ACADEMIC CALENDAR

2026-2027

University Registrar calendars can be obtained on the University Registrar's website (<http://registrar.unc.edu>). For more information on Summer and Maymester Sessions, visit the Summer School's website (<http://summer.unc.edu>).

*Professional School Students – please check with the Dean of your school as the dates of Wellbeing Days may vary.

Summer Session I (SSI) and Maymester (MM) 2026

MM and SSI classes begin	Wednesday, May 13
MM last day for late registration	Wednesday, May 13
SSI last day for late registration	Thursday, May 14
Holiday (Memorial Day). No classes	Monday, May 25
MM classes end/exams	Thursday, May 28 Friday, May 29
SSI classes end	Tuesday, June 16
SSI reading day	Wednesday, June 17
Holiday (Juneteenth). No classes	Friday, June 19
SSI exam days	Thursday, June 18 Saturday, June 20

Summer Session II (SSII) 2026

SSII classes begin	Monday, June 22
SSII last day for late registration	Tuesday, June 23
Holiday (Independence Day). No classes	Friday, July 3
SSII classes end	Thursday, July 23
SSII reading day	Friday, July 24
SSII exam days	Monday, July 27 Tuesday, July 28

Fall Semester 2026

New student convocation	Sunday, August 16
Classes begin	Monday, August 17
Last day for late registration	Friday, August 21
Holiday (Labor Day). No classes	Monday, September 7
Well-being days. No classes	Monday, September 21 Tuesday, October 6
University Day. Classes cancelled during ceremony	Monday, October 12th
Fall break. No classes	Thursday, October 15 Friday, October 16
Thanksgiving recess. No classes	Wednesday, November 25 Thursday, November 26 Friday, November 27
Classes end	Wednesday, December 2
Reading days	Thursday, December 3 Wednesday, December 9

Exam days

Friday, December 4
Saturday, December 5
Monday, December 7
Tuesday, December 8
Thursday, December 10
Friday, December 11

Fall Commencement

Sunday, December 13

Spring Semester 2027

Classes begin	Wednesday, January 6
Last day of late registration	Tuesday, January 12
Holiday (MLK Jr.). No classes	Monday, January 18
Well-being days	Monday, February 8 Thursday, March 25
Spring break begins 5:00 p.m.	Friday, March 5
Classes resume 8:00 a.m.	Monday, March 15
Spring holiday. No classes	Friday, March 26
Classes end	Monday, April 26
Reading days	Tuesday, April 27 Friday, April 30 Wednesday, May 5
Exam days	Wednesday, April 28 Thursday, April 29 Saturday, May 1 Monday, May 3 Tuesday, May 4 Thursday, May 6

Spring Commencement

Saturday, May 8

Summer Session I (SSI) and Maymester (MM) 2027

SSI and MM classes begin	Wednesday, May 12
MM last day for late registration	Wednesday, May 12

SSI exam days	Thursday, June 17 Friday, June 18
Holiday (Juneteenth). No classes	Monday, June 21

Summer Session II (SSII) 2027

SSII classes begin	Tuesday, June 22
SSII last day for late registration	Wednesday, June 23
Holiday (Independence Day). No classes	Monday, July 5
SSII classes end	Friday, July 23
SSII reading day	Monday, July 26
SSII exam days	Tuesday, July 27 Wednesday, July 28

ABOUT UNC

The University Catalog

Although the publisher of this catalog has made every reasonable effort to attain factual accuracy herein, no responsibility is assumed for editorial or clerical errors or errors occasioned by mistakes. The publisher has attempted to present information which, at the time of preparation for publication, most accurately describes the course offerings, faculty listings, policies, procedures, regulations, and requirements of the University. However, it does not establish contractual relationships. The University reserves the right to alter or change any statement contained herein without prior notice.

Published by the University of North Carolina at Chapel Hill, Chapel Hill, N.C.

Accreditation

The University of North Carolina at Chapel Hill is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award baccalaureate, masters, educational specialist, and doctorate degrees. Degree-granting institutions also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of the University of North Carolina at Chapel Hill may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (<http://www.sacscoc.org>).

Mission Statement: The University of North Carolina at Chapel Hill

The University of North Carolina at Chapel Hill, the nation's first public university, serves North Carolina, the United States, and the world through teaching, research, and public service. We embrace an unwavering commitment to excellence as one of the world's great research universities.

Our mission is to serve as a center for research, scholarship, and creativity and to teach a diverse community of undergraduate, graduate, and professional students to become the next generation of leaders. Through the efforts of our exceptional faculty and staff, and with generous support from North Carolina's citizens, we invest our knowledge and resources to enhance access to learning and to foster the success and prosperity of each rising generation. We also extend knowledge-based services and other resources of the University to the citizens of North Carolina and their institutions to enhance the quality of life for all people in the State.

With *lux, libertas* — light and liberty — as its founding principles, the University has charted a bold course of leading change to improve society and to help solve the world's greatest problems.

Approved by the UNC Board of Governors, November 2009, February 2014, July 2022

Policy on Prohibited Discrimination, Harassment and Related Misconduct Including Sexual and Gender-Based Harassment, Sexual Violence, Interpersonal Violence and Stalking

The University is committed to providing a welcoming environment for all members of our community. It is firmly committed to maintaining a campus environment free from discrimination, harassment, and related misconduct. In accordance with its Policy Statement on Nondiscrimination, the University does not unlawfully discriminate in offering equal access to its educational programs and activities or with respect to employment terms and conditions on the basis of an individual's age, color, disability, gender, gender expression, gender identity, genetic information, race, national origin, religion, sex, sexual orientation, or veteran status (collectively referred to as "protected status"). The University's protection of these statuses is grounded in federal law. Federal law also governs the University's response to sexual assault, sexual violence, interpersonal violence (including domestic and dating violence), and stalking. Such acts violate the essential dignity of our community member(s) and are contrary to our institutional values.

For more information about the policy and procedures, visit the University's Policy on Prohibited Discrimination, Harassment and Related Misconduct Including Sexual and Gender-Based Harassment, Sexual Violence, Interpersonal Violence and Stalking, the University's Policy Statement on Nondiscrimination, (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131717>) Nondiscrimination for Program Participants (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131707>), Nondiscrimination for Student Organizations (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131706>), or contact the Equal Opportunity and Compliance Office (<https://eoc.unc.edu/>).

Equal Opportunity and Compliance Office
214 W. Cameron Ave., Campus Box 9160
Chapel Hill, NC 27599-9160
Telephone: (919) 966-3576
Email: eoc@unc.edu

Policy Statement on Nondiscrimination: Educational and Employment Decisions

The University is committed to providing an inclusive and welcoming environment and to ensuring that educational and employment decisions are based on individuals' abilities and qualifications. Consistent with these principles and applicable laws, it is therefore the University's policy not to discriminate on the basis of age, color, disability, gender, gender expression, gender identity, genetic information, national origin, race, religion, sex, sexual orientation, or veteran status as consistent with the University's Policy on Prohibited Discrimination, Harassment, and Related Misconduct. No person, on the basis of protected status, shall be excluded from participation in, be denied the benefits of, or be subjected to unlawful discrimination, harassment, or retaliation under any University program or activity, including with respect to employment terms and conditions. Such a policy ensures that only relevant factors are considered and that equitable and consistent standards of conduct and performance are applied.

Resources for Information and Assistance

Individuals are encouraged to report incidents of prohibited conduct to the Equal Opportunity and Compliance Office, the Title IX Compliance Coordinator, the Report and Response Coordinators, the Office of the Dean of Students, or the UNC Department of Public Safety. As an alternative, an individual can also seek confidential assistance that does not involve notice to the University. If the conduct you have experienced is sexual violence or other criminal activity, including interpersonal (relationship) violence or stalking, you are also encouraged to report the incident to local law enforcement. See below for a comprehensive list of support and reporting options or refer to the University's Policy on Prohibited Discrimination, Harassment, and Related Misconduct (<https://policies.unc.edu/TDClient/2833/Portal/Shared/Search/?c=all&s=Policy+on+Prohibited+Discrimination%2C+Harassment+and+Related+Misconduct>).

ethicsandintegrity@unc.edu

The University's Compliance Line, now called Carolina Ethics Line, is a secure method through which to submit an anonymous report regarding academic matters, athletics, financial improprieties, faculty and staff matters, health care, information technology, research, risk and safety, student affairs, or other matters either online or by telephone. All reports submitted through Carolina Ethics Line will be given careful attention by

appropriate UNC–Chapel Hill offices and officials. Anyone filing a report via Carolina Ethics Line should retain the report key and password and return to the website within 10 working days to check for comments or followup questions.

Graduation Rate

Pursuant to the federal Student Right-to-Know Act, we report that, in 2024–2025, the six-year completion or graduation rate for undergraduates who entered the University of North Carolina at Chapel Hill in 2019 on a full-time basis was 91.1 percent.

ADMINISTRATIVE OFFICERS

The University of North Carolina at Chapel Hill Catalog is updated once yearly during the early spring and is published on June 1. For archiving and legal purposes, it serves as a static record of the upcoming academic year. The information you see here was published in early June, 2026, and will not be updated again until June, 2027.

Office of the Chancellor

- Lee H. Roberts, *Chancellor*
 - Christi Hurt, *Chief of Staff*
- Michael Andreasen, *Vice Chancellor for University Development*
- Michael Barker, *Vice Chancellor for Information Technology and CIO*
- Anita Brown-Graham, *Director of NC Impact*
- Dedric Carter, *Vice Chancellor for Innovation, Entrepreneurship and Economic Development and Chief Innovation Officer*
- Lawrence Cunningham, *Director of Athletics*
- Dean Weber, *Chief Audit Officer*
 - Veronica Flaspoepler, *President of the General Alumni Association*
- Penny Gordon-Larsen, *Vice Chancellor for Research*
 - Nathan Knuffman, *Vice Chancellor for Finance and Operations*
- Paul Newton, *Vice Chancellor and General Counsel*
- Chris McClure, *Senior Advisor to the Chancellor and Secretary of the University*
- Dawn Osborne-Adams, *University Ombuds*
- Cristen Page, *Vice Chancellor for Medical Affairs*
- Michael Piehler, *Special Assistant to the Chancellor and Chief Sustainability Officer*
- Dean Stoyer, *Vice Chancellor for Communications*
- Magnus Egerstedt, *Provost*
 - Giselle Corbie, *Senior Vice Provost for Faculty Affairs*
 - Leah Cox, *Vice Provost and Interim Leader for Enrollment Management*
 - Beth Mayer-Davis, *Dean of the Graduate School*
 - James Orr, *Senior Vice Provost for Student Success*
 - James White, *Dean of The College of Arts and Sciences*

University Governance

- Malcolm K. Turner, *Chair of the Board of Trustees*
- Beth Moracco, *Chair of Faculty*

- Rebecca Howell, *Chair of Employee Forum*

Office of Undergraduate Education

Ian F. McNeely, *Senior Associate Dean, Undergraduate Education*

Meredith Petschauer, *Associate Dean, Undergraduate Curricula*

Chloe Russell, *Associate Dean, Academic Advising Program*

Kim Abels, *Associate Dean, Center for Student Success*

Andrew Lakis, *Executive Director, Robertson Scholars Leadership Program*

James Leloudis, *Peter T. Grauer Associate Dean and Director, Honors Carolina*

Jennifer Larson, *Director of Credit Programs and UNC Summer School*

Nick Siedentop, *Curriculum Director, Office of Undergraduate Curricula*

School Deans

James White, *Dean, College of Arts and Sciences*

Jed Atkins, *Dean and Director, School of Civic Life and Leadership*

Stanley C. Ahalt, *Dean, School of Data Science and Society*

Mary Margaret Frank, *Dean, Kenan–Flagler Business School*

Janet Guthmiller, *Dean, School of Dentistry*

Jill V. Hamm, *Dean, School of Education*

Aimee N. Wall, *Dean, School of Government*

Elizabeth Mayer-Davis, *Dean, The Graduate School*

Diane Kelly, *Interim Dean, School of Information and Library Science*

Raul Reis, *Dean, School of Journalism and Media*

Andy Hessick, *Interim Dean, School of Law*

Cristy Page, *Dean, School of Medicine; Vice Chancellor, Medical Affairs; CEO, UNC Health Care System*

Valerie Howard, *Dean, School of Nursing*

Kim L.R. Brouwer, *Interim Dean, Eshelman School of Pharmacy*

Nancy Messonnier, *Dean, Gillings School of Global Public Health*

Ramona Denby-Brinson, *Dean, School of Social Work*

Jennifer Larson, *Director, Credit Programs and Summer School*

Todd Nicolet, *Vice Provost for Digital and Lifelong Learning*

Finance and Operations

Nathan Knuffman, *Vice Chancellor, Finance and Operations, Chief Financial Officer*

Lindsay Farling, *Associate Vice Chancellor, Budget and Data Analysis*

Howard Wertheimer, *Interim Associate Vice Chancellor, Facilities Services*

Gordon Merklein, *Associate Vice Chancellor, Real Estate and Campus Enterprises*

Carly Perin, *Associate Vice Chancellor, Finance*

Scott W. Savage, *Associate Vice Chancellor, Organizational Strategy and Performance*

Human Resources

Linc Butler, *Senior Associate Vice Chancellor, Human Resources and Academic Personnel*

Information Technology Services

J. Michael Barker, *Vice Chancellor, Information Technology and Chief Information Officer*

Mechelle Clayton, (<https://its.unc.edu/about-us/what-we-do/enterprise-applications/>) *Assistant Vice Chancellor, Enterprise Applications*

Suzanne Cadwell, *Interim Assistant Vice Chancellor, Customer Experience and Engagement*

Ethan Kromhout, *Assistant Vice Chancellor, Infrastructure and Operations*

John McGee, *Assistant Vice Chancellor, Research Computing*

Medical Affairs

Cristy Page, *Dean, School of Medicine; Vice Chancellor, Medical Affairs; CEO, UNC Health Care System*

Samantha Meltzer-Brody, *Executive Dean, UNC School of Medicine*

Margaret Ann Bollmeier, *Chief Philanthropy Officer, UNC School of Medicine and UNC Health President, UNC Health Foundation*

Will Bryant, *Chief Financial Officer, UNC Health*

Audrea Caesar, *Chief Community Health Officer, UNC School of Medicine and UNC Health*

Blossom Damania, *Chief Scientific Officer, UNC Health; Vice Dean for Research, UNC School of Medicine*

Scott Doak, *Chief Human Resources Officer, UNC Health*

Katie Eimers, *Chief Culture Officer, UNC Health*

Cam Enarson, *Vice Dean for Strategic Initiatives, UNC School of Medicine*

Matthew Ewend, *Chief Clinical Officer, UNC Health; President, UNC Physicians*

Jeff Lindsay, *Chief Operating Officer and President, UNC System Hospitals, UNC Health*

Ted Lotchin, *Chief Compliance Officer, UNC Health*

Karlina Matthews, *Chief Financial Officer and Vice Dean for Finance and Business Operations, UNC School of Medicine; Chief Business Officer, UNC Health*

Tammy Scarborough, *Chief Administrative Officer and President Statewide, UNC Health*

Tom Shanahan, *Chief Legal Officer, UNC Health*

Jennifer Wu, *Vice Dean, Academic Affairs, School of Medicine; Deputy Chief Academic Officer, UNC Health*

Alyssa Zameiowski, *Chief of Staff to the Dean and CEO, UNC School of Medicine and UNC Health*

Research

Penny Gordon-Larsen, *Vice Chancellor, Research*

Andrew S. Johns, *Senior Associate Vice Chancellor, Research*

Craig Fletcher, *Associate Vice Chancellor, Research*

Student Affairs

Jonathan Sauls, *Senior Associate Vice Chancellor, Student Success and Administration*

Aaron Bachenheimer, *Associate Vice Chancellor, Student Engagement*

UNC-CHAPEL HILL: AN INTRODUCTION

The University of North Carolina at Chapel Hill is the most comprehensive institution in North Carolina, both in the range of its programs at all levels and in the breadth of its specialized research and public service programs. Its 14 schools and the College of Arts and Sciences provide instruction in more than 100 fields, offering 74 bachelor's, 104 master's, 65 doctoral, and 7 professional degrees, as well as 16 certificates, in academic areas critical to North Carolina's future: business, dentistry, education, information and library science, media and journalism, government, law, medicine, nursing, pharmacy, public health, and social work, among others.

Since 1795, when its doors first opened to students, the University has remained faithful to its founders' charge to duly encourage and promote all useful learning for the betterment of humanity.

The University was anticipated by a section of the first state constitution drawn up in 1776 directing the establishment of "one or more universities" in which "all useful learning shall be duly encouraged and promoted." State support, it directed, should be provided so that instruction might be available "at low prices." The American Revolution intervened, and it was not until 1789, the year that George Washington became president of the new nation, that the University was chartered by the General Assembly. Despite constitutional instructions to the contrary, no state appropriations were made, and the trustees were left to secure land and money themselves. On October 12, 1793, the cornerstone was laid for a brick building on a hilltop near the center of the state amidst the colorful fall foliage of dogwood, oak, and tulip trees.

The site, lying at the crossing of north-south and east-west roads, was marked only by a small Anglican chapel that soon shared part of its name — New Hope Chapel Hill — with the community that developed there. Legislator and trustee William R. Davie, who had been instrumental in securing passage of the charter, took the lead in organizing the University. Davie presided over the Masonic ritual of the laying of the cornerstone. In time he came to be called "the Father of the University." Many years later a large poplar or tulip tree, first mentioned in 1818 and still standing near the center of the old campus, was called Davie Poplar in his honor.

The first building and, indeed, the only building for two years, was a two-story brick structure that came to be called Old East. It is now a National Historic Landmark, the oldest state university building in America. Opened to students on January 15, 1795, the University of North Carolina received its first student, Hinton James of New Hanover County, on February 12. By March there were two professors and 41 students present.

The second state university did not begin classes until 1801, when a few students from nearby academies assembled under a large tree at Athens, Georgia, for instruction. By then four classes had already been graduated at Chapel Hill, and there were to be three more before the first diplomas were issued in Georgia. The next building on the Carolina campus was Person Hall, begun in 1796 and long used as the chapel. The cornerstone of Main or South Building was laid in 1798. All three are older than any other American state university building.

The Young University

During the early 19th century the trustees began a period of strong support in the development of the young University. Even though their

proclaimed initial goal for the University had been to provide trained leadership for the state, the curriculum followed the customary classical trend. In 1815, however, the natural sciences were given equal place, and in the 1820s Professors Denison Olmstead and Elisha Mitchell prepared the nation's first geological survey. In 1831 the first astronomical observatory at a state university was built under the direction of President Joseph Caldwell. Student enrollment increased steadily, and by 1860 only Harvard, Yale, and the University of Virginia had more students.

Young men from many states came to Chapel Hill for their education, particularly those from families who had recently left North Carolina to settle elsewhere in the South. The University of North Carolina provided governors not only for North Carolina but also for many other states; countless professions and occupations were represented among its graduates, including cabinet members, clergymen, diplomats, engineers, geologists, judges, legislators, surveyors, teachers, and a president and a vice president of the United States.

Though the Civil War closed many colleges and universities, the University at Chapel Hill remained open throughout the war, though its students were few. During Reconstruction, however, it was closed from 1870 until 1875. When it reopened, the University's leadership began to inaugurate programs that once again marked it as a leading university.

The General Assembly in 1931 consolidated the University with the Woman's College at Greensboro and North Carolina State College at Raleigh under a single board of trustees. As an economy measure during the Depression and as a means of eliminating duplication, the trustees allocated each unit specific roles in higher education for the state. The offices of the Consolidated University were established on the Chapel Hill campus and University President Frank Porter Graham became the Consolidated University's first president.

The period of the Depression in the 1930s saw a great deal of new construction on the campus as federal funds became available to create jobs for the unemployed. New dormitories, classroom buildings, a gymnasium, and other buildings and improvements were built in part from this source. World War II also resulted in some new construction and alterations on campus as the University's facilities were used to train military personnel.

Expansion continued throughout the 20th century, and today UNC—Chapel Hill ranks among the great institutions of higher education in the nation. Beginning with one building, 41 students, and two professors, the University has now grown to more than 300 buildings, 30,011 students annually, and 3,887 faculty members.

Top Rankings

The University has been recognized for the quality of its undergraduate and graduate programs in every national survey conducted in the last third of the 20th century and into the 21st. *U.S. News and World Report's* survey of American colleges and universities consistently ranks the University among the best colleges in the nation and among the top research universities.

These accolades reflect the quality of the curriculum and of the faculty, whose research orientation allows them to share with their students not only the thrill of discovery but also the latest advancements and new knowledge. Another asset that contributes to this reputation is UNC—Chapel Hill's superb library system containing more than nine million print and electronic volumes. It is ranked among the top research libraries in the United States and Canada by the Association of Research Libraries.

THE UNC SYSTEM

History of the University

In North Carolina all the public educational institutions that grant baccalaureate degrees are part of the University of North Carolina. The University of North Carolina at Chapel Hill is one of the constituent institutions of the multicampus state university.

The University of North Carolina, chartered by the North Carolina General Assembly in 1789, was the first public university in the United States to open its doors and the only one to graduate students in the 18th century. The first class was admitted in Chapel Hill in 1795. For the next 136 years the only campus of the University of North Carolina was at Chapel Hill.

In 1877 the North Carolina General Assembly began sponsoring additional institutions of higher education, diverse in origin and purpose. Five were historically black institutions, and another was founded to educate Native Americans. Several were created to prepare teachers for the public schools. Others had a technological emphasis. One is a training school for performing artists.

In 1931 the North Carolina General Assembly redefined the University of North Carolina to include three state-supported institutions: the campus at Chapel Hill (now the University of North Carolina at Chapel Hill), North Carolina State College of Agriculture and Engineering at Raleigh (now North Carolina State University), and the North Carolina College for Women (Woman's College) at Greensboro (now the University of North Carolina at Greensboro). The new multicampus University operated with one board of trustees and one president. By 1969 three additional campuses had joined the University through legislative action: the University of North Carolina at Charlotte, the University of North Carolina at Asheville, and the University of North Carolina at Wilmington.

In 1971 the General Assembly passed legislation bringing into the University of North Carolina the state's 10 remaining public senior institutions, each of which had until then been legally separate: Appalachian State University, East Carolina University, Elizabeth City State University, Fayetteville State University, North Carolina Agricultural and Technical State University, North Carolina Central University, North Carolina School of the Arts, Pembroke State University, Western Carolina University, and Winston-Salem State University. This action created a 16-campus University. In 1985 the North Carolina School of Science and Mathematics, a residential high school for gifted students, was declared an affiliated school of the University, and it became the 17th constituent institution.

The UNC Board of Governors is the policy-making body legally charged with "the general determination, control, supervision, management, and governance of all affairs of the constituent institutions." It elects the president, who administers the University. The 32 voting members of the board are elected by the North Carolina General Assembly for four-year terms. Former board chairs and board members who are former governors of North Carolina may continue to serve for limited periods as nonvoting members emeriti. The president of the UNC Association of Student Governments, or that student's designee, is also a nonvoting member. The UNC System Office (<http://www.northcarolina.edu/>) is in Chapel Hill, NC.

Each of the 17 institutions is headed by a chancellor, who is chosen by the Board of Governors on the president's nomination and is responsible to the president. Each institution has a board of trustees, consisting of eight members elected by the Board of Governors, four appointed by the

governor, and the president of the student body, who serves ex officio. (The North Carolina School of the Arts has two additional ex officio members.) Each board of trustees holds extensive powers over academic and other operations of its institution on delegation from the Board of Governors.

ADMISSIONS

The University Catalog contains information about admission requirements, placement tests, transfer of credit, readmission, online/structured-paced/part-time studies, and summer orientation sessions.

Undergraduate students. The Office of Undergraduate Admissions (<http://admissions.unc.edu/>) serves students interested in continuing their education at the University of North Carolina at Chapel Hill. Applications from all students are accepted and considered with care and respect.

Admission to the University of North Carolina at Chapel Hill is competitive. Although all 16 public universities in North Carolina share the same minimum course and admission requirements, which are published on the University of North Carolina's website (<http://www.northcarolina.edu>), these minimum credentials do not guarantee admission to the University of North Carolina at Chapel Hill, and successful candidates typically exceed them. The Office of Undergraduate Admissions follows all regulations and guidance from the UNC System as outlined in the UNC Policy Manual and Code. (<https://www.northcarolina.edu/apps/policy/?tab=policy#policy-tab>) The policies listed below derive from section 700.1.1 and relevant subpages. This catalog reflects admissions policies and requirements for fall 2026. Refer to the Undergraduate Admissions website (<https://admissions.unc.edu/>) for 2027 updates.

Graduate students. Admission to Graduate School academic programs (<http://gradschool.unc.edu/admissions/>) is competitive and students are selected on the basis of their academic preparation, ability, and program fit. For some programs, an on-site preadmissions interview may be required. Early contact with your program of interest can be helpful in preparing your application.

UNDERGRADUATE ADMISSIONS

Admission Requirements

This catalog reflects admissions policies and requirements for fall 2026. Refer to the Undergraduate Admissions website (<https://admissions.unc.edu/>) for 2027 updates.

In evaluating candidates for admission, the University seeks an entering class whose collective strengths will foster excellence within the University community; enhance the education of everyone within it; provide for the leadership of the educational, governmental, scientific, business, humanistic, artistic, and professional institution of the state, nation, and world; and enrich the lives of all the people of North Carolina.

The University evaluates individual candidates comprehensively, individually, and compassionately. The members of the admissions committee seek to assess the ways in which each candidate will likely contribute to the campus community and enable the University to fulfill its mission. In addition to a candidate's academic record, the demonstrated character traits we seek include, but are not limited to, extraordinary engagement, courage, creativity, curiosity, global/cultural interests, impact via advocacy, innovative thinking, leadership, and openness to ideas. Although we expect each successful candidate to demonstrate strength in some of these areas, we do not expect every candidate to be equally strong in all of them. Just as there is no formula for admission, there is no list of qualities or characteristics that every applicant must present.

In evaluating each candidate's academic record, the admissions committee considers not only the student's grades but also the courses attempted within the context of the school's and local community's course offerings. Although each candidate's academic record and standardized test scores, if submitted, are important elements in the admissions decision, the candidate's essays, letter(s) of recommendation, accomplishments outside the classroom, and demonstrated character traits are also carefully considered. We understand that students travel many different roads to get to Carolina, and we celebrate the variety of interests, backgrounds, and aspirations that they bring with them. At the same time, it's fair to say that we seek excellence. We consider everything that a student submits as part of their application to try and understand not only their achievements and potential, but the context in which those achievements occurred and potential forged.

By their anticipated date of enrollment, candidates for admission must have graduated from secondary school or have their GED or high school equivalent diploma.

Items Necessary for a Complete Application

First-Year Admission

In addition to the completed application, which includes the nonrefundable application fee (or approved fee-waiver), accomplishments and activities outside of the classroom, and required essays, students are expected to submit the following materials:

- Official transcript(s) from all secondary schools attended, including summer sessions and including any online or distance-education

classes. Transcripts must be sent directly from the educational institution to the Office of Undergraduate Admissions, preferably via an approved electronic service.

- Applicants must self-report college-level coursework and grades. Official college transcripts are required from all enrolling students. Transcripts must be sent directly from the educational institution to the Office of Undergraduate Admissions, preferably via an approved electronic service.
- School report and one teacher recommendation
- University of North Carolina system institutions, which include the University of North Carolina at Chapel Hill, have the following standardized testing policy in place for students entering fall 2026 and beyond. Students with a weighted GPA below 2.8 (on a 4.0 scale) are required to submit either an ACT score of 17 or higher or an SAT score of 930 or higher. Students who have a weighted GPA of 2.80 or higher have the option to self-report SAT and/or ACT scores with their application. If a student self reports their test scores, and the student is admitted and chooses to enroll, then the student is required to have the testing service send their official scores to the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/types-of-applications/first-year/>) by the stated deadline. For the complete UNC System policy, visit www.northcarolina.edu/students/admission/ (<https://www.northcarolina.edu/students/admission/>).
- Students are not required, but have the option to self-report scores from the CLT exam and supplemental test scores such as AP and IB exams.
- Applicants who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS), (<https://ncresidency.cfn.org/residencyInfo/>) and to provide a Residency Classification Number (RCN). (<https://ncresidency.cfn.org/residencyInfo/>)
- Enrolling first-year students may also need to submit and complete a background check as required by UNC System policy. (https://www.northcarolina.edu/apps/policy/?tab=policy_manual)
- Any additional items or information requested in the application or by the Office of Undergraduate Admissions.

As part of the first-year application, students have the option of expressing interest in being considered for Carolina Global Launch (CGL). Expressing interest in CGL does not impact that student's consideration for fall admission. CGL provides the opportunity to study abroad during the fall semester and then have guaranteed enrollment as a transfer student to Carolina for the spring semester upon successful completion of CGL.

The Office of Undergraduate Admissions, at its discretion, may deny admission or withdraw applications from consideration for students who submit completed applications but who do not provide one or more of the materials listed above.

In addition to these materials, applicants may submit information that will enhance the University's understanding of their background and preparation for college.

Transfer Admission

Students are considered transfer applicants if they have attended one or more post-secondary institutions after graduating from secondary school or who are active-duty service members or military veterans. Please note that individuals who have already earned a bachelor's degree can pursue a second undergraduate degree, but opportunities are limited to specific

majors within the health sciences division (<https://catalog.unc.edu/undergraduate/departments/health-sciences/#programstext>), nursing, or dental hygiene. Admission to these programs is competitive and subject to departmental and University policies.

Eligible students may apply for transfer admission by following the instructions available at the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/types-of-applications/transfer/>).

In addition to the completed application, which includes the nonrefundable application fee (or fee-waiver request), accomplishments and activities outside of the classroom, and required essays, students are expected to submit the following materials:

- Official transcript(s) from all colleges attended, including summer sessions and including any online or distance-education classes, regardless of whether college credit was earned or will transfer. Transcripts must be sent directly from the educational institution to the Office of Undergraduate Admissions, preferably via an approved electronic service.
- Official secondary school transcript(s) or GED or a high school equivalency diploma. Transcripts must be sent directly from the educational institution to the Office of Undergraduate Admissions, preferably via an approved electronic service.
- The fall and, if applicable, winter grades should be submitted to the Office of Undergraduate Admissions as soon as they become available. An application will be considered incomplete without them.
- Any items or information requested by programs (<https://admissions.unc.edu/apply/types-of-applications/transfer-direct-admission-programs/>) requiring additional material for admission.
- Recommendation letter (academic, personal, or professional)
- University of North Carolina system institutions, which include the University of North Carolina at Chapel Hill, have the following standardized testing policy in place for students entering fall 2026 and beyond. Students with a weighted GPA below 2.8 (on a 4.0 scale) are required to submit either an ACT score of 17 or higher or an SAT score of 930 or higher. Transfer applicants with a weighted GPA of 2.80 or greater have the option to self-report SAT and/or ACT scores with their application. Transfer applicants are also not required to submit a test score if they are 21 years or older or if they have 24 or more transferrable hours. If a student self reports their test scores and the student is admitted and chooses to enroll, then the student is required to have the testing service send their official scores to the Office of Undergraduate Admissions by the stated deadline. For the complete UNC System policy, visit www.northcarolina.edu/students/admission/.
- Students are not required, but have the option to self-report scores from the CLT exam and supplemental test scores such as AP and IB exams.
- Applicants who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS) (<https://ncresidency.cfnc.org/residencyInfo/>), and to provide a Residency Classification Number (RCN). (<https://ncresidency.cfnc.org/residencyInfo/>)
- Enrolling transfer students may also need to submit and complete a background check as required by UNC System policy. (https://www.northcarolina.edu/apps/policy/?tab=policy_manual)
- Any additional items or information requested in the application or by the Office of Undergraduate Admissions

The Office of Undergraduate Admissions, at its discretion, may deny admission or withdraw applications from consideration for students who submit completed applications but who do not provide one or more of the materials listed above.

In addition to these materials, applicants may submit information that will enhance the University's understanding of their background and preparation for college.

Transfer Candidates:

Applicants' eligibility to return to previous institutions may be considered in their evaluation. Students who have less than a C average (2.0 on a 4.0 scale) may complete courses at another university to raise their grade point average to the point where they may be considered for transfer admission to the University. Courses attempted through any academic program at UNC–Chapel Hill cannot be used to increase a student's grade point average for the purpose of establishing transfer eligibility.

Standardized Testing

In accordance with University policy, as well as procedures approved by the Advisory Committee on Undergraduate Admissions, members of the admissions committee evaluate each candidate comprehensively, individually, and compassionately, with an eye towards assessing the candidate's capacity to contribute to the campus community that will enable the University to fulfill its mission. If the evaluation includes the results of standardized testing, these results do not constitute the sole or main criterion for admission. There are no cutoff or threshold scores — outside of the Minimum Eligibility Requirements (MER) (<https://www.northcarolina.edu/students/admission/#eligibility>) set by the UNC system — that is, no scores below which candidates are automatically denied admission, and no scores above which they are automatically offered admission. Instead, results from standardized testing represent one factor among many. For more about the role of tests in admissions, see the Office of Undergraduate Admissions (<https://admissions.unc.edu/faq/category/testing/>). (<https://admissions.unc.edu/faq/category/testing/>)

High School Course Requirements

Students interested in attending the University should pursue a challenging high school curriculum. To be eligible to apply and be considered for admission, a student must complete the UNC System's Minimum Eligibility Requirements (MER) (<https://www.northcarolina.edu/students/admission/#eligibility>) and Minimum Course Requirements (MCR).

Minimum Course Requirements

- 4 units of English emphasizing grammar, composition, and literature
- 4 units of college preparatory mathematics, in any of the following combinations:
 - algebra I and II, geometry, and one unit beyond algebra II,
 - algebra I and II, two units beyond algebra II, or
 - integrated math I, II and II, and one unit beyond integrated math III.
- The course(s) beyond algebra II or integrated math III must be comparable to one of the courses listed below or approved by the Office of Undergraduate Admissions.
 - AP Calculus
 - AP Statistics
 - Pre-Calculus
 - Discrete Mathematics

- IB Mathematics Level II
- Integrated Mathematics IV
- Advanced Functions and Modeling
- Essentials for College Math
- 3 units in science
 - one in a life or biological science (example: biology)
 - one in a physical science (example: physical science, chemistry, physics)
 - one laboratory course
- 2 units of social science
 - one in United States history
- 2 additional units of English, mathematics, science, social studies, world languages, or computer science
 - The UNC System encourages students to select these courses in alignment with their academic and career objectives, and recommends completion of two sequential world language courses.

Admission to Carolina is competitive, and successful applicants typically go far beyond these minimum requirements. Most competitive applicants continue taking courses in English, mathematics, sciences, and social sciences through their senior year and complete at least two sequential world language courses.

Such a curriculum will typically include at least five academic courses during each year of high school — preferably one each in the core disciplines of English, mathematics, social science, natural science, and world languages. Students who challenge themselves with the rigorous courses available to them, such as Advanced Placement (AP), Dual Enrollment (DE), International Baccalaureate (IB), Cambridge, and other advanced or college-level work, tend to be more prepared to succeed in college — and we encourage our candidates to take at least five of the most rigorous courses available to them. We do not have a preference on what type of college-level curriculum students take; we encourage you to take the courses that best align with your academic journey.

In evaluating academic performance in such a curriculum, we pay less attention to class rank and grade point average than we do to grades and to trends and patterns in grades.

International Students: We understand that curricula differ from country to country, and our staff is sensitive to the intricacies of each curriculum. To be considered for admission, an applicant needs to be on track to complete the pre-university curriculum in their country prior to enrolling at Carolina (e.g. A Levels, Baccalaureate). Because we receive applications from students applying from high schools across the world, we see a variety of curricula and grading scales. We do not convert grades into a standard scale. Instead, we review each application individually and consider how each student has challenged themselves within the context of their school and how they have performed in those courses.

Admission of International Students

International students are considered for admission on the same basis as other candidates and must provide the same information required of all other applicants. All non-U.S. citizens and non-permanent resident students for whom English is not their first language must submit test scores to demonstrate their English proficiency. We accept TOEFL (our code is C182), IELTS, Duolingo, Cambridge English C1 Advanced, and Cambridge C2 Proficiency. Strong applicants typically score the following, though please note that these are not minimums and testing is always

one factor among many, and never the sole or dominant reason we make our decisions:

- TOEFL or TOEFL iBT Home Edition
 - For exams taken on or after January 21, 2026: 5 or higher
 - For exams taken before January 21, 2026: 100 or higher
- IELTS Academic — 7.5 or higher
- Duolingo — 130 or higher
- Cambridge English C1 Advanced — 185 or higher
- Cambridge English C2 Proficiency

We do not waive this proficiency requirement based on grades in English courses or SAT/ACT scores. However, we may waive this requirement if you meet one of the following conditions by the time you would enroll at Carolina:

- You will have lived for at least the last four years in a country where English is the primary language.

OR

- You will have attended a school for at least the last four years where English is the primary language of instruction.

As a condition of enrollment, all entering students, regardless of citizenship, who have completed coursework from a foreign college or university that is not accredited within the United States must have a course-by-course evaluation of their official transcripts conducted by World Education Services (WES®).

United States immigration law requires proof of financial support for the student's entire program of study. Before UNC can issue an I-20, admitted students must provide documentation that they have sufficient funds in a bank to cover the first year of tuition and living expenses. See Tuition and Financial Aid (<https://catalog.unc.edu/tuition-financial-aid/>) in this catalog for information on expenses. The University will issue the necessary visa documentation to those students who are formally admitted to the University. International students should not leave their native country intending to enroll at the University until they have received a formal letter of acceptance and appropriate visa documents.

Questions concerning international student life on the UNC–Chapel Hill campus should be referred to International Student and Scholars Service (<https://isss.unc.edu/>).

N.C. Cooperative Innovative High School (Early and Middle College) Students

Students who graduate from a Cooperative Innovative High School (also known as “Early College” or “Middle College”) in North Carolina and who are simultaneously earning a high school diploma and a qualifying associate degree may apply either as first-year or as transfer candidates. For more information, please see the Office of Undergraduate Admissions. (<https://admissions.unc.edu/faq/category/cooperative-innovative-high-schools/>)

Home-Schooled Students

The University welcomes applications from students schooled at home and imposes on those students no special or additional requirements for admission. At the same time, since the credentials of home-schooled students may lack some or most of the contextualizing information typically found in the credentials of students schooled in more traditional

settings, many home-schooled students take steps to contextualize and clarify their achievement and potential.

In recent years these steps have included taking courses at local colleges or community colleges; joining community organizations; providing samples of academic projects (for example, essays or research papers) and detailed descriptions of courses; sending recommendations from non-family members who know candidates well and can comment specifically on their capacity for advanced academic work; and taking and submitting optional supplemental exams recognized by the University.

Military-Affiliated Students

We welcome applications from veterans of the United States military, active-duty servicemen and women, and their dependents. Veterans and those who remain on active duty may earn University credit for their military education and training, depending upon their experience. Military veterans or those on active duty will be eligible to have the application fee waived and may qualify for the military tuition benefit, which allows them to attend the University at the in-state tuition rate. Students who are eligible for GI Bill or other veteran education benefits must apply directly to the U.S. Department of Veterans Affairs for these funds.

For more information, please visit the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/types-of-applications/military-and-veterans/>).

Application and Notification Deadlines

First-year applicants may apply for admission by choosing one of two deadlines, neither of which is binding.

Decisions will be posted securely online for all applicants. For the latest first-year admission deadlines and notification dates, please visit the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/decisions/>).

The application deadline and notification dates for transfer admission to the College of Arts and Sciences are available at the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/decisions/>). Some professional schools and programs have additional requirements and deadlines. Refer to the specific department (<https://admissions.unc.edu/apply/types-of-applications/transfer-direct-admission-programs/>) for additional information.

Admissions Confidentiality

The University of North Carolina at Chapel Hill will protect the privacy of all students seeking admission through the Office of Undergraduate Admissions. Only University faculty and staff who evaluate applications for admission, scholarships, and special academic opportunities will have access to applications.

Though current federal legislation allows students who are enrolled or who have been enrolled at the University to access their application for admission, candidates do not have access to their applications.

Exceptions to this confidentiality policy will be made only at the direction of the chancellor, the provost, or the vice provost of enrollment.

Appeals of Admissions Decisions

For information on appealing an admissions decision, refer to the Admissions Appeal Procedure in the Admissions Policy (<https://>

catalog.unc.edu/admissions/undergraduate/#admissionspolicytext) section of this catalog.

Confirmation of Acceptance

The University requires a nonrefundable enrollment deposit, due by May 1 for first-year admission and Carolina Global Launch admission or May 15 for transfer admission, or within one week of receipt of the admission decision for students admitted after these dates.

Degree-seeking students who wish to start their studies during the summer must pay their fall term enrollment deposit and then complete the process for requesting a summer start through the Office of Undergraduate Admissions. Information on enrolling in summer school prior to starting at Carolina in the fall can be found on the Office of Undergraduate Admissions (<https://admissions.unc.edu/faq/category/summer-school/>) website. Students enrolling in Carolina Global Launch are not eligible to take summer classes prior to participating in Carolina Global Launch.

Course Placement

Placement in certain courses during students' first semester at the University will be based on their performance on placement tests. Students may also receive credit for University courses based on dual-enrollment courses taken during high school. Additionally, the University recognizes, for placement and degree credit, satisfactory scores on the College Board Advanced Placement, International Baccalaureate, and certain global exams, such as Cambridge A Levels, offered across the world. For more information, please visit the Office of Undergraduate Admissions (<https://admissions.unc.edu/credit-type/test-credit/>).

Although the student will take placement exams in some subjects at the University before the first semester begins, it is to the student's advantage to take placement tests in high school, especially those accepted by the University for placement purposes.

Since admitted students may take placement exams in world languages (<https://languageplacement.unc.edu/>), candidates should consider continuing in advanced foreign language courses during their final year in high school even if they have already met the minimum requirements. World languages placement may be based on University placement, college level examinations as listed on the website, or an equivalent transferable course from another college or university.

For mathematics placement, (<https://math.unc.edu/undergraduate/registration-advising/#Placement-Information%22%20%EF%80%A0%22https://lindagreenweb.unc.edu/math-placement-tests/aleks-placement-test-for-algebra-and-precalculus/>) the Department of Mathematics strongly recommends that enrolling students arrange to take the Aleks placement exam (<https://lindagreen.web.unc.edu/math-placement-tests/aleks-placement-test-for-algebra-and-precalculus/>) through the Mathematics Department. The department will also accept various college level examinations as listed on the website or an equivalent transferable course from another college or university. Although these tests are not required for admission, many majors at Carolina require a quantitative reasoning course for which a mathematics placement score is necessary.

For English placement, students are required to take either English 105 at the University, or present an equivalent transferable course from another college or university.

Students are also encouraged to take standardized tests or transferable coursework that are recognized for placement in other subject areas.

Transfer Credit

The University will award credit for a course from another college or university when the student has earned a grade of C or its equivalent and when a similar course is offered by the University. Courses with grades that are reported on a scale other than A–F, such as pass/fail, will earn credit only if the transferring institution verifies that the passing grade represents achievement at the level of C or higher. Courses with final grades of C- or below (or the equivalent, if reported on a scale other than A–F) will not earn credit and will not satisfy University requirements. Courses completed in units other than semester hours will be converted to semester hours.

Students may receive no more than 75 total semester hours of credit for courses transferred from other colleges or universities. Credits earned by exam through Advanced Placement, International Baccalaureate, and similar programs are not included in this limit.

When a student has completed more than 75 transferable semester hours, credit will be awarded in this order:

- For courses that equate directly with specific courses in the UNC–Chapel Hill curriculum;
- For courses that do not equate directly with specific courses but are comparable to elective courses offered by UNC–Chapel Hill departments.

Courses that equate directly with specific courses in the UNC–Chapel Hill curriculum will fulfill the same course requirements as their equivalents at UNC–Chapel Hill, unless specifically identified otherwise at the time of the initial awarding of credit. Other transferable courses may not fulfill course requirements but may count towards the total semester hours required for graduation.

The Office of Undergraduate Admissions reviews and awards transfer credit to enrolling students based on their official transcripts. The admissions office typically cannot award credit for technical courses or courses taken from non-accredited colleges and universities.

Credit for Incoming Students for Courses Taken Outside of the United States

The admissions office may be able to award credit to enrolling students for courses from colleges and universities outside the United States, provided the college or university is recognized by the appropriate higher-education authority or government agency, and provided students submit their official transcripts and course-by-course evaluations of those transcripts from World Education Services (WES®).

Credit for Carolina Global Launch

The Office of Undergraduate Admissions awards credit for courses taken through Carolina Global Launch once the final transcript is available.

Credit for Current UNC–Chapel Hill Students Studying Abroad

Once a student is enrolled at UNC–Chapel Hill, they will work with other campus departments to receive credit for coursework they take during their time at UNC–Chapel Hill – the Office of Undergraduate Admissions is not involved in this process. Currently enrolled students who wish to participate in an exchange or study-abroad program for course credit should work with the UNC Study Abroad Office or the UNC school

sponsoring the program to receive approval before the program begins. For more information about study abroad transfer credit for current UNC–Chapel Hill students, please visit the UNC Study Abroad website (<https://studyabroad.unc.edu/abroad/study-abroad-credit-transfer-faqs/>).

The admissions office may be able to award transfer credit to students for study-abroad courses they completed before enrolling at UNC–Chapel Hill, provided they completed the courses while attending colleges and universities in the United States, and provided the courses are reported on the official transcripts of their U.S. institutions.

Reverse Transfer (UNC–Chapel Hill and the N.C. Community College System)

The University honors the official Comprehensive Articulation Agreement (CAA) with the North Carolina Community College System. Students who transfer to UNC–Chapel Hill from a North Carolina community college may transfer credit earned at UNC to fulfill their degree requirements at the community college. They may subsequently use the associate degree to fulfill many of the University's lower-division general education requirements, Ideas in Action (<https://ideasinaction.unc.edu/>), provided they complete the steps below:

- Consult with an academic advisor at their North Carolina community college to identify UNC–Chapel Hill courses that will satisfy the remaining requirements for the associate degree in accordance with the reverse transfer program;
- Meet with their UNC–Chapel Hill academic advisor during their first full-time semester at UNC–Chapel Hill to discuss their intent to fulfill the University's general education requirements through reverse transfer;
- Provide proof from the community college of the associate degree before the beginning of the third semester of full-time enrollment at UNC–Chapel Hill, whether fall or spring.

For more information on Reverse Transfer please visit the UNC System Office website (<https://www.northcarolina.edu/students/transfer/NCCCS/#reverse>).

The University will consult two publications when settling questions concerning the transfer of credit: *Transfer Credit Practices*, published by the American Association of Collegiate Registrars and Admissions Officers, and *Accredited Institutions of Post-Secondary Education*, published by the American Council on Education.

Credit Review and Reconsideration

The Office of Undergraduate Admissions is responsible for awarding transfer credit (<https://admissions.unc.edu/transfer-credit/>) for all credit by exam and courses taken elsewhere except Study Abroad. An enrolling or enrolled student may request a credit reevaluation (<https://admissions.unc.edu/transfer-credit/current-students/#reevaluation>) by the Office of Undergraduate Admissions by submitting course descriptions and syllabi through the ConnectCarolina. Current UNC students who choose to take courses elsewhere should have these courses approved prior (<https://admissions.unc.edu/transfer-credit/current-students/#pre-approvals>) to taking the course. In those rare instances when a later change in transfer credit will enable a student to graduate on time, the student must appeal to the Office of Undergraduate Admissions. In the absence of such a request by a student, the University will not review or change transfer credit that has been awarded by the admissions office.

after the first day of the student's first semester in residence, except to correct clerical or other errors that may negatively affect the student.

UNC–Chapel Hill Dual Enrollment and Summer School for Incoming Students

Once an applicant is admitted, all course credits taken at UNC–Chapel Hill, including summer courses taken prior to fall enrollment and dual-enrollment courses attempted while a student is still in secondary school, become part of the student's official transcript, and grades received are included in the grade point average.

Transferred Semesters

The University calculates transferred semesters based on the number of transfer credit hours accepted by UNC–Chapel Hill, not based on the number of semesters in which the student was enrolled at other colleges. For each 15 hours transferred upon enrollment, the student is considered to have completed the equivalent of one UNC–Chapel Hill semester as follows:

Transferable credit hours	Number of completed semesters
Less than 15.0	0
Between 15.0 and 29.9	1
Between 30.0 and 44.9	2
Between 45.0 and 59.9	3
Between 60.0 and 75.0	4

Although all students at UNC–Chapel Hill are expected to graduate within eight total semesters of post-secondary enrollment, transfer students who enter with two transfer semesters (30 or more transferable hours) may enroll in up to 10 total semesters including calculated transfer semesters.

Transfer hours awarded for courses taken concurrently with high school are not included in the calculation of Transferred Semesters, nor are hours awarded for credit by exam, such as Advanced Placement or International Baccalaureate, or hours taken at UNC–Chapel Hill in the summer immediately preceding full-time degree-seeking enrollment at UNC–Chapel Hill.

For additional information, see “Calculation of Transferred Semesters Based on the Number of Transferred Credit Hours” in the Credit and Evaluation (<https://catalog.unc.edu/policies-procedures/credit-evaluation/>) section and Undergraduate Degree Requirements (<https://catalog.unc.edu/undergraduate/degree-requirements/#requirementstext>).

Offers of admission typically are extended before an applicant's transfer credit can be fully evaluated. As a result, while transfer students are advised of their likely classification at the point of admission, this classification is provisional until confirmed by notification of transfer credits earned. Students will receive an official credit evaluation prior to the enrollment deadline.

Return to Carolina

After attending class as degree-seeking students at UNC–Chapel Hill, students who withdraw, fail to complete, or do not enroll in one or more fall or spring semesters must submit the Return to Carolina survey (<https://admissions.unc.edu/apply/types-of-applications/return-to-carolina/>) to the Office of Undergraduate Admissions when they are ready to return to the University. The Return to Carolina survey should be submitted as soon as possible and no later than the

stated deadline on the Office of Undergraduate Admissions website. (<https://admissions.unc.edu/apply/types-of-applications/return-to-carolina/>) Students who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS) (<https://ncresidency.cfnc.org/residencyInfo/>).

Returning students who have holds on their records — such as academic eligibility, medical, student conduct, or financial — may need to complete additional steps before they can be re-enrolled and register for courses. For additional information, refer to the Office of Undergraduate Admissions. (<https://admissions.unc.edu/faq/category/return-to-carolina/>)

Returning students may also need to submit and complete a background check as required by UNC System policy. (https://www.northcarolina.edu/apps/policy/?tab=policy_manual)

International students who will require either an F1 or J1 visa should submit the Return to Carolina survey at least one month before the deadline for the term in which the student wishes to return in order to allow adequate time to process the student's visa.

Admission as a Structured-Pace Degree-Seeking Student (Formerly known as Part-time Classroom Studies)

UNC–Chapel Hill admits a limited number of structured-pace degree-seeking undergraduates. Undergraduates admitted as structured-pace students may register for a maximum of eight credit hours per semester.

To be eligible, students must have been away from a traditional school setting for at least 12 months and must have graduated from a secondary school. Admission is also available to UNC–Chapel Hill faculty and staff employees. Traditional students who have been denied full-time admission to the University are not immediately eligible for structured-pace enrollment.

Students who want to enroll as a structured-paced degree-seeking undergraduate are required to submit a structured-paced degree-seeking application through the Office of Undergraduate Admissions. (<https://admissions.unc.edu/>)

All students admitted as prospective degree candidates must meet minimum University requirements for admission. In considering prospective structured-paced degree-seeking candidates for admission, the Office of Undergraduate Admissions shall use comparable admissions criteria that it uses to evaluate comparable full-time degree-seeking students applying to the University. For information about those criteria, please see the sections on first-year and transfer admission above.

Admission as a structured-pace degree-seeking student does not constitute admission to a full-time degree program at the University. Structured-pace degree-seeking students who want to enroll in a full-time degree-seeking program must present evidence that they are prepared to make satisfactory progress towards the degree.

Enrolling structured-pace degree-seeking students may also need to submit and complete a background check as required by UNC System policy. (https://www.northcarolina.edu/apps/policy/?tab=policy_manual)

Admission as a Non-Degree Student

Non-degree students may register for a maximum of eight credit hours per semester. Courses are open to non-degree students as space permits. Students are required to submit a non-degree seeking admissions application and a nonrefundable application fee through the Office of Undergraduate Admissions (<https://admissions.unc.edu/>). (<https://admissions.unc.edu/apply/types-of-applications/part-time-classroom-studies/>)

Admission as a non-degree student is limited and does not constitute admission to a degree program at the University. Non-degree students wishing to pursue a degree must submit a degree-seeking application to the Office of Undergraduate Admissions (<https://admissions.unc.edu/>). Non-degree students may also have to submit and complete a background check as required by UNC System policy. (https://www.northcarolina.edu/apps/policy/?tab=policy_manual)

Intra-University Transfer

Students who wish to transfer from one school or college to another within the University may be required to submit an intra-university transfer application. For additional information, refer to the individual program.

Admission as a Summer School Visitor

Any student who has not been regularly enrolled or has not been admitted for a fall semester in any school in the University can obtain an application for admission as a visiting summer student through the Summer School (<https://summer.unc.edu/>). Applicants (undergraduates and high school students) who plan to claim North Carolina residency are also required to submit a residency application with the North Carolina Residency Determination Service (RDS). (<https://www.ncresidency.org/>)

Continuing students who are enrolled at the University are not required to submit an application and will register for a summer session through ConnectCarolina in spring.

New Student Orientation and Course Registration

First-Year Student and Family Orientation

All newly admitted undergraduate first-year students are required to complete Carolina Countdown, an online pre-orientation introduction to the University. Students are also required to attend one of the summer First-Year Orientation sessions prior to the start of their first term. Sessions are designed to introduce first-year students to the University.

During this two-day program, new first-year students will be acquainted with the academic opportunities and skills needed to take personal responsibility for their academic achievement and persistence, introduced to the programs and services available for UNC students, made aware of University traditions, and connected to their peers and other ways to broaden their Carolina community. First-year students also receive information about the course registration process and academic advising. Family members and guests are invited to attend the First-Year Family Orientation program, which runs parallel to the student program.

The transition process continues when students arrive on campus with a variety of programs and events during Weeks of Welcome in the fall semester and Winter Welcome in January.

Carolina Global Launch Student and Family Orientation

All students enrolling in Carolina Global Launch are required to complete Carolina Countdown, an online pre-orientation introduction to the University. Students are also required to attend an in-person UNC Orientation session in Chapel Hill, and an in-person session at their Carolina Global Launch host institution prior to beginning courses. Sessions are designed to introduce students to UNC and their host institution.

During these programs, students will be acquainted with the academic opportunities and skills needed to take personal responsibility for their academic achievement and persistence, introduced to the programs and services available for Carolina Global Launch students, made aware of University traditions, and connected to their peers and other ways to broaden their Carolina community. Students also receive information about the course registration process. Family members and guests are invited to attend Chapel Hill programs. Orientation sessions at the Carolina Global Launch host institutions are for participating students only.

The transition process continues when students arrive on campus with a variety of programs and events during Winter Welcome in January.

Transfer Student and Family Orientation

All newly admitted undergraduate transfer students are required to complete Carolina Countdown, an online pre-orientation introduction to the University. Students are also required to attend one of the summer Transfer Orientation sessions prior to the start of their first term. Sessions are designed specifically for transfer students to learn about life at Carolina.

During this one-day program, new transfer students meet and interact with faculty, staff, and other new transfer students. Students attend formal sessions about UNC policies and services and can learn more about areas of interest to them individually. To help ensure the availability of preferred courses, transfer students should register for fall classes as soon as registration is open. To register for courses, transfer students are required to pay their enrollment deposit, create their ONYEN and UNC Heelmail accounts, and complete the online academic advising module. Family members and guests are invited to attend the Transfer Family Orientation program, which runs parallel to the student program.

The transition process continues when students arrive on campus with a variety of programs and events during Weeks of Welcome in the fall semester and Winter Welcome in January.

The University of North Carolina at Chapel Hill: Admissions Policy

1. All qualified persons are welcome to seek admission to the University of North Carolina at Chapel Hill, and all persons may apply for and accept admission confident that the policy and regular practice of the institution are not to discriminate in offering access to its educational programs and activities on the basis of age, gender, race, color, national origin, religion, creed, disability, military or veteran's status, sexual orientation, gender identity, or gender expression. (See University and Administrative Policies (<https://ethicspolicy.unc.edu/report-a-concern/discrimination-harassment-and-prohibited-conduct/>)).
2. Projections of the number of students to be admitted and enrolled in any year shall be determined:

- a. by the capacity of the institution to meet the instructional and other needs of students in the colleges, schools, departments, curricula, or other programs to which applicants seek admission and
 - b. by enrollment levels approved for budgetary or other appropriate purposes.
3. When at any time the number of qualified applicants for admission exceeds the number of persons who can be admitted and enrolled (as determined by the criteria specified in item 2b), those to be offered admission shall be selected on the basis of:
- a. recognition of the institution's special responsibility to residents of North Carolina and
 - b. the institution's judgment of the applicant's relative qualifications for satisfactory performance in the specific college, school, department, curriculum, or other program to which the applicant seeks admission.

Provided that the criteria set forth hereinafter are met, this policy of competitive admissions shall not prevent the admission of selected applicants:

1. who give evidence of possessing special talents for University programs requiring such special talents, or
2. whose admission is designed to help achieve the University's goals.

The University shall affirm its commitment to achieve excellence, to provide for the leadership of the educational, governmental, scientific, business, humanistic, artistic, and professional institutions of the state and nation, and to enrich the lives of all the people of North Carolina.

Admission of persons to the specific colleges, schools, curricula, or other programs of the institution shall be governed by the provisions set forth below.

Undergraduate Admissions

Admission of undergraduate students to colleges or schools to pursue programs leading to a baccalaureate degree shall be the responsibility of the Office of Undergraduate Admissions. The Admissions Office shall apply policies and procedures that, not inconsistent with policies adopted by the Board of Trustees, are approved by the Advisory Committee on Undergraduate Admissions.

In the application of the provisions set forth in the section above, preference for admission shall be given to qualified residents of North Carolina; however, in recognition of the educational and other values accruing to North Carolina students, to the institution, and to the state from participation of nonresident students in the programs of the institution, nonresidents may be admitted in the entering first-year class at levels deemed appropriate by campus leadership and in accordance with UNC system office policies.

Admission of undergraduates shall be to the first-year class, to other classes by transfer after satisfactory completion of college-level work in some other institution(s) of higher education, or to Structured-Pace Degree-Seeking status, or to non-degree status.

Admission and enrollment of persons who are candidates for financial aid for which athletic ability is a consideration shall be conditional upon compliance with applicable regulations of the Atlantic Coast Conference and the National Collegiate Athletic Association.

Admission to the First-Year Class

Admission to and enrollment in the first-year class shall be conditional upon graduation from secondary school (or equivalent) with such units of secondary school academic course credit that, at minimum, meet the UNC System's Minimum Eligibility Requirements (MER) (<https://www.northcarolina.edu/students/admission/>) and Minimum Course Requirements (MCR), and any additional requirements specified by the Office of Undergraduate Admissions. However, if all other criteria are met, the Admissions Office may make exceptions to MER and/or MCR in accordance with procedures approved by the Advisory Committee on Undergraduate Admissions.

Criteria employed for determination of each applicant's qualifications for admission may include:

1. satisfactory evidence of scholastic promise based upon the applicant's previous academic record, recommendations from schools previously attended, scores on selected tests of scholastic aptitude or achievement, and the applicant's written application for admission,
2. evidence of the applicant's ability to succeed academically and personally and contribute to the university community.

Admission by Transfer

Admission and enrollment by transfer from another institution shall be conditional upon a satisfactory academic record of work undertaken in all other institutions attended, the applicant's written application for admission, and satisfactory recommendations from institutions previously attended. Applicants' eligibility to return to previous institutions may be considered in their evaluation. Other factors include evidence of the applicant's ability to succeed academically and personally and contribute to the University.

Summer Admissions

Admission of applicants to any summer session shall be the responsibility of the offices above with the following exception:

- The Summer School may accept visiting students who are enrolling only for the summer.

Admission as a Summer School visitor by the dean of Summer School shall be in conformity with policies, procedures, and requirements adopted by the Administrative Board of Summer School. Each such admission shall terminate as of the last day of that summer term and shall include no commitment, stated or implied, for admission of the student to any subsequent semester or session of the University of North Carolina at Chapel Hill.

Admission during the summer term by the Office of Undergraduate Admissions and the Graduate School shall be in conformity with the provisions set forth in this policy for other undergraduate and graduate admissions.

Structured-Pace Degree-Seeking Admissions (formerly Part-Time Classroom Studies)

Eligibility for admission to part-time degree-seeking or non-degree seeking students shall normally be limited to individuals living within commuting distance of Chapel Hill.

Structured-paced degree-seeking admission of an applicant who does not hold a baccalaureate degree shall be the responsibility of the Office of Undergraduate Admissions. Such admissions shall be either:

- For credit, applicable toward fulfillment of degree requirements: The minimum requirements shall be the same as those for admission to degree programs and the Office of Undergraduate Admissions shall review each applicant using comparable academic criteria as for other degree-seeking students applying to the University; OR
- For personal benefit and enjoyment: The applicant may be exempted from the qualitative requirements for admission to degree programs. Notwithstanding this exemption from qualitative requirements, the applicant must have graduated from an approved or accredited secondary school or equivalent and must demonstrate the capacity to cope with the demands of University life.
- For applicants currently enrolled in secondary school: admission will be considered only if the applicant:
 - a. seeks to enroll in a University course for which there is no comparable course at the student's secondary school and
 - b. demonstrates adequate preparation for the course in which the student seeks to enroll.

Eligibility for admission as a part-time student who holds a baccalaureate degree shall be the responsibility of the Graduate School (<https://gradschool.unc.edu/programs/non-degree-studies/>). Such admissions shall be for personal benefit and enjoyment, for the satisfaction of prerequisite requirements for professional or graduate programs, or for transfer of credit to a postbaccalaureate degree program, in which case the applicant may be exempted from the qualitative requirements for admission to degree programs.

Graduate School Admissions

For information on Graduate School admissions, refer to catalog.unc.edu/admissions/graduate/. (<https://catalog.unc.edu/admissions/graduate/>)

Professional School Admissions

Admission of graduate students to the professional degree programs in schools other than The Graduate School and to nondegree programs in the schools of the Division of Health Affairs shall be, in each of these schools, the responsibility of its established committee on admissions, consistent with the provisions of this policy, these committees shall apply policies, procedures, and requirements, adopted by the faculty of the school and approved by the Chancellor or his delegate.

Admissions Appeals

Appeals concerning individual admission, or admission rescission, decisions shall be governed by the admissions appeal procedure contained in Appendix A.

** This policy adopted by resolution of the Board of Trustees on September 3, 1976.*

** Amended by Board of Trustees, August 24, 1984.*

** Amended by Board of Governors, March 14, 1986.*

** Amended by Board of Trustees, May 27, 1994.*

** Amended by Board of Trustees, effective January 1, 2006.*

** Amended by Board of Trustees, effective January 23, 2014.*

Appendix A: Admissions Appeal Procedure

This document sets forth the procedures to be followed with respect to the appeal of a negative admissions decision, including a decision to rescind an admission that has already been granted.

1. Appeal to Admissions Officer

Appeals concerning individual admission, or admission rescission, decisions may be had only if it is contended that:

- a. a provision set forth in the University of North Carolina at Chapel Hill admissions policy ("admissions policy") has been violated or
- b. the decision not to admit the individual or to rescind admission resulted from a material or procedural error in the admissions process. An applicant's omission of relevant information from the original application for admission will not ordinarily constitute grounds for an appeal; nor will academic or personal circumstances that changed after the submission of the application. Such an appeal shall be lodged by the applicant with the administrative officer (the director of undergraduate admissions, the dean of The Graduate School, the dean of the professional school concerned, or the dean of Summer School) whose office had responsibility for the admission in question (hereafter the "admissions officer") within 30 days after the University posts the applicant's online decision. Undergraduate Admissions Early Action deadline decisions may be appealed within 45 days after the University posts the applicant's initial decision online. The appeal shall be in writing and shall set forth the grounds for the appeal.

Upon receipt of the appeal, the admissions officer or the admissions officer's designee shall review the applicant's file and appeal letter and form, determine whether the grounds for an appeal are met, and shall communicate his or her decision on the appeal to the applicant in writing.

2. Appeal to Provost

The decision of the admissions officer may be appealed to the provost only if it is contended that:

- a. The decision has been previously appealed to the designated admissions officer in item 1 and denied and
- b. a provision set forth in the admissions policy has been violated or
- c. the decision not to admit the individual or to rescind admission resulted from a material or procedural error in the admissions, or appeal, process.

An applicant's omission of relevant information from the original application for admission or from the appeal to the admissions officer will not ordinarily constitute grounds for an appeal; nor will academic or personal circumstances that changed after the submission of the application or the appeal to the admissions officer. Such an appeal shall be lodged with the provost by filing a letter of appeal specifying the grounds for the appeal within 15 days after the applicant has received the letter communicating the decision of the admissions officer. The provost may designate the review of these appeals within his or her immediate office.

The appeal shall be reviewed by the provost or the provost's designee. Following the review, the provost or designee will communicate the decision to the applicant in writing. The decision of the provost is final, and no further appeal is available.

COURSE NUMBERING

Courses are designated with a subject code and course number. The number assigned to a course generally denotes its level and may also indicate a course type. Suffixes may be appended to course numbers to indicate course format or honors status.

For courses in the Undergraduate and Graduate academic careers starting in fall 2006, the numbers assigned to courses are normally categorized as follows:

Course Numbers

- **100-189:** Introductory Undergraduate Courses
- **190-399:** Courses for Undergraduate Students
- **400-699:** Courses for Advanced Undergraduate and Graduate Students
- **700-899:** Courses for Graduate Students (Undergraduate Students may enroll with department permission)
- **900-999:** Courses for Graduate Students only

Special Course Numbers

- **50-89:** First-Year Seminars
- **190, 290, 390:** Undergraduate Special Topics Courses
- **490, 590, 690:** Undergraduate and Graduate Special Topics Courses
- **193, 293, 393:** Undergraduate Internships and Practica
- **493, 593, 693:** Undergraduate and Graduate Internships and Practica
- **195, 295, 395:** Undergraduate Research Courses
- **495, 595, 695:** Undergraduate and Graduate Research Courses
- **196, 296, 396:** Undergraduate Independent Study/Reading Courses
- **496, 596, 696:** Undergraduate and Graduate Independent Study/Reading Courses
- **691H, 692H, 693H, 694H:** Senior (Undergraduate) Honors Thesis Courses
- **697, 698:** Undergraduate Capstone Courses
- **799:** Graduate Experimental Course Offering
- **890-899:** Graduate Special Topic Courses
- **900-991:** Graduate Research Courses
- **992, 993:** Master's Thesis Courses
- **994:** Doctoral Dissertation Course

Foreign Language Courses:

- **Beginning Level:** 101, 102 and 401, 402
- **Intermediate Level:** 203, 204 and 403, 404
- **Graduate Foreign Language Requirement:** 601, 602 and 603, 604

Suffixes

For courses in the Undergraduate and Graduate academic careers starting in Fall 2006, the following suffixes may be used:

- **H:** Honors Course or Course for Advanced Students¹
- **L:** Credit-Bearing Laboratory Course
- **I:** Interdisciplinary Course

¹ See the Honors Carolina website (<http://honorscarolina.unc.edu/>) for information on enrolling in honors courses.

UNDERGRADUATE

About the Undergraduate Catalog

The *Undergraduate Catalog* provides information about undergraduate courses, programs of study, degree requirements, and academic policies. It includes admission requirements and application procedures.

Enrolled students are encouraged to use the catalog in addition to talking with advisors and consulting their Tar Heel Tracker for undergraduate degree requirements.

This catalog is concerned primarily with prospective students and with undergraduates enrolled in the General College, the College of Arts and Sciences, and the Schools of Business, Civic Life and Leadership, Data and Information Sciences, Dentistry, Education, Journalism and Media, Medicine, Nursing, Pharmacy, and Public Health, as well as Summer School.

The following additional catalogs and admissions brochures are published by the University of North Carolina at Chapel Hill, in print form and/or on the Web: Kenan–Flagler Business School, School of Dentistry, School of Education, School of Government, School of Journalism and Media, School of Law, School of Medicine, School of Nursing, Gillings School of Global Public Health, School of Social Work, and Summer School.

Students may expect to receive a degree by fulfilling the requirements of a curriculum as specified in the *Undergraduate Catalog* for the year in which the student matriculated at the University of North Carolina at Chapel Hill. The University is not strictly obligated to fulfill this expectation since changes to the structure of degree requirements may entail widespread curricular adjustments, but it will make every effort to modulate changes so that appropriate substitutes for particular requirements, or particular courses, are available to students operating under a previous set of expectations. The faculty reserves the right to make any changes deemed necessary in the curricula and in regulations. By University policy, the regulations in this catalog are not necessarily valid beyond the academic year for which it was published.

College of Arts and Sciences and the General College

college.unc.edu (<http://college.unc.edu>)

Administration

James W.C. White, Ph.D., *Dean*

Elizabeth Engelhardt, Ph.D., *Senior Associate Dean for Fine Arts and Humanities*

Jaye Cable, Ph.D., *Senior Associate Dean for Natural Sciences and Mathematics*

Noreen McDonald, Ph.D., *Senior Associate Dean for Social Sciences and Global Programs*

Ian F. McNeely, Ph.D., *Senior Associate Dean for Undergraduate Education*

Anne H.C. Collins, B.A., *Executive Director, Arts and Sciences Foundation*

Kelly Giovanello, Ph.D., *Senior Associate Dean for Research and Innovation*

Karla Slocum, Ph.D., *Senior Associate Dean for Faculty and Staff Development*

Jacob Bacharach, M.B.A., *Senior Associate Dean for Operations and Strategy*

Divisions

The College is divided into four divisions. All departments and curricula are assigned to one of these four divisions (see "Departments (p. 115)"). Each division has a representative who serves on the Arts and Sciences Advisory Committee (ASAC). Members are listed below by division.

David Garcia, Ph.D., *Division of Fine Arts*

Heidi Kim, Ph.D., *Division of the Humanities*

Karl Castillo, Ph.D., *Division of Natural Sciences and Mathematics*

Meenu Tewari, Ph.D., *Division of Social and Behavioral Sciences*

Gillings School of Global Public Health

Introduction

The UNC Gillings School of Global Public Health provides exceptional teaching, conducts ground-breaking research, and delivers dedicated service to people across North Carolina, throughout the United States, and around the world. Ranked the top public school of public health by *U.S. News and World Report* for 2026–2027 and second among all public health schools, the school's mission is to improve public health, promote individual well-being, and eliminate health inequities.

The school, accredited by the Council on Education for Public Health, and located in close proximity to UNC–Chapel Hill's schools of medicine, nursing, dentistry, and pharmacy, offers undergraduate and graduate programs on campus and through state-of-the-art online-education programs. The Michael Hooker Research Center and many renovated laboratories and classrooms provide an environment highly conducive to learning about public health and discovering new ways to improve and promote health worldwide.

Beyond campus, we teach, conduct research, and serve communities across our state and nation and around the world. Our Research, Innovation and Global Solutions Office (<https://sph.unc.edu/solutions/research-innovation-and-global-solutions/>) organizes the school's global health activities and enables us to anticipate new public health challenges, quickly find solutions, and accelerate the delivery of best practices to improve people's lives. The school's service and outreach arm, the North Carolina Institute for Public Health (<http://sph.unc.edu/nciph/nciph-home/>), brings public health scholarship and practice communities together.

To learn more about the public health field, visit the Association of Schools and Programs of Public Health (<https://aspph.org/>). The site defines public health, describes its impact on our lives, and introduces a variety of public health careers.

Admission

The Gillings School of Global Public Health offers five undergraduate majors: biostatistics, community and global public health, environmental health sciences, health policy and management, and nutrition. The

undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Enrollment in the B.S.P.H. degree programs is limited, and students must apply for admission. Students typically apply in their sophomore year for admission beginning in the fall of their junior year, though exceptions to this timeline may apply.

For current UNC–Chapel Hill students, additional information on application deadlines and how to apply can be found on the Public Health Undergraduate Majors (<https://sph.unc.edu/resource-pages/undergraduate-programs/>) website.

Transfer students interested in any of the B.S.P.H. degree programs must apply through the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/types-of-applications/transfer/>) using the Transfer Common application.

For high school seniors, our five majors participate in the Assured Enrollment program through Undergraduate Admissions. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina's professional schools or a spot in an accelerated undergraduate/graduate program. For additional information, please visit Undergraduate Admissions: Special Opportunities (<https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/>).

Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, the requirements described in this catalog particularly apply to students admitted to Gillings during the 2026–2027 academic year.

Departments

Five departments in the UNC Gillings School of Global Public Health offer undergraduate degrees:

- Biostatistics (p. 236)
- Environmental Sciences and Engineering (p. 364)
- Health Behavior (p. 429)
- Health Policy and Management (p. 435)
- Nutrition (p. 499)

Lists of faculty members in those departments are included in those sections of the catalog. Other courses offered by the school are listed on the "Courses" tab under the subject codes PUBH and SPHG. If you are not a matriculated public health major, you may need instructor consent to enroll in public health courses.

Graduate Departments

- Biostatistics (<https://catalog.unc.edu/graduate/schools-departments/gillings-school-global-public-health/>)
- Environmental Sciences and Engineering (<https://catalog.unc.edu/graduate/schools-departments/gillings-school-global-public-health/>)
- Epidemiology (<https://catalog.unc.edu/graduate/schools-departments/gillings-school-global-public-health/>)
- Health Behavior (<https://catalog.unc.edu/graduate/schools-departments/gillings-school-global-public-health/>)
- Health Policy and Management (<https://catalog.unc.edu/graduate/schools-departments/gillings-school-global-public-health/>)
- Maternal and Child Health (<https://catalog.unc.edu/graduate/schools-departments/gillings-school-global-public-health/>)
- Nutrition (<https://catalog.unc.edu/graduate/schools-departments/gillings-school-global-public-health/>)

- Public Health Leadership and Practice (<https://catalog.unc.edu/graduate/schools-departments/gillings-school-global-public-health/>)

Majors

- Biostatistics Major, B.S.P.H. (p. 237)
- Community and Global Public Health Major, B.S.P.H. (p. 431)
- Environmental Health Sciences Major, B.S.P.H. (p. 367)
- Health Policy and Management Major, B.S.P.H. (p. 436)
- Nutrition Major, B.S.P.H. (p. 500)

Courses

- Biostatistics (BIOS) (<https://catalog.unc.edu/courses/bios/>)
- Environmental Health Sciences and Engineering (ENVR) (<https://catalog.unc.edu/courses/envr/>)
- Epidemiology (EPID) (<https://catalog.unc.edu/courses/epid/>)
- Health Behavior (HBEH) (<https://catalog.unc.edu/courses/hbeh/>)
- Health Policy and Management (HPM) (<https://catalog.unc.edu/courses/hpm/>)
- Maternal and Child Health (MHCH) (<https://catalog.unc.edu/courses/mhch/>)
- Nutrition (NUTR) (<https://catalog.unc.edu/courses/nutr/>)
- Public Health (PUBH) (<https://catalog.unc.edu/courses/pubh/>)
- School of Public Health General (SPHG) (<https://catalog.unc.edu/courses/sphg/>)

Kenan–Flagler Business School Introduction

The UNC Kenan–Flagler undergraduate business program offers a program of study that provides students with a thorough grounding in all areas of business and a broad introduction to the liberal arts. The

UNC Kenan–Flagler undergraduate experience is distinctive because the school offers:

- An undergraduate business experience that is ranked highly in the nation by U.S. News & World Report (8), and Poets & Quants (8)
- Career development professionals who help students explore and identify career interests and build plans for pursuing them
- A curriculum connected to the liberal arts
- A global perspective relevant to the needs of business today
- Professional and identity-based activities and organizations for an active student life
- Personalized advising and coaching usually associated with smaller schools
- Experiential, action-based learning experiences
- Faculty who are outstanding in and out of the classroom

Students choose business electives to develop a specific area of business interest. Courses selected from other UNC–Chapel Hill schools and programs add to their depth of knowledge. The result is that students are able to engage in systems thinking to see “the big picture.” The school believes that completion of the undergraduate business program provides students with a distinct advantage in a highly selective and competitive job market.

Students may apply to complete a major, a minor in business administration, a specialized minor in real estate, or they may take a limited number of business administration courses as general electives for their chosen degree program.

The business administration program is considered a broad-based, general management degree, and the UNC Kenan–Flagler Business School encourages breadth in both the business curriculum and in the continuation of study in fine arts, humanities, and natural and social sciences. A second major may be possible and requires advance approval by both the undergraduate business program and the second academic unit.

Program Enhancement Fee

Business majors will be charged an additional fee of \$1,000/semester and business minors will be charged an additional \$500/semester. The money is directly applied to the undergraduate program to enhance the undergraduate student experience, including scholarships, programs, and advising.

BUSI Courses

BUSI courses are restricted to business majors and minors, unless permission is granted (see the section Taking Business Courses as a Nonmajor/Nonminor or otherwise noted). BUSI courses may run semester-long or may be a MOD (run half a semester). MOD courses may be assigned different deadlines from those provided by the Office of University Registrar. Due to the unique structure of MOD courses, these sections are not eligible for withdrawal or pass/fail.

Taking Business Courses as a Nonmajor/Nonminor

Undergraduate students who do not intend to major or minor in business administration may take a limited number of business courses (limits may change based on course availability) as free electives for their particular major. Non-business students may take one BUSI course per semester and a maximum of five BUSI courses over the course of a

student’s academic career, regardless of credit hours. First-year students will not be permitted to enroll in 400-level or higher BUSI courses.

Registration in business courses for nonmajors and nonminors is made on a space-available basis. Preference is given to students with an overall grade point average of 3.0. The process and guidelines can be found on the Undergraduate Business Program website (<https://www.kenan-flagler.unc.edu/programs/undergraduate-business/academics/non-major-business-course-request/>). BUSI course enrollment dates and details will be updated each semester.

Advising

Once admitted to the business **major**, all academic matters, including academic advising, are handled through the undergraduate business office in McColl Building.

Students admitted to the business **minor** should continue to work with their major department for academic matters outside of business minor requirements. However, business minors have full access to Kenan–Flagler career, global, and community events and programs.

All students should meet regularly with their advisor and monitor their progress toward completion of both the business major and minor requirements utilizing Tar Heel Tracker. Upon admission, business majors and minors may utilize the Academic Resources (<https://www.kenan-flagler.unc.edu/programs/undergraduate-business/academic-resources/>) page to connect with an academic advisor.

Admission to the Kenan–Flagler Business School

The Kenan–Flagler Business School offers the Bachelor of Science in Business Administration (B.S.B.A.) as well as minors in Business Administration, Real Estate, and Business of Health. All degree options require a formal application.

For high school seniors, the business major is available through the Assured Enrollment program offered by Undergraduate Admissions. The Assured Enrollment Special Opportunity guarantees students a place in the undergraduate business major as early as the fall of their sophomore year, provided they successfully complete all program requirements, including the business prerequisite courses. Although students admitted through Assured Enrollment receive this guarantee, they must still submit a streamlined version of the application after their first year to officially matriculate into the program.

Current UNC–Chapel Hill students who were not offered Assured Enrollment may apply to the business major or minors through the intra-transfer application process after their first year. Additional information on intra-transfer deadlines and application procedures is available on the Undergraduate Business Admissions section of the Kenan–Flagler website.

Prospective Junior Transfer students interested in the business major may apply directly to the Business Administration program type through the Office of Undergraduate Admissions using the Transfer Common Application.

All business minors are available to rising sophomores and juniors and are offered exclusively through the intra-transfer application process.

Business Prerequisite Requirements for Admission

A pre-business track includes successful completion (defined as earning a final grade of at least a C, not C-) of the following courses (or their equivalents):

Code	Title	Hours
ECON 101	 Introduction to Economics ^{H, F}	4
BUSI 100	Introduction to Business: People, Profits, Planet	1.5
Calculus: The calculus mathematics requirement can be fulfilled by taking one of the following: ¹		
MATH 152	 Calculus for Business and Social Sciences ^F	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	
STOR 113	 Decision Models for Business and Economics	
Statistics: The statistics requirement can be fulfilled by taking one of the following:		
DATA 110	 Introduction to Data Science ^H	
STOR 120	 Foundations of Statistics and Data Science ^{H, F}	
STOR 155	 Introduction to Data Models and Inference ^{H, F}	

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Calculus is not required for the Business administration or Business of Health minors.

Prerequisite courses do not need to be completed at the time of application. However, it is typically beneficial for the admissions committee to see grades in as many prerequisites as possible during the admissions review. All business school prerequisites must be completed before students are eligible to begin business courses in the Undergraduate Business Program.

Major

- Business Administration Major, B.S.B.A. (p. 34)

Minor

- Business Administration Minor (p. 39)
- Business of Health Minor (p. 40)
- Real Estate Minor (p. 41)

Graduate Programs

Business Administration Major, B.S.B.A.

The business administration program is considered a general management degree, and the UNC Kenan–Flagler Business School encourages breadth in both the business curriculum and in the continuation of study in fine arts, humanities, and natural and social sciences.

Admission (p. 32) to the program is required.

Students are subject to the requirements in place when they are admitted to the UNC Kenan–Flagler Business School; consequently, the requirements described in this catalog particularly apply to students admitted to the school during the 2026–2027 academic year.

Student Learning Outcomes

Upon completion of the business administration program, students should be able to:

- Demonstrate a deep understanding of business fundamentals and apply core business concepts to address business challenges.
- Demonstrate effective communication and oral skills across various business contexts using multiple communication modes.
- Exhibit leadership through building strong relationships, a willingness to experiment, and the ability to inspire and engage others.
- Exhibit cultural and inclusive competence by navigating and respecting differences, fostering inclusivity, and engaging effectively in global contexts.
- Apply analytical and critical thinking skills to solve complex, unstructured problems.

- Understand how business impacts individual, social, and environmental well-being, and develop strategies for how business leaders can ethically serve the common good.
- Apply technological and analytic tools for business decision making.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

A maximum of 9 credit hours of online or remote coursework may be applied toward the undergraduate business program

Students are required to complete 27 credit hours of core business courses.

Code	Title	Hours
Core Business Courses		
BUSI 401	 Management and Corporate Communication ¹	3
BUSI 402	Applied Microeconomics for Business ²	1.5
	or ECON 410  Intermediate Microeconomics	
BUSI 403	Operations Management	3
BUSI 404	Business Ethics	1.5
BUSI 405	 Leading and Managing: An Introduction to Organizational Behavior	3
BUSI 406	Marketing (prerequisite for marketing electives) ¹	3
BUSI 407	Financial Accounting and Analysis ¹	3
BUSI 408	Corporate Finance (prerequisite for finance electives) ¹	3
BUSI 410	Business Analytics	3
BUSI 411	Strategy I: Competitive Strategy ³	1.5
BUSI 412	Strategy II: Global Corporate Strategy ³	1.5
Business Electives		
19.5 credit hours of business electives ^{2, 4, 5, 6}		19.5
Courses Outside the Kenan–Flagler Business School		
Students must complete at least 15 hours in coursework taken outside the Kenan–Flagler Business School. General Education courses (IDEAs in Action) are specifically excluded from counting toward these 15 hours. Additional coursework may be taken as needed to reach the 120-hour requirement.		15
Total Hours		61.5

¹ Recommended to be taken within the first two semesters of the program.

² If taking ECON 410, students are subject to 18 total hours of BUSI electives.

³ BUSI 411 must be taken prior to BUSI 412; BUSI 412 must be taken in last 2 semesters.

⁴ An area core course, with an earned grade of at least a C (not C-), is a prerequisite course for any elective course in that area (e.g., BUSI 406 is a prerequisite for BUSI 562). Other restrictions may apply to certain business courses.

⁵ 300-level courses are capped at a maximum of 6.0 credits.

⁶ 9 elective credits can be fulfilled by completing an Area of Emphasis. Students can complete two Areas of Emphasis (18 credits)

Areas of Emphasis

Although not required, you may choose to complete up to two areas of emphasis (AOE) as part of your major electives. AOE's give you the opportunity to customize your major based on your interests and desired career trajectory. All AOE's are 9 credits.

Business of Health

³ Other special topics courses (e.g., BUSI 490 or ENEC 490) with a focus on sustainability may be considered, subject to Undergraduate Business Program (UBP) approval.

Transfer of Business Course Credits from Other Institutions

Without regard to a student's prospective academic major or minor at UNC–Chapel Hill, the UNC Kenan–Flagler Business School will consider for transfer credit business administration courses that meet each of the following six criteria. No exceptions are made.

- For upper-level courses (equivalent to those numbered 400–699 in the Kenan–Flagler undergraduate curriculum), the course was completed at
 - an accredited institution, including but not limited to AACSB International, or
 - a constituent four-year institution of the University of North Carolina, or

- c. an international partner institution of Kenan–Flagler's undergraduate business program, or the Study Abroad Office housed in the College of Arts and Sciences.
2. The final course grade earned was at least C (not C-) as verified by an official transcript. Courses taken Pass/Fail are ineligible.
3. A comparable course is available in the Kenan–Flagler undergraduate curriculum.
4. The course is not approved for credit in other UNC–Chapel Hill departments (i.e., no double credits).
5. The student completed the course within the past three academic years.
6. The substantive coverage of material constitutes no less than 75 percent of coverage in the comparable Kenan–Flagler course, and there is sufficient indication of individual student evaluation (i.e., no fewer than two major examinations, including a final examination).

For students who wish to transfer to UNC–Chapel Hill, pre-approval of such courses is recommended. Requests for validation of course credits earned at another institution must be made no later than the end of the first semester of enrollment at UNC–Chapel Hill following completion of the course. The business school does not award transfer credits in excess of three upper-level courses for transfer students.

For business majors who earn admission to UNC Kenan–Flagler Business School, no more than three upper-level courses taken at another institution may be applied to the undergraduate business major curriculum unless earned as part of a preapproved Kenan–Flagler overseas study program. Business majors studying through the Study Abroad Office in the College of Arts and Sciences are limited to transferring back a maximum of 9 credit hours towards the business major.

To request review and validation of eligible courses, students should submit a Transfer Credit Request Form through Connect Carolina for domestic credit transfer. A copy of the course syllabus must be included for all courses being evaluated. The syllabus must include the title and edition of textbook(s) as well as list explicitly the course content. If the syllabus lists only chapters covered, without a description of the chapter content, a copy of the textbook's table of contents must be included.

For Study Abroad credit review, students should follow the guidelines provided by Kenan–Flagler's Global Team or the Study Abroad Office's credit team.

Special Opportunities in the Kenan–Flagler Business School

Honors in Business

The Kenan–Flagler Business School honors thesis offers motivated undergraduate business students the opportunity to work closely with an individual faculty member on a specialized research topic of the student's choice during the senior year. Undergraduate business majors with a 3.3 cumulative graduate point average and a 3.5 grade point average in business courses are invited to be considered for the opportunity to participate in this two-course program (BUSI 691H and BUSI 692H).

In the first semester (BUSI 691H), students become familiar with the mechanics, methodologies, and recent literature on topics of major

interest. Each student formulates an honors thesis proposal and initiates work on the project. During the second semester (BUSI 692H), the thesis work is conducted under the supervision of a faculty advisor with expertise in the general topic's area of research.

Students who successfully complete the second-semester course (BUSI 692H) will submit to an oral examination on the thesis. Upon successful completion of the program, the student receives the bachelor of science degree with honors or highest honors, as determined by the student's committee.

Career Services

The Undergraduate Business Program provides career development resources and services tailored to business students, such as specialized training and professional development programming, targeted networking and career fair opportunities, function- and industry-specific career clubs, individualized career coaching, and a broad library of online resources. Undergraduate business students are expected to maintain an up-to-date profile on Handshake through University Career Services, which is the primary resource for all UNC–Chapel Hill students for job/internship postings.

As the job market remains highly competitive, the Undergraduate Business Program strongly encourages business students to undertake internships, leadership opportunities, global education, and other experiential learning opportunities to explore their interests and career options. These hands-on experiences provide great venues to develop the critical thinking, teamwork, communication, and technical skills that many employers seek in candidates. The Undergraduate Business Career Services team assists students with connecting the dots of their college experience to launch careers with positive impact.

STAR Program

Kenan–Flagler's Student Teams Achieving Results (STAR) program fields teams of top M.B.A.s and undergraduate business students to build comprehensive and actionable strategies for eligible corporations and not-for-profits. STAR teams begin the project by developing a scope of work with the client and signing a confidentiality agreement. Over the life of the project, teams typically analyze the market, assess the competitive situation, develop a strategy, and define an action plan that covers financials, risk assessment, and implementation. STAR teams are guided throughout the course by a course professor, a team-specific faculty advisor, and client executives.

Student Community Engagement and Wellness

Students in the Undergraduate Business Program are encouraged to join a variety of student organizations during their time at Kenan–Flagler. These organizations include career-focused clubs (Accounting Club, Undergraduate Consulting Club, UNC Finance Society, Real Estate Club, Marketing Club, and others), affinity clubs (including Carolina Women in Business, Pride@KFBS, and Minority Business Student Alliance, the Community, Equity, and Inclusion Board, and the student-run affinity groups under their umbrella), and business interest groups (including Sustainability Club, Undergraduate Healthcare Club, and Family Business Club). All these organizations give students valuable professional networking opportunities with recruiters and alumni, community service activities, and a chance to connect socially with peers.

The program has a full-time wellness coach who work to ensure students take care of their well-being throughout their time in the program. This coach is available for 1-1 appointments and organize many wellness-focused initiatives and programs to support all students.

Global Programs

Kenan–Flagler undergraduate global programs are consistently highly ranked by students for the quality and variety of programs available. The Undergraduate Business Program provides a growing portfolio of academic and professional global programs in Europe, Africa, Asia, Latin America, and Oceania that offer students the opportunity to earn business core and/or elective credit. Business students can develop their global perspective and career readiness skills through participation in a semester abroad, business-focused faculty-led programs, summer study abroad, or international internships.

Over \$750,000 is available in merit and financial-need scholarship funds for Kenan–Flagler students studying abroad through the Undergraduate Business Program.

Undergraduate Awards

Each spring, Kenan–Flagler students, staff, and faculty nominate graduating seniors to be considered for academic excellence and core value awards. The core values of integrity, inclusion, impact, and innovation underpin everything the school stands for and the students who are given these awards have embodied these qualities throughout their time in Kenan–Flagler. The chosen students are recognized by their peers during the school's commencement ceremony. Beta Gamma Sigma, the national business honorary society, offers top-performing students the chance to be inducted into that organization each spring.

Undergraduate Business Symposium

Since its inception in 1983, the Undergraduate Business Symposium continues to be the flagship career event for the Undergraduate Business Program and an annual highlight for the UNC Kenan–Flagler community. Each year the event brings together more than 425 undergraduates and 125 company representatives from a diverse set of industries and organizations from across the country. The Undergraduate Business Symposium provides students with the opportunity to learn about a variety of industries and organizations, the chance to network and interact with business representatives and UNC Kenan–Flagler faculty, obtain insights into the dynamic business landscape, and the opportunity to showcase their analytical, communication, and problem-solving skills.

Business Administration Minor

The business administration minor will allow students to graduate with solid knowledge of business concepts. This minor is a perfect option to pair with several majors, making students more marketable and flexible, as there is a business component in all jobs and industries.

Admission (p. 32) to the minor is required.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

A maximum of 3 credit hours of online or remote coursework may be applied toward the undergraduate business minor requirements.

9 credits of minor coursework must be completed at UNC Kenan–Flagler.

Students must successfully complete four specific business core courses and a minimum of two business elective courses (4.5 credit hours) for a total of 15 credit hours. The program can be completed within two to three semesters.

Once admitted as business minors, students will be able to register themselves in the core courses (BUSI 403, BUSI 406, BUSI 408, and BUSI 411) through Connect Carolina. Business minors may take a maximum of six business electives courses (regardless of credit hours) during their academic career.

Courses

 **SCLL 77. First-Year Seminar: C.S. Lewis in a Disenchanted World. 3 Credits.**

C.S. Lewis was a novelist, social critic, and one of the 20th century's most widely-read public intellectuals. He is most often remembered today as the creator of Narnia, but he wrote compellingly on topics like myth, morality, beauty, friendship, education, science, religion, and life in a democratic society. In all of his writing, Lewis sought to find a foundation of meaning and beauty that could support a life of intellectual integrity. This course follows Lewis's intellectual and aesthetic development over the course of his life, seeking him especially in the books he wrote and the books that shaped him.

Rules & Requirements

 **IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH.**
Grading Status: Letter grade.

 SCLL 79. First-Year Seminar: American Politics and Literature. 3 Credits.

This course examines how early American literature engages the tensions and aspirations of the American political tradition. Beginning with the Declaration of Independence, students will read short stories, poems, and novels that reflect, contest, and reinterpret the meaning of equality, liberty, citizenship, and national identity in the early republic. Through a multidisciplinary study of literary and political texts, the course considers how imaginative writing can deepen understanding of the moral and political questions that shape a pluralistic democracy. Students will develop their ability to analyze foundational American ideas, assess their significance for human flourishing, and participate thoughtfully in civic life.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH.

Grading Status: Letter grade.

 SCLL 83. First-Year Seminar: Human Being and Citizen. 3 Credits.

This course introduces students to the central questions of political philosophy through the study of major philosophical and literary texts in the Western tradition. It examines enduring debates about human nature, justice, liberty, citizenship, and political order, asking how human beings ought to live together in community. Students will consider the relationship between the good person and the good citizen, the moral and institutional foundations of political society, and the tensions inherent in democratic life. Through engagement with foundational texts, the course develops students' capacity for critical reflection, civic perspective, and thoughtful participation in democratic life.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-VALUES.

Grading Status: Letter grade.

 SCLL 85. First-Year Seminar: What Does it Mean to be a Good Citizen?. 3 Credits.

What, if any, responsibilities accompany democratic citizenship? Voting? Active participation in political meetings? Obeying laws? Volunteering in one's community? Preserving natural resources for future generations? Adhering to certain values? Protesting unjust laws? This course offers an overview of the different ways in which Americans have answered these questions. Students may not receive credit for both SCLL 85 and SCLL 185.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-VALUES, COMMBEYOND.

Grading Status: Letter grade.

 SCLL 89. First-Year Seminar: Special Topics. 3 Credits.

Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

Grading Status: Letter grade.

 SCLL 102. Pursuing The Good Life. 3 Credits.

What does it mean to live a good life? This is the question that every self-reflecting person must eventually ask, and it requires us to answer several related questions: How should I live? Whom and how should I love? What claims do family, friends, and country have on me? What is the source of meaning, purpose, happiness, and transcendence? How should I deal with suffering, injustice, and my own mortality? We will explore profound attempts to answer these questions from many different philosophic and literary perspectives, faith traditions, cultures, and time periods.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Grading Status: Letter grade.

 SCLL 103. Seeking the Just Society. 3 Credits.

How should we live together? This fundamental political question arises because human beings cannot live alone, yet—unlike other animals—we have no fixed mode of organizing our common life. To answer it, we must determine what is fixed and what is malleable about human nature. We must weigh tradeoffs between security, liberty, and justice. We must determine how to distribute honor, power, and resources, and we must confront the horrors of war, violence, and oppression. This course explores these problems through engaging in conversation with great works of philosophy, literature, history, and rhetoric across human history and cultures.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Grading Status: Letter grade.

 SCLL 104. Classics of Civic Thought. 3 Credits.

This course challenges our culture of short attention spans and multi-tasking by focusing on one fundamental work of classic civic thought and reading it with care. The aim is to deeply engage with a book as a lens onto the past, a work of art, a forum for life's big questions, and a guide to civic life. Please consult the department website to see which work will be taught this semester.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Repeat Rules: May be repeated for credit. 6 total credits. 1 total completions.

Grading Status: Letter grade.

 SCLL 110. Reasoning Together: Civic Dialogue in Polarized Times. 3 Credits.

This class examines the contemporary polarization through political, sociological, and ethical lenses while emphasizing practical skills for dialogue. Students will practice listening, argumentation, and collaborative problem-solving about controversial contemporary issues in settings that mirror real-world disagreements. By integrating theory and practice, the course aims to prepare students to engage thoughtfully and constructively in civic life.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Grading Status: Letter grade.

SCLL 125. Utopias and Dystopias: Civic Possibilities. 3 Credits.

From Plato's Republic to modern dystopias, people have imagined societies that might better realize justice, equality, and the common good. This course studies utopian and dystopian thought in the West, examining how writers and philosophers envisioned religion, economy, governance, and citizenship. We will consider the possibilities and limits of these imagined societies and what lessons they offer for our own civic horizon.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.

Grading Status: Letter grade.

SCLL 132. Education and Civic Ideals. 3 Credits.

This course explores classic philosophical debates about education as a foundation for civic life. From Plato to Dewey, we'll consider how thinkers have connected learning to freedom, virtue, and participation in the common good. Topics include who should guide education—the state, parents, or civic society—and whether education should aim to perfect the individual, strengthen society, or reconcile the two. Through close reading and discussion, students will examine how theories of education shape policies, democratic citizenship, and public discourse.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-VALUES.

Grading Status: Letter grade.

SCLL 136. Love and Death. 3 Credits.

Love and death are not merely private experiences—they are central to our public and civic lives. This course explores how love inspires solidarity, compassion, and sacrifice, while death confronts us with questions of justice, memory, and moral duty. Through classical and modern texts, we'll consider how we should honor the dead, value life, and understand love as both a personal passion and a civic virtue. These paradoxes are examined in works of literature, philosophy, and art.

Rules & Requirements

Grading Status: Letter grade.

SCLL 140. Islam, Outsiders, and Civic Life. 3 Credits.

How does a faith tradition understand those beyond its boundaries? How do such outsiders shape it in turn? This course traces Islam's development through its encounters with other religions and cultures and through its wrestling with political and philosophical questions. Students will explore how these interactions illuminate this tradition and shape both Islamic self-understanding and broader debates about truth, justice, tolerance, and boundaries.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.

Grading Status: Letter grade.

SCLL 148. Encounters: Travel and Civic Life. 3 Credits.

From ancient pilgrims to modern explorers, travelers have long reflected on what it means to meet the unfamiliar. This course examines travel writing as a record of cross-cultural encounter and moral reflection. Through classic texts from multiple traditions, students will consider how travel narratives have shaped understandings of citizenship, identity, and the common good. What civic virtues—or vices—emerge when individuals confront difference? Can travel foster genuine dialogue across difference, or does it inevitably reinforce boundaries?

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.

Grading Status: Letter grade.

SCLL 150. Foundations of American Civic Life. 3 Credits.

This course explores fundamental questions about civic life and the nature of leadership in America. It focuses on the political thought and statesmanship of American politicians, writers, and prominent citizens from the Founding up to the twenty-first century, with special emphasis on three critical "moments": 1) the Founding, 2) the Crisis of the House Divided (slavery and the Civil War) and 3) the Civil Rights Movement and the rise of contemporary progressive and conservative visions of America. Previously offered as SCLL 100. Honors version available.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES, FAD.

Grading Status: Letter grade.

SCLL 160. American Political Economy. 3 Credits.

How does the economic system shape citizens? This course explores the relationship between markets and morals through the writings of thinkers ancient and modern. Students will examine debates over property, labor, and inequality from ancient ethics to modern social science, and consider how they inform public discourse today. The course pays particular attention to the development of American economic systems. By studying both critics and defenders of commercial society, the course invites reflection on what it means to balance prosperity, justice, and the common good.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-VALUES.

Grading Status: Letter grade.

SCLL 165. The American Character. 3 Credits.

The question of "American character" has defined - and divided - the nation from its inception. This course examines whether there exists a core set of American virtues, or whether American identity is something more contested, constructed through inclusion and exclusion. Through debate and deliberation, we'll explore how competing answers in works of philosophy, literature, and film shape citizenship: who belongs, who decides, and what responsibilities come with membership in the American civic community.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FAD.

Grading Status: Letter grade.

SCLL 170. Left, Right, and Center. 3 Credits.

Partisan division is not new - but understanding it requires both history and philosophy. This course examines the development of left, right, and center in modern political thought, following key ideas from the Enlightenment through contemporary American ideological movements like socialism, progressivism, libertarianism, and neoconservatism. Students will analyze how these traditions shape our political life and how opposing ideas often share common origins. Emphasizing dialogue and critical reflection, the course equips students to engage political disagreements with civility, curiosity, and respect for truth. Previously offered as SCLL 237.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-VALUES.

Grading Status: Letter grade.

SCLL 175. American Leadership: Statesmen, Politicians, and Demagogues. 3 Credits.

This course examines leadership styles in American politics, exploring questions about authority, citizenship, and democratic participation. Students analyze how different forms of leadership have shaped - and sometimes threatened - democratic citizenship and institutional governance, from ideological justifications for authority to the role of communication technology.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-POWER.

Grading Status: Letter grade.

SCLL 180. Tocqueville's America: Sustaining Democracy. 3 Credits.

This course examines the intellectual, cultural, and social underpinnings of American civic life through the eyes of Alexis de Tocqueville. Students explore the promise and perils of modern democracy.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FAD.

Grading Status: Letter grade.

SCLL 185. How to be a Citizen. 3 Credits.

What, if any, responsibilities accompany democratic citizenship? Voting? Active participation in political meetings? Obeying laws? Volunteering in one's community? Preserving natural resources for future generations? Adhering to certain values? Protesting unjust laws? This course offers an overview of the different ways in which Americans have answered these questions. Students may not receive credit for both SCLL 85 and SCLL 185.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES, COMMBEYOND.

Grading Status: Letter grade.

SCLL 190. Special Topics in Civic Life and Leadership. 3 Credits.

This course provides students an opportunity to engage in the study of special topics in civic life and leadership.

Rules & Requirements

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

SCLL 201. Practice of Civic Life and Leadership. 3 Credits.

This course focuses on the ideas and practices necessary to analyze arguments and disagree in a productive and compassionate way, especially at a time of deep polarization in American culture. Students in this course will debate five, contentious, contemporary topics to practice researching multiple sides of an issue significant to civil society, engaging in oral and written argument, and developing criteria by which to evaluate argument, evidence, and debate performance. Course previously offered as SCLL 101.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-LAUNCH (only designated sections), COMMBEYOND.

Grading Status: Letter grade.

SCLL 204. Why Read? The Theory and Practice of Reading. 3 Credits.

This interdisciplinary course explores the civic and personal value of reading through humanistic reflection across the ages, modern social science, and practical experiment. We will investigate connections between reading and attention, empathy, mental health, civic participation, and political life. Alongside theoretical reflection, you'll practice deep attention to a novel of your choice.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Grading Status: Letter grade.

SCLL 207. The Global Cold War. 3 Credits.

A survey of the Cold War from its origins in the aftermath of the Second World War to its conclusion in the late 1980s. Focuses on the geopolitical, military, ideological, and economic aspects of the global superpower conflict.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-GLOBAL.

Grading Status: Letter grade.

Same as: HIST 207, PWAD 207.

SCLL 215. The Politics of Comedy and Tragedy. 3 Credits.

This course examines how civic and political life is interpreted through the contrasting frameworks of tragedy and comedy. Students will explore what each lens reveals - and obscures - about human nature, justice, and power. How these categories influence our judgments about justice, leadership, and civic responsibility will also be considered. Through readings in literature, philosophy, and political theory, we consider whether these perspectives can be combined or transcended to offer a richer understanding of politics and civic life.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Grading Status: Letter grade.

SCLL 218. Vocation: Finding Purpose in Life and Work. 3 Credits.

This course traces the evolution of the concept of vocation from its origins in medieval monastic life through the Protestant Reformation to contemporary ideals of purpose and fulfillment. Students will examine how changing ideas about vocation have shaped understandings of work, identity, and civic responsibility across time. Through historical and philosophical inquiry, the course invites reflection on how these traditions inform modern debates about career and life purpose.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Grading Status: Letter grade.

SCLL 222. Universities and Democracy: Purpose and Practice. 3 Credits.

What is the university for? This course investigates the historical and philosophical foundations of higher education and its role in shaping democratic society. Students will debate questions about free expression, intellectual liberty, and the balance between academic study and vocational preparation. Focusing on the American context, students will explore the history of higher education, competing visions of liberal learning, and the challenges of balancing intellectual freedom with professional training. Emphasis is placed on critical dialogue about the university as an institution, an ideal, and a community.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Grading Status: Letter grade.

SCLL 232. Lawbreakers: Crime, Punishment, and Modernity. 3 Credits.

This seminar explores how modern writers use lawbreakers to explore collisions between the individual and the civic collective. Using major works of the Western literary canon, students will examine questions central to civic life: crime, punishment, law, legitimacy, moral responsibility, and the relationship between individual conscience and public order. Readings engage major literary and philosophic schools, including realism, absurdism, and existentialism, inviting reflection on justice, responsibility, and the fragile bonds of civic life.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-AESTH.

Grading Status: Letter grade.

SCLL 235. Heroes and Leaders. 3 Credits.

This course examines the qualities that define exemplary leaders and the models that shape our aspirations. What makes for a hero, a statesman, or a good leader - and what leads to their opposites? Students will explore how education, experience, and character contribute to leadership, while considering the cultural and political forces that elevate or undermine these ideals. Through discussion and analysis, we reflect on the role of models in civic life and leadership.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Grading Status: Letter grade.

SCLL 240. Free Speech and Its Limits: From Socrates to Cancel Culture. 3 Credits.

This course examines the enduring tension between free expression and its boundaries, from Socrates' trial and Jesus' execution to today's debates about cancel culture. Students will explore the ethical and political challenges of free speech in a world of deep disagreement, considering the virtues required to speak freely and truthfully as members of democratic and other communities. Through philosophical and historical inquiry, we ask what freedom, and especially freedom of speech, means and demands for civic life today.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-VALUES.

Grading Status: Letter grade.

SCLL 242. Christian Ethics and Moral Controversies. 3 Credits.

This course examines how Christian thinkers have approached some of today's most contested moral topics - war, sex, money, abortion, gender, race, and more - while placing their views in dialogue with secular perspectives. Through examining historical and contemporary debates, students will explore competing visions of what it means to live well, individually and communally. Throughout, the course elucidates the ways in which Christian ethics has shaped Western civic and political life. It explores how contemporary ethical and political perspectives, including secular perspectives, often unwittingly presuppose Christian theological commitments.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Grading Status: Letter grade.

SCLL 244. Declaration of Independence and Civic Foundations. 3 Credits.

This course examines the Declaration of Independence as both a founding political act and a statement of enduring civic ideals. Students will study the historical circumstances that produced the document, the philosophical claims it makes about human equality and rights, and its influence on later debates about liberty and justice. From the Revolution to civil rights movements, we will trace how Americans have invoked - and contested - the Declaration's principles in the ongoing work of self-government. Previously offered as SCLL 155.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FAD.

Grading Status: Letter grade.

SCLL 245. The Family in the Civic Order. 3 Credits.

This course explores the relationship between family and politics across the history of Western thought. From ancient Greece to modern feminist theory, we examine why families exist, what forms they take, and the purposes they serve in different political regimes. Topics include sex, marriage, childrearing, and the boundaries between private and public life. Previously offered as SCLL 145.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST or FC-VALUES.

Grading Status: Letter grade.

 SCLL 250. Democracy: Ancient and Modern. 3 Credits.

This course explores democracy from its Athenian origins to its American present. Does modern democracy fulfill ancient democracy's ideals, or depart from them? And what can the world's first democracy teach us about civic life today? Through engaging case studies, students investigate democracy's challenges and promises—and consider what it asks of citizens now. Topics may include freedom, equality, and rights; democratic institutions; citizenship; rhetoric; leadership, democratic knowledge, and decision-making; foreign policy; tyranny and corruption; religion; and hope.

Rules & Requirements **IDEAs in Action Gen Ed:** FC-VALUES, FAD.**Grading Status:** Letter grade. **SCLL 252. The Communist Challenge: Ideals, Failures, and Lessons. 3 Credits.**

Communism promised a new civic order and liberation from inequality - yet ended in collapse. This course investigates the intellectual and cultural foundations of communism, the principal ideological rival to the United States for much of the twentieth century, and the American dissent that opposed it. We will examine communism's moral and political aspirations, how they fell short, and how its legacy informs our contemporary thinking about justice, democracy, and civic obligation. Working with primary source documents, we will specifically encounter the Soviet regime's forerunners, founders, defenders, and most trenchant critics.

Rules & Requirements **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-PAST.**Grading Status:** Letter grade.**SCLL 255. Thought and Action in the Ancient Polis. 3 Credits.**

Classical Athens saw perhaps the greatest flourishing of political, philosophic, and cultural thought ever to occur in such a small place over so short a time. In this class, we take seriously the possibility that its thinkers may in fact have something of the highest importance to say to us. Following these authors, we will consider the relationship between democracy and tyranny, and the tension between the needs of politics and the aims of the individual. We will investigate these authors' arguments about virtue, justice, and the ultimate ends of political life.

Rules & Requirements**Grading Status:** Letter grade. **SCLL 270. Speech and Power in Political Life. 3 Credits.**

This course examines the role of rhetoric in shaping political action and civic life. Students will explore how speech can inspire, persuade, and manipulate, as well as the reciprocal power between speakers and audiences. Particular attention will be paid to the role of political rhetoric in the traditions stemming from classical Greece and Judeo-Christianity. Through classic texts and contemporary examples, we analyze the ethical and practical dimensions of rhetoric, the difference between statesmanship and demagoguery, and what these dynamics reveal about human nature.

Rules & Requirements **IDEAs in Action Gen Ed:** FC-VALUES.**Grading Status:** Letter grade. **SCLL 280. Rome and the Republican Imagination. 3 Credits.**

The Roman Republic's success - and the dramatic failure of its institutions - has shaped political imagination for over two millennia. This course examines Rome not only as a historical polity but as a recurring ideal in Western political thought. We consider the tensions between republican virtue and imperial expansion, constitutional stability and civic decay, and the uses and misuses of Roman precedent in later political contexts. Readings focus on key moments: Cicero's defense of the Republic, Machiavelli's revival of Roman politics, Shakespeare's dramatic interpretation of Roman character and civic breakdown, and the American Founders' selective appropriation of Roman models.

Rules & Requirements **IDEAs in Action Gen Ed:** FC-VALUES.**Grading Status:** Letter grade. **SCLL 291. Undergraduate Learning Assistantship. 1-3 Credits.**

This course is for students selected as Undergraduate Learning Assistants (ULAs) for SCLL courses during the semester they serve as ULAs. This course will provide support and structure to make them effective in their role, including training in pedagogy and University policies; ongoing mentorship and supervision; and opportunities for reflection, assessment, and evaluation. May not count toward the SCLL major.

Rules & Requirements **IDEAs in Action Gen Ed:** HI-LEARNNTA.**Requisites:** Prerequisite, Permission of Instructor.**Repeat Rules:** May be repeated for credit. 9 total credits. 9 total completions.**Grading Status:** Pass/Fail. **SCLL 304. Thomas Aquinas: Faith and Reason. 3 Credits.**

Thomas Aquinas is one of the most influential figures in the history of Western philosophy, religion, and civic life. On nearly everything he writes about - virtue, passions, law, love, God, justice, reason, evil, and much else - he has something illuminating to say. This course constitutes an extended engagement with Thomas's thought, primarily through attention to his *Summa theologiae*. Students will seek to understand Thomas both on his own terms and as a resource for contemporary efforts to understand and engage philosophy and civic life.

Rules & Requirements **IDEAs in Action Gen Ed:** FC-KNOWING or FC-VALUES, RESEARCH.**Grading Status:** Letter grade.**SCLL 315. America Through Foreign Eyes. 3 Credits.**

This course introduces students to American politics and culture through the eyes of some of its greatest admirers and most vehement critics from the sixteenth century to the present. Learning to think with and against these authors can clarify what sets America apart from the surrounding world, for better or worse.

Rules & Requirements**Grading Status:** Letter grade.

 SCLL 318. The Republic of Ideas: The Enlightenment in Civic Perspective. 3 Credits.

What was the Enlightenment, and what remains of it today? This seminar examines the civic legacy of the Enlightenment and its significance for democratic life, including the development of Enlightenment ideas about reason, progress, religion, and rights—and the counter-movements they inspired. Students will read philosophers, scientists, and revolutionaries alongside their critics, asking whether reason leads to liberation or domination, tolerance or terror. The course situates the Enlightenment as a turning point in the history of civic ideals and the pursuit of a rational public sphere.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST, RESEARCH.

Grading Status: Letter grade.

 SCLL 320. Liberalism and its Critics. 3 Credits.

Since the late eighteenth century, liberalism—the belief that individuals and their rights are the foundation of political life—has shaped modern civic culture and democratic institutions. Yet liberalism has always had its challengers. This course examines major philosophical debates about liberty, equality, and community. Students will explore how nineteenth and twentieth century thinkers wrestled with liberalism's deepest tensions—between individual freedom and moral order, self-expression and civic duty—and consider the fate of these ideas today.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Grading Status: Letter grade.

 SCLL 340. The Crescent and the Cross: Islamic and Christian Thought. 3 Credits.

This course examines the philosophical exchange between the Christian and Islamic worlds as both attempted to reconcile pagan Greek learning with monotheistic religion. By studying these attempts to balance faith and philosophy, students will discover the shared intellectual roots of the Islamic and Christian worlds and gain insight into how dialogue across difference can enrich civic and moral understanding today.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-PAST.

Grading Status: Letter grade.

 SCLL 350. Humans to Machines: Science, Technology, and Social Order. 3 Credits.

This course explores the complex relationship between science and public life. Beginning with the origins of scientific thought in the ancient world and tracing its modern transformations, students will examine how changing ideas of knowledge and method have influenced political authority, social order, and conceptions of human nature. We will consider how the pursuit of scientific truth intersects with civic virtue, democratic deliberation, and the ethical challenges of living in a technological society. Previously offered as SCLL 200.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING.

Grading Status: Letter grade.

 SCLL 352. Labcoats and Legislators: Navigating Science and Policy in a Democratic Society. 3 Credits.

This course introduces students to the complex interplay between scientific inquiry, policymaking, and public discourse. Students will examine how science can influence policy at both the state and national level. We will discuss a wide variety of case studies, and students will work together to develop a science-related policy.

Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-VALUES.

Grading Status: Letter grade.

 SCLL 393. Mentored Internship in SCLL. 3 Credits.

In this course, students will participate in an internship (generally off-campus), meet regularly with a mentor, and write a reflection upon the experience.

Rules & Requirements

 **IDEAs in Action Gen Ed:** HI-INTERN.

Requisites: Prerequisite, Permission of Instructor.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Pass/Fail.

 SCLL 395. Mentored Research in SCLL. 3 Credits.

Students create a study plan for a research project in partnership with a faculty mentor. The student work is done independently; however, mentor and student meet regularly. The project usually culminates in a substantial research paper.

Rules & Requirements

 **IDEAs in Action Gen Ed:** RESEARCH.

Requisites: Prerequisite, Permission of Instructor.

Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.

Grading Status: Letter grade.

SCLL 396. Directed Readings. 3 Credits.

An independent student in the School of Civic Life and Leadership: student and professor determine a set of readings together on a topic or theme.

Rules & Requirements

Grading Status: Letter grade.

SCLL 425. Natural Law and Human Rights. 3 Credits.

This course traces the intellectual tradition of natural law - the idea that there are moral principles valid for all people, in all times and places - and explores how it has shaped debates about freedom, authority, and the common good. Beginning with classical and Christian sources, students will engage major thinkers from Grotius and Hobbes to Locke and Rousseau, and examine how their ideas informed the democratic revolutions of the eighteenth century. The course concludes by exploring the modern legacy of natural law in contemporary discussions of liberalism, conscience, and human rights.

Rules & Requirements

Grading Status: Letter grade.

 SCLL 429. Political Theology. 3 Credits.

Is politics inherently religious? Is the "Antichrist" a useful political concept? Is Christianity opposed to democracy? This course engages questions at the intersection of politics and theology. We'll explore the political vision of figures like Augustine, Aquinas, and their heirs, along with secularists who see Western politics as echoing Christian theology or want to banish religion from politics. We'll read theologians who argue for Christendom alongside their religious and non-religious opponents. Throughout, we'll seek to understand the nature of politics, how theological thinkers grapple with politics, and how reflection on political life can help us understand theological traditions.

Rules & Requirements **IDEAs in Action Gen Ed:** FC-POWER or FC-VALUES.**Grading Status:** Letter grade.**SCLL 430. Representation and Democracy. 3 Credits.**

What does it mean to be represented? This course explores the theory and practice of representative government. We will examine the duties of elected officials, the obligations of citizens, and the form of representative institutions. Students will engage with historical and philosophical texts as well as modern proposals for deliberative and non-electoral forms of representation. The course emphasizes how the quality of civic discourse affects both representation and the health of democratic life.

Rules & Requirements**Grading Status:** Letter grade.**SCLL 490. Special Topics in Civic Life and Leadership. 3 Credits.**

This course provides students an opportunity to engage in intensive study of special topics in civic life and leadership.

Rules & Requirements**Repeat Rules:** May be repeated for credit. 6 total credits. 2 total completions.**Grading Status:** Letter grade. **SCLL 500. Grand Strategy. 3 Credits.**

What separates successful states from failed ones? This course explores grand strategy as the long-term planning and execution of a nation's political, military, and economic goals. This course examines the theory and history of grand strategy in international affairs over the last 2,500 years. By looking at a series of thinkers, practitioners, and case studies, it asks what distinguishes good strategy from bad strategy, how circumstances can empower and constrain individuals, and whether we can identify strategic principles that endure across time.

Rules & Requirements **IDEAs in Action Gen Ed:** FC-GLOBAL or FC-PAST.**Grading Status:** Letter grade.**Same as:** HIST 502, PWAD 500.**SCLL 510. Human Rights in the Modern World. 3 Credits.**

This course looks at the international history of human rights from the Enlightenment to the present and considers how human rights ideas first emerged, how they evolved, and how they became so influential. Honors version available.

Rules & Requirements**Grading Status:** Letter grade.**Same as:** HIST 510.

School of Data and Information Sciences

The School of Data and Information Sciences

The School of Data and Information Sciences (SDIS) was founded in 2026 by joining the School of Information and Library Science (1931) and the School of Data Science and Society (2022). SDIS brings together longstanding excellence in information and library science with leadership in data science, including computational and statistical methods, and societal applications.

Home to a top-ranked library and information science program, SDIS is recognized for strong teaching, research and service and is the home to the Carolina Health Informatics Program (CHIP) and the Center for Information, Technology and Public Life (CITAP). The School teaches and trains undergraduate and graduate students in data science, health informatics, information science, and library science, as well as offers certificates for adult learners.

SDIS conducts research and scholarship across the data and information life cycle, with an emphasis on human-centric, ethical, and applied approaches. Committed to data, information, and AI literacy for all Tar Heels, SDIS faculty are tackling our communities' most pressing needs and our world's most intractable challenges.

- Information and Library Science (INLS) (<https://catalog.unc.edu/courses/inls/>)

Professors

David Adalsteinsson, Stan Ahalt, Jaime Arguello, Amarjit Budhiraja, Robert Capra, Tressie McMillian Cottom, Melanie Feinberg, David Gotz, Melissa Haendel, Sandra Hughes-Hassell, Mohammad Hossein Jarrahi, Diane Kelly (Wilson Distinguished Professor), Ashok Krishnamurthy, Christopher (Cal) Lee, Terry Magnuson, Gary Marchionini (Cary C. Boshamer Distinguished Professor), Steve Marron, Arcot Rajasekar, Jack Snoeyink, Brian W. Sturm.

Associate Professors

Wei-Tong (Louis) Fan, Bradley M. Hemminger, Sun-Ha Hong, Hsun-Ta Hsu, Youzuo Lin, Yifei Lou, Marijel (Maggie) Melo, Santiago Olivella, Courtney Rivard, Ryan Shaw, Keriayn Smith, Francesca Tripodi, Tzu-Yu (Danny) Wu.

Assistant Professors

Alexandra Chassanoff, Iain Carmichael, Can Chen, Ziyu Chen, Anita Crescenzi, Neil Gaikwad, Dan Kessler, Lauren Kucirka, Harlin Lee, Alex McAvoy, Lina Montoya, Jingping Nie, William (Willie) Payne, Justin Sola, Yue (Ray) Wang, Joseph Winberry, Ziping Xu, Huaxiu Yao, Fei Yu, Ran Zhang, Weitong Zhang, Chudi Zhong, Tarek Zikry.

Teaching Professors

Julie McMurry, Rei Sanchez-Arias, David Yokum.

Teaching Associate Professor

Ronald Bergquist.

Teaching Assistant Professors

Tonya Balan, Michael Fox, Elliott Kuecker, Casey H. Rawson, Megan A. Winget, Kathryn Wymer.

Professor of the Practice

Ericka Patillo.

Data Science Major, B.A.

The bachelor of arts (B.A.) in data science provides students with high-level development of competencies in mathematics, statistics, computational foundations, ethics, and communication. The curriculum aims to go beyond basic competencies, providing opportunities to

integrate analytic techniques across a broad variety of coursework, and allow students to customize the application of data science knowledge according to discipline-specific domain specializations.

Student Learning Outcomes

Upon completion of the data science program, students should be able to:

- Understand data sources and constructs, including the conceptual and technical foundations of representing, organizing, retrieving, and using data and information
- Understand and implement ethical practices in data collection, management, analysis, and reporting, including privacy, security, and governance of data
- Build and understand algorithms for analyzing data and accurate numerical modeling for problems
- Use appropriate data analytics and statistical techniques to discover new relationships, deliver insights into research problems or organizational processes, and support decision-making
- Convey data analyses through written and oral communication skills as well as visualization techniques

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Foundations of Data and Information (two courses):		
DATA 110	 Introduction to Data Science ^H	3
Select one of the following options:		3
DATA 130	 Critical Data Literacy	
ENGL 480	Digital Humanities History and Methods	
ENGL 482	 Metadata, Mark-up, and Mapping: Understanding the Rhetoric of Digital Humanities	
INLS 201	 Foundations of Information Science	
SOCI 318	Computational Sociology	
Responsible Data Science (one course):		
DATA 120	 Ethics of AI and Societal Decision Making ^H	3
Computational Thinking (two courses):		
COMP 110	 Introduction to Programming ^H	3
	or COMP 116 Introduction to Scientific Programming	
DATA 140	 Introduction to Data Structures and Management	3

Mathematical and Statistical Foundations (four courses):

MATH 210	 Mathematical Tools for Data Science	3
or MATH 347	 Linear Algebra for Applications	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
STOR 120	 Foundations of Statistics and Data Science ^{H, F}	4
STOR 320	 Methods and Models of Data Science	3-4
or STOR 455	Methods of Data Analysis	
Communication (select one course from the following options):		3
COMM 113	 Public Speaking	
COMM 171	 Argumentation and Debate	
DATA 150	 Communication for Data Scientists	
ENGL 119	 Picture This: Principles of Visual Rhetoric	
ENGL 303	 Scientific and Technical Communication	
ENGL 411	 Composing for Clients: Technical Communication Practicum	
GEOG 115	Geospatial Technologies, Maps, and Society	
GEOG 415	 Communicating Important Ideas	
INLS 541	Information Visualization	
MEJO 102	Future Vision: Exploring the Visual World	
Four additional courses from a concentration area (see below)		12
Total Hours		44-45

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Concentrations

Data Journalism

This concentration equips students to understand how to employ data science to find and tell hidden stories that inform the public discourse, civic life and democracy. Students will learn how to acquire, clean, analyze and present data in multiple media simply and clearly for a general audience of citizens. The concentration combines foundational data science competencies with multimedia web development, data visualization and news reporting skills and ethics to prepare students to meet the increasingly complex and quantitative needs required by professional journalists.

Code	Title	Hours
MEJO 487	Intermediate Interactive Media ¹	3
MEJO 570	 Data Driven Journalism	3
Select one of the following options:		3
GEOG 215	 Introduction to Spatial Data Science	
LING 460	 Making Sense of Big Data: Textual Analysis with R	
POLI 209	 Analyzing Public Opinion ^H	
STOR 538	Sports Analytics ¹	
Select one of the following options:		3

MEJO 459	 Community Journalism ¹	
MEJO 553	Advanced Reporting ¹	
MEJO 625	Media Hub ^H	
MEJO 630	Business News Wire ^H	
Total Hours		12

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Course requires a prerequisite(s) not otherwise counting in the major. Please review prerequisite information carefully when planning your course selection.

Economic Analysis

This concentration prepares students for careers in quantitatively focused occupations at the intersection of economics and data science. The courses offer a rigorous foundation for econometric and data-science methodologies commonly used in economic analysis, as well as requiring an understanding of the application of these methods in at least one field within economics.

Code	Title	Hours
ECON 370	Economic Applications of Data Science ¹	3
ECON 400	 Introduction to Data Science and Econometrics ^{1, H}	4
ECON 470	 Econometrics ^{1, H}	3
Select one of the following options:		3
ECON 423	Financial Markets and Economic Fluctuations ^{1, H}	
ECON 425	Financial Economics ¹	
ECON 445	 Industrial Organization ¹	
ECON 450	Health Economics: Problems and Policy ¹	
ECON 480	Labor Economics ¹	
ECON 522	Macroeconomic Analysis of the Labor Market ¹	
ECON 525	 Advanced Financial Economics ¹	
ECON 545	 Advanced Industrial Organization ¹	
ECON 550	 Advanced Health Econometrics ¹	
ECON 551	 Economics of Education ¹	
ECON 552	 The Economics of Health Care Markets and Policy ¹	
ECON 571	 Advanced Econometrics ¹	
ECON 573I	 Machine Learning and Econometrics ¹	
ECON 575	Applied Time Series Analysis and Forecasting ¹	
ECON 580	 Advanced Labor Economics ¹	
Total Hours		13

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Course requires a prerequisite(s) not otherwise counting in the major. Please review prerequisite information carefully when planning your course selection.

Quantitative Language Science

This concentration explores how data-science methods including statistical, mathematical, and computational methods are applied to study theoretical language science/linguistics, and natural language processing. This courses will familiarize students with linguistic concepts in the context of data-science methodology and help prepare them for jobs or for further study in computational linguistics and AI.

Code	Title	Hours
LING 401	 Introduction to Computational Linguistics ¹	3
LING 460	 Making Sense of Big Data: Textual Analysis with R	3
LING 540	 Mathematical Linguistics ¹	3
Select one of the following options:		3
LING 225	 Busting Language Myths	
LING 520	 Linguistic Phonetics	
Total Hours		12

¹ Course requires a prerequisite(s) not otherwise counting in the major. Please review prerequisite information carefully when planning your course selection.

Urban Data Analytics

This concentration equips students with the skills necessary to apply data science tools for the public good, specifically to improve the quality of life of people in human settlements.

Code	Title	Hours
Select one of the following options:		3
PLAN 246	 Cities of the Past, Present, and Future: Introduction to Planning	
PLAN 247	 Solving Urban Problems	
PLAN 256	 Planning the City: Possibilities, Participants, and Change	
PLAN 257	 Tools for Urbanists	
PLAN 714	Urban Spatial Structure ¹	
PLAN 562	Seminar on The Ethics and Politics of New Urban Analytics	3
Select one of the following options:		3
PLAN 372	 Introduction to Urban Data Analytics	
PLAN 672	Urban Data Analytics	
Select one of the following options:		3
PLAN 591	Applied Issues in Geographic Information Systems	
PLAN 635	Energy Modeling for Environment and Public Health	
PLAN 636	 Urban Transportation Planning	
PLAN 637	 Public Transportation	
PLAN 671	Development Planning Techniques	
PLAN 720	Planning Methods ¹	
PLAN 739	Transportation Planning Models ¹	
PLAN 745	Development Impact Assessment ¹	
Total Hours		12

¹ Courses at the 700-level require permission of the instructor for undergraduate students to enroll.

Sociology

The sociology concentration enables students to understand how data, the analysis of data, and social scientific methodological approaches can be used to study people in society, including interpersonal dynamics, inequality, social structures, and cultural systems.

Code	Title	Hours
SOCI 251	 Research Methods	3
Select three of the following options:		9
SOCI 121	 Population Problems	
SOCI 172	 Introduction to Population Health in the United States	
SOCI 180	 Introduction to Global Population Health	
SOCI 252	 Data Analysis	
SOCI 277	Societies and Genomics ^H	
SOCI 302	Fieldwork in Entrepreneurship	
SOCI 412	Social Stratification	
SOCI 415	Economy and Society	
SOCI 419	 Sociology of the Islamic World	
SOCI 420	Political Sociology	
SOCI 427	 The Labor Force	
SOCI 429	 Social Research in Religious Settings	
SOCI 433	Immigration in Contemporary America	
SOCI 468	United States Poverty and Public Policy	
SOCI 469	Health and Society	
Total Hours		12

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Data and Society

This concentration equips students to understand the social, cultural, historical, and political dimensions and impacts of data-driven technologies. Students will learn critical capacities to engage with and evaluate contemporary technologies, understand their histories, and map their social impacts.

Code	Title	Hours
Select four of the following options:		12
COMM 249	Introduction to Communication Technology, Culture, and Society	
COMM 348	 Algorithms and Society	
COMM 360	 Social Media and Society	
COMM 453	 The History of New Media Technology in Everyday Life	
COMP 380	 Technology, Ethics, & Culture ^H	
MEJO 242	From Gutenberg to Google: A History of Media	
Total Hours		12

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Geographic Information Science

This concentration equips students to understand fundamentals of GIScience concepts and build expert knowledge in the use of geospatial technologies such as GIS, remote sensing, spatial analysis and modeling, database development and management, programming, Web GIS, and geovisualization.

Code	Title	Hours
GEOG 215	 Introduction to Spatial Data Science	3
GEOG 370	 Geographic Information Science	3
Select two of the following options:		6
GEOG 391	Quantitative Methods in Geography	
GEOG 410	 Modeling of Environmental Systems	
GEOG 456	 Geovisualizing Change	
GEOG 477	 Introduction to Remote Sensing of the Environment	
GEOG 491	Principles of Geographic Information Systems	
GEOG 541	GIS in Public Health	
GEOG 544	Geographic Information Systems for Impact Evaluation and Health Studies	
GEOG 555	Cartography of the Global South	
GEOG 567	 Geospatial Data Analysis with Google Earth Engine	
GEOG 577	 Advanced Remote Sensing	
GEOG 591	 Applied Issues in Geographic Information Systems	
GEOG 592	 Geographic Information Science Programming	
Total Hours		12

Data Science Major, B.S.

The bachelor of science (B.S.) in Data Science (<https://go.unc.edu/BSinDS/>) prepares students with a strong computational and technical foundation to enter the workforce or pursue an advanced degree. Students learn skills and concepts in the following six competencies:

- Responsible Data Science
- Communication
- Computational Thinking
- Mathematical and Statistical Foundations
- Optimization
- Machine Learning and Artificial Intelligence (AI)

The curriculum also provides opportunities for direct application through four-course concentrations, upper-level electives, mentored research, and internships.

Advising

Students must apply and be accepted to the B.S. in Data Science. After admission and acceptance, each student will receive staff and faculty advisors in the Division of Data Science and Society within the School of Data and Information Sciences, who provide academic advising, career services, and community-building activities.

Preparing for the Bachelor of Science in Data Science

Students seeking to declare the bachelor of science (B.S.) in Data Science must apply (<https://go.unc.edu/applytoBS/>) and be admitted to the School of Data and Information Sciences (SDIS). The school offers

admissions cycles in the fall and spring semesters for the B.S. in Data Science.

The B.S. in Data Science requires seven prerequisites, which students typically complete in the first four semesters. Students are eligible for admission while prerequisites are in progress or outstanding. Many students are admitted having completed four or five of the seven prerequisites. A cumulative minimum G.P.A. of 3.0 is required for admission to the major. Questions regarding admission to the B.S. in Data Science (<https://go.unc.edu/ApplytoBSinDS/>) can be directed to SDSSAcademics@unc.edu.

A pre-data science track includes successful completion (defined as earning a final grade of at least a C, not C-) of the following courses (or their equivalents):

Code	Title	Hours
DATA 110	 Introduction to Data Science ^H	3
One of the following:		
STOR 120	 Foundations of Statistics and Data Science ^{H, F}	
COMP 110	 Introduction to Programming ^H	
COMP 116	Introduction to Scientific Programming	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^H	4
or MATH 235	 Mathematics for Data Science	
MATH 347	 Linear Algebra for Applications ^F	3
One of the following:		3
STOR 315	 Discrete Mathematics for Data Science	
COMP 283	 Discrete Structures ^H	
MATH 381	Discrete Mathematics ^H	
Total Hours		21

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Student Learning Outcomes

The B.S. in Data Science prepares students in six competencies with the corresponding learning outcomes:

Responsible Data Science

- The Responsible Data Science competency focuses on the ethical practice of data collection, analysis, and communication, aiming to generate fair and explainable data-driven insights while minimizing harmful unintended consequences. Students will develop strategies involved in mitigating bias, protecting privacy, and weighing the impact of different data science applications; as well as build a formal framework for understanding the ethical implications of these strategies.

Communication

- The Communication competency equips students to translate complex data analyses into actionable insights that drive decision-making and innovation. Students will develop the ability to convey data findings clearly and persuasively through written, oral, and visual means to both technical and non-technical audiences.

Computational Thinking

- The Computational Thinking competency teaches students how to turn data into information, whether starting at the beginning of the data lifecycle or working with available data at any stage, by exploring the data types, formats, relationships, and cleanliness. Students will evaluate the different tools and how to choose the best one, whether databases, software packages, machine learning, or visualization tools, to solve data science problems. Students will also gain experience evaluating results from pilot studies and extrapolating to scale.

Mathematical and Statistical Foundations

- The Mathematical and Statistical Foundations competency provides a rigorous foundation in the mathematical and statistical principles that underlie the analysis of data. Students will use essential concepts to support data-informed decision-making, including calculus, linear algebra, probability theory, inference, modeling, and optimization. These principles are critical for analyzing “big” or “small” datasets of varying complexities.

Optimization

- The Optimization competency involves analyzing complex systems with multiple variables to identify optimal solutions. Students will use various optimization techniques to model relationships between variables and apply analytical methods to enhance processes and outcomes.

Machine Learning and Artificial Intelligence (AI)

- The Machine Learning and Artificial Intelligence (AI) competency involves the creation of algorithms and systems that enable machines to learn from data and aid in decision-making or predictions. Students will develop, implement, and assess AI/ML models across various applications, using both foundational theory and practical skills in these rapidly evolving fields.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
DATA 110	 Introduction to Data Science ^{†, H}	3
DATA 120	 Ethics of AI and Societal Decision Making ^H	3

Advanced Artificial Intelligence and Machine Learning Concentration

Code	Title	Hours
DATA 520	 Research-Methods for Socially Responsible AI: An Ethical Expedition	3
Selection one of the following:		3
DATA 521	Foundations in Artificial Intelligence	
COMP 560	Artificial Intelligence	
Selection two of the following courses:		6

DATA 522	Practical Deep Learning Systems	
DATA 523	Modeling and Data Mining For Artificial Intelligence	
BIOS 635	Introduction to Machine Learning	
COMP 562	Introduction to Machine Learning ^H	
MATH 560	Optimization with Applications in Machine Learning	
STOR 565	Machine Learning	
STOR 566	Introduction to Deep Learning	
Total Hours		12

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Health Informatics Concentration

Code	Title	Hours
CHIP 708	Foundations of Clinical Data Science	3
CHIP 710	Systems Analysis in Healthcare ¹	3
CHIP 725	Electronic Health Records ¹	3
Select one of the following elective courses:		3
CHIP 690	Intermediate Selected Topics (Section 295) ²	
CHIP 721	Healthcare Systems in the US ¹	
CHIP 732	Database Systems in Healthcare ¹	
CHIP 793	Health Informatics Internship (for 3 credits) ¹	
DATA 510	Data Science Methodologies in Biological and Health Sciences	
STOR 475	Healthcare Risk Analytics	
Total Hours		12

¹ 700-level graduate courses require permission of the instructor for undergraduate students to enroll.

² With approval based on the topic.

Computational Sociology and Data Science

Code	Title	Hours
SOCI 251	 Research Methods (take first)	3
SOCI 318	Computational Sociology	3
Take two of the following, with one being at the 400-level:		6
SOCI 121	 Population Problems	
SOCI 172	 Introduction to Population Health in the United States	
SOCI 180	 Introduction to Global Population Health	
SOCI 277	Societies and Genomics ^H	
SOCI 412	Social Stratification	
SOCI 421	Environmental Sociology	
SOCI 468	United States Poverty and Public Policy	
SOCI 469	Health and Society	
Total Hours		12

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Special Opportunities

The B.S. in Data Science offers robust student support through a cohort-based community that includes academic advising and faculty mentoring. The program also provides career services that include resume preparation, interview practice, and internship support.

Students pursuing the B.S. in Data Science have the option to pursue a 4-course concentration in a variety of disciplines. Current concentrations include:

Economic Analysis

- The Data Science concentration in Economic Analysis is intended to prepare students for careers in quantitatively focused occupations at the intersection of economics and data science. The courses for the concentration were selected to offer a rigorous foundation for econometric and data science methodologies commonly used in economic analysis, as well as to develop an understanding of the application of these methods in at least one field within economics (e.g., industrial organization, health, labor, etc.).

Data Science in Politics

- The concentration in Data Science in Politics is intended to provide students with opportunities to apply data science tools to the study of politics, across the various subfields of the discipline. The concentration assumes students have a foundation in basic probability and statistical programming in R prior to starting the concentration, allowing content to focus on applied regression models and experimental methods in political science. Students have the option to pursue a mentored quantitative research project led by a political science faculty member or complete an internship in a political data analytics position with departmental approval.

Urban Data Analytics

- The Urban Data Analytics concentration equips students with the skills necessary to apply data science tools for the public good, specifically to improve the quality of life of people in human settlements. Students will explore the design of the American city, understand the systems to collect and maintain urban data, analyze urban data, and apply urban data analysis to planning practice.

Sports Analytics

- The Sports Analytics concentration equips students to synthesize collected data into meaningful and actionable information that can impact decisions made in the sports industry. Students will learn how to use data and statistics to make predictions about player/team performance. This concentration combines foundational and methodological tools in statistics and analytics with domain expertise in exercise and sports science.

Quantitative Language Science

- This concentration will allow students to explore how data science methods, including statistical, mathematical, and computational methods are applied to study theoretical language science/linguistics and natural language processing. This concentration will familiarize students with linguistics concepts in the context of data science methodology and prepare them for jobs or further study in computational linguistics and artificial intelligence.

Operations Research

- This concentration is for students who are particularly interested in operations research, using mathematical modeling and

computational techniques to analyze complex systems and make decisions. It is an ideal path for students who are interested in careers in operations research as well as those who are interested in graduate studies in disciplines such as operations research, industrial and systems engineering, operations management, and decision sciences.

Mathematical Foundations

- The Mathematical Foundations concentration is aimed at giving students a deeper mathematical and statistical understanding of general data science techniques and special data features in applications. The selected courses for the concentration highlight quantitative areas relevant to cutting-edge statistical and mathematical methods in the field. In particular, the concentration will allow students to explore the theory behind techniques essential to data science and mathematical modeling.

Decision Analytics

- The Decision Analytics concentration is for students who are interested in focusing their studies on making data-driven decisions in complex systems. While statistical techniques are very helpful for making decisions in data-rich settings, stylized formulations can be more helpful for generating insights and making decisions in the absence of sufficient data. This concentration brings together both statistics and operations research-based courses together to offer students a path for getting a more holistic training in analytical decision making.

Statistical Learning and Data Analytics

- The concentration in Statistical Learning and Data Analysis combines advanced mathematical and statistical training with enhanced computational and data analytic training for students planning careers in information-intensive industries or research. Students will extend their ability to model and analyze data, using mathematical and computational methods to make predictions and decisions in the face of uncertainty. The concentration is focused on fundamental training in mathematics and applied statistics, including specialized courses with an emphasis on statistical computing, and machine learning.

Advanced Artificial Intelligence and Machine Learning

- The concentration intentionally builds upon core requirements for the B.S. in Data Science, allowing students to delve deeper into the rapidly advancing technologies and methodologies of artificial intelligence (AI) and machine learning (ML). The concentration has three foci designed to meet workforce demands: foundations in AI, advanced exploration of the ethics of AI, and advanced applications of AI and ML.

Health Informatics

- The Health Informatics concentration focuses on the conceptual framework of healthcare information systems, exploring data types and structures as well as the systems within which health informatics solutions are typically situated. Students will gain fundamental knowledge in data science techniques, legal and regulatory compliance, and healthcare statistics and findings that inform policy, clinical operations, risk management, and financial management.

Computational Sociology

- The concentration in Data Science in Computational Sociology is intended to provide students with opportunities to apply data scientific tools to sociology research and to synergize data science approaches with toolkits conventionally found in the social sciences. It assumes students have had a chance to build a foundation on basic probability and statistical programming in R prior to starting the concentration.

UNC Adams School of Dentistry

Introduction

The UNC Adams School of Dentistry is proud to be one of few schools in the United States to offer curricula in dental hygiene, doctor of dental surgery (D.D.S.), post-D.D.S. advanced dental education, and Ph.D. programs all under one roof. The various programs span many disciplines and offer multiple career paths. Whatever program you select, you can feel confident you are receiving a top-tier education from some of the nation's leading dental educators.

The school is committed to excellence in dental education at all levels. Whether applicants want to apply to the school's dental hygiene program, pursue their D.D.S. degree, or enroll in the six-year oral and maxillofacial surgery residency program, the school actively invests in providing the best education possible to its students. The academic environment fosters the pursuit of knowledge in the basic, behavioral, and clinical sciences. Independent thinking and lifelong learning are encouraged through degree-granting and continuing education programs. A high standard of professional and personal ethics, as well as technical excellence, are integral to the learning experience.

The school thoroughly prepares each of its graduates for their career and sets them on a path to success. Whether students plan to enter the general practice of dentistry, the dental specialties, allied dental health fields, research, or teaching, the UNC Adams School of Dentistry prides

itself in producing some of the country's best clinicians, researchers, and academicians.

Programs

Doctor of Dental Surgery (D.D.S.) Program

The UNC Adams School of Dentistry offers a four-year Doctor of Dental Surgery (D.D.S.) program to produce practitioners who are qualified to enter general dental practice, dental research, teaching, public service or postdoctoral programs, including graduate programs in various dental specialties. The school is interested in recruiting students who are willing to accept professional responsibilities in their communities; to participate in professional activities; and to pursue a lifetime of learning to enhance their delivery of effective patient care and service to the profession and the public. There is not sufficient space in the dental school to admit all students who meet the quantitative and qualitative standards. For this reason, the quality of the student's undergraduate work is of great importance in selection for admissions, as well as motivation to pursue a career in dentistry.

Dental Hygiene Programs

The dental hygiene programs are designed to educate and prepare dental hygienists for careers in a diverse and changing health care environment. Being a part of the UNC Adams School of Dentistry enables students to have a variety of experiences in clinical patient care, community dental health, and dental specialties, including geriatric dentistry, pediatric dentistry, periodontics, and research. The emphasis is on creating well-rounded dental hygiene health care professionals who will treat a variety of patients and provide leadership in the profession.

The school offers both undergraduate and graduate level education for dental hygiene students. The undergraduate program prepares students to become registered dental hygienists, while the graduate program focuses on allowing already-registered dental hygienists to begin careers in academia.

Graduate and Advanced Dental Education

The UNC Adams School of Dentistry is proud to offer many advanced dental education and graduate programs for prospective students to consider, in addition to observer externship opportunities. These programs are designed to further the knowledge of students and to provide specialty training in various fields of dentistry.

More information about the dental hygiene (<https://dentistry.unc.edu/dental-hygiene/>) and graduate and advanced dental education programs (<https://www.dentistry.unc.edu/academicprograms/ade/>) can be found in this catalog and on the school's website (<http://www.dentistry.unc.edu>).

Facilities

The UNC Adams School of Dentistry is one of the largest dental school facilities in the nation. The school has grown to include several buildings, located within a dynamic health sciences campus. Among the school's buildings are Tarrson Hall, a state-of-the-art clinical teaching facility, and Brauer Hall, which includes patient simulation laboratories and other facilities. The majority of the school's research takes place in Koury Oral Health Sciences, completed in April 2012. This 216,000-square-foot facility houses a variety of classroom and lecture spaces, as well as cutting-edge research laboratories, all of which encourage collaborative research and learning experiences. The school is equipped with state-of-the-art classrooms, case study rooms, simulation laboratories, clinical

facilities, and Kirkland Auditorium. The school also features an atrium with a media wall, social seating, and dining areas with a food court.

Professional Program

- M.S. in Prosthodontics (<https://catalog.unc.edu/graduate/schools-departments/dentistry/#programtext>)

Information Relevant to the UNC Adams School of Dentistry Experience

Immunization Requirements

The State of North Carolina immunization requirements and the UNC Adams School of Dentistry immunization requirements for dental hygiene and doctor of dental surgery students are listed below. Documentation of all is required with application.

State Requirements

- (Total of three) Two *initial* DTP (diphtheria, tetanus, pertussis), Td (tetanus, diphtheria), or Tdap (tetanus, diphtheria, pertussis) doses. (This fulfills the primary series requirement.)
 - One Tdap booster after completion of the primary series that did not include a Tdap, and then a Td vaccine every ten years thereafter.
- Three polio (unless greater than 18 years of age).
- Two measles (rubeola), two mumps, one rubella (two MMR doses meet this requirement) or positive titers.
- Hepatitis B series, minimum of either 2 or 3 dose series. **See school requirements below.**

UNC Adams School of Dentistry Requirements

- Varicella vaccination series (two doses) or a positive titer.
- Hepatitis B antibody (HBsAb) quantitative titer. (Please make sure your physician does not order a qualitative titer.) **It is common to lose Hepatitis B immunity and recorded that this titer be completed early.*
- Tuberculosis blood test (IGRA-strongly preferred) or 2-step TB skin test (*test is performed TWICE*) or a TB blood test (IGRA). DDS and DH students report to Campus Health. Advanced Dental Education students report to Employee Health and follow the testing procedures required.
- Influenza vaccine after 7/1 of current year and before 10/31 of current year. (See "*Additional Requirements.*")

The matriculating student is required to submit an official certificate of immunizations. Immunization documentation is to be submitted to both UNC Campus Health Services (CHS) and to the UNC Adams School of Dentistry through Connect Carolina by a published and specified date. CHS will notify students who are not in compliance with the state immunization requirements noted above. Individuals who have not met the state immunization requirements after 30 calendar days from the first date of attendance will be administratively withdrawn from the University by the University Registrar. See the UNC Campus Health website (<http://campushealth.unc.edu/services/immunizations/health-science-students-immunizations/>).

Students with deficiencies in the additional immunization requirements of the school will be notified of the deficiencies by the UNC school's director of clinical compliance. The school will work with students to meet these additional requirements. The failure to comply with the school's requirements after consultation with the director of clinical compliance and the agreed-upon resolution schedule will result in administrative withdrawal from the school.

Additional Requirements

Annually:

- Influenza vaccine not earlier than July 1 but no later than October 31. Exemptions are processed through the ASOD Compliance Portal.
- Verification of health insurance. UNC–Chapel Hill requires all eligible students to have health insurance. (See the UNC Campus Health Student Health Insurance website (<http://campushealth.unc.edu/charges-insurance/mandatory-student-health-insurance/>.) Students are required to waive with existing creditable insurance each semester or they will automatically be enrolled in the UNC System Student Health Insurance Plan, which is administered by Student Blue/BCBS of NC. To waive or enroll/renew, visit the Student Blue website (<http://www.bcbsnc.com/unc/>).

Biennially:

- Basic Life Support certification that includes an in-person skill assessment. Documentation of current certification is required of the matriculating student and is to be submitted through either the ASOD onboarding form or the ASOD Compliance Portal. *Review the ASOD: Basic Life Support (BLS) Certification Policy* (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131267>) *for guidelines and requirements.*)

Infection Control: One of the consequences of the delivery of health care is the possibility of contracting an infectious disease such as tuberculosis, hepatitis, HIV, or herpes. To minimize this risk, the school has adopted an Infection Control Manual, which is outlined in ASOD:

Infection Control Manual—Chapter 07: Personal Protective Equipment (PPE).

Infectious Disease Status

Students engaged in patient care activities are required to know their tuberculosis and hepatitis B (HBV) status, and are encouraged to learn their hepatitis C (HCV) and HIV status. State regulations require health care workers, including students, who perform surgical or dental procedures or who assist in such procedures in a way that may result in an exposure of patients to their blood, and who know themselves to be infected with HIV or HBV, to report their status to the state health director. See UNC's policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131793>).

Late Registration

University regulations require students who do not register before the first day of classes in any semester or summer session to pay an additional fee of \$20 for delayed registration. Any student who believes that she/he can show sufficient justification for the delay may petition for a refund by completing a form, which can be found online (<https://registrar.unc.edu/registration-guidelines/>), (under the late fee refund petition tab), outlining the reason for delay. This form must bear the approval of the dean of the UNC Adams School of Dentistry.

Awarding of Degrees and Certificates

To be awarded a degree or certificate, students must satisfactorily complete all requirements of their respective program.

Class and Clinic Attendance

Regular class and clinic attendance is a student obligation. No right or privilege exists that permits a student to be absent from any given number of sessions.

Patient Care Responsibilities

Students are granted the privilege of participating in the patient care system of the UNC Adams School of Dentistry and are expected to provide care consistent with our person-centered philosophy. Patients are a central part of the health care team and are involved in the planning of their care. It is the responsibility of the dental student to provide patients with the information needed so they make informed decisions about their treatment. The dental student has the responsibility to provide high-quality, evidence-based care to all their assigned patients in a timely manner and to uphold the ethical responsibilities as outlined in the school's Code of Professional Conduct and its Technical Standards.

Current academic policies and procedures governing the respective programs can be found online (<https://policies.unc.edu/TDClient/2833/Portal/Shared/Search/?c=all&s=school+of+dentistry>). However, policies are subject to change at any time.

Dean

Dr. Janet Guthmiller
janet_guthmiller@unc.edu

Doctor of Dental Surgery, D.D.S.

The UNC Adams School of Dentistry offers a four-year doctor of dental surgery (D.D.S.) program to produce healthcare practitioners who are qualified to enter general dental practice, dental research, teaching, public service, or postdoctoral programs including graduate programs in various dental specialties. The school is interested in recruiting students who are willing to accept professional responsibilities in their communities; to participate in professional activities; and to pursue a lifetime of learning to enhance their delivery of effective patient care and service to the profession and the public. There is not sufficient space in the dental school to admit all students who meet its quantitative and qualitative standards. For this reason, the quality of the student's undergraduate work is of great importance in selection for admission, as well as motivation to pursue a career in dentistry.

Admissions

The D.D.S. admissions process at the University of North Carolina Adams School of Dentistry is dedicated to selecting and enrolling students to study dentistry and to provide qualified dental practitioners to the State of North Carolina and beyond.

Admission Requirements

Students preparing for the study of dentistry are encouraged to complete a residential four-year curriculum leading to the B.A. or B.S. degree. Students not pursuing a degree must complete a predoctoral program of at least three years of accredited college courses (96 semester hours or 144 quarter hours). The UNC Adams School of Dentistry will accept a maximum of 64 semester hours of credit from an accredited community, technical, or online college or university. Any community, technical, or online college or university courses submitted for credit must be acceptable to the UNC Office of Undergraduate Admissions. However, students who have 64 hours of credit from a community, technical, or online college or university must complete all additional course work at an accredited residential four-year college or university. See the course descriptions in the prerequisites table below by clicking on the course abbreviations (e.g., BIOL 101). The prerequisite courses (required predental courses) must be completed prior to admission (preferably on-site at a residential four-year college or university). Undergraduate students attending a school other than UNC–Chapel Hill should use this catalog as a guide for completing the prerequisite courses. Required courses not completed at an accredited four-year institution must be transferable to UNC–Chapel Hill as equivalent courses.

Prerequisites

Code	Title	Hours
Biology		
The basic requirement is eight semester hours (two courses, laboratories required, one laboratory must include dissection, one of which must be human anatomy or vertebrate zoology with a laboratory).		8
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	
BIOL 252	 Fundamentals of Human Anatomy and Physiology ^{1, H}	
BIOL 474 & 474L	Evolution of Vertebrate Life and Vertebrate Structure and Evolution Laboratory ^{1, H}	
Chemistry		

The basic requirements are eight semester hours of general chemistry (two courses, laboratory required), six semester hours of organic chemistry (two courses, laboratory not required) and three semester hours of biochemistry (laboratory not required).

CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}
CHEM 102 & 102L	 General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}
CHEM 261	Introduction to Organic Chemistry I ^H
CHEM 262	Introduction to Organic Chemistry II ^H
CHEM 430	Introduction to Biological Chemistry ^H

Physics

The requirement is two college-level courses of non-calculus-based physics that will cover basic principles of physics relevant to living things. 8

PHYS 114	 General Physics I: For Students of the Life Sciences ^{2, F}
PHYS 115	 General Physics II: For Students of the Life Sciences ^{2, F}

English

The basic requirement is six semester hours (or courses required for a degree from an accredited college or university) of coursework emphasizing compositional writing. 6

Total Hours 39

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- ^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Take either BIOL 252 or both BIOL 474 and BIOL 474L.

² Although the two basic physics courses at UNC are calculus-based, non-calculus based courses are also acceptable as prerequisites.

Additional Recommendations for Applicants

Prospective dental students should consider the following recommendations when preparing for the dental school admissions process.

While a high level of scholarship and manual dexterity are important criteria for predicting satisfactory achievement in dental school, the personal qualifications of applicants are also critically important. Good moral character is an important prerequisite for entering the dental profession. No school, including ours, wants to train prospective dentists who lack either the highest ethical standards or a sense of social responsibility.

Development of both a strong preclinical science knowledge and a broad exploration of the liberal arts are valued in our applicants. Courses in art, biostatistics, business, communication/public speaking, compositional writing, computer science, English, ethics, foreign languages, immunology, literature, microbiology, molecular biology, music,

17 philosophy, political science, psychology, sociology, and/or statistics should be considered.

Experiences in functioning as part of a team are critical in the health professions. Prospective students should demonstrate the ability to function as both a leader and a productive team member.

We want our students to be able to work with diverse populations. Experiences working in diverse communities or with diverse groups of people is suggested.

Exploration of dentistry through shadowing is important in informing perspective and confirming interest in the profession. While no minimum number of shadowing hours is required, we strongly recommend that applicants thoroughly explore the dental field with a strong emphasis on the practice of general dentistry. Multiple, long-term experiences are valued more highly than short-term interactions. Local and global experiences are equally valued; the significance of an experience is more important than the location.

Dental Admission Test

All students must complete the Dental Admission Test (DAT), conducted by the American Dental Association, before being considered for admission to the UNC Adams School of Dentistry. This test is administered by Prometric Inc. (<http://www.prometric.com>) across the country and should be taken in the spring or fall of the year prior to the desired admission date. Applying at the end of the spring semester is encouraged to facilitate early consideration for an interview by the admissions committee. DAT test scores must be valid and may not be more than three years old. During the admissions cycle (June through October), applicants may submit unofficial DAT scores by email or fax or in-person because of the delay associated with reporting official scores to the Office of Admissions and Student Life.

The DAT is designed to measure general academic ability, comprehension of scientific information, and perceptual ability. While all dental schools require examinees to participate in the Dental Admission Testing Program, test results are only one factor considered in evaluating admission potential.

In documented cases of severe financial hardship, the ADA has a limited number of partial fee waivers available to DAT examinees on a first-come, first-serve basis. For more information, please visit the Dental Admission Test (<https://www.ada.org/en/education-careers/dental-admission-test/dat-fee-waiver-information/>) website.

The Dental Admission Testing Program does not endorse any test preparation courses and has no data on the content or efficacy of test preparation courses designed to prepare examinees to take the DAT. The Department of Testing Services urges individuals considering participation in test preparation courses to review the course materials carefully to ensure that they reflect the current content of the DAT. For more information or to contact the ADA Department of Testing Services, which administers the test, visit the American Dental Association's Dental Admission Test (<https://www.ada.org/education/testing/exams/dental-admission-test-dat/>) website.

Selection Factors

The UNC Adams School of Dentistry is committed to maintaining its diverse student body. To that end, individuals from a wide range of backgrounds who have had different experiences and have the potential to contribute to dentistry or dental practice are considered by the admissions committee. The school also strives to admit individuals who

will benefit from and contribute to the educational environment and the dental profession and be prepared at graduation to enter a wide range of careers. The school expects applicants to demonstrate the following skills, experiences, or potentials:

- An applicant must possess satisfactory academic abilities as evidenced by having successfully completed the prerequisite (required predental) courses and the Dental Admission Test at an acceptable level of performance.
- An applicant should possess psychomotor ability sufficient to perform the necessary technical skills required in dentistry. These skills are evidenced by an acceptable performance on the perceptual ability exam of the Dental Admission Test and by participation in hobbies and other experiences that require psychomotor activity outside of the normal college curriculum.
- An applicant must demonstrate a service commitment and a desire to help others. This is evidenced by participation in extracurricular and volunteer activities that require interaction with others. A caring attitude is considered central to the practice of dentistry, and the school expects an applicant to demonstrate this mindset. A predental curriculum designed to expand social awareness and extracurricular experiences demonstrating social sensitivity will be important factors in an application for admission.
- An applicant should possess the potential to be a self-directed, lifelong learner. By definition, the dental profession requires a practitioner to learn continually in order to provide the highest level of patient care. Extracurricular experiences that indicate a high level of independent, intellectual curiosity are favored.
- An applicant must demonstrate knowledge of the dental profession. Such knowledge can be obtained from talking with and observing dentists and reading appropriate dental literature. The dental school expects applicants to have a firm grasp of what the dental profession is and what important issues are facing the profession.

Application Process and Admissions

All inquiries regarding admissions to our D.D.S. program should be directed to the Office of Admissions and Student Life by calling (919) 537-3348 or by emailing DDSAdmissions@unc.edu. Our admissions processes do not discriminate against candidates on the basis of age, color, disability, gender, gender expression, gender identity, genetic information, national origin, race, religion, sex, sexual orientation, or veteran status.

The school participates in the Associated American Dental Schools Application Service (AADSAS), which is sponsored by the American Dental Education Association (ADEA). Applicants are required to file an AADSAS application (<https://aadsas.liaisoncas.com/applicant-ux/#/> login) as well as the School of Dentistry supplemental application.

Supplemental application materials include the D.D.S. Supplemental application itself, a nonrefundable application fee, DAT scores, a 2" x 2" passport photo, and the North Carolina Residency Determination Service application (<https://ncresidency.cfnc.org/residencyInfo/>) (for in-state applicants). The AADSAS application deadline is November 1 and the UNC D.D.S. Supplemental application deadline is November 15 for admission to the following year's class. Applicants are strongly encouraged to file their applications as soon as possible, ideally several months prior to the deadlines. An email will be sent once AADSAS has released your application to us.

Following application review, selected applicants are invited to the school for a series of personal interviews with our Admissions Committee. An evaluation from the interview combined with the applicant's academic record, engagement in various activities, and performance on the DAT are the basis for the applicant's consideration for acceptance. Acceptance offers are extended in compliance with the ADEA Acceptance Notification Date Guidelines (<https://www.adea.org/>) and continue on a rolling basis until the class is full. Acceptance to the D.D.S. program is provisional based on satisfactory completion of further requirements, including, but not limited to, background checks.

Deposit

An applicant accepted for admission must deposit \$500 with the University Cashier within the designated timeline established by the Office of Admissions and Student Life. Upon registration for dental school classes, this deposit will be credited and applied to the applicant's tuition/fees. This deposit is non-refundable. If the applicant rescinds the acceptance offer and does not register for classes, the deposit will be forfeited.

Advising

A representative from the Office of Admissions and Student Life is pleased to consult with prospective students to provide guidance in the admissions process, as schedules permit. However, these meetings must occur outside of the active application cycle for which the prospective student is applying. Please contact the Office of Admissions and Student Life at DDSAdmissions@unc.edu to inquire about scheduling a meeting.

Internationally Trained Dentists: Advanced Standing Program (ASPID)

As of February 2018, the UNC Adams School of Dentistry offers the Advanced Standing Program for International Dentists (ASPID) as an entry for graduates of foreign dental schools, except Canadian graduates, who seek to receive additional training and practice dentistry in the United States. Applicants must apply through ADEA/CAPPID (<https://www.adea.org/>).

Each cohort of ASPID students begins in January, with a six-month intensive track leading to integration of the students into the third-year predoctoral D.D.S. class during the fall semester of that same year. During the first six months, ASPID students are enrolled in didactic and preclinical courses that will prepare them to be fully integrated into the third year of predoctoral dental education.

The students will participate in specially designed preclinical laboratory and didactic courses to review key topics relative to the practice of oral health care. To apply, applicants are required to successfully pass both National Dental Boards Part I and II (both now discontinued) or the current Integrated National Board Dental Exam (INBDE), the standard written tests for practice in the United States. Transcripts from international schools must be evaluated by Educational Credential Evaluators (ECE).

Requirements

The predoctoral curriculum is current as of the 2025–2026 academic year but it remains subject to change.

The primary intent of the dental school curriculum is to produce dental practitioners who: (1) are qualified to enter general dental practice, postdoctoral programs including graduate programs in various dental specialties or dental research, teaching or public service; and (2) can accept professional responsibilities in their communities, participate in professional activities and pursue a lifetime of learning that enhances their delivery of effective services to patients and the profession.

The curriculum is under continuous review and is subject to change at any time upon approval of the faculty and the dean. The faculty reserves the right to make changes in curriculum and in regulations when, in its judgment, such changes are in the best interest of the students, patients and the school. Ordinarily, students may expect to receive a degree by meeting the requirements of the curriculum as specified in the academic policies when they enter the school or in any subsequent catalog or policy published while they are students. The Adams School of Dentistry is not obligated to offer a course listed in the catalog in any particular year.

First Year Courses

The first year of the D.D.S. curriculum includes content in the core biomedical sciences (gross anatomy, histology, biochemistry, physiology, microbiology and pathology), clinical/behavioral, and health systems sciences. Learners gain an appreciation of various components of the patient care process with an emphasis on assessment (history, examination, diagnostic tests) and plan of care (diagnosis, treatment planning, and informed consent). Learners develop knowledge and skills in restorative science, cariology, radiology, and evidence-based dentistry. Also included are seminars on interviewing skills, ethics, rotation through patient care services and the delivery of preventive care. These courses introduce learners to the relationship between basic science and clinical practice as well as the relationship between the healthcare provider and the patient. Basic social science concepts are integrated throughout the curriculum and proximal preclinical activities prepare learners to assume patient care privileges at the end of their first year.

Code	Title	Hours

Second Year Courses

During the second year, learners continue taking biological science courses focused on organ systems and engage in a series of discipline specific dental science courses (preclinical endodontics, periodontics, removable and fixed prosthodontics, oral maxillofacial surgery, pathology, and advanced radiology). Learners are introduced to the lifespan with pediatrics, orthodontics, and special care courses. The healthcare systems emphasize delivery models, interprofessional education for collaborative care, with leadership continuing throughout the curriculum. Learners continue assuming various patient care privileges during the second year, delivering comprehensive care services, and are providing the therapeutic and preventive treatment needed by their patients.

Third Year Courses

In the third year, students provide comprehensive care for their patients in closely mentored clinical settings modeled on a contemporary, team-based dental office format. Engagement in specialty-based clinical rotations supports development of a broad, well-rounded dental skill set. A series of seminars are offered with an emphasis on inquiry case-based learning, integrated biomedical sciences, advanced clinical topics, treatment planning, practice management, leadership strategies, and contemporary topics. Opportunities for students to personalize their education (through electives, service activities, research engagement, certificate programs, dual-degree programs and more) are available.

During this time, student's prepare for the integrated national board dental examination (INBDE) typically taken in the summer between the third and fourth year. The third year culminates with a four-week long extramural rotation at clinical settings located throughout the state, enabling immersive, hands-on clinical learning experiences in a variety of settings.

Fourth Year Courses

Fourth-year students assume greater responsibility for patients requiring more advanced dental care in our contemporary, vertically integrated, team-based dental clinics. A series of seminars are offered with an emphasis on inquiry case-based learning, advanced clinical topics, treatment planning, practice management, leadership strategies, and contemporary topics. A capstone specialty seminar focuses on preparing learners for transitioning to practice or residency. Learners continue to personalize their education through engagement in various Individualization activities (electives, service activities, research engagement, certificate programs, dual-degree programs and more).

Opportunities

Spurgeon Student Government

The Spurgeon Student Government exists as the governing body for all students of the UNC Adams School of Dentistry. Named after the late Dr. J.S. Spurgeon, a prominent and outstanding dentist from Hillsborough, N.C., the organization holds regular meetings in which elected representatives from each class of dental, advanced education, and dental hygiene students discuss and plan the functions of student government. Several projects are carried out each year including both social and academic. The school hosts many student-led organizations and programs allowing students opportunities to become involved in the community, in research and in school programs. For a listing of these organizations and specific details about these organizations, please visit our website (<https://dentistry.unc.edu/>).

Student Membership in the Dental Community

In addition to serving in various class and student organization officer positions, students are active members of the dental school community. They have membership on most standing dental school committees. There are other ways for students to be involved, as the school supports many student organizations. These organizations allow students to be involved with dentistry at the local and national levels. Please visit the website (<https://dentistry.unc.edu/>) for a full list of our student organizations.

International Opportunities

As 21st century oral health practitioners, dental students, whether pursuing a career in clinical practice or academia, must be fully cognizant of how oral health functions in a global community. The school provides many opportunities for students to engage with peoples and cultures in other countries, including yearly service and academic projects in Brazil, China, India, Malawi, Moldova, Mexico, Nepal, Nicaragua, Philippines, and Uganda. In addition, the school maintains exchange agreements with Ajman University at UAE, Moldova's Nicolae Testemitanu State University of Medicine and Pharmacy, National University of Singapore, Qingdao Dental Hospital and Peking University in China, University of São Paulo and Federal University of Minas Gerais in Brazil, Yenepoya University and JSS University in India, Makerere University in Uganda, and King's College London in England. Students who take part in global service and outreach learn how dentistry and health care services are administered in other nations as well as the health care needs of their populations and possible sustainable projects for the hosting communities. This global and cultural experience enlightens their worldview and broadens their understanding of health care systems locally and globally.

Research Experience

The University of North Carolina at Chapel Hill is the nation's first public university and ranks among the world's leading research universities, whereby UNC and the Adams School of Dentistry are nationally recognized. UNC's Adams School of Dentistry has a diverse portfolio of research activities in the basic, applied, and clinical sciences, as well as in the areas of health services, health policy and health education. Discoveries in these areas not only offer the potential to improve oral health but also overall health. The general atmosphere of the Adams School of Dentistry specifically and UNC in general provide a very stimulating place to conduct research in a collaborative institutional environment.

The student research experience is intended to support D.D.S. students who are committed to obtaining a concentrated research experience while attending dental school. The overall goal of this experience is to allow students a connection with clinical, translational, or laboratory research. Activities under the supervision of a faculty mentor may include developing research protocols, participating in actual laboratory or clinical research studies, conducting critical reviews of the literature, writing manuscripts, and interacting with speakers and other attendees at research seminars. The Office of Discovery and Innovation in collaboration with the Office of Academic Affairs assists students in identifying potential mentors for this experience.

The student research program also supports and encourages participation in student research leadership positions at the local and national levels. In addition to the Office of Discovery and Innovation and the Office of Academic Affairs, there are several student-run programs within the school that foster these types of activities including but not limited to ADEA and AADR Student Research Group (SRG).

Graduation with Honors

Students in the Adams School of Dentistry D.D.S. program may qualify for graduation with honors along three tracks associated with the School's ACT curriculum — Advocate, Clinician, or Thinker. For each track, students must meet specific criteria developed and approved by the faculty. Applications for honors must be accompanied by the student's curriculum vitae, documentation of their accomplishments, and endorsement by a faculty member. Honors are limited to 15 percent or fewer of the graduates and are noted as a remark in the transcript.

Information Relevant to the UNC Adams School of Dentistry Experience

Immunization Requirements

The State of North Carolina immunization requirements and the UNC Adams School of Dentistry immunization requirements for dental hygiene and doctor of dental surgery students are listed below. Documentation of all is required with application.

State Requirements

- (Total of three) Two *initial* DTP (diphtheria, tetanus, pertussis), Td (tetanus, diphtheria), or Tdap (tetanus, diphtheria, pertussis) doses. (This fulfills the primary series requirement.)
 - One Tdap booster after completion of the primary series that did not include a Tdap, and then a Td vaccine every ten years thereafter.
- Three polio (unless greater than 18 years of age).
- Two measles (rubeola), two mumps, one rubella (two MMR doses meet this requirement) or positive titers.
- Hepatitis B series, minimum of either 2 or 3 dose series. ***See school requirements below.***

UNC Adams School of Dentistry Requirements

- Varicella vaccination series (two doses) or a positive titer.
- Hepatitis B antibody (HBsAb) quantitative titer. (Please make sure your physician does not order a qualitative titer.) **It is common to lose Hepatitis B immunity and recorded that this titer be completed early.*
- Tuberculosis blood test (IGRA-strongly preferred) or 2-step TB skin test (*test is performed TWICE*) or a TB blood test (IGRA). DDS and DH students report to Campus Health. Advanced Dental Education students report to Employee Health and follow the testing procedures required.
- Influenza vaccine after 7/1 of current year and before 10/31 of current year. (See "*Additional Requirements.*")

The matriculating student is required to submit an official certificate of immunizations. Immunization documentation is to be submitted to both UNC Campus Health Services (CHS) and to the UNC Adams School of Dentistry through Connect Carolina by a published and specified date. CHS will notify students who are not in compliance with the state immunization requirements noted above. Individuals who have not met the state immunization requirements after 30 calendar days from the first date of attendance will be administratively withdrawn from the University by the University Registrar. See the UNC Campus Health website (<http://campushealth.unc.edu/services/immunizations/health-science-students-immunizations/>).

Students with deficiencies in the additional immunization requirements of the school will be notified of the deficiencies by the UNC school's director of clinical compliance. The school will work with students to meet these additional requirements. The failure to comply with the school's requirements after consultation with the director of clinical compliance and the agreed-upon resolution schedule will result in administrative withdrawal from the school.

Additional Requirements

Annually:

- Influenza vaccine not earlier than July 1 but no later than October 31. Exemptions are processed through the ASOD Compliance Portal.

- Verification of health insurance. UNC–Chapel Hill requires all eligible students to have health insurance. (See the UNC Campus Health Student Health Insurance website (<http://campushealth.unc.edu/charges-insurance/mandatory-student-health-insurance/>.) Students are required to waive with existing creditable insurance each semester or they will automatically be enrolled in the UNC System Student Health Insurance Plan, which is administered by Student Blue/BCBS of NC. To waive or enroll/renew, visit the Student Blue website (<http://www.bcbsnc.com/unc/>).

Biennially:

- Basic Life Support certification that includes an in-person skill assessment. Documentation of current certification is required of the matriculating student and is to be submitted through either the ASOD onboarding form or the ASOD Compliance Portal. *Review the ASOD: Basic Life Support (BLS) Certification Policy* (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131267>) *for guidelines and requirements.*

Infection Control: One of the consequences of the delivery of health care is the possibility of contracting an infectious disease such as tuberculosis, hepatitis, HIV, or herpes. To minimize this risk, the school has adopted an Infection Control Manual, which is outlined in ASOD: Infection Control Manual—Chapter 07: Personal Protective Equipment (PPE).

Infectious Disease Status

Students engaged in patient care activities are required to know their tuberculosis and hepatitis B (HBV) status, and are encouraged to learn their hepatitis C (HCV) and HIV status. State regulations require health care workers, including students, who perform surgical or dental procedures or who assist in such procedures in a way that may result in an exposure of patients to their blood, and who know themselves to be infected with HIV or HBV, to report their status to the state health director. See UNC's policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131793>).

Late Registration

University regulations require students who do not register before the first day of classes in any semester or summer session to pay an additional fee of \$20 for delayed registration. Any student who believes that she/he can show sufficient justification for the delay may petition for a refund by completing a form, which can be found online (<https://registrar.unc.edu/registration-guidelines/>), (under the late fee refund petition tab), outlining the reason for delay. This form must bear the approval of the dean of the UNC Adams School of Dentistry.

Awarding of Degrees and Certificates

To be awarded a degree or certificate, students must satisfactorily complete all requirements of their respective program.

Class and Clinic Attendance

Regular class and clinic attendance is a student obligation. No right or privilege exists that permits a student to be absent from any given number of sessions.

Patient Care Responsibilities

Students are granted the privilege of participating in the patient care system of the UNC Adams School of Dentistry and are expected to provide care consistent with our person-centered philosophy. Patients are a central part of the health care team and are involved in the planning of

their care. It is the responsibility of the dental student to provide patients with the information needed so they make informed decisions about their treatment. The dental student has the responsibility to provide high-quality, evidence-based care to all their assigned patients in a timely manner and to uphold the ethical responsibilities as outlined in the school's Code of Professional Conduct and its Technical Standards.

Current academic policies and procedures can be found online (<https://policies.unc.edu/TDClient/2833/Portal/KB/?CategoryID=21536>). However, policies are subject to change at any time. These policies govern the UNC Adams School of Dentistry educational programs and advise students, faculty, and staff of procedures related to the respective programs.

Department Programs

Dean

Dr. Janet Guthmiller

janet_guthmiller@unc.edu

Dental Hygiene Major, B.S.

The dental hygienist is an educator and motivator as well as a health care provider. As a practicing member of the dental health team, the

hygienist is primarily concerned with the maintenance of oral health and the prevention of dental disease. Additionally, dental hygienists may assume professional leadership roles; participate in the development, implementation, and evaluation of community health programs; engage in research activities; or serve as consultants and assume managerial roles in certain types of dental care delivery systems.

Students are subject to the academic requirements in place when they are admitted to the dental hygiene program; consequently, the requirements described in this catalog particularly apply to students admitted to the school during the 2026–2027 academic year.

All course descriptions can be found in ConnectCarolina.

Admission to the Program

Applicants may be admitted for dental hygiene study after completion of the dental hygiene prerequisites, provided they meet the requirements of the University. To assure proper planning for admission, applicants should maintain close contact with the program during the application process.

Enrollment is limited, and applicants are accepted on a competitive basis. Admission to the University does not guarantee admission into the dental hygiene program. Selections are based on academic achievement with an emphasis on performance in science courses, character, knowledge of working with the dental team, and a sincere interest in dental hygiene as a professional career. For UNC–Chapel Hill students, application for admission to the program is usually made during the second year of General College study. Interested students should submit an online application, which can be accessed from ConnectCarolina.

For transfer applicants, all prerequisite dental hygiene coursework and General College courses taken at other institutions must be approved for transfer in advance by the Office of Undergraduate Admissions. Official transcripts from all schools attended (including high school) must be submitted.

Three letters of recommendation must be submitted with the application. Two of the letters should be from college course instructors (academic) and one letter should be a character reference (professional). In addition, applicants must shadow in a dental office for a minimum of 20 hours. This requirement may be fulfilled through prior dental assisting experience.

Prior to being admitted and enrolled, all applicants will be required to present evidence of satisfactory completion of prerequisite courses required by the major. Applicants with a previous degree should contact the Office of Undergraduate Admissions to determine fulfillment of General College requirements. For questions about specific admission requirements on the undergraduate and graduate programs in dental hygiene, please visit our website (<https://dentistry.unc.edu/dental-hygiene/>) or call our office at (919) 537-3474.

Student Learning Outcomes

Upon completion of the dental hygiene program, students should be able to:

- Possess the skills and knowledge needed to provide optimal dental hygiene patient care while valuing and adhering to the ethical beliefs as stated by the American Dental Hygienists' Association Code of Ethics

- Promote the values of optimal oral health as related to general health and overall wellness to all patients
- Embrace an interdisciplinary role within the health care system and assess, plan, implement, and evaluate oral health care programs and activities for diverse population groups while facilitating access to care and services
- Assess, plan, implement, and evaluate treatment in the promotion of oral and systemic health using an evidence-based approach
- Value the dental hygiene profession through career growth and development and commitment to lifelong learning

Requirements

All baccalaureate-seeking dental hygiene students must complete all First-Year Foundation requirements, all Reflection & Integration requirements, and must complete at least six Focus Capacity requirements as part of the IDEAs in Action General Education curriculum. Although not required, STOR 151 is recommended to fulfill the FC-QUANT requirement. Other specific requirements include the following courses:

Code	Title	Hours
ENGL 105 or ENGL 105I	 English Composition and Rhetoric  English Composition and Rhetoric (Interdisciplinary)	3
BIOC 107 or CHEM 101 & 101L	Introduction to Biochemistry ¹  General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I	4
BIOC 108 or CHEM 102 & 102L	Introduction to Biochemistry  General Descriptive Chemistry II and Quantitative Chemistry Laboratory II	4
Select one of the following options:		3-5
BIOL 252 & 252L	 Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^H	
EXSS 256	Human Anatomy and Physiology II ²	
Select one of the following COMM courses:		3
COMM 100	Communication and Social Process	
COMM 113	 Public Speaking ³	
COMM/MNGT 120	 Introduction to Interpersonal and Organizational Communication ^{H, F}	
MCRO 251	Introductory Medical Microbiology	4
PSYC 101	 General Psychology ^F	3
Select one of the following SOCI courses:		3
SOCI 100	 Sociological Perspective Through Documentary Film ^F	
SOCI 101	 Sociological Perspectives ^H	
SOCI 111	Human Societies ^H	

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ CHEM 101/CHEM 101L satisfies FC-NATSCI requirement.

² EXSS 155 is a prerequisite to EXSS 256.

³ COMM 113 satisfies the Communication Beyond Carolina requirement.

DHYG 423 Community-Based Dental Hygiene Service Learning

DHYG 692HDental Hygiene Honors II	
Hours	11-13
Total Hours	65-69

¹ DHYG 357, DHYG 357L, and DHYG 495 will be taken in the summer semester between the first year and second year.

In addition to the program requirements listed above, students must attain a final cumulative GPA of at least 2.0. For more information, please consult the degree requirements section of the catalog, (p. 739) and the Dental Hygiene Programs Academic Policy.

Additional Information for the Dental Hygiene Programs

Upon provisional acceptance into the dental hygiene program, all students must provide an acceptable criminal background check and provide documentation of required immunizations. See "Immunization Requirements" details in the Compliance (p. 71) section.

One of the consequences of the delivery of health care is the possibility of contracting infectious disease such as tuberculosis, hepatitis, herpes, or HIV. To minimize this risk, the UNC Adams School of Dentistry has adopted an Infection Control Policy that requires the wearing of a clinical overgarment, disposable gloves, a mask, shield, protective cap and protective safety eye covering when performing oral examinations and dental hygiene services.

Dental school charges are required, including instrument rental and other supplies needed for clinical care and the education of patients. Additional costs may occur for projects required in the curriculum.

Professor

Jennifer Brame.

Clinical Associate Professors

Jennifer Harmon, Yuri Oh, Lattice Sams.

Clinical Assistant Professors

Leena Balicat, Roxanne Dsouza-Norwood, Sarah Liebkemann, Tiffanie White, Natasha Wiltshire.

Clinic Adjuncts

Jessica Anderson, Raluca Colta, Min Gim, Ashley Hale, S.T. Phillips, Sofia Rooney.

Program Directors

Lattice Sams, Undergraduate Program Director
Jennifer Brame, Graduate Program Director

Special Opportunities in Dental Hygiene Departmental Involvement

Students are eligible to become members of the American Dental Hygienists' Association, American Dental Education Association, American Association of Dental Research, American Association of Public Health Dentistry, and other specialty organizations. Student membership fees may be required.

Experiential Education or High-Impact Experience

Students have the opportunity to participate in community-based clinical experiences as well as providing oral hygiene programs in the community. Service-learning opportunities are possible as an elective. Each semester, students will be involved with hands-on experiences providing dental hygiene services. Due to the location of community sites, undergraduate students will need access to transportation. Expenses for travel are the responsibility of the student.

Licensure

Baccalaureate degree graduates are eligible for dental hygiene licensure examinations at the state and national levels. Candidates must pass both the national and clinical board examinations in order to be granted a license to practice dental hygiene. Additional costs are associated with the examinations required for licensure. Some dental hygiene licensure examinations require background checks with fingerprint analysis.

Accreditation

The dental hygiene program's accreditation status is approval without reporting requirements as determined by the Commission on Dental Accreditation.

Undergraduate Awards

Dental hygiene students are eligible for awards through the Spurgeon Dental Society in the UNC Adams School of Dentistry and the Dental Foundation of North Carolina. In addition, student awards are also available through the American Dental Hygienists' Association, American Association of Public Health Dentistry, American Dental Education Association, and other specialty organizations.

Undergraduate Research

Research opportunities are available at the undergraduate level for dental hygiene students. Students are encouraged to become involved in research activities pertaining to dental hygiene and dentistry. Student research grants are available through the University, professional organizations, and private industry.

Graduate School and Career Opportunities

Upon satisfactory completion of the baccalaureate program, students are eligible for application to graduate programs in dental hygiene education, public health, and other areas. The UNC Adams School of Dentistry offers a master of science (M.S.) graduate degree program in dental hygiene education to which graduates of the dental hygiene program may apply. Graduates also are eligible to apply for admission to the school's predoctoral dental curriculum provided they successfully complete the required program prerequisites.

The growth of the dental health care field assures an excellent employment outlook for the coming years. Courses of study provide comprehensive educational experience to qualified individuals for the practice of dental hygiene in accordance with the current and changing demands for health services and in accordance with the laws and ethics pertaining to practice.

Information Relevant to the UNC Adams School of Dentistry Experience

Immunization Requirements

The State of North Carolina immunization requirements and the UNC Adams School of Dentistry immunization requirements for dental hygiene

and doctor of dental surgery students are listed below. Documentation of all is required with application.

State Requirements

- (Total of three) Two *initial* DTP (diphtheria, tetanus, pertussis), Td (tetanus, diphtheria), or Tdap (tetanus, diphtheria, pertussis) doses. (This fulfills the primary series requirement.)
 - One Tdap booster after completion of the primary series that did not include a Tdap, and then a Td vaccine every ten years thereafter.
- Three polio (unless greater than 18 years of age).
- Two measles (rubeola), two mumps, one rubella (two MMR doses meet this requirement) or positive titers.
- Hepatitis B series, minimum of either 2 or 3 dose series. **See school requirements below.**

UNC Adams School of Dentistry Requirements

- Varicella vaccination series (two doses) or a positive titer.
- Hepatitis B antibody (HBsAb) quantitative titer. (Please make sure your physician does not order a qualitative titer.) **It is common to lose Hepatitis B immunity and recorded that this titer be completed early.*
- Tuberculosis blood test (IGRA-strongly preferred) or 2-step TB skin test (*test is performed TWICE*) or a TB blood test (IGRA). DDS and DH students report to Campus Health. Advanced Dental Education students report to Employee Health and follow the testing procedures required.
- Influenza vaccine after 7/1 of current year and before 10/31 of current year. (See "Additional Requirements.")

The matriculating student is required to submit an official certificate of immunizations. Immunization documentation is to be submitted to both UNC Campus Health Services (CHS) and to the UNC Adams School of Dentistry through Connect Carolina by a published and specified date. CHS will notify students who are not in compliance with the state immunization requirements noted above. Individuals who have not met the state immunization requirements after 30 calendar days from the first date of attendance will be administratively withdrawn from the University by the University Registrar. See the UNC Campus Health website (<http://campushealth.unc.edu/services/immunizations/health-science-students-immunizations/>).

Students with deficiencies in the additional immunization requirements of the school will be notified of the deficiencies by the UNC school's director of clinical compliance. The school will work with students to meet these additional requirements. The failure to comply with the school's requirements after consultation with the director of clinical compliance and the agreed-upon resolution schedule will result in administrative withdrawal from the school.

Additional Requirements

Annually:

- Influenza vaccine not earlier than July 1 but no later than October 31. Exemptions are processed through the ASOD Compliance Portal.
- Verification of health insurance. UNC-Chapel Hill requires all eligible students to have health insurance. (See the UNC Campus Health Student Health Insurance website (<http://campushealth.unc.edu/charges-insurance/mandatory-student-health-insurance/>).) Students are required to waive with existing creditable insurance each semester or they will automatically be enrolled in the UNC System Student Health Insurance Plan, which is administered by Student

Blue/BCBS of NC. To waive or enroll/renew, visit the Student Blue website (<http://www.bcbsnc.com/unc/>).

Biennially:

- Basic Life Support certification that includes an in-person skill assessment. Documentation of current certification is required of the matriculating student and is to be submitted through either the ASOD onboarding form or the ASOD Compliance Portal. *Review the ASOD: Basic Life Support (BLS) Certification Policy* (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131267>) *for guidelines and requirements.*)

Infection Control: One of the consequences of the delivery of health care is the possibility of contracting an infectious disease such as tuberculosis, hepatitis, HIV, or herpes. To minimize this risk, the school has adopted an Infection Control Manual, which is outlined in ASOD: Infection Control Manual—Chapter 07: Personal Protective Equipment (PPE).

Infectious Disease Status

Students engaged in patient care activities are required to know their tuberculosis and hepatitis B (HBV) status, and are encouraged to learn their hepatitis C (HCV) and HIV status. State regulations require health care workers, including students, who perform surgical or dental procedures or who assist in such procedures in a way that may result in an exposure of patients to their blood, and who know themselves to be infected with HIV or HBV, to report their status to the state health director. See UNC's policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131793>).

Late Registration

University regulations require students who do not register before the first day of classes in any semester or summer session to pay an additional fee of \$20 for delayed registration. Any student who believes that she/he can show sufficient justification for the delay may petition for a refund by completing a form, which can be found online (<https://registrar.unc.edu/registration-guidelines/>), (under the late fee refund petition tab), outlining the reason for delay. This form must bear the approval of the dean of the UNC Adams School of Dentistry.

Awarding of Degrees and Certificates

To be awarded a degree or certificate, students must satisfactorily complete all requirements of their respective program.

Class and Clinic Attendance

Regular class and clinic attendance is a student obligation. No right or privilege exists that permits a student to be absent from any given number of sessions.

Patient Care Responsibilities

Students are granted the privilege of participating in the patient care system of the UNC Adams School of Dentistry and are expected to provide care consistent with our person-centered philosophy. Patients are a central part of the health care team and are involved in the planning of their care. It is the responsibility of the dental student to provide patients with the information needed so they make informed decisions about their treatment. The dental student has the responsibility to provide high-quality, evidence-based care to all their assigned patients in a timely manner and to uphold the ethical responsibilities as outlined in the school's Code of Professional Conduct and its Technical Standards.

Current academic policies and procedures can be found online. (<https://policies.unc.edu/TDClient/2833/Portal/KB/?CategoryID=21536>) However, policies are subject to change at any time. The manual provides guidelines for governing the Adams School of Dentistry's educational programs and advises students, faculty, and staff of academic policies and procedures related to the respective programs.

School of Education

Introduction

The School of Education is committed to the preparation of candidates who can assume leadership roles in the field of education. Such preparation is accomplished through the coherent integration of the abilities and predispositions of candidates, the knowledge and abilities of faculty members, and the contextual elements of academic and field settings. The growth and development of candidates is promoted through curriculum, instruction, research, field experiences, clinical practice, assessments, evaluations, and interactions with faculty members and peers. All of these elements work together to build a solid foundation for exemplary practices in education.

Programs of Study

Students are subject to the requirements in place when they are admitted to the School of Education; consequently, the requirements for approved programs described in this catalog particularly apply to students admitted to the school during the 2026–2027 academic year.

Advising

To best facilitate completion of all degree requirements students are strongly encouraged to meet with an academic advisor every semester.

The School of Education's advising team are available to meet with students who are interested in or admitted to any of the School of Education's undergraduate programs. Students interested in making an advising appointment can contact soeadvising@unc.edu. Based on their academic program, they may also need to continue to meet with an advisor in the College of Arts and Sciences.

Admission to the School of Education

Human Development and Family Studies

Human Development and Family Science (HDFS) is a pre-professional major for undergraduate students who feel driven to improve the lives of individuals, families, and communities. Admission to the [human development and family studies major \(p. 78\)](#) is required and offered every semester. The program welcomes students who are interested in supporting the well-being of children, families, and communities through people-centered, interdisciplinary work. Students may apply to the HDFS program after establishing a recommended minimum cumulative GPA of 2.5. The HDFS admissions committee takes a holistic approach and recognizes that GPA reflects only one dimension of an applicant's preparation. Successful applicants typically demonstrate academic readiness, a strong interest in human services, and potential to contribute meaningfully to the lives of others.

Human and Organizational Leadership Development

The Human and Organizational Leadership Development (HOLD) program prepares graduates to understand, lead, and work effectively with diverse stakeholders across and within organizations. Admission to the human and organizational leadership development major (<https://catalog.unc.edu/undergraduate/programs-study/human-org-leadership-ba/>) is required and offered every semester. Admission is based on, but not limited to, a recommended 2.5 grade point average, good academic standing, expressed interest in the field, and space available. For more information, please visit the School of Education website (<https://>

ed.unc.edu/academics/programs/human-organizational-leadership-and-development/).

Education Minor

The undergraduate minor in education is appropriate for undergraduate students interested in furthering their knowledge of education as a means of career development or to enhance their understanding of current schooling, community, and policy directions.

To declare a minor in education, you must see an advisor within the School of Education or the College of Arts & Sciences. During the declaration appointment, your advisor will review with you the requirements for the minor. If it is feasible for you to complete the minor within the eight-semester limit, you and your advisor will complete a declaration form to get you declared.

For more information, please visit the School of Education website (<http://soe.unc.edu/academics/education-minor/>).

Baccalaureate Education in Science and Teaching (BEST) Minor

The BEST minor is an innovative, fast-track program offering undergraduate science and mathematics majors the opportunity to complete requirements for a bachelor of arts or bachelor of science and obtain licensure as a secondary science or mathematics teacher in North Carolina in four years. Students will be prepared for N.C. licensure in either mathematics (9–12) or comprehensive science (9–12). Students will apply by completing an online application for the minor through ConnectCarolina.

UNC–BEST Admissions Requirements

- Declared Math or science (biology, chemistry, geological sciences, environmental studies/science and physics) major
- Minimum 2.7 GPA
- SAT or ACT score requirements*
SAT: Math–570, Reading–600, 1170 Combined (SAT taken after 2016)
- ACT: Math 24, English–24, 24 Composite
- **if SAT taken pre-2016 please refer to School of Education website
- Request and complete an application via ConnectCarolina

*Applicants who do not meet the minimum SAT and ACT score requirements can take the Praxis Core Academic Skills for Educators: Score–468 Composite; Reading–156/Writing–162; Math–150

Pre-M.A.T. (Early Affiliation to the Master of Arts in Teaching)

The Pre-M.A.T. is an opportunity for UNC–Chapel Hill undergraduates to engage with select M.A.T. coursework, faculty, and staff in order to pre-plan their intended entry into the Master of Arts in Teaching (M.A.T.) upon graduation. Pre-MAT is not a guarantee of admission to the graduate program but affiliation to make a connection to faculty, staff, and coursework. While joining the Pre-M.A.T. is not a requirement to be considered for admission to the M.A.T., there are many benefits of joining, which include:

- M.A.T. prerequisite advising/course planning with a School of Education advisor
- Access to select M.A.T. courses as an undergraduate, which may reduce M.A.T. tuition costs, if the student is admitted
- Opportunity to get to know M.A.T. faculty and current students

- Undergraduate student engagement opportunities related to teaching and learning

Students interested in more information or applying to become a Pre-M.A.T. "early affiliate" can meet with an advisor within the School of Education.

Pre-M.A.T affiliation is for UNC- Chapel Hill undergraduate students only. If you are ready to request affiliation, you can complete the request here (https://unc.az1.qualtrics.com/jfe/form/SV_0qd2N1nstfN88NT/).

Pre-MAT affiliation is available for all tracks of the MAT program. Tracks include: elementary education (available through 2027-2028 academic year, then will be paused), social studies, mathematics, science, English-language arts.

Major

- Elementary Education Major, B.A.Ed. (p. 76)
- Human Development and Family Science Major, B.A.Ed. (p. 78)
- Human and Organizational Leadership Development Major, B.A. (p. 82)

Minor

- Baccalaureate Education in Science and Teaching (BEST) Minor (p. 75)
- Education Minor (p. 84)

Courses

- Education (EDUC) (<https://catalog.unc.edu/courses/educ/>)

Establishing Licensure

At UNC, two undergraduate pathways for coursework prepare students for N.C. teacher licensure: BAEd in Elementary Education and Baccalaureate Education in Science and Teaching (BEST) Minor. In addition to the BAEd in Elementary Education and the BEST Minor, UNC students have the opportunity to engage with select master's of arts in teaching (M.A.T.) coursework in order to pre-plan their intended entry into the M.A.T. upon graduation. Information on the Pre-M.A.T. can be found here (<https://ed.unc.edu/academics/programs/pre-master-of-arts-in-teaching/>) or by contacting the School of Education's advising team.

North Carolina licensure requirements are distinct from the School of Education's degree requirements. Applications for North Carolina licensure must be submitted through the N.C. Department of Public Instruction's online licensure system by the graduate seeking a license. Forms are not submitted by the UNC School of Education licensure officer. The UNC School of Education licensure officer reviews and either approves or denies all licensure applications routed to UNC through the N.C. Department of Public Instruction online licensure system. More information about applying for N.C. licensure is available on the School of Education website (<https://ed.unc.edu/academics/licensure/>).

The teacher education programs described in this catalog are approved by the N.C. Department of Public Instruction, the N.C. State Board of Education, and the Council for the Accreditation of Educator Preparation.

Baccalaureate Education in Science and Teaching (BEST) Minor

Baccalaureate Education in Science and Teaching (BEST) minor is designed for students majoring in mathematics or science. Students

complete a set of core courses in the School of Education to teach secondary science or mathematics. Course work is designed to prepare help students apply theories of mathematics and science learning to teaching in the high school classroom, grades 9–12. Students who complete the minor will be prepared to apply for a North Carolina teaching license.

To be recommended for N.C. licensure, BEST minor students should consult with their program director, regarding entry requirements, and edTPA and Praxis testing appropriate to their content area. More information about the testing requirements is available on the School of Education testing website (http://soe.unc.edu/services/student_affairs/testing.php).

Baccalaureate in Elementary Education, with Dual License in Special Education or Multilingual Education

Baccalaureate in Elementary Education students will complete a set of core courses in the School of Education to teach elementary education (grades K-6) and will complete additional coursework in the areas of Special Education or Multilingual Education. Course work is designed to prepare help students to develop instruction in response to how children learn across subjects — from literacy and mathematics to science and social studies — and to consider how families, communities, and cultural context shape the learning experience. Students who complete this program will be prepared to apply for a North Carolina teaching license.

To be recommended for N.C. licensure, BAEd students should consult with their program director regarding entry requirements, and edTPA and Praxis testing appropriate to their content area. More information about the testing requirements is available on the School of Education testing website.

K–12 Music Education

The K–12 Music Education program is a collaboration between the School of Education and the Department of Music. Please note that the program is currently on pause and will not be accepting new applications for the 2025–2026 academic year forward. Students who have already been admitted to the program can refer to the Catalog Archives (p. 788) for information on program requirements and curriculum details.

Professors

Brian Boyd, Lora Cohen-Vogel, Thurston (Thad) Domina, Nianbo Dong, Dorothy L. Espelage, Jeffrey Greene, Jill Hamm, Annemarie Hindman, Sherick Hughes, Roger Mills-Koonce, Troy D. Sadler, Keith Sawyer, Joseph Williams.

Clinical Professor

Baccalaureate Education in Science and Teaching (BEST) Minor

Overview

The minor in Baccalaureate Education in Science and Teaching (BEST) is designed for students majoring in biology, chemistry, geology, physics, or mathematics. Students complete a set of core courses in the School of Education to teach secondary science or mathematics. Course work is designed to help students apply theories of mathematics and science learning to teaching in grades 9-12. Students who complete the minor will be eligible to apply for a North Carolina teaching license.

A student interested in this minor must apply through ConnectCarolina. We encourage any interested applicant to reach out to the School of Education advising team to discuss a course plan to successfully complete the minor. Admission to the minor requires a 2.7 cumulative GPA as well as minimum test scores, described below. Please refer to our program website for additional information.

Admission

GPA Requirement

A minimum cumulative GPA of 2.7 is required at the time of application, as mandated by the State of North Carolina for licensure eligibility.

Applicants who do not meet the 2.7 GPA requirement at the time of application but anticipate meeting it before entering the School of Education are encouraged to contact the department to discuss their situation. Please note that the state mandates the 2.7 GPA requirement, which is not negotiable.

Test Requirements

The North Carolina State Board of Education requires one of the following tests to demonstrate competency at the Pre-Professional Skill level for admission to undergraduate teacher education programs:

Praxis I—Core Academic Skills for Educators

- Total Score: 468 Composite
- Reading/Writing: 156/162
- Mathematics: 150

SAT

(Scores for tests taken after March 2016)

- Total Score: 1170 Composite
- Reading: 600
- Mathematics: 570

(Scores for tests taken prior to 2016)

- Total Score: 1100 Composite
- Reading: 550
- Mathematics: 550

ACT

- Total Score: 24 Composite
- English: 24
- Mathematics: 24

Official SAT or ACT scores must be on file with UNC or submitted by the application deadline if used instead of Praxis I. Scores from any test date are accepted as reported, without adjustment. Applicants may combine scores from different tests to meet individual subject requirements; however, composite scores must come from the same test.

Additional Program Completion Requirements

During their time in the BEST program, students are required to meet a minimum 'C' grade in each course to continue. Students will take their licensure examinations (Praxis and edTPA) during their time in the program. Students will complete a 16 week Student Teaching Internship concurrent with EDUC 746 in Spring prior to graduation.

Licensure Requirements

In order to successfully gain a NC teacher's license, students will take all required Praxis exams and the Teaching Portfolio Assessment (edTPA). After degrees are conferred, students will submit a teaching license application to NCDPI, and list UNC as the Educator Preparation Program.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
EDUC 532	 Human Development and Learning ¹	3
EDUC 615	Schools and Community Collaboration ¹	3
EDUC 689	Foundations of Special Education ¹	3
EDUC 760	Methods and Materials for Teaching Secondary/ K-12 Subjects I (fall only) ²	3
EDUC 746	Practica Student Internship (spring only)	9
EDUC 747	Methods and Materials for Teaching Secondary/ K-12 Subjects II (spring only)	3
Total Hours		24

¹ Must be completed before taking EDUC 746 and EDUC 747.

² Must be completed before starting the internship.

Additional Requirements

Students are required to take the edTPA for completion of the minor.

Students are required to take the Praxis Exam(s) for completion of the minor.

Elementary Education Major, B.A.Ed.

The B.A.Ed. in Elementary Education program prepares teachers for today and tomorrow, earning dual North Carolina licensure in Elementary Education (K–6) and either Special Education – General Curriculum (K–12) or English as a Second Language (K–12)* through research-grounded coursework and hands-on classroom experience. Graduates understand their students deeply, possess subject matter expertise and effective teaching strategies, and make an immediate, measurable impact on students, families, and communities.

**Note: English as a Second Language (K–12) licensure will not be available for fall 2026 applicants.*

Program benefits include:

- Students who complete the program requirements will be eligible to apply for a North Carolina teaching license
- Gain hands-on experience each semester in various classrooms and community settings
- Complete a year-long student teaching internship at a nearby public school
- Develop research-grounded methods and best practices in core elementary content areas
- Learn to use data to make instructional decisions that improve student outcomes
- Shape your personal teaching philosophy through elective coursework in related subjects
- Receive personalized guidance and coaching from leading faculty across multiple education fields
- Connect with a close-knit cohort and the broader School of Education community
- Join a network of Carolina alumni recognized for helping students achieve growth rates higher than their peers statewide

Admission

GPA Requirement

A minimum cumulative GPA of 2.7 is required at the time of application, as mandated by the State of North Carolina for licensure eligibility. Applicants who do not meet the 2.7 GPA requirement at the time of application but anticipate meeting it before entering the School of Education are encouraged to contact the department to discuss their

situation. Please note that the state mandates the 2.7 GPA requirement, which is not negotiable.

Student Learning Outcomes

Upon completion of the elementary education program, students should be able to:

- Plan, implement, and assess their teaching and instructional practices based on pedagogy appropriate to their content area and the grade level they teach.
- Demonstrate the requisite instructional skills to be successful beginning teachers.
- Demonstrate content knowledge expertise.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

EDUC 689	Foundations of Special Education	
Total Hours		72

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ The additional requirements must be completed before the Junior year. Transfer students are advised to complete the courses before Junior year, but there are options to take the courses after matriculating to UNC-Chapel Hill (e.g., summer semester).

Special Education - General Curriculum (K-12) Pathway

This pathway is available for students starting in the Fall 2026 cohort.

Code	Title	Hours
EDUC 468	Behavior Support Methods	3
EDUC 744	Assessment Techniques for ESL/EC Teachers ¹	3
EDUC 791	Providing Specially Designed Instruction	3
Total Hours		9

¹ EDUC 628 is a prerequisite.

English as a Second Language (K-12) Pathway

This pathway will be available in a future year.

Special Opportunities in Education

Honors in the School of Education

During the fall semester of the senior year, an honors student in the School of Education participates in the first of a two-course sequence. This first course is an honors thesis class to begin the thesis preparation and writing process. During the spring semester of the senior year the student takes the second course in the honors class sequence. Across the two courses the student completes an honors thesis. In the spring semester there is an oral examination to defend the thesis. The program is limited to students with a minimum cumulative grade point average of 3.3 at the start of the fall semester of the senior year. That is, students who wish to undertake a senior honors thesis project must have a cumulative GPA of 3.3 or higher in order to begin the project, and must maintain a cumulative GPA of 3.3 or higher through graduation.

Human Development and Family Science Major, B.A.Ed.

The mission of the human development and family science (HDFS) program is to promote the well-being of children, youth, and families, in diverse developmental and societal contexts through evidence-based teaching, service, leadership, advocacy, research, and innovation. HDFS prepares students for careers and graduate programs in fields such as education, public health, occupational therapy, speech-language pathology, social work, health services, leadership and nonprofit management, counseling services, and more. The HDFS program offers two optional concentrations: Child and Family Health and Family Life Education. The program also offers the courses needed for the Certified Family Life Educator Credential (CFLE). For more information, please visit the School of Education website (<https://ed.unc.edu/academics/programs/human-development-and-family-science/cfle/>).

Admission to the human development and family science major is required and offered every semester. Admission is based on, but not limited to, a recommended 2.5 grade point average, good academic standing, expressed interest in the helping professions, and space available. For more information, please visit the School of Education website (<https://ed.unc.edu/academics/programs/human-development-and-family-science/>).

Newly admitted students should expect to be enrolled in the HDFS program for a minimum of three full-time semesters in order to meet program course sequencing and milestones. Students interested in studying abroad should meet the School of Education advising team to discuss a timeline upon admission to the program.

Admitted students must earn a grade of C or better for each course counting to fulfill a degree requirement within the HDFS major. If a student earns a grade of C- or lower in a course, it will not satisfy a degree requirement within the HDFS major. The student will need to repeat that course or an equivalent. If a course is repeated, the student can only count the credit hours once when calculating the number of credit hours toward degree.

In the event that a student fails the internship or is dismissed for violating the School of Education, site placement, or the University Code of Ethics, they will be referred to the School of Education Appeals Committee.

For students pursuing a major in HDFS, without the pursuit of a second major or minor, supplemental education will be required. Please discuss any questions with the advising team to ensure proper course planning.

Students are subject to the requirements in place when they are admitted to the School of Education; consequently, the requirements for approved programs described in this catalog particularly apply to students admitted to the school during the 2026-2027 academic year.

Student Learning Outcomes

Upon completion of the human development and family science program, students should be able to:

- (Theories and Human Development) Demonstrate the ability to understand and apply theories about human development and family relations in the physical, intellectual, cultural, and socioemotional domains.
- (Career/Ethical) Demonstrate both understanding and practical applications of professional behaviors that reflect knowledge about communication and relationship skills, work ethic, and ethical considerations needed to serve individuals, children, and families.
- (Family Dynamics and Diversity) Assess individual and family experiences and dynamics are shaped by diverse cultural backgrounds and perspectives, such as race, ethnicity, sexual identities, ability, socioeconomic status, immigrant status, and urban versus rural settings.
- (Applied Learning – Verbal and Written Applications) Demonstrate the ability to develop resources and initiatives and deliver services using appropriate strategies and technologies to support the well-being of children, families, schools, and communities through presentations, research, and service learning.
- (Research and Evidence-Based Approaches) Understand and apply research to inform education, prevention, intervention, and/or policy efforts related to children and families in diverse contexts.

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (course and credit hours) at UNC–Chapel Hill

- earn a C or better in all courses for the HDFS major (core and additional requirements).

For more information, please consult the degree requirements section of the catalog (p. 739).

Additional Requirements

Select from the following 3 options: ^{3,4} 12

Four courses from the Family Life Education concentration (see list below)

Four courses from the Child and Family Health concentration (see list below)

Four courses from the concentration lists or the elective list (see lists below)

Total Hours 48

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Must take EDUC 408 prior to enrolling in EDUC 583. Students must see the SOE director of advising for permission to enroll. EDUC 583 must be taken in the semester immediately preceding the internship semester. Students should consider summer internships where feasible to meet program milestones.

² *Students are expected to complete their internship in their senior year and when 90% of the HDFS course work is completed.* During the internship semester, it is preferred that students only take one class with the internship. However, students will be allowed to enroll in up to six credit hours in addition to the required nine credit hour internship course, for a maximum of 15 hours. Students will not be allowed to register for 18 hours. The internship site must be approved by the HDFS program in the semester preceding the internship.

³ At least 6 of the 12 hours taken to satisfy a concentration must be completed at the University of North Carolina at Chapel Hill.

⁴ Students in either concentration may elect to complete courses in the other concentration but can only declare one concentration. For example, a student in the CFH concentration may complete courses in the FLE concentration as part of their general major electives.

Human and Organizational Leadership Development Major, B.A.

The human and organizational leadership development (HOLD) program prepares graduates to understand, lead, and work effectively with a diverse set of stakeholders in organizations focused on learning and human development. The curriculum provides students with a grounding in the science of learning and adult learning, organizational and leadership theory, quantitative and qualitative social science research methods, and data-informed decision making. Students will gain insight into learning and development in a broad range of organizations, including businesses, non-profits, and government agencies that are committed to cultivating clients' and workers' capacities.

Admission to the human and organizational leadership development (HOLD) major is required and offered every semester. Admission is based on, but not limited to, a recommended 2.5 grade point average, good academic standing, expressed interest in organizational leadership, and space available. For more information, please visit the School of Education website (<https://ed.unc.edu/academics/programs/human-organizational-leadership-and-development/>).

Newly admitted students should expect to be enrolled in the HOLD program for a minimum of three semesters in order to meet program course sequencing and milestones. Students interested in studying abroad should meet the School of Education advising team to discuss a timeline prior to admission to the program.

Admitted students must earn a grade of C or better for each course counting to fulfill a degree requirement within the HOLD major. If a student earns a grade of C- or lower in a course, it will not satisfy a degree requirement within the HOLD major. The student will need to repeat that course or an equivalent. If a course is repeated, the student can only count the credit hours once when calculating the number of credit hours toward degree.

When course planning, we encourage you to reach out to our advising team (soe advising@unc.edu). We will be able to discuss classes that are offered fall and spring only, including EDUC 257 (fall only) and EDUC 472 (spring only). The pre-capstone course (EDUC 585) and the capstone (EDUC 695) must be taken in sequential terms. Please note, EDUC 585

is offered in fall and spring only. EDUC 695 is offered in the spring and summer only.

In the event that a student fails the capstone or is dismissed for violating the School of Education, site placement, or the University Code of Ethics, they will be referred to the School of Education Appeals Committee.

For students pursuing a major in HOLD without the pursuit of a second major or minor, supplemental education will be required. Please discuss any questions with the advising team to ensure proper course planning.

Students are subject to the requirements in place when they are admitted to the School of Education; consequently, the requirements for approved programs described in this catalog particularly apply to students admitted to the school during the 2026-2027 academic year.

Student Learning Outcomes

Upon completion of the human and organizational leadership development program, students should be able to:

- Utilize theory-informed and evidence-based approaches to critically assess and understand organizational and leadership dynamics
- Demonstrate effective skills in collaboration, data analysis, equity-minded leadership, and communication
- Actively engage with diverse stakeholders to improve organizations by cultivating human development

Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (course and credit hours) at UNC–Chapel Hill
- earn a C or better in all courses for the HOLD major (core and additional requirements).

For more information, please consult the degree requirements section of the catalog (p. 739).

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Education Minor

The undergraduate minor in education is appropriate for undergraduate students interested in furthering their knowledge of education as a means of career development or to enhance their understanding of current schooling, community, and policy directions.

To declare a minor in education, you must see an advisor by appointment. During the declaration appointment, the advisor will review with you the requirements for the minor and determine if you can complete the program within the eight-semester limit.

If you intend to declare a minor in education and have already declared (or intend to declare) a major in human development and family science (HDFS) or human and organizational leadership development (HOLD), only six (6) credit hours can overlap between the education minor and the HDFS and HOLD majors.

Students who enrolled in the education minor in Fall 2025 or earlier complete a capstone course (EDUC 697) as a part of the minor. Students are eligible to take the capstone when at least three of the other four requirements have been completed. Students on Fall 2025 curriculum and earlier may move to the Fall 2026 curriculum with their academic advisor's assistance.

More information is available on the School of Education's website (<http://soe.unc.edu/academics/education-minor/>).

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill

- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor consists of five courses.

Code	Title	Hours
Core Requirements		
EDUC 240	 Introduction to Educational Studies	3
Select one of the following courses related to learning and development:		3
EDUC 330	 The Science of Learning	
EDUC 401	 Childhood Development: Prenatal Birth to Age 12	
EDUC 528	 Exceptionality Across the Life Span	
EDUC 532	 Human Development and Learning	
Select one of the following courses related to culture, curriculum, and teacher education:		3
EDUC 508	 Equity, Leadership, and You	
EDUC 529	 Education in American Society	
EDUC 533	 Social Justice in Education	
Select one of the following courses related to educational policy and organizational leadership:		3
EDUC 257	 Inquiry and Data Applications	
EDUC 506	 Politics, Policymaking, and America's Schools	
EDUC 570	 History of American Higher Education	
One additional 3-credit EDUC course numbered 100 to 699		3
Total Hours		15

Further questions about major requirements, including requests for substitutions can be directed to the SOE Student Affairs Office (soestudentaffairs@unc.edu) and are subject to approval by the program director of the Education Minor.

School of Government

The School of Government's mission is to improve the lives of North Carolinians by engaging in practical scholarship that helps public officials and citizens understand and improve state and local government.

Each year, the School of Government provides more than 200 courses and programs to over 12,000 public officials across all 100 North Carolina counties, offers advising and legislative support to government leaders, and produces scholarship that strengthens governance statewide. The school also is home to the nationally recognized UNC Master of Public Administration (MPA) program, which prepares public service leaders and provides usable knowledge to improve governance.

The mission of the Law, Government, and Public Service Minor is to develop critical thinking skills for understanding and analyzing the laws and structures that support government and nonprofit organizations. This minor offers undergraduate students an early opportunity to engage with the legal and organizational systems that shape government and public service work. The curriculum is designed for students interested in law, public administration, public policy, and other related fields, preparing them for future careers in public service. The learning objectives of the minor are as follows:

- Understand the basic sources and structures of law, including constitutional, statutory, and case law.
- Learn to craft, analyze, and evaluate legal arguments.
- Apply public management theories that inform the ways that government and nonprofit organizations meet public needs.
- Analyze the impact of the institutional dynamics and interactions of public service organizations at the local, state, and national levels.
- Understand how law and government affect daily life.

Information Science Major, B.S.

The bachelor of science in information science (<https://go.unc.edu/BSIS/>) is designed to prepare its graduates for a variety of careers in the information industry, including information architecture, database design and implementation, Web design and implementation, business systems analyst, and information consulting, as well as for graduate study.

The information science major integrates the study of the creation and management of information content, the characteristics and needs of the people who create and use information, and the technologies used to support the creation and manipulation of information. Graduating students will

- Understand the many ways in which information can be created, communicated, stored, and/or transformed in order to benefit individuals, organizations, and society
- Possess practical skills for analyzing, processing, and managing information and for developing and managing information systems in our knowledge-based society. They will possess problem-solving and decision-making skills, be able to use information tools effectively, and be able to take a leadership role in our information economy
- Comprehend the value of information and information tools, and their role in society and the economy
- Be prepared to evaluate the role of information in a variety of industries, in different organizational settings, for different populations, and for different purposes
- Maintain a strong sense of the role of information in society, including historical and future roles

Admission (p. 87) to the program is required.

Student Learning Outcomes

Upon completion of the information science program, students should be able to:

- Demonstrate knowledge of the many ways in which information can be created, communicated, stored, and/or transformed, in order to benefit individuals, organizations, and society
- Demonstrate practical skills in analyzing, processing, and managing information and developing and managing information systems in a knowledge-based society
- Apply problem-solving and decision-making skills
- Effectively utilize information tools in preparation to taking a leadership role in the information economy
- Recognize the value of information and information tools, and their role in society and the economy
- Evaluate the role of information in a variety of industries, in different organizational settings, for different populations, and for different purposes

Preparing for the Major in Information Science

Students are subject to the requirements in place when they are admitted as a degree-seeking student to the University; consequently, the requirements described in this catalog particularly apply to students admitted to the University during the 2026–2027 academic year.

First-year students and sophomores who plan to apply for the B.S.I.S. must complete the following prerequisites.

Code	Title	Hours
INLS 161	Tools for Information Literacy	3
INLS 201	 Foundations of Information Science	3
MATH 115	 Reasoning with Data: Navigating a Quantitative World	3

Undergraduate students who have completed all prerequisite courses may apply for admission to the major program. Participation is limited, and admission is competitive. Criteria for admission include the candidate's academic record, work and extracurricular experience, and substantive thinking about the role of information in society (and, for applicants to the minor, in their major field). Candidates from a variety of disciplinary backgrounds are sought for the minor. Prior computer experience is not a criterion for admission to the minor.

Admission

To apply for admission, students must "Apply for Change of Major" in ConnectCarolina. Information regarding the application process is available on the school's website (<https://sils.unc.edu/bsis/undergraduate-admissions/>). Applicants are asked to provide the following materials:

- A current résumé, including information about work experience and/or extracurricular activities
- A brief essay (100–300 words) on why you want to pursue an information science (IS) major/minor. More specifically, 1) what experiences led you to realize you would benefit from further

education in IS, and 2) how will pursuing an education in IS enable you to achieve your future plans?

Applications for the spring semester are available September 1 through October 1. Applications for the fall semester are available February 1 through March 1. Applications are accepted only during the application windows. No late or paper applications are accepted.

Questions can be addressed to the Assistant Director of Undergraduate Advising and Programs, School of Data and Information Science, CB# 3360, 107 Manning Hall; by sending email to silsinfo@ils.unc.edu; or by calling (919) 962-0208.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
INLS 560	Programming for Information Science	3
or COMP 110	 Introduction to Programming and Data Science	
or COMP 116	Introduction to Scientific Programming

STOR 435	Introduction to Probability	3
STOR 455	Methods of Data Analysis	3
STOR 565	Machine Learning	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

B.S.I.S. students may take additional INLS electives but are encouraged to acquire a broad education in the liberal arts and sciences.

Special Opportunities

Dual Bachelor's–Master's Degree Program

The dual bachelor's–master's program is intended to enable information science majors to obtain both their bachelor's and master's degrees by early planning of an undergraduate program that integrates well with the graduate degree requirements for either a master's in information science (M.S.I.S.) or a master's in library science (M.S.L.S.).

Applying to the dual-degree program occurs in two steps. First, the student must apply to the B.S.I.S. program with intent to pursue the dual degree. The student must apply to the master's program in the seventh semester of undergraduate study for admission for the following fall. The curriculum for the dual degree can be found on the SILS website (<http://sils.unc.edu/programs/bs-ms/curriculum/>).

Up to 12 credits hours for information science coursework taken while an undergraduate can be double counted between the B.S.I.S. the M.S.L.S. or the M.S.I.S. The requirements for the master's degree can be found in the *Graduate Catalog*.

Students interested in the dual-degree program are strongly advised to consult the director of undergraduate studies or the assistant director of undergraduate advising and programs in their sophomore year to discuss eligibility and an appropriate plan of study.

Honors in Information Science

An honors program is available to information science majors who have demonstrated the ability to perform distinguished work. The honors thesis allows exceptional students in the undergraduate major to demonstrate the ability to treat a problem in a substantial and scholarly way. Students write an honors thesis on a topic related to information science and defend it before a faculty committee. They may graduate with honors or highest honors.

The honors program consists of two courses: INLS 691H and INLS 692H.

INLS 691H will be taken in the fall of the senior year. In this course, each student selects a research topic of interest, learns about research methods, and writes a research proposal. Assuming satisfactory completion of INLS 691H, students register for INLS 692H in the spring of their senior year. The student and advisor meet regularly to discuss the student's research and writing. The second reader for the thesis, identified jointly by the student and advisor, is chosen by the end of January. The director of the SILS honors program is the third reader. Refer to Honors Carolina for official due dates. The final approved thesis must be submitted electronically via the Carolina Digital Repository (CDR).

Students may apply for the honors program in the spring of their junior year. The requirements for conducting an honors thesis in information science include having taken at least four INLS courses, including two numbered above 299, and having a total INLS grade point average of at least 3.5. The student should have an overall grade point average of at least 3.3. Enrolling in INLS 692H is contingent on completing INLS 691H with a grade of A- or higher.

Students who complete a high-quality thesis will graduate with honors; those whose thesis is exceptional will graduate with highest honors.

Facilities/Resources

The school maintains a combined specialized library and computer laboratory with ample seating for student collaborative work. The SILS Library is part of the UNC–Chapel Hill Academic Affairs Library System, and its collections are available for use in the library by all interested persons. The current collection consists of over 100,000 volumes and several hundred serials titles. The SILS computer laboratory is located in the school's Information Technology and Resource Center in Manning Hall and is available to students enrolled in SILS courses and programs. More than 40 PCs are available for student use, with space for use of student laptops in a wireless environment. A large selection of software is available, including data management, word processing, publishing, statistical analysis, Internet tools, graphics, development tools, multimedia, etc. Student assistants staff the help desk and are available to check out equipment and to answer questions.

Students also have access to a small student lounge in Manning Hall.

Field Experience

As a professional school at UNC–Chapel Hill, we encourage students to use the technical and theoretical knowledge they gain in the classroom in professional settings. Many SILS students participate in field experiences (INLS 393) whereby they gain experience in a setting of the student's choosing.

Students must spend 135 hours with the site, attend field experience seminars, and produce a short paper for their field experience faculty advisor. Students are eligible for field experiences once they have junior status and three INLS courses: INLS 161, INLS 201, and INLS 382. Field experiences can be taken in any semester, including the summer, and can be in any information setting.

Student Involvement

Undergraduate students are encouraged to participate in ILSSA (Information and Library Science Student Association). All of the school's standing committees have student representation. In addition, students may participate in professional associations in information and library science, including the student chapters of the Association for Information Science and Technology (ASIS&T), the Student Chapter of the American Library Association (SCALA), Special Libraries Association

(SLA), the Art and Museum Library and Information Student Society (AMLISS), the Student Chapter of the Society of American Archivists (SCOSAA), and Checked Out: SILS Diversity.

Study Abroad

The school has formal study abroad agreements with seven information schools in the Czech Republic, Singapore, Denmark, South Korea, Chile, Spain, and Ireland. Students can spend a summer, semester, or year studying abroad to earn course credit toward their information science major or information systems minor. The exchanges are administered through the UNC Study Abroad Office but are managed by the school. Credit transfer should be confirmed before beginning the exchange. In addition, UNC–Chapel Hill has formal university ties with approximately 75 other universities — many of them with library and information science schools. SILS also offers short-term summer seminars in various locations. These programs are two weeks in length and offer an in-depth view on information science. Students who wish to enjoy an international experience are encouraged to talk with the international programs coordinator.

Undergraduate Awards

Two scholarships of \$1,000 each are awarded to newly admitted undergraduates in the spring and fall. Undergraduates completing an honors thesis are eligible to apply for a Carnegie Grant. This award of up to \$200 may be used to offset any costs that might occur during their research.

Undergraduate Research

Undergraduates enrolled in the honors program conduct research as part of the completion of their honors thesis. Students not in the honors program may also take advantage of a number of opportunities to participate in research with faculty members.

Information Systems Minor

The undergraduate minor in information systems (<https://go.unc.edu/infosystemsminor/>) provides students with an understanding of computing, networking, multimedia, electronic information resources, and the Internet and can be used to solve problems in a variety of contexts. The minor complements the student’s major field of study by offering knowledge, skills, and experience using these information technologies.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The undergraduate minor in information systems requires 15 credits of approved courses.

Code	Title	Hours

Hussman School of Journalism and Media
Introduction

The Hussman School of Journalism and Media was founded as the Department of Journalism in 1924 and became the School of Journalism in 1950. The school has been accredited by the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC) since 1958.

The school offers a course of study leading to a bachelor of arts in media and journalism or a minor in media and journalism.

Today, more than 10,000 of the school's alumni are active in every aspect of media and journalism. They hold high positions with newspapers, international news agencies, magazines, Internet companies, broadcasting companies, and advertising agencies; in public relations, marketing, branding, business journalism, photo and video journalism, and graphic design; and in research, government, education, and industry.

Advising

For students who have been accepted to the Hussman School of Journalism and Media, advising is available year-round by appointment and on a walk-in basis in the Undergraduate Hub in Carroll Hall. See the school's website (<http://hussman.unc.edu/ug/studentservices/academicadvising/>) for details. Students are strongly encouraged to meet regularly with an advisor. Advising for second majors in the College of Arts and Sciences is available through UNC Advising (<https://advising.unc.edu/>).

Graduate School

The school offers residential master's and doctoral degrees in media and communication and an online master's degree in digital communication. Residential graduate courses are open to graduate students in other fields. For more information about the graduate programs, see the school's website (<http://hussman.unc.edu/grad/>).

Career Opportunities

The school operates a Career Services (<https://hussman.unc.edu/undergraduate-studies/undergraduate-hub/career-services/>) office (located in the Undergraduate Hub in Carroll Hall), which is designed to support Hussman students (or alumni) in exploring career opportunities and preparing for the job search. Students in the school are also encouraged to use the University Career Services (<https://careers.unc.edu/>).

Contact Information

Information is available from the Undergraduate Hub in Carroll Hall, located on the first floor beside the Dean's Suite. Current and prospective students will also find the school's website (<http://hussman.unc.edu/>) helpful. A weekly newsletter is sent by email to media and journalism majors during the academic year. Contact the Undergraduate Hub coordinator (<https://hussman.unc.edu/undergraduate-studies/undergraduate-hub/>) to be added to the listserv.

Admission to the School

Students are subject to the requirements in place when they are admitted to the University of North Carolina at Chapel Hill. The requirements described in this catalog particularly apply to students admitted to the University during the 2026–2027 academic year.

It is highly recommended that students interested in the school pre-declare their primary major as media and journalism (as early as possible) with a concentration in either advertising/public relations or journalism.

Students typically apply to the school after attaining sophomore standing with 45 or more credit hours and completing most of their general education requirements.

Transfer Admission

Because the University limits the number of transfer students from other institutions, transfer applicants compete for admission to the school on the basis of grade point averages and other academic credentials, as well as factors including commitment to a career in journalism and media and letters of recommendation. The Office of Undergraduate Admissions (<https://admissions.unc.edu/>) makes the final decision on admitting transfer students, in consultation with the school.

Preparation for the Major

Students should take Writing and Reporting (MEJO 153) and Introduction to Digital Storytelling (MEJO 121) by the first semester of their sophomore year. Students who are pursuing advertising/public relations should also take Principles of Advertising and Public Relations (MEJO 137). The Media Revolution: From Gutenberg to Zuckerberg and Beyond (MEJO 101) is open to first-year students and sophomores who want to explore the major. Many courses require prerequisites and are restricted to majors only.

Majors

- Media and Journalism Major, B.A (p. 92).

Minor

- Media and Journalism Minor (p. 98)

Graduate Programs

- M.A. in Digital Communication (<https://catalog.unc.edu/graduate/schools-departments/media-journalism/#programstext/>) (Online)
- M.A. in Media and Communication (<https://catalog.unc.edu/graduate/schools-departments/media-journalism/#programstext/>)
- Ph.D. in Media and Communication (<https://catalog.unc.edu/graduate/schools-departments/media-journalism/#programstext/>)
- Certificate in Digital Communication Strategy (Online)
- Certificate in Digital Media Management (Online)
- Certificate in Digital Storytelling (Online)

Media and Journalism Major, B.A.

The Hussman School of Journalism and Media prepares students for careers in journalism and media by offering an academic program that provides a liberal arts education, an understanding of the responsibilities of free speech in a democratic society, and a fundamental knowledge of journalistic and media techniques and substance. Additionally, the acclaimed school is known for award-winning work in the areas of Public Relations and Advertising.

The philosophy that guides the school is that journalists and communicators must understand the political, social, economic, and cultural forces that operate within society. For this reason, students acquire a background in the humanities, social sciences, and natural

sciences while preparing careers in journalism, media, advertising, and public relations.

Student Learning Outcomes

Upon completion of the media and journalism program, students should be able to:

- Apply the principles and laws of freedom of speech and press, in a global context and in the U.S.
- Demonstrate an understanding of the multicultural history and role of professionals and institutions in shaping communications.
- Demonstrate culturally proficient communication that empowers those traditionally disenfranchised in society, especially as grounded in race, ethnicity, gender, sexual orientation, and ability, domestically and globally, across communication and media contexts.
- Present images and information effectively and creatively, using appropriate tools and technologies.
- Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness, and service to all people and communities.
- Apply critical thinking skills in conducting research and evaluating information by methods appropriate to the communications professions in which they work.
- Write correctly and clearly in forms and styles appropriate for the communications professions, audiences, and purposes they serve.
- Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style, and grammatical correctness.
- Effectively and correctly apply basic numerical and statistical concepts.
- Apply tools and technologies appropriate for the communications professions in which they work.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Requirements Outside the School

Code	Title	Hours

Select one from the following list: ⁴	
MEJO 141	 Media Ethics ³
PHIL 160	 Virtue, Value, and Happiness: An Introduction to Moral Theory ^H
PHIL 163	 Practical Ethics: Moral Reasoning and How We Live ^H
PHIL 170	 Liberty, Rights, and Responsibilities: Introduction to Social Ethics and Political Thought ^H
PHIL 272	 The Ethics of Peace, War, and Defense
Total Hours	6

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Students are expected to gain a depth of knowledge of a topic outside the school. Our students typically take 72-81 hours outside of media and journalism. Completing another major or minor is encouraged but not required.

Students who wish to complete a second major outside the school and who did not declare the second major before being admitted to the school must download a second-major declaration form from the school's website and email it to UNC Hussman Academic Advising (<http://hussman.unc.edu/ug/student-services/academic-advising/>). They must then meet with an academic adviser in the College of Arts and Sciences (<https://advising.unc.edu/for-faculty/resources/>) to ensure that they can meet all requirements for the second major.

Requirements in Both Study Areas

The degree earned is a Bachelor of Arts in Media and Journalism. Two areas of study are offered: a Concentration in Advertising/Public Relations and a Concentration in Journalism. Areas of study are not noted on the diploma. Some courses are required for all majors in the school, and each area of study has specific course requirements.

Students must complete a minimum of 39 credits in media and journalism with a grade point average of 2.0 or better. A grade of C- or less in a MEJO course will not be counted in the minimum number of media and journalism credits required for graduation; the course must be retaken if it is required for the major. If the course is not specifically required, then another course that meets the requirement the first course was meeting may be taken in its stead. During a student's senior year, they must complete a capstone course specific to their area of study. MEJO 393 cannot be counted in the minimum of 39 credit hours required but will count in the total 120 credit hours required by the university. Additionally, students must complete a minimum of six credits to satisfy the school's government/politics as well as ethical and civic values requirements. The school may accept transfer credit for media and journalism courses taken at other institutions. To request a

review of eligible courses, students should submit a Transfer Credit Re-evaluation eForm through their ConnectCarolina Student Center (<https://connectcarolina.unc.edu/>).

More than perhaps any other field, media and journalism requires a strong foundation in word usage, grammar, punctuation, and other writing skills. Students must score at least 70 percent on the school's usage and grammar examination as a condition for graduation. The examination is administered several times throughout the academic year as well as during the summer.

Additionally, students can pursue optional programs within the media and journalism major. Formerly known as certificates, UNC Hussman offers five focused programs: Business Communication, Fashion Communication and Marketing, Health Communication and Marketing, Political Communication, and Sports Communication. These programs represent focused areas within the concentrations of Advertising/Public Relations and Journalism. They are by application only and open to all majors where noted. The focused programs are excluded from the rule of three program policy and will have the focus recorded on their transcript. For additional details, please visit the program's website (<https://hussman.unc.edu/undergraduate-studies/curriculum-and-programs/#certificates>).

Students are responsible for monitoring their Tar Heel Tracker and are encouraged to consult with an adviser in the school at least once a semester to ensure that they are on track to fulfill all graduation requirements. Specific information about graduation requirements, advising, registration, and other procedures is also available on the school's website (<https://hussman.unc.edu/undergraduate-studies/>).

The school cannot guarantee that courses needed to satisfy a student's degree requirements will be offered during summer school. Students who plan to complete degree requirements in summer school should be aware that low enrollments sometimes force the school to cancel certain courses or sections during either or both summer sessions.

Please check the course list below or ConnectCarolina (<https://connectcarolina.unc.edu/>) for prerequisite information for MEJO courses. **Media and journalism courses listed in multiple categories can only satisfy one requirement, unless otherwise noted.**

Media and Journalism Major, B.A. – Journalism

The journalism curriculum is for students who seek to collect, prepare, and distribute news aimed at informing the public and promoting transparency and accountability in government and society. Students study and can specialize in various content channels including print, broadcast, digital and interactive. Students create work that adheres to ethical principles of accuracy, fairness and responsibility.

Journalism students should take MEJO 121 and MEJO 153 before enrolling in a Level 1, Level 2, or Level 3 course.

Choice

Students must take one elective MEJO course of their choice to meet the 39-hour MEJO minimum. This can be any course offered by the school (including MEJO 89 and MEJO 101), regardless of concentration, except MEJO 393. Students may take additional courses in this category, but doing so will exceed the 39-hour minimum.

Total Hours **39**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Media and Journalism Major, B.A.—Advertising/Public Relations Curriculum

The advertising/public relations curriculum is for students who wish to communicate on behalf of organizations, including corporations, government agencies, nonprofit and advocacy groups, and public relations and advertising agencies. Students learn to develop persuasive advertising messages or focus on strategic communication efforts

for an organization. Both are pursued within an ethical framework of communication.

Advertising/Public Relations students should take MEJO 121, MEJO 137, and MEJO 153 before taking a Level 2 or Level 3 course. Students are also required to take MEJO 379 to satisfy one of the Level 2 requirements.

Code	Title	Hours
School Core		
MEJO 121	 Introduction to Digital Storytelling ¹	3

Students may take additional courses in this category, but doing so will exceed the 39-hour minimum.

Total Hours

39

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

The below footnotes apply to advertising/public relations or journalism areas of study.

- ¹ It is recommended that students take MEJO 153 and MEJO 121 together.
- ² MEJO 137 is required before taking upper-level courses.
- ³ MEJO 141 will satisfy Ethical and Civic Values and Conceptual.
- ⁴ Not all of the courses may be offered every semester.
- ⁵ If you have taken MEJO 157, you can't receive credit for this course.
- ⁶ MEJO 353 is offered at 1 credit hour. To meet the minimum of 6 hours for Level 2, students must choose an additional Level 2 course.
- ⁷ Special Topics satisfy JRN-Level 2, when approved by the associate dean for undergraduate studies.
- ⁸ Special Topics satisfy AD/PR-Level 2, when approved by the associate dean for undergraduate studies.
- ⁹ Satisfies AD/PR-Level 3, when approved by the associate dean for undergraduate studies.
- ¹⁰ MEJO 245 is offered at 1 credit hour. To meet the minimum of 6 hours for Conceptual, students must choose an additional Conceptual course.
- ¹¹ Global Immersive Program. For more information on how to apply, visit Hussman Global Programs (<http://hussman.unc.edu/ug/student-services/global-programs/>).

Special Opportunities in Media and Journalism

Honors in Media and Journalism

An honors program is available to students who have demonstrated their ability to perform distinguished work. Invitation to the senior-level honors courses (MEJO 691H and MEJO 692H) is based on a grade point average of 3.5 or higher in the major, 3.3 overall, a recommendation from a faculty member in the school, and approval by the director of the honors program. Students who successfully complete the program graduate with honors or highest honors. For more information, visit the school's website (<https://hussman.unc.edu/honors-program/>).

Student Involvement

Students are encouraged to contribute to campus publications and programs, gain professional experience, and engage with relevant professional organizations within the UNC Hussman School of Journalism and Media. For information, visit the school's website (<https://hussman.unc.edu/undergraduate-studies/get-involved/>).

Internships

The school strongly encourages students to obtain internships because they provide invaluable professional experience. Reporting, advertising, photo and video journalism, graphic design, broadcast news, public

- ³ relations, business, and other internships are possible. Majors can enroll in MEJO 393 to receive internship credit (one credit hour, repeatable three times). MEJO 393 fulfills the High-Impact requirement under the IDEAs in Action General Education curriculum and the Experiential Education General Education requirement in the Making Connections curriculum. The school's career services (<https://hussman.unc.edu/undergraduate-studies/undergraduate-hub/career-services/>) staff oversees internship credit. MEJO 393 cannot be counted in the minimum of 39 credit hours required by the school, but it will count in the total 120 credit hours required by the university. MEJO 153 is a prerequisite.

Study Abroad

Students are encouraged to study abroad. In addition to the programs available through the UNC Study Abroad Office, the school offers its own study abroad exchanges with top media and journalism schools in Argentina, Australia, Chile, Hong Kong, London, and Spain. Students should consult with the school's global programs staff (located in the Undergraduate Hub in Carroll Hall) to confirm media and journalism course credit prior to their study abroad term. For more information, visit the school's website (<https://hussman.unc.edu/undergraduate-studies/undergraduate-hub/global-programs/>).

Undergraduate Scholarships

Undergraduate students who have been admitted to the UNC Hussman School are eligible to apply for funding for a range of purposes. For information, visit the school's website (<http://hussman.unc.edu/funding/>).

Undergraduate Research

Some undergraduates participate in research through a research pool that assists faculty members in their research and creative activities, through independent studies with faculty members to work on specific projects, and through the school's honors program, which engages the student in substantive research that culminates in a thesis in the senior year.

Media and Journalism Minor

Students who are not enrolled in UNC Hussman have the chance to pursue a minor in media and journalism. The minor offers concentrations in advertising/public relations and journalism. However, students may need to meet prerequisites for their selected minor courses.

The school has one application timeline for admission in the spring semesters. For further details and resources, please visit the school's website (<http://hussman.unc.edu/ug/minor/>).

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Students must choose one of the following areas of study and complete at least 15 credit hours with C grades or better in MEJO courses taken at UNC–Chapel Hill. Students are required to meet any prerequisites for the courses they select.

Minors are not required to pass the school's usage and grammar exam.

School of Nursing Introduction

The School of Nursing at the University of North Carolina at Chapel Hill is nationally recognized as one of the premier nursing schools in the United States. With a trifold mission of excellence in nursing education, research, and service, the School of Nursing offers a full complement of nursing education programs, including bachelor's and master's of science in nursing, a doctor of nursing practice (D.N.P.), a doctor of philosophy (Ph.D.), pre- and postdoctoral fellowships, and post-master's certificate programs. Since its inception in 1950, the school has led nursing education in North Carolina, and today boasts one of the highest nationwide pass rates on the National Council Licensure Examination (NCLEX) and a rich tradition of cutting-edge nursing science. The School of Nursing is one of few schools in the country to house a biobehavioral laboratory for the promotion of nursing discovery.

Program of Study

The School of Nursing at the University of North Carolina at Chapel Hill offers an undergraduate program of study designed to provide students with the knowledge, skills, and understanding necessary to function effectively in all areas of professional nursing. The curriculum leading to the Bachelor of Science in Nursing (B.S.N.) degree offers two options for study:

1. two years of upper-division courses in the School of Nursing, which follow two years of lower-division courses in the General College (or equivalent courses completed at another college/university);
2. an accelerated second degree option for students with a previous bachelor's degree (A.B.S.N.).

Students are subject to the requirements in place when they are admitted to the School of Nursing; consequently, the requirements described in this Catalog apply to students admitted to the School of Nursing during the 2026–2027 academic year.

Admission (p. 103) to the program is required.

Advising

All first degree students intending to major in nursing have a primary academic advisor in the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor to learn the latest course requirements necessary to become an outstanding candidate for the nursing major, and to review their Tar Heel Tracker each semester. In addition, students can visit the Health Professions Advising Office soon after entering the University for specific guidance on career preparation. Advising information, advising

hours, and information about joining the pre-health listserv may be found on the office's website (<https://hpa.unc.edu/>).

Facilities

The School of Nursing is located in Carrington Hall. The Education-Innovation-Simulation Learning Environment (EISLE) provides students with a simulated clinical environment in which to practice and acquire fundamental psychomotor and psychosocial skills necessary for clinical application. Under the close supervision of nursing faculty and teaching assistants, students learn therapeutic techniques, develop clinical judgement, and prioritize patient care in simulated situations.

Graduate School and Career Opportunities

The school offers a Master of Science in Nursing (M.S.N.), a Doctor of Nursing Practice (D.N.P.) degree in five advanced practice areas, and a Doctor of Philosophy (Ph.D.) in nursing science. B.S.N. graduates may pursue the M.S.N. or D.N.P. after one year of clinical practice, or they may pursue the Ph.D. directly following the B.S.N., prior to completion of master's-level coursework. For further information on the graduate program, contact the Office of Student Affairs or visit the school website (<http://nursing.unc.edu/>).

The school works closely with University Career Services to prepare all B.S.N. graduates for the transition from student to professional nurse. A preparatory career development series and career fair are offered annually. Additionally, the school cooperates with clinical agencies across the country to make available to students an array of information on employment opportunities.

Requirements Lower-Division Courses in the General College

Students are admitted to the baccalaureate nursing program at the upper-division level. All lower-division courses must be completed by the end of the spring semester. Lower-division courses taken at another college or university must be approved for transfer by the UNC–Chapel Hill Office of Undergraduate Admissions as comparable to the courses offered on this campus. Prospective students can request an unofficial transfer evaluation to determine the status of compliance with lower-division requirements. Prospective students may submit their transcripts for review through the School of Nursing transcript evaluation request form (<https://nursing.unc.edu/programs/bachelor-of-science-in-nursing/bsn-transcript-evaluation/>).

Students must complete all First-Year Foundation requirements, all Reflection and Integration requirements, and complete at least six (6) Focus Capacity requirements (plus the Empirical Investigation Lab requirement) as part of the IDEAs in Action General Education curriculum. Special Note: Applicants must complete the two-course combination, Anatomy and Physiology I and Anatomy and Physiology II sequence from the same college/university, OR a complete course in anatomy and a complete course in physiology. If these courses are not completed on this campus, they must be approved equivalents to the courses offered at UNC–Chapel Hill.

Beginning with the fall 2020 application cycle (fall 2021 matriculation), the 5-semester B.S.N. option is open to first degree applicants only. Students holding a bachelor's degree in another field may apply to the 4-semester accelerated B.S.N. option or the Military Pathway.

First Degree Applicants

Students seeking a first bachelor's degree are admitted to the upper-division (junior/senior) B.S.N. (five-semester) option, typically in the spring semester of the sophomore year. Students must complete all lower-division (first-year/sophomore) courses by the end of the spring semester prior to matriculating into the School of Nursing. The first nursing courses begin in the fall of the junior year.

Students seeking a first bachelor's degree who are Armed Forces Veterans or Active Duty service members from any branch, including past service in the Reserves or National Guard, may choose to apply to the Military Pathway. The requirements for the Military Pathway are the same as those for the B.S.N. (5-semester) option.

Beginning in Fall 2026, the UNC–Chapel Hill School of Nursing launched the Assured Admission program for first-time applicants to UNC Undergraduate Admissions. Applicants are identified through a holistic review of their undergraduate application, and no separate or supplemental application is required. Selection is based on exceptional academic achievement, meaningful extracurricular involvement, and demonstrated interest in the nursing profession.

Admission Criteria

Admission to the UNC–Chapel Hill School of Nursing is competitive. The minimum cumulative GPA for admission to the B.S.N. option or Military Pathway is 2.8 on a 4.0 scale, and the minimum cumulative GPA for the A.B.S.N. option is 3.0 on a 4.0 scale. Applicants seeking admission to the A.B.S.N. as second-degree students must have completed their first degree by the December prior to the start of the program and must be eligible to return to all previously attended institutions.

At the time of application, A.B.S.N. applicants must have completed at least three of the five key prerequisite science courses, including Anatomy or Anatomy and Physiology I. Applicants to the B.S.N. or Military Pathway must also have completed at least three of the five science prerequisites by the application deadline, including Anatomy and Physiology I. The five key science prerequisites are BIOL 252/252L, BIOL 253/253L, MCRO 251 (with lab), PSYC 101, and STOR 151, STOR 155, or STOR 120. For first-degree students, additional requirements include CHEM 101/101L and CHEM 102/102L or BIOC 107 and BIOC 108.

BIOL 252/252L, BIOL 253/253L, and MCRO 251 must have been completed within the past five years. PSYC 101 and STOR 151 or STOR 155 must have been completed within the past ten years. Beginning with the May 2022 application cycle, A.B.S.N. applicants must also have a minimum GPA of 3.0 in the five key science courses at the time of application. Admissions committee review follows the process described above.

Code	Title	Hours
Prerequisite Courses		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
or BIOC 107	Introduction to Biochemistry	
CHEM 102 & 102L	 General Descriptive Chemistry II and  Quantitative Chemistry Laboratory II ^{H, F}	4
or BIOC 108	Introduction to Biochemistry	

Key Science Courses

BIOL 252 & 252L	 Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^{1,4, H}	4
BIOL 253 & 253L	Advanced Human Anatomy and Physiology and Advanced Human Anatomy and Physiology Laboratory ^{1,4}	4
MCRO 251	Introductory Medical Microbiology ^{1,4}	4
PSYC 101	 General Psychology ^{2,5, F}	3
One course from the following:		3
STOR 151	 Introduction to Data Analysis ^{2,5}	
STOR 155	 Introduction to Data Models and Inference ^{2,3,5, H, F}	

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A grade of B- or better is required.

² A grade of C or better is required.

³ STOR 155 is strongly recommended for students interested in graduate study.

⁴ Must have been completed within the past **five** years.

⁵ Must have been completed within the past **ten** years.

The admissions committee critically evaluates each applicant's academic performance, descriptive essays, community service history, and special skills and abilities that have the potential to affect care delivery or contribute overall to the nursing profession. The ideal applicant will clearly demonstrate a strong academic history as well as a commitment to the ideology of nursing and service to others. Performance in required science courses is particularly important.

Second Degree Applicants

Students who have completed a bachelor's degree in a subject other than nursing may pursue admission to the accelerated and intensive A.B.S.N. (four-semester) option. Second degree students will have 60 credit hours from their previous degree counted toward the B.S.N. degree. Applicants must complete (or verify completion as part of their previous degree) only five courses from the lower-division requirements.

Students who have completed bachelor's degree in a subject other than nursing who are Armed Forces Veterans or Active Duty service members from any branch, including past service in the Reserves or National Guard may choose to apply to the Military Pathway.

Code	Title	Hours
BIOL 252 & 252L	 Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^{1,4, H}	4

BIOL 253 & 253L	Advanced Human Anatomy and Physiology and Advanced Human Anatomy and Physiology Laboratory ^{1,4}	4
MCRO 251	Introductory Medical Microbiology ^{1,4}	4
PSYC 101	 General Psychology ^{2,5, F}	3
One course from the following:		3
STOR 151	 Introduction to Data Analysis ^{2,5}	
STOR 155	 Introduction to Data Models and Inference ^{2,3,5, H, F}	

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A grade of B- or better is required.

² A grade of C or better is required.

³ STOR 155 is strongly recommended for students interested in graduate study.

⁴ Must have been completed within the past **five** years.

⁵ Must have been completed within the past **ten** years.

Application

Applications for the B.S.N. option and B.S.N. Military Pathway option may be submitted by the December deadline for fall (August) matriculation, while applications to the A.B.S.N. option may be submitted by the August deadline for summer (May) matriculation. The application link, instructions, deadlines, and decision timeframe can be found on the School of Nursing website (<https://nursing.unc.edu/academic-programs/bsn/apply/>).

Nursing Major, B.S.N.

Courses in the nursing major are taken at the upper-division level. The courses build on a strong foundation in the sciences and humanities to develop the knowledge and skills needed to practice nursing in contemporary society. Clinical experiences take place in a broad variety of settings that reflect current patterns of health care delivery and provide opportunities for students to develop competence in empathetic care, critical thinking, technical skills, clinical judgment and decision making, interdisciplinary collaboration, and management of care.

Admission (p. 100) to the program is required.

Program of Study

The School of Nursing at the University of North Carolina at Chapel Hill offers an undergraduate program of study designed to provide students with the knowledge, skill, and understanding necessary to function effectively in all areas of professional nursing. The curriculum leading to the bachelor of science in nursing (B.S.N.) degree offers three options for study:

1. Two years of upper-division courses in the School of Nursing, which follow two years of lower-division courses in the General College (or equivalent courses completed at another college/university)
2. An accelerated second degree option for students with a previous bachelor's degree (A.B.S.N. Option).
3. Military Pathway option for armed forces veterans and active duty service members from any branch, including past service in the Reserves or National Guard. See School of Nursing website (<https://nursing.unc.edu/academic-programs/bsn/apply-military/>) for additional details.

Students are subject to the requirements in place when they are admitted to the School of Nursing. Students admitted in prior years followed previous plans of study in the catalog year in which they were admitted to the School of Nursing.

Critical Information for ALL Nursing Students

Essential Standards for Admission, Progression, and Graduation

The curricula leading to degrees in nursing from the University of North Carolina at Chapel Hill School of Nursing require students to engage in diverse and complex experiences directed at the acquisition and practice of essential nursing skills and functions. Unique combinations of cognitive, affective, psychomotor, physical, and social abilities are required to perform these functions satisfactorily. In addition to being essential to the successful completion of the requirements of a nursing degree, these skills and functions are necessary to ensure the health and safety of patients, fellow students, faculty members, and other health care providers.

The Essential Standards document describes the nonacademic qualifications, required in addition to academic qualifications, which the school considers critical for entrance to, continuation in, and graduation from a UNC–Chapel Hill School of Nursing degree program. Candidates for nursing degrees, with the exception noted for selected graduate programs, must be able to meet these minimum standards, with or without reasonable accommodation, for successful completion of degree requirements. Refer to the school's website (<https://nursing.unc.edu/academic-programs/bsn/>) for additional information.

Professional Risk

The practice of nursing involves the care of individuals who are ill or injured. Communicable diseases are common in health care delivery settings and may be a threat to nursing students. During the performance of clinical practice/research activities, a student may have contact with patients/subjects with COVID-19 and variants, HIV/AIDS, tuberculosis, hepatitis B, hepatitis C, and other infections. Such contact, although rare when proper preventive measures are used, may result in a student's being exposed to infectious agents and/or transmitting an infectious disease to other students, faculty members, patients, family members, and subjects. During pregnancy, the fetus may be at risk. Students enrolled in the School of Nursing at UNC–Chapel Hill are expected to provide care to patients who may have known or unknown communicable diseases. Application to and acceptance of an offer from the School of Nursing indicates a student's understanding of related professional risks.

Fitness for Practice

All students admitted to the School of Nursing are required by the North Carolina Board of Nursing to provide documentation of their fitness to provide safe nursing care to the public. Failure to provide requisite documentation will result in the withdrawal of the admission offer. Additionally, North Carolina law requires incoming students to present to the University, before the first day of enrollment, evidence verifying that the student has received all required immunizations.

Further, federal and state statutory regulations and clinical affiliate contractual mandates require that nursing students demonstrate particular cognitive and clinical competencies consistent with minimum professional practice standards. Students must attain and maintain full compliance with all such requirements. The school also requires students to undergo, at the student's expense, a 12-panel urine drug screen and a criminal history database check following admission acceptance. The check covers all addresses where the student has lived, worked, or attended an educational institution in the past seven years or since the 16th birthday, whichever is less. Database checks will address all criminal

charges, felony and misdemeanor level convictions (except minor traffic related violations), and the Sexual Offender/Predator Registry for all states in which the student has lived. Reports are shared with clinical agencies that require that all charges be resolved prior to the start of clinical practice. Clinical agencies may impose additional requirements at their discretion, which must be completed at the student's expense. Questions about these requirements may be directed to the Clinical Support Division.

Disability Statement

Consistent with its mission and philosophy, the School of Nursing at the University of North Carolina at Chapel Hill is committed to providing educational opportunities to students with disabilities. In accordance with the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act, the school provides reasonable accommodations to otherwise qualified students with disabilities. The decision regarding appropriate accommodations will be based on the specifics of each case.

Students who seek reasonable accommodations for disabilities must contact the University Compliance Office (<https://compliance.unc.edu/>) ([919] 962-8300). Staff in this office will determine a student's eligibility for, and recommend, appropriate accommodations and services.

Computer Requirements

All School of Nursing students are required to use email for conveying course/clinical/research/other school-related business. All email communication regarding School of Nursing matters must utilize the student's University email address only. The use of external email services is not permitted. School of Nursing courses use the Canvas learning management system, which requires frequent reliable access to Internet resources. For both these reasons, easy access to personal computers and the Web are imperative. Students have access to PC laboratory facilities across campus.

All B.S.N. and A.B.S.N. option students are required to have a laptop computer that meets the minimum requirements specified for the preloaded laptop computers available through the University's Carolina Computing Initiative (CCI) program (<http://cci.unc.edu/new-students/minimum-laptop-requirement/>). Choosing a vendor for the laptop purchase is the student's prerogative; however, it is important to note that the University provides "software and operating system support for non-CCI laptops on a best-effort basis. Hardware support for non-CCI laptops is the responsibility of the owner" (source: CCI.unc.edu (<http://CCI.unc.edu>)). In addition to the computer itself, students must have an Internet service provider (ISP) and an account for a high-speed access service.

Of note: The School of Nursing uses ExamSoft for testing. Students are required to purchase this program and ensure computer compatibility with the program.

Vehicular Requirements

Because of the broad scope of clinical facilities and locations, **undergraduate nursing students must have access to a car.** For information about the North Carolina requirements for automobile liability insurance, vehicle registration, and operator's license, write to the North Carolina Department of Motor Vehicles, Raleigh, N.C. 27602. Students and/or parents are responsible for maintaining appropriate insurance coverage. Some insurance companies may consider such travel as "business driving." Expenses for travel are the responsibility of the student.

Registered Nurse Licensure Examination Requirements

The North Carolina Board of Nursing (NCBON) requires all graduates of the School of Nursing who apply to take the National Council Licensure Examination (NCLEX) to undergo a routine criminal background check, which necessitates submission of a complete set of fingerprints with the NCLEX application. A Social Security Number is required for the licensure application to the NCBON.

New Student Orientation

All newly admitted undergraduate students are required to attend a mandatory orientation session prior to the start of courses during their first semester. To determine when classes begin, view the University's academic calendar (<https://registrar.unc.edu/chancellor-calendar/>). UNC-Chapel Hill students who are studying abroad in the spring semester prior to matriculation should ensure their study abroad program will allow them to return to Chapel Hill prior to the new student orientation.

Student Learning Outcomes

The student learning outcomes described in this catalog apply to students admitted to the School of Nursing during the 2025–2026 academic year and beyond. Students admitted in prior years will be held to the expectations of the student learning outcomes in the catalog year in which they were admitted to the School of Nursing.

The B.S.N. program prepares graduates to:

1. Integrate foundational nursing knowledge, theories, and scientific principles to provide safe and effective care across diverse healthcare settings.
2. Apply clinical reasoning and evidence-based practice to person-centered care, addressing the unique needs, values, and preferences of individuals and populations.
3. Implement nursing interventions that promote health equity and prevent disease, addressing social drivers of health using population-based health data.
4. Examine current research and quality improvement initiatives to enhance nursing practice and contribute to improved patient outcomes.
5. Demonstrate principles of quality and safety that enhance nursing care across populations and minimize harm.
6. Apply leadership and advocacy skills within interdisciplinary healthcare teams to coordinate and optimize person-centered care.
7. Examine healthcare systems, policies, and financial structures to determine their impact on nursing practice and care delivery.
8. Employ digital health technologies and informatics to support decision-making, safety in care delivery, and care coordination.
9. Demonstrate ethical and legal principles and behaviors to engage in reflective practice, advocate for social justice, uphold patient rights and confidentiality, and promote professional identity.
10. Engage in lifelong learning, reflective practice, and leadership development to continuously enhance nursing competence in evolving healthcare environments.

Requirements of the Major

A.B.S.N. and B.S.N. Options

Students are admitted to the baccalaureate nursing program at the upper-division level. All lower-division courses must be completed before

beginning nursing courses; see the admission criteria and prerequisite information in the Catalog (p. 100).

Students are subject to the requirements in place when they are admitted to the School of Nursing; consequently, the requirements described in this catalog particularly apply to students admitted to the School of Nursing during the **2025–2026** academic year and beyond. Students admitted in prior years will follow the plans of study in the catalog year in which they were admitted to the School of Nursing.

Code	Title	Hours
Core Requirements		
NURS 301	 Building Effective Relationships in Healthcare: Carolina Core I	3
NURS 302	 Research, Ethics, and Innovation: Carolina Core II	3
NURS 310	Clinical Nursing Skills and Health Assessment I: On Campus Clinical I	2
NURS 311	Clinical Nursing Skills and Health Assessment II: On Campus Clinical II	1

¹ A total of 3 hours of NURS elective is required. This may be a single course, or multiple NURS courses that total at least 3 hours. NURS electives may be taken in any semester.

Military Option

Individual plans of study will be developed for each admitted student.

Special Opportunities in Nursing

Departmental Involvement

Students are encouraged to participate in student leadership opportunities. These include the elected class governance system, the Baccalaureate Executive Committee, the Dean's Student Advisory Council, the Association of Nursing Students (the only pre-professional nursing organization available), the Student Health Action Coalition, and a variety of special interest groups.

Experiential Education

The nursing program requires extensive direct clinical practice in a variety of acute care, chronic care, and community-based settings considered essential for the preparation of competent practitioners. Clinical contact time varies by study option and course.

Financial Aid

Students granted admission to the School of Nursing seeking the baccalaureate degree at UNC–Chapel Hill may be considered for a variety of nursing-specific scholarships and other financial aid opportunities. For assistance, contact the Office of Scholarships and Student Aid by phone at (919) 962-8396 or through the Web at studentaid.unc.edu (<http://studentaid.unc.edu>), or call the Office of Students Affairs at (919) 966-4260.

Study Abroad

Students are encouraged to participate in a variety of study abroad options offered through elective courses. Opportunities vary each academic year.

Undergraduate Awards

During the final semester of study, high achieving students (GPA $\geq$ 3.5) in each option will be invited to membership in Sigma Theta Tau International Nursing Honor Society. The George Livas Award recognizes the graduating student who most clearly demonstrates academic excellence and leadership.

Undergraduate Research

Through the honors program (<http://honorscarolina.unc.edu>) the University and the School of Nursing recognize undergraduates who have demonstrated exceptional academic ability and independent work in their major. Qualified and interested first degree BSN students in their last two semesters of study will be paired with a faculty advisor who guides the student in an independent study honors project. The Assistant Dean for the undergraduate program supervises the honors program. Students participating in the honors program must have a cumulative University grade point average that meets University requirements. In addition, students must have and maintain a 3.4 cumulative nursing grade point average. Calculation of the cumulative grade point average is based solely on the required hours earned to date for the nursing degree. Grade point averages are not rounded. The student and honors advisor work together to develop a plan for the project, and the student must register for NURS 691H and NURS 692H. Each honors course carries three hours of credit and is assigned a letter grade by the advisor. A student's project must show evidence of independent, creative, abstract, analytical, and critical thinking.

UNC Eshelman School of Pharmacy

Introduction

Pharmacists are drug information experts and are among the most trusted and most accessible health care professionals. Generalists practice in a variety of environments, including community pharmacies, health-system pharmacies, and the pharmaceutical and health care industries. Specialty pharmacy practitioners pursue training beyond the doctor of pharmacy (Pharm.D.) through residencies and fellowships and may ultimately practice in areas such as pediatrics, geriatrics, cardiology, oncology, ambulatory/community care, and others.

Pharmacists evaluate complex approaches to drug therapy and advise patients and other health care professionals on strategies to achieve the best results from pharmaceutical care. Other pharmacists are engaged in practices that monitor, manage, and implement policies affecting drug prescription and use across large groups of patients, such as those enrolled in a health plan.

The UNC Eshelman School of Pharmacy's doctor of pharmacy is a 4-year professional program that offers a curriculum centered on patient care. Our Pharm.D. program offers a highly immersive curricula, with patient care immersion experiences commencing during students' second year of study.

Advising

In the UNC Eshelman School of Pharmacy, advising is a form of teaching. Faculty advisors serve as content experts and mentors and are assigned to new students prior to the first semester of study. To fully maximize both curricular and co-curricular experiences, students are encouraged to schedule consistent and ongoing advising appointments throughout the course of their study.

Career Opportunities

Pharmacy offers a variety of opportunities for career advancement and job security in all areas of the health care system, including:

- Community pharmacy, as a practitioner or a manager in a retail pharmacy, clinic, or office practice
- Health system pharmacy, as a practitioner, supervisor, or manager in large or small hospitals, nursing homes, extended care facilities, and health-maintenance organizations
- Pharmaceutical industry, in positions involving research, production, product development, product marketing, and drug information
- Government, in the United States Public Health Service, Veterans Administration, Drug Enforcement Administration, Food and Drug Administration, and military services

Admission Requirements

The doctor of pharmacy requires at least two years of undergraduate study (at least 60 credit hours), followed by four years of study in the professional program.

Applicants must complete all prerequisites by the end of May of the year they plan to enroll.

Students who will have earned a baccalaureate degree prior to enrolling in their first year of the program must complete the math and science prerequisites only.

Students who will not have earned a baccalaureate degree prior to enrolling in their first year of the program must complete both the math and science prerequisites and the general education requirements.

Application Procedures

Students applying to the UNC Eshelman School of Pharmacy must submit complete applications to the Pharm.D. program through the Pharmacy College Application Service (PharmCAS). For application deadlines, processes, and procedures, visit the website (<http://www.pharmacy.unc.edu>).

Prerequisites

All prerequisite courses must be completed with a letter grade of C minus or better (not Pass/Fail).

If you have a bachelor's degree:

Code	Title	Hours
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	 General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
CHEM 241 & 241L	Modern Analytical Methods for Separation and Characterization and Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds ^{1, H}	4
CHEM 261	Introduction to Organic Chemistry I ^H	3
CHEM 262 & 262L	Introduction to Organic Chemistry II and  Laboratory in Organic Chemistry ^H	4
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
BIOL 252 & 252L	 Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^H	4
MCRO 251	Introductory Medical Microbiology	4
PHYS 114	 General Physics I: For Students of the Life Sciences ^F	4
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
STOR 151 or STOR 155	 Introduction to Data Analysis and  Introduction to Data Models and Inference	3
CHEM 430 or CHEM 433	Introduction to Biological Chemistry ^H and Introduction to Biochemistry for Majors	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Only required for students completing prerequisite courses at UNC–Chapel Hill.

² Not required of students completing CHEM 241/CHEM 241L at UNC–Chapel Hill.

If you do not have a bachelor's degree:

Students enrolling in the program without a bachelor's degree are required to complete at least two years of undergraduate coursework (at least 60 semester credit hours) including the math, science, and general education prerequisites from a regionally accredited institution.

CHEM 430 or CHEM 433	Introduction to Biological Chemistry ^H and Introduction to Biochemistry for Majors	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Only required for students completing prerequisite courses at UNC–Chapel Hill.

² Not required of students completing CHEM 241/CHEM 241L at UNC–Chapel Hill.

General Education Prerequisites

English 105 (Composition and Rhetoric) 3

Social sciences; 2 courses; 6
examples of accepted courses include psychology, sociology, economics, political science, and anthropology

Humanities; two courses; examples 6
of accepted courses include English, history, philosophy, ethics, ethnic and gender studies, social justice, or foreign language study

Professional Degree

- Doctor of Pharmacy (Pharm.D.) (<https://catalog.unc.edu/undergraduate/programs-study/pharmd/>)

Minor

- Pharmaceutical Sciences Minor (p. 110)

Graduate Programs

- M.S. in Pharmaceutical Sciences (<https://catalog.unc.edu/graduate/schools-departments/eshelman-school-pharmacy/>)
- M.P.S. in Regulatory Science (<https://catalog.unc.edu/graduate/schools-departments/eshelman-school-pharmacy/>)
- Ph.D. in Pharmaceutical Sciences (<https://catalog.unc.edu/graduate/schools-departments/eshelman-school-pharmacy/>)

See the Eshelman School of Pharmacy directory (<https://pharmacy.unc.edu/directory/>) for a list of faculty and staff.

PHCY–Pharmacy

All courses and electives for the Pharm.D. program are listed below by year in the curriculum. See the Student Handbook (<https://pharmdstudenthandbook.web.unc.edu/>) and the program's Web site (<https://pharmacy.unc.edu/education/pharmd/>) for information about course sequence by semester.

Professional Year 1

Pharmaceutical Sciences Minor

Pharmaceuticals are a major part of the health industry. The minor in pharmaceutical sciences (<https://pharmacy.unc.edu/minor-in-pharmaceutical-sciences/>) is designed to expose undergraduate students to core areas of pharmaceutical science in preparation for advanced degrees in the health science professions, pharmaceutical sciences research, and graduate programs in fields such as chemistry as well as careers in pharmacy, pharmaceutical research, biomedical sciences, or the pharmaceutical industry. Students will learn the foundations of pharmaceutical discovery, development, disposition, and application.

Upon completion of the pharmaceutical sciences minor, students should be able to:

- Identify methods in which pharmaceuticals are researched and developed
- Describe how pharmaceuticals interact with the human body
- Compare methods of formulation, manufacturing, and testing of pharmaceutical dosage forms
- Explain how basic sciences play a role in the development of modern therapeutics

Admissions

The minor is available to all undergraduate students. Students must fulfill specific prerequisite requirements (see Requirements tab) and submit an application. Applications will be accepted each year in the first six weeks of the fall semester. The application requires the following information:

- GPA (minimum 3.0)
- Grades for any courses already completed in chemistry, math, and biology
- A brief statement (approx. 500 words) explaining why you are interested in the field of pharmaceutical sciences

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Admission Requirements

Code	Title	Hours
Students must complete the following courses:		
CHEM 261	Introduction to Organic Chemistry I ^H	3
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
Students must complete or be enrolled simultaneously in the following courses:		
CHEM 262	Introduction to Organic Chemistry II ^H	3
It is also strongly advised that students have already completed the following courses:		
BIOL 240	Cell Biology ^H	3
BIOL 252	 Fundamentals of Human Anatomy and Physiology (or comparable course) ^H	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Program Requirements

Code	Title	Hours
Core Requirements		
PHRS 175	Principles of Pharmacy and Pharmaceutical Sciences (spring only)	1
PHRS 502	Making Medicines: Drug Discovery, Development, and Approval	1
Additional elective courses chosen from the following list:		13
PHRS 395	Research in Pharmaceutical Sciences	
PHRS 501	Fundamentals of Regulatory Affairs	
PHRS 504	Biochemical Foundations of Chemical Biology	
PHRS 507	Molecular Foundations of Chemical Biology: Organic and Medicinal Chemistry	
PHRS 515	Evaluation Research and Project Design	
PHRS 516	Foundations in Implementation Science: Examples in Precision Health and Society ¹	
PHRS 517	Data Science in Pharmacy	
PHRS 538	Nanomedicine ¹	
PHRS 564	Advances in Drug Delivery	
PHRS 596	Pharmaceutical Sciences Seminar in Chemical Biology and Medicinal Chemistry ²	
PHRS 597	Pharmaceutical Sciences Seminar in Pharmacotherapy and Experimental Therapeutics ²	
PHRS 598	Pharmaceutical Sciences Seminar in Pharmacoengineering and Molecular Pharmaceutics ²	
PHRS 599	Pharmaceutical Sciences Seminar in Pharmaceutical Outcomes and Policy ²	
Total Hours		15

¹ These courses have prerequisites that are not required for the minor.

² Only two seminars will count toward the minor. Each seminar can only be taken once, regardless of grade received.

Summer School

History

In 1877, The University of North Carolina at Chapel Hill established one of the first summer schools in the United States. It enrolled 235 students in courses from 10 disciplines. Students came from 42 North Carolina counties and several neighboring states. Women were also first admitted into University courses during this summer session.

The University has continued annually to provide a wide offering of summer academic opportunities to the people of North Carolina and other residents from this country and abroad.

Opportunities

The College of Arts and Sciences as well as many professional schools offer summer courses for undergraduate and graduate students. The Summer School is central to the teaching mission of the University. Summer courses are of the same quality and provide the same credit as corresponding courses in the fall or spring terms.

Summer School courses relieve pressure on fall and spring enrollments, create opportunities to enhance students' programs, increase student access to courses in non-major fields and other schools, and ensure that students can complete their degree requirements in a timely manner.

Summer also allows incoming students the opportunity to take courses and become acclimated to campus before the fall term begins.

Because some subjects are best learned in an intensive and concentrated way, summer provides a time when students can focus on a single field. This is particularly useful for some laboratory experiences, concentrated arts courses, and foreign languages. Some curricula require field study or research projects, and summer uniquely allows time for these studies.

The total number of students is also fewer in the summer, and the mix includes a higher proportion of nontraditional and visiting students than during the fall or spring terms. Because class sizes are typically smaller, students interact more with faculty members and with each other.

Finally, summer is a time for faculty members to develop and experiment with new content and teaching models that can be incorporated into fall or spring courses.

In recent summers, enrolled students have come from all 100 counties in North Carolina and all 50 states, as well as the District of Columbia, Puerto Rico, the Virgin Islands, and 60 foreign countries.

Programs

The Summer School offers two sessions of five weeks each, as well as a three-week Maymester. The available courses include many that satisfy undergraduate degree requirements.

The Summer School also offers many online courses, as well as in-person and field courses. Some offerings combine off-campus activities and on-campus classes or combine online and face-to-face learning formats.

Student Services and Advising

The Summer School coordinates and distributes information on summer course offerings for credit in all Academic Affairs units. Course offerings are available on the Summer School Web site (<https://summer.unc.edu/course-offerings/>) in mid-December. Current UNC–Chapel Hill students who need information on summer courses and early registration should contact their advisor or the relevant academic department.

All UNC–Chapel Hill majors and minors have a primary academic advisor assigned in ConnectCarolina. They are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker.

Summer School also admits and advises visiting students. A potential visiting student can find information and the online application form on the Summer School website (<https://summer.unc.edu/visiting-students/>).

Department of Aerospace Studies Introduction

The United States Air Force Reserve Officer Training Corps (AFROTC) program provides leadership training to students pursuing a career as an officer in the United States Air Force. The AFROTC program is open to students looking for a challenging career and the opportunity to support and defend the Constitution of the United States. AFROTC is more than just a department in the College of Arts and Sciences; it is a professional organization designed to provide students growth, development, and leadership opportunities beyond the classroom. Cadets learn and develop these skills through hands-on experiences both inside and outside the traditional classroom setting.

The Air Force ROTC Program Four-Year Traditional ROTC Program

This program is for students who enroll as cadets in AFROTC and plan to graduate in four years with a commission as an Air Force second lieutenant. Cadets must take aerospace studies courses, AERO 500 Leadership Laboratory, and participate in weekly physical training. In the spring of their sophomore years, cadets will compete for a spot to attend a two-week field training course in the summer. Successful completion of field training grants entry into the Professional Officer Course (POC) for their junior and senior years. Cadets in the POC refine their leadership skills and prepare for a United States Air Force active duty commission upon graduation.

Non-Traditional ROTC Program

Students who do not enroll in Air Force ROTC in their first semester may still be eligible to participate in the program. If so, they will participate in the same academic courses, leadership laboratory, and physical training as traditional cadets. All non-traditional cadets will be required to complete AERO 101, AERO 102, AERO 201, and AERO 202 prior to attending field training.

Interested Students

Students seeking to learn more about the Air Force or ROTC can take AERO 101, AERO 102, AERO 201, or AERO 202 with no obligation. These courses provide an introduction to Air Force operations and culture, providing students with the necessary information to make an informed decision about whether the Air Force interests them.

Advising

All majors and minors have a primary academic advisor. At a minimum, students who join the AFROTC program are required to meet with their advisor every fall to develop and update their academic plan. The department's education officer and academic instructors help oversee this process. For information on Air Force officer careers, please visit the AFROTC website (<https://www.afrotc.com/>).

Special Opportunities in Aerospace Studies

Scholarships and Financial Assistance

Two- and three-year scholarships may be available to students based on merit or specialized major (e.g., foreign language or nursing). In most cases, these scholarships cover tuition and fees, provide a monthly stipend (\$300 to \$500 each month), and a textbook allowance (\$450) each semester. The scholarship does not cover room and board.

Foreign Language/Study Abroad Opportunities

Air Force ROTC cadets are uniquely eligible to participate in Department of Defense language grant programs through major universities, often involving study abroad. See Project GO (<http://www.rotcprojectgo.org>) or contact the unit admissions officer for more information.

Extracurricular Activities

The AFROTC experience is more than classroom study; cadets participate in a variety of extracurricular activities. These include social functions such as a heritage dinners, fundraising events, presenting the flag at home football and basketball games, volunteer work in the community, and trips to military bases. Recent cadet activities are

highlighted on a public Facebook page (<http://www.facebook.com/UNC.AFROTC.DET590/>).

Arnold Air Society (AAS) is a national service organization dedicated to furthering the traditions, purposes, and concepts of the United States Air Force as a military organization and a professional calling. The local AAS chapter is active nationwide and AFROTC cadets attend the regional and national conventions each year.

Guaranteed Job Placement

Successful completion of the AFROTC program guarantees commission as a second lieutenant in the United States Air Force.

Aerospace Studies Minor

The aerospace studies minor is for students looking to explore topics such as heritage and values of the U.S. Air Force; the application of air power; leadership, management, and ethics training; and national security affairs with Air Force officers and AFROTC cadets. The minor in aerospace studies is open to all UNC–Chapel Hill students.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Students may select courses for the minor from the following list:		14
AERO 101	Heritage and Values of the United States Air Force	
AERO 102	Heritage and Values of the United States Air Force	

AERO 196 Independent Study

AERO 201 Team and Air Force Leadership Fundamentals

AERO 202 Team and Air Force Leadership Fundamentals II

AERO 301 Leading People and Effective Communication I

AERO 302 Leading People and Effective Communication II

AERO 393  Air and Space Expeditionary Training

AERO 401 National Security Affairs and Preparation for Active Duty

AERO 402 National Security Affairs and Preparation for Active Duty

AERO/HIST/
PWAD 213 Air Power and Modern Warfare

Department of African, African American, and Diaspora Studies

Introduction

The curriculum of the Department of African, African American, and Diaspora Studies emphasizes the histories, cultures, cultural linkages, and contemporary sociopolitical and economic realities of Africa and the African diaspora in the context of a globalizing world. Included on our faculty are award-winning teachers and recognized scholars whose work in and out of the classroom covers all major regions of Africa, the United States, and increasingly other parts of the Atlantic African Diaspora, including the Caribbean and Latin America. We approach these areas of study from multiple perspectives and disciplines, and the department's faculty members are trained in the fields of anthropology, film, history, international development studies, law, linguistics, literature, music, and political science.

Advising

We encourage students to talk with the director of undergraduate studies when they declare the major in African, African American, and Diaspora studies. The director of undergraduate studies is also available to students who are interested in the department's offerings at other times in their academic careers.

Graduate School and Career Opportunities

The skills and perspectives of African, African American, and Diaspora studies provide an excellent background for students considering careers in international development, education, business, government, or diplomacy. Students go on to a variety of managerial, teaching, and research positions. Other careers for which the major is excellent preparation include law, communication, social work, community development, and public administration.

Major

- African, African American, and Diaspora Studies Major, B.A. (p. 118)

Minors

- African Studies Minor (p. 120)
- African American and Diaspora Studies Minor (p. 121)
- Human Development, Sustainability, and Rights in Africa and the African Diaspora Minor (p. 122)

Graduate Programs

- Ph.D. in Africana Studies (<https://catalog.unc.edu/graduate/schools-departments/african-american-diaspora-studies/#text>)
- M.A. in Africana Studies (<https://catalog.unc.edu/graduate/schools-departments/african-american-diaspora-studies/#text>)

Courses

- African, African-American, and Diaspora Studies (AAAD) (<https://catalog.unc.edu/courses/aaad/>)
- Chichewa (CHWA) (<https://catalog.unc.edu/courses/chwa/>)
- Lingala Language (LGLA) (<https://catalog.unc.edu/courses/lgla/>)
- Kiswahili (SWAH) (<https://catalog.unc.edu/courses/swah/>)
- Wolof Language (WOLO) (<https://catalog.unc.edu/courses/wolo/>)
- Yoruba Language (YORU) (<https://catalog.unc.edu/courses/yoru/>)

The department has adopted the following numbering system for all AAAD courses numbered above 99:

- Courses ending in 00 to 29: African studies
- Courses ending in 30 to 59: African American studies
- Courses ending in 60 to 84: African Diaspora outside the United States
- Courses ending in 85 to 99: Courses that cross geography; dedicated courses whose numbers are reserved by the University Registrar, such as independent studies and internships.

Professors

Claude A. Clegg III, Kenneth Janken, LeRhonda Manigault-Bryant, Eunice Sahle.

Associate Professors

Maya Berry, Lydia Boyd, Brandi Brimmer, David Pier, Charlene Regester.

Assistant Professors

Shakirah Hudani, Kevin Irakoze, Nadia Mosquera Muriel, Petal Samuel.

Teaching Associate Professors

Samba Camara, Joseph Jordan, Alicia Monroe, Mohamed Mwamzandi, Robert Porter.

Teaching Assistant Professors

Victor Alabi, Raphael Birya.

Adjunct Faculty

Fenaba Addo, Anna Agbe-Davies, Shorna Allred, Naomi André, Renée Alexander Craft, Lisa Calvente, Youssef Carter, Christopher Clark, Shannon

Malone Gonzalez, Letitia Guran, Sudhanshu Handa, Taylor Hargrove, Sherick Hughes, Antwain Hunter, Lauren Jarvis, Priscilla Layne, Lisa Lindsay, Chaitra Powell, Danielle Purifoy, Antonia Randolph, Victoria Rovine, Rebecka Rutledge Fisher, Tanya Shields, J. Michael Terry, Daelena Tinnin-Gadson.

African, African American, and Diaspora Studies Major, B.A.

The curriculum of the Department of African, African American, and Diaspora Studies emphasizes the histories, cultures, cultural linkages, and contemporary sociopolitical and economic realities of Africa and the African diaspora in the context of a globalizing world. The major offers a concentration in African studies and a concentration in African American and diaspora studies.

The skills and perspectives of African, African American, and Diaspora studies provide an excellent background for students considering careers in international development, education, business, government, or diplomacy. Students go on to a variety of managerial, teaching, and research positions. Other careers for which the major is excellent preparation include law, communication, social work, community development, and public administration.

We encourage students to talk with the Director of Undergraduate Studies when they declare the major in African, African American, and Diaspora studies.

Student Learning Outcomes

Upon completion of the African, African American, and Diaspora studies program, students should be able to:

- Demonstrate in-depth knowledge of foundational intellectual currents (historical and contemporary) in African, African American, and Diaspora studies.
- Apply research skills by formulating a research project as outlined in the required literature, generating a research question, developing procedures for gathering research data, analyzing the data, and writing results and conclusions.
- Present research results effectively (clear and well-argued content, appropriate for audience, professional delivery).
- Identify and explain sources (national and global) of historical change that have shaped Africa and its diaspora

- Draw on relevant theoretical insights and empirical data to analyze historical or contemporary issues pertaining to diverse societies in Africa, African American communities, and other African diasporic formations in Europe and Latin America

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
AAAD 101	 Introduction to Africa	3
AAAD 130	 Introduction to African American and Diaspora Studies	3
AAAD 395	 Undergraduate Research Seminar (offered fall semester only)	3
AAAD 487	 Intellectual Currents in African and African Diaspora Studies (offered spring semester only)	3
Five additional AAAD courses. ¹		15
Total Hours		27

¹ First-year seminars do not count toward the major.

Recommended

Three semesters of one African language (either to fulfill the global language Gen Ed requirement or in addition to it) are recommended for the African, African American and Diaspora Studies Major. The following African language courses currently are offered:

Code	Title	Hours
Arabic:		
ARAB 101	Elementary Arabic I	4
ARAB 102	Elementary Arabic II	4
ARAB 203	 Intermediate Arabic I	4
ARAB 204	Intermediate Arabic II	4
ARAB 305	Advanced Arabic I	3
ARAB 306	Advanced Arabic II	3
Chichewa:		
CHWA 401	Elementary Chichewa I	3
CHWA 402	Elementary Chichewa II	3
CHWA 403	 Intermediate Chichewa I	3
Lingala:		
LGLA 401	Elementary Lingala I	3
LGLA 402	 Elementary Lingala II	3

LGLA 403	 Intermediate Lingala III	3
LGLA 404	Intermediate Lingala IV	3
Kiswahili:		
SWAH 112	Intensive Kiswahili 1-2	6
SWAH 234	 Intensive Kiswahili 3-4	6
SWAH 401	Elementary Kiswahili I	3
SWAH 402	Elementary Kiswahili II	3
SWAH 403	 Intermediate Kiswahili III	3
SWAH 404	 Intermediate Kiswahili IV	3
SWAH 405	 Advanced Kiswahili V	3
SWAH 406	 Advanced Plus Kiswahili VI	3
Wolof:		
WOLO 401	Elementary Wolof I	3
WOLO 402	Elementary Wolof II	3
WOLO 403	 Intermediate Wolof III	3
WOLO 404	Intermediate Wolof IV	3
Yoruba:		
YORU 401	Elementary Yoruba I	3
YORU 402	Elementary Yoruba II	3
YORU 403	 Intermediate Yoruba III	3

¹ First-year seminars do not count toward the major.

Special Opportunities in African, African American, and Diaspora Studies

Honors in African, African American, and Diaspora Studies

Students with an overall grade point average of 3.3 or higher at the beginning of their senior year *and who have already completed* AAAD 395 are encouraged to apply for candidacy for the B.A. with honors. Students interested in undertaking honors research and the writing of a thesis should consult with the department's honors coordinator no later than in their junior year to discuss the process of applying to the program. Approved candidates will enroll in AAAD 691H in the fall semester of their senior year. Upon completion of AAAD 691H and with the approval of the student's thesis director and the department's honors coordinator, students enroll in AAAD 692H in the spring semester.

Departmental Involvement

The department works closely with the African Studies Center, the Center for the Study of the American South, the Institute of African American Research, and the Sonja Haynes Stone Center for Black Culture and History. These units provide UNC–Chapel Hill and wider communities with important programming on and an opportunity for the advanced study of issues concerning Africa, African America, and other parts of the African Diaspora.

Study Abroad

The department is developing several opportunities for study abroad programs. In previous years, the department offered a summer abroad program in Malawi. Honors Carolina offers a Burch seminar in Cape Town, South Africa, during the fall semester.

Undergraduate Research

The department encourages undergraduate research. The required seminar for majors (AAAD 395) introduces students to research skills and methods in African, African American, and Diaspora studies. The honors program (AAAD 691H and AAAD 692H) offers qualified students the opportunity to engage in a yearlong process of research and writing. The department hosts an undergraduate research symposium in the spring semester, and it also publishes a scholarly journal, the *Global Africana Review*, for which undergraduates may submit articles.

Department Programs

Major

- African, African American, and Diaspora Studies Major, B.A. (p. 118)

Minors

- African Studies Minor (p. 120)
- African American and Diaspora Studies Minor (p. 121)
- Human Development, Sustainability, and Rights in Africa and the African Diaspora Minor (p. 122)

Graduate Programs

- Ph.D. in Africana Studies (<https://catalog.unc.edu/graduate/schools-departments/african-american-diaspora-studies/#text>)
- M.A. in Africana Studies (<https://catalog.unc.edu/graduate/schools-departments/african-american-diaspora-studies/#text>)

Courses

- African, African-American, and Diaspora Studies (AAAD) (<https://catalog.unc.edu/courses/aaad/>)
- Chichewa (CHWA) (<https://catalog.unc.edu/courses/chwa/>)

African Studies Minor

The curriculum of the Department of African, African American, and Diaspora Studies emphasizes the histories, cultures, cultural linkages, and contemporary sociopolitical and economic realities of Africa and the African diaspora in the context of a globalizing world.

Requirements

- In addition to the program requirements listed below, students must:
- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
 - earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The undergraduate minor in African studies consists of 15 hours.

Code	Title	Hours
Core Requirements		
AAAD 101	 Introduction to Africa	3
Four additional AAAD courses at or above the 100 level whose last two digits are from 00 to 29 or from 85 to 99. In addition, students may substitute a course from the following list of courses outside that range:		12
LGLA 404	Intermediate Lingala IV	
SWAH 404	 Intermediate Kiswahili IV	
SWAH 405	 Advanced Kiswahili V	
SWAH 406	 Advanced Plus Kiswahili VI	
WOLO 404	Intermediate Wolof IV	
Total Hours		15

Human Development, Sustainability, and Rights in Africa and the African Diaspora Minor

The minor offers students an opportunity to examine intellectual, public policy, and historical developments that have shaped the field of human development. Students enrolled in the minor systematically engage with contemporary debates pertaining to core themes underpinning the field of human development, including: food security; access to water, health, education; environmental dynamics; gender equality; sustainability (broadly defined to include building of democratic governance institutions and forms of inclusive citizenship); and human rights. In their exploration of these issues, students gain insights from anthropology, economics, environmental studies, geography, health, history, human rights, international development studies, political science, public policy, and urban and regional planning, among others. Overall, the minor provides a significant opportunity for students to explore contemporary national and global human development issues with a focus on experiences of people of African descent in Africa and the African Diaspora. The minor is open to all undergraduate students.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
AAAD 191	 Human Development, Sustainability and Rights in Africa and the African Diaspora	3
Four additional courses from the list below, at least two of which must be AAAD classes: ¹		12
AAAD 239	 Disaster, Recovery, Resistance in Southern Black History	
AAAD 300	 Cultures of Health and Healing in Africa	
AAAD 316	 Sustainable Development: Emergence, Debates, and Dynamics in Africa	
AAAD 333	 Race and Public Policy in the United States	
AAAD 351	 Class, Race, and Inequality in America	

AAAD 360	 Black Women's Struggles and Resistance in Latin America and the Caribbean
AAAD 392	 Struggles to Shape the City: Comparative Urbanism and the Politics of Place
AAAD 387	 HIV/AIDS in Africa and the Diaspora
AAAD 403	 Human Rights: Theories and Practices in Africa
AAAD 488	 Human Rights and Democracy in African Diaspora Communities
ANTH 320	Anthropology of Development
ECON 101	 Introduction to Economics ^{H, F}
ENEC 325	 Water Resource Management for Food, Energy, and Health ^H
GEOG 268	 Geography of Africa
GLBL 489	 Paradigms of Development and Social Change ^H
HIST 340	 Ethics and Business in Africa ^H
PLCY/ENEC 475	The Political Economy of Food ^H
PLCY 485	Poverty, Health, and Human Development in Low Income Countries
PLCY 662	Global Health and Human Rights

Total Hours **15**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Some courses are four (4) credit hours.

See program page here (p. 119) for special opportunities.

Department of American Studies

Introduction

What is America, and how do we study something so vast, contested, and constantly changing? The Department of American Studies at UNC–Chapel Hill takes up this question through one of the university's oldest interdisciplinary programs, with roots in the study of folklore and the American South dating back to the 1920s and a formal program established in 1968. Today, the department builds on this history with distinctive strengths in areas such as American Indian and Indigenous studies, Southern studies, cultural studies, race and ethnicity, and the study of everyday life, positioning students to examine America from multiple, intersecting perspectives. The department offers an innovative curriculum that invites students to investigate how American identities, cultures, and institutions are formed, experienced, and contested across time and space. Drawing on approaches from history, literature, anthropology, politics, and the arts, students analyze a wide range of cultural forms, from archives and oral histories to film, food, music, and material culture, to understand how meanings of "America" are produced, challenged, and transformed within and beyond the United States. Through coursework, fieldwork, and critical and creative projects, students actively engage in the work of interpretation and analysis,

developing the techniques to ask incisive questions about power, representation, and belonging. American Studies majors and minors graduate with strong skills in research, writing, and communication, as well as the capacity to think across disciplines and apply their insights in professional, public, and creative contexts across the wide variety of professions they choose to pursue.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors and minors by appointment. Further information on courses, opportunities, and honors theses may be obtained from the department's website.

Graduate School and Career Opportunities

American Studies equips students with strong analytical, research, and communication skills applicable to a wide range of careers, including public service, business, law, education, museum curation, and journalism. At its core, the major trains students to think critically about culture, power, and representation, drawing on methods from the humanities and social sciences to analyze how meanings are produced and contested. This interdisciplinary foundation prepares students for advanced study in fields such as history, literature, and anthropology. Graduates have been admitted to leading law and business schools, particularly those that value interdisciplinary training. Others pursue graduate work or careers in media, the arts, and cultural institutions, including museums, public arts organizations, and creative industries.

American Studies Major, B.A.

The major in American Studies invites students to examine what “America” means across a range peoples, cultures, and institutions, and how those meanings take shape over time and place. Students investigate how societies form and fragment, how dreams and aspirations are imagined and realized, how narratives are constructed and contested, and how histories are written and rewritten. Courses draw on interdisciplinary perspectives from the humanities and social sciences to analyze questions of culture, power, and representation in the United States and in global and comparative contexts.

Student Learning Outcomes

Upon completion of the American studies program, students should be able to:

- Demonstrate advanced critical analytical skills by interpreting and evaluating a wide range of primary historical sources and cultural texts, practices, and expressions.
- Produce sophisticated written work that evidences clarity of argumentation, precision of language, and effective communication of complex ideas.
- Synthesize and evaluate interdisciplinary methods and perspectives to analyze American social, cultural, and historical formations.
- Analyze and contextualize U.S. national traditions, narratives, and ideological formations from local, regional, transnational, and global perspectives, with attention to racial, ethnic, cultural, and ideological diversity.
- Articulate informed reflections on their academic experiences in the program, including its relevance to and preparation for postgraduate study and/or professional trajectories.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The major in American studies consists of nine courses, with at least four courses numbered 200 or higher.

Code	Title	Hours
Core Requirements		
AMST 101	 This Place Called "America"	3
Two of the following options:		6
AMST 102	 Myth and History in American Memory	
AMST/HIST 110	 Introduction to the Cultures and Histories of Native North America	

AMST 210	 This Place Called "The South"
AMST 211	 Approaches to Southern Studies: The Creative and Cultural Worlds of the American South
AMST 255	 Difference and Power in American Culture(s)
AMST 275	 Food and American Culture
AMST 277	 America's Role in the Global Environment
FOLK 202	 Everyday Cultures: Folklore in America
Six additional elective courses selected from other AMST, FOLK, and CHER courses. ^{1,2}	
18	

Additional Requirements

Of the nine (9) total courses in the major, at least four (4) must be numbered 200 or higher

Total Hours 27

¹ Not including AMST 396, AMST 493, AMST 691H, AMST 692H, FOLK 496, FOLK 691H, FOLK 692H.

² Up to three (3) Americanist courses offered outside the department, numbered 200 or higher, when approved by the Director of Undergraduate Studies.

American studies (AMST), Folklore (FOLK), and Cherokee (CHER) course descriptions (p.).

Special Opportunities in American Studies Honors in American Studies

The American Studies major offers students the opportunity to pursue research projects under the direction of outstanding faculty and to engage in a small, specially designated seminar with peers who are also writing theses. Students propose their thesis and contract with a faculty advisor during the semester prior to the beginning of their senior year. During their senior year, majors register for a thesis research seminar (AMST 691H) in the fall and enroll in an AMST 692H independent study seminar course with their faculty advisor in the spring. With the approval of the associate or the assistant dean for honors, students with a slightly lower average who have a reasonable expectation of meeting the requirement within one more semester may embark upon the honors thesis, understanding that if they do not attain the 3.3 standard they may continue the research project as independent study but are not eligible to graduate with honors or highest honors.

Experiential Education

The Department of American Studies offers a seminar on Service Learning in America (AMST 398) and offers credits for approved internship projects (AMST 493). Students have learned about American studies by serving the community in museums, schools, social agencies, and other cultural institutions. Many courses in the folklore program also offer experiential education credit through ethnographic training and fieldwork opportunities.

Study Abroad

The Department of American Studies encourages students to consider a semester or more of study abroad and has developed close relations with several American studies programs in different countries. Studying American experience in international contexts is an integral part of understanding the place and influence of the United States in the world. Student learning is enhanced by the perspectives gained by examining how American subjects are taught in universities around the globe as

well as by encountering the international students who enroll in American studies courses in Chapel Hill. Students can receive American studies major credit for selected study abroad programs and are encouraged to make study abroad part of their academic plans. Students interested in this experience should consult with the director of undergraduate studies or with the Study Abroad Office about international exchange programs sponsored by UNC–Chapel Hill. Furthermore, American studies majors and minors may apply for the Julia Preston Brumley Travel Scholarship, which is only available to American studies students, to help fund their semester and summer study abroad.

Undergraduate Awards

The department awards Julia Preston Brumley Travel Scholarships to help fund international travel and study abroad. The Peter C. Baxter Memorial Prize is awarded annually to the outstanding senior majoring in American studies. The Jenny Tone-Pah-Hote Prize is awarded annually for the outstanding senior honors thesis.

Undergraduate Research

The department offers credit for AMST 396 and FOLK 495. Majors can develop a two-semester honors thesis project (AMST 691H and AMST 692H) in consultation with an advisor. Students have received summer undergraduate research fellowships, earned research support and travel awards, and presented their work at academic conferences and at the Annual Celebration of Undergraduate Research each spring.

American Studies Major, B.A. – American Indian and Indigenous Studies Concentration

The American Indian and Indigenous Studies concentration provides a rigorous foundation in the histories, cultures, and contemporary experiences of Indigenous peoples of North America, including their encounters with colonialism, settler states, and ongoing struggles for sovereignty. The curriculum also encourages a hemispheric perspective, examining the diverse experiences and cultural practices of Indigenous peoples across the Americas. Students may petition the Director of Undergraduate Studies to have additional courses approved for major or minor credit; such requests are considered on a case-by-case basis.

Student Learning Outcomes

Upon completion of the American studies program, students should be able to:

- Demonstrate advanced critical analytical skills by interpreting and evaluating a wide range of primary historical sources and cultural texts, practices, and expressions.
- Produce sophisticated written work that evidences clarity of argumentation, precision of language, and effective communication of complex ideas.
- Synthesize and evaluate interdisciplinary methods and perspectives to analyze American social, cultural, and historical formations.
- Analyze and contextualize U.S. national traditions, narratives, and ideological formations from local, regional, transnational, and global perspectives, with attention to racial, ethnic, cultural, and ideological diversity.
- Articulate informed reflections on their academic experiences in the program, including its relevance to and preparation for postgraduate study and/or professional trajectories.

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The concentration in American Indian and indigenous studies consists of nine courses.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ With permission of the Director of Undergraduate Studies, one AMST First-Year Seminar course with relevant American Indian and Indigenous Studies (AIIIS) content can count as an elective for the major.

Special Opportunities in American Studies

Honors in American Studies

The American Studies major offers students the opportunity to pursue research projects under the direction of outstanding faculty and to engage in a small, specially designated seminar with peers who are also writing theses. Students propose their thesis and contract with a faculty advisor during the semester prior to the beginning of their senior year. During their senior year, majors register for a thesis research seminar (AMST 691H) in the fall and enroll in an AMST 692H independent study seminar course with their faculty advisor in the spring. With the approval of the associate or the assistant dean for honors, students with a slightly lower average who have a reasonable expectation of meeting the requirement within one more semester may embark upon the honors thesis, understanding that if they do not attain the 3.3 standard they may continue the research project as independent study but are not eligible to graduate with honors or highest honors.

Experiential Education

The Department of American Studies offers a seminar on Service Learning in America (AMST 398) and offers credits for approved internship projects (AMST 493). Students have learned about American studies by serving the community in museums, schools, social agencies, and other cultural institutions. Many courses in the folklore program also

offer experiential education credit through ethnographic training and fieldwork opportunities.

Study Abroad

The Department of American Studies encourages students to consider a semester or more of study abroad and has developed close relations with several American studies programs in different countries. Studying American experience in international contexts is an integral part of understanding the place and influence of the United States in the world. Student learning is enhanced by the perspectives gained by examining how American subjects are taught in universities around the globe as well as by encountering the international students who enroll in American studies courses in Chapel Hill. Students can receive American studies major credit for selected study abroad programs and are encouraged to make study abroad part of their academic plans. Students interested in this experience should consult with the director of undergraduate studies or with the Study Abroad Office about international exchange programs sponsored by UNC–Chapel Hill. Furthermore, American studies majors and minors may apply for the Julia Preston Brumley Travel Scholarship, which is only available to American studies students, to help fund their semester and summer study abroad.

Undergraduate Awards

The department awards Julia Preston Brumley Travel Scholarships to help fund international travel and study abroad. The Peter C. Baxter Memorial Prize is awarded annually to the outstanding senior majoring in American studies. The Jenny Tone-Pah-Hote Prize is awarded annually for the outstanding senior honors thesis.

Undergraduate Research

The department offers credit for AMST 396 and FOLK 495. Majors can develop a two-semester honors thesis project (AMST 691H and AMST 692H) in consultation with an advisor. Students have received summer undergraduate research fellowships, earned research support and travel awards, and presented their work at academic conferences and at the Annual Celebration of Undergraduate Research each spring.

American Studies Minor

The five-course minor in American Studies invites students to explore how American societies, cultures, and institutions are created, expressed, and contested. Drawing on interdisciplinary approaches from the humanities and social sciences, our courses examine historical, literary, artistic, political, economic, legal, and social perspectives to illuminate the vast array of experiences and identities that shape life in the United States. Students also engage with global and comparative contexts, considering how American meanings and practices intersect with broader transnational dynamics.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The undergraduate minor in American studies consists of five courses in American studies.

Department of Anthropology

Introduction

Anthropology is the integrative study of human beings at all times and in all places. Anthropological expertise has special application for hidden histories and the ancient past; the intersection of human biology and ecology; and the way communities create and use meaning, values, and history in everyday life. We support studies, research, and professional

applications in these areas with three programs of foundational training: archaeology; human biology, ecology, and evolution; and sociocultural anthropology.

Cutting across these specializations, the department supports concentrations that integrate anthropology's diverse expertise to address contemporary world problems. Programming in these areas helps students connect their anthropological studies to work and life beyond the University. Current concentrations focus on health, medicine, and humanity; heritage and unwritten histories; global engagement; race, place and power; and food, environment, and sustainability.

Together, the Department of Anthropology's programs and concentrations offer the undergraduate student one of the best introductions possible to our biological and cultural pasts and to our contemporary world. Anthropology majors thus develop the written and oral skills needed to live and work in a complex world marked by an accelerated rate of environmental, social, and cultural change. Anthropology majors acquire general knowledge and skills valued within a large number of occupations and professions, including but not limited to professional anthropology.

Advising

All majors and minors have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies (see "Contact Information" above) works with current and prospective majors and minors by appointment. Students are encouraged to consult with the director of undergraduate studies about course choices and field work opportunities. Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, and the honors program may be obtained from the department's website (<https://anthropology.unc.edu/>).

Graduate School and Career Opportunities

The resources and professional staff of University Career Services and the department's director of undergraduate studies can provide guidance. Additionally, students are encouraged to reach out to any Anthropology faculty member they take a class with to ask about career advising. There are three basic career paths for B.A.-level anthropology majors:

- Anthropology majors have open to them all of the career options of any student with a bachelor of arts degree in the liberal arts and social sciences, with the added advantage that they are more prepared than most in the growing international arena of business, government, and nongovernmental organizations (NGOs).
- Anthropology majors can seek a career that puts their anthropology degree directly into practice through applied work, working for larger research teams, or jobs in cultural resource management.
- Lastly, anthropology majors can continue with graduate education in order to seek a career in education, either as a social studies teacher at a school or a professor at a university.

Major

- Anthropology Major, B.A. (p. 131)
- Medical Anthropology Major, B.A. (p. 134)

Anthropology Major, B.A.

Anthropology is the integrative study of human beings at all times and in all places. Anthropological expertise has special application for hidden histories and the ancient past; the intersection of human biology and ecology; and the way communities create and use meaning, values, and history in everyday life. Students interested in choosing anthropology as a major or minor should visit the department's website (<http://anthropology.unc.edu>) and click on the link for the undergraduate program. Students planning a major in anthropology should contact the department's Director of Undergraduate Studies with any questions or concerns. Majors may consult with the Director of Undergraduate Studies on a regular basis for assistance or information about their path through the program.

Student Learning Outcomes

Upon completion of the anthropology program, students should be able to:

- Discuss and critically assess theories and concepts for the study of social, cultural, and biological forms, phenomena, and change in the human species
- Engage in the coherent, holistic, integrative study of humans over time and space
- Demonstrate an in-depth knowledge of human social, cultural, and biological heterogeneity, within a framework that affirms the essential unity of the human species

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
One course from biological anthropology chosen from the following list:		3
ANTH 143	Human Evolution and Adaptation

ANTH 330	 Melancholy Japan: Myth, Memory, and Everyday Life	
ANTH 331	 The Anthropology of Memory	
ANTH 361	Community in India and South Asia	
One theoretical perspectives course chosen from the following list (taken in the junior year): ¹		3
ANTH 291	 Archaeological Theory and Practice	
ANTH 294	 Anthropological Perspectives on Society and Culture	
ANTH 298	 Biological Anthropology Theory and Practice	
Capstone Seminar in Anthropology		3

ANTH 490	Undergraduate Seminar in Anthropology	
Four additional three-hour courses in anthropology		12
Additional Requirements		
No more than three courses used to fulfill the major can be numbered below 200.		
No more than six hours of field-oriented coursework can be counted toward the major.		
ANTH 393	 Internship in Anthropology	
ANTH 395	Research in Anthropology ^H	
ANTH 451	 Field School in North American Archaeology ^H	
ANTH 453	Field School in South American Archaeology ^H	
No more than three hours of coursework from the following list may be counted toward the major:		
ANTH 93	 UNITAS	
ANTH 195	Research in Anthropology I	
ANTH 196	Independent Reading or Study in Anthropology I	
ANTH 295	Research in Anthropology II	
ANTH 296	Independent Reading or Study in Anthropology II	
ANTH 396	Independent Reading or Study in Anthropology ^H	
ANTH 691H	 Seniors Honors Project in Anthropology	
ANTH 692H	 Senior Honors Thesis in Anthropology	
Total Hours		27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ The theoretical perspectives requirement serves as the major's core course; it offers an integrative perspective on the theories and history of anthropology and explores what it means to be an anthropologist. Majors should fulfill this requirement in their junior year. If they cannot do so, they should consult with the director of undergraduate studies.

The department recommends that majors enroll in some field-oriented coursework such as ANTH 393, ANTH 395, ANTH 451, ANTH 453, or in study abroad coursework.

Special Opportunities in Anthropology

Honors in Anthropology

Writing an honors thesis is an excellent way to cap one's major in anthropology. The process offers students the chance to carry out original research on a topic that they are passionate about. Our thesis writers work closely with a faculty advisor and committee members to develop their project during their junior year. The department provides support, offering a specific seminar during the fall (ANTH 691H) and a corresponding independent study or seminar course (ANTH 692H), that together walk students through the essential steps of writing up their research. For our students, writing an honors thesis continues to prove a pivotal experience—at once a capstone to their studies at Carolina and an achievement to carry with them into their lives and careers beyond.

To pursue an honors thesis project, students must:

- Be majoring in one of the department's majors.
- Maintain a minimum grade point average of 3.3 from the spring semester of the junior year through the entirety of the senior year.

- Secure a primary faculty advisor from the department during the junior year.
- Successfully complete the ANTH 691H and ANTH 692H sequence.
- Successfully complete any other research methods requirement as offered by the department for that honors cohort. See the Director of Undergraduate Studies for questions about this requirement.
- Receive approval from UNC's Office for Human Research Ethics prior to the start of research, for all projects involving human subjects.

The process for approval requires several steps:

- Students considering an honors thesis should first contact the honors thesis seminar instructor or the Director of Undergraduate Studies, during their junior year (or earlier).
- Eligible students next should secure an advisor prior to enrolling in ANTH 691H for the fall semester of their senior year. Typically, the advisor is a professor that they have worked with in a class or faculty member with shared interests.
- The bulk of data gathering should occur in the spring and summer after the junior year unless the student is working on an existing data set.
- In the fall students develop their research, analyze their data, and begin to write their thesis ANTH 691H. Students also form their committee, by adding two additional faculty members.
- In the spring, students complete an independent study with their advisor, focusing on writing the thesis ANTH 692H or take ANTH 692H as a seminar (if offered).
- To complete the process, students defend (i.e., present and discuss) their thesis to their committee during the spring semester of the senior year.

Internships, Field Work, and Independent Study

Students who wish to explore an anthropological concern outside the conventional classroom setting, or who desire advanced or specialized work beyond current course offerings, should consider ANTH 393, ANTH 395, ANTH 396, ANTH 451, and ANTH 453.

ANTH 393 provides anthropology students the opportunity to engage in internships or other field experiences within or beyond the University that have a significant anthropological learning component. Variable credit may be obtained for this course. ANTH 393 is a controlled enrollment course; it requires the permission in advance of the faculty member sponsoring the internship, of a responsible official of the agency in which the internship is carried, and of the director of undergraduate studies. It is required that students make arrangements and secure permissions prior to the semester of the internship.

ANTH 396 provides anthropology students the opportunity to engage in independent study, and ANTH 395, the opportunity to engage in field research, in both cases under the mentoring of a specific faculty member. Variable credit may be obtained for these courses, although three units are usually expected. ANTH 396 and ANTH 395 require the permission of the faculty member under whom the student wishes to conduct research prior to the semester in which ANTH 396 or ANTH 395 is taken. Both are controlled enrollment courses. In general, these courses should be taken only by students with some prior coursework in anthropology or a related social science.

If interested in any of these independent study, independent research, or mentored internship credits, students should approach the faculty member they would like to work with directly. Typically, this is a professor

that they have worked with in a class or faculty member with shared interests.

ANTH 451 and ANTH 453 are six-unit field school courses in which the student gains hands-on experience in research and study in the field under the direction of a faculty member.

Anthropology majors are limited to having no more than six credit hours of field-oriented coursework (ANTH 393, ANTH 395, ANTH 451, or ANTH 453) count toward meeting the major requirement, although they are not restricted from enrolling in more than six credit hours of these courses combined.

Study Abroad

Anthropology majors are encouraged to enroll in a study abroad program. These programs can offer direct experience of another culture and intensive language training, as well as excellent coursework in anthropology. By consulting with their departmental advisors as well as with the University's Study Abroad Office, students can assess the relevance of available programs to their interests and arrange to transfer credit hours to count toward their undergraduate degree and, where appropriate, the anthropology major. Study abroad programs are often affordable even to students who require financial aid. Information about student loans and scholarships for the purpose of studying abroad can be obtained from the Study Abroad Office.

Undergraduate Awards

The Honigmann Undergraduate Honors Thesis Award is given each year to the student who completed the best undergraduate honors project.

Medical Anthropology Major, B.A.

Medical anthropology addresses the biological, cultural, and political-economic dimensions of health, illness, and healing historically and at present. Reflecting the multi-disciplinary character of its parent field of anthropology, medical anthropology deploys quantitative and qualitative methods to examine the body as a site of evolutionary processes and cultural symbols. Medical anthropology considers healing as a set of interpretive processes occurring at multiple, complex levels.

This program provides students with the fundamental knowledge and exposure needed to pursue careers and post-graduate studies in fields related to global health, public health, allied health care, health and human services, health policy, medicine, dentistry, and other emerging disciplines.

For students seeking a career in the health professions, the program in medical anthropology complements training in the natural sciences. Courses in medical anthropology explore population variations in health outcomes due to the influence of environment, context, and culture. The curriculum also equips students with ways to understand the meanings people find in illness and healing as well as the moral stakes of medical decisions. Additionally, courses in medical anthropology give students awareness of the formal institutions and social relations that become the channels and limitations of technical knowledge about illness and healing.

Student Learning Outcomes

Upon completion of the medical anthropology program, students should be able to:

- Demonstrate knowledge of the relationships between humans' health and historical, biocultural, and societal dynamics
- Demonstrate understanding of the ways comparative cultural and historical experiences impact health-related values and practices, definitions of illness, and methods of healing
- Demonstrate competence in reading, analyzing, and communicating social science research on health
- Gain experience conducting and/or applying research using medical anthropology's methods
- Gain an understanding of medical anthropology's relationships to the holistic, parent discipline of anthropology and its contributions to applied professional fields such as medicine and global health.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses

- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Select two foundational courses:		6
ANTH 53	 First-Year Seminar: Darwin's Dangerous Idea ^H	
ANTH 56	 First-Year Seminar: The Art of Healing, the Culture of Curing	
ANTH 104	 Introduction to Biocultural Medical Anthropology	
ANTH 147	 Comparative Healing Systems	
ANTH 270	 Living Medicine	
ANTH 319	 Global Health	
Select one research methods and experience courses (see list below)		3
Select six elective courses, apportioned in the following ways: ¹		18
At least one from the biological/ecological elective list (see below)		
At least one from the sociocultural elective list (see below)		
ANY Anthropology (ANTH) course can count for the remaining four electives. No more than two of the six courses can be at the 100-level or below		
Total Hours		27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ These courses can be taken at any time during the student's tenure at UNC. Students may count up to two (2) courses from outside the department that relate to the student's area of interest in medical anthropology with approval of the Anthropology Director of Undergraduate Studies (DUS).

Research Methods and Experiences

Code	Title	Hours
ANTH 204	 From Ayahuasca to Zolof: Anthropological Approaches to Drugs and Drug Use	3

Anthropology (General) Minor

Anthropology is the integrative study of human beings at all times and in all places. Anthropological expertise has special application for hidden histories and the ancient past; the intersection of human biology and ecology; and the way communities create and use meaning, values, and history in everyday life. We support studies, research, and professional applications in these areas with three programs of foundational training:

- 1. archaeology
- 2. human biology, ecology, and evolution
- 3. sociocultural anthropology

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Five three-hour anthropology (ANTH) courses taken in the department. ^{1, 2}		15
Total Hours		15

¹ A maximum of two courses may be numbered below 200.
² Credit hours for independent study or independent field research may not count towards the minor, including ANTH 195, ANTH 196, ANTH 295, ANTH 296, ANTH 393, ANTH 395 and ANTH 396.

The Department of Anthropology provides a complete list of of anthropology (ANTH) (<https://catalog.unc.edu/courses/anth/>) courses.

Students planning on a minor in anthropology should inform the department’s director of undergraduate studies.

Heritage and Global Engagement Minor

Introduction

The heritage and global engagement minor offers students the opportunity to engage two critical issues of our times: globalization and heritage. Students will learn a wide range of culturally aware approaches to understanding the role of globalization and heritage in the modern world. Emphasizing experiential learning, the minor offers students guided training in a range of anthropological methodologies including ethnography, oral life-history, heritage conservation, and community-based, participatory research. Through designated engagement courses, student completing the minor will have developed a portfolio of extended cases studies, ethnographic projects, and designs for participatory heritage and globally-concerned projects. This emphasis on engagement —i.e. first-hand anthropological research—teaches students to connect new ideas about culture, history, globalization, and identity with real communities. This course of study therein prepares students to navigate the complex issues of globalization and heritage that they will encounter in their personal and professional lives beyond UNC. The minor is designed to complement other majors and careers, where cultural awareness is a must. Affording undergraduates the opportunity to anthropologically engage their world, the heritage and global engagement minor brings together UNC faculty, students, and communities—both

abroad and here in North Carolina—to create locally grounded, globally aware understandings of an increasingly interconnected world.

Graduate School and Career Opportunities

There are multiple career paths open to students with a minor in heritage and global engagement. The minor is designed to augment a range of courses of study and careers. From medical and health professions to business, government, and nongovernmental organizations (NGOs), anthropological perspective is increasingly at a premium in the world writ large. This minor gives students the global awareness and first-hand research skills to distinguish themselves in a variety of local and global fields.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Department of Applied Physical Sciences

The Department of Applied Physical Sciences combines applied science and engineering to solve real problems for North Carolina and the world through technology, innovation, and partnerships, and the preparation of knowledgeable and responsible students, citizens, and researchers. The department expands interdisciplinary research and teaching by strengthening an intellectual climate in which science is collaborative and focused on applications.

The department houses an undergraduate major in applied sciences, an undergraduate minor in applied sciences and engineering, and a doctoral graduate program in materials science. APS is also home to BeAM (Be A Maker), the UNC network of makerspaces.

Applied Sciences, B.S.

Introduction

As a Carolina engineering student, you'll build the fundamentals to become a modern problem solver. It's your chance to explore and work with the latest future-focused solutions, materials and technologies of today—while building the fundamentals you'll need to one day design possibilities not yet imagined. And because you'll earn this degree while immersed in the University's wider liberal arts environment, you gain more than excellent technical skills. You'll also hone the creative, critical thinking and analytical skills you need to address complicated challenges that are both pressing and practical.

This program is unique collaboration between the Department of Applied Physical Sciences (APS) in the College of Arts and Sciences and the Department of Environmental Sciences and Engineering (ESE) in the Gillings School of Global Public Health. APS is the home department for the major and all students will take their foundational engineering classes in APS. For the upper level engineering tracks, students in the

materials engineering track will take classes in APS, and students in the Environmental Engineering track will take classes in ESE.

For students who are considering this major, we recommend that you take the following courses to get an introduction to the program: APPL 101 Exploring Engineering or APPL 110 Design and Making for Engineers: Developing Your Personal Design Potential .

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies and faculty advisors work with current and prospective majors by appointment (see contacts tab above). Faculty advisors are assigned to all applied sciences majors and applied science and engineering minors, and they assist students in a variety of major/minor related areas, including course planning, undergraduate research opportunities, the honors program, internships, career opportunities, and graduate school and fellowship applications. In order to register for classes each semester, students admitted to the major must consult with their advisor to get their registration flag cleared.

Career Opportunities and Graduate School

Applied sciences graduates possess a valuable combination of deep technical knowledge and practical problem-solving skills. With training that bridges science and engineering, our graduates are equipped to tackle complex, real-world challenges across multiple sectors. A major in applied physical sciences prepares students for careers in fields such as engineering, technical consulting, product management, business development, science communication, and entrepreneurship. APS maintains more career information on the department website (<https://aps.unc.edu/undergraduate-major/career-opportunities/>).

Common job titles for applied sciences bachelor's degree recipients include:

- Process Engineer
- Project Engineer
- Quality Engineer
- Product Development Engineer
- Applications Engineer
- Test Engineer
- Research Scientist
- Laboratory Technician
- Materials Engineer
- Materials Analyst
- Environmental Engineer
- Sustainability Specialist
- Environmental Consultant

Those who are considering graduate school in materials science and engineering should contact an APS advisor. Those who are considering graduate school in environmental science and engineering should contact an ESE (Environmental Science and Engineering) departmental advisor.

Admissions

Students may pre-declare the Applied Sciences major at any time, which signals an intention to apply to the program. Students who wish to enroll in the Applied Sciences major must apply for admission. Admission to the university does not guarantee admission to the program.

Students will apply via a standard application that requests biographical information and an essay. The admissions committee will also seek academic records through the close of the semester, course data from required departmental courses, and any other information available on your contributions to the University community.

There are admissions deadlines each December and May. Students should apply by the Fall semester of their sophomore year at the latest. Please visit our website for more details on the application process.

Students will need to complete the following prerequisite or corequisite math and science courses during or before the semester that they apply for admission. These courses are similar to what students take for other STEM majors in the first year.

Code	Title	Hours
CHEM 101	 General Descriptive Chemistry I ^{1, H, F}	3
CHEM 101L	 Quantitative Chemistry Laboratory I ¹	1
MATH 231	 Calculus of Functions of One Variable I ^{1, H, F}	4
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{1, H, F}	4
ENGL 105	 English Composition and Rhetoric	3

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ With a grade of C or better. AP, IB, or transfer credit will be accepted according to university policies.

Student Learning Objectives

Upon completion of the applied sciences (B.S.) program, students should be able to:

1. Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. Communicate effectively with a range of audiences.
4. Recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.

- Function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- Acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
APPL 101	 Exploring Engineering	3
APPL 110	 Design and Making for Engineers: Developing Your Personal Design Potential ^F	3
COMP 110 or COMP 116	 Introduction to Programming ^H Introduction to Scientific Programming	3
APPL 240	Electronics from Sensors to Indicators: Circuits that Interact with the Physical World	4
APPL 260	Materials Science and Engineering: Living in a Material World	4
APPL 285	Engineering Fundamentals of Force, Motion, and Energy	4
APPL 385	Thermodynamics for Engineers	4
Select one of the following tracks:		16
Environmental Engineering Track (16 credits), see details below		
Materials Engineering Track (16 credits), see details below		
APPL 697	Capstone Design I (pending approval)	3
APPL 698	Capstone Design II (pending approval)	3
Additional Requirements		
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	 General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^H	4
MATH 383 & 383L	First Course in Differential Equations and First Course in Differential Equations Laboratory ^H	4

PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{H, F}	4
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	4
Total Hours		79

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

ECON 101 is recommended, but not required.

Environmental Engineering Track

Code	Title	Hours
ENVR 205 & 205L	Engineering Tools for Environmental Problem Solving and Engineering for Environmental Problem Solving: Advanced Problems Lab	4
Choose one foundational environmental engineering course:		3
ENVR 419	Chemical Equilibria in Natural Waters	
ENVR 421	Environmental Health Microbiology	
ENVR 548	Sustainable Energy Systems	
ENVR 675	Air Pollution, Chemistry, and Physics	
Choose one modelling course:		3
ENVR 451	Introduction to Environmental Modeling	
ENVR 453	Groundwater Hydrology	
ENVR 468	Temporal GIS and Space/Time Geostatistics for the Environment and Public Health	
ENVR 635	Energy Modeling for Environment and Public Health	
ENVR 730	Computational Toxicology and Exposure Science	
Choose two process engineering courses:		6
ENVR 656	Physical/Chemical Processes for Water Treatment	
ENVR 710	Environmental Process Biotechnology	
ENVR 755	Analysis of Water Resource Systems	
Total Hours		16

Materials Engineering Track

Code	Title	Hours
APPL 462	Engineering Materials: Properties, Selection and Design	3
APPL 472	Materials Characterization Methods	4
Choose three advanced materials engineering courses. These courses can come from a combination of one or both categories:		9
APPL 430	Optoelectronics from Materials to Devices ¹	
APPL 463	Bioelectronic Materials ¹	
APPL 465	Engineering of Soft Materials: SpongeBob Squarepants and Other Squishy Things ²	

APPL 467	Materials Design for Biomedicine ²	
Total Hours		16

¹ Electronics and optics

² Soft materials

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Applied Sciences and Engineering Minor

Are you interested in using technology to make a difference in the world? From big problems like global warming to focused needs in your home or community, engineering is all about solving problems. The applied sciences and engineering minor trains students with an engineering and entrepreneurial mindset. You will build on the foundation from your math and science courses, and engage in hands-on engineering applications of real-world challenges.

Join the minor to learn about materials sciences, optics, fluid mechanics, sensors, and more.

- Model and simulate systems using modern engineering tools and software
- Design and build systems for real-world applications using engineering tools in the BeAM makerspace and across campus
- Use fundamental principles in math and sciences to address applications in at least one area of engineering, such as material science, environmental engineering, instrumentation, or optics
- Communicate to a wide range of audiences in both oral and written form

- Understand the ethical and professional responsibilities of engineers
- Work within teams to design solutions and solve problems

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Prerequisite Courses

Code	Title	Hours
Prerequisite Courses		
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F}	4

Curriculum in Archaeology

Introduction

The undergraduate major in archaeology focuses on the systematic study of the human past through its material remains by means of the

excavation, recovery, and interpretation of artifacts and other associated evidence. Historical, environmental, and comparative components enable the examination of different culture systems through time and space, as well as the reconstruction of past lifeways and the interpretation of ancient social, political, and economic systems. The geographic scope of the program includes the Americas, Europe and the Mediterranean, Egypt, and the Near East. The educational goal of the program is to provide the student with a component of a liberal arts education that draws on both the social sciences and the humanities. It also will effectively prepare students for graduate study in anthropological archaeology, Mediterranean archaeology, museology, and historical preservation, or careers in contract archaeology and cultural resource management. Students interested in applying to graduate programs in Mediterranean or Near Eastern archaeology may need ancient language classes not required for the major. Students should consult the faculty advisor in archaeology if they have questions.

Advising

All majors and minors have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The curriculum's director of undergraduate studies (see "Contacts" tab above) works with current and prospective majors and minors by appointment. Students are encouraged to consult with the director of undergraduate studies about course choices and field work opportunities. Curriculum academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, and the honors program may be obtained from the curriculum's website (<https://archaeology.sites.unc.edu/home/ca/>).

Graduate School and Career Opportunities

The undergraduate curriculum in archaeology prepares majors for specialized graduate study in archaeology and cognate fields. The specific area of graduate study will depend on the fields of concentration of major, minor, and supporting coursework. Graduating majors (and double majors and minors) may pursue degree programs and careers in fields such as anthropology, Latin American studies, classical and medieval archaeology, Egyptology and ancient Near Eastern archaeology, art history, ancient history, and linguistics. Provided with a well-rounded undergraduate degree in the liberal arts, graduating students may pursue professional and graduate programs in diverse fields of the humanities and social sciences, utilizing their skills in various professions such as field archaeology (professional or contract archaeology), museology, conservation and historical preservation, cultural resource and heritage management, and teaching. Career resources as well as a list of former graduates and their careers are available on the curriculum's website (<https://archaeology.sites.unc.edu/home/ca/>).

Archaeology Major, B.A.

The undergraduate major in archaeology focuses on the systematic study of the human past through its material remains by means of the excavation, recovery, and interpretation of artifacts and other associated evidence.

Student Learning Outcomes

Upon completion of the archaeology program, students should be able to:

- Demonstrate knowledge of the basic principles of archaeological reasoning (the ability to analyze ancient material culture and archaeological contexts)
- Demonstrate appropriate skills of archaeological exposition
- Demonstrate proficiency in recovering and documenting a variety of forms of material culture and archaeological contexts
- Demonstrate the ability to utilize both data sets and theoretical frameworks for interpreting and reconstructing long-term human history

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
One course in archaeological method and theory.		3
ANTH 220	 Principles of Archaeology	
ANTH 291	 Archaeological Theory and Practice	
CLAR 411	Method and Theory in Classical Archaeology	
Two courses in archaeological practice.		6-10
One must be a laboratory course:		
CLAR 270	 Quantifying the Past: Big Data and Big Questions in Classical Archaeology	
ANTH 409	 Curating Things	
ANTH 410	The Identification and Analysis of Historical Artifacts	
ANTH 411	 Laboratory Methods in Archaeology ^H	
ANTH 413 & 413L	 Laboratory Methods: Archaeobotany and Archaeobotany Lab	
ANTH 414 & 414L	 Laboratory Methods: Human Osteology and Human Osteology Lab	
ANTH 415 & 415L	 Laboratory Methods: Zooarchaeology and Zooarchaeology Lab	
ANTH 416	 Bioarchaeology	
ANTH 417 & 417L	Laboratory Methods: Lithic Seminar and Lithic Analysis Lab	
ANTH 418	 Laboratory Methods: Ceramic Analysis	
ANTH 425	 Public Archaeology Practicum	
One must be a field school (may be satisfied with a minimum of 3 hours of transfer credit):		
ANTH 451	 Field School in North American Archaeology ^H	
ANTH 453	Field School in South American Archaeology ^H	
CLAR 650	Field School in Classical Archaeology	
Six courses from the list below; must include offerings from at least two departments ¹		18
ANTH 50	 First-Year Seminar: Skeletons in the Closet	
ANTH/AMST 54	 First-Year Seminar: The Indians' New Worlds: Southeastern Histories from 1200 to 1800	
ANTH 60	 First-Year Seminar: Crisis & Resilience: Past and Future of Human Societies ^H	

ANTH 64	 First-Year Seminar: Public Archaeology in Bronzeville, Chicago's Black Metropolis	ANTH 457	Perspectives in Historical Archaeology
ANTH 65	 First-Year Seminar: Humans and Animals: Anthropological Perspectives	ANTH/ENEC 460	Historical Ecology
ANTH 72	 First-Year Seminar: Archaeology and Popular Culture	ANTH/WGST 458	 Archaeology of Sex and Gender
ANTH 121	 Ancient Cities of the Americas	ANTH 535	 The Archaeology of Health and Well-Being
ANTH 123	 Habitat and Humanity	ANTH 538	Disease and Discrimination in Colonial Atlantic America
ANTH 144	Archaeology and the Media	ANTH 550	 Archaeology of the American South
ANTH 145	 Introduction to World Prehistory	ANTH 551	Origins of Agriculture in the Ancient World
ANTH 148	 Human Origins	ANTH 651	Identity, Memory, and the Afterlife: The Space and Place of Death
ANTH 149	 Great Discoveries in Archaeology	ANTH 674	 Issues in Cultural Heritage
ANTH 151	 Anthropological Perspectives on Food and Culture	ARCH 395	Research in Archaeology
ANTH 222	 Prehistoric Art	ARCH 396	Independent Study in Archaeology
ANTH 231	 The Inca and Their Ancestors: The Archaeology of Andean South America	CLAR 50	 First-Year Seminar: Art in the Ancient City ^H

LING 561	Native Languages of the Americas
RELI 63	 First-Year Seminar: The Archaeology of Qumran and the Dead Sea Scrolls
Total Hours	27-31

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Courses that are cross-listed count under department in which student enrolls.

Additional Requirements

- Students are required to select courses from at least two of the participating departments (art, anthropology, classics, and religious studies).
- Students may count only three introductory archaeology courses (numbered below 200) toward their major. This restriction does not include courses used to fill electives in related fields.
- For transfer students, at least half of the coursework in the major must be completed within the curriculum at UNC–Chapel Hill.

Subject to the approval of the advisor for the major, students may count graduate seminars towards fulfillment of their major requirements. Also subject to the approval of the archaeology major advisor, field schools sponsored by Study Abroad or other universities may be used to fulfill the archaeological practice field experience requirement.

Special Opportunities in Archaeology

Honors in Archaeology

Students with a grade point average of 3.3 or higher are eligible to pursue a degree with honors. A student who wishes to take this track should identify and contact a faculty thesis advisor before the end of the junior year. During the senior year the student enrolls in a two-semester course sequence, ARCH 691H and ARCH 692H, which provides the opportunity to carry out an independent research project and write a thesis under the direction of the faculty advisor. Prior to registering for the honors courses, the student and faculty mentor must fill out a contract and have it signed by the curriculum's director of undergraduate studies. The thesis is evaluated by a committee consisting of the advisor and two readers. The advisor and at least one reader must be members of the Curriculum in Archaeology's faculty. A student who successfully completes the

thesis may be awarded honors or highest honors by the committee. Highest honors is awarded only in cases where the thesis is judged to be exceptional in comparison to other such works.

Research Laboratories of Archaeology

Founded in 1939, the Research Laboratories of Archaeology (RLA) was the first center for the study of North Carolina archaeology. Serving the interests of students, scholars, and the general public, it is currently one of the leading institutes for archaeological teaching and research in the South. Located within the College of Arts and Sciences, it provides support and research opportunities for UNC–Chapel Hill students working not only in North Carolina but also throughout the Americas and overseas.

Duke–UNC Consortium for Classical and Mediterranean Archaeology (CCMA)

The Duke–UNC Consortium for Classical and Mediterranean Archaeology represents a collaboration between the institutions in order to enhance archaeology curricula and concentrations in the respective departments and programs in archaeology. The consortium fosters an interdisciplinary dialogue on methods, theory, and practice in classical archaeology and material culture, providing students access to coursework, seminars, excavations, and other research opportunities; academic advising; and avenues for curricular and extracurricular interaction.

Experiential Education

The development of skills and perspectives beyond the classroom is considered central to the curriculum in archaeology. Hands-on training in field archeology provides students with the basic tools not only necessary for graduate training and advanced research in archaeology, but also for careers in cultural resource and heritage management through government agencies, contract firms, and museums. Developing an understanding of context and physical environment in archaeology requires field and laboratory experiences that are impossible to teach effectively in the classroom. Excavation and laboratory experiences allow students to participate directly in faculty research and to learn firsthand important aspects of the research process. Two or more field schools in archaeology are generally offered during summer sessions through the Study Abroad Office by faculty from the departments of anthropology, classics, religious studies, and history. In addition, many faculty research associates offer laboratory experiences through independent study projects and internships. These field work and laboratory experiences are designed to enhance the classroom training, allowing students to work as assistants to field archaeologists and specialists—such as surveyors, archaeological architects, palaeoethnobotanists, zooarchaeologists, biological anthropologists, and geomorphologists—learning firsthand various aspects of data recovery, processing, and interpretation associated with archaeological field projects.

Archaeology Minor

The minor in archaeology draws on a number of disciplines and departments—principally anthropology, classics, and art—in the study of the ancient world, the reconstruction of past lifeways, and the interpretation of ancient social, political, and economic systems.

The minor helps prepare students for graduate study in anthropological archaeology, classical archaeology, cultural resource management, and historical preservation. It also provides any student with a strong intellectual interest in archaeology with a structured introduction to this field. Students interested in the minor in archaeology may contact the director of undergraduate studies and consult the website (<http://archaeology.sites.unc.edu/home/ca/>).

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours

Department of Art and Art History Introduction

The Department of Art and Art History at UNC–Chapel Hill fosters exchange among creative endeavor, scholarly investigation, and bold expression, through faculty research, graduate student training,

undergraduate programs, and public events. The department aims to be an integral part of the University community dedicated to free inquiry that is pursued through both the arts and sciences and expressed in objects, images and text.

Through an innovative and rigorous curriculum, students learn the critical skills of creative problem solving and self-expression. The undergraduate programs aim to help students articulate their individual perspectives on values and beliefs while discovering their place in a society that is increasingly shaped by visual communications, technology, and globalization. To do so, students develop their creative and scholarly vision and the technical skills to express that vision through their works of art and writing. The highly rated graduate programs in art history and studio art promote these ideals on an advanced level, and have proven their effectiveness through the post-graduate placement and national awards that students receive.

- **Mission:** Make | Frame | Reveal
- **Vision:** Thinking and Creating across Boundaries
- **Values:** The curiosity, empathy, and courage to engage diverse perspectives

As a department, we are committed to working closely with our students and to guiding them in developing an individual voice. We cultivate exchange between studio art and art history and offer maximum flexibility within our individual programs.

Majors and minors in art history become acquainted with the historical significance, cultural diversity, and intellectual richness of human artistic traditions, enabling students to investigate the complex roles played by the arts in a variety of social contexts.

The studio art program offers three different degree programs for majors as well as a minor, and each encourages experimentation, crossing boundaries, and hybrid processes as well as engaging the history and traditions of art. Through directed practice and creative research, faculty work closely with students to stimulate aesthetic and intellectual inquiry, impart portable skills, and motivate self-exploration to help students create outstanding works of art.

Students may choose from a range of studio coursework designed to develop both skills and a personal creative vision. Students develop two critical skills: the means of self-expression and techniques for creative thinking. While the undergraduate program focuses on the fine arts, the course of study nonetheless offers a sound foundation for students to move into art education, design fields, and other art-related careers as well as preparation for further study or careers in the fine arts.

Credit by Examination

Art History

Students who pass the Advanced Placement (AP) examination in art history and earn a score of 3 will receive credit for ARTH 152.

Studio Art

Students who pass the AP portfolio exam for Art 2-D or Art 3-D with a score of 3 receive three hours of ARTS elective credit. An AP score of 4 or 5 on the Art 2-D or Art 3-D receives credit for ARTS 102, and ARTS 103, respectively. Students earning a score of 4 or higher on the IB portfolio receive credit for ARTS 104.

Advanced Placement by Portfolio Review

Art majors who have not pursued AP or IB coursework in high school yet have broad experience in visual art may petition to waive some prerequisites by submitting a portfolio for review. If the review is successful, students receive placement only. Students then substitute any other ARTS coursework to satisfy the total credit hours required in the major. Portfolio requirements are modeled after the College Board Advanced Placement portfolios. These guidelines are available from the director of undergraduate studies in studio art, the student services specialist. Portfolios are reviewed annually in September only. Contact the director of undergraduate studies in studio art at the beginning of the fall semester to make arrangements for submitting a portfolio.

Advising

Two Advisors

All majors and minors have two advisors; a primary academic advisor in the Academic Advising Program (<https://advising.unc.edu/>) and departmental advisors for program-specific planning. Students are strongly encouraged to meet regularly with both advisors and review their Tar Heel Tracker each semester. The undergraduate advisors in art history and studio art work with current and prospective majors and minors by appointment. On request, art history majors may be assigned an individual faculty advisor. Departmental academic advising is particularly important for those majors who are considering honors thesis work or graduate school.

Information, Announcements, and Sessions

If curricular opportunities or changes affect all majors and minors in either programmatic area of the department, students receive an advisory announcement with relevant details via the art and art history majors' listserv. For issues too complex for email communication, general advising sessions are scheduled before registration. Students are strongly encouraged to attend these sessions, as they often address questions of broad relevance.

Additionally, special information sessions are held periodically to provide guidance on awards and scholarship opportunities, study abroad programs, internships, and research opportunities. These include the Summer Undergraduate Research Fellowships (SURF), the Allcott Travel Fellowship, Studio Art Scholarship opportunities, and Pearman grants, among others. Announcements for these sessions are shared via the majors' listserv and posters in the Hanes Art Center and Art Lab. Detailed information and application procedures are available on the department website.

Course Enrollment and Audit Policies

Studio Art

During the fall and spring registration periods, enrollment in studio art (ARTS) courses is temporarily restricted to declared studio art majors and minors to ensure they can complete their degree requirements on time. Students outside the studio art program may enroll only after the restriction period ends — no exceptions. To check restriction dates, refer to the "Notes" section in ConnectCarolina under ARTS course listings.

Enrollment restrictions do not apply to the following ARTS courses:

- Honors courses
- First-Year Seminars

Auditing Policy

Due to the participatory nature of studio courses, limited classroom space, and potential safety hazards, auditing ARTS courses by current students or community members is not permitted. However, prospective auditors are encouraged to consider art history courses, which may be audited with instructor consent.

Facilities

Classrooms and Studios

The department offers exceptional facilities for both art history and studio art in the **Hanes Art Center**. It includes state-of-the-art image projection equipment for art history courses and specialized classrooms for various art practices. Large studios are available for painting, drawing, and mixed media, with a dedicated space for installation projects.

The **John C. Henry Printmaking Studio** is a spacious 3,325-square-foot lab that supports various printmaking processes. Photography studios include both a darkroom for black-and-white photography and a digital photography studio, along with a dedicated shooting studio. The digital laboratories at UNC-Chapel Hill are Mac-based, equipped with the latest software for photography (including large-scale output), video, and digital/electronic media. UNC provides students with access to the entire Adobe Creative Suite. Students enrolled in studio art classes have 24-hour access to these labs.

Additionally, the **Art Lab** — a 17,686-square-foot facility located 1.8 miles north of the Hanes Art Center at 108 Airport Drive — houses the department's sculpture and ceramics facilities.

The Hanes Art Center is also home to one of UNC's **BeAM** (Be A Maker) makerspaces, offering a variety of hand tools and high-tech machines, including a vinyl cutter, 3-D printers, laser cutter, and CNC router. All equipment is available to students at no charge.

Libraries

Department of Art and Art History resources also include the **Joseph C. Sloane Art Library** with its collection of 100,000 volumes, which is supplemented by the University's academic affairs libraries, with holdings of more than six million volumes. The Sloane Art Library also houses a unique collection of Artist's Books. The department also has a **Visual Resources Library**, which oversees almost 300,000 slides and digital images for use in teaching and research.

Exhibition Spaces

The **John and June Allcott Galleries** in the Hanes Art Center host numerous exhibitions throughout the year. The main gallery features 8 to 10 shows annually, showcasing work by professional artists, faculty, and students. The John and June Allcott Undergraduate Gallery is specifically designed to showcase work created or selected by undergraduate students.

The **SAMple Gallery**, located within the Hanes Art Center, is operated by the Studio Art Majors Association (SAMA) to display work by SAMA members.

The **Alumni Sculpture Garden** surrounds the Hanes Art Center and features temporary sculpture exhibitions commissioned by the department, displayed for a two-year period. A special class is organized each year to create collaborative works for the Sculpture Garden.

Adjacent to the Hanes Art Center is the **Ackland Art Museum**, which regularly offers programming that enhances the educational experience for the University community.

Majors

- Art History Major, B.A. (p. 154)
- Studio Art Major, B.A. (p. 158)
- Studio Art Major, Bachelor of Fine Arts (B.F.A) (p. 161)

Art History Major, B.A.

The undergraduate program in art history is directed toward two main educational goals:

- 1. to provide students with an excellent liberal arts foundation through an understanding of the historical and global significance, cultural diversity, and intellectual richness of human artistic traditions from prehistoric times to the present; and
- 2. to provide these students with the intellectual tools needed to investigate the complex roles played by the arts in a variety of social contexts.

Skills in visual analysis, historical research, critical reading, analytical and descriptive writing, and oral communication are developed throughout the course of the study. The practice of art history is interdisciplinary, dynamically engaged with many fields in the humanities and social sciences, as well as with the University's diverse area studies programs and the Ackland Art Museum. The art history major equips students with skills, knowledge, and values to negotiate rapidly changing, richly diverse, and increasingly interconnected local, national, and worldwide communities.

Student Learning Outcomes

Upon completion of the art history program, students should be able to:

- Demonstrate knowledge of the works of art, artists, viewers, and patrons in a variety of cultures and societies; and the visual arts in the context of the past and present societies that produced them
- Recognize that visual forms and symbols are historically and culturally contingent, and that interpretation requires a knowledge of the visual language specific to the work of art, as a result of studying the arts in a variety of cultures and historical moments

- Pose an art historical question, pursue that question through research in original and secondary sources, evaluate evidence, and create an argument in response to that evidence
- Demonstrate deep content area knowledge by explaining and discussing intelligently major issues related to that field

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Two art history foundation courses from ARTH 100 to ARTH 200		6
Nine ARTH courses above 200, apportioned in the following way ¹		27
At least one course from three of the four geographic areas (see course lists below)		
At least one course from each of the three chronological periods (see course lists below)		
At least three courses must be numbered above 399		
ARTH 391	 Undergraduate Research Seminar ²	3
Total Hours		36

¹ A first-year seminar taught by an art history faculty member may substitute for one art history course numbered between 201 and 399. Students may also substitute an ARTS (Studio Art) course for one art history course numbered between 201 and 399.

² It is strongly recommended that students take the Undergraduate Research Seminar no later than the spring of their junior year. The department schedules ARTH 391 as often as possible. If ARTH 391 has not been offered during a student's junior or senior year, the student may satisfy the requirement with an additional ARTH course numbered above 399 (in addition to the standard three required as part the major). Such exceptions must be approved by the Director of Undergraduate Studies.

Distribution Course List–The Americas (AA)

Code	Title	Hours
1300–1800 (II)		
ARTH 254	 Women in the Visual Arts I	
ARTH 277	 Art and Architecture of Viceregal Latin America	
ARTH 469	 Art of the Aztec Empire	
1800–Present (III)		
ARTH 61	 First-Year Seminar: African American Art of the Carolinas	

ARTH 66	 First-Year Seminar: Art, Money, and the Market
ARTH 267	 Latin American Modernisms
ARTH 281	 Art of Exchange and Exploration: Early America and the Globe
ARTH 285	 A History of Contemporary Art ^H
ARTH 287	 African American Art Survey
ARTH 302	 Fashioning Identities
ARTH 383	 Everything You Ever Wanted to Know About Modern Architecture But Were Afraid to Ask
ARTH 385	Pop Art and Its Legacy
ARTH 387	 20th-Century African American Art
ARTH 401	 Seen, Unseen, and Suggested: Representation and Hollywood Film Censorship
ARTH 445	The Mexican Mural Renaissance, 1921-1945
ARTH 452	Brazilian Modernism
ARTH 485	 Art of the Harlem Renaissance
ARTH 551	 Introduction to Museum Studies
ARTH 557	 Art and Money

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Honors in Art History

The honors program is open to students with a 3.3 grade point average who have demonstrated overall excellence in the discipline. Honors are generally pursued in the senior year. Students enroll in the honors courses (ARTH 691H in the fall; ARTH 692H in the spring) through the student services assistant in the Department of Art and Art History office. This should be done after consultation with the faculty honors advisor and department honors advisor. For more information, see the honors program description elsewhere in this catalog and the departmental honors announcement. Honors work will allow a student to graduate with honors or with highest honors.

Special Opportunities in Art and Art History

Independent Study

Students may pursue independent study coursework with individual faculty members. Such work may be undertaken **only** with the permission of the sponsoring faculty member. Students should consult individual faculty members prior to registration to secure permission. A proposal and a contract must be approved by the appropriate director of undergraduate studies (studio art or art history) before students may enroll. (See the Undergraduate Policies, Procedures, and Resources (<https://art.unc.edu/about/policies/undergraduate/>) section of the Department of Art and Art History website (<https://art.unc.edu/>) for instructions.) Since faculty members are limited to supervising only two independent study students each semester, students are strongly advised to contact the faculty member with whom they wish to work early in the registration period for the upcoming semester.

Independent study work requires a minimum of three hours per week per credit hour. For example, a typical three-credit-hour class would require at least nine hours of work per week. Once the semester begins, students must meet with the faculty member initially to confirm goals, review expectations, and establish semester deadlines. Thereafter, students must meet regularly to review work in progress, with a suggested biweekly frequency. Total time spent in direct interaction with the faculty member for the semester must average 45 minutes per week. This may be in the form of face-to-face meetings, blog or email exchanges, or group critiques with other independent study students and their advisors.

Internships

Art and art history majors are encouraged to pursue internships at local, regional, or national arts institutions or businesses. Students have worked in many art career contexts including museums and galleries, arts programming, and local businesses specializing in art-related production (photo studios, printmaking studios, illustration, design firms, and publishing). The Undergraduate Policies, Procedures, and Resources (<https://art.unc.edu/about/policies/undergraduate/>) section of the Department of Art and Art History website (<https://art.unc.edu/>) has useful information about the requirements and how to set up the contracts for ARTH 293 and ARTS 493 as well as a partial listing of organizations that have worked with our students in the past. If you would like to discuss specific ideas about a possible internship, speak to any faculty member or the relevant director of undergraduate studies (art history or studio). All internships taken for UNC credit are subject to governmental guidelines, and students must have

internships preapproved and under contract before enrolling for either ARTH 293 or ARTS 493.

Study Abroad

Students are encouraged to pursue study abroad opportunities. While there are many opportunities to study art abroad, the Department of Art and Art History maintains a special affiliation with the Lorenzo di Medici School in Florence, Italy, and the Glasgow School of Art in Scotland. Students should discuss their study abroad plans with the undergraduate advisor in studio art to obtain prior approval for courses taken abroad. Courses that have an equivalent in the UNC–Chapel Hill curriculum usually are approved. Courses that fall outside the UNC–Chapel Hill curriculum must be evaluated on a case-by-case basis. No guarantee exists that a course will transfer for credit unless pre-approved. Contact the Study Abroad Office to discuss the procedures for approval. The Department of Art and Art History has some scholarship support available for study abroad. For additional information, see the department's undergraduate advisors in studio art or art history.

Undergraduate Research

Opportunities for undergraduate research in the Department of Art and Art History exist in several forms. Detailed descriptions and application guidelines are available in the Undergraduate Policies, Procedures, and Resources (<https://art.unc.edu/about/policies/undergraduate/>) section of the Department of Art and Art History website (<https://art.unc.edu/>) and from the department's student services manager.

Allcott Travel Fellowships support two summer research projects in studio art and/or art history.

The Beatrice Pearman Fund supports special projects in both art history and studio art. Competitions for art history research funds are held in the fall and the spring. Studio art students may request funds for special projects by submitting a proposal to the director of undergraduate studies in studio art. Awards are \$500 or less.

Summer Undergraduate Research Fellowships (SURF) are administered through the UNC Office for Undergraduate Research. These \$3,000 awards support undergraduate research projects over the summer. UNC's broad definition of research includes creative practices, and the James Boyd Gadson SURFs are specifically designated for studio art. SURF applications from studio art majors are automatically considered for these Gadson Fellowships. This fund typically supports at least two awards. Application deadlines (usually in February) are set by the Office for Undergraduate Research. Students interested in pursuing summer research should contact possible faculty sponsors toward the end of the fall semester.

The Jacquelyn Friedman and Marvin Saltzman Fund in Art provides supplemental monies for painting supplies for students who for economic reasons may be hindered from working to their full potential. Any undergraduate student with need, regardless of major, enrolled in a departmental studio art painting class during the fall and/or spring semesters is eligible. Students can contact their course instructor or the student services specialist for further information.

Undergraduate Awards

UNDERGRADUATE SCHOLARSHIPS IN STUDIO ART

The studio program awards more than \$44,000 annually to students, with individual awards ranging from a minimum of \$500 to \$12,000. Every November, studio art majors and minors are invited to submit a portfolio

of works to be considered for these scholarships. Some scholarships are restricted to majors only.

- **The Alexander Julian Prize** (recognizing the outstanding achievements of one exceptional student)
- **The Anderson Awards** (two awards)
- **John C Henry Scholarships** (two awards covering tuition, fees, and expenses for two semesters)
- **George Kachergis Studio Art Scholarships** (multiple awards chosen by a student-designated committee)
- **The Sharpe Scholarships** (multiple awards for students receiving financial aid)
- **The Penland School of Craft Scholarships** (two awards cover all expenses for a summer course at the Penland School of Craft)

Application information is available on the department website.

Departmental Involvement

Students have opportunities to see and interact with a variety of arts professionals through exhibitions in the Allcott Galleries, installations of sculptural works in the Alumni Sculpture Garden, the Visiting Arts Professionals Program, and the Hanes Visiting Artist Lecture Series.

Several undergraduate student organizations serve the visual arts at Carolina. The Undergraduate Art Association (UAA) is a campuswide social club that supports and develops undergraduate visual artists at Carolina — regardless of their enrollment in art classes — and strengthens the impact of visual art in the University community. The Studio Art Majors Association (SAMA) is aimed at developing community and professional opportunities that augment the experience for studio art majors and minors, especially through the programming of the SAMple Gallery in the Hanes Art Center. ArtHeels is a service-based organization that is passionate about bringing arts (visual, performing, and literary) to the healthcare setting. The Art History Liaisons is the undergraduate art history group. Kappa Pi is the department majors' honor society which includes both studio and art history majors. These groups serve as an important link between the majors and the department's administration. The department utilizes these organizations to facilitate communication about matters of interest, including participation in departmental initiatives or other extracurricular opportunities.

Studio Art Major, B.A.

The B.A. in studio art provides students with a broad exposure to artistic ideas and practices within a liberal arts framework. This degree is ideal for those seeking a well-rounded education and is a popular choice for students pursuing a double major. Common pairings include communication studies (media and technology studies and production), media and journalism, biology, dramatic art (costume and set design), and psychology, though students from any field can benefit from studying visual arts.

The major requires 36 credit hours, but students may take up to 45 credit hours in studio art (ARTS) courses that count toward graduation. Any additional ARTS credits beyond 45 will not apply toward overall graduation requirements.

Learning Outcomes

The studio art program at UNC–Chapel Hill aims to cultivate the interconnected skills of creative thinking and critical making, equipping students with a strong foundation to create exceptional works of art.

Upon completing the B.A. or B.F.A. program, students will be able to:

- Master Technical Skills: Demonstrate proficiency in technique, process, and materials, along with an understanding of visual organization principles, to achieve effective visual communication and expression in one or more media.
- Understand Studio Practice: Grasp fundamental practices shared across various studio disciplines.
- Present and Document Work: Create portfolios, exhibitions, and online galleries that reflect a basic understanding of professional artistic presentation.
- Think and Create Innovatively: Experiment, analyze possibilities, and refine ideas to develop artwork from concept to final form.
- Engage in Creative Research: Approach artistic development as an iterative process that informs and evolves their work.

- Communicate Critically: Use precise verbal and written language to analyze and discuss the relationship between form and content in their own work and that of others.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Honors in Studio Art

The Senior Honors Thesis Project offers senior studio art majors the opportunity to undertake significant and in-depth creative work that may qualify them to graduate "with honors" or "with highest honors." Selected students conduct original creative research over both semesters of their senior year.

To apply, students must be rising senior studio art majors and have a minimum GPA of 3.3, as required by the Honors Carolina office. The application includes:

- A completed application form
- A proposal for the senior thesis project
- A digital portfolio demonstrating the ability to conduct advanced visual research

A call for applications is sent via the department's student listserv during the spring semester. Applications are due in early April and are reviewed by the studio faculty within a week of the deadline. Accepted students enroll in the honors courses for the following year through the student services manager.

Code	Title	Hours
ARTS 691H	 Senior Honors Thesis Project in Studio Art (fall)	3
ARTS 692H	 Senior Honors Thesis Project in Studio Art (spring)	3

Studio honors students work with a thesis committee composed of at least two members: a thesis advisor — who must be a full-time studio art faculty member — and at least one other studio art faculty member. The committee may include up to two additional faculty members, for a maximum of four, and these additional members may be from outside the department.

In studio art, the thesis project consists of the creative work produced and accompanying written components. Work is reviewed at the end of the fall semester to determine progress toward completion. In the spring semester, the completed honors project work and written thesis are presented to the honors committee for an oral defense. On the basis of this defense and the work presented, the committee determines whether or not a student graduates with an honors designation (honors or highest honors). Honors students exhibit their work in a formal exhibition either as a solo show at the time of the thesis defense and/or as a participant in a group exhibition with other Senior Honors students. Studio art honors students also join their art history peers in a departmental honors symposium in April.

Current deadlines, details of the application process, and requirements for the senior studio art honors project (research, work, and written components) are available on the Department of Art and Art History webpage or from the student services manager.

Studio Art Major, Bachelor of Fine Arts (B.F.A.)

The B.F.A. is considered the preprofessional course of study, providing a more in-depth experience of visual concept and practice. Students intending to pursue further study in visual arts disciplines (master of fine arts, design fields, or architecture) should choose this degree option. Students considering the B.F.A. degree are advised to contact the undergraduate advisor for studio art during the first year and no later than the sophomore year.

Learning Outcomes

The studio art program at UNC–Chapel Hill aims to cultivate the interconnected skills of creative thinking and critical making, equipping students with a strong foundation to create exceptional works of art.

Upon completing the B.A. or B.F.A. program, students will be able to:

- Master Technical Skills: Demonstrate proficiency in technique, process, and materials, along with an understanding of visual organization principles, to achieve effective visual communication and expression in one or more media.
- Understand Studio Practice: Grasp fundamental practices shared across various studio disciplines.
- Present and Document Work: Create portfolios, exhibitions, and online galleries that reflect a basic understanding of professional artistic presentation.
- Think and Create Innovatively: Experiment, analyze possibilities, and refine ideas to develop artwork from concept to final form.
- Engage in Creative Research: Approach artistic development as an iterative process that informs and evolves their work.
- Communicate Critically: Use precise verbal and written language to analyze and discuss the relationship between form and content in their own work and that of others.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Three Tier I studio courses		9
Select one 2-D course (see list below)		
Select one 3-D course (see list below)		
Select one 4-D course (see list below)		
Four Tier II studio courses (see list below)		12
Five Tier III studio courses (see list below)		15
Six studio art elective courses ^{1,2}		18
Two art history (ARTH) courses ³		6
Total Hours		60

¹ Students can include an additional art history course in place of one studio art course. Students can count up to six hours of senior honors thesis credit.

² Any ARTS classes, including first-year seminars.

³ Any ARTH classes, including first-year seminars.

B.F.A. students should be aware that a minimum of 30 credit hours must be completed in coursework outside the Department of Art and Art History.

All General Education (p. 653) requirements must be completed.

ARTS 657	 Movie Making Machines: Learning About Cinema in the Maker Space	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Honors in Studio Art

The Senior Honors Thesis Project offers senior studio art majors the opportunity to undertake significant and in-depth creative work that may

qualify them to graduate "with honors" or "with highest honors." Selected students conduct original creative research over both semesters of their senior year.

To apply, students must be rising senior studio art majors and have a minimum GPA of 3.3, as required by the Honors Carolina office. The application includes:

- A completed application form
- A proposal for the senior thesis project
- A digital portfolio demonstrating the ability to conduct advanced visual research

A call for applications is sent via the department's student listserv during the spring semester. Applications are due in early April and are reviewed by the studio faculty within a week of the deadline. Accepted students enroll in the honors courses for the following year through the student services manager.

Code	Title	Hours
ARTS 691H	 Senior Honors Thesis Project in Studio Art (fall)	3
ARTS 692H	 Senior Honors Thesis Project in Studio Art (spring)	3

Studio honors students work with a thesis committee composed of at least two members: a thesis advisor — who must be a full-time studio art faculty member — and at least one other studio art faculty member. The committee may include up to two additional faculty members, for a maximum of four, and these additional members may be from outside the department.

In studio art, the thesis project consists of the creative work produced and accompanying written components. Work is reviewed at the end of the fall semester to determine progress toward completion. In the spring semester, the completed honors project work and written thesis are presented to the honors committee for an oral defense. On the basis of this defense and the work presented, the committee determines whether or not a student graduates with an honors designation (honors or highest honors). Honors students exhibit their work in a formal exhibition either as a solo show at the time of the thesis defense and/or as a participant in a group exhibition with other Senior Honors students. Studio art honors students also join their art history peers in a departmental honors symposium in April.

Current deadlines, details of the application process, and requirements for the senior studio art honors project (research, work, and written components) are available on the Department of Art and Art History webpage or from the student services manager.

Special Opportunities in Art and Art History

Independent Study

Students may pursue independent study coursework with individual faculty members. Such work may be undertaken *only* with the permission of the sponsoring faculty member. Students should consult individual faculty members prior to registration to secure permission. A proposal and a contract must be approved by the appropriate director of undergraduate studies (studio art or art history) before students may enroll. (See the Undergraduate Policies, Procedures, and Resources

(<https://art.unc.edu/about/policies/undergraduate/>) section of the Department of Art and Art History website (<https://art.unc.edu/>) for instructions.) Since faculty members are limited to supervising only two independent study students each semester, students are strongly advised to contact the faculty member with whom they wish to work early in the registration period for the upcoming semester.

Independent study work requires a minimum of three hours per week per credit hour. For example, a typical three-credit-hour class would require at least nine hours of work per week. Once the semester begins, students must meet with the faculty member initially to confirm goals, review expectations, and establish semester deadlines. Thereafter, students must meet regularly to review work in progress, with a suggested biweekly frequency. Total time spent in direct interaction with the faculty member for the semester must average 45 minutes per week. This may be in the form of face-to-face meetings, blog or email exchanges, or group critiques with other independent study students and their advisors.

Internships

Art and art history majors are encouraged to pursue internships at local, regional, or national arts institutions or businesses. Students have worked in many art career contexts including museums and galleries, arts programming, and local businesses specializing in art-related production (photo studios, printmaking studios, illustration, design firms, and publishing). The Undergraduate Policies, Procedures, and Resources (<https://art.unc.edu/about/policies/undergraduate/>) section of the Department of Art and Art History website (<https://art.unc.edu/>) has useful information about the requirements and how to set up the contracts for ARTH 293 and ARTS 493 as well as a partial listing of organizations that have worked with our students in the past. If you would like to discuss specific ideas about a possible internship, speak to any faculty member or the relevant director of undergraduate studies (art history or studio). All internships taken for UNC credit are subject to governmental guidelines, and students must have internships preapproved and under contract before enrolling for either ARTH 293 or ARTS 493.

Study Abroad

Students are encouraged to pursue study abroad opportunities. While there are many opportunities to study art abroad, the Department of Art and Art History maintains a special affiliation with the Lorenzo di Medici School in Florence, Italy, and the Glasgow School of Art in Scotland. Students should discuss their study abroad plans with the undergraduate advisor in studio art to obtain prior approval for courses taken abroad. Courses that have an equivalent in the UNC–Chapel Hill curriculum usually are approved. Courses that fall outside the UNC–Chapel Hill curriculum must be evaluated on a case-by-case basis. No guarantee exists that a course will transfer for credit unless pre-approved. Contact the Study Abroad Office to discuss the procedures for approval. The Department of Art and Art History has some scholarship support available for study abroad. For additional information, see the department's undergraduate advisors in studio art or art history.

Undergraduate Research

Opportunities for undergraduate research in the Department of Art and Art History exist in several forms. Detailed descriptions and application guidelines are available in the Undergraduate Policies, Procedures, and Resources (<https://art.unc.edu/about/policies/undergraduate/>) section of the Department of Art and Art History website (<https://art.unc.edu/>) and from the department's student services manager.

Allcott Travel Fellowships support two summer research projects in studio art and/or art history.

The Beatrice Pearman Fund supports special projects in both art history and studio art. Competitions for art history research funds are held in the fall and the spring. Studio art students may request funds for special projects by submitting a proposal to the director of undergraduate studies in studio art. Awards are \$500 or less.

Summer Undergraduate Research Fellowships (SURF) are administered through the UNC Office for Undergraduate Research. These \$3,000 awards support undergraduate research projects over the summer. UNC's broad definition of research includes creative practices, and the James Boyd Gadson SURFs are specifically designated for studio art. SURF applications from studio art majors are automatically considered for these Gadson Fellowships. This fund typically supports at least two awards. Application deadlines (usually in February) are set by the Office for Undergraduate Research. Students interested in pursuing summer research should contact possible faculty sponsors toward the end of the fall semester.

The Jacquelyn Friedman and Marvin Saltzman Fund in Art provides supplemental monies for painting supplies for students who for economic reasons may be hindered from working to their full potential. Any undergraduate student with need, regardless of major, enrolled in a departmental studio art painting class during the fall and/or spring semesters is eligible. Students can contact their course instructor or the student services specialist for further information.

Undergraduate Awards

UNDERGRADUATE SCHOLARSHIPS IN STUDIO ART

The studio program awards more than \$44,000 annually to students, with individual awards ranging from a minimum of \$500 to \$12,000. Every November, studio art majors and minors are invited to submit a portfolio of works to be considered for these scholarships. Some scholarships are restricted to majors only.

- **The Alexander Julian Prize** (recognizing the outstanding achievements of one exceptional student)
- **The Anderson Awards** (two awards)
- **John C Henry Scholarships** (two awards covering tuition, fees, and expenses for two semesters)
- **George Kachergis Studio Art Scholarships** (multiple awards chosen by a student-designated committee)
- **The Sharpe Scholarships** (multiple awards for students receiving financial aid)
- **The Penland School of Craft Scholarships** (two awards cover all expenses for a summer course at the Penland School of Craft)

Application information is available on the department website.

Departmental Involvement

Students have opportunities to see and interact with a variety of arts professionals through exhibitions in the Allcott Galleries, installations of sculptural works in the Alumni Sculpture Garden, the Visiting Arts Professionals Program, and the Hanes Visiting Artist Lecture Series.

Several undergraduate student organizations serve the visual arts at Carolina. The Undergraduate Art Association (UAA) is a campuswide social club that supports and develops undergraduate visual artists at Carolina — regardless of their enrollment in art classes — and strengthens the impact of visual art in the University community. The

Studio Art Majors Association (SAMA) is aimed at developing community and professional opportunities that augment the experience for studio art majors and minors, especially through the programming of the SAMple Gallery in the Hanes Art Center. ArtHeels is a service-based organization that is passionate about bringing arts (visual, performing, and literary) to the healthcare setting. The Art History Liaisons is the undergraduate art history group. Kappa Pi is the department majors' honor society which includes both studio and art history majors. These groups serve as an important link between the majors and the department's administration. The department utilizes these organizations to facilitate communication about matters of interest, including participation in departmental initiatives or other extracurricular opportunities.

Art History Minor

The art history curriculum is designed to help students acquire an individual perspective on their own values and beliefs and on their places in a society increasingly shaped by visual communication. Majors and minors in art history become acquainted with the historical significance, cultural diversity, and intellectual richness of human artistic traditions, enabling students to investigate the complex roles played by the arts in a variety of social contexts.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor consists of five courses at any level in art history (p.).

Students majoring in another department may elect to pursue a minor in art history. Studio art majors may pursue an art history minor.

See program page here (p. 156) for special opportunities.

Studio Art Minor

Students majoring in another department may elect to pursue a minor in studio art. The minor consists of five courses at different levels and is intended to expose undergraduate students to a range of studio art ideas and practices. Students minoring in studio art may choose from a broad selection of courses, including drawing, painting, ceramics, sculpture, printmaking, digital media, special topics, mixed media, and photography.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The undergraduate minor in studio art consists of five courses (15 credit hours).

Code	Title	Hours
Core Requirements		
One Tier I studio course (see list below)		3
One Tier II studio course (see list below)		3
One Tier III studio course (see list below)		3
Two studio art elective courses (any ARTS course, including FYS)		6
Total Hours		15

Note: Students MUST have appropriate prerequisites to take upper-level courses. Be sure to check the courses in each level to determine the appropriate courses to take in Tiers I and II. You may have to take an additional course to satisfy these requirements.

Department of Asian and Middle Eastern Studies

Introduction

The department offers students a range of language classes in Arabic, Chinese, Hebrew, Hindi-Urdu, Japanese, Korean, Persian, Turkish, and Vietnamese, as well as a selection of courses taught by our core and affiliated faculty in the humanities (art and art history, cinema, drama, linguistics, literature, and religious studies) and in the social sciences (anthropology, economics, environmental studies, geography, history, sociology, and urban studies).

Students majoring in the Department of Asian and Middle Eastern Studies also may pursue a minor in the department that is different from their major.

Advising

All majors and minors have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. All majors are also required to meet each fall with a faculty advisor within the department. Departmental advising is an opportunity to discuss major progress, course selection and planning, study abroad, graduate school, career opportunities, and other matters pertinent to the major field. Advisors are assigned by concentration; advisor listings and contact information may be found on the department's website (<https://asianstudies.unc.edu/>) and are also disseminated via the majors' listserv.

Graduate School and Career Opportunities

As a liberal arts major, the Asian studies major trains undergraduates to read and think analytically and to present their ideas effectively orally and in writing, essential preparation for a variety of careers and for the responsibilities of living in an interdependent world. Graduates of the program have continued their academic preparation in top-ranked graduate programs across the country while others have built distinguished careers in fields including arts, banking, government, international education, journalism, law, medicine, and public health.

Majors

- Asian Studies Major, B.A.—Interdisciplinary Concentration (p. 168)

Asian Studies Major, B.A. – Interdisciplinary Concentration

Stretching from Japan to the Arab world, Asia is the largest and most populous continent in the world and home to an array of diverse cultures and political structures. An interdisciplinary major within the Department of Asian and Middle Eastern Studies offers students the opportunity to study a broad range of topics, building the global awareness that will be useful in government employment; internationally oriented business, journalism, law, and teaching; as well as graduate study in a range of humanistic and social science disciplines.

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

- Identify or analyze significant aspects of the target cultures by interpreting texts and media

- Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language
- Demonstrate experience in the use of the target language outside the language classroom

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
The major consists of eight courses which must include the following: ¹		24
ASIA 150	 Asia: An Introduction	
At least one other course (other than a language course or senior honors thesis course) taken within the Department of Asian and Middle Eastern Studies and chosen from the list below ²		
At least one course each from any two other departments		
At least one course numbered 400 or above ³		
At least two courses each from any two of the six geographic regions: China, Japan, Korea, Middle East, South Asia, Southeast Asia (see lists below)		
Additional Requirements		
Any Asian or Middle Eastern language through level 4 ⁴		4
Total Hours		28

¹ The same courses can be used to fulfill multiple requirements within the major.

² May not substitute a study abroad course.

³ May not be a language course.

⁴ The first three levels of a global language can count toward the General Education requirement and have not been included as additional hours for the major.

No more than one first-year seminar may be counted among the eight major courses.

With the approval of the associate chair of Asian and Middle Eastern Studies, a student may substitute a course in directed readings (ASIA 496) for one of the major courses. To register for ASIA 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Department of Asian and Middle Eastern Studies Courses

One language course beyond level 4 or a course at level 2 or above in a second Asian language may count as a major course.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

This plan is for a student who is just starting an Asian or Middle Eastern language.¹

First Year	Hours
First-Year Foundation Courses	
IDST 101  College Thriving	1
ENGL 105  English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)	3
IDST 111L  Data Literacy Lab	1
Major Courses	
ASIA 150  Asia: An Introduction (fall only; foundation course for the major; strongly recommended to take in first year)	3
Language 101 (fall only)	3-4
Language 102 (spring only)	3-4
Other major course ^{2, 3}	3
Hours	20-22

Sophomore Year

Language 203 (fall only)	3-4
Language 204 (spring only)	3-4
Two major courses ³	6

Hours 12-14

Junior Year

Major course or Language 305 ^{3,4}	3
Major course numbered 400 or above ³	3

Hours 6

Senior Year

Two major courses ³	6

Hours 6

Total Hours 44-48

¹ This major requires four semesters of an Asian or Middle Eastern language, but this additional requirement can also be wholly or partly met by placement for students who already have knowledge of one of these languages.

The Department of Asian and Middle Eastern Studies requires that all students with prior knowledge of a language take a placement test. The beginning language course at UNC is decided by the placement (not by test credit or transfer credit). Almost all language courses are only offered in fall or spring, but not both. Some languages are sometimes offered in summer.

² No more than one FY-SEMINAR course may be taken or count toward the major.

³ This major has a lot of flexibility and courses for it are abundant, but it also has several specific (and potentially overlapping) requirements that must be met, and more course offerings available in some areas than others. Careful course planning is important to make sure all the requirements are being met. Students are also strongly encouraged to start taking the required language courses in their first semester. Departmental advising is required every fall, and available throughout the year.

⁴ One language course above 204 may be counted as one of the eight required major courses. Students who wish to pursue further language study may be interested in combining a language minor with this major.

Special Opportunities in Asian Studies

Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. In the case of the concentrations in Arab cultures, Chinese studies, Japanese, Korean studies, Persian studies, and South Asian studies, ASIA 692H may count as one of the courses for the major.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University's requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

Departmental Involvement

The department sponsors a variety of cultural events — lectures, film screenings, performances, and more — as well as social and informational events where students can get to know each other

and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus.

Languages across the Curriculum

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic, Chinese, Hindi-Urdu, or Korean but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic, Chinese, Hindi-Urdu, or Korean language skills in a broader intellectual context.

Libraries

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media and Design Center.

Study Abroad

UNC-Chapel Hill students can choose from a range of study abroad options (summer, semester, and yearlong) in Asia, the Middle East, and North Africa. Asian studies majors are strongly encouraged to take advantage of these opportunities; UNC-approved study abroad programs also satisfy the High-Impact Experience IDEAs in Action requirement. For further information on these programs, contact the UNC Study Abroad Office.

Undergraduate Research

The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Honors Colloquium and the campuswide Annual Celebration of Undergraduate Research in the spring.

Asian Studies Major, B.A. –Arab Cultures Concentration

As the fifth most widely spoken language in the world, as one of the official languages of the United Nations, and as the religious language of Muslims who make up a quarter of the world's population, Arabic is a language with a rich literary and cultural heritage and considerable contemporary significance. Speakers of Arabic learn two forms of the language: a formal form, often called Modern Standard Arabic, which is used for official communication such as speeches and most writing; and an informal form that is used primarily in conversation. Because Arabic

is spoken across a culturally and geographically varied region stretching from Western Asia across North Africa, there are many dialects of spoken Arabic. Students in Arabic courses at UNC learn both Modern Standard Arabic and a dialect of spoken Arabic (either Egyptian or Levantine) simultaneously.

The Arab world has a long and rich history that has always intersected with the histories of Europe, Africa, and Asia. Its geopolitical significance in the modern era, as well as the radical transformations that are occurring in the region since the 2011 Arab revolutions, make the study of the Arab world and its cultures key to understanding the world today. Arab Cultures majors study the literature and visual culture of the Arab world, as well as social practices and intellectual debates through rich course offerings in English.

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

- Identify or analyze significant aspects of the target cultures by interpreting texts and media
- Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language
- Demonstrate experience in the use of the target language outside the language classroom

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
ARAB 300	Arabic Grammar and Composition	3
Two additional Arabic language courses beyond ARAB 204 ¹		6
One of the following introductory-level classes: ²		3
ASIA 73	 First-Year Seminar: Popular Culture in the Arab World ³	
ASIA 74	 First-Year Seminar: Imagining Palestine	
ARAB 150	 Introduction to Arab Cultures	
ARAB 151	 Arabic Literature through the Ages	
Four Arabic literature and culture courses (list below)		12
Additional Requirements		
Arabic through level 4 ⁴		4
Total Hours		28

¹ Students whose initial language placement is above ARAB 305 should consult the department.

- ² It is recommended that students take this course either prior to or concurrent with upper-level Arabic literature and culture classes.
- ³ No more than one first-year seminar may be counted among the eight major courses.
- ⁴ The first three levels of Arabic (ARAB) can count toward the General Education Foundations requirement and have not been included as additional hours for the major.

Arabic Literature and Culture Courses

Code Title Hours

At least three must be chosen from:

ARAB 211	 Arab Comics	
ARAB/ANTH 214	 Medicine in the Arab World	
ARAB 255	 Arab World Photography	
ASIA/WGST 329	 Middle East Women Writers	
ARAB 337	 Borders and Walls in the Arab World	
ARAB/ANTH 354	 Everyday Lives in the Middle East: Anthropological Perspectives	
ASIA/CMPL 359	 Literary Diasporas of the Middle East	
ARAB 407	Readings in Arabic I (taught in Arabic)	
ARAB 408	Readings in Arabic II (taught in Arabic)	
ARAB 409	 Performing Arts in the Arab World (taught in Arabic)	
ARAB 410	 Visual Arts in the Arab World (taught in Arabic)	
ASIA/JWST/ PWAD 425	 Beyond Hostilities: Israeli-Palestinian Exchanges and Partnerships in Film, Literature, and Music	
ARAB/ANTH 432	 Science and Society in the Middle East	
ARAB 434	 Modern Arabic Literature in Translation	
ASIA/CMPL 442	 Postcolonial Literature of the Middle East	
ARAB 453	 Film, Nation, and Identity in the Arab World	
ASIA/JWST/ PWAD 462	 The Arab-Jews: Culture, Community, and Coexistence	
ASIA/WGST 471	 Gender and Sexuality in Middle Eastern Literature	
ASIA 692H	 Senior Honors Thesis II	

At most one course may be chosen from:

GEOG 59	 First-Year Seminar: Space, Identity, and Power in the Middle East ¹	
ASIA/HIST 138	History of Muslim Societies to 1500	
ASIA/HIST 139	 History of Muslim Societies since 1500	
ASIA/RELI 180	 Islam and Muslim Life before 1500	
ASIA/RELI 181	 Islam and Muslim Life since 1500	
RELI 185	 Women/Gender/Islam ^H	
ASIA/HIST 276	 The Modern Middle East	

ASIA/HIST/ PWAD 277  The Conflict over Israel/Palestine

RELI/ASIA 279  Islamic Law, Ethics, and Practice

SOCI 419  Sociology of the Islamic World

ASIA/PWAD 435/CMPL 535  The Cinemas of the Middle East and North Africa

ASIA/GEOG/ WGST 447  Gender, Space, and Place in the Middle East

GEOG 448  Transnational Geographies of Muslim Societies

RELI 480  Modern Muslim Literatures

RELI/ASIA 485  Gender and Sexuality in Islam

RELI/ASIA 486  Islam and Feminism/Islamic Feminism

ASIA/HIST 536  Revolution in the Modern Middle East

ASIA/HIST/ WGST 537  Women in the Middle East

ASIA/HIST 538  The Middle East and the West

ASIA/RELI 581  Sufism

ASIA/RELI 582  Islam and Islamic Art in South Asia

ASIA/RELI 584  The Qur'an as Literature

RELI/ASIA 587  Islam and Sexual Diversity

FREN 617  Framing Identities: Franco-Arab Transvisual Transcultural Contexts

ARAB/ASIA/ RELI 681  Readings in Islamicate Literatures

or approved courses taken in UNC–Chapel Hill-sponsored study abroad programs

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ No more than one first-year seminar may be counted among the eight major courses.

Students majoring in Arab cultures are strongly encouraged to take additional Arabic literature or culture courses as electives or to fulfill General Education requirements.

Note that ARAB 308 does not count toward this major.

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian and Middle Eastern Studies, a student may count a course in directed readings (ASIA 496 or ARAB 496) in the concentration in Arab cultures. To register for ASIA 496 or ARAB 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample

plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The Department of Asian and Middle Eastern Studies requires that *all* students with prior knowledge of Arabic take a placement test. Their beginning language course at UNC is decided by the placement result (not by test credit or transfer credit).

A student's initial placement is the most important determinant of how long it will take to complete the major. It's also important to be aware that almost all Arabic language courses are only offered in fall or spring, but not both.

Sample Plan One

This plan is for a student who either is a beginner in Arabic, or has some background but has placed into ARAB 101.

First Year	Hours
First-Year Foundation Courses	
IDST 101  College Thriving	1
ENGL 105  English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)	3
IDST 111L  Data Literacy Lab	1
Major Courses	
ARAB 101 Elementary Arabic I (fall only)	4
ARAB 102 Elementary Arabic II (spring only)	4
Major culture course, from the introductory courses list	3
Hours	19
Sophomore Year	
ARAB 203  Intermediate Arabic I (fall only)	4
ARAB 204 Intermediate Arabic II (spring only)	4
Major culture course	3
Hours	11
Junior Year	
ARAB 305 Advanced Arabic I (fall only)	3
ARAB 306 Advanced Arabic II (spring only)	3
ARAB 300 Arabic Grammar and Composition (spring only)	3
Major culture course	3
Hours	12
Senior Year	
Major culture course	3
Either of:	3
ARAB 4--- ARAB 400-Level Elective (4th-year language course, if available)	
Major culture course	
Hours	6
Total Hours	48

Sample Plan Two

This plan is for a student who has placed into ARAB 203.

First Year	Hours
First-Year Foundation Courses	
IDST 101  College Thriving	1

ENGL 105  English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)	3
IDST 111L  Data Literacy Lab	1
Major Courses	
ARAB 203  Intermediate Arabic I (fall only)	4
ARAB 204 Intermediate Arabic II (spring only)	4
Major culture course, from the introductory courses list	3
Hours	19
Sophomore Year	
ARAB 305 Advanced Arabic I (fall only)	3
ARAB 306 Advanced Arabic II (spring only)	3
ARAB 300 Arabic Grammar and Composition (spring only)	3
Major culture course	3
Hours	12
Junior Year	
Major culture course	3
Either of:	3
ARAB 4--- ARAB 400-Level Elective (4th-year language course, if available)	
Major culture course	
Hours	6
Senior Year	
Either of:	3
ARAB 4--- ARAB 400-Level Elective (4th-year language course, if available)	
Major culture course	
Hours	3
Total Hours	40

Sample Plan Three

This plan is for a student who has placed into ARAB 305.

First Year	Hours
First-Year Foundation Courses	
IDST 101  College Thriving	1
ENGL 105  English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)	3
IDST 111L  Data Literacy Lab	1
Major Courses	
ARAB 305 Advanced Arabic I (fall only)	3
ARAB 306 Advanced Arabic II (spring only)	3
Major culture course, from the introductory courses list	3
Hours	17
Sophomore Year	
ARAB 300 Arabic Grammar and Composition (spring only)	3
Major culture course	3
Hours	6
Junior Year	
Major culture course	3
Either of:	3
ARAB 4--- ARAB 400-Level Elective (4th-year language course, if available)	

Major culture course	
Hours	6
Senior Year	
Either of:	3
ARAB 4— ARAB 400-Level Elective (4th-year language course, if available)	
Major culture course	
Hours	3
Total Hours	32

Special Opportunities in Asian Studies

Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. In the case of the concentrations in Arab cultures, Chinese studies, Japanese, Korean studies, Persian studies, and South Asian studies, ASIA 692H may count as one of the courses for the major.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University's requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

Departmental Involvement

The department sponsors a variety of cultural events — lectures, film screenings, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus.

Languages across the Curriculum

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic, Chinese, Hindi-Urdu, or Korean but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic, Chinese, Hindi-Urdu, or Korean language skills in a broader intellectual context.

Libraries

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media and Design Center.

Study Abroad

UNC–Chapel Hill students can choose from a range of study abroad options (summer, semester, and yearlong) in Asia, the Middle East, and North Africa. Asian studies majors are strongly encouraged to take advantage of these opportunities; UNC-approved study abroad programs also satisfy the High-Impact Experience IDEAs in Action requirement. For

further information on these programs, contact the UNC Study Abroad Office.

Undergraduate Research

The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Honors Colloquium and the campuswide Annual Celebration of Undergraduate Research in the spring.

Asian Studies Major, B.A.–Chinese Concentration

Globally, China occupies a prominent position in many respects. With 1.4 billion inhabitants, it is the most populous country in the world. It spans five time zones, has a surface area roughly the size of the United States, and its economy is projected to become the world's largest before the end of this decade. China is the place of origin of one of the oldest cultural traditions in the world, with written records dating back more than three thousand years. Many elements of the traditional cultures of neighboring East Asian countries (such as Vietnam, Korea, and Japan) can be traced back to China. Finally, rapid economic development over the past few decades has bolstered China's political and military aspirations to become a global superpower. A knowledge of Chinese language and culture will enable students to explore the long and complex history of China and better understand China's role in the 21st century.

The Chinese program offers an extensive array of courses in Chinese (Mandarin) language, premodern and modern Chinese and Sinophone literature, history, philosophy, society, and film. This allows students to satisfy foreign language requirements, major or minor in Chinese, or complete a Chinese track M.A. degree. Students benefit from one of the strongest Chinese language curriculum programs in the country and extensive resources, including advanced courses in Chinese, language-intensive study abroad opportunities, Chinese library resources, the Chinese Undergraduate Student Association, the student-led Duke–UNC China Leadership Summit, and the Chinese Language Table. Students who complete this major acquire the linguistic and cultural competence to work in various fields including diplomacy, law, health and STEM fields, finance, business, journalism, non-profit organizations, education, and academia.

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

- Identify or analyze significant aspects of the target cultures by interpreting texts and media
- Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language
- Demonstrate experience in the use of the target language outside the language classroom

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The concentration in Chinese can be pursued along one of two tracks, depending on the student's initial Chinese language placement. Both tracks require eight courses. Students whose initial language placement is above CHIN 305 or CHIN 313 should consult the department.

- Track A (p. 180) is for students who have completed CHIN 204
- Track B (p. 181) is for students who have completed CHIN 212
- Students whose initial Chinese language placement is above 599 or whose Educational Experience Verification form for Chinese has been approved by the Office of Undergraduate Curricula may complete Track B by replacing the six language courses with culture courses from the list below. These replacements must be approved by the department, and at least four of the culture courses chosen must be at the 300 level or above.

Track A

Code	Title	Hours
Core Requirements		
At least four language courses above CHIN 204, chosen from:		12
CHIN 305	Advanced Chinese I	
CHIN 306	Advanced Chinese II	
CHIN 407	 Readings in Modern Chinese I	
CHIN 408	 Lens on China: Learning Chinese via Films	
CHIN 441	 Chinese-English Translation and Interpreting	
CHIN 443	Business Communication in Chinese	
CHIN 445	Chinese Tea Culture and Its Changing Landscape	
CHIN 490	Topics in Chinese Literature and Language	
CHIN 510	 Introduction to Classical Chinese	
CHIN 520	 Stay Tuned to China	
CHIN 521	Chinese History in Chinese	
CHIN 525	 Ancient Philosophers and Their Modern Reincarnation	
CHIN 590	Advanced Topics in Chinese Literature and Language	

CHIN 624	Chinese Internet Literature	
CHIN 631	 Writing Chinese (in) America: Advanced Studies of a Foreign Literature from United States Homeland	
At least two culture courses (chosen from list below)		6
Two more courses that may be from either the language list or the culture list		6
Additional Requirements		
Chinese through level 4 ¹		4
Total Hours		28

¹ The first three levels of Chinese (CHIN) can count toward the General Education Foundations requirement and have not been included as additional hours for the major.

Culture Courses

Code	Title	Hours
ASIA 52	 First-Year Seminar: Food in Chinese Culture	3
ASIA 55	 First-Year Seminar: Kung-Fu: The Concept of Heroism in Chinese Culture	3
ASIA/WGST 56	 First-Year Seminar: Writing Women in Modern China ^H	3
ASIA 65	 First-Year Seminar: Philosophy on Bamboo: Rethinking Early Chinese Thought	3

ASIA 692H	 Senior Honors Thesis II	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional Notes for Both Tracks

Approved language courses taken in UNC–Chapel Hill-sponsored study abroad programs may count in the concentration. However, study abroad courses may not substitute for any of the culture courses, which must be taken in the Department of Asian and Middle Eastern Studies. No more than one first-year seminar or senior honors thesis course may be included among the culture courses.

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian and Middle Eastern Studies, a student may count a course in directed readings (ASIA 496 or CHIN 496) in the concentration in Chinese. To register for ASIA 496 or CHIN 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The Department of Asian and Middle Eastern Studies requires that *all* students with prior knowledge of Chinese take a placement test. Their beginning language course at UNC is decided by the placement result (not by test credit or transfer credit). That initial placement also determines which track the student will be on; the Chinese language program has two tracks, A (regular) and B (heritage).

A student's initial placement is the most important determinant of how long it will take to complete the major. It's also important to be aware that almost all Chinese language courses are only offered in fall or spring, but not both.

Sample Plan One

This plan is for a student who either is a beginner in Chinese, or has some background but has placed into CHIN 101.

First Year	Hours
First-Year Foundation Courses	
IDST 101 College Thriving	1

Major culture course		

Hours **3**

Total Hours **32**

¹ Students can also fulfill this requirement by taking a first-year seminar in the major.

Dual Bachelor's–Master's Degree Program

The dual B.A.–M.A. program in Chinese offers highly motivated undergraduates the opportunity to earn an M.A. in less than the usual time by completing some of the M.A. requirements while still an undergraduate. Students interested in pursuing this program should consult the director of graduate studies and the Chinese program advisor.

Additional information can be found on the department website (<https://asianstudies.unc.edu/ma-program/dual-ba-ma-program-in-chinese/>).

Special Opportunities in Asian Studies Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. In the case of the concentrations in Arab cultures, Chinese studies, Japanese, Korean studies, Persian studies, and South Asian studies, ASIA 692H may count as one of the courses for the major.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University's requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

Departmental Involvement

The department sponsors a variety of cultural events – lectures, film screenings, performances, and more – as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus.

Languages across the Curriculum

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic, Chinese, Hindi-Urdu, or Korean but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic, Chinese, Hindi-Urdu, or Korean language skills in a broader intellectual context.

Libraries

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media and Design Center.

Study Abroad

UNC–Chapel Hill students can choose from a range of study abroad options (summer, semester, and yearlong) in Asia, the Middle East, and North Africa. Asian studies majors are strongly encouraged to take advantage of these opportunities; UNC-approved study abroad programs also satisfy the High-Impact Experience IDEAs in Action requirement. For further information on these programs, contact the UNC Study Abroad Office.

Undergraduate Research

The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Honors Colloquium and the campuswide Annual Celebration of Undergraduate Research in the spring.

Asian Studies Major, B.A. –Japanese Concentration

Japan is a democracy with a robust economy, advanced technology in fields including AI and robotics, and a major role in international relations. Japanese popular culture, from anime to video games, has been influential across the U.S. and across the globe. Friendships with Japanese, travel abroad, enjoying Japanese food locally, as well as the practice of martial arts and the love of Japanese popular media have motivated students to pursue the study of Japanese at Carolina. In the program, students enjoy meeting others with similar enthusiasms and

often take part in extracurricular activities such as the Japan Club and the anime club (COUp).

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

- Identify or analyze significant aspects of the target cultures by interpreting texts and media
- Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language
- Demonstrate experience in the use of the target language outside the language classroom

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
JAPN 305	Advanced Japanese I ¹	3
JAPN 306	Advanced Japanese II	3
At least three advanced Japanese courses from the list below		9
At least two culture courses from the list below ²		6
One more course that may be from either the advanced Japanese list or the culture list ²		3
Additional Requirements		
Japanese through level 4 ³		4
Total Hours		28

¹ Students whose initial language placement is above JAPN 305 should consult the department.

² No more than one first-year seminar or senior honors thesis course may be included among the culture courses.

³ The first three levels of Japanese (JAPN) can count toward the General Education global language requirement and have not been included as additional hours for the major.

Approved courses taken in UNC–Chapel Hill-sponsored study abroad programs may count in the concentration.

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian and Middle Eastern Studies, a student may count a course in directed readings (ASIA 496 or JAPN 496) in the concentration in Japanese. To register for ASIA 496 or

JAPN 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Special Opportunities in Asian Studies

Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. In the case of the concentrations in Arab cultures, Chinese studies, Japanese, Korean studies, Persian studies, and South Asian studies, ASIA 692H may count as one of the courses for the major.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University's requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

Departmental Involvement

The department sponsors a variety of cultural events — lectures, film screenings, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus.

Languages across the Curriculum

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic, Chinese, Hindi-Urdu, or Korean but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic, Chinese, Hindi-Urdu, or Korean language skills in a broader intellectual context.

Libraries

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media and Design Center.

Study Abroad

UNC—Chapel Hill students can choose from a range of study abroad options (summer, semester, and yearlong) in Asia, the Middle East, and North Africa. Asian studies majors are strongly encouraged to take advantage of these opportunities; UNC-approved study abroad programs also satisfy the High-Impact Experience IDEAs in Action requirement. For further information on these programs, contact the UNC Study Abroad Office.

Undergraduate Research

The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Honors Colloquium and the campuswide Annual Celebration of Undergraduate Research in the spring.

Asian Studies Major, B.A.—Korean Studies Concentration

Korea occupies a place of significant geopolitical, economic, and cultural importance in the world. It is a unique country where five thousand years of history and tradition coexist with the most advanced technological and economic development. It is also a place where political and ideological differences divide the country into two Koreas (Republic of Korea, or South Korea, and Democratic Republic of Korea, or North Korea) that maintain one of the world's most fortified military zones.

The Korean peninsula is home to over 72 million ethnic Koreans (North and South combined) and over 1.3 million recent migrants from all over the world. Approximately 7 million ethnic Koreans have migrated to other countries and have established diasporic communities in over 150 countries. The Korean language is spoken by over 75 million people around the world and ranks 13th among the most used languages in the world.

One of the first programs of its kind in the Southeast, the Korean Studies concentration in the Asian Studies degree allows students to combine Korean language study with an interdisciplinary set of courses in Korean culture, history, and society.

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

- Identify or analyze significant aspects of the target cultures by interpreting texts and media
- Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language
- Demonstrate experience in the use of the target language outside the language classroom

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The eight core courses (24 credit hours) consist of two to four language courses and four to six literature and culture courses, as described below.

Code	Title	Hours
Core Requirements		
At least two Korean language courses beyond KOR 204. ¹		6-12
KOR 305	Advanced Korean I	
KOR 306	 Advanced Korean II	
KOR 407	 Modern Korean Literature and Culture	

KOR 408	 Changes and Continuities in Korean History	
KOR 409	 Korean Through Current Affairs	
KOR 490	Topics in Korean Language and Literature	
At least one introductory-level course chosen from the following list: ²		3-6
ASIA 72	 First-Year Seminar: Transnational Korea: Literature, Film, and Popular Culture	
KOR 150	 History, Memory, and Reality in Contemporary Korea	
KOR 151	 Education and Social Changes in Contemporary Korea	
KOR 152	 Audiovisual Korea: Music, Art, and Performance from Calligraphy to K-pop	
At least two Korean literature and culture courses chosen from the following list:		6-15
KOR/CMPL 232	 Imagining the City in Modern Korea: Text, Image, Space	
KOR/CMPL/ WGST 237	 Rebel, Lover, Martyr: Gender and Sexuality in North and South Korean Screen Cultures	
KOR 327	 Global Korea: Migration, Identity, and Community in the Korean Diaspora	
KOR 346/ CMPL 246	 Body Politics in Modern Korean Literature ^H	
ASIA 350	 Transpacific Narratives: Oral Histories of Asian America	
ASIA 427/ CMPL 527/ PWAD 427	 Cold War Culture in East Asia: Transnational and Intermedial Connections	
KOR 447/ CMPL 547	 Documenting Diasporas: Korean Diasporas in Films and Documentaries	
Other major courses		0-9
IDST 123I	 Borders and Boundaries	
ASIA 229	 Breakdancers, Vocaloids, and Gamers: East Asian Youth Cultures	
ASIA 342	 Cultural Productions of East Asia	
ASIA/HIST/ WGST 418	 Family and Gender in Early Modern China and Korea	
ASIA/ECON 469	 Asian Economic Systems	
ASIA 692H	 Senior Honors Thesis II	
Additional Requirements		
Korean through level 4		4
Total Hours		28

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Students whose initial language placement is above KOR 305 should consult the department.

² No more than two introductory courses (6 hours) may count toward the major. It is recommended that students take at least one of these

courses either prior to or concurrent with upper-level Korean literature and culture classes.

Approved courses taken in UNC–Chapel Hill-sponsored study abroad programs or taken from another institution may count in the concentration. No more than one first-year seminar may be counted among the eight major courses.

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian and Middle Eastern Studies, a student may count a course in directed readings (KOR 496) in the concentration in Korean studies. To register, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The Department of Asian and Middle Eastern Studies requires that *all* students with prior knowledge of Korean take a placement test. Their beginning language course at UNC is decided by the placement result (not by test credit or transfer credit).

A student's initial placement is the most important determinant of how long it will take to complete the major. It's also important to be aware that almost all Korean language courses are only offered in fall or spring, but not both.

Sample Plan One

This plan is for a student who either is a beginner in Korean, or has some background but has placed into KOR 101.

First Year		Hours
First-Year Foundation Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3

Special Opportunities in Asian Studies
Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. In the case of the concentrations in Arab cultures, Chinese studies, Japanese, Korean studies, Persian studies, and South Asian studies, ASIA 692H may count as one of the courses for the major.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University's requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

Departmental Involvement

The department sponsors a variety of cultural events — lectures, film screenings, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus.

Languages across the Curriculum

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic, Chinese, Hindi-Urdu, or Korean but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic, Chinese, Hindi-Urdu, or Korean language skills in a broader intellectual context.

Libraries

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media and Design Center.

Study Abroad

UNC–Chapel Hill students can choose from a range of study abroad options (summer, semester, and yearlong) in Asia, the Middle East, and North Africa. Asian studies majors are strongly encouraged to take advantage of these opportunities; UNC-approved study abroad programs also satisfy the High-Impact Experience IDEAs in Action requirement. For further information on these programs, contact the UNC Study Abroad Office.

Undergraduate Research

The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Honors Colloquium and the campuswide Annual Celebration of Undergraduate Research in the spring.

Asian Studies Major, B.A.–Persian Studies Concentration

Persian (Farsi) is the official language of Iran, Afghanistan (where it is called Dari), and Tajikistan (where it is called Tajiki), and is spoken by over 100 million people worldwide. With a literary tradition that spans more than a millennium, Persian boasts one of the world's richest and

most influential bodies of poetry, prose, philosophy, and historiography. Persian has played a major role in the cultural and intellectual history of the Middle East, Central Asia, and South Asia.

The Persian Studies concentration provides students with a strong foundation in the Persian language while offering broad exposure to the cultures, histories, and literatures of the Persian-speaking world. Students develop language skills in reading, writing, listening, and speaking through a sequenced curriculum that emphasizes authentic materials, including modern and classical literature, media, and film. Instruction integrates both formal (written) and colloquial (spoken) Persian, preparing students for academic research, professional use, and everyday communication.

In addition to language courses, students explore the rich traditions of Persianate societies through interdisciplinary offerings in literature, visual culture, cinema, religion, and history. Coursework covers both the pre-modern and modern periods, highlighting the intersections between Iran and neighboring regions such as the Arab world, Central Asia, and South Asia.

The Persian Studies concentration equips students with critical cultural literacy and global perspectives valuable in fields such as international relations, education, translation, journalism, nonprofit work, business, and academia. Graduates of the program are prepared for further study in Middle Eastern studies, comparative literature, and related disciplines.

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

- Identify or analyze significant aspects of the target cultures by interpreting texts and media
- Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language
- Demonstrate experience in the use of the target language outside the language classroom

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The major requires eight core courses (24 credit hours), as described below.

Code	Title	Hours
Core Requirements		
Language requirement (two courses):		6
PRSN 305	Persian Short Stories	
PRSN 306	Persian Language through Literature and Film	
One introductory-level course in Persian Studies:		3

ASIA/PWAD 69	First-Year Seminar: Wars and Veterans: Iran, Iraq, and Afghanistan ¹	
ASIA 124	Iranian Post-1979 Cinema	
ASIA 126	Introduction to Persian Literature	
ASIA/WGST 127	Iranian Women Writers	
Three upper-level courses in Persian Studies:		9
ASIA/CMPL 256	Love in Classical Persian Poetry	
ASIA/CMPL 258	Iranian Prison Literature	
ASIA 431	Persian Sufi Literature	
ASIA/RELI 583	Religion and Culture in Iran, 1500-Present	
ASIA 692H	Senior Honors Thesis II	
One Regional course (see list below) ¹		3
One additional elective course, chosen from the following options: ¹		3
An additional course from the introductory-level list		
An additional course from the upper-level list		
An additional course from the Regional list		
Additional Requirements		
Persian through level 4 ²		3
Total Hours		27

¹ No more than one first-year seminar may be included among the eight required major courses.

² The first three levels of Persian (PRSN) can count toward the General Education global language requirement and have not been included as additional hours for the major.

Approved courses taken in UNC–Chapel Hill-sponsored study abroad programs or taken from another institution may count in the concentration. No more than one first-year seminar may be counted among the eight major courses.

Placement credit (PL) may not be used to meet core requirements for the concentration.

With the approval of the associate chair of Asian and Middle Eastern Studies, a student may count a course in directed readings in the concentration in Persian studies. To register, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Regional Coursework

To ensure that students learn to place their knowledge of Persian Studies within a broader regional context, students are required to take at least one course about South Asia and India or the Middle East and the Islamicate World.

Code	Title	Hours
South Asia and India Focus Courses		
ASIA 59	First-Year Seminar: Media Masala: Popular Music, TV, and the Internet in Modern India and Pakistan ¹	3

Special Opportunities in Asian Studies
Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. In the case of the concentrations in Arab cultures, Chinese studies, Japanese, Korean studies, Persian studies, and South Asian studies, ASIA 692H may count as one of the courses for the major.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University’s requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

Departmental Involvement

The department sponsors a variety of cultural events — lectures, film screenings, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus.

Languages across the Curriculum

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic, Chinese, Hindi-Urdu, or Korean but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic, Chinese, Hindi-Urdu, or Korean language skills in a broader intellectual context.

Libraries

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media and Design Center.

Study Abroad

UNC–Chapel Hill students can choose from a range of study abroad options (summer, semester, and yearlong) in Asia, the Middle East, and North Africa. Asian studies majors are strongly encouraged to take advantage of these opportunities; UNC-approved study abroad programs also satisfy the High-Impact Experience IDEAs in Action requirement. For further information on these programs, contact the UNC Study Abroad Office.

Undergraduate Research

The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Honors Colloquium and the campuswide Annual Celebration of Undergraduate Research in the spring.

Department Programs

Majors

- Asian Studies Major, B.A. –Interdisciplinary Concentration (p. 168)
- Asian Studies Major, B.A. –Arab Cultures Concentration (p. 176)

- Asian Studies Major, B.A.–Chinese Concentration (p. 180)
- Asian Studies Major, B.A.–Japanese Concentration (p. 186)
- Asian Studies Major, B.A.–Korean Studies Concentration (p. 190)
- Asian Studies Major, B.A.–Persian Studies Concentration (p. 193)
- Asian Studies Major, B.A.–South Asian Studies Concentration (p. 197)

Minors

- Arabic Minor (p. 203)
- Asian Studies Minor (p. 201)
- Chinese Minor (p. 205)
- Modern Hebrew Minor (p. 207)
- Hindi-Urdu Minor (p. 208)
- Japanese Minor (p. 209)
- Korean Minor (p. 210)
- Middle Eastern Languages Minor (p. 212)
- Persian Minor (p. 213)
- Southeast Asian Studies Minor (p. 202)

Asian Studies Major, B.A.–South Asian Studies Concentration

South Asia refers to a geographic region comprising the nations of Afghanistan, Pakistan, India, Nepal, Bhutan, Bangladesh, Bhutan, the Maldives, and Sri Lanka. With strong cultural ties to the region, Iran, Myanmar, and Tibet are also sometimes considered part of South Asia. Some 5,000 years ago, the highly developed Indus Valley Civilization developed along the Indus River system in present-day Pakistan and northwest India. Over the course of its history, South Asia has been divided into various polities, but in the premodern period experienced significant political consolidation under the Mauryas, the Guptas, the Delhi Sultanate, the Mughals, and the Marathas.

Across South Asia there is vast cultural diversity, with its many regional languages and scripts, distinctive and beautiful styles of vernacular literature/poetry, arts, architecture, performance/theatre, music, and dance. South Asia is the birthplace of several world religions, namely Hinduism, Buddhism, Jainism, and Sikhism. Islam is another world religion found in South Asia, and Sufism, in particular, has flourished there. Pakistan, Indian, and Bangladesh together are home to about 30 percent of the world's Muslim population.

Courses in this concentration span various time periods and cultural forms, although many are situated in the modern period and emphasize literature, film, and/or performance. A degree in Asian Studies with a South Asian Studies concentration will provide students with cultural and language competencies that will serve them well in a globalizing world. Many students usefully combine the degree with another major and/or minor, making them more attractive on the job market, and positioning them well for further study in professional or graduate school.

Student Learning Outcomes

Upon completion of the Asian studies program, students should be able to:

- Identify or analyze significant aspects of the target cultures by interpreting texts and media
- Demonstrate proficiency in listening, speaking, reading, and writing skills in the target language
- Demonstrate experience in the use of the target language outside the language classroom

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Two Hindi-Urdu courses beyond HNUR 204. ¹		6
One of the following introductory courses: ²		3
ASIA 59	First-Year Seminar: Media Masala: Popular Music, TV, and the Internet in Modern India and Pakistan	
ASIA 61	First-Year Seminar: A Tour of South Asia's Regional Art Cinemas	
HIST 74	First-Year Seminar: Emperors, Courts, and Consumption: The Mughals of India	
ASIA/HIST 135	History of the Indian Subcontinent to 1750	
ASIA/HIST 136	History of India, Pakistan, and Bangladesh: South Asia since 1750	
ASIA 152	Survey of South Asian Cultural History	
ASIA/WGST 167	Gender, Sexuality, and Social Justice in South Asia	
ASIA/GEOG 267	South Asia	
Five courses, including at least three numbered 200 or above, from either the list of introductory courses above or the course list below		15
Additional Requirements		
HNUR through level 4 ³		4
HNUR 220	Introduction to the Hindi Script (Devanagari) (not required if the student has taken HNUR 101)	1
HNUR 221	Introduction to the Urdu Script (Nastaliq)	2
Total Hours		31

¹ Students whose initial language placement is above HNUR 305 should consult the department.

² It is recommended that students take this course either prior to or concurrent with upper-level South Asian literature and culture classes.

³ The first three levels of Hindi-Urdu (HNUR) can count toward the General Education Foundations requirement and have not been included as additional hours for the major.

Courses

Code	Title	Hours
ASIA/PWAD 69	First-Year Seminar: Wars and Veterans: Iran, Iraq, and Afghanistan	3
ASIA 124	Iranian Post-1979 Cinema	3
ASIA 125I	Transnational Lives: Culture, Film, and Fiction in the Iranian and Indian Diasporas	3
ASIA 126	Introduction to Persian Literature	3
ASIA/WGST 127	Iranian Women Writers	3
ASIA 163	Hindi-Urdu Poetry in Performance	3
ASIA/MUSC 164	Music of South Asia	3
ASIA 228	Contested Souls: Literature, the Arts, and Religious Identity in Modern India	3
ASIA 231	Bollywood Cinema	3
ASIA/CMPL 256	Love in Classical Persian Poetry	3

ASIA/CMPL 258	Iranian Prison Literature	3
ASIA/CMPL 261	India and Orientalism	3
ASIA 262	Nation, Film, and Novel in Modern India	3
ASIA/HIST 272	Modern South Asia	3
ASIA/RELI 280	Hindu Gods and Goddesses ^H	3
ASIA/RELI 285	Monks, Magic, & Meditation: Theravada Buddhism Across Space and Time	3
ASIA 300/RELI 283	The Buddhist Tradition: India, Nepal, and Tibet	3
ASIA 331/HIST 335/PWAD 331	Cracking India: Partition and Its Legacy in South Asia ^H	3
ASIA 332	The Story of Rama in India	3
ASIA 333	The Mahabharata: Remembered and Reimagined	3
ANTH 361	Community in India and South Asia	3
ASIA/RELI 381	Religions of South Asia	3
ASIA/RELI 382	The Story of Rama in Indian Culture—High Impact	3
ASIA/RELI 383	The Mahabharata: Remembered and Reimagined—High Impact	3
HNUR 407	South Asian Society and Culture	3
HNUR 408	South Asian Media and Film	3
HNUR 409	Sex and Social Justice in South Asia	3
HNUR 410	Seminar on the Urdu-Hindi Ghazal	3
HNUR 411	Health and Medicine in South Asia	3
ASIA 431	Persian Sufi Literature	3
ASIA/HIST 440	Gender in Indian History	3
ASIA 441/HIST 442	Religion, Co-existence, and Conflict in Pre-Colonial India	3
ASIA 453	Global Shangri-La: Tibet in the Modern World	3
RELI/PWAD 481	Religion, Fundamentalism, and Nationalism	3
ASIA/RELI/WGST 482	Sex, Gender, and Religion in South Asia	3
HNUR 490	Topics in Hindi-Urdu Literature and Language	3
ASIA 522	Beauty and Power in the Classical Indian World	3
ASIA/HIST 557	Fiction and History in India	3
ASIA/RELI 581	Sufism	3
ASIA/RELI 582	Islam and Islamic Art in South Asia	3
ASIA/RELI 583	Religion and Culture in Iran, 1500-Present	3
HNUR/RELI 592	Religious Conflict and Literature in India	3
ASIA 692H	Senior Honors Thesis II	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Note that HNUR 308 does not count toward this major.

Placement credit (PL) may not be used to meet core requirements for the concentration. However, the additional requirements may be met by placement.

Approved courses taken in UNC–Chapel Hill-sponsored study abroad programs may count in the concentration. No more than one first-year seminar may be counted among the eight major courses.

With the approval of the associate chair of Asian and Middle Eastern Studies, a student may count a course in directed readings (ASIA 496 or HNUR 496) in the concentration in South Asian studies. To register for ASIA 496 or HNUR 496, a student must obtain the approval of the associate chair and the faculty member who will supervise the project.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The Department of Asian and Middle Eastern Studies requires that *all* students with prior knowledge of Hindi-Urdu take a placement test. Their beginning language course at UNC is decided by the placement result (not by test credit or transfer credit).

A student's initial placement is the most important determinant of how long it will take to complete the major. It's also important to be aware that almost all Hindi-Urdu language courses are only offered in fall or spring, but not both.

HNUR 220 (Hindi) and HNUR 221 (Urdu) are one-credit courses that just teach the respective writing systems; a student with knowledge of spoken Hindi-Urdu only may be advised to take one of the script courses first and then be able to join the main language sequence at a level appropriate to their speaking proficiency.

Sample Plan One

This plan is for a student who either is a beginner in Hindi-Urdu, or has some background but has placed into HNUR 101.

First Year		Hours
First-Year Foundation Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)		3
IDST 111L	 Data Literacy Lab	1
Major Courses		
HNUR 101	Elementary Hindi-Urdu I (fall only)	4
HNUR 102	Elementary Hindi-Urdu II (spring only)	4
Major culture course, from the introductory courses list		3
Hours		19
Sophomore Year		
HNUR 203	 Intermediate Hindi-Urdu I (fall only)	4

HNUR 221	Introduction to the Urdu Script (Nastaliq) (fall only; could also be taken any subsequent fall)	2
HNUR 204	Intermediate Hindi-Urdu II (spring only)	4
Major culture course		3
Hours		13
Junior Year		
HNUR 305	 Advanced Hindi-Urdu I (fall only, but 305 and 306 can be taken in either order)	3
HNUR 306	 Advanced Hindi-Urdu II (spring only)	3
Major culture course		3
Major culture course numbered 200 or above		3
Hours		12
Senior Year		
Major culture course numbered 200 or above		3
Either of:		3
HNUR 4XX (4th year language class, if available)		
Major culture course numbered 200 or above		
Hours		6
Total Hours		50

Sample Plan Two

This plan is for a student who has placed into HNUR 203 (and placed out of HNUR 220 because they know the Hindi script already).

First Year		Hours
First-Year Foundation Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)		3
IDST 111L	 Data Literacy Lab	1
Major Courses		
HNUR 203	 Intermediate Hindi-Urdu I (fall only)	4
HNUR 204	Intermediate Hindi-Urdu II (spring only)	4
Major culture course, from the introductory courses list		3
Hours		19
Sophomore Year		
HNUR 305	 Advanced Hindi-Urdu I (fall only, but 305 and 306 can be taken in either order)	3
HNUR 221	Introduction to the Urdu Script (Nastaliq) (fall only; could also be taken any subsequent fall)	2
HNUR 306	 Advanced Hindi-Urdu II (spring only)	3
Major culture course		3
Hours		11
Junior Year		
Major culture course		3
Either of:		3
HNUR 4XX (4th year language class, if available)		
Major culture course numbered 200 or above		
Hours		6
Senior Year		
Major culture course numbered 200 or above		3
Either of:		3

HNUR 4XX (4th year language class, if available)	
Major culture course numbered 200 or above	
Hours	6
Total Hours	42

Sample Plan Three

This plan is for a student who has placed into a script course (HNUR 220 or HNUR 221) followed by third-year Hindi-Urdu.

First Year		Hours
First-Year Foundation Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)		3
IDST 111L	 Data Literacy Lab	1
Major Courses		
Either of the script courses (both fall only):		1
HNUR 220 Introduction to the Hindi Script (Devanagari)		
HNUR 221 Introduction to the Urdu Script (Nastaliq)		
HNUR 306	 Advanced Hindi-Urdu II (spring only; HNUR 305 and 306 can be taken in either order)	3
Major culture course, from the introductory courses list		3
Hours		15
Sophomore Year		
HNUR 305	 Advanced Hindi-Urdu I	3
Whichever script course was not taken previously; could also be taken any subsequent fall		1
HNUR 220 Introduction to the Hindi Script (Devanagari)		
HNUR 221 Introduction to the Urdu Script (Nastaliq)		
Major culture course		3
Hours		7
Junior Year		
Major culture course		3
Either of:		3
HNUR 4XX (4th year language class, if available)		
Major culture course numbered 200 or above		
Hours		6
Senior Year		
Major culture course numbered 200 or above		3
Either of:		3
HNUR 4XX (4th year language class, if available)		
Major culture course numbered 200 or above		
Hours		6
Total Hours		34

Special Opportunities in Asian Studies
Honors in Asian Studies

A candidate for honors in Asian studies will write a substantial paper under the guidance of a faculty member. While researching and writing the honors paper, the student will enroll in ASIA 691H and ASIA 692H. In the case of the concentrations in Arab cultures, Chinese studies,

Japanese, Korean studies, Persian studies, and South Asian studies, ASIA 692H may count as one of the courses for the major.

A committee composed of at least two faculty members will examine the candidate. To be accepted as an honors candidate, a student must meet the University’s requirement of a minimum overall grade point average of 3.3, secure the consent of a faculty member in the Asian studies field to act as advisor for the project, and submit a proposal to the associate chair of Asian studies for approval.

Departmental Involvement

The department sponsors a variety of cultural events — lectures, film screenings, performances, and more — as well as social and informational events where students can get to know each other and faculty members in an informal setting. Faculty members in the department serve as advisors to some of the many Asia-related student organizations on campus.

Languages across the Curriculum

The department participates in the Languages across the Curriculum (LAC) program, offering a one-credit-hour discussion section that is conducted in Arabic, Chinese, Hindi-Urdu, or Korean but associated with a variety of courses offered in English, both in Asian studies and in such other departments as history or religious studies. This LAC recitation section offers students the opportunity to use their Arabic, Chinese, Hindi-Urdu, or Korean language skills in a broader intellectual context.

Libraries

The University has rich collections of books and periodicals on Asia in the relevant Asian languages, as well as in English and other Western languages. Experts in the collection development department for Davis Library are available to help students locate the materials they need. The University also has an outstanding collection of Asian films and other audiovisual materials, housed in the Media and Design Center.

Study Abroad

UNC—Chapel Hill students can choose from a range of study abroad options (summer, semester, and yearlong) in Asia, the Middle East, and North Africa. Asian studies majors are strongly encouraged to take advantage of these opportunities; UNC-approved study abroad programs also satisfy the High-Impact Experience IDEAs in Action requirement. For further information on these programs, contact the UNC Study Abroad Office.

Undergraduate Research

The department actively encourages undergraduate student research. Through classes, advising, and office hours, faculty members guide students toward defining areas of interest, conceptualizing research questions, identifying sources, and writing academic papers. Students may pursue research through independent studies, the senior honors thesis, and study abroad research opportunities such as the Burch Fellowship. Asian studies students have received a variety of competitive research support and travel awards, won regional contests for undergraduate papers, published papers in academic journals, and presented their work at such events as the Senior Honors Colloquium and the campuswide Annual Celebration of Undergraduate Research in the spring.

Asian Studies Minor

Stretching from Japan to the Arab world, Asia is the largest and most populous continent in the world and home to an array of diverse cultures and political structures. A minor in interdisciplinary Asian studies offers students the opportunity to study a broad range of topics, building the global awareness that will be useful in government employment; internationally oriented business, journalism, law, and teaching; as well as graduate study in a range of humanistic and social science disciplines.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

A student may take an interdisciplinary minor in Asian studies by completing five courses from among those accepted for the interdisciplinary Asian studies major (p. 168). At least two courses must be taken within the Department of Asian and Middle Eastern Studies, chosen from the list in the section describing the major. (Study abroad courses may not be substituted for these two courses.) The courses taken for the minor must include one from three of the six regions of Asia (China, Japan, Korea, Middle East, South Asia, Southeast Asia), as defined in the section describing the major. Students interested in advanced Asian or Middle Eastern language training should consider the Arabic, Chinese, Hebrew, Hindi-Urdu, Japanese, Korean, Persian, or Middle Eastern languages minors.

No more than one first-year seminar may be counted toward the minor.

See program page here (p. 168) for special opportunities.

Southeast Asian Studies Minor

From environmental ecologies and languages to systems of belief and political histories, Southeast Asia is one of the most diverse regions in the world. This minor provides an interdisciplinary overview of the cultures and peoples residing in the 11 countries that constitute this region, including Brunei Darussalam, Cambodia, Indonesia, Laos, Malaysia, Myanmar, the Philippines, Singapore, Thailand, Timor Leste, and Vietnam, as well as their diasporas.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill

- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core requirements		
Four courses chosen from among the following:		12
GEOG 64	 First-Year Seminar: Vietnam	
HIST/ASIA 131	 Southeast Asia before 1800 through Digital History	
HIST/ASIA 132	 Modern Southeast Asia	
MUSC/ASIA 240	Performance in Southeast Asia: Gongs, Punks, and Shadow Plays	
LING/ASIA 260	 Languages of Southeast Asia	
GEOG 266	 Society and Environment in Southeast Asia	
RELI/ASIA 285	 Monks, Magic, & Meditation: Theravada Buddhism Across Space and Time	
AMST/ASIA 353	 Southeast Asian North Carolina	
ANTH/ASIA 375	Memory, Massacres, and Monuments in Southeast Asia	
RELI/ASIA 384	Religion and Globalization in Southeast Asia	
HIST/ASIA/ PWAD 570	The Vietnam War	
VIET 204	Intermediate Vietnamese II (taught in Vietnamese)	
VIET 305	 Advanced Vietnamese I (taught in Vietnamese)	
Total hours		12

Placement credit (PL) may not be used to meet minor requirements.

One transfer or Study Abroad course that is sufficiently focused on Southeast Asia may be approved for use in the minor.

Special Opportunities

Many opportunities are provided to students through the Bringing Southeast Asia Home initiative at the Carolina Asia Center (<https://asia.unc.edu/>), including research funding, both independently and through the Summer Undergraduate Research Fellowship (SURF) program (<https://our.unc.edu/fund/surf/>). Students are encouraged to pursue funding for Southeast Asian language study outside of UNC through the Foreign Language and Area Studies (FLAS) awards (<https://www2.ed.gov/programs/iegpsflas/>). Students may also consider engaging with the National University of Singapore, one of UNC's strategic partners, or other study abroad opportunities (<https://studyabroad.unc.edu/101series/>) or the Phillips Ambassador Program (<https://phillips.unc.edu/>). Students hoping to engage with the Southeast Asian diaspora may apply for funding through the Southern Futures (<https://admissions.unc.edu/apply/special-opportunities/southern-futures-fellows/>) program. Lastly, numerous Southeast Asia focused events are held annually by the Carolina Asia Center.

Arabic Minor

Political and economic developments in the Middle East, as well as the internationalization of many businesses and professions, have made understanding, speaking, reading, and writing Arabic an increasingly valuable skill. As the fifth most widely spoken language in the world, as one of the official languages of the United Nations, and as the religious language of a quarter of the world's population, Arabic is also a language with a rich literary and cultural heritage that deserves to be studied in its own right.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The undergraduate minor in Arabic consists of four courses.

Code	Title	Hours
Core Requirements		
Three language courses beyond ARAB 203		9-10
ARAB 204	Intermediate Arabic II	
ARAB 300	Arabic Grammar and Composition	
ARAB 305	Advanced Arabic I	
ARAB 306	Advanced Arabic II	
ARAB 407	Readings in Arabic I	
ARAB 408	Readings in Arabic II	
ARAB 409	 Performing Arts in the Arab World	
ARAB 410	 Visual Arts in the Arab World	
One additional course chosen from among the following:		3
GEOG 59	 First-Year Seminar: Space, Identity, and Power in the Middle East	
ASIA 73	 First-Year Seminar: Popular Culture in the Arab World	
ASIA 74	 First-Year Seminar: Imagining Palestine	
ASIA/HIST 138	History of Muslim Societies to 1500	
ASIA/HIST 139	 History of Muslim Societies since 1500	
ARAB 150	 Introduction to Arab Cultures

Chinese Minor

Globally, China occupies a prominent position in many respects. With 1.4 billion inhabitants, it is the most populous country in the world. It spans five time zones, has a surface area roughly the size of the United States, and its economy is projected to become the world's largest before the end of this decade. China is the place of origin of one of the oldest cultural traditions in the world, with written records dating back more than three thousand years. Many elements of the traditional cultures of neighboring East Asian countries (such as Vietnam, Korea, and Japan) can be traced back to China. Finally, rapid economic development over the past few decades has bolstered China's political and military aspirations to become a global superpower. A knowledge of Chinese language and culture will enable students to explore the long and complex history of China and better understand China's role in the 21st century.

The Chinese program offers an extensive array of courses in the Chinese (Mandarin) language, premodern and modern Chinese and Sinophone literature, history, philosophy, society, and film. This allows students to satisfy foreign language requirements, major or minor in Chinese, or complete a Chinese track M.A. degree. Students benefit from one of the strongest Chinese language curriculum programs in the country and extensive resources, including advanced courses in Chinese, language-intensive study abroad opportunities, Chinese library resources, the Chinese Undergraduate Student Association, the student-led Duke-UNC China Leadership Summit, and the Chinese Language Table.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The undergraduate minor in Chinese consists of five courses. Students whose initial Chinese language placement is above 599 or whose Educational Experience Verification form for Chinese has been approved

by the Office of Undergraduate Curricula may complete the minor by replacing the three language courses with culture courses from the list below. These replacements must be approved by the department.

Code	Title	Hours
Core Requirements		
At least three courses must be language courses beyond CHIN 203, 9-10 chosen from among the following:		
CHIN 204	Intermediate Chinese II	
CHIN 212	 Intermediate Written Chinese	
CHIN 305	Advanced Chinese I	
CHIN 306	Advanced Chinese II	
CHIN 313	 Advanced Written Chinese	
CHIN 407	 Readings in Modern Chinese I	
CHIN 408	 Lens on China: Learning Chinese via Films	
CHIN 441	 Chinese-English Translation and Interpreting	
CHIN 443	Business Communication in Chinese	
CHIN 445	Chinese Tea Culture and Its Changing Landscape	
CHIN 490	Topics in Chinese Literature and Language	
CHIN 510	 Introduction to Classical Chinese	
CHIN 520	 Stay Tuned to China	
CHIN 521	Chinese History in Chinese	
CHIN 525	 Ancient Philosophers and Their Modern Reincarnation	
CHIN 590	Advanced Topics in Chinese Literature and Language	
CHIN 624	Chinese Internet Literature	
CHIN 631	 Writing Chinese (in) America: Advanced Studies of a Foreign Literature from United States Homeland	
The other two courses may be chosen from the list above or from among the following:		6
ASIA 52	 First-Year Seminar: Food in Chinese Culture ¹	
ASIA 55	 First-Year Seminar: Kung-Fu: The Concept of Heroism in Chinese Culture ¹	
ASIA/WGST 56	 First-Year Seminar: Writing Women in Modern China ^{1, H}	
ASIA 65	 First-Year Seminar: Philosophy on Bamboo: Rethinking Early Chinese Thought ¹	
ASIA 75	 First-Year Seminar: Love in China ¹	
ASIA 76	 First-Year Seminar: Traveling to China and Traveling from China in the Premodern World ¹

Modern Hebrew Minor

Hebrew is one of the world's oldest languages still spoken today. It was similar in origin to ancient Phoenician and developed into an independent language in the 12th century BCE. Hebrew was the spoken language of the Patriarchs during the Biblical period, and the Bible is written in Hebrew. While Aramaic, which utilizes the same alphabet, replaced Hebrew as the spoken language for centuries, Hebrew remained a language used for ritual, prayer, literature, and written communication. As a spoken language, Modern Hebrew began to emerge in the late 19th century and became, in 1913, the official language of instruction in Jewish schools in the region of Palestine. In 1948, Hebrew (along with Arabic) became the official language of the modern state of Israel.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The undergraduate minor in Hebrew consists of four courses.

Code	Title	Hours
Core Requirements		
Two language courses beyond HEBR 203:		6
HEBR/JWST 204	Intermediate Modern Hebrew II	
HEBR/JWST 305	 Advanced Composition and Conversation: Immigration, Ethnicities, and Religious Traditions	
HEBR/JWST 306	 Advanced Composition and Conversation: Zionism and the Hebrew Language	
One culture course chosen from among the following:		3

Hindi-Urdu Minor

Hindi-Urdu is critical to global culture. South Asia is now a major economic and geopolitical power, and home to one-fifth of the world's population. By conservative estimates, over half a billion people speak the language in South Asia, and depending on chosen parameters, it is variously ranked as the second- to fourth-most widely spoken language in the world. To directly communicate with this vast population of Hindi-Urdu speakers and have unfettered and unfiltered access to the rich cultural history of North India and Pakistan, fluency in Hindi-Urdu is essential. There a rich literary tradition in Hindi-Urdu and its dialectal ancestors, going back about a thousand years. There is also a thriving popular culture of South Asia — one which is very much dependent on Hindi-Urdu.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The undergraduate minor in Hindi-Urdu consists of four courses.

Code	Title	Hours
Core Requirements		
Three courses are language courses beyond HNUR 203 chosen from 9-10 among the following:

Japanese Minor

Japan is a democracy with a robust economy, advanced technology in fields including AI and robotics, and a major role in international relations. Japanese popular culture, from anime to video games, has been influential across the U.S. and across the globe. Friendships with Japanese, travel abroad, enjoying Japanese food locally, as well as the practice of martial arts and the love of Japanese popular media have motivated students to pursue the study of Japanese at Carolina. In the program, students enjoy meeting others with similar enthusiasms and often take part in extracurricular activities such as the Japan Club and the anime club (COUp).

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC—Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Four language courses beyond JAPN 203, chosen from among the following:		12-13
JAPN 204	Intermediate Japanese II	
JAPN 305	Advanced Japanese I	
JAPN 306	Advanced Japanese II	
JAPN 401	Gateway to Mastering Japanese	
JAPN 408	Japanese Journalism	
JAPN 410	Topics in Contemporary Japanese Literature	
JAPN 411	Food and Culture in Japan	
JAPN 412	 Making Music in Japan	
JAPN 414	 Manga as a Japanese Art and Culture	
JAPN 415	Sports in Japanese Culture	
JAPN 416	Understanding Japanese Business Culture and Its Practice	
JAPN 417	 Japanese Culture through Film and Literature	
JAPN 418	 Service Learning in Japanese Language	
JAPN 490	Topics in Japanese Language and Literature	
JAPN 590	Advanced Topics in Japanese Language and Literature	
Total Hours		12-13

Placement credit (PL) may not be used to meet minor requirements.

See the program page here (p. 189) for special opportunities.

Korean Minor

Korea occupies a place of significant geopolitical, economic, and cultural importance in the world. It is a unique country where five thousand years of history and tradition coexist with the most advanced technological and economic development. It is also a place where political and ideological differences divide the country into two Koreas (Republic of Korea, or South Korea, and Democratic Republic of Korea, or North Korea) that maintain one of the world's most fortified military zones. The Korean peninsula is home to over 72 million ethnic Koreans (North and South combined) and over 1.3 million recent migrants from all over the world. Approximately 7 million ethnic Koreans have migrated to other countries and have established diasporic communities in over 150 countries. The Korean language is spoken by over 75 million people around the world and ranks 13th among the most used languages in the world.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill

- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The undergraduate minor in Korean consists of four courses.

Code	Title	Hours
Core Requirements		
Three courses are language courses beyond KOR 203 (the first semester of Intermediate Korean), chosen from:		9-10
KOR 204	Intermediate Korean II	
KOR 305	Advanced Korean I	
KOR 306	 Advanced Korean II	
KOR 407	 Modern Korean Literature and Culture	
KOR 408	 Changes and Continuities in Korean History	
KOR 409	 Korean Through Current Affairs	
KOR 490	Topics in Korean Language and Literature	
The fourth course must be chosen from among the following courses:		3
ASIA 72	 First-Year Seminar: Transnational Korea: Literature, Film, and Popular Culture	
KOR 150	 History, Memory, and Reality in Contemporary Korea	
KOR 151	 Education and Social Changes in Contemporary Korea	
KOR 152	Audiovisual Korea: Music, Art, and Performance from Calligraphy to K-pop	
KOR/CMPL 232	 Imagining the City in Modern Korea: Text, Image, Space	
KOR/CMPL/WGST 237	 Rebel, Lover, Martyr: Gender and Sexuality in North and South Korean Screen Cultures	
KOR 327	 Global Korea: Migration, Identity, and Community in the Korean Diaspora	
KOR 346/CMPL 246	 Body Politics in Modern Korean Literature ^H	
KOR 407	 Modern Korean Literature and Culture	
KOR 408	 Changes and Continuities in Korean History	
KOR 409	 Korean Through Current Affairs	
ASIA 427/CMPL 527/PWAD 427	 Cold War Culture in East Asia: Transnational and Intermedial Connections	
KOR 447/CMPL 547	 Documenting Diasporas: Korean Diasporas in Films and Documentaries	
KOR 490	Topics in Korean Language and Literature	
Total Hours		12-13

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Placement credit (PL) may not be used to meet minor requirements.

See the program page here (p. 175) for special opportunities.

Middle Eastern Languages Minor

The minor in Middle Eastern languages is designed to encourage linguistic training that will prepare students for graduate study and for careers in journalism, foreign service, and international business, as well as other fields related to the Middle East. Students declaring this minor will be able to demonstrate commitment to Middle East studies, which may be considered favorably in the selection process for fellowships like the Foreign Language and Area Studies (FLAS) fellowship. Middle Eastern languages students can choose from Arabic, modern Hebrew, Hindi-Urdu, Persian, or Turkish.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
The minor consists of five courses taken in any two of the Middle Eastern languages listed below.		
Three courses above 203 in one Middle Eastern language.		9-10
Two courses at any level in a second Middle Eastern language.		6-8
Total Hours		15-18

All courses must be selected from the list below:

Code	Title	Hours
Arabic		
ARAB 101	Elementary Arabic I	4
ARAB 102	Elementary Arabic II	4
ARAB 203	 Intermediate Arabic I	4
ARAB 204	Intermediate Arabic II	4
ARAB 300	Arabic Grammar and Composition	3
ARAB 305	Advanced Arabic I	3
ARAB 306	Advanced Arabic II	3
ARAB 407	Readings in Arabic I	3
ARAB 408	Readings in Arabic II	3
ARAB 409	 Performing Arts in the Arab World	3
ARAB 410	 Visual Arts in the Arab World	3
Modern Hebrew		
HEBR 101	Elementary Modern Hebrew I	3
HEBR 102	Elementary Modern Hebrew II	3

HEBR 203	 Intermediate Modern Hebrew I	3
HEBR 204	Intermediate Modern Hebrew II	3
HEBR 305	 Advanced Composition and Conversation: Immigration, Ethnicities, and Religious Traditions	3
HEBR 306	 Advanced Composition and Conversation: Zionism and the Hebrew Language	3

Hindi-Urdu		
HNUR 101	Elementary Hindi-Urdu I	4
HNUR 102	Elementary Hindi-Urdu II	4
HNUR 203	 Intermediate Hindi-Urdu I	4
HNUR 204	Intermediate Hindi-Urdu II	4
HNUR 305	 Advanced Hindi-Urdu I	3
HNUR 306	 Advanced Hindi-Urdu II	3
HNUR 407	 South Asian Society and Culture	3
HNUR 408	 South Asian Media and Film	3
HNUR 409	 Sex and Social Justice in South Asia	3
HNUR 410	Seminar on the Urdu-Hindi Ghazal	3
HNUR 411	 Health and Medicine in South Asia	3
HNUR 490	Topics in Hindi-Urdu Literature and Language	3

Persian		
PRSN 101	Elementary Persian I	3
PRSN 102	Elementary Persian II	3
PRSN 203	 Intermediate Persian I	3
PRSN 204	Intermediate Persian II	3
PRSN 305	Persian Short Stories	3
PRSN 306	Persian Language through Literature and Film	3

Turkish		
TURK 101	Elementary Turkish I	3
TURK 102	Elementary Turkish II	3
TURK 203	 Intermediate Turkish I	3
TURK 204	Intermediate Turkish II	3
TURK 305	Advanced Turkish I	3
TURK 306	Advanced Turkish II	3

Note that ARAB 308, HNUR 220, HNUR 221, and HNUR 308 do not count toward this minor. Placement credit (PL) may not be used to meet minor requirements.

See the program page here (p. 168) for special opportunities.

Persian Minor

Persian, the official language of Iran, is an important language of the Middle East and Central Asia, spoken by approximately 70 million native speakers and roughly 110 million people worldwide. The Persian studies minor offers a diverse array of courses on language, literature, culture, history, and religions of the geographical area where Persian has

historically been the dominant language or a major cultural force. This region encompasses Iran, Afghanistan, Tajikistan, the Caucasus, Central Asia, the Indian subcontinent, and parts of the former Ottoman Empire.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The undergraduate minor in Persian consists of four courses. Students may complete either two language courses and two culture courses, or three language courses and one culture course.

Code	Title	Hours
Core Requirements		
Two language courses beyond PRSN 203 (the first semester of intermediate Persian), chosen from:		6
PRSN 204	Intermediate Persian II	
PRSN 305	Persian Short Stories	
PRSN 306	Persian Language through Literature and Film	
One course chosen from among the following:		3
ASIA/PWAD 69	 First-Year Seminar: Wars and Veterans: Iran, Iraq, and Afghanistan	
HIST 74	 First-Year Seminar: Emperors, Courts, and Consumption: The Mughals of India	
ASIA 124	 Iranian Post-1979 Cinema	
ASIA 125I	 Transnational Lives: Culture, Film, and Fiction in the Iranian and Indian Diasporas	
ASIA 126	 Introduction to Persian Literature	
ASIA/WGST 127	 Iranian Women Writers	
ASIA/HIST 135	 History of the Indian Subcontinent to 1750	
ASIA/HIST 138	History of Muslim Societies to 1500	
ASIA/HIST 139	 History of Muslim Societies since 1500	
HIST 163	 Modern Central Asia ^H	
ASIA/RELI 180	 Islam and Muslim Life before 1500	
ASIA/RELI 181	 Islam and Muslim Life since 1500	
ASIA/CMPL 256	 Love in Classical Persian Poetry	
ASIA/CMPL 258	 Iranian Prison Literature	
ASIA/HIST 276	 The Modern Middle East	
ASIA/WGST 329	 Middle East Women Writers	
ASIA/CMPL 359	 Literary Diasporas of the Middle East	
SOCI 419	 Sociology of the Islamic World	

ASIA 431	 Persian Sufi Literature
ASIA 435/ CMPL 535/ PWAD 435	 The Cinemas of the Middle East and North Africa
ASIA/CMPL 442	 Postcolonial Literature of the Middle East
ASIA/GEOG/ WGST 447	Gender, Space, and Place in the Middle East
ASIA/WGST 471	 Gender and Sexuality in Middle Eastern Literature
RELI 480	 Modern Muslim Literatures
ASIA/HIST 536	Revolution in the Modern Middle East
ASIA/HIST/ WGST 537	Women in the Middle East
ASIA/HIST 538	The Middle East and the West
ASIA/RELI 581	 Sufism
ASIA/RELI 582	 Islam and Islamic Art in South Asia
ASIA/RELI 583	 Religion and Culture in Iran, 1500-Present

A fourth course chosen from either the language or culture list above. 3

Total Hours 12

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Placement credit (PL) may not be used to meet minor requirements.

Department of Biochemistry and Biophysics

The Department of Biochemistry and Biophysics in the UNC School of Medicine offers a number of courses to undergraduate students, but offers only advanced degrees and not a B.A. or B.S. degree.

Undergraduate students interested in these areas should take relevant courses in the biochemical division of the Department of Chemistry and the Department of Physics. The department serves undergraduate students who are interested in biochemical research or health-related careers. It offers a series of undergraduate biochemistry classes, research opportunities, and counseling to students taking premedical, predoctoral, prenursing, prepharmacy, or public health curricula.

Graduate Programs

- M.S. in Biochemistry and Biophysics (<https://catalog.unc.edu/graduate/schools-departments/biochemistry-biophysics/>)
- Ph.D. in Biochemistry and Biophysics (<https://catalog.unc.edu/graduate/schools-departments/biochemistry-biophysics/>)

Courses

- Biochemistry (BIOC) (<https://catalog.unc.edu/courses/bioc/>)

Department of Biology

Introduction

Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem. The major in biology provides a broad education directed toward an appreciation of the complexity of nature, and prepares students for careers in the biological, environmental, and medical sciences. The B.S. and B.A. majors in biology prepare students for careers in the health professions (including medical, dental, and veterinary) and in research or teaching in institutions of higher education, government, and private industry. Departmental majors gain a firm foundation in essential areas of biology through the core curriculum and have ample choices for study in various specialized subjects. A quantitative biology track in the B.S. major provides training in interdisciplinary computational approaches to studying biological questions. The department offers many opportunities for mentored undergraduate research and internships.

Advising

The biology department offers intensive advising services for our undergraduate students. The departmental advisor, Dr. Gidi Shemer (bishemer@email.unc.edu) (213A Coker Hall), will be happy to assist with course planning, career development, finding research opportunities, and any other question or concern with regards to the major. Biology majors interested in study abroad should contact Dr. Elaine Yeh (<https://bio.unc.edu/faculty-profile/yeh/>) to learn about opportunities and transfer credits. For general assistance with registration in courses and various forms, please contact the biology undergraduate student services registrar, Ms. Summer Montgomery (sundance@unc.edu) in 213 Coker Hall.

Facilities

The Department of Biology occupies parts of four buildings: Wilson Hall and its annex, Coker Hall, Fordham Hall, and the Genome Sciences Building. The department is served by the Kenan Science Library, located in Venable Hall, which provides research information services and resources for the basic sciences. In addition, the department has greenhouses on the fifth floor of the Genome Sciences Building, a microscopy facility that contains multiple confocal microscopes and associated support facilities, a P3 laboratory, animal care facilities, insect culturing rooms, and marine aquaria.

Graduate School and Career Opportunities

Those who plan careers in health sciences, including dentistry, medicine, veterinary medicine, and others, should consult with advisors in the Health Professions Advising Office in Steele Building. Special courses in

marine science are offered through the Department of Biology and the Department of Earth, Marine, and Environmental Sciences at the Institute of Marine Sciences, Morehead City, NC.

Biology Major, B.S.

Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem. This program is designed for students who intend to continue graduate study in biological or health sciences.

Student Learning Outcomes

Upon completion of the biology (B.A., B.S.) program, students should be able to:

- Knowledge Base: Demonstrate knowledge of major concepts, theoretical perspectives, empirical findings, and historical trends in the broad field of Biology
- Research Methods: Apply basic research methods in the biological sciences, including research design, data analysis, and data interpretation
- Critical Thinking Skills: Demonstrate the use of critical and creative thinking skills in upper-level biology courses and in their approach to undergraduate research
- Application of Knowledge, Research Methods, and Critical Thinking: Apply knowledge of the field of biology, research skills, and critical thinking skills to undertake a course-based, field, or laboratory research project

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Gateway Course		
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{1, H, F}	4
Core Requirements		
Fundamentals Core Courses		
BIOL 103	How Cells Function ^{2, F}	3
BIOL 104	Biodiversity ^{2, H, F}	3
BIOL 105L	Biological Research Skills	3
Intermediate Level Core Courses		
Two from among the following five options: ³		6-7
BIOL 220	Molecular Genetics ^H	
BIOL 240	Cell Biology ^H	
BIOL 250	Evolutionary Biology	
BIOL 260	Introduction to Ecology	
An organismal structure and diversity course (see list below)		
Four biology electives (each of three or more credits) numbered above 200 (not including BIOL 213, BIOL 222, BIOL 253, BIOL 291, BIOL 292, BIOL 293, BIOL 294, BIOL 295, BIOL 296, BIOL 353, a second semester of BIOL 395, and BIOL 495). At least two courses in the major must have a laboratory (not including BIOL 101L or BIOL 105L). ENEC 489 can also count as a biology elective. ^{4,5}		14
Additional Requirements		
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F}	4

CHEM 102 & 102L	 General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
CHEM 261	Introduction to Organic Chemistry I ^H	3
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
Two of the following:		6-8
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	
PHYS 115	 General Physics II: For Students of the Life Sciences ^F	
	or PHYS 119  Introductory Calculus-based Electromagnetism and Quanta	
COMP 110	 Introduction to Programming ^H	
	or COMP 111  Introduction to Scientific Programming	
	or BIOL 222  Introduction to Programming with Biological Data	
STOR 120	 Foundations of Statistics and Data Science ^{H, F}	
	or STOR 215  Foundations of Decision Sciences	
	or STOR 151  Introduction to Data Analysis	
	or STOR 155  Introduction to Data Models and Inference	
One of the following:		4
PHYS 114	 General Physics I: For Students of the Life Sciences ^F	
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{H, F}	
A choice of two additional allied sciences electives selected from the course list below (some courses are more than 3 credits)		6
Remaining General Education requirements and enough free electives to accumulate 120 academic hours		
Total Hours		64-67

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ With a C grade or better in BIOL 101

² Both BIOL 103 and BIOL 104 need to be completed before taking a 400-level BIOL class in the major.

³ Core courses taken beyond the two required ones may be used as electives.

⁴ At least two courses in the major must be numbered above 400 (not including BIOL 501 and BIOL 692H). One additional elective may consist of a total of three hours of courses numbered above 600 (not including BIOL 692H).

⁵ BIOL 395 counts as a one semester laboratory course for students entering in Fall 2022 or later, however, additional research for credit will not count towards the major. Other laboratory courses include all of the Organismal Structure and Diversity courses listed below, any course with an "L" designation (except BIOL 253/BIOL 253L, which does not count as an elective in the major), and the following courses:

BIOL 255H, BIOL 256, BIOL 459, BIOL 461, BIOL 463, BIOL 526H, BIOL 535, BIOL 562, and BIOL 563.

Code	Title	Hours
Organismal Structure and Diversity Course List		
BIOL 271 & 271L	 Plant Biology and  Plant Biology Laboratory	4
BIOL 272 & 272L	Local Flora and Local Flora Lab	4
BIOL 273	Horticulture	4
BIOL 274 & 274L	 Plant Diversity and  Plant Diversity Laboratory	4
BIOL 277 & 277L	Vertebrate Field Zoology and Vertebrate Field Zoology Laboratory	4
BIOL 278 & 278L	Animal Behavior and Animal Behavior Laboratory	4
BIOL 279 & 279L	Seminar in Organismal Biology and Topics in Organismal Biology Laboratory	3-4
BIOL 422 & BIOL 421L	Microbiology and Bacterial Genetics Laboratory	4-5
or BIOL 422 & 422L	Microbiology and Microbiology Laboratory	
BIOL 441 & 441L	Vertebrate Embryology and Vertebrate Embryology Laboratory	4
BIOL 451 & 451L	Comparative Physiology and Comparative Physiology Laboratory	4
BIOL 471 & 471L	Evolutionary Mechanisms and Evolutionary Mechanisms Laboratory	4
BIOL 473 & 473L	Mammalian Morphology and Development and Mammalian Morphology Laboratory	4
BIOL 474 & 474L	Evolution of Vertebrate Life and Vertebrate Structure and Evolution Laboratory ^H	4
BIOL 475 & 475L	Biology of Marine Animals and Biology of Marine Animals Laboratory	4
BIOL 476 & 476L	Avian Biology and Avian Biology Laboratory	4
BIOL 479 & 479L	Topics in Organismal Biology at an Advanced Level and Laboratory in Organismal Biology: Advanced Topics	4
BIOL 579	Organismal Structure and Diversity in the Southern Appalachian Mountains	4

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Allied Science Electives

All allied science elective courses need to have a minimum of three credit hours.

Code	Title	Hours
ANTH 143	Human Evolution and Adaptation	3
ANTH 148	 Human Origins	3
ANTH 298	 Biological Anthropology Theory and Practice	3

BIOC 108	Introduction to Biochemistry	4
BIOL ---	Any BIOL course above 101, except BIOL 213, BIOL 291, BIOL 292, BIOL 294, BIOL 295, BIOL 296, and BIOL 495	3
BIOS ---	Any BIOS course	3
BMME 335	Biomaterials	3
CHEM ---	Any CHEM course above 101	3
CLAS 260	Ancient Medicine ^H	3
COMP ---	Any COMP course above 100, except COMP 380	3
EMES ---	Any EMES course above 100	3
ENEC 202I	Introduction to the Environmental Sciences	4
ENEC 256	Mountain Biodiversity	4
ENEC 324	Water in Our World: Introduction to Hydrologic Science and Environmental Problems	3
ENEC 403	Environmental Chemistry Processes	3
ENEC 406	Atmospheric Processes II	4
ENEC 410	Earth Processes in Environmental Systems	4
ENEC 411	Oceanic Processes in Environmental Systems	4
ENEC 415	Environmental Systems Modeling	3
ENEC 471	Human Impacts on Estuarine Ecosystems	4
ENEC 489	Ecological Processes in Environmental Systems	4
EPID 600	Principles of Epidemiology for Public Health	3
EXSS 155	Human Anatomy and Physiology I ^{H, F}	3
EXSS 256	Human Anatomy and Physiology II	3
GEOG 110	The Blue Planet: An Introduction to Earth's Environmental Systems ^H	3
GEOG 111	Weather and Climate	3
GEOG 212	Environmental Conservation and Global Change	3
GEOG 222	Health and Medical Geography	3
GEOG 253	Introduction to Atmospheric Processes	4
GEOL ---	Any GEOL course above 100	3
MASC ---	Any MASC course above 100	3
MATH ---	Any MATH course above 110, except MATH 129P	3
MCRO 251	Introductory Medical Microbiology	4
NSCI 175	Introduction to Neuroscience ^{H, F}	3
NSCI 222	Learning ^H	3
NSCI 225	Sensation and Perception ^H	3
NUTR 240	Introduction to Human Nutrition	3
PHIL 155	Truth and Proof: Introduction to Mathematical Logic ^H	3

PHYS ---	Any PHYS course above 99, except PHYS 132	
PSYC 101	General Psychology ^F	3
PSYC 210	Statistical Principles of Psychological Research ^H	3
PSYC 220	Biopsychology ^H	3
PSYC 230	Cognitive Psychology ^H	3
STOR 120	Foundations of Statistics and Data Science ^{H, F}	4
STOR ---	Any STOR course above 151	3
SPHS 570	Anatomy and Physiology of the Speech, Language, and Hearing Mechanisms	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Suggested Program of Study for B.S. Majors

First Year	Hours
First-Year Foundation Courses	
IDST 101 College Thriving	1
ENGL 105 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F	3
IDST 111L Data Literacy Lab	1
Global Language through level 3 (p. 670)	varies
Major Courses	
BIOL 101 Principles of Biology & 101L and Introductory Biology Laboratory ^{H, F}	4
CHEM 101 General Descriptive Chemistry I & 101L and Quantitative Chemistry Laboratory I ^{H, F}	4
A fundamentals course BIOL 103 or BIOL 104	3
BIOL 105L Biological Research Skills	3
MATH 231 Calculus of Functions of One Variable I ^{H, F}	4
Additional Courses	
Gen Ed courses	6
Hours	32

Sophomore Year

The remaining Fundamentals course BIOL 103 or 104	3
Two core BIOL courses	6
CHEM 102 & 102L  General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
CHEM 261 Introduction to Organic Chemistry I ^H	3
First course from among COMP, MATH, PHYS, STOR options (see course list on the Requirements tab)	3-4
Lifetime Fitness	1
Gen Ed and elective courses	9
Hours	30

Junior Year

PHYS 114 or PHYS 118  General Physics I: For Students of the Life Sciences ^F or  Introductory Calculus-based Mechanics and Relativity	4
Second course from among COMP, MATH, PHYS, STOR options (see course list on the Requirements tab)	3-4
Biology electives (two courses, one with lab)	7
Gen Ed and elective courses	15
Hours	30

Senior Year

Biology electives (two courses, one with lab)	7
Allied sciences electives (two courses)	6

Note: Students who want to pursue research in molecular or cellular biology are highly encouraged to add CHEM 262 and then CHEM 430 (as one of their biology electives). Students who want to pursue a pre-medical or pre-dentistry path are highly encouraged to add CHEM 262 and then CHEM 430 (as one of their biology electives), as well as CHEM 241/L and CHEM 262L.

Free electives as needed to complete 120 academic hours	15
Hours	28
Total Hours	120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Special Opportunities in Biology

Students are encouraged to speak with their advisor about opportunities to serve as peer advisors in the Health Professions Advising Office, or to join Tri-Beta, the National Biological Sciences Honor Society.

Honors in Biology

Candidates for honors or highest honors must secure approval from the departmental honors advisor. They must have three hours of BIOL 395, take BIOL 692H, and maintain a grade point average of 3.3, both overall and in biology courses (exclusive of BIOL 692H and including only one semester of BIOL 395), calculated at the end of the semester preceding

the semester in which they graduate. Other requirements are detailed on the department website (<http://bio.unc.edu/undergraduate/honors-info/>).

High-Impact Experience

After completing BIOL 201 or BIOL 202 (or a 200-level core course under the new curriculum), students are encouraged to pursue high-impact experience opportunities. The department offers several courses that meet the High-Impact Experience and the Research and Discovery requirements from the General Education curriculum.

Laboratory Teaching Apprenticeships and Assistantships

Opportunities exist to assist graduate instructors in lecture or undergraduate laboratory courses. Interested students should contact the instructor of the course, and will need to submit a form to obtain approval from the departmental director of undergraduate studies.

Undergraduate Awards

All awards include a personal plaque, a monetary gift, and a place on Coker Hall's list of department honorees. The awards include

- The Stephen G. Brantley Award in honor of Henry Van Peters Wilson, given annually to a senior biology major for excellence in research in molecular and cellular biology.
- The Robert Ervin Coker Award, given annually to a senior biology major for excellence in research in organismal biology and ecology.
- The John N. Couch Award, given annually to a senior biology major with interests in plant biology who has demonstrated the highest ideals of scholarship and research.
- The Irvine R. Hagadorn Award, given annually to the junior biology major based on academic and research excellence. This award is also recognized by the UNC–Chapel Hill chancellor at the Annual Chancellor's Awards Ceremony.
- The Francis J. LeClair Award, given annually to a senior biology major for academic excellence in biology with an emphasis in plant sciences.

Undergraduate Research

An undergraduate research experience can be extremely valuable to explore career choices and to prepare for postgraduate work in the biological sciences. Undergraduates may take a CURE course, and/or participate directly in the research of faculty in the Department of Biology or other departments (with Biology sponsorship). This research opportunity allows students to put their knowledge of biology into practice through participation in cutting-edge research. Students' participation in research can begin as early as their second year by registration in BIOL 395.

Undergraduates with a 2.0 grade point average or higher in biology courses are encouraged to enroll in BIOL 395. Information concerning the procedure for enrolling in a research course can be obtained from the chair of the department's undergraduate honors research program. Additional information can be found on the department's website (<http://bio.unc.edu/undergraduate/research/>).

Biology Major, B.S.–Quantitative Biology Track

Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem.

This program is designed for students with a strong interest in a multidisciplinary approach that incorporates computational approaches to study biological problems, in preparation for graduate study in biological or health sciences.

Student Learning Outcomes

Upon completion of the biology (B.A., B.S.) program, students should be able to:

- Knowledge Base: Demonstrate knowledge of major concepts, theoretical perspectives, empirical findings, and historical trends in the broad field of Biology
- Research Methods: Apply basic research methods in the biological sciences, including research design, data analysis, and data interpretation
- Critical Thinking Skills: Demonstrate the use of critical and creative thinking skills in upper-level biology courses and in their approach to undergraduate research
- Application of Knowledge, Research Methods, and Critical Thinking: Apply knowledge of the field of biology, research skills, and critical thinking skills to undertake a course-based, field, or laboratory research project

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

BIOC 107	Introduction to Biochemistry	4			
BIOC 108	Introduction to Biochemistry	4			

Laboratory Teaching Apprenticeships and Assistantships

Opportunities exist to assist graduate instructors in lecture or undergraduate laboratory courses. Interested students should contact the instructor of the course, and will need to submit a form to obtain approval from the departmental director of undergraduate studies.

Undergraduate Awards

All awards include a personal plaque, a monetary gift, and a place on Coker Hall's list of department honorees. The awards include

- The Stephen G. Brantley Award in honor of Henry Van Peters Wilson, given annually to a senior biology major for excellence in research in molecular and cellular biology.
- The Robert Ervin Coker Award, given annually to a senior biology major for excellence in research in organismal biology and ecology.
- The John N. Couch Award, given annually to a senior biology major with interests in plant biology who has demonstrated the highest ideals of scholarship and research.
- The Irvine R. Hagadorn Award, given annually to the junior biology major based on academic and research excellence. This award is also recognized by the UNC–Chapel Hill chancellor at the Annual Chancellor's Awards Ceremony.
- The Francis J. LeClair Award, given annually to a senior biology major for academic excellence in biology with an emphasis in plant sciences.

Undergraduate Research

An undergraduate research experience can be extremely valuable to explore career choices and to prepare for postgraduate work in the biological sciences. Undergraduates may take a CURE course, and/or participate directly in the research of faculty in the Department of Biology or other departments (with Biology sponsorship). This research opportunity allows students to put their knowledge of biology into practice through participation in cutting-edge research. Students' participation in research can begin as early as their second year by registration in BIOL 395.

Undergraduates with a 2.0 grade point average or higher in biology courses are encouraged to enroll in BIOL 395. Information concerning the procedure for enrolling in a research course can be obtained from the chair of the department's undergraduate honors research program. Additional information can be found on the department's website (<http://bio.unc.edu/undergraduate/research/>).

Biology Major, B.A.

Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem. The major in biology provides a broad education directed toward an appreciation of the complexity of nature and prepares students for careers in the biological, environmental, and medical sciences. This program is designed to provide greater flexibility than the B.S. degree in meeting broad student interests.

Student Learning Outcomes

Upon completion of the biology (B.A., B.S.) program, students should be able to:

- Knowledge Base: Demonstrate knowledge of major concepts, theoretical perspectives, empirical findings, and historical trends in the broad field of Biology
- Research Methods: Apply basic research methods in the biological sciences, including research design, data analysis, and data interpretation
- Critical Thinking Skills: Demonstrate the use of critical and creative thinking skills in upper-level biology courses and in their approach to undergraduate research

- Application of Knowledge, Research Methods, and Critical Thinking: Apply knowledge of the field of biology, research skills, and critical thinking skills to undertake a course-based, field, or laboratory research project

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Gateway Course		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{1, H, F}	4
Core Requirements		
Fundamentals Core Courses		
BIOL 103	 How Cells Function ^{2, F}	3
BIOL 104	 Biodiversity ^{2, H, F}	3
BIOL 105L	 Biological Research Skills	3
Intermediate Level Core Courses		
Two of the following five Core Course options: ³		6-8
BIOL 220	 Molecular Genetics ^H	
BIOL 240	Cell Biology ^H	
BIOL 250	Evolutionary Biology	
BIOL 260	Introduction to Ecology	
An organismal structure and diversity course (see list below)		
Three biology electives (each of three or more credits) numbered above 200 (not including BIOL 213, BIOL 222, BIOL 253, BIOL 291, BIOL 292, BIOL 293, BIOL 294, BIOL 295, BIOL 296, BIOL 353, a second semester of BIOL 395, and BIOL 495). At least one course in the major must have a laboratory (not including BIOL 101L or BIOL 105L). ^{4,5}		10-11
Additional Requirements		
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	 General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
One of:		3-4
BIOL 222	 Introduction to Programming with Biological Data	
COMP 110	 Introduction to Programming ^H	
COMP 116	Introduction to Scientific Programming	
MATH 130	 Precalculus Mathematics ^F	
MATH 152	 Calculus for Business and Social Sciences ^F	

MATH 231	 Calculus of Functions of One Variable I ^{H, F}	
STOR 120	 Foundations of Statistics and Data Science ^{H, F}	
STOR 151	 Introduction to Data Analysis	
STOR 155	 Introduction to Data Models and Inference ^{H, F}	
STOR 215	 Foundations of Decision Sciences	
Four additional allied science electives chosen from the course list below (some courses are more than 3 credits)		12
Students must fulfill all General Education requirements, including Supplemental General Education, and enough electives to complete 120 hours required for graduation.		
Total Hours		53

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ With a C grade or better in BIOL 101

² Both BIOL 103 and BIOL 104 need to be completed before taking a 400-level BIOL class in the major.

³ Core courses taken beyond the two required ones may be used as electives.

⁴ At least one course in the major must be numbered above 400 (not including BIOL 501 and BIOL 692H). One additional elective may consist of a total of three hours of courses numbered above 600 (not including BIOL 692H).

⁵ At least one course in the major must have a laboratory (not including BIOL 101L or BIOL 105L). BIOL 395 counts as a one semester laboratory course for students entering in Fall 2022 or later, however, additional research for credit will not count towards the major. Other laboratory courses include all of the Organismal Structure and Diversity courses listed below, any course with an "L" designation (except BIOL 253/L, which does not count as an elective in the major), and the following courses: BIOL 255H, BIOL 256, BIOL 459, BIOL 461, BIOL 463, BIOL 526H, BIOL 535, BIOL 562, and BIOL 563.

Code	Title	Hours
Organismal Structure and Diversity Course List		
BIOL 271 & 271L	 Plant Biology and  Plant Biology Laboratory	4
BIOL 272 & 272L	Local Flora and Local Flora Lab	4
BIOL 273	Horticulture	4
BIOL 274 & 274L	 Plant Diversity and  Plant Diversity Laboratory	4
BIOL 277 & 277L	Vertebrate Field Zoology and Vertebrate Field Zoology Laboratory	4
BIOL 278 & 278L	Animal Behavior and Animal Behavior Laboratory	4
BIOL 279 & 279L	Seminar in Organismal Biology and Topics in Organismal Biology Laboratory	3-4

BIOL 422 & BIOL 421L or BIOL 422 & 422L	Microbiology and Bacterial Genetics Laboratory Microbiology and Microbiology Laboratory	4-5
BIOL 441 & 441L	Vertebrate Embryology and Vertebrate Embryology Laboratory	4
BIOL 451 & 451L	Comparative Physiology and Comparative Physiology Laboratory	4
BIOL 471 & 471L	Evolutionary Mechanisms and Evolutionary Mechanisms Laboratory	4
BIOL 472	Introduction to Plant Taxonomy	4
BIOL 473 & 473L	Mammalian Morphology and Development and Mammalian Morphology Laboratory	4
BIOL 474 & 474L	Evolution of Vertebrate Life and Vertebrate Structure and Evolution Laboratory H	4
BIOL 475 & 475L	Biology of Marine Animals and Biology of Marine Animals Laboratory	4
BIOL 476 & 476L	Avian Biology and Avian Biology Laboratory	4
BIOL 479 & 479L	Topics in Organismal Biology at an Advanced Level and Laboratory in Organismal Biology: Advanced Topics	4
BIOL 579	Organismal Structure and Diversity in the Southern Appalachian Mountains	4

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Allied Science Electives

All allied science elective courses need to have a minimum of three credit hours.

Code	Title	Hours
ANTH 143	Human Evolution and Adaptation	3

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Suggested Program of Study for B.A. Majors

First Year	Hours
First-Year Foundation Courses	
IDST 101 College Thriving	1
ENGL 105 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F	3
IDST 111L Data Literacy Lab	1
Global Language through level 3 (p. 670)	varies
Major Courses	
BIOL 101 Principles of Biology & 101L and Introductory Biology Laboratory ^{H, F}	4
CHEM 101 General Descriptive Chemistry I & 101L and Quantitative Chemistry Laboratory I ^{H, F}	4
BIOL 103 How Cells Function ^F or BIOL 104 Biodiversity	3
BIOL 105L Biological Research Skills	3
STOR 120 Foundations of Statistics and Data Science ^{H, F}	4
Additional Courses	
Gen Ed and elective courses	4
Hours	30
Sophomore Year	
BIOL 104 Biodiversity ^{H, F} or BIOL 103 How Cells Function	3
One biology core course (BIOL 220, BIOL 240, BIOL 250, BIOL 260, or Organismal course)	4
CHEM 102 General Descriptive Chemistry II & 102L and Quantitative Chemistry Laboratory II ^{H, F}	4
Allied science electives (two courses)	6
Lifetime Fitness	1
Gen Ed and elective courses	11
Hours	29
Junior Year	
Second biology core course (BIOL 220, BIOL 240, BIOL 250, BIOL 260, or Organismal course)	3-4

Biology elective (one course)	3-4
Allied science electives (two courses)	6
Gen Ed and elective courses	18
Hours	30
Senior Year	
Biology electives (two courses)	6-7
Supplemental General Education requirement and free electives as needed to complete 120 academic hours and other requirements	25
Hours	31
Total Hours	120

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Special Opportunities in Biology

Students are encouraged to speak with their advisor about opportunities to serve as peer advisors in the Health Professions Advising Office, or to join Tri-Beta, the National Biological Sciences Honor Society.

Honors in Biology

Candidates for honors or highest honors must secure approval from the departmental honors advisor. They must have three hours of BIOL 395, take BIOL 692H, and maintain a grade point average of 3.3, both overall and in biology courses (exclusive of BIOL 692H and including only one semester of BIOL 395), calculated at the end of the semester preceding the semester in which they graduate. Other requirements are detailed on the department website (<http://bio.unc.edu/undergraduate/honors-info/>).

High-Impact Experience

After completing BIOL 201 or BIOL 202 (or a 200-level core course under the new curriculum), students are encouraged to pursue high-impact experience opportunities. The department offers several courses that meet the High-Impact Experience and the Research and Discovery requirements from the General Education curriculum.

Laboratory Teaching Apprenticeships and Assistantships

Opportunities exist to assist graduate instructors in lecture or undergraduate laboratory courses. Interested students should contact the instructor of the course, and will need to submit a form to obtain approval from the departmental director of undergraduate studies.

Undergraduate Awards

All awards include a personal plaque, a monetary gift, and a place on Coker Hall's list of department honorees. The awards include

- The Stephen G. Brantley Award in honor of Henry Van Peters Wilson, given annually to a senior biology major for excellence in research in molecular and cellular biology.
- The Robert Ervin Coker Award, given annually to a senior biology major for excellence in research in organismal biology and ecology.

- The John N. Couch Award, given annually to a senior biology major with interests in plant biology who has demonstrated the highest ideals of scholarship and research.
- The Irvine R. Hagadorn Award, given annually to the junior biology major based on academic and research excellence. This award is also recognized by the UNC–Chapel Hill chancellor at the Annual Chancellor’s Awards Ceremony.
- The Francis J. LeClair Award, given annually to a senior biology major for academic excellence in biology with an emphasis in plant sciences.

Undergraduate Research

An undergraduate research experience can be extremely valuable to explore career choices and to prepare for postgraduate work in the biological sciences. Undergraduates may take a CURE course, and/ or participate directly in the research of faculty in the Department of Biology or other departments (with Biology sponsorship). This research opportunity allows students to put their knowledge of biology into practice through participation in cutting-edge research. Students’ participation in research can begin as early as their second year by registration in BIOL 395.

Undergraduates with a 2.0 grade point average or higher in biology courses are encouraged to enroll in BIOL 395. Information concerning the procedure for enrolling in a research course can be obtained from the chair of the department’s undergraduate honors research program. Additional information can be found on the department’s website (<http://bio.unc.edu/undergraduate/research/>).

Biology Minor

Biology is the study of life from both basic and applied perspectives across a broad range of analytical levels, from the molecule and cell to the organism and ecosystem.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor “core” requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

A student may minor in biology by taking four biology courses beyond BIOL 101/BIOL 101L.

Code	Title	Hours
Core Requirements		
BIOL 103	 How Cells Function ^F	3
or BIOL 104	 Biodiversity	
One of the following five core course options:		3-4
BIOL 220	 Molecular Genetics ^H	
BIOL 240	Cell Biology ^H	
BIOL 250	Evolutionary Biology	
BIOL 260	Introduction to Ecology	
An organismal structure and diversity course with lab (see list below)		
One course with a laboratory ¹		4
One course numbered above 400		3-4
Total Hours		13-15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ BIOL 395 counts as a one semester laboratory course for students entering in Fall 2022 or later, however, additional research for credit will not count towards the minor. Other laboratory courses include all of the Organismal Structure and Diversity courses listed below, any course with an "L" designation (except BIOL 253/L, which does not count as an elective in the major), and the following courses: BIOL 255H, BIOL 256, BIOL 459, BIOL 461, BIOL 463, BIOL 526H, BIOL 535, BIOL 562, and BIOL 563. If the laboratory elective is also over 400, then the student needs to take another BIOL elective so that two biology electives are taken beyond the fundamental and core course requirements.

Code	Title	Hours
Organismal Structure and Diversity Course List		
BIOL 271 & 271L	 Plant Biology and  Plant Biology Laboratory	4
BIOL 272 & 272L	Local Flora and Local Flora Lab	4
BIOL 273	Horticulture	4
BIOL 274 & 274L	 Plant Diversity and  Plant Diversity Laboratory	4
BIOL 277 & 277L	Vertebrate Field Zoology and Vertebrate Field Zoology Laboratory	4
BIOL 278 & 278L	Animal Behavior and Animal Behavior Laboratory	4
BIOL 279 & 279L	Seminar in Organismal Biology and Topics in Organismal Biology Laboratory	3-4
BIOL 422 & BIOL 421L or BIOL 422 & 422L	Microbiology and Bacterial Genetics Laboratory Microbiology and Microbiology Laboratory	4-5
BIOL 441 & 441L	Vertebrate Embryology and Vertebrate Embryology Laboratory	4
BIOL 451 & 451L	Comparative Physiology and Comparative Physiology Laboratory	4
BIOL 471 & 471L	Evolutionary Mechanisms and Evolutionary Mechanisms Laboratory	4
BIOL 472	Introduction to Plant Taxonomy	4
BIOL 473 & 473L	Mammalian Morphology and Development and Mammalian Morphology Laboratory	4
BIOL 474 & 474L	Evolution of Vertebrate Life and Vertebrate Structure and Evolution Laboratory H	4
BIOL 475 & 475L	Biology of Marine Animals and Biology of Marine Animals Laboratory	4
BIOL 476 & 476L	Avian Biology and Avian Biology Laboratory	4
BIOL 479 & 479L	Topics in Organismal Biology at an Advanced Level and Laboratory in Organismal Biology: Advanced Topics	4

BIOL 579 Organismal Structure and Diversity in the Southern Appalachian Mountains 4

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Lampe Joint Department of Biomedical Engineering

Introduction

The Lampe Joint Department of Biomedical Engineering (BME) is a department of both the University of North Carolina at Chapel Hill (UNC–Chapel Hill) and North Carolina State University (NC State). The department oversees a joint graduate and undergraduate program at these institutions. While a complete curriculum is offered on the UNC–Chapel Hill campus, students can elect to take any number of classes at NC State. The joint program also leverages the industry resources in Research Triangle Park, located roughly half way between the two campuses, providing unique opportunities for students.

Biomedical engineering is a profession that develops and applies engineering knowledge and experience to solve problems in biology and medicine and to enhance health care. Biomedical engineers are professionally trained to combine the rigors of medical and biological studies with the power of engineering analysis and design. People become biomedical engineers to be of service to others, to enjoy the excitement of understanding living systems, and to use state-of-the-art science and technology to solve the complex problems of medical care. The emphasis in biomedical engineering is on finding solutions by researching, testing, and applying medical, biological, chemical, electrical, and materials engineering approaches. Biomedical engineers are unique individuals who make contributions to health care that are both satisfying to themselves and beneficial to others.

Facilities

The Lampe Joint Department of Biomedical Engineering houses undergraduate teaching laboratories in Phillips Hall and design laboratories in Mary Ellen Jones. These laboratories house a variety of mechanical and electronic fabrication tools as well as laboratories dedicated to cell culture and microbiology. The BeAM Makerspace facilities are available to all UNC students, and these facilities house a variety of mechanical and electronic fabrication tools. More information is available at the UNC BeAM website (<https://beam.unc.edu/>).

Graduate School and Career Opportunities

Many students from this program have pursued further education in graduate school in biomedical engineering. Our alumni have attended many of the top-ranked biomedical engineering programs. In addition, some students have pursued graduate degrees in other disciplines in engineering, as well as related fields such as microbiology, sports physiology, public health, and business/engineering management, among others. Students have also been accepted into clinical programs such as medical, dental, physical therapy, and pharmacy schools (in many cases, the student must take several additional courses to meet the requirements for clinical programs).

For those interested in going directly into a career, biomedical engineering is one of the fastest growing career opportunities. Graduates are employed by hospitals, pharmaceutical companies, medical device and testing companies, government agencies, universities, and medical schools.

Biomedical Engineering Major, B.S.

In this major, students learn to apply engineering principles to solve problems in medicine and biology. This is a field of great breadth that incorporates medical imaging, informatics, micro and nanosystems, prosthetics, medical devices, tissue engineering and genomics, drug delivery, and applications of signal processing and control.

Admission

Students who wish to complete the biomedical engineering major must apply for admission to the program. Admission to the University does not guarantee admission to the program. Students may apply to the program as early as their first semester at UNC. Most students apply to the program during their second semester. Admission to rising juniors will only be granted on a limited basis if space is available. Students who are not accepted to the program after their third semester should select a different major. Students who are interested in the program are encouraged to declare biomedical engineering intent.

More information about the application process is available on the department website (<https://bme.unc.edu/undergraduate/undergraduate-admissions/>).

Students may apply to the program if they are currently enrolled in, or have completed, the following courses with the specified grades (or equivalent AP or IB credit):

Code	Title	Hours
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{1, H, F}	4
ENGL 105	 English Composition and Rhetoric ²	3
MATH 231	 Calculus of Functions of One Variable I ^{1, H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{1, H, F}	4
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{1, H, F}	4

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ With a grade of C or better. AP, IB, or transfer credit will be accepted according to university policies.

² With a grade of C- or better. Transfer credit will be accepted according to university policies.

Program Enhancement Fee

Students will be charged an additional fee of \$750/semester (\$1,500/year). The money is directly applied to the undergraduate program to enhance the undergraduate laboratory, internship, and outreach experience.

Advising

Students in the Lampe Joint Biomedical Engineering program have access to both curriculum advisors and industry advisors. Curriculum advisors help students choose classes at both UNC and NC State and plan their path to graduation. After admission to the program, BME students must get their planned courses approved by a curriculum advisor each semester in order to register for classes. Industry advisors provide students with valuable advice concerning post-graduate plans, as well as career development opportunities like workshops and resume reviews throughout their time in the program.

Prospective BME students receive advising through the UNC Advising Program (<https://advising.unc.edu/>). They are also encouraged to meet with the BME student services specialist (BME_Student_Services@unc.edu) by scheduling an advising appointment to discuss admissions and course planning. BME curriculum advisors do not advise students on General Education requirements. Advisors from the UNC Advising Program can provide assistance with these requirements.

Student Learning Outcomes

Upon completion of the biomedical engineering program, students should be able to:

General Engineering Outcomes

- Demonstrate an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- Demonstrate an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare, as well as global, cultural, social, environmental, and economic factors
- Demonstrate an ability to communicate effectively with a range of audiences
- Demonstrate an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- Demonstrate an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- Demonstrate an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions
- Demonstrate an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

BME-Specific Program Criteria

- Apply principles of engineering, biology, human physiology, chemistry, calculus-based physics, mathematics (through differential equations), and statistics
- Solve bio/biomedical engineering problems, including those associated with the interaction between living and non-living systems
- Analyze, model, design, and realize bio/biomedical engineering devices, systems, components, or processes
- Make measurements on and interpret data from living systems

Requirements

In addition to the program requirements listed below, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill or North Carolina State University (N.C. State) courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill or N.C. State
- earn a minimum cumulative GPA of 2.000 in the major core requirements

For more information, please consult the degree requirements section of the catalog (p. 739).

The first two years of study have many courses in common with the B.S. programs in chemistry, physics, computer science, or mathematical sciences. The curriculum, as for all sciences, is vertically structured, with experience and knowledge from each course serving as a foundation for subsequent courses. Students’ attention to prerequisites is important. The specific requirements are listed below. Students are also encouraged to engage in research in a laboratory at UNC–Chapel Hill or elsewhere, or have an internship experience in industry.

The degree program requires **124 hours**.

Students who are admitted to the program may take courses at N.C. State. Most classes designated BMME ### are offered as BMME ### on the UNC campus and BME ### on the N.C. State campus. Other N.C. State course numbers are designated in parentheses.

Students must satisfy all General Education requirements, as outlined elsewhere in this catalog. Some General Education requirements should be met with specific courses as listed below.

Code	Title	Hours
Core Requirements		
Students should take the following courses, preferably in their second year:		
BMME 201	Computer Methods in Biomedical Engineering ^I	3
BMME 205	Biomedical Mechanics	4
BMME 209	Materials Science of Biomaterials	4
BMME 298	Biomedical Engineering Design and Manufacturing I	2
Students should take the following courses, preferably in their third year:		
BMME 207	Biomedical Electronics	4
BMME 301	Human Physiology: Electrical Analysis	4
BMME 302	Human Physiology: Mechanical Analysis	4
BMME 398	 Biomedical Engineering Design and Manufacturing II ^H	2
Take three gateway electives to prepare for specialty electives in one or two areas		9
BMME 315	Biotransport	
BMME 325	Biochemistry for Biomedical Engineers or CHEM 43C (Introduction to Biological Chemistry)	
BMME 335	Biomaterials	
BMME 345	Biomedical Solid Mechanics	
BMME 355	Biocontrols	

BMME 365	Systems and Signals	
BMME 375	Biomedical Microcontroller Applications	
BMME 385	Bioinstrumentation	
STEM elective - see requirements below		3
Students should take the following courses, preferably in their final year:		
BMME 697	 BME Senior Design: Product Development (BME 451)	3
BMME 698	 Biomedical Engineering Senior Design: Product Implementation and Strategy (BME 452)	3
Four specialty electives - see requirements below		12
Additional Requirements		
Students should take the following courses, preferably in their first two years:		
BIOL 101	 Principles of Biology (BIO 183) ^{H, F}	3
BIOL 101L	 Introductory Biology Laboratory	1
or BIOL 102L	 Introductory Biology Laboratory with Research	
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I (CH 101 + 102) ^{H, F}	4
CHEM 102 & 102L	 General Descriptive Chemistry II and  Quantitative Chemistry Laboratory II (CH 201 + 202) ^{H, F}	4
CHEM 261	Introduction to Organic Chemistry I (CH 221 + CH 222) ^H	3
MATH 231	 Calculus of Functions of One Variable I (MA 141) ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II (MA 241) ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables (MA 242) ^{H, F}	4
MATH 383 & 383L	First Course in Differential Equations and First Course in Differential Equations Laboratory (MA 331 or MA 341) ^H	4
PHYS 118	 Introductory Calculus-based Mechanics and Relativity (PY 205 + 206) ^{H, F}	4
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta (PY 208 + 209) ^{H, F}	4
Remaining General Education courses and electives to reach 124 hours		28
Total Hours		124

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ While BMME 201 is the recommended course, students may take COMP 116 or COMP 210 in place of BMME 201 if they are pursuing a second major or minor which requires one of those courses.

STEM Elective

Students must take an approved upper level (300 or greater) math, science or engineering course. The list below includes courses at UNC. It does not include BME gateway electives or specialization electives, but any of those courses will meet the STEM elective requirement. It must be an extra course and cannot double count for the gateway/specialty electives requirements.

Additional 300 or greater level math and science courses may be approved by the student's advisor to meet this requirement.

If CHEM 430 replaces BMME 325 as a gateway elective, the STEM elective must be an engineering course (additional gateway elective, additional specialty elective, or other approved engineering course).

Code	Title	Hours
APPL 465	Engineering of Soft Materials: SpongeBob Squarepants and Other Squishy Things	3
BIOL 220	 Molecular Genetics ^H	3
BIOL 443	Developmental Biology	3
BIOL 451	Comparative Physiology	3
CHEM 430	Introduction to Biological Chemistry (GN 311) ^H	3
ENVR 451	Introduction to Environmental Modeling	3
EXSS 380	Neuromuscular Control and Learning ^H	3
EXSS 385	Biomechanics of Sport	3
MATH 347	 Linear Algebra for Applications ^F	3
MATH 381	Discrete Mathematics ^H	3
PHYS 331	Numerical Techniques for the Sciences I	4
PHYS 381	Renewable Electric Power Systems	3
PHYS 461	Introduction to Medical Physics	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Specialty Electives

Students are required to complete four specialty electives from no more than two of the five specialization areas listed below. Additional specialty electives may be available each semester through BMME 590 Special Topics courses.

Pharmacoengineering

Code	Title	Hours
UNC Campus		
BMME 495	 Undergraduate Research in Biomedical Engineering as a Technical Elective	3

BMME 511	Genetic Engineering	3
BMME 523	Biomolecular Engineering	3

or MAE 201	Thermal-Fluid Sciences (NC State)	
or MSE 301	Intro to Thermo (NC State)	
BMME 495	 Undergraduate Research in Biomedical Engineering as a Technical Elective	3
BMME 555	Biofluid Mechanics	3
or CE 282	Hydraulics (NC State)	
or MAE 308	Fluid Mechanics (NC State)	
BMME 575	Practical Machine Learning for Biosignal Analysis	3
N.C. State Campus		
BME 412	Biomedical Signal Processing	3
BME 418	Wearable Biosensors	3
BME 522	Medical Instrumentation	3
E 304	Intro to Nano Science and Technology	3
ECE 436	Digital Control Systems	3
ECE 505	Neural Interface Engineering	3

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

First Year	Hours
First-Year Foundation Courses	
IDST 101  College Thriving	1
ENGL 105  English Composition and Rhetoric ²	3
First-Year Seminar or First-Year Launch (p. 660) ^F	3
IDST 111L  Data Literacy Lab	1
Global Language through level 3 (p. 670) ³	3-4
Major Courses	
MATH 231  Calculus of Functions of One Variable I ^{1, H, F}	4
MATH 232  Calculus of Functions of One Variable II ^{1, H, F}	4

PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{1, H, F}	4
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{1, H, F}	4
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory (or BIOL 102L) ^{H, F}	4

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ With a grade of C or better. AP, IB, or transfer credit will be accepted according to university policies.

² With a grade of C- or better. Transfer credit will be accepted according to university policies.

³ Students may wish to consider completing their GLBL-LANG (p. 670) requirement over the summer, in the second year, or through transfer credit to allow for taking fewer hours per semester in the first year.

Special Opportunities in Biomedical Engineering

Departmental Involvement

Student Ambassadors

Student ambassadors represent UNC–Chapel Hill and NC State, embodying professionalism and service. They engage with students, families, industry partners, and the community by conducting campus tours and supporting special events, showcasing the unique academic opportunities within the Lampe Joint Department of Biomedical Engineering.

Undergraduate Learning Assistants

Undergraduate learning assistants (ULAs) play a key role in supporting the academic success of their assigned courses by attending lab or lecture sections, assisting with course materials, and hosting office hours. They collaborate with instructors, complete required trainings, and meet weekly to discuss progress. ULAs contribute to a supportive academic environment.

Departmental Awards

Departmental awards are given to students in the graduating class each spring.

Experiential Education

Capstone Design Experience

All students in biomedical engineering participate in a capstone design experience in which they develop a device or system that has biomedical applications. This project fulfills the General Education Research and Discovery requirement.

Co-op Program

Students based at either campus are eligible to participate in the co-op program through NC State after attending a co-op orientation. The

Cooperative Education Program typically delays graduation by a year but provides valuable industry experience and the opportunity to earn money working as an engineer to help with tuition and other expenses. Undergraduate co-op students alternate semesters of full-time study and full-time work experience, preferably for a minimum of three alternating semesters.

Student Organizations

In addition to the curriculum and co-op program, there are numerous biomedical engineering-related student organizations, including Helping Hands, Engineering World Health (EWH), Biomedical Engineering Society (BMES), Carolina Adapts Toys for Children (CATCH), International Genetically Engineered Machine (iGEM), Society of Women Engineers (SWE), and Biomedical Devices Club (BMED).

Undergraduate Research

Students are strongly encouraged to undertake a research project at any time during their education, but particularly during their junior and/or senior years. Through the challenge of a research project, students come face to face with the leading edge of an area, gain expertise with state-of-the-art techniques and instrumentation, and experience a professional scientific career firsthand. Many undergraduate students work in the research laboratories of BME faculty members. In addition, faculty across campus conduct BME-related research, and many undergraduate students take advantage of these research opportunities in the School of Medicine, School of Dentistry, School of Pharmacy, and in the Departments of Biology, Chemistry, Physics and Astronomy, Computer Science, and Exercise and Sport Science.

The BME department helps to coordinate research activities and facilitates connections between students and research laboratories. This is accomplished through communication via e-mail and the department website. Also, the department organizes laboratory open houses, enabling students to visit faculty laboratories and learn about their research opportunities. The UNC–Chapel Hill Office for Undergraduate Research is also an excellent resource for finding research opportunities.

Honors in Biomedical Engineering

Students who successfully complete a research project and have a sufficiently outstanding academic record are eligible for graduation with honors or highest honors. The requirements for graduation with honors or highest honors include

1. overall grade point average of 3.3 or higher;
2. attendance at two seminars each semester from the BME seminar series or other approved seminars
3. Complete a 300 or higher level BME course for honors credit or complete a graduate-level course that counts toward the undergraduate degree. The course should be completed with a grade of B or better.
4. completion of a two-semester research project, with course credit given in BMME 691H and BMME 692H;
5. presentation of the research to a committee of three faculty members, both as an oral presentation and a written honors thesis; and,
6. approval by that committee.

Additional requirements for BMME 691H and BMME 692H are given to students in those classes. For consideration for highest honors, the research project must be judged to be of publishable quality.

Students wishing to be considered for graduation with honors should apply for approval to enroll in BMME 691H. Additional information can be found in the Academic Credit for Research section of the web page.

Department of Biostatistics

Introduction

The Department of Biostatistics in the Gillings School of Global Public Health is recognized as a worldwide leader in research and practice. The B.S.P.H. in biostatistics provides highly qualified undergraduates with a curriculum consisting of a strong mathematical foundation; advanced coursework in statistical applications, theory, and computing; and an understanding of the public health sciences.

The undergraduate major in biostatistics prepares students to apply quantitative methods to design studies, implement methods, analyze data, and interpret results across a range of disciplines.

The degree provides an excellent foundation for continued studies (primarily graduate school in biostatistics, statistics, data science, or medical school). The job market for B.S.P.H. biostatistics graduates is strong, with previous students employed in a variety of fields including public health, pharmaceuticals, and medicine. This undergraduate program is believed to be the first undergraduate degree in biostatistics in the country.

Advising

The Academic Coordinator, Director of Undergraduate Studies and other faculty advise biostatistics undergraduates. Undergraduate students are encouraged to meet regularly with these advisors and review their Tar Heel Tracker each semester. Departmental academic advising is

particularly important for those students who are considering proceeding to graduate school, pursuing a second major, or pursuing the dual B.S.P.H.–M.S. degree. Further information may be obtained through the departmental website (<http://sph.unc.edu/bios/bios-degrees/>).

Facilities

The Department of Biostatistics has a student library, a student study room, and computer facilities for its students.

Graduate School and Career Opportunities

In recent years, the majority of undergraduate biostatistics students from this program have chosen to attend medical school or graduate school in biostatistics (or other closely related fields such as epidemiology or data science) following graduation. More than 65 percent of recent graduates have entered medical school or graduate programs (primarily biostatistics) immediately following graduation. Recent graduates are attending top-ranked medical schools at Johns Hopkins University, Vanderbilt University, University of Virginia, Duke University, and UNC–Chapel Hill. Biostatistics graduate programs where students have matriculated immediately following completion of this undergraduate program include the University of Washington–Seattle, Harvard, UNC–Chapel Hill, Johns Hopkins University, and the University of Michigan.

Previous graduates who chose to seek employment have taken positions in the pharmaceutical industry, contract research organizations (CROs), and medical settings. Examples of employers of recent graduates include Duke Clinical Research Institute, Blue Cross Blue Shield, IQVIA, Rho, PPD, National Institutes of Environmental Health Science, and Research Triangle Institute. Traditionally, career opportunities have been outstanding for skilled biostatisticians.

Courses

- Biostatistics (BIOS) (<https://catalog.unc.edu/courses/bios/>)

Professors

Kevin Anstrom, Jianwen Cai, David J. Couper, Michael G. Hudgens, Joseph G. Ibrahim, Anastasia Ivanova, Gary G. Koch, Michael R. Kosorok, Yun Li, Danyu Lin, Feng-Chang Lin, Yufeng Liu, James Stephen Marron, Jane Monaco, Andrew B. Nobel, John S. Preisser, Todd Schwartz, Richard Smith, Daniela T. Sotres-Alvarez, Xianming Tan, Haibo Zhou, Hongtu Zhu, Fei Zou.

Associate Professors

Jamie L. Crandell, Tanya Garcia, Annie Green Howard, Quefeng Li, Michael Love, Naim Rashid, Di Wu, Baiming Zou.

Assistant Professors

Didong Li, Xihao Li, Yusha Liu, Ivana Malenica, Kara McCormack, Lina Montoya, Bryce Rowland, David Zhang, Beibo Zhao.

Adjunct Professors

Haoda Fu, Eric Laber, Sean Simpson, Wei Sun, William Valdar, Clarice Weinberg, Xiaojing Zheng, Donglin Zeng, Richard Zink.

Adjunct Associate Professors

Matthew Psioda, Shanshan Zhao.

Adjunct Assistant Professors

Marcella H. Boynton, Luiz Carvalho, Can Chen, Nikki L.B. Freeman, Haolin Li, Vanessa Miller, Charles Pepe-Ranney, Zhengwu Zhang, Tarek Zikry.

Adjunct Instructors

Kinsey Helton, Jeff Laux, Vincent Touns.

Professors Emeriti

Robert Agans, Shrikant Bangdiwala, Lloyd E. Chambless, Clarence E. Davis, James E. Grizzle, Ronald W. Helms, William D. Kalsbeek, Lawrence L. Kupper, Lisa M. LaVange, Keith E. Muller, Bahjat Qaqish, Michael J. Symon, Paul W. Stewart, Kinh N. Truong.

Biostatistics Major, B.S.P.H.

Biostatistics is a discipline concerned with the improvement of human health through the application and advancement of statistical science. The B.S.P.H. biostatistics curriculum consists of a strong mathematical foundation; advanced coursework in statistical applications, theory, and computing; and an understanding of the public health sciences.

The undergraduate major in biostatistics prepares students to apply quantitative methods to design studies, implement methods, analyze data, and interpret results across a range of disciplines. The degree provides an excellent foundation for continued studies (primarily graduate school in biostatistics, statistics, data science, or medical school). The job market for B.S.P.H. biostatistics graduates is outstanding, with previous students employed in a variety of fields including public health, pharmaceuticals, and medicine.

The biostatistics undergraduate program ranks among the top three in the University of North Carolina at Chapel Hill system for Return on Investment (ROI), with an estimated lifetime ROI of approximately \$2 million ROI UNC System Report (https://www.northcarolina.edu/wp-content/uploads/reports-and-documents/economic-reports/unc-evaluation-of-university-programs_feb-2024.pdf). Our undergraduate biostatistics program is the largest in the US, having awarded more than half of all degrees in the discipline over the past two decades American Statistical Association Report (<https://www.amstat.org/docs/default-source/amstat-documents/biostatsbachelors2003-mostrecent2024.pdf>).

Current Student Ambassadors welcome prospective student questions: Bios BSPH Ambassadors (<https://sph.unc.edu/bios/meet-our-bsph-students/>). Frequently Asked Questions are provided regarding admissions, curriculum and more: FAQs BSPH Biostatistics. (<https://sph.unc.edu/bios/faqs-undergraduates-2/>)

Admission (p. 238) to the program is required.

Student Learning Outcomes

Upon completion of the biostatistics program, students should be able to:

1. Perform descriptive and inferential data analyses to answer varied research questions (BIOS 500H)
2. Interpret data analysis results for a variety of audiences (BIOS 500H)
3. Use software appropriately in data collection, data management, and analysis (BIOS 511)
4. Demonstrate the use of elementary statistical theory including the use of basic concepts of probability, random variation and common statistical probability distributions (BIOS 650)
5. Demonstrate strong quantitative skills through the successful completion of calculus, linear algebra, and discrete mathematics (MATH 233, MATH 347, and MATH 381)

Through the Public Health Core coursework, all B.S.P.H. biostatistics students also meet the Public Health CEPH competencies including:

- Communicate public health information, in both oral and written forms, through a variety of media and to diverse audiences
- Locate, use, evaluate and synthesize public health information
- Describe health inequities, identify their root causes at multiple levels of the social ecological framework, and discuss approaches to advancing health equity

Prerequisite Courses Required for Admission

Code	Title	Hours
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^H	4
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
COMP 116 or COMP 110	 Introduction to Scientific Programming or  Introduction to Programming	3
Total Hours		19

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- ^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Admission

The Gillings School of Global Public Health offers five undergraduate majors: biostatistics, community and global public health, environmental health sciences, health policy and management, and nutrition. The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Enrollment in the B.S.P.H. degree programs is limited, and students must apply for admission. Students typically apply in their sophomore year for admission beginning in the fall of their junior year, though exceptions to this timeline may apply.

For current UNC–Chapel Hill students, additional information on application deadlines and how to apply can be found on the Public Health Undergraduate Majors (<https://sph.unc.edu/resource-pages/undergraduate-programs/>) website.

Transfer students interested in any of the B.S.P.H. degree programs must apply through the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/types-of-applications/transfer/>) using the Transfer Common application.

For high school seniors, our five majors participate in the Assured Enrollment program through Undergraduate Admissions. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina’s professional schools or a spot in an accelerated undergraduate/graduate program. For additional information, please visit Undergraduate Admissions: Special Opportunities (<https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/>).

Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, the requirements described in this catalog particularly apply to students admitted to Gillings during the 2026–2027 academic year.

Requirements

In addition to the program requirements listed below, students must:

- attain a final cumulative grade point average of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill
- earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Public Health Core Courses:		
SPHG 351	Foundations of Public Health	3
SPHG 352	Public Health Systems and Solutions	4
EPID 600	Principles of Epidemiology for Public Health	3
Biostatistics Courses:		
BIOS 500H	Introduction to Biostatistics	3
BIOS 511	Introduction to Statistical Computing and Data Management	4
BIOS 512	Data Science Basics	3
BIOS 645	Principles of Experimental Analysis	3

BIOS 650	Basic Elements of Probability and Statistical Inference I	3
BIOS 691	Field Observations in Biostatistics	1
One of the following Additional Biostatistics Course options:		3-4
BIOS 635	Introduction to Machine Learning	
BIOS 664	Sample Survey Methodology ²	
BIOS 668	Design of Public Health Studies	
BIOS 669	Working with Data in a Public Health Research Setting	
One of the following Capstone Course options:		0-4
BIOS 392	 Undergraduate Internship ³	
BIOS 540	 Problems in Biostatistics ^{3, H}	
BIOS 664	Sample Survey Methodology ²	
BIOS 693H	 Honors Research in Biostatistics ³	
Additional Requirements		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{1, H, F}	4
COMP 110	 Introduction to Programming ^{1, H}	3
	or COMP 116 Introduction to Scientific Programming	
MATH 231	 Calculus of Functions of One Variable I ^{1, H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{1, H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{1, H}	4
BIOL 103	 How Cells Function ^F	3
	or BIOL 104  Biodiversity	
MATH 347	 Linear Algebra for Applications ^F	3
Select one of the following to fulfill the Discrete Math requirement: ⁴		3-4
MATH 381	Discrete Mathematics ^H	
STOR 215	 Foundations of Decision Sciences	
STOR 315	 Discrete Mathematics for Data Science	
COMP 283	 Discrete Structures ^H	
Select one of the following Additional Math options:		3
MATH 521	Advanced Calculus I ^H	
MATH 528	Mathematical Methods for the Physical Sciences I	
MATH 535	Introduction to Probability	
MATH 548	Combinatorial Mathematics	
MATH 577	Linear Algebra	
Total Hours		61-67

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Required before matriculation into the program

² A student may use BIOS 664 to fulfill both the Capstone and the Additional Biostatistics course requirements. Students must choose BIOS 664 for the Additional Biostatistics course if they have not

fulfilled the Capstone requirement in some other way such as research/internship/senior honors project courses.

³ Instructor approval needed.

⁴ Some of these Discrete Math options may only be available to students with a double majors elsewhere.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ EPID 600 strongly recommended in the junior year

² A student may use BIOS 664 to fulfill both the Capstone and the Additional Biostatistics course requirements. Students must choose BIOS 664 for the Additional Biostatistics course if they have not fulfilled the Capstone requirement in some other way such as research/internship/senior honors project courses.

Special Opportunities in the Department of Biostatistics

Dual Bachelor's–Master's Degree Program

Undergraduate students with appropriate math and biostatistics backgrounds have the opportunity to pursue a dual bachelor's–graduate degree. This dual B.S.P.H.–M.S. program identifies a coherent course of study for students to complete some of the M.S. degree requirements in biostatistics while pursuing a B.S.P.H. degree with a major in biostatistics. More information is available from Academic Coordinator and on the department FAQ page. (<http://sph.unc.edu/bios/faqs-undergraduates-2/>)

Honors in Biostatistics

The Department of Biostatistics offers an honors program in which undergraduates can pursue individualized study and undertake a research project in their senior year. Students who have a grade point average of 3.3 or higher are eligible to participate in honors research and write an honors thesis. Faculty members' readiness to guide the students in their honors work governs the final selection of those allowed to enter the program. Students completing an honors thesis must register for BIOS 693H and BIOS 694H.

Field Observations

Students are required to take BIOS 691 (usually during the fall semester of the senior year). This course consists of an orientation to and observation of six or more major nonacademic institutions in North Carolina's Research Triangle Park area that employ biostatisticians, including contract research organizations and nonprofit companies.

Study Abroad

Students are encouraged to participate in the University's study abroad programs in the summers or before matriculating to the B.S.P.H. in biostatistics program. Identification of a study abroad program early in the student's career is necessary for course planning purposes.

Undergraduate Awards

The Theta Chapter of Delta Omega honors one student among the department's graduates with an award of excellence. Awards are presented in the spring as part of the biostatistics awards ceremony. Among the recent graduates, a notable proportion of students have been inducted into Phi Beta Kappa.

Undergraduate Research

Students are encouraged to consider doing senior honors research and should consult individual faculty members for opportunities. However, some students choose to take advantage of the myriad part-time employment opportunities with our faculty members on their research and service projects or opportunities within nearby Research Triangle Park.

Department of Chemistry Introduction

Chemistry is the scientific study of the composition and properties of matter and the investigation of the laws that govern them. Classically, chemistry is divided into several subdisciplines. Organic chemistry deals primarily with carbon compounds; inorganic chemistry, with compounds of the other elements. Physical chemistry seeks to describe relationships between the chemical and physical properties of all substances.

Analytical chemistry studies the analysis of the chemical composition of all substances. Biological chemistry pursues the chemistry of living organisms. At the borders of these subdisciplines are many hybrid areas of study: physical organic, organometallic, bioinorganic, and others. At the interface of chemistry with other sciences, several active fields are fueled by insights gained from two ways of thinking about things: for example, chemical physics, chemical biology, organic geochemistry,

and the extensive chemical problems in biotechnology, nanotechnology, material sciences, and molecular medicine. In all of these areas the chemist's approach may be theoretical, experimental, or both.

All chemists have a common core of knowledge, learned through a highly structured sequence of undergraduate courses in which the content is divided into the classical subdisciplines. Toward the end of students' progress through their four years of undergraduate study, they may choose to concentrate in one or more areas of chemistry through the courses selected to fulfill the chemistry elective requirements and through undergraduate research.

Advising

Faculty advisors are available in the Department of Chemistry for both walk-in meetings and scheduled advising appointments. The departmental advisors assist students with a variety of areas: course planning for the chemistry major, career/graduate school planning, study abroad opportunities, undergraduate research opportunities, and how to deal with academic difficulties. Chemistry majors are required to meet with a departmental advisor by appointment prior to registering for any semester beyond the fourth term in residence. The faculty advisors also schedule many events for the majors.

Graduate School and Career Opportunities

An undergraduate degree tailored according to the student's interests can open doors to graduate programs in many academic disciplines: chemistry, environmental science, materials science, polymer science, chemical engineering, geochemistry, chemical physics, and several disciplines at the interface between biology and chemistry. A technically oriented administrator in the chemical industry might choose to obtain a master's degree in business administration. More than 100 schools in the United States offer graduate programs in chemistry and related areas, and the usual practice is to complete a graduate degree at an institution different from the undergraduate institution. It is necessary to specialize in graduate study, either within one of the branches previously mentioned or at the interface between two of them. A student admitted to a graduate program in chemistry in the United States is usually offered a teaching assistantship or fellowship.

Chemists have a wide choice of academic, governmental, or industrial positions. By far the greatest percentage accept industrial positions, mostly in chemical manufacturing or the petroleum, food, and pharmaceutical industries, where they may be developing new products to benefit humanity or assessing the level of risk in the processes for some proposed production methods, for example. Most government chemists are employed in agriculture, health, energy, environmental, and defense-related areas. In the academic field, with such a broad spectrum of colleges and universities in this country, chemists can set career goals with varying levels of emphasis on training students in research and teaching in the classroom and instructional laboratory.

Majors

- Chemistry Major, B.A. (p. 242)
- Chemistry Major, B.S. (p. 245)

Chemistry Major, B.A.

Chemistry is the scientific study of the composition and properties of matter and the investigation of the laws that govern them. All chemists have a common core of knowledge, learned through a highly structured sequence of undergraduate courses in which the content is divided into the classical subdisciplines. The B.A. degree provides students with a rigorous foundation in chemistry.

Student Learning Outcomes

Upon completion of the chemistry (B.A.) program, students should be able to:

- Demonstrate a solid understanding of basic chemical principles (knowledge base in chemistry)
- Demonstrate the ability to solve chemical problems (analytical skills)
- Demonstrate the use of critical and creative thinking skills in conducting research with mentoring from a faculty member (critical thinking skills in chemistry)

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

CHEM 480 Introduction to Biophysical Chemistry 3
or CHEM 481 Physical Chemistry I

One CHEM elective course (see course list on Requirements tab) ³ 3

CHEM 550L  Synthetic Chemistry Laboratory I 2

Remaining Gen Eds; Supplemental General Education; electives 50

Note: All MATH, PHYS and CHEM courses numbered < 400 must be completed prior to semester 7 to graduate in 8 semesters.

Total Hours 120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Placement (PL) credits (zero hours) for MATH 232, MATH 233, or MATH 383 do not satisfy chemistry major requirements.

² PHYS 118 and PHYS 119 are encouraged for those students considering careers as professional chemists or those students who want the option to switch from the B.A. program to the B.S. program.

³ With the permission of the course instructor, CHEM 420 or other chemistry courses numbered above 420 may be substituted for the listed courses.

Special Opportunities in Chemistry

Honors in Chemistry

Upon the recommendation of the Department of Chemistry, the B.A. or B.S. degree with a major in chemistry may be awarded with honors in chemistry or highest honors in chemistry.

To attain the honors or highest distinction, the candidate must satisfy the following guidelines:

- Achieve an overall grade point average of 3.30 or higher.
- Achieve a chemistry major grade point average of 3.40 or higher.
- Prior to the final semester during which the honors thesis is completed, conduct two semesters or one semester plus one summer of research in the laboratory in which the thesis work will be completed.

Honors in chemistry is a distinction bestowed on an outstanding student who has completed a research project of considerable merit, as certified by the research advisor and two faculty members appointed by the director of undergraduate studies.

Highest honors in chemistry is a distinction bestowed on a truly exceptional student who has completed a research project of considerable depth and significance that meets the most rigorous

standards of scholarly excellence, as certified by the research advisor and two faculty members appointed by the director of undergraduate studies.

Students who wish to complete an honors thesis should begin planning their course programs and research activities during or before the junior year so that ample time and effort may be devoted to research.

Departmental Involvement

Majors are encouraged to participate in Alpha Chi Sigma (chemistry fraternity) and the undergraduate advisory board.

Laboratory Teaching Internships and Assistantships

Undergraduates have the opportunity to serve as laboratory teaching assistants for entry-level undergraduate laboratory courses.

Special Topics

Special topics not offered through the normal course sequence may be pursued through directed reading and registration in CHEM 396 with the approval of the supervising faculty member, advisor, and vice chair for undergraduate studies. An approved learning contract is required, and students must be registered no later than the end of the second week of classes (fall and spring semesters).

Undergraduate Awards

Excellent performances by undergraduates in chemistry are recognized by the department through the following awards:

- Francis P. Venable Medal: A medallion and cash award are presented to the two most outstanding graduating seniors majoring in chemistry in honor of Dr. Francis P. Venable, who was chair of the department, president of the University from 1900 to 1914, and president of the American Chemical Society.
- Emmett Gladstone Rand Premedical Scholarship: This scholarship is presented to exceptionally talented graduating seniors intending to pursue a career in medicine.
- David L. Stern Scholar: Top students from upper-division laboratory courses are chosen for this cash award.
- Jason D. Altom Memorial Award for Undergraduate Research: This award recognizes research potential of an undergraduate chemistry major.
- James H. Maguire Memorial Award: This award recognizes an outstanding and academically gifted junior student majoring in chemistry.
- Tanya R. Ellison Scholarship: A junior female B.S. chemistry major is selected for this cash award on the basis of character and academic commitment.
- Carrie Ann Largent Scholarship: This merit based scholarship is awarded annually to senior chemistry majors.
- The Bunki Bankaitis-Davis Memorial Scholarship: This need-based scholarship is awarded annually to chemistry majors.
- Alpha Chi Sigma Sophomore Chemist Award: A cash award is given annually to the top sophomore chemistry student from the previous academic year, as determined by a search committee including members of Alpha Chi Sigma.
- J. Thurman Freeze Scholarship: This scholarship serves to fund summer research between a student's junior and senior years.
- E.C. Markham Summer Research Fund: The department chair selects the recipient of this award, who will use the salary to perform research between the junior and senior years.

- Chapel Family Student Excellence Fund: This award supports undergraduate chemistry majors through research and travel support.
- Matthew Neely Jackson Undergraduate Research Award: This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research.
- Tommie and Billie Hinton Undergraduate Research Fellowship: This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research to support the development of gender equality, diversity and inclusiveness within the chemistry department.
- Alan Rauch and Merrill King Undergraduate Student Research Fund: This award supports undergraduate student research in the Department of Chemistry.
- The Todd and Sherri Elder Undergraduate Research Fund in Chemistry: This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research to support the development of gender equality, diversity, and inclusiveness within the chemistry department.
- Mia Pizzagalli and Ken Shelton Undergraduate Research Fund: This award provides support for undergraduate research.
- Anne Cooper Schout Chemistry Excellence Fund: This award provides support for undergraduate research. Preference will be given to students with financial needs, with eligibility determined by the Office of Scholarships and Student Aid.
- Maurice Bursey Undergraduate Research Award: This award provides support for undergraduate research.

Undergraduate Research

Undergraduates find research to be an exciting and rewarding experience. Undergraduate research can help them acquire a spirit of inquiry, initiative, independence, sound judgment, patience, persistence, alertness, and the ability to use the chemical literature. Undergraduate research also affords an opportunity to make pioneering discoveries at the forefront of science, using instrumentation and techniques far more sophisticated than those usually encountered in standard laboratory courses.

More than 80 students are involved in undergraduate research projects in chemistry each year. Although successful completion of an undergraduate research project is a requirement for graduation with honors or highest honors (see above), it is not necessary to be a participant in Honors Carolina to undertake a research project.

The usual mechanism for becoming involved in a research project involves making direct contact with faculty researchers to inquire about research opportunities. The Chemistry Student Services Office also maintains a list of undergraduate research opportunities. This process begins well in advance of a preregistration or registration period. Once a research opportunity is identified, a student will register for CHEM 395.

CHEM 395 and CHEM 396 together may be taken for credit as many times as desired but may be counted for no more than nine hours total credit toward graduation in either the B.A. or B.S. traditional and polymer tracks and for no more than six hours in the B.S. biochemistry track. Only one of CHEM 395 or CHEM 396 may be counted as an advanced chemistry elective. In the B.S. curriculum CHEM 395 and CHEM 396 together may be counted no more than once as an advanced chemistry elective. CHEM 396 may only be counted as an advanced chemistry elective with departmental permission.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) minor (p. 75) is designed to allow undergraduate science majors interested in teaching high school science the opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years. UNC–BEST students also fulfill teaching licensure coursework requirements as well as many General Education and elective requirements as they complete courses in teaching and learning.

For more details on admission requirements, application deadlines, and instructions for submitting an online application, visit the School of Education website.

Chemistry Major, B.S.

Chemistry is the scientific study of the composition and properties of matter and the investigation of the laws that govern them. All chemists have a common core of knowledge, learned through a highly structured

sequence of undergraduate courses in which the content is divided into the classical subdisciplines. The B.S. degree enables students to choose to concentrate in one or more areas of chemistry through the courses selected to fulfill the chemistry elective requirements and through undergraduate research.

Student Learning Outcomes

Upon completion of the chemistry B.S. program, students are expected to be able to:

- Demonstrate a solid understanding of basic chemical principles (knowledge base in chemistry)
- Demonstrate the ability to solve chemical problems (analytical skills)
- Demonstrate the use of critical and creative thinking skills in conducting research with mentoring from a faculty member (critical thinking skills in chemistry)

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Gateway Course		
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
Core Requirements		
CHEM 102 or CHEM 102H	 General Descriptive Chemistry II ^{H, F} or  General Descriptive Chemistry II	3
CHEM 102L	Quantitative Chemistry Laboratory II	1
CHEM 241	Modern Analytical Methods for Separation and Characterization ^H	3
CHEM 241L	Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds	1
or CHEM 245L	Honors Laboratory in Separations and Analytical Characterization of Organic and Biological Compound	
CHEM 251	Introduction to Inorganic Chemistry	3
CHEM 433	Introduction to Biochemistry for Majors	3
CHEM 481	Physical Chemistry I	3
CHEM 481L	Physical Chemistry Laboratory I	2
or CHEM 482L	Physical Chemistry Laboratory II	
CHEM 482	Physical Chemistry II	3
CHEM 261	Introduction to Organic Chemistry I ^H	3
CHEM 262	Introduction to Organic Chemistry II ^H	3
CHEM 262L	 Laboratory in Organic Chemistry	1

Fifteen hours of advanced chemistry elective courses (one laboratory course is required) from the following list:

CHEM 395	 Research in Chemistry for Undergraduates (may count as a laboratory course) ^H	
Any course numbered CHEM 420 or higher (excluding CHEM 692H)		
One capstone laboratory course is required from the following list		2
CHEM 520L	 Polymer Chemistry Laboratory	
CHEM 530L	 Laboratory Techniques for Biochemistry	
CHEM 541L	 Advanced Instrumentation and Analytical Measurement Laboratory	
CHEM 550L	 Synthetic Chemistry Laboratory I	
CHEM 551L	Honors Synthetic Chemistry Lab	

Additional Requirements

BIOL 101	 Principles of Biology ^{H, F}	3
MATH 232	 Calculus of Functions of One Variable II ^{1, H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{1, H, F}	4
MATH 383	First Course in Differential Equations ^{1, H}	3
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{H, F}	4
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	4

Total Hours **72**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Placement (PL) credits (zero hours) for MATH 232, MATH 233, or MATH 383 do not satisfy chemistry major requirements.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC-Chapel Hill in the fall term. Some courses may not be offered every term.

The recommended course sequence for the bachelor of science degree is listed below.

Code	Title	Hours
First and Sophomore Years		
First-Year Foundation Courses		
ENGL 105	 English Composition and Rhetoric	3

First-Year Seminar or First-Year Launch (p. 660) ^F		3
IDST 101	 College Thriving	1
IDST 111L	 Data Literacy Lab	1
Global Language through level 3 (p. 670)		varies

Major Courses

MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
BIOL 101	 Principles of Biology ^{H, F}	3
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 or CHEM 102H	 General Descriptive Chemistry II ^{H, F}  General Descriptive Chemistry II	3
CHEM 102L	Quantitative Chemistry Laboratory II	1
CHEM 241	Modern Analytical Methods for Separation and Characterization ^H	3
CHEM 241L	Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds	1
or CHEM 245L	Honors Laboratory in Separations and Analytical Characterization of Organic and Biological Compound	
CHEM 251	Introduction to Inorganic Chemistry	3
CHEM 261	Introduction to Organic Chemistry I ^H	3
CHEM 262 or CHEM 262H	Introduction to Organic Chemistry II ^H Introduction to Organic Chemistry II	3
CHEM 262L	 Laboratory in Organic Chemistry	1
MATH 232	 Calculus of Functions of One Variable II ^{1, H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{1, H, F}	4
MATH 383	First Course in Differential Equations ^{1, H}	3
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{H, F}	4
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	4
Additional Gen Ed and electives		6

Junior and Senior Years

Note: CHEM 481 and ALL Math, Phys and Chem courses numbered < 400 must be completed prior to semester 7 to avoid scheduling conflicts preventing 8 semester graduation.

CHEM 433	Introduction to Biochemistry for Majors	3
CHEM 481	Physical Chemistry I	3
CHEM 481L or CHEM 482L	Physical Chemistry Laboratory I Physical Chemistry Laboratory II	2
CHEM 482	Physical Chemistry II	3
Advanced chemistry electives (15 hours, one laboratory course required) ²		15
Capstone Laboratory Course chosen from: CHEM 520L, 530L, 541L, 550L, 551L		2
Remaining Gen Eds and electives		30

Total Hours **120**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Placement (PL) credits (zero hours) for MATH 232, MATH 233, or MATH 383 do not satisfy chemistry major requirements.

² CHEM 395 may be taken for credit as many times as desired but may be counted for no more than nine hours of total credit toward fulfillment of graduation requirements. Additionally, CHEM 395 may not be counted more than once as an advanced chemistry elective in the B.S. chemistry degree. Only one of CHEM 395 or CHEM 396 may be counted as an advanced chemistry elective. CHEM 396 may only be counted as an advanced chemistry elective with departmental permission. Students must sign up for CHEM 395 and CHEM 396 within the first week of classes. CHEM 692H may not be used.

Special Opportunities in Chemistry

Honors in Chemistry

Upon the recommendation of the Department of Chemistry, the B.A. or B.S. degree with a major in chemistry may be awarded with honors in chemistry or highest honors in chemistry.

To attain the honors or highest distinction, the candidate must satisfy the following guidelines:

- Achieve an overall grade point average of 3.30 or higher.
- Achieve a chemistry major grade point average of 3.40 or higher.
- Prior to the final semester during which the honors thesis is completed, conduct two semesters or one semester plus one summer of research in the laboratory in which the thesis work will be completed.

Honors in chemistry is a distinction bestowed on an outstanding student who has completed a research project of considerable merit, as certified by the research advisor and two faculty members appointed by the director of undergraduate studies.

Highest honors in chemistry is a distinction bestowed on a truly exceptional student who has completed a research project of considerable depth and significance that meets the most rigorous standards of scholarly excellence, as certified by the research advisor and two faculty members appointed by the director of undergraduate studies.

Students who wish to complete an honors thesis should begin planning their course programs and research activities during or before the junior year so that ample time and effort may be devoted to research.

Departmental Involvement

Majors are encouraged to participate in Alpha Chi Sigma (chemistry fraternity) and the undergraduate advisory board.

Laboratory Teaching Internships and Assistantships

Undergraduates have the opportunity to serve as laboratory teaching assistants for entry-level undergraduate laboratory courses.

Special Topics

Special topics not offered through the normal course sequence may be pursued through directed reading and registration in CHEM 396 with the approval of the supervising faculty member, advisor, and vice chair for

undergraduate studies. An approved learning contract is required, and students must be registered no later than the end of the second week of classes (fall and spring semesters).

Undergraduate Awards

Excellent performances by undergraduates in chemistry are recognized by the department through the following awards:

- Francis P. Venable Medal: A medallion and cash award are presented to the two most outstanding graduating seniors majoring in chemistry in honor of Dr. Francis P. Venable, who was chair of the department, president of the University from 1900 to 1914, and president of the American Chemical Society.
- Emmett Gladstone Rand Premedical Scholarship: This scholarship is presented to exceptionally talented graduating seniors intending to pursue a career in medicine.
- David L. Stern Scholar: Top students from upper-division laboratory courses are chosen for this cash award.
- Jason D. Altom Memorial Award for Undergraduate Research: This award recognizes research potential of an undergraduate chemistry major.
- James H. Maguire Memorial Award: This award recognizes an outstanding and academically gifted junior student majoring in chemistry.
- Tanya R. Ellison Scholarship: A junior female B.S. chemistry major is selected for this cash award on the basis of character and academic commitment.
- Carrie Ann Largent Scholarship: This merit based scholarship is awarded annually to senior chemistry majors.
- The Bunki Bankaitis-Davis Memorial Scholarship: This need-based scholarship is awarded annually to chemistry majors.
- Alpha Chi Sigma Sophomore Chemist Award: A cash award is given annually to the top sophomore chemistry student from the previous academic year, as determined by a search committee including members of Alpha Chi Sigma.
- J. Thurman Freeze Scholarship: This scholarship serves to fund summer research between a student's junior and senior years.
- E.C. Markham Summer Research Fund: The department chair selects the recipient of this award, who will use the salary to perform research between the junior and senior years.
- Chapel Family Student Excellence Fund: This award supports undergraduate chemistry majors through research and travel support.
- Matthew Neely Jackson Undergraduate Research Award: This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research.
- Tommie and Billie Hinton Undergraduate Research Fellowship: This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research to support the development of gender equality, diversity and inclusiveness within the chemistry department.
- Alan Rauch and Merrill King Undergraduate Student Research Fund: This award supports undergraduate student research in the Department of Chemistry.
- The Todd and Sherri Elder Undergraduate Research Fund in Chemistry: This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research to support the development of gender equality, diversity, and inclusiveness within the chemistry department.

- Mia Pizzagalli and Ken Shelton Undergraduate Research Fund: This award provides support for undergraduate research.
- Anne Cooper Schout Chemistry Excellence Fund: This award provides support for undergraduate research. Preference will be given to students with financial needs, with eligibility determined by the Office of Scholarships and Student Aid.
- Maurice Bursey Undergraduate Research Award: This award provides support for undergraduate research.

Undergraduate Research

- Jason D. Altom Memorial Award for Undergraduate Research: This award recognizes research potential of an undergraduate chemistry major.
- James H. Maguire Memorial Award: This award recognizes an outstanding and academically gifted junior student majoring in chemistry.
- Tanya R. Ellison Scholarship: A junior female B.S. chemistry major is selected for this cash award on the basis of character and academic commitment.

- **Carrie Ann Largent Scholarship:** This merit based scholarship is awarded annually to senior chemistry majors.
- **The Bunki Bankaitis-Davis Memorial Scholarship:** This need-based scholarship is awarded annually to chemistry majors.
- **Alpha Chi Sigma Sophomore Chemist Award:** A cash award is given annually to the top sophomore chemistry student from the previous academic year, as determined by a search committee including members of Alpha Chi Sigma.
- **J. Thurman Freeze Scholarship:** This scholarship serves to fund summer research between a student's junior and senior years.
- **E.C. Markham Summer Research Fund:** The department chair selects the recipient of this award, who will use the salary to perform research between the junior and senior years.
- **Chapel Family Student Excellence Fund:** This award supports undergraduate chemistry majors through research and travel support.
- **Matthew Neely Jackson Undergraduate Research Award:** This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research.
- **Tommie and Billie Hinton Undergraduate Research Fellowship:** This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research to support the development of gender equality, diversity and inclusiveness within the chemistry department.
- **Alan Rauch and Merrill King Undergraduate Student Research Fund:** This award supports undergraduate student research in the Department of Chemistry.
- **The Todd and Sherri Elder Undergraduate Research Fund in Chemistry:** This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research to support the development of gender equality, diversity, and inclusiveness within the chemistry department.
- **Mia Pizzagalli and Ken Shelton Undergraduate Research Fund:** This award provides support for undergraduate research.
- **Anne Cooper Schout Chemistry Excellence Fund:** This award provides support for undergraduate research. Preference will be given to students with financial needs, with eligibility determined by the Office of Scholarships and Student Aid.
- **Maurice Bursey Undergraduate Research Award:** This award provides support for undergraduate research.

Undergraduate Research

Undergraduates find research to be an exciting and rewarding experience. Undergraduate research can help them acquire a spirit of inquiry, initiative, independence, sound judgment, patience, persistence, alertness, and the ability to use the chemical literature. Undergraduate research also affords an opportunity to make pioneering discoveries at the forefront of science, using instrumentation and techniques far more sophisticated than those usually encountered in standard laboratory courses.

More than 80 students are involved in undergraduate research projects in chemistry each year. Although successful completion of an undergraduate research project is a requirement for graduation with honors or highest honors (see above), it is not necessary to be a participant in Honors Carolina to undertake a research project.

The usual mechanism for becoming involved in a research project involves making direct contact with faculty researchers to inquire about research opportunities. The Chemistry Student Services Office also maintains a list of undergraduate research opportunities. This process

begins well in advance of a preregistration or registration period. Once a research opportunity is identified, a student will register for CHEM 395.

CHEM 395 and CHEM 396 together may be taken for credit as many times as desired but may be counted for no more than nine hours total credit toward graduation in either the B.A. or B.S. traditional and polymer tracks and for no more than six hours in the B.S. biochemistry track. Only one of CHEM 395 or CHEM 396 may be counted as an advanced chemistry elective. In the B.S. curriculum CHEM 395 and CHEM 396 together may be counted no more than once as an advanced chemistry elective. CHEM 396 may only be counted as an advanced chemistry elective with departmental permission.

UNC-BEST

The UNC Baccalaureate Education in Science and Teaching (UNC-BEST) minor (p. 75) is designed to allow undergraduate science majors interested in teaching high school science the opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years. UNC-BEST students also fulfill teaching licensure coursework requirements as well as many General Education and elective requirements as they complete courses in teaching and learning.

For more details on admission requirements, application deadlines, and instructions for submitting an online application, visit the School of Education website.

Chemistry Major, B.S.–Polymer Track

Chemistry is the scientific study of the composition and properties of matter and the investigation of the laws that govern them. All chemists have a common core of knowledge, learned through a highly structured sequence of undergraduate courses in which the content is divided into the classical subdisciplines. The B.S. chemistry, polymer track degree provides students with the opportunity to specialize in polymer chemistry.

Student Learning Outcomes

Upon completion of the chemistry B.S. program, students are expected to be able to:

- Demonstrate a solid understanding of basic chemical principles (knowledge base in chemistry)
- Demonstrate the ability to solve chemical problems (analytical skills)
- Demonstrate the use of critical and creative thinking skills in conducting research with mentoring from a faculty member (critical thinking skills in chemistry)

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

This program meets the requirements of the American Chemical Society for the training of professional chemists.

Code	Title	Hours
Gateway Course		
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
Core Requirements		
CHEM 102	 General Descriptive Chemistry II ^{H, F}	3
or CHEM 102H	 General Descriptive Chemistry II	
CHEM 102L	Quantitative Chemistry Laboratory II	1
CHEM 241	Modern Analytical Methods for Separation and Characterization ^H	3

CHEM 241L	Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds	1
or CHEM 245L	Honors Laboratory in Separations and Analytical Characterization of Organic and Biological Compound	
CHEM 251	Introduction to Inorganic Chemistry	3
CHEM 433	Introduction to Biochemistry for Majors	3
CHEM 481	Physical Chemistry I	3
CHEM 481L	Physical Chemistry Laboratory I	2
or CHEM 482L	Physical Chemistry Laboratory II	
CHEM 482	Physical Chemistry II	3
CHEM 520L	 Polymer Chemistry Laboratory	2
CHEM 550L	 Synthetic Chemistry Laboratory I	2
CHEM 261	Introduction to Organic Chemistry I ^H	3
CHEM 262	Introduction to Organic Chemistry II ^H	3
CHEM 262L	 Laboratory in Organic Chemistry	1
Three advanced polymer chemistry electives from:		9
CHEM 420	Introduction to Polymers	
CHEM 421	Synthesis of Polymers	
CHEM 422	Physical Chemistry of Polymers	
CHEM 423	Intermediate Polymer Chemistry	
CHEM 425	Polymer Materials	
One advanced chemistry elective from CHEM 395 or any chemistry course numbered higher than CHEM 420 (at least three hours)		3
Additional Requirements		
BIOL 101	 Principles of Biology ^{H, F}	3
MATH 232	 Calculus of Functions of One Variable II ^{1, H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{1, H, F}	4
MATH 383	First Course in Differential Equations ^{1, H}	3
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{H, F}	4
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	4
Total Hours		71

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Placement (PL) credits (zero hours) for MATH 232, MATH 233, or MATH 383 do not satisfy chemistry major requirements.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create

a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The recommended course sequence for the bachelor of science (polymer track) degree is listed below.

Code	Title	Hours
First and Sophomore Years		
First-Year Foundation Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F		3
IDST 111L	 Data Literacy Lab	1
Global Language through level 3 (p. 670)		varies
Major Courses:		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
BIOL 101	 Principles of Biology ^{H, F}	3
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102	 General Descriptive Chemistry II ^{H, F}	3
or CHEM 102H	 General Descriptive Chemistry II	
CHEM 102L	Quantitative Chemistry Laboratory II	1
CHEM 241	Modern Analytical Methods for Separation and Characterization ^H	3
CHEM 241L	Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds	1
or CHEM 245L	Honors Laboratory in Separations and Analytical Characterization of Organic and Biological Compound	
CHEM 251	Introduction to Inorganic Chemistry	3
CHEM 261	Introduction to Organic Chemistry I ^H	3
CHEM 262	Introduction to Organic Chemistry II ^H	3
CHEM 262L	 Laboratory in Organic Chemistry	1
MATH 232	 Calculus of Functions of One Variable II ^{1, H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{1, H, F}	4
MATH 383	First Course in Differential Equations ^{1, H}	3
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{H, F}	4
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	4
Gen Ed courses		9
Junior and Senior Years		
Note: CHEM 481 and ALL Math, Phys and Chem courses numbered < 400 must be completed prior to semester 7 to avoid scheduling conflicts preventing 8 semester graduation.		
CHEM 433	Introduction to Biochemistry for Majors	3
CHEM 481	Physical Chemistry I	3
CHEM 481L	Physical Chemistry Laboratory I	2
or CHEM 482L	Physical Chemistry Laboratory II	
CHEM 482	Physical Chemistry II	3

CHEM 520L	 Polymer Chemistry Laboratory	2
CHEM 550L	 Synthetic Chemistry Laboratory I	2
Polymer electives. Three courses from:		9
CHEM 420	Introduction to Polymers	
CHEM 421	Synthesis of Polymers	
CHEM 422	Physical Chemistry of Polymers	
CHEM 423	Intermediate Polymer Chemistry	
Advanced chemistry elective ^{2,3}		3
Remaining Gen Eds and electives		28
Total Hours		120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Placement (PL) credits (zero hours) for MATH 232, MATH 233, or MATH 383 do not satisfy chemistry major requirements.

² CHEM 395 may be taken for credit as many times as desired but may be counted for no more than nine hours of total credit toward fulfillment of graduation requirements. Students must sign up for CHEM 395 within the first week of classes.

³ CHEM 395 and chemistry courses numbered 420 or higher.

Special Opportunities in Chemistry

Honors in Chemistry

Upon the recommendation of the Department of Chemistry, the B.A. or B.S. degree with a major in chemistry may be awarded with honors in chemistry or highest honors in chemistry.

To attain the honors or highest distinction, the candidate must satisfy the following guidelines:

- Achieve an overall grade point average of 3.30 or higher.
- Achieve a chemistry major grade point average of 3.40 or higher.
- Prior to the final semester during which the honors thesis is completed, conduct two semesters or one semester plus one summer of research in the laboratory in which the thesis work will be completed.

Honors in chemistry is a distinction bestowed on an outstanding student who has completed a research project of considerable merit, as certified by the research advisor and two faculty members appointed by the director of undergraduate studies.

Highest honors in chemistry is a distinction bestowed on a truly exceptional student who has completed a research project of considerable depth and significance that meets the most rigorous standards of scholarly excellence, as certified by the research advisor and two faculty members appointed by the director of undergraduate studies.

Students who wish to complete an honors thesis should begin planning their course programs and research activities during or before the junior year so that ample time and effort may be devoted to research.

Departmental Involvement

Majors are encouraged to participate in Alpha Chi Sigma (chemistry fraternity) and the undergraduate advisory board.

Laboratory Teaching Internships and Assistantships

Undergraduates have the opportunity to serve as laboratory teaching assistants for entry-level undergraduate laboratory courses.

Special Topics

Special topics not offered through the normal course sequence may be pursued through directed reading and registration in CHEM 396 with the approval of the supervising faculty member, advisor, and vice chair for undergraduate studies. An approved learning contract is required, and students must be registered no later than the end of the second week of classes (fall and spring semesters).

Undergraduate Awards

Excellent performances by undergraduates in chemistry are recognized by the department through the following awards:

- Francis P. Venable Medal: A medallion and cash award are presented to the two most outstanding graduating seniors majoring in chemistry in honor of Dr. Francis P. Venable, who was chair of the department, president of the University from 1900 to 1914, and president of the American Chemical Society.
- Emmett Gladstone Rand Premedical Scholarship: This scholarship is presented to exceptionally talented graduating seniors intending to pursue a career in medicine.
- David L. Stern Scholar: Top students from upper-division laboratory courses are chosen for this cash award.
- Jason D. Altom Memorial Award for Undergraduate Research: This award recognizes research potential of an undergraduate chemistry major.
- James H. Maguire Memorial Award: This award recognizes an outstanding and academically gifted junior student majoring in chemistry.
- Tanya R. Ellison Scholarship: A junior female B.S. chemistry major is selected for this cash award on the basis of character and academic commitment.
- Carrie Ann Largent Scholarship: This merit based scholarship is awarded annually to senior chemistry majors.
- The Bunki Bankaitis-Davis Memorial Scholarship: This need-based scholarship is awarded annually to chemistry majors.
- Alpha Chi Sigma Sophomore Chemist Award: A cash award is given annually to the top sophomore chemistry student from the previous academic year, as determined by a search committee including members of Alpha Chi Sigma.
- J. Thurman Freeze Scholarship: This scholarship serves to fund summer research between a student's junior and senior years.
- E.C. Markham Summer Research Fund: The department chair selects the recipient of this award, who will use the salary to perform research between the junior and senior years.
- Chapel Family Student Excellence Fund: This award supports undergraduate chemistry majors through research and travel support.

- Matthew Neely Jackson Undergraduate Research Award: This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research.
- Tommie and Billie Hinton Undergraduate Research Fellowship: This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research to support the development of gender equality, diversity and inclusiveness within the chemistry department.
- Alan Rauch and Merrill King Undergraduate Student Research Fund: This award supports undergraduate student research in the Department of Chemistry.
- The Todd and Sherri Elder Undergraduate Research Fund in Chemistry: This award provides support for undergraduate chemistry majors to conduct faculty-mentored summer research to support the development of gender equality, diversity, and inclusiveness within the chemistry department.
- Mia Pizzagalli and Ken Shelton Undergraduate Research Fund: This award provides support for undergraduate research.
- Anne Cooper Schout Chemistry Excellence Fund: This award provides support for undergraduate research. Preference will be given to students with financial needs, with eligibility determined by the Office of Scholarships and Student Aid.
- Maurice Bursey Undergraduate Research Award: This award provides support for undergraduate research.

Undergraduate Research

Undergraduates find research to be an exciting and rewarding experience. Undergraduate research can help them acquire a spirit of inquiry, initiative, independence, sound judgment, patience, persistence, alertness, and the ability to use the chemical literature. Undergraduate research also affords an opportunity to make pioneering discoveries at the forefront of science, using instrumentation and techniques far more sophisticated than those usually encountered in standard laboratory courses.

More than 80 students are involved in undergraduate research projects in chemistry each year. Although successful completion of an undergraduate research project is a requirement for graduation with honors or highest honors (see above), it is not necessary to be a participant in Honors Carolina to undertake a research project.

The usual mechanism for becoming involved in a research project involves making direct contact with faculty researchers to inquire about research opportunities. The Chemistry Student Services Office also maintains a list of undergraduate research opportunities. This process begins well in advance of a preregistration or registration period. Once a research opportunity is identified, a student will register for CHEM 395.

CHEM 395 and CHEM 396 together may be taken for credit as many times as desired but may be counted for no more than nine hours total credit toward graduation in either the B.A. or B.S. traditional and polymer tracks and for no more than six hours in the B.S. biochemistry track. Only one of CHEM 395 or CHEM 396 may be counted as an advanced chemistry elective. In the B.S. curriculum CHEM 395 and CHEM 396 together may be counted no more than once as an advanced chemistry elective. CHEM 396 may only be counted as an advanced chemistry elective with departmental permission.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) minor (p. 75) is designed to allow undergraduate science majors

interested in teaching high school science the opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years. UNC–BEST students also fulfill teaching licensure coursework requirements as well as many General Education and elective requirements as they complete courses in teaching and learning.

For more details on admission requirements, application deadlines, and instructions for submitting an online application, visit the School of Education website.

Chemistry Minor

Chemistry is the scientific study of the composition and properties of matter and the investigation of the laws that govern them. The chemistry minor provides a solid background in chemistry for students choosing to pursue other major fields and careers in the health sciences.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor in chemistry consists of the following seven courses:

Code	Title	Hours
Core Requirements		
CHEM 102	 General Descriptive Chemistry II ^{H, F}	3
or CHEM 102H	 General Descriptive Chemistry II	
CHEM 102L	Quantitative Chemistry Laboratory II	1
CHEM 241	Modern Analytical Methods for Separation and Characterization ^H	3
CHEM 241L	Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds	1
or CHEM 245L	Honors Laboratory in Separations and Analytical Characterization of Organic and Biological Compound	
CHEM 261	Introduction to Organic Chemistry I ^H	3
CHEM 262	Introduction to Organic Chemistry II ^H	3
CHEM 262L	 Laboratory in Organic Chemistry	1
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

See the program page here (p. 243) for special opportunities.

Department of City and Regional Planning

Introduction

City and regional planning is an interdisciplinary field that seeks to improve the quality of life for people in human settlements. Planners are involved, for example, in forecasting alternative futures of a city or region, guiding the type and location of new development, analyzing transportation systems, encouraging economic development, protecting the environment, mediating diverse interests, and revitalizing urban neighborhoods. They are involved in designing solutions to pressing societal problems such as urban sprawl, unemployment, homelessness, environmental pollution, and urban decay.

City and regional planners work for a variety of public, nonprofit, and private organizations. In the public sector local, state, and federal governments all employ city and regional planners. In the nonprofit sector, planners work for national, state, and local advocacy groups promoting sustainable development. In the private sector, planners work for development companies and consulting firms.

For undergraduates the Department of City and Regional Planning offers basic coursework, opportunities for supervised practical experience, and an academic minor. Undergraduate students take courses in the department for several reasons: to learn about cities and planning processes, to enrich or expand their current area of interest in different aspects of urbanization, or to explore the possibility of graduate work leading to a career in planning. Planning courses allow students to see how the arts and sciences can be applied to improve the prosperity and livability of cities, towns, and regions. In this way they help students deepen their appreciation of their major field of study. Some planning courses may fulfill General Education requirements.

Advising

The department's director of undergraduate studies serves as the primary point of contact for students participating in the minor. (See contact tab above.) Student advising and approval of equivalent courses are handled by the director. Students also have a primary academic advisor assigned in ConnectCarolina.

Facilities

The Department of City and Regional Planning is located in New East Building on Cameron Avenue. An important resource available to the department is the Center for Urban and Regional Studies, located in Hickerson House, where the research and service programs of the department are housed. The department also has strong ties to the Institute for the Environment. Other research centers that are of interest are Center for Community Capital, Program on Chinese Cities, Carolina Transportation Program, and the UNC Hazards Center.

Graduate School and Career Opportunities

Undergraduates interested in a career in city and regional planning can pursue postgraduate work in planning at UNC–Chapel Hill. The Department of City and Regional Planning offers several degree programs at the graduate level. A two-year program preparing students for advanced positions in professional practice in city and regional planning leads to the degree of master in city and regional planning. A program leading to the degree of doctor of philosophy prepares for careers in teaching and research. Dual graduate degree programs are offered in collaboration with related professional programs (law, business, public administration, public health, landscape architecture, and environmental sciences and engineering).

For more information please contact Student Services Manager Sarah Ward (sarahw1@unc.edu).

Urban Studies and Planning Minor

City and regional planning is an interdisciplinary field that seeks to improve the quality of life for people in human settlements. Planners are involved in designing solutions to pressing societal problems such as urban sprawl, unemployment, homelessness, environmental pollution, and urban decay. They are involved in guiding the type and location of new development, creating balanced transportation systems (including walking and biking), promoting economic development for all residents, protecting the environment, expanding affordable housing, and revitalizing urban neighborhoods.

City and regional planners are hired by national, state, and local governments; national, regional, and local nonprofit groups; and private sector firms including development companies and consulting firms.

A minor in urban studies and planning allows students to learn about cities and planning processes, to enrich or expand their major, and to explore how they can be involved in improving the prosperity, livability, and equity of cities, towns, and regions. Having a minor in urban studies

and planning can help students in the job market, as it teaches skills valued by many employers. It can also help students explore the possibility of pursuing a master’s degree in planning.

Students interested in urban studies may also be interested in:

- The dual bachelor’s-master’s at UNC–Chapel Hill (<https://catalog.unc.edu/graduate/schools-departments/city-regional-planning/#programtext>)
- The Urban Analytics track for the B.A. in Data Science major (p. 50)
- The Urban Analytics track for the B.S. in Data Science major (p. 53)

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours

Civic Life and Leadership Minor

SCiLL’s minor offers engaging courses that explore the foundational questions, texts, and traditions that have shaped American democracy and Western thought. Through this interdisciplinary program, students will gain the knowledge and skills to lead with wisdom, have reasoned conversations across differences, and live with purpose in our pluralistic democracy.

They will learn civil discourse as they tackle civic life’s perennial questions: What constitutes the good life? What are the best political and economic systems? How should scientific knowledge guide politics? What founding principles should the United States preserve or revise? By grappling with questions both timely and timeless, students develop the capacities for deliberation and judgment essential to effective civic leadership.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
SCLL 102	 Pursuing The Good Life	3
SCLL 103	 Seeking the Just Society	3
Select one elective course from each of the three categories listed below (three courses total).		9
Total Hours		15

Civic Discourse and Leadership Category

The Civic Discourse and Leadership (CD) category is an opportunity for students to learn how to disagree fruitfully across difference. Courses in this category will expose students to controversial questions and debates. These courses will encourage productive approaches to disagreement that a pluralistic society depends on. CD courses will do more than simply teach skills in disagreeing well. CD courses will also deeply engage with the the facts, context, and nuance surrounding the

topics they cover, requiring students to achieve a rigorous understanding of the topic or theme in question.

Code	Title	Hours
SCLL 85	 First-Year Seminar: What Does it Mean to be a Good Citizen?	3
SCLL 110	 Reasoning Together: Civic Dialogue in Polarized Times	3
SCLL 170	 Left, Right, and Center	3
SCLL 185	 How to be a Citizen	3
SCLL 201	 Practice of Civic Life and Leadership ^F	3
SCLL 240	 Free Speech and Its Limits: From Socrates to Cancel Culture	3
SCLL 270	 Speech and Power in Political Life	3
SCLL 352	 Labcoats and Legislators: Navigating Science and Policy in a Democratic Society	3

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ With permission, based on topic.

Fundamental Questions and Ideas

The Fundamental Questions and Ideas (FQ) category invites students to examine the fundamental questions of human life and political society through the reading of Western philosophical, political, literary, and religious texts and their interlocutors that speak to these questions. Courses satisfying the FQ category will encourage deep reading to address foundational human experiences like justice, happiness, love, marriage, education, family, crime, punishment, faith, and death, as well as questions about how to structure civic life to facilitate human flourishing. FQ courses are designed to help students to live reflective and flourishing lives.

SCLL 429	 Political Theology	3

¹ With permission, based on topic.

American Civic Life Category

The American Civic Life (ACL) category is an opportunity for students to critically examine the nature, structure, and foundations of American democracy. Courses satisfying the ACL category may focus on American political development, the American intellectual tradition, the sources of American civic thought, or comparisons of American civic life with some of its alternatives, historical or contemporary. These courses will offer students the opportunity to understand the American civic regime and offer tools for critically analyzing it. ACL courses prepare students to be full and responsible participants in American civic life.

Department of Classics

Introduction

The Department of Classics engages in teaching and researching the civilization of the ancient Greek and Roman world in its broadest sense, from the Bronze Age Aegean to the transmission of classical literature in the Middle Ages and beyond. Our primary focus is the language, literature, art, and archaeology of the ancient Greeks and Romans, but our reach extends to all aspects of their culture as well as to related civilizations of the ancient Mediterranean world. Our field is inherently interdisciplinary, and we draw on a range of approaches in order to understand the diversity of these civilizations and to explore the varied ways in which people in later periods, including our own, have found them meaningful.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors by appointments (see contact information above). Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<https://classics.unc.edu/>).

Graduate School and Career Opportunities

The undergraduate curriculum prepares students for specialized graduate study in classical studies: classical philology, comparative literature, archaeology (prehistoric, classical, and Byzantine), medieval studies, philosophy, art history, ancient history, or linguistics. While many graduating students go on to graduate programs in the humanities and social sciences, others pursue careers in a range of fields, including law, medicine, business, archaeology, and secondary education. Students who wish to be certified to teach in public high schools should major in Latin and then apply for admission to an accredited M.A.T. program.

Majors

- Classics Major, B.A.–Classical Archaeology (p. 260)
- Classics Major, B.A.–Classical Civilization (p. 262)
- Classics Major, B.A.–Greek, Latin, and Combined Greek and Latin (p. 264)

Minors

- Classical Humanities Minor (p. 267)
- Greek Minor (p. 268)
- Latin Minor (p. 268)

Classics Major, B.A.–Classical Archaeology

This concentration focuses on the material remains of prehistoric and classical antiquity, while also providing a background in civilization, history, and at least one classical language. The program of study is designed to give students a basic knowledge of the art and architecture of the Greeks and Romans and to introduce them to the use of archaeology in the reconstruction of the past, including Egypt and the ancient Near East.

Majors in classical archaeology may not elect a minor in the classical language that they use to satisfy their major requirements, although they may elect a minor in the other classical language. Students interested in majoring in classical archaeology should consult the department as early as possible.

Student Learning Outcomes

Upon completion of the classical archaeology program, students should be able to:

- Recognize and discuss the main monuments of the Graeco-Roman world and place them within their broader historical context
- Read either Latin or ancient Greek and interpret the literature of that language at a level appropriate for continuation in graduate school
- Analyze and assess the material remains of classical antiquity, employing current and standard archaeological methods and theory
- Carry out independent research projects. They will be able to propose a useful research topic, gather evidence (employing both ancient materials and secondary scholarship, as appropriate), formulate theses based on the evidence, and set out the evidence, arguments for and against the theses, and conclusions. They will be able to do this employing the methods and conventions of modern scholarship.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Four additional courses in Classical Archaeology (CLAR), including two numbered between CLAR 400 and CLAR 699 ¹		12
Three courses in one of the following configurations:		9
Three courses in Classical Civilization (CLAS), including at least one numbered 200 or above. CLAS 125 and CLAS 126 do not satisfy this requirement. ¹		
Three courses in GREK or LATN at any level.		
Three courses combining GREK or LATN at any level and CLAS courses at any level, excluding CLAS 125 and CLAS 126. ¹		
Total Hours		30

¹ A first-year seminar may be used to fulfill this requirement.

Classical Archaeology (CLAR) course descriptions (p.).

Special Opportunities in Classics

Honors in Classics

Classics majors wishing to take part in the departmental honors program during their senior year must have a grade point average of at least 3.3

at the beginning of their senior year and maintain an average no lower than this through their final semester in order to be eligible for honors consideration.

The program consists of two courses, CLAS 691H and CLAS 692H, taken sequentially in the fall and spring semesters. CLAS 691H involves a directed reading in Greek, Latin, or archaeology in a general area of the student's interest and is conducted under the supervision of a faculty member chosen by the student to serve as the honors advisor. Requirements of the course include the preparation of a thesis prospectus with accompanying bibliography and a preliminary oral examination by the student's thesis committee. A grade for CLAS 691H is assigned on the basis of the total semester's work. CLAS 692H entails the writing of the thesis under the direction of the honors advisor and a final oral defense before the candidate's committee. This body, in turn, reports its judgment to the department. If a degree with honors is to be awarded, a recommendation for either honors or, for particular merit, highest honors is made.

Additional Opportunities

The Department of Classics supports a number of activities, including informal reading groups; the local chapter of Eta Sigma Phi, the national undergraduate classics honorary society; and annual oral performances and prize competitions in reciting and translating Greek and Latin texts. Several of the prize competitions involve substantial cash awards.

Opportunities for undergraduate research include especially the senior honors thesis and participation in archaeological fieldwork as research assistants. The department encourages majors and minors to take part in summer archaeological field projects. Other opportunities for study abroad include the programs of the Intercollegiate Center for Classical Studies in Rome and the College Year in Athens, and the exchange with King's College London. A number of departmental fellowships and other funding opportunities can help support participation in archaeological field projects and other research projects. Lastly, the Duke–UNC Consortium for Classical and Mediterranean Archaeology provides archaeology students access to coursework, seminars, excavations and other research opportunities, academic advising, and avenues for curricular and extracurricular interaction across both institutions. For further information about prizes, fellowships, and opportunities for research and study abroad, see the departmental w (<http://classics.unc.edu/undergraduate-2/study-abroad-and-summer-programs/>) ebsite (<http://classics.unc.edu/undergraduate-2/study-abroad-and-summer-programs/>).

Classics Major, B.A.–Classical Civilization

This concentration is designed to provide students with a broad, basic knowledge of the classical world and with skills in analysis, written and oral communication, and logical argument that will be applicable in any profession. The civilization program is not designed to lead to graduate work in classics, although students do sometimes go on in the field, and it is often taken as part of a double major.

Majors in classical civilization may not elect a minor in the classical language that they use to satisfy their major requirements, although they may elect a minor in the other classical language. Students considering a major in classical civilization should consult the department as soon as possible.

Student Learning Outcomes

Upon completion of the classical civilization program, students should be able to:

- Read and translate either Latin or Greek at an intermediate level.
- Outline the main periods and events in ancient history and discuss in detail several specific periods in that history. They will be able to relate the literatures of Greece and Rome to the historical developments.
- Analyze and assess the various types of evidence that survive from the ancient world, including written texts, historical materials, ancient art, and a range of material remains. They will be able to employ current and standard methods and theory in such analyses. They will be able to write essays and expository papers in which they demonstrate these abilities.

- Carry out independent research projects. They will be able to propose a useful research topic, gather evidence (employing both ancient materials and secondary scholarship, as appropriate), formulate theses based on the evidence, and set out the evidence, arguments for and against the theses, and conclusions. They will be able to do this employing the methods and conventions of modern scholarship.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

Classics Major, B.A.–Greek, Latin, and Combined Greek and Latin

Classics Major, B.A.–Greek

The goal of the concentration in Greek is the development of a basic command of the language and a solid knowledge of the literature, history, and culture of the Greeks. Students interested in an undergraduate major in Greek or in a combined major in Greek and Latin should consult the department by the second semester of the sophomore year. For Greek as satisfying the language requirement for the B.A. degree, see the General Education section in this catalog.

Classics Major, B.A.–Latin

The goal of the concentration in Latin is the development of a basic command of the language and a solid knowledge of the literature, history, and culture of the Romans. Students interested in an undergraduate major in Latin or a combined major in Latin and Greek should consult the department by the second semester of the sophomore year. For Latin as satisfying the language requirement for the B.A. degree, see the General Education section in this catalog.

Classics Major, B.A.–Combined Greek and Latin

This is not a double major, but a concentration designed to develop facility in both ancient languages and in the literatures of both Greece and Rome. This program is recommended for students who have a strong interest in continuing classical languages at the graduate level. In this major students emphasize one language yet acquire facility in the other.

Student Learning Outcomes

Upon completion of the Greek, Latin, and combined programs, students should be able to:

- Translate into idiomatic English passages in prose and poetry in the target languages
- Analyze and evaluate the works of Greek and Latin authors, both in writing and orally. If appropriate given the nature of the material, they will be able to place the passages within their historical or literary contexts, and they will demonstrate an ability to employ earlier scholarship as well as current methodological and theoretical approaches.
- Conduct independent research projects. Their work will demonstrate an ability to employ scholarly conventions and current methodologies.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill

- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Special Opportunities in Classics

Honors in Classics

Classics majors wishing to take part in the departmental honors program during their senior year must have a grade point average of at least 3.3 at the beginning of their senior year and maintain an average no lower than this through their final semester in order to be eligible for honors consideration.

The program consists of two courses, CLAS 691H and CLAS 692H, taken sequentially in the fall and spring semesters. CLAS 691H involves a directed reading in Greek, Latin, or archaeology in a general area of the student's interest and is conducted under the supervision of a faculty member chosen by the student to serve as the honors advisor. Requirements of the course include the preparation of a thesis prospectus with accompanying bibliography and a preliminary oral examination by the student's thesis committee. A grade for CLAS 691H is assigned on the basis of the total semester's work. CLAS 692H entails the writing of the thesis under the direction of the honors advisor and a final oral defense before the candidate's committee. This body, in turn, reports its judgment to the department. If a degree with honors is to be awarded, a recommendation for either honors or, for particular merit, highest honors is made.

Additional Opportunities

The Department of Classics supports a number of activities, including informal reading groups; the local chapter of Eta Sigma Phi, the national undergraduate classics honorary society; and annual oral performances and prize competitions in reciting and translating Greek and Latin texts. Several of the prize competitions involve substantial cash awards. Opportunities for undergraduate research include especially the senior honors thesis and participation in archaeological fieldwork as research assistants. The department encourages majors and minors to take part in summer archaeological field projects. Other opportunities for study abroad include the programs of the Intercollegiate Center for Classical Studies in Rome and the College Year in Athens, and the exchange with King's College London. A number of departmental fellowships and other funding opportunities can help support participation in archaeological field projects and other research projects. Lastly, the Duke–UNC Consortium for Classical and Mediterranean Archaeology provides archaeology students access to coursework, seminars, excavations and other research opportunities, academic advising, and avenues for curricular and extracurricular interaction across both institutions. For further information about prizes, fellowships, and opportunities for research and study abroad, see the departmental w (<http://classics.unc.edu/undergraduate-2/study-abroad-and-summer-programs/>)ebsite (<http://classics.unc.edu/undergraduate-2/study-abroad-and-summer-programs/>).

Classical Humanities Minor

Classics is the study of the ancient Greek and Roman world; the Greek and Latin languages and literature; and the history, art, and culture that have been fundamental in shaping modern society. The minor in classical humanities is ideal for students who would like a structured introduction to ancient Greek and Roman civilization without the need to study one of the classical languages.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
One of the following:		3
CLAR 244	 Greek Art and Archaeology	
CLAR 247	 Roman Art and Archaeology	
CLAS 121	 The Greeks ^H	3
or CLAS 122	 The Romans	
CLAS 131	 Classical Mythology ^H	3
Two additional courses: any CLAR or CLAS course numbered above 132 or any GREK or LATN course not being used to fulfill the global/foreign language General Education requirement		6
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Greek Minor

Classics is the study of the ancient Greek and Roman world; the Greek and Latin languages and literature; and the history, art, and culture that have been fundamental in shaping modern society. The Greek minor is a less intensive version of the Greek concentration in the major, and requires only three courses in Greek beyond the fourth semester. It is a useful option for students with a particular interest in ancient philosophy or early Christianity.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements ¹		
GREK 204	Intermediate Greek II	3
or GREK 205	Introductory Greek New Testament	
Two (2) additional courses numbered GREK 221 or higher		6
One (1) additional course chosen from any CLAR or CLAS course or any GREK or LATN course not being used to fulfill the global/foreign language General Education requirement		3
Total Hours		12

¹ The minor in Greek may not be used as an option for majors in classical archaeology or classical civilization who have chosen that language to fulfill degree requirements in that major.

Department of Classics course descriptions (p.) include:

- Classical Archaeology (CLAR)
- Classics in English/Classical Civilization (CLAS)
- Greek (GREK)
- Latin (LATN)

Latin Minor

Classics is the study of the ancient Greek and Roman world; the Greek and Latin languages and literature; and the history, art, and culture that have been fundamental in shaping modern society. The Latin minor is a less intensive version of the Latin concentration in the major, and requires only four courses in Latin beyond the fourth semester. It is a useful option for students who have studied Latin in high school and would like to continue for their own enjoyment, as well as for students with a particular interest in medieval or early modern studies.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Four (4) courses in Latin numbered LATN 221 or higher		12
Total Hours		12

The minor in Latin may not be used as an option for majors in classical archaeology or classical civilization who have chosen that language to fulfill degree requirements in that major.

Department of Communication Introduction

The study of communication is essential for participating in an increasingly complex and mediated global environment. The Department of Communication's mission is to advance communication for the public good. Through its teaching, research, and service, the department addresses the many ways communication functions to create, sustain, and transform personal life, social relations, political institutions, economic organizations, and cultural and aesthetic conventions in society; promotes competencies required for various modes of mediated and non-mediated communication; and develops skills for analyzing, interpreting, and critiquing communication problems and questions. The curriculum is designed to enable students to develop the capacities to be knowledgeable and responsible producers and consumers of communication through engagement, critique, and creativity. The programs of study offered by the department reflect its vision of citizen-scholars building a better North Carolina and world.

Advising

Department advising for the major in communication studies is conducted by

1. a full-time Teaching Professor/advisor who holds office hours in Swain Hall (see the department's website (<https://comm.unc.edu/>) for the advisor's office and office hours),
2. the director of undergraduate studies for the Department of Communication (see the department's website (<https://comm.unc.edu/>) for the director's office and office hours), and
3. representative faculty members.

Facilities

The department has extensive media production and performance studies facilities located in the Media Arts Space at 108 East Franklin Street, Swain Hall and Bingham Hall. The Media Arts Space is home to state-of-the-art media production equipment, classroom space, and editing suites. Swain houses our Black Box theatre, where numerous live performances are staged.

Graduate School and Career Opportunities

Upon completion of their degrees, students are prepared for graduate study and research in communication. Advanced study may be pursued in a problem-defined approach to communication research. A substantial number of graduate assistantships allow M.A.-through-Ph.D. and Ph.D.-only candidates to gain experience in research, teaching, production, and administration. Graduate study is characterized by intensive participation in seminars, original research and creative activities, and close work with individual faculty members. Students are also prepared for advanced study in related academic disciplines such as law, public policy, and leadership.

The career outlook for students with degrees in communication studies is promising, and graduates enter a variety of professions that value

communication knowledge and skills. Communication studies majors are prepared to serve as communication specialists in business; in federal, state, and local governments and agencies; and in public service. Some of the specific areas in which majors pursue careers are teaching, social advocacy, nonprofit leadership and management, public relations and advertising, personnel management and training, management consulting, video and film production, and game design.

According to the Federal Bureau of Labor, overall employment in media and communication occupations is projected to grow 6 percent by 2032, resulting in 68,600 currently non-existing jobs over the decade. About 114,300 jobs are projected each year. The median annual salary for media and communication professionals was \$66,320 in May 2023, which was higher than the median annual salary for all occupations of \$48,060.

An understanding of communication provides a strong base for a range of career options. A majority of employers surveyed stress the need to hire people with strong oral and written communication skills, critical thinking and interpretive skills, and the ability to communicate through multiple modalities across different audience types. These are all tools that communication majors learn to use effectively. The mission of the department is to go beyond narrow technical training by providing a liberal arts approach to communication. This provides the student with maximum latitude for promotion and advancement and avoids limited career opportunities resulting from narrow approaches to the field.

The burgeoning growth of communication industries and support fields provides a range of career opportunities. Graduates of the department, who number well over 4,000, are engaged in a variety of occupations ranging from work for international corporations to jobs at local nonprofit organizations.

Communication Studies Major, B.A.

Overview

The study of communication is essential for participating in an increasingly complex and mediated global environment. The Department of Communication's mission is to advance communication for the public good. Through its teaching, research, and service, the department addresses the many ways communication functions to create, sustain, and transform personal life, social relations, political institutions, economic organizations, and cultural and aesthetic conventions in society; promotes competencies required for various modes of mediated and non-mediated communication; and develops skills for analyzing, interpreting, and critiquing communication problems and questions. The curriculum is designed to enable students to develop the capacities to be knowledgeable and responsible producers and consumers of communication through engagement, critique, and creativity. The

programs of study offered by the department support a vision of citizen-scholars building a better North Carolina and world.

A new curriculum — launched in 2024–2025 — is intended to be more interdisciplinary, flexible, and student-centric. We are calling it a **pathways approach** to communication. We will continue to give students focused opportunities to engage with the department’s core areas of expertise — interpersonal and organizational communication, media art, media and technology studies, new media, performance studies, rhetoric, and writing for screen and stage — but the new curriculum allows students to bring these areas together in new combinations.

The new curriculum offers students five pathways they can pursue:

1. Communication and Everyday Life
2. Media Art, Performance, and Critical Practice
3. Media, Technology, and Public Culture
4. Organization, Communication, and Work
5. Rhetoric, Activism, and Advocacy

Details about the curriculum can be found on the Requirements tab.

Student Learning Outcomes

- An understanding of the major theories that define the field of communication and the relevance of these theories to sub-areas of the field. To demonstrate accomplishment of this objective, students should be able to
 - identify and apply major theories of communication
 - discuss the implications of selected communication theories for practice
 - describe the relevance of appropriate communication theories to the students’ chosen areas of focus and show how theories can be applied productively to those areas
- An understanding of appropriate research methods in the field of communication and the relevance of these methods to their sub-areas of the field. Specifically, students should demonstrate that they can
 - describe the fundamental procedures of research methods in communication
 - critically assess research procedures used in communication research
 - make a research argument
 - utilize research skills, including finding library and electronic sources, citing and documenting research materials, synthesizing and drawing conclusions from research, and organizing and presenting original research
 - describe how communication research methods may be used to answer research questions in the students’ chosen areas of specialization.
- A critical approach to the consumption and creation of communication in a communication rich and democratic environment. Specifically, students should demonstrate that they can
 - analyze and evaluate the use and meaning of visual, audio, and other sensory information and the way it conveys information to a viewer, reader, or listener
 - exhibit competence in oral, verbal, and written communication skills
 - critique and engage in performative and mediated forms of communication in “real world” contexts

- demonstrate knowledge of how communication practices may be used to transform and redefine specific communication situations (e.g., the use of communication strategies to resolve conflict in interpersonal, group, and organizational contexts).

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
COMM 100	Communication and Social Process	3
Three COMM courses at the 050-300 level within a chosen pathway (including a minimum of 2 starting point courses) ¹		9
Three COMM courses at the 400-600 level within a chosen pathway		9
Three COMM electives (at any level and within any pathway)		9
Additional Requirements		
The 10 courses (30 hours) should also be apportioned in the following ways:		
At least one Modes of Inquiry course (see options below).		
At least one Representation, Identity, and Difference course (see options below).		
At least one COMM Experience course (see options below). ²		
At least six courses from a single Pathway.		
A minimum of 10 COMM courses, except for those students pursuing the new media option described below.		
Total Hours		30

¹ Students can substitute a COMM FY-Seminar for a lower-level course in the Pathway.

² This is typically completed in the junior or senior year.

A maximum of 15 COMM courses (45 hours) may be applied toward the B.A. degree.

Students are invited to work closely with faculty members in courses and through independent study, co-curricular programs, and research projects. Many courses are also open to non-majors whose personal and professional goals require an understanding of human communication (consult course descriptions for restrictions).

Communication Studies (COMM) course descriptions (p.).

The major is organized according to five interdisciplinary pathways that guide students toward developing critical competencies and expertise in different facets of communication. Pathways are designed to be flexible, meaning that students have multiple options within each pathway and that pathways intersect with one another, allowing students to shift

from one pathway to another without needing to restart their journey. All pathways bring together the Department of Communication's disciplinary strength areas in Interpersonal and Organizational Communication, Media Art, Media and Technology Studies, Performance Studies, and Rhetoric.

The five pathways students may pursue are:

1. Communication and Everyday Life
2. Media Art, Performance, and Critical Practice
3. Media Technologies and Public Culture
4. Organization, Communication, and Work
5. Rhetoric, Activism, and Advocacy

Communication and Everyday Life

Students will explore the diversity of communicative experiences, practices and processes that permeate our daily lives. Here, the focus is on the practices of everyday life, interpersonal and small group interactions, the ubiquity of our engagement with popular culture, and increasingly our documentation of the seemingly mundane aspects of daily interactions and rituals on social media platforms, quotidian discourses and practices of identity, belonging and exclusion; the performativity of race, gender, and sexuality, citizenship, friendship, and family member, individualism and community membership; the significance of oral history and personal narrative. By focusing on the "everyday," students will focus on how communication is *lived*, and how it is also conditioned, structured and disciplined by structures of power, technological affordances, formations of community and learned aspects of cultural identity.

Code	Title	Hours
Pathway Starting Point Courses		
Students should select a minimum of two courses from the following list:		
COMM 113	Public Speaking	3
COMM 120	Introduction to Interpersonal and Organizational Communication ^{H, F}	3
COMM 130	Introduction to Media Production ¹	3
COMM 140	Introduction to Media History, Theory, and Criticism ^{H, F}	3
COMM 160	Introduction to Performance Studies ^H	3
COMM 171	Argumentation and Debate	3
COMM/WGST 224	Introduction to Gender and Communication ^{1,2, H}	3
COMM 249	Introduction to Communication Technology, Culture, and Society	3
COMM 260	Introduction to Performance and Social Change ²	3
COMM/MNGT 325	Introduction to Organizational Communication ^H	3
Additional Lower-Level Courses		
COMM 57	First-Year Seminar: Is There Life after College?: The Meaning of Work in Contemporary Life	3
COMM 73	First-Year Seminar: Understanding Place through Rhetoric ¹	3

COMM 75	First-Year Seminar: Researching Society and Culture ¹	3
COMM 85	First-Year Seminar: Think, Speak, Argue	3

Media Art, Performance, and Critical Practice

This pathway brings together a focused depth of study in the craft and aesthetics of artistic practice in Media Art, New Media, and Performance with a focus on the critical interventions the arts, storytelling, performance and media making have on society. It highlights the integral role that media art and performance play in our world – one that is committed to critical practice and formal experimentation. Courses in this pathway facilitate intellectual exchange and create community across artistic practices and with other forms of research and inquiry in the major. It centers this work as fundamental to the department's conceptualization of communication as engagement, creativity, and critique.

Code	Title	Hours
Pathway Starting Point Courses		
Students should select a minimum of two courses from the following list:		
COMM 130	 Introduction to Media Production ¹	3
COMM 140	 Introduction to Media History, Theory, and Criticism ^{H, F}	3
COMM 150	 Introduction to New Media ¹	3
COMM 160	 Introduction to Performance Studies ^H	3
COMM 224	Introduction to Gender and Communication ^{1,2, H}	3
COMM 260	 Introduction to Performance and Social Change ²	3
COMM 263	 Performing Literature ^{1, H}	3
COMM 330	 Introduction to Writing for Film and Television	3
Additional Lower-Level courses		
COMM 61	 First-Year Seminar: The Politics of Performance ²	3
COMM 62	 First-Year Seminar: African American Literature and Performance ²	3
COMM 63	 First-Year Seminar: The Creative Process in Performance	3
COMM 84	 First-Year Seminar: Make A Zine! Do-It-Yourself Writing, Publishing, and Distribution ¹	3
COMM 88	 First-Year Seminar: Technologies of Popular Culture	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Fulfills Modes of Inquiry requirement.

² Fulfills Representation, Identity, and Difference requirement.

³ Approved COMM Experience course.

⁴ With approval, based on topic.

Please note that enrollment in advanced media arts production classes, performance classes and screenwriting is limited, and many classes have prerequisites.

New Media

Students wishing to pursue the New Media Track should consult the departmental advisor.

Students in either the Media Art, Performance, and Critical Practice Pathway or the Media, Technology and Public Culture Pathway are eligible to pursue the New Media Track.

The track requires students complete COMM 100 and three starting point classes as core requirements, four additional courses from the chosen pathways, and two courses from outside the COMM Department. All requirements and options are listed below.

Code	Title	Hours
Core Requirements		
COMM 100	Communication and Social Process	3
COMM 150	 Introduction to New Media	3
COMM 250	Computational Art and Generative Media	3
COMP 110	 Introduction to Programming ^H	3
Select four (4) courses from one of the two pathway lists below.		12
Select two (2) additional courses outside the Department of Communication (see list below)		6
Total Hours		30

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Media Art, Performance, and Critical Practice Pathway Courses

Media, Technology, and Public Culture

By following this pathway, students will hone their critical digital literacy skills by exploring the myriad ways that technological systems shape social relations and experiences. Students will develop capacities focused on critical understandings of the economic, political, aesthetic, and cultural factors that shape media and technology's affordances, its uses, and its potential. This pathway will also invite inquiry into the production, negotiation, and contestation of cultural meanings and identities within media spaces. Students pursuing this pathway might seek out careers as media analysts, critics or producers working in the technology industry, or at think tanks, foundations, or in governmental organizations focusing on media law, policy, regulation, and user rights.

⁴ With approval, based on topic.

Organization, Communication, and Work

Students will explore how communicative practices construct cultural understandings of work, both currently and historically, and how work is conducted in a range of organizations. Students will develop capacities to use multi-level, multi-method analyses of organizing across work, community, and social change contexts, with a sustained focus on communication as constitutive of organizing. Students will explore topics such as globalization, work and identity, power and resistance, ethics, leadership, teamwork, democracy and citizenship, gender, race and class, and community-based organizing to produce responsible, ethical, and sustainable organizations. Students may pursue careers in public relations, strategic and corporate communication, consulting, social media, marketing, management, training and development, sales, and human resource management, among others.

Rhetoric, Activism, and Advocacy

Students will develop capacities focused on the role of communication to address current social, political, economic, technological, and environmental issues both locally and globally. Students will learn how to engage, critique, and create change in/through communication practices based on stakeholder engagement, deliberation and debate, facilitation and negotiation, dialogic communication, performativity, and rhetorical strategies using interpersonal, small-group, and mediated forms of communication. Students may pursue careers as mediators, negotiators, community organizers, communication experts, political strategists, and policy makers, among others, in non-profit organizations, think tanks, government agencies, and businesses.

Specialized Pathway in Communication Studies

Students may create their own pathways by selecting at least four courses that constitute a coherent program of study. The courses selected in this pathway must be justified by the student and must be approved by the director of undergraduate studies. Students creating

their own pathway will still be required to complete all other degree requirements for Communication Majors.

Modes Of Inquiry Courses

All Communication Majors must take a minimum of one Modes of Inquiry course in fulfillment of their degree. Students may take more than one such course (and depending on the pathway they pursue, may be required to take more than one). Modes of Inquiry courses exist at all levels of the Communication curriculum and across all pathways. A Mode of Inquiry course has a significant research methods and/or original research component built into the class. In Media Arts, New Media and Performance areas, this can also include a focus on learning how to use technology for the purposes of creative expression. Below is a list of Modes of Inquiry courses in Communication.

Code	Title	Hours
COMM 53	 First-Year Seminar: Collective Leadership Models for Community Change	3
COMM 73	 First-Year Seminar: Understanding Place through Rhetoric	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ With approval, based on topic.

Representation, Identity, and Difference Courses

All Communication Majors must take a minimum of one Representation, Identity, and Difference course in fulfillment of their degree. Students may take more than one such course (and depending on the pathway they pursue, may be required to take more than one). Representation, Identity, and Difference courses exist at all levels of the Communication curriculum and across all pathways. A Representation, Identity, and Difference course focuses primarily on communication practices and challenges as they intersect with concerns over equity, marginalization, and efforts to recognize, appreciate and attempt to bridge cross-cultural differences. This requirement prepares Communication Majors to be able to effectively engage with questions of representation, identity, and difference as these become increasingly central to interpersonal, cultural, political, social, and work interactions.

Code	Title	Hours
COMM 61	 First-Year Seminar: The Politics of Performance	3
COMM 62	 First-Year Seminar: African American Literature and Performance	3
COMM 82	 First-Year Seminar: Food Politics from an Organizational Communication Perspective	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ With approval, based on topic.

COMM Experience Courses

All Communication Majors must take one COMM Experience course in fulfillment of their degree. Students may take more than one such course. This course is intended to provide an opportunity to apply concepts learned in classes in real-world contexts through internships (including the Hollywood Internship Program), service learning courses, and independent study projects with community engaged focus, or through conducting original research in a capstone course or for an Honors thesis, or by creating original media and performance work through specialized classes or Honors theses. Students typically will fulfill this requirement in their Junior or Senior years. While the list below is not exhaustive, the COMM Experience requirement is typically fulfilled through one of the following options.

Code	Title	Hours
COMM 327	 Constructive Communication Conflict Across Contexts	3
COMM 378	 Environmental Filmmaking: Creative Production and Social Impact	3
COMM 393	 Internships	1-3

COMM 396	Independent Study and Directed Research ¹	1-3
COMM 426	 Communication and Community Work	3
COMM 473	 Advanced Public Speaking: Speaking in Community	3
COMM 475	 Fostering Civil Discourse: Reasoning Together for Common Good	3
COMM 537	Master Screenwriting	3
COMM 596	Advanced Independent Study/Directed Reading	1-3
COMM 625	 Communication and Nonprofits in the Global Context	3
COMM 644	 Documentary Production: First Person Filmmaking	3
COMM 647	 Advanced Projects in Media Production	3
COMM 693H	 Honors	3
COMM 694H	 Honors	3
COMM 695	Field Methods ¹	3
COMM 660	Advanced Projects in Performance Studies	3

¹ With approval, based on topic.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Rhetoric, Activism, and Advocacy Pathway

First Year	Hours
First-Year Foundation Courses

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Special Opportunities in Communication

Honors in Communication Studies

The department participates in the University's Honors Program. Students eligible for the program (see University requirements (p. 741)) may consult with the departmental honors advisor about enrolling in COMM 693H and COMM 694H, or COMM 691H and COMM 692H for honors students in cultural studies. These courses can be used for elective credit in the major but not for satisfying core course or concentration requirements. Additional information can be found on the department website (<http://comm.unc.edu/undergraduate-studies/honors-thesis/>).

Independent Study

The opportunity for independent study is available through enrollment in COMM 396 or COMM 596. Interested students should consult a faculty advisor in the department. Please see the department website (<http://comm.unc.edu/undergraduate-studies/independent-study/>) for details.

Internships

The department has an extensive internship program (<http://comm.unc.edu/undergraduate-studies/internships/>) in media-related industries, business, public service, and other organizations. Internships allow students to explore the relationship between communication theory and its practice in everyday life. Credit can be obtained through consultation with the internship advisor and enrollment in COMM 393. More than 100 organizations have participated in the program. The department also offers the Hollywood Internship Program, a summer study and work opportunity for selected students interested in pursuing careers in the film industry.

WUNC Radio and WUNC-TV

Limited opportunities exist for internships and employment with the public radio and television stations in Chapel Hill and in the Research Triangle Park.

Performance Opportunities

Students are involved in writing and adapting plays and screenplays, directing, and participating in staged productions for the public. Additionally, students often appear in regular performances sponsored by graduate students in the Department of Communication and in productions directed by faculty members.

Student Film Association (SFA)

About

This association is committed to enabling students in developing their cinematic craft. It accomplishes its mission by offering resources and guidance to students pursuing cinematic projects through self-contained or episodic forms.

Study Abroad

Students may take coursework toward the major through the University's study abroad program. Departmental approval for major credit is required.

Undergraduate Awards

The department offers a number of awards for leadership and contributions to the field, in all areas of specialization. Awards are presented at a department ceremony in the spring semester.

Screenwriting Minor

The minor in screenwriting is a two-year program housed in the Department of Communication that offers undergraduates from all departments the unique opportunity to focus specifically on the craft of dramatic writing. The minor is designed for students considering writing careers in film and television.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

There are two tracks in the Screenwriting Minor: the selective track (by application) and the open track (no application required).

Selective Track

The selective track is a by-application minor with a cohort structure. Accepted students take 3-4 courses with their cohort during a single academic year. To participate, a student must be on campus for one full year.

Candidates for the selective minor must be first-year, sophomore, or junior students with a 2.4 grade point average or better. Before applying to the selective track, students are required to take the starter course,

COMM 330 Introduction to Writing for Film and Television. (In rare cases, a student may be permitted to take COMM 330 as a co-req in their first semester in the selective minor, with permission of the Director.)

An application, due on March 1 of each year, is required for acceptance; please visit the Screenwriting Minor's website (<https://comm.unc.edu/undergraduate-studies/screenwriting-minor/>) to review this process. Continued participation in the minor is based on the student's work and the recommendation of the program's instructors.

Code	Title	Hours
Core Requirements		
COMM 330	 Introduction to Writing for Film and Television ¹	3
COMM 433	Intermediate Screenwriting ²	3
COMM 335	 Film Story Analysis (offered in spring only) ³	3
COMM 537	Master Screenwriting ⁴	3
COMM 600	Screenwriting: The Re-Write ⁵	3
Total Hours		15

¹ Fall of first year in the minor (if not already fulfilled).

² Fall of first year in the minor.

³ Or DRAM 120. Recommended in the spring of first year in the minor, but can be taken in any semester.

⁴ Spring of first year in the minor.

⁵ Fall of second year in the minor. Or any approved screenwriting elective (any semester).

Open Track

The open track version of the minor has no application. Students complete two required courses and three electives.

Code	Title	Hours
Core Requirements		
COMM 330	 Introduction to Writing for Film and Television	3
COMM 335	 Film Story Analysis	3
Three electives from the following options: ¹		9
COMM 337	 Visual Storytelling for Screenwriters	
COMM 334	Writing the One-Hour TV Drama	
COMM 331	Writing the Short Film	
COMM 390	Special Topics in Communication Study ²	
COMM 490	Special Topics in Communication Studies ²	
COMM 537	Master Screenwriting	
DRAM 120	 Play Analysis ^{H, F}	
DRAM 135	 Acting for Nonmajors	
DRAM 231	Playwriting I	
ENGL 259	 Improvisational Comedy Games for Writers	
ENGL 308	 Gram-O-Rama: Grammar in Performance	
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ At least two courses from the Department of Communication. One course may come from another department.

² Screenwriting topic; must be approved by the program director.

Department of Computer Science

Introduction

The Department of Computer Science offers instruction and performs research in the essential areas of computer science. Majors receive rigorous training in the foundations of computer science and the relevant mathematics, then have ample opportunity to specialize in advanced courses.

Majors can receive credit for practical training as a computing professional through an internship with a company or organization in the computing or information technology fields. Internships typically are paid positions and involve the student working off campus. All internships for credit must be approved in advance. Students interested in pursuing such an internship must submit a learning contract prior to the start

of the internship. See the department's website (<https://cs.unc.edu/undergraduate/learning-contracts/>) for additional information.

Majors who excel in the program also have the opportunity to perform undergraduate research in computer science. Students can receive credit for conducting research that can be applied to the upper division elective requirement for the major and/or may be used as a vehicle for graduating with department honors. Students interested in receiving credit for research must submit a learning contract prior to the start of the semester in which credit is earned. See the department's website (<https://cs.unc.edu/undergraduate/learning-contracts/>) for additional information.

Students with no prior programming experience should consider taking one of the introductory courses, COMP 110 or COMP 116. COMP 110 is intended for potential majors and COMP 116 for non-majors. Students with prior programming experience should begin their studies with COMP 210.

Advising

In addition to general advising through the Academic Advising Program (<https://advising.unc.edu/>), students can consult designated faculty members within the Department of Computer Science who act as departmental advisors for requirements specific to the department's degree programs. Beyond course selection, advisors are also available for discussing internships, study abroad in computer science, honors projects, and undergraduate research opportunities. See the department website (<https://cs.unc.edu/student-life/advising/>) for a list of current department advisors and walk-in advising times.

Majors

Professors

Stan Ahalt, Ron Alterovitz, James Anderson, Mohit Bansal, Samarjit Chakraborty, Prasun Dewan, Henry Fuchs, Kevin Jeffay, Jasleen Kaur, Xiaoming Liu, Ketan Mayer-Patel, Stephen M. Pizer, Donald Porter, Jack Snoeyink, David Stotts.

Associate Professors

Snigdha Chaturvedi, Leonard McMillan, Shahriar Nirjon, Junier Oliva, Montek Singh, Cynthia Sturton, Daniel Szafrir, Danielle Szafrir.

Assistant Professors

Benjamin Berg, Gedas Bertasius, Praneeth Chakravarthula, Tianlong Chen, Zhun Deng, Mingyu Ding, Parasara Sridhar Duggirala, Saba Eskandarian, Sishuai Gong, Andrew Kwong, Julia Len, Raghavendra Pothukuchi, Zhongzheng Ren, Roni Sengupta, Shashank Srivastava, Natalie Stanley, Huaxiu Yao.

Research Professors

Jay Aikat, Jan-Michael Frahm, Ashok Krishnamurthy, David Luebke, Dinesh Manocha, David A. Plaisted, Diane Pozefsky, Michael K. Reiter, F. Donelson Smith, P.S. Thiagarajan, Mary C. Whitton.

Research Associate Professor

Martin Styner.

Adjunct Professors

J. Steven Marron, Marc Niethammer, Julian Rosenman, Dinggang Shen, Alexander Tropsha, Gregory F. Welch, Turner Whitted, Hongtu Zhu.

Adjunct Associate Professors

Jaime Arguello, Stephen Aylward, Tamara L. Berg, David Gotz, Guorong Wu, Pew-Thian Yap.

Adjunct Assistant Professors

Neil S. Gaikwad, Harlin Lee, Yun Li, Beatriz Paniagua, Quoc Tran-Dinh.

Adjunct Research Professor

Russell M. Taylor II.

Teaching Professor

Tessa Joseph-Nicholas.

Teaching Associate Professors

Sayeed Ghani, Brent Munsell.

Teaching Assistant Professors

Prairie Rose Goodwin, Isabella Hinks, Alyssa Lytle, Connor McMahon, Kaki Ryan, Jorge Silva, Kevin Sun.

Professors of the Practice

Kris Jordan, Richard Marks, Mike Reed.

Professors Emeriti

Gary Bishop, Peter Calingaert, John Halton, Anselmo Lastra, Ming C. Lin, John B. Smith, Donald F. Stanat, Stephen Weiss, William Wright.

Computer Science Major, B.A.

The bachelor of arts degree with a major in computer science will prepare students for a career in either a traditional computing field or a field in which computing is a significant enabling technology. The B.A. degree is the preferred degree for those who wish more flexibility in their program of study.

Admission to the Major

The demand for concentrating in a computer science program has grown significantly at UNC–Chapel Hill over the past decade. In order to maintain the quality of educational experiences that Carolina students studying computer science deserve, we must restrict the number of students majoring in computer science relative to our faculty size’s ability to sustain the programs.

Those wishing to concentrate in computer science must be admitted to a major program (B.A. or B.S.). Students are eligible to apply in the semester after completing or while currently enrolled in COMP 210. Students who are not admitted to the program can continue in the introductory course sequence with COMP 301 and COMP 211 in order to apply again or as part of completing the CS minor. Students who are admitted to the program have priority access to upper-division electives to complete their degree programs. Please see the department’s website (<https://cs.unc.edu/undergraduate/cs-admissions/>) for the most up-to-date information about admission to the major process.

Student Learning Outcomes

Upon completion of the computer science program (B.A.), students should be able to:

- Understand major concepts, theoretical perspectives, empirical findings, and historical trends in the core of computer science
- Gain employment in highly competitive industries and companies and be successful in those positions
- Use critical and creative thinking skills in their approach to analyzing and solving computational problems
- Apply their knowledge in the completion of a significant real-world experience

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Gateway Course		
COMP 110	 Introduction to Programming ^H	3

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The following is a suggested four-year plan of study for B.A. majors.

First Year		Hours
First-Year Foundation Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F		3
IDST 111L	 Data Literacy Lab	1
Global Language through level 3 (p. 670)		varies
Major Courses		
COMP 110	 Introduction to Programming (if needed) ^H	3
COMP 283	 Discrete Structures ^H	3
or	or Discrete Mathematics	
MATH 381	or  Discrete Mathematics for Data Science	
or		
STOR 315		
COMP 210	Data Structures and Analysis	3
MATH 231	 Calculus of Functions of One Variable I (fulfills FC-QUANT) ^{H, F}	4
Additional Courses		
Lifetime Fitness (p. 735)		1
Electives or IDEAs in Action Requirements		8
Hours		30
Sophomore Year		
COMP 211	Systems Fundamentals	3
COMP 301	Foundations of Programming	3
COMP 311	Computer Organization	3
An appropriate physical and life sciences IDEAs in Action course		4
Two additional IDEAs in Action courses		6
Free elective		11
Hours		30
Junior Year		
STOR 155	 Introduction to Data Models and Inference ^{H, F}	3
Three upper division COMP electives or approved non-COMP electives		9
Four additional IDEAs in Action courses		12
Two supplemental General Education courses		6
Hours		30
Senior Year		
Three COMP courses numbered 420 or higher		9
One Supplemental General Education course		3
IDEAs in Action and free elective courses		18
Hours		30
Total Hours		120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Notes on the Suggested Plan of Study

A first formal course in computer programming (such as COMP 110) is a prerequisite for COMP 210. Students with no programming experience should begin their program of study with COMP 110. Students who are unsure if their background preparation enables them to begin their studies with COMP 210 are encouraged to consult a departmental advisor. Placement exams for COMP 110 and COMP 210 may be available, please consult the department's website.

Students are required to apply for the major in the semester when taking COMP 210. The plan of study reflects applying at the end of the first year and presumes acceptance into the program.

This plan of study further assumes that students will place out of Global Language 1. If this is not the case, then the student should start with Global Language 1 (and have one fewer free elective in the senior year).

Special Opportunities in Computer Science

Honors in Computer Science

Students are eligible for graduation with honors if they complete the following requirements:

- A cumulative grade point average of 3.3 or better
- A grade point average of 3.3 or better from among the set of COMP, MATH, PHYS, and STOR courses taken to fulfill the graduation requirements for the major
- Graduation with honors requires the completion of two semesters of research (COMP 691H and COMP 692H). As part of COMP 692H, students must submit a written honors thesis and complete an oral public presentation of the thesis. Graduation with highest honors in computer science is possible for those students whose honors project and thesis are judged by a faculty committee to be particularly distinguished.

Students interested in pursuing honors in computer science are encouraged to contact the director of undergraduate studies.

High-Impact Experiences

Courses arranged in advance with a supervising faculty member offer a number of high-impact experiences. These courses include:

- COMP 227, earning credit for serving as an undergraduate learning assistant;
- COMP 293, earning credit for appropriate work experience;
- COMP 495, conducting mentored research with a faculty member;
- and study abroad while earning credit that counts toward the major (see below).

Assistantships and Internships

In addition to their classroom experiences, undergraduates may enhance their learning experience as research assistants or learning assistants. Students also can participate in nationally recognized research programs

or use the department's facilities to pursue self-directed research with a faculty member.

Work-study students can gain valuable work experience as assistants on the department's computer services staff or on development or research activities with faculty. The department also encourages students to pursue internship experiences. Carolina's proximity to Research Triangle Park means that computer science majors have many internship and postgraduation opportunities available in their own backyard.

Study Abroad

Study abroad opportunities with priority for computer science students are offered through a number of international institutions including the National University of Singapore (NUS) School of Computing, Lancaster University, Trinity University–Dublin, University of New South Wales, and Seoul National University. Study abroad at NUS is eligible for the Phillips Ambassadors Scholarship. Please see the Phillips Ambassadors website (<http://phillips.unc.edu>) for more information. Availability of these programs may vary and additional programs may be available. Application for study abroad is through the University's Study Abroad Office.

Study abroad satisfies the High-Impact Experience requirement of the IDEAs in Action undergraduate curriculum. Up to two computer science courses taken at these institutions may be counted toward the major as computer science electives beyond the introductory sequence. Specific course equivalencies for some programs are posted on the department's website (<https://cs.unc.edu/>). Students interested in taking a course not listed should contact the director of undergraduate studies before registering for courses at the school.

Undergraduate Awards

The department awards two yearly prizes to computer science majors. In conjunction with SAS Institute, the department annually presents the Charles H. Dunham Scholarship. The Dunham scholarship includes a scholarship and a summer internship at SAS and is awarded in the fall semester to a student in their junior year. The department also annually presents the Stephen F. Weiss Award for Outstanding Achievement in Computer Science, which includes a cash prize. The Weiss award is presented to a student in the spring of their senior year.

Computer Science Major, B.S.

The bachelor of science with a major in computer science is the preferred degree both for graduate study in computer science and for technical careers in software development, computational science, networking, information systems, and electronic commerce. Graduates of the program are well-suited for professional employment in traditional computer and communications industries, as well as in such diverse industries as financial services and consulting practices in which computing and information management are central to the operation of the enterprise. Students who desire a more in-depth knowledge of computing have the option of receiving a bachelor's degree and a master's degree in as few as five years.

Admission to the Major

The demand for concentrating in a computer science program has grown significantly at UNC–Chapel Hill over the past decade. In order to maintain the quality of educational experiences Carolina students studying computer science deserve, we must restrict the number of students majoring in computer science relative to our faculty size's ability to sustain the programs.

Those wishing to concentrate in computer science must be admitted to a major program (B.A. or B.S.). Students are eligible to apply in the semester after completing or while currently enrolled in COMP 210. Students who are not admitted to the program can continue in the introductory course sequence with COMP 301 and COMP 211 in order to apply again or as part of completing the computer science minor. Students who are admitted to the program have priority access to upper-division electives to complete their degree programs. Please see the department's website (<https://cs.unc.edu/undergraduate/cs-admissions/>) for the most up-to-date information about the admission to the major process.

Student Learning Outcomes

Upon completion of the computer science program (B.S.), students should be able to:

- Understand major concepts, theoretical perspectives, empirical findings, and historical trends in the core of computer science
- Gain technical employment in computing or related fields, or gain admission to high-quality graduate programs, either in computing or related professions

- Use critical and creative thinking skills in their approach to analyzing and solving computational problems
- Apply their knowledge, research skills, and critical thinking in the completion of a significant research project

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Gateway Course		
COMP 110	 Introduction to Programming ^H	3
Core Requirements		
COMP 210	Data Structures and Analysis ¹	3
COMP 211	Systems Fundamentals ¹	3
COMP 301	Foundations of Programming ¹	3
COMP 311	Computer Organization ¹	3
COMP 283	 Discrete Structures ^{1, H}	3
or MATH 381	Discrete Mathematics	
or STOR 315	 Discrete Mathematics for Data Science	
COMP 455	Models of Languages and Computation	3
COMP 550	 Algorithms and Analysis	3
Five additional three-or-more credit hour COMP courses numbered 420 or higher (excluding COMP 496 and COMP 692H). ²		15
Additional Requirements		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{1, H}	4
or STOR 235	 Mathematics for Data Science	
MATH 347	 Linear Algebra for Applications ^F	3
or MATH 577	Linear Algebra	
STOR 435	Introduction to Probability ^H	3
or STOR 535	Probability for Data Science

PHYS 115	 General Physics II: For Students of the Life Sciences ^F
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{H, F}
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta ^{H, F}
PHYS 451	Electronics I
PHYS 452	Electronics II

B.S. majors in computer science must fulfill all IDEAs in Action General Education requirements.

Total Hours 65

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A grade of C or better is required in each of COMP 283 (or MATH 381 or STOR 315), COMP 210, COMP 211, COMP 301, COMP 311, MATH 233 (or STOR 235), and the two science courses.

² Graduate level courses (600 or higher) other than COMP 790 may be counted towards this requirement. COMP 790 courses are generally seminar courses that are not appropriate for this requirement and may only be counted with the approval of the director of undergraduate studies.

Computer science (COMP) course descriptions (p.).

Pathways shown below are suggested collections of upper division electives most related to each area.

Artificial Intelligence

Code	Title	Hours
Recommended background: MATH 233, MATH 347, and STOR 435		
COMP 486	Applications of Natural Language Processing	3
COMP 560	Artificial Intelligence	3
COMP 562	Introduction to Machine Learning ^H	3
COMP 577	Introduction to Computer Vision	3

COMP 586	Natural Language Processing	3
COMP 581	Introduction to Robotics ^H	3
COMP 664	Deep Learning	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Graphics and Game Development

Code	Title	Hours
Recommended background: MATH 347 or MATH 577		
COMP 475	2D Computer Graphics	3
COMP 572	Computational Photography	3
COMP 575	Introduction to Computer Graphics	3
COMP 577	Introduction to Computer Vision	3
COMP 651	Computational Geometry	3

Human-Computer Interaction

Code	Title	Hours
COMP 426	Modern Web Programming	3
COMP 616	Information Visualization	3
COMP 617	Visualization Design Methods	3

Mobile and Embedded Systems Engineering

Code	Title	Hours
COMP 433	Mobile Computing Systems	3
COMP 530	Operating Systems ^H	3
COMP 533	Distributed Systems and Concurrent Programming	3
COMP 545	Programming Intelligent Physical Systems ^H	3
COMP 581	Introduction to Robotics ^H	3
COMP 635	Wireless and Mobile Communications	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Security and Privacy

Code	Title	Hours
COMP 431	Internet Services and Protocols	3
COMP 435	Computer Security Concepts	3
COMP 437	Privacy Enhancing Technologies	3
COMP 537	Cryptography ^H	3
COMP 637	 Formal Methods for System Security	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Software Engineering

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The following is a suggested plan of study for B.S. majors.

First Year		Hours
First-Year Foundation Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F		3

IDST 111L	 Data Literacy Lab	1
Global Language through level 3 (p. 670)		varies
Major Courses		
COMP 110	 Introduction to Programming ^H	3
COMP 210	Data Structures and Analysis	3
COMP 283	 Discrete Structures ^H	3
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
Additional Courses		
Additional General Education courses		9
Hours		30
Sophomore Year		
COMP 211	Systems Fundamentals	3
COMP 301	Foundations of Programming	3
COMP 311	Computer Organization	3
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^H	4
Two science courses (see requirement course list)		8
Two additional General Education courses		6
Hours		31
Junior Year		
COMP 455	Models of Languages and Computation	3
COMP 550	 Algorithms and Analysis	3
MATH 347	 Linear Algebra for Applications ^F	3
STOR 435	Introduction to Probability ^H	3
Two courses numbered COMP 420 or greater		6
Two additional General Education courses		6
Hours		30
Senior Year		
Three courses numbered COMP 420 or greater		9
General Education and free elective courses		20
Hours		29
Total Hours		120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Notes on the Suggested Plan of Study

A first formal course in computer programming (such as COMP 110) or equivalent experience is a prerequisite for COMP 210. Students with no programming experience should begin their program of study with COMP 110. Students who are unsure if their background preparation enables them to begin their studies with COMP 210 are encouraged to consult a departmental advisor. Placement exams for COMP 110 and COMP 210 may be available, please consult the department’s website.

Students are required to apply for the major in the semester when taking COMP 210. The plan of study reflects applying at the end of the first year and presumes acceptance into the program.

This plan of study further assumes that students will place out of Global Language 1. If this is not the case, then the student should start with Global Language 1 (and have one fewer free elective).

Special Opportunities in Computer Science

Honors in Computer Science

Students are eligible for graduation with honors if they complete the following requirements:

- A cumulative grade point average of 3.3 or better
- A grade point average of 3.3 or better from among the set of COMP, MATH, PHYS, and STOR courses taken to fulfill the graduation requirements for the major
- Graduation with honors requires the completion of two semesters of research (COMP 691H and COMP 692H). As part of COMP 692H, students must submit a written honors thesis and complete an oral public presentation of the thesis. Graduation with highest honors in computer science is possible for those students whose honors project and thesis are judged by a faculty committee to be particularly distinguished.

Students interested in pursuing honors in computer science are encouraged to contact the director of undergraduate studies.

High-Impact Experiences

Courses arranged in advance with a supervising faculty member offer a number of high-impact experiences. These courses include:

- COMP 227, earning credit for serving as an undergraduate learning assistant;
- COMP 293, earning credit for appropriate work experience;
- COMP 495, conducting mentored research with a faculty member;
- and study abroad while earning credit that counts toward the major (see below).

Assistantships and Internships

In addition to their classroom experiences, undergraduates may enhance their learning experience as research assistants or learning assistants. Students also can participate in nationally recognized research programs or use the department's facilities to pursue self-directed research with a faculty member.

Work-study students can gain valuable work experience as assistants on the department's computer services staff or on development or research activities with faculty. The department also encourages students to pursue internship experiences. Carolina's proximity to Research Triangle Park means that computer science majors have many internship and postgraduation opportunities available in their own backyard.

Study Abroad

Study abroad opportunities with priority for computer science students are offered through a number of international institutions including the National University of Singapore (NUS) School of Computing, Lancaster University, Trinity University–Dublin, University of New South Wales, and Seoul National University. Study abroad at NUS is eligible

for the Phillips Ambassadors Scholarship. Please see the Phillips Ambassadors website (<http://phillips.unc.edu>) for more information. Availability of these programs may vary and additional programs may be available. Application for study abroad is through the University's Study Abroad Office.

Study abroad satisfies the High-Impact Experience requirement of the IDEAs in Action undergraduate curriculum. Up to two computer science courses taken at these institutions may be counted toward the major as computer science electives beyond the introductory sequence. Specific course equivalencies for some programs are posted on the department's website (<https://cs.unc.edu/>). Students interested in taking a course not listed should contact the director of undergraduate studies before registering for courses at the school.

Undergraduate Awards

The department awards two yearly prizes to computer science majors. In conjunction with SAS Institute, the department annually presents the Charles H. Dunham Scholarship. The Dunham scholarship includes a scholarship and a summer internship at SAS and is awarded in the fall semester to a student in their junior year. The department also annually presents the Stephen F. Weiss Award for Outstanding Achievement in Computer Science, which includes a cash prize. The Weiss award is presented to a student in the spring of their senior year.

Dual Bachelor's–Master's Degree Program

Students in the B.S. degree program with a GPA of 3.2 or better after five or more semesters of study have the option of applying to the dual B.S.–M.S. program at UNC–Chapel Hill to pursue graduate coursework leading to the degree of master of science. Such students must complete the requirements for the bachelor of science degree within eight semesters. Upon completion of the B.S. degree, students then enroll as a graduate student to continue work towards the master of science degree. Students are eligible to apply when they are within two semesters of completing their B.S. degree program requirements. Please see <https://cs.unc.edu/undergraduate/degrees/#BSMS> for application instructions.

The requirements for the master of science degree can be found in the *Graduate Catalog*. Generally, the master's degree requires 30 additional hours of computer science coursework. Up to nine credit hours of computer science coursework taken while an undergraduate can be applied to the master's degree if the coursework is not also used to satisfy the graduation requirements for the bachelor's degree. The requirements for the master's can be completed in as few as two additional semesters, for a total of 10 semesters of study.

Computer Science Minor

The minor in computer science provides solid background for students choosing to pursue other major fields. The computer science minor program is available to all students, and does NOT require an application. Completion of the minor, however, is subject to course availability. Registration preference for majors ahead of minor-intending students may limit the choice of upper division electives available to complete the minor.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

A student may minor in computer science by completing six courses within these restrictions:

Code	Title	Hours
Gateway Course		
COMP 110	 Introduction to Programming ^H	3
Core Requirements		
COMP 210	Data Structures and Analysis ¹	3
COMP 211	Systems Fundamentals ¹	3
COMP 301	Foundations of Programming ¹	3
Two courses from the following options:		6
COMP 311	Computer Organization	

COMP courses 420 or greater excluding COMP 495, COMP 496, COMP 691H, and COMP 692H

Total Hours **18**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Course requires a prerequisite(s) not otherwise counting in the minor. Please review prerequisite information carefully.

Alternatives to these requirements must be approved by the director of undergraduate studies.

Department of Dramatic Art
Introduction

The study of dramatic art focuses upon the dramatic texts of the classical and modern periods from across the globe and introduces the student to the variety of artistic endeavors necessary to realize the text in theatrical performance. Majors concentrate on the literature and

history of the theatre while investigating the processes involved in acting, directing, design, costume, and technical production.

Courses focus on the connections between theatre and society, between theatrical performance and the visual arts, and between dramatic literature and philosophy, history, and other literary forms. The study of theatre embraces a range of subjects in the humanities and fine arts, including literature, language, aesthetics, culture, and performance.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. Every student whose primary major is dramatic art will also be assigned a departmental advisor, beginning in the semester that 60 hours will be completed. The department's director of undergraduate studies and undergraduate advisor work with current and prospective majors by appointment. Please contact the department at CB# 3230, (919) 962-1132. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<http://drama.unc.edu/>).

Facilities

The Department of Dramatic Art's offices, classrooms, studios, rehearsal hall, and construction shops are located in the Joan H. Gillings Center for Dramatic Art. Each year the Department of Dramatic Art's Kenan Theatre Company (KTC) supports four full productions in the Elizabeth Price Kenan Theatre. The Department also sponsors a variety of other productions such as student-directed work in the smaller classroom environment. The department provides showcase venues for new student writing, including readings and fully produced plays that are developed in DDA classes or through DDA sponsored programs.

Graduate School and Career Opportunities

The dramatic art major is associated with a variety of career opportunities, including graduate study, public relations, communications, arts management, public service, teaching, and theatre-related careers, including literary management, stage management, acting, design, publicity, marketing, fund-raising, technical production, sound and lighting technology, box office management, costuming, electrics, and stage craft.

Dramatic Art Major, B.A.

The study of dramatic art focuses on dramatic texts of the classical and modern periods from across the globe and introduces the student to the variety of artistic endeavors necessary to realize the text in theatrical performance. Majors concentrate on the literature and history of the theatre while investigating the processes involved in acting, directing, design, costume, and technical production.

Courses focus on the connections between theatre and society, between theatrical performance and the visual arts, and between dramatic

literature and philosophy, history, and other literary forms. The study of theatre embraces a range of subjects in the humanities and fine arts, including literature, language, aesthetics, culture, and performance.

Student Learning Outcomes

Upon completion of the dramatic art program, students should be able to:

- Analyze a play through identification and evaluation of its dramatic structure, character, language, genre, action, and themes
- Demonstrate critical thinking skills and the ability to write cogently about creative, artistic process of theatre, its literature, and its history
- Recognize and comprehend the impact of culture, society, and language on drama
- Demonstrate proficiency in the basic skills of a particular area of dramatic practice (e.g., acting, direction, or design)
- Employ problem-solving skills in various aspects of theatrical production

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
DRAM 120	 Play Analysis ^{1, H, F}	3
Three courses in dramatic literature/theatre history/criticism:		9
DRAM 220	 Theatre Histories ²	
And two courses chosen from:		
DRAM 281	 Theatre History and Literature I	
DRAM 282	 Theatre History and Literature II	
DRAM 283	 Theatre History and Literature III	
DRAM 284	Studies in Dramatic Theory and Criticism ^H	
DRAM 285	 Modern British Drama ^H	
DRAM 287	 African American Theatre	
DRAM 292	 "Corner of the Sky": The American Musical	
DRAM 294	 Arts Criticism	
DRAM 486	 Latin American Theatre	
DRAM 488	 United States Latino/a Theatre	
AAAD 334	Performing African American History	
AAAD 344	African American Theatre: Exploring Legacy and Contemporary Voices	
ASIA 163	 Hindi-Urdu Poetry in Performance	
ASIA 332	 The Story of Rama in India	

ASIA 382	 The Story of Rama in Indian Culture–Experiential	
ASIA 383	 The Mahabharata: Remembered and Reimagined–Experiential	
CHIN 361	 Chinese Traditional Theater	
Three foundational courses in acting, design, and directing:		
DRAM 150	 Beginning Acting for the Major	3
DRAM 277	 Introduction to Theatrical Design	3
DRAM 300	 Directing	3
One course in technical production or costume production:		
DRAM 191	 Technical Methods: Scenery	3
or DRAM 192	 Technical Methods: Costume	
Production Practicum:		
DRAM 193	 Production Practicum (with PlayMakers Repertory Company; transfer credit not allowed.) ³	3
Total Hours		27

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students planning to major in dramatic art should complete DRAM 120 preferably during their first year as it is the pre-requisite for the rest of the major.

² DRAM 220 is the pre-requisite for the rest of the dramatic literature/theatre/history/criticism courses.

³ This course fulfills the High Impact Gen Ed requirement in the IDEAs in Action curriculum and the experiential education Gen Ed requirement in the Making Connections curriculum.

The major provides a broad basis for understanding and appreciating theatre as a cultural entity and as an artistic process. The program also provides opportunities for students to learn and develop basic skills in the various areas of theatre practice. All General Education requirements apply.

Because the College of Arts and Sciences allows a total of 45 credit hours (15 three-hour courses) in a student’s major to count toward graduation, as many as six electives can be selected from the range of offerings in the department. Students may choose to concentrate on an area (or areas) of special interest within the major: acting, directing, voice, movement, technical production, design (scenic, costume, sound, and lighting), costume history, costume construction, dramatic literature and criticism, dramaturgy, stage management, theatre management, and playwriting.

Students majoring in dramatic art cannot pursue the minor in dramatic art.

Special Opportunities in Dramatic Art Honors in Dramatic Art

In order to receive departmental honors, students must have a 3.3 overall grade point average, a 3.6 grade point average in dramatic art, and complete at least five of the eight core courses in the major by the end of the junior year. Students enroll in DRAM 691H (three hours credit) and DRAM 692H (three hours credit) during their senior year and complete a special project (essay or creative endeavor) approved by the department. A student may then be designated as a candidate for undergraduate honors or highest honors based on department review of the special project or performance.

Departmental Involvement

Two undergraduate students are elected each year from among the majors to serve as representatives to the faculty. They attend faculty meetings and host events that bring students and faculty together.

Performance/Production Opportunities

The Department of Dramatic Art's Kenan Theatre Company (KTC), offers many opportunities for interested students — majors and nonmajors alike — to participate in performance and production. Each year the department supports four full productions in the Elizabeth Price Kenan Theatre. Seasons may include classic plays, contemporary plays, musicals, and original works. The director of undergraduate production and a board of undergraduate students fill leadership roles within KTC and oversee the department season. Productions are directed by faculty or guest artists. Undergraduate students are involved in the technical components of production as designers, carpenters, painters, electricians, costumers, and sound engineers. The KTC board typically includes producers, a publicity team, prop supervisor, wardrobe supervisor, master electrician, and a technical director for the entire season. Designers are selected on a per-show basis and can include undergraduates, graduate students, and faculty members.

PlayMakers Repertory Company

Named one of America's "best regional theaters" by American Theatre Magazine, PlayMakers Repertory Company is North Carolina's premiere professional theater company, located in the Joan H. Gillings Center for Dramatic Art. With reduced rate student ticket prices available for all shows, and unique opportunities to observe, work alongside and learn from professional theater artists throughout the year, PlayMakers serves as a hands-on research laboratory and educational resource to both undergraduate and graduate students. PlayMakers rehearsals are open to the entire UNC community, and company members strive to make themselves available for student mentoring. Undergraduate performers are invited to audition for supporting and understudy roles in PlayMakers productions twice a year. Undergraduates can also contribute backstage, running crew for PlayMakers' shows, serving as assistant directors, stage managers or technicians alongside industry experts, or working as interns in the theatre's administrative offices. PlayMakers makes available to every UNC student the experience of working for an award-winning professional theatre.

Study Abroad

With more than 300 programs available in 70 countries, there are many international experiences structured to enhance the student's undergraduate career. Major and minor credit is available as well as General Education credit. Departmental approval for theatre courses is

arranged with the director of undergraduate studies and is coordinated by the Study Abroad Office.

Specific study abroad opportunities for dramatic art students include, but are not limited to, semester or yearlong exchange programs at Trinity College Dublin, the National University of Ireland in Galway, the University of Glasgow, and Queens University Belfast. Students can also spend the summer or a semester with programs at the London Academy of Music and Dramatic Art (LAMDA) and the Gaiety School of Acting, Dublin.

Students are also eligible for the Elizabeth Malone Roughton Study Abroad Scholarship, a scholarship awarded to a dramatic art student studying in Ireland for a semester and completing a theatre-related internship as part of the program, and for three Joan H. Gillings Study Abroad Scholarships for drama majors and minors completing a theatre-related program for either semester or year-long study abroad.

Undergraduate Awards

Each spring the Department of Dramatic Art awards several monetary prizes to its undergraduate majors (and graduate students) who are continuing into the next academic year. The prizes have been endowed by generous alumni and friends, including Andy Griffith and George Grizzard. In addition, the Sam Selden Prize in Playwriting, the Wes Egan Award in Design, and the Lillian Chason Scholarship are awarded competitively each year.

Undergraduate Research

Faculty and departmental advisors are available to help students define areas of interest, understand the existing knowledge base in a particular area, and develop a plan for meaningful undergraduate research. These goals can be realized through departmental independent study and honors research. See the director of undergraduate studies and the honors advisor for more information. Additional resources are available through the Office for Undergraduate Research (<https://our.unc.edu/>).

Dramatic Art Minor

The study of dramatic art focuses on dramatic texts of the classical and modern periods from across the globe and introduces the student to the variety of artistic endeavors necessary to realize the text in theatrical performance.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor in dramatic art consists of four or five courses, depending on the concentration:

Dramaturgy

Code	Title	Hours
Core Requirements		
DRAM 120	 Play Analysis ^{H, F}	3
DRAM 220	 Theatre Histories	3
Three courses chosen from:		9
DRAM 281	 Theatre History and Literature I	
DRAM 282	 Theatre History and Literature II	
DRAM 283	 Theatre History and Literature III	
DRAM 284	Studies in Dramatic Theory and Criticism ^H	
DRAM 285	 Modern British Drama ^H	
DRAM 287	 African American Theatre	
DRAM 288	 Theatre for Social Change	
DRAM 292	 "Corner of the Sky": The American Musical	
DRAM 294	 Arts Criticism	
DRAM 486	 Latin American Theatre	
DRAM 488	 United States Latino/a Theatre	
AAAD 334	Performing African American History	
AAAD 344	African American Theatre: Exploring Legacy and Contemporary Voices	
ASIA 163	 Hindi-Urdu Poetry in Performance	
ASIA 332	 The Story of Rama in India	

ASIA 382	 The Story of Rama in Indian Culture—Experiential	
ASIA 383	 The Mahabharata: Remembered and Reimagined—Experiential	
CHIN 361	 Chinese Traditional Theater	
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Theatrical Design

Code	Title	Hours
Core Requirements		
DRAM 120	 Play Analysis ^{H, F}	3
DRAM 220	 Theatre Histories	3
Three courses chosen from:		9
DRAM 277	 Introduction to Theatrical Design	
DRAM 365	 Introduction to Projection Design and Mapping	
DRAM 465	 Sound Design	
DRAM 466	 Scene Design	
DRAM 467	 Costume Design I	
DRAM 468	 Lighting Design I	
DRAM 470	Survey of Costume History ^H	
DRAM 666	 Media in Performance	
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Theatrical Production

Code	Title	Hours
Core Requirements		
DRAM 191	 Technical Methods: Scenery (related to area of concentration)	3
or DRAM 192	 Technical Methods: Costume	
Three courses chosen from:		9
DRAM 193	 Production Practicum	
DRAM 277	 Introduction to Theatrical Design	

DRAM 365	 Introduction to Projection Design and Mapping
DRAM 460	 Stage Management
DRAM 465	 Sound Design
DRAM 466	 Scene Design
DRAM 467	 Costume Design I
DRAM 468	 Lighting Design I
DRAM 666	 Media in Performance
Total Hours	12

Theatre Management

Code	Title	Hours
Core Requirements		
DRAM 193	 Production Practicum (related to area of concentration)	3
DRAM 279	Introduction to Theatre Management	3
DRAM 491	Issues in Arts Management	3
DRAM 493	 Theatre Management	3
Students pursuing the theatre management concentration are strongly encouraged to complete a fifth elective course chosen from:		
ECON 101	 Introduction to Economics ^{H, F}	
BUSI 405	 Leading and Managing: An Introduction to Organizational Behavior	
BUSI 406	Marketing	
Total Hours		12

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Musical Theatre Performance Minor

The minor in musical theatre performance, a joint program in the Department of Music and the Department of Dramatic Art, provides students with opportunities to improve their abilities in musical theatre performance. The minor has three components including acting literacy, music literacy, and movement literacy.

Students will have ample opportunity for performance experience through the department's and student group productions.

The minor has three tracks, depending on the student's major status:

1. Music track (taken by students pursuing the dramatic art major or music majors in instruments other than voice)
2. Dramatic track (taken by students pursuing the music major)
3. Hybrid track (taken by students pursuing a double major in dramatic art and music, or by students majoring in other disciplines)

Departmental advising is available for students with questions about course and program expectation and opportunities, both on campus and in the professional world.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor requires 15 credit hours. Students can pursue one of three tracks.

Music Track

Code	Title	Hours
Core Requirements		
DRAM/MUSC 151	 Introduction to the American Stage Musical	3
At least 4 hours in Music Literacy:		4
MUSC 102	Individual Voice Lessons	
MUSC 111	Group Lessons in Voice	
MUSC 121	 Fundamentals of Tonal Music I	
MUSC 202	Advanced Individual Lessons in Voice ^H	

At least 4 hours in Movement Literacy:	4
EXSS 10	Beginning Ballet
EXSS 11	Introduction to Dance Technique
EXSS 12	Beginning Modern Dance
EXSS 20	Intermediate Ballet
EXSS 22	Intermediate Modern Dance
EXSS 30	Advanced Ballet
DRAM 154	Performers' Awareness
DRAM 155	Movement for the Actor
The remaining 4 hours can come from either list above or from the Acting Literacy list below:	4
DRAM 144	Acting the Song
Total Hours	15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Students in the music track may not also pursue the music major (B.A., B.Mus) in voice or the music minor.

Dramatic Track

Code	Title	Hours
Core Requirements		
DRAM/MUSC 151	 Introduction to the American Stage Musical	3
At least 4 hours in Acting Literacy:		4
DRAM 135	 Acting for Nonmajors	
DRAM 140	Voice Training I	
DRAM 144	Acting the Song	
At least 4 hours in Movement Literacy:		4
EXSS 10	Beginning Ballet	
EXSS 11	Introduction to Dance Technique	
EXSS 12	Beginning Modern Dance	
EXSS 20	Intermediate Ballet	
EXSS 22	Intermediate Modern Dance	
EXSS 30	Advanced Ballet	
DRAM 154	Performers' Awareness	
DRAM 155	Movement for the Actor	
The remaining 4 hours can come from either list above		4
Total Hours		15

Students in the dramatic track may not also pursue the dramatic art major or minor.

Hybrid Track

Code	Title	Hours
Core Requirements		
DRAM/MUSC 151	 Introduction to the American Stage Musical	3
Any combination of courses from the Music, Acting, and Movement Literacy lists (see below):		12
Music Literacy		
MUSC 102	Individual Voice Lessons	
MUSC 111	Group Lessons in Voice	
MUSC 121	 Fundamentals of Tonal Music I	

MUSC 202	Advanced Individual Lessons in Voice ^H
Acting Literacy	
DRAM 135	 Acting for Nonmajors
DRAM 140	Voice Training I
DRAM 144	Acting the Song
Movement Literacy	
EXSS 10	Beginning Ballet
EXSS 11	Introduction to Dance Technique
EXSS 12	Beginning Modern Dance
EXSS 20	Intermediate Ballet
EXSS 22	Intermediate Modern Dance
EXSS 30	Advanced Ballet
DRAM 154	Performers' Awareness
DRAM 155	Movement for the Actor
Total Hours	15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Students pursuing both the dramatic art and music major (double majors) should follow the hybrid track.

Department of Earth, Marine and Environmental Sciences

Introduction

The Department of Earth, Marine and Environmental Sciences (EMES) (<https://emes.unc.edu/>) provides instruction and conducts research into the physical, chemical, and biological processes that operate within the Earth and its oceans. Research seeks to understand how the dynamic interplay among these processes shape the Earth's surface, govern environmental change, generate natural hazards, supply energy and resources, and sustain life. The department has a strong tradition of undergraduate students conducting independent and guided research as part of their training.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors by appointment. Departmental academic advising is particularly important for those majors who are considering continuing graduate education. Further information on courses, undergraduate research opportunities, the honors program, career opportunities, and graduate schools may be obtained from the department's website. Prospective students in the department are encouraged to meet with one of the directors of undergraduate studies.

Facilities

The department maintains laboratory facilities, many of which are available for undergraduate students to use in research and classroom learning. These include several microscopes and mass spectrometers for isotopic, geochronology, and geochemical research, geophysical and seismic imaging facilities, environmentally controlled laboratory spaces, a paleoclimate laboratory, an aquarium research facility, and a clean room for trace metal research. The department also shares the interdisciplinary Joint Fluids Lab with researchers in applied mathematics. In addition, the Institute of Marine Sciences, located in Morehead City, N.C., houses laboratory buildings with dock and ocean access and a modern vivarium space for marine research. The institute operates a modern 48-foot

coastal vessel, the R.V. Capricorn, as well as a fleet of outboard-powered boats.

Graduate School and Career Opportunities

Graduates of Earth and Marine Sciences programs are prepared for a wide range of careers in environmental consulting, natural resource management, conservation, government agencies, research, and biotechnology, and also provides excellent preparation for graduate and professional study. Students leave our programs ready to analyze complex environmental problems, work across disciplines, and apply scientific evidence to real-world challenges such as climate change, coastal resilience, water quality, and sustainability.

Earth and Marine Sciences Major, B.S.

Students in the EMES (<https://emes.unc.edu/>) program will explore the biological, chemical, and physical processes that shape our planet from the mountains to the sea. Through an interdisciplinary curriculum, students build a strong foundation in the Earth system while learning to ask big questions about how landscapes form, oceans function, ecosystems respond to change, and natural resources are sustained. The program combines classroom learning with fieldwork, laboratory investigation, and data analysis to help students understand the dynamic processes driving our changing world.

Students can tailor the major through a concentration in Geoscience or Marine Biology and Ecology. In the Geoscience concentration, students study topics such as geology, hydrology, tectonics, and surface processes, gaining the knowledge and technical skills needed to understand Earth materials, water resources, and environmental change. The geoscience concentration is designed to permit students to pursue professional licensure in geology. In the Marine Biology and Ecology concentration, students examine aquatic systems from microbes to marine food webs, exploring the biology, chemistry, and ecology of marine environments. Across both concentrations, students develop hands-on experience in observation, experimentation, quantitative analysis, and scientific communication. With its Mountains-to-Sea perspective and strong emphasis on experiential learning, the major equips students to understand Earth's past, engage its present, and help shape a more sustainable future.

Student Learning Outcomes

Upon completion of the Earth and Marine Sciences program (B.S.), students should be able to:

- Recognize foundational concepts in earth and marine sciences and identify how these disciplines are relevant to humans and society.
- Assess real-world problems in the earth and marine sciences and apply scientific reasoning to solve them.
- Communicate clearly and effectively to a range of audiences.
- Collect, analyze and evaluate earth and marine science data from both field and laboratory settings.

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Students can pursue one of two concentrations, as outlined below.

Geoscience Concentration

Code	Title	Hours
Core Requirements		
EMES 200	 The Solid Earth	3
EMES 201	 Earth's Surface: Processes, Landforms, and History	3
EMES 203	 Data Analysis for Earth, Marine, and Environmental Sciences	3
Select four fundamentals courses (at least one with a lab)		13
EMES 301	Earth's Critical Mineral Resources	
EMES 302	Structural Geology	
EMES 303	Sedimentology and Stratigraphy	
EMES 304	Petrology and Plate Tectonics	
EMES 306	 Earth and Life through Time	

EMES 405	Geochemistry	
EMES 406	Introduction to Geophysics	
EMES 417	Surface Processes and Landscape Evolution	
EMES 435	Groundwater Hydrology	
Select three EMES specialization courses numbered 300 and higher		9-12
Six credits of a capstone experience:		6
EMES 395	Undergraduate Research in Earth, Marine, and Environmental Sciences (6 credit hours total)	
EMES 485 & EMES 486	Summer Field Course in Geology and Summer Field Course in Geology	
EMES 691H & EMES 692H	Honors in Earth, Marine, and Environmental Sciences and Honors in Earth, Marine, and Environmental Sciences	
Additional Requirements		
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
MATH 231	Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	Calculus of Functions of One Variable II ^{H, F}	4
PHYS 114	General Physics I: For Students of the Life Sciences ^F	4
or PHYS 118	Introductory Calculus-based Mechanics and Relativity	
Select two of the following options:		6-8
BIOL 101/101L or BIOL 101/102L		
COMP 110	Introduction to Programming ^H or COMP 11 (Introduction to Scientific Programming	
Any MATH above MATH 232 or MATH 210		
STOR 120, 151, or 155		
PHYS 115	General Physics II: For Students of the Life Sciences ^F	
or PHYS 119	Introductory Calculus-based Electromagnetism and Quanta	
Total Hours		63-68

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Marine Biology and Ecology Concentration

Code	Title	Hours
Core Requirements		
EMES 103 & 103L	The Marine Environment and The Marine Environment Laboratory ^F	3-4

or EMES 202	Oceanography	
EMES 203	Data Analysis for Earth, Marine, and Environmental Sciences	3
EMES 204	The Microbial World: Foundations in Structure, Metabolism, and Ecology	3
or BIOL 250	Evolutionary Biology	
or BIOL 260	Introduction to Ecology	
Select four fundamentals courses (at least one with a lab) ¹		13
EMES 320	Marine Life in a Fluid World	
EMES 320L	Marine Life in a Fluid World Laboratory ¹	
EMES 352	Marine Fisheries Ecology	
EMES 441	Marine Physiological Ecology ¹

EMES 448	Coastal and Estuarine Ecology ¹	
EMES 450	Biogeochemical Processes ¹	
EMES 471	Human Impacts on Estuarine Ecosystems ¹	
BIOL 462/EMES 440	Marine Ecology	
EMES 507	Biological Oceanography	
EMES 515	Quantitative Ecology ¹	
Select four EMES specialization courses numbered 300 and higher		12-16
Three credits of a Applied Learning Experience:		3
EMES 395	Undergraduate Research in Earth, Marine, and Environmental Sciences	
EMES 396	Independent Study in Earth, Marine, and Environmental Sciences	
EMES 412	Principles and Methods of Teaching Earth Science	
EMES 441	Marine Physiological Ecology	
EMES 442 & 442L	Marine Biology and Marine Biology Lab	
EMES 447	Microbial Ecological Genomics	
EMES 515	Quantitative Ecology	
ENEC 304	Restoration Ecology	
EMES 691H & EMES 692H	Honors in Earth, Marine, and Environmental Sciences and Honors in Earth, Marine, and Environmental Sciences	
ENEC 698	Capstone: Analysis and Solution of Environmental Problems (with permission based on topic)	

Additional Requirements		
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4

MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
PHYS 114	 General Physics I: For Students of the Life Sciences ^F	4
or PHYS 118	 Introductory Calculus-based Mechanics and Relativity	
Select two of the following options:		6-8
BIOL 101/101L or BIOL 101/102L		
COMP 110	 Introduction to Programming ^H	
or COMP 111 (Introduction to Scientific Programming)		
Any MATH above MATH 232 or MATH 210		
STOR 120, 151, or 155		
PHYS 115	 General Physics II: For Students of the Life Sciences ^F	
or PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta	
Total Hours		63-70

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ This course fulfills the fundamentals lab requirement

Special Opportunities

Honors in Earth and Marine Sciences

The honors program is open to undergraduates with an overall grade point average of 3.3 or better as of the beginning of the fall semester of the senior year. To participate in this program, the student chooses a research topic in consultation with a chosen faculty sponsor and conducts the research during the last two semesters in residence. The research project should represent the equivalent time expenditure of six hours of course credit and is taken as EMES 691H (fall semester) and EMES 692H (spring semester).

Upon recommendation of the faculty, students may be awarded the degree with honors or highest honors. Highest honors is reserved for students who have distinguished themselves in both coursework and independent research. In order to obtain this distinction the student must maintain a grade point average of 3.60 or higher and complete a research project that is worthy of peer-reviewed publication.

Departmental Involvement

The department encourages all undergraduates to engage actively in its research, teaching, and community engagement activities. Opportunities include:

- Undergraduate research with faculty labs and field teams
- Peer teaching and outreach activities

- Student groups such as the Geology Club, TriBeta Biological Honors Society, Epsilon Eta Environmental Sciences Fraternity, and interdisciplinary environmental student communities
- Departmental seminar series, networking opportunities, annual spring research symposium, and social events

Information about events is posted on the department website and in Murray and Mitchell Halls.

Experiential Education

Many department courses emphasize experiential learning through opportunities to learn how to collect and analyze data from the field, learn laboratory-based skills (ex. mass spec, microscopy, identification/classification of biotic or abiotic samples), and data analysis. Students also have multiple options to complete a capstone or applied learning experience both on campus and at the Institute of Marine Sciences (IMS) in Morehead City, NC.

Teaching Opportunities

Undergraduates can earn course credit (EMES 291) while serving as an Undergraduate Learning Assistant (ULA), take pedagogy classes (ex. EMES 412), or participate in the BEST Minor program that offers a path for undergraduates to gain the knowledge and licensure to become a high-school teacher.

Study Abroad

The UNC Study Abroad program has both international and domestic opportunities for students to extend their experience beyond Carolina. The Institute of Marine Sciences (IMS) hosts a fall field site where EMES faculty offer a full semester of in-residence course offerings and experiential learning at the marine station. Other programs with EMES-affiliated courses include the Sustainable Triangle field site, as well as international locations including Galapagos, Florida, and Belize. For non-EMES courses affiliated with a study abroad program, students must receive approval from the director of undergraduate studies prior to taking courses abroad for EMES credit. More information about current and future programs can be found at the UNC Study Abroad website.

Undergraduate Awards

EMES majors are eligible for multiple awards and scholarships in recognition of their outstanding performance or to provide financial assistance to support independent research projects, travel for research, presenting at scientific conferences, attending geology field camp, or tuition support. Applications for these awards and fellowships are typically considered once or twice a year.

Undergraduate Research

EMES students are encouraged to pursue independent research under the guidance of a faculty mentor on campus or at the Institute of Marine Sciences (IMS). Research may be taken for 1–4 credit hours through EMES 395 or as part of an Honors thesis. Research topics span the full breadth of Earth, marine, and environmental sciences, ranging from climate and ocean processes to ecology, geomorphology, tectonics, environmental health, geochemistry, hydrology, and more.

Geological Sciences Major, B.A.– Earth Science Concentration

The B.A. in Geological Sciences provides an interdisciplinary understanding of how Earth's systems operate and change, from

mountains to oceans. The major emphasizes broad scientific literacy, environmental problem-solving, and connections between natural processes and human society.

Students choose from a range of courses related to geology, hydrology, environmental change, coastal processes, and marine biology/ecology. Through these classes students develop skills in scientific reasoning, critical analysis, observation, and communication.

The curriculum prepares students for careers in environmental policy, conservation, sustainability, education, communication, nonprofit work, and resource management, as well as for environmentally focused graduate study. Grounded in a Mountains-to-Sea perspective, the program equips graduates to interpret environmental challenges, integrate diverse forms of evidence, and contribute to a more sustainable future.

Student Learning Outcomes

Upon completion of the geological sciences program (B.A.), students should be able to:

- Demonstrate broad knowledge of core geological concepts
- Produce written synthesis of professional journal articles dealing with topics covered in advanced courses
- Make a clear and effective oral presentation
- Apply knowledge and skills from coursework in a significant field experience in an area of geological sciences

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Choose two of the following:		6
EMES 200	 The Solid Earth	
EMES 201	 Earth's Surface: Processes, Landforms, and History	
EMES 202	Oceanography	
A minimum of 14 credits from the following EMES courses:		14
EMES 203	 Data Analysis for Earth, Marine, and Environmental Sciences	
EMES 204	 The Microbial World: Foundations in Structure, Metabolism, and Ecology	
EMES 301	Earth's Critical Mineral Resources	
EMES 302	Structural Geology	
EMES 303	Sedimentology and Stratigraphy	
EMES 304	Petrology and Plate Tectonics	

EMES 306	 Earth and Life through Time	
EMES 320	Marine Life in a Fluid World	
EMES 324 & 324L	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems and  Water in Our World Laboratory	
EMES 440	Marine Ecology	
EMES 442	Marine Biology	
EMES 484	Earth and Marine Sciences Speaker Series	
Applied Learning Experience (3-6 hr)		3-6
EMES 485 & EMES 486	Summer Field Course in Geology and Summer Field Course in Geology	
EMES 691H & EMES 692H	 Honors in Earth, Marine, and Environmental Sciences and  Honors in Earth, Marine, and Environmental Sciences	
EMES 395	 Undergraduate Research in Earth, Marine, and Environmental Sciences	
EMES 396	Independent Study in Earth, Marine, and Environmental Sciences	
EMES 412	 Principles and Methods of Teaching Earth Science	
ENEC 698	 Capstone: Analysis and Solution of Environmental Problems	
Science-oriented Experiential Education (EE) courses (3 credits total). ¹		
Additional Requirements		
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
MATH 130	 Precalculus Mathematics ^F	3
At least three EMES and/or allied science electives not otherwise required for the major (see below chart)		9
Total Hours		39-42

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Must be pre-approved by the director of undergraduate studies.

Geology and/or Allied Science Electives Not Otherwise Required for the Major

Environmental Microbiology Minor

Microbes are responsible for controlling the movement of energy, mass, and information through ecosystems (natural, artificial, and human). The environmental microbiology minor will develop students' understanding of fundamental concepts in microbiology (cell structure, physiology, metabolism) together with an understanding of the evolutionary and ecological processes that shape their activities in earth's environments. By completing the minor, students will gain training to prepare them for a wide variety of microbiology careers, including environmental sciences, health sciences, biotechnology, industry, and more.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours

Geological Sciences Minor

The minor in geological sciences is designed for students who would like to acquire a basic knowledge of geology in addition to their major area of study. The minor requirements can be satisfied with a wide variety of course work that will provide students with an understanding of earth resources, structure, processes, and history. These topics are particularly valuable to students who are interested in natural resources, including energy and water, and environmental hazards.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

² Student must register for a minimum of 3 credit hours. No more than 3 credit hours may apply towards the minor.

Special Opportunities

Departmental Involvement

The department encourages all undergraduates to engage actively in its research, teaching, and community engagement activities. Opportunities include:

- Undergraduate research with faculty labs and field teams
- Peer teaching and outreach activities
- Student groups such as the Geology Club, TriBeta Biological Honors Society, Epsilon Eta Environmental Sciences Fraternity, and interdisciplinary environmental student communities
- Departmental seminar series, networking opportunities, annual spring research symposium, and social events

Information about events is posted on the department website and in Murray and Mitchell Halls.

Experiential Education

Many department courses emphasize experiential learning through opportunities to learn how to collect and analyze data from the field, learn laboratory-based skills (ex. mass spec, microscopy, identification/classification of biotic or abiotic samples), and data analysis. Students also have multiple options to complete a capstone or applied learning experience both on campus and at the Institute of Marine Sciences (IMS) in Morehead City, NC.

Teaching Opportunities

Undergraduates can earn course credit (EMES 291) while serving as an Undergraduate Learning Assistant (ULA), take pedagogy classes (ex. EMES 412), or participate in the BEST Minor program that offers a path for undergraduates to gain the knowledge and licensure to become a high-school teacher.

Study Abroad

The UNC Study Abroad program has both international and domestic opportunities for students to extend their experience beyond Carolina. The Institute of Marine Sciences (IMS) hosts a fall field site where EMES faculty offer a full semester of in-residence course offerings and experiential learning at the marine station. Other programs with EMES-affiliated courses include the Sustainable Triangle field site, as well as international locations including Galapagos, Florida, and Belize. For non-EMES courses affiliated with a study abroad program, students must receive approval from the director of undergraduate studies prior to taking courses abroad for EMES credit. More information about current and future programs can be found at the UNC Study Abroad website.

Undergraduate Research

Students may pursue independent research under the guidance of a faculty mentor on campus or at the Institute of Marine Sciences (IMS). Research may be taken for 1–4 credit hours through EMES 395 or as part of an Honors thesis. Research topics span the full breadth of Earth, marine, and environmental sciences, ranging from climate and ocean processes to ecology, geomorphology, tectonics, environmental health, geochemistry, hydrology, and more.

¹ With permission, based on topic.

Hydrology Minor

Water is critical to all life on earth. The hydrology minor at UNC is designed to provide students with fundamental knowledge of the natural and societal processes which govern the occurrence, distribution, and biogeochemical properties of water on Earth, and the ability to use that knowledge to address modern societal challenges. Students who complete the minor will be well-qualified to pursue careers in environmental consulting, water management and/or policy, climate services, and more.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
EMES 324 & 324L	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems and  Water in Our World Laboratory	4
Three additional courses emphasizing surface or groundwater processes, aquatic ecology or biogeochemistry, or water resources, chosen from the following list:		9
EMES 79	 First-Year Seminar: Coasts in Crisis	
EMES 89	 First-Year Seminar: Special Topics ²	
EMES 105	 Natural Disasters: Hollywood versus Reality	
EMES 201	 Earth's Surface: Processes, Landforms, and History	
EMES 325	Fluid Mechanics for Environmental Sciences ¹

Marine Sciences Minor

The Marine Sciences minor is designed to give students access to specialized courses, facilities, and faculty mentors who study the biological, physical, geological, and chemical processes in ocean and coastal systems. This minor allows students to build marine-focused skills that complement their primary field of study, broaden their career options, and prepare them for graduate or professional programs related to marine biology, environmental chemistry, ocean physics, data science, marine policy, coastal management, and more.

Requirements

- In addition to the program requirements listed below, students must:
- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
 - earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours

Special Opportunities

Departmental Involvement

The department encourages all undergraduates to engage actively in its research, teaching, and community engagement activities. Opportunities include:

- Undergraduate research with faculty labs and field teams
- Peer teaching and outreach activities
- Student groups such as the Geology Club, TriBeta Biological Honors Society, Epsilon Eta Environmental Sciences Fraternity, and interdisciplinary environmental student communities
- Departmental seminar series, networking opportunities, annual spring research symposium, and social events

Information about events is posted on the department website and in Murray and Mitchell Halls.

Experiential Education

Many department courses emphasize experiential learning through opportunities to learn how to collect and analyze data from the field, learn laboratory-based skills (ex. mass spec, microscopy, identification/classification of biotic or abiotic samples), and data analysis. Students also have multiple options to complete a capstone or applied learning experience both on campus and at the Institute of Marine Sciences (IMS) in Morehead City, NC.

Teaching Opportunities

Undergraduates can earn course credit (EMES 291) while serving as an Undergraduate Learning Assistant (ULA), take pedagogy classes (ex. EMES 412), or participate in the BEST Minor program that offers a path for undergraduates to gain the knowledge and licensure to become a high-school teacher.

Study Abroad

The UNC Study Abroad program has both international and domestic opportunities for students to extend their experience beyond Carolina.

The Institute of Marine Sciences (IMS) hosts a fall field site where EMES faculty offer a full semester of in-residence course offerings and experiential learning at the marine station. Other programs with EMES-affiliated courses include the Sustainable Triangle field site, as well as international locations including Galapagos, Florida, and Belize. For non-EMES courses affiliated with a study abroad program, students must receive approval from the Director of Undergraduate Studies prior to taking courses abroad for EMES credit. More information about current and future programs can be found at the UNC Study Abroad website.

Undergraduate Research

Students may pursue independent research under the guidance of a faculty mentor on campus or at the Institute of Marine Sciences (IMS). Research may be taken for 1–4 credit hours through EMES 395 or as part of an Honors thesis. Research topics span the full breadth of Earth, marine, and environmental sciences, ranging from climate and ocean processes to ecology, geomorphology, environmental health, geochemistry, hydrology, and more.

Department of Economics

Introduction

Economics is commonly defined as the study of how society allocates scarce resources to satisfy unlimited wants. It focuses upon the fact that we wish to maximize our satisfaction through the consumption of goods and services (including leisure time); however, the resources available for production are limited. Hence, decisions must be made regarding what to produce, how to produce it most efficiently, and how to distribute the output among the various members of the society. Economics analyzes the market framework for making such choices.

At the microeconomic or “individual unit” level, economics examines the behavior of consumers, business firms, workers, and individual markets. At the macroeconomic or “aggregate” level, attention is given to the national and international problems of unemployment, inflation, balance of payments, and economic growth.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department’s director of undergraduate studies and undergraduate advisor work with current and prospective majors by appointment. (See contact information above.) Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department’s website.

Graduate School and Career Opportunities

Economics students in recent years have frequently pursued graduate work in law and business administration, as well as the Ph.D. degree in economics. Others have entered international affairs/international studies programs. Students planning to pursue graduate work in economics should continue to take mathematics courses beyond the required level, and a minor or second major in mathematics is recommended.

Most students have accepted employment with commercial and investment banks, accounting and insurance firms, and a variety of other corporations. The economics major competes well with other majors (including business administration) in the job market. Employment surveys of recent graduates by UNC–Chapel Hill's University Career Services indicate a relatively high ranking for economics majors in terms of employment rates and starting salaries. Note: Recent majors have found that job possibilities are enhanced if at least one accounting course has been completed at the undergraduate level.

Major

- Economics Major, B.A. (p. 313)
- Economics Major, B.S. (p. 316)

Minor

- Economics Minor (p. 318)
- Entrepreneurship Minor (p. 320)

Graduate Programs

Economics Major, B.A.

The courses leading to a B.A. degree with a major in economics comprise a large area of inquiry into the problems and structure of the economic segment of society. The curriculum provides the opportunity to achieve one or more of the following objectives:

- General education for intelligent citizenship with special emphasis on understanding the principles and problems of modern economic life
- Preparation for private employment. In pursuing this objective, supplementary courses in business administration (especially accounting courses) may be selected and integrated with the student's program.
- Preparation for government employment
- Preparation for graduate programs in economics, business administration, international studies, law, health and hospital administration, city planning, public policy, and other fields
- Specialized undergraduate programs incorporating double majors and interdisciplinary studies

Student Learning Outcomes

Upon completion of the economics program, students should be able to:

- Define common economic concepts
- Apply these concepts to understand and analyze observed economic phenomena

- Demonstrate the ability to use empirical and econometric methods in economic analysis
- Evaluate the impact of economic phenomena on welfare and standard of living

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Gateway Course		
ECON 101	 Introduction to Economics (with a grade of C or better) ^{H, F}	4
Core Requirements		
ECON 400	 Introduction to Data Science and Econometrics (with a grade of C or better) ^H	4
ECON 410	 Intermediate Microeconomics (with a grade of C or better) ^H	4
ECON 420	Intermediate Macroeconomics ^H	3
Four ECON courses at the 400, 500, or 600 level, with at least one course numbered ECON 500 or higher. ^{1,3}		12
Additional Requirements		
One calculus course chosen from: ²		3-4
MATH 152	 Calculus for Business and Social Sciences ^F	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	
STOR 113	 Decision Models for Business and Economics	
Total Hours		30-31

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Note that 200- and 300-level courses do not count toward the major. ECON 493 does not count for 400-level credit. ECON 698 will count for 400-level credit only if ECON 384 has been taken; ECON 698 alone will not count toward the major in economics.

² The calculus course is a prerequisite for both ECON 400 and ECON 410, and ECON 400 and ECON 410 are both prerequisites for economics courses numbered above 420.

³ Students may not receive credit for both ECON 470 and ECON 570.

Note: MATH 231 is recommended for students who plan to take the calculus sequence (MATH 231, MATH 232, and MATH 233). MATH 116 is not acceptable.

An economics major may apply as many as 15 economics courses, or 45 hours, toward the B.A. degree.

Economics (ECON) course descriptions (p.).

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Sample Plan 1

First Year		Hours
First-Year Foundation Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F		3
IDST 111L	 Data Literacy Lab	1
Global Language through level 3 (p. 670)		varies
Major Courses		
MATH 231 or STOR 113 or MATH 152	 Calculus of Functions of One Variable I ^{H, F} or  Decision Models for Business and Economics or  Calculus for Business and Social Sciences	4
ECON 101	 Introduction to Economics ^{H, F}	4
Hours		16
Sophomore Year		
ECON 400	 Introduction to Data Science and Econometrics ^H	4
ECON 410	 Intermediate Microeconomics ^H	4
ECON 420	Intermediate Macroeconomics ^H	3
Hours		11
Junior Year		
ECON 4–	Two 400-level ECON electives	6
Hours		6
Senior Year		
ECON 4–	One 400-level ECON elective	3
ECON 5–	One 500-level ECON elective	3
Hours		6
Total Hours		39

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan 2 (Honors Thesis Track)

First Year		Hours
First-Year Foundation Courses		
IDST 101	College Thriving	1
ENGL 105	English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F		3
IDST 111L	Data Literacy Lab	1
Global Language through level 3 (p. 670)		varies
Major Courses		
MATH 231	Calculus of Functions of One Variable I ^{H, F}	4
or	Decision Models for Business and Economics	
STOR 113	or	
or	Calculus for Business and Social Sciences	
MATH 152	or	
ECON 101	Introduction to Economics ^{H, F}	4
Hours		16
Sophomore Year		
ECON 400	Introduction to Data Science and Econometrics ^H	4
ECON 410	Intermediate Microeconomics ^H	4
ECON 420	Intermediate Macroeconomics ^H	3
Hours		11
Junior Year		
ECON 4--	Two 400-level ECON electives	6
ECON 470	Econometrics ^H	3
Hours		9
Senior Year		
ECON 691H	Honors Course	3
ECON 692H	Honors Course	3
Hours		6
Total Hours		42

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Special Opportunities in Economics Honors in Economics

The Department of Economics honors program offers outstanding economics students the opportunity to work closely with an individual faculty member on a specialized research topic of the student's choice during the senior year. Generally, students with a 3.5 grade point average in economics courses and 3.3 in all University coursework may be invited to participate in this two-course program (ECON 691H and ECON 692H).

In the first semester (ECON 691H), students become familiar with the recent literature on topics of major interest. Each candidate formulates an honors thesis proposal and initiates work on the project. In ECON 692H, the thesis work is conducted under the supervision of a faculty advisor who is a specialist in the general topic area of the research.

Near the end of the second semester (ECON 692H), the student stands for an oral examination on the thesis. Upon successful completion of the program, the student receives the bachelor of arts degree with honors or with highest honors. Students in the honors program are also required to complete at least an eight-course major rather than the minimum seven courses, including ECON 691H and ECON 692H.

Credential in Quantitative Financial Economics (QFE)

The QFE credential provides students with both the theoretical knowledge of financial markets and the practical experience of financial-market transactions. This combination of classroom study and practical application leads to a more detailed and profound understanding of the economics of financial markets.

The QFE credential also introduces students to the tools and skills necessary to be effective financial-market participants in their post-graduate lives. Students acquire a familiarity with the general workings of the financial market and its connections to the real economy. They also acquire fluency in asset pricing and portfolio allocation, with a special emphasis on the quantitative tools necessary for estimation, testing, and optimization. Students are exposed to advanced quantitative tools such as Matlab, structured data storage, computational clusters, and API's for real-time data extraction.

Code	Title	Hours
To earn the credential a student must complete three courses:		
ECON 425	Financial Economics	3
ECON 493	Practicum in Quantitative Financial Economics	1
ECON 525	Advanced Financial Economics	3
Total Hours		7

Departmental Involvement Clubs

Undergraduates in economics have organized two active clubs, the Carolina Economics Club (CEC) and the Women in Economics (WIE) Club. Seminars, resumé workshop, social activities, case competition, and greater interaction among students and with faculty have resulted from the formation of these ongoing organizations. All majors are invited to participate in the activities of these organizations.

Competitions

The Fed Challenge Competition conducted by the Board of Governors of the Federal Reserve System is an opportunity for students to participate in a competition where they can apply their skills from courses in the

economics major. Each year, a team of three to five advanced students undertakes research and data analysis on U.S. monetary policy under faculty supervision to participate in the annual competition.

The Federal Deposit Insurance Corporation (FDIC) Challenge is a faculty supervised opportunity for students to use their data analysis and research skills to analyze data on financial institutions and economic variables and present the results in the annual competition.

Honor Society

The local chapter of Omicron Delta Epsilon, the national economics honor society, annually extends membership to those outstanding junior and senior economics majors who have demonstrated strong academic performance both overall and in their economics courses.

Research Opportunities

In spring 2025, the department has started a new undergraduate research Initiative to allow students to engage in research outside the classrooms. Current activities include:

Summer Research

Summer research projects provide an opportunity to explore a research question in depth with an advanced Ph.D. student or faculty member.

Faculty-Led Research

Students work as part of a research team on an actual, frontier-research project led by a faculty member. Students may receive course credit or work for hourly pay.

Conference and Seminars

The department coordinates, encourages, and supports with a small grant the presentation of undergraduate research at scientific research conferences and seminars.

Economics Adventures

The department offers small grants to help finance your adventure. Adventures include, but are not limited to: meeting prominent scholars and economics practitioners, visiting relevant locations, research visits to libraries or data storage facilities.

Ceteris Paribus: The Carolina Journal of Undergraduate Research in Economics

Born from a students' initiative, *Ceteris Paribus* publishes, promotes, and engenders undergraduate research in economics at UNC and beyond. Faculty members are actively engaged in the project, assisting in its launch, and participating in the Faculty Scientific Committee. Learn more here (<https://econ.unc.edu/econ-journal/>).

Study Abroad Opportunities

There are two study abroad opportunities offered through the economics department: Exploring Economies in Scandinavia and UNC Economics in Croatia.

Exploring Economies in Scandinavia exposes students to economic concepts by exploring and experiencing Stockholm's history and culture through an economic lens. This course complements study in political science, business, sociology, women's and gender studies, health policy and management, public policy, etc.

UNC Economics in Croatia is a six-week experience where students are immersed in the life and culture of Split, Croatia. Students take two courses at the University of Split and visit a number of surrounding areas, including the Istrian Peninsula, the birthplace of sports tourism in Croatia.

EconAid Center

The EconAid Center provides free, drop-in tutoring with undergraduate peer tutors, for students in the core economics courses (101, 400, 410, and 420) as well as select upper-division economics courses. It is also a space for professors, TAs, and ULAs to hold office hours and help sessions as well as a general study space for economics students.

Undergraduate Awards

Each spring the Chancellor awards the Undergraduate Prize in Economics to the undergraduate student majoring in economics who has been judged the most outstanding on the basis of major and related course performances.

Economics Major, B.S.

The B.S. degree in economics provides an overview of methods for studying activity and outcomes in market settings and beyond, considers the impact of public policy and business activity through the lens of economic models, and covers techniques in quantitative and data

analysis that are the foundation of modern economic analysis. Relative to the B.A. degree in economics, the B.S. degree puts a greater emphasis on quantitative methods and student-conducted economic research, and it includes additional training beyond the B.A. degree. The B.S. degree is interdisciplinary, with required courses from mathematics, statistics and computer science. The B.S. major is classified as a STEM program with CIP code 45.0603.

This major provides the opportunity to achieve one or more of the following objectives:

- General education for intelligent citizenship with special emphasis on economic principles and the quantitative methods that economists use in applied analysis.
- Preparation for private employment, including finance, marketing, consulting, and data analytics.
- Preparation for government employment, with emphasis on methods to analyze the impacts of public policy.
- Preparation for graduate programs in economics, business administration, data analytics, international studies, law, health and hospital administration, city planning, public policy, and other fields.
- Creation of double majors and interdisciplinary majors with other STEM disciplines.

Student Learning Outcomes

Upon completion of the economics program, students should be able to:

- Define common economic concepts
- Apply these concepts to understand and analyze observed economic phenomena
- Demonstrate the ability to use empirical and econometric methods in economic analysis
- Evaluate the impact of economic phenomena on welfare and standard of living

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Gateway Requirement		
ECON 101	 Introduction to Economics (with a grade of C or better) ^{H, F}	4
Core Requirements		
ECON 400	 Introduction to Data Science and Econometrics (with a grade of C or better) ^H	4
ECON 410	 Intermediate Microeconomics (with a grade of C or better) ^H	4

ECON 420	Intermediate Macroeconomics ^H	3
ECON 470	 Econometrics ^H	3
Five ECON courses at the 400, 500, or 600 level, with at least two numbered 500 or higher ^{1, 3}		15
Additional Requirements		
MATH 231	 Calculus of Functions of One Variable I ^{2, H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4
or MATH 235	 Mathematics for Data Science	
Select two of the following:		6
COMP 110	 Introduction to Programming ^H	
or COMP 111	Introduction to Scientific Programming	
MATH 347	 Linear Algebra for Applications ^F	
MATH 381	Discrete Mathematics ^H	
or COMP 281	 Discrete Structures	
STOR 415	Introduction to Optimization ^H	
STOR 435	Introduction to Probability ^H	
or STOR 535	Probability for Data Science	
Total Hours		51

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Note that 200- and 300-level courses do not count toward the major. ECON 698 will count for 400-level credit only if ECON 384 has been taken; ECON 698 alone will not count toward the major in economics. ECON 493 does not count for 400-level credit.

² The calculus course is a prerequisite for both ECON 400 and ECON 410, and ECON 400 and ECON 410 are both prerequisites for economics courses numbered above 420.

³ Students may not receive credit for both ECON 470 and ECON 570.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Economics Minor

The minor in economics provides an understanding of activities and outcomes in market settings and beyond, uses economic models and concepts to study the impact of public policy and business activity, and teaches techniques in quantitative and data analysis that are the foundation of modern economic analysis.

This minor provides the opportunity to achieve one or more of the following objectives:

- Integrate knowledge and skills acquired through a non-Economics major.
- Acquire general education for intelligent citizenship with special emphasis on economic principles and the quantitative methods that economists use in applied analysis.
- Prepare for private employment, including finance, marketing, consulting, and data analytics.
- Prepare for government employment, with emphasis on methods to analyze the impacts of public policy.

- Prepare for graduate programs in economics, business administration, data analytics, international studies, law, health and hospital administration, city planning, public policy, and other fields.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Gateway Course		
ECON 101	 Introduction to Economics ^{H, F}	4
Core Requirements		
Select at least two courses from the following list:		7-8
ECON 400	 Introduction to Data Science and Econometrics ^{1, H}	
ECON 410	 Intermediate Microeconomics ^{1, H}	
ECON 420	Intermediate Macroeconomics ^{1, H}	
Two additional ECON courses at the 400 level ²		6
Total Hours		17-18

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- ^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Check course description for required prerequisites.

² If all three of the core requirement courses (ECON 400, ECON 410, ECON 420) are completed, only one additional 400-level course is needed. ECON 493 may not be used in the minor. ECON 495 and ECON 496 may count in the minor, if taken for 3 credit hours.

Suggested Pathways

Macroeconomics Plan

Code	Title	Hours
ECON 101	 Introduction to Economics ^{H, F}	4
ECON 400	 Introduction to Data Science and Econometrics ^{1, H}	4
ECON 410	 Intermediate Microeconomics ^{1, H}	4
Two 400-level ECON electives in Applied Microeconomics or Microeconomic Theory		6
Total Hours		18

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- ^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Check course description for required prerequisites.

Macroeconomics Plan

Code	Title	Hours
ECON 101	 Introduction to Economics ^{H, F}	4
ECON 400	 Introduction to Data Science and Econometrics ^{1, H}	4
ECON 410	 Intermediate Microeconomics ^{1, H}	4
ECON 420	Intermediate Macroeconomics ^{1, H}	3
One 400-level ECON elective in Macroeconomics or Time Series Econometrics		3
Total Hours		18

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- ^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Check course description for required prerequisites.

Econometrics Plan

Code	Title	Hours
ECON 101	 Introduction to Economics ^{H, F}	4
ECON 400	 Introduction to Data Science and Econometrics ^{1, H}	4
ECON 410	 Intermediate Microeconomics ^{1, H}	4
or ECON 420 Intermediate Macroeconomics		
ECON 470	 Econometrics ^{1, H}	3
One 400-level ECON elective in Econometrics or Data Science		3
Total Hours		18

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- ^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Check course description for required prerequisites.

Entrepreneurship Minor

This minor is designed for students who wish to major in another discipline but who have an interest in the process of entrepreneurship. Entrepreneurship is the mechanism by which new products, services, and organizational processes are identified, refined, and ultimately realized as a sustainable part of the society. There is a common process for realizing all types of ventures. The minor will provide the student with the background to undertake entrepreneurial activity in the business, social, artistic, or scientific realm. The venture workshop course requirement allows students to select an area of focus from among topics including commercial, media, social, arts, science, marketing, sports, computer science, and public health. An internship opportunity is a key component of the minor.

Students must apply to and be admitted to the Shuford program minor in entrepreneurship. Information on this application process is available on the program website. (<https://shuford.unc.edu/apply/>)

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor consists of five courses:

Code	Title	Hours
Gateway Course		
One principles of entrepreneurship course:		3
ECON 125	 Introduction to Entrepreneurship (with a grade of C or better) ^{1, H}	
ECON 57H	 First-Year Seminar: Constructing Your Own Venture (with a grade of C or better) ¹	
Core Requirements		
One principles of economics course:		3-4
ECON 101	 Introduction to Economics (with a grade of C or better) ^{H, F}	
ECON 111	 The Economics of Entrepreneurship and Innovation (with a grade of C or better) ¹	
The core course in entrepreneurship:		3
ECON 325	Entrepreneurship: Principles, Concepts, Frameworks, and Fluency ^{1, H}	
One track course: ²		3
ECON 327	 Venture-Creation Workshop (sections in commercial, arts, science, sports, and media tracks.) ^{1, H}	
ENEC 473	 Business and Finance Fundamentals for Change Makers	
MEJO 592	Workroom FashionMash Product Design	
PLCY 326	Social Entrepreneurship ^H	
SPHG 428H	 Public Health Entrepreneurship	
SOCI 302	Fieldwork in Entrepreneurship	
SOCI 427	 The Labor Force	
Capstone course:		
ECON 393	 Practicum in Entrepreneurship ^{1, H}	3
Additional Requirements		
Complete a 280-hour internship with a start-up or employer approved by the internship coordinator of the minor.		
Total Hours		15-16

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ ECON 57H, ECON 111, ECON 125, ECON 325, ECON 327, and ECON 393 cannot be counted toward an economics major.

² The minor in entrepreneurship anticipates adding additional track courses. For a complete listing of these courses contact the Minor in Entrepreneurship office. One track course must be taken for students to complete the minor. Students are able to take more than one track course for elective credit and hours toward graduation.

It is also possible to complete the entrepreneurship minor through completing one economics course and then a one-semester Shuford Away program in Silicon Valley (California) or London. These are programs run jointly with Honors Carolina. To learn more, contact the Minor in Entrepreneurship office.

For more information, visit the Minor in Entrepreneurship website (<https://shuford.unc.edu/>).

Department of English and Comparative Literature

Introduction

The Department of English and Comparative Literature is a vibrant and diverse department with a global reach. Our course offerings present a diversity of approaches to the study, production, and appreciation of literary and nonliterary texts. We pursue a four-fold mission to:

1. explore the history and significance of American, British, and world literatures;
2. promote interdisciplinary connections and incorporate the study of culture, theory, and history into our research and courses;
3. offer training in rigorous thinking, precise analysis, and critical reading; and
4. foster practical skills in rhetoric, composition, and expression in essays, creative pieces, even emerging forms of digital media.

Majors

- English and Comparative Literature Major, B.A. (p. 322)

Minors

- Comparative Literature Minor (p. 331)
- Creative Writing Minor (p. 332)
- English Minor (p. 334)
- Global Cinema Minor (p. 336)
- Latina/o Studies Minor (p. 338)
- Medicine, Literature, and Culture Minor (p. 339)
- Medieval and Early Modern Studies Minor (p. 463)
- Writing, Editing, and Digital Publishing Minor (<https://catalog.unc.edu/undergraduate/programs-study/writing-editing-digital-publishing-minor/>)

Graduate Programs

- Ph.D. in English and Comparative Literature (https://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/#PhD_English)
- M.A. in English (<https://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/>) with a Concentration in Literature, Medicine, and Culture (https://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/#MA_English)

Courses

- Comparative Literature (CMPL) (<https://catalog.unc.edu/courses/cmpl/>)
- English (ENGL) (<https://catalog.unc.edu/courses/engl/>)

Professors

Daniel Anderson, David J. Baker, A. Reid Barbour, Marsha Collins, María DeGuzmán, Florence Dore, Mary Floyd-Wilson, Stephanie Elizondo Griest, Philip Gura, Jordynn Jack, Heidi Kim, Laurie Langbauer, Jeanne Moskal, Eliza Richards, Jane F. Thrailkill, Joseph S. Viscomi, Daniel Wallace, Jessica Wolfe.

Associate Professors

Inger S. Brodey, Gabrielle Calvocoressi, Pamela Cooper, Taylor Cowdery, Tyler Curtain, Stephanie DeGooyer, Rebecka Rutledge Fisher, Gregory Flaxman, Stephanie Elizondo Griest, Ylce Irizarry, Martin Johnson, Meta DuEwa Jones, Shayne Legassie, Theodore H. Leinbaugh, Inga Pollmann, Kimberly Stern, Matthew Taylor, Rick Warner.

Assistant Professors

Shinjini Chattopadhyay, H.M. Cushman, Tyree Daye, Carlina Duan, Melissa Faliveno, Ryan Prewitt, Courtney Rivard, Sheera Talpaz, Daelena Tinnin-Gadson, Denise Xu.

Teaching Professors

Elyse Crystall, Leslie Frost, Bradley Hammer, Hilary Lithgow, David Ross, Henry Veggian.

Teaching Associate Professors

Marc Cohen, Cynthia Current, Joseph Fletcher, Elizabeth Gualtieri-Reed, Michael Keenan Gutierrez, Søren Palmer, Wendy Weber, Kym Weed, Ross White.

Teaching Assistant Professors

Nicole Berland, Ben Bolling, Graham Culbertson, Sarah Ficke, Michael Gadaletto, Steven Gotzler, Kelli Holt, Sophia Klahr, Matthew O'Wain, Ruby Pappoe, Shane Peterson, Adam Price, Julia Ridley Smith, Hill Taylor, Joseph Telegen, Karen Tucker, Angela Velez.

Adjunct Professors

Hassan Melehy, Morgan Pitelka, Michael Silk.

Adjunct Associate Professors

Terrence Holt, Sharon James, Pamela Lothspeich, Timothy Marr, Alicia Rivero, Yaron Shemer, Gabriel Trop, Ariana Vigil, Robin Visser, Nadia Yaqub.

Adjunct Assistant Professors

Janice Koelb, Petal Samuel.

English and Comparative Literature Major, B.A.

English and Comparative Literature majors study literature, film, writing, and media of broad geographic and cultural provenance, so students have opportunities to practice comparative thinking. Moreover, majors write and research about texts, film, and media inflected with markedly different generic and linguistic features, and this variety hones students' research and writing skills. English and Comparative Literature majors can follow a general course of study or choose to concentrate in one of seven different areas:

- British and American Literature
- Comparative and World Literatures
- Creative Writing
- Film Studies
- Science, Medicine and Literature
- Social Justice and Literature
- Writing, Editing, and Digital Publishing

See the Requirements page for details on the major concentrations.

Student Learning Outcomes

Upon completion of the English and Comparative Literature program, students should be able to:

- Produce clear and persuasive analytical and/or creative writing (that demonstrates the qualities of literature)
- Research productively and effectively
- Read critically

- Compare and analyze texts and contexts
- Explain the significance and value of historical contexts

Particularly at this moment in American culture and history, we believe these skills are essential, both in the workplace and in the public sphere more broadly. The major's core curriculum ensures that students gain historical breadth in their discipline (in the form of surveys) as well as depth (in courses that focus on a single genre, topic, or author and thus allow for a sustained emphasis on close analysis). Individual concentrations also provide learning outcomes specific to their area of study.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Core Curriculum

Code	Title	Hours
Core Requirements ¹		
Survey I (select one):		3
ENGL 120	British Literature, Medieval to 18th Century ^H	
ENGL 116	History of Writing: From Pen to Pixel	
CMPL 120	Great Books I: Epic and Lyric Traditions	
CMPL 121	Great Books I: Romancing the World ^H	
CMPL 122	Great Books I: Visual Arts and Literature from Antiquity to 1750 ^H	
CMPL 123	Great Books I: Politics and Literature from Antiquity to 1750	
CMPL 124	Great Books I: Science and Literature from Antiquity to 1750	
Survey II (select one):		3
ENGL 151	Nineteenth-Century American Literature	
ENGL 152	Twentieth-Century American Literature ^H	
ENGL 117	Arguing on the Internet: Rhetoric in the Age of Social Media	
ENGL 121	British Literature, 19th and Early 20th Century ^{H, F}	
ENGL 122	Introduction to American Literature ^H	
ENGL 124	Contemporary Literature	
ENGL 129	Literature and Cultural Diversity ^{H, F}	
CMPL 130	Great Books II ^H	
CMPL 131	Great Books II: Savage, Native, Stranger, Other	

CMPL 132	Great Books II: Performance and Cultural Identity in the African Diaspora	
CMPL 133	Great Books II: Imaging the Americas from the Late 18th Century to the Present

CMPL 142	Visual Culture II	
Depth Course (select one):		3
ENGL 223	Chaucer (British) ^H	
ENGL 225	Shakespeare (British) ^H	
ENGL 230	Milton (British) ^H	
ENGL 235	Studies in Jane Austen (British)	
ENGL 241	Studies in Oscar Wilde	
ENGL 243	Studies in Virginia Woolf (British)	
ENGL 250	Faulkner (American)	
ENGL 272	Studies in African American Authors (American)	
CMPL 220	Global Authors: Jane Austen (British) ^H	
CMPL 223	Global Authors: Cervantes	
CMPL 225	Global Authors: The Worlds of Shakespeare (British)	
CMPL 477	Wicked Desire: Vladimir Nabokov, Lolita, on Page and Screen	
Concentration (seven courses), see requirements below ²		21

Additional Requirements

At least six (6) courses (out of 10) must be at or above the 200 level.³

Of these six (6), at least two (2) courses (out of 10) must be at the 300-level (Writing Intensive) in ENGL or CMPL.³

Of these six (6), at least one (1) course (out of 10) must be at the 400-level (Research Intensive) in ENGL or CMPL.³

Total Hours **30**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ The concentration in Film and Media Studies includes different core requirements. See the requirements for this concentration below.

² If no concentration is chosen, select seven (7) electives in ENGL and/or CMPL (excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191).

³ Required for all concentrations except for the Creative Writing concentration.

Concentration in British and American Literature

In addition to the core curriculum (three courses) and additional requirements described above, students must complete the following requirements.

Code	Title	Hours		
Pre-1800 course (select one)		3		
ENGL 115	 History of the English Language			
ENGL 223	 Chaucer ^H			
ENGL 224	 Survey of Medieval English Literature, excluding Chaucer ^H

ENGL 693H & ENGL 694H	Creative Writing Senior Honors Thesis, Part I and Creative Writing Senior Honors Thesis, Part II	
Select two (2) additional courses in ENGL and/or CMPL ²		6
Total Hours		21

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ No more than two (2) courses can be taken outside the Department of English and Comparative Literature.

² Excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191.

Concentration in Comparative and World Literatures

In addition to the core curriculum (three courses) and additional requirements described above, students must complete the following requirements.

Code	Title	Hours
It is recommended to choose a CMPL course from the Survey I list in the core curriculum.		
CMPL 250	Approaches to Comparative Literature ^H	3
or CMPL 251	Introduction to Literary Theory	
CMPL 495	The Art of Research	3
Select one (1) to three (3) international literature courses taught in any foreign language department (200-level or higher) ^{1,2}		3-9
Select two (2) to four (4) CMPL or ENGL courses (excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191). No more than two (2) from ENGL.		6-12
Total Hours		21

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Foreign language departments include Asian Studies, Classics, Germanic and Slavic Languages, Romance Studies.

² At least one course should be focused on literature written in the original language.

Concentration in Film Studies

The film studies concentration focuses on the history, theory, analysis, and politics of cinema in a global context. Students become conversant with the evolution of film genres, styles, and traditions, while exploring relationships between film and other artistic forms, including literature, painting, photography, television, and digital video. This concentration enables students to gain skills of audiovisual literacy that are necessary for navigating the many screens of our modern world.

Students pursuing the film studies concentration do not follow the core requirements described above. Instead, students must complete the following requirements (10 courses):

Code	Title	Hours
Core Requirements		
Survey I course (select one):		3
CMPL 143	 History of Global Cinema	
Survey II course (select one):		3
CMPL 142	 Visual Culture II	
CMPL 150	 Critical Theory: Fear, Love, Laughter, and Loss - Film Genres and Spectatorship

ENGL 251	 Film Performance and Stardom		

At least one (1) course (out of 10) must be at the 400-level (Research Intensive).

Total Hours

30

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191.

Special Opportunities in English and Comparative Literature

Honors in English and Comparative Literature

The department offers at least two honors seminars each semester. In addition, students seeking a degree with honors in English and Comparative Literature (a 3.3 cumulative grade point average and a 3.6 grade point average in major courses required) undertake a year-long independent project during their senior year (ENGL 691H and ENGL 692H or CMPL 691H and CMPL 692H) and usually produce a 40- to 70-page thesis under the direction of a faculty member. Students pursuing a degree with honors normally meet every week with the professors supervising their projects. This opportunity for individually directed research and writing often proves to be a high point of the student's academic career.

Honors in Creative Writing

See "Creative Writing Minor (p. 332)."

Study Abroad

Some of the best programs offered at the University for study overseas are especially appropriate and useful to majors in the Department of English and Comparative Literature. These include semester or year-long programs at Bristol, Manchester, Sussex, Edinburgh, Glasgow, and certain Australian universities. Students who have a minimum grade point average of 3.3 at the end of their sophomore year can participate in the King's College Exchange Program at King's College, London (representing either English or comparative literature). Special opportunities are also available at Oxford University. Comparative literature students most frequently travel to non-English-speaking destinations. For information on all overseas programs, see the Study Abroad Office. (<http://studyabroad.unc.edu>)

Internship Program

Internships are a great way to explore career options before graduation. A major in English and comparative literature, with its focus on writing, oral communication, and research, opens the door to a wide variety of career paths. The Department of English and Comparative Literature provides the opportunity for students to receive credit for an internship that relates to the major.

Comparative Literature Minor

The comparative literature minor offers students flexibility to develop creative approaches to international literature and film, while placing a strong emphasis on foreign language learning and training in theory. The program encourages students to develop rigorous analytic skills and excellent communication skills applicable to a wide range of fields.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
One course from Great Books I (CMPL courses numbered between 120 and 129)		3
CMPL 120	 Great Books I: Epic and Lyric Traditions	
CMPL 121	 Great Books I: Romancing the World ^H	
CMPL 122	 Great Books I: Visual Arts and Literature from Antiquity to 1750 ^H	
CMPL 123	 Great Books I: Politics and Literature from Antiquity to 1750	
CMPL 124	 Great Books I: Science and Literature from Antiquity to 1750	
One course from Great Books II (CMPL courses numbered between 130 and 142)		3
CMPL 130	 Great Books II ^H	
CMPL 131	 Great Books II: Savage, Native, Stranger, Other	
CMPL 132	 Great Books II: Performance and Cultural Identity in the African Diaspora	
CMPL 133	Great Books II: Imaging the Americas from the Late 18th Century to the Present	
CMPL 134	 Great Books II: Travel and Identity ^H	
CMPL 142	 Visual Culture II	
Three additional courses numbered between CMPL 200 and CMPL 699		9
Total Hours		15

Creative Writing Minor

The undergraduate creative writing program at UNC–Chapel Hill is — and has long been — one of the best in the country. Its first-rate faculty and students have published widely, won many prizes, and played a major role in shaping the contemporary literature of North Carolina, the South, and the nation.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The Creative Writing Program offers a minor in creative writing. The minor requires 15 hours, a total of five courses.

Enrollment in courses beyond the intermediate level is by permission only. Students may declare the minor through Academic Advising.

The Creative Writing Program also gives credit toward the minor for several courses offered in other departments, such as DRAM 231, COMM 330, COMM 433, and MEJO 356. To qualify for a degree with honors or highest honors in creative writing, students must maintain a 3.3 grade point average and meet all requirements both to enter and to complete the senior honors seminar (ENGL 693H and ENGL 694H).

Students minoring in creative writing and planning to study abroad must plan carefully so that they meet all submission and deadline requirements for applying to successive courses.

To complete the minor, students will complete five (5) courses from one of the following options:

Combination of Genres:

Code	Title	Hours
Select five (5) courses from any track below and/or from the following list of courses: ¹		15
ENGL 156	Introduction to Writing and Creating Comics	
ENGL 259	Improvisational Comedy Games for Writers	
ENGL 307	Studies in Fiction and Poetry: Stylistics	
ENGL 351	From Manuscript to Press: Writer as Publisher	
ENGL 396	Directed Readings in English or Creative Writing (with approval based on topic)	
ENGL 412	Sketch Comedy Writing	
ENGL 490	Creative Writing: Special Topics	
COMM 330	Introduction to Writing for Film and Television	
COMM 433	Intermediate Screenwriting	
MEJO 356	Feature Writing	
Total Hours		15

Fiction Track:

Code	Title	Hours
Select five (5) courses:		15
ENGL 130	Introduction to Fiction Writing	
or ENGL 132	First-Year Honors: Introduction to Fiction Writing	
ENGL 206	Intermediate Fiction Writing (repeatable for credit with different topics)	
ENGL 210	Writing Young Adult Literature	
ENGL 211	Writing Political Fiction	
ENGL 212	Writing Crime and Mystery Fiction	
ENGL 214	Writing Flash Fiction	
ENGL 307	Studies in Fiction and Poetry: Stylistics (with approval based on topic)	
ENGL 406	Advanced Fiction Writing	
ENGL 693H & ENGL 694H	Creative Writing Senior Honors Thesis, Part I and Creative Writing Senior Honors Thesis, Part II (a yearlong, two-semester senior workshop, which counts as two courses and can lead to graduation with honors or with highest honors in creative writing)	
Total Hours		15

Poetry Track:

Code	Title	Hours
Select five (5) courses:		15
ENGL 131	Introduction to Poetry Writing	
or ENGL 133	First-Year Honors: Introduction to Poetry Writing	

ENGL 207 Intermediate Poetry Writing (repeatable for credit with different topics)

ENGL 307 Studies in Fiction and Poetry: Stylistics (with approval based on topic)

ENGL 407 Advanced Poetry Writing

ENGL 693H & ENGL 694H Creative Writing Senior Honors Thesis, Part I and Creative Writing Senior Honors Thesis, Part II (a yearlong, two-semester senior workshop, which counts as two courses and can lead to graduation with honors or with highest honors in creative writing)

Total Hours **15**

Musical/Musical Theater Writing Track:

Code	Title	Hours
Select five (5) courses: ¹		15
ENGL 306	Playwriting	
ENGL 308	Gram-O-Rama: Grammar in Performance	
ENGL 408	Collaboration: Composers and Lyricists	
ENGL 409	Lyrics and Lyricists: A Collaborative Exploration of the Processes of Popular-Song Lyric Writing	
ENGL 490	Creative Writing: Special Topics (with approval based on topic)	
MUSC 166	Introduction to Composition	
MUSC 381	Inside the Song: Analysis of Songcraft	
DRAM 231	Playwriting I	
DRAM 292	"Corner of the Sky": The American Musical	
Total Hours		15

Creative Nonfiction Writing Track:

Code	Title	Hours
Select five (5) courses:		15
ENGL 138	Introduction to Creative Nonfiction ^H	
or ENGL 283	Life Writing	
ENGL 203	Memoir Writing	
ENGL 204	Travel Writing	
ENGL 208	Intermediate Creative Nonfiction Writing (repeatable for credit with different topics)	
ENGL 404	Advanced Creative Nonfiction	
ENGL 693H	Creative Writing Senior Honors Thesis, Part I	
ENGL 694H	Creative Writing Senior Honors Thesis, Part II	
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ No more than two (2) courses can be taken outside the Department of English and Comparative Literature.

ENGL 130, ENGL 131, ENGL 132H, ENGL 133H, ENGL 138, ENGL 138H, and ENGL 283, the introductory classes, are prerequisites to other Creative Writing Program classes. ENGL 130, ENGL 131, and ENGL 138 are open for registration by rising sophomores only during spring semester for the following fall and for current sophomores only during fall semester for the following spring. Rising or current sophomores may register for ENGL 130, ENGL 131, or ENGL 138, but not for more than one of these three courses. Demand by sophomores regularly exceeds the number of seats available. Enrollment of juniors and seniors is on a space-available basis by permission of the instructor, and students may inquire of the instructor during the first week of classes to see if seats are available. ENGL 130, ENGL 131, and ENGL 138 are sometimes offered during summer sessions with no registration restrictions. Please always review summer session course listings for any changes or updates.

Advancement to upper level courses in the fiction, poetry, and nonfiction sequences is by application for both the advanced workshops and senior honors seminars. If possible, the student is assigned to a different instructor for each course. Should students' applications be denied, they may choose to finish the minor as a combination of genres with other classes offered in creative writing. Creative writing minors receive priority in all creative writing classes and usually fill all seats.

Transfer Students: Important Information

The requirement for taking a minor in creative writing is five courses or 15 semester hours. Students are limited to one creative writing course per semester. Most junior transfer students have four semesters remaining. Junior transfer students wanting to minor in creative writing must either

1. Have an introductory course already on their record that will transfer to Carolina as credit, e.g., an introductory course in fiction writing or poetry writing taken previously at a college or university that is transferring in as credit for ENGL 130 or ENGL 131; OR
2. Take an introductory course via UNC–Chapel Hill Summer School prior to their first fall term at Carolina and be promoted to the next level or to another creative writing class (on a space-available basis) in the fall of their junior year.

Permission to move forward with transfer credit for an introductory course requirement (Option 1 above) will require a review by the creative writing faculty of the syllabus and work completed in the course and is dependent on space availability, which cannot be guaranteed. Students must provide hard copies of syllabi and samples of coursework as early as possible in order to ensure time for review and to schedule a meeting with the director.

Note: No more than two creative writing courses from other schools may be counted for credit at UNC–Chapel Hill. At least three of the five courses taken for the minor — courses designated ENGL — must be Creative Writing Program courses taken at Carolina.

Honors in Creative Writing

To qualify for a degree with honors or highest honors in creative writing, students must maintain a 3.3 grade point average and meet all requirements both to enter and to complete the senior honors seminar (ENGL 693H and ENGL 694H).

See the program page here (<https://catalog.unc.edu/undergraduate/programs-study/english-major-ba/#opportunities>) for additional special opportunities.

English Minor

The Department of English and Comparative Literature is a vibrant and diverse department with a global reach. Our course offerings present a diversity of approaches to the study, production, and appreciation of literary and nonliterary texts.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The English minor consists of five courses:

Code	Title	Hours
Core Requirements		
ENGL 120	 British Literature, Medieval to 18th Century ^H	3
One course from Survey II in the core curriculum for the English and Comparative Literature major (see list below)		3
Three (3) additional ENGL courses, with at least two (2) at or above the 200 level. ¹		9
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191.

English (ENGL) course descriptions (p.).

Survey II Courses

Code	Title	Hours
ENGL 151	Nineteenth-Century American Literature	3
ENGL 152	Twentieth-Century American Literature	3
ENGL 117	 Arguing on the Internet: Rhetoric in the Age of Social Media	3
ENGL 121	 British Literature, 19th and Early 20th Century ^{H, F}	3
ENGL 122	 Introduction to American Literature ^H	3
ENGL 124	 Contemporary Literature	3
ENGL 129	 Literature and Cultural Diversity ^{H, F}	3
CMPL 130	 Great Books II ^H	3
CMPL 131	 Great Books II: Savage, Native, Stranger, Other	3
CMPL 132	 Great Books II: Performance and Cultural Identity in the African Diaspora	3
CMPL 133	Great Books II: Imaging the Americas from the Late 18th Century to the Present	3
CMPL 134	 Great Books II: Travel and Identity ^H	3
CMPL 142	 Visual Culture II	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

See the program page here (<https://catalog.unc.edu/undergraduate/programs-study/english-major-ba/#opportunities>) for special opportunities.

Global Cinema Minor

The global cinema minor is an interdisciplinary minor that enables students to explore the changing global face of cinema in its aesthetic, economic, historical, linguistic, literary, and social contexts. Students select a flexible, rigorous, and exciting course of study focused on the place of film within and across human cultures. The minor aims to provide undergraduates with grounding in the history of cinema's development across the world as well as current trends and developments in global film production. The minor places a particular emphasis on the development of students' critical judgment and written expression. Undergraduate students majoring in any academic unit are eligible.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The interdisciplinary minor consists of five courses:

Code	Title	Hours
Core Requirements		
ARTH 159	 The Film Experience: Introduction to the Visual Study of Film	3
or ENGL 142	 Film Analysis	
CMPL 143	 History of Global Cinema	3
Three electives from at least two different departments, chosen from the list below		9
Total Hours		15

For additional information, contact the director of the global cinema minor.

Latina/o Studies Minor

Latina/o studies is constituted from the transdisciplinary study of Latina/o cultural production and experience in terms of a whole variety of factors. Latinas/os are defined as people of Latin American and Iberian descent living and working or based in the United States, but also moving between the United States and the rest of the Americas. Latina/o studies takes as its primary concern the presence of Latin America, Spain, and the myriad combinations of Hispanic-Native-African-Asian and European non-Hispanic cultures within the borders of the United States. However, Latina/o studies is not confined within those borders to the extent that its subjects of study (and the very creators of the field itself) are in motion and in flux, coming and going, crossing borders and boundaries. In this respect it shares some of the transnational and transcultural scope, momentum, and issues of Latin American studies but with its own foci, its own perspectives. Latina/o studies does not duplicate the work of Latin American studies; it draws on it and complements it.

Latina/o studies encompasses Chicana/o studies, Puerto Rican studies, Cuban American studies, Dominican studies, Central American studies, South American studies, and so forth. It takes into account the cultural production and the socioeconomic and political experiences of a diverse population located in many parts of the country, not just in the Southwest borderlands.

The main stipulation of the minor is that students must take a combination of courses in the humanities (literatures and cultural production) and the social sciences (communities and cultural space), some of which have been designated as core courses and others as electives. Students who feel they need a basic introduction to Latina/o studies should take ENGL 164.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Requirements for the five-course minor in Latina/o studies are as follows:

Code	Title	Hours
Core Requirements		
	One humanities/fine arts course in Latina/o literatures and cultural production (see list below)	3
	One course in social sciences or Latina/o communities and cultural space (see list below)	3
	Three elective courses chosen from the two lists below or from AAAD 260 or DRAM 486.	9
Total Hours		15

Humanities/Fine Arts Course in Latina/o Literatures and Cultural Production

Code	Title	Hours
AAAD 284	 Contemporary Perspectives on the African Diaspora in the Americas	3
DRAM 288	 Theatre for Social Change	3
DRAM 488	 United States Latino/a Theatre	3
ENGL 164	 Introduction to Latina/o Studies ^H	3
ENGL 265	 Literature and Race, Literature and Ethnicity ^{1, H}	3
ENGL 267	 Growing Up Latina/o	3
ENGL 359	 Latina Feminisms: Civil Rights, Ecofeminism, and Health Studies	3
ENGL 394	 Misbehaving Bodies: Dis/ease, Dis/order, & Dys/topia in Latinx Fiction and Film	3
ENGL 464	 Latinx Hybrid Narrative: Experimental Fiction and Film	3
ENGL 467	 Educating Latinas/os: Preparing SLI Mentors	3
ENGL/WGST 665	 Queer Latina/o Literature, Performance, and Visual Art	3
ENGL/WGST 666	 Queer Latina/o Photography and Literature	3
ENGL 687	 Queer LatinX Environmentalisms	3
HIST 241	History of Latinos in the United States	3
HIST 237	 Colonial American History to 1763	3
MUSC 147	 Introduction to the Music of the Américas	3
RELI 245	Latina/o Religions in the United States-Mexico Borderlands ^H	3
SPAN 389	Outside Cuba: Diasporic Literature and Culture	3
SPAN 398	Undergraduate Seminar in Literature and Culture	3
WGST 211	 Introduction to Latina Feminisms: Literature, Theory, and Activism	3
WGST 233	 Introduction to Latina Literature	3
WGST 465	 Gender, (Im)migration, and Labor in Latina Literature	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ With approval based on topic.

Social Sciences or Latina/o Communities and Cultural Space

Code	Title	Hours
AAAD 278	 Black Caribbeans in the United States	3
AAAD 290	Topics in African, African American, and Diaspora Studies	3
AAAD 340	Diaspora Art and Cultural Politics	3
ANTH/FOLK 130	Anthropology of the Caribbean	3
ENGL 467	 Educating Latinas/os: Preparing SLI Mentors	3

ENGL 687	 Queer LatinX Environmentalisms	3
GEOG 56	 First-Year Seminar: Local Places in a Globalizing World (first-year students only)	3
GEOG 423	Social Geography	3
GEOG 542	Neighborhoods and Health	3
MEJO 443	Latino Media Studies	3
PLCY 349	Immigration Policy in the 21st Century	3
WGST 211	 Introduction to Latina Feminisms: Literature, Theory, and Activism	3
WGST 233	 Introduction to Latina Literature	3
WGST 465	 Gender, (Im)migration, and Labor in Latina Literature	3

Medicine, Literature, and Culture Minor

The interdisciplinary honors minor in medicine, literature, and culture was developed in collaboration with Honors Carolina and the Department of Social Medicine in the UNC School of Medicine. It encourages students to explore the cultural and historical dimensions of medical practice by viewing the practice of medicine not simply as an application of chemical and biological analyses of and interventions in the functioning of the human body but also as a cultural practice embedded in changing ideas of disease, health, doctors, patients, medical institutions, and ethics. The minor is available to students accepted into Honors Carolina and to any undergraduate student who has achieved and maintains a grade point average of 3.00 or better.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Five courses representing at least three different subject codes:		15
ENGL 268H	 Medicine, Literature, and Culture	
Four additional courses in at least two additional subject codes		
Total Hours		15

Options for additional courses include, but are not limited to, the following courses:

Code	Title	Hours
AAAD 300	 Cultures of Health and Healing in Africa	3
AAAD 387	 HIV/AIDS in Africa and the Diaspora	3
ANTH 147	 Comparative Healing Systems	3
ANTH 270	 Living Medicine	3
ANTH 272/ ENGL 264	 Healing in Ethnography and Literature	3
ANTH 319	 Global Health	3

ANTH 442/ WGST 440	Health and Gender after Socialism	3
ANTH/WGST 443	 Cultures and Politics of Reproduction	3
ANTH 444	Medicine, Politics, and Justice	3
ANTH 448	 Health and Medicine in the American South	3
ANTH/FOLK 470	Medicine and Anthropology	3
ANTH/FOLK 473	Anthropology of the Body and the Subject	3
ANTH 474	The Anthropology of Disability	3
CMPL 383	Literature and Medicine ^H	3
ENGL 163	 Introduction to Health Humanities	3
ENGL 264	 Healing in Ethnography and Literature	3
ENGL 266	 Science and Literature ^H	3
ENGL 269	 Introduction to Disability Studies	3
ENGL 370	 Race, Health, and Narrative ^H	3
ENGL 610	 Practicum in Health Humanities	3
ENGL 611	 Narrative, Literature, and Medicine: Advanced Interdisciplinary Seminar	3
GEOG 222	Health and Medical Geography	3
GLBL 483	 Comparative Health Systems ^H	3
HIST 329	An Introduction to the History of Medicine ^H	3
HNRS 337	Narrative and Medicine	3
HNRS 362	NHS Scotland - Policies, Problems, and Innovative Solutions	3
HNRS 650	Topics in Medicine and the Humanities	1-6
MEJO 560	Environmental and Science Journalism ^H	3
PHIL 165	 Bioethics ^H	3
PLCY 361	Health Policy in the United States	3
PLCY/HPM 565	Global Health Law & Policy	3
PLCY 570/ HPM 571	Global Health and Human Rights	3
RELI 220	 Religion and Medicine ^H	3
RELI 665/ WGST 664	Body and Suffering in Christian Mysticism	3
SOCI 180	 Introduction to Global Population Health	3
SOCI 422	 Sociology of Mental Health and Illness	3
SOCI 431	Aging	3
SOCI 469	Health and Society	3
WGST 330	 Women's Health Activism in Twentieth Century America	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional courses can be applied to the requirements for this minor with the approval of the advisor for the minor.

At least three courses used to fulfill requirements for the minor must be counted exclusively in the minor and cannot be double-counted with a major or second minor. All courses must be taken for a standard letter grade, with the exception of one course (three to four credit hours) of By-Examination (BE) credit.

See the program page here (p. 331) for special opportunities.

Environment, Ecology, and Energy Program

Introduction

The Environment, Ecology, and Energy Program (E3P) offers diverse and multidisciplinary undergraduate degree programs in environmental science (B.S.) and environmental studies (B.A.). Faculty throughout the University, including the College of Arts and Sciences and the schools of business, government, law, and public health, mentor students through courses, internships, and research opportunities. This unique approach provides students an opportunity to explore the knowledge base needed to understand the environment and its relationship to society, as well as the applications of that knowledge in areas such as environmental modeling; aquatic systems; environmental behavior and decisions; environmental change and human health; ecology, conservation, and biodiversity; energy management; and population and the environment. The degrees combine traditional classroom teaching with extensive use of interdisciplinary, team-based projects, internships, study abroad opportunities, and research.

Advising

E3P maintains an advising system for students with an environmental interest. Students are encouraged to contact the director of undergraduate studies as early as they wish in their academic plan to discuss options and be assigned to a faculty advisor. Students may use the advising system from the time they enter UNC–Chapel Hill, obtaining advice from specialists in the various environmental fields. This advising system includes opportunities to meet with professionals from government, industry, and consulting to learn about the skills needed to work effectively in those fields if students are interested. In addition we routinely schedule seminars and host visitors who showcase career opportunities by their example in their respective fields.

Facilities

Program faculty and staff, including the EcoStudio Internship Incubator, occupy offices and laboratories in Venable/Murray Halls (third and fourth floors). Faculty are also located at facilities in Manteo, Morehead City, and Highlands, N.C.

Graduate School and Career Opportunities

A major in environmental science or studies prepares students for a variety of career options, including marine scientist, ecologist, environmental modeler, energy project manager, environmental policy maker, conservation advocate, land use planner, and environmental educator. Combining either major with other studies at the undergraduate or graduate level can lead to careers as an environmental lawyer, epidemiologist, or environmental geneticist, to cite a few examples.

Majors

- Environmental Studies Major, B.A. (p. 344)
- Environmental Science Major, B.S. (p. 352)
- Dual Bachelor's–Master's Degree Programs (p. 351)

Minors

- Environmental Humanities Minor (p. 342)
- Environmental Science and Studies Minor (p. 360)

- Food Studies Minor (p. 361)
- Sustainability Studies Minor (p. 363)

Graduate Programs

- Doctor of Philosophy (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programtext>)
- Master of Science (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programtext>)
- Master of Arts (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programtext>)

Courses

Environmental Humanities Minor

The Environmental Humanities minor invites students to explore how stories, arts, and cultures shape the way people understand and respond to environmental change. Through ethnography, history, literature, and art, students will see the environment not just as an object for scientific analysis but as a source of meaning, inspiration, and multispecies connections. This minor draws on UNC's longstanding strengths in the humanities while connecting them to urgent environmental challenges. Unlike programs that approach the environment primarily through science or policy, this minor turns to cultural perspectives and human experiences, giving students a holistic lens for understanding and addressing past, present, and future planetary problems. By completing the minor, students develop a foundation in the interdisciplinary field of Environmental Humanities as well as sharpen their writing and communication skills and gain experience in research and analysis. These strengths prepare students for careers in science communication, policy and advocacy, education, nonprofit work, and beyond, as well as for graduate study in the humanities or environmental fields.

Requirements

- In addition to the program requirements listed below, students must:
- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
 - earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

¹ Language prerequisite required.

Graduate School and Career Opportunities

The Environmental Humanities minor, in combination with a student's major, prepares students for careers and opportunities that bridge the humanities, arts, and environmental fields, including public scholarship and advocacy, arts and museum work, journalism and media, law, policy, and research. Students may also engage with nationally and regionally prominent institutions conveniently based in the area, such as the National Humanities Center or the publication Southern Cultures, gaining exposure to networks and experiences that support both professional development and postgraduate study. See the program page here for additional special opportunities.

Environmental Studies Major, B.A.

This major is designed for students seeking interdisciplinary preparation in the social and natural sciences needed to understand how society affects the environment, how it organizes itself to respond to environmental problems, and how understanding of the environment is transmitted through culture. The major prepares students for graduate and professional training, especially in environmental policy, journalism, education, and law. There are two tracks available. Students should contact Dr. Amy Cooke (amycooke@unc.edu) to discuss the right track for their interests and career goals.

Student Learning Outcomes

Upon completion of the environmental studies program (B.A.), students should be able to:

- Demonstrate knowledge in the connections in social and/or natural sciences through an understanding of major concepts, theoretical reasoning, and empirical findings in environmental studies
- Demonstrate knowledge of a marketable skill (e.g. GIS, communication, statistics) to enhance their ability to apply concepts from the program in the real world
- Demonstrate mastery of research and problem-solving skills through individual or team-based projects working for a researcher or client in a social or natural science

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The environmental studies program provides two options:

- Environmental Studies Major, B.A. (p. 344) (with several concentration areas)
- Environmental Studies Major, B.A.–Sustainability Track (p. 347)

Environmental Studies Major, B.A.

Code	Title	Hours

ANTH 419	 Anthropological Application of GIS	

ENEC 340	Environmental Applications of Drones ¹	
ENEC 479	Landscape Analysis ¹	
GEOG 370	 Geographic Information Science	
GEOG 491	Principles of Geographic Information Systems	
GEOG 541	GIS in Public Health	
GEOG 591	 Applied Issues in Geographic Information Systems	
GEOG 456	 Geovisualizing Change	
GEOG 592	 Geographic Information Science Programming	
Remote Sensing:		
GEOG 370	 Geographic Information Science	
GEOG 477	 Introduction to Remote Sensing of the Environment	
GEOG 577	 Advanced Remote Sensing	
EMES 483	GIS and Remote Sensing for Earth and Ocean Sciences	
Statistics & Analytics:		
STOR 155	 Introduction to Data Models and Inference ^{H, F}	
	or BIOS 600 Principles of Statistical Inference	
ECON 400	 Introduction to Data Science and Econometrics ^H	
EMES 203	 Data Analysis for Earth, Marine, and Environmental Sciences	
ENEC 492	Social Science Research Methods	
ENEC 562	Statistics for Environmental Scientists	
ENEC/ENVR 570	Uncertainty, Decisions, and the Environment	
PLCY 460	 Quantitative Analysis for Public Policy ^H	
Five courses chosen from one of the concentrations list below		15-20
Additional Requirements		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
ECON 101	 Introduction to Economics ^{H, F}	4
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
Select one of the following options: ³		8
CHEM 101/101L and CHEM 102/102L		
PHYS 114 & PHYS 115	 General Physics I: For Students of the Life Sciences and  General Physics II: For Students of the Life Sciences ^F	
PHYS 118 & PHYS 119	 Introductory Calculus-based Mechanics and Relativity and  Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	
Enough General Education and free electives to accumulate at least 120 credit hours. ²		
Total Hours		120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ This course appears on a core requirement list as well as a concentration requirement list, but can only be counted toward one of the two.

² Recommended courses are ECON 400 and one of the following PH courses: COMM 375/ENEC 375, ENEC 325, or ENEC 368/PHIL 368.

³ Courses to be taken in a series; e.g., CHEM 101+L and CHEM 102+L.

Agriculture and Health Concentration

Code	Title	Hours
ANTH/ENEC 238	 Human Ecology of Africa	3
ANTH 252	 Archaeology of Food	3
ANTH 306	Water and Inequality: Anthropological Perspectives	3
ANTH 319	 Global Health	3
ENEC 280	Fungi: Architects of Ecosystems and Sustainable Futures	3
ENEC 324 & 324L	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems and  Water in Our World Laboratory ¹	4
ENEC 325	 Water Resource Management for Food, Energy, and Health ^H	3-4
ENEC 340	Environmental Applications of Drones ¹	3
ENEC 370	Agriculture and the Environment ^H	3
ENEC 395	 Research in Environmental Sciences and Studies for Undergraduates	3
or ENEC 396	Directed Readings	
ENEC/ENVR 522	Environmental Change and Human Health	3
ENEC 693H	 Honors Research in Environmental Sciences and Studies ¹	3
or ENEC 694H	 Honors Project in Environmental Sciences and Studies	
GEOG 334	Human Ecology of Health and Disease	3
GEOG 457	 Rural Latin America: Agriculture, Environment, and Natural Resources ^H	3
GEOG 542	Neighborhoods and Health	3
PLAN/ENEC/ENVR 635	Energy Modeling for Environment and Public Health	3
PLCY 475	The Political Economy of Food ^H	3
PLCY 485	Poverty, Health, and Human Development in Low Income Countries	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ This course appears on a core requirement list as well as a concentration requirement list, but can only be counted toward one of the two.

Ecology and Society Concentration

Code	Title	Hours
ANTH/ENEC 238	 Human Ecology of Africa	3
ANTH 318	 Human Growth and Development	3
ANTH 439	 Political Ecology	3
ANTH/ENEC 460	Historical Ecology	3
BIOL 260	Introduction to Ecology	3
BIOL/ENEC 272	Local Flora	3
BIOL 277	Vertebrate Field Zoology	3
BIOL 402	Infectious Disease in the Developing World	3
BIOL 427	Human Diversity and Population Genetics	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Environmental Studies Major, B.A. – Sustainability Track

This major is designed for students who wish to pursue business and policy with an interdisciplinary approach to resiliency and sustainability. This track is appropriate for students wishing to pursue graduate or professional studies in business or policy.

Code	Title	Hours
Core Requirements		
ENEC 201	Introduction to Environment and Society ^{H, F}	4
ENEC 307	Energy and Material Flows in the Environment and Society	3
ENEC 698	Capstone: Analysis and Solution of Environmental Problems	3

or ENEC 694H	 Honors Project in Environmental Sciences and Studies	
One course from the following options: ²		3
ENEC 330	Principles of Sustainability ^H	
ENEC/PLCY 373	Confronting Climate Change in the Anthropocene	
ENEC 421	 Textiles: Environmental Impacts, Issues, and Innovations	
ENEC 431	Sustainable Cities: Exploring Ways of Making Cities More Sustainable	
ENEC 474	Sustainable Coastal Management	
BUSI 507H	Sustainable Business and Social Enterprise	
One course from each of the Pillars of Sustainability, plus one additional course at the 300-level or above in any pillar (4 courses total):		12-15
Equity		
ANTH 306	Water and Inequality: Anthropological Perspectives	
ANTH 439	 Political Ecology	
ANTH 539	 Environmental Justice	
ENEC 309	Environmental Values and Valuation	
ENEC 325	 Water Resource Management for Food, Energy, and Health ^H	
ENEC 350	 Environmental Law and Policy	
ENEC 351	Coastal Law and Policy	
ENEC/GEORG 437	 Social Vulnerability to Climate Change	
GEOG 470	 Political Ecology: Geographical Perspectives	
GEOG 480	 Liberation Geographies	
PHIL/ENEC 368	 Living Things, Wilderness, and Ecosystems: An Introduction to Environmental Ethics ^H	
PLAN 247	 Solving Urban Problems	
PLAN 574	Political Economy of Poverty and Inequality	
PLAN 637	 Public Transportation	
PLAN 638	Pedestrian and Bike Transportation	
PLAN 639	 Complete Streets	
PLCY 373	Confronting Climate Change in the Anthropocene ²

or COMP 110	Introduction to Scientific Programming
COMP 210	Data Structures and Analysis
INLS 161	Tools for Information Literacy
INLS 382	Information Systems Analysis and Design
INLS 560	Introduction to Programming
Additional Requirements	
ECON 101	 Introduction to Economics ^{H, F} 4
MATH 152	 Calculus for Business and Social Sciences ^F 3
or MATH 231	 Calculus of Functions of One Variable I
or STOR 113	 Decision Models for Business and Economics
STOR 120	 Foundations of Statistics and Data Science ^{H, F} 4
or STOR 155	 Introduction to Data Models and Inference

or DATA 110  Introduction to Data Science

Enough General Education and free electives to accumulate at least varies 120 credit hours. ¹

Total Hours **120**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Recommended courses are ENEC 202I, ECON 400 and one of the following courses: ENEC 325, COMM 375/ENEC 375, or PHIL 368/ENEC 368.

² This course appears on a core requirement list as well as a pillar requirement list, but can only be counted towards one of the two.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Suggested Program of Study for B.A. Major

First Year	Hours
First-Year Foundation Courses	
IDST 101  College Thriving	1
ENGL 105  English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F	3
IDST 111L  Data Literacy Lab	1
Global Language through level 3 (p. 670)	varies
Major Courses	
BIOL 101  Principles of Biology & 101L  and  Introductory Biology Laboratory ^{H, F}	4
ECON 101  Introduction to Economics ^{H, F}	4
ENEC 201  Introduction to Environment and Society ^{H, F}	4
MATH 231  Calculus of Functions of One Variable I ^{H, F}	4
Additional Courses	
Lifetime Fitness (p. 735)	1
Electives or IDEAs in Action Requirements	6
Hours	31
Sophomore Year	
ENEC 202I  Introduction to the Environmental Sciences	4

Select one of the following: 4

CHEM 101 & 101L  General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}

PHYS 114  General Physics I: For Students of the Life Sciences ^F

PHYS 118  Introductory Calculus-based Mechanics and Relativity ^{H, F}

Select one of the following: 4

CHEM 102 & 102L  General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}

PHYS 115  General Physics II: For Students of the Life Sciences ^F

PHYS 119  Introductory Calculus-based Electromagnetism and Quanta ^{H, F}

One earth system science core 3-4

Two courses from the concentration core 6

Electives or IDEAs in Action Requirements 7

Hours 28-29**Junior Year**

Two courses from the environmental skills core 6

Two courses from the concentration core 6

ECON 400  Introduction to Data Science and Econometrics ^H 4

Electives or IDEAs in Action Requirements 15

Hours 31**Senior Year**

ENEC 698  Capstone: Analysis and Solution of Environmental Problems
or
ENEC 694H  or  Honors Project in Environmental Sciences and Studies 3

Remaining concentration course 3

Electives or IDEAs in Action Requirements as needed to complete curriculum and a minimum of 120 academic hours 24

Hours 30**Total Hours 120-121**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Suggested Program of Study for the Sustainability Track

Electives or IDEAs in Action Requirements 21

Hours 30**Senior Year**

ENEC 698  Capstone: Analysis and Solution of Environmental Problems
or
ENEC 694H  or  Honors Project in Environmental Sciences and Studies 3

Remaining IDEAs in Action courses and free electives to reach a minimum of 120 credit hours 27

Hours 30**Total Hours 120**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Dual Bachelor's–Master's Degree Program

Three dual bachelor's–master's programs are offered:

1. *Environmental informatics* is a collaboration between E3P and the School of Information and Library Science;
2. *Environmental finance and leadership* is a collaboration between E3P and the School of Government;
3. *Environmental geography* is a collaboration between E3P and the Department of Geography.

Each program is designed for students to earn their bachelor's degree and complete a master's degree in a professional school or program in as few as five years:

- The dual degree in environmental informatics is approached through the bachelor of science degree with a major in environmental science, and students then complete a master's in information sciences (M.S.I.S.).
- The dual degree in environmental finance and leadership is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master of public administration (M.P.A.).
- The dual degree in environmental geography is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master's in geography.

Students in these programs may begin taking courses for the graduate degree while in the undergraduate program. In some programs, up to 12 hours of undergraduate credits can also be counted in the graduate degree. Early advising is essential to success in navigating these dual-degree programs. Advisors are available in both units to help students prepare and select courses appropriately to get the most from their education.

Applying for one of the dual-degree programs is a two-step process. It is highly recommended that interested first- and second-year students speak to an advisor early in their college program. Students must submit a conditional application to most programs no later than their junior year to ensure that they will receive preference in registering for courses. Students must formally apply to the program through The Graduate School in their senior year. The GRE is not required for applications from current UNC–Chapel Hill students for the dual degrees in environmental science and communication, nor for the dual degrees in environmental geography; for other dual degrees students should check with their advisors about GRE requirements. For complete information on the application process and curriculum requirements, please go to the specific website listed above for the dual-degree program of interest.

In addition to the three dual-degree programs specific to collaborations with E3P, there are other dual-degree undergraduate/graduate programs developed by other UNC departments and colleges. Programs of interest include the Department of City and Regional Planning for a master's in city and regional planning (M.C.R.P.) (<https://planning.unc.edu/academics/dual-degree/bachelor/>), the Department of Public Policy for a master's in public policy (M.P.P.) (<https://publicpolicy.unc.edu/mpp/>), and the Gillings School of Global Public Health (<https://sph.unc.edu/envr/bachelors-to-masters-programs/>) for a range of public health-related master's programs.

Special Opportunities in Environmental Science and Studies

Honors in Environmental Science or Studies

Students in either the B.S. or B.A. degree program may participate in honors research leading to graduation with honors or highest honors. This distinction is earned by participation in honors research (ENEC 693H) and culminates in ENEC 694H, thesis writing and defense. Students should follow the guidelines established by Honors Carolina and meet with the faculty honors advisor, Dr. Geoff Bell (gwbell@email.unc.edu), to ensure that appropriate requirements are fulfilled. (Requirements can be found on the Honors Program website (<http://honorscarolina.unc.edu/current-students/honors-thesis-and-undergraduate-research/honors-thesis/>)). Honors students can use three credit hours of ENEC 693H (research) or ENEC 694H (thesis), but not both courses, to fulfill a concentration requirement.

Departmental Involvement

The Epsilon Eta Environmental Honors Fraternity is an organization dedicated to excellence in environmental education. Interested students are nominated for membership and membership is not limited to E3P majors. E3P faculty are involved with a number of student organizations and initiatives across campus. See UNC Heel Life (<https://heelife.unc.edu/>) for more environmental clubs at Carolina.

Experiential Education

Possibilities for experiential education include APPLES service-learning courses (ENEC 593), Coral Reef Ecology and Management (ENEC 259), internships (ENEC 393, ENEC 493), research (ENEC 395, ENEC 396, ENEC 698), and honors research (ENEC 693H, ENEC 694H).

Additionally, a series of five experiential education field sites (<https://ie.unc.edu/field-education/field-sites/>) are located in North Carolina and around the world where students may take coursework and conduct research for a semester. Fall semester field sites are offered in North Carolina at Highlands Biological Station (mountain/ecology), the Institute for Marine Sciences (marine ecology/geology), and the Coastal Studies Institute/Outer Banks (coastal policy and economics). Spring semester field sites are offered on the UNC campus (sustainability/urban planning) and in Thailand (energy and pollution).

Summer programs are also offered in the Galapagos via UNC's Center for Galapagos Studies. Faculty members often arrange Burch Program summer educational trips to such locations as Australia (conservation, restoration, and natural resource management) and northern Europe (energy, sustainability, and communication). Contact our advisors about other opportunities — many other study abroad programs combine well with the E3P program.

Internships

Students are encouraged to apply for paid or unpaid internships in local, state, national, and international environmental organizations. Internship opportunities can be found through the Ecstudio Internship Incubator website (<https://ecstudio.unc.edu/>). These internships provide valuable practical experience, and some may be conducted for academic credit. Students interested in academic credit should contact the director of undergraduate studies, Dr. Amy Cooke (amycooke@unc.edu), or the Ecstudio, to obtain the required application for credit before the term begins. Students may also find their own internship and petition the Ecstudio to gain academic credit.

Study Abroad

Exchange and other study abroad programs are available through the UNC Study Abroad Office. At some locations students may take courses for UNC credit, such as some field sites listed above. Students may take courses at other universities during study abroad and apply for transfer credit as well. We encourage students to participate in study abroad during their career at Carolina.

Undergraduate Awards

Undergraduates may be considered for the Watts and Betsy Carr Awards, Mary and Watts Hill Jr. Awards, and Robert Alonzo Winston Scholarships.

Undergraduate Research

All students are encouraged (but not required) to complete an independent or team research project. Such projects introduce students to the tools needed for graduate study. They also provide an important opportunity for working directly with the world-class environmental faculty members and graduate students at UNC–Chapel Hill, as well as in the many environmental organizations in the Research Triangle. The Triangle area contains one of the largest collections of environmental organizations and expertise in the world, providing unique opportunities for students to conduct research on an immense range of topics from fundamental scientific research to policy applications. Students interested in obtaining course credit for research should speak with either Dr. Geoff Bell (honors advisor) or Dr. Amy Cooke (director of undergraduate studies) to ensure all the requirements and appropriate paperwork has been approved within the first week of classes.

Department Programs

Majors

- Environmental Studies Major, B.A. (p. 344)
- Environmental Science Major, B.S. (p. 352)
- Dual Bachelor's–Master's Degree Programs (p. 351)

Minors

- Environmental Humanities Minor (p. 342)
- Environmental Science and Studies Minor (p. 360)
- Food Studies Minor (p. 361)
- Sustainability Studies Minor (p. 363)

Graduate Programs

- Doctor of Philosophy (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext>)
- Master of Science (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext>)
- Master of Arts (<https://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext>)

Courses

- Environment, Ecology, and Energy (ENEC) (<https://catalog.unc.edu/courses/enec/>)

Environmental Science Major, B.S.

This major is designed for students focusing on such topics as how material and energy are moved and transformed in complex environmental systems, the role of society in perturbing those processes, and scientific techniques that might be used to improve environmental quality. The program provides interdisciplinary preparation for graduate or professional training as well as for jobs in government, consulting, and industry. There are two tracks available. Interested students should contact Dr. Amy Cooke (amycooke@unc.edu) to discuss which track best fits their interests and career goals.

Student Learning Outcomes

Upon completion of the environmental sciences program (B.S.), students should be able to:

- Demonstrate knowledge in the connections in social and/or natural sciences through an understanding of major concepts, theoretical reasoning, and empirical findings in environmental studies
- Demonstrate knowledge of a marketable skill (e.g. GIS, communication, statistics) to enhance their ability to apply concepts from the program in the real world
- Demonstrate mastery of research and problem-solving skills through individual or team-based projects working for a researcher or client in a social or natural science

Requirements

The environmental science program provides two options:

- Environmental Science, B.S. (p. 353) (with several concentration areas)
- Environmental Science, B.S.–Quantitative Energy Systems Track (p. 355)

Environmental Science, B.S.

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
ENEC 201	 Introduction to Environment and Society ^{H, F}	4
ENEC 202I	 Introduction to the Environmental Sciences	4
ENEC 203	 Introduction to Environmental Science Problem Solving	3
or EMES 203	 Data Analysis for Earth, Marine, and Environmental Sciences	
or ENEC 415	Environmental Systems Modeling	
ENEC 698	 Capstone: Analysis and Solution of Environmental Problems	3
or ENEC 694H	 Honors Project in Environmental Sciences and Studies	
Two courses from one analytical skills option:		6-7
Applied Math:		
MATH 233	 Calculus of Functions of Several Variables ^H	
MATH 383	First Course in Differential Equations ^H	
GIS and Remote Sensing:		
ANTH 419	 Anthropological Application of GIS	
EMES 483	GIS and Remote Sensing for Earth and Ocean Sciences ¹	
ENEC/ENVR 468	Temporal GIS and Space/Time Geostatistics for the Environment and Public Health	
ENEC 340	Environmental Applications of Drones ¹	
ENEC 479	Landscape Analysis ¹	
GEOG 370	 Geographic Information Science ¹	
GEOG 456	 Geovisualizing Change	
GEOG 477	 Introduction to Remote Sensing of the Environment	
GEOG/PLAN 491	Principles of Geographic Information Systems	
GEOG 577	 Advanced Remote Sensing	
GEOG 591	 Applied Issues in Geographic Information Systems	
Statistics:		
BIOL/ENEC 562	Statistics for Environmental Scientists ¹	

BIOL/ENEC 563	Statistical Analysis in Ecology and Evolution	
BIOS 511	Introduction to Statistical Computing and Data Management	
BIOS 650	Basic Elements of Probability and Statistical Inference I	
EMES 515	 Quantitative Ecology ¹	
EMES 520	Data Analysis for Earth and Marine Sciences	
EMES 525	Modelling in Earth and Marine Sciences	
ENEC/ENVR 570	Uncertainty, Decisions, and the Environment	
STOR 455	Methods of Data Analysis ^H	
STOR 556	Time Series Data Analysis	
Informatics		
BUSI 410	Business Analytics	
BUSI 520	Advanced Spreadsheet Modeling for Business	
INLS 161	Tools for Information Literacy	
INLS 382	Information Systems Analysis and Design	
INLS 523	Introduction to Database Concepts and Applications	
INLS 541	Information Visualization	
STOR 215	 Foundations of Decision Sciences	
STOR 305	 Introduction to Decision Analytics	
Five courses chosen from one of the following concentrations (see 15-20 lists below)		
Additional Requirements		
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	 General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
COMP 110	 Introduction to Programming ^H	3
or COMP 116	Introduction to Scientific Programming	
or BIOL 222	 Introduction to Programming with Biological Data	
or INLS 560	Introduction to Programming	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
STOR 155	 Introduction to Data Models and Inference ^{H, F}	3
or BIOS 600	Principles of Statistical Inference	
Select one of the following:		8
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory	
& BIOL 104	and  Biodiversity ^{H, H, F}	
PHYS 118 & PHYS 119	 Introductory Calculus-based Mechanics and Relativity and  Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	
PHYS 114 & PHYS 115	 General Physics I: For Students of the Life Sciences and  General Physics II: For Students of the Life Sciences ^F	

Students are required to earn a minor in an allied science, such as biology, chemistry, computer science, data science, geography, geographic information sciences, geology, hydrology, information science, marine science, mathematics, physics, risk management, or statistics and analytics.

Enough free electives to accumulate minimum of 120 credit hours. ²varies

Total Hours **120**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ These courses are listed as options for multiple requirements (major core, concentrations, and/or additional requirements), but can only be counted towards one of the requirements.

² Recommended courses include ECON 101 and one of the following FC-VALUES courses: ENEC 325, ENEC 350 (<https://catalog.unc.edu/search/?search=ENEC+350>), or ENEC 368/PHIL 368;

Ecology and Natural Resources Concentration

Code	Title	Hours
BIOL 260	Introduction to Ecology	3
BIOL/ENEC 272	Local Flora	3
BIOL 277 & 277L	Vertebrate Field Zoology and Vertebrate Field Zoology Laboratory	4
BIOL/ENEC 461	Fundamentals of Ecology	4
BIOL 463	Field Ecology	4
BIOL 464	Global Change Biology	3
BIOL 465	 Global Biodiversity and Macroecology	3
BIOL 469	Behavioral Ecology	3
BIOL 471 & 471L	Evolutionary Mechanisms and Evolutionary Mechanisms Laboratory	4
BIOL 476 & 476L	Avian Biology and Avian Biology Laboratory	4
BIOL 561	Ecological Plant Geography	3
BIOL/ENEC 562	Statistics for Environmental Scientists ¹	4
BIOL/ENEC 563	Statistical Analysis in Ecology and Evolution	4
BIOL 564	Population Ecology	3
BIOL 565	Conservation Biology ^H	3
BIOL 568H	Disease Ecology and Evolution	3
EMES 202	Oceanography ¹	3
EMES 507/ENVR 520	Biological Oceanography	4

GEOG 414	 Climate Change	3
GEOG 416	 Applied Climatology: The Impacts of Climate and Weather on Environmental and Social Systems	3
GEOG 440/ EMES 502	Earth Surface Processes	3
GEOG/ENEC 437	 Social Vulnerability to Climate Change	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ These courses appear in the major core, concentrations, and/or additional requirements, but can only be counted toward one of these requirements

Environmental Science, B.S.–Quantitative Energy Systems Track

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

This major is designed for students with a strong interest in water, energy, and sustainable natural resources, and interdisciplinary approaches to analytics, informatics, or business. The degree provides interdisciplinary preparation for graduate or professional training as well as for jobs in government, consulting, and industry.

Code	Title	Hours
Core Requirements		
ENEC 201	 Introduction to Environment and Society ^{H, F}	4
ENEC 203	 Introduction to Environmental Science Problem Solving	3

or ENEC 694  Honors Project in Environmental Sciences and Studies	
PLAN/ENEC 547	Energy, Transportation, and Land Use
PLAN 636	 Urban Transportation Planning
PLAN 637	 Public Transportation
PLAN 638	Pedestrian and Bike Transportation

PLAN 639	 Complete Streets
PLAN/ENEC 641	Watershed Planning
PLAN 651	Urban Form and the Design of Cities
PLAN 652	Site Planning and Urban Design
PLAN 655	Planning for Natural Hazards and Climate Risk
PLAN 672	Urban Data Analytics
PUBA/PLAN/ENVR 787	Applied Environmental Finance: How to Pay for Environmental Services

Additional Requirements

COMP 110	 Introduction to Programming ^{1, H}	3-4
or COMP 116	Introduction to Scientific Programming	
or PHYS 331	Numerical Techniques for the Sciences I	
or BIOL 222	 Introduction to Programming with Biological Data	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^H	4
STOR 155	 Introduction to Data Models and Inference ^{H, F}	3
or BIOS 600	Principles of Statistical Inference	
Select one series from the following course pairs: ^{1,2}		7-8
BIOL 101 & 101L & BIOL 104	 Principles of Biology and  Introductory Biology Laboratory and  Biodiversity ^{H, F}	
CHEM 101 & 101L & CHEM 102 & CHEM 102L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I and  General Descriptive Chemistry II and  Quantitative Chemistry Laboratory II ^{H, F}	
PHYS 114 & PHYS 115	 General Physics I: For Students of the Life Sciences and  General Physics II: For Students of the Life Sciences ^F	
PHYS 118 & PHYS 119	 Introductory Calculus-based Mechanics and Relativity and  Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	

Enough General Education courses and free electives to satisfy 12051-61 credit hours.

Total Hours **120**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Several courses are listed under multiple requirements in the major but can only be used to fulfill one requirement per course. For example: BIOL 222 (<https://catalog.unc.edu/search/?search=BIOL+222>), ENEC 395, ENEC 415, ENEC 396, PLAN/ENEC/ENVR 635

(<https://catalog.unc.edu/search/?search=enec+635>), ENEC 693H, ENEC 694H, ENVR 403/ENEC 403, PHYS 114, PHYS 115, PHYS 118, PHYS 119, PHYS 331.

² Courses to be taken in a series; e.g., CHEM 101+L and CHEM 102+L.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Suggested Program of Study for B.S. Major

First Year	Hours
First-Year Foundation Courses	
IDST 101 College Thriving	1
ENGL 105 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F	3
IDST 111L Data Literacy Lab	1
Global Language through level 3 (p. 670) ¹	3-4
Major Courses	
CHEM 101 General Descriptive Chemistry I & 101L and Quantitative Chemistry Laboratory I ^{H, F}	4
ENEC 201 Introduction to Environment and Society ^{H, F}	4
MATH 231 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232 Calculus of Functions of One Variable II ^{H, F}	4
STOR 155 Introduction to Data Models and Inference ^{H, F}	3
Additional Courses	
Lifetime Fitness (p. 735)	1
Hours	31-32
Sophomore Year	
CHEM 102 General Descriptive Chemistry II & 102L and Quantitative Chemistry Laboratory II ^{H, F}	4
ENEC 202I Introduction to the Environmental Sciences	4
ENEC 203 Introduction to Environmental Science Problem Solving or EMES 203 or Data Analysis for Earth, Marine, and or ENEC 415 Environmental Sciences or Environmental Systems Modeling	3
One environmental concentration course	3
BIOL 101 Principles of Biology ^{H, F} & 101L or General Physics I: For Students of the Life or PHYS 114 or Introductory Calculus-based Mechanics or PHYS 118 and Relativity	4

BIOL 104 Biodiversity ^{H, F}	3-4
or PHYS 115 or General Physics II: For Students of the Life Sciences	
or PHYS 119 or Introductory Calculus-based Electromagnetism and Quanta	
COMP 110 Introduction to Programming ^H	3
or COMP 116 or Introduction to Scientific Programming	
or BIOL 222 or Introduction to Programming with Biological Data	
or INLS 560 or Introduction to Programming	
Electives or IDEAs in Action Requirements	6
Hours	30-31
Junior Year	
Two courses from the analytical skills core	6
Three courses from environmental concentration core	9
Two courses from a minor field	6
Electives or IDEAs in Action Requirements	9
Hours	30
Senior Year	
ENEC 698 Capstone: Analysis and Solution of or ENEC 694H or Honors Project in Environmental Sciences and Studies	3
Remaining environmental concentration core	3
Remaining minor field courses	9
Remaining Electives or IDEAs in Action Requirements to meet 120 academic hour minimum	14
Hours	29
Total Hours	120-122

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students may wish to consider completing their GLBL-LANG (p. 670) requirement over the summer, in the second year, or through transfer credit to allow for taking fewer hours per semester in the first year.

Dual Bachelor’s–Master’s Degree Program

Three dual bachelor’s–master’s programs are offered:

- 1. *Environmental informatics* is a collaboration between E3P and the School of Information and Library Science;
- 2. *Environmental finance and leadership* is a collaboration between E3P and the School of Government;
- 3. *Environmental geography* is a collaboration between E3P and the Department of Geography.

Each program is designed for students to earn their bachelor's degree and complete a master's degree in a professional school or program in as few as five years:

- The dual degree in environmental informatics is approached through the bachelor of science degree with a major in environmental science, and students then complete a master's in information sciences (M.S.I.S.).
- The dual degree in environmental finance and leadership is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master of public administration (M.P.A.).
- The dual degree in environmental geography is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master's in geography.

Students in these programs may begin taking courses for the graduate degree while in the undergraduate program. In some programs, up to 12 hours of undergraduate credits can also be counted in the graduate degree. Early advising is essential to success in navigating these dual-degree programs. Advisors are available in both units to help students prepare and select courses appropriately to get the most from their education.

Applying for one of the dual-degree programs is a two-step process. It is highly recommended that interested first- and second-year students speak to an advisor early in their college program. Students must submit a conditional application to most programs no later than their junior year to ensure that they will receive preference in registering for courses. Students must formally apply to the program through The Graduate School in their senior year. The GRE is not required for applications from current UNC-Chapel Hill students for the dual degrees in environmental science and communication, nor for the dual degrees in environmental geography; for other dual degrees students should check with their advisors about GRE requirements. For complete information on the application process and curriculum requirements, please go to the specific website listed above for the dual-degree program of interest.

In addition to the three dual-degree programs specific to collaborations with E3P, there are other dual-degree undergraduate/graduate programs developed by other UNC departments and colleges. Programs of interest include the Department of City and Regional Planning for a master's in city and regional planning (M.C.R.P.) (<https://planning.unc.edu/academics/dual-degree/bachelor/>), the Department of Public Policy for a master's in public policy (M.P.P.) (<https://publicpolicy.unc.edu/mpp/>), and the Gillings School of Global Public Health (<https://sph.unc.edu/envr/bachelors-to-masters-programs/>) for a range of public health-related master's programs.

Special Opportunities in Environmental Science and Studies

Honors in Environmental Science or Studies

Students in either the B.S. or B.A. degree program may participate in honors research leading to graduation with honors or highest honors. This distinction is earned by participation in honors research (ENEC 693H) and culminates in ENEC 694H, thesis writing and defense. Students should follow the guidelines established by Honors Carolina and meet with the faculty honors advisor, Dr. Geoff Bell (gwbell@email.unc.edu), to ensure that appropriate requirements are fulfilled. (Requirements can be found on the Honors Program website

(<http://honorscarolina.unc.edu/current-students/honors-thesis-and-undergraduate-research/honors-thesis/>)). Honors students can use three credit hours of ENEC 693H (research) or ENEC 694H (thesis), but not both courses, to fulfill a concentration requirement.

Departmental Involvement

The Epsilon Eta Environmental Honors Fraternity is an organization dedicated to excellence in environmental education. Interested students are nominated for membership and membership is not limited to E3P majors. E3P faculty are involved with a number of student organizations and initiatives across campus. See UNC Heel Life (<https://heelife.unc.edu/>) for more environmental clubs at Carolina.

Experiential Education

Possibilities for experiential education include APPLES service-learning courses (ENEC 593), Coral Reef Ecology and Management (ENEC 259), internships (ENEC 393, ENEC 493), research (ENEC 395, ENEC 396, ENEC 698), and honors research (ENEC 693H, ENEC 694H).

Additionally, a series of five experiential education field sites (<https://ie.unc.edu/field-education/field-sites/>) are located in North Carolina and around the world where students may take coursework and conduct research for a semester. Fall semester field sites are offered in North Carolina at Highlands Biological Station (mountain/ecology), the Institute for Marine Sciences (marine ecology/geology), and the Coastal Studies Institute/Outer Banks (coastal policy and economics). Spring semester field sites are offered on the UNC campus (sustainability/urban planning) and in Thailand (energy and pollution).

Summer programs are also offered in the Galapagos via UNC's Center for Galapagos Studies. Faculty members often arrange Burch Program summer educational trips to such locations as Australia (conservation, restoration, and natural resource management) and northern Europe (energy, sustainability, and communication). Contact our advisors about other opportunities — many other study abroad programs combine well with the E3P program.

Internships

Students are encouraged to apply for paid or unpaid internships in local, state, national, and international environmental organizations. Internship opportunities can be found through the Ecostudio Internship Incubator website (<https://ecostudio.unc.edu/>). These internships provide valuable practical experience, and some may be conducted for academic credit. Students interested in academic credit should contact the director of undergraduate studies, Dr. Amy Cooke (amycooke@unc.edu), or the Ecostudio, to obtain the required application for credit before the term begins. Students may also find their own internship and petition the Ecostudio to gain academic credit.

Study Abroad

Exchange and other study abroad programs are available through the UNC Study Abroad Office. At some locations students may take courses for UNC credit, such as some field sites listed above. Students may take courses at other universities during study abroad and apply for transfer credit as well. We encourage students to participate in study abroad during their career at Carolina.

Undergraduate Awards

Undergraduates may be considered for the Watts and Betsy Carr Awards, Mary and Watts Hill Jr. Awards, and Robert Alonzo Winston Scholarships.

Undergraduate Research

All students are encouraged (but not required) to complete an independent or team research project. Such projects introduce students to the tools needed for graduate study. They also provide an important opportunity for working directly with the world-class environmental faculty members and graduate students at UNC–Chapel Hill, as well as in the many environmental organizations in the Research Triangle. The Triangle area contains one of the largest collections of environmental organizations and expertise in the world, providing unique opportunities for students to conduct research on an immense range of topics from fundamental scientific research to policy applications. Students interested in obtaining course credit for research should speak with either Dr. Geoff Bell (honors advisor) or Dr. Amy Cooke (director of undergraduate studies) to ensure all the requirements and appropriate paperwork has been approved within the first week of classes.

Department Programs

Majors

- Environmental Studies Major, B.A. (p. 344)
- Environmental Science Major, B.S. (p. 352)
- Dual Bachelor's-Master's Degree Programs (p. 351)

Minors

Environmental Science and Studies Minor

The minor is designed for students wishing to remain in another discipline but having an interest in the environment as an area of application. Students must take two core courses designed as preliminary courses in the scientific and societal dimensions of environmental issues and problems and in the tools for their solution.

Students who major in the B.A. or B.S. environmental degree programs are not allowed to minor in environmental science and studies.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
ENEC 201	 Introduction to Environment and Society ^{H, F}	4
ENEC 202I	 Introduction to the Environmental Sciences	4
Three additional ENEC courses (at least one at the 400 level or higher)		9-12
Total Hours		17-20

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- ^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Environment, Ecology, and Energy (ENEC) course descriptions (<https://catalog.unc.edu/courses/enec/>).

Students must see an ENEC advisor to discuss potential courses. Depending on the courses selected, the minor requires between 17 and 20 credit hours.

See the program page here (p. 351) for special opportunities.

Food Studies Minor

Food studies is an interdisciplinary field that examines the relationship between food and all aspects of the human experience, including culture and biology, individuals and society, global pathways and local contexts. The minor invites the growing number of students interested in food to advance their studies across a broad range of curricula. The program provides course offerings and an intellectual framework to complement the co-curricular interests in food on campus, increasing the rigor and discipline with which students use food as a lens for historical, scientific, and cultural exploration and critical thinking.

The minor is available to students accepted into Honors Carolina and to any undergraduate student who has achieved and maintains a grade point average of 3.00 or better.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor requires five (5) courses.

Code	Title	Hours
Core Requirements		
Select two (2) of the following courses ¹		6
AMST/NUTR 175	 Introduction to Food Studies: From Science to Society	
AMST 375	 Critical Issues in Contemporary Food Studies	
ENEC 325	 Water Resource Management for Food, Energy, and Health ^H	
Select three (3) electives from the following list (at least one at the 300 level or higher) ²		9
AAAD 188	 African Diaspora Foodways and Culture	
AMST 75	 First-Year Seminar: Food and the Media ³	
AMST 220	 On the Question of the Animal: Contemporary Animal Studies	
AMST 275	 Food and American Culture	
AMST 353	 Southeast Asian North Carolina	
ANTH 151	 Anthropological Perspectives on Food and Culture	
ANTH 252	 Archaeology of Food	
ANTH 459	 Ecological Anthropology	
ANTH 551	 Origins of Agriculture in the Ancient World	
ASIA 52	 First-Year Seminar: Food in Chinese Culture ³	
BIOL 53	 First-Year Seminar: Biotechnology: Genetically Modified Foods to the Sequence of the Human Genome ³	

BIOL 221 & 221L	 Seafood Forensics and  Seafood Forensics Laboratory
BIOL 351 & 351L	Frontiers of Fermentation: Microbes and Microbiomes and Frontiers of Fermentation: Microbes and Microbiomes Laboratory
CBPH 243	The Cellular Agriculture Revolution
COMM 82	 First-Year Seminar: Food Politics from an Organizational Communication Perspective ³
COMM 625	 Communication and Nonprofits in the Global Context
ENEC/ANTH 237	 Food, Environment, and Sustainability
ENEC 280	Fungi: Architects of Ecosystems and Sustainable Futures
ENEC 370	Agriculture and the Environment ^H
EXSS 360	Sports Nutrition
FREN 186	 Food for Thought: Cultures of Cuisine in Modern France
GEOG 232	 Agriculture, Food, and Society
GEOG 298	 Freedom Farming
HIST 325	Food and History
HNRS 330	Is Dinner "Sustainable" - A Human Dilemma (The Honors Carolina Global Food Program Seminar)
IDST 119I or IDST 130I	 Food: People, Politics, and Policies or  The Future of Food
ITAL 365	 Italian Food and Culture
JAPN 411	Food and Culture in Japan
NUTR 240	Introduction to Human Nutrition
NUTR 245	 Sustainable Local Food Systems: Intersection of Local Foods and Public Health
NUTR 250	Global Sustainable Food Systems
NUTR 630	Navigating Culture, Technology, and Communication in Nutrition
PLAN 546	Harvesting Innovations: Sustainable Food Systems in an Era of Climate Change
PLCY 362	 Ethics and Food Policy
PLCY/ENEC 475	The Political Economy of Food ^H
SOCI 430	Sociology of Food and Food Justice

Total Hours**15**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ If all three of these courses are taken, the third course may satisfy the elective requirement.

² Some courses may require a prerequisite(s). See course description for details.

³ No more than one First-Year Seminar course may be used as an elective in the minor.

Additional courses can be applied to the requirements with the approval of the program advisor.

Graduate School and Career Opportunities

The minor in food studies, in combination with a student's major of interest, prepares students for a variety of careers in health and nutrition, arts and culture, media and journalism, health affairs policy and program management, social services, the academy, entrepreneurship and intrapreneurship, environmental work and sustainability, and consulting. The minor may also be of value for those planning postgraduate studies.

Department Programs

Sustainability Studies Minor

The program provides an understanding of sustainability, a unifying approach to human and environmental problems. Sustainable businesses, communities, and other organizations seek to design systems in ways that optimize material and energy use to decrease environmental and health problems and to bolster economic vitality and social equity. A growing number of scholars are framing problems and solutions in the language of sustainability, which balances growth and development with justice and environmental stewardship in order to meet today's needs without undermining the ability of future generations to do the same.

Students who major in the B.A. or B.S. environmental degree programs are not allowed to minor in sustainability studies.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
ENEC/PLAN 330 or ENEC 201 or ENEC 431	Principles of Sustainability ^{1, H}  Introduction to Environment and Society Sustainable Cities: Exploring Ways of Making Cities More Sustainable	3
Four elective courses chosen from the following options:		12
BUSI 507	Sustainable Business and Social Enterprise ^H	
ENEC 201	 Introduction to Environment and Society ^{H, F}	
ENEC 2021	 Introduction to the Environmental Sciences	
ENEC/GEOG 264	Conservation of Biodiversity in Theory and Practice	
ENEC 280	Fungi: Architects of Ecosystems and Sustainable Futures	

ENEC 305	Data Analysis and Visualization of Social and Environmental Interactions
ENEC 307	Energy and Material Flows in the Environment and Society
ENEC 320	The Future of Energy ^H
ENEC/EMES 324	 Water in Our World: Introduction to Hydrologic Science and Environmental Problems
ENEC 325	 Water Resource Management for Food, Energy, and Health ^H
ENEC 350	 Environmental Law and Policy
ENEC 351	Coastal Law and Policy
ENEC 370	Agriculture and the Environment ^H
ENEC/PLCY 372	Global Environment: Policy Analysis and Solutions
ENEC/PLCY 373	Confronting Climate Change in the Anthropocene
ENEC/COMM 375	Environmental Advocacy
ENEC 405	Mountain Preservation
ENEC 407	Principles of Energy Conversion
ENEC/PLAN 420	Community Design and Green Architecture

Department of Environmental Sciences and Engineering

Introduction

The Department of Environmental Sciences and Engineering combines the physical sciences, health sciences, engineering, and policy to develop solutions to current and emerging environmental challenges. Our mission is promoting human and ecological health for all by identifying, understanding, and solving pressing environmental challenges. This multidisciplinary approach provides unique academic and research opportunities for students. Our undergraduate degree focuses on the environmental health sciences, with specific concentrations in environmental chemistry, environmental health biology, and environmental physics and opportunities to take specialized courses or conduct research in areas of particular interest.

Advising

Students benefit from advising by a professional academic coordinator who works closely with the director for undergraduate studies. Undergraduate students are encouraged to schedule a personal advising session each semester to review their course of study. These professionals will work with current and prospective majors (see contact information above). The academic coordinator verifies that coursework requirements for the concentration have been met. Departmental academic advising is particularly important for those majors who are considering going on to an accelerated bachelor's-to-master's program. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate degrees may be obtained from the department's website. (<https://sph.unc.edu/envr/environmental-sciences-and-engineering-home/>)

Each student is also assigned a faculty mentor from the department of Environmental Sciences and Engineering. Faculty mentors collaborate

with students to define academic, career and personal goals and assist students in identifying research and internship opportunities.

Facilities

The Department of Environmental Sciences and Engineering houses research laboratories located in Rosenau Hall, McGavran-Greenberg Hall, and Michael Hooker Research Center. These laboratories are involved in important research related to natural resources, energy and health, water quality, atmospheric chemistry and air pollution, risk assessment of environmental exposures, effects of environmental chemicals on birth outcome, children's and chronic health, environmental and public health microbiology, and occupational health and safety.

The department also offers facilities for modeling and computational analysis of environmental systems, such as infectious disease transmission, atmospheric circulation and air quality models, ground and surface water flow and transport models, fluid flow and contaminant transport models for indoor air environments, computational toxicology, exposure analysis and health effects, risk assessment, and environmental epidemiology.

More detailed information about the individual laboratories and centers can be found at the department website (<https://sph.unc.edu/envr/environmental-sciences-and-engineering-home/>).

Graduate School and Career Opportunities

While undergraduate education prepares students for citizenship in ways that go beyond professional concerns, the program in environmental health sciences also provides skills needed for employment and graduate study. Students ending their studies at the undergraduate level gain skills necessary to work in positions such as risk analysts in consulting firms and regulatory agencies; research assistants in research laboratories; environmental health specialists in local, state, and national environmental and environmental health departments; and scientific advisors to environmental organizations. The degree also prepares students for graduate study in the environmental sciences, environmental health sciences, environmental studies, toxicology, and professional disciplines such as medicine, dentistry, veterinary medicine, environmental law, and public health.

Undergraduate students with appropriate science backgrounds have the opportunity to pursue an accelerated bachelor's-to-master's program. This program allows students to complete a master's degree in the department in an accelerated time frame. With advance planning many students complete the bachelors plus masters within five years or five years and a summer. Interested students should read the program description and requirements (<http://sph.unc.edu/envr/envr-degrees/>) carefully.

Students have opportunities to explore possibilities for employment through the rich network of connections among the department, University, and numerous environmental organizations in the Research Triangle Park area, which is home to the highest concentration of environmental health sciences groups in the nation.

Major

- Environmental Health Sciences Major, B.S.P.H. (p. 367)

Minor

- Engineering for Environmental Change, Climate, and Health Minor (p. 372)

Courses

- Environmental Sciences and Engineering (ENVR) (<https://catalog.unc.edu/courses/envr/>)

Following the faculty member's name is a section number that students should use when registering for independent studies, reading, research, and thesis and dissertation courses with that particular professor.

Professors

Joe Brown (137), Water and Sanitation, Environmental Health Microbiology; Director, Water Institute; Director, Engineering Programs
Gregory W. Characklis (98), Water Resources Engineering, Economics and Management; Director, Institute for Risk Management and Insurance Innovation
Orlando Coronell (10), Physical and Chemical Processes for Water Treatment, Membrane Technology, Granular Sorbents; Associate Chair for Academics
Rebecca C. Fry (7), Toxicogenomics, Genetic Toxicology; Director, Institute for Environmental Health Solutions; Department Chair
Avram Gold (43), Environmental Chemistry
Bill Gray, Hydrology, Porous Media Flow, Environmental Thermodynamics
Kun Lu (37), Microbiome, Exosome, Omics Profiling (Metabolomics, Proteomics, Lipidomics), DNA Adducts, Biomarker Development, Cancer, Chronic Inflammation, Children's Health
Richard A. Luetlich Jr. (68), Marine Sciences, Coastal Physics, Hurricane Storm Surge Modeling; Director, Institute of Marine Science
Christopher S. Martens (92), Marine Sciences, Biogeochemistry
Cass T. Miller (59), Porous Medium Systems, Environmental Physics, Environmental Modeling
Glenn Morrison (124), Indoor Air, Surface Chemistry, Human Exposure
Rachel T. Noble (110), Marine Microbial Ecology, Water Quality Microbiology, Non-Point Source (e.g., Storm Water), Contamination of Receiving Waters
Leena A. Nylander-French (95), Skin and Inhalation Exposures to Toxicants, Exposure Modeling; Director, Occupational Safety and Health Education and Research Center
Michael C. Piehler (33), Marine Environmental Sciences, Environmental Microbial Ecology
Mark D. Sobsey, Environmental Health Microbiology, Virology, Water, Sanitation and Hygiene
Jason Surratt (30), Atmospheric Chemistry, Secondary Organic Aerosols, Heterogeneous Chemistry, Air Pollution
Barbara J. Turpin (32), Atmospheric Chemistry, Air Pollution and Human Exposure; Director, Graduate Studies
William Vizuete (6), Atmospheric Modeling, Air Pollution, Environmental Engineering, Atmospheric Chemistry
Paul B. Watkins, Drug Safety Sciences, Pharmacotherapy and Experimental Therapeutics, Genomics Technologies
J. Jason West (16), Air Pollution, Climate Change, Atmospheric Modeling, Global Health, Environmental Policy, Environmental Engineering
Dale Whittington (70), Water Resources Economics, International Development

Associate Professors

Noah Kittner (131), Energy Systems Analysis, Sustainability Science, Energy and Environmental Policy, Energy in Underserved Communities

Amanda Northcross (134), Exposure Assessment, Air Pollution, Global Health; Director, Undergraduate Studies (B.S.P.H. and Assured Enrollment Programs)

Julia Rager (130), Environmental Sciences, Exposure Assessment, Genetics, Toxicology; Associate Chair for Strategic Initiatives

Marc L. Serre (100), Space/Time Statistics, Exposure Assessment, Environmental Modeling, Hydrology, Geostatistics, GIS, Environmental Epidemiology, Risk Assessment, Medical Geography

John Staley (135), Occupational Health and Safety; NC OSHERC; NIOSH Center for Excellence: the Carolina Center for Healthy Work Design and Worker Well-Beings

Courtney Woods (51), Health Equity, Systems Modeling, Environmental Epidemiology, Risk Assessment, Global Health; Director, E.C.H. M.P.H. Program

Zhenfa Zhang, Synthetic Organic Chemistry

Assistant Professors

Yash Amonkar, Environmental Financial Risk Modeling, Environmental Engineering, Insurance Innovation, Data Science

Ryan Cronk (11), Global Water, Sanitation and Hygiene (WaSH), Environmental Risk Assessment

Michael Fisher (136), Global Water, Sanitation and Hygiene (WaSH)

Megan Lott, Environmental Microbiology, Microbes of the Built Environment and Wastewater-Based Epidemiology

Musa Manga (5), Environmental Engineering, Water, Sanitation, Water Resource Management

Timothy Weigand (108), Fluid Dynamics, AI/Machine Learning, Mechanistic Modelling, Computational Science

Anna Young (54), Chemical Exposome, Multi-Omics Data Science, Reproductive Epidemiology, Women's Health and Menstrual Health, Endocrine-Disrupting Chemicals, Exposure Science

Adjunct Professors

Sarav Arunachalam, Air Quality Modeling, Analyses, and Health Risk; Environmental Policy

Stephen Bennett, Natural Hazards Risk Modeling, Climate Risks for Reinsurance Underwriting, Extreme Weather and Climate Preparation and Response

Linda S. Birnbaum (86), Xenobiotic Metabolism, Biochemical Toxicology

Clarissa Brocklehurst, Water Supply and Sanitation

Daniel L. Costa (97), Pulmonary Toxicology

Felix Dodds, Sustainable Development, Finance, Climate, Environmental Security

Jonathan Freedman, Toxicology, Chemical Exposure, Risk Assessment

Shabbir H. Gheewala, Life Cycle Assessment

Jackie MacDonald Gibson, Water Quality, Environmental Justice, Risk Assessment

M. Ian Gilmour, Immunotoxicology

Ilona Jaspers, Environmental Toxicology, Environmental Medicine, Asthma and Lung Biology

Marc Jeuland, Sustainability, Climate Resilience, Water and Health, Environmental Health Cost-Benefit Analysis

Urmila Kodavanti, Toxicology, Environmental Exposure Assessment, Health Effects

Valeria Ochoa-Herrera, Biological and Physico-Chemical Wastewater Treatment, Bioremediation, Biotechnology, Sustainability

Stephanie Padilla, Biomolecular and Computational Toxicology

Hans W. Paerl, Aquatic Microbial Ecology, Marine and Freshwater Nutrient Cycling

Grace Patlewicz, Toxicology, Computational Modeling, Environmental Chemistry

David Peden, Immunotoxicology, Cardiopulmonary Toxicology, Translational and Clinical Research in Environmental Lung Disease

Joseph Pinto (82), Atmospheric Modeling

Joachim Pleil (106), Exposure Assessment

Havala Pye, Air Quality Modeling

Ana Rappold, Environmental Exposure Assessment, Climate Change, Wildfires and Air Quality

Jacky Rosati Rowe (29), Exposure Assessment

Aaron Salzberg (133), Water Supply Planning and Sanitation; Director, Water Institute

James M. Samet (67), Mechanistic Toxicology, Cardiopulmonary Toxicology, Ambient Air Pollutants

ManishKumar Shrivastava, Atmospheric Chemistry, Secondary Organic Aerosols, Earth Systems Modeling, Climate and Health Impact

Jill R. Stewart (26), Water Quality Microbiology, Ecological Assessment and Prediction

Miroslav Styblo (79), Nutritional Biochemistry and Biochemical Toxicology

Bill Suk, Hazardous Substances Remediation, Environmental Toxicology, Children's Environmental Health

Cecilia Tan, Mechanisms of Environmental Exposure and Disease, Physiologically-Based Pharmacokinetic (PBPK) Modeling

John Tomaro, Research Collaborator for the Water Institute

Cavin Ward-Caviness, Toxicology, Epidemiology, Exposure Science, Biological Chemistry, Computational Biology

Adjunct Associate Professors

Bok Haeng (B.H.) Baek, Atmospheric Chemistry and Emission Models, Emissions Trends, Air Pollution Control Response

Karsten Baumann, Aerosol Chemistry

Jared Bowden, Air Quality and Climate Modeling

Jada Brooks, Health Equity, Community Engaged Research, Environmental Justice

Kristin Isaacs, Human Exposure Modeling, Risk Assessment

P. Ozge Kaplan, Energy Systems Modeling, Climate Policy, Environmental Economics

Janice Lee, Human Health Risk Assessment, Susceptibility, Mode of Action, Systematic Review

Liz Naess, Ambient Air Quality Data Analysis, Science and Policy, Health Equity

Roger Sit, Radiation Physics

Thomas B. Starr, Risk Assessment

John Wambaugh, Computational Toxicology and Exposure

Anne Weaver, Environmental Health Effects, Epidemiology

Adjunct Assistant Professors

Celeste Carberry, Toxicological Mechanisms and Health Effects of Environmental Exposures

Rich Cravener, Healthy, Safety and Industrial Hygiene; NC OSHERC; NIOSH

Radhika Dhingra (132), Air Pollution, Epidemiology, Epigenetics, Health Effects

Sara Duncan, Environmental Exposure, Indoor Air, Occupational Exposure

Alexander S. Gorzalski, Water Treatment Engineering, Remediation,

Disinfection By-Products, Membranes

Crystal Lee Pow Jackson, Occupational and Environmental Epidemiology

Jordan Kern, Environmental Modeling, Systems Analysis, Financial Risk Management

Yong Ho Kim, Cardiopulmonary and Immunotoxicology, Air Pollution Chemistry, Health Effects

Lucas Rocha Melogno, Environmental Health Science, Policy Translation

Cassandra O'Lenick, Environmental Epidemiology

Javad Roostaei, Environmental Science, Machine Learning, Data Science, AI

Antonia Sebastian, Environmental Hazards, Flood Risk Reduction

Lauren Eaves Sellers, Environmental Exposure, Prenatal Health Effects, and Epigenetics

David Singleton, Environmental Microbiology

Frank J. Stillo III, Risk Assessment, Risk Communication of Environmental Exposures in Drinking Water

W. Jon Wallace, Occupational Safety and Health Education

Environmental Health Sciences Major, B.S.P.H.

Environmental health lies at the core of public health. It focuses on understanding how people interact with their environments in order to protect human health, promote well-being, and support safe, healthy communities. The undergraduate major in Environmental Health Sciences equips students with a comprehensive understanding of the environmental factors that influence human health; the physical, chemical, and biological processes through which human activities affect the environment; the methods used to assess these impacts; and the science-based strategies used to prevent, reduce, or remediate environmental health problems. This interdisciplinary foundation prepares students to analyze complex environmental challenges and contribute to evidence-based solutions that improve population health.

This is the only major focusing on environmental science and health at UNC anchored in the Gillings School of Global Public Health, the nation's top public school of public health, and the only program of its

kind accredited by the Council on Education for Public Health (CEPH), the nationally recognized accrediting body that ensures public health programs meet rigorous standards for academic quality, workforce preparation, and professional competencies.

The program allows students to tailor their studies through concentrations in environmental chemistry, environmental health biology, or environmental physics. Graduates pursue a wide range of opportunities, including advanced degrees in environmental health and related sciences, as well as professional programs such as medical, dental, veterinary, and law school. Those entering the workforce directly find positions in environmental advocacy organizations, consulting firms, industry, and government agencies, with some alumni even launching their own companies or nonprofits.

Students go through the program in a cohort of about 30–40 students, creating a strong sense of community within the program and the Environmental Sciences and Engineering Department. The program also offers a supportive and collaborative learning environment. Each student is matched with a faculty mentor and supported by an academic coordinator and dedicated career services coordinator within the school.

Admission (<https://catalog.unc.edu/undergraduate/programs-study/environmental-health-sciences-major-bsph/#admissiontext>) into the program requires satisfactory completion of coursework in basic sciences and mathematics.

Upon completion of the B.S.P.H. in environmental science and engineering, students should be able to:

- Define major issues in environmental health, sciences, and engineering
- Provide quantitative answers to complex environmental questions and describe the potential underlying uncertainties
- Describe linkages between sources of environmental contaminants, ambient concentrations, human exposures, and possible solutions
- Describe the mechanistic basis for environmentally induced disease and methods for prevention
- Demonstrate written and oral communication skills in environmental health, sciences, and engineering within a public health context
- Communicate public health information, in both oral and written forms, through a variety of media and to diverse audiences
- Locate, use, evaluate, and synthesize public health information
- Describe health inequities, identify their root causes at multiple levels of the social ecological framework, and discuss approaches to advancing health equity

Admission

The Gillings School of Global Public Health offers five undergraduate majors: biostatistics, community and global public health, environmental health sciences, health policy and management, and nutrition. The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Enrollment in the B.S.P.H. degree programs is limited, and students must apply for admission. Students typically apply in their sophomore year for admission beginning in the fall of their junior year, though exceptions to this timeline may apply.

For current UNC–Chapel Hill students, additional information on application deadlines and how to apply can be found on the Public

Health Undergraduate Majors (<https://sph.unc.edu/resource-pages/undergraduate-programs/>) website.

Transfer students interested in any of the B.S.P.H. degree programs must apply through the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/types-of-applications/transfer/>) using the Transfer Common application.

For high school seniors, our five majors participate in the Assured Enrollment program through Undergraduate Admissions. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina’s professional schools or a spot in an accelerated undergraduate/graduate program. For additional information, please visit Undergraduate Admissions: Special Opportunities (<https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/>).

Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, the requirements described in this catalog particularly apply to students admitted to Gillings during the 2026–2027 academic year.

Prerequisite Courses Required for Admission

B.S.P.H. Admission Requirements for Internal Transfer Students

For admission to the B.S.P.H. in environmental health sciences, the requirements are:

- A 3.0 grade point average or higher for applicants (*Assured Enrollment students need a 3.2 grade point average or higher*).
- A grade of C (not C-) or better earned in (at least) one calculus course numbered MATH 231, MATH 232, OR MATH 233 and above.
- A grade of C (not C-) or better earned in one course from two of the following categories: biology, chemistry, computer programming, or physics (see the table below).

NOTE: A minimum of two out of the three courses required for admission must be completed in residence at UNC–Chapel Hill.

Admission requirements must be successfully completed before the student begins the major (i.e., by the start of fall semester, junior year).

Code	Title	Hours
Admission Requirements		
One calculus course from the following list. A grade of C or better required.		4
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	
MATH 233	 Calculus of Functions of Several Variables ^H	
Two additional courses from biology, chemistry, computer programming, or physics. At least one course from two different categories. A grade of C or better required. See course selection below.		6-8
Total Hours		10-12

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Code	Title	Hours
Biology (any course above 101 level):		
BIOL 103	 How Cells Function ^{1, F}	3
BIOL 104	 Biodiversity ^{2, H, F}	3
BIOL 220	 Molecular Genetics ^{1, H}	3
BIOL 250	Evolutionary Biology ²	3
Chemistry (any course above 101 level):		
CHEM 102 & 102L	 General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
CHEM 261	Introduction to Organic Chemistry I ^H	3
Computer programming:		
COMP 110	 Introduction to Programming ^H	3
COMP 116	Introduction to Scientific Programming	3
BIOL 553	Mathematical and Computational Models in Biology	3
GEOG 597	Ecological Modeling	3
Physics:		
PHYS 114	 General Physics I: For Students of the Life Sciences ^F	4
PHYS 115	 General Physics II: For Students of the Life Sciences ^F	4
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{H, F}	4
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	4

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Suggested for pre-med and students with interest in toxicology and genetics.

² Suggested for students with strong interests in climate change, environmental chemistry.

Requirements

In addition to the program requirements listed below, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major

- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill.

For more information, please consult the degree requirements section of the catalog (p. 739).

The major in environmental health sciences includes several concentrations:

- General (p. 369)
- Environmental Chemistry (p. 369)
- Environmental Health Biology (p. 370)
- Environmental Physics (p. 370)

Requirements for All Concentrations

Code	Title	Hours
Core Requirements		
Public Health Core Courses:		
BIOS 600	Principles of Statistical Inference	3
EPID 600	Principles of Epidemiology for Public Health	3
SPHG 351	Foundations of Public Health	3
SPHG 352	Public Health Systems and Solutions	4
Other Core Courses:		
ENVR 205	Engineering Tools for Environmental Problem Solving (fall)	3
ENVR 230	Environmental Health Issues (spring)	3
ENVR 403	Environmental Chemistry Processes (spring)	3
ENVR 430	Health Effects of Environmental Agents (fall)	3
One of the following:		3
ENVR 698	Senior Capstone Course (to be taken in the senior year)	
ENVR 593	Undergraduate Practicum in Environmental Health Sciences (with approval)	
ENVR 695	 Environmental Health Majors Undergraduate Research (with approval)	
ENVR 692H	 Honors Thesis (with approval)	
Prerequisite and Additional Requirements [†]		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
BIOL 103	 How Cells Function ^F	3
or BIOL 104	 Biodiversity	
BIOL 220	 Molecular Genetics ^H	3
or BIOL 250	Evolutionary Biology	
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	 General Descriptive Chemistry II and  Quantitative Chemistry Laboratory II ^{H, F}	4
CHEM 261	Introduction to Organic Chemistry I ^H	3
One of the following:		3
COMP 110	 Introduction to Programming ^H	
COMP 116	Introduction to Scientific Programming	
BIOL/MATH 553	Mathematical and Computational Models in Biology	

GEOG 597	Ecological Modeling	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{1,2, H, F}	4
or PHYS 114	 General Physics I: For Students of the Life Sciences	
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta ^{1,2, H, F}	4
or PHYS 115	 General Physics II: For Students of the Life Sciences	
Total Hours		68

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Preferred.

² PHYS 118 and PHYS 119 are required for the environmental chemistry concentration.

[†] Applicants should have earned a grade of C or better from UNC-Chapel Hill in at least one course per group in three of the five prerequisite course groups. See Admissions tab for details.

General Concentration

Code	Title	Hours
Environmental Health Electives		
All students should complete two advanced undergraduate or graduate level courses (400-level or above) that provide in-depth study of environmental health. Courses should be listed or cross-listed as ENVR courses. ENVR 400, ENVR 403, ENVR 430, ENVR 593, ENVR 600, ENVR 601, ENVR 695, ENVR 691H and ENVR 692H are excluded. All ENVR special topics courses (ENVR 690, ENVR 890) must be approved to count as an advanced course elective. Please contact the academic coordinator to start the approval process		6-8
Total Hours		6-8

Environmental Chemistry Concentration

Code	Title	Hours
Environmental Health Electives		
All students must complete two advanced (400-level or above) courses selected from:		5-7
ENVR 416	Aerosol Physics and Chemistry	
ENVR 419	Chemical Equilibria in Natural Waters	
ENVR 451	Introduction to Environmental Modeling	
ENVR 575	Global Climate Change: Science, Impacts, Solutions	
ENVR 650	Principles of Chemical Carcinogenesis	
ENVR 675	Air Pollution, Chemistry, and Physics	

Additional Requirements

CHEM 481	Physical Chemistry I	3
MATH 233	 Calculus of Functions of Several Variables ^H	4
MATH 383	First Course in Differential Equations ^H	3
Total Hours		15-17

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Environmental Health Biology Concentration

Code	Title	Hours
Environmental Health Electives		
All students must complete two advanced (400-level or above) courses selected from:		6
ENVR 411	Laboratory Techniques and Field Measurements	
ENVR 412	Ecological Microbiology	
ENVR 421	Environmental Health Microbiology	
ENVR 423	Industrial Toxicology	
ENVR 425	Introduction to Health Physics: Radiation and Radiation Protection	
ENVR 432	Occupational Safety and Ergonomics	
ENVR 433	Health Hazards of Industrial Operation	
ENVR 468	Temporal GIS and Space/Time Geostatistics for the Environment and Public Health	
ENVR 470	Environmental Risk Assessment	
ENVR 610H	Global Environmental Health Equity and Sustainability	
ENVR 630	Systems Biology in Environmental Health	
ENVR 640	Environmental Exposure Assessment	
Total Hours		6

Environmental Physics Concentration

Code	Title	Hours
Environmental Health Electives		
All students must complete two advanced (400-level or above) courses selected from the following list:		6-7
ENVR 416	Aerosol Physics and Chemistry	
ENVR 451	Introduction to Environmental Modeling	
ENVR 453	Groundwater Hydrology	
ENVR 666	Numerical Methods	
ENVR 671	Environmental Physics I	
ENVR 472	Quantitative Risk Assessment in Environmental Health Microbiology	
ENVR 675	Air Pollution, Chemistry, and Physics	
Additional Requirements		
MATH 233	 Calculus of Functions of Several Variables ^H	4
MATH 383	First Course in Differential Equations ^H	3
Total Hours		13-14

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

First Year		Hours
First-Year Foundation Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ¹		3
IDST 111L	 Data Literacy Lab	1
Global Language through level 3 (p. 670)		varies
Hours		8
Fall Semester		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4

Hours		10
Total Hours		82

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students are encouraged to take a ENVR FY-Seminar (e.g., ENVR 89).

² All students should complete two advanced undergraduate or graduate level courses (400-level or above) that provide in-depth study of environmental health. Courses should be listed or cross-listed as ENVR courses.

ENVR 400, ENVR 403, ENVR 430, ENVR 593, ENVR 600, ENVR 601, ENVR 695, ENVR 691H and ENVR 692H are

excluded. All ENVR special topics courses (ENVR 690, ENVR 890) must be approved to count as an advanced course elective. Please contact the academic coordinator to start the approval process.

Special Opportunities in Environmental Health Sciences

Accelerated Bachelor's-to-Master's Program (<https://sph.unc.edu/envr/bachelors-to-masters-programs/>)

The Department of Environmental Sciences and Engineering offers an accelerated path to obtain a master's degree for students who are completing, or have completed, a B.S.P.H. or any B.S. in a STEM field

from UNC–Chapel Hill. An accelerated master's degree has the same overall credit requirements as a regular master's degree, but potentially allows a student to finish in an accelerated timeframe. The M.S. degree is research-focused; the M.P.H. is focused on coursework and public health practice. These degrees prepare students to work as researchers, program officers, or consultants in industry, government organizations, and the non-profit sector; many graduates have gone on to complete doctoral degrees at UNC–Chapel Hill or elsewhere.

Students interested in the accelerated degree program must have completed their B.S. or B.S.P.H. in the previous academic year. Students progressing to an M.S. and M.P.H. can transfer up to 12 hours of graduate-level (400 or above) coursework. For the M.S., it is strongly recommended that students have identified an advisor and made progress toward their master's research as early as possible, preferably by their senior year.

The department also offers a one-year practice-based or two-year research-based M.S.E.E. program (<https://sph.unc.edu/envr/msee-program/>) that provides students with the vital skills and training in air quality and sustainable water resources needed to solve today's environmental engineering and public health problems.

Interested? Learn more about the Bachelor's-to-Master's program here (<https://sph.unc.edu/envr/bachelors-to-masters-programs/>).

Honors in Environmental Health Sciences

Students who have a grade point average of 3.3 or higher are eligible to participate in honors research and to write an honors thesis.

Study Abroad

There are several opportunities for pursuing environmental study abroad, both through the department and through the UNC Study Abroad Office (<https://studyabroad.unc.edu/>). Students are required to be in residence at UNC during their junior year to be able to fully participate in the required B.S.P.H. core. Students are encouraged to study abroad in their first or second year at UNC and/or summer semesters.

Affiliated Study Abroad Programs

- Thailand — UNC Institute for the Environment (<https://ie.unc.edu/education/field-sites/thailand/>)
- UNC Galapagos Initiative — Summer Study Abroad Program (<https://galapagos.unc.edu/study-abroad/>)
- UNC Burch in Brazil (Environmental Health) (https://heelsabroad.unc.edu/_portal/tds-program-brochure/?programid=12638)
- UNC Renewable Energy in Thailand (https://heelsabroad.unc.edu/_portal/tds-program-brochure/?programid=12643)

School and Departmental Involvement

Opportunities exist for involvement in student organizations such as the Environmental Student Organization (ENVRSO), the Student Global Health Committee, GlobeMed, the Minority Student Caucus, the Committee on Diversity and Inclusion, and the school's student government. Students are also actively involved in environmental and health focused organizations on campus.

The Department of Environmental Sciences and Engineering is home to UNC's Water Institute (<https://waterinstitute.unc.edu/>), Center on Financial Risk in Environmental Systems (<https://sph.unc.edu/cfres/center-on-financial-risk-in-environmental-systems/>), and the Institute for Environmental Health Solutions (<https://sph.unc.edu/iehs/institute->

for-environmental-health-solutions/), and participates in UNC's strong University-wide environmental (<https://ie.unc.edu/>) and climate change communities, including NC Occupational Safety and Health Education and Research Center.

Students also participate in the ENHS Student Buddy Program, which is designed to help first-year students feel more included in the ESE community. First-year ENHS students are paired with rising ENHS seniors who offer social support by answering questions about student life in the department and other questions about being a student at UNC. The Buddy Program aims to improve the experience of first-year students who naturally have many questions and are not always comfortable asking for help, which can limit their overall undergraduate experience.

- Benefits for incoming ENHS students (juniors): Think of this as your first friend in your undergraduate program: a personal point of contact to talk to about life at UNC (e.g., good neighborhoods for housing, fun social activities, etc.). It may also be useful to talk to a Buddy about how to handle the transition into the program, courses that are challenging, and strategies that will set you up for success in the program.
- Benefits for rising ENHS seniors: An opportunity to share your experiences at UNC and all the interesting/useful things you have discovered as a student so far. This is also a great chance to extend your network to students you might not otherwise have a chance to interact with. This is an opportunity to pass on the wealth of knowledge about the ENHS program to an incoming student.

Undergraduate Research

Many undergraduate students participate in the research programs of the department. Students are encouraged to consult individual faculty members for opportunities to participate in such research. In addition, the department has information concerning fellowships and internships, some of which are combined with research opportunities in laboratories or field settings. ENVR 89, ENVR 135 /ENVR 335 , ENVR 240, ENVR 295, ENVR 695, ENVR 691H/ENVR 692H.

B.S.P.H. in Environmental Health Sciences Ambassadors

Current student ambassadors for the bachelor of science in public health program in environmental health sciences are happy to answer questions you may have about the application process, the program, or student life in the Gillings School of Global Public Health. Learn more (<https://sph.unc.edu/envr/bsph-in-environmental-health-sciences-ambassadors/>).

Engineering for Environmental Change, Climate, and Health Minor

This minor is designed to train students with an interest in developing engineering skills focused on building public health resilience to environmental change. Challenges include droughts, floods, heatwaves and extreme weather events, which in turn impact air pollution, water availability and quality, toxic releases, food and nutrition, infectious and non-communicable diseases, and may increase migration and conflict pressure and exacerbate health challenges. As environmental scientists and engineers located within the top public school of public health, the Department of Environmental Sciences and Engineering (ESE) is ideally positioned to provide holistic responses to mitigate and prepare for these pressing environmental challenges. Join the minor to learn about environmental change, health/risk assessment, environmental processes, and engineering tools to provide quantitative answers to these complex questions.

Information about the application process can be found on the department website (<https://sph.unc.edu/envr/minor-in-engineering-for-environmental-change-climate-and-health/>).

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Prerequisite Courses

Students may apply for the minor any semester after completing MATH 233. Admitted students must have an average GPA of 3.0 or higher in the minor's prerequisite courses.

Code	Title	Hours
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4
MATH 383	First Course in Differential Equations ^H	3
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	 General Descriptive Chemistry II and  Quantitative Chemistry Laboratory II ^{H, F}	4

PHYS 114	 General Physics I: For Students of the Life Sciences ^F	4
or PHYS 118	 Introductory Calculus-based Mechanics and Relativity	
PHYS 115	 General Physics II: For Students of the Life Sciences ^F	4
or PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta	
COMP 110	 Introduction to Programming and Data Science ^H	3
or COMP 116	Introduction to Scientific Programming	
or PHYS 231	 Physical Computing	
or BMME 201	Computer Methods in Biomedical Engineering	
Total Hours		34

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Curriculum in Contemporary European Studies

Introduction

The curriculum in contemporary European studies (EURO) is designed to provide students with

- A broad interdisciplinary understanding of modern Europe and the European Union

- A focused understanding of contemporary Europe from the perspective of a selected social science, and
- Advanced proficiency in a modern European language

Students are encouraged to combine the EURO major with a second major in a field such as political science, economics, or history; or an interdisciplinary field such as German or romance studies, comparative literature, chemistry, PPE (politics, philosophy, and economics), or sustainability studies. EURO majors are also encouraged to study abroad and work closely with the advisor to obtain EURO credit while abroad. Through its unique combination of advanced coursework and language training, the curriculum provides the intellectual building blocks to study contemporary Europe through a sophisticated framework. Students completing the major will be well prepared for graduate or professional study of contemporary Europe and for a range of international careers.

Advising

In addition to the guidance provided by the primary academic advisors from the Academic Advising Program, EURO majors receive individualized advising at all stages of academic planning, including considering courses, internships, study abroad options, graduate programs, and career paths. Students interested in pursuing a major in contemporary European studies are encouraged to meet with the curriculum advisor as early as possible in their undergraduate career to design a comprehensive and efficient course plan — including considering the EURO-TAM B.A.-M.A. program option — and take full advantage of study abroad and other international education opportunities. Consult the curriculum website (<http://europe.unc.edu/euro/>) for further information on courses, funding, research, travel awards, campus resources, and the alumni network.

Major

Contemporary European Studies Major, B.A.

The curriculum in contemporary European studies (EURO) is designed to provide students with

- A broad interdisciplinary understanding of modern Europe and the European Union
- A focused understanding of contemporary Europe from the perspective of a selected social science discipline, and
- Advanced proficiency in a modern European language

Student Learning Outcomes

Upon completion of the Contemporary European Studies program, students should be able to:

- Demonstrate knowledge of the historical and political complexities of the European continent
- Demonstrate advanced proficiency in an approved modern European language
- Demonstrate knowledge of the political, social, and economic integration of the European continent
- Show an interdisciplinary grasp of European cultures, histories, literatures, art, and ideas
- Report satisfaction with the major
- Gain admission to graduate programs or a job in a relevant field

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses

- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements ¹		
EURO/HIST 159	 Europe and the World Since 1900	3
EURO/POLI 239	 Introduction to European Government ^H	3
Four courses from one of the two themes listed below		12
One course chosen from the other theme		3
One additional course from Theme 1, Theme 2, or the list of approved elective courses on contemporary Europe		3
Additional Requirements		
A modern European foreign language through level 5, chosen from the following languages: Arabic, Bosnian-Croatian-Serbian, Czech, French, German, Italian, Polish, Portuguese, Russian, Spanish, Turkish. ²		6
Total Hours		30

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Of the total eight courses required for the major, three must be numbered 400 or above. Special topics courses EURO 190 and EURO 490 may count for either theme, with approval based on topic.

² Please see the list of global language courses in the “General Education Requirements” section of this catalog. The first three levels of a foreign language can count toward the General Education requirement and have not been included as additional hours for the major.

Contemporary European studies majors are required to complete a minimum of five semesters of a modern European language, or document fifth-semester proficiency through University placement tests. One approved literature course taught in the language may also count as a theme or elective course if included in the course listings above. Majors are strongly encouraged to apply their language proficiency skills in languages across the curriculum (LAC) courses and complete a UNC-approved study abroad program in the target language.

The Curriculum in Contemporary European Studies offers an honors program. Students who wish to pursue an honors thesis are advised to contact the director of undergraduate studies and will enroll in EURO 691H and EURO 692H.

New courses may be added to this list annually, as they are developed. An updated list of approved courses may be obtained from the contemporary European studies website (<http://europe.unc.edu/euro/>). Other courses relevant to the study of contemporary Europe may be taken for credit in the major (including EURO 190 and EURO 490), if approved by the curriculum advisor.

Theme I. Contemporary Europe: Integration and Enlargement

Code	Title	Hours
ECON 461	European Economic Integration	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

* Asterisked courses require approval, based on topic.

Special Opportunities in Contemporary European Studies

Departmental Involvement

Center for European Studies

The Contemporary European Studies B.A. program (EURO) is housed within UNC's Center for European Studies (CES), a United States Department of Education Title VI National Resource Center and a Jean Monnet Center of Excellence funded by the European Commission. CES offers a range of ongoing programs including film series, conferences with European and U.S. scholars, meetings with diplomats, and our annual Europe Week. .

CES also houses the TransAtlantic Master's Program (<http://tam.unc.edu>) (TAM), an M.A. degree program that may be of particular interest to students who have completed the major in contemporary European studies. The TAM program includes study at UNC and at one or more partner universities in Europe.

Sign up for our bi-weekly Eurofile newsletter (<https://europe.unc.edu/>) to find out about CES events or visit our website (<https://europe.unc.edu/>) for more information. Events are free and open to the public.

Model European Union & NATO Teams

The Model European Union Team (<https://europe.unc.edu/model.eu/>) enhances students' understanding of the issues and challenges facing the 27-member nations of the European Union and the transatlantic relationship. Through the preparation for and participation in an annual hands-on two-day simulation, students learn about the workings of the EU while playing the roles of prime ministers, presidents, and ministers while debating policy, resolving disputes, building compromises, and charting the course of European integration.

The Model NATO Team (<https://europe.unc.edu/model.eu/>) simulates the decision-making and legislation processes of NATO's North Atlantic Council and Military Committee. Over the course of the two-day simulation, students work to compromise and draft resolutions while representing the 32 member states.

Our Model NATO team organizes an annual Model NATO Simulation each fall semester. Our Model European Union team organizes an annual Model EU Simulation each spring semester with support from the EU Delegation to the U.S.

If you are interested in joining the team, please reach out to europe@unc.edu.

EURO-TAM B.A.-M.A.

EURO-TAM is a unique program that enables students to complete both a bachelor's degree in Contemporary European Studies (EURO) and the TransAtlantic Master's (TAM) Program in reduced time. The combination of EURO and TAM prepares graduates for international careers in a variety of fields including diplomacy, business, policy-making, public service, teaching, and research.

If you are in high school with an interest in UNC and Europe, you can learn more about the Special Opportunity (<https://admissions.unc.edu/apply/special-opportunities/euro-tam/>) and how to apply for it through

the Common App. If selected for assured admission to EURO-TAM, you will have the opportunity to complete your undergraduate and master's degree in five years.

If you are already a UNC student, the EURO-TAM B.A.-M.A. program is still available to you. Please reach out to the EURO director of undergraduate studies for more information.

Honors in Contemporary European Studies

The Senior Honors Thesis is an opportunity for EURO majors to conduct independent research related to their European studies major and graduate with honors. Students will choose an advisor and topic by the end of spring semester in their junior year and should be in touch with the EURO advisor throughout the process to ensure proper documentation and enrollment.

EURO students who wish to undertake a Senior Honors Thesis must have a cumulative GPA of 3.300 or higher.

Students will be enrolled in two independent study courses, EURO 691H and EURO 692H respectively, in the fall and spring semesters of their senior year, during which they will research and write on their topic under the guidance of their faculty advisor, culminating in an oral defense of the project by mid-April of the spring semester. Check out our Q&A with a EURO student who completed the Honors Thesis (<https://medium.com/unceurope/so-you-want-to-write-an-honors-thesis-a4759bb1f1ad/>).

Undergraduate Professional Development Opportunities

Europe: Consider It All! Conference

The Europe: Consider It All! Conference (<https://europe.unc.edu/consider/>) focuses on under-considered topics and career paths relevant to contemporary Europe. What goes unexamined and under studied in this field? What are some professional opportunities students of contemporary Europe seldom consider? Presentations take the shape of papers or multimedia explorations.

Career Opportunities

The EURO Major prepares graduates to succeed in several professional fields. Almost half of EURO graduates work in the private sector in businesses such as Bank of America, Deloitte, and PwC Deutschland. Many enroll in graduate programs such as law school (UNC-CH, Howard, Michigan, Virginia), MBA (UNC-CH, Yale), UNC's TransAtlantic Masters (TAM) Program, other MA programs (Johns Hopkins, NYU), and PhD programs (University of Chicago, Emory University, Indiana University). Others work in the government sector from the local to the federal level: Durham County District Attorney's Office, US Department of Defense, NIH, the Labor Department, and FEMA. Lastly, some work for think tanks and NGOs such as the Clean Air Task Force, the Renewable Energy Wildlife Institute, and the Brookings Institution.

The EURO Major offers a supportive alumni network who are very involved in helping current students with their career trajectory.

Summer Research Opportunities

EURO majors are eligible for exclusive summer research funding through the European Summer Research Award (ESRA), funded by a generous donation from UNC alumni Betsy Blackwell and John Watson.

The European Summer Research Award (ESRA) (<https://europe.unc.edu/esra/>) supports EURO majors conducting independent, non-credit-bearing research in Europe for several weeks each summer. The awardees must be declared EURO majors at the time the research is conducted. The award amount is \$3,000, which can be used for airfare, ground travel, and accommodations. All EURO majors are encouraged to apply. The ESRA can be combined with a summer study abroad opportunity. Preference will be given to students with no or limited previous travel to the European Union.

Study Abroad Opportunities

EURO majors are encouraged to study abroad if they wish.

Please see EURO advisor, Katie Shanahan Lindner, to discuss potential programs that could fit your interests, as well as the credit transfer process for EURO.

Please note: EURO major regulations stipulate that students cannot transfer credit back for 400+ level courses from studying abroad and must take both core courses at UNC (EURO/HIST 159 and EURO/POLI 239).

Please see the study abroad website, studyabroad.unc.edu (<https://studyabroad.unc.edu/>), for detailed information about summer, semester or year-long credit-bearing programs.

Summer research options exist as well, including the European Summer Research Award, Summer Undergraduate Research Fellowship (<https://our.unc.edu/fund/surf/>), Burch Fellowships (<https://honorscarolina.unc.edu/fellowships/burch-fellowship/>), the Frances L. Phillips Travel Scholarship (<https://studentaffairs.unc.edu/students/phillipstravel/>), and the Class of 1938 Fellowship.

Department of Exercise and Sport Science

Introduction

The mission of the Department of Exercise and Sport Science is to discover and promote knowledge of human movement to improve quality of life.

Exercise and sport science examines the anatomy, physics, physiology, and psychology of sport and exercise. The general major (B.A. and B.S. degrees) provides foundational courses in exercise science that prepares

students for many paths. Students interested in sport administration can build a foundation in the management of sport, and explore career options related to amateur, interscholastic, or professional sport operation and business. The fitness professional program is designed to prepare students for careers in a variety of health-related fields, including but not limited to entry-level positions in the health-fitness industry; personal training of amateur, professional, and recreational athletes; exercise therapy for a range of clinical conditions; or graduate study in exercise physiology. Other career options for majors include strength-conditioning coach for an athletic team; exercise research within the athletic, medical, or pharmaceutical industries; or fitness club entrepreneur. By choosing additional courses, students can apply to schools of physical therapy, occupational therapy, athletic training, public health, nursing, or medicine.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department communicates via an EXSS majors Canvas page, classroom "advising" visits, bulletin boards/video boards throughout the building, and the departmental website (<http://exss.unc.edu/>). Departmental academic advising is particularly important for those majors who are considering graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<http://exss.unc.edu/>).

Facilities

In addition to classroom space and physical activity area, Fetzer Hall, Woollen Gym, and Stallings-Evans Sports Medicine Center house several well-equipped research and teaching laboratories:

1. The Applied Physiology Laboratory is fully equipped to measure metabolism, body composition, and aerobic fitness. Additionally, it houses a chemistry laboratory to study the biochemistry of exercise.
2. The Cadaver Anatomy Laboratory is designed to teach cadaver dissection in order to gain a greater knowledge about how the human body works in an athletic environment.
3. The Exercise Science Teaching Laboratory was specifically designed for teaching exercise science laboratory experiences as well as clinical exercise testing experiences.
4. The MOTION Science Institute, comprised of four research laboratories (Motion Analysis Laboratory, Neuromuscular Assessment Laboratory, Gait Biomechanics Laboratory, and Psychology of Sport Injury Laboratory), is fully equipped to evaluate neuromuscular function, biomechanics, and psychological factors associated with musculoskeletal injury prevention.
5. The CPR Laboratory is a teaching laboratory for CPR and first aid skills. The laboratory is equipped with mannequins, AED trainers, and first aid equipment.
6. The Exercise Oncology Laboratory is equipped with the latest technology for the assessment of cardiorespiratory and pulmonary function, body composition, cognitive function, electrocardiogram monitoring capability, and evaluation of heart rate coherence and heart rate variability in oncology patients.
7. Through its clinical and research initiatives, the Matthew Gfeller Sport-Related Traumatic Brain Injury Research Center demonstrates its commitment to providing the highest level of care for athletes of all ages suffering from sport-related brain injuries, and to assisting

parents, coaches, and medical professionals in managing these athletes.

8. The STAR Heel Lab at UNC examines innovating how we get health and performance science and applications to all individuals who need it.
9. The ACCESS Research Lab conducts research that advances climate and environmental sciences through sport, recreation, and physical activity and fosters engagement with these research efforts to improve the wellbeing of people and planet.
10. The Center for Research in Intercollegiate Athletics facilitates data-driven decision making in intercollegiate athletics.
11. The POWHER Institute is dedicated to transforming women's health across the lifespan through collaborative, multidisciplinary efforts that integrate translational research, comprehensive clinical care, and impactful education.

Graduate School and Career Opportunities

Many undergraduate exercise and sport science majors are preparing for graduate work in related areas: exercise physiology, physical therapy, sports medicine, nutrition, athletic training, sports administration/management, etc. They will be well-prepared for master's and doctoral programs, and graduate assistantships in these areas at UNC–Chapel Hill and other large universities. Numerous career opportunities exist in a variety of fields directly related to sport and exercise. Some graduates go directly into health/fitness/sport-related employment. Others attend professional schools or pursue advanced academic degrees.

Majors

- Exercise and Sport Science Major, B.A.—General (p. 383)
- Exercise and Sport Science Major, B.A.—Fitness Professional (p. 381)
- Exercise and Sport Science Major, B.A.—Sport Administration (p. 384)
- Exercise and Sport Science Major, B.S. (<https://catalog.unc.edu/undergraduate/programs-study/exercise-sport-science-major-bs/>)

Minors

- Coaching Education Minor (p. 386)
- Exercise and Sport Science Minor (p. 387)
- Sports Medicine Minor (p. 388)

Graduate Program

- Exercise and Sport Science (<https://catalog.unc.edu/graduate/schools-departments/exercise-sport-science/>), M.A. (<https://catalog.unc.edu/graduate/schools-departments/exercise-sport-science/>)

Courses

- Exercise and Sport Science (EXSS) (<https://catalog.unc.edu/courses/exss/>)
- Lifetime Fitness (LFIT) (<https://catalog.unc.edu/courses/lfit/>)
- Physical Activities (PHYA) (<https://catalog.unc.edu/courses/phya/>)

One lifetime fitness course is a graduation requirement for all students at UNC–Chapel Hill (post-2006 curriculum). Students are encouraged to complete the lifetime fitness requirement during their first year of study. A student may enroll in only one LFIT course and may count only one, one-credit

LFIT course toward graduation at Carolina. These courses combine practice in a sport or physical activity with general instruction in lifelong health.

Professors

Claudio L. Battaglini, J. Troy Blackburn, Anthony C. Hackney, Kristen L. Kucera, Jason P. Mihalik, Barbara Osborne, Darin A. Padua, Brian G. Pietrosimone, Nels K. Popp, Johna Register-Mihalik, Eric D. Ryan, Abbie E. Smith-Ryan, Erianne A. Weight, Erik A. Wikstrom.

Associate Professors

Erik D. Hanson, Zachary Yukio Kerr, Adam W. Kiefer.

Assistant Professors

Shelby E. Baez, Malia Blue, Sydney Churchill, Jimikaye B. Courtney, Hyosok Lim, Colin Lopez, Derek Monroe, Jessica R. Murfree, Jackson Sears.

Teaching Professors

Alain J. Aguilar, Meredith A. Petschauer.

Teaching Associate Professors

J.D. DeFreese, Kristin S. Ondrak, Anthony F. Patterson, Angela N. Pratt.

Teaching Assistant Professors

Rebecca L. Battaglini, Gena R. Gerstner, Chelsea C. Meyers, Aliza K. Nedimyer, Olufemi Oluyedun, Dylan Steen.

Research Associate Professor

Wesley R. Cole.

Postdoctoral Research Associates

Beth Bacon, Paul Baker, Dan Corry, Sergio Lemus, Hanah Marmura, Hayley Smitheman, Jeb Struder.

Professors Emeriti

M. Deborah Bialeschki, John E. Billing, A. C. Hackney, Bonita L. Marks, Robert G. McMurray, Frederick O. Mueller, Frank Pleasants, William E. Prentice, Edgar Shields, John M. Silva.

Teaching Professor Emerita

Sherry Salyer.

Adjunct Professors

David J. Berkoff, Patrick Depenbrock, Kevin M. Guskiewicz, Chris Ingersoll, Shawn Kane, Michael D. Lewek (joint appointment), Stephen W. Marshall, Karen L. McCulloch, Bill Romani, Todd Schwartz.

Adjunct Assistant Professors

Avinash Chandran, Cortney Lago, Michael Mazzoleni.

Exercise and Sport Science Major, B.A.–Fitness Professional

The goal of the fitness professional program is to prepare students to assume roles as leaders in the fitness field and the area of fitness research. The blend of theoretical coursework and practical experience will assist the student in preparing for career opportunities and national fitness certifications.

For more information, interested students can also access the fitness professional website (<https://exss.unc.edu/undergraduate-program/ba-fitness-professional/>) or contact Professor Alain Aguilar (alaguila@email.unc.edu).

Student Learning Outcomes

Upon completion of the Exercise and Sport Science program (fitness professional track), students should be able to:

- Apply curriculum learning to pass fitness-related accredited certifications
- Efficiently and independently demonstrate accurate fitness testing methods to create comprehensive fitness programs for healthy and clinical populations
- Explain, correct, and modify exercise techniques to healthy and clinical populations
- Explain general nutritional concepts for specific fitness goals
- Comprehend the basic administrative duties of fitness management
- Critically analyze fitness-related research, blog posts, and other outlets of information

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Students seeking the major in exercise and sport science–fitness professional (EXSS–FP) must complete the following departmental requirements in addition to required General Education courses:

Code	Title	Hours
Core Requirements		
EXSS 155 & EXSS 256	 Human Anatomy and Physiology I and Human Anatomy and Physiology II ^{H, F}	6
EXSS 220	Fitness Management	3
EXSS 360	Sports Nutrition	3
EXSS 376	Physiological Basis of Human Performance	4
EXSS 380 or EXSS 385	Neuromuscular Control and Learning ^H Biomechanics of Sport	3
EXSS 408 or EXSS 478	Theory and Application of Strength Training and Conditioning for Fitness Professionals Sports Performance Training	3
EXSS 410	Exercise Testing and Prescription	4
EXSS 593	 Practicum in Physical Fitness and Wellness	3
Select two courses from the following options:		6
EXSS 593	 Practicum in Physical Fitness and Wellness (can be taken for an additional 6 hours, or a total of 9 hours for the core requirements)	
Additional EXSS elective course(s) excluding first-year seminars ¹		
Additional Requirements		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
Select one:		4
BIOC 107	Introduction to Biochemistry	
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{1, H, F}	
Total Hours		43

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ If EXSS 593 is taken for fewer than 9 credit hours, additional EXSS courses must be taken to reach 34 total hours of core requirements. If more than one additional course is required to reach 34 hours, at least one must be above 199.

² CHEM 101 requires MATH 110 as a prerequisite.

Special Opportunities in Exercise and Sport Science

Honors in Exercise and Sport Science

The senior honors program provides exercise and sport science majors the opportunity to pursue an independent, two-semester research project. A student must have an overall grade point average of 3.3 or above prior to acceptance into the departmental honors program and must maintain an overall average of 3.3 or above to remain in the program. Students complete EXSS 693H and EXSS 694H. Honors study involves the completion of a substantial piece of original research and the formal

oral presentation of the results. Those successfully completing the program are awarded their degree with either honors or highest honors. Previous senior honors thesis topics and more information can be found on the EXSS department web page. Please contact Dr. Zachary Yukio Kerr by email if you are interested.

Departmental Involvement

In addition to its academic offerings, the department houses many research laboratories, and the campus recreation program. Both provide experiences outside the classroom. Students may also affiliate with the Carolina Sports Business Club and the Carolina Sport Administration Club.

Experiential Education/High-Impact Experience

The following courses satisfy the experiential education requirement in the Making Connections curriculum and *some* satisfy the high-impact experience requirement in the IDEAs in Action curriculum.

Code	Title	Hours
EXSS 51	 First-Year Seminar: Entrepreneurship in Human Performance and Sport	3
EXSS 207	Coaching Principles	3
EXSS 393	 Sports Medicine Clinical	1
EXSS 395	 Undergraduate Research Course	1-3
EXSS 420	 Program Planning in Recreation Services	3
EXSS 493	 Field Experience in Sport Administration	3
EXSS 593	 Practicum in Physical Fitness and Wellness	1-3
EXSS 693H	 Senior Honors Thesis	3
EXSS 694H	 Senior Honors Thesis	3

Laboratory Teaching Internships and Assistantships

The fitness professional students serve a practicum with local fitness organizations.

Study Abroad

The Department of Exercise and Sport Science offers summer study abroad programs depending on faculty availability. Refer to the department's website and the study abroad website for more information. For other study abroad experiences the department will gladly work with its majors in advance of the experience to determine appropriate credit.

Undergraduate Awards

The Patrick F. Earey Award, named in honor of a longtime faculty member, is given annually to the outstanding senior major in the department. The award signifies exemplary leadership, academic achievement, and extracurricular involvement by a senior exercise and sport science major.

The Ronald W. Hyatt Scholarship, named in honor of the late Dr. Hyatt, one of Carolina's "priceless gems" and a faculty member in the department, is a merit-based scholarship awarded annually to an outstanding full-time undergraduate exercise and sport science major with junior status.

Undergraduate Research

Students are encouraged to explore research interests by taking EXSS 395, completing independent research studies, or writing senior honors theses. Please review the EXSS website under the research laboratories tab to determine where your research interest lies.

Contacting individual faculty in your area of interest is encouraged, or reach out to Dr. Zachary Yukio Kerr, the EXSS director of undergraduate research.

Exercise and Sport Science Major, B.A.–General

Exercise and sport science examines the physics, physiology, psychology of sport and exercise, and the recognition and treatment of athletic injuries. The general major provides foundational courses in exercise science and is an excellent preparation for the allied medical fields.

Student Learning Outcomes

Upon completion of the Exercise and Sport Science program, students should be able to:

- Understand the role and importance of lifelong physical activity and exercise in society
- Demonstrate the ability to apply fundamental concepts of human physiology to explain how the human body responds to exercise and changing environments
- Describe neuromuscular control systems and concepts related to movement and motor skill acquisition, retention, and transfer
- Describe biomechanical and anatomical concepts of human motion and apply these concepts to understanding exercise, performance, and injury
- Understand the research process including research design, statistical terminology, and utilization of literature. Through this process they will be able to critically analyze current research in the field of exercise and sport science
- Demonstrate knowledge and procedures to respond in an emergency situation, identify and manage individual injury in health and fitness settings, and understand how to maintain a safe environment

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Exercise and Sport Science Major, B.A.—Sport Administration

The sport administration program provides students with course work specific to sport-related business and administrative functions, settings, and organizations. Course topics include administration, economics, event planning and management, facility management, finance, law, marketing, sales, analytics and leadership/organizational behavior, sponsorship, and other important components of the sport industry. Students may also complete at least one (1) sport administration internship as part of program studies.

For more information, please contact Tony Patterson (tonyp@unc.edu).

Student Learning Outcomes

Upon completion of the Exercise and Sport Science program (sport administration track), students should be able to:

- Understand and apply fundamental processes related to the sales process, marketing of sport, and marketing through sport
- Recognize the challenges of planning, designing, and managing an effective and efficient sport event, as well as designing and managing a variety of sport and multipurpose facilities, and applying solutions or best practices to challenges
- Understand and identify the proper legal theory, including contracts, torts, property, agency, administrative, and Constitutional law as applied in the sport industry
- Apply specific critical thinking and analytical techniques used by financial managers to economic/financial challenges found in various sport settings
- Identify their own leadership qualities and core values, assess how their unique approach will help or hinder their ability to lead, and set a personal leadership vision to guide them within the sport industry

- Identify opportunities for experiential learning in the sport administration field, develop a professional portfolio and networking skills, understand organizational structures, and successfully navigate a sport

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Students seeking the major in exercise and sport science–sport administration (EXSS–SA) must complete the following requirements in addition to required General Education courses:

Code	Title	Hours
Core Requirements		
EXSS 221	Introduction to Sport Administration ¹	3
EXSS 322	Fundamentals of Sport Marketing	3
EXSS 323	Sport Facility and Event Management	3
EXSS 324	Finance and Economics of Sport	3
EXSS 326	Legal Aspects of Sport	3
EXSS 424	Sport Sales and Revenue Production Seminar	3
Nine (9) additional credits must be earned in EXSS courses (at least one course, 3 hours, must be at the 200 level or above). ²		9
Additional Requirements		
ECON 101	 Introduction to Economics (prerequisite for EXSS 324) ^{H, F}	4
STOR 151	 Introduction to Data Analysis	3
or STOR 155	 Introduction to Data Models and Inference	
or PSYC 210	 Statistical Principles of Psychological Research	
Total Hours		34

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ EXSS 221 is a prerequisite for EXSS 322, EXSS 323, and EXSS 493.

² EXSS 420 and EXSS 430 may also be used. Note: EXSS 493 may be taken twice for a maximum total of six credits, but only three credits may be used to fill this elective requirement.

Students considering graduate work in sport administration should take EXSS 273.

- Coaching Education Minor (p. 386)
- Exercise and Sport Science Minor (p. 387)
- Sports Medicine Minor (p. 388)

Graduate Program

- Exercise and Sport Science (<https://catalog.unc.edu/graduate/schools-departments/exercise-sport-science/>), M.A. (<https://catalog.unc.edu/graduate/schools-departments/exercise-sport-science/>)

Courses

- Exercise and Sport Science (EXSS) (<https://catalog.unc.edu/courses/exss/>)
- Lifetime Fitness (LFIT) (<https://catalog.unc.edu/courses/lfit/>)
- Physical Activities (PHYA) (<https://catalog.unc.edu/courses/phya/>)

One lifetime fitness course is a graduation requirement for all students at UNC–Chapel Hill (post-2006 curriculum). Students are encouraged to complete the lifetime fitness requirement during their first year of study. A student may enroll in only one LFIT course and may count only one, one-credit LFIT course toward graduation at Carolina. These courses combine practice in a sport or physical activity with general instruction in lifelong health.

Coaching Education Minor

Coaching education minors have the opportunity to gain both theoretical and practical knowledge regarding psychological, physiological, pedagogical, philosophical, and management aspects of coaching.

Requirements for the coaching education minor can be found in the Undergraduate Catalog archives (p. 788).

The Department of Exercise and Sport Science has paused enrollment in the coaching education minor and is no longer accepting applications.

Exercise and Sport Science Minor

Exercise and sport science examines the anatomy, physics, physiology, and psychology of sport and exercise. The minor offers a more brief look into the opportunities for careers in exercise and sport.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Five courses chosen from:		15
EXSS 180	Physical Activity in Contemporary Society	
EXSS 181	Sport and Exercise Psychology	
EXSS 265	Fundamentals of Sports Medicine ¹	
	or EXSS 288 Emergency Care of Athletic Injuries and Illnesses	
EXSS 360	Sports Nutrition ¹	
EXSS 376	Physiological Basis of Human Performance ¹	
EXSS 380	Neuromuscular Control and Learning ¹	
EXSS 385	Biomechanics of Sport ¹	
EXSS 408	Theory and Application of Strength Training and Conditioning for Fitness Professionals ¹	
Additional Requirements		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
Total Hours		19

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Please note that some EXSS courses require prerequisites.

See the program page here (p. 383) for special opportunities.

Sports Medicine Minor

There are many medical professions that have a sport focus (physical therapist, athletic trainer, physician, physician assistant, nurse, occupational therapist). The sports medicine minor is designed to expose students to the various injuries and rehabilitation techniques that are specific to sport. Students will learn the foundations of anatomy and physiology and then use this knowledge to understand basic evaluation, management and prevention techniques for sport related injury.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Select one of the following options:		6
EXSS 155 & EXSS 256	Human Anatomy and Physiology I and Human Anatomy and Physiology II ^{H, F}	
EXSS 175 & EXSS 276	Human Anatomy and Human Physiology ^F	
EXSS 265	Fundamentals of Sports Medicine	3
EXSS 366	Foundations of Sports Medicine Rehabilitation	3
EXSS 393	Sports Medicine Clinical	1
One of the following courses:		1-3
EXSS 275L	Human Anatomy Laboratory	
EXSS 288	Emergency Care of Athletic Injuries and Illnesses	
EXSS 360	Sports Nutrition	
EXSS 409	Exercise Prescription for Special Populations ¹	
EXSS 450	Essentials of Corrective Exercise Training	
EXSS 573	Sport Injury Epidemiology ¹	
EXSS 580	Neuromechanics of Human Movement ¹	
EXSS 581	Biopsychosocial Aspects of Sport Injury	
EXSS 583	Fundamentals of MRI for Brain Mapping	
EXSS 584	Neurotrauma Involving the Head and Neck: Overview of Neurophysiology, Assessment, and Management	
Total Hours		14-16

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Course requires a prerequisite(s) not otherwise counting in the minor. Please review prerequisite information carefully when planning your course selection.

Students will have the opportunity to obtain clinical experience through working with a health care professional in an athlete health care facility. See the program page here (p. 383) for additional special opportunities.

Department of Geography and Environment

Introduction

Geography and environment is the science of space, place, and environment. The department offers classes spanning the social and natural sciences, training students in qualitative, quantitative, spatial analysis and modeling, and laboratory methodologies. Human geographers study the spatial aspects of human activities, and physical geographers study patterns of climate, vegetation, landforms, land-surface processes, soils, and water at the interface between the biosphere and the atmosphere. Geographic tools and techniques — including Geographic Information Systems, remote sensing, and online and interactive mapping technologies — are among the most important for exploring and understanding our complex world. Geographic inquiry ranges from local to global scales. Geography and environment are inherently interdisciplinary fields that equip students with the skills to gain insights into the pressing issues the world faces. Geographic and environmental knowledge is highly valuable for policymakers. For example, how does climate change impact people's livelihood and health? How does globalization influence where your jeans are made? How can health disparities between people be overcome through policy change? By synthesizing this knowledge, geographers create unique understandings of our complex world.

Career opportunities for geographers are wide-ranging in the public, private, and nongovernmental sectors. Geographers work in the areas of social, health, and environmental policy; energy, transportation, economics, development, and tourism planning; urban and regional planning; research and education; community development; resource management; and environmental regulation and modeling.

With geography and environment, you can explore the world and find yourself.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review Tar Heel Tracker each semester. The department's Director of Undergraduate Studies works with current and prospective majors by appointment and during regular office hours (see department website as hours will vary by semester). Departmental academic advising is highly recommended for all majors, in particular those considering graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website.

Facilities

The department has a range of specialized, state-of-the-art equipment for geospatial field sampling and laboratory analysis of data in hydrology, climatology, and vegetation science, including an ecohydrology laboratory, freshwater ecology and biogeochemistry laboratory, and a dendrology laboratory. The department is wired internally to support the latest network technology. This network links us to the centrally managed servers that provide access to a large library of software for geographic applications and research, as well as first-class library resources, data storage and backup, and access to supercomputing clusters.

Graduate School and Career Opportunities

There are a variety of job opportunities for geographers in government, business, industry, and the nonprofit sector. Geographers are hired for the following kinds of expertise: locational analysis, GISci, remote sensing, cartography, land use planning, recreation and tourism planning, and foreign area expertise. Many geographers pursue teaching at all levels.

Students with a B.A. major in geography and environment from UNC–Chapel Hill are well trained for graduate programs in geography and environment and other related disciplines. Majors have entered graduate programs as diverse as city and regional planning, business, medicine, and ecology. For more information about careers in geography, the UNC–Chapel Hill Department of Geography and Environment, degree requirements, and connections to other sites of interest, visit the department's website (<http://geography.unc.edu>).

Geography and Environment Major, B.A.

Geography is the science of space, place, and environment. The department offers classes spanning the social and natural sciences and offering students training in qualitative, quantitative, spatial analysis and modelling, and lab methodologies. Human geographers study the spatial aspects of human activity, and physical geographers study patterns of climate, land forms, soils, and water. Geographic tools and techniques—including Geographic Information Systems, remote sensing, and online and interactive mapping technologies—are among the most important for exploring and understanding our complex world. Geographic inquiry is global and local, inherently interdisciplinary, and offers skills that enable insights into pressing issues valued by employers and policy makers.

Career opportunities for geographers are wide ranging in the public, private, and nongovernmental sectors. Geographers work in the areas of social, health, and environmental policy; energy, transportation, economic development, and tourism planning; urban and regional planning; research and education; community development; resource management; and environmental regulation and modeling.

With geography, you can explore the world and find yourself.

Student Learning Outcomes

Upon completion of the geography and environment program, students should be able to:

- Apply current research methods in geography to understand and/or solve real-world problems.
- Construct a coherent, logical research approach to examine a question of geographic significance.
- Analyze a geographic landscape and discuss the human and physical influences that have helped create it.
- Analyze cultural and social contexts to understand and theorize human activities/behavior on human well-being.
- Report satisfaction with the geography and environment major.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
GEOG 110	 The Blue Planet: An Introduction to Earth's Environmental Systems ^H	3
or GEOG 111	 Weather and Climate	
One of the following:		3
GEOG 120	 World Regional Geography	
GEOG 121	 Geographies of Globalization	
GEOG 130	 Development and Inequality: Global Perspectives ^F	
GEOG 370	 Introduction to Geographic Information	3
GEOG 391	Quantitative Methods in Geography	3
GEOG 392	 Research Methods in Geography	3
GEOG 697	 Capstone Seminar in Geographic Research ¹	3
Four GEOG elective courses, at least two of which must be at the 400-level or above.		12
Total Hours		30

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students wishing to pursue honors in geography are recommended to take the GEOG 697 in the spring of the junior year as preparation for the honors thesis (GEOG 691H and GEOG 692H).

Students are invited (but not required) to navigate through the major using a pathway, which reflects various subfields of geography (for example, urban geography, health geography, climate, international development, social and cultural geography). Students should refer to the full list of pathways below.

All General Education requirements apply. Although the major requires a total of 10 geography courses (30 credit hours), a maximum of 15 geography courses (45 credit hours) can count toward the 120 hours required to graduate. Students wishing more information should consult the director of undergraduate studies.

Geography (GEOG) course descriptions (p.).

Urban Development and Planning Pathway

For the first time in human history over half of the world's population lives in cities. This presents a monumental challenge to politicians, urban planners, and citizens to build sustainable, just, and livable urban spaces. A background in urban geography prepares you for one of the many careers devoted to improving cities and settlements around the globe.

Code	Title	Hours
Core Classes		
GEOG 228	 Urban Geography	3
GEOG 423	Social Geography	3
GEOG 428	 Global Cities: Space, Power, and Identity in the Built Environment	3
GEOG 429	 Urban Political Geography: Durham, NC	3
GEOG 430	Global Migrations, Local Impacts: Urbanization and Migration in the United States	3
GEOG 458	Urban Latin America: Politics, Economy, and Society	3

GEOG 392	 Research Methods in Geography ¹	3
GEOG 491	Principles of Geographic Information Systems ¹	3
GEOG 591	 Applied Issues in Geographic Information Systems ¹	3
GEOG 697	 Capstone Seminar in Geographic Research ²	3

¹ Qualitative, quantitative, and GIS skills.

² Research opportunities.

Pursuing a minor in urban studies and planning (p. 257) may also be of interest.

There are career opportunities in city planning, architecture, real estate development, policy analysis, community development, or civil engineering.

Diversity and Justice Pathway

How do the places, spaces, and environments that we inhabit reinforce structures of oppression or create the potential for liberation? Social movements and activists have created spatial theories and strategies to change the world: by occupying public space or by fighting for the protection of sacred lands. In our classes, you will learn how power flows through space; that all politics unfolds in places; that everyday life is political; and that environmental issues are connected to social justice. You will also learn tools including mapping technologies, remote sensing, oral histories, and interviews.

COMP 110	 Introduction to Programming ^H	3
or COMP 116	Introduction to Scientific Programming	

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Climate science has growing career opportunities due to renewed interest in current and future climate change. This pathway will position students for non-profit, governmental, and private environmental jobs, as well as for advanced study in climatology.

International Development and Globalization Pathway

The international development and globalization pathway will prepare students with the practical tools and intellectual framework to become participants and leaders in the world of international development. Students might continue their studies in graduate school, work for an international non-governmental organization, pursue a career in diplomacy, or work with social movements.

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

GIScience

Geographic information science (GIScience) emphasizes geographic information technologies, their real-world applications, and the science and technology underlying them. These technologies include geographic information systems (GIS), satellite remote sensing, global positioning systems, computer cartography, terrain analysis, and geospatial visualization. These skills are in high demand, giving students a competitive edge to pursue careers in the private, public, and non-profit sectors.

Geography of Health and Disease

Health geography takes a socio-ecological approach, rather than a biomedical approach to understanding the occurrence of human disease and wellbeing. This is a highly integrated field, requiring knowledge of social systems, environmental systems, and the etiology and ecology of disease. In addition, geospatial technologies such as geographic information systems, satellite remote sensing, and geographic analysis are powerful tools in the study and management of human diseases. This pathway will prepare students for a career in the spatial, social, and ecological dimensions of public health, as well as for graduate school in the spatial health sciences.

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Political Ecology

Political ecologists study the reciprocal and dynamic relations between society and nature. How do markets, social relations, and populations influence resource governance practices and vice versa? Whose voices and ideas count in the creation of protected areas, or in the decisions about where toxic waste and trash are deposited? When and how do decision makers or community members mobilize scientific knowledge to pursue environmental and ethical commitments? The political ecology pathway in geography offers a cross-disciplinary approach for answering such questions and, more broadly, for studying the relationship between the economy, politics, and ecology.

Code	Title	Hours
Core Courses		
GEOG 141	 Geography for Future Leaders	3
GEOG 212	 Environmental Conservation and Global Change	3
GEOG 232	 Agriculture, Food, and Society	3
GEOG 414	 Climate Change	3
GEOG 435	 Global Environmental Justice	3
GEOG 470	 Political Ecology: Geographical Perspectives	3
Methods and Skills ¹		
GEOG 370	 Geographic Information Science	3
GEOG 391	Quantitative Methods in Geography	3
GEOG 392	 Research Methods in Geography	3
GEOG 222	Health and Medical Geography	3
Classes Outside of Geography		
ANTH 139	Ecological Anthropology	3
ANTH 151	 Anthropological Perspectives on Food and Culture	3
ANTH 238	 Human Ecology of Africa	3
ANTH 306	Water and Inequality: Anthropological Perspectives	3
ANTH 320	Anthropology of Development	3
NUTR/AMST 175	 Introduction to Food Studies: From Science to Society	3

¹ More advanced quantitative and GIS courses are very useful to students wishing to pursue professional paths in this field.

Culture, Society, and Space

How are our identities, experiences, and daily practices shaped by the places that we live in? How do we transform our environments to reflect who we are? These questions underpin key debates about culture and society today. Cultural and social geographers study the relationships among culture, society, space, and place. Their research examines the dynamic geography of cultural and societal change due to, for example, migration, technological developments, or religious movements. The culture, society, and space pathway in geography prepares students for work in international NGOs and the public and private sectors,

specializing in cultural and social issues, as well as training students for graduate school in the social sciences and humanities.

Code	Title	Hours
Core Courses

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Special Opportunities in Geography and Environment

Honors in Geography

Qualifying students are encouraged to pursue an honors degree. To gain admission to the honors program students must have a cumulative grade point average of 3.3 or higher and a grade point average of 3.4 or higher in geography courses. Honors students take GEOG 691H and GEOG 692H (honors readings and research and theses hours) with their honors thesis chair in their senior year. Honors study involves the completion of a

substantial piece of original research and the formal presentation of the results in an honors thesis and oral defense. Those who successfully complete the program are awarded their B.A. degree with either honors or highest honors in geography.

Departmental Involvement

All students are welcomed and encouraged to attend the department's seminar, held on most Friday afternoons at 3:30 p.m. in Carolina Hall 220. The department sponsors the Carolina Geography and Environment Club, which provides an avenue for student involvement with the department outside of course work (see the club's Facebook page). Students can also interact with the department through service on the faculty undergraduate committee and through independent research with faculty.

Experiential Education

The department offers several experiential education courses:

Code	Title	Hours
GEOG 53	 First-Year Seminar: Battle Park: Carolina's Urban Forest	3
GEOG 419	Field Methods in Physical Geography	3
GEOG 429	 Urban Political Geography: Durham, NC	3
GEOG 452	Mobile Geographies: The Political Economy of Migration	3
GEOG 493	 Internship	3
GEOG 650	 Technology and Democracy Research	3
GEOG 691H	 Honors	3
GEOG 692H	 Honors	3

Internship

Students can gain course credit by interning with an organization, agency, or business that will augment their classroom learning. The department has an internship coordinator available to assist students in finding internships and to manage participation in the organization's activities. Internship can be taken with a geography and environment faculty member for academic credit through GEOG 493.

Independent Study

Independent study with a geography and environment faculty member can be taken for academic credit through GEOG 296. Students are responsible for arranging their independent study with a faculty member who will sponsor them for this activity. Students must fill out a learning contract and syllabus in collaboration with the sponsoring faculty member, and then be enrolled by Ms. Nell Phillips, the Student Services Manager, in the department's main office. For more information, contact the individual faculty member or the Director of Undergraduate Studies, Professor Shorna Allred.

Undergraduate Research

Research with a geography and environment faculty member can be taken for academic credit through GEOG 295. Students are responsible for arranging their research activities and responsibilities with a faculty member who will sponsor them for this activity. Students must fill out a learning contract with the sponsoring faculty member and then be enrolled by Ms. Nell Phillips, the Student Services Manager, in the department's main office.

Study Abroad

Experiences with other cultures and environments are important to a well-rounded background in geography, and the department thus encourages a study abroad experience. Many of our students study abroad in the Galapagos Islands at the Galapagos Science Center. The department also participates in a junior-year exchange program with King's College London. Many other study abroad programs combine well with a major in geography.

Undergraduate Awards

The Andrew McNally Award is given each spring to an outstanding graduating geography major, as chosen by a committee of the faculty. The department also administers the Melinda Meade Award for Excellence in Undergraduate Geographic Research, the John D. Eyre Service in Geography Award, as well as the John D. Eyre Travel Award, and the Burgess McSwain Travel America Fund, which are open to all geography undergraduates at UNC–Chapel Hill.

Geospatial Data Science Major, B.S.

The bachelor of science in Geospatial Data Science prepares students to work in the field of Geospatial Data Science, which has emerged as a distinct and important subfield in Data Science, leveraging data tied to geographic locations on the Earth's surface. Students who complete this degree will gain knowledge, skills, and training the technical aspects of geographic inquiry, which span data science, geographic information science (GISc), and geography. The degree pairs traditional training in GISc (geovisualization, geographic information systems, and remote sensing) with cutting edge applications in big data analysis, cloud computing, Geospatial Artificial Intelligence (GeoAI), machine learning, data mining, and data engineering for automation. The curriculum aims to provide students with a strong foundation in the concepts and theories underlying modern spatial data analytics, critical thinking and reasoning skills, and applied, hands-on training in modern methods and techniques.

Student Learning Outcomes

Upon completion of the geospatial data science program, students should be able to:

- Understand physical and human geographical phenomena and their interactions (Foundations of Geography).
- Apply sound techniques and methods in GIS, remote sensing, geovisualization, and spatial data science to prepare, process, and analyze geospatial data using GeoAI and machine learning tools on both personal computers and cloud computing platforms with geobigdata.
- Apply sound practices in data management, problem-solving, automation, and algorithm development in the context of computer programming and geospatial data.
- Apply sound practices when using mathematical and statistical methods to analyze and interpret geospatial data.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
GEOG 110	 The Blue Planet: An Introduction to Earth's Environmental Systems ^H	3
or GEOG 111	 Weather and Climate	
Select one of the following courses:		3

Climate Change Minor

Climate change is arguably the most pressing concern of our times. The impacts of climate change touch nearly every aspect of nature and society. Climate change is producing increasingly frequent and intense disturbances to natural resources and the environment, including droughts, flooding, wildfire, cyclones and heat waves. These impacts disrupt nearly every human endeavor, including public health and safety, environmental management and conservation, transportation, settlement patterns, food production, economics, migration, water resources and conflict. The climate change minor will help prepare students for this monumental challenge of global citizenship, and to prepare them for nearly all major fields of employment.

The minor offers a broad and integrated perspective on the intersections of society, nature, and our changing climate systems. Students will learn about the environmental science driving climate change through three foundational courses. Students will also learn about the impacts and vulnerabilities of the scientific and human dimensions of climate change, and methods for researching and presenting findings on climate.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Environmental Justice Minor

The minor in Environmental Justice (EJ) focuses on the intersections of inequity, the environment, and justice. The minor introduces the field's historical foundations in scholarship on race, inequity, and social movements with of focus on their relation to environmental concerns and provides an overview of environmental justice movement work and literature from local to global scales. The goal of the minor is to provide a starting-point for understanding the meaning, significance, and potential of environmental justice as a field of action and inquiry in relation to questions of development and social difference, and in various geographic contexts. Students who complete the minor will engage with an interdisciplinary curriculum that emphasizes intersecting ideas about landscapes, ecosystems, and environmental health with questions of race, economic production, and power inequities. Students will also use geographic approaches to space, place, and scale to conceptualize, contextualize, and analyze a wide range of environmental justice related topics, and learn about tools and political processes that can be used to address environmental justice concerns. Relevant topics include, for example, the uneven social experiences with food, water, health and land access; exposures to pollution; risks to health and wellbeing; infrastructural inequities; resource extraction; colonization; and climate change.

Required courses provide an introduction to EJ and build insight into how different people, in different contexts, have looked to environmental justice framing and practices for inspiration in social and community movements, justice-oriented governance, formal state and inter-state regulatory bodies, and planning for environmental change.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

A minimum of 4 courses (12 credit hours) is required to complete the minor.

Geography Minor

Geography is the science of space, place, and environment. The department offers classes spanning the social and natural sciences and offering students training in qualitative, quantitative, spatial analysis and modelling, and lab methodologies. Geography minors have the opportunity to augment their major by adding a spatial perspective to the big questions of how, where, and why we live the way we do, in the world that we all share.

The geography minor pairs well with majors in the humanities, social, and natural sciences. Common majors include anthropology, biology, environment and ecology, environmental sciences and engineering, global studies, peace, war, and defense, political science, and public policy.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

To minor requires five geography courses.

Code	Title	Hours
Core Requirements		
Any two core courses:		6
GEOG 110	 The Blue Planet: An Introduction to Earth's Environmental Systems ^H	
GEOG 111	 Weather and Climate	
GEOG 120	 World Regional Geography	
GEOG 121	 Geographies of Globalization	
GEOG 130	 Development and Inequality: Global Perspectives ^F	
GEOG 370	 Introduction to Geographic Information	
GEOG 697	 Capstone Seminar in Geographic Research	
Three GEOG elective courses		9
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Elective courses may be any on the departmental list (p.), but students are encouraged to take higher-numbered courses. Students wishing more information should consult their academic advisor or the geography director of undergraduate studies.

See the program page here (p. 394) for special opportunities.

Geographic Information Sciences Minor

Geographic information sciences (GISc) is the study of geospatial phenomena using an integrated set of spatial digital technologies including tools, techniques, concepts, and datasets associated with geographic information systems, remote sensing, data visualization, global positioning systems, spatial analysis, and quantitative methods. Students in the GISc minor will learn spatial reasoning, geographic theory, hands-on experiences in cutting-edge geographic information systems (GIS), remote sensing (RS), global positioning systems (GPS), and their application in solving real-world problems, such as the impacts of climate and environmental changes on ecosystem goods and services, natural and anthropogenic factors affecting freshwater availability, biodiversity,

and public health, among others. Students who complete the program will be ready to enter the job market with a competitive advantage in geographic information sciences.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
GEOG 215	 Introduction to Spatial Data Science	3
GEOG 370	 Introduction to Geographic Information	3
Select three courses from the following list:		9
ANTH 419	Anthropological Application of GIS	
GEOG 456	 Geovisualizing Change	
GEOG 477	 Introduction to Remote Sensing of the Environment	
GEOG/PLAN 491	Introduction to GIS	
GEOG 541	GIS in Public Health	
GEOG 544	Geographic Information Systems for Impact Evaluation and Health Studies	
GEOG 555	Cartography of the Global South	
GEOG 577	 Advanced Remote Sensing	
GEOG 591	 Applied Issues in Geographic Information Systems	
GEOG 592	 Geographic Information Science Programming	
GEOG 594	Global Positioning Systems and Applications	
Total Hours		15

This minor is open to all undergraduate students. For geography majors and minors, please note that no more than 45 hours of GEOG course credit may be used toward fulfilling the B.A. graduation requirement in the College of Arts and Sciences.

See the program page here (p. 394) for special opportunities.

Department of Germanic and Slavic Languages and Literatures

Introduction

The Department of Germanic and Slavic Languages and Literatures offers instruction and conducts research in the languages, literatures, and cultures of central, northern, and eastern Europe. It offers multiple tracks for undergraduate study for those interested in German (one concentration), Russian (one concentration), and Slavic and East European (one concentration). A major in Germanic and Slavic languages and literatures provides preparatory training that will be useful in government employment, internationally oriented business, journalism, law, the sciences, and teaching; as well as preparing students for graduate study in a range of humanistic and social science disciplines.

Advising

Students can complete any concentration, even if they have no prior experience in the language, provided that they begin taking their language courses as first-year students. It is also very possible for transfer students to complete the concentrations, provided they enter the program with some knowledge of the associated language.

All majors and minors have a primary academic advisor as assigned by Academic Advising (<https://advising.unc.edu/>). Students should meet

regularly with their primary advisor and review their Tar Heel Tracker each semester.

However, departmental academic advising is also important for all students majoring or minoring in the department. Current and prospective majors and minors should confer with the department's director, or assistant director, of undergraduate studies regarding plans of study, study abroad course approvals, internship opportunities, and transfer credit.

Students seeking certification to teach German or Russian in public schools should consult advisors in the School of Education.

Graduate School and Career Opportunities

In an age of rapid internationalization and globalization, proficiency in a foreign language is no longer just an auxiliary skill but a necessary one. Courses offered in the department make up an important part of a liberal education, and a major or minor can provide excellent preparation for many careers, particularly when the major or minor is combined with courses in business, economics, political science, journalism, and various other fields. Recent graduates have entered careers in international business, journalism, publishing, the sciences, and the travel industry.

A bachelor of arts with a major in Germanic and Slavic languages and literatures also qualifies graduates for positions in the U.S. Department of State and other government agencies, educational organizations, foundations, and travel organizations. The presence of over 100 German and Swiss firms in the Carolinas testifies to the demand for a high degree of German linguistic and cultural literacy in college graduates. The department is also one among very few in the United States that offers a range of critical and/or less commonly taught languages of Central and Eastern Europe. People who know these languages are in particularly high demand in business and government.

In addition, the demand for language teachers provides career opportunities for those German and Russian majors who also receive teaching certification from the School of Education.

German, Russian, and Slavic/East European majors often go on to graduate programs in comparative literature, linguistics, history, law, international business and management, international relations, professional translation, medicine, education, and more. Some pursue careers as college professors. Many Chapel Hill German, Russian, and Slavic/East European majors have been welcomed by the most prestigious graduate programs in the country. The department's faculty members can assist undergraduate majors in selecting appropriate graduate programs.

Majors

- Germanic and Slavic Languages and Literatures Major, B.A.—German Studies Concentration (p. 407)
- Germanic and Slavic Languages and Literatures Major, B.A.—Russian Language and Culture Concentration (p. 410)
- Germanic and Slavic Languages and Literatures Major, B.A.—Slavic and East European Studies Concentration (p. 404)

Minors

- German Studies Minor (p. 413)
- Russian Culture Minor (p. 415)
- Slavic and East European Studies Minor (p. 417)

Germanic and Slavic Languages and Literatures Major, B.A. –Slavic and East European Studies Concentration

The Slavic and East European Studies concentration in the Department of Germanic and Slavic Languages and Literatures (GSLL) equips students with linguistic, communicative, literary, cultural, and historical competencies necessary to thrive in a diverse, networked world. With this major concentration, Carolina students are poised to succeed in a wide variety of professional fields including government, non-governmental organizations, policy think tanks, journalism, law, civil service, education, and beyond. The program offers a thorough and rigorous education in small seminars where students receive individualized attention from faculty members.

Coursework for this major ranges from language instruction to advanced research in the cultures of Poland, Ukraine, Czechia, and their regional neighbors. Course offerings focus on modern literature, film and new media, visual art, cultural theory, and history. Courses situate regional subject matter within its broadest global contexts. Carolina also offers for rising sophomores and beyond a portfolio of study abroad options in East Central Europe.

Many Carolina students complement their Slavic and East European degree with second majors in different fields. By combining Slavic and East European studies with a social or natural science major, Carolina graduates certify their balanced mastery of all that the liberal arts model embodies: qualitative critique, qualitative analysis, literacy in global cultures, and regional knowledge with vital relevance to current events.

Student Learning Outcomes

Students will acquire linguistic proficiency, cultural competence, and critical and analytical skills through the study of Germanic and Slavic languages and cultures in visual, textual, and oral forms. The curricula in Germanic and Slavic languages and literatures are broadly interdisciplinary and place the comparative study of languages, literatures, and cultures in dialogue with other germane fields of knowledge, such as philosophy, film and media studies, history, and music. Particular attention is paid to the development of student research interests that can bridge their acquired linguistic and cultural knowledge with their aspirations in other disciplines. Upon completion of the Germanic and Slavic Languages and Literatures program, students are able to:

- Speak effectively in the target language in a variety of social, academic, and professional settings, as well as use their native language for effective cross-cultural communication

- Write accurately in both the target language and English on a variety of topics relevant to the discipline
- Understand another culture's practices as meaningful sites for the articulation of identities and the negotiation of values
- Connect the critical interpretation of aesthetic texts to broader fields of intellectual inquiry
- Gain knowledge of the cultural history of Germanic and Slavic lands and link its relevance to both American and global histories
- Utilize disciplinary methods and theories in order to produce original, innovative research

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
GSLL 260	 From Berlin to Budapest: Literature, Film, and Culture of Central Europe	3
HIST 250	 Central Europe, Medieval to Modern	3
or HIST 260	 From Kings to Communists: East-Central Europe in the Modern Era	
Four departmental courses (12 credit hours) in CZCH, GSLL, PLSH, RUSS, or SLAV numbered above 200 (not including introductory or intermediate foreign language courses) ¹		6
Two additional courses (6 credit hours), which may include departmental courses in CZCH, GSLL, PLSH, RUSS, or SLAV numbered above 100, or approved Slavic & East European studies electives (see list below) ¹		12
Additional Requirements		
Students must establish credit for level 4 (four semesters) of one East or Central European language (3 credit hours): ^{2, 3}		3
BCS 404	Intermediate Bosnian-Croatian-Serbian Language II	
CZCH 404	Intermediate Czech II	
PLSH 404	Intermediate Polish II	
RUSS 204	Intermediate Russian Communication II	
GERM 204	 Essential German for Advanced Proficiency: Vielfalt in Practice ^H	
Total Hours		27

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- ² The first three levels of the foreign language can count toward the General Education Foundations requirement and have not been included as additional hours for the major.

- ³ By exam credit (BE) and placement credit (PL) may be used.

Approved Electives

Code	Title	Hours
ANTH 449	 Anthropology and Marxism	3
HIST 140	 The World since 1945	3
HIST/EURO 159	 Europe and the World Since 1900	3
HIST/JWST 485	From Fiddler on the Roof to the Holocaust: East European and Soviet Jewish History	3
HIST/JWST/ PWAD 262	 History of the Holocaust: The Destruction of the European Jews	3
JWST/RELI 420	 Post-Holocaust Ethics and Theology ^H	3
JWST 465	Literature of Atrocity: The Gulag and the Holocaust in the Soviet Union and Eastern Europe	3
POLI/PWAD/SOCI 260	 Crisis and Change in Russia and Eastern Europe	3
HIST 480	 Russia's 19th Century: Cultural Splendor, Imperial Decay	3

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- Students may petition the director of undergraduate studies to include other courses with significant Central European content.
- Only one of the following courses may count toward the major: GSLL 691H, GSLL 692H, or GSLL 693H.
- At least four of the above courses (12 credit hours) must be taken at UNC–Chapel Hill to fulfill the requirements of the major. Majors who study abroad or wish to transfer credit from another institution may apply to transfer a maximum of four courses counting toward the major. Before their departure for a study abroad program, students should consult with the relevant director of undergraduate studies about appropriate courses taken abroad for the major.
- Students may not re-enroll in a language course for which they have received PL or BE credit.

Germanic and Slavic Languages and Literatures course descriptions include:

- Germanic and Slavic Languages and Literatures (GSLL) (<https://catalog.unc.edu/courses/gsll/>)
- Dutch (DTCH) (<https://catalog.unc.edu/courses/dtch/>)
- German (GERM) (<https://catalog.unc.edu/courses/germ/>)
- Czech (CZCH) (<https://catalog.unc.edu/courses/czch/>)
- Hungarian (HUNG) (<https://catalog.unc.edu/courses/hung/>)
- Macedonian (MACD) (<https://catalog.unc.edu/courses/macd/>)
- Polish (PLSH) (<https://catalog.unc.edu/courses/plsh/>)
- Russian (RUSS) (<https://catalog.unc.edu/courses/russ/>)
- Serbian and Croatian (BCS) (<https://catalog.unc.edu/courses/bcs/>)
- Slavic (SLAV) (<https://catalog.unc.edu/courses/slav/>)

Special Opportunities in Germanic and Slavic Languages and Literatures

Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider writing an honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSLL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSLL 692H (writing the honors thesis). When GSLL 693H is offered, the course replaces GSLL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

Student Involvement and Cultural Enrichment beyond the Classroom

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club and Slavic Club, provide an atmosphere for effective learning and for enjoying German and Slavic cultures. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listserv, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor, or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Austria, and Eastern or Central Europe. The department also often presents a poetry night with poems recited by learners of various languages, as well as full-length plays and dramatic readings in German performed by undergraduate students.

The German and Slavic clubs, sponsored by the department, encourage students to independently plan cultural events, films, and conversation opportunities.

A number of the above events will be approved for IDEAs in Action CLE credit.

Study Abroad

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students' linguistic and cultural proficiency, particularly once they have acquired sufficient language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; at the Freie University in Berlin; at the University of Zürich, Switzerland (new, starting

in fall 2024); at the IES European Union and Environmental Programs in Freiburg, Germany; and at the IES Programs in Vienna and Berlin.

Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend programs at the Freie University in Berlin, the University of Zürich, in Tübingen, or the IES program in Freiburg, or also the Baden-Württemberg exchange at the University of Mannheim offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term may begin in August but more commonly in October, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD (German Academic Exchange Service) in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend one of SIT Netherlands' semester or summer programs, for example "Human Traffic, Sex Trade, and Modern Slavery in Europe," or "International Perspective on Sexuality and Gender." Exchange programs also are offered at Radboud University in Nijmegen, the University of Groningen, and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study Russian during summer, semester, or yearlong terms through the RLASP (Advanced Russian Language and Area Studies Program) while earning credit towards their Carolina degree. UNC–Chapel Hill offers semester and summer programs in Prague, Czechia, and Dobrovnik, Croatia, and also a semester program in Budapest, Hungary.

For more information about these and other programs in eastern and central Europe, go to the Study Abroad website (<https://studyabroad.unc.edu/>). Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Opportunities specifically for language studies:

- DTCH: SIT Netherlands
- CZCH: NCSU Prague semester or summer programs, API Czech Republic, CET in Prague, Czech Republic
- BCS: API Croatia, API Serbia, Bosnia, and Kosovo
- HUNG: API Hungary

Languages across the Curriculum

The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, often associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for any associated course).

Undergraduate Awards

Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of coursework at the 300 level or above that was conducted in the German language, and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor's Awards Ceremony each spring. Ria Stambaugh was a popular professor of German. After her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreczeny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

Undergraduate Research

In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department faculty. Funding may be available through the Office of Undergraduate Research.

Germanic and Slavic Languages and Literatures Major, B.A. – German Studies Concentration

The German studies concentration in the Department of Germanic and Slavic Languages and Literatures (GSLL) equips students with linguistic, communicative, literary, cultural, and medial competencies necessary to thrive in a diverse networked world. With this major concentration, Carolina students succeed in an endless variety of professional fields.

Courses in German range from basic language instruction to advanced research in the cultures of Germany, Austria, and Switzerland. These offerings focus on medieval and modern literature, philosophy, and cultural theory as well as film and theater. Praxis-oriented courses include German for professional purposes, business German, translation studies, and internship courses. Students may also learn about foreign language pedagogy and gain practical experience teaching German to K–12 students through our course on German for Educational and Community Engagement. Carolina also offers for rising sophomores and beyond an extensive portfolio of study abroad options in German-speaking Europe as well as the chance to apply for internships in Germany through our partnership with the German American Exchange.

German at Carolina offers a thorough and rigorous education in small seminars where students are able to receive individualized attention from faculty members. German students are closely mentored for a variety of exciting career paths. Some go on to graduate or professional schools such as law or medical school. Others start their professional career in sectors like banking and business, education, government, IT, journalism, law, military or civil service, non-governmental organizations, non-profits, policy think tanks, start-ups, research labs, and more.

Many Carolina students who pursue a German degree have a second major in biology, chemistry, economics, business, computer science, linguistics, environmental science, history, philosophy, psychology, media/journalism, or public policy. By combining German with a social or natural science major, Carolina graduates certify their balanced mastery of all that the liberal arts and sciences embody: qualitative critique and quantitative analysis.

Student Learning Outcomes

Students will acquire linguistic proficiency, cultural competence, and critical and analytical skills through the study of Germanic and Slavic languages and cultures in visual, textual, and oral forms. The curricula in Germanic and Slavic languages and literatures are broadly interdisciplinary and place the comparative study of languages, literatures, and cultures in dialogue with other germane fields of knowledge, such as philosophy, film and media studies, history, and music. Particular attention is paid to the development of student research interests that can bridge their acquired linguistic and cultural knowledge with their aspirations in other disciplines. Upon completion of the Germanic and Slavic Languages and Literatures program, students are able to:

- Speak effectively in the target language in a variety of social, academic, and professional settings, as well as use their native language for effective cross-cultural communication
- Write accurately in both the target language and English on a variety of topics relevant to the discipline
- Understand another culture's practices as meaningful sites for the articulation of identities and the negotiation of values
- Connect the critical interpretation of aesthetic texts to broader fields of intellectual inquiry
- Gain knowledge of the cultural history of Germanic and Slavic lands and link its relevance to both American and global histories
- Utilize disciplinary methods and theories in order to produce original, innovative research

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
A minimum of eight courses (24 credit hours). Three of these courses are taught in German (204, 301, 302). The courses for the German Studies Major include:		
GERM 204	 Essential German for Advanced Proficiency: Vielfalt in Practice ^H	3
GERM 301	 Advanced Spoken German: Vielfalt in Media	3

GERM 302	 Advanced Written German: Vielfalt in Analytic and Creative Writing	3
One "Themes" course: GERM 210-290 and GSLL 212-259, 269, 270, 274, 278, 280, 282, 284, 288, 295 (taught in English)		3
One "Histories" course: GERM 401-492 (taught in English)		3
One "Theories" course: GERM 550-589 (taught in English)		3
Two Electives: Students can choose two German-language classes, or two English-language classes, or one German-language and one English-language class from the following options: A) Applied German (these courses are taught in German): GERM 303, 304, 305, 306, 493 and B) Histories, Themes or Theories (see above)		6
Total Hours		24

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional Requirements

- Three German LAC credit hours may be used as a substitute for one three-hour elective course for the major.
- Dutch language courses (DTCH 402, DTCH 403, and DTCH 404) may not count toward the German major. However, DTCH 396 and DTCH 405 may be counted toward the German major as elective courses taught in the target language (i.e., not in English).
- At least four courses (12 credit hours) beyond GERM 203 must be taken at UNC–Chapel Hill to fulfill the requirements of the major.
- Majors who study abroad or wish to transfer credit from another institution may apply to transfer a maximum of four courses counting toward the major. Before their departure for a study abroad program, students should consult with the director of undergraduate studies about appropriate courses taken abroad for the major.
- Students who wish to write a longer research paper have the possibility to sign up for the two-semester honors course designed to lead to the completion of the honors thesis (GSLL 691H and GSLL 692H). Only one of these courses can count as an elective towards the German Major.

Students who receive placement credit (PL) or By-Examination credit (BE) for GERM 204 and/or GERM 301 must substitute this credit with coursework (three credit hours each to replace GERM 204 and/or GERM 301) to complete the requirements for the major. The additional coursework must be German-language coursework numbered above the German-language course that the students test out of. Students may not re-enroll in a course for which they have received PL or BE credit.

Only one of the following courses may count as an elective toward the major:

Code	Title	Hours
GSLL 691H	 Honors Course	3
GSLL 692H	 Honors Course	3
GSLL 693H	 Honors Seminar	3

German (GERM) and Germanic and Slavic Languages and Literatures (GSLL) course descriptions (p.).

Special Opportunities in Germanic and Slavic Languages and Literatures Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider writing an honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSLL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSLL 692H (writing the honors thesis). When GSLL 693H is offered, the course replaces GSLL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

Student Involvement and Cultural Enrichment beyond the Classroom

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club and Slavic Club, provide an atmosphere for effective learning and for enjoying German and Slavic cultures. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listserv, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor, or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Austria, and Eastern or Central Europe. The department also often presents a poetry night with poems recited by learners of various languages, as well as full-length plays and dramatic readings in German performed by undergraduate students.

The German and Slavic clubs, sponsored by the department, encourage students to independently plan cultural events, films, and conversation opportunities.

A number of the above events will be approved for IDEAs in Action CLE credit.

Study Abroad

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students' linguistic and cultural proficiency, particularly once they have acquired sufficient language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; at the Freie University in Berlin; at the University of Zürich, Switzerland (new, starting

in fall 2024); at the IES European Union and Environmental Programs in Freiburg, Germany; and at the IES Programs in Vienna and Berlin.

Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend programs at the Freie University in Berlin, the University of Zürich, in Tübingen, or the IES program in Freiburg, or also the Baden-Württemberg exchange at the University of Mannheim offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term may begin in August but more commonly in October, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD (German Academic Exchange Service) in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend one of SIT Netherlands' semester or summer programs, for example "Human Traffic, Sex Trade, and Modern Slavery in Europe," or "International Perspective on Sexuality and Gender." Exchange programs also are offered at Radboud University in Nijmegen, the University of Groningen, and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study Russian during summer, semester, or yearlong terms through the RLASP (Advanced Russian Language and Area Studies Program) while earning credit towards their Carolina degree. UNC-Chapel Hill offers semester and summer programs in Prague, Czechia, and Dobrovnik, Croatia, and also a semester program in Budapest, Hungary.

For more information about these and other programs in eastern and central Europe, go to the Study Abroad website (<https://studyabroad.unc.edu/>). Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Opportunities specifically for language studies:

- DTCH: SIT Netherlands
- CZCH: NCSU Prague semester or summer programs, API Czech Republic, CET in Prague, Czech Republic
- BCS: API Croatia, API Serbia, Bosnia, and Kosovo
- HUNG: API Hungary

Languages across the Curriculum

The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, often associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for any associated course).

Undergraduate Awards

Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of coursework at the 300 level or above that was conducted in the German language, and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor's Awards Ceremony each spring. Ria Stambaugh was a popular professor of German. After her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreczeny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

Undergraduate Research

In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department faculty. Funding may be available through the Office of Undergraduate Research.

Germanic and Slavic Languages and Literatures Major, B.A. –Russian Language and Culture Concentration

The Russian language and culture concentration in the Department of Germanic and Slavic Languages and Literatures (GSLL) provides students with communicative and cultural mastery of a world language native for over 150 million speakers not only in the Russian Federation, Belarus, and Ukraine, but also in Central Asia and elsewhere. Russian is a less commonly taught language that the U.S. government designates as “critical” for national security.

Russian courses comprise five levels of language instruction from elementary to professional as well as offerings on Russian culture, literature, and civilization from 19th and 20th centuries to present. The GSLL Russian Program curriculum includes survey courses and chronological course sequences in addition to monographic courses focusing on major figures, genres, and cultural phenomena such as film, folklore, theater, as well as minority and expatriate cultures. The GSLL Russian Program equips students with a holistic critical perspective on Russian civilization in all its complexity and variety.

Students pursuing a Russian concentration may choose to have a second major in biology, chemistry, economics, environmental science, history, peace, war, and defense, philosophy, psychology, or public policy. Advanced levels of Russian linguo-cultural proficiency have specific career benefits for students interested in state service and ROTC cadets and midshipmen. Students of Russian have graduated to pursue a number of career paths, from academic to business, from law to medical professions, as well as careers in diplomacy, the military, intelligence, and defense.

Student Learning Outcomes

Students will acquire linguistic proficiency, cultural competence, and critical and analytical skills through the study of Germanic and Slavic languages and cultures in visual, textual, and oral forms. The curricula in Germanic and Slavic languages and literatures are broadly interdisciplinary and place the comparative study of languages, literatures, and cultures in dialogue with other germane fields of knowledge, such as philosophy, film and media studies, history, and music. Particular attention is paid to the development of student research interests that can bridge their acquired linguistic and cultural knowledge with their aspirations in other disciplines. Upon completion of the Germanic and Slavic Languages and Literatures program, students are able to:

- Speak effectively in the target language in a variety of social, academic, and professional settings, as well as use their native language for effective cross-cultural communication
- Write accurately in both the target language and English on a variety of topics relevant to the discipline
- Understand another culture’s practices as meaningful sites for the articulation of identities and the negotiation of values
- Connect the critical interpretation of aesthetic texts to broader fields of intellectual inquiry
- Gain knowledge of the cultural history of Germanic and Slavic lands and link its relevance to both American and global histories
- Utilize disciplinary methods and theories in order to produce original, innovative research

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
RUSS 409	 Intermediate-to-Advanced Russian Communication, Conversation, and Composition in Context I	3
RUSS 410	 Intermediate-to-Advanced Russian Communication, Conversation, and Composition in Context II	3
RUSS 415	 Introduction to Russian Literature	3
RUSS 445	 19th Century Russian Literature and Culture	3
RUSS 455	 20th-Century Russian Literature and Culture	3
Four additional courses (12 credit hours) selected from Russian language and literature/culture courses (RUSS) ¹		12
Additional Requirements		

Students who desire to pursue a major concentration in Russian language and culture should have a grade of B or better in RUSS 203 and RUSS 204

Other than the introductory and intermediate language courses mentioned above, at least four courses (12 credit hours) must be taken at UNC–Chapel Hill to fulfill the requirements of the major. Majors who study abroad or wish to transfer credit from another institution may apply to transfer a maximum of four courses counting toward the major. Before their departure for a study abroad program, students should consult with the relevant director of undergraduate studies about appropriate courses taken abroad for the major.

Total Hours 27

¹ GSLL courses numbered above 200 may count toward the major with the approval of the director of undergraduate studies.

Students who receive placement credit (PL) or By-Examination credit (BE) for RUSS 409 and/or RUSS 410 must substitute this credit with coursework (three credit hours each to replace each course with PL or BE credit) to complete the requirements for the concentration. Students may not re-enroll in a course for which they have received PL or BE credit.

Only one of the following courses may count toward the major:

Code	Title	Hours
GSLL 691H	 Honors Course	3
GSLL 692H	 Honors Course	3
GSLL 693H	 Honors Seminar	3

Russian (RUSS) and Germanic and Slavic Languages and Literatures (GSLL) course descriptions (p.).

Special Opportunities in Germanic and Slavic Languages and Literatures

Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider writing an honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSLL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSLL 692H (writing the honors thesis). When GSLL 693H is offered, the course replaces GSLL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

Student Involvement and Cultural Enrichment beyond the Classroom

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club and Slavic Club, provide an atmosphere for effective learning and for enjoying German and Slavic cultures. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listserv, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor, or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Austria, and Eastern or Central Europe. The department also often presents a poetry night with poems recited by learners of various languages, as well as full-length plays and dramatic readings in German performed by undergraduate students.

The German and Slavic clubs, sponsored by the department, encourage students to independently plan cultural events, films, and conversation opportunities.

A number of the above events will be approved for IDEAs in Action CLE credit.

Study Abroad

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students' linguistic and cultural proficiency, particularly once they have acquired sufficient language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; at the Freie University in Berlin; at the University of Zürich, Switzerland (new, starting in fall 2024); at the IES European Union and Environmental Programs in Freiburg, Germany; and at the IES Programs in Vienna and Berlin.

Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend programs at the Freie University in Berlin, the University of Zürich, in Tübingen, or the IES program in Freiburg, or also the Baden-Württemberg exchange at the University of Mannheim offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term may begin in August but more commonly in October, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD (German Academic Exchange Service) in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend one of SIT Netherlands' semester or summer

programs, for example "Human Traffic, Sex Trade, and Modern Slavery in Europe," or "International Perspective on Sexuality and Gender." Exchange programs also are offered at Radboud University in Nijmegen, the University of Groningen, and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study Russian during summer, semester, or yearlong terms through the RLASP (Advanced Russian Language and Area Studies Program) while earning credit towards their Carolina degree. UNC–Chapel Hill offers semester and summer programs in Prague, Czechia, and Dobrovnik, Croatia, and also a semester program in Budapest, Hungary.

For more information about these and other programs in eastern and central Europe, go to the Study Abroad website (<https://studyabroad.unc.edu/>). Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Opportunities specifically for language studies:

- DTCH: SIT Netherlands
- CZCH: NCSU Prague semester or summer programs, API Czech Republic, CET in Prague, Czech Republic
- BCS: API Croatia, API Serbia, Bosnia, and Kosovo
- HUNG: API Hungary

Languages across the Curriculum

The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, often associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for any associated course).

Undergraduate Awards

Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of coursework at the 300 level or above that was conducted in the German language, and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor's Awards Ceremony each spring. Ria Stambaugh was a popular professor of German. After her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreczeny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

Undergraduate Research

In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department

faculty. Funding may be available through the Office of Undergraduate Research.

German Studies Minor

The German studies minor in the Department of Germanic and Slavic Languages and Literatures (GSLL) equips students with linguistic, communicative, literary, cultural, and medial competencies necessary to thrive in a diverse networked world. By including a German minor as part of their undergraduate program, Carolina graduates succeed in an endless variety of professional fields.

Courses range from basic and advanced language instruction to research in the cultures of Germany, Austria, and Switzerland. Electives include applied German courses taught in German as well as themes-, histories- and theories-oriented courses taught in English that introduce students to cultural and historical problems of the German-speaking lands and allow them to explore conceptual thought. The program's offerings focus on medieval and modern literature, philosophy and cultural theory as well as theater, film, and other media. Praxis-oriented courses include German for professional purposes, business German, translation studies, and internship courses. Students may also learn about foreign language pedagogy and gain practical experience teaching German to K-12 students through our course on German for Educational and Community Engagement. Carolina also offers for rising sophomores and beyond an extensive portfolio of study abroad options in German-speaking Europe as well as the chance to apply for internships in Germany through our partnership with the German American Exchange.

German at Carolina offers a thorough and rigorous education in small seminars where students are able to receive individualized attention from faculty members. German students are closely mentored for a variety of exciting career paths. Some go on to graduate or professional schools such as law or medical school. Others start their professional career in sectors like banking and business, education, government, IT, journalism, law, military or civil service, non-governmental organizations, non-profits, policy think tanks, start-ups, research labs, and more.

Many Carolina students who pursue a German minor have a major in biology, chemistry, data science, business, economics, neuroscience, environmental science, history, philosophy, psychology, or public policy. By combining German with a social or natural science major, Carolina graduates certify their balanced mastery of all that the liberal arts and sciences embody: qualitative critique and quantitative analysis.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
GERM 204	 Essential German for Advanced Proficiency: Vielfalt in Practice ^H	3
GERM 301	 Advanced Spoken German: Vielfalt in Media	3

GERM 302	 Advanced Written German: Vielfalt in Analytic and Creative Writing	3

Two electives courses. Students can choose two German-language classes, or two English-language classes, or one German-language and one English-language class from the following options:

A. Applied German courses (taught in German): GERM 303, GERM 304, GERM 305, GERM 306, GERM 493	
B. Themes courses (taught in English) numbered GERM 210-GERM 290 and GSLL 212-GSLL 259, GSLL 269, GSLL 270, GSLL 274, GSLL 278, GSLL 280, GSLL 282, GSLL 284, GSLL 288, GSLL 295	
C. Histories courses (taught in English) numbered GERM 401 - GERM 492	
D. Theories courses (taught in English) numbered GERM 550 - GERM 589	

Total Hours	15

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- Students must take at least nine hours of their minor "core" requirements at UNC–Chapel Hill.
- Minors who study abroad or wish to transfer credit from another institution may apply to transfer two courses (6 hours) counting toward the minor. Before their departure for a study abroad program, students should consult the director of undergraduate studies about appropriate courses taken abroad for the minor.
- Three German LAC credit hours may be used as a substitute for one three-hour elective course taught in German for the minor.
- Dutch language courses (DTCH 402, DTCH 403, and DTCH 404) may not count toward the German minor. However, DTCH 396 and DTCH 405 may be counted toward the German minor as elective courses taught in the target language (i.e., not in English).

Students who receive placement credit (PL) or By-Examination credit (BE) for GERM 204 and/or GERM 301 must substitute this credit with coursework (three credit hours each to replace GERM 204 and/or GERM 301) to complete the requirements for the major. The additional coursework must be German-language coursework numbered above the German-language course that students test out of. Students may not re-enroll in a course for which they have received PL or BE credit.

German (GERM) and Germanic and Slavic Languages and Literatures (GSLL) course descriptions (p.).

Special Opportunities in Germanic and Slavic Languages and Literatures

Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider writing an honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSLL 691H (honors reading

and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSLL 692H (writing the honors thesis). When GSLL 693H is offered, the course replaces GSLL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

Student Involvement and Cultural Enrichment beyond the Classroom

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club and Slavic Club, provide an atmosphere for effective learning and for enjoying German and Slavic cultures. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listserv, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor, or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Austria, and Eastern or Central Europe. The department also often presents a poetry night with poems recited by learners of various languages, as well as full-length plays and dramatic readings in German performed by undergraduate students.

The German and Slavic clubs, sponsored by the department, encourage students to independently plan cultural events, films, and conversation opportunities.

A number of the above events will be approved for IDEAs in Action CLE credit.

Study Abroad

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students' linguistic and cultural proficiency, particularly once they have acquired sufficient language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; at the Freie University in Berlin; at the University of Zürich, Switzerland (new, starting in fall 2024); at the IES European Union and Environmental Programs in Freiburg, Germany; and at the IES Programs in Vienna and Berlin.

Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend programs at the Freie University in Berlin, the University of Zürich, in Tübingen, or the IES program in Freiburg, or also the Baden-Württemberg exchange at the University of Mannheim offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term may begin in August but more commonly in October, with a two-month vacation between semesters that many students use for travel. Students going abroad

for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD (German Academic Exchange Service) in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend one of SIT Netherlands' semester or summer programs, for example "Human Traffic, Sex Trade, and Modern Slavery in Europe," or "International Perspective on Sexuality and Gender." Exchange programs also are offered at Radboud University in Nijmegen, the University of Groningen, and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study Russian during summer, semester, or yearlong terms through the RLASP (Advanced Russian Language and Area Studies Program) while earning credit towards their Carolina degree. UNC-Chapel Hill offers semester and summer programs in Prague, Czechia, and Dobrovnik, Croatia, and also a semester program in Budapest, Hungary.

For more information about these and other programs in eastern and central Europe, go to the Study Abroad website (<https://studyabroad.unc.edu/>). Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Opportunities specifically for language studies:

- DTCH: SIT Netherlands
- CZCH: NCSU Prague semester or summer programs, API Czech Republic, CET in Prague, Czech Republic
- BCS: API Croatia, API Serbia, Bosnia, and Kosovo
- HUNG: API Hungary

Languages across the Curriculum

The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, often associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for any associated course).

Undergraduate Awards

Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of coursework at the 300 level or above that was conducted in the German language, and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor's Awards Ceremony each spring. Ria Stambaugh was a popular professor of German. After her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria

Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreczeny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

Undergraduate Research

In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department faculty. Funding may be available through the Office of Undergraduate Research.

Russian Culture Minor

The Russian culture minor in the Department of Germanic and Slavic Languages and Literatures (GSLI) equips students with regional expert knowledge and communicative, literary, cultural, and medial competencies necessary to answer geostrategic and civilizational challenges emerging from the post-Soviet and Russophone spheres. This minor can complement major concentrations in diverse fields across the humanities, arts, and natural and social sciences. The Russian minor prepares students for their professional careers in sectors like banking, business, education, government, IT, journalism, law, military or civil service, non-governmental organizations, non-profits, policy think tanks, start-ups, research labs, and a wide variety of careers associated with national security.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
A minimum of five RUSS courses (15 hours) covering any aspect of Russian language, literature, or culture. ¹		15
Total Hours		15

¹ The first two semesters of Russian (i.e., RUSS 101 and RUSS 102) may not be counted toward this minor.

- GSLI courses numbered above 200 may count toward the minor with the approval of the director of undergraduate studies.
- At least nine credit hours beyond RUSS 102 must be taken at UNC–Chapel Hill to fulfill the requirements of the minor. Minors who study abroad or wish to transfer credit from another institution may apply to transfer one course counting toward the minor. Before their departure for a study abroad program, students should consult the director of undergraduate studies about appropriate courses taken abroad for the minor.

- Students who receive placement credit (PL) or By-Examination credit (BE) for RUSS 203, RUSS 204, RUSS 409 and/or RUSS 410 must substitute this credit with coursework (three credit hours each to replace each course with PL or BE credit) to complete the requirements for the minor. Students may not re-enroll in a course for which they have received PL or BE credit.

Russian (RUSS) course descriptions (p.).

Special Opportunities in Germanic and Slavic Languages and Literatures

Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider writing an honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSLL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSLL 692H (writing the honors thesis). When GSLL 693H is offered, the course replaces GSLL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

Student Involvement and Cultural Enrichment beyond the Classroom

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club and Slavic Club, provide an atmosphere for effective learning and for enjoying German and Slavic cultures. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Slavic and East European Studies Minor

The Slavic and East European Studies minor in the Department of Germanic and Slavic Languages and Literatures (GSLL) equips students with regional expert knowledge and communicative, literary, cultural, and historical competencies necessary to thrive in a diverse, networked world. This minor can complement major concentrations in a diverse array of fields across the humanities, arts, and natural and social sciences. With this minor concentration, Carolina students are poised to succeed in a wide variety of professional fields including government, non-governmental organizations, policy think tanks, journalism, law, civil service, education and beyond. The program offers a thorough and rigorous education in small seminars where students receive individualized attention from faculty members.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
A minimum of five courses (15 hours) in BCS, CZCH, PLSH, RUSS, or SLAV. ¹		15
Total Hours		15

- ¹ The first two semesters of any language may not be counted toward this minor (e.g., BCS 401/BCS 402, CZCH 401/CZCH 402, PLSH 401/PLSH 402, RUSS 101/RUSS 102).
- Select GSLL courses numbered above 200 may count towards the minor with approval from the Director of Undergraduate Studies.
 - Students who receive placement credit (PL) or By-Examination credit (BE) for RUSS 203, RUSS 204, RUSS 409, or for the first five courses in BCS, CZCH, or PLSH (401, 402, 403, 404, 405) must substitute this credit with coursework (three credit hours each to replace each course with PL or BE credit) to complete the requirements for the minor. Students may not re-enroll in a course for which they have received PL or BE credit.

Curriculum in Global Studies

Introduction

Global studies is an interdisciplinary curriculum that brings together diverse perspectives and frameworks to analyze the complex relationships between local, national, and global structures.

The Curriculum in Global Studies provides students with the necessary knowledge and skills to develop effective and innovative responses to some of today's most critical global challenges — such as racial and gender injustice, economic inequality, increasing war and conflict, migration and displacement, and environmental crisis — by training them in a variety of methodologies drawn from multiple academic disciplines and supporting them with internationally renowned faculty across more than ten departments at UNC.

Stay up to date on all things UNC Global Studies by following us on Instagram: @uncglobalstudies

Advising

All majors have a primary academic advisor in the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The curriculum's director of undergraduate studies also works with current and prospective majors by appointment (see "Contacts" tab) to discuss major requirements, how study abroad credits transfer into the major, and other issues of relevance to global studies. Further information on courses, the honors program, internships, and more are available on the curriculum's website (<http://globalstudies.unc.edu/>).

Graduate School and Career Opportunities

The Curriculum in Global Studies combines a global perspective with regional and linguistic expertise as well as diverse academic methodological training to prepare students for jobs in a variety of fields and/or graduate education. The curriculum's interdisciplinary training offers the flexibility and adaptability that are crucial for continued success in shifting job markets and global circumstances. Our alumni have pursued successful careers across the public and private sectors, obtaining positions in governmental and non-governmental organizations and fields such as education, foreign service and diplomacy, law, healthcare, global business, international development, and consulting.

Our major is also excellent preparation for graduate school in one of the social sciences; in professions such as law, business, or journalism; or in international affairs and area studies. Career resources can be found

through University Career Services (<https://careers.unc.edu/>) and on the curriculum's website (<http://globalstudies.unc.edu/>).

Global Studies Major, B.A.

Global studies is an interdisciplinary curriculum that brings together diverse perspectives and frameworks to analyze the complex relationships between local, national, and global structures.

The Curriculum in Global Studies provides students with the necessary knowledge and skills to develop effective and innovative responses to some of today's most critical global challenges — such as racial and gender injustice, economic inequality, increasing war and conflict, migration and displacement, and environmental crisis — by training them in a variety of methodologies drawn from multiple academic disciplines and supporting them with internationally renowned faculty across more than ten departments at UNC.

Students choose from one of five thematic areas:

1. International Politics, Nation States, and Social Movements
2. Global Economics, Trade, and Development
3. Global Health and Environment
4. Transnational Cultures, Identities, and Arts
5. Global Justice and Liberation

In addition, students will focus on one geographic area, from among:

1. Africa
2. Asia
3. Latin America
4. Middle East
5. Russia and Eastern Europe
6. Western Europe/the European Union.

Stay up to date on all things UNC Global Studies by following us on Instagram (<https://www.instagram.com/uncglobalstudies/>).

Student Learning Outcomes

Upon completion of the global studies program, students should be able to:

- Demonstrate facility with a range of approaches to knowledge typically found in global studies
- Discuss current academic perspectives on central global and trans-cultural issues
- Discuss major themes and movements in area studies and link them to broader global developments
- Construct logical and coherent arguments to support their analysis of global and trans-cultural issues from a diversity of perspectives (e.g. international politics, global economics, transnational culture, global health and environment)

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Note: Students who enroll in the University in fall 2024 or later will take one methods course and one other core course from the additional core course list (see below). Students who enrolled in fall 2023 or earlier will take two courses from the additional core course list.

Code	Title	Hours
Core Requirements		
GLBL 210I	 Global Issues and Globalization	3
One core methodology/methods course		3
AMST 203	 Approaches to American Indian Studies	
FOLK 202	 Everyday Cultures: Folklore in America	
GEOG 124	 Feminist Geographies	
GEOG 391	Quantitative Methods in Geography	
GEOG 392	 Research Methods in Geography	
HIST 395	 Research Related Skills (for 3 credits)	
POLI 285	Applied Experimental Research: Politics in the US and Europe	
POLI 350	 Peace Science Research	
PLCY 310	Microeconomic Foundations of Public Policy	
PLCY 435	Designing for Impact: Social Enterprise Lab	
SOCI 251	 Research Methods	
SOCI 252	 Data Analysis	
Additional core course:		3
ANTH 142	 Local Cultures, Global Forces ^H	
ARTH 150	 The Visual World ^H	
ASIA/RELI 180	 Islam and Muslim Life before 1500	
ASIA/RELI 181	 Islam and Muslim Life since 1500	
COMM 82	 First-Year Seminar: Food Politics from an Organizational Communication Perspective	
DRAM 117	 Perspectives in World Drama ^H	
ECON 360	Survey of International and Development Economics ^H	
ENEC 201	 Introduction to Environment and Society ^{H, F}	
ENGL 141	 World Literatures in English	
FREN 150	 Globalization and the French-Speaking World	
GEOG 121	 Geographies of Globalization	

GEOG 123	 Cultural Geography	
GEOG 130	 Development and Inequality: Global Perspectives ^F	
GEOG 212	 Environmental Conservation and Global Change	
GEOG 232	 Agriculture, Food, and Society	
GEOG/PWAD 120	 World Regional Geography	
HIST 140	 The World since 1945	
MEJO 446	 Global Communication and Comparative Journalism	
MUSC 146	 Introduction to World Musics	
PHIL/POLI/PWAD 272	 The Ethics of Peace, War, and Defense	
PLCY/PWAD 110	 Global Policy Issues ^H	
POLI 130	 Introduction to Comparative Politics ^{H, F}	
POLI 150	 International Relations and Global Politics ^{H, F}	
SOCI 111	 Human Societies ^H	
SOCI 121	 Population Problems	
SOCI/WGST 124	 Sex and Gender in Society	
WGST 281	 Gender and Global Change	
Four courses from one of the following thematic areas ¹		12
Three courses from one of the following world areas ¹		9
Additional Requirements		
Credit for six levels of modern language study. ²		9-10
Total Hours		39-40

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Of the seven courses in the thematic and world area concentrations, five must be numbered 200 and above.

² Students may choose six levels of one language or four levels of one language and two of another. The primary language must be relevant to the declared world area concentration. The curriculum urges students to continue the study of a foreign language to a level as close as possible to fluency. The first three levels of a foreign language can count toward the General Education requirement and have not been included as additional hours for the major.

Thematic Areas

International Politics, Nation-States, Social Movements

Code	Title	Hours
AAAD 101	 Introduction to Africa	3

Additional Information

The curriculum urges that in addition to fulfilling requirements, students continue the study of a foreign language to a level as close as possible to fluency. All majors should also make every effort to include a study abroad program in their undergraduate education, preferably in their sophomore or junior year.

Students must complete all General Education requirements.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree

completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

¹ This is just a recommendation. GLBL 210I can be an appropriate course for first-year students.

Special Opportunities in Global Studies
Honors in Global Studies

Honors study involves the completion of a substantial piece of original research and the formal presentation of the results in an honors thesis and oral defense. Those who successfully complete the program are awarded their B.A. degree with either honors or highest honors in global studies. Students who wish to submit a thesis for honors in global studies must have at least a 3.3 cumulative grade point average and, under normal circumstances, a 3.5 grade point average in the major and must enroll in GLBL 691H and GLBL 692H. GLBL 692H may count toward the major as a theme or area studies course with departmental approval. GLBL 691H will count as elective credit only. Each prospective honors student must submit a two- to three-page prospectus outlining their

project in the spring of their junior year. Students accepted into the global studies honors program will enroll in GLBL 691H in the fall of their senior year and GLBL 692H in the spring of their senior year.

Study Abroad (Recommended, but Optional)

Global studies majors are encouraged to gain experiential knowledge of the countries and thematic concerns they are studying through participation in an approved study abroad program appropriate to their areas of concentration. Every effort will be made by the curriculum to integrate study abroad courses into the major. Students must receive course approval from the director of undergraduate studies prior to departure for a program abroad. No credit will be given unless programs are pre-approved.

Undergraduate Awards

All majors in the Curriculum in Global Studies who study abroad are considered for two study abroad awards that are presented each year. These funds may be used to defray any expenses associated with studying abroad.

The Michael L. and Matthew L. Boyatt Award Fund provides several meritorious awards each year of no more than \$2,500 each. They are designated for majors who want to participate in a study abroad program pertinent to their area of concentration within global studies.

The Laura Hudson Richards Fund provides one award of \$2,500 each year to a major in the Curriculum in Global Studies who demonstrates both academic excellence and financial need.

In addition, each spring the curriculum awards the Douglas Eyre Prize to the student writing the best honors thesis. The curriculum also selects an annual recipient of the Anne Scaff Award for service to the curriculum and for internationalizing the college. Students chosen to receive the Eyre Prize and Scaff Award are recognized at the curriculum's spring commencement ceremony.

Department of Health Behavior Introduction

In 2024, the department received approval to begin a new bachelor of public health (B.S.P.H.) program focused on community and global public health, designed to prepare students to work in partnership with local and global communities to identify, assess, and address health problems and to achieve health equity. The new program, commenced in academic year 2025–2026, aligns with the mission of UNC–Chapel Hill by ensuring students acquire the knowledge and skills needed to collaboratively address public health issues in North Carolina and with global partners. The department has a strong record of local and global community engagement that will be extended to undergraduate training.

Public health challenges that threaten public safety, economic growth, and security, including climate change, water crises, the opioid epidemic, and the coronavirus pandemic, have sparked students' interest in understanding the systems and behaviors that contribute to these challenges. The program will give students skills to improve health behaviors (e.g., vaccination, illicit drug use, hand washing) and develop structural interventions in partnership with the local and global communities where people live, learn, work, and play.

Upon graduation, students will be prepared for either entry-level positions at public health or related organizations (e.g., non-profits, community-based organizations, government) or for advanced degree programs (e.g., graduate school, medical school).

Advising and Mentoring

Student Orientation: B.S.P.H. advising begins with a general Gillings student orientation at the beginning of the first fall semester. After general orientation activities, the CGPH students will have a separate orientation session with the program director and B.S.P.H. instructors to welcome them and provide an overview of departmental and school resources along with expectations for the program. As part of the orientation, students receive copies of the B.S.P.H. handbook, which details requirements, policies, and procedures.

Academic Coordinator (AC): Academic coordinators are student affairs professionals who have expert knowledge of the degree requirements within each program of study and a working knowledge of academic options and resources at Gillings and throughout the University. The AC will be available to students by email, appointment, or drop-in hours. ACs serve as primary academic advisors for students, helping them navigate academic policies, procedures, program requirements, and campus resources. They also assist with necessary paperwork including registration information and processes, policy exceptions, transfer requests, and continuous enrollment or leaves of absence.

Professional Development & Mentoring: Students will be assigned individual faculty mentors. They will also participate in at least one Professional Development and Community Engagement session each semester to develop skills and enhance experiential learning. We will have opportunities for a series of "lunch and learn" sessions where students can receive information from doctoral students, faculty, and other public health professionals. These opportunities help foster a supportive community environment.

Graduate School and Career Opportunities

Upon graduation, students will be prepared for either entry-level positions at public health or related organizations (e.g., nonprofits, community-based organizations, government) or for advanced degree programs (e.g., graduate school, medical school). As students begin to graduate from this program beginning in 2027, we will have the opportunity to track our graduates' future steps and successes and share them with current students.

Community and Global Public Health Major, B.S.P.H.

The BSPH program in Community and Global Public Health (CGPH) prepares students to work in partnership with local and global communities to identify, assess, and address health challenges while advancing health equity. Recognizing that health challenges and their solutions transcend borders, the program emphasizes community-driven, sustainable health interventions that address a broad range of health behaviors in local and global settings.

The curriculum is rooted in high-impact, community-centered practices, incorporating team-based learning, experiential education, and interdisciplinary perspectives. Students engage with diverse viewpoints on public health topics, equipping them to develop evidence-based behavioral and structural interventions that improve health in the communities where people live, learn, work, and play.

Through a focus on community partnership and health equity, students gain the skills to:

- Assess public health research
- Identify root causes of health issues
- Address social and structural barriers that shape health outcomes
- Design, implement, and evaluate health behavior interventions
- Collaborate with communities to co-create solutions tailored to their strengths, needs, and priorities

The program also provides specialized training in data-driven, community-based, and systems-level public health approaches, preparing graduates to engage and lead meaningful and sustainable health initiatives.

Students complete the program in a cohort of approximately 40 students, fostering a strong sense of community and collaboration within the program and department. The supportive learning

environment encourages teamwork, mentorship, and personal growth, empowering students to become future public health leaders.

Student Learning Outcomes

Upon completion of the B.S.P.H. program in community and global public health, students should be able to demonstrate the following competencies:

Community and Global Public Health Knowledge and Skills

- Implement principles of community-engaged public health practice and identify strategies to involve communities in public health policies and programs
- Investigate the determinants that impact health and contribute to health inequities
- Examine how quantitative and qualitative data are used to inform intervention development, adaptation, evaluation, and dissemination aligned with community needs and priorities
- Develop and apply skills to enable collaboration with diverse teams from local and global communities and engage with complex problems to promote holistic health, justice, and health equity

Foundational Public Health Knowledge and Skills

- Describe health inequities, identify their root causes at multiple levels of the social ecological framework, and discuss approaches to advancing health equity
- Locate, use, evaluate, and synthesize public health information
- Communicate public health information, in both oral and written forms through a variety of media and to diverse audiences

Throughout the BSPH curriculum, students will also receive exposure to the following foundational public health domains:

- The history and philosophy of public health as well as its core values, concepts, and functions across the globe and in society
- The basic concepts, methods, and tools of public health data collection, use, and analysis and why evidence-based approaches are an essential part of public health practice
- The concepts of population health, and the basic processes, approaches, and interventions that identify and address the major health-related needs and concerns of populations
- The underlying science of human health and disease, including opportunities for promoting and protecting health across the life course
- The socioeconomic, behavioral, biological, environmental, and other factors that impact human health and contribute to health disparities
- The fundamental concepts and features of project implementation, including planning, assessment, and evaluation
- The fundamental characteristics and organizational structures of the U.S. health system as well as the differences between systems in other countries

- The basic concepts of legal, ethical, economic, and regulatory dimensions of health care and public health policy and the roles, influences, and responsibilities of the different agencies and branches of government
- The basic concepts of public health-specific communication, including technical and professional writing and the use of mass media and electronic technology

Prerequisite Courses Required for Admission

Code	Title	Hours
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
One of the following courses:		3-4
MATH 130	 Precalculus Mathematics ^F	
MATH 152	 Calculus for Business and Social Sciences ^F	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	
One of the following courses:		3
SOCI 101	 Introduction to Sociology ^{H, F}	
PSYC 101	 General Psychology ^F	
ANTH 102	 Introduction to Cultural Anthropology	
Total Hours		10-11

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- ^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Admission

The Gillings School of Global Public Health offers five undergraduate majors: biostatistics, community and global public health, environmental health sciences, health policy and management, and nutrition. The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Enrollment in the B.S.P.H. degree programs is limited, and students must apply for admission. Students typically apply in their sophomore year for admission beginning in the fall of their junior year, though exceptions to this timeline may apply.

For current UNC–Chapel Hill students, additional information on application deadlines and how to apply can be found on the Public Health Undergraduate Majors (<https://sph.unc.edu/resource-pages/undergraduate-programs/>) website.

Transfer students interested in any of the B.S.P.H. degree programs must apply through the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/types-of-applications/transfer/>) using the Transfer Common application.

For high school seniors, our five majors participate in the Assured Enrollment program through Undergraduate Admissions. Assured enrollment programs guarantee students a spot in an undergraduate

major within one of Carolina's professional schools or a spot in an accelerated undergraduate/graduate program. For additional information, please visit Undergraduate Admissions: Special Opportunities (<https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/>).

Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, the requirements described in this catalog particularly apply to students admitted to Gillings during the 2026–2027 academic year.

Requirements

In addition to the program requirements listed below, students must:

- attain a final cumulative grade point average of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC-Chapel Hill courses
- take at least half of their major course requirements (courses and credit hours) at UNC-Chapel Hill
- earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major

For more information, please consult the degree requirements sections of the catalog (p. 739).

Code	Title	Hours

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Special Opportunities in Community and Global Public Health Experiential Education

HBEH 555 is an experiential education course students take during the fall of their senior year with a 150-hour internship with a partner organization, providing hands-on experience in community-centered public health.

Honors Research Courses

The Community and Global Public Health major provides an opportunity for honors thesis study for qualified students. To be eligible for admission to the honors thesis program students must have, at a minimum, a cumulative grade point average of 3.3 or higher and a 3.5 grade point average or higher in the major at the beginning of their senior year and must maintain the grade point average throughout the major if they intend to pursue honors. Students must have an approved thesis concept prior to enrolling in the honors thesis course series. Students will take HBEH 691H (3 credits) in the fall semester of their senior year and then complete HBEH 692H (3 credits) in the spring semester.

Study Abroad

There are several opportunities for pursuing study abroad programs in the summers or before matriculating to the BSPH in CGPH both through the department and through the UNC Study Abroad Office (<https://>

studyabroad.unc.edu/). Identification of a study abroad program early in the student's career is necessary for course planning purposes.

Community and Global Public Health Representatives & Ambassadors

Current cohort representatives and student ambassadors for the bachelor of science in public health program in community and global public health are happy to answer questions you may have about the application process, the program, or student life in the Gillings School of Global Public Health.

Department of Health Policy and Management

Introduction

Health policy and management students are motivated to improve individual and population health, advance health equity, and strengthen access to the resources needed to be healthy through effective policy and management of health-related organizations and programs. Our B.S.P.H. program prepares students with a strong public health foundation, in-depth knowledge of the U.S. health system, and essential analytical, teamwork, and management skills, who pursue careers as health leaders, managers, policymakers, practitioners, clinicians, and researchers.

Advising and Mentoring

All students receive support from a designated academic coordinator, an assigned faculty mentor, and a full-time career services coordinator in the department.

Graduate School and Career Opportunities

Graduates of the B.S.P.H. program in health policy and management are very successful upon graduation. Nearly all are placed within a few months of graduation, with approximately 80 percent entering the workforce and about 20 percent going directly to graduate or professional

school. Top employers include consulting firms, hospitals, and health systems, private non-profit organizations, private research organizations, and health information technology companies. Within 2–5 years of graduation, most of our graduates have pursued an additional degree, with the majority pursuing a medical degree or graduate degree in public health. Over 90 percent of recent graduates report doing work they consider public health and/or health-related.

Major

- Health Policy and Management Major, B.S.P.H. (p. 436)

Courses

- Health Policy and Management (HPM) (<https://catalog.unc.edu/courses/hpm/>)

Professors

Ethan Basch, Bill Gentry, Kristen Hassmiller Lich, Lindsey Haynes-Maslow, George Mark Holmes, Jessica Lee, Valerie Lewis, Benjamin Meier, Jonathan Oberlander, Kristin Reiter, Chris Shea, Justin Trogon, Karl Umble, Karen Volmar, Lynne Wagner, Stephanie Wheeler, David Zepeda.

Associate Professors

Oscar Fleming, Leah Frerichs, Erin Kent, Arrianna Planey, Angela Stover, Sean Sylvia, Elizabeth Tomlinson, Kat Tumlinson.

Assistant Professors

Samuel Baxter, Meghan O'Leary, Mya Roberson, Jeffrey Simms, Jessica Simon, Melanie Studer, Monica Taylor, Tara Templin, Lauren Wallace, Ciara Zachary.

Professor of the Practice

John Wiesman.

Adjunct Professors

Edward Baker, Jim Bridges, Bruce Fried, Joan Krause, Jennifer Lafata, Thomas C. Ricketts.

Professors Emeriti

Edward Brooks, Laurel Files, Arnold Kaluzny, Joe Morrissey, John Paul, Morris Weinberger, William Zelman.

Health Policy and Management Major, B.S.P.H.

Health policy and management students are motivated to improve individual and population health, advance health equity, and strengthen access to the resources needed to be healthy through effective policy and management of health-related organizations and programs. Our B.S.P.H. program prepares students with a strong public health foundation, in-depth knowledge of the U.S. health system, and essential analytical, teamwork, and management skills, who pursue careers as health leaders, managers, policymakers, practitioners, clinicians, and researchers.

The curriculum includes a combination of core public health courses, required courses in health policy and management, an eight-week internship completed the summer between junior and senior year, elective courses (including senior honors thesis and graduate-level options), and a year-long capstone experience. The curriculum emphasizes collaboration and application, with students working on multiple semester and year-long team projects, some with community partners.

Students go through the program in a cohort of about 50 students, creating a strong sense of community. The program also offers a supportive learning environment. Each student is matched with a faculty mentor and supported by an academic coordinator and dedicated career services coordinator within the department.

Graduates of the program are very successful. Most graduates enter the workforce immediately after graduation, with top employers including consulting firms, hospitals and health systems, private research organizations, health insurance companies, health information technology companies, government agencies, non-profit organizations, and more. Within 2–5 years, the majority of graduates go on to pursue a graduate or professional degree, with the most common being a graduate degree in public health or medical degree.

Admission (<https://catalog.unc.edu/undergraduate/programs-study/health-policy-management-major-bsph/#admissiontext>) to the program is required.

Learn more about the health policy and management major on our program website (<https://sph.unc.edu/hpm/hpm-degrees-and-certificates/bachelor-of-science-in-public-health-bsph/>).

Student Learning Outcomes

Upon completion of the B.S.P.H. program in health policy and management, students should be able to demonstrate the following competencies:

Knowledge of the U.S. Health System and Health Policy

- Examine the structure and financing of the U.S. health system, the delivery of health services, and strategies to improve health system performance
- Examine the politics of public health and health policy in the U.S.
- Analyze health-related legal and ethical issues and their impact on the U.S. health system

Analytical, Teamwork, Management, and Leadership Skills

- Manage and analyze data using appropriate methods and tools
- Formulate strategic alternatives for achieving an organization's goals and objectives
- Apply basic methods and techniques in financial management
- Perform effectively on teams
- Demonstrate approaches to effectively lead and manage people, projects, and organizations

Foundational Public Health Knowledge and Skills

- Describe health inequities, identify their root causes at multiple levels of the social ecological framework, and discuss approaches to advancing health equity
- Locate, use, evaluate, and synthesize public health information
- Communicate public health information, in both oral and written forms through a variety of media and to diverse audiences

Throughout the curriculum, students will also receive exposure to the following foundational public health domains:

- The history and philosophy of public health as well as its core values, concepts, and functions across the globe and in society
- The basic concepts, methods, and tools of public health data collection, use, and analysis and why evidence-based approaches are an essential part of public health practice
- The concepts of population health, and the basic processes, approaches, and interventions that identify and address the major health-related needs and concerns of populations
- The underlying science of human health and disease, including opportunities for promoting and protecting health across the life course
- The socioeconomic, behavioral, biological, environmental, and other factors that impact human health and contribute to health disparities
- The fundamental concepts and features of project implementation, including planning, assessment, and evaluation
- The fundamental characteristics and organizational structures of the U.S. health system as well as the differences between systems in other countries
- The basic concepts of legal, ethical, economic, and regulatory dimensions of health care and public health policy and the roles, influences, and responsibilities of the different agencies and branches of government

- The basic concepts of public health-specific communication, including technical and professional writing and the use of mass media and electronic technology

Prerequisite Courses Required for Admission

Code	Title	Hours
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
ECON 101	 Introduction to Economics ^{H, F}	4
One of the following courses:		3-4
STOR 120	 Foundations of Statistics and Data Science ^{H, F}	3-4
STOR 155	 Introduction to Data Models and Inference ^{H, F}	
One of the following courses:		3-4
MATH 130	 Precalculus Mathematics ^F	3-4
MATH 152	 Calculus for Business and Social Sciences ^F	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	3-4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	
MATH 233	 Calculus of Functions of Several Variables ^H	3-4
STOR 113	 Decision Models for Business and Economics	
Total Hours		14-16

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Admission

The Gillings School of Global Public Health offers five undergraduate majors: biostatistics, community and global public health, environmental health sciences, health policy and management, and nutrition. The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Enrollment in the B.S.P.H. degree programs is limited, and students must apply for admission. Students typically apply in their sophomore year for admission beginning in the fall of their junior year, though exceptions to this timeline may apply.

For current UNC–Chapel Hill students, additional information on application deadlines and how to apply can be found on the Public Health Undergraduate Majors (<https://sph.unc.edu/resource-pages/undergraduate-programs/>) website.

Transfer students interested in any of the B.S.P.H. degree programs must apply through the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/types-of-applications/transfer/>) using the Transfer Common application.

For high school seniors, our five majors participate in the Assured Enrollment program through Undergraduate Admissions. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina's professional schools or a spot in an

accelerated undergraduate/graduate program. For additional information, please visit Undergraduate Admissions: Special Opportunities (<https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/>).

Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, the requirements described in this catalog particularly apply to students admitted to Gillings during the 2026–2027 academic year.

Requirements

In addition to the program requirements listed below, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Public Health Core Courses: ¹		
BIOS 600	Principles of Statistical Inference	3
or ECON 400	 Introduction to Data Science and Econometrics	
EPID 600	Principles of Epidemiology for Public Health	3
SPHG 351	Foundations of Public Health	3

MATH 232	 Calculus of Functions of One Variable II ^{H, F}	
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	
STOR 113	 Decision Models for Business and Economics	
Total Hours		57-59

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Requires a grade of C (not C-) or better

² Prerequisite courses required for admission.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC-Chapel Hill in the fall term. Some courses may not be offered every term.

First Year		Hours
First-Year Foundation Courses		
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F		3

HPM 697	 Health Policy and Management BSPH Capstone	3
HPM 692H	 Honors Research II (optional elective)	3
Hours		23
Total Hours		71-73

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ BIOS 600 or ECON 400 can be taken any semester in the Junior or Senior year.

² HPM 593 is completed during the summer between the Junior and Senior year.

³ EPID 600 is strongly recommended in the junior year, but may be taken in the senior year.

Special Opportunities in Health Policy and Management

Experiential Education

An 8-week full-time internship (320 hour minimum) is required during the summer between the junior and senior years. The internship provides students an opportunity to apply the knowledge and skills being acquired through their coursework, further develop and demonstrate attainment of program competencies, and explore career interests.

In addition, in the year-long senior capstone students work on consulting projects with health organizations in the community. This project serves as a culminating experience for the program, providing students with an opportunity to synthesize, integrate, and apply knowledge and skills gained through their coursework and further develop and demonstrate attainment of program competencies. These projects are completed under the direction of a faculty member and preceptor, typically within a public health department, community health center, hospital, medical office, or non-profit organization.

Learn more about internships and capstone projects completed by past students on our program website (<https://sph.unc.edu/hpm/hpm-degrees-and-certificates/bachelor-of-science-in-public-health-bsph/>).

Honors in Health Policy and Management

Eligible students have the option of completing a senior honors thesis, which generally includes designing and carrying out a research study or program evaluation. Students defend their proposals in the fall and their theses in the spring.

School and Departmental Involvement

Opportunities exist for involvement in student organizations such as the Healthcare Executives Student Association, the Healthcare Improvement Group, AcademyHealth, the Student Global Health Committee, GlobeMed, the Minority Student Caucus, the Consulting Club, and the school's student government. Most students are also active in one or more health-related campus organizations, such as the Student Health Action Coalition (SHAC) and Get Covered Carolina.

Study Abroad

Students are encouraged to study abroad prior to entering the program in the junior year. While in the program, students may complete their internship outside the United States.

Undergraduate Awards

The department presents awards for undergraduate students at an annual Awards Day in late spring.

Undergraduate Research

Students with research interests may seek opportunities to work with faculty members on research projects. Students in the program regularly find opportunities at research centers on campus, such as the Cecil G. Sheps Center for Health Services Research, the Lineberger Comprehensive Cancer Center, the Center for Health Equity Research, the Carolina Population Center, and the Center for Health Promotion and Disease Prevention.

Department of Health Sciences

The mission of the Department of Health Sciences is to improve the health and wellbeing of all people of North Carolina, the nation, and globally through exemplary and culturally sensitive teaching, innovative research, and person-centered care.

- **Exemplary Teaching:** To produce a diverse, interprofessional, and culturally competent workforce of health care practitioners, educators, researchers, and health care leaders.
- **Innovative Research:** To conduct research aimed at generating new knowledge that advances the practices and policies of health care.
- **Person-Centered Care:** To advance the science and practice of person-centered care with a focus on patient outcomes, families, communities, integrative health care, health promotion/disease prevention, and the improvement of overall quality of life.

Throughout our teaching, research, and clinical care, we are committed to engagement with diverse student, faculty, and patient/client populations and to creating an inclusive and equitable environment in which to work and learn.

Majors

Clinical Laboratory Science Major, B.S.**Introduction**

Clinical laboratory science (CLS), also called medical laboratory science, is the health profession that provides laboratory information and services needed for the diagnosis and treatment of disease. The field of clinical laboratory science combines many sciences, including microbiology, hematology, chemistry, molecular biology, and immunology. Clinical laboratory scientists perform a variety of laboratory tests, ensure the

accuracy of the test results, explain the significance of laboratory test results, and evaluate new methods for laboratory tests. Some of the tests performed in the clinical laboratory are relatively simple. Others, such as DNA analysis and flow cell cytometry, are complex and require extensive education.

Examples of laboratory tests performed by clinical laboratory scientists include

- Detection of the abnormal cells that cause leukemia
- Analysis of cardiac enzyme activity released during a heart attack
- Identification of the type of bacteria causing an infection
- Analysis of the coagulation factors in cases of abnormal bleeding
- Detection of blood group antibodies that cause transfusion reactions
- Analysis of genetic markers for cystic fibrosis
- Typing patients for histocompatibility matches prior to transplantation

Admission to the Program

A maximum of 20 students are chosen for admission each year. Students are selected on the basis of science and mathematics prerequisite courses, grades, a written application, interviews, and letters of recommendation. Successful completion of the prerequisite courses listed under the major does not guarantee admission to the program. Because enrollment is limited, students are encouraged to begin the application process early in the fall preceding the year of enrollment. The first deadline for completed applications is the second Tuesday in January. Completed applications received after that deadline will be considered for admission if positions are available in the program.

Students are subject to the requirements in place when they are admitted to this program; consequently, the requirements described in this catalog particularly apply to students admitted during the 2026–2027 academic year.

Advising

First-year and sophomore students interested in the clinical laboratory science (CLS) major have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The director of the Division of Clinical Laboratory Science is available to meet with current and prospective majors by appointment (see contact information above). The Division of Clinical Laboratory Science provides academic advising for students who are enrolled in the program. Further information on the curriculum may be obtained from the division's website (<https://www.med.unc.edu/healthsciences/clinical/>).

Facilities

The laboratory facility for first-year clinical laboratory science courses includes individualized work areas with reagents, supplies, and laboratory instruments for students. In senior courses, students develop their skills in state-of-the-art clinical laboratory facilities.

Graduate School and Career Opportunities

Clinical laboratory science provides a basis for a broad range of future endeavors. Graduates with a B.S. degree in clinical laboratory science can elect to pursue further study in medicine, dentistry, veterinary medicine, business or management, hospital administration, computer science, education, clinical chemistry, clinical microbiology, immunology, or

another laboratory science area. The Division of Clinical Laboratory Science also offers a master's degree in clinical laboratory science.

Clinical laboratory scientists are employed in hospital laboratories, commercial laboratories, physicians' office laboratories, research institutes, clinical trials, and forensic laboratories. Clinical laboratory scientists also may be employed as technical or sales representatives for corporations. Graduates of the program are very successful on national certification exams and enjoy high employment rates. See the alumni section of the website (<https://www.med.unc.edu/healthsciences/clinical/alumni/>) for examples of careers in clinical laboratory science.

Student Learning Outcomes

Upon completion of the Clinical Laboratory Science program, students should be able to:

1. Work as entry-level clinical laboratory scientists.
2. Continue to learn throughout their professional careers.
3. Use ethical standards to guide professional behavior and judgments.
4. Communicate effectively with other health care providers.
5. Serve as leaders in the clinical laboratory profession in technical, educational, research and administrative roles.

Entry-Level Competencies

The educational experiences in the UNC-Chapel Hill CLS program are designed to ensure that students are well prepared to enter the profession of Clinical Laboratory Science and continue to learn throughout their professional career. At the completion of the UNC-Chapel Hill CLS program, students will be able to:

1. Demonstrate professional and ethical behavior along with effective interpersonal communication skills when engaging with various stakeholders.
2. Establish effective interprofessional working relationships with other health care professionals, demonstrating comprehension of and respect for their roles and patient welfare.
3. Recognize and appreciate the importance of engaging with an inclusive workforce through collaboration.
4. Value and advocate for a workplace environment that fosters inclusivity, diversity, equity, and accessibility.
5. Comply with government regulations and accreditation standards relevant to the respective discipline.
6. Adhere to prescribed protocols for overall laboratory safety, biohazard containment, and waste disposal.
7. Implement quality assurance principles to ensure the validity and accuracy of laboratory generated data.
8. Acknowledge and respond to individual requirements for continuing education and development to foster growth and maintain professional competence.
9. Provide instruction to users of laboratory services regarding appropriate procedures, test utilization and interpretation.
10. Evaluate clinical research studies and data sets to assess applicability and validity.
11. Employ a logical and systematic problem-solving approach when identifying errors and/or technical issues with laboratory procedures and instrumentation.
12. Apply principles of data security to safeguard laboratory and hospital information systems.

13. Apply principles of quality assurance to ensure validity and accuracy of laboratory data.
14. Recognize principles and practices of laboratory management as applied to clinical laboratory science.
15. Evaluate specimen collection, processing, and storage procedures in accordance with standard operating procedures.
16. Ensure specimen integrity is maintained throughout the sample procurement process.
17. Adhere to written policies, processes, and procedures for analytical testing, analysis, and instrumentation maintenance.
18. Evaluate and provide rationale for troubleshooting protocols in analytical testing when appropriate.
19. Perform routine procedures in accordance with standard operating procedures.
20. Apply quality control principles to analytical testing procedures, including instrument calibration, statistical analyses of control results, Westgard rules, and verification of reference ranges.
21. Perform basic calculations, dilutions, and statistical analyses for procedures and analytical testing in the respective discipline.
22. Apply theoretical principles of instrumentation to current methods of analysis.
23. Perform all post-analytical procedures in accordance with quality assurance protocols and regulatory standards.
24. Evaluate results for accuracy relative to quality control, patient history, specimen integrity, and overall clinical correlation.
25. Report test results, including abnormal, STAT, and critical values, in accordance with the laboratory's standard operating procedures.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC-Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The schedule of academic work for clinical laboratory science majors includes the following General Education requirements. Students must complete all First-Year Foundation requirements, all Reflection & Integration requirements, and complete at least six Focus Capacity requirements as part of the IDEAs in Action General Education curriculum. In addition, the following prerequisite courses must be completed before entering the Clinical Laboratory Science program:

Code	Title	Hours
Additional Requirements		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
A second biology course (BIOL 202 or BIOL 103 is highly recommended)		3-4

CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
CHEM 241	Modern Analytical Methods for Separation and Characterization ^H	3
CHEM 241L	Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds	1
One of the following:		3-4
MATH 130	Precalculus Mathematics ^F	
MATH 231	Calculus of Functions of One Variable I ^{H, F}	
STOR 151	Introduction to Data Analysis	
Total Hours		22-24

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

After admission (<https://www.med.unc.edu/healthsciences/clinical/prospectivestudents/cls-program/applying-to-cls-program/>) to the CLS program, students take courses in all the major areas of clinical laboratory science including clinical chemistry, hematology, hemostasis, microbiology, transfusion medicine, and transplantation medicine. Senior students rotate through the clinical laboratories at UNC Hospitals and other laboratories in the state. They also take advanced courses in the clinical laboratory sciences. Honors contracts are available for students in the Honors program.

Code	Title	Hours
Core Requirements		
CLSC 410	Laboratory Mathematics	1
CLSC 410L	Basic and Molecular Laboratory Methods	2

CLSC 570L	Clinical Chemistry Laboratory Rotation	4
CLSC 580L	Clinical Immunohematology Laboratory	4
CLSC 582L	Clinical Transplantation Medicine Laboratory	1
CLSC 620	Clinical Laboratory Management	2
CLSC 630	Research Methods in Clinical Laboratory Science	2
CLSC 670	Clinical Laboratory Science Educational Methods	2
Total Hours		62

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first and sophomore years, clinical laboratory science majors satisfy General Education requirements and take a basic science curriculum comparable to that of other science students. In the sophomore year, students apply for admission (<https://catalog.unc.edu/undergraduate/departments/division-clinical-laboratory-science/>) into the final two years of the program.

The junior year includes courses that cover the principal areas of clinical laboratory science. Students also learn and practice laboratory techniques in a student laboratory. Senior students rotate through the clinical laboratories at UNC Hospitals and other laboratories in the state. They also take advanced courses in the clinical laboratory sciences.

The suggested course sequence for the required preclinical laboratory science courses at UNC–Chapel Hill is listed below. Transfer students receiving placement credit may have a slightly different sequence.

First Year		Hours
Fall Semester		
IDST 101	College Thriving	1
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I (C- or better required) ^{1, H, F}	4
ENGL 105	English Composition and Rhetoric	3
Global language level 1		3
One of the following:		3
MATH 130	Precalculus Mathematics ^{1, F}	
MATH 231	Calculus of Functions of One Variable I ^{1, H, F}	
STOR 151	Introduction to Data Analysis	

Lifetime fitness	1
Hours	15
Spring Semester	
BIOL 101 & 101L	4
Principles of Biology and Introductory Biology Laboratory ^{1, H, F}	
CHEM 102 & 102L	4
General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{1, H, F}	
Global language level 2	3
IDST 111L	1
Data Literacy Lab	
First-Year Seminar or First-Year Launch (p. 660)	3
Hours	15
Sophomore Year	
Fall Semester	
CHEM 241 & 241L	4
Modern Analytical Methods for Separation and Characterization and Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds ^H	
CHEM 261 is not required but is recommended for students who have time in their schedules for additional science courses.	
Global language level 3	3
Gen Ed and elective courses	9
Hours	16
Spring Semester	
BIOL —	4
Biology course (BIOL 202 or BIOL 103 strongly recommended)	
BIOL 252 is not required but is recommended for students who have time in their schedules for additional science courses.	
Gen Ed and elective courses	14
Hours	18
Junior Year	
Fall Semester	
CLSC 410 & 410L	3
Laboratory Mathematics and Basic and Molecular Laboratory Methods	
CLSC 420 & 420L	2
Urinalysis and Body Fluids and Urinalysis Laboratory	
CLSC 430	3
Biochemistry	
CLSC 440 & 440L	3
Hematology I and Hematology I Laboratory	
CLSC 450	3
Immunology	
Hours	14
Spring Semester	
CLSC 442 & 442L	4
Hematology II and Hematology II Laboratory	
CLSC 462 & 462L	5
Clinical Bacteriology and Clinical Bacteriology Laboratory	
CLSC 470 & 470L	5
Clinical Chemistry and Clinical Chemistry Laboratory	
CLSC 480 & 480L	5
Immunohematology and Immunohematology Laboratory	
Hours	19

Senior Year

Clinical Education: Senior clinical education takes place in UNC Hospitals' laboratories and other clinical laboratories in North Carolina. These laboratories are highly regarded in the field of laboratory medicine, and students have the opportunity to learn the most recent techniques in clinical laboratory science.

Courses taken during fall or spring semester:		
CLSC 460	Special Pathogens	2
CLSC 460L	Parasitology and Mycology Laboratory	1
CLSC 540L	Clinical Hematology Laboratory	4
CLSC 542L	Clinical Hemostasis Laboratory	2
CLSC 550L	Clinical Immunology Laboratory	1
CLSC 560L	Clinical Microbiology Laboratory	4
CLSC 570L	Clinical Chemistry Laboratory Rotation	4
CLSC 580L	Clinical Immunohematology Laboratory	4
CLSC 582L	Clinical Transplantation Medicine Laboratory	1
CLSC 620	Clinical Laboratory Management	2
CLSC 630	Research Methods in Clinical Laboratory Science	2
CLSC 670	Clinical Laboratory Science Educational Methods	2
Hours		29
Total Hours		126

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ FY-Launch options available on designated sections.

Special Opportunities in Clinical Laboratory Science

Departmental Involvement

Student ambassadors in the Department of Health Sciences organize students' professional activities and social events. The CLS Service Society provides opportunities for students to work together to promote the CLS profession and provide services to the community.

Experiential Education

Senior clinical courses provide a range of clinical laboratory experience in chemistry, hematology, hemostasis, microbiology, transfusion medicine, immunology, histocompatibility, and molecular testing.

Certification

Upon successful completion of the clinical laboratory science curriculum, graduates receive the B.S. degree with a major in clinical laboratory science. A certificate also is awarded by the Division of Clinical Laboratory Science and the Department of Health Sciences. Graduates of

the program are eligible to take the national certification examination in medical laboratory science.

Accreditation

The Clinical Laboratory Science Program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences, 5600 N. River Road, Suite 720, Rosemont, IL, 60018-5119, (773) 714-8880, www.naacls.org (<http://www.naacls.org>).

Undergraduate Awards

Louise Ward Scholarships: Three scholarships are awarded to clinical laboratory science students each year based on academic excellence, potential for success as a clinical laboratory science student and practitioner, and financial need.

Additional scholarships available to clinical laboratory science students include

- The Lanning-Taylor Scholarship, awarded to a senior clinical laboratory science student.
- The Raleigh Pathology Laboratory Associates Scholarship, awarded to a junior or a senior student.
- The WakeMed Health and Hospital Annual CLS Scholarship, awarded to a junior or senior student.
- The Kay Johnson, Allene W. Alphin and Jesse C. Alphin CLS Scholarships, awarded to two clinical laboratory science students.
- The Jeri Lasitter McConkey Scholarships, awarded to two clinical laboratory science students.

Outstanding CLS Student: Each year a clinical laboratory science senior is named as the outstanding student based on nominations from clinical and academic faculty members.

Undergraduate Research

Senior students may apply for an elective course, CLSC 695 Undergraduate Research in CLS. In this course, students work on a research project independently with guidance from CLS faculty and clinical laboratory staff members. Student research projects have resulted in presentations at professional meetings and publications.

Department Programs

Majors

- Clinical Laboratory Science Major, B.S. (p. 440)
- Neurodiagnostics and Sleep Science, B.S. (p. 447)
- Radiologic Science, B.S. (p. 444)

Minor

- Neurodiagnostics and Sleep Science (p. 450)
- Speech and Hearing Sciences (p. 451)

Courses

- Clinical Laboratory Sciences (CLSC) (<https://catalog.unc.edu/courses/clsc/>)
- Neurodiagnostics and Sleep Science (NDSS) (<https://catalog.unc.edu/courses/ndss/>)
- Radiologic Science (RADI) (<https://catalog.unc.edu/courses/radi/>)
- Speech and Hearing Sciences (SPHS) (<https://catalog.unc.edu/courses/sphs/>)

Radiologic Science Major, B.S.

The School of Medicine's radiologic science program is designed to prepare individuals for professional practice and associated responsibilities in the health specialty of medical imaging. Graduates provide patient assessment and care required for medical imaging procedures in addition to insuring that the highest quality imaging study is completed when the patient's radiation dose is a factor. Students may pursue diagnostic and interventional radiology or diagnostic medical sonography. In the senior year students may select other imaging modalities and practice areas for additional competence and training. These other areas may include sonography special areas, pediatrics, mammography, computed tomography, magnetic resonance imaging, vascular interventional radiology, and cardiac catheterization laboratory. The curriculum includes course discussions and projects on global health imaging issues and the potential for international experiences in medical imaging departments and programs abroad.

Admission to the Program

Following completion of the first two years' work in the University's General College, students may be admitted to the professional major offered by the Department of Health Sciences of the UNC School of Medicine. Students enrolled at other colleges and universities who are interested in transferring to the Chapel Hill campus following their sophomore year should contact the Office of Undergraduate Admissions and the Department of Health Sciences early in their college career to assure proper planning and transferability of courses. Students are encouraged to begin the application process early in the fall semester preceding the year of intended enrollment. The program begins in Summer Session II each year. Transfer applications should be received in the Office of Undergraduate Admissions by the designated University deadline.

Since enrollment in the major is limited, completion of the student's course of study in the General College does not guarantee a position in the professional class. Students should contact the Department of Health Sciences in the fall semester preceding anticipated enrollment to receive admissions information. Student selections are made on a competitive basis with consideration given to academic achievement, character, both written and oral communication skills, and demonstrated interest in medical imaging as a professional career.

Students are subject to the requirements in place when they are admitted to this program; consequently, the requirements described in this catalog

particularly apply to students admitted during the 2026–2027 academic year.

Advising

First-year and sophomore students interested in the B.S. degree with a major in radiologic science have a primary academic advisor assigned in ConnectCarolina during the first two years of the degree program. Students are strongly encouraged to meet regularly with their advisor and review their progress toward the degree each semester. The director of Radiologic Science is available to meet with current and prospective majors by appointment (see contact information above). The department's faculty provides academic advising for students who are enrolled in the program. Further information on the curriculum may be obtained from radiologic science website (<https://www.med.unc.edu/healthsciences/radisci/>).

Facilities

The program has a laboratory with digital imaging capabilities and sonography capabilities in the Burnett-Womack Building adjacent to the offices and classroom building. The laboratory includes radiography with digital imaging plate readers and software and sonography equipment similar to the environment the students see during their clinical rotations.

Graduate School and Career Opportunities

The Division of Radiologic Science bachelor of science degree program provides a basis for further study. Additional clinical specializations are available in nuclear medicine, and radiation therapy. Graduates may elect graduate studies in health physics, business and education, management, public health, and other health professions. The division offers a master's in radiologic science degree program for those students seeking advanced clinical practice as a radiologist assistant.

The clinical practice of medical imaging (radiologic technology) may include one or more of the specialty areas listed here, depending on professional preference and the type, size, and mission of the health facility where the technologist is employed: general radiography (such as orthopedics or pediatrics), vascular imaging, cardiac catheterization, computed tomography, and magnetic resonance imaging or diagnostic medical sonography. Responsibilities and salaries vary according to the area and scope of practice.

Employment opportunities available in a variety of settings, in both rural and urban areas, include

1. more generalized practice in medium to small hospitals;
2. specialized clinical practice in a large hospital;
3. clinics and free-standing imaging centers, which may offer both special and general practice opportunities; or
4. clinical practice coupled with expanded responsibilities in quality control, service education, and supervision, particularly in a large hospital.

Program Goals

- Develop competent, effective, medical imaging professionals
- Support development of skills necessary to practice in diverse healthcare environments and to acquire prominent roles in radiologic science
- Program curriculum, teaching methods, and philosophy promote development of integrative, critical thinking, and communication skills to include written, oral, and electronic discourse

- Graduates successfully pursue scholarly activities such as contributions to the profession and post-baccalaureate education
- Encourage global awareness of cultural and health care perspectives

Student Learning Outcomes

Diagnostic and Interventional Radiology

Upon completion of the radiological sciences (B.S.) program, students should be able to complete the following goals and outcomes.

(Goal one) Obtain a level of clinical competence appropriate for an entry-level medical imaging professional.

Outcomes:

- Students will demonstrate accurate patient positioning techniques.
- Students will utilize radiographic exposure factors to optimize image quality and minimize patient dose.
- Students will practice radiation protection principles for patient and occupational safety.

(Goal two) Possess critical thinking skills to adapt to changing clinical environments and patient needs.

Outcomes:

- Students will adapt procedures based on patient needs and clinical situation limitations.
- Students will analyze images to assure diagnostic quality.

(Goal three) Exhibit professionalism through consistent, responsible, and ethical behavior.

Outcomes:

- Students will provide nondiscriminatory care for all patients.
- Students will demonstrate adherence to program policies and procedures.

(Goal four) Demonstrate effective communication skills.

Outcomes:

- Students will practice effective oral communication skills in the classroom and in the clinical setting.
- Students will demonstrate effective written communication skills.

Diagnostic Medical Sonography Program Learning Outcomes

Program Learning Outcomes Abdomen Concentration

Students progress through the abdomen curriculum and meet course learning objectives that culminate in the accomplishment of the program outcomes below:

1. Obtain a level of competence as an entry level general sonographer in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
2. Possess critical thinking skills to adapt to changing clinical environments and patient needs, demonstrating knowledge and understanding of abdominal and superficial anatomy, physiology, and pathology.
3. Exhibit professionalism through consistent, responsible, and ethical behavior.

4. Demonstrate knowledge of understanding of acoustic physics, Doppler ultrasound principles, and ultrasound instrumentation to create diagnostic ultrasound images of abdominal and superficial anatomy.
5. Demonstrate effective communication skills.

Program Learning Outcomes Obstetrical and Gynecological Concentration

Students progress through the obstetrical and gynecological curriculum and meet course learning objectives that culminate in the accomplishment of the program outcomes below:

1. Obtain a level of competence as an entry level obstetrical and gynecological sonographer in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
2. Possess critical thinking skills to adapt to changing clinical environments and patient needs, demonstrating knowledge, and understanding of obstetrical and gynecological anatomy, physiology, and pathology.
3. Exhibit professionalism through consistent, responsible, and ethical behavior.
4. Demonstrate knowledge of understanding of acoustic physics, Doppler ultrasound principles, and ultrasound instrumentation to create diagnostic ultrasound images of obstetrical and gynecological anatomy.
5. Demonstrate effective communication skills

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The schedule of academic work for radiologic science (medical imaging) majors includes the following General Education requirements. Students must complete all First-Year Foundation requirements, all Reflection & Integration requirements, and complete at least six Focus Capacity requirements as part of the IDEAs in Action General Education curriculum. In addition, the following specific requirements apply to students in the General College:

Code	Title	Hours
Quantitative reasoning requirement:		3-4
MATH 130	 Precalculus Mathematics ^F	
or MATH 231	 Calculus of Functions of One Variable I	
Six courses in the physical and life sciences		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4

BIOL 252 & 252L	 Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^H	4
CHEM 101 & 101L or BIOC 107	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F} Introduction to Biochemistry	4
PHYS 114 & PHYS 115	 General Physics I: For Students of the Life Sciences and  General Physics II: For Students of the Life Sciences ^F	8
PSYC 101	 General Psychology ^F	3
Total Hours		26-27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

After admission (<https://catalog.unc.edu/undergraduate/departments/division-radiologic-science/>) to the program, the curriculum in radiologic science includes courses in gross anatomy, pathophysiology, radiography, imaging methods, research, practice issues, and clinical practice. The first year of the program provides the foundation and skills for clinical practice and patient care in diagnostic radiography. The second year of the program builds on this foundation and enhances skills for career and practice advancement through communications, physics, and research. During the second year, the student elects areas of clinical concentration, such as magnetic resonance imaging, computed tomography, advanced diagnostic imaging, cardiac catheterization, and vascular/interventional imaging.

Code	Title	Hours
Summer Session II (Junior Year)		
RADI 440	Gross Anatomy for Health Sciences	3
RADI 442	Introduction to Radiologic Science	3

Special Opportunities in Radiologic Science

Experiential Education

All of the clinical education courses provide students with the opportunity to gain competence and proficiency in all areas of medical imaging practice in a variety of clinical environments. Students may also participate in our global experiences as available such as past experiences in Malawi and Switzerland.

Undergraduate Awards

Undergraduate students are considered for the Faculty Award for Excellence, the Award for Academic Excellence, and the Tina Robbins Award.

Undergraduate Research

Students complete a two-semester research sequence leading to a project and paper during the senior year of the program and are encouraged to submit the research projects to state and national research competitions.

Certification

Upon graduation, students have completed the requirements to seek eligibility to take the national certification examination from the American Registry of Radiologic Technologists in Radiography or the American Registry for Diagnostic Medical Sonography and in other clinical areas of expertise.

Accreditation

The program leading to the B.S. degree with a major in radiologic science for diagnostic and interventional radiology is fully accredited by the Joint Review Committee on Education in Radiologic Technology. The program leading to the B.S. degree with a major in diagnostic medical sonography is fully accredited by the Joint Review Committee on Education in Diagnostic Medical Sonography.

Scholarships and Grants

Students in the Division of Radiologic Science are eligible for Phyllis Ann Canup Pepper Scholarships, the Dr. Jerry Lambiente Loyalty Fund Scholarship, the Rufus "Buddy" Clarke Loyalty Fund Scholarship, the

Jerome Puryear and Latonya Brown-Puryear Scholarship, and the Jane Cox Hendrix Scholarships.

Chair

Christopher Ingersoll

Neurodiagnostics and Sleep Science Major, B.S.

The Neurodiagnostics and Sleep Science (NDSS) major prepares individuals for professional practice in the health specialties of neurodiagnostics and sleep science. The NDSS major also allows current practitioners to continue their professional development, while learning new skills in an increasingly important and rapidly expanding segment of health science.

The emphasis of the curriculum is to enhance and advance the student's professional career in neurodiagnostics and sleep sciences with additional education skills in critical thinking and creative problem solving needed for key leadership, educational, and management positions. The curriculum offers specific professional coursework in advanced methods and monitoring, program administration, and clinical outcomes evaluation. The program culminates in a capstone experience that is developed around the students' specific professional interest area.

This degree program is offered as a limited residency program that is a combination of both distance education or on-campus through the UNC–Chapel Hill Department of Health Sciences.

Neurodiagnostic and sleep science procedures record and study the electrical activity of the brain, spinal cord, and peripheral nerves, the function of the cardiovascular system, and the function of the respiratory system. A variety of diagnostic tests are performed including recording sleep studies (polysomnograms), recording brain wave activity (electroencephalography), recording responses from peripheral nerve stimulation (nerve conduction velocities), recording stimulus evoked responses from the brain and spinal cord (Evoked Potentials), and monitoring brain and spinal cord activity during surgery (intraoperative monitoring). Therapeutic procedures are also performed including positive airway pressure and supplemental oxygen titration for people with certain sleep disorders such as apnea.

Accreditation

The program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Committee on Accreditation for Polysomnographic Technologist Education (CoAPSG).

Admission to the Program

Students must complete all First-Year Foundation requirements, all Reflection and Integration requirements, and complete at least six Focus Capacity requirements. Please visit IDEAs in Action General Education curriculum (<https://catalog.unc.edu/undergraduate/ideas-in-action/>) for specific information regarding the general education course requirements. Additionally, the following pre-admission math/science courses are required:

Code	Title	Hours
Prerequisite Course List		
MATH 130 or MATH 231	 Precalculus Mathematics ^F  Calculus of Functions of One Variable I	3-4
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
BIOL 252 & 252L	 Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^H	4
CHEM 101 & 101L or BIOC 107	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F} Introduction to Biochemistry	4
PHYS 114 or PHYS 118	 General Physics I: For Students of the Life Sciences ^F  Introductory Calculus-based Mechanics and Relativity	4
PHYS 115 or PHYS 119	 General Physics II: For Students of the Life Sciences ^F  Introductory Calculus-based Electromagnetism and Quanta	4
PSYC 101	 General Psychology ^F	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Transfer Credit Equivalency

The UNC Transfer Credit list provides a list of courses that students have previously transferred to UNC–Chapel Hill from other community college or four-year institutes.

UNC (https://tes.collegesource.com/publicview/TES_publicview01.aspx?rid=ff81c5a2-3ec7-4b31-a7fb-04e2fd5f0345&aid=ca8ebc64-42ca-4a2d-b16b-f8f68bbb6767)–
(https://tes.collegesource.com/publicview/TES_publicview01.aspx?rid=ff81c5a2-3ec7-4b31-a7fb-04e2fd5f0345&aid=ca8ebc64-42ca-4a2d-b16b-f8f68bbb6767)Chapel Hill Transfer Credit List (https://tes.collegesource.com/publicview/TES_publicview01.aspx?rid=ff81c5a2-3ec7-4b31-a7fb-04e2fd5f0345&aid=ca8ebc64-42ca-4a2d-b16b-f8f68bbb6767)

Application Process

Application may be submitted prior to completing all course requirements but decisions will be given on a conditional basis if that is the case. All general education requirements need to be completed prior to being admitted.

Applicants will be reviewed using the following criteria:

- Clarity and quality of personal statement
- Academic progress and promise
- Supportive references
- Knowledge of the field

If you need to apply for an F-1 visa, please contact us before you apply to our program.

Application Instructions

Current UNC–Chapel Hill Students (Internal):

Click Apply (<https://connectcarolina.unc.edu/>) and log in to the ConnectCarolina Student Center. In the “other academic” dropdown, select “Apply for Change of Major.” Once you complete and submit this request, you will receive an email with instructions for completing your application.

Transfer Students:

Click Apply (<https://connectcarolina.unc.edu/>):

- Go to the Common Application to create an account and start your application.
- Submit the application, the common application supplement, and the application fee by the deadline.
- Upload the essay requested in your common application supplement.
- Submit the official transcript from all secondary and post-secondary schools to: University of North Carolina at Chapel Hill, Office of Undergraduate Admissions, Jackson Hall, Campus Box 2200, Chapel Hill, NC 27599-2200.

- Arrange to have two letters of recommendation written on your behalf sent to uncsubmit@admissions.unc.edu. Recommendations should be completed by college professors or teaching assistants who are familiar with your academic abilities, work supervisors, or volunteer project supervisors.

You must apply to UNC and to the NDSS program through Undergraduate Admissions. When you indicate that you are applying to the NDSS program, you should also get the NDSS-specific questions on your application.

For more information on application deadlines, please go to our website. (<https://www.med.unc.edu/healthsciences/ndss/the-program/>)

Student Learning Outcomes

Upon completion of the Neurodiagnostics and Sleep Science program, students should be able to:

- Perform as competent entry-level neurodiagnostic and polysomnographic technologists in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
- Investigate healthcare issues individually and within teams that uniquely involve the overlap of electrophysiology, laboratory science, management, and education.
- Demonstrate leadership skills necessary to oversee electrophysiological and sleep science facilities (laboratory, hospitals, industry, colleges).
- Teach courses related to neurodiagnostic studies and sleep science.
- Exemplify innovation and sound scientific theory for the use of verified methodology and principles of neurodiagnostics and sleep science practice.
- Explain advanced, clinical diagnostic measurements, disease prevention techniques, and theories supporting current neurodiagnostic and sleep science practices.
- Demonstrate effective written and oral communication skills.
- Establish a practical connection between the undergraduate major and the professional world.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The schedule of academic work includes the following General Education requirements that are listed under “Additional Requirements.” Students must complete all First-Year Foundation requirements, all

Reflection and Integration requirements, and complete at least six Focus Capacity requirements as part of the IDEAs in Action General Education curriculum. In addition, the following specific requirements apply to students in the General College found under “Additional Requirements.”

Code	Title	Hours
Additional Requirements		
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{H, F}	4
BIOL 252 & 252L	Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^H	4
CHEM 101 & 101L or BIOC 107	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F} Introduction to Biochemistry	4
MATH 130 or MATH 231	Precalculus Mathematics ^F Calculus of Functions of One Variable I	3
PHYS 114 or PHYS 118	General Physics I: For Students of the Life Sciences ^F Introductory Calculus-based Mechanics and Relativity	4
PHYS 115 or PHYS 119	General Physics II: For Students of the Life Sciences ^F Introductory Calculus-based Electromagnetism and Quanta	4
PSYC 101	General Psychology ^F	3
Core Requirements		
NDSS 393	Clinical rotation in Neurophysiology and Polysomnography ¹	2
NDSS 401	Basic Neurophysiology and Sleep for Clinical Neurophysiology ¹	3
NDSS 410	Intro to Basic Sleep and Neurophysiology Instrumentation and Technology ¹	4
NDSS 415L	Polysomnographic and Neurophysiologic Technology/Lab ¹	7
NDSS 420	Pathophysiology of Sleep, Neurological, and Related Disorders	3
NDSS 430	Neurological and Sleep Diagnostic and Therapeutic Methods, and Monitoring	3
NDSS 440	Evidence Based Practice in Neurodiagnostics and Sleep Science	3
NDSS 450	Advanced Sleep and Neurodiagnostic Clinical Procedures	3
NDSS 460	Informational Technology and Analytics in Neurodiagnostics and Sleep Science	3
NDSS 493	Neurodiagnostics and Sleep Science Practicum	3
NDSS 500	Principals and Practice of Healthcare Education	3
NDSS 510	Program Administration: Neurodiagnostics and Sleep Science Department Management	3
NDSS 520	Advanced Physiological Monitoring and Data Acquisition	3
NDSS 530	Leadership in Healthcare Organizations	3

NDSS 593	 Neurodiagnostics and Sleep Science Internship	3
NDSS 697	 Neurodiagnostics and Sleep Science Capstone	3
NDSS 698	 Neurodiagnostics and Sleep Science Capstone II	3

Total Hours **81**

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ This course is open to all students. Non-degree or prospective students may have the option to take this course prior to applying and receive credit towards the NDSS major once they have applied and been admitted to the program.

Sample Plan

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan specific to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

The suggested course sequence for the required pre NDSS courses at UNC–Chapel Hill can be found here (<https://www.med.unc.edu/healthsciences/ndss/the-program/curriculum-2/>). Transfer students receiving placement credit may have a slightly different sequence.

Scholarships and Grants

Students in the Neurodiagnostics and Sleep Sciences degree program are eligible for scholarships and grants that can be found here.

Neurodiagnostics and Sleep Science Minor

Neurodiagnostic and sleep science procedures record and study the electrical activity of the brain, spinal cord, and peripheral nerves, the function of the cardiovascular system, and the function of the respiratory system. A variety of diagnostic tests are performed including recording sleep studies (polysomnograms), recording brain wave activity (electroencephalography), recording responses from peripheral nerve stimulation (nerve conduction velocities), recording stimulus evoked responses from the brain and spinal cord (evoked potentials), and monitoring brain and spinal cord activity during surgery (intraoperative monitoring). Therapeutic procedures are also performed including positive airway pressure and supplemental oxygen titration for people with certain sleep disorders such as apnea.

The minor provides undergraduate students the opportunity to obtain fundamental knowledge and exposure of neurodiagnostics needed to pursue careers in electroneurodiagnostics, polysomnography, psychology, neurology, human development and aging, allied health professions, health and disease, rehabilitation, biotechnology, biomedical research, and other emerging disciplines.

Advising

All students interested in a minor in Neurodiagnostics and Sleep Science have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The Division of Neurodiagnostics and Sleep Science Director of Undergraduate Studies will meet with current and prospective minor students by appointment. (See contact tab above.) Further information may be obtained from the division's website (<https://www.med.unc.edu/healthsciences/ndss/>).

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Speech and Hearing Sciences Minor

Admission to the Speech and Hearing Sciences (SPHS) minor is by application. Undergraduate students have the option of taking SPHS courses without declaring a minor; however, students in the SPHS minor will have priority for registration. For students interested in pursuing graduate study, additional coursework is highly recommended, including courses in biological and physical science, social/behavioral science, statistics/research methods, and developmental bases

of communication (language acquisition/development). Detailed information on the application process and preprofessional coursework can be found on the division's website (<https://www.med.unc.edu/healthsciences/sphs/>).

Advising

All students interested in a minor in Speech and Hearing Sciences have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The Division of Speech and Hearing Science Director of Undergraduate Studies will meet with current and prospective Minor students by appointment. (See contact tab above.) Further information may be obtained from the division's website (<https://www.med.unc.edu/healthsciences/sphs/prospective-students/undergraduate-minor/>).

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
SPHS 510	Introduction to Communication Disorders (spring only)	3
SPHS 530	Introduction to Phonetics (fall only)	3
SPHS 570	Anatomy and Physiology of the Speech, Language, and Hearing Mechanisms (spring only)	3
SPHS 582	Introductory Audiology I (fall only)	3
SPHS 540	Speech Science (spring only)	3
Total Hours		15

The minor in speech and hearing sciences consists of five courses. Each course is offered only once per year; students interested in the minor are encouraged to enroll in the introductory course (SPHS 510) early in the sequence and in speech science (SPHS 540) last in the sequence.

With permission of the program director, SPHS 520, SPHS 521, or SPHS 583 may be substituted for SPHS 510.

Department of History

Introduction

The study of history is an essential part of a liberal arts education and offers valuable preparation for many careers in law, business, and journalism; in local, state, and national government; in non-profit and international organizations; and, of course, in historical fields of expertise that include teaching, libraries, and museums. More broadly, by an exposure to a variety of cultures and human experience and by training in the interpretation of conflicting evidence, the Department of History seeks to prepare a person for the responsibilities of citizenship and for dealing with the ambiguities of human existence. Diversity in the history major program encourages a comparative approach to human problems and discourages parochialism; specialization in the program promotes an appreciation of the complexity of human affairs and the difficulties involved in interpreting them. Finally, the discipline of history stimulates imagination and analytical thinking.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisors and review their Tar Heel Trackers each semester. The Department of History offers students numerous advising resources to assist them with all things related to studying history at UNC–Chapel Hill, from making the initial decision to become a history major or minor to thinking about what to do after they complete their degree. Although history majors are not assigned individual faculty advisors, they are strongly encouraged to seek out the advice of their professors during office hours, especially if they are considering an independent study project, senior honors thesis, or applying for graduate study. The department's lecturer/advisor serves as a general advising resource for all history majors and minors as well as first- and second-year students who are considering a major in history.

Graduate School and Career Opportunities

History majors at UNC–Chapel Hill develop skills that prepare them for a wide range of meaningful careers, most of which are not narrowly tailored to the academic practice of history itself. Majors commonly pursue work in business, law, journalism, education, health care, and government, for example. Historical study hones fundamental skills that include close reading, problem conceptualization, research, and large-scale data analysis, as well as highly effective written and spoken communication.

Many history majors go on to professional and graduate schools in areas like law, business, and medicine, where they apply their ability to analyze problems, understand human behavior and social structures, and communicate effectively.

Some majors end up applying their history majors directly in their vocations. Those who wish to teach history at the secondary level in public schools must obtain appropriate certification, usually through an M.A.T. degree. Other students pursue graduate study by entering a master's degree program in history that requires a thesis and takes about two years to complete. A student can then decide whether to proceed into a Ph.D. program, which normally requires an additional three to four years of study and the completion of a doctoral dissertation. Students who decide to pursue a Ph.D. in history generally aspire to teach at the college level. Some complete a master's degree in public history and work for government archives at the national, state, or local levels or for private nonprofit organizations, such as groups interested in restoration work.

History Major, B.A.

The Department of History educates students about the past, teaching them to discover the rich diversity of historical human experiences. The study of history also equips students with the valuable critical thinking, research, and communication skills they need to succeed in the present, preparing them for a wide variety of careers and a life of informed citizenship.

Student Learning Outcomes

Upon completion of the history program, students should be able to:

- Appreciate the diversity of human experiences in past eras and parts of the globe
- Identify substantive, well-reasoned topics of historical inquiry for analysis
- Evaluate the quality of historical scholarship and conflicting views of the past
- Analyze primary sources to develop evidence-based arguments
- Produce and document original knowledge about the past in a field of expertise
- Communicate historically informed knowledge in written, digital, and/or oral forms

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
A total of 10 HIST courses		
Four to six courses in a field of concentration (geographical or thematic). See lists below.		12-18
Four to six courses outside the field of concentration		12-18
HIST 398	 Undergraduate Seminar in History (This seminar can be in the field of concentration or outside it.) ^H	3
One course in Latin America or Africa, Asia, and Middle East history		3
At least six courses numbered 200 or above		
Total Hours		30

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Each major shall concentrate in one area (see lists below), or students must devise a thematic concentration and have it approved by the chair of the Undergraduate Studies Committee.

The Department of History offers multiple sections of the required HIST 398 undergraduate seminar each semester. Each section focuses on a different topic. Prior to the course registration period, the Department of History will distribute to all history majors information about the next semester's offerings of HIST 398.

All College of Arts and Sciences policies apply, including (but not limited to) the following.

- A maximum of 15 history courses (45 hours) may be applied toward the B.A. degree. Any courses beyond the minimal 10 (but not above the maximum of 15) will count as free electives.
- No more than five courses (15 hours) of transfer credit and College Board Advanced Placement/International Baccalaureate credit may count toward the major. Up to five courses (15 hours) of transfer credit may count toward the major, but only up to two courses (six hours) of College Board Advanced Placement or International Baccalaureate credit may count toward the major. In no case can the combination of transfer credits and AP/IB credits exceed 15 hours.

Special Opportunities in History

Honors in History

The departmental honors program is open to any qualified history major with at least a 3.3 cumulative grade point average and, under normal circumstances, a 3.4 in history courses, and experience in research and writing derived from an undergraduate seminar in history (HIST 398). The student pursuing a degree in history with honors must take HIST 691H and HIST 692H; these two courses contribute credit hours toward fulfilling field-of-concentration requirements, depending on the topic of the thesis. The student, in consultation with the honors director, will choose a topic and locate an appropriate faculty member to supervise a senior honors thesis. In HIST 691H the mechanics of researching and writing a senior essay will be discussed and a start made

on the essay itself. In HIST 692H the essay will be completed and the student examined by the supervisor and at least one additional faculty member to be agreed upon by the student and supervisor. To receive highest honors the essay must be recommended by the examiners and a review committee. The director of honors, in consultation with the examiners and review committee, will recommend that the student who has defended the essay graduate with either honors or highest honors, or merely with course credit. Students should submit applications for the honors program by the end of February during their junior year. For detailed guidelines click here (<http://history.unc.edu/undergraduate-program/senior-honors-thesis/>) or contact the director of honors in the Department of History.

Departmental Involvement

Students with broad interests in the intellectual and social life of the department may volunteer to serve on the department's Undergraduate Studies Committee (UGSC). Each spring the department invites majors to volunteer for the UGSC, and the selection is made at the start of the next fall semester by the faculty members on the UGSC. Students may also plan or participate in activities organized by the Undergraduate History Club as well as, for those who are eligible, UNC-Chapel Hill's chapter of Phi Alpha Theta (described more fully below under "Undergraduate Awards"). For more information about the UGSC, the History Club, and Phi Alpha Theta, see department's website (<https://history.unc.edu/>) or contact the coordinator for undergraduate studies in the Department of History.

Experiential Education

In some cases, students majoring in history may wish to pursue internship opportunities. Questions and requests regarding internships should be directed to the department's lecturer/advisor, who has responsibility for evaluating internship proposals and deciding whether an internship may be taken for academic credit. For more information, click here (<https://history.unc.edu/undergraduate-opportunities/>).

All history majors will receive credit for the Research and Discovery requirement (in the IDEAs in Action General Education curriculum) or the Experiential Education requirement (in the Making Connections General Education curriculum) when they complete HIST 398.

Study Abroad

The department strongly encourages its students to explore the many study abroad opportunities provided by the Study Abroad Office. The experience of studying abroad opens intellectual horizons that can be glimpsed only in unfamiliar worlds, and it deepens one's appreciation for the enduring power of historical context and circumstance.

The Department of History participates in a unique joint degree program with the National University of Singapore. The department also has an exchange program with King's College in London. For further information about both programs, contact the Study Abroad Office and the director of undergraduate studies in the department. General information for history majors wishing to study abroad can be found on the department's website (<https://history.unc.edu/undergraduate-education/>).

Undergraduate Awards

All majors who complete the required undergraduate seminar (HIST 398) are automatically eligible for the annual Joshua Meador Prize, awarded to the author of the best seminar paper written in the preceding calendar year. A named prize is also awarded to the author of the best honors thesis; the award is announced at the annual spring honors banquet.

The Department of History sponsors a chapter of Phi Alpha Theta, the national history honor society. Students who have taken 12 hours of history courses at UNC–Chapel Hill and who have an overall grade point average of 3.0 and an average in history courses of 3.1 are eligible to apply for membership. An announcement regarding applications for Phi Alpha Theta will be distributed to all history majors in the fall semester.

Undergraduate Research

The Department of History encourages undergraduate research in a variety of ways. The required seminar for majors (HIST 398) introduces students to historical research. The senior honors program (HIST 691H and HIST 692H) gives students an opportunity to carry out a yearlong research project. In both the fall and spring semesters, senior honors students may apply for competitive awards, including the Michael L. and Matthew L. Boyatt Awards in History for Undergraduate Research and the David Anthony Kusa Undergraduate Research Award, to help support travel for the purpose of research.

History Minor

The study of history is an essential part of a liberal arts education and offers valuable preparation for many careers: in law, journalism, libraries, and museums; in local, state, and national public service; in business; in international work; and, of course, in historical research and teaching.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Five history (HIST) courses taken in the Department of History ^{1, 2}		15
Total Hours		15

¹ A maximum of two courses can be numbered below 200.
² No more than one course (3 hours) of College Board Advanced Placement or International Baccalaureate credit may count toward the minor.

History (HIST) course descriptions (p.).

See the program page here (p. 461) for special opportunities.

Medieval and Early Modern Studies (MEMS) Minor

The undergraduate minor in medieval and early modern studies provides students with a broad, humanities-based approach to the rich and fascinating cultures that flourished globally from around 500 CE to 1800 CE.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

This interdisciplinary minor requires students to take five classes representing at least three different subject codes.

Code	Title	Hours
Core Requirements		
One core course chosen from:		3
ARTH 264	Medieval Art in Western Europe	

ASIA/HIST 135	History of the Indian Subcontinent to 1750	
CMPL 120	Great Books I: Epic and Lyric Traditions	
ENGL 120	British Literature, Medieval to 18th Century ^H	
GSSL/HIST 250	Central Europe, Medieval to Modern	
HIST 107	Medieval History	
HIST/ASIA 138	History of Muslim Societies to 1500	
HIST 158	Early Modern European History, 1450-1815	
ITAL 359	Medieval Frauds: Fake News, Counterfeits, and Forgeries	
JAPN 231/ HIST 271	Ancient and Medieval Japanese History and Culture	
MUSC 251	Studies in Medieval and Early Modern Music	
RELI/ASIA 180	Islam and Muslim Life before 1500	
At least one course at the 300 level or above		3
No more than three courses at the 100 level (including the core course)		9
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

The following courses are approved for the MEMS minor. With the prior approval of the MEMS minor supervisor up to two courses can be applied to the minor as transfer credits from other institutions.

Interdisciplinary Studies

The Office of Undergraduate Education manages the interdisciplinary studies (IDST) curriculum. The IDST curriculum includes an interdisciplinary studies major (p. 467) for students who wish to develop a major different from those already offered by the departments and curricula belonging to the College of Arts and Sciences. It also includes a collection of interdisciplinary studies (IDST) courses (<https://catalog.unc.edu/courses/idst/>).

Major

Director
Lauren Leve
IDST-Director@unc.edu

Interdisciplinary Studies Major, B.A. Overview

The interdisciplinary studies major provides an innovative space and a flexible, individualized program structure for students who wish to develop a major different from those already offered by the departments and curricula belonging to the College of Arts and Sciences. Interdisciplinary studies majors are designed to support rigorous investigation of a topic, theme, or area of inquiry, mastery of which requires advanced coursework in multiple disciplinary fields. An IDST major allows motivated students to engage complex problems and emerging areas of knowledge that exceed traditional disciplinary boundaries. They must be well conceived and substantially different from majors that students pursue through traditional departments, schools,

and curricula. While encouraging creativity, IDST majors will be focused and coherent. Interdisciplinary studies should not be seen as a default major for someone undecided about their course of study.

Interdisciplinary studies majors work with their individually selected faculty advisors to develop a customized program of courses that will constitute the requirements for their IDST major. Besides guiding students on course selections, faculty advisors serve as mentors on career planning, graduate work, and co-curricular opportunities. To be admitted to the major, students must have a grade point average of at least 3.0 and at least 45 hours left before graduation. Students are strongly encouraged to meet most of the General Education requirements (e.g., First-Year Foundations and Focus Capacities) before pursuing the interdisciplinary studies major.

Admission to the Program

The interdisciplinary studies major is an application-based program. Students can apply to the major after their first year at UNC. The program has two application deadlines (<https://interdisciplinary-major.unc.edu/>) per academic year, one at the start of each semester.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Interdisciplinary Studies Major, B.A.

Code	Title	Hours
Core Requirements		
Ten courses chosen from at least three departments and which must be appropriate for juniors and seniors majoring in those departments. 1, 2, 3		30
Total Hours		30

¹ A maximum of four courses from any one department

² For students interested in Cultural Studies, COMM 350 Practices of Cultural Studies must be included as one of the ten courses. For more information, please contact the Cultural Studies Faculty Director and Advisor in the Department of Communication (<https://comm.unc.edu/undergraduate-studies/major-in-cultural-studies/>).

³ With the permission of the relevant professional school, a student may use up to 12 hours of professional courses (e.g., in business administration, media and journalism, information and library science, public health, education) in the IDST major. This can be advantageous to students who want some concentration in these areas but who also want a degree in arts and sciences.

The courses should form a coherent major summarized by the title. Additionally, students are encouraged to select electives that complement the ten courses chosen for the major to extend their learning

on the topic. To maximize the interdisciplinary synergy that the IDST major aims to facilitate, students are advised to include courses from at least two divisions in the College of Arts and Sciences (i.e., Fine Arts & Humanities, Natural Sciences and Mathematics, Social Sciences and Global Programs) in their ten-course core curriculum.

Special Opportunities in Interdisciplinary Studies

Qualified students may pursue honors by registering for IDST 691H and IDST 692H or through one of the departments or curricula included in their major core. IDST students are encouraged to take advantage of opportunities to extend or apply their knowledge through hands-on learning opportunities related to their program of study. This may include undergraduate research opportunities available in the departments and curricula that constitute their program of study; an internship or service-learning experience in the summer or during the academic year, study abroad, and/or an honors thesis in their senior year.

Curriculum in Latin American Studies Introduction

The three main goals of the Curriculum in Latin American Studies are

- to develop students' basic knowledge and comprehension of key themes in Latin American and Caribbean history, cultures, and contemporary social, economic, and political issues;
- to develop students' abilities to think critically, in an interdisciplinary manner, about Latin American and Caribbean issues, past and present, and to locate them within broader global perspectives;
- to develop students' proficiency in Spanish or Portuguese and other languages of the region as needed, as part of their program of study.

Advising

All majors have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies (DUS) works with current and prospective majors by appointment. Majors are expected to meet with the LTAM DUS once a semester and to attend at least one meeting of the LTAM majors a year. Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research and internship funding opportunities, and the honors program may be obtained through the Curriculum in Latin American Studies web page (<http://isa.unc.edu>) or

by contacting the director of undergraduate studies (see contacts tab above).

Graduate School and Career Opportunities

The Curriculum in Latin American Studies provides advice for students interested in pursuing graduate school and career opportunities in Latin America or the Caribbean. Please contact the director of undergraduate studies for an appointment. The Curriculum in Latin American Studies participates in a five-year cooperative B.A.–M.A. program with the Center for Latin American Studies at Georgetown University. The agreement allows qualified Latin American studies majors to earn an M.A. in Latin American studies from Georgetown in a year and a summer rather than the normal three to four semesters. For details on the cooperative degree program and on support for academic research and study, contact the director of undergraduate studies.

Latin American Studies Major, B.A.

The five main goals of the Curriculum in Latin American and Caribbean Studies are

1. to enhance students' knowledge of a world region of vital importance to the national interest of the United States;
2. to encourage the development of Carolina students as global citizens;
3. to promote critical language competencies and cultural skills as a way to prepare students to succeed in public and private sector careers;
4. for students to acquire multi-disciplinary forms of knowledge as a way to understand the array of forces that have shaped modern Latin America and the Caribbean;
5. to foster an understanding of the historical and cultural origins of the Latin American and Caribbean communities in the United States.

Student Learning Outcomes

Upon completion of the Latin American and Caribbean Studies program, students should be able to:

- Demonstrate knowledge of the political, geographical, and social complexities of the region
- Demonstrate knowledge of the historical and cultural complexities of the region
- Demonstrate proficiency in Spanish or Portuguese (or other language(s) of the region if approved)
- Demonstrate an interdisciplinary grasp of Latin American and Caribbean literatures, arts, and ideas
- Apply basic research methods and skills and synthesize and evaluate scholarly research
- Gain admission to graduate programs or apply knowledge and skills learned in relevant careers

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The Curriculum in Latin American and Caribbean Studies is an interdisciplinary major designed to ensure access to diverse approaches to the study of Latin America and the Caribbean and to guide majors in developing a deeper knowledge of a particular geographic area in the region.

Code	Title	Hours
Core Requirements (9 courses)		
Select two (2) courses numbered under 200 (see list below). LTAM 101 is strongly recommended		6
Select three (3) courses numbered 200-399 (see list below).		9
Select three (3) courses numbered 400 and above (see list below).		9
LTAM 697	 Capstone Seminar	3
Additional Requirements (2 courses)		
Spanish or Portuguese at least through the fifth-semester course ¹		6
Total Hours		33

¹ The first three levels of Spanish or Portuguese may count toward the General Education Foundations requirements and have not been included as additional hours for the major.

Listed below are commonly offered courses for the major. Not all the courses on Latin American and Caribbean topics are listed; other courses may satisfy the major requirements as well. Special topics courses, first-year seminars, undergraduate seminars, independent studies, and capstone courses on Latin American and Caribbean topics also may count. To inquire about whether these courses count towards the major, contact the Director of Undergraduate Studies.

Courses numbered under 200

Select two courses from the following list.

Code	Title	Hours
AAAD 57	 First-Year Seminar: Afro-Latinxs in the U.S.	3
ANTH 68	 First-Year Seminar: Forced Out and Fenced In: Ethnography of Latinx Immigration	3
ANTH 121	 Ancient Cities of the Americas	3
ARTH 160	 Introduction to the Art and Architecture of Pre-Hispanic Mesoamerica ^H	3
ENGL 164	 Introduction to Latina/o Studies ^H	3
HIST 51	 First-Year Seminar: Latin American Revolutions	3
HIST 142	 Latin America under Colonial Rule	3
HIST 143	 Latin America since Independence	3
HIST 145	 Latin American Indigenous Peoples	3
LTAM 52	 First-Year Seminar: The Cuban Revolution, Latin America, and the United States	3
LTAM 101	 Introduction to Latin American Studies	3
MUSC 147	 Introduction to the Music of the Américas	3
POLI 57	 First-Year Seminar: Democratic Governance in Contemporary Latin America	3
RELI 151	 Religion in Latin America	3
ROML 58	 First-Year Seminar: Mexican Women across Borders and Genres	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Courses numbered 200-399

Select three courses from the following list.

Code	Title	Hours
AAAD 260	 Blackness in Latin America	3
AAAD 261	 Afro-Cuban Dance: History, Theory, and Practice	3
AAAD 278	 Black Caribbeans in the United States	3
AAAD 284	 Contemporary Perspectives on the African Diaspora in the Americas	3
AAAD 286	 The African Diaspora in the Colonial Americas, 1450-1800	3
AAAD 360	 Black Women's Struggles and Resistance in Latin America and the Caribbean	3
AAAD 362	 Black Latin American Politics	3
AAAD 389	 The Caribbean Anticolonial: Caribbean Literature, Film, Aesthetics, and Politics	3
ANTH 231	 The Inca and Their Ancestors: The Archaeology of Andean South America	3
ANTH 232	 Ancestral Maya Civilizations ^H	3
ANTH 360	 Latin American Economy and Society	3
ARTH 267	 Latin American Modernisms	3
ARTH 277	 Art and Architecture of Viceregal Latin America	3
ENGL 240	Caribbean Literature	3
ENGL 359	 Latina Feminisms: Civil Rights, Ecofeminism, and Health Studies	3
FREN 280	 French "Discoveries" of the Americas in Translation	3
FREN 288	 Francophone Caribbean Literature in Translation	3
GEOG 259	 Society and Environment in Latin America	3
HIST 240	 Introduction to Mexico: A Nation in Four Revolutions	3
HIST 241	 History of Latinos in the United States	3
HIST 242	 United States-Latin American Relations	3
HIST 248	 Guerrillas and Counterinsurgencies in Latin America	3
HIST 280	 Women and Gender in Latin American History	3
HIST 314	 Law and Society in Latin America	3
HIST 315	 Nation-Building in Latin America ^H	3
LTAM 215	 Peoples, Cultures, and Landscapes of Latin America	3
LTAM 241	 History of Latinos in the United States	3
LTAM 261	 Afro-Cuban Dance: History, Theory, and Practice	3
LTAM 291	 The Latino Experience in the United States	3
LTAM 314	 Law and Society in Latin America	3
LTAM 350	The United States and Latin America	3
LTAM 362	 Black Latin American Politics	3

LTAM 390	Special Topics in Latin American Studies	3
MUSC 258	 Musical Movements: Migration, Exile, and Diaspora	3
POLI 231	Latin America and the United States in World Politics	3
POLI 238	 Politics of the Global South: Latin America ^H	3
PORT 316	 Brazilian Performance: Capoeira, Resilience and Resistance through Movement, Music and Dance	3
PORT 323	 Advanced Communication in Portuguese: History, Nature, and Society	3
PORT 370	 Modern Brazil through Literature and Film in Translation	3
PORT 375	 Portuguese and Brazilian Fiction in Translation	3
PORT 382	 Women Writers: Brazil and Beyond	3
PORT 387	 Brazilian Religious Movements through Film and Literature	3
PORT 388	 Portuguese, Brazilian, and African Identity in Film	3
PLCY 349	Immigration Policy in the 21st Century	3
RELI 245	Latina/o Religions in the United States-Mexico Borderlands ^H	3
RELI 246	 Supernatural Encounters: Zombies, Vampires, Demons, and the Occult in the Americas ^H	3
SPAN 270	Contemporary Spanish American Prose Fiction in Translation	3
SPAN 344	 Latin American Cultural Topics	3
SPAN 361	 Hispanic Film	3
SPAN 363	 Experiences of Disease and Health through Hispanic Literature and Culture	3
SPAN 373	 Studies in Latin American Literature	3
SPAN 388	Narratives of the Mexican Revolution	3
WGST 352	 Rahtid Rebel Women: An Introduction to Caribbean Women	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Courses numbered 400 and above

Select three courses from the following list.

Code	Title	Hours
AAAD 460	 Race, Culture, and Politics in Brazil	3
AAAD 461	 Race, Gender, and Activism in Cuba	3
ANTH 453	Field School in South American Archaeology ^H	6
ARTH 445	The Mexican Mural Renaissance, 1921-1945	3
ARTH 452	Brazilian Modernism	3
ARTH 469	 Art of the Aztec Empire	3
DRAM 486	 Latin American Theatre	3
DRAM 488	 United States Latino/a Theatre	3
EDUC 510	 Latinx Experience in Education	3

American-content courses. Contact the director of undergraduate studies for information.

Undergraduate Research

Latin American and Caribbean Studies majors are eligible to develop independent and/or senior thesis projects. A small number of grants (<https://isa.unc.edu/undergraduate-funding/>) are available for undergraduate field research related to Latin America or the Caribbean.

riefkohl@email.unc.edu

Department of Linguistics

Introduction

Courses in the department are offered for the general student and for those who wish to receive the bachelor of arts with a major in linguistics. Courses in linguistics are intended to open up systematic perspectives on the nature of human language by means of detailed studies of language structure, language change and language acquisition, the sound system of language, and the syntactic/semantic system of language. The major is designed to provide a fundamental understanding of modern linguistics for the student seeking a general education in the liberal arts as well as for the student preparing for graduate study.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors and minors by appointment. Departmental academic advising is particularly important for those majors who are considering going on to graduate school or who are considering the dual B.A.–M.A. program.

Graduate School and Career Opportunities

The Department of Linguistics offers an M.A. program with opportunities for specialization in a number of subareas, and to obtain a certificate in computational linguistics. Detailed information is available from the department website (<https://linguistics.unc.edu/>). Additionally, more than 100 colleges and universities offer linguistics programs, including several dozen that are considered major doctoral programs nationally. Faculty members are pleased to advise students regarding programs best suited to their needs and interests.

In general, the linguistics major is good preparation for a number of career paths because it develops problem solving, the ability to find patterns in complicated data, and writing and argumentation skills. Law and journalism schools and other professional schools are becoming increasingly aware that students with a major in linguistics have

strengths in these important areas. Companies in the tech industry often hire linguists to solve problems relating to the development of software for speech-to-text, text-to-speech, and natural language processing and generation. United States citizens with a background in linguistics also may find jobs with United States government agencies.

Some students choose to continue specializing in linguistics teaching or research. For this, they typically need to obtain a graduate degree in linguistics. Other possible careers for linguistics majors that have a close connection to language and linguistics include language teaching, speech pathology/speech and hearing science, language and information technologies (including speech synthesis and recognition, text-content analysis, and machine translation), information and library science, or editing and publishing; some careers in these areas may require a graduate degree.

Linguistics Major, B.A.

Courses in linguistics are intended to open up systematic perspectives on the nature of human language by means of detailed studies of language structure, language change and language acquisition, the sound system of language, and the syntactic/semantic system of language. The major is designed to provide a fundamental understanding of modern linguistics for the student seeking a general education in the liberal arts as well as for the student preparing for graduate study.

Student Learning Outcomes

Upon completion of the linguistics program, students should be able to:

- Use a linguistic analysis method (i.e., a formal model or a framework) correctly and apply it to a novel set of linguistic data
- Formulate and test hypotheses on the basis of a linguistic data set or information about language-related behavior
- Express their knowledge of some linguistic topic clearly and effectively in a written assignment of term-paper length

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Gateway Course		
LING 101	 Introduction to Language (with a grade of C or better) ^H	3
Core Requirements		
One course each from three of the following four pairs (total of three courses): ¹		9
LING 200	 Phonology	
or LING 520	 Linguistic Phonetics	
LING 201	Syntax	
or LING 537	 Semantic Theory I	
LING 202	 Linguistic Variation and Language Change	
or LING 541	Sociolinguistics	
LING 203	 Language Acquisition and Development	
or LING 427	Morphology	
Five additional linguistics courses chosen from the following lists:		15
Up to five LING courses numbered 200 to 699, excluding LING 400 ²		
No more than two courses chosen from:		
AAAD 421	 Introduction to the Languages of Africa	
AMST 374	 America's Threatened Languages	
CHIN 253	 Chinese Language and Society	
COMP 455	Models of Languages and Computation	
ENGL 115	 History of the English Language	
ENGL 213	Grammar of Current English	
GERM 500	History of the German Language	
GERM 501	Structure of German	
GERM 514	Old Norse I (Old Icelandic)	
GERM 515	Old Norse II (Old Icelandic)	
GERM 521	Variation in German	
GERM 545	Problems in Germanic Linguistics	
ITAL 526	History of the Italian Language	
PHIL 345	 Philosophy of Language	
PHIL 455	 Symbolic Logic	
PORT 526	History of the Portuguese Language	
PSYC 432	Psychology of Language	
SPAN 378	 Afro-Hispanic Language Contacts	
SPAN 683	Guaraní Linguistics	
SPHS 530	Introduction to Phonetics	
SPHS 540	Speech Science	
SPHS 570	Anatomy and Physiology of the Speech, Language, and Hearing Mechanisms	
SPHS 582	Introductory Audiology I	
Total Hours		27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ With the instructor's permission, students may take LING 523 instead of LING 200, LING 530 instead of LING 201, LING 525 instead of

LING 202 or LING 528 instead of LING 203. Credit will not be granted for both the 200 level course and its graduate level counterpart noted here. However, students may receive credit for both courses in the pairs noted above (LING 200/LING 520; LING 201/LING 537; LING 202/LING 541; LING 203/LING 427), one as a core class and the other as an elective.

² No more than six (6) combined credit hours from LING 395, LING 493, and LING 495 can be counted toward the major (with no more than 3 credit hours of LING 493).

Thus, the major requires nine courses, including LING 101. Students majoring in linguistics may concentrate entirely in linguistics, or they may select their major courses to include a field related to linguistics, such as linguistic anthropology, computer processing of language data, philosophy of language, psychology of language, sociology of language, speech and hearing sciences, or study of a particular language or language family. Any such second-field option should be planned in consultation with the student's advisor. Students interested in a career in speech pathology may pursue a minor in speech and hearing sciences through the Division of Speech and Hearing Sciences in the UNC School of Medicine.

Students interested in the linguistics major are encouraged to consult with the department's director of undergraduate studies. Additional information about the major is provided on the department's Web site (<http://linguistics.web.unc.edu>); select the link for the undergraduate program.

Linguistics (LING) course descriptions (p.).

Dual Bachelor's–Master's Degree Program

The dual B.A.–M.A. program offers highly motivated undergraduates the opportunity to earn an M.A. (<https://catalog.unc.edu/graduate/schools-departments/linguistics/#programtext>), in less than the usual time by completing some of the M.A. requirements while still an undergraduate. Students must have a grade point average of 3.3 overall and 3.5 in linguistics. Students interested in pursuing this program should consult the department's director of undergraduate studies, Professor David Mora-Marín, to assess feasibility.

Additional information can be found on the program website (<https://linguistics.unc.edu/graduate-program/ma-linguistics/>).

Special Opportunities

Honors in Linguistics

Any linguistics major with a cumulative total grade point average of at least 3.3 and at least 3.5 within the linguistics major is eligible to attempt a degree with honors in linguistics. To graduate with honors, a student must work with a faculty supervisor, enroll in LING 691H and LING 692H during the senior year, and complete and defend an honors thesis according to departmental and Honors Carolina requirements. Interested students should contact the honors advisor, Professor Katya Pertsova, during their junior year.

Departmental Involvement

Many linguistics majors and minors join Underling, the undergraduate linguistics club, which sponsors a variety of educational, outreach, social, and career-development events each year.

Study Abroad

Students in linguistics are encouraged to consider study abroad. Courses that can be applied toward the linguistics major and minor are available through many of the programs administered by the Study Abroad Office.

Internship Course

Students interested in receiving credit for participating in an internship that involves a linguistic component can enroll in LING 493. LING 493 can be applied towards elective credit in the major or minor. The work includes an academic component. Please contact the director of undergraduate studies well in advance to discuss options for internships and specific requirements.

Undergraduate Awards

The Marc Adam Eisdorfer Award recognizes the graduating senior judged most outstanding in academic achievement in linguistics. It was established in 1998 by Sandra Eisdorfer in memory of her son, a graduate of the class of 1984.

Linguistics Minor

Courses in the department are offered for the general student and for those who wish to receive the bachelor of arts with a major in linguistics. Courses in linguistics are intended to open up systematic perspectives on the nature of human language by means of detailed studies of language structure, language change and language acquisition, the sound system of language, and the syntactic/semantic system of language.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor in linguistics consists of four linguistics courses numbered 200 or higher.

Code	Title	Hours
Core Requirements		
Two courses selected from: ¹		6
LING 200	 Phonology	
LING 201	Syntax	
LING 202	 Linguistic Variation and Language Change	
LING 203	 Language Acquisition and Development	
Two additional LING courses numbered 200 or higher. ^{2,3}		6
Total Hours		12

¹ LING 101 is a prerequisite for these courses.

² In order to fashion a coherent program of study that complements the student's major, the department encourages students to select these two courses in consultation with the department's director of undergraduate studies.

³ No more than three combined hours of LING 395, LING 493, and LING 495 can be counted toward the minor.

Linguistics (LING) course descriptions (p.).

Department of Mathematics Introduction

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance. UNC–Chapel Hill offers several degrees in mathematics and the mathematical sciences, providing students a choice of careers in this field. Among the jobs in industry, government, and the academic world that involve mathematics are actuary, data analyst, modeler, optimizer, statistician, and computer analyst.

Advising

All majors and minors have a primary academic advisor assigned in ConnectCarolina. Students should regularly meet with their advisors and review their Tar Heel Trackers to be sure that they are satisfying distribution and degree requirements. In addition, drop in advising is available each semester in the math department. Students who have declared a math major and have completed MATH 233 are required to attend a math department advising session to discuss course selections and any other questions before a hold on registration is lifted. The department's director of undergraduate studies and manager of student services (see contact tab above) are also available by appointment. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<https://math.unc.edu/>).

Placement into Mathematics Courses

Standardized test scores such as the Advanced Placement (AP) or the American College Test (ACT) or Scholastic Aptitude Test (SAT) can be used for placement into mathematics courses. Students who do not have placement scores via the AP, ACT or SAT may take the department's ALEKS Placement Test. Please visit the placement page (<https://>

math.unc.edu/undergraduate/registration-advising/) of the department's website for specific information regarding placement and departmental placement tests.

Graduate School and Career Opportunities

The B.S. degree program, especially if it includes the sequences MATH 521–MATH 522 and MATH 577–MATH 578, is excellent preparation for graduate study in the mathematical sciences. The B.A. degree can be excellent preparation for graduate study in many fields, including admission into professional schools of law, business, and medicine. Both degrees are viewed by many employers as attractive, especially when accompanied by electives in areas such as statistics, computer science, data science, economics, and operations research. Undergraduate mathematics majors with critical thinking skills and good analytical abilities are in demand in many business, industry, and government fields.

Mathematics Major, B.A.

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance.

Students majoring in mathematics may enter either the B.A. or the B.S. program. The B.A. program is more flexible than the B.S. program; it allows students to specialize in mathematics and at the same time either to follow a broad liberal arts program or to specialize in a second area (possibly even taking a second major). MATH 521 is a key class in the curriculum and MATH 381 is a key to prepare for it. Your degree plan should be built with these classes as the backbone, and they should be taken in the second and third year by most students. Please see the sample plan for additional information and suggestions.

Student Learning Outcomes

Upon completion of the mathematics program (B.A., B.S.), students should be able to:

- Demonstrate mastery of the core of mathematics recognized as essential by national professional mathematics organizations
- Demonstrate mathematical reasoning and problem-solving skills
- Demonstrate the ability to construct logical arguments and mathematical proofs
- Demonstrate the ability to apply mathematical knowledge and skills in context and interpret results

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
MATH 347 or MATH 577	Linear Algebra for Applications (previously offered as MATH 547) Linear Algebra	3
MATH 381	Discrete Mathematics ^{1, H}	3
MATH 383	First Course in Differential Equations ^H	3
MATH 521	Advanced Calculus I ^H	3
At least three more MATH courses numbered above 500. ²		9
Additional Requirements		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233 or MATH 235	 Calculus of Functions of Several Variables ^{H, F}  Mathematics for Data Science	4
Total Hours		33

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A current or former major in statistics and analytics may substitute STOR 215 for MATH 381.

² For this requirement, taking the three lab courses MATH 383L + MATH 528L + MATH 529L counts as one 500-level course.

All General Education requirements apply (see the General Education Requirements (p. 653) in this catalog).

Following are suggested course selections (within the degree requirements) for students who have an interest in a particular direction.

Course Suggestions for Pure Mathematics

These courses provide a solid theoretical understanding of central mathematics and excellent preparation for graduate study in mathematics or the mathematical sciences.

Code	Title	Hours
MATH 521	Advanced Calculus I ^H	3
MATH 522	Advanced Calculus II ^H	3
MATH 577	Linear Algebra	3
MATH 578	Algebraic Structures	3

Enough upper-level mathematics courses to satisfy the degree requirements

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Those planning graduate study in mathematics or the mathematical sciences may consider taking some of MATH 653, MATH 676, MATH 680, or subsequent courses.

Course Suggestions for Mathematical Economics

Suitable for students planning to go on to graduate school in economics or a related area, or pursue a career in economics, business, or finance.

Note: With three more ECON courses numbered above 400, the requirements for the B.A. in economics could also be satisfied.

Code	Title	Hours
ECON 101	 Introduction to Economics ^{H, F}	4
ECON 410	 Intermediate Microeconomics ^H	4
ECON 420	Intermediate Macroeconomics ^H	3
At least two of:		6
ECON 510	 Advanced Microeconomic Theory ^H	
ECON 511	Advanced Game Theory in Economics ^H	
ECON 520	Advanced Macroeconomic Theory ^H	
MATH 521	Advanced Calculus I ^H	3
At least three of:		9
MATH 522	Advanced Calculus II ^H	
MATH 524	Elementary Differential Equations	
MATH 535	Introduction to Probability	
MATH 550	Topology	
MATH 555	Introduction to Dynamics	
MATH 564	Mathematical Modeling in the Life Sciences	
Either:		6
MATH 535/ STOR 435	Introduction to Probability	
STOR 555	Mathematical Statistics	
Or:		
ECON 400	 Introduction to Data Science and Econometrics ^H	
MATH 347 or MATH 577	 Linear Algebra for Applications ^F Linear Algebra	

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Course Suggestions for Future High School Teachers

Code	Title	Hours
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^H	4
MATH 381	Discrete Mathematics ^H	3
MATH 383	First Course in Differential Equations ^H	3
At least one of:		3

MATH 534	Elements of Modern Algebra	
MATH 535	Introduction to Probability	
MATH 548	Combinatorial Mathematics	
MATH 550	Topology	
MATH 347	 Linear Algebra for Applications ^F	3
or MATH 577	Linear Algebra	
MATH 521	Advanced Calculus I ^H	3
MATH 533	Elementary Theory of Numbers	3
MATH 551	Euclidean and Non-Euclidean Geometries	3
STOR 155	 Introduction to Data Models and Inference ^{H, F}	3
The Supplemental General Education requirement		9

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first two years, students are required to complete the standard calculus sequence as well as discrete mathematics, linear algebra, and first course in differential equations. At the beginning of their third year, students take advanced courses in mathematics. They have a great deal of flexibility in tailoring their program to meet their individual interests.

Code	Title	Hours
First and Second Years		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4
or MATH 235	 Mathematics for Data Science	
MATH 381	Discrete Mathematics ^{1, 4, H}	3
MATH 383	First Course in Differential Equations ^{3, H}	3
MATH 347	Linear Algebra for Applications ³	3
or MATH 577	Linear Algebra	
Third and Fourth Years		
MATH 521	Advanced Calculus I ^H	3
At least three more MATH courses numbered above 500. ²		9
Total Hours		33

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A current or former major in statistics and analytics may substitute STOR 215 ([https://catalog.unc.edu/search/?P=STOR %20215](https://catalog.unc.edu/search/?P=STOR%20215)) for MATH 381 ([https://catalog.unc.edu/search/?P=MATH %20381](https://catalog.unc.edu/search/?P=MATH%20381)).

² For this requirement, taking the three lab courses MATH 383L + MATH 528L + MATH 529L counts as one 500-level course.

³ One of these courses could be moved to the third year with minimal consequence.

⁴ MATH 381 is a key course to prepare for MATH 521. Students with double majors should take MATH 381 over similar courses offered in other departments.

Special Opportunities in Mathematics

Special activities for qualified students include an undergraduate Mathematics Club, problem-solving seminars, and the Putnam Mathematical Competition. Qualified students may pursue opportunities as undergraduate learning assistants or tutors in the Math Help Center. Students interested in these activities should consult the undergraduate student services manager for additional information.

Qualified students can conduct original research with the guidance of a faculty member, usually in conjunction with the preparation of an honors project. Study Abroad opportunities include semester or yearlong programs in a variety of countries. The Archibald Henderson Medal and the Alfred Brauer Prize recognize outstanding performance and promise in mathematics.

Undergraduate honors research projects as well as some internships or study abroad programs might qualify for research and discovery or experiential education credit in the General Education curriculum. MATH 296 satisfies this requirement.

Honors in Mathematics

Special honors (H) sections are given in some mathematics courses when student demand is sufficient (for example, MATH 62H, MATH 231H, MATH 232H, MATH 233H, MATH 381H, MATH 383H).

Promising students are encouraged to work toward a bachelor’s degree with honors in mathematics. This program consists of nine or more courses approved by the departmental honors advisor and satisfactory completion of an honors project completed over the two semesters. The honors project is conducted in association with a departmental faculty member on a topic approved by the departmental honors advisor, and spans two semesters of independent research, during which time the honors candidate must be enrolled in MATH 691H and MATH 692H. The final report on the project includes both a written description and an oral presentation before a committee of three faculty (including the project advisor) approved by the departmental honors advisor. The committee will then report to the departmental honors advisor, who, in conjunction with a subcommittee of the undergraduate committee, will make the final recommendation on awarding a degree with honors or highest honors.

The candidate must have a 3.5 grade point average in mathematics courses to begin an honors project and must maintain the 3.5 average through the completion of the senior year.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate mathematics (and science) majors interested in teaching high school mathematics the opportunity to earn their degree and obtain licensure as a North Carolina high school mathematics teacher in four years. For more details, see the School of Education (p. 75) section of the Catalog.

Mathematics Major, B.S.

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance.

Students majoring in mathematics may enter either the B.A. or the B.S. program. The B.S. program is more comprehensive; it provides solid preparation for work or for further study in mathematics and related

fields. Within the B.S. program there is an applied option, which is designed for students who are primarily interested in using mathematics for the study of other sciences. MATH 521 is a key class in the curriculum and MATH 381 is a key to prepare for it. The degree plan should be built with these classes as the backbone, and they should be taken in the second and third year by most students. Please see the sample plan for additional information and suggestions.

Student Learning Outcomes

Upon completion of the mathematics program (B.A., B.S.), students should be able to:

- Demonstrate mastery of the core of mathematics recognized as essential by national professional mathematics organizations
- Demonstrate mathematical reasoning and problem-solving skills
- Demonstrate the ability to construct logical arguments and mathematical proofs
- Demonstrate the ability to apply mathematical knowledge and skills in context and interpret results

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Mathematics Major, B.S.

Code	Title	Hours
Core Requirements		
One of the following:		3
COMP 110	 Introduction to Programming ^H	
COMP 116	Introduction to Scientific Programming	
STOR 120	 Foundations of Statistics and Data Science ^{H, F}	4
or STOR 155	 Introduction to Data Models and Inference	
MATH 347	 Linear Algebra for Applications (preferably before the junior year; previously offered as MATH 547) ^F	3
or MATH 577	Linear Algebra	
MATH 381	Discrete Mathematics ^{1, H}	3
MATH 383	First Course in Differential Equations ^H	3
MATH 521	Advanced Calculus I ^H	3
One of the following:		3
MATH 522	Advanced Calculus II ^H	
MATH 523	Functions of a Complex Variable with Applications	
MATH 528	Mathematical Methods for the Physical Sciences I	
MATH 566	Introduction to Numerical Analysis	
One of the following:		3
MATH 533	Elementary Theory of Numbers	

MATH 534	Elements of Modern Algebra	
MATH 578	Algebraic Structures	
MATH 548	Combinatorial Mathematics	
At least three additional MATH courses numbered above 520, excluding MATH 528L and MATH 529L		9
Additional Requirements		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^H	4
or MATH 235	 Mathematics for Data Science	
Physics course chosen from the following options:		4
PHYS 118	 Introductory Calculus-based Mechanics and Relativity (recommended) ^{H, F}	
PHYS 114	 General Physics I: For Students of the Life Sciences ^F	
At least three additional courses in the Division of Natural Sciences and Mathematics		9
Remaining General Education requirements and enough free electives to accumulate 120 academic hours		61
Total Hours		120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A current or former major in statistics and analytics may substitute STOR 215 for MATH 381.

MATH 668	Methods of Applied Mathematics I ²	
Sequence MATH 383L, MATH 528L, and MATH 529L ²		

Additional Requirements

MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^H	4
or MATH 235	 Mathematics for Data Science	
Physics course chosen from the following options:		4
PHYS 118	 Introductory Calculus-based Mechanics and Relativity (recommended) ^{H, F}	
PHYS 114	 General Physics I: For Students of the Life Sciences ^F	

Strongly recommended:

MATH 535/ STOR 435	Introduction to Probability	
STOR 555	Mathematical Statistics	
At least three additional courses in the Division of Natural Sciences and Mathematics.		9
Remaining General Education requirements and enough free electives to accumulate 120 academic hours		61
Total Hours		120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A current or former major in statistics and analytics may substitute STOR 215 for MATH 381.

² with at least three from MATH 528, MATH 529, MATH 560, MATH 561, MATH 563, MATH 564, MATH 566,

MATH 661, MATH 665, MATH 668, sequence MATH 383L + MATH 528L + MATH 529L.

Students must complete either the B.S. or B.S.-Applied Option for a B.S. degree with a major in mathematics. All requirements of the General Education curriculum (except for Supplemental General Education) apply to students in both options.

Following are suggested course selections (within the degree requirements) for students who have an interest in a particular direction.

Course Suggestions for Pure Mathematics

These courses provide a solid theoretical understanding of central mathematics and excellent preparation for graduate study in mathematics or the mathematical sciences.

Code	Title	Hours
MATH 521	Advanced Calculus I ^H	3
MATH 522	Advanced Calculus II ^H	3
MATH 577	Linear Algebra	3
MATH 578	Algebraic Structures	3

Enough upper-level mathematics courses to satisfy the degree requirements

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Those planning graduate study in mathematics or the mathematical sciences may consider taking some of MATH 653, MATH 676, MATH 680, or subsequent courses.

Course Suggestions for Mathematical Biology

For students interested in careers or further study in mathematical life sciences.

Code	Title	Hours
BIOL 101	 Principles of Biology ^{H, F}	3
CHEM 101	 General Descriptive Chemistry I ^{H, F}	3
or CHEM 102	 General Descriptive Chemistry II	
At least one of:		4
BIOL 201	Ecology and Evolution ^H	
BIOL 202	 Molecular Biology and Genetics ^{H, F}	
BIOL 205	Cellular and Developmental Biology ^H	
At least two of:		6
BIOL 454	Evolutionary Genetics	
BIOL 526	Computational Genetics ^H	
BIOL 551	Comparative Biomechanics	
BIOL 553	Mathematical and Computational Models in Biology	
MATH 521	Advanced Calculus I ^H	3
One of:		3
MATH 522	Advanced Calculus II ^H	
MATH 523	Functions of a Complex Variable with Applications	
MATH 528	Mathematical Methods for the Physical Sciences I	
MATH 566	Introduction to Numerical Analysis	
One of:		3

MATH 534	Elements of Modern Algebra	
MATH 548	Combinatorial Mathematics	
MATH 578	Algebraic Structures	
MATH 347	 Linear Algebra for Applications ^F	3
or MATH 577	Linear Algebra	

Three or more mathematics courses numbered above 500. Consider especially MATH 524, MATH 529, MATH 535, and MATH 564

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first two years, students are required to complete the standard calculus sequence, discrete mathematics, linear algebra, and first course in differential equations as well as introductory courses in computer science and physics. At the beginning of their third year, students take advanced courses in mathematics.

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ A current or former major in statistics and analytics may substitute STOR 215 (<https://catalog.unc.edu/search/?P=STOR%20215>) for MATH 381 (<https://catalog.unc.edu/search/?P=MATH%20381>).

² with at least three from MATH 528, MATH 529, MATH 560, MATH 561, MATH 563, MATH 564, MATH 566, MATH 661, MATH 665, MATH 668, sequence MATH 383L + MATH 528L + MATH 529L.

³ These courses may be completed at any point in the major. However, we recommend starting early especially for sequential courses in another department. STOR 555 can be counted for this requirement and is strongly recommended.

⁴ MATH 381 is a key course to prepare for MATH 521. Students with double majors should take MATH 381 over similar courses offered in other departments.

Special Opportunities in Mathematics

Special activities for qualified students include an undergraduate Mathematics Club, problem-solving seminars, and the Putnam Mathematical Competition. Qualified students may pursue opportunities as undergraduate learning assistants or tutors in the Math Help Center. Students interested in these activities should consult the undergraduate student services manager for additional information.

Qualified students can conduct original research with the guidance of a faculty member, usually in conjunction with the preparation of an honors project. Study Abroad opportunities include semester or yearlong programs in a variety of countries. The Archibald Henderson Medal and the Alfred Brauer Prize recognize outstanding performance and promise in mathematics.

Undergraduate honors research projects as well as some internships or study abroad programs might qualify for research and discovery or experiential education credit in the General Education curriculum. MATH 296 satisfies this requirement.

Honors in Mathematics

Special honors (H) sections are given in some mathematics courses when student demand is sufficient (for example, MATH 62H, MATH 231H, MATH 232H, MATH 233H, MATH 381H, MATH 383H).

Promising students are encouraged to work toward a bachelor's degree with honors in mathematics. This program consists of nine or more courses approved by the departmental honors advisor and satisfactory completion of an honors project completed over the two semesters. The honors project is conducted in association with a departmental faculty member on a topic approved by the departmental honors advisor, and spans two semesters of independent research, during which time the honors candidate must be enrolled in MATH 691H and MATH 692H. The final report on the project includes both a written description and an oral presentation before a committee of three faculty (including the project

advisor) approved by the departmental honors advisor. The committee will then report to the departmental honors advisor, who, in conjunction with a subcommittee of the undergraduate committee, will make the final recommendation on awarding a degree with honors or highest honors. The candidate must have a 3.5 grade point average in mathematics courses to begin an honors project and must maintain the 3.5 average through the completion of the senior year.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate mathematics (and science) majors interested in teaching high school mathematics the opportunity to earn their degree and obtain licensure as a North Carolina high school mathematics teacher in four years. For more details, see the School of Education (p. 75) section of the Catalog.

Mathematics Minor

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
MATH 381	Discrete Mathematics ^H	3
MATH 383	First Course in Differential Equations ^H	3
Three mathematics courses from the following list:		9
MATH 347	Linear Algebra for Applications	
The collection of all three lab courses MATH 383L + MATH 528L + MATH 529L		
Any course numbered above MATH 500 excluding MATH 528L and MATH 529L		
Additional Requirements		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^{H, F}	4
or MATH 235	 Mathematics for Data Science	
Total Hours		27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

See the program page here (p. 476) for special opportunities.

Department of Microbiology and Immunology

The Department of Microbiology and Immunology is one of the basic science departments of the UNC School of Medicine. Although the department participates actively in the undergraduate curriculum in biology and several of its courses are open to undergraduate students, the department does not offer an undergraduate major in microbiology.

MCRO 251 Introductory Medical Microbiology is an undergraduate course, including both lecture and laboratory sessions, which is specifically designed to serve as the required prerequisite for students applying to physician assistant, pharmacy, or nursing programs, although other students with the required science background may take the course. Most of the other courses offered by the department are available to highly motivated undergraduate students with the necessary preparation, although it is important for such students to consult the course instructor before registering.

Department of Military Science

Introduction

The United States Army Reserve Officers' Training Corps (AROTC) provides unrivaled leadership training for success in any career field. AROTC offers students the opportunity to study, develop, and demonstrate leadership and mission command. Those who successfully complete the program are commissioned as second lieutenants in the United States Army. Army ROTC offers a variety of leadership experiences, academic challenges, and unique learning opportunities — unlike any other University program or department.

The Army ROTC Program

Four-Year Program

Students enrolled in the four-year program take courses during each semester. The first two years include the ROTC basic course and concentrate on leadership development, ethics and values, the profession of arms, and basic military skills. Starting the junior year, cadets enter the ROTC advanced course. The advanced course curriculum focuses on the study and application of leadership skills, mission command, advanced land navigation, and military history. Qualified cadets will have the opportunity to attend Cadet Summer Training at Fort Knox, Kentucky. In their senior year, cadets submit accessions packets—including component (Active, Reserve, National Guard) and branch preferences—to compete for the opportunity to serve the nation as commissioned officers.

Two-Year Program

The two-year program provides an opportunity for students to meet the requirements for the advanced course program and potential commissioning as officers in the United States Army. To be eligible for consideration, a student must have previously served in the armed services or attended Cadet Initial Entry Training at Fort Knox, Kentucky.

Interested Students

Students seeking to learn more about themselves, leadership, and the United States Army can take ARMY 101, ARMY 102, ARMY 201, and ARMY 202 without incurring a service obligation.

Advising

Cadets are required to complete an additional academic tracking form and receive guidance from their military science instructor to ensure military and graduation requirements are met.

Military Science and Leadership Minor

The military science and leadership minor is for students who wish to augment their college experience with the study and application of military leadership. Military science courses are open to all UNC—Chapel Hill students who meet prerequisites.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC—Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor in military science and leadership is a 15 semester-hour course of study selected from the list below.

Code	Title	Hours
Core Requirements		
ARMY 301	 Army Training Management ¹	3
ARMY 302	 Applied Leadership in Platoon Operations	3
ARMY 401	 The Army Officer	3
ARMY 402	 Company Grade Leadership	3
One of the following:		3
AERO/HIST/ PWAD 213	Air Power and Modern Warfare	
ASIA/HIST/ PWAD 570	The Vietnam War	
HIST/PWAD 212	History of Sea Power	
HIST/PWAD 238	 The American Revolution, 1763-1815	

HIST/PWAD 266	 Global History of Warfare
HIST/PWAD 368	U.S. War and Society to 1920
HIST/PWAD 369	U.S. War and Society Since 1920
HIST/PWAD 373	The United States in World War II
HIST/PWAD 565	Civil War and Reconstruction, 1848-1900
PHIL/POLI/ PWAD 272	 The Ethics of Peace, War, and Defense
POLI/PWAD 444	 Terrorism and International Peace
PWAD 488	Nuclear Security in the 21st Century
Total Hours 15	

¹ ARMY 101, ARMY 102, ARMY 201, and ARMY 202 are prerequisite courses to ARMY 301.

Special Opportunities in Military Science Extracurricular Activities

Army ROTC offers an array of extracurricular activities. Students looking for excitement and action can volunteer to compete for the opportunity to attend the basic airborne course, Air Assault, or mountain warfare training. Other opportunities include participation as a member of the Ranger Challenge Team or color guard, travel for culture and language immersion programs, and leadership opportunities in Army units in the United States and around the world.

Scholarships

Four-year scholarships are available for high school seniors. Three-and-a-half-, three-, two-and-a-half-, and two-year, merit-based scholarships are available to full-time students. Successful candidates will need to meet eligibility requirements and have at least a 2.5 GPA. Scholarships pay full tuition and fees, \$600 per semester book allowance, and a monthly stipend. The North Carolina Army National Guard and the United States Army Reserve also have programs that can pay costs associated with attending the University.

Service Obligations

Upon contracting, cadets incur an obligation to serve in the United States Army; that service can be active or reserve duty. Service obligations range from three to eight years.

Department of Music

Introduction

The Department of Music provides many opportunities to students who wish to study music within a strong liberal arts curriculum. We foster creative endeavor and critical inquiry through courses, ensembles, and lessons on instruments or voice that explore music from a variety of perspectives. The department offers both the bachelor of arts (B.A.) and the bachelor of music (B.Mus.) degrees for students majoring in music, and two minors. The department also offers many courses and performance opportunities to undergraduates majoring in fields other than music.

Admission

Students are admitted to the B.A. or B.Mus. programs through the regular admissions process established by the University. Prospective students intending to major in music are urged to contact the Department of Music for an audition during the year prior to their anticipated enrollment in order to strengthen their application credentials and to compete for scholarships offered by the department, including the prestigious William R. Kenan Jr. Music Scholarship.

Individual and Group Lessons

Instruction for academic credit in keyboard, woodwind, brass, percussion, string instruments, and in voice is available to all University students. All lessons are normally offered each semester and are subject to admission and other requirements being met. Group lessons may also be available on selected instruments and in voice.

Studio assignments are based on instructor availability with preference given to music majors (B.A. and B.Mus.). Fees are charged for lessons based on an annual schedule published by the department. Music lesson fees are to be paid during the registration period; if fees remain unpaid, lessons will be discontinued.

All students wishing to enroll for lessons must first gain the permission of the appropriate area head to register (see the Department of Music's website (<http://music.unc.edu/undergraduate/lessons/>) for current information); this will involve an audition. Once permission has been granted, the registration process is handled by the Department of Music's registrar, who is also responsible for procedures leading to billing and the formal assignment to a teacher.

B.Mus. students whose primary focus is composition (and whether or not choosing an emphasis in composition) will fulfill the Individual Lessons core requirement by taking MUSC 166, three semesters of MUSC 266, and two hours of MUSC 100–MUSC 107 or MUSC 200–MUSC 207.

MUSC 100–MUSC 107 may be repeated for credit to a maximum of eight hours; MUSC 200–MUSC 207 may be repeated for credit to a maximum of 16 hours; MUSC 266 may be repeated for credit to a maximum of 18 hours; MUSC 300–MUSC 306 may be repeated for credit for a degree to a maximum of six hours. In all these cases, repetition is subject to a grade of C or better in the immediately prior enrollment in the course.

Ensembles

A variety of department ensembles under MUSC 211–MUSC 214 are open to all students by audition. Each carries one credit hour per semester and may be repeated for credit.

B.A. candidates majoring in music must accrue four credit hours in ensembles drawn from MUSC 211, MUSC 212, MUSC 213 (<https://catalog.unc.edu/search/?P=MUSC%20213>), and/or MUSC 214 (<https://catalog.unc.edu/search/?P=MUSC%20214>). B.Mus. candidates must accrue eight credit hours chosen from MUSC 211 and/or MUSC 212. MUSC 214 (<https://catalog.unc.edu/search/?P=MUSC%20214>) may also be selected pursuant to area needs and preferences, or by approval of the director of undergraduate studies.

B.A. candidates majoring in music may count no more than three additional hours from MUSC 211–MUSC 214 towards their degree for music. They may count as credit hours for graduation, subject to the overall limit on music hours. Candidates for the B.Mus. may count no more than six additional hours from MUSC 211–MUSC 214 towards their degree for music. They may count as credit hours for graduation, subject to the overall limit on music hours.

B.A. students whose primary instrument is piano will normally fulfill the ensemble requirement by taking one semester of large ensemble (MUSC 211) in addition to the three-semester piano ensemble sequence (Piano Ensemble I: Piano Duet; Piano Ensemble II: Vocal Accompanying; Piano Ensemble II: Instrumental Accompanying).

B.Mus. students whose primary instrument is piano will normally take at least one semester of large ensemble (MUSC 211) and the three-semester piano ensemble sequence (Piano Ensemble I: Piano Duet; Piano Ensemble II: Vocal Accompanying; Piano Ensemble II: Instrumental Accompanying). The rest of the ensemble requirement will be fulfilled by way of additional semesters of MUSC 211 (which may include Collaborative Piano) or MUSC 214.

Students should check with the appropriate ensemble director for more information concerning requirements and procedures for the auditions, which are typically held during the first week of each semester. Ensemble directors are listed on the department's website (<http://music.unc.edu/undergraduate/ensembles/>). The department offers the following ensembles, most of which meet the ensemble or elective requirements for the music major:

Baroque Ensemble	Marching Band
Bluegrass Band	New Music Ensemble
Bluegrass Experience	Pep Band
Brass Chamber Music Ensembles	Percussion Ensemble
Carolina Choir	Piano Ensembles
Chamber Singers	String Chamber Ensembles
Charanga Carolina	Symphony Band
Gamelan	Symphony Orchestra
Glee Club (soprano/alto voices)	UNC Opera
Glee Club (tenor/bass voices)	University Band
Global Rhythms	University Chamber Players
Guitar Ensemble	Wind Ensemble
Hip Hop Ensemble	Woodwind Chamber Ensemble
Jazz Band	
Jazz Combos	

Advising

All majors and minors have an academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their academic advisor and review their Tar Heel Tracker each semester. In addition, the department's advisory team and the director of undergraduate studies work with current and prospective music majors individually by appointment (see contact information above). Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<http://music.unc.edu/>).

Music Major, B.A.

The Department of Music provides many opportunities to students who wish to study music within a strong liberal arts curriculum. We foster creative endeavor and critical inquiry through courses, ensembles, and lessons on instruments or voice that explore music from a variety of perspectives.

The B.A. requires at least 35 credit hours in music and at least 75 outside the major, with 120 total credit hours in the degree. Given the ample opportunity to explore the breadth of the University's course offerings, many B.A. candidates seek minors in other fields or take on a second major.

Student Learning Outcomes

Upon completion of the music program (B.A.), students should be able to:

- Acquire sufficient technical capabilities to be able to perform expressively — on an instrument or the voice — appropriate repertoire for the area in which they are studying
- Show proficiency in the materials and language of music for purposes of analysis and evaluation

- Be aware of the connection between general culture and history and the musical works that come from composers of particular times and places
- Demonstrate the ability to perform successfully in individual, small-, and large-ensemble performance and have a working familiarity with repertoire for solo or ensemble performance

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Courses listed more than once can be counted for only one category.

Code	Title	Hours
Core Requirements		
Foundations:		
MUSC 120	 Foundations in Music ^F	3
Musicianship:

35-39

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ 30-minute lessons count for .5 credit hours. Students choosing to take 30-minute lessons to satisfy this requirement must take lessons for four semesters to accumulate the requirement's 2-credit hour minimum.

² Pursuant to area needs and preferences, or by DUS approval.

Music (MUSC) course descriptions (p.).

Students may receive no more than 45 credit hours in music and must complete a minimum of 75 hours of coursework outside music, including all General Education requirements.

Special Opportunities

Honors in Music

Students interested in becoming candidates for a degree with honors in music should read the regulations governing departmental honors in the College of Arts and Sciences, found in the Degree Requirements

(p. 739) section of this catalog, and should consult the honors advisor of the department toward the end of the sophomore year.

Study Abroad

The department actively encourages students to participate in study abroad programs to pursue their musical and other interests in an international context. The department maintains a strong relationship with institutions in Florence, Hong Kong, London, and Vienna, and can facilitate connections with programs around the world.

Music Major, Bachelor of Music (B.Mus.)

The Bachelor of Music program is designed for those seeking a degree that offers a more extensive component in performance, history,

ethnomusicology, theory, composition, or music education. Students must complete 64 credit hours in music and at least 54 credit hours outside the major.

Student Learning Outcomes

Upon completion of the music program (B.Mus.), students should be able to:

- Acquire sufficient technical capabilities to be able to perform expressively — on an instrument or the voice — appropriate repertoire for the area in which they are studying
- Show proficiency in the materials and language of music for purposes of analysis and evaluation
- Be aware of the connection between general culture and history and the musical works that come from composers of particular times and places
- Demonstrate the ability to perform successfully in individual, small-, and large-ensemble performance and have a working familiarity with repertoire for solo or ensemble performance

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Courses listed more than once can be counted for only one category.

Ensemble performance (eight hours) chosen from:		8
MUSC 211	Ensemble I	
MUSC 212	Ensemble II	
MUSC 214	Chamber Music ^{2, H}	
Keyboard skills (two hours) chosen from:		2
MUSC 135	Jazz Theory	
MUSC 136	Keyboard Skills I	
MUSC 200	Advanced Individual Lessons in Keyboard ^{3, H}	
MUSC 236	Keyboard Skills II	
Senior Presentation		3
MUSC 300	 Advanced Keyboard Lessons and Recital	
MUSC 302	 Advanced Voice Lessons and Recital ^H	
MUSC 303	 Advanced String Lessons and Recital ^H	
MUSC 304	 Advanced Woodwind Lessons and Recital ^H	
MUSC 305	 Advanced Brass Lessons and Recital ^H	
MUSC 306	 Advanced Percussion Lessons and Recital ^H	
MUSC 307	 Advanced Composition/Recital	
MUSC 308	Intermediate Lessons in Conducting	
MUSC 309	Advanced Lessons in Conducting	

Additional Requirements

Music electives (fifteen hours) chosen from MUSC courses: students may count no more than six additional hours from MUSC 211 - MUSC 214 towards their music major. They may count as credit hours for graduation, subject to the overall limit on music hours.

Total Hours	64

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students may petition the director of undergraduate studies to count toward this requirement no more than two hours of MUSC 100–MUSC 107. Students wishing to take a seventh semester of individual lessons may use an additional two hours of MUSC 200–MUSC 207 for elective credit.

² Pursuant to area needs and preferences, or by approval of the director of undergraduate studies.

³ With the approval of the director of undergraduate studies.

Students pursuing the B.Mus. must complete at least 64 credit hours in music, which is combined with an additional 56 credit hours for a total of 120 credit hours. Students may receive no more than 66 credit hours in music and must complete a minimum of 54 credit hours of coursework outside music, including all General Education requirements.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

First Year	Hours
First-Year Foundation Courses	
IDST 101 College Thriving	1
ENGL 105 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^{1, F}	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students are strongly encouraged to complete their FY-LAUNCH requirement with MUSC 120. If not, students will need to take another FY-SEMINAR or FY-LAUNCH course to fulfill the IDEAs in Action requirement.

Special Opportunities

Honors in Music

Students interested in becoming candidates for a degree with honors in music should read the regulations governing departmental honors in the College of Arts and Sciences, found in the Degree Requirements (p. 739) section of this catalog, and should consult the honors advisor of the department toward the end of the sophomore year.

Study Abroad

The department actively encourages students to participate in study abroad programs to pursue their musical and other interests in an international context. The department maintains a strong relationship with institutions in Florence, Hong Kong, London, and Vienna, and can facilitate connections with programs around the world.

Music Minor

The Department of Music provides many opportunities to students who wish to study music within a strong liberal arts curriculum. We foster creative endeavor and critical inquiry through courses, ensembles, and lessons on instruments or voice that explore music from a variety of perspectives.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor in music requires 15 hours as follows:

Code	Title	Hours
Core Requirements		
One of:		3
MUSC 120	 Foundations in Music ^F	
MUSC 121	 Fundamentals of Tonal Music I	
MUSC 131	Tonal Theory I ^H	
MUSC 141	 Survey of Western Music History	
MUSC 142	 Great Musical Works	
MUSC 143	 Introduction to Rock Music	
MUSC 144	 Introduction to Country Music	
MUSC 145	 Introduction to Jazz	
MUSC 146	 Introduction to World Musics	
MUSC 147	 Introduction to the Music of the Americas	
MUSC 148	 Introduction to Black Music	
MUSC 149	 Introduction to Music and Dance	
MUSC 155	The Art and Culture of the DJ	
MUSC 156	Beat Making Lab	
MUSC 157	Rap Lab	
MUSC 158	Rock Lab	
MUSC 161	Music Production I	

MUSC 164	 Music of South Asia
MUSC 166	Introduction to Composition
MUSC 188	 Introduction to Women and Music (three hours)
One of:	
MUSC 223	Piano Literature
MUSC 226	Woodwinds, Brass, Percussion, and Strings Techniques
MUSC 227	Keyboard, Vocal, and Elementary Music Techniques
MUSC 234	 World Musics in Theory and Practice
MUSC 239	Introduction to Music Technology
MUSC 240	Performance in Southeast Asia: Gongs, Punks, and Shadow Plays
MUSC 248	 Gender on the Musical Stage
MUSC 251	 Studies in Medieval and Early Modern Music
MUSC 258	 Musical Movements: Migration, Exile, and Diaspora
MUSC 261	Music Production II
MUSC 269	 Music in the Community
MUSC 280	Jazz Innovators
MUSC 281	Popular Song in American Culture
MUSC 282	Bach and Handel
MUSC 283	Haydn and Mozart
MUSC 284	Beethoven and His Era
MUSC 285	Musical Modernism
MUSC 286	 Music as Culture ^H
MUSC 287	 Opera as Drama ^H
MUSC 288	The Orchestra and Its Music
MUSC 289	Sounds of War and Revolution
MUSC 291	 Music and Politics
MUSC 292	Media and Social Change in Africa
MUSC 294	Bluegrass Music, Culture, and History
MUSC 363	Studies in Jazz
MUSC 364	 UNC Summer Jazz Workshop
MUSC 381	Inside the Song: Analysis of Songcraft
MUSC 390	Seminar in Music ^H
The remaining nine hours are to be taken from other MUSC courses (which may include lessons or ensembles) subject to prerequisites and other admissions requirements.	

Total Hours 15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Musical Theatre Performance Minor

The minor in musical theatre performance, a joint program in the Department of Music and the Department of Dramatic Art, provides students with opportunities to improve their abilities in musical theatre performance. The minor has three components including acting literacy, music literacy, and movement literacy.

Students will have ample opportunity for performance experience through the department's and student group productions.

The minor has three tracks, depending on the student's major status:

1. Music track (taken by students pursuing the dramatic art major or music majors in instruments other than voice)
2. Dramatic track (taken by students pursuing the music major)

3. Hybrid track (taken by students pursuing a double major in dramatic art and music, or by students majoring in other disciplines)

Departmental advising is available for students with questions about course and program expectation and opportunities, both on campus and in the professional world.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor requires 15 credit hours. Students can pursue one of three tracks.

Music Track

Code	Title	Hours
Core Requirements		
DRAM/MUSC 151	 Introduction to the American Stage Musical	3
At least 4 hours in Music Literacy:		4
MUSC 102	Individual Voice Lessons	
MUSC 111	Group Lessons in Voice	
MUSC 121	 Fundamentals of Tonal Music I	
MUSC 202	Advanced Individual Lessons in Voice ^H	
At least 4 hours in Movement Literacy:		4
EXSS 10	Beginning Ballet	
EXSS 11	Introduction to Dance Technique	
EXSS 12	Beginning Modern Dance	
EXSS 20	Intermediate Ballet	
EXSS 22	Intermediate Modern Dance	
EXSS 30	Advanced Ballet	
DRAM 154	Performers' Awareness	
DRAM 155	Movement for the Actor	
The remaining 4 hours can come from either list above or from the Acting Literacy list below:		4
DRAM 144	Acting the Song	
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Students in the music track may not also pursue the music major (B.A., B.Mus) in voice or the music minor.

Dramatic Track

Code	Title	Hours
Core Requirements		
DRAM/MUSC 151	 Introduction to the American Stage Musical	3
At least 4 hours in Acting Literacy:		4
DRAM 135	 Acting for Nonmajors	

DRAM 140	Voice Training I	
DRAM 144	Acting the Song	
At least 4 hours in Movement Literacy:		4
EXSS 10	Beginning Ballet	
EXSS 11	Introduction to Dance Technique	
EXSS 12	Beginning Modern Dance	
EXSS 20	Intermediate Ballet	
EXSS 22	Intermediate Modern Dance	
EXSS 30	Advanced Ballet	
DRAM 154	Performers' Awareness	
DRAM 155	Movement for the Actor	
The remaining 4 hours can come from either list above		4
Total Hours		15

Students in the dramatic track may not also pursue the dramatic art major or minor.

Hybrid Track

Code	Title	Hours
Core Requirements		
DRAM/MUSC 151	 Introduction to the American Stage Musical	3
Any combination of courses from the Music, Acting, and Movement Literacy lists (see below):		12
Music Literacy		
MUSC 102	Individual Voice Lessons	
MUSC 111	Group Lessons in Voice	
MUSC 121	 Fundamentals of Tonal Music I	
MUSC 202	Advanced Individual Lessons in Voice ^H	
Acting Literacy		
DRAM 135	 Acting for Nonmajors	
DRAM 140	Voice Training I	
DRAM 144	Acting the Song	
Movement Literacy		
EXSS 10	Beginning Ballet	
EXSS 11	Introduction to Dance Technique	
EXSS 12	Beginning Modern Dance	
EXSS 20	Intermediate Ballet	
EXSS 22	Intermediate Modern Dance	
EXSS 30	Advanced Ballet	
DRAM 154	Performers' Awareness	
DRAM 155	Movement for the Actor	
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Students pursuing both the dramatic art and music major (double majors) should follow the hybrid track.

Department of Naval Science

Introduction

The purpose of the NROTC is to provide a source of highly qualified officers to serve on United States Navy ships, submarines, and aircraft, or in the United States Marine Corps. Students (midshipmen) who obtain a baccalaureate degree and who satisfy academic and physical requirements are commissioned as either ensigns in the Navy or second lieutenants in the Marine Corps. Students may participate in NROTC in one of two programs: the NROTC Scholarship Program or the NROTC College Program. NROTC scholarships provide tuition, books,

fees, uniforms, and a monthly allowance of \$250 to \$400. Students participating in the college program receive their NROTC books, uniforms, and a monthly allowance of \$350 to \$400 during their junior and senior years. A major advantage of the college program is the excellent opportunity it offers to win two- and three-year NROTC scholarships.

Regardless of enrollment category, many features are common to both programs:

- Naval science courses carry academic credit.
- All students are welcome to join the program and “test the waters” without incurring a military obligation.
- All midshipmen who successfully complete the program and university graduation requirements will receive a commission as an officer in the United States Navy or Marine Corps.
- Applicants are considered without regard to race, sex, creed, sexual orientation, or religion.

Midshipman Life

We are dedicated to ensuring that each midshipman leads a full and productive University life. Midshipmen are encouraged to participate on University athletic teams as well as in campus politics, fraternities, sororities, intramurals, and other organizations. Additionally, midshipmen are provided an outstanding opportunity to examine and experience many alternative career paths, social events, and experiences through field trips, summer cruises, and the midshipman military organization.

NROTC Program

Courses offered by the Department of Naval Science, in conjunction with courses offered in the Curriculum in Peace, War, and Defense, are designed to equip an individual with the necessary tools to succeed as an officer in the naval service.

Information about applications and admissions in the UNC–Chapel Hill Naval ROTC may be obtained by visiting the Naval Armory on campus; by addressing an inquiry to Professor of Naval Science, CB# 3325, University of North Carolina at Chapel Hill, Chapel Hill, NC 27599-3325; by calling (919) 962-1198; or by email at zachtyra@unc.edu.

Advising

All students pursuing minors have an academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor. Departmental academic advising appointments can be made through their respective NROTC instructor or by contacting the department’s director of undergraduate studies, Lieutenant Zach Tyra (see contact information above). Further information on courses and careers may be obtained from the department’s website (<https://nrotc.unc.edu/>).

Naval Science Minor

The minor in naval science equips graduates with hands-on experience from all facets of the Navy and Marine Corps team. Together, alongside NROTC midshipmen, students will understand the core principles of each service, master nautical skills in navigation, weapons, and engineering, and build leadership and followership skills. The minor in naval science is open to all UNC–Chapel Hill undergraduate students.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
The minor includes 14 hours of coursework selected from among the following courses:		14
NAVS 101	Introduction to Naval Science	
NAVS 201	Naval Leadership and Management	
NAVS 202	Navigation	
NAVS 202L	Navigation Laboratory	
NAVS 301	Naval Ships Engineering Systems	
NAVS 302	Naval Weapons Systems	
NAVS 311	Evolution of Warfare	
NAVS 401	Naval Operations	
NAVS 402	Naval Leadership and Ethics	
NAVS 411	Amphibious Warfare	

HIST/PWAD 212	History of Sea Power	
PHIL/POLI/PWAD 272	The Ethics of Peace, War, and Defense	
Total Hours		14

NROTC Scholarship Requirements

Navy and Marine National Scholarship students must complete the following requirements:

Code	Title	Hours
Two English courses from the following options:		6
ENGL 100	Basic Writing	
ENGL 105	English Composition and Rhetoric	
ENGL 123	Introduction to Fiction ^H	
ENGL 124	Contemporary Literature	
ENGL 125	Introduction to Poetry	
ENGL 127	Writing about Literature	
ENGL 130	Introduction to Fiction Writing	
ENGL 131	Introduction to Poetry Writing	
ENGL 138	Introduction to Creative Nonfiction ^H	
ENGL 149	Digital Composition	
ENGL 213	Grammar of Current English	
ENGL 230	Milton ^H	
ENGL 283	Life Writing ^H	
ENGL 301	Professional Writing in the Arts	
ENGL 305	Advanced Legal Communication	
ENGL 402	Investigations in Academic Writing and Writing Centers	
One course in American history or national security policy from the following options:		3
ASIA 570	The Vietnam War	
COMM 355	Terrorism and Political Violence	
HIST 128	American History since 1865	
HIST 140	The World since 1945	
HIST 242	United States-Latin American Relations	
HIST/PWAD 248	Guerrillas and Counterinsurgencies in Latin America	
HIST/PWAD 266	Global History of Warfare	
HIST 458	Europe and the World Wars, 1914-1945	
POLI 272	The Ethics of Peace, War, and Defense	
PWAD 213	Air Power and Modern Warfare	
PWAD 250	Introduction to Peace and Security Studies	
PWAD 281	The Pacific War, 1937-1945: Its Causes and Legacy	
PWAD 352	The History of Intelligence Operations	
PWAD 368	U.S. War and Society to 1920	
PWAD 369	U.S. War and Society Since 1920	
PWAD 373	The United States in World War II	

PWAD 443	American Foreign Policy: Formulation and Conduct
PWAD 444	 Terrorism and International Peace
PWAD 457	International Conflict Processes
One course in world culture and regional studies from the following options:	
AAAD 101	 Introduction to Africa
AAAD 301	Contemporary China-Africa Relations
AAAD 414	 Senegalese Society and Culture
ANTH 280	 Anthropology of War and Peace
ARAB 150	 Introduction to Arab Cultures
ASIA 131	 Southeast Asia before 1800 through Digital History
ASIA 133	 Introduction to Chinese History
ASIA 134	 Modern East Asia
ASIA 135	 History of the Indian Subcontinent to 1750
ASIA 136	 History of India, Pakistan, and Bangladesh: South Asia since 1750
ASIA 138	History of Muslim Societies to 1500
ASIA 139	 History of Muslim Societies since 1500
ASIA 150	 Asia: An Introduction
ASIA 152	 Survey of South Asian Cultural History
ASIA 180	 Islam and Muslim Life before 1500
ASIA 181	 Islam and Muslim Life since 1500
ASIA 265	Eastern Asia
ASIA 267	 South Asia
ASIA 277	 The Conflict over Israel/Palestine
ASIA 282	 China in the World
ASIA 288	 Modern Japan
ASIA 375	Memory, Massacres, and Monuments in Southeast Asia
ASIA 429	 Culture and Power in Southeast Asia
ASIA 536	Revolution in the Modern Middle East
CHIN 150	 Introduction to Chinese Civilization
GEOG 448	Transnational Geographies of Muslim Societies
HIST 130	 Modern African History
HIST 133	 Introduction to Chinese History
HIST 136	 History of India, Pakistan, and Bangladesh: South Asia since 1750
HIST 138	History of Muslim Societies to 1500
HIST 139	 History of Muslim Societies since 1500
HIST 162	 Russia under the Last Tsars and Soviet Commissars
HIST 203	 Empires and Cultures in the Modern World
HIST 260	 From Kings to Communists: East-Central Europe in the Modern Era ^H
HIST 276	 The Modern Middle East

JAPN 231	 Ancient and Medieval Japanese History and Culture
JAPN 246	 Early Modern Japanese History and Culture
JAPN 375	 The Culture of Modern, Imperial Japan, 1900-1945
KOR 150	 History, Memory, and Reality in Contemporary Korea
KOR 151	 Education and Social Changes in Contemporary Korea
POLI 130	 Introduction to Comparative Politics ^{H, F}
POLI 237	 The Politics of China
POLI 452	 Africa and International Conflict
RELI 180	 Islam and Muslim Life before 1500
RELI 181	 Islam and Muslim Life since 1500
SOCI 419	 Sociology of the Islamic World
Six hours of physics-based calculus and six hours of physics at or above MATH 231 and PHYS 118	
Total Hours	24

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Whether you are a Navy scholarship, Marine Corps scholarship, college programmer, or are pursuing a naval science minor, there is a plan for your success. Below are sample plans of study for students. All elective courses outside of the Department of Naval Science are ROTC scholarship requirements and do not count toward a naval science minor.

Navy Scholarship Plan of Study

Course	Title	Hours
First Year		
Fall Semester		
NAVS 101	Introduction to Naval Science	1
NAVS 500	Naval Science Laboratory	0
English elective		3
Hours		4

Department of Nutrition

Introduction

The Department of Nutrition is one of the top-ranked nutrition departments in the country. The curriculum offers a wide range of courses on the nutritional, epidemiological, intervention, and policy aspects of human diseases.

Advising

All majors have a primary academic advisor in the department. Undergraduate students are encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. Advisors, the program director, and the Office of Student Affairs staff work with current and prospective majors by appointment (see the "Contacts" tab at the top of this page). Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<https://sph.unc.edu/nutr/unc-nutrition/>).

nutrition@unc.edu

Nutrition Major, B.S.P.H.

The bachelor of science in public health (B.S.P.H.) program in nutrition introduces the undergraduate student to the science of nutrition in health and disease and to social and behavioral aspects of eating in the context of public and individual health. The Department of Nutrition is one of the top-ranked nutrition departments in the country. The curriculum offers a range of courses on nutritional, epidemiological, intervention, and policy aspects of human diseases.

Students may apply to one of two tracks of study:

- **Nutrition Science and Research Track** – An excellent preparation for medical and other health professional graduate programs, this track provides students in-depth exposure to the science of nutrition and metabolism while incorporating required research under the supervision of a faculty member.
- **Nutrition Health and Society Track** – Recognizing the truly interdisciplinary nature of nutrition, this track provides students an opportunity to study nutrition through the lenses of policy, sustainable food systems, and interventions. Students are required to take 18 credits (taken during the junior and senior years of the program) in a field of their choice that complement the nutrition major. The 18 credits could also be used to obtain a second major or minor in the field of their choice.*

Students who are admitted to the B.S.P.H. program in nutrition can apply for a B.S.P.H./M.S. dual degree; this program can be completed in one calendar year (summer, fall, spring) following completion of the B.S.P.H. in Nutrition program.

*Classes taken prior to admission to the nutrition major can contribute towards the second minor or major; however, 18 elective credits must still be taken during the junior and senior year of the nutrition major.

Admission (p. 500) to the program is required.

Student Learning Outcomes

Upon completion of the **nutrition program (both tracks)**, students should be able to:

- Communicate public health information, in both oral and written forms and through a variety of media, to diverse audiences.
- Locate, use, evaluate, and synthesize public health information.
- Describe health inequities, identify their root causes at multiple levels of the social ecological framework, and discuss approaches to advancing health equity.
- Describe the nutritional needs of individuals across the life cycle; the psychological, behavioral and social factors that affect food consumption and nutritional status and the programs and services available to help individuals meet their nutritional needs.
- Apply the scientific method in the areas of nutritional biochemistry, nutrition epidemiology, and intervention and policy.

Students who complete the **nutrition science and research track** should be able to:

- Demonstrate knowledge of nutritional biochemistry, the metabolism and function of nutrients, and the nutritional components of diseases through advanced courses in nutrition.

- Demonstrate mastery of concepts in nutritional biochemistry and/or in other areas of nutrition science.

Students who complete the **nutrition health and society track** should be able to:

- Explain the role of food and nutrition as an essential element of life – from cell to an individual, and to society.
- Demonstrate effective communication of nutrition information within social, multiethnic, and environmental dimensions.
- Explain roles of the individual, society, government, and business in providing accessible, healthy food supplies and promoting healthy eating.

Prerequisite Courses Required for Admission to Both Tracks:

Code	Title	Hours
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{1, H, F}	4
BIOL 252 & 252L	 Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^{1, H}	4
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{1, H, F}	4
CHEM 102 & 102L	 General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{1, H, F}	4
Total Hours		16

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Additional Prerequisite Courses for the Science and Research Track:

Code	Title	Hours
NUTR 240	Introduction to Human Nutrition ¹	3
CHEM 261	Introduction to Organic Chemistry I ^{1, H}	3
Total Hours		6

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Must receive a C (not C-) or better in all prerequisite courses.

Admission

The Gillings School of Global Public Health offers five undergraduate majors: biostatistics, community and global public health, environmental health sciences, health policy and management, and nutrition. The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Enrollment in the B.S.P.H. degree programs is limited, and students must apply for admission. Students typically apply in their

sophomore year for admission beginning in the fall of their junior year, though exceptions to this timeline may apply.

For current UNC–Chapel Hill students, additional information on application deadlines and how to apply can be found on the Public Health Undergraduate Majors (<https://sph.unc.edu/resource-pages/undergraduate-programs/>) website.

Transfer students interested in any of the B.S.P.H. degree programs must apply through the Office of Undergraduate Admissions (<https://admissions.unc.edu/apply/types-of-applications/transfer/>) using the Transfer Common application.

For high school seniors, our five majors participate in the Assured Enrollment program through Undergraduate Admissions. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina's professional schools or a spot in an accelerated undergraduate/graduate program. For additional information, please visit Undergraduate Admissions: Special Opportunities (<https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/>).

Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, the requirements described in this catalog particularly apply to students admitted to Gillings during the 2026–2027 academic year.

Requirements

The nutrition program provides two options:

- Nutrition Major, B.S.P.H.–Nutrition, Health, and Society (p. 501)
- Nutrition Major, B.S.P.H.–Nutrition Science and Research (p. 502)

Nutrition Major, B.S.P.H.–Nutrition, Health, and Society

In addition to the program requirements listed below, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Courses		
Public Health Core Courses:		
BIOS 600	Principles of Statistical Inference ¹	3
EPID 600	Principles of Epidemiology for Public Health ¹	3
SPHG 351	Foundations of Public Health ¹	3
SPHG 352	Public Health Systems and Solutions ¹	4
Other Core Courses: ²		
NUTR 175	Introduction to Food Studies: From Science to Society	3
NUTR 240	Introduction to Human Nutrition	3
NUTR 245	Sustainable Local Food Systems: Intersection of Local Foods and Public Health	3
or NUTR 250	Global Sustainable Food Systems	

NUTR 405	Fundamentals of Food and Nutrition Policy in Public Health	3
NUTR 470	Foundations of Nutrition Interventions	3
NUTR 611	Food And Your Life Stages	3
NUTR 622	Nutrition Research Seminar	1
NUTR 630	Navigating Culture, Technology, and Communication in Nutrition	3
Research and Capstone:		
NUTR 295	Undergraduate Research Experience in Nutrition ⁴	3
Additional Requirements		
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory ^{H, F}	4
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I ^{H, F}	4
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{H, F}	4
BIOL 252 & 252L	Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory ^H	4
18 hours of elective courses (e.g., 6 courses) from other fields of study ^{3,5,6}		18
Total Hours		72

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Must receive a C (not C-) or better.

² All other courses for the nutrition major, including science required courses, must receive a C (not C-) or better.

³ Possible options include coursework from minors in anthropology; coaching education; cognitive science; composition, rhetoric, and digital literacy; education; exercise and sport science; food studies; global american studies; health and society; medicine, literature and culture; neuroscience; social and economic justice. Other options may be approved by the Director of Undergraduate Studies.

⁴ May be taken multiple times during the program for credit but **must** be done in the final semester as a capstone experience. May be substituted with NUTR 691H or NUTR 692H for students completing a Senior Honors Thesis.

⁵ Students who pursue the food studies minor along with the NUTR major will use the core requirement NUTR 175 towards both programs. Students should be aware that at least 51% of credits of the degree must belong only to the food studies minor. Generally, in a 5-class minor, 1 or 2 classes can overlap with the major, depending on how many credits are in each course.

⁶ Any additional 18 hours (not including gen ed, core courses for the major, and additional requirements for the major).

Nutrition Major, B.S.P.H.–Nutrition Science and Research

In addition to the program requirements listed below, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill

For more information, please consult the degree requirements section of the catalog (p. 739).

² All other courses for the nutrition major, including science required courses, must receive a C (not C-) or better.

³ Prerequisite course required for admission to the program.

⁴ BIOL 220 (Molecular Genetics) is also recommended for students planning to apply to graduate and medical schools

⁵ May be taken multiple times during the program for credit but **must** be done in the final semester as a capstone experience. May be substituted with NUTR 691H or NUTR 692H for students completing a Senior Honors Thesis.

Dual Bachelor's–Master's Degree Program

The Department of Nutrition offers a B.S.P.H.–M.S. dual degree for students who wish to increase their knowledge in nutrition and acquire additional skills in nutrition-based research. This dual degree will be useful for students interested in becoming researchers in industry, program officers for nongovernmental and governmental organizations, project or laboratory managers in academic or nonacademic settings, international workers in nutrition-related programs, and graduate students pursuing a doctoral degree or eventually attending medical or another professional school. B.S.P.H.–M.S. students will perform advanced research in nutrition and take graduate nutrition and other courses that will provide the information and experience needed to help them choose their career path. Additionally, for those students who are uncertain about whether they wish to enter the department's doctoral program, the B.S.P.H.–M.S. program offers an excellent opportunity to determine whether a more advanced degree would be appropriate. The B.S.P.H.–M.S. degree is not specific to any of the department divisions; rather, it builds on the work (both classroom-based and research) begun in the B.S.P.H. program. In summary, the B.S.P.H.–M.S. program in nutrition allows students the opportunity to explore nutritional research at an advanced level. The program can be completed in one calendar year (summer, fall, spring) following completion of the B.S.P.H. in nutrition program.

Nutrition B.S.P.H. students interested in the dual-degree program are strongly advised to consult their research advisor and the director of undergraduate studies in nutrition during their junior year to discuss eligibility and an appropriate plan of study. For more information see the

B.S.P.H. – M.S Dual Degree Nutrition Handbook (<https://sph.unc.edu/nutr/unc-nutrition/student-life/nutr-degrees/>).

Special Opportunities in Nutrition

Honors in Nutrition

The Department of Nutrition provides an opportunity for honors study for qualified students. To be eligible for admission to the honors program students must have, at a minimum, a cumulative grade point average of 3.3 at the beginning of their senior year and must maintain the grade point average throughout the major if they intend to pursue honors. Students register for NUTR 295 (three credits) in the fall and/or spring semester of the first year and then enroll in NUTR 691H and NUTR 692H (six credits) in their final two semesters while completing an honors thesis in nutrition.

Departmental Involvement

The Nutrition Coalition (<https://heellife.unc.edu/organization/nutritioncoalition/>) meets several times each semester to address student concerns and to plan service and social activities. Open to the entire University, the coalition strives to broaden the scope of understanding of the various fields and environments in which nutrition is making advances.

Undergraduate Awards

Nutrition honors research students may apply for the honors undergraduate research awards. The application is available on the Honors Carolina (<http://honorscarolina.unc.edu>) Web site. Students also may be considered for any of the following awards: Chancellor's Awards for Excellence in Student Activities and Leadership, The Order of the Golden Fleece, The Order of the Grail-Valkyries, The Order of the Old Well, Frank Porter Graham Honor Society, Phi Beta Kappa, and the Joseph Edozien Outstanding Undergraduate Award in Nutrition.

Undergraduate Research

To enhance students' general education and help them decide whether a research career is something they might pursue, all B.S.P.H. nutrition students are required to complete nutrition research for at least one semester (final semester as capstone), either as part of the honors thesis or as independent research.

Department of Pathology and Laboratory Medicine

Introduction

Pathology is the study of disease, its causes, development, and consequences. It is concerned with basic mechanisms of disease processes (pathobiology) and their structural/functional manifestations. Pathology combines the tools and the basic knowledge from many disciplines, such as molecular biology, cell biology, biochemistry, genetics, immunology, anatomy, and clinical sciences, to clarify the cause (etiology), natural course (pathogenesis), and diagnosis of disease. The department offers several pathology courses appropriate for graduate study.

In addition to formal courses, faculty members in the Department of Pathology and Laboratory Medicine of the UNC School of Medicine maintain active research programs and engage in training predoctoral students and postdoctoral fellows in a range of research endeavors. Undergraduate students interested in participating in a hands-on research experience should contact the director of graduate studies in pathology or the specific research lab they are interested in for more information. Contact information is available on the department's website (<https://www.med.unc.edu/pathology/>).

Curriculum in Peace, War, and Defense

Introduction

While peace may be among our oldest dreams, human conflict is an enduring challenge faced by societies around the world. The Curriculum in Peace, War, and Defense (PWAD) offers students the tools to understand and analyze the complexities of conflict, security, and cooperation on a global scale. Whether you're passionate about diplomacy, strategy, or justice, the study of PWAD offers the foundation to explore the world's most pressing issues.

The PWAD Curriculum puts a premium on experiential learning, combining academic expertise and practitioner experience to offer students classes rooted in real-world security dilemmas. By providing students with this unique mix of theory and practice, the PWAD program at UNC is unlike any other undergraduate program in the country.

Advising

All majors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The curriculum's chair and director of undergraduate studies work with current and prospective majors by appointment (see contacts tab above). Further information on courses, internships, the honors program, careers, and graduate schools may be obtained from the curriculum's website (<https://pwad.unc.edu/>).

Graduate School and Career Opportunities

The study of peace, war, and defense opens doors to a wide range of impactful careers and advanced study. Many alumni pursue graduate studies in areas such as international relations, law, public policy, and history. Others step directly into meaningful work across work in federal agencies, NGOs and international organizations, state and local government, finance, media, academia, consulting, and private sector industries.

PWAD graduates are uniquely equipped with interdisciplinary insight, strong analytical skills, and global awareness—traits that are in high demand across sectors. Whatever path they choose, they carry forward a deep understanding of global conflict and cooperation and the ability to lead with perspective and purpose.

Majors

- Peace, War, and Defense Major, B.A. (p. 504)

Minors

- Conflict Management Minor (p. 509)
- Peace, War, and Defense Minor (p. 511)

Peace, War, and Defense Major, B.A.

While peace may be among our oldest dreams, human conflict is an enduring challenge faced by societies around the world. The Curriculum in Peace, War, and Defense (PWAD) offers students the tools to understand and analyze the complexities of conflict, security, and cooperation on a global scale. Whether you are passionate about diplomacy, strategy, or justice, the study of PWAD offers the foundation to explore the world's most pressing issues.

The curriculum puts a premium on experiential learning, combining academic expertise and practitioner experience to offer students classes rooted in real-world security dilemmas. By providing students with this unique mix of theory and practice, the PWAD program at UNC is unlike any other undergraduate program in the country.

A major in PWAD begins with three foundational courses that provide students with a shared intellectual framework. From there, students select a concentration that aligns with their interests—ranging from international security and intelligence to the cultural dimensions of war and peace. Alongside coursework, PWAD students benefit from hands-on experiences like field trips, guest lectures, internships, and study abroad opportunities.

The study of peace, war, and defense opens doors to a wide range of impactful careers and advanced study. Many alumni pursue graduate studies in areas such as international relations, law, public policy, and history. Others step directly into meaningful work across work in federal agencies, NGOs and international organizations, state and local government, finance, media, academia, consulting, and private sector industries.

PWAD graduates are uniquely equipped with interdisciplinary insight, strong analytical skills, and global awareness—traits that are in high

demand across sectors. Whatever path they choose, they carry forward a deep understanding of global conflict and cooperation and the ability to lead with perspective and purpose.

Student Learning Outcomes

Upon completion of the peace, war, and defense program, students should be able to:

- Express themselves effectively in written and oral communication
- Use appropriate research methodology
- Demonstrate knowledge of major concepts, theoretical perspectives, and history of peace and war
- Think critically and analytically in approaches to the concepts, perspectives, and history of peace and war
- Demonstrate knowledge of the interrelationships between the various disciplinary approaches to the study of peace and war

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Select one of the following options:		3
Through level 5 of a single modern foreign language.		
One course in statistics and data analysis: POLI 281, STOR 120, or STOR 155 ²		
Total Hours		30

¹ PWAD 89, PWAD 290, PWAD 396, PWAD 490, PWAD 680, and PWAD 690 may be applied toward the concentration requirement with the permission of the chair. Students can request that relevant courses not on this list, but offered as first-year seminars, honors seminars, or topics courses in other departments, be used to fulfill major requirements. This requires the approval of the chair.

² With the permission of the chair, students may substitute an alternative statistics-heavy methodology course. STOR 151 cannot be used to fulfill this requirement.

PWAD 89	First-Year Seminar: Special Topics	3
PWAD 290	Special Topics in Peace, War, and Defense	3
PWAD 400	Briefing for National Security	3
PWAD 490	Special Topics in Peace, War, and Defense	3
PWAD 680	Research Seminar in Peace, War, and Defense	3
PWAD 690	Seminars in Peace, War, and Defense	3
PWAD 691H	Honors in Peace, War, and Defense	3

Special Opportunities in Peace, War, and Defense

Additional information on all of these subjects, including lists of internship possibilities, can be found on the curriculum's website (<https://pwad.unc.edu/>).

Honors in Peace, War, and Defense

The honors thesis program provides PWAD majors with the opportunity to pursue an original research project under the mentorship of a faculty advisor. To be eligible to apply for the honors thesis program, students must be a PWAD major with at least a 3.3 grade point average (overall

and in the major) through their junior year. Interested students must also have taken a PWAD research seminar (e.g., PWAD 680), HIST 398, or a parallel course in another discipline providing an appropriate background in research design and that produced a significant paper (20 pages or more). Applications for the PWAD honors thesis program are due on April 30 in the spring preceding the senior year.

Students admitted to the program enroll in PWAD 691H and PWAD 692H in consecutive semesters. PWAD 691H will normally be taught as an in-class seminar with all thesis students enrolled. PWAD 692H is an independent study course with a student's thesis advisor. Upon successful completion of the program, which includes an oral defense of the thesis, students are awarded a degree with honors or with highest honors in peace, war, and defense.

Internships

Internship courses provide PWAD majors with the opportunity to earn academic credit while obtaining practical work experience. To receive credit, the work or mission of the organization or institution sponsoring the internship must be meaningfully connected to the problems of peace, war, or defense. The internship must involve at least 100 hours of work that is primarily directed toward the substantive mission of the organization.

Before the start of the internship, students must sign an internship contract with their agency and faculty supervisor, setting out expectations and course requirements. Once approved for an internship, students will be enrolled in PWAD 393, which is offered on a Pass/Fail basis only and does not count toward the nine courses required for the major. Interns are required to keep a daily internship journal, and some form of on-site supervisor evaluation of the intern must be received for credit to be granted.

Note that it is entirely the student's responsibility to find and secure an internship. PWAD does not serve as a placement service for students wishing to pursue internships. Students can consult with University Career Services (<http://careers.unc.edu/students/internship-search/>) for more information and help with obtaining internships.

Study Abroad

The curriculum encourages all undergraduates to study abroad either for a week-long sponsored exchange, summer, semester, or entire year. Students should consult the study abroad (<http://studyabroad.unc.edu>) website and meet with a study abroad advisor as early as possible to discuss the best options for their educational goals.

Students can receive PWAD major credit for relevant coursework taken while studying abroad. Students are encouraged to review the study abroad (<http://studyabroad.unc.edu>) website to learn more about the processes for receiving UNC credit for study abroad courses, as well as a list of pre-approved PWAD courses (<https://studyabroad.unc.edu/earning-credit-from-spring-2021-forward/>) at universities around the world.

Undergraduate Research

Students who qualify are encouraged to experience original research by writing a senior honors thesis described in the honors section above.

Conflict Management Minor

The study of conflict management is the study of human behavior during disputes, including the causes of conflict, techniques for dealing with disputes, and strategies for achieving a resolution that satisfy one's interests and preserve relationships. People often assume that these skills are acquired during a lifetime by simply experiencing conflict, but that is not necessarily the case. We can spend our entire lives moving from one conflict to another — at home, at school, or at work — simply repeating the same ineffective responses without realizing opportunities for, and methods to achieve, successful outcomes.

The minor in conflict management aspires to provide students with a theoretical framework, habits of mind and tangible skills, in areas such as negotiation, mediation, voice training, language, ethics, psychology, and neuroscience, among other fields. In addition, the minor aims to provide a better understanding of the world we live in and the conflicts that surround us by studying domestic and international conflicts, both past and current. The minor's goal is to allow students to become better conflict managers and thus better citizens of the world.

The minor is open to all undergraduate students.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

RELI 233	 Religion and Violence

Total Hours **15**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ BUSI 470, BUSI 545 and BUSI 555 are 1.5 credit hour courses. Students who choose two of these courses (for a total of 3 hours) will need to select two additional courses (for a total of 9 hours) to fulfill this requirement. Conflict management minors will not receive priority registration for these courses. Minors will need to apply for these courses by completing the "Non-major Request Form."

² PSYC 101 is a required prerequisite. Some PSYC courses may have additional prerequisites (see course description).

³ Students may select only one PHIL course from the list.

⁴ Registration priority will be given to education majors and minors. Conflict management students can register after School of Education majors and minors.

⁵ Registration priority will be given to exercise and sport science majors and minors. Conflict management students can register after exercise and sport science majors and minors.

⁶ Students may select only one COMM course from the list.

See the program page here (p. 508) for special opportunities.

Peace, War, and Defense Minor Overview

While peace may be among our oldest dreams, human conflict is an enduring challenge faced by societies around the world. The Curriculum in Peace, War, and Defense (PWAD) offers students the tools to understand and analyze the complexities of conflict, security, and cooperation on a global scale. Whether you're passionate about diplomacy, strategy, or justice, the study of PWAD offers the foundation to explore the world's most pressing issues.

The PWAD Curriculum puts a premium on experiential learning, combining academic expertise and practitioner experience to offer students classes rooted in real-world security dilemmas. By providing students with this unique mix of theory and practice, the PWAD program at UNC is unlike any other undergraduate program in the country.

A minor in PWAD begins with three foundational courses that provide students with a shared intellectual framework. From there, students select elective courses that aligns with their interests—ranging from international security and intelligence to the cultural dimensions of war and peace. Alongside coursework, PWAD students benefit from hands-on experiences like field trips, guest lectures, internships, and study abroad opportunities.

The study of peace, war, and defense opens doors to a wide range of impactful careers and advanced study. Many alumni pursue graduate studies in areas such as international relations, law, public policy, and history. Others step directly into meaningful work across work in federal agencies, NGOs and international organizations, state and local government, finance, media, academia, consulting, and private sector industries.

PWAD graduates are uniquely equipped with interdisciplinary insight, strong analytical skills, and global awareness—traits that are in high demand across sectors. Whatever path they choose, they carry forward a deep understanding of global conflict and cooperation and the ability to lead with perspective and purpose.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC—Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
PWAD 250	 Introduction to Peace and Security Studies	3

Department of Philosophy

Introduction

The principal goal of the study of philosophy is to enable students to think more clearly, deeply, and appreciatively about themselves and their world. Study of philosophy enhances analytical, critical, and interpretive capacities that are applicable to any subject matter in almost any context. It provides many opportunities for expressing oneself, for reflecting on questions that human beings have pondered for millennia, for exchanging reasoned beliefs and engaging in focused debate, and for learning how to come to terms with problems for which there are no easy answers. A good philosophical education also helps to prepare students for responsible and intelligent participation in political and community affairs.

The most important outcome of philosophical study is the ability to engage in thinking that is at once disciplined and imaginatively creative. While such thinking lies at the heart of the philosophical enterprise, it is also needed for success in any complex intellectual or practical endeavor. Philosophy's attention to critical thought, rigorous argument, and articulate expression makes the philosophical curriculum absolutely central to a liberal education and valuable as a basis for further training in a variety of pursuits.

Examples of philosophical questions are:

- How should we understand truth, existence, validity, fact, value, and free will?
- What are the principles or presuppositions of science, language, political systems, and religious and moral views?
- What is the nature of a person, of space and time, of a work of art?
- What is the wisdom of the past on these enduring questions? How do Western traditions differ from Eastern ones on these questions? And how do these historical approaches relate to our own, contemporary ones?

Students are encouraged to view philosophy not as a specialized, esoteric discipline, but instead as an activity integral to a liberal arts education, helping students to think more cogently and appreciatively about themselves and their world.

PHIL 101, PHIL 110, or PHIL 112 is recommended as a first course for those interested in philosophical issues and their cultural significance and for those who wish to examine a broad range of philosophical topics, problems, or historical figures. Other good starting points are PHIL 155, which deals with logic and the analysis of argument; PHIL 160, which deals with moral thought and experience; and PHIL 150, which deals with the concepts, methods, and foundations of the biological and physical sciences.

PHIL 155 is recommended for all students who major or minor in philosophy.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors by appointment (see contact information above). Departmental academic advising is particularly important for those majors who are

considering going on to graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<https://philosophy.unc.edu/>). A brief video with information about the philosophy major is available here (<https://philosophy.unc.edu/undergraduate/the-major/why-major-in-philosophy/>).

Graduate School and Career Opportunities

A major in philosophy offers excellent preparation for many careers in which clear thinking and analytical ability are valued. Some majors choose to pursue graduate work in philosophy in preparation for college or university teaching (Ph.D. normally required), but the philosophy major also provides the form of rigorous and systematic intellectual training that is of crucial importance in law, medicine, business, and other fields.

Major

- Ph.D. in Philosophy (<https://catalog.unc.edu/graduate/schools-departments/philosophy/>)

Courses

- Philosophy (PHIL) (<https://catalog.unc.edu/courses/phil/>)

Following the faculty member's name is a section number that students should use when registering for independent studies, reading, research, and honors thesis courses with that particular professor.

Distinguished Professors

Thomas Hofweber (42), Metaphysics, Philosophy of Language, Epistemology, Philosophy of Mathematics, Artificial Intelligence
C. D. C. Reeve (39), Ancient Philosophy, Metaphysics, Moral Psychology, Ethics
Geoffrey Sayre-McCord (25), Moral Theory, Metaethics, Epistemology, History of Modern Philosophy

Professors

Luc Bovens (52), Philosophy and Public Policy, Rationality, Moral Psychology, Formal Epistemology
Thomas Dougherty (55), Ethics, Political Philosophy
Markus Kohl (51), History of Modern Philosophy, History of Ancient Philosophy, Moral Psychology, Existentialism
Matthew Kotzen (46), Epistemology, Philosophy of Science, Philosophy of Law
Mariska Leunissen (41), Ancient Philosophy, Philosophy of Science
Ram Neta (43), Epistemology, Philosophy of Mind
James Pryor (57), Epistemology, Philosophy of Language, Logic, Philosophy of Mind, Philosophy of Action, Metaphysics
John T. Roberts (37), Philosophy of Science, Philosophy of Physics, Metaphysics

Sarah Stroud (54), Moral Theory, Moral Psychology, Metaethics, Philosophy of Action
Rebecca Walker (53), Bioethics, Ethical Theory
Alexander Worsnip (50), Epistemology, Metaethics, Theory of Rationality

Associate Professors

Jessica Keiser (62), Philosophy of Language, Social and Political Philosophy
Patricia Marechal (63), Ancient Philosophy

Assistant Professors

Rosalind Chaplin (59), History of Modern Philosophy, Moral Psychology
Pietro Cibinel (66), Moral Philosophy, Decision Theory, Epistemology
Daniel Herrmann (64), Philosophy of AI, Game and Decision Theory, Formal and Social Epistemology, Philosophy of Science
Harry Lloyd (65), Moral and Political Philosophy, Applied Ethics, AI
Andrew Rubner (67), Philosophy of Cognitive Science, Philosophy of Mind
Margaret Shea (61), Ethics, Metaethics, Moral Psychology, Aesthetics

Professor of the Practice

John Bare (19), Philanthropy and Imagined Futures, Risk Management, Philanthropic Systems

Teaching Assistant Professors

Zoe Ashton (17), Philosophy of Mathematics, Philosophy of AI and Data, Epistemology, Philosophy of Science
Gabriel Broughton (16), Ethics, Metaethics, Political Philosophy, Philosophy of Law
William Conner (14), Epistemology, Philosophy of Mind, Social and Political Philosophy
Katie Deaven (12), Epistemology, Metaphysics, Philosophy of Science
Paul Garofalo (13), Political Philosophy, Early Modern Philosophy, Moral Philosophy, Social Philosophy
Rory Hanlon (15), Ancient Philosophy, Philosophy of Mind
Adam Hollowell (18), Applied Ethics, Moral Philosophy, Social Inequality, Philosophy and Public Policy
Joseph Ross (20), History of Human Rights, History of Philosophy, Legal and Political Philosophy
Michael Vazquez (10), Ancient Philosophy, Ethics, Philosophy of Education

Professors Emeriti

Bernard Boxill
 Thomas E. Hill Jr.
 William G. Lycan
 Douglas MacLean
 Stanley Munsat
 Alan Nelson
 Gerald J. Postema
 Michael D. Resnik

Philosophy Major, B.A.

The principal goal of the study of philosophy is to enable students to think more clearly, deeply, and appreciatively about themselves and their world. Study of philosophy enhances analytical, critical, and interpretive capacities that are applicable to any subject matter in almost any context. It provides many opportunities for expressing oneself, for reflecting on questions that human beings have pondered for millennia, for exchanging reasoned beliefs and engaging in focused debate, and for learning how to come to terms with problems for which there are no easy answers. A good philosophical education also helps to prepare students for responsible and intelligent participation in political and community affairs. A brief video with information about the philosophy major is available here (<https://philosophy.unc.edu/undergraduate/the-major/why-major-in-philosophy/>).

Student Learning Outcomes

Upon completion of the philosophy program, students should be able to:

- Deploy philosophical concepts and terminology correctly, in either a historical or contemporary setting
- Represent clearly and accurately the views or argument of a particular philosopher, in either a historical or contemporary setting
- Identify the premises and conclusion(s) of a philosophical argument and assess both its validity and soundness
- Apply a philosophical theory or argument to a new topic, and to draw and defend reasonable conclusions about that topic
- Develop an argument for a particular solution to a philosophical problem in either a historical or contemporary setting

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core requirements		
A major in philosophy requires nine philosophy courses. No more than three of the nine may be numbered 199 and below. The nine courses must include at least one course in three of the following four distribution areas:		27
History of philosophy		

Courses above 100 with a second digit of one or two (e.g., PHIL 110, PHIL 210, PHIL 220)	
Metaphysics, epistemology, philosophy of mind, and philosophy of language	
Courses above 100 with a second digit of three or four (e.g., PHIL 134, PHIL 230, PHIL 340)	
Logic and philosophy of science	
Courses above 100 with a second digit of five (e.g., PHIL 150, PHIL 155, PHIL 355)	
Value theory	
Courses above 100 with a second digit of six, seven, or eight (e.g., PHIL 160, PHIL 275, PHIL 381)	
Total Hours	27

Philosophy (PHIL) course descriptions (p.).

PHIL 155 (<http://catalog.unc.edu/search/?search=PHIL+155>) is recommended for all students who major or minor in philosophy.

Please note that First Year Seminars (<http://fys.unc.edu/>) (all numbered below 100) and courses with a second digit of nine (PHIL 390 (<http://catalog.unc.edu/search/?search=PHIL+390>), PHIL 691H (<http://catalog.unc.edu/search/?search=PHIL+691H>), PHIL 692H (<http://catalog.unc.edu/search/?search=PHIL+692H>), etc.) automatically count toward the major core as electives. However, with approval of the department's director of undergraduate studies, PHIL 390 (<http://catalog.unc.edu/search/?search=PHIL+390>) may count toward one of the four distribution areas.

Within the framework of the major, students may elect to take philosophy courses geared toward prelaw. Inquiries about prelaw advising may be sent to the department's director of undergraduate studies. Although we are not in a position to offer law career (including career prep) or LSAT advice, the director of undergraduate studies is available to provide academic advising and discuss prelaw course information. Further details may be found on the Department of Philosophy's Web site (<https://philosophy.unc.edu/undergraduate/advising/pre-law/>).

Special opportunities in philosophy include, but are not limited to, the Philosophy Outreach Program (<https://philosophy.unc.edu/outreach/>), the Leshner Opportunity Fund (<https://philosophy.unc.edu/undergraduate/lesher-opportunity-fund/>), Take a Philosopher to Lunch (<https://philosophy.unc.edu/undergraduate/take-a-philosopher-to-lunch/>), Intercollegiate Ethics Bowl (<https://parrcenter.unc.edu/ieb/>), and an active Speaker Series (<https://philosophy.unc.edu/events/category/departments-talk/>). See the Department of Philosophy's website (<https://philosophy.unc.edu/>) for details.

Philosophy Minor

The principal goal of the study of philosophy is to enable students to think more clearly, deeply, and appreciatively about themselves and their world. Study of philosophy enhances analytical, critical, and interpretive capacities that are applicable to any subject matter in almost any context. It provides many opportunities for expressing oneself, for reflecting on questions that human beings have pondered for millennia, for exchanging reasoned beliefs and engaging in focused debate, and for learning how to come to terms with problems for which there are no easy answers. A good philosophical education also helps to prepare students for responsible and intelligent participation in political and community affairs. A brief video with information about the philosophy minor is available here (<https://philosophy.unc.edu/undergraduate/the-major/why-major-in-philosophy/>).

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
A minor in philosophy requires five philosophy courses. No more than three of the five may be numbered 199 and below. The five courses must include at least one course in three of the following four distribution areas:		15
History of philosophy		
Courses above 100 with a second digit of one or two (e.g., PHIL 110, PHIL 210, PHIL 220)		
Metaphysics, epistemology, philosophy of mind, and philosophy of language		

Courses above 100 with a second digit of 3 or 4 (e.g., PHIL 134, PHIL 230, PHIL 340)

Logic and philosophy of science

Courses above 100 with a second digit of five (e.g., PHIL 150, PHIL 155, PHIL 355)

Value theory

Courses above 100 with a second digit of six, seven, or eight (e.g., PHIL 160, PHIL 275, PHIL 381)

Total Hours 15

Philosophy (PHIL) course descriptions (p.).

PHIL 155 is recommended for all students who major or minor in philosophy.

Please note that First Year Seminars (<http://fys.unc.edu/>) (all numbered below 100) and courses with a second digit of nine (PHIL 390, for example) automatically count toward the minor core as electives. However, with approval of the department's director of undergraduate studies, PHIL 390 may count toward one of the four distribution areas.

Within the framework of the minor, students may elect to take philosophy courses geared toward prelaw. Inquiries about prelaw advising may be sent to the department's director of undergraduate studies. Although we are not in a position to offer law career (including career prep) or LSAT advice, the director of undergraduate studies is available to provide academic advising and discuss prelaw course information. Further details may be found on the Department of Philosophy's website.

See the program page here (p. 516) for special opportunities.

Philosophy, Politics, and Economics (PPE) Minor

Social and political institutions have a profound impact on our lives. Understanding how they work, appreciating their interactions, seeing their impact, and being able to assess their value are all crucial to understanding the world in which we live. With this in mind, the philosophy, politics, and economics (PPE) minor trains students to look beyond the borders of academic disciplines by offering them an integrated study of these fields.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The PPE minor requires five courses:

Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Please note that, although it is not listed above in the political science course section, HNRS 354 (Elements of Politics) may count toward the

politics core discipline of the PPE minor. A Tar Heel Tracker adjustment is required.

Detailed information is available on the program's website (<http://ppe.unc.edu>).

The Philosophy, Politics, and Economics (PPE) program offers extensive extracurricular programming, including an active speakers series, intensive weekend seminars, and semester-long reading groups that meet once a week for eight weeks over dinner. See the PPE program website (<https://ppe.unc.edu/>) for details.

Department of Physics and Astronomy

Introduction

Everything around you is influenced or governed by physics. Physics seeks to understand the fundamental workings of the universe, from the smallest particles like neutrinos to the vast structure of the cosmos. It unveils the underlying principles governing the world around us and serves as the cornerstone of all natural sciences, including chemistry, biology, oceanography, and geography.

The Department of Physics and Astronomy offers a range of degree tracks tailored to various interests and career paths:

- B.A. Tracks
 - Physics
 - Astronomy
 - Computational Physics
 - Energy
 - Engineering Physics
 - Medical and Biological Physics
 - Quantitative Finance
- B.S. Tracks
 - Physics
 - Astrophysics

These tracks align with diverse employment opportunities (<https://www.aps.org/careers/physicists/prospects.cfm>) for physics graduates, spanning high schools, government laboratories, financial institutions, medical facilities, data science, and high-tech industries.

Upon graduation, approximately 50 percent of physics bachelors transition directly into the workforce, while others pursue advanced degrees in physics, medical physics, business, law, or computer science.

Opt for a B.A. degree if you seek to blend your passion for physics with complementary disciplines such as computer science, environmental science, biophysics, medicine, engineering, or finance.

Consider a B.S. degree if you intend to pursue graduate study in physics, astronomy, or a related field, or a career practicing physics.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>). Students are encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies and faculty advisors work with current and prospective majors by appointment (see contacts tab above). Faculty advisors are assigned to all physics majors and minors, and they assist students in a variety of physics related areas, including physics course planning, undergraduate research opportunities, the honors program, internships, career opportunities, and graduate school and fellowship applications. Physics majors are required to meet with their departmental advisor by appointment prior to registering for any semester beyond the fourth term in residence. Further information may be obtained from the department's website under the Undergraduate Program (<https://physics.unc.edu/undergrad/>).

Graduate School and Career Opportunities

Employers know that physicists understand how to think and reason effectively about the world, which equips them to solve unconventional challenging problems. Over 90 percent of physics majors do something other than teach or conduct research at a university. Physics will prepare you to pursue anything from medicine to energy to business. The American Institute of Physics' Career Resources (<http://aip.org/career-resources/>) site and our Department site (<https://physics.unc.edu/career-info/>) provides useful information about the different career paths of physics bachelor's degree recipients, including who is hiring them (<https://www.aip.org/statistics/whos-hiring-physics-bachelors/>).

Common job titles for our physics bachelor's degree recipients include:

- Applications Engineer
- Data Analyst
- Analyst
- Data Scientist
- Staff Engineer
- System Engineer
- Software Engineer
- Design Engineer
- High School Physics Teacher
- IT Consultant
- Lab Technician
- Research Associate
- Systems Analyst
- IT Analyst

Those who are considering going on to graduate school in physics, astronomy, and other physical science and engineering fields, should contact one of the physics advisors. Those who plan careers in health sciences, including dentistry, medicine, and veterinary medicine, should consult advisors in the Health Professions Advising Office in Hanes Hall.

Majors

- Physics Major, B.A (p. 520).
 - Physics
 - Astronomy
 - Computational Physics
 - Energy
 - Engineering Physics
 - Medical and Biological Physics
 - Quantitative Finance
- Physics Major, B.S. (p. 531)
 - Physics
 - Astrophysics

Minors

- Astronomy Minor (p. 536)
- Physics Minor (p. 537)

Graduate Programs

- M.S. in Physics (<https://catalog.unc.edu/graduate/schools-departments/physics-astronomy/>)

- Ph.D. in Physics (<https://catalog.unc.edu/graduate/schools-departments/physics-astronomy/>)

Courses

- Astronomy (ASTR) (<https://catalog.unc.edu/courses/astr/>)
- Physics (PHYS) (<https://catalog.unc.edu/courses/phys/>)

Professors

Rosa Tamara Branca, James Christopher Clemens, Louise A. Dolan, Joaquin Emiliano Drut, Jonathan H. Engel, Adrienne Lynn Erickcek, Charles R. Evans, Fabian Heitsch, Reyco Henning, Christian G. Iliadis, Amy Lynn Josefsberg, Dmitri V. Khveshchenko, Nicholas M. Law, Rene Lopez, Jianping Lu, Laura Mersini-Houghton, Daniel E. Reichart, Frank Tsui, John Franklin Wilkerson, Yue Wu, Otto Z. Zhou.

Associate Professors

Akaa Daniel Ayangeakaa, Brad Barlow, Gökçe Başar, Julieta Gruszko, Andrew W. Mann, Amy Nicole Nicholson, Wei Zhang.

Assistant Professors

Igor Andreoni, Carl Louis Rodriguez, Mengen Wang.

Research Professor

Arthur E. Champagne, Robert Victor Janssens.

Research Associate Professor

Christina Redmon Inscoc, Yue Qiu.

Teaching Professor

Duane L. Deardorff.

Teaching Associate Professors

Colin Wallace, Jennifer Weinberg-Wolf.

Teaching Assistant Professor

Alia Hamdan, John Hansen, Muxin Zhang.

Adjunct Professors

Gerald N. Cecil, Steven Mark Christensen, Brand Fortner, Yosuke Kanai, Alfred Kleinhammes, Laurie E. McNeil, David Clarke Radford, John Michael Shull, Gregory Clayton Sloan, Rachel Lofsky Smith, Jie Tang.

Adjunct Associate Professors

Rafael Da Silva De Souza, Stefan Jeglinski, David Hill, Yueh Lee, Thomas Osburn.

Professors Emeriti

Charles V. Briscoe, Bruce Carney, Gerald N. Cecil, Wayne Christiansen, Thomas Clegg, Kian S. Dy, John P. Hernandez, Robert Victor Janssens, Sheila Kannappan, Hugon J. Karwowski, Laurie E. McNeil, Yee Jack Ng, Nalin Parikh, Lu-Chang Qin, James A. Rose, William J. Thompson, Sean Washburn.

Physics Major, B.A.

Everything around you is influenced or governed by physics. Physics seeks to understand the fundamental workings of the universe, from the smallest particles like neutrinos to the vast structure of the cosmos. It unveils the underlying principles governing the world around us and serves as the cornerstone of all natural sciences, including chemistry, biology, oceanography, and geography.

The Department of Physics and Astronomy offers a range of degree tracks tailored to various interests and career paths:

- B.A. Tracks
 - Physics
 - Astronomy
 - Computational Physics
 - Energy
 - Engineering Physics
 - Medical and Biological Physics
 - Quantitative Finance
- B.S. Tracks
 - Physics
 - Astrophysics

These tracks align with diverse employment opportunities (<https://www.aps.org/careers/physicists/prospects.cfm>) for physics graduates, spanning high schools, government laboratories, financial institutions, medical facilities, data science, and high-tech industries.

Upon graduation, approximately 50 percent of physics bachelors transition directly into the workforce, while others pursue advanced degrees in physics, medical physics, business, law, or computer science.

Opt for a B.A. degree if you seek to blend your passion for physics with complementary disciplines such as computer science, environmental science, biophysics, medicine, engineering, or finance.

Consider a B.S. degree if you intend to pursue graduate study in physics, astronomy, or a related field, or a career practicing physics.

Due to restrictions on course sharing, students are **not** allowed to complete both the major in physics and the minor in astronomy or to complete minors in both physics and astronomy.

Student Learning Outcomes

Upon completion of the physics program, students should be able to:

- Demonstrate knowledge of major concepts, theoretical reasoning, and empirical findings in physics and/or astronomy – Knowledge Base in Physics
- Use physics and mathematics knowledge to solve problems – Critical Thinking and Problem Solving
- Effectively conduct research under faculty guidance – Research and Advancement of Physics and Astronomy
- Gain entry to top graduate programs, employment as physicists in industry, teaching positions in high school physics and astronomy, or leverage their skills in other rewarding careers.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Physics Major, B.A. – Standard Option

Code	Title	Hours
Core Requirements		
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{H, F}	4
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta ^{H, F}	4
PHYS 281L	 Experimental Techniques in Physics	3
PHYS 331	Numerical Techniques for the Sciences I	4
PHYS 201 or PHYS 401	Basic Mechanics ² Mechanics I	3
PHYS 211 or PHYS 412	Intermediate Electromagnetism ¹ Electromagnetism II	3
PHYS 421	Introduction to Quantum Mechanics ²	3
Nine additional credits chosen from ASTR (202 or numbered above 300) and PHYS (numbered above 200) ³		9
Additional Requirements		
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 233	 Calculus of Functions of Several Variables ^H	4
MATH 383	First Course in Differential Equations ^H	3
CHEM 101	 General Descriptive Chemistry I ^{H, F}	3
CHEM 101L	 Quantitative Chemistry Laboratory I	1
Total Hours		52

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Fall course.

² Spring course.

³ Mentored research courses (PHYS 295, PHYS 395, and PHYS 293) may only fulfill a maximum of 3 credit hours towards this requirement.

Due to restrictions on course sharing, students are not allowed to complete both the major in Physics and the minor in Astronomy or to complete minors in both Physics and Astronomy.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Special Opportunities in Physics and Astronomy**Honors in Physics and Astronomy**

The honors program offers exceptionally well-qualified students an opportunity to perform original research with a faculty member and graduate with honors or highest honors. It requires an overall grade point average of at least 3.3 and a grade point average of at least 3.4 for physics courses at the end of the junior year.

Students who wish to enter the honors program should consult with the departmental coordinator (<http://physics.unc.edu/undergraduate->

program/undergraduate-research/) for the program no later than the preregistration period in the spring semester of their junior year.

Undergraduate Research

More than half of our B.A. majors, alongside all B.S. majors, engage in at least one semester of research under the guidance of a faculty member. Many students find the experience so rewarding that they choose to continue for several semesters. PHYS 482L Advanced Laboratory II or PHYS 395 Research with Faculty Mentor II is a required course for all of our B.S. majors. In addition to PHYS 395, students have the option to enroll in PHYS 295 Research with Faculty Mentor I as many times as desired. These courses provide students with the opportunity to participate in cutting-edge research and acquire hands-on experience with various experimental tools and techniques, which can significantly enhance their resumes. Students may also earn course credit while pursuing internship opportunities in a physics-related industry by enrolling in PHYS 293. An approved learning contract is required prior to registering for PHYS 295, PHYS 395, and PHYS 293. Learning contracts and registration must be completed within the first week of classes.

Departmental Involvement

Within our department, two student-led organizations have their dedicated physical spaces. Both of these student organizations organize events throughout the year aimed at fostering social interaction within our student body, as well as facilitating connections between students and faculty.

The Society of Physics Students (<https://hellife.unc.edu/organization/society-of-physics-students/>) is open to anyone interested in physics and is meant to build connections between undergraduates, graduate students, faculty, and alumni. Each year the society invites visitors to give talks and sponsors a number of events for students.

The Visibility in Physics (<https://physics.unc.edu/undergraduate/student-organizations/visibility-in-physics/>) is a student organization that aims to provide resources, advice, and a welcoming and encouraging social atmosphere for underrepresented minorities and allies in the field of physics.

Department Awards

The Physics and Astronomy department grants two annual awards to acknowledge academic excellence: the Shearin Award, for the most outstanding senior, and the Johnson Award, for the most outstanding junior. In addition, the Robert Sheldon Award for Undergraduate Research is presented to the student who demonstrates the most remarkable research accomplishments in the major.

Department Advising Program

Within the Physics and Astronomy Department, all majors, alongside their primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>), are assigned a department advisor. A list of department advisors can be found on the Physics Department Undergraduate webpage (<https://physics.unc.edu/undergrad/>).

These advisors, who are faculty members of the Physics and Astronomy Department, provide guidance to students on physics course planning, facilitate undergraduate research opportunities, offer support through the honors program, assist with internships, explore career prospects, and provide guidance with graduate school and fellowship applications.

All physics majors are required to meet with their department advisor by appointment prior to registering for any semester beyond the fourth term

in residence. Further information may be obtained from the department's website under the Undergraduate Program (<https://physics.unc.edu/undergrad/>).

If you are interested in physics or astronomy and you are considering majoring in this field, you should contact one of our department advisors.

Physics Major, B.S.

Everything around you is influenced or governed by physics. Physics seeks to understand the fundamental workings of the universe, from the smallest particles like neutrinos to the vast structure of the cosmos. It unveils the underlying principles governing the world around us and serves as the cornerstone of all natural sciences, including chemistry, biology, oceanography, and geography.

The Department of Physics and Astronomy offers a range of degree tracks tailored to various interests and career paths:

- B.A. Tracks
 - Physics
 - Astronomy
 - Computational Physics
 - Energy
 - Engineering Physics
 - Medical and Biological Physics
 - Quantitative Finance
- B.S. Tracks
 - Physics
 - Astrophysics

These tracks align with diverse employment opportunities (<https://www.aps.org/careers/physicists/prospects.cfm>) for physics graduates, spanning high schools, government laboratories, financial institutions, medical facilities, data science, and high-tech industries.

Upon graduation, approximately 50 percent of physics bachelors transition directly into the workforce, while others pursue advanced degrees in physics, medical physics, business, law, or computer science.

Opt for a B.A. degree if you seek to blend your passion for physics with complementary disciplines such as computer science, environmental science, biophysics, medicine, engineering, or finance.

Consider a B.S. degree if you intend to pursue graduate study in physics, astronomy, or a related field, or a career practicing physics.

Due to restrictions on course sharing, students are **not** allowed to complete both the major in physics and the minor in astronomy or to complete minors in both physics and astronomy.

Student Learning Outcomes

Upon completion of the physics program, students should be able to:

- Demonstrate knowledge of major concepts, theoretical reasoning, and empirical findings in physics and/or astronomy — Knowledge Base in Physics
- Use physics and mathematics knowledge to solve problems — Critical Thinking and Problem Solving
- Effectively conduct research under faculty guidance — Research and Advancement of Physics and Astronomy
- Gain entry to top graduate programs, employment as physicists in industry, teaching positions in high school physics and astronomy, or leverage their skills in other rewarding careers.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Physics Major, B.S.—Standard Option

Code	Title	Hours

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Fall course.
² Spring course.

Due to restrictions on course sharing, students are not allowed to complete both the major in Physics and the minor in Astronomy or to complete minors in both Physics and Astronomy.

Astronomy (ASTR) and Physics (PHYS) course descriptions (p.).

Most students will find it advantageous to defer some of the General Education requirements to the junior and/or senior year(s).

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

PHYS 421	Introduction to Quantum Mechanics	3

PHYS 395	 Research with Faculty Mentor II ²	3

Hours		9

Senior Year**Fall Semester**

PHYS 441	Thermal Physics	3

PHYS 521	Applications of Quantum Mechanics	3

One elective course ¹		3

Hours		9

Spring Semester

PHYS 481L	 Advanced Laboratory I	2

One elective course ¹		3

Hours		5

Total Hours		79

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Courses may be chosen from ASTR (numbered above 300), MATH 528, MATH 529, PHYS 231, PHYS (numbered above 300).

² Students who complete a senior honors thesis (PHYS 691H and PHYS 692H) may use PHYS 692H to fulfill the PHYS 395 requirement in the major.

Sample II (for students placed into MATH 232)

Special Opportunities in Physics and Astronomy

Honors in Physics and Astronomy

The honors program offers exceptionally well-qualified students an opportunity to perform original research with a faculty member and graduate with honors or highest honors. It requires an overall grade point average of at least 3.3 and a grade point average of at least 3.4 for physics courses at the end of the junior year.

Students who wish to enter the honors program should consult with the departmental coordinator (<http://physics.unc.edu/undergraduate-program/undergraduate-research/>) for the program no later than the preregistration period in the spring semester of their junior year.

Undergraduate Research

More than half of our B.A. majors, alongside all B.S. majors, engage in at least one semester of research under the guidance of a faculty member. Many students find the experience so rewarding that they choose to continue for several semesters. PHYS 482L Advanced Laboratory II or PHYS 395 Research with Faculty Mentor II is a required course for all of our B.S. majors. In addition to PHYS 395, students have the option to enroll in PHYS 295 Research with Faculty Mentor I as many times as desired. These courses provide students with the opportunity to participate in cutting-edge research and acquire hands-on experience with various experimental tools and techniques, which can significantly enhance their resumes. Students may also earn course credit while pursuing internship opportunities in a physics-related industry by enrolling in PHYS 293. An approved learning contract is required prior to registering for PHYS 295, PHYS 395, and PHYS 293. Learning contracts and registration must be completed within the first week of classes.

Departmental Involvement

Within our department, two student-led organizations have their dedicated physical spaces. Both of these student organizations organize events throughout the year aimed at fostering social interaction within our student body, as well as facilitating connections between students and faculty.

The Society of Physics Students (<https://hellife.unc.edu/organization/society-of-physics-students/>) is open to anyone interested in physics and is meant to build connections between undergraduates, graduate students, faculty, and alumni. Each year the society invites visitors to give talks and sponsors a number of events for students.

The Visibility in Physics (<https://physics.unc.edu/undergraduate/student-organizations/visibility-in-physics/>) is a student organization that aims to provide resources, advice, and a welcoming and encouraging social atmosphere for underrepresented minorities and allies in the field of physics.

Department Awards

The Physics and Astronomy department grants two annual awards to acknowledge academic excellence: the Shearin Award, for the most

outstanding senior, and the Johnson Award, for the most outstanding junior. In addition, the Robert Sheldon Award for Undergraduate Research is presented to the student who demonstrates the most remarkable research accomplishments in the major.

Department Advising Program

Within the Physics and Astronomy Department, all majors, alongside their primary academic advisor from the Academic Advising Program (<https://advising.unc.edu/>), are assigned a department advisor. A list of department advisors can be found on the Physics Department Undergraduate webpage (<https://physics.unc.edu/undergrad/>).

These advisors, who are faculty members of the Physics and Astronomy Department, provide guidance to students on physics course planning, facilitate undergraduate research opportunities, offer support through the honors program, assist with internships, explore career prospects, and provide guidance with graduate school and fellowship applications.

All physics majors are required to meet with their department advisor by appointment prior to registering for any semester beyond the fourth term in residence. Further information may be obtained from the department's website under the Undergraduate Program (<https://physics.unc.edu/undergrad/>).

If you are interested in physics or astronomy and you are considering majoring in this field, you should contact one of our department advisors.

Astronomy Minor

Everything around you is influenced or governed by physics. Physics seeks to understand the fundamental workings of the universe, from the smallest particles like neutrinos to the vast structure of the cosmos. It unveils the underlying principles governing the world around us and serves as the cornerstone of all natural sciences, including chemistry, biology, oceanography, and geography.

The Department of Physics and Astronomy offers a range of degree tracks tailored to various interests and career paths:

- B.A. Tracks
 - Physics
 - Astronomy
 - Computational Physics
 - Energy
 - Engineering Physics
 - Medical and Biological Physics
 - Quantitative Finance
- B.S. Tracks
 - Physics
 - Astrophysics

These tracks align with diverse employment opportunities (<https://www.aps.org/careers/physicists/prospects.cfm>) for physics graduates, spanning high schools, government laboratories, financial institutions, medical facilities, data science, and high-tech industries.

Upon graduation, approximately 50 percent of physics bachelors transition directly into the workforce, while others pursue advanced degrees in physics, medical physics, business, law, or computer science.

Opt for a B.A. degree if you seek to blend your passion for physics with complementary disciplines such as computer science, environmental science, biophysics, medicine, engineering, or finance.

Consider a B.S. degree if you intend to pursue graduate study in physics, astronomy, or a related field, or a career practicing physics.

Due to restrictions on course sharing, students are not allowed to complete both the major in Physics and the minor in Astronomy or to complete minors in both Physics and Astronomy.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor in astronomy consists of five courses:

Code	Title	Hours
Core Requirements		
ASTR 100	 Understanding the Universe	3
or ASTR 101	 Introduction to Astronomy: The Solar System	
or ASTR 102	 Introduction to Astronomy: Stars, Galaxies & Cosmology	
or ASTR 103	 Alien Life in the Universe	
ASTR 100L	 Astronomy with Skynet: Our Place in Space	1
or ASTR 111	 Educational Research in Radio Astronomy	
ASTR 202	Introduction to Astrophysics ¹	3
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{2, H, F}	4
PHYS 119	 Introductory Calculus-based Electromagnetism and Quanta ^{3, H, F}	4
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Fall course.

² Prerequisite, MATH 231; pre- or corequisite, MATH 232; permission of the instructor for students lacking the prerequisites.

³ Prerequisites, MATH 232 and PHYS 118; pre- or corequisite, MATH 233; permission of the instructor for students lacking the prerequisites.

Due to restrictions on course sharing, students are not allowed to complete both the major in Physics and the minor in Astronomy or to complete minors in both Physics and Astronomy.

See program page here (p. 529) for special opportunities.

Department of Political Science

Introduction

As Harold Laswell famously noted, politics is “who gets what, when, and how.” As a discipline, political science focuses on the study of political ideas, institutions, processes, policies, and behavior in the United States and around the world. The Department of Political Science offers a broad range of courses across five subfields: American politics, comparative politics, international relations, political theory, and political methodology.

Political science majors gain a versatile set of analytical and organizational skills that can be applied in a wide range of exciting careers in government, law, business, international organizations, nonprofit organizations, survey research, journalism, and teaching.

Advising

All majors have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. Students seeking advice about the political science major are encouraged to meet with the department’s undergraduate advisor or the director of undergraduate studies during their office hours (see contact information above). Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department’s website (<http://politicalscience.unc.edu>).

Graduate School and Career Opportunities

Students with a major in political science may choose to continue their studies in a number of professional areas, including law, business administration, public administration, public policy analysis, international relations, and area studies. Students seeking to become professional political scientists should pursue graduate study in a Ph.D. program in political science.

The following is a brief listing of careers for which a major in political science is valuable preparation:

- positions with government agencies, such as the Foreign Service
- positions with international organizations, such the United Nations
- positions with nongovernmental and nonprofit organizations
- law-related professions
- business professions, including data analysis and survey research
- media and journalism

- governmental research in universities, libraries, and think tanks
- secondary- and university-level teaching and administration
- federal and state government employment
- municipal management and public administration

Major

- Political Science Major, B.A. (p. 540)

Graduate Programs

- M.A. in Political Science (Trans Atlantic Masters) (<https://tam.unc.edu/>)
- Ph.D. in Political Science (<https://catalog.unc.edu/graduate/schools-departments/political-science/>)

Courses

- Political Science (POLI) (<https://catalog.unc.edu/courses/poli/>)

Political Science Major, B.A.

Are you interested in politics in the U.S. and globally? Questions concerning how we ought to govern ourselves? Critical issues such as health, the environment, migration, and civil rights? Theories about how power and resources are allocated in society? Do you want to study these subjects and pursue a career based on your interests? If so, you should consider studying political science.

As Harold Laswell famously noted, politics is “who gets what, when, and how.” Political science focuses on the study of politics in the United States and around the world. As a political science major, you will take a broad range of courses across five subfields: American politics, comparative politics, international relations, political theory, and political methodology. The flexible major requirements also allow you to focus your coursework on the areas of political science that draw your interest.

Political science majors gain a versatile set of analytical and organizational skills that can be applied in a wide range of exciting careers in government, law, business, international organizations, nonprofit organizations, survey research, journalism, and teaching.

Student Learning Outcomes

Upon completion of the political science program, students should be able to:

- Demonstrate a command of at least one of the following areas of substantive knowledge:
 - Themes and concepts that have shaped the Western political tradition, as well as core contemporary political theoretical issues
 - Principles and processes of American political institutions, political behavior, and civic culture
 - Principles and processes of political institutions, political behavior, and civic culture in societies other than the United States
 - Fundamental structures and forces that shape relations between states
- Demonstrate competence in the identification, use, and development of theoretical explanations appropriate for the study of their respective areas of substantive focus. These skills may include:
 - Evaluating competing theories of political explanation
 - Reconstructing the logic of political theories
 - Constructing theoretical models intended to address specific questions in political analysis
- Demonstrate a working understanding of the methods appropriate for developing rigorous description and explanation of political phenomena. These may include one or more of the following, depending on the student’s area of substantive interest:
 - Principles of textual interpretation and critical evaluation
 - Identification, collection, and organization of empirical data
 - Use of qualitative, quantitative, and other analytical techniques for analyzing data

- Principles and processes of political institutions, political behavior, and civic culture in societies other than the United States
- Fundamental structures and forces that shape relations between states
- Demonstrate competence in the identification, use, and development of theoretical explanations appropriate for the study of their respective areas of substantive focus. These skills may include:
 - Evaluating competing theories of political explanation
 - Reconstructing the logic of political theories
 - Constructing theoretical models intended to address specific questions in political analysis
- Demonstrate a working understanding of the methods appropriate for developing rigorous description and explanation of political phenomena. These may include one or more of the following, depending on the student’s area of substantive interest:
 - Principles of textual interpretation and critical evaluation
 - Identification, collection, and organization of empirical data
 - Use of qualitative, quantitative, and other analytical techniques for analyzing data

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Nine courses, including the following courses and including at least one 400-level political science (POLI) course:		
POLI 100	 American Democracy in Changing Times ^{H, F}	3
POLI 150	 International Relations and Global Politics ^{H, F}	3
One course in comparative politics chosen from:		3
POLI 130	 Introduction to Comparative Politics ^{H, F}	
POLI 232	 Politics of the United Kingdom ^H	
POLI 233	 Comparative Politics of the Middle East ^H	
POLI 234	Comparative Politics of the Global South	
POLI 235	 The Politics of Russia and Eurasia ^H	
POLI 236	Politics of East-Central Europe ^H	
POLI 237	 The Politics of China	
POLI 238	 Politics of the Global South: Latin America ^H	
POLI 239	 Introduction to European Government ^H	
POLI 241	 Comparative Political Behavior ^H	
One course in political theory chosen from:		3

POLI 265	 Feminism and Political Theory	
POLI 270	 Classical Political Thought ^H	
POLI 271	 Modern Political Thought ^H	
POLI 272	 The Ethics of Peace, War, and Defense	
POLI 275	 Nationalism, Immigration and the Politics of Identity ^H	
POLI 276	 Major Issues in Political Theory ^H	
POLI 280	 American Political Thought After the Civil War ^H	
POLI 470	 Social and Political Philosophy ^H	
POLI 471	 Contemporary Political Thought ^H	
POLI 472	 Problems of Modern Democratic Theory ^H

POLI 691H	 Honors Seminar in Research Design	
Four political science (POLI) electives at the 100 level or above ^{1,2}		12
Total Hours		27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ First-year seminars, POLI 193, and POLI 291 may not count as electives for the political science major.

² Whenever possible, students should take an introductory course in a subfield (American politics, comparative politics, international relations, political theory) before taking more advanced courses in the subfield.

Data in Politics

The Data in Politics track provides political science majors an opportunity to develop valuable data analysis skills and engage in cutting-edge political science research. As part of this track, students can take a two-course core sequence and additional applied data analysis courses. The Data in Politics core sequence teaches students how to work with and

analyze social science data. Applied data analysis courses build on this foundation by providing students opportunities to actively use data skills as part of a research paper or other class project.

Code	Title	Hours
Data in Politics Core Sequence		
POLI 281	 Data in Politics I: An Introduction	3
POLI 381	 Data in Politics II: Frontiers and Applications	3

POLI 692H	 Honors Thesis Research	3
POLI 693H	 Honors Thesis Research	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

American Politics

American politics courses examine political behavior and institutions in the United States at the federal, state, and local levels. These courses explore topics such as campaigns and elections, public opinion, Congress, the presidency, the judicial system, and state politics.

Code	Title	Hours
Introductory Course		
POLI 100	 American Democracy in Changing Times ^{H, F}	3
Specialized Courses		
POLI 200	 The President, Congress, and Public Policy	3
POLI 201	 Politics of Bureaucracy ^H	3
POLI 202	 The United States Supreme Court	3
POLI 203	 Race, Innocence, and the Decline of the Death Penalty	4
POLI 204	 Introduction to Southern Politics	3
POLI 205	 Politics in the U.S. States ^H	3
POLI 206	 Race and the Right to Vote in the United States	3
POLI 207	 The Politics of Organized Interests	3
POLI 208	 Political Parties and Elections ^H	3
POLI 209	 Analyzing Public Opinion ^H	3
POLI 211	 Religion and Politics	3
POLI 215	 Political Psychology: An Introduction	3
POLI 217	 Women and Politics	3

POLI 220	 Race, Ethnicity, and Electoral Representation in the United States	3
POLI 240	 African American Politics	3
POLI 248	 Intersectionality: Race, Gender, Sexuality, and Social Justice	3
POLI 333	 Race and Public Policy in the United States	3
POLI 345	Buying Influence: Interest Groups and Public Policy	3
Advanced Courses		
POLI 400	Executive Politics	3
POLI 401	Political Economy I: The Domestic System	3
POLI 404	 Race, Immigration, and Urban Politics	3
POLI 406	State Governments: Laboratories of Democracy	3
POLI 409	Mock Constitutional Convention	3
POLI 410	American Constitutional Law I: Structures of Power	3
POLI 411	American Constitutional Law II: Civil Liberties and Rights ^H	3
POLI 412	United States National Elections ^H	3
POLI 416	 Constitutional Policies and the Judicial Process	3
POLI 417	 Advanced Political Psychology ^H	3
POLI 418	Mass Media and American Politics	3
POLI 419	Race and Politics in the Contemporary United States ^H	3
POLI 420	Legislative Politics ^H	3
POLI 421	 Framing Public Policies	3
POLI 422	Minority Representation in the American States	3
POLI 424	 Legislative Procedure in Congress	3
POLI 428	Sexuality, Race, and Gender: Identity and Political Representation	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Global Politics

Global politics courses explore politics beyond the United States through the study of comparative politics and international relations. Comparative politics courses examine domestic political institutions and processes in countries around the world, while international relations courses explore political and economic relations in the international system.

Code	Title	Hours
Introductory Courses		
POLI 130	 Introduction to Comparative Politics ^{H, F}	3
POLI 150	 International Relations and Global Politics ^{H, F}	3
Specialized Courses		
POLI 210I	 Global Issues and Globalization	3

POLI 231	Latin America and the United States in World Politics	3
POLI 232	 Politics of the United Kingdom ^H	3
POLI 233	 Comparative Politics of the Middle East ^H	3
POLI 234	Comparative Politics of the Global South	3
POLI 235	 The Politics of Russia and Eurasia ^H	3
POLI 236	Politics of East-Central Europe ^H	3
POLI 237	 The Politics of China	3

POLI 441	Israeli Politics and Society	3
POLI 442	 International Political Economy	3
POLI 443	American Foreign Policy: Formulation and Conduct	3
POLI 444	 Terrorism and International Peace	3
POLI 447	Immigrant Integration in Contemporary Western Europe ^H	3
POLI 448	The Politics of Multilevel Governance ^H	3
POLI 449	Beg, Borrow, or Steal: How Governments Get Money and Its Effects on Accountability	3
POLI 450	Contemporary Inter-American Relations ^H	3
POLI 451	Race, Ethnicity, and Political Change in Comparative Perspective	3
POLI 452	 Africa and International Conflict	3

POLI 453	 When Countries Go Broke: Political Responses to Financial Crises	3
POLI 457	International Conflict Processes	3
POLI 458	 International Conflict Management and Resolution ^H	3
POLI 459	Trans-Atlantic Security ^H	3
POLI 469	Conflict and Intervention in the Former Yugoslavia ^H	3
POLI 630	Political Contestation in Europe	3
POLI 631	European Security: The Enlarging European Union and the Trans-Atlantic Relationship	3
POLI 632	The European Union as a Global Actor	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Political Theory

Political theory courses examine political ideas and values like justice, power, and democracy that we use to describe, understand, and assess political practices and institutions. These courses analyze the writings and ideas of political thinkers in the classical and modern worlds.

Code	Title	Hours
Introductory Courses		
POLI 270	 Classical Political Thought ^H	3
POLI 271	 Modern Political Thought ^H	3
Specialized Courses		
POLI 265	 Feminism and Political Theory	3
POLI 272	 The Ethics of Peace, War, and Defense	3
POLI 275	 Nationalism, Immigration and the Politics of Identity ^H	3
POLI 276	 Major Issues in Political Theory ^H	3
POLI 280	 American Political Thought After the Civil War ^H	3
Advanced Courses		
POLI 470	Social and Political Philosophy ^H	3
POLI 471	Contemporary Political Thought ^H	3
POLI 472	Problems of Modern Democratic Theory ^H	3
POLI 476	The Political Theory of the American Founding	3
POLI 477	Advanced Feminist Political Theory	3
POLI 478	The Politics, Philosophy, and Economics of Education	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Research Methods

Courses in political methodology examine the methods that political scientists use to conduct research. Empirical methods courses teach students how to collect and analyze data and evidence to understand political phenomena, while formal theory courses introduce students to the use of mathematical models to analyze political decision making.

Code	Title	Hours
Empirical Methods Courses		
POLI 209	 Analyzing Public Opinion ^H	3
POLI 281	 Data in Politics I: An Introduction	3

POLI 288	 Strategy and Politics	3
POLI 488	Game Theory	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

First Year	Hours
First-Year Foundations Courses

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ At least one political science course must be at the 400 level.

Special Opportunities in Political Science

Honors in Political Science

The honors program provides political science majors the opportunity to pursue an independent research project over a two-semester period. Students begin the program by taking POLI 691H in the spring semester of their junior year. During this course they complete a thesis proposal.

If the proposal is acceptable, students continue their thesis research in the senior year under the supervision of the honors director and a faculty advisor in POLI 692H and POLI 693H. A maximum of two honors thesis courses can count as elective credit in the major. Upon successful completion of the program, which includes an oral defense of the thesis, students are awarded a degree with honors or with highest honors in political science.

To be admitted to the honors program, students must have at least a 3.3 overall grade point average and a 3.6 in political science courses. They should have completed at least four courses in the major. Students interested in participating in the honors program apply in the fall of their junior year when applications are requested. For further information on the honors program, please consult the department's website (<http://politicalscience.unc.edu/undergraduate/honors-program/>).

High-Impact Experience

Internship courses provide students with the opportunity to earn academic credit while obtaining practical work experience in agencies and organizations clearly related to the study of political science. Political science majors who would like to obtain credit for internship work in government or public service must enroll in POLI 193. While this course satisfies the high-impact experience General Education requirement, POLI 193 is offered on a Pass/Fail basis only and does not count towards the nine courses required for the major. For specific information about the procedures and requirements for POLI 193, please consult the

department's website (<http://politicalscience.unc.edu/undergraduate/internships/>).

Study Abroad

Because we live in an increasingly globalized society, students are encouraged to study abroad as they are able. Students interested in the fields of comparative politics and international relations are strongly urged to participate in a study abroad program; indeed, all students may find the experience to be transformational and helpful in choosing a career path. Students are advised to work with the Study Abroad Office and to contact the undergraduate advisor when planning their study abroad experience. For information about applying study abroad credit toward the political science major, please consult the department's website (<http://politicalscience.unc.edu/undergraduate-programs/current-students/study-abroad/>).

Undergraduate Research

Courses in political science often include a research component, and students may engage in directed research under the supervision of a faculty advisor. The honors program provides political science majors the opportunity to pursue an independent research project over a two-semester period, culminating in a senior thesis. See the section above for more information on the honors program.

POLI 395 Mentored Research in Political Science provides an opportunity for students to pursue a special research interest under the direction of a faculty member of the Department of Political Science. The research and writing entailed in a mentored research course must be equivalent to the workload of a regular course. For specific information about the procedures and requirements for POLI 395, please consult the department's website (<http://politicalscience.unc.edu/undergraduate/independent-study/>).

Undergraduate Awards

Pi Sigma Alpha is the national political science honorary society. Membership is restricted to those political science majors who have completed 15 hours of political science with an overall grade average of 3.3 or better and a political science grade average of 3.5 or better.

The Thad L. Beyle Research Award is given to undergraduate political science majors, with priority given to students writing a senior honors thesis.

The William Scott Bryant Award funds research and travel for undergraduate majors in the Department of Political Science, with priority given to seniors.

The D'Amico Endowment Fund for Honors Students funds academic research and activities for honors students in the Department of Political Science.

The Shepard Jones Undergraduate Award in International Relations is given to an undergraduate student for the best essay in international relations (any field and broadly defined).

The L. Richardson Preyer Award for Excellence in Political Science is given to a senior judged by a committee of the faculty to have the most distinguished record of scholarship in political science and service to the community.

The Terry Sanford Award for Excellence is given to the undergraduate student judged to have written the best political science honors thesis.

Department of Psychology and Neuroscience

Introduction

In the undergraduate study of psychology, the emphasis is on a broad acquaintance with the behavioral sciences, not specialization. The subject matter is preparatory to a career in psychology either in basic research and teaching, or in any number of professional applications to various human problems. A psychology major may prove valuable to those planning other professional careers such as medicine, law, education, or business, as well as to those who seek a broad cultural background in the behavioral sciences.

The undergraduate study of neuroscience embodies the liberal arts experience as it draws on techniques and findings from several academic disciplines including biology, chemistry, computer science, mathematics, physics, and psychology. The neuroscience major provides students with the fundamental knowledge and exposure needed to pursue careers and post-graduate studies in fields related to neuroscience, human development and aging, health and disease, rehabilitation, biomedical research, human-machine interactions, and other emerging disciplines.

Follow us on Twitter (@uncCHpsych) and Facebook (<http://facebook.com/uncCHpsychology/>).

Advising

All psychology and neuroscience majors have a primary university academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their university academic advisor and review their Tar Heel Tracker each semester. It is also strongly advised that students prioritize enrolling in one or more core major requirements

every semester. Department advisors are also available and students can see who department academic advisors are, how to contact and/or make appointments with them, and see what types of advising are offered here (<https://psychology.unc.edu/academic-advising/>). Especially note that there are different departmental advisors for psychology and neuroscience majors. Students who are considering graduate studies in psychology or neuroscience are particularly encouraged to contact departmental advisors. Students interested in medical and/or health careers are strongly encouraged to connect with Pre-professional and Pre-graduate Advising (<https://careers.unc.edu/students/pre-professional-pre-graduate-advising/>) and Health Professions Advising (<https://hpa.unc.edu/explore/explore-health-careers/medicine/>). Particularly note that medical and/or health professional schools may recommend, though not require, psychology courses. Additional information about courses, undergraduate research opportunities, the honors program, and various clubs and organizations may be obtained from the department's website (<https://psychology.unc.edu/>). (Please see all options under the "Undergraduate Studies" tab.)

Graduate School and Career Opportunities

The psychology B.A. and B.S. degree programs, and the neuroscience B.S. degree program, prepare students for entry into graduate programs in psychology, neuroscience, and a large number of related areas. All degrees, augmented by courses dictated by various graduate and professional schools, also provide training that has proved beneficial for those applying to business, law, and medical schools.

Undergraduate psychology and neuroscience majors seek and find employment in a wide range of occupations, and many continue their education and training in graduate school. Students should understand that many of the occupations traditionally associated with psychology (e.g., clinical psychologist) are licensed specialties that require graduate training.

Neuroscience Major, B.S.

Neuroscience embodies the liberal arts experience as it draws on techniques and findings from several academic disciplines including biology, chemistry, computer science, mathematics, physics, and psychology. This program provides students with the fundamental

knowledge and exposure needed to pursue careers and post-graduate studies in fields related to psychology, human development and aging, health and disease, rehabilitation, biomedical research, biotechnology, human-machine interactions, and other emerging disciplines.

The neuroscience major is open to all undergraduate students.

Student Learning Outcomes

Upon completion of the neuroscience program, students should be able to:

- **Knowledge Base:** Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and trends in neuroscience including its links to other science disciplines
- **Scientific Inquiry and Critical Thinking Skills:** Apply basic research methods in neuroscience, including research design, data analysis, and interpretation. Demonstrate scientific reasoning, problem solving, and critical thinking
- **Ethics and Responsible Conduct of Research:** Demonstrate use of empirical evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinning of neuroscience as a science
- **Communication:** Demonstrate competence in writing and in oral communication skills. Be able to produce a research study or other neuroscience project, explain its scientific results, and present information
- **Individual and Professional Development:** Develop the ability to apply neuroscience content, skills, project management, and teamwork skills to career preparation. Awareness of career opportunities and paths toward career goals

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
NSCI 175	 Introduction to Neuroscience (with a grade of C or better) ^{H, F}	3
Select one statistics course:		3-4
PSYC 210	 Statistical Principles of Psychological Research ^H	
STOR 120	 Foundations of Statistics and Data Science ^{H, F}	
STOR 155	 Introduction to Data Models and Inference ^{H, F}	
Select one research methods course (Neuroscience research method courses NSCI 27* should be prioritized over PSYC 270):		3
NSCI 270	 Human Neuroscience through Imaging and Data Science	

NSCI 271	 Cellular Mechanisms in Addiction Lab	
NSCI 272	 Brain Organoid Electrophysiology Lab	
NSCI 273	 Brainwaves: Human Electroencephalography Lab	
NSCI 274	 Neurophysiology Data Science Lab	
NSCI 275	 Neural Circuits & Behavior	
NSCI 277	 Obesity in the Brain - Neuroscience qPCR Laboratory	
NSCI 278	 Molecular Brain Imaging Lab	
NSCI 279	 Microglia Laboratory	
PSYC 270	 Research Methods in Psychology (intended for PSYC double majors only)	
Select two courses:		6
NSCI 221	Neuropsychopharmacology	
NSCI 222	Learning ^H	
NSCI 225	Sensation and Perception ^H	
Knowledge Electives (select at least six credit hours from list below)		6
Mathematics, Methods, Statistics Electives (select at least six credit hours from list below)		6
Additional Requirements (complete with a grade of C or better)¹		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{1, H, F}	4
BIOL 103	 How Cells Function ^{1, F}	3
BIOL 220	 Molecular Genetics ^{1, H}	3
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{1, H, F}	4
CHEM 102 & 102L	 General Descriptive Chemistry II and Quantitative Chemistry Laboratory II ^{1, H, F}	4
CHEM 241	Modern Analytical Methods for Separation and Characterization ^{1, H}	3
CHEM 241L	Laboratory in Separations and Analytical Characterization of Organic and Biological Compounds ¹	1

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Course requires a prerequisite(s) not otherwise counting in the major. Please review prerequisite information carefully when planning your course selection.

² Students may take one of COMP 283, MATH 381, or STOR 215.

³ Students may only count NSCI 395 for three (3) hours of credit in the MMS elective.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Sample I

First Year

Fall Semester

Hours

First-Year Foundation Courses

ENGL 105	English Composition and Rhetoric	3
IDST 101	College Thriving	1
Global Language through level 3 (p. 670)		varies
Additional Gen Ed course		3

Hours	15

Total Hours	120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students are strongly encouraged to fulfill the FY-Seminar or FY-Launch First-Year Foundation requirement with a FY-Launch course in the major. Several FY-Launch course options are available. If done, then students can take an additional Gen Ed course in the fall semester.

² Students planning to apply to medical schools are advised to include BIOL 252 and BIOL 252L as a general elective in their course plan.

³ Students planning to apply to medical schools are advised to include CHEM 430 as a knowledge elective in their course plan.

⁴ Students are strongly encouraged to prioritize NSCI 27* neuroscience research methods labs. However, PSYC 270 will still fulfill the research methods requirement.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students are strongly encouraged to fulfill the FY-Seminar or FY-Launch First-Year Foundation requirement with a FY-Launch course in the major. Several FY-Launch course options are available. If done, then students can take an additional Gen Ed course in the fall semester.

² Students planning to apply to medical schools are advised to include BIOL 252 and BIOL 252L as a general elective in their course plan.

³ Students planning to apply to medical schools are advised to include CHEM 430 as a knowledge elective in their course plan.

⁴ Students are strongly encouraged to prioritize NSCI 27* neuroscience research methods labs. However, PSYC 270 will still fulfill the research methods requirement.

Special Opportunities in Psychology and Neuroscience

Honors in Psychology and Neuroscience

Any major in the program with an overall grade point average of 3.3 or higher and prior research experience in a faculty lab (e.g., PSYC 395 or NSCI 395) is eligible for enrollment in the departmental senior honors thesis program. Each candidate for honors participates in a two-semester course sequence (PSYC 693H and PSYC 694H or NSCI 693H and NSCI 694H) and carries out independent research in an area of the student's choice under the guidance of a psychology and neuroscience faculty member. Please see the department website for the application form (<https://psychology.unc.edu/honors-program/>) and additional information.

Departmental Involvement

The Carolina Psychology and Neuroscience Ambassadors Program (<https://psychology.unc.edu/clubs-volunteering/>) is a peer mentoring program which connects relative new or inexperienced psychology and/or neuroscience majors with more advanced and experienced students,

in order to create stronger networking and provide greater access to support and resources.

The Carolina Neuroscience Club (<https://hellife.unc.edu/organization/carolinaneuroscience/>) brings together students who have an interest in the brain and nervous system. Club members meet regularly to discuss courses, research articles, and post-college neuroscience opportunities. Membership is open to anyone interested in neuroscience.

Psi Chi (<https://hellife.unc.edu/organization/psi-chi-psychology-national-honor-society-uncch/>) is the National Honor Society for psychology. UNC's chapter strives to increase awareness of career options as well as the role of psychology in the community, among exemplary psychology students.

Nu Rho Psi (<https://nurhopsi.org/>) is the National Honor Society for neuroscience. The Nu Rho Psi chapter at Carolina aims to build connections among neuroscience students on campus, celebrate brain awareness week in our community, provide mentorship to underclassmen interested in the field, and much more.

Helping Give Away Psychological Science (<https://www.hgaps.org/>) is a student-based nonprofit organization to improve information about psychology on Wikipedia, on other online sites, and in the community.

High-Impact/Experiential Education

Several opportunities for experiential education are available. The Karen M. Gil Internship Program (<http://psychology.unc.edu/undergraduate-studies/gil-internship/>) offers both course credit and a monthly stipend to selected psychology and neuroscience majors who are placed in approved internship sites in the community. Interns are selected through a competitive process (minimum grade point average is 3.4). Other experiential education opportunities include NSCI 391; NSCI 392; PSYC 395; NSCI 395; PSYC 693H; PSYC 694H; NSCI 693H; NSCI 694H; coursed-based research courses (such as NSCI 27* lab-based research courses); or courses where service learning is a central focus, such as a psychology or neuroscience course with an APPLES (<https://ccps.unc.edu/apples/>) program component.

Undergraduate Awards

The Department of Psychology and Neuroscience administers several undergraduate awards: the Dashiell-Thurstone Prize; the David Bray Peele Undergraduate Award; the Donald T. Lysle Service Award; the Lindquist Undergraduate Research Award; the J. Steven Reznick Award for Diversity Enhancement in Psychological Research, as well as several fellowships and grants administered through the UNC Office for Undergraduate Research (<https://our.unc.edu/>) or the UNC Honors Carolina Office (<https://honorscarolina.unc.edu/>). Additional honors include election to Psi Chi, the national honor society for psychology undergraduates, and/or election to Nu Rho Psi, the national honor society for neuroscience undergraduates. Each year, the Lindquist Undergraduate Research Award is given to several undergraduate students to support their research; the Dashiell-Thurstone Prize is awarded to one student for the best undergraduate research project; the David Bray Peel Undergraduate Award is given for the best honors project; and the Donald T. Lysle Service Award is given to a psychology or neuroscience major who has made exemplary service contributions. The Donald T. Lysle Service Award is presented at the Chancellor's Award Ceremony, the only campus-wide recognition at Carolina. The department also offers the J. Steven Reznick Award for Outstanding Research That Enhances Diversity, which is awarded to a graduating senior who has conducted excellent research that contributes to psychological knowledge about diversity. For the purpose of awards, diversity is broadly defined,

including but not limited to diversity based on race, ethnicity, sexual orientation, gender, disability, religious affiliation, and socioeconomic status. For additional details on these awards, please visit the Psychology and Neuroscience page on undergraduate awards (<https://psychology.unc.edu/departamental-awards/#undergraduateawards>).

Undergraduate Research

Qualified students interested in doing independent research under the direction of a faculty member may enroll for independent research credit (PSYC 395 or NSCI 395). Students interested in this option should speak directly with psychology faculty members regarding opportunities in their laboratories. Additional information is available on the department's website (<http://psychology.unc.edu/undergraduate-studies/undergraduate-research/>). Many other psychology and neuroscience courses also include heavy research components and/or meet the general education research and discovery requirement (NSCI 27* labs). See the research methods, research intensive, and research exposure courses at the Office for Undergraduate Research (<https://our.unc.edu/find-research-courses/>).

Psychology Major, B.A.

In the undergraduate study of psychology, the emphasis is on a broad acquaintance with the behavioral sciences, not specialization. The subject matter is preparatory to a career in psychology either in basic research and teaching, or in any number of professional applications to various human problems. A psychology major may prove valuable to those planning other professional careers such as medicine, law, education, or business, as well as to those who seek a broad cultural background in the behavioral sciences.

Student Learning Outcomes

Upon completion of the psychology (B.A., B.S.) and/or neuroscience (B.S.) programs, students will attain the following:

- **Knowledge Base:** Demonstrate knowledge of the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology and/or neuroscience, including its links to other disciplines.
- **Scientific Inquiry and Critical Thinking Skills:** Apply basic research methods in psychology and/or neuroscience, including research design, data analysis, and interpretation. Demonstrate scientific reasoning and problem solving.
- **Ethics, Social Responsibility and Responsible Conduct of Research:** Demonstrate use of empirical evidence, tolerate ambiguity, act ethically, be mindful of diversity and reflect other values that are the underpinnings of psychology and/or neuroscience as a science.
- **Communication:** Demonstrate competence in writing and in oral communication skills. Ability to produce a research study or other neuroscience and/or psychology project, explain its scientific results and present information.
- **Individual and Professional Development:** Develop the ability to apply psychology and/or neuroscience content, skills, project management and teamwork skills to career preparation. Apply psychological and/or neuroscience principles to personal, social, and organizational issues. Become aware of career opportunities and paths towards career goals.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Gateway Course		
PSYC 101	 General Psychology (with a grade of C or better)	3
Core Requirements		

PSYC 210	 Statistical Principles of Psychological Research ^H	3
PSYC 270	 Research Methods in Psychology ^{1, 2}	3
One course below 400 from four of the five following psychology program areas:		12
Behavioral and Integrative Neuroscience:		
NSCI 221	Neuropsychopharmacology	
NSCI 222	Learning ^H	
NSCI 225	Sensation and Perception ^{3, H}	
PSYC 220	Biopsychology ^H	
Clinical:		
PSYC 242	Introduction to Clinical Psychology ^H	
PSYC 245	Psychopathology ^H	
Cognitive:		
NSCI 225	Sensation and Perception ^{3, H}	
PSYC 230	Cognitive Psychology ^H	
Developmental:		
PSYC 250	Child Development ^{4, H}	
Social:		
PSYC 260	Social Psychology ^H	
Two additional PSYC and/or NSCI courses numbered between 395 and 699; may not include PSYC 493 or NSCI 493 ⁵		6
One additional PSYC and/or NSCI course above 101; may not include PSYC 190 or NSCI 190. ⁵		3
Additional Requirements		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
One non-Psychology and Neuroscience Department course which comes from the Allied Science list (see below)		3
One additional non-Psychology and Neuroscience Department quantitative reasoning course (FC-QUANT) not used to fulfill the FC-QUANT Gen Ed requirement or any other requirement in the psychology major.		3-4
Total Hours		40-41

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Psychology and Neuroscience double majors may also use any NSCI 27* course to fulfill this requirement.

² Psychology and Human Development Family Studies double majors may also use EDUC 408 to fulfill this requirement.

³ NSCI 225 can meet either the behavioral neuroscience or cognitive requirement, but not both.

⁴ Psychology and Human Development Family Studies double majors may also use EDUC 401 to fulfill this requirement.

⁵ Up to 3-credit hours of the following may be used to fulfill one core major requirement: PSYC 395/NSCI 395, PSYC 693H/NSCI 693H or PSYC 694H/NSCI 694H.

A student may submit a maximum of 45 credit hours from the department (this includes both PSYC and NSCI courses) towards the completion of the B.A. degree.

Students planning to enter graduate programs in psychology are urged to include a research-intensive course such as PSYC 395, NSCI 395, PSYC 530, or PSYC 693H and PSYC 694H in their program as well as a course in software programming/coding.

Students interested in medical and/or health careers are strongly encouraged to connect with Pre-professional & Pre-graduate Advising (<https://careers.unc.edu/students/pre-professional-pre-graduate-advising/>) and Health Professions Advising (<https://hpa.unc.edu/explore/explore-health-careers/medicine/>). Particularly note that medical and/or health professional schools may recommend, though not require, psychology courses.

Statistics and Operations Research		
STOR ---	Any course above STOR 100 except STOR 151 or STOR 155	

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample

plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

First Year		Hours
First-Year Foundation Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F		3
IDST 111L	 Data Literacy Lab	1
Global Language through level 3 (p. 670)		varies
Major Courses		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
Take one of the following:		3
PSYC 101	 General Psychology ^F	
PSYC 210	 Statistical Principles of Psychological Research ^H	
PSYC/NSCI 2xx Program area course		
One additional non-Psychology and Neuroscience Department quantitative reasoning course (FC-QUANT) not used to fulfill the FC-QUANT Gen Ed requirement or any other requirement in the psychology major.		3
Hours		18
Sophomore Year		
PSYC 210 or PSYC 270	 Statistical Principles of Psychological Research ^H or  Research Methods in Psychology	3
PSYC/NSCI 2xx: Program area course		3
One non-Psychology and Neuroscience Department course which comes from the Allied Science List		3
Hours		9
Junior Year		
PSYC 270	 Research Methods in Psychology	3
PSYC/NSCI 2xx	Program area course	3
PSYC/NSCI 2xx	Program area course	3
One additional PSYC and/or NSCI course numbered between 395 and 699. May not include PSYC 493 or NSCI 493. ¹		3
Hours		12
Senior Year		
PSYC/NSCI 2xx	Program area course	3
One additional PSYC and/or NSCI course numbered between 395 and 699. May not include PSYC 493 or NSCI 493. ¹		3
One additional PSYC and/or NSCI course above 101. May not include PSYC 190 or NSCI 190. ¹		3
Hours		9
Total Hours		48

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Up to 3-credit hours of the following may be used to fulfill one core major requirement: PSYC 395/NSCI 395, PSYC 693H/NSCI 693H or PSYC 694H/NSCI 694H.

Special Opportunities in Psychology and Neuroscience

Honors in Psychology and Neuroscience

Any major in the program with an overall grade point average of 3.3 or higher and prior research experience in a faculty lab (e.g., PSYC 395 or NSCI 395) is eligible for enrollment in the departmental senior honors thesis program. Each candidate for honors participates in a two-semester course sequence (PSYC 693H and PSYC 694H or NSCI 693H and NSCI 694H) and carries out independent research in an area of the student's choice under the guidance of a psychology and neuroscience faculty member. Please see the department website for the application form (<https://psychology.unc.edu/honors-program/>) and additional information.

Departmental Involvement

The Carolina Psychology and Neuroscience Ambassadors Program (<https://psychology.unc.edu/clubs-volunteering/>) is a peer mentoring program which connects relative new or inexperienced psychology and/or neuroscience majors with more advanced and experienced students, in order to create stronger networking and provide greater access to support and resources.

The Carolina Neuroscience Club (<https://heellife.unc.edu/organization/carolinaneuroscience/>) brings together students who have an interest in the brain and nervous system. Club members meet regularly to discuss courses, research articles, and post-college neuroscience opportunities. Membership is open to anyone interested in neuroscience.

Psi Chi (<https://heellife.unc.edu/organization/psi-chi-psychology-national-honor-society-uncch/>) is the National Honor Society for psychology. UNC's chapter strives to increase awareness of career options as well as the role of psychology in the community, among exemplary psychology students.

Nu Rho Psi (<https://nurhopsi.org/>) is the National Honor Society for neuroscience. The Nu Rho Psi chapter at Carolina aims to build connections among neuroscience students on campus, celebrate brain awareness week in our community, provide mentorship to underclassmen interested in the field, and much more.

Helping Give Away Psychological Science (<https://www.hgaps.org/>) is a student-based nonprofit organization to improve information about psychology on Wikipedia, on other online sites, and in the community.

High-Impact/Experiential Education

Several opportunities for experiential education are available. The Karen M. Gil Internship Program ([http://psychology.unc.edu/undergraduate-](http://psychology.unc.edu/undergraduate-studies/gil-internship/)

[studies/gil-internship/](http://psychology.unc.edu/undergraduate-studies/gil-internship/)) offers both course credit and a monthly stipend to selected psychology and neuroscience majors who are placed in approved internship sites in the community. Interns are selected through a competitive process (minimum grade point average is 3.4). Other experiential education opportunities include NSCI 391; NSCI 392; PSYC 395; NSCI 395; PSYC 693H; PSYC 694H; NSCI 693H; NSCI 694H; coursed-based research courses (such as NSCI 27* lab-based research courses); or courses where service learning is a central focus, such as a psychology or neuroscience course with an APPLES (<https://ccps.unc.edu/apples/>) program component.

Undergraduate Awards

The Department of Psychology and Neuroscience administers several undergraduate awards: the Dashiell-Thurstone Prize; the David Bray Peele Undergraduate Award; the Donald T. Lysle Service Award; the Lindquist Undergraduate Research Award; the J. Steven Reznick Award for Diversity Enhancement in Psychological Research, as well as several fellowships and grants administered through the UNC Office for Undergraduate Research (<https://our.unc.edu/>) or the UNC Honors Carolina Office (<https://honorscarolina.unc.edu/>). Additional honors include election to Psi Chi, the national honor society for psychology undergraduates, and/or election to Nu Rho Psi, the national honor society for neuroscience undergraduates. Each year, the Lindquist Undergraduate Research Award is given to several undergraduate students to support their research; the Dashiell-Thurstone Prize is awarded to one student for the best undergraduate research project; the David Bray Peel Undergraduate Award is given for the best honors project; and the Donald T. Lysle Service Award is given to a psychology or neuroscience major who has made exemplary service contributions. The Donald T. Lysle Service Award is presented at the Chancellor's Award Ceremony, the only campus-wide recognition at Carolina. The department also offers the J. Steven Reznick Award for Outstanding Research That Enhances Diversity, which is awarded to a graduating senior who has conducted excellent research that contributes to psychological knowledge about diversity. For the purpose of awards, diversity is broadly defined, including but not limited to diversity based on race, ethnicity, sexual orientation, gender, disability, religious affiliation, and socioeconomic status. For additional details on these awards, please visit the Psychology and Neuroscience page on undergraduate awards (<https://psychology.unc.edu/departmental-awards/#undergraduateawards>).

Undergraduate Research

Qualified students interested in doing independent research under the direction of a faculty member may enroll for independent research credit (PSYC 395 or NSCI 395). Students interested in this option should speak directly with psychology faculty members regarding opportunities in their laboratories. Additional information is available on the department's website (<http://psychology.unc.edu/undergraduate-studies/undergraduate-research/>). Many other psychology and neuroscience courses also include heavy research components and/or meet the general education research and discovery requirement (NSCI 27* labs). See the research methods, research intensive, and research exposure courses at the Office for Undergraduate Research (<https://our.unc.edu/find-research-courses/>).

Psychology Major, B.S.

In the undergraduate study of psychology, the emphasis is on a broad acquaintance with the behavioral sciences, not specialization. The subject matter is preparatory to a career in psychology either in basic research and teaching, or in any number of professional applications to various human problems. A psychology major may prove valuable to those planning other professional careers such as medicine, law, education, or business, as well as to those who seek a broad cultural background in the behavioral sciences.

Student Learning Outcomes

Upon completion of the psychology (B.A., B.S.) and/or neuroscience (B.S.) programs, students will attain the following:

- Knowledge Base: Demonstrate knowledge of the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology and/or neuroscience, including its links to other disciplines.
- Scientific Inquiry and Critical Thinking Skills: Apply basic research methods in psychology and/or neuroscience, including research design, data analysis, and interpretation. Demonstrate scientific reasoning and problem solving.

- **Ethics, Social Responsibility and Responsible Conduct of Research:** Demonstrate use of empirical evidence, tolerate ambiguity, act ethically, be mindful of diversity and reflect other values that are the underpinnings of psychology and/or neuroscience as a science.
- **Communication:** Demonstrate competence in writing and in oral communication skills. Ability to produce a research study or other neuroscience and/or psychology project, explain its scientific results and present information.
- **Individual and Professional Development:** Develop the ability to apply psychology and/or neuroscience content, skills, project management and teamwork skills to career preparation. Apply psychological and/or neuroscience principles to personal, social, and organizational issues. Become aware of career opportunities and paths towards career goals.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Gateway Course		
PSYC 101	 General Psychology (with a grade of C or better) ^F	3
Core Requirements		
PSYC 210	 Statistical Principles of Psychological Research ^H	3
PSYC 270	 Research Methods in Psychology ^{1,2}	3
One course below 400 from each of the following program areas:		6
Behavioral Integrative Neuroscience:		
NSCI 222	Learning ^H	
NSCI 225	Sensation and Perception ^{3, H}	
NSCI 221	Neuropsychopharmacology	
PSYC 220	Biopsychology ^H	
Cognitive:		
NSCI 225	Sensation and Perception ^{3, H}	
PSYC 230	Cognitive Psychology ^H	
One course below 400 from two of the three following psychology program areas:		6
Clinical:		
PSYC 242	Introduction to Clinical Psychology ^H	
PSYC 245	Psychopathology ^H	
Development:		
PSYC 250	Child Development ^{4, H}	
Social:		
PSYC 260	Social Psychology ^H	

One upper-level course chosen from "Special Requirement Courses" (see list below) ⁵		3
One upper-level PSYC and/or NSCI course numbered between 395 and 699. May not include PSYC 493 or NSCI 493. ⁵		3
One additional PSYC and/or NSCI course above 101; may not include PSYC 190 or NSCI 190. ⁵		3
Additional Requirements		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory ^{H, F}	4
One of:		4
CHEM 101 & 101L	 General Descriptive Chemistry I and  Quantitative Chemistry Laboratory I ^{H, F}	
PHYS 114	 General Physics I: For Students of the Life Sciences ^F	
PHYS 118	 Introductory Calculus-based Mechanics and Relativity ^{H, F}	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
One additional non-Psychology and Neuroscience Department quantitative reasoning course (FC-QUANT) not used to fulfill the FC-QUANT Gen Ed requirement or any other requirement in the psychology major.		3
At least 3 additional three-credit hour non-Psychology and Neuroscience Department courses which must come from the Allied Science list (see below). Additionally, 1 four-credit hour non-Psychology and Neuroscience Department course from the Allied Science list (see below) or one of the following combinations: CHEM 241 + 241L, CHEM 241H + 245L, CHEM 262 + 262L or CHEM 262H + 263L or EMES 101 + EMES 101L. ⁶		13
Remaining General Education requirements and enough additional hours to accumulate 120 academic hours		62
Total Hours		120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Psychology and Neuroscience double majors may also use any NSCI 27* course to fulfill this requirement.

² Psychology and Human Development Family Studies double majors may also use EDUC 408 to fulfill this requirement.

³ NSCI 225 can meet either the behavioral neuroscience or cognitive requirement, but not both.

⁴ Psychology and Human Development Family Studies double majors may also use EDUC 401 to fulfill this requirement.

⁵ Up to 3-credit hours of the following may be used to fulfill one core major requirement: PSYC 395/NSCI 395, PSYC 693H/NSCI 693H or PSYC 694H/NSCI 694H.

⁶ A 3-credit hour Allied Science course may be combined with a 1-credit hour lab with the same course number to fulfill the 4-credit hour Allied Science course requirement.

Students planning to enter graduate programs in psychology are urged to include a research-intensive course such as PSYC 395, PSYC 530, or PSYC 693H and PSYC 694H in their program as well as a software programming/coding course.

Students interested in medical and/or health careers are strongly encouraged to connect with Pre-professional & Pre-graduate Advising (<https://careers.unc.edu/students/pre-professional-pre-graduate-advising/>) and Health Professions Advising (<https://hpa.unc.edu/explore/explore-health-careers/medicine/>). Particularly note that medical and/or health professional schools may recommend, though not require, psychology courses.

A student may submit a maximum of 45 credit hours from the department (this includes both PSYC and NSCI courses) towards the completion of the B.S. degree.

Details of the student's program may be worked out in consultation with college and departmental advisors.

Special Requirements Courses

Code	Title	Hours
PSYC 395	 Independent Research	1-3
PSYC 404	Clinical Psychopharmacology	3
PSYC 430	Human Memory	3
PSYC 433	Behavioral Decision Theory	3
PSYC 438	 Research Topics in the Psychology of Language	3
PSYC 469	Evolution and Development of Biobehavioral Systems	3
PSYC 504	Health Psychology	3
PSYC 517	Addiction ^H	3
PSYC 525	Psychological Archival Data Science	3
PSYC 528	 Clinical Research: Design, Analyze, Disseminate	3
PSYC 530	Design and Interpretation of Psychological Research	3
PSYC 531	Tests and Measurement	3
PSYC 532	Quantitative Psychology ^H	3
PSYC 533	The General Linear Model in Psychology ^H	3
PSYC 534	 Introduction to Computational Statistics	3
PSYC 559	Applied Machine Learning in Psychology	3
PSYC 693H	 Honors in Psychology I	3
PSYC 694H	 Honors in Psychology II	3

NSCI 395 and any course between NSCI 400-699, except NSCI 415 and NSCI 493.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

PHIL 455  Symbolic Logic 3

Physics

PHYS --- Any course above PHYS 99 except PHYS 132, PHYS 295, PHYS 391, PHYS 395, PHYS 410, PHYS 671L, PHYS 672L, PHYS 691H, and PHYS 692H

Statistics and Operations Research

STOR --- Any course above STOR 100 except STOR 151 or STOR 155

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

First Year	Hours
First-Year Foundation Courses	
IDST 101  College Thriving	1
ENGL 105  English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)	3
IDST 111L  Data Literacy Lab	1
Global Language through level 3 (p. 670)	varies
Major Courses	
BIOL 101  Principles of Biology & 101L  and  Introductory Biology Laboratory ^{H, F}	4

CHEM 101  General Descriptive Chemistry I ^{H, F} 4
& 101L or  General Physics I: For Students of the Life Sciences
or PHYS 114 or  Introductory Calculus-based Mechanics and Relativity
or PHYS 118

MATH 231  Calculus of Functions of One Variable I ^{H, F} 4

PSYC 101  General Psychology ^F 3

Hours **23**

Sophomore Year

Allied science course #1 3

Allied science course #2, with lab 4

One additional non-Psychology and Neuroscience Department quantitative reasoning course (FC-QUANT) not used to fulfill the FC-QUANT Gen Ed requirement or any other requirement in the psychology major. 3

PSYC 210  Statistical Principles of Psychological Research ^H 3

PSYC 220 Biopsychology ^H 3

or NSCI 221 or Neuropsychopharmacology

or NSCI 222 or Learning

or NSCI 225 or Sensation and Perception

Hours **16**

Junior Year

PSYC 270  Research Methods in Psychology 3

Two courses chosen from the clinical, developmental, or social list 6

Allied science course #3 3

PSYC 230 Cognitive Psychology ^H 3

or NSCI 225 or Sensation and Perception

Hours **15**

Senior Year

One PSYC and/or NSCI course chosen from the "Upper Level Courses for Special Requirement" (see course list) 3

One additional PSYC and/or NSCI course numbered between 395 and 699. May not include PSYC 493 or NSCI 493. 3

Allied science course #4 3

One additional PSYC and/or NSCI course above 101 ¹ 3

Hours **12**

Total Hours **66**

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Up to 3-credit hours of the following may be used to fulfill one core major requirement: PSYC 395/NSCI 395, PSYC 693H/NSCI 693H or PSYC 694H/NSCI 694H.

Special Opportunities in Psychology and Neuroscience

Honors in Psychology and Neuroscience

Any major in the program with an overall grade point average of 3.3 or higher and prior research experience in a faculty lab (e.g., PSYC 395 or NSCI 395) is eligible for enrollment in the departmental senior honors thesis program. Each candidate for honors participates in a two-semester course sequence (PSYC 693H and PSYC 694H or NSCI 693H and NSCI 694H) and carries out independent research in an area of the student's choice under the guidance of a psychology and neuroscience faculty member. Please see the department website for the application form (<https://psychology.unc.edu/honors-program/>) and additional information.

Departmental Involvement

The Carolina Psychology and Neuroscience Ambassadors Program (<https://psychology.unc.edu/clubs-volunteering/>) is a peer mentoring program which connects relative new or inexperienced psychology and/or neuroscience majors with more advanced and experienced students, in order to create stronger networking and provide greater access to support and resources.

The Carolina Neuroscience Club (<https://heellife.unc.edu/organization/carolinaneuroscience/>) brings together students who have an interest in the brain and nervous system. Club members meet regularly to discuss courses, research articles, and post-college neuroscience opportunities. Membership is open to anyone interested in neuroscience.

Psi Chi (<https://heellife.unc.edu/organization/psi-chi-psychology-national-honor-society-uncch/>) is the National Honor Society for psychology. UNC's chapter strives to increase awareness of career options as well as the role of psychology in the community, among exemplary psychology students.

Nu Rho Psi (<https://nurhopsi.org/>) is the National Honor Society for neuroscience. The Nu Rho Psi chapter at Carolina aims to build connections among neuroscience students on campus, celebrate brain awareness week in our community, provide mentorship to underclassmen interested in the field, and much more.

Helping Give Away Psychological Science (<https://www.hgaps.org/>) is a student-based nonprofit organization to improve information about psychology on Wikipedia, on other online sites, and in the community.

High-Impact/Experiential Education

Several opportunities for experiential education are available. The Karen M. Gil Internship Program (<http://psychology.unc.edu/undergraduate-studies/gil-internship/>) offers both course credit and a monthly stipend to selected psychology and neuroscience majors who are placed in approved internship sites in the community. Interns are selected through a competitive process (minimum grade point average is 3.4). Other experiential education opportunities include NSCI 391; NSCI 392; PSYC 395; NSCI 395; PSYC 693H; PSYC 694H; NSCI 693H; NSCI 694H; coursed-based research courses (such as NSCI 27* lab-based research courses); or courses where service learning is a central focus, such

as a psychology or neuroscience course with an APPLES (<https://ccps.unc.edu/apples/>) program component.

Undergraduate Awards

The Department of Psychology and Neuroscience administers several undergraduate awards: the Dashiell-Thurstone Prize; the David Bray Peele Undergraduate Award; the Donald T. Lysle Service Award; the Lindquist Undergraduate Research Award; the J. Steven Reznick Award for Diversity Enhancement in Psychological Research, as well as several fellowships and grants administered through the UNC Office for Undergraduate Research (<https://our.unc.edu/>) or the UNC Honors Carolina Office (<https://honorscarolina.unc.edu/>). Additional honors include election to Psi Chi, the national honor society for psychology undergraduates, and/or election to Nu Rho Psi, the national honor society for neuroscience undergraduates. Each year, the Lindquist Undergraduate Research Award is given to several undergraduate students to support their research; the Dashiell-Thurstone Prize is awarded to one student for the best undergraduate research project; the David Bray Peel Undergraduate Award is given for the best honors project; and the Donald T. Lysle Service Award is given to a psychology or neuroscience major who has made exemplary service contributions. The Donald T. Lysle Service Award is presented at the Chancellor's Award Ceremony, the only campus-wide recognition at Carolina. The department also offers the J. Steven Reznick Award for Outstanding Research That Enhances Diversity, which is awarded to a graduating senior who has conducted excellent research that contributes to psychological knowledge about diversity. For the purpose of awards, diversity is broadly defined, including but not limited to diversity based on race, ethnicity, sexual orientation, gender, disability, religious affiliation, and socioeconomic status. For additional details on these awards, please visit the Psychology and Neuroscience page on undergraduate awards (<https://psychology.unc.edu/departamental-awards/#undergraduateawards>).

Undergraduate Research

Qualified students interested in doing independent research under the direction of a faculty member may enroll for independent research credit (PSYC 395 or NSCI 395). Students interested in this option should speak directly with psychology faculty members regarding opportunities in their laboratories. Additional information is available on the department's website (<http://psychology.unc.edu/undergraduate-studies/undergraduate-research/>). Many other psychology and neuroscience courses also include heavy research components and/or meet the general education research and discovery requirement (NSCI 27* labs). See the research methods, research intensive, and research exposure courses at the Office for Undergraduate Research (<https://our.unc.edu/find-research-courses/>).

Neuroscience Minor

Neuroscience embodies the liberal arts experience because it draws on techniques and findings from several academic disciplines including biology, chemistry, computer science, exercise and sports science, mathematics, physics, and psychology. The neuroscience minor provides undergraduate students the opportunity to obtain fundamental knowledge and exposure needed to pursue careers and post-graduate studies in fields related to psychology, human development and aging, health and disease, rehabilitation, biotechnology, biomedical research, human-machine interactions, and other emerging disciplines.

The minor is open to all students, including psychology majors. However, students should note that they are limited to no more than 45 credit hours within a specific department. Students must earn a grade of C or better in at least four of the five courses.

Requirements

- In addition to the program requirements listed below, students must:
- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
 - earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
NSCI 175	 Introduction to Neuroscience (with a grade of C or better) ^{H, F}	3

Four courses distributed over at least three academic departments, 12
selected from the following lists:

Psychology and Neuroscience:

NSCI 221 Neuropsychopharmacology

NSCI 222 Learning ^H

NSCI 225 Sensation and Perception ^H

Any NSCI course numbered between 300-699 ¹

PSYC 245 Psychopathology ^H

PSYC 404 Clinical Psychopharmacology

PSYC 469 Evolution and Development of Biobehavioral Systems

PSYC 517 Addiction ^H

PSYC 533 The General Linear Model in Psychology ^H

PSYC 535  Programming for Psychologists: Computational Tools for Psychological Research

PSYC 559 Applied Machine Learning in Psychology

PSYC 602 Evolutionary Psychology

Applied Physical Sciences:

APPL 101  Exploring Engineering

APPL 240 Electronics from Sensors to Indicators: Circuits that Interact with the Physical World

APPL 430 Optoelectronics from Materials to Devices

Biology:

BIOL 205 Cellular and Developmental Biology ^H

BIOL 224H The Mathematics of Life
& BIOL 224L and The Mathematics of Life Laboratory

BIOL 226 Mathematical Methods for Quantitative Biology
& 226L and Mathematical Methods for Quantitative Biology Laboratory

BIOL 240 Cell Biology ^H

BIOL 425 Human Genetics

Department of Public Policy

Introduction

UNC Public Policy is an interdisciplinary social science major designed to provide students with the theoretical perspective, analytical skill, and substantive knowledge needed to respond to domestic and global policy challenges. Our mission is to empower students with the knowledge, skills, and experiences to improve the lives of others.

Our faculty have expertise in a wide range of global and domestic policy including education and labor markets, environment and human welfare, innovation and entrepreneurship, science and technology policy, social policy and inequality, health policy, bioethics, and human rights, international development policy, and global conflict and cooperation.

The undergraduate curriculum emphasizes research and experiential learning and includes exposure to multiple disciplinary fields including policy analysis, economics, history, political science, applied philosophy, research design, and statistics.

Advising

All majors and minors have a primary academic advisor in the Academic Advising Program (<https://advising.unc.edu/>). Students are encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. UNC Public Policy's director of undergraduate studies and student services officer meet with current and prospective students by appointment (see contact information above). For additional information on courses and undergraduate opportunities, see UNC Public Policy's website (<https://publicpolicy.unc.edu>).

Graduate School and Career Opportunities

The undergraduate major in public policy provides students with conceptual and analytical skills that prepare them for the labor market and graduate school. The integration of a liberal arts education, writing and analytical abilities, and knowledge in a domestic or global policy field prepares students for many career paths. The public policy major can be a foundation for graduate work in a range of social science and professional disciplines, including law, business, education, social work,

public health, public policy, public and international affairs, and city and regional planning. Alumni pursue careers in law, education, business, public policy, and global affairs, working in public, private, and nonprofit sectors.

Public Policy offers a dual bachelor's-graduate (M.P.P.) degree. The M.P.P. degree requires 48 credits. It is possible to complete the requirements for the bachelor's degree and graduate degree within eight semesters and two additional semesters of study (and one summer), respectively. The M.P.P. includes a summer seminar/internship experience. New UNC Graduate School's dual degree policies allow 12 credit hours of double counting/crossover of bachelor's credits and master's credits. Most of the double counting of credits will take place during the second semester of the senior year.

Public Policy Major, B.A.

The core curriculum in public policy includes courses on policy innovation and analysis, politics of public policy, applied philosophy, applied economics, research design, and statistics. Our experiential education courses develop students' teamwork, leadership, and communication skills as they produce actionable, client-centered research. UNC Public Policy offers multiple courses on global and domestic policy issues, including education, immigration, the environment, health and human rights, poverty, and national security.

The mission of UNC Public Policy is to empower students with the knowledge, skills, and experience to improve the lives of others.

Knowledge

Students think and learn across academic disciplines with a diverse faculty with degrees in economics, history, law, philosophy, political science, public policy, sociology, and sociomedical sciences.

Skills

Students gain an ability to think critically and independently; to write, reason, and communicate clearly; and to develop research methods and quantitative analysis skills.

Experience

Students apply knowledge and skills in real-world environments beyond the classroom. Students in UNC Public Policy's clinic, internship, and capstone courses address contemporary policy challenges by providing innovative analysis to clients in the nonprofit and public sectors.

Student Learning Outcomes

Upon completion of the public policy program, students should be able to:

- Demonstrate knowledge of economic, normative, and political perspectives for defining the public interest and evaluating policy choices
- Demonstrate written, oral, and analytical skills in evaluating public policy alternatives
- Demonstrate knowledge of a particular policy subfield and apply it in an experience in policy analysis in that field
- Demonstrate skills in developing approaches to solving current public policy problems as a result of participation in experiential education opportunities
- Work effectively in teams

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

First-year and sophomore students considering a major in public policy are encouraged to complete PLCY 101 or PLCY 110.

Code	Title	Hours
Core Requirements		
PLCY 210	Policy Innovation and Analysis ^H	3
PLCY 220	 The Politics of Public Policy ^H	3
PLCY 340	 Justice in Public Policy ^H	3
PLCY 310	Microeconomic Foundations of Public Policy (formerly PLCY 410)	3
or ECON 410	 Intermediate Microeconomics	
PLCY 460	 Quantitative Analysis for Public Policy ^{2,3, H}	4
PLCY 581	 Research Design for Public Policy ^{2, H}	3
PLCY 698	 Senior Capstone in Public Policy ²	3-4
or PLCY 692H	 Honors in Public Policy	
At least six credit hours of approved public policy electives. ¹		6
Additional Requirements		
ECON 101	 Introduction to Economics ^{2, H, F}	4
Policy Field (optional), see list below		
Total Hours		32-33

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

- ¹ Three credit hours may be for a 100- or 200-level PLCY course. The remaining three credit hours must be for an elective course at the 300 level or above. PLCY 130, PLCY 291, PLCY 293, PLCY 393, and PLCY 394 may not count as electives for the public policy major.
- ² ECON 101 is a prerequisite for PLCY 310 and ECON 410. PLCY 460 is a prerequisite for PLCY 698 and PLCY 691H and a pre- or co-requisite for PLCY 581. PLCY 581 is a prerequisite for PLCY 691H and a pre- or co-requisite for PLCY 698.
- ³ Alternatively, students may use a combination of either of the following pairs of courses to fulfill this requirement: (a) ECON 400 and ECON 470 or (b) ECON 400 and ECON 570.

Policy Field (Optional)

Students who complete three approved electives (nine credit hours) in a specific policy field may elect to graduate with a concentration. Six of these credit hours must be for field courses at the 300 level or above. PLCY 393 and PLCY 394 may not count toward the field concentration. For students completing an honors thesis, PLCY 691H can count toward the policy field concentration. Policy field concentrations include education and labor markets; environment and human welfare; innovation and entrepreneurship/science and technology policy; social policy and inequality; health policy; bioethics and human rights; international development policy; global conflict and cooperation.

Additionally, students may select courses across subfields and design their own field. For information about declaring a policy field concentration see the department's Web site (<https://publicpolicy.unc.edu/academics/undergraduate-program/faq/>). The specific policy field is not listed on students' diplomas or transcripts. UNC–Chapel Hill public policy majors are encouraged to list their policy field on their résumés.

Program Restrictions

A maximum of one three-credit independent study course (PLCY 395, PLCY 396, PLCY 496, PLCY 596, or PLCY 696) may be counted as an elective for the policy major. For credit toward the major, an independent study proposal form must be completed by the student, approved by the independent study instructor, submitted to the student services officer, and approved by the director of undergraduate studies before the independent study begins. A maximum of one three-credit transfer or study abroad course or two Honors Seminar on Public Policy and Global Affairs courses (PLCY 352H; PLCY 353H) may be counted as electives toward the public policy major.

Public Policy Elective Course List

Public Policy Elective Course List

The following courses satisfy the electives requirement and optional policy field concentration. Please note that some of these courses may have enrollment restrictions, including being restricted to students

enrolled in certain majors or minors. Please check for enrollment restrictions before trying to enroll:

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

First Year		Hours
First-Year Foundations Courses		
IDST 101	 College Thriving	1

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ or PLCY 691H and PLCY 692H.

² or ECON 400 and ECON 470, or ECON 400 and ECON 570.

Special Opportunities in Public Policy Undergraduate Research

Most courses in public policy include a research component. The Office for Undergraduate Research maintains a database of courses that qualify as research intensive, research exposure, and research methods courses. Earning a grade of C or better in any of these courses partially fulfills the requirements for the Carolina Research Scholar designation. In addition, the department offers opportunities for students to work directly with a faculty member on a research project through independent study. The honors thesis process enables students to undertake a major independent policy research project. The Duncan MacRae Jr. Public Policy Fund provides grants on a competitive basis to public policy majors engaged in mentored research with a public policy faculty member, in policy-relevant independent research, and in honors thesis research in public policy.

High-Impact Experience

UNC Public Policy's experiential education programs offer students structured, active-learning opportunities that invite them to integrate and apply their academic knowledge and skills in a real-world policy environment. Opportunities include internships, the Honors Seminar on Public Policy and Global Affairs in Washington D.C. (PLCY 352H and PLCY 353H), the public policy clinic (PLCY 393), the intersector (PLCY 394), and the public policy capstone course (PLCY 698). PLCY 130, PLCY 293, PLCY 393, PLCY 691H, PLCY 692H, and PLCY 698 are all approved as experiential education courses.

For more information, see the department's website (<http://publicpolicy.unc.edu/academics/experiential-education/>).

Capstone Course

The capstone course (PLCY 698) is the culminating experience of the public policy undergraduate major and is required for all seniors except those who complete an honors thesis. Students should register for the course in the fall or spring of their senior year. The course provides a bridge between policy analysis as it is studied in an academic setting and policy analysis as it is practiced in the workplace. Students work in small teams to produce actionable, client-centered, public policy analysis for a government agency or nonprofit organization.

Honors Seminar on Public Policy and Global Affairs in Washington, D.C.

The Honors Seminar on Public Policy and Global Affairs offers Carolina undergraduates a unique learning, living, and internship opportunity in our nation's capital. The seminar offers students first-hand engagement with the actors and organizations that influence domestic and global affairs in Washington, D.C. It aims to expose students to a range of public policies that influence U.S. economic prosperity, national security, and its role in the broader global community. Internship placements provide opportunities for students to apply academic learning, to derive new insights and questions for seminar discussion, and to work directly with substantive policy experts.

Internships and Public Service

Students may receive academic credit for an approved internship if it provides an academically relevant experience in policy analysis or research. Students who wish to complete an internship with an external organization can do so through PLCY 293 (available to public policy majors and minors). PLCY 293 is a Pass/Fail course. The Duncan MacRae Jr. Public Policy Internship Grant aims to support internship opportunities for public policy majors and to defer some of the costs associated with engaging in unpaid summer internships. The Hodding Carter III Public Service Fellowship supports opportunities for UNC–Chapel Hill public policy majors to engage in public service opportunities in our communities, the American south, the nation, and around the globe. The Thomas W. Ross North Carolina Leaders Fellows Program supports public policy undergraduates pursuing public service opportunities in the State of North Carolina during the summer. The Richard (“Pete”) Andrews Fellowship in Environmental Policy supports a student interested in working on environmental policy during the summer or a policy research-related project during the academic year. The Ruth C. Samuelson Legacy Fund provides students an interactive training experience on trust and supports undergraduates or graduate students to participate in a “listening tour” policy research project over the summer. Read more about these opportunities on the department’s website (<https://publicpolicy.unc.edu/academics/undergraduate/honors-and-awards/>).

Undergraduate Funding and Awards

Each year UNC Public Policy holds a graduation ceremony to honor students’ achievements. The Kathy Taft Education Policy Award recognizes a rising senior majoring in public policy with an interest in and dedication to education policy. The Michael A. Stegman Award for Policy Research and Advocacy is awarded to a graduating public policy major who has demonstrated an ability to use policy research and analysis to advocate for social change and a commitment to play a future role in policy research and advocacy.

Honors in Public Policy

Public policy majors who have at least a 3.3 overall grade point and a 3.5 in the core public policy courses are eligible to apply to the department’s honors program in the spring of their junior year. The honors thesis

offers an opportunity for motivated students to move beyond traditional coursework and apply critical thinking skills to an academic public policy thesis. This program is organized as an original, independent research project under the direction of a faculty advisor. Students considering writing an honors thesis must complete PLCY 581 before enrolling in PLCY 691H.

Completion of an honors thesis provides a total of six credit hours toward the major, including three credits toward a policy field concentration. Students who complete an honors thesis and maintain all other eligibility criteria may be recommended by their thesis advisor and the Undergraduate Affairs Committee for graduation with honors or highest honors in public policy. The department’s website (<https://publicpolicy.unc.edu/academics/undergraduate/honors/>) provides more information.

Policy Students Association

Founded as the Public Policy Majors’ Union in 1988, the Policy Students Association (PSA) brings together public policy-interested undergraduates to catalyze student collaboration, learning opportunities, skill development, and exposure to new experiences and ideas to further enrich their experience as public policy students at UNC–Chapel Hill. PSA is an organic voice of the undergraduate population and works with the department to maximize the short- and long-term potential of the Public Policy Department to help students achieve their academic and career goals.

Public Policy Minor

The core curriculum in public policy includes courses on policy innovation and analysis, politics of public policy, applied philosophy, applied economics, research design, and statistics. Our experiential education courses develop students' teamwork, leadership, and communication skills as they produce actionable, client-centered research. UNC Public Policy offers multiple courses on both global and domestic policy issues, including education, immigration, the environment, health and human rights, poverty, and history and public policy.

The undergraduate minor in public policy consists of five courses. Students gain knowledge, skills, and experience to improve the lives of others.

Knowledge

Students think and learn across academic disciplines with a diverse faculty with degrees in business, economics, history, law, philosophy, political science, public policy, sociology, and sociomedical sciences.

Skills

Students gain an ability to think critically and independently; to write, reason, and communicate clearly; and to develop research methods and quantitative analysis skills.

Experience

Students apply knowledge and skills in real-world environments beyond the classroom. Students in our clinic, intersector, and internship courses address contemporary policy challenges by providing innovative analysis to clients in the nonprofit and public sectors.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

First-year and sophomore students considering a minor in public policy are encouraged to complete PLCY 101 or PLCY 110.

Code	Title	Hours
Requirements		
Students must complete at least four of the following core courses: 12		
PLCY 210	Policy Innovation and Analysis ^H	
PLCY 220	 The Politics of Public Policy ^H	
PLCY 340	 Justice in Public Policy ^H	
PLCY 460	 Quantitative Analysis for Public Policy ^H	

PLCY 581	 Research Design for Public Policy ^H	
PLCY 310	Microeconomic Foundations of Public Policy ¹	
or ECON 410	 Intermediate Microeconomics	
One elective course selected from the following options:		3
Any PLCY course at the 100 level or above (not including PLCY 130, PLCY 291, or PLCY 293)		
A course from the approved list in the major (see below)		
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ ECON 101 is a prerequisite for PLCY 310 and ECON 410.

Public policy (PLCY) course descriptions (p.).

The regulations governing a minor, as set forth in this catalog, apply to the minor in public policy.

Public Policy Elective Course List

The following courses satisfy the electives requirement and optional policy field concentration. Please note that some of these courses may have enrollment restrictions, including being restricted to students enrolled in certain majors or minors. Please check for enrollment restrictions before trying to enroll:

Department of Religious Studies Introduction

The Department of Religious Studies is dedicated to the study of religions as historical, social, and cultural phenomena. We offer courses on Buddhism, Islam, Hinduism, Judaism, Christianity, Indigenous religions, ancient religions, and a variety of traditions across the globe. Our faculty employ diverse and interdisciplinary methods to better understand the rituals, texts, celebrations, pilgrimages, beliefs, and everyday practices that constitute religious lives.

Advising

The director of undergraduate studies advises majors and minors in religious studies. Please contact the Department of Religious Studies for updated contact information.

The director of the Carolina Center for Jewish studies advises majors and minors in Jewish studies. Please contact the Carolina Center for Jewish Studies for updated contact information.

The director of Christianity and culture advises minors in the study of Christianity and culture. Please contact the Department of Religious Studies for updated contact information.

The director of the Carolina Center for the Study of the Middle East and Muslim Civilizations advises minors in Islamic and Middle Eastern studies. Please contact the Carolina Center for the Study of the Middle East and Muslim Civilizations for updated contact information.

Career Opportunities and Graduate School

Students majoring and minoring in religious studies pursue careers in a wide variety of fields, including public service, ministry, consulting, medical and legal professions, business, artistic endeavors, and work in the non-profit sector. The department offers regular opportunities for career exploration and networking that provide tangible guidance on how to connect the knowledge and skills we teach to today's job market. Religious studies majors learn to appreciate cultural differences, understand changing global realities, synthesize complex information, write clearly, and speak persuasively. All of these qualities are in great demand. Many graduates of the program also go on to professional schools in law, medicine, divinity, public health, business, library and information science, and journalism. Other students choose to pursue an M.A. or Ph.D. in religious studies or related fields in the humanities and social sciences. Each year the department awards several prizes, including the Bernard Boyd Fellowship to support a graduating religious studies major who is planning to pursue graduate study in religion or a closely related discipline.

Majors

- Religious Studies Major, B.A. (p. 578)
- Religious Studies Major, B.A. – Jewish Studies Concentration (p. 583)

Minors

Religious Studies Major, B.A.

The Department of Religious Studies is dedicated to the study of religions as historical, social, and cultural phenomena. We offer courses on Buddhism, Islam, Hinduism, Judaism, Christianity, Indigenous religions, ancient religions, and a variety of traditions across the globe. Our faculty employ diverse and interdisciplinary methods to better understand the rituals, texts, celebrations, pilgrimages, beliefs, and everyday practices that constitute religious lives. The major in religious studies allows students to explore all of these topics and more across a wide range of cultures and with a variety of methodological approaches.

Student Learning Outcomes

Upon completion of the religious studies program, students should be able to:

- Demonstrate knowledge of influential terms, approaches, and theories in religious studies
- Effectively conduct research on a specific topic using the discipline-based methods
- Communicate research clearly and effectively
- Demonstrate effective writing skills (clear focus, relevant evidence, coherent organization)

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill

- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Six RELI courses, including courses cross-listed with other units		18
Two RELI courses numbered 400 or above, including courses cross-listed with other units		6
RELI 697	Capstone: Undergraduate Seminar	3
Additional Requirements		
Of the nine courses required in the major, students must take at least one course in three of the department's five subfields listed below.		
Total Hours		27

Religious Studies (RELI) course descriptions (p.).

Introductory and intermediate language courses (RELI 401, RELI 402, RELI 403, RELI 404, RELI 409, RELI 410) are recommended for their usefulness but do not count toward the major in religious studies.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Special Opportunities in Religious Studies Honors in Religious Studies

Students majoring in religious studies (including double majors) with a grade point average of 3.5 or above in department courses and 3.3 grade point average overall and who will have successfully completed at least one course numbered 400 or above on a topic in religious studies that is related to the proposed thesis may choose to write an honors thesis. Candidates for graduation with honors in religious studies are to be enrolled in RELI 691H in the fall and RELI 692H in the spring semester of their senior year. RELI 691H and RELI 692H count toward the major as courses fulfilling subfield requirements. Students should submit applications for the honors program to the department's director of undergraduate studies by the end of February during their junior year. Consult the department's director of undergraduate studies for details.

Study Abroad

Some courses through the Study Abroad Office can count towards the major and minor in religious studies as well.

Undergraduate Awards and Honors

The department presents three awards at the end of each academic year: the Bernard Boyd Fellowship, the Bernard Boyd Memorial Prize, and the Halperin-Schütz Undergraduate Essay Award. The department also has funds to support summer research connected to students' pursuit of a major in religious studies.

The department also inducts qualified majors into the Religious Studies National Honor Society, Theta Alpha Kappa.

Religious Studies Major, B.A. – Jewish Studies Concentration

The undergraduate major in religious studies – Jewish studies concentration is an interdisciplinary curriculum that explores the history, literature, culture, and religious life of Jews in their interaction with other peoples from ancient times to the present. It also offers students an opportunity to become more knowledgeable about selected areas of the Jewish experience.

Student Learning Outcomes

Upon completion of the religious studies major – Jewish studies concentration, students should be able to:

- Demonstrate knowledge of Hebrew and of the history, literature, culture, and religious life of Jews across at least three historical periods
- Demonstrate knowledge of influential terms, approaches, and theories in Jewish studies
- Conduct research in Jewish studies, including interpreting primary sources, assessing scholarly literature, and constructing original arguments
- Clearly and effectively communicate the results of research

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
JWST 100I/ RELI 123I	 Introduction to Jewish Studies	3
Seven (7) additional Jewish Studies (JWST) elective courses, with at least two courses numbered 400 or higher.		21
Additional Requirements		
Two language courses relevant to Jewish Studies, chosen from the following options: ¹		6

HEBR 101, HEBR 102, HEBR 203, and HEBR 204

RELI 211 and RELI 212

RELI 401, RELI 402, RELI 403, and RELI 404

Total Hours

30

¹ Other languages not listed above (e.g. Yiddish, Ladino, Arabic, etc.) or a language exemption require the approval of the Director of Undergraduate Studies - Jewish Studies.

Although this concentration of the religious studies major is housed in the Department of Religious Studies, the director of Jewish studies is responsible for advising all students who elect the concentration in Jewish studies.

Special Opportunities in Religious Studies Honors in Religious Studies

Students majoring in religious studies (including double majors) with a grade point average of 3.5 or above in department courses and 3.3 grade point average overall and who will have successfully completed at least one course numbered 400 or above on a topic in religious studies that is related to the proposed thesis may choose to write an honors thesis. Islamic and Middle Eastern Studies Minor

The undergraduate minor in Islamic and Middle Eastern studies (ISME) is intended to offer students access to two complementary perspectives, the transregional study of Islam and Muslim societies in interaction with surrounding cultures, and the Middle East as a complex region seen through multiple disciplinary perspectives.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor consists of five courses, which must be taken in at least two different departments; at least one course must be from the Department of Religious Studies, and at least one course must be at an advanced level (400 and above).

Code	Title	Hours
Core Requirements		
RELI 180 or HIST 138	Introduction to Islamic Civilization ¹ History of Muslim Societies to 1500	3
One of the following three courses:		3
HIST 139	History of Muslim Societies since 1500	
HIST 276	The Modern Middle East	
RELI 181	Modern Muslim Societies	
Three elective courses (see course lists below)		9
Additional Requirements		
Three of the five courses in the minor (including the required courses listed above) must be selected from one of two subject categories—either Islamic studies or Middle Eastern studies—as indicated by the two lists of approved courses below.		
The other two courses must come from the other category.		
Total Hours		15

¹ Both courses cover material from the seventh century to 1500

One language course at level 5 or higher in Arabic, Hebrew, Hindi-Urdu, Persian, or Turkish can count as a course toward the minor. Up to two courses in Islamic and Middle East studies at Duke University may count toward the minor if approved by the director of the minor.

The minor is housed in the Department of Religious Studies and directed by Dr. Julianne Hammer, a member of the department, who is responsible for advising all students who minor in Islamic and Middle Eastern studies (as necessary beyond general academic advising).

Jewish Studies Minor

The undergraduate minor in Jewish studies is an interdisciplinary curriculum that explores the history, literature, culture, and religious life of Jews in their interaction with other peoples from ancient times to the present. It also offers students an opportunity to become more knowledgeable about selected areas of the Jewish experience.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor consists of five courses.

Code	Title	Hours
Core Requirements		
JWST 100/ RELI 123	 Introduction to Jewish Studies (core course)	3
Four (4) additional Jewish Studies (JWST) elective courses, with at least one course numbered 400 or higher.		12
Total Hours		15

For students minoring in both Jewish studies and religious studies, only two courses can overlap between the two minors.

Although this minor is housed in the Department of Religious Studies, the director of Jewish studies is responsible for advising all students who minor in Jewish studies.

Religious Studies Minor

The Department of Religious Studies is dedicated to the study of religions as historical, social, and cultural phenomena. It offers courses on Buddhism, Islam, Hinduism, Judaism, Christianity, indigenous religions, ancient religions, and a variety of traditions across the globe. Faculty employ diverse and interdisciplinary methods to better understand the rituals, texts, celebrations, pilgrimages, beliefs, and everyday practices that constitute religious lives. The minor in religious studies allows students to explore all of these topics and more across a wide range of cultures and with a variety of methodological approaches.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill

- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Minimum requirements for the minor consist of five courses, two of which must be numbered above 400		15
Additional Requirements		
At least one course in two of the department's subfields (see lists below).		
Total Hours		15

Introductory and intermediate language courses (RELI 401, RELI 402, RELI 403, RELI 404, RELI 409, RELI 410) are recommended for their usefulness but do not count towards the minor in religious studies.

Courses listed more than once can be counted for only one subfield.

Study of Christianity and Culture Minor

The undergraduate minor in the study of Christianity and culture is an interdisciplinary curriculum in the humanities, arts, and social sciences that aims to refine students' understanding of the cultural, social, and political influence of Christianity.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC—Chapel Hill

- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Requirements		
The minor requires the completion of five courses, including at least one course from each of the following categories.		
Core course:		3-9
RELI 161	Introduction to the History of Christian Traditions ^H	
RELI 167	Global Christianity	
RELI 209	Varieties of Early Christianity ^H	
RELI 225	Christian Cultures	
RELI 266	Medieval and Renaissance Christian Cultures	
RELI 332	The Protestant Tradition ^H	
Ancient, medieval, or early modern Christianity (see list below)		3-9
Christianity in the modern world (see list below)		3-9
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Courses must be taken from at least two different departments, and at least one must be numbered 200 or above.

Students may also petition the Minor Faculty Advisory Committee for permission to count toward their minor requirements other potentially appropriate UNC–Chapel Hill courses, independent study courses, transfer courses, or study abroad courses.

Students also are encouraged to take language courses that relate to the minor in the study of Christianity and culture — such as Latin, Greek, or Hebrew — but language courses do not fulfill minor course requirements.

Although this minor is housed in the Department of Religious Studies, the director of Christianity and culture is responsible for advising all students who minor in the study of Christianity and culture.

Department of Romance Studies

Introduction

The Department of Romance Studies is an international, multilingual academic unit that engages in interdisciplinary research and instruction in French, Italian, Portuguese, Spanish, as well as Indigenous and other languages of Europe and the Americas such as Romanian, Catalan, Basque, Galician, Yucatec Maya, Quechua, and Guaraní. The principal aims of the department are to preserve, increase, and transmit knowledge and understanding of the Romance languages, literatures, and cultures within the global and regional contexts in which they have developed.

Our course offerings present a variety of approaches — historical, literary, linguistic, sociopolitical, cultural, and theoretical — to the study of literary and nonliterary works and of the cultures of places where Romance languages are spoken. Students acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Our faculty promotes interdisciplinary connections and incorporates the study of literature, culture, linguistics, theory, and history across the curriculum. Through coursework that emphasizes rhetoric, language analysis, and written and oral expression, our majors receive sustained personalized training in critical thinking and close reading.

Advising

The Department of Romance Studies offers a major with five concentrations and six minors. All students can find their primary academic advisor in Dey Hall. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. Each of the department's language advisors will meet with current and prospective majors by appointment. Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<http://romancestudies.unc.edu>).

Graduate School and Career Opportunities

A major or minor in Romance studies provides excellent preparation for a range of careers. Recent graduates have gone on to work in international business, law, publishing, education, journalism, and public policy, among other fields. A bachelor of arts in Romance studies qualifies graduates for employment in private-sector firms, foundations, educational institutions, and government agencies. A second major or minor in Romance studies can be an asset for students seeking careers in any field requiring foreign language proficiency and intercultural communication skills, including the health professions and the sciences. The department offers several courses dedicated to the practical application of Romance languages for specific careers (business, law, health professions, translation) alongside courses that contribute to a well-rounded liberal arts education.

Romance studies majors often pursue post-graduate education. M.A. and Ph.D. programs in Romance studies are oriented towards literary,

linguistic, and cultural studies, and the undergraduate student should prepare accordingly. Useful allied disciplines are English, comparative literature, history, classics, philosophy, linguistics, and art history. Faculty members can advise students on choices of graduate schools.

Majors

- Romance Languages Major, B.A.—French and Francophone Studies (p. 595)
- Romance Languages Major, B.A.—Italian (p. 600)
- Romance Languages Major, B.A.—Portuguese (p. 603)
- Romance Languages Major, B.A.—Hispanic Studies (p. 606)
- Romance Languages Major, B.A.—Hispanic Linguistics (p. 610)

Minors

- French Minor (p. 614)
- Italian Minor (p. 615)
- Portuguese Minor (p. 616)
- Hispanic Studies Minor (p. 617)
- Spanish Minor for the Professions (p. 617)
- Translation and Interpreting Minor (p. 618)

Romance Languages Major, B.A. – French and Francophone Studies

The French and Francophone Studies concentration offers students a complete language program which includes elementary, intermediate, and advanced language, conversation, composition, phonetics, and global varieties of French. The primary focus of instruction is on communication, with the goal of developing the greatest possible capability in comprehending and producing the target language, whether spoken, written, or as pertaining to intercultural competency. A full complement of upper-level courses in literature, film, linguistics, professional French, and cultural studies is offered each year. Our skills-based courses emphasize the use of language in realistic settings, and our content-based courses complement the language-learning experience with practice in an authentic context or by learning academic subject content. In addition, the program offers a number of courses taught in English with General Education or Major/Minor credit.

French and Francophone Studies provides students with a comprehensive education in the linguistic, literary, cinematic, philosophical, and cultural traditions of France and the francophone world, including indigenous, Afro-descendant, Asian, and other cultures. Students obtain well-grounded critical knowledge of the literatures, languages, and cultures across the French-speaking world, often through collaborative research with faculty, with the goal of promoting greater self-awareness and encouraging responsible participation in the global 21st century. Qualifying French majors can pursue an Honors Thesis with

one of our faculty members. Beyond the classroom, the French program offers students exciting opportunities in internships; directed and independent research experiences; a graduate conference in Romance Studies; film series, guest speaker events, an active French Club, and the UNC Chapter of the National French Honor Society (Pi Delta Phi). Students can also participate in a wide choice of study abroad programs (summer, semester, and full year), including the UNC in Montpellier Programs.

Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Through coursework that emphasizes language acquisition, rhetoric, composition, oral and written expression, historical depth, cultural variety, and interdisciplinary and professional connections, our majors receive sustained personalized training in their fields of choice.

Upon completion of the program in Romance languages, students should be able to:

- Demonstrate proficiency in listening, speaking, reading, and writing in the target language in a variety of personal, professional, and academic settings.
- Demonstrate knowledge of major concepts, methods, and reasonings employed in the language major of their choice.
- Demonstrate knowledge of empirical facts (both through historical breadth and more specialized exploration) about the target cultures.

Upon completion of the program in Romance languages, students will have gained:

- Advanced communication abilities in one of the Romance languages
- Interpersonal and intercultural awareness and competencies (adaptability, resilience, team working and connecting expertise across differences)
- Problem-solving skills
- Critical and analytical thinking skills
- Active learning skills fostering creativity, originality, and innovation
- Ability to gain access to top graduate programs or to apply acquired knowledge and skills in relevant careers

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
One of the following courses: ¹		3
FREN 255	 Conversation I ^H	
FREN 260	 Literature and the French-Speaking World ^H	
FREN 262	 Cultural and Linguistic Variety in the French-Speaking World	
FREN 300	French Composition and Grammar Review	3
Seven additional courses above 204, which must include: ²		21
At least one course focused on French and Francophone contexts up to 1789 (see course list below) ³		
At least one course focused on French and Francophone contexts since 1789 (see course list below) ³		
At least four courses taught in French (see course lists below)		
Total Hours		27

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Students may not take more than two courses from FREN 255, FREN 260, and FREN 262. If a second course is taken, it may be used as one of the seven electives.

² Excluding FREN 401, FREN 402, FREN 501, FREN 601, and FREN 692H. One course may be taken outside the Department of Romance Studies, if applicable and with prior approval by the undergraduate advisor in French. This rule does not affect Study Abroad.

³ Special topics courses (FREN 390, FREN 490, FREN 590, FREN 690) may fulfill historical distribution requirements, depending on topic, with approval of the Undergraduate Advisor in French.

Courses That May Count Toward the French Major

Code	Title	Hours
FREN 280	 French "Discoveries" of the Americas in Translation ⁴	3
FREN 285	Sex, Philosophy, and Politics: Revolutionary Literature in Translation ⁴	3

FREN 389	History of French Cinema II: 1950 to the Present ⁴	3
FREN 390	Special Topics in French and Francophone Studies ¹	3
FREN 395	Research for Advanced French Students	1-3
FREN 403	Advanced Composition	3
FREN 421	Old French ²	3
FREN 436	 Currents in Caribbean Literature ³	3
FREN 437	Literary and Cultural Theory in France	3
FREN 452	Muslim Women in France and the United States ³	3
FREN 489	19th-Century Literature and Culture ³	3
FREN 490	Special Topics in French and Francophone Studies ¹	3
FREN 500	Research Methods in French and European Studies ³	3
FREN 504	Cultural Wars: French/United States Perspectives ³	3
FREN 505	African Francophone Cinema ³	3
FREN 513	20th- and 21st-Century French Literature and Culture ³	3
FREN 515	Social Networks: Technology and Community in Modern France ³	3
FREN 522	French Middle Ages ²	3
FREN 530	Postmodernisms ³	3
FREN 554	Writing the Mediterranean ²	3

FREN 555	Crossing Gazes: Multidirectional and Conflicting Memories of Algeria ³	3
FREN 561	French Renaissance Literature and Culture ²	3
FREN 562	Poetry of the French Renaissance ²	3
FREN 563	Studies in the Anglo-French Renaissance ⁴	3
FREN 564	History of the French Language ²	3
FREN 565	French Phonetics and Phonology	3
FREN 566	Structure of Modern French	3
FREN 575	20th- and 21st-Century Francophone Literature and the Visual Arts ³	3
FREN 576	Francophone Cultural Studies ³	3
FREN 583	18th-Century French Literature and Culture ²	3
FREN 585	Libertinism and Sexuality ²	3
FREN 586	Studies in French Cinema ⁴	3
FREN 590	Special Topics in French and Francophone Studies ¹	3
FREN 611	Contemporary Novelists from the French-Speaking World ³	3
FREN 617	Framing Identities: Franco-Arab Transvisual Transcultural Contexts ³	3
FREN 670	17th-Century French Literature and Culture ²	3
FREN 675	Literature and Enlightenment, 17th - 18th Centuries ²	3
FREN 687	Diaspora and Transculturalism in Québécois Literature ³	3
FREN 690	Special Topics in French and Francophone Studies ¹	3
FREN 691H	 Honors Thesis in French	3

¹ Special topics and independent study courses may fulfill historical distribution requirements, depending on topic, with approval of the undergraduate advisor in French.

² Taught in French *and* focused on French and Francophone contexts up to 1789.

³ Taught in French *and* focused on French and Francophone contexts since 1789.

⁴ Taught in English.

French (FREN) course descriptions (p.).

We offer a strong emphasis on European and francophone studies as well as the Languages across the Curriculum Program (LAC) (p. 652), which allows students to participate in one-hour, one-credit discussion sections in French on an array of courses across the College of Arts and Sciences.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Sample Plan One

This plan assumes a placement of FREN 105 on the Foreign Language placement test. Student placement (and plans) may vary. Although it is possible to complete the French and Francophone studies major if a student begins with FREN 101, summer school, study abroad, or doubling-up on courses in the final year may be necessary in order to complete it in a timely manner.

First Year		Hours
First-Year Foundations Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)		3
IDST 111L	 Data Literacy Lab	1
Major Courses		
FREN 105	French for High Beginners	4

Special Opportunities in Romance Studies Undergraduate Research

The Department of Romance Studies offers a gateway for research in the humanities, including the various fields that make up Romance studies. Research activities include the honors thesis, summer research fellowships, or engaging in mentoring projects with professors which lead to opportunities to present papers at conferences or for publication in the University's undergraduate research journal.

Annual Research Opportunities:

- Office for Undergraduate Research (<https://our.unc.edu/>)
- Celebration of Undergraduate Research (<https://our.unc.edu/celebration-of-undergraduate-research/>)
- UNC JOURney (<http://uncjourney.unc.edu/>)
- Summer Undergraduate Research Fellowship (<https://our.unc.edu/surf/>)
- Burch Fellowship (<https://honorscarolina.unc.edu/fellowships/burch-fellowship/>)
- Robinson Honors Fellowship (<https://honorscarolina.unc.edu/fellowships/robinson-honors-fellowship/>)

Honors

The departmental honors program is open to any qualified major with a cumulative grade point average of 3.3 or higher and 3.5 or higher in their major courses. Eligible honors candidates will formulate a topic and select an appropriate faculty member to supervise the writing of an honors thesis. Specific coursework for the major with honors consists of enrollment in the honors thesis courses in the language of the major emphasis.

Code	Title	Hours
FREN 691H & FREN 692H	Honors Thesis in French and Honors Thesis in French	6
ITAL 691H & ITAL 692H	Honors Thesis and Honors Thesis in Italian	6
PORT 691H & PORT 692H	Honors Thesis and Honors Thesis in Portuguese	6
SPAN 691H & SPAN 692H	Honors Thesis and Honors Thesis in Spanish	6

691H is taken in the fall semester of the senior year and 692H is taken in the spring semester. In the 692H course, the thesis will be completed and the student will participate in an oral defense with the thesis director and two additional readers, to be agreed upon by the student and director. The thesis director, in consultation with the readers, will recommend that the student who has defended the thesis graduate with honors, highest honors, or with course credit. FREN 691H, ITAL 691H, PORT 691H, and SPAN 691H may count toward the courses for the major, but FREN 692H, ITAL 692H, PORT 692H, and SPAN 692H may not. Students who intend to graduate in December should adjust the scheduling of

these courses in order to allow for completion of the honors project in December. Students meeting the required grade point averages should contact the undergraduate advisor for their language. For detailed information on the B.A. with honors, visit the department's website (<https://romancestudies.unc.edu/undergraduate/special-studies-honors-thesis/>).

Collaborative Online International Learning

The department works in partnership with the Global Affairs COIL Program (<https://global.unc.edu/our-work/coil/>) and offers select courses that involve shared learning between students in a course at UNC–Chapel Hill and peer students at a global partner university. Faculty members at both institutions design collaborative activities for their students, such as completing small group projects, engaging in dialogue drawing on their different societal or disciplinary perspectives, or exchanging scholarly or creative work.

Out-of-Class Language Experience

The department offers credit-bearing internship opportunities through ROML 293 and service-learning opportunities (<http://ccps.unc.edu/apples/>) through ROML 194. Both courses satisfy the High-Impact General Education requirement (in the IDEAs in Action curriculum) and the experiential education (EE) General Education requirement (in the Making Connections curriculum). While ROML 293 is a standalone course, ROML 194 is always connected to a specific course.

Each semester the department offers a film series where all students are invited to attend screenings of films in French, Italian, Portuguese, and Spanish. All films have subtitles. It is a great opportunity to meet people in different courses and language sections that share an interest in film.

Students also find opportunities to speak Spanish and meet native Spanish speakers in an informal weekly tertulia (gathering). Additional activities involving Spanish include attending lectures, receptions, and films organized by the department and student organizations such as CHisPA (Carolina Hispanic Association); and serving the community through a variety of volunteer opportunities.

Students studying French are encouraged to become members of the French club, les Francophiles, and participate in the weekly conversation hour and other French Club activities. Departmental lectures and film series are also offered.

Students interested in Italian language and culture may attend film series, guest lectures, and a series of other extracurricular events including games and conversation hours. They may also wish to join the undergraduate Italian Club.

Students who wish to practice Portuguese can meet weekly for the bate-papo (chat). Students of Portuguese also engage in editorial work and publish in the student journal *Revistinha*.

Study Abroad

The Department of Romance Studies has partnered with the Study Abroad Office to sponsor year-long, semester-long, and summer programs appropriate for students of the Romance languages. Among many options, it features longstanding opportunities through its UNC in Montpellier, UNC in Seville, and Florence programs. Students from UNC–Chapel Hill may earn up to 30 semester hours of undergraduate credit in these programs, which are open to qualified undergraduates regardless of academic major. While, in general, students may satisfy up to 50 percent of major or minor coursework abroad, courses that are taught by Romance studies faculty may count differently. For example,

students completing the Spanish minor for the professions in health and business may complete all or most of the minor in faculty-led programs abroad. Similar options are available to students completing a French minor.

Students who participate in Study Abroad during the semester have the opportunity to work as course correspondents for an on-campus course in Romance studies. Course correspondents report back to the class they serve throughout the semester via online tools and may receive one hour of credit for their informative work.

General inquiries concerning any of these programs should be addressed to the Study Abroad Office (<https://studyabroad.unc.edu>).

Undergraduate Awards

French

Students have the opportunity to be inducted into Pi Delta Phi, the National French Honor Society. Those with outstanding records in French are recommended as candidates for the Jacques Hardré Award, which is given to the best graduating senior in French; it includes a cash award.

Italian

Students are nominated for membership in Gamma Kappa Alpha, the Italian Honor Society, by undergraduate instructors. The society recognizes “outstanding scholastic performance in the fields of Italian language and literature” and encourages students “to acquire a greater interest in, and a deeper understanding of, Italian culture.” The Kimberly Kyser Award for Excellence in Italian is awarded to the most outstanding student in Italian and includes a cash prize.

Portuguese

Each year the department awards the Camões Prize to the outstanding student in Portuguese during that year. The prize carries a monetary award made possible by a donation from the Gulbenkian Foundation.

Spanish

Students have the opportunity to be inducted into Sigma Delta Pi, the National Spanish Honor Society. Those with outstanding performance in the Hispanic literatures and cultures or the Hispanic linguistics majors are eligible for several prizes including the Chancellor's Award, given to the top graduating senior, the Stoudemire Awards, and the Larry D. King Fellowship.

Romance Languages Major, B.A. – Italian

UNC–Chapel Hill has a rich tradition of Italian studies, including courses that develop linguistic proficiency and many others dedicated to studies of literature, film, food, environmental humanities, politics, history, gender, philosophy, and theater. There is only one course required for the major, with the remaining considered electives. Students may count courses taught in both Italian and English as electives. Many students study abroad and may count courses taken in Italy as electives as well.

The Italian concentration is a popular choice for those interested in global studies or careers in journalism, diplomacy, international business or education, the food and wine industries, or for those seeking a well-rounded education in preparation for medical, law, or any other professional school. Many students who graduate from this program will also pursue graduate school in this or a related field.

Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written,

oral, and visual traditions of their origin and diaspora. Through coursework that emphasizes language acquisition, rhetoric, composition, oral and written expression, historical depth, cultural variety, and interdisciplinary and professional connections, our majors receive sustained personalized training in their fields of choice.

Upon completion of the program in Romance languages, students should be able to:

- Demonstrate proficiency in listening, speaking, reading, and writing in the target language in a variety of personal, professional, and academic settings.
- Demonstrate knowledge of major concepts, methods, and reasonings employed in the language major of their choice.
- Demonstrate knowledge of empirical facts (both through historical breadth and more specialized exploration) about the target cultures.

Upon completion of the program in Romance languages, students will have gained:

- Advanced communication abilities in one of the Romance languages
- Interpersonal and intercultural awareness and competencies (adaptability, resilience, team working and connecting expertise across differences)
- Problem-solving skills
- Critical and analytical thinking skills
- Active learning skills fostering creativity, originality, and innovation
- Ability to gain access to top graduate programs or to apply acquired knowledge and skills in relevant careers

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
ITAL 300	 Communicating in Italian: Media, Culture, and Society	3
Seven additional ITAL courses excluding ITAL 101, ITAL 102, ITAL 203, ITAL 204, ITAL 401, ITAL 402 and ITAL 692H. ¹		21
Total Hours		24

¹ With the approval of the undergraduate advisor in Italian, three of the seven elective courses may be substituted with courses in such allied fields as art history, classics, history, geography, music, political

science, global studies, or any field in which the course(s) include(s) discussion of any aspect of Italian history, politics or culture.

The prerequisite for ITAL 300 and all content courses taught in Italian is ITAL 204 or ITAL 402. However the seven electives for the major may include Italian Studies courses taught in English as well, and those may be taken at any time, including during the first and second year, while the student is still enrolled in ITAL 101-ITAL 204.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Special Opportunities in Romance Studies Undergraduate Research

The Department of Romance Studies offers a gateway for research in the humanities, including the various fields that make up Romance

studies. Research activities include the honors thesis, summer research fellowships, or engaging in mentoring projects with professors which lead to opportunities to present papers at conferences or for publication in the University's undergraduate research journal.

Annual Research Opportunities:

- Office for Undergraduate Research (<https://our.unc.edu/>)
- Celebration of Undergraduate Research (<https://our.unc.edu/celebration-of-undergraduate-research/>)
- UNC JOURney (<http://uncjourney.unc.edu/>)
- Summer Undergraduate Research Fellowship (<https://our.unc.edu/surf/>)
- Burch Fellowship (<https://honorscarolina.unc.edu/fellowships/burch-fellowship/>)
- Robinson Honors Fellowship (<https://honorscarolina.unc.edu/fellowships/robinson-honors-fellowship/>)

Honors

The departmental honors program is open to any qualified major with a cumulative grade point average of 3.3 or higher and 3.5 or higher in their major courses. Eligible honors candidates will formulate a topic and select an appropriate faculty member to supervise the writing of an honors thesis. Specific coursework for the major with honors consists of enrollment in the honors thesis courses in the language of the major emphasis.

Code	Title	Hours
FREN 691H & FREN 692H	 Honors Thesis in French and  Honors Thesis in French	6
ITAL 691H & ITAL 692H	 Honors Thesis and  Honors Thesis in Italian	6
PORT 691H & PORT 692H	 Honors Thesis and  Honors Thesis in Portuguese	6
SPAN 691H & SPAN 692H	 Honors Thesis and  Honors Thesis in Spanish	6

691H is taken in the fall semester of the senior year and 692H is taken in the spring semester. In the 692H course, the thesis will be completed and the student will participate in an oral defense with the thesis director and two additional readers, to be agreed upon by the student and director. The thesis director, in consultation with the readers, will recommend that the student who has defended the thesis graduate with honors, highest honors, or with course credit. FREN 691H, ITAL 691H, PORT 691H, and SPAN 691H may count toward the courses for the major, but FREN 692H, ITAL 692H, PORT 692H, and SPAN 692H may not. Students who intend to graduate in December should adjust the scheduling of these courses in order to allow for completion of the honors project in December. Students meeting the required grade point averages should contact the undergraduate advisor for their language. For detailed information on the B.A. with honors, visit the department's website (<https://romancestudies.unc.edu/undergraduate/special-studies-honors-thesis/>).

Collaborative Online International Learning

The department works in partnership with the Global Affairs COIL Program (<https://global.unc.edu/our-work/coil/>) and offers select courses that involve shared learning between students in a course at UNC–Chapel Hill and peer students at a global partner university.

Faculty members at both institutions design collaborative activities for their students, such as completing small group projects, engaging in dialogue drawing on their different societal or disciplinary perspectives, or exchanging scholarly or creative work.

Out-of-Class Language Experience

The department offers credit-bearing internship opportunities through ROML 293 and service-learning opportunities (<http://ccps.unc.edu/apples/>) through ROML 194. Both courses satisfy the High-Impact General Education requirement (in the IDEAs in Action curriculum) and the experiential education (EE) General Education requirement (in the Making Connections curriculum). While ROML 293 is a standalone course, ROML 194 is always connected to a specific course.

Each semester the department offers a film series where all students are invited to attend screenings of films in French, Italian, Portuguese, and Spanish. All films have subtitles. It is a great opportunity to meet people in different courses and language sections that share an interest in film.

Students also find opportunities to speak Spanish and meet native Spanish speakers in an informal weekly tertulia (gathering). Additional activities involving Spanish include attending lectures, receptions, and films organized by the department and student organizations such as CHisPA (Carolina Hispanic Association); and serving the community through a variety of volunteer opportunities.

Students studying French are encouraged to become members of the French club, les Francophiles, and participate in the weekly conversation hour and other French Club activities. Departmental lectures and film series are also offered.

Students interested in Italian language and culture may attend film series, guest lectures, and a series of other extracurricular events including games and conversation hours. They may also wish to join the undergraduate Italian Club.

Students who wish to practice Portuguese can meet weekly for the bate-papo (chat). Students of Portuguese also engage in editorial work and publish in the student journal *Revistinha*.

Study Abroad

The Department of Romance Studies has partnered with the Study Abroad Office to sponsor year-long, semester-long, and summer programs appropriate for students of the Romance languages. Among many options, it features longstanding opportunities through its UNC in Montpellier, UNC in Seville, and Florence programs. Students from UNC–Chapel Hill may earn up to 30 semester hours of undergraduate credit in these programs, which are open to qualified undergraduates regardless of academic major. While, in general, students may satisfy up to 50 percent of major or minor coursework abroad, courses that are taught by Romance studies faculty may count differently. For example, students completing the Spanish minor for the professions in health and business may complete all or most of the minor in faculty-led programs abroad. Similar options are available to students completing a French minor.

Students who participate in Study Abroad during the semester have the opportunity to work as course correspondents for an on-campus course in Romance studies. Course correspondents report back to the class they serve throughout the semester via online tools and may receive one hour of credit for their informative work.

General inquiries concerning any of these programs should be addressed to the Study Abroad Office (<https://studyabroad.unc.edu>).

Undergraduate Awards

French

Students have the opportunity to be inducted into Pi Delta Phi, the National French Honor Society. Those with outstanding records in French are recommended as candidates for the Jacques Hardré Award, which is given to the best graduating senior in French; it includes a cash award.

Italian

Students are nominated for membership in Gamma Kappa Alpha, the Italian Honor Society, by undergraduate instructors. The society recognizes “outstanding scholastic performance in the fields of Italian language and literature” and encourages students “to acquire a greater interest in, and a deeper understanding of, Italian culture.” The Kimberly Kyser Award for Excellence in Italian is awarded to the most outstanding student in Italian and includes a cash prize.

Portuguese

Each year the department awards the Camões Prize to the outstanding student in Portuguese during that year. The prize carries a monetary award made possible by a donation from the Gulbenkian Foundation.

Spanish

Students have the opportunity to be inducted into Sigma Delta Pi, the National Spanish Honor Society. Those with outstanding performance in the Hispanic literatures and cultures or the Hispanic linguistics majors are eligible for several prizes including the Chancellor’s Award, given to the top graduating senior, the Stoudemire Awards, and the Larry D. King Fellowship.

Romance Languages Major, B.A. – Portuguese

Portuguese is the seventh most spoken language in the world, with over 265 million speakers. It is the language of Portugal, Brazil, and parts of Africa and Asia. Brazil, with a population of more than 215 million, is the largest country in South America and has the ninth largest economy in the world.

The program in Portuguese combines the study of the language, culture, and literatures of Brazil, Portugal, and Lusophone Africa. Most students majoring in Portuguese will study abroad in one of our several excellent programs in Brazil and Portugal. In a single semester abroad, a student can complete one half of the major while taking courses that may count concurrently toward a second major or a minor.

Learning a new language is proven to develop skills in at least ten areas, including interpersonal and social competence, cultural awareness and competency, personal growth mindset, practical life skills, metacognitive and learning skills, creativity, interdisciplinary mindset, digital literacy, critical thinking and analysis, and community engagement.

Students majoring in Portuguese receive more individual attention from faculty and advisors than in larger programs. We have several activities per year as well as a weekly conversation hour. This, combined with a shared passion for lusophone culture leads to the development of a strong sense of community among the students and faculty in our program that our graduates point to as the highlight of their UNC undergraduate experience.

Emphasis is placed on the language as it is currently spoken and its historical development. Students study the cultures of the Lusophone world in terms of their historical development and analyze specific texts, films, and other cultural productions from different genres and periods. Students interested in Portuguese should consult the Portuguese language advisor.

Portuguese as a second language will open multiple job opportunities in various fields and in countries with expanding economies and a promising future. UNC students graduating with a Portuguese major have gone on to study in some of the top professional schools in the country in law, medicine, the humanities, and business. Some have entered the US Foreign Service. Several of our students have been awarded Fulbright Scholarships and all have been enriched by the vibrant cultural traditions of Portugal, Brazil, and the Lusophone nations of Africa and Asia, including literature, film, art, and music.

Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Through coursework that emphasizes language acquisition, rhetoric, composition, oral and written expression, historical depth, cultural variety, and interdisciplinary and professional connections, our majors receive sustained personalized training in their fields of choice.

Upon completion of the program in Romance languages, students should be able to:

- Demonstrate proficiency in listening, speaking, reading, and writing in the target language in a variety of personal, professional, and academic settings.
- Demonstrate knowledge of major concepts, methods, and reasonings employed in the language major of their choice.
- Demonstrate knowledge of empirical facts (both through historical breadth and more specialized exploration) about the target cultures.

Upon completion of the program in Romance languages, students will have gained:

- Advanced communication abilities in one of the Romance languages
- Interpersonal and intercultural awareness and competencies (adaptability, resilience, team working and connecting expertise across differences)
- Problem-solving skills
- Critical and analytical thinking skills
- Active learning skills fostering creativity, originality, and innovation
- Ability to gain access to top graduate programs or to apply acquired knowledge and skills in relevant careers

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Eight courses chosen from among the following:		24
PORT 270I	 Reimagining Climate Futures in the Lusophone World: Narratives, Data, and Discourse	
PORT 296	Course Correspondent Project in Portuguese	
PORT 310	 Advanced Communication in Portuguese: Media & Entertainment	
PORT 316	 Brazilian Performance: Capoeira, Resilience and Resistance through Movement, Music and Dance ¹	
PORT 323	 Advanced Communication in Portuguese: History, Nature, and Society	
PORT 370	 Modern Brazil through Literature and Film in Translation ¹	
PORT 375	 Portuguese and Brazilian Fiction in Translation ¹	
PORT 382	 Women Writers: Brazil and Beyond ¹	
PORT 385	 Verbal Art, Identities, and Nation in Portuguese-Speaking Africa ¹	
PORT 387	 Brazilian Religious Movements through Film and Literature ¹	
PORT 388	 Portuguese, Brazilian, and African Identity in Film ¹	
PORT 396	Independent Study in Portuguese	
PORT 398	Undergraduate Seminar in Portuguese	
PORT 408	LAC Recitation ²	
PORT 420	 Portuguese Language and Culture for the Professions	
PORT 501	Survey of Portuguese Literature I	
PORT 520	 Climate Change and the Cultural Imagination: Lusophone Interpretations	
PORT 521	 Contemporary Portuguese Culture and Contexts	
PORT 526	History of the Portuguese Language	
PORT 535	Brazilian Drama	
PORT 540	Cultural Topics from the Lusophone World	
PORT 691H	 Honors Thesis	
Total Hours		24

¹ Taught in English, credit given for PORT major if some or all work is done in Portuguese. What and how much work is done in Portuguese to be determined by a discussion with the instructor based on student's current level of Portuguese.

² This is a one-credit hour, once-a-week course. Students may repeat for credit since this is a rotating topics course.

With the approval of the undergraduate advisor for Portuguese, students majoring in Romance languages with an emphasis in Portuguese may count up to nine hours in related areas in such departments, programs,

and curricula as history, art, music, cultural studies, and women's and gender studies.

Because few entering students have completed coursework in Portuguese prior to enrolling in the University, it is essential that interested students start the language as early as the first year. Completion of PORT 204 or PORT 402 or equivalent is a prerequisite for the major courses taught in Portuguese. Students may begin taking PORT courses taught in English prior to fulfilling this requirement.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Romance Languages Major, B.A. – Hispanic Studies

Spanish, the world’s third largest language and second in terms of native speakers, is spoken natively by nearly 500 million people across the globe, and as a second or foreign language by almost 100 million. The over 50 million Hispanics in the United States have become the fastest-growing social and political segment in North America. Because of its prominence, learning to communicate in Spanish can be essential for those entering the global economic market and numerous professions.

Spanish studies at UNC–Chapel Hill thrives on innovative literary, linguistic, and theoretical approaches to the Spanish-speaking world, and includes the study of indigenous, Afro-descendant, Asian, and other cultures. The Hispanic studies curriculum is designed to allow students to concentrate in one field of study (Hispanic literatures and cultures, Spanish for the professions, Hispanic linguistics, and translation and interpreting) while also exploring other areas of interest. As a result, students obtain well-grounded and comprehensive critical knowledge of the literatures, languages, and cultures of Spain and the Americas, as well as an appreciation of the language applied to a professional field. In addition to their course work, students in the major may choose to work on collaborative research, enter an Honors contract, and/or pursue an Honors thesis with one of our faculty members.

Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Through coursework that emphasizes language acquisition, rhetoric, composition, oral and written expression, historical depth, cultural variety, and

interdisciplinary and professional connections, our majors receive sustained personalized training in their fields of choice.

Upon completion of the program in Romance languages, students should be able to:

- Demonstrate proficiency in listening, speaking, reading, and writing in the target language in a variety of personal, professional, and academic settings.
- Demonstrate knowledge of major concepts, methods, and reasonings employed in the language major of their choice.
- Demonstrate knowledge of empirical facts (both through historical breadth and more specialized exploration) about the target cultures.

Upon completion of the program in Romance languages, students will have gained:

- Advanced communication abilities in one of the Romance languages
- Interpersonal and intercultural awareness and competencies (adaptability, resilience, team working and connecting expertise across differences)
- Problem-solving skills
- Critical and analytical thinking skills
- Active learning skills fostering creativity, originality, and innovation
- Ability to gain access to top graduate programs or to apply acquired knowledge and skills in relevant careers

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
SPAN 300	Grammar and Structure of Spanish ^{1, H}	3
or SPAN 301	 Introduction to Literary and Cultural Analysis	
or SPAN 302	 Literary and Cultural Analysis for Heritage Learners	
Three courses from one of the following concentrations (see course lists below):		9
Hispanic Literatures and Cultures		
Spanish for the Professions		
Translation and Interpreting		
Hispanic Linguistics		

Four elective courses numbered SPAN 330 or higher (except SPAN 401-SPAN 402, SPAN 404-405, SPAN 414-SPAN 417, SPAN 601, and SPAN 691H-692H)	12
Total Hours	24

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ SPAN 300 is the recommended core course for the Hispanic Linguistics concentration since it is a prerequisite for many Hispanic Linguistics courses. SPAN 301 or SPAN 302 is the recommended core course for the Hispanic Literatures and Cultures concentration since it is a prerequisite for upper-level literature courses.

Completion of SPAN 261 or SPAN 267 is considered a prerequisite for the Hispanic Studies major.

Students majoring in Hispanic Studies with a concentration in an area OTHER than Translation and Interpreting may wish to complement their major with the Spanish Minor in Translation and Interpreting (<https://catalog.unc.edu/undergraduate/programs-study/translation-minor/>) by completing at least three of SPAN 351, 352, 369, and 370 in addition to the major requirements. Students majoring in Hispanic Studies with a concentration in an area OTHER than Spanish for the Professions may wish to complement their major with the Spanish Minor for the Professions (<https://catalog.unc.edu/undergraduate/programs-study/spanish-professions-minor/>) by completing SPAN 320 and 325 or SPAN 323 and 324 or SPAN 321 and 328, and SPAN 329 in addition to the major requirements.

Hispanic Literatures and Cultures

Code	Title	Hours
One course from the following list:		3
SPAN 338	 Trans-Atlantic Cultural Topics	
SPAN 340	 Topics in the Cultural History of Iberia	
SPAN 344	 Latin American Cultural Topics	
SPAN 371	Studies in Spanish Literature	3
SPAN 373	 Studies in Latin American Literature	3
Total Hours		9

Spanish for the Professions

Code	Title	Hours
Two courses from one of the following pairs:		6
SPAN 320 & SPAN 325	Spanish for Business (First Semester) and Spanish for Business (Second Semester)	
SPAN 321 & SPAN 328	 Spanish for the Medical Professions (First Semester) and Spanish for the Medical Professions (Second Semester)	
SPAN 323 & SPAN 324	Spanish for the Legal Professions (First Semester) and Spanish for the Legal Professions (Second Semester)	
SPAN 329	Spanish for Professional and Community Engagement	3
Total Hours		9

Translation and Interpreting

Code	Title	Hours
Three courses from the following list:		9
SPAN 351	Spanish Interpretation I	
SPAN 352	Spanish Interpretation II	
SPAN 369	Introduction to Translation	
SPAN 370	Spanish Translation II	
Total Hours		9

Hispanic Linguistics

Code	Title	Hours
SPAN 360	 Introduction to Hispanic Linguistics	3
SPAN 376	 Spanish Phonetics and Phonology	3
One course from the following list:		3
SPAN 375	Spanish of the United States	
SPAN 378	 Afro-Hispanic Language Contacts	
SPAN 397	Undergraduate Seminar in Language and Linguistics	
Total Hours		9

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Sample Plan One

This plan assumes a placement of SPAN 105 on the Foreign Language placement test. Student placement (and plans) may vary. Although it is possible to complete the Hispanic Studies major if a student begins with SPAN 101, summer school, study abroad, or doubling up on courses in the final year may be necessary in order to complete it in a timely manner.

First Year		Hours
First-Year Foundation Courses		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)		3
IDST 111L	 Data Literacy Lab	1
Major Courses		
SPAN 105	Spanish for High Beginners	4
SPAN 203	 Intermediate Spanish I ^H	3
Hours		15
Sophomore Year		
SPAN 204	 Intermediate Spanish II ^H	3

SPAN 261	 Advanced Spanish in Context ^H	3
or	or  Advanced Spanish in Context for Heritage Learners	
SPAN 267		
Hours		6
Junior Year		
SPAN 300	Grammar and Structure of Spanish ^H	3
or	or  Introduction to Literary and Cultural Analysis	
SPAN 301		
or	or  Literary and Cultural Analysis for Heritage Learners	
SPAN 302		
SPAN —	Concentration course #1	3
SPAN —	Concentration course #2	3

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Special Opportunities in Romance Studies Undergraduate Research

The Department of Romance Studies offers a gateway for research in the humanities, including the various fields that make up Romance studies. Research activities include the honors thesis, summer research fellowships, or engaging in mentoring projects with professors which lead to opportunities to present papers at conferences or for publication in the University's undergraduate research journal.

Annual Research Opportunities:

- Office for Undergraduate Research (<https://our.unc.edu/>)
- Celebration of Undergraduate Research (<https://our.unc.edu/celebration-of-undergraduate-research/>)
- UNC JOURney (<http://uncjourney.unc.edu/>)
- Summer Undergraduate Research Fellowship (<https://our.unc.edu/surf/>)
- Burch Fellowship (<https://honorscarolina.unc.edu/fellowships/burch-fellowship/>)
- Robinson Honors Fellowship (<https://honorscarolina.unc.edu/fellowships/robinson-honors-fellowship/>)

Honors

The departmental honors program is open to any qualified major with a cumulative grade point average of 3.3 or higher and 3.5 or higher in their major courses. Eligible honors candidates will formulate a topic and select an appropriate faculty member to supervise the writing of an honors thesis. Specific coursework for the major with honors consists of enrollment in the honors thesis courses in the language of the major emphasis.

Code	Title	Hours
FREN 691H & FREN 692H	 Honors Thesis in French and  Honors Thesis in French	6
ITAL 691H & ITAL 692H	 Honors Thesis and  Honors Thesis in Italian	6
PORT 691H & PORT 692H	 Honors Thesis and  Honors Thesis in Portuguese	6
SPAN 691H & SPAN 692H	 Honors Thesis and  Honors Thesis in Spanish	6

691H is taken in the fall semester of the senior year and 692H is taken in the spring semester. In the 692H course, the thesis will be completed and the student will participate in an oral defense with the thesis director and two additional readers, to be agreed upon by the student and director. The thesis director, in consultation with the readers, will recommend that the student who has defended the thesis graduate with honors, highest honors, or with course credit. FREN 691H, ITAL 691H, PORT 691H, and SPAN 691H may count toward the courses for the major, but FREN 692H, ITAL 692H, PORT 692H, and SPAN 692H may not. Students who intend to graduate in December should adjust the scheduling of these courses in order to allow for completion of the honors project in December. Students meeting the required grade point averages should contact the undergraduate advisor for their language. For detailed information on the B.A. with honors, visit the department's website (<https://romancestudies.unc.edu/undergraduate/special-studies-honors-thesis/>).

Collaborative Online International Learning

The department works in partnership with the Global Affairs COIL Program (<https://global.unc.edu/our-work/coil/>) and offers select courses that involve shared learning between students in a course at UNC-Chapel Hill and peer students at a global partner university. Faculty members at both institutions design collaborative activities for their students, such as completing small group projects, engaging in dialogue drawing on their different societal or disciplinary perspectives, or exchanging scholarly or creative work.

Out-of-Class Language Experience

The department offers credit-bearing internship opportunities through ROML 293 and service-learning opportunities (<http://ccps.unc.edu/apples/>) through ROML 194. Both courses satisfy the High-Impact General Education requirement (in the IDEAs in Action curriculum) and the experiential education (EE) General Education requirement (in the Making Connections curriculum). While ROML 293 is a standalone course, ROML 194 is always connected to a specific course.

Each semester the department offers a film series where all students are invited to attend screenings of films in French, Italian, Portuguese, and Spanish. All films have subtitles. It is a great opportunity to meet people in different courses and language sections that share an interest in film.

Students also find opportunities to speak Spanish and meet native Spanish speakers in an informal weekly tertulia (gathering). Additional activities involving Spanish include attending lectures, receptions, and films organized by the department and student organizations such as CHisPA (Carolina Hispanic Association); and serving the community through a variety of volunteer opportunities.

Students studying French are encouraged to become members of the French club, les Francophiles, and participate in the weekly conversation hour and other French Club activities. Departmental lectures and film series are also offered.

Students interested in Italian language and culture may attend film series, guest lectures, and a series of other extracurricular events including games and conversation hours. They may also wish to join the undergraduate Italian Club.

Students who wish to practice Portuguese can meet weekly for the bate-papo (chat). Students of Portuguese also engage in editorial work and publish in the student journal *Revistinha*.

Study Abroad

The Department of Romance Studies has partnered with the Study Abroad Office to sponsor year-long, semester-long, and summer programs appropriate for students of the Romance languages. Among many options, it features longstanding opportunities through its UNC in Montpellier, UNC in Seville, and Florence programs. Students from UNC–Chapel Hill may earn up to 30 semester hours of undergraduate credit in these programs, which are open to qualified undergraduates regardless of academic major. While, in general, students may satisfy up to 50 percent of major or minor coursework abroad, courses that are taught by Romance studies faculty may count differently. For example, students completing the Spanish minor for the professions in health and business may complete all or most of the minor in faculty-led programs abroad. Similar options are available to students completing a French minor.

Students who participate in Study Abroad during the semester have the opportunity to work as course correspondents for an on-campus course in Romance studies. Course correspondents report back to the class they serve throughout the semester via online tools and may receive one hour of credit for their informative work.

General inquiries concerning any of these programs should be addressed to the Study Abroad Office (<https://studyabroad.unc.edu>).

Undergraduate Awards

French

Students have the opportunity to be inducted into Pi Delta Phi, the National French Honor Society. Those with outstanding records in French are recommended as candidates for the Jacques Hardré Award, which is given to the best graduating senior in French; it includes a cash award.

Italian

Students are nominated for membership in Gamma Kappa Alpha, the Italian Honor Society, by undergraduate instructors. The society recognizes “outstanding scholastic performance in the fields of Italian language and literature” and encourages students “to acquire a greater interest in, and a deeper understanding of, Italian culture.” The Kimberly Kyser Award for Excellence in Italian is awarded to the most outstanding student in Italian and includes a cash prize.

Portuguese

Each year the department awards the Camões Prize to the outstanding student in Portuguese during that year. The prize carries a monetary award made possible by a donation from the Gulbenkian Foundation.

Spanish

Students have the opportunity to be inducted into Sigma Delta Pi, the National Spanish Honor Society. Those with outstanding performance in the Hispanic literatures and cultures or the Hispanic linguistics majors are eligible for several prizes including the Chancellor’s Award, given to the top graduating senior, the Stoudemire Awards, and the Larry D. King Fellowship.

Romance Languages Major, B.A. – Hispanic Linguistics

Spanish, the world’s third largest language and second in terms of native speakers, is spoken natively by nearly 500 million people across the globe, and as a second or foreign language by almost 100 million people. The over 50 million Hispanics in the United States have become the fastest-growing social and political segment in North America. Because of its prominence, learning to communicate in Spanish can be essential for those entering the global economic market and numerous professions.

Spanish studies at UNC–Chapel Hill thrives on innovative literary, linguistic, and theoretical approaches to the Spanish-speaking world, and includes the study of indigenous, Afro-descendant, Asian, and other cultures. Students obtain well-grounded and comprehensive critical knowledge of the literatures, languages, and cultures of Spain and the Americas, often through collaborative research with a faculty member. Qualifying students have the opportunity to pursue an honor's thesis with one of our faculty members.

Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Through coursework that emphasizes language acquisition, rhetoric, composition, oral and written expression, historical depth, cultural variety, and interdisciplinary and professional connections, our majors receive sustained personalized training in their fields of choice.

Upon completion of the program in Romance languages, students should be able to:

- Demonstrate proficiency in listening, speaking, reading, and writing in the target language in a variety of personal, professional, and academic settings.
- Demonstrate knowledge of major concepts, methods, and reasonings employed in the language major of their choice.
- Demonstrate knowledge of empirical facts (both through historical breadth and more specialized exploration) about the target cultures.

Upon completion of the program in Romance languages, students will have gained:

- Advanced communication abilities in one of the Romance languages
- Interpersonal and intercultural awareness and competencies (adaptability, resilience, team working and connecting expertise across differences)
- Problem-solving skills
- Critical and analytical thinking skills
- Active learning skills fostering creativity, originality, and innovation
- Ability to gain access to top graduate programs or to apply acquired knowledge and skills in relevant careers

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
SPAN 300	Grammar and Structure of Spanish ^H	3
Two introductory Hispanic linguistics courses:		6
SPAN/LING 360	 Introduction to Hispanic Linguistics ¹	
SPAN/LING 376	 Spanish Phonetics and Phonology	
One course in a language relevant to Spanish chosen from:		3
PORT 401	Beginning Accelerated Brazilian Portuguese I	
SPAN 414	Languages of Spain I	
SPAN 416	Languages of the Americas I	
ROML 461	Beginning Accelerated Romanian	
Four additional courses chosen from the following: ²		12
PORT 402	 Intermediate Accelerated Brazilian Portuguese II	
SPAN 375	Spanish of the United States	
SPAN 378	 Afro-Hispanic Language Contacts	
SPAN 397	Undergraduate Seminar in Language and Linguistics	
SPAN 415	Languages of Spain II	
SPAN 417	Languages of the Americas II	
ROML 462	 Intermediate Accelerated Romanian	
ROML 578	Comparative History of the Romance Languages	
SPAN 621	Literary and Cultural History of the Spanish Language	
SPAN 676	Advanced Spanish Phonology	
SPAN 677	Spanish Syntax	
SPAN 678	History of the Spanish Language	
SPAN 679	Spanish Pragmatics	
SPAN 680	First- and Second-Language Acquisition of Spanish	
SPAN 681	Spanish Semantics	
SPAN 682	Spanish Sociolinguistics	
SPAN 683	Guaraní Linguistics	
SPAN 684	Spanish Dialectology and Variation	
Total Hours		24

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ SPAN 360 should be taken as early as possible because it is a prerequisite for most other courses in the major.

² Two of which must be from the 500-level or above. Only one of PORT 402, SPAN 415, and SPAN 417 can be taken to satisfy this requirement of four additional courses.

The requirements consist of eight courses between SPAN 300 and SPAN 699. Completion of SPAN 261 or SPAN 267 is a prerequisite for the Hispanic linguistics major.

Prospective majors should complete the global language requirement by the end of their sophomore year. Students majoring in Hispanic

linguistics may wish to complement the major with the Spanish minor in translation and interpreting (p. 618).

LING courses that are crosslisted with the same numbering and title count equally to satisfy the requisites for this major.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Sample Plan One

This plan assumes a placement of SPAN 105 on the Foreign Language placement test. Student placement (and plans) may vary. Although it is possible to complete the Hispanic linguistics concentration if a student begins with SPAN 101 , summer school, study abroad, or doubling up on courses in the final year may be necessary in order to complete it in a timely manner.

- Burch Fellowship (<https://honorscarolina.unc.edu/fellowships/burch-fellowship/>)
- Robinson Honors Fellowship (<https://honorscarolina.unc.edu/fellowships/robinson-honors-fellowship/>)

Honors

The departmental honors program is open to any qualified major with a cumulative grade point average of 3.3 or higher and 3.5 or higher in their major courses. Eligible honors candidates will formulate a topic and select an appropriate faculty member to supervise the writing of an honors thesis. Specific coursework for the major with honors consists of enrollment in the honors thesis courses in the language of the major emphasis.

Code	Title	Hours
FREN 691H & FREN 692H	 Honors Thesis in French and  Honors Thesis in French	6
ITAL 691H & ITAL 692H	 Honors Thesis and  Honors Thesis in Italian	6
PORT 691H & PORT 692H	 Honors Thesis and  Honors Thesis in Portuguese	6
SPAN 691H & SPAN 692H	 Honors Thesis and  Honors Thesis in Spanish	6

691H is taken in the fall semester of the senior year and 692H is taken in the spring semester. In the 692H course, the thesis will be completed and the student will participate in an oral defense with the thesis director and two additional readers, to be agreed upon by the student and director. The thesis director, in consultation with the readers, will recommend that the student who has defended the thesis graduate with honors, highest honors, or with course credit. FREN 691H, ITAL 691H, PORT 691H, and SPAN 691H may count toward the courses for the major, but FREN 692H, ITAL 692H, PORT 692H, and SPAN 692H may not. Students who intend to graduate in December should adjust the scheduling of these courses in order to allow for completion of the honors project in December. Students meeting the required grade point averages should contact the undergraduate advisor for their language. For detailed information on the B.A. with honors, visit the department's website (<https://romancestudies.unc.edu/undergraduate/special-studies-honors-thesis/>).

Collaborative Online International Learning

The department works in partnership with the Global Affairs COIL Program (<https://global.unc.edu/our-work/coil/>) and offers select courses that involve shared learning between students in a course at UNC–Chapel Hill and peer students at a global partner university. Faculty members at both institutions design collaborative activities for their students, such as completing small group projects, engaging in dialogue drawing on their different societal or disciplinary perspectives, or exchanging scholarly or creative work.

Out-of-Class Language Experience

The department offers credit-bearing internship opportunities through ROML 293 and service-learning opportunities (<http://ccps.unc.edu/apples/>) through ROML 194. Both courses satisfy the High-Impact General Education requirement (in the IDEAs in Action curriculum) and the experiential education (EE) General Education requirement (in the Making Connections curriculum). While ROML 293 is a standalone course, ROML 194 is always connected to a specific course.

Each semester the department offers a film series where all students are invited to attend screenings of films in French, Italian, Portuguese, and Spanish. All films have subtitles. It is a great opportunity to meet people in different courses and language sections that share an interest in film.

Students also find opportunities to speak Spanish and meet native Spanish speakers in an informal weekly tertulia (gathering). Additional activities involving Spanish include attending lectures, receptions, and films organized by the department and student organizations such as CHispA (Carolina Hispanic Association); and serving the community through a variety of volunteer opportunities.

Students studying French are encouraged to become members of the French club, les Francophiles, and participate in the weekly conversation hour and other French Club activities. Departmental lectures and film series are also offered.

Students interested in Italian language and culture may attend film series, guest lectures, and a series of other extracurricular events including games and conversation hours. They may also wish to join the undergraduate Italian Club.

Students who wish to practice Portuguese can meet weekly for the bate-papo (chat). Students of Portuguese also engage in editorial work and publish in the student journal *Revistinha*.

Study Abroad

The Department of Romance Studies has partnered with the Study Abroad Office to sponsor year-long, semester-long, and summer programs appropriate for students of the Romance languages. Among many options, it features longstanding opportunities through its UNC in Montpellier, UNC in Seville, and Florence programs. Students from UNC–Chapel Hill may earn up to 30 semester hours of undergraduate credit in these programs, which are open to qualified undergraduates regardless of academic major. While, in general, students may satisfy up to 50 percent of major or minor coursework abroad, courses that are taught by Romance studies faculty may count differently. For example, students completing the Spanish minor for the professions in health and business may complete all or most of the minor in faculty-led programs abroad. Similar options are available to students completing a French minor.

Students who participate in Study Abroad during the semester have the opportunity to work as course correspondents for an on-campus course in Romance studies. Course correspondents report back to the class they serve throughout the semester via online tools and may receive one hour of credit for their informative work.

General inquiries concerning any of these programs should be addressed to the Study Abroad Office (<https://studyabroad.unc.edu>).

Undergraduate Awards

French

Students have the opportunity to be inducted into Pi Delta Phi, the National French Honor Society. Those with outstanding records in French are recommended as candidates for the Jacques Hardré Award, which is given to the best graduating senior in French; it includes a cash award.

Italian

Students are nominated for membership in Gamma Kappa Alpha, the Italian Honor Society, by undergraduate instructors. The society recognizes “outstanding scholastic performance in the fields of Italian language and literature” and encourages students “to acquire a greater interest in, and a deeper understanding of, Italian culture.” The Kimberly Kyser Award for Excellence in Italian is awarded to the most outstanding student in Italian and includes a cash prize.

Portuguese

Each year the department awards the Camões Prize to the outstanding student in Portuguese during that year. The prize carries a monetary award made possible by a donation from the Gulbenkian Foundation.

Spanish

Students have the opportunity to be inducted into Sigma Delta Pi, the National Spanish Honor Society. Those with outstanding performance in the Hispanic literatures and cultures or the Hispanic linguistics majors are eligible for several prizes including the Chancellor’s Award, given to the top graduating senior, the Stoudemire Awards, and the Larry D. King Fellowship.

French Minor

The minor in French is designed for students unable to undertake a full nine-course French major. The minor consists of one required course and four electives chosen from across the wide range of courses open to all students in French. Many use it to support their majors in related fields such as global studies, business, history, art history, and anthropology, or to round out their major in the STEM fields. The French minor option is also available to students in some professional schools. Courses for the French minor can be imported through Study Abroad.

Requirements

- In addition to the program requirements listed below, students must:
- take at least nine hours of their minor “core” requirements at UNC–Chapel Hill
 - earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
FREN 300		3
Four additional FREN courses numbered above FREN 204, excluding FREN 308, FREN 401, FREN 402, FREN 601, FREN 692H. At least two courses (six hours) must be above 300. ¹		12
Total Hours		15

¹ Students may not take more than two courses from FREN 255, FREN 260, and FREN 262.

French (FREN) course descriptions (p.).
See the program page here (p. 598) for special opportunities.

Italian Minor

The minor in Italian is designed for those who wish to continue their study of the Italian language and acquire a more in-depth knowledge of Italian history, society, literature, and culture. Many use it to support their majors in related fields such as global studies, business, history, art history, and anthropology, and to round out their major in the STEM fields as well. The minor requires five courses (three fewer than the major), of which four are electives. One of those four can be taken in a related field, and up to two of those four can be taken abroad.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
ITAL 300	 Communicating in Italian: Media, Culture, and Society	3
Four additional ITAL courses excluding ITAL 101, ITAL 102, ITAL 203, ITAL 204, ITAL 401 and ITAL 402. ¹		12
Total Hours		15

The prerequisite for ITAL 300 and all content courses taught in Italian is ITAL 204 or ITAL 402. However, the four electives for the minor may include Italian studies courses taught in English as well, and those may be taken at any time, including during the first and second year, while the student is still enrolled in ITAL 101-ITAL 204.

With the approval of the undergraduate advisor in Italian, one of the four elective courses may be substituted with a course in such allied fields as art history, classics, history, geography, music, political science, global studies, or any field in which the course includes discussion of any aspect of Italian history, politics or culture.

Italian (ITAL) course descriptions (p.).

Portuguese Minor

The minor in Portuguese is designed for those who wish to continue their study of Portuguese and acquire a more in-depth knowledge of Lusophone cultural production, such as film, literature, and the performing arts. Qualifying courses include courses in Portuguese, courses on Lusophone topics taught in English, and certain courses outside the department with a significant amount of content related to the Lusophone world. Many students see it as essential or complementary to their major in fields such as public health, global studies, music, anthropology, or political science.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill

- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
PORT 310	 Advanced Communication in Portuguese: Media & Entertainment	3
Four additional PORT courses numbered between PORT 300 and PORT 699, excluding PORT 401, PORT 402, PORT 691H, and PORT 692H		12
Total Hours		15

The minor in Portuguese requires five courses beyond PORT 204, two of which may be taken abroad.

Hispanic Studies Minor

The minor in Hispanic studies is designed for students who wish to continue their study of the Spanish language and acquire a more in-depth knowledge of Spanish and/or Spanish American literature, culture, or linguistics. Through the selection of courses, students may concentrate on a single region of the Hispanic world (Spain or Spanish America), a specific content area (literature, culture, or linguistics), or a combination of regions and/or content areas.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
SPAN 300	Grammar and Structure of Spanish ^H	3
or SPAN 301	 Introduction to Literary and Cultural Analysis	
or SPAN 302	 Literary and Cultural Analysis for Heritage Learners	
Four courses numbered above SPAN 330, excluding SPAN 401, SPAN 402, SPAN 404, SPAN 405, and SPAN 601		12
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Completion of SPAN 261 or SPAN 267 is considered a prerequisite for the minor.

Spanish Minor for the Professions

The Spanish minor for the professions is designed for students who anticipate careers in which they will need to interact with Hispanic communities in the United States or abroad and who wish to continue the study of Spanish language and culture for specific professional purposes:

business, medical and other health professions, or law and other legal professions. The capstone course in the minor includes the option to engage in experiential learning through field work and/or public service.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Two profession-specific courses in the same professional track from the following options:		6
SPAN 320 & SPAN 325	Spanish for Business (First Semester) and Spanish for Business (Second Semester)	
SPAN 321 & SPAN 328	Spanish for the Medical Professions (First Semester) and Spanish for the Medical Professions (Second Semester)	
SPAN 323 & SPAN 324	Spanish for the Legal Professions (First Semester) and Spanish for the Legal Professions (Second Semester)	
Two additional three-credit SPAN courses outside the professional tracks and above SPAN 300, excluding SPAN 401, SPAN 402, SPAN 404, SPAN 405, and SPAN 601 ¹		6
Capstone course:		
SPAN 329	Spanish for Professional and Community Engagement	3
Total Hours		15

- ¹
- Students pursuing the **business professional track** may not use the core courses from the other professional tracks: SPAN 321 & SPAN 328 or SPAN 323 & SPAN 324.
 - Students pursuing the **medical professional track** may not use the core courses from the other professional tracks: SPAN 320 & SPAN 325 or SPAN 323 & SPAN 324.
 - Students pursuing the **legal professional track** may not use the core courses from the other professional tracks: SPAN 320 & SPAN 325 or SPAN 321 & SPAN 328.

Completion of SPAN 261 or SPAN 267 is considered a prerequisite for the minor.

See the program page here (p. 609) for special opportunities.

Translation and Interpreting Minor

Developments in globalization, international trade, worldwide communication and technology have dramatically increased the demand for qualified translators and interpreters in all realms, especially in

business, technology, communication, marketing, advertisement, government, healthcare, social services, national security, international trade, and law. The current demand for translation and interpreting professionals outweighs the supply available. This program will provide students the background in theory, technical resources, research skills, and literary and cultural competency that are necessary to communicate in more than one language and in written and oral form.

Successful translators and interpreters work for an agency, as independent contractors, or as part of a larger team in national or international organizations, institutions, or associations. Upon completion of the minor, students will be ready to use their inter-cultural and inter-linguistic skills for professional purposes in institutional, academic, or other professional contexts.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
SPAN 300	Grammar and Structure of Spanish ^{1, 2, H}	3
SPAN 369	Introduction to Translation ¹	3
SPAN 351	 Spanish Interpretation I ¹	3
SPAN 370	Spanish Translation II ¹	3
	or SPAN 352 Spanish Interpretation II	3
	One elective course numbered SPAN 330 or above, excluding SPAN 401, SPAN 402, SPAN 404, SPAN 405, SPAN 414, SPAN 415, and SPAN 601 ¹	3
Total Hours		15

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Students must earn a grade of C or better in all five (5) courses (15 credit hours) in the minor.

² Prerequisite, SPAN 261

Department of Sociology

Introduction

The Department of Sociology is the primary home for two majors (sociology major and management and society major) and two minors (health and society minor and social and economic justice minor).

The undergraduate major in sociology (p. 621) provides students with theoretical and methodological tools, and substantive insights for understanding human social life and institutions. The department's faculty is particularly strong in the areas of social inequality, marriage and family, health and medical sociology, work and the economy, religion, formal organizations, sex and gender, social movements, population

and human ecology, social networks, education, and political sociology. Course themes range widely from the theoretical to the applied and incorporate a broad array of methodological approaches including comparative/historical, participant observation and interviewing, survey data collection, and statistical analysis.

The undergraduate major in management and society (p. 625) is an interdisciplinary program that focuses on the institutional context and inner workings of organizations and the economic system, with both a historical and contemporary perspective. Students take relevant topical courses from a diverse range of departments (including Sociology, Communication Studies, Economics, Psychology, Business Management, and History), in addition to some statistics courses. It prepares students for a variety of positions in private or public-sector organizations. Additionally, many students find the curriculum to be excellent preparation for a variety of business-oriented graduate and professional degree programs.

The undergraduate minor in health and society (p. 627) provides students with an opportunity to examine contemporary health patterns and trends characterizing U.S. society and societies around the world, as well as sociologically based explanations for those patterns and trends. It also provides students with an understanding of the social construction of health and illness in modern societies. The minor brings together courses focused specifically on linkages between health and society, along with courses focused on social organization and stratification, to provide students with insights into the ways that societies define health and illness and how social organization and stratification influence population health.

The undergraduate minor in social and economic justice (p. 628) is designed for students who want to understand how to think analytically about issues of justice and how perspectives on justice can be joined with the pursuit of it. An overarching objective is fostering attitudes and knowledge about human rights; racial, ethnic, and gender equality; economic justice; democratic participation; sustainable development; diversity; and peace. It is especially appropriate for students who anticipate working in advocacy roles in nonprofit organizations, in local communities, or in governmental organizations. In these inquiries about justice, students engage scholarship in a variety of disciplines and traditions of practice.

Advising

All majors and minors have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies and assistant director engage with current, transfer, and prospective majors/minors by email or appointment (see contact information on the program page of the catalog). Departmental academic advising is particularly important for those students who are double majors and those who may be considering going on to graduate school. Further information on courses, undergraduate research opportunities, writing an honors thesis, careers, and graduate schools is available on the department's website (<https://sociology.unc.edu/>).

Opportunities for Career and Further Education

Graduates from our department's programs are employed by research institutes, public health and welfare organizations, social work agencies, private businesses, law firms, international agencies, medical

centers, educational institutions, advertising firms, survey and polling organizations, and the criminal justice system. Others work in politics and government and in community and social justice organizing.

A major in sociology also prepares students for law, medical, or business school and for graduate degree programs in social work, education, public policy, religious ministry, mass communications, public health, nonprofit administration, and international affairs. The sociology major also prepares interested undergraduates for graduate studies in sociology, should they choose to continue in the field to become researchers or teachers in educational or research institutions. Students interested in pursuing graduate studies after college may, with the instructor's permission, enroll in graduate-level courses at UNC-Chapel Hill.

A major in management and society prepares students for virtually any aspect of a business or management career that does not involve highly specialized training and certification (such as finance and accounting). Employers are interested in students who can think on their feet, communicate effectively, write well, and make sense of the social and economic changes occurring in their industry. Management and society majors are educated in each of these skills, and are especially suited for entry-level positions in any aspect of human resource management, industry, or public-sector organizations. Among recent graduates who responded to a placement office survey, the largest number were employed in sales; management or management training positions with at least some supervisory or personnel-related responsibilities ranked second. Other graduates are working in customer service, purchasing, and marketing research, and several hold positions in the public sector.

Majors

- Sociology Major, B.A. (p. 621)

Professors

Kenneth A. Bollen, Neal Caren, David Cook-Martín, Barbara Entwisle, Elizabeth Frankenberg, Guang Guo, Karen Benjamin Guzzo, Robert Hummer, Arne Kalleberg, Charles Kurzman, Ted Mouw, Lisa Pearce, Yang Claire Yang.

Associate Professors

Regina Baker, Yong Cai, Scott Duxbury, Lauren Gaydos, Tania Jenkins, Elizabeth Korver-Glenn, Alexandra Ravenelle, Jessica Su.

Assistant Professors

Shannon Malone Gonzalez, Rui Jie Peng, Kerilyn Schewel, Justin Sola, Lauren Valentino.

Teaching Associate Professor

Kathleen Fitzgerald.

Teaching Assistant Professor

Matthew Lammers.

Research Professors

Kathleen Mullan Harris, Paul Voss.

Affiliated Faculty

John D. Kasarda (Kenan–Flagler Business School).

Adjunct Professors

Thurston Domina (School of Education), Gail Henderson (Social Medicine), James H. Johnson Jr. (Kenan–Flagler Business School), Douglas L. Lauen (Public Policy), John D. Stephens (Political Science).

Adjunct Associate Professor

Tressie McMillan Cottom (School of Information and Library Science).

Adjunct Assistant Professors

Fenaba Addo (Public Policy), Malissa Alinor (Public Policy), Nathan Dollar (Carolina Demography), Carmen Gutierrez (Public Policy), Christian Lentz (History), Antonia Randolph (American Studies), Francesca Tripodi (School of Information and Library Science).

Professors Emeriti

Howard E. Aldrich, Kenneth (Andy) Andrews, Judith R. Blau, M. Richard Cramer, Glen H. Elder Jr., Jacqueline Hagan, Sherryl Kleinman, S. Philip Morgan, Anthony R. Oberschall, John Shelton Reed, Ronald R. Rindfuss, Karolyn Tyson, Peter R. Uhlenberg, Catherine Zimmer.

Sociology Major, B.A.

The undergraduate major in sociology at UNC–Chapel Hill provides students with theoretical and methodological tools, and substantive

insights for understanding human social life and institutions. The major is designed to offer its students training in critical thinking, analytical problem solving, reasoned judgment, and effective communication as well as broad knowledge of human relations and social systems, providing useful tools for a variety of careers. The curriculum and requirements are flexible enough to permit students to tailor their program to fit individual needs and interests. The undergraduate sociology program includes opportunities to put sociological ideas into practice through research by means of independent studies, theses, and internships.

Student Learning Outcomes

Upon completion of the sociology program, students should be able to:

- Make links between human action/consciousness and social forces/social contexts. This will include identifying how human behavior and consciousness are shaped by the social and, in turn, how the social can be changed by individual behavior and collective action
- Identify and define major sociological concepts and apply these concepts to social reality. Examples of concepts include norms, roles, social institutions, social stratification, power, authority, class, gender, race, social capital, life course, social networks, and social control
- Propose an appropriate research design for studying a social phenomenon, including assessing the data and methods that would be appropriate for any given study of social phenomena
- Describe and compare several major theoretical perspectives used by sociologists (examples include functionalism, conflict theory, institutional theory, feminist theory, and symbolic interactionism), and be able to apply these perspectives to social phenomena (poverty, human capital, inequality, inter-group conflict, etc.)

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
SOCI 101	 Sociological Perspectives (with a grade of C or better) ^{1, H, F}	3
SOCI 250	 Sociological Theory	3
SOCI 251	 Research Methods	3
SOCI 252	 Data Analysis (taken during the junior year, if possible) ^{2, 3, 4}	3
Three SOCI electives numbered above 400 (upper-level). With permission of the director of undergraduate studies, one of the following courses may count as a 400-level elective:		9
SOCI 290	Special Topics in Sociology ^H	

SOCI 396	Independent Study and Reading	
SOCI 691H	 Senior Honors Research and Seminar	
SOCI 692H	 Senior Honors Research and Seminar	
Two additional three-hour SOCI courses (six hours) ⁵		6
Total Hours		27

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ If possible, SOCI 101 should be taken by the end of the sophomore year.

² Students who are double majoring in psychology and sociology may replace SOCI 252 with PSYC 210 plus (+) an additional 400-level SOCI course.

³ Students who are double majoring in public policy and sociology may replace SOCI 252 with PLCY 460 plus (+) an additional 400-level SOCI course.

⁴ Students who are double majoring in economics and sociology may replace SOCI 252 with ECON 400 plus (+) an additional 400-level SOCI course.

⁵ First-year seminars in sociology can count toward the major but may be taken only by first-year students.

Sociology (SOCI) course descriptions (<https://catalog.unc.edu/courses/soci/>).

University graduation credit will be given for only one in each of the following sets of courses:

Code	Title	Hours
SOCI 130	 Family and Society	3
or SOCI 425	Family and Society, Junior/Senior Section	
SOCI 273	 Social and Economic Justice, Experiential Education	3
or SOCI 274	 Advocacy Strategies: Communication Across Movements	
SOCI 423	 Sociology of Education, Experiential Education	3
or SOCI 426	Sociology of Education	

Courses in Career Areas

The sociology major provides an excellent foundation for many careers. We recommend the following clusters of courses for students with specific career goals in the following areas:

Business and Industry

Code	Title	Hours
SOCI 131	 Social Relations in the Workplace	3
SOCI 251	 Research Methods	3
SOCI 252	 Data Analysis	3

SOCI 410	 Formal Organizations and Bureaucracy	3
SOCI 415	Economy and Society	3
SOCI 427	 The Labor Force	3

International Affairs and Development

Code	Title	Hours
SOCI 420	Political Sociology	3

Education

Code	Title	Hours
SOCI 412	Social Stratification	3
SOCI 423	 Sociology of Education, Experiential Education	3
SOCI 426	Sociology of Education	3

Law

Code	Title	Hours
SOCI 122	 Race and Ethnicity	3
SOCI 123	Crime and Criminal Justice	3
SOCI 273	 Social and Economic Justice, Service Learning	3
SOCI 274	 Advocacy Strategies: Communication Across Movements	3
SOCI 420	Political Sociology	3
SOCI 424	Law and Society	3

Public Policy

Code	Title	Hours
SOCI 251	 Research Methods	3
SOCI 252	 Data Analysis	3
SOCI 273	 Social and Economic Justice, Service Learning	3
SOCI 274	 Advocacy Strategies: Communication Across Movements	3
SOCI 412	Social Stratification	3
SOCI 414	The City and Urbanization	3
SOCI 415	Economy and Society	3
SOCI 420	Political Sociology	3
SOCI 422	 Sociology of Mental Health and Illness	3
SOCI 424	Law and Society	3
SOCI 429	 Social Research in Religious Settings ^H	3
SOCI 431	Aging	3
SOCI 468	United States Poverty and Public Policy	3

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Community Service, Organizing, and Advocacy

Code	Title	Hours
SOCI 273	 Social and Economic Justice, Service Learning	3
SOCI 274	 Advocacy Strategies: Communication Across Movements	3
SOCI 411	People, Power, and Politics	3
SOCI 412	Social Stratification	3
SOCI 427	 The Labor Force	3

SOCI 429	 Social Research in Religious Settings ^H	3
SOCI 468	United States Poverty and Public Policy	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Medicine and Public Health

Code	Title	Hours
SOCI 251	 Research Methods	3
SOCI 252	 Data Analysis	3
SOCI 422	 Sociology of Mental Health and Illness	3
SOCI 431	Aging	3
SOCI 468	United States Poverty and Public Policy	3
SOCI 469	Health and Society	3

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Sample Plan One

First Year	Hours
First-Year Foundations	
IDST 101  College Thriving	1
ENGL 105  English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)	3
IDST 111L  Data Literacy Lab	1
Global Language through level 3 (p. 670)	varies
Major Courses	
SOCI 101  Sociological Perspectives ^{H, F}	3
SOCI — Sociology elective	3
Hours	14
Sophomore Year	
SOCI — Sociology elective	3
SOCI 250  Sociological Theory	3
Hours	6
Junior Year	
SOCI 251  Research Methods (Fall semester)	3
SOCI 252  Data Analysis (Spring semester)	3
SOCI 4-- Sociology 400-level elective	3
Hours	9
Senior Year	
SOCI 4-- Sociology 400-level elective	3

SOCI 4--	Sociology 400-level elective	3
Hours		6
Total Hours		35

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan Two (Honors Track)

First Year	Hours
First-Year Foundations	
IDST 101  College Thriving	1
ENGL 105  English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660)	3
IDST 111L  Data Literacy Lab	1
Global Language through level 3 (p. 670)	varies
Major Courses	
SOCI 101  Sociological Perspectives ^{H, F}	3
SOCI — Sociology elective	3
Hours	14
Sophomore Year	
SOCI — Sociology elective	3
SOCI 250  Sociological Theory	3
Hours	6
Junior Year	
SOCI 251  Research Methods (Fall semester)	3
SOCI 252  Data Analysis (Spring semester)	3
SOCI 4-- Sociology 400-level elective	3
Hours	9
Senior Year	
SOCI 4-- Sociology 400-level elective	3
SOCI 691H  Senior Honors Research and Seminar ¹	3
SOCI 692H  Senior Honors Research and Seminar ¹	3
Hours	9
Total Hours	38

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ SOCI 691H or SOCI 692H (but not both) can be counted as three (3) hours and a 400-level elective course.

Special Opportunities in Sociology

Honors in Sociology

The department attempts to identify and invite all qualified students to participate in the senior honors program. Students who are not contacted, especially double majors, transfer students, and students who declare their major in sociology relatively late in their college careers, are encouraged to speak with their major advisor or the department's honors advisor no later than the preregistration period during the second semester of their junior year.

To graduate with honors in sociology, a major must meet the following requirements:

- At least a 3.3 cumulative grade point average in major courses and all courses taken at the University
- Completion of an honors thesis based on independent study, which may involve collection of data by the student, under the supervision of a faculty thesis advisor
- Participation in an honors seminar program during the fall and spring semesters of the senior year.

Students may receive credit for one or both senior honors research and seminar courses (SOCI 691H and SOCI 692H) depending on the extent of their thesis work.

For more information on honors, contact the Sociology director of undergraduate studies and/or the assistant director, or visit the relevant page (<https://sociology.unc.edu/undergraduate-program/sociology-major/honors/>) on the department's website (<https://sociology.unc.edu/>).

Independent Study and Reading

SOCI 396 may be taken for one to three hours of course credit depending on the amount of academic work planned by the student. It is usually taken by juniors and seniors who have completed at least two or three courses in sociology. Students may use independent study to

- Do reading and research in an area in which no course is offered
- Take advanced or more specialized coursework in a specific area of sociology

After an area of study has been selected, the student contacts a faculty member in the department whose interests are in or related to the topic area. If the faculty member agrees to direct the student's independent study, the student needs final approval by the department's director of undergraduate studies. It is the student's and faculty supervisor's responsibility to determine the amount of reading and/or outside work to be done, the frequency with which the student's progress will be assessed, and the papers or examinations that will constitute the course requirements. An approved learning contract is necessary, and some written work involving sociological analysis is required to receive credit for SOCI 396. Students must sign up for SOCI 396 before the end of the first week of classes. For more information, visit the relevant page (<https://sociology.unc.edu/undergraduate-program/sociology-major/independent-study-and-internships/>) on the department's website (<https://sociology.unc.edu/>).

Independent Experiential Internship

Students may combine employment and study in the form of an internship program for which they receive one to three academic credits through SOCI 393. The student must assume responsibility for employment arrangements. Students may not receive credit for paid employment. The student contacts a faculty member in the department whose interests are in or related to the area of the internship. If the faculty member agrees to direct the internship, the student needs final approval by the department's director of undergraduate studies. Credit is not provided for the internship alone; some written work involving sociological analysis is required to receive credit for SOCI 393. Because of the expectation that students doing an internship for academic credit will conduct substantive sociological analysis, it is very important that planning begin early. Students must secure all approvals for the contract before the first day of the internship. For more information, visit the relevant page (<https://sociology.unc.edu/undergraduate-program/sociology-major/independent-study-and-internships/>) on the department's website (<https://sociology.unc.edu/>).

Undergraduate Research

Students interested in working with faculty on their research projects should contact the Office for Undergraduate Research (<http://our.unc.edu/>) for more information and also speak with the director of undergraduate studies for more direction.

SOCI 395 Mentored Research in Sociology offers students the opportunity to participate in a faculty-led, collaborative research project for course credit. Students may engage in multiple stages of the research process, including developing research questions, conducting literature reviews, gaining hands-on experience with sociological methods, evaluating findings, and communicating results. As part of a research team, students will have opportunities to critically evaluate arguments and evidence, engaging in discussions about the validity of findings and their implications. This hands-on experience is designed to offer students insights into original thinking, systematic inquiry, and scholarly collaboration within sociology. However, the exact nature of each student's involvement will vary depending on the project.

Students are eligible if they have an overall GPA of 3.0; a GPA of 3.0 in SOCI courses; and have taken SOCI 251 and/or SOCI 252.

Undergraduate Howard W. Odum Award

The Undergraduate Howard W. Odum Award is presented yearly to a graduating senior who has displayed excellence in undergraduate sociological achievement. This award was established in 1967 in honor of Professor Howard Odum, who founded and first chaired the UNC–Chapel Hill Department of Sociology. Odum was a pioneer in American sociology and a major influence on the discipline. The department faculty selects the recipient of the annual award on the basis of grade records and other demonstrations of academic talent and accomplishment as an undergraduate.

Management and Society Major, B.A.

Management and society is an interdisciplinary major designed to provide students with a comprehensive understanding of the relationship between organizations and their social context. Drawing on multiple social science perspectives, this major is designed for students interested in social and organizational dynamics in the private, non-profit, and public sectors.

Students have combined management and society with majors in such academic disciplines as economics, sociology, psychology, public policy, history, and political science. The curriculum prepares students to either directly enter the workforce or as preparation for business-oriented graduate and professional degree programs.

Student Learning Outcomes

Upon completion of the management and society program, students should be able to:

- Understand economic and sociological theories and apply them to understand the dynamics of labor markets, public policy, and organizational behavior.
- Analyze the role of social, historical, and economic forces in shaping organizational processes.
- Demonstrate effective communication and leadership skills, essential for managing interpersonal and organizational dynamics in a global context.
- Effectively utilize quantitative and qualitative data analysis techniques to inform decision-making processes in organizational and policy contexts.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
ECON 101	 Introduction to Economics ^{H, F}	4
SOCI 101	 Introduction to Sociology ^{H, F}	3
ECON/MNGT 310	Microeconomics: Theory and Applications ¹	3-4
or PLCY 310	Microeconomic Foundations of Public Policy	
or ECON 410	 Intermediate Microeconomics	
SOCI 252	 Data Analysis ¹	3
or SOCI 318	Computational Sociology	
or PSYC 210	 Statistical Principles of Psychological Research	
or ECON 400	 Introduction to Data Science and Econometrics	
Five courses on the social and economic foundations of work.		15

PHIL 364	 Ethics and Economics	
PLCY/PWAD 450	 Internal and Interpersonal Conflict Management	
SOCI 112	Social Interaction	
SOCI/MNGT 474	 Negotiating Organizations	
Total Hours		31-32

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Double majors in economics and management and society should take economics courses at the 400 level. A minimum of six core courses must count exclusively towards the management and society major and may not double count with another major or minor.

Some of the core courses are cross-listed.

Special Opportunities in Management and Society

Honors in Management and Society

A student may, as a result of distinguished work (3.3 grade point average or higher), be awarded a degree with honors or highest honors. This

requires completion of a senior honors thesis. Interested students should contact the Sociology director of undergraduate studies and/or assistant director for more information. Honors students should enroll in MNGT 691H and MNGT 692H (or the SOCI equivalent of these courses) during the fall and spring semesters of their senior year. MNGT 692H will fulfill one of the course requirements from the social context of business group listed above. For more information, visit the relevant page (<https://sociology.unc.edu/undergraduate-program/sociology-major/honors/>) on the department's website (<https://sociology.unc.edu/>).

Student Clubs

The Sociology Club is a student-run, student-driven organization that may provide relevant presentations, discussions, guidance, and/or service opportunities in sociology and adjacent fields, including management and society.

Independent Study and Reading

SOCI 396 may be taken for one to three hours of course credit depending on the amount of academic work planned by the student. It is usually taken by juniors and seniors who have completed at least two or three courses in sociology. Students may use independent study to

- Do reading and research in an area in which no course is offered
- Take advanced or more specialized coursework in a specific area of sociology

After an area of study has been selected, the student contacts a faculty member in the department whose interests are in or related to the topic area. If the faculty member agrees to direct the student's independent study, the student needs final approval by the department's director of undergraduate studies. It is the student's and faculty supervisor's responsibility to determine the amount of reading and/or outside work to be done, the frequency with which the student's progress will be assessed, and the papers or examinations that will constitute the course requirements. An approved learning contract is necessary, and some written work involving sociological analysis is required to receive credit for SOCI 396. Students must sign up for SOCI 396 before the end of the first week of classes. For more information, visit the relevant page (<https://sociology.unc.edu/undergraduate-program/management-and-society-major/independent-study-and-internships/>) on the department's website (<https://sociology.unc.edu/>).

Independent Experiential Internship

Students may combine employment and study in the form of an internship program for which they receive one to three academic credits through SOCI 393. The student must assume responsibility for employment arrangements. Students may not receive credit for paid employment. The student contacts a faculty member in the department whose interests are in or related to the area of the internship. If the faculty member agrees to direct the internship, the student needs final approval by the department's director of undergraduate studies. Credit is not provided for the internship alone; some written work involving sociological analysis is required to receive credit for SOCI 393. Because of the expectation that students doing an internship for academic credit will conduct substantive sociological analysis, it is very important that planning begin early. Students must secure all approvals for the contract before the first day of the internship. For more information, visit the relevant page (<https://sociology.unc.edu/undergraduate-program/management-and-society-major/independent-study-and-internships/>) on the department's website (<https://sociology.unc.edu/>).

Undergraduate Research

Students interested in working with faculty on their research projects should contact the Office for Undergraduate Research (<http://our.unc.edu/>) for more information and also speak with the director of undergraduate studies.

SOCI 395: Mentored Research in Sociology (1–3 credits) offers students the opportunity to participate in a faculty-led, collaborative research project for course credit. Students may engage in multiple stages of the research process, including developing research questions, conducting literature reviews, gaining hands-on experience with sociological methods, evaluating findings, and communicating results. As part of a research team, students will have opportunities to critically evaluate arguments and evidence, engaging in discussions about the validity of findings and their implications. This hands-on experience is designed to offer students insights into original thinking, systematic inquiry, and scholarly collaboration within sociology. However, the exact nature of each student's involvement will vary depending on the project.

Students are eligible if they have an overall GPA of 3.0; a GPA of 3.0 in SOCI courses; and have taken SOCI 251 and/or SOCI 252.

Health and Society Minor

The minor in health and society provides students with an opportunity to examine contemporary health patterns and trends characterizing U.S. society and societies around the world, as well as sociologically based explanations for those patterns and trends. It also provides students with an understanding of the social construction of health and illness in modern societies. The minor brings together courses focused specifically on linkages between health and society, along with courses focused on social organization and social stratification, to provide students with insights into the ways that societies define health and illness and how social organization and stratification influence population health.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
SOCI 101	 Sociological Perspectives ^H	3
Three courses chosen from the following list:		9
SOCI 121	 Population Problems	
SOCI 172	 Introduction to Population Health in the United States	
SOCI 180	 Introduction to Global Population Health	
SOCI 422	 Sociology of Mental Health and Illness	
SOCI 430	Sociology of Food and Food Justice	
SOCI 469	Health and Society	
One elective course chosen from the following list:		3
SOCI 122	 Race and Ethnicity	
SOCI 123	Crime and Criminal Justice	
SOCI 124	 Sex and Gender in Society	
SOCI 125	Sociology of Sexualities	
SOCI 126	Sociology of Adolescence

Social and Economic Justice Minor

The minor in social and economic justice is designed for students who want to understand how to think analytically about issues of justice and how perspectives on justice can be joined with the pursuit of it. An overarching objective is fostering attitudes and knowledge about human rights; racial, ethnic, and gender equality; economic justice; democratic participation; sustainable development; diversity; and peace. It is especially appropriate for students who anticipate working in advocacy roles in nonprofit organizations, in local communities, or in governmental organizations. In these inquiries about justice, students engage scholarship in a variety of disciplines and traditions of practice.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
One core course chosen from:		3
AMST/ENGL/ POLI 248/ WGST 249	 Intersectionality: Race, Gender, Sexuality, and Social Justice	
GEOG/PWAD 453	 Political Geography	
GEOG/WGST 225	Space, Place, and Difference	
PHIL 273	 Justice, Rights, and the Common Good: Philosophical Perspectives on Social and Economic Issues ^H	
SOCI 273	 Social and Economic Justice, Service Learning	
Three additional courses that cover at least two different areas (listed below) ¹		9
Total Hours		12

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ Depending on the topic, independent study, special topics, and internship courses may be approved to fulfill the requirements for the minor with the explicit permission of the director.

A student may major in sociology and minor in social and economic justice; however, a student cannot count toward graduation more than 45 hours in SOCI courses. All college requirements about minors apply.

Service-Learning Requirement:

The Social and Economic Justice minor can be completed in 12-15 credit hours, depending on how the student chooses to complete the service-learning requirement. There are three options:

1. A student may participate in the two-credit spring break course, HBEH 610 (<https://catalog.unc.edu/search/?P=HBEH%20610>), which meets the service-learning requirement but not a course requirement (14 total credit hours).
2. A student may take a course that fulfills the High-Impact Experience Public Service (HI-SERVICE) requirement in the IDEAs in Action curriculum that is NOT part of the SEJ minor (15 total credit hours).
3. A student may take a course that fulfills the High-Impact Experience Public Service (HI SERVICE) requirement in the IDEAs in Action curriculum that is part of the SEJ minor (12 total credit hours), choosing from the following list of courses:

Code	Title	Hours
SOCI 273	 Social and Economic Justice, Service Learning	3
AMST 398	 Service Learning in America	3
ANTH 539	 Environmental Justice	3
COMM 82	 First-Year Seminar: Food Politics from an Organizational Communication Perspective	3

Department of Statistics and Operations Research

Introduction

The major in statistics and analytics (STAN) is an excellent program for students interested in statistical data science, operations research, and actuarial science, as well as in fields such as business, economics, public policy and health, psychology, and biomedicine, where the decision and statistical sciences play an increasingly important role.

Particular areas in which graduates can obtain employment or continue with graduate study include:

Statistics

Students in this area study the mathematical theories of probability and statistics and their application to mathematical models that contain an element of uncertainty or randomness. Opportunities for employment are manifold in businesses and government agencies, and include a broad range of areas from the natural sciences, social sciences, and technology. Concrete examples include pharmacology, genomics, medicine, environmental sciences, social network analysis, and information technology.

Operations Research

In this area, students study mathematical, statistical, and computational techniques related to decision making. Operations research is crucial in business, government, and other management areas where decisions are made by solving large, complex problems (for example, crew scheduling for airlines, and the design of online recommendation systems). In addition to their major courses, students interested in this field are encouraged to take courses in business and economics.

Actuarial Science

Actuaries work primarily in businesses that involve financial risk, including the insurance industry. Students interested in this field take advanced courses in statistics, stochastic processes, and the mathematical theory of risk.

Advising

All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. STAN majors and minors are also encouraged to meet with departmental advisors to discuss course planning before registration each semester. The director of undergraduate studies works with prospective majors and minors by appointment. Additional information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<https://stor.unc.edu/>) or by contacting the director of undergraduate studies.

Courses for Students from Other Departments

The Department of Statistics and Operations Research offers a variety of courses of potential value to students majoring in other disciplines. Introductory courses include STOR 113 and STOR 215, which are foundation courses in decision models, and the basic statistical courses, STOR 120 and STOR 155. At the intermediate level, STOR 305 provides an introduction to business decision models, while STOR 320 is an introductory course to data science. Substantial coverage of applied statistical methods is provided in STOR 455 and STOR 556. At more advanced mathematical levels, an introduction to probability theory is provided by STOR 435 (or STOR 535), an introduction to proof techniques and discrete mathematics is given in STOR 315, and the basic theory of statistical inference is given by STOR 555. More advanced deterministic and stochastic models of operations research are provided in STOR 415 and STOR 445. Machine learning is covered in STOR 565 and STOR 566.

Graduate School and Career Opportunities

Regardless of the electives chosen, the statistics and analytics degree program provides excellent preparation for graduate study. Graduates with concentrations in operations research or statistics often continue work at the graduate level in those fields or related areas such as industrial engineering, biostatistics, and environmental science, or enter business school to pursue a master's in business administration (M.B.A.) degree.

A five-year B.S.–M.S. degree program in statistics, operations research and data science is also an option. Interested students should consult the director of graduate studies for the operations research program.

Graduates of the statistics and analytics program will find numerous opportunities for well-paid, challenging jobs.

Major

- Data Science Major, B.A. (p. 50)
- Statistics and Analytics Major, B.S. (p. 633)

Minor

- Data Science Minor (p. 637)
- Statistics and Analytics Minor (p. 636)

Statistics and Analytics Major, B.S.

The major in statistics and analytics is an excellent program for students interested in statistical data science, operations research, and actuarial science, as well as in fields such as business, economics, public policy and health, psychology, and biomedicine, where the decision and statistical sciences play an increasingly important role.

Student Learning Outcomes

Upon completion of the statistics and analytics program, students should be able to:

- Demonstrate foundational knowledge of probability, statistics, optimization, and stochastic modeling
- Exhibit proficiency in one or more of the scientific programming languages commonly used in statistics and analytics
- Apply the analytical and computational skills needed to formulate and solve data science problems
- Interpret and translate numerical results into actionable ideas and communicate them orally and in writing
- Find employment in professions relying on data and analytics, or continue education in related graduate programs

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
MATH/STOR 235	 Mathematics for Data Science	4
or MATH 233	 Calculus of Functions of Several Variables	
STOR 315	 Discrete Mathematics for Data Science	3
or MATH 381	Discrete Mathematics	
or COMP 283	 Discrete Structures	
STOR 320	 Methods and Models of Data Science	4
or STOR 520	Statistical Computing for Data Science	
STOR 415	Introduction to Optimization ^{1, H}	3
STOR 435	Introduction to Probability ^H	3
or STOR 535	Probability for Data Science	
STOR 445	Stochastic Modeling	3
STOR 455	Methods of Data Analysis ^H	3
One STOR course at the 500 level		3
Additional Requirements		
COMP 116	Introduction to Scientific Programming	3
or COMP 110	 Introduction to Programming	
MATH 231	 Calculus of Functions of One Variable I ^{H, F}	4
MATH 232	 Calculus of Functions of One Variable II ^{H, F}	4
MATH 347	 Linear Algebra for Applications ^F	3
STOR 155	 Introduction to Data Models and Inference ^{H, F}	3-4
or STOR 120	 Foundations of Statistics and Data Science	
Three additional courses from either Group A or Group B (see lists below)		9
Total Hours		52

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Students may not enroll in STOR 305 if they have already taken STOR 415.

Statistics and analytics majors must complete 120 academic hours.

Group A

Code	Title	Hours
STOR 305	 Introduction to Decision Analytics ¹	3
STOR 323I	 Ethics of Machine Learning in Society	3
STOR 470	Fundamentals of Actuarial Mathematics	3
STOR 471	Long-Term Actuarial Models	3
STOR 472	Short Term Actuarial Models	3
STOR 473	Financial Mathematics for Actuarial Science	3
STOR 475	Healthcare Risk Analytics	3

STOR 512	Optimization for Machine Learning and Neural Networks	3
STOR 536	Advanced Methods in Probability	3
STOR 538	Sports Analytics	3
STOR 543	Dynamic Decision Analytics	3
STOR 545	Stochastic Models and their Applications	3
STOR 555	Mathematical Statistics	3
STOR 556	Time Series Data Analysis	3
STOR 557	Advanced Methods of Data Analysis	3
STOR 565	Machine Learning	3
STOR 566	Introduction to Deep Learning	3
STOR 572	Simulation for Analytics	3
STOR 697	 Capstone	3

¹ Students can only enroll in STOR 305 before taking STOR 415.

Group B

Code	Title	Hours
BIOS 664	Sample Survey Methodology	4
BUSI 403	Operations Management	3
BUSI 408	Corporate Finance	3
BUSI 410	Business Analytics	3
BUSI 532	Service and Platforms Operations Management ^H	1.5
BUSI 533	Supply Chain Management ^H	3
COMP 401	Foundation of Programming ^H	3-4
or COMP 301	Foundations of Programming	
COMP 410	Data Structures	3
or COMP 210	Data Structures and Analysis	
COMP 421	Files and Databases	3
ECON 410	 Intermediate Microeconomics ^H	4
ECON 420	Intermediate Macroeconomics ^H	3
ECON 511	Advanced Game Theory in Economics ^H	3
INLS 523	Introduction to Database Concepts and Applications	3
MATH 383	First Course in Differential Equations ^H	3
MATH 521	Advanced Calculus I ^H	3
MATH 522	Advanced Calculus II ^H	3
MATH 523	Functions of a Complex Variable with Applications	3
MATH 524	Elementary Differential Equations	3
MATH 548	Combinatorial Mathematics	3
MATH 566	Introduction to Numerical Analysis	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Pathways
Actuarial Science

This pathway equips students to quantify and manage financial risk in uncertain, high-stakes settings like insurance, pensions, healthcare, investments, and enterprise risk management. Students learn to model future outcomes using probability, statistics, financial mathematics, and modern data analytics—turning messy real-world information into

clear assumptions, defensible forecasts, and actionable decisions. The concentration combines rigorous mathematical foundations with professional communication, regulatory and ethical judgment, and practical computing tools to prepare students for actuarial internships and the credentialing exam pathway. Graduates are prepared to explain complex risk tradeoffs plainly, build models that hold up under scrutiny, and support organizations in making long-term promises they can actually keep.

Students must take 3 of the following courses:

Code	Title	Hours
STOR 470	Fundamentals of Actuarial Mathematics	3
STOR 471	Long-Term Actuarial Models	3
STOR 472	Short Term Actuarial Models	3
STOR 473	Financial Mathematics for Actuarial Science	3

Decision Analytics

This pathway is for students who are interested in focusing their studies on making data-driven decisions in complex systems. While statistical techniques are very helpful for making decisions in data-rich settings, stylized formulations can be more helpful for generating insights and making decisions in the absence of sufficient data. This concentration brings together both statistics and operations research-based courses together to offer students a path for getting a more holistic training in analytical decision making.

Students must take 3 of the following courses:

Code	Title	Hours
STOR 475	Healthcare Risk Analytics	3
STOR 512	Optimization for Machine Learning and Neural Networks	3
STOR 543	Dynamic Decision Analytics	3
STOR 545	Stochastic Models and their Applications	3
STOR 572	Simulation for Analytics	3

Machine Learning

This pathway combines advanced statistical training with enhanced computational and data analytic training for those planning careers in information intensive industries or research. Students will extend their ability to model and analyze data, using mathematical and computational methods to make predictions and decisions in the face of uncertainty. The concentration is focused on fundamental training in mathematics and applied statistics, including specialized courses with an emphasis on statistical computing, and machine learning.

Students must take 3 of the following courses:

Code	Title	Hours
STOR 512	Optimization for Machine Learning and Neural Networks	3
STOR 556	Time Series Data Analysis	3
STOR 557	Advanced Methods of Data Analysis	3
STOR 565	Machine Learning	3
STOR 566	Introduction to Deep Learning	3

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree

completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first two years, students are required to complete the standard calculus sequence as well as introductory courses in statistics, operations research, and computer science. At the beginning of their third year, students take advanced courses in statistics, probability, and operations research. They have a great deal of flexibility in tailoring their program to meet their individual interests.

Code	Title	Hours
First Year		
IDST 101	 College Thriving	1
ENGL 105	 English Composition and Rhetoric	3
First-Year Seminar or First-Year Launch (p. 660) ^F		3

STOR 435	Introduction to Probability ^H	3
or STOR 535	Probability for Data Science	
STOR 455	Methods of Data Analysis ^H	3
Fourth Year		
STOR 445	Stochastic Modeling	3
One STOR 500-level course ²		3
Three additional courses from Group A or Group B ²		9
Total Hours		60-61

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ Prospective statistics and analytics majors are encouraged to take STOR 155 or STOR 120, and STOR 315 or MATH 381 as early as possible in their college careers. Each has a prerequisite of MATH 110 or its equivalent and may be taken before, or concurrently with, MATH 231.

² Students wishing to prepare for an actuarial career should include STOR 471, STOR 472, STOR 555 and STOR 556 from Group A in their program and take ECON 410 and ECON 420 and BUSI 408 and BUSI 588 as electives. Students who plan to attend graduate school in statistics, operations research, analytics, or a related field, should include in their program COMP 401, STOR 555, STOR 565, and MATH 521.

Special Opportunities in Statistics and Analytics

Dual Bachelor's – Master's Degree Program

The Department of Statistics and Operations Research offers a dual bachelor's – master's degree program. Interested students should consult the graduate program director.

Honors in Statistics and Analytics

Candidates for honors or highest honors must secure approval from the program director. They must take STOR 691H and STOR 692H, and maintain an overall grade point average of 3.3 and a grade point average in statistics and analytics courses of at least 3.3 at the end of the semester preceding the semester in which they graduate.

Departmental Involvement

The Department of Statistics and Operations Research sponsors Carolina's Actuarial Student Organization (CASO), for students interested in careers in the actuarial sciences. CASO organizes study groups for the actuarial exams, sponsors talks by professional actuaries, keeps members aware of employment opportunities, and maintains contact with alumni and corporations in the field. The department is also a co-sponsor of Carolina Analytics and Data Science (CADS) student organization, which aims to foster communication among the students who are interested in careers in data science and analytics and contribute to their intellectual growth by hosting speakers from industry as well as academia.

Experiential Education

When arranged in advance with a supervising faculty member, STOR 493 can be used to earn credit for appropriate work experience in the summer or during the academic year. STOR 493 satisfies the experiential education and high-impact experience Gen Ed requirement. Students interested in STOR 493 should secure approval from the program director before starting their work. STOR 496 can also be used to satisfy the experiential education requirement.

Undergraduate Awards

Two undergraduate awards for graduating seniors are given each year by the statistics and analytics program. One is the Statistics and Analytics Award, given to the outstanding graduating senior, and the second is the W. Robert Mann Award, given for excellence in actuarial science. Plaques

bearing the names of winners are located in the undergraduate study room in Hanes Hall.

Undergraduate Research

Undergraduate research under the direction of faculty members from the Department of Statistics and Operations Research is offered through the independent study and research course, STOR 496, and the senior honors thesis courses, STOR 691H and STOR 692H.

Statistics and Analytics Minor

Statistics and analytics is an excellent program for students interested in statistical data science, operations research, and actuarial science, as well as in fields such as business, economics, public policy and health, psychology, and biomedicine, where the decision and statistical sciences play an increasingly important role.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
STOR 155 or STOR 120	 Introduction to Data Models and Inference ^{H, F}  Foundations of Statistics and Data Science	3-4
STOR 305 or STOR 415	 Introduction to Decision Analytics ¹ Introduction to Optimization	3
Three courses from among:		9
STOR 215 or STOR 315 or MATH 381 or COMP 283	 Foundations of Decision Sciences  Discrete Mathematics for Data Science Discrete Mathematics Discrete Structures	
STOR 320 or STOR 520	 Methods and Models of Data Science Statistical Computing for Data Science	
STOR 323I	 Ethics of Machine Learning in Society	
STOR 435 or STOR 535	Introduction to Probability ^H Probability for Data Science	
STOR 445	Stochastic Modeling

Data Science Minor Overview

The data science minor at Carolina is a multidisciplinary program launched in fall 2021 and offered by the College of Arts & Sciences. The minor has been designed to introduce students from any discipline to data science methods and applications, while simultaneously providing opportunities to explore its complex interactions with modern society. To achieve these goals, the minor is structured to allow students to choose their coursework from many different departments, encouraging them to explore the use of data science within their main field of study.

To satisfy the core requirements, a student must choose one course from each of the three categories:

Data and Computational Thinking

This core requirement will provide you with an introduction to the computing tools and coding methods needed to gather, manipulate, visualize, and analyze data. Taught in Python and/or R.

Data and Statistical Thinking

This core requirement will provide you with an introduction to data-driven statistical analysis, focusing on a hands-on approach to making inferences and predictions to learn from data. Taught in Python and/or R.

Data, Culture, and Society

This core requirement focuses on the social, political, cultural, and/or ethical dimensions of data.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Data and Computational Thinking (one course)		3
COMP 110	 Introduction to Programming ^H	
COMP 116	Introduction to Scientific Programming	
GEOG 215	 Introduction to Spatial Data Science	
POLI 281	 Data in Politics I: An Introduction	
Data and Statistical Thinking (one course)		3-4
ECON 400	 Introduction to Data Science and Econometrics ^H	

LING 460	 Making Sense of Big Data: Textual Analysis with R	
SOCI 318	Computational Sociology	
STOR 120	 Foundations of Statistics and Data Science ^{H, F}	
Data, Culture, and Society (one course)		3

Department of Women's and Gender Studies

Introduction

The Department of Women's and Gender Studies offers a feminist interdisciplinary course of study that expands the process of knowledge production to include considerations of gender, race, class, and sexuality in the United States and internationally. Students will be exposed to recent scholarship on feminist theory and the intellectual, economic, political, and artistic contributions of women and feminist movements in various historical and cultural contexts.

Numerous departments across campus offer courses that focus on the study of women and/or gender. Most of these courses are cross-listed as women's and gender studies courses; others are taught as special sections of an established course and are identified separately each semester.

Advising

All majors and minors have a primary academic advisor assigned in ConnectCarolina. All other majors and minors are strongly encouraged to meet with a faculty member or director of undergraduate studies (DUS) who works with current and prospective majors and minors by appointment (see "Contacts" above). Departmental academic advising is particularly important for those majors who are considering going on to graduate school. All students are encouraged to review their Tar Heel Tracker each semester. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<http://womensstudies.unc.edu/>).

Major

- Women's and Gender Studies Major, B.A. (p. 640)

Minors

- Women's and Gender Studies Minor (p. 644)
- Sexuality Studies Minor (p. 644)

Courses

Women's and Gender Studies Major, B.A.

The Department of Women's and Gender Studies offers a feminist interdisciplinary course of study that expands the process of knowledge production to include considerations of gender, race, class, and sexuality in the United States and globally. Students are exposed to scholarship on feminist theory and the intellectual, economic, political, and artistic contributions of women and feminist movements in various historical and cultural contexts.

Student Learning Outcomes

Upon completion of the women's and gender studies program, students should be able to:

- Demonstrate knowledge of the major concepts, theoretical perspectives, empirical findings, and historical trends in women's and gender studies
- Conduct and present interdisciplinary research in the area of women's and gender studies in an effective manner
- Apply the principals and insights of women's and gender studies to personal, social, and community issues
- Think critically and analytically about current perspectives in women's and gender studies

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

Code	Title	Hours
Core Requirements		
Four intellectual and theoretical foundations courses:		
WGST 101	Introducing Intersectionality: Gender, Race, Class, and Sexuality ^H	3
WGST 202	Introduction to Feminist Thought	3
WGST 695	Senior Seminar: Principles of Feminist Inquiry ^H	3
	or WGST 691H Honors in Women's Studies	
One course on minority/Third World/non-Western women or gender (see list below).		
Three interdisciplinary perspectives courses chosen from at least two of the three categories (see lists below).		
One course in the theory and practice of women's and gender studies from the following options:		
WGST 393	Internship in Women's and Gender Studies ¹	
A fourth course chosen from one of the three interdisciplinary perspectives categories		
WGST 692H	Honors in Women's Studies ²	
Total Hours		24

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ This faculty-supervised internship must be arranged in the semester prior to the semester of the internship (see Internship Guidelines on the departmental website (<https://womensstudies.unc.edu/courses-degrees/internship/>)).

² For qualified students. This yearlong honors thesis must be arranged in the semester prior to the year of the thesis. Requires approval of the department and the instructor. See Honors Thesis Guidelines on the departmental website.

Students must also fulfill all General Education requirements.

Minority/Third World/Non-Western Women or Gender

Special Opportunities in Women's and Gender Studies

Honors in Women's and Gender Studies

The honors program is designed to encourage independent thought and research among outstanding undergraduate majors in women's and gender studies. Students must take the capstone WGST 695H and WGST 691H during the fall semester and WGST 692H (spring

semester). Students must plan their project with a faculty advisor and secure permission from both the chair of the department and the faculty advisor. Guidelines and forms for the initial contract are available in the department's office and on our website (<https://womensstudies.unc.edu/>). Students interested in the honors thesis must have at least a 3.3 overall grade point average and a 3.5 or greater grade point average in courses taken for the major.

Internships (Fall Semester Only)

The Department of Women's and Gender Studies Internship Program (WGST 393) allows students the opportunity to receive course credit while gaining practical experience in a variety of fields concerned with feminist issues. The internship has two components:

- 1. work in a local agency
- 2. a weekly class taught by a faculty member in the Department of Women's and Gender Studies.

For further information visit the department website (<https://womensstudies.unc.edu/courses/internships/>).

Women's and Gender Studies Minor

The Department of Women's and Gender Studies offers a feminist interdisciplinary course of study that expands the process of knowledge production to include considerations of gender, race, class, and sexuality in the United States and globally. Students are exposed to recent scholarship on feminist theory and the intellectual, economic, political, and artistic contributions of women and feminist movements in various historical and cultural contexts.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 739).

The minor consists of 15 credits (five courses).

Code	Title	Hours
Core Requirements		
WGST 101	 Introducing Intersectionality: Gender, Race, Class, and Sexuality ^H	3
Four courses chosen from at least two of the following three categories. ¹		12
Total Hours		15

- ^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

¹ WGST 202 and WGST 695 are strongly recommended for minors and will count towards the 12 credits taken after WGST 101. An internship in women's and gender studies (WGST 393) can also count towards the 12 credits.

Academic Enrichment Programs

The University offers a variety of programs and opportunities designed to engage students in the curriculum and to enhance the academic experience at Carolina. There are opportunities available from first-year to senior-year. Students are encouraged to take full advantage of these opportunities and to start planning early in their academic career.

- Global Guarantee (p. 647)
- Study Abroad (p. 647)
- Undergraduate Research (p. 649)
- Honors Carolina (p. 649)
- Honors Beyond Chapel Hill (p. 649)
- Internships (p. 650)
- Distinguished Scholarships (p. 652)
- Languages across the Curriculum (p. 652)
- Student Life and Leadership (p. 652)
- North Carolina Fellows Program (p. 653)
- Summer Bridge (p. 653)

For additional programs and services, please see the Resources (p. 743) section of this catalog.

Global Guarantee

The Global Guarantee is Carolina's promise that a global education is available to every student. Through this commitment, Carolina helps ensure that Tar Heels develop the knowledge, skills, and mindset to succeed in a competitive workforce and to take on the world's greatest challenges.

By offering a variety of learning opportunities, Carolina makes it easy for students to select courses and programs that serve their individual academic, professional, and personal goals. Many are barrier free, meaning they are available to all students without a fee or special application process.

Students can choose from the following options as part of the Global Guarantee:

- Globally focused courses, minors, majors, and tracks in a range of disciplines
- Languages (<https://languages.unc.edu/>) and area studies (<https://areastudies.unc.edu/>)
- Study, research, and internships abroad (<https://studyabroad.unc.edu/>)
- Collaborative Online International Learning (COIL) courses (<https://global.unc.edu/programs/coil/>) and other virtual exchange programs
- Diplomacy Initiative (<https://global.unc.edu/programs/diplomacy-initiative/>) events and Carolina Diplomacy Fellows (<https://global.unc.edu/our-work/diplomacy-initiative/carolina-diplomacy-fellows/>), a customizable program for Tar Heels to develop the skills and global problem solvers and participate in career and professional development opportunities
- Global programming and cultural exchange on campus

The Global Guarantee is a university-wide commitment, involving numerous academic departments, administrative units, and initiatives, and is coordinated by UNC Global Affairs.

Study Abroad

UNC–Chapel Hill guarantees that a global education is available to every student. According to UNC–Chapel Hill's strategic plan, *Carolina Next: Innovations for Public Good*, "our graduates must demonstrate global competencies and skills to thrive as engaged citizens and successful professionals." Study abroad can positively impact a student's academic success, career path, and personal growth.

UNC–Chapel Hill's study abroad programs are high-quality, credit-bearing academic experiences available at hundreds of locations worldwide to students in all academic programs, majors, and minors. Carolina strives to ensure that study abroad programs are accessible, affordable, and

safe. A wide range of study abroad options meet the academic needs, financial realities, schedules, and language abilities of Carolina students. Programs include undergraduate student exchanges, faculty-led, direct enroll, research, internships, and short-term immersion programs during the summer, semester, and academic year. Financial aid can be used toward study abroad program costs. We award more than \$1 million in study abroad scholarships annually.

Campus Units Offering Study Abroad

The UNC Study Abroad Office (<https://studyabroad.unc.edu/>) in the College of Arts & Sciences is the primary unit responsible for managing domestic and study abroad semester, summer, and break programs for all undergraduate students at UNC, particularly those enrolled in the College (including Honors Carolina), and some professional schools.

The Kenan-Flagler Business School Undergraduate Global Programs (<https://www.kenan-flagler.unc.edu/programs/undergraduate-business/global-programs/>) office administers semester, summer, and short-term immersion programs for all major and minor students admitted to the Kenan-Flagler Business School.

The Hussman School of Journalism and Media (<http://hussman.unc.edu/ug/student-services/global-programs/>) administers short-term immersion programs for students admitted to the Hussman School.

Undergraduate students in the Gillings School of Public Health, School of Education, School of Data and Information Sciences, and School of Nursing are eligible for education abroad opportunities specific to their degree programs.

Types of Opportunities Available

Program options are available for students from all undergraduate majors and minors for students to study, participate in an internship, conduct research, or engage in service-learning abroad, domestically, or virtually. Programs vary by cost, location, length, and program type. Some offer a traditional academic experience in foreign classrooms, while others may take place primarily in the field. Visit the UNC Study Abroad Office (<https://studyabroad.unc.edu/find-program/>) for more information.

Study Abroad Credits

Study abroad credit is awarded to students participating in approved programs administered by the Study Abroad Office and other UNC global programs offices. Students may earn academic credit for approved internship, research, and service-learning programs abroad (including virtual programs). Students seeking to participate in student-initiated programs for academic credit may submit a petition for approval to the Study Abroad Office.

The credit approval process for study abroad courses is coordinated by the UNC Study Abroad Office or the UNC school sponsoring the program, and credit is awarded after the program ends and official transcripts have been received. UNC students may earn course credit that fulfills elective, General Education, language, and major/minor requirements abroad. All students who participate in approved study abroad programs earn High-Impact Experience (HI) (p. 728) General Education credit (including virtual programs). Major/minor credits for study abroad courses that have not been pre-approved must be granted by the director of undergraduate studies or designated authority in the relevant department.

After the program is completed abroad, an official grade report or transcript from the institution must be received by the Study Abroad

Office before equivalent credit is applied to the student's UNC-Chapel Hill record. It is the responsibility of the student returning to campus to ensure the transcript from the institution abroad is received by the Study Abroad Office. If the transcript is not received by the end of the last day of classes of the next fall or spring semester following the study abroad term, the associated placeholder and credits will be assigned the grade of SI (see Study Abroad Grading (p. 648) below). As a result, the student may experience negative consequences. Examples are the inability to calculate academic standing, inability to calculate satisfactory academic progress, or inability to apply for graduation. It is critical for the Study Abroad Office to receive the student's record from the abroad institution immediately following the completion of the abroad program. Students with outstanding study abroad credits will not be able to graduate until final permanent grades are posted for their study abroad courses (even if those courses/credits are not needed for graduation).

Study Abroad Grading

The University awards course credit for a study abroad program when the student has earned a grade of C (or its equivalent) or higher. For courses in which grades are reported on a scale other than A–F, students will earn credit only if the study abroad institution or program verifies that the passing grade represents achievement at the level of C or higher. If students receive final grades of C- or below (or the equivalent, if reported on a scale other than A–F), they will not earn credit or satisfy academic requirements and the course will impact the UNC GPA as a failed course. For courses completed in units other than semester hours, the university will convert credit earned to semester hours. Some programs, such as UNC–Chapel Hill faculty-led and short-term immersion options, offer UNC-graded course credits.

For non-faculty led programs, the UNC–Chapel Hill official transcript will indicate the term abroad, the location (country) of the study abroad program, equivalent subject codes, equivalent course numbers, course titles for the abroad enrollment, equivalent credits earned, and specialized grading notations. The specialized grading notations are:

- **SA** – Study Abroad Pass
- **SF** – Study Abroad Fail
- **SI** – Study Abroad Incomplete
- **SN** – Study Abroad No Grade Reported/No Credit Awarded
- **SW** – Study Abroad Withdrawal

When an abroad course is determined equivalent to a specific course in the UNC–Chapel Hill catalog, then the comparable subject code and course number is reflected on the record. To the extent possible, equivalent subject codes are used for listing classes completed abroad. If a comparable subject code does not exist, a generic subject code is used. If a comparable course number does not exist, a placeholder is used for the number. The details of courses meeting degree, major, and/or minor requirements is recorded internally on the student record.

Additional information on study abroad credit and grading can be found on the Study Abroad Office website (<https://studyabroad.unc.edu/earning-credit-from-spring-2021-forward/>).

Next Steps

Students are encouraged to begin planning for study abroad as early as possible after enrolling at UNC to ensure that a global experience is part of their academic program. The first step is to watch the Study Abroad 101 (<https://studyabroad.unc.edu/advising-events/>) video series. Students can then schedule a one-on-one advising session in the Study

Abroad Office or contact the global programs staff in their professional school. Study abroad staff assist students in selecting the best programs for their academic, financial, personal, and professional goals.

Deadlines vary depending on the type of program and UNC unit administering the program. Visit the above websites for the latest information.

Office for Undergraduate Research

The mission of the Office for Undergraduate Research (OUR) is to facilitate and enrich undergraduate research opportunities for all students and academic disciplines at Carolina. By engaging in research, students develop problem-solving skills and self-confidence, learn how discoveries are made, collaborate with faculty, and apply classroom knowledge to solve real-world problems. The OUR supports a variety of programs that help students identify research opportunities, fund their research, and showcase their research achievements.

The OUR maintains a searchable database of research opportunities and provides professional and peer advising to aid students as they enter the research community. In addition, the OUR administers student funding for Summer Undergraduate Research Fellowships (SURFs) and offers travel awards for students to present their research at professional meetings. The OUR also offers various research-related workshops, helps students get recognized through the Carolina Research Scholar Program (CRSP), and hosts the Celebration of Undergraduate Research each spring, where more than 500 students present their results to the campus and community each year.

Honors Carolina

Honors Carolina is a four-year academic program geared toward the top 10 percent of undergraduates at UNC and promises those students a guided journey toward a successful career and purposeful life. It is the University's way of investing in truly exceptional students by providing academic and non-academic challenges and opportunities, both inside and outside the classroom.

From the moment they step foot on campus, our students join a diverse community of scholars and friends. Approximately 2,100 students are currently members of Honors Carolina, and enjoy access to more than 200 small courses, award-winning faculty, and priority registration. Our unparalleled commitment to global learning offers students a doorway to the world through courses, internships, and research for academic credit.

The Honors Carolina "Go Anywhere" initiative is a comprehensive plan to elevate the program's reputation among industry leaders, position it as a destination of choice for top recruiters, and prepare students to seize opportunities before them through intensive advising and coaching. In fact, our academic advisors, career coaches, and alumni mentors are with students every step of the way. Through a diverse roster of co-curricular programs, students explore their interests; prepare for life after graduation; and connect with students, faculty, alumni, and leaders around the globe. Some enrolling first-year students are invited to participate immediately in Honors Carolina. Other students may apply to the program at the beginning of their second semester or first year of study. Details of the application process are available on the Honors Carolina (<http://honorscarolina.unc.edu/>) website. Honors Carolina students must maintain a cumulative grade point average of 3.000 or higher and complete a minimum number of honors credit hours by graduation in order to receive the "Honors Carolina Laureate" distinction on their transcript.

To graduate from the University with honors or highest honors (p. 741), students must complete a senior thesis in their academic major. Senior honors thesis programs are offered in nearly 50 departments, curricula, and professional schools throughout the University. Interested students should consult with the honors advisor in their major about department-specific requirements.

Honors Beyond Chapel Hill

Honors Global offers innovative learning opportunities in London, Oxford, Cape Town, Singapore, and Washington, DC. Students take courses with UNC–Chapel Hill faculty program directors and with instructors from some of the world's leading institutions of higher education and organizations. The London program is based at Winston House, UNC–Chapel Hill's European Study Center, located in Bloomsbury, close to the

city's leading universities and cultural institutions. All of the programs provide graded honors credit and fulfill General Education and major requirements. All Honors Carolina programs and fellowships are open and accessible to all UNC undergraduates with a 3.0 GPA.

Burch Field Research Seminars deliver unique, hands-on learning experiences that showcase the relationship between faculty research and undergraduate teaching. Seminars are held in changing locations around the globe. Recent topics have included the rise of renewable energy in Finland and Estonia, nation-building and conflict resolution in Vienna and the Balkans, biomedical engineering and healthcare innovations in Scotland, and public health innovation in Thailand.

Burch Fellowships allow students to design an educational adventure anywhere in the world. Burch Fellows receive grants up to \$7,000 to support self-designed, off-campus learning experiences like these: working with NASA astrobiologists in Antarctica to study the possibility of life on other planets; coordinating refugee integration through music in Sicily; and studying the impacts of medical training for rural women in India.

Carolina Blue Honors Fellowships enable students to embark on a summer internship focused on learning and working in sports abroad with a special preference for entrepreneurial businesses. Grants of up to \$6,500 support self-designed, international internships such as helping an athlete performance data start-up build its products in New Zealand, leading a fan engagement campaign for a sports marketing business in Barcelona, or helping a professional soccer club get off the ground in Tanzania.

Robinson Honors Fellowships focus on the history and culture of Europe and the Mediterranean from the golden age of Greece to the upheaval of World War I. Robinson Fellows pursue a project of their own design exploring the realms of art, art history, classics, literature, history, medieval and early modern studies, music, philosophy, political thought, and religious studies. Grants of up to \$7,000 fund experiences such as studying the construction of the great cathedrals of Europe, interning in Sotheby's Old Master Paintings division in London, or working on an archaeological dig in Cyprus.

Arts Internship Honors Fellowships support student internships in arts organizations domestically or abroad. Students interested in understanding the excitement and complexity of working with the ballet, an art gallery, arts centers, theatres, and music venues have the opportunity to receive funding for this crucial skill development in a field that is rarely able to fund internships independently to train the next generation of arts leaders.

The Class of 1938 and Witten Fellowships fund US student travel abroad for projects focused on international peace, collaboration, and connection. The vision of the fellowship is to invest in our cross-border relationships on a people-to-people basis to try and prevent and help manage the global crises that the Class of 1938 had to live through in their formative years.

Weir Honors Fellowships in Asian Studies allow students to develop professional fluency in Mandarin and gain practical, independent work experience in China, home to one of the world's oldest civilizations and fastest growing economies. Weir Fellows are awarded all funds above their normal UNC tuition to spend the spring semester in Beijing for intensive language study and then complete an eight-week summer internship in Shanghai exploring careers in fields such as banking, law, journalism, public health, and historic preservation.

Undergraduate Internships and Career Exploration

Overview

Many departments and curricula offer internship credit and career exploration courses. Students who are interested in earning academic credit for an internship experience should plan ahead by checking with the relevant department/school about available opportunities, deadlines, and the academic requirements for holding an internship.

Listed below are the departments and schools that offer internship credit and career exploration courses.

Internship Courses

Code	Title	Hours
AAAD 293	 Individual Internships for Majors and Minors	1-3
AERO 393	 Air and Space Expeditionary Training	1
AMST 493	 Internship	1-3
ANTH 393	 Internship in Anthropology	1-12
APPL 493	 Internship in Applied Physical Sciences	3
ARCH 393	 Internship in Archaeology	3-6
ARMY 393	 Air and Space Expeditionary Training	1
ARTH 293	 Art History Practicum	3
ARTS 493	 Studio Art Practicum or Internship	3
ASTR 111	 Educational Research in Radio Astronomy	1-3
BIOL 293	 Undergraduate Internship in Biology	3
BIOS 392	 Undergraduate Internship	1-3
BMME 293	 Undergraduate Internship in Biomedical Engineering	1-3
BUSI 393	 Business Internship Project I	1.5-3
BUSI 493	 Business Internship Project II	1.5-3
CHEM 293	 Undergraduate Internship in Chemistry	3
CLSC 580L	 Clinical Immunohematology Laboratory	4
COMM 393	 Internships	1-3
COMP 293	 Internship in Computer Science	3
DATA 393	 Internship in Data Science	1
DATA 493	 Internship in Data Science	3
DATA 593	 Internship in Data Science	12

DRAM 393	 Professional Theatre Laboratory	1-12
DRAM 493	 Theatre Management	3
ECON 193	 Internship in Shuford Program in Entrepreneurship	1-3
ECON 293	 Internship	3
ECON 327	 Venture-Creation Workshop ^H	3
ECON 393	 Practicum in Entrepreneurship ^H	3-6
EDUC 411	 Making Liberal Arts "Work"	3
EDUC 593	 Internship/Student Teaching	1-12
EDUC 695	 Human and Organizational Leadership Development Capstone	9
EDUC 698	 Internship in Human Development and Family Science	3-9
ENEC 393	 Internship in Sustainability	3
ENEC 493	 Environmental Internship	1-4
ENEC 593	 Environmental Practicum	1-3
ENGL 293	 Internship for Credit	3
ENGL 593	 Internship in Health Humanities	3
EXSS 293	 Internship in Exercise and Sport Science	1-3
EXSS 393	 Sports Medicine Clinical	1-3
EXSS 493	 Field Experience in Sport Administration	3
EXSS 593	 Practicum in Physical Fitness and Wellness	1-9
GEOG 493	 Internship	3
GERM 493	 Internship in German	3
GLBL 193	 Global Studies Internship	1
HBEH 555	 Collaboration & Community Organizing in Public Health: A Community Based Culminating Experience	4
HIST 393	 Practical Introduction to Editing, Reviewing, and Publishing Historical Research: Traces Internship	1
HIST 493	 Internship in History	1-3
HIST 593	 Exploring the U.S. South Hands On and Ears Open: Internship at the Southern Oral History Program	3
HPM 593	 Internship in Health Policy and Management	2
INLS 393	 Information Science Internship	3
LING 493	 Internship in Linguistics	3
MEJO 393	 Journalism and Media Internship	1
MEJO 593	 Washington D.C. In-Residence Semester	3
MUSC 493	 Music Internship	3
NAVS 196	 Independent Study in Naval Science	1-3
NDSS 593	 Neurodiagnostics and Sleep Science Internship	3
NSCI 493	 Internship in Neuroscience	3
NURS 697	 Capstone: Transitions in Care and Practice	6
PHYS 293	 Internship In Physics and Astronomy	3

PLAN 575	 Real Estate Development	3
PLAN 640	 Roadways for a Safer Future	1
PLCY 293	 Internship in Public Policy	3
PLCY 493H	 Internship in Public Policy and Global Affairs	6
POLI 193	 Internship in Political Science	3
PSYC 493	 Internship in Psychology	3
PWAD 393	 Internship in Peace, War, and Defense	3
RADI 463	 Clinical Education I	4
ROML 293	 Internship in Romance Studies	3
SCLL 393	 Mentored Internship in SCLL	3
SOCI 393	 Independent Experiential Internship	1-3
SPAN 393	 International Internship in Seville	3
STOR 493	 Internship in Statistics and Operations Research	3
WGST 393	 Internship in Women's and Gender Studies	3

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Undergraduate Curricula

If you have been offered an internship and your company is requiring you to earn credit to participate in the internship, you may be eligible for SPCL 493. Note that SPCL 493 is a one-credit, pass/fail course that does not count toward any graduation requirements. For instructions on submitting a SPCL 493 application, which must be done before beginning the internship, please see the SPCL 493 application form (<https://curricula.unc.edu/internships/>).

Career Exploration Courses

Code	Title	Hours
ANES 200	Career Exploration in Anesthesiology	3
ANES 406	Career Exploration in Anesthesiology	3
BIOL 117	Pre-Health Thrive-1 Considering Health Professions	1
BIOL 118	Pre-Health Thrive-2 Pursuing Health Professions	1
BIOL 635	Careers in Biotechnology	1
BUSI 189	Introduction to Careers in Business	1.5
ECON 292	Career Preparation for Economics Majors	1

PUBH 101	Exploring Public Health Fields	1
PUBH 102	Careers in Public Health	1

Office of Distinguished Scholarships

The Office of Distinguished Scholarships (ODS) provides support to Carolina students and alums applying to nationally and internationally competitive scholarships and fellowships. ODS works with students and alumni at all stages of the scholarship and fellowship application process, including providing feedback on application materials and conducting practice interviews. ODS staff offer regular information sessions and hands-on workshops. The Office of Distinguished Scholarships is housed within Honors Carolina and open to all UNC-Chapel Hill students and alumni.

In addition, ODS administers the institutional nomination process called “endorsement” for 13 scholarship and fellowship programs:

- Beinecke (for third-year undergraduates)
- Churchill (for undergraduates in their final years and recent alums)
- Goldwater (for second- and third-year students)
- James C. Gaither (for undergraduates in their final years and recent alums)
- Marshall (for undergraduates in their final years and recent alums)
- McCall MacBain (for undergraduates in their final years and alums)
- Michel David-Weill (for undergraduates in their final years)
- Rhodes (for undergraduates in their final years and recent alums)
- Truman (for third-year undergraduates)
- Udall (for second- and third-year undergraduates)
- Yenching Academy (for undergraduates in their final years and alums)
- ODS also works with candidates for endorsement for the Boren Awards, for which endorsement is optional but strongly encouraged.

Major scholars and fellowships that ODS supports that do not require institutional endorsement include Knight-Hennessy, Schwarzman, Luce, Gates Cambridge, and Critical Language Scholarship (CLS).

The preparation required to compete for prestigious scholarships is a valuable educational opportunity. Candidates improve their ability to communicate ability both their past accomplishments and also their goals for the future. The skills gained and materials created from applying for these scholarships are often valuable when to applying to graduate schools and career opportunities.

Languages Across the Curriculum

The Languages Across the Curriculum (LAC) program offers students the opportunity to use world languages in a variety of courses outside the language and literature curricula.

The program aims to promote a better understanding of world regions while demonstrating the relevance of practical language skills across the disciplines.

Successful completion of a LAC course option will improve students’ ability to:

1. Communicate in the target language about course topics;
2. Describe how course topics relate to world regions that speak the target language;
3. Explain course topics from the perspective(s) of individuals who use the target language;
4. Use the target language to conduct course research.

The LAC program offers course options in a variety of languages, disciplines, and course formats. Currently, LAC courses are offered in Arabic, Chinese, French, German, Hindi-Urdu, Italian, Korean, Portuguese, Russian, Spanish, and Swahili. Students who enroll in LAC recitation or discussion sections can receive one graded hour of world language credit. Some three-hour seminars in the target language are also available.

There are several types of LAC courses. For course offerings (by semester) and additional information, visit the program’s website (<http://areastudies.unc.edu/lac/>).

Code	Title	Hours
Languages Across the Curriculum Courses		
ARAB 308	Arabic Languages across the Curriculum Recitation	1
CHIN 308	Chinese Languages across the Curriculum Recitation	1
FREN 308	LAC Recitation	1
GERM 388	Discussion Section in German	1
or GERM 389	LAC Recitation	
GSLL 489	GSLL Across the Curriculum (LAC)	1
HNUR 308	Hindi-Urdu Languages across the Curriculum Recitation	1
ITAL 308	LAC Recitation	1
KOR 308	Korean Languages Across the Curriculum (LAC) Recitation	1
PORT 408	LAC Recitation	1
SPAN 308	LAC Recitation	1
SWAH 408	Swahili Across the Curriculum Recitation	1

Student Life and Leadership

The Office of Student Life and Leadership (SLL) brings together student leaders, student organizations, and student activities under one umbrella: making the campus a better community and home for students, staff, and faculty. Being involved in SLL programs gives students opportunities to enrich their academic and social experience at UNC. The office houses Student Organizations, Leadership Development, Student Activities, Carolina Union Activities Board (CUAB), Assessment and Development, and Student Government.

The mission of Student Life and Leadership is to create an inclusive Carolina community through engagement and intentional educational opportunities. SLL operates with five core values in mind: authentic connections, collaboration, integrity, life-long learning, and social justice.

The **Leadership Development** team is committed to serving the Carolina community by advocating for leadership as a process of social change. Various programs and activities are offered that help students develop competencies needed to be effective leaders. These programs include leadership development retreats, speaker events, and leadership symposiums. Additionally, three academic courses are offered: EDUC 309, EDUC 317, and EDUC 318 where students learn theory that will help them to develop their leadership style and skills and to incorporate those skills to lead and create positive social change.

The **Student Organizations** team works with all 1,000+ student organizations to facilitate their use of university resources and to empower students in their provision of services, programs and activities that enhance the academic experience, extend learning and build community at Carolina. Students can get involved in a student organization through Heel Life. Heel Life (<https://heelife.unc.edu/>) is the online hub of student activity and involvement at Carolina. Individual students, student organizations and university departments use the site to maximize the Carolina student experience. The site houses a complete list of active student organizations at Carolina, as well as a calendar of events. Student organizations may use Heel Life to promote upcoming activities, manage membership rosters, store important documents and photos, and more. The site also offers tools to identify and track individual involvement experiences through the Co-Curricular Transcript (CCT).

The **Carolina Union Activities Board** (CUAB) is a student-run board that enhances life at Carolina through high-quality programming and events for the entire University community. These include films, art, music, entertainment, and more. Throughout the year, CUAB's eight committees program over 200 events with around 50,000 total in attendance. Students can become involved in CUAB and build the Carolina community by helping to plan and host engaging activities to reach all students.

Student Government is the representative liaison before administrators, faculty, the Board of Trustees and Governors, and even the state legislature. Student Government works to address policy issues that matter to UNC and its students, handle funding requests for student organizations, maintain the Student Government Code (the rules by which Student Government operates), and respond to requests for help from students in a broad range of issues regarding student life at UNC–Chapel Hill.

North Carolina Fellows Program

Founded in 1967, the North Carolina Fellows Program ([https://carolinaunion.unc.edu/departments/student-life-leadership/leadership-](https://carolinaunion.unc.edu/departments/student-life-leadership/leadership-development-programs/nc-fellows/)

[development-programs/nc-fellows/](https://carolinaunion.unc.edu/departments/student-life-leadership-development-programs/nc-fellows/)) is a three-year, cohort-based program where students are challenged to look at leadership from a non-positional lens and create a personalized definition of leadership that will positively contribute to their time in and beyond the Carolina community.

Housed in Student Life & Leadership, the NC Fellows Program selects 25 to 30 first-year students per year to embark on a unique leadership development journey during their time at Carolina that includes both curricular and co-curricular components.

Summer Bridge

Summer Bridge is a six-week transition program that helps incoming first-year students adjust to Carolina by providing academic enrichment, community building, and co-curricular and experiential learning activities. The program is designed to ease participants' personal and academic transition from high school to the University. Students enroll in academic courses designed to strengthen both written and quantitative skills. They also participate in activities designed to supplement their summer experience by engaging in high-impact learning experiences often facilitated by units such as the UNC Learning and Writing Centers, University Career Services, and University Libraries. Additionally, community-building activities are significant components of the program, as students interact with various campus resources and their Summer Bridge cohort to establish networks of support. Any student who has been admitted to UNC–Chapel Hill and is a North Carolina resident is eligible to apply.

IDEAs in Action Curriculum

Summary

The IDEAs in Action curriculum empowers students to shape their own educational path, while providing a solid foundation that fosters intellectual growth. This curriculum prepares students for their journey at Carolina and their future roles as leaders, creative problem-solvers, lifelong learners, and engaged citizens. For additional information, visit the IDEAs in Action website (<https://ideasinaction.unc.edu/>).

The IDEAs in Action curriculum applies to all first-year students and transfer students who enroll as degree-seeking undergraduates in fall 2022 or later. The requirements outlined in this Catalog are specifically for students beginning their studies at Carolina in fall 2026.

- *Students who entered the University between fall 2022 and spring 2026 should adhere to the IDEAs in Action requirements as detailed in the archived editions (p. 788) of the Catalog.*

- *Students who enrolled before fall 2022 are required to follow the Making Connections General Education curriculum. Information and approved courses are available in archived editions (p. 788) of the Catalog.*

The IDEAs Approach:

- Identify pressing questions, problems, and issues
- Discover ideas, evidence, and methods that inform these questions
- Evaluate these ideas, evidence, and methods
- Act on the basis of these evaluations

First Year Foundations: Start Strong!

The First-Year Foundations are a set of specialized courses and experiences designed to help students navigate their transition to college, take ownership of their education, and fully engage with the opportunities at Carolina. Students are required to complete the First-Year Foundation requirements within their first academic year on campus (two semesters), with the exception of Global Language. Students are strongly encouraged to begin their Global Language coursework during their first year.

Focus Capacities: Design Your Course of Study!

Students take one course for each of the nine Focus Capacity areas (3 credits each) along with a one-credit Empirical Investigation Lab. Focus Capacity courses introduce and develop key skills for identifying, discovering, evaluating, and acting upon ideas, knowledge, evidence, and argument. These courses are designed to build a broad set of capacities to equip students for intellectual and practical challenges.

Reflection & Integration: Put Your Learning into Action!

As students move through the IDEAs in Action curriculum, they are encouraged to apply their growing capacities through concrete experiences. These opportunities help students reflect upon their learning, deepen their understanding, and integrate their knowledge in meaningful ways.

Requirements

Code	Title	Hours
First-Year Foundations		
IDST 101	 College Thriving ^{H, 1}	1
IDST 111L	 Data Literacy Lab ¹	1
First-Year Seminar or First-Year Launch (p. 660) ¹		3-4
ENGL 105	 English Composition and Rhetoric ¹	3
Global Language through level 3 (p. 670) ^{2, §}		varies
Focus Capacities ³		
1. Aesthetic and Interpretive Analysis (p. 670)		3
2. Creative Expression, Practice, and Production (p. 682)		3
3. Engagement with the Human Past (p. 685)		3
4. Ethical and Civic Values (p. 695)		3
5. Global Understanding and Engagement (p. 700)		3
6. Natural Scientific Investigation (p. 708)		3
7. Power and Society (https://catalog.unc.edu/undergraduate/ideas-in-action/power-society/)		3
8. Quantitative Reasoning (p. 709)		3
9. Ways of Knowing (p. 711)		3
One Focus Capacity course must include or be associated with a one-credit lab:		

Empirical Investigation Lab (p. 721)	1
Reflection and Integration	
Research and Discovery (p. 721) (one course) ^{4, §}	1-3
High-Impact Experience (p. 728) or a second Research and Discovery (p. 721) (one course) ⁴	1-3
Communication Beyond Carolina (p. 732) (one course) ^{5, §}	3
Interdisciplinary (p. 734) (one course) [†]	3
Lifetime Fitness (p. 735) ^{6, §}	1
Campus Life Experience (p. 736) (8 events from four categories) [§]	—
Additional Requirements	
Foundations of American Democracy (p. 736) [†]	3
Requirements for a major (p. 112)	varies
Disciplinary Distribution (see below)	—
Supplemental General Education (https://catalog.unc.edu/undergraduate/ideas-in-action/supplemental-general-education/) (for BA degrees only) [§]	varies

H Honors students may use HNRS 101 to fulfill the College Thriving requirement.

- ¹ Must be completed during the first academic year on campus (two semesters).
- ² Some majors require additional levels. Students are strongly encouraged to begin Global Language during their first year.
- ³ Of the 9 Focus Capacities, students may fulfill up to 5 Focus Capacities (+Lab) using by-exam credit.
- ⁴ The same course or experience may not be counted for both the Research and Discovery and the High-Impact Experience requirements.
- ⁵ Students in the **2026–2027 cohort class**, the **2025–2026 cohort class**, and the **2024–2025 cohort class** must earn credit for a Communication Beyond Carolina course to fulfill this requirement. Students in previous cohorts may fulfill this requirement by earning credit for a Communication Beyond Carolina course from the IDEAs in Action curriculum or by earning credit for a Communication-Intensive course from the Making Connections curriculum.
- ⁶ Varsity student athletes who participate in a sport for at least one semester are exempt from this requirement. ROTC students who participate in the program for at least one semester are exempt from this requirement. These students still have the option to take an LFIT course.

[†] New requirement for students starting at Carolina in fall 2025 or after.

[§] Classified as a degree requirement. Not covered under the North Carolina Community College Comprehensive Articulation Agreement (CAA).

Disciplinary Distribution

All students are required to complete at least one general education course from each of the three major divisions within the College of Arts and Sciences (p. 115):

1. Fine Arts and Humanities
2. Natural Sciences and Mathematics
3. Social Sciences and Global Programs

These courses may be fulfilled through any of the following categories:

- FY-Seminar/FY-Launch
- Focus Capacity
- Research and Discovery

- High-Impact Experience
- Foundations of American Democracy

Additional Policies

- Courses used to satisfy IDEAs in Action requirements may not be declared Pass/Low Pass/Fail. This includes level 1, level 2, and level 3 language courses being used to fulfill the Global Language (through level 3) requirement. Note that IDST 101, all Lifetime Fitness courses, some Research and Discovery courses, and some High-Impact Experience courses are only offered as Pass/Low Pass/Fail.
- Students may take and receive credit for only one First-Year Seminar or First-Year Launch course.
- All First-Year Foundation requirements must be satisfied by taking courses at UNC–Chapel Hill, with three exceptions:
 - UNC faculty-led First-Year Seminars awarding UNC graded credit in study abroad programs may be used to satisfy the First-Year Seminar requirement.
 - Pre-approved First-Year Seminar courses awarding transfer (TR) credit that were completed through the Carolina Global Launch or Carolina Spring Forward programs.
 - ENGL 105 may be satisfied with transfer credit, but not with by-examination (BE) credit.
 - Global Language may be satisfied with college transfer credit, UNC language placement test credit (PL), by-examination (BE) credit, or from prior educational experience. Additional information can be found in this catalog (p. 763) and on the Language Placement website (<https://languageplacement.unc.edu/>).
- Students must maintain continuous enrollment in Global Language courses until they have completed the requirement. See "Continuous Course Enrollment (p. 773)" section in this catalog.
- Students are not permitted to drop ENGL 100, ENGL 105, or Global Language levels 1 through 3 being used to fulfill the IDEAs in Action requirement after the second week of the semester, unless approved by a dean in the Academic Advising Program. See "Continuous Course Enrollment (p. 773)" section in this catalog.
- The degree programs in Clinical Laboratory Science (p. 440), Dental Hygiene (p. 68), Neurodiagnostics and Sleep Sciences (p. 447), Nursing (p. 100), and Radiologic Science (p. 444) require at least six of the nine Focus Capacities (plus lab). If a student pursues a different second major, then all nine Focus Capacities (plus Lab) are required.
- Transfer students from the Carolina Global Launch (<https://admissions.unc.edu/apply/special-opportunities/carolina-global-launch/>) program may use the experience to fulfill the High-Impact Experience requirement.

Overlapping/Double Counting Rules

A single course may be used to fulfill multiple IDEAs in Action requirements, with the following exceptions:

- Some courses are approved for two (2) Focus Capacity requirements. However, a single course may be used to fulfill only one Focus

Capacity requirement. In other words, students must complete nine (9) courses for the nine (9) Focus Capacity requirements.

- A Focus Capacity course may not double count with a Supplemental General Education course.
- The same course may not be used to fulfill both the Research and Discovery requirement and the High-Impact Experience requirement.

First-Year Foundations College Thriving (FY-THRIVE)

Learning Outcomes

1. Increase and appreciate the significance of self-awareness.
2. Value a liberal arts education.
3. Set goals, plan, and reflect upon learning using aspects of using learning science: metacognition, self-regulated learning, and motivation.
4. Describe academic strategies, policies, and pathways and their link to resources such as academic advising and career services.
5. Reflect on the science of thriving: positive emotion, engagement, meaning, healthy relationships, resilience, stress, and other aspects of well-being.
6. Demonstrate mastery of basic mental health, drug and alcohol, and sexual wellness practices.

Writing at the Research University (FY-WRITING)

Learning Outcomes

1. Employ conventions, genres, and rhetoric practiced in the natural sciences, social sciences, and humanities.
2. Conduct research using a variety of methods, databases, and sources.
3. Discuss and present research-based arguments and information.
4. Identify how best to use research and evidence in discipline-specific compositions.
5. Compose using written, oral, and multimedia modes.
6. Review and revise one's own work and assist others in revising their work.

First-Year Seminar/First-Year Launch (FY-SEMINAR & FY-LAUNCH)

Learning Outcomes (First-Year Seminar)

1. Connect with a faculty member early in the educational process.
2. Learn intensively among a small cohort of students.
3. Apply methods for how scholars pose problems, discover solutions, resolve controversies, and evaluate knowledge.
4. Produce knowledge through self-directed inquiry and active learning.

Learning Outcomes (First-Year Launch)

1. Connect with a faculty member early in the educational process.
2. Learn intensively among a small cohort of students.
3. Learn the foundation of a discipline.
4. Analyze and communicate issues associated with a broad, introductory topic, covering a wide range of knowledge.

Approved FY-SEMINAR & FY-LAUNCH (p. 660) courses.

Data Literacy Lab (FY-DATA)

Learning Outcomes

1. Demonstrate understanding of the essentials of computer architecture and data security.
2. Recognize how data is collected, manipulated, and accessed.
3. Interpret analyzed data to make meaningful conclusions.
4. Identify the ethical challenges that arise when working with data and their impact on society.

Global Language (GLBL-LANG)

Learning Outcomes

1. Communicate orally (as appropriate) and in writing in a foreign language about a variety of situations with a variety of audiences.
2. Demonstrate comprehension of oral (as appropriate) and written texts in a foreign language on a wide range of topics to aspects of human experience, as well as life in a cross-cultural context.
3. Apply perspectives, practices, and ideas associated with the culture(s) of a foreign language.

Approved GLBL-LANG (p. 670) courses.

Focus Capacities

Every Focus Capacity course includes the following recurring capacities:

1. Writing, totaling at least 10 pages in length or the intellectual equivalent
2. Presenting material to the class, small groups, or the public through oral presentations, webpages, or other means that enable corroboration of fact and argument
3. Collaborating in pairs or groups to learn, design, solve, create, build, research, or similar.

Aesthetic and Interpretive Analysis (FC-AESTH)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Interpret and critique literary and artistic expression.
2. Analyze literary and artistic works in various contexts (social, political, historical, philosophical, etc.) and with regard to style, period, and the circumstances of composition.
3. Explain how aesthetic expression enhances human experience.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What is the particular value of aesthetic experience and how does it generate meanings, responses, and acts of reflection?
2. What makes an artistic work different from other forms of expression?
3. How does creative attention to an aesthetic object reveal new ideas, articulate values, and reflect or enact art's functions in the world?

Approved FC-AESTH (p. 670) courses.

Creative Expression, Practice, and Production (FC-CREATE)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Compose, design, build, present, or perform a work that is the result of immersion in a creative process using appropriate media, tools, and techniques.
2. Explain the roles and influences of creativity, technologies, materials, and design processes in the creation of knowledge, expression, and effective solutions.
3. Evaluate their own and others' creative work to demonstrate how critique creates value in creative domains.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What processes and practices can I use to produce meaningful expression or effective solutions with lasting impact?
2. How does collaboration and teamwork change or enhance the creative process?
3. How does a design strategy affect or enhance the creation and evaluation of a work of value?

Approved FC-CREATE (p. 682) courses.

Engagement with the Human Past (FC-PAST)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Develop knowledge of different spatiotemporal scales, patterns, ideas, figures, and events from the past.
2. Evaluate primary source material and/or other historical evidence of past conditions (e.g., behaviors, events, and social, cultural, economic, and/or political structures); assess divergent or complementary methods, materials, and/or methodologies in interpreting the human past.
3. Assess conflicting historical narratives based on evidence and methodologies.
4. Generate and evaluate arguments based the analysis of primary and scholarly sources.
5. Apply historical methods and knowledge to make informed judgments about the past and the present.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What events, conflicts, and continuities shaped an era of the human past?
2. What distinctive kinds of evidence do we use to interpret and understand the human past?
3. How have people made decisions and acted in light of historical knowledge?
4. How does the material and historical past survive in the present and affect our perception of both the past and the present?

5. What conditions and processes shape our approach to the human past?

Approved FC-PAST (p. 685) courses.

Ethical and Civic Values (FC-VALUES)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Explain the contexts in which questions of justification arise.
2. Assess ethical values in terms of reasons offered
3. Recognize different ethical perspectives and the distinctive approaches these perspectives bring to questions of value, evaluating ethical justifications for different ways of organizing civic and political communities.
4. Analyze the differences between personal ethical decisions and those bearing on the public and civic spheres.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. How can people think fruitfully (individually and together) about how they should live their lives?
2. What is required to judge a standard or value as worthy of support?
3. How should we distinguish between prejudices and reasonable grounds for value judgments?
4. What considerations — stories, reasons, testimony, documents, data, etc. — can justify our values and commitments, whether personal or social?

Approved FC-VALUES (p. 695) courses.

Global Understanding and Engagement (FC-GLOBAL)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Classify and analyze diverse historical, social, and political exchanges that shape nations, regions, and cultural traditions of the world.
2. Translate among contrasting civic cultures, social values, and moral commitments that characterize differences among peoples and societies, including those beyond the North Atlantic region.
3. Assess ways that political and economic institutions shape contemporary global relations.
4. Explain human and environmental challenges that transcend national borders.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What forces connect and distinguish the experiences of peoples, societies, and human organization around the world?
2. How can I understand and compare differing worldviews?
3. What connections and differences exist between particular worldviews, experiences, societies, or power structures?
4. What ideas, approaches, and international sources allow scholars to compare societies?

Approved FC-GLOBAL (p. 700) courses.

Natural Scientific Investigation (FC-NATSCI)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Demonstrate the ability to use scientific knowledge, logic, and imagination to construct and justify scientific claims about naturally occurring phenomena, including validation through rigorous empirical testing.
2. Analyze and apply processes of scientific inquiry as dictated by the phenomena and questions at hand. These include generating and testing hypotheses or theories pertaining to the natural world; using logic and creativity to design investigations to test these hypotheses; collecting and interpreting data about the natural world; making inferences that respect measurement error; building and justifying arguments and explanations; communicating and defending conclusions; revising arguments and conclusions based on new evidence and/or feedback from peers; and synthesizing new knowledge into broader scientific understanding.
3. Evaluate science-related claims and information from popular and/or peer-reviewed sources by examining the relationship between the evidence, arguments, and conclusions presented and by assessing consistency with existing knowledge from valid and reliable scientific sources.
4. Identify, assess, and make informed decisions about ethical issues at the intersections of the natural sciences and society.

The General Education Oversight Committee approved changes to the learning outcomes on 3-26-2021.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What rules govern the natural world and how are they discovered, tested, and validated?
2. What is distinctive about the approach to understanding employed in the natural sciences?
3. What challenges are encountered in making measurements of the natural world?
4. What are the limits of investigation in the natural sciences?

Approved FC-NATSCI (p. 708) courses.

Power and Society (FC-POWER)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Analyze configurations of social, economic, and political power and how they influence the functioning of societies and forms of inequality.
2. Examine how the organization of social, economic, and political systems affects the distribution of resources, opportunities, and influence within societies.
3. Interrogate the processes by which such systems are established, sustained, and at times challenged and changed in specific historical contexts.

The Administrative Boards of the College of Arts and Sciences approved changes to the learning outcomes on 4-25-2025.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What are the relevant structures, institutions, ways of thinking, and practices that create, maintain, and change social, economic, and political inequalities?
2. What practices have been implemented and institutionalized to address social, economic, and political inequalities?

Approved FC-POWER (<https://catalog.unc.edu/undergraduate/ideas-in-action/power-society/>) courses.

Quantitative Reasoning (FC-QUANT)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Summarize, interpret, and present quantitative data in mathematical forms, such as graphs, diagrams, tables, or mathematical text.
2. Develop or compute representations of data using mathematical forms or equations as models, and use statistical methods to assess their validity.
3. Make and evaluate important assumptions in the estimation, modeling, and analysis of data, and recognize the limitations of the results.
4. Apply mathematical concepts, data, procedures, and solutions to make judgments and draw conclusions.
5. Synthesize and present quantitative data to others to explain findings or to provide quantitative evidence in support of a position.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What is the role of mathematics in organizing and interpreting measurements of the world?
2. How can mathematical models and quantitative analysis be used to summarize or synthesize data into knowledge and predictions?
3. What methodology can we apply to validate or reject mathematical models or to express our degree of confidence in them?

Approved FC-QUANT (p. 709) courses.

Ways of Knowing (FC-KNOWING)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Recognize and use one or more approach(es) to developing and validating knowledge of the unfamiliar world.
2. Evaluate ways that temporal, spatial, scientific, and philosophical categories structure knowledge.
3. Interrogate assumptions that underlie our own perceptions of the world.
4. Employ strategies to mitigate or adjust for preconceptions and biases.

5. Apply critical insights to understand patterns of experience and belief.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What norms and expectations do I take for granted?
2. What categories and concepts frame my assumptions, experiences, and beliefs?
3. What practices of investigation or inquiry best challenge those assumptions and expectations?
4. How can I consider whether my beliefs might be wrong?

Approved FC-KNOWING (p. 711) courses.

Empirical Investigation Lab (FC-LAB)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Take empirical measurements using appropriate apparatus.
2. Generate and test hypotheses.
3. Gather, store, and organize data.
4. Analyze and report on data and hypothesis testing.

Approved FC-LAB (p. 721) courses.

Reflection and Integration Research and Discovery (RESEARCH)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Frame a topic, develop an original research question or creative goal, and establish a point of view, creative approach, or hypothesis.
2. Obtain a procedural understanding of how conclusions can be reached in a field and gather appropriate evidence.
3. Evaluate the quality of the arguments and/or evidence in support of the emerging product.
4. Communicate findings in a clear and compelling ways.
5. Critique and identify the limits of the conclusions of the project and generate ideas for future work.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. How do I establish my point of view, take intellectual risks, and begin producing original scholarship or creative works?
2. How do I narrow my topic, critique current scholarship, and gather evidence in systematic and responsible ways?
3. How do I evaluate my findings and communicate my conclusions?

Approved RESEARCH (p. 721) courses.

High-Impact Experience

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Explain the connections between academic studies and outside-the-classroom experiences and observations.
2. Apply knowledge in complex or ambiguous situations.
3. Develop questions from experiences and observations to deepen and extend academic inquiry.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. How do things I've learned in the classroom apply to outside settings?
2. How can experiences and observation raise or answer questions in academic settings?
3. How can I meaningfully reflect to help navigate complexities and ambiguities I encounter?

Approved High-Impact Experiences (p. 728).

Communication Beyond Carolina (COMMBEYOND)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Ascertain the expectations, opportunities, and barriers to oral communication in distinct situations.
2. Tailor oral communications to different kinds of settings, including individual, small group, and public communication.
3. Tailor oral communications to different levels of expertise (inexpert, informed, expert), and to varying levels of alignment (resistant, ambivalent, supportive) and distinct contexts.
4. Make informed situation- and audience-sensitive strategic choices in content and delivery.
5. Improve ability to move audiences, as measure by best practices, audience feedback, and instructor feedback.

Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. How can I engage with audiences through oral communication?
2. How do I best convey knowledge, ideas, and information effectively to different audiences in situations?
3. How can I best understand the views and ideas of others, both individually and collectively?
4. What are the best ways of strategizing and delivering oral communication for achieving my intended outcomes?
5. How can media or digital compositions extend my ability to communicate?

Approved COMMBEYOND (p. 732) courses.

Interdisciplinary Requirement

Learning Outcomes

1. Compare and contrast the questions and methods multiple disciplines might use to gain a more complete understanding of the central class theme.
2. Explain how an interdisciplinary approach changes our ability to solve problems and form understandings of complex topics.

3. Synthesize knowledge and processes from multiple disciplines to solve problems and/or generate new ideas relating to the course's central theme.

Questions for Students

1. How are the concepts and methods discussed in class interconnected and useful in understanding the central course theme?
2. What questions might scholars from different fields pose regarding a complex global problem?
3. Why is interdisciplinary knowledge useful in solving complex global problems?
4. How does an interdisciplinary approach change our ability to pose questions and analyze data?

Approved INTERDISCI (p. 734) courses.

Lifetime Fitness (LIFE-FIT)

Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Engage in healthy physical activity and nutritional behaviors.
2. Assess your own physical activity and fitness.
3. Design and initiate a personal physical activity plan for aerobic and muscular fitness.
4. Create solutions for overcoming barriers to maintaining lifetime fitness and proper nutrition throughout life.

Approved LIFE-FIT (p. 735) courses.

Campus Life Experience

Purpose Statement

To extend student learning beyond the classroom through engagement in a variety of activities that connect campus academic and social life, encourage a sense of belonging, and foster wayfinding.

Categories

1. **Civic Engagement, Public Service, and Academic Enhancement.** Events that connect students with civic life, community needs, or academic inquiry beyond the classroom. This includes lectures, panels, and presentations that deepen intellectual engagement, as well as service-oriented events that foster a sense of civic responsibility and public purpose.
2. **Films, Music, & Visual and Performing Arts.** Events that expose students to artistic expression through film, music, theater, dance, or other visual and performing arts. These experiences cultivate aesthetic appreciation and encourage students to see creative works as sources of knowledge and meaning.
3. **Career Exploration and Leadership Development.** Events that support students in exploring professional pathways, developing leadership skills, and building networks within their fields of interest. This includes career fairs, professional panels, networking events, and leadership workshops.
4. **Campus Life and Personal Well-Being.** Events that connect students with the variety of social and cultural communities of the university and support personal development and wellbeing. This includes cultural celebrations, campus community programming, wellness events, and social experiences that foster belonging and self-awareness.

Additional Requirements

Foundations of American Democracy

Learning Outcomes

1. Identify and analyze the political, historical, and cultural impact of founding documents on governance and democracy in America.
2. Identify and analyze the political, historical, and cultural impact of key milestones in American history on the evolution of democratic republicanism in America.
3. Evaluate key concepts, principles, arguments and contexts in founding documents of the American republic, including the United States Constitution, the Declaration of Independence and a representative selection of the Federalist Papers. *[BOG outcome #1]*
4. Evaluate key milestones in progress and challenges in the effort to form “a more perfect Union,” including the arguments and contexts surrounding the Gettysburg Address, the Emancipation Proclamation, and the Letter from Birmingham Jail, as well as other texts that reflect the breadth of American experiences. *[BOG outcome #2]*

If you applied to UNC as a transfer student, there are a few elements of the IDEAs in Action curriculum that are different for you.

If you completed 24 or more credits at another institution (earned after graduating from high school), you are exempt from the following 3 First-Year Foundation requirements (and you may not enroll in these classes):

1. College Thriving
2. First-Year Seminar/First-Year Launch
3. Data Literacy Lab

All other IDEAs in Action requirements must be fulfilled, including ENGL 105 and Global Language (p. 670) from the First-Year Foundations.

Transfer Students from a North Carolina Community College

If you earned an associate's degree from a North Carolina community college and qualify under the Comprehensive Articulation Agreement (CAA), all IDEAs in Action requirements are satisfied, with the following exceptions, which are degree requirements:

- Global Language
- Research and Discovery
- Communication Beyond Carolina
- Lifetime Fitness
- Campus Life Experience
- Supplemental General Education (BA degree only)

If you receive equivalent course credit, you may use the transfer credit to fulfill any of the requirements listed above.

First-Year Students from a North Carolina Early College

If you were admitted as a first-year student and earned an associate's degree from a North Carolina early college (Cooperative Innovative High School) and qualify for the Comprehensive Articulation Agreement (CAA), all IDEAs in Action requirements are satisfied, with the following exceptions, which are degree requirements:

- Global Language
- Research and Discovery
- Communication Beyond Carolina

- Lifetime Fitness
- Campus Life Experience
- Supplemental General Education (B.A. degree only)

If you receive equivalent course credit, you may use the transfer credit to fulfill any of the requirements listed above.

Although not required, as a first-year student you may elect to enroll in IDST 101, IDST 111L, and a FY-Seminar or FY-Launch (p. 660) course.

Contact Information

Visit Program Website (<https://ideasinaction.unc.edu/about/contact/>)

First-Year Seminar and First-Year Launch

First-Year Seminars (FYS) provide students with this close contact through in-depth study of a specialized topic in a small class (no more than 24 students). FYSs are issue-oriented, covering a wide range of knowledge and/or engaging specific issues or advanced, cutting-edge topics. They are methodologically self-conscious, focus on how scholars pose problems, involve active learning, encourage self-directed inquiry, and enable students to take responsibility for producing knowledge. The courses also build students' communication skills. They are not introductory surveys.

First-Year Launches (FYL) provide an introduction to a discipline or field of study that directly relates to a major offered at UNC-Chapel Hill. Thus, FYL courses must fulfill a requirement in a major (e.g., gateway, core requirement, or elective requirement). These courses also build students' communication skills. FYL courses are ordinarily capped at 24 but may have as many as 35 students.

A First-Year Seminar or a First-Year Launch is a required First-Year Foundations course in the IDEAs in Action curriculum (p. 655).

First-Year Seminar

Code	Title	Hours
Approved Courses		
AAAD 50	 First-Year Seminar: Defining Blackness	3
AAAD 51	 First-Year Seminar: Masquerades of Blackness	3
AAAD 53	 First-Year Seminar: Experimentalism in Global Black Music and Performance Arts	3
AAAD 54	 First-Year Seminar: African Migrations, Boundaries, Displacements, and Belonging	3
AAAD 55	 First-Year Seminar: Youth Activism, Citizenship, and Social Change in Africa	3
AAAD 56	 First-Year Seminar: Women of the Black Atlantic	3
AAAD 57	 First-Year Seminar: Afro-Latinxs in the U.S.	3
AAAD 58	 First-Year Seminar: Health Inequality in Africa and the African Diaspora	3
AAAD 59	 #BlackLove: Uncommon Narratives	3
AAAD 62	 African Americans and Education	3
AAAD 89	 First Year Seminar: Special Topics	3

AMST 54	 First-Year Seminar: The Indians' New Worlds: Southeastern Histories from 1200 to 1800	3	ARTH 51	 First-Year Seminar: Cathedrals, Abbeys, Castles: Gothic Art and Architecture (c. 1130-1450)	3
AMST 55	 First-Year Seminar: Birth and Death in the United States ^H	3	ARTH 54	 First-Year Seminar: Art, War, and Revolution ^H	3

Global Language

Students are required to complete courses or demonstrate proficiency in the study of a foreign language through level 3. Certain majors may require additional levels of foreign language study. Students are strongly encouraged to begin this requirement in their first or second semester.

By way of foreign language study through level 3, students consider the nature and structure of their native language and reflect upon their own cultural norms while gaining functional linguistic proficiency in the language of study, as well as an appreciation of the cultures and worldviews represented.

Global language (through level 3) is a required First-Year Foundations course in the IDEAs in Action curriculum (p. 655).

Approved Courses (Level 3)

Aesthetic and Interpretive Analysis

Students develop the ability to analyze literature and/or other artistic works, to understand how they relate to the historical circumstances of their creation, and to think critically about the past, present, and future contributions of these works to a shared world.

Aesthetic and Interpretive Analysis (FC-AESTH) is a required Focus Capacity course in the IDEAs in Action curriculum (p. 655).

A single course may be used to fulfill only one Focus Capacity requirement (not including lab).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Creative Expression, Practice, and Production

Students engage in individual and collaborative creative expression, exploration, or production, such as in performance, visual art, composition, design, or technology. They engage with tools, techniques, methods, design processes, technologies, and materials for creating works that express, innovate, or create solutions to problems.

Creative Expression, Practice, and Production (FC-CREATE) is a required Focus Capacity course in the IDEAs in Action curriculum (p. 655).

A single course may be used to fulfill only one Focus Capacity requirement (not including lab).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Engagement with the Human Past

Students acquire knowledge through evidence about human experience in one or more eras of the human past and learn to evaluate, synthesize, and communicate that evidence, applying it to their lives in the present.

Engagement with the Human Past (FC-PAST) is a required Focus Capacity course in the IDEAs in Action curriculum (p. 655).

A single course may be used to fulfill only one Focus Capacity requirement (not including lab).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Ethical and Civic Values

Students develop their capacity to think carefully and critically about how to make and justify private and public decisions.

Ethical and Civic Values (FC-VALUES) is a required Focus Capacity course in the IDEAs in Action curriculum (p. 655).

A single course may be used to fulfill only one Focus Capacity requirement (not including lab).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Global Understanding and Engagement

Students study and engage with global processes shaping the world and its peoples, including those beyond the North Atlantic region (United States, Canada, and Western Europe). They develop deep knowledge of historic or contemporary roles and differential effects of human organizations and actions on global systems.

Global Understanding and Engagement (FC-GLOBAL) is a required Focus Capacity course in the IDEAs in Action curriculum (p. 655).

A single course may be used to fulfill only one Focus Capacity requirement (not including lab).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Natural Scientific Investigation

Students learn how to make and interpret scientific descriptions and explanations of the natural world, practice the skills of scientific inquiry, and evaluate scientific evidence within the contexts of both scientific communities and society.

Natural Scientific Investigation (FC-NATSCI) is a required Focus Capacity course in the IDEAs in Action curriculum (p. 655).

A single course may be used to fulfill only one Focus Capacity requirement (not including lab).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Quantitative Reasoning

Students learn to comprehend and apply mathematical concepts in authentic contexts, developing tools for reasoning with data, logic, and quantitative methods.

Quantitative Reasoning (FC-QUANT) is a required Focus Capacity course in the IDEAs in Action curriculum (p. 655).

A single course may be used to fulfill only one Focus Capacity requirement (not including lab).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Ways of Knowing

Students develop intellectual humility, learning to question assumptions, categories, and norms that structure their worldviews and to understand the sources and effects of biases. They learn, use, and distinguish strengths and weaknesses of one or more approach(es) to knowledge of the unfamiliar, such as: aesthetically, philosophically, linguistically, historically, or culturally remote forms of knowledge and worldmaking, or formal logic, scientific practice, and similar formalized approaches to countering bias and creating knowledge.

Ways of Knowing (FC-KNOWING) is a required Focus Capacity course in the IDEAs in Action curriculum (p. 655).

A single course may be used to fulfill only one Focus Capacity requirement (not including lab).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Empirical Investigation Lab

As part of the IDEAs in Action curriculum (p. 655), one Focus Capacity course must include or be associated with a one-credit Empirical Investigation Lab (FC-LAB). In such labs, students participate in measurement, data collection and analysis, and hypothesis testing connected to the course content.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Research and Discovery

Students immerse themselves in a research project and experience the reflection and revision involved in producing and disseminating original scholarship or creative works.

Research and Discovery (RESEARCH) is a required Reflection and Integration course in the IDEAs in Action curriculum (p. 655).

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

High-Impact Experience

Students enrich and expand their academic study by engaging in compelling applied experiences that transform their learning.

High-Impact Experience (HI) is a required Reflection and Integration course in the IDEAs in Action curriculum (p. 655). There are several types of high-impact experience opportunities at Carolina.

In addition to the approved courses and experiences listed below, this requirement may also be fulfilled by taking a second Research and Discovery (p. 721) course.

Approved Courses

Study Abroad

All UNC–Chapel Hill approved study abroad programs fulfill the High-Impact Experience requirement. Program information can be found at the Study Abroad Office (<https://studyabroad.unc.edu/>).

Internship (HI-INTERN)

Code	Title	Hours
AAAD 293	 Individual Internships for Majors and Minors	1-3
AERO 393	 Air and Space Expeditionary Training	1
AMST 493	 Internship	1-3
ANTH 393	 Internship in Anthropology	1-12
APPL 493	 Internship in Applied Physical Sciences	3
ARCH 393	 Internship in Archaeology	3-6
ARMY 393	 Air and Space Expeditionary Training	1

Collaborative Online International Learning (HI-COIL)

COIL courses involve shared learning between students in a course at UNC–Chapel Hill and peer students at a global partner university. Faculty members at both institutions design collaborative activities for their students lasting at least three weeks, such as completing small group projects, engaging in dialogue drawing on their different societal or disciplinary perspectives, or exchanging scholarly or creative work.

Search for COIL courses at the section level in ConnectCarolina using the "Search by Class Attribute" feature.

More information is available at UNC Global (<https://global.unc.edu/programs/connecting-carolina-classrooms-with-the-world/coil/>).

Communication Beyond Carolina

Students build capacities for producing and listening to oral communication across a range of contexts. With multiple audiences, they learn to listen to and persuasively convey knowledge, ideas, and information.

Communication Beyond Carolina (COMMBEYOND) is a required Reflection and Integration course in the IDEAs in Action curriculum (p. 655).

Lifetime Fitness

To gain facility and knowledge of life-long physical wellness, students must participate in a Lifetime Fitness class. This class combines instruction in and practice of a sports or physical activity along with instruction in physical well-being (exercise and fitness) to promote lifelong fitness.

Lifetime Fitness (LIFE-FIT) is a required Reflection and Integration course in the IDEAs in Action curriculum (p. 655). Students can enroll in only one LFIT course during their career at Carolina.

Foundations of American Democracy

Starting in Fall 2025, all new first-year and transfer students at Carolina will need to complete the Foundations of American Democracy (FAD) requirement in the IDEAs in Action curriculum (p. 655).

(If you started at Carolina before Fall 2025, you do not need to complete this requirement.)

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Campus Life Experience (CLE)

The purpose of the CLE requirement is to extend student learning beyond the classroom through engagement in a variety of activities that connect campus academic and social life, encourage a sense of belonging, and foster wayfinding.

Students Enrolled for the First Time in Fall 2026 and After

All students are required to complete eight (8) CLEs over the course of their undergraduate career, with at least one CLE completed in each of the four categories. The remaining four CLEs may be completed in any category of the student's choosing.

1. Civic Engagement, Public Service, and Academic Enhancement
2. Films, Music, & Visual and Performing Arts
3. Career Exploration & Leadership Development
4. Campus Life and Personal Well-Being

While students are encouraged to explore a variety of CLE options, attending the same event in different semesters or academic years is permissible.

Events that are required for a course the student is taking are still eligible to count toward the Campus Life Experience requirement. To be eligible, events must be sponsored by a UNC–Chapel Hill department or unit. Events may include students on the program but may not be entirely composed of students.

All approved events are posted to Heel Life (<https://heelife.unc.edu/>).

Additional information is available in Student Affairs (<https://studentaffairs.unc.edu/student-programs/campus-life-experience/student-information/>).

Students Enrolled for the First Time Before Fall 2026

- Students graduating in December 2026 or later are required to complete the reduced total number of CLEs, 8 total, but are not subject to the new category distribution requirement.
- Students graduating in May 2026 and August 2026 are required to complete the original CLE requirement. See archived catalog (p. 788) for additional information.

While students are encouraged to explore a variety of CLE options, attending the same event in different semesters or academic years is permissible.

Events that are required for a course the student is taking are still eligible to count toward the Campus Life Experience requirement. To be eligible, events must be sponsored by a UNC–Chapel Hill department or unit. Events may include students on the program but may not be entirely composed of students.

If you participate in a study abroad program **beginning in Fall 2026 or later**, you will no longer accrue two CLEs for that semester, and the program itself will no longer count as completing two CLEs.

All approved events are posted to Heel Life (<https://heelife.unc.edu/>).

Additional information is available in Student Affairs (<https://studentaffairs.unc.edu/student-programs/campus-life-experience/student-information/>).

SCHOOLS/COLLEGE

Division of Academic Affairs

- College of Arts and Sciences (General College) (p. 30)
- Kenan–Flagler Business School (p. 31)
- School of Civic Life and Leadership (<https://catalog.unc.edu/undergraduate/schools-college/civic-life-leadership/>)
- School of Data and Information Sciences (p. 49)
- School of Education (p. 73)
- School of Government (p. 85)
- Hussman School of Journalism and Media (p. 90)

Division of Health Affairs

- Adams School of Dentistry (p. 60)
- School of Medicine: Department of Health Sciences (p. 439)
- School of Nursing (p. 100)
- Eshelman School of Pharmacy (p. 107)
- Gillings School of Global Public Health (p. 30)

Entering first-year students and transfers of less than junior standing from other institutions enter the College of Arts and Sciences (General College).

Students with junior standing, including transfers from other institutions, enter a School or College in the Division of Academic Affairs or the Division of Health Affairs (see lists above).

Undergraduate courses are also offered through Summer School (p. 111).

UNDERGRADUATE DEGREE REQUIREMENTS

Undergraduate Degree Programs

The University offers programs of study leading to the bachelor of arts (B.A.), bachelor of arts in education (B.A.Ed.), bachelor of arts in media and journalism (B.A.M.J.), bachelor of fine arts (B.F.A.), bachelor of music (B.Mus.), bachelor of science (B.S.), bachelor of science in business administration (B.S.B.A.), bachelor of science in information science (B.S.I.S.), bachelor of science in nursing (B.S.N.), and bachelor of science in public health (B.S.P.H.) degrees. The University does not award any credential below a bachelor's degree credential.

The College of Arts and Sciences offers more than 50 major fields of study (p. 112). Professional school majors are also available to undergraduates by application and acceptance. Specific requirements for each major are included in this catalog. For information about the other undergraduate degree programs, please refer to the professional schools' sections in this catalog.

Bachelor of Arts

Students seeking a bachelor of arts (B.A.) degree must complete the Supplemental General Education (p. 653) requirement. Among other options, completing a minor or a second major fulfills the Supplemental General Education requirement.

Bachelor of Science

Four-year programs leading to the degree of bachelor of science (B.S.) provide for specialization in a particular field and necessary instruction in related fields. In some B.S. programs offered by professional schools, General Education requirements may be reduced. Most B.S. programs, however, require students to complete quantitative reasoning courses beyond the General Education minimum and/or require specific quantitative reasoning courses.

Bachelor of Fine Arts

A four-year program leading to the degree of bachelor of fine arts (p. 161) is offered by the Department of Art and Art History. It provides, for qualified students, preprofessional training in creative aspects of the field of art. Approximately one-half of the program is in the field of the major, and the other half is in the liberal arts and sciences.

Bachelor of Music

The four-year program leading to the degree of bachelor of music (p. 489), housed in the Department of Music, emphasizes training and achievement in the performance or composition of music. Approximately one-half of the program is in the field of the major, and the other half is in the liberal arts and sciences.

Dual Bachelor's–Graduate Degree Programs

The University offers dual bachelor–graduate degree programs. The programs currently offered are listed below. The requirements for the bachelor's degree must be completed within eight semesters of study (or 10 semesters of study for transfer students (p. 739)). The requirements for the graduate degree can be completed in as few as two additional semesters, for a possible total of 10 (or fewer) semesters of study. For

information about the requirements and application process, please consult the relevant academic unit in this catalog.

- Asian and Middle Eastern Studies (**add content & links for 2027-28**)
- Biomedical Engineering (**add content & links for 2027-28**)
- Biomedical and Health Informatics M.P.S. (<https://catalog.unc.edu/graduate/schools-departments/data-information-sciences/#mastersdegreertext>) (multiple bachelor's degree majors possible), School of Data and Information Sciences
- Biostatistics (p. 237) (B.S.P.H. –M.S.), Gillings School of Global Public Health
- City and Regional Planning (p. 256) (multiple bachelor's degree majors possible–MCRP), College of Arts and Sciences
- Computer science (p. 288) (B.S.–M.S.), College of Arts and Sciences
- Contemporary European studies (p. 374) and political science (B.A.–M.A. Trans-Atlantic Master's Program), College of Arts and Sciences
- Education M.A.T. (p. 73) (multiple bachelor's degree majors possible), School of Education
- English and comparative literature (p. 322) with a concentration in literature, medicine, and culture (B.A.–M.A.), College of Arts and Sciences
- Environmental science and engineering (p. 367) (multiple B.S. degree majors possible or B.S.P.H.–M.S. or M.S.P.H.), Gillings School of Global Public Health
- Environmental science and information science (p. 352) (B.S.–M.S.I.S.), College of Arts and Sciences and the School of Information and Library Science
- Environmental studies or environmental science and public administration (p. 344) (B.A. or B.S.–M.P.A.), College of Arts and Sciences and the School of Government
- Environmental studies or environmental science and geography (B.A. or B.S.–M.A.), College of Arts and Sciences
- Information science (p. 87) (B.S.I.S.–M.S.I.S. or M.S.L.S.), School of Data and Information Sciences
- Linguistics (p. 473) (B.A.–M.A.), College of Arts and Sciences
- Nutrition (p. 500) (B.S.P.H.–M.S.), Gillings School of Global Public Health
- Public Administration (**add content & links for 2027-28**)
- Public Policy (p. 567) (multiple bachelor's degree majors possible–MPP), College of Arts and Sciences
- Statistics and Analytics (p. 633) and Statistics, Analytics, and Data Science (<https://catalog.unc.edu/graduate/schools-departments/statistics-operations-research/#programstext>) (B.S.–M.S.), College of Arts and Sciences

Requirements for Undergraduate Degree Programs

The requirements and limitations that apply to all undergraduate degree programs are as follows:

- Students must successfully complete at least 120 semester hours of coursework (requirements are higher than this minimum in some bachelor of science degree curricula)
- Students must have at least a 2.000 final cumulative grade point average on all work attempted at the University of North Carolina at Chapel Hill.
- Students must satisfy all IDEAs in Action requirements (p. 653). In some B.S. programs offered by professional schools, Focus

Capacity requirements may be reduced. No course used as a General Education requirement may be *declared* Pass/Fail.

- A minimum of 45 academic credit hours must be earned from UNC–Chapel Hill courses. These may include credits from study abroad programs sponsored by the University, only if they are faculty-led, graded UNC credit courses.¹
- No more than 45 semester hours in any subject, as defined by subject code, may be used toward fulfilling the B.A. graduation requirement in the College of Arts and Sciences (excluding ENGL 100, ENGL 105, and ENGL 105I).
- Students completing the requirements for more than one major field of study will earn only one degree and receive only one diploma. For additional information, including which degree is awarded when completing more than one major field of study, refer to Policies and Procedures (p. 779).

Additional Notes

¹ Study abroad transfer credit does not count toward the minimum of 45 academic credit hours that must be earned from UNC–Chapel Hill courses. Students who have transferred in the maximum of 75 transfer hours from other institutions may study abroad on programs sponsored by the University where transfer credit is earned, but they still must earn 45 credit hours from UNC–Chapel Hill courses.

Terms in Residence and Transferred Semesters

First-Year Students

Students who enter the University as first-year students are expected to complete their undergraduate degree in eight semesters. Summer terms are not included in the semester count as noted below.

Students who wish to attend a ninth semester must submit a written petition to, and receive permission from, their dean's office. Permission to enroll in a ninth semester or beyond must be secured in advance. Permission to enroll in a ninth semester or beyond will not be granted for the sole purpose of completing multiple areas of study (i.e., a secondary major and a minor or two minors). However, students who receive permission to enroll in a ninth semester or beyond for other reasons may retain a secondary major or minor. In the College of Arts and Sciences, dean's office approval is granted by the Associate Dean for Academic Advising or their designee. Students should refer questions to the Academic Advising Program.

Transfer Students

Transfer students who enter with fewer than two transfer semesters (UNC-equivalent semesters) are expected to complete their degree in eight total semesters (which includes both transferred semesters and terms in residence).

Students who enter with two or more transferred semesters may enroll in up to 10 total semesters and complete up to three areas of study, such as a secondary major and a minor or two minors.

For additional information, see "Transfer of Credit" in Undergraduate Admissions (<https://catalog.unc.edu/admissions/undergraduate/#text>) and "Calculation of Transferred Semesters Based on the Number of Transferred Credit Hours" in the Credit and Evaluation (<https://>

catalog.unc.edu/policies-procedures/credit-evaluation/) section of the Catalog.

Maximum Length of Study

Students who have completed their graduation requirements for their first degree may not receive financial aid for subsequent semesters. For additional eligibility information, refer to SAP policy (<https://studentaid.unc.edu/current/sap/>).

Summer Semesters

Courses completed during summer semesters *after* a student is enrolled at UNC–Chapel Hill are not included in the semester count.

Transfer credit hours for courses completed during summer terms *prior* to enrolling at UNC–Chapel Hill are included in the transferred semester count. Summer enrollment at UNC–Chapel Hill immediately before the first semester of full-time, degree-seeking enrollment as a transfer student will not count towards the calculation of semesters completed.

Maintained by the Educational Policy Committee. Last approved on January 27, 2017. See Resolution 2017-1.

Students must complete a major field of study as prescribed by the academic unit.

Requirements for Majors

The following requirements and limitations apply to all undergraduate academic majors at the University:

- Unless specifically prohibited by departments or curricula, major or minor courses may be used to satisfy General Education requirements.
- A course used to fulfill "Gateway," "Prerequisite," or "Additional Requirements" for a declared major (as outlined in the *Undergraduate Catalog*) may not be declared a Pass/Fail course (p. 773). Understanding that exploration may also lead to interest in a particular area, students may elect to use one course completed with a grade of PS, not LP, towards major "Core Requirements" (as outlined in the *Undergraduate Catalog*).
- A minimum cumulative GPA of 2.000 in coursework taken at UNC–Chapel Hill in the major core is required. *Some programs may require higher standards for admission to the program, for prerequisite courses in specific sequences, and/or for specific core courses, particularly for professional school programs with additional accreditation standards.*
- All students, including students transferring from another institution, must take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill.
- Some majors require a gateway course that must be taken first, before enrolling in any other courses that satisfy the core requirements in the major. Students must earn a grade of C or better (C- does not qualify) in the gateway course.
- No more than two courses (six to eight credit hours) of BE credit (p. 763) may be used as part of the major core.

Requirements for Minors

Students enrolled in the College of Arts and Sciences who wish to complete a minor in a professional school must receive permission from the professional school.

The following requirements and limitations apply to all undergraduate academic minors:

- A student may have no more than two minors, regardless of the student's major degree program. Academic units may exclude certain minors from being elected and completed by students majoring in these units.
- More than half (not merely half) of the credit hours and courses (including cross-listed courses) taken to satisfy the minor core requirements must be counted exclusively in the minor and not double-counted in other majors or minors.
- At least nine hours of core requirements in the minor must be completed at UNC–Chapel Hill and not at other academic institutions. Certain academic units may require that more than nine hours must be completed at the University.
- Some academic units may disallow the double-counting of courses in the minor and as General Education courses.
- A minimum cumulative GPA of 2.000 in coursework taken at UNC–Chapel Hill in the minor core is required. Some programs may require higher standards for minor or specific courses.
- No more than one BE credit (p. 763) course (three to four credit hours) may be used as part of a minor.
- A course used to fulfill "Gateway," "Prerequisite," or "Additional Requirements" for a declared minor (as outlined in the *Undergraduate Catalog*) may not be declared a Pass/Fail course (p. 773). Understanding that exploration may also lead to interest in a particular area, students may elect to use one course completed with a grade of PS, not LP, towards minor "Core Requirements" (as outlined in the *Undergraduate Catalog*).
- If students plan to pursue the completion of a minor, they are encouraged to declare their minor by early in the junior year.

Combining Majors and Minors

Students in the College of Arts and Sciences are permitted to study up to three subjects in depth. They may do this in one of the following ways:

- one major
- two majors
- one major and one minor
- two majors and one minor
- one major and two minors

Students enrolled in professional schools who wish to have a second major or minor in the College of Arts and Sciences must receive permission from their professional school and the College of Arts and Sciences; students who receive permission to have a second major in the College of Arts and Sciences are required to complete all General Education requirements. Students enrolled in professional schools who wish to have a second major or minor in a different professional school must receive permission from both professional schools.

A student may pursue in-depth study in multiple areas by fulfilling all major/minor requirements in each of the selected disciplines, in addition to General Education requirements. Students may not pursue two concentrations (emphases, options, or tracks) within the same major. In general, students may pursue a minor in the same department or curriculum as the major, provided they follow the double-counting rules described below and do not exceed 45 credit hours of coursework in any one subject. For example, a major in Asian studies with a concentration in Japanese and a minor in Korean, both housed in the Department of

Asian Studies, are permitted. Some departments may restrict majors and minors within the same academic unit, so please consult an academic advisor, the department, or the curriculum.

Courses that fulfill core requirements for a major or minor may be double-counted (applied to a second major or minor) with the following general limitation: more than half (not merely half) of the courses and course credit hours taken to satisfy core requirements in each major/minor must be exclusive to that major/minor. In a 10-course major, for example, at least six courses, and at least 51 percent of the credit hours, should be counted exclusively in that major and should not double-count even if cross-listed with courses in a student's second major or a minor. Some majors may further restrict double-counting courses. Students who are pursuing two majors and a minor (or two minors and a major) may, in principle, use a single course to satisfy requirements in all three areas of study, provided that more than half (not merely half) of the courses and course credit hours taken in each major/minor are exclusive to that major/minor.

Note: For the purposes of the double-counting policy, a lecture/lab combo course (e.g., BIOL 278/BIOL 278L) is counted as one course, not two.

Graduation

Beginning with the first day of registration for the term for which students expect to graduate, they should file an application for graduation online in ConnectCarolina or in person in the office of the dean. For students in the College of Arts and Sciences, this is the office of the Academic Advising Program. A student who has not filed an application for graduation on or before the announced deadlines for fall or spring graduation will not be included in the graduation program. Participation in UNC Commencement (<https://commencement.unc.edu/>) does not require an active graduation application.

Students must pay tuition, fees, and other obligations owed the University before receiving a diploma.

Graduation Requirements and Tar Heel Tracker

Total graduation requirements are determined by ConnectCarolina's Tar Heel Tracker degree-audit system. Students are also encouraged to meet with their academic advisor.

Additional Policies and Procedures

The Policies and Procedures (p. 755) section of this catalog contains information on many important topics, including registration, academic course load, academic eligibility, repeating course enrollments, final examinations, and the grading system, among others.

Undergraduate Honors: Degrees with Distinction

To graduate with distinction or with highest distinction, students must have completed at least 45 academic hours at UNC–Chapel Hill and have an overall grade point average of at least 3.500 or 3.800 respectively. The grade point average is based on the grades received and recorded by the Office of the University Registrar as of the degree award date. No changes are permitted to the awards after that date.

Undergraduate Honors: Degrees with Honors

Students who wish to graduate from UNC–Chapel Hill with honors or highest honors must complete a senior honors thesis project in their major field(s) of study. Such students need not have been members of Honors Carolina. They must, however, meet academic eligibility standards set by Honors Carolina and the individual departments, curricula, and professional schools that sponsor senior honors thesis programs.

Students with double majors may graduate with honors or highest honors in both fields of study. To do so, they must complete a distinct project in each field. Students may not undertake a senior honors thesis project in a minor field (Creative Writing is the sole exception) or in a field outside of their declared major(s).

Students who successfully complete a senior honors thesis project will have the designation “Honors” or “Highest Honors” recorded on their diplomas and transcripts and will be denoted in the Commencement bulletin at graduation. Creative Writing minors earning honors or highest honors will also be recognized in the Commencement bulletin and have a special remark added to their transcripts, but no designation will appear on their diplomas.

Application for honors work: Students should apply to the honors advisor in the department or curriculum of the major. Ordinarily, application is made during the junior year, although it is done earlier in some departments. Detailed information concerning the application should be obtained from the honors advisor in the major.

Requirements for eligibility: Students who wish to undertake a senior honors thesis project must have a cumulative grade point average of 3.300 or higher. Academic units that wish to impose a higher grade point average eligibility standard may do so by requiring that students meet both the cumulative 3.300 grade point average standard set by Honors Carolina office and a higher grade point average standard for all coursework required for the major.

Nature and purpose of honors study: Programs are provided for students who have demonstrated a high level of scholastic ability and achievement and who desire to pursue an intensive, individualized program of study in their major discipline. Senior honors thesis students must complete an original and substantial research, performance, or creative project under direct supervision by a faculty advisor.

Senior honors thesis projects are scheduled as a two-semester sequence of honors courses led by unit-designated faculty, independent study overseen by the faculty thesis advisor, or a combination of the two. Detailed guidelines on approved senior honors thesis scheduling formats are available on the Honors Carolina website (<http://honorscarolina.unc.edu>). Regardless of the scheduling format used, students must complete a total of 6.0 credit hours of senior honors thesis coursework during consecutive semesters, not during summer sessions.

A special written or oral examination on the student's program is required during the final semester of honors study. The department or curriculum may impose other requirements that it deems appropriate. In every instance, study for honors will require academic excellence. When the student has fulfilled all requirements, the department or curriculum will recommend to the associate dean for honors that the degree be awarded with honors or with highest honors. The degree with highest honors is conferred in recognition of extraordinary achievement in a program of honors study.

Procedures for granting degrees with honors: The grade for coursework in connection with an honors project is determined by the faculty advisor and is (like all grades) subject to appeal. Successful completion of honors study does not automatically confer departmental honors. Before awarding a degree with honors or highest honors, the College of Arts and Sciences requires the recommendation of a student's examining committee and the endorsement of that committee's recommendation by the chair of the department or curriculum. A negative recommendation by the department is final and cannot be appealed. The associate dean for honors makes the final decision to award a degree with honors on the basis of the department's positive recommendation and the student's cumulative grade point average.

Phi Beta Kappa

The Phi Beta Kappa national collegiate honor society (<https://phibetakappa.web.unc.edu/eligibility/>) is open to all currently-enrolled undergraduate students. There are two methods by which a student may qualify for membership:

Method 1 (for students entering UNC as first years)

1. Complete at least **75 hours in graded liberal arts and sciences coursework at UNC** (which excludes LFIT/PHYA hours, pass/fail hours, transfer hours, by exam credit hours, professional school hours, and study abroad hours in courses graded SA)
2. Attain a **quality point average of at least 3.850 in graded liberal arts and sciences coursework**

Method 2 (for students entering UNC as transfers)

1. Complete at least **45 hours in graded liberal arts and sciences coursework at UNC** (which excludes LFIT/PHYA hours, pass/fail hours, transfer hours, by exam credit hours, professional school hours, and study abroad hours in courses graded SA)
2. Attain a **quality point average of at least 3.850 in graded liberal arts and sciences coursework**

No grades made at an institution from which a student has transferred shall be included in determining a student's eligibility.

Because Phi Beta Kappa honors excellence in the liberal arts and sciences, applied or pre-professional coursework shall not be considered in determining eligibility. This stipulation excludes professionally focused courses and courses devoted to the acquisition of practical skills.

The quality point average shall include all academic coursework in the liberal arts and sciences taken and counted toward the candidate's degree (physical activity grades and hours are not included). Grades and hours received on courses taken after the candidate has received his or her degree shall not be counted.

Dean's List

To be eligible for the Dean's List, full-time students who enter the University as first-time, first-year students beginning in fall 2010 must meet the following requirement:

- A 3.500 grade point average with no grade lower than a C and enrollment in at least 12 hours of letter-grade credit, exclusive of physical education activities (PHYA) courses.

The grade point average is based on the grades received and recorded by the Office of the University Registrar at the time the Dean's List is published. No changes are permitted to the Dean's List after that date.

RESOURCES

For a list of UNC resources, please see the University's Resources Web site (<https://studentsuccess.unc.edu/campus-resources/>).

Included in this section of the University Catalog are descriptions for some of the resources available to current and prospective students.

- Resources: Academic and Research (p. 743)
- Resources: Campus Life (p. 745)
- Resources: Career Planning (p. 751)
- Resources: Health and Wellness (p. 752)
- Resources: Service and Leadership (p. 753)

Resources: Academic and Research Thrive@Carolina Campus Hubs

Chloë J. Russell, M.Ed., *Associate Dean and Director*

Thrive@Carolina Campus Hubs (Hubs), which includes UNC Advising (<https://advising.unc.edu/>), is a collaborative and innovative approach to deliver holistic support to undergraduates from admission through graduation. Its mission is to champion students' individual stories through purposeful interactions so that they achieve their academic, personal, and post-UNC goals. Anchored in the belief that we serve a diverse population in which every student does not need the same support or know the same information, Hubs partner with students as they unlock their potential, activate their plans, secure their opportunities, and cultivate their community. Nestled within the College of Arts & Sciences, Hubs are comprised of approximately 60 full- and part-time personnel and serve students in a variety of campus locations.

Center for Student Success

Dr. Kim Abels, Ph.D., *Interim Associate Dean*
2203 SASB North; (919) 966-2143

The Center for Student Success (CFSS) (<https://studentsuccess.unc.edu/>) has a simple mission, which is connecting with all UNC–Chapel Hill students to promote your academic and personal growth. Its constituent offices and programs (The Learning Center, The Writing Center, Peer Mentoring, Summer Bridge, Carolina Firsts, and Transfer Student Support) support you in developing the skills and strategies needed to excel at UNC and beyond. Our commitment to student learning supports the University's mission to "teach a diverse community of undergraduate, graduate, and professional students to become the next generation of leaders." We also support the University's commitment to diversity and in doing so sponsor programs and activities that promote academic excellence, increase retention, and improve the campus climate for diversity among all undergraduates.

Carolina Firsts

Brittany Grant, M.S., *Program Coordinator*
grantbn@live.unc.edu (grantbn@live.unc.edu)
2203 SASB North; (919) 843-8697

Carolina Firsts refers to the first-generation students at UNC. The program is dedicated to supporting and empowering the first-generation population to achieve their academic and personal goals through programming and one-on-one support.

Examples of events and programming include:

For more details on events, visit the Events (<https://studentsuccess.unc.edu/carolina-firsts/events-activities/>) page or visit the Heel Life page (<https://heelife.unc.edu/organization/cfssprograms/>).

- **First-Gen Fridays:** Once a month we hold space for first-gen students to build community through fun, social activities
- **I am First: Workshop Series:** These monthly workshops cover various topics related to students' personal, professional, and academic success
- **Events during Family Weekend**
- **National First-Gen Day Celebration:** Usually held around November 8. Several events recognize and celebrate first-generation students
- **Graduation and Pinning Ceremony:** Graduating, first-generation seniors receive "Carolina Firsts" pins. Friends and family are invited to attend

The Learning Center

Dr. Kim Abels, Ph.D., *Director*
0118 and 2109 SASB North, (919) 962-3782

The Learning Center (<http://learningcenter.unc.edu>) helps students optimize their learning strategies to meet all their academic goals at Carolina. To make an appointment with an academic coach or check out this year's event calendar, visit the Learning Center's website (<http://learningcenter.unc.edu/>). The Learning Center regularly offers an array of programs and services popular with undergraduate students, including:

- **One-on-one appointments** with an academic coach. The Learning Center holds some coaching appointments in 221 Greenlaw Hall, which is located across from the Undergraduate Library. Coaching appointments provide opportunities for students to set personal academic goals and get support and accountability in the process.
- **Peer tutoring** for many introductory courses. The Learning Center provides peer tutoring by appointment in Dey Hall on Monday and Tuesday evenings (walk-ins also welcome) or make an appointment for select courses.
- **STEM support**, including academic coaching and learning groups for BIOL 101, BIOL 103, BIOL 104, CHEM 101, CHEM 102, CHEM 261, MATH 130, MATH 231, and STOR 155.
- **Workshops** on topics such as metacognitive learning strategies, reading speed and comprehension, time management, and more.
- Handouts and videos (<http://learningcenter.unc.edu/tips-and-tools/>) offering tips and tools to make students' academic lives easier.
- **Study groups and boot camps** providing opportunities to gather with other students to maximize study time and strategies.
- **Test prep resources** for GRE, GMAT, MCAT, and LSAT in partnership with The Princeton Review, at discounts of 20 percent.
- **ADHD/LD support.** Individual appointments and coaching groups are available.

The Peer Mentoring Programs

Keisha Frederick, *Peer Mentoring Coordinator*
0118 SASB North; CB#3106
(919) 962-2185

Peer Mentoring assists in the academic, social, and personal development and adjustment of our newest Tar Heels in their first year at

UNC. Incoming students can request peer mentors who are academically successful and socially involved members of the Carolina Community. Peer mentors provide academic counseling, bridge communication between CFSS and first-year students, and assist them with their transition from high school to university life.

The Writing Center

Dr. Kim Abels, Ph.D., *Director*
0127 SASB North; 221 Greenlaw Hall; (919) 962-7710

The Writing Center (<http://writingcenter.unc.edu/>) helps students become stronger, more flexible writers. To make an appointment with a writing coach or to submit your draft online, visit the Writing Center's website (<https://writingcenter.unc.edu/>). The Writing Center is a free service for students, offering:

- One-on-one appointments (<https://writingcenter.unc.edu/about/writing-coaching/>) with a writing coach. Coaching appointments are 45-minute conversations with undergraduate and graduate students who are specially trained to support students' development as writers.
- **Online coaching** services. Students can submit drafts online, specify their concerns, and request targeted feedback.
- **Feedback on any writing project** at any stage of the writing process. Students can work with a coach on everything from application essays to zoology lab reports. They can come in with nothing but ideas, with an outline, or with a draft. Coaches meet students where they are and help them move forward in the process.
- Handouts and videos (<https://writingcenter.unc.edu/tips-and-tools/>) on the writing process, citation and sentence-level concerns, writing-specific assignments, and writing in specific disciplines.
- **Write Night events** designed to help students make substantial progress on their drafts at key points each semester.
- English language resources (<https://writingcenter.unc.edu/esl/>) and language specialists who support the academic and social communication of Carolina's international students.
- **Volunteer opportunities!** With our Speaking Group (<https://writingcenter.unc.edu/esl/speaking-groups/>) and U.S. English Pronunciation (<https://writingcenter.unc.edu/esl/esl-mini-courses/>) class, Carolina students can build relationships and gain valuable exposure to global cultures.
- Job opportunities (<https://writingcenter.unc.edu/about/english-402/>)! Undergraduate students can apply to work as writing coaches after taking ENGL 402 in the spring semester.

Summer Bridge

Brittany Grant, M.S., *Program Coordinator*
0118 SASB North, CB# 3106
(919) 843-8697

Summer Bridge (<https://studentsuccess.unc.edu/summer-bridge/>) is a six-week transition program that helps incoming first-year students adjust to Carolina by providing academic enrichment, community building, and co-curricular and experiential learning activities. The program is designed to ease participants' personal and academic transition from high school to the University. Students enroll in academic courses, designed to strengthen both written and quantitative skills. They also participate in activities designed to supplement their summer experience by engaging in high-impact learning experiences often facilitated by units such as the UNC Learning and Writing Centers, University Career Services, and Student Life and Leadership. Additionally,

cultural and recreational activities are significant components of the program, as students are introduced to the University and the array of opportunities and resources available. Any student who has been admitted to UNC–Chapel Hill and is a North Carolina resident is eligible to apply.

Transfer Students

Luke Fayard, M.A., *Transfer Student Coordinator*
2203 SASB North
(919) 445-4890

Transfer Student Support (<https://studentsuccess.unc.edu/transfer-students/>) programs and opportunities are designed specifically for transfer students to acclimate to the Carolina community. The Transfer Student Coordinator serves as one of several contacts for transfer students at UNC and provides support to encourage the success, persistence and graduation of transfer students primarily once they enroll at the university. Program and support services include academic coaching and peer mentor support, along with several opportunities throughout the academic year for community building.

Library System

- Library hours (<http://library.unc.edu/hours/>)
- Ask a question (<http://library.unc.edu/ask/>)

The campus libraries are your home for world-class collections, study spaces for every preference, and research expertise across a wide range of subject areas.

Everyone is welcome in all campus libraries, including the House Undergraduate Library, Davis Library, the Wilson Special Collections Library, the Health Sciences Library, and subject-specific branch libraries. Your OneCard is your library card.

Reserve a study room (<https://library.unc.edu/places/study/?feature=reservable>) to collaborate on group projects. Take advantage of New York Times and Washington Post digital subscriptions, best-selling e-books and audiobooks, and popular streaming movies, all brought to you by the Librar (<https://library.unc.edu/services/leisure/>)y. Bring your visions to life in the Library's makerspace (<https://library.unc.edu/science/makerspace/>) with 3D scanning and printing. And visit the Media and Design Center (<https://library.unc.edu/house/mdc/resources/>) to take your multimedia projects from concept to creation, with production equipment, technology, digital assets, and staff expertise.

Whatever your academic focus, personal passions, and personality, the Library is here to support your success. Sign up for the Library's monthly student newsletter (<https://library.unc.edu/social/student-newsletter/>) to stay connected.

Math Help Center

Miranda Thomas, Ph.D., *Director*

The Math Help Center (<https://math.unc.edu/undergraduate/resources/>), located in 237 Phillips Hall, provides additional instructional support for students enrolled in MATH 110 through MATH 233. The center is staffed by both graduate and undergraduate tutors who work with students in small groups or individually. The center's main purposes are to provide assistance and to increase the success rate for students in specific math courses.

Pre-Graduate School Advising

The Pre-Graduate Education Advising Program (<https://careers.unc.edu/students/thinking-about-graduate-school/>), under University Career Services in Hanes Hall (second floor), is a resource offered to students interested in pursuing graduate studies. The program advises undergraduate students considering a graduate degree in various disciplines (sciences, arts and humanities, social sciences, and professional arenas). These advisors can help clarify the differences between a doctorate and a master's degree and the opportunities these terminal degrees may offer. The program is primarily responsible for helping students considering graduate school understand what their next steps are in researching and applying to graduate programs, so that they can move forward independently and effectively. Students can schedule a pre-grad coaching appointment by visiting Handshake (<https://careers.unc.edu/resource/handshake/>).

Health Professions Advising

UNC-Chapel Hill has no formal pre-health curriculum or major. Instead, students should choose one of the four-year B.A. or B.S. degree programs and incorporate appropriate prerequisite courses in their planning. Health professional schools encourage students to major in what they are interested in studying; no specific majors are recommended. Students are strongly encouraged to join the health professions listserv (<https://hpa.unc.edu/connect/join-the-listserv/>) to identify programs that are relevant to their career pathway. First year students or those beginning their journey are encouraged to take BIOL 117 (Exploring Health Professions) and BIOL 118 (Pursuing Health Professions), which are pass/fail 1 credit options focused on exposing students to health professions careers as well as the application process.

The HPA office advises about the many pathways to a health professional career and the various career options in healthcare through facilitated professional programs, individualized meetings, and access to health professions information that encourages application of knowledge and experience. Students can make an appointment with health professions advisors virtually or in person (Health Sciences Library Suite #217B), or join our listserv by visiting the HPA website (<https://hpa.unc.edu/>).

Pre-law Advising

UNC-Chapel Hill has no formal pre-law curriculum or major. Instead, students should follow one of the four-year B.A. or B.S. degree programs. Most law schools do not require, or even recommend, that students major in any particular field; instead, most law schools prefer applicants who have pursued a course of study that gives a foundation for undertaking legal studies, with an emphasis on reading, writing, speaking, and analytical and critical thinking. However, a student wishing to practice patent law will need a degree in one of the sciences.

Pre-law students should emphasize academics. The campus Learning Center offers programs designed to help enhance reading skills. Students are encouraged to take advantage of this opportunity. Students also are encouraged to schedule a pre-law appointment using Handshake (<https://careers.unc.edu/resource/handshake/>). They also may wish to visit the Pre-Law Advising website (<http://prelaw.unc.edu/>), where they can gain helpful information.

Research Institutes and Centers

The intellectual life of the University and the research activities of undergraduates, graduate students and faculty alike receive valuable encouragement and support from a variety of institutes and centers.

These institutes do not operate as instructional agencies within the University; rather, they serve to obtain financial and organizational assistance for the scholars who constitute their membership.

Most research centers and institutes can be found on the UNC Research website (<http://research.unc.edu/units/a-z/>).

Scholarly Journals

The University has published scholarly journals since 1884, when the *Journal of the Elisha Mitchell Scientific Society* first appeared.

The following list contains some of the publications currently produced by the University's graduate and professional programs.

American Diplomacy (<https://americandiplomacy.web.unc.edu/>). A journal for commentary, analysis and research on American foreign policy and its practice.

UNC Research Stories (<https://endeavors.unc.edu/>). Features outstanding research and creative work undertaken by faculty and students at the University. Distributed free, the magazine reaches 8,600 on- and off-campus readers in an effort to engage others in Carolina research.

North Carolina Law Review (<https://scholarship.law.unc.edu/nclr/>). Published by the School of Law to stimulate research and publication by faculty and students.

Studies in the Romance Languages and Literatures (<http://romlpub.unc.edu/ncsrll/>). For more than 80 years, this publication has supported and disseminated scholarship in the romance literatures.

In addition, the University of North Carolina Press (<https://uncpress.org/>) publishes several journals. A full list is available on their website (<https://uncpress.org/journals/>).

The University of North Carolina Press

The University of North Carolina Press (<https://uncpress.org/>) is the primary publishing arm of the University in the scholarly field. In addition to its publication of the journals of research, it carries on a book publishing program of about 80 new titles a year. Electronic publications also are available. Although these books are the work of scholars from all parts of the world, the presence in the University of a professionally staffed book publishing organization, with facilities for the international distribution of works of scholarship, is a stimulus to research and writing by members of the University community. The Press' program is an important contribution to the development of that aspect of the University's service which has to do with the advancement of learning.

Resources: Campus Life

Campus Safety

285 Manning Drive (via Hardin Drive)
Monday - Friday, 7:30 a.m. to 5:00 p.m.
(919) 962-8100 (non-emergency) or 911

UNC Police is committed to creating and maintaining an environment where students, employees, and visitors to campus can feel safe in this vital community. Through its philosophy of community-oriented policing (COP), the department strives to employ professionalism, problem solving, and innovative strategies to remain one of the premier public safety agencies in the nation.

Familiarize yourself with security resources such as the campus-wide network of emergency call boxes, Smart911, self-defense instruction, other crime prevention classes, and much more.

In addition, the University has the capacity to send emergency warnings by text message to students, faculty, and staff through its Alert Carolina initiative. The entire University community is encouraged to educate itself regarding UNC's emergency communications resources and to register cell phones for this method of communication by visiting the Alert Carolina website (<https://alertcarolina.unc.edu/>).

The LiveSafe App provides students, faculty, and staff a direct connection to UNC Police so that everyone can easily communicate all their safety needs. Its easy-to-use features help you stay safe every day and enable us to better protect you. Benefits include the ability to share information, tips, and safety concerns with UNC Police via pictures, video, or audio messaging; easy access to call or message UNC Police to summon help; access to SafeWalk (<https://safewalk.unc.edu/>), a GPS-tagged monitoring feature that allows your friends and family to keep you virtually covered until you arrive safely at a destination; and easy-to-find information and location of safety resources on and off campus. To download and set up LiveSafe on your iPhone or Android phone, select "University of North Carolina Chapel Hill" as your affiliation and fill in your user profile.

UNC–Chapel Hill students and staff can learn how to respond in an active shooter scenario by attending a "Shots Fired" training presentation offered by UNC officers.

Concerns may be addressed at the following campus telephone numbers:

- General Information: (919) 962-3951
- Police Emergencies: 911
- Police Non-emergencies: (919) 962-8100

Carolina Housing

Student and Academic Services Building North
CB# 5500
450 Ridge Road
(919) 962-5401
housing@unc.edu

Carolina Housing (<https://housing.unc.edu/>) works to provide convenient housing that is secure, inclusive, and supportive. Students create a home in our on-campus communities, build lifelong friendships and develop skills for their current and future successes as they journey through their Carolina experience. Students are encouraged to work towards leaving their "HEELprint" on the larger University by connecting with resources, taking advantage of leadership opportunities, and making a difference while they are Carolina students. By getting involved, students develop an identity with the larger University community, create social networks, and find opportunities for intellectual, spiritual, physical, and occupational growth.

Carolina Housing is an integral part of the academic and social community at UNC–Chapel Hill. It is committed to providing an environment conducive to the educational, psychological, and social development of residents. It strives to build a community that balances respect for the individual as well as the rights and interests of the whole community. All members of the residence hall and apartment community — residents, staff, and visitors — are expected to act in a manner that demonstrates respect and consideration for those around them.

Carolina Housing offers a variety of academic success and engagement initiatives to help student staff and on-campus residents develop healthy academic habits and support systems that lead to student success. These initiatives include residential learning programs, academic advising in the residence halls, transitional programming for first-year students, faculty engagement programs such as Meals with Heels and the Scholar in Residence, individual community programming on academic success, and an experiential education course, EDUC 318. This holistic approach complements classroom experiences and lays the foundation for students to become better prepared to succeed in life beyond college.

Graduate Student Housing. Carolina Housing recognizes that the living needs of graduate and professional students are usually different from those of undergraduates. At Carolina, graduate and professional students can enjoy the benefits of being affordably close to classes, facilities, and events, and living in a community of fellow graduate students where the atmosphere is characterized by early quiet hours and respect for personal time and space.

Baity Hill Graduate and Family Housing (<https://housing.unc.edu/explore/graduate-and-family-apartments/>) is Carolina's on-campus community for graduate students providing apartment-style housing. The property houses students with families and graduate students with roommates. This one- and two-bedroom apartment community is situated on rolling hills adjacent to the campus. The apartments are within walking distance of the campus and are served by campus and city bus routes. Rental costs compare favorably with similar area housing.

Parking is available for graduate students on a limited basis, and a fare-free campus bus service offers several routes that connect the north, middle and south regions of campus. Find specifications for apartments by visiting the Carolina Housing website (<https://housing.unc.edu/>).

Generally, demand for on-campus housing for graduate students exceeds the supply. On-campus housing is not guaranteed for graduate students, although every effort is made to offer a space to all applicants. Returning residents have priority to re-contract for the following academic year before spaces are offered to new graduate students. Additional information is available on the Carolina Housing website (<https://housing.unc.edu/>).

Off-Campus Graduate Student Housing. Off-campus housing refers to any housing not owned and operated by the University of North Carolina at Chapel Hill. This category includes small group housing such as fraternities and sororities, as well as apartments, houses, and rooms. Two-thirds of the University's students live in the off-campus market. Students will find furnished and unfurnished units, as well as units within walking distance to campus or spread throughout Chapel Hill and Carrboro.

Carolina Union

The Carolina Union (<https://carolinaunion.unc.edu/>) creates safe, inclusive, and educational experiences that enable students to maximize their time at Carolina. "Carolina Union" is the term used for both the Frank Porter Graham Student Union Building and the University department that serves students in many areas of their cocurricular lives. Governed by a board of directors consisting of students and faculty, the Carolina Union's role is to unify the campus community by providing programs, services and facilities.

Cultural, educational, and social programs are planned and implemented by the Carolina Union Activities Board (<https://carolinaunion.unc.edu/>)

departments/student-life-leadership/student-activities/carolina-union-activities-board-cuab/) (CUAB).

The Union contributes to the educational mission of the University by providing cultural, social, educational and entertainment programs. The Union also provides many services for the University community, supporting and enhancing student organizations and the programs they create.

- Student Life and Leadership (<https://carolinaunion.unc.edu/depts-services/student-life-leadership/>)
- Event Services (<https://carolinaunion.unc.edu/depts-services/event-services/>)
- Communications and Creative Services (<https://carolinaunion.unc.edu/services/communications-creative-services/>)
- Student Organizations (<https://carolinaunion.unc.edu/depts-services/student-organizations/>)
- Fraternity and Sorority Life (<https://fsl.unc.edu/>)

The Office of the Dean of Students

Student Academic Services Building North, Suite 1106
450 Ridge Road
(919) 966-4042

The Office of the Dean of Students (<https://odos.unc.edu/>) provides support and assistance to the University of North Carolina at Chapel Hill community, empowering students to succeed in navigating the University environment. Its four pillars — Care, Collaborate, Celebrate, and Empower — inform its programs, services, and initiatives. The office often serves as a beginning point of contact for students, faculty members, staff, families, and community constituencies regarding various student concerns. It supports student academic, personal, and professional development through a combination of individual initiatives, innovative outreach programs, and cocurricular opportunities, as well as policy development and oversight.

Off-Campus Student Life

Room 211 Henry Owl Building
CB# 5000
230 E. Cameron Ave
(919) 445-5049

offcampus@unc.edu (e-mail)
offcampus.unc.edu (<http://offcampus.unc.edu>) (Web)
offcampushousing.unc.edu (<http://offcampushousing.unc.edu>) (Web)

In alignment with the mission of Student Affairs at the University of North Carolina at Chapel Hill, Off-Campus Student Life (<http://offcampus.unc.edu/>) is committed to educating all students (undergraduate, graduate and professional) in life skills related to living off campus and in the community. These skills include:

- Becoming responsible tenants and community members knowledgeable of city ordinances and community quality of life issues
- Making informed choices about housing and roommates
- Gaining proficiency in problem solving when landlord and roommate difficulties arise
- Understanding personal safety and responsibility

For many students, transitioning into off-campus housing is as much a part of their college experience as first moving into the residence halls. For graduate and professional students, living in graduate housing like Baity Hill or in the community (Chapel Hill, Carrboro, or beyond) during their entire time at Carolina fits with their place in life and needs as a post-college adult. But, there can be significant challenges when leaving the intentional structure of an on-campus living environment. We are here to help students navigate their way as successful neighbors in our greater Chapel Hill–Carrboro community. We advocate for and educate toward the development of students as knowledgeable, active, and responsible community citizens. Students living off campus and in the community have rights and responsibilities associated with their pursuit of an enjoyable and safe living experience. We provide services and educational opportunities to promote the understanding of these rights and responsibilities throughout the off-campus student population.

Fraternity and Sorority Life

3103 FPG Student Union, CB# 5210
(919) 962-8298
unc_fsl (Instagram)
<http://fsl.unc.edu> (Web)
fsl@unc.edu (email)

Fraternity and Sorority Life provides services, programs, and assistance to the 51 organizations that make up the Chapel Hill Greek community. The office's mission is to enhance the academic experience, holistic development, and civic contribution of students by providing effective services and developmental opportunities that enrich the Carolina experience. Fraternity and Sorority Life advocates for the fraternal movement by educating, advising, and empowering fraternities and sororities and their members to live according to their organizational values and contribute to the University and greater community.

Information Technology Services

Web: its.unc.edu (<http://its.unc.edu>)
Telephone: (919) 962-HELP (4357)
T: 711 NC RELAY

Information Technology Services (ITS) leads UNC–Chapel Hill in planning, implementing and maintaining the University's technology services. ITS is dedicated to delivering reliable, secure and accessible information technology solutions and experiences to the University community.

For more information on free software, computer setups, and other tech services, visit the student Getting Started Guide (<https://its.unc.edu/get-started/>). To keep up with ITS throughout the year, follow @UNCTarHeelTech on (<https://www.instagram.com/unctarheeltech/>) Instagram (<https://www.instagram.com/unctarheeltech/>), Threads, and X (formerly Twitter).

Tech Tools

ITS provides UNC students with tech for both work and play. Here are the top free tech tools from ITS:

- Adobe Creative Cloud (<https://adobe.unc.edu>). Request a free license to get started with digital imaging, video and audio editing, free stock photos, and more.
- Microsoft Copilot Chat (<https://copilot.cloud.microsoft/>). Copilot is an enterprise-level generative AI tool. Sign in with a UNC email address to get started.

- LinkedIn Learning (<https://go.unc.edu/linkedin/>). From public speaking to prompt engineering to Photoshop, LinkedIn Learning has it all and it's free after you create your LinkedIn Learning account with your Onyen.
- Web hosting. Make a WordPress website for class, a club or just for fun at tarheels.live (<https://tarheels.live/>).
- Password management (<https://lastpass.com/partnerpremium/uncch/>). Sign up for your free LastPass Premium account to generate, securely store and sync strong passwords across your devices
- And more! VisitSoftware at UNC and the Getting Started Guide (<https://its.unc.edu/get-started/>) to see what else ITS offers.

Carolina Computing Initiative

Undergraduate students are required to bring laptops that meet the University's minimum standards for their graduating class. The Carolina Computing Initiative (<https://cci.unc.edu>) (CCI) ensures that students have access to high-quality computers and exceptional support services. All CCI laptops come with a standard software package, warranty, and protection plans.

CCI laptops are offered at deeper discounts than standard educational pricing, and many students are eligible for laptop grants that cover the entire cost of a CCI laptop package. New students can apply for this need-based financial aid by submitting the College Board CSS/Financial Aid Profile to UNC–Chapel Hill. Purchase your laptop or use your laptop grant at the Tech Shop, the technology division of the UNC Student Stores.

Students who do not purchase a CCI machine are still required to bring a laptop that meets University technology requirements

Students with CCI laptops receive on-site tech support, hardware repair, and loaner laptops through the ITS Service Desk. While software and operating system support is available through the ITS Service Desk for non-CCI laptops, the level of support for students who own a CCI laptop is higher. Hardware support and loaner laptops are available on campus for students who own CCI laptops, while for non-CCI laptops, hardware support is the responsibility of the student.

Printing

UNC–Chapel Hill fee-paying students are given an allotment of pre-paid pages on their One Card for printing each semester. Once the allotted pages have been used, students may purchase additional pages. Visit Carolina Print Hub (<https://print.unc.edu>) for a map of 70 campus printing locations and details about mobile and touchless printing.

ITS Service Desk

The ITS Service Desk is the central point of contact for students who need tech help. The Service Desk assists students with hardware and software problems and answers questions about UNC–Chapel Hill technology services. Assistance is free to all students.

Students can contact the Service Desk by calling (919) 962-HELP, visiting help.unc.edu (<https://help.unc.edu>) to chat or submit a request, or visit in person in room 1506 of the Frank Porter Graham Student Union. ResNET: Residential Networking, Education, and Technology

ResNET: Residential Networking, Education, and Technology

ResNET (<https://resnet.unc.edu>) provides on-campus residents with on-site tech support and education. Residents are served by more than 50 live-in student techs who provide tech support to residents. Throughout the year, ResNET hosts educational events focused on showing new technology on campus. ResNET partners with Carolina Housing to support the Carolina Gaming Arena (<https://carolinagaming.unc.edu/>) for campus computer and console gameplay.

The James M. Johnston Center for Undergraduate Excellence

225 Graham Memorial
218 E. Franklin Street
(919) 966-5110

The James M. Johnston Center for Undergraduate Excellence (<http://honorscarolina.unc.edu/johnston-center/>) is a "democracy of learning" open to students, faculty, alumni, and visitors from all corners of the Carolina campus and beyond. The mission is to encourage undergraduates' active engagement with research, scholarship, and artistic endeavor; to promote innovative teaching; and to provide a social setting in which students can engage in thoughtful discussions with professors and classmates.

The Johnston Center houses Honors Carolina (<http://honorscarolina.unc.edu/>), the Office of Burch Programs (<http://honorscarolina.unc.edu/fellowships/burch-fellowship/>) and Honors Study Abroad (<http://honorscarolina.unc.edu/global-honors/>), the Office of Distinguished Scholarships (<http://honorscarolina.unc.edu/ods/>), the Office for Undergraduate Research (<http://honorscarolina.unc.edu/research/>), the Robertson Scholars Program (<https://robertsonscholars.org/>), and the Beasley Multimedia Center.

The Johnston Center's student-faculty advisory committee advises its director on all aspects of programming and planning.

LGBTQ Center

Student Academic Services Building South, Third Floor, Suite 3308
385 Manning Drive
(919) 843-5376
lgbtq@unc.edu

The Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) Center (<https://lgbtq.unc.edu/>) works to foster a welcoming and inclusive environment for UNC–Chapel Hill community members of all sexual orientations, gender identities, and gender expressions. The LGBTQ Center offers educational training programs such as Safe Zone, student social groups such as Club Soda, student leadership programs such as the Student Ambassador's Program and direct support and advocacy to students, staff, and faculty.

New Student & Family Programs

Vance Hall, 3rd floor
172 E. Franklin Street
(919) 962-8304
newstudents@unc.edu

New Student & Family Programs (NSFP) (<https://nsfp.unc.edu/>) provides new undergraduate students the information and activities needed to

transition smoothly to the University of North Carolina at Chapel Hill, and promotes an ongoing relationship between the families of undergraduate students and the University in support of their students' success.

To fulfill this mission, NSFP provides transition programs and services, communications for new students and families, and student leadership opportunities.

First-year and transfer students (and their families) attend New Student and Family Orientation prior to their first semester. The transition process continues when students arrive and participate in Weeks of Welcome.

NSFP's family programming includes Carolina Family Weekend, Family Football Day, High Fives for Heels, communications through the UNC Family Experience portal, and family engagement opportunities, including the Carolina Parents Council.

NSFP provides paid student leadership opportunities across four student teams, including Orientation Leaders, the WOW Board, Project Coordinators, and Undergraduate Fellows.

Division of Student Success

Henry Owl Building
230 East Cameron Avenue
(919) 966-4045
studentaffairs@unc.edu

The Division of Student Success (<https://studentaffairs.unc.edu>) fosters the learning and development, health and well-being, campus and community engagement, and sense of belonging of our more than 31,000 undergraduate, graduate, and professional students at Carolina. Our resources and programs are designed to support students' retention, persistence, and success, helping them become responsible citizens and leaders on our campus, as well as in our local and global communities. The division focuses on student experiences, academic excellence, and enrollment management. It comprises more than 1,000 professionals and 1,300 student staff in myriad roles.

The Division of Student Success provides resources, programs, and services that facilitate students' learning beyond the classroom. We believe in a holistic approach to student development and aim to interconnect students' academic experiences with leadership, civic engagement, career readiness, innovation, and service learning, and other opportunities that are hallmarks of a UNC-Chapel Hill education. We promote welcoming, respectful, and intentionally inviting environments that elevate the well-being of individuals in our community and seek to extend our Carolina culture of compassion and care, on campus and beyond.

Student Dining Services

Carolina Dining Services
(800) UNC-MEAL
36 Lenoir Drive, Chapel Hill, N.C. 27599

Carolina Dining Services (<https://dining.unc.edu/>) offers several meal plans that offer the convenience and value of purchasing meals on campus ahead of time. Meal purchases can be made with the UNC One Card using a meal plan, Dining Flex, à la carte, expense, or cash. To find out more about acquiring a UNC One Card, visit the One Card Office website (<https://onecard.unc.edu/>) or the UNC One Card office on the third floor of UNC Student Stores.

Students can use their meal plans at several of the campus all-you-care-to-eat dining facilities, as well as at retail locations, food trucks, for on-campus delivery, and more. On North Campus, Top of Lenoir is an award-winning facility with an array of menu choices. On South Campus, the Rams Head Dining Hall is a 30,000 square foot state-of-the-art facility that includes several restaurants and all-you-care-to-eat venues.

Student Government

The by-laws of the Board of Trustees of the University invest in the chancellor of the University "the duty . . . to exercise full authority in the regulation of student conduct and in matters of student discipline." At the same time the chancellor has delegated authority to exercise disciplinary and administrative functions in student life to agencies of student government. Within the context of this delegated authority and responsibility, the student body at the University has been self-governing for decades.

Student government at Carolina is more than 100 years old, and hundreds of students are involved in the various branches every year. From serving on the Board of Trustees to the appropriation, oversight, and authority of student fees, from instituting governmental service to enforcing the Honor Code, student government affects the life of every student every day.

The entire framework of student government's activities rests on its ability to maintain the foundation of administrator-student relations. The University should serve as an advisor, not as a supervisor, to the student body. To enjoy this freedom, students at Carolina must be willing to take a certain amount of responsibility to develop their own community and community values. Student government serves to maintain this freedom and the advisory, not supervisory, relationship.

In 1876 the Honor System officially ended all vestiges of the monitorial system; in 1904 a judicial body, the University Council, was established; in 1938 the Student Legislature was established; and in 1946 a written constitution was approved. In 1968 the coeducational Honor Court was formed out of the Men's Court and Women's Court to hear all Honor Code cases. The *Instrument of Student Judicial Governance* was ratified and put into operation in 1974, was significantly revised in 2003, and then amended in 2015 and 2017.

Student government at UNC-Chapel Hill approximates the federal system of government with its three branches: an executive branch, a legislative branch, and a judicial branch.

The Executive Branch of Student Government

This group (<https://executivebranch.unc.edu/>) serves as the official voice of the student body to the University and broader community, including the town of Chapel Hill and the state of North Carolina. Heading the executive branch is the student body president, assisted by the vice president, the president of the Graduate and Professional Student Government, student body treasurer, student body secretary, the chief of staff, and the senior advisor. As determined by and reflective of the needs of the student body, the president structures his/her cabinet and committees and makes appointments to a wide range of University committees that address those needs and other concerns as they arise during the year. These committees usually include hardship parking, elections board, University services, information technology, student life, minority affairs, first-year focus council, and public service.

Legislative Branch

Student Congress is unicameral, consisting of 41 representatives elected by the student body, with the student body president and the student body treasurer serving as nonvoting ex officio members. The speaker of the Student Congress is elected from among the 41 representatives. Graduate and professional students and on- and off-campus undergraduates are proportionally represented in the Congress.

Student Congress handles considerable legislation and, as one of its primary responsibilities, oversees the student activity fees budget and other student fee areas. Established by student and University committees before approval by the Board of Trustees, a predetermined amount of the fees paid by each student provides the source of funds for Student Congress's annual allocation and subsequent appropriations budgets. These funds are allocated to petitioning student organizations that have received official University recognition. The student body can petition for changes in the student activities fee at any time.

Student Congress representatives are elected in the spring for one-year terms, and each member serves on one of three standing committees: finance, rules and judiciary, and student affairs. A fourth committee, ethics, is composed of senior members of the Congress.

Judicial Branch

There are two major areas that comprise the judicial branch; the first is responsible for the *Instrument of Student Judicial Governance*, and the second is responsible for resolving issues related to the Student Code (<https://senate.unc.edu/wp-content/uploads/sites/14573/2022/06/USG-Student-Code-06.15.22.pdf>).

The Honor Court hears all cases involving potential violations of the Honor Code. There are separate courts for undergraduate students, graduate students, and students in the Schools of Law, Medicine, Dentistry, Pharmacy, and Business. The Honor Court is organized as follows:

- Office of the Student Attorneys General: The appropriate (undergraduate or graduate) student attorney general investigates all potential violations of the Honor Code. Staff members also present cases to the Honor Court and assist students accused of violating the Honor Code.
- University Hearings Board: These boards are made up of faculty, staff, and students. The University Hearings Board generally hears appeals of Honor Court cases.
- Students interested in serving on the Honor Court or the student attorney general's staff should contact the Honor System Office at (919) 966-4084 for information about how to apply.
- Student Supreme Court: This court adjudicates all issues of student constitutional law to be decided under the Student Code. This body most closely fills the traditional judicial branch of government and consists largely of students with previous experience in student government, mediation, and/or law.

For Graduate Students

The Graduate and Professional Student Government (GPSG) (<http://gpsf.unc.edu>), the official representative of graduate and professional students at the University, is organized based on school, departmental, and curricula organizations. The GPSG provides communication between graduate and professional students, represents graduate and professional students both within and outside the University community, and provides structures capable of dealing with ongoing issues and concerns. It also allocates and administers the funds appropriated to it

from student fees. Every duly enrolled graduate and professional student is automatically a member of the GPSG.

Transportation and Parking

Public Safety Building at 285 Manning Drive (via Paul Hardin Drive)
(919) 962-3951
Weekdays 7:30 a.m. to 5 p.m.

Transportation and Parking (<https://move.unc.edu/>) is an essential part of the University and is responsible for coordinating all traffic, parking, and transportation around campus.

Parking

Students at UNC–Chapel Hill who park an automobile on weekdays in University parking areas are required to obtain a parking permit. Students, excluding first years, may apply for parking permits during online registration (<https://move.unc.edu/parking/student/>). Transportation and Parking uses virtual permits for parking on campus.

Weeknight parking is in effect Monday evenings through Friday mornings from 5 p.m. to 7:30 a.m. Student fees cover the annual permit cost (excluding first-year students). Daytime permits are honored during weeknight parking and no further action is required. Students without a daytime permit must register their license plate online to receive weeknight parking access for the academic year.

Parking permit holders must park only in specific zones as indicated on their permit assignment. Please note the signs at the entrances to each lot which detail the hours of enforcement for that parking area.

Accessibility Accommodations

Students who have mobility limitations that require transportation accommodations must apply through the Transportation and Parking Accommodations Committee (<https://move.unc.edu/parking/accessibility/tpac/>). In accordance with the Ordinance Regulating Traffic and Parking at the University of North Carolina at Chapel Hill (<https://move.unc.edu/about/publications/parking-ordinance/>), students are required to apply for and purchase the appropriate permit to park in the spaces reserved for mobility-impaired employees and students.

Vehicles found parked illegally may be cited by Transportation and Parking and subsequent violations may result in further citations, immobilization ("booting"), or towing of the vehicle. Citations may be appealed through the Transportation and Parking Appeals Office within 10 calendar days upon receipt of the citation. Citations can be appealed in person during office hours Monday through Friday from 7:30 a.m. to 5 p.m., online (<https://move.unc.edu/account/>) or by mail.

Commuter Alternative Program

The Commuter Alternative Program (<https://move.unc.edu/cap/>) (CAP) is designed to reward University employees and students for the use of alternative transportation (bicycling, walking, transit, or ridesharing) as their primary commute to campus. CAP is only available to off-campus students who do not have an on-campus daytime parking permit. CAP offers prizes, discounts from local merchants, and other benefits to members.

Local and Regional Transit

The University and the towns of Chapel Hill and Carrboro work together to provide the fare-free Chapel Hill Transit (<https://www.chapelhillnc.gov/Transportation-and-Parking/Bus-Routes-and-Schedules/>) system. No bus pass is needed when boarding a Chapel Hill Transit bus, and anyone can

ride. Campus U and RU (Reverse U) routes run in continuous loops from 7 a.m. to 8 p.m., serving nearly every area on campus.

Commuting students can use any of the Park and Ride lots served by Chapel Hill Transit. All Park and Ride lots require a permit, which may be purchased through Transportation and Parking (<https://move.unc.edu/transit/park-ride/>) or through the Town of Chapel Hill (<https://www.chapelhillnc.gov/Home/>). In the case of an emergency, the University's P2P Emergency Ride Back (<https://move.unc.edu/transit/p2p/>) service is available to provide transportation to the Park and Ride lots or any location within Carrboro or Chapel Hill municipal boundaries.

Regional transit to the Raleigh-Durham International Airport (RDU), Raleigh, Durham, Hillsborough and other nearby cities is available through GoTriangle. Bus service to Alamance, and Guilford counties is also available, and all regional transit agencies provide free Park and Ride (<http://move.unc.edu/transit/>) lots. Get transit directions using Google Maps (<https://transit.google.com>) and see buses in real-time online or by downloading the TransLoc app. For more route information, call GoTriangle at (919) 485-RIDE or visit the GoTriangle website (<https://gotriangle.org/>).

Point-to-Point

Point-to-Point (<http://move.unc.edu/p2p/>) (P2P) offers fare-free, fixed-route service aboard the P2P Express buses, operating on a continuous loop around campus during evening hours, 7 p.m. until 4 a.m., seven nights a week when residence halls are open during fall, spring and summer semesters. Students must show their UNC One Card to board the P2P Express. After dark, on-demand services can be requested by students in areas that are not served by the P2P Express route. P2P also offers fare-free, on-demand transportation service to students with accessibility needs and students going to or from Campus Health 24 hours a day. It also offers additional services including the fixed-route P2P Shuttle serving Baity Hill, an airport shuttle to RDU for select school breaks, and more. On-demand services can be requested with the TransLoc app.

Safe Ride

Safe Ride, operated by Chapel Hill Transit (<http://chtransit.org>), aims to provide increased mobility between 11 p.m. and 2:30 a.m. There are three Safe Ride bus routes operating on Thursday, Friday, and Saturday nights when the University is in session. They provide service between campus and many private student housing developments, as well as other off-campus destinations.

Bicycle Registration

Bicycle registration is required for bicycles on campus. The program serves as a deterrent to crime, aids in the identification of lost or stolen bicycles, and enables the University to plan for improved bicycle parking facilities around campus in the future. All students who register their bikes will receive a 50% off coupon for a U-lock from UNC Student Stores. Bicycle registration can be done online (<http://move.unc.edu/bike/>) or in person at the Public Safety Building. Cyclists who live off campus may join the Commuter Alternative Program.

Tar Heel Bikes

The University partners with Spin to provide the Tar Heel Bikes bikeshare program (<https://move.unc.edu/about/publications/bicycle-master-plan/appendix-g-bike-share/>) for the Carolina community. A fleet of 100 electric assist bikes is located at bikeshare hubs across campus. These e-bikes are available for use by students, employees, and visitors, and provide a

convenient and cost-effective way to get around campus and designated areas throughout Chapel Hill and Carrboro.

Share The Ride NC Rideshare Matching

Share The Ride NC (<https://move.unc.edu/commuter-alternatives/carpool/>) is an easy way to quickly and securely find a carpool partner. The private UNC–Chapel Hill Share The Ride NC community allows you to find friends, classmates, and coworkers going the same way you are. Share The Ride NC helps you offer or request rides for commutes, road trips and popular events. Riders choose the meeting location, days, and times they want to carpool.

Zipcar

Zipcar (<http://www.zipcar.com/unc/>) is a convenient car sharing service that allows students and employees to access a vehicle on demand by the hour or day. Cars are located throughout campus and can be reserved online or by phone 24 hours a day, seven days a week.

For More Information

Concerns may be addressed at the following campus telephone numbers:

- General Information (919) 962-3951
- Parking Control (919) 962-8006
- Accounts Receivable (919) 962-3097
- Parking Appeals (919) 962-3953
- Point-to-Point Shuttle Dispatcher (919) 962-7867 (962-"P-TO-P")

Students with temporary mobility limitations or other hardships requiring special consideration should contact University Compliance Office (<https://compliance.unc.edu/>) for complete information on transportation options.

Resources: Career Planning University Career Services

219 Hanes Hall
150 E. Cameron Avenue
(919) 962-6507
ucs@unc.edu

The mission of University Career Services (<http://careers.unc.edu>) (UCS) is to support the mission of the University and Student Affairs by providing personalized and innovative career education to empower student success and transformation.

Our vision is for all UNC–Chapel Hill students to create lives of purpose and prosperity in alignment with their personal goals. To that end, we partner with various campus stakeholders to provide outreach and equitable access to our services and resources. All of our strategic priorities are aligned with the Division of Student Affairs (<https://studentaffairs.unc.edu/>) and Carolina Next (<https://carolinanext.unc.edu/initiatives/>) which spell out expectations for building community, strengthening student success, enabling career development, and fostering discovery.

USC services for both undergraduate and graduate students include workshops, one-one-one career coaching meetings, full- and part-time job and internship opportunities online (Handshake (<https://careers.unc.edu/students/resources/handshake/>)); major and career assessments; and many print and electronic resources. Our programs include career panels

and fairs, industry nights, and pre-graduate and law school exploration programs.

Services are limited to enrolled students in a UNC–Chapel Hill degree program and alumni for six months after graduation. Students in law, dentistry, and medicine and students enrolled in the M.B.A. and M.A.C. programs are served by career services in their departments, rather than by UCS.

Resources: Health and Wellness

University Compliance Office

University Compliance Office (UCO) (<https://eoc.unc.edu/>) assists the University community with disability, pregnancy, and religious accommodation requests, including auxiliary aids and services. UCO also offers training and consulting services to address any questions or accessibility needs. UCO works with all students including undergraduate and graduate students, full-time and part-time students, students following continuing education courses or who may be auditing, and program applicants. Prospective and existing students are invited to connect with the UCO through the submission of an accommodation request form (https://unc.az1.qualtrics.com/jfe/form/SV_8ChSrWMwoqPmUSO/) on Accommodate (<https://compliance.unc.edu/access-and-accommodations/accommodate/>) and documentation.

The UCO Student Accommodations Team is located in Suite 2126 in the Student Academic Services Building North. Office hours are 8 a.m. to 5 p.m., Monday through Friday. ARS staff can be contacted by email at accommodations@unc.edu or telephone at (919) 962-8300 (V) (TTY-711 [NC RELAY]). More information is available on the UCO website (<https://compliance.unc.edu/>).

Campus Health Services

Campus Health Services (<http://campushealth.unc.edu>) (CHS), located next to Kenan Stadium in the James A. Taylor Building, provides a broad range of health care services including primary care, orthopedics, obstetrics and gynecology, nutrition services, dermatology, travel information and immunization, and allergy management. For convenience, in-house laboratory, radiology, pharmacy, and physical therapy services also are available. CHS also provides counseling and psychological services; please see the Counseling and Psychological Services section for greater detail about services offered.

Eligibility

Any student or postdoctoral fellow who has paid the campus health fee (<https://campushealth.unc.edu/charges-insurance/campus-health-fee-charges-and-payments/>) for the current semester or summer session is eligible for health care at CHS. Spouses of full-time students and postdoctoral fellows can receive care at CHS.

Health Fee

Currently, the fee covers the cost of most professional services (there is no charge for office visits) provided by CHS physicians, nurse practitioners, physician's assistants, nurses, physical therapists, and registered dietitians. The health fee also provides reduced charges for prescription drugs, miscellaneous supplies, laboratory tests, X-rays, medical procedures, and specialty services. Spouses of students are eligible to receive the same services as students by paying the campus health fee at CHS and demonstrating appropriate insurance coverage.

Hours

Hours of operation vary according to the academic calendar. Hours of operation during the academic year are 8:00 a.m. to 6:00 p.m. Monday through Friday. Students are typically seen on an appointment basis from 8:00 a.m. to 5:00 p.m. Acute care services are provided between 8:00 p.m. and 6:00 p.m. Monday through Friday and from 8:00 a.m. to 5:00 p.m. on Saturday and Sunday during the fall and spring semesters. Weekend acute care services are considered premium services and there is an associated visit charge. Hours of operation in the summer are 8:00 a.m. to 5:00 p.m. Monday through Friday. If CHS is closed, students have access to a nurse advice line through UNC Healthlink, and there is always a CHS physician on call. Call (919) 966-2281 to verify hours of operation, schedule an appointment, or to speak with the Healthlink nurse when CHS is closed.

Immunizations

North Carolina law mandates that all new students at the University document the completion of immunization requirements (<https://campushealth.unc.edu/services/immunizations/>). Failure to comply may result in cancellation of registration 30 days after classes begin. Vaccines are offered at Campus Health Services at reasonable rates for students who need to complete their immunization requirement.

Mandatory Health Insurance

The University requires proof of health insurance (<https://campushealth.unc.edu/charges-insurance/mandatory-student-health-insurance-hard-waiver-process/>) as a condition of enrollment. The University offers a group health insurance plan, including major medical benefits to single and married students, their spouses/partners, and children.

Campus Recreation

Campus Recreation (<https://campusrec.unc.edu/>) offers amenities for all fitness and recreation wants, needs, and desires of the UNC population. It provides a diverse and intentional recreational program in a safe, inclusive, and accessible environment which enhances the social, mental, and physical well-being of the entire University community. Campus Recreation enjoys a unique dual reporting relationship with the Department of Exercise and Sport Science (EXSS) and its rich history and commitment to a healthy and active lifestyle, and with the Division of Student Affairs (<https://studentaffairs.unc.edu/>), which represents the Carolina spirit of student development and living outside the classroom.

Facilities

Campus Recreation offers a variety of facilities (<https://campusrec.unc.edu/facilities/>) to satisfy the wants and needs of all UNC students, faculty members, and staff. The two fitness centers, the Student Recreation Center and Rams Head Recreation Center, offer cardiovascular and weight training equipment, as well as an indoor track, locker rooms, and group fitness studios. Basketball, squash, and racquetball courts, along with equipment for check-out, can be found throughout Fetzer Hall and Woollen Gym. These facilities also feature a cycle studio, climbing walls, and multipurpose rooms that can function for practice and instruction of a variety of fitness types. Both an indoor and an outdoor pool are located near the heart of campus. North and South Campus feature recreation complexes and fields for playing basketball, volleyball, tennis, and any other sport. The Outdoor Education Center, located off Country Club Road, is also a great facility for experiencing how recreation and the outdoors can go hand-in-hand.

Intramural Sports

Intramural Sports (<https://campusrec.unc.edu/programs/intramuralsports/>) offers opportunities for students to compete against their peers in a friendly and structured environment.

Sport Clubs

A sport club (<https://campusrec.unc.edu/programs/sport-clubs/sport-clubs-directory/>) is a University-recognized student organization formed by individuals with a common interest in a sport. Its primary goal is to promote and develop interest in a particular sport and recruit new members. Clubs may be instructional, recreational, and/or competitive.

Fitness and Wellness

Fitness and Wellness (<https://campusrec.unc.edu/programs/fitness/>) is housed in the Student Recreation Center (SRC) and Rams Head Recreation Center (RHRC). Both facilities offer a wide variety of cardiovascular equipment, including many stationary bikes, stair climbers, treadmills, and cross-trainers/elliptical machines.

Over the years, Fitness and Counseling and Wellness Services (of Campus Health Services) have teamed together to enhance student wellness through greater collaborative programming, such as Powerfully Pink (a breast cancer awareness program), Women's Health and Fitness Day, the Farmer's Market, Fit Wellness into Your Day, and the Get Fit from Head to Heel Challenge.

Counseling and Psychological Services

Counseling and Psychological Services (<https://caps.unc.edu/>) (CAPS), a department of Campus Health Services, is located on the third floor of the James A. Taylor Building.

The CAPS staff is strongly committed to addressing the mental health needs of a diverse student body through timely access to consultation and connection to clinically appropriate services. CAPS affirms that people of every background are to be treated with respect and dignity. The professional ethics and standards of the multidisciplinary staff at CAPS set a framework for understanding how facets of identity (e.g., gender, ethnicity, race, sexual orientation, gender identity/expression, age, physical and mental abilities, religious beliefs, and socioeconomic background) impact life experience. The CAPS approach to mental health integrates physical, emotional, academic, spiritual, social, and cultural well-being. Counseling and Psychological Services include individual, couples, and group therapy, urgent consultation and crisis intervention, and medication evaluation/management. The CAPS staff consists of licensed psychologists, psychiatrists, clinical social workers, psychology practicum students, interns, and administrative support personnel.

Counseling and Psychological Services can be reached Monday through Friday from 8:00 a.m. to 5:00 p.m. at (919) 966-3658. CAPS invites initial evaluations without an appointment Monday through Friday from 9:00 a.m. to noon and 1:00 p.m. to 4:00 p.m. Students who have a psychological crisis should call (919) 966-3658 immediately. If the crisis occurs after hours, call Campus Health Services at (919) 966-2281.

Student Wellness Services

Student Wellness Services (<http://studentwellness.unc.edu>) seeks to enhance the individual and collective health of the community through a wide range of programs, services, and resources. Through partnerships with other campus departments, community agencies, student organizations, and peer mentors, we work to develop and advocate for a campus and community environment that creates,

emphasizes, and supports healthy choices and positive decision making regarding health, safety, and wellness.

Student Wellness promotes wellness as a journey rather than an outcome and believes that students' health choices, as well as the culture of the community around them, involve a dynamic and multifaceted integration of eight dimensions of wellness: physical, emotional, spiritual, social, cultural, environmental, intellectual, and financial. Using these dimensions, Student Wellness provides integrative programs and services related to a variety of health topic areas, including healthy relationships and sexual health; stress management; sleep hygiene; alcohol and other substance education, interventions, and recovery supports; and violence prevention.

Student Wellness provides these programs and services on an individual, group, and larger campus community level.

The office, located in Suite 1310 of the Student Academic Services Building (SASB) North, can be reached Monday through Friday from 9:00 a.m. to 5:00 p.m. at (919) 962-9355.

Resources: Service and Leadership Campus Y

The Campus Y (<https://campusy.unc.edu/>) is an extraordinarily vibrant, student-driven organization, promoting social justice and social innovation locally, nationally, and internationally. Over more than a century and a half of service, it has incubated such essential campus institutions as Student Stores, Career Services, Intramural Athletics, and New Student Orientation. It has also provided the incubation space and resources for launching fully independent nonprofit organizations such as Nourish International, the Student Environmental Action Coalition, and the Student Coalition for Action in Literacy Education. Over the course of a typical year, approximately 2,000 UNC–Chapel Hill students channel their idealism, passion, and sweat equity into a diverse array of service and advocacy initiatives, including but not limited to public health, youth development, education, human rights, micro-finance, food security, and environmental advocacy. The Campus Y is led by the student executive board and the chairs of more than 30 committees and is supported by a professional staff of six employees. Students are encouraged to visit the Campus Y offices in the YMCA Building, adjacent to South Building, to learn about these opportunities and campus, community, youth, and global social justice issues.

Carolina Center for Public Service Overview

The Carolina Center for Public Service (<https://ccps.unc.edu/>) (CCPS) engages and supports the faculty, students and staff of UNC–Chapel Hill in meeting the needs of North Carolina and beyond. The center strengthens the University's public service commitment by promoting scholarship and service that are responsive to the concerns of the state and contribute to the common good.

How to Get Involved

APPLES Service-Learning is a student-led program that transforms educational experiences by connecting academic learning and public service. As part of APPLES students can:

- sign up for the Service-Learning Initiative (SLI) to learn more about local organizations and how to get involved in service. SLI: Launch is available for incoming first-year students in the fall and SLI: Engage

is an opportunity for any other Carolina student to get involved in the spring.

- register for an APPLES Service-Learning course on Connect Carolina to complete 30 hours of service as part of an academic course. This might also fulfill the Experiential Education/High-Impact Experience requirement.
- apply for a spring or summer internship to gain valuable professional experience while receiving a stipend and academic course credit
- explore communities beyond Chapel Hill on an alternative spring break trip or expedition and serve alongside a team of peers
- implement a project with a social innovation fellowship. Fellows receive funding, mentorship, and academic credit to help ideas come to life.

For any inquiries about APPLES, email apples@unc.edu.
(apples@unc.edu)

The Buckley Public Service Scholars (BPSS) program provides a framework for Carolina undergraduate students committed to making a positive impact through service. Students can register for the BPSS program at the beginning of the fall and spring semesters by visiting the website (<https://ccps.unc.edu/bpss/>). BPSS strengthens the culture of service and engagement at Carolina by:

- challenging students to increase the breadth and depth of their involvement in North Carolina communities and beyond
- fostering connections between the University, its students and the community
- promoting student participation in varying dimensions of public service: direct, organizational, and policy
- developing students' capacity for engaging in their communities in meaningful ways

For any inquiries about BPSS, email bpss@unc.edu. (bpss@unc.edu)

The center offers various competitive opportunities for undergraduate and graduate students to further their involvement in public service and community engagement, including:

- Community Engaged Fellowships for returning graduate and professional students
- Community Service Scholarships for undergraduate students
- Projects for Peace for undergraduate students
- MacDonald Community Fellowships for undergraduate students with a strong connection to a community partner

For any inquiries, contact ccps@unc.edu.

To stay informed about the many different public service opportunities at Carolina, inquire about the center's biweekly Public Service News listserv at ccps@unc.edu.

POLICIES AND PROCEDURES

The policies, procedures and standards of the University of North Carolina at Chapel Hill (<https://www.unc.edu/>) are maintained by the University (<https://universitypolicy.unc.edu/>) Policy Office with the exception of academic policies governed by University faculty via The Faculty Code of University Government. Many of the University policies relevant to students are referenced in this catalog and linked to the policy repository containing the most recent version of official policies. Academic policies related to the education activities of the University and the awarding of degrees are found throughout the catalog. The academic policies and procedures in this section include information about course credit; registration and enrollment; attendance, grading, and examination; academic standing; and degree conferral and transcripts.

Regulations and Requirements for Undergraduate Students

Students are responsible for observing the procedures, regulations, and requirements of the University as they are set forth here and in other official University publications. This section describes many of the requirements and regulations that apply to undergraduates, but it is not a complete list of all such regulations and requirements. Unless otherwise stated, the regulations described in this section will govern the academic progress of students from their first year in the General College through their final semester in the College of Arts and Sciences or one of the undergraduate professional schools. The staff of the University will gladly provide students with detailed information concerning their academic program or academic problems, but this does not relieve any student of individual responsibility for meeting the University's requirements and observing University regulations.

Regulations and Requirements for Graduate Students

The *Graduate School Handbook* contains most of the policies and procedures of The Graduate School at the University of North Carolina at Chapel Hill. Students should become familiar with the material pertaining to their degree programs, and, together with their faculty advisors, make certain that the chosen program of study complies with all policies.

If University policies change during the academic year, those changes will appear here.

University Policy Memorandums (UPMs)

University Policy Memorandums (UPMs) issued by the Office of the University Registrar were formerly used to communicate, clarify, or update administrative, academic, and operational policies and procedures. Following the conclusion of the Spring 2026 semester, UPMs were discontinued as an official document type. Current and authoritative policy content previously communicated through UPMs is now maintained in the University's policy repository and, where applicable, in academic program catalogs or handbooks. References to former UPMs are provided in the policy section of the Office of the University Registrar's website.

Academic Standing

Academic Eligibility Policy

For students in the undergraduate career, the University's academic eligibility policy specifies the minimum standards of academic

performance required for continued enrollment. These standards apply to undergraduate students enrolled in courses during or after the fall 2016 semester.

Degree-Seeking Programs

To guide students toward timely degree completion, the University maintains academic eligibility standards. These standards are reviewed at the end of fall, spring, summer I, and summer II terms. These standards determine academic status for each undergraduate in a degree-seeking program. Academic status indicates eligibility to enroll in any course in any term including summer. Students must check their academic status in ConnectCarolina at the end of each enrolled fall, spring, or summer term.

Academic status is determined through four standards of satisfactory academic progress:

1. **Grade Point Average.** A cumulative UNC–Chapel Hill grade point average of at least a 2.000 is required.
2. **Completion Rate.** Students must successfully complete at least 2/3 of cumulative attempted credit hours. By-Exam (BE) and credits transferred in to UNC–Chapel Hill count as both attempted and completed hours. Withdrawals, temporary grades including AB, IN, or SP, and failed courses count as attempted hours but not completed hours. Divide your completed hours by attempted hours to calculate your completion rate. You need to maintain at least 66% or .667.
3. **Cumulative Hours Passed*.** To enroll in courses, students must have earned the following:
 - After one full-time semester: 9 academic hours
 - After two full-time semesters: 24 academic hours
 - After three full-time semesters: 36 academic hours
 - After four full-time semesters: 51 academic hours
 - After five full-time semesters: 63 academic hours
 - After six full-time semesters: 78 academic hours
 - After seven full-time semesters: 93 academic hours

Students are expected to complete their degree within a maximum of eight full-time semesters. Transfer students (who transfer in the UNC–Chapel Hill equivalent of two or more semesters, see "Calculation of Transferred Semesters Based on the Number of Transfer Hours (p. 763)") may enroll in up to 10 total semesters. Students who enter as first years are required to apply for a ninth or tenth semester. For information about the application process, students in professional schools must contact their professional school dean, and students in the College of Arts and Sciences must contact UNC Advising (<http://advising.unc.edu>).

*Part-time students are excluded from this standard.

4. **Maximum Time Frame.** Students must complete their degree within 180 attempted credit hours.

There are four **academic statuses**: good standing, warning, suspension, and probation.

Students who meet each of the four standards at the end of an enrolled term will have an academic status of **good standing**.

Students who begin an enrolled term in good standing but do not meet each of the four standards at the end of that enrolled term will receive an academic status of **warning**. Students with a status of warning may enroll

in courses and must complete an academic intervention plan (<https://advising.unc.edu/stay-on-track/academic-eligibility/probation-appeals/>).

A student who begins an enrolled term with a status of warning and falls short of the standards at the end of that enrolled term will earn an academic status of **suspension**. Students with an academic status of suspension cannot enroll in any courses in any terms. Students with an academic status of suspension have two options:

- a. Appeal for **probation**. Students granted academic probation by appeal must complete an academic intervention plan (<http://studentsuccess.unc.edu/academic-probation-3/>). Students denied probation by appeal can pursue option b.
- b. Spend a term engaging in study, work, or wellness activities away from UNC–Chapel Hill. These opportunities could include coursework at another institution, employment, volunteer work, or healthcare or wellness activities. During this time students should reflect on their academic path, development, choices, and actions. Students should also implement strategies that will enhance their effectiveness upon return to the University. After a term away from the University, students who have engaged in study, work, or wellness activities may appeal to return to the University on probation. Students appealing after a term or longer away from the University must include documentation of their experiences while away such as a transcript from another institution, a letter from an employer, or a letter from a healthcare provider. These documents must convey evidence of the student's readiness to return to the University.

A student who begins an enrolled term with a status of probation and falls short of the standards at the end of that enrolled term will earn an academic status of **suspension**. Students with an academic status of suspension have two options (see above).

Repeats, Withdrawals, and Incompletes

Attempted hours include all those in which a student is enrolled as of the end of the second week of each fall or spring term (the 10th day of the term, generally known as the “census date”). Students may drop a course until the 10th day of the term. Dropped courses do not count in attempted hours.

The summer schedule is similar to fall/spring but is determined according to the summer calendar. Credit hours that are dropped or withdrawn prior to the census date are not considered attempted; credit hours that are dropped or withdrawn after the census date *are* considered attempted.

Repeated courses affect grade point average and Completion Rate.

Transfer hours do not affect grade point average. Transfer hours are added to both completed hours and attempted hours in the Completion Rate calculation.

Courses with temporary grades of IN or AB do not affect grade point average. If a grade of IN or AB is converted to a passing grade, grade point average will be recalculated accordingly.

Withdrawn courses do not affect grade point average. Withdrawn courses are NOT considered a successful completion, though, and will adversely affect Completion Rate.

Failed courses influence grade point average. A failed course will also adversely affect Completion Rate, counting as attempted hours but not completed hours.

Overview of Academic Status

Entering Academic Status	Term Performance	New Academic Status
Good	Meets all 4 standards	Good (may enroll)
Good	Does not meet all 4 standards	Warning (may enroll; must complete academic intervention plan)
Warning	Meets all 4 standards	Good (may enroll)
Warning	Does not meet all 4 standards	Suspension (may not enroll; may pursue options a or b for suspension status)
Probation	Meets all 4 standards	Good (may enroll)
Probation	Does not meet all 4 standards	Suspension (may not enroll; may pursue options a or b for suspension status)

Academic Eligibility Policy for Non-Degree-Seeking Programs

For non-degree-seeking students there are three academic statuses: good standing, alert, and ineligible. A non-degree-seeking student with a 2.000 or higher cumulative grade point average will be in good standing and eligible to enroll in courses. If a non-degree-seeking student falls below a 2.000 cumulative grade point average, the student will be assigned a status of alert. A non-degree-seeking student who begins a term with a status of alert and does not raise his or her cumulative grade point average to 2.000 or higher at the end of the term will have an academic status of ineligible and will not be permitted to enroll in courses. Non-degree-seeking students with a status of ineligible may appeal to the Non-Degree Student Appeals Committee (<https://visitingstudents.unc.edu/resources/#visiting-student-appeals>).

Appeals

Students may, under extraordinary circumstances, present an appeal in writing (or online for students in the College of Arts and Sciences) to the dean of their school (for students in the College of Arts and Sciences, this is the associate dean for advising). The dean will refer the appeal to the administrative board for his/her school.

Calculation of Transferred Semesters Based on the Number of Transferred Credit Hours

See the Credit and Evaluation (p. 763) section of the catalog.

Additional Information for Students with an Academic Status of Suspension

- If students earn 15 or more transfer semester credit hours for courses taken at other institutions cumulatively over the fall or spring semesters before applying for readmission to the University, a calculation will be made as to how many semesters the student is regarded as having completed, based on the number of hours accepted for transfer credit. The resulting tally of total semesters completed will determine requirements for restoring academic eligibility.
- Students should consult their academic advisor if they are considering taking classes at another institution. Grades do not transfer, and credit hours accumulated through enrollment in fall and spring semesters at other schools can affect the number of

remaining semesters that students have left to complete their degree requirements at UNC–Chapel Hill.

- Students who attend another institution (summer, fall, or spring), and who apply for readmission must have at least a 2.000 (C) average in work at the other institution.
- Students who have a housing assignment or contract for the following semester should either cancel their application/contract or notify the University's Department of Housing and Residential Education of their intention to restore academic eligibility before the following semester begins.

Students who are inactive during a semester because of ineligibility (or other reasons) must apply for readmission before registering for a full-time term.

Removing AB or IN Grades

For information about completing courses with grades of AB (absent from the final examination) or IN (incomplete), see the grading system information (p. 757).

Attendance, Grading, and Examination

Class Attendance Policy

(Maintained by the Education Policy Committee. Resolution 2024-6 (https://facultygov.unc.edu/wp-content/uploads/sites/261/2024/04/Proposed-resolution-on-UAA-Policy_April-2024_updated.pdf), passed on April 26, 2024; Updated on August 19, 2024)

The Faculty Council enacts:

Section 1. The academic regulation concerning University approved absences shall be as follows for all students, beginning with fall semester 2024:

Class Attendance Policy

This policy applies *only* to University approved absences, which are listed below. For absences related to final examinations, see the Policy on Final Examinations.

Regular class attendance is a student obligation. Students are responsible for all work, including assessments, tests, and written work, and for all class meetings, as outlined in each individual course syllabus. These policies apply for fall, spring, and summer terms.

No right or privilege exists that permits a student to be absent from any class meetings, except for these University approved absences:

1. Authorized University Activities;
2. Disability, religious observance, pregnancy, or short-term military service, as required by law or approved by the Equal Opportunity and Compliance Office (EOC), or in the case of short-term military service, the Dean of Students;
3. Significant health condition and/or personal/family emergency as approved by the Office of the Dean of Students, Gender Violence Service Coordinators, and/or the Equal Opportunity and Compliance Office.

In situations when an absence is not University approved (e.g., due to a job interview, club activity, common illness such as the flu, strep throat, or

Covid), instructors determine their own approach to missed classes and make-up assessments and assignments.

The University's policy regarding University approved absences and the instructor's course-level policies, including those for attendance, are communicated to students via the instructor's *course syllabus* on the first day of class.

Students are encouraged to communicate early and often with their instructors about potential absences, and are reminded that they are bound by the Code of Student Conduct to always be honest in making a request for a University approved absence.

Make-up Coursework and Assessments

All students with University approved absences will be treated fairly and equitably, regardless of the reason for the absence. The rationale for the University approved absence will not be communicated in the notification to instructors.

Instructors will provide reasonable adjustments that permit course objectives and learning outcomes to be met. These adjustments must allow students to demonstrate what they have learned and not penalize the students' final grade in the course. Faculty will clearly define these adjustments in the syllabus. It is a University expectation that instructors be prudent, fair, and equitable when a student misses an assessment due to a University approved absence. The total number of allowable University approved absences per course will be based on individual course learning methodologies and outcomes as determined by the student, their course instructor(s) and the designated University office/department (e.g., EOC, department chair). For further details on make-up policies, see implementation details on the University Approved Absence Office website as well as the review process described at the end of the policy.

Notification of University Approved Absences

1. Authorized University Activities: Students acting as official representatives of the University who are participating in University-sanctioned activities will be granted a University approved absence. An absence is an authorized University activity if the absence serves a purpose for the whole university as *the university*, as a collective entity. An example would be if the student body president is attending a national conference of student body presidents, sponsored by the Dean of Students. A second example would be required participation in and support for NCAA varsity sports. An absence is not University authorized if it is for one class, one major, one professor, or one student organization. The University Approved Absence Office will verify the validity of the request. In situations where the absence is planned the request for a UAA must be submitted as soon as the date is set; in situations where the absence is unplanned, the request should be submitted to the UAAO as soon as possible. If the UAAO approves the request, students have the responsibility to inform their instructor prior to the next class attendance.

2. Accommodations for disability/religious observances/pregnancy/short-term military service, as required by law:

a. Equal Opportunity and Compliance (EOC) verifies University approved absences for students who have been identified and provided accommodations by their office. EOC contacts those students' instructors directly through a faculty notification.

b. Religious Observance: Pursuant to North Carolina General Statute 116-11(3a), students are authorized a minimum number of University approved absence(s) according to state law for religious observance/practices required by their faith, and the University is required to consider

requests for more than two absences as religious accommodation on a case-by-case basis. Students who wish to request University approved absences for religious observance required by their faith should review the University's Accommodations Policy and follow the procedure set out in that policy for requesting such absences. Students are responsible to request a University approved absence for religious observance at least two weeks in advance of the date(s), or as soon as possible if the date(s) occurs within the first two weeks of the semester, or within the first two days of a summer session. Primary holy days for religious observance are noted on the UNC Web-based interfaith calendar. The Web-based calendar should *not* be interpreted as an exhaustive list of holy days that the University will recognize for purposes of religious accommodations.

c. Pregnancy and Related Medical Conditions: Students who wish to request University approved absences for pregnancy and related medical conditions should review the University's Accommodations Policy and should contact the Equal Opportunity and Compliance Office prior to the requested dates for review and approval.

d. Short-Term Military Leave: Federal or state military orders that require a student's absence should be submitted as soon as received to the UAAO. The documentation will be reviewed by the Veterans Resource Center. After the documentation is verified, The University Approved Absence Office will communicate the University approved absence to course instructor(s). A student is eligible for University approved absence/s under this policy if, during an absence, the student performs uniformed service, voluntary or involuntary, in the Armed Forces, including the National Guard or Reserve, active duty, or active duty for training.

3. Significant Health Conditions and/or Personal/Family Emergencies as approved by the Dean of Students office, Gender Violence Service Coordinators and/or the Equal Opportunity and Compliance Office. Significant health conditions are generally defined to be ones in which the student will be required to miss five or more consecutive days of class. Once the documentation has been approved, the approving office will request that the University Approved Absence Office issue a University approved absence notification to the student's instructor(s). The University Approved Absence Office will inform the course instructor in advance if the reason for the University approved absence is planned or as soon as possible if the reason for the absence was not foreseen.

Review

Review of Faculty-Provided UAA Academic Adjustment(s): Given the swift and cumulative nature of a semester, a plan for the adjustment should be made no later than five business days of the last absence. For planned or pre-approved University approved absences, the plan for adjustments will be determined prior to the absence dates. After receiving the final adjustment plan from the instructor, if the student feels that a reasonable adjustment plan was not provided, they may submit a review request about the academic adjustment only within three business days of receiving the adjustment plan from the instructor as described on the University Approved Absence Office website. The review will be completed within three business days of submission of the review and be a true evaluation of the circumstances by the chair or chair designate.

Section 2. Resolution 2018-1 is repealed and replaced by this updated policy.

Final Examinations

Details on final examinations are found in the University policy on the Examination System.

This below portion of the policy applies to all undergraduate courses across the University. (*Maintained by the Education Policy Committee. Resolution 2017-5, passed on April 21, 2017; Resolution 2017-5.1, passed on May 15, 2017*)

Undergraduate courses taught on campus must include a final assessment of students' mastery of course material (i.e., final examination) unless the provost grants an exception. A traditional final examination is administered at a predetermined time as specified in the official final examination schedule (<https://registrar.unc.edu/final-exam-calendars/>), and takes place at a designated location in Chapel Hill. Any other type of final examination is considered nontraditional.

The final examination schedule, announced prior to the beginning of the semester, sets the day and time for each examination. No examination may start later than 7:00 p.m. Once having been established, the schedule cannot be changed. Traditional final examinations must be held at the day and time shown on the schedule unless an exception is granted as described below.

Only the provost can grant exceptions to the scheduled day or time of a traditional examination, after review and approval by the appropriate department head and the dean. No examination (except for laboratory sections) may be held at a time other than that specified in the general schedule except with the advance approval of the provost.

A course instructor may, due to highly unusual circumstances, petition for a change in the examination schedule. The instructor must submit the request in writing to his or her chair no later than the last day of late registration for that term, and it must be cleared by the chair and the appropriate dean (e.g., associate dean, Academic Advising) before consideration by the provost. If the petition is approved, the course instructor assumes responsibility for making special arrangements to give the examination to any student who has a schedule conflict as a result of the change. This process only applies to requests to change a day or time for an individual section.

Requests to combine all sections of a specific course into one final exam day and time (regardless of the number of sections involved), is considered a request for a common hour exam and has an earlier deadline for submission. Requests for all common hour exams must be cleared by the chair or appropriate dean and approved by the provost. Requests for common hour exams must be made to the registrar the first week of February for fall semester final examinations and the first week of September for spring semester final examinations. There is no exception to this deadline.

No graded quizzes or exams (excluding in-class presentations) may be given during the last five days of the semester (last two days of the

session for summer school) before the beginning of the final examination period.

For a standard three-credit-hour course, the University has a required three-hour final examination period, which includes 180 minutes of instruction in each semester (see the University policy on the definition of a credit hour). Thus, the University requires instructors to provide a full three hours of instruction for final assessment purposes (e.g., written final examination, presentations, portfolio review, performance, review and evaluation, or some combination of these assessments). It is up to the discretion of the instructor of record to determine the form, content, and function of the final examination (e.g., whether it is cumulative; whether it is a three-hour exam or a shorter exam preceded or followed by a period of review; etc.). A traditional final examination should not exceed a period of three hours. Only examinations requiring an exceptional portion of practical work should be longer than three hours (e.g., student teaching).

Chairs (i.e., heads of instructional units) must give permission for faculty members to use nontraditional examinations. Examples of nontraditional examinations include those requiring more than three hours to complete; or other final assessments such as a portfolio of a semester's work, a final project, or a take-home examination. For multidisciplinary and cotaught courses, permission to give a nontraditional examination must be granted solely by the chair of the instructional unit in which the course is based. Even when faculty members have permission to administer nontraditional final examinations, the scheduled examination period must be utilized for instructional hours. The chair should submit to their academic dean's office an annual summary of the exceptions that were granted.

Students who are absent from an examination receive a course grade of AB (absent), which is equivalent to F (zero quality points), or FA (absent and failing regardless of performance on the final examination). When students are unable, for reasons clearly beyond their control, to take a traditional final examination at the scheduled time, they can be excused only by the director of Campus Health Services or their academic dean (who can issue an "examination excuse"). An absence may be excused for severe health problems leading to the student's placement on the Infirmary List by either Campus Health Services or Counseling and Psychological Services, for significant personal or family circumstances, for religious observances required by the student's faith, for a scheduling conflict involving multiple examinations at the same time, or when a student has three or more final examinations scheduled in 24 hours. For scheduling conflicts, **only final examinations for the current term** are considered as a basis for excusing a student from a scheduled final examination time. In cases of illness, personal or family emergency, or religious observance, additional documentation may be required by the dean. Primary holy days for religious observances are noted on a Web-based interfaith calendar site (<http://www.interfaith-calendar.org/>). Students are responsible for providing the course instructor and the dean a written request for an excused absence from a final exam for a religious observance or for a scheduling conflict involving multiple examinations no later than the last day of classes. Students must be given the opportunity to make up final exams missed due to an excused absence.

For any University undergraduate courses offered entirely online or via other distance modalities, exams will be offered and must be completed during the scheduled final examination period, but requirements concerning the time of day and place of the exam will be appropriate to the course's mode of delivery. Self-paced courses are exempt from both

the time and place requirements of the exam policy and the requirement that exams be held during the scheduled final examination period.

Campus Health Services

Students who are seriously ill during the time of their final examination(s) (including complications related to pregnancy) should consult Campus Health Services or Counseling and Psychological Services about having their names entered on the Final Exam excuse list. In some cases, outpatient treatment can also result in a student's name being entered on the list. Students on the Final Exam excuse list may obtain an official permit from the Office of the University Registrar to take the final examination to remove a grade of AB. They must make arrangements with their course instructor to take the final examination and provide the instructor with their official permit. If students are treated at Campus Health Services or Counseling and Psychological Services but do not appear on the list, they should see the dean of their college as soon as possible. Students may refer further questions to the Academic Advising Program (if the student is in the College of Arts and Sciences) or to their respective dean's office.

Academic Dean

If students know in advance that they must miss one or more final examinations because of illness, religious observance, or other serious problems, they should notify in writing both the course instructor and the dean of the school in which they are enrolled no later than the last day of classes. If this is not possible, they should see their dean as soon after the fact as possible. For students in the College of Arts and Sciences, only the associate dean for advising (or designee) is authorized to issue examination excuses for reasons other than three exams in 24 hours or two exams at the same time. For other students, only the dean of the school in which the student is enrolled has that authority. The dean may require documentation of a student's religious observance, illness, or problems.

Assuming that a student did not take a final examination for one of the reasons previously cited, the dean will issue an official examination excuse, which the student must present to the course instructor when arrangements are made for a suitable time to take the final examination.

A student who has three final examinations scheduled by the Office of the University Registrar within a 24-hour period or two scheduled at the same time may request to his or her dean's office for permission to have one of the scheduled examinations rescheduled. In the College of Arts and Sciences, requests for exam excuses are reviewed by professional staff in Academic Advising via an online request form (<https://eef.oasis.unc.edu/>). In the event that one of the scheduled examinations is a common final examination for a multiple-section course, that examination is the one to be rescheduled.

Students who have secured an examination excuse or an official permit and who transmit the document to the instructor or the instructor's chair or dean must be granted permission to take the exam at an alternate time, although students will need to arrange a mutually convenient time with the instructor. Except when the provost has provided an exception in writing, the exam will be taken at a time subsequent to the regularly scheduled exam, though no later than the end of the following semester.

The final examination in any course may be taken only by regularly enrolled members of the class whose registration has been certified and by students certified to be eligible to take a special examination in that course. The certifying authority is the Office of the University Registrar.

Each student is required to sign a full and explicit Honor Code pledge certifying that he or she has neither given nor received aid during the examination.

Grading System

Permanent Letter Grades

A letter-grade and plus/minus system for evaluating academic performance is employed for all undergraduates. Each letter grade corresponds to a number of grade points. Each letter-graded course receives a numerical value of quality points (quality points equal grade points times semester credit hours per course) to use in determining a student's average (per credit hour) in a particular term and to find a student's cumulative grade point average (per credit hour).

A = 4.0	B- = 2.7	D+ = 1.3
A- = 3.7	C+ = 2.3	D = 1.0
B+ = 3.3	C = 2.0	F = 0.0
B = 3.0	C- = 1.7	

To determine the grade point average for a term, first determine the total quality points earned in the term by multiplying the number of grade points awarded for each course by the course's assigned number of semester credit hours and adding the resulting quality points earned for each course in the term. Then divide the total quality points earned in the term by the number of semester credit hours attempted (for letter grades) in the term.

Example

Course	Grade	Grade Points	x	Credit Hours	=	Quality Points
Course A	C+	2.3	x	3.0	=	6.90
Course B	B-	2.7	x	3.0	=	8.10
Course C	B	3.0	x	4.0	=	12.00
Course D	C-	1.7	x	3.0	=	5.10
Course E	A-	3.7	x	1.0	=	3.70
Course F	F	0.0	x	1.0	=	0.00
Course G	A	4.0	x	3.0	=	12.00
Total quality points earned:						47.80
Total graded hours:						18.0
Term grade point average:						$47.80 \div 18.0 = 2.656$

Permanent grades are defined as follows:

A	Mastery of course content at the highest level of attainment that can reasonably be expected of students at a given stage of development. The A grade states clearly that the student has shown such outstanding promise in the aspect of the discipline under study that he/she may be strongly encouraged to continue.
B	Strong performance demonstrating a high level of attainment for a student at a given stage of development. The B grade states that the student has shown solid promise in the aspect of the discipline under study.
C	A totally acceptable performance demonstrating an adequate level of attainment for a student at a given stage of development. The C grade states that while not yet showing any unusual promise, the student may continue to study in the discipline with reasonable hope of intellectual development.
D	A marginal performance in the required exercises demonstrating a minimal passing level of attainment for a student at a given stage of development. The D grade states that the student has given no evidence of prospective growth in the discipline; an accumulation of D grades should be taken to mean that the student would be well advised not to continue in the academic field.
F	For whatever reasons, an unacceptable performance. The F grade indicates that the student's performance in the required exercises has revealed almost no understanding of the course content. A grade of F should warrant questioning whether the student may suitably register for further study in the discipline before remedial work is undertaken.

Grades earned and semester hours attempted at other institutions are not included in the calculation of the University grade point average.

Records of progress are kept by this institution on all students. Students can access official semester grades in ConnectCarolina at the end of the term. Questions about access to student official grades or grade reporting should be directed to the Office of the University Registrar.

Pass/Fail Option

The Pass/Low Pass/Fail (PS/LP/F) option provides undergraduate students an opportunity to explore areas of interest without penalty to

their overall GPA. Courses declared on a PS/LP/F basis do not count towards a student's GPA, unless the course is failed, but do count towards credit hours for graduation and satisfactory academic progress and eligibility completion rates. Students who declare a course PS/LP/F will receive:

- the notation of PS (pass) when a letter grade of A through C is earned,
- the notation of LP (low pass) when a letter grade of C-, D+, or D is earned,
- and a grade of F when the course is failed.

Low Pass (LP)

- Low passing grade for a course using **PS/LP/F** grading, when an undergraduate student would have earned a letter grade of C-, D+, or D. Effective special grading accommodation for fall 2020, spring 2021, and later approved as a permanent grade.
- For undergraduate students who elect to take a class under the **PS/LP/F** option, the instructor must assign the regular appropriate letter grade.
- Instructors are not informed of which students have elected the **PS/LP/F** option.
- Grades of C-, D+, or D are converted to a LP grade on the official record maintained by the Office of the University Registrar.

Pass (PS)

- Passing grade for a course using **PS/LP/F** grading, when an undergraduate student would have earned a letter grade of A through C. Prior to fall 2020 the PS grade was used when a student would have earned a letter grade of A through D and the LP grade was not used.
- For undergraduate students who elect to take a class under the **PS/LP/F** option, the instructor must assign the regular appropriate letter grade.
- Instructors are not informed of which students have elected the **PS/LP/F** option.
- Grades of A through C are converted to a PS grade on the official record maintained by the Office of the University Registrar.

PS and LP notations do not impact a student's grade point average (GPA); however, an F grade is treated in the same manner as F grades earned in any other course and therefore does impact a student's GPA. Courses used to fulfill "gateway," "prerequisite," or "additional requirements" for a declared major or minor (as outlined in the *Undergraduate Catalog*) **may not** be declared as PS/LP/F. Also, students **may not** elect to change their major or minor for the purpose of declaring a course on a PS/LP/F basis. Understanding that exploration may also lead to interest in a particular area, students may elect to use one course completed with a grade of PS, not LP, towards major and/or minor "Core Requirements" (as outlined in the *Undergraduate Catalog*). Instructors are not informed when a student changes the grading basis to PS/LP/F and report earned grades to the Registrar's Office where the grade is converted to a PS or LP. All PS/LP/F declarations are final. Once a course has been declared as PS/LP/F, students cannot reverse their decision and change the grading basis back to a letter grade.

Pass/Low Pass/Fail Declaration Procedure

To declare a course Pass/Low Pass/Fail (PS/LP/F), a student must complete the PS/LP/F Course Request Form within ConnectCarolina. Students are advised to discuss the advisability of declaring a course PS/LP/F with their assigned advisor or faculty advisor (if appropriate) before committing themselves to a formal declaration. Students considering

this option are cautioned that many admissions representatives from professional schools and graduate school programs consider applicants whose transcripts have a significant number or trend of PS/LP grading notations less favorably than applicants whose transcripts contain none or very few. The period for PS/LP/F declarations begins on the fifth day of classes of each semester and concludes at the end of the eighth week of classes.

Regulations Governing the Pass/Low Pass/Fail Option

The following regulations govern the use of the Pass/Low Pass/Fail (PS/LP/F) option:

1. Students may only take one student-elected PS/LP/F course each semester.
2. No more than 23 total credit hours of PS/LP/F credit hours will be allowed in a student's undergraduate career, with no more than 16 hours (of the 23) from student-elected PS/F classes and no more than 13 hours (of the 23) from established PS/LP/F courses.
3. The following courses may not be declared PS/LP/F:
 - Courses only offered on a PS/LP/F grading basis per the *Undergraduate Course Catalog*
 - Courses used to satisfy First-Year Foundations requirements
 - Courses used to satisfy General Education requirements
 - Global language courses levels 1 through 3 if the language is being used to fulfill the General Education requirement
 - Courses successfully completed for a letter grade (A–D)
 - Courses used as "gateway," "prerequisite," and/or "additional requirements" for declared majors and minors per the *Undergraduate Course Catalog* (i.e., courses not listed as "core requirements")
 - Summer School courses
 - An honors seminar or honors course
 - Courses taken via interinstitutional enrollment

Maintained by the Educational Policy Committee. Last approved on April 28, 2023.

Temporary Grades (IN and AB) and FA Grades

Any student who ceases to attend a class without officially being dropped or withdrawn may receive a temporary grade of AB or IN or a permanent grade of FA.

Students who do not complete all requirements in a course by the end of the semester, but who could pass the course if they did, receive a temporary grade of IN (incomplete) or AB (absent from the final exam) in place of a permanent letter grade. Grades of IN and AB do not affect grade point average. Students who do not complete the course requirements within a specified period of time are assigned permanent F* grades on their academic transcripts by the Office of the University Registrar.

The instructor must report the grade of AB for any student who did not take the final examination and who, by taking the final examination, could pass the course. This AB grade later converts to an F* unless the student arranges to take the final examination before the last day of finals of the next regularly scheduled semester (fall or spring). If the student cannot pass the course regardless of a final examination performance, the instructor must report the grade FA. The grade of FA (cannot pass the class) is a permanent failing grade. A grade of F may be assigned instead

of a temporary grade or a grade of FA when a final examination is not required in the course.

The grade IN may only be assigned by an instructor to a student who took the final examination in a course but did not complete some other course requirement (including signing the honor pledge) and who, by virtue of completing that missing work, might pass the course. Unless removed before the last day of finals of the regularly scheduled semester (fall or spring) following its assignment, an IN converts to an F*.

Absence from a final examination may be officially excused only by the student's dean or the director of Campus Health Services or Counseling and Psychological Services. Please see "Final Examinations" above for information about final examination excuses.

Important Rules and Procedures Pertaining to AB and IN Grades

The decision to report an IN grade is solely the responsibility of the course instructor; however, a student may present proper justification for the instructor's consideration.

Temporary grades should be cleared by completing the work outstanding, preferably no later than the start of the following semester. The deadline for clearing a temporary grade of AB or IN is the last day of finals for the next regularly scheduled semester or the instructor-provided deadline, whichever is earlier.

If students intend to remove IN or excused AB grades, they should not officially enroll in the course(s) during the next semester or summer session. If recommended by the course instructor, a student may attend by officially auditing a part of that instructor's section of the course or another instructor's section of the same course in which the temporary grade was awarded.

Students cannot be cleared for graduation or certificate completion if a temporary grade (AB, IN, NG, NR, SP) is posted for any course.

If a student enrolls in a course in which a temporary grade has been previously received, the second enrollment is taken as evidence that the student could not or is not permitted to remove the temporary grade. This results in replacing the temporary grade by F* after the deadline for removing the temporary grade. The grade earned during the second enrollment is also reported on the student's academic transcript and is used along with the F* grade in the computation of a cumulative grade point average.

Other Grades and Notations

A notation of BE (by examination) is entered in the grade column of academic transcripts if students are awarded credit for a course as a result of evaluation by departmental, Advanced Placement, International Baccalaureate, or SAT II Subject Test examinations. BE credit confers credit hours and can be used to fulfill General Education requirements. For first-time, first-year students entering UNC-Chapel Hill in fall 2009 or thereafter, no more than two courses (six to eight credit hours) of BE credit can be applied to a major and no more than one course (three to four credit hours) of BE credit can be applied to a minor in the College of Arts and Sciences. BE credit may not be used to satisfy cumulative grade point average requirements for majors or minors.

A notation of NG (no grade) is not used by individual instructors but rather is assigned by the Office of the University Registrar when a permanent grade is pending a judicial review by the Honor Court.

A notation of PL (placement) is entered in the grade column of academic transcripts if students are awarded exemption for a course as a result of an evaluation that would ordinarily place them in a succeeding course. PL does not confer credit hours.

There are some courses for which only a grade of PS (pass) or F (fail) can be awarded. For most other courses, students may opt to take a class on a Pass/Fail basis.

A grade of SP (satisfactory progress) may be used in the first course of a departmental undergraduate honors program. The honors program runs through two semesters, and a final grade is not reported until completion of the second course. When the final grade is reported, the previously assigned SP grade must be changed to the appropriate permanent letter grade by an official grade change form. Credit hours are awarded for the first honors course only after a letter grade replaces the SP grade. An SP grade is not computed in the grade point average.

A W (withdrawn) notation is entered in the grade column of academic transcripts when a student was approved to drop or withdraw from a class after the drop without record period. See Registration (p. 773), Enrollment, and Withdrawal (p. 773).

When a course is dropped between the second and eighth week of classes, a grade of WC (withdrawal by choice) shall be recorded and used internally for tracking and reporting purposes. For external purposes, a withdrawal by choice is equivalent to the W notation. Once recorded, a WC cannot be rescinded unless it is determined the student withdrawal was due to extenuating circumstances.

A notation of XF is entered to indicate that a student has not passed a course as the result of an Honor Court violation. The grade of XF can be replaced by a final grade of F if the student follows prescribed steps to remediate the violation.

A blank space or a grade of NR (not reported) is shown in the grade column when the instructor has not submitted the official grade for the student.

Repeating Course Enrollments

See Registration, Enrollment, and Withdrawal (p. 773).

Grades Earned at Other Institutions

With the exception of courses taken via interinstitutional registration (p. 773), grades earned and semester hours attempted at other institutions are not included in the computation of a grade point average at the University. A grade point average earned at another university may not be used to restore academic eligibility; however, academic hours earned at another university may be used to restore academic eligibility if the student is lacking only credit hours and has a satisfactory grade point average. Special rules regarding transfer courses apply; see Transfer of Credit (p. 20) and Academic Eligibility (p. 755).

Grade Appeals

The grades of H, HP, P, LP, L, A, A-, B+, B, B-, C+, C, C-, D+, D, PS, F, FA, F*, and numerical grades in the Law School are considered permanent grades. Once reported, the instructor's grade report may not be changed except under certain conditions. For a grade change to be considered, it must be based upon one or more of the following grounds and upon allegation that the ground or grounds cited influenced the grade assignment to the student's detriment:

- **Arithmetic** or clerical error
- **Arbitrariness**, possibly including discrimination or harassment based on the race, color, gender, national origin, age, religion, creed, disability, veteran's status, sexual orientation, gender identity, or gender expression of the student
- **Personal Malice**
- **Honor Court** sanction
- **Harassment**
- **Discrimination**

The Policy on Prohibited Discrimination, Harassment, and Related Misconduct (<https://eoc.unc.edu/our-policies/ppdhrm/>) prohibits discrimination or harassment on the basis of an individual's age, color, disability, gender, gender expression, gender identity, genetic information, race, national origin, religion, sex, sexual orientation, or veteran status. The policy provides specific information about prohibited conduct for students who believe that they have been discriminated against or harassed on the basis of one or more of these protected classifications. Students who want additional information regarding the University's process for investigating allegations of discrimination or harassment should contact the Equal Opportunity and Compliance Office for assistance:

University Compliance Office
The University of North Carolina at Chapel Hill
214 W. Cameron Avenue, 2nd Floor
Campus Box 9160
Chapel Hill, North Carolina 27599
Telephone: (919) 966-3576
Email: uco@unc.edu

Any administrator or supervisor, including a department chair, associate dean or other administrator, who receives a student's complaint about prohibited harassment or discrimination must notify the Equal Opportunity and Compliance Office immediately after receiving the complaint. If a student raises a claim of prohibited harassment or discrimination during an academic appeal, an assessment and/or investigation of the student's claim must be performed under the direction of the Equal Opportunity and Compliance Office. The academic program or school must await the results of the harassment or discrimination assessment and/or investigation before taking action on the student's academic appeal.

A grade appeal must be made no later than the last day of classes for the succeeding fall or spring semester.

Grade Appeals Correcting a Clerical or Arithmetical Error

An instructor who has reported an incorrect grade for a student because of an error in calculating the grade, or in entering it on the official grade roster, may change the grade to one of the other letter grades, provided this change is made no later than the last day of classes of the succeeding fall or spring semester. Grade changes are submitted online using the Grade Change Request process, with electronic approvals required by the instructor, the department chair, and student's dean's office. In the College of Arts and Sciences, dean's office approval is granted by the associate dean for academic advising (<https://advising.unc.edu/advisors/>) or their designee.

Other Grade Appeals

Any student who protests a course grade shall first attempt to resolve this disagreement with the instructor concerned. (As explained in the

preceding paragraph, an instructor may change a permanent grade only when a clerical or arithmetical error is involved.) Failing to reach a satisfactory resolution, the student may appeal the grade in accordance with the procedures outlined below. Such appeal must be made no later than the last day of classes of the succeeding fall or spring semester.

Students should present the appeal in writing to the dean of their school (students in the College of Arts and Sciences must submit it in writing to the associate dean for advising). The dean will refer the appeal to the administrative board of his/her school, which will meet to consider whether the student has offered sufficient grounds for referring the appeal to the chair of the department concerned. If the administrative board determines that further review by the academic department is appropriate, the department chair will then appoint a committee to consider the appeal and will make a recommendation to the administrative board based on the committee's findings. The administrative board will make the final decision, and no change of grade will be made except as a result of the decision by the board. The chair will report such decision to change the grade to the Office of the University Registrar.

Credit and Evaluation

Awarding Transfer Credit

The University must receive an official transcript from the college or university with final grades for courses before transfer credit for approved courses is posted on the UNC-Chapel Hill record. In some cases, additional supporting documentation, such as course descriptions, syllabi, reading list, and assignments may be required from the student for approval of course credits and applicability to the student's UNC-Chapel Hill record. For students who have applied to graduate at UNC-Chapel Hill and expect to have transfer credit applied to final degree requirements, coursework must be completed in the comparable semester or term of graduation and the official transcript received within graduation clearance deadlines. Other sections of the University catalog provide additional details on the application of transfer credit to academic standing, degree requirements, and other relevant academic criteria.

Undergraduate transfer students can expect a review of the domestic transfer transcripts, accurate transfer equivalency information, and an initial transfer credit evaluation 15 business days after the offer of admission and UNC-Chapel Hill receiving all required official transcripts. Undergraduate transfer students with international transfer credit and/or those with four or more domestic transcripts, can expect a review of the domestic transfer transcripts, accurate transfer equivalency information, and an initial transfer credit evaluation 30 business days after the offer of admission and UNC-Chapel Hill receiving all required official transcripts. Final transfer credit evaluations will be completed once all official transcripts are received.

Current undergraduate students at UNC-Chapel Hill seeking to have future transfer credits applied towards their UNC degree, need to submit a course pre-approval form. Courses are reviewed for a specific term and preliminary evaluations are provided. It is recommended that students discuss the preliminary course approvals with their academic advisor to understand how the transfer credit fits into their degree requirements.

The following transfer credit rules apply to undergraduate students:

- Students must earn a grade of “C” or higher in all external courses to be approved for undergraduate transfer credit.
- Grades and quality points earned elsewhere are not computed into the UNC-Chapel Hill cumulative grade point average (GPA).
- The semester credit hours awarded by the external institution are transferred. Quarter hours or other credit scales will be converted into semester credit hours.
- Students should only submit a course approval request for the term in which they plan to attend and complete the course. #Approved courses taken outside of the term for which they were approved will not be honored in the event a transfer credit update or change is made.
- No additional transfer credit is posted to the student’s record after the student has transferred the maximum limit of 75 hours. No substitutions of transfer credit will be allowed. Transfer courses with no credit hours will not be granted.

Overall Guidelines for Evaluations of Undergraduate Transfer of Credit

The following guidelines align with the University’s goals, national best practices, and AACRAO recommendations. The administrative offices such as Undergraduate Admissions and Undergraduate Curricula use these guidelines for the course content evaluation of undergraduate transfer credit.

A. The mode of instruction (e.g., online, asynchronous, in person) is not a factor in determining course equivalency.

B. A threshold of 70% content matching is used to determine UNC-Chapel Hill equivalency, unless otherwise needed for specific accreditation factors, discipline content (e.g., language or STEM courses in a sequence), or other discipline requirements.

- Language or STEM courses in a pre-requisite sequence at UNC-Chapel Hill may require additional justification of course rigor, on-campus equivalency test, or other supporting documentation before a direct course equivalency is approved.
- Focus Capacity Gen Ed courses at UNC-Chapel Hill require 1.) writing, 2.) presenting, and 3.) collaboration (“recurring capacities”). Checking for these “recurring capacities” is not a determining factor when evaluating a transfer course for equivalent credit. The content, learning objectives, and readings are weighted more heavily.
- Departments may require that specific upper-level major courses be taken at UNC-Chapel Hill, e.g. capstone course.

C. Credit Levels and Initial Credit Review. The administrative office overseeing undergraduate transfer credit awards UNC-Chapel Hill equivalent credit for lower division (e.g. 100- and 200-level courses) for all departments in the College of Arts and Sciences using the 70% criterion. The administrative office at UNC-Chapel Hill awards equivalent credit for upper division (e.g. 300-level and above) courses for all departments in the College of Arts and Sciences and requires academic departments to review the recommendation of equivalency for upper division courses

before the credit is posted to the student’s record. If there is not an upper division equivalent, departmental elective credit can be awarded.

D. The administrative office overseeing undergraduate transfer credit awards general elective credit for professional school courses, in which UNC-Chapel Hill has a comparable professional school/ competitive admission program (completed at an accredited college or university) during the initial review process.

E. Transfer courses taken 10 years ago or more must be reviewed by academic departments to determine if course content is still relevant and is applicable to a student’s current program of study.

F. Credit is awarded to current students participating in UNC-Chapel Hill approved study abroad programs by the Study Abroad Office and other UNC global programs offices. The administrative office overseeing undergraduate transfer credit only awards transfer credit to students for study-abroad and international courses if the courses were completed prior to enrolling at UNC-Chapel Hill or for current UNC students who plan to take courses in their home countries abroad. For transcripts from an international institution, a course-by-course evaluation from World Education Services (WES) is required. The transfer credit hours are based upon the WES evaluation. If WES is unable to provide an evaluation, the course(s) will be denied transfer credit at UNC-Chapel Hill.

See policy on Grades Earned At Other Institutions here (p. 757).

Calculation of Transferred Semesters Based on the Number of Transferred Credit Hours

Several academic procedures, including the determination of academic eligibility, depend on the tally of semesters that students have completed. When credit hours are transferred, a calculation must be made as to the number of semesters the student is regarded as having used up. This calculation is based on the number of credit hours accepted by UNC-Chapel Hill for transfer, not on the number of semesters in which the student was enrolled at other colleges. Excluded from this calculation are transfer hours awarded for courses taken concurrent with high school.

Students are regarded as having used up one semester for every full multiple of 15.0 semester credit hours accepted for transfer. When credits are transferred from a college that operates on the quarter-term system, one quarter-term credit hour equals two-thirds of a semester credit hour.

See “Transfer Candidates” in the “Undergraduate Admissions (p. 20)” section of the *Catalog* for additional information.

The same formula is applied to credit hours that a student earns while enrolled in a part-time program of study at UNC-Chapel Hill, with 90 hours regarded as six semesters and 105 hours regarded as seven semesters. *Note: Hours earned in any UNC-Chapel Hill summer term are not included in this formula.*

The formula also applies to transfer credit hours awarded for any courses taken at other institutions during a fall or spring semester (but not during summer terms) after a student matriculates at UNC-Chapel Hill.

Credit by College Board Advanced Placement, International Baccalaureate, or SAT Subject Examinations

Students who meet UNC–Chapel Hill standards on certain approved College Board Advanced Placement examinations, examinations of the International Baccalaureate Program, certain SAT Subject Tests (e.g., foreign language), and other tests as listed below, may receive academic credit for comparable University coursework. Each year the Office of Undergraduate Admissions publishes (<https://admissions.unc.edu/credit/credit/test-and-placement-credit/>) the minimum scores necessary for the awarding of course credit (also listed below for AP and IB exams); however, final authority for awarding this placement credit lies with the chair of the department or curriculum in which credit is to be received. Minimum scores for placement may change from year to year. Regulations for credit in the year in which the student began study at UNC–Chapel Hill as a full-time student determine the standards that apply, not the year in which the student took the examination. Such credit will not be contingent upon the completion of further work in the subject unless specified by an academic department.

By-Examination (BE) credit awarded based on a student's scores on the Advanced Placement, International Baccalaureate, SAT Subject Tests, other tests as listed below, or departmental examinations may be used to fulfill General Education requirements. For students admitted as new first-year or transfer students beginning in fall 2009 or later, the following limitations apply to the use of By-Examination (BE) credit in a major or minor:

- No more than two courses (six to eight credit hours) of BE credit may be used as part of the major core.
- No more than one BE credit course (three to four credit hours) may be used as part of a minor.
- No more than five BE credit courses may be used to fulfill the general education Focus Capacities requirements.

Students who wish to enroll in a course for which they have By-Examination credit should discuss their decision with an academic advisor. In the event that a student takes a course for which Advanced Placement, International Baccalaureate, SAT Subject Test, or other tests as listed below, credit is awarded, the By-Examination credit will be forfeited when the course is completed.

Mathematics

For further information about placement, see the department's website (<https://math.unc.edu/undergraduate/placement-information/>) on math placement.

English

Beginning in fall 2012, the English and Comparative Literature department started offering a new foundation course, ENGL 105, which took the place of ENGL 101 and 102. **All students entering in fall 2012 and beyond are required to take this course; there is no exemption through test placement.** For additional information on English placement, please see the department's website (<https://englishcomplit.unc.edu/>).

Credit by Departmental Examination

Enrolled students who, through individual study or experience, have gained knowledge of the content of undergraduate courses offered by the University may, with the approval of the relevant department and school or college, receive credit (without grade) for such courses by special examination. The student must receive the approval of the department and college/school at least 30 days before the examination is taken, and the examination must be taken before the beginning of the last semester or full summer session before the student's graduation.

Policy on Credit for Internships – The College of Arts and Sciences

No internship automatically earns academic credit. Students who want academic credit for an internship should contact the director of undergraduate studies in a relevant academic department or curriculum (p. 650) before beginning the internship and must complete an internship course in that academic unit. Not all departments and curricula offer internship courses.

Internships may not be used to meet the high impact (HI) or experiential education (EE) Gen Ed requirements unless the student earns academic credit for the internship through a department or curriculum. A student must enroll in a course that has been approved as meeting the High Impact or EE requirement in order for an internship to fulfill that requirement.

Students who must earn academic credit as a condition of doing the internship—and who cannot get credit through an academic department or curriculum—should contact a counselor at University Career Services for possible credit in SPCL 493 before beginning the internship. The student must write a statement describing his or her learning objectives and a paper reflecting on the experience. SPCL 493 is a one-credit, Pass/Fail course that does not count toward any graduation requirements.

Modes of Instruction

All classes authorized for academic credit must be assigned an approved instructional mode prior to student registration. Class meetings are to be scheduled accordingly as well as within defined credit hour standards.

The following provides a list of the available modes of instruction and a brief description of each instructional format. These descriptions are an overview and provide the minimal requirements for each mode. Individual classes may have unique characteristics or variations within these modes. Class modes other than the mode originally approved for the course may require additional levels of approval to determine appropriateness of the instruction format within the context of the corresponding academic programs. All class instruction delivered in a remote or online format is expected to be delivered with technology supported by the University and in accordance with related policies and procedures.

In-Person (IP)

- Instruction is offered in-person and student in-person attendance is required.
- Students are expected to attend all regularly scheduled on-campus class meetings and exam times, including the final exam, in-person throughout the term or semester.
- In some classes or under special conditions, minimal content and/or class meetings (less than 25%) may be delivered in a remote/online format to supplement the majority in-person instructional time.
- Specific dates for regularly scheduled in-person meetings must be defined and available to students in the University's student information system prior to the start of classes for the term or semester.

In-Person & Remote Hybrid (IR)

- Instruction is offered in both in-person and remote/online formats, and student attendance is required both in-person and online.

- Students are expected to attend all regularly scheduled class meetings and exam times, including the final exam, throughout the term or semester.
- Classes will have both in-person and remote/online meetings regularly scheduled at specific dates and times, with over half the class meetings scheduled as in-person. The exact amount of in-person and synchronous remote/online regularly scheduled instruction varies by class.
- In addition to the majority in-person instruction, significant content (25-49%) will be delivered in a remote/online format. This includes synchronous and/or asynchronous meetings.
- Specific dates for regularly scheduled in-person and synchronous remote/online meetings must be defined and available to students in the University's student information system prior to the start of classes for the term or semester.

Remote Asynchronous (RA)

- Instruction is offered in a remote/online format.
- Students are not required to attend class sessions on specific dates and times. All course content will be available in a remote/online format, either on-demand or within specified windows of time.
- All class sessions, activities, and/or exams, including the final exam, will be asynchronous and self-paced within defined timeframes; students will be expected to meet deadlines throughout the term or semester in which the class is offered.
- Any in-person or synchronous remote/online class meetings will be optional.

Remote Mostly Online & In-Person Hybrid (RM)

- Instruction is offered both remote/online (asynchronous and/or synchronous) and in-person formats and student attendance is required both online and in-person.
- Students are expected to attend all regularly scheduled class meetings and exam times, including the final exam, throughout the term or semester.
- Classes will have both remote/online (asynchronous and/or synchronous) and in-person meetings regularly scheduled at specific dates and times, with over half the scheduled class meetings being in a remote/online format. The exact amount of remote/online and in-person regularly scheduled instruction varies by class.
- In addition to the majority remote/online instruction, significant content (up to 49%) will be delivered at in-person meetings.
- Specific dates for regularly scheduled synchronous remote/online and in-person meetings must be defined and available to students in the University's student information system prior to the start of classes for the term or semester.

Remote Synchronous (RS)

- Instruction is offered in a remote/online format and student attendance is required online.
- Students are expected to attend all regularly scheduled remote/online class meetings and exam times, including the final exam, throughout the term or semester.
- All class instruction will be remote/online. No in-person attendance will be required.
- In some classes or under special conditions, minimal content and/or class meetings (less than 25%) may be delivered remotely/online.

in an asynchronous format to supplement the majority synchronous instructional time.

- Specific dates for regularly scheduled synchronous remote/online meetings must be defined and available to students in the University's student information system prior to the start of classes for the term or semester.

Global Language Placement Credit For General Education Purposes

Students may complete their General Education global language requirement through one of the below means:

- Completion of a level 3 or higher language course at UNC approved for the global language requirement.
- Verified completion of two or more years of secondary education primarily taught in a language other than English.
- Verified completion of two or more semesters of higher education (defined as the equivalent of 24 eligible for transfer credit hours) primarily taught in a language other than English.
- Completion of a UNC language placement test in the language with a placement beyond level 3.
- Non-UNC language exam scores (including AP, IB, and others) submitted to UNC which are approved as credit for level 3 or above.
- Transfer credit for a language course approved as level 3 or above. Credit for languages not currently taught at UNC will articulate as GENR 203 (level 3) which meets the global language General Education requirement.
- Placement (PL) credit without hours for level 3 (GENR 203) of a language not currently taught at UNC obtained through the language proficiency verification process detailed on the UNC Language Placement website. Every effort is made to verify proficiency in any language, but UNC cannot guarantee that an appropriate placement test or language expert will be available for proficiency verification in all languages.

For the purposes of the above policy, "language other than English" includes languages regardless of country of origin, including sign languages and other languages that do not include a written form. Institutions primarily taught in a language other than English do not need to be located outside the United States to qualify under this policy.

For Continuing a Language Taught at UNC

Experiential Speakers of a Global Language

Enrolled students who have learned a language currently offered at UNC–Chapel Hill by experience (i.e., having grown up speaking another language in the home or having lived several years in another country) and who are conversant and literate in that language and in English, may take a placement test in that language for placement (PL) only and not for credit hours. This placement will determine the student's next UNC course in the language.

Native Speakers of a Global Language

For academic purposes, a native speaker is a student raised in a country outside the United States and formally educated through all or most of high school in a language other than English. Native speakers cannot use By-Examination (BE) credit in their native language to reduce the requirements for a major in that language and will not receive credit for levels 1 through 4 of their native language(s). However, upon

recommendation of the appropriate language department, they may receive credit for courses taken at UNC–Chapel Hill beyond level 4 if those courses are heavily based on literature, film, culture, or other content. Native speakers of languages other than English may use the above listed options to satisfy their General Education global language requirement. Native speakers who wish to pursue placement (PL) in their language should follow the appropriate department or General Education process on the Language Placement website.

Hours of Credit

Work is valued and credited toward degrees by semester hours, one such hour usually being awarded for one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week. One hour of credit is usually awarded for each three hours of laboratory or field work or work in studio art.

For more information see the University policy and Faculty Council resolution on the definition of a credit hour.

Independent Studies for Credit

The University offers independent study experiences for undergraduate students. Such courses, including directed readings, internships/practica, mentored undergraduate research, and senior honors thesis courses for an individual student, are offered for academic credit through departments and curricula. Twelve hours of graded independent study credit may be counted toward graduation (excluding six hours of senior honors thesis credit). No more than 12 hours may be taken in any one semester, with the exception of students completing a full-time teaching internship program in the School of Education and other approved practicum/internship programs in the professional schools. Students may participate in formalized programs, or they may make individual learning contracts for work under the supervision of a member of the permanent faculty at the department/curriculum level. For information about independent study courses in their majors, students should consult the director of undergraduate studies or independent study coordinator in their major department or curriculum. Students, in consultation with the faculty member, must complete a learning contract and have it approved by the director of undergraduate studies (or designee). Registration for an independent study course must be completed after the learning contract has been approved and no later than the last day of "late registration" (*the end of the second week of classes in fall or spring semester or the equivalent date in each summer session*). A template (https://curricula.unc.edu/wp-content/uploads/sites/1311/2023/04/Template-Adapted-for-Use-in-the-College-of-Arts-and-Sciences_Fillable.pdf) for such a learning contract is available online. Students are strongly encouraged to begin this process early, well before the beginning of the semester.

This policy is maintained by the College of Arts and Sciences and Educational Policy Committee. Last revised November 28, 2017. See also Resolution 2012-12 (<https://facultygov.unc.edu/wp-content/uploads/sites/261/2011/03/Res2012-12OnIndependentStudyFinal.pdf>), Resolution 2013-6 (<https://facultygov.unc.edu/wp-content/uploads/sites/261/2011/03/Res2013-06OnIndependentStudyTFReportFinal.pdf>), and the University's independent study policy.

Semester Schedule

UNC–Chapel Hill awards course academic credits on a semester credit hour basis and primarily operates on a semester based academic calendar. The University's main academic calendar is divided into fall and spring semesters with standard course meetings within a 17-week terms and programs following this calendar require consecutive enrollment

in these semesters. The University's main academic calendar also covers summer terms and Summer School typically offers two sessions of five weeks each, a three-week Maymester, and other short courses with various beginning and ending dates. For specific dates, see the University's Academic Calendar (<https://registrar.unc.edu/academic-calendar/>).

Registration, Enrollment, and Withdrawal

Registration General Policies

UNC–Chapel Hill students use the ConnectCarolina Student Center to register for courses. Students should refer to the Registration Guide (<http://registrar.unc.edu/guide/>) on the Office of the University Registrar's website for instructions regarding registration and the University's policy (<https://registrar.unc.edu/university-policy-memorandums/>) on registration.

Students who register during the billing period must pay tuition and fees, or give notice of anticipated aid, to the Office of Student Accounts and University Receivables by the published tuition and fees due date or their schedule will be cancelled and all their classes dropped before the beginning of classes. Students who register after the billing period must pay estimated tuition and fees or give notice of anticipated aid before they can register for that semester. Students who register after the date designated for official registration must pay an additional fee of \$20.00 for late registration. If the delay results from circumstances clearly beyond the student's control, an appeal may be made in writing to the registrar. The appeal must show sufficient justification for the delay and has to be approved by the dean of the school in which the student is enrolled. In the College of Arts and Sciences, dean's office approval is granted by the associate dean for academic advising or their designee. Students should refer questions to UNC Advising.

North Carolina law requires that no person shall attend a college or university in North Carolina without presenting a certificate of immunization to the college or university on or before the first day of matriculation. This certificate indicates that the student has received immunizations required by law. New students at UNC–Chapel Hill must provide the director of Campus Health Services with an immunization record certified by a physician. Students who fail to present the required certificate of immunization within 30 days of enrollment will be withdrawn from the University. Their enrollment will not be reinstated until they have provided a certificate of immunization to Campus Health Services.

Registration for credit for any course at the start of the semester is limited to the first five days of classes unless a late registration is approved by the course instructor and the student's dean or academic advisor. Any student who has not registered for courses after the primary billing date will be restricted from accessing the registration system for that term and will be required to submit a prepayment. For more information, please see "Course Schedule Changes" below.

Registration Advising for First-Year Students and Sophomores

All first-year students and sophomores are assigned a primary academic advisor with UNC Advising in the College of Arts and Sciences but may see any advisor as appropriate. Advisors' names and office locations

(<http://advising.unc.edu/see-an-advisor/>) are posted on the web. First-year students must meet with an advisor for registration advising at least once during their first year before registering for their third semester on campus; an online module to assist students with registration, policies, and procedures is also available. All students are strongly encouraged to review their Tar Heel Tracker each semester and regularly meet with an advisor to ensure that they remain on track to graduate.

Advisors will answer students' questions and review their tentative course selections to help students achieve appropriate academic progress. In subsequent semesters, students are encouraged to discuss academic progress with their academic advisor. Students should follow instructions received from the Office of the University Registrar, which may be accessed by logging on to ConnectCarolina.

Registration Advising for Juniors and Seniors

Juniors and seniors receive academic advising during registration periods according to the directives set out by their college/professional school and major. Juniors who have not yet declared a major must meet with an advisor in UNC Advising before registration.

The department or curriculum in which the student's primary major is housed determines the procedures juniors and seniors must follow for registration. In some cases, the student must meet with a faculty advisor in the department or curriculum of the primary major before being able to register each semester. These advisors answer questions specific to the major and about graduate and career opportunities in the field.

Students admitted to a professional school will receive advising and assistance on all academic matters from an advisor in their school.

Academic Level (Class Standing)

All students who begin their undergraduate careers at UNC–Chapel Hill are considered first-year students for the first and second semesters. In their third semester and thereafter, a student's classification (sophomore, junior, senior) is determined by the cumulative number of credit hours earned:

- 1–29 credit hours earned: first-year student
- 30–59 credit hours earned: sophomore
- 60–89 credit hours earned: junior
- 90+ credit hours earned: senior

Registration Priority

A student's first available date for registration (registration priority) is based on the number of earned credit hours (excluding in progress credits and test credits) and the number of semesters completed.

By policy of the Faculty Council (Resolution 2007–3), the University limits students to eight semesters of full-time study. Transfer students who transfer in the UNC–Chapel Hill equivalent of two or more semesters (see "Calculation of Transferred Semesters Based on the Number of Transfer Hours") may enroll in up to 10 total semesters (Resolution 2017-1 (<https://facultygov.unc.edu/wp-content/uploads/sites/261/2017/01/Res201701OnMultipleAreasofStudy.pdf>)). To help ensure graduation within the eight-semester limit, students' registration priority will include the number of semesters completed in the calculation.

Terms in residence are tallied in three ways:

1. UNC–Chapel Hill full-time enrollment
Regardless of the number of credit hours, any fall or spring semester of enrollment in UNC–Chapel Hill courses (including UNC–Chapel Hill

study abroad courses, but excluding Carolina Courses Online) counts as one semester of full-time study, unless the student is enrolled as a part-time degree-seeking student. (Summer sessions at UNC–Chapel Hill do not count as semesters.)

2. UNC–Chapel Hill part-time enrollment

Each full multiple of 15 cumulative credit hours earned at UNC–Chapel Hill in fall or spring terms (not summer terms) counts as one semester of full-time study for any student enrolled as a part-time degree-seeking student.

3. Transfer credits awarded for courses taken at other colleges

Each full multiple of 15 cumulative transfer-credit hours counts as one semester of full-time study. Excluded from this calculation are transfer hours awarded for courses taken either concurrent with high school or during any summer term after the student has matriculated at UNC–Chapel Hill.

Students may refer further questions to the Academic Advising Program (if the student is in the College of Arts and Sciences) or to their respective dean's office.

Repeating Course Enrollments

A student who proceeds with enrollment in a course not designated as repeatable can only earn credit once toward the fulfillment of the University's minimum undergraduate degree requirement. The credit is earned from the course with the highest passing grade or, if grades are the same, the latter attempt. The grades of all attempts of the course, however, are computed in the student's cumulative grade point average.

Certain University courses (e.g., applied music, special topics, undergraduate research, etc.) may be taken more than once for credit and are so designated in the course catalog as repeatable. A particular physical education activity (PHYA) course may be taken more than once, so long as a different level of the same course (beginning, intermediate, and advanced) is taken during each separate enrollment. PHYA courses do not award academic credit hours toward an undergraduate degree, but the grade is factored into the cumulative grade point average. Students may enroll in no more than one lifetime fitness (LFIT) course, and only one LFIT course will count toward academic credit hours for an undergraduate degree.

For the purposes of receiving financial aid, hours for repeated courses will only be considered a part of the total upon which awards are based if:

1. the student is repeating a course previously failed, or
2. the course is the **first** repeat of a prior course in which a passing grade (D or higher) was received.

Maintained by the Educational Policy Committee. Last approved on April 21, 2017, see Resolution 2017-6 (<https://facultygov.unc.edu/wp-content/uploads/sites/261/2017/04/Res2017-6RepeatingCourseEnroll.pdf>).

Cancellation of Enrollment

A cancellation of enrollment is, in effect, the same as a student not registering. Classes are not reflected on the student's transcript, and no tuition and fees are charged. If a student registered for classes a cancellation is only applicable if there no documentation of student attendance or for the following administrative reasons. A registration cancellation will be processed for any student who has a "hold" on the tuition and fees due date for each term, and students will be notified. A cancellation will be processed if a student is not cleared financially; is not academically eligible to continue in school; or shows a cashier's hold, Office of Undergraduate Admissions hold, dean's office hold, or Campus

Health Services cancellation hold. In some cases, a student may request to cancel his or her registration for personal reasons and may do so by following instructions (<https://registrar.unc.edu/term-cancellation/>) listed on the Office of the University Registrar's website. To request a cancellation after classes begin, however, students must process the cancellation through their academic advising dean's office. Students may refer further questions to UNC Advising (if the student is in the College of Arts and Sciences) or to their respective dean's office. For more information also see the sections on withdrawing from the University.

Administrative Changes to Course Registration

Students have the responsibility to maintain the accuracy of their course schedule. A department or curriculum in the College of Arts and Sciences has the option to drop a course from a student's registration if the student fails to attend both of the first two class meetings (or the first class meeting if the course meets only once each week). The appropriate dean's office will be responsible for informing departments of students who cannot attend the first two class meetings because of illness or other reasons approved by a dean. Students should never presume that an instructor or department/curriculum will systematically drop classes from the student's schedule. However, if such an action is taken by a department/curriculum, the registration openings resulting from these drops will be offered to other students seeking enrollment in the courses during the official add period (first five days of classes) or thereafter, as determined by the instructor of the class or by the department, curriculum, or school.

Departments/curricula can drop students' courses using the computerized registration system prior to the last day to reduce a course load for financial credit. To effect such a drop after that date but before the end of the eighth week, a student can drop the course through ConnectCarolina. (See "Course Schedule Changes" below.) Students who have applied for graduation and who have requested an academic underload must have that request approved to receive financial credit for reducing their course load.

Auditing Courses

To audit a class, registered students and persons not registered must obtain a registration/drop/add form from the teaching department offering the class. Permission from the class instructor and the department chair is required and should be indicated on the form with a written signature. This procedure applies to fall, spring, and both summer terms.

Requests to audit a class may be submitted only after the end of the official registration period (last day for students to add a class or late register) when it has been determined that there is still space available in the class. This date can be found on the University Registrar's Calendar (<http://registrar.unc.edu/academic-calendar/>) for the specific term.

Auditing classes is permitted only in lecture-based courses and never in courses that include laboratories or performances. Auditing is not permitted in courses that focus on the development of written or oral communication skills or that rely heavily on class participation. Auditing is not permitted in independent studies courses, internships, special topics, directed readings, or similar courses. Auditing is also not permitted in classes that are offered primarily online. Students may not audit courses offered through Digital and Lifelong Learning (Part-Time Classroom Studies, Carolina Courses Online, Self-Paced Courses, or tutorial programs) or courses preparing students for credit by examination.

Students auditing a course do not write papers, take quizzes or examinations, or request review of their work, and do not participate in class discussions unless otherwise directed by the course instructor. Students who audit a course may not subsequently receive course credit for that course. Additional information on the University's policy on auditing (<http://registrar.unc.edu/academic-services/policies-procedures/university-policy-memorandums/upm-9-auditing-courses/>) is available online.

Students officially registered for other classes in the same term may audit a class without paying a fee. Persons not registered for classes must pay a \$20.00 fee per class to the Office of Student Accounts and University Receivables, then bring the permission and receipt to the Office of the University Registrar to complete the process. Payments will only be accepted after the end of the official registration period. Effective fall 2017, individuals age 65 or older may audit a class without paying a fee.

If requested, a copy of the registration transaction will be given to the student to provide to the class instructor at the beginning of the term.

Changes in Fall and Spring Semester Schedules

Continuous Course Enrollment: Foundations English Composition and Foreign Language Requirements

Effective in fall 2012, students admitted as first-year or as transfer students are required to complete ENGL 105/ENGL 105I (ENGL 100 and ENGL 105/ENGL 105I, if applicable) during their first year, and they must maintain continuous enrollment in Foundations global language courses until they have completed this requirement. Students are not permitted to drop ENGL 100, ENGL 105/ENGL 105I, or global language levels 1 through 3 being used to fulfill the Foundations requirement after the second week of the semester, unless approved by a dean in the Academic Advising Program. Such approval will be for exceptional circumstances only. Students should not stop attending English composition and rhetoric and Foundation global language classes without speaking with a dean in the Academic Advising Program.

Course Schedule Changes

Insofar as possible, changes in course registration schedules should be made during the first five days of classes. During this time, students may add courses using the online registration system. During days six through ten of classes, students must obtain permission to register or make additions to their schedule from the course instructor; if approved, the academic department, curriculum, or school will add the student through the computerized registration system. After the tenth day of classes, if students wish to register or make additions to their schedule, they must obtain a registration/drop/add form from their academic advisor, the concerned department, or their professional school and must obtain the signatures of both their instructor and their school dean (or dean's designee). For students in the General College and the College of Arts and Sciences, only the associate dean for advising (or dean's designee) has this authority. After the tenth day of classes, deans (or deans' designees) will approve only those registrations or course additions that have first been approved by the instructor. Approval of additions to a student's schedule during this period is at the deans' (or the deans' designees') discretion.

Course Schedule Changes during Weeks One and Two

During the first two weeks of classes, students may drop a course using the online registration system, but they are responsible for ensuring

that their schedules do not fall below the minimum 12 academic hours required for full-time registration.

Course Schedule Changes during Weeks Three through Eight

When a course is dropped between the second and eighth week of classes, a notation of W (withdrawn) is entered in the grade column of academic transcripts and a notation of WC (withdrawal by choice) shall be recorded. The WC notation is used internally for tracking and reporting purposes. For external purposes, the WC notation is equivalent to the W grade. Once declared, a WC notation cannot be rescinded except when a student withdraws from an entire semester due to extenuating circumstances. All first-year, first-time students entering the University in fall 2014 or thereafter are allowed to accumulate no more than 16 hours of WC notations during their undergraduate career.

Course Schedule Changes after the Eighth Week of Classes: The Appeal Process

After the eighth week of classes, students must petition to drop courses through the dean's office of the school in which they are enrolled. For students in the General College and the College of Arts and Sciences, the associate dean for advising (or designee) has this authority.

To drop a course after the eighth week of classes, students must complete and submit an appeal to the appeals committee of their college or school. In the General College and the College of Arts and Sciences, an appeals committee meets weekly (except the week of July 4 and Christmas). Possible legitimate reasons for requesting a course drop after the eighth week of classes include serious illness, personal or family problems, financial problems requiring employment after the start of the semester, or other compelling and extenuating circumstances that prevent students from meeting their academic responsibilities.

Students must first discuss their reasons for requesting a late course drop with an academic advisor or their academic dean. The advisor or dean will explain the process for an appeal and refer the student to the online information and link to the online appeal form. The appeal must include a statement from the student and pertinent documentation that provides compelling support for the appeal. The student must submit all documents online to the office of the associate dean for advising in the Academic Advising Program of the College of Arts and Sciences and General College. *Submission of an appeal does not ensure that the request will be granted, and students must continue to attend classes and complete all assignments until informed of the committee's decision.* If a course drop is approved, the registration/drop/add form is processed through the Office of the University Registrar.

Students enrolled in professional schools should acquaint themselves with the appropriate appeals procedures in their schools.

The notation of W (withdrawn) is entered in the grade column of academic transcripts if students are permitted by their school to drop a course after the eighth week of classes or proportional equivalent for summer terms and other nonstandard enrollment periods. This notation is automatically entered.

Interinstitutional Registration

A student regularly enrolled in a degree program at the University may enroll by interinstitutional registration for a course at Duke University, North Carolina Central University, North Carolina State University, the University of North Carolina at Charlotte, or the University of North Carolina at Greensboro under the following conditions:

- Space must be available in the course.
- The student's advisor as well as their academic advising dean's office must certify
 - a. that the course is appropriate for the student's degree program, and
 - b. that an equivalent course is not available at this university during the same term.
- Enrollment in interinstitutional registration is limited to one interinstitutional course per regular term, provided that the student is registered for the balance of her or his full-time load at UNC–Chapel Hill. All enrollment transactions must be processed by the Office of the University Registrar.
- A student will be billed by his or her home institution for all the courses taken (including interinstitutional courses) at the prevailing tuition rate. The University of North Carolina at Chapel Hill will receive no fees from an interinstitutional student taking courses at this campus unless there is a special fee associated with a particular course. In such a case, the student must pay the fee.
- The last day for a student to submit an interinstitutional request to the Office of the University Registrar will be the last day to add a course without departmental approval, according to the registrar's calendar. If a student is interested in a course that begins after this deadline, due to differing university schedules, or separate modules that the course is being offered in, the deadline will be the fifth day after the start of that class. Start dates will be verified with the school offering the course.
- Students must comply with the academic calendar of their home institution for all dates, such as deadlines for adding and dropping courses.
- A student taking a course by interinstitutional registration will be graded in the course in accordance with the grading system of the institution where the course is taken, and grades will be converted in accordance with the grading system of the home institution. The transcript will identify the institution where the course was taken in the space where the descriptive course title is normally shown.

Additional information (<https://registrar.unc.edu/interinstitutional-programs-visiting-students/>), procedural instructions, and forms are available at the Office of the University Registrar's website.

Academic Course Load

Fall and Spring Semesters

To meet the minimum graduation requirement of 120 academic hours within the eight-semester limit, students should average 15 hours each semester. However, four-hour foreign language courses and four-hour laboratory science courses often account for course loads of 16 to 18 hours. Students may not enroll in more than 18 academic hours unless they have earned a 3.000 grade point average in the preceding regular semester and have a cumulative 2.500 grade point average. Exceptions require the approval of the student's dean. With approval of their dean, seniors meeting graduation requirements during their final semester in residence may enroll in up to 21 academic hours if they have a cumulative and preceding semester grade point average of 2.000. In the College of Arts and Sciences, dean's office approval is granted by the associate dean for academic advising or their designee. Students should refer questions to UNC Advising.

The minimum course load for a single semester is 12 academic hours. Students may not go below the 12-academic-hour minimum without permission of their dean. All students should discuss semester

enrollment of fewer than 15 academic hours with their advisor because such enrollments may affect academic eligibility and the ability to complete all degree requirements in the required eight semesters.

The approved maximum course load for students in a part-time program is eight credit hours in a fall, spring, or summer term.

Summer School

The summer term begins with the first day of Maymester and continues through the last day of the Summer Session II. Administered by Summer School, summer courses are offered in two sessions (Summer Session I and Summer Session II), with a Maymester period overlapping the first three weeks of Summer Session I. For UNC–Chapel Hill students, credit hours and grades count the same as in fall or spring terms. For visiting students, transfer of grades or credit is determined by their home institution.

The typical full course load is two courses, usually six credit hours. However, effective Summer 2021, students may enroll in up to nine credit hours each in Summer Session I and in Summer Session II. It is recommended that, if students enroll in a Maymester course, they not enroll in a second Maymester or Summer Session I class.

Withdrawal

After the term start, students withdrawing from the University should submit an official withdrawal request through their ConnectCarolina Student Center to start the process (see sections on medical and academic withdrawal below) before the end of classes during a semester or summer session. Students in attendance considering withdrawal should contact their academic advising dean's office, Campus Health Services, or Counseling and Psychological Services for additional information. Official term withdrawal from the University is required if a student wishes to drop all classes after a semester begins. An official withdrawal may facilitate readmission in a future term. Leaving the University without completing the official withdrawal process can result in the assignment of final class grades computed as failing in establishing grade point averages and possibly rendering a student academically ineligible. Enrolled students who do not withdraw officially will be responsible for the full tuition and fee payments associated with enrollment for the entirety of the semester.

Medical Withdrawal

If a student decides to withdraw for reasons of illness, either physical or psychological, the student should contact Campus Health Services or Counseling and Psychological Services, whether the treatment was received there or elsewhere. If a medical withdrawal is authorized, the official withdrawal will be handled through the Office of the Director of Campus Health Services or Counseling and Psychological Services.

Administrative Withdrawal

A student who is withdrawn for disciplinary purposes must comply with the specific requirements or conditions outlined by the adjudicating body (e.g., Honor Court, Emergency Evaluation and Action Committee, etc.) prior to readmission. Unless specified by the adjudicating body, the term(s) in which disciplinary suspension is active shall not be calculated in the four academic year degree credit hour equivalency. Preclearance from the adjudicating body may be required in certain cases.

Military Withdrawal

In compliance with the UNC System Regulation for Military Student Success (<https://www.northcarolina.edu/apps/policy/doc.php?id=852>),

military-affiliated students who withdraw from the University for military service, also referred to as "called to duty", receive a notation on the academic transcript for the term withdrawal and where appropriate a special use grade symbol of WM instead of W for enrolled courses. Students are verified by the Dean of Students or designee that they are required to withdraw from a course or courses due to military service. This applies to all military-affiliated students across all careers and programs who in extraordinary circumstances are "called to duty" and are not otherwise eligible to complete academic courses for the semester (e.g., Instructor approved IN).

Academic Withdrawal from All Courses

If a student decides to withdraw for reasons other than health related, or if a withdrawal cannot be authorized through Campus Health Services or Counseling and Psychological Services, the student should submit an official withdrawal request through the ConnectCarolina Student Center. In determining an undergraduate student's eligibility for readmission the following conditions apply:

- For students who officially withdraw from the University after the second week of a fall or spring semester, a grade of W is assigned to each course the students were enrolled in at the time of withdrawal.
- Students who officially withdraw from the University are assigned a semester in residence if their withdrawal is initiated before the end of classes during a fall or spring semester.
- Withdrawal from a summer session is not counted as a semester in residence. If the withdrawal is initiated after the drop deadline during a summer session, a grade of W is assigned to each course that the student is enrolled in at the time of withdrawal. The credit hours associated with the withdrawal will count as attempted but not passed hours in the determination of the student's academic eligibility.
- Students enrolled as summer session visitors from schools outside UNC–Chapel Hill must withdraw through the Office of the Dean of Summer School.
- If a student completes an official withdrawal or is withdrawn administratively for any reason from a fall or spring semester, tuition and fees will be prorated over a period of nine weeks at a rate of one-tenth of the semester's bill, after deducting an administrative charge. The last date for credit on a student's financial account for withdrawal is nine weeks after registration. If a student completes an official drop from a summer class within the first three days of classes for the session, tuition and fees will be prorated.
- If a student withdraws from the University during a semester and receives financial aid funds prior to the date of withdrawal, a portion of that money will be returned to the aid program(s). The repayment will be calculated by the Office of Scholarships and Student Aid when the official withdrawal is noted within the ConnectCarolina system.

Retroactive Withdrawal

- Students may request a retroactive term withdrawal from a semester or summer session under extraordinary circumstances. Such requests must be made in writing to the appeals committee of the college or school in which the student is currently enrolled. The decision of that appeals committee is final. If the retroactive term withdrawal is approved, the effective date of this action is always the last day of classes in the term or session. No refunds are ever provided when a retroactive withdrawal from a semester or summer session is approved.

Loan Deferments and Certification/ Verification of Enrollment Status

The Office of the University Registrar provides confirmation of student enrollment data to financial institutions, organizations, or agencies requiring proof of registration. Students can order an enrollment certification online through their ConnectCarolina Student Center. Additional information about ordering a certification (<https://registrar.unc.edu/order-an-enrollment-certification/>) is available online or by calling (919) 962-3954.

Student Code of Conduct

Purpose

The University of North Carolina at Chapel Hill is committed to fostering a community where intellectual honesty and personal integrity are highly valued; individuals are trusted, respected, and fairly treated; and there is consistent accountability for conduct that affects the safety and welfare of the University and its members. The Code embraces the ideals of academic honesty, personal integrity, and responsible citizenship.

For More Information

Visit the Student Code of Conduct website (<https://studentconduct.unc.edu/student-code-of-conduct-2/>) and the University's policy page on the Code (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=152440>).

The Instrument of Student Judicial Governance is superseded by the Student Code of Conduct (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=152440>) and Student Conduct Procedures (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=152518>) effective August 16, 2024. Conduct occurring prior to this effective date will be referred through the Honor System and Honor Code process for resolution, as reflected under "Implementation and Effective Date" within the Student Conduct Procedures.

Syllabi and Classroom Learning Environment

Policies and Guidelines for a Cooperative Learning Environment

Teaching and learning occur simultaneously through a partnership between instructor and student. Instructors share knowledge, experience, and ideas with their students. Students process these thoughts, generate new ones, and share them with their teachers and classmates. In most cases, students and instructors communicate clearly and effectively. However, misunderstandings do occur. In an attempt to foster a positive academic environment, the Faculty Council, upon recommendation of the Educational Policy Committee, establishes the following policies and guidelines.

The Faculty Council resolves:

Part I. Policies

Section 1.

The Faculty Council recognizes and affirms the following policies. This recognition is not to be interpreted as precluding modification of any policy by the appropriate authority.

- *The Honor Code*. The faculty should inform students of the provisions of the honor code and be aware of their own responsibilities specified in the honor code. Faculty responsibilities are stated in the *Instrument of Student Judicial Governance*.
- *Student Grievance Policy and Procedures*. According to UNC–Chapel Hill Student Grievance Committee procedures, students may file a grievance against a UNC–Chapel Hill employee, including faculty, EHRA non-faculty, staff, and student employee (when acting in the role of employee) when there is a violation of one of the following:
 - a. The UNC–Chapel Hill Policy on Prohibited Discrimination, Harassment and Related Misconduct, Including Sexual and Gender-Based Harassment, Sexual Violence, Interpersonal Violence and Stalking (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=132487>);
 - b. The Americans with Disabilities Act (<https://www.ada.gov/>);
 - c. Title IX (<http://eoc.unc.edu/our-policies/state-and-federal-laws/title-ix-and-vawa/>), which prohibits exclusion from participation on the basis of sex;
 - d. Section 504 of the Rehabilitation Act of 1973 (<https://compliance.unc.edu/access-and-accommodations/student-accommodations/>), which outlaws discrimination on the basis of a handicap; or
 - e. The Family Educational Rights and Privacy Act, which allows students to challenge the content of their educational records.

Copies of these policies can be obtained from the Office of the Dean of Students (<https://odos.unc.edu/>). They contain information about how to file a grievance. A grievance based on incidents that occurred more than six months before the complaint was filed will not be considered.

- *Student Access to Academic Records—Protection against Improper Disclosure*. As stated in The Family Educational Rights and Privacy Act of 1974, students may have access to their full academic records. Individuals who are, or have been, in attendance at UNC–Chapel Hill may inspect and review their education records. Otherwise, education records are subject to confidentiality requirements as specified by law and may not be disclosed improperly. Requests for recommendations imply that the student has given consent to the disclosure of information related to ability and performance. Judgments of ability and character may be provided under appropriate circumstances, normally with the knowledge or consent of the student. “Education records” are those records directly related to a student that are maintained by an educational institution. Particular University policy provisions are found in the *University of North Carolina at Chapel Hill’s Policies and Procedures under the Family Educational Rights and Privacy Act of 1974*.
- *Appealing a Grade*. The University has systems for appealing a grade. The exact procedures vary among the academic units. Students should consult with their dean or department chairperson to obtain information about grade appeal procedures. See the section on “Grade Appeals” (p. 762) in this catalog.

Part II. Guidelines

Section 2.

The Faculty Council endorses the following guidelines for the faculty-student relationship. This endorsement shall not be construed as faculty legislation, is not intended to establish a contractual undertaking by the University or any individual, and shall not constitute the basis for civil

action in a court or a claim in any administrative or judicial body of the University of North Carolina at Chapel Hill.

- *Clear Definition of Potential Honor Code Violations*. In an attempt to avoid unintended misunderstanding, instructors should clearly state what is acceptable in their classes. When study aids such as computers are allowed, the instructor is responsible for explaining what constitutes proper use of these items. These rules should be established at the beginning of the course and should not be changed without giving students proper notice.
- *Assignment of Graded Work during the Last Week of the Semester*. Instructors may not assign graded work during the last week of classes unless the course syllabus clearly states that such an assignment will be given.
- *Suggested Classroom Procedures*. In general, instructors are strongly encouraged to follow the guidelines for course design and classroom procedures recommended by the Center for Faculty Excellence. When students enter into a learning relationship, they have certain needs and expectations. They are entitled to information about course procedures, attendance policy, content, and goals. Instructors should provide a syllabus that describes the course and methods of evaluation. Particular attention should be paid to several areas of special concern to students, including provision of reserve readings and grading policy. Evaluated assignments should be returned to the students within a reasonable amount of time. Since part of the purpose of such assignments is to provide feedback, students should be given time to assess and to learn from their mistakes. Ideally, such assessment would take place while the relevant topics are still fresh in their minds. Extra credit, if offered, should be announced publicly and made available to the entire class.
- *Students Should Have Freedom of Expression*. Students should be free to take reasoned exception to the data or views offered in any course of study. They are responsible, however, for learning the content of any course of study in which they are enrolled. Incorrect facts and poorly supported arguments or opinions inevitably have an impact on grades. Nothing herein shall be construed to limit the freedom of the faculty to assign grades according to appropriate academic standards.
- *Responsibilities of Students and Teachers*. Just as students ought to expect instructors who are knowledgeable and well-prepared, so should teachers expect their students to be motivated, eager to learn, and actively engaged in class. It is the responsibility of teachers to make their courses serious intellectual experiences for themselves and for their students. It is the responsibility of students to take seriously the courses in which they enroll. Good teachers need good learners.

Students should understand that they are members of a community of scholars, and membership in such a community is not a passive activity. To be full participants in the educational community and to maximize the educational value of a class, preparation before class is necessary. Proper class preparation involves obtaining course materials as they are needed and completing assignments as they are due. Full participation in a class requires regular attendance, arriving on time and remaining until class conclusion, and active involvement in the work of the class. Students should also consider the extent of their own involvement in a class in assessing the educational value of the class.

Recording Classes Best Practices

The following information was posted to the Catalog on 8/18/2020 and distributed to faculty, instructors, and teaching assistants. The recommendations were developed by the Office of the Executive Vice Chancellor and Provost.

1. Indicate on syllabi and on the departmental learning management system or website that classes may be recorded, noting that recordings will only be made available to students enrolled in the classes recorded.
2. When practicable, notify students and any guest speaker when a class is actually recorded. This notification may be provided verbally by the instructor or electronically through the online learning management system or telecommunication service used. It is advisable to make a more substantial notice during one of the initial classes, and then simply have a way to note that the class is being recorded during other classes in a more routinized way.
3. Ensure recordings are only made available to the students enrolled in the classes recorded. A recorded classroom lecture should not be used for any purpose except to meet the educational objectives of that particular class. Should the department or instructor wish to use recordings for any other purpose, the department should contact the Office of University Counsel.
4. Prohibit students from making individual recordings of the class in any format without prior consent from the instructor and the school or department.
5. Prohibit students from sharing or distributing recordings obtained from the University or elsewhere.
6. Develop processes for how your department will record, store, and distribute such recordings.
 - Consider whether to encourage or require all faculty to record all classes routinely.
 - Consider whether certain classes include student discussion of sensitive or personal topics that may require further controls on recording.
 - Consider recording options that best protect students' privacy (e.g., if practicable depending on the mode of instruction, audio-only recording or video that only displays the instructor and class materials without showing students' faces).
 - Consider IT security practices and ways of providing recordings to students that minimize the risk of further disclosure (e.g., providing a non-downloadable version on the learning management system rather than sending it as an attachment in an email).
 - Consider the process and specific circumstances by which enrolled students may make requests to record the class privately. Consider limiting student recordings to audio-only recordings.

Example Language for Syllabus or Other Communication to Students

The University may record meetings of this class for educational purposes. These recordings will be shared only with students enrolled in the course for purposes of academic instruction only. Your instructor will communicate to you how you may access any available recordings.

Unauthorized student recording of classes on personal devices or on any other format is prohibited.

Students requesting the use of assistive technology as an accommodation should contact Accessibility Resources & Service

(<https://compliance.unc.edu/access-and-accommodations/>). Other students must obtain express permission from the department to record the class, and the University will only grant such permission in extraordinary circumstances in which the student otherwise lacks access to a recording made by the University or instructor. Students shall not copy, reproduce, or distribute any recordings of their classes, and students shall delete any recordings at the conclusion of the course.

Any violation of these prohibitions or restriction on the making, use, copying, or distribution of recording of classes shall constitute an honor code violation.

Example Language for Instructor

This class is being recorded for educational purposes only, and the recordings may only be made available to students enrolled in this class. Any use of a recording of this class by a student shall be for educational purposes only. Students may not record this class on their own, in any format, without prior express authorization from the University and may not copy, reproduce, or distribute any recording that they access.

Undergraduate Syllabi

UNC-Chapel Hill follows the UNC System policy for course syllabi (<https://www.northcarolina.edu/apps/policy/doc.php?id=3559>). Syllabi are developed by the instructor and are required to include sufficient detail to inform students of the course and instructor's expectations for the class. All syllabi, at a minimum, must include the following information:

- Course number and title.
- Course description.
- All goals, objectives, student learning outcomes, and/or student expectations for the course.
- An explanation of how student performance will be assessed, including the grading scale, percentage breakdown of major assignments, and how attendance or participation will affect a student's final grade.
- List of all course materials (physical and/or electronic) that students are required to purchase.
- A statement noting that the course engages diverse scholarly perspectives to develop critical thinking, analysis, and debate and inclusion of a reading does not imply endorsement.
- A statement noting that the instructor reserves the right to make changes to the syllabus including project due dates and test dates. These changes will be announced as early as possible.

Conferral of Degrees and Transcripts

Conferral of Degrees

The University of North Carolina at Chapel Hill confers degrees three times a year, each May, August, and December, to students who have completed all degree requirements. Students must apply to graduate on a degree award date through ConnectCarolina no later than the last day of classes of that term.

A degree cannot be awarded to a student who does not meet requirements by the conferral deadline, such as:

- Has any temporary grade on their academic record; this includes but is not limited to non-permanent grades: AB, IN, NG, NR, SP.

- Has pending credits to be approved and posted to their academic record (even if not required for graduation); this includes but is not limited to:
 - Credit earned while studying abroad
 - Transfer credit
 - Interinstitutional credit
 - Robertson Scholars credit
 - UNC Online credit

Students with temporary grades or pending credits not resolved within 60 days of the degree award date must request a subsequent graduation. The degree is conferred following completion of requirements at a later date. A degree will not be awarded retroactively.

Adjustments may be made to a transcript only for one year following the date of graduation. For instance, grade appeals can be initiated after graduation. However, graduation with distinction or highest distinction is based only on the grade point average at the time that the degree is conferred. In such indications of a second major or minor can be added to the transcript within one year after the degree conferral date for students who neglected to declare a second major or a minor prior to graduation, provided that all requirements were completed at the time of graduation.

Transcripts of Record

A statement of official academic record includes all significant recorded information concerning the student's admission, classification, and scholarship. No partial or incomplete scholastic record will be given.

The student's transcript notes his or her academic eligibility status. A statement of honorable dismissal will not be granted to students whose conduct and character would not entitle them to remain enrolled at the University or whose transcripts contain a notation of any probation, suspension, or other temporary restriction imposed for unsatisfactory conduct and still in force when the statement is made.

The University does not release an official transcript unless tuition, fees, and other obligations due the University have been paid. Students may order a transcript electronically through the link in their ConnectCarolina Student Center. This process provides an electronic authorization that allows the Office of the University Registrar to release the transcript at the student's request. Students may inspect their academic records at the Office of the University Registrar, Student and Academic Services Building North. For more information on how to request a transcript, please visit the Office of the University Registrar's website (<http://registrar.unc.edu/academic-services/transcripts-certifications/order-a-transcript/>).

Policy on Awarding of Undergraduate Degrees and Transcript Notations

The University of North Carolina at Chapel Hill will award only one bachelor's degree to a student, regardless of a possible second-major declaration, and will not award a degree to a student who has already earned a bachelor's degree through another school of the University or at another college. Undergraduates in professional schools may earn a second major (not a second degree) in the College of Arts and Sciences or another professional school, but the first major must be in the professional school. Exception: After receiving a bachelor's degree a student may be admitted to and earn a second bachelor's degree from one of the health profession schools at the University. Under no

circumstances can a second undergraduate degree be awarded after one has been earned in one of the health professions.

Students pursuing two major fields of study for the bachelor of arts or bachelor of science degree earn only one degree and receive only one diploma. Both the diploma and the official transcript will indicate the degree and the two majors.

Students completing the requirements for both a bachelor of science degree and a bachelor of arts degree earn only the bachelor of science degree and receive only that diploma. Students completing the requirements for both a bachelor of arts degree and a bachelor of fine arts or bachelor of music degree earn only the bachelor of fine arts or bachelor of music degree and receive only that diploma. Note that these students must complete General Education requirements pertinent to the bachelor of arts as well as all requirements for the bachelor of fine arts or bachelor of music degree. Both the diploma and the official transcript will indicate the degree (with its major) and the second major.

Related Policies

Under no circumstances can a second undergraduate degree be awarded in Academic Affairs after one has been earned in Health Affairs. In the rare instance that an undergraduate student completes the requirements for an undergraduate degree and a graduate degree at the same time, the two degrees cannot be awarded at the same graduation. The undergraduate degree must be awarded first, and the graduate degree awarded at a subsequent degree award date.

Students who apply to graduate on a given degree award date, but who must complete requirements (such as courses with grades of IN or AB) after that degree award date, must reapply to graduate on a degree award date that follows the actual completion of requirements. Coursework taken after the degree award date cannot be used to change a degree already awarded, or to complete retroactively a degree, or to add retroactively an additional major or minor.

Adjustments may be made to a transcript only for one year following the date of graduation. Grade appeals, for instance, can be initiated after graduation. Courses with temporary grades not affecting graduation (AB or IN) can be completed after the date of graduation and the grade point average changed accordingly; however, the student's status at the time of graduation is not affected. Graduation with distinction or highest distinction is based only on the grade point average at the time that the degree is officially conferred and posted on the academic transcript, and may not be awarded retroactively. Students who neglect to declare a second major or a minor at the time of graduation may request that the dean's office verify that the requirements had been satisfied at the time of graduation. In such cases, indication of the second major or minor can be added to the transcript within one year after the graduation date.

Posthumous and Memorial Degree

In the unfortunate event of a recently enrolled student death, the University may award a degree posthumously or a memorial degree of achievement to the next of kin of the decedent. The following criteria are used to determine awarding a degree posthumously and it is included in the official degree count. Detailed information on the criteria for awarding of a posthumous degree or memorial degree of achievement are in the University policy on Authorized Degrees.

Undergraduate Students

Upon the recommendation of the Dean of Students Office in conjunction with the dean's office of the student's academic college/school, a

posthumous degree may be awarded to a deceased undergraduate student if the student was in good academic standing and at least 90 percent of academic requirements for earning the degree are already completed. This is typically in the last two semesters or year of study for undergraduate degrees.

Graduate and Professional Students

Upon the recommendation of the Dean of Students Office in conjunction with the dean's office(s) of the student's academic college/school(s), a posthumous degree may be awarded to a deceased graduate or professional student if the student was in good academic standing and significant progress had been made toward academic requirements for earning the degree. For graduate and professional degrees this can vary but generally the following considerations apply:

- For degrees requiring a#research or other creative/practicum activity, the student must have#completed all course and other requirements pursuant to the degree and must#have been near completion of the dissertation/thesis/substitute product; and the student's committee#must have determined the scholarship to be substantial work and worthy of the#degree.
- For degrees requiring primarily coursework, at least 90 percent of academic requirements for earning the degree are already completed. This is typically in the last two semesters or year of study.

Memorial Degree of Achievement

If requirements for awarding the degree posthumously are not met, the University may issue a memorial degree of achievement. This is neither recorded as an official degree nor included in the official degree count. The Dean of Students Office, in conjunction with the academic college/school of the student, issues this memorial degree of achievement#to honor the memory of the deceased student's contributions to the UNC–Chapel Hill academic community.

Certificate of Achievement

In circumstances when awarding a degree is not appropriate, the University can issue a certificate of achievement recognizing a former student. The Dean of Students office determines if a situation warrants issuing this recognition. This is neither recorded as an official certificate nor included in the official certificate count.

Tuition and Benefits

Veterans' Educational Benefits

Students who expect to use their veterans' educational benefits must contact the Veterans' Services Assistant in the Office of the University Registrar, located in the Student and Academic Services Building North. Students must maintain satisfactory academic progress to be eligible for VA educational benefits. Students who are not eligible at the end of the term will not be eligible for veterans' educational benefits in subsequent terms until they regain their eligibility. For further information, please visit the Office of the University Registrar's web page on Veteran Affairs (<https://registrar.unc.edu/academic-services/veteran-affairs/>).

Military Tuition Benefit

As a member of the armed services, the North Carolina National Guard or a military dependent, if you do not qualify as a North Carolina resident for tuition purposes, you may still be eligible to pay a reduced tuition rate if you meet the eligibility requirements for the Military Tuition Benefit (N.C. General Statute 116-143.3).

Note: The benefit only determines the amount of tuition you pay. You must still qualify academically for admission.

For additional information about the UNC–Chapel Hill military tuition benefits, please see the Office of the University Registrar's web page on Active-Duty Military Benefits (<https://registrar.unc.edu/academic-services/residency/special-residency-provisions/military-benefits/>).

Residence Status for Tuition Purposes

Under state law, North Carolina residents are eligible for a lower tuition rate to state universities, including UNC–Chapel Hill.

In order to qualify as residents for tuition purposes, students must have established legal residence (or domicile) in North Carolina and maintained that legal residence for at least twelve (12) months prior to their classification as residents for tuition purposes. Each student is classified as an in-state or out-of-state resident upon admission.

If you believe that you qualify as a North Carolina resident for tuition purposes, you may apply for in-state resident status by following the instructions provided by your admissions office. Continuing students who believe they may now qualify as a resident for tuition purposes may apply through the North Carolina Residency Determination Service (RDS) (<https://ncresidency.cfn.org/>). For additional information about the UNC–Chapel Hill residency requirements and procedures, please see the Office of the University Registrar's web page on Residency (<https://registrar.unc.edu/academic-services/residency/>).

Tuition Waiver for Family Members of Deceased or Disabled Emergency Workers

The University of North Carolina Board of Governors adopted a system-wide policy (1000.2.1) that provides tuition waivers for certain family members of deceased or disabled emergency workers. For additional information about the UNC–Chapel Hill emergency worker tuition benefits, please see the Office of the University Registrar's web page on Emergency Worker Tuition Benefits (<https://registrar.unc.edu/academic-services/residency/emergency-worker-tuition-benefits/>).

Tuition Guarantee Program

Effective fall 2016, undergraduate students seeking a baccalaureate degree at UNC–Chapel Hill are eligible for fixed tuition as required by the North Carolina General Statute §116-143.9 and UNC Policy 1000.17, Policy for the Tuition Guarantee Program. Further information about the Tuition Guarantee Program can be found on the website for the Office of the University Registrar.

University Policies

Regulations and Policies

The University of North Carolina at Chapel Hill ("University" or "UNC–Chapel Hill") has established regulations and policies to promote a safe and supportive learning environment. These regulations and policies cover a wide range of non-academic issues. They explain expectations for students and establish procedures for addressing situations covered by their terms.

Authority for Student Affairs, Conduct, and Discipline at UNC–Chapel Hill

Section 502D(3) (<https://www.northcarolina.edu/apps/policy/doc.php?type=pdf&id=57>) of the University of North Carolina Code establishes that, subject to policies or regulations of the Board of Governors or the

Board of Trustees, UNC–Chapel Hill’s chancellor has full authority over student affairs and student conduct and discipline at the University. The chancellor may delegate this authority to faculty committees, administrators, or student government bodies as necessary. In fulfilling this responsibility, the chancellor must ensure that every student’s right to due process is protected.

Code of the University of North Carolina

Section 502D(3)—Subject to any policies or regulations of the Board of Governors or of the Board of Trustees, it shall be the duty of the chancellor to exercise full authority in the regulation of student affairs and student conduct and discipline. In the discharge of this duty, delegation of such authority may be made by the chancellor to faculty committees and to administrative or other officers of the institution, or to agencies of student government, in such manner and to such extent as may be by the chancellor be deemed necessary and expedient. In the discharge of the chancellor’s duty with respect to matters of student discipline, it shall be the duty of the chancellor to secure to every student the right to due process. Appeals from these disciplinary decisions are allowable only on the following grounds:

1. a violation of due process, or
2. a material deviation from the Minimum Substantive and Procedural Standards for Student Disciplinary Procedures, Section 700.4.1 of the UNC Policy Manual.

Where the sanction is expulsion, an appeal may be made to the Board of Trustees. No appeal to the president or Board of Governors is permitted.

Whistleblower Policy

The purpose of this policy is to encourage individuals to report possible wrongful conduct to an appropriate authority so that prompt, corrective action can be taken by the University and to protect reporting individuals from any retaliation for reporting wrongful conduct. Please see the full text of the Whistleblower Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131868>) on the University’s policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

Accommodations Policy

The University is committed to providing a welcoming environment for all members of our community. As part of this commitment, the University provides reasonable accommodations for disability, pregnancy, and related medical conditions, and sincerely-held religious beliefs and practices consistent with federal and state law.

This policy is grounded in the Americans with Disabilities Act of 1990, the Americans with Disabilities Amendments Act of 2008, Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, the PUMP for Nursing Mothers Act, the Pregnant Workers Fairness Act, and related state laws. Please see the full text of the Accommodations Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131715>) on the University’s policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

Religious Accommodation Policy

The University is committed to providing a welcoming environment that is respectful of the religious beliefs and practices of all members of the University community. As part of this commitment, the University will make good faith efforts to provide reasonable religious accommodations to individuals covered by this policy whose sincerely held religious beliefs and practices conflict with a University policy, procedure, or other academic or employment requirement unless such an

accommodation would create an undue hardship. Please see the full text of the Accommodations Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131715>) on the University’s policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

The University is committed to nondiscrimination and supports the employment of all qualified individuals, regardless of religious affiliation or beliefs. This commitment is in accordance with state and federal laws and regulations, including Title VII of the Civil Rights Act of 1964 and its accompanying regulations, as well as the Equal Employment Opportunity Commission’s Guidelines on Discrimination Because of Religion, and North Carolina General Statute § 116-11(3a).

Alcoholic Beverages

Federal, state, and local laws and ordinances substantially regulate the possession and use of alcoholic beverages. Within this legal framework, the University’s Alcohol Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=132458>) explains the conditions under which alcoholic beverages may be used on University property.

Consistent with North Carolina law:

- No person under 21 may purchase or possess any alcoholic beverage. (N.C. General Statute 18B-302)
- It is against the law for anyone to sell or give any alcoholic beverage to a person under 21 or to aid or abet such a person in selling, purchasing, or possessing any alcoholic beverage. (N.C. General Statute 18B-302)
- No alcoholic beverages may be sold by any person, organization, or corporation on a college campus except as permitted by N.C. General Statute 18B-1006 (a).

By Chapel Hill ordinance 3-3 (https://library.municode.com/nc/chapel_hill/codes/code_of_ordinances/?nodeId=PTIICO_CH3ALBE_S3-3POOPCOMABEUNWISTSIMUPALOANREESBUOWOCT)

it is against the law for anyone to possess any open container of alcohol on streets, sidewalks, alleys, or any other property owned or controlled by the Town of Chapel Hill.

The University’s Alcohol Policy sets out specific requirements relating to the service or use of alcohol by students and student organizations or in connection with University-sponsored events. The Procedure for Requesting Permission to Serve Alcoholic Beverages at University-Sponsored Events (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=138011>) describes how University departments and units may request permission to serve alcohol at University-sponsored events. The Student Conduct Procedures of the University of North Carolina at Chapel Hill describes the procedural rights, administrative processes, sanctions, and appeal process for students and student organizations accused of violating the University’s Alcohol Policy. The text of the policy and procedures can also be accessed on the University’s policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

Illegal Drugs Policy

The University’s Illegal Drugs Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=132140>) addresses education, counseling, and rehabilitation to help all members of the University Community avoid involvement with illegal drugs and promote a drug-free campus. The policy also describes enforcement and penalties, consistent with state and federal law, to eliminate illegal drugs from the University community. Please see the full text of the Illegal Drugs Policy on the

University's policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

Commercial Activities

Commercial exchanges, including selling or soliciting for the sale of goods or services by any person on the campus of the University, are prohibited except as described in the Facilities Use Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131343>).

Behavioral Threat Assessment

The Student Code of Conduct (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=152440>) and accompanying Student Conduct Procedures (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=152518>) regulate student discipline. The University must occasionally handle situations urgently when the behavior of students or applicants for admission poses some danger to the University and/or members of the University community. To address these situations and to fulfill the University's obligation to provide a safe campus, the University has adopted a Behavioral Threat Assessment Policy. Additional information may be found on the Dean of Students website (<https://dos.unc.edu/urgent-concerns/>). The full text of the Committee's policies and procedures is on the University's policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

Equity in Athletics Disclosure Act

The Equity in Athletics Disclosure Act (<https://www.ed.gov/laws-and-policy/higher-education-laws-and-policy/policy-initiatives/equity-in-athletics-disclosure-act/>) is a federal law that requires universities and colleges to make available gender equity information about their athletic programs. Information compiled under the Equity in Athletics Disclosure Act is available on the U.S. Department of Education's Equity in Athletics Data Analysis (<https://ope.ed.gov/athletics/#/institution/search>) website.

Expulsion

Per UNC System Policy 700.4.3[G], a student expelled from one constituent institution may not be admitted to another constituent institution of the University, unless and until the sanction of expulsion has been rescinded by the institution that imposed the sanction.

Faculty-Led Off-Campus Domestic Academic Travel

Faculty members who want to have academic travel as part of their class must inform prospective students about the mandatory academic travel before course enrollment. For mandatory or optional travel, faculty must also give students an instructional agenda and itinerary two weeks (14 calendar days) before the academic travel including:

1. Time and location of the academic travel,
2. A detailed description of the activity, and
3. Any cost that is the student's responsibility.

Faculty are encouraged to provide enough detail in the description to help participants understand potential risks. Please refer to the Policy on Faculty-Led Off-Campus Domestic Academic Travel (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=150069>) for additional information. Please see the full text of the Faculty-Led Off-Campus Domestic Academic Travel Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=150069>) on the University's policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

Fireworks, Firearms, and Other Weapons

Per N.C. General Statute 14.269.2(b) and (b1), it is a felony, punishable by fine and/or imprisonment, to possess or carry, openly or concealed, any gun, rifle, pistol, or other firearm of any kind, or any dynamite cartridge, bomb, grenade, mine, or powerful explosive on any University campus, in any University-owned or operated facility, or at a curricular or extracurricular activity sponsored by the University. Such conduct is also a violation of the Student Code of Conduct.

Per N.C. General Statute 14.269.2(k1) and (k2), a person who has a concealed handgun permit that is valid under North Carolina law, or who is exempt from obtaining a permit according to North Carolina law, may have a handgun in a closed compartment or container within the person's locked vehicle or in a locked container securely affixed to the person's vehicle. A person may unlock the vehicle to enter or exit the vehicle provided the firearm remains in the closed compartment at all times, and the vehicle is locked immediately following the entrance or exit.

Per N.C. General Statute 14.269.2(e), it is a Class 1 misdemeanor, punishable by fine and/or imprisonment, to possess or carry, whether openly or concealed, any BB gun, stun gun, air rifle, air pistol, bowie knife, dirk, dagger, slingshot, leaded cane, switchblade knife, blackjack, metallic knuckles, razors and razor blades (except for personal shaving), fireworks, or any sharp-pointed or edged instrument (except instructional supplies, unaltered nail files, and clips and tools used solely for preparation of food, instruction, and maintenance) on any University campus or in any University-owned or operated facility. Such conduct is also a violation of the Student Code of Conduct.

Housing and Residential Education

For policies and procedures related to living on campus, visit the Housing and Residential Education (<https://housing.unc.edu/apply/>) website.

Immunization Requirement

All new and transfer students must submit documentation of immunizations (<https://campushealth.unc.edu/services/immunizations/>) required under N.C. General Statute 130A-155.1. Students previously enrolled at UNC-Chapel Hill are not required to resubmit immunization documentation.

Per N.C. General Statute 130A-155.1(a), students will be withdrawn from the University 30 calendar days after classes begin if immunization requirements have not been met.

Interpersonal Relationships among Faculty, Staff, and Students

The University of North Carolina Board of Governors adopted a system-wide policy (300.4.1) that prohibits amorous or sexual relationships between faculty or staff employees and

1. students they evaluate or supervise by virtue of their teaching, research, administrative, or other employment responsibility and
2. students who are minors below the age of 18.

The policy also states that faculty or staff employees may not supervise or evaluate students to whom they are related by blood, law, or marriage. Please see the full text of the Nepotism and Interpersonal Relationships Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=153293>) on the University's policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

Policy on Prohibited Discrimination, Harassment, and Related Misconduct

The University is committed to providing a welcoming environment for all members of our community. It is firmly committed to maintaining a campus environment free from discrimination, harassment, and related misconduct.

In accordance with its Policy Statement on Nondiscrimination, the University does not unlawfully discriminate in offering equal access to its educational programs and activities or with respect to employment terms and conditions on the basis of an individual's age, color, disability, gender, gender expression, gender identity, genetic information, race, national origin, religion, sex, sexual orientation, or veteran status (collectively referred to as "protected status"). The University's protection of these statuses is grounded in federal law.

Federal law also governs the University's response to sexual assault, sexual violence, interpersonal violence (including domestic and dating violence), and stalking. Such acts violate the essential dignity of our community member(s) and are contrary to our institutional values. Please see the full text of the Policy on Prohibited Discrimination, Harassment and Related Misconduct (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=132487>) and the Policy Statement on Non-discrimination (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131717>) on the University's policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

Gender-Inclusive Language Policy

The University is committed to providing a welcoming environment for all members of our University Community. Consistent with that commitment, gender-inclusive terms (chair; first-year student; upper-level student, etc.) should be used on University documents, websites, and policies.

A guidance handout ("Gender-Inclusive Language (<https://writingcenter.unc.edu/tips-and-tools/gender-inclusive-language/>)") may be found on the UNC Writing Center website. Please see the full text of the Gender-Inclusive Language Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=132161>) on the University's policy website.

Out-of-State Disclosures for Distance Education Programs

Disclosure for Indiana Residents Enrolled in UNC–Chapel Hill Distance Education Programs

The University of North Carolina at Chapel Hill is authorized by The Indiana Board for Proprietary Education, 101 W. Ohio St., Suite 670, Indianapolis, IN 46204.

Disclosure for Louisiana Residents Enrolled in UNC–Chapel Hill Distance Education Programs

The University of North Carolina at Chapel Hill is currently licensed by the Board of Regents of the State of Louisiana. Licenses are renewed by the State Board of Regents every two years. Licensed institutions have met minimal operational standards set forth by the state, but licensure does not constitute accreditation, guarantee the transferability of credit, nor signify that programs are certifiable by any professional agency or organization.

Disclosure for Minnesota Residents Enrolled in UNC–Chapel Hill Distance Education Programs

The University of North Carolina at Chapel Hill is registered as a private institution with the Minnesota Office of Higher Education pursuant to sections 136A.61 and 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.

Disclosure for Washington Residents Enrolled in UNC–Chapel Hill Distance Education Programs

The University of North Carolina at Chapel Hill is authorized by the Washington Student Achievement Council and meets the requirements and minimum educational standards established for degree-granting institutions under the Degree-Granting Institutions Act. This authorization is subject to periodic review and authorizes The University of North Carolina at Chapel Hill to advertise, recruit, and offer field placements for specific degree programs. The council may be contacted for a list of currently authorized programs. Authorization by the Council does not carry with it an endorsement by the Council of the institution or its programs. Any person desiring information about the requirements of the act or the applicability of those requirements to the institution may contact the Council at P.O. Box 43430, Olympia, WA 98504-3430.

Family Educational Rights and Privacy Act

As a general rule, under the federal Family Educational Rights and Privacy Act (FERPA), personally identifiable information may not be released from a student's education records without his or her prior written consent.

To learn more about FERPA, please visit these links:

UNC–Chapel Hill FERPA Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=132164>)

UNC–Chapel Hill Registrar's website (<https://registrar.unc.edu/ferpa-guide/>)

TUITION AND FINANCIAL AID

Student Finances

Billing Policies

Charges for tuition and fees, on-campus housing, and meals are assessed on a semester basis. Billing statements will only be available online through the ConnectCarolina Student Center. Students are responsible for accessing their statements online and ensuring they are paid on time.

Any past due charges will result in a hold on registration, diploma, and/or transcripts. Students must pay past due balances from prior terms before they will be allowed to register for future semesters. Students registering after the first tuition bill of the semester must either prepay tuition and fees or provide documented eligibility of financial aid to the Office of the University Cashier.

Students who are receiving financial aid are eligible to request a student aid deferment to extend their payment due date until after the initial financial aid disbursement of the semester. Deferments (<https://cashier.unc.edu/payment-options/financial-aid/>) can only be requested in ConnectCarolina by the student before the due date on the first bill of each semester.

It is extremely important for students to refer to the Office of the University Cashier website (<https://cashier.unc.edu/tuition-fees/important-dates/>) prior to each term for announcements and up-to-date information, and to follow instructions concerning payment/deferment due dates to avoid registration cancellation.

Tuition and Fees

Tuition and fees (<http://cashier.unc.edu/tuition-fees/>) for each academic year, including detailed information about the mandatory student fees, (<http://cashier.unc.edu/tuition-fees/student-fees/>) are published on the Office of the University Cashier website. Additional fees such as incoming student, special laboratory, and other designated program and course fees also may be charged.

A late registration fee of \$20 is charged for registration on or after the first day of class for a term.

Proxy and Authorized User Access

Federal law (FERPA (<https://registrar.unc.edu/ferpa-guide/>)) restricts access to student information. Proxy and/or Authorized User Access (<https://ccinfo.unc.edu/give-proxyauthorized-users-access-information-2-2/>) is for anyone the student authorizes to access and/or discuss the student account. Only authorized users have access to view the billing statements and make payments online.

Payment Options

Payments can be made in person at the Office of the University Cashier, through the mail, or by check or credit card online. For up-to-date information on payment options, please visit the payments section (<http://cashier.unc.edu/payment-options/>) of our website. Our returned check fee is \$35.

Each student is responsible for payment of his or her University charges. If a third party sponsor will be paying the charges, the Office of the University Cashier must receive a written authorization from the third party well in advance so that a separate invoice can be sent to the proper agency or organization in order to ensure timely payment.

Financial Aid Refunds

The Office of the University Cashier encourages students who are receiving financial aid in excess of tuition, fees, housing, and meal plan costs to sign up for eRefunds (<https://cashier.unc.edu/wp-content/uploads/sites/259/2016/05/setting-up-an-electronic-refund-account-for-student-account-refunds.pdf>) as soon as possible. Excess funds from the account will be deposited to either a checking or savings account at the student's bank. Students should also promptly update their eRefund information if there are any changes to their banking information.

Drop/Withdrawal Policies for Tuition and Fees

The last day to reduce a course load for credit on a student's financial account is the tenth day of the semester, commonly referred to as the "census date." Dropping the only course a student is registered for requires an official withdrawal.

In case of withdrawal from the University, tuition and fees will be prorated according to the withdrawal refund calendar posted on the Important Dates (<http://cashier.unc.edu/tuition-fees/important-dates/>) section of our website for that semester. The last date for credit on a student's financial account for withdrawal is nine weeks after the first day of classes for the fall and spring semesters. If a student drops the only course he or she is taking, this constitutes a withdrawal from the University.

Tuition Guarantee Program

Under a North Carolina state law effective fall 2016, students classified as North Carolina residents for tuition purposes in undergraduate degree programs at UNC system schools are eligible for fixed (or guaranteed) tuition for up to eight consecutive semesters (or ten semesters, if enrolled in an approved five-year program). Further information about the Tuition Guarantee Program can be found on the website for the Office of the University Registrar (<http://registrar.unc.edu/academic-services/policies-procedures/student-rights/guaranteed-tuition/>).

Scholarships and Financial Aid For Undergraduates

The University works to keep Carolina affordable for all students. Scholarships, grants, loans, and work-study funds are offered to help eligible students with their financial needs.

Detailed information on scholarships and student aid can be found on the Office of Scholarships and Student Aid (<https://studentaid.unc.edu/>) website. You are also welcome to email help@studentaid.unc.edu. We are here to help!

Applying for Financial Aid

To apply for financial aid:

- Complete the Free Application for Federal Student Aid (FAFSA) (<https://studentaid.gov/h/apply-for-aid/fafsa/>)
UNC school code 002974
- Complete the CSS Profile (<https://cssprofile.collegeboard.org/>) (incoming first-degree seeking students only, for University grants and scholarships)
UNC school code 5816
- Monitor UNC email and regularly check ConnectCarolina (<http://connectcarolina.unc.edu>) for updates.

If we need more information, we will notify you by email.

Aid is an annual process, so returning students should complete the FAFSA each year. The application is available beginning October 1 each year. You should apply as early as possible, even before admission to Carolina in the case of new students. You only need to complete the CSS Profile as an incoming first degree-seeking student one time. Although you should apply prior to admission, aid offers will not be released until you are formally admitted.

Aid Offers

Financial aid offers are generally released in early February for returning students. Admitted students will get aid offers shortly after they are admitted.

Types of Need-Based Financial Aid

Scholarships, grants, and work-study do not have to be repaid; loans require repayment. Aid offers will include self-help first (need-based loans, and work-study if eligible) with remaining need met through grants and/or scholarships. Graduate and professional students will receive loan offers to meet any eligibility remaining after awards from schools or departments.

You can always reduce or choose not to borrow offered loans, so budget carefully before borrowing. To get an idea of your borrowing needs, use our budgeting calculator (<https://studentaid.unc.edu/2023/01/26/budgeting-calculator-instructions/>).

Eligibility for Need-Based Financial Aid

To be eligible for financial aid, a student must be enrolled and making satisfactory academic progress in a degree or eligible certificate program. Information about the Satisfactory Academic Progress Policy (<https://studentaid.unc.edu/current/sap/>) can be found on the Office of Scholarships and Student Aid website.

You can find additional eligibility information (<https://studentaid.unc.edu/current/how-to-apply/>) on the website on the How to Apply page.

The Carolina Covenant

Covenant scholars can graduate debt-free through a combination of scholarships, grants, and work-study. Covenant scholars also have access to faculty and staff mentors, enrichment activities, and other support services.

The Carolina Covenant is offered to eligible undergraduates who have a family income at or below 200 percent of the federal poverty level and limited assets. No special application is necessary; eligible students will be notified after applying for financial aid and being admitted. Details are on the Carolina Covenant website (<https://studentaid.unc.edu/incoming/what-aid-is-available/carolina-covenant/>).

Federal Aid Programs

Rules for federal student aid are set by Congress. Eligibility is set by a federal formula. Scholarships and awards from private sources are also factored into the eligibility formula.

The Federal Pell Grant Program provides assistance to first time degree-seeking undergraduate students who meet the eligibility criteria.

More detailed information is available at the Federal Student Aid website (<https://studentaid.gov/understand-aid/types/grants/pell/>).

University Scholarships and Grants

Undergraduate students are considered for university funded scholarships and grants, which do not have to be repaid, based on a detailed analysis of family financial circumstances. This may include

home equity, other income, and family assets that may not have been considered in the calculation of federal aid. Institutional scholarship and grant funds are combined with federal aid to provide a total offer of financial aid based on financial need.

Academic Scholarships

Each year, the University offers a limited number of academic scholarships to entering first-year students. These highly competitive programs recognize academic achievement, leadership, commitment to service, and potential for success at the University. Some of these awards consider a combination of financial need and academic merit.

Because Carolina is a highly selective university, competition for academic scholarships is strong. Very few academic scholarships are awarded each year.

There is no separate application for UNC academic scholarships. Selection is based on the information provided in a student's admission application. Academic scholarship finalists will be notified shortly after they are admitted.

The Morehead-Cain (<http://moreheadcain.org>) and the Robertson Scholars (<http://robertsonscholars.org>) programs are administered by private foundations and *do* require separate applications. Visit their websites for details.

More information about the University's academic scholarships can be found at the Scholars Program website (<https://studentaid.unc.edu/incoming/what-aid-is-available/scholarships/>).

Work-Study Employment

Work-study programs offer the chance to earn funds by working a part-time job on campus or at a community service agency. Undergraduate work-study jobs require an average of 10 to 12 hours per week, with wages that depend on the job. You can apply for work-study jobs that match your interests, skills, and career plans.

Graduate students are not automatically considered for work-study funding. You can learn more about work-study opportunities for graduate students on our website (<https://studentaid.unc.edu/graduate/what-aid-is-available/work-study/>).

Loans

The University administers a number of student loan programs, both federal and institutional, which provide low-interest, long-term loans to undergraduate, graduate, and professional students who are eligible for aid.

After a student applies for aid, and has been admitted, the Office of Scholarships and Student Aid offers loans based on eligibility, loan limits, and program cost of attendance. More information on loan programs for undergraduate students can be found in the undergraduate loan guide (<https://studentaid.unc.edu/current/what-aid-is-available/loans/>). More information on loan programs for graduate and professional school students can be found in the graduate loan guide (<https://studentaid.unc.edu/graduate/what-aid-is-available/loans/>).

Students have the opportunity to accept, reduce or choose not to borrow offered loans, so budget carefully (<http://studentaid.unc.edu/budgeting/>) before deciding. Contact the OSSA Loans Team (ssa_loans@unc.edu) with any questions.

Laptop Grants

All Carolina students are required to have a laptop computer. The University offers grants — in the form of a credit at Student Stores, which

sells a variety of laptops — to cover the cost for qualifying first-year students who receive need-based financial aid.

You are welcome to combine the grant with your own money to purchase a more expensive laptop. But if you leave Carolina without completing a degree, the University keeps the computer.

Questions and Assistance

Financial aid staff are ready to help. Visit the Office of Scholarships and Student Aid or email help@studentaid.unc.edu to get in touch.

For Graduate Students

The Graduate School offers a variety of funding opportunities to assist graduate students. The Graduate School provides information and support to students applying for external fellowships, as well as providing fellowships and other direct financial support to graduate students, which supplements what the individual school or department provides. For updated information, please see The Graduate School's funding resources website (<http://gradschool.unc.edu/funding/>).

Graduate Tuition Incentive Scholarship (<http://gradschool.unc.edu/funding/gradschool/gtis.html>): Helps cover the remaining cost of in-state tuition for graduate students who are receiving external funding awards in support of their thesis or dissertation research

Graduate Student Opportunity Fund (<https://gradschool.unc.edu/funding/gradschool/>): Assists students with small, nonrecurring, unusual and unexpected academic expenses

Graduate Student Transportation Grant (<http://gradschool.unc.edu/funding/gradschool/transportationgrant.html>): Assists students with some of the transportation costs necessary for travel to a regional, national, or international academic conference or professional society meeting to present their dissertation research

The Graduate Funding Information Center (<http://gradfunding.web.unc.edu/>) is a resource for graduate students seeking information on funding sources for independent research, collaborative projects, fellowships, program development, and other scholarly activities.

You are welcome to contact the Fellowships Office at gradfunding@unc.edu.

To receive alerts when funding opportunities are posted, subscribe to The Graduate School funding listserv (<http://gradfunding.web.unc.edu/>).

Departmental Awards

Teaching and Research Assistantships

The majority of assistantships available to graduate students are awarded by academic schools and departments. Approximately 2,500 graduate, research, and teaching assistantships are available through specific departments. Graduate assistantships are also available through the University's various research institutes and centers. Stipends, responsibilities, selection criteria, and application and notification procedures vary from department to department. Applicants should discuss with the program to which they are applying the specific funding opportunities available to graduate students.

Federal/State Fellowships and Traineeships

A number of state and federally funded fellowships and traineeships are also available in some departments. Students must be pursuing graduate training in specified fields of study to be eligible for these

awards. Interested students should request additional information from their academic departments.

Application Deadline

Prospective graduate students may indicate when applying for admission their interest in an assistantship and should discuss application deadlines with their prospective departments.

If you have questions about departmental awards, please contact the department to which you are applying (<https://gradschool.unc.edu/academics/degreeprograms/>).

Financial Aid Regulations

To be eligible for financial aid programs administered by the Office of Scholarships and Student Aid (<http://studentaid.unc.edu/>), you must be enrolled in a degree program on at least a half-time basis, a United States citizen or permanent resident, and making satisfactory progress toward completion of the academic program. You may not be in default on a loan previously received for college expenses nor owe the Department of Education for a refund on a scholarship, grant, or loan from a previous enrollment period.

Graduate or professional school students who wish to apply for financial aid to meet the costs of attending the University must complete the Free Application for Federal Student Aid (FAFSA) (<https://studentaid.gov/h/apply-for-aid/fafsa/>) using the UNC–Chapel Hill school code (002974).

You should not wait for admission to a graduate or professional school program before applying for aid. If additional documentation is needed to complete your application for financial aid, the Office of Scholarships and Student Aid will notify you.
