acquisitions, developmental editing, copy editing, layout and book design, marketing, and digital publication by working on titles in production at a national press and meeting with professionals in the industry.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: CI.

Requisites: Prerequisites, ENGL 130, 131, 132H, 133H, or 138.

Grading Status: Letter grade.

 **ENGL 356. British and American Fiction Since World War II. 3 Credits.**

Course studies contemporary British and American fiction through representative works. Intellectual and aesthetic, historical and cultural emphases. May include works from the Anglophone diaspora. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 357. 20th-Century British Literature and Culture. 3 Credits.

This course examines factors shaping British/Commonwealth literature in the 20th century, especially the world wars and the dismantling of the British Empire. We will investigate themes of both nostalgia and anticipation: ways of remembering the past of England and the Empire, and of describing the future of British culture(s).

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **ENGL 358. Contemporary US Poetry. 3 Credits.**

This course will focus on important poets and poetic movements in the United States in the long twentieth century. Special attention paid to writings by poets about what poetry is and does: critiquing social injustice, expressing alternative identities, exploring disordered mental states, communicating otherwise unintelligible experiences, etc. Movements may include: the Harlem Renaissance, Modernism, Confessionalism, the Black Arts Movement. We will also read poets who don't belong to any movement and poets writing today.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Grading Status: Letter grade.

 **ENGL 359. Latina Feminisms: Civil Rights, Ecofeminism, and Health Studies. 3 Credits.**

This course will offer a theoretical grounding on Latina feminism and the historical moments and movements that inspired and/or influenced such Latina feminist thought and productions. In this course, we will gain a foundation for how Latina feminists theorize about gender, race, sex, culture, history, and aesthetics. We will analyze a variety of literary forms and genres (e.g., poems, essays, novels, plays, testimonios) and mediums (literature, film, documentaries, visual art).

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-KNOWING.

Grading Status: Letter grade.

 **ENGL 360. Contemporary Asian American Literature and Theory. 3 Credits.**

This course will explore contemporary Asian American literature and theory and will examine how Asian American literature fits into, yet extends beyond, the canon of American literature.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, US.

Grading Status: Letter grade.

Same as: ASIA 360.

 **ENGL 361. Asian American Women's Writing. 3 Credits.**

This course covers writings by Asian American women and examines issues of gender, race, and sexuality.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, CI, US.

Grading Status: Letter grade.

Same as: WGST 361.

 **ENGL 362. Asian American Literature and History. 3 Credits.**

This course focuses on events of particular import in Asian American history and how they are recounted in a variety of interdisciplinary texts. Events may include the Japanese American incarceration, refugee movements, immigration, or others, at the instructor's discretion. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, US.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **ENGL 363. Feminist Literary Theory. 3 Credits.**

Theories of feminist criticism in relation to general theory and women's writing. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

Same as: WGST 363.

ENGL 365H. Migration and Globalization. 3 Credits.

Covers literary works associated with one or more of the major historical migrations, forced and voluntary, and present-day works engaged with globalization.

Rules & Requirements

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

 **ENGL 367. African American Literature to 1930. 3 Credits.**

Survey of writers and literary and cultural traditions from the beginning of African American literature to 1930. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 368. African American Literature, 1930-1970. 3 Credits.

Survey of writers and literary and cultural traditions from 1930 to 1970. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **ENGL 369. African American Literature, 1970 to the Present. 3 Credits.**

Survey of writers and literary and cultural traditions from 1970 to the present. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **ENGL 370. Race, Health, and Narrative. 3 Credits.**

This interdisciplinary course explores how issues of health, medicine, and illness are impacted by questions of race in 20th-century American literature and popular culture. Specific areas covered include pain, death, the family and society, reproduction, mental illness, aging, human subject experimentation, the doctor-patient relationship, pesticides, and bioethics. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER, COMMBEYOND.

Making Connections Gen Ed: LA, CI, US.

Grading Status: Letter grade.

 **ENGL 371. The Place of Asian Americans in Southern Literature. 3 Credits.**

This course will consider the themes of globalization and regionalism through an examination of narratives featuring Asians/Asian Americans in the American South. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, CI, US.

Grading Status: Letter grade.

 **ENGL 373. Southern American Literature. 3 Credits.**

An introduction to Southern literature, with emphasis on the 20th-century: fiction, poetry, drama, essays. Representative authors include Faulkner, Wolfe, Williams, Warren, Hurston, Wright, Ransom, Tate, Welty, Chappell, McCullers, O'Connor. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **ENGL 374. Southern Women Writers. 3 Credits.**

The study of fiction, poetry, plays, and essays by Southern American women writers of the past 200 years, continuing to the present.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

Same as: WGST 374.

 **ENGL 377. Introduction to the Celtic Cultures. 3 Credits.**

A broad survey of the cultures of the Celtic-speaking areas, notably Ireland, Wales, Scotland, and Brittany, with special emphasis on language and literature.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

 **ENGL 378. Film Criticism. 3 Credits.**

An introduction to the history and practice of film criticism.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **ENGL 380. Topics In Film History. 3 Credits.**

This course examines one or more topics in film history, focusing on specific periods. The scope may be national or transnational. Films are analyzed for how they address and reflect key historical developments. Restricted to any undergraduate student who is a Sophomore, Junior, or Senior with a GPA or 3.0 or higher, OR any First-Year student. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **ENGL 381. Literature and Cinema. 3 Credits.**

The course introduces students to the complex narrative, aesthetic, and rhetorical relationship between literature and cinema.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **ENGL 382. Literature and Media. 3 Credits.**

This course investigates the rich and complex relationship between literature and other mass media. Previously offered as ENGL 281. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **ENGL 384. Podcasting. 3 Credits.**

This class studies the composition and development of podcasts, paying attention to the unique affordances and drawbacks of podcast technologies. Students develop, research, script, and record podcasts in several genres, including topical, interview, and storytelling formats, while learning practical editing techniques using industry-standard software.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE, COMMBEYOND.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

ENGL 385. Literature and Law. 3 Credits.

Explores various connections of literature and law, including literary depictions of crime, lawyers, and trials; literary conventions of legal documents; and/or shared problems in interpretation of law and literature.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-VALUES.

Making Connections Gen Ed: LA, EE- Mentored Research.

Grading Status: Letter grade.

ENGL 386. Gender, Sexuality, and the South Asian Diaspora. 3 Credits.

This course explores how gender and sexuality shapes the literature, politics, and public culture of South Asian immigrant communities in Europe, Africa, the Americas, and other locations outside the Indian subcontinent.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

ENGL 387. Canadian Literature. 3 Credits.

A study of Canadian literature in English from the late 18th century to the present, with emphasis on 20th-century writing and on the novel.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 388. Modernism: Movements and Moments. 3 Credits.

What was modernism? When was modernism? Where was modernism? Reading literature and visual art from 1890 to 1940 in Europe, America, and Africa will be key to finding answers.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 389. Major Film Directors. 3 Credits.

This course introduces students to the aims and concerns of authorship study in film through discussion of a major filmmaker's body of work. The course may focus predominantly on a single figure or may compare two or more figures who share certain affinities of theme or style.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

ENGL 390. Studies in Literary Topics. 3 Credits.

An intensive study of a single writer, group, movement, theme, or period. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading Status: Letter grade.

ENGL 392. Professional Writing Portfolio Development and Publication. 3 Credits.

Students research, refine, and compose a portfolio of advanced written work for professional audiences or publication. Each portfolio will contain an array of written work that demonstrates the student's versatility as a writer, researcher, and editor. The portfolio is intended for presentation to professional audiences, potential employers, prospective graduate programs, and/or publication. Previously offered as ENGL 492.

Rules & Requirements

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

ENGL 394. Misbehaving Bodies: Dis/ease, Dis/order, & Dys/topia in Latinx Fiction and Film. 3 Credits.

This course explores how Latinx fiction and film portray diasporic "misbehaving" bodies. We will explore how bodies not conforming to desired "norms" are treated both within global society and within their own multi-ethno-racial diasporic communities. The "norms" Latinx individuals and communities navigate are often invisible but clearly defined through language, policy/policing, social structure, and cultural production. The Latinx diaspora includes the United States, the Caribbean Basin, and other sites beyond the North Atlantic region.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.

Grading Status: Letter grade.

ENGL 396. Directed Readings in English or Creative Writing. 3 Credits.

Permission of the department. Intensive reading on a particular topic under the supervision of a member of the staff.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 399. Cinema and the Museum. 3 Credits.

Museums have long been considered repositories for artifacts and sites of pedagogy, far removed from contemporary visual practices. And yet, today's museums are full of moving images, from interactive displays to IMAX theaters to screen-based art. In this class we will consider interactions between the cinema and the museum. Topics to be addressed include immersive viewing technologies, film and ethnography, expanded cinema, virtual reality, and installation art. This course includes visits to campus museums.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**ENGL 400. Advanced Composition for Teachers. 3 Credits.**

This course combines frequent writing practice with discussions of rhetorical theories and strategies for teaching writing. The course examines ways to design effective writing courses, assignments, and instructional materials.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Grading Status: Letter grade.

ENGL 402. Investigations in Academic Writing and Writing Centers. 3 Credits.

This course considers learning to write from three vantage points: personal, social, and contextual. Emphasis on theory, reflective practice, and pedagogy for peer tutoring.

Rules & Requirements

IDEAs in Action Gen Ed: .

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

ENGL 403. Rhetoric and Social Justice. 3 Credits.

How do communities resist oppression through writing? This course examines texts and methods related to the study of social movements. Students will work with archival materials at Wilson Library to research social justice movements at UNC and in the South. Previously offered as ENGL 316. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-VALUES.

Making Connections Gen Ed: CI, EE- Mentored Research.

Grading Status: Letter grade.

ENGL 404. Advanced Creative Nonfiction. 3 Credits.

In addition to surveying key works of creative nonfiction throughout the ages - from Montaigne in the 16th century to Solnit, Rankine, and Urrea in the 21st - we will be composing (and peer-reviewing) our own explorations of every subgenre, including memoir, literary journalism, travel writing, flash nonfiction, and the lyric essay, with an eye toward publication.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Requisites: Prerequisites, ENGL 138 and 208; permission of the instructor or director for students lacking the prerequisites.

Grading Status: Letter grade.

ENGL 406. Advanced Fiction Writing. 3 Credits.

Permission of the program director. A continuation of the intermediate workshop with emphasis on the short story and novella. Extensive discussion of student work and revisions in class and in conferences with instructor.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: LA, CI.

Requisites: Prerequisite, ENGL 206.

Grading Status: Letter grade.

ENGL 407. Advanced Poetry Writing. 3 Credits.

Permission of the program director. A continuation of the intermediate workshop, with increased writing and revising of poems. Extensive discussion of student poetry in class and in conferences with instructor.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: LA, CI.

Requisites: Prerequisite, ENGL 207.

Grading Status: Letter grade.

ENGL 408. Collaboration: Composers and Lyricists. 3 Credits.

This is a course in popular-songwriting collaboration, a workshop with constant presentation of original songs and close-critiquing of these assignments. Varied assignments including songs for soloists, duos, trios, quartets, and chorus; ballads, folk, jazz, blues, art, and musical-theater songs, etc.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

ENGL 409. Lyrics and Lyricists: A Collaborative Exploration of the Processes of Popular-Song Lyric Writing. 3 Credits.

This course is a collaborative exploration of popular-song lyric writing, requiring numerous drafts written to varied existing musical models - narrative ballads; hymns; folk, theater, jazz, art, R&B, R&R, and worldbeat songs, etcetera - to be tried out and worked on in class, as well as in conference.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

ENGL 410. Documentary Film. 3 Credits.

This course provides a history of documentary cinema since the beginnings of the medium and surveys different modes and theoretical definitions; or the course may focus largely on a certain mode (such as ethnographic, observational, first-person, cinema vérité, politically activist, found footage compilation, or journalistic investigation). Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

ENGL 411. Writing for Clients: Technical Communication Practicum. 3 Credits.

This advanced technical writing course will help you develop skills in developing professional documents with a focus on document design, user experience, project management, and technical editing. You will assess the documentation needs for a client, propose a document or set of documents to fulfill that need, and then produce polished, professional documents for that client. These materials will lead to a professional portfolio you can share with potential employers.

Rules & Requirements

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

ENGL 425. Literature, Archives, and Original Research. 3 Credits.

"Archives" are documents - manuscripts, photographs, recordings, diaries, letters, and other materials - that are so valuable they need to be preserved in a special place. In this course, the instructor will guide students as they conduct original research in literary archives, such as online databases or physical archives (at Wilson Library, for example). We will learn how to formulate research questions and how to identify key documents. Previously offered as ENGL 342.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH, RESEARCH.

Making Connections Gen Ed: LA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 430. Renaissance Literature--Contemporary Issues. 3 Credits.

This course examines Renaissance literature through the lens of cultural themes, issues, and problems that were important to Renaissance authors and readers. Texts may be drawn from, among others, the English, French, German, Italian, and Spanish literary traditions, and may range in date from the 15th to the 17th centuries.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA, WB.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 437. Chief British Romantic Writers. 3 Credits.

Survey of works by Blake, Wordsworth, Coleridge, Byron, Percy and Mary Shelley, Keats, and others. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

ENGL 443. American Literature before 1860--Contemporary Issues. 3 Credits.

A junior- or senior-level course devoted to in-depth exploration of an author, group of authors, or topic in American literature to 1860. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: LA, NA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 444. American Literature, 1860-1900--Contemporary Issues. 3 Credits.

Intensive study of one or more authors or a topic in American literature from the Civil War through 1900. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 445. American Literature, 1900-2000--Contemporary Issues. 3 Credits.

A junior- or senior-level course devoted to in-depth exploration of an author, group of authors, or a topic in American literature from 1900 to 2000. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 446. American Women Authors. 3 Credits.

American women authors from the beginnings to the present. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

Same as: WGST 446.

ENGL 447. Memory and Literature. 3 Credits.

This course brings together theories of collective and individual memory with questions of aesthetics and narrative while exploring global connections between memory and literature.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 464. Latinx Hybrid Narrative: Experimental Fiction and Film. 3 Credits.

Latinx narrative in fiction and film has continually challenged the form and function of "genre". This course will examine books, films, and videos that are narrative in nature. We will focus on cultural productions reflecting some of these innovations to consider how authors and film makers engage concerns intersecting at different points of self-conception, including but not limited to experiences of dis/ability, diaspora, gender, geography, race, nationality, sexuality, spirituality, and transnationalism.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-GLOBAL.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **ENGL 466. Literary Theory--Contemporary Issues. 3 Credits.**
Examines current issues in literary theory such as the question of authorship, the relation of literary texts to cultural beliefs and values, and to the formation of identities. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **ENGL 467. Educating Latinas/os: Preparing SLI Mentors. 3 Credits.**
Permission of the instructor. Designed for students accepted as mentors to the Scholars' Latino Initiative (SLI). Students will take this course during their first year as SLI mentors to prepare them as effective mentors to Latina/o high school students. Students cannot receive credit for both ENGL 267 and 467.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, CI, EE- Service Learning.

Grading Status: Letter grade.

 **ENGL 472. African American Literature--Contemporary Issues. 3 Credits.**
Study of particular aspects of African American literature, such as the work of a major writer or group of writers, an important theme, a key tradition, or a literary period. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, NA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **ENGL 473. The Changing Coasts of Carolina. 3 Credits.**
A rigorous combination of field work, lab work, and colorful, original contemporary writing on the natural world will help tell the story of our many, evolving North Carolina coasts. Combining marine science and the creative literary arts, this immersive course will explore issues of change over many eras. This combination of social, cultural, and scientific observation will lead to imaginatively constructed, well-written non-fiction reportage about one of North America's most productive, compelling, and challenging regions.

Rules & Requirements

 **IDEAs in Action Gen Ed:** COMMBEYOND.

Making Connections Gen Ed: CI, EE- Field Work.

Grading Status: Letter grade.

Same as: EMES 473.

ENGL 475. Southern Literature--Contemporary Issues. 3 Credits.
The study of a particular topic or genre in the literature of the United States South, more focused than students will find in ENGL 373.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 480. Digital Humanities History and Methods. 3 Credits.
Students will explore the history of computer-assisted humanities scholarship, from its beginnings in computational linguistics, media studies, and humanities computing to its current incarnation as "digital humanities." The course will provide an introduction to the field and to digital research methodologies and prepare students to develop their own digital projects. Previously offered as ENGL 530.

Rules & Requirements

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

 **ENGL 482. Metadata, Mark-up, and Mapping: Understanding the Rhetoric of Digital Humanities. 3 Credits.**
This Course-based Undergraduate Research Experience (CURE) course interrogates the rhetoric of data construction and management by positioning students as "critical makers" in a digital humanities project. Previously offered as ENGL 353.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-QUANT, RESEARCH.

Making Connections Gen Ed: CI, EE- Mentored Research.

Grading Status: Letter grade.

 **ENGL 487. Everyday Stories: Personal Narrative and Legend. 3 Credits.**
Oral storytelling may seem old-fashioned, but we tell true (or possibly true) stories every day. We will study personal narratives (about our own experiences) and legends (about improbable, intriguing events), exploring the techniques and structures that make them effective communication tools and the influence of different contexts and audiences.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: CI, US.

Grading Status: Letter grade.

Same as: FOLK 487.

 **ENGL 488. Critical Security Studies. 3 Credits.**
Introduces major topics in the interdisciplinary field of critical security studies. Critically analyzing the public construction of risk and security in military, technological, informational, and environmental domains, the course explores major theories that attempt to make sense of the transnational proliferation of violence and risk in historical and contemporary contexts.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-VALUES.

Making Connections Gen Ed: CI, GL.

Grading Status: Letter grade.

Same as: PWAD 484.

ENGL 489. Science, Medicine, and Cultural Studies--Contemporary Issues. 3 Credits.

The student will have an opportunity to concentrate on researching topics and texts central to the study of health, medicine, culture, and ethics. Central topics may include representations of genetics, cloning, reproduction, and biotechnology. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 490. Creative Writing: Special Topics. 3 Credits.

Permission of the program director. An occasional advanced course, which may focus on such topics as advanced creative nonfiction, editing and publishing, the lyric in song and collaboration between lyricists and composers, the one-act play, and short-short fiction.

Rules & Requirements

Making Connections Gen Ed: LA.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 494. Research Methods in Film Studies. 3 Credits.

This course introduces students to research methods in film studies. While this course will provide a broad survey of methods one might employ in film studies research of all kinds, the course may be restricted to a particular research topic.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING, RESEARCH.

Making Connections Gen Ed: CI, EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 495. Mentored Research. 1-3 Credits.

Recommended for students in junior or senior year of study. Intensive mentored research, service learning, field work, or creative work. Requires 30 hours of research, writing, or experiential activities, culminating in a written project.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: CI, EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.

Grading Status: Letter grade.

ENGL 564. Interdisciplinary Approaches to Literature. 3 Credits.

Examines the ways knowledge from other disciplines can be brought to bear in the analysis of literary works. Questions of disciplinary limits and histories will also be addressed.

Rules & Requirements

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

ENGL 583. Drama on Location. 3 Credits.

Offered as part of summer study abroad programs in Oxford, London, and Stratford-on-Avon. Students experience plays in performance and as texts, and discuss their literary, dramatic, cultural, and historical aspects. Honors version available.

Rules & Requirements

Making Connections Gen Ed: VP, EE- Study Abroad.

Grading Status: Letter grade.

ENGL 593. Internship in Health Humanities. 3 Credits.

An opportunity to gain credit for an internship in a field related to the study of health humanities, such as science writing, health non-profit work, and qualitative research. Available to majors with at least a 3.0 GPA. Requirements include regular journal entries, meetings with a faculty advisor, and a final report of 10-15 pages.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Requisites: Prerequisites, Graduate students are required to take ENGL 695 or ENGL 763 (this may be done concurrently with ENGL 696); Undergraduates are required to take ENGL 268 or an equivalent course, plus at least 1 additional upper-division ENGL course and obtain instructor permission.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 610. Practicum in Health Humanities. 3 Credits.

This course introduces advanced undergraduate and graduate students to topics, methods, and concepts in health humanities through practical learning experiences.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING, COMMBEYOND.

Making Connections Gen Ed: CI.

Requisites: Pre- or corequisite, ENGL 268.

Grading Status: Letter grade.

ENGL 611. Narrative, Literature, and Medicine: Advanced Interdisciplinary Seminar. 3 Credits.

Sociologist Arthur Frank asserts that "whether ill people want to tell stories or not, illness calls for stories." This seminar explores narrative approaches to suffering, healing, and medicine's roles in these processes. Students learn literary and anthropological approaches to examine medically themed works from a range of genres.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING, COMMBEYOND.

Making Connections Gen Ed: PH, CI, US.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENGL 619. Survey of Old and Middle English Literature. 3 Credits.

An introduction to English literature from the eighth to the 15th century, focusing on the primary works of Old English and Middle English literature.

Rules & Requirements

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

 **ENGL 620. Introduction to Old English Language and Literature. 3 Credits.**

Students will learn to read Old English, the Germanic language spoken by the Anglo-Saxons in Britain from about the middle of the fifth century until the time of the Norman Conquest. Students will study Beowulf, "Caedmon's Hymn", and other selections in poetry and prose.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

ENGL 621. Arthurian Romance. 3 Credits.

British and continental Arthurian literature in translation from the early Middle Ages to Sir Thomas Malory.

Rules & Requirements

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

Same as: CMPL 621.

 **ENGL 630. Shakespeare and His Contemporaries. 3 Credits.**

This course will examine drama written and performed in England from 1570 to 1640, situating Shakespeare's plays in relation to others in his generation.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

 **ENGL 638. 19th-Century Women Writers. 3 Credits.**

An investigation of important texts by 19th-century women writers that considers issues of gender in relation to other important considerations—tradition, form, culture—with an introduction to the chief scholarly and critical problems of this period.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: LA, CI, NA.

Grading Status: Letter grade.

 **ENGL 659. War in 20th-Century Literature. 3 Credits.**

A study of literary works written in English concerning World War I, or the Spanish Civil War and World War II, or the Vietnam War. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

Same as: PWAD 659.

ENGL 660. War in Shakespeare's Plays. 3 Credits.

The focus is on Shakespeare's various treatments of war in his plays: all his Roman histories, most of his English histories, all his tragedies, even some of his comedies.

Rules & Requirements

Grading Status: Letter grade.

Same as: PWAD 660.

ENGL 661. Introduction to Literary Theory. 3 Credits.

Examines contemporary theoretical issues and critical approaches relevant to the study of literature.

Rules & Requirements

Grading Status: Letter grade.

ENGL 662. History of Literary Criticism. 3 Credits.

A history of literary criticism from the Greeks to mid-20th century, focusing on recurrent concerns and classic texts that are indispensable for understanding the practice of literary criticism today.

Rules & Requirements

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **ENGL 665. Queer Latina/o Literature, Performance, and Visual Art. 3 Credits.**

This course explores literature, performance art, film, and photography by Latinas and Latinos whose works may be described as "queer" and that question terms and norms of cultural dominance.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: VP, NA, US.

Grading Status: Letter grade.

Same as: WGST 665.

 **ENGL 666. Queer Latina/o Photography and Literature. 3 Credits.**

This course explores Latina/o literature about photography in relation to photography by "queer" Latina/o artists and, through this double focus, poses certain questions about identity, subjectivity, and culture.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: VP, NA, US.

Grading Status: Letter grade.

Same as: WGST 666.

 **ENGL 670. Being and Race in African American Literature. 3 Credits.**

An examination of phenomenology, the "philosophy of experience." Taking the perspective that literature helps clarify our experience, we will engage in readings of various genres—poetry, autobiography, fiction, and drama—as we examine how literature not only records experience, but also shapes it through a distinct method of reasoning.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, US.

Grading Status: Letter grade.

ENGL 674. Digital Literature. 3 Credits.

Digital literature explores how literary works are composed for, shaped by, and studied in electronic environments. Course texts range from books to electronic fiction and poetry to video games. Hands-on activities give students a chance to develop their own literary projects—either as electronic literary works or as digital scholarship.

Rules & Requirements

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

ENGL 675. Teaching Online. 3 Credits.

This course explores issues and methodologies related to online teaching. Topics include instructor-student dynamics in the online classroom, opportunities for extending the classroom through online platforms, trends in online pedagogy, and development of online teaching portfolios.

Rules & Requirements

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

 **ENGL 676. Digital Editing and Curation. 3 Credits.**

Students will investigate theories and practices of editing in multimedia, digital environments. Students will explore histories of textual editing, research major humanities projects, examine trends and toolsets related to developing scholarly digital materials, and collaborate with one another and with campus entities to develop an online digital humanities project.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-CREATE.

Making Connections Gen Ed: LA, CI.

Grading Status: Letter grade.

 **ENGL 680. Film Theory. 3 Credits.**

This course provides a rigorous introduction to various theories (aesthetic, narrative, historical, political, psychological, philosophical) inspired by cinema.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

 **ENGL 681. Topics in Contemporary Film and Media. 3 Credits.**

This course examines aesthetic and social aspects of contemporary cinema, television, and/or other media. Previously offered as ENGL 580. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: VP.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **ENGL 687. Queer LatinX Environmentalisms. 3 Credits.**

This mixed level undergraduate and graduate student course examines queer LatinX literature from the 1970s to the present as it intersects with ecological and environmental concerns. We pay close attention to LatinX cultural productions that approach ecology and environmental justice from queer perspectives and that queer ecological concerns from minoritized perspectives.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-POWER.

Making Connections Gen Ed: CI, GL, US.

Grading Status: Letter grade.

ENGL 690. Special Topics. 3 Credits.

Selected topics in literary studies, composition, digital media, and related fields. Topic varies by semester.

Rules & Requirements

Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.

Grading Status: Letter grade.

 **ENGL 691H. English Senior Honors Thesis, Part I. 3 Credits.**

Restricted to senior honors candidates. First semester of senior honors thesis. Independent research under the direction of an English department faculty member.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 **ENGL 692H. English Senior Honors Thesis, Part II. 3 Credits.**

Restricted to senior honors candidates. Second semester of senior honors thesis. Essay preparation under the direction of an English department faculty member.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 **ENGL 693H. Creative Writing Senior Honors Thesis, Part I. 3 Credits.**

Restricted to senior honors candidates. The first half of a two-semester seminar. Each student begins a book of fiction or creative nonfiction (25,000 words) or poetry (1,000 lines). Extensive discussion of student work in class and in conferences.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisites, ENGL 130, 131, 132H, 133H, or 138; and ENGL 206, 207, or 208; and ENGL 404, 406, 407.

Grading Status: Letter grade.

 **ENGL 694H. Creative Writing Senior Honors Thesis, Part II. 3 Credits.**

Restricted to senior honors candidates. The second half of a two-semester seminar. Each student completes a book of fiction, creative nonfiction, or poetry. Extensive discussion of student work in class and in conferences with instructor.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisite, ENGL 693H.

Grading Status: Letter grade.

ENGL 695. Research Seminar. 3 Credits.

Guides students through the processes of developing an original research topic, conducting research, and analyzing research, leading students to produce a high-quality presentation of their findings. Topic varies by instructor but may focus on literary studies or closely-related arenas such as medical humanities, digital humanities, and creative writing, among others.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: LA, CI, EE- Mentored Research.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading Status: Letter grade.

English and Comparative Literature Major, B.A.

English and Comparative Literature majors study literature, film, writing, and media of broad geographic and cultural provenance, so students have opportunities to practice comparative thinking. Moreover, majors write and research about texts, film, and media inflected with markedly different generic and linguistic features, and this variety hones students' research and writing skills. English and Comparative Literature majors can follow a general course of study or choose to concentrate in one of seven different areas:

- British and American Literature
- Comparative and World Literatures
- Creative Writing
- Film Studies
- Science, Medicine and Literature
- Social Justice and Literature
- Writing, Editing, and Digital Publishing

See the Requirements page for details on the major concentrations.

Student Learning Outcomes

Upon completion of the English and Comparative Literature program, students should be able to:

- Produce clear and persuasive analytical and/or creative writing (that demonstrates the qualities of literature)

- Research productively and effectively
- Read critically
- Compare and analyze texts and contexts
- Explain the significance and value of historical contexts

Particularly at this moment in American culture and history, we believe these skills are essential, both in the workplace and in the public sphere more broadly. The major's core curriculum ensures that students gain historical breadth in their discipline (in the form of surveys) as well as depth (in courses that focus on a single genre, topic, or author and thus allow for a sustained emphasis on close analysis). Individual concentrations also provide learning outcomes specific to their area of study.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Core Curriculum

Code	Title	Hours
Core Requirements ¹		
Survey I (select one):		3
ENGL 120	British Literature, Medieval to 18th Century ^H	
ENGL 116	History of Writing: From Pen to Pixel	
CMPL 120	Great Books I: Epic and Lyric Traditions	
CMPL 121	Great Books I: Romancing the World ^H	
CMPL 122	Great Books I: Visual Arts and Literature from Antiquity to 1750 ^H	
CMPL 123	Great Books I: Politics and Literature from Antiquity to 1750	
CMPL 124	Great Books I: Science and Literature from Antiquity to 1750	
Survey II (select one):		3
ENGL 151	Nineteenth-Century American Literature	
ENGL 152	Twentieth-Century American Literature	
ENGL 117	Arguing on the Internet: Rhetoric in the Age of Social Media	
ENGL 121	British Literature, 19th and Early 20th Century ^{H, F}	
ENGL 122	Introduction to American Literature ^H	
ENGL 124	Contemporary Literature	
ENGL 129	Literature and Cultural Diversity ^{H, F}	
CMPL 130	Great Books II ^H	

CMPL 131	Great Books II: Savage, Native, Stranger, Other
CMPL 132	Great Books II: Performance and Cultural Identity in the African Diaspora
CMPL 133	Great Books II: Imaging the Americas from the Late 18th Century to the Present
CMPL 134	Great Books II: Travel and Identity ^H
CMPL 142	Visual Culture II
Depth Course (select one): 3	
ENGL 223	Chaucer (British) ^H
ENGL 225	Shakespeare (British) ^H
ENGL 230	Milton (British) ^H
ENGL 235	Studies in Jane Austen (British)
ENGL 243	Studies in Virginia Woolf (British)
ENGL 250	Faulkner (American)
ENGL 272	Studies in African American Authors (American)
CMPL 220	Global Authors: Jane Austen (British) ^H
CMPL 223	Global Authors: Cervantes
CMPL 225	Global Authors: The Worlds of Shakespeare (British)

Concentration (seven courses), see requirements below ² 21

Additional Requirements

At least six (6) courses (out of 10) must be at or above the 200 level. ³

Of these six (6), at least two (2) courses (out of 10) must be at the 300-level (Writing Intensive) in ENGL or CMPL. ³

Of these six (6), at least one (1) course (out of 10) must be at the 400-level (Research Intensive) in ENGL or CMPL. ³

Total Hours 30

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ The concentration in Film and Media Studies includes different core requirements. See the requirements for this concentration below.

² If no concentration is chosen, select seven (7) electives in ENGL and/or CMPL (excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191).

³ Required for all concentrations except for the Creative Writing concentration.

Concentration in British and American Literature

In addition to the core curriculum (three courses) and additional requirements described above, students must complete the following requirements.

Code	Title	Hours
Pre-1800 course (select one)		3
ENGL 115	History of the English Language	
ENGL 223	Chaucer ^H	
ENGL 224	Survey of Medieval English Literature, excluding Chaucer ^H	
ENGL 225	Shakespeare ^H	
ENGL 226	Renaissance Drama ^H	
ENGL 227	Literature of the Earlier Renaissance ^H	
ENGL 228	Literature of the Later Renaissance ^H	
ENGL 230	Milton ^H	
ENGL 233	Contemporary Approaches to 18th-Century Literature and Culture ^H	
ENGL 236	18th-Century Fiction ^H	
ENGL 237	18th-Century Drama ^H	
ENGL 325	Shakespeare and His Contemporaries ^H	
ENGL 327	Renaissance Literature and Its Intellectual Contexts	
ENGL 330	Perspectives on the Renaissance	
ENGL 331	18th-Century Literature ^H	
ENGL 430	Renaissance Literature—Contemporary Issues	
ENGL 619	Survey of Old and Middle English Literature	
ENGL 620	Introduction to Old English Language and Literature	
ENGL 621	Arthurian Romance

Select two (2) additional courses in ENGL and/or CMPL ³	6
Total Hours	21

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Students may substitute a course from this list for the depth requirement from the core. Students would then need to select a second course from this list to fulfill the requirement for the concentration.

² No more than two (2) courses may be taken outside the department.

³ Excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191.

Concentration in Creative Writing

In addition to the core curriculum (three courses) described above, students must complete the following requirements. No concentration courses may be taken online.

Code Title Hours
Select five (5) courses from one of the following options: 15

Combination of Genres¹

Any course from any track below and/or from the following list of courses:

ENGL 307 Studies in Fiction and Poetry: Stylistics

ENGL 351 From Manuscript to Press: Writer as Publisher

ENGL 490 Creative Writing: Special Topics

COMM 330 Introduction to Writing for Film and Television

COMM 433 Intermediate Screenwriting

MEJO 356 Feature Writing

Fiction Track

ENGL 130 Introduction to Fiction Writing

or ENGL 132H First-Year Honors: Introduction to Fiction Writing

ENGL 307 Studies in Fiction and Poetry: Stylistics (with approval based on topic)

or ENGL 206 Intermediate Fiction Writing

ENGL 406 Advanced Fiction Writing

ENGL 693H Creative Writing Senior Honors Thesis, Part I
& ENGL 694H and Creative Writing Senior Honors Thesis, Part II

Poetry Track

ENGL 131 Introduction to Poetry Writing

or ENGL 133 First-Year Honors: Introduction to Poetry Writing

ENGL 307 Studies in Fiction and Poetry: Stylistics (with approval based on topic)

or ENGL 207 Intermediate Poetry Writing

ENGL 407 Advanced Poetry Writing

ENGL 693H Creative Writing Senior Honors Thesis, Part I
& ENGL 694H and Creative Writing Senior Honors Thesis, Part II

Musical/Musical Theater Writing Track¹

ENGL 306 Playwriting

ENGL 308 Gram-O-Rama: Grammar in Performance

ENGL 309

ENGL 408 Collaboration: Composers and Lyricists

ENGL 409 Lyrics and Lyricists: A Collaborative Exploration of the Processes of Popular-Song Lyric Writing

ENGL 490 Creative Writing: Special Topics (with approval based on topic)

MUSC 166 Introduction to Composition

MUSC 381 Inside the Song: Analysis of Songcraft

DRAM 231 Playwriting I

DRAM 292 "Corner of the Sky": The American Musical

Creative Nonfiction Writing Track

ENGL 138 Introduction to Creative Nonfiction

ENGL 208 Reading and Writing Creative Nonfiction

or ENGL 283 Life Writing

ENGL 404 Advanced Creative Nonfiction

ENGL 693H Creative Writing Senior Honors Thesis, Part I

ENGL 694H Creative Writing Senior Honors Thesis, Part II

Select two (2) additional courses in ENGL and/or CMPL² 6

Total Hours 21

¹ No more than two (2) courses can be taken outside the Department of English and Comparative Literature.

² Excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191.

Concentration in Comparative and World Literatures

In addition to the core curriculum (three courses) and additional requirements described above, students must complete the following requirements.

Code Title Hours

It is recommended to choose a CMPL course from the Survey I list in the core curriculum.

CMPL 250 Approaches to Comparative Literature^H 3

or CMPL 251 Introduction to Literary Theory

CMPL 495 Advanced Seminar 3

Select one (1) to three (3) international literature courses taught in any foreign language department (200-level or higher)^{1,2} 3-9

Select two (2) to four (4) CMPL or ENGL courses (excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191). No more than two (2) from ENGL. 6-12

Total Hours 21

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Foreign language departments include Asian Studies, Classics, Germanic and Slavic Languages, Romance Studies.

² At least one course should be focused on literature written in the original language.

Concentration in Film Studies

The film studies concentration focuses on the history, theory, analysis, and politics of cinema in a global context. Students become conversant with the evolution of film genres, styles, and traditions, while exploring relationships between film and other artistic forms, including literature, painting, photography, television, and digital video. This concentration enables students to gain skills of audiovisual literacy that are necessary for navigating the many screens of our modern world.

Students pursuing the film studies concentration do not follow the core requirements described above. Instead, students must complete the following requirements (10 courses):

Code Title Hours

Core Requirements

Survey I course (select one): 3

CMPL 143 History of Global Cinema

Additional Requirements

At least six (6) courses (out of 10) must be at or above the 200 level.

At least two (2) courses (out of 10) must be at the 300-level (Writing Intensive).

At least one (1) course (out of 10) must be at the 400-level (Research Intensive).

Total Hours **30**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191. Beyond

Special Opportunities in English and Comparative Literature

Honors in English and Comparative Literature

The department offers at least two honors seminars each semester. In addition, students seeking a degree with honors in English and Comparative Literature (a 3.3 cumulative grade point average and a 3.6 grade point average in major courses required) undertake a year-long independent project during their senior year (ENGL 691H and ENGL 692H or CMPL 691H and CMPL 692H) and usually produce a 40- to 70-page thesis under the direction of a faculty member. Students pursuing a degree with honors normally meet every week with the professors supervising their projects. This opportunity for individually directed research and writing often proves to be a high point of the student's academic career.

Honors in Creative Writing

See "Creative Writing Minor (p. 585)."

Study Abroad

Some of the best programs offered at the University for study overseas are especially appropriate and useful to majors in the Department of English and Comparative Literature. These include semester or year-long programs at Bristol, Manchester, Sussex, Edinburgh, Glasgow, and certain Australian universities. Students who have a minimum grade point average of 3.3 at the end of their sophomore year can participate in the King's College Exchange Program at King's College, London (representing either English or comparative literature). Special opportunities are also available at Oxford University and through the Joint Degree Program with the National University of Singapore. Comparative literature students most frequently travel to non-English-speaking destinations. For information on all overseas programs, see the Study Abroad Office. (<http://studyabroad.unc.edu>)

Internship Program

Internships are a great way to explore career options before graduation. A major in English and comparative literature, with its focus on writing, oral communication, and research, opens the door to a wide variety of career paths. The Department of English and Comparative Literature provides the opportunity for students to receive credit for an internship that relates to the major.

Department Programs

Majors

- English and Comparative Literature Major, B.A. (p. 574)

Minors

- Comparative Literature Minor (p. 582)

Comparative Literature Minor

The comparative literature minor offers students flexibility to develop creative approaches to international literature and film, while placing a strong emphasis on foreign language learning and training in theory. The program encourages students to develop rigorous analytic skills and excellent communication skills applicable to a wide range of fields.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
One course from Great Books I (CMPL courses numbered between 120 and 129)		3
CMPL 120	 Great Books I: Epic and Lyric Traditions	
CMPL 121	 Great Books I: Romancing the World ^H	
CMPL 122	 Great Books I: Visual Arts and Literature from Antiquity to 1750 ^H	
CMPL 123	 Great Books I: Politics and Literature from Antiquity to 1750	
CMPL 124	 Great Books I: Science and Literature from Antiquity to 1750	
One course from Great Books II (CMPL courses numbered between 130 and 142)		3
CMPL 130	 Great Books II ^H	
CMPL 131	 Great Books II: Savage, Native, Stranger, Other	
CMPL 132	 Great Books II: Performance and Cultural Identity in the African Diaspora	
CMPL 133	Great Books II: Imaging the Americas from the Late 18th Century to the Present	
CMPL 134	 Great Books II: Travel and Identity ^H	
CMPL 142	 Visual Culture II	
Three additional courses numbered between CMPL 200 and CMPL 699		9
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Courses cross-listed between comparative literature and classics may not be counted for a minor in comparative literature by students majoring in classics.

Composition, Rhetoric, and Digital Literacy Minor

The minor in composition, rhetoric, and digital literacy emphasizes both conceptual and practical concerns related to composing, digital culture, and communication. Our courses involve hands-on, communication-intensive work and range from advanced writing classes to courses covering networked and multimedia composition.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The minor requires 15 hours and may be earned by taking five courses in the minor.

Code	Title	Hours
Core Requirements		
At least one (and up to five) of the following courses:		3-15
ENGL 300	Professional Writing and Editing	
ENGL 300I	Professional Writing in Health and Medicine (Interdisciplinary)	
ENGL 301	 Professional Writing in the Arts	
ENGL 302	 Professional Communication for Social Movements	
ENGL 303	 Scientific and Technical Communication	
ENGL 304	 Advanced Business Communication	
ENGL 305	 Advanced Legal Communication	
ENGL 318	 Multimedia Composition ^H	
Up to four courses from the list of electives to reach the five course total (see list below)		0-12
Up to one of the five courses may be from the list below of courses that fulfill the Communication Intensive (CI) General Education requirement		0-3
Total Hours		15

Creative Writing Minor

The undergraduate creative writing program at UNC–Chapel Hill is — and has long been — one of the best in the country. Its first-rate faculty and students have published widely, won many prizes, and played a major role in shaping the contemporary literature of North Carolina, the South, and the nation.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The Creative Writing Program offers a minor in creative writing. The minor requires 15 hours, a total of five courses.

Enrollment in courses beyond the intermediate level is by permission only. Students may declare the minor through Academic Advising. Completion of a minor in creative writing is contingent on the student's successful advancement through the sequence.

The Creative Writing Program also gives credit toward the minor for several courses offered in other departments, such as DRAM 231, COMM 330, COMM 433, and MEJO 356. To qualify for a degree with honors or highest honors in creative writing, students must maintain a 3.3 grade point average and meet all requirements both to enter and to complete the senior honors seminar (ENGL 693H and ENGL 694H). Students minoring in creative writing and planning to study abroad must plan carefully so that they meet all submission and deadline requirements for applying to successive courses.

To complete the minor, students will complete five (5) courses from one of the following options:

Combination of Genres:

Code	Title	Hours
Select five (5) courses from any track below and/or from the following list of courses: ¹		15
ENGL 307	 Studies in Fiction and Poetry: Stylistics	
ENGL 351	 From Manuscript to Press: Writer as Publisher

MUSC 381	Inside the Song: Analysis of Songcraft
DRAM 231	Playwriting I
DRAM 292	 "Corner of the Sky": The American Musical
Total Hours	15

Creative Nonfiction Writing Track:

Code	Title	Hours
ENGL 138	 Introduction to Creative Nonfiction	3
ENGL 208 or ENGL 283	 Reading and Writing Creative Nonfiction  Life Writing	3
ENGL 404	 Advanced Creative Nonfiction	3
ENGL 693H	 Creative Writing Senior Honors Thesis, Part I	3
ENGL 694H	 Creative Writing Senior Honors Thesis, Part II	3
Total Hours		15

¹ No more than two (2) courses can be taken outside the Department of English and Comparative Literature.

ENGL 130, ENGL 131, ENGL 132H, ENGL 133H, and ENGL 138, the introductory classes, are prerequisites to other Creative Writing Program classes. ENGL 130, ENGL 131, and ENGL 138 are open for registration by rising sophomores only during spring semester for the following fall and for current sophomores only during fall semester for the following spring. Rising or current sophomores may register for ENGL 130, ENGL 131, or ENGL 138, but not for more than one of these three courses. Demand by sophomores regularly exceeds the number of seats available. Enrollment of juniors and seniors is on a space-available basis by permission of the instructor, and students may inquire of the instructor during the first week of classes to see if seats are available. ENGL 130, ENGL 131, and ENGL 138 are sometimes offered during summer sessions with no registration restrictions. Please always review summer session course listings for any changes or updates.

Advancement to successive courses in either the fiction or poetry sequence is by recommendation of the student's previous instructor(s) and by application for both the advanced workshops and senior honors seminars. If possible, the student is assigned to a different instructor for each course. Should students not advance beyond the intermediate level, they may choose to finish the minor with other classes offered in creative writing. Creative writing minors receive priority in all creative writing classes and usually fill all seats.

Students completing the five courses for the minor may take additional creative writing courses only by permission of the director, providing that all other students still completing the minor are served first.

Transfer Students: Important Information

The requirement for taking a minor in creative writing is five courses or 15 semester hours. Students are limited to one creative writing course per semester. Most junior transfer students have four semesters remaining. Junior transfer students wanting to minor in creative writing must either

1. Have an introductory course already on their record that will transfer to Carolina as credit, e.g., an introductory course in fiction writing or poetry writing taken previously at a college or university that is transferring in as credit for ENGL 130 or ENGL 131; OR
2. Take an introductory course via UNC–Chapel Hill Summer School prior to their first fall term at Carolina and be promoted to the next

level or to another creative writing class (on a space-available basis) in the fall of their junior year.

Permission to move forward with transfer credit for an introductory course requirement (Option 1 above) will require a review by the creative writing faculty of the syllabus and work completed in the course and is dependent on space availability, which cannot be guaranteed. Students must provide hard copies of syllabi and samples of coursework as early as possible in order to ensure time for review and to schedule a meeting with the director.

Junior transfer students fulfilling one of these two options would be eligible for Advanced Fiction or Poetry (ENGL 406 or ENGL 407) and the senior honors seminars (ENGL 693H and ENGL 694H) if there is space available in Intermediate Fiction (ENGL 206) or Intermediate Poetry (ENGL 207) their first fall semester, and if — on the basis of submitted work reviewed by a committee — they are chosen for those classes. If not, they would need to complete the minor using the multigenre approach.

Note: No more than two creative writing courses from other schools may be counted for credit at UNC–Chapel Hill. At least three of the five courses taken for the minor — courses designated ENGL — must be Creative Writing Program courses taken at Carolina.

Honors in Creative Writing

To qualify for a degree with honors or highest honors in creative writing, students must maintain a 3.3 grade point average and meet all requirements both to enter and to complete the senior honors seminar (ENGL 693H and ENGL 694H).

See the program page here (<https://catalog.unc.edu/undergraduate/programs-study/english-major-ba/#opportunities>) for additional special opportunities.

English Minor

The Department of English and Comparative Literature is a vibrant and diverse department with a global reach. Our course offerings present a diversity of approaches to the study, production, and appreciation of literary and nonliterary texts.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The English minor consists of five courses:

Code	Title	Hours
Core Requirements		
ENGL 120	 British Literature, Medieval to 18th Century ^H	3
One course from Survey II in the core curriculum for the English and Comparative Literature major (see list below)		3
Three (3) additional ENGL courses, with at least two (2) at or above the 200 level. ¹		9
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191.

English (ENGL) course descriptions (p. 536).

Survey II Courses

Code	Title	Hours
ENGL 151	Nineteenth-Century American Literature	3
ENGL 152	Twentieth-Century American Literature	3
ENGL 117	 Arguing on the Internet: Rhetoric in the Age of Social Media	3
ENGL 121	 British Literature, 19th and Early 20th Century ^{H, F}	3
ENGL 122	 Introduction to American Literature ^H	3
ENGL 124	 Contemporary Literature	3
ENGL 129	 Literature and Cultural Diversity ^{H, F}	3
CMPL 130	 Great Books II ^H	3
CMPL 131	 Great Books II: Savage, Native, Stranger, Other	3
CMPL 132	 Great Books II: Performance and Cultural Identity in the African Diaspora	3
CMPL 133	Great Books II: Imaging the Americas from the Late 18th Century to the Present	3
CMPL 134	 Great Books II: Travel and Identity ^H	3
CMPL 142	 Visual Culture II	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

See the program page here (<https://catalog.unc.edu/undergraduate/programs-study/english-major-ba/#opportunities>) for special opportunities.

Global Cinema Minor

The global cinema minor is an interdisciplinary minor that enables students to explore the changing global face of cinema in its aesthetic, economic, historical, linguistic, literary, and social contexts. Students select a flexible, rigorous, and exciting course of study focused on the place of film within and across human cultures. The minor aims to provide undergraduates with grounding in the history of cinema's development across the world as well as current trends and developments in global film production. The minor places a particular emphasis on the development of students' critical judgment and written expression. Undergraduate students majoring in any academic unit are eligible.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The interdisciplinary minor consists of five courses:

Code	Title	Hours
Core Requirements		
ARTH 159	 The Film Experience: Introduction to the Visual Study of Film	3
	or ENGL 142  Film Analysis	
CMPL 143	 History of Global Cinema	3
Three electives from at least two different departments, chosen from the list below		9
Total Hours		15

For additional information, contact the director of the global cinema minor.

Latina/o Studies Minor

Latina/o studies is constituted from the transdisciplinary study of Latina/o cultural production and experience in terms of a whole variety of factors. Latinas/os are defined as people of Latin American and Iberian descent living and working or based in the United States, but also moving between the United States and the rest of the Americas. Latina/o studies takes as its primary concern the presence of Latin America, Spain, and the myriad combinations of Hispanic-Native-African-Asian and European non-Hispanic cultures within the borders of the United States. However, Latina/o studies is not confined within those borders to the extent that its subjects of study (and the very creators of the field itself) are in motion and in flux, coming and going, crossing borders and boundaries. In this respect it shares some of the transnational and transcultural scope, momentum, and issues of Latin American studies but with its own foci, its own perspectives. Latina/o studies does not duplicate the work of Latin American studies; it draws on it and complements it.

Latina/o studies encompasses Chicana/o studies, Puerto Rican studies, Cuban American studies, Dominican studies, Central American studies, South American studies, and so forth. It takes into account the cultural production and the socioeconomic and political experiences of a diverse population located in many parts of the country, not just in the Southwest borderlands.

The main stipulation of the minor is that students must take a combination of courses in the humanities (literatures and cultural production) and the social sciences (communities and cultural space), some of which have been designated as core courses and others as electives. Students who feel they need a basic introduction to Latina/o studies should take ENGL 164.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Requirements for the five-course minor in Latina/o studies are as follows:

Code	Title	Hours
Core Requirements		
	One humanities/fine arts course in Latina/o literatures and cultural production (see list below)	3
	One course in social sciences or Latina/o communities and cultural space (see list below)	3

Three elective courses chosen from the two lists below or from AAAD 260 or DRAM 486.	9
--	---

Total Hours	15
--------------------	-----------

Humanities/Fine Arts Course in Latina/o Literatures and Cultural Production

Code	Title	Hours
AAAD 284	 Contemporary Perspectives on the African Diaspora in the Americas	3
DRAM 288	 Theatre for Social Change	3
DRAM 488	 United States Latino/a Theatre	3

Medicine, Literature, and Culture Minor

The interdisciplinary honors minor in medicine, literature, and culture was developed in collaboration with Honors Carolina and the Department of Social Medicine in the UNC School of Medicine. It encourages students to explore the cultural and historical dimensions of medical practice by viewing the practice of medicine not simply as an application of chemical and biological analyses of and interventions in the functioning of the human body but also as a cultural practice embedded in changing ideas of disease, health, doctors, patients, medical institutions, and ethics. The minor is available to students accepted into Honors Carolina and to any undergraduate student who has achieved and maintains a grade point average of 3.00 or better.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
Five courses representing at least three different subject codes:		15
ENGL 268H	 Medicine, Literature, and Culture	
Four additional courses in at least two additional subject codes		
Total Hours		15

Options for additional courses include, but are not limited to, the following courses:

Code	Title	Hours
AAAD 300	 Cultures of Health and Healing in Africa	3
AAAD 387	 HIV/AIDS in Africa and the Diaspora	3
ANTH 147	 Comparative Healing Systems	3
ANTH 270	 Living Medicine	3
ANTH 272/ ENGL 264	 Healing in Ethnography and Literature	3
ANTH 319	 Global Health	3
ANTH 442/ WGST 440	Health and Gender after Socialism	3
ANTH/WGST 443	 Cultures and Politics of Reproduction	3

ANTH 444	Medicine, Politics, and Justice	3
ANTH 448	 Health and Medicine in the American South	3
ANTH/FOLK 470	Medicine and Anthropology	3
ANTH/FOLK 473	Anthropology of the Body and the Subject	3
ANTH 474	The Anthropology of Disability	3
CMPL 383	Literature and Medicine ^H	3
ENGL 163	 Introduction to Health Humanities	3
ENGL 264	 Healing in Ethnography and Literature	3
ENGL 266	 Science and Literature ^H	3

SOCI 180	 Introduction to Global Population Health	3
SOCI 422	 Sociology of Mental Health and Illness	3
SOCI 431	Aging	3
SOCI 469	Health and Society	3
WGST 330	 Women's Health Activism in Twentieth Century America	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional courses can be applied to the requirements for this minor with the approval of the advisor for the minor.

At least three courses used to fulfill requirements for the minor must be counted exclusively in the minor and cannot be double-counted with a major or second minor. All courses must be taken for a standard letter grade, with the exception of one course (three to four credit hours) of By-Examination (BE) credit.

See the program page here (p. 581) for special opportunities.

Environment, Ecology, and Energy Program

Introduction

The Environment, Ecology, and Energy Program (E3P) offers diverse and multidisciplinary undergraduate degree programs in environmental science (B.S.) and environmental studies (B.A.). Faculty throughout the University, including the College of Arts and Sciences and the schools of business, government, law, and public health, mentor students through courses, internships, and research opportunities. This unique approach provides students an opportunity to explore the knowledge base needed to understand the environment and its relationship to society, as well as the applications of that knowledge in areas such as environmental

modeling; aquatic systems; environmental behavior and decisions; environmental change and human health; ecology, conservation, and biodiversity; energy management; and population and the environment. The degrees combine traditional classroom teaching with extensive use of interdisciplinary, team-based projects, internships, study abroad opportunities, and research.

Advising

E3P maintains an advising system for students with an environmental interest. Students are encouraged to contact the director of undergraduate studies as early as they wish in their academic plan to discuss options and be assigned to a faculty advisor. Students may use the advising system from the time they enter UNC–Chapel Hill, obtaining advice from specialists in the various environmental fields. This advising system includes opportunities to meet with professionals from government, industry, and consulting to learn about the skills needed to work effectively in those fields if students are interested. In addition we routinely schedule seminars and host visitors who showcase career opportunities by their example in their respective fields.

Facilities

Program faculty and staff, including the EcoStudio Internship Incubator, occupy offices and laboratories in Venable/Murray Halls (third and fourth floors). Faculty are also located at facilities in Manteo, Morehead City, and Highlands, N.C.

Graduate School and Career Opportunities

A major in environmental science or studies prepares students for a variety of career options, including marine scientist, ecologist, environmental modeler, energy project manager, environmental policy maker, conservation advocate, land use planner, and environmental educator. Combining either major with other studies at the undergraduate or graduate level can lead to careers as an environmental lawyer, epidemiologist, or environmental geneticist, to cite a few examples.

Majors

- Environmental Studies Major, B.A. (p. 605)
- Environmental Science Major, B.S. (p. 614)
- Dual Bachelor's-Master's Degree Programs (p. 612)

Minors

- Environmental Science and Studies Minor (p. 622)
- Food Studies Minor (p. 623)
- Sustainability Studies Minor (p. 624)

Graduate Programs

- Doctor of Philosophy (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext>)
- Master of Science (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext>)
- Master of Arts (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext>)

Affiliated Professors

Carol Arnosti (Earth, Marine, and Environmental Sciences), Todd Bendor (City and Regional Planning), Jaye Cable (Earth, Marine, and Environmental Sciences), Karl Castillo (Earth, Marine, and Environmental

Sciences), Joel Fodrie (Earth, Marine, and Environmental Sciences), Clark Gray (Geography), Elizabeth Havice (Geography), Donald Hornstein (School of Law), Allen Hurlbert (Biology), Rich Kamens (Environmental Sciences and Engineering), Joel Kingsolver (Biology), Paul Leslie (Anthropology), Christopher Martens (Earth, Marine, and Environmental Sciences), Charles Mitchell (Biology), Laura J. Moore (Earth, Marine, and Environmental Sciences), Rachel Noble (Institute for Marine Sciences), Tamlin Pavelsky (Earth, Marine, and Environmental Sciences), David Pfennig (Biology), Karin Pfennig (Biology), Michael Piehler (Institute for Marine Sciences), Maria Servedio (Biology), Conghe Song (Geography), Andrew Yates (Economics).

Affiliated Associate Professors

Angel Hsu (Public Policy), Adrian Marchetti (Earth, Marine, and Environmental Sciences), Aaron Moody (Geography), Janet Nye (Earth, Marine, and Environmental Sciences), Diego Riveros-Iregui (Geography), Colin West (Anthropology).

Affiliated Assistant Professors

Benjamin Bridges (American Studies), Amanda DelVecchia (Geography), Miyuki Hino (City and Regional Planning), Noah Kittner (Environmental Sciences and Engineering), Sophie McCoy (Biology), Caela O'Connell (Anthropology), Antonia Sebastian (Earth, Marine, and Environmental Sciences), Paul Tallie (Geography).

Research Faculty

Richard Andrews (Emeritus, Public Policy), Dick Bilsborrow (Biostatistics), Jim Costa (Western Carolina University), Elizabeth Dickinson (Kenan–Flagler Business School), Lindsay Dubbs (Coastal Studies Institute), Rich Kamens (Environmental Sciences and Engineering), David McNelis (Institute for the Environment), Robert Peet (Emeritus, Biology), Rada Petric (Western Carolina University), Johnny Randall (N.C. Botanical Gardens), Elizabeth Shay (Appalachian State University), Alan Weakley (NC Botanical Garden), Gary Wein (Highlands Trust), Peter White (Emeritus, Biology), Haven Wiley (Emeritus, Biology).

Teaching Professors

Geoffrey Bell, Greg Gangi.

Teaching Associate Professor

Amy Cooke.

Teaching Assistant Professors

Lama BouFajreldin, Léda Gerber Van Doren.

Lecturer

Brian Naess.

ENEC—Environment, Ecology, and Energy Undergraduate-level Courses

ENEC 51. First-Year Seminar: Balancing the Environment: Science, Human Values, and Policy in North Carolina. 3 Credits.

This course examines the ways in which scientific information, human values, and the policy process interact to produce environmental change, economic growth, and social justice in North Carolina.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

ENEC 89. First Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Grading Status: Letter grade.

ENEC 101. Global Environmental Change. 3 Credits.

Interdisciplinary course exploring the intersection between the natural world and society. Students will learn about how natural systems work, the ecosystem services they provide to societies, how global change has impacted these services on local and global scales, and how science is used to find solutions to these problems and inform environmental policy.

Rules & Requirements

Grading Status: Letter grade.

ENEC 108. Our Energy and Climate Crises: Challenges and Opportunities. 4 Credits.

Students quantify global depletion of energy resources and accompanying environmental degradation, hence discovering the profound changes in attitudes and behavior required to adjust to diminished fossil fuels and modified climate.

Rules & Requirements

Making Connections Gen Ed: PL, GL.

Grading Status: Letter grade.

Same as: PWAD 108.

ENEC 191. Peoples of Siberia. 3 Credits.

Comparative study of the cultural and biological diversity of peoples of Siberia from prehistoric through contemporary times. Course topics include the biological diversity, culture, behavior, and history of Siberian populations.

Rules & Requirements

Grading Status: Letter grade.

Same as: ANTH 191.

ENEC 201. Introduction to Environment and Society. 4 Credits.

Human-environment interactions are examined through analytical methods from the social sciences, humanities, and sciences. The focus is on the role of social, political, and economic factors in controlling interactions between society and the environment in historical and cultural contexts. Three lecture hours and one recitation hour a week. Honors version available.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

ENEC 202. Introduction to the Environmental Sciences. 4 Credits.

Examines fundamental processes governing the movement and transformation of material and energy in environmental systems. Focuses on the role of these processes in environmental phenomena and how society perturbs these processes. Integrates methods from a range of scientific disciplines. Three lecture hours and three computer laboratory hours a week.

Rules & Requirements

 IDEAs in Action Gen Ed: FC-NATSCI, FC-LAB.

Making Connections Gen Ed: PX.

Grading Status: Letter grade.

ENEC 203. Introduction to Environmental Science Problem Solving. 3 Credits.

A quantitative introduction to selected topics in environmental sciences with an emphasis on developing and solidifying problem-solving skills.

Rules & Requirements

 IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.

Requisites: Prerequisite, MATH 231.

Grading Status: Letter grade.

ENEC 204. Environmental Seminar. 1-3 Credits.

This course will provide an intellectual focus on the interface between environment and society by examining the relationship among science, policy, and actual management practices on a chosen topic.

Rules & Requirements

Grading Status: Letter grade.

ENEC 208. New Frontiers: Environment and Society in the United States. 3-4 Credits.

By employing a multidisciplinary approach, this class will give students a sense of the role that the environment has played in shaping United States society and the role that our society plays in producing environmental change at the national and global level. Honors version available.

Rules & Requirements

Grading Status: Letter grade.

ENEC 210. Energy in a Sustainable Environment Seminar. 1 Credits.

This seminar series will provide a general introduction to energy sources, resources, technologies, and societal use from a sustainability perspective.

Rules & Requirements

Grading Status: Letter grade.

ENEC 220. North Carolina Estuaries: Environmental Processes and Problems. 3 Credits.

Natural processes and human impacts on estuarine systems using the Neuse River estuary as a case study. Course includes one week of intensive field work based at the Institute of Marine Sciences. A student may not receive credit for this course after receiving credit for ENEC 222. Course previously offered as MASC 220.

Rules & Requirements

Making Connections Gen Ed: PX, EE- Field Work.

Grading Status: Letter grade.

Same as: EMES 220.

ENEC 222. Estuarine and Coastal Marine Science. 4 Credits.

Introduction to the estuarine and coastal environment: geomorphology, physical circulation, nutrient loading, primary and secondary production, carbon and nitrogen cycling, benthic processes, and sedimentation. Consideration given to human impact on coastal systems with emphasis on North Carolina estuaries and sounds. Includes a mandatory weekend field trip and laboratory.

Rules & Requirements

Making Connections Gen Ed: PL, QI.

Requisites: Prerequisites, MATH 231 and either CHEM 101 or PHYS 114.

Grading Status: Letter grade.

 **ENEC 237. Food, Environment, and Sustainability. 3 Credits.**

Explores the nexus of agricultural, ecological, and food systems as they dynamically interact. The class examines case studies from North Carolina and other parts of the world. Themes include nutrition, food security, agroecology, and sustainable livelihoods. Students engage in readings, class projects, and hands-on activities in a laboratory setting.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Grading Status: Letter grade.

Same as: ANTH 237.

 **ENEC 238. Human Ecology of Africa. 3 Credits.**

Course examines human adaptations to environments across Africa. Focuses on livelihood systems such as farming, herding and hunting/gathering.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.

Grading Status: Letter grade.

Same as: ANTH 238.

ENEC 241. Energy and Culture Seminar for the Thailand Field Site. 1 Credits.

This one credit hour course meets the semester before UNC students go to study abroad at the Institute for the Environment Thailand Field Site. The course will prepare students for the research portion of the program. Student should be applying to the field site when taking this course.

Rules & Requirements

Grading Status: Letter grade.

ENEC 242. Ecology and Culture Seminar for Ecuador Field Site. 1 Credits.

This one credit hour seminar is only open to students who are planning to participate in the spring research semester in Ecuador. The main purpose of this seminar is to prepare students for this six-month experience in Ecuador by discussing both research methods and Ecuadorian society.

Rules & Requirements

Grading Status: Letter grade.

ENEC 253. Introduction to Atmospheric Processes. 4 Credits.

Includes one-hour laboratory. Atmospheric processes including radiation, dynamics, and thermodynamics are emphasized. Circulations across a range of temporal and spatial scales are described. Links between environmental problems and the atmosphere are explored.

Rules & Requirements

Requisites: Prerequisites, MATH 231 and either CHEM 102 or PHYS 114.

Grading Status: Letter grade.

Same as: GEOG 253.

ENEC 254. International Environmental Politics. 3 Credits.

Covers the politics of environmental issues, with a focus on issues that have become internationalized. It focuses on the special problems that arise in creating rules for environmental management and regulation when no single government has authority to enforce those rules.

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

Same as: POLI 254.

ENEC 256. Mountain Biodiversity. 4 Credits.

Introduction to the new field of biodiversity studies, which integrates approaches from systematics, ecology, evolution, and conservation. Taught at off-campus field station.

Rules & Requirements

Grading Status: Letter grade.

Same as: BIOL 256.

ENEC 259. Coral Reef Ecology and Management. 3 Credits.

The course familiarizes students with the natural history, ecology, and physical and chemical characteristics of the coral reef environment. Policy and management issues are also examined.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Grading Status: Letter grade.

ENEC 263. Environmental Field Studies in Siberia. 4 Credits.

This course explores the biogeography of Siberia and gives students practical training on how to do field work in field ecology and physical geography.

Rules & Requirements

Grading Status: Letter grade.

Same as: GEOG 263.

ENEC 264. Conservation of Biodiversity in Theory and Practice. 3 Credits.

This course will give students a multidisciplinary introduction to growing field of biodiversity preservation.

Rules & Requirements

Requisites: Prerequisite, ENEC 201; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: GEOG 264.

ENEC 266. Contemporary Africa: Issues in Health, Population, and the Environment. 3 Credits.

A seminar that introduces students to non-Western perspectives and comparative study of ecological, social, and economic factors that influence the welfare of contemporary African communities. Examination of famine, population growth, and health issues within the context of African cultural and social systems.

Rules & Requirements

Making Connections Gen Ed: SS, BN.

Grading Status: Letter grade.

ENEC 272. Local Flora. 3 Credits.

Open to all undergraduates. North Carolina's flora: recognition, identification, classification, evolution, history, economics, plant families, ecology, and conservation. Three lecture hours per week.

Rules & Requirements

Making Connections Gen Ed: PX.

Requisites: Prerequisites, BIOL 101, and 101L or 102L; Corequisite, BIOL 272L.

Grading Status: Letter grade.

Same as: BIOL 272.

ENEC 272L. Local Flora Lab. 1 Credits.

Open to all undergraduates. North Carolina's flora: recognition, identification, classification, evolution, history, economics, plant families, ecology, and conservation. Three laboratory hours per week.

Rules & Requirements

Requisites: Prerequisites, BIOL 101, and 101L or 102L; Corequisite, BIOL 272.

Grading Status: Letter grade.

Same as: BIOL 272L.

ENEC 304. Restoration Ecology. 4 Credits.

Explores ecological theory and its application to the restoration of terrestrial, aquatic, and marine ecosystems. Requires 30 hours of service to a local restoration project in which students will collect ecological data for a final case study project.

Rules & Requirements

Making Connections Gen Ed: EE- Service Learning, EE- Mentored Research.

Requisites: Prerequisite, BIOL 201 or ENEC 202.

Grading Status: Letter grade.

ENEC 305. Data Analysis and Visualization of Social and Environmental Interactions. 4 Credits.

Principles of spatial and temporal data analysis are applied to issues of the role of society in producing environmental change. Methods include statistical analysis, model development, and computer visualization. Three lecture hours and one laboratory hour a week.

Rules & Requirements

Requisites: Prerequisite, ECON 400, ENEC 201, MATH 231, or STOR 155.

Grading Status: Letter grade.

ENEC 307. Energy and Material Flows in the Environment and Society. 3 Credits.

Examines regional to global scale flow of materials and energy through materials extractions, processing, manufacturing, product use, recycling, and disposal, including relevance to policy development. Reviews natural cycles, basic physics, and technology of energy production.

Rules & Requirements

Requisites: Prerequisites, ENEC 201 and MATH 231 or MATH 152; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

ENEC 308. Environmental History. 3 Credits.

Historical development of the system of beliefs, values, institutions, etc, underlying societal response to the environment in different cultures is analyzed. The approach is interdisciplinary, drawing on methods from history, philosophy, psychology, etc. Three lecture hours a week.

Rules & Requirements

Grading Status: Letter grade.

ENEC 309. Environmental Values and Valuation. 3 Credits.

Introduction to the methods for assigning value to aspects of the environment and to interhuman and human-environment interactions. The approach is interdisciplinary, drawing on methods from philosophy, ecology, psychology, aesthetics, economics, religion, etc. Online course.

Rules & Requirements

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

ENEC 310. Coastal Environmental Change. 3 Credits.

An exploration of the large-scale evolution of coastal environments, including relevance of geologic setting, wave and sediment transport processes, the evolution of beach and barrier island morphology, and issues of coastal environmental management. Course previously offered as GEOL 310/MASC 316.

Rules & Requirements

Requisites: Prerequisite, EMES 101,103, 200, 201, or 401; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: EMES 310.

ENEC 312. Risk-Based International Environmental Decisions. 3 Credits.

A Web-based course on the methods and roles of risk assessment in the international setting, with a primary focus on United States-European Union applications in environmental policy decisions.

Rules & Requirements

Grading Status: Letter grade.

ENEC 320. The Future of Energy. 3 Credits.

This course takes a deep dive into the global energy transition, studying the rapidly-evolving renewable energy and energy-efficiency technologies, prices for new energy sources like solar and wind, and competition with fossil and nuclear fuels. Honors version available.

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

 **ENEC 324. Water in Our World: Introduction to Hydrologic Science and Environmental Problems. 3 Credits.**

This introductory course will cover two broad themes: the physical processes of the hydrologic cycle and how human use (and abuse) of freshwater resources can lead to major environmental problems. PX credit for ENEC/EMES 324 + 324L. PL credit for ENEC/EMES 324. Course previously offered as GEOL 324.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-NATSCI.

Making Connections Gen Ed: PX.

Grading Status: Letter grade.

Same as: EMES 324.

 **ENEC 324L. Water in Our World Laboratory. 1 Credits.**

Students will conduct laboratory and field experiments to reinforce the topics covered in ENEC/GEOL 324. PX credit for ENEC/EMES 324 + 324L. Course previously offered as GEOL 324L.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-LAB.

Requisites: Pre- or corequisite, ENEC/GEOL 324.

Grading Status: Letter grade.

Same as: EMES 324L.

 **ENEC 325. Water Resource Management and Human Rights. 3-4 Credits.**

This course explores logistical, political, social, and economic challenges in supplying every human with adequate access to clean water, the most basic human right. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-POWER or FC-VALUES.

Making Connections Gen Ed: PH, GL.

Grading Status: Letter grade.

ENEC 330. Principles of Sustainability. 3 Credits.

This course introduces students to theories, principles, and measurement of sustainability. It also provides an overview of sustainability in national and international contexts.

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

Same as: PLAN 330.

 **ENEC 350. Environmental Law and Policy. 3 Credits.**

This course gives students an overview of environmental law and some practical experience in environmental policy making.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Grading Status: Letter grade.

ENEC 351. Coastal Law and Policy. 3 Credits.

The utilization of common coastal resources, the management of fisheries, and coastal zone management guide an examination of coastal laws, policies, and regulations at the federal, state, and local levels. Taught at off-campus field station.

Rules & Requirements

Grading Status: Letter grade.

ENEC 352. Marine Fisheries Ecology. 3 Credits.

Gives students a foundation in population biology and the ecological processes that influence populations of economically important fish and shellfish. Students will gain practical quantitative skills including statistical analyses, model development, and data visualization. Familiarity with introductory statistics concepts is preferred but not necessary.

Rules & Requirements

Requisites: Prerequisite, EMES 103, 401, or ENEC 202.

Grading Status: Letter grade.

Same as: EMES 352.

 **ENEC 368. Living Things, Wilderness, and Ecosystems: An Introduction to Environmental Ethics. 3 Credits.**

The meaning of environmental values and their relation to other values; the ethical status of animals, species, wilderness, and ecosystems; the built environment; environmental justice; ecofeminism; obligations to future generations.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Making Connections Gen Ed: PH, GL.

Grading Status: Letter grade.

Same as: PHIL 368.

ENEC 370. Agriculture and the Environment. 3 Credits.

Introduction to the ecology of agricultural practices and the impact of food production on the environment. Particular attention will be paid to the constraints on agriculture which must be overcome to feed the planet's growing population. Honors version available.

Rules & Requirements

Grading Status: Letter grade.

 **ENEC 371. Energy Policy. 3 Credits.**

This course will provide an overview of some of the most challenging energy issues of the 21st century and will cover the tools and perspectives necessary to analyze those problems.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

Same as: PLCY 371.

ENEC 372. Global Environment: Policy Analysis and Solutions. 3 Credits.

Explores linkages among nations, global environmental institutions, and the environmental problems they cause and seek to rectify. Introduces pressing challenges of the global environment such as China and India's energy and climate policies, the environmental impacts of coal, nuclear energy, shale gas and fracking, and marine pollution. Discusses perspectives of nations, the role of financial markets and NGOs, and the international community involved in crafting policy solutions.

Rules & Requirements

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

Same as: PLCY 372.

ENEC 373. Confronting Climate Change in the Anthropocene. 3 Credits.

Climate change-perhaps the defining issue of the 21st century-is a highly complex problem that requires interdisciplinary collaboration to develop policy responses. This course explores the science of climate change and uses theories from multiple disciplines, including law, political science, economics, and earth and atmospheric sciences, to frame solutions to this global challenge. Students will apply quantitative and qualitative tools to understand causes and impacts of climate change, as well as policy responses.

Rules & Requirements

Grading Status: Letter grade.

Same as: PLCY 373.

ENEC 375. Environmental Advocacy. 3 Credits.

Explores rhetorical means of citizen influence of practices affecting our natural and human environment; also, study of communication processes and dilemmas of redress of environmental grievances in communities and workplace.

Rules & Requirements

Making Connections Gen Ed: PH, CI.

Grading Status: Letter grade.

Same as: COMM 375.

ENEC 380. Environmental Economics. 3 Credits.

This course develops a set of core principles that are essential to understand and evaluate environmental policy and renewable resource use. These principles are primarily economic, but our discussion will also include insights from politics and ethics.

Rules & Requirements

Making Connections Gen Ed: SS.

Requisites: Prerequisite, ECON 101.

Grading Status: Letter grade.

ENEC 393. Internship in Sustainability. 3 Credits.

Permission of the instructor. This course provides an internship with an organization on sustainability topics and public engagement. Pass/Fail only.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Pass/Fail.

ENEC 395. Research in Environmental Sciences and Studies for Undergraduates. 1-3 Credits.

Permission of the instructor. Research in an area of environmental science or environmental studies.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.

Grading Status: Letter grade.

ENEC 396. Directed Readings. 1-4 Credits.

Permission of the instructor. A specialized selection of readings from the literature of a particular environmental field supervised by a member of the Carolina Environmental Faculty group. Written reports on the readings or a literature review paper will be required. Cannot be used as a course toward the major.

Rules & Requirements

Repeat Rules: May be repeated for credit. 8 total credits. 2 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**ENEC 403. Environmental Chemistry Processes. 3 Credits.**

Required preparation, a background in chemistry and mathematics, including ordinary differential equations. Chemical processes occurring in natural and engineered systems: chemical cycles; transport and transformation processes of chemicals in air, water, and multimedia environments; chemical dynamics; thermodynamics; structure/activity relationships.

Rules & Requirements

Requisites: Pre- or corequisite, CHEM 261.

Grading Status: Letter grade.

Same as: ENVR 403, CHEM 403.

ENEC 405. Mountain Preservation. 4 Credits.

Introduces students to approaches used to preserve the natural and cultural heritage of the Southern Appalachians. Taught at off-campus field station.

Rules & Requirements

Grading Status: Letter grade.

ENEC 406. Atmospheric Processes II. 4 Credits.

Principles of analysis of the atmosphere are applied to the analysis of environmental phenomena. The link between the atmosphere and other environmental compartments is explored through environmental case studies.

Rules & Requirements

Grading Status: Letter grade.

Same as: GEOG 406.

ENEC 407. Principles of Energy Conversion. 3 Credits.

Recommended preparation, ENEC 201, and MATH 152 or 231. This course will get students familiar with the principles governing the conversion of a variety of non-renewable and renewable resources to energy services. Physical, chemical, and biological principles involved in the design and analysis of these systems will be reviewed. The basics of project economics applied to the design of energy conversion systems will also be introduced.

Rules & Requirements

Grading Status: Letter grade.

ENEC 410. Earth Processes in Environmental Systems. 4 Credits.

Principles of geological and related Earth systems sciences are applied to analyses of environmental phenomena. The link between the lithosphere and other environmental compartments is explored through case studies of environmental issues. Three lecture hours and one laboratory hour a week.

Rules & Requirements

Requisites: Prerequisites, CHEM 102, GEOL 200, and MATH 231; and PHYS 115 or 119; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: EMES 410.

ENEC 411. Oceanic Processes in Environmental Systems. 4 Credits.

Principles of analysis of the ocean, coast, and estuarine environments and the processes that control these environments are applied to the analysis of environmental phenomena. Case studies of environmental issues. Three lecture hours and one laboratory hour a week.

Rules & Requirements

Requisites: Prerequisite, BIOL 101, CHEM 102, ENEC 222, MATH 231, PHYS 115 or PHYS 119; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: EMES 411.

 **ENEC 412. Principles and Methods of Teaching Earth Science. 4 Credits.**

Required preparation, any introductory geology course. This course develops the knowledge and skills teachers need to implement inquiry-based earth science instruction: conceptual knowledge of earth sciences and mastery of inquiry instructional methods. Students study inquiry in cognitive science and learning theory. This course is a requirement for the UNC-BEST program in geological sciences. Course previously offered as GEOL 412.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-SERVICE.

Making Connections Gen Ed: EE- Service Learning.

Grading Status: Letter grade.

Same as: EMES 412.

ENEC 415. Environmental Systems Modeling. 3 Credits.

This course explores principles and strategies for studying environmental phenomena, and presents methods for developing explanatory and predictive models of environmental systems, e.g., predator-prey, estuaries, greenhouse gases, and ecosystem material cycles.

Rules & Requirements

Requisites: Prerequisite, MATH 383; pre- or corequisite, PHYS 115 or 118, and COMP 116.

Grading Status: Letter grade.

Same as: EMES 415.

ENEC 416. Environmental Meteorology. 3 Credits.

This course explores atmospheric processes most important to environmental problems such as the transport and transformation of air pollutants and weather systems involved in intercontinental transport of gases and particles.

Rules & Requirements

Grading Status: Letter grade.

ENEC 417. Surface Processes and Landscape Evolution. 4 Credits.

The interplay among the fluxes of water, energy, and sediment through geologic time sculpt landscapes and drive environmental change. In both lectures and laboratory exercises, students will learn how simple physical principles applied to rivers and hillslopes allow us to understand the evolution of topography and mountain belts, predict hazards arising from floods, landslides and debris flows, and lead to sustainable management of natural resources such as soil. Previously offered as GEOL 417.

Rules & Requirements

Requisites: Pre- or corequisites, EMES 200 and EMES 201; permission of the instructor for students lacking the pre- or corequisites.

Grading Status: Letter grade.

Same as: EMES 417.

ENEC 420. Community Design and Green Architecture. 3 Credits.

The impact of building on the environment and health will be examined by looking at the major areas of: land use planning, water resource use, energy, materials and indoor environment.

Rules & Requirements

Grading Status: Letter grade.

Same as: PLAN 420.

ENEC 421. Textiles: Environmental Impacts, Issues, and Innovations. 3 Credits.

Textiles are pervasive in our lives, from clothing to upholstery, yet have major impacts on our environment and health, from the products' cradle to grave. This course examines the environmental and social costs of producing our clothing, carpet, and other textiles in daily life. We will also consider possible solutions currently offered by industry and entrepreneurs.

Rules & Requirements

Requisites: Pre- or co-requisite, ENEC 201 or 202; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

ENEC 431. Sustainable Cities: Exploring Ways of Making Cities More Sustainable. 3 Credits.

Recommended preparation, ENEC 330. For the first time in history, a majority of the world's people live in cities with huge implications for sustainability. Students will examine the factors driving the trend toward urbanization worldwide, the challenges posed by this trend, and the efforts by cities to become more sustainable.

Rules & Requirements

Grading Status: Letter grade.

ENEC 432. Environmental Life Cycle Assessment. 3 Credits.

Recommended preparation, ENEC 201, and MATH 110 or 130. This class will introduce students to environmental life cycle assessment (LCA). The methodology to calculate the environmental impacts associated with a product, a service, or a system will be reviewed through case studies in the field of energy systems, waste management, and eco-design. Students will also get a chance to learn how to perform a full LCA through a hands-on project using LCA software and databases.

Rules & Requirements

Grading Status: Letter grade.

ENEC 433. Wetland Hydrology. 3 Credits.

Study of wetland ecosystems with particular emphasis on hydrological functioning, the transition from terrestrial to aquatic systems, wetlands as filtration systems, and exchange between wetlands and other environments. Course previously offered as MASC 433.

Rules & Requirements

Grading Status: Letter grade.

Same as: EMES 433.

ENEC 435. Principles of Environmental Consulting: Mechanics of Groundwater Flow. 3 Credits.

Water is an essential resource for all life, and the availability of clean water will become one of the most important socio-political and economic discussions over the coming decades. This course covers fundamentals of groundwater storage, subsurface flow, and contaminant transport, emphasizing the role of groundwater in the hydrologic cycle, the relation of groundwater flow to geologic structure, and the management of contaminated groundwater and drinking water resources. Course previously offered as GEOL 435.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, EMES 324; MATH 232; PHYS 114 or 118; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: EMES 435.

ENEC 437. Social Vulnerability to Climate Change. 3 Credits.

How does climate change affect vulnerable human populations? We will attempt to answer a shared research question on this topic by reading the peer-reviewed literature and by conducting a semester-long data analysis project incorporating social and climate data from around the world. This is a course-based undergraduate research experience (CURE).

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL, RESEARCH.

Making Connections Gen Ed: EE- Mentored Research, GL.

Grading Status: Letter grade.

Same as: GEOG 437.

ENEC 441. Marine Physiological Ecology. 3 Credits.

This course introduces students to the physiological, morphological, and behavioral factors employed by marine organisms to cope with their physical environment. Emphasis will be placed on the response of marine organisms to environmental factors such as seawater temperature, light, water salinity, ocean acidification, etc. Course previously offered as MASC 441.

Rules & Requirements

Grading Status: Letter grade.

Same as: EMES 441.

ENEC 444. Marine Phytoplankton. 3 Credits.

For junior and senior science majors or graduate students. Biology of marine photosynthetic protists and cyanobacteria. Phytoplankton evolution, biodiversity, structure, function, biogeochemical cycles and genomics. Harmful algal blooms, commercial products, and climate change. Three lecture/practical session hours per week. Course previously offered as MASC 444. Permission of the instructor.

Rules & Requirements

Grading Status: Letter grade.

Same as: EMES 444, BIOL 456.

ENEC 448. Coastal and Estuarine Ecology. 4 Credits.

A field-intensive study of the ecology of marine organisms and their interactions with their environment, including commercially important organisms. Laboratory/recitation/field work is included and contributes two credit hours to the course. Course previously offered as MASC 448.

Rules & Requirements

Requisites: Prerequisites, CHEM 102 and MATH 231.

Grading Status: Letter grade.

Same as: EMES 448.

ENEC 450. Biogeochemical Processes. 4 Credits.

Principles of chemistry, biology, and geology are applied to analysis of the fate and transport of materials in environmental systems, with an emphasis on those materials that form the most significant cycles. Three lecture hours and one laboratory hour a week. Previously offered as GEOL 450/MASC 450.

Rules & Requirements

Making Connections Gen Ed: PL.

Requisites: Prerequisites, CHEM 101 or permission of instructor.

Grading Status: Letter grade.

Same as: EMES 450.

ENEC 451. Population, Development, and the Environment. 3 Credits.

Introduction to contemporary and historical changes in human population, international development, and the global environment and how these processes interact, drawing on population geography as an organizing framework. Previously offered as GEOG 450.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

Same as: GEOG 451.

ENEC 459. Ecological Anthropology. 3 Credits.

Examines how human-environmental adaptations shape the economic, social, and cultural lives of hunter-gatherers, pastoralists and agriculturalists. Approaches include optimal foraging theory, political ecology and subsistence risk.

Rules & Requirements

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

Same as: ANTH 459.

ENEC 460. Historical Ecology. 3 Credits.

Historical ecology is a framework for integrating physical, biological, and social science data with insights from the humanities to understand the reciprocal relationship between human activity and the Earth system.

Rules & Requirements

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

Same as: ANTH 460.

ENEC 461. Fundamentals of Ecology. 4 Credits.

Students will develop a comprehensive understanding of the field of ecology, including modern and emerging trends in ecology. They will develop literacy in the fundamental theories and models that capture ecological processes; emphasis will also be placed on the relevance of ecology and ecological research for human society.

Rules & Requirements

Requisites: Prerequisites, BIOL 201; or BIOL 103, BIOL 104, and BIOL 260.

Grading Status: Letter grade.

Same as: BIOL 461.

ENEC 462. Ecosystem Management. 3 Credits.

Explores the ecological concepts underlying ecosystem management (e.g., genetic and species diversity, stability, resilience, landscape ecology, etc.), the tools used in the approach, and case studies of how communities are implementing ecosystem management.

Rules & Requirements

Requisites: Prerequisite, BIOL 101.

Grading Status: Letter grade.

 **ENEC 463. Corporate Environmental Stewardship. 3 Credits.**

This course explores the intersection of business/economic growth and the major sustainability issues affecting the environment and societal well-being and raises questions about business ethics and the moral responsibility of business leaders, consumers, and citizens. Previously offered as ENEC 306.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-VALUES.

Making Connections Gen Ed: PH, CI, GL.

Requisites: Prerequisite, ENEC 201.

Grading Status: Letter grade.

Same as: BUSI 463.

 **ENEC 465. Global Biodiversity and Macroecology. 3 Credits.**

We will explore global patterns of diversity of plants, animals, fungi, and microbes, and the insights gained by taking a statistical approach to describing these and other broad-scale ecological patterns.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-NATSCI or FC-QUANT, RESEARCH.

Requisites: Prerequisites, BIOL 201; or BIOL 103, BIOL 104, and BIOL 260; or permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: BIOL 465.

ENEC 468. Temporal GIS and Space/Time Geostatistics for the Environment and Public Health. 3 Credits.

Reviews geographical information systems (GIS). Covers geostatistics theory for the interpolation of environmental and health monitoring data across space and time. Uses publicly available water and air quality monitoring data to create maps used for environmental assessment, regulatory compliance analysis, exposure science, and risk analysis.

Rules & Requirements

Requisites: Prerequisite, MATH 232; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: ENVR 468.

ENEC 470. Environmental Risk Assessment. 3 Credits.

Required preparation, one course in probability and statistics. Use of mathematical models and computer simulation tools to estimate the human health impacts of exposure to environmental pollutants. Three lecture hours per week.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENVR 470.

ENEC 471. Human Impacts on Estuarine Ecosystems. 4 Credits.

A cohesive examination of the human impacts on biological processes in estuarine ecosystems. Laboratory/recitation/field work is included and contributes two credit hours to the course. Taught at off-campus field station.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisites, CHEM 102 and MATH 231.

Grading Status: Letter grade.

Same as: EMES 471.

 **ENEC 473. Business and Finance Fundamentals for Change Makers. 3 Credits.**

This course is designed to develop basic finance skills along with familiarity with core business concepts. The goal of the course is to empower non-business majors with the skills and vocabulary required to advance the goals of pro-environment businesses and social entrepreneurs.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-QUANT.

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

ENEC 474. Sustainable Coastal Management. 3 Credits.

This course explores the environmental history of the Albemarle estuary and its larger watershed and explores ways in which humans can utilize this region in a more sustainable manner. Taught at off-campus field station.

Rules & Requirements

Grading Status: Letter grade.

ENEC 475. The Political Economy of Food. 3 Credits.

This course examines the political and economic dimensions of the food we eat, how it is produced, who eats what, and related social and environmental issues, both domestic and international, affecting the production, pricing, trade, distribution, and consumption of food. Honors version available.

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

Same as: PLCY 475.

ENEC 479. Landscape Analysis. 3 Credits.

This course utilizes GIS, GPS, and remote sensing technologies to gather data on geology, watersheds, soils, integrated moisture indices. The class also develops habitat maps and derives species diversity indices. Taught at off-campus field station.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Grading Status: Letter grade.

ENEC 481. Energy Economics. 3 Credits.

This course develops a core set of principles to understand and evaluate energy markets, policies, and regulations. Topics include oil markets, electric vehicles and CAFÉ standards, pollution permit markets and CO₂ regulations, and electricity markets.

Rules & Requirements

Making Connections Gen Ed: SS.

Requisites: Prerequisite, ECON 101.

Grading Status: Letter grade.

ENEC 482. Energy and the Environment: A Coastal Perspective. 3 Credits.

Explores coastal and offshore energy issues, including energy demand, present-day and innovative sources of energy to meet that demand, economics, policy, and environmental and human health outcomes of different energy sources. Summer session only; online and field trip hybrid course, with a mandatory 8-day field site component on the Outer Banks. Housing and field activities arranged by the instructor, which will carry a fee. Taught at off-campus field station.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Grading Status: Letter grade.

ENEC 485. Coastal Resource Economics and Policy. 3-4 Credits.

This course develops and applies core principles essential to understanding and evaluating coastal environmental policy and renewable resource use. The principles include the economics of pollution, public choice, information and cost-benefit analysis, property rights, incentive-based regulation, and the economics of renewable resources. Includes insights from politics and ethics. Taught at off-campus field station.

Rules & Requirements

Requisites: Prerequisite, ECON 101.

Grading Status: Letter grade.

ENEC 489. Ecological Processes in Environmental Systems. 4 Credits.

Principles of analysis of the structure and function of ecosystems are applied to environmental phenomena. The link between the biosphere and other environmental compartments is explored through case studies of environmental issues. Three lecture hours and one laboratory hour a week. Taught at off-campus field station.

Rules & Requirements

Grading Status: Letter grade.

ENEC 490. Special Topics in Environmental Science and Studies. 1-12 Credits.

Advanced topics from diverse areas of environmental science and/or environmental studies are explored. Honors version available.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

ENEC 491. Effective Environmental Communication. 3 Credits.

Combines theory and application to explore effective communication in various environmental contexts and professions. Offers students from diverse disciplines tools to effectively and credibly communicate about environmental topics using a spectrum of strategies, and offers methods for effective thinking, writing, and speaking.

Rules & Requirements

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

ENEC 492. Social Science Research Methods. 3 Credits.

Students learn quantitative, qualitative, and mixed methods research skills and their application to public policies and management of natural resources.

Rules & Requirements

Making Connections Gen Ed: SS, EE- Mentored Research.

Grading Status: Letter grade.

 **ENEC 493. Environmental Internship. 1-4 Credits.**

Permission of the instructor. This course provides an internship with an organization related to environmental sciences or studies. Pass/Fail only.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.

Grading Status: Pass/Fail.

ENEC 510. Policy Analysis of Global Climate Change. 3 Credits.

Provides a real-world and relevant case study in which to apply material from multiple disciplines including public policy, economics, environmental science, and international studies. Teaches techniques for building policy models not covered elsewhere.

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

ENEC 511. Stable Isotopes in the Environment. 3 Credits.

Introduction to the theory, methods, and applications of stable isotopes to environmental problems. Primary focus will be on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, and nitrogen isotopes. Course previously offered as GEOL 511.

Rules & Requirements

Requisites: Prerequisite, CHEM 102.

Grading Status: Letter grade.

Same as: EMES 511.

ENEC 512. Advanced Coastal Environmental Change. 3 Credits.

This 3-credit seminar-style class for graduate students and advanced undergraduate students focuses on developing a deeper understanding of coastal environmental change as illuminated by the scientific literature, including topics such as climate change impacts; coupled human-natural coastal dynamics; feedbacks between biological and physical processes; carbon storage and flux; adaptive coastal management; and the role of science, policy and communication in coastal resilience. Course previously offered as ENEC 710/GEOL 710/MASC 730.

Rules & Requirements

Requisites: Prerequisite, EMES 303, 310, 410, 417, or 503; permission of the instructor for students lacking the prerequisite.

Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading Status: Letter grade.

Same as: EMES 512.

ENEC 514. Flood Hydrology: Models and Data Analysis. 3 Credits.

River floods are critically important in the global hydrologic cycle. While seasonal floods can be environmentally restorative, they can also have devastating socio-economic and public health consequences. Beginning with the hydrologic cycle, this course will cover concepts related to rainfall runoff and hydrologic response, flood frequency analysis, the mechanics of open channel flow, and overland and channel routing. Students will also gain experience working with real-world data and engineering software. Previously offered as GEOL 514.

Rules & Requirements

Requisites: Prerequisites, EMES 201, EMES 324, MATH 232, and PHYS 114 or 118; or permission of instructor for students missing prerequisites or graduate students.

Grading Status: Letter grade.

Same as: EMES 414.

ENEC 522. Environmental Change and Human Health. 3 Credits.

The course will provide students with a multidisciplinary perspective of environmental changes to encompass both human health and ecological health.

Rules & Requirements

Requisites: Prerequisite, ENEC 201 or 202.

Grading Status: Letter grade.

Same as: ENVR 522.

ENEC 530. Principles of Climate Modeling. 3 Credits.

Recommended preparation, MATH 383. Develops explanatory and predictive models of the earth's climate. The level is introductory and the emphasis is on modeling past climate with the hope of understanding its future.

Rules & Requirements

Requisites: Prerequisites, MATH 231, 232, and 233; PHYS 118 and 119.

Grading Status: Letter grade.

ENEC 547. Energy, Transportation, and Land Use. 3 Credits.

This course explores the reciprocal connections between energy (production/conversion, distribution, and use), land use, environment, and transportation. Evaluation of federal, state, and local policies on energy conservation and alternative energy sources are emphasized. Students gain skills to analyze impacts, interdependencies, and uncertainties of various energy conservation measures and production technologies.

Rules & Requirements

Grading Status: Letter grade.

Same as: PLAN 547.

ENEC 548. Sustainable Energy Systems. 3 Credits.

This course will provide an introduction to urgent topics related to energy, sustainability, and the environment. The course material will focus on new technologies, policies, and plans in cities and different governing bodies in the energy system with a focus on developing tools to analyze energy for its sustainability, impact on people, the environment, and the economy.

Rules & Requirements

Grading Status: Letter grade.

Same as: PLAN 548, ENVR 548.

ENEC 562. Statistics for Environmental Scientists. 4 Credits.

Introduction to the application of quantitative and statistical methods in environmental science, including environmental monitoring, assessment, threshold exceedance, risk assessment, and environmental decision making.

Rules & Requirements

Requisites: Prerequisites, BIOL 103 and BIOL 104, and either STOR 120 or STOR 155; or permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: BIOL 562.

ENEC 563. Statistical Analysis in Ecology and Evolution. 4 Credits.

Application of modern statistical analysis and data modeling in ecological and evolutionary research. Emphasis is on computer-intensive methods and model-based approaches. Familiarity with standard parametric statistics is assumed.

Rules & Requirements

Requisites: Prerequisites, BIOL 103, BIOL 104, MATH 231, and either STOR 120 or STOR 155; or permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: BIOL 563.

ENEC 565. Environmental Storytelling. 3 Credits.

An interdisciplinary course for students interested in environmental issues or journalism to produce stories about environmental issues that matter to North Carolinians. Students learn to identify credible sources, manage substantial amounts of information, and find story focus as they report on technical and often controversial subjects in a variety of media.

Rules & Requirements

Grading Status: Letter grade.

Same as: MEJO 565.

ENEC 567. Ecological Analyses and Application. 3 Credits.

This course provides an overview of natural and social science approaches to addressing biodiversity conservation and resource management. Concepts and methods from population biology, evolutionary ecology, community ecology, and conservation biology will be complemented with approaches from common property theory, indigenous resource management, and human evolutionary ecology.

Rules & Requirements

Grading Status: Letter grade.

ENEC 569. Current Issues in Ecology. 3 Credits.

Required preparation, previous course work in ecology. Permission of the instructor. Topics vary but focus on interdisciplinary problems facing humans and/or the environment. May be repeated for credit.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENEC 570. Uncertainty, Decisions, and the Environment. 3 Credits.

Required preparation, one course in probability and statistics. Use of quantitative tools for balancing conflicting priorities (such as costs versus human health protection) and evaluating uncertainties when making environmental decisions.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENVR 570.

ENEC 580. Environmental Markets: Science and Economics. 3 Credits.

Examines the interplay of science and economics in the design of environmental markets. The first part introduces the principles of environmental economics. The second part considers several case studies that illustrate the critical role that scientific models of natural systems play in the design of environmental markets.

Rules & Requirements

Grading Status: Letter grade.

ENEC 581. Water Resource Planning and Policy Analysis. 3 Credits.

Water resources demand-supply relationships, United States water resource and related water quality policy, legal structure for water allocation, planning, project and program evaluation, and pricing. Strategies for coping with floods, droughts, and climate change will be explored. Extensive use of case studies.

Rules & Requirements

Grading Status: Letter grade.

ENEC 586. Water Quality Policies and Planning. 3 Credits.

Introduction to the management of water quality at the local and basinwide scales. Topics include theory and management frameworks; state and federal statutes and programs; water contaminants, their fate and transport; alternatives for improving and protecting water quality; and the technologies and management practices of selected basinwide comprehensive strategies.

Rules & Requirements

Requisites: Prerequisites, BIOL 101 and MATH 231.

Grading Status: Letter grade.

 **ENEC 593. Environmental Practicum. 1-3 Credits.**

Permission of the instructor required. Students receive service-learning credit through active participation in a community, campus, or other approved group project.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.

Grading Status: Letter grade.

ENEC 602. Professional Development Skills for Ecologists and Biologists. 3 Credits.

The goal of this course is to help students who intend to become professional ecologists or biologists acquire critical skills and strategies needed for achieving their career goals.

Rules & Requirements

Grading Status: Letter grade.

Same as: BIOL 602.

ENEC 608. Continuum Mechanics in the Earth Sciences. 3 Credits.

Applications of continuum mechanics in the earth sciences, including stress, strain, elasticity, and viscous flow. Numerical solutions to problems in heterogeneous finite strain including finite element analysis. Course previously offered as GEOL 608.

Rules & Requirements

Requisites: Prerequisites, EMES 302, and PHYS 114 or 118.

Grading Status: Letter grade.

Same as: EMES 608.

ENEC 635. Energy Modeling for Environment and Public Health. 3 Credits.

Recommended preparation, MATH 231. This course will equip students with an overview of contemporary issues in energy modeling and energy systems analysis, with a focus on environmental and public health impacts of energy systems. Students will gain exposure to a variety of research methodologies, analytical tools, and applications of energy modeling applied to environmental and public health related problems such as climate change, air pollution, and water footprints of energy systems.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENVR 635, PLAN 635.

ENEC 641. Watershed Planning. 3 Credits.

This course explores the functions of ecosystems, land development activities that impact such functions, and the land use management tools to create strategies for mitigating and restoring environmental damage. Course goals include understanding the ecological context of planning and how ecological principles may inform planning decisions. Prepares planners to engage effectively with biologists, natural resource managers, park managers, and other professionals from the natural sciences.

Rules & Requirements

Grading Status: Letter grade.

Same as: PLAN 641.

ENEC 669. Seminar in Ecology. 1-3 Credits.

May be repeated for credit.

Rules & Requirements

Requisites: Prerequisite, BIOL 201 or BIOL 260; or permission of the instructor for students lacking the prerequisite.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 12 total completions.

Grading Status: Letter grade.

Same as: BIOL 669.

ENEC 675. Environmental Communication and the Public Sphere. 3 Credits.

Examines communication practices that accompany citizen participation in environmental decisions, including public education campaigns of nonprofit organizations, "risk communication," media representations, and mediation in environmental disputes.

Rules & Requirements

Grading Status: Letter grade.

ENEC 685. Environmental and Resource Economics. 3 Credits.

Theory and methods of environmental economics. Topics covered include cost-benefit analysis and environmental policy analysis, economic concept of sustainability, optimal use of natural resources, nonmarket valuation, and economic instruments.

Rules & Requirements

Requisites: Prerequisite, ECON 310.

Grading Status: Letter grade.

ENEC 693H. Honors Research in Environmental Sciences and Studies. 3 Credits.

Permission of the director of undergraduate studies. First of two course sequence leading to the honors designation.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

ENEC 694H. Honors Project in Environmental Sciences and Studies. 3 Credits.

Permission of the director of undergraduate studies. Independent project leading to the honors designation. Includes weekly research seminar.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

ENEC 698. Capstone: Analysis and Solution of Environmental Problems. 3 Credits.

Interdisciplinary, team-based analyses of environmental phenomena are performed and applied to problems of the selection of effective environmental strategies. Students may select from a wide range of examples and venues.

Rules & Requirements

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

Environmental Studies Major, B.A.

This major is designed for students seeking interdisciplinary preparation in the social sciences and humanities needed to understand how society affects the environment, how it organizes itself to respond to environmental problems, and how understanding of the environment is transmitted through culture. The major prepares students for graduate and professional training, especially in environmental policy, journalism, education, and law. There are two tracks available. Students should contact Dr. Amy Cooke (amycooke@unc.edu) to discuss the right track for their interests and career goals.

Student Learning Outcomes

Upon completion of the environmental studies program (B.A.), students should be able to:

- Demonstrate knowledge in the connections in social and/or natural sciences through an understanding of major concepts, theoretical reasoning, and empirical findings in environmental studies
- Demonstrate knowledge of a marketable skill (e.g. GIS, communication, statistics) to enhance their ability to apply concepts from the program in the real world
- Demonstrate mastery of research and problem-solving skills through individual or team-based projects working for a researcher or client in a social or natural science

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The environmental studies program provides two options:

- Environmental Studies Major, B.A. (p. 606) (with several concentration areas)
- Environmental Studies Major, B.A.–Sustainability Track (p. 609)

Environmental Studies Major, B.A.

Code	Title	Hours
Core Requirements		
ENEC 201	 Introduction to Environment and Society ^{H, F}	4
ENEC 202	 Introduction to the Environmental Sciences	4
ENEC 698	Capstone: Analysis and Solution of Environmental Problems	3
or ENEC 694H	 Honors Project in Environmental Sciences and Studies	
One of the following earth system science courses:		3-4
BIOL 104	 Biodiversity ^F	
or BIOL 103	 How Cells Function	
ENEC 222	Estuarine and Coastal Marine Science ¹	
ENEC 489	Ecological Processes in Environmental Systems ¹	
ENEC/EMES 448	Coastal and Estuarine Ecology ¹	
ENEC 324 & 324L	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems and  Water in Our World Laboratory ¹	
GEOG 412	Synoptic Meteorology	
Two courses from one of the following skills categories:		6

GIS:

ANTH 419	Anthropological Application of GIS
EMES 401/ BIOL 350/ ENVR 417	Oceanography
ENEC 479	Landscape Analysis ¹
GEOG 370	 Introduction to Geographic Information
GEOG 491	Introduction to GIS
GEOG 541	GIS in Public Health
GEOG 591	 Applied Issues in Geographic Information Systems
GEOG 456	 Geovisualizing Change
GEOG 592	 Geographic Information Science Programming

Remote Sensing:

GEOG 370	 Introduction to Geographic Information
GEOG 477	 Introduction to Remote Sensing of the Environment
GEOG 577	 Advanced Remote Sensing
EMES 483	Geologic and Oceanographic Applications of Geographical Information Systems

Statistics & Analytics:

STOR 155	 Introduction to Data Models and Inference ^F
or BIOS 600	Principles of Statistical Inference
ECON 400	 Introduction to Data Science and Econometrics ^H
ENEC 492	Social Science Research Methods
ENEC 562	Statistics for Environmental Scientists
PLCY 460	 Quantitative Analysis for Public Policy ^H

Five courses chosen from one of the concentrations list below 15-20

Additional Requirements

BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
ECON 101	 Introduction to Economics ^{H, F}	4
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
Select one of the following options: ³		8
CHEM 101/101L and CHEM 102/102L		
PHYS 114 & PHYS 115	 General Physics I: For Students of the Life Sciences and  General Physics II: For Students of the Life Sciences ^F	
PHYS 118 & PHYS 119	 Introductory Calculus-based Mechanics and Relativity and  Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	

Enough General Education and free electives to accumulate at least 120 credit hours.²

Total Hours **120**

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ This course appears on a core requirement list as well as a concentration requirement list, but can only be counted toward one of the two.

² Recommended courses are ECON 400 and one of the following PH courses: COMM 375/ENEC 375, ENEC 325, or ENEC 368/PHIL 368.

³ Courses to be taken in a series; e.g., CHEM 101+L and CHEM 102+L.

Agriculture and Health Concentration

Code	Title	Hours
ANTH/ENEC 238	 Human Ecology of Africa	3
ANTH 252	 Archaeology of Food	3
ANTH 306	Water and Inequality: Anthropological Perspectives	3
ANTH 319	 Global Health	3
ENEC/EMES 324	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems ¹	3
ENEC/EMES 324L	 Water in Our World Laboratory	1
ENEC 325	 Water Resource Management and Human Rights ^H	3-4
ENEC 370	Agriculture and the Environment ^H	3
ENEC 395	 Research in Environmental Sciences and Studies for Undergraduates	3
or ENEC 396	Directed Readings	
ENEC 420	Community Design and Green Architecture	3
ENEC/ENVR 522	Environmental Change and Human Health	3
ENEC 693H	 Honors Research in Environmental Sciences and Studies ¹	3
or ENEC 694H	 Honors Project in Environmental Sciences and Studies	
GEOG 334	Human Ecology of Health and Disease	3
GEOG 457	 Rural Latin America: Agriculture, Environment, and Natural Resources ^H	3
GEOG 542	Neighborhoods and Health	3
PLAN/ENEC/ENVR 635	Energy Modeling for Environment and Public Health	3
PLCY 475	The Political Economy of Food ^H	3
PLCY 485	Poverty, Health, and Human Development in Low Income Countries	3

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ This course appears on a core requirement list as well as a concentration requirement list, but can only be counted toward one of the two.

Ecology and Society Concentration

Code	Title	Hours
ANTH 226	The Peoples of Africa	3
ANTH/ENEC 238	 Human Ecology of Africa	3
ANTH 318	 Human Growth and Development	3
ANTH 439	 Political Ecology	3
ANTH/ENEC 460	Historical Ecology	3
BIOL/ENEC 256	Mountain Biodiversity	4
BIOL 260	Introduction to Ecology	3
BIOL/ENEC 272	Local Flora	3
BIOL 277	Vertebrate Field Zoology	3
BIOL 402	Infectious Disease in the Developing World	3
BIOL 427	Human Diversity and Population Genetics	3
BIOL 461	Fundamentals of Ecology	4
BIOL 463	Field Ecology	4
BIOL 464	Global Change Biology	3
BIOL 465	Global Biodiversity and Macroecology	3
BIOL 469	Behavioral Ecology	3
BIOL 561	Ecological Plant Geography	3

Environmental Studies Major, B.A. – Sustainability Track

This major is designed for students who wish to pursue business and policy with an interdisciplinary approach to resiliency and sustainability. This track is appropriate for students wishing to pursue graduate or professional studies in business or policy.

Code	Title	Hours
Core Requirements		
ENEC 201	 Introduction to Environment and Society ^{H, F}	4
ENEC 307	Energy and Material Flows in the Environment and Society	3
One course from the following options: ²		3
ENEC 330	Principles of Sustainability	
ENEC/PLCY 373	Confronting Climate Change in the Anthropocene	
ENEC 421	Textiles: Environmental Impacts, Issues, and Innovations	
ENEC 431	Sustainable Cities: Exploring Ways of Making Cities More Sustainable	
ENEC 698	Capstone: Analysis and Solution of Environmental Problems	3

or ENEC 694H  Honors Project in Environmental Sciences and Studies

One course from each of the Pillars of Sustainability, plus one additional course at the 300-level or above in any pillar (4 courses total):

Equity	
ANTH 306	Water and Inequality: Anthropological Perspectives
ANTH 439	 Political Ecology
ANTH 539	 Environmental Justice
ENEC 309	Environmental Values and Valuation
ENEC 325	 Water Resource Management and Human Rights ^H
ENEC 350	 Environmental Law and Policy
ENEC 351	Coastal Law and Policy
ENEC/GEOG 437	 Social Vulnerability to Climate Change
GEOG 470	 Political Ecology: Geographical Perspectives
GEOG 480	Liberation Geographies
PHIL/ENEC 368	 Living Things, Wilderness, and Ecosystems: An Introduction to Environmental Ethics
PLAN 247	 Solving Urban Problems
PLAN 574	Political Economy of Poverty and Inequality
PLAN 637	Public Transportation
PLAN 638	Pedestrian and Bike Transportation
PLAN 639	 Complete, Safe, Equitable Streets
PLCY 373	Confronting Climate Change in the Anthropocene ²
SOCI 274	Social and Economic Justice
Economics	
BUSI 507	Sustainable Business and Social Enterprise ^H
ECON 455	Environmental Economic Theory
ENEC 380	Environmental Economics
ENEC/BUSI 463	 Corporate Environmental Stewardship
ENEC 473	 Business and Finance Fundamentals for Change Makers
ENEC 481	Energy Economics
ENEC 485	Coastal Resource Economics and Policy
ENEC 580	Environmental Markets: Science and Economics
PUBA 787	Applied Environmental Finance: How to Pay for Environmental Services
Environment	
ENEC 202	 Introduction to the Environmental Sciences
ENEC/BIOL 256	Mountain Biodiversity
ENEC/GEOG 264	Conservation of Biodiversity in Theory and Practice
ENEC 304	Restoration Ecology
ENEC 324 & 324L	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems and  Water in Our World Laboratory
ENEC 370	Agriculture and the Environment ^H

ENEC 405	Mountain Preservation
ENEC 420	Community Design and Green Architecture
ENEC 421	Textiles: Environmental Impacts, Issues, and Innovations ²
ENEC 431	Sustainable Cities: Exploring Ways of Making Cities More Sustainable
ENEC 462	Ecosystem Management
ENEC 471	Human Impacts on Estuarine Ecosystems
ENEC 482	Energy and the Environment: A Coastal Perspective
ENEC 489	Ecological Processes in Environmental Systems
ENEC/PLAN/ ENVR 548	Sustainable Energy Systems
GEOG 441	Introduction to Watershed Systems
GEOG/ENEC 451	 Population, Development, and the Environment
EMES/ENEC 220	North Carolina Estuaries: Environmental Processes and Problems
EMES/ENEC 411	Oceanic Processes in Environmental Systems
EMES/ENEC 433	Wetland Hydrology
EMES 444/ BIOL 456/ ENEC 444	Marine Phytoplankton
EMES/ENEC 448	Coastal and Estuarine Ecology
PHYS 131	Energy: Physical Principles and the Quest for Alternatives to Dwindling Oil and Gas
PLAN 547	Energy, Transportation, and Land Use
PLAN 548	Sustainable Energy Systems

Two courses from one skill area and one additional course from a second skill (3 courses total): 9-12

Basic Science

BIOL 101 & 101L & BIOL 103	 Principles of Biology and  Introductory Biology Laboratory and  How Cells Function ^{H, F}
BIOL 101 & 101L & BIOL 104	 Principles of Biology and  Introductory Biology Laboratory and  Biodiversity ^{H, F}
CHEM 101 & 101L & CHEM 102 & CHEM 102L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I and  General Descriptive Chemistry II and  Quantitative Chemistry Laboratory II ^{H, F}
PHYS 114 & PHYS 115	 General Physics I: For Students of the Life Sciences and  General Physics II: For Students of the Life Sciences ^F

Communications and Research

COMM/ENEC 375	Environmental Advocacy
ENEC 395	 Research in Environmental Sciences and Studies for Undergraduates

or ENEC 396 Directed Readings	
ENEC 491	Effective Environmental Communication
ENEC 492	Social Science Research Methods
ENEC 693H	 Honors Research in Environmental Sciences and Studies ¹
or ENEC 694H  Honors Project in Environmental Sciences and Studies	
MEJO 560	Environmental and Science Journalism ^H
MEJO 562	Environmental and Science Documentary Television
MEJO/ENEC 565	Environmental Storytelling
PLCY 305	Communicating Under Pressure: Tools for Effective Communication

GIS and Remote Sensing

ANTH 419	Anthropological Application of GIS
ENEC 479	Landscape Analysis
ENVR 468	Temporal GIS and Space/Time Geostatistics for the Environment and Public Health
GEOG 370	 Introduction to Geographic Information
GEOG 456	 Geovisualizing Change
GEOG 477	 Introduction to Remote Sensing of the Environment
GEOG 491	Introduction to GIS
GEOG 592	 Geographic Information Science Programming
EMES 483	Geologic and Oceanographic Applications of Geographical Information Systems

Analytics

BUSI 410	Business Analytics
BUSI 520	Advanced Spreadsheet Modeling for Business
ECON 400	 Introduction to Data Science and Econometrics ^H

ENEC 432	Environmental Life Cycle Assessment
ENEC 562	Statistics for Environmental Scientists
PLAN 372	Introduction to Urban Data Analytics
PLCY 460	 Quantitative Analysis for Public Policy ^H
STOR 305	 Introduction to Decision Analytics
STOR 455	Methods of Data Analysis
STOR 556	Time Series Data Analysis

Programming and Informatics

BIOL 222	 Introduction to Programming with Biological Data
COMP 110	 Introduction to Programming and Data Science ^H
or COMP 116 Introduction to Scientific Programming	
COMP 210	Data Structures and Analysis
INLS 161	Tools for Information Literacy
INLS 382	Information Systems Analysis and Design
INLS 560	Programming for Information Science

Additional Requirements

ECON 101	 Introduction to Economics ^{H, F}
----------	---

MATH 152	Calculus for Business and Social Sciences ^F	3
or MATH 231	Calculus of Functions of One Variable I	

Enough General Education and free electives to accumulate at least 120 credit hours.¹

Total Hours **120**

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Recommended courses are ENEC 202, ECON 400 and one of the following courses: ENEC 325, COMM 375/ENEC 375, or PHIL 368/ENEC 368.

² This course appears on a core requirement list as well as a pillar requirement list, but can only be counted towards one of the two.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Suggested Program of Study for B.A. Major

First Year	Hours
First-Year Foundation Courses	
IDST 101 College Thriving	1
ENGL 105 English Composition and Rhetoric	3
or ENGL 105I English Composition and Rhetoric (Interdisciplinary)	
First-Year Seminar or First-Year Launch (p. 1202) ^F	3
Triple-I and Data Literacy (p. 1210)	4
Global Language through level 3 (p. 1211)	varies
Major Courses	
BIOL 101 Principles of Biology & 101L and Introductory Biology Laboratory ^{H, F}	4
ECON 101 Introduction to Economics ^{H, F}	4
ENEC 201 Introduction to Environment and Society ^{H, F}	4
MATH 231 Calculus of Functions of One Variable I ^{H, F}	4
Additional Courses	
Lifetime Fitness (p. 1269)	1
Electives or IDEAs in Action Requirements	3
Hours	31

Sophomore Year

Select one of the following: 4

CHEM 101 General Descriptive Chemistry I & 101L and Quantitative Chemistry Laboratory I^{H, F}

PHYS 114 General Physics I: For Students of the Life Sciences^F

PHYS 118 Introductory Calculus-based Mechanics and Relativity^{H, F}

ENEC 202 Introduction to the Environmental Sciences 4

Select one of the following: 4

CHEM 102 General Descriptive Chemistry II & 102L and Quantitative Chemistry Laboratory II^{H, F}

PHYS 115 General Physics II: For Students of the Life Sciences^F

PHYS 119 Introductory Calculus-based Electromagnetism and Quanta^{H, F}

One earth system science core 3-4

Two courses from the concentration core 6

Electives or IDEAs in Action Requirements 7

Hours **28-29**

Junior Year

Two courses from the environmental skills core 6

Two courses from the concentration core 6

ECON 400 Introduction to Data Science and Econometrics^H 4

Electives or IDEAs in Action Requirements 15

Hours **31**

Senior Year

ENEC 698 Capstone: Analysis and Solution of Environmental Problems or

ENEC 694H Honors Project in Environmental Sciences and Studies

Remaining concentration course 3

Electives or IDEAs in Action Requirements as needed to complete curriculum and a minimum of 120 academic hours 24

Hours **30**

Total Hours **120-121**

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Suggested Program of Study for the Sustainability Track

First Year		Hours
First-Year Foundation Courses		
IDST 101	College Thriving	1
ENGL 105 or ENGL 105I	English Composition and Rhetoric or English Composition and Rhetoric (Interdisciplinary)	3
First-Year Seminar or First-Year Launch (p. 1202) ^F		3
Triple-I and Data Literacy (p. 1210)		4
Global Language through level 3 (p. 1211)		varies
Major Courses		
ENEC 201	Introduction to Environment and Society ^{H, F}	4
MATH 152 or MATH 231	Calculus for Business and Social Sciences ^F or Calculus of Functions of One Variable I	3
ECON 101	Introduction to Economics ^{H, F}	4
Additional Courses		
Lifetime Fitness (p. 1269)		1
Electives or IDEAs in Action Requirements		7
Hours		30
Sophomore Year		
ENEC 330	Principles of Sustainability or ENEC 421	3
	or Textiles: Environmental Impacts, Issues, and Innovations	
ENEC 431	or Sustainable Cities: Exploring Ways of Making Cities More Sustainable or PLCY 373	3
	or Confronting Climate Change in the Anthropocene	
Two environmental skills core courses		6
Two pillars of sustainability core courses		6
Electives or IDEAs in Action Requirements		15
Hours		30
Junior Year		
ENEC 307	Energy and Material Flows in the Environment and Society	3
One environmental skills core course		3
Two pillars of sustainability core courses		6
Electives or IDEAs in Action Requirements		18
Hours		30
Senior Year		
ENEC 698 or ENEC 694H	Capstone: Analysis and Solution of Environmental Problems or Honors Project in Environmental Sciences and Studies	3
Remaining IDEAs in Action courses and free electives to reach a minimum of 120 credit hours		27
Hours		30
Total Hours		120

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Dual Bachelor's–Master's Degree Program

Four dual bachelor's–master's programs are offered:

1. *Environmental and science communication* is a collaboration between the environment, ecology and energy program (E3P) and the School of Journalism and Media;
2. *Environmental informatics* is a collaboration between E3P and the School of Information and Library Science;
3. *Environmental finance and leadership* is a collaboration between E3P and the School of Government;
4. *Environmental geography* is a collaboration between E3P and the Department of Geography.

Each program is designed for students to earn their bachelor's degree and complete a master's degree in a professional school or program in as few as five years:

- The dual degree in environmental and science communication is approached through the bachelor of arts degree with a major in environmental studies, and students then complete a master's degree in journalism with a focus on strategic communication or journalism. The Hussman School has one-year graduate degrees in both journalism and strategic communications (so-called +1 programs) but retain a "pipeline" for environmental studies and sciences students interested in obtaining both degrees.
- The dual degree in environmental informatics is approached through the bachelor of science degree with a major in environmental science, and students then complete a master's in information sciences (M.S.I.S.).
- The dual degree in environmental finance and leadership is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master of public administration (M.P.A.).
- The dual degree in environmental geography is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master's in geography.

Students in the last three programs may begin taking courses for the graduate degree while in the undergraduate program. In some programs, up to 12 hours of undergraduate credits can also be counted in the graduate degree. Early advising is essential to success in navigating these dual-degree programs. Advisors are available in both units to help students prepare and select courses appropriately to get the most from their education.

Applying for one of the dual-degree programs is a two-step process. It is highly recommended that interested first- and second-year students speak to an advisor early in their college program. Students must submit a conditional application to most programs no later than their junior year to ensure that they will receive preference in registering for courses.

Students must formally apply to the program through The Graduate School in their senior year. The GRE is not required for applications from current UNC–Chapel Hill students for the dual degrees in environmental science and communication, nor for the dual degrees in environmental geography; for other dual degrees students should check with their advisors about GRE requirements. For complete information on the application process and curriculum requirements, please go to the specific website listed above for the dual-degree program of interest.

In addition to the four dual-degree programs specific to collaborations with E3P, there are other dual-degree undergraduate/graduate programs developed by other UNC departments and colleges. Programs of interest include the Department of City and Regional Planning for a master's in city and regional planning (M.C.R.P.) (<https://planning.unc.edu/academics/dual-degree/bachelor/>), the Department of Public Policy for a master's in public policy (M.P.P.) (<https://publicpolicy.unc.edu/mpp-unc/>), and the Gillings School of Global Public Health (<https://sph.unc.edu/envr/bachelors-to-masters-programs/>) for a range of public health-related master's programs.

Special Opportunities in Environmental Science and Studies

Honors in Environmental Science or Studies

Students in either the B.S. or B.A. degree program may participate in honors research leading to graduation with honors or highest honors. This distinction is earned by participation in honors research (ENEC 693H) and culminates in ENEC 694H, thesis writing and defense. Students should follow the guidelines established by Honors Carolina and meet with the faculty honors advisor, Dr. Geoff Bell (<https://catalog.unc.edu/undergraduate/programs-study/environmental-studies-major-ba/gwbell@email.unc.edu>), to ensure that appropriate requirements are fulfilled. (Requirements can be found on the Honors Program website (<http://honorscarolina.unc.edu/current-students/honors-thesis-and-undergraduate-research/honors-thesis/>)). Honors students can use three credit hours of ENEC 693H (research) or ENEC 694H (thesis), but not both courses, to fulfill a concentration requirement.

Departmental Involvement

The Epsilon Eta Environmental Honors Fraternity is an organization dedicated to excellence in environmental education. Interested students are nominated for membership and membership is not limited to E3P majors. E3P faculty are involved with a number of student organizations and initiatives across campus. See UNC Heel Life (<https://heelife.unc.edu/>) for more environmental clubs at Carolina.

Experiential Education

Possibilities for experiential education include APPLES service-learning courses (ENEC 593), Coral Reef Ecology and Management (ENEC 259), internships (ENEC 393, ENEC 493), research (ENEC 395, ENEC 396, ENEC 698), and honors research (ENEC 693H, ENEC 694H).

Additionally, a series of five experiential education field sites (<https://ie.unc.edu/field-education/field-sites/>) are located in North Carolina and around the world where students may take coursework and conduct research for a semester. Fall semester field sites are offered in North Carolina at Highlands Biological Station (mountain/ecology), the Institute for Marine Sciences (marine ecology/geology), and the Coastal Studies Institute/Outer Banks (coastal policy and economics). Spring semester

field sites are offered on the UNC campus (sustainability/urban planning) and in Thailand (energy and pollution).

Summer programs are also offered in the Galapagos via UNC's Center for Galapagos Studies. Faculty members often arrange Burch Program summer educational trips to such locations as Australia (conservation, restoration, and natural resource management) and northern Europe (energy, sustainability, and communication). Contact our advisors about other opportunities — many other study abroad programs combine well with the E3P program.

Internships

Students are encouraged to apply for paid or unpaid internships in local, state, national, and international environmental organizations. Internship opportunities can be found through the Ecostudio Internship Incubator website (<https://ecostudio.unc.edu/>). These internships provide valuable practical experience, and some may be conducted for academic credit. Students interested in academic credit should contact the director of undergraduate studies, Dr. Amy Cooke (amycooke@unc.edu), or the Ecostudio, to obtain the required application for credit before the term begins. Students may also find their own internship and petition the Ecostudio to gain academic credit.

Study Abroad

Exchange and other study abroad programs are available through the UNC Study Abroad Office. At some locations students may take courses for UNC credit, such as some field sites listed above. Students may take courses at other universities during study abroad and apply for transfer credit as well. We encourage students to participate in study abroad during their career at Carolina.

Undergraduate Awards

Undergraduates may be considered for the Watts and Betsy Carr Awards, Mary and Watts Hill Jr. Awards, and Robert Alonzo Winston Scholarships.

Undergraduate Research

All students are encouraged (but not required) to complete an independent or team research project. Such projects introduce students to the tools needed for graduate study. They also provide an important opportunity for working directly with the world-class environmental faculty members and graduate students at UNC–Chapel Hill, as well as in the many environmental organizations in the Research Triangle. The Triangle area contains one of the largest collections of environmental organizations and expertise in the world, providing unique opportunities for students to conduct research on an immense range of topics from fundamental scientific research to policy applications. Students interested in obtaining course credit for research should speak with either Dr. Geoff Bell (honors advisor) or Dr. Amy Cooke (director of undergraduate studies) to ensure all the requirements and appropriate paperwork has been approved within the first week of classes.

Department Programs

Majors

- Environmental Studies Major, B.A. (p. 605)
- Environmental Science Major, B.S. (p. 614)
- Dual Bachelor's-Master's Degree Programs (p. 612)

Minors

- Environmental Science and Studies Minor (p. 622)
- Food Studies Minor (p. 623)
- Sustainability Studies Minor (p. 624)

Graduate Programs

- Doctor of Philosophy (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext>)
- Master of Science (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext>)
- Master of Arts (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext>)

heratiab@unc.edu

Environmental Science Major, B.S.

This major is designed for students focusing on such topics as how material and energy are moved and transformed in complex environmental systems, the role of society in perturbing those processes, and scientific techniques that might be used to improve environmental quality. The program provides interdisciplinary preparation for graduate or professional training as well as for jobs in government, consulting, and industry. There are two tracks available. Interested students should contact Dr. Amy Cooke (amycooke@unc.edu) to discuss which track best fits their interests and career goals.

Student Learning Outcomes

Upon completion of the environmental sciences program (B.S.), students should be able to:

- Demonstrate knowledge in the connections in social and/or natural sciences through an understanding of major concepts, theoretical reasoning, and empirical findings in environmental studies
- Demonstrate knowledge of a marketable skill (e.g. GIS, communication, statistics) to enhance their ability to apply concepts from the program in the real world
- Demonstrate mastery of research and problem-solving skills through individual or team-based projects working for a researcher or client in a social or natural science

Requirements

The environmental science program provides two options:

- Environmental Science, B.S. (p. 614) (with several concentration areas)
- Environmental Science, B.S.–Quantitative Energy Systems Track (p. 617)

Environmental Science, B.S.

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
ENEC 201	 Introduction to Environment and Society ^{H, F}	4
ENEC 203	 Introduction to Environmental Science Problem Solving	3
or EMES 203	 Data Analysis for Earth, Marine, and Environmental Sciences	
or ENEC 415	Environmental Systems Modeling	
or MATH 528	Mathematical Methods for the Physical Sciences I	
or MATH 564	Mathematical Modeling in the Life Sciences	
ENEC 698	Capstone: Analysis and Solution of Environmental Problems	3
or ENEC 694H	 Honors Project in Environmental Sciences and Studies	
One of the following earth system science courses:		3-4
BIOL 260	Introduction to Ecology ¹	
EMES 401/ BIOL 350/ ENVR 417	Oceanography	
ENEC 202	 Introduction to the Environmental Sciences	
ENEC 222	Estuarine and Coastal Marine Science ¹	
ENEC 324 & 324L	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems and  Water in Our World Laboratory ¹	
ENEC/ENVR 403	Environmental Chemistry Processes ¹	
ENEC/EMES 448	Coastal and Estuarine Ecology ¹	
ENEC 489	Ecological Processes in Environmental Systems ¹	
Two courses from one analytical skills option:		6-7
Applied Math:		
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	
MATH 383	First Course in Differential Equations ^H	
GIS and Remote Sensing:		
ANTH 419	Anthropological Application of GIS	

EMES 483	Geologic and Oceanographic Applications of Geographical Information Systems ¹	
ENEC/ENVR 468	Temporal GIS and Space/Time Geostatistics for the Environment and Public Health	
ENEC 479	Landscape Analysis ¹	
GEOG 370	Introduction to Geographic Information ¹	
GEOG 456	Geovisualizing Change	
GEOG 477	Introduction to Remote Sensing of the Environment	
GEOG/PLAN 491	Introduction to GIS	
GEOG 577	Advanced Remote Sensing	
GEOG 591	Applied Issues in Geographic Information Systems	
Statistics:		
BIOL/ENEC 562	Statistics for Environmental Scientists ¹	
BIOS 511	Introduction to Statistical Computing and Data Management	
BIOS 650	Basic Elements of Probability and Statistical Inference I	
EMES 520	Data Analysis for Earth and Marine Sciences	
EMES 525	Modelling in Earth and Marine Sciences	
STOR 455	Methods of Data Analysis	
STOR 556	Time Series Data Analysis	
Informatics		
BUSI 410	Business Analytics	
BUSI 520	Advanced Spreadsheet Modeling for Business	
INLS 161	Tools for Information Literacy	
INLS 382	Information Systems Analysis and Design	
INLS 523	Introduction to Database Concepts and Applications	
INLS 541	Information Visualization	
STOR 215	Foundations of Decision Sciences	
STOR 305	Introduction to Decision Analytics	
Five courses chosen from one of the following concentrations		15-20
Additional Requirements		
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
COMP 110	Introduction to Programming and Data Science ^H	3
or COMP 116	Introduction to Scientific Programming	
or BIOL 222	Introduction to Programming with Biological Data	
or INLS 560	Programming for Information Science	
MATH 231	Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	Calculus of Functions of One Variable II ^{H, F}	4
STOR 155	Introduction to Data Models and Inference ^F	3
or BIOS 600	Principles of Statistical Inference	
Select one of the following:		8

BIOL 101 & 101L & BIOL 104	Principles of Biology and Introductory Biology Laboratory and Biodiversity ^{H, H, F}	
PHYS 118 & PHYS 119	Introductory Calculus-based Mechanics and Relativity and Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	
PHYS 114 & PHYS 115	General Physics I: For Students of the Life Sciences and General Physics II: For Students of the Life Sciences ^F	

Students are required to earn a minor in an allied science, such as biology, chemistry, computer science, geography, geographic information sciences, geology, information science, marine science, mathematics, physics, or statistics and analytics.

Enough free electives to accumulate minimum of 120 credit hours.² ^{varies}

Total Hours **120**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ These courses appear in the major core, concentrations and additional requirements, but can only be counted toward one of the three.

² Recommended courses are ECON 101; ENEC 202; one of the following PH courses: COMM 375/ENEC 375, ENEC 325, or ENEC 368/PHIL 368; and one of the following statistics courses: BIOS 511 or ENEC 562 or STOR 455.

Ecology and Natural Resources Concentration

Code	Title	Hours
BIOL/ENEC 256	Mountain Biodiversity	4
BIOL 260	Introduction to Ecology ¹	3
BIOL/ENEC 272	Local Flora	3
BIOL 277 & 277L	Vertebrate Field Zoology and Vertebrate Field Zoology Laboratory	4
BIOL 402	Infectious Disease in the Developing World	3
BIOL/ENEC 461	Fundamentals of Ecology	4
BIOL 462/EMES 440	Marine Ecology	3
BIOL 463	Field Ecology	4
BIOL 464	Global Change Biology	3
BIOL 465	Global Biodiversity and Macroecology	3
BIOL 469	Behavioral Ecology	3
BIOL 471 & 471L	Evolutionary Mechanisms and Evolutionary Mechanisms Laboratory	4
BIOL 476 & 476L	Avian Biology and Avian Biology Laboratory	4
BIOL 561	Ecological Plant Geography	3

BIOL/ENEC 562	Statistics for Environmental Scientists ¹	4
BIOL/ENEC 563	Statistical Analysis in Ecology and Evolution	4
BIOL 565	Conservation Biology ^H	3
BIOL 568H	Disease Ecology and Evolution	3
BIOL 657/ ENVR 520/ EMES 507	Biological Oceanography	4
EMES 443	Marine Microbiology	3
ENEC 222	Estuarine and Coastal Marine Science ¹	4
ENEC/GEOG 264	Conservation of Biodiversity in Theory and Practice	3
ENEC 304	Restoration Ecology	4
ENEC 324 & 324L	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems and  Water in Our World Laboratory ¹	4
ENEC/EMES 352	Marine Fisheries Ecology	3
ENEC 370	Agriculture and the Environment ^H	3
ENEC 395	 Research in Environmental Sciences and Studies for Undergraduates	1-3
ENEC/EMES 433	Wetland Hydrology	3
ENEC/EMES 441	Marine Physiological Ecology	3
ENEC/EMES 444/ BIOL 456	Marine Phytoplankton	3
ENEC/EMES 448	Coastal and Estuarine Ecology ¹	4
ENEC/EMES 450	Biogeochemical Processes	4
ENEC 462	Ecosystem Management	3
ENEC/EMES 471	Human Impacts on Estuarine Ecosystems	4
ENEC 479	Landscape Analysis ¹	3
ENEC 485	Coastal Resource Economics and Policy	3-4
ENEC 489	Ecological Processes in Environmental Systems ¹	4
GEOG 444	Landscape Biogeography	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ These courses appear in the major core, concentrations, and additional requirements, but can only be counted toward one of the three.

Environment and Health Concentration

Code	Title	Hours
BIOL 402	Infectious Disease in the Developing World	3
BIOL 568H	Disease Ecology and Evolution	3
CHEM 261	Introduction to Organic Chemistry I ^{1, H}	3
EMES 443	Marine Microbiology	3
ENEC 222	Estuarine and Coastal Marine Science ¹	4
ENEC/EMES 324	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems ¹	3
ENEC 325	 Water Resource Management and Human Rights ^H	3-4
ENEC 395	 Research in Environmental Sciences and Studies for Undergraduates	1-3
ENEC/ENVR 403	Environmental Chemistry Processes ¹	3

ENEC/EMES 444/ BIOL 456	Marine Phytoplankton	3
ENEC/ENVR 522	Environmental Change and Human Health	3
ENVR 412	Ecological Microbiology	3
ENVR 413	Limnology	3
ENVR 416	Aerosol Physics and Chemistry	4
ENVR 419	Chemical Equilibria in Natural Waters	3
ENVR 421	Environmental Health Microbiology	3
ENVR 430	Health Effects of Environmental Agents	3
ENVR 431	Techniques in Environmental Health Sciences	2
ENVR 451	Introduction to Environmental Modeling	3
ENVR 600	Environmental Health	3
EPID 600	Principles of Epidemiology for Public Health	3
PATH 128	Biology of Human Disease	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ These courses appear in the major core, concentrations, and additional requirements but can only be counted toward one of the three.

Water and Climate Concentration

Code	Title	Hours
BIOL 350/ ENVR 417/ EMES 401	Oceanography	3
EMES 306	 Earth Systems History	3
EMES 314	 Earth Systems in a Changing World	3
EMES 431	Major World Rivers and Global Change: From Mountains to the Sea	3
EMES 432	Paleoclimatology	3
EMES/ENEC 433	Wetland Hydrology	3
EMES/ENEC 435	Principles of Environmental Consulting: Mechanics of Groundwater Flow	3
EMES 436	Geochemistry of Natural Waters	3
EMES 483	Geologic and Oceanographic Applications of Geographical Information Systems	4
EMES 506	Physical Oceanography	4
EMES 508	Global Hydrology	3
ENEC 222	Estuarine and Coastal Marine Science ¹	4
ENEC/GEOG 253	Introduction to Atmospheric Processes	4
ENEC/EMES 324	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems ¹	3
ENEC 395	 Research in Environmental Sciences and Studies for Undergraduates	1-3
ENEC/ENVR 403	Environmental Chemistry Processes ¹	3
ENEC/EMES 411	Oceanic Processes in Environmental Systems	4
ENEC/EMES 415	Environmental Systems Modeling	3
EMES 434	Blue Carbon and Coastal Environments	3
EMES 503	Marine Geology	4
ENEC/EMES 417	Surface Processes and Landscape Evolution	4
ENEC/EMES 450	Biogeochemical Processes	4

ENVR 413	Limnology	3
ENVR 416	Aerosol Physics and Chemistry	4
ENVR 419	Chemical Equilibria in Natural Waters	3
ENVR 453	Groundwater Hydrology	3
GEOG 370	 Introduction to Geographic Information ¹	3
GEOG 412	Synoptic Meteorology	3
GEOG 414	 Climate Change	3
GEOG 416	 Applied Climatology: The Impacts of Climate and Weather on Environmental and Social Systems	3
GEOG 440/ EMES 502	Earth Surface Processes	3

¹ These courses appear in the major core, concentrations, and additional requirements, but can only be counted toward one of the three.

Environmental Science, B.S. – Quantitative Energy Systems Track

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

This major is designed for students with a strong interest in water, energy, and sustainable natural resources, and interdisciplinary approaches to analytics, informatics, or business. The degree provides interdisciplinary preparation for graduate or professional training as well as for jobs in government, consulting, and industry.

Code	Title	Hours
Core Requirements		
ENEC 201	 Introduction to Environment and Society ^{H, F}	4
ENEC 203	 Introduction to Environmental Science Problem Solving	3
or EMES 203	 Data Analysis for Earth, Marine, and Environmental Sciences	
or ENEC 415	Environmental Systems Modeling	
or MATH 528	Mathematical Methods for the Physical Sciences I	
or MATH 564	Mathematical Modeling in the Life Sciences	
ENEC 698	Capstone: Analysis and Solution of Environmental Problems	3
or ENEC 694H	 Honors Project in Environmental Sciences and Studies	

Two courses each from two of the following quantitative skills (4 courses total)

Informatics	
BUSI 410	Business Analytics

BUSI 520	Advanced Spreadsheet Modeling for Business
INLS 161	Tools for Information Literacy
INLS 382	Information Systems Analysis and Design
INLS 523	Introduction to Database Concepts and Applications
INLS 541	Information Visualization
STOR 215	 Foundations of Decision Sciences
STOR 305	 Introduction to Decision Analytics
Applied Mathematics	
MATH 347	Linear Algebra for Applications
MATH 381	Discrete Mathematics ^H
MATH 383	First Course in Differential Equations ^H
MATH 528	Mathematical Methods for the Physical Sciences I
MATH 535	Introduction to Probability
MATH 564	Mathematical Modeling in the Life Sciences
PHYS 331	Numerical Techniques for the Sciences I ¹
Statistics	
BIOS 511	Introduction to Statistical Computing and Data Management
ENEC 562	Statistics for Environmental Scientists
ENEC 563	Statistical Analysis in Ecology and Evolution
EMES 520	Data Analysis for Earth and Marine Sciences
EMES 525	Modelling in Earth and Marine Sciences
STOR 455	Methods of Data Analysis
STOR 435	Introduction to Probability
STOR 556	Time Series Data Analysis
Basic Science	
BIOL 260	Introduction to Ecology
BIOL 271	 Plant Biology
CHEM 261	Introduction to Organic Chemistry I ^H
PHYS 114	 General Physics I: For Students of the Life Sciences ^{1, F}
or PHYS 118	 Introductory Calculus-based Mechanics and Relativity
PHYS 115	 General Physics II: For Students of the Life Sciences ^F
or PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta
Modeling	
BIOL 222	 Introduction to Programming with Biological Data
COMP 211	Systems Fundamentals
COMP 283	 Discrete Structures ^H
or MATH 381	Discrete Mathematics
ENEC 415	Environmental Systems Modeling
ENEC/ENVR/ PLAN 635	Energy Modeling for Environment and Public Health

EMES 483	Geologic and Oceanographic Applications of Geographical Information Systems	
ENEC/ENVR 468	Temporal GIS and Space/Time Geostatistics for the Environment and Public Health	
Four courses from one of the following concentrations		12-16
Energy Management		
ENEC 307	Energy and Material Flows in the Environment and Society	
ENEC 395	Research in Environmental Sciences and Studies for Undergraduates ¹	
	or ENEC 396 Directed Readings	
ENEC 407	Principles of Energy Conversion	
ENEC 432	Environmental Life Cycle Assessment	
ENEC 481	Energy Economics	
ENEC 482	Energy and the Environment: A Coastal Perspective	
ENEC 693H	Honors Research in Environmental Sciences and Studies ¹	
	or ENEC 694H Honors Project in Environmental Sciences and Studies	
ENVR/ENEC 403	Environmental Chemistry Processes ¹	
PHYS 131	Energy: Physical Principles and the Quest for Alternatives to Dwindling Oil and Gas	
PHYS 381	Renewable Electric Power Systems	
PLAN/ENEC 547	Energy, Transportation, and Land Use	
PLAN/ENEC/ENVR 548	Sustainable Energy Systems	
PLAN/ENEC/ENVR 635	Energy Modeling for Environment and Public Health	
Environmental Processes		
ENEC 202	Introduction to the Environmental Sciences	
ENEC 222	Estuarine and Coastal Marine Science	
ENEC 256	Mountain Biodiversity	
ENEC 304	Restoration Ecology	
ENEC 352	Marine Fisheries Ecology	
ENEC 370	Agriculture and the Environment ^H	
ENEC 395	Research in Environmental Sciences and Studies for Undergraduates ¹	
	or ENEC 396 Directed Readings	
ENEC 462	Ecosystem Management	
ENEC 489	Ecological Processes in Environmental Systems	
ENEC 693H	Honors Research in Environmental Sciences and Studies ¹	
	or ENEC 694 Honors Project in Environmental Sciences and Studies	
ENVR/ENEC 403	Environmental Chemistry Processes ¹	
EMES 431	Major World Rivers and Global Change: From Mountains to the Sea	
EMES/ENEC 433	Wetland Hydrology	
EMES/ENEC 450	Biogeochemical Processes	
EMES/ENEC 435	Principles of Environmental Consulting: Mechanics of Groundwater Flow	
EMES 436	Geochemistry of Natural Waters	
EMES 508	Global Hydrology	
EMES 520	Data Analysis for Earth and Marine Sciences	
EMES 525	Modelling in Earth and Marine Sciences	
GEOG 410	Modeling of Environmental Systems	
GEOG 412	Synoptic Meteorology	
GEOG 414	Climate Change	
GEOG 416	Applied Climatology: The Impacts of Climate and Weather on Environmental and Social Systems	
GEOG 441	Introduction to Watershed Systems	
Smart Cities		
ENEC 325	Water Resource Management and Human Rights ^H	
ENEC 350	Environmental Law and Policy	
ENEC 351	Coastal Law and Policy	
ENEC 380	Environmental Economics	
ENEC 395	Research in Environmental Sciences and Studies for Undergraduates ¹	
	or ENEC 396 Directed Readings	
ENEC/PLAN 420	Community Design and Green Architecture	
ENEC 485	Coastal Resource Economics and Policy	
ENEC 492	Social Science Research Methods	
ENEC 693H	Honors Research in Environmental Sciences and Studies ¹	
	or ENEC 694 Honors Project in Environmental Sciences and Studies	
PLAN/ENEC 547	Energy, Transportation, and Land Use	
PLAN 636	Urban Transportation Planning	
PLAN 637	Public Transportation	
PLAN 638	Pedestrian and Bike Transportation	
PLAN 639	Complete, Safe, Equitable Streets	
PLAN/ENEC 641	Watershed Planning	
PLAN 651	Urban Form and the Design of Cities	
PLAN 652	Site Planning and Urban Design	
PLAN 655	Planning for Natural Hazards and Climate Risk	

PLAN 672	Urban Data Analytics	
PUBA/PLAN/ ENVR 787	Applied Environmental Finance: How to Pay for Environmental Services	
Additional Requirements		
COMP 110	Introduction to Programming and Data Science ^{1, H}	3-4
or COMP 116	Introduction to Scientific Programming	
or PHYS 331	Numerical Techniques for the Sciences I	
or BIOL 222	Introduction to Programming with Biological Data	
Select from one of the following course options: ^{1,2} 7-8		
BIOL 101 & 101L & BIOL 104	Principles of Biology and Introductory Biology Laboratory and Biodiversity ^{H, F}	
CHEM 101 & 101L & CHEM 102 & CHEM 102L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I and General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	
PHYS 114 & PHYS 115	General Physics I: For Students of the Life Sciences and General Physics II: For Students of the Life Sciences ^F	
PHYS 118 & PHYS 119	Introductory Calculus-based Mechanics and Relativity and Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	
MATH 231	Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	Calculus of Functions of Several Variables ^{H, F}	4
STOR 155	Introduction to Data Models and Inference ^F	3
or BIOS 600	Principles of Statistical Inference	
Enough General Education courses and free electives to satisfy 12051-61 credit hours.		
Total Hours		120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ The following courses are listed under multiple requirements in the major but can only be used to fulfill one requirement per course: BIOL 222 (<https://catalog.unc.edu/search/?search=BIOL+222>), ENEC 395, ENEC 415, ENEC 396, PLAN/ENEC/ENVR 635 (<https://catalog.unc.edu/search/?search=enec+635>), ENEC 693H, ENEC 694H, ENVR 403/ENEC 403, PHYS 114, PHYS 115, PHYS 118, PHYS 119, PHYS 331.

² Courses to be taken in a series; e.g., CHEM 101+L and CHEM 102+L.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Suggested Program of Study for B.S. Major

First Year	Hours
First-Year Foundation Courses	
IDST 101	College Thriving 1
ENGL 105	English Composition and Rhetoric 3
or ENGL 105I	English Composition and Rhetoric (Interdisciplinary)
First-Year Seminar or First-Year Launch (p. 1202) ^F	3
Triple-I and Data Literacy (p. 1210)	4
Global Language through level 3 (p. 1211) ¹	3-4
Major Courses	
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F} 4
ENEC 201	Introduction to Environment and Society ^{H, F} 4
MATH 231	Calculus of Functions of One Variable I ^{H, F} 4
MATH 232	Calculus of Functions of One Variable II ^{H, F} 4
STOR 155	Introduction to Data Models and Inference ^F 3
Additional Courses	
Lifetime Fitness (p. 1269)	1
Hours	34-35
Sophomore Year	
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F} 4
ENEC 203	Introduction to Environmental Science Problem Solving 3
or EMES 203	Data Analysis for Earth, Marine, and Environmental Sciences
or ENEC 415	Environmental Systems Modeling
or MATH 528	Mathematical Methods for the Physical Sciences I
or MATH 564	Mathematical Modeling in the Life Sciences
One environmental concentration course	3
One earth system science core	3-4
BIOL 101 & 101L	Principles of Biology ^{H, F} 4
or PHYS 114	General Physics I: For Students of the Life Sciences
or PHYS 118	Introductory Calculus-based Mechanics and Relativity

BIOL 104 or PHYS 115 or PHYS 119	Biodiversity ^F or General Physics II: For Students of the Life Sciences or Introductory Calculus-based Electromagnetism and Quanta	3-4
COMP 110 or COMP 116 or BIOL 222 or INLS 560	Introduction to Programming and Data Science ^H or Introduction to Scientific Programming or Introduction to Programming with Biological Data or Programming for Information Science	3
Electives or IDEAs in Action Requirements		6
Hours		29-31
Junior Year		
Two courses from the analytical skills core		6
Three courses from environmental concentration core		9
Two courses from a minor field		6
Electives or IDEAs in Action Requirements		9
Hours		30
Senior Year		
ENEC 698 or ENEC 694H	Capstone: Analysis and Solution of Environmental Problems or Honors Project in Environmental Sciences and Studies	3
Remaining environmental concentration core		3
Remaining minor field courses		9
Remaining Electives or IDEAs in Action Requirements to meet 120 academic hour minimum		11
Hours		26
Total Hours		119-122

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students may wish to consider completing their GLOBE-LANG (p. 1211) requirement over the summer, in the second year, or through transfer credit to allow for taking fewer hours per semester in the first year.

Suggested Program of Study for the Quantitative Energy Systems Track

First Year	Hours
ENEC 201 Introduction to Environment and Society ^{H, F}	4
STOR 155 Introduction to Data Models and Inference ^F	3
CHEM 101 & 101L General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F}	4

CHEM 102 & 102L General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
MATH 231 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232 Calculus of Functions of One Variable II ^{H, F}	4
Language levels 2 and 3	6
Lifetime fitness	1
ENGL 105 English Composition and Rhetoric	3

Hours **33**

Sophomore Year

ENEC 203 Introduction to Environmental Science Problem Solving or EMES 203 Data Analysis for Earth, Marine, and Environmental Sciences or ENEC 415 Environmental Systems Modeling or MATH 528 Mathematical Methods for the Physical Sciences I or MATH 564 Mathematical Modeling in the Life Sciences	3
MATH 233 Calculus of Functions of Several Variables ^{H, F}	4

COMP 110 Introduction to Programming and Data Science ^{1, H} or BIOL 222 Introduction to Programming with Biological Data or COMP 116 Introduction to Scientific Programming or PHYS 331 Numerical Techniques for the Sciences I	3
Two courses from quantitative skills	6
Additional General Education courses and free electives	15

Hours **31**

Junior Year

COMP 110 Introduction to Programming and Data Science ^{1, H} or BIOL 222 Introduction to Programming with Biological Data or COMP 116 Introduction to Scientific Programming or PHYS 331 Numerical Techniques for the Sciences I	3
Two courses from environmental concentration courses	6
Two courses from quantitative skills	6
Additional General Education courses and free electives	15

Hours **30**

Senior Year

ENEC 698 Capstone: Analysis and Solution of Environmental Problems or ENEC 694H Honors Project in Environmental Sciences and Studies	3
Remaining environmental concentration courses	6
Remaining General Education courses and free electives to reach at least 120 academic credit hours	17

Hours **26**

Total Hours **120**

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Dual Bachelor's–Master's Degree Program

Four dual bachelor's–master's programs are offered:

1. *Environmental and science communication* is a collaboration between the environment, ecology and energy program (E3P) and the School of Journalism and Media;
2. *Environmental informatics* is a collaboration between E3P and the School of Information and Library Science;
3. *Environmental finance and leadership* is a collaboration between E3P and the School of Government;
4. *Environmental geography* is a collaboration between E3P and the Department of Geography.

Each program is designed for students to earn their bachelor's degree and complete a master's degree in a professional school or program in as few as five years:

- The dual degree in environmental and science communication is approached through the bachelor of arts degree with a major in environmental studies, and students then complete a master's degree in journalism with a focus on strategic communication or journalism. The Hussman School has one-year graduate degrees in both journalism and strategic communications (so-called +1 programs) but retain a "pipeline" for environmental studies and sciences students interested in obtaining both degrees.
- The dual degree in environmental informatics is approached through the bachelor of science degree with a major in environmental science, and students then complete a master's in information sciences (M.S.I.S.).
- The dual degree in environmental finance and leadership is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master of public administration (M.P.A.).
- The dual degree in environmental geography is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master's in geography.

Students in the last three programs may begin taking courses for the graduate degree while in the undergraduate program. In some programs, up to 12 hours of undergraduate credits can also be counted in the graduate degree. Early advising is essential to success in navigating these dual-degree programs. Advisors are available in both units to help students prepare and select courses appropriately to get the most from their education.

Applying for one of the dual-degree programs is a two-step process. It is highly recommended that interested first- and second-year students speak to an advisor early in their college program. Students must submit a conditional application to most programs no later than their junior year to ensure that they will receive preference in registering for courses.

Students must formally apply to the program through The Graduate School in their senior year. The GRE is not required for applications from current UNC–Chapel Hill students for the dual degrees in environmental science and communication, nor for the dual degrees in environmental geography; for other dual degrees students should check with their advisors about GRE requirements. For complete information on the application process and curriculum requirements, please go to the specific website listed above for the dual-degree program of interest.

In addition to the four dual-degree programs specific to collaborations with E3P, there are other dual-degree undergraduate/graduate programs developed by other UNC departments and colleges. Programs of interest include the Department of City and Regional Planning for a master's in city and regional planning (M.C.R.P.) (<https://planning.unc.edu/academics/dual-degree/bachelor/>), the Department of Public Policy for a master's in public policy (M.P.P.) (<https://publicpolicy.unc.edu/mpp-unc/>), and the Gillings School of Global Public Health (<https://sph.unc.edu/envr/bachelors-to-masters-programs/>) for a range of public health-related master's programs.

Special Opportunities in Environmental Science and Studies

Honors in Environmental Science or Studies

Students in either the B.S. or B.A. degree program may participate in honors research leading to graduation with honors or highest honors. This distinction is earned by participation in honors research (ENEC 693H) and culminates in ENEC 694H, thesis writing and defense. Students should follow the guidelines established by Honors Carolina and meet with the faculty honors advisor, Dr. Geoff Bell (<https://catalog.unc.edu/undergraduate/programs-study/environmental-science-bs/gwbell@email.unc.edu>), to ensure that appropriate requirements are fulfilled. (Requirements can be found on the Honors Program website (<http://honorscarolina.unc.edu/current-students/honors-thesis-and-undergraduate-research/honors-thesis/>)). Honors students can use three credit hours of ENEC 693H (research) or ENEC 694H (thesis), but not both courses, to fulfill a concentration requirement.

Departmental Involvement

The Epsilon Eta Environmental Honors Fraternity is an organization dedicated to excellence in environmental education. Interested students are nominated for membership and membership is not limited to E3P majors. E3P faculty are involved with a number of student organizations and initiatives across campus. See UNC Heel Life (<https://heelife.unc.edu/>) for more environmental clubs at Carolina.

Experiential Education

Possibilities for experiential education include APPLES service-learning courses (ENEC 593), Coral Reef Ecology and Management (ENEC 259), internships (ENEC 393, ENEC 493), research (ENEC 395, ENEC 396, ENEC 698), and honors research (ENEC 693H, ENEC 694H).

Additionally, a series of five experiential education field sites (<https://ie.unc.edu/field-education/field-sites/>) are located in North Carolina and around the world where students may take coursework and conduct research for a semester. Fall semester field sites are offered in North Carolina at Highlands Biological Station (mountain/ecology), the Institute for Marine Sciences (marine ecology/geology), and the Coastal Studies Institute/Outer Banks (coastal policy and economics). Spring semester field sites are offered on the UNC campus (sustainability/urban planning) and in Thailand (energy and pollution).

Summer programs are also offered in the Galapagos via UNC's Center for Galapagos Studies. Faculty members often arrange Burch Program summer educational trips to such locations as Australia (conservation, restoration, and natural resource management) and northern Europe (energy, sustainability, and communication). Contact our advisors about other opportunities — many other study abroad programs combine well with the E3P program.

Internships

Students are encouraged to apply for paid or unpaid internships in local, state, national, and international environmental organizations. Internship opportunities can be found through the Ecostudio Internship Incubator website (<https://ecostudio.unc.edu/>). These internships provide valuable practical experience, and some may be conducted for academic credit. Students interested in academic credit should contact the director of undergraduate studies, Dr. Amy Cooke (amycooke@unc.edu), or the Ecostudio, to obtain the required application for credit before the term begins. Students may also find their own internship and petition the Ecostudio to gain academic credit.

Study Abroad

Exchange and other study abroad programs are available through the UNC Study Abroad Office. At some locations students may take courses for UNC credit, such as some field sites listed above. Students may take courses at other universities during study abroad and apply for transfer credit as well. We encourage students to participate in study abroad during their career at Carolina.

Undergraduate Awards

Undergraduates may be considered for the Watts and Betsy Carr Awards, Mary and Watts Hill Jr. Awards, and Robert Alonzo Winston Scholarships.

Undergraduate Research

All students are encouraged (but not required) to complete an independent or team research project. Such projects introduce students to the tools needed for graduate study. They also provide an important opportunity for working directly with the world-class environmental faculty members and graduate students at UNC—Chapel Hill, as well as in the many environmental organizations in the Research Triangle. The Triangle area contains one of the largest collections of environmental organizations and expertise in the world, providing unique opportunities for students to conduct research on an immense range of topics from fundamental scientific research to policy applications. Students interested in obtaining course credit for research should speak with either Dr. Geoff Bell (honors advisor) or Dr. Amy Cooke (director of undergraduate studies) to ensure all the requirements and appropriate paperwork has been approved within the first week of classes.

Department Programs

Majors

- Environmental Studies Major, B.A. (p. 605)
- Environmental Science Major, B.S. (p. 614)
- Dual Bachelor's-Master's Degree Programs (p. 612)

Minors

Environmental Science and Studies Minor

The minor is designed for students wishing to remain in another discipline but having an interest in the environment as an area of application. Students must take two core courses designed as preliminary courses in the scientific and societal dimensions of environmental issues and problems and in the tools for their solution.

Students who major in the B.A. or B.S. environmental degree programs are not allowed to minor in environmental science and studies.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC—Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
ENEC 201	 Introduction to Environment and Society ^{H, F}	4
ENEC 202	 Introduction to the Environmental Sciences	4
Three additional ENEC courses (at least one at the 400 level or higher)		9-12
Total Hours		17-20

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Environment, Ecology, and Energy (ENEC) course descriptions (p. 594).

Students must see an ENEC advisor to discuss potential courses. Depending on the courses selected, the minor requires between 17 and 20 credit hours.

See the program page here (p. 613) for special opportunities.

Food Studies Minor

Food studies is an interdisciplinary field that examines the relationship between food and all aspects of the human experience, including culture and biology, individuals and society, global pathways and local contexts.

The minor invites the growing number of students interested in food to advance their studies across a broad range of curricula. The program provides a curricular offering and intellectual framework to complement the co-curricular energy around food on campus, increasing the rigor and discipline with which students use food as a lens for exploration and critical thinking.

The minor is available to students accepted into Honors Carolina and to any undergraduate student who has achieved and maintains a grade point average of 3.00 or better.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The minor requires five (5) courses.

Code	Title	Hours
Core Requirements		
NUTR 175	 Introduction to Food Studies: From Science to Society	3
Select four (4) electives from the following list (at least one at the 300 level or higher) ¹		12
AMST 75	 First-Year Seminar: Food and the Media ²	
AMST 275	 Food and American Culture	
AMST/FOLK 375	 Critical Issues in Contemporary Food Studies	
ANTH 151	 Anthropological Perspectives on Food and Culture	
ANTH 252	 Archaeology of Food	
ANTH 459	Ecological Anthropology	
ANTH 551	Origins of Agriculture in the Ancient World	
ASIA 52	 First-Year Seminar: Food in Chinese Culture ²	
ASIA 63	 First-Year Seminar: Japanese Tea Culture ²	
BIOL 53	 First-Year Seminar: Biotechnology: Genetically Modified Foods to the Sequence of the Human Genome ²	
BIOL 221 & 221L	 Seafood Forensics and  Seafood Forensics Laboratory	
COMM 82	 First-Year Seminar: Food Politics from an Organizational Communication Perspective ²	
COMM 625	 Communication and Nonprofits in the Global Context	
ENEC/ANTH 237	 Food, Environment, and Sustainability	
ENEC 370	Agriculture and the Environment ^H	
EXSS 360	Sports Nutrition	

FREN 186	 Food for Thought: Cultures of Cuisine in Modern France
GEOG 232	 Agriculture, Food, and Society
GEOG 293	 Freedom Farming
HIST 325	Food and History
HNRS 330	Is Dinner "Sustainable" - A Human Dilemma (The Honors Carolina Global Food Program Seminar)
IDST 119	 Triple-I: Food: People, Politics, and Policies ²
IDST 130	 Triple-I: The Future of Food ²
ITAL 365	 Italian Food and Culture
JAPN 411	Food and Culture in Japan
NUTR 240	Introduction to Human Nutrition
NUTR 250	Global Sustainable Food Systems
NUTR 245	Sustainable Local Food Systems: Intersection of Local Foods and Public Health
NUTR 630	Nutrition Communication and Culture
PLCY 362	 Ethics and Food Policy
PLCY/ENEC 475	The Political Economy of Food ^H
SOCI 430	Sociology of Food and Food Justice
Total Hours	15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Some courses may require a prerequisite(s). See course description for details.

² No more than one First-Year Seminar or Triple-I course may be used as an elective in the minor.

Additional courses can be applied to the requirements with the approval of the program advisor.

Graduate School and Career Opportunities

The minor in food studies, in combination with a student's major of interest, prepares students for a variety of careers in health and nutrition, arts and culture, media and journalism, health affairs policy and program management, social services, the academy, entrepreneurship and intrapreneurship, environmental work and sustainability, and consulting. The minor may also be of value for those planning postgraduate studies.

Sustainability Studies Minor

The program provides an understanding of sustainability, a unifying approach to human and environmental problems. Sustainable businesses, communities, and other organizations seek to design systems in ways that optimize material and energy use to decrease environmental and health problems and to bolster economic vitality and social equity. A growing number of scholars are framing problems and solutions in the language of sustainability, which balances growth and development with justice and environmental stewardship in order to meet today's needs without undermining the ability of future generations to do the same.

Students who major in the B.A. or B.S. environmental degree programs are not allowed to minor in sustainability studies.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
ENEC/PLAN 330	Principles of Sustainability ¹	3
or ENEC 201	 Introduction to Environment and Society	
or ENEC 431	Sustainable Cities: Exploring Ways of Making Cities More Sustainable

Department of Environmental Sciences and Engineering

Introduction

The Department of Environmental Sciences and Engineering combines the physical sciences, health sciences, engineering, and policy to develop solutions to current and emerging environmental challenges, both globally and locally. This includes climate and environmental change, emerging contaminants, infectious agents, and their impacts on health and equity. This multidisciplinary approach provides unique academic and research opportunities for students. Our undergraduate degree focuses on the environmental health sciences, with specific concentrations in environmental chemistry, environmental health biology, and environmental physics and opportunities to take specialized courses or conduct research in areas of particular interest.

Advising

Students benefit from advising by a professional academic coordinator who works closely with the director for undergraduate studies. Undergraduate students are encouraged to schedule a personal advising session each semester to review their course of study. These professionals will work with current and prospective majors (see contact information above). The academic coordinator verifies that coursework requirements for the concentration have been met. Departmental academic advising is particularly important for those majors who are considering going on to an accelerated bachelor's-to-master's program. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate degrees may be obtained from the department's (<http://sph.unc.edu/envr/environmental-sciences-and-engineering-home/>) website (<http://sph.unc.edu/envr/environmental-sciences-and-engineering-home/>).

and-engineering-home/) website (<http://sph.unc.edu/envr/environmental-sciences-and-engineering-home/>).

Each student is also assigned a faculty mentor from the department of Environmental Sciences and Engineering. Faculty mentors collaborate with students to define academic, career and personal goals and assist students in identifying research and internship opportunities.

Facilities

The Department of Environmental Sciences and Engineering houses research laboratories located in Rosenau Hall, McGavran-Greenberg Hall, and Michael Hooker Research Center. These laboratories are involved in important research in climate change energy and health, water quality, atmospheric chemistry and air pollution, risk assessment of environmental exposures, effects of environmental chemicals on birth outcome, children's and chronic health, environmental and public health microbiology, and occupational health and safety.

The department also offers facilities for modeling and computational analysis of environmental systems, such as infectious disease transmission, atmospheric circulation and air quality models, ground and surface water flow and transport models, fluid flow and contaminant transport models for indoor air environments, computational toxicology, exposure analysis and health effects, risk assessment, and environmental epidemiology.

More detailed information about the individual laboratories and centers can be found at the department website (<http://www.sph.unc.edu/envr/>).

Graduate School and Career Opportunities

While undergraduate education prepares students for citizenship in ways that go beyond professional concerns, the program in environmental health sciences also provides skills needed for employment and graduate study. Students ending their studies at the undergraduate level gain skills necessary to work in positions such as risk analysts in consulting firms and regulatory agencies; research assistants in research laboratories; environmental health specialists in local, state, and national environmental and environmental health departments; and scientific advisors to environmental organizations. The degree also prepares students for graduate study in the environmental sciences, environmental health sciences, environmental studies, toxicology, and professional disciplines such as medicine, dentistry, veterinary medicine, environmental law, and public health.

Undergraduate students with appropriate science backgrounds have the opportunity to pursue an accelerated bachelor's-to-master's program. This program allows students to complete a master's degree in the department in an accelerated time frame. With advance planning many students complete the bachelors plus masters within five years or five years and a summer. Interested students should read the program description and requirements (<http://sph.unc.edu/envr/envr-degrees/>) carefully.

Students have opportunities to explore possibilities for employment through the rich network of connections among the department, University, and numerous environmental organizations in the Research Triangle Park area, which is home to the highest concentration of environmental health sciences groups in the nation.

Major

- Environmental Health Sciences Major, B.S.P.H. (p. 635)

Minor

- Engineering for Environmental Change, Climate, and Health Minor (p. 640)

Following the faculty member's name is a section number that students should use when registering for independent studies, reading, research, and thesis and dissertation courses with that particular professor.

Professors

John M. Bane Jr., Marine Sciences, Physical Oceanography

Joe Brown (137), Water and Sanitation, Environmental Health Microbiology; Director, Engineering Programs

Gregory W. Characklis (98), Water Resources Engineering, Economics and Management; Director, Center on Financial Risk in Environmental Systems

Orlando Coronell (10), Physical and Chemical Processes for Water Treatment, Membrane Technology, Granular Sorbents; Associate Chair for Academics

Rebecca C. Fry (7), Toxicogenomics, Genetic Toxicology; Director, Institute for Environmental Health Solutions; Director, Institute for Environmental Health Solutions; Department Chair (Interim)

Avram Gold (43), Environmental Chemistry

Bill Gray, Hydrology, Porous Media Flow, Environmental Thermodynamics

Ilona Jaspers (99), Health Effects of Air Pollution in the Lung; Deputy Director, Center for Environmental Medicine, Asthma, and Lung Biology

Richard A. Luettich Jr. (68), Marine Sciences, Coastal Physics, Hurricane Storm Surge Modeling; Director, Institute of Marine Science

Christopher S. Martens (92), Marine Sciences, Biogeochemistry

Cass T. Miller (59), Porous Medium Systems, Environmental Physics, Environmental Modeling

Glenn Morrison (124), Indoor Air, Surface Chemistry, Human Exposure

Rachel T. Noble (110), Marine Microbial Ecology, Water Quality Microbiology, Non-Point Source (e.g., Storm Water), Contamination of Receiving Waters

Leena A. Nylander-French (95), Skin and Inhalation Exposures to Toxicants, Exposure Modeling; Director, Occupational Safety and Health Education and Research Center

Jill R. Stewart (26), Water Quality Microbiology, Ecological Assessment and Prediction

Jason Surratt (30), Atmospheric Chemistry, Secondary Organic Aerosols, Heterogeneous Chemistry, Air Pollution

Barbara J. Turpin (32), Atmospheric Chemistry, Air Pollution and Human Exposure

William Vizuete (6), Atmospheric Modeling, Air Pollution, Environmental Engineering, Atmospheric Chemistry

Paul B. Watkins, Director, General Clinical Research Center, UNC Hospitals

Howard S. Weinberg (96), Aquatic Chemistry, Environmental Analytical Chemistry, Drinking Water Treatment, Occurrence, Fate, and Transport of Chemical Pollutants

J. Jason West (16), Air Pollution, Climate Change, Atmospheric Modeling, Global Health, Environmental Policy, Environmental Engineering; Director, Graduate Studies

Dale Whittington (70), Water Resources Economics, International Development

Associate Professors

Kun Lu (37), Microbiome, Exposome, Omics Profiling (Metabolomics, Proteomics, Lipidomics), DNA Adducts, Biomarker Development, Cancer, Chronic Inflammation, Children's Health

Amanda Northcross (134), Exposure Assessment, Air Pollution, Global Health; Director, Undergraduate Studies (B.S.P.H. and Assured Enrollment Programs)

Marc L. Serre (100), Space/Time Statistics, Exposure Assessment, Environmental Modeling, Hydrology, Geostatistics, GIS, Environmental Epidemiology, Risk Assessment, Medical Geography

John Staley (135), Occupational Health and Safety; NC OSHERC; NIOSH Center for Excellence: the Carolina Center for Healthy Work Design and Worker Well-Beings

Courtney Woods (51), Health Equity, Systems Modeling, Environmental Epidemiology, Risk Assessment, Global Health; Director, E.C.H. M.P.H. Program

Zhenfa Zhang, Synthetic Organic Chemistry

Assistant Professors

Ryan Cronk (11), Global Water, Sanitation and Hygiene (WaSH), Environmental Risk Assessment

Michael Fisher (136), Global Water, Sanitation and Hygiene (WaSH)

Noah Kittner (131), Energy Systems Analysis, Sustainability Science, Energy and Environmental Policy, Energy in Underserved Communities

Musa Manga (5), Environmental Engineering, Water, Sanitation, Water Resource Management

Julia Rager (130), Environmental Sciences, Exposure Assessment, Genetics, Toxicology

Timothy Weigand (108), Fluid Dynamics, AI/Machine Learning, Mechanistic Modelling, Computational Science

Adjunct Professors

Sarav Arunachalam, Air Quality Modeling, Analyses, and Health Risk; Environmental Policy

Linda S. Birnbaum (86), Xenobiotic Metabolism, Biochemical Toxicology

Clarissa Brocklehurst, Water Supply and Sanitation

Daniel L. Costa (97), Pulmonary Toxicology

Pat Curran, Occupational Safety, Industrial Hygiene

Felix Dodds, Sustainable Development, Finance, Climate, Environmental Security

Jonathan Freedman, Toxicology, Chemical Exposure, Risk Assessment

Shabbir H. Gheewala, Life Cycle Assessment

Jackie MacDonald Gibson, Water Quality, Environmental Justice, Risk Assessment

M. Ian Gilmour, Immunotoxicology

David H. Leith (56), Air Pollution Control Engineering, Aerosol Technology

Michael Madden (101), Toxicology

Valeria Ochoa, Biological and Physico-Chemical Wastewater Treatment, Bioremediation, Biotechnology, Sustainability

David Peden, Immunotoxicology, Cardiopulmonary Toxicology, Translational and Clinical Research in Environmental Lung Disease

Joseph Pinto (82), Atmospheric Modeling

Joachim Pleil (106), Exposure Assessment

Havala Pye, Air Quality Modeling

Ana Rappold, Environmental Exposure Assessment, Climate Change, Wildfires and Air Quality
Eva A. Rehfuess, Evidence-Based Public Health Methods, Complex Intervention Evaluations, Child Health in Developing Countries

ENVR—Environmental Health Sciences Undergraduate-level

 **ENVR 89. First-Year Seminar: Special Topics. 3 Credits.** Special topics course. Content will vary each semester.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.
Grading Status: Letter grade.

 **ENVR 135. Environment-ECUIPP Lab: Connecting with communities through environmental research for Public Health. 3 Credits.**

Students join the Environment-ECUIPP Lab to research pressing environmental health issues with local communities. The ECUIPP Lab (Environmentally-Engaged Communities and Undergraduate students Investigating for Public health Protection), organized by the Gillings School of Global Public Health, Department of Environmental Science and Engineering, is a creative learning community of students, faculty members, and practice partners.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-NATSCI or FC-QUANT, FC-LAB, RESEARCH.
Grading Status: Letter grade.

ENVR 190. Selected Topics in Undergraduate Studies. 1-3 Credits.

Permission of the instructor. Current topics of interest in environmental science and their application to understanding environmental issues are directed towards undergraduates. Topics and instructors will change. One to three lecture hours per week.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENVR 205. Engineering Tools for Environmental Problem Solving. 3 Credits.

Introduction to mass, energy, and momentum transport applied to environmental problem solving. Students ask and answer policy-oriented questions (define systems, document assumptions, explain the value and limitations of quantitative answers). They will apply these tools to the design of engineered solutions and characterization of natural and perturbed systems.

Rules & Requirements

Making Connections Gen Ed: PL, CI, QI.
Requisites: Prerequisite, MATH 231.
Grading Status: Letter grade.

ENVR 205L. Engineering for Environmental Problem Solving: Advanced Problems Lab. 1 Credits.

An advanced problems lab for students taking ENVR 205 who are interested in more mathematically advanced applications. Must be taken concurrently with ENVR 205. Course features more advanced applications of ENVR 205 course material, including both analytical and numerical approaches. Specifically, environmental applications of the principles of mass, energy and momentum transport modeling, as well as chemical properties that influence environmental fate and transport. Prior or concurrent enrollment in COMP 110/116 and MATH 233 recommended.

Rules & Requirements

Requisites: Corequisite, ENVR 205; Pre- or corequisites, MATH 233; and COMP 110 or 116.

Grading Status: Letter grade.

ENVR 230. Environmental Health Issues. 3 Credits.

Examines key events that have shaped our understanding of the impacts of environmental agents on human health and uses them to introduce basic concepts in environmental health.

Rules & Requirements

Grading Status: Letter grade.

ENVR 240. Undergraduate Research Opportunities Program (UROP) Training. 1 Credits.

The purpose of this course is to provide structured research training among undergraduate students participating in the Undergraduate Research Opportunities Program (UROP). Formal acceptance into Undergraduate Research Opportunities Program (UROP) required.

Rules & Requirements

Grading Status: Letter grade.

ENVR 275. Global Climate Change: Interdisciplinary Perspectives. 1 Credits.

This class addresses the complexity and importance of global climate change from several disciplines. A top expert from a different discipline will lecture each week, addressing several themes including the science of human influences on climate, impacts and adaptation, global energy technology, communication, and economics and policy. Pass/Fail only. Course previously offered as ENVR 475.

Rules & Requirements

Grading Status: Pass/Fail.

ENVR 295. Undergraduate Research. 3 Credits.

Directed readings or laboratory study. Written reports are required. May be taken more than once for credit. Six to nine hours per week.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENVR 296. Readings in Environmental Sciences and Engineering. 1-9 Credits.**Rules & Requirements**

Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.

Grading Status: Letter grade.

ENVR 335. Adv Environ-ECUIPP Lab: Connecting with Communities Through Environmental Research for PH Protection. 3 Credits.

Students join the Environment-ECUIPP Lab to research pressing environmental health issues with local communities. The ECUIPP Lab (Environmentally-Engaged Communities and Undergraduate students Investigating for Public health Protection), organized by the Gillings School of Global Public Health, Department of Environmental Science and Engineering, is a creative learning community of students, faculty members and practice partners. Students in the Advanced ECUIPP lab continue to develop research skills focusing on data analysis, data visualization and risk communication.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT, FC-LAB, RESEARCH.

Requisites: Prerequisite, ENVR 89 or ENVR 135.

Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level**ENVR 400. Seminar Series. 0.5-1 Credits.**

Presents results of ongoing research projects in the Department of Environmental Sciences and Engineering. Topics and presenters are selected from among departmental graduate students and faculty. Student presenters learn how to present their research to a lay audience while students taking the class for credit learn how to critique a presentation as well as forge professional collaborations across disciplines. Undergraduates may not enroll without first discussing their participation, and obtaining approval from the instructor.

Rules & Requirements

Repeat Rules: May be repeated for credit. 2 total credits. 4 total completions.

Grading Status: Letter grade.

ENVR 403. Environmental Chemistry Processes. 3 Credits.

Required preparation, a background in chemistry and mathematics, including ordinary differential equations. Chemical processes occurring in natural and engineered systems: chemical cycles; transport and transformation processes of chemicals in air, water, and multimedia environments; chemical dynamics; thermodynamics; structure/activity relationships.

Rules & Requirements

Requisites: Pre- or corequisite, CHEM 261.

Grading Status: Letter grade.

Same as: ENEC 403, CHEM 403.

ENVR 404. Life Cycle Assessment: Energy and the Environment. 3 Credits.

A systems approach to dealing with environmental pollution problems is highlighted and Life Cycle Assessment (LCA) is introduced as an assessment tool. Topics include basic environmental interactions; biogeochemical cycles and environmental impacts (global, regional, and local); and application of LCA to waste management and energy conversion systems; are addressed.

Rules & Requirements

Grading Status: Letter grade.

ENVR 411. Laboratory Techniques and Field Measurements. 3 Credits.

Students learn laboratory, field, and analytical skills. Provides a solid introduction to experimental research in environmental sciences and engineering. Students are provided with applications in limnology, aquatic chemistry, and industrial hygiene.

Rules & Requirements

Grading Status: Letter grade.

ENVR 412. Ecological Microbiology. 3 Credits.

Required preparation, one course in general microbiology. A description of microbial populations and communities, the environmental processes they influence, and how they can be controlled to the benefit of humankind.

Rules & Requirements

Grading Status: Letter grade.

ENVR 413. Limnology. 3 Credits.

Required preparation, introductory biology, chemistry, and physics. Basic aspects of freshwater ecosystem function. Emphasis on trophic-level interactions and integration of physical, chemical, and biological principles for a holistic view of lake ecosystem dynamics.

Rules & Requirements

Grading Status: Letter grade.

ENVR 416. Aerosol Physics and Chemistry. 4 Credits.

Permission of the instructor for nonmajors. Physical and chemical principles underlying behavior of particles suspended in air. Topics include rectilinear and curvilinear motion of the particles in a force field, diffusion, evaporation, and condensation, electrical and optical properties, and particle coagulation. Three lecture hours a week and two laboratory sessions.

Rules & Requirements

Grading Status: Letter grade.

ENVR 417. Oceanography. 3 Credits.

Required preparation, major in a natural science or two courses in natural sciences. Studies origin of ocean basins, seawater chemistry and dynamics, biological communities, sedimentary record, and oceanographic history. Term paper. Students lacking science background should see EMES 103. Students may not receive credit for both EMES 103 and EMES 401. Course previously offered as GEOL 403/MASC 401.

Rules & Requirements

Grading Status: Letter grade.

Same as: EMES 401, BIOL 350.

ENVR 419. Chemical Equilibria in Natural Waters. 3 Credits.

Principles and applications of chemical equilibria to natural waters. Acid-base, solubility, complex formation, and redox reactions are discussed. This course uses a problem-solving approach to illustrate chemical speciation and environmental implications. Three lecture hours per week.

Rules & Requirements

Grading Status: Letter grade.

ENVR 421. Environmental Health Microbiology. 3 Credits.

Required preparation: introductory course in microbiology or permission of the instructor. This course covers microbes of public health importance in water, wastewater, and other environmental matrices, including detection, quantification, transport, and survival in environmental media; control measures to reduce exposures; quantitative microbial risk assessment; and the epidemiology of infectious diseases transmitted via the environment.

Rules & Requirements

Grading Status: Letter grade.

ENVR 423. Industrial Toxicology. 3 Credits.

Toxicological assessment of and a case presentation of related exposure is given. A conceptual approach is utilized to design appropriate programs to prevent worker ill health due to toxicant exposure.

Rules & Requirements

Requisites: Prerequisite, ENVR 430, or permission of the instructor.

Grading Status: Letter grade.

ENVR 425. Introduction to Health Physics: Radiation and Radiation Protection. 3 Credits.

This course concentrates on fundamentals of radiation and protection, including types of radiation, radioactive decay, interaction with matter, biological effects, detection and measurement, protection methods/techniques, external and internal dose, etc. Lectures include hazards in categories of environmental radiation, nuclear energy, medical applications, industrial uses, etc.

Rules & Requirements

Grading Status: Letter grade.

ENVR 430. Health Effects of Environmental Agents. 3 Credits.

Required preparation, basic biology, chemistry through organic, calculus. Permission of the instructor for students lacking this preparation. Interactions of environmental agents (chemicals, infectious organisms, radiation) with biological systems including humans, with attention to routes of entry, distribution, metabolism, elimination, and mechanisms of adverse effects. Three lecture hours per week.

Rules & Requirements

Grading Status: Letter grade.

ENVR 431. Techniques in Environmental Health Sciences. 2 Credits.

Required preparation, basic biology, chemistry through organic, math through calculus; permission of the instructor for students lacking this preparation. A practical introduction to the measurement of biological end-points, emphasizing adverse effects of environmental agents, using laboratory and field techniques. Two laboratory hours per week.

Rules & Requirements

Grading Status: Letter grade.

ENVR 432. Occupational Safety and Ergonomics. 3 Credits.

Fundamentals of occupational safety and ergonomics with emphasis on legislation and organization of industrial safety and ergonomic programs, including hazard recognition, analysis, control, and motivational factors pertaining to industrial accident and cumulative trauma disorder prevention.

Rules & Requirements

Grading Status: Letter grade.

ENVR 433. Health Hazards of Industrial Operation. 3 Credits.

An introduction to occupational hygiene and the health hazards associated with industrial operations. Fundamental scientific principles are used to provide the foundation for assessing and controlling the exposures found in the work environment. Topics with broad application include: noise, heat stress, and ventilation. Specific industrial operations examined include: welding, electroplating, and spray painting, among others. The concept of Total Worker Health is explored with a focus on the role of labor unions. No prerequisites.

Rules & Requirements

Grading Status: Letter grade.

ENVR 451. Introduction to Environmental Modeling. 3 Credits.

Focuses on how to model environmental transport and chemistry of pollutants. Covers mole balances, rate laws, chemical kinetics, and reactor design. Principles are applied to any environmental system where chemical transformations must be described. Three lecture hours per week.

Rules & Requirements

Grading Status: Letter grade.

ENVR 452. Fluid Dynamics. 3 Credits.

The physical properties of fluids, kinematics, governing equations, viscous incompressible flow, vorticity dynamics, boundary layers, irrotational incompressible flow. Course previously offered as GEOL 560/MASC 560.

Rules & Requirements

Requisites: Prerequisite, PHYS 401; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: EMES 560, PHYS 660.

ENVR 453. Groundwater Hydrology. 3 Credits.

Required preparation, math through differential equations and some familiarity with fluid mechanics. Conservation principles for mass, momentum, and energy developed and applied to groundwater systems. Scope includes the movement of water, gas, and organic liquid phases, the transport and reaction of contaminants. Three lecture hours per week.

Rules & Requirements

Grading Status: Letter grade.

ENVR 468. Temporal GIS and Space/Time Geostatistics for the Environment and Public Health. 3 Credits.

Reviews geographical information systems (GIS). Covers geostatistics theory for the interpolation of environmental and health monitoring data across space and time. Uses publicly available water and air quality monitoring data to create maps used for environmental assessment, regulatory compliance analysis, exposure science, and risk analysis.

Rules & Requirements

Requisites: Prerequisite, MATH 232; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: ENEC 468.

ENVR 470. Environmental Risk Assessment. 3 Credits.

Required preparation, one course in probability and statistics. Use of mathematical models and computer simulation tools to estimate the human health impacts of exposure to environmental pollutants. Three lecture hours per week.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENEC 470.

ENVR 472. Quantitative Risk Assessment in Environmental Health Microbiology. 3 Credits.

Recommended preparation, microbiology, epidemiology, and infectious diseases. Survey of alternative approaches, frameworks, and decision-making tools for quantitative risk assessment of microbial pathogens that infect humans and cause disease by the exposure routes of water, food, air, and other vehicles.

Rules & Requirements

Grading Status: Letter grade.

ENVR 500. Environmental Processes, Exposure, and Risk Assessment. 3 Credits.

Environmental chemical and biological transport and transformation, exposure to environmental contaminants, and environmental risk assessment.

Rules & Requirements

Requisites: Prerequisite, CHEM 261.

Grading Status: Letter grade.

ENVR 505. Chemical Oceanography. 4 Credits.

Graduate students only; undergraduates must have permission of the instructor. Overview of chemical processes in the ocean. Topics include physical chemistry of seawater, major element cycles, hydrothermal vents, geochemical tracers, air-sea gas exchange, particle transport, sedimentary processes, and marine organic geochemistry. Three lecture and two recitation hours per week. Course previously offered as GEOL 505/MASC 505.

Rules & Requirements

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

Same as: EMES 505.

ENVR 514. Measurement of NO_x, O₃, and Volatile Organic Compounds. 3 Credits.

This course is intended to develop a student's ability to operate the primary instruments for measuring these important pollutants, collect and process samples where necessary, record data, and process instrument data into final air concentration data.

Rules & Requirements

Grading Status: Letter grade.

ENVR 520. Biological Oceanography. 4 Credits.

For graduate students; undergraduates need permission of the instructor. Marine ecosystem processes pertaining to the structure, function, and ecological interactions of biological communities; management of biological resources; taxonomy and natural history of pelagic and benthic marine organisms. Three lecture and recitation hours per week. One mandatory weekend fieldtrip. Course previously offered as MASC 504.

Rules & Requirements

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

Same as: EMES 507, BIOL 657.

ENVR 522. Environmental Change and Human Health. 3 Credits.

The course will provide students with a multidisciplinary perspective of environmental changes to encompass both human health and ecological health.

Rules & Requirements

Requisites: Prerequisite, ENEC 201 or 202.

Grading Status: Letter grade.

Same as: ENEC 522.

ENVR 525. Water, Sanitation, Hygiene, and Global Health. 3 Credits.

Builds on an understanding of infectious and toxic hazards, disease causation, and environmental transmission. Deals with hazard and disease classification; safety, risk, and vulnerability; interventions and their health impact; approaches in different settings; distal factors (e.g., water scarcity, climate change); and approaches to studying unsafe water, sanitation, and hygiene. Previously offered as ENVR 682.

Rules & Requirements

Grading Status: Letter grade.

ENVR 548. Sustainable Energy Systems. 3 Credits.

This course will provide an introduction to urgent topics related to energy, sustainability, and the environment. The course material will focus on new technologies, policies, and plans in cities and different governing bodies in the energy system with a focus on developing tools to analyze energy for its sustainability, impact on people, the environment, and the economy.

Rules & Requirements

Grading Status: Letter grade.

Same as: PLAN 548, ENEC 548.

ENVR 570. Uncertainty, Decisions, and the Environment. 3 Credits.

Required preparation, one course in probability and statistics. Use of quantitative tools for balancing conflicting priorities (such as costs versus human health protection) and evaluating uncertainties when making environmental decisions.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENEC 570.

ENVR 575. Global Climate Change: Science, Impacts, Solutions. 3 Credits.

This class addresses the importance of climate change in its entirety. The first half of the course addresses climate science, followed by climate change impacts, energy and mitigation technologies, economics, and international politics. Improving communication and quantitative skills is emphasized through homework, in-class presentations, and a research paper.

Rules & Requirements

Grading Status: Letter grade.

ENVR 580. Policy Design for Environment, Climate, and Health. 3 Credits.

Students will be introduced to the types of policy instruments that can be used to solve environmental health problems. The course provides a framework for understanding the tasks involved, the main institutions responsible, and an in-depth description of the policy instruments used to tackle environmental health problems.

Rules & Requirements

Grading Status: Letter grade.

ENVR 582. Sanitation for Development. 3 Credits.

Over a million children die yearly from diarrhea, in part because 2.0 billion humans do not have access to a basic toilet. This course presents the problems and context of inadequate sanitation in the developing world, and, more importantly, the types of solutions and approaches available to reduce these problems.

Rules & Requirements

Making Connections Gen Ed: PL, GL.

Grading Status: Letter grade.

ENVR 593. Undergraduate Practicum in Environmental Health Sciences. 1-3 Credits.

A practical experience in a setting relevant to environmental health.

Rules & Requirements

Making Connections Gen Ed: EE- Academic Internship.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENVR 600. Environmental Health. 3 Credits.

This course examines the relationship between environmental quality, human health and welfare, with particular attention to contamination in human environment; physical, biological, and social factors; trade-offs regarding prevention and remediation measures. Three lecture hours per week.

Rules & Requirements

Grading Status: Letter grade.

ENVR 601. Epidemiology for Environmental Scientists. 3 Credits.

An introduction to relevant epidemiologic concepts that inform environmental science research. Learning objectives include discussing basic epidemiologic concepts and measures of disease occurrence in populations, explaining epidemiological study designs for studying associations between risk factors or exposures in populations, evaluating epidemiologic evidence, and comprehending basic ethical principles.

Rules & Requirements

Grading Status: Letter grade.

ENVR 610. Global Perspectives on Environmental Health Inequalities. 3 Credits.

Students will learn about how social, economic, and political factors impact environmental health outcomes and will be introduced to theories and methods for incorporating social determinants frameworks into environmental health research, as well as the role of environmental justice movements.

Rules & Requirements

Grading Status: Letter grade.

ENVR 630. Systems Biology in Environmental Health. 3 Credits.

Required preparation, one year of biology. Environmental systems biology examines how environmental stressors influence the components of a biological system, and how the interactions between these components result in changes in the function and behavior of that system.

Rules & Requirements

Grading Status: Letter grade.

ENVR 635. Energy Modeling for Environment and Public Health. 3 Credits.

Recommended preparation, MATH 231. This course will equip students with an overview of contemporary issues in energy modeling and energy systems analysis, with a focus on environmental and public health impacts of energy systems. Students will gain exposure to a variety of research methodologies, analytical tools, and applications of energy modeling applied to environmental and public health related problems such as climate change, air pollution, and water footprints of energy systems.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENEC 635, PLAN 635.

ENVR 640. Environmental Exposure Assessment. 3 Credits.

Permission of the instructor for nonmajors. The course material introduces the general concepts of assessing environmental exposures to chemicals in human populations. This includes the design of ecologic and personal monitoring studies, the techniques and equipment used for sampling and analysis, and interpretation of data.

Rules & Requirements

Grading Status: Letter grade.

ENVR 650. Principles of Chemical Carcinogenesis. 2 Credits.

Required preparation, organic chemistry. Bioactivation of carcinogens, interaction of activated metabolites with DNA, and their effects on DNA structure, replication, repair, and the control of these processes during development of chemically induced carcinogenesis. Two lecture hours per week.

Rules & Requirements

Grading Status: Letter grade.

ENVR 661. Scientific Computation I. 3 Credits.

Requires some programming experience and basic numerical analysis. Error in computation, solutions of nonlinear equations, interpolation, approximation of functions, Fourier methods, numerical integration and differentiation, introduction to numerical solution of ODEs, Gaussian elimination.

Rules & Requirements

Grading Status: Letter grade.

Same as: MATH 661.

ENVR 662. Scientific Computation II. 3 Credits.

Theory and practical issues arising in linear algebra problems derived from physical applications, e.g., discretization of ODEs and PDEs. Linear systems, linear least squares, eigenvalue problems, singular value decomposition.

Rules & Requirements

Requisites: Prerequisite, MATH 661.

Grading Status: Letter grade.

Same as: MATH 662, COMP 662.

ENVR 666. Numerical Methods. 3 Credits.

Numerical methods for solving problems arising in sciences and engineering. Solution of linear equations using direct and iterative approaches, solution of nonlinear systems of algebraic equations, solution of ordinary differential equations including single and multistep methods, and methods for stiff systems of ODEs and collocation methods for linear and nonlinear PDEs.

Rules & Requirements

Requisites: Prerequisites, COMP 116 and MATH 383.

Grading Status: Letter grade.

ENVR 668. Methods of Applied Mathematics I. 3 Credits.

Requires an undergraduate course in differential equations. Contour integration, asymptotic expansions, steepest descent/stationary phase methods, special functions arising in physical applications, elliptic and theta functions, elementary bifurcation theory.

Rules & Requirements

Grading Status: Letter grade.

Same as: MATH 668.

ENVR 669. Methods of Applied Mathematics II. 3 Credits.

Perturbation methods for ODEs and PDEs, WKBJ method, averaging and modulation theory for linear and nonlinear wave equations, long-time asymptotics of Fourier integral representations of PDEs, Green's functions, dynamical systems tools.

Rules & Requirements

Requisites: Prerequisite, MATH 668.

Grading Status: Letter grade.

Same as: MATH 669.

ENVR 671. Environmental Physics I. 3 Credits.

A first graduate-level course in physical principles relevant to environmental systems. Topics include dimensional analysis, tensor calculus, conservation of mass and momentum. Applications are considered from natural and engineered systems and across all relevant media. Focus is on the development of mechanistic representation of environmental systems.

Rules & Requirements

Grading Status: Letter grade.

ENVR 672. Environmental Physics II. 3 Credits.

Second part of a graduate-level sequence in physical principles relevant to environmental systems. Topics include turbulence, conservation of energy, multiscale methods, and thermodynamics. Applications are considered from natural and engineered systems and across all relevant media. Focus is on development of mechanistic representation of environmental systems.

Rules & Requirements

Requisites: Prerequisite, ENVR 671.

Grading Status: Letter grade.

ENVR 673. Hydraulics for Environmental Engineering. 3 Credits.

Permission of the instructor for undergraduates. This course teaches practical basics of how to solve environmental engineering problems in the hydraulics of pipes, pumps, networks, and open channels. The course is a mix of classroom lectures, problem-solving sessions, and laboratory sessions.

Rules & Requirements

Requisites: Prerequisites, MATH 231 and PHYS 114.

Grading Status: Letter grade.

ENVR 675. Air Pollution, Chemistry, and Physics. 3 Credits.

This class is designed for graduate students planning for research in air pollution, emphasizing chemical kinetics and engineering approaches to problem solving in addition to atmospheric structure, meteorology, and modeling. We address problems of stratospheric and tropospheric ozone, particulate matter, and acid rain. We emphasize quantitative problem solving in homework.

Rules & Requirements

Grading Status: Letter grade.

ENVR 683. Water-Health Research I. 2 Credits.

Permission of the instructor for undergraduates and nonmajors. Introduces students to methods for research conception, design, planning, and implementation in fields related to water and its impacts on health. Students study approaches and tools that may be applied in water-related research and are coached in developing their own research design.

Rules & Requirements

Grading Status: Letter grade.

ENVR 684. Water-Health Research II. 2 Credits.

Permission of the instructor for undergraduates and nonmajors. Familiarizes students with the principles of scientific communication with an emphasis on scientific writing and oral presentations. Using their own water and health research, students learn how to communicate effectively in informal settings and how to prepare for interviews with the media.

Rules & Requirements

Grading Status: Letter grade.

ENVR 685. Water and Sanitation Planning and Policy in Less Developed Countries. 3 Credits.

Permission of the instructor. Seminar on policy and planning approaches for providing improved community water and sanitation services in developed countries. Topics include the choice of appropriate technology and level of service, pricing, metering, and connection charges; cost recovery and targeting subsidies to the poor; water venting; community participation in the management and operation of water systems; and rent-seeking behavior in the provision of water supplies.

Rules & Requirements

Grading Status: Letter grade.

Same as: PLAN 685.

ENVR 687. Writing for Journal Publication on Water and Sanitation Hygiene, Health, and Development. 2 Credits.

This course familiarizes students with scientific paper writing and coaches students towards journal manuscript submission. Students should have a data set of results. Sessions begin with student presentations and discussion, followed by a brief preparatory lecture on the next assignment. Substantive preparation is required between sessions.

Rules & Requirements

Grading Status: Letter grade.

 **ENVR 691H. Honors Research. 3 Credits.**

Permission of the instructor. Directed readings or laboratory study of a selected topic. A written report is required in the form of an honors thesis (ENVR 692H).

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **ENVR 692H. Honors Thesis. 3 Credits.**

Students complete honors research projects.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 **ENVR 695. Undergraduate Research. 1-3 Credits.**

Directed readings or laboratory study. Written reports are required. May be taken more than once for credit. Three to nine hours per week.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

ENVR 698. Senior Capstone Course. 3 Credits.

This capstone course covers a range of issues in public health ethics, particularly focused on environmental health. Students will work on a team-based project over the course of the semester. The projects will be focused on topics that have ethical relevance and will integrate students' knowledge in environmental health.

Rules & Requirements

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

Environmental Health Sciences Major, B.S.P.H.

Environmental health is at the foundation of public health and focuses on understanding the relationships between people and their environment to protect human health, promote well-being, and foster healthy and safe communities. The undergraduate major in environmental health sciences is designed to develop a comprehensive understanding of the environmental factors that impact human health; the physical, chemical, and biological processes that underlie the impact of human activity on the environment and human health; the methods used to assess the impact of human activity on the environment and human health; and science-based solutions for environmental problems.

The program gives students the opportunity to focus their studies on environmental chemistry, environmental health biology, or environmental physics by selecting a concentration. Recent graduates have entered graduate programs in environmental health, epidemiology, environmental science, microbiology, marine science, applied mathematics, and environmental engineering, as well as entered medical school. Students who pursued employment after completing the B.S.P.H. degree are working in environmental advocacy organizations, environmental consulting firms, industry, and governmental agencies. Some have started their own companies or non-profits.

Students go through the program in a cohort of about 30–40 students, creating a strong sense of community within the program and the Environmental Sciences and Engineering Department. The program also offers a supportive and collaborative learning environment. Each student is matched with a faculty mentor and supported by an academic coordinator and dedicated career services coordinator within the school.

Admission (<https://catalog.unc.edu/undergraduate/programs-study/environmental-health-sciences-major-bsph/#admissiontext>) into the program requires satisfactory completion of coursework in basic sciences and mathematics.

Upon completion of the B.S.P.H. in environmental science and engineering, students should be able to:

- Define current major issues in environmental health, sciences, and engineering
- Provide quantitative answers to complex environmental questions and describe the potential underlying uncertainties
- Describe linkages between sources of environmental contaminants, ambient concentrations, human exposures, and possible solutions
- Describe the mechanistic basis for environmentally induced disease and methods for prevention
- Demonstrate written and oral communication skills in environmental health, sciences, and engineering within a public health context
- Communicate public health information, in both oral and written forms, through a variety of media and to diverse audiences
- Locate, use, evaluate, and synthesize public health information

- Describe health inequities, identify their root causes at multiple levels of the social ecological framework, and discuss approaches to advancing health equity

Admission

The Gillings School of Global Public Health offers four undergraduate majors: biostatistics, environmental health sciences, health policy and management, and nutrition. The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Enrollment in the B.S.P.H. degree programs is limited, and students must apply for admission. Students typically apply in January of their sophomore year for admission beginning in the fall of their junior year.

For current UNC–Chapel Hill students, the initial step of B.S.P.H. application is available in ConnectCarolina under the "Apply for Majors Change" tab. For additional information on application deadlines and how to apply, please visit the Public Health Undergraduate Majors (<https://sph.unc.edu/resource-pages/undergraduate-programs/>) website.

Transfer students interested in any of the B.S.P.H. degree programs must apply through the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/types-of-applications/transfer/>) using the Transfer Common application.

For high school seniors, our four majors participate in the Assured Enrollment program through Undergraduate Admissions. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina's professional schools or a spot in an accelerated undergraduate/graduate program. For additional information, please visit Undergraduate Admissions: Special Opportunities (<https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/>).

Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, the requirements described in this catalog particularly apply to students admitted to Gillings during the 2024–2025 academic year.

Prerequisite Courses Required for Admission

B.S.P.H. Admission Requirements for Internal Transfer Students

For admission to the B.S.P.H. in environmental health sciences, the requirements are:

- A 3.0 grade point average or higher for applicants (*Assured Enrollment students need a 3.2 grade point average or higher*)
- A grade of C (not C-) or better earned in (at least) one calculus course numbered MATH 231, MATH 232, OR MATH 233 and above)
- A grade of C (not C-) or better earned in one course from two of the following categories: biology, chemistry, computer programming, or physics (see the table below)

NOTE: A minimum of two out of the three courses required for admission must be completed in residence at UNC–Chapel Hill.

Admission requirements must be successfully completed before the student begins the major (i.e., by the start of fall semester, junior year).

Code	Title	Hours
Admission Requirements		
One calculus course: MATH 231, MATH 232 or MATH 233 or above. A grade of C or better required.		1 course
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	
Two additional courses from biology, chemistry, computer programming, or physics. At least one course from two different categories. A grade of C or better required. See course selection below		2 courses
Biology (any course above 101 level):		
BIOL 103	 How Cells Function ^{1, F}	
BIOL 104	 Biodiversity ^{2, F}	
BIOL 220	 Molecular Genetics ^{1, H}	
BIOL 250	Evolutionary Biology ²	
Chemistry (any course above 101 level):		
CHEM 102 & 102L	 General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	
CHEM 261	Introduction to Organic Chemistry I ^H	
Computer programming:		
COMP 110	 Introduction to Programming and Data Science ^H	
COMP 116	Introduction to Scientific Programming	
BIOL/MATH 553	Mathematical and Computational Models in Biology	
GEOG 597	Ecological Modeling	
Physics:		
PHYS 114	 General Physics I: For Students of the Life Sciences ^F	
PHYS 115	 General Physics II: For Students of the Life Sciences ^F	
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{H, F}	
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Suggested for pre-med and students with interest in toxicology and genetics.

² Suggested for students with strong interests in climate change, environmental chemistry.

Requirements

In addition to the program requirements listed below, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC-Chapel Hill courses
- earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major
- take at least half of their major course requirements (courses and credit hours) at UNC-Chapel Hill.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The major in environmental health sciences includes several concentrations:

- General (p. 637)
- Environmental Chemistry (p. 637)
- Environmental Health Biology (p. 637)
- Environmental Physics (p. 638)

Requirements for All Concentrations

Code	Title	Hours
Core Requirements		
Public Health Core Courses:		
BIOS 600	Principles of Statistical Inference	3
EPID 600	Principles of Epidemiology for Public Health	3
SPHG 351	Foundations of Public Health	3
SPHG 352	Public Health Systems and Solutions	4
Other Core Courses:		
ENVR 205	Engineering Tools for Environmental Problem Solving (spring)	3
ENVR 230	Environmental Health Issues (fall)	3
ENVR 403	Environmental Chemistry Processes (spring)	3
ENVR 430	Health Effects of Environmental Agents (fall)	3
One of the following:		
ENVR 698	Senior Capstone Course (to be taken in the senior year)	3
ENVR 593	Undergraduate Practicum in Environmental Health Sciences (with approval)	
ENVR 695	 Environmental Health Majors Undergraduate Research	
ENVR 692H	 Honors Thesis (with approval)	

Prerequisite and Additional Requirements[†]

BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
BIOL 103 or BIOL 104	 How Cells Function ^F  Biodiversity	3
BIOL 220 or BIOL 250	 Molecular Genetics ^H Evolutionary Biology	3
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	 General Descriptive Chemistry II and  Quantitative Chemistry Laboratory II ^{H, F}	4
CHEM 261	Introduction to Organic Chemistry I ^H	3
One of the following:		3
COMP 110	 Introduction to Programming and Data Science ^H	
COMP 116	Introduction to Scientific Programming	
BIOL/MATH 553	Mathematical and Computational Models in Biology	
GEOG 597	Ecological Modeling	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
PHYS 118 or PHYS 114	 Introductory Calculus-based Mechanics and Relativity ^{1,2, H, F}  General Physics I: For Students of the Life Sciences	4
PHYS 119 or PHYS 115	 Introductory Calculus-based Electromagnetism and Quanta ^{1,2, H, F}  General Physics II: For Students of the Life Sciences	4
Total Hours		68

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Preferred.

² PHYS 118 and PHYS 119 are required for the environmental chemistry concentration.

† Applicants should have earned a grade of C or better from UNC-Chapel Hill in at least one course per group in three of the five prerequisite course groups. See Admissions tab for details.

General Concentration

Code	Title	Hours
Environmental Health Electives		
All students should complete two advanced undergraduate or graduate level courses (400-level or above) that provide in-depth study of environmental health. Courses should be listed or cross-listed as ENVR courses. ENVR 400, ENVR 403, ENVR 430, ENVR 593, ENVR 600, ENVR 601, ENVR 695, ENVR 691H and ENVR 692H are excluded.		6-8
Total Hours		6-8

Environmental Chemistry Concentration

Code	Title	Hours
Environmental Health Electives		
All students must complete two advanced (400-level or above) courses selected from:		5-7
ENVR 416	Aerosol Physics and Chemistry	
ENVR 419	Chemical Equilibria in Natural Waters	
ENVR 451	Introduction to Environmental Modeling	
ENVR 575	Global Climate Change: Science, Impacts, Solutions	
ENVR 650	Principles of Chemical Carcinogenesis	
ENVR 675	Air Pollution, Chemistry, and Physics	
Additional Requirements		
CHEM 481	Physical Chemistry I	3
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4
MATH 383	First Course in Differential Equations ^H	3
Total Hours		15-17

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Environmental Health Biology Concentration

Code	Title	Hours
Environmental Health Electives		
All students must complete two advanced (400-level or above) courses selected from:		6
ENVR 411	Laboratory Techniques and Field Measurements	
ENVR 412	Ecological Microbiology	
ENVR 421	Environmental Health Microbiology	
ENVR 423	Industrial Toxicology	
ENVR 425	Introduction to Health Physics: Radiation and Radiation Protection	
ENVR 432	Occupational Safety and Ergonomics	
ENVR 433	Health Hazards of Industrial Operation	

ENVR 468	Temporal GIS and Space/Time Geostatistics for the Environment and Public Health
ENVR 470	Environmental Risk Assessment
ENVR 610	Global Environmental Health Inequities
ENVR 630	Systems Biology in Environmental Health
ENVR 640	Environmental Exposure Assessment

Total Hours 6

Environmental Physics Concentration

Code	Title	Hours
------	-------	-------

Environmental Health Electives

All students must complete two advanced (400-level or above) courses selected from the following list: 6-7

ENVR 416	Aerosol Physics and Chemistry
ENVR 451	Introduction to Environmental Modeling
ENVR 453	Groundwater Hydrology
ENVR 666	Numerical Methods
ENVR 671	Environmental Physics I
ENVR 472	Quantitative Risk Assessment in Environmental Health Microbiology
ENVR 675	Air Pollution, Chemistry, and Physics

Additional Requirements

MATH 233	Calculus of Functions of Several Variables ^{H, F}	4
MATH 383	First Course in Differential Equations ^H	3

Total Hours 13-14

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC-Chapel Hill in the fall term. Some courses may not be offered every term.

First Year	Hours
First-Year Foundation Courses	
IDST 101 College Thriving	1
ENGL 105 English Composition and Rhetoric or ENGL 105I or English Composition and Rhetoric (Interdisciplinary)	3
First-Year Seminar or First-Year Launch (p. 1202) ^F	3
Triple-I and Data Literacy (p. 1210)	4

Global Language through level 3 (p. 1211) varies

Hours 11

Fall Semester

MATH 231	Calculus of Functions of One Variable I ^{H, F}	4
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{H, F}	4

Hours 8

Spring Semester

CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F}	4
MATH 232	Calculus of Functions of One Variable II ^{H, F}	4

Hours 8

Sophomore Year

Fall Semester

CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
BIOL 103 or BIOL 104	How Cells Function ^F or Biodiversity	3

Hours 7

Spring Semester

BIOL 220 or BIOL 250	Molecular Genetics ^H or Evolutionary Biology	3
COMP 110 or COMP 116	Introduction to Programming and Data Science ^H or Introduction to Scientific Programming	3

Hours 6

Junior Year

Fall Semester

CHEM 261	Introduction to Organic Chemistry I ^H	3
ENVR 205	Engineering Tools for Environmental Problem Solving	3
EPID 600	Principles of Epidemiology for Public Health	3
SPHG 351	Foundations of Public Health	3

Hours 12

Spring Semester

BIOS 600	Principles of Statistical Inference	3
ENVR 230	Environmental Health Issues	3
ENVR 403	Environmental Chemistry Processes	3
SPHG 352	Public Health Systems and Solutions (Public Health Systems & Solutions)	4

Hours 13

Senior Year

Fall Semester

ENVR 430	Health Effects of Environmental Agents	3
ENVR 630	Systems Biology in Environmental Health	3
PHYS 118 or PHYS 114	Introductory Calculus-based Mechanics and Relativity ^{H, F} or General Physics I: For Students of the Life Sciences	4

Hours 10

Spring Semester

ENVR 575	Global Climate Change: Science, Impacts, Solutions	3
ENVR 698	Senior Capstone Course	3
PHYS 119 or PHYS 115	Introductory Calculus-based Electromagnetism and Quanta ^{H, F} or General Physics II: For Students of the Life Sciences	4
Hours		10
Total Hours		85

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Special Opportunities in Environmental Health Sciences

Accelerated Bachelor's-to-Master's Program (<https://sph.unc.edu/envr/bachelors-to-masters-programs/>)

The Department of Environmental Sciences and Engineering offers an accelerated path to obtain a master's degree for students who are completing, or have completed, a B.S.P.H. or any B.S. in a STEM field from UNC-Chapel Hill. An accelerated master's degree has the same overall credit requirements as a regular master's degree, but potentially allows a student to finish in a single year. The M.S. degree is research-focused; the M.P.H. is focused on coursework and public health practice. These degrees prepare students to work as researchers, program officers, or consultants in industry, government organizations, and the non-profit sector; many graduates have gone on to complete doctoral degrees at UNC-Chapel Hill or elsewhere.

Students interested in the accelerated degree program must have completed their B.S. or B.S.P.H. in the previous academic year. Students progressing to an M.S. and M.P.H. can transfer up to 12 hours of graduate-level (400 or above) coursework. For the M.S., it is strongly recommended that students have identified an advisor and made progress toward their master's research as early as possible, preferably by their senior year.

The department also offers a one-year practice-based or two-year research-based M.S.E.E. program (<https://sph.unc.edu/envr/msee-program/>) that provides students with the vital skills and training in air quality and sustainable water resources needed to solve today's environmental engineering and public health problems.

Interested? Learn more (<https://sph.unc.edu/envr/bachelors-to-masters-programs/>).

Honors in Environmental Health Sciences

Students who have a grade point average of 3.3 or higher are eligible to participate in honors research and to write an honors thesis.

Study Abroad

There are several opportunities for pursuing environmental study abroad, both through the department and through the UNC Study Abroad Office (<https://studyabroad.unc.edu/>). Students are required to be in residence at UNC during their junior year to be able to fully participate in the required B.S.P.H. core. Students are encouraged to study abroad in their first or second year at UNC and/or summer semesters.

Affiliated Study Abroad Programs

- Thailand – UNC Institute for the Environment (<https://ie.unc.edu/education/field-sites/thailand/>)
- UNC Galapagos Initiative – Summer Study Abroad Program (<https://galapagos.unc.edu/study-abroad/>)

School and Departmental Involvement

Opportunities exist for involvement in student organizations such as the Environmental Student Organization (ENVRSO), the Student Global Health Committee, GlobeMed, the Minority Student Caucus, the Committee on Diversity and Inclusion, and the school's student government. Students are also actively involved in environmental and health focused organizations on campus.

The Department of Environmental Sciences and Engineering is home to UNC's Water Institute (<https://waterinstitute.unc.edu/>), Center on Financial Risk in Environmental Systems (<https://sph.unc.edu/cfres/center-on-financial-risk-in-environmental-systems/>), and the Institute for Environmental Health Solutions (<https://sph.unc.edu/iehs/institute-for-environmental-health-solutions/>), and participates in UNC's strong University-wide environmental (<https://ie.unc.edu/>) and climate change communities, including NC Occupational Safety and Health Education and Research Center.

Students also participate in the ENHS Student Buddy Program, which is designed to help first-year students feel more included in the ESE community. First-year ENHS students are paired with rising ENHS seniors who offer social support by answering questions about student life in the department and other questions about being a student at UNC. The Buddy program is a response to 1) undergraduate students reporting feelings of loneliness, isolation, and disconnectedness in the wake of COVID-19, and for 2) first-year students who naturally have many questions and are not always comfortable asking for help, which can cause them to feel lost and anxious about being somewhere new.

- Benefits for incoming ENHS students (juniors): Think of this as your first friend in your undergraduate program: a personal point of contact to talk to about life at UNC (e.g., good neighborhoods for housing, fun social activities, etc.). It may also be useful to talk to a Buddy about how to handle the transition into the program, courses that are challenging, and strategies that will set you up for success in the program.
- Benefits for rising ENHS seniors: An opportunity to share your experiences at UNC and all the interesting/useful things you have discovered as a student so far. This is also a great chance to extend your network to students you might not otherwise have a chance to interact with. This is an opportunity to pass on the wealth of knowledge about the ENHS program to an incoming student.

Undergraduate Research

Many undergraduate students participate in the research programs of the department. Students are encouraged to consult individual faculty members for opportunities to participate in such research. In addition, the department has information concerning fellowships and internships,

some of which are combined with research opportunities in laboratories or field settings. ENVR 89, ENVR 135/335, ENVR 295, ENVR 695, ENVR 691H/692H, ENVR 240 provide students research opportunities.

B.S.P.H. in Environmental Health Sciences Ambassadors

Current student ambassadors for the bachelor of science in public health program in environmental health sciences are happy to answer questions you may have about the application process, the program, or student life in the Gillings School of Global Public Health. Learn more (<https://sph.unc.edu/envr/bsph-in-environmental-health-sciences-ambassadors/>).

Engineering for Environmental Change, Climate, and Health Minor

This minor is designed to train students with an interest in developing engineering skills focused on building public health resilience to climate and environmental change. Climate-related challenges will include droughts, floods, heatwaves and extreme weather events, which in turn impact air pollution, water availability and quality, toxic releases, food and nutrition, infectious and non-communicable diseases, and will increase migration and conflict pressure and exacerbate health inequities. As environmental scientists and engineers located within the top *public* school of public health, the Department of Environmental Sciences and Engineering (ESE) is ideally positioned to provide holistic, intersectoral responses to mitigate and prepare for these upcoming and pressing environmental challenges. Join the minor to learn about climate change, health/risk assessment, environmental processes, and engineering tools to provide quantitative answers to complex environmental questions.

Information about the application process can be found on the department website (<https://sph.unc.edu/envr/minor-in-engineering-for-environmental-change-climate-and-health/>).

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Prerequisite Courses

Students may apply for the minor any semester after completing MATH 233. Admitted students must have an average GPA of 3.0 or higher in the minor's prerequisite courses.

Code	Title	Hours
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4
MATH 383	 First Course in Differential Equations ^H	3

Curriculum in Contemporary European Studies

Introduction

The curriculum in contemporary European studies (EURO) is designed to provide students with

- A broad interdisciplinary understanding of modern Europe and the European Union
- A focused understanding of contemporary Europe from the perspective of a selected social science, and
- Advanced proficiency in a modern European language

Students are encouraged to combine the EURO major with a second major in a field such as political science, economics, or history; or an interdisciplinary field such as German or romance studies, comparative literature, chemistry, PPE (politics, philosophy, and economics), or sustainability studies. EURO majors are also encourage to study abroad and work closely with the advisor to obtain EURO credit while abroad. Through its unique combination of advanced coursework and language training, the curriculum provides the intellectual building blocks to study contemporary Europe through a sophisticated framework. Students completing the major will be well prepared for graduate or professional study of contemporary Europe and for a range of international careers.

Advising

In addition to the guidance provided by the primary academic advisors from the Academic Advising Program, EURO majors receive individualized advising at all stages of academic planning, including considering courses, internships, study abroad options, graduate programs, and career paths. Students interested in pursuing a major in contemporary European studies are encouraged to meet with the curriculum advisor as early as possible in their undergraduate career to design a comprehensive and efficient course plan – including considering the EURO-TAM B.A.-M.A. program option – and take full advantage of study abroad and other international education opportunities. Consult the curriculum website (<http://europe.unc.edu/euro/>) for further information on courses, funding, research, travel awards, campus resources, and the alumni network.

Major

- Contemporary European Studies Major, B.A. (p. 644)

Advisory Board

Chad Bryant (History), John Coyle (Law), Joanneke Fleischauer (UNC Libraries), Liesbet Hooghe (Political Science), Serenella Iovino (Romance Studies), Arne Kalleberg (Sociology), Priscilla Layne (Germanic and Slavic Languages and Literatures), Gary Marks (Political Science), Susan

Dabney Pennybacker (History), John Pickles (Geography), Dan Sherman (History).

Affiliated Faculty

Karen Auerbach (History), Cemil Aydin (History), Cameron Ballard-Rosa (Political Science), Andrea Bohlman (Music), Cristina Carrasco (Romance Studies), Amy Chambless (Romance Studies), Tori Ekstrand (Media and Journalism), Greg Gangi (Institute for the Environment), Banu Gökariksel (Geography), Karen Hagemann (History), Didem Havlioglu (Asian Studies), Dorothea Heitsch (Romance Studies), Evelyne Huber (Political Science), Konrad Jarausch (History), Robert Jenkins (Political Science), Lloyd Kramer (History), Richard Langston (Germanic and Slavic Languages and Literatures), Klaus Larres (History), Hassan Melehy (Romance Studies), Holger Moroff (Political Science), Susan Harbage Page (Women's and Gender Studies), Tony Perucci (Communications), Valerie Pruvost (Romance Studies), Donald Reid (History), Courtney Rivard (English and Comparative Literature), Graeme Robertson (Political Science), Christina Rudosky (Romance Studies), Don Searing (Political Science), Louise Spieler (Media and Journalism), Gabriel Trop (Germanic and Slavic Languages and Literatures), Milada Vachudova (Political Science), Richard Vernon (Romance Studies), Ruth von Bernuth (Germanic and Slavic Languages and Literatures).

The Center for European Studies also hosts many visiting scholars from Europe.

EURO–Contemporary European Studies Undergraduate-level Courses

 **EURO 89. First-Year Seminar: Special Topics. 3 Credits.**
Special topics course. Content will vary each semester.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.
Grading Status: Letter grade.

 **EURO 159. Europe and the World Since 1900. 3 Credits.**

An overview of modern European history from the First World War to the present, covering major themes such as imperialism and decolonization; competing political ideologies; "hot" and "cold" wars; the Holocaust and Holocaust memory; gender and sexuality; migration and labor; race and religion; the European Union; local community-building; and efforts to redefine Europe and its place in the wider world.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 159.

EURO 190. Special Topics Seminar in Contemporary European Studies. 1-3 Credits.

A detailed examination of selected topics in the field of Contemporary European Studies.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

 **EURO 239. Introduction to European Government. 3 Credits.**
A treatment of the political institutions and processes of western European democracies, with special attention to France, Germany, England, and Italy. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.
Making Connections Gen Ed: SS, GL, NA.
Grading Status: Letter grade.
Same as: POLI 239.

 **EURO 252. Politics, Society, and Culture in Modern Germany (1871-1945). 3 Credits.**

This course explores the history of Modern Germany, by focusing on Imperial Germany, the Weimar Republic and the Third Reich. We will study continuities and changes in politics, society, and culture and examine the lasting impact of World War I, World War II and the Holocaust.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 252.

 **EURO 257. Politics, Society, and Culture in Postwar Germany. 3 Credits.**

The interdisciplinary seminar will explore cultural, historical, and political issues of contemporary Germany and analyze German developments from the postwar period to the present. Readings and discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 257, POLI 257.

 **EURO 259. Towards Emancipation? Women in Modern Europe. 3 Credits.**

This course examines and compares the situation of women in politics, the work force, society and family from the French Revolution to the new women's movement in the 1970s with a focus on Britain, France and Germany. One major theme is the history of the struggle for women's emancipation.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 259, WGST 259.

 **EURO 270. Religion in Western Europe. 3 Credits.**

In this course, we will explore various topics related to the past and present status of religion in general, and of certain religions in particular, within three Western European countries: the United Kingdom, France, and Germany. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: RELI 270.

EURO 285. Applied Experimental Research: Politics in the US and Europe. 3 Credits.

The course familiarizes students with experimental research methods in political science, including laboratory experiments, field experiments, and survey experiments. Students will design and conduct an experimental research project on a research question about US or European politics.

Rules & Requirements

Making Connections Gen Ed: SS, QI.

Grading Status: Letter grade.

Same as: POLI 285.

EURO 347. Fascist Challenge in Europe, 1918-1945. 3 Credits.

The course focus on theories on fascism, national cultures of fascism (e.g. Nazi Germany, Fascist Italy, Hungary) as well as selected topics which are essential to understand the attraction and functioning of fascist movements and regimes since 1918 in Europe (e.g. racism, war, culture, charismatic leadership).

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

Same as: HIST 347.

Advanced Undergraduate and Graduate-level Courses**EURO 433. Politics of the European Union. 3 Credits.**

Examines the politics and political economy of institutional change and policy making in the European Union in comparative perspective. Honors version available.

Rules & Requirements

Making Connections Gen Ed: SS, GL, NA.

Grading Status: Letter grade.

Same as: POLI 433.

EURO 438. Democracy and International Institutions in an Undivided Europe. 3 Credits.

Explores the collapse of communist rule in 1989 and the reaction of international institutions to the challenges of democratization, economic transition, ethnic conflict, and European integration in an undivided Europe.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: SS, NA.

Grading Status: Letter grade.

Same as: POLI 438.

EURO 442. International Political Economy. 3 Credits.

Theories of international political economy, major trends in international economic relations, selected contemporary policy issues.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.

Making Connections Gen Ed: SS, GL.

Requisites: Prerequisite, POLI 150.

Grading Status: Letter grade.

Same as: POLI 442.

EURO 460. International Economics. 3 Credits.

An introduction to international trade, the balance of payments, and related issues of foreign economic policy.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.

Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.

Grading Status: Letter grade.

Same as: ECON 460, PWAD 460.

EURO 486. Exploration of Russian "Women's Prose" and Svetlana Alexievich (Nobel Prize in Literature 2015). 3 Credits.

Using Alexievich as our beacon, we will explore the writers behind the term "Russian Women's Prose": Valeria Nabokova, Lyudmila Petrushevskaya, Tatyana Tolstaya, and Lyudmila Ulitskaya. The course will delve into gender identity and body politics as they manifest themselves in the literary texts of lasting aesthetic quality and social relevance. Taught in English; some readings in Russian for qualified students.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

Same as: RUSS 486, WGST 486.

EURO 490. Advanced Special Topics Seminar in Contemporary European Studies. 1-3 Credits.

A detailed examination of advanced special topics in Contemporary European Studies.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

EURO 691H. Honors Thesis in European Studies. 3 Credits.

Directed independent research leading to the preparation of an honors thesis.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

EURO 692H. Honors Thesis in European Studies. 3 Credits.

Completion of the honors thesis and an oral examination of the thesis.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

Contemporary European Studies Major, B.A.

The curriculum in contemporary European studies (EURO) is designed to provide students with

- A broad interdisciplinary understanding of modern Europe and the European Union
- A focused understanding of contemporary Europe from the perspective of a selected social science discipline, and
- Advanced proficiency in a modern European language

Student Learning Outcomes

Upon completion of the Contemporary European Studies program, students should be able to:

- Demonstrate knowledge of the historical and political complexities of the European continent
- Demonstrate advanced proficiency in an approved modern European language
- Demonstrate knowledge of the political, social, and economic integration of the European continent
- Show an interdisciplinary grasp of European cultures, histories, literatures, art, and ideas
- Report satisfaction with the major
- Gain admission to graduate programs or a job in a relevant field

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements ¹		
EURO/HIST 159	 Europe and the World Since 1900	3
EURO/POLI 239	 Introduction to European Government ^H	3
Four courses from one of the two themes listed below		12
One course chosen from the other theme		3

One additional course from Theme 1, Theme 2, or the list of approved elective courses on contemporary Europe 3

Additional Requirements

A modern European foreign language through level 5, chosen from the following languages: Arabic, Bosnian-Croatian-Serbian, Czech, French, German, Italian, Polish, Portuguese, Russian, Spanish, Turkish.² 6

Total Hours 30

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Of the total eight courses required for the major, three must be numbered 400 or above. Special topics courses EURO 190 and EURO 490 may count for either theme, with approval based on topic.

² Please see the list of global language courses in the “General Education Requirements” section of this catalog. The first three levels of a foreign language can count toward the General Education requirement and have not been included as additional hours for the major.

Contemporary European studies majors are required to complete a minimum of five semesters of a modern European language, or document fifth-semester proficiency through University placement tests. One approved literature course taught in the language may also count as a theme or elective course if included in the course listings above. Majors are strongly encouraged to apply their language proficiency skills in languages across the curriculum (LAC) courses and complete a UNC-approved study abroad program in the target language.

The Curriculum in Contemporary European Studies offers an honors program. Students who wish to pursue an honors thesis are advised to contact the director of undergraduate studies and will enroll in EURO 691H and EURO 692H.

New courses may be added to this list annually, as they are developed. An updated list of approved courses may be obtained from the contemporary European studies website (<http://europe.unc.edu/euro/>). Other courses relevant to the study of contemporary Europe may be taken for credit in the major (including EURO 190 and EURO 490), if approved by the curriculum advisor.

Theme I. Contemporary Europe: Integration and Enlargement

Code	Title	Hours
ECON 461	European Economic Integration	3
ECON 560	 Advanced International Economics	3
ECON/EURO/ PWAD 460	 International Economics	3
EURO/POLI 442	 International Political Economy	3
GEOG 124	 Feminist Geographies	3
GEOG 448	Transnational Geographies of Muslim Societies	3

Special Opportunities in Contemporary European Studies

Students may be interested in the resources available through UNC's Center for European Studies (CES), a United States Department of Education Title VI National Resource Center and a Jean Monnet Center of Excellence funded by the European Commission. CES offers a range of ongoing programs including guest speakers, film festivals, conferences, and cultural events. CES hosts Europe Week at Carolina each spring, a week of events during which the diversity of Europe's history, politics, culture, and languages is showcased.

The center also houses the TransAtlantic Masters Program (<http://tam.unc.edu>) (TAM), an M.A. degree program that may be of particular interest to students who have completed the major in contemporary European studies. The TAM program includes study at UNC and at one or more partner universities in Europe. The EURO-TAM B.A.-M.A. dual degree option allows students to complete both degrees in accelerated time.

Students interested in pursuing the B.A-M.A. program or learning more about funding for research and travel, the Model EU program, study abroad, internships, publishing in the Curriculum in Contemporary European Studies' N.C. Journal for European Studies, career planning, and the alumni network are encouraged to speak with the director of undergraduate studies and to visit the website (<https://europe.unc.edu/euro/>) for more information.

Department of Exercise and Sport Science

Introduction

The mission of the Department of Exercise and Sport Science is to discover and promote knowledge of human movement to improve quality of life.

Exercise and sport science examines the anatomy, physics, physiology, and psychology of sport and exercise. The general major provides foundational courses in exercise science that prepares students for many paths. Students interested in sport administration can build a foundation in the management of sport, and explore career options related to amateur, interscholastic, or professional sport operation and business. The fitness professional program is designed to prepare students for careers in a variety of health-related fields, including but not limited to entry-level positions in the health-fitness industry; personal training of amateur, professional, and recreational athletes; exercise therapy for a range of clinical conditions; or graduate study in exercise physiology. Other career options for majors include strength-conditioning coach for an athletic team; exercise research within the athletic, medical, or pharmaceutical industries; or fitness club entrepreneur. By choosing additional courses, students can apply to schools of physical therapy, occupational therapy, athletic training, public health, nursing, or medicine.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are

strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. In the Department of Exercise and Sport Science four faculty members serve as advisors with weekly office hours (see "Programs" above and contact information on the website). The department communicates via a listserv, Facebook posts, tweets, blog posts, classroom "advising" visits, bulletin boards/video boards throughout the building, and the departmental website (<http://exss.unc.edu/>). Departmental academic advising is particularly important for those majors who are considering graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<http://exss.unc.edu/>).

Facilities

In addition to classroom space and physical activity area, Fetzer Hall, Woollen Gym, and Stallings-Evans Sports Medicine Center house several well-equipped research and teaching laboratories:

1. The Applied Physiology Laboratory is fully equipped to measure metabolism, body composition, and aerobic fitness. Additionally, it houses a chemistry laboratory to study the biochemistry of exercise.
2. The Cadaver Anatomy Laboratory is designed to teach cadaver dissection in order to gain a greater knowledge about how the human body works in an athletic environment.
3. The Exercise Science Teaching Laboratory was specifically designed for teaching exercise science laboratory experiences as well as clinical exercise testing experiences.
4. The MOTION Science Institute, comprised of four research laboratories (Motion Analysis Laboratory, Neuromuscular Assessment Laboratory, Gait Biomechanics Laboratory, and Psychology of Sport Injury Laboratory), is fully equipped to evaluate neuromuscular function, biomechanics, and psychological factors associated with musculoskeletal injury prevention.
5. The CPR Laboratory is a teaching laboratory for CPR and first aid skills. The laboratory is equipped with mannequins, AED trainers, and first aid equipment.
6. The Exercise Oncology Laboratory is equipped with the latest technology for the assessment of cardiorespiratory and pulmonary function, body composition, cognitive function, electrocardiogram monitoring capability, and evaluation of heart rate coherence and heart rate variability in oncology patients.
7. Through its clinical and research initiatives, the Matthew Gfeller Sport-Related Traumatic Brain Injury Research Center demonstrates its commitment to providing the highest level of care for athletes of all ages suffering from sport-related brain injuries, and to assisting parents, coaches, and medical professionals in managing these athletes.
8. The Athletic Training Teaching Laboratory is designed for students to practice evaluation, treatment, and rehabilitation skills. It is equipped with treatment tables, evaluation tools, rehabilitation supplies such as foam rollers, exercise balls, and taping supplies.
9. The Cardiometabolic Laboratory investigates: the interactions between lifestyle behaviors and cardiometabolic health with a particular interest in sedentary behavior and young adults, the development and interpretation of methodologies for assessing cardiometabolic health, and the translation of basic and applied science in regards to public health outcomes.

Graduate School and Career Opportunities

Many undergraduate exercise and sport science majors are preparing for graduate work in related areas: exercise physiology, physical therapy, sports medicine, nutrition, athletic training, sports administration/management, etc. They will be well-prepared for master's and doctoral programs, and graduate assistantships in these areas at UNC-Chapel Hill and other large universities. Numerous career opportunities exist in a variety of fields directly related to sport and exercise. Some graduates go directly into health/fitness/sport-related employment. Others attend professional schools or pursue advanced academic degrees.

Professors

Claudio L. Battaglini, J. Troy Blackburn, Anthony C. Hackney, Jason P. Mihalik, Barbara Osborne, Darin A. Padua, Brian G. Pietrosimone, William E. Prentice, Eric D. Ryan, Abbie E. Smith-Ryan, Erienne A. Weight.

Associate Professors

Erik D. Hanson, Jonathan A. Jensen, Zachary Y. Kerr, Kristen L. Kucera, Micheal D. Lewek, Nels K. Popp, Johna Register-Mihalik, Lee Stoner, Erik A. Wikstrom.

Assistant Professors

Shelby E. Baez, Malia Blue, Jimikaye B. Courtney, Adam C. Kiefer.

Teaching Professors

Alain J. Aguilar, Meredith A. Petschauer.

Teaching Associate Professors

J.D. DeFreese, Angela Pratt.

Teaching Assistant Professors

Rebecca L. Battaglini, Benjamin M. Goerger, Wayne McDonnell Jr., Aliza K. Nedimyer, Kristin S. Ondrak, Anthony F. Patterson.

Research Associate Professor

Wesley R. Cole.

Research Assistant Professor

Gena R. Gerstner.

Lecturers

Bradley Bates, John Brunner, Anthony Cosby, Greg Moore, Sherry Norris, Leon R. Schimmelfing, James Strong, Nina Walker, Sunny Yu.

Postdoctoral Research Associates

Thomas Birchmeier, Aiden Chantry, Katherine Collins, Daniel Corry, Hyunwook Lee, Aaron Sinnott, Jeb Struder.

Professor of the Practice

Richard A. Baddour.

Professors Emeriti

M. Deborah Bialeschki, John E. Billing, Bonita L. Marks, Robert G. McMurray, Frederick O. Mueller, John M. Silva.

Teaching Professor Emerita

Sherry Salyer.

Adjunct Professors

David J. Berkoff, Deborah L. Givens, Kevin M. Guskiewicz, Stephen W. Marshall, Karen L. McCulloch, Todd Schwartz.

Adjunct Associate Professors

Kevin Carneiro, Vicki S. Mercer.

Adjunct Assistant Professors

Avinash Chandran, Shawn Kane, Michael Mazzoleni.

Courses

EXSS—Exercise and Sport Science

Undergraduate-level Courses

EXSS 10. Beginning Ballet. 1 Credits.

The technique and vocabulary of classical ballet are presented. Exercises at the barre are followed by practice and combinations in the center. Previously offered as PHYA 208.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade.

EXSS 11. Introduction to Dance Technique. 1 Credits.

This course is an introduction to the positions, exercises, and steps common to ballet, jazz, and modern dance. It is designed for students with no previous dance experience and is a prerequisite for EXSS 10, 12, and 13. Previously offered as PHYA 212.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade.

EXSS 12. Beginning Modern Dance. 1 Credits.

Students will explore the principles of movement that define modern dance, gaining some understanding of the use of weight, the shape of the body in space, an awareness of timing and energy, and individual creative potential. Previously offered as PHYA 224.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade.

EXSS 13. Beginning Jazz Dance. 1 Credits.

Students will explore the roots of the jazz style through rhythm, principles of isolation and opposition, shape and energy through center work, stretches, movement across the floor, and simple routines. Previous ballet training is highly recommended. Previously offered as PHYA 220.

Rules & Requirements

Requisites: Prerequisite, EXSS 11.

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade.

EXSS 14. Beginning Social Dance. 1 Credits.

The basic step patterns of popular social dances, such as fox trot, waltz, cha-cha, swing or shag, hustle, tango, and others are taught. Confidence in the ability to lead or to follow is developed. Social enjoyment of dance is emphasized. Previously offered as PHYA 231.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade.

EXSS 20. Intermediate Ballet. 1 Credits.

For the dancer with a solid understanding of the basics of ballet and several years' dance training. It emphasizes more sophisticated steps in longer combinations. Previously offered as PHYA 308.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade.

EXSS 21. Intermediate Jazz Dance. 1 Credits.

Students will explore the jazz style in greater complexity plus gain understanding of jazz music as it relates to jazz dance. It includes center work, complex movement phrases across floor, adagio, and routines using large movement vocabulary. At least two years of dance and familiarity with jazz style are recommended. Previously offered as PHYA 320.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade.

EXSS 22. Intermediate Modern Dance. 1 Credits.

Students will work to develop greater technical skill and continue a more advanced exploration of modern dance principles of effort-shape through center work and phrases of greater length and complexity in the center and across the floor. At least two years of modern dance training are recommended. Previously offered as PHYA 324.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade.

EXSS 30. Advanced Ballet. 1 Credits.

For the dancer with substantial background in ballet. Speed, endurance, multiple turns, beats, and complicated combinations are emphasized. Previously offered as PHYA 408.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade.

EXSS 32. Advanced Modern Dance. 1 Credits.

This course is designed for the dancer with a solid understanding of the principles underlying modern dance and several years of dance training. It focuses on longer and more complicated phases of movements. Previously offered as PHYA 424.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade.

EXSS 50. First-Year Seminar: Discrimination and Sport. 3 Credits.

This course will examine the American ethos by looking at those who have been discriminated against in sport because of race, gender, sexual orientation, or disability.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: SS, US.

Grading Status: Letter grade.

EXSS 51. First-Year Seminar: Entrepreneurship in Human Performance and Sport. 3 Credits.

This course will provide students an introduction to the practical entrepreneurial business tools for starting a new business (or for use in an existing organization) in the human performance and/or sport industry.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: EE- Field Work.

Grading Status: Letter grade.

EXSS 53. Brain Matters: The Human Computer. 3 Credits.

The human brain remains one of the greatest anatomical and physiological mysteries remaining for us to explore. Containing over 100 billion neurons, each with 1,000-10,000 synapses, the human brain serves as the hub of everything we do. The most sophisticated 'computer' in existence, this course will provide first year students from all majors with an interdisciplinary approach to studying the human brain. Discussions will explore topics including anatomy, neurodevelopment, decision-making, maturation, disease, and more. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.

Grading Status: Letter grade.

EXSS 55. First-Year Seminar: Sport Engineering and Human Performance. 3 Credits.

This first year seminar is designed to discuss the limits of human performance and equipment that is engineered to enhance performance. How fast is it possible to run or swim? Will Olympic records continue to be broken? When do we reach our full athletic potential? This course is designed to challenge your thinking about performance using the science that governs biomechanics and human physiology as well as exploring the data that drives equipment development.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.

Grading Status: Letter grade.

EXSS 89. First-Year Seminar: Special Topics. 3 Credits.

Course content will vary each semester. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.

Grading Status: Letter grade.

EXSS 141. Personal Health. 3 Credits.

Elective, open to all students. This course examines basic wellness concepts in the areas of physical fitness, nutrition, disease prevention, mental health, drug abuse, and human sexuality. Emphasis is on the individual's responsibility for his/her own health.

Rules & Requirements

Grading Status: Letter grade.

EXSS 155. Human Anatomy and Physiology I. 3 Credits.

This course is targeted to students enrolled in Department of Exercise and Sport Science majors as well as other students with interest in medical professions. This course involves a systematic approach to human anatomy and physiology with an emphasis on the musculoskeletal, articular and nervous systems as well as anatomical terminology and homeostasis. No prerequisites are required. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections).

Grading Status: Letter grade.

EXSS 175. Human Anatomy. 3 Credits.

The study of the structure of the human body with special emphasis on the musculoskeletal, articular, and nervous systems. Prosected cadaver materials are utilized to study the skeletal muscles and body viscera.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections).

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

EXSS 180. Physical Activity in Contemporary Society. 3 Credits.

This course is designed to examine the role of physical activity/inactivity on the health and well-being of American society. Through reading, discussion, writing and critical thinking, students will explore what it means to be physically active, the importance of physical activity, and some of the barriers and facilitators that impact the ability of various individuals to participate in physical activity.

Rules & Requirements

Grading Status: Letter grade.

EXSS 181. Sport and Exercise Psychology. 3 Credits.

This course exposes students to psychological aspects contributing to sport/physical activity participation and psychological outcomes of participation. It explores psychological theories and research and their application to the affective, behavioral, and cognitive outcomes of sport/physical activity participants when considering key environmental factors.

Rules & Requirements

Grading Status: Letter grade.

EXSS 191. Theory and Practice of Modern Dance Technique - Elementary-Level Elective. 3 Credits.

An introduction to modern dance technique, history, and philosophy focusing on the physical principles of movement and their choreographic application. Students will participate in a combination of lectures and studio time.

Rules & Requirements

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

EXSS 205. Analysis of Sport Skills I. 3 Credits.

A professional preparation course in the skills, knowledge, safety, and teaching progressions of basketball and soccer.

Rules & Requirements

Grading Status: Letter grade.

EXSS 206. Analysis of Sport Skills II. 3 Credits.

A professional preparation course in the skills, knowledge, safety, and teaching progressions of tennis and volleyball.

Rules & Requirements

Grading Status: Letter grade.

EXSS 207. Coaching Principles. 3 Credits.

A professional preparation course for teaching and coaching. Includes basic instruction in coaching education and principles, pedagogy for coaching, conditioning for athletes, and team building.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Grading Status: Letter grade.

EXSS 208. Health and Physical Education in the Elementary School. 3 Credits.

This course deals with methods and materials of health and physical education in school levels kindergarten through sixth grade. Required of elementary education majors. Does not count toward physical education major.

Rules & Requirements

Grading Status: Letter grade.

EXSS 211. Adapted Physical Education. 3 Credits.

A study of problems related to body mechanics and the needs of the physically handicapped student.

Rules & Requirements

Grading Status: Letter grade.

EXSS 220. Fitness Management. 3 Credits.

Students develop a working knowledge of theories, principles, and operating procedures involved in managing programs, staff, and facilities in the health/fitness industry, including management, marketing, operations, legal aspects.

Rules & Requirements

Grading Status: Letter grade.

EXSS 221. Introduction to Sport Administration. 3 Credits.

In this course, students are introduced to the policies and problems of organizing and administering sport in public and private settings.

Rules & Requirements

Grading Status: Letter grade.

EXSS 223. International Sport Management. 3 Credits.

Because sport cuts across all international boundaries, students must understand the global implications of the sport industry. This course introduces students to the organization, governance, business activities, and intercultural issues in international sport.

Rules & Requirements

Grading Status: Letter grade.

EXSS 256. Human Anatomy and Physiology II. 3 Credits.

This course is targeted to students enrolled in Department of Exercise and Sport Science majors as well as other students with interest in medical professions. This course involves a systematic approach to human anatomy and physiology with an emphasis on the metabolic, endocrine, digestive, cardiovascular, respiratory, renal, integumentary and immune systems.

Rules & Requirements

Requisites: Prerequisite, EXSS 155.

Grading Status: Letter grade.

EXSS 260. Women and Sport. 3 Credits.

A broad based perspective of women's participation in sport including history of participation, physiological differences, and socio-cultural influences including work, politics, family, economics, and gender roles and identity.

Rules & Requirements

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

Same as: WGST 260.

EXSS 265. Fundamentals of Sports Medicine. 3 Credits.

This course is designed to introduce the undergraduate student to the sports medicine profession and to provide the basic knowledge and skills necessary to recognize, evaluate, and treat injuries to the head and face, cervical spine, thoracic region, abdominal/urogenital region, and extremities.

Rules & Requirements

Requisites: Prerequisite, EXSS 155 or EXSS 175.

Grading Status: Letter grade.

 **EXSS 273. Research in Exercise and Sport Science. 3 Credits.**

An introduction to research in the fields of physical education, exercise, and sport science with emphasis on understanding and application of research findings.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

EXSS 275L. Human Anatomy Laboratory. 1 Credit.

EXSS 275L is a basic human anatomy laboratory course designed to accompany EXSS 155 or EXSS 175. For students endeavoring to major in the allied health professions.

Rules & Requirements

Requisites: Prerequisite, EXSS 155 or EXSS 175 with a grade of B or better.

Grading Status: Letter grade.

EXSS 276. Human Physiology. 3 Credits.

Instructor may approve equivalents for prerequisite. A lecture course in elementary physiology, covering the various systems of the body.

Rules & Requirements

Making Connections Gen Ed: PL.

Requisites: Prerequisite, EXSS 175.

Grading Status: Letter grade.

EXSS 288. Emergency Care of Athletic Injuries and Illnesses. 3 Credits.

Recommended preparation, EXSS 155 or EXSS 175. Theory and practice of basic first aid, cardiopulmonary resuscitation, and the acute care of athletic injuries.

Rules & Requirements

Grading Status: Letter grade.

EXSS 290. Special Topics in EXSS. 3 Credits.

Variable topics course in Exercise and Sports Science. Honors version available.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.

Grading Status: Letter grade.

EXSS 291. Theory and Practice of Modern Dance Technique - Intermediate-Level Elective. 3 Credits.

An intensive study of modern dance technique and philosophy, focusing on the physical principles of movement and their choreographic application. One hour seminar and four and one-half hours laboratory.

Rules & Requirements

Requisites: Prerequisite, EXSS 191; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

 **EXSS 293. Internship in Exercise and Sport Science. 1-3 Credits.**

The purpose of this course is to provide the student with a structured, supervised practical experience in exercise and sport science professional settings. Students will be individually mentored by on-site supervisors who will be responsible for assigning and assessing meaningful work, as well as providing training, feedback, and opportunities for participation in organizational activities. Students will receive guidance for professional development from their lead instructor in the form of in-class activities, assignments, and guest speakers. Restricted to EXSS general majors (not Fitness Professional or Sport Administration) with at least junior-year standing who are within 4 semesters of graduation, and a minimum 2.0 GPA (overall and within major).

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Grading Status: Pass/Fail.

EXSS 322. Fundamentals of Sport Marketing. 3 Credits.

This course is designed to introduce students to marketing within the sports industry, including the unique aspects of the sport product and sport consumer markets.

Rules & Requirements

Requisites: Prerequisite, EXSS 221.

Grading Status: Letter grade.

EXSS 323. Sport Facility and Event Management. 3 Credits.

This course is designed to develop practical competencies necessary for effectively managing sport facilities and events while providing students with experiential learning opportunities inside and outside the classroom.

Rules & Requirements

Requisites: Prerequisite, EXSS 221.

Grading Status: Letter grade.

EXSS 324. Finance and Economics of Sport. 3 Credits.

This course provides an understanding of the financial and economic growth of sport, economic theory applied to the sport industry, and the basic principles and methods of sound fiscal control.

Rules & Requirements

Requisites: Prerequisites, ECON 101 and EXSS 221; Pre- or corequisite, STOR 151 or STOR 155 recommended.

Grading Status: Letter grade.

EXSS 325. The Role of Intercollegiate Athletics in Higher Education. 3 Credits.

This course is designed to help students interested in working in college sports understand what that role has been and might be in the future, with an emphasis on maximizing the educational value of intercollegiate athletic participation and the integration of athletics with academic and student life dimensions on college campuses.

Rules & Requirements

Grading Status: Letter grade.

EXSS 326. Legal Aspects of Sport. 3 Credits.

This course provides a foundation in general legal concepts and familiarizes students with the legal areas they are most likely to encounter as managers in the sports and fitness industry.

Rules & Requirements

Requisites: Prerequisite, EXSS 221.

Grading Status: Letter grade.

 **EXSS 327. Predictive Analytics in Sport. 3 Credits.**

This course is designed to provide students with an introduction to predictive analytics utilizing regression-based modeling approaches. As a CURE course, students will learn the iterative process of model building through trial and error and by working with other students on hands-on problems. At the conclusion of this course, students will be able to analyze sport-related data using predictive analytics, whether the dependent variable is continuous or binary in nature. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisite, STOR 151 or 155 with a grade of B or better.

Grading Status: Letter grade.

EXSS 328. Sport Business Venture. 3 Credits.

This course will provide students an introduction to practical entrepreneurial business tools for starting a new business (or for use in an existing organization) in the sport industry.

Rules & Requirements

Grading Status: Letter grade.

 **EXSS 330. Sociocultural Aspects of Sport and Exercise. 3 Credits.**

This course will enhance students' understandings about social and cultural dimensions of sport and exercise contexts. Through directed readings, classroom conversations, assignments/projects, and guest speakers, students in this course will learn how these sociocultural realities 1) are explored through academic research, and 2) impact sport and exercise policy, programs, and innovation, and 3) impact sport and exercise constituents, such as participants, planners, leaders, and advocates. This is an elective course for all junior/senior EXSS majors. EXSS majors, Junior/Senior standing

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-POWER.

Grading Status: Letter grade.

EXSS 360. Sports Nutrition. 3 Credits.

The role of nutrition in maximizing physical performance, promoting health, and controlling body weight. Includes individual nutritional assessments.

Rules & Requirements

Requisites: Prerequisite, EXSS 256 or EXSS 276 or NUTR 240.

Grading Status: Letter grade.

EXSS 366. Foundations of Sports Medicine Rehabilitation. 3 Credits.

This course is designed to introduce undergraduate students to the basic principles and skills used to rehabilitate sport related injuries with an emphasis on musculoskeletal injuries.

Rules & Requirements

Requisites: Prerequisite, EXSS 265.

Grading Status: Letter grade.

EXSS 367. Therapeutic Modalities. 3 Credits.

This is an advanced athletic training course, designed to provide the athletic training student with knowledge and skills necessary for treating injuries.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 or EXSS 175; and EXSS 265, EXSS 288, and EXSS 366.

Grading Status: Letter grade.

EXSS 368. Therapeutic Exercise and Rehabilitation. 3 Credits.

This is an advanced athletic training course, designed to provide the athletic training student with knowledge and skills necessary for rehabilitating injuries.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 or EXSS 175; and EXSS 265, EXSS 288, EXSS 366, and EXSS 367.

Grading Status: Letter grade.

EXSS 369. Athletic Training Seminar. 3 Credits.

A presentation of the historical and current perspectives on athletic training, including techniques for organizing and administering athletic training programs.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 or EXSS 175; and EXSS 288.

Grading Status: Letter grade.

EXSS 370. General Medicine in Athletic Training. 3 Credits.

Advanced course focusing on understanding instrumentation used in assessing internal injury related to sport. Pharmacology, drug testing, psychosocial interventions, and selected emergency procedures pertaining to athletic injury are also presented.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 and EXSS 256, or EXSS 175 and EXSS 276; and EXSS 265 and EXSS 288.

Grading Status: Letter grade.

EXSS 376. Physiological Basis of Human Performance. 4 Credits.

Instructor may approve equivalents for EXSS prerequisites. Students must take laboratory section along with class. The application of physiological principles to sport and physical activity. Both immediate and chronic adaptations to exercise are studied. Two lecture and two laboratory hours a week.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 and EXSS 256; or EXSS 175 and EXSS 276.

Grading Status: Letter grade.

EXSS 380. Neuromuscular Control and Learning. 3 Credits.

This course introduces neuromuscular control and motor learning through a general understanding of neuroanatomy/neurophysiology, sensory contributions to human movement, initiation and regulation of voluntary movement, and the acquisition of motor skills. Course topics include central and peripheral nervous system functions in the production and regulation of human movement, neural pathways and control mechanisms, and enhancement of motor learning in the rehabilitation and training settings. Honors version available.

Rules & Requirements

Requisites: Prerequisite, EXSS 155 or EXSS 175.

Grading Status: Letter grade.

EXSS 385. Biomechanics of Sport. 3 Credits.

This course introduces the principles of biomechanics, including kinematics, kinetics, projectile motion, fluid forces and statics analysis. It includes the application of both kinematics and kinetic variables to joint motion and sport activities. Instructor may approve equivalents for EXSS prerequisite.

Rules & Requirements

Requisites: Prerequisite, EXSS 155 or EXSS 175.

Grading Status: Letter grade.

 **EXSS 391. Undergraduate Learning Assistanship. 1 Credits.**

This course is designed for undergraduate students to provide course support to their peers. This course provides opportunities for students to prepare, demonstrate, and consult with their peers via in- and out-of-class activities. Students will gain an enhanced understanding of Exercise and Sport Science content with a lens towards explaining to less experienced students, gaining pedagogical knowledge and experience, and engaging in comprehensive, concise, and clear oral and written communication. EXSS Majors only; Successful completion, with a grade of C or higher, of the course you are assisting

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-LEARNTA.

Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.

Grading Status: Pass/Fail.

 **EXSS 393. Sports Medicine Clinical. 1-3 Credits.**

This field experience offers implementation of theories and practices of athletic training and sports medicine under the supervision of a certified athletic trainer.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisites, EXSS 155 or EXSS 175; and EXSS 265 or EXSS 288.

Repeat Rules: May be repeated for credit. 5 total credits. 5 total completions.

Grading Status: Letter grade.

 **EXSS 395. Undergraduate Research Course. 1-3 Credits.**

Permission of the instructor. Majors preferred. Laboratory/research study addressing exercise and sport science questions. Requires final written report. Repeatable for six total credits.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.

Grading Status: Letter grade.

EXSS 396. Independent Studies in Exercise and Sport Science Elective. 1-3 Credits.

Required preparation, any two relevant courses. Permission of the instructor. Individually designed in-depth study in an area of interest within exercise and sport science. Available to both majors and nonmajors under the supervision of selected EXSS faculty members.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

EXSS 397. Critical Analysis of Literature in Sport and Exercise Psychology. 1 Credits.

This course will expose students to research in sport and exercise psychology using the C.R.E.A.T.E. (Consider, Read, Elucidate the hypotheses, Analyze and interpret the data, and Think of the next Experiment) framework. Students will follow the historical publications of one sport and exercise psychology research group to better understand the research process. Each research paper will be digested/critiqued in phases. Student will also formulate their own novel research questions and present them to the class.

Rules & Requirements

Requisites: Prerequisite, EXSS 181.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

EXSS 408. Theory and Application of Strength Training and Conditioning for Fitness Professionals. 3 Credits.

Students will learn to design an individualized fitness plan for a "healthy" adult for common fitness goals by assessing their movement and fitness, exercise leadership, and program design. This class, in part, prepares students for the NASM certified personal training (CPT) certification.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 and EXSS 256; or EXSS 175 and EXSS 276.

Grading Status: Letter grade.

EXSS 409. Exercise Prescription for Special Populations. 3 Credits.

Exercise benefits everybody. This course will teach evidence-based information for developing, modifying and implementing fitness programs for individuals with chronic disease, metabolic, cardiac, pulmonary, and other issues deemed as special populations. The knowledge and skills attained in this course will enhance any basic personal training certification and give a better understanding of working with what could be considered the general public.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 and EXSS 256, or EXSS 175 and EXSS 276; and EXSS 376.

Grading Status: Letter grade.

EXSS 410. Exercise Testing and Prescription. 4 Credits.

This course is designed to provide theoretical and practical knowledge in basic exercise testing and prescription for both healthy and select special populations. This course includes both lectures and a lab. Priority registration is given to EXSS- Fitness Professional students and permission to enroll is obtained by completing the form linked in the registration section in Connect Carolina.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 and EXSS 256, or EXSS 175 and EXSS 276; and EXSS 376.

Grading Status: Letter grade.

EXSS 420. Program Planning in Recreation Services. 3 Credits.

This experiential course covers the concepts and skills used in program planning. Students apply their program planning skills to real-life situations and implement a recreation program for a community agency. Previously offered as RECR 420.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-SERVICE.

Making Connections Gen Ed: EE- Service Learning.

Grading Status: Letter grade.

EXSS 424. Sport Sales and Revenue Production Seminar. 3 Credits.

This course will analyze and produce skills essential to the revenue production and sales process commonly found in the sport business. In this class students will develop an understanding and appreciation for the sales and revenue-production process related to a sport franchise and/or organization.

Rules & Requirements

Requisites: Prerequisites, EXSS 221 and EXSS 322.

Grading Status: Letter grade.

EXSS 430. Introduction to Leadership and Group Dynamics. 3 Credits.

An analysis of the techniques, methods, and motives of group and community leaders. Special attention is focused upon the roles of organizational structure, personnel policies, and in-service training programs. Previously offered as RECR 430.

Rules & Requirements

Making Connections Gen Ed: CI.

Requisites: Prerequisite, EXSS 221.

Grading Status: Letter grade.

EXSS 433L. Exercise Technique. 1 Credits.

This course is designed to teach students how to lead and coach a group of individuals toward movement proficiency in common athletic-based exercises.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 and EXSS 256; or EXSS 175 and EXSS 276.

Grading Status: Letter grade.

EXSS 450. Essentials of Corrective Exercise Training. 3 Credits.

Students will learn to explain, design, and execute a corrective exercise program to improve movement quality. Students will be introduced to skills such as range of motion, strength, and movement quality assessments. This class, in-part, prepares students for the NASM corrective exercise specialist (CES) certification.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 and EXSS 256; or EXSS 175 and EXSS 276.

Grading Status: Letter grade.

EXSS 475. Functional Anatomy. 3 Credits.

This course provides an in-depth exploration of joint mechanics. It exposes students to motions of the cervical, thoracic, and lumbar spine as well as the extremities, and relates these concepts to movement of the body during specific activities.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 and EXSS 256, or EXSS 175 and EXSS 276; and EXSS 385.

Grading Status: Letter grade.

EXSS 478. Sports Performance Training. 3 Credits.

This course focuses on the foundational knowledge needed to train athletes, including performance assessment, coaching exercise technique, and program design. This class, in part, prepares students for the NSCA Certified Strength and Conditioning Specialist (CSCS) certification.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 and EXSS 256; or EXSS 175 and EXSS 276.

Grading Status: Letter grade.

EXSS 479. Performance Enhancement Specialization for Health Professionals. 1 Credits.

This course is designed for certified athletic trainers (ATC) and gives them advanced rehab and performance skills that can be used during an athlete's return to sport progression. Students will learn to assess movement quality and performance, lead an individual through common strength and conditioning exercises, and write a basic performance plan based on NASM strategies. This class, in-part, prepares students for the NASM performance enhancement specialist (PES) certification.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 and EXSS 256, or EXSS 175 and EXSS 276; and EXSS 366 and EXSS 368.

Grading Status: Letter grade.

 **EXSS 493. Field Experience in Sport Administration. 3 Credits.**

This field experience offers implementation of theory and the practical application of sport administration in a sport organization worksite, under the direct supervision of a business professional.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Requisites: Prerequisites, EXSS 221 and at least two of the following: EXSS 322, 323, 324, 326; permission of the instructor required for students lacking the prerequisites.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **EXSS 573. Sport Injury Epidemiology. 3 Credits.**

This course will introduce the student to the public health importance and epidemiology of injuries and other medical conditions in sport and physical activity. Previously offered as EXSS 373.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Requisites: Prerequisite, EXSS 273, PSYC 210, or appropriate statistics course with permission of instructor.

Grading Status: Letter grade.

EXSS 576. Exercise Endocrinology. 3 Credits.

Advanced course examining the responses of the endocrine system to exercise and the adaptations that occur with exercise training. Provides the fundamentals necessary for exercise science and allied health science students to understand the integral role that the endocrine system plays in exercise.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 and EXSS 256, or EXSS 175 and EXSS 276; and EXSS 376.

Grading Status: Letter grade.

EXSS 580. Neuromechanics of Human Movement. 3 Credits.

This course explores interactions between the nervous and musculoskeletal systems via integration of concepts from neuroanatomy, neurophysiology, anatomy, neuromuscular control, and biomechanics. Topics include muscle mechanics, sensorimotor function, joint stability, movement disorders, neurocognition, and neuroplasticity following injury and disease.

Rules & Requirements

Requisites: Prerequisites, EXSS 155 or EXSS 175; and EXSS 380 and EXSS 385.

Grading Status: Letter grade.

EXSS 581. Biopsychosocial Aspects of Sport Injury. 3 Credits.

This course is designed to explore the theory and research related to the biopsychosocial approach to treating patients experiencing sport injury and undergoing rehabilitation. Application and synthesis of biopsychosocial theories and biopsychosocial therapy interventions into sport injury research and clinical practice will occur. The focus is on theory and application of various psychological concepts.

Rules & Requirements

Grading Status: Letter grade.

 **EXSS 593. Practicum in Physical Fitness and Wellness. 1-9 Credits.**

A field experience (i.e., internship) in a local fitness & wellness or strength and conditioning setting designed for students to apply their classroom knowledge and skills, in a worksite of their choice, under the direct supervision of certified professionals. This class is only open to EXSS - Fitness Professional students. Permission to enroll is obtained by attending a practicum. Permission to enroll is obtained by attending a practicum registration meeting one semester in advance.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Requisites: Prerequisites, EXSS 220, 380 or 385, 408 or 478, and 410.

Repeat Rules: May be repeated for credit. 9 total credits. 9 total completions.

Grading Status: Letter grade.

 **EXSS 693H. Senior Honors Thesis. 3 Credits.**

Required preparation, a cumulative grade point average meeting the University standard and permission of the department. Directed independent research under the supervision of a faculty advisor who teaches in the exercise and sport science curriculum.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisite, EXSS 273.

Grading Status: Letter grade.

 **EXSS 694H. Senior Honors Thesis. 3 Credits.**

Required preparation, a cumulative grade point average meeting the University standard and permission of the department. Preparation of an honors thesis and an oral examination on the thesis.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisite, EXSS 273.

Grading Status: Letter grade.

LFIT–Lifetime Fitness

One lifetime fitness course is a graduation requirement for all students at UNC–Chapel Hill (post-2006 curriculum). Students are encouraged to complete the lifetime fitness requirement during their first year of study. Effective in fall 2011, a student may enroll in only one LFIT course and may count only one, one-credit LFIT course toward graduation at Carolina. These courses combine practice in a sport or physical activity with general instruction in lifelong health.

Undergraduate-level Courses

LFIT 102. Lifetime Fitness: Adapted Physical Activity. 1 Credits.

Assignments to this class are made for students with special needs in physical activities focusing primarily on acute and chronic physical limitations. Activities are assigned commensurate with interests and abilities. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

 IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 103. Lifetime Fitness: Aerobics. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes various forms of aerobics. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

 IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 104. Lifetime Fitness: Exercise and Conditioning. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. Activities will promote cardiovascular endurance, muscular strength and endurance, and flexibility. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

 IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 105. Lifetime Fitness: Indoor Sports. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. Activity portion of the course includes basketball, volleyball, and indoor soccer. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

 IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 106. Lifetime Fitness: Beginning Jogging. 1 Credits.

This course is an introduction fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course promotes cardiovascular fitness through jogging. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

 IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 107. Lifetime Fitness: Intermediate Jogging. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. Activity portion for students who can complete 30 minutes of jogging. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

 IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 108. Lifetime Fitness: Outdoor Sports. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. Activity portion of course includes ultimate frisbee, flag football, and soccer. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

 IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 109. Lifetime Fitness: Racquet Sports. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes badminton, tennis, and racquetball. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

 IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 110. Lifetime Fitness: Beginning Swimming. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes swimming skills for beginners. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

 IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 111. Lifetime Fitness: Swim Conditioning. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course promotes cardiovascular fitness through swimming. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 112. Lifetime Fitness: Walking. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course promotes cardiovascular fitness through walking. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 113. Lifetime Fitness: Weight Training. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion includes basic techniques of weight training. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 114. Lifetime Fitness: Yoga and Pilates. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion includes basic instruction in both yoga and pilates. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 115. Lifetime Fitness: Cycle Fitness. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion includes basic instruction in cycle fitness. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 118. Lifetime Fitness: Flag Football. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes basic instruction in flag football. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 128. Lifetime Fitness: Self Defense. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion includes basic techniques of self defense. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 129. Lifetime Fitness: Downhill Skiing and Snowboarding. 1 Credits.

An introduction to fitness and wellness that includes developing personal fitness programs and instruction in physical activity. The activity portion includes basic conditioning and instruction in both downhill skiing and snowboarding, including five days in Boone, NC. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 130. Lifetime Fitness: Soccer. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion will provide soccer instruction and game play. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 138. Lifetime Fitness: Tennis. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes basic instruction in tennis. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 140. Lifetime Fitness: Ultimate Frisbee. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes basic instruction in ultimate frisbee. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 145. Lifetime Fitness: Brazilian Jiu Jitsu. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes basic instruction in Brazilian jiu jitsu. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 146. Lifetime Fitness: Sand Volleyball. 1 Credits.

This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes basic instruction in sand volleyball. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

LFIT 190. Special Topics in Lifetime Fitness. 1 Credits.

This course is designed to cover the study and practice of special topics directed by an authority in the field. Subject matter will vary per instructor and topic. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements

IDEAs in Action Gen Ed: LIFE-FIT.

Making Connections Gen Ed: LF.

Grading Status: Pass/Fail.

PHYA—Physical Activity**Undergraduate-level Courses****PHYA 201. Adapted Physical Activity. 1 Credits.**

Assignments to this class are made for students with special needs in physical education focusing primarily on acute and chronic physical limitations. Activities are assigned commensurate with interests and abilities. Students are required to present an exercise prescription from a physician including prescribed activities and limitations.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 202. Beginning Aerobics. 1 Credits.

Provides a cardiovascular fitness program incorporating physiologically safe dance and exercise movements to music. It develops strength, flexibility, and improved cardiorespiratory efficiency.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 203. Aerobic Circuit Training. 1 Credits.

Challenges students to achieve higher levels of overall fitness in a cardiovascular program that combines stations of muscular strength with endurance while incorporating a wide variety of equipment. Students are expected to be able to participate in a minimum of 20 minutes of aerobic exercise.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 206. Badminton. 1 Credits.

The course includes an orientation to the history and rules of the game, terminology, and equipment. Basic skills and techniques include the proper grip, stance, footwork, forehand and backhand clears, long and short serves, net shots, around-the-head shot, and the smash. Presents basic single and double game strategies.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 209. Beginning Basic Training. 1 Credits.

Beginning physical fitness program based on the model used by the United States Army Physical Fitness Academy and designed to improve aerobic and anaerobic strength, endurance, and overall physical fitness.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 211. Cycling. 1 Credits.

The purpose of this course is to introduce students to the history and skill of cycling. The course will focus on maintenance of the bicycle, fitness acquired through the use of cycling, and the skills of climbing, descending, cornering, and balance.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 213. Exercise and Conditioning. 1 Credits.

Covers activities that promote cardiovascular endurance, muscular strength and endurance, and flexibility. The course content includes fitness evaluation, stretching, weight training, aerobic exercise, jogging, and circuit training. Individual exercise programs are developed.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 214. Beginning Fencing. 1 Credits.

Introduces students to the history, rules, and terminology of the sport of fencing. It traces the development of ancient and modern weapons; presents warm-up, stretching, and conditioning exercises that are specific to the sport; and covers grip, basic positions, and footwork. Individual and team competitions are conducted in the course.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 216. Beginning Golf. 1 Credits.

Stresses swing motion and the basic fundamentals. Techniques of the full swing and the short game are presented. Rules and etiquette are covered. Students who shoot 115 or less for 18 holes are not eligible for this beginner course.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 217. Beginning Tumbling and Gymnastics. 1 Credits.

Through proper progression, students are exposed to compulsory routines on several pieces of gymnastic apparatus—including the balance beam, parallel bars, pommel horse, rings, horizontal bar—and strength, flexibility, and gross motor coordination. Emphasis is placed on safe spotting techniques and safety awareness.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 221. Beginning Jogging. 1 Credits.

The purpose of this course is to provide students with the opportunity to develop cardiovascular fitness through a popular activity. Selection of proper clothing and equipment, the physiological effects of a jogging program, care and prevention of common injuries, and the mechanics of jogging are presented.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 222. Karate. 1 Credits.

This course offers an introduction to the basics of one of many martial art styles. Emphasis is on traditional forms, basic movements, philosophy, discipline, and proper class conduct. Students will learn various stances and forms.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 223. Lifeguard Training. 1 Credits.

This course will teach the skills needed to help prevent and respond to aquatic emergencies. This includes land and water skills, first aid and CPR/AED.

Rules & Requirements

Requisites: Prerequisites, continuous 300 yard swim, two minutes of treading with no arms, and retrieving a 10 pound brick from 10 feet and swimming 20 yards.

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 225. Beginning Racquetball. 1 Credits.

The course introduces the beginner to basic skills, including forehand and backhand drives, grips, footwork, and serves. Safety considerations as well as rules and terminology are covered. Basic strategy is presented involving the return of service, use of ceiling, rear wall, pass, and kill shots.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 227. Scuba. 1 Credits.

Required preparation, some swimming skills. This course prepares students for participation in recreational diving: both skin diving and scuba. Lectures cover physiology of diving, first aid, and decompression. It can lead to certification if students attend open water training dives conducted at the semester's end. An additional fee is required.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 228. Self-Defense. 1 Credits.

This course introduces the basics of self-defense techniques and will instruct the student by incorporating a three-dimensional educational approach. The student will develop skill, knowledge and self-confidence as related to self-defense.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 229. Downhill Skiing. 1 Credits.

This course is conducted in Boone, North Carolina, for five days over the winter break. It includes orientation to proper equipment selection, the use of lifts and tows, and the basic fundamentals, such as parallel turns, edging concepts, and rhythm. An additional fee is required.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 230. Beginning Soccer. 1 Credits.

Basic soccer skills are presented including dribbling, shooting, passing, heading, trapping, and tackling. Position play and strategies for basic offense and defense are learned as well as rules and terminology. Conditioning is achieved through drills and game play.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 233. Beginning Squash. 1 Credits.

Basic shots are learned including forehand and backhand drives, corners, reverse corners, volleys, drop shots, and serves. Rules, terminology, and basic strategies are presented. Appreciation of squash as a game for fitness and fun is developed.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 235. Beginning-Level Swimming. 1 Credits.

The course consists of swimming skills for students with limited water experience. These skills include water adjustment, floating, kicking, front crawl stroke, rhythmic breathing, and elementary backstroke. Emphasis is on efficient movement through the water. Foundation skills taught enable students to enjoy swimming and other aquatic activities as a lifetime sport. Basic water safety and first aid procedures are included.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 236. Swim Conditioning. 1 Credits.

This course is designed to promote cardiovascular fitness through swimming. Conditioning and the refinement of stroke techniques will be stressed through stroke practice and workout routines. Topics will include stroke mechanisms of the four competitive strokes, starts, turns, interval, sprint, and long distance training.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 238. Tennis. 1 Credits.

Basic skills are learned including forehand and backhand groundstrokes, the volley, and the serve. Rules, terminology, and basic game strategy will be taught. Through play, an increased level of fitness and skill will be gained to promote participation in tennis throughout life.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 239. Triathlon Training. 1 Credits.

The purpose of this course is to introduce students to the sport of triathlons integrating the discipline of running, cycling, and swimming. The course is physically challenging and provides information on transitions and maintenance of equipment, as well as setting up a training program.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 240. Ultimate Frisbee. 1 Credits.

Teaches the knowledge, skills, and rules of ultimate frisbee in order to develop a lasting interest in lifetime participation and to increase the student's level of physical fitness

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 241. Beginning Volleyball. 1 Credits.

Basic skills are taught including the forearm pass, the overhead pass, setting, spiking, blocking, dinking, and serving. Rules and terminology are included. Basic offensive and defensive strategy is learned.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 242. Water Safety Instructor. 1 Credits.

This course will train students to teach American Red Cross progressive swimming and water safety courses. Course content includes analysis of stroke mechanics, review of water safety skills, and investigation of teaching methodology. Students need to be proficient in front crawl, back crawl, elementary backstroke, breaststroke, and sidestroke.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 243. Beginning Weight Training. 1 Credits.

Basic techniques and knowledge of variable resistance and free weight systems are taught. Fitness evaluation and individual workout programs are included. Development of muscular strength and endurance is stressed. Physiological principles of fitness and their relationships to weight training are also emphasized.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 245. Brazilian Jiu Jitsu. 1 Credits.

This course will combine instruction in, and practice of, a sport or physical activity that can be sustained in later life, together with instruction in lifelong health.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 246. Sand Volleyball. 1 Credits.

Students will gain skills necessary to develop a lasting interest in sand volleyball and to increase the student's level of physical fitness. Students will also learn the rules of the sport and how it differs from indoor volleyball.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 290. Special Topics. 1 Credits.

This course is designed to cover the study and practice of special topics directed by an authority in the field. Subject matter will vary per instructor and topic.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 302. Intermediate Aerobics. 1 Credits.

Challenges students to achieve higher levels of cardiovascular, flexibility, and strength fitness through dance and exercise movements to music. Students are expected to be able to participate in a minimum of 20 minutes of aerobic activities.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 316. Intermediate Golf. 1 Credits.

Builds on and refines the basic fundamentals of the swing motion. Ball flight control is introduced with more in-depth swing analysis. Students who shoot 85 to 115 for 18 holes are eligible for this course.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 317. Intermediate Tumbling and Gymnastics. 1 Credits.

The purpose of this course is to provide students with the opportunity to learn more difficult gymnastics skills and to incorporate them in a fluid routine. Added emphasis is placed on muscular strength and flexibility. Safe spotting techniques, particularly for more advanced skills, are stressed throughout the course.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 321. Intermediate Jogging. 1 Credits.

Introduces students to the cardiovascular and overall fitness benefits of running. Students will learn how running can be a lifetime activity when approached sensibly and effectively. Students are expected to be able to run three miles in under 30 minutes prior to registering for this course.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 325. Intermediate Racquetball. 1 Credits.

Students will review beginning skills. Aspects of competition will be covered, including match preparation, officiating a match, and tournament play. Specific practice will involve shot selection and placement and back wall play.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 330. Intermediate Soccer. 1 Credits.

Basic skills are reviewed and refined. Dead ball situations are studied, especially corner kicks and direct and indirect free kicks. Different systems of play are introduced and evaluated. Positional play is stressed in the development of advanced defensive and offensive tactics.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 335. Intermediate Swimming. 1 Credits.

Techniques for crawl, sidestroke, elementary backstroke, back crawl, and breaststroke are covered. Basic water rescue skills are presented including first aid procedures. Physical fitness is promoted through swimming.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 338. Intermediate Tennis. 1 Credits.

Increased proficiency in four basic skills will be developed. New shots taught include the overhead, the drop, the lob, and spin serve. Strategy for singles and doubles play will be stressed. Emphasis is on increased pace and ball placement.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 341. Intermediate Volleyball. 1 Credits.

Students improve execution of basic skills through practice. Stresses safe execution of dives and rolls. Teaches various offensive strategies and defensive alignments. Emphasizes team play.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 343. Intermediate Weight Training. 1 Credits.

Emphasizes the development of individualized muscular strength and endurance programs following instruction in the physiological principles and techniques of weight training. Students should have beginning weight training skills, techniques, and knowledge prior to enrolling in this class.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

Advanced Undergraduate and Graduate-level Courses**PHYA 402. Leading Group Fitness Activities. 1 Credits.**

All aspects of leading group fitness activities will be explored and applied, including components of an aerobic exercise class, modifications for individual needs and special populations, health screening, fitness testing.

Rules & Requirements

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 427. Advanced Open Water Scuba Diving. 1 Credits.

Nationally recognized scuba certification may substitute for prerequisite. The course will follow the PADI Advanced Open water course curriculum which contains five specialty dives focusing on deep, night, peak performance buoyancy, underwater navigation, and underwater naturalist.

Rules & Requirements

Requisites: Prerequisite, PHYA 227.

Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.

Grading Status: Letter grade; credit hours may not be used toward degree.

Exercise and Sport Science Major, B.A.–Fitness Professional

The goal of the fitness professional program is to prepare students to assume roles as leaders in the fitness field and the area of fitness research. The blend of theoretical coursework and practical experience will assist the student in preparing for career opportunities and national fitness certifications.

For more information, interested students can also access the fitness professional website (<https://exss.unc.edu/undergraduate-program/ba-fitness-professional/>) or contact Professor Alain Aguilar (alaguila@email.unc.edu).

Student Learning Outcomes

Upon completion of the Exercise and Sport Science program (fitness professional track), students should be able to:

- Apply curriculum learning to pass fitness-related accredited certifications
- Efficiently and independently demonstrate accurate fitness testing methods to create comprehensive fitness programs for healthy and clinical populations
- Explain, correct, and modify exercise techniques to healthy and clinical populations
- Explain general nutritional concepts for specific fitness goals
- Comprehend the basic administrative duties of fitness management
- Critically analyze fitness-related research, blog posts, and other outlets of information

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Students seeking the major in exercise and sport science–fitness professional (EXSS–FP) must complete the following departmental requirements in addition to required General Education courses:

Code	Title	Hours
Core Requirements		
EXSS 155 & EXSS 256	 Human Anatomy and Physiology I and Human Anatomy and Physiology II ^{H, F}	6
EXSS 220	Fitness Management	3
EXSS 360	Sports Nutrition	3
EXSS 376	Physiological Basis of Human Performance	4
EXSS 380 or EXSS 385	Neuromuscular Control and Learning ^H Biomechanics of Sport	3
EXSS 408 or EXSS 478	Theory and Application of Strength Training and Conditioning for Fitness Professionals Sports Performance Training	3
EXSS 410	Exercise Testing and Prescription	4
EXSS 593	 Practicum in Physical Fitness and Wellness	3
Select two courses from the following options: 6		
EXSS 593	 Practicum in Physical Fitness and Wellness (can be taken for an additional 6 hours, or a total of 9 hours for the core requirements)	
Additional EXSS elective course(s) excluding first-year seminars ¹		
Additional Requirements		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
Select one: 4		
BIOC 107	Introduction to Biochemistry	
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{1, H, F}	
Total Hours		43

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ If EXSS 593 is taken for fewer than 9 credit hours, additional EXSS courses must be taken to reach 34 total hours of core requirements. If

more than one additional course is required to reach 34 hours, at least one must be above 199.

² CHEM 101 requires MATH 110 as a prerequisite.

Special Opportunities in Exercise and Sport Science

Honors in Exercise and Sport Science

The senior honors program provides exercise and sport science majors the opportunity to pursue an independent, two-semester research project. A student must have an overall grade point average of 3.3 or above prior to acceptance into the departmental honors program and must maintain an overall average of 3.3 or above to remain in the program. Students complete EXSS 693H and EXSS 694H. Honors study involves the completion of a substantial piece of original research and the formal oral presentation of the results. Those successfully completing the program are awarded their degree with either honors or highest honors. Previous senior honors thesis topics and more information can be found on the EXSS department web page. Please contact Dr. J.D. DeFreese (defreese@email.unc.edu) by email if you are interested.

Departmental Involvement

In addition to its academic offerings, the department houses many research laboratories, and the campus recreation program. Both provide experiences outside the classroom. Students may also affiliate with the Carolina Sports Business Club and the Carolina Sport Administration Club.

Experiential Education/High-Impact Experience

The following courses satisfy the experiential education requirement in the Making Connections curriculum and *some* satisfy the high-impact experience requirement in the IDEAs in Action curriculum.

Code	Title	Hours
EXSS 51	 First-Year Seminar: Entrepreneurship in Human Performance and Sport	3
EXSS 207	Coaching Principles	3
EXSS 393	 Sports Medicine Clinical	1
EXSS 395	 Undergraduate Research Course	1-3
EXSS 420	 Program Planning in Recreation Services	3
EXSS 493	 Field Experience in Sport Administration	3
EXSS 593	 Practicum in Physical Fitness and Wellness	1-3
EXSS 693H	 Senior Honors Thesis	3
EXSS 694H	 Senior Honors Thesis	3

Laboratory Teaching Internships and Assistantships

The fitness professional students serve a practicum with local fitness organizations.

Study Abroad

The Department of Exercise and Sport Science offers summer study abroad programs depending on faculty availability. Refer to the department's website and the study abroad website for more information. For other study abroad experiences the department will gladly work with its majors in advance of the experience to determine appropriate credit.

Undergraduate Awards

The Patrick F. Earey Award, named in honor of a longtime faculty member, is given annually to the outstanding senior major in the department. The award signifies exemplary leadership, academic achievement, and extracurricular involvement by a senior exercise and sport science major.

The Ronald W. Hyatt Scholarship, named in honor of the late Dr. Hyatt, one of Carolina's "priceless gems" and a faculty member in the department, is a merit-based scholarship awarded annually to an outstanding full-time undergraduate exercise and sport science major with junior status.

Undergraduate Research

Students are encouraged to explore research interests by taking EXSS 395, completing independent research studies, or writing senior honors theses. Please review the EXSS website under the research laboratories tab to determine where your research interest lies. Contacting individual faculty in your area of interest is encouraged, or reach out to J.D. DeFreese (defreese@email.unc.edu), the EXSS director of undergraduate research.

Exercise and Sport Science Major, B.A.–General

Exercise and sport science examines the physics, physiology, psychology of sport and exercise, and the recognition and treatment of athletic injuries. The general major provides foundational courses in exercise science and is an excellent preparation for the allied medical fields.

Student Learning Outcomes

Upon completion of the Exercise and Sport Science program, students should be able to:

- Understand the role and importance of lifelong physical activity and exercise in society
- Demonstrate the ability to apply fundamental concepts of human physiology to explain how the human body responds to exercise and changing environments
- Describe neuromuscular control systems and concepts related to movement and motor skill acquisition, retention, and transfer
- Describe biomechanical and anatomical concepts of human motion and apply these concepts to understanding exercise, performance, and injury
- Understand the research process including research design, statistical terminology, and utilization of literature. Through this process they will be able to critically analyze current research in the field of exercise and sport science
- Demonstrate knowledge and procedures to respond in an emergency situation, identify and manage individual injury in health and fitness settings, and understand how to maintain a safe environment

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

Exercise and Sport Science Major, B.A.–Sport Administration

The sport administration program provides students with course work specific to sport-related business and administrative functions, settings, and organizations. Course topics include administration, economics, event planning and management, facility management, finance, law, marketing, sales, analytics and leadership/organizational behavior, sponsorship, and other important components of the sport industry. Students will also complete at least one (1) sport administration internship as part of program studies.

For more information, please contact Tony Patterson (tonyp@unc.edu).

Student Learning Outcomes

Upon completion of the Exercise and Sport Science program (sport administration track), students should be able to:

- Understand and apply fundamental processes related to the sales process, marketing of sport, and marketing through sport
- Recognize the challenges of planning, designing, and managing an effective and efficient sport event, as well as designing and managing a variety of sport and multipurpose facilities, and applying solutions or best practices to challenges
- Understand and identify the proper legal theory, including contracts, torts, property, agency, administrative, and Constitutional law as applied in the sport industry
- Apply specific critical thinking and analytical techniques used by financial managers to economic/financial challenges found in various sport settings
- Identify their own leadership qualities and core values, assess how their unique approach will help or hinder their ability to lead, and set a personal leadership vision to guide them within the sport industry
- Identify opportunities for experiential learning in the sport administration field, develop a professional portfolio and networking skills, understand organizational structures, and successfully navigate a sport

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Students seeking the major in exercise and sport science–sport administration (EXSS–SA) must complete the following requirements in addition to required General Education courses:

Code	Title	Hours
Core Requirements		
EXSS 221	Introduction to Sport Administration ¹	3
EXSS 288	Emergency Care of Athletic Injuries and Illnesses	3
EXSS 322	Fundamentals of Sport Marketing	3
EXSS 323	Sport Facility and Event Management	3
EXSS 324	Finance and Economics of Sport	3
EXSS 326	Legal Aspects of Sport	3
EXSS 424	Sport Sales and Revenue Production Seminar	3
EXSS 493	 Field Experience in Sport Administration	3
Six (6) additional credits must be earned in EXSS courses (at least one course, 3 hours, must be at the 200 level or above). ²		6
Additional Requirements		
ECON 101	 Introduction to Economics (prerequisite for EXSS 324) ^{H, F}	4
STOR 151	 Introduction to Data Analysis	3
	or STOR 155  Introduction to Data Models and Inference	
	or PSYC 210  Statistical Principles of Psychological Research	
Total Hours		37

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ EXSS 221 is a prerequisite for EXSS 322, EXSS 323, and EXSS 493.

² EXSS 420 and EXSS 430 may also be used. Note: EXSS 493 may be taken twice for a maximum total of six credits, but may not be used to fill this requirement.

Students considering graduate work in sport administration should take EXSS 273.

Exercise and Sport Science (EXSS) course descriptions (p. 649).

Coaching Education Minor

Coaching education minors have the opportunity to gain both theoretical and practical knowledge regarding psychological, physiological, pedagogical, philosophical, and management aspects of coaching.

The Department of Exercise and Sport Science has paused enrollment in the coaching education minor and plans to teach out all students currently enrolled in the minor who would like to finish the program during the fall 2024 semester. The department is no longer accepting applications for the minor.

Requirements for the coaching education minor can be found in the Undergraduate Catalog archives (p. 1327).

Exercise and Sport Science Minor

Exercise and sport science examines the anatomy, physics, physiology, and psychology of sport and exercise. The minor offers a more brief look into the opportunities for careers in exercise and sport.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
Five courses chosen from:		15
EXSS 180	Physical Activity in Contemporary Society	
EXSS 181	Sport and Exercise Psychology	
EXSS 265	Fundamentals of Sports Medicine ¹	
	or EXSS 288 Emergency Care of Athletic Injuries and Illnesses	
EXSS 360	Sports Nutrition ¹	
EXSS 376	Physiological Basis of Human Performance ¹	
EXSS 380	Neuromuscular Control and Learning ¹	
EXSS 385	Biomechanics of Sport ¹	
EXSS 408	Theory and Application of Strength Training and Conditioning for Fitness Professionals ¹	

Additional Requirements

BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{H, F}	4
-----------------	---	---

Sports Medicine Minor

There are many medical professions that have a sport focus (physical therapist, athletic trainer, physician, physician assistant, nurse, occupational therapist). The sports medicine minor is designed to expose students to the various injuries and rehabilitation techniques that are specific to sport. Students will learn the foundations of anatomy and physiology and then use this knowledge to understand basic evaluation, management and prevention techniques for sport related injury.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours

Department of Geography and Environment

Introduction

Geography and environment is the science of space, place, and environment. The department offers classes spanning the social and natural sciences and offering students training in qualitative, quantitative, spatial analysis and modelling, and laboratory methodologies. Human geographers study the spatial aspects of human activity and physical geographers study patterns of climate, land forms, soils and water. Geographic tools and techniques—including Geographic Information Systems, remote sensing, and online and interactive mapping technologies—are among the most important for exploring and understanding our complex world. Geographic inquiry is global and local, inherently interdisciplinary, and offers skills that enable insights into pressing issues valued by employers and policy makers. For example, how does climate change impact the way we build cities? How does globalization influence where your jeans are made? How can health disparities between people be overcome through policy change? By synthesizing this knowledge, geographers create unique understandings of our complex world.

Career opportunities for geographers are wide ranging in the public, private, and nongovernmental sectors. Geographers work in the areas of social, health, and environmental policy; energy, transportation, economic, development, and tourism planning; urban and regional planning; research and education; community development; resource management; and environmental regulation and modeling.

With geography and environment, you can explore the world and find yourself.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors by appointment and during regular office hours (see department website as hours will vary

by semester). Departmental academic advising is highly recommended for all majors, in particular those considering graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's Web site.

Facilities

The department has a range of specialized, state-of-the-art equipment for geospatial field sampling and laboratory analysis of data in hydrology, climatology, and vegetation science, including an ecohydrology laboratory and a dendrology laboratory. The department is wired internally to support the latest network technology. This network links us to the centrally managed servers that provide access to a large library of software for geographic applications and research, as well as first-class library resources, data storage and backup, and access to supercomputing clusters.

Graduate School and Career Opportunities

There are a variety of job opportunities for geographers in government, business, industry, and the nonprofit sector. Geographers are hired for the following kinds of expertise: locational analysis, GISci, remote sensing, cartography, land use planning, recreation and tourism planning, and foreign area expertise. Many geographers pursue teaching at all levels.

Students with a B.A. major in geography from UNC–Chapel Hill are well trained for graduate programs in geography and environment and other disciplines. Majors have entered graduate programs as diverse as city and regional planning, business, medicine, and ecology. For more information about careers in geography, the UNC–Chapel Hill Department of Geography and Environment, degree requirements, and connections to other sites of interest, visit the department's website (<http://geography.unc.edu>).

Major

- Geography Major, B.A. (p. 682)

Minor

- Climate Change Minor (p. 687)
- Environmental Justice Minor (p. 688)
- Geography Minor (p. 690)
- Geographic Information Sciences Minor (p. 691)

Graduate Programs

- M.A. in Geography (<https://catalog.unc.edu/graduate/schools-departments/geography/>)
- Ph.D. in Geography (<https://catalog.unc.edu/graduate/schools-departments/geography/>)

Professors

Shorna Allred, Michael E. Emch, Banu P. Gokariksel, Clark Gray, Elizabeth Havice, Scott Kirsch, Charles E. Konrad, Elizabeth Olson, Sara Smith, Conghe Song, Gabriela Valdivia, Erika Wise.

Associate Professors

Javier A. Arce-Nazario, Paul L. Delamater, Christian Lentz, Nina Martin, Aaron Moody, Diego Riveros-Iregui, Chérie Rivers.

Assistant Professors

Amanda Gay DelVecchia, Ruth Matamoros-Mercado, Danielle Purifoy, Paul Taillie.

Professors Emeriti

Stephen Birdsall, John W. Florin, Wilbert M. Gesler, Richard J. Kopec, John Pickles, Peter J. Robinson, Stephen J. Walsh, Thomas Whitmore.

GEOG–Geography

Undergraduate-level Courses

GEOG 50. First-Year Seminar: Mountain Environments. 3 Credits.

This course is on understanding the physical geography of mountain environments and the processes that have created them, shaped them, and sustained them. Honors version available.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-NATSCI.
Making Connections Gen Ed: PL.

Grading Status: Letter grade.

GEOG 52. First-Year Seminar: Political Ecology of Health and Disease. 3 Credits.

This course examines the intersection of political, economic, social, and environmental systems that shape health and disease across spatial and temporal scales. A political ecological framework is used to examine such topics as how political forces and economic interests helped shape the HIV/AIDS and malaria pandemics in Africa and beyond. Honors version available.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS, CI, GL.

Grading Status: Letter grade.

GEOG 53. First-Year Seminar: Battle Park: Carolina's Urban Forest. 3 Credits.

An introduction to the study of urban forest landscapes through a series of field experiences in Carolina's Battle Park.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL, EE- Field Work.

Grading Status: Letter grade.

GEOG 54. First-Year Seminar: Global Change and the Carolinas. 3 Credits.

An examination of the ways in which change in the global physical environment, human induced and natural, might impact the Carolinas.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL.

Grading Status: Letter grade.

 **GEOG 55. First-Year Seminar: Landscape in Science and Art. 3 Credits.**

Explores viewing landscape from the perspective of science and of art, and investigates how an integration of both leads to a better understanding and appreciation of a landscape.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

 **GEOG 56. First-Year Seminar: Local Places in a Globalizing World. 3 Credits.**

An examination of the relationship between globalization and localization in order to think about how we, as individuals and groups, can make a difference in the world.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

 **GEOG 58. First-Year Seminar: Making Myth-Leading Memories: Landscapes of Remembrance. 3 Credits.**

This course considers memorial landscapes created to reinforce values symbolized by the person, group, or event memorialized. It looks at how disagreements and cultural changes affect memorial landscape interpretation.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

 **GEOG 59. First-Year Seminar: Space, Identity, and Power in the Middle East. 3 Credits.**

This seminar examines the role traditional and modern spaces play in representations of the Middle East and how Middle Easterners engage these contested spaces to construct their cultural and political identities.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: BN.

Grading Status: Letter grade.

 **GEOG 60. First-Year Seminar: Health Care Inequalities. 3 Credits.**

Explores the social and spatial inequalities in health care access and use and their impacts on health. A variety of topics are examined, including health-related policies, beliefs about health and health care, modern medical practices, and health care costs.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

 **GEOG 61. First-Year Seminar: Climate Change in the American Southeast. 3 Credits.**

Seminar participants, working in small groups, will run climate models and investigate current climate trends, combining the results to create scenarios of future climate for the southeast United States.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

 **GEOG 62. First-Year Seminar: The Culture of Technology. 3 Credits.**

This first-year seminar uses the lens of culture to explore systems of meaning and values, and relations of social power, that are invested in technologies.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: PH, CI.

Grading Status: Letter grade.

 **GEOG 63. First-Year Seminar: The Problem with Nature and Its Preservation. 3 Credits.**

Alternative conceptualizations of nature in Western culture and how these meanings help create the landscapes in which we live and allow us to evaluate the implications of efforts to preserve nature. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-CREATE or FC-KNOWING, RESEARCH.

Making Connections Gen Ed: PH.

Grading Status: Letter grade.

 **GEOG 64. First-Year Seminar: Vietnam. 3 Credits.**

Explores modern Vietnam and situates the American war in broader spatial and historical context. Draws on fact, fiction, and visual media to introduce a fascinating place, rich in history, and to animate a geographic imagination students can take anywhere.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

 **GEOG 65. First-Year Seminar: Climate Change in the Media. 3 Credits.**

Examines the scientific basis of climate change and how the established science is presented, distorted, and debated in the public sphere. Explores how a variety of media sources can be used to effectively communicate about climate change to people with different perspectives. Honors version available. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-KNOWING or FC-NATSCI, RESEARCH.

Making Connections Gen Ed: PL, CI.

Grading Status: Letter grade.

GEOG 67. First-Year Seminar: Politics of Everyday Life. 3 Credits.

Seminar examines the ways that politics, especially contests over territory, are part of our day-to-day life. We will explore a range of cases, from immigration policy and rhetoric in the United States, to popular representations of geopolitics in film, to the politics of family planning in India.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-POWER.

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

GEOG 68. First-Year Seminar: Freshwaters in the Anthropocene. 3 Credits.

Freshwaters sustain myriad ecosystem services by providing drinking water, irrigation, inland fisheries, transportation, recreational opportunities, nutrient cycling, and biodiversity. At the same time, both water quality and quantity are impacted by land use, water abstraction, damming, contamination, and climate change. This seminar will focus (1) on understanding how these anthropogenic pressures affect freshwater ecosystems differently across ecoregions, and (2) how management, legislative, and social initiatives have adapted or developed solutions.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR, FC-NATSCI, RESEARCH.

Grading Status: Letter grade.

GEOG 69. First-Year Seminar: People and Forests. 3 Credits.

This course delves into the interplay between human communities and the vital forest ecosystems upon which they rely. Through our collective exploration, we will deepen our understanding of the far-reaching impacts of forests on virtually every facet of our daily lives. In addition to forests of the world, we will also explore art about trees as well as the forests that make our campus unique with field visits to the Coker Arboretum. First-year students only.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.

Grading Status: Letter grade.

GEOG 89. First Year Seminar: Special Topics. 3 Credits.

Special Topics Course. Content will vary each semester.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.

Grading Status: Letter grade.

GEOG 110. The Blue Planet: An Introduction to Earth's Environmental Systems. 3 Credits.

Emphasizes geographic patterns and interrelationships in energy, climate, terrain, and life. Develops integrative view of how atmospheric, hydrologic, geomorphic, and biotic processes create global patterns in the environment. Incorporates influence of human activities on earth. Class will help students understand the natural environment, both globally and in North Carolina. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

GEOG 111. Weather and Climate. 3 Credits.

An introduction to the nature and causes of weather variability and climate change and their impact on human activity. No laboratory. (Core)

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

GEOG 115. Maps: Geographic Information from Babylon to Google. 3 Credits.

Introduces the science and art of map making and will lay the conceptual foundation necessary to understand how and why maps are made and used.

Rules & Requirements

Grading Status: Letter grade.

GEOG 120. World Regional Geography. 3 Credits.

A survey of the geographic structure of human activity in major world regions and nations. Emphasizes current developments related to population, urbanization, and economic activity. (Core)

Rules & Requirements

IDEAs in Action Gen Ed: FC-POWER.

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

Same as: PWAD 120.

GEOG 121. Geographies of Globalization. 3 Credits.

This course examines places and the connections between places to build critical understandings of the role of human geographies in global economic, political, social, and cultural systems. (Core)

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

GEOG 123. Cultural Geography. 3 Credits.

How population, environment, and human culture is expressed in technology and organization interact over space and time. (GHA)

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

GEOG 124. Feminist Geographies. 3 Credits.

This course explores the relationship between gender and place and introduces feminist approaches to key geographical concepts. We will study how places that we live in shape our gender identities and how gender relations affect our worlds. Topics include bodies, home, city, migration, development, nationalism, and war.

Rules & Requirements

IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

GEOG 125. Cultural Landscapes. 3 Credits.

Explores how everyday culture helps create the landscapes and places in which we live and what these landscapes tell us about ourselves.

Rules & Requirements

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

GEOG 130. Development and Inequality: Global Perspectives. 3 Credits.

An introduction to historical and contemporary ideas about practices and meanings of development. Students will explore "development" in a global landscape of poverty, power, and struggles over inequality.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

GEOG 141. Geography for Future Leaders. 3 Credits.

In this course, students develop geographic concepts and skills and use them to navigate real-world social and environmental challenges. Co-taught by a physical and human geographer, the course provides students with essential building blocks for becoming active and engaged leaders and citizens in a rapidly changing world.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-NATSCI.

Making Connections Gen Ed: PL, GL.

Grading Status: Letter grade.

GEOG 210. Global Issues and Globalization. 3 Credits.

Survey of international social, political, and cultural patterns in selected societies of Africa, Asia, America, and Europe, stressing comparative analysis of conflicts and change in different historical contexts. LAC recitation sections offered in French, German, and Spanish.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

Same as: GLOB 210, ANTH 210, HIST 210, POLI 210.

GEOG 212. Environmental Conservation and Global Change. 3 Credits.

Survey of environmental change as driven by physical processes and human activity. Problem-solving methods are explored. Focus on issues such as global warming, ozone depletion, deforestation, extinction, pollution, wetland loss. This course will provide significant background in physical geography in the context of today's most pressing environmental concerns and with reference to the societal implications and management strategies. (No lab.) (Core)

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-NATSCI.

Making Connections Gen Ed: PL, GL.

Grading Status: Letter grade.

GEOG 215. Introduction to Spatial Data Science. 3 Credits.

This course will introduce students to data science with a focus on spatial (geographic) data, data that are referenced to a location on Earth's surface. Students will learn concepts and techniques to apply various facets of data science practice, including data collection, management, and integration, descriptive modeling, exploratory spatial data analysis, and communication via visualization and mapping. Real world examples and datasets spanning physical, social, and health sciences will be used throughout the course.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Making Connections Gen Ed: SS, QI.

Grading Status: Letter grade.

GEOG 222. Health and Medical Geography. 3 Credits.

Health and disease are studied by analyzing the cultural/environmental interactions that lie behind world patterns of disease distribution, diffusion, and treatment, and the ways these are being altered by development. Previously offered as GEOG 445. (GHA)

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

GEOG 225. Space, Place, and Difference. 3 Credits.

Gender, race, and class are examined in terms of the spatial patterns of everyday life, regional patterns, and global patterns. (GHA)

Rules & Requirements

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

Same as: WGST 225.

GEOG 228. Urban Geography. 3 Credits.

Explores the evolution, patterns, and processes of urbanization and the development of cities. Emphasis on the power, politics, technology, and environmental forces shaping urban life. Topics may include housing and segregation, cities and climate change, economic development, transportation challenges, and the racialization of urban policy.

Rules & Requirements

IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.

Making Connections Gen Ed: SS, US.

Grading Status: Letter grade.

GEOG 230. The World at Eight Billion. 3 Credits.

Approximately eight billion people live on the Earth. How did we get here? What have been the consequences for us and the planet? What will the future bring? To answer these questions, we will draw on population and human-environment geography and on an abundance of new data sources.

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

 **GEOG 232. Agriculture, Food, and Society. 3 Credits.**

A study of environmental parameters, cultural preferences, technological developments, and spatial economic infrastructure that result in world patterns of food consumption, production, and distribution. (GHA)

Rules & Requirements **IDEAs in Action Gen Ed:** FC-PAST or FC-VALUES.**Making Connections Gen Ed:** SS.**Grading Status:** Letter grade.**GEOG 237. Natural Resources. 3 Credits.**

An analysis of selected biological and mineral resources of the world with particular emphasis on their distribution, utilization, and management policies and on their social and economic implications. (GHA)

Rules & Requirements**Grading Status:** Letter grade.**GEOG 240. Introduction to Environmental Justice. 3 Credits.**

Environmental justice is about social equity and its relationship to the environment. This course provides an introduction to the principles, history, and scholarship of environmental justice. It traces the origins of the movement in the US and globally and its relationship to environmentalism. Students will use case studies and engagement to become familiar with environmental justice concerns related to food systems, environmental health, climate change, and economic development.

Rules & Requirements**Making Connections Gen Ed:** SS, US.**Grading Status:** Letter grade.**GEOG 253. Introduction to Atmospheric Processes. 4 Credits.**

Includes one-hour laboratory. Atmospheric processes including radiation, dynamics, and thermodynamics are emphasized. Circulations across a range of temporal and spatial scales are described. Links between environmental problems and the atmosphere are explored.

Rules & Requirements**Requisites:** Prerequisites, MATH 231 and either CHEM 102 or PHYS 114.**Grading Status:** Letter grade.**Same as:** ENEC 253. **GEOG 254. U.S. Historical Geographies. 3 Credits.**

A study of selected past geographies of the United States with emphasis on the significant geographic changes in population, cultural, and economic conditions through time. Previously offered as FOLK/GEOG 454. (GHA)

Rules & Requirements **IDEAs in Action Gen Ed:** FC-PAST.**Grading Status:** Letter grade.**Same as:** FOLK 254. **GEOG 259. Society and Environment in Latin America. 3 Credits.**

This survey course examines political, cultural, and biophysical dimensions of human-environment relations across the ecologically diverse and historically rich region of Latin America. It draws on multiple data sources, perspectives, and media to explore sub-regions and their biocultural histories, including the Caribbean, Andes, Amazon, Central and North America, and their relationship with the United States.

Rules & Requirements **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-POWER.**Making Connections Gen Ed:** SS, BN.**Grading Status:** Letter grade.**GEOG 260. North America's Landscapes. 3 Credits.**

A survey of the cultural and physical landscapes of the United States and Canada. Emphasis on landscape evolution, present distributions, and interactions between people and their environment. (Regional)

Rules & Requirements**Making Connections Gen Ed:** SS, NA.**Grading Status:** Letter grade.**GEOG 261. The South. 3 Credits.**

Present-day Southern United States, approached historically through a study of its physical, economic, and cultural environment. (Regional)

Rules & Requirements**Grading Status:** Letter grade.**GEOG 262. Geography of North Carolina. 3 Credits.**

A survey of the cultural, economic, and physical diversity of North Carolina. Emphasizes regional patterns, historical changes, and the appearance of the landscape. (Regional)

Rules & Requirements**Making Connections Gen Ed:** NA.**Grading Status:** Letter grade.**GEOG 263. Environmental Field Studies in Siberia. 4 Credits.**

This course explores the biogeography of Siberia and gives students practical training on how to do field work in field ecology and physical geography.

Rules & Requirements**Grading Status:** Letter grade.**Same as:** ENEC 263.**GEOG 264. Conservation of Biodiversity in Theory and Practice. 3 Credits.**

This course will give students a multidisciplinary introduction to growing field of biodiversity preservation.

Rules & Requirements**Requisites:** Prerequisite, ENEC 201; permission of the instructor for students lacking the prerequisite.**Grading Status:** Letter grade.**Same as:** ENEC 264.**GEOG 265. Eastern Asia. 3 Credits.**

Spatial structure of population, urbanization, agriculture, industrialization, and regional links in China, Japan, and Korea. (Regional)

Rules & Requirements**Grading Status:** Letter grade.**Same as:** ASIA 265.

GEOG 266. Society and Environment in Southeast Asia. 3 Credits.

This survey integrates sociological, biophysical, and geographical elements to examine interactions of population and environment across the ecologically-diverse and historically-rich region of Southeast Asia. Draws on multiple data sources, perspectives, and media to explore Vietnam, Indonesia, Malaysia, Thailand, Burma/Myanmar, the Philippines, and neighboring countries.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: SS, BN, GL.

Grading Status: Letter grade.

GEOG 267. South Asia. 3 Credits.

Introduces students to the geography of South Asia, including an overview of the physical environment, cultural practices, and economic development. Emphasizes the political geography of South Asia and political and social processes such as nationalism and colonialism that have played a formative role in the region.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: BN.

Grading Status: Letter grade.

Same as: ASIA 267.

GEOG 268. Geography of Africa. 3 Credits.

Africa is a vast continent with extraordinary biodiversity, cultural diversity, and history. But despite its many historic and contemporary contributions to the modern world, Africa is often represented as needing civilization, development, economic growth, charity, and education. This course investigates Africa's place in the global geopolitical imagination. With an emphasis on human geography, we analyze various forms of media (including maps, films, songs) to investigate the relationship between representation and the sociopolitical construction of place.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-KNOWING, RESEARCH.

Making Connections Gen Ed: SS, BN.

Grading Status: Letter grade.

GEOG 269. Human-Environment Interactions in the Galapagos Islands. 3 Credits.

The Social and ecological implications of resource conservation and economic development in a World Heritage Site are examined in the Galapagos Islands of Ecuador.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-NATSCI.

Making Connections Gen Ed: PL, BN.

Grading Status: Letter grade.

GEOG 270. Geography of Contemporary China. 3 Credits.

This course provides a systematic introduction to China as an emerging political and economic power. From a geographic perspective, this course addresses uneven human and physical landscapes, the historical evolution and current status of the natural environment, economic development, and human well being.

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

GEOG 281. Ethnographies of Globalization: From 'Culture' to Decolonization. 3 Credits.

This course will provide lower level undergraduate students with a survey of ethnographic research in geography and related fields. We will examine studies from work, labor, and gender, to indigenous youth and decolonization. Previously offered as GEOG 481.

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

GEOG 293. Freedom Farming. 3 Credits.

The objective of Freedom Farming is to understand—in theory and in practice—the relationship between farming, health, and social justice among Black communities throughout the African diaspora. To this end we will investigate the history of agriculture's place in Black liberation movements; engage theories that orient these movements. Students also contribute to a local freedom farm. APPLS service-learning.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.

Grading Status: Letter grade.

GEOG 294. Beyond Sustainability. 3 Credits.

This course explores critical questions of sustenance, which are often overlooked in "sustainability" discourse: How do people sustain themselves in North America? Against what pressures? How does the geography and history of the land shape cultural, social, political, and economic practices of sustenance? And, in contexts of oppression, dispossession, and discrimination, how do acts of sustenance intersect or conflict with larger cultural, social, economic, and political debates about "sustainability"?

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.

Grading Status: Letter grade.

GEOG 295. Undergraduate Research in Geography. 3 Credits.

Permission of the instructor. For students who wish to participate in departmental research programs. May be taken twice.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

GEOG 296. Independent Study. 1-12 Credits.

Permission of the instructor. Special reading and research in geography under the supervision of a selected instructor. Course may not be taken more than twice.

Rules & Requirements

Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading Status: Letter grade.

GEOG 334. Human Ecology of Health and Disease. 3 Credits.

Examines the role of the interactions of cultures, environments, and human diseases in the quest for sustainable agriculture by examining the cultural ecology of agriculture systems and their human diseases. Previously offered as GEOG 434. (GHA)

Rules & Requirements

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

GEOG 341. Hydrology, Ecology, and Sustainability of the Humid Tropics. 3 Credits.

The Tropics have some of the largest river flows in the world. Three billion people live in humid tropical regions, yet many of them lack adequate water supply. This course focuses on the water cycle of tropical regions and the interactions between hydrology and ecology with an emphasis on sustainability.

Rules & Requirements

Making Connections Gen Ed: PL, GL.

Grading Status: Letter grade.

GEOG 370. Introduction to Geographic Information. 3 Credits.

A survey of geographic data sources including maps, photos, digital images, Census information, and others. Emphasis is on appropriate uses, limitations, and skilled interpretation in physical and human geography applications. (Core)

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.

Grading Status: Letter grade.

GEOG 390. Contemporary Topics in Geography. 1-12 Credits.

Exploration of topics in contemporary geography.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

GEOG 391. Quantitative Methods in Geography. 3 Credits.

This course provides an introduction to the application of statistical methods to geographic problems and to statistical packages in their solution. Attention given to spatial data analysis and sampling methods.

Rules & Requirements

Grading Status: Letter grade.

GEOG 392. Research Methods in Geography. 3 Credits.

Introduces geographic research methods and develops skills to conduct independent research. Themes include spatial analysis, knowledge production, methodology, theory and evidence, and principles of informed argument. Students gain experience with multiple methods applicable to the study of diverse topics.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI, RESEARCH.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**GEOG 406. Atmospheric Processes II. 4 Credits.**

Principles of analysis of the atmosphere are applied to the analysis of environmental phenomena. The link between the atmosphere and other environmental compartments is explored through environmental case studies.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENEC 406.

GEOG 410. Modeling of Environmental Systems. 3 Credits.

Uses systems theory and computer models to understand ecosystem energy and matter flows, such as energy flow in food webs, terrestrial ecosystem evapotranspiration and productivity, related to climate, vegetation, soils, and hydrology across a range of spatial and temporal scales.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

GEOG 412. Synoptic Meteorology. 3 Credits.

An analysis of synoptic weather patterns and the processes responsible for them. Climatological aspects of these weather patterns are emphasized. (EES)

Rules & Requirements

Requisites: Prerequisite, GEOG 110 or 111.

Grading Status: Letter grade.

GEOG 414. Climate Change. 3 Credits.

An investigation of the scientific basis of climate change (past, present, and future), the current state of knowledge concerning future projections, and the implications of climate change for society and the environment.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI, RESEARCH.

Grading Status: Letter grade.

GEOG 415. Communicating Important Ideas. 3 Credits.

This hands-on course will set you on a path towards making a positive difference in the world through effective communication of ideas that are important to you. Emphasis will be on practical skills in listening, clarifying your message, having a narrative focus, creating effective graphics, giving engaging oral and poster presentations, social media use, communication with journalists, operating in the judicial and political arenas, and community outreach and public talks.

Rules & Requirements

IDEAs in Action Gen Ed: COMMBEYOND.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

GEOG 416. Applied Climatology: The Impacts of Climate and Weather on Environmental and Social Systems. 3 Credits.

Applied climatology involves the interdisciplinary application of climate data and techniques to solve a wide range of societal and environmental problems. This projects-based course investigates how climate impacts a range of sectors, including water resources, urban environments, ecosystems, and human health.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI, RESEARCH, COMMBEYOND.

Making Connections Gen Ed: PL.

Grading Status: Letter grade.

GEOG 419. Field Methods in Physical Geography. 3 Credits.

Involves evaluation of landscapes by examining nature and biophysical elements influencing landscape form and function. Course emphasizes data collection, analysis, and interpretation using GIS and field methods. (EES)

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Grading Status: Letter grade.

GEOG 423. Social Geography. 3 Credits.

A study of the spatial components of current social problems, such as poverty, race relations, environmental deterioration and pollution, and crime. (GHA)

Rules & Requirements

Grading Status: Letter grade.

 **GEOG 424. Geographies of Religion. 3 Credits.**

This course considers the theoretical and empirical dimensions of religion from a geographical perspective. The course introduces the key theories linking space, place, and religion and helps students apply these new theoretical tools to examine some of the pressing issues in the contemporary study of religion.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Making Connections Gen Ed: CI, GL.

Grading Status: Letter grade.

 **GEOG 428. Global Cities: Space, Power, and Identity in the Built Environment. 3 Credits.**

This course addresses questions of power, politics, and identity in the urban environment, with a focus on the emergence of key selected global cities and the processes that both created them historically and which are currently transforming them locally and globally.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-VALUES, RESEARCH.

Making Connections Gen Ed: SS, GL.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

Same as: PLAN 428.

 **GEOG 429. Urban Political Geography: Durham, NC. 3 Credits.**

An interdisciplinary exploration of urban social problems, bridging the literature on urban geography with that on urban politics. Students will be required to complete 30 hours of service for an organization that works on an urban social issue.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-POWER or FC-VALUES, RESEARCH, HI-SERVICE.

Making Connections Gen Ed: SS, EE- Service Learning.

Grading Status: Letter grade.

GEOG 430. Global Migrations, Local Impacts: Urbanization and Migration in the United States. 3 Credits.

This course explores the relationship between patterns of urban development in the United States and migration, in both historical and contemporary contexts.

Rules & Requirements

Making Connections Gen Ed: SS, NA.

Grading Status: Letter grade.

 **GEOG 435. Global Environmental Justice. 3 Credits.**

This advanced course brings geographical perspectives on place, space, scale, and environmental change to the study of environmental justice. In lectures, texts, and research projects, students examine environmental concerns as they intersect with racial, economic and political differences. Topics include environmental policy processes, environmental justice movements, environmental health risks, conservation, urban environments, and the role of science in environmental politics and justice. (GHA)

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-POWER, RESEARCH.

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

GEOG 436. Governance, Institutions, and Global Environmental Change. 3 Credits.

Interdisciplinary course for advanced undergraduates and graduate students. Focuses on multiscale environmental issues and related social, institutional, governance, and policy challenges. Examines key concepts and theories involving global environmental change and problem-solving efforts.

Rules & Requirements

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

 **GEOG 437. Social Vulnerability to Climate Change. 3 Credits.**

How does climate change affect vulnerable human populations? We will attempt to answer a shared research question on this topic by reading the peer-reviewed literature and by conducting a semester-long data analysis project incorporating social and climate data from around the world. This is a course-based undergraduate research experience (CURE).

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL, RESEARCH.

Making Connections Gen Ed: EE- Mentored Research, GL.

Grading Status: Letter grade.

Same as: ENEC 437.

GEOG 440. Earth Surface Processes. 3 Credits.

This course will focus on the processes of soil formation, erosion, and landform evolution with an emphasis on the interaction of geomorphic processes with surface hydrology and ecosystems. (EES) Course previously offered as GEOL 502.

Rules & Requirements

Making Connections Gen Ed: PL.

Requisites: Prerequisite, GEOG 110.

Grading Status: Letter grade.

Same as: EMES 502.

GEOG 441. Introduction to Watershed Systems. 3 Credits.

Introduction to hydrologic and geomorphic processes in watersheds as applied to problems in flood analysis, water quality, and interactions of hydrology and environmental sciences. Drainage networks, nested catchments, and distribution and controls of precipitation, evaporation, runoff, and groundwater flow. Includes local field trips. (EES)

Rules & Requirements

Making Connections Gen Ed: PL, EE- Field Work.

Requisites: Prerequisite, ENEC 202 or GEOG 110; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

GEOG 442. River Processes. 3 Credits.

Introduction to landforms and processes associated with flowing water at the earth's surface. Hydrology, sedimentology, and theories of channel formation and drainage basin evolution. (ESS)

Rules & Requirements

Grading Status: Letter grade.

GEOG 444. Landscape Biogeography. 3 Credits.

This course is concerned with the application of biogeographical principles and techniques to the study of natural and human-modified landscapes. It includes local and extraregional case studies. (EES)

Rules & Requirements

Grading Status: Letter grade.

GEOG 446. Geography of Health Care Delivery. 3 Credits.

This course examines the role that geography plays in shaping how people interact with the health care system. Topics include health care delivery system types, facility and personnel distributions, access to care, health care utilization, as well as GIS, spatial analysis, and decision support systems.

Rules & Requirements

Grading Status: Letter grade.

GEOG 447. Gender, Space, and Place in the Middle East. 3 Credits.

Examines gender, space, and place relationships in the modern Middle East. Investigates shifting gender geographies of colonialism, nationalism, modernization, and globalization in this region. (GHA)

Rules & Requirements

Grading Status: Letter grade.

Same as: ASIA 447, WGST 447.

GEOG 448. Transnational Geographies of Muslim Societies. 3 Credits.

Examines modern Muslim geographies that are created by transnational flows, connections, and imaginaries that cross national and regional boundaries across the Middle East, Southeast Asia, and beyond.

Rules & Requirements

Grading Status: Letter grade.

GEOG 451. Population, Development, and the Environment. 3 Credits.

Introduction to contemporary and historical changes in human population, international development, and the global environment and how these processes interact, drawing on population geography as an organizing framework. Previously offered as GEOG 450.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

Same as: ENEC 451.

GEOG 452. Mobile Geographies: The Political Economy of Migration. 3 Credits.

This course explores the contemporary experience of migrants. Various theoretical approaches are introduced, with the emphasis on a political-economic approach. (GHA)

Rules & Requirements

Making Connections Gen Ed: EE- Field Work, GL.

Grading Status: Letter grade.

GEOG 453. Political Geography. 3 Credits.

The geography of politics is explored at the global, the nation-state, and the local scale in separate course units, but the interconnections between these geographical scales are emphasized throughout. (GHA)

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

Same as: PWAD 453.

GEOG 456. Geovisualizing Change. 3 Credits.

This course investigates the challenges, tools and techniques, and important applications of visualizing and analyzing geographic data that is temporally dynamic. We tackle technical challenges in obtaining, analyzing, and visualizing dynamic processes in space through maps, and discuss the consequences of our choices in how to re/present these processes. Students will produce original geovisualizations of dynamic data related to their field. Recommended preparation: experience with GIS software (GEOG 370 or GEOG 491).

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-QUANT.

Requisites: Prerequisite, GEOG 370; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

GEOG 457. Rural Latin America: Agriculture, Environment, and Natural Resources. 3 Credits.

This course explores a systems and cultural-ecological view of agriculture, environment, natural resource, and rural development issues in Latin America. It serves as a complement to GEOG 458 Urban Latin America. (Regional) Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE or FC-POWER, RESEARCH.

Grading Status: Letter grade.

GEOG 458. Urban Latin America: Politics, Economy, and Society. 3 Credits.

This course examines urban social issues in contemporary Latin America. Cities and their residents will be considered in relation to each other and to North American examples. (Regional)

Rules & Requirements

Making Connections Gen Ed: BN.

Requisites: Prerequisite, GEOG 259; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

GEOG 460. Geographies of Economic Change. 3 Credits.

This course is designed to explore changing geographies of production and consumption in theory and in practice.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-KNOWING, RESEARCH.

Grading Status: Letter grade.

GEOG 464. Europe Today: Transnationalism, Globalisms, and the Geographies of Pan-Europe. 3 Credits.

A survey by topic and country of Europe west of Russia. Those features that make Europe a distinct and important region today are emphasized. (Regional)

Rules & Requirements

Making Connections Gen Ed: NA.

Grading Status: Letter grade.

GEOG 468. Environmental Justice in Urban Europe. 3 Credits.

While much attention has been given to Europe's "green" cities and the region's examples of sustainable development, less attention has been given to the ways in which the uneven distributions of environmental degradation have social and spatial ramifications within and beyond the region. This course will provide an overview of environmental justice in urban Europe to consider the key concepts, topics, debates, and trends shaping people and places there.

Rules & Requirements

Making Connections Gen Ed: NA.

Grading Status: Letter grade.

GEOG 470. Political Ecology: Geographical Perspectives. 3 Credits.

Examines foundational concepts and methods and their relevance for understanding nature-society relationships. Discussions on environmental change and conflict and how nature is bound up with relations of power and constructions of identity.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER, RESEARCH.

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

GEOG 477. Introduction to Remote Sensing of the Environment. 3 Credits.

Covers fundamental theory and mechanics of remote sensing, related theoretical aspects of radiation and the environment, and remote-sensing applications relating to terrestrial, atmospheric, and marine environments. Hands-on experience for application and information extraction from satellite-based imagery through biweekly laboratory assignments. Prepares students for GEOG 577. (GISc)

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Requisites: Prerequisite, GEOG 370.

Grading Status: Letter grade.

GEOG 480. Liberation Geographies: The Place, Politics, and Practice of Resistance. 3 Credits.

An examination of the theory and history of resistance in the modern world, including instances of contestation from 'foot dragging' to the formation of social movements, and exploring the relationship between place and protest.

Rules & Requirements

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

GEOG 491. Introduction to GIS. 3 Credits.

Stresses the spatial analysis and modeling capabilities of organizing data within a geographic information system. (GISci)

Rules & Requirements

Requisites: Prerequisite, GEOG 370; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: PLAN 491.

GEOG 492. Radical Black Thought. 3 Credits.

The premise of this course is that the possibilities articulated by radical Black intellectuals and artists in Africa and its diaspora are key to dismantling systems of oppression. It includes theories of unfreedoms derived from experiences of oppression-colonization, slavery, mass incarceration, racial inequity. It also examines radical Black responses to unfreedoms through practices of mental (de)colonization and moral courage, epistemology and pedagogy, human-earth relationships and environmental justice.

Rules & Requirements

Grading Status: Letter grade.

GEOG 493. Internship. 3 Credits.

Open to junior and senior geography majors. Geography internships combine substantive geographic work experience with an academic project designed to integrate theory and practice. Field work is included.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

GEOG 541. GIS in Public Health. 3 Credits.

Explores theory and application of geographic information systems (GIS) for public health. The course includes an overview of the principles of GIS in public health and practical experience in its use. (GISci)

Rules & Requirements

Grading Status: Letter grade.

GEOG 542. Neighborhoods and Health. 3 Credits.

This course explores how neighborhood context influences the health of the populations living in them. It includes a survey of neighborhoods and health theory and empirical examples. (GHA)

Rules & Requirements

Grading Status: Letter grade.

GEOG 543. Qualitative Methods in Geography. 3 Credits.

This course teaches qualitative methods in geography for graduate and advanced undergraduate students. We will cover interviews, focus groups, visual, and other methodologies. We will also discuss modes of analysis, coding, and writing up qualitative research for publication.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.

Making Connections Gen Ed: SS, CI.

Grading Status: Letter grade.

GEOG 544. Geographic Information Systems for Impact Evaluation and Health Studies. 3 Credits.

Examines the theory and application of geographic information systems (GIS) for impact evaluation for intervention studies. The course will focus especially on health and economic interventions in the developing world. The course includes an overview of the principles of GIS in impact evaluation and practical experience in its use.

Rules & Requirements

Grading Status: Letter grade.

GEOG 555. Cartography of the Global South. 3 Credits.

This course presents cartographic techniques for better map design, with a focus on mapping the geographies of the Global South. Modern techniques and software will be used for developing and demonstrating proficiency in what are considered standard map design techniques, and we will also study examples from places and map makers outside of dominant cartographic traditions, and maps meant for actors and audiences in the Global South.

Rules & Requirements

Requisites: Prerequisite, GEOG 370.

Grading Status: Letter grade.

GEOG 567. Geospatial Data Analysis with Google Earth Engine. 3 Credits.

This course teaches students key concepts and skills for geospatial data analysis using the rich geospatial data resources, tools, and cloud computing facility on Google Earth Engine for environmental monitoring, mapping, modeling, and visualization. The course will enable students to pursue geospatial data analysis ranging from local to global scales to extract critical information for scientific understanding of the environment and for making science-based policies to address the environmental challenges we face today.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT, RESEARCH.

Making Connections Gen Ed: PL, QI.

Requisites: Prerequisite, GEOG 370; Permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

GEOG 577. Advanced Remote Sensing. 3 Credits.

Acquisition, processing, and analysis of satellite digital data for the mapping and characterization of land cover types. (GISci)

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Requisites: Prerequisite, GEOG 370 or 477.

Grading Status: Letter grade.

GEOG 591. Applied Issues in Geographic Information Systems. 3 Credits.

Applied issues in the use of geographic information systems in terrain analysis, medical geography, biophysical analysis, and population geography. (GISci)

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Requisites: Prerequisite, GEOG 370, 491, or equivalent.

Grading Status: Letter grade.

GEOG 592. Geographic Information Science Programming. 3 Credits.

This course will teach students the elements of GISci software development using major GIS platforms. Students will modularly build a series of applications through the term, culminating in an integrated GIS applications program.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Requisites: Prerequisite, GEOG 370 or 491.

Grading Status: Letter grade.

GEOG 594. Global Positioning Systems and Applications. 3 Credits.

Global Positioning Systems (GPS) fundamental theory, application design, post processing, integration of GPS data into GIS and GPS application examples (such as public health, business, etc.) will be introduced.

Rules & Requirements

Requisites: Prerequisite, GEOG 370.

Grading Status: Letter grade.

GEOG 597. Ecological Modeling. 3 Credits.

This course focuses on modeling the terrestrial forest ecosystems processes, including population dynamics, energy, water, nutrients, and carbon flow through the ecosystem. (GISci)

Rules & Requirements

Requisites: Prerequisite, BIOL 561 or STOR 455; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

GEOG 598. GIS and Systems Modeling. 3 Credits.

GIS and Systems Modeling are theory and methodology that use GIS, quantitative models, and systems analysis to describe processes, interactions, and feedbacks in complex systems. Simulation experiments of systems models can be used as a "laboratory" to answer many "what if" questions, which can be used for the evaluation of policies and scenarios.

Rules & Requirements

Requisites: Prerequisite, GEOG 370 or 491.

Grading Status: Letter grade.

 **GEOG 650. Technology and Democracy Research. 3 Credits.**

Are technological choices open to democratic participation? Through a novel research workshop format, this graduate and undergraduate course explores political and geographical dimensions of technological change around key environmental issues—energy, water, and waste.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-SERVICE.

Making Connections Gen Ed: SS, CI, EE- Service Learning.

Grading Status: Letter grade.

 **GEOG 691H. Honors. 3 Credits.**

By permission of the department. Required of all students aspiring to honors in geography. Directed readings, research, and writing.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 **GEOG 692H. Honors. 3 Credits.**

Required of all students aspiring to honors in geography. Preparation of a senior thesis.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisite, GEOG 691H.

Grading Status: Letter grade.

 **GEOG 697. Capstone Seminar in Geographic Research. 3 Credits.**

A systematic study of the approaches, key concepts, and methods of geography, emphasizing the application of these approaches through hands-on independent research designed and implemented by the students. (Core)

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING, RESEARCH.

Grading Status: Letter grade.

Geography Major, B.A.

Geography is the science of space, place, and environment. The department offers classes spanning the social and natural sciences and offering students training in qualitative, quantitative, spatial analysis and modelling, and lab methodologies. Human geographers study the spatial aspects of human activity, and physical geographers study patterns of climate, land forms, soils, and water. Geographic tools and techniques—including Geographic Information Systems, remote sensing, and online and interactive mapping technologies—are among the most important for exploring and understanding our complex world. Geographic inquiry is global and local, inherently interdisciplinary, and offers skills that enable insights into pressing issues valued by employers and policy makers.

Career opportunities for geographers are wide ranging in the public, private, and nongovernmental sectors. Geographers work in the areas of social, health, and environmental policy; energy, transportation, economic development, and tourism planning; urban and regional planning; research and education; community development; resource management; and environmental regulation and modeling.

With geography, you can explore the world and find yourself.

Student Learning Outcomes

Upon completion of the geography program, students should be able to:

- Apply current research methods in geography to understand and/or solve real-world problems.
- Construct a coherent, logical research approach to examine a question of geographic significance.
- Analyze a geographic landscape and discuss the human and physical influences that have helped create it.
- Analyze cultural and social contexts to understand and theorize human activities/behavior on human well-being.
- Report satisfaction with the geography major.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC—Chapel Hill courses

- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
GEOG 110	The Blue Planet: An Introduction to Earth's Environmental Systems ^H	3
	or GEOG 111 Weather and Climate	
One of the following:		3
GEOG 120	World Regional Geography	
GEOG 121	Geographies of Globalization	
GEOG 130	Development and Inequality: Global Perspectives ^F	
GEOG 370	Introduction to Geographic Information	3
GEOG 391	Quantitative Methods in Geography	3
GEOG 392	Research Methods in Geography	3
GEOG 697	Capstone Seminar in Geographic Research ¹	3
Four GEOG elective courses, at least two of which must be at the 400-level or above.		12
Total Hours		30

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students wishing to pursue honors in geography are recommended to take the GEOG 697 in the spring of the junior year as preparation for the honors thesis (GEOG 691H and GEOG 692H).

Students are invited (but not required) to navigate through the major using a pathway, which reflects various subfields of geography (for example, urban geography, health geography, climate, international development, social and cultural geography). Students should refer to the full list of pathways below.

All General Education requirements apply. Although the major requires a total of 10 geography courses (30 credit hours), a maximum of 15 geography courses (45 credit hours) can count toward the 120 hours required to graduate. Students wishing more information should consult the director of undergraduate studies.

Geography (GEOG) course descriptions (p. 671).

Urban Development and Planning Pathway

For the first time in human history over half of the world’s population lives in cities. This presents a monumental challenge to politicians, urban

planners, and citizens to build sustainable, just, and livable urban spaces. A background in urban geography prepares you for one of the many careers devoted to improving cities and settlements around the globe.

Code	Title	Hours
Core Classes		
GEOG 228	Urban Geography	3
GEOG 423	Social Geography	3
GEOG 428	Global Cities: Space, Power, and Identity in the Built Environment	3
GEOG 429	Urban Political Geography: Durham, NC	3
GEOG 430	Global Migrations, Local Impacts: Urbanization and Migration in the United States	3
GEOG 458	Urban Latin America: Politics, Economy, and Society	3
GEOG 542	Neighborhoods and Health	3
Methods and Research		
GEOG 391	Quantitative Methods in Geography ¹	3
GEOG 392	Research Methods in Geography ¹	3
GEOG 491	Introduction to GIS ¹	3
GEOG 591	Applied Issues in Geographic Information Systems ¹	3
GEOG 697	Capstone Seminar in Geographic Research ²	3

¹ Qualitative, quantitative, and GIS skills.

² Research opportunities.

Pursuing a minor in urban studies and planning (p. 424) may also be of interest.

There are career opportunities in city planning, architecture, real estate development, policy analysis, community development, or civil engineering.

Diversity and Justice Pathway

How do the places, spaces, and environments that we inhabit reinforce structures of oppression or create the potential for liberation? Social movements and activists have created spatial theories and strategies to change the world: by occupying public space or by fighting for the protection of sacred lands. In our classes, you will learn how power flows through space; that all politics unfolds in places; that everyday life is political; and that environmental issues are connected to social justice. You will also learn tools including mapping technologies, remote sensing, oral histories, and interviews.

Code	Title	Hours
Building Blocks		
GEOG 56	First-Year Seminar: Local Places in a Globalizing World	3
GEOG 67	First-Year Seminar: Politics of Everyday Life	3
GEOG 225	Space, Place, and Difference	3
GEOG 228	Urban Geography	3
Advanced Courses		
GEOG 212	Environmental Conservation and Global Change	3
GEOG 232	Agriculture, Food, and Society	3

GEOG 447	Gender, Space, and Place in the Middle East	3
GEOG 470	 Political Ecology: Geographical Perspectives	3
GEOG 480	Liberation Geographies: The Place, Politics, and Practice of Resistance	3
GEOG 650	 Technology and Democracy Research	3
Methods		
GEOG 491	Introduction to GIS	3
GEOG 541	GIS in Public Health	3
GEOG 543	 Qualitative Methods in Geography	3
GEOG 591	 Applied Issues in Geographic Information Systems	3

Climatology Pathway

The emphasis of this pathway is on developing an understanding of the Earth's climate system, the impacts of climate on environmental and human sectors, and in gaining quantitative skills that can be used to analyze climate and weather.

Code	Title	Hours
Core Classes		
GEOG 110	 The Blue Planet: An Introduction to Earth's Environmental Systems ^H	3
GEOG 111	 Weather and Climate	3
GEOG 412	Synoptic Meteorology	3
GEOG 414	 Climate Change	3
GEOG 416	 Applied Climatology: The Impacts of Climate and Weather on Environmental and Social Systems	3
Geography Methods and Skills		
GEOG 391	Quantitative Methods in Geography	3
GEOG 410	 Modeling of Environmental Systems	3
GEOG 477	 Introduction to Remote Sensing of the Environment	3
Complimentary Methods and Skills		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 383	First Course in Differential Equations ^H	3
STOR 151	 Introduction to Data Analysis	3
	or STOR 155  Introduction to Data Models and Inference	
COMP 110	 Introduction to Programming and Data Science ^H	3
	or COMP 116 Introduction to Scientific Programming	

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Climate science has growing career opportunities due to renewed interest in current and future climate change. This pathway will position students for non-profit, governmental, and private environmental jobs, as well as for advanced study in climatology.

International Development and Globalization Pathway

The international development and globalization pathway will prepare students with the practical tools and intellectual framework to become participants and leaders in the world of international development. Students might continue their studies in graduate school, work for an international non-governmental organization, pursue a career in diplomacy, or work with social movements.

Code	Title	Hours

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

GIScience

Geographic information science (GIScience) emphasizes geographic information technologies, their real-world applications, and the science and technology underlying them. These technologies include geographic information systems (GIS), satellite remote sensing, global positioning systems, computer cartography, terrain analysis, and geospatial visualization. These skills are in high demand, giving students a competitive edge to pursue careers in the private, public, and non-profit sectors.

Code	Title	Hours

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Geography of Health and Disease

Health geography takes a socio-ecological approach, rather than a biomedical approach to understanding the occurrence of human disease and wellbeing. This is a highly integrated field, requiring knowledge of social systems, environmental systems, and the etiology and ecology of disease. In addition, geospatial technologies such as geographic information systems, satellite remote sensing, and geographic analysis are powerful tools in the study and management of human diseases. This pathway will prepare students for a career in the spatial, social, and

ecological dimensions of public health, as well as for graduate school in the spatial health sciences.

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Political Ecology

Political ecologists study the reciprocal and dynamic relations between society and nature. How do markets, social relations, and populations influence resource governance practices and vice versa? Whose voices and ideas count in the creation of protected areas, or in the decisions about where toxic waste and trash are deposited? When and how do decision makers or community members mobilize scientific knowledge to pursue environmental and ethical commitments? The political ecology pathway in geography offers a cross-disciplinary approach for answering such questions and, more broadly, for studying the relationship between the economy, politics, and ecology.

Code	Title	Hours
Core Courses		
GEOG 141	 Geography for Future Leaders	3
GEOG 212	 Environmental Conservation and Global Change	3
GEOG 232	 Agriculture, Food, and Society	3

GEOG 414	 Climate Change	3
GEOG 435	 Global Environmental Justice	3
GEOG 470	 Political Ecology: Geographical Perspectives	3
Methods and Skills ¹		
GEOG 370	 Introduction to Geographic Information	3
GEOG 391	Quantitative Methods in Geography	3
GEOG 392	 Research Methods in Geography	3
GEOG 222	Health and Medical Geography	3
Classes Outside of Geography		
ANTH 139	Ecological Anthropology	3
ANTH 151	 Anthropological Perspectives on Food and Culture	3
ANTH 238	 Human Ecology of Africa	3
ANTH 306	Water and Inequality: Anthropological Perspectives	3
ANTH 320	Anthropology of Development	3
NUTR/AMST 175	 Introduction to Food Studies: From Science to Society	3

¹ More advanced quantitative and GIS courses are very useful to students wishing to pursue professional paths in this field.

Culture, Society, and Space

How are our identities, experiences, and daily practices shaped by the places that we live in? How do we transform our environments to reflect who we are? These questions underpin key debates about culture and society today. Cultural and social geographers study the relationships among culture, society, space, and place. Their research examines the dynamic geography of cultural and societal change due to, for example, migration, technological developments, or religious movements. The culture, society, and space pathway in geography prepares students for work in international NGOs and the public and private sectors, specializing in cultural and social issues, as well as training students for graduate school in the social sciences and humanities.

Code	Title	Hours
Core Courses		
GEOG 120	 World Regional Geography	3
GEOG 121	 Geographies of Globalization	3
GEOG 123	 Cultural Geography	3
GEOG 124	 Feminist Geographies	3
GEOG 125	Cultural Landscapes	3
GEOG 225	Space, Place, and Difference	3
GEOG 281	Ethnographies of Globalization: From 'Culture' to Decolonization	3
GEOG 423	Social Geography	3
GEOG 424	 Geographies of Religion	3

ANTH 259	Culture and Identity	3
ANTH 428	Religion and Anthropology ^H	3
COMM 140	 Introduction to Media History, Theory, and Criticism ^{H, F}	3
COMM 450	 Media and Popular Culture	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Special Opportunities in Geography and Environment

Joint Degree Program with the National University of Singapore (NUS)

The Department of Geography and Environment is one of several departments offering a joint degree in conjunction with the National University of Singapore (NUS). Students in the program will spend one or two years studying geography at NUS, and their diploma will be jointly granted by both universities.

Honors in Geography

Qualifying students are encouraged to pursue an honors degree. To gain admission to the honors program students must have a cumulative grade point average of 3.3 or higher and a grade point average of 3.4 or higher in geography courses. Honors students take GEOG 691H and GEOG 692H (honors readings and research and theses hours) with their honors thesis chair in their senior year. Honors study involves the completion of a substantial piece of original research and the formal presentation of the results in an honors thesis and oral defense. Those who successfully complete the program are awarded their B.A. degree with either honors or highest honors in geography.

Departmental Involvement

All students are welcomed and encouraged to attend the department's seminar, held on most Friday afternoons at 3:35 p.m. in Carolina Hall 220. The department sponsors the Carolina Geography and Environment Club, which provides an avenue for student involvement with the department outside of course work (see the club's Facebook page). Students can also interact with the department through service on the faculty undergraduate committee and through independent research with faculty.

Experiential Education

The department offers several experiential education courses:

Code	Title	Hours
GEOG 53	 First-Year Seminar: Battle Park: Carolina's Urban Forest	3
GEOG 419	Field Methods in Physical Geography	3
GEOG 429	 Urban Political Geography: Durham, NC	3
GEOG 452	Mobile Geographies: The Political Economy of Migration	3
GEOG 493	 Internship	3
GEOG 650	 Technology and Democracy Research	3
GEOG 691H	 Honors	3
GEOG 692H	 Honors	3

Internship

Students can gain course credit by interning with an organization, agency, or business that will augment their classroom learning. The department has an internship coordinator available to assist students find internships and to manage participation in the organization's activities. Internship can be taken with a geography and environment faculty member for academic credit through GEOG 493.

Independent Study

Independent study with a geography and environment faculty member can be taken for academic credit through GEOG 296. Students are responsible for arranging their independent study with a faculty member who will sponsor them for this activity. Students must fill out a learning contract and syllabus in collaboration with the sponsoring faculty member and then be enrolled by Nell Phillips in the department office. For more information, contact the individual faculty member or the director of undergraduate studies.

Undergraduate Research

Research with a geography and environment faculty member can be taken for academic credit through GEOG 295. Students are responsible for arranging their research activities and responsibilities with a faculty member who will sponsor them for this activity. Students must fill out a learning contract with the sponsoring faculty member and then be enrolled by Nell Phillips in the department office.

Study Abroad

Experiences with other cultures and environments are important to a sound background in geography, and thus the department encourages a study abroad experience. Many of our students study abroad in the Galapagos Islands at the Galapagos Science Center. The department also participates in a junior-year exchange program with King's College London. Many other study abroad programs combine well with a major in geography.

Undergraduate Awards

The Andrew McNally Award is given each spring to an outstanding graduating geography major, as chosen by a committee of the faculty. The department also administers the Melinda Meade Award for Excellence in Undergraduate Geographic Research, the John D. Eyre Service in Geography Award, as well as the John D. Eyre Travel Award,

and the Burgess McSwain Travel America Fund, which are open to all undergraduates at UNC–Chapel Hill.

Climate Change Minor

Climate change is arguably the most pressing concern of our times. The impacts of climate change touch nearly every aspect of nature and society. Climate change is producing increasingly frequent and intense disturbances to natural resources and the environment, including droughts, flooding, wildfire, cyclones and heat waves. These impacts disrupt nearly every human endeavor, including public health and safety, environmental management and conservation, transportation, settlement patterns, food production, economics, migration, water resources and conflict. The climate change minor will help prepare students for this monumental challenge of global citizenship, and to prepare them for nearly all major fields of employment.

The minor offers a broad and integrated perspective on the intersections of society, nature, and our changing climate systems. Students will learn about the environmental science driving climate change through three foundational courses. Students will also learn about the impacts and vulnerabilities of the scientific and human dimensions of climate change, and methods for researching and presenting findings on climate.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Environmental Justice Minor

The minor in Environmental Justice (EJ) focuses on the intersections of inequity, the environment, and justice. The minor introduces the field's historical foundations in scholarship on race, inequity, and social movements with of focus on their relation to environmental concerns and provides an overview of environmental justice movement work and literature from local to global scales. The goal of the minor is to provide a starting-point for understanding the meaning, significance, and potential of environmental justice as a field of action and inquiry in

relation to questions of development and social difference, and in various geographic contexts. Students who complete the minor will engage with an interdisciplinary curriculum that emphasizes intersecting ideas about landscapes, ecosystems, and environmental health with questions of race, economic production, and power inequities. Students will also use geographic approaches to space, place, and scale to conceptualize, contextualize, and analyze a wide range of environmental justice related topics, and learn about tools and political processes that can be used to address environmental justice concerns. Relevant topics include, for example, the uneven social experiences with food, water, health and land access; exposures to pollution; risks to health and wellbeing; infrastructural inequities; resource extraction; colonization; and climate change.

Required courses provide an introduction to EJ and build insight into how different people, in different contexts, have looked to environmental justice framing and practices for inspiration in social and community movements, justice-oriented governance, formal state and inter-state regulatory bodies, and planning for environmental change.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

A minimum of 4 courses (12 credit hours) is required to complete the minor.

Geography Minor

Geography is the science of space, place, and environment. The department offers classes spanning the social and natural sciences and offering students training in qualitative, quantitative, spatial analysis and modelling, and lab methodologies. Geography minors have the opportunity to augment their major by adding a spatial perspective to the big questions of how, where, and why we live the way we do, in the world that we all share.

The geography minor pairs well with majors in the humanities, social, and natural sciences. Common majors include anthropology, biology, environment and ecology, environmental sciences and engineering, global studies, peace, war, and defense, political science, and public policy.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

To minor requires five geography courses.

Code	Title	Hours
Core Requirements		
Any two core courses:		6
GEOG 110	 The Blue Planet: An Introduction to Earth's Environmental Systems ^H	
GEOG 111	 Weather and Climate	
GEOG 120	 World Regional Geography	
GEOG 121	 Geographies of Globalization	
GEOG 130	 Development and Inequality: Global Perspectives ^F	
GEOG 370	 Introduction to Geographic Information	
GEOG 697	 Capstone Seminar in Geographic Research	
Three GEOG elective courses		9
Total Hours		15

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Elective courses may be any on the departmental list (p. 671), but students are encouraged to take higher-numbered courses. Students wishing more information should consult their academic advisor or the geography director of undergraduate studies.

See the program page here (p. 686) for special opportunities.

Geographic Information Sciences Minor

Geographic information sciences (GISc) is the study of geospatial phenomena using an integrated set of spatial digital technologies including tools, techniques, concepts, and datasets associated with geographic information systems, remote sensing, data visualization, global positioning systems, spatial analysis, and quantitative methods. Students in the GISc minor will learn spatial reasoning, geographic theory, hands-on experiences in cutting-edge geographic information systems (GIS), remote sensing (RS), global positioning systems (GPS), and their application in solving real-world problems, such as the impacts of climate and environmental changes on ecosystem goods and services, natural and anthropogenic factors affecting freshwater availability, biodiversity, and public health, among others. Students who complete the program will be ready to enter the job market with a competitive advantage in geographic information sciences.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
GEOG 215	 Introduction to Spatial Data Science	3
GEOG 370	 Introduction to Geographic Information	3
Select three courses from the following list:		9
ANTH 419	Anthropological Application of GIS	
GEOG 456	 Geovisualizing Change	

GEOG 477  Introduction to Remote Sensing of the Environment

GEOG/PLAN 491 Introduction to GIS

GEOG 541 GIS in Public Health

Department of Germanic and Slavic Languages and Literatures

Introduction

The Department of Germanic and Slavic Languages and Literatures offers instruction and conducts research in the languages, literatures, and cultures of central, northern, and eastern Europe. It offers multiple tracks for undergraduate study for those interested in German programs (one concentration), Slavic programs (two concentrations), and Central European studies (one concentration). A major in Germanic and Slavic languages and literatures provides preparatory training that will be useful in government employment, internationally-oriented business, journalism, law, the sciences, and teaching; as well as preparing students for graduate study in a range of humanistic and social science disciplines.

Advising

Students can complete any concentration, even if they have no prior experience in the language, provided that they begin taking their language courses as first-year students. It is also very possible for transfer students to complete the concentrations, provided they enter the program with some knowledge of the associated language(s).

All majors and minors have a primary academic advisor as assigned by Academic Advising (<https://advising.unc.edu/>). Students should meet regularly with their primary advisor and review their Tar Heel Tracker each semester.

However, departmental academic advising is also important for all students majoring or minoring in the department. Current and prospective majors and minors should confer with the department's director, or assistant director, of undergraduate studies regarding plans of study, study abroad course approvals, internship opportunities, and transfer credit.

Students seeking certification to teach German or Russian in public schools should consult advisors in the School of Education.

Graduate School and Career Opportunities

In an age of rapid internationalization and globalization, proficiency in a foreign language is no longer just an auxiliary skill but a necessary one. Courses offered in the department make up an important part of a liberal education, and a major or minor can provide excellent preparation for many careers, particularly when the major or minor is combined with courses in business, economics, political science, journalism, and various other fields. Recent graduates have entered careers in international business, journalism, publishing, the sciences, and the travel industry.

A bachelor of arts with a major in Germanic and Slavic languages and literatures also qualifies graduates for positions in the U.S. Department of State and other government agencies, educational organizations, foundations, and travel organizations. The presence of over 100 German and Swiss firms in the Carolinas testifies to the demand for a high degree of German linguistic and cultural literacy in college graduates. The department is also one among very few in the United States that offers a range of critical and/or less commonly taught languages of Central and Eastern Europe. People who know these languages are in particularly high demand in business and government.

In addition, the demand for language teachers provides career opportunities for those German and Russian majors who also receive teaching certification from the School of Education.

German and Slavic majors often go on to graduate programs in comparative literature, linguistics, history, law, international business and management, international relations, professional translation, medicine, education, and more. Some pursue careers as college professors. Many Chapel Hill German and Slavic majors have been welcomed by the most prestigious graduate programs in the country. The department's faculty members can assist undergraduate majors in selecting appropriate graduate programs.

Majors

- Germanic and Slavic Languages and Literatures Major, B.A.—Central European Studies Concentration (p. 718)
- Germanic and Slavic Languages and Literatures Major, B.A.—German Studies Concentration (p. 721)
- Germanic and Slavic Languages and Literatures Major, B.A.—Russian Language and Culture Concentration (p. 724)
- Germanic and Slavic Languages and Literatures Major, B.A.—Slavic and East European Languages and Cultures Concentration (p. 727)

Minors

- German Minor (p. 730)
- Russian Culture Minor (p. 732)
- Slavic and East European Languages and Cultures Minor (p. 734)

Graduate Programs

- M.A. in German Studies (<https://catalog.unc.edu/graduate/schools-departments/germanic-slavic-languages-literatures/>)
- Ph.D. in German Studies (<https://catalog.unc.edu/graduate/schools-departments/germanic-slavic-languages-literatures/>)

Professors

Ruth von Bernuth, Eric Downing, Richard Langston, Priscilla Layne, David Pike, Paul Roberge.

Associate Professors

Radislav Lapushin, Inga Pollmann, Aleksandra Prica, Stanislav Shvabrin, Gabriel Trop.

Assistant Professors

Adi Nester, Eliza Rose.

Teaching Associate Professors

Natalia Chernysheva, Eleonora Magomedova.

Adjunct Associate Professor

Dan Thornton.

Teaching Assistant Professors

Jocelyn Aksin, Adnan Dzumhur, Matthew McGarry, Sophia Strietholt.

Lecturers

Agnieszka Majewska, Kirill Tolpygo.

Professors Emeriti

Clayton Koelb, Madeline G. Levine, Hana Pichova, Peter Sherwood.

Associate Professors Emeriti

Lawrence Feinberg, Walter K. Francke, Christopher R. Putney, Ivana Vuletic.

Courses

GSSL –Germanic and Slavic Languages and Literatures Undergraduate-level Courses

GSSL 50. First-Year Seminar: Literary Fantasy and Historical Reality. 3 Credits.

The intersection of literary fantasy with historical reality considered in two ways: (1) fantastic-looking tales based on historical reality; and (2) stories describing fantastic situations that actually came true. Previously offered as GERM 50.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH or FC-PAST.
Making Connections Gen Ed: LA, CI, NA.
Grading Status: Letter grade.

GSSL 51. First-Year Seminar: Stalin and Hitler: Historical Issues in Cultural and Other Perspectives. 3 Credits.

Critical issues that dominated the 20th century: WWI and Bolshevik Revolution; rise of fascism, Lenin, Stalin, Hitler and their roles; origins and evolution of Cold War; collapse of Eastern Bloc. Previously offered as GERM 51.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

GSSL 52. First-Year Seminar: Nature and Death: Ecological Crises in German Literature and Film. 3 Credits.

This seminar explores ecological crises and their depiction in German literature and film. The texts and films we will discuss will range from early Romantic fairy tales to present-day documentaries and climate-change literature (cli-fi). Together, we will face nuclear catastrophes, flooding, landslides, mass extinction, and climate change. Films with English subtitles; readings and discussions in English. Students may not receive credit for both GSSL 52 and GERM 255.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

GSSL 53. First-Year Seminar: Early Germanic Culture: Myth, Magic, Murder, and Mayhem. 3 Credits.

Introduction to pre-Christian culture of Germany, Anglo-Saxon England, and Scandinavia from the late Roman Empire through the Viking Age, as preserved in myths, sagas, charms, inscriptions, and historical documents. Previously offered as GERM 53. Students may not receive credit for both GERM 215 and GSSL 53.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

GSSL 54. First-Year Seminar: Once upon a Fairy Tale: Fairy Tales and Childhood, Then and Now. 3 Credits.

Fairy tales from different national traditions and historical periods read through various critical lenses, against a backdrop of changing historical conceptions of the child. Works from Grimm, Anderson, Brontë, Disney, etc. Students may not receive credit for both GSSL 54 and GERM 279/CMPL 279. Previously offered as GERM 54.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

GSSL 55. First-Year Seminar: Fantasies of Rome: Gladiators, Senators, Soothsayers, and Caesars. 3 Credits.

Introduces students to study of humanities by examining how the idea of Rome evolved through poetry, history, philosophy, opera, even forgery into a concept that has long outlasted the Romans. Previously offered as GERM 55.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, CI, WB.
Grading Status: Letter grade.

GSSL 56. First-Year Seminar: Germans, Jews, and the History of Anti-Semitism. 3 Credits.

This course seeks to explore the historically difficult position of minorities in the modern world, using the situation of Jews in Germany from the 18th century to the Holocaust as a case study. Previously offered as GERM 56.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR, FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, CI, NA.
Grading Status: Letter grade.
Same as: JWST 56.

GSSL 59. First-Year Seminar: Moscow 1937: Dictatorships and Their Defenders. 3 Credits.

Stalinist Soviet Union serves as a case study to examine how dictatorships develop and how they tend to be enveloped in justifications and kept in existence by outside observers. Previously offered as GERM 59.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

 **GSL 60. First-Year Seminar. Avant-Garde Cinema: History, Themes, Textures. 3 Credits.**

Students explore the international history, filmic techniques and cultural meanings of non-narrative cinema of the 20th century. Students also transform in-class discussions and individual essays into video projects. Previously offered as GERM 60.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **GSL 63. First-Year Seminar. Performing America. 3 Credits.**

The intersection of performance in a theater space and in everyday life will serve as a springboard to investigating the diversity of contemporary America. Examines how race, class, religion, sexuality, sexual orientation, history, and death are performed in America today. Previously offered as GERM 63.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **GSL 67. First-Year Seminar. Blackness in the European Imaginary, Europe in the Black Imaginary. 3 Credits.**

This seminar deals with how encounters between Europe and the African Diaspora have changed notions of race, nation, identity, and belonging in the 20th century. Through engaging with diverse texts—literary, nonliterary, and visual—we will explore the construction of blackness in various national and historical contexts. Previously offered as GERM 67.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: GL, NA.

Grading Status: Letter grade.

 **GSL 68. First-Year Seminar. Intensity, Vitality, Ecstasy: Affects in Literature, Film, and Philosophy. 3 Credits.**

This course focuses on three powerful affective states that challenge the conception of humans as autonomous, independent beings: intensity, vitality, and ecstasy. We will examine both philosophical and artistic representations of these particular states, focusing on the way in which they both endanger and enrich our experience of the world. Previously offered as GERM 68. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-KNOWING or FC-VALUES.

Making Connections Gen Ed: PH, NA.

Grading Status: Letter grade.

 **GSL 69. First-Year Seminar. Laughing and Crying at the Movies: Film and Experience. 3 Credits.**

Why is it that we cry at the movies? We will focus on the melodrama but also look at comedy and horror to think about emotional responses to films. Students will learn the basics of film analysis, gain an overview of genre cinema, and study approaches to emotion, affect, and the body.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH.

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

 **GSL 70. First-Year Seminar. Teenage Kicks: Race, Class, and Gender in Postwar Youth Cultures. 3 Credits.**

This seminar investigates youth cultures from the 1940s to the present in the United States and around the world. It offers students a history of how different youth cultures developed over time, and consideration of how the constitution of youth cultures has been influenced by factors like race, class, and gender.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA, EE- Mentored Research, GL.

Grading Status: Letter grade.

 **GSL 75. First-Year Seminar. The Book of Books: Literature and the Bible. 3 Credits.**

This seminar examines the influence the Bible had on great works of Western literature and traces this powerful literary tradition through different cultures and historical periods. Readings and discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

 **GSL 76. First-Year Seminar. Uncharted Territory: Underworlds in Literature and the Visual Arts. 3 Credits.**

This course examines concepts and representations of underworlds in literature and the visual arts from the ancient world to the Middle Ages and Renaissance to modernity. Our journey will take us to the realms of the afterlife as well as into the abyss of the human psyche and the shady areas of underground criminal activities. We will explore how the desire to know the beyond has triggered people's imagination, inspired literary and artistic traditions.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH or FC-PAST.

Grading Status: Letter grade.

 **GSL 80. Not Just Dogs: Animals in Russian Literature. 3 Credits.**

This course explores the question of the animal in the works of major Russian writers (Gogol, Dostoevsky, Tolstoy, Turgenev, Chekhov, Platonov). Among the topics to be discussed are: The animal as the other; animal and human natures: dominance and submission, ethics of human/animal relations, and the trope of "talking" animals. Readings and discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

 **GSL 82. First-Year Seminar. Doctor Stories. 3 Credits.**

Explores and reflects on the experience and significance of being a doctor in Russia and the United States, analyzing "doctors' stories" presented in fiction, nonfiction, film, and other media. Previously offered as SLAV 82.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **GSL 83. First-Year Seminar: We, Robots: Identifying with our Automated Others in Fiction and Film. 3 Credits.**

The word "robot" was invented by Czech author Karel Capek in 1920. Science fiction has had a long-running obsession with robots. Fiction and film dream up robots who have mastered and often surpassed the strange art that is being human. In this class, we will read and watch stories about robots from East and Central Europe, with occasional detours into American culture. Films with English subtitles; readings and discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

 **GSL 84. First-Year Seminar: Terror for the People: Terrorism in Russian Literature and History. 3 Credits.**

Terror was used as a political weapon in 19th-century Russia. This seminar introduces the terrorists through their own writings and fictional representations in novels by Fyodor Dostoevsky and Joseph Conrad. Previously offered as SLAV 84.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA, BN, CI.

Grading Status: Letter grade.

 **GSL 85. First-Year Seminar: Children and War. 3 Credits.**

Readings for this seminar include children's wartime diaries, adult memoirs of child survivors, and fiction from Central and Eastern Europe. Previously offered as SLAV 85.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

 **GSL 86. First-Year Seminar: Literature and Madness. 3 Credits.**

The seminar considers the relationship between literature and madness through the works of major Russian writers (Pushkin, Gogol, Dostoevsky, Turgenev, Chekhov, Nabokov). Previously offered as SLAV 86.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **GSL 87. First-Year Seminar: Literature Confronting Totalitarianism. 3 Credits.**

What is totalitarianism? Can a portrayal of suffering, even death, under a totalitarian state, have artistic value, or must it remain only a political pamphlet? This seminar studies authors who reveal the crimes of totalitarianism, while also showing the moral strength and/or weaknesses of humans victimized by the totalitarian state.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA.

Grading Status: Letter grade.

 **GSL 88. First-Year Seminar: Gender and Fiction in Central and Eastern Europe. 3 Credits.**

An introduction to the region, this course examines the role of gender in central and east European literature from the end of the 19th century to contemporary times. Course materials include novels, films, historical readings, and essays. Readings and class discussions in English. Previously offered as SLAV 88H. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

 **GSL 89. First-Year Seminar: Special Topics in Germanic and Slavic Languages and Literatures. 3 Credits.**

Special topics course. Content will vary each semester.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

 **GSL 212. "Game of Thrones" and the Worlds of the European Middle Ages. 3 Credits.**

This course offers a historical perspective on the adaptation of medieval culture in "Game of Thrones." We will focus on topics such as family, politics, religion, violence, gender, slavery, outcasts, knighthood, travel, heroes, myths, and magic. Readings and discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

GSL 218. Christianity and Islam in the Middle Ages. 3 Credits.

This course draws on a variety of cultural documents to explore both the conflict and cross fertilization between the Christian and Islamic cultures of the Middle Ages. Readings and discussions in English. Previously offered as GERM 218.

Rules & Requirements

Making Connections Gen Ed: HS, GL, WB.

Grading Status: Letter grade.

Same as: RELI 218.

 **GSL 225. Popular and Pious: Early Modern Jewish Literature. 3 Credits.**

This seminar covers popular and pious literature written by and for Jews in the 15th to 18th century in German-speaking countries. Originally written in Old Yiddish, this literature preserved the popular European genres and nonfiction accounts of Jewish community and family life. Previously offered as GERM 225.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-VALUES.

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

Same as: JWST 225.

GSLI 254. The Division of Germany, Reunification, and Conflict with Russia. 3 Credits.

Why was occupied Germany divided into two states after World War II? Were the Cold War and division inevitable? We explore these questions in two chronological contexts: 1945-1949 and 1989-present, with emphasis on the reemergence of Western conflict with Putin's Russia. Readings and discussions in English. Previously offered as GERM 254. Honors version available.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

GSLI 255. Germany and Cold War: Occupation, Division, Reunification, Renewed Conflict with Russia (1945-Today). 3 Credits.

This course investigates the central role played by the "German question" in the break-up of the wartime alliance, the emergence of East-West political blocs, the subsequent dissolution of the USSR, and the return to new Russian-Western antagonisms. Readings and discussions in English. Previously offered as GERM 255.

Rules & Requirements

Making Connections Gen Ed: HS, GL, NA.

Grading Status: Letter grade.

 **GSLI 259. Ideology and Aesthetics: Marxism and Literature. 3 Credits.**

This seminar provides students with a general introduction to Marxist thought with particular attention to its critical importance for interpreting the role of ideology in modern literature. Readings and class discussions in English. Previously taught as GSLI 251.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

Same as: CMPL 259.

GSLI 260. From Berlin to Budapest: Literature, Film, and Culture of Central Europe. 3 Credits.

Central Europe, at the center of dramatic historical changes—WWI, emergence of independent nation states, WWII and Holocaust, Communism and its end, incorporation into the European Union—produced unprecedented cultural results. The creative voices of writers and filmmakers have relevance far beyond this region.

Rules & Requirements

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

GSLI 268. Cultural Trends in Post-Communist Central Europe: Search for Identity, Importance of Jewish Voices. 3 Credits.

We will study how contemporary literary and cinematic works of Central European intellectuals serve as reflections on the everyday life of this region. Readings and class discussions in English. Films with English subtitles.

Rules & Requirements

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

Same as: JWST 268.

GSLI 269. Springtime for Hitler. Jews on Stage from Shakespeare to Mel Brooks. 3 Credits.

This course examines the roles and representations of Jews in the world of the theater from Shakespeare's *The Merchant of Venice* to the present, considering dramas, operas, musicals, film adaptations, and films. Readings and discussions in English.

Rules & Requirements

Making Connections Gen Ed: VP, CI, NA.

Grading Status: Letter grade.

Same as: CMPL 269, JWST 269.

GSLI 270. German Culture and the Jewish Question. 3 Credits.

A study of the role of Jews and the "Jewish question" in German culture from 1750 to the Holocaust and beyond. Discussions and texts (literary, political, theological) in English. Previously offered as GERM 270.

Rules & Requirements

Making Connections Gen Ed: HS, GL, NA.

Grading Status: Letter grade.

Same as: CMPL 270, JWST 239, RELI 239.

GSLI 271. Vampires and Empires. 3 Credits.

An examination of the vampire in the visual and verbal cultures of Central and Eastern Europe, and the popular adaptation of "vampirism" in the West. All materials and discussions in English. Previously offered as HUNG 271.

Rules & Requirements

Making Connections Gen Ed: BN.

Grading Status: Letter grade.

GSLI 272. Poland, Russia, and Germany through the Prism of Film. 3 Credits.

Explore the relationship between Poland, Russia, and Germany from World War II until the present day, through films and readings that cover World War II, the fall of Communism in Europe, the Holocaust and the post-war situation of Jews, religious faith, Putin's politics, women's rights, and the current refugee situation in Germany. Film directors include Balabanov, Becker, Fassbinder, Kalatozov, Holland, Mikhalkov, Polanski, Wajda, and Wenders. Readings and class discussions in English. Films with English subtitles.

Rules & Requirements

Making Connections Gen Ed: VP, BN.

Grading Status: Letter grade.

 **GSLI 273. Close Your Eyes and See a Film: The Documentary in Central Europe. 3 Credits.**

Aesthetic experiment, agit-prop tool, and instrument of social critique: documentary film is a flexible form. In the Socialist Bloc, documentary was sanctioned by the state but often used to undermine state power. This course is a survey of Polish, Czech, Yugoslav and Hungarian documentary film. We will explore studio productions alongside home movies, amateur films, and art films. Does documentary simply record reality, or can it change reality too? Readings & discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-CREATE.

Making Connections Gen Ed: VP, BN.

Grading Status: Letter grade.

GSSL 278. Music, Image, Text. 3 Credits.

This course examines the relationship between text, music, and the visual arts, focusing on the way in which nonliterary aesthetic content may both mediate and call into question cultural values.

Rules & Requirements

Making Connections Gen Ed: VP, CI.

Grading Status: Letter grade.

GSSL 279. A River Runs Through It: Cultural Geography Through Imaginative Literature. 3 Credits.

This course looks at cultural geography through the lens of literature about rivers. After a brief survey of the world's major rivers and a short dive into the way environmental science seeks to understand rivers, classes are devoted to poems, stories, novels, histories, and even science fiction about rivers. Students engage in mentored research culminating in a substantial essay. Readings and discussions in English.

Rules & Requirements

Making Connections Gen Ed: LA, CI, EE- Mentored Research.

Grading Status: Letter grade.

GSSL 280. The Dialectic of Whiteness and Blackness in Atlantic Cultures. 3 Credits.

Traces the invention of race, racism, and discourses of cultural inferiority/superiority throughout Western culture. What historical events created the necessity for racist thinking? How did colonialism and transatlantic migration change Atlantic cultures? Why did black culture become fashionable? Is the 21st century "post-racial"? Readings and course descriptions in English.

Rules & Requirements

Making Connections Gen Ed: GL, NA.

Grading Status: Letter grade.

GSSL 281. Holocaust Cinema in Eastern Europe. 3 Credits.

A critical look at varieties of cinematic representation and memorialization of the Holocaust, from those countries of Europe where it mostly took place. Taught in English. All films in (or subtitled in) English. Previously offered as SLAV 281.

Rules & Requirements

Making Connections Gen Ed: VP, BN.

Grading Status: Letter grade.

Same as: CMPL 281.

GSSL 282. Afropessimism in American and European Film. 3 Credits.

Scholars of Afropessimism argue that we are not living in the age of post-slavery, but in the "afterlife of slavery" and that Blacks exist outside of the world, because the social world is held together by anti-Blackness. This argumentation has had important effects within Black German and Black European Studies. This course seeks to explore these philosophical claims, by comparing American films with European films that deal with anti-Black racism.

Rules & Requirements

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: AAAD 282.

GSSL 283. Hungarian Cinema since World War II. 3 Credits.

An introduction to Hungarian society and culture since the end of World War II through a selection of film classics. Films with English subtitles. Readings and discussions in English. Previously offered as HUNG 280.

Rules & Requirements

Making Connections Gen Ed: VP, BN.

Grading Status: Letter grade.

GSSL 285. Dissent and Protest in Central Europe. 3 Credits.

This course examines cultures of dissent and protest in Central Europe, including student protests of the 1960s and the fall of Communism in 1989. Materials include literature, film, music, theatre, and popular culture from Czechoslovakia, East Germany, West Germany, Hungary, and Poland. Readings and discussions in English.

Rules & Requirements

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

 **GSSL 286. The Upright and the Toppled: Public Lives of Monuments in Europe and the American South. 3 Credits.**

Recent years have seen a worldwide push for emancipatory acts of iconoclasm: calls to "topple" monuments as emblems of social oppression. This course examines cases of contested and demolished monuments in contexts close to home (the Carolina campus) and geographically remote (Poland, Prague). If demolishing a monument can be a violent act, how might visual objects in public space exert their own forces of violence? Readings and discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-POWER.

Making Connections Gen Ed: VP, GL.

Grading Status: Letter grade.

 **GSSL 287. Into the Streets: 1968 and Dissent in Central Europe. 3 Credits.**

Protest movements of 1968 are often remembered as one "planetary event." In Western Europe, protesters demanded revolution, while in Eastern Europe, protesters living under communism demanded reform. In this course, we will explore dissent and counterculture in Central Europe through the lens of 1968. Through film and fiction from Poland, Yugoslavia, Czechoslovakia, and Hungary, we will investigate the impact of the Central European '68(s) worldwide. Films with English subtitles; readings and discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: LA, BN, EE- Mentored Research.

Grading Status: Letter grade.

 **GSSL 288. Graphic Medicine: The Intersection of Health and Comics. 3 Credits.**

We will explore the unique possibilities of comics in the form of graphic medicine: namely comics that thematize physical and mental health. How do comic artists work through issues of trauma and pain? How do artists with chronic illness and disabilities articulate their experience through comics? This course engages with the Medical Humanities, seeking to bring together students of medicine along with students of the humanities to contemplate how we communicate physical and mental illness.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: CMPL 288.

 **GSSL 295. Research, Creativity, and Innovation in the Humanities. 3 Credits.**

This course serves as an introduction to research methodologies, theories, and the university resources available to students seeking to perform cutting-edge research in the humanities. The goal of the course is to produce a substantial research project. The capacities developed in this course as well as the project itself could be used as the basis for grants, scholarships, internship applications, or an honors thesis. Taught in English. Previously offered as CMPL 395H/GSSL 295H/ROML 295H.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH, RESEARCH.

Making Connections Gen Ed: CI, EE- Mentored Research.

Grading Status: Letter grade.

Same as: CMPL 395, ROML 295.

Advanced Undergraduate and Graduate-level Courses

GSSL 465. Literature of Atrocity: The Gulag and the Holocaust in the Soviet Union and Eastern Europe. 3 Credits.

Historical contexts and connections through artistic representation of the Holocaust and Soviet terror in Eastern Europe and the USSR. Taught in English; some foreign language readings for qualified students.

Rules & Requirements

Making Connections Gen Ed: LA, BN, GL.

Grading Status: Letter grade.

Same as: JWST 465, PWAD 465.

GSSL 475. Magical Realism: Central European Literature in a Global Context. 3 Credits.

This course studies magical realism in Central European literature and film by placing it in a global literary/cinema context. Readings and discussions in English.

Rules & Requirements

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

GSSL 481. Grand Hotels and Empty Fields: Inventing Central Europe through Culture. 3 Credits.

Does Central Europe exist? It is a region with shifting borders, diverse languages, and a complex history. In this course, we will explore stories that invent fictional countries in Central Europe from the mist-shrouded mountains of Wes Anderson's *Zubrowka* to Ursula Le Guin's invented realm of Orsinia. We will also read work by writers from within the region who mythologized their home environments. Films with English subtitles; readings and discussions in English.

Rules & Requirements

Making Connections Gen Ed: LA, BN, EE- Mentored Research.

Grading Status: Letter grade.

GSSL 489. GSSL Across the Curriculum (LAC). 1 Credits.

This one-credit hour class aims to develop and facilitate conversational skills in a Germanic or Slavic language in the context of the current political, economic, and cultural climate. Knowledge of the language of instruction at the upper-intermediate level required.

Rules & Requirements

Requisites: Prerequisite, BCS 404, CZCH 404, DTCH 404, GERM 204, HUNG 404, KAZH 404, PLSH 404, RUSS 204, or UKRN 404; permission of instructor for students lacking the prerequisite.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.

Grading Status: Letter grade.

GSSL 490. Topics in Germanic and Slavic Languages and Literatures. 3 Credits.

Examines selected themes in the history, culture, society, art, and/or literature of Germanic and Slavic/East European countries.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

 **GSSL 495. Mentored Research. 3 Credits.**

In this course, students will carry out a research project under the direct supervision of a faculty mentor. The course culminates in a final research paper at the end of the semester.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Grading Status: Letter grade.

GSSL 496. Directed Readings. 3 Credits.

In this course, students work through a reading list in a specific field under the direction of a faculty member. Permission of the instructor required.

Rules & Requirements

Grading Status: Letter grade.

GSSL 560. Reading Other Cultures: Issues in Literary Translation. 3 Credits.

Permission of the instructor. Reading knowledge of a language other than English recommended. Starting from the proposition that cultural literacy would be impossible without reliance on translations, this course addresses fundamental issues in the practice, art, and politics of literary translation. Previously offered as SLAV 560.

Rules & Requirements

Grading Status: Letter grade.

Same as: CMPL 560.

GSSL 683. Moving-Image Avant-gardes and Experimentalism. 3 Credits.

History and theory of international avant-garde and experimentalist movements in film, video, intermedia, multimedia, and digital formats. Content and focus may vary from semester to semester. Previously offered as GERM 683.

Rules & Requirements

Requisites: Prerequisite, ARTH 159, COMM 140, or ENGL 142; permission of the instructor for students lacking the prerequisite.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

 GSSL 691H. Honors Course. 3 Credits.

Permission of the director of undergraduate studies. For majors only. Reading and special studies under the direction of a faculty member.

Rules & Requirements

 IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 GSSL 692H. Honors Course. 3 Credits.

Permission of the director of undergraduate studies. For majors only. Reading and preparation of an essay under the direction of a faculty member, designed to lead to the completion of the honors thesis.

Rules & Requirements

 IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 GSSL 693H. Honors Seminar. 3 Credits.

Permission of the director of undergraduate studies. For majors only. Introduction to research techniques and preparation of an essay, designed to lead to the completion of the honors thesis.

Rules & Requirements

 IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

DTCH–Dutch**Undergraduate-level Courses**** DTCH 275. Rising Fortunes and Rising Tides: The Dutch Golden Age and its Legacy. 3 Credits.**

This study abroad course provides students with in-depth exposure to the history and culture of the Netherlands in the 17th century through the lens of its chief city, Amsterdam. Conducted in English. No knowledge of Dutch is required.

Rules & Requirements

 IDEAs in Action Gen Ed: HI-SERVICE.

Making Connections Gen Ed: EE- Service Learning, NA, WB.

Grading Status: Letter grade.

DTCH 396. Independent Readings in Dutch. 3 Credits.

Permission of the instructor. Special readings and research in a selected field or topic under the direction of a faculty member.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**DTCH 402. Elementary Dutch. 3 Credits.**

The first course in the Dutch language sequence, DTCH 402 is a rapid introduction to modern Dutch with emphasis on all fundamental components of communication. Completion of DTCH 402 fulfills level 2 of a foreign language.

Rules & Requirements

Making Connections Gen Ed: FL.

Grading Status: Letter grade.

Global Language: Level 1 & 2 combined.

 DTCH 403. Intermediate Dutch. 3 Credits.

The second course in the Dutch language sequence, DTCH 403 focuses on increased skills in speaking, listening, reading, global comprehension, and communication. Emphasis on reading and discussion of longer texts. Completion of DTCH 403 fulfills level 3 of a foreign language.

Rules & Requirements

 IDEAs in Action Gen Ed: GLOBL-LANG.

Making Connections Gen Ed: FL.

Requisites: Prerequisite, DTCH 402; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 3.

DTCH 404. Advanced Intermediate Dutch. 3 Credits.

This third Dutch course completes the language sequence. DTCH 404 aims to increase proficiency in language skills (reading, speaking, writing) and is constructed around a series of themes meant to introduce students to Dutch society, culture, and history. Completion of DTCH 404 fulfills level 4 of a foreign language.

Rules & Requirements

Making Connections Gen Ed: FL.

Requisites: Prerequisite, DTCH 403; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 4.

DTCH 405. Topics in Dutch Culture: A Literary Survey. 3 Credits.

Ability to read and speak Dutch at intermediate to advanced level recommended. Introduction to Dutch literature from Middle Ages to the present. Survey of topics in Dutch culture.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Requisites: Prerequisite, DTCH 404; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 5.

GERM—German**Undergraduate-level Courses****GERM 101. Elementary German I. 4 Credits.**

Develops the four language skills (speaking, listening, reading, writing) in a cultural context. In addition to mastering basic vocabulary and grammar, students will communicate in German about everyday topics. Students may not receive credit for both GERM 105 and GERM 101 or 102. Honors version available.

Rules & Requirements

Making Connections Gen Ed: FL.

Grading Status: Letter grade.

Global Language: Level 1.

GERM 102. Elementary German II. 4 Credits.

This continuation of GERM 101 emphasizes speaking, listening, reading, writing in a cultural context. Students enhance their basic vocabulary and grammar and will regularly communicate in German about everyday topics. Students may not receive credit for both GERM 105 and GERM 101 or 102. Honors version available.

Rules & Requirements

Making Connections Gen Ed: FL.

Requisites: Prerequisite, GERM 101; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 2.

 **GERM 203. Intermediate German I. 3 Credits.**

Students acquire necessary materials and opportunities to develop further their language skills in a cultural context. They review and expand upon the basic grammar covered in beginning German. Students may not receive credit for both GERM 206 and GERM 203 or GERM 204. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** GLBL-LANG.

Making Connections Gen Ed: FL.

Requisites: Prerequisite, GERM 102; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 3.

 **GERM 204. Intermediate German II. 3 Credits.**

Emphasizes further development of the four language skills (speaking, reading, writing, listening) within a cultural context. Discussions focus on modern Germany, Austria, and Switzerland in literature and film. Students may not receive credit for both GERM 206 and GERM 203 or GERM 204. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: FL.

Requisites: Prerequisite, GERM 203; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 4.

GERM 210. Getting Medieval: Knights, Violence, and Romance. 3 Credits.

Offers a historical perspective on the portrayal of medieval culture in film from the 1920s to today. Specific topics include the ideal hero, the quest, etiquette, chivalry, rituals, and love. Readings and discussions in English.

Rules & Requirements

Making Connections Gen Ed: VP, NA, WB.

Grading Status: Letter grade.

GERM 211. Concepts in Medieval Culture. 3 Credits.

This course examines concepts that medieval texts utilize in order to articulate an understanding of human beings, their relations to others, their social, political, and religious worlds. Readings and discussions in English.

Rules & Requirements

Making Connections Gen Ed: LA, WB.

Grading Status: Letter grade.

 **GERM 215. Germanic Heroic Legend: Heroes and Villains, Monsters and Marauders. 3 Credits.**

Examination of representations of the warrior culture of the Germanic-language areas of the Atlantic North (Germany, Scandinavia, Anglo-Saxon England) from the Gallic Wars under Julius Caesar (58–50 BCE) through the Migration Age (ca. 300–600 CE). Readings and class discussions in English. Students may not receive credit for both GERM 215 and GSLL 53.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Grading Status: Letter grade.

GERM 220. Women in the Middle Ages. 3 Credits.

This interdisciplinary course examines representations of women, concepts of gender, and women's participation in the economic, political, religious, and cultural life of the Middle Ages. Discussion and texts in English.

Rules & Requirements

Making Connections Gen Ed: LA, NA, WB.

Grading Status: Letter grade.

Same as: WGST 220.

GERM 227. Luther and the Bible. 3 Credits.

The Reformation was seminal for the development of the modern world. This course will investigate Reformation literature written in the period from the end of the 15th century to the end of the 17th century, and will investigate how Reformation ideas resonate through today. Readings and discussions in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

Same as: RELI 227.

GERM 244. Reason and Passion in German Literature and Thought. 3 Credits.

This course introduces students to the most important authors of the Enlightenment and Romanticism, with a focus on the German philosophical and literary tradition. The course will focus on how these authors negotiated tensions between overwhelming affects and the demands of rationality: a problem of ethical, political, and personal importance with which we are still grappling. Readings and discussions in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Grading Status: Letter grade.

GERM 245. Marx, Nietzsche, and Freud. 3 Credits.

An introduction to the writings of three great German writers of the 19th century who have had enormous impact on the lives of people around the world. Readings and discussions in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.

Making Connections Gen Ed: PH, NA.

Grading Status: Letter grade.

GERM 247. Music, Madness, and Genius: The Pathologies of German Musical Literature. 3 Credits.

This course surveys the themes of madness and genius and their relation to music in German literature of the 19th and 20th century. Readings and class discussions in English. Prior knowledge of music is recommended but not required.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

GERM 249. German Literature in Translation. 3 Credits.

The idea of world literature was a German invention, proposed by Goethe to describe literature of universal importance for all of humanity. German thought, and German literature, in particular, remains an important component in this canon. This English-language literature course introduces newcomers to some highlights of German literature.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

GERM 255. The Twilight of the World: Ecological Crises in German Literature and Film. 3 Credits.

This seminar explores how German authors and film makers have grappled to come to terms with ecological crises from early Romanticism to the present. We will examine philosophical, literary, and cinematic investigations of natural and nuclear catastrophes, pollution, waste, mass extinction, and climate change. Students may not receive credit for both GERM 255 and GSSL 52.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-VALUES.

Grading Status: Letter grade.

GERM 263. European Exile Cinema. 3 Credits.

This course examines the work of one or several film directors who went into exile during the Third Reich to discuss: How does the experience of exile influence film style? What are theories and histories of exile and exile cinema, and how do they relate to other approaches to film, via national film histories, genre, style, etc.? How does a biography of exile relate to so-called auteur theory? Readings and Discussions in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: CMPL 263.

GERM 265. Hitler in Hollywood: Cinematic Representations of Nazi Germany. 3 Credits.

An examination of selected cinematic representations (both American and German) of Nazi Germany in terms of their aesthetic properties and propagandistic value. Films with English subtitles; readings and discussions in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-VALUES.

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

GERM 266. Weimar Cinema. 3 Credits.

Explores important German films of 1919 to 1933, locating them in their artistic, cultural, and historical context. Treats the contested course of Weimar film history and culture and provides a theoretically informed introduction to the study of film and visual materials. Films with English subtitles; readings and discussions in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: CMPL 266.

GERM 268. Auteur Cinema. 3 Credits.

We will explore the works of one or more German director(s). By watching a sample of a director's oeuvre over a significant period of time, students come to understand the director's arch, identify common threads in their films, and consider how his or her work relates to larger developments in German film history. Films with English subtitles; readings and discussions in English.

Rules & Requirements

Making Connections Gen Ed: VP, CI, NA.

Grading Status: Letter grade.

GERM 271. Women in German Cinema. 3 Credits.

Introduction to feminist aesthetics and film theory by the examination of the representation of women in German cinema from expressionism to the present. All materials and discussions in English. Previously offered as GERM/WGST 250.

Rules & Requirements

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: WGST 271, CMPL 271.

GERM 272. History of German Cinema. 3 Credits.

This course explores the major developments of German cinema. All films with English subtitles. Readings and discussions in English. Previously offered as GERM 275.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: CMPL 272.

GERM 274. Representing the Holocaust: Mediating Trauma in Art and Theory. 3 Credits.

This course will explore artistic mediations of the Holocaust in literature, film, and beyond. It focuses on questions of representation, authenticity, appropriateness and uniqueness, the role of memory, the problems and limits of language in articulating the Shoah, and issues of trauma and justice. Readings and class discussions in English. Previously offered as GSLL 274.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Grading Status: Letter grade.

Same as: JWST 274.

GERM 277. Trouble in Paradise: Freedom, Democracy, Capitalism, Neutrality Through the Lens of Swiss Authors. 3 Credits.

In this course we will read a selection of texts and watch movies that cast a vigilant eye on the role the ideas of freedom, democracy, civil rights, neutrality, the humanitarian tradition, justice, capitalism as well as the notion of authenticity, acceptance, morality, or the alpine idyll have played in Switzerland's self-understanding and in its relationship with Europe and the world.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Grading Status: Letter grade.

GERM 278. Performance, Drama, Translation, Adaptation and Ethnographic Exchange. 3 Credits.

German drama has been fundamental to shaping the country's identity. Thus, what better way to learn about a culture and history than to engage with its dramatic texts and performance? Nevertheless, there are always nuances that can potentially get lost in translation when adapting a text from one language to another. What does a reader of the translation need to know in order to properly understand the play? Readings and discussions in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH, HI-SERVICE.

Making Connections Gen Ed: VP, EE- Service Learning, NA.

Grading Status: Letter grade.

GERM 279. Once Upon A Fairy Tale: Fairy Tales and Childhood, Then and Now. 3 Credits.

Considers fairy tales from several different national traditions and historical periods against the backdrop of folklore, literature, psychoanalysis, and the socializing forces directed at children. Students may not receive credit for both GERM 279/CMPL 279 and GSLL 54.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

Same as: CMPL 279.

GERM 281. The German Idea of War: Philosophical Dialogues with the Literary and Visual Arts in WWI. 3 Credits.

This course brings into dialogue key ideas from seminal German philosophers who anticipated, experienced, or survived the Great War, with contemporary works of German literature, film, and painting. Of concern are the ways philosophy's concepts and art's themes shaped both one another and the idea of war. Readings and discussions in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: PH, NA.

Grading Status: Letter grade.

GERM 283. Freedom, Terror, and Identity: Modern Philosophy from Kant to Arendt. 3 Credits.

This course investigates how philosophical thought motivates, inspires, and generates forms of agency and identity against cultural tendencies that limit or erode freedom. Readings, lecture, and discussion in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.

Making Connections Gen Ed: PH, NA.

Grading Status: Letter grade.

Same as: PWAD 283.

GERM 284. Translations and Adaptations of German Pop Literature. 3 Credits.

By reading a few longer novels over the course of the semester, students will learn how to hone their critical thinking and reading skills, become familiar with a foreign culture, and consider how American culture is reflected back at them in these post-1960 German texts. Readings and discussions in English.

Rules & Requirements

Making Connections Gen Ed: LA, CI, NA.

Grading Status: Letter grade.

GERM 285. Contemporary German Literature in Translation. 3 Credits.

This class will introduce students to the latest translations of recent novels by both established and up-and-coming authors of the post-1989 German literary world. Readings and class discussions in English.

Rules & Requirements

Making Connections Gen Ed: LA, CI, NA.

Grading Status: Letter grade.

GERM 286. (Un)Welcomed Guests? German Reflections on Exile and Immigration. 3 Credits.

This course introduces students to philosophical, literary, and film texts engaging with the ethics of migration. How might the writings by and depictions of refugees throughout German history resonate with the current crisis? The course includes a service learning component, so that students gain experience working with local refugees and are able to use their practical experience to reflect on the theoretical discussions in class. Readings and discussions in English.

Rules & Requirements

IDEAs in Action Gen Ed: HI-SERVICE.

Making Connections Gen Ed: PH, EE- Service Learning, GL.

Grading Status: Letter grade.

GERM 290. Topics in German Studies. 3 Credits.

Examines selected themes in the history, culture, society, art, and/or literature of German-speaking countries. Readings and discussions in English.

Rules & Requirements

Making Connections Gen Ed: LA, NA.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

GERM 301. Advanced Applied German: Life, Work, Fun. 3 Credits.

Introduction to present-day German-speaking societies with an emphasis on practical contexts of everyday life (business, media, culture). The course initiates a sustained reflection on class, gender, race, and political economy and prepares students for studying and interning in German-speaking Europe. Further goals include improvement of pronunciation and the mastery of grammar.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-KNOWING, COMMBEYOND.

Making Connections Gen Ed: CI, NA.

Requisites: Prerequisite, GERM 204; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 5.

GERM 302. Advanced Communication in German: Media, Arts, Culture. 3 Credits.

Emphasis is on advanced communication and writing based on shorter readings from contemporary life and culture in German-speaking societies. The readings provide subject matter for in-class discussion and regular written compositions that explore a variety of practical genres (report, article, essay).

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL, COMMBEYOND.

Making Connections Gen Ed: SS, CI, NA.

Requisites: Prerequisite, GERM 204; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 5.

GERM 303. German Literature and Culture. 3 Credits.

Readings, discussions, and essays in German. An appropriate conclusion to GERM 101-204, it also provides the background for more advanced undergraduate literature and culture courses.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, CI, NA.

Requisites: Pre- or corequisite, GERM 301 or 302; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

GERM 304. Business German. 3 Credits.

An introduction to the language and culture of German business, commerce, and industry. Special emphasis is given to the acquisition of advanced business-related language skills. Course conducted in German.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL, COMMBEYOND.

Making Connections Gen Ed: NA.

Grading Status: Letter grade.

Global Language: Level 6.

Advanced Undergraduate and Graduate-level Courses**GERM 400. Advanced German Grammar. 3 Credits.**

Review of basic and advanced grammatical structures. Course strengthens application of grammar in context for undergraduate and graduate students. Graduate students also work with grammar issues encountered in the foreign language classroom.

Rules & Requirements

Requisites: Prerequisite, GERM 204; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

 GERM 410. Getting Medieval. Or: What Makes Us Modern?. 3 Credits.

In GERM 410 we will strive to understand what the adjective 'medieval' entails and juxtapose it with notions of what it means to be modern. We will examine mostly German medieval works of art and literature and put them in dialogue with modern adaptations of the Middle Ages.

Rules & Requirements

 IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Grading Status: Letter grade.

GERM 416. The Viking Age. 3 Credits.

Lecture/discussion course on Viking culture, mythology, exploration, and extension of power in northern Europe (approx. 750-1050 CE) as represented in sagas, the Eddas, runic inscriptions, and chronicles. Readings and discussions in English. Previously offered as GERM 216.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Grading Status: Letter grade.

GERM 426. Play Time: Theater in the Medieval and Early Modern World. 3 Credits.

This course explores the vibrant world of medieval and early modern performance and theater. Students will discover how religious and secular plays were a formative component of marking time and creating community through their integration into liturgical practice, with Jews performing Purim plays and Christians staging plays at Christmas, during Carnival and Lent, and Easter. They will encounter entire cities transformed into public spaces of performance, often political and for days at a time.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Grading Status: Letter grade.

GERM 444. The Origins of Radical Thought. 3 Credits.

This course examines the historical conditions governing the emergence of radical thought in the nineteenth century with an emphasis on the German context. It will analyze some of the boldest thought experiments of the period—whether conservative or revolutionary, ideologically right or left—by following an intellectual itinerary from Hegel to Marx. We will then interrogate the consequences of this trajectory for contemporary theory and culture.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-VALUES.

Grading Status: Letter grade.

GERM 449. Vienna, Munich, Berlin. Revolution in German Art ca. 1900. 3 Credits.

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

GERM 481. Berlin: Mapping a (Post) Modern Metropolis. 3 Credits.

This course aims to capture the spirit of the city as students engage in multiple texts from the 19th and 20th centuries representative of the city's literary, cultural, and visual history. The texts range from Theodor Fontane's bourgeoisie in Mitte to the Turkish-German minority in Kreuzberg. In addition to reading literary texts, students will also watch films and music videos, and discuss art and architecture.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Grading Status: Letter grade.

GERM 483. Recycling the Past: East German Literature. 3 Credits.

Explores the practice in East Germany of adapting earlier literatures and setting contemporary narratives in distant times. East German authors used cultural heritage as a screen for utopian sentiments and for pursuing the relationships between everyday life, historical conditions, and political circumstances. Readings and discussions in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Grading Status: Letter grade.

GERM 493. Internship in German. 3 Credits.

This course enables a student to earn a maximum of three credit hours for a faculty-supervised internship directly related to the study of German literature or culture, or that uses the German language in day-to-day conduct of business in a German-speaking environment.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship, NA.

Requisites: Prerequisite, GERM 303.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

Global Language: Level 6.

GERM 500. History of the German Language. 3 Credits.

Development of phonology and morphosyntax from ancient times to present. Political, social, and literary forces influencing the language.

Rules & Requirements

Requisites: Prerequisites, GERM 302 and 303; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

GERM 501. Structure of German. 3 Credits.

LING 101 recommended for undergraduates. Introduction to formal analysis of German grammar (phonology, morphophonemics, prosodics, morphology, syntax) within the framework of generative grammar.

Rules & Requirements

Requisites: Prerequisites, GERM 302 and 303; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: LING 567.

GERM 505. Early New High German. 3 Credits.

Permission of the instructor for undergraduates. Reading and linguistic analysis of Early New High German texts, with study of phonology, morphology, and syntax. On demand.

Rules & Requirements

Grading Status: Letter grade.

GERM 508. Old High German. 3 Credits.

Permission of the instructor for undergraduates. Reading and linguistic analysis of Old High German texts, with study of phonology, morphology, and syntax; comparison of the various dialects with other older dialects of Germanic. On demand.

Rules & Requirements

Grading Status: Letter grade.

GERM 511. Old Saxon. 3 Credits.

Permission of the instructor for undergraduates. Reading and linguistic study of biblical texts (Heliand, Genesis) in Old Saxon, with study of phonology, morphology, and syntax; comparison with Old English, Old High German, and other Germanic dialects. On demand.

Rules & Requirements

Grading Status: Letter grade.

GERM 514. Old Norse I (Old Icelandic). 3 Credits.

Permission of the instructor for undergraduates. Reading and linguistic analysis of Old Norse (Old Icelandic) texts, with study of phonology, morphology, and syntax; comparison with other older dialects of Germanic. On demand.

Rules & Requirements

Grading Status: Letter grade.

GERM 515. Old Norse II (Old Icelandic). 3 Credits.

Permission of the instructor for undergraduates. Continuation of GERM 514. On demand.

Rules & Requirements

Grading Status: Letter grade.

GERM 517. Gothic. 3 Credits.

Permission of the instructor for undergraduates. Reading and linguistic analysis of Gothic biblical texts, with study of phonology, morphology, and syntax; comparison with other older dialects of Germanic. On demand.

Rules & Requirements

Grading Status: Letter grade.

GERM 520. Stylistics: Theory and Practice. 3 Credits.

LING 101 recommended for undergraduates. Study of stylistic theories and practices in literature and linguistics, analysis of a large variety of texts, written exercises, training in the use of stylistic devices.

Rules & Requirements

Requisites: Prerequisites, GERM 302 and 303; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

BCS–Bosnian, Croatian, and Serbian**Advanced Undergraduate and Graduate-level Courses****BCS 401. Elementary Bosnian-Croatian-Serbian Language I. 3 Credits.**

This course is designed for new learners and heritage speakers of BCS who wish to develop elementary proficiency in four major language competencies: listening, speaking, reading, and writing. It introduces key linguistic and sociocultural aspects of contemporary BCS and will be a valuable asset to students looking to reconnect with their family heritage, visit the region or simply get acquainted with this major Slavic language and its history.

Rules & Requirements

Making Connections Gen Ed: FL.

Grading Status: Letter grade.

Global Language: Level 1.

BCS 402. Elementary Bosnian-Croatian-Serbian Language II. 3 Credits.

Continuation of the proficiency-based instruction in BCS 401. Course emphasizes speaking, listening, reading, writing in a cultural context. Students enhance their basic vocabulary and grammar and will regularly communicate in the target language about everyday topics. Previously offered as SECR 402.

Rules & Requirements

Making Connections Gen Ed: FL.

Requisites: Prerequisite, BCS 401; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 2.

BCS 403. Intermediate Bosnian-Croatian-Serbian Language I. 3 Credits.

The second year of BCS instruction will continue to build grammar and communication skills for intermediate-low and heritage speakers. We will revisit and review many of the grammar concepts from the previous year while gradually incorporating new vocabulary and developing cultural competencies through a variety of authentic sources in the target language (comics, films, music, and others). In addition to in-class presentations, students will frequently work in pairs and collaborate on small projects.

Rules & Requirements

IDEAs in Action Gen Ed: GBLB-LANG.

Making Connections Gen Ed: FL.

Requisites: Prerequisite, BCS 402; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 3.

BCS 404. Intermediate Bosnian-Croatian-Serbian Language II. 3 Credits.

Continuation of the proficiency-based instruction started in BCS 403. Previously offered as SECR 404.

Rules & Requirements

Making Connections Gen Ed: FL.

Requisites: Prerequisite, BCS 403; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 4.

BCS 405. Advanced Bosnian-Croatian-Serbian Language I. 3 Credits.

Advanced readings and discussion in Bosnian-Croatian-Serbian on humanities and social science topics. Previously offered as SECR 405.

Rules & Requirements

Making Connections Gen Ed: BN.

Requisites: Prerequisite, BCS 404; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 5.

Making Connections Gen Ed: FL.

Requisites: Prerequisite, RUSS 102; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 3.

RUSS 204. Intermediate Russian Communication II. 3 Credits.

Skills for fluent speaking, writing, listening, and reading for intermediate-to-advanced learners. Develops and deepens learners' mastery of contemporary standard Russian. Stresses communication, individual expression, and fosters cultural sensitivity through systematic expansion of learners' ability to conduct conversations in contemporary standard Russian on a widening variety of culturally relevant subjects.

Rules & Requirements

Making Connections Gen Ed: BN, CI, FL.

Requisites: Prerequisite, RUSS 203; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 4.

RUSS 270. Crimes and Punishments: Russian Literature of the 19th Century. 3 Credits.

Reading and discussion of great works of 19th century Russian literature (Pushkin, Gogol, Turgenev, Dostoevsky, Tolstoy, and Chekhov). Readings and lectures in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 275. Russian Fairy Tale. 3 Credits.

An introduction to the Russian fairy tale with attention to its roots in Russian folklore, its influence on Russian culture, and its connections with American folk and popular culture. Lectures and readings in English.

Rules & Requirements

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 276. Mystery and Suspense in Russian Literature. 3 Credits.

The study of mystery and suspense in Russian literature of the 19th and 20th centuries. Readings and class discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 277. Love, Sex, and Marriage in Soviet Culture. 3 Credits.

A survey of the themes of love, sex, and marriage as they developed in Russian literature and culture from the Bolshevik Revolution to Perestroika. Readings and class discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 278. Russian and Soviet Science Fiction. 3 Credits.

This course will focus on key works of Russian and Soviet science fiction. Readings and discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 279. Sunstrokes in Dark Alleys: Russian Short Stories. 3 Credits.

An introduction to the Russian short story, focusing on the topic of love in all its intriguing aspects. The readings include works from the 18th century to the 20th. Taught in English. Previously offered as RUSS 460.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

 **RUSS 280. Russian Villains, Western Screens: Ethno-Cultural Stereotypes on Page and Stage, in Movies and Minds. 3 Credits.**

A survey of fascinating history of Hollywood stereotypes of Russian villainy from Elizabethan England to Boris Badenov, Natasha Fatale, Ivan Drago, and Xenia Onatop. What do these theatrical buffoons, cartoon-movie monsters, and cinematic seductresses tell us about Russia – and about ourselves as consumers of stereotypes? Readings and discussions in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: VP, BN.

Grading Status: Letter grade.

 **RUSS 282. Russian Literature in World Cinema. 3 Credits.**

Survey of masterpieces of Russian literature in the context of their transcultural cinematic adaptations. Lectures and readings in English.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

Same as: CMPL 282.

RUSS 296. Selected Readings in Russian. 1-12 Credits.

Permission of the instructor. Directed readings in Russian on topics in literature and linguistics not normally covered in scheduled courses.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

RUSS 409. Intermediate-to-Advanced Russian Communication, Conversation, and Composition in Context I. 3 Credits.

Intermediate-to-advanced communication, conversation, composition, phonetics, and grammar in contemporary cultural context. Meets the needs of learners looking to expand their practical knowledge of contemporary standard Russian in the context of present-day culture, while developing active applied skills pertaining to comprehension, production of, and communication in Russian.

Rules & Requirements

Making Connections Gen Ed: BN.

Requisites: Prerequisite, RUSS 204; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 5.

 **RUSS 410. Intermediate-to-Advanced Russian Communication, Conversation, and Composition in Context II. 3 Credits.**

Hones skills necessary for advanced communication, conversation, and composition. Presents phonetics and grammar in contemporary cultural context. Learners expand their practical knowledge of contemporary standard Russian in the context of present-day culture, while developing applied skills pertaining to comprehension, production of, and communication in Russian actively using authentic cultural materials.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.

Making Connections Gen Ed: BN.

Requisites: Prerequisite, RUSS 409; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

RUSS 411. Advanced Communication, Conversation, and Composition in Contemporary Standard Russian I. 3 Credits.

Develops and maintains advanced skills for speaking, writing, listening, and reading in contemporary standard Russian in a variety of communicative situations. Assists advanced learners in solving a wide range of communicative tasks with the aid of unadapted authentic cultural materials.

Rules & Requirements

Requisites: Prerequisite, RUSS 410; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

 **RUSS 412. Advanced Communication, Conversation, and Composition in Contemporary Standard Russian II. 3 Credits.**

Prepares advanced learners of contemporary standard Russian for communication with educated native speakers of the language in the area of their professional competence. Furthers interactive skills for speaking, writing, listening, and reading in a variety of communicative situations pertaining to the learners' professional expertise.

Rules & Requirements

 **IDEAs in Action Gen Ed:** COMMBEYOND.

Requisites: Prerequisite, RUSS 411; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

 **RUSS 415. Introduction to Russian Literature. 3 Credits.**

Reading and discussion of selected authors in Russian aimed at improving reading skill and preparing the student for higher level work in Russian literature. Readings and class discussions in Russian. Course previously offered as RUSS 250.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Making Connections Gen Ed: LA, BN.

Requisites: Prerequisite, RUSS 410; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

RUSS 445. 19th Century Russian Literature and Culture. 3 Credits.

A survey of the major novels and stories of 19th century Russian fiction, which have entered the canon of world classics and redefined the idea of literature. Taught in English; some readings in Russian for qualified students.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 450. The Russian Absurd: Text, Stage, Screen. 3 Credits.

Examines "The Absurd" in Russian literature and culture as it developed from 19th century to the present. Through works by important Russian writers and representative films students encounter facets of "The Russian Absurd" viewed as literary, cultural, and social phenomena. Taught in English; some readings in Russian for qualified students.

Rules & Requirements

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 455. 20th-Century Russian Literature and Culture. 3 Credits.

As Russia became a laboratory for sociopolitical experiments of global significance, its culture reflected on the most spectacular of its aspirations and failures. Course surveys 20th-century literary, musical and cinematic artifacts that emerged to affect the world profoundly. Taught in English; some readings in Russian for qualified students.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 464. Dostoevsky. 3 Credits.

Study of major works of Dostoevsky and a survey of contemporary literary and cultural trends relevant to his creative career. Taught in English; some readings in Russian for qualified students.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 465. Chekhov. 3 Credits.

Study of major works of Chekhov and survey of contemporary literary and cultural trends relevant to his creative career. Taught in English; some readings in Russian for qualified students.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 471. Gogol. 3 Credits.

Study of major works of N. V. Gogol and a survey of contemporary authors and literary trends relevant to his creative career. Lectures and seminar discussions. Taught in English; some readings in Russian for qualified students.

Rules & Requirements

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 477. Wicked Desire: Vladimir Nabokov, Lolita, on Page and Screen. 3 Credits.

Vladimir Nabokov's novel *Lolita* (1955) became a global phenomenon due to its unflinching portrayal of pedophilia. This course will delve deeper into the novel's moral complexity, its international context, and its reflection in mass culture, including movies by Stanley Kubrick (1962) and Adrian Lyne (1997). Taught in English; some readings in Russian for qualified students.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.

Grading Status: Letter grade.

Same as: CMPL 477.

RUSS 479. Tolstoy. 3 Credits.

Study of the major works of Tolstoy and a survey of contemporary authors and literary trends relevant to his creative career. Taught in English; some readings in Russian for qualified students.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

RUSS 480. Russian-Soviet Jewish Culture: Lofty Dreams and Stark Realities. 3 Credits.

This course delves into the scintillating literary, visual, musical, and cinematic culture created by Jewish universalists seeking to build their new secular identity under the aegis of the Soviet Communist experiment in the aftermath of the 1917 Bolshevik coup. Surveys the works of Isaac Babel, Eduard Bagritsky, Marc Chagall, Sergey Eisenstein, Ilya Ehrenburg, Masha Gessen, Vasily Grossman, Osip Mandelstam, and others. Taught in English; some readings in Russian for qualified students; films with English subtitles. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

Same as: JWST 480.

RUSS 486. Exploration of Russian "Women's Prose" and Svetlana Alexievich (Nobel Prize in Literature 2015). 3 Credits.

Using Alexievich as our beacon, we will explore the writers behind the term "Russian Women's Prose": Valeria Nabikova, Lyudmila Petrushevskaya, Tatyana Tolstaya, and Lyudmila Ulitskaya. The course will delve into gender identity and body politics as they manifest themselves in the literary texts of lasting aesthetic quality and social relevance. Taught in English; some readings in Russian for qualified students.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-GLOBAL.

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

Same as: WGST 486, EURO 486.

RUSS 490. Topics in Russian Culture. 3 Credits.

Study of topics in Russian literature and culture not currently covered in any other course. The specific topic will be announced in advance. Taught in English. Some readings in Russian for qualified students.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

 RUSS 515. Advanced Russian Communication, Composition and Grammar in the Professions I. 3 Credits.

RUSS 515 provides advanced learners with opportunities to develop linguo-cultural skills necessary to practice their profession in Russian. While engaged in academic discourse in contemporary standard Russian, learners research topics in their academic majors, prepare and give presentations and lead discussions focusing on their areas of professional competence. In addition to student-centered segments, the course comprises instructor-led discussions of current affairs and academic subjects. Readings, viewing materials, and discussions in Russian.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH, COMMBEYOND.

Making Connections Gen Ed: BN, EE- Mentored Research.

Requisites: Prerequisites, RUSS 412 or permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

 RUSS 516. Advanced Russian Communication, Composition and Grammar in the Professions II. 3 Credits.

A continuation of RUSS 515, RUSS 516 develops and maintains the linguo-cultural skills of advanced-to-professional learners by preparing them for professional study-abroad experiences at Russophone institutions of higher learning. A seminar-style course with rotating instructors, it engages learners in contemplation, research, and discussion of subjects within the instructor's professional expertise. Readings, viewing materials, and discussions in Russian.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH, COMMBEYOND.

Making Connections Gen Ed: BN, EE- Mentored Research.

Requisites: Prerequisites, RUSS 515 or permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

RUSS 562. Structure of Russian. 3 Credits.

Examines Russian from the perspective of linguistic analysis. How do sounds, words, and sentences pattern in Russian? How do these compare with patterns in other languages? Also considers the influence of evidence from Russian on the development of linguistic theory.

Rules & Requirements

Requisites: Prerequisite, LING 101 or RUSS 102; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: LING 562.

SLAV–Slavic**Undergraduate-level Courses****SLAV 248. Childhood and Adolescence in Slavic Literature. 3 Credits.**

Childhood and adolescence as portrayed in both fictional and autobiographical form by 19th- and 20th-century Russian, Polish, Czech, and other East European writers, including Tolstoy, Dostoevsky, Nabokov, I. B. Singer, Schulz, Milosz. Lectures and readings in English. Honors version available.

Rules & Requirements

Making Connections Gen Ed: LA, BN, CI.

Grading Status: Letter grade.

SLAV 250. Introduction to Non-Russian Slavic/East European Culture. 3 Credits.

Reading and discussion of selected authors in the target language aimed at improving reading and analytical skills and preparing the student for higher level work.

Rules & Requirements

Making Connections Gen Ed: LA, BN.

Requisites: Prerequisite, BULG 404, CZCH 404, HUNG 404, MACD 404, PLSH 404, or BCS 404; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 6.

 SLAV 277. Songs of Liberty, Light, and Resilience: Ukrainian Literature Today. 3 Credits.

Ukraine's resistance to Russian aggression brought renewed attention to Europe's largest country, its history, and its quest for liberty and democracy. This course explores the ways in which Ukrainian national identity has been forged by revolutions, wars, engineered famines as well as thirst for liberty. Works of Ukraine's leading writers will help students form an independent critical opinion of the country's unique culture, its problems, and aspirations. All materials are in English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH.

Grading Status: Letter grade.

SLAV 296. Directed Readings in a Slavic Language. 1-12 Credits.

Permission of the instructor. Directed readings in a Slavic language other than Russian on topics in literature and linguistics not normally covered in scheduled courses.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses**SLAV 464. Imagined Jews: Jewish Themes in Polish and Russian Literature. 3 Credits.**

Explores the fictional representation of Jewish life in Russia and Poland by Russian, Polish, and Jewish authors from the 19th century to the present. Taught in English; some foreign language readings for qualified students.

Rules & Requirements

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

Same as: JWST 464.

SLAV 469. Coming to America: The Slavic Immigrant Experience in Literature. 3 Credits.

Fictional and autobiographical expressions of the Slavic and East European immigrant experience in the 20th century. Readings include Russian, Polish, Jewish, and Czech authors from early 1900s to present. Taught in English; some foreign language readings for qualified students.

Rules & Requirements

Making Connections Gen Ed: LA, GL.

Grading Status: Letter grade.

Same as: JWST 469.

SLAV 470. 20th-Century Russian and Polish Theater. 3 Credits.

A comparative survey of the major trends in 20th-century Russian and Polish dramaturgy and theatrical production, with attention to aesthetic, professional, and political connections between the two. Taught in English; some foreign language readings for qualified students.

Rules & Requirements

Making Connections Gen Ed: LA, BN.

Grading Status: Letter grade.

SLAV 490. Topics in Slavic Culture. 3 Credits.

Comparative study of topics in non-Russian Slavic literatures and culture not covered in any other course. Specific topics will vary and will be announced in advance. Taught in English; some foreign language readings for qualified students.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

Germanic and Slavic Languages and Literatures Major, B.A. –Central European Studies Concentration

The Central European studies concentration in the Department of Germanic and Slavic Languages and Literatures (GSLL) equips students with linguistic, communicative, literary, cultural, and medial competencies necessary to thrive in a diverse, networked world. With this major

concentration, Carolina students succeed in an endless variety of professional fields.

Central European courses range from basic language instruction to advanced research in the cultures of Poland, Ukraine, the Czech Republic, and their regional neighbors. These offerings focus on modern literature, film and new media, visual art, and cultural theory. Courses situate Central European subject matter within its broadest global contexts. Carolina also offers for rising sophomores and beyond an extensive portfolio of study abroad options in Eastern and Central Europe.

Carolina's Central European program offers a thorough and rigorous education in small seminars where students are able to receive individualized attention from faculty members. Students are closely mentored for a variety of exciting career paths. Some go on to graduate or professional schools such as law or medical school. Others start their professional careers in sectors like banking and business, education, government, IT, journalism, law, military or civil service, non-governmental organizations, non-profits, policy think tanks, start-ups, research labs, and more.

Many Carolina students complement their Central European degree with second majors in different fields. By combining Central European studies with a social or natural science major, Carolina graduates certify their balanced mastery of all that the liberal arts model embodies: qualitative critique, qualitative analysis, literacy in global cultures, and regional knowledge with vital relevance to current events.

Student Learning Outcomes

Students will acquire linguistic proficiency, cultural competence, and critical and analytical skills through the study of Germanic and Slavic languages and cultures in visual, textual, and oral forms. The curricula in Germanic and Slavic languages and literatures are broadly interdisciplinary and place the comparative study of languages, literatures, and cultures in dialogue with other germane fields of knowledge, such as philosophy, film and media studies, history, and music. Particular attention is paid to the development of student research interests that can bridge their acquired linguistic and cultural knowledge with their aspirations in other disciplines. Upon completion of the Germanic and Slavic Languages and Literatures program, students are able to:

- Speak effectively in the target language in a variety of social, academic, and professional settings, as well as use their native language for effective cross-cultural communication
- Write accurately in both the target language and English on a variety of topics relevant to the discipline
- Understand another culture's practices as meaningful sites for the articulation of identities and the negotiation of values
- Connect the critical interpretation of aesthetic texts to broader fields of intellectual inquiry
- Gain knowledge of the cultural history of Germanic and Slavic lands and link its relevance to both American and global histories
- Utilize disciplinary methods and theories in order to produce original, innovative research

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
GSSL 260	From Berlin to Budapest: Literature, Film, and Culture of Central Europe	3
HIST 260	From Kings to Communists: East-Central Europe in the Modern Era ^H	3
Two departmental courses (six credit hours) in CZCH, GERM, GSSL, HUNG, or PLSH numbered above 200 (not including introductory or intermediate foreign language courses, and not including GSSL 252 or GSSL 278 or GSSL 280) ¹		6
Four additional courses (12 credit hours), which may include departmental courses in CZCH, GERM, GSSL, HUNG, or PLSH numbered above 200 (not including introductory or intermediate foreign language courses, and not including GSSL 252 or 278 or 280), or approved Central European studies electives (see list below) ¹		12
Additional Requirements		
Students must establish credit for level 4 of one Central European language: ^{2,3}		3
GERM 204	Intermediate German II (or GERM 206) ^H	
CZCH 404	Intermediate Czech II	
HUNG 404	Intermediate Hungarian Language	
PLSH 404	Intermediate Polish II	
Students must establish credit for level 2 of an additional Central European language: ³		6
GERM 102	Elementary German II (or GERM 105) ^H	
CZCH 402	Elementary Czech II	
HUNG 402	Elementary Hungarian	
PLSH 402	Elementary Polish II	
Total Hours		33

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ GSSL 278 may be included as a major elective (for either category above) with permission of the director of undergraduate studies.

² The first three levels of the foreign language can count toward the General Education Foundations requirement and have not been included as additional hours for the major.

³ By exam credit (BE) and placement credit (PL) may be used.

Approved Central European Studies Electives

Code	Title	Hours
ANTH 449	Anthropology and Marxism	3
ARTH 455	City, Architecture, Art: Nuremberg as a European Artistic Center, 1300-1600	3
CMPL/GERM 279	Once Upon A Fairy Tale: Fairy Tales and Childhood, Then and Now	3

CMPL/GSSL 281	Holocaust Cinema in Eastern Europe	3
EURO 252	Politics, Society, and Culture in Modern Germany (1871-1945)	3
GEOG 464	Europe Today: Transnationalism, Globalisms, and the Geographies of Pan-Europe	3
GERM/CMPL/ WGST 271	Women in German Cinema	3
HIST 140	The World since 1945	3
HIST/EURO 159	From War to Prosperity: 20th-Century Europe	3
HIST 306	Princes and Reformations in Germany, 1400-1600	3
HIST 307	War and Enlightenment in Germany, 1600-1815	3
HIST 458	Europe and the World Wars, 1914-1945	3
HIST 462	Germany, 1806-1918: Politics, Society, and Culture ^H	3
HIST 463	Germany since 1918: Politics, Society, and Culture ^H	3
HIST 466	Modern European Intellectual History ^H	3
HIST 481	From Communists to Capitalists: Eastern Europe since 1945	3
HIST/JWST 476	Religion and Ethnicity	3
HIST/JWST 485	From Fiddler on the Roof to the Holocaust: East European and Soviet Jewish History	3
HIST/JWST/ PWAD 262	History of the Holocaust: The Destruction of the European Jews	3
HIST/POLI/EURO 257	Politics, Society, and Culture in Postwar Germany	3
JWST/GSSL/ PWAD 465	Literature of Atrocity: The Gulag and the Holocaust in the Soviet Union and Eastern Europe	3
JWST/RELI 420	Post-Holocaust Ethics and Theology ^H	3
JWST/SLAV 464	Imagined Jews: Jewish Themes in Polish and Russian Literature	3
PHIL 224	Existential Philosophy and the Meaning(lessness) of Life ^H	3
PHIL 423	Kant's Theoretical Philosophy	3
PHIL 427	Hegel	3
PHIL 471	Topics in 19th Century Philosophy	3
POLI/PWAD/SOCI 260	Crisis and Change in Russia and Eastern Europe	3

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- Students may petition the director of undergraduate studies to include other courses with significant Central European content.
 - Only one of the following courses may count toward the major: GSLL 691H, GSLL 692H, or GSLL 693H.
 - At least four of the above courses (12 credit hours) must be taken at UNC–Chapel Hill to fulfill the requirements of the major. Majors who study abroad or wish to transfer credit from another institution may apply to transfer a maximum of four courses counting toward the major. Before their departure for a study abroad program, students should consult with the relevant director of undergraduate studies about appropriate courses taken abroad for the major.
 - Students may not re-enroll in a language course for which they have received PL or BE credit.

Germanic and Slavic Languages and Literatures course descriptions (p. 693) include:

- Germanic and Slavic Languages and Literatures (GSLL)
- Dutch (DTCH)
- German (GERM)
- Czech (CZCH)
- Hungarian (HUNG)
- Macedonian (MACD)
- Polish (PLSH)
- Russian (RUSS)
- Serbian and Croatian (SECR)
- Slavic (SLAV)

Special Opportunities in Germanic and Slavic Languages and Literatures

Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider writing an honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSLL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSLL 692H (writing the honors thesis). When GSLL 693H is offered, the course replaces GSLL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

Student Involvement and Cultural Enrichment beyond the Classroom

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club and Slavic Club,

provide an atmosphere for effective learning and for enjoying German and Slavic cultures. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listserv, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor, or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Austria, and Eastern or Central Europe. The department also often presents a poetry night with poems recited by learners of various languages, as well as full-length plays and dramatic readings in German performed by undergraduate students.

The German and Slavic clubs, sponsored by the department, encourage students to independently plan cultural events, films, and conversation opportunities.

A number of the above events will be approved for IDEAs in Action CLE credit.

Study Abroad

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students' linguistic and cultural proficiency, particularly once they have acquired sufficient language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; at the Freie University in Berlin; at the University of Zürich, Switzerland (new, starting in fall 2024); at the IES European Union and Environmental Programs in Freiburg, Germany; and at the IES Programs in Vienna and Berlin.

Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend programs at the Freie University in Berlin, the University of Zürich, in Tübingen, or the IES program in Freiburg, or also the Baden-Württemberg exchange at the University of Mannheim offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term may begin in August but more commonly in October, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend one of SIT Netherlands' semester or summer programs, for example "Human Traffic, Sex Trade, and Modern Slavery in Europe," or "International Perspective on Sexuality and Gender," or exchange programs also are offered at Radboud University in Nijmegen, the University of Groningen, and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even

German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study Russian during summer, semester, or yearlong terms through the RLASP (Advanced Russian Language and Area Studies Program) while earning credit towards their Carolina degree. UNC–Chapel Hill offers semester and summer programs in Prague, Czech Republic, Dobrovnik, Croatia, and Krakow, Poland, and also a semester program in Budapest, Hungary.

For more information about these and other programs in eastern and central Europe, go to the Study Abroad website (<https://studyabroad.unc.edu/>). Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Opportunities specifically for language studies:

- DTCH: SIT Netherlands
- CZCH: NCSU Prague semester or summer programs, API Czech Republic, SIT Czech Republic, CET in Prague, Czech Republic
- BCS: API Croatia, API Serbia, Bosnia, and Kosovo
- PLSH: API Poland
- HUNG: API Hungary

Languages across the Curriculum

The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, often associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for any associated course).

Undergraduate Awards

Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of coursework at the 300 level or above, that was conducted in the German language, and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor's Awards Ceremony each spring. Ria Stambaugh was a popular professor of German. After her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreczeny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

Undergraduate Research

In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department faculty. Funding may be available through the Office of Undergraduate Research.

Germanic and Slavic Languages and Literatures Major, B.A.–German Studies Concentration

The German studies concentration in the Department of Germanic and Slavic Languages and Literatures (GSLL) equips students with linguistic, communicative, literary, cultural, and medial competencies necessary to thrive in a diverse networked world. With this major concentration, Carolina students succeed in an endless variety of professional fields.

Courses in German range from basic language instruction to advanced research in the cultures of Germany, Austria, and Switzerland. These offerings focus on medieval and modern literature, philosophy, and cultural theory as well as film and theater. Praxis-oriented courses include

business German, translation studies, and internship courses. Carolina also offers for rising sophomores and beyond an extensive portfolio of study abroad options in German-speaking Europe.

German at Carolina offers a thorough and rigorous education in small seminars where students are able to receive individualized attention from faculty members. German students are closely mentored for a variety of exciting career paths. Some go on to graduate or professional schools such as law or medical school. Others start their professional career in sectors like banking and business, education, government, IT, journalism, law, military or civil service, non-governmental organizations, non-profits, policy think tanks, start-ups, research labs, and more.

Many Carolina students who pursue a German degree have a second major in biology, chemistry, economics, environmental science, history, philosophy, psychology, or public policy. By combining German with a social or natural science major, Carolina graduates certify their balanced mastery of all that the liberal arts and sciences embody: qualitative critique and quantitative analysis.

Student Learning Outcomes

Students will acquire linguistic proficiency, cultural competence, and critical and analytical skills through the study of Germanic and Slavic languages and cultures in visual, textual, and oral forms. The curricula in Germanic and Slavic languages and literatures are broadly interdisciplinary and place the comparative study of languages, literatures, and cultures in dialogue with other germane fields of knowledge, such as philosophy, film and media studies, history, and music. Particular attention is paid to the development of student research interests that can bridge their acquired linguistic and cultural knowledge with their aspirations in other disciplines. Upon completion of the Germanic and Slavic Languages and Literatures program, students are able to:

- Speak effectively in the target language in a variety of social, academic, and professional settings, as well as use their native language for effective cross-cultural communication
- Write accurately in both the target language and English on a variety of topics relevant to the discipline
- Understand another culture's practices as meaningful sites for the articulation of identities and the negotiation of values
- Connect the critical interpretation of aesthetic texts to broader fields of intellectual inquiry
- Gain knowledge of the cultural history of Germanic and Slavic lands and link its relevance to both American and global histories
- Utilize disciplinary methods and theories in order to produce original, innovative research

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
A minimum of eight courses (24 credit hours). Three of these courses are taught in German (204, 301, 302). The courses for the German Studies Major include:		
GERM 204	 Intermediate German II ^H	3
GERM 301	 Advanced Applied German: Life, Work, Fun	3
GERM 302	 Advanced Communication in German: Media, Arts, Culture	3
One "Themes" course: GERM 210-290 and GSLL 212-259, 269, 270, 274, 278, 280, 282, 284, 288, 295 (taught in English)		3
One "Histories" course: GERM 401-492 (taught in English)		3
One "Theories" course: GERM 550-589 (taught in English)		3
Two Electives: Students can choose two German-language classes, or two English-language classes, or one German-language and one English-language class from the following options: A) Applied German (these courses are taught in German): GERM 303, 304, 305, 306, 493 and B) Histories, Themes or Theories (see above)		6
Total Hours		24

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional Requirements

- Students must establish credit for GERM 203 (or GERM 206) as a prerequisite for a German Studies Major.
- Three German LAC credit hours may be used as a substitute for one three-hour elective course for the major.
- Dutch language courses (DTCH 402, DTCH 403, and DTCH 404) may not count toward the German major. However, DTCH 396 and DTCH 405 may be counted toward the German major as elective courses taught in the target language (i.e., not in English).
- At least four courses (12 credit hours) beyond GERM 203 must be taken at UNC–Chapel Hill to fulfill the requirements of the major.
- Majors who study abroad or wish to transfer credit from another institution may apply to transfer a maximum of four courses counting toward the major. Before their departure for a study abroad program, students should consult with the director of undergraduate studies about appropriate courses taken abroad for the major.
- Students who wish to write a longer research paper have the possibility to sign up for the two-semester honors course designed to lead to the completion of the honors thesis (GSLL 691H and GSLL 692H). Only one of these courses can count as an elective towards the German Major.

Students who receive placement credit (PL) or By-Examination credit (BE) for GERM 204 and/or GERM 301 must substitute this credit with coursework (three credit hours each to replace GERM 204 and/or GERM 301) to complete the requirements for the major. The additional coursework must be German-language coursework numbered above the

German-language course that the students test out of. Students may not re-enroll in a course for which they have received PL or BE credit.

Only one of the following courses may count as an elective toward the major:

Code	Title	Hours
GSSL 691H	 Honors Course	3
GSSL 692H	 Honors Course	3
GSSL 693H	 Honors Seminar	3

German (GERM) and Germanic and Slavic Languages and Literatures (GSSL) course descriptions (p. 693).

Special Opportunities in Germanic and Slavic Languages and Literatures

Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider writing an honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSSL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSSL 692H (writing the honors thesis). When GSSL 693H is offered, the course replaces GSSL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

Student Involvement and Cultural Enrichment beyond the Classroom

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club and Slavic Club, provide an atmosphere for effective learning and for enjoying German and Slavic cultures. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listserv, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor, or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Austria, and Eastern or Central Europe. The department also often presents a poetry night with poems recited by learners of various languages, as well as full-length plays and dramatic readings in German performed by undergraduate students.

The German and Slavic clubs, sponsored by the department, encourage students to independently plan cultural events, films, and conversation opportunities.

A number of the above events will be approved for IDEAs in Action CLE credit.

Study Abroad

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students' linguistic and cultural proficiency, particularly once they have acquired sufficient language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; at the Freie University in Berlin; at the University of Zürich, Switzerland (new, starting in fall 2024); at the IES European Union and Environmental Programs in Freiburg, Germany; and at the IES Programs in Vienna and Berlin.

Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend programs at the Freie University in Berlin, the University of Zürich, in Tübingen, or the IES program in Freiburg, or also the Baden-Württemberg exchange at the University of Mannheim offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term may begin in August but more commonly in October, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend one of SIT Netherlands' semester or summer programs, for example "Human Traffic, Sex Trade, and Modern Slavery in Europe," or "International Perspective on Sexuality and Gender," or exchange programs also are offered at Radboud University in Nijmegen, the University of Groningen, and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study Russian during summer, semester, or yearlong terms through the RLASP (Advanced Russian Language and Area Studies Program) while earning credit towards their Carolina degree. UNC-Chapel Hill offers semester and summer programs in Prague, Czech Republic, Dobrovnik, Croatia, and Krakow, Poland, and also a semester program in Budapest, Hungary.

For more information about these and other programs in eastern and central Europe, go to the Study Abroad website (<https://studyabroad.unc.edu/>). Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Opportunities specifically for language studies:

- DTCH: SIT Netherlands
- CZCH: NCSU Prague semester or summer programs, API Czech Republic, SIT Czech Republic, CET in Prague, Czech Republic
- BCS: API Croatia, API Serbia, Bosnia, and Kosovo
- PLSH: API Poland
- HUNG: API Hungary

Germanic and Slavic Languages and Literatures Major, B.A. – Russian Language and Culture Concentration

The Russian language and culture concentration in the Department of Germanic and Slavic Languages and Literatures (GSLL) provides students with communicative and cultural mastery of a world language native for over 150 million speakers not only in the Russian Federation, Belarus, and Ukraine, but also in Central Asia and elsewhere. Russian is a less commonly taught language that the U.S. government designates as “critical” for national security.

Russian courses comprise five levels of language instruction from elementary to professional as well as offerings on Russian culture, literature, and civilization from 19th and 20th centuries to present. The GSLL Russian Program curriculum includes survey courses and chronological course sequences in addition to monographic courses focusing on major figures, genres, and cultural phenomena such as film, folklore, theater, as well as minority and expatriate cultures. The GSLL Russian Program equips students with a holistic critical perspective on Russian civilization in all its complexity and variety.

Students pursuing a Russian concentration may choose to have a second major in biology, chemistry, economics, environmental science, history, peace, war, and defense, philosophy, psychology, or public policy. Advanced levels of Russian linguo-cultural proficiency have specific career benefits for students interested in state service and ROTC cadets and midshipmen. Students of Russian have graduated to pursue a

number of career paths, from academic to business, from law to medical professions, as well as careers in diplomacy, the military, intelligence, and defense.

Student Learning Outcomes

Students will acquire linguistic proficiency, cultural competence, and critical and analytical skills through the study of Germanic and Slavic languages and cultures in visual, textual, and oral forms. The curricula in Germanic and Slavic languages and literatures are broadly interdisciplinary and place the comparative study of languages, literatures, and cultures in dialogue with other germane fields of knowledge, such as philosophy, film and media studies, history, and music. Particular attention is paid to the development of student research interests that can bridge their acquired linguistic and cultural knowledge with their aspirations in other disciplines. Upon completion of the Germanic and Slavic Languages and Literatures program, students are able to:

- Speak effectively in the target language in a variety of social, academic, and professional settings, as well as use their native language for effective cross-cultural communication
- Write accurately in both the target language and English on a variety of topics relevant to the discipline
- Understand another culture's practices as meaningful sites for the articulation of identities and the negotiation of values
- Connect the critical interpretation of aesthetic texts to broader fields of intellectual inquiry
- Gain knowledge of the cultural history of Germanic and Slavic lands and link its relevance to both American and global histories
- Utilize disciplinary methods and theories in order to produce original, innovative research

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
RUSS 409	Intermediate-to-Advanced Russian Communication, Conversation, and Composition in Context I	3
RUSS 410	 Intermediate-to-Advanced Russian Communication, Conversation, and Composition in Context II	3
RUSS 415	 Introduction to Russian Literature	3
RUSS 445	 19th Century Russian Literature and Culture	3
RUSS 455	 20th-Century Russian Literature and Culture	3

Four additional courses (12 credit hours) selected from Russian language and literature/culture courses (RUSS) ¹ 12

Additional Requirements

Students must establish credit for RUSS 204 as a prerequisite for a Russian major concentration.

Students who desire to pursue a major concentration in Russian language and culture should have a grade of B or better in RUSS 203 and RUSS 204

Other than the introductory and intermediate language courses mentioned above, at least four courses (12 credit hours) must be taken at UNC–Chapel Hill to fulfill the requirements of the major. Majors who study abroad or wish to transfer credit from another institution may apply to transfer a maximum of four courses counting toward the major. Before their departure for a study abroad program, students should consult with the relevant director of undergraduate studies about appropriate courses taken abroad for the major.

Total Hours 27

¹ GSLL courses numbered above 200 may count toward the major with the approval of the director of undergraduate studies.

Students who receive placement credit (PL) or By-Examination credit (BE) for RUSS 409 and/or RUSS 410 must substitute this credit with coursework (three credit hours each to replace each course with PL or BE credit) to complete the requirements for the concentration. Students may not re-enroll in a course for which they have received PL or BE credit.

Only one of the following courses may count toward the major:

Germanic and Slavic Languages and Literatures Major, B.A.–Slavic and East European Languages and Cultures Concentration

The Slavic and East European languages and cultures concentration in the Department of Germanic and Slavic Languages and Literatures (GSLL) equips students with linguistic, communicative, literary, cultural and medial competencies necessary to thrive in a diverse, networked world. With a Slavic degree, Carolina students succeed in an endless variety of professional fields.

Slavic and East European courses range from basic language instruction to advanced research in the cultures of Poland, Ukraine, the Czech Republic, and their regional neighbors. These offerings focus on modern literature, film and new media, visual art, and cultural theory. Courses situate East European subject matter within its broadest global contexts. Carolina also offers for rising sophomores and beyond an extensive portfolio of study abroad options in East and Central Europe.

Carolina's Slavic program offers a thorough and rigorous education in small, personal, college-like classes. Slavic students are closely mentored for a variety of exciting career paths: some go on to graduate or professional schools such as law or medical school. Others start their professional careers in sectors like banking and business, education, government, IT, journalism, law, military or civil service, non-governmental organizations, non-profits, policy think tanks, start-ups, research labs, and more.

Many Carolina students complement their Slavic program with second majors in different fields. By combining Slavic with a social or natural science major, Carolina graduates certify their balanced mastery of all that the liberal arts model embodies: qualitative critique, qualitative analysis, literacy in global cultures, and regional knowledge with vital relevance to current events.

Student Learning Outcomes

Students will acquire linguistic proficiency, cultural competence, and critical and analytical skills through the study of Germanic and Slavic languages and cultures in visual, textual, and oral forms. The curricula in Germanic and Slavic languages and literatures are broadly interdisciplinary and place the comparative study of languages, literatures, and cultures in dialogue with other germane fields of knowledge, such as philosophy, film and media studies, history, and music. Particular attention is paid to the development of student research interests that can bridge their acquired linguistic and cultural knowledge with their aspirations in other disciplines. Upon completion of the Germanic and Slavic Languages and Literatures program, students are able to:

- Speak effectively in the target language in a variety of social, academic, and professional settings, as well as use their native language for effective cross-cultural communication
- Write accurately in both the target language and English on a variety of topics relevant to the discipline
- Understand another culture's practices as meaningful sites for the articulation of identities and the negotiation of values
- Connect the critical interpretation of aesthetic texts to broader fields of intellectual inquiry

- Gain knowledge of the cultural history of Germanic and Slavic lands and link its relevance to both American and global histories
- Utilize disciplinary methods and theories in order to produce original, innovative research

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
One course demonstrating level 5 proficiency in a single target language:		3
BCS 405	Advanced Bosnian-Croatian-Serbian Language I	
CZCH 405	Advanced Czech I	
HUNG 405	Advanced Hungarian	
PLSH 405	Advanced Polish I	
RUSS 409	Intermediate-to-Advanced Russian Communication, Conversation, and Composition in Context I	
Two courses (six credit hours) of any other single Slavic/East European language		6
SLAV 250	Introduction to Non-Russian Slavic/East European Culture (or RUSS 415 for students with Russian as their first target language)	3
Four additional courses selected in consultation with the Slavic advisor from the Slavic/East European and Russian language and literature/culture courses (BCS, CZCH, HUNG, MACD, PLSH, RUSS, or SLAV) ¹		12
Additional Requirements		
Students must establish credit for level 4 of Bosnian-Croatian-Serbian (BCS 404), Czech (CZCH 404), Hungarian (HUNG 404), Polish (PLSH 404), or Russian (RUSS 204) as a prerequisite for a major concentration in Slavic and East European languages and cultures.		
Other than the introductory and intermediate language courses mentioned above, at least four courses (12 credit hours) must be taken at UNC–Chapel Hill to fulfill the requirements of the major. Majors who study abroad or wish to transfer credit from another institution may apply to transfer a maximum of four courses counting toward the major. Before their departure for a study abroad program, students should consult with the relevant director of undergraduate studies about appropriate courses taken abroad for the major.		
Total Hours		24

¹ GSLL courses numbered above 200 may count toward the major with the approval of the director of undergraduate studies.

Topics courses may be repeated for credit toward the major or minor.

Students interested in this concentration should have a grade of B or better in the intermediate-level course (203/204 or 403/404) in their first target language.

Students who receive placement credit (PL) or By-Examination credit (BE) for the courses in the first two core requirements above (the fifth-semester first-target-language requirement, as well as the two-course second-target-language requirement) must substitute this credit with coursework (three credit hours each to replace each course with PL or BE credit) to complete the requirements for the concentration. Students may not re-enroll in a course for which they have received PL or BE credit.

Only one of the following courses may count toward the major:

Code	Title	Hours
GSLL 691H	 Honors Course	3
GSLL 692H	 Honors Course	3
GSLL 693H	 Honors Seminar	3

Germanic and Slavic Languages and Literatures course descriptions (p. 693) include:

- Germanic and Slavic Languages and Literatures (GSLL)
- Bosnian-Croatian-Serbian (BCS)
- Czech (CZCH)
- Dutch (DTCH)
- German (GERM)
- Hungarian (HUNG)
- Macedonian (MACD)
- Polish (PLSH)
- Russian (RUSS)
- Slavic (SLAV)

Special Opportunities in Germanic and Slavic Languages and Literatures

Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider writing an honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSLL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSLL 692H (writing the honors thesis). When GSLL 693H is offered, the course replaces GSLL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the

context of a small seminar with other honors students. One of these honors courses may count toward the major.

Student Involvement and Cultural Enrichment beyond the Classroom

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club and Slavic Club, provide an atmosphere for effective learning and for enjoying German and Slavic cultures. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listserv, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor, or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Austria, and Eastern or Central Europe. The department also often presents a poetry night with poems recited by learners of various languages, as well as full-length plays and dramatic readings in German performed by undergraduate students.

The German and Slavic clubs, sponsored by the department, encourage students to independently plan cultural events, films, and conversation opportunities.

A number of the above events will be approved for IDEAs in Action CLE credit.

Study Abroad

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students' linguistic and cultural proficiency, particularly once they have acquired sufficient language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; at the Freie University in Berlin; at the University of Zürich, Switzerland (new, starting in fall 2024); at the IES European Union and Environmental Programs in Freiburg, Germany; and at the IES Programs in Vienna and Berlin.

Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend programs at the Freie University in Berlin, the University of Zürich, in Tübingen, or the IES program in Freiburg, or also the Baden-Württemberg exchange at the University of Mannheim offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term may begin in August but more commonly in October, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend one of SIT Netherlands' semester or summer programs, for example "Human Traffic, Sex Trade, and Modern Slavery in Europe," or "International Perspective on Sexuality and Gender," or exchange programs also are offered at Radboud University in Nijmegen, the University of Groningen, and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study Russian during summer, semester, or yearlong terms through the RLASP (Advanced Russian Language and Area Studies Program) while earning credit towards their Carolina degree. UNC-Chapel Hill offers semester and summer programs in Prague, Czech Republic, Dobrovnik, Croatia, and Krakow, Poland, and also a semester program in Budapest, Hungary.

For more information about these and other programs in eastern and central Europe, go to the Study Abroad website (<https://studyabroad.unc.edu/>). Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Opportunities specifically for language studies:

- DTCH: SIT Netherlands
- CZCH: NCSU Prague semester or summer programs, API Czech Republic, SIT Czech Republic, CET in Prague, Czech Republic
- BCS: API Croatia, API Serbia, Bosnia, and Kosovo
- PLSH: API Poland
- HUNG: API Hungary

Languages across the Curriculum

The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, often associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for any associated course).

Undergraduate Awards

Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of coursework at the 300 level or above, that was conducted in the German language, and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor's Awards Ceremony each spring. Ria Stambaugh was a popular professor of German. After her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreczeny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has

been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

Undergraduate Research

In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department faculty. Funding may be available through the Office of Undergraduate Research.

German Studies Minor

The German studies minor in the Department of Germanic and Slavic Languages and Literatures (GSLL) equips students with linguistic, communicative, literary, cultural, and medial competencies necessary to thrive in a diverse networked world. By including a German minor as

part of their undergraduate program, Carolina graduates succeed in an endless variety of professional fields.

Courses range from basic and advanced language instruction to research in the cultures of Germany, Austria, and Switzerland. Electives include applied German courses taught in German as well as themes-, histories- and theories-oriented courses taught in English that introduce students to cultural and historical problems of the German-speaking lands and allow them to explore conceptual thought. The program's offerings focus on medieval and modern literature, philosophy and cultural theory as well as theater, film, and other media. Praxis-oriented courses include business German, translation studies, and internship courses. Carolina also offers for rising sophomores and beyond an extensive portfolio of study abroad options in German-speaking Europe.

German at Carolina offers a thorough and rigorous education in small seminars where students are able to receive individualized attention from faculty members. German students are closely mentored for a variety of exciting career paths. Some go on to graduate or professional schools such as law or medical school. Others start their professional career in sectors like banking and business, education, government, IT, journalism, law, military or civil service, non-governmental organizations, non-profits, policy think tanks, start-ups, research labs, and more.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
GERM 204	 Intermediate German II ^H	3
GERM 301	 Advanced Applied German: Life, Work, Fun	3
GERM 302	 Advanced Communication in German: Media, Arts, Culture	3
Two electives courses. Students can choose two German-language classes, or two English-language classes, or one German-language and one English-language class from the following options:		6
A. Applied German courses (taught in German): GERM 303, GERM 304, GERM 305, GERM 306, GERM 493		
B. Themes courses (taught in English) numbered GERM 210- GERM 290 and GSLL 212-GSLL 259, GSLL 269, GSLL 270, GSLL 274, GSLL 278, GSLL 280, GSLL 282, GSLL 284, GSLL 288, GSLL 295		
C. Histories courses (taught in English) numbered GERM 401 - GERM 492		
D. Theories courses (taught in English) numbered GERM 550 - GERM 589		
Total Hours		15

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- Students must take at least nine hours of their minor "core" requirements at UNC–Chapel Hill.
 - Minors who study abroad or wish to transfer credit from another institution may apply to transfer two courses (6 hours) counting toward the minor. Before their departure for a study abroad program, students should consult the director of undergraduate studies about appropriate courses taken abroad for the minor.
 - Three German LAC credit hours may be used as a substitute for one three-hour elective course taught in German for the minor.
 - Dutch language courses (DTCH 402, DTCH 403, and DTCH 404) may not count toward the German minor. However, DTCH 396 and DTCH 405 may be counted toward the German minor as elective courses taught in the target language (i.e., not in English).
 - Students must establish credit for GERM 203 (or GERM 206) as a prerequisite for a German minor.

Students who receive placement credit (PL) or By-Examination credit (BE) for GERM 204 and/or GERM 301 must substitute this credit with coursework (three credit hours each to replace GERM 204 and/or GERM 301) to complete the requirements for the major. The additional coursework must be German-language coursework numbered above the German-language course that students test out of. Students may not re-enroll in a course for which they have received PL or BE credit.

Russian Culture Minor

The Russian culture minor in the Department of Germanic and Slavic Languages and Literatures (GSLL) equips students with regional expert knowledge and communicative, literary, cultural, and medial competencies necessary to answer geostrategic and civilizational challenges emerging from the post-Soviet and Russophone spheres. This minor can complement major concentrations in diverse fields across the humanities, arts, and natural and social sciences. The Russian minor prepares students for their professional careers in sectors like banking, business, education, government, IT, journalism, law, military or civil service, non-governmental organizations, non-profits, policy think tanks, start-ups, research labs, and a wide variety of careers associated with national security.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
A minimum of five RUSS courses (15 hours) covering any aspect of Russian language, literature, or culture. ¹		15
Total Hours		15

¹ The first two semesters of Russian (i.e., RUSS 101 and RUSS 102) may not be counted toward this minor.

- GSSL courses numbered above 200 may count toward the minor with the approval of the director of undergraduate studies.
- At least nine credit hours beyond RUSS 102 must be taken at UNC–Chapel Hill to fulfill the requirements of the minor. Minors who study abroad or wish to transfer credit from another institution may apply to transfer one course counting toward the minor. Before their departure for a study abroad program, students should consult the director of undergraduate studies about appropriate courses taken abroad for the minor.
- Students who receive placement credit (PL) or By-Examination credit (BE) for RUSS 203, RUSS 204, RUSS 409 and/or RUSS 410 must substitute this credit with coursework (three credit hours each to replace each course with PL or BE credit) to complete the requirements for the minor. Students may not re-enroll in a course for which they have received PL or BE credit.

Undergraduate Awards

Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of coursework at the 300 level or above, that was conducted in the German language, and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor's Awards Ceremony each spring. Ria Stambaugh was a popular professor of German. After her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreczeny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has

been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

Undergraduate Research

In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department faculty. Funding may be available through the Office of Undergraduate Research.

Slavic and East European Languages and Cultures Minor

The Slavic and East European languages and cultures minor in the Department of Germanic and Slavic Languages and Literatures (GSLL)

equips students with regional expert knowledge and communicative, literary, cultural, and medial competencies necessary to thrive in a diverse, networked world. This minor prepares students for an encounter with a hopeful region of Central and Eastern Europe as it overcomes challenges associated with its continued reintegration into the Western sphere. This minor can complement major concentrations in a diverse array of fields across the humanities, arts, and natural and social sciences. The Slavic and East European languages and cultures minor prepares students for their professional careers in sectors like banking, business, education, government, IT, journalism, law, military or civil service, non-governmental organizations, non-profits, policy think tanks, start-ups, research labs.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
A minimum of five courses (15 hours) in BCS, CZCH, HUNG, MACD, PLSH, RUSS, or SLAV. ¹		15
Total Hours		15

¹ The first two semesters of any language may not be counted toward this minor (e.g., BCS 401/BCS 402, CZCH 401/CZCH 402, HUNG 401/HUNG 402, MACD 401/MACD 402, PLSH 401/PLSH 402, RUSS 101/RUSS 102).

- GSLL courses numbered above 200 may count toward the minor with the approval of the director of undergraduate studies.
- Students who receive placement credit (PL) or By-Examination credit (BE) for RUSS 203, RUSS 204, RUSS 409, or for the first five courses in BCS, CZCH, HUNG, or PLSH (401, 402, 403, 404, 405) must substitute this credit with coursework (three credit hours each to replace each course with PL or BE credit) to complete the requirements for the minor. Students may not re-enroll in a course for which they have received PL or BE credit.
- At least nine credit hours beyond the first two semesters of the language must be taken at UNC–Chapel Hill to fulfill the requirements of the minor. Students who study abroad or wish to transfer credit from another institution may apply to transfer one course counting toward the minor. Before their departure for a study abroad program, students should consult the director of undergraduate studies about appropriate courses taken abroad for the minor.
- Topics courses may be repeated for credit toward the major or minor.

Germanic and Slavic Languages and Literatures course descriptions (p. 693) include:

- Germanic and Slavic Languages and Literatures (GSLL)
- Bosnian-Croatian-Serbian (BCS)
- Czech (CZCH)

- Hungarian (HUNG)
- Macedonian (MACD)
- Polish (PLSH)
- Russian (RUSS)
- Slavic (SLAV)

Special Opportunities in Germanic and Slavic Languages and Literatures

Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider writing an honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSLL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSLL 692H (writing the honors thesis). When GSLL 693H is offered, the course replaces GSLL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

Student Involvement and Cultural Enrichment beyond the Classroom

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club and Slavic Club, provide an atmosphere for effective learning and for enjoying German and Slavic cultures. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listserv, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor, or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Austria, and Eastern or Central Europe. The department also often presents a poetry night with poems recited by learners of various languages, as well as full-length plays and dramatic readings in German performed by undergraduate students.

The German and Slavic clubs, sponsored by the department, encourage students to independently plan cultural events, films, and conversation opportunities.

A number of the above events will be approved for IDEAs in Action CLE credit.

Study Abroad

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students' linguistic and cultural proficiency, particularly once they have acquired sufficient

language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; at the Freie University in Berlin; at the University of Zürich, Switzerland (new, starting in fall 2024); at the IES European Union and Environmental Programs in Freiburg, Germany; and at the IES Programs in Vienna and Berlin.

Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend programs at the Freie University in Berlin, the University of Zürich, in Tübingen, or the IES program in Freiburg, or also the Baden-Württemberg exchange at the University of Mannheim offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term may begin in August but more commonly in October, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend one of SIT Netherlands' semester or summer programs, for example "Human Traffic, Sex Trade, and Modern Slavery in Europe," or "International Perspective on Sexuality and Gender," or exchange programs also are offered at Radboud University in Nijmegen, the University of Groningen, and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study Russian during summer, semester, or yearlong terms through the RLASP (Advanced Russian Language and Area Studies Program) while earning credit towards their Carolina degree. UNC-Chapel Hill offers semester and summer programs in Prague, Czech Republic, Dobrovnik, Croatia, and Krakow, Poland, and also a semester program in Budapest, Hungary.

For more information about these and other programs in eastern and central Europe, go to the Study Abroad website (<https://studyabroad.unc.edu/>). Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Opportunities specifically for language studies:

- DTCH: SIT Netherlands
- CZCH: NCSU Prague semester or summer programs, API Czech Republic, SIT Czech Republic, CET in Prague, Czech Republic
- BCS: API Croatia, API Serbia, Bosnia, and Kosovo
- PLSH: API Poland
- HUNG: API Hungary

Languages across the Curriculum

The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, often associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for any associated course).

Undergraduate Awards

Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of coursework at the 300 level or above, that was conducted in the German language, and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor's Awards Ceremony each spring. Ria Stambaugh was a popular professor of German. After her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreczeny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

Undergraduate Research

In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department faculty. Funding may be available through the Office of Undergraduate Research.

Curriculum in Global Studies

Introduction

Global studies is an interdisciplinary curriculum that brings together diverse perspectives and frameworks to analyze the complex relationships between local, national, and global structures.

The Curriculum in Global Studies provides students with the necessary knowledge and skills to develop effective and innovative responses to some of today's most critical global challenges — such as racial and gender injustice, economic inequality, increasing war and conflict, migration and displacement, and environmental crisis — by training them in a variety of methodologies drawn from multiple academic disciplines and supporting them with internationally renowned faculty across more than ten departments at UNC.

Stay up to date on all things UNC Global Studies by following us on Instagram: [@uncglobalstudies](https://www.instagram.com/uncglobalstudies)

Advising

All majors have a primary academic advisor in the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The curriculum's director of undergraduate studies also works with current and prospective majors by appointment (see "Contacts" tab) to discuss major requirements, how study abroad credits transfer into the major, and other issues of relevance to global studies. Further information on courses, the honors program, internships, and more are available on the curriculum's website (<http://globalstudies.unc.edu/>).

Graduate School and Career Opportunities

The Curriculum in Global Studies combines a global perspective with regional and linguistic expertise as well as diverse academic methodological training to prepare students for jobs in a variety of fields and/or graduate education. The curriculum's interdisciplinary training offers the flexibility and adaptability that are crucial for continued success in shifting job markets and global circumstances. Our alumni have pursued successful careers across the public and private sectors, obtaining positions in governmental and non-governmental organizations

and fields such as education, foreign service and diplomacy, law, healthcare, global business, international development, and consulting.

Our major is also excellent preparation for graduate school in one of the social sciences; in professions such as law, business, or journalism; or in international affairs and area studies. Career resources can be found through University Career Services (<https://careers.unc.edu/>) and on the curriculum's website (<http://globalstudies.unc.edu/>).

Major

Graduate Programs

- Global Studies M.A. (<https://catalog.unc.edu/graduate/schools-departments/global-studies/#programstext>)

Professors

Renée Alexander Craft (Communication), Chad Bryant (History), Mark Driscoll (Asian Studies), Banu Gökariksel (Geography), Liesbet Hooghe (Political Science), Arne Kalleberg (Sociology), Georges Nzongola-Ntalaja (African, African American, and Diaspora Studies), Elizabeth Olson (Geography), John Pickles (Geography), Graeme Robertson (Political Science), Meenu Tewari (City and Regional Planning), Milada A. Vachudova (Political Science).

Associate Professors

Inger Brodey (English and Comparative Literature), Nina Martin (Geography), Townsend Middleton (Anthropology), Michael Morgan (History), Christopher Nelson (Anthropology), Eunice Sahle (African, African American, and Diaspora Studies), Brigitte Seim (Public Policy), Mark Sorensen (Anthropology), Angela Stuesse (Anthropology), Michael Tsin (History).

Assistant Professor

Lucy Martin (Political Science).

Adjunct Assistant Professors

Hannah Gill (Institute for the Study of the Americas), Niklaus Steiner (Political Science).

Teaching Professors

Erica Johnson (Global Studies), Michal Osterweil (Global Studies), Jonathan Weiler (Global Studies).

Teaching Assistant Professor

Carmen Huerta-Bapat (Global Studies).

GLBL–Global Studies Undergraduate-level Courses

GLBL 87H. First Year Seminar: The Migratory Experience. 3 Credits.

The seminar will critically analyze the migrant experience in both North America and Europe. Migration is a calculated decision that individuals, families, and groups make in an effort to improve their living conditions. We will adopt an interdisciplinary approach to understanding the motivation of migrants, the nature of the migrant journey to their destination states, and their integration into their new societies.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: BN, GL.

Grading Status: Letter grade.

GLBL 88. First-Year Seminar: Beg, Borrow, and Steal: The Political Economy of Aid, FDI, and Corruption. 3 Credits.

This seminar examines how politics and economics condition different countries' path towards and experience with foreign aid, foreign investment, and corruption. In doing so, the course will examine the effect of political conditions on economic outcomes and the effect of economic conditions on political outcomes.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS, GL.

Grading Status: Letter grade.

GLBL 89. First-Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

GLBL 181. Teaching Great Decisions I. 1 Credits.

Permission of the department. This course gives credit to the Great Decisions coordinating committee for organizing the eight lectures in GLBL 381.

Rules & Requirements

Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.

Grading Status: Pass/Fail.

GLBL 193. Global Studies Internship. 1 Credits.

Internship in a sponsoring organization whose work or mission is meaningfully connected to a global studies topic.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.

Grading Status: Pass/Fail.

GLBL 196. Independent Study. 1-12 Credits.

Permission of the instructor. Reading and research on special topics in global studies.

Rules & Requirements

Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading Status: Letter grade.

GLBL 210. Global Issues and Globalization. 3 Credits.

Survey of international social, political, and cultural patterns in selected societies of Africa, Asia, America, and Europe, stressing comparative analysis of conflicts and change in different historical contexts. LAC recitation sections offered in French, German, and Spanish.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

Same as: ANTH 210, GEOG 210, HIST 210, POLI 210.

GLBL 221. The Migratory Experience. 3 Credits.

The course will critically analyze the migrant experience in both North America and Europe. Migration is a calculated decision that individuals, families, and groups make in an effort to improve their living conditions. We will adopt an interdisciplinary approach to understanding the motivation of migrants, the nature of the migrant journey to their destination states, and their integration into their new societies.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-LAUNCH (only designated sections), FC-GLOBAL.

Making Connections Gen Ed: BN, GL.

Grading Status: Letter grade.

GLBL 281. Phillips Ambassadors Program. 3 Credits.

This academic course is mandatory for Phillips Ambassadors. Course open only to Phillips Ambassadors.

Rules & Requirements

Making Connections Gen Ed: BN.

Grading Status: Letter grade.

GLBL 282. Global Gap Year Seminar. 3 Credits.

This course is mandatory for Global Gap Year Fellows and is only open to Global Gap Year Fellows.

Rules & Requirements

Making Connections Gen Ed: EE- Service Learning.

Grading Status: Letter grade.

GLBL 290. Current Topics in Global Studies. 0.5-21 Credits.

An interdisciplinary approach to the study of the background, current status, and future prospects for one of a series of global issues such as the nuclear age, the environment, technological transition.

Rules & Requirements

Grading Status: Letter grade.

 **GLBL 300. Apology, Forgiveness, and Reconciliation - The Case of Northern Ireland. 3 Credits.**

The course, which will take place in Belfast, Northern Ireland, aims to answer the following question: What does it take for an individual and a group to heal? And what does reconciliation mean and look like? The platform of Northern Ireland's conflict (aka "The Trouble") will be used to understand the challenges and successes of healing on an individual and group level. The course will provide a nuanced understanding of apology and forgiveness.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL, HI-ABROAD.

Grading Status: Letter grade.

Same as: PWAD 300.

GLBL 381. Great Decisions. 1 Credits.

Eight evening guest lectures, with a discussion session after each, on eight issues in current foreign policy. May be repeated for credit. Students may not receive credit for both GLBL 381 and POLI 381.

Rules & Requirements

Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.

Grading Status: Pass/Fail.

GLBL 382. Latin American Migrant Perspectives: Ethnography and Action. 3 Credits.

This class combines fieldwork, oral history, and service learning in a course that examines concepts of globalization, migration, and transnationalism, and their intersections with anthropological theory and practice.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Grading Status: Letter grade.

 **GLBL 383. Global Whiteness. 3 Credits.**

This course looks at race as a theory and practice as it has been constructed in academic disciplines, popular culture, and social struggle.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

GLBL 390. Current Topics in Global Studies. 3 Credits.

Topics vary from semester to semester.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

GLBL 394. Teaching Great Decisions II. 2 Credits.

This course links the Great Decisions lecture series with readings and analyses of international relations. Its purpose is to provide the students on the Great Decisions coordinating committee with a practical and intellectual engagement with United States foreign policy and global issues.

Rules & Requirements

Requisites: Pre- or corequisite, GLBL 381.

Repeat Rules: May be repeated for credit. 6 total credits. 3 total completions.

Grading Status: Pass/Fail.

Advanced Undergraduate and Graduate-level Courses

 **GLBL 401. Right Wing Populism in Global Perspective. 3 Credits.**

This course will examine right wing populism globally. We will consider why right wing populism has gained traction in such diverse places as India, Brazil, Germany, France, Hungary, Britain, and the United States. We will ask what role such factors as religion, ethnicity, economics, and gender play in its rise. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

 **GLBL 413. Socialist and Decolonial Ecologies. 3 Credits.**

This course will focus on the relation of capitalism and anthropogenic climate change and feature Marxist and Indigenous critiques of capitalism's responsibility for climate change. We will feature an interdisciplinary lens - philosophy, feminist geography, cultural anthropology, socialist economics - that will analyze how the anthropocentric subject of the Enlightenment separated itself from its natural environment.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.

Making Connections Gen Ed: BN.

Requisites: Prerequisite, GLBL 210.

Grading Status: Letter grade.

GLBL 415. Dealing with Difference: Criminal Justice, Race, and Social Movements in Globalization. 3 Credits.

Recommended preparation, GLBL 210. This course is dedicated to understanding how sameness and difference are used and contested globally, in particular through the criminal justice system and its intersection with race and capitalism. The course pays particular attention to popular social movement responses, and what they say to theories of difference, globalization, and social change.

Rules & Requirements

Making Connections Gen Ed: GL, US.

Grading Status: Letter grade.

 **GLBL 450. Social Change in Times of Crisis: Knowledge, Action, and Ontology. 3 Credits.**

Examines dominant, alternative, and emergent narratives of change and the future from around the world. Takes as a premise that we live in a period of multidimensional crises characterized by uncertainty and conflict about how to pursue sustainable economic, ecological, political, social, and cultural projects. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-POWER.

Making Connections Gen Ed: GL, US.

Grading Status: Letter grade.

 **GLBL 481. NGO Politics. 3 Credits.**

This course will investigate how nongovernmental organizations emerge, how they structure their organizations, how they function, and how they influence public policy. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.

Grading Status: Letter grade.

GLBL 482. Soviet and Post-Soviet Politics and Institutions. 3 Credits.

This course is an introduction to the history and contemporary politics of the post-Soviet region and explores topics of religious, ethnic, and identity politics; international influences; and civil society and social movements. Honors version available.

Rules & Requirements

Grading Status: Letter grade.

 **GLBL 483. Comparative Health Systems. 3 Credits.**

This course provides students with an understanding of the origins and comparative performance of a range of international healthcare systems. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.

Grading Status: Letter grade.

GLBL 484. History and Politics of Central Asia. 3 Credits.

This course is an introduction of the history, politics, and societies of Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan. The class explores the foundations and conditions of change in the modern history of these societies and investigates how these issues influence contemporary politics.

Rules & Requirements

Grading Status: Letter grade.

 **GLBL 485. Comparative Development. 3 Credits.**

This course is an APPLIES service-learning course whose goal is to integrate real-world experience working with development-oriented organizations, theoretical discussions about the origins and evolution of development thinking, and exposure to the challenges facing practitioners of development, in some of its many substantive and geographical contexts.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-SERVICE.

Making Connections Gen Ed: EE- Service Learning.

Grading Status: Letter grade.

 **GLBL 486. Sports and Globalization. 3 Credits.**

This course explores some of the relationships between sports and globalization and will delve into sports as an important social and cultural practice within larger social, cultural, and political forces shaping studies of globalization. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.

Grading Status: Letter grade.

 **GLBL 487. Social Movements: Rethinking Globalization. 3 Credits.**

This course explores the history, objectives, and manifestations of global social movements. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: GL, US.

Grading Status: Letter grade.

 **GLBL 489. Paradigms of Development and Social Change. 3 Credits.**

By deliberately juxtaposing questions of global development with an investigation of approaches in community organizing locally--both through course material and service-learning assignments--the course encourages students to develop a more critical understanding of the relationship between development projects and emancipatory frameworks. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-POWER, HI-SERVICE.

Making Connections Gen Ed: BN, EE- Service Learning.

Grading Status: Letter grade.

GLBL 490. Current Topics. 3 Credits.

Current topics in international and area studies. Topics vary by semester.

Rules & Requirements

Grading Status: Letter grade.

GLBL 491H. Major Controversies in Human Rights. 3 Credits.

A forum for exploring conceptual and practical problems related to the emergence of a global human rights regime after World War II. The course analyzes relevant arguments, and students will consider whether it is possible to construct a coherent, workable, universally accepted system for articulating and enforcing human rights norms.

Rules & Requirements

Grading Status: Letter grade.

GLBL 492. Global Food Films. 3 Credits.

Thinking about one of our most basic human needs illuminates aspects of our own everyday lives, such as our relationship to nature, other cultures, and to history, as well as our general assumptions about humanity. Students will study films that explore cross-cultural differences in the social and philosophical understandings of what it is to be human. Honors version available.

Rules & Requirements

Making Connections Gen Ed: VP.

Grading Status: Letter grade.

GLBL 574. Political Economy of Poverty and Inequality. 3 Credits.

Introduces students to the political economy of poverty alleviation programs. Uses comparative cases to explore what types of projects, tasks, and environments lead to effective and equitable outcomes, and why.

Rules & Requirements

Grading Status: Letter grade.

Same as: PLAN 574.

 **GLBL 691H. Honors in Global Studies. 3 Credits.**

Permission of the instructor. Preparation for writing the honors thesis.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 **GLBL 692H. Honors in Global Studies. 3 Credits.**

Permission of the instructor. Completion of the honors thesis and an oral examination of the thesis.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

Global Studies Major, B.A.

Global studies is an interdisciplinary curriculum that brings together diverse perspectives and frameworks to analyze the complex relationships between local, national, and global structures.

The Curriculum in Global Studies provides students with the necessary knowledge and skills to develop effective and innovative responses to some of today's most critical global challenges — such as racial

and gender injustice, economic inequality, increasing war and conflict, migration and displacement, and environmental crisis — by training them in a variety of methodologies drawn from multiple academic disciplines and supporting them with internationally renowned faculty across more than ten departments at UNC.

Stay up to date on all things UNC Global Studies by following us on Instagram: @uncglobalstudies

Student Learning Outcomes

Upon completion of the global studies program, students should be able to:

- Demonstrate facility with a range of approaches to knowledge typically found in global studies
- Discuss current academic perspectives on central global and trans-cultural issues
- Discuss major themes and movements in area studies and link them to broader global developments
- Construct logical and coherent arguments to support their analysis of global and trans-cultural issues from a diversity of perspectives (e.g. international politics, global economics, transnational culture, global health and environment)

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
GLBL 210	 Global Issues and Globalization	3
One core methodology/methods course		3
AMST 203	 Approaches to American Indian Studies	
FOLK 202	 Everyday Cultures: Folklore in America	
GEOG 124	 Feminist Geographies	
GEOG 391	Quantitative Methods in Geography	
GEOG 392	 Research Methods in Geography	
HIST 395	 Research Related Skills (for 3 credits)	
POLI 285	Applied Experimental Research: Politics in the US and Europe	
POLI 350	 Peace Science Research	
PLCY 310	Microeconomic Foundations of Public Policy	
PLCY 435	Designing for Impact: Social Enterprise Lab	
SOCI 251	 Research Methods	
SOCI 252	 Data Analysis	

Another core course:		3
ANTH 142	 Local Cultures, Global Forces ^H	
ANTH 380	Anthropological Perspectives on Cultural Diversity	
ARTH 150	 The Visual World ^H	
ASIA/RELI 180	 Introduction to Islamic Civilization	
ASIA/RELI 181	 Modern Muslim Societies	
COMM 82	 First-Year Seminar: Food Politics from an Organizational Communication Perspective	
DRAM 117	Perspectives in World Drama ^H	
ECON 360	Survey of International and Development Economics ^H	
ENEC 201	 Introduction to Environment and Society ^{H, F}	
ENGL 141	 World Literatures in English	
FREN 150	 Globalization and the French-Speaking World	
GEOG 121	 Geographies of Globalization	
GEOG 123	 Cultural Geography	
GEOG 130	 Development and Inequality: Global Perspectives ^F	
GEOG 212	 Environmental Conservation and Global Change	
GEOG 232	 Agriculture, Food, and Society	
GEOG/PWAD 120	 World Regional Geography	
HIST 140	 The World since 1945	
MEJO 446	 Global Communication and Comparative Journalism	
MUSC 146	 Introduction to World Musics	
PHIL/POLI/PWAD 272	 The Ethics of Peace, War, and Defense	
PLCY/PWAD 110	 Global Policy Issues ^H	
POLI 130	 Introduction to Comparative Politics ^{H, F}	
POLI 150	 International Relations and Global Politics ^{H, F}	
SOCI 111	Human Societies	
SOCI 121	Population Problems	
SOCI/WGST 124	 Sex and Gender in Society	
WGST 281	 Gender and Global Change	
Four courses from one of the following thematic areas ¹		12
Three courses from one of the following world areas ¹		9
Additional Requirements		
Credit for six levels of modern language study. ²		9-10
Total Hours		39-40

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Of the seven courses in the thematic and world area concentrations, five must be numbered 200 and above.

² Students may choose six levels of one language or four levels of one language and two of another. The primary language must be relevant to the declared world area concentration. The curriculum urges students to continue the study of a foreign language to a level as close as possible to fluency. The first three levels of a foreign language can count toward the General Education requirement and have not been included as additional hours for the major.

Thematic Areas

International Politics, Nation-States, Social Movements

Code	Title	Hours

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional Information

The curriculum urges that in addition to fulfilling requirements, students continue the study of a foreign language to a level as close as possible to fluency. All majors should also make every effort to include a study

abroad program in their undergraduate education, preferably in their sophomore or junior year.

Students must complete all General Education requirements.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC-Chapel Hill in the fall term. Some courses may not be offered every term.

¹ This is just a recommendation. GBL 210 can be an appropriate course for first-year students.

Special Opportunities in Global Studies Honors in Global Studies

Honors study involves the completion of a substantial piece of original research and the formal presentation of the results in an honors thesis and oral defense. Those who successfully complete the program are awarded their B.A. degree with either honors or highest honors in global studies. Students who wish to submit a thesis for honors in global studies must have at least a 3.3 cumulative grade point average and, under normal circumstances, a 3.5 grade point average in the major and must enroll in GLBL 691H and GLBL 692H. GLBL 692H may count toward the major as a theme or area studies course with departmental approval. GLBL 691H will count as elective credit only. Each prospective honors student must submit a two- to three-page prospectus outlining their project in the spring of their junior year. Students accepted into the global studies honors program will enroll in GLBL 691H in the fall of their senior year and GLBL 692H in the spring of their senior year.

Study Abroad (Recommended, but Optional)

Global studies majors are encouraged to gain experiential knowledge of the countries and thematic concerns they are studying through participation in an approved study abroad program appropriate to their areas of concentration. Every effort will be made by the curriculum to integrate study abroad courses into the major. Students must receive course approval from the director of undergraduate studies prior to departure for a program abroad. No credit will be given unless programs are pre-approved.

Undergraduate Awards

All majors in the Curriculum in Global Studies who study abroad are considered for two study abroad awards that are presented each year. These funds may be used to defray any expenses associated with studying abroad.

The Michael L. and Matthew L. Boyatt Award Fund provides several meritorious awards each year of no more than \$2,500 each. They are designated for majors who want to participate in a study abroad program pertinent to their area of concentration within global studies.

The Laura Hudson Richards Fund provides one award of \$2,500 each year to a major in the Curriculum in Global Studies who demonstrates both academic excellence and financial need.

In addition, each spring the curriculum awards the Douglas Eyre Prize to the student writing the best honors thesis. The curriculum also selects an annual recipient of the Anne Scaff Award for service to the curriculum and for internationalizing the college. Students chosen to receive the Eyre Prize and Scaff Award are recognized at the curriculum's spring commencement ceremony.

Department of Health Policy and Management

Introduction

Health policy and management students are motivated to improve individual and population health, advance health equity, and strengthen access to the resources needed to be healthy through effective policy and management of health-related organizations and programs. Our B.S.P.H. program prepares students with a strong public health foundation, in-depth knowledge of the U.S. health system, and essential analytical, teamwork, and management skills, who pursue careers as health leaders, managers, policymakers, practitioners, clinicians, and researchers.

Advising and Mentoring

All students receive support from a designated academic coordinator, an assigned faculty mentor, and a full-time career services coordinator in the department.

Graduate School and Career Opportunities

Graduates of the B.S.P.H. program in health policy and management are very successful upon graduation. Nearly all are placed within a few months of graduation, with approximately 80 percent entering the workforce and about 20 percent going directly to graduate or professional school. Top employers include consulting firms, hospitals, and health systems, private non-profit organizations, private research organizations, and health information technology companies. Within 2–5 years of graduation, most of our graduates have pursued an additional degree, with the majority pursuing a medical degree or graduate degree in public health. Over 90 percent of recent graduates report doing work they consider public health and/or health-related.

Major

- Health Policy and Management Major, B.S.P.H. (p. 753)

Professors

Antonia Bennett, George Mark Holmes, Valerie Lewis, Benjamin Meier, Jonathan Oberlander, Kristin Reiter, Chris Shea, Justin Trogdon, Karen Volmar, Lynne Wagner, Stephanie Wheeler.

Associate Professors

Leah Frerichs, Bill Gentry, Kristen Hassmiller Lich, Susan Helm-Murtagh, Lindsey Haynes-Maslow, Erin Kent, Angela Stover, Sean Sylvia, Kat Tumlinson, Karl Umble.

Assistant Professors

Samuel Baxter, Arrianna Planey, Mya Roberson, Jeffrey Simms, Melanie Studer, Tara Templin, Elizabeth Tomlinson, Lauren Wallace, Ciara Zachary.

Professors of the Practice

Sandra Greene, John Wiesman.

Adjunct Instructor

Franklin Farmer.

Professors Emeriti

Edward Brooks, Laurel Files, Sagar Jain, Arnold Kaluzny, Joe Morrissey, John Paul, Morris Weinberger, William Zelman.

HPM—Health Policy and Management Undergraduate-level

HPM 101. Exploring Health Policy and Health Systems. 1 Credits.

This course is designed to provide students with an opportunity to explore health policy issues, learn about health systems, and introduce them to the field of health policy and management.

Rules & Requirements

Grading Status: Letter grade.

HPM 300. The U.S. Health System. 3 Credits.

This course provides an overview of the U.S. health care system, including how the system is structured and financed and the delivery of health care services. Students will explore the performance of the system in terms of population health, quality, access, cost and equity, and approaches to strengthening health system performance.

Rules & Requirements

Grading Status: Letter grade.

HPM 301. HPM BSPH Professional Development Seminar. 1 Credits.

This course exposes students to different career paths in the field of Health Policy and Management and helps students develop knowledge and skills needed to effectively compete for internships and post-graduation jobs. HPM BSPH majors only.

Rules & Requirements

Requisites: Pre- or corequisite, HPM 350.

Grading Status: Letter grade.

HPM 310. Introduction to Health Law and Ethics. 3 Credits.

An introduction to law and ethics in public health and healthcare organizations. HPM BSPH Majors Only.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Requisites: Prerequisite, HPM 350.

Grading Status: Letter grade.

HPM 320. Introduction to Strategic Planning and Marketing in Health Care. 3 Credits.

An introduction to the development and implementation of strategic planning and marketing processes in health care organizations.

Rules & Requirements

Requisites: Prerequisite, HPM 350.

Grading Status: Letter grade.

HPM 330. Introduction to Health Organization Leadership, Management, and Behavior. 3 Credits.

Students develop skills in leadership and management and apply these skills to public health and health care cases and a team-based community project.

Rules & Requirements

Requisites: Prerequisite, HPM 350.

Grading Status: Letter grade.

HPM 340. Foundations of Health Care Financial Management. 3 Credits.

Basic methods and techniques in financial management of health care programs, including financial statement analysis, cost determination and allocation, pricing of services, and budgeting.

Rules & Requirements

Requisites: Prerequisite, HPM 350.

Grading Status: Letter grade.

HPM 341. Information Systems, Technology, and Tools in Health Care. 3 Credits.

This course examines information systems and technology in health care. Students also learn how to use MS Excel and MS Access.

Rules & Requirements

Requisites: Corequisite, HPM 350.

Grading Status: Letter grade.

HPM 350. Introduction to the U.S. Health System I. 3 Credits.

HPM 350 and 352 provide an overview of the United States health system. HPM 350 examines the performance, organization, management, and financing of the U.S. health system and the resources required to provide health services.

Rules & Requirements

Making Connections Gen Ed: US.

Grading Status: Letter grade.

HPM 351. Politics, Public Health, and Health Policy. 3 Credits.

This course explores the politics of public health and health care policy in the United States, with a focus on current issues and controversies.

Rules & Requirements

Requisites: Prerequisite, HPM 350.

Grading Status: Letter grade.

HPM 352. Introduction to the U.S. Health System II. 3 Credits.

HPM 352, in conjunction with HPM 350, provides an overview of the United States health system. HPM 352 examines the delivery of health services and approaches to strengthening the performance of the U.S. health system. HPM BSPH Majors Only.

Rules & Requirements

 **IDEAs in Action Gen Ed:** COMMBEYOND.

Requisites: Prerequisite, HPM 350.

Grading Status: Letter grade.

HPM 390. Special Topics in HPM. 1-3 Credits.

Special topics course for health policy and management undergraduate students.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 3 total credits. 3 total completions.

Grading Status: Letter grade.

HPM 393. Internship in Health Policy and Management. 2 Credits.

A 320-hour internship in a health-related organization. The internship provides students an opportunity to apply the knowledge and skills they are learning in the classroom, gain valuable experience and explore career interests. Restricted to HPM B.S.P.H. students.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Requisites: Prerequisite, HPM 350.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level**HPM 420. Community and Public Health Security: Disasters, Terrorism, and Emergency Management. 3 Credits.**

This course examines systems for emergency management at federal, state, and local levels. The roles of emergency management, health services, and public health in disaster management are also reviewed. Every other week, evening online sessions required with instructors.

Rules & Requirements

Grading Status: Letter grade.

HPM 422. Emergency Management I: Analytic Methods. 3 Credits.

Introduction of analytical tools to assess, evaluate, map, and investigate disasters (including biological outbreaks). These tools will be used to improve planning and evaluation of disaster management programs. Every other week, evening online sessions required with instructors.

Rules & Requirements

Grading Status: Letter grade.

HPM 423. Emergency Management II: Disaster Management. 3 Credits.

Explores issues of preparedness, response, recovery, mitigation, and research in disaster management. Students will participate in evacuation decision making, volunteer management, and the development of a disaster exercise. Every other week, evening online sessions required with instructors.

Rules & Requirements

Grading Status: Letter grade.

HPM 472. Program Evaluation. 3 Credits.

Concepts and methods of the program evaluation paradigm as applied in health administration.

Rules & Requirements

Grading Status: Letter grade.

HPM 496. Readings in Health Policy and Management. 0.5-3 Credits.

Directed readings or research. Written reports are required.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

HPM 565. Global Health Law & Policy. 3 Credits.

Coursework will focus on public policy approaches to global health, employing interdisciplinary methodologies to understand selected public health policies, programs, and interventions. For students who have a basic understanding of public health.

Rules & Requirements

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

Same as: PLCY 565.

HPM 571. Global Health and Human Rights. 3 Credits.

Course focuses on rights-based approaches to health, applying a human rights perspective to selected public health policies, programs, and interventions. Students will apply a formalistic human rights framework to critical public health issues, exploring human rights as both a safeguard against harm and a catalyst for health promotion.

Rules & Requirements

Making Connections Gen Ed: PH, GL.

Grading Status: Letter grade.

Same as: PLCY 570.

HPM 600. Introduction to Health Policy and Management. 3 Credits.

This course provides an overview of the United States health care system. Students will explore the system's organization, financing, management, resources, and performance. For each topic, they will analyze relevant legislation and discuss current issues. Students will develop skills in policy research and analysis, health care system evaluation, and basic financial literacy.

Rules & Requirements

Grading Status: Letter grade.

HPM 601. Issues in Health Care. 1 Credits.

Lectures on current topics in health care.

Rules & Requirements

Grading Status: Letter grade.

HPM 602. Concurrent Practice. 1-3 Credits.

Permission of the program director. Supervised activities in an approved health organization, to include one or more specific projects, approved by HPM faculty member and directed by an approved preceptor/mentor in the organization.

Rules & Requirements

Grading Status: Letter grade.

HPM 605. Practice Application Journaling I. 0.5 Credits.

This course is the first of six field-based Journal Practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.

Rules & Requirements

Repeat Rules: May be repeated for credit. 1 total credits. 2 total completions.

Grading Status: Letter grade.

HPM 606. Practice Application Journaling II. 0.5 Credits.

This course is the second of six field-based journal practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.

Rules & Requirements

Requisites: Prerequisite, HPM 605.

Repeat Rules: May be repeated for credit. 1 total credits. 2 total completions.

Grading Status: Letter grade.

HPM 607. Practice Application Journaling III. 0.5 Credits.

This course is the third of six field-based journal practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.

Rules & Requirements

Repeat Rules: May be repeated for credit. 1 total credits. 2 total completions.

Grading Status: Letter grade.

HPM 608. Practice Application Journaling IV. 0.5 Credits.

This course is the fourth of six field-based journal practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.

Rules & Requirements

Repeat Rules: May be repeated for credit. 1 total credits. 2 total completions.

Grading Status: Letter grade.

HPM 609. Practice Application Journaling V. 0.5 Credits.

This course is the fifth of six field-based journal practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.

Rules & Requirements

Repeat Rules: May be repeated for credit. 1 total credits. 2 total completions.

Grading Status: Letter grade.

HPM 610. Practice Application Journaling VI. 0.5 Credits.

This course is the sixth and final of six field-based journal practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.

Rules & Requirements

Repeat Rules: May be repeated for credit. 1 total credits. 2 total completions.

Grading Status: Letter grade.

HPM 620. Implementing Health Informatics Initiatives. 3 Credits.

Focuses on implementing informatics programs and projects in health organizations. Informatics initiatives aim to facilitate effective information use for the purpose of improving the quality of health services and/or efficiency of processes. Therefore, these initiatives have implications for various stakeholder groups, including consumers, practitioners, administrators, and policy makers.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

HPM 630. IHI Course in Healthcare Quality Improvement. 1.5 Credits.

The IHI Certificate demonstrates an investment in further education and a strong knowledge base in quality improvement. Upon completion of this course, students will have met the requirements for the IHI Open School Certificate and participated in two in-person sessions.

Rules & Requirements

Grading Status: Letter grade.

HPM 660. International and Comparative Health Systems. 3 Credits.

Methods of comparing health systems, examinations of related national health systems, and analysis of related high prevalence health issues.

Rules & Requirements

Grading Status: Letter grade.

HPM 664. Globalization and Health. 3 Credits.

Globalization—its economic, environmental, political, technological, institutional, and sociocultural dimensions—historically and currently contributes to beneficial and adverse effects on population, community, and family and individual health.

Rules & Requirements

Grading Status: Letter grade.

Same as: MHCH 664.

HPM 671. Statistical Methods for Health Policy and Management. 3 Credits.

Introduction to statistical analysis for healthcare settings using an Excel framework. Topics include variable types, sampling, probability distributions, descriptive statistics, hypothesis testing, categorical data analysis, ANOVA, and introduction to regression methods. Previously offered as HPM 470.

Rules & Requirements

Grading Status: Letter grade.

HPM 690. Special Topics in Health Policy and Management. 0.5-3 Credits.

Special topics course for health policy and management undergraduate students.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 3 total credits. 2 total completions.

Grading Status: Letter grade.

HPM 691H. Honors Research I. 3 Credits.

Students design a research project, known as the Honors Thesis. Students write a research proposal and complete an IRB application toward partial completion of the thesis. Requires a UNC-approved cumulative GPA by the end of the junior year and permission of the instructor.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisite, HPM 350.

Grading Status: Letter grade.

HPM 692H. Honors Research II. 3 Credits.

Students complete, write up and present the Honors Thesis research project that they designed in HPM 691H. Requires having maintained the UNC-approved cumulative GPA by the end of the senior fall semester and permission of the instructor.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Requisites: Prerequisites, HPM 691H and 350.

Grading Status: Letter grade.

HPM 696. Research in Health Policy and Management. 1-3 Credits.

This course is for health policy and management undergraduate or graduate students who wish to pursue applied research or practice opportunities with healthcare organizations under the supervision of a faculty member in the Department of Health Policy and Management.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.

Grading Status: Letter grade.

HPM 697. Health Policy and Management BSPH Capstone. 3 Credits.

The capstone course serves as a culminating experience for students in the BSPH program in Health Policy and Management. Students integrate and apply the knowledge and skills they have learned across the program. Students work in teams to complete a major project with a local organization -- such as a hospital, health system, governmental health department, non-profit, or global health organization. Restricted to HPM B.S.P.H. students.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Requisites: Prerequisites, HPM 330 and HPM 350.

Grading Status: Letter grade.

Health Policy and Management Major, B.S.P.H.

Health policy and management students are motivated to improve individual and population health, advance health equity, and strengthen access to the resources needed to be healthy through effective policy and management of health-related organizations and programs. Our B.S.P.H. program prepares students with a strong public health foundation, in-depth knowledge of the U.S. health system, and essential analytical, teamwork, and management skills, who pursue careers as health leaders, managers, policymakers, practitioners, clinicians, and researchers.

The curriculum includes a combination of core public health courses, required courses in health policy and management, an eight-week internship completed the summer between junior and senior year, elective courses (including senior honors thesis and graduate-level options), and a year-long capstone experience. The curriculum emphasizes collaboration and application, with students working on multiple semester and year-long team projects, some with community partners.

Students go through the program in a cohort of about 45 students, creating a strong sense of community. The program also offers a supportive learning environment. Each student is matched with a faculty mentor and supported by an academic coordinator and dedicated career services coordinator within the department.

Graduates of the program are very successful. Most graduates enter the workforce immediately after graduation, with top employers including consulting firms, hospitals and health systems, private research organizations, health insurance companies, health information technology companies, government agencies, non-profit organizations, and more. Within 2–5 years, the majority of graduates go on to pursue a graduate or professional degree, with the most common being a graduate degree in public health or medical degree. Learn more about what our students do after graduation here (<https://sph.unc.edu/hpm/hpm-degrees-and-certificates/bachelor-of-science-in-public-health-bsph/>).

Admission (<https://catalog.unc.edu/undergraduate/programs-study/health-policy-management-major-bsph/#admissiontext>) to the program is required.

Student Learning Outcomes

Upon completion of the B.S.P.H. program in health policy and management, students should be able to demonstrate the following competencies:

Knowledge of the U.S. Health System and Health Policy

- Examine the structure and financing of the U.S. health system, the delivery of health services, and strategies to improve health system performance
- Examine the politics of public health and health policy in the U.S.
- Analyze health-related legal and ethical issues and their impact on the U.S. health system

Analytical, Teamwork, Management, and Leadership Skills

- Manage and analyze data using appropriate methods and tools
- Formulate strategic alternatives for achieving an organization's goals and objectives
- Apply basic methods and techniques in financial management
- Perform effectively on teams
- Demonstrate approaches to effectively lead and manage people, projects, and organizations

Foundational Public Health Knowledge and Skills

- Describe health inequities, identify their root causes at multiple levels of the social ecological framework, and discuss approaches to advancing health equity
- Locate, use, evaluate, and synthesize public health information
- Communicate public health information, in both oral and written forms through a variety of media and to diverse audiences

Throughout the curriculum, students will also receive exposure to the following foundational public health domains:

- The history and philosophy of public health as well as its core values, concepts, and functions across the globe and in society
- The basic concepts, methods, and tools of public health data collection, use, and analysis and why evidence-based approaches are an essential part of public health practice
- The concepts of population health, and the basic processes, approaches, and interventions that identify and address the major health-related needs and concerns of populations
- The underlying science of human health and disease, including opportunities for promoting and protecting health across the life course
- The socioeconomic, behavioral, biological, environmental, and other factors that impact human health and contribute to health disparities
- The fundamental concepts and features of project implementation, including planning, assessment, and evaluation
- The fundamental characteristics and organizational structures of the U.S. health system as well as the differences between systems in other countries
- The basic concepts of legal, ethical, economic, and regulatory dimensions of health care and public health policy and the roles, influences, and responsibilities of the different agencies and branches of government

- The basic concepts of public health-specific communication, including technical and professional writing and the use of mass media and electronic technology

Prerequisite Courses Required for Admission

Code	Title	Hours
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{H, F}	4
ECON 101	Introduction to Economics ^{H, F}	4
One of the following courses:		3-4
STOR 120	Foundations of Statistics and Data Science ^F	
STOR 155	Introduction to Data Models and Inference ^F	
One of the following courses:		3-4
MATH 130	Precalculus Mathematics ^F	
MATH 152	Calculus for Business and Social Sciences ^F	
MATH 231	Calculus of Functions of One Variable I ^{H, F}	
MATH 232	Calculus of Functions of One Variable II ^{H, F}	
MATH 233	Calculus of Functions of Several Variables ^{H, F}	
STOR 113	Decision Models for Business and Economics	
Total Hours		14-16

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Admission

The Gillings School of Global Public Health offers four undergraduate majors: biostatistics, environmental health sciences, health policy and management, and nutrition. The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Enrollment in the B.S.P.H. degree programs is limited, and students must apply for admission. Students typically apply in January of their sophomore year for admission beginning in the fall of their junior year.

For current UNC–Chapel Hill students, the initial step of B.S.P.H. application is available in ConnectCarolina under the "Apply for Majors Change" tab. For additional information on application deadlines and how to apply, please visit the Public Health Undergraduate Majors (<https://sph.unc.edu/resource-pages/undergraduate-programs/>) website.

Transfer students interested in any of the B.S.P.H. degree programs must apply through the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/types-of-applications/transfer/>) using the Transfer Common application.

For high school seniors, our four majors participate in the Assured Enrollment program through Undergraduate Admissions. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina's professional schools or a spot in an

accelerated undergraduate/graduate program. For additional information, please visit Undergraduate Admissions: Special Opportunities (<https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/>).

Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, the requirements described in this catalog particularly apply to students admitted to Gillings during the 2024–2025 academic year.

Requirements

In addition to the program requirements listed below, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
Public Health Core Courses: ¹		
BIOS 600	Principles of Statistical Inference	3
or ECON 400	Introduction to Data Science and Econometrics

BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{H, F}	4
ECON 101	Introduction to Economics ^{H, F}	4
STOR 120 or STOR 155	Foundations of Statistics and Data Science ^F Introduction to Data Models and Inference	3-4
One of the following courses:		3-4

MATH 130	Precalculus Mathematics ^F
MATH 152	Calculus for Business and Social Sciences ^F
MATH 231	Calculus of Functions of One Variable I ^{H, F}
MATH 232	Calculus of Functions of One Variable II ^{H, F}
MATH 233	Calculus of Functions of Several Variables ^{H, F}
STOR 113	Decision Models for Business and Economics
Total Hours	57-59

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- ^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Requires a grade of C (not C-) or better
² Prerequisite courses required for admission.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

First Year	Hours
First-Year Foundation Courses	
IDST 101 College Thriving	1
ENGL 105 English Composition and Rhetoric or ENGL 105I English Composition and Rhetoric (Interdisciplinary)	3
First-Year Seminar or First-Year Launch (p. 1202) ^F	3
Triple-I and Data Literacy (p. 1210)	4
Global Language through level 3 (p. 1211)	varies
Major Courses	
BIOL 101 Principles of Biology & 101L and Introductory Biology Laboratory ^{H, F}	4
ECON 101 Introduction to Economics ^{H, F}	4
Hours	19
Sophomore Year	
STOR 120 Foundations of Statistics and Data Science ^F or STOR 155 Introduction to Data Models and Inference	3-4
Select one of the following:	3-4
MATH 130 Precalculus Mathematics ^F	
MATH 152 Calculus for Business and Social Sciences ^F	

MATH 231	Calculus of Functions of One Variable I ^{H, F}	
MATH 232	Calculus of Functions of One Variable II ^{H, F}	
MATH 233	Calculus of Functions of Several Variables ^{H, F}	
STOR 113	Decision Models for Business and Economics	
Hours		6-8
Junior Year		
Fall Semester:		
HPM 301	HPM BSPH Professional Development Seminar	1
HPM 341	Information Systems, Technology, and Tools in Health Care	3
HPM 350	Introduction to the U.S. Health System I	3
SPHG 351	Foundations of Public Health	3
Spring Semester:		
HPM 320	Introduction to Strategic Planning and Marketing in Health Care	3
HPM 352	Introduction to the U.S. Health System II	3
SPHG 352	Public Health Systems and Solutions	4
Any Semester in the Junior Year:		
EPID 600	Principles of Epidemiology for Public Health ³	3
Any Semester in the Junior or Senior Year:		
BIOS 600 or ECON 400	Principles of Statistical Inference ¹ or Introduction to Data Science and Econometrics	3
Hours		26
Senior Year		
Fall Semester:		
HPM 393	Internship in Health Policy and Management ²	2
HPM 310	Introduction to Health Law and Ethics	3
HPM 330	Introduction to Health Organization Leadership, Management, and Behavior	3
HPM 340	Foundations of Health Care Financial Management	3
HPM 691H	Honors Research I (optional elective)	3
Spring Semester:		
HPM 351	Politics, Public Health, and Health Policy	3
HPM 697	Health Policy and Management BSPH Capstone	3
HPM 692H	Honors Research II (optional elective)	3
Hours		23
Total Hours		74-76

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ BIOS 600 or ECON 400 can be taken any semester in the Junior or Senior year.

² HPM 393 is completed during the summer between the Junior and Senior year.

³ EPID 600 is strongly recommended in the junior year, but may be taken in the senior year.

Special Opportunities in Health Policy and Management Experiential Education

An 8-week full-time internship (320 hour minimum) is required during the summer between the junior and senior years. The internship provides students an opportunity to apply the knowledge and skills being acquired through their coursework, further develop and demonstrate attainment of program competencies, and explore career interests. Learn more about internships completed by past students here (https://sph.unc.edu/wp-content/uploads/sites/112/2021/11/hpmbosph_Internships.pdf).

In addition, in the year-long senior capstone students work on consulting projects with health organizations in the community. This project serves as a culminating experience for the program, providing students with an opportunity to synthesize, integrate, and apply knowledge and skills gained through their coursework and further develop and demonstrate attainment of program competencies. These projects are completed under the direction of a faculty member and preceptor, typically within a public health department, community health center, hospital, medical office, or non-profit organization. Learn more about some of our past capstone projects here (<https://sph.unc.edu/wp-content/uploads/sites/112/2023/10/HPM-BSPH-Capstone-Summaries-2021-2023.pdf>).

Honors in Health Policy and Management

Eligible students have the option of completing a senior honors thesis, which generally includes designing and carrying out a research study or program evaluation. Students defend their proposals in the fall and their theses in the spring.

School and Departmental Involvement

Opportunities exist for involvement in student organizations such as the Healthcare Executives Student Association, the Healthcare Improvement Group, AcademyHealth, the Student Global Health Committee, GlobeMed, the Minority Student Caucus, the Consulting Club, and the school's student government. Most students are also active in one or more health-related campus organizations, such as the Student Health Action Coalition (SHAC) and Get Covered Carolina.

Study Abroad

Students are encouraged to study abroad prior to entering the program in the junior year. While in the program, students may complete their internship outside the United States.

Undergraduate Awards

The department presents awards for undergraduate students at an annual Awards Day in late spring.

Undergraduate Research

Students with research interests may seek opportunities to work with faculty members on research projects. Students in the program regularly find opportunities at research centers on campus, such as the Cecil G. Sheps Center for Health Services Research, the Lineberger Comprehensive Cancer Center, the Center for Health Equity Research, the Carolina Population Center, and the Center for Health Promotion and Disease Prevention.

Department of Health Sciences

The mission of the Department of Health Sciences is to improve the health and wellbeing of all people of North Carolina, the nation, and globally through exemplary and culturally sensitive teaching, innovative research, and person-centered care.

- **Exemplary Teaching:** To produce a diverse, interprofessional, and culturally competent workforce of health care practitioners, educators, researchers, and health care leaders.
- **Innovative Research:** To conduct research aimed at generating new knowledge that advances the practices and policies of health care.
- **Person-Centered Care:** To advance the science and practice of person-centered care with a focus on patient outcomes, families, communities, integrative health care, health promotion/disease prevention, and the improvement of overall quality of life.

Throughout our teaching, research, and clinical care, we are committed to engagement with diverse student, faculty, and patient/client populations and to creating an inclusive and equitable environment in which to work and learn.

Majors

- Clinical Laboratory Science Major, B.S. (p. 765)
- Neurodiagnostics and Sleep Science, B.S. (p. 768)
- Radiologic Science, B.S. (p. 771)

Minor

- Speech and Hearing Sciences (p. 774)

Professor

Elizabeth R. Crais, Karen Erickson, John Grose, Katarina Haley, Tara C. Moon, Jordan B. Renner, Stephanie Sjoblad.

Associate Professors

Lisa Domy, Sarah Hess, Adam Jacks, Nancy McKenna, Brenda Mitchell, Joy J. Renner, Devon Weist, Mary Ellen Wells, Sharon W. Williams.

Assistant Professors

Lindsey Byom, Amy Dela Cruz, Julia Drouin, Kenya Haugen, Kimberly Jenkins, Patricia Johnson, Bai Li, Shawn Luby, Hannah Hodson McLean, Lauren Noble, Hannah Siburt, Katrina Steinsultz, Laine Stewart, Sara Taylor, Susan Taylor.

Adjunct Assistant Professor

Melissa Culp.

Instructors

Kristine Barnette, Randy Gay, Susan MacNeela, Wendy Ross.

Professors Emeriti

Charles B. Burns, Janice C. Keene, Robert L. Thorpe.

Courses

CLSC–Clinical Laboratory Science

CLSC 150. Current Topics in Clinical Laboratory Medicine. 1 Credits.

A survey of topics in laboratory medicine including transfusions, forensic science, infectious diseases, and hematologic diseases.

Rules & Requirements

Grading Status: Pass/Fail.

CLSC 410. Laboratory Mathematics. 1 Credits.

Permission of the instructor for nonmajors. Basic mathematical principles, calculations, quality assurance, and method validation relevant to the clinical laboratory.

Rules & Requirements

Grading Status: Letter grade.

CLSC 410L. Basic and Molecular Laboratory Methods. 2 Credits.

Majors only. Basic skills associated with the clinical laboratory including pipetting, spectrophotometry, standard curves, dilutions, and immunoassays. Molecular methods include small volume pipetting, microwell plating, nucleic acid extraction, and PCR techniques.

Rules & Requirements

Grading Status: Letter grade.

CLSC 420. Urinalysis and Body Fluids. 1 Credits.

Permission of the instructor for nonmajors. The physical, chemical, and microscopic analysis of body fluids in the clinical laboratory with an emphasis on correlation of laboratory data.

Rules & Requirements

Grading Status: Letter grade.

CLSC 420L. Urinalysis Laboratory. 1 Credits.

For Clinical Laboratory Science majors only. The physical, chemical, and microscopic examination of urine with an emphasis on the correlation of laboratory data.

Rules & Requirements

Grading Status: Letter grade.

CLSC 430. Biochemistry. 3 Credits.

Permission of the instructor for nonmajors. Physiological biochemistry of the metabolic pathways and alterations in selected diseases. Also includes principles and applications of molecular techniques in the clinical laboratory.

Rules & Requirements

Grading Status: Letter grade.

CLSC 440. Hematology I. 2 Credits.

Permission of the instructor for nonmajors. Introduction to normal hematopoiesis, blood cell function and identification, hematologic tests, principles of hemostasis, and hemostasis disorders.

Rules & Requirements

Grading Status: Letter grade.

CLSC 440L. Hematology I Laboratory. 1 Credits.

Permission of the instructor for nonmajors. Basic clinical assays for identification and evaluation of erythrocytes, leukocytes, and platelets with an emphasis on microscopy. Also includes coagulation testing.

Rules & Requirements

Grading Status: Letter grade.

CLSC 442. Hematology II. 3 Credits.

Majors only. Hematologic disorders involving erythrocytes and leukocytes, with an emphasis on the analysis and interpretation of laboratory data.

Rules & Requirements

Grading Status: Letter grade.

CLSC 442L. Hematology II Laboratory. 1 Credits.

Majors only. Microscopic identification and evaluation of abnormal erythrocyte and leukocyte morphology, correlation with other laboratory data, and clinical interpretation.

Rules & Requirements

Grading Status: Letter grade.

CLSC 450. Immunology. 3 Credits.

Permission of the instructor for nonmajors. Basic immunology and serology. Innate and immune body defenses. The development and properties of cellular and humoral elements and their alterations in pathological and other conditions.

Rules & Requirements

Grading Status: Letter grade.

CLSC 460. Special Pathogens. 2 Credits.

Permission of the instructor for nonmajors. Study of clinically significant fungi, parasites, and atypical or unusual bacteria. Correlation of disease, disease transmission, mechanisms of pathogenicity, and diagnostic testing.

Rules & Requirements

Grading Status: Letter grade.

CLSC 460L. Parasitology and Mycology Laboratory. 1 Credits.

Permission of the instructor for nonmajors. Clinical laboratory diagnostic methods for human parasitic and fungal infections. Microscopic morphology of fungal organisms and parasites, including their various life cycle forms.

Rules & Requirements

Grading Status: Letter grade.

CLSC 462. Clinical Bacteriology. 3 Credits.

Majors only. Principles and practice of clinical bacteriology. Study of medically significant bacteria with correlation of human disease, mechanisms of bacterial pathogenicity, and laboratory diagnostics.

Rules & Requirements

Grading Status: Letter grade.

CLSC 462L. Clinical Bacteriology Laboratory. 2 Credits.

Majors only. A comprehensive course describing bacteria that infect humans. Correlation of diseases and pathological mechanisms of bacteria.

Rules & Requirements

Grading Status: Letter grade.

CLSC 470. Clinical Chemistry. 3 Credits.

Majors only. An introduction to the methods of analysis used in the clinical chemistry laboratory. Emphasis on the correlation of chemistry laboratory values with disease states.

Rules & Requirements

Grading Status: Letter grade.

CLSC 470L. Clinical Chemistry Laboratory. 2 Credits.

Majors only. Performance of clinical laboratory assays for significant biochemical molecules. Principles of analysis, quality control, method evaluation, and basic laboratory instrumentation are presented.

Rules & Requirements

Grading Status: Letter grade.

CLSC 480. Immunohematology. 3 Credits.

Majors only. Introduction to blood group serology with an emphasis on the major blood group systems, pretransfusion testing, and antibody identification.

Rules & Requirements

Grading Status: Letter grade.

CLSC 480L. Immunohematology Laboratory. 2 Credits.

Majors only. Laboratory techniques for red cell typing, antibody identification, and pretransfusion testing.

Rules & Requirements

Grading Status: Letter grade.

CLSC 540L. Clinical Hematology Laboratory. 4 Credits.

Majors only. Laboratory rotation in clinical hematology.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisite, CLSC 440.

Grading Status: Letter grade.

CLSC 542L. Clinical Hemostasis Laboratory. 2 Credits.
Majors only. Laboratory rotation in clinical coagulation.

Rules & Requirements

Requisites: Prerequisite, CLSC 440.

Grading Status: Letter grade.

CLSC 550L. Clinical Immunology Laboratory. 1 Credits.
Majors only. Laboratory rotation in clinical immunology.

Rules & Requirements

Requisites: Prerequisite, CLSC 450.

Grading Status: Letter grade.

CLSC 560L. Clinical Microbiology Laboratory. 4 Credits.
Majors only. Laboratory rotation in clinical microbiology.

Rules & Requirements

Requisites: Prerequisite, CLSC 462.

Grading Status: Letter grade.

CLSC 570L. Clinical Chemistry Laboratory Rotation. 4 Credits.
Majors only. Laboratory rotation in clinical chemistry.

Rules & Requirements

Requisites: Prerequisite, CLSC 470.

Grading Status: Letter grade.

 **CLSC 580L. Clinical Immunohematology Laboratory. 4 Credits.**
Laboratory rotation in clinical immunohematology. Majors only.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisites, CLSC 480 and 480L.

Grading Status: Letter grade.

CLSC 582L. Clinical Transplantation Medicine Laboratory. 1 Credits.
Majors only. Clinical rotation in histocompatibility, flow cytometry, and hematopoietic progenitor cell laboratories.

Rules & Requirements

Requisites: Prerequisite, CLSC 480.

Grading Status: Letter grade.

CLSC 620. Clinical Laboratory Management. 2 Credits.
Majors only. Foundation in the technical and nontechnical aspects of supervision and management of clinical laboratory testing.

Rules & Requirements

Grading Status: Letter grade.

 **CLSC 630. Research Methods in Clinical Laboratory Science. 2 Credits.**

Majors only. An overview of the knowledge of research design and methods commonly used in the clinical laboratory research arena, providing the basis for the critical examination of professional literature.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: CI.

Grading Status: Letter grade.

 **CLSC 670. Clinical Laboratory Science Educational Methods. 2 Credits.**

Majors only. Introduction to the basic principles of clinical laboratory education, including objectives, learning formats, test development, and clinical teaching.

Rules & Requirements

 **IDEAs in Action Gen Ed:** COMMBEYOND.

Grading Status: Letter grade.

CLSC 695. Undergraduate Research in Clinical Laboratory Science. 3 Credits.

This mentored and self-directed course provides students with research experience in the clinical laboratory field. Students will apply knowledge of research methods to generate results and communicate results to others. This is a clinical laboratory science elective course. Seniors only.

Rules & Requirements

Requisites: Prerequisite, CLSC 630 or CLSC 730.

Grading Status: Pass/Fail.

NDSS–Neurodiagnostics and Sleep Science

NDSS 393. Clinical rotation in Neurophysiology and Polysomnography. 2 Credits.

Students will be exposed to real life clinical neurophysiology and sleep laboratory practice and develop competence in the performance of these studies in the clinical setting. Students should apply the knowledge and skills necessary to perform basic neurophysiological and sleep studies, including recording and interpreting basic studies. Upon completion, students should be able to demonstrate competence performing these studies. Students will discuss the cases, review waveforms, and identify events with clinical mentors.

Rules & Requirements

Requisites: Prerequisite, NDSS 415L.

Grading Status: Letter grade.

NDSS 400. NDSS UNCC Participants. 0 Credits.

Rules & Requirements

Repeat Rules: May be repeated for credit.

Grading Status: Letter grade.

NDSS 401. Basic Neurophysiology and Sleep for Clinical Neurophysiology. 3 Credits.

This course provides a concentrated study of anatomy and physiology essential to the practice of neurodiagnostics and polysomnography. Emphasis is placed on the physiology of the nervous, cardiovascular, and pulmonary systems and basic pharmacological principles. Upon completion, students should be able to demonstrate competence in concepts through written evaluation.

Rules & Requirements

Requisites: Prerequisite, A biology course above 100.

Grading Status: Letter grade.

NDSS 410. Intro to Basic Sleep and Neurophysiology Instrumentation and Technology. 4 Credits.

This course introduces fundamental concepts of NDSS equipment and recording of bio-electric potentials. Topics include concepts of basic electronics and instrumentation, key features of recording bio-electric potentials, function and application of neurodiagnostic equipment, construction of montages, display mechanisms, limitations of the recordings and essential clinical settings for the recording. Upon completion, students should be able to demonstrate basic competence in understanding neurodiagnostics and polysomnography and bio potentials.

Rules & Requirements

Grading Status: Letter grade.

NDSS 415L. Polysomnographic and Neurophysiologic Technology/ Lab. 7 Credits.

This course provides practical application of theories covered in the basic instrumentation course. Emphasis is placed on NDSS procedures. Students will have a hands-on laboratory practice and develop competence, knowledge and skills to perform these studies. Students will extend their understanding through application and review of clinical cases. Upon completion, students should be able to successfully complete practice lab exams and competencies.

Rules & Requirements

Requisites: Prerequisite, NDSS 410.

Grading Status: Letter grade.

NDSS 420. Pathophysiology of Sleep, Neurological, and Related Disorders. 3 Credits.

Students will learn about diseases affecting the nervous system, the sleep/wake cycle, and psychiatric and behavioral disorders. Topics include etiology, clinical manifestations, pharmacology, disease prevention, and overview of treatments. Restricted to NDSS Majors, Advanced undergraduates (instructor permission required).

Rules & Requirements

Grading Status: Letter grade.

NDSS 430. Neurological and Sleep Diagnostic and Therapeutic Methods, and Monitoring. 3 Credits.

Students will learn about services available at sleep and neurophysiology laboratories and interpretation of diagnostic findings. Topics include sleep procedures, electroencephalography, and long-term epilepsy monitoring. Students participate in laboratory practice sessions. Restricted to NDSS Majors, Advanced undergraduates (instructor permission required).

Rules & Requirements

Grading Status: Letter grade.

NDSS 440. Evidence Based Practice in Neurodiagnostics and Sleep Science. 3 Credits.

Admittance into NDSS program required. An Introduction to the concept of evidence-based practice and an opportunity to acquire the skills necessary to be able to incorporate evidence and best practices into professional work. These include an understanding of research methods and the approach to critical appraisal of research literature. (Fall, On demand).

Rules & Requirements

Grading Status: Letter grade.

NDSS 450. Advanced Sleep and Neurodiagnostic Clinical Procedures. 3 Credits.

Students will learn advanced procedures performed in sleep centers and neurophysiology laboratories. Topics include nerve conduction velocities, actigraphy, and autonomic testing techniques. Students participate in laboratory practice sessions. Restricted to NDSS Majors, Advanced undergraduates (instructor permission required).

Rules & Requirements

Grading Status: Letter grade.

NDSS 460. Informational Technology and Analytics in Neurodiagnostics and Sleep Science. 3 Credits.

A study and focus on information technology and analytics used specifically in Neurodiagnostics and Sleep Science. Emphasis is placed on development of the knowledge and competencies necessary for selective use and evaluation of research, data acquisition, computer transfer of acquisition studies, acquisition interpretations, and data management in the healthcare of Neurodiagnostic and Sleep Science patients.

Rules & Requirements

Grading Status: Letter grade.

NDSS 493. Neurodiagnostics and Sleep Science Practicum. 3 Credits.

Sleep disorders center and clinical neurophysiology laboratory clinical experience. Students participate in direct working experience in clinical neurophysiology and sleep laboratories (note that students may not be substituted as staff). Students may participate in practicum rotations in private practices and acute care centers accredited by the American Academy of Sleep Medicine and/or The American Board of Registration of Electroencephalographic and Evoked Potential Technologists, or other accreditation as deemed appropriate by the instructor. Majors only.

Rules & Requirements

Requisites: Pre- or corequisites, NDSS 420 and 430.

Grading Status: Letter grade.

NDSS 500. Principals and Practice of Healthcare Education. 3 Credits.

This course provides a foundation in the principles and practice of healthcare education. Topics include the educational process, learner characteristics, and teaching and learning theories, techniques, and strategies. Restricted to NDSS Majors, Advanced undergraduates (instructor permission required).

Rules & Requirements

Grading Status: Letter grade.

NDSS 510. Program Administration: Neurodiagnostics and Sleep Science Department Management. 3 Credits.

Admittance in to NDSS program required. Students will be introduced to the concepts of project development and management related to Neurodiagnostics and Sleep Science. Administration, financial, human resources, legal and policy concepts and issues in outpatient, public, and private sector settings. Topics and emphasis may vary. Students will be required to solve a clinical question using an inter-professional team-based approach.

Rules & Requirements

Grading Status: Letter grade.

NDSS 520. Advanced Physiological Monitoring and Data Acquisition. 3 Credits.

Students will learn advanced clinical procedures performed in clinical neurophysiology laboratories and operating rooms. Topics include evoked potentials, nerve conduction studies, autonomic testing, and intraoperative neurophysiologic monitoring. Students participate in laboratory practice sessions. NDSS majors only.

Rules & Requirements

Grading Status: Letter grade.

NDSS 530. Leadership in Healthcare Organizations. 3 Credits.

Admittance into NDSS program required. This course focuses on the theories and practices of leadership in health care. Global, social, legal, political, economic, and ethical issues are explored.

Rules & Requirements

Requisites: Prerequisite, NDSS 510 with a grade of C or higher.

Grading Status: Letter grade.

NDSS 593. Neurodiagnostics and Sleep Science Internship. 3 Credits.

Sleep and Clinical neurophysiology laboratory educational and management internship with mentoring component. Direct working experience in one or more of the following setting: educational facility; clinical facility or hospital; NDSS related company or business; other as deemed appropriate by the instructor. The student and internship supervisor negotiate a learning contract outlining the internship schedule and specific tasks to be learned and completed. Majors only.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Requisites: Pre- or corequisites, NDSS 500 and 510.

Grading Status: Letter grade.

NDSS 697. Neurodiagnostics and Sleep Science Capstone. 3 Credits.

Students complete a research project and presentation culminating from the undergraduate course of study. Project topics provide students the opportunity to summarize, evaluate, and integrate knowledge gained throughout the undergraduate major. Teaching methods include direct student exposure and significant time spent in a healthcare/clinical/educational environment specific to practice interests. The capstone project is in the form of research, or other scholarly activity that articulates the design, organization, statistics and data analysis used. Majors only.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Requisites: Pre- or corequisites, NDSS 440 and 493.

Grading Status: Letter grade.

NDSS 698. Neurodiagnostics and Sleep Science Capstone II. 3 Credits.

This course is a continuation of NDSS 697. Students complete a research project and presentation culminating from the undergraduate course of study. Project topics provide students the opportunity to summarize, evaluate, and integrate knowledge gained throughout the undergraduate major. Teaching methods include direct student exposure and significant time spent in a healthcare, clinical, or educational environment that is specific to practice interests. NDSS majors only.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Requisites: Pre- or corequisite, NDSS 697.

Grading Status: Letter grade.

RADI-Radiologic Science**RADI 432. Concepts and Perspectives in Radiologic Science. 1 Credits.**

This overview of radiologic science encompasses patient care, imaging modalities for diagnosis and treatment, radiation protection, health care trends, and information management systems. Pass/Fail course.

Rules & Requirements

Grading Status: Pass/Fail.

RADI 440. Gross Anatomy for Health Sciences. 3 Credits.

This course includes lecture and lab sessions to strengthen knowledge of human anatomy and to guide the application of this material for medical imaging. Students will participate in laboratory activities to better understand the spatial relationships between anatomic regions and specific structures. The emphasis of the course is on thoracic, abdominal, pelvic, and musculoskeletal anatomy. Course previously offered as AHSC 440. Radiologic Science majors only.

Rules & Requirements

Requisites: Prerequisites, BIOL 252 and 252L.

Grading Status: Letter grade.

RADI 442. Introduction to Radiologic Science. 3 Credits.

Majors only. Lectures, discussions, demonstrations, and laboratory exercises are combined to introduce topics including patient assessment, image characteristics, radiation protection, positioning skills, medical terminology, and the role of imaging sciences in health care.

Rules & Requirements

Grading Status: Letter grade.

RADI 461. Radiography I. 4 Credits.

Prepares students for standard radiography of upper extremities, lower extremities, axial skeleton, bony thorax, chest, abdomen, and the basic skull, considering pathologies and gross, radiographic, and cross-sectional anatomy. Three lecture hours and two laboratory hours.

Rules & Requirements

Requisites: Prerequisites, HSCI 440 and RADI 442.

Grading Status: Letter grade.

RADI 462. Radiographic Imaging I. 4 Credits.

An overview of radio-graphic imaging methods examining the imaging process as a sequence of events from X-ray production through hard copy processing. The imaging equipment is discussed in terms of function, influence on the image, the impact of alteration on image characteristics, and compensation techniques for changes in the sequence. Three lecture hours and two laboratory hours.

Rules & Requirements

Requisites: Prerequisites, HSCI 440 and RADI 442.

Grading Status: Letter grade.

 **RADI 463. Clinical Education I. 4 Credits.**

A clinical course focusing on the application and evaluation of radiography in the hospital setting. With supervision, the student develops clinical skills through observation and participation in radiographic procedures. Twenty practicum hours.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Requisites: Prerequisites, HSCI 440 and RADI 442.

Grading Status: Letter grade.

RADI 465. FOUNDATIONS IN RAD THER. 4 Credits.**Rules & Requirements**

Grading Status: Letter grade.

RADI 466. Abdominal Sonography. 4 Credits.

Diagnostic Medical Sonography track. The course includes intra-abdominal organs, abdominal vessels, peritoneal spaces, and retroperitoneal structures and introduces normal/abnormal sonographic findings. Integration of findings with clinical history, exam, and laboratory findings are included along with skills with scanning protocols, technical factors, and image quality developed in the lab. Majors only.

Rules & Requirements

Requisites: Prerequisites, HSCI 440 and RADI 442.

Grading Status: Letter grade.

RADI 467. Ultrasound Principles and Instrumentation. 4 Credits.

Diagnostic Medical Sonography Track. The course provides comprehensive instruction on the principles of ultrasound, including wave characteristics and propagation, acoustic variables, transducers, pulsed waves, real time imaging, and image display and image archiving. More topics include Doppler physics, equipment instrumentation and operation, quality assurance, and biological effects of ultrasound. Majors only.

Rules & Requirements

Requisites: Prerequisites, RADI 440 and RADI 442.

Grading Status: Letter grade.

RADI 471. Radiography II. 3 Credits.

The course content prepares students for standard radiography of cranial bones, facial bones, and special cranial projections. Contrast studies include gastrointestinal, urinary, biliary, cardiovascular, and other special procedures. The course includes pathologies, and gross, radiographic, and cross-sectional anatomy. Two lecture hours and two laboratory hours.

Rules & Requirements

Requisites: Prerequisite, RADI 461.

Grading Status: Letter grade.

RADI 472. Radiographic Imaging II. 4 Credits.

A detailed study of specific elements of the radiographic process, with an emphasis on the interrelationships of the radiographic parameters, refinement of image analysis and problem-solving skills, and quality control testing for evaluating the performance of the radiographic equipment and accessories. Three lecture hours and two laboratory hours.

Rules & Requirements

Requisites: Prerequisite, RADI 462.

Grading Status: Letter grade.

RADI 473. Clinical Education II. 4 Credits.

A continuation of RADI 463 with emphasis on the application and evaluation of more complex radiographic studies. Twenty practicum hours.

Rules & Requirements

Requisites: Prerequisite, RADI 463.

Grading Status: Letter grade.

RADI 474. Obstetrics and Gynecology Sonography. 4 Credits.

Normal and abnormal anatomy/physiology/sonographic features of the nongravid and gravid female pelvis. Normal and abnormal fetal growth and anatomy, fetal well-being, and sonographic measurements associated with the second and third trimesters of pregnancy are included in the content. Students will engage in correlations of sonographic findings with patient clinical history, clinical exam, and laboratory findings. Lab skills covered: scanning protocols, technical factors, and image quality. Majors only.

Rules & Requirements

Requisites: Prerequisites, RADI 466 and 467.

Grading Status: Letter grade.

RADI 478. Sonographic Imaging I. 4 Credits.

This course presents topics of advanced sonographic imaging techniques including advanced abdomen and obstetric concepts, superficial structures, pediatrics, introduction to vascular, and interventional procedures. This course presents the normal and abnormal sonographic findings, along with the relationship of these findings to patient clinical history, clinical exam, and laboratory findings. Skills related to scanning protocols, technical factors, and image quality are developed in the lab. Majors only.

Rules & Requirements

Requisites: Prerequisites, RADI 466 and 467.

Grading Status: Letter grade.

RADI 479. Advanced Imaging in Sonography II. 4 Credits.

This course continues topics of advanced sonographic imaging techniques and presents new technologies, superficial structures, pediatrics, advanced obstetrics, and transplants. This course also presents the normal and abnormal sonographic findings of these structures along with relationships of these findings to patient clinical history, clinical exam, and laboratory findings. Skills related to protocols, technical factors, and image quality are developed in the lab. Majors only.

Rules & Requirements

Requisites: Prerequisites, RADI 466, 467, 474, and 478.

Grading Status: Letter grade.

RADI 574. Clinical Education III. 3 Credits.

Under general supervision, the student will function at an increased level of responsibility in general diagnostic radiography in a variety of clinical settings outside of the university setting.

Rules & Requirements

Requisites: Prerequisite, RADI 473.

Grading Status: Letter grade.

RADI 575. Clinical Education IV. 5 Credits.

Under general supervision, the student will function at an increased level of responsibility in radiography in clinical settings outside of the university setting. The course includes a comprehensive review examination and case studies.

Rules & Requirements

Requisites: Prerequisite, RADI 574.

Grading Status: Letter grade.

RADI 583. Clinical Education V. 4 Credits.

A clinical course utilizing contract learning to provide students an opportunity to gain additional competency in specialized areas of radiology. Twenty-four education and independent study hours.

Rules & Requirements

Requisites: Prerequisites, RADI 574 and 575.

Grading Status: Letter grade.

RADI 584. Clinical Education VI. 6 Credits.

This course is a continuation of RADI 583 using learning contracts to allow students to explore and gain additional expertise in various areas of radiology. Twenty-four clinical hours.

Rules & Requirements

Requisites: Prerequisite, RADI 583.

Grading Status: Letter grade.

RADI 585. Radiologic Health Physics. 3 Credits.

A course in the physics of diagnostic radiology, including radiation effects on tissue, radiation detection and measurement, protection methods and techniques, and environmental radiation issues. Three lecture hours.

Rules & Requirements

Requisites: Prerequisite, RADI 472; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

RADI 586. Research in Radiologic Science I. 1 Credits.

Majors only. The major part of the course is devoted to an investigative project on a discipline-related topic of student interest. Select issues affecting professional affairs of radiologic technologists are also included.

Rules & Requirements

Grading Status: Letter grade.

RADI 591. Practicum in Radiologic Science. 4 Credits.

This course offers an elective clinical experience in an area of student interest.

Rules & Requirements

Requisites: Prerequisite, RADI 584.

Grading Status: Letter grade.

RADI 594. Professional Communications and Interactions. 3 Credits.

Majors only. This course provides for a brief cognitive and skills approach to communication skills, the teaching/learning process, and methods and materials of instruction and delivery. Three lecture/discussion hours per week.

Rules & Requirements

Grading Status: Letter grade.

RADI 597. Leadership in Radiologic Science. 3 Credits.

Majors only. In this course students will analyze the theoretical literature on leadership and apply that knowledge in the analysis of various radiology environment situations. Three lecture hours.

Rules & Requirements

Grading Status: Letter grade.

RADI 660. Pathophysiology. 3 Credits.

Majors only. This course will enhance and integrate the student's knowledge of anatomy, physiology, and pathology related to all human body systems. Emphasis will be placed on understanding how structure, function, and disease are interrelated. Three lecture hours per week.

Rules & Requirements

Grading Status: Letter grade.

RADI 662. Instrument and Imaging Methods. 4 Credits.**Rules & Requirements**

Grading Status: Letter grade.

RADI 670. Integrated Principles of Imaging Analysis. 4 Credits.

This course involves students in situational problem solving and radiographic analysis. Integration of concepts and knowledge of anatomy, pathology, procedures, patient care, and imaging principles are emphasized. Four lecture hours.

Rules & Requirements

Requisites: Prerequisite, RADI 660.

Grading Status: Letter grade.

RADI 672. Radiographic Imaging II. 4 Credits.

A detailed study of specific elements of the radiographic process, with an emphasis on the interrelationships of the radiographic parameters, refinement of image analysis and problem-solving skills, and quality. Three lectures hours and two laboratory hours.

Rules & Requirements

Grading Status: Letter grade.

RADI 681. Trends in Medical Imaging Practices Issues in the Radiology Practice Environment. 3 Credits.

Majors only. The course covers issues related to health care systems, medicolegal ethics, and practice and quality assurance. Three lecture hours per week.

Rules & Requirements

Grading Status: Letter grade.

RADI 686. Research in Radiologic Science II. 2 Credits.

Majors only. Students complete a research project involving a major clinical or policy issue in radiologic science. This course is an expansion of the fall semester research culminating in both a paper and presentation.

Rules & Requirements

Grading Status: Letter grade.

RADI 694. Clinical Decisions in Radiology. 3 Credits.

Majors only. This course involves the pharmacology of common radiology medications and advanced patient assessment techniques. With the additional knowledge and skills, students can make informed decisions regarding patient care. Three lecture hours.

Rules & Requirements

Grading Status: Letter grade.

SPHS–Speech and Hearing Sciences**SPHS 196. Undergraduate Research Experience. 1-4 Credits.**

Supervised undergraduate directed research on communication science topics of mutual interest to the student and a faculty member.

Rules & Requirements

Repeat Rules: May be repeated for credit. 12 total credits. 12 total completions.

Grading Status: Letter grade.

SPHS 400. Autism in Our Communities: An Interdisciplinary Perspective. 3 Credits.

Students have 30 hours of service-learning with individuals with autism at community partner sites. Class discussions introduce students to diverse topics related to autism spectrum disorder. This is an APPLES course.

Rules & Requirements

IDEAs in Action Gen Ed: HI-SERVICE.

Making Connections Gen Ed: EE- Service Learning.

Grading Status: Letter grade.

Same as: EDUC 400.

SPHS 401. American Sign Language I. 3 Credits.

This American Sign Language (ASL) course includes topics on linguistic features, cultural protocols, and core vocabulary for students to function in basic ASL conversations on a variety of topics. All instructions and discussions in the classroom will be conducted in ASL. Students minoring in Speech and Hearing Sciences have priority in registering.

Rules & Requirements

Grading Status: Letter grade.

SPHS 402. American Sign Language II. 3 Credits.

Students in the Speech and Hearing Minor have priority in registering. The American Sign Language (ASL) course focuses on developing conversational skills on a variety of topics. All instructions and discussions in the classroom will be conducted in ASL.

Rules & Requirements

Requisites: Prerequisite, SPHS 401.

Grading Status: Letter grade.

SPHS 510. Introduction to Communication Disorders. 3 Credits.

Introductory overview of communication disorders, including the nature of communication across the lifespan; cultural and linguistic issues that impact communication; communication modalities; speech disorders; language disorders; hearing disorders; swallowing disorders.

Rules & Requirements

Grading Status: Letter grade.

SPHS 520. Human Communication Across the Lifespan. 3 Credits.

Development of human communication processes across the lifespan, including linguistic and cultural bases of communication.

Rules & Requirements

Grading Status: Letter grade.

SPHS 521. Human Communication Across the Lifespan (EE). 4 Credits.

Development of human communication processes across the lifespan, including linguistic and cultural bases of communication. Includes a minimum of 30 service hours related to human communication. 12 spaces reserved for Juniors in Speech and Hearing Sciences Minor.

Rules & Requirements

Making Connections Gen Ed: EE- Service Learning.

Grading Status: Letter grade.

SPHS 530. Introduction to Phonetics. 3 Credits.

A detailed study of the International Phonetic Alphabet with emphasis on the sound system of American English. Application of phonetics to problems of pronunciation and articulation. Includes broad and narrow phonetic transcription.

Rules & Requirements

Grading Status: Letter grade.

SPHS 540. Speech Science. 3 Credits.

Introduction to the science of speech, including production, acoustics, and perception.

Rules & Requirements

Grading Status: Letter grade.

SPHS 570. Anatomy and Physiology of the Speech, Language, and Hearing Mechanisms. 3 Credits.

Anatomy and physiology of the speech producing and aural mechanisms.

Rules & Requirements

Grading Status: Letter grade.

SPHS 582. Introductory Audiology I. 3 Credits.

Theory and practice of the measurement of hearing, causative factors in hearing loss, evaluation of audiometric results, and demonstration of clinical procedures.

Rules & Requirements

Grading Status: Letter grade.

SPHS 583. Introduction to Clinical Practice in Speech-Language Pathology and Audiology. 3 Credits.

Introduction to diagnosis and treatment of communication disorders, including articulation, fluency, voice, and language, and those resulting from autism and hearing loss.

Rules & Requirements

Grading Status: Letter grade.

Chair

Stephen R. Hooper

Clinical Laboratory Science Major, B.S.

Introduction

Clinical laboratory science (CLS), also called medical laboratory science, is the health profession that provides laboratory information and services needed for the diagnosis and treatment of disease. The field of clinical laboratory science combines many sciences, including microbiology, hematology, chemistry, molecular biology, and immunology. Clinical laboratory scientists perform a variety of laboratory tests, ensure the accuracy of the test results, explain the significance of laboratory test results, and evaluate new methods for laboratory tests. Some of the tests performed in the clinical laboratory are relatively simple. Others, such as DNA analysis and flow cell cytometry, are complex and require extensive education.

Examples of laboratory tests performed by clinical laboratory scientists include

- Detection of the abnormal cells that cause leukemia
- Analysis of cardiac enzyme activity released during a heart attack
- Identification of the type of bacteria causing an infection
- Analysis of the coagulation factors in cases of abnormal bleeding
- Detection of blood group antibodies that cause transfusion reactions
- Analysis of genetic markers for cystic fibrosis
- Typing patients for histocompatibility matches prior to transplantation

Admission to the Program

A maximum of 20 students are chosen for admission each year. Students are selected on the basis of science and mathematics prerequisite courses, grades, a written application, interviews, and letters of recommendation. Successful completion of the prerequisite courses listed under the major does not guarantee admission to the program. Because enrollment is limited, students are encouraged to begin the application process early in the fall preceding the year of enrollment. The first deadline for completed applications is the second Tuesday in January. Completed applications received after that deadline will be considered for admission if positions are available in the program.

Students are subject to the requirements in place when they are admitted to this program; consequently, the requirements described in this catalog particularly apply to students admitted during the 2023–2024 academic year.

Advising

First-year and sophomore students interested in the clinical laboratory science (CLS) major have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The director of the Division of Clinical Laboratory Science is available to meet with current and prospective majors by appointment (see contact information above). The Division of Clinical Laboratory Science provides academic advising for students who are enrolled in the program. Further information on the curriculum may be obtained from the division's website (<https://www.med.unc.edu/ahs/clinical/>).

Facilities

The laboratory facility for first-year clinical laboratory science courses includes individualized work areas with reagents, supplies, and laboratory instruments for students. In senior courses, students develop their skills in state-of-the-art clinical laboratory facilities.

Graduate School and Career Opportunities

Clinical laboratory science provides a basis for a broad range of future endeavors. Graduates with a B.S. degree in clinical laboratory science can elect to pursue further study in medicine, dentistry, veterinary medicine, business or management, hospital administration, computer science, education, clinical chemistry, clinical microbiology, immunology, or another laboratory science area. The Division of Clinical Laboratory Science also offers a master's degree in clinical laboratory science.

Clinical laboratory scientists are employed in hospital laboratories, commercial laboratories, physicians' office laboratories, research institutes, clinical trials, and forensic laboratories. Clinical laboratory scientists also may be employed as technical or sales representatives for corporations. Graduates of the program are very successful on national certification exams and enjoy high employment rates. See the alumni section of the website (<https://www.med.unc.edu/ahs/clinical/>) for examples of careers in clinical laboratory science.

Student Learning Outcomes

Upon completion of the Clinical Laboratory Science program, students should be able to:

- Perform and evaluate pre-analytical, analytical, and post-analytical procedures to ensure the quality of laboratory results
- Perform laboratory tests, analyze and verify results, and resolve common problems in all the major areas of the clinical laboratory
- Explain the principles and methods used in laboratory tests in all major areas of the clinical laboratory
- Explain the clinical significance of laboratory procedures in diagnosis and treatment of disease and maintenance of health
- Correlate information from different laboratory departments to verify results or resolve problems
- Evaluate patient results and suggest or select appropriate additional testing
- Determine the priority of laboratory requests and arrange the workload for optimal patient care and efficiency
- Obtain acceptable blood samples for laboratory tests using standard phlebotomy procedures
- Use quality assurance principles and practices to ensure the accuracy and reliability of laboratory information
- Perform preventive and corrective maintenance of equipment and instruments
- Use the principles of method evaluation to select new techniques and instruments
- Explain and apply the major principles and practices of laboratory administration, supervision, and budgeting
- Explain and apply principles of effective test utilization
- Comply with all standard safety regulations and monitor changes in safety regulations
- Use educational methods to present information and develop instructional materials

- Use computer systems to produce documents, research information, communicate with others, and enter and retrieve laboratory information
- Apply principles of management to the acquisition and evaluation of laboratory information systems
- Communicate effectively with laboratory personnel, other health care professionals, patients, and the public
- Demonstrate professional conduct and interpersonal skills with patients, laboratory personnel, other health care professionals, and the public
- Demonstrate ethical standards in all matters related to medical information and patient care

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

After admission (<https://catalog.unc.edu/undergraduate/departments/division-radiologic-science/>) to the CLS program, students take courses in all the major areas of clinical laboratory science including clinical chemistry, hematology, hemostasis, microbiology, transfusion medicine, and transplantation medicine. Senior students rotate through the clinical laboratories at UNC Hospitals and other laboratories in the state. They also take advanced courses in the clinical laboratory sciences. Honors contracts are available for students in the Honors program.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The schedule of academic work for clinical laboratory science majors includes the following General Education requirements. Students must complete all First-Year Foundation requirements, all Reflection & Integration requirements, and complete at least six Focus Capacity requirements as part of the IDEAs in Action General Education curriculum. In addition, the following prerequisite courses must be completed before entering the Clinical Laboratory Science program:

Code	Title	Hours
Additional Requirements		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
A second biology course (BIOL 202 or BIOL 103 is highly recommended)		3-4
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	 General Descriptive Chemistry II and  Quantitative Chemistry Laboratory II ^{H, F}	4
CHEM 241	Modern Analytical Methods for Separation and Characterization ^H	3
CHEM 241L	Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds	1
One of the following:		3-4
MATH 130	 Precalculus Mathematics ^F	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	
STOR 151	 Introduction to Data Analysis	
Total Hours		22-24

Code	Title	Hours
Core Requirements		
CLSC 410	Laboratory Mathematics	1
CLSC 410L	Basic and Molecular Laboratory Methods	2
CLSC 420	Urinalysis and Body Fluids	1
CLSC 420L	Urinalysis Laboratory	1
CLSC 430	Biochemistry	3
CLSC 440	Hematology I	2
CLSC 440L	Hematology I Laboratory	1
CLSC 442	Hematology II	3
CLSC 442L	Hematology II Laboratory	1
CLSC 450	Immunology	3
CLSC 460	Special Pathogens	2
CLSC 460L	Parasitology and Mycology Laboratory	1
CLSC 462	Clinical Bacteriology	3
CLSC 462L	Clinical Bacteriology Laboratory	2
CLSC 470	Clinical Chemistry	3
CLSC 470L	Clinical Chemistry Laboratory	2
CLSC 480	Immunohematology	3
CLSC 480L	Immunohematology Laboratory	2
CLSC 540L	Clinical Hematology Laboratory	4
CLSC 542L	Clinical Hemostasis Laboratory	2
CLSC 550L	Clinical Immunology Laboratory	1
CLSC 560L	Clinical Microbiology Laboratory	4
CLSC 570L	Clinical Chemistry Laboratory Rotation	4
CLSC 580L	 Clinical Immunohematology Laboratory	4
CLSC 582L	Clinical Transplantation Medicine Laboratory	1
CLSC 620	Clinical Laboratory Management	2
CLSC 630	 Research Methods in Clinical Laboratory Science	2
CLSC 670	 Clinical Laboratory Science Educational Methods	2
Total Hours		62

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first and sophomore years, clinical laboratory science majors satisfy General Education requirements and take a basic science curriculum comparable to that of other science students. In the sophomore year, students apply for admission (<https://catalog.unc.edu/undergraduate/departments/division-clinical-laboratory-science/>) into the final two years of the program.

The junior year includes courses that cover the principal areas of clinical laboratory science. Students also learn and practice laboratory techniques in a student laboratory. Senior students rotate through the clinical laboratories at UNC Hospitals and other laboratories in the state. They also take advanced courses in the clinical laboratory sciences.

The suggested course sequence for the required preclinical laboratory science courses at UNC–Chapel Hill is listed below. Transfer students receiving placement credit may have a slightly different sequence.

First Year	Hours
Fall Semester	
IDST 101 College Thriving	1
CHEM 101 & 101L General Descriptive Chemistry I and Quantitative Chemistry Laboratory I (C- or better required) ^{1, H, F}	4
ENGL 105 English Composition and Rhetoric	3
Global language level 1	3
One of the following:	3
MATH 130 Precalculus Mathematics ^{1, F}	
MATH 231 Calculus of Functions of One Variable I ^{1, H, F}	
STOR 151 Introduction to Data Analysis	
Lifetime fitness	1
Hours	15
Spring Semester	
BIOL 101 & 101L Principles of Biology and Introductory Biology Laboratory ^{1, H, F}	4
CHEM 102 & 102L General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{1, H, F}	4
Global language level 2	3
FY-TRIPLE Triple-I	4
Hours	15

Sophomore Year

Fall Semester

CHEM 241 & 241L	Modern Analytical Methods for Separation and Characterization and Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds ^H	4
-----------------	--	---

CHEM 261 is not required but is recommended for students who have time in their schedules for additional science courses.

Global language level 3	3
Gen Ed and elective courses	9

Hours **16**

Spring Semester

BIOL —	Biology course (BIOL 202 or BIOL 103 strongly recommended)	4
--------	--	---

BIOL 252 is not required but is recommended for students who have time in their schedules for additional science courses.

Gen Ed and elective courses	14
-----------------------------	----

Hours **18**

Junior Year

Fall Semester

CLSC 410 & 410L	Laboratory Mathematics and Basic and Molecular Laboratory Methods	3
CLSC 420 & 420L	Urinalysis and Body Fluids and Urinalysis Laboratory	2
CLSC 430	Biochemistry	3
CLSC 440 & 440L	Hematology I and Hematology I Laboratory	3
CLSC 450	Immunology	3

Hours **14**

Spring Semester

CLSC 442 & 442L	Hematology II and Hematology II Laboratory	4
CLSC 462 & 462L	Clinical Bacteriology and Clinical Bacteriology Laboratory	5
CLSC 470 & 470L	Clinical Chemistry and Clinical Chemistry Laboratory	5
CLSC 480 & 480L	Immunohematology and Immunohematology Laboratory	5

Hours **19**

Senior Year

Clinical Education: Senior clinical education takes place in UNC Hospitals' laboratories and other clinical laboratories in North Carolina. These laboratories are highly regarded in the field of laboratory medicine, and students have the opportunity to learn the most recent techniques in clinical laboratory science.

Courses taken during fall or spring semester:

CLSC 460	Special Pathogens	2
CLSC 460L	Parasitology and Mycology Laboratory	1
CLSC 540L	Clinical Hematology Laboratory	4
CLSC 542L	Clinical Hemostasis Laboratory	2
CLSC 550L	Clinical Immunology Laboratory	1
CLSC 560L	Clinical Microbiology Laboratory	4
CLSC 570L	Clinical Chemistry Laboratory Rotation	4
CLSC 580L	Clinical Immunohematology Laboratory	4

CLSC 582L	Clinical Transplantation Medicine Laboratory	1
CLSC 620	Clinical Laboratory Management	2
CLSC 630	 Research Methods in Clinical Laboratory Science	2
CLSC 670	 Clinical Laboratory Science Educational Methods	2
Hours		29
Total Hours		126

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ FY-Launch options available on designated sections.

Special Opportunities in Clinical Laboratory Science

Departmental Involvement

Student ambassadors in the Department of Health Sciences organize students' professional activities and social events. The CLS Service Society provides opportunities for students to work together to promote the CLS profession and provide services to the community.

Experiential Education

Senior clinical courses provide a range of clinical laboratory experience in chemistry, hematology, hemostasis, microbiology, transfusion medicine, immunology, histocompatibility, and molecular testing.

Certification

Upon successful completion of the clinical laboratory science curriculum, graduates receive the B.S. degree with a major in clinical laboratory science. A certificate also is awarded by the Division of Clinical Laboratory Science and the Department of Health Sciences. Graduates of the program are eligible to take the national certification examination in medical laboratory science.

Accreditation

The Clinical Laboratory Science Program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences, 5600 N. River Road, Suite 720, Rosemont, IL, 60018-5119, (773) 714-8880, www.naacls.org (<http://www.naacls.org>).

Undergraduate Awards

Louise Ward Scholarships: Three scholarships are awarded to clinical laboratory science students each year based on academic excellence, potential for success as a clinical laboratory science student and practitioner, and financial need.

Additional scholarships available to clinical laboratory science students include

- The Lanning-Taylor Scholarship, awarded to a senior clinical laboratory science student.
- The Raleigh Pathology Laboratory Associates Scholarship, awarded to a junior or a senior student.
- The WakeMed Health and Hospital Annual CLS Scholarship, awarded to a junior or senior student.
- The Allene W. Alphin and Jesse C. Alphin Scholarships, awarded to two clinical laboratory science students.
- The Jeri Lasitter McConkey Scholarships, awarded to two clinical laboratory science students.

Outstanding CLS Student: Each year a clinical laboratory science senior is named as the outstanding student based on nominations from clinical and academic faculty members.

Undergraduate Research

Senior students may apply for an elective course, CLSC 695 Undergraduate Research in CLS. In this course, students work on a research project independently with guidance from CLS faculty and clinical laboratory staff members. Student research projects have resulted in presentations at professional meetings and publications.

Neurodiagnostics and Sleep Science Major, B.S.

The Neurodiagnostics and Sleep Science (NDSS) major prepares individuals for professional practice in the health specialties of neurodiagnostics and sleep science. The NDSS major also allows current practitioners to continue their professional development, while learning new skills in an increasingly important and rapidly expanding segment of health science.

The emphasis of the curriculum is to enhance and advance the student's professional career in neurodiagnostics and sleep sciences with additional education skills in critical thinking and creative problem solving needed for key leadership, educational, and management positions. The curriculum offers specific professional coursework in advanced methods and monitoring, program administration, and clinical outcomes evaluation. The program culminates in a capstone experience that is developed around the students' specific professional interest area.

This degree program is offered as a limited residency program that is a combination of both distance education or on-campus through the UNC Chapel Hill Department of Health Sciences.

Neurodiagnostic and sleep science procedures record and study the electrical activity of the brain, spinal cord, and peripheral nerves, the function of the cardiovascular system, and the function of the respiratory system. A variety of diagnostic tests are performed including recording sleep studies (polysomnograms), recording brain wave activity (electroencephalography), recording responses from peripheral nerve stimulation (nerve conduction velocities), recording stimulus evoked responses from the brain and spinal cord (Evoked Potentials), and monitoring brain and spinal cord activity during surgery (intraoperative monitoring). Therapeutic procedures are also performed including positive airway pressure and supplemental oxygen titration for people with certain sleep disorders such as apnea.

Accreditation

The program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Committee on Accreditation for Polysomnographic Technologist Education (CoAPSG).

Admission to the Program

Students must complete all First-Year Foundation requirements, all Reflection & Integration requirements, and complete at least six Focus Capacity requirements. Please visit IDEAs in Action General Education curriculum (<https://catalog.unc.edu/undergraduate/ideas-in-action/>) for specific information regarding the general education course requirements. Additionally, the following pre-admission math/science courses are required:

Code	Title	Hours
Prerequisite Course List		
MATH 130 or MATH 231	Precalculus Mathematics ^F Calculus of Functions of One Variable I	3-4
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{H, F}	4
BIOL 252 & 252L	Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^H	4
CHEM 101 & 101L or BIOC 107	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F} Introduction to Biochemistry	4
PHYS 114 or PHYS 118	General Physics I: For Students of the Life Sciences ^F Introductory Calculus-based Mechanics and Relativity	4
PHYS 115 or PHYS 119	General Physics II: For Students of the Life Sciences ^F Introductory Calculus-based Electromagnetism and Quanta	4
PSYC 101	General Psychology ^F	3

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Transfer Credit Equivalency

The UNC Transfer Credit list provides a list of courses that students have previously transferred to UNC Chapel Hill from other community college or four-year institutes.

UNC Chapel Hill Transfer Credit List (https://tes.collegesource.com/publicview/TES_publicview01.aspx?rid=ff81c5a2-3ec7-4b31-a7fb-04e2fd5f0345&aid=ca8ebc64-42ca-4a2d-b16b-f8f68bbb6767)

Application Process

Application may be submitted prior to completing all course requirements but decisions will be given on a conditional basis if that is the case. All general education requirements need to be completed prior to being admitted.

Applicants will be reviewed using the following criteria:

- Clarity and quality of personal statement
- Academic progress and promise
- Supportive references
- Knowledge of the field

If you need to apply for an F-1 Visa, please contact us before you apply to our program.

Application Instructions

Current UNC Chapel Hill Students (Internal):

Click Apply (<https://connectcarolina.unc.edu/>) and log in to the ConnectCarolina Student Center. In the "other academic" dropdown, select "Apply for Change of Major." Once you complete and submit this request, you will receive an email with instructions for completing your application.

Transfer Students:

Click Apply (<https://connectcarolina.unc.edu/>):

- Go to the Common Application to create an account and start your application.
- Submit the application, the common application supplement, and the application fee by the deadline.
- Upload the essay requested in your common application supplement.
- Submit the official transcript from all secondary and post-secondary schools to: University of North Carolina at Chapel Hill Office of Undergraduate Admissions Jackson Hall, Campus Box 2200 Chapel Hill, NC 27599-2200
- Arrange to have two letters of recommendations written on your behalf sent to uncsubmit@admissions.unc.edu. Recommendations should be completed by college professors or teaching assistants who are familiar with your academic abilities, work supervisors, or volunteer project supervisors.

You must apply to UNC and to the NDSS program through Undergraduate Admissions. When you indicate that you are applying to the NDSS

program, you should also get the NDSS-specific questions on your application.

For more information on application deadlines, please go to our website. (<https://www.med.unc.edu/healthsciences/ndss/the-program/>)

Student Learning Outcomes

Upon completion of the Neurodiagnostics and Sleep Science program, students should be able to:

- Perform as competent entry-level neurodiagnostic and polysomnographic technologists in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
- Investigate healthcare issues individually and within teams that uniquely involve the overlap of electrophysiology, laboratory science, management and education.
- Demonstrate leadership skills necessary to oversee electrophysiological and sleep science facilities (laboratory, hospitals, industry, colleges).
- Teach courses related to neurodiagnostic studies and sleep science.
- Exemplify innovation and sound scientific theory for the use of verified methodology and principles of neurodiagnostics and sleep science practice.
- Explain advanced, clinical diagnostic measurements, disease prevention techniques, and theories supporting current neurodiagnostic and sleep science practices.
- Demonstrate effective written and oral communication skills.
- Establish a practical connection between the undergraduate major and the professional world.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The schedule of academic work includes the following General Education requirements that are listed under “Additional Requirements”. Students must complete all First-Year Foundation requirements, all Reflection & Integration requirements, and complete at least six Focus Capacity requirements as part of the IDEAs in Action General Education curriculum. In addition, the following specific requirements apply to students in the General College found under “Additional Requirements”.

Code	Title	Hours
Additional Requirements		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
BIOL 252 & 252L	 Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^H	4
CHEM 101 & 101L or BIOC 107	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F} Introduction to Biochemistry	4
MATH 130 or MATH 231	 Precalculus Mathematics ^F  Calculus of Functions of One Variable I	3
PHYS 114 or PHYS 118	 General Physics I: For Students of the Life Sciences ^F  Introductory Calculus-based Mechanics and Relativity	4
PHYS 115 or PHYS 119	 General Physics II: For Students of the Life Sciences ^F  Introductory Calculus-based Electromagnetism and Quanta	4
PSYC 101	 General Psychology ^F	3
Core Requirements		
NDSS 393	Clinical rotation in Neurophysiology and Polysomnography ¹	2
NDSS 401	Basic Neurophysiology and Sleep for Clinical Neurophysiology ¹	3
NDSS 410	Intro to Basic Sleep and Neurophysiology Instrumentation and Technology ¹	4
NDSS 415L	Polysomnographic and Neurophysiologic Technology/Lab ¹	7
NDSS 420	Pathophysiology of Sleep, Neurological, and Related Disorders	3
NDSS 430	Neurological and Sleep Diagnostic and Therapeutic Methods, and Monitoring	3
NDSS 440	Evidence Based Practice in Neurodiagnostics and Sleep Science	3
NDSS 450	Advanced Sleep and Neurodiagnostic Clinical Procedures	3
NDSS 460	Informational Technology and Analytics in Neurodiagnostics and Sleep Science	3
NDSS 493	Neurodiagnostics and Sleep Science Practicum	3
NDSS 500	Principals and Practice of Healthcare Education	3
NDSS 510	Program Administration: Neurodiagnostics and Sleep Science Department Management	3
NDSS 520	Advanced Physiological Monitoring and Data Acquisition	3
NDSS 530	Leadership in Healthcare Organizations	3
NDSS 593	 Neurodiagnostics and Sleep Science Internship	3
NDSS 697	 Neurodiagnostics and Sleep Science Capstone	3

NDSS 698	 Neurodiagnostics and Sleep Science Capstone II	3
Total Hours		81

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ This course is open to all students. Non-degree or prospective students may have the option to take this course prior to applying and receive credit towards the NDSS major once they have applied and been admitted to the program.

Sample Plan

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan specific to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The suggested course sequence for the required pre NDSS courses at UNC–Chapel Hill can be found here (<https://www.med.unc.edu/healthsciences/ndss/the-program/curriculum-2/>). Transfer students receiving placement credit may have a slightly different sequence.

Scholarships and Grants

Students in the Neurodiagnostics and Sleep Sciences degree program are eligible for scholarships and grants that can be found here.

Stephen R. Hooper

Radiologic Science Major, B.S.

Introduction

The School of Medicine's radiologic science program is designed to prepare individuals for professional practice and associated responsibilities in the health specialty of medical imaging. Graduates provide patient assessment and care required for medical imaging procedures in addition to insuring that the highest quality imaging study is completed when the patient's radiation dose is a factor. Students may pursue diagnostic and interventional radiology or diagnostic medical sonography. In the senior year students may select other imaging modalities and practice areas for additional competence and training. These other areas may include sonography special areas, pediatrics, mammography, computed tomography, magnetic resonance imaging, vascular interventional radiology, and cardiac catheterization laboratory. The curriculum includes course discussions and projects on global health imaging issues and the potential for international experiences in medical imaging departments and programs abroad.

Admission to the Program

Following completion of the first two years' work in the University's General College, students may be admitted to the professional major offered by the Department of Health Sciences of the UNC School of Medicine. Students enrolled at other colleges and universities who are interested in transferring to the Chapel Hill campus following their sophomore year should contact the Office of Undergraduate Admissions and the Department of Health Sciences early in their college career to assure proper planning and transferability of courses. Students are encouraged to begin the application process early in the fall semester preceding the year of intended enrollment. The program begins in Summer Session II each year. Transfer applications should be received in the Office of Undergraduate Admissions by the designated University deadline.

Since enrollment in the major is limited, completion of the student's course of study in the General College does not guarantee a position in the professional class. Students should contact the Department of Health Sciences in the fall semester preceding anticipated enrollment to receive admissions information. Student selections are made on a competitive basis with consideration given to academic achievement, character, both written and oral communication skills, and demonstrated interest in medical imaging as a professional career.

Students are subject to the requirements in place when they are admitted to this program; consequently, the requirements described in this catalog particularly apply to students admitted during the 2024–2025 academic year.

Advising

First-year and sophomore students interested in the B.S. degree with a major in radiologic science have a primary academic advisor assigned in ConnectCarolina during the first two years of the degree program. Students are strongly encouraged to meet regularly with their advisor and review their progress toward the degree each semester. The director of Radiologic Science is available to meet with current and prospective majors by appointment (see contact information above). The department's faculty provides academic advising for students who are enrolled in the program. Further information on the curriculum may be

obtained from radiologic science website (<http://www.med.unc.edu/ahs/radisci/>).

Facilities

The program has a laboratory with digital imaging capabilities and sonography capabilities in the Burnett-Womack Building adjacent to the offices and classroom building. The laboratory includes radiography and fluoroscopic equipment with digital imaging plate readers and software and sonography equipment similar to the environment the students see during their clinical rotations.

Graduate School and Career Opportunities

The Division of Radiologic Science bachelor of science degree program provides a basis for further study. Additional clinical specializations are available in nuclear medicine, and radiation therapy. Graduates may elect graduate studies in health physics, business and education, management, public health, and other health professions. The division offers a master's in radiologic science degree program for those students seeking advanced clinical practice as a radiologist assistant.

The clinical practice of medical imaging (radiologic technology) may include one or more of the specialty areas listed here, depending on professional preference and the type, size, and mission of the health facility where the technologist is employed: general radiography (such as orthopedics or pediatrics), vascular imaging, cardiac catheterization, computed tomography, and magnetic resonance imaging or diagnostic medical sonography. Responsibilities and salaries vary according to the area and scope of practice.

Employment opportunities available in a variety of settings, in both rural and urban areas, include

1. more generalized practice in medium to small hospitals;
2. specialized clinical practice in a large hospital;
3. clinics and free-standing imaging centers, which may offer both special and general practice opportunities; or
4. clinical practice coupled with expanded responsibilities in quality control, service education, and supervision, particularly in a large hospital.

Program Goals

- Develop competent, effective, medical imaging professionals
- Support development of skills necessary to practice in diverse healthcare environments and to acquire prominent roles in radiologic science
- Program curriculum, teaching methods, and philosophy promote development of integrative, critical thinking, and communication skills to include written, oral, and electronic discourse
- Graduates successfully pursue scholarly activities such as contributions to the profession and post-baccalaureate education
- Encourage global awareness of cultural and health care perspectives

Student Learning Outcomes

Diagnostic and Interventional Radiology

Upon completion of the radiological sciences (B.S.) program, students should be able to complete the following goals and outcomes.

(Goal one) Obtain a level of clinical competence appropriate for an entry-level medical imaging professional.

Outcomes:

- Students will demonstrate accurate patient positioning techniques.
- Students will utilize radiographic exposure factors to optimize image quality and minimize patient dose.
- Students will practice radiation protection principles for patient and occupational safety.

(Goal two) Possess critical thinking skills to adapt to changing clinical environments and patient needs.

Outcomes:

- Students will adapt procedures based on patient needs and clinical situation limitations.
- Students will analyze images to assure diagnostic quality.

(Goal three) Exhibit professionalism through consistent, responsible, and ethical behavior.

Outcomes:

- Students will provide nondiscriminatory care for all patients.
- Students will demonstrate adherence to program policies and procedures.

(Goal four) Demonstrate effective communication skills.

Outcomes:

- Students will practice effective oral communication skills in the classroom and in the clinical setting.
- Students will demonstrate effective written communication skills.

Diagnostic Medical Sonography Program Learning Outcomes

Program Learning Outcomes Abdomen Concentration

Students progress through the abdomen curriculum and meet course learning objectives that culminate in the accomplishment of the program outcomes below:

1. Obtain a level of competence as an entry level general sonographer in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
2. Possess critical thinking skills to adapt to changing clinical environments and patient needs, demonstrating knowledge and understanding of abdominal and superficial anatomy, physiology, and pathology.
3. Exhibit professionalism through consistent, responsible, and ethical behavior.
4. Demonstrate knowledge of understanding of acoustic physics, Doppler ultrasound principles, and ultrasound instrumentation to create diagnostic ultrasound images of abdominal and superficial anatomy.
5. Demonstrate effective communication skills.

Program Learning Outcomes Obstetrical and Gynecological Concentration

Students progress through the obstetrical and gynecological curriculum and meet course learning objectives that culminate in the accomplishment of the program outcomes below:

1. Obtain a level of competence as an entry level obstetrical and gynecological sonographer in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
2. Possess critical thinking skills to adapt to changing clinical environments and patient needs, demonstrating knowledge, and understanding of obstetrical and gynecological anatomy, physiology, and pathology.
3. Exhibit professionalism through consistent, responsible, and ethical behavior.
4. Demonstrate knowledge of understanding of acoustic physics, Doppler ultrasound principles, and ultrasound instrumentation to create diagnostic ultrasound images of obstetrical and gynecological anatomy.
5. Demonstrate effective communication skills

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The schedule of academic work for radiologic science (medical imaging) majors includes the following General Education requirements. Students must complete all First-Year Foundation requirements, all Reflection & Integration requirements, and complete at least six Focus Capacity requirements as part of the IDEAs in Action General Education curriculum. In addition, the following specific requirements apply to students in the General College:

Code	Title	Hours
Quantitative reasoning requirement:		
MATH 130	Precalculus Mathematics ^F	3-4
or MATH 231	Calculus of Functions of One Variable I	
Six courses in the physical and life sciences		
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{H, F}	4
BIOL 252 & 252L	Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^H	4
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F}	4
or BIOC 107	Introduction to Biochemistry	

PHYS 114 & PHYS 115	General Physics I: For Students of the Life Sciences and General Physics II: For Students of the Life Sciences ^F	8
PSYC 101	General Psychology ^F	3

Total Hours **26-27**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

After admission (<https://catalog.unc.edu/undergraduate/departments/division-radiologic-science/>) to the program, the curriculum in radiologic science includes courses in gross anatomy, pathophysiology, radiography, imaging methods, research, practice issues, and clinical practice. The first year of the program provides the foundation and skills for clinical practice and patient care in diagnostic radiography. The second year of the program builds on this foundation and enhances skills for career and practice advancement through communications, physics, and research. During the second year, the student elects areas of clinical concentration, such as magnetic resonance imaging, computed tomography, advanced diagnostic imaging, cardiac catheterization, and vascular/interventional imaging.

Code	Title	Hours
Summer Session II (Junior Year)		
RADI 440	Gross Anatomy for Health Sciences	3
RADI 442	Introduction to Radiologic Science	3

Special Opportunities in Radiologic Science

Experiential Education

All of the clinical education courses provide students with the opportunity to gain competence and proficiency in all areas of medical imaging practice in a variety of clinical environments. Students may also participate in our global experiences in Switzerland and in Malawi.

Undergraduate Awards

Undergraduate students are considered for the Faculty Award for Excellence, the Award for Academic Excellence, and the Tina Robbins Award.

Undergraduate Research

Students complete a two-semester research sequence leading to a project and paper during the senior year of the program and are encouraged to submit the research projects to state and national research competitions.

Certification

Upon graduation, students have completed the requirements to seek eligibility to take the national certification examination from the American Registry of Radiologic Technologists in Radiography or the American Registry for Diagnostic Medical Sonography and in other clinical areas of expertise.

Accreditation

The program leading to the B.S. degree with a major in radiologic science for diagnostic and interventional radiology is fully accredited by the Joint Review Committee on Education in Radiologic Technology.

Scholarships and Grants

Students in the Division of Radiologic Science are eligible for Phyllis Ann Canup Pepper Scholarships, the Dr. Jerry Lambiente Loyalty Fund Scholarship, the Rufus "Buddy" Clarke Loyalty Fund Scholarship, the Jerome Puryear and Latonya Brown-Puryear Scholarship, and the Jane Cox Hendrix Scholarships.

Speech and Hearing Sciences Minor

Admission to the minor is competitive by application. Undergraduate students have the option of taking these courses without declaring a minor; however, students in the minor will have priority for registration. For students interested in pursuing graduate study, additional coursework is highly recommended, including courses in biological science, physical science, social/behavioral science, developmental bases of communication, and statistics. Detailed information on the application process and preprofessional coursework can be found on the division's website (<https://www.med.unc.edu/ahs/sphs/prospective-students/undergraduate-minor/>).

Advising

All students interested in a minor in speech and hearing sciences have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies will meet with current and prospective minors by appointment. (See contact tab above.) Further information may be obtained from the division's website (<https://www.med.unc.edu/ahs/sphs/>).

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
SPHS 510	Introduction to Communication Disorders (spring only)	3
SPHS 530	Introduction to Phonetics (fall only)	3
SPHS 570	Anatomy and Physiology of the Speech, Language, and Hearing Mechanisms (spring only)	3
SPHS 582	Introductory Audiology I (fall only)	3
SPHS 540	Speech Science (spring only)	3
Total Hours		15

The minor in speech and hearing sciences consists of five courses. Each course is offered only once per year; students interested in the minor are encouraged to enroll in the introductory course (SPHS 510) early in the sequence and in speech science (SPHS 540) last in the sequence.

With permission of the program director, SPHS 520, SPHS 521, or SPHS 583 may be substituted for SPHS 510.

Department of History

Introduction

The study of history is an essential part of a liberal arts education and offers valuable preparation for many careers in law, business, and journalism; in local, state, and national government; in non-profit and international organizations; and, of course, in historical fields of expertise that include teaching, libraries, and museums. More broadly, by an exposure to a variety of cultures and human experience and by training in the interpretation of conflicting evidence, the Department of History seeks to prepare a person for the responsibilities of citizenship and for dealing with the ambiguities of human existence. Diversity in the history major program encourages a comparative approach to human problems and discourages parochialism; specialization in the program promotes an appreciation of the complexity of human affairs and the difficulties involved in interpreting them. Finally, the discipline of history stimulates imagination and analytical thinking.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisors and review their Tar Heel Trackers each semester. The Department of History offers students numerous advising resources to assist them with all things related to studying history at UNC–Chapel Hill, from making the initial decision to become a history major or minor to thinking about what to do after they complete their degree. Although history majors are not assigned individual faculty advisors, they are strongly encouraged to seek out the advice of their professors during office hours, especially if they are considering an independent study project, senior honors thesis, or applying for graduate study. The department's lecturer/advisor serves as a general advising resource for all history majors and minors as well as first- and second-year students who are considering a major in history.

Graduate School and Career Opportunities

Most history majors at UNC–Chapel Hill develop careers that do not involve practicing history in its narrow sense. These students work in a range of fields: business, law, journalism, education, and government, for example. These students have found that they can apply to many different tasks the skills that history teaches: analyzing, conceptualizing, investigating, researching, interpreting large amounts of information, as well as communicating through writing and speaking.

Many history majors enter professional schools in a number of different areas. Law school, business school, and medical school rank high in popularity. By teaching students how to analyze problems, how to understand society and human behavior, and how to communicate effectively, a major in history provides excellent preparation for enrollment in a professional school.

Some majors end up using history directly in their vocations. Those who wish to teach history at the secondary level in public schools must obtain appropriate certification, usually through an M.A.T. degree. Other students pursue graduate study by entering a master's degree program in history that requires a thesis and takes about two years to complete. A student can then decide whether to proceed into a Ph.D. program, which normally requires an additional two years of study and the completion of a doctoral dissertation. Students who decide to pursue a Ph.D. in history generally teach at the college level. Some complete a master's degree in public history and work for government archives at the national, state, or local levels or for private nonprofit organizations, such as groups interested in restoration work.

HIST–History Undergraduate-level Courses

HIST 50. First-Year Seminar: Time and the Medieval Cosmos. 3 Credits.

This course introduces first-year students to the basic motions of the solar system as viewed from the Earth along with the mechanical and mathematical models used to reproduce them, while exploring the history of medieval and early modern education, theology, and natural philosophy.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: HS.

Grading Status: Letter grade.

Same as: PHYS 50.

HIST 51. First-Year Seminar: Latin American Revolutions. 3 Credits.

This course explores the problem of revolutionary upheaval in Latin American history, from the revolutionary wars of the independence era (1810-1825) to revolutionary episodes of the 20th century.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR, FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

HIST 52. First-Year Seminar: Conflicts over Israel/Palestine. 3 Credits.

This course will familiarize students with the background of this ongoing conflict. It will begin with the growth of political Zionism in Europe, continue through early Zionist settlement, the United Nations partition and resulting war, and the history of the conflict through the present.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

HIST 53. First-Year Seminar: Traveling to European Cities: American Writers/Cultural Identities, 1830-2000. 3 Credits.

This course examines the experiences of American writers who traveled and lived in European cities during the era between 1830 and 1930 with the goal of developing historical insights into these writers' fascination with famous European cities and the experience of travel.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 55. First-Year Seminar: Preventing Broken Hearts in North Carolina: History and Health Care in the South. 3 Credits.

How do scientists and humanists approach complex problems and work together to solve them? Team-taught by a doctor and a historian, this class explores how our state's health care system changed over the last fifty years, how those changes have affected people, and how history shapes both doctors and patients.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: HS, EE- Mentored Research.

Grading Status: Letter grade.

HIST 58. First-Year Seminar: History and the Meaning of Life. 3 Credits.

How do we find meaning in our lives? How should we think about our families, ambitions, and fears? How do individual lives fit into the grand sweep of human history? In this seminar, students will learn to read deeply and apply the tools of historical analysis in order to tackle the biggest possible questions.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR, FC-PAST.

Grading Status: Letter grade.

HIST 59. First-Year Seminar: Rebuilding the American South: Work and Identity in Modern History. 3 Credits.

This course examines how class experiences and debates over the meaning of work have shaped the postbellum Southern United States. Students will analyze how the South's technological innovation, politics, urban planning, consumer economy, and social movements have impacted the racial, gender, and sexual identities of its people.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: HS, US.

Grading Status: Letter grade.

HIST 62. First-Year Seminar: Nations, Borders, and Identities. 3 Credits.

This seminar will explore the ways people have identified themselves in relation to specific places, nation-states, and foreign "others." Examples may include the Kurdish nationalists, Islamist political parties, the Eritrean independence movement, and the Basque separatists.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

 **HIST 63. First-Year Seminar: Water, Conflict, and Connection: the Middle East and Ottoman Lands. 3 Credits.**

Water has played pivotal roles in the histories, societies, and politics of Middle Eastern peoples. This course will survey the role of water in religious and cultural practices, technological innovations that facilitate agriculture, public health issues arising from water-borne diseases, and the contribution of water scarcity to cross-border political conflicts. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: BN, GL.

Grading Status: Letter grade.

 **HIST 64. First-Year Seminar: Gorbachev: The Collapse of the Soviet Empire and the Rise of the New Russia. 3 Credits.**

Examines Mikhail Gorbachev and the astonishing transformations that occurred while he governed the Soviet Union between 1985 and 1991. Students will explore post-Soviet Russia's efforts at negotiating a new set of relations with the rest of the world and how Russia continues to shape our own destiny.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

 **HIST 66. First-Year Seminar: Film and History in Europe and the United States, 1908-1968. 3 Credits.**

This course will examine major films in Europe and America from 1908 to 1968 in terms of how they shaped the medium and reflected important social trends.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: HS, GL, NA.

Grading Status: Letter grade.

 **HIST 67. First-Year Seminar: Maid in America, Made in China: Laboring Women in Global Perspective. 3 Credits.**

Public figures ranging from former U.S. President Jimmy Carter to New York Times columnist Nicholas Kristof have suggested women's increased entry into the labor market as a cure for the problems that face their families and their societies. But scholars have demonstrated that paid work has offered women new freedoms while subjecting them to new forms of control. This course will explore that paradox by examining women's diverse experiences as workers historically and today.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

 **HIST 70. First-Year Seminar: Seeing History in Everyday Places: Chapel Hill as a Case Study. 3 Credits.**

Our homes, our workplaces, our towns, our natural areas—all are products of history, shaped by people, rich with meaning and full of surprises. Using Chapel Hill as our living laboratory, we will explore new ways of understanding the past and how it shapes the world we live in now.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: HS, CI, EE- Field Work.

Grading Status: Letter grade.

 **HIST 72. First-Year Seminar: Women's Voices: 20th-Century European History in Female Memory. 3 Credits.**

The course examines 20th-century European history through the lenses of women's autobiographical writings. It explores women's voices from different generational, social, and national backgrounds and asks what formed their memories. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, CI, NA.

Grading Status: Letter grade.

 **HIST 74. First-Year Seminar: Emperors, Courts, and Consumption: The Mughals of India. 3 Credits.**

Through a study of autobiographical texts, contemporary accounts, objects, architecture and later representations in scholarly works, films and novels, we will undertake a thematic investigation of the Mughal Empire (1526-1858), focusing on the period of the first six Mughal rulers of India.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

 **HIST 76. First-Year Seminar: Understanding 1492. 3 Credits.**

This seminar will examine one of the most challenging topics in American and Latin American history: how to understand the conquest (la conquista) of Latin America by the Spaniards after the arrival of Columbus after 1492.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

 **HIST 79. First-Year Seminar: Coming of Age in 20th Century America. 3 Credits.**

We will employ coming of age autobiographies to explore developments in the US during the 20th century. In these autobiographies the authors focus primarily on the periods of childhood and adolescence into young adulthood. We will consider many issues including: race, racism, immigration, religion, social class, and gender.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: HS, NA, US.

Grading Status: Letter grade.

 **HIST 80. First-Year Seminar: African American Music as History. 3 Credits.**

This course uses music to explore African-American life in the twentieth and twenty-first centuries. Students will investigate how African Americans, across time and space and in search of opportunity, created, used and marketed music. The course will examine three core groups—artists, music entrepreneurs and audiences.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-PAST.

Making Connections Gen Ed: HS, US.

Grading Status: Letter grade.

 **HIST 81. First-Year Seminar: Diaries, Memoirs, and Testimonies of the Holocaust. 3 Credits.**

In ghettos and hiding places during the Holocaust, European Jews and other victims of Nazism recorded their experiences in diaries and other chronicles. Students will read diaries and memoirs as well as listen to testimonies to understand Holocaust history through life narratives, exploring tensions between history and memory.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

 **HIST 83. First-Year Seminar: African History through Popular Music. 3 Credits.**

Examines popular music as a way of understanding African history from the 1930s to the present. We will read background materials on African historical developments and musical styles, do a lot of listening, and try to learn what African musicians tell us about their societies.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

 **HIST 84. First-Year Seminar: Monsters, Murders, and Mayhem in Microhistorical Analysis: French Case Studies. 3 Credits.**

Explores the distinctive features of microhistorical approaches to the past and the attractions of microhistory for the practicing historian. Students will read a rich sampling of recent work (much of it featuring monsters, murder, and mayhem) and try their hand at writing their own microhistories. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

 **HIST 85. First-Year Seminar: What Concentration Camp Survivors Tell Us. 3 Credits.**

This is a seminar about reading so as to learn as much as we can from individuals expressing the inexpressible. It asks what (if anything) only camp survivors can tell us about the experience and what we can learn by exploring the effects of this experience on survivors. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

 **HIST 86H. First-Year Seminar: Witchcraft and Magic in the Early Modern Atlantic World. 3 Credits.**

This seminar explores early modern witchcraft and magic to introduce students to the ways in which historians think about questions of gender, power, and belief in historical perspective. The seminar will focus on how historians pose problems, collect evidence, and evaluate knowledge about how witchcraft and magic reveal broader tensions in the early modern world.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-GLOBAL.

Grading Status: Letter grade.

 **HIST 89. First Year Seminar: Special Topics. 3 Credits.**

Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

 **HIST 101. A History of Lies, Conspiracies, and Misinformation. 3 Credits.**

This course, geared towards undergraduate students at the beginning of their college careers, will give students the tools needed to critically evaluate information. Texts from different historical periods, newsreels and propaganda movies, and a variety of different websites will be examined and deconstructed to understand how content can be presented or manipulated.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, CI.

Grading Status: Letter grade.

HIST 102. Introduction to Major Problems in U.S History. 3 Credits.

This course explores major events and trends in U.S. history from the pre-colonial period to the 21st century. It offers students an introduction to some of the most important developments in the nation's past and the tools to understand them. We will examine the evolution of political participation and discourse, fundamental changes and continuities in economic life, and the rise and fall of numerous social movements.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 103. Introduction to Major Problems in Modern World History. 3 Credits.

This survey course explores major events and trends in global history from 1200 to the present. We will examine societies across six continents while focusing on several key themes and developments, including social and economic diversity and transformation; exchange, conflict, and evolution within and between societies; the rise and fall of imperial projects; and the parameters and consequences of global interconnectedness across time.

Rules & Requirements

Making Connections Gen Ed: BN, GL.

Grading Status: Letter grade.

HIST 104. Introduction to Major Problems in European History. 3 Credits.

This course explores major events and themes in European history from the Early Modern period through the present. We will focus our attention on several key religious, social, and political developments, including the growth of the modern state and economy, the history and legacy of European imperialism, the rise and fall of various intellectual and social movements and their effects on society, and the making and unmaking of identities based on culture, nation, and region.

Rules & Requirements

Making Connections Gen Ed: GL, NA.

Grading Status: Letter grade.

HIST 105. Empires in World History. 3 Credits.

This course explores and compares premodern and/or modern empires on a global scale, inquiring into rulers' strategies and subject peoples' experiences. Empires studied will depend on instructor's area of expertise, but may include Greeks, Romans, Chinese, Incas, West Africans, Mughals, and Ottomans, among others. Previously offered as HIST 345.

Rules & Requirements

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

HIST 106. Ancient History. 3 Credits.

A topical survey of the ancient world, especially the civilization of the Near East, Greece, and Rome.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

HIST 107. Medieval History. 3 Credits.

A survey of Western Europe and the Mediterranean World, 300-1500.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

HIST 108. Introduction to Early Medieval History 500-1050. 3 Credits.

An introductory-level survey of early medieval political, cultural, religious and social history between ca.500 and ca.1050 with a geographical focus on Europe. This course also considers eastern Christianity and Islam, as well as parts of Asia, for comparison. Throughout the course students will closely analyze the evidence for the period.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

HIST 110. Introduction to the Cultures and Histories of Native North America. 3 Credits.

An interdisciplinary introduction to Native American history and studies. The course uses history, literature, art, and cultural studies to study the Native American experience.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, NA, US.

Grading Status: Letter grade.

Same as: AMST 110.

HIST 111. Global Food History. 3 Credits.

This course is designed to be a thematic introduction to the study of global food history, from ancient times to the present, with particular emphasis on the food-ways of non-Western regions, such as Afro-Caribbean, Chinese, Indian, Japanese, and Mexican.

Rules & Requirements

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

HIST 120. Sport and American History. 3 Credits.

A survey of American sport history, from the colonial era to the present. Course will explore how sports have reflected larger trends in American life and analyze the different ways sports have influenced American history and shaped the world we occupy today.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, US.

Grading Status: Letter grade.

HIST 121. History of Religion in North America. 3 Credits.

Surveys religious thought and practice in the United States and Canada from the colonial era to the present day. Themes include continuities and changes in expressing ancient faiths; the relationship between religion and politics; the intersection of theology with everyday life; and evolving notions of religious truth and toleration.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, US.

Grading Status: Letter grade.

HIST 124. United States History through Film. 3 Credits.

Explores the history of the United States through films made about various historical eras. For each film, the instructor will lecture on the time period(s), the class will read relevant primary and secondary sources, and then the class will watch and discuss the film.

Rules & Requirements

IDEAs in Action Gen Ed: FC-POWER.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 125. The Social History of Popular Music in 20th-Century America. 3 Credits.

Explores the relationship between popular music and major developments in 20th-century America. The course's overarching focus is how popular music has simultaneously unified and divided the nation.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 127. American History to 1865. 3 Credits.

A survey of various aspects of American development during the colonial, revolutionary, and national periods, with stress upon major themes and interpretations.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, NA, US.

Grading Status: Letter grade.

HIST 128. American History since 1865. 3 Credits.

A survey of various aspects of American development during a century of rapid industrial, social, political, and international change, with stress upon major themes and interpretations.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 129. Modern America, 1984-2024. 3 Credits.

This course explores the history of the United States in the very recent past. Through a sustained analysis of key political, cultural, economic, and social developments, students will gain a deeper understanding of the complex issues and problems that shape American life today.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: NA, US.

Grading Status: Letter grade.

HIST 130. Modern African History. 3 Credits.

An overview of major developments in sub-Saharan African history since the late 19th century, focusing on colonialism, nationalism and decolonization, social change, and current issues, and drawing upon fiction, film, and primary sources.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

HIST 131. Southeast Asia before 1800 through Digital History. 3 Credits.

This course will cover the history of the territories and peoples of Southeast Asia (comprising the modern-day countries of Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, the Philippines, Thailand, Timor-Leste, Singapore and Vietnam), from earliest times to 1800. The course will also delve into debates about the past, who is engaged in such debates, and how to navigate these debates to find reliable historical sources and communicate analysis of those sources for a wide audience.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Grading Status: Letter grade.

Same as: ASIA 131.

HIST 132. Modern Southeast Asia. 3 Credits.

The history of Southeast Asia from the 19th century to the present. Long-term political, economic, social, and intellectual questions, including the impact of imperialism, the rise of nationalism, the transformation of the economy, the Cold War, and the coherence of Southeast Asia as a region.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: ASIA 132, PWAD 132.

HIST 133. Introduction to Chinese History. 3 Credits.

Chinese history from its beginnings to the present, organized around the central theme of how the identity of China and 'Chineseness' was created.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: ASIA 133.

HIST 134. Modern East Asia. 3 Credits.

Comparative and interdisciplinary introduction to China, Korea, and Japan in the 19th and 20th centuries, focusing on impact of the West, nation building, industrialization, and evolution of mass society.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: ASIA 134, PWAD 134.

 **HIST 135. History of the Indian Subcontinent to 1750. 3 Credits.**

An introduction to major political, religious, social, and cultural events from 3500 BCE to 1750 CE with a focus on Hindu, Muslim, and Buddhist groups before British colonial rule.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, BN, WB.

Grading Status: Letter grade.

Same as: ASIA 135.

HIST 136. History of India, Pakistan, and Bangladesh: South Asia since 1750. 3 Credits.

This course is an introduction to modern India, Pakistan, and Bangladesh. We will investigate major political, social, economic, and cultural issues from 1750 to the present.

Rules & Requirements

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: ASIA 136.

 **HIST 137. Muhammad to Malcolm X: Islam, Politics, Race, and Gender. 3 Credits.**

This course provides an introduction to the history of the Islamic world from the time of the Prophet Muhammad to the present day. It seeks to expose students to key themes, individuals, and movements that have represented Islamic thought and practice, and enable students to engage directly with intra-Islamic debates.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

HIST 138. History of Muslim Societies to 1500. 3 Credits.

A broad, comprehensive, and interdisciplinary introduction to the traditional civilization of the Muslim world. Students may not receive credit for both HIST 138/ASIA 138 and ASIA 180/RELI 180.

Rules & Requirements

Making Connections Gen Ed: HS, BN, WB.

Grading Status: Letter grade.

Same as: ASIA 138.

 **HIST 139. History of Muslim Societies since 1500. 3 Credits.**

A broad interdisciplinary survey of the later Islamic empires since the 15th century and their successor societies in the modern Muslim world. Students may not receive credit for both ASIA 139/HIST 139 and ASIA 181/RELI 181.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: ASIA 139.

 **HIST 140. The World since 1945. 3 Credits.**

This introduction to the contemporary world examines the Cold War and its international aftermath, decolonization, national development across a variety of cases, and trends in the global economy.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN, GL.

Grading Status: Letter grade.

 **HIST 141. Globalization Since 1500. 3 Credits.**

Course explores how commodities have connected people and places around the world since 1500. Lectures, readings, and recitations focus on tracing the histories of specific commodities (e.g., sugar, opium, and uranium) across different contexts. Significant sub-themes include the history of business, international human rights, and science and technology.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-POWER, COMMBEYOND.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

 **HIST 142. Latin America under Colonial Rule. 3 Credits.**

Social and economic development under colonial rule, especially in Mexico and Peru.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

 **HIST 143. Latin America since Independence. 3 Credits.**

A general introduction to Latin American society, culture, politics, and economics from a historical perspective. Focus will be on the events of the past two centuries.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

 **HIST 144. Women in United States History. 3 Credits.**

This course will survey the history of women, gender relations, and notions of sex difference in the United States from the colonial era to present times, with a special emphasis on women's varied experiences and expectations across divisions of class, race, and region. Key themes will include work, politics, citizenship, reproduction, sociability, and sexuality.

Rules & Requirements

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

Same as: GLBL 210, ANTH 210, GEOG 210, POLI 210.

HIST 212. History of Sea Power. 3 Credits.

The influence of sea power on international affairs will be surveyed from ancient times to the present. Emphasis on United States naval history and its interaction with diplomacy, economics, and technology.

Rules & Requirements

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

Same as: PWAD 212.

HIST 213. Air Power and Modern Warfare. 3 Credits.

Examines air power theory and practice from 1914 to the present. Focuses on the application of air power as an instrument of war and the effectiveness of that application.

Rules & Requirements

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

Same as: AERO 213, PWAD 213.

HIST 215. Peoples, Cultures, and Landscapes of Latin America. 3 Credits.

Peoples, Cultures, and Landscapes of Latin America explores the peopling of the Americas by Amerindian, African and Afro descendant peoples, and Europeans. It will consider the inequalities of power, wealth, and autonomy across gender, ethnicity, and class in Latin America to understand more fully their deep historical roots and their persistence into our own time. We will learn how Latin America takes on greater meaning, when we consider this subcontinent in different phases of globalization.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Grading Status: Letter grade.

Same as: LTAM 215.

HIST 220. The Olympic Games: A Global History. 3 Credits.

Course uses the history of the modern Olympic Games (1896-present) to explore both global sport and the history of international relations. Topics include sport and the Cold War; terrorism; human rights; the anti-apartheid movement; and issues of race, class, gender, disability; and the question of who is a "real" athlete. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

HIST 225. History of Greece. 3 Credits.

A survey of Greek history and culture from the Bronze Age to the Hellenistic period.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

HIST 226. The Rise of Rome. 3 Credits.

Origins to the first two centuries CE. Focuses upon Rome's growth as a world power and the shift from republican government to autocracy.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Grading Status: Letter grade.

HIST 227. The Fall of the Roman Empire. 3 Credits.

The decline and transformation of the Roman Empire, from its apogee in the second century until the rise of Islam in the seventh century. Covers topics like the Christianization of Rome, the barbarian invasions, the role of climate and pandemic disease, and the end of the ancient Mediterranean world system.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Grading Status: Letter grade.

HIST 228. Medieval Science. 3 Credits.

This course explores forms of scientific thinking before the modern era, focusing mainly on the intellectual tradition in medieval Europe ca. 500-1500. Special attention will be devoted to the intersections of scientific concepts and Christian religious ideas.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

HIST 229. The History of London 43 - 1666. 3 Credits.

This course traces the first three-quarters of London's rich two-thousand-year history, from the Romans to the Great Fire. Students examine how London evolved as an urban environment. They also study London's many and varied relationships with the wider world, including, in the latter part of the course, North America. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

HIST 230. Why History Matters to Public Policy. 3 Credits.

This course explores the uses of history and historical perspectives for public policy. Students will learn how historical processes have shaped today's public policies and examine how the origins and development of a policy can inform current policy decisions.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: HS.

Grading Status: Letter grade.

Same as: PLCY 231.

HIST 231. Native American History: The East. 3 Credits.

Covers the histories of American Indians east of the Mississippi River and before 1840. The approach is ethnohistorical.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, NA, US.

Grading Status: Letter grade.

Same as: AMST 231.

HIST 233. Native American History: The West. 3 Credits.

Deals with the histories of Native Americans living west of the Mississippi River. It begins in the pre-Columbian past and extends to the end of the 19th century.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

Same as: AMST 233.

HIST 234. Native American Tribal Studies. 3 Credits.

This course introduces students to a tribally specific body of knowledge. The tribal focus of the course and the instructor change from term to term. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, NA, US.

Grading Status: Letter grade.

Same as: AMST 234, ANTH 234.

HIST 235. Native America in the 20th Century. 3 Credits.

This course deals with the political, economic, social, and cultural issues important to 20th-century Native Americans as they attempt to preserve tribalism in the modern world.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

Same as: AMST 235.

HIST 236. Sex and American History. 3 Credits.

Does sex have a history? This course argues that it does. Exploring American history from the earliest encounters of Indians, Europeans, and Africans through the aftermath of the sexual revolution, we will consider diverse perspectives, important dynamics of change, and surprising ways in which the past informs our present—and our selves.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 237. Colonial American History to 1763. 3 Credits.

An in-depth history of colonial North America. Topics include: interactions among Native Americans, Europeans, and Africans and the founding and development of English, French, and Spanish colonies in the lands that eventually became the United States.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, US, WB.

Grading Status: Letter grade.

HIST 238. The American Revolution, 1763-1815. 3 Credits.

An in-depth history of the American Revolution. Topics include: causes of the split between Britain and 13 of its colonies, the fighting of the Revolutionary War, and the creation of the United States.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

Same as: PWAD 238.

HIST 239. Religion in North America since 1865. 3 Credits.

A survey of modern religion in the United States and Canada. Themes include religious pluralism; new religious movements, immigrant faiths; the relationship between religion and urban life, industrialization, and new science; religion and foreign affairs; questions of church and state; and the conflict between secular modernity and religious fundamentalism.

Rules & Requirements

Making Connections Gen Ed: HS, US.

Grading Status: Letter grade.

HIST 240. Introduction to Mexico: A Nation in Four Revolutions. 3 Credits.

History of Mexico seen through four moments of change: conquest, independence, 19th-century reforms, and 20th-century revolution. This course is an introductory survey for students who want to know more about Mexico, its place in Latin America, and its relations with the United States.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

HIST 241. History of Latinos in the United States. 3 Credits.

A comparative examination of the historical experiences of Latinos in the United States, from the 19th century to the present, drawing on experiences of Mexican Americans, Puerto Ricans, Dominicans, and Central Americans. Special emphasis on the events, people, and ideas that have made distinctive contributions.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, US.

Grading Status: Letter grade.

HIST 242. United States-Latin American Relations. 3 Credits.

This course examines the history of United States involvement in Latin America and the Caribbean. Lectures will cover two centuries of United States intervention, from the wars of the 19th century to the covert CIA operations of the Cold War and the more recent wars on drugs and terror.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN, GL.

Grading Status: Letter grade.

HIST 243. The United States and Africa. 3 Credits.

This course traces changing relationships between the United States and sub-Saharan Africa from the 17th century to the present. Topics include the trans-Atlantic slave trade, back-to-Africa movements and the colonization of Liberia by African Americans, United States policies toward decolonizing and postcolonial African countries, and contemporary links between Africa and America. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

HIST 244. History of the American Presidency. 3 Credits.

This course examines the historical evolution of the United States presidency and its role in government and society. The class is especially concerned with the ways that the office and its occupants have been shaped by the aspirations of the American people and the global challenges of the modern era.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 245. The United States and the Cold War: Origins, Development, Legacy. 3 Credits.

This is both a wide-ranging and detailed course that looks at the origins, the evolution, and the termination of the Cold War from 1945 to 1989/90. It also considers the "New Cold War" with Russia that developed in 2014. The course is based on an international and multinational perspective.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

Same as: PWAD 245.

HIST 246. The Long Cold War: U.S. Foreign Relations in the 20th and 21st Centuries. 3 Credits.

This is both a wide-ranging and detailed lecture course which looks at the rise of the U.S. to world power status and the evolution of U.S. foreign relations from the late 19th century to the very present. The course is based on a multinational and global perspective.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

HIST 247. Early Modern Japanese History and Culture. 3 Credits.

From the 1603 establishment of the Tokugawa Shogunate to the Meiji Restoration of 1868, Japan was ruled by the Tokugawa family in an unusual early modern federation, with a balance of power between the warrior government in Edo and the domainal governments spread across the archipelago. This resemblance of this system to the U.S. balance between federal and state power frames our examination of the early modern period.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: JAPN 246.

HIST 248. Guerrillas and Counterinsurgencies in Latin America. 3 Credits.

This course examines the leftist guerrilla movements that swept Latin America and the Caribbean during the latter half of the 20th century. Students will analyze the origins, trajectories, and legacies of these insurgencies, paying particular attention to the roles of race, class, and gender. Previously offered as HIST/PWAD 528.

Rules & Requirements

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: PWAD 248.

HIST 249. Modern Global Christianity. 3 Credits.

An intermediate survey of global Christianity from the late Middle Ages to the present day that traces evolving theology and worship; the role of religion in the politics of empire; modern challenges to traditional religion; and the international expansion of the faith.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

HIST 251. The Thirty Years War (1618-1648): Europe in an Age of Crisis. 3 Credits.

A critical examination of the significance of the Thirty Years' War for 17th-century Europe's social, religious, military, and geopolitical history. The representation of the conflict in art and literature also receives attention.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

Same as: PWAD 251.

HIST 252. Politics, Society, and Culture in Modern Germany (1871-1945). 3 Credits.

This course explores the history of Modern Germany, by focusing on Imperial Germany, the Weimar Republic and the Third Reich. We will study continuities and changes in politics, society, and culture and examine the lasting impact of World War I, World War II and the Holocaust.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

Same as: EURO 252.

HIST 254. War and Society in Early Modern Europe. 3 Credits.

A critical examination, from the Renaissance to the Napoleonic period, of the changes in European land and naval warfare and their impact on society and government.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

Same as: PWAD 254.

HIST 255. Manor to Machine: The Economic Shaping of Europe. 3 Credits.

From agriculture to industry, Europe's march to industrialization. Survey from the medieval manor through revival of trade, rise of towns, credit and capitalism, overseas expansion and mercantilism to the Industrial Revolution.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

HIST 256. France, 1940 to the Present. 3 Credits.

Three events shaped contemporary France: collaboration and resistance in occupied France; the Algerian War; and the political, cultural, and social movements in the late 1960s and 1970s. This class will examine these events, how they are remembered and given meaning, and their role in making the France we know today. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 257. Politics, Society, and Culture in Postwar Germany. 3 Credits.

The interdisciplinary seminar will explore cultural, historical, and political issues of contemporary Germany and analyze German developments from the postwar period to the present. Readings and discussions in English.

HIST 263. Gender and Religion in Premodern Europe. 3 Credits.

This course examines gender in the religious lives of premodern Europeans from 500-1700, both in daily life (marriage, sexuality, devotions) and among the religious elite (clergy, monks and nuns, mystics). Feminist history, masculinity studies, and sexuality studies will all be taught as historical methods, paired with primary source documents from medieval Christians. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

Same as: RELI 263.

HIST 264. Gender in Russian History. 3 Credits.

Traces the development of sexual identities and changes in masculine and feminine ideals from Tsarist Russia through the post-Soviet period with emphasis on politics, society, and popular culture.

Rules & Requirements

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: WGST 264.

HIST 265. Imperial China in Global Objects. 3 Credits.

This course explores the culture and society of imperial China (pre-1912) through objects. Six kinds of objects - silk, wooden beams and brackets, precious stones, ships and stirrups, silver, and tea - will each form a module that introduces students first to key historical activities associated with the object and then to the diverse sociocultural, economic, and political spheres that they played important roles in.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Grading Status: Letter grade.

Same as: CHIN 265.

HIST 266. Global History of Warfare. 3 Credits.

The history of warfare from its prehistoric origins to the present. The focus is on interactions between peoples around the world and particularly on the problems of innovation and adaptation. Previously offered as HIST/PWAD 351.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

Same as: PWAD 266.

HIST 269. Modern London: Empire, Race, and Culture. 3 Credits.

Explores the history, culture, and politics of London from the decade before the First World War, through the "Swinging" 1960s, to the recent Olympics fever. Surveys the architecture, cultural institutions and the arts, against the background of the city's changing racial, ethnic, religious, and socio-economic composition. Honors version available.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 270. Mughal India. 3 Credits.

In this course we will investigate one of the most well-known of South Asian polities, and the grandest and longest lasting empire in Indian history, the Mughal Empire (1526-1858), whose rulers and elites were responsible for much of the iconic architecture and painting associated with India today.

Rules & Requirements

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

 HIST 271. Ancient and Medieval Japanese History and Culture. 3 Credits.

This course surveys Japanese history and cultural development from the prehistoric period, rich with archaeological evidence, to the reunification of Japan in the late sixteenth century. One major topic is the mythology or and historical evidence for early state formation, including the role that Japan's long "unbroken" history plays in modern debates about national identity, xenophobia, and relations with regional neighbors. Another focus is the emergence of women's literature.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

Same as: JAPN 231.

HIST 272. Modern South Asia. 3 Credits.

Provides students with a critical understanding of the political, economic, and social dynamics of contemporary South Asia. Themes explored include the development (or lack of) democratic structures, continuing relevance of caste and religion, emergence of right wing movements, contesting representations of the past, and the prospects and challenges confronting the region.

Rules & Requirements

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: ASIA 272.

 HIST 273. Water, Conflict, and Connection in the Middle East. 3 Credits.

Water has played many pivotal roles in the societies and politics of Middle Eastern peoples. This course will survey the history of water in the region, including its uses in agriculture and ritual, transport, and technology. We will explore water's impact on public health and the effects of water pollution on local societies. Finally, we will focus on the effects of the region's water scarcity in cross-border political conflicts.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

Same as: PWAD 273.

 HIST 274. History of the Ottoman Empire, 1300-1923. 3 Credits.

Approaches the history of the Ottoman Empire from a world historical perspective. Situates the Ottoman imperial experience in relation to Muslim, Mongolian, and Byzantine traditions. Discusses the early modern and modern transformation of the Ottoman Empire and its legacy for contemporary Eastern Europe, the Middle East, and North Africa.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

HIST 275. African History to 1800. 3 Credits.

Course explores history of the African continent from before agriculture to the era of the Transatlantic slave trade. Particular attention given to themes such as trade, religion, and politics as well as the sources and methods for knowing about the premodern African past.

Rules & Requirements

Making Connections Gen Ed: BN, WB.

Grading Status: Letter grade.

 HIST 276. The Modern Middle East. 3 Credits.

This course introduces students to the recent history of the Middle East, including a comparison of the Middle East to the United States.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN, GL.

Grading Status: Letter grade.

Same as: ASIA 276.

 HIST 277. The Conflict over Israel/Palestine. 3 Credits.

Explores the conflict over Palestine during the last 100 years. Surveys the development of competing nationalisms, the contest for resources and political control that led to the partition of the region, the war that established a Jewish state, and the subsequent struggles between conflicting groups for land and independence.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: ASIA 277, PWAD 277.

 HIST 278. The Trans-Atlantic Slave Trade. 3 Credits.

Focused on one of the most tragic and horrifying phenomena in world history, this course examines the Atlantic slave trade and its demographic, economic, political, and cultural impact on four continents over three centuries. Through interactive lectures, discussions, and a variety of written assignments, students will learn about this monumental and far-reaching system while sharpening critical thinking and communication skills. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN, GL.

Grading Status: Letter grade.

HIST 279. Modern South Africa. 3 Credits.

Beginning with the discovery of gold and diamonds in the mid-19th century and reaching to the present, this course considers colonialism, industrialization, social change, and political protest in South Africa, with particular attention to the rise, fall, and legacies of apartheid. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

HIST 280. Women and Gender in Latin American History. 3 Credits.

Examines the experiences of women and gender relations in Latin American societies from pre-Columbian times to the present, providing a new perspective on the region's historical development.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

HIST 291. Putting Literature and History in Dialogue. 3 Credits.

Dialogues between historiographic and fictional treatments of important historical problems. Explores works of history and literature to determine how different genres of writing give meaning to the past. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.

Grading Status: Letter grade.

HIST 301. How Empires Fall: Case Studies from the Past and Lessons for Today. 3 Credits.

What are empires, and how do they fall? This course examines the collapse of the three historical empires, explores discussions of modern decolonization, and addresses the question of what empire looks like in the contemporary world.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.

Grading Status: Letter grade.

 **HIST 302. Movies Make History: Films as Primary Sources in Europe and America. 3 Credits.**

This course explains how and why certain films helped shape the medium even as they reflected broader aspects of historical change. Beginning with the development of narrative film in 1908, the course looks at those nationally specific genres that had repercussions beyond national borders, ending in about 1968. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.

Making Connections Gen Ed: HS.

Grading Status: Letter grade.

 **HIST 304H. Conquest and Colonization in the English Atlantic World. 3 Credits.**

This course explores the history of conquest and the political-military process of establishing control in the British Isles (including Ireland) and how those processes created expectations and policies as the English moved into the New World. We will examine both European precedents and colonial transformations. We will explore how European (especially English) society functioned, and how it was transformed in the New World.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-POWER.

Grading Status: Letter grade.

 **HIST 305. Elizabeth I and her World: Gender, Power, and the Beginnings of the Global. 3 Credits.**

This class explores the world of Elizabeth I of England (1558-1603) through three complementary lenses: the queen as powerful political actor; gender; and emergent globalization. Particular attention is paid to the ways in which Elizabeth fashioned the images that she projected, and how she was perceived by others.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-PAST.

Making Connections Gen Ed: NA, WB.

Grading Status: Letter grade.

 **HIST 306. Princes and Reformations in Germany, 1400-1600. 3 Credits.**

Examines the major late medieval religious, social, and political developments plus the Reformation and Counter-Reformation. Topics include Luther's theology, the German Peasant's War, Jewish-Christian relations, witch-hunting, and family life. Previously offered as HIST 460.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

 **HIST 307. War and Enlightenment in Germany, 1600-1815. 3 Credits.**

Examines major political, social, and cultural developments. Topics include the growth of absolutist government, Prussia's militarism and rivalry with Austria, German Jewry, Baroque music, the Enlightenment, and the Napoleonic wars. Previously offered as HIST 461.

 **IDEAs in Action Gen Ed:** FC-PAST.

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

HIST 308. The Renaissance and the Jews. 3 Credits.

The Renaissance (1300-1600) is known as a time of great artistic, scientific, and political renewal. But did Jews, the only religious minority in Europe, get an opportunity to benefit from and participate in that progress? This class studies the history of the Jews at a time of great cultural change.

Rules & Requirements

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

Same as: JWST 308.

HIST 309. Old Regime France, 1661-1787. 3 Credits.

This course focuses on the period in French history between the ascendancy of absolute monarchy in the middle of the 17th century and the collapse of absolutism at the onset of the French Revolution.

Rules & Requirements

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

HIST 310. The French Revolution. 3 Credits.

The French Revolution was a source of much that the modern world recognizes as its own: nationalism, human rights, class conflict, ideology, communism, conservatism, show trials, citizen armies, terrorism, and the concept of revolution itself. This course probes issues that underlie the continuing relevance of the French Revolution today.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 311. Ghettos and Shtetls? Urban Life in East European Jewish History. 3 Credits.

The migration of Jewish populations from small towns to large cities in Eastern Europe altered notions of Jewish community, space, cultures, and identities. This course will explore the roles of ghetto and shtetl in both history and memory of the Jewish past, drawing on memoirs, literature, film, and photography. Honors version available.

Rules & Requirements

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: JWST 311.

HIST 312. History of France and Algeria. 3 Credits.

This course covers France's conquest, rule, and loss of Algeria, and the relationship between French and Algerian people in Algeria and France from 1830 to the present. Topics such as modern French and North African history, colonialism, Islam, immigration, terror/torture, and cross-cultural exchange are all featured in this transnational course.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

Same as: PWAD 312.

HIST 313. Women and the Law in Africa and the Middle East. 3 Credits.

Explores women's and men's engagement with colonial and post-colonial legal systems with a focus on the 19th through 21st centuries. Topics include customary law, Islamic law, women's rights as human rights, disputation and conflict resolution. We will ask the question: "how does gender influence how women and men navigate legal systems?" Course previously offered as WMST 289.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.

Making Connections Gen Ed: HS, BN, GL.

Grading Status: Letter grade.

Same as: WGST 313.

HIST 314. Law and Society in Latin America. 3 Credits.

This course considers how a wide variety of groups in Latin America including indigenous people, Afro-descendant communities, women and religious minorities used the law to shape and challenge larger structures of imperial rule.

Rules & Requirements

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: LTAM 314.

HIST 315. Nation-Building in Latin America. 3 Credits.

This course focuses on Mexico, several Caribbean and South America countries, and the U.S. as examples of the major debates that have arisen in the past and in our own time over citizenship and the nation-state in the multi-ethnic and culturally complex societies of the Americas. It explores history and memory around issues of human rights, gender, enslavement and emancipation, Indigenous peoples, religion and secular society, territory, and the nation-state. Previously offered as HIST 529. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST, RESEARCH.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

HIST 320. Art, History, and the Modern Museum. 3 Credits.

Focusing on art, history, and ethnography museums in Europe and North America, this course considers the emergence and development of museums as powerful social and cultural institutions from the mid-18th century to the 21st century. A variety of perspectives on museums showcase their connections to larger political and cultural trends.

Rules & Requirements

IDEAs in Action Gen Ed: FC-AESTH or FC-PAST, RESEARCH.

Making Connections Gen Ed: VP, NA.

Grading Status: Letter grade.

Same as: ARTH 330.

HIST 322. Technology and American Culture. 3 Credits.

Technology's impact on American thought and society and the response it has engendered. Topics will include the factory town, search for utopia, impact of Henry Ford, war, and depersonalization. Previously offered as HIST 625.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 325. Food and History. 3 Credits.

An examination of how food, its production, distribution, and consumption have shaped the history of the United States, the United Kingdom, and the world at large. The course will study how these nations and their empires have been intertwined but remained distinctive from colonial times to the present.

Rules & Requirements

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

HIST 328. History of the Computer. 3 Credits.

This course surveys the long history of computer technology and its social, political, economic, and cultural consequences, with a particular focus on the experience of the United States.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 329. An Introduction to the History of Medicine. 3 Credits.

This course underscores the ways in which Western medicine has become a global political and cultural phenomenon in history, and discusses evidence of how different social actors have parsed the distinction between sickness and health over time. Honors version available.

Rules & Requirements

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

HIST 330. Jesus and the Jews: From the Bible to the Big Screen. 3 Credits.

This class will study the history of the claim that the Jews are responsible for Christ's death. Students will examine the power of this idea to travel through time and space and discuss how it is portrayed differently and with different purposes throughout history. Honors version available.

Rules & Requirements

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

Same as: JWST 330.

HIST 331. Sex, Religion, and Violence: Revolutionary Thought in Modern South Asia. 3 Credits.

Which of the following would you consider potentially political issues: celibacy; semen retention; body-building; depiction of gods/goddesses; or bomb making? Well, they all are. This course examines debates over sex, religion, and violence that constituted a key part of revolutionary thought and anti-colonial struggles in modern South Asia.

Rules & Requirements

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: ASIA 304.

HIST 332. Identity and Community in Modern Jewish History: The Case of Durham. 3 Credits.

This course explores diverse experiences of modernity among Jewish populations from the mid-18th century to the present under the influence of political, cultural, and socioeconomic changes. Diaries, memoirs, literature, and film challenge students to develop their own analyses while becoming familiar with arguments among scholars of Jewish life.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 333. Love and Politics in Early India. 3 Credits.

This course will study the social, political, and cultural history of early India, through a focus on love and desire. It will examine a range of primary sources from the period: erotic manuals, inscriptions, literature, legal and medical textbooks, art and architecture.

Rules & Requirements

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

HIST 334. Rasputin's Russia: Erotic, Decadent, Revolutionary. 3 Credits.

The turn of the 20th century was characterized by a highly stylized angst, and nowhere more so than in Russia. This course explores how the political, social, cultural, and economic transformations that vibrated throughout Russia provided a fertile context for the burst of creativity that spawned its modernist artistic movements.

Rules & Requirements

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

 **HIST 335. Cracking India: Partition and Its Legacy in South Asia. 3 Credits.**

What happened when the British carved Pakistan out of the predominately Muslim corners of India? Readings and films focus on the causes and consequences of this event, the Partition of India. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-PAST, RESEARCH.

Making Connections Gen Ed: HS, BN, GL.

Grading Status: Letter grade.

Same as: ASIA 331, PWAD 331.

 **HIST 340. Ethics and Business in Africa. 3 Credits.**

Explores sub-Saharan Africa both as a historical site of exploitative, extractive labor practices and initiatives to make business more ethical. Starting in the precolonial period, it considers topics such as ending the slave trades, the foundations of colonial economies, development projects postindependence, and the use of conflict minerals. Previously offered as HIST 540. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.

Making Connections Gen Ed: HS, BN, CI.

Grading Status: Letter grade.

 **HIST 343H. Empire, Race, and Resistance. 3 Credits.**

This course introduces students to the history of empire, the role of race in creating and sustaining it, and the ways that people have resisted the imposition of outsider control. It will also introduce students to the methods historians use to understand the past.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-PAST.

Grading Status: Letter grade.

HIST 344. The Global World Order from World War II to the Present. 3 Credits.

This course deals with the establishment and development of the rules-based global order towards the end of World War II. The course will help us to understand the driving forces, fears, and ideas that have led to the post-war global order and the emergence of new states and international organizations. We will discuss this system as well as the forces of nationalism, imperialism, just war ideas, great power theories, and many related themes.

Rules & Requirements

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

HIST 346. Dictators in the 20th Century. 3 Credits.

Dictators are typically viewed as brutal individuals who wield absolute power over their state. But, are these stereotypes true? The aims of this seminar are to dispel the myths that shroud dictators, to give students a more nuanced understanding of dictatorships in the 20th century, and to introduce them to biographies as a genre of historical writing.

Rules & Requirements

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

HIST 347. Fascist Challenge in Europe, 1918-1945. 3 Credits.

The course focus on theories on fascism, national cultures of fascism (e.g. Nazi Germany, Fascist Italy, Hungary) as well as selected topics which are essential to understand the attraction and functioning of fascist movements and regimes since 1918 in Europe (e.g. racism, war, culture, charismatic leadership).

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

Same as: EURO 347.

HIST 348. History of Migration. 3 Credits.

This course places the act of human migration at the center of modern history. Through case studies of various migrant groups, students will explore important questions at the center of migration history: why some people move and some stay; how the movements of people shape political, economic, social, and cultural life; and how ideas about migration, immigration, nation, and place have developed historically.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 349. Comparative Empires in the Modern World. 3 Credits.

This course will examine the history of how empires uses grand claims of civilizational, moral, and religious claims in their foreign policy and grand strategy with a focus on the British, Ottoman, and Japanese imperial strategies. The course will also discuss contemporary legacies of British-Ottoman confrontation in WWI and British-Japanese conflict in WWII.

Rules & Requirements

Making Connections Gen Ed: HS, GL.

Grading Status: Letter grade.

HIST 350. Environmental History and Computer Science: Mapping the Black Sea. 3 Credits.

This course uses the digital technology of the 21st century to analyze the interactions of past civilizations by creating a "story map" that will visualize the ebbs and flows of peoples and civilizations throughout a geographical place, the Black Sea.

Rules & Requirements

Making Connections Gen Ed: BN, GL.

Grading Status: Letter grade.

HIST 352. The Great Depression and Its Legacies. 3 Credits.

This course will assess visions for social change during the Great Depression, evaluate New Deal reforms, and address the legacy Depression-era Americans made on institutions and succeeding generations. Honors version available.

Rules & Requirements

Making Connections Gen Ed: HS, US.

Grading Status: Letter grade.

HIST 353. Cinema, Culture, and Society. 3 Credits.

After the First World War, culture in Germany became a forum for radical experimentation and a source of deep conflict. Through a consideration of art and literature, and with emphasis on mass cultural forms such as film and newspapers, this course explores the complex relationships between politics and culture and how such relationships were understood and debated in both the Weimar Republic and Nazi Germany.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 354. War and Gender in Movies. 3 Credits.

The course examines and compares the images of war and gender that movies from different time periods and countries propagate and explores the different factors that influence these images and thereby the perception and recollection of war. Honors version available.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

Same as: PWAD 354, WGST 353.

HIST 355. American Women's History to 1865. 3 Credits.

This course will explore women's experiences in America from 1500 to 1865. Topics will include the ways in which women have shaped American politics, economy, society, and culture.

Rules & Requirements

Making Connections Gen Ed: HS, US.

Grading Status: Letter grade.

Same as: WGST 354.

HIST 356. American Women's History, 1865 to the Present. 3 Credits.

This course will examine the changing lives of women in the United States after 1865: Their contribution to economy, society, cultural change, and political struggles.

Rules & Requirements

Making Connections Gen Ed: HS, US.

Grading Status: Letter grade.

Same as: WGST 356.

HIST 357. The U.S. South to 1865. 3 Credits.

Economic, cultural, and social history of the antebellum South. The region's political history will serve as a supporting part of the study. Previously offered as HIST 586.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 358. The New South. 3 Credits.

This course explores the transformation of the South from the time of the Civil War and emancipation to the contemporary rise of the Sunbelt. Previously offered as HIST 587.

Rules & Requirements

Grading Status: Letter grade.

HIST 359. The Early American Republic, 1789-1848. 3 Credits.

The society and politics of the United States during the period dominated by President Andrew Jackson. Topics include economic development, the expansion of slavery, religion and reform, the changing roles of women, and the political movements associated with 'Jacksonian democracy'. Previously offered as HIST 563.

Rules & Requirements

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

 **HIST 360. Ideas in Modern America. 3 Credits.**

This course surveys questions that have preoccupied leading thinkers and shaped intellectual culture in America since 1870. Themes include the problem of defining American identity, the clash between faith and reason, social injustice, the meaning of "modernity," the power and pitfalls of ideology, conceptions of human nature. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-POWER, RESEARCH.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

HIST 361. Lesbian, Gay, Bisexual, and Transgender Histories in the United States. 3 Credits.

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

HIST 437. Aristocratic Culture in the Central Middle Ages. 3 Credits.

This course has as its theme the lives of aristocratic men and women in western Europe between about 850 and 1200 CE. Discusses the nature of aristocratic identity, the trends that shaped the lives of aristocratic men and women, and the different roles of men and women within aristocratic culture.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

HIST 438. Medieval Masculinities, 500-1200. 3 Credits.

This course examines the multifaceted constructions of masculinity found in narrative texts produced in medieval western Europe. Focuses on topics such as gender relations, male self-fashioning, homosocial bonding, family structures. Sources studied range from epic and romance to chronicles and visual records. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, CI, WB.

Grading Status: Letter grade.

HIST 439. Environmental China: Premodern Political Ecology. 3 Credits.

This course explores the history of premodern China from an environmental perspective. Based on mini-lectures and intensive discussions, it investigates diverse modes and sites of human-nature interactions such as agriculture, forestry, marine activities, natural disasters, and landscape cultivation.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST, RESEARCH.

Grading Status: Letter grade.

Same as: CHIN 439.

HIST 440. Gender in Indian History. 3 Credits.

An analysis of the roles of women and men in Indian societies from the early to the modern periods. Topics include the cultural construction of gender and sexuality; beauty and bodily practices; gender and religion; gender and politics; race, imperialism, and gender. Previously offered as HIST/ASIA 556.

Rules & Requirements

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: ASIA 440.

HIST 441. Beauty and the Body in Pre-Colonial Indian History. 3 Credits.

This course will discuss theories of beauty and the body in Indian History (c. 3 - 17th centuries) and their relation to differing constructions of gender.

Rules & Requirements

Grading Status: Letter grade.

HIST 442. Religion, Co-existence, and Conflict in Pre-Colonial India. 3 Credits.

This course traces the fascinating history of material, cultural, and theological exchanges and conflicts between individuals belonging to two of the world's major religions: Hinduism and Islam. Throughout the course we will also analyze how modern commentators have selectively used the past to inform their understandings of the present. Previously offered as HIST/ASIA 555.

Rules & Requirements

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

Same as: ASIA 441.

HIST 443. Settler Colonialism in Global Perspective. 3 Credits.

This seminar introduces the field of settler colonial studies and history. It investigates how settler colonial polities consolidated during and after the global "settler revolution," how they managed relations with the imperial metropole and dealt with the Indigenous populations, whose resistance, adaptation, survival and agency also feature.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

HIST 445. Humanitarianism in Historical Perspective. 3 Credits.

This seminar examines humanitarianism in global context around 1800, beginning with the formation of humanitarian movements dedicated to alleviating suffering and especially ending slavery. It traces the movement's complicated relationship to empire in the 19th century, and the professionalization of humanitarian aid in the 20th century.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

HIST 448. Gender and the Law in United States History. 3 Credits.

This course will explore how the law in America has defined and regulated gender and sexuality. Significant topics will range from marriage, reproduction and the family to suffrage, work, and social movements. Honors version available.

Rules & Requirements

Making Connections Gen Ed: NA, US.

Grading Status: Letter grade.

HIST 452. The Renaissance: Italy, Birthplace of the Renaissance, 1300-1550. 3 Credits.

A study of the people, culture, and intellectual achievements of the Italian Renaissance with emphasis on the interaction between culture and society.

Rules & Requirements

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

HIST 453. Mediterranean Societies and Economics in the Renaissance World. 3 Credits.

A picture of Mediterranean social and economic life 1300 to 1600, with special focus on rural and urban society, family structure, patronage, work and wages, public and private finance.

Rules & Requirements

Making Connections Gen Ed: HS, NA, WB.

Grading Status: Letter grade.

HIST 454. The Reformation. 3 Credits.

Examines a movement of religious reform that shattered Latin Christendom and contributed many of the conditions of early modern Europe. Emphases: religious, political, social.

Rules & Requirements

Grading Status: Letter grade.

Same as: RELI 454.

HIST 456. The Holocaust, Genocide and Historical Methodology. 3 Credits.

This seminar will familiarize students with foundational works of Holocaust historiography as well as with newer works that challenge old interpretations and methodologies. Throughout the course we will look at the mutual influences of historical writing and memory of the Holocaust as societies have come to terms with the dark past of the Second World War; the course will also examine historical writing as a form of representation and memory. Previously offered as HIST 743.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST or FC-POWER.

Making Connections Gen Ed: BN, GL.

Grading Status: Letter grade.

HIST 457. Liberalism, Socialism, and Fascism in Europe. 3 Credits.

This seminar examines liberal, socialist, communist, and fascist political systems in Europe during the twentieth century by comparing and contrasting their ideologies and approaches to their citizens' welfare. The seminar compares European and US experiences, and also attends to conservative critiques of the expansion of government activity in the 1940s.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.

Making Connections Gen Ed: HS, NA.

Grading Status: Letter grade.

History Major, B.A.

The Department of History educates students about the past, teaching them to discover the rich diversity of historical human experiences.

The study of history also equips students with the valuable critical thinking, research, and communication skills they need to succeed in

the present, preparing them for a wide variety of careers and a life of informed citizenship.

Student Learning Outcomes

Upon completion of the history program, students should be able to:

- Appreciate the diversity of human experiences in past eras and parts of the globe
- Identify substantive, well-reasoned topics of historical inquiry for analysis
- Evaluate the quality of historical scholarship and conflicting views of the past
- Analyze primary sources to develop evidence-based arguments
- Produce and document original knowledge about the past in a field of expertise
- Communicate historically informed knowledge in written, digital, and/or oral forms

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
A total of 10 HIST courses		
Four to six courses in a field of concentration (geographical or thematic). See lists below.		12-18
Four to six courses outside the field of concentration		12-18
HIST 398	 Undergraduate Seminar in History (This seminar can be in the field of concentration or outside it.) ^H	3
One course in Latin America or Africa, Asia, and Middle East history		3
At least six courses numbered 200 or above		
Total Hours		30

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Each major shall concentrate in one area (see lists below), or students must devise a thematic concentration and have it approved by the chair of the Undergraduate Studies Committee.

The Department of History offers multiple sections of the required HIST 398 undergraduate seminar each semester. Each section focuses on a different topic. Prior to the course registration period, the

Department of History will distribute to all history majors information about the next semester's offerings of HIST 398.

All College of Arts and Sciences policies apply, including (but not limited to) the following.

- A maximum of 15 history courses (45 hours) may be applied toward the B.A. degree. Any courses beyond the minimal 10 (but not above the maximum of 15) will count as free electives.
- No more than five courses (15 hours) of transfer credit and College Board Advanced Placement/International Baccalaureate credit may count toward the major. Up to five courses (15 hours) of transfer credit may count toward the major, but only up to two courses (six hours) of College Board Advanced Placement or International Baccalaureate credit may count toward the major. In no case can the combination of transfer credits and AP/IB credits exceed 15 hours.

History (HIST) course descriptions (p. 776).

History Major, NUS Joint Degree

History majors may wish to consider applying for the Joint Degree Program (<https://studyabroad.unc.edu/find-program/joint-degree/>), an innovative undergraduate degree program joining UNC–Chapel Hill and the National University of Singapore, one of the top universities in Asia and the world. UNC–Chapel Hill undergraduates spend from two to four semesters at the National University of Singapore and receive a joint bachelor of arts degree with a major in history from both institutions.

Special Opportunities in History

Honors in History

The departmental honors program is open to any qualified history major with at least a 3.3 cumulative grade point average and, under normal circumstances, a 3.4 in history courses, and experience in research and writing derived from an undergraduate seminar in history (HIST 398). The student pursuing a degree in history with honors must take HIST 691H and HIST 692H; these two courses contribute credit hours toward fulfilling field-of-concentration requirements, depending on the topic of the thesis. The student, in consultation with the honors

director, will choose a topic and locate an appropriate faculty member to supervise a senior honors thesis. In HIST 691H the mechanics of researching and writing a senior essay will be discussed and a start made on the essay itself. In HIST 692H the essay will be completed and the student examined by the supervisor and at least one additional faculty member to be agreed upon by the student and supervisor. To receive highest honors the essay must be recommended by the examiners and a review committee. The director of honors, in consultation with the examiners and review committee, will recommend that the student who has defended the essay graduate with either honors or highest honors, or merely with course credit. Students should submit applications for the honors program by the end of February during their junior year. For detailed guidelines click here (<http://history.unc.edu/undergraduate-program/senior-honors-thesis/>) or contact the director of honors in the Department of History.

Departmental Involvement

Students with broad interests in the intellectual and social life of the department may volunteer to serve on the department's Undergraduate Studies Committee (UGSC). Each spring the department invites majors to volunteer for the UGSC, and the selection is made at the start of the next fall semester by the faculty members on the UGSC. Students may also plan or participate in activities organized by the Undergraduate History Club as well as, for those who are eligible, UNC–Chapel Hill's chapter of Phi Alpha Theta (described more fully below under "Undergraduate Awards"). For more information about the UGSC, the History Club, and Phi Alpha Theta, see department's website (<https://history.unc.edu/>) or contact the coordinator for undergraduate studies in the Department of History.

Experiential Education

In some cases, students majoring in history may wish to pursue internship opportunities. Questions and requests regarding internships should be directed to the department's lecturer/advisor, who has responsibility for evaluating internship proposals and deciding whether an internship may be taken for academic credit. For more information, click here (<https://history.unc.edu/undergraduate-opportunities/>).

All history majors will receive credit for the Research and Discovery requirement (in the IDEAs in Action General Education curriculum) or the Experiential Education requirement (in the Making Connections General Education curriculum) when they complete HIST 398.

Study Abroad

The department strongly encourages its students to explore the many study abroad opportunities provided by the Study Abroad Office. The experience of studying abroad opens intellectual horizons that can be glimpsed only in unfamiliar worlds, and it deepens one's appreciation for the enduring power of historical context and circumstance.

The Department of History participates in a unique joint degree program with the National University of Singapore. The department also has an exchange program with King's College in London. For further information about both programs, contact the Study Abroad Office and the director of undergraduate studies in the department. General information for history majors wishing to study abroad can be found on the department's website (<http://history.unc.edu/undergraduate-program/study-abroad/>).

Undergraduate Awards

All majors who complete the required undergraduate seminar (HIST 398) are automatically eligible for the annual Joshua Meador Prize, awarded to the author of the best seminar paper written in the preceding calendar

year. A named prize is also awarded to the author of the best honors thesis; the award is announced at the annual spring honors banquet.

The Department of History sponsors a chapter of Phi Alpha Theta, the national history honor society. Students who have taken 12 hours of history courses at UNC–Chapel Hill and who have an overall grade point average of 3.0 and an average in history courses of 3.1 are eligible to apply for membership. An announcement regarding applications for Phi Alpha Theta will be distributed to all history majors in the fall semester.

Undergraduate Research

The Department of History encourages undergraduate research in a variety of ways. The required seminar for majors (HIST 398) introduces students to historical research. The senior honors program (HIST 691H and HIST 692H) gives students an opportunity to carry out a yearlong research project. In both the fall and spring semesters, senior honors students may apply for competitive awards, including the Michael L. and Matthew L. Boyatt Awards in History for Undergraduate Research and the David Anthony Kusa Undergraduate Research Award, to help support travel for the purpose of research.

History Minor

The study of history is an essential part of a liberal arts education and offers valuable preparation for many careers: in law, journalism, libraries, and museums; in local, state, and national public service; in business; in international work; and, of course, in historical research and teaching.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
Five history (HIST) courses taken in the Department of History ^{1, 2}		15
Total Hours		15

¹ A maximum of two courses can be numbered below 200.

² No more than one course (3 hours) of College Board Advanced Placement or International Baccalaureate credit may count toward the minor.

History (HIST) course descriptions (p. 776).

See the program page here (p. 813) for special opportunities.

Medieval and Early Modern Studies (MEMS) Minor

The undergraduate minor in medieval and early modern studies provides students with a broad, humanities-based approach to the rich and fascinating cultures that flourished globally from around 500 CE to 1800 CE.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

This interdisciplinary minor requires students to take five classes representing at least three different subject codes.

Code	Title	Hours
Core Requirements		
One core course chosen from:		3
ARTH 264	Medieval Art in Western Europe	
ASIA/HIST 135	History of the Indian Subcontinent to 1750	
ASIA/RELI 180	Introduction to Islamic Civilization	
CMPL 120	Great Books I: Epic and Lyric Traditions	
ENGL 120	British Literature, Medieval to 18th Century ^H	
HIST 107	Medieval History	
HIST 158	Early Modern European History, 1450-1815	
MUSC 251	Studies in Medieval and Early Modern Music	

At least one course at the 300 level or above

3

No more than three courses at the 100 level (including the core course)	9
Total Hours	15

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

The following courses are approved for the MEMS minor. With the prior approval of the MEMS minor supervisor up to two courses can be applied to the minor as transfer credits from other institutions.

LATN 205	Medieval Latin	3			
MUSC 251	 Studies in Medieval and Early Modern Music	3			
PHIL 215	 Medieval Philosophy	3			
PHIL 220	 17th and 18th Century Western Philosophy ^H	3			
PHIL 415	Medieval Philosophy	3			
PHIL 421	 Rationalism	3			
PHIL 422	 Empiricism	3			
PHIL 470	Political Philosophy from Hobbes to Rousseau	3			
PORT 501	Survey of Portuguese Literature I	3			

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Restricted to first-year students only.

See the program page here (p. 813) for special opportunities.

Department Programs

Majors

- English and Comparative Literature Major, B.A. (p. 574)

Minors

- Comparative Literature Minor (p. 582)
- Composition, Rhetoric, and Digital Literacy Minor (p. 583)
- Creative Writing Minor (p. 585)
- English Minor (p. 587)
- Global Cinema Minor (p. 588)
- Latina/o Studies Minor (p. 590)
- Medicine, Literature, and Culture Minor (p. 591)
- Medieval and Early Modern Studies Minor (p. 815)

Graduate Programs

- Ph.D. in English and Comparative Literature (https://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/#PhD_English)
- M.A. in English (<https://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/>) with a Concentration in

Literature, Medicine, and Culture (https://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/#MA_English)

Interdisciplinary Studies

The Office of Undergraduate Curricula manages the interdisciplinary studies (IDST) curriculum. The IDST curriculum includes an interdisciplinary studies major (p. 825) for students who wish to develop a major different from those already offered by the departments and curricula belonging to the College of Arts and Sciences. It also includes a collection of interdisciplinary studies (IDST) courses, which you can find listed on the 'Courses' tab above.

Major

- Interdisciplinary Studies Major, B.A. (p. 825)

IDST–Interdisciplinary Studies Undergraduate-level Courses

IDST 89. First-Year Seminar: Special Topics. 3 Credits.

Content varies each semester.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

Grading Status: Letter grade.

IDST 101. College Thriving. 1 Credits.

College Thriving empowers all students to participate fully in the opportunities of a research university and find resources to support them in their educational pursuits at Carolina. The course enhances and provides new tools to support students' ability to study systematically, learn deeply, and monitor and foster their own well-being. First-year students only. Members of Honors Carolina will fulfill this requirement with HNRS 101 instead.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-THRIVE.

Grading Status: Pass/Fail.

IDST 111. Triple-I: Ethics, Economics, and Public Policy. 3 Credits.

This interdisciplinary course provides an overview of core tools used to analyze issues at the intersection of ethics, economics and public policy. It introduces students to the tools of economic analysis, including markets, prices, and market failures; discusses the ethical dimensions of markets and public policy, including socio-economic justice, the nature of well-being, and individual liberty; and describes challenges in political organization and action that confront policy makers motivated by economic or ethical objectives.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-TRIPLE.

Requisites: Corequisite, IDST 111L.

Grading Status: Letter grade.

IDST 111L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 111 and 111L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 111.

Grading Status: Letter grade.

IDST 112. Triple-I: Death and Dying. 3 Credits.

Death and dying are universal human experiences. Yet there are cultural and historical variations in how we define and experience death and dying. This course explores the concepts of death and dying from three different disciplines (examples may include, but are not limited to, Anthropology, English and Comparative Literature, and Psychology and Neuroscience). This course will consider similarities and differences between the discipline research methodologies and introduce students to data literacy and principles of evidence.

Rules & Requirements

 IDEAs in Action Gen Ed: FY-TRIPLE.

Requisites: Corequisite, IDST 112L.

Grading Status: Letter grade.

IDST 112L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 112 and 112L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 112.

Grading Status: Letter grade.

IDST 113. Triple-I: The Idea of Race. 3 Credits.

The idea that humans can be divided into distinct races has been used to justify the persecution, enslavement, and extermination of groups based on their presumed inferiority. Today, scientists agree that what we describe as races are in fact social constructs, not genetic realities. Students will learn why race is not a viable biological concept, how the idea of race arose and is maintained, and what alternatives exist for understanding diversity and change over time.

Rules & Requirements

IDEAs in Action Gen Ed: FY-TRIPLE.

Requisites: Corequisite, IDST 113L.

Grading Status: Letter grade.

IDST 113L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 113 and 113L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 113.

Grading Status: Letter grade.

IDST 114. Triple-I: Science Fiction, the Environment, and Vulnerable Communities. 3 Credits.

This course focuses on the question of how the genre of science fiction has been used to address the world's environmental concerns and how these concerns affect communities differently depending on their gender, race, and class. The course investigates global environmental challenges including resources, overpopulation, consumption, and climate change. Emphasis will be placed on texts and characters created by women and ethnic minorities. Students will be introduced to comparative, global, intersectional, and interdisciplinary approaches.

Rules & Requirements

IDEAs in Action Gen Ed: FY-TRIPLE.

Requisites: Corequisite, IDST 114L.

Grading Status: Letter grade.

IDST 114L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 114 and 114L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 114.

Grading Status: Letter grade.

IDST 115. Triple-I: Understanding Health and Happiness. 3 Credits.

This course exposes students to diverse scientific approaches to understanding happiness and subjective and physical well-being. The three professors offer perspectives from three disciplines: physiology, psychology, and sociology. The course teaches students research skills as well as evidence-based life skills, such as teamwork, developing social connections including "belongingness" at UNC, being physically active, and becoming confident that they can deploy these skills to increase their happiness and health.

Rules & Requirements

IDEAs in Action Gen Ed: FY-TRIPLE.

Requisites: Corequisite, IDST 115L.

Grading Status: Letter grade.

IDST 115L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 115 and 115L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 115.

Grading Status: Letter grade.

IDST 116. Triple-I: Gender. 3 Credits.

This course will consider gender through the lenses of three distinct disciplines. We will explore gender-related issues and consider how gender has been conceptualized, represented, and challenged throughout history. This course will establish a foundation from which students can think critically about gender from multiple perspective-personal, social, cultural, and political.

Rules & Requirements

IDEAs in Action Gen Ed: FY-TRIPLE.

Requisites: Corequisite, IDST 116L.

Grading Status: Letter grade.

IDST 116L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 116 and 116L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 116.

Grading Status: Letter grade.

 **IDST 117. Triple-I: Experiencing Latin America: Bodies, Belonging, Nature. 3 Credits.**

This course examines linguistic, geopolitical, and socio-environmental boundaries to foster an inter-sectional understanding of identity and belonging in the Americas. Course topics (e.g., migration, justice, environmental well being) are examined through Spanish language-based films and artwork. Students will expand their understanding of the Spanish language, context art, and global issues. Students will have assignments that involve performance, creative design, and fabrication.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-TRIPLE.

Requisites: Corequisite, IDST 117L.

Grading Status: Letter grade.

IDST 117L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 117 and 117L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 117.

Grading Status: Letter grade.

 **IDST 118. Triple-I: Fake News, Real Science. 3 Credits.**

How can you distinguish "good" science and "bad" science in the world around you? This course focuses on scientific literacy, the defining characteristics of "good" science, and how to identify logical fallacies and heuristic shortcuts that make legitimate science difficult to discern. We will discuss best practices for science educators and journalists to effectively communicate accurate scientific knowledge. Each semester we will focus on two relevant science issues, e.g COVID-19 and climate change.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-TRIPLE.

Requisites: Corequisite, IDST 118L.

Grading Status: Letter grade.

IDST 118L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 118 and 118L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 118.

Grading Status: Letter grade.

 **IDST 119. Triple-I: Food: People, Politics, and Policies. 3 Credits.**

Have you ever thought about the food you eat? If you ate a hamburger or a salad, where did that meal come from? If you were living in a different country, what would this meal look like? Who are the laborers who made the meal possible? Is your body designed for this food? How do we make policies about food? What are the ethical concerns around food? This course will discuss these questions and more.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-TRIPLE.

Requisites: Corequisite, IDST 119L.

Grading Status: Letter grade.

IDST 119L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 119 and 119L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 119.

Grading Status: Letter grade.

 **IDST 120. Triple-I: Myths, Moons, and Methods. 3 Credits.**

This course focuses on astronomy as it developed in the ancient Mediterranean and early modern Europe, from astronomy's early beginnings as a means to keep calendars and the underpinnings of mythology, to its central role for developing natural sciences during the early modern period. Students will acquire skills to understand how different epochs interpreted the generation of knowledge; how their interpretations were influenced by their culture, mythology, and religion; and how science arrives at knowledge.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-TRIPLE.

Requisites: Corequisite, IDST 120L.

Grading Status: Letter grade.

IDST 120L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 120 and 120L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 120.

Grading Status: Letter grade.

 **IDST 121. Triple-I: Performing and Imagining the American South. 3 Credits.**

The Mason-Dixon line marks a physical boundary of the US South, but Southern identity arises from more than a line on a map. This course will examine the South through its music, film, literature, and public rhetoric, to consider how those elements intersect with economic, technological, and political factors. In short, how can the South be simultaneously the birthplace of rock and roll and the origin of the "Southern Strategy", American authenticity and Coca Cola?

Rules & Requirements **IDEAs in Action Gen Ed:** FY-TRIPLE.**Requisites:** Corequisite, IDST 121L.**Grading Status:** Letter grade.**IDST 121L. Data Literacy Lab. 1 Credits.**

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 121 and 121L in the same semester.

Rules & Requirements**Requisites:** Corequisite, IDST 121.**Grading Status:** Letter grade. **IDST 122. Triple-I: Humans and the Cosmos. 3 Credits.**

This course is an interdisciplinary introduction to some of the most essential and exciting debates about humanity's relationship to the universe. We explore such topics as the beginning of existence, the nature of time, contact with the supernatural world, and predictions about the end of all things - from the perspective of philosophy, physics, history, and related disciplines.

Rules & Requirements **IDEAs in Action Gen Ed:** FY-TRIPLE.**Requisites:** Corequisite, IDST 122L.**Grading Status:** Letter grade.**IDST 122L. Data Literacy Lab. 1 Credits.**

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 122 and 122L in the same semester.

Rules & Requirements**Requisites:** Corequisite, IDST 122.**Grading Status:** Letter grade. **IDST 123. Triple-I: Borders and Boundaries. 3 Credits.**

What are borders and boundaries? How have they changed over time? How do people experience borders and what can they do when they impinge on their lives? We will address these and other questions through case studies anchored in the ancient and modern Middle East and Mediterranean. We will study the cultural and political effects of borders and boundaries, especially the experience of bordering practices by refugees and migrant communities across time.

Rules & Requirements **IDEAs in Action Gen Ed:** FY-TRIPLE.**Requisites:** Corequisite, IDST 123L.**Grading Status:** Letter grade.**IDST 123L. Data Literacy Lab. 1 Credits.**

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 123 and 123L in the same semester.

Rules & Requirements**Requisites:** Corequisite, IDST 123.**Grading Status:** Letter grade. **IDST 124. Triple-I: Pandemics: Ethics, Literatures, and Cultures. 3 Credits.**

The COVID-19 pandemic transformed life dramatically for millions of people. Yet its realities - social distancing, quarantine, protective masks, job loss, education disruption, anxiety, loneliness and death, have been part of life during pandemics and epidemics across time and global space. This course brings three specific lenses and sets of methods to bear on experiences of pandemics - those of literature, anthropology, and philosophy. Themes of care, resource inequalities, stigma, and knowledge production are highlighted.

Rules & Requirements **IDEAs in Action Gen Ed:** FY-TRIPLE.**Requisites:** Corequisite, IDST 124L.**Grading Status:** Letter grade.**IDST 124L. Data Literacy Lab. 1 Credits.**

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 124 and 124L in the same semester.

Rules & Requirements**Requisites:** Corequisite, IDST 124.**Grading Status:** Letter grade.

IDST 125. Triple-I: The Art and Science of Expertise. 3 Credits.

In this course, students will learn a framework of expertise development and self-regulation to pursue mastery. Through course materials, collaborative discussions, and interdisciplinary instructor perspectives, students will develop an understanding of their goals, what it takes to become extraordinary in these areas while maintaining their psychological well-being, and a personalized plan to maximize their potential. Topics covered include psychology of motivation and positive functioning, deliberate practice, accountability, competitiveness, leadership, resilience, happiness, flow, and performance measurement.

Rules & Requirements

IDEAs in Action Gen Ed: FY-TRIPLE.

Requisites: Corequisite, IDST 125L.

Grading Status: Letter grade.

IDST 125L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 125 and 125L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 125.

Grading Status: Letter grade.

IDST 126. Triple-I: Values and Prices. 3 Credits.

Oscar Wilde wisely warns against being someone "who knows the price of everything and the value of nothing" (Lady Windemere's Fan). Of course, people often use the price as shorthand for value. Useful as this is, it is misleading, too, in ways that matter to critical thinking and rational decision making. In this course, we will be exploring the differences - and connections - between prices and values.

Rules & Requirements

IDEAs in Action Gen Ed: FY-TRIPLE.

Requisites: Corequisite, IDST 126L.

Grading Status: Letter grade.

IDST 126L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 126 and 126L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 126.

Grading Status: Letter grade.

IDST 127. Triple-I: What is Art? Where is Art?. 3 Credits.

What is art? Where is it found? Museums are devoted to it, scholars study it, collectors spend millions to own it. And yet, definitions of art reveal more about the people doing the defining than they do about the creative expressions themselves. By asking the question—rather than by answering it—this class will explore why art matters as a category and what changing conceptions of art tell us about people and cultures around the world.

Rules & Requirements

IDEAs in Action Gen Ed: FY-TRIPLE.

Requisites: Corequisite, IDST 127L.

Grading Status: Letter grade.

IDST 127L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 127 and 127L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 127.

Grading Status: Letter grade.

IDST 128. Triple-I: Never in Polite Company: Talking about Religion and Politics in Public. 3 Credits.

This course will introduce students to different ethical perspectives and distinctive approaches to current issues including, but not limited to, memory, race, elections, public opinion, gender, sexuality, money, and social media. Students will engage the histories, politics, and religious traditions of communities that historically have been disempowered and interrogate structural processes of bias and inequality with the goal of interrogating these systems and learning how to speak about resistance and transformation.

Rules & Requirements

IDEAs in Action Gen Ed: FY-TRIPLE.

Requisites: Corequisite, IDST 128L.

Grading Status: Letter grade.

IDST 128L. Data Literacy Lab. 1 Credits.

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 128 and 128L in the same semester.

Rules & Requirements

Requisites: Corequisite, IDST 128.

Grading Status: Letter grade.

 **IDST 129. Triple-I: Countering Hate. 3 Credits.**

Many of our cultural endeavors are aimed at overcoming the fears, suspicions, and misunderstandings that manifest as racism, misogyny, antisemitism, Islamophobia, homophobia, etc. In this class, we examine the cognitive and political roots of hatred as well as cultural efforts to overcome it through performance, literature, film, photography, and faith. We ask: How have artists and faith leaders addressed such animosity, and how can our practices of reading, viewing, listening, and scholarship counter hate?

Rules & Requirements **IDEAs in Action Gen Ed:** FY-TRIPLE.**Requisites:** Corequisite, IDST 129L.**Grading Status:** Letter grade.**IDST 129L. Data Literacy Lab. 1 Credits.**

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 129 and 129L in the same semester.

Rules & Requirements**Requisites:** Corequisite, IDST 129.**Grading Status:** Letter grade. **IDST 130. Triple-I: The Future of Food. 3 Credits.**

This course combines perspectives from science fiction studies, anthropology, public policy, and marine ecology to study the food we eat now and the food we might eat in the future. We will explore how our love of and need for food influences our social and political structures, trade and conflict among cultures, and our relationship with our planet. Using fiction, films, and research we will examine (future) food technologies, policies, sustainability, and eating practices.

Rules & Requirements **IDEAs in Action Gen Ed:** FY-TRIPLE.**Requisites:** Corequisite, IDST 130L.**Grading Status:** Letter grade.**IDST 130L. Data Literacy Lab. 1 Credits.**

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 130 and 130L in the same semester.

Rules & Requirements**Requisites:** Corequisite, IDST 130.**Grading Status:** Letter grade. **IDST 132. Triple-I: Science for Hyperpartisan Times. 3 Credits.**

This course aims to help students navigate the messy intersection of science, policy, and politics by teaching how the substance, history, presentation, and interpretation of science influence our understandings of the world. Students will: 1) analyze public discourse and debate about science, 2) consider how philosophies, data, and interpretations are created, delivered, and received, and 3) discuss how these factors - alongside partisan politics and bias from both sides of the aisle - influence science.

Rules & Requirements **IDEAs in Action Gen Ed:** FY-TRIPLE.**Requisites:** Corequisite, IDST 132L.**Grading Status:** Letter grade.**IDST 132L. Data Literacy Lab. 1 Credits.**

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 132 and 132L in the same semester.

Rules & Requirements**Requisites:** Corequisite, IDST 132.**Grading Status:** Letter grade. **IDST 133. Triple-I: How to Not Be Fooled - Or Fool Yourself. 3 Credits.**

How do you avoid being fooled by bogus claims? In this class, we examine climate change and the age of Earth and the universe - two topics where our underlying beliefs push us toward conclusions that conflict with the evidence. In addition to learning the science underlying these topics, we will learn the psychology of belief systems, why our brains reject some information, and how to deal with uncertainty, recognize logical fallacies, and examine claims.

Rules & Requirements **IDEAs in Action Gen Ed:** FY-TRIPLE.**Requisites:** Corequisite, IDST 133L.**Grading Status:** Letter grade.**IDST 133L. Data Literacy Lab. 1 Credits.**

This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 133 and 133L in the same semester.

Rules & Requirements**Requisites:** Corequisite, IDST 133.**Grading Status:** Letter grade.

IDST 180. First-Generation College Students in Higher Education. 1 Credits.

First-generation college students will have the opportunity to explore their first-generation identity and start to define what it means for them to be a scholar and citizen leader. The course will introduce scholars to educational research on the first-generation college student experience and allow scholars the opportunity to reflect on their own experience and salient identities in the college environment. Education equity and diversity in higher education will be addressed through course readings and activities.

Rules & Requirements

Grading Status: Letter grade.

 **IDST 190. Triple-I: Special Topics. 3 Credits.**

This is a Triple-I special topics course. Content varies each semester.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-TRIPLE.

Requisites: Corequisite, IDST 190L.

Grading Status: Letter grade.

IDST 190L. Special Topics in Interdisciplinary Studies Lab. 1 Credits.

Special topics course. Content varies each semester.

Rules & Requirements

Requisites: Corequisite, IDST 116, 118, 119, or 190.

Grading Status: Letter grade.

IDST 195. Undergraduate Research Consulting Team. 1 Credits.

A mentored research course for students participating in an undergraduate research consulting team under the supervision of a faculty advisor. Requires participation in research and a report/presentation.

Rules & Requirements

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.

Grading Status: Pass/Fail.

IDST 197. Research with the American South. 1 Credits.

A seminar designed to introduce Southern Futures Fellows to research and creative discovery with the American South, with a focus on the arts and humanities. Course includes guest lectures, site visits, and assignments that will help Fellows develop their summer research, creative discovery, or service project. Priority enrollment for Southern Futures Fellows. Students interested in pursuing undergraduate research with the American South, particularly in the Arts and Humanities, are encouraged to take course, space permitting.

Rules & Requirements

Grading Status: Pass/Fail.

IDST 198. Research beyond Academia. 1 Credits.

Researchers from the Triangle region and beyond will discuss their research to provide students with exposure to research opportunities and careers outside academia. This course meets a requirement for the Carolina Research Scholars Program.

Rules & Requirements

Grading Status: Pass/Fail.

IDST 199. Modes of Inquiry. 1 Credits.

A seminar in which faculty discuss their own work. Students will learn how topics are defined and investigated and how undergraduates can engage in discovery. Pass/Fail only.

Rules & Requirements

Grading Status: Pass/Fail.

IDST 201. Increasing Diversity in STEM Research. 1 Credits.

Required of Chancellor's Science Scholars and open to others by permission of the instructor. The course will explore the broad range of STEM research available at UNC-Chapel Hill, and will address issues of developing more diversity in the STEM research workforce nationwide. Permission of the instructor to add and drop this course.

Rules & Requirements

Interdisciplinary Studies Major, B.A.

Overview

The interdisciplinary studies major provides an innovative space and a flexible, individualized program structure for students who wish to develop a major different from those already offered by the departments and curricula belonging to the College of Arts and Sciences. Interdisciplinary studies majors are designed to support rigorous investigation of a topic, theme, or area of inquiry, mastery of which requires advanced coursework in multiple disciplinary fields. An IDST major allows motivated students to engage complex problems and emerging areas of knowledge that exceed traditional disciplinary boundaries. They must be well conceived and substantially different from majors that students pursue through traditional departments, schools, and curricula. While encouraging creativity, IDST majors will be focused and coherent. Interdisciplinary studies should not be seen as a default major for someone undecided about their course of study.

Interdisciplinary studies majors work with their individually selected faculty advisors to develop a customized program of courses for their designated field. Besides guiding students on course selections, faculty advisors serve as mentors on career planning, graduate work, and co-curricular opportunities. To be admitted to the major, students must have a grade point average of at least 3.0 and at least 45 hours left before graduation. Students are strongly encouraged to meet most of the General Education requirements (e.g., First-Year Foundations and Focus Capacities) before pursuing the interdisciplinary studies major.

Admission to the Program

The interdisciplinary studies major is an application-based program. Students can apply to the major after their first year at UNC. The program has two application deadlines:

- Fall deadline: September 1
- Spring deadline: February 1

Additional instructions about the application process can be found on the Office of Undergraduate Curricula website (<https://curricula.unc.edu/interdisciplinary-studies-major/>).

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Interdisciplinary Studies Major, B.A.

Code	Title	Hours
Core Requirements		
Eight courses chosen from at least three departments and which must be appropriate for juniors and seniors majoring in those departments. ^{1, 2, 3}		24
Total Hours		24

- ¹ A maximum of four courses from any one department
- ² For students interested in Cultural Studies, COMM 350 Practices of Cultural Studies must be included as one of the eight courses. For more information, please contact the Cultural Studies Faculty Director and Advisor in the Department of Communication (<https://comm.unc.edu/undergraduate-studies/major-in-cultural-studies/>).
- ³ With the permission of the relevant professional school, a student may use up to 12 hours of professional courses (e.g., in business administration, media and journalism, information and library science, public health, education) in the IDST major. This can be advantageous to students who want some concentration in these areas but who also want a degree in arts and sciences.

The courses should form a coherent major to which the student is able to assign a title. Additionally, students are encouraged to select electives and General Education courses that complement the eight courses chosen for the major.

Special Opportunities in Interdisciplinary Studies

Qualified students may pursue honors through one of the departments or curricula included in their major core. IDST students may participate in the undergraduate research opportunities available in the departments and curricula that constitute their program of study; they sometimes complete an internship either in the summer or during the academic year, and an honors thesis in their senior year.

Curriculum in Latin American Studies Introduction

The three main goals of the Curriculum in Latin American Studies are

- to develop students' basic knowledge and comprehension of key themes in Latin American and Caribbean history, cultures, and contemporary social, economic, and political issues;
- to develop students' abilities to think critically, in an interdisciplinary manner, about Latin American and Caribbean issues, past and present, and to locate them within broader global perspectives;
- to develop students' proficiency in Spanish or Portuguese and other languages of the region as needed, as part of their program of study.

Advising

All majors have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies (DUS) works with current and prospective majors by appointment. Majors are expected to meet with the LTAM DUS once a semester and to attend at least one meeting of the LTAM majors a year. Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research and internship funding opportunities, and the honors program may be obtained through the Curriculum in Latin American Studies web page (<http://isa.unc.edu>) or by contacting the director of undergraduate studies (see contacts tab above).

Graduate School and Career Opportunities

The Curriculum in Latin American Studies provides advice for students interested in pursuing graduate school and career opportunities in Latin America or the Caribbean. Please contact the director of undergraduate studies for an appointment. The Curriculum in Latin American Studies participates in a five-year cooperative B.A.–M.A. program with the Center for Latin American Studies at Georgetown University. The agreement allows qualified Latin American studies majors to earn an M.A. in Latin American studies from Georgetown in a year and a summer rather than the normal three to four semesters. For details on the cooperative degree program and on support for academic research and study, contact the director of undergraduate studies.

LTAM–Latin American Studies

Undergraduate-level Courses

 **LTAM 52. First-Year Seminar: The Cuban Revolution, Latin America, and the United States. 3 Credits.**

The Cuban Revolution, Latin America, and the United States will explore multiple facets of the Cuban Revolution and its impact in Latin America and the United States. The Cuban Revolution was received throughout much of the region as a model through which to address historic conditions of inequality, injustice and indigence. This seminar examines this historic moment.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

 **LTAM 89. First-Year Seminar: Special Topics. 3 Credits.**

Special topics course. Content will vary each semester.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

LTAM 101. Introduction to Latin American Studies. 3 Credits.

A broad interdisciplinary introduction to the field of Latin American studies.

Rules & Requirements

Making Connections Gen Ed: BN, GL.

Grading Status: Letter grade.

 **LTAM 215. Peoples, Cultures, and Landscapes of Latin America. 3 Credits.**

Peoples, Cultures, and Landscapes of Latin America explores the peopling of the Americas by Amerindian, African and Afro descendant peoples, and Europeans. It will consider the inequalities of power, wealth, and autonomy across gender, ethnicity, and class in Latin America to understand more fully their deep historical roots and their persistence into our own time. We will learn how Latin America takes on greater meaning, when we consider this subcontinent in different phases of globalization.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-PAST.

Grading Status: Letter grade.

Same as: HIST 215.

LTAM 291. The Latino Experience in the United States. 3 Credits.

This is a reading and discussion seminar that will introduce students to topics in the history of Latinos in the United States from the 19th century to the present.

Rules & Requirements

Making Connections Gen Ed: HS, US.

Grading Status: Letter grade.

LTAM 314. Law and Society in Latin America. 3 Credits.

This course considers how a wide variety of groups in Latin America including indigenous people, Afro-descendant communities, women and religious minorities used the law to shape and challenge larger structures of imperial rule.

Rules & Requirements

Making Connections Gen Ed: HS, BN.

Grading Status: Letter grade.

Same as: HIST 314.

LTAM 350. The United States and Latin America. 3 Credits.

A thematic examination of US-Latin America relations spanning the 19th century to the present through multi-disciplinary perspectives and inter-disciplinary methodologies, including popular culture, film, original documents, and social science scholarship. To explore the evolving US-Latin America "relationship," the ways in which North Americans and Latin Americans came to know each other, through frequent encounters and close engagement, not only as a matter of government-to-government and state-to-state relations but also as people-to-people contacts and culture-to-culture exchanges.

Rules & Requirements

Making Connections Gen Ed: BN, GL.

Grading Status: Letter grade.

LTAM 390. Special Topics in Latin American Studies. 3 Credits.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading Status: Letter grade.

LTAM 396. Independent Study. 1-3 Credits.

Independent project to be arranged with an instructor.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

LTAM 401. Guanajuato Service Learning. 1 Credits.

This course uses experiential education to explore how Mexicans are building opportunities in migratory communities in the transnational city of Guanajuato. This one-credit course is open to students participating in the UNC Study Abroad Program at the University of Guanajuato, Mexico. Students submit a final paper.

Rules & Requirements

Grading Status: Pass/Fail.

 **LTAM 402. Heritage and Migration in North Carolina. 3 Credits.**

This course combines field research, oral history, and service learning to understand the immigration and settlement of Mexican and Latin American heritage communities in North Carolina. The course will address the ethical and practical aspects of the ethnographic method including the preparation, transaction and transcription of oral history interviews. Students will participate in a digital archive initiative and complete independent original research. Open to juniors and seniors and graduate students.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL, RESEARCH.

Grading Status: Letter grade.

LTAM 411. Summer Intensive Introductory Course in Yucatec Maya. 6 Credits.

A three-part intensive introduction to spoken and written modern Yucatec Maya, including classroom instruction; culture, history, and linguistics workshops; and a four-week field study in Yucatán, Mexico.

Rules & Requirements

Grading Status: Letter grade.

LTAM 512. Summer Intensive Continuing Course in Yucatec Maya. 6 Credits.

Continuing instruction in spoken and written Yucatec Maya. Classroom instruction; culture, history, and linguistics workshops; and field study. Taught in Yucatán, Mexico.

Rules & Requirements

Making Connections Gen Ed: EE- Field Work.

Requisites: Prerequisite, LTAM 411; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

LTAM 690. Seminar in Latin American Issues. 3 Credits.

Special topics course. Content will vary each semester.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading Status: Letter grade.

 **LTAM 691H. Honors in Latin American Studies. 3 Credits.**

Directed independent research leading to the preparation of an honors thesis.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 **LTAM 692H. Honors in Latin American Studies. 3 Credits.**
Completion of the honors thesis and an oral examination of the thesis.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 **LTAM 697. Capstone Seminar. 3 Credits.**

Interdisciplinary core seminar required of Latin American studies majors and open to other students. Topics vary by semester.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: BN, CI.

Grading Status: Letter grade.

Latin American Studies Major, B.A.

The five main goals of the Curriculum in Latin American Studies are

1. to enhance students' knowledge of a world region of vital importance to the national interest of the United States;
2. to encourage the development of Carolina students as global citizens;
3. to promote critical language competencies and cultural skills as a way to prepare students to succeed in public and private sector careers;
4. for students to acquire multi-disciplinary forms of knowledge as a way to understand the array of forces that have shaped modern Latin America;
5. to foster an understanding of the historical and cultural origins of the Latin American communities in the United States.

Student Learning Outcomes

Upon completion of the Latin American studies program, students should be able to:

- Demonstrate knowledge of the political, geographical, and social complexities of the region
- Demonstrate knowledge of the historical and cultural complexities of the region
- Demonstrate proficiency in Spanish or Portuguese (or other language(s) of the region if approved)
- Demonstrate an interdisciplinary grasp of Latin American literatures, arts, and ideas
- Apply basic research methods and skills and synthesize and evaluate scholarly research

- Gain admission to graduate programs or apply knowledge and skills learned in relevant careers

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements (10 courses)		
LTAM 101	Introduction to Latin American Studies (recommended) ¹	
LTAM 697	Capstone Seminar (required) ¹	
Four courses required in the declared primary sequence		12
Two courses in each of the other three sequences		18
Additional Requirements		
Spanish or Portuguese at least through the fifth-semester course ²		6
Total Hours		36

¹ both courses may count in any sequence.

² The first three levels of Spanish or Portuguese may count toward the General Education Foundations requirements and have not been included as additional hours for the major.

The Curriculum in Latin American Studies is divided into two concentrations: humanities and social sciences. These concentrations are further divided into sequences: humanities, into history and culture-literature sequences; social sciences, into journalism-political science and anthropology-economics-geography sequences. To ensure depth in a single discipline of Latin American and Caribbean studies, four of the 10 courses required for the major must be selected from one of the sequences. To ensure breadth of exposure to other areas of Latin American and Caribbean studies, two courses must be selected from each of the other three sequences.

Listed below are the most commonly offered courses in each sequence. Please note that not all the courses on Latin American and Caribbean topics are listed here, and many other courses may satisfy the major requirements. Special topics courses, first-year seminars, undergraduate seminars, independent studies, and capstone courses taught by Latin Americanist and Caribbeanist faculty members on Latin American and Caribbean topics also may count.

Humanities Concentration–History Sequence

Code	Title	Hours
AAAD 260	Blacks in Latin America	3
AAAD 385	Emancipation in the New World	3
HIST 142	 Latin America under Colonial Rule	3

HIST 143	 Latin America since Independence	3
HIST 240	 Introduction to Mexico: A Nation in Four Revolutions	3
HIST 241	History of Latinos in the United States	3
HIST 242	 United States-Latin American Relations	3
HIST 248	Guerrillas and Counterinsurgencies in Latin America	3
HIST 278	 The Trans-Atlantic Slave Trade ^H	3
HIST 315	 Nation-Building in Latin America ^H	3
HIST 531	History of the Caribbean	3
HIST 532	History of Cuba	3
HIST 534	Slavery and the US Civil War ^H	3
HIST/WGST 280	 Women and Gender in Latin American History	3
LTAM 291	The Latino Experience in the United States	3
LTAM 314	Law and Society in Latin America	3
LTAM 350	The United States and Latin America	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Humanities Concentration—Culture-Literature Sequence

Portuguese

Code	Title	Hours
PORT 310	 Advanced Communication in Portuguese: Media & Entertainment	3
PORT 323	 Advanced Communication in Portuguese: History, Nature, and Society	3
PORT 370	 Modern Brazil through Literature and Film in Translation	3
PORT 375	 Portuguese and Brazilian Fiction in Translation	3
PORT 382	 Women Writers: Brazil and Beyond	3
PORT 388	 Portuguese, Brazilian, and African Identity in Film	3
PORT 535	Brazilian Drama	3

Spanish

Code	Title	Hours
SPAN 270	Contemporary Spanish American Prose Fiction in Translation	3
SPAN 344	Latin@ American Cultural Topics	3
SPAN 361	 Hispanic Film	3
SPAN 373	 Studies in Latin American Literature	3
SPAN 374	Mesoamerica through Its Native Literatures	3
SPAN 381	Studies in Spanish and Spanish American Poetry	3
SPAN 385	Contemporary Spanish American Prose Fiction	3
SPAN 387	Eroticism in Contemporary Latin American Literature	3
SPAN 389	Outside Cuba: Diasporic Literature and Culture	3
SPAN 613	Colonial and 19th-Century Spanish American Literature	3

SPAN 614	Modernist and Contemporary Spanish American Literature	3
SPAN 625	Indigenous Literatures and Cultures of the Américas	3
SPAN/WGST 620	Women in Hispanic Literature	3

Other Courses

Code	Title	Hours
ARTH 160	 Introduction to the Art and Architecture of Pre-Hispanic Mesoamerica ^H	3
ARTH 267	 Latin American Modernisms	3
ARTH 277	 Art and Architecture of Viceregal Latin America	3
CMPL 133	Great Books II: Imaging the Americas from the Late 18th Century to the Present	3
DRAM 288	 Theatre for Social Change	3
DRAM 486	 Latin American Theatre	3
ENGL 685	 Literature of the Americas	3
LING 558	 Ancient Mayan Hieroglyphs	3
LING 560	Mesoamerican Languages and Linguistics	3
LING 561	Native Languages of the Americas	3
LTAM 411	Summer Intensive Introductory Course in Yucatec Maya	6
LTAM 512	Summer Intensive Continuing Course in Yucatec Maya	6
MAYA 401	Introduction to Yucatec Maya	3
MUSC 147	 Introduction to the Music of the Américas	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Social Sciences Concentration—Journalism-Political Science Sequence

Code	Title	Hours
MEJO 443	Latino Media Studies	3
MEJO 446	 Global Communication and Comparative Journalism	3
MEJO 490	Special Topics in Mass Communication ^H	1-3
PLCY 349	Immigration Policy in the 21st Century	3
POLI 231	Latin America and the United States in World Politics	3
POLI 238	 Politics of the Global South: Latin America ^H	3
POLI 434	Politics of Mexico	3
POLI 435	 Democracy and Development in Latin America ^H	3
POLI 450	Contemporary Inter-American Relations ^H	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Social Sciences Concentration—Anthropology-Economics-Geography Sequence

Anthropology

Code	Title	Hours
ANTH 142	 Local Cultures, Global Forces ^H	3
ANTH 231	 The Inca and Their Ancestors: The Archaeology of Andean South America	3
ANTH 232	 Ancestral Maya Civilizations ^H	3
ANTH 320	Anthropology of Development	3
ANTH 360	Latin American Economy and Society	3
ANTH 439	 Political Ecology	3
ANTH 453	Field School in South American Archaeology ^H	6
ANTH/FOLK 130	Anthropology of the Caribbean	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Economics

Code	Title	Hours
ECON 450	Health Economics: Problems and Policy	3
ECON 465	 Economic Development	3
ECON 560	 Advanced International Economics	3
ECON/EURO/ PWAD 460	 International Economics	3

Geography

Code	Title	Hours
GEOG 130	 Development and Inequality: Global Perspectives ^F	3
GEOG 259	 Society and Environment in Latin America	3
GEOG 430	Global Migrations, Local Impacts: Urbanization and Migration in the United States	3
GEOG 452	Mobile Geographies: The Political Economy of Migration	3
GEOG 457	 Rural Latin America: Agriculture, Environment, and Natural Resources ^H	3
GEOG 458	Urban Latin America: Politics, Economy, and Society	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Other Courses

Code	Title	Hours
AAAD 260	Blacks in Latin America	3
AAAD 460	 Race, Culture, and Politics in Brazil	3
ANTH/LING 303	Native Languages of the Americas	3

LTAM 411	Summer Intensive Introductory Course in Yucatec Maya	6
LTAM 512	Summer Intensive Continuing Course in Yucatec Maya	6
RELI 245	Latina/o Religions in the United States-Mexico Borderlands ^H	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional Requirements

Majors are encouraged to work toward proficiency in both Spanish and Portuguese. Language across the curriculum (<http://isa.unc.edu/language-programs/language-across-the-curriculum/>) (LAC) courses allow students to use their Spanish or Portuguese in select courses. Students taking LAC courses with Spanish or Portuguese recitation sections may receive one hour of additional credit by enrolling in SPAN 308.

All General Education requirements apply. First- and second-year students are strongly encouraged to enroll in LTAM 101, an interdisciplinary introductory course offered each year, usually in the fall.

The following courses are recommended for fulfilling General Education requirements for students interested in majoring in Latin American studies:

Global Language

Spanish or Portuguese should be used to satisfy the global language requirement. The global language 1 through 4 sequence (PORT 101, PORT 102, PORT 203, and PORT 204 or SPAN 101, SPAN 102, SPAN 203, and SPAN 204) may be completed in two semesters by enrolling in intensive courses (PORT 111 and PORT 212, or SPAN 111 and SPAN 212).

Special Opportunities in Latin American Studies

Honors in Latin American Studies

Latin American studies majors with an overall grade point average of 3.3 are invited to pursue a degree with honors by writing an honors thesis during the senior year. Each honors thesis is written under the direction of an appropriate faculty advisor; when completed, the thesis must be defended orally before an examining board of faculty members. Honors candidates enroll in the two honors courses (LTAM 691H and LTAM 692H). LTAM 691H counts as a course in the student's concentration.

Experiential Education

Students who are committed to field experience or experiential education in Latin America may be able to arrange for this through independent study credit. Students wishing to do so should have the academic support of a regular faculty member and contact the institute's associate director well in advance of the semester in which the experience is to take place.

Intensive Yucatec Maya

Each summer the Consortium in Latin American and Caribbean Studies at the University of North Carolina and Duke University offers intensive instruction in modern Yucatec Maya, with a secondary focus on ancient, colonial, and modern Maya culture. The courses include classroom

instruction in Chapel Hill (LTAM 411) or in Mérida, Mexico (LTAM 512 and LTAM 690), and a field study experience in Yucatán, Mexico. See the Maya program (<http://isa.unc.edu/language-programs/yucatec-maya-institute/>) website for current course information.

Independent Study

Any student may enroll in independent study (LTAM 396) with the permission of the curriculum faculty advisor and the agreement of a Latin American or Caribbean studies faculty member who will supervise the student's independent study project. This course may be used to fulfill the requirements of the major, and it is often linked to internships or to undergraduate grants for summer research travel.

Study Abroad

Study abroad is not a requirement of the major; however, living and studying in Latin America or the Caribbean is highly recommended as an experience that majors should consider. The UNC–Chapel Hill Study Abroad Office offers a broad range of programs in Latin America and the Caribbean. Visit the Study Abroad Office website (<http://studyabroad.unc.edu>). ISA and the Study Abroad Office offer competitive scholarships for majors wishing to undertake study in Latin America and the Caribbean.

Undergraduate Awards

Each year the Latin American Studies major offers funding opportunities (<https://isa.unc.edu/undergraduate-funding/>) for students conducting research or studying abroad in Latin America or the Caribbean. These include the Julia Crane, Halpern, and Mellon Awards. The Federico Gil award recognizes the best undergraduate honors thesis written on a Latin American or Caribbean topic. The LTAM Major Book Fund provides funding to defray the costs for required textbooks in Latin American-content courses. Contact the director of undergraduate studies for information.

Undergraduate Research

Latin American Studies majors are eligible to develop independent and/or senior thesis projects. A small number of grants (<https://isa.unc.edu/undergraduate-funding/>) are available for undergraduate field research related to Latin America or the Caribbean.

Chair

Gabriela Valdivia

Director of Undergraduate Studies

Beatriz Riefkohl-Muñiz
riefkohl@email.unc.edu

Department of Linguistics

Introduction

Courses in the department are offered for the general student and for those who wish to receive the bachelor of arts with a major in linguistics. Courses in linguistics are intended to open up systematic perspectives on the nature of human language by means of detailed studies of language structure, language change and language acquisition, the sound system

of language, and the syntactic/semantic system of language. The major is designed to provide a fundamental understanding of modern linguistics for the student seeking a general education in the liberal arts as well as for the student preparing for graduate study.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors and minors by appointment. Departmental academic advising is particularly important for those majors who are considering going on to graduate school or who are considering the dual B.A.–M.A. program.

Graduate School and Career Opportunities

The Department of Linguistics offers an M.A. program with opportunities for specialization in a number of subareas, and to obtain a certificate in computational linguistics. Detailed information is available from the department website (<https://linguistics.unc.edu/>). Additionally, more than 100 colleges and universities offer linguistics programs, including several dozen that are considered major doctoral programs nationally. Faculty members are pleased to advise students regarding programs best suited to their needs and interests.

In general, the linguistics major is good preparation for a number of career paths because it develops problem solving, the ability to find patterns in complicated data, and writing and argumentation skills. Law and journalism schools and other professional schools are becoming increasingly aware that students with a major in linguistics have strengths in these important areas. Companies in the tech industry often hire linguists to solve problems relating to the development of software for speech-to-text, text-to-speech, and natural language processing and generation. United States citizens with a background in linguistics also may find jobs with United States government agencies.

Some students choose to continue specializing in linguistics teaching or research. For this, they typically need to obtain a graduate degree in linguistics. Other possible careers for linguistics majors that have a close connection to language and linguistics include language teaching, speech pathology/speech and hearing science, language and information technologies (including speech synthesis and recognition, text-content analysis, and machine translation), information and library science, or editing and publishing; some careers in these areas may require a graduate degree.

Major

- Linguistics Major, B.A. (p. 839)

Minor

- Linguistics Minor (p. 841)

Graduate Programs

- M.A. in Linguistics (<https://catalog.unc.edu/graduate/schools-departments/linguistics/>)
- M.A. in Linguistics–Ph.D. in Romance Languages and Literatures (Hispanic Linguistics) (<https://catalog.unc.edu/graduate/schools-departments/linguistics/>)

- Graduate Certificate in Computational Linguistics (<https://linguistics.unc.edu/graduate-program/computational-linguistics-certificate/>)

Professors

Misha Becker, Elliott Moreton, Paul Roberge, Jennifer Smith, David Mora-Marín.

Associate Professors

Katya Pertsova, J. Michael Terry.

Assistant Professors

Brian Hsu, Jamilláh Rodriguez.

Teaching Assistant Professor

Caitlin Smith.

Adjunct Faculty

Becky Butler (Carolina Asia Center), Masako Hirotani (Carleton University), Jim Michnowicz (NCSU), Jeff Mielke (NCSU), Jeff Reaser (NCSU), Erik Thomas (NCSU).

Linguists and Language Scholars in Other Departments

Jennifer Arnold (Psychology and Neuroscience), Mohit Bansal (Computer Science), Uffe Bergeton (Asian Studies), Lucia Binotti (Romance Studies), Laura Demsey (Romance Studies), Bruno Estigarribia (Romance Studies), Nina Furry (Romance Studies), Peter C. Gordon (Psychology and Neuroscience), Lamar Graham (Romance Studies), Thomas Hofweber (Philosophy), Joseph Lam (Religious Studies), Wendan Li (Asian Studies), Jim Pryor (Philosophy), Martha Ruiz-Garcia (Romance Studies), Patricia E. Sawin (American Studies), Khalid Shahu (Asian Studies).

Professors Emeriti

Randall Hendrick, H. Craig Melchert.

LING–Linguistics

Undergraduate-level Courses

 **LING 60. First-Year Seminar: How Reading Works: Language, Cognition, and Literacy. 3 Credits.**

How do we go from looking at symbols on a page or screen to understanding the writer's message? How do children learn to read, and what ways of teaching reading best promote success for all students? We will explore these questions through analysis of language and writing structure and discussion of research data. Your final project will address a real-world question about reading, literacy, or reading education from the perspective of language and cognition.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, RESEARCH.

Grading Status: Letter grade.

 **LING 70. First-Year Seminar: Language in the U.S.A. 3 Credits.**

The linguistic landscape of the United States in historical and contemporary perspective: American English dialects, language maintenance and shift among Native American and immigrant groups, language politics and policy.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

Same as: AMST 70.

 **LING 89. First-Year Seminar: Special Topics. 3 Credits.**

Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

 **LING 101. Introduction to Language. 3 Credits.**

Introduction to the formal analysis of human language, including sounds, words, sentences, and language meaning, plus child language acquisition, language change over time, social attitudes toward language, and similarities and differences among languages. Other topics may include writing systems, animal communication, and language analysis by computers. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-NATSCI.

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

LING 138. Linguistic Anthropology. 3 Credits.

An introduction to linguistic anthropology and anthropological linguistics. The course approaches the complex interconnections between language, culture, and cognition; theoretical approaches employed during the past century (structuralism, functionalism, ethnoscience, universalism, linguistic relativity); common case studies (spatial language, colors, classifiers, deixis); verbal art (orality, literacy), linguistic ideology; and ethnolinguistic vitality.

Rules & Requirements

Making Connections Gen Ed: SS.

Grading Status: Letter grade.

Same as: ANTH 138.

 **LING 145. Language, Communication, and Human and Animal Minds. 3 Credits.**

An examination of the differences between natural human languages and other communication systems. Includes a philosophical inquiry into how languages relate to the world and the mind. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-POWER.

Making Connections Gen Ed: PH.

Grading Status: Letter grade.

Same as: PHIL 145.

LING 165. Exploring the World's Languages. 3 Credits.

Students develop an understanding of and appreciation for the diverse range of human languages across the planet, as well as the uniformity that underlies them. Topics include history, classification, and linguistic properties of the world's languages.

Rules & Requirements

Making Connections Gen Ed: BN.

Grading Status: Letter grade.

 **LING 200. Phonology. 3 Credits.**

Description and analysis of sound systems of languages around the world. Introduction to formal phonological models, argumentation, and hypothesis testing. Students may not receive credit for both LING 200 and LING 523.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-NATSCI.

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

LING 201. Syntax. 3 Credits.

Introduction to the representational units and computational principles that underlie word order patterns in language. The course covers key discoveries and theories of generative approaches to syntax, in which grammars consist of formally defined rules and operations that generate grammatical sentences. Students may not receive credit for both LING 201 and LING 530.

Rules & Requirements

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

 **LING 202. Linguistic Variation and Language Change. 3 Credits.**

Introduction to the analysis and description of language change, relationships among languages, and types of linguistic structure. Students may not receive credit for both LING 202 and LING 525.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

 **LING 203. Language Acquisition and Development. 3 Credits.**

Provides an introduction to first-language acquisition, focusing on the acquisition of phonology, morphology, syntax, and semantics, as well as on the social context of language acquisition and issues of atypical language development. Students may not receive credit for both LING 203 and LING 528.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

 **LING 225. Busting Language Myths. 3 Credits.**

"Women talk more than men! Texting means the end of literacy! The language you speak limits the thoughts you can think!" We often hear claims like these, but are they true? And what kind of information would show us the answer? This course examines current debates about language while developing skills in reading and interpreting research results, media reports, basic statistics, and data graphics.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-VALUES.

Grading Status: Letter grade.

 **LING 230. Constructed Languages: Theory and Typology. 3 Credits.**

This course explores linguistic properties of constructed languages (conlangs). The course examines philosophical and creative motivations behind existing conlangs, and how their grammatical properties relate to those of natural languages. Students will explore and apply creative and analytical procedures used to create constructed language grammars.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH or FC-CREATE.

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

 **LING 260. Languages of Southeast Asia. 3 Credits.**

This course surveys languages spoken in Southeast Asia, an area rich in linguistic diversity, which is home to more than five distinct language families and well over 1,000 individual languages. Students will investigate the languages—in situ and in the diaspora—through the lens of descriptive linguistics, and will explore the social, cultural, and political aspects of languages in the region. This course is appropriate for students with an interest in linguistics or in Southeast Asia.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.

Making Connections Gen Ed: BN.

Grading Status: Letter grade.

Same as: ASIA 260.

LING 290. Special Topics in Linguistics. 3 Credits.

In-depth treatment of a selected issue or topic in linguistics. Topic will vary with the instructor. Course may be taken more than once when the topic varies.

Rules & Requirements

Requisites: Prerequisite, LING 101.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading Status: Letter grade.

 **LING 302. Language and Power. 3 Credits.**

This course provides an overview of language and power studies. Issues: sexist and sex-neutral language; languages of subcultures defined by gender, sexual orientation, ethnicity; hate speech; "politically correct" language.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-POWER.

Grading Status: Letter grade.

Same as: ANTH 302, WGST 302.

LING 303. Native Languages of the Americas. 3 Credits.

This course is an introduction to languages indigenous to the Americas. The course touches on the linguistic structure and classification of Native American languages as well as on social issues. This version requires that the student learn intensively about the structure of a specific language, as well as its social and cultural context. Students may not receive credit for LING 561 after completing LING 303.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Grading Status: Letter grade.

Same as: ANTH 303.

LING 304. Introduction to Discourse. 3 Credits.

Focuses on the use of linguistic forms to express communicative intentions. How language is used for the purposes of persuasion, manipulation, irony, humor, poetry, propaganda, and attitudes.

Rules & Requirements

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

LING 305. Race against Time: Language Revitalization. 3 Credits.

Students are introduced to the causes and contexts of language endangerment and the complex process of language revitalization. Topics to be covered include assessment of endangerment level, language and thought, language attitudes, bilingual education, and language planning. We will also consider a number of case studies of endangered languages.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: BN, GL.

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

LING 333. Human Language and Animal Communication Systems. 3 Credits.

Comparative study of human language alongside selected non-human communication systems. Anatomy, acoustics, combinatorial structure, innateness and acquisition, evolution. Sizable lab and field component.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT, FC-LAB.

Making Connections Gen Ed: SS, QI.

Grading Status: Letter grade.

LING 335. Structure of African American English. 3 Credits.

This course treats the structural properties of African American English. Students will learn to use sentence data to test hypotheses about language structure by investigating the phonology, syntax and semantics of African American English.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Grading Status: Letter grade.

Same as: AAAD 335.

LING 360. Introduction to Hispanic Linguistics. 3 Credits.

Introduction to the linguistic study of sound, meaning, grammatical form, dialectal and sociolinguistic variation, with a particular focus on modern Spanish and the languages of Spain and Latin America. Previously offered as SPAN/LING 377.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Making Connections Gen Ed: SS, BN, GL, FL.

Requisites: Prerequisite, SPAN 300 or SPAN 301; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: SPAN 360.

LING 376. Spanish Phonetics and Phonology. 3 Credits.

Introduction to the description of sound systems with a focus on Spanish. Includes the study of the historical development of Spanish and its areal and social variation in Spain, Latin America, and the United States.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Making Connections Gen Ed: SS, BN, GL, FL.

Requisites: Prerequisite, SPAN 300 or SPAN 301; permission from the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: SPAN 376.

LING 395. Group Mentored Research. 1-3 Credits.

Permission of instructor. Students gain first-hand experience conducting research as part of a research group working together on a single project under the advisement of a faculty member. Topics will vary.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.

Grading Status: Letter grade.

LING 397. Undergraduate Seminar in Language and Linguistics. 3 Credits.

Seminar on a previously announced topic.

Rules & Requirements

Requisites: Prerequisite, SPAN 360 or 376.

Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.

Grading Status: Letter grade.

Same as: SPAN 397.

Advanced Undergraduate and Graduate-level Courses**LING 401. Language and Computers. 3 Credits.**

Uses simple linguistic problems to introduce students to the use of programming languages especially suited to analyze and process natural language on the computer. No prior programming knowledge is presupposed.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT, FC-LAB.

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

LING 410. Advanced Philosophy of Language. 3 Credits.

At least two courses in philosophy other than PHIL 155, including PHIL 345, strongly recommended. A study of important contemporary contributions in philosophy of language. Topics include meaning, reference, and truth.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

Same as: PHIL 445, LING 445.

LING 422. Research Methods in Phonetics and Laboratory Phonology. 3 Credits.

Focuses on the practical skills required to carry out basic experiments in speech production or perception. Includes training in a general-purpose programming language (such as Perl) for automating repetitive tasks, experiment-control software, audio stimulus manufacture and editing, palatography, aerodynamic measurements, and other laboratory techniques relevant to student interests.

Rules & Requirements

Requisites: Prerequisite, LING 200, 520, 523, or SPHS 540.

Grading Status: Letter grade.

LING 427. Morphology. 3 Credits.

Cross-linguistic investigation of internal word structure: inflection and derivation, word formation rules versus affixation, autosegmental morphology, morpholexical and morphophonemic rules, and the interaction of morphology with phonology and syntax. Previously offered as LING 527.

Rules & Requirements

Requisites: Prerequisite, LING 101 or 400.

Grading Status: Letter grade.

LING 428. Bilingualism and Second-Language Acquisition. 3 Credits.

This course covers theoretical issues in childhood simultaneous bilingualism, and child and adult second-language acquisition, under both naturalistic and classroom learning circumstances.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

LING 444. Origin and Evolution of Human Language. 3 Credits.

Recommended preparation, at least one higher-level core course in linguistics. Surveys current answers to such questions as, When and how did language first appear? What do other animal communication systems share with language? Do restricted linguistic systems (e. g., pidgins) preserve "fossils" of early human language?

Rules & Requirements

Making Connections Gen Ed: HS, WB.

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

LING 445. Advanced Philosophy of Language. 3 Credits.

At least two courses in philosophy other than PHIL 155, including PHIL 345, strongly recommended. A study of important contemporary contributions in philosophy of language. Topics include meaning, reference, and truth.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

Same as: PHIL 445, LING 410.

LING 458. Writing Systems: Past, Present, Future, Fictional. 3 Credits.

This course provides an introduction to the linguistic structure and historical development of the world's writing systems (e.g. Sumerian, Egyptian, Chinese, Greek, Semitic scripts, Indian abugidas, Olmec, Mayan, Incan), the methods for their decipherment and analysis, the cross-script generalizations that can be proposed through their comparative study, and the techniques for developing a new writing system for a previously unwritten language, as well as for inventing a language and writing system from scratch.

Rules & Requirements

Making Connections Gen Ed: SS, WB.

Requisites: Prerequisite, LING 101; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

LING 460. Making Sense of Big Data: Textual Analysis with R. 3 Credits.

The course covers methods for working with textual data (corpora, databases, etc.) that include data cleaning techniques, graphing, statistical analysis, web-scraping, and categorization models. Students will complete their own data project by the end of the course.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Grading Status: Letter grade.

LING 484. Discourse and Dialogue in Ethnographic Research. 3 Credits.

Study of cultural variation in styles of speaking applied to collection of ethnographic data. Talk as responsive social action and its role in the constitution of ethnic and gender identities.

Rules & Requirements

Making Connections Gen Ed: SS, CI, US.

Grading Status: Letter grade.

Same as: ANTH 484, FOLK 484.

LING 490. Advanced Topics in Linguistics. 3 Credits.

Directed readings on linguistic topics not covered in specific courses.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.

Grading Status: Letter grade.

LING 493. Internship in Linguistics. 3 Credits.

Permission of instructor. This course allows students to integrate theoretical knowledge with practice through an internship experience in the field of linguistics. Students may work with businesses or organizations in the areas of computational linguistics, language documentation, education, publishing, or other related fields. Activities must be approved by faculty and supervised by a mentor.

Rules & Requirements

IDEAs in Action Gen Ed: HI-INTERN.

Making Connections Gen Ed: EE- Academic Internship.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Pass/Fail.

LING 495. Individual Mentored Research. 1-3 Credits.

Permission of instructor. Students carry out a research project of their own design under the direct supervision of a faculty mentor. This course is intended for advanced, motivated students who would like to pursue an in-depth research project within a single semester.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.

Grading Status: Letter grade.

LING 496. Independent Study in Linguistics. 1-3 Credits.

LING 101 and additional coursework in linguistics strongly recommended. An intensive directed readings course or a mentored project; topic to be determined in consultation with the instructor. Permission of the director of undergraduate studies.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 12 total completions.

Grading Status: Letter grade.

LING 503. Structure of American Sign Language. 3 Credits.

Introduces the linguistic structures of American Sign Language, including phonology, morphology, and syntax. Also covers gesture/homesign, sign language acquisition and language transfer.

Rules & Requirements

IDEAs in Action Gen Ed: GLBL-LANG.

Requisites: Prerequisite, SPHS 402 or permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Global Language: Level 3.

LING 520. Linguistic Phonetics. 3 Credits.

Introduction to the general principles of linguistic phonetics; anatomy of vocal tract, physiology of speech production, universal phonetic theory. Practice in the recognition and transcription of speech sounds.

Rules & Requirements

IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.

Grading Status: Letter grade.

Same as: ANTH 520.

LING 522. Experimental Phonetics and Laboratory Phonology. 3 Credits.

This course relates linguistic theory to experimental findings. Students design and carry out experiments to test theoretical issues of current theoretical importance.

Rules & Requirements

Requisites: Prerequisites, LING 520, and 200 or 523.

Grading Status: Letter grade.

LING 523. Phonological Theory I. 3 Credits.

Permission of the instructor for undergraduates. Introduction to the principles of modern generative phonology. Methods and theory of phonological analysis. Students may not receive credit for both LING 200 and LING 523.

Rules & Requirements

Requisites: Prerequisite, LING 520, or SPHS 530 or 540.

Grading Status: Letter grade.

Same as: ANTH 523.

LING 524. Phonological Theory II. 3 Credits.

Intermediate phonological theory and analysis.

Rules & Requirements

Requisites: Prerequisite, LING 200 or 523.

Grading Status: Letter grade.

LING 525. Introduction to Historical and Comparative Linguistics. 3 Credits.

Permission of the instructor for undergraduates. Theories and methods of historical and comparative linguistics, with emphasis upon the Indo-European family. Students may not receive credit for both LING 202 and LING 525.

Rules & Requirements

Grading Status: Letter grade.

LING 526. Second-Language Phonetics and Phonology. 3 Credits.

Production, perception, and phonological patterns and processes in second-language learning and use. Effects of first-language transfer and universal linguistic factors. Seminar-style class based on primary literature.

Rules & Requirements

Making Connections Gen Ed: SS.

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

LING 528. Language Acquisition I. 3 Credits.

Permission of the instructor for undergraduates. One course in phonology or syntax recommended. Child language from a theoretical perspective. Topics include segmentation problems, acquisition of phonology, morphology and syntax, lexical acquisition, and language development in blind and deaf children and in bilinguals. Students may not receive credit for both LING 203 and LING 528.

Rules & Requirements

Grading Status: Letter grade.

LING 529. Language Acquisition II. 3 Credits.

This course focuses on the development of syntax in first-language acquisition in children. Topics will include parameter setting, null subjects, root infinitives, aspect, A-movement, binding theory, and control.

Rules & Requirements

Requisites: Prerequisites, LING 203 or 528, and LING 201 or 530.

Grading Status: Letter grade.

LING 530. Syntactic Theory I. 3 Credits.

Permission of the instructor for undergraduates. Methods and theory of grammatical analysis within the transformational generative framework. Special emphasis on analyzing syntactic and semantic structures of English. Students may not receive credit for both LING 201 and LING 530.

Rules & Requirements

Grading Status: Letter grade.

LING 533. Syntactic Theory II. 3 Credits.

Methods and theory of grammatical analysis, with special reference to transformational grammar.

Rules & Requirements

Requisites: Prerequisite, LING 530.

Grading Status: Letter grade.

 **LING 537. Semantic Theory I. 3 Credits.**

Semantics as a part of linguistic theory: co- and disjoint reference among nominals, "crossover" phenomena, quantifier scope, lexical semantics, Montague grammar and compositional semantics, and explanatory universals in semantic theory.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Requisites: Prerequisite, LING 101 or 400.

Grading Status: Letter grade.

LING 538. Semantic Theory II. 3 Credits.

A continuation of LING 537 (Semantic Theory I), this course prepares the student to read the formal semantic literature and to do original research in the field.

Rules & Requirements

Requisites: Prerequisite, LING 537.

Grading Status: Letter grade.

LING 539. Language of Time. 3 Credits.

The representation of time and temporal relations in natural languages. Cross-linguistic study of tense and aspect distinctions, modality, temporal adverbials, temporal anaphora, and sequences of tenses.

Rules & Requirements

Requisites: Prerequisite, LING 101 or 400.

Grading Status: Letter grade.

 **LING 540. Mathematical Linguistics. 3 Credits.**

Introduction to topics in logic, set theory, and modern algebra with emphasis on linguistic application. Automata theory and the formal theory of grammar with special reference to transformational grammars. No previous mathematics assumed.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-QUANT.

Making Connections Gen Ed: QI.

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

LING 541. Sociolinguistics. 3 Credits.

Introduction to the study of language in relation to society; variation as it correlates with socioeconomic status, region, gender; the social motivation of change; language and equality; language maintenance, planning, shift.

Rules & Requirements

Requisites: Prerequisite, LING 101 or 400.

Grading Status: Letter grade.

Same as: ANTH 541.

LING 542. Pidgins and Creoles. 3 Credits.

Examination of the social contexts of language contact and their linguistic outcomes, with particular emphasis on the formation of pidgins and creoles. The course investigates the structural properties of these new contact languages and evaluates the conflicting theories that explain their genesis.

Rules & Requirements

Requisites: Prerequisite, LING 101 or 400.

Grading Status: Letter grade.

Same as: ANTH 542.

LING 543. Language in Politics. 3 Credits.

Examines language as a political issue in the 19th and 20th centuries. Emphasis placed on American and British politics but attention to one other national context as well.

Rules & Requirements

Grading Status: Letter grade.

 **LING 545. Language and Mind. 3 Credits.**

The course treats the relationship among linguistics, artificial intelligence, neurobiology, cognitive psychology, and the philosophies of mind, language, and science.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Making Connections Gen Ed: PH.

Requisites: Prerequisite, ENGL 213, LING 101, LING 400, or PHIL 145; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

 **LING 547. Language Deficits and Cognition. 3 Credits.**

Survey of the linguistic properties associated with aphasia, autism, Williams syndrome, dyslexia, and schizophrenia. Emphasis on the implications of these conditions for theories of mind.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Requisites: Prerequisite, LING 101 or 400.

Grading Status: Letter grade.

LING 550. Introduction to Indo-European: Phonology. 3 Credits.

A survey of the phonological systems of the major Indo-European languages and their development from Proto-Indo-European.

Rules & Requirements

Grading Status: Letter grade.

LING 551. Introduction to Indo-European: Morphology. 3 Credits.

Introduction to the major morphological categories in the Indo-European languages and their development from the proto-language.

Rules & Requirements

Requisites: Prerequisite, LING 550.

Grading Status: Letter grade.

 **LING 558. Ancient Mayan Hieroglyphs. 3 Credits.**

This course is an introduction to the ancient scripts of pre-Columbian Mexico and Central America. It focuses on ancient Mayan hieroglyphs, describing their orthographic and linguistic structure, and highlighting methods for investigating the script using the Maya Hieroglyphic Database (5,000 inscriptions comprising 85,565 records). Students will write a research paper consisting of a linguistic and quantitative (descriptive, inferential statistical) analysis of a particular phenomenon of the script.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-QUANT.

Making Connections Gen Ed: HS, WB.

Grading Status: Letter grade.

LING 560. Mesoamerican Languages and Linguistics. 3 Credits.

Surveys the basic characteristics that unify Mesoamerica as a cultural and linguistic area (e.g. sound systems, word order, color systems, diffused vocabulary, etc.), the basic sources of cultural and linguistic information available (e.g. ancient hieroglyphs, colonial manuscripts, contemporary documents, linguistic fieldwork), and the consequences of ancient and modern cross-cultural interaction.

Rules & Requirements

Making Connections Gen Ed: BN.

Grading Status: Letter grade.

LING 561. Native Languages of the Americas. 3 Credits.

This course explores the phonological and morphological structure of selected Amerindian languages indigenous to the Americas. Emphasis is on the linguistic analysis of original as well as published primary data.

Rules & Requirements

Requisites: Prerequisite, LING 101 or 400.

Grading Status: Letter grade.

LING 562. Structure of Russian. 3 Credits.

Examines Russian from the perspective of linguistic analysis. How do sounds, words, and sentences pattern in Russian? How do these compare with patterns in other languages? Also considers the influence of evidence from Russian on the development of linguistic theory.

Rules & Requirements

Requisites: Prerequisite, LING 101 or RUSS 102; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: RUSS 562.

 **LING 563. Structure of Japanese. 3 Credits.**

Introductory linguistic description of modern Japanese. For students of linguistics with no knowledge of Japanese and students of Japanese with no knowledge of linguistics.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Making Connections Gen Ed: SS.

Requisites: Prerequisite, JAPN 102 or LING 101.

Grading Status: Letter grade.

Same as: JAPN 563.

LING 564. History of the French Language. 3 Credits.

The phonology, morphology, and syntax of French are traced from the Latin foundation to the present. Lectures, readings, discussions, and textual analysis. In English.

Rules & Requirements

Requisites: Prerequisites, FREN 300, and one additional course above FREN 330; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: FREN 564.

LING 565. French Phonetics and Phonology. 3 Credits.

Study of the sound system and prosody features of standard French, emphasizing practical application in a variety of oral activities. Requires learning linguistic terminology and the phonetic alphabet. In English.

Rules & Requirements

Requisites: Prerequisite, FREN 255, 260, or 262; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: FREN 565.

LING 566. Structure of Modern French. 3 Credits.

Introduction to phonology, morphology, and syntax of modern standard French. Application of modern linguistic theory to the teaching of French. In English.

Rules & Requirements

Requisites: Prerequisites, FREN 300, and one additional course above FREN 330; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: FREN 566.

LING 567. Structure of German. 3 Credits.

LING 101 recommended for undergraduates. Introduction to formal analysis of German grammar (phonology, morphophonemics, prosodics, morphology, syntax) within the framework of generative grammar.

Rules & Requirements

Requisites: Prerequisites, GERM 302 and 303; permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: GERM 501.

LING 573. Linguistic Field Methods I. 3 Credits.

Analysis and description of a language unknown to the class from data solicited from a native-speaker consultant.

Rules & Requirements

Requisites: Prerequisites, LING 101, and one of LING 200, 376, or 422.

Grading Status: Letter grade.

LING 574. Linguistic Field Methods II. 3 Credits.

Continuation of LING 573.

Rules & Requirements

Grading Status: Letter grade.

LING 578. Comparative History of the Romance Languages. 3 Credits.

The linguistic study of the evolution of Spanish, Portuguese, French, and Italian (and other Romance languages) from their common ancestor of Latin. Emphasis on phonological, morphological, syntactic, and lexical commonalities and divergences among the languages.

Rules & Requirements

Requisites: Prerequisite, FREN 300 or ITAL 300 or PORT 310 or SPAN 300; OR graduate standing; OR permission of instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: ROML 578.

LING 583. History and Philosophy of Linguistics. 3 Credits.

Linguistic theories from classical times to the present with special emphasis on the origins of contemporary theories.

Rules & Requirements

Requisites: Prerequisite, LING 101.

Grading Status: Letter grade.

LING 676. Advanced Spanish Phonology. 3 Credits.

Topics in Spanish phonology from a range of theoretical perspectives. Autosegmental theory, optimality theory (OT), syllable structure, stress and accent, and the interaction of phonology and morphology.

Rules & Requirements

Requisites: Prerequisite, SPAN 376; OR graduate standing; OR permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: SPAN 676.

LING 678. History of the Spanish Language. 3 Credits.

SPAN 376 desirable. A theoretical study of the evolution of Spanish from classical and spoken Latin, focusing on phonological, morphological, and syntactic phenomena. Intended for linguistics majors.

Rules & Requirements

Making Connections Gen Ed: HS, WB.

Requisites: Prerequisite, SPAN 360; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: SPAN 678.

LING 681. Spanish Semantics. 3 Credits.

This course is an upper undergraduate/graduate-level introduction to the study of the meaning of words and sentences, with a focus on Spanish. It covers the following topics: truth-conditional theories of meaning, modality, quantification, reference, tense and aspect, Aktionsart. The course also addresses cross-linguistic data collection, e.g., field work and experimental methods.

Rules & Requirements

Requisites: Prerequisite, SPAN 360.

Grading Status: Letter grade.

Same as: SPAN 681.

LING 691H. Senior Honors Thesis. 3 Credits.

See the program for honors in the College of Arts and Sciences and the department honors advisor.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

LING 692H. Senior Honors Thesis. 3 Credits.

See the program for honors in the College of Arts and Sciences and the department honors advisor.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

Linguistics Major, B.A.

Courses in linguistics are intended to open up systematic perspectives on the nature of human language by means of detailed studies of language structure, language change and language acquisition, the sound system of language, and the syntactic/semantic system of language. The major is designed to provide a fundamental understanding of modern linguistics for the student seeking a general education in the liberal arts as well as for the student preparing for graduate study.

Student Learning Outcomes

Upon completion of the linguistics program, students should be able to:

- Use a linguistic analysis method (i.e., a formal model or a framework) correctly and apply it to a novel set of linguistic data
- Formulate and test hypotheses on the basis of a linguistic data set or information about language-related behavior
- Express their knowledge of some linguistic topic clearly and effectively in a written assignment of term-paper length

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses

- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Gateway Course		
LING 101	 Introduction to Language (with a grade of C or better) ^H	3
Core Requirements		
One course each from three of the following four pairs (total of three courses): ¹		9
LING 200	 Phonology	
or LING 520	 Linguistic Phonetics	
LING 201	Syntax	
or LING 537	 Semantic Theory I	
LING 202	 Linguistic Variation and Language Change	
or LING 541	Sociolinguistics	
LING 203	 Language Acquisition and Development	
or LING 427	Morphology	
Five additional linguistics courses chosen from the following lists:		15
Up to five LING courses numbered 200 to 699, excluding LING 400 ²		
No more than two courses chosen from:		
AAAD 421	 Introduction to the Languages of Africa	
AMST 374	 America's Threatened Languages	
CHIN 253	 Chinese Language and Society	
COMP 455	Models of Languages and Computation	
ENGL 115	 History of the English Language	
ENGL 213	Grammar of Current English	
GERM 500	History of the German Language	
GERM 501	Structure of German	
GERM 514	Old Norse I (Old Icelandic)	
GERM 515	Old Norse II (Old Icelandic)	
GERM 521	Variation in German	
GERM 545	Problems in Germanic Linguistics	
ITAL 526	History of the Italian Language	
PHIL 345	 Philosophy of Language	
PHIL 455	 Symbolic Logic	
PORT 526	History of the Portuguese Language	
PSYC 432	Psychology of Language	
SPAN 378	 Afro-Hispanic Language Contacts	
SPAN 683	Guaraní Linguistics	
SPHS 530	Introduction to Phonetics	
SPHS 540	Speech Science	
SPHS 570	Anatomy and Physiology of the Speech, Language, and Hearing Mechanisms	

SPHS 582	Introductory Audiology I	
Total Hours		27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ With the instructor's permission, students may take LING 523 instead of LING 200, LING 530 instead of LING 201, LING 525 instead of LING 202 or LING 528 instead of LING 203. Credit will not be granted for both the 200 level course and its graduate level counterpart noted here. However, students may receive credit for both courses in the pairs noted above (LING 200/LING 520; LING 201/LING 537; LING 202/LING 541; LING 203/LING 427), one as a core class and the other as an elective.

² No more than six (6) combined credit hours from LING 395, LING 493, and LING 495 can be counted toward the major (with no more than 3 credit hours of LING 493).

Thus, the major requires nine courses, including LING 101. Students majoring in linguistics may concentrate entirely in linguistics, or they may select their major courses to include a field related to linguistics, such as linguistic anthropology, computer processing of language data, philosophy of language, psychology of language, sociology of language, speech and hearing sciences, or study of a particular language or language family. Any such second-field option should be planned in consultation with the student's advisor. Students interested in a career in speech pathology may pursue a minor in speech and hearing sciences through the Division of Speech and Hearing Sciences in the UNC School of Medicine.

Students interested in the linguistics major are encouraged to consult with the department's director of undergraduate studies. Additional information about the major is provided on the department's Web site (<http://linguistics.web.unc.edu>); select the link for the undergraduate program.

Linguistics (LING) course descriptions (p. 832).

Dual Bachelor's–Master's Degree Program

The dual B.A.–M.A. program offers highly motivated undergraduates the opportunity to earn an M.A. (<https://catalog.unc.edu/graduate/schools-departments/linguistics/#programstext>). in less than the usual time by completing some of the M.A. requirements while still an undergraduate. Students must have a grade point average of 3.3 overall and 3.5 in linguistics. Students interested in pursuing this program should consult the department's director of undergraduate studies, Professor David Mora-Marín, to assess feasibility.

Additional information can be found on the program website (<https://linguistics.unc.edu/graduate-program/ma-linguistics/>).

Special Opportunities

Honors in Linguistics

Any linguistics major with a cumulative total grade point average of at least 3.3 and at least 3.5 within the linguistics major is eligible to attempt a degree with honors in linguistics. To graduate with honors, a student must work with a faculty supervisor, enroll in LING 691H and LING 692H during the senior year, and complete and defend an honors thesis according to departmental and Honors Carolina requirements.

Interested students should contact the honors advisor, Professor Katya Pertsova, during their junior year.

Departmental Involvement

Many linguistics majors and minors join Underling, the undergraduate linguistics club, which sponsors a variety of educational, outreach, social, and career-development events each year.

Study Abroad

Students in linguistics are encouraged to consider study abroad. Courses that can be applied toward the linguistics major and minor are available through many of the programs administered by the Study Abroad Office.

Internship Course

Students interested in receiving credit for participating in an internship that involves a linguistic component can enroll in LING 493. LING 493 can be applied towards elective credit in the major or minor. The work includes an academic component. Please contact the director of undergraduate studies well in advance to discuss options for internships and specific requirements.

Undergraduate Awards

The Marc Adam Eisdorfer Award recognizes the graduating senior judged most outstanding in academic achievement in linguistics. It was established in 1998 by Sandra Eisdorfer in memory of her son, a graduate of the class of 1984.

Linguistics Minor

Courses in the department are offered for the general student and for those who wish to receive the bachelor of arts with a major in linguistics. Courses in linguistics are intended to open up systematic perspectives on the nature of human language by means of detailed studies of language structure, language change and language acquisition, the sound system of language, and the syntactic/semantic system of language.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

The minor in linguistics consists of four linguistics courses numbered 200 or higher.

Code	Title	Hours
Core Requirements		
Two courses selected from: ¹		6
LING 200	 Phonology	
LING 201	Syntax	
LING 202	 Linguistic Variation and Language Change	
LING 203	 Language Acquisition and Development	
Two additional LING courses numbered 200 or higher. ^{2,3}		6
Total Hours		12

¹ LING 101 is a prerequisite for these courses.

² In order to fashion a coherent program of study that complements the student's major, the department encourages students to select these two courses in consultation with the department's director of undergraduate studies.

³ No more than three combined hours of LING 395, LING 493, and LING 495 can be counted toward the minor.

Linguistics (LING) course descriptions (p. 832).

See the program page here (p. 840) for special opportunities.

Department of Mathematics

Introduction

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance. UNC–Chapel Hill offers several degrees in mathematics and the mathematical sciences, providing students a choice of careers in this field. Among the jobs in industry, government, and the academic world that involve mathematics are actuary, data analyst, modeler, optimizer, statistician, and computer analyst.

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate mathematics (and science) majors interested in teaching middle and high school mathematics the opportunity to earn their degree and obtain licensure as a North Carolina middle and high school teacher in four years. For more details, visit the School of Education website (<https://ed.unc.edu/academics/programs/unc-baccalaureate-education-in-science-and-teaching/>).

Advising

All majors and minors have a primary academic advisor assigned in ConnectCarolina. Students should regularly meet with their advisors and review their Tar Heel Trackers to be sure that they are satisfying distribution and degree requirements. In addition, drop in advising is available each semester in the math department. Students who have declared a math major and have completed MATH 233 are required to attend a math department advising session to discuss course selections and any other questions before a hold on registration is lifted. The department's director of undergraduate studies and manager of student services (see contact tab above) are also available by appointment. Further information on courses, undergraduate research opportunities,

the honors program, careers, and graduate schools may be obtained from the department's website (<https://math.unc.edu/>).

Placement into Mathematics Courses

Standardized test scores such as the Advanced Placement (AP) or the American College Test (ACT) or Scholastic Aptitude Test (SAT) can be used for placement into mathematics courses. Students who do not have placement scores via the AP, ACT or SAT may take the department's ALEKS Placement Test. Please visit the placement page (<https://math.unc.edu/undergraduate/registration-advising/>) of the department's website for specific information regarding placement and departmental placement tests.

Graduate School and Career Opportunities

The B.S. degree program, especially if it includes the sequences MATH 521–MATH 522 and MATH 577–MATH 578, is excellent preparation for graduate study in the mathematical sciences. The B.A. degree can be excellent preparation for graduate study in many fields, including admission into professional schools of law, business, and medicine. Both degrees are viewed by many employers as attractive, especially when accompanied by electives in areas such as statistics, computer science, data science, economics, and operations research. Undergraduate mathematics majors with critical thinking skills and good analytical abilities are in demand in many business, industry, and government fields.

Majors

- Mathematics Major, B.S. (p. 853)

Minor

- Mathematics Minor (p. 857)

Graduate Programs

- M.A. in Mathematics (<https://catalog.unc.edu/graduate/schools-departments/mathematics/>)
- M.S. in Mathematics (<https://catalog.unc.edu/graduate/schools-departments/mathematics/>)
- Ph.D. in Mathematics (<https://catalog.unc.edu/graduate/schools-departments/mathematics/>)

Professors

David Adalsteinsson, Idris Assani, Prakash Belkale, Roberto Camassa, Ivan V. Cherednik, Hans Christianson, M. Gregory Forest, Boyce Griffith, Jingfang Huang, Shrawan Kumar, Jeremy Marzuola, Richard McLaughlin, Jason Metcalfe, Sorin Mitran, Richárd Rimányi, Lev Rozansky, Justin Sawon, Alexander N. Varchenko, Mark Williams.

Associate Professors

Yaiza Canzani, Karin Leiderman Gregg, Jiuzu Hong, Yifei Lou, Katherine Newhall, David Rose, Andrey Smirnov.

Assistant Professors

Arunima Bhattacharya, Olivia Dumitrescu, Shahar Kovalsky, Caroline Moosmueller, Casey Rodriguez, Pedro Sáenz, Philip Tosteson.

Teaching Faculty

Emily Burkhead, Linda Green, Mark McCombs, Elizabeth McLaughlin, Miranda Thomas.

Professors Emeriti

Joseph A. Cima, Patrick B. Eberlein, Ladnor D. Geissinger, Sue E. Goodman, Jane M. Hawkins, Christopher Jones, Ancel Mewborn, Karl E. Peterson, Joseph F. Plante, Robert Proctor, Michael Schlessinger, William W. Smith, James D. Stasheff, Michael E. Taylor, Jonathan M. Wahl, Warren R. Wogen.

MATH–Mathematics

Undergraduate-level Courses

MATH 10. Review of Basic Algebra. 3 Credits.

Correctional Education Course. This course covers basic algebra topics and prepares students for an introductory college-level algebra course, such as MATH 110.

Rules & Requirements

Grading Status: Letter grade.

MATH 51. First-Year Seminar: 'Fish Gotta Swim, Birds Gotta Fly': The Mathematics and the Mechanics of Moving. 3 Credits.

This seminar allows students to have hands-on exposure to a class of physical and computer experiments designed to challenge intuition on how motion is achieved in nature. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

MATH 62. First-Year Seminar: Combinatorics. 3 Credits.

Students will discuss combinatorics' deep roots in history, its connections with the theory of numbers, and its fundamental role for natural science, as well as various applications, including cryptography and the stock market. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

MATH 65. First-Year Seminar: Colliding Balls and Springs: The Microstructure of How Materials Behave. 3 Credits.

Students will follow the intellectual journey of the atomic hypothesis from Leucippus and Democritus to the modern era, combining the history, the applications to science, and the mathematics developed to study particles and their interactions.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

MATH 68. First-Year Seminar: The Mathematics of Voting. 3 Credits.

What properties should a fair election have and are these properties achievable in theory and in practice? How can mathematics and statistics be used to expose election fraud and gerrymandering? Students will address these questions as they compare different election systems, evaluate their strengths, weaknesses, and abuses, and design improvements to current structures. Topics will include gerrymandering, ranked voting, approval voting, and Arrow's Impossibility Theorem.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

MATH 69. First-Year Seminar: Unfolding Infinity: Mathematical Origami and Fractal Symmetry. 3 Credits.

This seminar engages students in an exploration of the interplay between mathematics, origami, and fractal symmetry. Learning objectives will include mastering basic origami folding techniques, identifying and applying fundamental symmetry operations, recognizing and analyzing fractal symmetry, and creating geometric tessellations. Students will use image editing software (Illustrator and Photoshop), mathematical imaging software (Ultra Fractal), and the laser cutter in UNC's BeAM space, to design and create modular origami and fractal tessellation artwork.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

MATH 70. First-Year Seminar: Topology and Symmetry. 3 Credits.

In this seminar, students will explore ideas from topology and geometry and their application to symmetry patterns. Students will learn to identify and classify two-dimensional symmetry patterns and create their own designs. Students will relate symmetry patterns to their folded-up counterparts, called orbifolds, and use tools from topology and geometry to determine which patterns are possible and which patterns can never be achieved.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

MATH 89. First-Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

MATH 110. Algebra. 3 Credits.

Provides a one-semester review of the basics of algebra. Basic algebraic expressions, functions, exponents, and logarithms are included, with an emphasis on problem solving. This course does not satisfy any general education requirements. It is intended for students who need it as a prerequisite for other classes. A student cannot receive credit for this course after receiving credit for MATH 231 or higher.

Rules & Requirements

Grading Status: Letter grade.

MATH 110L. Algebra Corequisite. 1 Credits.

This course provides just-in-time instruction and practice on basic algebra to support students in Algebra. It also provides additional practice on some of the more difficult topics from MATH 110. This course is intended for students currently enrolled in MATH 110 who need additional review of algebra.

Rules & Requirements

Requisites: Corequisite, MATH 110.

Grading Status: Pass/Fail.

MATH 115. Reasoning with Data: Navigating a Quantitative World. 3 Credits.

Students will use mathematical and statistical methods to address societal problems, make personal decisions, and reason critically about the world. Authentic contexts may include voting, health and risk, digital humanities, finance, and human behavior. This course does not count as credit towards the psychology or neuroscience majors.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Making Connections Gen Ed: QR.

Grading Status: Letter grade.

Same as: BIOL 115, PSYC 115, STOR 115.

MATH 116. Intuitive Calculus. 3 Credits.

Provides an introduction in as nontechnical a setting as possible to the basic concepts of calculus. The course is intended for the nonscience major. A student may not receive credit for this course after receiving credit for MATH 152 or 231.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Making Connections Gen Ed: QR.

Grading Status: Letter grade.

MATH 117. Aspects of Finite Mathematics. 3 Credits.

Introduction to basic concepts of finite mathematics, including topics such as counting methods, finite probability problems, and networks. The course is intended for the nonscience major. A student cannot receive credit for this course after receiving credit for MATH 231 or higher.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Making Connections Gen Ed: QR.

Grading Status: Letter grade.

MATH 118. Aspects of Modern Mathematics. 3 Credits.

Introduction to mathematical topics of current interest in society and science, such as the mathematics of choice, growth, finance, and shape. The course is intended for the non-science major. A student cannot receive credit for this course after receiving credit for MATH 231 or higher.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Making Connections Gen Ed: QR.

Grading Status: Letter grade.

MATH 119. Introduction to Mathematical Modeling. 3 Credits.

Provides an introduction to the use of mathematics for modeling real-world phenomena in a nontechnical setting. Models use algebraic, graphical, and numerical properties of elementary functions to interpret data. This course is intended for the nonscience major.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Making Connections Gen Ed: QR.

Grading Status: Letter grade.

MATH 129P. Precalculus Mathematics. 0 Credits.

Awarded as placement credit based on test scores. Does not fulfill a graduation requirement.

Rules & Requirements

Grading Status: Letter grade.

MATH 130. Precalculus Mathematics. 3 Credits.

Covers the basic mathematical skills needed for learning calculus. Topics are calculating and working with functions and data, introduction to trigonometry, parametric equations, and the conic sections. A student may not receive credit for this course after receiving credit for MATH 231.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-QUANT.

Making Connections Gen Ed: QR.

Requisites: Prerequisite, MATH 110; a grade of C- or better is required.

Grading Status: Letter grade.

MATH 152. Calculus for Business and Social Sciences. 3 Credits.

An introductory survey of differential and integral calculus with emphasis on techniques and applications of interest for business and the social sciences. This is a terminal course and not adequate preparation for MATH 232. A student cannot receive credit for this course after receiving credit for MATH 231.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-QUANT.

Making Connections Gen Ed: QR.

Requisites: Prerequisite, MATH 110.

Grading Status: Letter grade.

MATH 190. Special Topics in Mathematics. 3 Credits.

An undergraduate seminar course that is designed to be a participatory intellectual adventure on an advanced, emergent, and stimulating topic within a selected discipline in mathematics. This course does not count as credit towards the mathematics major.

Rules & Requirements

Grading Status: Letter grade.

MATH 210. Mathematical Tools for Data Science. 3 Credits.

This course introduces students to the tools of linear algebra and optimization, including solving linear systems, matrices as linear transformations, eigenvalues and eigenvectors, singular value decomposition, derivatives, and the method of gradient descent. Includes applications to data science such as image compression, principal component analysis, and neural networks. Computational tools (e.g. Python) will be used to implement algorithms. No programming experience needed. A student cannot receive credit after receiving credit for MATH 347 or 577.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Making Connections Gen Ed: QR.

Requisites: Prerequisite, MATH 110 or 110P.

Grading Status: Letter grade.

MATH 231. Calculus of Functions of One Variable I. 4 Credits.

Limits, derivatives, and integrals of functions of one variable. A student cannot receive credit for this course after receiving credit for MATH 152. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-QUANT.

Making Connections Gen Ed: QR.

Requisites: Prerequisites, MATH 110 and 130; Requires a grade of C- or better in MATH 130 or placement by the department.

Grading Status: Letter grade.

MATH 231L. Calculus I Corequisite. 1 Credits.

This course provides just-in-time instruction and review on algebra and trigonometry to support students in MATH 231. It also provides additional practice on some of the more difficult topics from Calculus 1. This course is intended to be taken by students currently enrolled in MATH 231 who need review of algebra and trigonometry.

Rules & Requirements

Requisites: Prerequisites, MATH 110 and 130; requires a grade of C- or better in MATH 130 or placement by the department; Corequisite, MATH 231.

Grading Status: Pass/Fail.

MATH 232. Calculus of Functions of One Variable II. 4 Credits.

Calculus of the elementary transcendental functions, techniques of integration, indeterminate forms, Taylor's formula, infinite series. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-QUANT.

Making Connections Gen Ed: QI.

Requisites: Prerequisite, A grade of C- or better in MATH 231 or placement by the department.

Grading Status: Letter grade.

MATH 233. Calculus of Functions of Several Variables. 4 Credits.

Vector algebra, solid analytic geometry, partial derivatives, multiple integrals. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-QUANT.

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 232.

Grading Status: Letter grade.

MATH 235. Mathematics for Data Science. 4 Credits.

This course introduces students to some of the key mathematical tools underlying algorithmic data science. The primary focus of the course is matrix algebra and multivariable calculus. The mathematical topics covered in the course will be motivated and connected by concrete applications in data science, with an emphasis on machine learning and optimization.

Rules & Requirements

IDEAs in Action Gen Ed: FC-QUANT.

Requisites: Prerequisites, MATH 231 and MATH 232.

Grading Status: Letter grade.

Same as: STOR 235.

MATH 290. Special Topics in Mathematics. 1-3 Credits.

Permission of the instructor. Elective topics in mathematics. This course has variable content and may be taken multiple times for credit.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.

Grading Status: Letter grade.

MATH 291. Undergraduate Learning Assistantships. 1 Credits.

Permission required. Experience includes preparations, demonstrations, assistance, and attendance at weekly meetings, weekly office hours, and class sections. Assistants will not be involved in any aspects of grading. May be repeated for credit.

Rules & Requirements

IDEAs in Action Gen Ed: HI-LEARNTA.

Requisites: Prerequisite, MATH 231 with a grade of A- or higher; Pre- or corequisite, Permission of Instructor.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.

Grading Status: Pass/Fail.

MATH 294. Undergraduate Seminar in Mathematics. 1-3 Credits.

Permission of the instructor. A seminar on a chosen topic in mathematics in which the students participate more actively than in usual courses.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

 **MATH 296. Directed Exploration in Mathematics. 1-3 Credits.**

By permission of the director of undergraduate studies. Experimentation or deeper investigation under the supervision of a faculty member of topics in mathematics that may be, but need not be, connected with an existing course. No one may receive more than seven semester hours of credit for this course. Formerly offered as MATH 290.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 7 total credits. 7 total completions.

Grading Status: Letter grade.

MATH 307. Revisiting Real Numbers and Algebra. 3 Credits.

Central to teaching precollege mathematics is the need for an in-depth understanding of real numbers and algebra. This course explores this content, emphasizing problem solving and mathematical reasoning.

Rules & Requirements

Making Connections Gen Ed: QI.

Grading Status: Letter grade.

MATH 347. Linear Algebra for Applications. 3 Credits.

Algebra of matrices with applications: determinants, solution of linear systems by Gaussian elimination, Gram-Schmidt procedure, and eigenvalues. Previously offered as MATH 547.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 232.

Grading Status: Letter grade.

MATH 381. Discrete Mathematics. 3 Credits.

This course serves as a transition from computational to more theoretical mathematics. Topics are from the foundations of mathematics: logic, set theory, relations and functions, induction, permutations and combinations, recurrence. Honors version available.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 232 or a B or better in MATH 231 or MATH 210.

Grading Status: Letter grade.

MATH 383. First Course in Differential Equations. 3 Credits.

Introductory ordinary differential equations, first- and second-order differential equations with applications, higher-order linear equations, systems of first-order linear equations (introducing linear algebra as needed). Honors version available.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 233 or MATH 235.

Grading Status: Letter grade.

MATH 383L. First Course in Differential Equations Laboratory. 1 Credits.

Course is computational laboratory component designed to help students visualize ODE solutions in Matlab. Emphasis is on differential equations motivated by applied sciences. Some applied linear algebra will appear as needed for computation and modeling purposes.

Rules & Requirements

Requisites: Prerequisite, MATH 233 or MATH 235; Pre- or corequisite, MATH 383.

Grading Status: Letter grade.

 **MATH 396. Undergraduate Reading and Research in Mathematics. 1-3 Credits.**

Permission of the director of undergraduate studies. This course is intended mainly for students working on honors projects. No one may receive more than three semester hours credit for this course.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.

Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses **MATH 410. Teaching and Learning Mathematics. 4 Credits.**

Study of how people learn and understand mathematics, based on research in mathematics, mathematics education, psychology, and cognitive science. This course is designed to prepare undergraduate mathematics majors to become excellent high school mathematics teachers. It involves field work in both the high school and college environments.

Rules & Requirements

 **IDEAs in Action Gen Ed:** COMMBEYOND.

Making Connections Gen Ed: EE- Field Work.

Grading Status: Letter grade.

MATH 521. Advanced Calculus I. 3 Credits.

The real numbers, continuity and differentiability of functions of one variable, infinite series, integration. Honors version available.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisites, MATH 233 or MATH 235, and MATH 381; A grade of A- or better in STOR 215 may substitute for MATH 381.

Grading Status: Letter grade.

MATH 522. Advanced Calculus II. 3 Credits.

Functions of several variables, the derivative as a linear transformation, inverse and implicit function theorems, multiple integration. Honors version available.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisites, MATH 383 and 521.

Grading Status: Letter grade.

MATH 523. Functions of a Complex Variable with Applications. 3 Credits.

The algebra of complex numbers, elementary functions and their mapping properties, complex limits, power series, analytic functions, contour integrals, Cauchy's theorem and formulae, Laurent series and residue calculus, elementary conformal mapping and boundary value problems, Poisson integral formula for the disk and the half plane.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 383.

Grading Status: Letter grade.

MATH 524. Elementary Differential Equations. 3 Credits.

Linear differential equations, power series solutions, Laplace transforms, numerical methods.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 383.

Grading Status: Letter grade.

MATH 528. Mathematical Methods for the Physical Sciences I. 3 Credits.

Theory and applications of Laplace transform, Fourier series and transform, Sturm-Liouville problems. Students will be expected to do some numerical calculations on either a programmable calculator or a computer. This course has an optional computer laboratory component: MATH 528L.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 383.

Grading Status: Letter grade.

MATH 528L. Laboratory for Mathematical Methods for the Physical Sciences I. 1 Credits.

Training in the use of symbolic and numerical computing packages and their application to the MATH 528 lecture topics. Students will need a CCI-compatible computing device.

Rules & Requirements

Requisites: Prerequisite, MATH 383; pre- or corequisite, MATH 528.

Grading Status: Letter grade.

MATH 529. Mathematical Methods for the Physical Sciences II. 3 Credits.

Introduction to boundary value problems for the diffusion, Laplace and wave partial differential equations. Bessel functions and Legendre functions. Introduction to complex variables including the calculus of residues. This course has an optional computer laboratory component: MATH 529L.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 521, 524, or 528.

Grading Status: Letter grade.

MATH 529L. Laboratory for Mathematical Methods for the Physical Sciences II. 1 Credits.

Training in the use of symbolic and numerical computing packages and their application to the MATH 529 lecture topics. Students will need a CCI-compatible computing device.

Rules & Requirements

Requisites: Prerequisite, MATH 383; pre- or corequisite, MATH 529.

Grading Status: Letter grade.

MATH 533. Elementary Theory of Numbers. 3 Credits.

Divisibility, Euclidean algorithm, congruences, residue classes, Euler's function, primitive roots, Chinese remainder theorem, quadratic residues, number-theoretic functions, Farey and continued fractions, Gaussian integers.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 381; A grade of A- or better in STOR 215 may substitute for MATH 381.

Grading Status: Letter grade.

MATH 534. Elements of Modern Algebra. 3 Credits.

Binary operations, groups, subgroups, cosets, quotient groups, rings, polynomials.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 381; A grade of A- or better in STOR 215 may substitute for MATH 381.

Grading Status: Letter grade.

MATH 535. Introduction to Probability. 3 Credits.

Introduction to mathematical theory of probability covering random variables; moments; binomial, Poisson, normal and related distributions; generating functions; sums and sequences of random variables; and statistical applications. Students may not receive credit for both STOR 435 and STOR 535.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisites, MATH/STOR 235 or MATH 233; and STOR 215 or MATH 381 or COMP 283.

Grading Status: Letter grade.

Same as: STOR 435.

MATH 548. Combinatorial Mathematics. 3 Credits.

Counting selections, binomial identities, inclusion-exclusion, recurrences, Catalan numbers. Selected topics from algorithmic and structural combinatorics, or from applications to physics and cryptography.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 381.

Grading Status: Letter grade.

MATH 550. Topology. 3 Credits.

Introduction to topics in topology, particularly surface topology, including classification of compact surfaces, Euler characteristic, orientability, vector fields on surfaces, tessellations, and fundamental group.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisites, MATH 233 or MATH 235, and MATH 381.

Grading Status: Letter grade.

MATH 551. Euclidean and Non-Euclidean Geometries. 3 Credits.

Critical study of basic notions and models of Euclidean and non-Euclidean geometries: order, congruence, and distance.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 381; A grade of A- or better in STOR 215 may substitute for MATH 381.

Grading Status: Letter grade.

MATH 553. Mathematical and Computational Models in Biology. 3 Credits.

This course introduces analytical, computational, and statistical techniques, such as discrete models, numerical integration of ordinary differential equations, and likelihood functions, to explore various fields of biology.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisites, (BIOL 201 and BIOL 202) or (BIOL 103 and BIOL 104); and MATH 231; and (MATH 232 or STOR 120 or STOR 155); or permission of the instructor for students lacking the prerequisites; Corequisite, BIOL 553L/MATH 553L.

Grading Status: Letter grade.

Same as: BIOL 553.

MATH 553L. Mathematical and Computational Models in Biology Laboratory. 1 Credits.

This lab introduces analytical, computational, and statistical techniques, such as discrete models, numerical integration of ordinary differential equations, and likelihood functions, to explore various fields of biology.

Rules & Requirements

Requisites: Prerequisites, (BIOL 201 and 202) or (BIOL 103 and BIOL 104); and MATH 231; and (MATH 232 or STOR 120 or STOR 155); or permission of the instructor for students lacking the prerequisites; Corequisite, BIOL 553/MATH 553.

Grading Status: Letter grade.

Same as: BIOL 553L.

MATH 555. Introduction to Dynamics. 3 Credits.

Topics will vary and may include iteration of maps, orbits, periodic points, attractors, symbolic dynamics, bifurcations, fractal sets, chaotic systems, systems arising from differential equations, iterated function systems, and applications.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 383.

Grading Status: Letter grade.

MATH 560. Optimization with Applications in Machine Learning. 3 Credits.

This course will provide an introduction to convex optimization, including convex sets and functions, modeling, conic problems, optimality conditions and algorithms. The second part of the course will address non-convex problems, focusing on contemporary optimization challenges in large-scale optimization and practical approaches for machine learning and deep learning.

Rules & Requirements

Requisites: Prerequisites, MATH 233 or MATH 235, MATH 347 or MATH 577, and COMP 110 or COMP 116.

Grading Status: Letter grade.

 **MATH 563. Introduction to Fluid Mechanics. 3 Credits.**

Mathematical methods applied to problems in fluid dynamics. Particular attention will be given to the power of dimensional analysis and scaling arguments. Topics will include: particle motion (e.g. the dynamics of sports balls), animal locomotion (e.g. swimming and flying), viscous flows (e.g. geological fluid dynamics), rotating and stratified flows (geophysical fluid dynamics), gravity currents and plumes (environmental fluid mechanics), drops, bubbles, and films.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Requisites: Prerequisite, MATH 528.

Grading Status: Letter grade.

MATH 564. Mathematical Modeling in the Life Sciences. 3 Credits.

Requires some knowledge of computer programming. Model validation and numerical simulations using ordinary, partial, stochastic, and delay differential equations. Applications to the life sciences may include muscle physiology, biological fluid dynamics, neurobiology, molecular regulatory networks, and cell biology.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisites, MATH 383 and MATH 347 or MATH 577.

Grading Status: Letter grade.

Same as: BIOL 534.

MATH 566. Introduction to Numerical Analysis. 3 Credits.

Requires some knowledge of computer programming. Iterative methods, interpolation, polynomial and spline approximations, numerical differentiation and integration, numerical solution of ordinary and partial differential equations.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisite, MATH 383 or MATH 347 or MATH 577.

Grading Status: Letter grade.

MATH 577. Linear Algebra. 3 Credits.

Vector spaces, linear transformations, duality, diagonalization, primary and cyclic decomposition, Jordan canonical form, inner product spaces, orthogonal reduction of symmetric matrices, spectral theorem, bilinear forms, multilinear functions. A much more abstract course than MATH 347.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisites, MATH 381 and 383; A grade of A- or better in STOR 215 may substitute for MATH 381.

Grading Status: Letter grade.

MATH 578. Algebraic Structures. 3 Credits.

Permutation groups, matrix groups, groups of linear transformations, symmetry groups; finite abelian groups. Residue class rings, algebra of matrices, linear maps, and polynomials. Real and complex numbers, rational functions, quadratic fields, finite fields.

Rules & Requirements

Making Connections Gen Ed: QI.

Requisites: Prerequisites, MATH 347 or 577 and MATH 381.

Grading Status: Letter grade.

MATH 590. Topics in Mathematics. 3 Credits.

Permission of the instructor. Topics may focus on matrix theory, analysis, algebra, geometry, or applied and computational mathematics.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

MATH 594. Nonlinear Dynamics. 3 Credits.

Interdisciplinary introduction to nonlinear dynamics and chaos. Fixed points, bifurcations, strange attractors, with applications to physics, biology, chemistry, finance.

Rules & Requirements

Requisites: Prerequisite, MATH 383; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: PHYS 594.

MATH 635. Probability II. 3 Credits.

Foundations of probability. Basic classical theorems. Modes of probabilistic convergence. Central limit problem. Generating functions, characteristic functions. Conditional probability and expectation.

Rules & Requirements

Requisites: Prerequisite, STOR 634; permission of the instructor for students lacking the prerequisite.

Grading Status: Letter grade.

Same as: STOR 635.

MATH 641. Enumerative Combinatorics. 3 Credits.

Basic counting; partitions; recursions and generating functions; signed enumeration; counting with respect to symmetry, plane partitions, and tableaux.

Rules & Requirements

Requisites: Prerequisite, MATH 578.

Grading Status: Letter grade.

MATH 643. Combinatorial Structures. 3 Credits.

Graph theory, matchings, Ramsey theory, extremal set theory, network flows, lattices, Moebius inversion, q-analogs, combinatorial and projective geometries, codes, and designs.

Rules & Requirements

Requisites: Prerequisite, MATH 578.

Grading Status: Letter grade.

MATH 653. Introductory Analysis. 3 Credits.

Requires knowledge of advanced calculus. Elementary metric space topology, continuous functions, differentiation of vector-valued functions, implicit and inverse function theorems. Topics from Weierstrass theorem, existence and uniqueness theorems for differential equations, series of functions.

Rules & Requirements

Grading Status: Letter grade.

MATH 656. Complex Analysis. 3 Credits.

A rigorous treatment of complex integration, including the Cauchy theory. Elementary special functions, power series, local behavior of analytic functions.

Rules & Requirements

Requisites: Prerequisite, MATH 653.

Grading Status: Letter grade.

MATH 657. Qualitative Theory of Differential Equations. 3 Credits.

Requires knowledge of linear algebra. Existence and uniqueness theorems, linear and nonlinear systems, differential equations in the plane and on surfaces, Poincare-Bendixson theory, Lyapunov stability and structural stability, critical point analysis.

Rules & Requirements

Requisites: Prerequisite, MATH 653.

Grading Status: Letter grade.

MATH 661. Scientific Computation I. 3 Credits.

Requires some programming experience and basic numerical analysis. Error in computation, solutions of nonlinear equations, interpolation, approximation of functions, Fourier methods, numerical integration and differentiation, introduction to numerical solution of ODEs, Gaussian elimination.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENVR 661.

MATH 662. Scientific Computation II. 3 Credits.

Theory and practical issues arising in linear algebra problems derived from physical applications, e.g., discretization of ODEs and PDEs. Linear systems, linear least squares, eigenvalue problems, singular value decomposition.

Rules & Requirements

Requisites: Prerequisite, MATH 661.

Grading Status: Letter grade.

Same as: COMP 662, ENVR 662.

MATH 668. Methods of Applied Mathematics I. 3 Credits.

Requires an undergraduate course in differential equations. Contour integration, asymptotic expansions, steepest descent/stationary phase methods, special functions arising in physical applications, elliptic and theta functions, elementary bifurcation theory.

Rules & Requirements

Grading Status: Letter grade.

Same as: ENVR 668.

MATH 669. Methods of Applied Mathematics II. 3 Credits.

Perturbation methods for ODEs and PDEs, WKBJ method, averaging and modulation theory for linear and nonlinear wave equations, long-time asymptotics of Fourier integral representations of PDEs, Green's functions, dynamical systems tools.

Rules & Requirements

Requisites: Prerequisite, MATH 668.

Grading Status: Letter grade.

Same as: ENVR 669.

MATH 676. Modules, Linear Algebra, and Groups. 3 Credits.

Requires knowledge of linear algebra and algebraic structures. Modules over rings, canonical forms for linear operators and bilinear forms, multilinear algebra, groups and group actions.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

MATH 677. Groups, Representations, and Fields. 3 Credits.

Internal structure of groups, Sylow theorems, generators and relations, group representations, fields, Galois theory, category theory.

Rules & Requirements

Requisites: Prerequisite, MATH 676.

Grading Status: Letter grade.

MATH 680. Differentiable Manifolds. 3 Credits.

Calculus on manifolds, vector bundles, vector fields and differential equations, de Rham cohomology.

Rules & Requirements

Requisites: Prerequisite, MATH 681.

Grading Status: Letter grade.

MATH 681. Introductory Topology. 3 Credits.

Topological spaces, product spaces, connectedness, compactness. Classification of surfaces, fundamental group, covering spaces. Simplicial homology.

Rules & Requirements

Grading Status: Letter grade.

MATH 690. Topics In Mathematics. 3 Credits.

Permission of the department. Directed study of an advanced topic in mathematics. Topics will vary.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

 **MATH 691H. Honors Research in Mathematics. 3 Credits.**

Permission of the director of undergraduate studies. Readings in mathematics and the beginning of directed research on an honors thesis.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

 **MATH 692H. Honors Thesis in Mathematics. 3 Credits.**

Permission of the director of undergraduate studies. Completion of an honors thesis under the direction of a member of the faculty. Required of all candidates for graduation with honors in mathematics.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Making Connections Gen Ed: EE- Mentored Research.

Grading Status: Letter grade.

Mathematics Major, B.A.

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance.

Students majoring in mathematics may enter either the B.A. or the B.S. program. The B.A. program is more flexible than the B.S. program; it allows students to specialize in mathematics and at the same time either to follow a broad liberal arts program or to specialize in a second area (possibly even taking a second major). MATH 521 is a key class in the curriculum and MATH 381 is a key to prepare for it. Your degree plan should be built with these classes as the backbone, and they should be taken in the second and third year by most students. Please see the sample plan for additional information and suggestions.

Student Learning Outcomes

Upon completion of the mathematics program (B.A., B.S.), students should be able to:

- Demonstrate mastery of the core of mathematics recognized as essential by national professional mathematics organizations
- Demonstrate mathematical reasoning and problem-solving skills
- Demonstrate the ability to construct logical arguments and mathematical proofs
- Demonstrate the ability to apply mathematical knowledge and skills in context and interpret results

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
MATH 347	Linear Algebra for Applications (previously offered as MATH 547)	3
or MATH 577	Linear Algebra	
MATH 381	Discrete Mathematics ^{1, H}	3
MATH 383	First Course in Differential Equations ^H	3
MATH 521	Advanced Calculus I ^H	3
At least three more MATH courses numbered above 500. ²		9
Additional Requirements		

MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4
or MATH 235	 Mathematics for Data Science	

Total Hours **33**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A current or former major in statistics and analytics may substitute STOR 215 for MATH 381.

² For this requirement, taking the three lab courses MATH 383L + MATH 528L + MATH 529L counts as one 500-level course.

All General Education requirements apply (see the General Education Requirements (p. 1195) in this catalog).

Following are suggested course selections (within the degree requirements) for students who have an interest in a particular direction.

Course Suggestions for Pure Mathematics

These courses provide a solid theoretical understanding of central mathematics and excellent preparation for graduate study in mathematics or the mathematical sciences.

Code	Title	Hours
MATH 521	Advanced Calculus I ^H	3
MATH 522	Advanced Calculus II ^H	3
MATH 577	Linear Algebra	3
MATH 578	Algebraic Structures	3

Enough upper-level mathematics courses to satisfy the degree requirements

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Those planning graduate study in mathematics or the mathematical sciences may consider taking some of MATH 653, MATH 676, MATH 680, or subsequent courses.

Course Suggestions for Mathematical Economics

Suitable for students planning to go on to graduate school in economics or a related area, or pursue a career in economics, business, or finance.

Note: With three more ECON courses numbered above 400, the requirements for the B.A. in economics could also be satisfied.

Code	Title	Hours
ECON 101	 Introduction to Economics ^{H, F}	4
ECON 410	 Intermediate Microeconomics ^H	4
ECON 420	Intermediate Macroeconomics ^H	3

At least two of: **6**

ECON 510  Advanced Microeconomic Theory ^H

ECON 511 Advanced Game Theory in Economics ^H

ECON 520 Advanced Macroeconomic Theory ^H

MATH 521 Advanced Calculus I ^H **3**

At least three of: **9**

MATH 522 Advanced Calculus II ^H

MATH 524 Elementary Differential Equations

MATH 535 Introduction to Probability

MATH 550 Topology

MATH 555 Introduction to Dynamics

MATH 564 Mathematical Modeling in the Life Sciences

Either: **6**

MATH 535/
STOR 435 Introduction to Probability

STOR 555 Mathematical Statistics

Or:

ECON 400  Introduction to Data Science and Econometrics ^H

MATH 347 Linear Algebra for Applications
or MATH 577 Linear Algebra

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Course Suggestions for Future High School Teachers

Code	Title	Hours
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4
MATH 381	Discrete Mathematics ^H	3
MATH 383	First Course in Differential Equations ^H	3
At least one of:		3
MATH 534	Elements of Modern Algebra	
MATH 535	Introduction to Probability	
MATH 548	Combinatorial Mathematics	
MATH 550	Topology	
MATH 347	Linear Algebra for Applications	3
or MATH 577	Linear Algebra	
MATH 521	Advanced Calculus I ^H	3
MATH 533	Elementary Theory of Numbers	3
MATH 551	Euclidean and Non-Euclidean Geometries	3
STOR 155	 Introduction to Data Models and Inference ^F	3
The Supplemental General Education requirement		9

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first two years, students are required to complete the standard calculus sequence as well as discrete mathematics, linear algebra, and first course in differential equations. At the beginning of their third year, students take advanced courses in mathematics. They have a great deal of flexibility in tailoring their program to meet their individual interests.

Code	Title	Hours
First and Second Years		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233 or MATH 235	 Calculus of Functions of Several Variables ^{H, F}  Mathematics for Data Science	4
MATH 381	Discrete Mathematics ^{1,4, H}	3
MATH 383	First Course in Differential Equations ^{3, H}	3
MATH 347 or MATH 577	Linear Algebra for Applications ³ Linear Algebra	3
Third and Fourth Years		
MATH 521	Advanced Calculus I ^H	3
At least three more MATH courses numbered above 500. ²		9
Total Hours		33

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A current or former major in statistics and analytics may substitute STOR 215 (<https://catalog.unc.edu/search/?P=STOR%20215>) for MATH 381 (<https://catalog.unc.edu/search/?P=MATH%20381>).

² For this requirement, taking the three lab courses MATH 383L + MATH 528L + MATH 529L counts as one 500-level course.

- ³ One of these courses could be moved to the third year with minimal consequence.
- ⁴ MATH 381 is a key course to prepare for MATH 521. Students with double majors should take MATH 381 over similar courses offered in other departments.

Special Opportunities in Mathematics

Special activities for qualified students include an undergraduate Mathematics Club, problem-solving seminars, and the Putnam Mathematical Competition. Qualified students may pursue opportunities as undergraduate learning assistants or tutors in the Math Help Center. Students interested in these activities should consult the undergraduate student services manager for additional information.

Qualified students can conduct original research with the guidance of a faculty member, usually in conjunction with the preparation of an honors project. Study Abroad opportunities include semester or yearlong programs in a variety of countries. The Archibald Henderson Medal and the Alfred Brauer Prize recognize outstanding performance and promise in mathematics.

Undergraduate honors research projects as well as some internships or study abroad programs might qualify for research and discovery or experiential education credit in the General Education curriculum. MATH 296 satisfies this requirement.

Honors in Mathematics

Special honors (H) sections are given in some mathematics courses when student demand is sufficient (for example, MATH 62H, MATH 231H, MATH 232H, MATH 233H, MATH 381H, MATH 383H).

Promising students are encouraged to work toward a bachelor's degree with honors in mathematics. This program consists of nine or more courses approved by the departmental honors advisor and satisfactory completion of an honors project completed over the two semesters. The honors project is conducted in association with a departmental faculty member on a topic approved by the departmental honors advisor, and spans two semesters of independent research, during which time the honors candidate must be enrolled in MATH 691H and MATH 692H. The final report on the project includes both a written description and an oral presentation before a committee of three faculty (including the project advisor) approved by the departmental honors advisor. The committee will then report to the departmental honors advisor, who, in conjunction with a subcommittee of the undergraduate committee, will make the final recommendation on awarding a degree with honors or highest honors. The candidate must have a 3.5 grade point average in mathematics courses to begin an honors project and must maintain the 3.5 average through the completion of the senior year.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate mathematics (and science) majors interested in teaching high school mathematics the opportunity to earn their degree and obtain licensure as a North Carolina high school mathematics teacher in four years. For more details, see the School of Education (p. 89) section of the Catalog.

Mathematics Major, B.S.

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance.

Students majoring in mathematics may enter either the B.A. or the B.S. program. The B.S. program is more comprehensive; it provides solid preparation for work or for further study in mathematics and related fields. Within the B.S. program there is an applied option, which is designed for students who are primarily interested in using mathematics for the study of other sciences. MATH 521 is a key class in the curriculum and MATH 381 is a key to prepare for it. The degree plan should be built with these classes as the backbone, and they should be taken in the second and third year by most students. Please see the sample plan for additional information and suggestions.

Student Learning Outcomes

Upon completion of the mathematics program (B.A., B.S.), students should be able to:

- Demonstrate mastery of the core of mathematics recognized as essential by national professional mathematics organizations
- Demonstrate mathematical reasoning and problem-solving skills
- Demonstrate the ability to construct logical arguments and mathematical proofs

- Demonstrate the ability to apply mathematical knowledge and skills in context and interpret results

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Mathematics Major, B.S.

Code	Title	Hours
Core Requirements		
One of the following:		3
COMP 110	 Introduction to Programming and Data Science	
COMP 116	Introduction to Scientific Programming	
MATH 347	Linear Algebra for Applications (preferably before the junior year; previously offered as MATH 547)	3
	or MATH 577 Linear Algebra	
MATH 381	Discrete Mathematics ^{1, H}	3
MATH 383	First Course in Differential Equations ^H	3
MATH 521	Advanced Calculus I ^H	3
One of the following:		3
MATH 522	Advanced Calculus II ^H	
MATH 523	Functions of a Complex Variable with Applications	
MATH 528	Mathematical Methods for the Physical Sciences I	
MATH 566	Introduction to Numerical Analysis	
One of the following:		3
MATH 533	Elementary Theory of Numbers	
MATH 534	Elements of Modern Algebra	
MATH 578	Algebraic Structures	
MATH 548	Combinatorial Mathematics	
At least three additional MATH courses numbered above 520, excluding MATH 528L and MATH 529L		9
Additional Requirements		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4
	or MATH 235  Mathematics for Data Science	
Physics course chosen from the following options:		4
PHYS 118	 Introductory Calculus-based Mechanics and Relativity (recommended) ^{H, F}	
PHYS 114	 General Physics I: For Students of the Life Sciences ^F	

At least four courses in the Division of Natural Sciences and Mathematics (beyond the General Education requirements), but not in mathematics	12
Remaining General Education requirements and enough free electives to accumulate 122 academic hours	64

Total Hours **122**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A current or former major in statistics and analytics may substitute STOR 215 for MATH 381.

Mathematics Major, B.S. – Applied Option

Code	Title	Hours
Core Requirements		
COMP 110	 Introduction to Programming and Data Science ^H	3
or COMP 116	Introduction to Scientific Programming	
MATH 381	Discrete Mathematics ^{1, H}	3
MATH 383	First Course in Differential Equations ^H	3
MATH 521	Advanced Calculus I ^H	3
Five courses chosen from the following list: ²		15
MATH 522	Advanced Calculus II ^H	
MATH 523	Functions of a Complex Variable with Applications	
MATH 524	Elementary Differential Equations	
MATH 528	Mathematical Methods for the Physical Sciences I ²	
MATH 529	Mathematical Methods for the Physical Sciences II ²	
MATH 535	Introduction to Probability	
MATH 548	Combinatorial Mathematics	
MATH 560	Optimization with Applications in Machine Learning ²	
MATH 563	 Introduction to Fluid Mechanics ²	
MATH 564	Mathematical Modeling in the Life Sciences ²	
MATH 566	Introduction to Numerical Analysis ²	
MATH 661	Scientific Computation I ²	
MATH 668	Methods of Applied Mathematics I ²	
Sequence MATH 383L, MATH 528L, and MATH 529L ²		
MATH 347	Linear Algebra for Applications	3
or MATH 577	Linear Algebra	
Additional Requirements		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4

or MATH 235  Mathematics for Data Science

Physics course chosen from the following options: 4

PHYS 118  Introductory Calculus-based Mechanics and Relativity (recommended) ^{H, F}

PHYS 114  General Physics I: For Students of the Life Sciences ^F

Strongly recommended:

MATH 535/
STOR 435 Introduction to Probability

STOR 555 Mathematical Statistics

At least four courses in the Division of Natural Sciences and Mathematics (beyond the General Education requirements), but not in mathematics. STOR 555 can be counted for this requirement. 12

Remaining General Education requirements and enough free electives to accumulate 122 academic hours 64

Total Hours **122**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A current or former major in statistics and analytics may substitute STOR 215 for MATH 381.

² with at least three from MATH 528, MATH 529, MATH 560, MATH 563, MATH 564, MATH 566, MATH 661, MATH 668, sequence MATH 383L + MATH 528L + MATH 529L.

Students must complete either the B.S. or B.S.-Applied Option for a B.S. degree with a major in mathematics. All requirements of the General Education curriculum (except for Supplemental General Education) apply to students in both options.

Following are suggested course selections (within the degree requirements) for students who have an interest in a particular direction.

Course Suggestions for Pure Mathematics

These courses provide a solid theoretical understanding of central mathematics and excellent preparation for graduate study in mathematics or the mathematical sciences.

Code	Title	Hours
MATH 521	Advanced Calculus I ^H	3
MATH 522	Advanced Calculus II ^H	3
MATH 577	Linear Algebra	3
MATH 578	Algebraic Structures	3

Enough upper-level mathematics courses to satisfy the degree requirements

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Those planning graduate study in mathematics or the mathematical sciences may consider taking some of MATH 653, MATH 676, MATH 680, or subsequent courses.

Course Suggestions for Mathematical Biology

For students interested in careers or further study in mathematical life sciences.

Code	Title	Hours
BIOL 101	 Principles of Biology ^{H, F}	3
CHEM 101 or CHEM 102	 General Descriptive Chemistry I ^{H, F}  General Descriptive Chemistry II	3
At least one of:		4
BIOL 201	Ecology and Evolution ^H	
BIOL 202	 Molecular Biology and Genetics ^{H, F}	
BIOL 205	Cellular and Developmental Biology ^H	
At least two of:		6
BIOL 454	Evolutionary Genetics	
BIOL 526	Computational Genetics ^H	
BIOL 551	Comparative Biomechanics	
BIOL 553	Mathematical and Computational Models in Biology	
MATH 521	Advanced Calculus I ^H	3
One of:		3
MATH 522	Advanced Calculus II ^H	
MATH 523	Functions of a Complex Variable with Applications	
MATH 528	Mathematical Methods for the Physical Sciences I	
MATH 566	Introduction to Numerical Analysis	
One of:		3
MATH 534	Elements of Modern Algebra	
MATH 548	Combinatorial Mathematics	
MATH 578	Algebraic Structures	
MATH 347 or MATH 577	Linear Algebra for Applications Linear Algebra	3
Three or more mathematics courses numbered above 500. Consider especially MATH 524, MATH 529, MATH 535, and MATH 564		9

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students

entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first two years, students are required to complete the standard calculus sequence, discrete mathematics, linear algebra, and first course in differential equations as well as introductory courses in computer science and physics. At the beginning of their third year, students take advanced courses in mathematics.

Mathematics Major, B.S.

First Year	Hours
First-Year Foundation Courses	
IDST 101  College Thriving	1
ENGL 105  English Composition and Rhetoric or ENGL 105I  English Composition and Rhetoric (Interdisciplinary)	3
First-Year Seminar or First-Year Launch (p. 1202) ^F	3
Triple-I and Data Literacy (p. 1210)	4
Global Language through level 3 (p. 1211)	varies
Major Courses	
COMP 110  Introduction to Programming and Data Science ^H or COMP 116  Introduction to Scientific Programming	3
Physics course chosen from the following options:	
PHYS 118  Introductory Calculus-based Mechanics and Relativity (recommended) ^{H, F}	4
PHYS 114  General Physics I: For Students of the Life Sciences ^F	
MATH 231  Calculus of Functions of One Variable I ^{H, F}	4
MATH 232  Calculus of Functions of One Variable II ^{H, F}	4
One of 4 courses in Division of Natural Sciences and Mathematics, but not in mathematics	
Hours	29
Sophomore Year	
MATH 233  Calculus of Functions of Several Variables ^{H, F} or MATH 235  Mathematics for Data Science	4
MATH 381	Discrete Mathematics ^{1, 2, H}
MATH 383	First Course in Differential Equations ^H
MATH 347	Linear Algebra for Applications
One of 4 courses in Division of Natural Sciences and Mathematics, but not in mathematics	
Hours	16
Junior Year	
MATH 521	Advanced Calculus I ^H
MATH 522	Advanced Calculus II ^H
or	or Functions of a Complex Variable with Applications
MATH 523	Applications
or	or Mathematical Methods for the Physical Sciences I
MATH 528	Sciences I
or	or Introduction to Numerical Analysis
MATH 566	

MATH 533 or MATH 534 or MATH 578 or MATH 548	Elementary Theory of Numbers or Elements of Modern Algebra or Algebraic Structures or Combinatorial Mathematics	3
One of 4 courses in Division of Natural Sciences and Mathematics, but not in mathematics		3
Hours		12
Senior Year		
At least 3 additional MATH courses numbered above 520, excluding MATH 528L and MATH 529L		9
One of 4 courses in Division of Natural Sciences and Mathematics, but not in mathematics		3
Hours		12
Total Hours		69

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A current or former major in statistics and analytics may substitute STOR 215 (<https://catalog.unc.edu/search/?P=STOR%20215>) for MATH 381 (<https://catalog.unc.edu/search/?P=MATH%20381>).

² MATH 381 is a key course to prepare for MATH 521. Students with double majors should take MATH 381 over similar courses offered in other departments.

Mathematics Major, B.S. – Applied Option

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A current or former major in statistics and analytics may substitute STOR 215 (<https://catalog.unc.edu/search/?P=STOR%20215>) for MATH 381 (<https://catalog.unc.edu/search/?P=MATH%20381>).

² with at least three from MATH 528, MATH 529, MATH 560, MATH 563, MATH 564, MATH 566, MATH 661, MATH 668, sequence MATH 383L + MATH 528L + MATH 529L.

³ These courses may be completed at any point in the major. However, we recommend starting early especially for sequential courses in another department. STOR 555 can be counted for this requirement and is strongly recommended.

⁴ MATH 381 is a key course to prepare for MATH 521. Students with double majors should take MATH 381 over similar courses offered in other departments.

Special Opportunities in Mathematics

Special activities for qualified students include an undergraduate Mathematics Club, problem-solving seminars, and the Putnam

Mathematical Competition. Qualified students may pursue opportunities as undergraduate learning assistants or tutors in the Math Help Center. Students interested in these activities should consult the undergraduate student services manager for additional information.

Qualified students can conduct original research with the guidance of a faculty member, usually in conjunction with the preparation of an honors project. Study Abroad opportunities include semester or yearlong programs in a variety of countries. The Archibald Henderson Medal and the Alfred Brauer Prize recognize outstanding performance and promise in mathematics.

Undergraduate honors research projects as well as some internships or study abroad programs might qualify for research and discovery or experiential education credit in the General Education curriculum. MATH 296 satisfies this requirement.

Honors in Mathematics

Special honors (H) sections are given in some mathematics courses when student demand is sufficient (for example, MATH 62H, MATH 231H, MATH 232H, MATH 233H, MATH 381H, MATH 383H).

Promising students are encouraged to work toward a bachelor's degree with honors in mathematics. This program consists of nine or more courses approved by the departmental honors advisor and satisfactory completion of an honors project completed over the two semesters. The honors project is conducted in association with a departmental faculty member on a topic approved by the departmental honors advisor, and spans two semesters of independent research, during which time the honors candidate must be enrolled in MATH 691H and MATH 692H. The final report on the project includes both a written description and an oral presentation before a committee of three faculty (including the project advisor) approved by the departmental honors advisor. The committee will then report to the departmental honors advisor, who, in conjunction with a subcommittee of the undergraduate committee, will make the final recommendation on awarding a degree with honors or highest honors. The candidate must have a 3.5 grade point average in mathematics courses to begin an honors project and must maintain the 3.5 average through the completion of the senior year.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate mathematics (and science) majors interested in teaching high school mathematics the opportunity to earn their degree and obtain licensure as a North Carolina high school mathematics teacher in four years. For more details, see the School of Education (p. 89) section of the Catalog.

Mathematics Minor

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1275).

Code	Title	Hours
Core Requirements		
MATH 381	Discrete Mathematics ^H	3
MATH 383	First Course in Differential Equations ^H	3
Three mathematics courses from the following list:		
MATH 347	Linear Algebra for Applications	9
The collection of all three lab courses MATH 383L + MATH 528L + MATH 529L		
Any course numbered above MATH 500 excluding MATH 528L and MATH 529L		
Additional Requirements		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4
	or MATH 235  Mathematics for Data Science	
Total Hours		27

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

See the program page here (p. 850) for special opportunities.

Department of Microbiology and Immunology

The Department of Microbiology and Immunology is one of the basic science departments of the UNC School of Medicine. Although the department participates actively in the undergraduate curriculum in biology and several of its courses are open to undergraduate students, the department does not offer an undergraduate major in microbiology.

MCRO 251 Introductory Medical Microbiology is an undergraduate course, including both lecture and laboratory sessions, which is specifically designed to serve as the required prerequisite for students applying to physician assistant, pharmacy, or nursing programs, although

other students with the required science background may take the course. Most of the other courses offered by the department are available to highly motivated undergraduate students with the necessary preparation, although it is important for such students to consult the course instructor before registering.

Graduate Programs

- Ph.D. in Microbiology and Immunology (<https://catalog.unc.edu/graduate/schools-departments/microbiology-immunology/>)

MCRO—Microbiology

Undergraduate-level Courses

MCRO 251. Introductory Medical Microbiology. 4 Credits.

Required preparation, one semester of a basic undergraduate science class. An introductory course in microbiology that focuses on the structure, biology, and genetics of microbes in relation to human disease and the immune system. For students planning careers in pharmacy, nursing, dental hygiene, and related fields. A laboratory is required.

Rules & Requirements

Grading Status: Letter grade.

MCRO 291. Undergraduate Learning Apprenticeship. 1 Credits.

Permission required. Experience includes preparations, demonstrations, assistance, and attendance at weekly meetings. Apprentices will not be involved in any aspects of grading.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-LEARNTA.

Making Connections Gen Ed: EE - Undergraduate Learning Assistant, ULA.

Requisites: Prerequisite, MCRO 251; a grade of B or better in MCRO 251 is required.

Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.

Grading Status: Pass/Fail.

MCRO 292. Undergraduate Learning Assistant. 2 Credits.

Permission required. Experience includes preparations, demonstrations, assistance, and attendance in weekly meetings.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-LEARNTA.

Making Connections Gen Ed: EE - Undergraduate Learning Assistant, ULA.

Requisites: Prerequisite, MCRO 251; a grade of B or better in MCRO 251 is required.

Repeat Rules: May be repeated for credit. 4 total credits. 2 total completions.

Grading Status: Pass/Fail.

Advanced Undergraduate and Graduate-level Courses

MCRO 449. Introduction to Immunology. 3 Credits.

This course provides a general overview of the evolution, organization, and function of the immune system. Instruction will be inquiry-based with extensive use of informational and instructional technology tools.

Rules & Requirements

Requisites: Prerequisites, BIOL 205; or BIOL 103, BIOL 104, and BIOL 240; or permission of the instructor for students lacking the prerequisites.

Grading Status: Letter grade.

Same as: BIOL 449.

MCRO 614. Immunobiology. 3 Credits.
