This course explores the human struggle to make sense of suffering and debility. Texts are drawn from literature, anthropology, film, art history, philosophy, and biology. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH.
- Making Connections Gen Ed: LA.
- Grading Status: Letter grade.

ENGL 72. First-Year Seminar: Literature of 9/11. 3 Credits.
This first-year seminar will introduce students to college-level critical analysis, writing, and oral communication by exploring representations of the 9/11 attacks and the "war on terrorism" in literature and popular culture.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH.
- Making Connections Gen Ed: LA, CI, GL.
- Grading Status: Letter grade.
ENGL 73. First-Year Seminar: Literature of War from World War I to the 21st Century. 3 Credits.
This is a course about literature and war and what they might teach us about each other. Our work will be oriented around one central question: what, if anything, can a work of art help us see or understand about war that cannot be shown by other means? Students may not receive credit for both ENGL 73 and ENGL 161.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR. Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 74. First-Year Seminar: Epic/Anti-Epic in Western Literature. 3 Credits.
In this course, students will study epic and anti-epic strains in Western literature, reading key texts in the epic tradition from Homer and Virgil through the 20th century in light of various challenges to that tradition and tensions within it.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH. Making Connections Gen Ed: LA, CI, WB.
Grading Status: Letter grade.

ENGL 75. First-Year Seminar: Interpreting the South from Manuscripts. 3 Credits.
The aim of the course is to give beginning university students the requisite research skills to allow them to appreciate and to contribute to an understanding of the past by directly experiencing and interpreting records from the past. Students will actually get to work with historical documents, some more than 200 years old.

Rules & Requirements
Grading Status: Letter grade.

ENGL 76H. First-Year Seminar: Biography: People and Places, Chapel Hill. 3 Credits.
This seminar focuses on biography, specifically on persons and places in Chapel Hill. Students will engage in basic research to create a final project around a person or place of their choice from any field or profession. Students will design and produce the biography in any format, from print to digital.

Rules & Requirements
Grading Status: Letter grade.

ENGL 77. First-Year Seminar: Globalization/Global Asians. 3 Credits.
This course will explore the concept of globalization by focusing on the Asian diaspora, particularly the artistic and cultural productions that document, represent, and express Global Asians.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH. Making Connections Gen Ed: CI, GL.
Grading Status: Letter grade.

ENGL 81. First-Year Seminar: Jane Eyre and Its Afterlives. 3 Credits.
Class members will reflect upon Brontë’s Jane Eyre (1847) in its original contexts and study subsequent novels and films that engage with it. What makes a literary work a “classic”? How do later readers’ concerns affect their responses? Lovers of Jane Eyre are welcome, as are newcomers and skeptics.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR. Making Connections Gen Ed: LA, CI, NA.
Grading Status: Letter grade.

ENGL 85. First-Year Seminar: Economic Saints and Villains. 3 Credits.
Our objective throughout will be to analyze how literary art simultaneously demonizes and celebrates the “miracle of the marketplace” and those financial pioneers that perform its magic. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING. Making Connections Gen Ed: LA, CI, NA.
Grading Status: Letter grade.

ENGL 86. First-Year Seminar: The Cities of Modernism. 3 Credits.
This course is a cross-cultural and intermedial exploration of the imagery of the Great City in high modernist works of literature, art, and film.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING. Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 87. First-Year Seminar: Jane Austen, Then and Now. 3 Credits.
This course focuses on the fiction of Jane Austen and its representations in film. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH. Making Connections Gen Ed: VP.
Grading Status: Letter grade.

ENGL 88. First Year Seminar: The Legacy of the Japanese American Internment: from WWII to 9/11. 3 Credits.
This course will explore stories about the Japanese American internment from first person memoirs to contemporary fiction. We will also examine the ramifications, historic and legal, of the internment post-9/11.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH. Making Connections Gen Ed: LA, US.
Grading Status: Letter grade.

ENGL 89. First-Year Seminar: Special Topics. 3 Credits.
Content varies by semester. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR. Grading Status: Letter grade.
ENGL 100. Basic Writing. 3 Credits.
Required for incoming students with SAT Evidence-Based Reading and Writing or ACT scores below a threshold set by the department. Please visit the department Web site for the most updated scores. The courses focuses on academic writing in a variety of contexts. Workshop format involves frequent writing and revision.

Rules & Requirements
Making Connections Gen Ed: CR.
Grading Status: Letter grade.

ENGL 105. English Composition and Rhetoric. 3 Credits.
This college-level course focuses on written and oral argumentation, composition, research, information literacy, and rhetorical analysis. The course introduces students to the specific disciplinary contexts for written work and oral presentations required in college courses. Students may not receive credit for both ENGL 102 and ENGL 102I, 105, or 105I.

Rules & Requirements
IDEAs in Action Gen Ed: FY-WRITING.
Making Connections Gen Ed: CR.
Grading Status: Letter grade.

ENGL 105I. English Composition and Rhetoric (Interdisciplinary). 3 Credits.
This college-level course focuses on written and oral argumentation, composition, research, information literacy, and rhetorical analysis. The course introduces students to one specific disciplinary context for written work and oral presentations required in college courses: natural sciences, social sciences, humanities, law, business, or medicine. Students may not receive credit for both ENGL 105 and ENGL 102, 102I, or 105I.

Rules & Requirements
IDEAs in Action Gen Ed: FY-WRITING.
Making Connections Gen Ed: CR.
Grading Status: Letter grade.

ENGL 113. Introduction to Critical Game Studies. 3 Credits.
This course introduces students to the new field of critical game studies, which uses rhetorical and literary theories to explore the impact that games have on our culture. Students will analyze the impact of immersive narratives on players and explore issues of representation and identity by playing through selected games and reading core texts. No gaming experience or equipment is needed.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Grading Status: Letter grade.

ENGL 115. History of the English Language. 3 Credits.
A study of the development of English from its Proto-Indo-European origins to modern English, with emphasis on how events and contacts with other languages influenced the vocabulary of English. Course previously offered as ENGL 314.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.

ENGL 116. History of Writing: From Pen to Pixel. 3 Credits.
Fulfills a major core requirement. This course examines how writing has evolved from ancient times to the present, with a focus on how writing technologies (from clay tablets to typewriters, pictographs to emojis) have shaped written languages and writing instruction. Activities will include making cylinder seals, writing with wax tablets, composing videos and comic books.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: CI.
Grading Status: Letter grade.

ENGL 117. Arguing on the Internet: Rhetoric in the Age of Social Media. 3 Credits.
Fulfills a major core requirement. In this course, students will draw on classical rhetoric—the ancient art of persuasion—to analyze how people argue today, in online contexts. We will use rhetoric to examine the strategies internet trolls use, what makes a post go viral, and whether online arguments can actually change people's minds.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: CR.
Grading Status: Letter grade.

ENGL 118. Storytelling and Game Development. 3 Credits.
This course examines video games as narrative texts through game play and game design. By the end of the semester, students will develop and create an original interactive narrative video game using the open-source software Twine. Through this making-centered course, students will study existing non-linear narratives to explore the basic principles of writing and examine the needs and expectations of the audience/viewer/player for immersive/interactive media and that of established media.

Rules & Requirements
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 119. Picture This: Principles of Visual Rhetoric. 3 Credits.
Today, writers in almost every profession use visual evidence persuasively and effectively. How do we interpret and analyze those messages? How do we generate effective visuals that avoid misleading audiences? That is the domain of visual rhetoric, an area of study we will explore in this course. This course is useful for those planning careers in science, computer science, technical communication, business, and data science as well as those interested in cultural and historical aspects.

Rules & Requirements
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

ENGL 120. British Literature, Medieval to 18th Century. 3 Credits.
Survey of medieval, Renaissance, and neoclassical periods. Drama, poetry, and prose. Fulfills a major core requirement. Honors version available.

Rules & Requirements
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.
ENGL 121. British Literature, 19th and Early 20th Century. 3 Credits.
Fulfills a major core requirement. Seminar focusing on later British literature covering the Romantic, Victorian, and Modern periods—great foundation for studying later periods. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY- LAUNCH (only designated sections), FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, CI, NA.
Grading Status: Letter grade.

ENGL 122. Introduction to American Literature. 3 Credits.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 123. Introduction to Fiction. 3 Credits.
Novels and shorter fiction by Defoe, Austen, Dickens, Faulkner, Wolfe, Fitzgerald, Joyce, and others. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 124. Contemporary Literature. 3 Credits.
Fulfills a major core requirement. The literature of the present generation.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 125. Introduction to Poetry. 3 Credits.
A course designed to develop basic skills in reading poems from all periods of English and American literature.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 126. Introduction to Drama. 3 Credits.
Drama of the Greek, Renaissance, and modern periods.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 127. Writing about Literature. 3 Credits.
Course emphasizes literature, critical thinking, and the writing process. Students explore the relationship between thinking, reading, and writing by studying poetry, fiction, drama, art, music, and film.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 128. Major American Authors. 3 Credits.
A study of approximately six major American authors drawn from Emerson, Thoreau, Hawthorne, Melville, Stowe, Whitman, Clemens, Dickinson, Chesnutt, James, Eliot, Stein, Hemingway, O’Neill, Faulkner, Hurston, or others.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 129. Literature and Cultural Diversity. 3 Credits.
Fulfills a major core requirement. Studies in African American, Asian American, Hispanic American, Native American, Anglo-Indian, Caribbean, gay-lesbian, and other literatures written in English. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY- LAUNCH (only designated sections), FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, NA, US.
Grading Status: Letter grade.

ENGL 130. Introduction to Fiction Writing. 3 Credits.
Intended for sophomores and first-year students. A writing-intensive introductory workshop in fiction. Close study of a wide range of short stories; emphasis on technical problems. Composition, discussion, and revision of original student stories. Students may not receive credit for both ENGL 130 and ENGL 132H. This course (or ENGL 132H) serves as a prerequisite for other courses in the fiction sequence of the creative writing program.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA.
Requisites: Prerequisite, for other courses in the fiction sequence of the creative writing program.
Grading Status: Letter grade.

ENGL 131. Introduction to Poetry Writing. 3 Credits.
Intended for sophomores and first-year students. A writing-intensive introductory workshop in poetry. Close study of a wide range of published poetry and of poetic terms and techniques. Composition, discussion, and revision of original student poems. Students may not receive credit for both ENGL 131 and ENGL 133H. This course (or ENGL 133H) serves as a prerequisite for other courses in the poetry sequence of the creative writing concentration and minor.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.
ENGL 132H. First-Year Honors: Introduction to Fiction Writing. 3 Credits.
Intended for first-year honors students. A writing-intensive introductory workshop in fiction. Close study of a wide range of short stories; emphasis on technical problems. Composition, discussion, and revision of original student stories. Students may not receive credit for both ENGL 130 and ENGL 132H. This course (or ENGL 130) serves as a prerequisite for other courses in the fiction sequence of the creative writing concentration and minor.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 133H. First-Year Honors: Introduction to Poetry Writing. 3 Credits.
Intended for first-year honors students. A writing-intensive introductory workshop in poetry. Close study of a wide range of published poems and of the basic terms and techniques of poetry. Composition, discussion, and revision of a number of original poems. Students may not receive credit for both ENGL 131 and ENGL 133H. This course (or ENGL 131) serves as a prerequisite for other courses in the poetry sequence of the creative writing concentration and minor.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 134H. First-Year Honors: Women's Lives. 3 Credits.
First-year honors students only. This course focuses on women's life writing, including autobiography, biography, autoethnography, personal essay. Includes theories of life writing. Students will read contemporary works in each genre and write their own versions. Students may not receive credit for both ENGL 55 and ENGL 134H.

Rules & Requirements
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 135H. First-Year Honors: Types of Literature. 3 Credits.
First-year honors students only. Study of literary forms (epic, drama, lyric, novel), beginning in the fall term and concluding in the spring, with three hours credit for each term. Students should consult the assistant dean for honors or the Department of English and Comparative Literature for offerings.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: LA.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 136. The Publishing Industry: Editing, Design, and Production. 3 Credits.
Students explore the many areas of the publishing industry and practice basic skills widely used in publishing, including submissions management, copy editing, proofreading, and book and ebook design. Through hands-on practice and meetings with experts in the field, students develop a solid foundation in publication design and the editorial process.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: CI.
Grading Status: Letter grade.

ENGL 137. Digital Literature. 3 Credits.
In this course students learn to study emergent relationships between print and digital literary cultures. In addition to reading and discussion, the course requires that students conduct original research (individual and also collaborative) in both print and digital formats.

Rules & Requirements
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 138. Introduction to Creative Nonfiction. 3 Credits.
Intended for sophomores and first-year students. An introductory workshop in creative nonfiction, a genre that is rooted in fact and composed in artful prose. Through readings and writing prompts, we will explore the full spectrum of the genre, including memoir, travelogues, nature writing, literary journalism, lyric essays, and visual autobiography. We will workshop and revise student essays as well. This course serves as a prerequisite for other courses in the creative writing concentration and minor.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 140. Introduction to Gay and Lesbian Culture and Literature. 3 Credits.
Introduces students to concepts in queer theory and recent sexuality studies. Topics include queer lit, AIDS, race and sexuality, representations of gays and lesbians in the media, political activism/literature.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, US.
Grading Status: Letter grade.
Same as: WGST 140.

ENGL 141. World Literatures in English. 3 Credits.
This course will be a basic introduction to literatures in English from Africa, the Caribbean, South Asia, Canada, Australia, New Zealand, and other Anglophone literary traditions.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-GLOBAL.
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.
ENGL 142. Film Analysis. 3 Credits.
This course offers an introduction to the technical, formal, and narrative elements of the cinema. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

ENGL 143. Film and Culture. 3 Credits.
Examines the ways culture shapes and is shaped by film. This course uses comparative methods to contrast films as historic or contemporary, mainstream or cutting-edge, in English or a foreign language, etc.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: VP, GL.
Grading Status: Letter grade.

ENGL 144. Popular Genres. 3 Credits.
Introductory course on popular literary genres. Students will read and discuss works in the area of mystery, romance, westerns, science fiction, children's literature, and horror fiction.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 146. Science Fiction/Fantasy/Utopia. 3 Credits.
Readings in and theories of science fiction, utopian and dystopian literatures, and fantasy fiction.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 147. Mystery Fiction. 3 Credits.
Studies in classic and contemporary mystery and detective fiction.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 148. Horror. 3 Credits.
This course examines the complexities and pleasures of horror, from its origins in Gothic and pre-Gothic literatures and arts. Topics include psychology, aesthetics, politics, allegory, ideology, and ethics.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 149. Digital Composition. 3 Credits.
In this class students will practice composing in contemporary digital writing spaces. Students will study theories of electronic networks and mediation, and their connections to literacy, creativity, and collaboration. Students will also develop their own multimedia projects using images, audio, video, and words. Topics include the rhetoric of the Internet, online communities, and digital composition.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 150. Introductory Seminar in Literary Studies. 3 Credits.
Introduces students to methods of literary study. Students learn to read and interpret a range of literary works, develop written and oral arguments about literature, and conduct literary research.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 151. Nineteenth-Century American Literature. 3 Credits.
Survey of American literature from 1789-1900. Students will gain expertise in the major literary movements of the century in their historical contexts. Fulfills a major core requirement.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics.
Grading Status: Letter grade.

ENGL 152. Twentieth-Century American Literature. 3 Credits.
Survey of American literature in the twentieth century covering the major literary movements of the century: realism, modernism, postmodernism, and contemporary. Fulfills a major core requirement.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 153. Sex, Gender, and Sexuality in the Premodern World. 3 Credits.
What did people think about sex, and how did they do it, before Darwin, Stonewall, and the Sexual Revolution? This course will introduce students to the rich and varied history of sex, sexuality, and gender in Western culture before 1700. Topics to be considered may include the evolution of marriage, same-sex love in the classical world, trans identities in medieval Europe, and the history of true love.

Rules & Requirements
Making Connections Gen Ed: LA, WB.
Grading Status: Letter grade.
ENGL 154. Race and Racism in the Premodern World. 3 Credits.
This course investigates the history of race (as an idea) and racism (as a practice) in Western culture, from the very first discussions of race in classical antiquity until 1700. Topics to be considered may include the history of slavery, the origins of "scientific" racism, early examples of resistance to racial prejudice, and the historical intersection of race with gender and class.

Rules & Requirements
Making Connections Gen Ed: LA, WB.
Grading Status: Letter grade.

ENGL 155. The Visual and Graphic Narrative. 3 Credits.
This course examines various visual texts, including graphic novels and emerging narrative forms, and explores how meaning is conveyed through composition, the juxtaposition and framing of images, and the relationship between words and images. Students create their own visual narratives.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.

ENGL 158. Postcolonial Literature. 3 Credits.
This course is a multigenre introduction to postcolonial literatures. Topics will include postcolonial Englishes, nationalism, anti-imperialism, postcolonial education, and the intersections between national and gender identities in literature. Previously offered as ENGL 463. Honors version available.

Rules & Requirements
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.

ENGL 161. Literature of War from World War I to the 21st Century. 3 Credits.
This is a class about literature and war and what each might teach us about the other. We will consider a range of texts and center our work around this question: what, if anything, can a work of art help us see or understand about war that might not be shown by other means? Students may not receive credit for both ENGL 73 and ENGL 161.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 163. Introduction to Health Humanities. 3 Credits.
This course will introduce students to the key critical concepts, debates, and questions of practice in the interdisciplinary field of health humanities. Students will draw on humanities methods to analyze topics related to human health, illness, and disability. Topics to be considered may include narrative medicine, disability studies, chronic illness, graphic medicine, health activism, mortality, and healthcare systems.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 164. Introduction to Latina/o Studies. 3 Credits.
Introduction to major questions of Latina/o Studies through an examination of literature, culture, the visual arts, and music. Topics include imperialism, colonialism, labor, decolonization, nationalism, ethnicity and other aspects of identity and identification, and new rubrics. Previously offered as ENGL 364. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, US.
Grading Status: Letter grade.

ENGL 168. Visual and Graphic Narrative. 3 Credits.
This course examines various visual texts, including graphic novels and emerging narrative forms, and explores how meaning is conveyed through composition, the juxtaposition and framing of images, and the relationship between words and images. Students create their own visual narratives.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.

ENGL 190. Exploring Topics in English Studies. 3 Credits.
Introduction to a popular genre, cultural context, group of writers, or contemporary issue in literature, composition, and/or film.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 191. Introduction to Literary Studies. 3 Credits.
Introduces students to the field of literary studies while emphasizing a single writer, group, movement, theme, or period. Students conduct research, develop readings, and compose literary interpretations.

Rules & Requirements
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 202. Everyday Cultures: Folklore in America. 3 Credits.
An introduction to the study of creativity and aesthetic expression in everyday life, considering both traditional genres and contemporary innovations in the material, verbal, and musical arts.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

ENGL 203. Everyday Cultures: Folklore in America. 3 Credits.
An introduction to the study of creativity and aesthetic expression in everyday life, considering both traditional genres and contemporary innovations in the material, verbal, and musical arts.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

ENGL 204. Everyday Cultures: Folklore in America. 3 Credits.
An introduction to the study of creativity and aesthetic expression in everyday life, considering both traditional genres and contemporary innovations in the material, verbal, and musical arts.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.
ENGL 206. Intermediate Fiction Writing. 3 Credits.
Substantial practice in those techniques employed in introductory course. A workshop devoted to the extensive writing of fiction (at least two short stories), with an emphasis on style, structure, dramatic scene, and revision.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA, CI.
Requisites: Prerequisite, ENGL 130 or 132H; a grade of B or better in ENGL 130 or 132H is required; permission of the program director for students lacking the prerequisite.
Grading Status: Letter grade.

ENGL 207. Intermediate Poetry Writing. 3 Credits.
An intensification of the introductory class. A workshop devoted to close examination of selected exemplary poems and the students' own poetry, with an emphasis on regular writing and revising. This course serves as a prerequisite for other courses in the poetry sequence of the creative writing concentration and minor.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA, CI.
Requisites: Prerequisite, ENGL 131 or 133H; a grade of B or better in ENGL 131 or 133H is required; permission of the program director for students lacking the prerequisite.
Grading Status: Letter grade.

ENGL 208. Reading and Writing Creative Nonfiction. 3 Credits.
An intermediate-level workshop in creative nonfiction that focuses on a particular sub-genre, such as memoir, travel writing, food writing, or nature writing. Students will workshop and revise their own original compositions as well. This course can be repeated under a different professor or sub-genre. This course serves as a prerequisite for other courses in the nonfiction sequence of the creative writing concentration and minor.

Rules & Requirements
Making Connections Gen Ed: LA, CI.
Requisites: Prerequisite, ENGL 130, 131, 132H, 133H, or 138; a grade of B or better in the prerequisite course is required; permission of the program director for students lacking the prerequisite.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 213. Grammar of Current English. 3 Credits.
An introductory course in descriptive English linguistics that studies the sounds, word-building processes, and sentence structures of current English as well as general notions of correctness and variation. Previously offered as ENGL 313.

Rules & Requirements
Grading Status: Letter grade.

ENGL 215. English in the U.S.A.. 3 Credits.
A historical and critical examination of regional, social, and stylistic variation in English in the United States, including correctness, legal and educational issues, and the influence of mass media. Previously offered as ENGL 315. Honors version available.

Rules & Requirements
Making Connections Gen Ed: US.
Grading Status: Letter grade.

ENGL 218. American Poetry. 3 Credits.
Content of course varies with instructor, but students are given a sense of the chronological, stylistic, and thematic development of American poetry over two centuries. Previously offered as ENGL 348. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 219. The American Novel. 3 Credits.
The development of the American novel from the late 18th century through the 20th century. May proceed chronologically or thematically. Previously offered as ENGL 347. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 220. American Literature, Before 1900. 3 Credits.
Instructors choose authors or topics from the period before 1900. The course may be organized chronologically or thematically, but is not intended as a survey. Previously offered as ENGL 344. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 221. American Literature, 1900-2000. 3 Credits.
Instructors choose authors or topics from the period 1900 to 2000. The course may be organized chronologically or thematically, but is not intended as a survey. Previously offered as ENGL 345. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 223. Chaucer. 3 Credits.
Fulfills a major core requirement. An introduction to Chaucer’s major poetry: Troilus and Criseyde, the "dream" poems (e.g., Parliament of Fowls), and The Canterbury Tales. Previously offered as ENGL 320. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.
ENGL 224. Survey of Medieval English Literature, excluding Chaucer. 3 Credits.
This course surveys the canonical works of Old and Middle English literature from the eighth to the 15th centuries, with the sole exception of the poetry of Geoffrey Chaucer. Topics to be considered may include the development of courtly love, the history of meter, religious visions and visionary experience, and the birth of modern English. Previously offered as ENGL 319. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.

ENGL 225. Shakespeare. 3 Credits.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.

ENGL 226. Renaissance Drama. 3 Credits.
A survey of Renaissance drama focusing on contemporaries and successors of Shakespeare during the Elizabethan and Jacobean periods. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.

ENGL 227. Literature of the Earlier Renaissance. 3 Credits.
Poetry and prose of the earlier English Renaissance (from 1485 until 1600), including More, Wyatt, Sidney, Spenser, Bacon, and Marlowe. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.

ENGL 228. Literature of the Later Renaissance. 3 Credits.
Poetry and prose of the later English Renaissance (from 1600 until the early 1660s), including Donne, Jonson, Bacon, Herbert, Burton, Browne, Marvell, Herrick, and others. Honors version available.

Rules & Requirements
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.

ENGL 230. Milton. 3 Credits.
Fulfills a major core requirement. A study of Milton's prose and poetry in the extraordinary context of 17th-century philosophy, politics, religion, science, and poetics, and against the backdrop of the English Civil War. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.

ENGL 232. English Literature, 1832-1890. 3 Credits.
Poetry and prose of the Victorian period, including such writers as Tennyson, the Brownings, Arnold, the Brontës, Dickens, G. Eliot. Previously offered as ENGL 439. Honors version available.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 233. Contemporary Approaches to 18th-Century Literature and Culture. 3 Credits.
Focuses on particular forms, authors, or issues in the period. Previously offered as ENGL 436. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 234. The British Novel from 1870 to World War II. 3 Credits.
Students will read novels in English, including Joyce, Woolf, and Proust, to explore how writers from across cultures created new strategies to represent the late 19th and 20th century worlds of imperialism, science, and experiment. Previously offered as ENGL 355. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 235. Studies in Jane Austen. 3 Credits.
Fulfills a major core requirement. This course focuses on both the novels of Jane Austen and their fate since publication in the early 19th century. They have inspired countless imitations, over 150 sequels and continuations, and more than 30 full-length films. We will trace the transmission and transformation of the original texts across time and cultures. Previously offered as ENGL 340.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 236. 18th-Century Fiction. 3 Credits.
A survey of 18th-century fiction from Behn to Austen. Previously offered as ENGL 333. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.

ENGL 237. 18th-Century Drama. 3 Credits.
A survey of Restoration and 18th-century drama from Etheredge to Sheridan. Previously offered as ENGL 332. Honors version available.

Rules & Requirements
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.
ENGL 238. 19th-Century British Novel. 3 Credits.
Important novelists in the tradition, from Austen to Wilde. Previously offered as ENGL 338. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
- Making Connections Gen Ed: LA, NA.
- Grading Status: Letter grade.

ENGL 239. 20th-Century British and American Poetry. 3 Credits.
Twentieth-century poetry in English, approached historically, thematically, formally, politically, and aesthetically. Previously offered as ENGL 350. Honors version available.

Rules & Requirements
- Making Connections Gen Ed: LA, NA.
- Grading Status: Letter grade.

ENGL 240. Caribbean Literature. 3 Credits.
An introductory exploration of key topics in the literatures of the Caribbean basin, Bermuda, and the Caribbean diaspora.

Rules & Requirements
- Making Connections Gen Ed: LA, BN.
- Grading Status: Letter grade.

ENGL 241. Studies in Oscar Wilde. 3 Credits.
This course focuses on the life and works of one of the most striking personalities of the nineteenth century: Oscar Wilde. In addition to reading numerous works by Wilde (including short fiction, poetry, drama, fairy tales, and critical essays), we consider the scientific, religious, and aesthetic contexts that shaped Wilde's work.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH.
- Making Connections Gen Ed: LA.
- Grading Status: Letter grade.

ENGL 242. Victorian Literature--Contemporary Issues. 3 Credits.
The study of an individual Victorian writer, a group (such as the Pre-Raphaelites), a theme (such as imperialism), or genre (such as Victorian epic or the serialized novel). Previously offered as ENGL 442.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
- Making Connections Gen Ed: LA, NA.
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.

ENGL 243. Studies in Virginia Woolf. 3 Credits.
An in-depth single-author course examining the fiction and non-fiction writings of Virginia Woolf.

Rules & Requirements
- Making Connections Gen Ed: LA.
- Grading Status: Letter grade.

ENGL 244. Queer Cinema. 3 Credits.
This course focuses on gender and sexuality by examining the history, theory, politics, and aesthetics of queer identities in film and possibly other audiovisual media. Questions of representation, authorship, genre, and performance are addressed, either in national or transnational contexts.

Rules & Requirements
- Making Connections Gen Ed: VP, US.
- Grading Status: Letter grade.

ENGL 245. Intersectionality: Race, Gender, Sexuality, and Social Justice. 3 Credits.
The first goal of this super course is to give students real tools for how to address multiple modes of difference and identity formations like race, gender, class, and sexuality.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH.
- Making Connections Gen Ed: Ci, US.
- Grading Status: Letter grade.

Same as: AMST 248, POLI 248, WGST 249.

ENGL 249. Romantic Literature--Contemporary Issues. 3 Credits.
Devoted to British Romantic-period literature's engagement with a literary mode (such as the Gothic) or a historical theme (such as war or abolition) or to an individual author. Previously offered as ENGL 441. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST.
- Making Connections Gen Ed: LA, NA.
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.

ENGL 250. Faulkner. 3 Credits.
The writings, contexts, and legacy of William Faulkner. Fulfills a major core requirement.

Rules & Requirements
- Making Connections Gen Ed: LA, CI, NA.
- Grading Status: Letter grade.

ENGL 251. Film Performance and Stardom. 3 Credits.
This course focuses on performances in cinema, as well as the concept of stardom. This course surveys a diverse range of performances across cinema history, through a variety of different genres and production modes. Close attention is paid to actorly expression, and to the creation of star images in media.

Rules & Requirements
- Making Connections Gen Ed: VP.
- Grading Status: Letter grade.
ENGL 252. National and Transnational Cinemas. 3 Credits.
Historical, theoretical, and analytical approaches to the intersection of nation and cinema. This course may focus on films made within a particular nation or serve as a comparative analysis of the cinemas of several nations.

Rules & Requirements
Making Connections Gen Ed: VP, GL.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 253. Space and Place in Literature/Film. 3 Credits.
In this course, students consider the relationship between space and place in literature or film. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 255. Introduction to Media Studies. 3 Credits.
This course provides an introduction to concepts of media studies as they bear on the critical examination of cinema, television, and other cultural forms. Students explore different theoretical perspectives on the role and power of media in society in influencing social values, political beliefs, identities, and behaviors.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

ENGL 256. Crafting the Dramatic Film: Theory Meets Practice. 3 Credits.
This course places students behind the camera and in front of the screen as they alternate between creative and critical approaches to cinema. They learn how to practice the basic principles of narrative film production (producing, directing, cinematography, editing, and sound design) while engaging critically with key debates in film theory and criticism (semiotic, cognitive, psychoanalytic, feminist, and phenomenological).

Rules & Requirements
Making Connections Gen Ed: VP, CI.
Grading Status: Letter grade.

ENGL 257. Video Games and Narrative Cinema. 3 Credits.
In this hands-on gaming course, students decipher the narrative design of video games while exploring the legacy of cinema to gameplay. They also apply critical gaming concepts (agency, world-building, point of view, authorship, representation, narrative choice, play) to evaluate cinema as a ludic and participatory artform beyond conventional narrative elements.

Rules & Requirements
Making Connections Gen Ed: VP, CI.
Grading Status: Letter grade.

ENGL 261. An Introduction to Literary Criticism. 3 Credits.
An introduction to literary criticism in English studies, with an emphasis on historical developments from Plato to the present. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 263. Literature and Gender. 3 Credits.
Focused study of how issues of gender shape literary themes, characters, and topics, and the composition and reception of literary texts. Honors version available.

Rules & Requirements
Making Connections Gen Ed: LA.
Grading Status: Letter grade.
Same as: WGST 263.

ENGL 264. Healing in Ethnography and Literature. 3 Credits.
This course brings together literary and ethnographic methods to explore narratives of illness, suffering, and healing, and medicine’s roles in these processes. Themes include illness narratives, outbreak narratives, collective memory and healing from social trauma, and healers’ memoirs.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.
Same as: ANTH 272.

ENGL 265. Literature and Race, Literature and Ethnicity. 3 Credits.
Considers texts in a comparative ethnic/race studies framework and examines how these texts explore historical and contemporary connections between groups of people in the United States and the Americas. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, US.
Grading Status: Letter grade.

ENGL 266. Science and Literature. 3 Credits.
Introductory exploration of the relation between science and literature, as well as the place and value of both in the contemporary world. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 267. Growing Up Latina/o. 3 Credits.
This interdisciplinary course will examine what it means to grow up Latina/o through an exploration of childhood narratives, linguistic debates, education policies and legislation, and censored books.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, US.
Grading Status: Letter grade.
ENGL 268. Medicine, Literature, and Culture. 3 Credits.
An introduction to key topics that focus on questions of representation at the intersections of medicine, literature, and culture. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 269. Introduction to Disability Studies. 3 Credits.
This course will introduce students to the key critical concepts, debates, and questions of practice in the emerging scholarly field of disability studies.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.
Making Connections Gen Ed: LA, US.
Grading Status: Letter grade.

ENGL 270. Studies in Asian American Literature. 3 Credits.
This course introduces students to the study of Asian American literature and culture. The focus of the course may include examining coming-of-age novels, immigration narratives, or other genre explorations.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, US.
Grading Status: Letter grade.

ENGL 271. Mixed-Race America: Race in Contemporary American Literature and Culture. 3 Credits.
This service-learning course is partnered with a charter school, and together UNC-Chapel Hill and high school students will explore issues of race in American literature and culture.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, EE- Service Learning, US.
Grading Status: Letter grade.

ENGL 272. Studies in African American Authors. 3 Credits.
This course focuses on the life and writings of a specific African American author. In addition to examining numerous texts by the author, we will consider the cultural, political, and artistic contexts that shaped the author’s work. Fulfills a major core requirement.

Rules & Requirements
Making Connections Gen Ed: LA, US.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 274. Drama: PlayMakers Current Season. 3 Credits.
Approaches to the literary interpretation of drama through consideration of PlayMakers Repertory Company’s current season, stressing original research into literary history, genre, and social and cultural contexts.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 276. Migration and Globalization. 3 Credits.
Covers literary and other social texts associated with the legacies of population transfers and the movements, forced or voluntary, of people across borders. Course previously offered as ENGL 365.

Rules & Requirements
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.

ENGL 279. Irish Writing, 1800-2000. 3 Credits.
This course introduces major texts and current themes, from Joyce to the postcolonial, in Irish writing from 1800 to 2000.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 282. Travel Literature. 3 Credits.
Students will analyze and compose various types of travel literature, such as voyage, pilgrimage, and tour, in terms of literary conventions, historical conditions, and considerations of gender, ethnicity, economics, empire, and religion. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.

ENGL 283. Life Writing. 3 Credits.
Students will analyze and compose different forms of life writing such as autobiography, biography, and autoethnography. Readings will include theories of autobiography and selected literature. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-CREATE.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 284. Reading Children’s Literature. 3 Credits.
An overview of the tradition of children’s literature, considering the ways those books point to our basic assumptions about meaning, culture, self, society, gender, economics.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.
ENGL 288. Literary Modernism. 3 Credits.
In this course students will read early 20th-century poetry, fiction, films, and criticism, and consider the ways these works constituted, defined, and challenged the phenomenon known as literary modernism.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
- Making Connections Gen Ed: LA, NA.
- Grading Status: Letter grade.

ENGL 289. Jewish American Literature and Culture of the 20th Century. 3 Credits.
Through readings in a wide range of genres, this course will examine major factors and influences shaping Jewish American literature and culture in the 20th century.

Rules & Requirements
- Making Connections Gen Ed: LA, NA.
- Grading Status: Letter grade.
- Same as: JWST 289.

ENGL 290. Engaging Topics in English Studies. 3 Credits.
Focused study of a popular genre, cultural context, group of writers, or contemporary issue in literature and/or composition.

Rules & Requirements
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.

ENGL 291. Picture Books. 3 Credits.
A survey of illustrated books for children in Britain and America considering both image and text.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
- Making Connections Gen Ed: LA.
- Grading Status: Letter grade.

ENGL 292. Youth in Culture. 3 Credits.
An examination of youth in culture through a range of texts that focus on the aesthetic, historical, and social factors grounding the depiction of youth in the past and its experience and representation today. The course stresses original student research and oral and written presentation.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
- Grading Status: Letter grade.

ENGL 293. Internship for Credit. 3 Credits.
An opportunity to gain credit for an internship in a field related to the study of English, such as publishing, teaching, business writing, or law. Available to majors with at least a 2.5 GPA. Requirements include portfolio of work completed for the internship, meetings with the academic advisor, and a 4000-word writing project related to the internship.

Rules & Requirements
- Requisites: Prerequisite, Two ENGL or CMPL courses at any level.
- Grading Status: Pass/Fail.

ENGL 295. Undergraduate Research Seminar. 3 Credits.
Guides students through the processes of developing an original research topic, conducting research, and analyzing research, leading students to produce a high-quality presentation of their findings. Topic varies by instructor but may focus on literary studies or closely-related arenas such as medical humanities, digital humanities, and creative writing, among others. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: RESEARCH.
- Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
- Grading Status: Letter grade.

ENGL 300. Professional Writing and Editing. 3 Credits.
Advanced practice with writing for professional audiences, based on attention to theories of genre, audience, rhetoric, and style. Students will develop skills in professional writing, editing, copyediting, proofreading, and publishing.

Rules & Requirements
- Making Connections Gen Ed: CI.
- Grading Status: Letter grade.

ENGL 300I. Professional Writing in Health and Medicine (Interdisciplinary). 3 Credits.
Advanced practice with writing about health from medical and humanistic perspectives, ranging from grant proposals to qualitative research articles to the personal illness narrative.

Rules & Requirements
- Making Connections Gen Ed: CI.
- Grading Status: Letter grade.

ENGL 301. Professional Writing in the Arts. 3 Credits.
A course focused on writing in professional settings focused on the arts and humanities. Students will compose documents such as funding proposals, performance reviews, artists’ statements, or promotional educational materials. Includes oral, written, and digital compositions.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH.
- Making Connections Gen Ed: LA, CI.
- Grading Status: Letter grade.

ENGL 302. Professional Communication for Social Movements. 3 Credits.
Advanced course focused on writing for professional audiences in nonprofit, public policy, social justice, and social entrepreneurship settings. Includes oral, written, and digital compositions. Students will compose documents such as grant proposals, policy reports, websites, public presentations, or multimedia videos to advance social causes.

Rules & Requirements
- IDEAs in Action Gen Ed: COMMBEYOND.
ENGL 303. Scientific and Technical Communication. 3 Credits.
Advanced course focused on adapting scientific and technical content to public or non-expert audiences in oral, written, and digital forms. Assignments may include composing professional reports, developing multimedia instructions for a product, or developing an interactive exhibit.

Rules & Requirements
IDEAs in Action Gen Ed: COMMBEYOND.
Making Connections Gen Ed: CI.
Grading Status: Letter grade.

ENGL 304. Advanced Business Communication. 3 Credits.
Advanced practice with business and professional oral, written, and multimedia forms. Students will develop business proposals, reports, plans, and professional oral presentations for professional audiences.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING, COMMBEYOND.
Making Connections Gen Ed: CI.
Grading Status: Letter grade.

ENGL 305. Advanced Legal Communication. 3 Credits.
Advanced practice with oral, written, and digital composition for legal settings.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: CI.
Grading Status: Letter grade.

ENGL 306. Playwriting. 3 Credits.
A workshop for people interested in writing plays, focusing on elements that make them work on stage, such as characterization, climax, dialogue, exposition, momentum, setting, and visual effects.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: CI.
Grading Status: Letter grade.

ENGL 307. Studies in Fiction and Poetry: Stylistics. 3 Credits.
An occasional intermediate course that may focus on such topics as living writers, poetic forms, flash fiction, or imitation. Permission of the program director.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA.
Same as: FOLK 310.
Grading Status: Letter grade.

ENGL 308. Gram-O-Rama: Grammar in Performance. 3 Credits.
Studies of syntax, parts of speech, types of sentences, wordplay, the narrative and non-narrative power of words, prose style, and the relationships between language, rhythm, and culture culminate with students performing a selection of the comedic and dramatic sketches written during the semester.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: VP, CI, EE- Performing Arts.
Grading Status: Letter grade.

ENGL 309. Theatrical Writing for the Puppet Stage. 3 Credits.
Instructor permission required. This course emphasizes puppetry arts as an expression of literary craft, offering students an immersive, collaborative experience in dramatic writing culminating in scripts acted by puppets. Writing focus will be elements of scene, including character and plot development, and communication by gesture. Puppet building from recyclable materials.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE, HI-PERFORM.
Making Connections Gen Ed: VP, CI, EE- Performing Arts.
Grading Status: Letter grade.

ENGL 310. Fairy Tales. 3 Credits.
A study of fairy tales as historical artifacts that reveal the concerns of their times and places, as narrative structures capable of remarkable transformation, and as artistic performances drawing upon the expressive resources of multiple media, intended to challenge conventional presuppositions about the genre.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 312. Oral Presentations in the Professional World. 3 Credits.
Students will focus on learning skills and strategies to deliver effective oral presentations. The course will be organized around an individual research project that will culminate in a major presentation following the "best practices" of that discipline. During the semester, students will deliver presentations of various lengths and genres and will learn effective use of media support. Course standards will emphasize professional-level expectations and current "best practices" in the field.

Rules & Requirements
Requisites: Prerequisite, ENGL 105.
Grading Status: Letter grade.
ENGL 317. Writing and Social Networks. 3 Credits.
This class explores writing in and about contemporary social media spaces. The course focuses on developing writing projects that study and participate in online social networks. Topics include the rhetoric of the Internet; collaboration online; information ethics; amateur content creation; networks and social interaction; networks and literacy; data and privacy; and remix composition.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: LA, VP.
Grading Status: Letter grade.

ENGL 318. Multimedia Composition. 3 Credits.
This class studies composing in a variety of modes, including visuals, moving images, gestures, sounds, and words. Students develop projects using image, audio, and video editors, examining how multimedia fits within the history of rhetoric and writing and relates with concerns such as purposes, audiences, contexts, arguments, genres, and mediums. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA, VP.
Grading Status: Letter grade.

ENGL 323. American Cinema of the 1970s: New Hollywood and Beyond. 3 Credits.
This course examines one of the most adventurous decades in U.S. film history, from the “Auteur Renaissance,” to independent cinema, through to the politically conscious reconfiguration of popular genres. Films are discussed in the context of social changes and anxieties in the years surrounding Watergate and the Vietnam War.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 324. Creating the Video Essay. 3 Credits.
This instructional course gives students the opportunity to make video essays. Students learn how to use creative audiovisual media tools, in particular those related to the moving image. Students gain familiarity with digital production and editing technology, which they use as instruments of critical expression and argumentation.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, CI.
Grading Status: Letter grade.

ENGL 325. Shakespeare and His Contemporaries. 3 Credits.
This course explores the wide range of drama produced in England between the 1570s and 1640s, including work by Shakespeare and his many rivals. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, VP.
Grading Status: Letter grade.

ENGL 327. Renaissance Literature and Its Intellectual Contexts. 3 Credits.
An introduction to one or two intellectual movements of the Renaissance, such as humanism, the protestant reformation, the baroque, or the scientific revolution, through the examination of both literary and non-literary texts of the period.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.

ENGL 329. Medieval Feminisms. 3 Credits.
This course explores the contributions of the Middle Ages, and of medieval women, to the history of feminism and women's writing. Over the course of the semester, we will explore four different types of work by and about women: literary writing, theological writing, life writing, and the performance of identity and dramatic character. Along the way, we will also read selections from contemporary feminist theory, including Sara Ahmed, Lauren Berlant, Luce Irigaray, and Judith Butler.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.

ENGL 330. Perspectives on the Renaissance. 3 Credits.
A survey of British literature from Dryden to Paine. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.

ENGL 331. 18th-Century Literature. 3 Credits.
A survey of British literature from Dryden to Paine. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 333. The Romantic Revolution in the Arts. 3 Credits.
This course examines the technical and aesthetic revolutions in the fine arts of the English Romantic Period, focusing on lyrical poetry, landscape painting, and original printmaking and works by Wordsworth, Turner, and Blake. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.
ENGL 342. Nineteenth-Century American Poetry Archives. 3 Credits.
Rather than surveying poetry before 1900, this course will focus on 2-3 writers and study their work in depth. Assignments—including close readings, a proposal, and a draft—will prepare for a final 10-page essay. The course strengthens writing skills by developing a major project in stages. It also teaches formal, historical and materialist approaches to literary analysis. Possible authors include Emily Dickinson, Walt Whitman, Paul Laurence Dunbar, Frances Ellen Watkins Harper, and Edgar Allan Poe.

Rules & Requirements
Grading Status: Letter grade.

ENGL 346. U.S. Literature on Page and Screen. 3 Credits.
This course pairs selected canonical works of U.S. literature (short stories, poems, essays, and short novels) with films that adapt or translate the original text for cinema. Works range from westerns and war movies to psychological thrillers, biopics, and comedies. By comparing text and film, the course deepens students' understanding of both aesthetic forms and traces the sometimes conflicting ideals, myths, and narratives that gave shape to different historical versions of American national identity. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Requisites: Prerequisite, ENGL 105 or ENGL 105I.
Grading Status: Letter grade.

ENGL 351. From Manuscript to Press: Writer as Publisher. 3 Credits.
Students learn the basics of book production, including acquisitions, developmental editing, copy editing, layout and book design, marketing, and digital publication by working on titles in production at a national press and meeting with professionals in the industry.

Rules & Requirements
Making Connections Gen Ed: CI.
Requisites: Prerequisites, ENGL 130, 131, 132H, 133H, or 138.
Grading Status: Letter grade.

ENGL 356. British and American Fiction Since World War II. 3 Credits.
Course studies contemporary British and American fiction through representative works. Intellectual and aesthetic, historical and cultural emphases. May include works from the Anglophone diaspora. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 357. 20th-Century British Literature and Culture. 3 Credits.
This course examines factors shaping British/Commonwealth literature in the 20th century, especially the world wars and the dismantling of the British Empire. We will investigate themes of both nostalgia and anticipation: ways of remembering the past of England and the Empire, and of describing the future of British culture(s).

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 358. Contemporary US Poetry. 3 Credits.
This course will focus on important poets and poetic movements in the United States in the long twentieth century. Special attention paid to writings by poets about what poetry is and does: critiquing social injustice, expressing alternative identities, exploring disordered mental states, communicating otherwise unintelligible experiences, etc. Movements may include: the Harlem Renaissance, Modernism, Confessionalism, the Black Arts Movement. We will also read poets who don't belong to any movement and poets writing today.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Grading Status: Letter grade.

ENGL 359. Latina Feminisms. 3 Credits.
This course introduces students to United States Latina feminist theories, literatures, and cultures. Through a blend of genres, students explore historical foundations of Latina feminisms, examining the relationship between Latina feminisms and United States Third World feminisms, and analyze literary and cultural representations of feminist praxis.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Grading Status: Letter grade.

ENGL 360. Contemporary Asian American Literature and Theory. 3 Credits.
This course will explore contemporary Asian American literature and theory and will examine how Asian American literature fits into, yet extends beyond, the canon of American literature.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, US.
Grading Status: Letter grade.

Same as: ASIA 360.

ENGL 361. Asian American Women's Writing. 3 Credits.
This course covers writings by Asian American women and examines issues of gender, race, and sexuality.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, CI, US.
Grading Status: Letter grade.

Same as: WGST 361.

ENGL 362. Asian American Literature and History. 3 Credits.
This course focuses on events of particular import in Asian American history and how they are recounted in a variety of interdisciplinary texts. Events may include the Japanese American incarceration, refugee movements, immigration, or others, at the instructor's discretion. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, US.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading Status: Letter grade.
ENGL 363. Feminist Literary Theory. 3 Credits.
Theories of feminist criticism in relation to general theory and women's writing. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.
Same as: WGST 363.

ENGL 365H. Migration and Globalization. 3 Credits.
Covers literary works associated with one or more of the major historical migrations, forced and voluntary, and present-day works engaged with globalization.

Rules & Requirements
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.

ENGL 367. African American Literature to 1930. 3 Credits.
Survey of writers and literary and cultural traditions from the beginning of African American literature to 1930. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 368. African American Literature, 1930-1970. 3 Credits.
Survey of writers and literary and cultural traditions from 1930 to 1970. Honors version available.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 369. African American Literature, 1970 to the Present. 3 Credits.
Survey of writers and literary and cultural traditions from 1970 to the present. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 370. Race, Health, and Narrative. 3 Credits.
This interdisciplinary course explores how issues of health, medicine, and illness are impacted by questions of race in 20th-century American literature and popular culture. Specific areas covered include pain, death, the family and society, reproduction, mental illness, aging, human subject experimentation, the doctor-patient relationship, pesticides, and bioethics. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, CI, US.
Grading Status: Letter grade.

ENGL 371. The Place of Asian Americans in Southern Literature. 3 Credits.
This course will consider the themes of globalization and regionalism through an examination of narratives featuring Asians/Asian Americans in the American South. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, CI, US.
Grading Status: Letter grade.

ENGL 372. Southern American Literature. 3 Credits.
An introduction to Southern literature, with emphasis on the 20th-century: fiction, poetry, drama, essays. Representative authors include Faulkner, Wolfe, Williams, Warren, Hurston, Wright, Ransom, Tate, Welty, Chappell, McCullers, O’Connor. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 374. Southern Women Writers. 3 Credits.
The study of fiction, poetry, plays, and essays by Southern American women writers of the past 200 years, continuing to the present.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 375. Film Criticism. 3 Credits.
An introduction to the history and practice of film criticism.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

ENGL 377. Introduction to the Celtic Cultures. 3 Credits.
A broad survey of the cultures of the Celtic-speaking areas, notably Ireland, Wales, Scotland, and Brittany, with special emphasis on language and literature.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.
Same as: WGST 374.

ENGL 378. Topics In Film History. 3 Credits.
This course examines one or more topics in film history, focusing on specific periods. The scope may be national or transnational. Films are analyzed for how they address and reflect key historical developments. Restricted to any undergraduate student who is a Sophomore, Junior, or Senior with a GPA of 3.0 or higher, OR any First-Year student. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: VP.
Grading Status: Letter grade.
ENGL 381. Literature and Cinema. 3 Credits.
The course introduces students to the complex narrative, aesthetic, and rhetorical relationship between literature and cinema.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

ENGL 382. Literature and Media. 3 Credits.
This course investigates the rich and complex relationship between literature and other mass media. Previously offered as ENGL 281. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 384. Podcasting. 3 Credits.
This class studies the composition and development of podcasts, paying attention to the unique affordances and drawbacks of podcast technologies. Students develop, research, script, and record podcasts in several genres, including topical, interview, and storytelling formats, while learning practical editing techniques using industry-standard software.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 385. Literature and Law. 3 Credits.
Explores various connections of literature and law, including literary depictions of crime, lawyers, and trials; literary conventions of legal documents; and/or shared problems in interpretation of law and literature.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-VALUES.
Grading Status: Letter grade.

ENGL 386. Gender, Sexuality, and the South Asian Diaspora. 3 Credits.
This course explores how gender and sexuality shapes the literature, politics, and public culture of South Asian immigrant communities in Europe, Africa, the Americas, and other locations outside the Indian subcontinent.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, BN.
Grading Status: Letter grade.

ENGL 387. Canadian Literature. 3 Credits.
A study of Canadian literature in English from the late 18th century to the present, with emphasis on 20th-century writing and on the novel.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 388. Modernism: Movements and Moments. 3 Credits.
What was modernism? When was modernism? Where was modernism? Reading literature and visual art from 1890 to 1940 in Europe, America, and Africa will be key to finding answers.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

ENGL 389. Major Film Directors. 3 Credits.
This course introduces students to the aims and concerns of authorship study in film through discussion of a major filmmaker's body of work. The course may focus predominantly on a single figure or may compare two or more figures who share certain affinities of theme or style.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 390. Studies in Literary Topics. 3 Credits.
An intensive study of a single writer, group, movement, theme, or period. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading Status: Letter grade.

ENGL 392. Professional Writing Portfolio Development and Publication. 3 Credits.
Students research, refine, and compose a portfolio of advanced written work for professional audiences or publication. Each portfolio will contain an array of written work that demonstrates the student's versatility as a writer, researcher, and editor. The portfolio is intended for presentation to professional audiences, potential employers, prospective graduate programs, and/or publication. Previously offered as ENGL 492.

Rules & Requirements
Making Connections Gen Ed: CI.
Grading Status: Letter grade.

ENGL 396. Directed Readings in English or Creative Writing. 3 Credits.
Permission of the department. Intensive reading on a particular topic under the supervision of a member of the staff.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading Status: Letter grade.
ENGL 399. Cinema and the Museum. 3 Credits. Museums have long been considered repositories for artifacts and sites of pedagogy, far removed from contemporary visual practices. And yet, today's museums are full of moving images, from interactive displays to IMAX theaters to screen-based art. In this class we will consider interactions between the cinema and the museum. Topics to be addressed include immersive viewing technologies, film and ethnography, expanded cinema, virtual reality, and installation art. This course includes visits to campus museums.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses
ENGL 400. Advanced Composition for Teachers. 3 Credits. This course combines frequent writing practice with discussions of rhetorical theories and strategies for teaching writing. The course examines ways to design effective writing courses, assignments, and instructional materials.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Grading Status: Letter grade.

ENGL 402. Investigations in Academic Writing and Writing Centers. 3 Credits. This course considers learning to write from three vantage points: personal, social, and contextual. Emphasis on theory, reflective practice, and pedagogy for peer tutoring.

Rules & Requirements
Making Connections Gen Ed: CI.
Grading Status: Letter grade.

ENGL 403. Rhetoric and Social Justice. 3 Credits. How do communities resist oppression through writing? This course examines texts and methods related to the study of social movements. Students will work with archival materials at Wilson Library to research social justice movements at UNC and in the South. Previously offered as ENGL 316. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Grading Status: Letter grade.

ENGL 404. Advanced Creative Nonfiction. 3 Credits. In addition to surveying key works of creative nonfiction throughout the ages - from Montaigne in the 16th century to Solnit, Rankine, and Urrea in the 21st - we will be composing (and peer-reviewing) our own explorations of every subgenre, including memoir, literary journalism, travel writing, flash nonfiction, and the lyric essay, with an eye toward publication.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Grading Status: Letter grade.

ENGL 406. Advanced Fiction Writing. 3 Credits. Permission of the program director. A continuation of the intermediate workshop with emphasis on the short story and novella. Extensive discussion of student work and revisions in class and in conferences with instructor.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 407. Advanced Poetry Writing. 3 Credits. Permission of the program director. A continuation of the intermediate workshop, with increased writing and revising of poems. Extensive discussion of student poetry in class and in conferences with instructor.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 408. Collaboration: Composers and Lyricists. 3 Credits. This is a course in popular-songwriting collaboration, a workshop with constant presentation of original songs and close-critiquing of these assignments. Varied assignments including songs for soloists, duos, trios, quartets, and chorus; ballads, folk, jazz, blues, art, and musical-theater songs, etc.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: VP, CI.
Grading Status: Letter grade.

ENGL 409. Lyrics and Lyricists: A Collaborative Exploration of the Processes of Popular-Song Lyric Writing. 3 Credits. This course is a collaborative exploration of popular-song lyric writing, requiring numerous drafts written to varied existing musical models—narrative ballads; hymns; folk, theater, jazz, art, R&B, R&R, and worldbeat songs, etc—to be tried out and worked on in class, as well as in conference.

Rules & Requirements
Making Connections Gen Ed: VP, CI.
Grading Status: Letter grade.

ENGL 410. Documentary Film. 3 Credits. This course provides a history of documentary cinema since the beginnings of the medium and surveys different modes and theoretical definitions; or the course may focus largely on a certain mode (such as ethnographic, observational, first-person, cinema vérité, politically activist, found footage compilation, or journalistic investigation). Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: VP.
Grading Status: Letter grade.
ENGL 411. Writing for Clients: Technical Communication Practicum. 3 Credits.
This advanced technical writing course will help you develop skills in developing professional documents with a focus on document design, user experience, project management, and technical editing. You will assess the documentation needs for a client, propose a document or set of documents to fulfill that need, and then produce polished, professional documents for that client. These materials will lead to a professional portfolio you can share with potential employers.

Rules & Requirements
- Making Connections Gen Ed: CI.
- Grading Status: Letter grade.

ENGL 430. Renaissance Literature--Contemporary Issues. 3 Credits.
This course examines Renaissance literature through the lens of cultural themes, issues, and problems that were important to Renaissance authors and readers. Texts may be drawn from, among others, the English, French, German, Italian, and Spanish literary traditions, and may range in date from the 15th to the 17th centuries.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH.
- Making Connections Gen Ed: LA, NA, WB.
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.

ENGL 437. Chief British Romantic Writers. 3 Credits.
Survey of works by Blake, Wordsworth, Coleridge, Byron, Percy and Mary Shelley, Keats, and others. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH.
- Making Connections Gen Ed: LA, NA.
- Grading Status: Letter grade.

ENGL 443. American Literature before 1860--Contemporary Issues. 3 Credits.
A junior- or senior-level course devoted to in-depth exploration of an author, group of authors, or topic in American literature to 1860. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST.
- Making Connections Gen Ed: LA, NA.
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.

ENGL 444. American Literature, 1860-1900--Contemporary Issues. 3 Credits.
Intensive study of one or more authors or a topic in American literature from the Civil War through 1900. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
- Making Connections Gen Ed: LA, NA.
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.

ENGL 445. American Literature, 1900-2000--Contemporary Issues. 3 Credits.
A junior- or senior-level course devoted to in-depth exploration of an author, group of authors, or a topic in American literature from 1900 to 2000. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH.
- Making Connections Gen Ed: LA, NA.
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.

ENGL 446. American Women Authors. 3 Credits.
American women authors from the beginnings to the present. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH.
- Making Connections Gen Ed: LA, NA.
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.

ENGL 447. Memory and Literature. 3 Credits.
This course brings together theories of collective and individual memory with questions of aesthetics and narrative while exploring global connections between memory and literature.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
- Making Connections Gen Ed: LA.
- Grading Status: Letter grade.

ENGL 466. Literary Theory--Contemporary Issues. 3 Credits.
Examines current issues in literary theory such as the question of authorship, the relation of literary texts to cultural beliefs and values, and to the formation of identities. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
- Making Connections Gen Ed: LA.
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.

ENGL 467. Educating Latinas/os: Preparing SLI Mentors. 3 Credits.
Permission of the instructor. Designed for students accepted as mentors to the Scholars' Latino Initiative (SLI). Students will take this course during their first year as SLI mentors to prepare them as effective mentors to Latina/o high school students. Students cannot receive credit for both ENGL 267 and 467.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
- Grading Status: Letter grade.
ENGL 472. African American Literature--Contemporary Issues. 3 Credits.
Study of particular aspects of African American literature, such as the work of a major writer or group of writers, an important theme, a key tradition, or a literary period. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH.

Making Connections Gen Ed: LA, NA.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 473. The Changing Coasts of Carolina. 3 Credits.
A rigorous combination of field work, lab work, and colorful, original contemporary writing on the natural world will help tell the story of our many, evolving North Carolina coast. Combining marine science and the creative literary arts, this immersive course will explore issues of change over many eras. This combination of social, cultural, and scientific observation will lead to imaginatively constructed, well-written non-fiction reportage about one of North America’s most productive, compelling, and challenging regions.

Rules & Requirements
- Grading Status: Letter grade.
- Same as: MASC 473.

ENGL 475. Southern Literature--Contemporary Issues. 3 Credits.
The study of a particular topic or genre in the literature of the United States South, more focused than students will find in ENGL 373.

Rules & Requirements
- Making Connections Gen Ed: LA, NA.
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.

ENGL 480. Digital Humanities History and Methods. 3 Credits.
Students will explore the history of computer-assisted humanities scholarship, from its beginnings in computational linguistics, media studies, and humanities computing to its current incarnation as "digital humanities." The course will provide an introduction to the field and to digital research methodologies and prepare students to develop their own digital projects. Previously offered as ENGL 530.

Rules & Requirements
- Making Connections Gen Ed: LA, CI.
- Grading Status: Letter grade.

ENGL 482. Metadata, Mark-up, and Mapping: Understanding the Rhetoric of Digital Humanities. 3 Credits.
This Course-based Undergraduate Research Experience (CURE) course interrogates the rhetoric of data construction and management by positioning students as "critical makers" in a digital humanities project. Previously offered as ENGL 353.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-QUANT.

Grading Status: Letter grade.

ENGL 487. Everyday Stories: Personal Narrative and Legend. 3 Credits.
Oral storytelling may seem old-fashioned, but we tell true (or possibly true) stories every day. We will study personal narratives (about our own experiences) and legends (about improbable, intriguing events), exploring the techniques and structures that make them effective communication tools and the influence of different contexts and audiences.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.

Making Connections Gen Ed: CI, US.
Grading Status: Letter grade.
Same as: FOLK 487.

ENGL 488. Critical Security Studies. 3 Credits.
Introduces major topics in the interdisciplinary field of critical security studies. Critically analyzing the public construction of risk and security in military, technological, informational, and environmental domains, the course explores major theories that attempt to make sense of the transnational proliferation of violence and risk in historical and contemporary contexts.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.

Making Connections Gen Ed: CI, GL.
Grading Status: Letter grade.
Same as: PWAD 484.

ENGL 489. Science, Medicine, and Cultural Studies--Contemporary Issues. 3 Credits.
The student will have an opportunity to concentrate on researching topics and texts central to the study of health, medicine, culture, and ethics. Central topics may include representations of genetics, cloning, reproduction, and biotechnology. Honors version available.

Rules & Requirements
- Making Connections Gen Ed: LA.
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.

ENGL 490. Creative Writing: Special Topics. 3 Credits.
Permission of the program director. An occasional advanced course, which may focus on such topics as advanced creative nonfiction, editing and publishing, the lyric in song and collaboration between lyricists and composers, the one-act play, and short-short fiction.

Rules & Requirements
- Making Connections Gen Ed: LA.
- Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
- Grading Status: Letter grade.
ENGL 494. Research Methods in Film Studies. 3 Credits.
This course introduces students to research methods in film studies. While this course will provide a broad survey of methods one might employ in film studies research of all kinds, the course may be restricted to a particular research topic.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING, RESEARCH.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 495. Mentored Research. 1-3 Credits.
Recommended for students in junior or senior year of study. Intensive mentored research, service learning, field work, or creative work. Requires 30 hours of research, writing, or experiential activities, culminating in a written project.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

ENGL 564. Interdisciplinary Approaches to Literature. 3 Credits.
Examines the ways knowledge from other disciplines can be brought to bear in the analysis of literary works. Questions of disciplinary limits and histories will also be addressed.

Rules & Requirements
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

ENGL 583. Drama on Location. 3 Credits.
Offered as part of summer study abroad programs in Oxford, London, and Stratford-on-Avon. Students experience plays in performance and as texts, and discuss their literary, dramatic, cultural, and historical aspects. Honors version available.

Rules & Requirements
Making Connections Gen Ed: VP, EE- Study Abroad.
Grading Status: Letter grade.

ENGL 610. Practicum in Health Humanities. 3 Credits.
This course introduces advanced undergraduate and graduate students to topics, methods, and concepts in health humanities through practical learning experiences.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: CI.
Requisites: Pre- or corequisite, ENGL 268.
Grading Status: Letter grade.

ENGL 611. Narrative, Literature, and Medicine: Advanced Interdisciplinary Seminar. 3 Credits.
Sociologist Arthur Frank asserts that "whether ill people want to tell stories or not, illness calls for stories." This seminar explores narrative approaches to suffering, healing, and medicine's roles in these processes. Students learn literary and anthropological approaches to examine medically themed works from a range of genres.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: PH, CI, US.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 619. Survey of Old and Middle English Literature. 3 Credits.
An introduction to English literature from the eighth to the fifteenth century, focusing on the primary works of Old English and Middle English literature.

Rules & Requirements
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.

ENGL 620. Introduction to Old English Language and Literature. 3 Credits.
Students will learn to read Old English, the Germanic language spoken by the Anglo-Saxons in Britain from about the middle of the fifth century until the time of the Norman Conquest. Students will study Beowulf, "Caedmon's Hymn", and other selections in poetry and prose.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
Making Connections Gen Ed: LA, WB.
Grading Status: Letter grade.

ENGL 621. Arthurian Romance. 3 Credits.
British and continental Arthurian literature in translation from the early Middle Ages to Sir Thomas Malory.

Rules & Requirements
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.
Same as: CMPL 621.

ENGL 630. Shakespeare and His Contemporaries. 3 Credits.
This course will examine drama written and performed in England from 1570 to 1640, situating Shakespeare's plays in relation to others in his generation.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.
ENGL 638. 19th-Century Women Writers. 3 Credits.
An investigation of important texts by 19th-century women writers that considers issues of gender in relation to other important considerations—tradition, form, culture—with an introduction to the chief scholarly and critical problems of this period.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, CI, NA.
Grading Status: Letter grade.

ENGL 659. War in 20th-Century Literature. 3 Credits.
A study of literary works written in English concerning World War I, or the Spanish Civil War and World War II, or the Vietnam War. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.
Same as: PWAD 659.

ENGL 660. War in Shakespeare's Plays. 3 Credits.
The focus is on Shakespeare's various treatments of war in his plays: all his Roman histories, most of his English histories, all his tragedies, even some of his comedies.

Rules & Requirements
Grading Status: Letter grade.
Same as: PWAD 660.

ENGL 661. Introduction to Literary Theory. 3 Credits.
Examines contemporary theoretical issues and critical approaches relevant to the study of literature.

Rules & Requirements
Grading Status: Letter grade.
Same as: PWAD 661.

ENGL 665. Queer Latina/o Literature, Performance, and Visual Art. 3 Credits.
This course explores literature, performance art, film, and photography by Latinas and Latinos whose works may be described as "queer" and that question terms and norms of cultural dominance.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: VP, NA, US.
Grading Status: Letter grade.
Same as: WGST 665.

ENGL 666. Queer Latina/o Photography and Literature. 3 Credits.
This course explores Latina/o literature about photography in relation to photography by "queer" Latina/o artists and, through this double focus, poses certain questions about identity, subjectivity, and culture.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: VP, NA, US.
Grading Status: Letter grade.
Same as: WGST 666.

ENGL 670. Being and Race in African American Literature. 3 Credits.
An examination of phenomenology, the "philosophy of experience." Taking the perspective that literature helps clarify our experience, we will engage in readings of various genres—poetry, autobiography, fiction, and drama—as we examine how literature not only records experience, but also shapes it through a distinct method of reasoning.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 674. Digital Literature. 3 Credits.
Digital literature explores how literary works are composed for, shaped by, and studied in electronic environments. Course texts range from books to electronic fiction and poetry to video games. Hands-on activities give students a chance to develop their own literary projects—either as electronic literary works or as digital scholarship.

Rules & Requirements
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 675. Teaching Online. 3 Credits.
This course explores issues and methodologies related to online teaching. Topics include instructor-student dynamics in the online classroom, opportunities for extending the classroom through online platforms, trends in online pedagogy, and development of online teaching portfolios.

Rules & Requirements
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.

ENGL 676. Digital Editing and Curation. 3 Credits.
Students will investigate theories and practices of editing in multimedia, digital environments. Students will explore histories of textual editing, research major humanities projects, examine trends and toolsets related to developing scholarly digital materials, and collaborate with one another and with campus entities to develop an online digital humanities project.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.
ENGL 680. Film Theory. 3 Credits.
This course provides a rigorous introduction to various theories (aesthetic, narrative, historical, political, psychological, philosophical) inspired by cinema.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, CI.
Grading Status: Letter grade.

ENGL 681. Topics in Contemporary Film and Media. 3 Credits.
This course examines aesthetic and social aspects of contemporary cinema, television, and/or other media. Previously offered as ENGL 580. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENGL 685. Literature of the Americas. 3 Credits.
Multidisciplinary examination of texts and other media of the Americas, in English and Spanish, from a variety of genres. Two years of college-level Spanish or the equivalent strongly recommended.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.
Same as: AMST 685, CMPL 685.

ENGL 690. Special Topics. 3 Credits.
Selected topics in literary studies, composition, digital media, and related fields. Topic varies by semester.

Rules & Requirements
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Letter grade.

ENGL 691H. English Senior Honors Thesis, Part I. 3 Credits.
Restricted to senior honors candidates. First semester of senior honors thesis. Independent research under the direction of an English department faculty member.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

ENGL 692H. English Senior Honors Thesis, Part II. 3 Credits.
Restricted to senior honors candidates. Second semester of senior honors thesis. Essay preparation under the direction of an English department faculty member.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

ENGL 693H. Creative Writing Senior Honors Thesis, Part I. 3 Credits.
Restricted to senior honors candidates. The first half of a two-semester seminar. Each student begins a book of fiction or creative nonfiction (25,000 words) or poetry (1,000 lines). Extensive discussion of student work in class and in conferences.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

ENGL 694H. Creative Writing Senior Honors Thesis, Part II. 3 Credits.
Restricted to senior honors candidates. The second half of a two-semester seminar. Each student completes a book of fiction, creative nonfiction, or poetry. Extensive discussion of student work in class and in conferences with instructor.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading Status: Letter grade.

ENGL 695. Research Seminar. 3 Credits.
Guides students through the processes of developing an original research topic, conducting research, and analyzing research, leading students to produce a high-quality presentation of their findings. Topic varies by instructor but may focus on literary studies or closely-related arenas such as medical humanities, digital humanities, and creative writing, among others.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

English and Comparative Literature Major, B.A.

English and Comparative Literature majors study literature, film, writing, and media of broad geographic and cultural provenance, so students have opportunities to practice comparative thinking. Moreover, majors write and research about texts, film, and media inflected with markedly different generic and linguistic features, and this variety hones students’ research and writing skills. English and Comparative Literature majors can follow a general course of study or choose to concentrate in one of seven different areas:

- British and American Literature
- Comparative and World Literatures
- Creative Writing
- Film Studies
- Science, Medicine and Literature
- Social Justice and Literature
- Writing, Editing, and Digital Publishing

See the Requirements page for details on the major concentrations.

Student Learning Outcomes

Upon completion of the English and Comparative Literature program, students should be able to:

- Produce clear and persuasive analytical and/or creative writing (that demonstrates the qualities of literature)
- Research productively and effectively
- Read critically
- Compare and analyze texts and contexts
- Explain the significance and value of historical contexts

Particularly at this moment in American culture and history, we believe these skills are essential, both in the workplace and in the public sphere more broadly. The major’s core curriculum ensures that students gain historical breadth in their discipline (in the form of surveys) as well as depth (in courses that focus on a single genre, topic, or author and thus allow for a sustained emphasis on close analysis). Individual concentrations also provide learning outcomes specific to their area of study.

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Concentration (seven courses), see requirements below 2 21

Additional Requirements

At least six (6) courses (out of 10) must be at or above the 200 level.
Of these six (6), at least two (2) courses (out of 10) must be at the 300-level (Writing Intensive) in ENGL or CMPL. ³

Of these six (6), at least one (1) course (out of 10) must be at the 400-level (Research Intensive) in ENGL or CMPL. ³

**Total Hours 30**

³ Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 The concentration in Film and Media Studies includes different core requirements. See the requirements for this concentration below.

2 If no concentration is chosen, select seven (7) electives in ENGL and/or CMPL (excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191).

3 Required for all concentrations except for the Creative Writing concentration.

### Concentration in British and American Literature

In addition to the core curriculum (three courses) and additional requirements described above, students must complete the following requirements.

<table>

Select two (2) additional courses in ENGL and/or CMPL 2  6

Total Hours  21

1 No more than two (2) courses can be taken outside the Department of English and Comparative Literature.
2 Excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191.

Concentration in Comparative and World Literatures
In addition to the core curriculum (three courses) and additional requirements described above, students must complete the following requirements.

Code  Title  Hours
ENGL 100  3
ENGL 105  3
ENGL 105I  3
ENGL 110  3
ENGL 191  3

Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

1 Foreign language departments include Asian Studies, Classics, Germanic and Slavic Languages, Romance Studies.
2 At least one course should be focused on literature written in the original language.

Concentration in Film Studies
The film studies concentration focuses on the history, theory, analysis, and politics of cinema in a global context. Students become conversant with the evolution of film genres, styles, and traditions, while exploring relationships between film and other artistic forms, including literature, painting, photography, television, and digital video. This concentration enables students to gain skills of audiovisual literacy that are necessary for navigating the many screens of our modern world.

Students pursuing the film studies concentration do not follow the core requirements described above. Instead, students must complete the following requirements (10 courses):

Code  Title  Hours
Core Requirements
Survey I course (select one):
CMPL 143  History of Global Cinema  3
CMPL 142  Visual Culture II  3
CMPL 150  Critical Theory: Fear, Love, Laughter, and Loss - Film Genres and Spectatorship  3
CMPL 227  Global Authors: The Middle Ages in World Cinema  3
CMPL 255  The Feast in Film, Fiction, and Philosophy  3
CMPL 267  Contemporary German and Austrian Cinema  3

- At least two (2) courses (out of 10) must be at the 300-level (Writing Intensive).
- At least one (1) course (out of 10) must be at the 400-level (Research Intensive).

Total Hours 30

Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Excluding ENGL 100, ENGL 105, ENGL 105I, ENGL 110, and ENGL 191.

Special Opportunities in English and Comparative Literature

Honors in English and Comparative Literature
The department offers at least two honors seminars each semester. In addition, students seeking a degree with honors in English and Comparative Literature (a 3.3 cumulative grade point average and a 3.6 grade point average in major courses required) undertake a year-long independent project during their senior year (ENGL 691H and ENGL 692H or CMPL 691H and CMPL 692H) and usually produce a 40- to 70-page thesis under the direction of a faculty member. Students pursuing a degree with honors normally meet every week with the professors supervising their projects. This opportunity for individually directed research and writing often proves to be a high point of the student’s academic career.

Honors in Creative Writing
See “Creative Writing Minor (p. 463).”

Study Abroad
Some of the best programs offered at the University for study overseas are especially appropriate and useful to majors in the Department of English and Comparative Literature. These include semester or year-long programs at Bristol, Manchester, Sussex, Edinburgh, Glasgow, and certain Australian universities. Students who have a minimum grade point average of 3.3 at the end of their sophomore year can participate in the King’s College Exchange Program at King’s College, London (representing either English or comparative literature). Special opportunities are also available at Oxford University and through the Joint Degree Program with the National University of Singapore. Comparative literature students most frequently travel to non-English-speaking destinations. For information on all overseas programs, see the Study Abroad Office. (http://studyabroad.unc.edu)

Internship Program
Internships are a great way to explore career options before graduation. A major in English and comparative literature, with its focus on writing, oral communication, and research, opens the door to a wide variety of career paths. The Department of English and Comparative Literature provides the opportunity for students to receive credit for an internship that relates to the major.

Department Programs

Majors
- English and Comparative Literature Major, B.A. (p. 453)

Minors
- Comparative Literature Minor (p. 463)
- Composition, Rhetoric, and Digital Literacy Minor (p. 462)
- Creative Writing Minor (p. 463)
- English Minor (p. 465)
- Global Cinema Minor (p. 466)
Comparative Literature Minor

The comparative literature minor offers students flexibility to develop creative approaches to international literature and film, while placing a strong emphasis on foreign language learning and training in theory. The program encourages students to develop rigorous analytic skills and excellent communication skills applicable to a wide range of fields.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Composition, Rhetoric, and Digital Literacy Minor

The minor in composition, rhetoric, and digital literacy emphasizes both conceptual and practical concerns related to composing, digital culture, and communication. Our courses involve hands-on, communication-intensive work and range from advanced writing classes to courses covering networked and multimedia composition.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

The minor requires 15 hours and may be earned by taking five courses in the minor.

Creative Writing Minor

The undergraduate creative writing program at UNC–Chapel Hill is — and has long been — one of the best in the country. Its first-rate faculty and students have published widely, won many prizes, and played a major role in shaping the contemporary literature of North Carolina, the South, and the nation.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

The Creative Writing Program offers a minor in creative writing. The minor requires 15 hours, a total of five courses.

Enrollment in courses beyond the intermediate level is by permission only. Students may declare the minor through Academic Advising. Completion of a minor in creative writing is contingent on the student’s successful advancement through the sequence.

The Creative Writing Program also gives credit toward the minor for several courses offered in other departments, such as DRAM 231, COMM 330, COMM 433, and MEJO 356. To qualify for a degree with honors or highest honors in creative writing, students must maintain a 3.3 grade point average and meet all requirements both to enter and to complete the senior honors seminar (ENGL 693H and ENGL 694H). Students minoring in creative writing and planning to study abroad must plan carefully so that they meet all submission and deadline requirements for applying to successive courses.
To complete the minor, students will complete five (5) courses from one of the following options:

### Combination of Genres:

<table>
<thead>
<tr>
<th>Code</th>

</tr>
<tr>
<td>ENGL 694H</td>
<td>Creative Writing Senior Honors Thesis, Part II</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total Hours:** 15

---

1. No more than two (2) courses can be taken outside the Department of English and Comparative Literature.

ENGL 130, ENGL 131, ENGL 132H, ENGL 133H, and ENGL 138, the introductory classes, are prerequisites to other Creative Writing Program classes. ENGL 130, ENGL 131, and ENGL 138 are open for registration by rising sophomores only during spring semester for the following fall and for current sophomores only during fall semester for the following spring. Rising or current sophomores may register for ENGL 130, ENGL 131, or ENGL 138, but not for more than one of these three courses. Demand by sophomores regularly exceeds the number of seats available. Enrollment of juniors and seniors is on a space-available basis by permission of the instructor, and students may inquire of the instructor during the first week of classes to see if seats are available. ENGL 130, ENGL 131, and ENGL 138 are sometimes offered during summer sessions with no registration restrictions. Please always review summer session course listings for any changes or updates.

Advancement to successive courses in either the fiction or poetry sequence is by recommendation of the student’s previous instructor(s) and by application for both the advanced workshops and senior honors seminars. If possible, the student is assigned to a different instructor for each course. Should students not advance beyond the intermediate level, they may choose to finish the minor with other classes offered in creative writing. Creative writing minors receive priority in all creative writing classes and usually fill all seats.

Students completing the five courses for the minor may take additional creative writing courses only by permission of the director, providing that all other students still completing the minor are served first.
Transfer Students: Important Information

The requirement for taking a minor in creative writing is five courses or 15 semester hours. Students are limited to one creative writing course per semester. Most junior transfer students have four semesters remaining. Junior transfer students wanting to minor in creative writing must either

1. Have an introductory course already on their record that will transfer to Carolina as credit, e.g., an introductory course in fiction writing or poetry writing taken previously at a college or university that is transferring in as credit for ENGL 130 or ENGL 131; OR
2. Take an introductory course via UNC–Chapel Hill Summer School prior to their first fall term at Carolina and be promoted to the next level or to another creative writing class (on a space-available basis) in the fall of their junior year.

Permission to move forward with transfer credit for an introductory course requirement (Option 1 above) will require a review by the creative writing faculty of the syllabus and work completed in the course and is dependent on space availability, which cannot be guaranteed. Students must provide hard copies of syllabi and samples of coursework as early as possible in order to ensure time for review and to schedule a meeting with the director.

Junior transfer students fulfilling one of these two options would be eligible for Advanced Fiction or Poetry (ENGL 406 or ENGL 407) and the senior honors seminars (ENGL 693H and ENGL 694H) if there is space available in Intermediate Fiction (ENGL 206) or Intermediate Poetry (ENGL 207) their first fall semester, and if — on the basis of submitted work reviewed by a committee — they are chosen for those classes. If not, they would need to complete the minor using the multigenre approach.

Note: No more than two creative writing courses from other schools may be counted for credit at UNC–Chapel Hill. At least three of the five courses taken for the minor — courses designated ENGL — must be Creative Writing Program courses taken at Carolina.

Honors in Creative Writing

To qualify for a degree with honors or highest honors in creative writing, students must maintain a 3.3 grade point average and meet all requirements both to enter and to complete the senior honors seminar (ENGL 693H and ENGL 694H).

See the program page here (http://catalog.unc.edu/undergraduate/programs-study/english-major-ba/#opportunitiestext) for additional special opportunities.

Global Cinema Minor

The global cinema minor is an interdisciplinary minor that enables students to explore the changing global face of cinema in its aesthetic, economic, historical, linguistic, literary, and social contexts. Students select a flexible, rigorous, and exciting course of study focused on the place of film within and across human cultures. The minor aims to provide undergraduates with grounding in the history of cinema's development across the world as well as current trends and developments in global film production. The minor places a particular emphasis on the development of students' critical judgment and written expression. Undergraduate students majoring in any academic unit are eligible.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Electives
Latina/o Studies Minor

Latina/o studies is constituted from the transdisciplinary study of Latina/o cultural production and experience in terms of a whole variety of factors. Latinas/os are defined as people of Latin American and Iberian descent living and working or based in the United States, but also moving between the United States and the rest of the Americas. Latina/o studies takes as its primary concern the presence of Latin America, Spain, and the myriad combinations of Hispanic-Native-African-Asian and European non-Hispanic cultures within the borders of the United States. However, Latina/o studies is not confined within those borders to the extent that its subjects of study (and the very creators of the field itself) are in motion and in flux, coming and going, crossing borders and boundaries. In this respect it shares some of the transnational and transcultural scope, momentum, and issues of Latin American studies but with its own foci, its own perspectives. Latina/o studies does not duplicate the work of Latin American studies; it draws on it and complements it.

Latina/o studies encompasses Chicana/o studies, Puerto Rican studies, Cuban American studies, Dominican studies, Central American studies, South American studies, and so forth. It takes into account the cultural production and the socioeconomic and political experiences of a diverse population located in many parts of the country, not just in the Southwest borderlands.

The main stipulation of the minor is that students must take a combination of courses in the humanities (literatures and cultural production) and the social sciences (communities and cultural space), some of which have been designated as core courses and others as electives. Students who feel they need a basic introduction to Latina/o studies should take ENGL 164.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Requirements for the five-course minor in Latina/o studies are as follows:

<table>

### Department Programs

#### Majors
- English and Comparative Literature Major, B.A. (p. 453)

#### Minors
- Comparative Literature Minor (p. 461)
- Composition, Rhetoric, and Digital Literacy Minor (p. 462)
- Creative Writing Minor (p. 463)
- English Minor (p. 465)
- Global Cinema Minor (p. 466)
- Latina/o Studies Minor (p. 468)
- Medicine, Literature, and Culture Minor (p. 469)

### Graduate Programs
- Ph.D. in English and Comparative Literature (http://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/)
- M.A. in English (http://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/) with a Concentration in Literature, Medicine, and Culture

### Medicine, Literature, and Culture Minor

The interdisciplinary honors minor in medicine, literature, and culture was developed in collaboration with Honors Carolina and the Department of Social Medicine in the UNC School of Medicine. It encourages students...
to explore the cultural and historical dimensions of medical practice by viewing the practice of medicine not simply as an application of chemical and biological analyses of and interventions in the functioning of the human body but also as a cultural practice embedded in changing ideas of disease, health, doctors, patients, medical institutions, and ethics. The minor is available to students accepted into Honors Carolina and to any undergraduate student who has achieved and maintains a grade point average of 3.00 or better.

**Requirements**

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor “core” requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.00 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

**H** Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional courses can be applied to the requirements for this minor with the approval of the advisor for the minor.

At least three courses used to fulfill requirements for the minor must be counted exclusively in the minor and cannot be double-counted with a major or second minor. All courses must be taken for a standard letter grade, with the exception of one course (three to four credit hours) of By-Examination (BE) credit.

See the program page here (p. 460) for special opportunities.

**Department Programs**

**Majors**

- English and Comparative Literature Major, B.A. (p. 453)

**Minors**

- Comparative Literature Minor (p. 461)
- Composition, Rhetoric, and Digital Literacy Minor (p. 462)
- Creative Writing Minor (p. 463)
- English Minor (p. 465)
- Global Cinema Minor (p. 466)
- Latina/o Studies Minor (p. 468)
- Medicine, Literature, and Culture Minor (p. 469)

**Graduate Programs**

- Ph.D. in English and Comparative Literature (http://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/)
- M.A. in English (http://catalog.unc.edu/graduate/schools-departments/english-comparative-literature/) with a Concentration in Literature, Medicine, and Culture

Associate Professor
to careers as an environmental lawyer, epidemiologist, or environmental
geneticist, to cite a few examples.

**Majors**

- Environmental Studies Major, B.A. (p. 483)
- Environmental Science Major, B.S. (p. 491)
- Dual Bachelor's-Master's Degree Programs (p. 490)

**Minors**

- Environmental Science and Studies Minor (p. 499)
- Food Studies Minor (p. 500)
- Sustainability Studies Minor (p. 501)

**Graduate Programs**

- Doctor of Philosophy (http://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext)
- Master of Science (http://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext)
- Master of Arts (http://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext)

**Affiliated Professors**

Carol Arnosti (Earth, Marine, and Environmental Sciences), Todd Bendor (City and Regional Planning), Larry Benninger (Earth, Marine, and Environmental Sciences), John Bruno (Biological), Jaye Cable (Earth, Marine, and Environmental Sciences), Jim Costa (Western Carolina University), Barbara Entwistle (Sociology), Pat Gensel (Biological), Donald Hornstein (School of Law), Allen Hurlbert (Biological), Rich Kamens (Environmental Sciences and Engineering), Andrew Keeler (East Carolina University), Joel Kingsolver (Biological), Chip Konrad (Geography), Jonathan Lees (Earth, Marine, and Environmental Sciences), Paul Leslie (Anthropology), Richard Luettich (Institute for Marine Sciences), Doug MacLean (Philosophy), Christopher Martens (Earth, Marine, and Environmental Sciences), Brent McKee (Earth, Marine, and Environmental Sciences), Timothy McKeown (Political Science), Charles Mitchell (Biological), Laura J. Moore (Earth, Marine, and Environmental Sciences), Tamlin Pavelesky (Earth, Marine, and Environmental Sciences), Rachel Noble (Institute for Marine Sciences), Hans Paerl (Institute for Marine Sciences), David Pfennig (Biological), Karin Pfennig (Biological), Michael Pielihier (Institute for Marine Sciences), Jose Rial (Earth, Marine, and Environmental Sciences), Diego Riveros-Iregui (Geography), Al Segars (Kenan-Flagler Business School), Maria Servadio (Biological), Conghe Song (Geography), Jill Stewart (Environmental Sciences), Andreas Teske (Earth, Marine, and Environmental Sciences), Stephen Walsh (Geography), Jason West (Environmental Sciences and Engineering), Dale Whittington (City and Regional Planning), Andrew Yates (Economics).

**Affiliated Associate Professors**

Marc Alperin (Earth, Marine, and Environmental Sciences), Karl Castillo (Earth, Marine, and Environmental Sciences), Xiaodong Chen (Geography), Clark Gray (Geography), Nikhil Kaza (City and Regional Planning), Adrian Marchetti (Earth, Marine, and Environmental Sciences), Sophie McCoy (Biological), Aaron Moody (Geography), Janet Nye (Earth, Marine, and Environmental Sciences), Keith Sockman (Biological), Colin West (Anthropology), Erika Wise (Geography).
Affiliated Assistant Professors
Miyuki Hino (City and Regional Planning), Angel Hsu (Public Policy), Noah Kittner (Environmental Sciences and Engineering), Caela O’Connell (Anthropology), Antonia Sebastian (Earth, Marine, and Environmental Sciences), Paige Weber (Economics).

Research Faculty
Richard Andrews (emeritus, Public Policy), Dick Bilsborrow (Biostatistics), Elizabeth Dickinson (Kenan–Flagler Business School), Lindsay Dubbs (Coastal Studies Institute), David McNelis (Institute for the Environment), Robert Peet (emeritus, Biology), Johnny Randall (NC Botanical Gardens), Elizabeth Shay (Appalachian State University), Alan Weakley (NC Botanical Garden), Gary Wein (Highlands Trust), Peter White (emeritus, Biology).

Teaching Professor
Greg Gangi.

Teaching Associate Professors
Geoffrey Bell, Amy Cooke.

Teaching Assistant Professors
Lama BouFajreldin, Carol Hee, Léda Gerber Van Doren, James Umbanhowar.

Lecturer
Brian Naess.

ENEC—Environment, Ecology, and Energy Undergraduate-level Courses

ENEC 51. First-Year Seminar: Balancing the Environment: Science, Human Values, and Policy in North Carolina. 3 Credits.
This course examines the ways in which scientific information, human values, and the policy process interact to produce environmental change, economic growth, and social justice in North Carolina.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

ENEC 89. First Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

ENEC 101. Global Environmental Change. 3 Credits.
Interdisciplinary course exploring the intersection between the natural world and society. Students will learn about how natural systems work, the ecosystem services they provide to societies, how global change has impacted these services on local and global scales, and how science is used to find solutions to these problems and inform environmental policy.

Rules & Requirements
Grading Status: Letter grade.

ENEC 108. Our Energy and Climate Crises: Challenges and Opportunities. 4 Credits.
Students quantify global depletion of energy resources and accompanying environmental degradation, hence discovering the profound changes in attitudes and behavior required to adjust to diminished fossil fuels and modified climate.

Rules & Requirements
Making Connections Gen Ed: PL, GL.
Grading Status: Letter grade.
Same as: PWAD 108.

ENEC 191. Peoples of Siberia. 3 Credits.
Comparative study of the cultural and biological diversity of peoples of Siberia from prehistoric through contemporary times. Course topics include the biological diversity, culture, behavior, and history of Siberian populations.

Rules & Requirements
Grading Status: Letter grade.
Same as: ANTH 191.

ENEC 201. Introduction to Environment and Society. 4 Credits.
Human-environment interactions are examined through analytical methods from the social sciences, humanities, and sciences. The focus is on the role of social, political, and economic factors in controlling interactions between society and the environment in historical and cultural contexts. Three lecture hours and one recitation hour a week. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

ENEC 202. Introduction to the Environmental Sciences. 4 Credits.
Examines fundamental processes governing the movement and transformation of material and energy in environmental systems. Focuses on the role of these processes in environmental phenomena and how society perturbs these processes. Integrates methods from a range of scientific disciplines. Three lecture hours and three computer laboratory hours a week.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI, FC-LAB.
Making Connections Gen Ed: PX.
Grading Status: Letter grade.

ENEC 203. Introduction to Environmental Science Problem Solving. 3 Credits.
A quantitative introduction to selected topics in environmental sciences with an emphasis on developing and solidifying problem-solving skills.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.
Requisites: Prerequisite, MATH 231.
Grading Status: Letter grade.
ENEC 204. Environmental Seminar. 1-3 Credits.
This course will provide an intellectual focus on the interface between
environment and society by examining the relationship among science,
policy, and actual management practices on a chosen topic.

Rules & Requirements
Grading Status: Letter grade.

ENEC 208. New Frontiers: Environment and Society in the United
States. 3-4 Credits.
By employing a multidisciplinary approach, this class will give students
a sense of the role that the environment has played in shaping
United States society and the role that our society plays in producing
environmental change at the national and global level. Honors version
available.

Rules & Requirements
Grading Status: Letter grade.

ENEC 210. Energy in a Sustainable Environment Seminar. 1 Credits.
This seminar series will provide a general introduction to energy
sources, resources, technologies, and societal use from a sustainability
perspective.

Rules & Requirements
Grading Status: Letter grade.

ENEC 220. North Carolina Estuaries: Environmental Processes and
Problems. 3 Credits.
Natural processes and human impacts on estuarine systems using
the Neuse River estuary as a case study. Course includes one week of
intensive field work based at the Institute of Marine Sciences. A student
may not receive credit for this course after receiving credit for ENEC 222.

Rules & Requirements
Grading Status: Letter grade.
Same as: MASC 220.

ENEC 221. Energy and Culture Seminar for the Thailand Field Site. 1
Credits.
This one credit hour seminar is only open to students who are planning to
participate in the spring research semester in Ecuador. The main purpose
of this seminar is to prepare students for this six-month experience in
Ecuador by discussing both research methods and Ecuadorian society.

Rules & Requirements
Grading Status: Letter grade.

ENEC 222. Estuarine and Coastal Marine Science. 4 Credits.
Introduction to the estuarine and coastal environment: geomorphology,
physical circulation, nutrient loading, primary and secondary production,
carbon and nitrogen cycling, benthic processes, and sedimentation.
Consideration given to human impact on coastal systems with emphasis
on North Carolina estuaries and sounds. Includes a mandatory weekend
field trip and laboratory.

Rules & Requirements
Making Connections Gen Ed: PL, QI.
Requisites: Prerequisites, MATH 231 and either CHEM 101 or PHYS 114.
Grading Status: Letter grade.

ENEC 223. Food, Environment, and Sustainability. 3 Credits.
Explores the nexus of agricultural, ecological, and food systems as
they dynamically interact. The class examines case studies from North
Carolina and other parts of the world. Themes include nutrition, food
security, agroecology, and sustainable livelihoods. Students engage in
readings, class projects, and hands-on activities in a laboratory setting.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Grading Status: Letter grade.
Same as: ANTH 237.

ENEC 237. Human Ecology of Africa. 3 Credits.
Course examines human adaptations to environments across Africa.
Focuses on livelihood systems such as farming, herding and hunting/gathering.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.
Grading Status: Letter grade.
Same as: ANTH 238.

ENEC 241. Energy and Culture Seminar for the Thailand Field Site. 1
Credits.
This one credit hour course meets the semester before UNC students go
to study abroad at the Institute for the Environment Thailand Field Site.
The course will prepare students for the research portion of the program.
Student should be applying to the field site when taking this course.

Rules & Requirements
Grading Status: Letter grade.

ENEC 242. Ecology and Culture Seminar for Ecuador Field Site. 1
Credits.
This one credit hour seminar is only open to students who are planning to
participate in the spring research semester in Ecuador. The main purpose
of this seminar is to prepare students for this six-month experience in
Ecuador by discussing both research methods and Ecuadorian society.

Rules & Requirements
Grading Status: Letter grade.

ENEC 248. Introduction to Atmospheric Processes. 4 Credits.
Includes one-hour laboratory. Atmospheric processes including radiation,
dynamics, and thermodynamics are emphasized. Circulations across
a range of temporal and spatial scales are described. Links between
environmental problems and the atmosphere are explored.

Rules & Requirements
Requisites: Prerequisites, MATH 231 and either CHEM 102 or PHYS 114.
Grading Status: Letter grade.
Same as: GEOG 253.

ENEC 254. International Environmental Politics. 3 Credits.
Covers the politics of environmental issues, with a focus on issues that
have become internationalized. It focuses on the special problems that
arise in creating rules for environmental management and regulation
when no single government has authority to enforce those rules.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: POLI 254.

ENEC 256. Mountain Biodiversity. 4 Credits.
Introduction to the new field of biodiversity studies, which integrates
approaches from systematics, ecology, evolution, and conservation.
Taught at off-campus field station.

Rules & Requirements
Grading Status: Letter grade.
Same as: BIOC 256.
ENEC 259. Coral Reef Ecology and Management. 3 Credits.
The course familiarizes students with the natural history, ecology, and physical and chemical characteristics of the coral reef environment. Policy and management issues are also examined.

Rules & Requirements
Grading Status: Letter grade.

ENEC 263. Environmental Field Studies in Siberia. 4 Credits.
This course explores the biogeography of Siberia and gives students practical training on how to do field work in field ecology and physical geography.

Rules & Requirements
Grading Status: Letter grade.
Same as: GEOG 263.

ENEC 264. Conservation of Biodiversity in Theory and Practice. 3 Credits.
This course will give students a multidisciplinary introduction to growing field of biodiversity preservation.

Rules & Requirements
Requisites: Prerequisite, ENEC 201; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: GEOG 264.

ENEC 266. Contemporary Africa: Issues in Health, Population, and the Environment. 3 Credits.
A seminar that introduces students to non-Western perspectives and comparative study of ecological, social, and economic factors that influence the welfare of contemporary African communities. Examination of famine, population growth, and health issues within the context of African cultural and social systems.

Rules & Requirements
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.

ENEC 272. Local Flora. 4 Credits.
Open to all undergraduates. North Carolina’s flora: recognition, identification, classification, evolution, history, economics, plant families, ecology, and conservation. Three lecture and three laboratory hours per week.

Rules & Requirements
Making Connections Gen Ed: PX.
Requisites: Prerequisites, BIOL 101, and 101L or 102L.
Grading Status: Letter grade.
Same as: BIOL 272.

ENEC 304. Restoration Ecology. 4 Credits.
Explores ecological theory and its application to the restoration of terrestrial, aquatic, and marine ecosystems. Requires 30 hours of service to a local restoration project in which students will collect ecological data for a final case study project.

Rules & Requirements
Making Connections Gen Ed: EE- Service Learning, EE- Mentored Research.
Requisites: Prerequisite, BIOL 201 or ENEC 202.
Grading Status: Letter grade.

ENEC 305. Data Analysis and Visualization of Social and Environmental Interactions. 4 Credits.
Principles of spatial and temporal data analysis are applied to issues of the role of society in producing environmental change. Methods include statistical analysis, model development, and computer visualization. Three lecture hours and one laboratory hour a week.

Rules & Requirements
Requisites: Prerequisite, ECON 400, ENEC 201, MATH 231, or STOR 155.
Grading Status: Letter grade.

Examines regional to global scale flow of materials and energy through materials extractions, processing, manufacturing, product use, recycling, and disposal, including relevance to policy development. Reviews natural cycles, basic physics, and technology of energy production.

Rules & Requirements
Requisites: Prerequisites, ENEC 201 and MATH 231 or MATH 152; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

ENEC 308. Environmental History. 3 Credits.
Historical development of the system of beliefs, values, institutions, etc., underlying societal response to the environment in different cultures is analyzed. The approach is interdisciplinary, drawing on methods from history, philosophy, psychology, etc. Three lecture hours a week.

Rules & Requirements
Grading Status: Letter grade.

ENEC 309. Environmental Values and Valuation. 3 Credits.
Introduction to the methods for assigning value to aspects of the environment and to interhuman and human-environment interactions. The approach is interdisciplinary, drawing on methods from philosophy, ecology, psychology, aesthetics, economics, religion, etc. Online course.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

ENEC 310. Coastal Environmental Change. 3 Credits.
An exploration of the large-scale evolution of coastal environments, including relevance of geologic setting, wave and sediment transport processes, the evolution of beach and barrier island morphology, and issues of coastal environmental management.

Rules & Requirements
Requisites: Prerequisite, GEOL 101 or MASC 101 or MASC 401; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: GEOL 310, MASC 316.

ENEC 312. Risk-Based International Environmental Decisions. 3 Credits.
A Web-based course on the methods and roles of risk assessment in the international setting, with a primary focus on United States-European Union applications in environmental policy decisions.

Rules & Requirements
Grading Status: Letter grade.
ENEC 320. The Future of Energy. 3 Credits.
This course takes a deep dive into the global energy transition, studying the rapidly-evolving renewable energy and energy-efficiency technologies, prices for new energy sources like solar and wind, and competition with fossil and nuclear fuels.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

ENEC 324. Water in Our World: Introduction to Hydrologic Science and Environmental Problems. 3 Credits.
This introductory course will cover two broad themes: the physical processes of the hydrologic cycle and how human use (and abuse) of freshwater resources can lead to major environmental problems. PX credit for ENEC/GEOL 324 + 324L. PL credit for ENEC/GEOL 324.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI.
Making Connections Gen Ed: PX.
Grading Status: Letter grade.
Same as: GEOL 324.

ENEC 324L. Water in Our World Laboratory. 1 Credits.
Students will conduct laboratory and field experiments to reinforce the topics covered in ENEC/GEOL 324. PX credit for ENEC/GEOL 324 + 324L.

Rules & Requirements
IDEAs in Action Gen Ed: FC-LAB.
Requisites: Pre- or corequisite, ENEC/GEOL 324.
Grading Status: Letter grade.
Same as: GEOL 324L.

ENEC 325. Water Resource Management and Human Rights. 3-4 Credits.
This course explores logistical, political, social, and economic challenges in supplying every human with adequate access to clean water, the most basic human right. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
Making Connections Gen Ed: PH, GL.
Grading Status: Letter grade.

ENEC 330. Principles of Sustainability. 3 Credits.
This course introduces students to theories, principles, and measurement of sustainability. It also provides an overview of sustainability in national and international contexts.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PLAN 330.

ENEC 351. Coastal Law and Policy. 3 Credits.
The utilization of common coastal resources, the management of fisheries, and coastal zone management guide an examination of coastal laws, policies, and regulations at the federal, state, and local levels. Taught at off-campus field station.

Rules & Requirements
Grading Status: Letter grade.

ENEC 352. Marine Fisheries Ecology. 3 Credits.
Gives students a foundation in population biology and the ecological processes that influence populations of economically important fish and shellfish. Students will gain practical quantitative skills including statistical analyses, model development, and data visualization. Familiarity with introductory statistics concepts is preferred but not necessary.

Rules & Requirements
Requisites: Prerequisite, MASC 101, 401, or ENEC 202.
Grading Status: Letter grade.
Same as: MASC 352.

ENEC 368. Living Things, Wilderness, and Ecosystems: An Introduction to Environmental Ethics. 3 Credits.
The meaning of environmental values and their relation to other values; the ethical status of animals, species, wilderness, and ecosystems; the built environment; environmental justice; ecofeminism; obligations to future generations.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH, GL.
Grading Status: Letter grade.
Same as: PHIL 368.

ENEC 370. Agriculture and the Environment. 3 Credits.
Introduction to the ecology of agricultural practices and the impact of food production on the environment. Particular attention will be paid to the constraints on agriculture which must be overcome to feed the planet's growing population. Honors version available.

Rules & Requirements
Grading Status: Letter grade.

ENEC 371. Energy Policy. 3 Credits.
This course will provide an overview of some of the most challenging energy issues of the 21st century and will cover the tools and perspectives necessary to analyze those problems.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.
Same as: PLCY 371.
ENEC 372. Global Environment: Policy Analysis and Solutions. 3 Credits.
Explores linkages among nations, global environmental institutions, and the environmental problems they cause and seek to rectify. Introduces pressing challenges of the global environment such as China and India’s energy and climate policies, the environmental impacts of coal, nuclear energy, shale gas and fracking, and marine pollution. Discusses perspectives of nations, the role of financial markets and NGOs, and the international community involved in crafting policy solutions.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.
Same as: PLCY 372.

ENEC 373. Confronting Climate Change in the Anthropocene. 3 Credits.
Climate change—perhaps the defining issue of the 21st century—is a highly complex problem that requires interdisciplinary collaboration to develop policy responses. This course explores the science of climate change and uses theories from multiple disciplines, including law, political science, economics, and earth and atmospheric sciences, to frame solutions to this global challenge. Students will apply quantitative and qualitative tools to understand causes and impacts of climate change, as well as policy responses.

Rules & Requirements
Grading Status: Letter grade.
Same as: PLCY 373.

ENEC 375. Environmental Advocacy. 3 Credits.
Explores rhetorical means of citizen influence of practices affecting our natural and human environment; also, study of communication processes and dilemmas of redress of environmental grievances in communities and workplace.

Rules & Requirements
Making Connections Gen Ed: PH, CI.
Grading Status: Letter grade.
Same as: COMM 375.

ENEC 380. Environmental Economics. 3 Credits.
This course develops a set of core principles that are essential to understand and evaluate environmental policy and renewable resource use. These principles are primarily economic, but our discussion will also include insights from politics and ethics.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisite, ECON 101.
Grading Status: Letter grade.

ENEC 393. Internship in Sustainability. 3 Credits.
Permission of the instructor. This course provides an internship with an organization on sustainability topics and public engagement. Pass/Fail only.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Pass/Fail.

ENEC 395. Research in Environmental Sciences and Studies for Undergraduates. 1-3 Credits.
Permission of the instructor. Research in an area of environmental science or environmental studies.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading Status: Letter grade.

ENEC 396. Directed Readings. 1-4 Credits.
Permission of the instructor. A specialized selection of readings from the literature of a particular environmental field supervised by a member of the Carolina Environmental Faculty group. Written reports on the readings or a literature review paper will be required. Cannot be used as a course toward the major.

Rules & Requirements
Repeat Rules: May be repeated for credit. 8 total credits. 2 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

ENEC 403. Environmental Chemistry Processes. 3 Credits.
Required preparation, a background in chemistry and mathematics, including ordinary differential equations. Chemical processes occurring in natural and engineered systems: chemical cycles; transport and transformation processes of chemicals in air, water, and multimedia environments; chemical dynamics; thermodynamics; structure/activity relationships.

Rules & Requirements
Grading Status: Letter grade.
Same as: ENVR 403.

ENEC 405. Mountain Preservation. 4 Credits.
Introduces students to approaches used to preserve the natural and cultural heritage of the Southern Appalachians. Taught at off-campus field station.

Rules & Requirements
Grading Status: Letter grade.

ENEC 406. Atmospheric Processes II. 4 Credits.
Principles of analysis of the atmosphere are applied to the analysis of environmental phenomena. The link between the atmosphere and other environmental compartments is explored through environmental case studies.

Rules & Requirements
Grading Status: Letter grade.
Same as: GEOG 406.
ENEC 407. Principles of Energy Conversion. 3 Credits.
Recommended preparation, ENEC 201, and MATH 152 or 231. This course will get students familiar with the principles governing the conversion of a variety of non-renewable and renewable resources to energy services. Physical, chemical, and biological principles involved in the design and analysis of these systems will be introduced.

Rules & Requirements
Grading Status: Letter grade.

ENEC 410. Earth Processes in Environmental Systems. 4 Credits.
Principles of geological and related Earth systems sciences are applied to analyses of environmental phenomena. The link between the lithosphere and other environmental compartments is explored through case studies of environmental issues. Three lecture hours and one laboratory hour a week.

Rules & Requirements
Requisites: Prerequisites, CHEM 102, GEOL 200, MATH 231, and PHYS 115 or 119; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.
Same as: GEOL 410, MASC 410.

ENEC 411. Oceanic Processes in Environmental Systems. 4 Credits.
Principles of analysis of the ocean, coast, and estuarine environments and the processes that control these environments are applied to the analysis of environmental phenomena. Case studies of environmental issues. Three lecture hours and one laboratory hour a week.

Rules & Requirements
Requisites: Prerequisites, BIOL 101, CHEM 102, ENEC 222, MATH 231, PHYS 115 or 119; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.
Same as: GEOL 411, MASC 411.

ENEC 412. Principles and Methods of Teaching Earth Science. 4 Credits.
Required preparation, any introductory geology course. This course develops the knowledge and skills teachers need to implement inquiry-based earth science instruction: conceptual knowledge of earth sciences and mastery of inquiry instructional methods. Students study inquiry in cognitive science and learning theory. This course is a requirement for the UNC-BEST program in geological sciences.

Rules & Requirements
IDEAs in Action Gen Ed: HI-SERVICE.
Grading Status: Letter grade.
Same as: GEOL 412.

ENEC 415. Environmental Systems Modeling. 3 Credits.
This course explores principles and strategies for studying environmental phenomena, and presents methods for developing explanatory and predictive models of environmental systems, e.g., predator-prey, estuaries, greenhouse gases, and ecosystem material cycles.

Rules & Requirements
Requisites: Prerequisite, MATH 383; pre- or corequisite, PHYS 115 or 118, and COMP 116.
Grading Status: Letter grade.
Same as: GEOL 415, MASC 415.

ENEC 416. Environmental Meteorology. 3 Credits.
This course explores atmospheric processes most important to environmental problems such as the transport and transformation of air pollutants and weather systems involved in intercontinental transport of gases and particles.

Rules & Requirements
Grading Status: Letter grade.

ENEC 417. Surface Processes and Landscape Evolution. 3 Credits.
Earth surface processes and landscape evolution.

Rules & Requirements
Requisites: Prerequisites, GEOL 201 and MATH 231; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.
Same as: GEOL 417.

ENEC 420. Community Design and Green Architecture. 3 Credits.
The impact of building on the environment and health will be examined by looking at the major areas of: land use planning, water resource use, energy, materials and indoor environment.

Rules & Requirements
Grading Status: Letter grade.
Same as: PLAN 420.

ENEC 421. Textiles: Environmental Impacts, Issues, and Innovations. 3 Credits.
Textiles are pervasive in our lives, from clothing to upholstery, yet have major impacts on our environment and health, from the products’ cradle to grave. This course examines the environmental and social costs of producing our clothing, carpet, and other textiles in daily life. We will also consider possible solutions currently offered by industry and entrepreneurs.

Rules & Requirements
Requisites: Pre- or co-requisite, ENEC 201 or 202; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

ENEC 431. Sustainable Cities: Exploring Ways of Making Cities More Sustainable. 3 Credits.
Recommended preparation, ENEC 330. For the first time in history, a majority of the world’s people live in cities with huge implications for sustainability. Students will examine the factors driving the trend toward urbanization worldwide, the challenges posed by this trend, and the efforts by cities to become more sustainable.

Rules & Requirements
Grading Status: Letter grade.

ENEC 432. Environmental Life Cycle Assessment. 3 Credits.
Recommended preparation, ENEC 201, and MATH 110 or 130. This class will introduce students to environmental life cycle assessment (LCA). The methodology to calculate the environmental impacts associated with a product, a service, or a system will be reviewed through case studies in the field of energy systems, waste management, and eco-design. Students will also get a chance to learn how to perform a full LCA through a hands-on project using LCA software and databases.

Rules & Requirements
Grading Status: Letter grade.
ENEC 433. Wetland Hydrology. 3 Credits.
Study of wetland ecosystems with particular emphasis on hydrological functioning, the transition from terrestrial to aquatic systems, wetlands as filtration systems, and exchange between wetlands and other environments.

Rules & Requirements
Grading Status: Letter grade.
Same as: MASC 433.

ENEC 435. Groundwater. 3 Credits.
Required preparation, one introductory geology course. Introduction to physics, chemistry, and geology of groundwater. Previously offered as GEOL 509.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, GEOL 201; CHEM 102; MATH 231; PHYS 104 or 114 or 116 or 118; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.
Same as: GEOL 435.

ENEC 437. Social Vulnerability to Climate Change. 3 Credits.
How does climate change affect vulnerable human populations? We will attempt to answer a shared research question on this topic by reading the peer-reviewed literature and by conducting a semester-long data analysis project incorporating social and climate data from around the world. This is a course-based undergraduate research experience (CURE).

Rules & Requirements
IDES in Action Gen Ed: FC-GLOBAL, RESEARCH.
Making Connections Gen Ed: EE- Mentored Research, GL.
Grading Status: Letter grade.
Same as: GEOG 437.

ENEC 441. Marine Physiological Ecology. 3 Credits.
This course introduces students to the physiological, morphological, and behavioral factors employed by marine organisms to cope with their physical environment. Emphasis will be placed on the response of marine organisms to environmental factors such as seawater temperature, light, water salinity, ocean acidification, etc.

Rules & Requirements
Grading Status: Letter grade.
Same as: MASC 441.

ENEC 444. Marine Phytoplankton. 3 Credits.
Permission of the instructor. For junior and senior science majors or graduate students. Biology of marine photosynthetic protists and cyanobacteria. Phytoplankton evolution, biodiversity, structure, function, biogeochemical cycles and genomics. Harmful algal blooms, commercial products, and climate change. Three lecture/practical session hours per week.

Rules & Requirements
Grading Status: Letter grade.
Same as: MASC 444, BIOL 456.

ENEC 448. Coastal and Estuarine Ecology. 4 Credits.
A field-intensive study of the ecology of marine organisms and their interactions with their environment, including commercially important organisms. Laboratory/recitation/field work is included and contributes two credit hours to the course.

Rules & Requirements
Requisites: Prerequisites, CHEM 102 and MATH 231.
Grading Status: Letter grade.
Same as: MASC 448.

ENEC 450. Biogeochemical Processes. 4 Credits.
Principles of chemistry, biology, and geology are applied to analysis of the fate and transport of materials in environmental systems, with an emphasis on those materials that form the most significant cycles. Three lecture hours and one laboratory hour a week.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisites, MATH 231, and PHYS 114 or 118; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.
Same as: GEOL 450, MASC 450.

ENEC 451. Population, Development, and the Environment. 3 Credits.
Introduction to contemporary and historical changes in human population, international development, and the global environment and how these processes interact, drawing on population geography as an organizing framework. Previously offered as GEOG 450.

Rules & Requirements
IDES in Action Gen Ed: FC-GLOBAL.
Making Connections Gen Ed: EE- Mentored Research, GL.
Grading Status: Letter grade.
Same as: GEOG 451.

ENEC 459. Ecological Anthropology. 3 Credits.
Examines how human-environmental adaptations shape the economic, social, and cultural lives of hunter-gatherers, pastoralists and agriculturalists. Approaches include optimal foraging theory, political ecology and subsistence risk.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.
Same as: ANTH 459.

ENEC 460. Historical Ecology. 3 Credits.
Historical ecology is a framework for integrating physical, biological, and social science data with insights from the humanities to understand the reciprocal relationship between human activity and the Earth system.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: ANTH 460.
ENEC 461. Fundamentals of Ecology. 4 Credits.
Students will develop a comprehensive understanding of the field of ecology, including modern and emerging trends in ecology. They will develop literacy in the fundamental theories and models that capture ecological processes; emphasis will also be placed on the relevance of ecology and ecological research for human society.

Rules & Requirements
Requisites: Prerequisite, BIOL 201.
Grading Status: Letter grade.
Same as: BIOL 461.

ENEC 462. Ecosystem Management. 3 Credits.
Explores the ecological concepts underlying ecosystem management (e.g., genetic and species diversity, stability, resilience, landscape ecology, etc.), the tools used in the approach, and case studies of how communities are implementing ecosystem management.

Rules & Requirements
Requisites: Prerequisite, BIOL 101.
Grading Status: Letter grade.

ENEC 463. Corporate Environmental Stewardship. 3 Credits.
This course explores the intersection of business/economic growth and the major sustainability issues affecting the environment and societal well-being and raises questions about business ethics and the moral responsibility of business leaders, consumers, and citizens. Previously offered as ENEC 306.

Rules & Requirements
Requisites: Prerequisite, ENEC 201.
Making Connections Gen Ed: FC-GLOBAL or FC-VALUES.
Grading Status: Letter grade.
Same as: BUSI 463.

ENEC 468. Temporal GIS and Space/Time Geostatistics for the Environment and Public Health. 3 Credits.
Reviews geographical information systems (GIS). Covers geostatistics theory for the interpolation of environmental and health monitoring data across space and time. Uses publicly available water and air quality monitoring data to create maps used for environmental assessment, regulatory compliance analysis, exposure science, and risk analysis.

Rules & Requirements
Requisites: Prerequisite, MATH 232; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: ENVR 468.

ENEC 470. Environmental Risk Assessment. 3 Credits.
Required preparation, one course in probability and statistics. Use of mathematical models and computer simulation tools to estimate the human health impacts of exposure to environmental pollutants. Three lecture hours per week.

Rules & Requirements
Grading Status: Letter grade.
Same as: ENVR 470.

ENEC 471. Human Impacts on Estuarine Ecosystems. 4 Credits.
A cohesive examination of the human impacts on biological processes in estuarine ecosystems. Laboratory/recitation/field work is included and contributes two credit hours to the course. Taught at off-campus field station.

Rules & Requirements
Requisites: Prerequisites, CHEM 102 and MATH 231.
Grading Status: Letter grade.
Same as: MASC 471.

ENEC 473. Business and Finance Basics for Environmental Managers. 3 Credits.
This course is designed to develop basic finance skills along with familiarity with core business concepts. The goal of the course is to empower non-business majors with the skills and vocabulary required to advance the goals of pro-environment businesses and organizations.

Rules & Requirements
Making Connections Gen Ed: FC-QUANT.
Grading Status: Letter grade.

ENEC 474. Sustainable Coastal Management. 3 Credits.
This course explores the environmental history of the Albemarle estuary and its larger watershed and explores ways in which humans can utilize this region in a more sustainable manner. Taught at off-campus field station.

Rules & Requirements
Grading Status: Letter grade.

ENEC 475. The Political Economy of Food. 3 Credits.
This course examines the political and economic dimensions of the food we eat, how it is produced, who eats what, and related social and environmental issues, both domestic and international, affecting the production, pricing, trade, distribution, and consumption of food. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

ENEC 479. Landscape Analysis. 3 Credits.
This course utilizes GIS, GPS, and remote sensing technologies to gather data on geology, watersheds, soils, integrated moisture indices. The class also develops habitat maps and derives species diversity indices. Taught at off-campus field station.

Rules & Requirements
Grading Status: Letter grade.

ENEC 480. Environmental Decision Making. 3 Credits.
Introduces factors shaping environmental decision making by individuals, businesses, governments, advocacy groups, and international institutions. Explores public policy incentives and action strategies for influencing them.

Rules & Requirements
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.
Same as: PLCY 480.
ENEC 481. Energy Economics. 3 Credits.
This course develops a core set of principles to understand and evaluate energy markets, policies, and regulations. Topics include oil markets, electric vehicles and CAFÉ standards, pollution permit markets and CO2 regulations, and electricity markets.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisite, ECON 101.
Grading Status: Letter grade.

ENEC 482. Energy and the Environment: A Coastal Perspective. 3 Credits.
Explores coastal and offshore energy issues, including energy demand, present-day and innovative sources of energy to meet that demand, economics, policy, and environmental and human health outcomes of different energy sources. Summer session only; online and field trip hybrid course, with a mandatory 8-day field site component on the Outer Banks. Housing and field activities arranged by the instructor, which will carry a fee. Taught at off-campus field station.

Rules & Requirements
Grading Status: Letter grade.

ENEC 485. Coastal Resource Economics and Policy. 3-4 Credits.
This course develops and applies core principles essential to understanding and evaluating coastal environmental policy and renewable resource use. The principles include the economics of pollution, public choice, information and cost-benefit analysis, property rights, incentive-based regulation, and the economics of renewable resources. Includes insights from politics and ethics. Taught at off-campus field station.

Rules & Requirements
Requisites: Prerequisite, ECON 101.
Grading Status: Letter grade.

ENEC 489. Ecological Processes in Environmental Systems. 4 Credits.
Principles of analysis of the structure and function of ecosystems are applied to environmental phenomena. The link between the biosphere and other environmental compartments is explored through case studies of environmental issues. Three lecture hours and one laboratory hour a week. Taught at off-campus field station.

Rules & Requirements
Requisites: Prerequisites, BIOL 101 or 201, CHEM 102, MATH 231, PHYS 115 or 119; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

ENEC 490. Special Topics in Environmental Science and Studies. 1-12 Credits.
Advanced topics from diverse areas of environmental science and/or environmental studies are explored. Honors version available.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

ENEC 491. Effective Environmental Communication. 3 Credits.
Combines theory and application to explore effective communication in various environmental contexts and professions. Offers students from diverse disciplines tools to effectively and credibly communicate about environmental topics using a spectrum of strategies, and offers methods for effective thinking, writing, and speaking.

Rules & Requirements
Making Connections Gen Ed: CI.
Grading Status: Letter grade.

ENEC 492. Social Science Research Methods. 3 Credits.
Students learn quantitative, qualitative, and mixed methods research skills and their application to public policies and management of natural resources.

Rules & Requirements
Grading Status: Letter grade.

ENEC 493. Environmental Internship. 1-4 Credits.
Permission of the instructor. This course provides an internship with an organization related to environmental sciences or studies. Pass/Fail only.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading Status: Pass/Fail.

ENEC 510. Policy Analysis of Global Climate Change. 3 Credits.
Provides a real-world and relevant case study in which to apply material from multiple disciplines including public policy, economics, environmental science, and international studies. Teaches techniques for building policy models not covered elsewhere.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

ENEC 511. Stable Isotopes in the Environment. 3 Credits.
Introduction to the theory, methods, and applications of stable isotopes to environmental problems. Primary focus will be on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, and nitrogen isotopes.

Rules & Requirements
Requisites: Prerequisite, CHEM 102.
Grading Status: Letter grade.
Same as: GEOL 511.
ENEC 514. Rivers and Floods. 3 Credits.
River floods are critically important in the global hydrologic cycle. While seasonal floods can be environmentally restorative, they can also have devastating socio-economic and public health consequences. Beginning with the hydrologic cycle, this course will cover concepts related to rainfall runoff and hydrologic response, flood frequency analysis, the mechanics of open channel flow, and overland and channel routing. Students will also gain experience working with real-world data and engineering software.

Rules & Requirements
Requisites: Prerequisites, GEOL 201 and MATH 231; or permission of instructor.
Grading Status: Letter grade.
Same as: GEOL 514.

ENEC 520. Environment and Development. 3 Credits.
Reviews environmental problems in developing countries. Analyzes proposed solutions, such as legal remedies, market instruments, corporate voluntary approaches, international agreements, and development policies. Discusses the link between trade and environment, environmental cases from the World Trade Organization, and sustainable development.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PLCY 520.

ENEC 522. Environmental Change and Human Health. 3 Credits.
The course will provide students with a multidisciplinary perspective of environmental changes to encompass both human health and ecological health.

Rules & Requirements
Requisites: Prerequisite, ENEC 201 or 202.
Grading Status: Letter grade.
Same as: ENVR 522.

ENEC 530. Principles of Climate Modeling. 3 Credits.
Recommended preparation, MATH 383. Develops explanatory and predictive models of the earth's climate. The level is introductory and the emphasis is on modeling past climate with the hope of understanding its future.

Rules & Requirements
Requisites: Prerequisites, MATH 231, 232, and 233; PHYS 118 and 119.
Grading Status: Letter grade.

ENEC 547. Energy, Transportation, and Land Use. 3 Credits.
This course explores the reciprocal connections between energy (production/conversion, distribution, and use), land use, environment, and transportation. Evaluation of federal, state, and local policies on energy conservation and alternative energy sources are emphasized. Students gain skills to analyze impacts, interdependencies, and uncertainties of various energy conservation measures and production technologies.

Rules & Requirements
Grading Status: Letter grade.
Same as: PLAN 547.

ENEC 548. Sustainable Energy Systems. 3 Credits.
This course will provide an introduction to urgent topics related to energy, sustainability, and the environment. The course material will focus on new technologies, policies, and plans in cities and different governing bodies in the energy system with a focus on developing tools to analyze energy for its sustainability, impact on people, the environment, and the economy.

Rules & Requirements
Grading Status: Letter grade.
Same as: PLAN 548, ENVR 548.

ENEC 562. Statistics for Environmental Scientists. 4 Credits.
Introduction to the application of quantitative and statistical methods in environmental science, including environmental monitoring, assessment, threshold exceedance, risk assessment, and environmental decision making.

Rules & Requirements
Requisites: Prerequisite, STOR 155.
Grading Status: Letter grade.
Same as: BIOL 562.

ENEC 563. Statistical Analysis in Ecology and Evolution. 4 Credits.
Application of modern statistical analysis and data modeling in ecological and evolutionary research. Emphasis is on computer-intensive methods and model-based approaches. Familiarity with standard parametric statistics is assumed.

Rules & Requirements
Requisites: Prerequisites, MATH 231 and STOR 151; Permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.
Same as: BIOL 563.

ENEC 565. Environmental Storytelling. 3 Credits.
An interdisciplinary course for students interested in environmental issues or journalism to produce stories about environmental issues that matter to North Carolinians. Students learn to identify credible sources, manage substantial amounts of information, and find story focus as they report on technical and often controversial subjects in a variety of media.

Rules & Requirements
Grading Status: Letter grade.
Same as: MEJO 565.

ENEC 567. Ecological Analyses and Application. 3 Credits.
This course provides an overview of natural and social science approaches to addressing biodiversity conservation and resource management. Concepts and methods from population biology, evolutionary ecology, community ecology, and conservation biology will be complemented with approaches from common property theory, indigenous resource management, and human evolutionary ecology.

Rules & Requirements
Grading Status: Letter grade.

ENEC 569. Current Issues in Ecology. 3 Credits.
Required preparation, previous course work in ecology. Permission of the instructor. Topics vary but focus on interdisciplinary problems facing humans and/or the environment. May be repeated for credit.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
ENEC 580. Environmental Markets: Science and Economics. 3 Credits.
Examines the interplay of science and economics in the design of environmental markets. The first part introduces the principles of environmental economics. The second part considers several case studies that illustrate the critical role that scientific models of natural systems play in the design of environmental markets.

Rules & Requirements
Grading Status: Letter grade.

ENEC 581. Water Resource Planning and Policy Analysis. 3 Credits.
Water resources demand-supply relationships, United States water resource and related water quality policy, legal structure for water allocation, planning, project and program evaluation, and pricing. Strategies for coping with floods, droughts, and climate change will be explored. Extensive use of case studies.

Rules & Requirements
Grading Status: Letter grade.

ENEC 585. American Environmental Policy. 3 Credits.
Intensive introduction to environmental management and policy, including environmental and health risks; policy institutions, processes, and instruments; policy analysis; and major elements of American environmental policy. Lectures and case studies. Three lecture hours per week.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: ENVR 585, PLAN 585, PLCY 585.

ENEC 586. Water Quality Policies and Planning. 3 Credits.
Introduction to the management of water quality at the local and basinwide scales. Topics include theory and management frameworks; state and federal statutes and programs; water contaminants, their fate and transport; alternatives for improving and protecting water quality; and the technologies and management practices of selected basinwide comprehensive strategies.

Rules & Requirements
Requisites: Prerequisites, BIOL 101 and MATH 231.
Grading Status: Letter grade.

ENEC 593. Environmental Practicum. 1-3 Credits.
Permission of the instructor required. Students receive service-learning credit through active participation in a community, campus, or other approved group project.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading Status: Letter grade.

ENEC 602. Professional Development Skills for Ecologists and Biologists. 3 Credits.
The goal of this course is to help students who intend to become professional ecologists or biologists acquire critical skills and strategies needed for achieving their career goals.

Rules & Requirements
Grading Status: Letter grade.
Same as: BIOL 602.

ENEC 608. Continuum Mechanics in the Earth Sciences. 3 Credits.
Applications of continuum mechanics in the earth sciences, including stress, strain, elasticity, and viscous flow. Numerical solutions to problems in heterogeneous finite strain including finite element analysis.

Rules & Requirements
Requisites: Prerequisites, GEOL 302, and PHYS 114, 116, or 118.
Grading Status: Letter grade.
Same as: GEOL 608.

ENEC 635. Energy Modeling for Environment and Public Health. 3 Credits.
Recommended preparation, MATH 231. This course will equip students with an overview of contemporary issues in energy modeling and energy systems analysis, with a focus on environmental and public health impacts of energy systems. Students will gain exposure to a variety of research methodologies, analytical tools, and applications of energy modeling applied to environmental and public health related problems such as climate change, air pollution, and water footprints of energy systems.

Rules & Requirements
Grading Status: Letter grade.
Same as: ENVR 635, PLAN 635.

ENEC 641. Watershed Planning. 3 Credits.
This course explores the functions of ecosystems, land development activities that impact such functions, and the land use management tools to create strategies for mitigating and restoring environmental damage. Course goals include understanding the ecological context of planning and how ecological principles may inform planning decisions. Prepares planners to engage effectively with biologists, natural resource managers, park managers, and other professionals from the natural sciences.

Rules & Requirements
Grading Status: Letter grade.
Same as: PLAN 641.

ENEC 669. Seminar in Ecology. 1-3 Credits.
May be repeated for credit.

Rules & Requirements
Requisites: Prerequisite, BIOL 201; permission of the instructor for students lacking the prerequisite.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 12 total completions.
Grading Status: Letter grade.
Same as: BIOL 669.

ENEC 675. Environmental Communication and the Public Sphere. 3 Credits.
Examines communication practices that accompany citizen participation in environmental decisions, including public education campaigns of nonprofit organizations, “risk communication,” media representations, and mediation in environmental disputes.

Rules & Requirements
Grading Status: Letter grade.
ENEC 685. Environmental and Resource Economics. 3 Credits.
Theory and methods of environmental economics. Topics covered include cost-benefit analysis and environmental policy analysis, economic concept of sustainability, optimal use of natural resources, nonmarket valuation, and economic instruments.

Rules & Requirements
Requisites: Prerequisite, ECON 310.
Grading Status: Letter grade.

ENEC 686. Policy Instruments for Environmental Management. 3 Credits.
Design of public policy instruments as incentives for sustainable management of environmental resources and ecosystems, and comparison of the effects and effectiveness of alternative policies.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisite, ECON 410 or PLAN 710.
Grading Status: Letter grade.
Same as: PLCY 686, ENVR 686, PLAN 686.

ENEC 693H. Honors Research in Environmental Sciences and Studies. 3 Credits.
Permission of the director of undergraduate studies. First of two course sequence leading to the honors designation.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

ENEC 694H. Honors Project in Environmental Sciences and Studies. 3 Credits.
Permission of the director of undergraduate studies. Independent project leading to the honors designation. Includes weekly research seminar.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

ENEC 698. Capstone: Analysis and Solution of Environmental Problems. 3 Credits.
Interdisciplinary, team-based analyses of environmental phenomena are performed and applied to problems of the selection of effective environmental strategies. Students may select from a wide range of examples and venues.

Rules & Requirements
Grading Status: Letter grade.

Environmental Studies Major, B.A.
This major is designed for students seeking interdisciplinary preparation in the social sciences and humanities needed to understand how society affects the environment, how it organizes itself to respond to environmental problems, and how understanding of the environment is transmitted through culture. The major prepares students for graduate and professional training, especially in environmental policy, journalism, education, and law. There are two tracks available. Students should contact Dr. Amy Cooke (amycooke@unc.edu) to discuss the right track for their interests and career goals.

Student Learning Outcomes
Upon completion of the environmental studies program (B.A.), students should be able to:

- Demonstrate knowledge in the connections in social and/or natural sciences through an understanding of major concepts, theoretical reasoning, and empirical findings in environmental studies
- Demonstrate knowledge of a marketable skill (e.g. GIS, communication, statistics) to enhance their ability to apply concepts from the program in the real world
- Demonstrate mastery of research and problem-solving skills through individual or team-based projects working for a researcher or client in a social or natural science

Requirements
In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC-Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

The environmental studies program provides two options:

- Environmental Studies Major, B.A. (p. 483) (with several concentration areas)
- Environmental Studies Major, B.A.–Sustainability Track (p. 486)

Environmental Studies Major, B.A.

ENEC 698  Capstone: Analysis and Solution of Environmental Problems  3
or ENEC 694H  Honors Project in Environmental Sciences and Studies

One of the following earth system science courses:  3-4
BIOL 103  How Cells Function F
or BIOL 104  Biodiversity
or BIOL 201  Ecology and Evolution
ENEC 222  Estuarine and Coastal Marine Science 1
ENEC 489  Ecological Processes in Environmental Systems 1
ENEC/MASC 448  Coastal and Estuarine Ecology 1
ENEC 324 & 324L  Water in Our World: Introduction to Hydrologic Science and Environmental Problems and Water in Our World Laboratory 1
GEOG 412  Synoptic Meteorology
GEOG 315  Energy Resources

Two courses from one of the following skills categories:  6
GIS:
ANTH 419  Anthropological Application of GIS
ENEC 479  Landscape Analysis 1
GEOG 370  Introduction to Geographic Information
GEOG 491  Introduction to GIS
GEOG 541  GIS in Public Health
GEOG 591  Applied Issues in Geographic Information Systems
GEOG 456  Geovisualizing Change
GEOG 592  Geographic Information Science Programming
Remote Sensing:
GEOG 370  Introduction to Geographic Information
GEOG 477  Introduction to Remote Sensing of the Environment
GEOG 577  Advanced Remote Sensing
GEOL/MASC 483  Geologic and Oceanographic Applications of Geographical Information Systems
Statistics:
STOR 155  Introduction to Data Models and Inference F
or BIOS 600  Principles of Statistical Inference
ECON 400  Introduction to Data Science and Econometrics H
ENEC 562  Statistics for Environmental Scientists
PLCY 460  Quantitative Analysis for Public Policy H

Five courses chosen from one of the concentrations list below  15-20

Five courses chosen from one of the following:  4
CHEM 101 & 101L  General Descriptive Chemistry I and Quantitative Chemistry Laboratory I F

Additional Requirements

BIOL 101 & 101L  Principles of Biology and Introductory Biology Laboratory H F

Select one of the following:  4
CHEM 101 & 101L  General Descriptive Chemistry I and Quantitative Chemistry Laboratory I F

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 This course appears on a core requirement list as well as a concentration requirement list, but can only be counted toward one of the two.

2 Recommended courses are ECON 400 and one of the following PH courses: COMM 375/ENEC 375, ENEC 325, or ENEC 368/PHIL 368.

Total Hours  120
ENEC/GEOL 324L Water in Our World Laboratory 1
GEOG 334 Human Ecology of Health and Disease 3
GEOG 457 Rural Latin America: Agriculture, Environment, and Natural Resources H 3
GEOG 542 Neighborhoods and Health 3
PLCY 475 The Political Economy of Food H 3
PLCY 485 Poverty, Health, and Human Development in Low Income Countries 3

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

1 This course appears on a core requirement list as well as a concentration requirement list, but can only be counted toward one of the two.

Enough General Education and free electives to accumulate at least 120 credit hours.  ^1

Total Hours 120

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

**Honors** version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

**FY-Launch** class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.
Dual Bachelor’s–Master’s Degree Program

Four dual bachelor’s–master’s programs are offered:

1. **Environmental and science communication** is a collaboration between the environment, ecology and energy program (E3P) and the School of Journalism and Media;
2. **Environmental informatics** is a collaboration between E3P and the School of Information and Library Science;
3. **Environmental finance and leadership** is a collaboration between E3P and the School of Government;
4. **Environmental geography** is a collaboration between E3P and the Department of Geography.

Each program is designed for students to earn their bachelor’s degree and complete a master’s degree in a professional school in as few as five years. The dual degree in environmental and science communication is approached through the bachelor of arts degree with a major in environmental studies, and students then complete a master’s degree in journalism with a focus on strategic communication. The dual degree in environmental informatics is approached through the bachelor of science degree with a major in environmental science, and students then complete a master’s in information sciences (M.S.I.S.). The dual degree in environmental finance and leadership is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master of public administration (M.P.A.). The dual degree in environmental geography is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master’s in geography.

Students may begin taking courses for the graduate degree while in the undergraduate program. In some programs, up to 12 hours of undergraduate credits can also be counted in the graduate degree. Early advising is essential to success in navigating these dual-degree programs. Advisors are available in both units to help students prepare and select courses appropriately to get the most from their education.

Applying for one of the dual-degree programs is a two-step process. It is highly recommended that interested first- and second-year students speak to an advisor early in their college program. Students must submit a conditional application to most programs no later than their junior year to ensure that they will receive preference in registering for courses. Students must formally apply to the program through The Graduate School or, for UNC–Chapel Hill students, through the School of Public Policy’s Admissions Office. Advisors are available in both units to help students prepare and select courses appropriately to get the most from their education.

In addition to the four dual-degree programs specific to collaborations with E3P, there are other dual-degree/graduate programs developed by other UNC departments and colleges. Programs of interest include the Department of City and Regional Planning for a Master’s in City and Regional Planning (https://planning.unc.edu/academics/). Dual-degree/bachelor/ (M.C.R.P.), the Department of Public Policy for a Master’s in Public Policy (M.P.P.) (https://publicpolicy.unc.edu/mpp-unc/), and the Gillings School of Global Public Health (https://sphs.unc.edu/envr/bachelors-to-masters-programs/) for a range of public health-related master’s programs.

Special Opportunities in Environmental Science and Studies

**Honors in Environmental Science or Studies**

Students in either the B.S. or B.A. degree program may participate in honors research leading to graduation with honors or highest honors. This distinction is earned by participation in honors research (ENEC 693H) and culminates in ENEC 694H, thesis writing and defense. Students should follow the guidelines established by Honors Carolina and meet with the faculty honors advisor, Dr. Geoff Bell, to ensure that appropriate requirements are fulfilled. (Requirements can be found on the Honors Program website (http://honorscarolina.unc.edu/current-students/honors-thesis-and-undergraduate-research/honors-thesis/)). Honors students can use three credit hours of ENEC 693H (research) or ENEC 694H (thesis), but not both courses, to fulfill a concentration requirement.

**Departmental Involvement**

The Carolina Environmental Student Alliance (CESA) is an interdisciplinary organization dedicated to uniting the environmental interests of students across campus. Participation is open to all students and community members with an interest in the environment.

**Experiential Education**

Possibilities for experiential education include APPLES service-learning courses (ENEC 593), Coral Reef Ecology and Management (ENEC 259), Sierra Nevada Program (ENEC 208), internships (ENEC 393, ENEC 493), research (ENEC 395, ENEC 396, ENEC 698), and honors research (ENEC 693H, ENEC 694H). Additionally, a series of experiential education field sites is available in North Carolina and around the world where students may take coursework and conduct research for a semester. Fall semester field sites are offered in North Carolina at Highlands Biological Station (mountain/ecology), the Institute for Marine Sciences (marine ecology/geology), and the Coastal Studies Institute/Outer Banks (coastal policy and economics). Spring semester field sites are offered on the UNC campus (Sustainable Triangle field site) and in Thailand (energy and pollution). The Thailand field site experience incorporates part of the following summer as well. Summer programs are also offered in the Galapagos via UNC’s Center for Galapagos Studies. Contact our advisors about other opportunities. Faculty members often arrange Burch Program summer educational trips to such locations as Australia (conservation, restoration, and natural resource management), Siberia, Russia (ecology and anthropology), the Sierra Nevadas (ecology and physical geography), and northern Europe (energy, sustainability, and communication).

**Internships**

Students are encouraged to apply for paid or unpaid internships in local, state, national, and international environmental organizations. Internship opportunities can be found through the Ecostudio Internship Incubator website (https://ecostudio.unc.edu/). These internships provide valuable practical experience, and some may be conducted for academic credit. Students interested in academic credit should contact the director of undergraduate studies, Dr. Amy Cooke (amycooke@unc.edu), or the
Ecostudio, to obtain the required application for credit before the term begins.

**Study Abroad**
Exchange and other study abroad programs are available through the UNC Study Abroad Office. At some locations students may take courses for UNC credit, such as some field sites listed above. Students may take courses at other universities during study abroad and apply for transfer credit as well. We encourage students to participate in study abroad during their career at Carolina.

**Undergraduate Awards**
Undergraduates may be considered for the Watts and Betsy Carr Awards, Mary and Watts Hill Jr. Awards, and Robert Alonzo Winston Scholarships.

**Undergraduate Research**
All students are encouraged (but not required) to complete an independent or team research project. Such projects introduce students to the tools needed for graduate study. They also provide an important opportunity for working directly with the world-class environmental faculty members and graduate students at UNC–Chapel Hill, as well as in the many environmental organizations in the Research Triangle. The Triangle area contains one of the largest collections of environmental organizations and expertise in the world, providing unique opportunities for students to conduct research on an immense range of topics from fundamental scientific research to policy applications. Students interested in obtaining course credit for research should speak with either Dr. Geoff Bell (honors advisor) or Dr. Amy Cooke (director of undergraduate studies) to ensure all the requirements and appropriate paperwork has been approved within the first week of classes.

**Department Programs**

**Majors**
- Environmental Studies Major, B.A. (p. 483)
- Environmental Science Major, B.S. (p. 491)
- Dual Bachelor’s-Master’s Degree Programs (p. 490)

**Minors**
- Environmental Science and Studies Minor (p. 499)
- Food Studies Minor (p. 500)
- Sustainability Studies Minor (p. 501)

**Graduate Programs**
- Doctor of Philosophy (http://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext)
- Master of Science (http://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext)
- Master of Arts (http://catalog.unc.edu/graduate/schools-departments/environment-ecology/#programstext)

vmanders@email.unc.edu

**Environmental Science Major, B.S.**
This major is designed for students focusing on such topics as how material and energy are moved and transformed in complex environmental systems, the role of society in perturbing those processes, and scientific techniques that might be used to improve environmental quality. The program provides interdisciplinary preparation for graduate or professional training as well as for jobs in government, consulting, and industry. There are two tracks available. Interested students should contact Dr. Amy Cooke (amycooke@unc.edu) to discuss which track best fits their interests and career goals.

**Student Learning Outcomes**
Upon completion of the environmental sciences program (B.S.), students should be able to:
- Demonstrate knowledge in the connections in social and/or natural sciences through an understanding of major concepts, theoretical reasoning, and empirical findings in environmental studies
- Demonstrate knowledge of a marketable skill (e.g. GIS, communication, statistics) to enhance their ability to apply concepts from the program in the real world
- Demonstrate mastery of research and problem-solving skills through individual or team-based projects working for a researcher or client in a social or natural science

**Requirements**
The environmental science program provides two options:
- Environmental Science, B.S. (p. 491) (with several concentration areas)
- Environmental Science, B.S.–Quantitative Energy Systems Track (p. 494)

**Environmental Science, B.S.**
In addition to the program requirements, students must
- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

</tbody>
</table>
Enough free electives to accumulate minimum of 120 credit hours. \(^2\)

**Total Hours** 120

**H** Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

**F** FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

This course appears on a core requirement list as well as a concentration requirement list, but can only be counted toward one of the two.

Recommended courses are ECON 101; ENEC 202; one of the following PH courses: COMM 375/ENEC 375, ENEC 325, or ENEC 368/PHIL 368; and one of the following statistics courses: BIOS 511 or ENEC 562 or STOR 455.

Environmental Science, B.S.–Quantitative Energy Systems Track

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

This major is designed for students with a strong interest in water, energy, and sustainable natural resources, and interdisciplinary approaches to analytics, informatics, or business. The degree provides interdisciplinary preparation for graduate or professional training as well as for jobs in government, consulting, and industry.
MATH 535 Introduction to Probability
MATH 564 Mathematical Modeling in the Life Sciences
PHYS 331 Numerical Techniques for the Sciences I

Statistics
BIOS 511 Introduction to Statistical Computing and Data Management
ENEC 562 Statistics for Environmental Scientists
ENEC 563 Statistical Analysis in Ecology and Evolution
GEOL 520 Data Analysis in the Earth Sciences
GEOL 525 Inverse Theory: Advanced Data Analysis and Geophysical Modeling
STOR 455 Methods of Data Analysis
STOR 435 Introduction to Probability
STOR 556 Time Series Data Analysis

Basic Science
BIOL 101, H
BIOL 201, H, H
BIOL 271 Plant Biology
CHEM 261 Introduction to Organic Chemistry I
PHYS 114 General Physics I: For Students of the Life Sciences
or PHYS 118 Introductory Calculus-based Mechanics and Relativity
PHYS 115 General Physics II: For Students of the Life Sciences
or PHYS 119 Introductory Calculus-based Electromagnetism and Quanta

Modeling
ENEC 415 Environmental Systems Modeling
MATH 381 Discrete Mathematics

GIS and Remote Sensing
ANTH 419 Anthropological Application of GIS
ENEC 479 Landscape Analysis
GEOL 370 Introduction to Geographic Information
GEOL 456 Geovisualizing Change
GEOL 477 Introduction to Remote Sensing of the Environment
GEOL 491 Introduction to GIS
GEOL 577 Advanced Remote Sensing
GEOL 591 Applied Issues in Geographic Information Systems
GEOL 592 Geographic Information Science Programming
GEOL/MASC 483 Geologic and Oceanographic Applications of Geographic Information Systems

Four courses from one of the following concentrations 12-16

Energy Management
ENEC 307 Energy and Material Flows in the Environment and Society
ENEC 395 Research in Environmental Sciences and Studies for Undergraduates
or ENEC 396 Directed Readings

ENEC 407 Principles of Energy Conversion
ENEC 432 Environmental Life Cycle Assessment
ENEC 481 Energy Economics
ENEC 482 Energy and the Environment: A Coastal Perspective

ENEC 693H Honors Research in Environmental Sciences and Studies
or ENEC 694 Honors Project in Environmental Sciences and Studies

ENVR/ENEC 403 Environmental Chemistry Processes

Environmental Processes
ENEC 202 Introduction to the Environmental Sciences
ENEC 222 Estuarine and Coastal Marine Science
ENEC 256 Mountain Biodiversity
ENEC 395 Research in Environmental Sciences and Studies for Undergraduates
or ENEC 396 Directed Readings

ENEC 462 Ecosystem Management
ENEC 489 Ecological Processes in Environmental Systems

ENEC 693H Honors Research in Environmental Sciences and Studies
or ENEC 694 Honors Project in Environmental Sciences and Studies

ENVR/ENEC 403 Environmental Chemistry Processes

MASC 432 Major World Rivers and Global Change: From Mountains to the Sea
MASC 433 Wetland Hydrology
MASC 450 Biogeochemical Processes
MASC 460 Fluid Dynamics of the Environment

GEOL 435 Groundwater
GEOL 436 Geochemistry of Natural Waters
GEOL 508 Global Hydrology
GEOL 520 Data Analysis in the Earth Sciences
GEOL 525 Inverse Theory: Advanced Data Analysis and Geophysical Modeling

GEOG 410 Modeling of Environmental Systems
GEOG 412 Synoptic Meteorology
GEOG 414 Climate Change
GEOG 416 Applied Climatology: The Impacts of Climate and Weather on Environmental and Social Systems
GEOG 441 Introduction to Watershed Systems

Smart Cities
ENEC 350 Environmental Law and Policy
Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search forFY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

### Dual Bachelor’s–Master’s Degree Program

Four dual bachelor’s–master’s programs are offered:

1. **Environmental and science communication** is a collaboration between the environment, ecology and energy program (E3P) and the School of Journalism and Media;
2. **Environmental informatics** is a collaboration between E3P and the School of Information and Library Science;
3. **Environmental finance and leadership** is a collaboration between E3P and the School of Government;
4. **Environmental geography** is a collaboration between E3P and the Department of Geography.

Each program is designed for students to earn their bachelor's degree and complete a master's degree in a professional school in as few as five years. The dual degree in environmental and science communication is approached through the bachelor of arts degree with a major in environmental studies, and students then complete a master's degree in journalism with a focus on strategic communication. The dual degree in environmental informatics is approached through the bachelor of science degree with a major in environmental science, and students then complete a master's in information sciences (M.S.I.S.). The dual degree in environmental finance and leadership is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master of public administration (M.P.A.). The dual degree in environmental geography is approached through either the bachelor of science in environmental science or the bachelor of arts in environmental studies, and students then complete a master's in geography.

Students may begin taking courses for the graduate degree while in the undergraduate program. In some programs, up to 12 hours of graduate credits can also be counted in the graduate degree. Early advising is essential to success in navigating these dual-degree programs. Advisors are available in both units to help students prepare and select courses appropriately to get the most from their education.

Applying for one of the dual-degree programs is a two-step process. It is highly recommended that interested first- and second-year students speak to an advisor early in their college program. Students must submit a conditional application to most programs no later than their junior year to ensure that they will receive preference in registering for courses. Students must formally apply to the program through The Graduate School in their senior year. The GRE is not required for applications from current UNC–Chapel Hill students for the dual degrees in environmental science and communication, nor for the dual degrees in environmental geography; for other dual degrees students should check with their advisors about GRE requirements. For complete information on the application process and curriculum requirements, please go to the specific website listed above for the dual-degree program of interest.

In addition to the four dual-degree programs specific to collaborations with E3P there are other dual-degree undergraduate/graduate programs developed by other UNC departments and colleges. Programs of interest include the Department of City and Regional Planning for a Master's in City and Regional Planning (https://planning.unc.edu/academics/dual-degree/bachelor/) (M.C.R.P.), the Department of Public Policy for a Master's in Public Policy (M.P.P.) (https://publicpolicy.unc.edu/mpp-unc/), and the Gillings School of Global Public Health (https://sph.unc.edu/envr/bachelors-to-masters-programs/) for a range of public health-related master’s programs.

### Special Opportunities in Environmental Science and Studies

#### Honors in Environmental Science or Studies

Students in either the B.S. or B.A. degree program may participate in honors research leading to graduation with honors or highest honors. This distinction is earned by participation in honors research (ENEC 693H) and culminates in ENEC 694H, thesis writing and defense. Students should follow the guidelines established by Honors Carolina and meet with the faculty honors advisor, Dr. Geoff Bell, to ensure that appropriate requirements are fulfilled. (Requirements can be found on the Honors Program website (http://honorscarolina.unc.edu/current-students/honors-thesis-and-undergraduate-research/honors-thesis/)). Honors students can use three credit hours of ENEC 693H (research) or ENEC 694H (thesis), but not both courses, to fulfill a concentration requirement.

#### Departmental Involvement

The Carolina Environmental Student Alliance (CESA) is an interdisciplinary organization dedicated to uniting the environmental interests of students across campus. Participation is open to all students and community members with an interest in the environment.

#### Experiential Education

Possibilities for experiential education include APPLES service-learning courses (ENEC 593), Coral Reef Ecology and Management (ENEC 259), Sierra Nevada Program (ENEC 208), internships (ENEC 393, ENEC 493), research (ENEC 395, ENEC 396, ENEC 598), and honors research (ENEC 693H, ENEC 694H). Additionally, a series of experiential education field sites is available in North Carolina and around the world where students may take coursework and conduct research for a semester. Fall semester field sites are offered in North Carolina at Highlands Biological Station (mountain/ecology), the Institute for Marine Sciences (marine ecology/geology), and the Coastal Studies Institute/Outer Banks (coastal policy and economics). Spring semester field sites are offered on the UNC campus (Sustainable Triangle field site) and in Thailand (energy
and pollution). The Thailand field site experience incorporates part of the following summer as well. Summer programs are also offered in the Galapagos via UNC’s Center for Galapagos Studies. Contact our advisors about other opportunities. Faculty members often arrange Burch Program summer educational trips to such locations as Australia (conservation, restoration, and natural resource management), Siberia, Russia (ecology and anthropology), the Sierra Nevadas (ecology and physical geography), and northern Europe (energy, sustainability, and communication).

**Internships**

Students are encouraged to apply for paid or unpaid internships in local, state, national, and international environmental organizations. Internship opportunities can be found through the Ecostudio Internship Incubator website (https://ecostudio.unc.edu/). These internships provide valuable practical experience, and some may be conducted for academic credit. Students interested in academic credit should contact the director of undergraduate studies, Dr. Amy Cooke (amycooke@unc.edu), or the Ecostudio, to obtain the required application for credit before the term begins.

**Study Abroad**

Exchange and other study abroad programs are available through the UNC Study Abroad Office. At some locations students may take courses for UNC credit, such as some field sites listed above. Students may take courses at other universities during study abroad and apply for transfer credit as well. We encourage students to participate in study abroad during their career at Carolina.

**Undergraduate Awards**

Undergraduates may be considered for the Watts and Betsy Carr Awards, Mary and Watts Hill Jr. Awards, and Robert Alonzo Winston Scholarships.

**Undergraduate Research**

All students are encouraged (but not required) to complete an independent or team research project. Such projects introduce students to the tools needed for graduate study. They also provide an important opportunity for working directly with the world-class environmental faculty members and graduate students at UNC—Chapel Hill, as well as in the many environmental organizations in the Research Triangle. The Triangle area contains one of the largest collections of environmental organizations and expertise in the world, providing unique opportunities for students to conduct research on an immense range of topics from fundamental scientific research to policy applications. Students interested in obtaining course credit for research should speak with either Dr. Geoff Bell (honors advisor) or Dr. Amy Cooke (director of undergraduate studies) to ensure all the requirements and appropriate paperwork has been approved within the first week of classes.

**Department Programs**

**Environmental Science and Studies Minor**

The minor is designed for students wishing to remain in another discipline but having an interest in the environment as an area of application. Students must take two core courses designed as preliminary courses in the scientific and societal dimensions of environmental issues and problems and in the tools for their solution.

Students who major in the B.A. or B.S. environmental degree programs are not allowed to minor in environmental science and studies.

**Requirements**

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor “core” requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Food Studies Minor

Food studies is an interdisciplinary field that examines the relationship between food and all aspects of the human experience, including culture and biology, individuals and society, global pathways and local contexts.

Requirements

The minor invites the growing number of students interested in food to advance their studies across a broad range of curricula. The program provides a curricular offering and intellectual framework to complement the co-curricular energy around food on campus, increasing the rigor and discipline with which students use food as a lens for exploration and critical thinking.

The minor is available to students accepted into Honors Carolina and to any undergraduate student who has achieved and maintains a grade point average of 3.00 or better.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

The minor requires five (5) courses.

Food Studies Minor

Food studies is an interdisciplinary field that examines the relationship between food and all aspects of the human experience, including culture and biology, individuals and society, global pathways and local contexts.

Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Environment, Ecology, and Energy (ENEC) course descriptions (p. 472).

Students must see an ENEC advisor to discuss potential courses. Depending on the courses selected, the minor requires between 17 and 20 credit hours.

See the program page here (p. 490) for special opportunities.

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 Some courses may require a prerequisite(s). See course description for details.

Additional courses can be applied to the requirements with the approval of the program advisor.

Graduate School and Career Opportunities

The minor in food studies, in combination with a student’s major of interest, prepares students for a variety of careers in health and nutrition, arts and culture, media and journalism, health affairs policy and program management, social services, the academy, entrepreneurship and intrapreneurship, environmental work and sustainability, and consulting. The minor may also be of value for those planning postgraduate studies.

Department Programs

Sustainability Studies Minor

The program provides an understanding of sustainability, a unifying approach to human and environmental problems. Sustainable businesses, communities, and other organizations seek to design systems in ways that optimize material and energy use to decrease environmental and health problems and to bolster economic vitality and social equity. A growing number of scholars are framing problems and solutions in the language of sustainability, which balances growth and development with justice and environmental stewardship in order to meet today’s needs without undermining the ability of future generations to do the same.

Students who major in the B.A. or B.S. environmental degree programs are not allowed to minor in sustainability studies.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

- Sustainability Studies Minor (p. 501)
Introduction

The Department of Environmental Sciences and Engineering combines the physical sciences, health sciences, engineering, and policy to develop solutions to current and emerging environmental challenges, both globally and locally. This includes climate and environmental change, emerging contaminants, infectious agents and their impacts on health and equity. This multidisciplinary approach provides unique academic and research opportunities for students. Our undergraduate degree focuses on the environmental health sciences, with specific concentrations in environmental chemistry, environmental health biology, and environmental physics and opportunities to take specialized courses or conduct research in areas of particular interest.

Advising

Students benefit from advising by a professional academic coordinator who works closely with the director for undergraduate studies. Undergraduate students are encouraged to schedule a personal advising session each semester to review their course of study. These professionals will work with current and prospective majors (see contact information above). The academic coordinator verifies that coursework requirements for the concentration have been met. Departmental academic advising is particularly important for those majors who are considering going on to the dual bachelor’s–master’s degree. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate degrees may be obtained from the department’s (http://sph.unc.edu/envr/environmental-sciences-and-engineering-home/) website (http://sph.unc.edu/envr/environmental-sciences-and-engineering-home/).

Each student is also assigned a faculty mentor from the department of Environmental Sciences and Engineering. Faculty mentors collaborate with students to define academic, career and personal goals and assist students in identifying research and internship opportunities.

Facilities

The Department of Environmental Sciences and Engineering houses research laboratories located in Rosenau Hall, McGawran-Greenberg Hall, and Michael Hooker Research Center. These laboratories are involved in important research in climate change energy and health, water quality, atmospheric chemistry and air pollution, risk assessment of environmental exposures, effects of environmental chemicals on birth outcome, children’s and chronic health, environmental and public health microbiology, and occupational health and safety.

The department also offers facilities for modeling and computational analysis of environmental systems, such as infectious disease transmission, atmospheric circulation and air quality models, ground and surface water flow and transport models, fluid flow and contaminant transport models for indoor air environments, computational toxicology, exposure analysis and health effects, risk assessment, and environmental epidemiology.

More detailed information about the individual laboratories and centers can be found at the department website (http://www.sph.unc.edu/envr/).

Graduate School and Career Opportunities

While undergraduate education prepares students for citizenship in ways that go beyond professional concerns, the program in environmental health sciences also provides skills needed for employment and graduate study. Students ending their studies at the undergraduate level gain skills necessary to work in positions such as risk analysts in consulting firms and regulatory agencies; research assistants in research laboratories; as environmental health specialists in local, state, and national environmental and environmental health departments; and scientific advisors to environmental organizations. The degree also prepares students for graduate study in the environmental sciences, environmental health sciences, environmental studies, toxicology, and professional disciplines such as medicine, dentistry, veterinary medicine, environmental law, and public health.

Undergraduate students with appropriate science backgrounds have the opportunity to pursue a dual bachelor’s–master’s degree. This program allows students to complete a master’s degree in the department in an accelerated time frame. With advance planning many students complete the bachelor’s plus masters within five years or five years and a summer. Interested students should read the program description and requirements (http://sph.unc.edu/envr/envr-degrees/) carefully.

Students have opportunities to explore possibilities for employment through the rich network of connections among the department, University, and numerous environmental organizations in the Research Triangle Park area, which is home to the highest concentration of environmental health sciences groups in the nation.

Professors Emeriti

ENVR—Environmental Health Sciences

Undergraduate-level

ENVR 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

ENVR 135. Environment-ECUIPP Lab: Connecting with communities through environmental research for Public Health. 3 Credits.
Students join the Environment-ECUIPP Lab to research pressing environmental health issues with local communities. The ECUIPP Lab (Environmentally-Engaged Communities and Undergraduate students Investigating for Public health Protection), organized by the Gillings School of Global Public Health, Department of Environmental Science and Engineering, is a creative learning community of students, faculty members, and practice partners.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT, FC-LAB, RESEARCH.
Grading Status: Letter grade.

ENVR 190. Selected Topics in Undergraduate Studies. 1-3 Credits.
Permission of the instructor. Current topics of interest in environmental science and their application to understanding environmental issues are directed towards undergraduates. Topics and instructors will change.
One to three lecture hours per week.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENVR 205. Engineering Tools for Environmental Problem Solving. 3 Credits.
Introduction to mass, energy, and momentum transport applied to environmental problem solving. Students ask and answer policy-oriented questions (define systems, document assumptions, explain the value and limitations of quantitative answers). They will apply these tools to the design of engineered solutions and characterization of natural and perturbed systems.

Rules & Requirements
Making Connections Gen Ed: PL, CI, QI.
Requisites: Prerequisite, MATH 231.
Grading Status: Letter grade.

ENVR 230. Environmental Health Issues. 3 Credits.
Examines key events that have shaped our understanding of the impacts of environmental agents on human health and uses them to introduce basic concepts in environmental health.

Rules & Requirements
Grading Status: Letter grade.
ENVR 240. Undergraduate Research Opportunities Program (UROP) Training. 1 Credits.
The purpose of this course is to provide structured research training among undergraduate students participating in the Undergraduate Research Opportunities Program (UROP). Formal acceptance into Undergraduate Research Opportunities Program (UROP) required.

Rules & Requirements
Grading Status: Letter grade.
ENVR 295. Undergraduate Research. 3 Credits.
Directed readings or laboratory study. Written reports are required. May be taken more than once for credit. Six to nine hours per week.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
ENVR 296. Readings in Environmental Sciences and Engineering. 1-9 Credits.
Rules & Requirements
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Letter grade.

ENVR 335. Adv Environ-ECUIPP Lab: Connecting with Communities Through Environmental Research for PH Protection. 3 Credits.
Students join the Environment-ECUIPP Lab to research pressing environmental health issues with local communities. The ECUIPP Lab (Environmentally-Engaged Communities and Undergraduate students Investigating for Public health Protection), organized by the Gillings School of Global Public Health, Department of Environmental Science and Engineering, is a creative learning community of students, faculty members and practice partners. Students in the Advanced ECUIPP lab continue to develop research skills focusing on data analysis, data visualization and risk communication.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT, FC-LAB, RESEARCH.
Requisites: Prerequisite, ENVR 89 or ENVR 135.
Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level
ENVR 400. Seminar Series. 0.5-1 Credits.
Presents results of ongoing research projects in the Department of Environmental Sciences and Engineering. Topics and presenters are selected from among departmental graduate students and faculty. Student presenters learn how to present their research to a lay audience while students taking the class for credit learn how to critique a presentation as well as forge professional collaborations across disciplines. Undergraduates may not enroll without first discussing their participation, and obtaining approval from the instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 2 total credits. 4 total completions.
Grading Status: Letter grade.

ENVR 403. Environmental Chemistry Processes. 3 Credits.
Required preparation, a background in chemistry and mathematics, including ordinary differential equations. Chemical processes occurring in natural and engineered systems: chemical cycles; transport and transformation processes of chemicals in air, water, and multimedia environments; chemical dynamics; thermodynamics; structure/activity relationships.

Rules & Requirements
Grading Status: Letter grade.
ENVR 404. Life Cycle Assessment: Energy and the Environment. 3 Credits.
A systems approach to dealing with environmental pollution problems is highlighted and Life Cycle Assessment (LCA) is introduced as an assessment tool. Topics include basic environmental interactions; biogeochemical cycles and environmental impacts (global, regional, and local); and application of LCA to waste management and energy conversion systems; are addressed.

Rules & Requirements
Grading Status: Letter grade.
ENVR 411. Laboratory Techniques and Field Measurements. 3 Credits.
Students learn laboratory, field, and analytical skills. Provides a solid introduction to experimental research in environmental sciences and engineering. Students are provided with applications in limnology, aquatic chemistry, and industrial hygiene.

Rules & Requirements
Grading Status: Letter grade.
ENVR 412. Ecological Microbiology. 3 Credits.
Required preparation, one course in general microbiology. A description of microbial populations and communities, the environmental processes they influence, and how they can be controlled to the benefit of humankind.

Rules & Requirements
Grading Status: Letter grade.
ENVR 413. Limnology. 3 Credits.

Rules & Requirements
Grading Status: Letter grade.
ENVR 416. Aerosol Physics and Chemistry. 4 Credits.
Permission of the instructor for nonmajors. Physical and chemical principles underlying behavior of particles suspended in air. Topics include rectilinear and curvilinear motion of the particles in a force field, diffusion, evaporation, and condensation, electrical and optical properties, and particle coagulation. Three lecture hours a week and two laboratory sessions.

Rules & Requirements
Grading Status: Letter grade.
ENVR 417. Oceanography. 3 Credits.
Required preparation, major in a natural science or two courses in natural sciences. Studies origin of ocean basins, seawater chemistry and dynamics, biological communities, sedimentary record, and oceanographic history. Term paper. Students lacking science background should see MASC 101. Students may not receive credit for both MASC 101 and MASC 401.

Rules & Requirements
Grading Status: Letter grade.
Same as: MASC 401, BIOL 350, GEOL 403.

ENVR 419. Chemical Equilibria in Natural Waters. 3 Credits.
Principles and applications of chemical equilibria to natural waters. Acid-base, solubility, complex formation, and redox reactions are discussed. This course uses a problem-solving approach to illustrate chemical speciation and environmental implications. Three lecture hours per week.

Rules & Requirements
Grading Status: Letter grade.

ENVR 421. Environmental Health Microbiology. 3 Credits.
Required preparation: introductory course in microbiology or permission of the instructor. This course covers microbes of public health importance in water, wastewater, and other environmental matrices, including detection, quantification, transport, and survival in environmental media; control measures to reduce exposures; quantitative microbial risk assessment; and the epidemiology of infectious diseases transmitted via the environment.

Rules & Requirements
Grading Status: Letter grade.

ENVR 423. Industrial Toxicology. 3 Credits.
Toxicological assessment of and a case presentation of related exposure is given. A conceptual approach is utilized to design appropriate programs to prevent worker ill health due to toxicant exposure.

Rules & Requirements
Grading Status: Letter grade.

ENVR 425. Introduction to Health Physics: Radiation and Radiation Protection. 3 Credits.
This course concentrates on fundamentals of radiation and protection, including types of radiation, radioactive decay, interaction with matter, biological effects, detection and measurement, protection methods/techniques, external and internal dose, etc. Lectures include hazards in categories of environmental radiation, nuclear energy, medical applications, industrial uses, etc.

Rules & Requirements
Grading Status: Letter grade.

ENVR 430. Health Effects of Environmental Agents. 3 Credits.
Required preparation, basic biology, chemistry through organic, calculus. Permission of the instructor for students lacking this preparation. Interactions of environmental agents (chemicals, infectious organisms, radiation) with biological systems including humans, with attention to routes of entry, distribution, metabolism, elimination, and mechanisms of adverse effects. Three lecture hours per week.

Rules & Requirements
Grading Status: Letter grade.

ENVR 431. Techniques in Environmental Health Sciences. 2 Credits.
Required preparation, basic biology, chemistry through organic, math through calculus; permission of the instructor for students lacking this preparation. A practical introduction to the measurement of biological end-points, emphasizing adverse effects of environmental agents, using laboratory and field techniques. Two laboratory hours per week.

Rules & Requirements
Grading Status: Letter grade.

ENVR 432. Occupational Safety and Ergonomics. 3 Credits.
Fundamentals of occupational safety and ergonomics with emphasis on legislation and organization of industrial safety and ergonomic programs, including hazard recognition, analysis, control, and motivational factors pertaining to industrial accident and cumulative trauma disorder prevention.

Rules & Requirements
Grading Status: Letter grade.

ENVR 433. Health Hazards of Industrial Operation. 3 Credits.
An introduction to occupational hygiene and the health hazards associated with industrial operations. Fundamental scientific principles are used to provide the foundation for assessing and controlling the exposures found in the work environment. Topics with broad application include: noise, heat stress, and ventilation. Specific industrial operations examined include: welding, electroplating, and spray painting, among others. The concept of Total Worker Health is explored with a focus on the role of labor unions. No prerequisites.

Rules & Requirements
Grading Status: Letter grade.

ENVR 442. Biochemical Toxicology. 3 Credits.
Required preparation, one course in biochemistry. Biochemical actions of toxicants and assessment of cellular damage by biochemical measurements. Three lecture hours per week.

Rules & Requirements
Requisites: Prerequisite, CHEM 430; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.
Same as: BIOC 442, TOXC 442.

ENVR 451. Introduction to Environmental Modeling. 3 Credits.
Focuses on how to model environmental transport and chemistry of pollutants. Covers mole balances, rate laws, chemical kinetics, and reactor design. Principles are applied to any environmental system where chemical transformations must be described. Three lecture hours per week.

Rules & Requirements
Grading Status: Letter grade.

ENVR 452. Fluid Dynamics. 3 Credits.
The physical properties of fluids, kinematics, governing equations, viscous incompressible flow, vorticity dynamics, boundary layers, irrotational incompressible flow.

Rules & Requirements
Requisites: Prerequisite, PHYS 401; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: MASC 560, GEOL 560, PHYS 660.
ENVR 453. Groundwater Hydrology. 3 Credits.
Required preparation, math through differential equations and some
familiarity with fluid mechanics. Conservation principles for mass,
momentum, and energy developed and applied to groundwater systems.
Scope includes the movement of water, gas, and organic liquid phases,
the transport and reaction of contaminants. Three lecture hours per week.

Rules & Requirements
Grading Status: Letter grade.

ENVR 468. Temporal GIS and Space/Time Geostatistics for the
Environment and Public Health. 3 Credits.
Reviews geographical information systems (GIS). Covers geostatistics
theory for the interpolation of environmental and health monitoring data
across space and time. Uses publicly available water and air quality
monitoring data to create maps used for environmental assessment,
regulatory compliance analysis, exposure science, and risk analysis.

Rules & Requirements
Requisites: Prerequisite, MATH 232; permission of the instructor for
students lacking the prerequisite.
Grading Status: Letter grade.
Same as: ENEC 468.

ENVR 470. Environmental Risk Assessment. 3 Credits.
Required preparation, one course in probability and statistics. Use of
mathematical models and computer simulation tools to estimate the
human health impacts of exposure to environmental pollutants. Three
lecture hours per week.

Rules & Requirements
Grading Status: Letter grade.
Same as: ENEC 470.

ENVR 472. Quantitative Risk Assessment in Environmental Health
Microbiology. 3 Credits.
Recommended preparation, microbiology, epidemiology, and infectious
diseases. Survey of alternative approaches, frameworks, and decision-
making tools for quantitative risk assessment of microbial pathogens
that infect humans and cause disease by the exposure routes of water,
food, air, and other vehicles.

Rules & Requirements
Grading Status: Letter grade.

ENVR 475. Global Climate Change: Interdisciplinary Perspectives. 1
Credits.
This class addresses the complexity and importance of global climate
change from several disciplines. A top expert will lecture each week,
addressing several themes including the science of human influences
on climate, impacts and adaptation, global energy and technology,
communication, and economics and international solutions. Pass/Fail
only.

Rules & Requirements
Grading Status: Pass/Fail.

ENVR 480. Modeling of Marine and Earth Systems. 1-3 Credits.
Mathematical modeling of dynamic systems, linear and nonlinear. The
fundamental budget equation. Case studies in modeling transport,
biogeochemical processes, population dynamics. Analytical and
numerical techniques; chaos theory, fractal geometry.

Rules & Requirements
Requisites: Prerequisite, MATH 232; permission of the instructor for
students lacking the prerequisite.
Grading Status: Letter grade.

ENVR 500. Environmental Processes, Exposure, and Risk Assessment. 3
Credits.
Environmental chemical and biological transport and transformation,
exposure to environmental contaminants, and environmental risk
assessment.

Rules & Requirements
Requisites: Prerequisite, CHEM 261.
Grading Status: Letter grade.

ENVR 505. Chemical Oceanography. 4 Credits.
Graduate students only; undergraduates must have permission of the
instructor. Overview of chemical processes in the ocean. Topics include
physical chemistry of seawater, major element cycles, hydrothermal
vents, geochemical tracers, air-sea gas exchange, particle transport,
sedimentary processes, and marine organic geochemistry. Three lecture
and two recitation hours per week.

Rules & Requirements
Making Connections Gen Ed: PL.
Grading Status: Letter grade.
Same as: MASC 505, GEOL 505.

ENVR 514. Measurement of NOx, O3, and Volatile Organic
Compounds. 3 Credits.
This course is intended to develop a student's ability to operate the
primary instruments for measuring these important pollutants, collect
and process samples where necessary, record data, and process
instrument data into final air concentration data.

Rules & Requirements
Grading Status: Letter grade.

ENVR 520. Biological Oceanography. 4 Credits.
For graduate students; undergraduates need permission of the instructor.
Marine ecosystem processes pertaining to the structure, function, and
ecological interactions of biological communities; management of
biological resources; taxonomy and natural history of pelagic and benthic
marine organisms. Three lecture and one recitation hours per week. Two
mandatory weekend fieldtrips.

Rules & Requirements
Making Connections Gen Ed: PL.
Grading Status: Letter grade.
Same as: MASC 504, BIOL 657.
ENVR 522. Environmental Change and Human Health. 3 Credits.
The course will provide students with a multidisciplinary perspective of environmental changes to encompass both human health and ecological health.

Rules & Requirements
Requisites: Prerequisite, ENEC 201 or 202.
Grading Status: Letter grade.
Same as: ENEC 522.

ENVR 525. Water, Sanitation, Hygiene, and Global Health. 3 Credits.
Builds on an understanding of infectious and toxic hazards, disease causation, and environmental transmission. Deals with hazard and disease classification; safety, risk, and vulnerability; interventions and their health impact; approaches in different settings; distal factors (e.g., water scarcity, climate change); and approaches to studying unsafe water, sanitation, and hygiene. Previously offered as ENVR 682.

Rules & Requirements
Grading Status: Letter grade.

ENVR 548. Sustainable Energy Systems. 3 Credits.
This course will provide an introduction to urgent topics related to energy, sustainability, and the environment. The course material will focus on new technologies, policies, and plans in cities and different governing bodies in the energy system with a focus on developing tools to analyze energy for its sustainability, impact on people, the environment, and the economy.

Rules & Requirements
Grading Status: Letter grade.
Same as: PLAN 548, ENEC 548.

ENVR 552. Organic Geochemistry. 3 Credits.
Recommended preparation, CHEM 261 or MASC 505, and one additional ENVR, GEOL, or MASC course above 400. Sources, transformations, and fate of natural organic matter in marine environments. Emphasis on interplay of chemical, biological, and physical processes that affect organic matter composition, distribution, and turnover.

Rules & Requirements
Making Connections Gen Ed: PL.
Grading Status: Letter grade.
Same as: MASC 552, GEOL 552.

ENVR 570. Methods of Environmental Decision Analysis. 3 Credits.
Required preparation, one course in probability and statistics. Use of quantitative tools for balancing conflicting priorities (such as costs versus human health protection) and evaluating uncertainties when making environmental decisions.

Rules & Requirements
Grading Status: Letter grade.

ENVR 575. Global Climate Change: Science, Impacts, Solutions. 3 Credits.
This class addresses the importance of climate change in its entirety. The first half of the course addresses climate science, followed by climate change impacts, energy and mitigation technologies, economics, and international politics. Improving communication and quantitative skills is emphasized through homework, in-class presentations, and a research paper.

Rules & Requirements
Grading Status: Letter grade.

ENVR 580. Policy Design for Environmental Health Solutions. 3 Credits.
Students will be introduced to the types of policy instruments that can be used to solve environmental health problems. The course provides a framework for understanding the tasks involved, the main institutions responsible, and an in-depth description of the policy instruments used to tackle environmental health problems.

Rules & Requirements
Making Connections Gen Ed: PL, GL.
Grading Status: Letter grade.

ENVR 582. Sanitation for Development. 3 Credits.
Over a million children die yearly from diarrhea, in part because 2.0 billion humans do not have access to a basic toilet. This course presents the problems and context of inadequate sanitation in the developing world, and, more importantly, the types of solutions and approaches available to reduce these problems.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: ENEC 585, PLAN 585, PLCY 585.

ENVR 585. American Environmental Policy. 3 Credits.
Intensive introduction to environmental management and policy, including environmental and health risks; policy institutions, processes, and instruments; policy analysis; and major elements of American environmental policy. Lectures and case studies. Three lecture hours per week.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENVR 600. Environmental Health. 3 Credits.
This course examines the relationship between environmental quality, human health and welfare, with particular attention to contamination in human environment; physical, biological, and social factors; trade-offs regarding prevention and remediation measures. Three lecture hours per week.

Rules & Requirements
Grading Status: Letter grade.

ENVR 601. Epidemiology for Environmental Scientists. 3 Credits.
An introduction to relevant epidemiologic concepts that inform environmental science research. Learning objectives include discussing basic epidemiologic concepts and measures of disease occurrence in populations, explaining epidemiologic study designs for studying associations between risk factors or exposures in populations, evaluating epidemiologic evidence, and comprehending basic ethical principles.

Rules & Requirements
Grading Status: Letter grade.
ENVR 610. Global Perspectives on Environmental Health Inequalities. 3 Credits.
Students will learn about how social, economic, and political factors impact environmental health outcomes and will be introduced to theories and methods for incorporating social determinants frameworks into environmental health research, as well as the role of environmental justice movements.

Rules & Requirements
Grading Status: Letter grade.

ENVR 630. Systems Biology in Environmental Health. 3 Credits.
Required preparation, one year of biology. Environmental systems biology examines how environmental stressors influence the components of a biological system, and how the interactions between these components result in changes in the function and behavior of that system.

Rules & Requirements
Grading Status: Letter grade.

ENVR 635. Energy Modeling for Environment and Public Health. 3 Credits.
Recommended preparation, MATH 231. This course will equip students with an overview of contemporary issues in energy modeling and energy systems analysis, with a focus on environmental and public health impacts of energy systems. Students will gain exposure to a variety of research methodologies, analytical tools, and applications of energy modeling applied to environmental and public health related problems such as climate change, air pollution, and water footprints of energy systems.

Rules & Requirements
Grading Status: Letter grade.
Same as: ENEC 635, PLAN 635.

ENVR 640. Environmental Exposure Assessment. 3 Credits.
Permission of the instructor for nonmajors. The course material introduces the general concepts of assessing environmental exposures to chemicals in human populations. This includes the design of ecologic and personal monitoring studies, the techniques and equipment used for sampling and analysis, and interpretation of data.

Rules & Requirements
Grading Status: Letter grade.

ENVR 650. Principles of Chemical Carcinogenesis. 2 Credits.
Required preparation, organic chemistry. Bioactivation of carcinogens, interaction of activated metabolites with DNA, and their effects on DNA structure, replication, repair, and the control of these processes during development of chemically induced carcinogenesis. Two lecture hours per week.

Rules & Requirements
Grading Status: Letter grade.

ENVR 661. Scientific Computation I. 3 Credits.
Requires some programming experience and basic numerical analysis. Error in computation, solutions of nonlinear equations, interpolation, approximation of functions, Fourier methods, numerical integration and differentiation, introduction to numerical solution of ODEs, Gaussian elimination.

Rules & Requirements
Grading Status: Letter grade.
Same as: MATH 661.

ENVR 662. Scientific Computation II. 3 Credits.
Theory and practical issues arising in linear algebra problems derived from physical applications, e.g., discretization of ODEs and PDEs. Linear systems, linear least squares, eigenvalue problems, singular value decomposition.

Rules & Requirements
Requisites: Prerequisite, MATH 661.
Grading Status: Letter grade.

ENVR 666. Numerical Methods. 3 Credits.

Rules & Requirements
Requisites: Prerequisites, COMP 116 and MATH 383.
Grading Status: Letter grade.

ENVR 668. Methods of Applied Mathematics I. 3 Credits.
Requires an undergraduate course in differential equations. Contour integration, asymptotic expansions, steepest descent/stationary phase methods, special functions arising in physical applications, elliptic and theta functions, elementary bifurcation theory.

Rules & Requirements
Grading Status: Letter grade.

ENVR 669. Methods of Applied Mathematics II. 3 Credits.
Perturbation methods for ODEs and PDEs, WKBJ method, averaging and modulation theory for linear and nonlinear wave equations, long-time asymptotics of Fourier integral representations of PDEs, Green’s functions, dynamical systems tools.

Rules & Requirements
Requisites: Prerequisite, MATH 668.
Grading Status: Letter grade.
Same as: MATH 669.

ENVR 671. Environmental Physics I. 3 Credits.
A first graduate-level course in physical principles relevant to environmental systems. Topics include dimensional analysis, tensor calculus, conservation of mass and momentum. Applications are considered from natural and engineered systems and across all relevant media. Focus is on the development of mechanistic representation of environmental systems.

Rules & Requirements
Grading Status: Letter grade.

ENVR 672. Environmental Physics II. 3 Credits.
Second part of a graduate-level sequence in physical principles relevant to environmental systems. Topics include turbulence, conservation of energy, multiscale methods, and thermodynamics. Applications are considered from natural and engineered systems and across all relevant media. Focus is on development of mechanistic representation of environmental systems.

Rules & Requirements
Requisites: Prerequisite, ENVR 671.
Grading Status: Letter grade.
ENVR 673. Hydraulics for Environmental Engineering. 3 Credits.
Permission of the instructor for undergraduates. This course teaches practical basics of how to solve environmental engineering problems in the hydraulics of pipes, pumps, networks, and open channels. The course is a mix of classroom lectures, problem-solving sessions, and laboratory sessions.

Rules & Requirements
Requisites: Prerequisites, MATH 231 and PHYS 114.
Grading Status: Letter grade.

ENVR 675. Air Pollution, Chemistry, and Physics. 3 Credits.
This class is designed for graduate students planning for research in air pollution, emphasizing chemical kinetics and engineering approaches to problem solving in addition to atmospheric structure, meteorology, and modeling. We address problems of stratospheric and tropospheric ozone, particulate matter, and acid rain. We emphasize quantitative problem solving in homework.

Rules & Requirements
Grading Status: Letter grade.

ENVR 683. Water-Health Research I. 2 Credits.
Permission of the instructor for undergraduates and nonmajors. Introduces students to methods for research conception, design, planning, and implementation in fields related to water and its impacts on health. Students study approaches and tools that may be applied in water-related research and are coached in developing their own research design.

Rules & Requirements
Grading Status: Letter grade.

ENVR 684. Water-Health Research II. 2 Credits.
Permission of the instructor for undergraduates and nonmajors. Familiarizes students with the principles of scientific communication with an emphasis on scientific writing and oral presentations. Using their own water and health research, students learn how to communicate effectively in informal settings and how to prepare for interviews with the media.

Rules & Requirements
Grading Status: Letter grade.

ENVR 685. Water and Sanitation Planning and Policy in Less Developed Countries. 3 Credits.
Permission of the instructor. Seminar on policy and planning approaches for providing improved community water and sanitation services in developed countries. Topics include the choice of appropriate technology and level of service, pricing, metering, and connection charges; cost recovery and targeting subsidies to the poor; water venting; community participation in the management and operation of water systems; and rent-seeking behavior in the provision of water supplies.

Rules & Requirements
Grading Status: Letter grade.
Same as: PLAN 685.

ENVR 686. Policy Instruments for Environmental Management. 3 Credits.
Design of public policy instruments as incentives for sustainable management of environmental resources and ecosystems, and comparison of the effects and effectiveness of alternative policies.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisite, ECON 410 or PLAN 710.
Grading Status: Letter grade.
Same as: PLCY 686, ENEC 686, PLAN 686.

ENVR 687. Writing for Journal Publication on Water and Sanitation Hygiene, Health, and Development. 2 Credits.
This course familiarizes students with scientific paper writing and coaches students towards journal manuscript submission. Students should have a data set of results. Sessions begin with student presentations and discussion, followed by a brief preparatory lecture on the next assignment. Substantive preparation is required between sessions.

Rules & Requirements
Grading Status: Letter grade.

ENVR 691H. Honors Research. 3 Credits.
Permission of the instructor. Directed readings or laboratory study of a selected topic. A written report is required in the form of an honors thesis (ENVR 692H).

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

ENVR 692H. Honors Thesis. 3 Credits.
Students complete honors research projects.

Rules & Requirements

ENVR 695. Undergraduate Research. 1-3 Credits.
Directed readings or laboratory study. Written reports are required. May be taken more than once for credit. Three to nine hours per week.

Rules & Requirements

ENVR 698. Senior Capstone Course. 3 Credits.
This capstone course covers a range of issues in public health ethics, particularly focused on environmental health. Students will work on a team-based project over the course of the semester. The projects will be focused on topics that have ethical relevance and will integrate students' knowledge in environmental health.

Rules & Requirements

Department of Environmental Sciences and Engineering
Visit Program Website (http://www.sph.unc.edu/ese/)
Environmental Health Sciences Major, B.S.P.H.

The undergraduate major in environmental health sciences is designed to develop a comprehensive understanding of the environmental factors that impact human health; the physical, chemical, and biological processes that underlie the impact of human activity on the environment and human health; methods used to assess the impact of human activity on the environment and human health; and science-based solutions for environmental problems. Students may choose to emphasize environmental chemistry, environmental health biology, or environmental physics by selecting those concentrations. Admission into the program requires satisfactory completion of coursework in basic sciences and mathematics. Recent graduates have entered graduate programs in environmental science, microbiology, marine science, applied mathematics, and environmental engineering. Students who pursued employment after completing the B.S.P.H. degree are working in environmental advocacy organizations, environmental consulting firms, industry, and investment banking firms.

Upon completion of the B.S.P.H. in environmental science and engineering, students should be able to:

- Define current major issues in environmental health, sciences, and engineering
- Provide quantitative answers to complex environmental questions and describe the potential underlying uncertainties
- Describe linkages between sources of environmental contaminants, ambient concentrations, human exposures, and possible solutions
- Describe the mechanistic basis for environmentally induced disease and methods for prevention
- Demonstrate written and oral communication skills in environmental health, sciences, and engineering within a public health context
- Communicate public health information, in both oral and written forms, through a variety of media and to diverse audiences
- Locate, use, evaluate, and synthesize public health information
- Describe health inequities, identify their root causes at multiple levels of the social ecological framework, and discuss approaches to advancing health equity

Prerequisite Courses Required for Admission

Applicants should have earned a grade of C or better in residence at UNC–Chapel Hill in at least one course per group in three of the following groups:

\(^H\) Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

\(^F\) FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Admission

The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Four majors are available to undergraduate students: biostatistics, environmental health sciences, health policy and management, and nutrition. Each of these combines features of a broad-based education with concentrated study in a specific public health discipline. The programs prepare individuals for preprofessional positions in health-related fields and provide a firm base for graduate study. Students are permitted to pursue two majors in the school if there are no course time conflicts and they are able to complete all
requirements within their remaining time for degree completion. Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, requirements described in this catalog particularly apply to students admitted to the school during the 2022–2023 academic year.

Students who wish to obtain the B.S.P.H. degree typically spend two years in the General College of the University of North Carolina at Chapel Hill (or in an equivalent core program of academic study elsewhere) and two subsequent years under the administration of the Gillings School of Global Public Health. Enrollment in the B.S.P.H. degree programs is limited. Typically a student is selected in the latter half of the sophomore year and admitted on a competitive basis for junior year entry to the major. The minimum recommended grade point average for admission to programs in biostatistics, environmental health sciences, health policy and management, and nutrition is 3.0.

For current UNC–Chapel Hill students, the initial step of B.S.P.H. application is available in ConnectCarolina under the “Apply for Majors Change” tab. For additional information on application deadlines and how to apply, please visit the Public Health Undergraduate Majors (https://sph.unc.edu/resource-pages/undergraduate-programs/) webpage.

Transfer students interested in any of the public health undergraduate majors must apply through the Office of Undergraduate Admissions (http://admissions.unc.edu/apply/transfer-students/) using the Transfer Common application.

For high school seniors, our four majors participate in the University Assured Enrollment Programs under EXCEL@Carolina. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina’s professional schools or a spot in an accelerated undergraduate/graduate program. Programs include unique opportunities such as early access to classes, individualized mentorship, and career connections. For additional information, please visit EXCEL@Carolina (https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/).

Requirements
In addition to the program requirements listed below, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill.

For more information, please consult the degree requirements section of the catalog (p. 1240).

The major in environmental health sciences includes several concentrations:

- General (p. 513)
- Environmental Chemistry (p. 513)
- Environmental Health Biology (p. 513)
- Environmental Physics (p. 513)

| CHEM 102 & 102L | General Descriptive Chemistry II and Quantitative Chemistry Laboratory II H,F | 4 |
| CHEM 261 | Introduction to Organic Chemistry I H | 3 |

| **One of the following:** |       |
| COMP 116 | Introduction to Scientific Programming | 3-4    |
| BIOL/MATH 553 | Mathematical and Computational Models in Biology |       |
| GEOG 597 | Ecological Modeling |       |
| MATH 231 | Calculus of Functions of One Variable I H,F | 4 |
| MATH 232 | Calculus of Functions of One Variable II H,F | 4 |
| PHYS 118 | Introductory Calculus-based Mechanics and Relativity 1,2,F | 4 |
| or PHYS 114 | General Physics I: For Students of the Life Sciences |       |
| PHYS 119 | Introductory Calculus-based Electromagnetism and Quanta 1,2,F | 4 |
| or PHYS 115 | General Physics II: For Students of the Life Sciences |       |

**Total Hours** 70-71

† Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Preferred.

PHYS 118 and PHYS 119 are required for the environmental chemistry concentration.

† Applicants should have earned a grade of C or better from UNC-Chapel Hill in at least one course per group in three of the five prerequisite course groups. See Admissions tab for details.

Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.
Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Special Opportunities in Environmental Health Sciences

Accelerated Bachelor’s-Master’s Degree Program

The Department of Environmental Sciences and Engineering offers an accelerated master’s degree for students who have completed a B.S.P.H or any B.S. in a STEM field from UNC–Chapel Hill. An accelerated master’s degree has the same overall credit requirements as a regular master’s degree, but potentially allows a student to finish in a single year. The M.S. and M.S.P.H. degrees are research-focused; the M.P.H. is focused on coursework and public health practice. These degrees prepare students to work as researchers, program officers, or consultants in industry, government organizations, and the non-profit sector; many graduates have gone on to complete doctoral degrees at UNC–Chapel Hill or elsewhere.

Students interested in the accelerated degree program must have completed their B.S. or B.S.P.H. in the previous academic year. Students progressing to an M.S., M.P.H., and M.S.P.H can transfer up to twelve hours of graduate-level (400 or above) coursework. For the M.S. and M.S.P.H., it is strongly recommended that students have identified an advisor and made progress toward their master’s research as early as possible, preferably by their senior year.
Honors in Environmental Health Sciences
Students who have a grade point average of 3.3 or higher are eligible to participate in honors research and to write an honors thesis.

Study Abroad
There are several opportunities for pursuing environmental study abroad, both through the department and through the UNC Study Abroad Office (https://studyabroad.unc.edu/).

Undergraduate Research
Many undergraduate students participate in the research programs of the department. Students are encouraged to consult individual faculty members for opportunities to participate in such research. In addition, the department has information concerning fellowships and internships, some of which are combined with research opportunities in laboratories or field settings.

Department Programs
Major
- Environmental Health Sciences Major, B.S.P.H. (p. 511)

Minor
- Engineering for Environmental Change, Climate, and Health Minor (p. 515)

Engineering for Environmental Change, Climate, and Health Minor
This minor is designed to train students with an interest in developing engineering skills focused on building public health resilience to climate and environmental change. Climate-related challenges will include droughts, floods, heatwaves and extreme weather events, which in turn impact air pollution, water availability and quality, toxic releases, food and nutrition, infectious and non-communicable diseases, and will increase migration and conflict pressure and exacerbate health inequities. As environmental scientists and engineers located within the top public school of public health, the Department of Environmental Sciences and Engineering (ESE) is ideally positioned to provide holistic, intersectoral responses to mitigate and prepare for these upcoming and pressing environmental challenges. Join the minor to learn about climate change, health/risk assessment, environmental processes, and engineering tools to provide quantitative answers to complex environmental questions.

Information about the application process can be found on the department website.

In addition to the program requirements listed below, students must:
- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Prerequisite Courses
Students may apply for the minor any semester after completing MATH 233. Admitted students must have an average GPA of 3.0 or higher in the minor’s prerequisite courses.

Curriculum in Contemporary European Studies

Introduction
The curriculum in contemporary European studies (EURO) is designed to provide students with

- A broad interdisciplinary understanding of modern Europe and the European Union
- A focused understanding of contemporary Europe from the perspective of a selected social science, and
- Advanced proficiency in a modern European language

Students are encouraged to combine the EURO major with a second major in a field such as political science, economics, or history; or an interdisciplinary field such as German or romance studies, comparative literature, chemistry, PPE (politics, philosophy, and economics), or sustainability studies. EURO majors are also encouraged to study abroad and work closely with the advisor to obtain EURO credit while abroad. Through its unique combination of advanced coursework and language training, the curriculum provides the intellectual building blocks to study contemporary Europe through a sophisticated framework. Students completing the major will be well prepared for graduate or professional study of contemporary Europe and for a range of international careers.

Advising
In addition to the guidance provided by the primary academic advisors from the Academic Advising Program, EURO majors receive individualized advising at all stages of academic planning, including considering courses, internships, study abroad options, graduate programs, and career paths. Students interested in pursuing a major in contemporary European studies are encouraged to meet with the curriculum advisor as early as possible in their undergraduate career to design a comprehensive and efficient course plan – including considering the EURO-TAM B.A.-M.A. program option – and take full advantage of study abroad and other international education opportunities. Consult the curriculum website (http://europe.unc.edu/euro/) for further information on courses, funding, research, travel awards, campus resources, and the alumni network.

Advisory Board
Chad Bryant (History), John Coyle (Law), Joanneke Elliott (UNC Libraries), Liesbet Hooghe (Political Science), Serenella Iovino (Romance Studies), Arne Kalleberg (Sociology), Priscilla Layne (Germanic and Slavic Languages and Literatures), Gary Marks (Political Science), Rahsaan Maxwell (Political Science), Susan Dabney Pennybacker (History), John Pickles (Geography), Dan Sherman (History).
Affiliated Faculty

Karen Auerbach (History), Cemil Aydin (History), Cameron Ballard-Rosa (Political Science), Anna Bassi (Political Science), Andrea Bohlman (Music), Cristina Carrasco (Romance Studies), Amy Chambliss (Romance Studies), Greg Gangi (Institute for the Environment), Banu Gökarkin Sel (Geography), Karen Hagemann (History), Didem Havlioglu (Asian Studies), Dorothea Heitsch (Romance Studies), Evelyne Huber (Political Science), Konrad Jarausch (History), Robert Jenkins (Political Science), Lloyd Kramer (History), Richard Langston (Germanic and Slavic Languages and Literatures), Klaus Larres (History), John McGowan (English), Hassan Melehy (Romance Studies), Holger Moroff (Political Science), Susan Harbage Page (Women's and Gender Studies), Tony Perucci (Communications), Hana Pichova (Germanic and Slavic Languages and Literatures), Valerie Pruvost (Romance Studies), Donald Reid (History), Graeme Robertson (Political Science), Christina Rudosky (Romance Studies), Don Searing (Political Science), Louise Spieler (Media and Journalism), Jessica Tanner (Romance Studies), Gabriel Trop (Germanic and Slavic Languages and Literatures), Milada Vachudova (Political Science), Richard Vernon (Romance Studies), Ruth von Bernuth (Germanic and Slavic Languages and Literatures, Center for Jewish Studies).

The Center for European Studies also hosts many visiting scholars from Europe.

EURO—Contemporary European Studies

Undergraduate-level Courses

EURO 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

EURO 159. From War to Prosperity: 20th-Century Europe. 3 Credits.
A critical overview of 20th-century European history, with particular attention to the constant ethnic, religious, social, economic, and cultural struggles (including Holocaust, Cold War) in various subunits of the old continent.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 159.

EURO 190. Special Topics Seminar in Contemporary European Studies. 1-3 Credits.
A detailed examination of selected topics in the field of Contemporary European Studies.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

EURO 239. Introduction to European Government. 3 Credits.
A treatment of the political institutions and processes of western European democracies, with special attention to France, Germany, England, and Italy. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: POLI 239.

EURO 252. Politics, Society, and Culture in Modern Germany (1871-1945). 3 Credits.
This course explores the history of Modern Germany, by focusing on Imperial Germany, the Weimar Republic and the Third Reich. We will study continuities and changes in politics, society, and culture and examine the lasting impact of World War I, World War II and the Holocaust.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 252.

EURO 257. Politics, Society, and Culture in Postwar Germany. 3 Credits.
The interdisciplinary seminar will explore cultural, historical, and political issues of contemporary Germany and analyze German developments from the postwar period to the present. Readings and discussions in English.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 257, POLI 257.

EURO 259. Towards Emancipation? Women in Modern Europe. 3 Credits.
This course examines and compares the situation of women in politics, the work force, society and family from the French Revolution to the new women's movement in the 1970s with a focus on Britain, France and Germany. One major theme is the history of the struggle for women's emancipation.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 259, WGST 259.

EURO 270. Religion in Western Europe. 3 Credits.
In this course, we will explore various topics related to the past and present status of religion in general, and of certain religions in particular, within three Western European countries: the United Kingdom, France, and Germany. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: RELI 270.
EURO 285. Applied Experimental Research: Politics in the US and Europe. 3 Credits.
The course familiarizes students with experimental research methods in political science, including laboratory experiments, field experiments, and survey experiments. Students will design and conduct an experimental research project on a research question about US or European politics.

Rules & Requirements
Making Connections Gen Ed: SS, QI.
Grading Status: Letter grade.
Same as: POLI 285.

EURO 347. Fascist Challenge in Europe, 1918-1945. 3 Credits.
The course focuses on theories on fascism, national cultures of fascism (e.g. Nazi Germany, Fascist Italy, Hungary) as well as selected topics which are essential to understand the attraction and functioning of fascist movements and regimes since 1918 in Europe (e.g. racism, war, culture, charismatic leadership).

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 347.

Advanced Undergraduate and Graduate-level Courses
EURO 433. Politics of the European Union. 3 Credits.
Examines the politics and political economy of institutional change and policy making in the European Union in comparative perspective. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, GL, NA.
Grading Status: Letter grade.
Same as: POLI 433.

EURO 438. Democracy and International Institutions in an Undivided Europe. 3 Credits.
Explores the collapse of communist rule in 1989 and the reaction of international institutions to the challenges of democratization, economic transition, ethnic conflict, and European integration in an undivided Europe.

Rules & Requirements
Ideas in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.
Same as: POLI 438.

EURO 442. International Political Economy. 3 Credits.
Theories of international political economy, major trends in international economic relations, selected contemporary policy issues.

Rules & Requirements
Ideas in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS, GL.
Requisites: Prerequisites, ECON 101 and POLI 150.
Grading Status: Letter grade.
Same as: POLI 442.

EURO 460. International Economics. 3 Credits.
An introduction to international trade, the balance of payments, and related issues of foreign economic policy.

Rules & Requirements
Ideas in Action Gen Ed: FC-GLOBAL.
Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.
Grading Status: Letter grade.
Same as: ECON 460, PWAD 460.

EURO 486. Exploration of Russian "Women's Prose" and Svetlana Alexievich (Nobel Prize in Literature 2015). 3 Credits.
Using Alexievich as our beacon, we will explore the writers behind the term "Russian Women’s Prose": Valeria Narbikova, Lyudmila Petrushkevskaya, Tatyana Tolstaya, and Lyudmila Ulitskaya. The course will delve into gender identity and body politics as they manifest themselves in the literary texts of lasting aesthetic quality and social relevance. Taught in English; some readings in Russian for qualified students.

Rules & Requirements
Ideas in Action Gen Ed: FC-AESTH or FC-GLOBAL.
Making Connections Gen Ed: LA, BN.
Grading Status: Letter grade.

EURO 490. Advanced Special Topics Seminar in Contemporary European Studies. 1-3 Credits.
A detailed examination of advanced special topics in Contemporary European Studies.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

EURO 691H. Honors Thesis in European Studies. 3 Credits.
Directed independent research leading to the preparation of an honors thesis.

Rules & Requirements
Ideas in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

EURO 692H. Honors Thesis in European Studies. 3 Credits.
Completion of the honors thesis and an oral examination of the thesis.

Rules & Requirements
Ideas in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

Director
John D. Stephens
The curriculum in contemporary European studies is designed to provide students with

- A broad interdisciplinary understanding of modern Europe and the European Union
- A focused understanding of contemporary Europe from the perspective of a selected social science discipline, and
- Advanced proficiency in a modern European language

**Student Learning Outcomes**

Upon completion of the contemporary European studies program, students should be able to:

- Demonstrate knowledge of the historical and political complexities of the European continent
- Demonstrate advanced proficiency in an approved language
- Demonstrate knowledge of the political, social, and economic integration of the European continent
- Show an interdisciplinary grasp of European cultures, histories, literatures, art, and ideas
- Report satisfaction with the major
- Gain admission to graduate programs or a job in a relevant field

**Requirements**

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC-Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

</table>

**Additional Requirements**

A modern European foreign language through level 5, chosen from the following languages: Arabic, Bosnian-Croatian-Serbian, Czech, French, German, Italian, Polish, Portuguese, Russian, Spanish, Turkish.  

**Total Hours** 30

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

1 Of the total eight courses required for the major, three must be numbered 400 or above. Special topics courses EURO 190 and EURO 490 may count for either theme, with approval based on topic.

2 Please see the list of global language courses in the “General Education Requirements” section of this catalog. The first three levels of a foreign language can count toward the General Education requirement and have not been included as additional hours for the major.

Contemporary European studies majors are required to complete a minimum of five semesters of a modern European language, or document fifth-semester proficiency through University placement tests. One approved literature course taught in the language may also count as a theme or elective course if included in the course listings above. Majors are strongly encouraged to apply their language proficiency skills in languages across the curriculum (LAC) courses and complete a UNC-approved study abroad program in the target language.

The Curriculum in Contemporary European Studies offers an honors program. Students who wish to pursue an honors thesis are advised to contact the director of undergraduate studies and will enroll in EURO 691H and EURO 692H.

New courses may be added to this list annually, as they are developed. An updated list of approved courses may be obtained from the contemporary European studies website (http://europe.unc.edu/euro/). Other courses relevant to the study of contemporary Europe may be taken for credit in the major (including EURO 190 and EURO 490), if approved by the curriculum advisor.

Special Opportunities in Contemporary European Studies

Students may be interested in the resources available through UNC’s Center for European Studies (CES), a United States Department of Education Title VI National Resource Center and a Jean Monnet Center of Excellence funded by the European Commission. CES offers a range of ongoing programs including guest speakers, film festivals, conferences, and cultural events. CES hosts Europe Week at Carolina each spring, a week of events during which the diversity of Europe’s history, politics, culture, and languages is showcased.

The center also houses the TransAtlantic Masters Program (http://tam.unc.edu) (TAM), an M.A. degree program that may be of particular interest to students who have completed the major in contemporary European studies. The TAM program includes study at UNC and at one or more partner universities in Europe. The new EUROTAM B.A.-M.A. dual degree option allows students to complete both degrees in accelerated time. EUROTAM students are not required to take the GRE.

Students interested in pursuing the B.A-M.A. program or learning more about funding for research and travel, the new Model EU program, European Horizons student group, study abroad, internships, publishing in CES’ NC Journal for European Studies, career planning, and the alumni network are encouraged to speak with the director of undergraduate studies and to visit the website (https://europe.unc.edu/euro/) for more information.

Curriculum in Contemporary European Studies

Department of Exercise and Sport Science

Introduction

The mission of the Department of Exercise and Sport Science is to discover and promote knowledge of human movement to improve quality of life.

Exercise and sport science examines the anatomy, physics, physiology, and psychology of sport and exercise. The general major provides foundational courses in exercise science that prepares students for many paths. Students interested in sport administration can build a foundation in the management of sport, and explore career options related to amateur, interscholastic, or professional sport operation and business. The fitness professional program is designed to prepare students for careers in a variety of health-related fields, including but not limited to entry-level positions in the health-fitness industry; personal training of amateur, professional, and recreational athletes; exercise therapy for a range of clinical conditions; or graduate study in exercise physiology. Other career options for majors include strength-conditioning coach for an athletic team; exercise research within the athletic, medical, or pharmaceutical industries; or fitness club entrepreneur. By choosing additional courses, students can apply to schools of physical therapy, occupational therapy, athletic training, public health, nursing, or medicine.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (https://advising.unc.edu/). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. In the Department of Exercise and Sport Science four faculty members serve as advisors with weekly office hours (see “Programs” above and contact information on the website). The department communicates via a listserv, Facebook posts, tweets, blog posts, classroom “advising” visits, bulletin boards/video boards throughout the building, and the departmental website (http://exss.unc.edu/). Departmental academic advising is particularly important for those majors who are considering graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department’s website (http://exss.unc.edu/).

Facilities

In addition to classroom space and physical activity area, Fetzer Hall, Woolen Gym, and Stallings-Evans Sports Medicine Center house several well-equipped research and teaching laboratories:
1. The Applied Physiology Laboratory is fully equipped to measure metabolism, body composition, and aerobic fitness. Additionally, it houses a chemistry laboratory to study the biochemistry of exercise.

2. The Cadaver Anatomy Laboratory is designed to teach cadaver dissection in order to gain a greater knowledge about how the human body works in an athletic environment.

3. The Exercise Science Teaching Laboratory was specifically designed for teaching exercise science laboratory experiences as well as clinical exercise testing experiences.

4. The MOTION Science Institute, comprised of three research laboratories (Motion Analysis Laboratory, Neuromuscular Assessment Laboratory, and Gait Biomechanics Laboratory), is fully equipped to evaluate neuromuscular function and biomechanics associated with musculoskeletal injury prevention.

5. The CPR Laboratory is a teaching laboratory for CPR and first aid skills. The laboratory is equipped with mannequins, AED trainers, and first aid equipment.

6. The Exercise Oncology Laboratory is equipped with the latest technology for the assessment of cardiorespiratory and pulmonary function, body composition, cognitive function, electrocardiogram monitoring capability, and evaluation of heart rate coherence and heart rate variability in oncology patients.

7. Through its clinical and research initiatives, the Matthew Gfeller Sport-Related Traumatic Brain Injury Research Center demonstrates its commitment to providing the highest level of care for athletes of all ages suffering from sport-related brain injuries, and to assisting parents, coaches, and medical professionals in managing these athletes.

8. The Athletic Training Teaching Laboratory is designed for students to practice evaluation, treatment, and rehabilitation skills. It is equipped with treatment tables, evaluation tools, rehabilitation supplies such as foam rollers, exercises balls, and taping supplies.

9. The Cardiometabolic Laboratory investigates: the interactions between lifestyle behaviors and cardiometabolic health with a particular interest in sedentary behavior and young adults, the development and interpretation of methodologies for assessing cardiometabolic health, and the translation of basic and applied science in regards to public health outcomes.

Graduate School and Career Opportunities
Many undergraduate exercise and sport science majors are preparing for graduate work in related areas: exercise physiology, physical therapy, sports medicine, nutrition, athletic training, sports administration/management, etc. They will be well-prepared for master’s and doctoral programs, and graduate assistantships in these areas at UNC–Chapel Hill and other large universities. Numerous career opportunities exist in a variety of fields directly related to sport and exercise. Some graduates go directly into health/fitness/sport-related employment. Others attend professional schools or pursue advanced academic degrees.

Courses
EXSS—Exercise and Sport Science
Undergraduate-level Courses

EXSS 50. First-Year Seminar: Discrimination and Sport. 3 Credits.
This course will examine the American ethos by looking at those who have been discriminated against in sport because of race, gender, sexual orientation, or disability.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

EXSS 51. First-Year Seminar: Entrepreneurship in Human Performance and Sport. 3 Credits.
This course will provide students an introduction to the practical entrepreneurial business tools for starting a new business (or for use in an existing organization) in the human performance and/or sport industry.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

EXSS 55. First-Year Seminar: Sport Engineering and Human Performance. 3 Credits.
This first year seminar is designed to discuss the limits of human performance and equipment that is engineered to enhance performance. How fast is it possible to run or swim? Will Olympic records continue to be broken? When do we reach our full athletic potential? This course is designed to challenge your thinking about performance using the science that governs biomechanics and human physiology as well as exploring the data that drives equipment development.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

EXSS 89. First-Year Seminar: Special Topics. 3 Credits.
Course content will vary each semester.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

EXSS 141. Personal Health. 3 Credits.
Elective, open to all students. This course examines basic wellness concepts in the areas of physical fitness, nutrition, disease prevention, mental health, drug abuse, and human sexuality. Emphasis is on the individual’s responsibility for his/her own health.

Rules & Requirements
Grading Status: Letter grade.

EXSS 175. Human Anatomy. 3 Credits.
The study of the structure of the human body with special emphasis on the musculoskeletal, articular, and nervous systems. Prosected cadaver materials are utilized to study the skeletal muscles and body viscera.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

EXSS 180. Physical Activity in Contemporary Society. 3 Credits.
An examination of the role of physical activity/inactivity on the health and well-being of American society.

Rules & Requirements
Grading Status: Letter grade.

EXSS 181. Sport and Exercise Psychology. 3 Credits.
This course exposes students to psychological aspects contributing to sport/physical activity participation and psychological outcomes of participation. It explores psychological theories and research and their application to the affective, behavioral, and cognitive outcomes of sport/physical activity participants when considering key environmental factors.

Rules & Requirements
Grading Status: Letter grade.

EXSS 191. Theory and Practice of Modern Dance Technique - Elementary-Level Elective. 3 Credits.
An introduction to modern dance technique, history, and philosophy focusing on the physical principles of movement and their choreographic application. Students will participate in a combination of lectures and studio time.

Rules & Requirements
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

EXSS 205. Analysis of Sport Skills I. 3 Credits.
A professional preparation course in the skills, knowledge, safety, and teaching progressions of basketball, track and field, and softball/baseball.

Rules & Requirements
Grading Status: Letter grade.

EXSS 206. Analysis of Sport Skills II. 3 Credits.
A professional preparation course in the skills, knowledge, safety, and teaching progressions of soccer, tennis, and volleyball.

Rules & Requirements
Grading Status: Letter grade.
EXSS 207. Coaching Principles. 3 Credits.
A professional preparation course for teaching and coaching. Includes basic instruction in coaching education and principles, pedagogy for coaching, conditioning for athletes, and team building.

Rules & Requirements
Grading Status: Letter grade.

EXSS 208. Health and Physical Education in the Elementary School. 3 Credits.
This course deals with methods and materials of health and physical education in school levels kindergarten through sixth grade. Required of elementary education majors. Does not count toward physical education major.

Rules & Requirements
Grading Status: Letter grade.

EXSS 211. Adapted Physical Education. 3 Credits.
A study of problems related to body mechanics and the needs of the physically handicapped student.

Rules & Requirements
Grading Status: Letter grade.

EXSS 220. Fitness Management. 3 Credits.
Students develop a working knowledge of theories, principles, and operating procedures involved in managing programs, staff, and facilities in the health/fitness industry, including management, marketing, operations, legal aspects.

Rules & Requirements
Grading Status: Letter grade.

EXSS 221. Introduction to Sport Administration. 3 Credits.
In this course, students are introduced to the policies and problems of organizing and administering sport in public and private settings.

Rules & Requirements
Grading Status: Letter grade.

EXSS 222. International Sport Management. 3 Credits.
Because sport cuts across all international boundaries, students must understand the global implications of the sport industry. This course introduces students to the organization, governance, business activities, and intercultural issues in international sport.

Rules & Requirements
Grading Status: Letter grade.

EXSS 224. Sport Sales and Revenue Production Seminar. 3 Credits.
This course will analyze and produce skills essential to the revenue production and sales process commonly found in the sport business. In this class students will develop an understanding and appreciation for the sales and revenue-production process related to a sport franchise and/or organization.

Rules & Requirements
Prerequisites: Prerequisite, EXSS 221.
Grading Status: Letter grade.

EXSS 260. Women and Sport. 3 Credits.
A broad based perspective of women's participation in sport including history of participation, physiological differences, and socio-cultural influences including work, politics, family, economics, and gender roles and identity.

Rules & Requirements
Grading Status: Letter grade.

EXSS 266. Fundamentals of Sports Medicine. 3 Credits.
This course is designed to introduce the undergraduate student to the sports medicine profession and to provide the basic knowledge and skills necessary to recognize, evaluate, and treat injuries to the head and face, cervical spine, thoracic region, abdominal/urogenital region, and extremities.

Rules & Requirements
Prerequisites: Prerequisite, EXSS 175.
Grading Status: Letter grade.

EXSS 265. Fundamentals of Sports Medicine. 3 Credits.
This course is designed to introduce the undergraduate student to the sports medicine profession and to provide the basic knowledge and skills necessary to recognize, evaluate, and treat injuries to the head and face, cervical spine, thoracic region, abdominal/urogenital region, and extremities.

Rules & Requirements
Grading Status: Letter grade.

EXSS 273. Research in Exercise and Sport Science. 3 Credits.
An introduction to research in the fields of physical education, exercise, and sport science with emphasis on understanding and application of research findings.

Rules & Requirements
Grading Status: Letter grade.

EXSS 275L. Human Anatomy Laboratory. 1 Credits.
Required preparation, a grade of B or better in EXSS 175. EXSS 275L is a basic human anatomy laboratory course designed to accompany EXSS 175. For students endeavoring to major in the allied health professions.

Rules & Requirements
Grading Status: Letter grade.

EXSS 276. Human Physiology. 3 Credits.
Instructor may approve equivalents for prerequisite. A lecture course in elementary physiology, covering the various systems of the body.

Rules & Requirements
Grading Status: Letter grade.

EXSS 288. Emergency Care of Athletic Injuries and Illnesses. 3 Credits.
Recommended preparation, EXSS 175. Theory and practice of basic first aid, cardiopulmonary resuscitation, and the acute care of athletic injuries.

Rules & Requirements
Grading Status: Letter grade.

EXSS 290. Special Topics in EXSS. 3 Credits.
Variable topics course in Exercise and Sports Science. Honors version available.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading Status: Letter grade.
EXSS 291. Theory and Practice of Modern Dance Technique - Intermediate-Level Elective. 3 Credits.
An intensive study of modern dance technique and philosophy, focusing on the physical principles of movement and their choreographic application. One hour seminar and four and one-half hours laboratory.

Rules & Requirements
Requisites: Prerequisite, EXSS 191; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

EXSS 322. Fundamentals of Sport Marketing. 3 Credits.
This course is designed to introduce students to marketing within the sports industry, including the unique aspects of the sport product and sport consumer markets.

Rules & Requirements
Requisites: Prerequisite, EXSS 221.
Grading Status: Letter grade.

EXSS 323. Sport Facility and Event Management. 3 Credits.
This course is designed to develop practical competencies necessary for effectively managing sport facilities and events while providing students with experiential learning opportunities inside and outside the classroom.

Rules & Requirements
Requisites: Prerequisite, EXSS 221.
Grading Status: Letter grade.

EXSS 324. Finance and Economics of Sport. 3 Credits.
This course provides an understanding of the financial and economic growth of sport, economic theory applied to the sport industry, and the basic principles and methods of sound fiscal control.

Rules & Requirements
Requisites: Prerequisites, ECON 101, and EXSS 221.
Grading Status: Letter grade.

EXSS 325. The Role of Intercollegiate Athletics in Higher Education. 3 Credits.
This course is designed to help students interested in working in college sports understand what that role has been and might be in the future, with an emphasis on maximizing the educational value of intercollegiate athletic participation and the integration of athletics with academic and student life dimensions on college campuses.

Rules & Requirements
Grading Status: Letter grade.

EXSS 326. Legal Aspects of Sport. 3 Credits.
This course provides a foundation in general legal concepts and familiarizes students with the legal areas they are most likely to encounter as managers in the sports and fitness industry.

Rules & Requirements
Requisites: Prerequisite, EXSS 221.
Grading Status: Letter grade.
EXSS 369. Athletic Training Seminar. 3 Credits.
A presentation of the historical and current perspectives on athletic training, including techniques for organizing and administering athletic training programs.

Rules & Requirements
Requisites: Prerequisites, EXSS 175 and 288.
Grading Status: Letter grade.

EXSS 370. General Medicine in Athletic Training. 3 Credits.
Advanced course focusing on understanding instrumentation used in assessing internal injury related to sport. Pharmacology, drug testing, psychosocial interventions, and selected emergency procedures pertaining to athletic injury are also presented.

Rules & Requirements
Requisites: Prerequisites, EXSS 175, 265, 276, and 288.
Grading Status: Letter grade.

EXSS 373. Sport Injury Epidemiology. 3 Credits.
This course will introduce the student to the public health importance and epidemiology of injuries and other medical conditions in sport and physical activity.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

EXSS 376. Physiological Basis of Human Performance. 3 Credits.
Instructor may approve equivalents for EXSS prerequisites. Students must take laboratory section along with class. The application of physiological principles to sport and physical activity. Both immediate and chronic adaptations to exercise are studied. Two lecture and two laboratory hours a week.

Rules & Requirements
Requisites: Prerequisites, EXSS 175 and 276.
Grading Status: Letter grade.

EXSS 380. Neuromuscular Control and Learning. 3 Credits.
Instructor may approve equivalents for prerequisite. Provides introduction to neuromuscular factors controlling movement and acquisition of motor skills. Promotes application of neuromuscular control and motor learning principles to teaching of motor skills with application to rehabilitation and fields such as athletic training, physical therapy, and coaching.

Rules & Requirements
Requisites: Prerequisite, EXSS 175.
Grading Status: Letter grade.

EXSS 385. Biomechanics of Sport. 3 Credits.
Instructor may approve equivalents for EXSS prerequisite. The study and analysis of human movement including fundamental aspects of the musculoskeletal and articular systems. Principles of biomechanics, including application to neuromuscular fitness activities, aerodynamics in sport, hydrodynamics, rotary motion, throw-like and push-like patterns, and analysis of projectiles.

Rules & Requirements
Requisites: Prerequisite, EXSS 175.
Grading Status: Letter grade.

EXSS 393. Sports Medicine Clinical. 1-3 Credits.
This field experience offers implementation of theories and practices of athletic training and sports medicine under the supervision of a certified athletic trainer.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Repeat Rules: May be repeated for credit. 5 total credits. 5 total completions.
Grading Status: Letter grade.

EXSS 395. Undergraduate Research Course. 1-3 Credits.
Permission of the instructor. Majors preferred. Laboratory/research study addressing exercise and sport science questions. Requires final written report. Repeatable for six total credits.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading Status: Letter grade.

EXSS 396. Independent Studies in Exercise and Sport Science Elective. 1-3 Credits.
Required preparation, any two relevant courses. Permission of the instructor. Individually designed in-depth study in an area of interest within exercise and sport science. Available to both majors and nonmajors under the supervision of selected EXSS faculty members.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

EXSS 397. Critical Analysis of Literature in Sport and Exercise Psychology. 1 Credits.
This course will expose students to research in sport and exercise psychology using the C.R.E.A.T.E. (Consider, Read, Elucidate the hypotheses, Analyze and interpret the data, and Think of the next Experiment) framework. Students will follow the historical publications of one sport and exercise psychology research group to better understand the research process. Each research paper will be digested/critiqued in phases. Student will also formulate their own novel research questions and present them to the class.

Rules & Requirements
Requisites: Prerequisite, EXSS 181.
Grading Status: Letter grade.
Advanced Undergraduate and Graduate-level Courses

**EXSS 408. Theory and Application of Strength Training and Conditioning for Fitness Professionals. 3 Credits.**
Instructor may approve equivalents for prerequisites. This is an intermediate- to upper-level course designed to provide students with theoretical and practical knowledge of the physiological, biomechanical, functional, and administrative aspects of designing and supervising conditioning programs for various populations.

**Rules & Requirements**
Prerequisites: Prerequisites, EXSS 175 and 276.
Grading Status: Letter grade.

**EXSS 409. Exercise Prescription for Special Populations. 3 Credits.**
Exercise benefits everybody. This course will teach evidence-based information for developing, modifying and implementing fitness programs for individuals with chronic disease, metabolic, cardiac, pulmonary, and other issues deemed as special populations. The knowledge and skills attained in this course will enhance any basic personal training certification and give a better understanding of working with what could be considered the general public.

**Rules & Requirements**
Prerequisites: Prerequisite, EXSS 175, 276, and 376.
Grading Status: Letter grade.

**EXSS 410. Exercise Testing and Prescription. 4 Credits.**
Students must take laboratory section along with class. This is an upper division undergraduate course designed to provide the theoretical and practical knowledge in basic exercise testing and prescription for both healthy and select special populations.

**Rules & Requirements**
Prerequisites: Prerequisites, EXSS 175, 276 and 376.
Grading Status: Letter grade.

**EXSS 420. Program Planning in Recreation Services. 3 Credits.**
This experiential course covers the concepts and skills used in program planning. Students apply their program planning skills to real-life situations and implement a recreation program for a community agency. Previously offered as RECR 420.

**Rules & Requirements**
IDEAs in Action Gen Ed: HI-SERVICE.
Grading Status: Letter grade.

**EXSS 430. Introduction to Leadership and Group Dynamics. 3 Credits.**
An analysis of the techniques, methods, and motives of group and community leaders. Special attention is focused upon the roles of organizational structure, personnel policies, and in-service training programs. Previously offered as RECR 430.

**Rules & Requirements**
Making Connections Gen Ed: CI.
Prerequisites: Prerequisite, EXSS 221.
Grading Status: Letter grade.

**EXSS 450. Essentials of Corrective Exercise Training. 3 Credits.**
This course provides students with knowledge and experience in designing corrective exercise programs. Students will learn to assess posture, movement quality, range of motion, and strength. Students will also learn to correct abnormalities exercises for various body parts. Knowledge will be gained via lecture and laboratory activities. Previously offered as EXSS 350.

**Rules & Requirements**
Prerequisites: Prerequisites, EXSS 175 and 276.
Grading Status: Letter grade.

**EXSS 475. Functional Anatomy. 3 Credits.**
This course provides an in-depth exploration of joint mechanics. It exposes students to motions of the cervical, thoracic, and lumbar spine as well as the extremities, and relates these concepts to movement of the body during specific activities.

**Rules & Requirements**
Prerequisites: Prerequisites, EXSS 175, 276, and 385.
Grading Status: Letter grade.

**EXSS 478. Sports Performance Training. 3 Credits.**
An upper-level course designed to provide students who have a fitness background with the theoretical and practical knowledge related to the Performance Enhancement Specialization for athletes of all ages.

**Rules & Requirements**
Prerequisites: Prerequisites, EXSS 175 and 276.
Grading Status: Letter grade.

**EXSS 479. Performance Enhancement Specialization for Health Professionals. 1 Credits.**
An upper-level course designed to provide students who have a health profession background with the theoretical and practical knowledge related to the Performance Enhancement Specialization for athletes.

**Rules & Requirements**
Prerequisites: Prerequisites, EXSS 175, 276, 366, and 368.
Grading Status: Letter grade.

**EXSS 493. Field Experience in Sport Administration. 3 Credits.**
This field experience offers implementation of theory and the practical application of sport administration in a sport organization worksite, under the direct supervision of a business professional.

**Rules & Requirements**
IDEAs in Action Gen Ed: HI-INTERN.
Prerequisites: Prerequisites, EXSS 221 and at least two of the following: EXSS 322, 323, 324, 326; permission of the instructor required for students lacking the prerequisites.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
EXSS 576. Exercise Endocrinology. 3 Credits.
Advanced course examining the responses of the endocrine system to exercise and the adaptations that occur with exercise training. Provides the fundamentals necessary for exercise science and allied health science students to understand the integral role that the endocrine system plays in exercise.

Rules & Requirements
Requisites: Prerequisites, EXSS 175, 276, and 376.
Grading Status: Letter grade.

EXSS 580. Neuromechanics of Human Movement. 3 Credits.
This course explores interactions between the nervous and musculoskeletal systems via integration of concepts from neuroanatomy, neurophysiology, anatomy, neuromuscular control, and biomechanics. Topics include muscle mechanics, sensorimotor function, joint stability, movement disorders, neurocognition, and neuroplasticity following injury and disease. Course meetings involve both lecture and laboratory content.

Rules & Requirements
Requisites: Prerequisites, EXSS 175, 380, and 385.
Grading Status: Letter grade.

EXSS 593. Practicum in Physical Fitness and Wellness. 1-9 Credits.
Recommended preparation, EXSS 360 - site dependent. Current CPR certification and student liability insurance is required. Introductory practical experience to enable student to apply knowledge and skills in a worksite under direct supervision of certified professionals.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Requisites: Prerequisites, EXSS 220, 408, and 410; and one of EXSS 380 or 385.
Repeat Rules: May be repeated for credit. 9 total credits. 9 total completions.
Grading Status: Letter grade.

EXSS 693H. Senior Honors Thesis. 3 Credits.
Required preparation, a cumulative grade point average meeting the University standard and permission of the department. Directed independent research under the supervision of a faculty advisor who teaches in the exercise and sport science curriculum.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisite, EXSS 273.
Grading Status: Letter grade.

EXSS 694H. Senior Honors Thesis. 3 Credits.
Required preparation, a cumulative grade point average meeting the University standard and permission of the department. Preparation of an honors thesis and an oral examination on the thesis.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisite, EXSS 273.
Grading Status: Letter grade.

LFIT–Lifetime Fitness
One lifetime fitness course is a graduation requirement for all students at UNC–Chapel Hill (post-2006 curriculum). Students are encouraged to complete the lifetime fitness requirement during their first year of study. Effective in fall 2011, a student may enroll in only one LFIT course and may count only one, one-credit LFIT course toward graduation at Carolina. These courses combine practice in a sport or physical activity with general instruction in lifelong health.

Undergraduate-level Courses

LFIT 102. Lifetime Fitness: Adapted Physical Activity. 1 Credits.
Assignments to this class are made for students with special needs in physical activities focusing primarily on acute and chronic physical limitations. Activities are assigned commensurate with interests and abilities. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
IDEAs in Action Gen Ed: LF-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 103. Lifetime Fitness: Aerobics. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes various forms of aerobics. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
IDEAs in Action Gen Ed: LF-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 104. Lifetime Fitness: Exercise and Conditioning. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. Activities will promote cardiovascular endurance, muscular strength and endurance, and flexibility. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
IDEAs in Action Gen Ed: LF-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.

LFIT 105. Lifetime Fitness: Indoor Sports. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. Activity portion of the course includes basketball, volleyball, and indoor soccer. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
IDEAs in Action Gen Ed: LF-FIT.
Making Connections Gen Ed: LF.
Grading Status: Pass/Fail.
LFIT 106. Lifetime Fitness: Beginning Jogging. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course promotes cardiovascular fitness through jogging. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
- IDEAs in Action Gen Ed: LIFE-FIT.
- Making Connections Gen Ed: LF.
- Grading Status: Pass/Fail.

LFIT 107. Lifetime Fitness: Intermediate Jogging. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. Activity portion for students who can complete 30 minutes of jogging. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
- IDEAs in Action Gen Ed: LIFE-FIT.
- Making Connections Gen Ed: LF.
- Grading Status: Pass/Fail.

LFIT 108. Lifetime Fitness: Outdoor Sports. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. Activity portion of course includes ultimate frisbee, flag football, and soccer. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
- IDEAs in Action Gen Ed: LIFE-FIT.
- Making Connections Gen Ed: LF.
- Grading Status: Pass/Fail.

LFIT 109. Lifetime Fitness: Racquet Sports. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes badminton, tennis, and racquetball. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
- IDEAs in Action Gen Ed: LIFE-FIT.
- Making Connections Gen Ed: LF.
- Grading Status: Pass/Fail.

LFIT 110. Lifetime Fitness: Beginning Swimming. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes swimming skills for beginners. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
- IDEAs in Action Gen Ed: LIFE-FIT.
- Making Connections Gen Ed: LF.
- Grading Status: Pass/Fail.

LFIT 111. Lifetime Fitness: Swim Conditioning. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course promotes cardiovascular fitness through swimming. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
- IDEAs in Action Gen Ed: LIFE-FIT.
- Making Connections Gen Ed: LF.
- Grading Status: Pass/Fail.

LFIT 112. Lifetime Fitness: Walking. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course promotes cardiovascular fitness through walking. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
- IDEAs in Action Gen Ed: LIFE-FIT.
- Making Connections Gen Ed: LF.
- Grading Status: Pass/Fail.

LFIT 113. Lifetime Fitness: Weight Training. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion includes basic techniques of weight training. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
- IDEAs in Action Gen Ed: LIFE-FIT.
- Making Connections Gen Ed: LF.
- Grading Status: Pass/Fail.

LFIT 114. Lifetime Fitness: Yoga and Pilates. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion includes basic instruction in both yoga and pilates. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
- IDEAs in Action Gen Ed: LIFE-FIT.
- Making Connections Gen Ed: LF.
- Grading Status: Pass/Fail.

LFIT 115. Lifetime Fitness: Cycle Fitness. 1 Credits.
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion includes basic instruction in cycle fitness. Students can enroll in only one LFIT course during their career at Carolina.

Rules & Requirements
- IDEAs in Action Gen Ed: LIFE-FIT.
- Making Connections Gen Ed: LF.
- Grading Status: Pass/Fail.
**LFIT 118. Lifetime Fitness: Flag Football. 1 Credits.**
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes basic instruction in flag football. Students can enroll in only one LFIT course during their career at Carolina.

**Rules & Requirements**
- **IDEAs in Action Gen Ed:** LIFE-FIT.
- **Making Connections Gen Ed:** LF.
- **Grading Status:** Pass/Fail.

**LFIT 129. Lifetime Fitness: Downhill Skiing and Snowboarding. 1 Credits.**
An introduction to fitness and wellness that includes developing personal fitness programs and instruction in physical activity. The activity portion includes basic conditioning and instruction in both downhill skiing and snowboarding, including five days in Boone, NC. Students can enroll in only one LFIT course during their career at Carolina.

**Rules & Requirements**
- **IDEAs in Action Gen Ed:** LIFE-FIT.
- **Making Connections Gen Ed:** LF.
- **Grading Status:** Pass/Fail.

**LFIT 130. Lifetime Fitness: Soccer. 1 Credits.**
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion will provide soccer instruction and gameplay. Students can enroll in only one LFIT course during their career at Carolina.

**Rules & Requirements**
- **IDEAs in Action Gen Ed:** LIFE-FIT.
- **Making Connections Gen Ed:** LF.
- **Grading Status:** Pass/Fail.

**LFIT 138. Lifetime Fitness: Tennis. 1 Credits.**
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes basic instruction in tennis. Students can enroll in only one LFIT course during their career at Carolina.

**Rules & Requirements**
- **IDEAs in Action Gen Ed:** LIFE-FIT.
- **Making Connections Gen Ed:** LF.
- **Grading Status:** Pass/Fail.

**LFIT 145. Lifetime Fitness: Brazilian Jiu Jitsu. 1 Credits.**
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes basic instruction in Brazilian jiu jitsu. Students can enroll in only one LFIT course during their career at Carolina.

**Rules & Requirements**
- **IDEAs in Action Gen Ed:** LIFE-FIT.
- **Making Connections Gen Ed:** LF.
- **Grading Status:** Pass/Fail.

**LFIT 146. Lifetime Fitness: Sand Volleyball. 1 Credits.**
This course is an introduction to fitness and wellness, and includes developing personal fitness programs and instruction in physical activity. The activity portion of the course includes basic instruction in sand volleyball. Students can enroll in only one LFIT course during their career at Carolina.

**Rules & Requirements**
- **IDEAs in Action Gen Ed:** LIFE-FIT.
- **Making Connections Gen Ed:** LF.
- **Grading Status:** Pass/Fail.

**LFIT 190. Special Topics in Lifetime Fitness. 1 Credits.**
This course is designed to cover the study and practice of special topics directed by an authority in the field. Subject matter will vary per instructor and topic. Students can enroll in only one LFIT course during their career at Carolina.

**Rules & Requirements**
- **IDEAs in Action Gen Ed:** LIFE-FIT.
- **Making Connections Gen Ed:** LF.
- **Grading Status:** Pass/Fail.

**PHYA—Physical Activity**

**Undergraduate-level Courses**

**PHYA 201. Adapted Physical Activity. 1 Credits.**
Assignments to this class are made for students with special needs in physical education focusing primarily on acute and chronic physical limitations. Activities are assigned commensurate with interests and abilities. Students are required to present an exercise prescription from a physician including prescribed activities and limitations.

**Rules & Requirements**
- **Repeat Rules:** May be repeated for credit. 4 total credits. 4 total completions.
- **Grading Status:** Letter grade; credit hours may not be used toward degree.

**PHYA 202. Beginning Aerobics. 1 Credits.**
Provides a cardiovascular fitness program incorporating physiologically safe dance and exercise movements to music. It develops strength, flexibility, and improved cardiorespiratory efficiency.

**Rules & Requirements**
- **Repeat Rules:** May be repeated for credit. 4 total credits. 4 total completions.
- **Grading Status:** Letter grade; credit hours may not be used toward degree.
PHYA 203. Aerobic Circuit Training. 1 Credits.
Challenges students to achieve higher levels of overall fitness in a cardiovascular program that combines stations of muscular strength with endurance while incorporating a wide variety of equipment. Students are expected to be able to participate in a minimum of 20 minutes of aerobic exercise.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 205. Archery. 1 Credits.
Designed to teach the beginning student proper techniques of target shooting with a bow and arrow, this course deals with history, terminology, safety, and equipment selection. Shooting techniques included are the stance, nocking, drawing, anchoring, aiming, releasing, and following through. The use of the bowsight and target scoring are presented.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 206. Badminton. 1 Credits.
The course includes an orientation to the history and rules of the game, terminology, and equipment. Basic skills and techniques include the proper grip, stance, footwork, forehand and backhand clears, long and short serves, net shots, around-the-head shot, and the smash. Presents basic single and double game strategies.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 208. Beginning Ballet. 1 Credits.
The technique and vocabulary of classical ballet are presented. Exercises at the barre are followed by practice and combinations in the center.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 209. Beginning Basic Training. 1 Credits.
Beginning physical fitness program based on the model used by the United States Army Physical Fitness Academy and designed to improve aerobic and anaerobic strength, endurance, and overall physical fitness.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 210. Beginning Bowling. 1 Credits.
Presents terminology of the game; various grips and stances, the delivery approach, release, and follow through. Pick up spare leaves, releasing straight, hook, and back-up balls, reading the lanes, and handicapping are also included. Rules and scoring as well as tournament bowling are learned.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 211. Cycling. 1 Credits.
The purpose of this course is to introduce students to the history and skill of cycling. The course will focus on maintenance of the bicycle, fitness acquired through the use of cycling, and the skills of climbing, descending, cornering, and balance.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 212. Introduction to Dance Technique. 1 Credits.
This course is an introduction to the positions, exercises, and steps common to ballet, jazz, and modern dance. It is designed for students with no previous dance experience and is a prerequisite for PHYA 208, 220, and 224.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 213. Exercise and Conditioning. 1 Credits.
Covers activities that promote cardiovascular endurance, muscular strength and endurance, and flexibility. The course content includes fitness evaluation, stretching, weight training, aerobic exercise, jogging, and circuit training. Individual exercise programs are developed.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 214. Beginning Fencing. 1 Credits.
Introduces students to the history, rules, and terminology of the sport of fencing. It traces the development of ancient and modern weapons; presents warm-up, stretching, and conditioning exercises that are specific to the sport; and covers grip, basic positions, and footwork. Individual and team competitions are conducted in the course.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.
PHYA 216. Beginning Golf. 1 Credits.
Stresses swing motion and the basic fundamentals. Techniques of the full swing and the short game are presented. Rules and etiquette are covered. Students who shoot 115 or less for 18 holes are not eligible for this beginner course.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 217. Beginning Tumbling and Gymnastics. 1 Credits.
Through proper progression, students are exposed to compulsory routines on several pieces of gymnastic apparatus—including the balance beam, parallel bars, pommel horse, rings, horizontal bar—and strength, flexibility, and gross motor coordination. Emphasis is placed on safe spotting techniques and safety awareness.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 219. Beginning Horseback Riding. 1 Credits.
Introduces students to tacking, grooming, and riding the basic gaits of walk, trot and canter. An additional fee is required; this course is taught off campus.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 220. Beginning Jazz Dance. 1 Credits.
Students will explore the roots of the jazz style through rhythm, principles of isolation and opposition, shape and energy through center work, stretches, movement across the floor, and simple routines. Previous ballet training is highly recommended.

Rules & Requirements
Requisites: Prerequisite, PHYA 212.
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 221. Beginning Jogging. 1 Credits.
The purpose of this course is to provide students with the opportunity to develop cardiovascular fitness through a popular activity. Selection of proper clothing and equipment, the physiological effects of a jogging program, care and prevention of common injuries, and the mechanics of jogging are presented.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 222. Karate. 1 Credits.
This course offers an introduction to the basics of one of many martial art styles. Emphasis is on traditional forms, basic movements, philosophy, discipline, and proper class conduct. Students will learn various stances and forms.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 223. Lifeguard Training. 1 Credits.
This course will teach the skills needed to help prevent and respond to aquatic emergencies. This includes land and water skills, first aid and CPR/AED.

Rules & Requirements
Requisites: Prerequisites, continuous 300 yard swim, two minutes of treading with no arms, and retrieving a 10 pound brick from 10 feet and swimming 20 yards.
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 224. Beginning Modern Dance. 1 Credits.
Students will explore the principles of movement that define modern dance, gaining some understanding of the use of weight, the shape of the body in space, an awareness of timing and energy, and individual creative potential.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 225. Beginning Racquetball. 1 Credits.
The course introduces the beginner to basic skills, including forehand and backhand drives, grips, footwork, and serves. Safety considerations as well as rules and terminology are covered. Basic strategy is presented involving the return of service, use of ceiling, rear wall, pass, and kill shots.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 227. Scuba. 1 Credits.
Required preparation, some swimming skills. This course prepares students for participation in recreational diving: both skin diving and scuba. Lectures cover physiology of diving, first aid, and decompression. It can lead to certification if students attend open water training dives conducted at the semester’s end. An additional fee is required.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.
PHYA 228. Self-Defense. 1 Credits.
This course introduces the basics of self-defense techniques and will instruct the student by incorporating a three-dimensional educational approach. The student will develop skill, knowledge and self-confidence as related to self-defense.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 229. Downhill Skiing. 1 Credits.
This course is conducted in Boone, North Carolina, for five days over the winter break. It includes orientation to proper equipment selection, the use of lifts and tows, and the basic fundamentals, such as parallel turns, edging concepts, and rhythm. An additional fee is required.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 230. Beginning Soccer. 1 Credits.
Basic soccer skills are presented including dribbling, shooting, passing, heading, trapping, and tackling. Position play and strategies for basic offense and defense are learned as well as rules and terminology. Conditioning is achieved through drills and game play.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 231. Beginning Social Dance. 1 Credits.
The basic step patterns of popular social dances, such as fox trot, waltz, cha-cha, swing or shag, hustle, tango, and others are taught. Confidence in the ability to lead or to follow is developed. Social enjoyment of dance is emphasized.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 233. Beginning Squash. 1 Credits.
Basic shots are learned including forehand and backhand drives, corners, reverse corners, volleys, drop shots, and serves. Rules, terminology, and basic strategies are presented. Appreciation of squash as a game for fitness and fun is developed.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 235. Beginning-Level Swimming. 1 Credits.
The course consists of swimming skills for students with limited water experience. These skills include water adjustment, floating, kicking, front crawl stroke, rhythmic breathing, and elementary backstroke. Emphasis is on efficient movement through the water. Foundation skills taught enable students to enjoy swimming and other aquatic activities as a lifetime sport. Basic water safety and first aid procedures are included.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 236. Swim Conditioning. 1 Credits.
This course is designed to promote cardiovascular fitness through swimming. Conditioning and the refinement of stroke techniques will be stressed through stroke practice and workout routines. Topics will include stroke mechanisms of the four competitive strokes, starts, turns, interval, sprint, and long distance training.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 238. Tennis. 1 Credits.
Basic skills are learned including forehand and backhand groundstrokes, the volley, and the serve. Rules, terminology, and basic game strategy will be taught. Through play, an increased level of fitness and skill will be gained to promote participation in tennis throughout life.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 239. Triathlon Training. 1 Credits.
The purpose of this course is to introduce students to the sport of triathlons integrating the discipline of running, cycling, and swimming. The course is physically challenging and provides information on transitions and maintenance of equipment, as well as setting up a training program.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 240. Ultimate Frisbee. 1 Credits.
Teaches the knowledge, skills, and rules of ultimate frisbee in order to develop a lasting interest in lifetime participation and to increase the student’s level of physical fitness

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.
PHYA 241. Beginning Volleyball. 1 Credits.
Basic skills are taught including the forearm pass, the overhead pass, setting, spiking, blocking, dinking, and serving. Rules and terminology are included. Basic offensive and defensive strategy is learned.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 242. Water Safety Instructor. 1 Credits.
This course will train students to teach American Red Cross progressive swimming and water safety courses. Course content includes analysis of stroke mechanics, review of water safety skills, and investigation of teaching methodology. Students need to be proficient in front crawl, back crawl, elementary backstroke, breaststroke, and sidestroke.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 243. Beginning Weight Training. 1 Credits.
Basic techniques and knowledge of variable resistance and free weight systems are taught. Fitness evaluation and individual workout programs are included. Development of muscular strength and endurance is stressed. Physiological principles of fitness and their relationships to weight training are also emphasized.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 245. Brazilian Jiu Jitsu. 1 Credits.
This course will combine instruction in, and practice of, a sport or physical activity that can be sustained in later life, together with instruction in lifelong health.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 246. Sand Volleyball. 1 Credits.
Students will gain skills necessary to develop a lasting interest in sand volleyball and to increase the student’s level of physical fitness. Students will also learn the rules of the sport and how it differs from indoor volleyball.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 290. Special Topics. 1 Credits.
This course is designed to cover the study and practice of special topics directed by an authority in the field. Subject matter will vary per instructor and topic.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 302. Intermediate Aerobics. 1 Credits.
Challenges students to achieve higher levels of cardiovascular, flexibility, and strength fitness through dance and exercise movements to music. Students are expected to be able to participate in a minimum of 20 minutes of aerobic activities.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 308. Intermediate Ballet. 1 Credits.
For the dancer with a solid understanding of the basics of ballet and several years’ dance training. It emphasizes more sophisticated steps in longer combinations.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 310. Intermediate Bowling. 1 Credits.
Focuses on refinement of the experienced student’s delivery mechanics including the approach, release, and follow through. Maximum quality practice time is emphasized. Alternative approaches and releases are presented and several types of tournaments are conducted.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 314. Intermediate Fencing. 1 Credits.
A review of the footwork and bladework covered in the beginning. Emphasis in this course is on individual and paired exercises rather than on large group lessons. An introduction to officiating is also covered in conjunction with greater competitive opportunities.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.
PHYA 316. Intermediate Golf. 1 Credits.
Builds on and refines the basic fundamentals of the swing motion. Ball flight control is introduced with more in-depth swing analysis. Students who shoot 85 to 115 for 18 holes are eligible for this course.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 317. Intermediate Tumbling and Gymnastics. 1 Credits.
The purpose of this course is to provide students with the opportunity to learn more difficult gymnastics skills and to incorporate them in a fluid routine. Added emphasis is placed on muscular strength and flexibility. Safe spotting techniques, particularly for more advanced skills, are stressed throughout the course.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 319. Intermediate Horseback Riding. 1 Credits.
Students are introduced to jumping; emphasis is placed on learning more balance and control in the three basic gaits. Dressage is introduced. An additional fee is required; this course is taught off campus.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 320. Intermediate Jazz Dance. 1 Credits.
Students will explore the jazz style in greater complexity plus gain understanding of jazz music as it relates to jazz dance. It includes center work, complex movement phrases across floor, adagio, and routines using large movement vocabulary. At least two years of dance and familiarity with jazz style are recommended.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 321. Intermediate Jogging. 1 Credits.
Introduces students to the cardiovascular and overall fitness benefits of running. Students will learn how running can be a lifetime activity when approached sensibly and effectively. Students are expected to be able to run three miles in under 30 minutes prior to registering for this course.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 324. Intermediate Modern Dance. 1 Credits.
Students will work to develop greater technical skill and continue a more advanced exploration of modern dance principles of effort-shape through center work and phrases of greater length and complexity in the center and across the floor. At least two years of modern dance training are recommended.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 325. Intermediate Racquetball. 1 Credits.
Students will review beginning skills. Aspects of competition will be covered, including match preparation, officiating a match, and tournament play. Specific practice will involve shot selection and placement and back wall play.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 330. Intermediate Soccer. 1 Credits.
Basic skills are reviewed and refined. Dead ball situations are studied, especially corner kicks and direct and indirect free kicks. Different systems of play are introduced and evaluated. Positional play is stressed in the development of advanced defensive and offensive tactics.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 335. Intermediate Swimming. 1 Credits.
Techniques for crawl, sidestroke, elementary backstroke, back crawl, and breaststroke are covered. Basic water rescue skills are presented including first aid procedures. Physical fitness is promoted through swimming.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 338. Intermediate Tennis. 1 Credits.
Increased proficiency in four basic skills will be developed. New shots taught include the overhead, the drop, the lob, and spin serve. Strategy for singles and doubles play will be stressed. Emphasis is on increased pace and ball placement.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.
PHYA 341. Intermediate Volleyball. 1 Credits.
Students improve execution of basic skills through practice. Stresses safe execution of dives and rolls. Teaches various offensive strategies and defensive alignments. Emphasizes team play.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 343. Intermediate Weight Training. 1 Credits.
Emphasizes the development of individualized muscular strength and endurance programs following instruction in the physiological principles and techniques of weight training. Students should have beginning weight training skills, techniques, and knowledge prior to enrolling in this class.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

Advanced Undergraduate and Graduate-level Courses
PHYA 402. Leading Group Fitness Activities. 1 Credits.
All aspects of leading group fitness activities will be explored and applied, including components of an aerobic exercise class, modifications for individual needs and special populations, health screening, fitness testing.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 408. Advanced Ballet. 1 Credits.
For the dancer with substantial background in ballet. Speed, endurance, multiple turns, beats, and complicated combinations are emphasized.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 409. Advanced Basic Training. 1 Credits.
Advanced fitness program based on the model used by the United States Army Physical Fitness Academy to further improve aerobic and anaerobic fitness. Builds on conditioning level obtained in PHYA 209.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 414. Advanced Fencing. 1 Credits.
A review of the footwork and bladework covered in the intermediate course; pair exercises and individual lessons dealing with both technique and tactics. Emphasis in this course is on individual and paired exercises rather than on large group lessons. Officiating is also covered in conjunction with greater competitive opportunities.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 416. Advanced Golf. 1 Credits.
Required preparation, a 15 or less handicap. Comprising this course are the ability to score, the analysis of strategy and shot production, and improvement of self-awareness and coping strategies.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 419. Advanced Horseback Riding. 1 Credits.
Provides more technical flatwork at the walk, trot, and canter, as well as jumping. Course work will be primarily jumping. An additional fee is required; this course is taught off campus.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 424. Advanced Modern Dance. 1 Credits.
This course is designed for the dancer with a solid understanding of the principles underlying modern dance and several years of dance training. It focuses on longer and more complicated phases of movements.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

PHYA 427. Advanced Open Water Scuba Diving. 1 Credits.
Nationally recognized scuba certification may substitute for prerequisite. The course will follow the PADI Advanced Open water course curriculum which contains five specialty dives focusing on deep, night, peak performance buoyancy, underwater navigation, and underwater naturalist.

Rules & Requirements
Requisites: Prerequisite, PHYA 227.
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.
Exercise and Sport Science Major, B.A.–Fitness Professional

PHYA 438. Advanced Tennis. 1 Credits.
Individual skill improvement in all shots with pace and accuracy of shots is stressed. Advanced strategies for singles and doubles play are learned. Analysis of opponent’s strengths and weaknesses and physical fitness are stressed through drills and games.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade; credit hours may not be used toward degree.

Exercise and Sport Science Major, B.A.–Fitness Professional

The goal of the fitness professional program is to prepare students to assume roles as leaders in the fitness field and the area of fitness research. The blend of theoretical coursework and practical experience will assist the student in preparing for career opportunities and national fitness certifications.

For more information, interested students can also access the fitness professional website (https://exss.unc.edu/undergraduate-program/ba-fitness-professional/) or contact Professor Alain Aguilar (alaguila@email.unc.edu).

Student Learning Outcomes

Upon completion of the Exercise and Sport Science program (fitness professional track), students should be able to:

• Apply curriculum learning to pass fitness-related accredited certifications
• Efficiently and independently demonstrate accurate fitness testing methods to create comprehensive fitness programs for healthy and clinical populations
• Explain, correct, and modify exercise techniques to healthy and clinical populations
• Explain general nutritional concepts for specific fitness goals
• Comprehend the basic administrative duties of fitness management
• Critically analyze fitness-related research, blog posts, and other outlets of information

Requirements

In addition to the program requirements, students must

• earn a minimum final cumulative GPA of 2.000
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Students seeking the major in exercise and sport science–fitness professional (EXSS–FP) must complete the following departmental requirements in addition to required General Education courses:

Total Hours 42

Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

¹ If EXSS 593 is taken for fewer than 9 credit hours, additional EXSS courses must be taken to reach 34 total hours of core requirements. If
more than one additional course is required to reach 34 hours, at least one must be above 199.

CHEM 101 requires MATH 110 as a prerequisite.

Special Opportunities in Exercise and Sport Science

Honors in Exercise and Sport Science
The senior honors program provides exercise and sport science majors the opportunity to pursue an independent, two-semester research project. A student must have an overall grade point average of 3.3 or above prior to acceptance into the departmental honors program and must maintain an overall average of 3.3 or above to remain in the program. Students complete EXSS 693H and EXSS 694H. Honors study involves the completion of a substantial piece of original research and the formal oral presentation of the results. Those successfully completing the program are awarded their degree with either honors or highest honors. Previous senior honors thesis topics and more information can be found on the EXSS department web page. Please contact Dr. Claudio Battaglini (claudio@email.unc.edu) by email if you are interested.

Departmental Involvement
In addition to its academic offerings, the department houses many research laboratories, and the campus recreation program. Both provide experiences outside the classroom. Students may also affiliate with the Carolina Sports Business Club and the Carolina Sport Administration Club.

Experiential Education/High-Impact
The following courses satisfy the experiential education requirement in the Making Connections curriculum and some satisfy the high-impact experience requirement in the IDEAs in Action curriculum.

Laboratory Teaching Internships and Assistantships
The fitness professional students serve a practicum with local fitness organizations.

Study Abroad
The Department of Exercise and Sport Science offers summer study abroad programs depending on faculty availability. Refer to the department’s website and the study abroad website for more information. For other study abroad experiences the department will gladly work with its majors in advance of the experience to determine appropriate credit.

Undergraduate Awards
The Patrick F. Earey Award, named in honor of a longtime faculty member, is given annually to the outstanding senior major in the department. The award signifies exemplary leadership, academic achievement, and extracurricular involvement by a senior exercise and sport science major.

The Ronald W. Hyatt Scholarship, named in honor of the late Dr. Hyatt, one of Carolina’s “priceless gems” and a faculty member in the department, is a merit-based scholarship awarded annually to an outstanding full-time undergraduate exercise and sport science major with junior status.

Undergraduate Research
Students are encouraged to explore research interests by taking EXSS 395, completing independent research studies, or writing senior honors theses. Please review the EXSS website under the research laboratories tab to determine where your research interest lies. Contacting individual faculty in your area of interest is encouraged, or reach out to Claudio Battaglini (claudio@email.unc.edu), the EXSS director of undergraduate research.

Exercise and Sport Science Major, B.A.–General

Exercise and sport science examines the physics, physiology, psychology of sport and exercise, and the recognition and treatment of athletic injuries. The general major provides foundational courses in exercise science and is an excellent preparation for the allied medical fields.

Student Learning Outcomes

Upon completion of the Exercise and Sport Science program, students should be able to:

- Understand the role and importance of lifelong physical activity and exercise in society
- Demonstrate the ability to apply fundamental concepts of human physiology to explain how the human body responds to exercise and changing environments
- Describe neuromuscular control systems and concepts related to movement and motor skill acquisition, retention, and transfer
- Describe biomechanical and anatomical concepts of human motion and apply these concepts to understanding exercise, performance, and injury
- Understand the research process including research design, statistical terminology, and utilization of literature. Through this process they will be able to critically analyze current research in the field of exercise and sport science
- Demonstrate knowledge and procedures to respond in an emergency situation, identify and manage individual injury in health and fitness settings, and understand how to maintain a safe environment

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

BIOL 101 & 101L  Principles of Biology and Introductory Biology Laboratory 4

Total Hours 31

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

A maximum of 45 hours of EXSS courses may be applied toward the B.A. degree.

Special Opportunities in Exercise and Sport Science

Honors in Exercise and Sport Science

The senior honors program provides exercise and sport science majors the opportunity to pursue an independent, two-semester research project. A student must have an overall grade point average of 3.3 or above prior to acceptance into the departmental honors program and must maintain an overall average of 3.3 or above to remain in the program. Students complete EXSS 693H and EXSS 694H. Honors study involves the completion of a substantial piece of original research and the formal oral presentation of the results. Those successfully completing the program are awarded their degree with either honors or highest honors. Previous senior honors thesis topics and more information can be found on the EXSS department web page. Please contact Dr. Claudio Battaglini (claudio@email.unc.edu) by email if you are interested.

Departmental Involvement

In addition to its academic offerings, the department houses many research laboratories, and the campus recreation program. Both provide experiences outside the classroom. Students may also affiliate with the Carolina Sports Business Club and the Carolina Sport Administration Club.

Experiential Education/High-Impact

The following courses satisfy the experiential education requirement in the Making Connections curriculum and some satisfy the high-impact experience requirement in the IDEAs in Action curriculum.

Laboratory Teaching Internships and Assistantships

The fitness professional students serve a practicum with local fitness organizations.

Study Abroad

The Department of Exercise and Sport Science offers summer study abroad programs depending on faculty availability. Refer to the department’s website and the study abroad website for more information. For other study abroad experiences the department will gladly work with its majors in advance of the experience to determine appropriate credit.

Undergraduate Awards

The Ronald W. Hyatt Scholarship, named in honor of a longtime faculty member, is given annually to the outstanding senior major in the department. The award signifies exemplary leadership, academic achievement, and extracurricular involvement by a senior exercise and sport science major.

The Patrick F. Earey Award, named in honor of a longtime faculty member, is given annually to the outstanding senior major in the department. The award signifies exemplary leadership, academic achievement, and extracurricular involvement by a senior exercise and sport science major.

The Patrick F. Earey Award, named in honor of a longtime faculty member, is given annually to the outstanding senior major in the department. The award signifies exemplary leadership, academic achievement, and extracurricular involvement by a senior exercise and sport science major.

Undergraduate Research

Students are encouraged to explore research interests by taking EXSS 395, completing independent research studies, or writing senior honors theses. Please review the EXSS website under the research laboratories tab to determine where your research interest lies. Contacting individual faculty in your area of interest is encouraged, or reach out to Claudio Battaglini (claudio@email.unc.edu), the EXSS director of undergraduate research.

Exercise and Sport Science Major, B.A.–Sport Administration

The sport administration program provides students with course work specific to sport-related business and administrative functions, settings, and organizations. Course topics include administration, economics, event planning and management, facility management, finance, law, marketing, sales, analytics and leadership/organizational behavior, sponsorship, and other important components of the sport industry. Students will also complete at least one (1) sport administration internship as part of program studies.

For more information, please contact Danielle Smith (daniellesmith@unc.edu).

Student Learning Outcomes

Upon completion of the Exercise and Sport Science program (sport administration track), students should be able to:

- Understand and apply fundamental processes related to the sales process, marketing of sport, and marketing through sport
- Recognize the challenges of planning, designing, and managing an effective and efficient sport event, as well as designing and managing a variety of sport and multipurpose facilities, and applying solutions or best practices to challenges
- Understand and identify the proper legal theory, including contracts, torts, property, agency, administrative, and Constitutional law as applied in the sport industry
- Apply specific critical thinking and analytical techniques used by financial managers to economic/financial challenges found in various sport settings
- Identify their own leadership qualities and core values, assess how their unique approach will help or hinder their ability to lead, and set a personal leadership vision to guide them within the sport industry
- Identify opportunities for experiential learning in the sport administration field, develop a professional portfolio and networking skills, understand organizational structures, and successfully navigate a sport

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).
Students seeking the major in exercise and sport science—sport administration (EXSS–SA) must complete the following requirements in addition to required General Education courses:

<table>
<thead>

Coaching Education Minor

Coaching education minors have the opportunity to gain both theoretical and practical knowledge regarding psychological, physiological, pedagogical, philosophical, and management aspects of coaching.

Requirements

In addition to the program requirements listed below, students must:

• take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

The minor in coaching education is by approval only and consists of five courses, distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EXSS 205</td>
<td>Analysis of Sport Skills I</td>
<td>3</td>

Sports Medicine Minor

There are many medical professions that have a sport focus (physical therapist, athletic trainer, physician, physician assistant, nurse, occupational therapist). The sports medicine minor is designed to expose students to the various injuries and rehabilitation techniques that are specific to sport. Students will learn the foundations of anatomy and physiology and then use this knowledge to understand basic evaluation, management and prevention techniques for sport related injury.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

### Department of Geography

**Introduction**

Geography is the science of space, place, and environment. The department offers classes spanning the social and natural sciences and offering students training in qualitative, quantitative, spatial analysis and modelling, and laboratory methodologies. Human geographers study the spatial aspects of human activity and physical geographers study patterns of climate, land forms, soils and water. Geographic tools and techniques—including Geographic Information Systems, remote sensing, and online and interactive mapping technologies—are among the most important for exploring and understanding our complex world.

Geographic inquiry is global and local, inherently interdisciplinary, and offers skills that enable insights into pressing issues valued by employers and policy makers. For example, how does climate change impact the way we build cities? How does globalization influence where your jeans are made? How can health disparities between people be overcome through policy change? By synthesizing this knowledge, geographers create unique understandings of our complex world.

Career opportunities for geographers are wide ranging in the public, private, and nongovernmental sectors. Geographers work in the areas of social, health, and environmental policy; energy, transportation, economic, development, and tourism planning; urban and regional planning; research and education; community development; resource management; and environmental regulation and modeling.

With geography you can explore the world and find yourself.

### Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (https://advising.unc.edu/). Students are strongly encouraged to meet regularly with their advisor and review Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors by appointment and during regular office hours (see department website as hours will vary by semester). Departmental academic advising is highly recommended for all majors, in particular those considering graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's Web site.

### Facilities

The department has a range of specialized, state-of-the-art equipment for geospatial field sampling and laboratory analysis of data in hydrology, climatology, and vegetation science, including an ecohydrology laboratory and a dendrology laboratory. The department is wired internally to support the latest network technology. This network links us to the centrally managed servers that provide access to a large library of software for geographic applications and research, as well as first-class library resources, data storage and backup, and access to supercomputing clusters.

### Graduate School and Career Opportunities

There are a variety of job opportunities for geographers in government, business, industry, and the nonprofit sector. Geographers are hired for the following kinds of expertise: locational analysis, GISci, remote sensing, cartography, land use planning, recreation and tourism planning, and foreign area expertise. Many geographers pursue teaching at all levels.

Students with a B.A. major in geography from UNC–Chapel Hill are well trained for graduate programs in geography and other disciplines. Majors have entered graduate programs as diverse as city and regional planning, business, medicine, and ecology. For more information about careers in geography, the UNC–Chapel Hill Department of Geography, degree requirements, and connections to other sites of interest, visit the department's website (http://geography.unc.edu).

Professors

Associate Professors

Assistant Professors

Amanda Gay DelVecchia, Danielle Purifoy.

Professors Emeriti

GEOG—Geography

Undergraduate-level Courses

GEOG 50. First-Year Seminar: Mountain Environments. 3 Credits.
This course is on understanding the physical geography of mountain environments and the processes that have created them, shaped them, and sustained them. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-NATSCI.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

GEOG 52. First-Year Seminar: Political Ecology of Health and Disease. 3 Credits.
This course examines the intersection of political, economic, social, and environmental systems that shape health and disease across spatial and temporal scales. A political ecological framework is used to examine such topics as how political forces and economic interests helped shape the HIV/AIDS and malaria pandemics in Africa and beyond. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

GEOG 53. First-Year Seminar: Battle Park: Carolina’s Urban Forest. 3 Credits.
An introduction to the study of urban forest landscapes through a series of field experiences in Carolina’s Battle Park.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.
GEOG 60. First-Year Seminar: Health Care Inequalities. 3 Credits.
Explores the social and spatial inequalities in health care access and use and their impacts on health. A variety of topics are examined, including health-related policies, beliefs about health and health care, modern medical practices, and health care costs.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

GEOG 61. First-Year Seminar: Climate Change in the American Southeast. 3 Credits.
Seminar participants, working in small groups, will run climate models and investigate current climate trends, combining the results to create scenarios of future climate for the southeast United States.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

GEOG 62. First-Year Seminar: The Culture of Technology. 3 Credits.
This first-year seminar uses the lens of culture to explore systems of meaning and values, and relations of social power, that are invested in technologies.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-NATSCI, RESEARCH.
Making Connections Gen Ed: PL, CI.
Grading Status: Letter grade.

GEOG 63. First-Year Seminar: The Problem with Nature and Its Preservation. 3 Credits.
Alternative conceptualizations of nature in Western culture and how these meanings help create the landscapes in which we live and allow us to evaluate the implications of efforts to preserve nature. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-POWER.
Making Connections Gen Ed: PL, CI.
Grading Status: Letter grade.

GEOG 64. First-Year Seminar: Vietnam. 3 Credits.
Explores modern Vietnam and situates the American war in broader spatial and historical context. Draws on fact, fiction, and visual media to introduce a fascinating place, rich in history, and to animate a geographic imagination students can take anywhere.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

GEOG 65. First-Year Seminar: Climate Change and the Media. 3 Credits.
Examines the popular debate on global warming and its presentation in the media. Covers the scientific basis of climate change, focusing on how the science is presented, distorted, and debated in the public sphere. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-NATSCI, RESEARCH.
Making Connections Gen Ed: PL, CI.
Grading Status: Letter grade.

GEOG 67. First-Year Seminar: Politics of Everyday Life. 3 Credits.
Seminar examines the ways that politics, especially contests over territory, are part of our day-to-day life. We will explore a range of cases, from immigration policy and rhetoric in the United States, to popular representations of geopolitics in film, to the politics of family planning in India.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-POWER.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

GEOG 68. First Year Seminar: Special Topics. 3 Credits.
Special Topics Course. Content will vary each semester.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

GEOG 89. The Blue Planet: An Introduction to Earth's Environmental Systems. 3 Credits.
Emphasizes geographic patterns and interrelationships in energy, climate, terrain, and life. Develops integrative view of how atmospheric, hydrologic, geomorphic, and biotic processes create global patterns in the environment. Incorporates influence of human activities on earth. Class will help students understand the natural environment, both globally and in North Carolina. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

GEOG 110. Weather and Climate. 3 Credits.
An introduction to the nature and causes of weather variability and climate change and their impact on human activity. No laboratory. (Core)

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

GEOG 114. Maps: Geographic Information from Babylon to Google. 3 Credits.
Introduces the science and art of map making and will lay the conceptual foundation necessary to understand how and why maps are made and used.

Rules & Requirements
Grading Status: Letter grade.
GEOG 120. World Regional Geography. 3 Credits.
A survey of the geographic structure of human activity in major world regions and nations. Emphasizes current developments related to population, urbanization, and economic activity. (Core)

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PWAD 120.

GEOG 121. Geographies of Globalization. 3 Credits.
This course examines places and the connections between places to build critical understandings of the role of human geographies in global economic, political, social, and cultural systems. (Core)

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

GEOG 123. Cultural Geography. 3 Credits.
How population, environment, and human culture is expressed in technology and organization interact over space and time. (GHA)

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

GEOG 124. Feminist Geographies. 3 Credits.
This course explores the relationship between gender and place and introduces feminist approaches to key geographical concepts. We will study how places that we live in shape our gender identities and how gender relations affect our worlds. Topics include bodies, home, city, migration, development, nationalism, and war.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

GEOG 125. Cultural Landscapes. 3 Credits.
Explores how everyday culture helps create the landscapes and places in which we live and what these landscapes tell us about ourselves.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

GEOG 130. Development and Inequality: Global Perspectives. 3 Credits.
An introduction to historical and contemporary ideas about practices and meanings of development. Students will explore "development" in a global landscape of poverty, power, and struggles over inequality.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

GEOG 141. Geography for Future Leaders. 3 Credits.
In this course, students develop geographic concepts and skills and use them to navigate real-world social and environmental challenges. Co-taught by a physical and human geographer, the course provides students with essential building blocks for becoming active and engaged leaders and citizens in a rapidly changing world.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-NATSCI.
Making Connections Gen Ed: PL, GL.
Grading Status: Letter grade.

GEOG 210. Global Issues and Globalization. 3 Credits.
Survey of international social, political, and cultural patterns in selected societies of Africa, Asia, America, and Europe, stressing comparative analysis of conflicts and change in different historical contexts. LAC recitation sections offered in French, German, and Spanish.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.
Same as: GLBL 210, ANTH 210, HIST 210, POLI 210.

GEOG 212. Environmental Conservation and Global Change. 3 Credits.
Survey of environmental change as driven by physical processes and human activity. Problem-solving methods are explored. Focus on issues such as global warming, ozone depletion, deforestation, extinction, pollution, wetland loss. This course will provide significant background in physical geography in the context of today's most pressing environmental concerns and with reference to the societal implications and management strategies. (No lab.) (Core)

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: PL, GL.
Grading Status: Letter grade.

GEOG 215. Introduction to Spatial Data Science. 3 Credits.
This course will introduce students to data science with a focus on spatial (geographic) data, data that are referenced to a location on Earth’s surface. Students will learn concepts and techniques to apply various facets of data science practice, including data collection, management, and integration, descriptive modeling, exploratory spatial data analysis, and communication via visualization and mapping. Real world examples and datasets spanning physical, social, and health sciences will be used throughout the course.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: SS, QI.
Grading Status: Letter grade.
GEOG 222. Health and Medical Geography. 3 Credits.
Health and disease are studied by analyzing the cultural/environmental interactions that lie behind world patterns of disease distribution, diffusion, and treatment, and the ways these are being altered by development. Previously offered as GEOG 445. (GHA)

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

GEOG 225. Space, Place, and Difference. 3 Credits.
Gender, race, and class are examined in terms of the spatial patterns of everyday life, regional patterns, and global patterns. (GHA)

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

GEOG 228. Urban Geography. 3 Credits.
Explores the evolution, patterns, and processes of urbanization and the development of cities. Emphasis on the power, politics, technology, and environmental forces shaping urban life. Topics may include housing and segregation, cities and climate change, economic development, transportation challenges, and the racialization of urban policy.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

GEOG 230. The World at Eight Billion. 3 Credits.
Approximately eight billion people live on the Earth. How did we get here? What have been the consequences for us and the planet? What will the future bring? To answer these questions, we will draw on population and human-environment geography and on an abundance of new data sources.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

GEOG 232. Agriculture, Food, and Society. 3 Credits.
A study of environmental parameters, cultural preferences, technological developments, and spatial economic infrastructure that result in world patterns of food consumption, production, and distribution. (GHA)

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-VALUES.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

GEOG 237. Natural Resources. 3 Credits.
An analysis of selected biological and mineral resources of the world with particular emphasis on their distribution, utilization, and management policies and on their social and economic implications. (GHA)

Rules & Requirements
Grading Status: Letter grade.

GEOG 240. Introduction to Environmental Justice. 3 Credits.
Environmental justice is about social equity and its relationship to the environment. This course provides an introduction to the principles, history, and scholarship of environmental justice. It traces the origins of the movement in the US and globally and its relationship to environmentalism. Students will use case studies and engagement to become familiar with environmental justice concerns related to food systems, environmental health, climate change, and economic development.

Rules & Requirements
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

GEOG 253. Introduction to Atmospheric Processes. 4 Credits.
Includes one-hour laboratory. Atmospheric processes including radiation, dynamics, and thermodynamics are emphasized. Circulations across a range of temporal and spatial scales are described. Links between environmental problems and the atmosphere are explored.

Rules & Requirements
Requisites: Prerequisites, MATH 231 and either CHEM 102 or PHYS 114.
Grading Status: Letter grade.

GEOG 254. American Historical Geographies. 3 Credits.
A study of selected past geographies of the United States with emphasis on the significant geographic changes in population, cultural, and economic conditions through time. Previously offered as FOLK/GEOG 454. (GHA)

Rules & Requirements
Grading Status: Letter grade.

GEOG 259. Society and Environment in Latin America. 3 Credits.
This survey course examines political, cultural, and biophysical dimensions of human-environment relations across the ecologically diverse and historically rich region of Latin America. It draws on multiple data sources, perspectives, and media to explore sub-regions and their biocultural histories, including the Caribbean, Andes, Amazon, Central and North America, and their relationship with the United States.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.

GEOG 260. North America’s Landscapes. 3 Credits.
A survey of the cultural and physical landscapes of the United States and Canada. Emphasis on landscape evolution, present distributions, and interactions between people and their environment. (Regional)

Rules & Requirements
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

GEOG 261. The South. 3 Credits.
Present-day Southern United States, approached historically through a study of its physical, economic, and cultural environment. (Regional)

Rules & Requirements
Grading Status: Letter grade.
GEOG 262. Geography of North Carolina. 3 Credits.
A survey of the cultural, economic, and physical diversity of North Carolina. Emphasizes regional patterns, historical changes, and the appearance of the landscape. (Regional)

Rules & Requirements
Making Connections Gen Ed: NA.
Grading Status: Letter grade.

GEOG 263. Environmental Field Studies in Siberia. 4 Credits.
This course explores the biogeography of Siberia and gives students practical training on how to do field work in field ecology and physical geography.

Rules & Requirements
Grading Status: Letter grade.
Same as: ENEC 263.

GEOG 264. Conservation of Biodiversity in Theory and Practice. 3 Credits.
This course will give students a multidisciplinary introduction to growing field of biodiversity preservation.

Rules & Requirements
Requisites: Prerequisite, ENEC 201; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: ENEC 264.

GEOG 265. Eastern Asia. 3 Credits.
Spatial structure of population, urbanization, agriculture, industrialization, and regional links in China, Japan, and Korea. (Regional)

Rules & Requirements
Grading Status: Letter grade.
Same as: ASIA 265.

GEOG 266. Society and Environment in Southeast Asia. 3 Credits.
This survey integrates sociological, biophysical, and geographical elements to examine interactions of population and environment across the ecologically-diverse and historically-rich region of Southeast Asia. Draw on multiple data sources, perspectives, and media to explore Vietnam, Indonesia, Malaysia, Thailand, Burma/Myanmar, the Philippines, and neighboring countries.

Rules & Requirements
Making Connections Gen Ed: FC-GLOBAL or FC-PAST.
Grading Status: Letter grade.

GEOG 267. South Asia. 3 Credits.
Introduces students to the geography of South Asia, including an overview of the physical environment, cultural practices, and economic development. Emphasizes the political geography of South Asia and political and social processes such as nationalism and colonialism that have played a formative role in the region.

Rules & Requirements
Making Connections Gen Ed: FC-GLOBAL or FC-POWER.
Grading Status: Letter grade.
Same as: ASIA 267.

GEOG 268. Geography of Africa. 3 Credits.
Africa is a vast continent with extraordinary biodiversity, cultural diversity, and history. But despite its many historic and contemporary contributions to the modern world, Africa is often represented as needing civilization, development, economic growth, charity, and education. This course investigates Africa’s place in the global geopolitical imagination. With an emphasis on human geography, we analyze various forms of media (including maps, films, songs) to investigate the relationship between representation and the sociopolitical construction of place.

Rules & Requirements
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.

GEOG 269. Human-Environment Interactions in the Galapagos Islands. 3 Credits.
The Social and ecological implications of resource conservation and economic development in a World Heritage Site are examined in the Galapagos Islands of Ecuador.

Rules & Requirements
Making Connections Gen Ed: FC-GLOBAL or FC-KNOWING.
Grading Status: Letter grade.

GEOG 270. Geography of Contemporary China. 3 Credits.
This course provides a systematic introduction to China as an emerging political and economic power. From a geographic perspective, this course addresses uneven human and physical landscapes, the historical evolution and current status of the natural environment, economic development, and human well being.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

GEOG 281. Ethnographies of Globalization: From 'Culture' to Decolonization. 3 Credits.
This course will provide lower level undergraduate students with a survey of ethnographic research in geography and related fields. We will examine studies from work, labor, and gender, to indigenous youth and decolonization. Previously offered as GEOG 481.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

GEOG 293. Freedom Farming. 3 Credits.
The objective of Freedom Farming is to understand—in theory and in practice—the relationship between farming, health, and social justice among Black communities throughout the African diaspora. To this end we will investigate the history of agriculture's place in Black liberation movements; engage theories that orient these movements. Students also contribute to a local freedom farm. APPLES service-learning.

Rules & Requirements
Making Connections Gen Ed: FC-KNOWING or FC-POWER.
Grading Status: Letter grade.
GEOG 294. Beyond Sustainability. 3 Credits.
This course explores critical questions of sustenance, which are often overlooked in "sustainability" discourse: How do people sustain themselves in North America? Against what pressures? How does the geography and history of the land shape cultural, social, political, and economic practices of sustenance? And, in contexts of oppression, dispossession, and discrimination, how do acts of sustenance intersect or conflict with larger cultural, social, economic, and political debates about "sustainability"?

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.
Grading Status: Letter grade.

GEOG 295. Undergraduate Research in Geography. 3 Credits.
Permission of the instructor. For students who wish to participate in departmental research programs. May be taken twice.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

GEOG 296. Independent Study. 1-12 Credits.
Permission of the instructor. Special reading and research in geography under the supervision of a selected instructor. Course may not be taken more than twice.

Rules & Requirements
Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading Status: Letter grade.

GEOG 334. Human Ecology of Health and Disease. 3 Credits.
Examines the role of the interactions of cultures, environments, and human diseases in the quest for sustainable agriculture by examining the cultural ecology of agriculture systems and their human diseases. Previously offered as GEOG 434. (GHA)

Rules & Requirements
Making Connections Gen Ed: GL.
Grading Status: Letter grade.

GEOG 341. Hydrology, Ecology, and Sustainability of the Humid Tropics. 3 Credits.
The Tropics have some of the largest river flows in the world. Three billion people live in humid tropical regions, yet many of them lack adequate water supply. This course focuses on the water cycle of tropical regions and the interactions between hydrology and ecology with an emphasis on sustainability.

Rules & Requirements
Making Connections Gen Ed: PL, GL.
Grading Status: Letter grade.

GEOG 370. Introduction to Geographic Information. 3 Credits.
A survey of geographic data sources including maps, photos, digital images, Census information, and others. Emphasis is on appropriate uses, limitations, and skilled interpretation in physical and human geography applications. (Core)

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.
Grading Status: Letter grade.

GEOG 390. Contemporary Topics in Geography. 1-12 Credits.
Exploration of topics in contemporary geography.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

GEOG 391. Quantitative Methods in Geography. 3 Credits.
This course provides an introduction to the application of statistical methods to geographic problems and to statistical packages in their solution. Attention given to spatial data analysis and sampling methods.

Rules & Requirements
Grading Status: Letter grade.

GEOG 392. Research Methods in Geography. 3 Credits.
Introduces geographic research methods and develops skills to conduct independent research. Themes include spatial analysis, knowledge production, methodology, theory and evidence, and principles of informed argument. Students gain experience with multiple methods applicable to the study of diverse topics.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI, RESEARCH.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

GEOG 406. Atmospheric Processes II. 4 Credits.
Principles of analysis of the atmosphere are applied to the analysis of environmental phenomena. The link between the atmosphere and other environmental compartments is explored through environmental case studies.

Rules & Requirements
Grading Status: Letter grade.
Same as: ENEC 406.

GEOG 410. Modeling of Environmental Systems. 3 Credits.
Uses systems theory and computer models to understand ecosystem energy and matter flows, such as energy flow in food webs, terrestrial ecosystem evapotranspiration and productivity, related to climate, vegetation, soils, and hydrology across a range of spatial and temporal scales.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.
Making Connections Gen Ed: QL.
Grading Status: Letter grade.

GEOG 412. Synoptic Meteorology. 3 Credits.
An analysis of synoptic weather patterns and the processes responsible for them. Climatological aspects of these weather patterns are emphasized. (EES)

Rules & Requirements
Requisites: Prerequisite, GEOG 110 or 111.
Grading Status: Letter grade.
GEOG 414. Climate Change. 3 Credits.
An investigation of the scientific basis of climate change (past, present, and future), the current state of knowledge concerning future projections, and the implications of climate change for society and the environment.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI, RESEARCH.
Grading Status: Letter grade.

This hands-on course will set you on a path towards being a researcher and scientist who will make a positive difference in the world through good research practices and effective communication. Topics will include: reproducibility and ethics, creating effective graphics, giving engaging oral and poster presentations, writing abstracts, social media use in research, communication with journalists, operating in the judicial and political arenas, and stakeholder outreach and public talks.

Rules & Requirements
IDEAs in Action Gen Ed: COMMBEYOND.
Making Connections Gen Ed: CI.
Grading Status: Letter grade.

GEOG 416. Applied Climatology: The Impacts of Climate and Weather on Environmental and Social Systems. 3 Credits.
Applied climatology involves the interdisciplinary application of climate data and techniques to solve a wide range of societal and environmental problems. This projects-based course investigates how climate impacts a range of sectors, including water resources, urban environments, ecosystems, and human health.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI, RESEARCH, COMMBEYOND.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

GEOG 419. Field Methods in Physical Geography. 3 Credits.
Involves evaluation of landscapes by examining nature and biophysical elements influencing landscape form and function. Course emphasizes data collection, analysis, and interpretation using GIS and field methods. (EES)

Rules & Requirements
Grading Status: Letter grade.

GEOG 423. Social Geography. 3 Credits.
A study of the spatial components of current social problems, such as poverty, race relations, environmental deterioration and pollution, and crime. (GHA)

Rules & Requirements
Grading Status: Letter grade.

GEOG 424. Geographies of Religion. 3 Credits.
This course considers the theoretical and empirical dimensions of religion from a geographical perspective. The course introduces the key theories linking space, place, and religion and helps students apply these new theoretical tools to examine some of the pressing issues in the contemporary study of religion.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: CI, GL.
Grading Status: Letter grade.

GEOG 428. Global Cities: Space, Power, and Identity in the Built Environment. 3 Credits.
This course addresses questions of power, politics, and identity in the urban environment, with a focus on the emergence of key selected global cities and the processes that both created them historically and which are currently transforming them locally and globally.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-VALUES, RESEARCH.
Making Connections Gen Ed: SS, GL.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
Same as: PLAN 428.

GEOG 429. Urban Political Geography: Durham, NC. 3 Credits.
An interdisciplinary exploration of urban social problems, bridging the literature on urban geography with that on urban politics. Students will be required to complete 30 hours of service for an organization that works on an urban social issue.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES, RESEARCH, HI-SERVICE.
Grading Status: Letter grade.

GEOG 430. Global Migrations, Local Impacts: Urbanization and Migration in the United States. 3 Credits.
This course explores the relationship between patterns of urban development in the United States and migration, in both historical and contemporary contexts.

Rules & Requirements
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.
GEOG 435. Global Environmental Justice. 3 Credits.
This advanced course brings geographical perspectives on place, space, scale, and environmental change to the study of environmental justice. In lectures, texts, and research projects, students examine environmental concerns as they intersect with racial, economic and political differences. Topics include environmental policy processes, environmental justice movements, environmental health risks, conservation, urban environments, and the role of science in environmental politics and justice. (GHA)

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER, RESEARCH.
- Making Connections Gen Ed: SS, GL.
- Grading Status: Letter grade.

GEOG 436. Governance, Institutions, and Global Environmental Change. 3 Credits.
Interdisciplinary course for advanced undergraduates and graduate students. Focuses on multiscale environmental issues and related social, institutional, governance, and policy challenges. Examines key concepts and theories involving global environmental change and problem-solving efforts.

Rules & Requirements
- Making Connections Gen Ed: GL.
- Grading Status: Letter grade.

GEOG 437. Social Vulnerability to Climate Change. 3 Credits.
How does climate change affect vulnerable human populations? We will attempt to answer a shared research question on this topic by reading the peer-reviewed literature and by conducting a semester-long data analysis project incorporating social and climate data from around the world. This is a course-based undergraduate research experience (CURE).

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL, RESEARCH.
- Making Connections Gen Ed: EE- Mentored Research, GL.
- Grading Status: Letter grade.
- Same as: ENEC 437.

GEOG 440. Earth Surface Processes. 3 Credits.
This course will focus on the processes of soil formation, erosion, and landform evolution with an emphasis on the interaction of geomorphic processes with surface hydrology and ecosystems. (EES)

Rules & Requirements
- Making Connections Gen Ed: PL.
- Requisites: Prerequisite, GEOG 110.
- Grading Status: Letter grade.
- Same as: GEOL 502.

GEOG 441. Introduction to Watershed Systems. 3 Credits.
Introduction to hydrologic and geomorphic processes in watersheds as applied to problems in flood analysis, water quality, and interactions of hydrology and environmental sciences. Drainage networks, nested catchments, and distribution and controls of precipitation, evaporation, runoff, and groundwater flow. Includes local field trips. (EES)

Rules & Requirements
- Requisites: Prerequisite, ENEC 202 or GEOG 110; permission of the instructor for students lacking the prerequisite.
- Grading Status: Letter grade.

GEOG 442. River Processes. 3 Credits.
Introduction to landforms and processes associated with flowing water at the earth’s surface. Hydrology, sedimentology, and theories of channel formation and drainage basin evolution. (ESS)

Rules & Requirements
- Grading Status: Letter grade.

GEOG 444. Landscape Biogeography. 3 Credits.
This course is concerned with the application of biogeographical principles and techniques to the study of natural and human-modified landscapes. It includes local and extraregional case studies. (EES)

Rules & Requirements
- Grading Status: Letter grade.

GEOG 446. Geography of Health Care Delivery. 3 Credits.
This course examines the role that geography plays in shaping how people interact with the health care system. Topics include health care delivery system types, facility and personnel distributions, access to care, health care utilization, as well as GIS, spatial analysis, and decision support systems.

Rules & Requirements
- Grading Status: Letter grade.

GEOG 447. Gender, Space, and Place in the Middle East. 3 Credits.
Examines gender, space, and place relationships in the modern Middle East. Investigates shifting gender geographies of colonialism, nationalism, modernization, and globalization in this region. (GHA)

Rules & Requirements
- Grading Status: Letter grade.
- Same as: ASIA 447, WGST 447.

GEOG 448. Transnational Geographies of Muslim Societies. 3 Credits.
Examines modern Muslim geographies that are created by transnational flows, connections, and imaginaries that cross national and regional boundaries across the Middle East, Southeast Asia, and beyond.

Rules & Requirements
- Grading Status: Letter grade.

GEOG 451. Population, Development, and the Environment. 3 Credits.
Introduction to contemporary and historical changes in human population, international development, and the global environment and how these processes interact, drawing on population geography as an organizing framework. Previously offered as GEOG 450.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL.
- Making Connections Gen Ed: GL.
- Grading Status: Letter grade.
- Same as: ENEC 451.

GEOG 452. Mobile Geographies: The Political Economy of Migration. 3 Credits.
This course explores the contemporary experience of migrants. Various theoretical approaches are introduced, with the emphasis on a political-economic approach. (GHA)

Rules & Requirements
- Making Connections Gen Ed: EE- Field Work, GL.
- Grading Status: Letter grade.
GEOG 453. Political Geography. 3 Credits.
The geography of politics is explored at the global, the nation-state, and the local scale in separate course units, but the interconnections between these geographical scales are emphasized throughout. (GHA)

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.
Making Connections Gen Ed: GL.
Grading Status: Letter grade.
Same as: PWAD 453.

GEOG 456. Geovisualizing Change. 3 Credits.
This course investigates the challenges, tools and techniques, and important applications of visualizing and analyzing geographic data that is temporally dynamic. We tackle technical challenges in obtaining, analyzing, and visualizing dynamic processes in space though maps, and discuss the consequences of our choices in how to re/present these processes. Students will produce original geovisualizations of dynamic data related to their field. Recommended preparation: experience with GIS software (GEOG 370 or GEOG 491).

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-QUANT.
Requisites: Prerequisite, GEOG 370; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

GEOG 457. Rural Latin America: Agriculture, Environment, and Natural Resources. 3 Credits.
This course explores a systems and cultural-ecological view of agriculture, environment, natural resource, and rural development issues in Latin America. It serves as a complement to GEOG 458 Urban Latin America. (Regional) Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE or FC-POWER, RESEARCH.
Grading Status: Letter grade.

GEOG 458. Urban Latin America: Politics, Economy, and Society. 3 Credits.
This course examines urban social issues in contemporary Latin America. Cities and their residents will be considered in relation to each other and to North American examples. (Regional)

Rules & Requirements
Making Connections Gen Ed: BN.
Requisites: Prerequisite, GEOG 259; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

GEOG 460. Geographies of Economic Change. 3 Credits.
This course is designed to explore changing geographies of production and consumption in theory and in practice.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-KNOWING, RESEARCH.
Grading Status: Letter grade.

GEOG 464. Europe Today: Transnationalism, Globalisms, and the Geographies of Pan-Europe. 3 Credits.
A survey by topic and country of Europe west of Russia. Those features that make Europe a distinct and important region today are emphasized. (Regional)

Rules & Requirements
Making Connections Gen Ed: NA.
Grading Status: Letter grade.

GEOG 468. Environmental Justice in Urban Europe. 3 Credits.
While much attention has been given to Europe’s “green” cities and the region’s examples of sustainable development, less attention has been given to the ways in which the uneven distributions of environmental degradation have social and spatial ramifications within and beyond the region. This course will provide an overview of environmental justice in urban Europe to consider the key concepts, topics, debates, and trends shaping people and places there.

Rules & Requirements
Making Connections Gen Ed: NA.
Grading Status: Letter grade.

GEOG 470. Political Ecology: Geographical Perspectives. 3 Credits.
Examines foundational concepts and methods and their relevance for understanding nature-society relationships. Discussions on environmental change and conflict and how nature is bound up with relations of power and constructions of identity.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER, RESEARCH.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

GEOG 477. Introduction to Remote Sensing of the Environment. 3 Credits.
Covers fundamental theory and mechanics of remote sensing, related theoretical aspects of radiation and the environment, and remote-sensing applications relating to terrestrial, atmospheric, and marine environments. Hands-on experience for application and information extraction from satellite-based imagery through biweekly laboratory assignments. Prepares students for GEOG 577. (GIsC)

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Requisites: Prerequisite, GEOG 370.
Grading Status: Letter grade.

GEOG 480. Liberation Geographies: The Place, Politics, and Practice of Resistance. 3 Credits.
An examination of the theory and history of resistance in the modern world, including instances of contestation from “foot dragging” to the formation of social movements, and exploring the relationship between place and protest.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
GEOG 491. Introduction to GIS. 3 Credits.
Stresses the spatial analysis and modeling capabilities of organizing data within a geographic information system. (GISci)

Rules & Requirements
Requisites: Prerequisite, GEOG 370; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: PLAN 491.

GEOG 492. Radical Black Thought. 3 Credits.
The premise of this course is that the possibilities articulated by radical Black intellectuals and artists in Africa and its diaspora are key to dismantling systems of oppression derived from experiences of oppression-colonization, slavery, mass incarceration, racial inequity. It also examines radical Black responses to unfreedoms through practices of mental (de)colonization and moral courage, epistemology and pedagogy, human-earth relationships and environmental justice.

Rules & Requirements
Grading Status: Letter grade.

GEOG 493. Internship. 3 Credits.
Open to junior and senior geography majors. Geography internships combine substantive geographic work experience with an academic project designed to integrate theory and practice. Field work is included.

Rules & Requirements
Ideas in Action Gen Ed: HI-INTERN.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

GEOG 541. GIS in Public Health. 3 Credits.
Explores theory and application of geographic information systems (GIS) for public health. The course includes an overview of the principles of GIS in public health and practical experience in its use. (GISci)

Rules & Requirements
Grading Status: Letter grade.

GEOG 542. Neighborhoods and Health. 3 Credits.
This course explores how neighborhood context influences the health of the populations living in them. It includes a survey of neighborhoods and health theory and empirical examples. (GHA)

Rules & Requirements
Grading Status: Letter grade.

GEOG 543. Qualitative Methods in Geography. 3 Credits.
This course teaches qualitative methods in geography for graduate and advanced undergraduate students. We will cover interviews, focus groups, visual, and other methodologies. We will also discuss modes of analysis, coding, and writing up qualitative research for publication.

Rules & Requirements
Ideas in Action Gen Ed: FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: SS, CI.
Grading Status: Letter grade.

GEOG 544. Geographic Information Systems for Impact Evaluation and Health Studies. 3 Credits.
Examines the theory and application of geographic information systems (GIS) for impact evaluation for intervention studies. The course will focus especially on health and economic interventions in the developing world. The course includes an overview of the principles of GIS in impact evaluation and practical experience in its use.

Rules & Requirements
Grading Status: Letter grade.

GEOG 555. Cartography of the Global South. 3 Credits.
This course presents cartographic techniques for better map design, with a focus on mapping the geographies of the Global South. Modern techniques and software will be used for developing and demonstrating proficiency in what are considered standard map design techniques, and we will also study examples from places and map makers outside of dominant cartographic traditions, and maps meant for actors and audiences in the Global South.

Rules & Requirements
Requisites: Prerequisite, GEOG 370.
Grading Status: Letter grade.

GEOG 557. Geospatial Data Analysis with Google Earth Engine. 3 Credits.
This course teaches students key concepts and skills for geospatial data analysis using the rich geospatial data resources, tools, and cloud computing facility on Google Earth Engine for environmental monitoring, mapping, modeling, and visualization. The course will enable students to pursue geospatial data analysis ranging from local to global scales to extract critical information for scientific understanding of the environment and for making science-based policies to address the environmental challenges we face today.

Rules & Requirements
Ideas in Action Gen Ed: FC-NATSCI or FC-QUANT, RESEARCH.
Making Connections Gen Ed: PL, QI.
Requisites: Prerequisite, GEOG 370; Permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

GEOG 577. Advanced Remote Sensing. 3 Credits.
Acquisition, processing, and analysis of satellite digital data for the mapping and characterization of land cover types. (GISci)

Rules & Requirements
Ideas in Action Gen Ed: FC-QUANT.
Grading Status: Letter grade.
GEOG 592. Geographic Information Science Programming. 3 Credits.
This course will teach students the elements of GISci software development using major GIS platforms. Students will modularly build a series of applications through the term, culminating in an integrated GIS applications program.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Requisites: Prerequisite, GEOG 370 or 491.
Grading Status: Letter grade.

GEOG 594. Global Positioning Systems and Applications. 3 Credits.
Global Positioning Systems (GPS) fundamental theory, application design, post processing, integration of GPS data into GIS and GPS application examples (such as public health, business, etc.) will be introduced.

Rules & Requirements
Requisites: Prerequisite, GEOG 370.
Grading Status: Letter grade.

GEOG 597. Ecological Modeling. 3 Credits.
This course focuses on modeling the terrestrial forest ecosystems processes, including population dynamics, energy, water, nutrients, and carbon flow through the ecosystem. (GISci)

Rules & Requirements
Requisites: Prerequisite, BIOL 561 or STOR 455; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

GEOG 598. GIS and Systems Modeling. 3 Credits.
GIS and Systems Modeling are theory and methodology that use GIS, quantitative models, and systems analysis to describe processes, interactions, and feedbacks in complex systems. Simulation experiments of systems models can be used as a "laboratory" to answer many "what if" questions, which can be used for the evaluation of policies and scenarios.

Rules & Requirements
Requisites: Prerequisite, GEOG 370 or 491.
Grading Status: Letter grade.

GEOG 650. Technology and Democracy Research. 3 Credits.
Are technological choices open to democratic participation? Through a novel research workshop format, this graduate and undergraduate course explores political and geographical dimensions of technological change around key environmental issues-energy, water, and waste.

Rules & Requirements
IDEAs in Action Gen Ed: HI-SERVICE.
Making Connections Gen Ed: SS, CI, EE- Service Learning.
Grading Status: Letter grade.

GEOG 692H. Honors. 3 Credits.
Required of all students aspiring to honors in geography. Preparation of a senior thesis.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisite, GEOG 691H.
Grading Status: Letter grade.

GEOG 697. Capstone Seminar in Geographic Research. 3 Credits.
A systematic study of the approaches, key concepts, and methods of geography, emphasizing the application of these approaches through hands-on independent research designed and implemented by the students. (Core)

Geography Major, B.A.

Geography is the science of space, place, and environment. The department offers classes spanning the social and natural sciences and offering students training in qualitative, quantitative, spatial analysis and modelling, and lab methodologies. Human geographers study the spatial aspects of human activity, and physical geographers study patterns of climate, land forms, soils, and water. Geographic tools and techniques—including Geographic Information Systems, remote sensing, and online and interactive mapping technologies—are among the most important for exploring and understanding our complex world. Geographic inquiry is global and local, inherently interdisciplinary, and offers skills that enable insights into pressing issues valued by employers and policy makers.

Career opportunities for geographers are wide ranging in the public, private, and nongovernmental sectors. Geographers work in the areas of social, health, and environmental policy; energy, transportation, economic development, and tourism planning; urban and regional planning; research and education; community development; resource management; and environmental regulation and modeling.

With geography you can explore the world and find yourself.
Student Learning Outcomes

Upon completion of the geography program, students should be able to:

- Apply current research methods in geography
- Construct a coherent, logical research approach to examine a question of geographic significance
- Analyze a geographic landscape and discuss the human and physical influences that have helped create it
- Report satisfaction with the geography major

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Total Hours 30

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 Students wishing to pursue honors in geography are recommended to take the GEOG 697 in the spring of the junior year as preparation for the honors thesis (GEOG 691H and GEOG 692H).

Students are invited (but not required) to navigate through the major using a pathway, which reflects various subfields of geography (for example, urban geography, health geography, climate, international development, social and cultural geography). Students should refer to the full list of pathways below.

All General Education requirements apply. Although the major requires a total of 10 geography courses (30 credit hours), a maximum of 15 geography courses (45 credit hours) can count toward the 120 hours required to graduate. Students wishing more information should consult the director of undergraduate studies.

Geography (GEOG) course descriptions (p. 546).

Urban Development and Planning Pathway

For the first time in human history over half of the world’s population lives in cities. This presents a monumental challenge to politicians, urban planners, and citizens to build sustainable, just, and livable urban spaces. A background in urban geography prepares you for one of the many careers devoted to improving cities and settlements around the globe.

1 Qualitative, quantitative, and GIS skills.

2 Research opportunities.

Pursuing a minor in urban studies and planning (p. 301) may also be of interest.

There are career opportunities in city planning, architecture, real estate development, policy analysis, community development, or civil engineering.
Diversity and Justice Pathway

How do the places, spaces, and environments that we inhabit reinforce structures of oppression or create the potential for liberation? Social movements and activists have created spatial theories and strategies to change the world: by occupying public space or by fighting for the protection of sacred lands. In our classes, you will learn how power flows through space; that all politics unfolds in places; that everyday life is political; and that environmental issues are connected to social justice. You will also learn tools including mapping technologies, remote sensing, oral histories, and interviews.

Advanced Courses

GEOG 212 Environmental Conservation and Global Change 3
GEOG 232 Agriculture, Food, and Society 3
GEOG 447 Gender, Space, and Place in the Middle East 3
GEOG 470 Political Ecology: Geographical Perspectives 3
GEOG 480 Liberation Geographies: The Place, Politics, and Practice of Resistance 3
GEOG 650 Technology and Democracy Research 3

Methods

GEOG 491 Introduction to GIS 3
GEOG 541 GIS in Public Health 3
GEOG 543 Qualitative Methods in Geography 3
GEOG 591 Applied Issues in Geographic Information Systems 3

Complimentary Methods and Skills

MATH 231 Calculus of Functions of One Variable I H,F 4
MATH 232 Calculus of Functions of One Variable II H,F 4
MATH 383 First Course in Differential Equations H 3
STOR 151 Introduction to Data Analysis 3
STOR 155 Introduction to Data Models and Inference 3
COMP 110 Introduction to Programming and Data Science H 3
COMP 116 Introduction to Scientific Programming 3

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Climate science has growing career opportunities due to renewed interest in current and future climate change. This pathway will position students for non-profit, governmental, and private environmental jobs, as well as for advanced study in climatology.

International Development and Globalization Pathway

The international development and globalization pathway will prepare students with the practical tools and intellectual framework to become participants and leaders in the world of international development. Students might continue their studies in graduate school, work for an international non-governmental organization, pursue a career in diplomacy, or work with social movements.

Core Classes

GEOG 110 The Blue Planet: An Introduction to Earth's Environmental Systems H 3
GEOG 111 Weather and Climate 3
GEOG 412 Synoptic Meteorology 3
GEOG 414 Climate Change 3
GEOG 416 Applied Climatology: The Impacts of Climate and Weather on Environmental and Social Systems 3

Geography Methods and Skills

GEOG 391 Quantitative Methods in Geography 3
GEOG 410 Modeling of Environmental Systems 3
GEOG 477 Introduction to Remote Sensing of the Environment 3

Building Block Courses

GEOG 120 World Regional Geography 3
GEOG 121 Geographies of Globalization 3
GEOG 123 Cultural Geography 3
GEOG 130 Development and Inequality: Global Perspectives F 3

Region Specific

GEOG 259 Society and Environment in Latin America 3
GEOG 265 Eastern Asia 3
GEOG 266 Society and Environment in Southeast Asia 3
GEOG 267 South Asia 3
GEOG 268 Geography of Africa 3
GEOG 464 Europe Today: Transnationalism, Globalisms, and the Geographies of Pan-Europe 3

Advanced Concepts

GEOG 423 Social Geography 3
GEOG 428 Global Cities: Space, Power, and Identity in the Built Environment 3
GEOG 453 Political Geography 3
Geographic information science (GIScience) emphasizes geographic information technologies, their real-world applications, and the science and technology underlying them. These technologies include geographic information systems (GIS), satellite remote sensing, global positioning systems, computer cartography, terrain analysis, and geospatial visualization. These skills are in high demand, giving students a competitive edge to pursue careers in the private, public, and non-profit sectors.

**GEOG 460** Geographies of Economic Change 3
**GEOG 470** Political Ecology: Geographical Perspectives 3

**Contemporary Issues**

**Environmental Health**

Health geography takes a socio-ecological approach, rather than a biomedical approach to understanding the occurrence of human disease and wellbeing. This is a highly integrated field, requiring knowledge of social systems, environmental systems, and the etiology and ecology of disease. In addition, geospatial technologies such as geographic information systems, satellite remote sensing, and geographic analysis are powerful tools in the study and management of human diseases. This pathway will prepare students for a career in the spatial, social, and ecological dimensions of public health, as well as for graduate school in the spatial health sciences.
FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Political Ecology

Political ecologists study the reciprocal and dynamic relations between society and nature. How do markets, social relations, and populations influence resource governance practices and vice versa? Whose voices and ideas count in the creation of protected areas, or in the decisions about where toxic waste and trash are deposited? When and how do decision makers or community members mobilize scientific knowledge to pursue environmental and ethical commitments? The political ecology pathway in geography offers a cross-disciplinary approach for answering such questions and, more broadly, for studying the relationship between the economy, politics, and ecology.

1 More advanced quantitative and GIS courses are very useful to students wishing to pursue professional paths in this field.

Culture, Society, and Space

How are our identities, experiences, and daily practices shaped by the places that we live in? How do we transform our environments to reflect who we are? These questions underpin key debates about culture and society today. Cultural and social geographers study the relationships among culture, society, space, and place. Their research examines the dynamic geography of cultural and societal change due to, for example, migration, technological developments, or religious movements. The culture, society, and space pathway in geography prepares students for work in international NGOs and the public and private sectors, specializing in cultural and social issues, as well as training students for graduate school in the social sciences and humanities.

Special Opportunities in Geography

Joint Degree Program with the National University of Singapore (NUS)

The Department of Geography is one of several departments offering a joint degree in conjunction with the National University of Singapore (NUS). Students in the program will spend one or two years studying geography at NUS, and their diploma will be jointly granted by both universities.

Honors in Geography

Qualifying students are encouraged to pursue an honors degree. To gain admission to the honors program students must have a cumulative grade point average of 3.3 or higher and a grade point average of 3.4 or higher in geography courses. Honors students take GEOG 691H and GEOG 692H (honors readings and research and theses hours) with their honors thesis.
chair in their senior year. Honors study involves the completion of a substantial piece of original research and the formal presentation of the results in an honors thesis and oral defense. Those who successfully complete the program are awarded their B.A. degree with either honors or highest honors in geography.

**Departmental Involvement**

All students are welcomed and encouraged to attend the department’s seminar, held on most Friday afternoons at 3:35 p.m. in Carolina Hall 220. The department sponsors the Carolina Geography Club, which provides an avenue for student involvement with the department outside of course work (see the club’s Facebook page). Students can also interact with the department through service on the faculty undergraduate committee and through independent research with faculty.

**Experiential Education**

The department offers several experiential education courses:

</tbody>
</table>

**Internship**

Students can gain course credit by interning with an organization, agency, or business that will augment their classroom learning. The department has an internship coordinator available to assist students find internships and to manage participation in the organization's activities. Internship can be taken with a geography faculty member for academic credit through GEOG 493.

**Independent Study**

Independent study with a geography faculty member can be taken for academic credit through GEOG 296. Students are responsible for arranging their independent study with a faculty member who will sponsor them for this activity. Students must fill out a learning contract and syllabus in collaboration with the sponsoring faculty member and then be enrolled by Nell Phillips in the department office. For more information, contact the individual faculty member or the director of undergraduate studies.

**Undergraduate Research**

Research with a geography faculty member can be taken for academic credit through GEOG 295. Students are responsible for arranging their research activities and responsibilities with a faculty member who will sponsor them for this activity. Students must fill out a learning contract with the sponsoring faculty member and then be enrolled by Nell Phillips in the department office.

**Study Abroad**

Experiences with other cultures and environments are important to a sound background in geography, and thus the department encourages a study abroad experience. Many of our students study abroad in the Galapagos Islands at the Galapagos Science Center. The department also participates in a junior-year exchange program with King’s College London. Many other study abroad programs combine well with a major in geography.

**Undergraduate Awards**

The Andrew McNally Award is given each spring to an outstanding graduating geography major, as chosen by a committee of the faculty. The department also administers the Melinda Meade Award for Excellence in Undergraduate Geographic Research, the John D. Eyre Service in Geography Award, as well as the John D. Eyre Travel Award, and the Burgess McSwain Travel America Fund, which are open to all undergraduates at UNC–Chapel Hill.

**Department Programs**

**Major**

- Geography Major, B.A. (p. 556)

**Minor**

- Environmental Justice Minor (p. 561)
- Geography Minor (p. 563)
- Geographic Information Sciences Minor (p. 564)

**Graduate Programs**

- M.A. in Geography (http://catalog.unc.edu/graduate/schools-departments/geography/)
- Ph.D. in Geography (http://catalog.unc.edu/graduate/schools-departments/geography/)

**Environmental Justice Minor**

The minor in Environmental Justice (EJ) focuses on the intersections of inequity, the environment, and justice. The minor introduces the field's historical foundations in scholarship on race, inequity, and social movements with an focus on their relation to environmental concerns and provides an overview of environmental justice movement work and literature from local to global scales. The goal of the minor is to
Required courses provide an introduction to EJ and build insight into how different people, in different contexts, have looked to environmental justice framing and practices for inspiration in social and community movements, justice-oriented governance, formal state and inter-state regulatory bodies, and planning for environmental change.

**Requirements**

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

A minimum of 4 courses (12 credit hours) is required to complete the minor.

Total Hours: 15

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Elective courses may be any on the departmental list (p. 546), but students are encouraged to take higher-numbered courses. Students wishing more information should consult their academic advisor or the geography director of undergraduate studies.

See the program page here (p. 560) for special opportunities.

Geographic Information Sciences Minor

Geographic information sciences (GISc) is the study of geospatial phenomena using an integrated set of spatial digital technologies including tools, techniques, concepts, and datasets associated with geographic information systems, remote sensing, data visualization, global positioning systems, spatial analysis, and quantitative methods. The GISc minor provides cutting-edge training in geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS) and their application in solving real world problems. Students who complete the program will be ready to enter the job market with a competitive advantage in geographic information sciences.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

This minor is open to all undergraduate students. For geography majors and minors, please note that no more than 45 hours of GEOG course credit may be used toward fulfilling the B.A. graduation requirement in the College of Arts and Sciences.

See the program page here (p. 560) for special opportunities.
Department of Germanic and Slavic Languages and Literatures

Introduction

The Department of Germanic and Slavic Languages and Literatures offers instruction and conducts research in the languages, literatures, and cultures of central, northern, and eastern Europe. It offers multiple tracks for undergraduate study for those interested in German programs (two concentrations), Slavic programs (two concentrations), and Central European studies (one concentration). A major in Germanic and Slavic languages and literatures provides preparatory training that will be useful in government employment, internationally-oriented business, journalism, law, the sciences, and teaching; as well as preparing students for graduate study in a range of humanistic and social science disciplines.

Advising

Students can complete any concentration, even if they have no prior experience in the language, provided that they begin taking their language courses as first-year students. It is also very possible for transfer students to complete the concentrations, provided they enter the program with some knowledge of the associated language(s).

All majors and minors have a primary academic advisor in Steele Building. Students should meet regularly with their primary advisor and review their Tar Heel Tracker each semester.

However, departmental academic advising is also important for all students majoring or minoring in the department. Current and prospective majors and minors should confer with the department’s director, or assistant director, of undergraduate studies regarding plans of study, study abroad course approvals, internship opportunities, and transfer credit.

Students seeking certification to teach German or Russian in public schools should consult advisors in the School of Education.

Graduate School and Career Opportunities

In an age of rapid internationalization and globalization, proficiency in a foreign language is no longer just an auxiliary skill but a necessary one. Courses offered in the department make up an important part of a liberal education, and a major or minor can provide excellent preparation for many careers, particularly when the major or minor is combined with courses in business, economics, political science, journalism, and various other fields. Recent graduates have entered careers in international business, journalism, publishing, the sciences, and the travel industry.

A bachelor of arts with a major in Germanic and Slavic languages and literatures also qualifies graduates for positions in the U.S. Department of State and other government agencies, educational organizations, foundations, and travel organizations. The presence of over 100 German and Swiss firms in the Carolinas testifies to the demand for a high degree of German linguistic and cultural literacy in college graduates. The department is also one among very few in the United States that offers a range of critical and/or less commonly taught languages of Central and Eastern Europe. People who know these languages are in particularly high demand in business and government.

The U.S. government designates Russian as one of the languages vital for national security and economic competitiveness. The Russian Language Flagship Program (https://russian.unc.edu/) is a national initiative created to answer that critical need. The University of North Carolina Chapel Hill Russian Flagship Program (UNCRFP) is a federally funded initiative that supports motivated undergraduate students of all majors to attain a professional level of proficiency in the Russian language.

In addition, the demand for language teachers provides career opportunities for those German and Russian majors who also receive teaching certification from the School of Education.

German and Slavic majors often go on to graduate programs in comparative literature, linguistics, history, law, international business and management, international relations, professional translation, medicine, and education. Some pursue careers as college professors. Many Chapel Hill German and Slavic majors have been welcomed by the most prestigious graduate programs in the country. The department’s faculty members can assist undergraduate majors in selecting appropriate graduate programs.

Majors

- Germanic and Slavic Languages and Literatures Major, B.A.—Central European Studies Concentration (p. 592)
- Germanic and Slavic Languages and Literatures Major, B.A.—German Literature and Culture Concentration (p. 595)
- Germanic and Slavic Languages and Literatures Major, B.A.—German Media, Arts, and Culture Concentration (p. 597)
- Germanic and Slavic Languages and Literatures Major, B.A.—Russian Language and Culture Concentration (p. 601)
- Germanic and Slavic Languages and Literatures Major, B.A.—Slavic and East European Languages and Cultures Concentration (p. 603)

Minors

- German Minor (p. 606)
- Russian Culture Minor (p. 608)
- Slavic and East European Languages and Cultures Minor (p. 610)

Graduate Programs

- M.A. in German Studies (http://catalog.unc.edu/graduate/schools-departments/germanic-slavic-languages-literatures/)
- Ph.D. in German Studies (http://catalog.unc.edu/graduate/schools-departments/germanic-slavic-languages-literatures/)

Professors Emeriti

Courses

GSLL—Germanic and Slavic Languages and Literatures

Undergraduate-level Courses

GSLL 50. First-Year Seminar: Literary Fantasy and Historical Reality. 3 Credits.
The intersection of literary fantasy with historical reality considered in two ways: (1) fantastic-looking tales based on historical reality; and (2) stories describing fantastic situations that actually came true. Previously offered as GERM 50.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH or FC-PAST.
- Making Connections Gen Ed: LA, CI, NA.
- Grading Status: Letter grade.

GSLL 51. First-Year Seminar: Stalin and Hitler: Historical Issues in Cultural and Other Perspectives. 3 Credits.
Critical issues that dominated the 20th century: WWI and Bolshevik Revolution; rise of fascism, Lenin, Stalin, Hitler and their roles; origins and evolution of Cold War; collapse of Eastern Bloc. Previously offered as GERM 51.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: LA, CI, NA.
- Grading Status: Letter grade.

GSLL 52. First-Year Seminar: Nature and Death: Ecological Crises in German Literature and Film. 3 Credits.
This seminar explores ecological crises and their depiction in German literature and film. We will focus on the central themes of nature and death. The texts and films we will discuss will range from early Romantic fairy tales to present-day documentaries and climate-change literature (cli-fi). We will encounter (human) animals in crisis. Together, we will face nuclear catastrophes, flooding, landslides, mass extinction, and climate change. Films with English subtitles; readings and discussions in English.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH or FC-KNOWING.
- Making Connections Gen Ed: LA, NA.
- Grading Status: Letter grade.

GSLL 53. First-Year Seminar: Early Germanic Culture: Myth, Magic, Murder, and Mayhem. 3 Credits.
Introduction to pre-Christian culture of Germany, Anglo-Saxon England, and Scandinavia from the late Roman Empire through the Viking Age, as preserved in myths, sagas, charms, inscriptions, and historical documents. Previously offered as GERM 53.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: HS, NA, WB.
- Grading Status: Letter grade.

GSLL 54. First-Year Seminar: Once upon a Fairy Tale: Fairy Tales and Childhood, Then and Now. 3 Credits.
Fairy tales from different national traditions and historical periods read through various critical lenses, against a backdrop of changing historical conceptions of the child. Works from Grimm, Anderson, Brontë, Disney, etc. Students may not receive credit for both GSLL 54 and GERM 279/CMPL 279. Previously offered as GERM 54.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: LA, NA.
- Grading Status: Letter grade.

GSLL 55. First-Year Seminar: Fantasies of Rome: Gladiators, Senators, Soothsayers, and Caesars. 3 Credits.
Introduces students to study of humanities by examining how the idea of Rome evolved through poetry, history, philosophy, opera, even forgery into a concept that has long outlasted the Romans. Previously offered as GERM 55.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: HS, CI, WB.
- Grading Status: Letter grade.

GSLL 56. First-Year Seminar: Germans, Jews, and the History of Anti-Semitism. 3 Credits.
This course seeks to explore the historically difficult position of minorities in the modern world, using the situation of Jews in Germany from the 18th century to the Holocaust as a case study. Previously offered as GERM 56.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: HS, CI, NA.
- Same as: JWST 56.

GSLL 58. First-Year Seminar: Love in the Middle Ages. 3 Credits.
Examines development of notion of love from antiquity through Middle Ages to today. Discusses marriage, adultery, violence, power, gender roles. Introduces the study of humanities through reading, analysis, and research. Previously offered as GERM 58.
GSLL 59. First-Year Seminar: Moscow 1937: Dictatorships and Their Defenders. 3 Credits.
Stalinist Soviet Union serves as a case study to examine how dictatorships develop and how they tend to be enveloped in justifications and kept in existence by outside observers. Previously offered as GERM 59.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

GSLL 60. First-Year Seminar: Avant-Garde Cinema: History, Themes, Textures. 3 Credits.
Students explore the international history, filmic techniques and cultural meanings of non-narrative cinema of the 20th century. Students also transform in-class discussions and individual essays into video projects. Previously offered as GERM 60.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

GSLL 63. First-Year Seminar: Performing America. 3 Credits.
The intersection of performance in a theater space and in everyday life will serve as a springboard to investigating the diversity of contemporary America. Examines how race, class, religion, sexuality, sexual orientation, history, and death are performed in America today. Previously offered as GERM 63.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

GSLL 65. First-Year Seminar: German Heroes? Knights, Tricksters, and Magicians. 3 Credits.
This course seeks to explore literary heroes in European literature from the Middle Ages to the Enlightenment. We will discuss concepts of heroism and how those ideas have changed over time. Previously offered as GERM 65.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

GSLL 67. First-Year Seminar: Blackness in the European Imaginary, Europe in the Black Imaginary. 3 Credits.
This seminar deals with how encounters between Europe and the African Diaspora have changed notions of race, nation, identity, and belonging in the 20th century. Through engaging with diverse texts—literary, nonliterary, and visual—we will explore the construction of blackness in various national and historical contexts. Previously offered as GERM 67.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: GL, NA.
Grading Status: Letter grade.

GSLL 68. First-Year Seminar: Intensity, Vitality, Ecstasy: Affects in Literature, Film, and Philosophy. 3 Credits.
This course focuses on three powerful affective states that challenge the conception of humans as autonomous, independent beings: intensity, vitality, and ecstasy. We will examine both philosophical and artistic representations of these particular states, focusing on the way in which they both endanger and enrich our experience of the world. Previously offered as GERM 68. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

GSLL 69. First-Year Seminar: Laughing and Crying at the Movies: Film and Experience. 3 Credits.
Why is it that we cry at the movies? We will focus on the melodrama but also look at comedy and horror to think about emotional responses to films. Students will learn the basics of film analysis, gain an overview of genre cinema, and study approaches to emotion, affect, and the body.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH.
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

GSLL 70. First-Year Seminar: Teenage Kicks: Race, Class, and Gender in Postwar Youth Cultures. 3 Credits.
This seminar investigates youth cultures from the 1940s to the present in the United States and around the world. It offers students a history of how different youth cultures developed over time, and consideration of how the constitution of youth cultures has been influenced by factors like race, class, and gender.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: LA, EE- Mentored Research, GL.
Grading Status: Letter grade.

GSLL 75. First-Year Seminar: The Book of Books: Literature and the Bible. 3 Credits.
This seminar examines the influence the Bible had on great works of Western literature and traces this powerful literary tradition through different cultures and historical periods. Readings and discussions in English.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH or FC-PAST.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.
GSLL 76. First-Year Seminar: Uncharted Territory: Underworlds in Literature and the Visual Arts. 3 Credits.
This course examines concepts and representations of underworlds in literature and the visual arts from the ancient world to the Middle Ages and Renaissance to modernity. Our journey will take us to the realms of the afterlife as well as into the abyss of the human psyche and the shady areas of underground criminal activities. We will explore how the desire to know the beyond has triggered people’s imagination, inspired literary and artistic traditions.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH or FC-PAST.
Grading Status: Letter grade.

GSLL 80. Not Just Dogs: Animals in Russian Literature. 3 Credits.
This course explores the question of the animal in the works of major Russian writers (Gogol, Dostoevsky, Tolstoy, Turgenev, Chekhov, Platonov). Among the topics to be discussed are: The animal as the other; animal and human natures: dominance and submission, ethics of human/animal relations, and the trope of “talking” animals. Readings and discussions in English.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH or FC-PAST.
Making Connections Gen Ed: LA, BN.
Grading Status: Letter grade.

GSLL 81. First-Year Seminar: Metaphor and the Body. 3 Credits.
All human beings inhabit a physical body, with inherent oppositions of inside/outside, up/down, and left/right. This course examines bodily experience as the wellspring of meaning. Previously offered as SLAV 81.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

GSLL 82. First-Year Seminar: Doctor Stories. 3 Credits.
Explores and reflects on the experience and significance of being a doctor in Russia and the United States, analyzing “doctors’ stories” presented in fiction, nonfiction, film, and other media. Previously offered as SLAV 82.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

GSLL 83. First-Year Seminar: We, Robots: Identifying with our Automated Others in Fiction and Film. 3 Credits.
The word “robot” was invented by Czech author Karel Capek in 1920. Science fiction has had a long-running obsession with robots. Fiction and film dream up robots who have mastered and often surpassed the strange art that is being human. In this class, we will read and watch stories about robots from East and Central Europe, with occasional detours into American culture. Films with English subtitles; readings and discussions in English.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: LA, BN.
Grading Status: Letter grade.

GSLL 84. First-Year Seminar: Terror for the People: Terrorism in Russian Literature and History. 3 Credits.
Terror was used as a political weapon in 19th-century Russia. This seminar introduces the terrorists through their own writings and fictional representations in novels by Fyodor Dostoevsky and Joseph Conrad. Previously offered as SLAV 84.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: LA, BN, CI.
Grading Status: Letter grade.

GSLL 85. First-Year Seminar: Children and War. 3 Credits.
Readings for this seminar include children's wartime diaries, adult memoirs of child survivors, and fiction from Central and Eastern Europe. Previously offered as SLAV 85.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.

GSLL 87. First-Year Seminar: Literature Confronting Totalitarianism. 3 Credits.
What is totalitarianism? Can a portrayal of suffering, even death, under a totalitarian state, have artistic value, or must it remain only a political pamphlet? This seminar studies authors who reveal the crimes of totalitarianism, while also showing the moral strength and/or weaknesses of humans victimized by the totalitarian state.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: LA.
Grading Status: Letter grade.

GSLL 88H. First-Year Seminar: Gender and Fiction in Central and Eastern Europe. 3 Credits.
An introduction to the region, this course examines the role of gender in central and east European literature from the end of the 19th century to contemporary times. Course materials include novels, films, historical readings, and essays. Readings and class discussions in English. Previously offered as SLAV 88H.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: LA, BN.
Grading Status: Letter grade.

GSLL 89. First-Year Seminar: Special Topics in Germanic and Slavic Languages and Literatures. 3 Credits.
Special topics course. Content will vary each semester.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.
GSLL 212. “Game of Thrones” and the Worlds of the European Middle Ages. 3 Credits.
This course offers a historical perspective on the adaptation of medieval culture in “Game of Thrones.” We will focus on topics such as family, politics, religion, violence, gender, slavery, outcasts, knighthood, travel, heroes, myths, and magic. Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: LA, BN.
Grading Status: Letter grade.

GSLL 218. Christianity and Islam in the Middle Ages. 3 Credits.
This course draws on a variety of cultural documents to explore both the conflict and cross fertilization between the Christian and Islamic cultures of the Middle Ages. Readings and discussions in English. Previously offered as GERM 218.

Rules & Requirements
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.
Same as: JWST 218.

GSLL 225. Popular and Pious: Early Modern Jewish Literature. 3 Credits.
This seminar covers popular and pious literature written by and for Jews in the 15th to 18th century in German-speaking countries. Originally written in Old Yiddish, this literature preserved the popular European genres and nonfiction accounts of Jewish community and family life. Previously offered as GERM 225.

Rules & Requirements
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.
Same as: JWST 225.

GSLL 246. Reality and Its Discontents: Kant to Kafka. 3 Credits.
An examination of "reality" as defined and redefined by Kant and his successors, in the context of European culture of the late 18th, 19th, and early 20th centuries. Readings and discussions in English. Previously offered as GERM 246.

Rules & Requirements
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

GSLL 252. South Africa in Literary Perspective. 3 Credits.
Course aims at an understanding of the South African experience as represented by that country’s important writers. Readings include works by Gordimer, Coetzee, Mphahlele, Breytenbach, Fugard, Ndebele, Paton, la Guma. All materials in English. Previously offered as GERM 252.

Rules & Requirements
Making Connections Gen Ed: LA, BN.
Grading Status: Letter grade.

GSLL 254. The Division of Germany, Reunification, and Conflict with Russia. 3 Credits.
Why was occupied Germany divided into two states after World War II? Were the Cold War and division inevitable? We explore these questions in two chronological contexts: 1945-1949 and 1989-present, with emphasis on the reemergence of Western conflict with Putin’s Russia. Readings and discussions in English. Previously offered as GERM 254. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

GSLL 255. Germany and Cold War: Occupation, Division, Reunification, Renewed Conflict with Russia (1945-Today). 3 Credits.
This course investigates the central role played by the “German question” in the break-up of the wartime alliance, the emergence of East-West political blocs, the subsequent dissolution of the USSR, and the return to new Russian-Western antagonisms. Readings and discussions in English. Previously offered as GERM 255.

Rules & Requirements
Making Connections Gen Ed: HS, GL, NA.
Grading Status: Letter grade.

GSLL 259. Ideology and Aesthetics: Marxism and Literature. 3 Credits.
This seminar provides students with a general introduction to Marxist thought with particular attention to its critical importance for interpreting the role of ideology in modern literature. Readings and class discussions in English. Previously taught as GERM 251.

Rules & Requirements
Making Connections Gen Ed: FC-AESTH or FC-KNOWING.
Grading Status: Letter grade.

GSLL 260. From Berlin to Budapest: Literature, Film, and Culture of Central Europe. 3 Credits.
Central Europe, at the center of dramatic historical changes—WWI, emergence of independent nation states, WWII and Holocaust, Communism and its end, incorporation into the European Union—produced unprecedented cultural results. The creative voices of writers and filmmakers have relevance far beyond this region.

Rules & Requirements
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.

GSLL 268. Cultural Trends in Post-Communist Central Europe: Search for Identity, Importance of Jewish Voices. 3 Credits.
We will study how contemporary literary and cinematic works of Central European intellectuals serve as reflections on the everyday life of this region. Readings and class discussions in English. Films with English subtitles.

Rules & Requirements
Making Connections Gen Ed: LA, BN.
Grading Status: Letter grade.
Same as: JWST 268.
GSLL 269. Springtime for Hitler: Jews on Stage from Shakespeare to Mel Brooks. 3 Credits.
This course examines the roles and representations of Jews in the world of the theater from Shakespeare’s The Merchant of Venice to the present, considering dramas, operas, musicals, film adaptations, and films. Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: VP, CI, NA.
Grading Status: Letter grade.
Same as: CMPL 269, JWST 269.

GSLL 270. German Culture and the Jewish Question. 3 Credits.
A study of the role of Jews and the “Jewish question” in German culture from 1750 to the Holocaust and beyond. Discussions and texts (literary, political, theological) in English. Previously offered as GERM 270.

Rules & Requirements
Making Connections Gen Ed: HS, GL, NA.
Grading Status: Letter grade.
Same as: CMPL 270, JWST 239, RELI 239.

GSLL 271. Vampires and Empires. 3 Credits.
An examination of the vampire in the visual and verbal cultures of Central and Eastern Europe, and the popular adaptation of “vampirism” in the West. All materials and discussions in English. Previously offered as HUNG 271.

Rules & Requirements
Making Connections Gen Ed: BN.
Grading Status: Letter grade.

GSLL 272. Poland, Russia, and Germany through the Prism of Film. 3 Credits.
Explore the relationship between Poland, Russia, and Germany from World War II until the present day, through films and readings that cover World War II, the fall of Communism in Europe, the Holocaust and the post-war situation of Jews, religious faith, Putin’s politics, women’s rights, and the current refugee situation in Germany. Film directors include Balabanov, Becker, Fassbinder, Kalatozov, Holland, Mikhalkov, Polanski, Wajda, and Wenders. Readings and class discussions in English. Films with English subtitles.

Rules & Requirements
Making Connections Gen Ed: VP, BN.
Grading Status: Letter grade.

GSLL 273. Close Your Eyes and See a Film: The Documentary in Central Europe. 3 Credits.
Aesthetic experiment, agit-prop tool, and instrument of social critique: documentary film is a flexible form. In the Socialist Bloc, documentary was sanctioned by the state but often used to undermine state power. This course is a survey of Polish, Czech, Yugoslav and Hungarian documentary film. We will explore studio productions alongside home movies, amateur films, and art films. Does documentary simply record reality, or can it change reality too? Readings & discussions in English.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
Making Connections Gen Ed: VP, CI.
Grading Status: Letter grade.

GSLL 274. Representing the Holocaust: Mediating Trauma in Art and Theory. 3 Credits.
This course will explore artistic mediations of the Holocaust in literature, film, and beyond. It focuses on questions of representation, authenticity, appropriateness and uniqueness, the role of memory, the problems and limits of language in articulating the Shoah, and issues of trauma and justice. Readings and class discussions in English.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
Grading Status: Letter grade.

GSLL 277. The Moon in Song, Story, and Science: Mentored Research Projects in Cultural History. 3 Credits.
Consideration of our satellite both as a natural object that can be investigated scientifically and as a cultural object that has been the subject of highly varied treatments in poems and stories throughout human history. Students engage in mentored research culminating in a substantial essay. Readings and discussions in English.

Rules & Requirements
Grading Status: Letter grade.

GSLL 278. Music, Image, Text. 3 Credits.
This course examines the relationship between text, music, and the visual arts, focusing on the way in which nonliterary aesthetic content may both mediate and call into question cultural values.

Rules & Requirements
Making Connections Gen Ed: VP, CI.
Grading Status: Letter grade.

GSLL 279. A River Runs Through It: Cultural Geography Through Imaginative Literature. 3 Credits.
This course looks at cultural geography through the lens of literature about rivers. After a brief survey of the world’s major rivers and a short dive into the way environmental science seeks to understand rivers, classes are devoted to poems, stories, novels, histories, and even science fiction about rivers. Students engage in mentored research culminating in a substantial essay. Readings and discussions in English.

Rules & Requirements
Grading Status: Letter grade.

GSLL 280. The Dialectic of Whiteness and Blackness in Atlantic Cultures. 3 Credits.
Traces the invention of race, racism, and discourses of cultural inferiority/superiority throughout Western culture. What historical events created the necessity for racist thinking? How did colonialism and transatlantic migration change Atlantic cultures? Why did black culture become fashionable? Is the 21st century "post-racial"? Readings and course descriptions in English.

Rules & Requirements
Making Connections Gen Ed: GL, NA.
Grading Status: Letter grade.
GSLL 281. Holocaust Cinema in Eastern Europe. 3 Credits.
A critical look at varieties of cinematic representation and memorialization of the Holocaust, from those countries of Europe where it mostly took place. Taught in English. All films in (or subtitled in) English. Previously offered as SLAV 281.

Rules & Requirements
Making Connections Gen Ed: VP, BN.
Grading Status: Letter grade.
Same as: CMPL 281.

GSLL 282. Afropessimism in American and European Film. 3 Credits.
Scholars of Afropessimism argue that we are not living in the age of post-slavery, but in the “afterlife of slavery” and that Blacks exist outside of the world, because the social world is held together by anti-Blackness. This argumentation has had important effects within Black German and Black European Studies. This course seeks to explore these philosophical claims, by comparing American films with European films that deal with anti-Black racism.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.
Same as: AAAD 282.

GSLL 283. Hungarian Cinema since World War II. 3 Credits.
An introduction to Hungarian society and culture since the end of World War II through a selection of film classics. Films with English subtitles. Readings and discussions in English. Previously offered as HUNG 280.

Rules & Requirements
Making Connections Gen Ed: VP, BN.
Grading Status: Letter grade.

GSLL 284. Philosophy and the Arts. 3 Credits.
This course examines the different ways in which philosophical texts and works of art presuppose, articulate, and call into question cultural norms and values, with a special emphasis on conceptions of selfhood in various philosophical movements (for example, in Existentialism, the Enlightenment, Romanticism, etc.).

Rules & Requirements
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

GSLL 285. Dissent and Protest in Central Europe. 3 Credits.
This course examines cultures of dissent and protest in Central Europe, including student protests of the 1960s and the fall of Communism in 1989. Materials include literature, film, music, theatre, and popular culture from Czechoslovakia, East Germany, West Germany, Hungary, and Poland. Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

GSLL 286. The Upright and the Toppled: Public Lives of Monuments in Europe and the American South. 3 Credits.
Recent years have seen a worldwide push for emancipatory acts of iconoclasm: calls to “topple” monuments as emblems of social oppression. This course examines cases of contested and demolished monuments in contexts close to home (the Carolina campus) and geographically remote (Poland, Prague). If demolishing a monument can be a violent act, how might visual objects in public space exert their own forces of violence? Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: FC-POWER.
Grading Status: Letter grade.

GSLL 287. Into the Streets: 1968 and Dissent in Central Europe. 3 Credits.
Protest movements of 1968 are often remembered as one “planetary event.” In Western Europe, protesters demanded revolution, while in Eastern Europe, protesters living under communism demanded reform. In this course, we will explore dissent and counterculture in Central Europe through the lens of 1968. Through film and fiction from Poland, Yugoslavia, Czechoslovakia, and Hungary, we will investigate the impact of the Central European ‘68(s) worldwide. Films with English subtitles; readings and discussions in English.

Rules & Requirements
Grading Status: Letter grade.

GSLL 288. Graphic Medicine: The Intersection of Health and Comics. 3 Credits.
We will explore the unique possibilities of comics in the form of graphic medicine: namely comics that thematize physical and mental health. How do comic artists work through issues of trauma and pain? How do artists with chronic illness and disabilities articulate their experience through comics? This course engages with the Medical Humanities, seeking to bring together students of medicine along with students of the humanities to contemplate how we communicate physical and mental illness.

Rules & Requirements
Grading Status: Letter grade.
Same as: CMPL 288.

GSLL 295. Research, Creativity, and Innovation in the Humanities. 3 Credits.
This course serves as an introduction to research methodologies, theories, and the university resources available to students seeking to perform cutting-edge research in the humanities. The goal of the course is to produce a substantial research project. The capacities developed in this course as well as the project itself could be used as the basis for grants, scholarships, internship applications, or an honors thesis. Taught in English. Honors version available.

Rules & Requirements
Grading Status: Letter grade.
Same as: CMPL 395, ROML 295.
GSLL 306. Language and Nationalism. 3 Credits.
This course focuses on language, identity, and nationalism in contemporary societies, with special emphasis on Europe, Africa, Asia, and the United States. Previously offered as SLAV 306.

Rules & Requirements
Making Connections Gen Ed: CI, GL.
Grading Status: Letter grade.
Same as: LING 306.

Advanced Undergraduate and Graduate-level Courses

GSLL 465. Literature of Atrocity: The Gulag and the Holocaust in the Soviet Union and Eastern Europe. 3 Credits.
This course studies magical realism in Central European literature and film by placing it in a global literary/cinema context. Readings and discussions in English. Taught in English; some foreign language readings for qualified students.

Rules & Requirements
Making Connections Gen Ed: LA, BN, GL.
Grading Status: Letter grade.
Same as: JWST 465, PWAD 465.

GSLL 467. Language and Political Identity. 3 Credits.
This course examines the roles of language policy and linguistic controversies in determining national identity and fueling political polarization. It focuses primarily on Western and Eastern Europe and Central Asia. Previously offered as SLAV 467.

Rules & Requirements
Making Connections Gen Ed: BN, CI.
Grading Status: Letter grade.
Same as: PWAD 467.

GSLL 475. Magical Realism: Central European Literature in a Global Context. 3 Credits.
This course studies magical realism in Central European literature and film by placing it in a global literary/cinema context. Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.

GSLL 480. Interrogating Cultures of Fascism: Introduction to Frankfurt School's Critical Theory 1923-Present. 3 Credits.
This research-intensive seminar for advanced undergraduates covers the history of the Frankfurt School as well as the scope of its theory for contemporary social, political, and cultural analysis. Taught in English; some readings in German for qualified students. Students must have junior or senior standing or have permission of the instructor.

Rules & Requirements
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

GSLL 481. Grand Hotels and Empty Fields: Inventing Central Europe through Culture. 3 Credits.
Does Central Europe exist? It is a region with shifting borders, diverse languages, and a complex history. In this course, we will explore stories that invent fictional countries in Central Europe from the mist-shrouded mountains of Wes Anderson's Zubrowka to Ursula Le Guin's invented realm of Orsinia. We will also read work by writers from within the region who mythologized their home environments. Films with English subtitles; readings and discussions in English.

Rules & Requirements
Grading Status: Letter grade.

GSLL 489. GSLL Across the Curriculum (LAC). 1 Credits.
This one-credit hour class aims to develop and facilitate conversational skills in a Germanic or Slavic language in the context of the current political, economic, and cultural climate. Knowledge of the language of instruction at the upper-intermediate level required.

Rules & Requirements
Requisites: Prerequisite, BCS 404, CZCH 404, DTCH 404, GERM 204, HUNG 404, KAZH 404, PLSH 404, RUSS 204, or UKRN 404; permission of instructor for students lacking the prerequisite.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.

Grading Status: Letter grade.

GSLL 490. Topics in Germanic and Slavic Languages and Literatures. 3 Credits.
Examines selected themes in the history, culture, society, art, and/or literature of Germanic and Slavic/East European countries.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

GSLL 496. Independent Readings in Germanic and Slavic/East European Studies. 1-3 Credits.
Special readings and research in a selected field or topic related to Germanic and Slavic/East European Studies, under the direction of a faculty member.

Rules & Requirements
Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.

Grading Status: Letter grade.

GSLL 560. Reading Other Cultures: Issues in Literary Translation. 3 Credits.
Permission of the instructor. Reading knowledge of a language other than English recommended. Starting from the proposition that cultural literacy would be impossible without reliance on translations, this course addresses fundamental issues in the practice, art, and politics of literary translation. Previously offered as SLAV 560.

Rules & Requirements
Grading Status: Letter grade.
Same as: CMPL 560.
GSLL 683. Moving-Image Avant-gardes and Experimentalism. 3 Credits.
History and theory of international avant-garde and experimentalist movements in film, video, intermedia, multimedia, and digital formats. Content and focus may vary from semester to semester. Previously offered as GERM 683.

Rules & Requirements
Requisites: Prerequisite, ARTH 159, COMM 140, or ENGL 142; permission of the instructor for students lacking the prerequisite.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

GSLL 691H. Honors Course. 3 Credits.
Permission of the director of undergraduate studies. For majors only. Reading and special studies under the direction of a faculty member.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

GSLL 692H. Honors Course. 3 Credits.
Permission of the director of undergraduate studies. For majors only. Reading and preparation of an essay under the direction of a faculty member, designed to lead to the completion of the honors thesis.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

GSLL 693H. Honors Seminar. 3 Credits.
Permission of the director of undergraduate studies. For majors only. Introduction to research techniques and preparation of an essay, designed to lead to the completion of the honors thesis.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

DTCH—Dutch
Undergraduate-level Courses

DTCH 275. Rising Fortunes and Rising Tides: The Dutch Golden Age and its Legacy. 3 Credits.
This study abroad course provides students with in-depth exposure to the history and culture of the Netherlands in the 17th century through the lens of its chief city, Amsterdam. Conducted in English. No knowledge of Dutch is required.

Rules & Requirements
IDEAs in Action Gen Ed: HI-SERVICE.
Making Connections Gen Ed: EE- Service Learning, NA, WB.
Grading Status: Letter grade.

DTCH 396. Independent Readings in Dutch. 3 Credits.
Permission of the instructor. Special readings and research in a selected field or topic under the direction of a faculty member.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

DTCH 402. Elementary Dutch. 3 Credits.
The first course in the Dutch language sequence, DTCH 402 is a rapid introduction to modern Dutch with emphasis on all fundamental components of communication. Completion of DTCH 402 fulfills level 2 of a foreign language.

Rules & Requirements
Making Connections Gen Ed: FL.
Grading Status: Letter grade.
Global Language: Level 1 & 2 combined.

DTCH 403. Intermediate Dutch. 3 Credits.
The second course in the Dutch language sequence, DTCH 403 focuses on increased skills in speaking, listening, reading, global comprehension, and communication. Emphasis on reading and discussion of longer texts. Completion of DTCH 403 fulfills level 3 of a foreign language.

Rules & Requirements
IDEAs in Action Gen Ed: GLBL-LANG.
Making Connections Gen Ed: FL.
Requisites: Prerequisite, DTCH 402; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 3.

DTCH 404. Advanced Intermediate Dutch. 3 Credits.
This third Dutch course completes the language sequence. DTCH 404 aims to increase proficiency in language skills (reading, speaking, writing) and is constructed around a series of themes meant to introduce students to Dutch society, culture, and history. Completion of DTCH 404 fulfills level 4 of a foreign language.

Rules & Requirements
Making Connections Gen Ed: FL.
Requisites: Prerequisite, DTCH 403; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 4.

DTCH 405. Topics in Dutch Culture: A Literary Survey. 3 Credits.
Ability to read and speak Dutch at intermediate to advanced level recommended. Introduction to Dutch literature from Middle Ages to the present. Survey of topics in Dutch culture.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Requisites: Prerequisite, DTCH 404; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 5.
GERM—German

Undergraduate-level Courses

GERM 101. Elementary German I. 4 Credits.
Develops the four language skills (speaking, listening, reading, writing) in a cultural context. In addition to mastering basic vocabulary and grammar, students will communicate in German about everyday topics. Students may not receive credit for both GERM 105 and GERM 101 or 102. Honors version available.

Rules & Requirements
Making Connections Gen Ed: FL.
Grading Status: Letter grade.
Global Language: Level 1.

GERM 102. Elementary German II. 4 Credits.
This continuation of GERM 101 emphasizes speaking, listening, reading, writing in a cultural context. Students enhance their basic vocabulary and grammar and will regularly communicate in German about everyday topics. Students may not receive credit for both GERM 105 and GERM 101 or 102. Honors version available.

Rules & Requirements
Making Connections Gen Ed: FL.
Grading Status: Letter grade.
Global Language: Level 2.

GERM 105. Intensive Elementary German. 8 Credits.
Experience in German or fluency in another foreign language recommended. An accelerated, intensive course that essentially covers materials of GERM 101 and 102 in one semester. Students may not receive credit for both GERM 105 and GERM 101 or 102. Honors version available.

Rules & Requirements
Making Connections Gen Ed: FL.
Grading Status: Letter grade.
Global Language: Level 3.

GERM 203. Intermediate German I. 3 Credits.
Students acquire necessary materials and opportunities to develop further their language skills in a cultural context. They review and expand upon the basic grammar covered in beginning German. Students may not receive credit for both GERM 206 and GERM 203 or GERM 204. Honors version available.

Rules & Requirements
Making Connections Gen Ed: GLBL-LANG.
Grading Status: Letter grade.
Global Language: Level 3.

GERM 204. Intermediate German II. 3 Credits.
Emphasizes further development of the four language skills (speaking, reading, writing, listening) within a cultural context. Discussions focus on modern Germany, Austria, and Switzerland in literature and film. Students may not receive credit for both GERM 206 and GERM 203 or GERM 204. Honors version available.

Rules & Requirements
Making Connections Gen Ed: FC-AESTH.
Grading Status: Letter grade.
Global Language: Level 4.

GERM 206. Intensive Intermediate German. 6 Credits.
An accelerated intensive course that covers the materials of GERM 203 and 204 in one semester. Students may not receive credit for both GERM 206 and GERM 203 or GERM 204.

Rules & Requirements
Making Connections Gen Ed: GLBL-LANG.
Grading Status: Letter grade.
Global Language: Level 3 & 4 combined.

GERM 210. Getting Medieval: Knights, Violence, and Romance. 3 Credits.
Offers a historical perspective on the portrayal of medieval culture in film from the 1920s to today. Specific topics include the ideal hero, the quest, etiquette, chivalry, rituals, and love. Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: VP, NA, WB.
Grading Status: Letter grade.

GERM 211. Concepts in Medieval Culture. 3 Credits.
This course examines concepts that medieval texts utilize in order to articulate an understanding of human beings, their relations to others, their social, political, and religious worlds. Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: LA, WB.
Grading Status: Letter grade.

GERM 216. The Viking Age. 3 Credits.
Lecture/discussion course on Viking culture, mythology, exploration, and extension of power in northern Europe (approx. 750-1050 CE) as represented in sagas, the Eddas, runic inscriptions, and chronicles. Readings and discussions in English.
GERM 220. Women in the Middle Ages. 3 Credits.
This interdisciplinary course examines representations of women, concepts of gender, and women's participation in the economic, political, religious, and cultural life of the Middle Ages. Discussion and texts in English.

Rules & Requirements
Making Connections Gen Ed: LA, NA, WB.
Grading Status: Letter grade.
Same as: WGST 220.

GERM 227. Luther and the Bible. 3 Credits.
The Reformation was seminal for the development of the modern world. This course will investigate Reformation literature written in the period from the end of the 15th century to the end of the 17th century, and will investigate how Reformation ideas resonate through today. Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.
Same as: RELI 227.

GERM 245. Marx, Nietzsche, and Freud. 3 Credits.
An introduction to the writings of three great German writers of the 19th century who have had enormous impact on the lives of people around the world. Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

GERM 247. Music, Madness, and Genius: The Pathologies of German Musical Literature. 3 Credits.
This course surveys the themes of madness and genius and their relation to music in German literature of the 19th and 20th century. Readings and class discussions in English. Prior knowledge of music is recommended but not required.

Rules & Requirements
Making Connections Gen Ed: FC-KNOWING or FC-PAST.
Grading Status: Letter grade.

GERM 249. German Literature in Translation. 3 Credits.
The idea of world literature was a German invention, proposed by Goethe to describe literature of universal importance for all of humanity. German thought, and German literature, in particular, remains an important component in this canon. This English-language literature course introduces newcomers to some highlights of German literature.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

GERM 263. European Exile Cinema. 3 Credits.
This course examines the work of one or several film directors who went into exile during the Third Reich to discuss: How does the experience of exile influence film style? What are theories and histories of exile and exile cinema, and how do they relate to other approaches to film, via national film histories, genre, style, etc.? How does a biography of exile relate to so-called auteur theory? Readings and Discussions in English.

Rules & Requirements
Making Connections Gen Ed: FC-AESTH.
Grading Status: Letter grade.
Same as: CMPL 263.

GERM 265. Hitler in Hollywood: Cinematic Representations of Nazi Germany. 3 Credits.
An examination of selected cinematic representations (both American and German) of Nazi Germany in terms of their aesthetic properties and propagandistic value. Films with English subtitles; readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: FC-PAST or FC-VALUES.
Grading Status: Letter grade.

GERM 266. Weimar Cinema. 3 Credits.
Explores important German films of 1919 to 1933, locating them in their artistic, cultural, and historical context. Treats the contested course of Weimar film history and culture and provides a theoretically informed introduction to the study of film and visual materials. Films with English subtitles; readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

GERM 267. European Exile Cinema. 3 Credits.
Examines exciting new directions in German and Austrian cinema from the past 20 years. By analyzing weekly films, students develop skills in film analysis and criticism; read reviews, interviews, and film-theoretical texts; write a film review; and produce a critical essay. Films with English subtitles; readings and discussions in English. Students may not receive credit for both GERM 267 and 367.

Rules & Requirements
Making Connections Gen Ed: VP, CI, NA.
Grading Status: Letter grade.

GERM 268. Auteur Cinema. 3 Credits.
We will explore the works of one or more German director(s). By watching a sample of a director's oeuvre over a significant period of time, students come to understand the director's arch, identify common threads in their films, and consider how his or her work relates to larger developments in German film history. Films with English subtitles; readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: VP, CI, NA.
Grading Status: Letter grade.
GERM 271. Women in German Cinema. 3 Credits.
Introduction to feminist aesthetics and film theory by the examination of the representation of women in German cinema from expressionism to the present. All materials and discussions in English. Previously offered as GERM/WGST 250.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.
Same as: WGST 271, CMPL 271.

GERM 272. History of German Cinema. 3 Credits.
This course explores the major developments of German cinema. All films with English subtitles. Readings and discussions in English. Previously offered as GERM 275.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.
Same as: CMPL 272.

GERM 278. Performance, Drama, Translation, Adaptation and Ethnographic Exchange. 3 Credits.
German drama has been fundamental to shaping the country’s identity. Thus, what better way to learn about a culture and history than to engage with its dramatic texts and performance? Nevertheless, there are always nuances that can potentially get lost in translation when adapting a text from one language to another. What does a reader of the translation need to know in order to properly understand the play? Readings and discussions in English.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH, HI-SERVICE.
Making Connections Gen Ed: VP, EE: Service Learning, NA.
Grading Status: Letter grade.

GERM 279. Once Upon A Fairy Tale: Fairy Tales and Childhood, Then and Now. 3 Credits.
Considers fairy tales from several different national traditions and historical periods against the backdrop of folklore, literature, psychoanalysis, and the socializing forces directed at children. Students may not receive credit for both GERM 279/CMPL 279 and GSLL 54.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.
Same as: CMPL 279.

GERM 280. 20th-Century German Philosophy and Modern Youth Cultures. 3 Credits.
This philosophical Approaches course investigates the rich European intellectual foundations on which 20th-century youth culture erected its triumvirate of sex, drugs, and rock music.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

GERM 281. The German Idea of War: Philosophical Dialogues with the Literary and Visual Arts in WWI. 3 Credits.
This course brings into dialogue key ideas from seminal German philosophers who anticipated, experienced, or survived the Great War, with contemporary works of German literature, film, and painting. Of concern are the ways philosophy’s concepts and art’s themes shaped both one another and the idea of war. Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

GERM 282. Different than the Others: Stories of Queer German Liberation, 1864-2021. 3 Credits.
This English-language seminar introduces students to over 150 years of LGBTQ+ repression and liberation in German-speaking Europe, from the prohibition of same-sex acts in 1871 to the present, through the lens of German literature and film. Readings and class discussions in English.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.

GERM 283. Freedom, Terror, and Identity: Modern Philosophy from Kant to Arendt. 3 Credits.
This course investigates how philosophical thought motivates, inspires, and generates forms of agency and identity against cultural tendencies that limit or erode freedom. Readings, lecture, and discussion in English.

Rules & Requirements
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.
Same as: PWAD 283.

GERM 284. Translations and Adaptations of German Pop Literature. 3 Credits.
By reading a few longer novels over the course of the semester, students will learn how to hone their critical thinking and reading skills, become familiar with a foreign culture, and consider how American culture is reflected back at them in these post-1960 German texts. Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: LA, CI, NA.
Grading Status: Letter grade.

GERM 285. Contemporary German Literature in Translation. 3 Credits.
This class will introduce students to the latest translations of recent novels by both established and up-and-coming authors of the post-1989 German literary world. Readings and class discussions in English.

Rules & Requirements
Making Connections Gen Ed: LA, CI, NA.
Grading Status: Letter grade.
GERM 286. (Un)Welcomed Guests? German Reflections on Exile and Immigration. 3 Credits.
This course introduces students to philosophical, literary, and film texts engaging with the ethics of migration. How might the writings by and depictions of refugees throughout German history resonate with the current crisis? The course includes a service learning component, so that students gain experience working with local refugees and are able to use their practical experience to reflect on the theoretical discussions in class. Readings and discussions in English.

Rules & Requirements
IDEAs in Action Gen Ed: HI-SERVICE.
Making Connections Gen Ed: PH, EE: Service Learning, GL.
Grading Status: Letter grade.

GERM 290. Topics in German Studies. 3 Credits.
Examines selected themes in the history, culture, society, art, and/or literature of German-speaking countries. Readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

GERM 301. Advanced Applied German: Life, Work, Fun. 3 Credits.
Introduction to present-day German-speaking societies with an emphasis on practical contexts of everyday life (business, media, culture). The course initiates a sustained reflection on class, gender, race, and political economy and prepares students for studying and interning in German-speaking Europe. Further goals include improvement of pronunciation and the mastery of grammar.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-KNOWING, COMMBEYOND.
Making Connections Gen Ed: CI, NA.
Requisites: Prerequisite, GERM 204; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 5.

GERM 302. Advanced Communication in German: Media, Arts, Culture. 3 Credits.
Emphasis is on advanced communication and writing based on shorter readings from contemporary life and culture in German-speaking societies. The readings provide subject matter for in-class discussion and regular written compositions that explore a variety of practical genres (report, article, essay).

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL, COMMBEYOND.
Making Connections Gen Ed: SS, CI, NA.
Requisites: Prerequisite, GERM 204; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 5.

GERM 303. German Literature and Culture. 3 Credits.
Readings, discussions, and essays in German. An appropriate conclusion to GERM 101-204, it also provides the background for more advanced undergraduate literature and culture courses.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
Making Connections Gen Ed: LA, CI, NA.
Requisites: Pre- or corequisite, GERM 301 or 302; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 304. Business German. 3 Credits.
An introduction to the language and culture of German business, commerce, and industry. Special emphasis is given to the acquisition of advanced business-related language skills. Course conducted in German.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL, COMMBEYOND.
Making Connections Gen Ed: NA.
Requisites: Prerequisite, GERM 204; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 5.

GERM 305. Business German. 3 Credits.
GERM 304 recommended but not required. As a continuation of GERM 304 the course offers a more advanced treatment of the current German economic and business debates and events while further strengthening relevant German language skills. Course conducted in German.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL, COMMBEYOND.
Making Connections Gen Ed: NA.
Requisites: Prerequisite, GERM 204; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: BUSI 305.
Global Language: Level 5.

GERM 306. Introduction to German Translation. 3 Credits.
This course provides a practical and theoretical introduction to translation from and into German. Translation practices will be discussed not only from a linguistic perspective, but also from a cultural and historical perspective.

Rules & Requirements
Making Connections Gen Ed: NA.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.
GERM 310. Höfische Kultur/Courtly Culture. 3 Credits.
Introduces students to the rich culture and exciting literature of medieval Germany. Topics include knights and ladies, castles, weaponry, clothing, food, and fantasy. All materials and discussions in German.

Rules & Requirements
Making Connections Gen Ed: LA, NA, WB.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 311. The Crusades. 3 Credits.
Examination of the medieval notion of the crusade, conflicts and exchange between East and West, and the ambiguous portrayals of the East in Western medieval literature. Readings and discussions in German.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 325. Fools and Laughter in Early Modern German Literature. 3 Credits.
Fools are everywhere. Human folly is one of the most distinctive preoccupations of German literature of the early modern period. This course will explore the multiple meanings of the German term "fool" in works from the 15th to the 18th century. Readings and discussions in German.

Rules & Requirements
Making Connections Gen Ed: LA, NA, WB.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 330. The Age of Goethe. 3 Credits.
German literature from the Enlightenment to Romanticism. Readings include works by Lessing, Goethe, Schiller, Kleist, and the Romantics. Readings and lectures in German.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 349. Vienna-Munich-Berlin: Revolutions in German Art c. 1900. 3 Credits.
Investigation of the interconnectedness of turn-of-the-century arts, philosophy, psychoanalysis with focus on Berlin and Vienna. Works by Nietzsche, Hauptmann, Schnitzler, Freud, Hesse, Hofmannsthal/Strauss, Kafka, Rilke, T. Mann. Readings and lectures in German.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 350. Modern German Literature. 3 Credits.
Study of major works of German literature from 1890 to the present by such authors as Thomas Mann, Kafka, Brecht, Hesse, Böll, and Grass. Readings and lectures in German.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 367. Contemporary German and Austrian Cinema. 3 Credits.
Examines exciting new directions in German and Austrian cinema from the past 20 years. By analyzing weekly films, students develop skills in film analysis and criticism; read reviews, interviews, and film-theoretical texts; write a film review; and produce a critical essay. Readings and discussions in German. Students may not receive credit for both GERM 267 and 367.

Rules & Requirements
Making Connections Gen Ed: VP, CI, NA.
Requisites: Prerequisite, GERM 303.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 370. Readings in German Intellectual History. 3 Credits.
Introduction to German intellectual history from the Enlightenment to the rise of fascism. Close readings and discussions of texts by Kant, Schiller, Hegel, Marx, Nietzsche, Freud, and Benjamin. Readings and lectures in German.

Rules & Requirements
Making Connections Gen Ed: PH, NA.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 371. The German Novella. 3 Credits.
Famous novellas by authors such as Kleist, Brentano, Meyer, Keller, and Kafka, from the early 19th century to the middle of the 20th century. Readings and discussions in German.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 372. German Drama. 3 Credits.
German drama from the late Enlightenment to the present. Texts include plays by dramatists such as Goethe, Schiller, Kleist, Hauptmann, Brecht, and Dürrenmatt. Readings and lectures in German.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.
GERM 373. "Denk ich an Deutschland. . .": German Lyrical Poetry through the Centuries. 3 Credits.
Survey of German lyric poetry from 18th to 21st century; major poets, forms, literary movements discussed. Readings, class discussions, and public recitation in German.

Rules & Requirements
IDEAS in Action Gen Ed: HI-PERFORM.
Making Connections Gen Ed: PH, EE: Performing Arts, NA.
Requisites: Prerequisite, GERM 303, permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 374. German Theater: Words Speak as Loudly as Actions. 3 Credits.
Students study German plays, write original monodramas, and give two public dramatic performances. Readings, discussions, rehearsals in German aim to enable critique of dramas and theoretical texts.

Rules & Requirements
IDEAS in Action Gen Ed: FC-CREATE, HI-PERFORM.
Making Connections Gen Ed: VP, EE: Performing Arts, NA.
Requisites: Prerequisite, GERM 303, permission of the instructor for students lacking the prerequisite.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 379. German-Language Swiss Literature and Culture. 3 Credits.
This course offers an introduction to the German-language literature and culture of Switzerland. Possible authors include: Jeremias Gotthelf, Gottfried Keller, Robert Walser, Friedrich Dürrenmatt, Max Frisch, Christian Kracht.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 380. Austrian Literature. 3 Credits.
Presents Austria from the Biedermeier period to the end of the monarchy. Readings of works by authors such as Stifter, Schnitzler, Roth, Freud, Herzl, who articulate artistic, political, historical themes. Readings and lectures in German.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 381. Berlin: Mapping a (Post) Modern Metropolis. 3 Credits.
Exploration of the rich cultural and turbulent political history of 20th-century Germany by focusing on the literature, film, art, and architecture produced in and about the city of Berlin. All materials and discussions in German.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 382. Representations of Violence and Terrorism in Contemporary German Literature and Film. 3 Credits.
Investigates literary and cinematic response to rise in terrorism in Germany since 1970. Focus on cultural and political significance of the gangster, the freedom fighter, and the terrorist. Readings and discussions in German.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 383. Adaptations of the Past: Literature of the German Democratic Republic. 3 Credits.
Explores the practice in East Germany of adapting earlier literatures and setting contemporary narratives in distant times. East German authors used cultural heritage as a screen for utopian sentiments and for pursuing the relationships between everyday life, historical conditions, and political circumstances. Readings and discussions in German.

Rules & Requirements
Making Connections Gen Ed: NA.
Requisites: Prerequisite, GERM 303.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 384. Guilt, Suffering, and Trauma in Post War Germany. 3 Credits.
German texts from 1945 to the present trace the depth of fascist violence and its aftermath in German historical writing and identity. How have Germans positioned themselves toward their history over time? Does one understand oneself as perpetrator, victim, or both? Readings and discussions in German.

Rules & Requirements
Making Connections Gen Ed: PH, NA.
Requisites: Prerequisite, GERM 303.
Grading Status: Letter grade.

GERM 385. Schein/Sein: Turkish German Culture, 1964 to Today. 3 Credits.
Students will learn about Turkish migration to Germany following WWII. Students will read texts written about Turkish guest workers, as well as first-hand accounts from guest workers and literary texts by Turkish artists of the first, second, and third generation. Readings and discussions in German.

Rules & Requirements
Making Connections Gen Ed: LA, CI, GL.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
GERM 386. Germany Goes East: Contemporary German Literature by Eastern European Immigrants. 3 Credits.
Since 1989, writers born in the former Eastern Bloc have taken German literature by storm. We investigate this contemporary prose, exploring themes like homeland and diaspora, communism and capitalism, German history and the European Union.

Rules & Requirements
Making Connections Gen Ed: LA, GL.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 388. Discussion Section in German. 1 Credits.
Students may enroll only in conjunction with a German Department course offered in English that features an accompanying discussion section. All materials and discussions in German. May count toward the major or minor in German.

Rules & Requirements
Requisites: Prerequisite, GERM 204; permission of the instructor for students lacking the prerequisite.
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 389. LAC Recitation. 1 Credits.
A recitation section for selected courses that promote foreign language proficiency across the curriculum (LAC). Readings and discussions in German. May count toward the major and minor in German.

Rules & Requirements
Requisites: Prerequisite, GERM 204; permission of the instructor for students lacking the prerequisite.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 4 total credits. 4 total completions.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 390. Topics in German Studies. 3 Credits.
Examines selected themes in the history, culture, society, art, and/or literature of German-speaking countries. Readings and discussions in German.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 396. Independent Readings in German. 3 Credits.
Special readings and research in a selected field or topic under the direction of a faculty member.

Rules & Requirements
Requisites: Prerequisite, GERM 303; permission of the instructor for students lacking the prerequisite.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.
Global Language: Level 6.

Advanced Undergraduate and Graduate-level Courses
GERM 400. Advanced German Grammar. 3 Credits.
Review of basic and advanced grammatical structures. Course strengthens application of grammar in context for undergraduate and graduate students. Graduate students also work with grammar issues encountered in the foreign language classroom.

Rules & Requirements
Requisites: Prerequisite, GERM 204; permission of the instructor for students lacking the prerequisite.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 4 total credits. 4 total completions.
Grading Status: Letter grade.
Global Language: Level 6.

GERM 450. Nietzsche, Hesse, and Mann. 3 Credits.
Explores Nietzsche on literature, and Hesse's and Mann's literary thematization of Nietzsche's philosophy. Emphasis on conceptions of character, myth, music, and language, and Nietzsche's cultural and moral critique and its reevaluation in light of the 20th century political crises. Taught in English; some readings in German for qualified students.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Grading Status: Letter grade.

GERM 466. Language Remains: German-Jewish Dialogues and Beyond. 3 Credits.
This course explores German-Jewish writing before and after the Holocaust, focusing on the social and political position of Jews in German-speaking countries and how those are manifest in their relation to the German language.

Rules & Requirements
Making Connections Gen Ed: LA, NA.
Same as: JWST 466.

GERM 479. What is a Medium? German Media Theory from Aesthetics to Cultural Techniques. 3 Credits.
This seminar provides students across the humanities with an overview of the historical and cultural relevance of German media theories. We will discuss the distinction between "art" and "medium", the role of technology and techniques, as well as the interaction of media theory and practice with politics. Films with English subtitles; readings and discussions in English.

Rules & Requirements
Making Connections Gen Ed: VP, CI.
Grading Status: Letter grade.
Same as: CMPL 479.
GERM 493. Internship in German. 3 Credits.
This course enables a student to earn a maximum of three credit hours for a faculty-supervised internship directly related to the study of German literature or culture, or that uses the German language in day-to-day conduct of business in a German-speaking environment.

Rules & Requirements
IDEAS in Action Gen Ed: HI-INTERN.
Making Connections Gen Ed: EE- Academic Internship, NA.
Repeat Rules: Prerequisite, GERM 303.
Grading Status: May be repeated for credit. 6 total credits. 2 total completions.

GERM 500. History of the German Language. 3 Credits.
Development of phonology and morphosyntax from ancient times to present. Political, social, and literary forces influencing the language.

Rules & Requirements
Requisites: Prerequisites, GERM 302 and 303; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

GERM 501. Structure of German. 3 Credits.
LING 101 recommended for undergraduates. Introduction to formal analysis of German grammar (phonology, morphophonemics, prosodics, morphology, syntax) within the framework of generative grammar.

Rules & Requirements
Requisites: Prerequisites, GERM 302 and 303; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

GERM 505. Early New High German. 3 Credits.
Permission of the instructor for undergraduates. Reading and linguistic analysis of Early New High German texts, with study of phonology, morphology, and syntax. On demand.

Rules & Requirements
Grading Status: Letter grade.

GERM 511. Old Saxon. 3 Credits.
Permission of the instructor for undergraduates. Reading and linguistic study of biblical texts (Heliand, Genesis) in Old Saxon, with study of phonology, morphology, and syntax; comparison with Old English, Old High German, and other Germanic dialects. On demand.

Rules & Requirements
Grading Status: Letter grade.

GERM 514. Old Norse I (Old Icelandic). 3 Credits.
Permission of the instructor for undergraduates. Reading and linguistic analysis of Old Norse (Old Icelandic) texts, with study of phonology, morphology, and syntax; comparison with other older dialects of Germanic. On demand.

Rules & Requirements
Grading Status: Letter grade.

GERM 517. Gothic. 3 Credits.
Permission of the instructor for undergraduates. Reading and linguistic analysis of Gothic biblical texts, with study of phonology, morphology, and syntax; comparison with other older dialects of Germanic. On demand.

Rules & Requirements
Grading Status: Letter grade.

GERM 521. Variation in German. 3 Credits.
LING 101 recommended for undergraduates. Major topics in sociolinguistics: development of the German language, traditional dialects, variation in contemporary speech, German as a minority language (Alsace, Belgium), German outside of Germany (Austria, Switzerland, Luxemburg, Liechtenstein).

Rules & Requirements
Requisites: Prerequisites, GERM 302 and 303; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

GERM 545. Problems in Germanic Linguistics. 3 Credits.
LING 101 recommended for undergraduates. Special problems will be selected for intensive investigation. Subject matter of the course will be adapted to the particular interests of the students and instructor.
GERM 590. Topics in Germanic Linguistics. 3 Credits.
LING 101 recommended for undergraduates.

Rules & Requirements
Requisites: Prerequisites, GERM 302 and 303; permission of the instructor for students lacking the prerequisites.
Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading Status: Letter grade.

GERM 601. Elementary German for Graduate Students. 3 Credits.
Permission of the instructor for undergraduates. With GERM 602, a two-semester sequence designed as preparation for the reading knowledge examination for higher degrees in the humanities, social sciences, physical sciences, etc.

Rules & Requirements
Grading Status: Letter grade.

GERM 602. Elementary German for Graduate Students, Continued. 3 Credits.
Permission of the instructor for undergraduates. Continuation of GERM 601.

Rules & Requirements
Grading Status: Letter grade.

GERM 605. Comparative Germanic Grammar. 3 Credits.
Permission of the instructor for undergraduates. LING 101 recommended for undergraduates. Analysis of phonological, morphological, and syntactic development from Indo-European to the older stages of Germanic dialects.

Rules & Requirements
Grading Status: Letter grade.

GERM 614. Foundations in German Studies I. 3 Credits.
First part of a three-semester sequence offering students a comprehensive, text-based survey of German literary history from the High Middle Ages to the present. The course introduces students to medieval German language, literature, and culture. Readings in English, German and Middle High German. Discussions in German. Permission of the instructor for undergraduates.

Rules & Requirements
Grading Status: Letter grade.

GERM 615. Foundations in German Studies II. 3 Credits.
Second part of a three-semester sequence offering students a comprehensive, text-based survey of German literary history from the High Middle Ages to the present. Permission of the instructor for undergraduates.

Rules & Requirements
Grading Status: Letter grade.

GERM 616. Foundations in German Studies III. 3 Credits.
Third part of a three-semester sequence offering students a comprehensive, text-based survey of German literary history from the High Middle Ages to the present. Permission of the instructor for undergraduates.

Rules & Requirements
Grading Status: Letter grade.

GERM 625. Early Modern Literature. 3 Credits.
Permission of the instructor for undergraduates. German literature of the 15th, 16th, and 17th centuries. Close readings, lectures, and discussions of representative texts.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

GERM 630. 18th-Century Literature. 3 Credits.
Permission of the instructor for undergraduates. Literature in the Age of Enlightenment. Close readings, lectures, and discussions of representative texts.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

GERM 640. Early 19th-Century Literature. 3 Credits.
Permission of the instructor for undergraduates. Literature of the Romantic period. Close readings, lectures, and discussions of representative texts.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

BCS—Bosnian, Croatian, and Serbian
Advanced Undergraduate and Graduate-level Courses

BCS 401. Elementary Bosnian-Croatian-Serbian Language I. 3 Credits.
Proficiency-based instruction at the elementary level that develops the
four language skills (speaking, listening, reading, writing). In addition to
mastering basic vocabulary and grammar, students will communicate in
the target language about everyday topics. Previously offered as SECR 401.

Rules & Requirements
Making Connections Gen Ed: FL.
Grading Status: Letter grade.
Global Language: Level 1.

BCS 402. Elementary Bosnian-Croatian-Serbian Language II. 3 Credits.
Continuation of the proficiency-based instruction in BCS 401. Course
emphasizes speaking, listening, reading, writing in a cultural context.
Students enhance their basic vocabulary and grammar and will regularly
communicate in the target language about everyday topics. Previously
offered as SECR 402.

Rules & Requirements
Making Connections Gen Ed: FL.
Requisites: Prerequisite, BCS 401; permission of the instructor for
students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 2.

BCS 403. Intermediate Bosnian-Croatian-Serbian Language I. 3
Credits.
Continuation of the proficiency-based instruction started in Elementary
Bosnian-Croatian-Serbian. Previously offered as SECR 403.

Rules & Requirements
Making Connections Gen Ed: GLBL-LANG.
Requisites: Prerequisite, BCS 402; permission of the instructor for
students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 3.

BCS 404. Intermediate Bosnian-Croatian-Serbian Language II. 3
Credits.
Continuation of the proficiency-based instruction started in BCS 403.
Previously offered as SECR 404.

Rules & Requirements
Making Connections Gen Ed: FL.
Requisites: Prerequisite, BCS 403; permission of the instructor for
students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 4.

BCS 405. Advanced Bosnian-Croatian-Serbian Language I. 3 Credits.
Advanced readings and discussion in Bosnian-Croatian-Serbian on
humanities and social science topics. Previously offered as SECR 405.

Rules & Requirements
Making Connections Gen Ed: BN.
Requisites: Prerequisite, BCS 404; permission of the instructor for
students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 5.

BCS 406. Advanced Bosnian-Croatian-Serbian Language II. 3 Credits.
Advanced readings and discussion in Bosnian-Croatian-Serbian on
humanities and social science topics. Continuation of BCS 405.
Previously offered as SECR 406.

Rules & Requirements
Making Connections Gen Ed: BN.
Requisites: Prerequisite, BCS 405; permission of the instructor for
students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

BCS 411. Introduction to South Slavic Literatures and Cultures. 3
Credits.
Introduction to South Slavic literatures and cultures with an emphasis on
19th- through 21st-century prose. Taught in English. Some readings in
target language for qualified students. Previously offered as SECR 411.

Rules & Requirements
Making Connections Gen Ed: LA, BN.
Grading Status: Letter grade.

BCS 490. Topics in South Slavic Cultures. 3 Credits.
Study of topics in Bosnian, Croatian, Serbian, and other South Slavic
literatures and cultures not currently covered in any other course. The
specific topic will be announced in advance. Taught in English. Some
readings in target language for qualified students. Previously offered as
SECR 490.

Making Connections Gen Ed: BN.
Requisites: Prerequisites, RUSS 411 and 412; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.
Global Language: Level 6.

RUSS 513. Russian Culture in Transition I. 3 Credits.
Fifth-year Russian, intended to expand knowledge of the language necessary for understanding social changes that are taking place in Russian society, in literature, art, culture, and everyday human mentality.

Rules & Requirements
Making Connections Gen Ed: LA, BN.
Requisites: Prerequisite, RUSS 411; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

RUSS 514. Russian Culture in Transition II. 3 Credits.
RUSS 513 is not a prerequisite. Fifth-year Russian, continuing with the theme of RUSS 513 offered in the fall semester.

Rules & Requirements
Making Connections Gen Ed: LA, BN.
Requisites: Prerequisite, RUSS 412; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Global Language: Level 6.

RUSS 515. Advanced Russian Communication, Composition and Grammar in the Professions I. 3 Credits.
RUSS 515 provides advanced learners with opportunities to develop linguo-cultural skills necessary to practice their profession in Russian. While engaged in academic discourse in contemporary standard Russian, learners research topics in their academic majors, prepare and give presentations and lead discussions focusing on their areas of professional competence. In addition to student-centered segments, the course comprises instructor-led discussions of current affairs and academic subjects. Readings, viewing materials, and discussions in Russian.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH, COMMBEYOND.
Requisites: Prerequisites, RUSS 412 or permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
RUSS 516. Advanced Russian Communication, Composition and Grammar in the Professions II. 3 Credits.
A continuation of RUSS 515, RUSS 516 develops and maintains the linguo-cultural skills of advanced-to-professional learners by preparing them for professional study-abroad experiences at Russophone institutions of higher learning. A seminar-style course with rotating instructors, it engages learners in contemplation, research, and discussion of subjects within the instructor’s professional expertise. Readings, viewing materials, and discussions in Russian.

Rules & Requirements
- IDEAs in Action Gen Ed: RESEARCH, COMM BEYOND.
- Requisites: Prerequisites, RUSS 515 or permission of the instructor for students lacking the prerequisite.
- Grading Status: Letter grade.

RUSS 562. Structure of Russian. 3 Credits.
Examines Russian from the perspective of linguistic analysis. How do sounds, words, and sentences pattern in Russian? How do these compare with patterns in other languages? Also considers the influence of evidence from Russian on the development of linguistic theory.

Rules & Requirements
- Requisites: Prerequisite, LING 101 or RUSS 102; permission of the instructor for students lacking the prerequisite.
- Grading Status: Letter grade.
- Same as: LING 562.

SLAV—Slavic

Undergraduate-level Courses

SLAV 86. First-Year Seminar: Literature and Madness. 3 Credits.
The seminar considers the relationship between literature and madness through the works of major Russian writers (Pushkin, Gogol, Dostoevsky, Turgenev, Chekhov, Nabokov).

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: LA.
- Grading Status: Letter grade.

SLAV 101. Introduction to Slavic Civilizations: Peasants, Popes, and Party Hacks. 3 Credits.
Introduction to the essentials of Slavic cultures, including religion, literature, history, art, cinema, folklore, geography, and music. Course materials include films, slides, and recordings. Lectures and readings in English.

Rules & Requirements
- Making Connections Gen Ed: BN, WB.
- Grading Status: Letter grade.

SLAV 248. Childhood and Adolescence in Slavic Literature. 3 Credits.
Childhood and adolescence as portrayed in both fictional and autobiographical form by 19th-and 20th-century Russian, Polish, Czech, and other East European writers, including Tolstoy, Dostoevsky, Nabokov, I. B. Singer, Schulz, Milosz. Lectures and readings in English. Honors version available.

Rules & Requirements
- Making Connections Gen Ed: LA, BN, CI.
- Grading Status: Letter grade.

SLAV 250. Introduction to Non-Russian Slavic/East European Culture. 3 Credits.
Reading and discussion of selected authors in the target language aimed at improving reading and analytical skills and preparing the student for higher level work.

Rules & Requirements
- Making Connections Gen Ed: LA, BN.
- Requisites: Prerequisite, BULG 404, CZCH 404, HUNG 404, MACD 404, PLSH 404, or BCS 404; permission of the instructor for students lacking the prerequisite.
- Grading Status: Letter grade.
- Global Language: Level 6.

SLAV 296. Directed Readings in a Slavic Language. 1-12 Credits.
Permission of the instructor. Directed readings in a Slavic language other than Russian on topics in literature and linguistics not normally covered in scheduled courses.

Rules & Requirements
- Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
- Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

SLAV 464. Imagined Jews: Jewish Themes in Polish and Russian Literature. 3 Credits.
Explores the fictional representation of Jewish life in Russia and Poland by Russian, Polish, and Jewish authors from the 19th century to the present. Taught in English; some foreign language readings for qualified students.

Rules & Requirements
- Making Connections Gen Ed: LA, BN.
- Grading Status: Letter grade.
- Same as: JWST 464.

SLAV 469. Coming to America: The Slavic Immigrant Experience in Literature. 3 Credits.
Fictional and autobiographical expressions of the Slavic and East European immigrant experience in the 20th century. Readings include Russian, Polish, Jewish, and Czech authors from early 1900s to present. Taught in English; some foreign language readings for qualified students.

Rules & Requirements
- Making Connections Gen Ed: LA, GL.
- Grading Status: Letter grade.
- Same as: JWST 469.

SLAV 470. 20th-Century Russian and Polish Theater. 3 Credits.
A comparative survey of the major trends in 20th-century Russian and Polish dramaturgy and theatrical production, with attention to aesthetic, professional, and political connections between the two. Taught in English; some foreign language readings for qualified students.

Rules & Requirements
- Making Connections Gen Ed: LA, BN.
- Grading Status: Letter grade.
SLAV 490. Topics in Slavic Culture. 3 Credits.
Comparative study of topics in non-Russian Slavic literatures and culture not covered in any other course. Specific topics will vary and will be announced in advance. Taught in English; some foreign language readings for qualified students.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

SLAV 580. East European Literary Criticism. 3 Credits.
Survey of 20th-century Slavic literary criticism. Russian formalists, Bakhtin and his circle, Czech structuralists, Soviet semiotics. Emphasis on influence of Slavic criticism on development of Western literary criticism.

Rules & Requirements
Grading Status: Letter grade.

Germanic and Slavic Languages and Literatures Major, B.A.—Central European Studies Concentration

Multiple tracks for undergraduate study are available for students interested in German programs (two concentrations), Slavic programs (two concentrations), and Central European studies (one concentration). A major in Germanic and Slavic languages and literatures provides preparatory training that will be useful in government employment; internationally oriented business, journalism, law, and teaching; as well as graduate study in a range of humanistic and social science disciplines.

Student Learning Outcomes
Students will acquire linguistic proficiency, cultural competence, and critical and analytical skills through the study of Germanic and Slavic languages and cultures in visual, textual, and oral forms. The curricula in Germanic and Slavic languages and literatures are broadly interdisciplinary and place the comparative study of languages, literatures, and cultures in dialogue with other germane fields of knowledge, such as philosophy, film and media studies, history, and music. Particular attention is paid to the development of student research interests that can bridge their acquired linguistic and cultural knowledge with their aspirations in other disciplines. Upon completion of the Germanic and Slavic Languages and Literatures program, students are able to:

- Speak effectively in the target language in a variety of social, academic, and professional settings, as well as use their native language for effective cross-cultural communication
- Write accurately in both the target language and English on a variety of topics relevant to the discipline
- Understand another culture’s practices as meaningful sites for the articulation of identities and the negotiation of values
- Connect the critical interpretation of aesthetic texts to broader fields of intellectual inquiry
- Gain knowledge of the cultural history of Germanic and Slavic lands and link its relevance to both American and global histories
- Utilize disciplinary methods and theories in order to produce original, innovative research

Requirements
In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

H: Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- Students may petition the director of undergraduate studies to include other courses with significant Central European content.
- Only one of the following courses may count toward the major: GSLL 691H, GLL 692H, or GLL 693H.
- At least four of the above courses (12 credit hours) must be taken at UNC-Chapel Hill to fulfill the requirements of the major. Majors who study abroad or wish to transfer credit from another institution may apply to transfer a maximum of four courses counting toward the major. Before their departure for a study abroad program, students should consult with the relevant director of undergraduate studies about appropriate courses taken abroad for the major.
- Students may not re-enroll in a language course for which they have received PL or BE credit.

Germanic and Slavic Languages and Literatures course descriptions (p. 566) include:

- Germanic and Slavic Languages and Literatures (GSLL)
- Dutch (DTCH)
- German (GERM)
- Czech (CZCH)
- Hungarian (HUN)
- Macedonian (MACD)
- Polish (PLSH)
- Russian (RUSS)
- Serbian and Croatian (SECR)
- Slavic (SLAV)

### Special Opportunities in Germanic and Slavic Languages and Literatures

#### Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider taking honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work...
should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSLL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSLL 692H (writing the honors thesis). When GSLL 693H is offered, the course replaces GSLL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

**Student Involvement and Cultural Enrichment beyond the Classroom**

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club, provide an atmosphere for effective learning and for enjoying German and Slavic culture. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listserve, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor, or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Russia, and Eastern or Central Europe. Every spring the department presents a Slavic and East European talent night, or Spektakl', featuring skits, songs, puppet shows, plays, and poetry readings in the Slavic and East European languages students are learning. The department also presents full-length plays and dramatic readings in German performed by undergraduate students.

**Study Abroad**

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students’ linguistic and cultural proficiency, particularly once they have acquired sufficient language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; the Freie University (FUBEX) in Berlin, and the University of Freiburg; at the Vienna (Austria) University of Economics and Business Administration; at the IES European Union and Environmental Programs in Freiburg (Germany); and at the IES Program (3 tracks) in Vienna. Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend the FUBiS or FU-BEST programs in Berlin or the IES program in Freiburg, or also the Baden-Württemberg exchange university of Mannheim which offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term typically begins in late August and ends in late July, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend SIT Netherlands’ Program “International Perspective on Sexuality and Gender.” Exchange programs also are offered in Nijmegen and Groningen and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study in semester or yearlong programs in Russia, including in Moscow, St. Petersburg, and Vladimir, while earning credit towards their Carolina degree. Students also may participate in the ACTR Moscow summer program in Russia. UNC–Chapel Hill offers semester-long programs in Prague, Czech Republic, Dobrovnik, Croatia, Budapest, Hungary, and Krakow, Poland (summer also offered). For more information about these and other programs in eastern and central Europe, go to studyabroad.unc.edu. Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

**Languages across the Curriculum**

The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, but associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for the course).

**Undergraduate Awards**

Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of German language coursework at the 300 level and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor’s Awards Ceremony each spring. Ria Stambaugh was a popular professor of German; after her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreceny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

**Undergraduate Research**

In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department faculty. Funding may be available through the Office of Undergraduate Research.

Additional Requirements
Students must establish credit for GERM 204 (or GERM 206) as a prerequisite for a German major concentration. Students who desire to pursue a major in a German concentration should have a grade of B or better in GERM 203 and GERM 204 (or in GERM 206).

Three German LAC credit hours may be used as a substitute for one three-hour course taught in German for the major. (See “Opportunities” above.)

Dutch language courses (DTCH 402, DTCH 403, and DTCH 404) may not count toward the German major. However, DTCH 396 and DTCH 405 may be counted toward the German major as courses taught in the target language (i.e., not in English).

At least four courses (12 credit hours) beyond GERM 206 must be taken at UNC–Chapel Hill to fulfill the requirements of the major. Majors who study abroad or wish to transfer credit from another institution may apply to transfer a maximum of four courses counting toward the major. Before their departure for a study abroad program, students should consult with the director of undergraduate studies about appropriate courses taken abroad for the major.

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students’ linguistic and cultural proficiency, particularly once they have acquired sufficient language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; the Freie University (FUBEX) in Berlin, and the University of Freiburg; at the Vienna (Austria) University of Economics and Business Administration; at the IES European Union and Environmental Programs in Freiburg (Germany); and at the IES Program (3 tracks) in Vienna. Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend the FUBiS or FUBEST programs in Berlin or the IES program in Freiburg, or also the Baden-Württemberg exchange university of Mannheim which offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term typically begins in late August and ends in late July, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend SIT Netherlands’ Program "International
Perspective on Sexuality and Gender.” Exchange programs also are offered in Nijmegen and Groningen and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study in semester or yearlong programs in Russia, including in Moscow, St. Petersburg, and Vladimir, while earning credit towards their Carolina degree. Students also may participate in the ACTR Moscow summer program in Russia. UNC—Chapel Hill offers semester-long programs in Prague, Czech Republic, Dobrovnik, Croatia, Budapest, Hungary, and Krakow, Poland (summer also offered). For more information about these and other programs in eastern and central Europe, go to studyabroad.unc.edu. Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Languages across the Curriculum
The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, but associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for the course).

Undergraduate Awards
Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of German language coursework at the 300 level and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor’s Awards Ceremony each spring. Ria Stambaugh was a popular professor of German; after her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreczeny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

Undergraduate Research
In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department faculty. Funding may be available through the Office of Undergraduate Research.

Germanic and Slavic Languages and Literatures Major, B.A.–German Media, Arts, and Culture Concentration

Multiple tracks for undergraduate study are available for students interested in German programs (two concentrations), Slavic programs (two concentrations), and Central European studies (one concentration). A major in Germanic and Slavic languages and literatures provides preparatory training that will be useful in government employment; internationally oriented business, journalism, law, and teaching; as well as graduate study in a range of humanistic and social science disciplines.

Student Learning Outcomes

Students will acquire linguistic proficiency, cultural competence, and critical and analytical skills through the study of Germanic and Slavic languages and cultures in visual, textual, and oral forms. The curricula in Germanic and Slavic languages and literatures are broadly

Student Learning Outcomes

Students will acquire linguistic proficiency, cultural competence, and critical and analytical skills through the study of Germanic and Slavic languages and cultures in visual, textual, and oral forms. The curricula in Germanic and Slavic languages and literatures are broadly
interdisciplinary and place the comparative study of languages, literatures, and cultures in dialogue with other germane fields of knowledge, such as philosophy, film and media studies, history, and music. Particular attention is paid to the development of student research interests that can bridge their acquired linguistic and cultural knowledge with their aspirations in other disciplines. Upon completion of the Germanic and Slavic Languages and Literatures program, students are able to:

• Speak effectively in the target language in a variety of social, academic, and professional settings, as well as use their native language for effective cross-cultural communication
• Write accurately in both the target language and English on a variety of topics relevant to the discipline
• Understand another culture’s practices as meaningful sites for the articulation of identities and the negotiation of values
• Connect the critical interpretation of aesthetic texts to broader fields of intellectual inquiry
• Gain knowledge of the cultural history of Germanic and Slavic lands and link its relevance to both American and global histories
• Utilize disciplinary methods and theories in order to produce original, innovative research

Requirements

In addition to the program requirements, students must

• earn a minimum final cumulative GPA of 2.000
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Students must establish credit for GERM 204 (or GERM 206) as a prerequisite for a German major concentration. Students who desire to pursue a major in a German concentration should have a grade of B or better in GERM 203 and GERM 204 (or in GERM 206).

Three German LAC credit hours may be used as a substitute for one three-hour course taught in German for the major. (See “Opportunities” above.)

Dutch language courses (DTCH 402, DTCH 403, and DTCH 404) may not count toward the German major. However, DTCH 396 and DTCH 405 may be counted toward the German major as courses taught in the target language (i.e., not in English).

At least four courses (12 credit hours) beyond GERM 206 must be taken at UNC–Chapel Hill to fulfill the requirements of the major. Majors who study abroad or wish to transfer credit from another institution may apply to transfer a maximum of four courses counting toward the major. Before their departure for a study abroad program, students should consult with the director of undergraduate studies about appropriate courses taken abroad for the major.

Special Opportunities in Germanic and Slavic Languages and Literatures

Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider taking honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSSL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSSL 692H (writing the honors thesis). When GSSL 693H is offered, the course replaces GSSL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

Student Involvement and Cultural Enrichment beyond the Classroom

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club, provide an atmosphere for effective learning and for enjoying German and Slavic culture. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listserve, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor; or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Russia, and Eastern or Central Europe. Every spring the department presents a Slavic and East European talent night, or Spektaktl, featuring skits, songs, puppet shows, plays, and poetry readings in the Slavic and East European languages students are learning. The department also presents full-length plays and dramatic readings in German performed by undergraduate students.

Study Abroad

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students’ linguistic and cultural proficiency, particularly once they have acquired sufficient
language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; the Freie University (FUBEX) in Berlin, and the University of Freiburg; at the Vienna (Austria) University of Economics and Business Administration; at the IES European Union and Environmental Programs in Freiburg (Germany); and at the IES Program (3 tracks) in Vienna. Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend the FUBIS or FU-BEST programs in Berlin or the IES program in Freiburg, or also the Baden-Württemburg exchange university of Mannheim which offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term typically begins in late August and ends in late July, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend SIT Netherlands’ Program “International Perspective on Sexuality and Gender.” Exchange programs also are offered in Nijmegen and Groningen and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study in semester or yearlong programs in Russia, including in Moscow, St. Petersburg, and Vladimir, while earning credit towards their Carolina degree. Students also may participate in the ACTR Moscow summer program in Russia. UNC-Chapel Hill offers semester-long programs in Prague, Czech Republic, Dobrovnik, Croatia, Budapest, Hungary, and Krakow, Poland (summer also offered). For more information about these and other programs in eastern and central Europe, go to studyabroad.unc.edu. Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Languages across the Curriculum
The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, but associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for the course).

Undergraduate Awards
Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of German language coursework at the 300 level and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor’s Awards Ceremony each spring. Ria Stambaugh was a popular professor of German; after her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

**Germanic and Slavic Languages and Literatures Major, B.A.–Slavic and East European Languages and Cultures Concentration**

Multiple tracks for undergraduate study are available for students interested in Germanic and Slavic languages and cultures provide preparatory training that will be useful in government employment; internationally oriented business, journalism, law, and teaching; as well as graduate study in a range of humanistic and social science disciplines.

**Student Learning Outcomes**

Students will acquire linguistic proficiency, cultural competence, and critical and analytical skills through the study of Germanic and Slavic languages and cultures in visual, textual, and oral forms. The curricula in Germanic and Slavic languages and cultures are broadly interdisciplinary and place the comparative study of languages, literatures, and cultures in dialogue with other germane fields of knowledge, such as philosophy, film and media studies, history, and music. Particular attention is paid to the development of student research interests that can bridge their acquired linguistic and cultural knowledge with their aspirations in other disciplines. Upon completion of the Germanic and Slavic Languages and Literatures program, students are able to:

- Speak effectively in the target language in a variety of social, academic, and professional settings, as well as use their native language for effective cross-cultural communication
- Write accurately in both the target language and English on a variety of topics relevant to the discipline
- Understand another culture’s practices as meaningful sites for the articulation of identities and the negotiation of values
- Connect the critical interpretation of aesthetic texts to broader fields of intellectual inquiry
- Gain knowledge of the cultural history of Germanic and Slavic lands and link its relevance to both American and global histories
- Utilize disciplinary methods and theories in order to produce original, innovative research

**Requirements**

In addition to the program requirements, students must:

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

</tbody>
</table>

**Total Hours 24**

1. GSLL courses numbered above 200 may count toward the major with the approval of the director of undergraduate studies.

Topics courses may be repeated for credit toward the major or minor.

Students interested in this concentration should have a grade of B or better in the intermediate-level course (203/204 or 403/404) in their first target language.

Students who receive placement credit (PL) or By-Examination credit (BE) for the courses in the first two core requirements above (the fifth-semester first-target-language requirement, as well as the two-course second-target-language requirement) must substitute this credit with coursework (three credit hours each to replace each course with PL or BE credit) to complete the requirements for the concentration. Students may not re-enroll in a course for which they have received PL or BE credit.

Only one of the following courses may count toward the major:

**Germanic and Slavic Languages and Literatures Honors Course Descriptions**

- Germanic and Slavic Languages and Literatures (GSLL)
- Bosnian-Croatian-Serbian (BCS)
- Czech (CZCH)
- Dutch (DTCH)
- German (GERM)
- Hungarian (HUNG)
- Macedonian (MACD)
- Polish (PLSH)
- Russian (RUSS)
- Slavic (SLAV)

**Special Opportunities in Germanic and Slavic Languages and Literatures**

**Honors in Germanic and Slavic Languages and Literatures**

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider taking honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSLL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSLL 692H (writing the honors thesis). When GSLL 693H is offered, the course replaces GSLL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

**Student Involvement and Cultural Enrichment beyond the Classroom**

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club, provide an atmosphere for effective learning and for enjoying German and Slavic culture. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listserve, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor, or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Russia, and Eastern or Central Europe.
Every spring the department presents a Slavic and East European talent night, or Spektakl, featuring skits, songs, puppet shows, plays, and poetry readings in the Slavic and East European languages students are learning. The department also presents full-length plays and dramatic readings in German performed by undergraduate students.

Study Abroad
The department encourages students to study and/or engage in internships abroad. These opportunities maximize students’ linguistic and cultural proficiency, particularly once they have acquired sufficient language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; the Freie University (FUBEX) in Berlin, and the University of Freiburg, at the Vienna (Austria) University of Economics and Business Administration; at the IES European Union and Environmental Programs in Freiburg (Germany); and at the IES Program (3 tracks) in Vienna. Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend the FUBIS or FU-BEST programs in Berlin or the IES program in Freiburg, or also the Baden-Württemburg exchange university of Mannheim which offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term typically begins in late August and ends in late July, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend SIT Netherlands’ Program “International Perspective on Sexuality and Gender.” Exchange programs also are offered in Nijmegen and Groningen and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study in semester or yearlong programs in Russia, including in Moscow, St. Petersburg, and Vladimir, while earning credit towards their Carolina degree. Students also may participate in the ACTR Moscow summer program in Russia. UNC–Chapel Hill offers semester-long programs in Prague, Czech Republic, Dobrovnik, Croatia, Budapest, Hungary, and Krakow, Poland (summer also offered). For more information about these and other programs in eastern and central Europe, go to studyabroad.unc.edu. Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Languages across the Curriculum
The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, but associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for the course).

Undergraduate Awards
Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of German language coursework at the 300 level and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor’s Awards Ceremony each spring. Ria Stambaugh was a popular professor of German; after her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreczeny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

Undergraduate Research
In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department faculty. Funding may be available through the Office of Undergraduate Research.

German Minor

The Department of Germanic and Slavic Languages and Literatures conducts research and offers instruction in the languages, literatures, and cultures of central, northern, and eastern Europe and northern Asia.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

One additional course (3 credit hours) beyond GERM 206: 3

Total Hours: 12

- GERM courses numbered above 399 may count toward the minor with the approval of the director of undergraduate studies, who will note whether the course is taught in English or in German.
- GSLL courses numbered above 200 may count toward the minor with the approval of the director of undergraduate studies.
- Three German LAC credit hours may be used as a substitute for one three-hour course taught in German for the minor. (See “Opportunities” above.)
- Dutch language courses (DTCH 402, DTCH 403, and DTCH 404) may not count toward the minor. However, DTCH 396 and DTCH 405 may be counted toward the minor as courses taught in the target language (i.e., not in English).
- Students must establish credit for GERM 204 (or GERM 206) as a prerequisite for a German minor.
- Students who desire to pursue a minor in German should have a grade of B or better in GERM 203 and GERM 204 (or in GERM 206).
- At least nine credit hours beyond GERM 206 must be taken at UNC–Chapel Hill to fulfill the requirements of the minor. Minors who study abroad or wish to transfer credit from another institution may apply to transfer one course counting toward the minor. Before their departure for a study abroad program, students should consult the relevant director of undergraduate studies about appropriate courses taken abroad for the minor.
- Students who receive placement credit (PL) or By-Examination credit (BE) for GERM 301 and/or GERM 302 must substitute this credit with coursework (three credit hours each to replace GERM 301 and/or GERM 302) to complete the requirements for the minor. The additional coursework must be numbered above GERM 303. Students may not re-enroll in a course for which they have received PL or BE credit.
- German (GERM) and Germanic and Slavic Languages and Literatures (GSLL) course descriptions (p. 566).

1 The first two semesters of any language may not be counted toward this minor (e.g., BCS 401/BCS 402, CZCH 401/CZCH 402, HUNG 401/HUNG 402, MACD 401/MACD 402, PLSH 401/PLSH 402, RUSS 101/RUSS 102).

- GSLL courses numbered above 200 may count toward the minor with the approval of the director of undergraduate studies.
- Students who receive placement credit (PL) or By-Examination credit (BE) for RUSS 203, RUSS 204, RUSS 409, or for the first five courses in BCS, CZCH, HUNG, or PLSH (401, 402, 403, 404, 405) must substitute this credit with coursework (three credit hours each to replace each course with PL or BE credit) to complete the requirements for the minor. Students may not re-enroll in a course for which they have received PL or BE credit.
- At least nine credit hours beyond the first two semesters of the language must be taken at UNC—Chapel Hill to fulfill the requirements of the minor. Students who study abroad or wish to transfer credit from another institution may apply to transfer one course counting toward the minor. Before their departure for a study abroad program, students should consult the director of undergraduate studies about appropriate courses taken abroad for the minor.
- Topics courses may be repeated for credit toward the major or minor.

Germanic and Slavic Languages and Literatures course descriptions (p. 566) include:

- Germanic and Slavic Languages and Literatures (GSLL)
- Bosnian-Croatian-Serbian (BCS)
- Czech (CZCH)
- Hungarian (HUNG)
- Macedonian (MACD)
- Polish (PLSH)
- Russian (RUSS)
- Slavic (SLAV)

Special Opportunities in Germanic and Slavic Languages and Literatures

Honors in Germanic and Slavic Languages and Literatures

Students majoring in Germanic and Slavic languages and literatures who are qualified for honors work are strongly encouraged to consider taking honors thesis during their senior year. Undertaking an honors project gives students the opportunity to explore a topic in depth under the direction of a faculty member. Students who wish to do honors work should confer with the director of undergraduate studies and choose an honors thesis advisor during the first or second semester of their junior year, and complete an honors thesis contract. Second-semester juniors or first-semester seniors will be enrolled in GSLL 691H (honors reading and special studies) for their first semester of honors thesis work, once the honors thesis contract is fully approved. For the second semester, once an updated contract is completed, students will be enrolled in GSLL 692H (writing the honors thesis). When GSLL 693H is offered, the course replaces GSLL 692H and provides an opportunity for students majoring in any of our concentrations to complete their thesis in the context of a small seminar with other honors students. One of these honors courses may count toward the major.

Student Involvement and Cultural Enrichment beyond the Classroom

Numerous social and educational events hosted by the department, as well as by student clubs such as the German Club, provide an atmosphere for effective learning and for enjoying German and Slavic culture. There are weekly opportunities in German, Russian, and other languages for informal conversation suitable for both beginning and advanced students. The department periodically sponsors lectures, roundtables, small conferences, and film series for the various languages. Those considering an undergraduate major or minor should request to be added to the appropriate e-mail listerv, in order to ensure they receive information regarding special events and opportunities.

The department also hosts receptions and informational meetings for students interested in pursuing a major or minor; or for those seeking opportunities for internships, study abroad, graduate study, and employment in Germany, Russia, and Eastern or Central Europe. Every spring the department presents a Slavic and East European talent night, or Spektakl’, featuring skits, songs, puppet shows, plays, and poetry readings in the Slavic and East European languages students are learning. The department also presents full-length plays and dramatic readings in German performed by undergraduate students.

Study Abroad

The department encourages students to study and/or engage in internships abroad. These opportunities maximize students’ linguistic and cultural proficiency, particularly once they have acquired sufficient language skills to benefit most from this immersion experience. Students may participate for a whole year, a single term, or a summer.

The Study Abroad Office offers German programs at all universities in the German state of Baden-Württemberg, as well as a dedicated exchange program with the Eberhard-Karls-Universität Tübingen; the Freie University (FUBEX) in Berlin, and the University of Freiburg; at the Vienna (Austria) University of Economics and Business Administration;
at the IES European Union and Environmental Programs in Freiburg (Germany); and at the IES Program (3 tracks) in Vienna. Most German programs require that participating students have passed GERM 204 (or its equivalent); however, students with no prior knowledge of German may attend the FUBIS or FU-BEST programs in Berlin or the IES program in Freiburg, or also the Baden-Württemberg exchange university of Mannheim which offers a number of courses in English. These programs generally include intensive language instruction in addition to content courses taught in English, and most programs offer an orientation course prior to the start of the semester. The yearlong term typically begins in late August and ends in late July, with a two-month vacation between semesters that many students use for travel. Students going abroad for only one term generally do so in the spring semester, which typically begins in late February and ends in late July.

The DAAD in conjunction with German universities usually offers some summer internships. Please see an undergraduate advisor in the department office about these opportunities.

Students who choose to study Dutch may study abroad in Amsterdam through the IES, or attend SIT Netherlands' Program "International Perspective on Sexuality and Gender." Exchange programs also are offered in Nijmegen and Groningen and the Erasmus University Rotterdam. Most courses are offered in English but students can study Dutch and even German. Students in economics and/or communication studies may take courses in English at the Erasmus University Rotterdam.

Students can study in semester or yearlong programs in Russia, including in Moscow, St. Petersbourg, and Vladimir, while earning credit towards their Carolina degree. Students also may participate in the ACTR Moscow summer program in Russia. UNC—Chapel Hill offers semester-long programs in Prague, Czech Republic, Dobrovnik, Croatia, Budapest, Hungary, and Krakow, Poland (summer also offered). For more information about these and other programs in eastern and central Europe, go to studyabroad.unc.edu. Majors and minors should consult with the director of undergraduate studies or the appropriate undergraduate advisor in advance of going abroad about courses they plan to take for the major or minor.

Languages across the Curriculum
The Languages across the Curriculum (LAC) Program encourages majors and minors to enroll in one-credit-hour recitation or discussion sections that are conducted in German or another of our languages, but associated with a variety of courses offered in English on a related subject. Each of these discussion and recitation sections counts as one German language credit (in addition to the credit granted for the course).

Undergraduate Awards
Membership in the Beta Rho chapter of Delta Phi Alpha, the German honors society, is available to majors and minors who have completed at least six credit hours of German language coursework at the 300 level and who have maintained high cumulative grade point averages and high grade point averages in the major.

The department selects annually one outstanding graduating senior majoring in German to receive the Undergraduate Ria Stambaugh Award for Excellence in German, a monetary award that is presented at the Chancellor's Awards Ceremony each spring. Ria Stambaugh was a popular professor of German; after her death in 1984 her sister, friends, and colleagues contributed to a memorial fund to establish the Ria Stambaugh Awards. The undergraduate award was first presented in 1987.

Established in 1999, the Paul Debreceny Prize is awarded each spring to a graduating senior whose work in Slavic languages and literatures has been judged outstanding. This monetary prize honors one of the founding faculty members of the program in Slavic languages and literatures.

Undergraduate Research
In addition to honors thesis work, students are encouraged to work on course-complementary or independent research projects with department faculty. Funding may be available through the Office of Undergraduate Research.

Curriculum in Global Studies

Introduction
Globalization of the economy, cross-cultural relations, international media, ecological crises, and political transformations are all making global studies more important today. The Curriculum in Global Studies offers an interdisciplinary program of study focusing on these and many other issues. It draws on courses throughout the social sciences, humanities, and professional schools and offers students the chance to concentrate on an area of the world and a theme of global significance.

Students prepare for careers in business, diplomacy, international aid, economic development, and other forms of public service. The global studies major is also excellent preparation for graduate school in one of the social sciences, in professions such as law, business, and journalism, or in international affairs and area studies.

Facebook: facebook.com/UNCGlobalStudies (http://facebook.com/UNCGlobalStudies/)
Twitter: twitter.com/UNC_GlobalCurr (http://twitter.com/UNC_GlobalCurr/)

Advising
All majors have a primary academic advisor in the Academic Advising Program (https://advising.unc.edu/). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The curriculum’s director of undergraduate studies works to meet regularly with their advisor and review their Tar Heel Tracker to discuss major requirements, how study abroad credits transfer into the major, and other issues of relevance to global studies. Further information on courses, the honors program, internships, and more are available on the curriculum’s website (http://globalstudies.unc.edu/).

Graduate School and Career Opportunities
Global studies majors are prepared for a wide variety of careers in business, education, diplomacy, international aid and economic development, and other forms of public service. The major is also excellent preparation for graduate school in one of the social sciences; in professions such as law, business, or journalism; or in international affairs and area studies. Career resources can be found through University Career Services (https://careers.unc.edu/) and on the curriculum’s website (http://globalstudies.unc.edu/).

Major
- Global Studies Major, B.A. (p. 615)

Graduate Programs
- Global Studies M.A. (http://catalog.unc.edu/graduate/schools-departments/global-studies/#programtext)

Professors
Renée Alexander Craft (Communication), Mark Driscoll (Asian Studies), Banu Gökariksel (Geography), Liesbet Hooghe (Political Science), Arne Kalleberg (Sociology), Georges Nzongola-Ntalaja (African, African American, and Diaspora Studies), Elizabeth Olson (Geography), John Pickles (Geography), Graeme Robertson (Political Science), Milada A. Vachudova (Political Science).

Associate Professors
Inger Brodey (English and Comparative Literature), Chad Bryant (History), Nina Martin (Geography), Townsend Middleton (Anthropology), Michael Morgan (History), Christopher Nelson (Anthropology), Eunice Sahle (African, African American, and Diaspora Studies), Brigitte Seim (Public Policy), Mark Sorensen (Anthropology), Angela Stuesse (Anthropology), Meenu Tewari (City and Regional Planning), Michael Tsin (History).

Assistant Professor
Lucy Martin (Political Science).

Adjunct Assistant Professors
Hannah Gill (Institute for the Study of the Americas), Niklaus Steiner (Political Science).

Teaching Professors
Erica Johnson (Global Studies), Michal Osterweil (Global Studies), Jonathan Weiler (Global Studies).

Teaching Assistant Professor
Carmen Huerta-Bapat (Global Studies).

GLBL—Global Studies

Undergraduate-level Courses
- GLBL 87H. First Year Seminar: The Migratory Experience. 3 Credits. The seminar will critically analyze the migrant experience in both North America and Europe. Migration is a calculated decision that individuals, families, and groups make in an effort to improve their living conditions. We will adopt an interdisciplinary approach to understanding the motivation of migrants, the nature of the migrant journey to their destination states, and their integration into their new societies.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: BN, GL.
- Grading Status: Letter grade.
- GLBL 88. First-Year Seminar: Beg, Borrow, and Steal: The Political Economy of Aid, FDI, and Corruption. 3 Credits. This seminar examines how politics and economics condition different countries’ path towards and experience with foreign aid, foreign investment, and corruption. In doing so, the course will examine the effect of political conditions on economic outcomes and the effect of economic conditions on political outcomes.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: SS, GL.
- Grading Status: Letter grade.
GLBL 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

GLBL 110. Global Policy Issues. 3 Credits.
Global issues are challenges whose sources, impacts, and solutions extend beyond the borders of any one country. This course introduces students to some of the most pressing issues facing populations around the globe and to possible policy responses. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-KNOWING.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PLCY 110, PWAD 110.

GLBL 181. Teaching Great Decisions I. 1 Credits.
Permission of the department. This course gives credit to the Great Decisions coordinating committee for organizing the eight lectures in GLBL 381.

Rules & Requirements
Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.
Grading Status: Pass/Fail.

GLBL 193. Global Studies Internship. 1 Credits.
Internship in a sponsoring organization whose work or mission is meaningfully connected to a global studies topic.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.
Grading Status: Pass/Fail.

GLBL 196. Independent Study. 1-12 Credits.
Permission of the instructor. Reading and research on special topics in global studies.

Rules & Requirements
Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading Status: Letter grade.

GLBL 210. Global Issues and Globalization. 3 Credits.
Survey of international social, political, and cultural patterns in selected societies of Africa, Asia, America, and Europe, stressing comparative analysis of conflicts and change in different historical contexts. LAC recitation sections offered in French, German, and Spanish.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: GL.
Grading Status: Letter grade.
Same as: ANTH 210, GEOG 210, HIST 210, POLI 210.

GLBL 221. The Migratory Experience. 3 Credits.
The course will critically analyze the migrant experience in both North America and Europe. Migration is a calculated decision that individuals, families, and groups make in an effort to improve their living conditions. We will adopt an interdisciplinary approach to understanding the motivation of migrants, the nature of the migrant journey to their destination states, and their integration into their new societies.

Rules & Requirements
IDEAs in Action Gen Ed: FY-Launching (only designated sections), FC-GLOBAL.
Making Connections Gen Ed: BN, GL.
Grading Status: Letter grade.

GLBL 281. Phillips Ambassadors Program. 3 Credits.
This academic course is mandatory for Phillips Ambassadors. Course open only to Phillips Ambassadors.

Rules & Requirements
Making Connections Gen Ed: BN.
Grading Status: Letter grade.

GLBL 282. Global Gap Year Seminar. 3 Credits.
This course is mandatory for Global Gap Year Fellows and is only open to Global Gap Year Fellows.

Rules & Requirements
Grading Status: Letter grade.

GLBL 290. Current Topics in Global Studies. 0.5-21 Credits.
An interdisciplinary approach to the study of the background, current status, and future prospects for one of a series of global issues such as the nuclear age, the environment, technological transition.

Rules & Requirements
Grading Status: Letter grade.

GLBL 381. Great Decisions. 1 Credits.
Eight evening guest lectures, with a discussion session after each, on eight issues in current foreign policy. May be repeated for credit. Students may not receive credit for both GLBL 381 and POLI 381.

Rules & Requirements
Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.
Grading Status: Pass/Fail.

GLBL 382. Latin American Migrant Perspectives: Ethnography and Action. 3 Credits.
This class combines fieldwork, oral history, and service learning in a course that examines concepts of globalization, migration, and transnationalism, and their intersections with anthropological theory and practice.

Rules & Requirements
Grading Status: Letter grade.
Requisites:

Making Connections Gen Ed: FC-GLOBAL or FC-POWER.

Rules & Requirements

IDEAs in Action Gen Ed: HS, GL.

Grading Status: Letter grade.

GLBL 380. Current Topics in Global Studies. 3 Credits.

Topics vary from semester to semester.

Rules & Requirements

Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

Grading Status: Letter grade.

GLBL 384. Teaching Great Decisions II. 2 Credits.

This course links the Great Decisions lecture series with readings and analyses of international relations. Its purpose is to provide the students on the Great Decisions coordinating committee with a practical and intellectual engagement with United States foreign policy and global issues.

Rules & Requirements

Requisites: Pre- or corequisite, GLBL 381.

Repeat Rules: May be repeated for credit. 6 total credits. 3 total completions.

Grading Status: Pass/Fail.

Advanced Undergraduate and Graduate-level Courses

GLBL 401. Right Wing Populism in Global Perspective. 3 Credits.

This course will examine right wing populism globally. We will consider why right wing populism has gained traction in such diverse places as India, Brazil, Germany, France, Hungary, Britain, and the United States. We will ask what role such factors as religion, ethnicity, economics, and gender play in its rise. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.

Making Connections Gen Ed: GL.

Grading Status: Letter grade.

GLBL 413. Socialist and Decolonial Ecologies. 3 Credits.

This course will focus on the relation of capitalism and anthropogenic climate change and feature Marxist and Indigenous critiques of capitalism's responsibility for climate change. We will feature an interdisciplinary lens - philosophy, feminist geography, cultural anthropology, socialist economics - that will analyze how the anthropocentric subject of the Enlightenment separated itself from its natural environment.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.

Making Connections Gen Ed: BN.

Requisites: Prerequisite, GLBL 210.

Grading Status: Letter grade.

GLBL 415. Dealing with Difference: Criminal Justice, Race, and Social Movements in Globalization. 3 Credits.

Recommended preparation, GLBL 210. This course is dedicated to understanding how sameness and difference are used and contested globally, in particular through the criminal justice system and its intersection with race and capitalism. The course pays particular attention to popular social movement responses, and what they say to theories of difference, globalization, and social change.

Rules & Requirements

Making Connections Gen Ed: GL, US.

Grading Status: Letter grade.

GLBL 450. Social Change in Times of Crisis: Knowledge, Action, and Ontology. 3 Credits.

Examines dominant, alternative, and emergent narratives of change and the future from around the world. Takes as a premise that we live in a period of multidimensional crises characterized by uncertainty and conflict about how to pursue sustainable economic, ecological, political, social, and cultural projects. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.

Making Connections Gen Ed: GL, US.

Grading Status: Letter grade.

GLBL 481. NGO Politics. 3 Credits.

This course will investigate how nongovernmental organizations emerge, how they structure their organizations, how they function, and how they influence public policy. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.

Grading Status: Letter grade.

GLBL 482. Soviet and Post-Soviet Politics and Institutions. 3 Credits.

This course is an introduction to the history and contemporary politics of the post-Soviet region and explores topics of religious, ethnic, and identity politics; international influences; and civil society and social movements. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.

Grading Status: Letter grade.

GLBL 483. Comparative Health Systems. 3 Credits.

This course provides students with an understanding of the origins and comparative performance of a range of international healthcare systems. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.

Grading Status: Letter grade.

GLBL 484. History and Politics of Central Asia. 3 Credits.

This course is an introduction of the history, politics, and societies of Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan. The class explores the foundations and conditions of change in the modern history of these societies and investigates how these issues influence contemporary politics.

Rules & Requirements

Grading Status: Letter grade.
GLBL 485. Comparative Development. 3 Credits.
This course is an APPLES service-learning course whose goal is to integrate real-world experience working with development-oriented organizations, theoretical discussions about the origins and evolution of development thinking, and exposure to the challenges facing practitioners of development, in some of its many substantive and geographical contexts.

Rules & Requirements
- IDEAs in Action Gen Ed: HI-SERVICE.
- Grading Status: Letter grade.

GLBL 486. Sports and Globalization. 3 Credits.
This course explores some of the relationships between sports and globalization and will delve into sports as an important social and cultural practice within larger social, cultural, and political forces shaping studies of globalization. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL.
- Grading Status: Letter grade.

GLBL 487. Social Movements: Rethinking Globalization. 3 Credits.
This course explores the history, objectives, and manifestations of global social movements. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
- Making Connections Gen Ed: GL, US.
- Grading Status: Letter grade.

GLBL 489. Paradigms of Development and Social Change. 3 Credits.
By deliberately juxtaposing questions of global development with an investigation of approaches in community organizing locally—both through course material and service-learning assignments—the course encourages students to develop a more critical understanding of the relationship between development projects and emancipatory frameworks. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-POWER, HI-SERVICE.
- Grading Status: Letter grade.

GLBL 490. Current Topics. 3 Credits.
Current topics in international and area studies. Topics vary by semester.

Rules & Requirements
- Grading Status: Letter grade.

GLBL 491H. Major Controversies in Human Rights. 3 Credits.
A forum for exploring conceptual and practical problems related to the emergence of a global human rights regime after World War II. The course analyzes relevant arguments, and students will consider whether it is possible to construct a coherent, workable, universally accepted system for articulating and enforcing human rights norms.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-POWER, HI-SERVICE.
- Grading Status: Letter grade.

GLBL 492. Global Food Films. 3 Credits.
Thinking about one of our most basic human needs illuminates aspects of our own everyday lives, such as our relationship to nature, other cultures, and to history, as well as our general assumptions about humanity. Students will study films that explore cross-cultural differences in the social and philosophical understandings of what it is to be human. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: RESEARCH.
- Grading Status: Letter grade.

Global Studies Major, B.A.
The Curriculum in Global Studies offers an interdisciplinary undergraduate major that draws on courses from the social sciences, humanities, and professional schools. It provides students the chance to explore issues of global significance, their application in specific
geographic areas, and the differing impact of these global dynamics across world regions, through engagement with crucial issues of the movement of money, people, and ideas on a global scale.

**Student Learning Outcomes**

Upon completion of the global studies program, students should be able to:

- Demonstrate facility with a range of approaches to knowledge typically found in global studies
- Discuss current academic perspectives on central global and transcultural issues
- Discuss major themes and movements in area studies and link them to a broader global perspective
- Construct logical and coherent arguments to support their analysis of global and transcultural issues from a diversity of perspectives (e.g. international politics, global economics, transnational culture, global health and environment)

**Requirements**

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Four courses from one of the following thematic areas ^1^ 12

Three courses from one of the following world areas ^1^ 9

**Additional Requirements**

Credit for six levels of modern language study. ^2^ 9-10

Total Hours 39-40

^1^ Of the seven courses in the thematic and world area concentrations, five must be numbered 200 and above.

^2^ Students may choose six levels of one language or four levels of one language and two of another. The primary language must be relevant to the declared world area concentration. The curriculum urges students to continue the study of a foreign language to a level as close as possible to fluency. The first three levels of a foreign language can count toward the General Education requirement and have not been included as additional hours for the major.

^H^ Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

^F^ FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

### Additional Information

The curriculum urges that in addition to fulfilling requirements, students continue the study of a foreign language to a level as close as possible to fluency. All majors should also make every effort to include a study abroad program in their undergraduate education, preferably in their sophomore or junior year.

Students must complete all General Education requirements. No courses fulfilling major requirements may be taken Pass/Fail.

### Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC-Chapel Hill in the fall term. Some courses may not be offered every term.
Special Opportunities in Global Studies

Honors in Global Studies

Honors study involves the completion of a substantial piece of original research and the formal presentation of the results in an honors thesis and oral defense. Those who successfully complete the program are awarded their B.A. degree with either honors or highest honors in global studies. Students who wish to submit a thesis for honors in global studies must have at least a 3.3 cumulative grade point average and, under normal circumstances, a 3.5 grade point average in the major and must enroll in GLBL 691H and GLBL 692H. GLBL 692H may count toward the major as a theme or area studies course with departmental approval. GLBL 691H will count as elective credit only. Each prospective honors student must submit a two- to three-page prospectus outlining his/her project in the spring of their junior year. Students accepted into the global studies honors program will enroll in GLBL 691H in the fall of their senior year and GLBL 692H in the spring of their senior year.

Joint Degree Program

UNC–Chapel Hill provides an innovative joint undergraduate degree program with the National University of Singapore (http://www.nus.edu.sg/). Approved programs are offered in biology, economics, English, geography, history, and political science. A program proposal for global studies is in development and if approved, will be available to students. This dynamic opportunity affords students the opportunity to take advantage of the complementary and differing strengths of faculty, programs, and environment at both world class universities.

For further information contact the Study Abroad Office (https://studyabroad.unc.edu/apply-program/joint-degree/) or the director of undergraduate studies for global studies, Dr. Jonathan Weiler (jweiler@email.unc.edu).

Study Abroad (recommended, but optional)

Global studies majors are encouraged to gain experiential knowledge of the countries and thematic concerns they are studying through participation in an approved study abroad program appropriate to their areas of concentration. Every effort will be made by the curriculum to integrate study abroad courses into the major. Students must receive course approval from the director of undergraduate studies prior to departure for a program abroad. No credit will be given unless programs are preapproved.

Undergraduate Awards

All majors in the Curriculum in Global Studies who study abroad are considered for two study abroad awards that are presented each year. These funds may be used to defray any expenses associated with studying abroad.

The Michael L. and Matthew L. Boyatt Award Fund provides several meritous awards each year of no more than $2,500 each. They are designated for majors who want to participate in a study abroad program pertinent to their area of concentration within global studies.

The Laura Hudson Richards Fund provides one award of $2,500 each year to a major in the Curriculum in Global Studies who demonstrates both academic excellence and financial need.

In addition, each spring the curriculum awards the Douglas Eyre Prize to the student writing the best honors thesis. The curriculum also selects an annual recipient of the Anne Scaff Award for service to the curriculum and for internationalizing the College. Students chosen to receive the Eyre Prize and Scaff Award are recognized at the curriculum’s spring commencement ceremony.

Department of Health Policy and Management

Introduction

Health policy and management is a multidisciplinary field within public health that works to promote healthcare equity, quality, and accessibility for individuals and populations. The mission of the B.S.P.H. program in health policy and management is to improve the health of individuals and communities and reduce health inequities in the United States and around the world by educating future health leaders, managers, policymakers, practitioners, and researchers.

Advising and Mentoring

All students receive support from a designated academic coordinator, an assigned faculty mentor, and a full-time career services coordinator in the department.

Graduate School and Career Opportunities

Graduates of the B.S.P.H. program in health policy and management are very successful upon graduation. Nearly all are placed within a few months of graduation, with approximately 80 percent entering the workforce and about 20 percent going directly to graduate or professional school. Top employers include consulting firms, hospitals, and health systems, private non-profit organizations, private research organizations, and health information technology companies. Within 2–5 years of graduation, most of our graduates have pursued an additional degree, with the majority pursuing a medical degree or graduate degree in public health. Over 90 percent of recent graduates report doing work they consider public health and/or health-related.

Major

- Health Policy and Management Major, B.S.P.H. (p. 628)

Professors

Ethan Basch, George Mark Holmes, Sheila Leaheimer, Jessica Lee, Benjamin Meier, Jonathan Oberlander, George Pink, Kristin Reiter, Rebecca Slifkin, Sally C. Stearns, Justin Trogdon, Morris Weinberger, Stephanie Wheeler.

Associate Professors

Assistant Professors

Leah Frerichs, Susan Helm-Murtagh, Arrianna Planey, Jeffrey Simms, Lisa Spees, Angela Stover, Melanie Studer, Sean Sylvia, J. Bennett Waters, Ciara Zachary.

Professors of the Practice

Sandra Greene, Pam Silberman, John Wiesman.

Adjunct Instructor

Franklin Farmer.

Professors Emeriti

HPM–Health Policy and Management

Undergraduate-level

HPM 310. Introduction to Law and Ethics in Health Management. 3 Credits.

An introduction to health law and ethics for health administration undergraduate seniors.

Rules & Requirements

Requisites: Prerequisite, HPM 350.
Grading Status: Letter grade.

HPM 320. Introduction to Strategic Planning and Marketing in Health Care. 3 Credits.

An introduction to the development and implementation of strategic planning and marketing processes in health care organizations.

Rules & Requirements

Grading Status: Letter grade.

HPM 330. Introduction to Health Organization Leadership, Management, and Behavior. 3 Credits.

Students develop skills in leadership and management and apply these skills to public health and health care cases and a team-based community project.

Rules & Requirements

Grading Status: Letter grade.

HPM 340. Foundations of Health Care Financial Management. 3 Credits.

Basic methods and techniques in financial management of health care programs, including financial statement analysis, cost determination and allocation, pricing of services, and budgeting.

Rules & Requirements

Grading Status: Letter grade.

HPM 341. Information Systems, Technology, and Tools in Health Care. 3 Credits.

This course examines information systems and technology in health care. Students also learn how to use MS Excel and MS Access.

Rules & Requirements

Grading Status: Letter grade.
HPM 350. Introduction to the U.S. Health System I. 3 Credits.
HPM 350 and 352 provide an overview of the United States health system. HPM 350 examines the performance, organization, management, and financing of the U.S. health system and the resources required to provide health services.

Rules & Requirements
Making Connections Gen Ed: US.
Grading Status: Letter grade.

HPM 351. Politics, Public Health, and Health Policy. 3 Credits.
This course explores the politics of public health and health care policy in the United States, with a focus on current issues and controversies.

Rules & Requirements
Grading Status: Letter grade.

HPM 352. Introduction to the U.S. Health System II. 3 Credits.
HPM 352, in conjunction with HPM 350, provides an overview of the United States health system. HPM 352 examines the delivery of health services and approaches to strengthening the performance of the U.S. health system.

Rules & Requirements
Requisites: Prerequisite, HPM 350.
Grading Status: Letter grade.

HPM 393. Field Training in Health Policy and Management. 2 Credits.
Restricted to HPM B.S.P.H. students. Required of all B.S.P.H. students in HPM. The first six weeks of a supervised 12-week administrative internship in a health care organization.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 4 total credits. 2 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level

HPM 420. Community and Public Health Security: Disasters, Terrorism, and Emergency Management. 3 Credits.
This course examines systems for emergency management at federal, state, and local levels. The roles of emergency management, health services, and public health in disaster management are also reviewed. Every other week, evening online sessions required with instructors.

Rules & Requirements
Grading Status: Letter grade.

HPM 422. Emergency Management I: Analytic Methods. 3 Credits.
Introduction of analytical tools to assess, evaluate, map, and investigate disasters (including biological outbreaks). These tools will be used to improve planning and evaluation of disaster management programs. Every other week, evening online sessions required with instructors.

Rules & Requirements
Grading Status: Letter grade.

HPM 423. Emergency Management II: Disaster Management. 3 Credits.
Explores issues of preparedness, response, recovery, mitigation, and research in disaster management. Students will participate in evacuation decision making, volunteer management, and the development of a disaster exercise. Every other week, evening online sessions required with instructors.

Rules & Requirements
Grading Status: Letter grade.

HPM 435. Marketing for Not-for-Profit Organizations. 3 Credits.
Permission of the instructor. Application of basic principles of marketing and marketing decision models to problems in health care and other not-for-profit organizations.

Rules & Requirements
Grading Status: Letter grade.

HPM 472. Program Evaluation. 3 Credits.
Concepts and methods of the program evaluation paradigm as applied in health administration.

Rules & Requirements
Grading Status: Letter grade.

HPM 496. Readings in Health Policy and Management. 0.5-3 Credits.
Directed readings or research. Written reports are required.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

HPM 550. Environmental and Science Journalism. 3 Credits.
Prepare students to work as environmental and science journalists. The course emphasizes writing skills in all delivery formats and interpreting environmental, science, and medical information for consumers. Honors version available.

Rules & Requirements
Grading Status: Letter grade.
Same as: MEJO 560, HBEH 660.

HPM 560. Media and Health Policy. 3 Credits.
Introduces students to news media organizations and their role in health policy development. Students will learn how to evaluate media content and strategies and to effectively communicate via mass media.

Rules & Requirements
Grading Status: Letter grade.

HPM 563. Advanced Health Policy Analysis. 3 Credits.
The course is for master's and doctoral students interested in health policy. The course is intended to go beyond an introduction to policy analysis to a discussion and exploration of theories of policy analysis in a context of competing democratic ethics and values.

Rules & Requirements
Grading Status: Letter grade.
HPM 565. **Global Health Policy. 3 Credits.**
Coursework will focus on public policy approaches to global health, employing interdisciplinary methodologies to understand selected public health policies, programs, and interventions. For students who have a basic understanding of public health.

**Rules & Requirements**
- **Making Connections Gen Ed:** GL.
- **Grading Status:** Letter grade.
- **Same as:** PLCY 565.

HPM 571. **Health and Human Rights. 3 Credits.**
Course focuses on rights-based approaches to health, applying a human rights perspective to selected public health policies, programs, and interventions. Students will apply a formalistic human rights framework to critical public health issues, exploring human rights as both a safeguard against harm and a catalyst for health promotion.

**Rules & Requirements**
- **Making Connections Gen Ed:** PH, GL.
- **Grading Status:** Letter grade.
- **Same as:** PLCY 570.

HPM 600. **Introduction to Health Policy and Management. 3 Credits.**
This course provides an overview of the United States health care system. Students will explore the system's organization, financing, management, resources, and performance. For each topic, they will analyze relevant legislation and discuss current issues. Students will develop skills in policy research and analysis, health care system evaluation, and basic financial literacy.

**Rules & Requirements**
- **Grading Status:** Letter grade.
- **HPM 601. Issues in Health Care. 1 Credits.**
  Lectures on current topics in health care.
- **Rules & Requirements**
  - **Grading Status:** Letter grade.
- **HPM 602. Concurrent Practice. 1-3 Credits.**
  Permission of the program director. Supervised activities in an approved health organization, to include one or more specific projects, approved by HPM faculty member and directed by an approved preceptor/mentor in the organization.
- **Rules & Requirements**
  - **Grading Status:** Letter grade.
- **HPM 605. Practice Application Journaling I. 0.5 Credits.**
  This course is the first of six field-based Journal Practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.
  - **Rules & Requirements**
    - **Repeat Rules:** May be repeated for credit. 1 total credits. 2 total completions.
    - **Grading Status:** Letter grade.

HPM 606. **Practice Application Journaling II. 0.5 Credits.**
This course is the second of six field-based journal practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.

**Rules & Requirements**
- **Repeat Rules:** May be repeated for credit. 1 total credits. 2 total completions.
- **Grading Status:** Letter grade.

- **HPM 607. Practice Application Journaling III. 0.5 Credits.**
  This course is the third of six field-based journal practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.
  - **Rules & Requirements**
    - **Repeat Rules:** May be repeated for credit. 1 total credits. 2 total completions.
    - **Grading Status:** Letter grade.

- **HPM 608. Practice Application Journaling IV. 0.5 Credits.**
  This course is the fourth of six field-based journal practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.
  - **Rules & Requirements**
    - **Repeat Rules:** May be repeated for credit. 1 total credits. 2 total completions.
    - **Grading Status:** Letter grade.

- **HPM 609. Practice Application Journaling V. 0.5 Credits.**
  This course is the fifth of six field-based journal practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.
  - **Rules & Requirements**
    - **Repeat Rules:** May be repeated for credit. 1 total credits. 2 total completions.
    - **Grading Status:** Letter grade.

- **HPM 610. Practice Application Journaling VI. 0.5 Credits.**
  This course is the sixth and final of six field-based journal practica in which students monitor their learning processes, identify where knowledge and skills learned in courses are helpful and relevant to areas of their professional responsibility, and apply that knowledge and those skills to actual work situations.
  - **Rules & Requirements**
    - **Repeat Rules:** May be repeated for credit. 1 total credits. 2 total completions.
    - **Grading Status:** Letter grade.
HPM 611. Public Health Concepts in a Systems Context. 3 Credits.
This course develops systems reasoning in health policy and management students through the application of systems techniques and systems thinking to core public health concepts in health policy and management, environmental health, epidemiology, and health behavior and health education.

Rules & Requirements
Grading Status: Letter grade.

HPM 620. Implementing Health Informatics Initiatives. 3 Credits.
Focuses on implementing informatics programs and projects in health organizations. Informatics initiatives aim to facilitate effective information use for the purpose of improving the quality of health services and/or efficiency of processes. Therefore, these initiatives have implications for various stakeholder groups, including consumers, practitioners, administrators, and policy makers.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

HPM 630. IHI Course in Healthcare Quality Improvement. 1.5 Credits.
The IHI Certificate demonstrates an investment in further education and a strong knowledge base in quality improvement. Upon completion of this course, students will have met the requirements for the IHI Open School Certificate and participated in two in-person sessions.

Rules & Requirements
Grading Status: Letter grade.

HPM 634. Public Health Issues in Community Preparedness and Disaster Management. 3 Credits.
Examines conventional public health constructs of community preparedness and disaster management. Includes a review of traditional and emerging literature. Emphasizes conceptual development and application of adaptive leadership strategies.

Rules & Requirements
Grading Status: Letter grade.
Same as: PWAD 634.

HPM 640. LEAN/Six Sigma I for Health Policy and Management. 1 Credit.
This course is an introduction to Lean Six-Sigma. Students will be exposed to continuous quality improvement (CQI) methods based on Toyota Production System (TPS or Lean) and Six-Sigma philosophy, methods, and tools.

Rules & Requirements
Grading Status: Letter grade.

HPM 641. LEAN/Six Sigma II for Health Policy and Management. 1 Credit.
This project-based course explores the phases of Six-Sigma approach to continuous quality improvement: define, measure, analyze, improve, and control (DMAIC). The overall objective of this course is to help students understand the challenges and pitfalls involved in completing a DMAIC project to drive change at organizational, unit, and individual levels.

Rules & Requirements
Requisites: Prerequisite, HPM 640.
Grading Status: Letter grade.

HPM 660. International and Comparative Health Systems. 3 Credits.
Methods of comparing health systems, examinations of related national health systems, and analysis of related high prevalence health issues.

Rules & Requirements
Grading Status: Letter grade.

HPM 664. Globalization and Health. 3 Credits.
Globalization--its economic, environmental, political, technological, institutional, and sociocultural dimensions--historically and currently contributes to beneficial and adverse effects on population, community, and family and individual health.

Rules & Requirements
Grading Status: Letter grade.
Same as: MHCH 664.

HPM 671. Statistical Methods for Health Policy and Management. 3 Credits.
Introduction to statistical analysis for healthcare settings using an Excel framework. Topics include variable types, sampling, probability distributions, descriptive statistics, hypothesis testing, categorical data analysis, ANOVA, and introduction to regression methods. Previously offered as HPM 470.

Rules & Requirements
Grading Status: Letter grade.

HPM 690. Special Topics in Health Policy and Management. 0.5-3 Credits.
Special topics course for health policy and management undergraduate students.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 3 total credits. 2 total completions.
Grading Status: Letter grade.

HPM 691H. Honors Research I. 3 Credits.
Students design a research project, known as the Honors Thesis. Students write a research proposal and complete an IRB application toward partial completion of the thesis. Requires a UNC-approved cumulative GPA by the end of the junior year and permission of the instructor.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

HPM 692H. Honors Research II. 3 Credits.
Students complete, write up and present the Honors Thesis research project that they designed in HPM 691H. Requires having maintained the UNC-approved cumulative GPA by the end of the senior fall semester and permission of the instructor.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisite, HPM 691H.
Grading Status: Letter grade.
Health Policy and Management Major, B.S.P.H.

Health policy and management is a multidisciplinary field within public health that works to promote healthcare equity, quality, and accessibility for individuals and populations. The mission of the B.S.P.H. program in health policy and management is to improve the health of individuals and communities and reduce health inequities in the United States and around the world by educating future health leaders, managers, policymakers, practitioners, and researchers.

The curriculum includes a combination of core public health courses, required courses in health policy and management, an 8-week internship completed the summer between junior and senior year, elective courses (including senior honors thesis and graduate-level options), and a year-long capstone experience. The curriculum emphasizes collaboration and application, with students working on multiple semester and year-long team projects, some with community partners.

Students go through the program in a cohort of about 40–45 students, creating a strong sense of community. The program also offers a supportive learning environment. Each student is matched with a faculty mentor and supported by an academic coordinator and dedicated career services coordinator within the department.

Graduates of the program are very successful. Most graduates enter the workforce immediately after graduation, with top employers including consulting firms, hospitals and health systems, private research organizations, health insurance companies, health information technology companies, government agencies, non-profit organizations and more. Within 2–5 years, the majority of graduates go on to pursue a graduate or professional degree, with the most common being a graduate degree in public health or medical degree.

Admission (https://catalog.unc.edu/undergraduate/programs-study/health-policy-management-major-bsph/#admissionstext) to the program is required.

Student Learning Outcomes

Upon completion of the B.S.P.H. program in health policy and management, students should be able to demonstrate the following competencies:

Knowledge of the U.S. Health System

- Examine the organization, financing, management, and performance of the U.S. health system
- Discuss the politics of public health and health policy in the U.S.
- Discuss health-related legal and ethical issues and their impact on the U.S. health system

Analytical and Management Skills

- Manage and analyze data using appropriate methods and tools
- Formulate strategic alternatives for achieving an organization’s goals and objectives
- Apply basic methods and techniques in financial management
- Discuss approaches to effectively lead and manage people, projects, and organizations

Foundational and Cross-Cutting Skills

- Describe health inequities, identify their root causes at multiple levels of the social ecological framework, and discuss approaches to advancing health equity
- Locate, use, evaluate, and synthesize public health information
- Communicate public health information, in both oral and written forms through a variety of media and to diverse audiences
- Perform effectively on teams
• Demonstrate attitudes and behaviors consistent with a professional environment

Throughout the curriculum, students will also receive exposure to the following foundational public health domains:

• The history and philosophy of public health as well as its core values, concepts, and functions across the globe and in society
• The basic concepts, methods, and tools of public health data collection, use, and analysis and why evidence-based approaches are an essential part of public health practice
• The concepts of population health, and the basic processes, approaches, and interventions that identify and address the major health-related needs and concerns of populations
• The underlying science of human health and disease, including opportunities for promoting and protecting health across the life course
• The socioeconomic, behavioral, biological, environmental, and other factors that impact human health and contribute to health disparities
• The fundamental concepts and features of project implementation, including planning, assessment, and evaluation
• The fundamental characteristics and organizational structures of the U.S. health system as well as the differences between systems in other countries
• The basic concepts of legal, ethical, economic, and regulatory dimensions of health care and public health policy and the roles, influences, and responsibilities of the different agencies and branches of government
• The basic concepts of public health-specific communication, including technical and professional writing and the use of mass media and electronic technology

Total Hours 15.5-19

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Admission

The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Four majors are available to undergraduate students: biostatistics, environmental health sciences, health policy and management, and nutrition. Each of these combines features of a broad-based education with concentrated study in a specific public health discipline. The programs prepare individuals for preprofessional positions in health-related fields and provide a firm base for graduate study. Students are permitted to pursue two majors in the school if there are no course time conflicts and they are able to complete all requirements within their remaining time for degree completion. Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, requirements described in this catalog particularly apply to students admitted to the school during the 2022–2023 academic year.

Students who wish to obtain the B.S.P.H. degree typically spend two years in the General College of the University of North Carolina at Chapel Hill (or in an equivalent core program of academic study elsewhere) and two subsequent years under the administration of the Gillings School of Global Public Health. Enrollment in the B.S.P.H. degree programs is limited. Typically a student is selected in the latter half of the sophomore year and admitted on a competitive basis for junior year entry to the major. The minimum recommended grade point average for admission to programs in biostatistics, environmental health sciences, health policy and management, and nutrition is 3.0.

For current UNC–Chapel Hill students, the initial step of B.S.P.H. application is available in ConnectCarolina under the “Apply for Majors Change” tab. For additional information on application deadlines and how to apply, please visit the Public Health Undergraduate Majors (https://sph.unc.edu/resource-pages/undergraduate-programs/) web page.

Transfer students interested in any of the public health undergraduate majors must apply through the Office of Undergraduate Admissions (http://admissions.unc.edu/apply/transfer-students/) using the Transfer Common application.

For high school seniors, our four majors participate in the University Assured Enrollment Programs under EXCEL@Carolina. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina’s professional schools or a spot in an accelerated undergraduate/graduate program. Programs include unique opportunities such as early access to classes, individualized mentorship, and career connections. For additional information, please visit EXCEL@Carolina (https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/).

Requirements

In addition to the program requirements listed below, students must
• attain a final cumulative GPA of at least 2.0
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major
• take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Special Opportunities in Health Policy and Management

Experiential Education

An 8-week full-time internship (320 hour minimum) is required during the summer between the junior and senior years. The internship provides students an opportunity to apply the knowledge and skills being acquired through their coursework, further develop and demonstrate attainment of program competencies, and explore career interests. Learn more about internships completed by past students here (https://sph.unc.edu/wp-content/uploads/sites/112/2021/11/hpmbsph_internships.pdf).

In addition, in the year-long senior capstone students work on consulting projects with health organizations in the community. This project serves as a culminating experience for the program, providing students with an opportunity to synthesize, integrate, and apply knowledge and skills gained through their coursework and further develop and demonstrate attainment of program competencies. These projects are completed under the direction of a faculty member and preceptor, typically within a public health department, community health center, hospital, medical office, or non-profit organization. Learn more about some of our past capstone projects here (https://sph.unc.edu/wp-content/uploads/sites/112/2021/11/hpmbsph_capstones.pdf).

Honors in Health Policy and Management

Eligible students have the option of completing a senior honors thesis, which generally includes designing and carrying out a research study or program evaluation. Students defend their proposals in the fall and their theses in the spring. Examples of research questions examined by past honors thesis students can be found here (https://sph.unc.edu/wp-content/uploads/sites/112/2021/11/hpmbsph_honors_theses.pdf).

School and Departmental Involvement

Opportunities exist for involvement in student organizations such as the Healthcare Executives Student Association, the Healthcare Improvement Group, AcademyHealth, the Student Global Health Committee, GlobeMed, the Minority Student Caucus, the Committee on Diversity and Inclusion, and the school’s student government. Most students are also active in one or more health-related campus organizations, such as the Student Health Action Coalition (SHAC) and Get Covered Carolina.

Study Abroad

Students are encouraged to study abroad prior to entering the program in the junior year. While in the program, students may complete their internship outside the United States.

Undergraduate Awards

The department presents awards for undergraduate students at an annual Awards Day in late spring.

Undergraduate Research

Students with research interests may seek opportunities to work with faculty members on research projects. Students in the program regularly find opportunities at research centers on campus, such as the Cecil G. Sheps Center for Health Services Research, the Lineberger Comprehensive Cancer Center, the Center for Health Equity Research and the Carolina Population Center and the Center for Health Promotion and Disease Prevention.
are considering an independent study project, senior honors thesis, or out the advice of their professors during office hours, especially if they assigned individual faculty advisors, they are strongly encouraged to seek do after they complete their degree. Although history majors are not decision to become a history major or minor to thinking about what to related to studying history at UNC–Chapel Hill, from making the initial students numerous advising resources to assist them with all things their Tar Heel Trackers each semester. The Department of History offers strongly encouraged to meet regularly with their advisors and review

Academic Advising Program
(https://advising.unc.edu/)

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (https://advising.unc.edu/). Students are strongly encouraged to meet regularly with their advisors and review their Tar Heel Trackers each semester. The Department of History offers students numerous advising resources to assist them with all things related to studying history at UNC–Chapel Hill, from making the initial decision to become a history major or minor to thinking about what to do after they complete their degree. Although history majors are not assigned individual faculty advisors, they are strongly encouraged to seek out the advice of their professors during office hours, especially if they are considering an independent study project, senior honors thesis, or applying for graduate study. The department’s lecturer/advisor serves as a general advising resource for all history majors and minors as well as first- and second-year students who are considering a major in history.

Graduate School and Career Opportunities

Most history majors at UNC–Chapel Hill develop careers that do not involve practicing history in its narrow sense. These students work in a range of fields: business, law, journalism, education, and government, for example. These students have found that they can apply to many different tasks the skills that history teaches: analyzing, conceptualizing, investigating, researching, interpreting large amounts of information, as well as communicating through writing and speaking.

Many history majors enter professional schools in a number of different areas. Law school, business school, and medical school rank high in popularity. By teaching students how to analyze problems, how to understand society and human behavior, and how to communicate effectively, a major in history provides excellent preparation for enrollment in a professional school.

Some majors end up using history directly in their vocations. Those who wish to teach history at the secondary level in public schools must obtain appropriate certification, usually through an M.A.T. degree. Other students pursue graduate study by entering a master’s degree program in history that requires a thesis and takes about two years to complete. A student can then decide whether to proceed into a Ph.D. program, which normally requires an additional two years of study and the completion of a doctoral dissertation. Students who decide to pursue a Ph.D. in history generally teach at the college level. Some complete a master’s degree in public history and work for government archives at the national, state, or local levels or for private nonprofit organizations, such as groups interested in restoration work.

Major

• History Major, B.A. (p. 661)

Minors

• History Minor (p. 670)
• Medieval and Early Modern Studies (MEMS) Minor (p. 670)

Graduate Programs

• M.A. in History (http://catalog.unc.edu/graduate/schools-departments/history/)
• Ph.D. in History (http://catalog.unc.edu/graduate/schools-departments/history/)

HIST—History
Undergraduate-level Courses

HIST 50. First-Year Seminar: Time and the Medieval Cosmos. 3 Credits.
This course introduces first-year students to the basic motions of the solar system as viewed from the Earth along with the mechanical and mathematical models used to reproduce them, while exploring the history of medieval and early modern education, theology, and natural philosophy.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: HS.
- Grading Status: Letter grade.
- Same as: PHYS 50.

HIST 51. First-Year Seminar: Latin American Revolutions. 3 Credits.
This course explores the problem of revolutionary upheaval in Latin American history, from the revolutionary wars of the independence era (1810-1825) to revolutionary episodes of the 20th century.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR, FC-PAST or FC-POWER.
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.

HIST 52. First-Year Seminar: Conflicts over Israel/Palestine. 3 Credits.
This course will familiarize students with the background of this ongoing conflict. It will begin with the growth of political Zionism in Europe, continue through early Zionist settlement, the United Nations partition and resulting war, and the history of the conflict through the present.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.

HIST 53. First-Year Seminar: Traveling to European Cities: American Writers/Cultural Identities, 1830-2000. 3 Credits.
This course examines the experiences of American writers who traveled and lived in European cities during the era between 1830 and 1930 with the goal of developing historical insights into these writers' fascination with famous European cities and the experience of travel.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-PAST.
- Making Connections Gen Ed: HS, NA.
- Grading Status: Letter grade.

HIST 55. First-Year Seminar: Preventing Broken Hearts in North Carolina: History and Health Care in the South. 3 Credits.
How do scientists and humanists approach complex problems and work together to solve them? Team-taught by a doctor and a historian, this class explores how our state's health care system changed over the last fifty years, how those changes have affected people, and how history shapes both doctors and patients.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-PAST.
- Making Connections Gen Ed: HS, NA.
- Grading Status: Letter grade.

HIST 59. First-Year Seminar: Rebuilding the American South: Work and Identity in Modern History. 3 Credits.
This course examines how class experiences and debates over the meaning of work have shaped the postbellum Southern United States. Students will analyze how the South's technological innovation, politics, urban planning, consumer economy, and social movements have impacted the racial, gender, and sexual identities of its people.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: HS, US.
- Grading Status: Letter grade.
HIST 62. First-Year Seminar: Nations, Borders, and Identities. 3 Credits.
This seminar will explore the ways people have identified themselves in relation to specific places, nation-states, and foreign "others." Examples may include the Turkish nationalists, Islamist political parties, the Eritrean independence movement, and the Basque separatists.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 63. First-Year Seminar: Water, Conflict, and Connection: the Middle East and Ottoman Lands. 3 Credits.
Water has played pivotal roles in the histories, societies, and politics of Middle Eastern peoples. This course will survey the role of water in religious and cultural practices, technological innovations that facilitate agriculture, public health issues arising from water-borne diseases, and the contribution of water scarcity to cross-border political conflicts. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: BN, GL.
Grading Status: Letter grade.

HIST 64. First-Year Seminar: Gorbachev: The Collapse of the Soviet Empire and the Rise of the New Russia. 3 Credits.
Examines Mikhail Gorbachev and the astonishing transformations that occurred while he governed the Soviet Union between 1985 and 1991. Students will explore post-Soviet Russia's efforts at negotiating a new set of relations with the rest of the world and how Russia continues to shape our own destiny.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 66. First-Year Seminar: Film and History in Europe and the United States, 1908-1968. 3 Credits.
This course will examine major films in Europe and America from 1908 to 1968 in terms of how they shaped the medium and reflected important social trends.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, GL, NA.
Grading Status: Letter grade.

HIST 67. First-Year Seminar: Maid in America, Made in China: Laboring Women in Global Perspective. 3 Credits.
Public figures ranging from former U.S. President Jimmy Carter to New York Times columnist Nicholas Kristof have suggested women's increased entry into the labor market as a cure for the problems that face their families and their societies. But scholars have demonstrated that paid work has offered women new freedoms while subjecting them to new forms of control. This course will explore that paradox by examining women's diverse experiences as workers historically and today.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: GL.
Grading Status: Letter grade.

HIST 70. First-Year Seminar: Seeing History in Everyday Places: Chapel Hill as a Case Study. 3 Credits.
Our homes, our workplaces, our towns, our natural areas—all are products of history, shaped by people, rich with meaning and full of surprises. Using Chapel Hill as our living laboratory, we will explore new ways of understanding the past and how it shapes the world we live in now.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, CI, EE- Field Work.
Grading Status: Letter grade.

HIST 72. First-Year Seminar: Women's Voices: 20th-Century European History in Female Memory. 3 Credits.
The course examines 20th-century European history through the lenses of women's autobiographical writings. It explores women's voices from different generational, social, and national backgrounds and asks what formed their memories. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, CI, NA.
Grading Status: Letter grade.

HIST 74. First-Year Seminar: Emperors, Courts, and Consumption: The Mughals of India. 3 Credits.
Through a study of autobiographical texts, contemporary accounts, objects, architecture and later representations in scholarly works, films and novels, we will undertake a thematic investigation of the Mughal Empire (1526-1858), focusing on the period of the first six Mughal rulers of India.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 76. First-Year Seminar: Understanding 1492. 3 Credits.
This seminar will examine one of the most challenging topics in American and Latin American history: how to understand the conquest (la conquista) of Latin America by the Spaniards after the arrival of Columbus after 1492.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.
HIST 79. First-Year Seminar: Coming of Age in 20th Century America. 3 Credits.
We will employ coming of age autobiographies to explore developments in the US during the 20th century. In these autobiographies the authors focus primarily on the periods of childhood and adolescence into young adulthood. We will consider many issues including: race, racism, immigration, religion, social class, and gender.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, NA, US.
Grading Status: Letter grade.

HIST 80. First-Year Seminar: African American Music as History. 3 Credits.
This course uses music to explore African-American life in the twentieth and twenty-first centuries. Students will investigate how African Americans, across time and space and in search of opportunity, created, used and marketed music. The course will examine three core group-artists, music entrepreneurs and audiences.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-PAST.
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.

HIST 81. First-Year Seminar: Diaries, Memoirs, and Testimonies of the Holocaust. 3 Credits.
In ghettos and hiding places during the Holocaust, European Jews and other victims of Nazism recorded their experiences in diaries and other chronicles. Students will read diaries and memoirs as well as listen to testimonies to understand Holocaust history through life narratives, exploring tensions between history and memory.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 83. First-Year Seminar: African History through Popular Music. 3 Credits.
Examines popular music as a way of understanding African history from the 1930s to the present. We will read background materials on African historical developments and musical styles, do a lot of listening, and try to learn what African musicians tell us about their societies.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 84. First-Year Seminar: Monsters, Murders, and Mayhem in Microhistorical Analysis: French Case Studies. 3 Credits.
Explores the distinctive features of microhistorical approaches to the past and the attractions of microhistory for the practicing historian. Students will read a rich sampling of recent work (much of it featuring monsters, murder, and mayhem) and try their hand at writing their own microhistories. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 85. First-Year Seminar: What Concentration Camp Survivors Tell Us. 3 Credits.
This is a seminar about reading so as to learn as much as we can from individuals expressing the inexpressible. It asks what (if anything) only camp survivors can tell us about the experience and what we can learn by exploring the effects of this experience on survivors. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 89. First Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, CI.
Grading Status: Letter grade.

HIST 101. A History of Lies, Conspiracies, and Misinformation. 3 Credits.
This course, geared towards undergraduate students at the beginning of their college careers, will give students the tools needed to critically evaluate information. Texts from different historical periods, newreels and propaganda movies, and a variety of different websites will be examined and deconstructed to understand how content can be presented or manipulated.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, CI.
Grading Status: Letter grade.

HIST 102. Introduction to Major Problems in U.S History. 3 Credits.
This course explores major events and trends in U.S. history from the pre-colonial period to the 21st century. It offers students an introduction to some of the most important developments in the nation's past and the tools to understand them. We will examine the evolution of political participation and discourse, fundamental changes and continuities in economic life, and the rise and fall of numerous social movements.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
HIST 103. Introduction to Major Problems in Modern World History. 3 Credits.
This survey course explores major events and trends in global history from 1200 to the present. We will examine societies across six continents while focusing on several key themes and developments, including social and economic diversity and transformation; exchange, conflict, and evolution within and between societies; the rise and fall of imperial projects; and the parameters and consequences of global interconnectedness across time.

Rules & Requirements
Making Connections Gen Ed: BN, GL.
Grading Status: Letter grade.

HIST 104. Introduction to Major Problems in European History. 3 Credits.
This course explores major events and themes in European history from the Early Modern period through the present. We will focus our attention on several key religious, social, and political developments, including the growth of the modern state and economy, the history and legacy of European imperialism, the rise and fall of various intellectual and social movements and their effects on society, and the making and unmaking of identities based on culture, nation, and region.

Rules & Requirements
Making Connections Gen Ed: GL, NA.
Grading Status: Letter grade.

HIST 105. Empires in World History. 3 Credits.
This course explores and compares premodern and/or modern empires on a global scale, inquiring into rulers’ strategies and subject peoples’ experiences. Empires studied will depend on instructor’s area of expertise, but may include Greeks, Romans, Chinese, Incas, West Africans, Mughals, and Ottomans, among others. Previously offered as HIST 345.

Rules & Requirements
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.

HIST 106. Ancient History. 3 Credits.
A topical survey of the ancient world, especially the civilization of the Near East, Greece, and Rome.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 107. Medieval History. 3 Credits.
A survey of Western Europe and the Mediterranean World, 300-1500.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 108. Introduction to Early Medieval History 500-1050. 3 Credits.
An introductory-level survey of early medieval political, cultural, religious and social history between ca.500 and ca.1050 with a geographical focus on Europe. This course also considers eastern Christianity and Islam, as well as parts of Asia, for comparison. Throughout the course students will closely analyze the evidence for the period.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.

HIST 109. History of Religion in North America. 3 Credits.
Surveys religious thought and practice in the United States and Canada from the colonial era to the present day. Themes include continuities and changes in expressing ancient faiths; the relationship between religion and politics; the intersection of theology with everyday life; and evolving notions of religious truth and toleration.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.
HIST 124. United States History through Film. 3 Credits.
Explores the history of the United States through films made about various historical eras. For each film, the instructor will lecture on the time period(s), the class will read relevant primary and secondary sources, and then the class will watch and discuss the film.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-POWER.
- Making Connections Gen Ed: HS, NA.
- Grading Status: Letter grade.

HIST 125. The Social History of Popular Music in 20th-Century America. 3 Credits.
Explores the relationship between popular music and major developments in 20th-century America. The course's overarching focus is how popular music has simultaneously unified and divided the nation.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
- Making Connections Gen Ed: HS, NA.
- Grading Status: Letter grade.

HIST 127. American History to 1865. 3 Credits.
A survey of various aspects of American development during the colonial, revolutionary, and national periods, with stress upon major themes and interpretations.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
- Making Connections Gen Ed: HS, NA, US.
- Grading Status: Letter grade.

HIST 128. American History since 1865. 3 Credits.
A survey of various aspects of American development during a century of rapid industrial, social, political, and international change, with stress upon major themes and interpretations.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST.
- Making Connections Gen Ed: HS, NA.
- Grading Status: Letter grade.

HIST 129. Modern America, 1980-2020. 3 Credits.
This course explores the history of the United States in the very recent past. Through a sustained analysis of key political, cultural, economic, and social developments, students will gain a deeper understanding of the complex issues and problems that shape American life today.

Rules & Requirements
- Making Connections Gen Ed: NA, US.
- Grading Status: Letter grade.

HIST 130. Modern African History. 3 Credits.
An overview of major developments in sub-Saharan African history since the late 19th century, focusing on colonialism, nationalism and decolonization, social change, and current issues, and drawing upon fiction, film, and primary sources.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.

HIST 131. Southeast Asia to the Early 19th Century. 3 Credits.
The history of Southeast Asia from prehistory to "high imperialism." Long-term political, economic, social, and religious developments, including Indianization, the impact of China, and the first contacts with Europeans.

Rules & Requirements
- Making Connections Gen Ed: HS, BN, WB.
- Grading Status: Letter grade.
- Same as: ASIA 131.

HIST 132. Modern Southeast Asia. 3 Credits.
The history of Southeast Asia from the 19th century to the present. Long-term political, economic, social, and intellectual questions, including the impact of imperialism, the rise of nationalism, the transformation of the economy, the Cold War, and the coherence of Southeast Asia as a region.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.

HIST 133. Introduction to Chinese History. 3 Credits.
Chinese history from its beginnings to the present, organized around the central theme of how the identity of China and 'Chineseness' was created.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.
- Same as: ASIA 133.

HIST 134. Modern East Asia. 3 Credits.
Comparative and interdisciplinary introduction to China and Japan in the 19th and 20th centuries, focusing on impact of the West, nation building, industrialization, and evolution of mass society.

Rules & Requirements
- IDEAs in Action Gen Ed: HS, BN.
- Grading Status: Letter grade.
- Same as: ASIA 134, PWAD 134.

HIST 135. History of the Indian Subcontinent to 1750. 3 Credits.
An introduction to major political, religious, social, and cultural events from 3500 BCE to 1750 CE with a focus on Hindu, Muslim, and Buddhist groups before British colonial rule.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
- Making Connections Gen Ed: HS, BN, WB.
- Grading Status: Letter grade.
- Same as: ASIA 135.

HIST 136. History of India, Pakistan, and Bangladesh: South Asia since 1750. 3 Credits.
This course is an introduction to modern India, Pakistan, and Bangladesh. We will investigate major political, social, economic, and cultural issues from 1750 to the present.

Rules & Requirements
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.
- Same as: ASIA 136.
HIST 137. Muhammad to Malcolm X: Islam, Politics, Race, and Gender. 3 Credits.
This course provides an introduction to the history of the Islamic world from the time of the Prophet Muhammad to the present day. It seeks to expose students to key themes, individuals, and movements that have represented Islamic thought and practice, and enable students to engage directly with intra-Islamic debates.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

HIST 138. History of Muslim Societies to 1500. 3 Credits.
A broad, comprehensive, and interdisciplinary introduction to the traditional civilization of the Muslim world. Students may not receive credit for both HIST 138/ASIA 138 and ASIA 180/RELI 180.

Rules & Requirements
Making Connections Gen Ed: HS, BN, WB.
Grading Status: Letter grade.
Same as: ASIA 138.

HIST 139. History of Muslim Societies since 1500. 3 Credits.
A broad interdisciplinary survey of the later Islamic empires since the 15th century and their successor societies in the modern Muslim world. Students may not receive credit for both ASIA 139/HIST 139 and ASIA 181/RELI 181.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: ASIA 139.

HIST 140. The World since 1945. 3 Credits.
This introduction to the contemporary world examines the Cold War and its international aftermath, decolonization, national development across a variety of cases, and trends in the global economy.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-PAST.
Making Connections Gen Ed: HS, BN, GL.
Grading Status: Letter grade.

HIST 141. Globalization Since 1500. 3 Credits.
Course explores how commodities have connected people and places around the world since 1500. Lectures, readings, and recitations focus on tracing the histories of specific commodities (e.g., sugar, opium, and uranium) across different contexts. Significant sub-themes include the history of business, international human rights, and science and technology.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 142. Latin America under Colonial Rule. 3 Credits.
Social and economic development under colonial rule, especially in Mexico and Peru.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 143. Latin America since Independence. 3 Credits.
A general introduction to Latin American society, culture, politics, and economics from a historical perspective. Focus will be on the events of the past two centuries.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 144. Women in the United States from Settlement to Present. 3 Credits.
This course will survey the history of women, gender relations, and notions of sex difference in the United States from the colonial era to present times, with a special emphasis on women’s varied experiences and expectations across divisions of class, race, and region. Key themes will include work, politics, citizenship, reproduction, sociology, and sexuality.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.
Same as: WGST 144.

HIST 145. Latin American Indigenous Peoples. 3 Credits.
This course surveys the history of Latin American indigenous peoples from the conquest to the present. Focus is on indigenous struggles and survival strategies. Previously offered as HIST 527.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 151. European History to 1650. 3 Credits.
European history from Greek antiquity to the mid-17th century.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.

HIST 152. European History since 1650. 3 Credits.
European history from the middle of the 17th century to the present.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
HIST 153. From the Bible to Broadway: Jewish History to Modern Times. 3 Credits.
This class surveys the history of the Jews from ancient to modern times. It focuses on the development of Jewish religion, culture identity, and politics in Jewish communities in the Western, Atlantic and Middle Eastern Worlds. It also explores the development of antisemitism and anti-Jewish violence.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.
Same as: JWST 153.

HIST 156. The British Empire, 1815-1994. 3 Credits.
This course explores the modern empire from slavery and abolition, through Independence and the Cold War. Focusing on parts of Africa, Asia, the Caribbean, and the British Isles, we will consider issues of race, gender, religion, wealth inequality, war, and anti-colonialism.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 158. Early Modern European History, 1450-1815. 3 Credits.
Intellectual and social structures, dynamics of social and political change, principles of authority, and bases of revolution from the Reformation to the French Revolutionary and Napoleonic period.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 159. From War to Prosperity: 20th-Century Europe. 3 Credits.
A critical overview of 20th-century European history, with particular attention to the constant ethnic, religious, social, economic, and cultural struggles (including Holocaust, Cold War) in various subunits of the old continent.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: EURO 159.

HIST 161. Russia Becomes an Empire. 3 Credits.
Between 862 and 1861 Russia expanded from agrarian settlements into Europe's most formidable empire. Subjugated by Mongols in 1240, it recovered and absorbed territories from Poland to Alaska. Conquest came on the backs of an enserfed peasantry, whose emancipation began the next chapter in Russia's history.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: BN, WB.
Grading Status: Letter grade.

HIST 162. Russia under the Last Tsars and Soviet Commissars. 3 Credits.
This course surveys fundamental issues affecting the Russian/Soviet/post-Soviet multinational empire in the last century and a half, emphasizing regime failures, revolutions, wars, and ethnic challenges.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 163. Modern Central Asia. 3 Credits.
Provides an understanding of significant contemporary developments in Central Asia—9/11, the Taliban, oil and gas geopolitics, Communism and its collapse, the rise of China, Islamism, and global terrorism—through an analysis of themes in the region's history, with a focus on the 19th and 20th centuries.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 164. Victorian Britain: From Slavery to South African War. 3 Credits.
This course explores political, social, and cultural history from the Napoleonic Wars through the South African War. Surveys the history of the United Kingdom in the context of Britain's imperial expansion, including slavery, reform, women's suffrage, social movements, and Victorian wealth and poverty.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 165. 20th Century Britain: from the Great War to Brexit. 3 Credits.
This course explores political, social, and cultural history from 1900 to the present: the two world wars, the declining empire, the extension of parliamentary democracy, the new welfare state, and a deeply diverse racial, ethnic, and religious society where social and economic differences remain. Who is British?

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 166. History of Afghanistan. 3 Credits.
The American occupation of Afghanistan after 9/11/2001, the longest war in United States history, continues a long pattern of great empires attempting to control the country. This course asks why it has been challenging for Afghanistan's rulers, both foreign and domestic, to build a centralized state in an historically decentralized society.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
HIST 174H. Honors Seminar in African, Asian, and Middle Eastern History. 3 Credits.
Examines selected themes in the history of Africa, Asia, and/or the Middle East. Theme(s) chosen by the instructor. Possible subjects: colonialism, resistance movements, religion, gender, economic transformations.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 175H. Honors Seminar in Latin American History. 3 Credits.
Examines selected themes in the history of Latin America. Theme(s) chosen by the instructor. Possible subjects: indigenous societies, colonialism, religion, the family, economic transformations.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 176H. Honors Seminar in Russian, Eurasian, and Eastern European History. 3 Credits.
Examines selected themes in the history of Russia, Eurasia, and/or Eastern Europe. Theme(s) chosen by the instructor. Possible subjects: imperialism, revolution, the Soviet Union, war and society.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 177H. Honors Seminar in Early European History. 3 Credits.
Examines selected themes in the history of Europe from ancient to early modern times. Theme(s) chosen by the instructor. Possible subjects: legacies of antiquity, philosophy and religion, feudal society, gender, and power.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 178H. Honors Seminar in Modern European History. 3 Credits.
Examines selected themes in the history of modern Europe. Theme(s) chosen by the instructor. Possible subjects: effects of industrialism, nationalism, history of ideas, consumer society, modern revolutions, imperialism.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 179H. Honors Seminar in American History. 3 Credits.
Examines selected themes in American history. Theme(s) chosen by the instructor. Possible subjects: colonial diversity, emerging nation, intellectual traditions, labor and capitalism, slavery and race relations, markets and political power, war and society.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 180. Genocide in Global Perspective. 3 Credits.
The class begins with colonial contexts before moving to the late Ottoman Empire. After consideration of genocides in Europe in the first half of the twentieth century, the focus shifts to the violence of decolonization and postcolonial conflict. The class also asks whether genocide is a useful category of analysis.

Rules & Requirements
Making Connections Gen Ed: FC-KNOWING or FC-PAST.
Grading Status: Letter grade.

HIST 189. The Global World Order from World War II to the Present. 3 Credits.
This course deals with the establishment of the rules-based global order toward the end of the Second World War and analyzes the development of that order throughout the Cold War years and the post-Cold War era up to the present. Honors version available.

Rules & Requirements
Making Connections Gen Ed: FC-GLOBAL or FC-PAST.
Grading Status: Letter grade.

HIST 190. Special Topics in History. 3 Credits.
Subject matter will vary with instructor but will focus on some particular topic or historical approach. Course description available from the departmental office. Closed to graduate students.

Rules & Requirements
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Letter grade.

HIST 203. Empires and Cultures in the Modern World. 3 Credits.
This course will examine the relationship between Asia, Africa, the Middle East, Latin America, and the making of the modern world in the 20th century.

Rules & Requirements
Making Connections Gen Ed: FC-PAST.
Grading Status: Letter grade.

HIST 204. Global Environmental Histories: People, Climate, and Landscapes. 3 Credits.
Global warming? Hurricanes, floods, fires, food security: focusing on critical issues of human rights and changing forces in our natural world, this course prepares students to explore different sources on a variety of topics for present-day environmental issues and the entangled relations between nature and society on our planet.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
HIST 205. War, Diplomacy, and Statecraft, 1618-1815. 3 Credits.
The history of European international politics from the outbreak of the Thirty Years War to the Congress of Vienna. Considers the sources of national power, the reasons for war, and the changing nature of diplomacy.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: GL, WB.
Grading Status: Letter grade.
Same as: PWAD 205.

HIST 206. War, Diplomacy, and Statecraft, 1815-1945. 3 Credits.
The history of international politics from the fall of Napoleon to the end of the Second World War, with special attention to European nationalism, imperialism, the emergence of non-European great powers, the reasons for war, and the search for peace.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: PWAD 206.

HIST 207. The Global Cold War. 3 Credits.
A survey of the Cold War from its origins in the aftermath of the Second World War to its conclusion in the late 1980s. Focuses on the geopolitical, military, ideological, and economic aspects of the global superpower conflict.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: PWAD 207.

HIST 210. Global Issues and Globalization. 3 Credits.
Survey of international social, political, and cultural patterns in selected societies of Africa, Asia, America, and Europe, stressing comparative analysis of conflicts and change in different historical contexts. LAC recitation sections offered in French, German, and Spanish.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: GL.
Grading Status: Letter grade.
Same as: GLBL 210, ANTH 210, GEOG 210, POLI 210.

HIST 212. History of Sea Power. 3 Credits.
The influence of sea power on international affairs will be surveyed from ancient times to the present. Emphasis on United States naval history and its interaction with diplomacy, economics, and technology.

Rules & Requirements

Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: PWAD 212.

HIST 213. Air Power and Modern Warfare. 3 Credits.
Examines air power theory and practice from 1914 to the present. Focuses on the application of air power as an instrument of war and the effectiveness of that application.

Rules & Requirements

Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: AERO 213, PWAD 213.

HIST 220. The Olympic Games: A Global History. 3 Credits.
Course uses the history of the modern Olympic Games (1896-present) to explore both global sport and the history of international relations. Topics include sport and the Cold War; terrorism; human rights; the apartheid movement; and issues of race, class, gender, disability; and the question of who is a "real" athlete. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

HIST 225. History of Greece. 3 Credits.
A survey of Greek history and culture from the Bronze Age to the Hellenistic period.

Rules & Requirements

IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 226. History of Rome. 3 Credits.
Origins to the first two centuries CE. Focuses upon Rome's growth as a world power and the shift from republican government to autocracy.

Rules & Requirements

Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 228. Medieval Science. 3 Credits.
This course explores forms of scientific thinking before the modern era, focusing mainly on the intellectual tradition in medieval Europe ca. 500-1500. Special attention will be devoted to the intersections of scientific concepts and Christian religious ideas.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 229. The History of London 43 - 1666. 3 Credits.
This course traces the first three-quarters of London's rich two-thousand-year history, from the Romans to the Great Fire. Students examine how London evolved as an urban environment. They also study London's many and varied relationships with the wider world, including, in the latter part of the course, North America. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.
HIST 230. Why History Matters to Public Policy. 3 Credits.
This course explores the uses of history and historical perspectives for public policy. Students will learn how historical processes have shaped today’s public policies and examine how the origins and development of a policy can inform current policy decisions.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS.
Grading Status: Letter grade.
Same as: PLCY 231.

HIST 231. Native American History: The East. 3 Credits.
Covers the histories of American Indians east of the Mississippi River and before 1840. The approach is ethnohistorical.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, NA, US.
Grading Status: Letter grade.
Same as: AMST 231.

HIST 232. Native American History: The West. 3 Credits.
Deals with the histories of Native Americans living west of the Mississippi River. It begins in the pre-Columbian past and extends to the end of the 19th century.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: AMST 232.

HIST 234. Native American Tribal Studies. 3 Credits.
This course introduces students to a tribally specific body of knowledge. The tribal focus of the course and the instructor change from term to term. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, NA, US.
Grading Status: Letter grade.
Same as: AMST 234, ANTH 234.

HIST 235. Native America in the 20th Century. 3 Credits.
This course deals with the political, economic, social, and cultural issues important to 20th-century Native Americans as they attempt to preserve tribalism in the modern world.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: AMST 235.

HIST 236. Sex and American History. 3 Credits.
Does sex have a history? This course argues that it does. Exploring American history from the earliest encounters of Indians, Europeans, and Africans through the aftermath of the sexual revolution, we will consider diverse perspectives, important dynamics of change, and surprising ways in which the past informs our present—and our selves.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 237. Colonial American History to 1763. 3 Credits.
An in-depth history of colonial North America. Topics include: interactions among Native Americans, Europeans, and Africans and the founding and development of English, French, and Spanish colonies in the lands that eventually became the United States. Previously offered as HIST 561.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, US, WB.
Grading Status: Letter grade.

HIST 238. The American Revolution, 1763-1815. 3 Credits.
Major topics: constitutional conflict in the British empire; independence and war; Confederation and Constitution; growth of political parties and nationality in a period of domestic change and international conflict. Previously offered as HIST/PWAD 564.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: PWAD 238.

HIST 239. Religion in North America since 1865. 3 Credits.
A survey of modern religion in the United States and Canada. Themes include religious pluralism; new religious movements, immigrant faiths; the relationship between religion and urban life, industrialization, and new science; religion and foreign affairs; questions of church and state; and the conflict between secular modernity and religious fundamentalism.

Rules & Requirements
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.

HIST 240. Introduction to Mexico: A Nation in Four Revolutions. 3 Credits.
History of Mexico seen through four moments of change: conquest, independence, 19th-century reforms, and 20th-century revolution. This course is an introductory survey for students who want to know more about Mexico, its place in Latin America, and its relations with the United States.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
HIST 241. History of Latinos in the United States. 3 Credits.
A comparative examination of the historical experiences of Latinos in the United States, from the 19th century to the present, drawing on experiences of Mexican Americans, Puerto Ricans, Dominicans, and Central Americans. Special emphasis on the events, people, and ideas that have made distinctive contributions.

Rules & Requirements
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.

HIST 242. United States-Latin America Relations. 3 Credits.
This course examines the history of United States involvement in Latin America and the Caribbean. Lectures will cover two centuries of United States intervention, from the wars of the 19th century to the covert CIA operations of the Cold War and the more recent wars on drugs and terror.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN, GL.
Grading Status: Letter grade.

HIST 243. The United States and Africa. 3 Credits.
This course traces changing relationships between the United States and sub-Saharan Africa from the 17th century to the present. Topics include the trans-Atlantic slave trade, back-to-Africa movements and the colonization of Liberia by African Americans, United States policies toward decolonizing and postcolonial African countries, and contemporary links between Africa and America. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN, GL.
Grading Status: Letter grade.

HIST 244. History of the American Presidency. 3 Credits.
This course examines the historical evolution of the United States presidency and its role in government and society. The class is especially concerned with the ways that the office and its occupants have been shaped by the aspirations of the American people and the global challenges of the modern era.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 245. The United States and the Cold War: Origins, Development, Legacy. 3 Credits.
This is both a wide-ranging and detailed course that looks at the origins, the evolution, and the termination of the Cold War from 1945 to 1989/90. It also considers the "New Cold War" with Russia that developed in 2014. The course is based on an international and multinational perspective.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: PWAD 245.

HIST 246. The Long Cold War: U.S. Foreign Relations in the 20th and 21st Centuries. 3 Credits.
This is both a wide-ranging and detailed lecture course which looks at the rise of the U.S. to world power status and the evolution of U.S. foreign relations from the late 19th century to the very present. The course is based on a multinational and global perspective.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

HIST 247. Early Modern Japanese History and Culture. 3 Credits.
From the 1603 establishment of the Tokugawa Shogunate to the Meiji Restoration of 1868, Japan was ruled by the Tokugawa family in an unusual early modern federation, with a balance of power between the warrior government in Edo and the domanial governments spread across the archipelago. This resemblance of this system to the U.S. balance between federal and state power frames our examination of the early modern period.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: JAPN 246.

HIST 248. Guerrillas and Counterinsurgencies in Latin America. 3 Credits.
This course examines the leftist guerrilla movements that swept Latin America and the Caribbean during the latter half of the 20th century. Students will analyze the origins, trajectories, and legacies of these insurgencies, paying particular attention to the roles of race, class, and gender. Previously offered as HIST/PWAD 528.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: PWAD 248.

HIST 249. Modern Global Christianity. 3 Credits.
An intermediate survey of global Christianity from the late Middle Ages to the present day that traces evolving theology and worship; the role of religion in the politics of empire; modern challenges to traditional religion; and the international expansion of the faith.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

HIST 251. The Thirty Years War (1618-1648): Europe in an Age of Crisis. 3 Credits.
A critical examination of the significance of the Thirty Years’ War for 17th-century Europe's social, religious, military, and geopolitical history. The representation of the conflict in art and literature also receives attention.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.
Same as: PWAD 251.
HIST 252. Politics, Society, and Culture in Modern Germany (1871-1945). 3 Credits.
This course explores the history of Modern Germany, by focusing on Imperial Germany, the Weimar Republic and the Third Reich. We will study continuities and changes in politics, society, and culture and examine the lasting impact of World War I, World War II and the Holocaust.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: EURO 252.

HIST 254. War and Society in Early Modern Europe. 3 Credits.
A critical examination, from the Renaissance to the Napoleonic period, of the changes in European land and naval warfare and their impact on society and government.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.
Same as: PWAD 254.

HIST 255. Manor to Machine: The Economic Shaping of Europe. 3 Credits.
From agriculture to industry, Europe’s march to industrialization. Survey from the medieval manor through revival of trade, rise of towns, credit and capitalism, overseas expansion and mercantilism to the Industrial Revolution.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.
Same as: WGST 255, EURO 255.

HIST 256. France, 1940 to the Present. 3 Credits.
Three events shaped contemporary France: collaboration and resistance in occupied France; the Algerian War; and the political, cultural, and social movements in the late 1960s and 1970s. This class will examine these events, how they are remembered and given meaning, and their role in making the France we know today.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 257. Politics, Society, and Culture in Postwar Germany. 3 Credits.
The interdisciplinary seminar will explore cultural, historical, and political issues of contemporary Germany and analyze German developments from the postwar period to the present. Readings and discussions in English.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: POLI 257, EURO 257.

HIST 258. Modern Italy since 1848. 3 Credits.
This course focuses on the history of modern Italy and examines changes in political, social, economic structures. Students will engage in the search for an “Italian identity.” Topics will include unification, World War I and II, Italian fascism, the postwar Italian Republic, the Mafia, terrorism, popular culture, and Silvio Berlusconi.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: ITAL 258.

HIST 259. Towards Emancipation? Women in Modern Europe. 3 Credits.
This course examines and compares the situation of women in politics, the work force, society and family from the French Revolution to the new women’s movement in the 1970s with a focus on Britain, France and Germany. One major theme is the history of the struggle for women’s emancipation.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: WGST 259, EURO 259.

HIST 260. From Kings to Communists: East-Central Europe in the Modern Era. 3 Credits.
A study in the emergence of nations of Eastern Europe, their internal development, mutual conflicts, and struggle for independence.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 261. France, 1870-1940. 3 Credits.
Third Republic France was riven with conflict. This course examines these conflicts, how the men and women of France and its colonies gave them meaning, and how we in turn can interpret these struggles to develop our understanding of the longest-lived republic in French history (1870-1940).

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 262. History of the Holocaust: The Destruction of the European Jews. 3 Credits.
Anti-Semitism; the Jews of Europe; the Hitler dictatorship; evolution of Nazi Jewish policy from persecution to the Final Solution; Jewish response; collaborators, bystanders, and rescuers; aftermath.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: JWST 262, PWAD 262.
HIST 263. Gender and Religion in Premodern Europe. 3 Credits.
This course examines gender in the religious lives of premodern Europeans from 500-1700, both in daily life (marriage, sexuality, devotions) and among the religious elite (clergy, monks and nuns, mystics). Feminist history, masculinity studies, and sexuality studies will all be taught as historical methods, paired with primary source documents from medieval Christians. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
- Making Connections Gen Ed: HS, WB.
- Grading Status: Letter grade.
- Same as: RELI 263.

HIST 264. Gender in Russian History. 3 Credits.
Traces the development of sexual identities and changes in masculine and feminine ideals from Tsarist Russia through the post-Soviet period with emphasis on politics, society, and popular culture.

Rules & Requirements
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.
- Same as: WGST 264.

HIST 266. Global History of Warfare. 3 Credits.
The history of warfare from its prehistoric origins to the present. The focus is on interactions between peoples around the world and particularly on the problems of innovation and adaptation. Previously offered as HIST/PWAD 351.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST.
- Making Connections Gen Ed: HS, GL.
- Grading Status: Letter grade.
- Same as: PWAD 266.

HIST 269. Modern London: Empire, Race, and Culture. 3 Credits.
Explores the history, culture, and politics of London from the decade before the First World War through the "Swinging" 1960s, to the recent Olympics fever. Surveys the architecture, cultural institutions and the arts, against the background of the city's changing racial, ethnic, religious, and socio-economic composition. Honors version available.

Rules & Requirements
- Making Connections Gen Ed: HS, NA.
- Grading Status: Letter grade.

HIST 270. Mughal India. 3 Credits.
In this course we will investigate one of the most well-known of South Asian polities, and the grandest and longest lasting empire in Indian history, the Mughal Empire (1526-1858), whose rulers and elites were responsible for much of the iconic architecture and painting associated with India today.

Rules & Requirements
- Making Connections Gen Ed: HS, WB.
- Grading Status: Letter grade.

HIST 271. Ancient and Medieval Japanese History and Culture. 3 Credits.
This course surveys Japanese history and cultural development from the prehistoric period, rich with archaeological evidence, to the reunification of Japan in the late sixteenth century. One major topic is the mythology or and historical evidence for early state formation, including the role that Japan's long "unbroken" history plays in modern debates about national identity, xenophobia, and relations with regional neighbors. Another focus is the emergence of women's literature.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
- Making Connections Gen Ed: HS, WB.
- Grading Status: Letter grade.
- Same as: JAPN 231.

HIST 272. Modern South Asia. 3 Credits.
Provides students with a critical understanding of the political, economic, and social dynamics of contemporary South Asia. Themes explored include the development (or lack of) democratic structures, continuing relevance of caste and religion, emergence of right wing movements, contesting representations of the past, and the prospects and challenges confronting the region.

Rules & Requirements
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.
- Same as: ASIA 272.

HIST 273. Water, Conflict, and Connection in the Middle East. 3 Credits.
Water has played many pivotal roles in the societies and politics of Middle Eastern peoples. This course will survey the history of water in the region, including its uses in agriculture and ritual, transport, and technology. We will explore water's impact on public health and the effects of water pollution on local societies. Finally, we will focus on the effects of the region's water scarcity in cross-border political conflicts.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
- Making Connections Gen Ed: HS, GL.
- Grading Status: Letter grade.
- Same as: PWAD 273.

HIST 274. History of the Ottoman Empire, 1300-1923. 3 Credits.
Approaches the history of the Ottoman Empire from a world historical perspective. Situates the Ottoman imperial experience in relation to Muslim, Mongolian, and Byzantine traditions. Discusses the early modern and modern transformation of the Ottoman Empire and its legacy for contemporary Eastern Europe, the Middle East, and North Africa.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.
HIST 275. African History to 1800. 3 Credits.
Course explores history of the African continent from before agriculture to the era of the Transatlantic slave trade. Particular attention given to themes such as trade, religion, and politics as well as the sources and methods for knowing about the premodern African past.

Rules & Requirements
Making Connections Gen Ed: BN, WB.
Grading Status: Letter grade.

HIST 276. The Modern Middle East. 3 Credits.
This course introduces students to the recent history of the Middle East, including a comparison of the Middle East to the United States.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN, GL.
Grading Status: Letter grade.
Same as: ASIA 276.

HIST 277. The Conflict over Israel/Palestine. 3 Credits.
Explores the conflict over Palestine during the last 100 years. Surveys the development of competing nationalisms, the contest for resources and political control that led to the partition of the region, the war that established a Jewish state, and the subsequent struggles between conflicting groups for land and independence.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: ASIA 277, PWAD 277.

HIST 278. The Trans-Atlantic Slave Trade. 3 Credits.
Slavery in select African communities, economic and political foundations of the trans-Atlantic slave trade, and its impact on African and New World societies. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN, GL.
Grading Status: Letter grade.

HIST 279. Modern South Africa. 3 Credits.
Beginning with the discovery of gold and diamonds in the mid-19th century and reaching to the present, this course considers colonialism, industrialization, social change, and political protest in South Africa, with particular attention to the rise, fall, and legacies of apartheid. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 280. Women and Gender in Latin American History. 3 Credits.
Examines the experiences of women and gender relations in Latin American societies from pre-Columbian times to the present, providing a new perspective on the region’s historical development.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 281. The Pacific War, 1937-1945: Its Causes and Legacy. 3 Credits.
An examination of the origins of the Pacific War, the course of this bitter and momentous conflict, and its complex legacy for both Asia and the United States.

Rules & Requirements
Making Connections Gen Ed: HS, BN, GL.
Grading Status: Letter grade.
Same as: ASIA 281, PWAD 281.

HIST 282. China in the World. 3 Credits.
This course explores the evolution of China as a geopolitical entity from global perspectives, 1350 to the present.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: ASIA 282.

HIST 283. Chairman Mao’s China in World History. 3 Credits.
To put the recent transformation of the People’s Republic of China in context, the course examines the different facets of Maoism that governed the country in its early years. It highlights Maoism as a global force that paved the way for China’s re-integration into the world order.

Rules & Requirements

- Grading Status: Letter grade.

HIST 287. Modern Japan. 3 Credits.
Covering the period from 1600 to 1900, this course examines the causes and impact of the Meiji Restoration of 1868, which marked the start of modern Japan.

Rules & Requirements
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.

Same as: ASIA 287.

HIST 288. Japan in the 20th Century. 3 Credits.
Topics include the Japanese Empire, the road to the Pacific War, defeat, the Allied occupation, Japan’s recovery from war, and development into a democracy and the world’s second largest economy.

Rules & Requirements
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.

Same as: ASIA 288.

HIST 289. America in the 1970s. 3 Credits.
This course will explore how Americans in the 1970s responded to crises, challenges, and opportunities, and how they ultimately remade ideas of identity, citizenship, work, family, and culture.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
- Making Connections Gen Ed: HS.
- Grading Status: Letter grade.

HIST 291. Putting Literature and History in Dialogue. 3 Credits.
Dialogues between historiographic and fictional treatments of important historical problems. Explores works of history and literature to determine how different genres of writing give meaning to the past. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
- Making Connections Gen Ed: HS.
- Grading Status: Letter grade.

HIST 302. Movies Make History: Films as Primary Sources in Europe and America. 3 Credits.
This course explains how and why certain films helped shape the medium even as they reflected broader aspects of historical change. Beginning with the development of narrative film in 1908, the course looks at those nationally specific genres that had repercussions beyond national borders, ending in about 1968. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
- Making Connections Gen Ed: HS.
- Grading Status: Letter grade.

HIST 305. Elizabeth I and her World: Gender, Power, and the Beginnings of the Global. 3 Credits.
This class explores the world of Elizabeth I of England (1558-1603) through three complementary lenses: the queen as powerful political actor; gender; and emergent globalization. Particular attention is paid to the ways in which Elizabeth fashioned the images that she projected, and how she was perceived by others.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
- Making Connections Gen Ed: NA, WB.
- Grading Status: Letter grade.

HIST 306. Princes and Reformations in Germany, 1400-1600. 3 Credits.
Examines the major late medieval religious, social, and political developments plus the Reformation and Counter-Reformation. Topics include Luther’s theology, the German Peasant’s War, Jewish-Christian relations, witch-hunting, and family life. Previously offered as HIST 460.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST.
- Making Connections Gen Ed: NA, WB.
- Grading Status: Letter grade.

HIST 307. War and Enlightenment in Germany, 1600-1815. 3 Credits.
Examines major political, social, and cultural developments. Topics include the growth of absolutist government, Prussia’s militarism and rivalry with Austria, German Jewry, Baroque music, the Enlightenment, and the Napoleonic wars. Previously offered as HIST 461.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST.
- Making Connections Gen Ed: HS, NA, WB.
- Grading Status: Letter grade.

HIST 308. The Renaissance and the Jews. 3 Credits.
The Renaissance (1300-1600) is known as a time of great artistic, scientific, and political renewal. But did Jews, the only religious minority in Europe, get an opportunity to benefit from and participate in that progress? This class studies the history of the Jews at a time of great cultural change.

Rules & Requirements
- Making Connections Gen Ed: HS, NA, WB.
- Grading Status: Letter grade.

Same as: JWST 308.
HIST 309. Old Regime France, 1661-1787. 3 Credits.
This course focuses on the period in French history between the
ascendancy of absolute monarchy in the middle of the 17th century and
the collapse of absolutism at the onset of the French Revolution.

Rules & Requirements
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.

HIST 310. The French Revolution. 3 Credits.
The French Revolution was a source of much that the modern world
recognizes as its own: nationalism, human rights, class conflict, ideology,
communism, conservatism, show trials, citizen armies, terrorism, and the
concept of revolution itself. This course probes issues that underlie the
continuing relevance of the French Revolution today.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 311. History of France and Algeria. 3 Credits.
This course covers France's conquest, rule, and loss of Algeria, and the
relationship between French and Algerian people in Algeria and France
from 1830 to the present. Topics such as modern French and North
African history, colonialism, Islam, immigration, terror/torture, and cross-
cultural exchange are all featured in this transnational course.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: PWAD 312.

HIST 312. Women and the Law in Africa and the Middle East. 3 Credits.
Explores women's and men's engagement with colonial and post-colonial
legal systems with a focus on the 19th through 21st centuries. Topics
include customary law, Islamic law, women's rights as human rights,
disputation and conflict resolution. We will ask the question: "how does
gender influence how women and men navigate legal systems?" Course
previously offered as WMST 289.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: HS, BN, GL.
Grading Status: Letter grade.
Same as: WGST 313.

HIST 313. Law and Society in Latin America. 3 Credits.
This course considers how a wide variety of groups in Latin America
including indigenous people, Afro-descendant communities, women and
religious minorities used the law to shape and challenge larger structures
of imperial rule.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: LTAM 314.
HIST 329. An Introduction to the History of Medicine. 3 Credits.
This course underscores the ways in which Western medicine has become a global political and cultural phenomenon in history, and discusses evidence of how different social actors have parsed the distinction between sickness and health over time. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

HIST 330. Jesus and the Jews: From the Bible to the Big Screen. 3 Credits.
This class will study the history of the claim that the Jews are responsible for Christ’s death. Students will examine the power of this idea to travel through time and space and discuss how it is portrayed differently and with different purposes throughout history. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.
Same as: JWST 330.

HIST 331. Sex, Religion, and Violence: Revolutionary Thought in Modern South Asia. 3 Credits.
Which of the following would you consider potentially political issues: celibacy; semen retention; body-building; depiction of gods/goddesses; or bomb making? Well, they all are. This course examines debates over sex, religion, and violence that constituted a key part of revolutionary thought and anti-colonial struggles in modern South Asia.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: ASIA 304.

HIST 332. Identity and Community in Modern Jewish History: The Case of Durham. 3 Credits.
This course explores diverse experiences of modernity among Jewish populations from the mid-18th century to the present under the influence of political, cultural, and socioeconomic changes. Diaries, memoirs, literature, and film challenge students to develop their own analyses while becoming familiar with arguments among scholars of Jewish life.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 333. Love and Politics in Early India. 3 Credits.
This course will study the social, political, and cultural history of early India, through a focus on love and desire. It will examine a range of primary sources from the period: erotic manuals, inscriptions, literature, legal and medical textbooks, art and architecture.

Rules & Requirements
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.

HIST 334. Rasputin's Russia: Erotic, Decadent, Revolutionary. 3 Credits.
The turn of the 20th century was characterized by a highly stylized angst, and nowhere more so than in Russia. This course explores how the political, social, cultural, and economic transformations that vibrated throughout Russia provided a fertile context for the burst of creativity that spawned its modernist artistic movements.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 335. Cracking India: Partition and Its Legacy in South Asia. 3 Credits.
What happened when the British carved Pakistan out of the predominately Muslim corners of India? Readings and films focus on the causes and consequences of this event, the Partition of India. Honors version available.

Rules & Requirements
Making Connections Gen Ed: FC-GLOBAL or FC-PAST, RESEARCH.
Making Connections Gen Ed: HS, BN, GL.
Grading Status: Letter grade.
Same as: ASIA 331, PWAD 331.

HIST 340. Ethics and Business in Africa. 3 Credits.
Explores sub-Saharan Africa both as a historical site of exploitative, extractive labor practices and initiatives to make business more ethical. Starting in the precolonial period, it considers topics such as ending the slave trades, the foundations of colonial economies, development projects postindependence, and the use of conflict minerals. Previously offered as HIST 540. Honors version available.

Rules & Requirements
Making Connections Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, BN, CI.
Grading Status: Letter grade.

HIST 344. The Global World Order from World War II to the Present. 3 Credits.
This course deals with the establishment and development of the rules-based global order towards the end of World War II. The course will help us to understand the driving forces, fears, and ideas that have led to the post-war global order and the emergence of new states and international organizations. We will discuss this system as well as the forces of nationalism, imperialism, just war ideas, great power theories, and many related themes.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

HIST 346. Dictators in the 20th Century. 3 Credits.
Dictators are typically viewed as brutal individuals who wield absolute power over their state. But, are these stereotypes true? The aims of this seminar are to dispel the myths that shroud dictators, to give students a more nuanced understanding of dictatorshipships in the 20th century, and to introduce them to biographies as a genre of historical writing.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
HIST 347. Fascist Challenge in Europe, 1918-1945. 3 Credits.
The course focuses on theories of fascism, national cultures of fascism (e.g. Nazi Germany, Fascist Italy, Hungary) as well as selected topics which are essential to understand the attraction and functioning of fascist movements and regimes since 1918 in Europe (e.g. racism, war, culture, charismatic leadership).

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: EURO 347.

HIST 348. History of Migration. 3 Credits.
By looking at case studies from the 19th to the 21st century, this seminar will help contribute to a better understanding of the current migrant crises in Europe. This course will deal with factors for migration/forced migration, possible motivations, migration experiences, as well as consequences for the migrants and the communities where they have ended up.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 349. Comparative Empires in the Modern World. 3 Credits.
This course will examine the history of how empires uses grand claims of civilization, moral, and religious claims in their foreign policy and grand strategy with a focus on the British, Ottoman, and Japanese imperial strategies. The course will also discuss contemporary legacies of British-Ottoman confrontation in WWI and British-Japanese conflict in WWII.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

HIST 350. Environmental History and Computer Science: Mapping the Black Sea. 3 Credits.
This course uses the digital technology of the 21st century to analyze the interactions of past civilizations by creating a "story map" that will visualize the ebb and flow of peoples and civilizations throughout a geographical place, the Black Sea.

Rules & Requirements
Making Connections Gen Ed: BN, GL.
Grading Status: Letter grade.

HIST 352. The Great Depression and Its Legacies. 3 Credits.
This course will assess visions for social change during the Great Depression, evaluate New Deal reforms, and address the legacy Depression-era Americans made on institutions and succeeding generations. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.

HIST 353. Cinema, Culture, and Society. 3 Credits.
After the First World War, culture in Germany became a forum for radical experimentation and a source of deep conflict. Through a consideration of art and literature, and with emphasis on mass cultural forms such as film and newspapers, this course explores the complex relationships between politics and culture and how such relationships were understood and debated in both the Weimar Republic and Nazi Germany.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 354. War and Gender in Movies. 3 Credits.
The course examines and compares the images of war and gender that movies from different time periods and countries propagate and explores the different factors that influence these images and thereby the perception and recollection of war. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: PWAD 354, WGST 353.

HIST 355. American Women's History to 1865. 3 Credits.
This course will explore women's experiences in America from 1500 to 1865. Topics will include the ways in which women have shaped American politics, economy, society, and culture.

Rules & Requirements
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.
Same as: WGST 354.

HIST 356. American Women's History, 1865 to the Present. 3 Credits.
This course will examine the changing lives of women in the United States after 1865: Their contribution to economy, society, cultural change, and political struggles.

Rules & Requirements
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.
Same as: WGST 356.

HIST 357. The U.S. South to 1865. 3 Credits.
Economic, cultural, and social history of the antebellum South. The region's political history will serve as a supporting part of the study. Previously offered as HIST 586.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 358. The New South. 3 Credits.
This course explores the transformation of the South from the time of the Civil War and emancipation to the contemporary rise of the Sunbelt. Previously offered as HIST 587.

Rules & Requirements
Grading Status: Letter grade.
HIST 359. The Early American Republic, 1789-1848. 3 Credits.
The society and politics of the United States during the period dominated by President Andrew Jackson. Topics include economic development, the expansion of slavery, religion and reform, the changing roles of women, and the political movements associated with "Jacksonian democracy." Previously offered as HIST 563.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 360. Ideas in Modern America. 3 Credits.
This course surveys questions that have preoccupied leading thinkers and shaped intellectual culture in America since 1870. Themes include the problem of defining American identity, the clash between faith and reason, social injustice, the meaning of "modernity," the power and pitfalls of ideology, conceptions of human nature. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER, RESEARCH.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 361. Lesbian, Gay, Bisexual, and Transgender Histories in the United States. 3 Credits.
This course investigates the history of people who might today be defined as lesbian, gay, bisexual, or transgender (LGBT) in the United States. Key themes will include identity formation, culture, politics, medical knowledge, discrimination, and community.

Rules & Requirements
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.
Same as: WGST 360.

HIST 362. Baseball and American History. 3 Credits.
Course explores the historical significance of baseball in American life, using the history of the game to investigate topics such as industrialization, urbanization, and immigration; conflicts between labor and capital; racial prejudice and integration; patriotism and American identity; evolving gender ideals; and the role of myth in American culture.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 363. Popular Culture and American History. 3 Credits.
Study of the popular arts and entertainments of the 19th and 20th centuries and the ways in which they illuminate the values, assumptions, aspirations, and fears of American society. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 364. History of American Business. 3 Credits.
A survey of the rise and development of the major financial, commercial, manufacturing, and transportation enterprises that transformed the United States from an agricultural into a leading industrial nation.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: MNGT 364.

HIST 365. The Worker and American Life. 3 Credits.
From the experience of colonial artisans to contemporary factory and office workers, organized and unorganized, this course examines the effect of the industrial revolution on the American social and political landscape.

Rules & Requirements
Making Connections Gen Ed: HS, NA, US.
Grading Status: Letter grade.

HIST 366. North Carolina History before 1865. 3 Credits.
The history of North Carolina from the original Indian cultures to the end of the Civil War. Important topics include colonization, the American Revolution, evangelical religion, slavery, economic and political reform, the rise of sectionalism, and the Civil War.

Rules & Requirements
Making Connections Gen Ed: HS, NA, US.
Grading Status: Letter grade.

HIST 367. North Carolina History since 1865. 3 Credits.
The history of North Carolina from the end of the Civil War to the present. Important topics include Reconstruction, agrarian protests, disfranchisement and segregation, industrialization and workers' experience, the civil rights movement, and 20th-century politics.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 368. War and American Society to 1903. 3 Credits.
The American military experience from colonial times to the early 20th century. Major themes include the problem of security, the development of military policies and institutions, and the way in which the country waged and experienced war.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: PWAD 368.

HIST 369. War and American Society. 3 Credits.
Survey of America’s military experience in the 20th century, focusing on national security policy, military institutions, World Wars I and II, the Cold War, the Korean and Vietnam Wars, and recent interventions.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: PWAD 369.
HIST 372. History of American Politics, 1932-Present. 3 Credits.
This course explores the political history of the United States from the New Deal in the 1930s to the present. Topics include the trajectories of liberalism and conservatism and the origins of today's most protracted political debates—from McCarthyism to 9/11, from Watergate to Obamacare. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 373. The United States in World War II. 3 Credits.

Rules & Requirements
Making Connections Gen Ed: HS, GL, NA.
Grading Status: Letter grade.
Same as: PWAD 373.

HIST 374. The American West, 1800 to the Present. 3 Credits.
A survey of the growth and development of the American West from the nineteenth century to the present as a culture, economy, and society. Considers the interactions between Native Americans and other people of different races, national origins and genders as agents and contributors to the forging of the American West.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 375. History of Gender in America. 3 Credits.
This course will explore how Americans from 1600 to the present have defined what is masculine and what is feminine and how they have constructed their identities around those definitions.

Rules & Requirements
Making Connections Gen Ed: HS, NA, US.
Grading Status: Letter grade.
Same as: WGST 375.

HIST 376. History of African Americans to 1865. 3 Credits.
Survey of African American history to abolition of slavery in North America with some attention to experiences of people of African descent in Latin America and the Caribbean.

Rules & Requirements
Making Connections Gen Ed: HS, NA, US.
Grading Status: Letter grade.

HIST 377. History of African Americans, 1865 to Present. 3 Credits.
Survey of African American history since emancipation in North America with some attention to experiences of people of African descent in Latin America and the Caribbean. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 378. Chinese Strategic Thought: Antiquity to the Present. 3 Credits.
This course will introduce undergraduates to Chinese strategic and military thought through the translated writings of some of China's most significant philosophers, intellectuals, and political leaders, from antiquity to the present. Students will explore historical characteristics of Chinese strategy and consider the influence of these ideas in current international relations.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: PWAD 388.
HIST 390. Special Topics in History. 3 Credits.
Subject matter will vary with instructor but will focus on some particular topic or historical approach. Course description available from departmental office. Closed to graduate students. Repeatable for credit. Honors version available.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading Status: Letter grade.

HIST 395. Research Related Skills. 1-3 Credits.
Subject matter will vary with instructor but will focus on some particular historical methodology, approach, and/or practice. Course description available from the departmental office.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.
Grading Status: Pass/Fail.

HIST 396H. Independent Study in History. 3 Credits.
Permission of the department. Directed reading under the supervision of a faculty member.

Rules & Requirements
Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading Status: Letter grade.

HIST 398. Undergraduate Seminar in History. 3 Credits.
The course is in general limited to 15 students. The subject matter will vary with the instructor. Each course will concern itself with a study in depth of some historical problem. Students will write a substantial research paper. Permission of the department. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

HIST 421. Alexander. 3 Credits.
The rise of Macedonia; the careers of Philip II and Alexander (with emphasis on the latter’s campaigns); the emerging Hellenistic Age. The course integrates computer (including Web site) and audiovisual materials throughout.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.
Same as: PWAD 421.

HIST 422. Ancient Greek Warfare. 3 Credits.
War and the warrior in the archaic and classical Greek world, seventh to the fourth centuries BCE. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 423. Archaic Greece, 800-480 BCE. 3 Credits.
HIST 225 strongly recommended. Topical approach to the social and cultural history of the ancient Greek city states, ca. 800-336 BCE.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 424. Classical Greece (Sixth-Fourth Centuries BCE). 3 Credits.
HIST 225 strongly recommended. The life and times of the ancient Athenians from the sixth to fourth centuries BCE.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 425. Roman History, 154 BCE-14 CE. 3 Credits.
Explores the transformation from Republic to Principate. Conducted in considerable part by student reports and classroom discussions.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 427. The Early Roman Empire, 14 CE-193 CE. 3 Credits.
Focuses upon administrative, social, and economic themes. Conducted in considerable part by student reports and classroom discussions.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 428. The Later Roman Empire, 193 CE-378 CE. 3 Credits.
Focuses upon administrative, social, and economic themes. Conducted in considerable part by student reports and classroom discussions.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 429. Ancient Sexuality. 3 Credits.
This course deals with the complex topic of ancient sexuality, which includes courtship, marriage, family structure, public and private morality, and law enforcement. In terms of historical method, this course teaches students how to discover evidence for social history in both diverse documentary and literary sources.

Rules & Requirements
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.

HIST 431. The Medieval Church. 3 Credits.
The nature and workings of the Western church between roughly 600 and 1300. Emphasis on the church “from within,” organization, missionary strategies, liturgy, monasticism, popular religion.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.
HIST 432. The Crusades. 3 Credits.
Students in this course will examine Christian attitudes toward holy war, crusading, and other forms of coercive violence from the 11th until the 15th centuries, with a focus on the major crusades to the Holy Land.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 434. Medieval England. 3 Credits.
A consideration of England’s origins, unification, and development as a national monarchy. Primary emphasis is on political, ecclesiastical, and cultural aspects.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.

HIST 435. The Medieval University. 3 Credits.
The origins and development of the university during the period 1100 to 1400; types of organization, curricula and degrees, intellectual life, town-gown and student-master relationships.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 437. Aristocratic Culture in the Central Middle Ages. 3 Credits.
This course has as its theme the lives of aristocratic men and women in western Europe between about 850 and 1200 CE. Discusses the nature of aristocratic identity, the trends that shaped the lives of aristocratic men and women, and the different roles of men and women within aristocratic culture.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.

HIST 438. Medieval Masculinities, 500-1200. 3 Credits.
This course examines the multifaceted constructions of masculinity found in narrative texts produced in medieval western Europe. Focuses on topics such as gender relations, male self-fashioning, homosocial bonding, family structures. Sources studied range from epic and romance to chroniclers and visual records. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, CI, WB.
Grading Status: Letter grade.

HIST 440. Gender in Indian History. 3 Credits.
An analysis of the roles of women and men in Indian societies from the early to the modern periods. Topics include the cultural construction of gender and sexuality; beauty and bodily practices; gender and religion; gender and politics; race, imperialism, and gender. Previously offered as HIST/ASIA 556.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: ASIA 440.

HIST 441. Beauty and the Body in Pre-Colonial Indian History. 3 Credits.
This course will discuss theories of beauty and the body in Indian History (c. 3 - 17th centuries) and their relation to differing constructions of gender.

Rules & Requirements
Grading Status: Letter grade.

HIST 442. Religion, Co-existence, and Conflict in Pre-Colonial India. 3 Credits.
This course traces the fascinating history of material, cultural, and theological exchanges and conflicts between individuals belonging to two of the world’s major religions: Hinduism and Islam. Throughout the course we will also analyze how modern commentators have selectively used the past to inform their understandings of the present. Previously offered as HIST/ASIA 555.

Rules & Requirements
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.
Same as: ASIA 441.

HIST 443. Settler Colonialism in Global Perspective. 3 Credits.
This seminar introduces the field of settler colonial studies and history. It investigates how settler colonial polities consolidated during and after the global “settler revolution,” how they managed relations with the imperial metropole and dealt with the Indigenous populations, whose resistance, adaptation, survival and agency also feature.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 445. Humanitarianism in Historical Perspective. 3 Credits.
This seminar examines humanitarianism in global context around 1800, beginning with the formation of humanitarian movements dedicated to alleviating suffering and especially ending slavery. It traces the movement’s complicated relationship to empire in the 19th century, and the professionalization of humanitarian aid in the 20th century.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 448. Gender and the Law in United States History. 3 Credits.
This course will explore how the law in America has defined and regulated gender and sexuality. Significant topics will range from marriage, reproduction and the family to suffrage, work, and social movements. Honors version available.

Rules & Requirements
Making Connections Gen Ed: NA, US.
Grading Status: Letter grade.
HIST 452. The Renaissance: Italy, Birthplace of the Renaissance, 1300-1550. 3 Credits.
A study of the people, culture, and intellectual achievements of the Italian Renaissance with emphasis on the interaction between culture and society.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 453. Mediterranean Societies and Economics in the Renaissance World. 3 Credits.
A picture of Mediterranean social and economic life 1300 to 1600, with special focus on rural and urban society, family structure, patronage, work and wages, public and private finance.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

HIST 454. The Reformation. 3 Credits.
Examines a movement of religious reform that shattered Latin Christendom and contributed many of the conditions of early modern Europe. Emphases: religious, political, social.

Rules & Requirements
Grading Status: Letter grade.
Same as: RELI 454.

HIST 456. The Holocaust, Genocide and Historical Methodology. 3 Credits.
This seminar will familiarize students with foundational works of Holocaust historiography as well as with newer works that challenge old interpretations and methodologies. Throughout the course we will look at the mutual influences of historical writing and memory of the Holocaust as societies have come to terms with the dark past of the Second World War; the course will also examine historical writing as a form of representation and memory. Previously offered as HIST 743.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: BS, GL.
Grading Status: Letter grade.

HIST 457. Liberalism, Socialism, and Fascism in Europe. 3 Credits.
This seminar examines liberal, socialist, communist, and fascist political systems in Europe during the twentieth century by comparing and contrasting their ideologies and approaches to their citizens' welfare. The seminar compares European and US experiences, and also attends to conservative critiques of the expansion of government activity in the 1940s.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 458. Europe and the World Wars, 1914-1945. 3 Credits.
Europe and the experience of total war, with special focus on national conflicts; ideological conflicts among fascism, communism, and liberalism; and the dictatorships of Hitler and Stalin.

Rules & Requirements
Grading Status: Letter grade.

HIST 459. Global Evangelicalism since 1600. 3 Credits.
This is a survey of evangelical Christianity from 1600 to the present. We will trace the roots of evangelicalism in post-Reformation Europe, its diverse expressions and political influence in modern Western culture, and its recent spread throughout the Global South.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

HIST 462. Germany, 1806-1918: Politics, Society, and Culture. 3 Credits.
This course examines the changes in German politics, culture, and society during the long 19th century, with a focus on the Anti-Napoleonic Wars and the following era of restoration, the Vormärz and the Democratic Revolution of 1848 to 1849, the German Unification of 1871 and the Wilhelmine Empire, and finally World War I. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 463. Germany since 1918: Politics, Society, and Culture. 3 Credits.
This course examines the changes in German politics, culture, and society during the 20th century, with a focus on the Weimar Republic, the Third Reich and World War II, the reshaping of East and West Germany since the post-war era, and the unification in 1989. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 466. Modern European Intellectual History. 3 Credits.
The main developments in European thought from the Enlightenment to the 20th century, with some attention to social context. Readings include Voltaire, Rousseau, Hegel, Marx, Tocqueville, Sand, Flaubert, Nietzsche, Freud. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 468. Art, Politics, and Society in France, 1850-1914. 3 Credits.
An examination of the interaction of artists, criticism, and the market with larger political and social developments in France, with an emphasis on primary sources.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.
Same as: ARTH 483.

HIST 469. European Social History. 3 Credits.
The social transformation of Europe from agrarian through postindustrial society, discussing population growth, family history, spread of education, class structure, social conflict, group ideologies, and mass politics, as well as everyday lives and popular lifestyles.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
HIST 474. Britain in World Affairs: British Foreign Policy since World War II. 3 Credits.
The course provides a historical, political, and socio-economic framework for understanding British history and politics in the 20th and 21st centuries. We will assess important turning points in domestic British politics, the main focus will be on Britain's foreign relations during both the Cold War and the post-Cold War years.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 475. History of Feminism. 3 Credits.
This course will examine the unprecedented surge of feminist thought and activism in the postwar United States. Course materials and discussions will trace feminists' varied conceptions of empowered womanhood and their expectations of the state, society at large, and each other. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.
Same as: WGST 476.

HIST 476. Religion and Ethnicity. 3 Credits.
The history of modern Eastern, East Central, and southeastern Europe has been shaped by the ethnic and religious diversity of the regions. This course examines experiences in the Russian, Habsburg, and Ottoman Empires and their successor states from the 19th century to the present day.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: WGST 476.

HIST 477. Revolution in Russia, 1900-1930. 3 Credits.
A close study of Russia's age of revolution from the reign of the last tsar to the turbulent Stalin Revolution of 1929, with emphasis on the revolutions of 1917.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 478. Stalin and After: The USSR, 1929-Present. 3 Credits.
An in-depth examination of Soviet and post-Soviet history from 1929 to the present.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 479. History of Female Sexualities. 3 Credits.
Spanning the ancient, medieval, and modern West, this course explores normative and non-normative female sexualities, ideas about female bodies, and the regulation of female sexuality by families, religions, and states.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: WGST 479.

HIST 480. Russia's 19th Century: Cultural Splendor, Imperial Decay. 3 Credits.
The diplomatic, military, and ideological confrontations with the West; the decline and fall of the Russian autocracy; the evolution of reform thought; and revolutionary opposition.

Rules & Requirements
Grading Status: Letter grade.

HIST 481. From Communists to Capitalists: Eastern Europe since 1945. 3 Credits.
An examination of the countries of Eastern Europe, their origins and development since World War II, their cohesion and conflict.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 482. Russia, Eurasian Empire. 3 Credits.
This course examines the development of the Russian Empire, from the Mongol conquest in the 13th century to the transformation of Imperial Russia in the Soviet Union after 1917.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 483. Nation and Religion in Russia. 3 Credits.
This course explores the role of nation and religion in shaping political, cultural, and social experience and change in Tsarist and Soviet Russia through the prism of Christianity, Islam, and Judaism.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 484. Islam in Tsarist and Soviet Russia. 3 Credits.
This course examines the role that Islam has played in the history of the Russian sphere—interior Russia, Siberia, the Caucasus, and Central Asia—from the 18th century to the present. Topics include methods of rule, social change, Islamic institutions, attempts to bureaucratize religion, and resistance.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 485. From Fiddler on the Roof to the Holocaust: East European and Soviet Jewish History. 3 Credits.
Eastern Europe was one of the largest centers of Jewish civilization from premodern times to the Second World War, giving rise to important religious, cultural, and political developments in Jewish modernity. This course examines main developments of Jewish society from the late 18th century until the aftermath of the Holocaust.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 486. From Communists to Capitalists: Eastern Europe since 1945. 3 Credits.
HIST 486. Extremism, Terrorism, and Security in Postwar Europe. 3 Credits.
In the debate on how to efficiently combat terrorism without abandoning the rule-of-law, it is often neglected that this is not a new problem. This course will examine European states’ reactions to national and international terrorism since the 1960s. Case studies will include Germany, Italy, and the United Kingdom. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: PWAD 485.

HIST 488. Global Intellectual History. 3 Credits.
This seminar studies the circulation, exchange, translation, reception, and adaptation of political, social, and cultural ideas across time and space. After considering systems of knowledge in Asia, Africa, and the Americas, the seminar explores reactions to European empire. Themes include (de)coloniality, modernity, development, conceptions of nationality, race, and civilizations. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 489. The History of the 2008 Financial Crisis. 3 Credits.
This course explores the 2008 financial crisis as a window into the longer history of global capitalism. We consider the construction of the sub-prime mortgage market, mass securitization, deregulation, and the interconnected nature of global finance, as well as the historical development of crises within financial capitalism. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 490. Special Topics in History. 3 Credits.
Subject matter will vary with instructor but will focus on some particular topic or historical approach. Course description available from the departmental office. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading Status: Letter grade.

HIST 493. Internship in History. 1-3 Credits.
Permission of the director of undergraduate studies. A supervised internship at an organization or institution engaged in the promotion of historical studies or the collection and preservation of historical documents and artifacts.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading Status: Letter grade.

HIST 495. Directed Readings in History. 1-3 Credits.
Permission of the director of undergraduate studies. Directed reading and relevant writing, supervised by a member of the department, in a selected field of history.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

HIST 496. Independent Research in History. 1-3 Credits.
Permission of the director of undergraduate studies. Directed primary source research and production of a research project, supervised by a member of the department. Prior coursework in the selected field is recommended.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

HIST 500. Gender, Empire, and Nation. 3 Credits.
This course explores the growing body of research on gender, empire, and nation/nationalism in modern European history by focusing on problems of national belongings and citizenship, state and nation building and empire formation, and the gendered discourses and representations of nation and empire.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: WGST 500.

HIST 508. Europe and Humanitarian Aid since 1945: Concepts, Actors, Practices. 3 Credits.
This seminar offers students an insight into the role of Europe within the global regime of humanitarian aid. After looking at the history and at theoretical definitions of humanitarianism, the course will examine a variety of case studies to assess the changing role of Europe in the post-war era.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

HIST 509. The World History of Slavery. 3 Credits.
This course considers slavery in comparative context, from ancient times to the present and across the world. It offers a chronological narrative and raises themes for comparison, including women in slavery and challenges to slavery. This approach allows for a wide view of this pervasive institution and develops analytical skills.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.

HIST 510. Human Rights in the Modern World. 3 Credits.
This course looks at the international history of human rights from the Enlightenment to the present and considers how human rights ideas first emerged, how they evolved, and how they became so influential. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
**HIST 511. 9/11 in World History. 3 Credits.**
This course focuses on three great decolonization movements—Communism, Nationalism, and Islamism—in the postcolonial Islamic world, in an attempt to understand the impact of the 9/11/2001 terrorists attacks on the social, political, and cultural life of Muslims in predominantly Islamic countries and diasporic communities in the West. Honors version available.

**Rules & Requirements**
**Making Connections Gen Ed:** HS, GL.
**Grading Status:** Letter grade.

**HIST 514. Monuments and Memory. 3 Credits.**
Explores the role of monuments in the formation of cultural memory and identity, both nationally and globally. Topics include the construction of identities in and through public spaces, commemoration of both singular individuals and ordinary citizens, and the appearance of new types of post-traumatic monuments in the 20th century.

**Rules & Requirements**
**IDEAs in Action Gen Ed:** FC-AESTH or FC-PAST.
**Making Connections Gen Ed:** HS, NA.
**Grading Status:** Letter grade.
**Same as:** ARTH 514.

**HIST 516. Historical Time. 3 Credits.**
This course explores the ways in which Western historians and other students of the past from Adam Ferguson to Stephen Jay Gould have conceptualized and packaged historical time. Honors version available.

**Rules & Requirements**
**Making Connections Gen Ed:** HS, NA.
**Grading Status:** Letter grade.

**HIST 517. Gender, Military, and War. 3 Credits.**
This course introduces students to new research on the history of gender, the military, and war in a comparative perspective. It explores the interrelations between changing military systems, types of warfare, the gender order, as well as political, social, and cultural currents in modern history.

**Rules & Requirements**
**Making Connections Gen Ed:** HS, NA.
**Grading Status:** Letter grade.
**Same as:** PWAD 517, WGST 517.

**HIST 518. Colloquium in World Military History. 3 Credits.**
Reading colloquium in world military history, emphasizing Europe, focusing on the most significant issues, methods, and approaches in the field today.

**Rules & Requirements**
**Grading Status:** Letter grade.

**HIST 526. History of the Andes. 3 Credits.**
This course offers a survey of the history of the Andean region. The primary focus will be either the pre-Inca, Inca, and colonial periods or the 19th and 20th centuries, depending on the instructor.

**Rules & Requirements**
**Making Connections Gen Ed:** HS, BN.
**Grading Status:** Letter grade.

**HIST 531. History of the Caribbean. 3 Credits.**
Thematic approach to the history of the West Indies, with emphasis on the period from European conquest through the 20th century. Topics include colonialism, slavery, monoculture, United States-Caribbean relations, and decolonization.

**Rules & Requirements**
**Grading Status:** Letter grade.

**HIST 532. History of Cuba. 3 Credits.**
Thematic approach to Cuban history, from conquest to the revolution. Attention is given to socioeconomic developments, slavery and race relations, the 19th-century independence process, and the 20th-century republic.

**Rules & Requirements**
**Grading Status:** Letter grade.

**HIST 534. The African Diaspora. 3 Credits.**
A comparative examination of the movements, experiences, and contributions of Africans and people of African descent from the period of the Atlantic slave trade to the present.

**Rules & Requirements**
**Making Connections Gen Ed:** HS, BN, GL.
**Grading Status:** Letter grade.

**HIST 535. Women and Gender in African History. 3 Credits.**
Analysis of historical transformations in Africa and their effects on women's lives and gender relations. Particular themes include precolonial societies, colonialism, religious change, urban labor, nationalism, and sexuality. Honors version available.

**Rules & Requirements**
**Making Connections Gen Ed:** HS, BN.
**Grading Status:** Letter grade.

**HIST 536. Revolution in the Modern Middle East. 3 Credits.**
This course will focus on revolutionary change in the Middle East during the last century, emphasizing internal social, economic, and political conditions as well as international contexts.

**Rules & Requirements**
**Grading Status:** Letter grade.
**Same as:** ASIA 536.

**HIST 537. Women in the Middle East. 3 Credits.**
Explores the lives of women in the Middle East and how they have changed over time. Focus will change each year.

**Rules & Requirements**
**Making Connections Gen Ed:** HS, BN.
**Grading Status:** Letter grade.
**Same as:** ASIA 537, WGST 537.

**HIST 538. The Middle East and the West. 3 Credits.**
This course explores changing interactions between the Middle East and the West, including trade, warfare, scientific exchange, and imperialism, and ends with an analysis of contemporary relations in light of the legacy of the past.

**Rules & Requirements**
**Grading Status:** Letter grade.
**Same as:** ASIA 538.
HIST 539. The Economic History of Southeast Asia. 3 Credits.
This course is intended as a broad overview of Southeast Asian economic history from premodern times to the present day.

Rules & Requirements
Grading Status: Letter grade.
Same as: ASIA 539.

HIST 550. Gender in Chinese History. 3 Credits.
This course is designed to introduce undergraduates to recent historical scholarship in the field of Chinese gender studies. Topics include family and kinship, the body and bodily practices, social space, writing, sexuality, work, and law, covering both the premodern and modern periods. No prior coursework required.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 557. Fiction and History in India. 3 Credits.
This course examines the histories, representations, and cultural perceptions surrounding bandits and rebels in modern India. The representations of bandits and rebels are studied in the light of the emergence of nationalism, shifting notions of gender and masculinity, race relations, and emergence of capitalist structures.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.

HIST 561. Oral History and Performance. 3 Credits.
This course combines readings and field work in oral history with the study of performance as a means of interpreting and conveying oral history texts. Honors version available.

Rules & Requirements
Ideas in Action Gen Ed: HI-PERFORM.
Grading Status: Letter grade.
Same as: COMM 562, FOLK 562, WGST 562.

HIST 565. Civil War and Reconstruction, 1848-1900. 3 Credits.
Focus is on causes, nature, and consequences of the Civil War.

Rules & Requirements
Grading Status: Letter grade.
Same as: PWAD 565.

HIST 566. The History of Sexuality in America. 3 Credits.
A history of the sexual practices, desires, and understandings of Americans, from earliest colonial encounters to the late 20th century.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 568. Women in the South. 3 Credits.
An exploration of the distinctive themes in Southern women's lives, using the evidence of history and literature.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 570. The Vietnam War. 3 Credits.
A wide-ranging exploration of America’s longest war, from 19th-century origins to 1990s legacies, from village battlegrounds to the Cold War context, from national leadership to popular participation and impact.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: ASIA 570, PWAD 570.

HIST 571. Southern Music. 3 Credits.
Explores the history of music in the American South from its roots to 20th-century musical forms, revealing how music serves as a window on the region’s history and culture.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: FOLK 571.

HIST 576. The Ethnohistory of Native American Women. 3 Credits.
Introduces students to the study of Native American women through the perspectives of anthropology, history, and autobiography.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: WGST 576.

HIST 577. United States Foreign Relations in the 20th Century. 3 Credits.
How the United States came to occupy a leading role in world affairs as a diplomatic, military, economic, and cultural power and what that role has meant to Americans and to other peoples, especially during the Cold War.

Rules & Requirements
Making Connections Gen Ed: HS, GL, NA.
Grading Status: Letter grade.
Same as: PWAD 577.

HIST 578. Transatlantic Relations and Contemporary Geo-Politics from the Cold War to the Present. 3 Credits.
This course considers transatlantic relations in its security, political, and economic dimensions. The course also analyzes U.S. attempts to construct a more united European continent. It is the main aim of this course to give students a structured overview of transatlantic relations and geo-political developments from 1945 to the present.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: PWAD 578.

HIST 580. International Relations and Public History. 3 Credits.
The course combines an academic and practical approach to policy formulation, implementation, and critical evaluation at the global level and based on a solid historical foundation. This course is tightly integrated with the UNC Krasno Global Events Series. Many of the talks in the series as well as the reading material in preparation deal with issues of 20th history, such as the Cold War years, US foreign policy, America's relations with the wider world.

Rules & Requirements
Ideas in Action Gen Ed: FC-GLOBAL or FC-PAST.
Grading Status: Letter grade.
HIST 581. American Constitutional History to 1876. 3 Credits.
In a classroom environment characterized by discussion, simulation, and interaction, the antecedents, formation, and interpretation of the Constitution are confronted in a broad historical matrix.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 582. American Constitutional History since 1876. 3 Credits.
Using a classroom environment similar to HIST 581, constitutional adjustments and change are related to psychological, political, social, and economic factors, and to Supreme Court members.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 584. The Promise of Urbanization: American Cities in the 19th and 20th Centuries. 3 Credits.
A survey of the development of American cities since 1815 and their influence upon American history.

Rules & Requirements
Grading Status: Letter grade.

HIST 585. Race, Basketball, and the American Dream. 3 Credits.
This course explores how Americans have used basketball for integration, economic mobility, and political protest. Particular focus is on how black Americans have used the game for individual expression and political and economic advancement; and the ways the game has influenced ideas about race, "whiteness," and "blackness" in our society.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.

HIST 587H. The New South. 3 Credits.
This course explores the transformation of the South from the time of the Civil War and emancipation to the contemporary rise of the Sunbelt.

Rules & Requirements
Grading Status: Letter grade.

HIST 589. Race, Racism, and America: (United States) Law in Historical Perspective. 3 Credits.
This course will historically and critically examine the changing legal status of people of color in the United States. Within a broad historical matrix from the colonial era to the present, it will focus on African Americans, Native Americans, Asian Americans, Latina/os, and United States law.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

HIST 593. Exploring the U.S. South Hands On and Ears Open: Internship at the Southern Oral History Program. 3 Credits.
Interning at the SOHP offers experiential education in the intellectual, organizational, and practical work of oral history. You will learn to do oral history interviews, contribute to a collaborative research project, and help this esteemed research center with programming, processing interviews, communications, and digital projects. We accept four interns per semester and you must apply through the Southern Oral History Program.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

HIST 670. Introduction to Oral History. 3 Credits.
Introduces students to the uses of interviews in historical research. Questions of ethics, interpretation, and the construction of memory will be explored, and interviewing skills will be developed through field work.

Rules & Requirements
Making Connections Gen Ed: HS, EE- Mentored Research, NA.
Grading Status: Letter grade.

HIST 671. Introduction to Public History. 3 Credits.
Introduces the theory, politics, and practice of historical work conducted in public venues (museums, historic sites, national parks, government agencies, archives), directed at public audiences, or addressed to public issues.

Rules & Requirements
Making Connections Gen Ed: HS, EE- Mentored Research, NA.
Grading Status: Letter grade.

HIST 672. Writing for a Popular Audience. 3 Credits.
A seminar on the art of translating academic expertise for a general audience. Students read model works ranging from philosophy to biology, workshop story ideas, and learn how to publish in print and online media. Open to all disciplines.

Rules & Requirements
Making Connections Gen Ed: CI.
Grading Status: Letter grade.

HIST 691H. Honors in History. 3 Credits.
Permission of the instructor. Introduction to the methods of historical research; designed to lead to the completion of an honors essay.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.
HIST 692H. Honors in History. 3 Credits.
Permission of the instructor. Introduction to the methods of historical research; designed to lead to the completion of an honors essay.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

History Major, B.A.
The Department of History educates students about the past, teaching them to discover the rich diversity of historical human experiences. The study of history also equips students with the valuable critical thinking, research, and communication skills they need to succeed in the present, preparing them for a wide variety of careers and a life of informed citizenship.

Student Learning Outcomes
Upon completion of the history program, students should be able to:

- Produce and document original knowledge about the past in a field of expertise
- Communicate historically informed knowledge in written, digital, and/or oral forms

Requirements
In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Each major shall concentrate in one area (see lists below), or students must devise a thematic concentration and have it approved by the chair of the Undergraduate Studies Committee.

The Department of History offers multiple sections of the required HIST 398 undergraduate seminar each semester. Each section focuses on a different topic. Prior to the course registration period, the Department of History will distribute to all history majors information about the next semester’s offerings of HIST 398.

All College of Arts and Sciences policies apply, including (but not limited to) the following:

- No history course may be taken for Pass/Fail credit (even if the course serves as a free elective).
- A maximum of 15 history courses (45 hours) may be applied toward the B.A. degree. Any courses beyond the minimal 10 (but not above the maximum of 15) will count as free electives.
- No more than five courses (15 hours) of transfer credit and College Board Advanced Placement/International Baccalaureate credit may count toward the major. Up to five courses (15 hours) of transfer credit may count toward the major, but only up to two courses (six hours) of College Board Advanced Placement or International
Baccalaureate credit may count toward the major. In no case can the combination of transfer credits and AP/IB credits exceed 15 hours.

History (HIST) course descriptions (p. 633).

History Major, NUS Joint Degree

History majors may wish to consider applying for the Joint Degree Program (https://studyabroad.unc.edu/find-program/joint-degree/), an innovative undergraduate degree program joining UNC–Chapel Hill and the National University of Singapore, one of the top universities in Asia and the world. UNC–Chapel Hill undergraduates spend from two to four semesters at the National University of Singapore and receive a joint bachelor of arts degree with a major in history from both institutions.

Special Opportunities in History

Honors in History

The departmental honors program is open to any qualified history major with at least a 3.3 cumulative grade point average and, under normal circumstances, a 3.4 in history courses, and experience in
research and writing derived from an undergraduate seminar in history (HIST 398). The student pursuing a degree in history with honors must take HIST 691H and HIST 692H; these two courses contribute credit hours toward fulfilling field-of-concentration requirements, depending on the topic of the thesis. The student, in consultation with the honors director, will choose a topic and locate an appropriate faculty member to supervise a senior honors thesis. In HIST 691H the mechanics of researching and writing a senior essay will be discussed and a start made on the essay itself. In HIST 692H the essay will be completed and the student examined by the supervisor and at least one additional faculty member to be agreed upon by the student and supervisor. To receive highest honors the essay must be recommended by the examiners and a review committee. The director of honors, in consultation with the examiners and review committee, will recommend that the student who has defended the essay graduate with either honors or highest honors, or merely with course credit. Students should submit applications for the honors program by the end of February during their junior year. For detailed guidelines click here (http://history.unc.edu/undergraduate-program/senior-honors-thesis/) or contact the director of honors in the Department of History.

**Departmental Involvement**

Students with broad interests in the intellectual and social life of the department may volunteer to serve on the department’s Undergraduate Studies Committee (UGSC). Each spring the department invites majors to volunteer for the UGSC, and the selection is made at the start of the next fall semester by the faculty members on the UGSC. Students may also plan or participate in activities organized by the Undergraduate History Club as well as, for those who are eligible, UNC-Chapel Hill’s chapter of Phi Alpha Theta (described more fully below under “Undergraduate Programs”). For more information about the UGSC, the History Club, and Phi Alpha Theta, see department's website (https://history.unc.edu/) or contact the coordinator for undergraduate studies in the Department of History.

**Experiential Education**

In some cases, students majoring in history may wish to pursue internship opportunities. Questions and requests regarding internships should be directed to the department’s lecturer/advisor, who has responsibility for evaluating internship proposals and deciding whether an internship may be taken for academic credit. For more information, click here (http://history.unc.edu/undergraduate-program/internship-opportunities-for-history-majors/).

All history majors will receive credit for the Research and Discovery requirement (in the IDEAs in Action General Education curriculum) or the Experiential Education requirement (in the Making Connections General Education curriculum) when they complete HIST 398.

**Study Abroad**

The department strongly encourages its students to explore the many study abroad opportunities provided by the Study Abroad Office. The experience of studying abroad opens intellectual horizons that can be glimpsed only in unfamiliar worlds, and it deepens one’s appreciation for the enduring power of historical context and circumstance.

The Department of History participates in a unique joint degree program with the National University of Singapore. The department also has an exchange program with King’s College in London. For further information about both programs, contact the Study Abroad Office and the director of undergraduate studies in the department. General information for history majors wishing to study abroad can be found on the department’s website (http://history.unc.edu/undergraduate-program/study-abroad/).

**Undergraduate Awards**

All majors who complete the required undergraduate seminar (HIST 398) are automatically eligible for the annual Joshua Meador Prize, awarded to the author of the best seminar paper written in the preceding calendar year. A named prize is also awarded to the author of the best honors thesis; the award is announced at the annual spring honors banquet.

The Department of History sponsors a chapter of Phi Alpha Theta, the national history honor society. Students who have taken 12 hours of history courses at UNC-Chapel Hill and who have an overall grade point average of 3.0 and an average in history courses of 3.1 are eligible to apply for membership. An announcement regarding applications for Phi Alpha Theta will be distributed to all history majors in the fall semester.

**Undergraduate Research**

The Department of History encourages undergraduate research in a variety of ways. The required seminar for majors (HIST 398) introduces students to historical research. The senior honors program (HIST 691H and HIST 692H) gives students an opportunity to carry out a yearlong research project. In both the fall and spring semesters, senior honors students may apply for competitive awards, including the Michael L. and Matthew L. Boyatt Awards in History for Undergraduate Research and the David Anthony Kusa Undergraduate Research Award, to help support travel for the purpose of research.

**History Minor**

The study of history is an essential part of a liberal arts education and offers valuable preparation for many careers: in law, journalism, libraries, and museums; in local, state, and national public service; in business; in international work; and, of course, in historical research and teaching.

### Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

### Medieval and Early Modern Studies (MEMS) Minor

The undergraduate minor in medieval and early modern studies provides students with a broad, humanities-based approach to the rich and fascinating cultures that flourished globally from around 500 CE to 1800 CE.

### Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

This interdisciplinary minor requires students to take five classes representing at least three different subject codes.
The following courses are approved for the MEMS minor. With the prior approval of the MEMS minor supervisor up to two courses can be applied to the minor as transfer credits from other institutions.

Interdisciplinary Studies

Introduction

The interdisciplinarity studies major (IDST), designed by the student and the student’s faculty advisor, is intended for students who wish to develop a major different from those already offered by the University. An IDST major has more focus than many of the more traditional majors and therefore should not be seen as a default major for someone undecided about his or her course of study. The IDST major must be well conceived and substantially different from majors that students pursue through traditional departments, schools, and curricula. Students must have a grade point average of at least 3.0 and at least 45 hours left before graduation so that they can complete the major in their time left. All IDST students must identify a faculty advisor who, in the absence of a department and a director of undergraduate studies, will serve as their mentor on course selections, career planning, graduate work, and advanced study. Students are strongly encouraged to meet all of the General Education Foundations and Approaches requirements before pursuing the IDST major. The IDST major offers a special opportunity to define a coherent course of study. It is not intended to provide a path that parallels existing majors, nor is it intended to replicate courses of study in the professional schools. The Advisory Board strongly discourages double majors in the IDST program, since focused study in one field is the best path to advancement.

The IDST program is directed by the associate dean for undergraduate curricula in conjunction with an advisory board, representing the three divisions of the College. The board reads and approves all proposals, and initiates any policy changes, with the associate dean serving as initial advisor. Students interested in an interdisciplinary degree program not covered by any degree-granting department or curriculum should apply to the program director for interdisciplinary studies.

In the past, students have designed their own majors in such varied fields as medieval studies, food studies, arts management, medical geography, neuroscience, healthcare policy, medical humanities, cultural studies, behavioral finance, urban studies, documentary studies, computational physics, and ethnobotany.

Major

- Interdisciplinary Studies Major, B.A. (p. 676)

IDST—Interdisciplinary Studies
Undergraduate-level Courses

IDST 89. First-Year Seminar: Special Topics. 3 Credits.
Content varies each semester.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

IDST 101. College Thriving. 1 Credits.
College Thriving empowers all students to participate fully in the opportunities of a research university and find resources to support them in their educational pursuits at Carolina. The course enhances and provides new tools to support students’ ability to study systematically, learn deeply, and monitor and foster their own well-being. First-year students only. Members of Honors Carolina will fulfill this requirement with HNRS 101 instead.

Rules & Requirements

IDEAs in Action Gen Ed: FY-THRIVE.
Grading Status: Pass/Fail.

IDST 111. Triple-I: Ethics, Economics, and Public Policy. 3 Credits.
This interdisciplinary course provides an overview of core tools used to analyze issues at the intersection of ethics, economics and public policy. It introduces students to the tools of economic analysis, including markets, prices, and market failures; discusses the ethical dimensions of markets and public policy, including socio-economic justice, the nature of well-being, and individual liberty; and describes challenges in political organization and action that confront policy makers motivated by economic or ethical objectives.

Rules & Requirements

IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 190L.
Grading Status: Letter grade.
IDST 112. Triple-I: Death and Dying. 3 Credits.
Death and dying are universal human experiences. Yet there are cultural and historical variations in how we define and experience death and dying. This course explores the concepts of death and dying from three different disciplines (examples may include, but are not limited to, Anthropology, English and Comparative Literature, and Psychology and Neuroscience). This course will consider similarities and differences between the discipline research methodologies and introduce students to data literacy and principles of evidence.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 190L.
Grading Status: Letter grade.

IDST 113. Triple-I: The Idea of Race. 3 Credits.
The idea that humans can be divided into distinct races has been used to justify the persecution, enslavement, and extermination of groups based on their presumed inferiority. Today, scientists agree that what we describe as races are in fact social constructs, not genetic realities. Students will learn why race is not a viable biological concept, how the idea of race arose and is maintained, and what alternatives exist for understanding diversity and change over time.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 190L.
Grading Status: Letter grade.

IDST 114. Triple-I: Science Fiction, the Environment, and Vulnerable Communities. 3 Credits.
This course focuses on the question of how the genre of science fiction has been used to address the world’s environmental concerns and how these concerns affect communities differently depending on their gender, race, and class. The course investigates global environmental challenges including resources, overpopulation, consumption, and climate change. Emphasis will be placed on texts and characters created by women and ethnic minorities. Students will be introduced to comparative, global, intersectional, and interdisciplinary approaches.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 190L.
Grading Status: Letter grade.

IDST 115. Triple-I: Understanding Health and Happiness. 3 Credits.
This course exposes students to diverse scientific approaches to understanding happiness and subjective and physical well-being. The three professors offer perspectives from three disciplines: physiology, psychology, and sociology. The course teaches students research skills as well as evidence-based life skills, such as teamwork, developing social connections including “belongingness” at UNC, being physically active, and becoming confident that they can deploy these skills to increase their happiness and health.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 190L.
Grading Status: Letter grade.

IDST 116. Triple-I: Gender. 3 Credits.
This course will consider gender through the lenses of three distinct disciplines. We will explore gender-related issues and consider how gender has been conceptualized, represented, and challenged throughout history. This course will establish a foundation from which students can think critically about gender from multiple perspective-personal, social, cultural, and political.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 190L.
Grading Status: Letter grade.

IDST 117. Triple-I: Experiencing Latin America: Bodies, Belonging, Nature. 3 Credits.
This course examines linguistic, geopolitical, and socio-environmental boundaries to foster an inter-sectional understanding of identity and belonging in the Americas. Course topics (e.g., migration, justice, environmental well being) are examined through Spanish language-based films and artwork. Students will expand their understanding of the Spanish language, context art, and global issues. Students will have assignments that involve performance, creative design, and fabrication.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 190L.
Grading Status: Letter grade.

IDST 118. Triple-I: Fake News, Real Science. 3 Credits.
How can you distinguish "good" science and "bad" science in the world around you? This course focuses on scientific literacy, the defining characteristics of "good" science, and how to identify logical fallacies and heuristic shortcuts that make legitimate science difficult to discern. We will discuss best practices for science educators and journalists to effectively communicate accurate scientific knowledge. Each semester we will focus on two relevant science issues, e.g COVID-19 and climate change.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 190L.
Grading Status: Letter grade.

IDST 119. Triple-I: Food: People, Politics, and Policies. 3 Credits.
Have you ever thought about the food you eat? If you ate a hamburger or a salad, where did that meal come from? If you were living in a different country, what would this meal look like? Who are the laborers who made the meal possible? Is your body designed for this food? How do we make policies about food? What are the ethical concerns around food? This course will discuss these questions and more.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 190L.
Grading Status: Letter grade.
IDST 180. First-Generation College Students in Higher Education. 1 Credits.
First-generation college students will have the opportunity to explore their first-generation identity and start to define what it means for them to be a scholar and citizen leader. The course will introduce scholars to educational research on the first-generation college student experience and allow scholars the opportunity to reflect on their own experience and salient identities in the college environment. Education equity and diversity in higher education will be addressed through course readings and activities.

Rules & Requirements
Grading Status: Letter grade.

IDST 184. Research beyond Academia. 1 Credits.
Researchers from the Triangle region and beyond will discuss their research to provide students with exposure to research opportunities and careers outside academia. This course meets a requirement for the Carolina Research Scholars Program.

Rules & Requirements
Grading Status: Pass/Fail.

IDST 190. Triple-I: Special Topics. 3 Credits.
This is a Triple-I special topics course. Content varies each semester.

Rules & Requirements
IDEs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 190L.
Grading Status: Letter grade.

IDST 190L. Special Topics in Interdisciplinary Studies Lab. 1 Credits.
Special topics course. Content varies each semester.

Rules & Requirements
Grading Status: Letter grade.

IDST 194. Modes of Inquiry. 1 Credits.
A seminar in which faculty discuss their own work. Students will learn how topics are defined and investigated and how undergraduates can engage in discovery. Pass/Fail only.

Rules & Requirements
Grading Status: Pass/Fail.

IDST 195. Undergraduate Research Consulting Team. 1 Credits.
A mentored research course for students participating in an undergraduate research consulting team under the supervision of a faculty advisor. Requires participation in research and a report/presentation.

Rules & Requirements
Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.
Grading Status: Pass/Fail.

IDST 201. Increasing Diversity in STEM Research. 1 Credits.
Required of Chancellor’s Science Scholars and open to others by permission of the instructor. The course will explore the broad range of STEM research available at UNC-Chapel Hill, and will address issues of developing more diversity in the STEM research workforce nationwide. Permission of the instructor to add and drop this course.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Pass/Fail.

IDST 290. Special Topics in Interdisciplinary Studies. 1-3 Credits.
Special topics course. Content varies each semester.

Rules & Requirements
Grading Status: Letter grade.

IDST 396. Independent Study. 1-3 Credits.
Independent project to be arranged with an instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses
IDST 496. Independent Study. 1-6 Credits.
Permission of the department. Special reading and research for graduate and undergraduate students on a specific interdisciplinary topic under the direction of a faculty member.

Rules & Requirements
Repeat Rules: May be repeated for credit. 12 total credits. 2 total completions.
Grading Status: Letter grade.

IDST 691H. Senior Honors Thesis. 3 Credits.
Permission of the instructor. Required of all senior honors candidates.

Rules & Requirements
IDEs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.
IDST 692H. Senior Honors Thesis. 3 Credits.
Permission of the instructor. Second semester of senior honors thesis; required of all senior honors candidates.

Rules & Requirements
IDST 692H is a Senior Honors Thesis which requires 3 Credits. Permission of the instructor is required.

Grading Status: Letter grade.

Interdisciplinary Studies Major, B.A.
The interdisciplinary studies major, designed by the student and the student’s faculty advisor, is intended for students who wish to develop a major different from those already offered by the departments and curricula belonging to the College of Arts and Sciences.

An IDST major has more focus than many of the more traditional majors and therefore should not be seen as a default major for someone undecided about his or her course of study. The IDST major must be well conceived and substantially different from majors that students pursue through traditional departments, schools, and curricula. Students must have a grade point average of at least 3.0 and at least 45 hours left before graduation so that they can complete the major in their time left. All IDST students must identify a faculty advisor who, in the absence of a department and a director of undergraduate studies, will serve as their mentor on course selections, career planning, graduate work, and advanced study. Students are strongly encouraged to meet all of the General Education Foundations and Approaches requirements before pursuing the interdisciplinary studies major.

Requirements
In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Curriculum in Latin American Studies
Introduction
The three main goals of the Curriculum in Latin American Studies are

- to develop students’ basic knowledge and comprehension of key themes in Latin American and Caribbean history, cultures, and contemporary social, economic, and political issues;
- to develop students’ abilities to think critically, in an interdisciplinary manner, about Latin American and Caribbean issues, past and present, and to locate them within broader global perspectives;
- to develop students’ proficiency in Spanish or Portuguese and other languages of the region as needed, as part of their program of study.

Advising
All majors have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies (DUS) works with current and prospective
majors by appointment. Majors are expected to meet with the LTAM DUS once a semester and to attend at least one meeting of the LTAM majors a year. Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research and internship funding opportunities, and the honors program may be obtained through the Curriculum in Latin American Studies web page (http://isa.unc.edu) or by contacting the director of undergraduate studies (see contacts tab above).

Graduate School and Career Opportunities

The Curriculum in Latin American Studies provides advice for students interested in pursuing graduate school and career opportunities in Latin America or the Caribbean. Please contact the director of undergraduate studies for an appointment. The Curriculum in Latin American Studies participates in a five-year cooperative B.A.–M.A. program with the Center for Latin American Studies at Georgetown University. The agreement allows qualified Latin American studies majors to earn an M.A. in Latin American studies from Georgetown in a year and a summer rather than the normal three to four semesters. For details on the cooperative degree program (http://isa.unc.edu/academics/undergraduate/) contact the director of undergraduate studies.

Major

- Latin American Studies Major, B.A. (p. 678)

Affiliated Faculty

Juan Alamo (Music), Gustavo Angeles (Maternal and Child Health), Javier Arce Nazario (Geography), Florence Babb (Anthropology), Clare Barrington (Health Behavior), Brandon Bayne (Religious Studies), Maya Berry (African, African American, and Diaspora Studies), Brian Billman (Anthropology), Richard Bilsborrow (Biostatistics), Teresa Chapa (Latin American and Iberian Resources Bibliographer), Rudolf Colloredo-Mansfeld (Anthropology), Paul Cuadros (Media and Journalism), Eduardo Douglas (Art), Bruno Estigarribia (Romance Studies), Oswaldo Estrada (Romance Studies), David García (Music), Juan Carlos González-Espitia (Romance Studies), Laura Halperin (English and Comparative Literature), Jonathan Hathlyn (Political Science), Evelyne Huber (Political Science), Miguel LaSerna (History), Nina Martin (Geography), Cecilia Martínez-Gallardo (Political Science), Patricia McNamara (Anthropology), David Mora-Marín (Linguistics), Raúl Necochea (Social Medicine), Todd Ochoa (Religious Studies), Caela O’Connell (Anthropology), Rosa Perelmutter (Romance Studies), Louis A. LTAM—Latin American Studies

Undergraduate-level Courses

LTAM 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

LTAM 101. Introduction to Latin American Studies. 3 Credits.
A broad interdisciplinary introduction to the field of Latin American studies.

Rules & Requirements
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.

LTAM 291. The Latino Experience in the United States. 3 Credits.
This is a reading and discussion seminar that will introduce students to topics in the history of Latinos in the United States from the 19th century to the present.

Rules & Requirements
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.

Same as: HIST 314.

LTAM 314. Law and Society in Latin America. 3 Credits.
This course considers how a wide variety of groups in Latin America including indigenous people, Afro-descendant communities, women and religious minorities used the law to shape and challenge larger structures of imperial rule.

Rules & Requirements
Making Connections Gen Ed: HS, US.
Grading Status: Letter grade.

Same as: HIST 314.

LTAM 350. The United States and Latin America. 3 Credits.
A thematic examination of US-Latin America relations spanning the 19th century to the present through multi-disciplinary perspectives and inter-disciplinary methodologies, including popular culture, film, original documents, and social science scholarship. To explore the evolving US-Latin America "relationship," the ways in which North Americans and Latin Americans came to know each other, through frequent encounters and close engagement, not only as a matter of government-to-government and state-to-state relations but also as people-to-people contacts and culture-to-culture exchanges.

Rules & Requirements
Making Connections Gen Ed: BN, GL.
Grading Status: Letter grade.

LTAM 390. Special Topics in Latin American Studies. 3 Credits.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading Status: Letter grade.

LTAM 396. Independent Study. 1-3 Credits.
Independent project to be arranged with an instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
Advanced Undergraduate and Graduate-level Courses

LTAM 401. Guanajuato Service Learning. 1 Credits.
This course uses experiential education to explore how Mexicans are building opportunities in migratory communities in the transnational city of Guanajuato. This one-credit course is open to students participating in the UNC Study Abroad Program at the University of Guanajuato, Mexico. Students submit a final paper.

Rules & Requirements
Grading Status: Pass/Fail.

LTAM 402. Heritage and Migration in North Carolina. 3 Credits.
This course combines field research, oral history, and service learning to understand the immigration and settlement of Mexican and Latin American heritage communities in North Carolina. The course will address the ethical and practical aspects of the ethnographic method including the preparation, transaction and transcription of oral history interviews. Students will participate in a digital archive initiative and complete independent original research. Open to juniors and seniors and graduate students.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL, RESEARCH.
Grading Status: Letter grade.

LTAM 411. Summer Intensive Introductory Course in Yucatec Maya. 6 Credits.
A three-part intensive introduction to spoken and written modern Yucatec Maya, including classroom instruction; culture, history, and linguistics workshops; and a four-week field study in Yucatán, Mexico.

Rules & Requirements
Grading Status: Letter grade.

LTAM 512. Summer Intensive Continuing Course in Yucatec Maya. 6 Credits.
Continuing instruction in spoken and written Yucatec Maya. Classroom instruction; culture, history, and linguistics workshops; and field study. Taught in Yucatán, Mexico.

Rules & Requirements
Requisites: Prerequisite, LTAM 411; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

LTAM 690. Seminar in Latin American Issues. 3 Credits.
Special topics course. Content will vary each semester.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading Status: Letter grade.

LTAM 692H. Honors in Latin American Studies. 3 Credits.
Completion of the honors thesis and an oral examination of the thesis.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

LTAM 697. Capstone Seminar. 3 Credits.
Interdisciplinary core seminar required of Latin American studies majors and open to other students. Topics vary by semester.

Rules & Requirements
Making Connections Gen Ed: BN, CI.
Grading Status: Letter grade.

Beatriz Riefkohl-Muñiz
riefkohl@email.unc.edu

Latin American Studies Major, B.A.
The five main goals of the Curriculum in Latin American Studies are

1. to enhance students’ knowledge of a world region of vital importance to the national interest of the United States;
2. to encourage the development of Carolina students as global citizens;
3. to promote critical language competencies and cultural skills as a way to prepare students to succeed in public and private sector careers;
4. for students to acquire multi-disciplinary forms of knowledge as a way to understand the array of forces that have shaped modern Latin America;
5. to foster an understanding of the historical and cultural origins of the Latin American communities in the United States.

Student Learning Outcomes
Upon completion of the Latin American studies program, students should be able to:

• Demonstrate knowledge of the political, geographical, and social complexities of the region
• Demonstrate knowledge of the historical and cultural complexities of the region
• Demonstrate proficiency in Spanish or Portuguese (or other language(s) of the region if approved)
• Demonstrate an interdisciplinary grasp of Latin American literatures, arts, and ideas
• Apply basic research methods and skills and synthesize and evaluate scholarly research
• Gain admission to graduate programs or apply knowledge and skills learned in relevant careers

Requirements
In addition to the program requirements, students must

• earn a minimum final cumulative GPA of 2.000
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Four courses required in the declared primary sequence 12
Two courses in each of the other three sequences 18

Additional Requirements
Spanish or Portuguese at least through the fifth-semester course 2 6

Total Hours 36

1 both courses may count in any sequence.
2 The first three levels of Spanish or Portuguese may count toward the General Education Foundations requirements and have not been included as additional hours for the major.

The Curriculum in Latin American Studies is divided into two concentrations: humanities and social sciences. These concentrations are further divided into sequences: humanities, into history and culture-literature sequences; social sciences, into journalism-political science and anthropology-economics-geography sequences. To ensure depth in a single discipline of Latin American and Caribbean studies, four of the 10 courses required for the major must be selected from one of the sequences. To ensure breadth of exposure to other areas of Latin American and Caribbean studies, two courses must be selected from each of the other three sequences.

Listed below are the most commonly offered courses in each sequence. Please note that not all the courses on Latin American and Caribbean topics are listed here, and many other courses may satisfy the major requirements. Special topics courses, first-year seminars, undergraduate seminars, independent studies, and capstone courses taught by Latin Americanist and Caribbeanist faculty members on Latin American and Caribbean topics also may count.

RELI 245  Latina/o Religions in the United States-Mexico Borderlands H  3

H  Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Additional Requirements

Majors are encouraged to work toward proficiency in both Spanish and Portuguese. Language across the curriculum (http://isa.unc.edu/language-across-the-curriculum/) (LAC) courses allow students to use their Spanish or Portuguese in select courses. Students taking LAC courses with Spanish or Portuguese recitation sections may receive one hour of additional credit by enrolling in SPAN 308.

All General Education requirements apply. First- and second-year students are strongly encouraged to enroll in LTAM 101, an interdisciplinary introductory course offered each year, usually in the spring.

The following courses are recommended for fulfilling General Education requirements for students interested in majoring in Latin American studies:

Global Language
Spanish or Portuguese should be used to satisfy the global language requirement. The global language 1 through 4 sequence (PORT 101, PORT 102, PORT 203, and PORT 204 or SPAN 101, SPAN 102, SPAN 203, and SPAN 204) may be completed in two semesters by enrolling in intensive courses (PORT 111 and PORT 212, or SPAN 111 and SPAN 212).

Special Opportunities in Latin American Studies

Honors in Latin American Studies
Latin American studies majors with an overall grade point average of 3.3 are invited to pursue a degree with honors by writing an honors thesis during the senior year. Each honors thesis is written under the direction of an appropriate faculty advisor, when completed, the thesis must be defended orally before an examining board of faculty members. Honors candidates enroll in the two honors courses (LTAM 691H and LTAM 692H). LTAM 691H counts as a course in the student's concentration.

Experiential Education
Students who are committed to field experience or experiential education in Latin America may be able to arrange for this through independent study credit. Students wishing to do so should have the academic support of a regular faculty member and contact the institute's associate director well in advance of the semester in which the experience is to take place.

Intensive Yucatec Maya
Each summer the Consortium in Latin American and Caribbean Studies at the University of North Carolina and Duke University offers intensive instruction in modern Yucatec Maya, with a secondary focus on ancient, colonial, and modern Maya culture. The courses include classroom instruction in Chapel Hill (LTAM 411) or in Mérida, Mexico (LTAM 512 and LTAM 690), and a field study experience in Yucatán, Mexico. See the Maya program (http://isa.unc.edu/language-programs/yucatec-maya-institute/) website for current course information.

Independent Study

Any student may enroll in independent study (LTAM 396) with the permission of the curriculum faculty advisor and the agreement of a Latin American or Caribbean studies faculty member who will supervise the student's independent study project. This course may be used to fulfill the requirements of the major, and it is often linked to internships or to undergraduate grants for summer research travel.

Study Abroad

Study abroad is not a requirement of the major; however, living and studying in Latin America or the Caribbean is highly recommended as an experience that majors should consider. The UNC-Chapel Hill Study Abroad Office offers a broad range of programs in Latin America and the Caribbean. Visit the Study Abroad Office website (http://studyabroad.unc.edu). ISA and the Study Abroad Office offer competitive scholarships for majors wishing to undertake study in Latin America and the Caribbean.

Undergraduate Awards

Each year the Latin American Studies major offers funding opportunities (https://isa.unc.edu/undergraduate-funding/) for students conducting research or studying abroad in Latin America or the Caribbean. These include the Julia Crane, Halpern, and Mellon Awards. The Federico Gil award recognizes the best undergraduate honors thesis written on a Latin American or Caribbean topic. The LTAM Major Book Fund provides funding to defray the costs for required textbooks in Latin American-content courses. Contact the director of undergraduate studies for information.

Undergraduate Research

Latin American Studies majors are eligible to develop independent and/or senior thesis projects. A small number of grants are available for undergraduate field research related to Latin America or the Caribbean.

Department of Linguistics

Introduction
Courses in the department are offered for the general student and for those who wish to receive the bachelor of arts with a major in linguistics. Courses in linguistics are intended to open up systematic perspectives on the nature of human language by means of detailed studies of language
structure, language change and language acquisition, the sound system of language, and the syntactic/semantic system of language. The major is designed to provide a fundamental understanding of modern linguistics for the student seeking a general education in the liberal arts as well as for the student preparing for graduate study.

Advising
All majors and minors have a primary academic advisor from the Academic Advising Program (https://advising.unc.edu/). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors and minors by appointment. Departmental academic advising is particularly important for those majors who are considering going on to graduate school or who are considering the dual B.A.–M.A. program.

Graduate School and Career Opportunities
The Department of Linguistics offers an M.A. program with opportunities for specialization in a number of subareas, and to obtain a certificate in computational linguistics. Detailed information is available from the department website (https://linguistics.unc.edu/). Additionally, more than 100 colleges and universities offer linguistics programs, including several dozen that are considered major doctoral programs nationally. Faculty members are pleased to advise students regarding programs best suited to their needs and interests.

In general, the linguistics major is good preparation for a number of career paths because it develops problem solving, the ability to find patterns in complicated data, and writing and argumentation skills. Law and journalism schools and other professional schools are becoming increasingly aware that students with a background in linguistics have strengths in these important areas. Companies in the tech industry often hire linguists to solve problems relating to the development of software for speech-to-text, text-to-speech, and natural language processing and generation. United States citizens with a background in linguistics also may find jobs with United States government agencies.

Some students choose to continue specializing in linguistics teaching or research. For this, they typically need to obtain a graduate degree in linguistics. Other possible careers for linguistics majors that have a close connection to language and linguistics include language teaching, speech pathology/speech and hearing science, language and information technologies (including speech synthesis and recognition, text-content analysis, and machine translation), information and library science, or editing and publishing; some careers in these areas may require a graduate degree.

Major
- Linguistics Major, B.A. (p. 690)

Minor
- Linguistics Minor (p. 692)

Graduate Programs
- M.A. in Linguistics (http://catalog.unc.edu/graduate/schools-departments/linguistics/)
- M.A. in Linguistics–Ph.D. in Romance Languages and Literatures (Hispanic Linguistics) (http://catalog.unc.edu/graduate/schools-departments/linguistics/)
- Graduate Certificate in Computational Linguistics (https://linguistics.unc.edu/graduate-program/computational-linguistics-certificate/)

Professors
Misha Becker, Elliott Moreton, Paul Roberge, David Mora-Marín.

Associate Professors
Katya Pertsova, Jennifer Smith, J. Michael Terry.

Assistant Professor
Brian Hsu.

Adjunct Faculty
Becky Butler, Benjamin Frey (American Studies), Jim Michnowicz (NCSU), Jeff Mielke (NCSU), Jeff Reaser (NCSU), Erik Thomas (NCSU).

Linguists and Language Scholars in Other Departments
Jennifer Arnold (Psychology and Neuroscience), Mohit Bansal (Computer Science), Uffe Bergeton (Asian Studies), Lucia Binotti (Romance Studies), Bruno Estigarribia (Romance Studies), Nina Furry (Romance Studies), Peter C. Gordon (Psychology and Neuroscience), Lamar Graham (Romance Studies), Thomas Hofweber (Philosophy), Joseph Lam (Religious Studies), Wendan Li (Asian Studies), Patrick O'Neil (English and Comparative Literature), Jim Pryor (Philosophy), Martha Ruiz-Garcia (Romance Studies), Patricia E. Sawin (American Studies), Khalid Shahu (Asian Studies).

Professors Emeriti
Randall Hendrick, H. Craig Melchert.

LING—Linguistics
Undergraduate-level Courses
LING 70. First-Year Seminar: Language in the U.S.A. 3 Credits.
The linguistic landscape of the United States in historical and contemporary perspective: American English dialects, language maintenance and shift among Native American and immigrant groups, language politics and policy.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.
Same as: AMST 70.
LING 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.
LING 101. Introduction to Language. 3 Credits.
Introduction to the formal analysis of human language, including sounds, words, sentences, and language meaning, plus child language acquisition, language change over time, social attitudes toward language, and similarities and differences among languages. Other topics may include writing systems, animal communication, and language analysis by computers. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

LING 138. Linguistic Anthropology. 3 Credits.
An introduction to linguistic anthropology and anthropological linguistics. The course approaches the complex interconnections between language, culture, and cognition; theoretical approaches employed during the past century (structuralism, functionalism, ethnoscience, universalism, linguistic relativity); common case studies (spatial language, colors, classifiers, deixis); verbal art (orality, literacy), linguistic ideology; and ethnolinguistic vitality.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.
Same as: ANTH 138.

LING 145. Language, Communication, and Human and Animal Minds. 3 Credits.
An examination of the differences between natural human languages and other communication systems. Includes a philosophical inquiry into how languages relate to the world and the mind. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.
Same as: PHIL 145.

LING 165. Exploring the World's Languages. 3 Credits.
Students develop an understanding of and appreciation for the diverse range of human languages across the planet, as well as the uniformity that underlies them. Topics include history, classification, and linguistic properties of the world's languages. May substitute for LING 101 with department permission.

Rules & Requirements
Making Connections Gen Ed: BN.
Grading Status: Letter grade.

LING 200. Phonology. 3 Credits.
Description and analysis of sound systems of languages around the world. Introduction to formal phonological models, argumentation, and hypothesis testing. Students may not receive credit for both LING 200 and LING 523.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI.
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.

LING 201. Syntax. 3 Credits.
Introduction to the representational units and computational principles that underlie word order patterns in language. The course covers key discoveries and theories of generative approaches to syntax, in which grammars consist of formally defined rules and operations that generate grammatical sentences. Students may not receive credit for both LING 201 and LING 530.

Rules & Requirements
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.

LING 202. Linguistic Variation and Language Change. 3 Credits.
Introduction to the analysis and description of language change, relationships among languages, and types of linguistic structure. Students may not receive credit for both LING 202 and LING 525.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.

LING 203. Language Acquisition and Development. 3 Credits.
Provides an introduction to first-language acquisition, focusing on the acquisition of phonology, morphology, syntax, and semantics, as well as on the social context of language acquisition and issues of atypical language development. Students may not receive credit for both LING 203 and LING 528.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.

LING 225. Busting Language Myths. 3 Credits.
"Women talk more than men! Texting means the end of literacy! The language you speak limits the thoughts you can think!" We often hear claims like these, but are they true? And what kind of information would show us the answer? This course examines current debates about language while developing skills in reading and interpreting research results, media reports, basic statistics, and data graphics.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
Grading Status: Letter grade.

LING 230. Constructed Languages: Theory and Typology. 3 Credits.
This course explores linguistic properties of constructed languages (conlangs). The course examines philosophical and creative motivations behind existing conlangs, and how their grammatical properties relate to those of natural languages. Students will explore and apply creative and analytical procedures used to create constructed language grammars.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-CREATE.
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.
LING 260. Languages of Southeast Asia. 3 Credits.
This course surveys languages spoken in Southeast Asia, an area rich in linguistic diversity, which is home to five distinct language families and well over 1,000 individual languages. Students will investigate the languages—in situ and in the diaspora—through the lens of descriptive linguistics, and will explore the social, cultural, and political aspects of languages in the region. This course is appropriate for students with an interest in linguistics or in Southeast Asia.

Rules & Requirements
Making Connections Gen Ed: BN.
Grading Status: Letter grade.
Same as: ASIA 260.

LING 290. Special Topics in Linguistics. 3 Credits.
In-depth treatment of a selected issue or topic in linguistics. Topic will vary with the instructor. Course may be taken more than once when the topic varies.

Rules & Requirements
Requisites: Prerequisite, LING 101.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading Status: Letter grade.

LING 302. Language and Power. 3 Credits.
This course provides an overview of language and power studies. Issues: sexist and sex-neutral language; languages of subcultures defined by gender, sexual orientation, ethnicity; hate speech; "politically correct" language.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Grading Status: Letter grade.
Same as: ANTH 302, WGST 302.

LING 303. Native Languages of the Americas. 3 Credits.
This course is an introduction to languages indigenous to the Americas. The course touches on the linguistic structure and classification of Native American languages as well as on social issues.

Rules & Requirements
Grading Status: Letter grade.
Same as: ANTH 303.

LING 304. Introduction to Discourse. 3 Credits.
Focuses on the use of linguistic forms to express communicative intentions. How language is used for the purposes of persuasion, manipulation, irony, humor, poetry, propaganda, and attitudes.

Rules & Requirements
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.

LING 305. Race against Time: Language Revitalization. 3 Credits.
Students are introduced to the causes and contexts of language endangerment and the complex process of language revitalization. Topics to be covered include assessment of endangerment level, language and thought, language attitudes, bilingual education, and language planning. We will also consider a number of case studies of endangered languages.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: BN, GL.
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.

LING 306. Language and Nationalism. 3 Credits.
This course focuses on language, identity, and nationalism in contemporary societies, with special emphasis on Europe, Africa, Asia, and the United States. Previously offered as SLAV 306.

Rules & Requirements
Making Connections Gen Ed: CI, GL.
Grading Status: Letter grade.
Same as: GSLL 306.

LING 333. Human Language and Animal Communication Systems. 3 Credits.
Comparative study of human language alongside selected non-human communication systems. Anatomy, acoustics, combinatorial structure, innateness and acquisition, evolution. Sizable lab and field component.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT, FC-LAB.
Making Connections Gen Ed: SS, QI.
Grading Status: Letter grade.

LING 335. Structure of African American English. 3 Credits.
This course treats the structural properties of African American English. Students will learn to use sentence data to test hypotheses about language structure by investigating the phonology, syntax and semantics of African American English.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Grading Status: Letter grade.
Same as: AAAD 335.

LING 360. Introduction to Hispanic Linguistics. 3 Credits.
Introduction to the linguistic study of sound, meaning, grammatical form, dialectal and sociolinguistic variation, with a particular focus on modern Spanish and the languages of Spain and Latin America. Previously offered as SPAN/LING 377.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: SS, BN, GL, FL.
Requisites: Prerequisite, SPAN 300 or SPAN 301; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: SPAN 360.
LING 376. Spanish Phonetics and Phonology. 3 Credits.
Introduction to the description of sound systems with a focus on Spanish. Includes the study of the historical development of Spanish and its areal and social variation in Spain, Latin America, and the United States.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: SS, BN, GL, FL.
Requisites: Prerequisite, SPAN 300 or SPAN 301; permission from the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: SPAN 376.

LING 383. Linguistic Structuralism: Sources and Influences. 3 Credits.
Linguistic structuralism as a background for modern theories of language.

Rules & Requirements
Grading Status: Letter grade.

LING 385. Group Mentored Research. 1-3 Credits.
Permission of instructor. Students gain first-hand experience conducting research as part of a research group working together on a single project under the advisement of a faculty member. Topics will vary.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

LING 397. Undergraduate Seminar in Language and Linguistics. 3 Credits.
Seminar on a previously announced topic.

Rules & Requirements
Requisites: Prerequisite, SPAN 360 or 376.
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Letter grade.
Same as: SPAN 397.

Advanced Undergraduate and Graduate-level Courses

LING 401. Language and Computers. 3 Credits.
Uses simple linguistic problems to introduce students to the use of programming languages especially suited to analyze and process natural language on the computer. No prior programming knowledge is presupposed.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT, FC-LAB.
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.

LING 409. Cognitive Linguistics. 3 Credits.
Development of and present state of research in cognitive linguistics. Readings discuss various language phenomena and are drawn from linguistics, psychology, philosophy, artificial intelligence, and literary analysis of metaphor.

Rules & Requirements
Making Connections Gen Ed: SS, CI.
Grading Status: Letter grade.

LING 410. Advanced Philosophy of Language. 3 Credits.
At least two courses in philosophy other than PHIL 155, including PHIL 345, strongly recommended. A study of important contemporary contributions in philosophy of language. Topics include meaning, reference, and truth.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWLED.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
Same as: PHIL 445, LING 445.

LING 422. Research Methods in Phonetics and Laboratory Phonology. 3 Credits.
Focuses on the practical skills required to carry out basic experiments in speech production or perception. Includes training in a general-purpose programming language (such as Perl) for automating repetitive tasks, experiment-control software, audio stimulus manufacture and editing, palatography, aerodynamic measurements, and other laboratory techniques relevant to student interests.

Rules & Requirements
Requisites: Prerequisite, LING 200, 520, 523, or SPHS 540.
Grading Status: Letter grade.

LING 427. Morphology. 3 Credits.
Cross-linguistic investigation of internal word structure: inflection and derivation, word formation rules versus affixation, autosegmental morphology, morpholexical and morphophonemic rules, and the interaction of morphology with phonology and syntax. Previously offered as LING 527.

Rules & Requirements
Requisites: Prerequisite, LING 101 or 400.
Grading Status: Letter grade.

LING 428. Bilingualism and Second-Language Acquisition. 3 Credits.
This course covers theoretical issues in childhood simultaneous bilingualism, and child and adult second-language acquisition, under both naturalistic and classroom learning circumstances.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.
LING 444. Origin and Evolution of Human Language. 3 Credits.
Recommended preparation, at least one higher-level core course in linguistics. Surveys current answers to such questions as, When and how did language first appear? What do other animal communication systems share with language? Do restricted linguistic systems (e. g., pidgins) preserve “fossils” of early human language?

Rules & Requirements
Making Connections Gen Ed: HS, WB.
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.

LING 445. Advanced Philosophy of Language. 3 Credits.
At least two courses in philosophy other than PHIL 155, including PHIL 345, strongly recommended. A study of important contemporary contributions in philosophy of language. Topics include meaning, reference, and truth.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
Same as: PHIL 445, LING 410.

LING 455. Symbolic Logic. 3 Credits.
Introduction for graduates and advanced undergraduates.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Requisites: Prerequisite, PHIL 155; permission of the instructor for students lacking the prerequisite.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
Same as: PHIL 455.

LING 458. Writing Systems: Past, Present, Future, Fictional. 3 Credits.
This course provides an introduction to the linguistic structure and historical development of the world’s writing systems (e.g. Sumerian, Egyptian, Chinese, Greek, Semitic scripts, Indian abugidas, Olmec, Mayan, Incan), the methods for their decipherment and analysis, the cross-script generalizations that can be proposed through their comparative study, and the techniques for developing a new writing system for a previously unwritten language, as well as for inventing a language and writing system from scratch.

Rules & Requirements
Making Connections Gen Ed: SS, WB.
Requisites: Prerequisite, LING 101; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

LING 460. Making Sense of Big Data: Textual Analysis with R. 3 Credits.
The course covers methods for working with textual data (corpora, databases, etc.) that include data cleaning techniques, graphing, statistical analysis, web-scraping, and categorization models. Students will complete their own data project by the end of the course.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

LING 484. Discourse and Dialogue in Ethnographic Research. 3 Credits.
Study of cultural variation in styles of speaking applied to collection of ethnographic data. Talk as responsive social action and its role in the constitution of ethnic and gender identities.

Rules & Requirements
Making Connections Gen Ed: SS, CI, US.
Grading Status: Letter grade.
Same as: ANTH 484, FOLK 484.

LING 490. Advanced Topics in Linguistics. 3 Credits.
Directed readings on linguistic topics not covered in specific courses.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading Status: Letter grade.

LING 493. Internship in Linguistics. 3 Credits.
Permission of instructor. This course allows students to integrate theoretical knowledge with practice through an internship experience in the field of linguistics. Students may work with businesses or organizations in the areas of computational linguistics, language documentation, education, publishing, or other related fields. Activities must be approved by faculty and supervised by a mentor.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Pass/Fail.

LING 495. Individual Mentored Research. 1-3 Credits.
Permission of instructor. Students carry out a research project of their own design under the direct supervision of a faculty mentor. This course is intended for advanced, motivated students who would like to pursue an in-depth research project within a single semester.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading Status: Letter grade.
LING 496. Independent Study in Linguistics. 1-3 Credits.
LING 101 and additional coursework in linguistics strongly recommended. An intensive directed readings course or a mentored project; topic to be determined in consultation with the instructor. Permission of the director of undergraduate studies.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 12 total completions.
Grading Status: Letter grade.

LING 500. Linguistics Colloquium. 1 Credits.
This course corresponds to our weekly department colloquium, which gives students an opportunity to learn about current research in the field from local and external invited speakers, present their own work in progress or completed thesis research, and to engage in a variety of professional development activities led by faculty.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Letter grade.

LING 520. Linguistic Phonetics. 3 Credits.
Introduction to the general principles of linguistic phonetics; anatomy of vocal tract, physiology of speech production, universal phonetic theory. Practice in the recognition and transcription of speech sounds.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.
Grading Status: Letter grade.

LING 522. Experimental Phonetics and Laboratory Phonology. 3 Credits.
This course relates linguistic theory to experimental findings. Students design and carry out experiments to test theoretical issues of current theoretical importance.

Rules & Requirements
Requisites: Prerequisites, LING 520, and 200 or 523.
Grading Status: Letter grade.

LING 523. Phonological Theory I. 3 Credits.
Permission of the instructor for undergraduates. Introduction to the principles of modern generative phonology. Methods and theory of phonological analysis. Students may not receive credit for both LING 200 and LING 523.

Rules & Requirements
Requisites: Prerequisite, LING 520, or SPHS 530 or 540.
Grading Status: Letter grade.
Same as: ANTH 523.

LING 524. Phonological Theory II. 3 Credits.
Intermediate phonological theory and analysis.

Rules & Requirements
Requisites: Prerequisite, LING 200 or 523.
Grading Status: Letter grade.

LING 525. Introduction to Historical and Comparative Linguistics. 3 Credits.
Permission of the instructor for undergraduates. Theories and methods of historical and comparative linguistics, with emphasis upon the Indo-European family. Students may not receive credit for both LING 202 and LING 525.

Rules & Requirements
Grading Status: Letter grade.

LING 526. Second-Language Phonetics and Phonology. 3 Credits.
Production, perception, and phonological patterns and processes in second-language learning and use. Effects of first-language transfer and universal linguistic factors. Seminar-style class based on primary literature.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.

LING 528. Language Acquisition I. 3 Credits.
Permission of the instructor for undergraduates. One course in phonology or syntax recommended. Child language from a theoretical perspective. Topics include segmentation problems, acquisition of phonology, morphology and syntax, lexical acquisition, and language development in blind and deaf children and in bilinguals. Students may not receive credit for both LING 203 and LING 528.

Rules & Requirements
Grading Status: Letter grade.

LING 529. Language Acquisition II. 3 Credits.
This course focuses on the development of syntax in first-language acquisition in children. Topics will include parameter setting, null subjects, root infinitives, aspect, A-movement, binding theory, and control.

Rules & Requirements
Requisites: Prerequisites, LING 203 or 528, and LING 201 or 530.
Grading Status: Letter grade.

LING 530. Syntactic Theory I. 3 Credits.
Permission of the instructor for undergraduates. Methods and theory of grammatical analysis within the transformational generative framework. Special emphasis on analyzing syntactic and semantic structures of English. Students may not receive credit for both LING 201 and LING 530.

Rules & Requirements
Grading Status: Letter grade.

LING 533. Syntactic Theory II. 3 Credits.
Methods and theory of grammatical analysis, with special reference to transformational grammar.

Rules & Requirements
Requisites: Prerequisite, LING 530.
Grading Status: Letter grade.
LING 537. Semantic Theory I. 3 Credits.
Semantics as a part of linguistic theory: co- and disjoint reference among nominals, "crossover" phenomena, quantifier scope, lexical semantics, Montague grammar and compositional semantics, and explanatory universals in semantic theory.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Prerequisites: Prerequisite, LING 101 or 400.
Grading Status: Letter grade.

LING 538. Semantic Theory II. 3 Credits.
A continuation of LING 537 (Semantic Theory I), this course prepares the student to read the formal semantic literature and to do original research in the field.

Rules & Requirements
Prerequisites: Prerequisite, LING 537.
Grading Status: Letter grade.

LING 539. Language of Time. 3 Credits.
The representation of time and temporal relations in natural languages. Cross-linguistic study of tense and aspect distinctions, modality, temporal adverbials, temporal anaphora, and sequences of tenses.

Rules & Requirements
Prerequisites: Prerequisite, LING 101 or 400.
Grading Status: Letter grade.

LING 540. Mathematical Linguistics. 3 Credits.
Introduction to topics in logic, set theory, and modern algebra with emphasis on linguistic application. Automata theory and the formal theory of grammar with special reference to transformational grammars. No previous mathematics assumed.

Rules & Requirements
Making Connections Gen Ed: QL.
Prerequisite: LING 101.
Grading Status: Letter grade.

LING 541. Sociolinguistics. 3 Credits.
Introduction to the study of language in relation to society; variation as it correlates with socioeconomic status, region, gender; the social motivation of change; language and equality; language maintenance, planning, shift.

Rules & Requirements
Prerequisites: Prerequisite, LING 101 or 400.
Grading Status: Letter grade.

LING 542. Pidgins and Creoles. 3 Credits.
Examination of the social contexts of language contact and their linguistic outcomes, with particular emphasis on the formation of pidgins and creoles. The course investigates the structural properties of these new contact languages and evaluates the conflicting theories that explain their genesis.

Rules & Requirements
Prerequisites: Prerequisite, LING 101 or 400.
Grading Status: Letter grade.
Same as: ANTH 541.

LING 543. Language in Politics. 3 Credits.
Examines language as a political issue in the 19th and 20th centuries. Emphasis placed on American and British politics but attention to one other national context as well.

Rules & Requirements
Grading Status: Letter grade.

LING 544. Language and Mind. 3 Credits.
The course treats the relationship among linguistics, artificial intelligence, neurobiology, cognitive psychology, and the philosophies of mind, language, and science.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: PH.
Prerequisites: Prerequisite, ENGL 213, LING 101, LING 400, or PHIL 145; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

LING 545. Language and Mind. 3 Credits.
Survey of the linguistic properties associated with aphasia, autism, Williams syndrome, dyslexia, and schizophrenia. Emphasis on the implications of these conditions for theories of mind.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Prerequisites: Prerequisite, LING 537.
Grading Status: Letter grade.

LING 546. Ancient Mayan Hieroglyphs. 3 Credits.
This course is an introduction to the ancient scripts of pre-Columbian Mexico and Central America. It focuses on the following scripts: Mayan, Epi-Olmec, Zapotec, and Mixtec.

Rules & Requirements
Making Connections Gen Ed: HS.
Grading Status: Letter grade.

LING 550. Introduction to Indo-European: Phonology. 3 Credits.
A survey of the phonological systems of the major Indo-European languages and their development from Proto-Indo-European.

Rules & Requirements
Grading Status: Letter grade.

LING 551. Introduction to Indo-European: Morphology. 3 Credits.
Introduction to the major morphological categories in the Indo-European languages and their development from the proto-language.

Rules & Requirements
Prerequisites: Prerequisite, LING 550.
Grading Status: Letter grade.

LING 558. Ancient Mayan Hieroglyphs. 3 Credits.
This course is an introduction to the ancient scripts of pre-Columbian Mexico and Central America. It focuses on the following scripts: Mayan, Epi-Olmec, Zapotec, and Mixtec.

Rules & Requirements
Making Connections Gen Ed: HS.
Grading Status: Letter grade.

LING 560. Mesoamerican Languages and Linguistics. 3 Credits.
Surveys the basic characteristics that unify Mesoamerica as a cultural and linguistic area (e.g. sound systems, word order, color systems, diffused vocabulary, etc.), the basic sources of cultural and linguistic information available (e.g. ancient hieroglyphs, colonial manuscripts, contemporary documents, linguistic fieldwork), and the consequences of ancient and modern cross-cultural interaction.

Rules & Requirements
Making Connections Gen Ed: BN.
Grading Status: Letter grade.
LING 561. Native Languages of the Americas. 3 Credits.
This course explores the phonological and morphological structure of selected Amerindian languages indigenous to the Americas. Emphasis is on the linguistic analysis of original as well as published primary data.

Rules & Requirements
Requisites: Prerequisite, LING 101 or 400.
Grading Status: Letter grade.

LING 562. Structure of Russian. 3 Credits.
Examines Russian from the perspective of linguistic analysis. How do sounds, words, and sentences pattern in Russian? How do these compare with patterns in other languages? Also considers the influence of evidence from Russian on the development of linguistic theory.

Rules & Requirements
Requisites: Prerequisite, LING 101 or RUSS 102; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: RUSS 562.

LING 563. Structure of Japanese. 3 Credits.
Introductory linguistic description of modern Japanese. For students of linguistics with no knowledge of Japanese and students of Japanese with no knowledge of linguistics.

Rules & Requirements
Requisites: Prerequisite, LING 101 or JAPN 102 or LING 101.
Grading Status: Letter grade.
Same as: JAPN 563.

LING 564. History of the French Language. 3 Credits.
The phonology, morphology, and syntax of French are traced from the Latin foundation to the present. Lectures, readings, discussions, and textual analysis.

Rules & Requirements
Requisites: Prerequisites, FREN 300, and one additional course above FREN 330; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.
Same as: FREN 564.

LING 565. French Phonetics and Phonology. 3 Credits.
Study of the sound system and prosody features of standard French, emphasizing practical application in a variety of oral activities. Requires learning linguistic terminology and the phonetic alphabet

Rules & Requirements
Requisites: Prerequisite, FREN 255, 260, or 262; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: FREN 565.

LING 566. Structure of Modern French. 3 Credits.
Introduction to phonology, morphology, and syntax of modern standard French. Application of modern linguistic theory to the teaching of French.

Rules & Requirements
Requisites: Prerequisites, FREN 300, and one additional course above FREN 330; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

LING 567. Structure of German. 3 Credits.
LING 101 recommended for undergraduates. Introduction to formal analysis of German grammar (phonology, morphophonemics, prosodics, morphology, syntax) within the framework of generative grammar.

Rules & Requirements
Requisites: Prerequisites, LING 101, and one of LING 200, 376, or 422.
Grading Status: Letter grade.

LING 573. Linguistic Field Methods I. 3 Credits.
Analysis and description of a language unknown to the class from data solicited from a native-speaker consultant.

Rules & Requirements
Requisites: Prerequisites, LING 101, and one of LING 200, 376, or 422.
Grading Status: Letter grade.

LING 574. Linguistic Field Methods II. 3 Credits.
Continuation of LING 573.

Rules & Requirements
Grading Status: Letter grade.

LING 578. Comparative History of the Romance Languages. 3 Credits.
The linguistic study of the evolution of Spanish, Portuguese, French, and Italian (and other Romance languages) from their common ancestor of Latin. Emphasis on phonological, morphological, syntactic, and lexical commonalities and divergences among the languages.

Rules & Requirements
Requisites: Prerequisite, FREN 300 or ITAL 300 or PORT 310 or SPAN 300; OR graduate standing; OR permission of instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: ROML 578.

LING 583. History and Philosophy of Linguistics. 3 Credits.
Linguistic theories from classical times to the present with special emphasis on the origins of contemporary theories.

Rules & Requirements
Requisites: Prerequisite, LING 101.
Grading Status: Letter grade.

LING 676. Advanced Spanish Phonology. 3 Credits.
Topics in Spanish phonology from a range of theoretical perspectives. Autosegmental theory, optimality theory (OT), syllable structure, stress and accent, and the interaction of phonology and morphology.

Rules & Requirements
Requisites: Prerequisite, SPAN 376; OR graduate standing; OR permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: SPAN 676.
LING 678. History of the Spanish Language. 3 Credits.
SPAN 376 desirable. A theoretical study of the evolution of Spanish from classical and spoken Latin, focusing on phonological, morphological, and syntactic phenomena. Intended for linguistics majors.

Rules & Requirements
Making Connections Gen Ed: HS, WB.
Requisites: Prerequisite, SPAN 360; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: SPAN 678.

LING 681. Spanish Semantics. 3 Credits.
This course is an upper undergraduate/graduate-level introduction to the study of the meaning of words and sentences, with a focus on Spanish. It covers the following topics: truth-conditional theories of meaning, modality, quantification, reference, tense and aspect, Aktionsart. The course also addresses cross-linguistic data collection, e.g., field work and experimental methods.

Rules & Requirements
Requisites: Prerequisite, SPAN 360.
Grading Status: Letter grade.
Same as: SPAN 681.

LING 691H. Senior Honors Thesis. 3 Credits.
See the program for honors in the College of Arts and Sciences and the department honors advisor.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

LING 692H. Senior Honors Thesis. 3 Credits.
See the program for honors in the College of Arts and Sciences and the department honors advisor.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

Yucatec Maya (MAYA)
Advanced Undergraduate and Graduate-level Courses
MAYA 401. Introduction to Yucatec Maya. 3 Credits.
Introduction to basic grammar and vocabulary, as well as cultural context and literary genres.

Rules & Requirements
Grading Status: Letter grade.
Global Language: Level 1.

Linguistics Major, B.A.

Courses in linguistics are intended to open up systematic perspectives on the nature of human language by means of detailed studies of language structure, language change and language acquisition, the sound system of language, and the syntactic/semantic system of language. The major is designed to provide a fundamental understanding of modern linguistics for the student seeking a general education in the liberal arts as well as for the student preparing for graduate study.

Student Learning Outcomes
Upon completion of the linguistics program, students should be able to:

• Use a linguistic analysis method (i.e., a formal model or a framework) correctly and apply it to a novel set of linguistic data
• Formulate and test hypotheses on the basis of a linguistic data set or information about language-related behavior
• Express their knowledge of some linguistic topic clearly and effectively in a written assignment of term-paper length

Requirements
In addition to the program requirements, students must

• earn a minimum final cumulative GPA of 2.000
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Core Requirements
One course each from three of the following four pairs (total of three courses): 1

LING 200  | Phonology                                  |       |
or LING 520 | Linguistic Phonetics                      |       |

LING 201  | Syntax                                     |       |
or LING 537 | Semantic Theory I                         |       |

LING 202  | Linguistic Variation and Language Change   |       |
or LING 541 | Sociolinguistics                           |       |

LING 203  | Language Acquisition and Development       |       |
or LING 427 | Morphology                                 |       |

Five additional linguistics courses chosen from the following lists: 15

Up to five LING courses numbered 200 to 699, excluding LING 400 2

No more than two courses chosen from:
AAAD 421 Introduction to the Languages of Africa
AMST 374 America's Threatened Languages
CHIN 253 Chinese Language and Society
COMP 455 Models of Languages and Computation
ENGL 115 History of the English Language
ENGL 213 Grammar of Current English
GERM 500 History of the German Language
GERM 501 Structure of German
GERM 514 Old Norse I (Old Icelandic)
GERM 515 Old Norse II (Old Icelandic)
GERM 521 Variation in German
GERM 545 Problems in Germanic Linguistics
ITAL 526 History of the Italian Language
PHIL 345 Philosophy of Language
PORT 526 History of the Portuguese Language
PSYC 432 Psychology of Language
SPAN 378 Afro-Hispanic Language Contacts
SPAN 683 Guaraní Linguistics
SPHS 530 Introduction to Phonetics
SPHS 540 Speech Science
SPHS 570 Anatomy and Physiology of the Speech, Language, and Hearing Mechanisms
SPHS 582 Introductory Audiology I

Total Hours 27

Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

With the instructor's permission, students may take LING 523 instead of LING 200, LING 530 instead of LING 201, LING 525 instead of LING 202 or LING 528 instead of LING 203. Credit will not be granted for both the 200 level course and its graduate level counterpart noted here. However, students may receive credit for both courses in the pairs noted above (LING 200/LING 520; LING 201/LING 537; LING 202/LING 541; LING 203/LING 427), one as a core class and the other as an elective.

No more than six (6) combined credit hours from LING 395, LING 493, and LING 495 can be counted toward the major (with no more than 3 credit hours of LING 493).

Thus, the major requires nine courses, including LING 101. Students majoring in linguistics may concentrate entirely in linguistics, or they may select their major courses to include a field related to linguistics, such as linguistic anthropology, computer processing of language data, philosophy of language, psychology of language, sociology of language, speech and hearing sciences, or study of a particular language or language family. Any such second-field option should be planned in consultation with the student’s advisor. Students interested in a career in speech pathology may pursue a minor in speech and hearing sciences through the Division of Speech and Hearing Sciences in the UNC School of Medicine.

Students interested in the linguistics major are encouraged to consult with the department's director of undergraduate studies. Additional information about the major is provided on the department's Web site (http://linguistics.web.unc.edu); select the link for the undergraduate program.

Linguistics (LING) course descriptions (p. 682).

Dual Bachelor’s–Master’s Degree Program

The dual B.A.–M.A. program offers highly motivated undergraduates the opportunity to earn an M.A. (http://catalog.unc.edu/graduate/schools-departments/linguistics/#programtext) in less than the usual time by completing some of the M.A. requirements while still an undergraduate. Students must have a grade point average of 3.3 overall and 3.5 in linguistics. Students interested in pursuing this program should consult the department's director of undergraduate studies, Professor Katya Pertsova, to assess feasibility.

Additional information can be found on the program website (https://linguistics.unc.edu/graduate-program/ma-linguistics/).

Special Opportunities

Honors in Linguistics

Any linguistics major with a cumulative total grade point average of at least 3.3 and at least 3.5 within the linguistics major is eligible to attempt a degree with honors in linguistics. To graduate with honors, a student must work with a faculty supervisor, enroll in LING 691H and LING 692H during the senior year, and complete and defend an honors thesis according to departmental and Honors Carolina requirements. Interested students should contact the honors advisor, Professor Katya Pertsova, during their junior year.

Departmental Involvement

Many linguistics majors and minors join Underling, the undergraduate linguistics club, which sponsors a variety of educational, outreach, social, and career-development events each year.

Study Abroad

Students in linguistics are encouraged to consider study abroad. Courses that can be applied toward the linguistics major and minor are available through many of the programs administered by the Study Abroad Office.

Internship Course

Students interested in receiving credit for participating in an internship that involves a linguistic component can enroll in LING 493. LING 493 can be applied towards elective credit in the major or minor. The work includes an academic component. Please contact the director of undergraduate studies well in advance to discuss options for internships and specific requirements.

Undergraduate Awards

The Marc Adam Eisdorfer Award recognizes the graduating senior judged most outstanding in academic achievement in linguistics. It was established in 1998 by Sandra Eisdorfer in memory of her son, a graduate of the class of 1984.

Linguistics Minor

Courses in the department are offered for the general student and for those who wish to receive the bachelor of arts with a major in linguistics. Courses in linguistics are intended to open up systematic perspectives on the nature of human language by means of detailed studies of language structure, language change and language acquisition, the sound system of language, and the syntactic/semantic system of language.

Requirements

In addition to the program requirements listed below, students must:

• take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

The minor in linguistics consists of four linguistics courses numbered 200 or higher.

Total Hours 12

1 LING 101 is a prerequisite for these courses.
2 In order to fashion a coherent program of study that complements the student’s major, the department encourages students to select these two courses in consultation with the department’s director of undergraduate studies.
3 No more than three combined hours of LING 395, LING 493, and LING 495 can be counted toward the minor.

Linguistics (LING) course descriptions (p. 682).

See the program page here (p. 691) for special opportunities.

Department Programs

Major

• Linguistics Major, B.A. (p. 690)

Minor

• Linguistics Minor (p. 692)

Graduate Programs

• M.A. in Linguistics (http://catalog.unc.edu/graduate/schools-departments/linguistics/)
• M.A. in Linguistics–Ph.D. in Romance Languages and Literatures (Hispanic Linguistics) (http://catalog.unc.edu/graduate/schools-departments/linguistics/)
• Graduate Certificate in Computational Linguistics (https://linguistics.unc.edu/graduate-program/computational-linguistics-certificate/)

Department of Mathematics

Introduction

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance. UNC–Chapel Hill offers several degrees in mathematics and the mathematical sciences, providing students a choice of careers in this field. Among the jobs in industry, government, and the academic world that involve mathematics are actuary, analyst, modeler, optimizer, statistician, and computer analyst.

Students intending to teach mathematics in elementary and middle school and students enrolled in the School of Education who intend to major in mathematics should consult the School of Education (p. 1075) section of the Catalog or the director of mathematical education in the Department of Mathematics. A section in the mathematics program
(p. 702) of the Catalog suggests course selections for future high school teachers.

Advising
All majors and minors have a primary academic advisor assigned in ConnectCarolina. Students should regularly meet with their advisors and review their Tar Heel Trackers to be sure that they are satisfying distribution and degree requirements. In addition, drop in advising is available each semester in the math department. Students who have declared a math major and have completed MATH 233 are required to attend a math department advising session to discuss course selections and any other questions before a hold on registration is lifted. The department’s director of undergraduate studies, assistant director of undergraduate studies, and manager of student services (see contact tab above) are also available by appointment. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department’s website (https://math.unc.edu/).

Placement into Mathematics Courses
Standardized test scores such as the Advanced Placement (AP) or the American College Test (ACT) can be used for placement into mathematics courses. Students who do not have placement scores via the AP or ACT may take the department’s ALEKS Placement Test. Please visit the placement page (http://math.unc.edu/for-undergrads/placement-info/) of the department’s website for specific information regarding placement and departmental placement tests.

Graduate School and Career Opportunities
The B.S. degree program, especially if it includes the sequences MATH 521–MATH 522 and MATH 577–MATH 578, is excellent preparation for graduate study in the mathematical sciences. The B.A. degree can be excellent preparation for graduate study in many fields, including admission into professional schools of law, business, and medicine. Both degrees are viewed by many employers as attractive, especially when accompanied by electives in areas such as statistics, computer science, economics, and operations research. Undergraduate mathematics majors with critical thinking skills and good analytical abilities are in demand in many business, industry, and government fields.

Majors
- Mathematics Major, B.A. (p. 702)
- Mathematics Major, B.S. (p. 705)

Minor
- Mathematics Minor (p. 710)

Graduate Programs
- M.A. in Mathematics (http://catalog.unc.edu/graduate/schools-departments/mathematics/)
- M.S. in Mathematics (http://catalog.unc.edu/graduate/schools-departments/mathematics/)
- Ph.D. in Mathematics (http://catalog.unc.edu/graduate/schools-departments/mathematics/)

Professors

Associate Professors
Yaiza Canzani, Jiuzu Hong, Katherine Newhall, David Rose, Justin Sawon.

Assistant Professors
Olivia Dumitrescu, Shahar Koalovsky, Casey Rodriguez, Pedro Sáenz, Andrey Smirnov.

Teaching Faculty
Emily Burkhead, Linda Green, Mark McCombs, Elizabeth McLaughlin, Miranda Thomas.

Professors Emeriti

MATH—Mathematics
Undergraduate-level Courses
- MATH 50. First-Year Seminar: The Predictability of Chance and Its Applications in Applied Mathematics. 3 Credits.
  This seminar will examine the ways in which some types of behavior of random systems cannot only be predicted, but also applied to practical problems.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: QI.
- Grading Status: Letter grade.
- MATH 51. First-Year Seminar: ‘Fish Gotta Swim, Birds Gotta Fly’: The Mathematics and the Mechanics of Moving. 3 Credits.
  This seminar allows students to have hands-on exposure to a class of physical and computer experiments designed to challenge intuition on how motion is achieved in nature. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: QI.
- Grading Status: Letter grade.
- MATH 52. First-Year Seminar: Fractals: The Geometry of Nature. 3 Credits.
  Many natural objects have complex, infinitely detailed shapes in which smaller versions of the whole shape are seen appearing throughout. Such a shape is a fractal, the topic of study. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: QI.
- Grading Status: Letter grade.
MATH 53. First-Year Seminar: Symmetry and Tilings. 3 Credits.
Through projects using software programs, Web sites, and readings, students will discover the geometric structure of tilings, learn to design their own patterns, and explore the many interdisciplinary connections.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 54. First-Year Seminar: The Science of Conjecture: Its Math,
Philosophy, and History. 3 Credits.
Seminar will cover the history and philosophy of probability, evidence, and conjecture, consider the development of the field of probability, and look at current and future uses of probability. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 55. First-Year Seminar: Geometry and Symmetry in Nature. 3 Credits.
The nature of space imposes striking constraints on organic and inorganic objects. This seminar examines such constraints on both biological organisms and regular solids in geometry.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 56. First-Year Seminar: Information and Coding. 3 Credits.
With the growth of available information on almost anything, can it be reliably compressed, protected, and transmitted over a noisy channel? Students will take a mathematical view of cryptography throughout history and information handling in modern life. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 57. First-Year Seminar: The Fourth Dimension. 3 Credits.
The idea of a fourth dimension has a rich and varied history. This seminar explores the concept of fourth (and higher) dimensions both mathematically and more widely in human thought.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 58. First-Year Seminar: Math, Art, and the Human Experience. 3 Credits.
Students will explore the relevance of mathematical ideas to fields typically perceived as "nonmathematical" (e.g., art, music, film, literature) and how these "nonmathematical" fields influence mathematical thought. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 59. First-Year Seminar: The Mystery and Majesty of Ordinary Numbers. 3 Credits.
Problems arising from the arithmetic of ordinary counting numbers have for centuries fascinated both mathematicians and nonmathematicians. This seminar will consider some of these problems (both solved and unsolved).

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 60. First-Year Seminar: Simulated Life. 3 Credits.
This seminar introduces students to the thought process that goes into developing computational models of biological systems. It will also expose students to techniques for simulating and analyzing these models. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 61. First-Year Seminar: The Language of Mathematics: Making the Invisible Visible. 3 Credits.
This course will consider mathematics to be the science of patterns and will discuss some of the different kinds of patterns that give rise to different branches of mathematics.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 62. First-Year Seminar: Combinatorics. 3 Credits.
Students will discuss combinatorics' deep roots in history, its connections with the theory of numbers, and its fundamental role for natural science, as well as various applications, including cryptography and the stock market. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.
MATH 63. First-Year Seminar: From "The Sound of Music" to "The Perfect Storm". 3 Credits.
Students will develop the conceptual framework necessary to understand waves of any kind, starting from laboratory observations. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-NATSCI or FC-QUANT.
Making Connections Gen Ed: PL, QI.
Grading Status: Letter grade.
Same as: MASC 57.

MATH 64. First-Year Seminar: A View of the Sea: The Circulation of the Ocean and Its Impact on Coastal Water. 3 Credits.
Why is the Gulf Stream so strong, why does it flow clockwise, and why does it separate from the United States coast at Cape Hatteras? Students will study the circulation of the ocean and its influence on coastal environments by reading the book A View of the Sea by the eminent oceanographer Hank Stommel and by examining satellite and on-site observations.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 65. First-Year Seminar: Colliding Balls and Springs: The Microstructure of How Materials Behave. 3 Credits.
Students will follow the intellectual journey of the atomic hypothesis from Leucippus and Democritus to the modern era, combining the history, the applications to science, and the mathematics developed to study particles and their interactions.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 66. First-Year Seminar: Non-Euclidean Geometry in Nature and History. 3 Credits.
The seminar will investigate non-Euclidean geometry (hyperbolic and spherical) from historical, mathematical, and practical perspectives. The approach will be largely algebraic, in contrast to the traditional axiomatic method.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 67. The Mathematics of Climate Change: Can We Predict the Future of Our Planet? 3 Credits.
Is the Earth warming? Predictions are based largely on mathematical models. We shall consider the limitations of models in relation to making predictions. Examples of chaotic behavior will be presented.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: CI, QI.
Grading Status: Letter grade.

MATH 68. First-Year Seminar: The Mathematics of Voting. 3 Credits.
What properties should a fair election have and are these properties achievable in theory and in practice? How can mathematics and statistics be used to expose election fraud and gerrymandering? Students will address these questions as they compare different election systems, evaluate their strengths, weaknesses, and abuses, and design improvements to current structures. Topics will include gerrymandering, ranked voting, approval voting, and Arrow's Impossibility Theorem.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 69. First-Year Seminar: Unfolding Infinity: Mathematical Origami and Fractal Symmetry. 3 Credits.
This seminar engages students in an exploration of the interplay between mathematics, origami, and fractal symmetry. Learning objectives will include mastering basic origami folding techniques, identifying and applying fundamental symmetry operations, recognizing and analyzing fractal symmetry, and creating geometric tessellations. Students will use image editing software (Illustrator and Photoshop), mathematical imaging software (Ultra Fractal), and the laser cutter in UNC's BeAM space, to design and create modular origami and fractal tessellation artwork.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 70. First-Year Seminar: Topology and Symmetry. 3 Credits.
In this seminar, students will explore ideas from topology and geometry and their application to symmetry patterns. Students will learn to identify and classify two-dimensional symmetry patterns and create their own designs. Students will relate symmetry patterns to their folded-up counterparts, called orbifolds, and use tools from topology and geometry to determine which patterns are possible and which patterns can never be achieved.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

MATH 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: QI.
Grading Status: Letter grade.
MATH 110. Algebra. 3 Credits.
Provides a one-semester review of the basics of algebra. Basic algebraic expressions, functions, exponents, and logarithms are included, with an emphasis on problem solving. This course does not satisfy any general education requirements. It is intended for students who need it as a prerequisite for other classes. A student cannot receive credit for this course after receiving credit for MATH 231 or higher.

Rules & Requirements
Grading Status: Letter grade.

MATH 110L. Algebra Corequisite. 1 Credits.
This course provides just-in-time instruction and practice on basic algebra to support students in Algebra. It also provides additional practice on some of the more difficult topics from MATH 110. This course is intended for students currently enrolled in MATH 110 who need additional review of algebra.

Rules & Requirements
Requisites: Corequisite, MATH 110.
Grading Status: Pass/Fail.

MATH 115. Reasoning with Data: Navigating a Quantitative World. 3 Credits.
Students will use mathematical and statistical methods to address societal problems, make personal decisions, and reason critically about the world. Authentic contexts may include voting, health and risk, digital humanities, finance, and human behavior. This course does not count as credit towards the psychology or neuroscience majors.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Grading Status: Letter grade.

MATH 116. Intuitive Calculus. 3 Credits.
Provides an introduction in as nontechnical a setting as possible to the basic concepts of calculus. The course is intended for the nonscience major. A student may not receive credit for this course after receiving credit for MATH 152 or 231.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Grading Status: Letter grade.

MATH 117. Aspects of Finite Mathematics. 3 Credits.
Introduction to basic concepts of finite mathematics, including topics such as counting methods, finite probability problems, and networks. The course is intended for the nonscience major. A student cannot receive credit for this course after receiving credit for MATH 231 or higher.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Grading Status: Letter grade.

MATH 118. Aspects of Modern Mathematics. 3 Credits.
Introduction to mathematical topics of current interest in society and science, such as the mathematics of choice, growth, finance, and shape. The course is intended for the nonscience major. A student cannot receive credit for this course after receiving credit for MATH 231 or higher.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Grading Status: Letter grade.

MATH 119. Introduction to Mathematical Modeling. 3 Credits.
Provides an introduction to the use of mathematics for modeling real-world phenomena in a nontechnical setting. Models use algebraic, graphical, and numerical properties of elementary functions to interpret data. This course is intended for the nonscience major.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Grading Status: Letter grade.

MATH 129P. Precalculus Mathematics. 0 Credits.
Awarded as placement credit based on test scores. Does not fulfill a graduation requirement.

Rules & Requirements
Grading Status: Letter grade.

MATH 130. Precalculus Mathematics. 3 Credits.
Covers the basic mathematical skills needed for learning calculus. Topics are calculating and working with functions and data, introduction to trigonometry, parametric equations, and the conic sections. A student may not receive credit for this course after receiving credit for MATH 231.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Requisites: Prerequisite, MATH 110; a grade of C- or better is required.
Grading Status: Letter grade.

MATH 152. Calculus for Business and Social Sciences. 3 Credits.
An introductory survey of differential and integral calculus with emphasis on techniques and applications of interest for business and the social sciences. This is a terminal course and not adequate preparation for MATH 232. A student cannot receive credit for this course after receiving credit for MATH 231 or 241.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-QUANT.
Making Connections Gen Ed: QR.
Requisites: Prerequisite, MATH 110.
Grading Status: Letter grade.
MATH 190. Special Topics in Mathematics. 3 Credits.
An undergraduate seminar course that is designed to be a participatory intellectual adventure on an advanced, emergent, and stimulating topic within a selected discipline in mathematics. This course does not count as credit towards the mathematics major.

Rules & Requirements
Grading Status: Letter grade.

MATH 210. Mathematical Tools for Data Science. 3 Credits.
This course introduces students to the tools of linear algebra and optimization, including solving linear systems, matrices as linear transformations, eigenvalues and eigenvectors, approximations, root finding, derivatives, and optimization in multiple dimensions. This course emphasizes multidimensional thinking and applications to data science. A student cannot receive credit for this course after receiving credit for MATH 347.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Requisites: Prerequisite, MATH 110 or 110P.
Grading Status: Letter grade.

MATH 231. Calculus of Functions of One Variable I. 4 Credits.
Limits, derivatives, and integrals of functions of one variable. Students may not receive credit for both MATH 231 and MATH 241. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Requisites: Prerequisite, MATH 110 or 110P.
Grading Status: Letter grade.

MATH 231L. Calculus I Corequisite. 1 Credits.
This course provides just-in-time instruction and review on algebra and trigonometry to support students in MATH 231. It also provides additional practice on some of the more difficult topics from Calculus 1. This course is intended to be taken by students currently enrolled in MATH 231 who need review of algebra and trigonometry.

Rules & Requirements
Requisites: Prerequisites, MATH 110 and 130; Requires a grade of C- or better in MATH 130 or placement by the department.
Grading Status: Letter grade.

MATH 232. Calculus of Functions of One Variable II. 4 Credits.
Calculus of the elementary transcendental functions, techniques of integration, indeterminate forms, Taylor's formula, infinite series. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Requisites: Prerequisite, A grade of C- or better in MATH 231 or placement by the department.
Grading Status: Letter grade.

MATH 233. Calculus of Functions of Several Variables. 4 Credits.
Vector algebra, solid analytic geometry, partial derivatives, multiple integrals. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-QUANT.
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 232.
Grading Status: Letter grade.

MATH 290. Special Topics in Mathematics. 1-3 Credits.
Permission of the instructor. Elective topics in mathematics. This course has variable content and may be taken multiple times for credit.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.
Grading Status: Letter grade.

MATH 294. Undergraduate Seminar in Mathematics. 1-3 Credits.
A seminar on a chosen topic in mathematics in which the students participate more actively than in usual courses. Permission of the instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

MATH 296. Directed Exploration in Mathematics. 1-3 Credits.
By permission of the director of undergraduate studies. Experimentation or deeper investigation under the supervision of a faculty member of topics in mathematics that may be, but need not be, connected with an existing course. No one may receive more than seven semester hours of credit for this course. Formerly offered as MATH 290.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 7 total credits. 7 total completions.
Grading Status: Letter grade.

MATH 307. Revisiting Real Numbers and Algebra. 3 Credits.
Central to teaching precollege mathematics is the need for an in-depth understanding of real numbers and algebra. This course explores this content, emphasizing problem solving and mathematical reasoning.

Rules & Requirements
IDEAs in Action Gen Ed: QI.
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 232.
Grading Status: Letter grade.

MATH 347. Linear Algebra for Applications. 3 Credits.
Algebra of matrices with applications: determinants, solution of linear systems by Gaussian elimination, Gram-Schmidt procedure, and eigenvalues. Previously offered as MATH 547.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 4 total credits. 2 total completions.
Grading Status: Letter grade.

MATH 390. Special Topics in Mathematics. 1-3 Credits.
This course provides instruction and review on algebra and trigonometry to support students in MATH 391. It also provides additional practice on some of the more difficult topics from Calculus 1. This course is intended to be taken by students currently enrolled in MATH 391 who need review of algebra and trigonometry.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-QUANT.
Making Connections Gen Ed: QR.
Requisites: Prerequisite, MATH 110 or 110P.
Grading Status: Letter grade.
MATH 381. Discrete Mathematics. 3 Credits.
This course serves as a transition from computational to more theoretical mathematics. Topics are from the foundations of mathematics: logic, set theory, relations and functions, induction, permutations and combinations, recurrence. Honors version available.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 232.
Grading Status: Letter grade.

MATH 383. First Course in Differential Equations. 3 Credits.
Introductory ordinary differential equations, first- and second-order differential equations with applications, higher-order linear equations, systems of first-order linear equations (introducing linear algebra as needed). Honors version available.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 233.
Grading Status: Letter grade.

MATH 383L. First Course in Differential Equations Laboratory. 1 Credit.
Course is computational laboratory component designed to help students visualize ODE solutions in Matlab. Emphasis is on differential equations motivated by applied sciences. Some applied linear algebra will appear as needed for computation and modeling purposes.

Rules & Requirements
Requisites: Prerequisite, MATH 233; pre- or corequisite, MATH 383.
Grading Status: Letter grade.

MATH 396. Undergraduate Reading and Research in Mathematics. 1-3 Credits.
Permission of the director of undergraduate studies. This course is intended mainly for students working on honors projects. No one may receive more than three semester hours credit for this course.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics, 6 total credits. 6 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

MATH 406. Mathematical Methods in Biostatistics. 1 Credit.
Special mathematical techniques in the theory and methods of biostatistics as related to the life sciences and public health. Includes brief review of calculus, selected topics from intermediate calculus, and introductory matrix theory for applications in biostatistics.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 232.
Grading Status: Letter grade.

MATH 410. Teaching and Learning Mathematics. 4 Credits.
Study of how people learn and understand mathematics, based on research in mathematics, mathematics education, psychology, and cognitive science. This course is designed to prepare undergraduate mathematics majors to become excellent high school mathematics teachers. It involves field work in both the high school and college environments.

Rules & Requirements
IDEAs in Action Gen Ed: COMMUNICATION.
Grading Status: Letter grade.

MATH 411. Developing Mathematical Concepts. 3 Credits.
Permission of the instructor. An investigation of various ways elementary concepts in mathematics can be developed. Applications of the mathematics developed will be considered.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisites, MATH 233 and 381.
Grading Status: Letter grade.

MATH 418. Basic Concepts of Analysis for High School Teachers. 3 Credits.
An examination of high school mathematics from an advanced perspective, including number systems and the behavior of functions and equations. Designed primarily for prospective or practicing high school teachers.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisites, MATH 233 and 381.
Grading Status: Letter grade.

MATH 515. History of Mathematics. 3 Credits.
A general survey of the history of mathematics with emphasis on elementary mathematics. Some special problems will be treated in depth.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 381.
Grading Status: Letter grade.

MATH 521. Advanced Calculus I. 3 Credits.
A grade of A- or better in STOR 215 may substitute for MATH 381. The real numbers, continuity and differentiability of functions of one variable, infinite series, integration. Honors version available.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisites, MATH 233 and 381.
Grading Status: Letter grade.

MATH 522. Advanced Calculus II. 3 Credits.
Functions of several variables, the derivative as a linear transformation, inverse and implicit function theorems, multiple integration. Honors version available.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisites, MATH 383 and 521.
Grading Status: Letter grade.
MATH 523. Functions of a Complex Variable with Applications. 3 Credits.
The algebra of complex numbers, elementary functions and their mapping properties, complex limits, power series, analytic functions, contour integrals, Cauchy's theorem and formulae, Laurent series and residue calculus, elementary conformal mapping and boundary value problems, Poisson integral formula for the disk and the half plane.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 383.
Grading Status: Letter grade.

MATH 524. Elementary Differential Equations. 3 Credits.
Linear differential equations, power series solutions, Laplace transforms, numerical methods.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 383.
Grading Status: Letter grade.

MATH 528. Mathematical Methods for the Physical Sciences I. 3 Credits.
Theory and applications of Laplace transform, Fourier series and transform, Sturm-Liouville problems. Students will be expected to do some numerical calculations on either a programmable calculator or a computer. This course has an optional computer laboratory component: MATH 528L.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 383.
Grading Status: Letter grade.

MATH 528L. Laboratory for Mathematical Methods for the Physical Sciences I. 1 Credits.
Training in the use of symbolic and numerical computing packages and their application to the MATH 528 lecture topics. Students will need a CCI-compatible computing device.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 383; pre- or corequisite, MATH 529.
Grading Status: Letter grade.

MATH 529. Mathematical Methods for the Physical Sciences II. 3 Credits.
Introduction to boundary value problems for the diffusion, Laplace and wave partial differential equations. Bessel functions and Legendre functions. Introduction to complex variables including the calculus of residues. This course has an optional computer laboratory component: MATH 529L.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 383; pre- or corequisite, MATH 528.
Grading Status: Letter grade.

MATH 529L. Laboratory for Mathematical Methods for the Physical Sciences II. 1 Credits.
Training in the use of symbolic and numerical computing packages and their application to the MATH 529 lecture topics. Students will need a CCI-compatible computing device.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 383; pre- or corequisite, MATH 529.
Grading Status: Letter grade.

MATH 533. Elementary Theory of Numbers. 3 Credits.
A grade of A- or better in STOR 215 may substitute for MATH 381. Divisibility, Euclidean algorithm, congruences, residue classes, Euler’s function, primitive roots, Chinese remainder theorem, quadratic residues, number-theoretic functions, Farey and continued fractions, Gaussian integers.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 381.
Grading Status: Letter grade.

MATH 534. Elements of Modern Algebra. 3 Credits.
A grade of A- or better in STOR 215 may substitute for MATH 381. Binary operations, groups, subgroups, cosets, quotient groups, rings, polynomials.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 381.
Grading Status: Letter grade.

MATH 535. Introduction to Probability. 3 Credits.
Introduction to mathematical theory of probability covering random variables; moments; binomial, Poisson, normal and related distributions; generating functions; sums and sequences of random variables; and statistical applications. Students may not receive credit for both STOR 435 and STOR 535.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 381.
Grading Status: Letter grade.

MATH 548. Combinatorial Mathematics. 3 Credits.
Counting selections, binomial identities, inclusion-exclusion, recurrences, Catalan numbers. Selected topics from algorithmic and structural combinatorics, or from applications to physics and cryptography.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 381.
Grading Status: Letter grade.

MATH 550. Topology. 3 Credits.
Introduction to topics in topology, particularly surface topology, including classification of compact surfaces, Euler characteristic, orientability, vector fields on surfaces, tessellations, and fundamental group.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisites, MATH 233 and 381.
Grading Status: Letter grade.
MATH 551. Euclidean and Non-Euclidean Geometries. 3 Credits.
A grade of A- or better in STOR 215 may substitute for MATH 381. Critical study of basic notions and models of Euclidean and non-Euclidean geometries: order, congruence, and distance.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 381.
Grading Status: Letter grade.

MATH 553. Mathematical and Computational Models in Biology. 3 Credits.
This course introduces analytical, computational, and statistical techniques, such as discrete models, numerical integration of ordinary differential equations, and likelihood functions, to explore various fields of biology.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, BIOL 201 and 202, MATH 231, and either MATH 232 or STOR 155; Co-requisite, BIOL 553L/MATH 553L; permission of the instructor for students lacking the requisites.
Grading Status: Letter grade.
Same as: BIOL 553.

MATH 553L. Mathematical and Computational Models in Biology Laboratory. 1 Credits.
This lab introduces analytical, computational, and statistical techniques, such as discrete models, numerical integration of ordinary differential equations, and likelihood functions, to explore various fields of biology.

Rules & Requirements
Requisites: Prerequisite, BIOL 201 and 202, MATH 231, and either MATH 232 or STOR 155; Co-requisite, BIOL 553L/MATH 553L; Permission of the instructor for students lacking the requisites.
Grading Status: Letter grade.
Same as: BIOL 553L.

MATH 555. Introduction to Dynamics. 3 Credits.
Topics will vary and may include iteration of maps, orbits, periodic points, attractors, symbolic dynamic, bifurcation, fractal sets, chaotic systems, systems arising from differential equations, iterated function, and applications.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 383.
Grading Status: Letter grade.

MATH 560. Optimization with Applications in Machine Learning. 3 Credits.
This course will provide an introduction to convex optimization, including convex sets and functions, modeling, conic problems, optimality conditions and algorithms. The second part of the course will address non-convex problems, focusing on contemporary optimization challenges in large-scale optimization and practical approaches for machine learning and deep learning.

Rules & Requirements
Requisites: Prerequisites, MATH 233, MATH 347, and COMP 110 or COMP 116.
Grading Status: Letter grade.

MATH 564. Mathematical Modeling in the Life Sciences. 3 Credits.
Requires some knowledge of computer programming. Model validation and numerical simulations using ordinary, partial, stochastic, and delay differential equations. Applications to the life sciences may include muscle physiology, biological fluid dynamics, neurobiology, molecular regulatory networks, and cell biology.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisites, MATH 383, and 347.
Grading Status: Letter grade.

MATH 566. Introduction to Numerical Analysis. 3 Credits.
Requires some knowledge of computer programming. Iterative methods, interpolation, polynomial and spline approximations, numerical differentiation and integration, numerical solution of ordinary and partial differential equations.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 383, or 347.
Grading Status: Letter grade.

MATH 577. Linear Algebra. 3 Credits.
Vector spaces, linear transformations, duality, diagonalization, primary and cyclic decomposition, Jordan canonical form, inner product spaces, orthogonal reduction of symmetric matrices, spectral theorem, bilinear forms, multilinear functions. A much more abstract course than MATH 347.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisites, MATH 381 and 383; A grade of A- or better in STOR 215 may substitute for MATH 381.
Grading Status: Letter grade.

MATH 578. Algebraic Structures. 3 Credits.
Permutation groups, matrix groups, groups of linear transformations, symmetry groups; finite abelian groups. Residue class rings, algebra of matrices, linear maps, and polynomials. Real and complex numbers, rational functions, quadratic fields, finite fields.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, MATH 347, or 577.
Grading Status: Letter grade.

MATH 590. Topics in Mathematics. 3 Credits.
Permission of the instructor. Topics may focus on matrix theory, analysis, algebra, geometry, or applied and computational mathematics.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.
MATH 594. Nonlinear Dynamics. 3 Credits.
Interdisciplinary introduction to nonlinear dynamics and chaos. Fixed points, bifurcations, strange attractors, with applications to physics, biology, chemistry, finance.

Rules & Requirements
Requisites: Prerequisite, MATH 383; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: PHYS 594.

MATH 635. Probability II. 3 Credits.

Rules & Requirements
Requisites: Prerequisite, STOR 634; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: STOR 635.

MATH 641. Enumerative Combinatorics. 3 Credits.
Basic counting; partitions; recursions and generating functions; signed enumeration; counting with respect to symmetry, plane partitions, and tableaux.

Rules & Requirements
Requisites: Prerequisite, MATH 578.
Grading Status: Letter grade.

MATH 643. Combinatorial Structures. 3 Credits.
Graph theory, matchings, Ramsey theory, extremal set theory, network flows, lattices, Moebius inversion, q-analogs, combinatorial and projective geometries, codes, and designs.

Rules & Requirements
Requisites: Prerequisite, MATH 578.
Grading Status: Letter grade.

MATH 657. Qualitative Theory of Differential Equations. 3 Credits.
Requires knowledge of linear algebra. Existence and uniqueness theorems, linear and nonlinear systems, differential equations in the plane and on surfaces, Poincare-Bendixson theory, Lyapunov stability and structural stability, critical point analysis.

Rules & Requirements
Requisites: Prerequisite, MATH 653.
Grading Status: Letter grade.

MATH 661. Scientific Computation I. 3 Credits.
Requires some programming experience and basic numerical analysis. Error in computation, solutions of nonlinear equations, interpolation, approximation of functions, Fourier methods, numerical integration and differentiation, introduction to numerical solution of ODEs, Gaussian elimination.

Rules & Requirements
Grading Status: Letter grade.
Same as: ENVR 661.

MATH 662. Scientific Computation II. 3 Credits.
Theory and practical issues arising in linear algebra problems derived from physical applications, e.g., discretization of ODEs and PDEs. Linear systems, linear least squares, eigenvalue problems, singular value decomposition.

Rules & Requirements
Requisites: Prerequisite, MATH 661.
Grading Status: Letter grade.
Same as: COMP 662, ENVR 662.

MATH 668. Methods of Applied Mathematics I. 3 Credits.
Requires an undergraduate course in differential equations. Contour integration, asymptotic expansions, steepest descent/stationary phase methods, special functions arising in physical applications, elliptic and theta functions, elementary bifurcation theory.

Rules & Requirements
Grading Status: Letter grade.
Same as: ENVR 668.

MATH 669. Methods of Applied Mathematics II. 3 Credits.
Perturbation methods for ODEs and PDEs, WKBJ method, averaging and modulation theory for linear and nonlinear wave equations, long-time asymptotics of Fourier integral representations of PDEs, Green's functions, dynamical systems tools.

Rules & Requirements
Requisites: Prerequisite, MATH 668.
Grading Status: Letter grade.
Same as: ENVR 669.

MATH 676. Modules, Linear Algebra, and Groups. 3 Credits.
Requires knowledge of linear algebra and algebraic structures. Modules over rings, canonical forms for linear operators and bilinear forms, multilinear algebra, groups and group actions.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
MATH 677. Groups, Representations, and Fields. 3 Credits.
Internal structure of groups, Sylow theorems, generators and relations, group representations, fields, Galois theory, category theory.

Rules & Requirements
Requisites: Prerequisite, MATH 676.
Grading Status: Letter grade.

MATH 680. Differentiable Manifolds. 3 Credits.
Calculus on manifolds, vector bundles, vector fields and differential equations, de Rham cohomology.

Rules & Requirements
Requisites: Prerequisite, MATH 681.
Grading Status: Letter grade.

MATH 681. Introductory Topology. 3 Credits.

Rules & Requirements
Grading Status: Letter grade.

MATH 690. Topics In Mathematics. 3 Credits.
Permission of the department. Directed study of an advanced topic in mathematics. Topics will vary.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

MATH 691H. Honors Research in Mathematics. 3 Credits.
Permission of the director of undergraduate studies. Readings in mathematics and the beginning of directed research on an honors thesis.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

MATH 692H. Honors Thesis in Mathematics. 3 Credits.
Permission of the director of undergraduate studies. Completion of an honors thesis under the direction of a member of the faculty. Required of all candidates for graduation with honors in mathematics.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

Mathematics Major, B.A.

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance.

Students majoring in mathematics may enter either the B.A. or the B.S. program. The B.A. program is more flexible than the B.S. program; it allows students to specialize in mathematics and at the same time either to follow a broad liberal arts program or to specialize in a second area (possibly even taking a second major). MATH 521 is a key class in the curriculum and MATH 381 is a key to prepare for it. Your degree plan should be built with these classes as the backbone, and they should be taken in the second and third year by most students. Please see the sample plan for additional information and suggestions.

Student Learning Outcomes

Upon completion of the mathematics program (B.A., B.S.), students should be able to:

- Demonstrate mastery of the core of mathematics recognized as essential by national professional mathematics organizations
- Demonstrate mathematical reasoning and problem-solving skills
- Demonstrate the ability to construct logical arguments and mathematical proofs
- Demonstrate the ability to apply mathematical knowledge and skills in context and interpret results

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Total Hours 33

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 A current or former major in statistics and analytics may substitute STOR 215 for MATH 381.
2 For this requirement, taking the three lab courses MATH 383L + MATH 528L + MATH 529L counts as one 500-level course.

All General Education requirements apply (see the General Education Requirements (p. 1166) in this catalog).

Following are suggested course selections (within the degree requirements) for students who have an interest in a particular direction.

Course Suggestions for Pure Mathematics
These courses provide a solid theoretical understanding of central mathematics and excellent preparation for graduate study in mathematics or the mathematical sciences.

<table>

Enough upper-level mathematics courses to satisfy the degree requirements

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Those planning graduate study in mathematics or the mathematical sciences may consider taking some of MATH 653, MATH 676, MATH 680, or subsequent courses.

Course Suggestions for Mathematical Economics
Suitable for students planning to go on to graduate school in economics or a related area, or pursue a career in economics, business, or finance. Note: With three more ECON courses numbered above 400, the requirements for the B.A. in economics could also be satisfied.

<table>
<thead>
<tr>

<td>Intermediate Macroeconomics</td>
<td>3</td>
</tr>
</tbody>
</table>

At least two of:
- ECON 510 Advanced Microeconomic Theory
- ECON 511 Advanced Game Theory in Economics
- ECON 520 Advanced Macroeconomic Theory
- ECON 570 Applied Econometric Analysis
- MATH 521 Advanced Calculus I

At least three of:
- MATH 522 Advanced Calculus II
- MATH 524 Elementary Differential Equations
- MATH 535 Introduction to Probability
- MATH 550 Topology
- MATH 555 Introduction to Dynamics
- MATH 564 Mathematical Modeling in the Life Sciences

Either:
- MATH 535/STOR 435 Introduction to Probability
- STOR 555 Mathematical Statistics
- Or:
- ECON 400 Introduction to Data Science and Econometrics
- ECON 570 Applied Econometric Analysis
- MATH 347 Linear Algebra for Applications
- or MATH 577 Linear Algebra

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.
Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first two years, students are required to complete the standard calculus sequence as well as discrete mathematics, linear algebra, and first course in differential equations. At the beginning of their third year, students take advanced courses in mathematics. They have a great deal of flexibility in tailoring their program to meet their individual interests.

33

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 A current or former major in statistics and analytics may substitute STOR 215 (https://catalog.unc.edu/search/?P=STOR%20215) for MATH 381 (https://catalog.unc.edu/search/?P=MATH%20381).

2 For this requirement, taking the three lab courses MATH 383L + MATH 528L + MATH 529L counts as one 500-level course.

3 One of these courses could be moved to the third year with minimal consequence.

Special Opportunities in Mathematics

Special activities for qualified students include an undergraduate Mathematics Club, problem-solving seminars, the Putnam Mathematical Competition, and the Virginia Tech Mathematics Contest. Students interested in these activities should consult the departmental honors advisor.

Qualified undergraduate students may work as research assistants in the Fluid Laboratory or as tutors in the Math Help Center. Students can conduct original research with the guidance of a faculty member, usually in conjunction with the preparation of an honors project. Study Abroad opportunities include semester or yearlong programs in a variety of countries. The Archibald Henderson Medal and the Alfred Brauer Prize recognize outstanding performance and promise in mathematics.

Undergraduate honors research projects as well as some internships or study abroad programs might qualify for high-impact or experiential education credit in the General Education curriculum. MATH 296 satisfies this requirement.

Honors in Mathematics

Special honors (H) sections are given in some mathematics courses when student demand is sufficient (for example, MATH 62H, MATH 231H, MATH 232H, MATH 233H, MATH 381H, MATH 383H).

Promising students are encouraged to work toward a bachelor’s degree with honors in mathematics. This program consists of six or more courses approved by the departmental honors advisor and satisfactory completion of an honors project completed over the two semesters of the senior year. The honors project is conducted in association with a departmental faculty member on a topic approved by the departmental honors advisor, and spans two semesters of independent research, during which time the honors candidate must be enrolled in MATH 691H and MATH 692H. The final report on the project includes both a written description and an oral presentation before a committee of three faculty (including the project advisor) approved by the departmental honors advisor. The committee will then report to the departmental honors advisor, who, in conjunction with a subcommittee of the undergraduate committee, will make the final recommendation on awarding a degree with honors or highest honors. The candidate must have a 3.5 grade point average in mathematics courses to begin an honors project and must maintain the 3.5 average through the completion of the senior year.

UNC–BEST

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate mathematics (and science) majors interested in teaching high school mathematics the opportunity to earn their degree and obtain licensure as a North Carolina high school mathematics teacher in four years. UNC–BEST students meet all the degree requirements for their mathematics major and complete a teaching methods class (MATH 410 or EDUC 760). Students also fulfill teaching licensure coursework requirements (see list below) as well as many General Education and elective requirements.
Mathematics Major, B.S.

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance.

Students majoring in mathematics may enter either the B.A. or the B.S. program. The B.S. program is more comprehensive; it provides solid preparation for work or for further study in mathematics and related fields. Within the B.S. program there is an applied option, which is designed for students who are primarily interested in using mathematics for the study of other sciences. MATH 521 is a key class in the curriculum and MATH 381 is a key to prepare for it. The degree plan should be built with these classes as the backbone, and they should be taken in the second and third year by most students. Please see the sample plan for additional information and suggestions.

Student Learning Outcomes

Upon completion of the mathematics program (B.A., B.S.), students should be able to:

- Demonstrate mastery of the core of mathematics recognized as essential by national professional mathematics organizations
- Demonstrate mathematical reasoning and problem-solving skills
- Demonstrate the ability to construct logical arguments and mathematical proofs
- Demonstrate the ability to apply mathematical knowledge and skills in context and interpret results

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC-Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 A current or former major in statistics and analytics may substitute STOR 215 for MATH 381.

Students must complete either the B.S. or B.S.-Applied Option for a B.S. degree with a major in mathematics. All requirements of the General Education curriculum (except for Supplemental General Education) apply to students in both options.
Following are suggested course selections (within the degree requirements) for students who have an interest in a particular direction.

**Course Suggestions for Pure Mathematics**

These courses provide a solid theoretical understanding of central mathematics and excellent preparation for graduate study in mathematics or the mathematical sciences.

Three or more mathematics courses numbered above 500. Consider especially MATH 524, MATH 529, MATH 535, and MATH 564

\(^{F}\) FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

**Sample Plan of Study**

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first two years, students are required to complete the standard calculus sequence, discrete mathematics, linear algebra, and first course in differential equations as well as introductory courses in computer science and physics. At the beginning of their third year, students take advanced courses in mathematics.

\(^H\) Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

\(^F\) FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 A current or former major in statistics and analytics may substitute STOR 215 (https://catalog.unc.edu/search/?P=STOR %20215) for MATH 381 (https://catalog.unc.edu/search/?P=MATH %20381).
with at least three from MATH 528, MATH 529, MATH 560, MATH 564, MATH 566, MATH 661, MATH 668, sequence MATH 383L + MATH 528L + MATH 529L.
2 These courses may be completed at any point in the major. However, we recommend starting early especially for sequential courses in another department. STOR 555 can be counted for this requirement and is strongly recommended.

Special Opportunities in Mathematics
Special activities for qualified students include an undergraduate Mathematics Club, problem-solving seminars, the Putnam Mathematical Competition, and the Virginia Tech Mathematics Contest. Students interested in these activities should consult the departmental honors advisor.

Qualified undergraduate students may work as research assistants in the Fluid Laboratory or as tutors in the Math Help Center. Students can conduct original research with the guidance of a faculty member, usually in conjunction with the preparation of an honors project. Study Abroad opportunities include semester or yearlong programs in a variety of countries. The Archibald Henderson Medal and the Alfred Brauer Prize recognize outstanding performance and promise in mathematics.

Undergraduate honors research projects as well as some internships or study abroad programs might qualify for high-impact or experiential education credit in the General Education curriculum. MATH 296 satisfies this requirement.

Honors in Mathematics
Special honors (H) sections are given in some mathematics courses when student demand is sufficient (for example, MATH 62H, MATH 231H, MATH 232H, MATH 233H, MATH 381H, MATH 383H).

Promising students are encouraged to work toward a bachelor’s degree with honors in mathematics. This program consists of six or more courses approved by the departmental honors advisor and satisfactory completion of an honors project completed over the two semesters of the senior year. The honors project is conducted in association with a departmental faculty member on a topic approved by the departmental honors advisor, and spans two semesters of independent research, during which time the honors candidate must be enrolled in MATH 691H and MATH 692H. The final report on the project includes both a written description and an oral presentation before a committee of three faculty (including the project advisor) approved by the departmental honors advisor. The committee will then report to the departmental honors advisor, who, in conjunction with a subcommittee of the undergraduate committee, will make the final recommendation on awarding a degree with honors or highest honors. The candidate must have a 3.5 grade point average in mathematics courses to begin an honors project and must maintain the 3.5 average through the completion of the senior year.

UNC–BEST
The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate mathematics (and science) majors interested in teaching high school mathematics the opportunity to earn their degree and obtain licensure as a North Carolina high school mathematics teacher in four years. UNC–BEST students meet all the degree requirements for their mathematics major and complete a teaching methods class (MATH 410 or EDUC 760). Students also fulfill teaching licensure coursework requirements (see list below) as well as many General Education and elective requirements.

Mathematics Minor

Mathematics has always been a fundamental component of human thought and culture, and the growth of technology in recent times has further increased its importance.

In addition to the program requirements listed below, students must:

• take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 702).

Department of Microbiology and Immunology

The Department of Microbiology and Immunology is one of the basic science departments of the UNC School of Medicine. Although the department participates actively in the undergraduate curriculum in biology and several of its courses are open to undergraduate students, the department does not offer an undergraduate major in microbiology.

MCRO 251 Introductory Medical Microbiology is an undergraduate course, including both lecture and laboratory sessions, which is specifically designed to serve as the required prerequisite for students applying to physician assistant, pharmacy, or nursing programs, although other students with the required science background may take the course. Most of the other courses offered by the department are available to highly motivated undergraduate students with the necessary preparation, although it is important for such students to consult the course instructor before registering.

Graduate Programs

• Ph.D. in Microbiology and Immunology (http://catalog.unc.edu/graduate/schools-departments/microbiology-immunology/)
MCRO—Microbiology

Undergraduate-Level Courses

MCRO 251. Introductory Medical Microbiology. 4 Credits.
Required preparation, one semester of a basic undergraduate science class. An introductory course in microbiology that focuses on the structure, biology, and genetics of microbes in relation to human disease and the immune system. For students planning careers in pharmacy, nursing, dental hygiene, and related fields. A laboratory is required.

Rules & Requirements
Grading Status: Letter grade.

MCRO 291. Undergraduate Learning Apprentice. 1 Credits.
Permission required. Experience includes preparations, demonstrations, assistance, and attendance at weekly meetings. Apprentices will not be involved in any aspects of grading.

Rules & Requirements
Requisites: Prerequisite, MCRO 251; a grade of B or better in MCRO 251 is required.
Repeat Rules: May be repeated for credit. 1 total credits. 1 total completions.
Grading Status: Pass/Fail.

MCRO 292. Undergraduate Learning Assistant. 2 Credits.
Permission required. Experience includes preparations, demonstrations, assistance, and attendance at weekly meetings.

Rules & Requirements
Requisites: Prerequisite, MCRO 251; a grade of B or better in MCRO 251 is required.
Repeat Rules: May be repeated for credit. 2 total credits. 2 total completions.
Grading Status: Pass/Fail.

Advanced Undergraduate and Graduate-Level Courses

MCRO 449. Introduction to Immunology. 3 Credits.
This course provides a general overview of the evolution, organization, and function of the immune system. Instruction will be inquiry-based with extensive use of informational and instructional technology tools.

Rules & Requirements
Requisites: Prerequisite, BIOL 205; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: BIOL 449.

MCRO 614. Immunobiology. 3 Credits.
A strong background in molecular biology, eukaryotic genetics, and biochemistry is required. Advanced survey course with topics that include molecular recognition, genetic mechanisms of host resistance, development of cells and cell interactions; hypersensitivity, autoimmunity, and resistance to infection. Course material from textbook and primary literature.

Rules & Requirements
Grading Status: Letter grade.

MCRO 630. Virology. 3 Credits.
Required preparation, coursework in molecular biology and cell biology. Current concepts of the chemistry, structure, replication, genetics, and the natural history of animal viruses and their host cells.

Rules & Requirements
Grading Status: Letter grade.

MCRO 631. Advanced Molecular Biology I. 3 Credits.
Required preparation for undergraduates; at least one undergraduate course in both biochemistry and genetics. DNA structure, function, and interactions in prokaryotic and eukaryotic systems, including chromosome structure, replication, recombination, repair, and genome fluidity. Three lecture hours a week.

Rules & Requirements
Grading Status: Letter grade.
Same as: GNET 631, BIOC 631, BIOL 631.

MCRO 632. Advanced Molecular Biology II. 3 Credits.
Required preparation for undergraduates; at least one undergraduate course in both biochemistry and genetics. The purpose of this course is to provide historical, basic, and current information about the flow and regulation of genetic information from DNA to RNA in a variety of biological systems. Three lecture hours a week.

Rules & Requirements
Grading Status: Letter grade.
Same as: GNET 632, BIOC 632, BIOL 632.

MCRO 635. Microbial Pathogenesis I. 3 Credits.
Permission of the instructor. Required preparation, coursework in molecular biology and genetics. Topics will include aspects of basic bacteriology as well as bacterial and fungal pathogens and mechanisms of disease.

Rules & Requirements
Grading Status: Letter grade.

MCRO 640. Microbial Pathogenesis II. 3 Credits.
Permission of the instructor or a fundamental understanding of molecular virology and immunology. Molecular pathogenesis, with a primary focus on viral pathogens. Additional topics include vaccines and genetics of host-pathogen interactions.

Rules & Requirements
Grading Status: Letter grade.

MCRO 690. Special Topics in Microbiology or Immunology. 1-15 Credits.
Permission of the department except for department majors. Designed to introduce the student to research methods. Minor investigative problems are conducted with advice and guidance of the staff. Hours and credit to be arranged, any term. May be repeated for credit two or more semesters.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 15 total credits. 5 total completions.
Grading Status: Letter grade.

The Army ROTC Program

Four-Year Program

Students enrolled in the four-year program take courses during each semester. The first two years include the ROTC basic course and concentrate on leadership development, ethics and values, the profession of arms, and basic military skills. Starting the junior year, cadets enter the ROTC advanced course. The advanced course curriculum focuses on the study and application of leadership skills, mission command, advanced land navigation, and military history. Qualified cadets will have the opportunity to attend multiple iterations of Cadet Summer Training at Fort Knox, Kentucky. In their senior year, cadets submit accessions packets—including component (Active, Reserve, National Guard) and branch preferences—to compete for the opportunity to serve the nation as commissioned officers.

Two-Year Program

The two-year program provides an opportunity for students to meet the requirements for the advanced course program and potential commissioning as officers in the United States Army. To be eligible for consideration, a student must have previously served in the armed services or attended Cadet Initial Entry Training at Fort Knox, Kentucky.

Interested Students

Students seeking to learn more about themselves, leadership, and the United States Army can take ARMY 101, ARMY 102, ARMY 201, and ARMY 202 without incurring a service obligation.

Advising

Cadets are required to complete an additional academic tracking form and receive guidance from their military science instructor to ensure military and graduation requirements are met.

Minor

- Military Science and Leadership Minor (p. 713)

Professor

Daniel Hurd, Lieutenant Colonel, U.S. Army

Assistant Professors

Bryon Darling, Major, U.S. Army
Kathleen Rose, Captain, U.S. Army

Primary Trainer

Michael Argent, Master Sergeant, U.S. Army

ARMY—Army

Undergraduate-level Courses

ARMY 100. Leadership Laboratory. 0 Credits.
This course is designed to enhance the military science curriculum while providing the opportunity for hands-on practice of leadership fundamentals and the education received during ARMY 101, 102, 201, 202, 301, 302, 401, and 402. Requirement for cadets.

Rules & Requirements
Repeat Rules: May be repeated for credit.
Grading Status: Letter grade.

ARMY 101. Introduction to the Army and Critical Thinking. 1 Credits.
This course introduces students to the personal challenges and competencies that are critical for effective leadership. Students learn how the personal development of life skills such as critical thinking, time management, goal setting, stress management, and comprehensive fitness relate to leadership and the Army profession. Required for cadets.

Rules & Requirements
Grading Status: Letter grade.

ARMY 102. Adaptive Leadership and Professional Competence. 1 Credits.
Builds on ARMY 101 by offering an introduction to the personal challenges and competencies that are critical for adaptive leadership. Students learn the basics of the communication process and the importance for leaders to develop the essential skills to communicate effectively in the Army. Required for cadets.

Rules & Requirements
Grading Status: Letter grade.

ARMY 190. Seminar in Selected Topics of Military Science. 1-3 Credits.
Permission of the department. A detailed examination of current topics regarding the U.S. Army. Provides a course for Army ROTC cadets who require additional coursework to meet commissioning and/or scholarship requirements due to extenuating circumstances.

Rules & Requirements
Grading Status: Letter grade.

ARMY 196. Independent Study. 1-3 Credits.
Permission of the department and the instructor. A course learning contract is required. Any student wishing to further their Army Leadership study or unable to schedule military science courses during their allotted time frames to maintain Army enrollment requirements may enroll.

Rules & Requirements
Grading Status: Letter grade.

ARMY 201. Leadership and Decision Making. 2 Credits.
This course explores the dimensions of creative and innovative tactical leadership strategies and styles by examining team dynamics and two historical leadership theories that form the basis of the Army leadership framework. Aspects of personal motivation and team building are practiced by planning, executing, and assessing team exercises. Required for cadets.

Rules & Requirements
Grading Status: Letter grade.
ARMY 202. Army Doctrine and Team Development. 2 Credits.
This course examines the challenges of leading teams in the complex operational environment. Highlights dimensions of terrain analysis, patrolling, and operation orders. Further study of the theoretical basis of the Army leadership requirements model explores the dynamics of adaptive leadership in the context of military operations. Required for cadets.

Rules & Requirements
Grading Status: Letter grade.

ARMY 301. Army Training Management. 3 Credits.
Students will study, practice, and apply the fundamentals of Army leadership, values, and ethics; personal development; and small unit tactics at the platoon level. At the conclusion of this course, students will be capable of planning, coordinating, navigating, motivating, and leading a squad and platoon in the execution of a mission. Required for cadets.

Rules & Requirements
Requisites: Prerequisites, ARMY 101, 102, 201, and 202; Permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

ARMY 302. Applied Leadership in Platoon Operations. 3 Credits.
Students will study, practice, and apply the fundamentals of Army leadership, values, and ethics; personal development; and small unit tactics at the platoon level. At the conclusion of this course, students will be capable of planning, coordinating, navigating, motivating, and leading a squad and platoon in the execution of a mission. Required for cadets.

Rules & Requirements
Requisites: Prerequisites, ARMY 101, 102, 201, and 202; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

ARMY 401. The Army Officer. 3 Credits.
This advanced course places primary emphasis on officership with MS IV cadets. ARMY 401 and 402 together refine and ultimately complete the cadet-to-commissioned-officer transition. This course focuses on mission command philosophy and ethical leadership. Required for cadets.

Rules & Requirements
Requisites: Prerequisites, ARMY 301 and 302; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

ARMY 402. Company Grade Leadership. 3 Credits.
In this final semester of a four-year developmental leadership experience, cadets are undergoing preparation for the duties and responsibilities of a commissioned officer along with their integration into the Army. Emphasis is on critical knowledge, skills, abilities, and competencies new officers will need to succeed in their first unit of assignment. Required for cadets.

Rules & Requirements
Requisites: Prerequisites, ARMY 301, 302, and 401; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

ARMY 493. Army Leadership Expeditionary Training. 1 Credits.
Provides leadership training in a military environment. Professional development through academics, team building events, physical fitness, marksmanship, and leadership exercises. Course culminates in a simulated expeditionary deployment to a combat zone.

Rules & Requirements
Grading Status: Letter grade.

Military Science and Leadership Minor
The military science and leadership minor is for students who wish to augment their college experience with the study and application of military leadership. Military science courses are open to all UNC–Chapel Hill students who meet prerequisites.

Requirements
In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

The minor in military science and leadership is a 15 semester-hour course of study selected from the list below.

Army ROTC offers an array of extracurricular activities. Students looking for excitement and action can volunteer to compete for the opportunity to attend the basic airborne course, Air Assault, or mountain warfare training. Other opportunities include participation as a member of the Ranger Challenge Team or color guard, travel for culture and language immersion programs, and leadership opportunities in Army units in the United States and around the world.

Scholarships
Four-year scholarships are available for high school seniors. Three-and-a-half, three, two-and-a-half, and two-year, merit-based scholarships are available to full-time students. Successful candidates will need to meet eligibility requirements and have at least a 2.5 GPA. Scholarships pay full tuition and fees, $600 per semester book allowance, and a monthly stipend between $300 and $500. The North Carolina Army National Guard and the United States Army Reserve also have programs that can pay stipend between $300 and $500. The North Carolina Army National Guard and the United States Army Reserve also have programs that can pay

Individual and Group Lessons
Instruction for academic credit in keyboard, woodwind, brass, percussion, string instruments, and in voice is available to all University students. All lessons are normally offered each semester and are subject to admission and other requirements being met. Group lessons may also be available on selected instruments and in voice.

Studio assignments are based on instructor availability with preference given to music majors (B.A. and B.Mus.). Fees are charged for lessons based on an annual schedule published by the department. Music lesson fees are to be paid during the registration period; if fees remain unpaid, lessons will be discontinued.

All students wishing to enroll for lessons must first gain the permission of the appropriate area head to register (see the Department of Music's website (http://music.unc.edu/undergraduate/lessons/) for current information); this will involve an audition. Once permission has been granted, the registration process is handled by the Department of Music's registrar, who is also responsible for procedures leading to billing and the formal assignment to a teacher.

B.Mus. students whose primary focus is composition (and whether or not choosing an emphasis in composition) will fulfill the Individual Lessons core requirement by taking MUSC 166, three semesters of MUSC 266, and two hours of MUSC 100–MUSC 107 or MUSC 200–MUSC 207.

MUSC 100–MUSC 107 may be repeated for credit to a maximum of eight hours; MUSC 200–MUSC 207 may be repeated for credit to a maximum of 16 hours; MUSC 266 may be repeated for credit to a maximum of 18 hours; MUSC 300–MUSC 306 may be repeated for credit for a degree to a maximum of six hours. In all these cases, repetition is subject to a grade of C or better in the immediately prior enrollment in the course.
Ensembles

A variety of department ensembles under MUSC 211–MUSC 214 are open to all students by audition. Each carries one credit hour per semester and may be repeated for credit.

B.A. candidates majoring in music must accrue four credit hours in ensembles drawn from MUSC 211 and/or MUSC 212. B.Mus. candidates must accrue eight credit hours chosen from MUSC 211 and/or MUSC 212, at least five of which must be from MUSC 211.

B.A. candidates majoring in music may count no more than three additional hours from MUSC 211–MUSC 214 towards their degree for music. They may count as credit hours for graduation, subject to the overall limit on music hours. Candidates for the B.Mus. may count no more than six additional hours from MUSC 211–MUSC 214 towards their degree for music. They may count as credit hours for graduation, subject to the overall limit on music hours.

B.A. students whose primary instrument is piano will normally fulfill the ensemble requirement by taking one semester of large ensemble (MUSC 211) in addition to the three-semester piano ensemble sequence (Piano Ensemble I: Piano Duet; Piano Ensemble II: Vocal Accompanying; Piano Ensemble II: Instrumental Accompanying).

B.Mus. students whose primary instrument is piano will normally take at least one semester of large ensemble (MUSC 211) and the three-semester piano ensemble sequence (Piano Ensemble I: Piano Duet; Piano Ensemble II: Vocal Accompanying; Piano Ensemble II: Instrumental Accompanying). The rest of the ensemble requirement will be fulfilled by way of additional semesters of MUSC 211 (which may include Collaborative Piano) or MUSC 214.

Students should check with the appropriate ensemble director for more information concerning requirements and procedures for the auditions, which are typically held during the first week of each semester. Ensemble directors are listed on the department's website (http://music.unc.edu/undergraduate/ensembles/). The department offers the following ensembles, most of which meet the ensemble or elective requirements for the music major.

- Baroque Ensemble/Viol Consort
- Bluegrass Band
- Brass Chamber Music Ensembles
- Carolina Choir
- Chamber Singers
- Charanga Carolina
- Gamelan
- Glee Club (soprano/alto voices)
- Glee Club (tenor/bass voices)
- Global Rhythms
- Guitar Ensemble
- Jazz Band
- Jazz Combos
- Marching Band
- New Music Ensemble
- Pep Band
- Percussion Ensemble
- Piano Ensembles
- String Chamber Ensembles
- Symphony Band
- Symphony Orchestra
- UNC Opera
- University Band
- University Chamber Players
- Wind Ensemble
- Woodwind Chamber Ensembles

Advising

All majors and minors have an academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their academic advisor and review their Tar Heel Tracker each semester. In addition, the department's advisory team and the director of undergraduate studies work with current and prospective music majors individually by appointment (see contact information above). Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (http://music.unc.edu/).

Majors

- Music Major, B.A. (p. 727)
- Music Major, Bachelor of Music (B.Mus.) (p. 731)

Minor

- Music Minor (p. 736)
- Musical Theatre Performance Minor (p. 370)

Graduate Programs

- M.A. in Musicology (http://catalog.unc.edu/graduate/schools-departments/music/)
- Ph.D. in Musicology (http://catalog.unc.edu/graduate/schools-departments/music/)

Professors

Associate Professors

Juan Álamo, Andrea Bohlman, Nicholas DiEugenio, Michael Figueroa, Anne MacNeil, Lee Weisert, Clara Yang.

Assistant Professors

Rahsaan Barber, Marc Callahan, Aaron Harcus, LaToya Lain.

Director of University Bands

Jeffrey Fuchs.

Assistant Director of Athletic Bands

Erin Cooper.

Teaching Professors

Jeanne Fischer, Michael Kris.

Teaching Assistant Professors

John Pederson, William Stewart.

Lecturers

Laura Alexander, Robert Anderson, Robert Buxton, LaSaundra Booth, Robert Buxton, Laura Byrne, John Caldwell, Dan Davis, Simon Ertz, Jason Foureman, Samuel Gold, Tatiana Hargreaves, Russell Johnson, Anna Lampidis, Melissa Martin, Paul Neebe, Rachel Niketopoulos, Hank Smith, Mimi Solomon, Timothy Sparks, Laura Stevens, Baron Tymas, Pablo Vega, Stephanie Vial, Ken Weiss, Jacqueline Wolborsky, Akiko Yamazaki.

Professors Emeriti

Harold L. Andrews, Timothy Carter, Jon W. Finson, Lynn Glasscock, James E. Ketch, James Mueser, John L. Nádas, Severine Neff, Thomas Otten,

The Department of Music provides the opportunity for any student to engage broadly with music. An ability to read standard musical notation is not normally required to complete the following courses: MUSC 51—MUSC 65, MUSC 89, MUSC 121, MUSC 141—MUSC 148, MUSC 155—MUSC 158, MUSC 164, MUSC 188, MUSC 240, MUSC 248, MUSC 280—MUSC 294. Numerous courses in music also fulfill Approaches and Connections requirements; see General Education requirements or ConnectCarolina for more information.

### MUSC—Music

#### Undergraduate-level Courses

- **MUSC 51. First-Year Seminar: The Interplay of Music and Physics.** 3 Credits.
  How sound is produced in instruments, and how those sounds are used in music making. Wave motion, resonance, sound perception, scales, harmony, and music theory. Collaborative laboratory exercises to investigate the acoustics of string, woodwind, and brass instruments as well as study of the physics of keyboard and percussion instruments. Students will make instruments from found objects and perform compositions on them, and can pursue their areas of special interest in a research paper.

  **Rules & Requirements**
  - IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH or FC-NATSCI.
  - Making Connections Gen Ed: PL.
  - Grading Status: Letter grade.
  - Same as: PHYS 51.

- **MUSC 52. First-Year Seminar: Building a Nation: The Stage Musicals of Rodgers and Hammerstein, 1942-1949.** 3 Credits.
  Oklahoma!, Carousel, and South Pacific in their political, social, and cultural contexts.

  **Rules & Requirements**
  - IDEAs in Action Gen Ed: FY-SEMINAR.
  - Making Connections Gen Ed: LA, CI.
  - Grading Status: Letter grade.

- **MUSC 53. First-Year Seminar: Rock ’n’ Roll: The First Wave, 1955-1964.** 3 Credits.
  A sociomusical study of rock ’n’ roll in its first decades.

  **Rules & Requirements**
  - IDEAs in Action Gen Ed: FY-SEMINAR.
  - Making Connections Gen Ed: SS.
  - Grading Status: Letter grade.

- **MUSC 54. First-Year Seminar: Music and Magic.** 3 Credits.
  The perceived and actual relationships between music and magic in a range of historical periods.

  **Rules & Requirements**
  - IDEAs in Action Gen Ed: FY-SEMINAR.
  - Making Connections Gen Ed: VP, CI.
  - Grading Status: Letter grade.

- **MUSC 55H. First-Year Seminar: A Love Affair in Renaissance Drama and Music.** 3 Credits.
  Music and drama in Renaissance plays within the pastoral tradition.

  **Rules & Requirements**
  - IDEAs in Action Gen Ed: FY-SEMINAR.
  - Making Connections Gen Ed: LA, CI, WB.
  - Grading Status: Letter grade.

- **MUSC 56. First-Year Seminar: Early-Modern Court Spectacle.** 3 Credits.
  Music and spectacle in the late medieval, Renaissance, and baroque courts of Europe.

  **Rules & Requirements**
  - IDEAs in Action Gen Ed: FY-SEMINAR.
  - Making Connections Gen Ed: LA, CI, WB.
  - Grading Status: Letter grade.

- **MUSC 57. First-Year Seminar: Music and Drama: Verdi’s Operas and Italian Romanticism.** 3 Credits.
  Textual and musical analysis of Verdi’s operas (libretto and score) in their sociohistorical contexts.

  **Rules & Requirements**
  - IDEAs in Action Gen Ed: FY-SEMINAR.
  - Making Connections Gen Ed: LA, CI, WB.
  - Grading Status: Letter grade.

- **MUSC 58. First-Year Seminar: Music in Motion: American Popular Music and Dance.** 3 Credits.
  The relationship and interplay between musical genres and social dance in different communities and eras.

  **Rules & Requirements**
  - IDEAs in Action Gen Ed: FY-SEMINAR.
  - Making Connections Gen Ed: SS, CI.
  - Grading Status: Letter grade.

- **MUSC 59. First-Year Seminar: 20th-Century Music and Visual Art.** 3 Credits.
  The relationship between music and the visual arts in the modernist and postmodernist periods viewed in their historical contexts.

  **Rules & Requirements**
  - IDEAs in Action Gen Ed: FY-SEMINAR.
  - Making Connections Gen Ed: HS, CI.
  - Grading Status: Letter grade.

- **MUSC 60H. First-Year Seminar: American Literature and Its Music.** 3 Credits.
  Music in, and musical settings of, American literature of the Romantic, modern, and postmodern periods.

  **Rules & Requirements**
  - IDEAs in Action Gen Ed: FY-SEMINAR.
  - Making Connections Gen Ed: LA, CI.
  - Grading Status: Letter grade.
MUSC 61H. First-Year Seminar: Reverberations. 3 Credits.
Musical crossovers in world musics and societies.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS, CI.
Grading Status: Letter grade.

MUSC 62. First-Year Seminar: Vienna: City of Dreams. 3 Credits.
Vienna in the early 1900s as a locus for modernism. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS, CI.
Grading Status: Letter grade.

MUSC 63. First-Year Seminar: Music on Stage and Screen. 3 Credits.
Offers tools and techniques for understanding multimedia, staged musical works like opera, musical theater, and film. The goal of the seminar is to develop students’ analytical skills in verbal and nonverbal media and to encourage their visualization of the potential and implications of artistic forms and structures. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: VP, CI.
Grading Status: Letter grade.

MUSC 64. First-Year Seminar: What is a Work of Art? Listening to Music. 3 Credits.
Musical aesthetics, musical works, and the nature of musical art.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: VP, CI, NA.
Grading Status: Letter grade.

MUSC 65. First-Year Seminar: Music and Culture: Understanding the World through Music. 3 Credits.
This seminar focuses on the variety of performances presented by Carolina Performing Arts at Memorial Hall. Through attendance at performances and through research on the performing artists and the works being performed, students explore questions such as, How does music reflect culture? How does the culture shape the art form?

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

MUSC 66. First-Year Seminar: A Course in Digital Humanities and Multimedia. 3 Credits.
Bring your own research ideas and learn how to design digital projects for them, including creating visualizations and audio widgets. Learn how to write grant applications for digital humanities, and explore virtual reality projects. Visit the immersion cave at NC State, talk with researchers at Duke’s Wired! Lab, and work with programmers at UNC’s own Digital Innovation Lab. This class has a particular focus on digital humanities, acoustics, and sound. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

MUSC 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.

MUSC 100. Individual Keyboard Lessons. 0.5-1 Credits.
Individual lessons in piano, organ, or harpsichord. Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 102. Individual Voice Lessons. 0.5-1 Credits.
Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 103. Individual String Lessons. 0.5-1 Credits.
Individual lessons in violin, viola, cello, string bass, harp, guitar, banjo, or mandolin. Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 104. Individual Woodwind Lessons. 0.5-1 Credits.
Individual lessons in flute, oboe, clarinet, saxophone, bassoon, or recorder. Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 105. Individual Brass Lessons. 0.5-1 Credits.
Individual lessons in horn, trumpet, trombone, tuba, or euphonium. Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.
Grading Status: Letter grade.
MUSC 106. Individual Percussion Lessons. 0.5-1 Credits.
Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 107. Applied Instruction. 0.5-1 Credits.
Group or individual instruction in a specified instrument offered by the department. Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 108. Group Lessons in Piano. 1 Credits.
Beginning group piano for minors and nonmajors, including introduction to reading from score. May not count toward the requirements of the music major. May count as credit hours toward graduation, subject to the overall limit on music hours. Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 109. Group Lessons in Voice. 1 Credits.
Beginning and intermediate group lessons for minors and nonmajors. Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 110. Group Lessons in Strings. 1 Credits.
Group lessons in violin, viola, cello, string bass, or guitar. Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 111. Group Lessons in Woodwinds. 1 Credits.
Group lessons in flute, oboe, clarinet, saxophone, bassoon, or recorder. Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 112. Group Lessons in Brass. 1 Credits.
Group lessons in horn, trumpet, trombone, tuba, or euphonium. Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 113. Group Lessons in Percussion. 1 Credits.
Sections by instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 114. Foundations in Music. 3 Credits.
An introduction to concepts and methods fundamental to the study, practice, and performance of music. The course provides a foundation for undergraduate students interested in the study of music. Students will gain an appreciation for music's significance across repertories and develop the aptitude to think about music in different ways. Intended for music majors and minors.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections).
Grading Status: Letter grade.

MUSC 115. Fundamentals of Tonal Music I. 3 Credits.
Notational and theoretical materials of tonal music, with musicianship skills developed. Intended for the nonmajor who wishes to learn to express musical ideas in clear, correct notational form.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP
Grading Status: Letter grade.

MUSC 116. Fundamentals of Music II. 3 Credits.
A continuation of MUSC 115 with the addition of basic instrumentation and arranging.

Rules & Requirements
Requisites: Prerequisite, MUSC 115.
Grading Status: Letter grade.

MUSC 117. Diction for Singers I (English/Italian). 1 Credits.
Basic principles of diction for singers in English/Italian presented through the use of the International Phonetic Alphabet.

Rules & Requirements
Requisites: Corequisite, MUSC 202.
Grading Status: Letter grade.

MUSC 118. Diction for Singers II (French). 1 Credits.
Basic principles of diction and the International Phonetic Alphabet for singers in French.

Rules & Requirements
Requisites: Prerequisite, MUSC 117.
Grading Status: Letter grade.

MUSC 119. Diction for Singers III (German). 1 Credits.
Basic principles of diction and the International Phonetic Alphabet for singers in German.

Rules & Requirements
Requisites: Prerequisite, MUSC 118.
Grading Status: Letter grade.
MUSC 128. Improvisation Without Borders. 1 Credits.
This course is an introductory exploration of musical improvisation in non-style specific sound environments. An emphasis will be placed on learning through hands-on performance with one's instrument, voice, and/or computer.

Rules & Requirements
Grading Status: Letter grade.

MUSC 129. Aural-based Musicianship. 1 Credits.
This course is a study in ear-based performance and analysis, and engages with topics from applied music cognition. This course does not rely on conventional Western “five-line staff” musical notation.

Rules & Requirements
Requisites: Prerequisite, MUSC 128.
Grading Status: Letter grade.

MUSC 130. Tonal Musicianship Skills I. 1 Credits.
Basic tonal musicianship skills, including music notation, basic composition, score analysis, keyboard, sight singing, and ear training.

Rules & Requirements
Requisites: Prerequisite, MUSC 128; Corequisite, MUSC 131.
Grading Status: Letter grade.

MUSC 131. Tonal Theory I. 3 Credits.
Enrollment subject to a placement test. An introduction to tonal music theory and analysis for students who intend to pursue a music degree. Course covers basic principles of melody, counterpoint, rhythm, and meter. Honors version available.

Rules & Requirements
Making Connections Gen Ed: VP, QI.
Requisites: Corequisite, MUSC 130.
Grading Status: Letter grade.

MUSC 132. Tonal Theory II. 3 Credits.
A continuation of MUSC 131, covering more advanced topics of melody, harmony, counterpoint, rhythm, meter, and form. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, QI.
Requisites: Prerequisite, MUSC 131; prerequisite requires a grade of C or better.
Grading Status: Letter grade.

MUSC 133. Tonal Musicianship Skills II. 1 Credits.
A continuation of MUSC 130, with emphasis on intermediate-level musicianship skills.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, QI.
Requisites: Prerequisites, MUSC 130 and 131; co-requisite, MUSC 132.
Grading Status: Letter grade.

MUSC 134. Jazz Theory. 3 Credits.
An introduction to the musical materials of jazz, including chord/scale relationships, functional keyboard skills, and harmonic analysis.

Rules & Requirements
Grading Status: Letter grade.

MUSC 136. Keyboard Skills I. 1 Credits.
Beginning group piano instruction for music majors.

Rules & Requirements
Grading Status: Letter grade.

MUSC 137. Patterns in Music. 3 Credits.
This course provides an introduction to music theory–defined as an examination of the underlying patterns deployed by composers, performers, and listeners in creating and comprehending music within a style—for students whose background is primarily aural and/or outside of the notational practices of Western art music or who want to undertake a study of music theory from that perspective.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

MUSC 138. Great Musical Works. 3 Credits.
The study of selected works from the Western art tradition, with an emphasis on critical understanding. May not count toward the requirements of the music major. May count as credit hours toward graduation, subject to the overall limit on music hours.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-PAST.
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

MUSC 139. Introduction to Rock Music. 3 Credits.
A survey of rock music history, culture, and musical styles. The course includes extensive listening and an overview of the music’s development and evolution.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, US.
Grading Status: Letter grade.

MUSC 140. Introduction to Country Music. 3 Credits.
A survey and investigation of country music from 1920 to the present. This course addresses the music, history, culture, and meaning, across a broad and inclusive of styles, with, with emphasis on critical listening.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, US.
Grading Status: Letter grade.
MUSC 145. Introduction to Jazz. 3 Credits.
A survey of jazz music from its origins to the present. The course builds skills in critical listening and blends discussion of musical materials and historical and cultural contexts.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, NA, US.
Grading Status: Letter grade.

MUSC 146. Introduction to World Musics. 3 Credits.
The study of music in and as culture. Topics may include the performance cultures of Native America, south Asia, Australia, Africa, east Asia, Southeast Asia, Europe, and the Americas.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-GLOBAL.
Making Connections Gen Ed: VP, BN.
Grading Status: Letter grade.

MUSC 147. Introduction to the Music of the Americas. 3 Credits.
An introduction to contemporary Latin(o) American popular music, focusing on how musicians have negotiated an increasingly global popular culture industry.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: VP, GL.
Grading Status: Letter grade.

MUSC 148. Introduction to Black Music. 3 Credits.
An introduction to black musical cultures with a focus on understanding how music is made within social, geographical, and political contexts. The course includes experiential learning, live concert attendance, and conversations with practicing musicians in various musical traditions.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, US.
Grading Status: Letter grade.

MUSC 149. Introduction to Music and Dance. 3 Credits.
Music and dance as human expression, social ritual, and artistic performance across a wide range of repertories, practices, and historical periods.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Grading Status: Letter grade.

MUSC 151. Introduction to the American Stage Musical. 3 Credits.
A topical survey of musical theater repertoire from its early inception in 18th-century Europe to current 21st-century incarnations. Various stylistic approaches, historical periods, and creative contributions to the genre will be explored. Examination of case studies through diverse perspectives of class, gender and race will situate the repertoire in a broad artistic and social context.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Grading Status: Letter grade.
Same as: DRAM 151.

MUSC 155. The Art and Culture of the DJ. 3 Credits.
An exploration of the important, often misunderstood role of the DJ in modern musical life, with particular attention to the ways in which DJing challenges traditional notions of music, musicianship, and musical instruments. Guest lectures, demonstrations, and tutorials by visiting DJs form a significant component of the course.

Rules & Requirements
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

MUSC 156. Beat Making Lab. 3 Credits.
An introductory hands-on study of the composition of electronic instrumental tracks for hip-hop and dance music. Students make beats, learn about the history and culture of the art form, and examine beat making as a case study in entrepreneurship.

Rules & Requirements
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

MUSC 157. Rap Lab. 3 Credits.
A hands-on study of the art of emceeing. Students engage in a rigorous lyricism curriculum, developing the skills to write, recite, and improvise lyrics in live and recorded settings. Students also explore the history of hip-hop culture and analyze the aesthetics of emcees from around the world.

Rules & Requirements
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

MUSC 158. Rock Lab. 3 Credits.
An introduction to issues of performance practice in rock music and related styles and genres including, but not limited to, soul, funk, new wave, and punk. Through intensive coaching and rehearsal students learn performance, transcription, arranging, and improvisation.

Rules & Requirements
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

MUSC 161. Music Production I. 3 Credits.
An in-depth study of vintage and modern music production techniques for jazz, classical, hip-hop, R&B, rock EDM, folk, and other popular forms of music. A focus on digital and analog recording, Pro Tools, and other DAW software basics, microphone techniques, consoles, signal flow, mixing and mastering techniques.

Rules & Requirements
Making Connections Gen Ed: VP.
Grading Status: Letter grade.

MUSC 163. Jazz Improvisation I. 3 Credits.
An introductory course in the development of improvisational skills for the jazz idiom. The primary focus is the introduction of nomenclature, the development of basic jazz vocabulary, and the application of this knowledge using basic jazz tune types.

Rules & Requirements
Requisites: Prerequisite, MUSC 135.
Grading Status: Letter grade.
MUSC 164. Music of South Asia. 3 Credits.
This course provides a comprehensive overview of the music of South Asia, focusing on India, Pakistan, and Bangladesh. The entire spectrum of musical genres will be covered.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
- Making Connections Gen Ed: VP, BN.
- Grading Status: Letter grade.
- Same as: ASIA 164.

MUSC 166. Introduction to Composition. 3 Credits.

Rules & Requirements
- Requisites: Prerequisite, MUSC 131. The study of compositional techniques and the development of individual creative styles through imitative and original writing.
- Grading Status: Letter grade.

MUSC 167. Instrumentation. 3 Credits.
Practical exercises in scoring and arranging for various combinations from single instrumental choirs to full concert orchestra, with trial group performances.

Rules & Requirements
- Requisites: Prerequisite, MUSC 131.
- Grading Status: Letter grade.

MUSC 188. Introduction to Women and Music. 3 Credits.
The role of women in performance, composition, patronage, and the music business across a wide range of repertories.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
- Making Connections Gen Ed: VP, GL, NA.
- Grading Status: Letter grade.
- Same as: WGST 188.

MUSC 200. Advanced Individual Lessons in Keyboard. 2 Credits.
Advanced individual lessons in piano, organ, or harpsichord. Sections by instructor. Honors version available.

Rules & Requirements
- Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics.
- Grading Status: Letter grade.

MUSC 202. Advanced Individual Lessons in Voice. 2 Credits.
Sections by instructor. Honors version available.

Rules & Requirements
- Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics.
- Grading Status: Letter grade.

MUSC 203. Advanced Individual Lessons in Strings. 2 Credits.
Advanced individual lessons in violin, viola, cello, string bass, harp, or guitar. Sections by instructor. Honors version available.

Rules & Requirements
- Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics.
- Grading Status: Letter grade.

MUSC 204. Advanced Individual Lessons in Woodwinds. 2 Credits.
Advanced individual lessons in flute, oboe, clarinet, saxophone, or bassoon. Sections by instructor. Honors version available.

Rules & Requirements
- Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics.
- Grading Status: Letter grade.

MUSC 205. Advanced Individual Lessons in Brass. 2 Credits.
Advanced individual lessons in horn, trumpet, trombone, tuba, or euphonium. Sections by instructor. Honors version available.

Rules & Requirements
- Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics.
- Grading Status: Letter grade.

MUSC 206. Advanced Individual Lessons in Percussion. 2 Credits.
Sections by instructor. Honors version available.

Rules & Requirements
- Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics.
- Grading Status: Letter grade.

MUSC 207. Advanced Applied Instruction. 2 Credits.
Advanced instruction in a specified instrument offered by the department. Sections by instructor.

Rules & Requirements
- Repeat Rules: May be repeated for credit.
- Grading Status: Letter grade.

MUSC 211. Ensemble I. 1 Credits.
Sections by ensemble: Symphony Orchestra, Wind Ensemble, Symphony Band, Carolina Choir, Chamber Singers, Glee Club (tenor/bass voices), Glee Club (soprano/alto voices), Piano Ensemble I, Piano Ensemble II, Collaborative Piano, Guitar Ensemble, Jazz Band.

Rules & Requirements
- Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics.
- Grading Status: Letter grade.

MUSC 212. Ensemble II. 1 Credits.
Sections by ensemble: UNC Opera, Percussion Ensemble, Gamelan, Charanga Carolina, Global Rhythms, Bluegrass Band.

Rules & Requirements
- Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics.
- Grading Status: Letter grade.
MUSC 213. Ensemble III. 1 Credits.
Sections by ensemble: Marching/ Pep Band, Jazz Lab Band, Chamber Orchestra, University Band.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics.
Grading Status: Letter grade.

MUSC 214. Chamber Music. 1 Credits.
Sections by ensemble: University Chamber Players, String Chamber Ensembles, Woodwind Chamber Ensembles, Brass Chamber Ensembles, Piano Chamber Ensembles, Jazz Combos, Baroque Ensemble/Viol consort, New Music Ensemble. Honors version available.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.
Grading Status: Letter grade.

MUSC 223. Piano Literature. 3 Credits.
Survey of keyboard literature from the Baroque era to the present.

Rules & Requirements
Making Connections Gen Ed: VP.
Requisites: Prerequisite, MUSC 121 or 131.
Grading Status: Letter grade.

MUSC 224. Piano Pedagogy. 3 Credits.
Problems, materials, and methods of teaching piano to students of all ages.

Rules & Requirements
Requisites: Prerequisite, MUSC 100 or 200.
Grading Status: Letter grade.

MUSC 225. Vocal Pedagogy. 3 Credits.
Practical methodology for teaching voice to students of all experience levels. Topics covered include anatomy, historical pedagogy, national vocal teaching styles, and current trends in voice science.

Rules & Requirements
Requisites: Prerequisite, MUSC 102 or 202.
Grading Status: Letter grade.

MUSC 226. Woodwinds, Brass, Percussion, and Strings Techniques. 3 Credits.
Primarily for students pursing teacher licensure. An introduction to basic performance skills on representative woodwind, brass, percussion, and string instruments.

Rules & Requirements
Grading Status: Letter grade.

MUSC 227. Keyboard, Vocal, and Elementary Music Techniques. 3 Credits.
Primarily for students pursuing teacher licensure. An introduction to basic performance skills in voice and piano, and approaches to teaching elementary music.

Rules & Requirements
Grading Status: Letter grade.

MUSC 228. Principles of Teaching Music. 3 Credits.
A continuation of MUSC 226 and 227, allowing students the opportunity to develop further performance skills and pedagogical techniques in music education. Offered in sections: instrumental, vocal, strings.

Rules & Requirements
Requisites: Prerequisites, MUSC 226 and 227.
Grading Status: Letter grade.

MUSC 230. Tonal Musicianship Skills III. 1 Credits.
A continuation of MUSC 133, with emphasis on intermediate- to advanced-level musicianship skills.

Rules & Requirements
Requisites: Prerequisites, MUSC 132 and 133; co-requisite, MUSC 232.
Grading Status: Letter grade.

MUSC 232. Theory III. 3 Credits.
A continuation of MUSC 132, covering topics including chromatic harmony and form. Honors version available.

Rules & Requirements
Making Connections Gen Ed: VP.
Requisites: Prerequisite, MUSC 132; prerequisite requires a grade of C or better.
Grading Status: Letter grade.

MUSC 233. Studies in Performance Practices. 3 Credits.
The study of vocal and instrumental performances practices in specific periods and repertories.

Rules & Requirements
Requisites: Prerequisite, MUSC 254.
Grading Status: Letter grade.

MUSC 234. World Musics in Theory and Practice. 3 Credits.
Through the use of various ethnomusicological methodologies, students explore a range of non-Western musical systems in their cultural contexts. Topics of study may include aesthetic theories, cultural meaning, and conflict.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-GLOBAL.
Making Connections Gen Ed: BN.
Requisites: Prerequisites, MUSC 120 and 131.
Grading Status: Letter grade.

MUSC 236. Keyboard Skills II. 1 Credits.
Continues group piano instruction for music majors begun in MUSC 136.

Rules & Requirements
Requisites: Prerequisite, MUSC 136.
Grading Status: Letter grade.

MUSC 239. Introduction to Music Technology. 3 Credits.
A practical study of selected aspects of computerized music technology, including one or more of music-notation software, MIDI sequencing, digital sound production and storage, and computer composition.

Rules & Requirements
Grading Status: Letter grade.
MUSC 240. Performance in Southeast Asia: Gongs, Punks, and Shadow Plays. 3 Credits.
The study and comparison of contemporary Southeast Asian performance genres (music, theatre, dance, ritual) in historical and cultural contexts.

Rules & Requirements
Making Connections Gen Ed: BN, GL.
Grading Status: Letter grade.
Same as: ASIA 240.

MUSC 245. Dance in Indonesia. 3 Credits.
This course is concerned with the performance and interpretation of Indonesian dance. It covers three areas of study: practical learning of traditional Indonesian dance repertoire, theoretical analyses and interpretation, and learning the music accompanying the dance.

Rules & Requirements
Making Connections Gen Ed: BN.
Requisites: Prerequisite, MUSC 146.
Grading Status: Letter grade.

MUSC 248. Gender on the Musical Stage. 3 Credits.
An exploration of gender on the musical stage in the past and present, with an emphasis on female-identified creators and characters, onstage and behind the scenes.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-POWER.
Making Connections Gen Ed: NA.
Grading Status: Letter grade.
Same as: WGST 248.

MUSC 251. Studies in Medieval and Early Modern Music. 3 Credits.
The study of music in its historical and cultural contexts in the medieval and early modern eras. May not count toward the requirements of the music major. May count as credit hours toward graduation, subject to the overall limit on music hours.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE or FC-GLOBAL.
Making Connections Gen Ed: VP, WB.
Grading Status: Letter grade.

MUSC 254. Studies in Music History I, Antiquity to 1750. 3 Credits.
A survey of music's development from antiquity to 1750, in its stylistic, geographical, political, social, and cultural contexts.

Rules & Requirements
Making Connections Gen Ed: WB.
Requisites: Prerequisite, MUSC 131; Permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

MUSC 255. Studies in Music History II, 1750 to the Present. 3 Credits.
A continuation of MUSC 254, surveying music of the period since 1750 in its stylistic, geographical, political, social, and cultural contexts.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA.
Requisites: Prerequisites, MUSC 132 and 254; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

MUSC 258. Musical Movements: Migration, Exile, and Diaspora. 3 Credits.
The musical results of migrations of all types, voluntary or forced, by way of case studies drawn from historical and/or contemporary musics of Africa, the Americas, Asia, and Europe.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

MUSC 261. Music Production II. 3 Credits.
As a continuation of MUSC 161, this course will include more advanced techniques in mixing, mastering, and music production. Listening and ear training with practical exercises will be explored. The work of notable engineers and producers will be looked at with an ear towards their production values and critical listening of the material.

Rules & Requirements
Grading Status: Letter grade.

MUSC 263. Jazz Improvisation II. 3 Credits.
Continuation of MUSC 163, examining more advanced improvisational techniques, harmonic materials, and compositional tune types.

Rules & Requirements
Requisites: Prerequisite, MUSC 163.
Grading Status: Letter grade.

MUSC 265. Jazz Composition and Arranging. 3 Credits.
Composing and arranging for small- and large-group jazz ensembles.

Rules & Requirements
Requisites: Prerequisites, MUSC 135 and 163.
Grading Status: Letter grade.

MUSC 266. Composition. 3 Credits.
May be repeated for credit. Original compositions in various forms.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE.
Requisites: Prerequisite, MUSC 166.
Repeat Rules: May be repeated for credit.
Grading Status: Letter grade.

MUSC 267. Orchestration. 3 Credits.
Practical orchestral scoring with emphasis on understanding and imitating historical styles from Mozart through Ravel.

Rules & Requirements
Requisites: Prerequisite, MUSC 167.
Grading Status: Letter grade.
MUSC 269. Music in the Community. 3 Credits.
Connecting academic inquiry in community music with an experiential project in the making, organization, or documentation of music locally.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL.
Grading Status: Letter grade.

MUSC 270. Critical Approaches to Music: Object Lessons. 3 Credits.
Critical approaches to the study of music through a variety of research approaches and sources, both visual and oral, examining meaning, expression, and values through close analysis.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Requisites: Prerequisite, MUSC 120.
Grading Status: Letter grade.

MUSC 271. Critical Approaches to Music: Critical Moves. 3 Credits.
Critical approaches to understanding music as a human activity, including questions of embodiment, dis/ability, difference, and power through a variety of research approaches and sources, both visual and oral.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Requisites: Prerequisites, MUSC 120 and 270.
Grading Status: Letter grade.

MUSC 280. Jazz Innovators. 3 Credits.
Musical, historical, cultural, and social issues in jazz studied through the examination of innovative and influential jazz artists.

Rules & Requirements
Making Connections Gen Ed: VP, US.
Grading Status: Letter grade.

MUSC 281. Popular Song in American Culture. 3 Credits.
The relationship between popular song and culture in American society is explored by focusing on an important historical repertoire or interpretive theme.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

MUSC 282. Bach and Handel. 3 Credits.
The culmination of baroque music, emphasizing Bach’s cantatas, concertos, organ music, and instrumental music, and Handel’s oratorios and operas, all in their cultural contexts. May not count toward the requirements of the music major. May count as credit hours toward graduation, subject to the overall limit on music hours.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

MUSC 283. Haydn and Mozart. 3 Credits.
The high point in Viennese music of the late 18th century, emphasizing Haydn’s symphonies and quartets, and Mozart’s operas and piano concertos. May not count toward the requirements of the music major. May count as credit hours toward graduation, subject to the overall limit on music hours.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

MUSC 284. Beethoven and His Era. 3 Credits.
Beethoven’s music will be studied in the context of social structures and concepts about artists during his lifetime. May not count toward the requirements of the music major. May count as credit hours toward graduation, subject to the overall limit on music hours.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

MUSC 285. Musical Modernism. 3 Credits.
A study of the work of diverse composers characteristic of music since ca. 1880 viewed in their broader artistic and other contexts. May not count toward the requirements of the music major. May count as credit hours toward graduation, subject to the overall limit on music hours.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

MUSC 286. Music as Culture. 3 Credits.
May be repeated for credit if on a different topic. Music in the framework of its social, political, economic, and cultural contexts. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading Status: Letter grade.

MUSC 287. Opera as Drama. 3 Credits.
An introduction to music as related to drama, especially the development of opera and related genres. Study of selected works from different periods and styles. May not count toward the requirements of the music major. May count as credit hours toward graduation, subject to the overall limit on music hours. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

MUSC 288. The Orchestra and Its Music. 3 Credits.
Study of the symphony orchestra, its instruments, and its historical development from the mid-18th century to the present, and the music it plays, including selected works in a variety of styles. May not count toward the requirements of the music major. May count as credit hours toward graduation, subject to the overall limit on music hours.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.
MUSC 289. Sounds of War and Revolution. 3 Credits.
Music’s roles in war and revolution within various political, social, and cultural contexts. Part of the cluster "War, Revolution and Culture-Transatlantic Perspectives, 1750-1850."

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.
Same as: PWAD 289.

MUSC 291. Music and Politics. 3 Credits.
The relationship between music and politics studied through a global range of historical and geographical contexts. The course covers specific musical and political manifestations as well as theoretical approaches to the issue.

Rules & Requirements
IDEAs in Action Gen Ed: VP, BN.
Grading Status: Letter grade.

MUSC 292. Media and Social Change in Africa. 3 Credits.
The historical and ongoing tradition of protest by African artists with particular focus on the aesthetics, politics, and geography of innovative grassroots movements on the African continent that effect social change through music and film.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

MUSC 294. Bluegrass Music, Culture, and History. 3 Credits.
The history, culture, musical sound, and practice of bluegrass music, with an intensive focus on critical listening. Covers significant performers, musical styles, and both fan and performance culture and meaning.

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.

MUSC 296. Special Studies for Undergraduates. 1-3 Credits.
Available only to music majors by permission of the director of undergraduate studies. Intensive study on a particular topic under faculty supervision.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.
Grading Status: Letter grade.

MUSC 300. Advanced Keyboard Lessons and Recital. 3 Credits.
Advanced individual keyboard lessons leading to a public recital. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: HI-PERFORM.
Requisites: Prerequisite, MUSC 200.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

MUSC 302. Advanced Voice Lessons and Recital. 3 Credits.
Advanced individual voice lessons leading to a public recital. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE, HI-PERFORM.
Requisites: Prerequisite, MUSC 202.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

MUSC 303. Advanced String Lessons and Recital. 3 Credits.
Advanced individual string lessons leading to a public recital. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE, HI-PERFORM.
Requisites: Prerequisite, MUSC 203.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

MUSC 304. Advanced Woodwind Lessons and Recital. 3 Credits.
Advanced individual woodwind lessons leading to a public recital. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: HI-PERFORM.
Requisites: Prerequisite, MUSC 204.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

MUSC 305. Advanced Brass Lessons and Recital. 3 Credits.
Advanced individual brass lessons leading to a public recital. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE, HI-PERFORM.
Requisites: Prerequisite, MUSC 205.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

MUSC 306. Advanced Percussion Lessons and Recital. 3 Credits.
Advanced individual percussion lessons leading to a public recital. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE, HI-PERFORM.
Requisites: Prerequisite, MUSC 206.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
MUSC 307. Advanced Composition/Recital. 3 Credits.
This course is conceived as a culminating project that showcases a student's original musical compositions.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE, HI-PERFORM.
Requisites: Prerequisite, MUSC 266.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

MUSC 308. Intermediate Lessons in Conducting. 3 Credits.
Intermediate conducting for instrumental or vocal ensembles.

Rules & Requirements
Requisites: Prerequisite, MUSC 168.
Grading Status: Letter grade.

MUSC 309. Advanced Lessons in Conducting. 3 Credits.
May be repeated for up to six hours of credit. Advanced conducting for instrumental or choral ensembles.

Rules & Requirements
Requisites: Prerequisite, MUSC 308.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading Status: Letter grade.

MUSC 331. Musical Form and Analysis. 3 Credits.
The study of analytical techniques as applied to significant works of the period.

Rules & Requirements
Requisites: Prerequisite, MUSC 232; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

MUSC 332. Counterpoint. 3 Credits.
The study of two-, three-, and four-voice counterpoint, for example in the style of Palestrina, Bach, or 20th-century idioms.

Rules & Requirements
Requisites: Prerequisite, MUSC 232; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

MUSC 333. Analysis of Popular Music. 3 Credits.
Analysis and transcription of blues, rock, ballads, and jazz, with an emphasis on rock music since 1955.

Rules & Requirements
Requisites: Prerequisite, MUSC 232; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

MUSC 338. Analysis of Music since 1900. 3 Credits.
The study of analytical techniques as applied to significant works of the period.

Rules & Requirements
Requisites: Prerequisite, MUSC 232; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

MUSC 351. Critical Approaches to Music: Guided Research. 3 Credits.
An intensive research-based course resulting in an original paper and/or creative work on a topic of the student's own development and presentation of the same.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: CI.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

MUSC 355. History and Culture of Music. 3 Credits.
Course will address a particular genre, composer, compositional issue, or repertoire, including non-Western and popular musics. Subject matter will vary with the instructor. May be repeated for credit if on a different topic. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Letter grade.

MUSC 363. Studies in Jazz. 3 Credits.
May be repeated for credit if on a different topic. Advanced study on a selected topic in jazz. Topics will vary and may address a particular genre, composer, performance practice, compositional issue, or repertoire.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

MUSC 364. UNC Summer Jazz Workshop. 3 Credits.
Lectures on theory and improvisation, small ensemble coaching, and instrument-specific master classes in a classroom/lecture format. Intensive listening component through required attendance at four evening concerts. Final public student concert for a community audience. Can be repeated for credit.

Rules & Requirements
IDEAs in Action Gen Ed: HI-PERFORM.
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Letter grade.

MUSC 381. Inside the Song: Analysis of Songcraft. 3 Credits.
Explore the form, structure, and narrative in American popular song during the era of recorded sound. Students will analyze the elements of different songs – melody, lyrics, harmony, musical arrangement, form, and structure. Students will write songs using different models and forms. Familiarity with basic chords and melodies expected.

Rules & Requirements
Making Connections Gen Ed: VP.
Grading Status: Letter grade.
MUSC 390. Seminar in Music. 3 Credits.
Detailed investigation of a specific musical topic from historical and/or theoretical perspectives. Honors version available.

Rules & Requirements
Making Connections Gen Ed: VP, CI.
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

MUSC 471. Instrumental Performance Repertory. 3 Credits.
Advanced study of selected performance issues.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

MUSC 493. Music Internship. 3 Credits.
Permission of the director of undergraduate studies. Internship directly related to the study, practice, or the business of music. Students must complete at least 100 hours and submit a journal and report upon completion of the internship. No more than three credit hours may count toward the requirements of the music major. Excess hours may count as credit hours toward graduation, subject to the overall limit on music hours.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Pass/Fail.

MUSC 676. Digital Media and Live Performance. 3 Credits.
Permission of the instructor for undergraduates. Intended for students from various majors, this course provides a foundation in the history, theory, and practice of developing live, technologically-intensive, multimedia performance works. The course analyzes new media masterworks, addresses techniques of interdisciplinary collaboration, and offers workshops in specific software/technology applications.

Rules & Requirements
Making Connections Gen Ed: VP.
Grading Status: Letter grade.
Same as: COMM 676.

MUSC 692H. Senior Honors Thesis in Music II. 3 Credits.
Continuance and completion of an honors thesis in music.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisites, MUSC 691H.
Grading Status: Letter grade.

Music Major, B.A.
The Department of Music provides many opportunities to students who wish to study music within a strong liberal arts curriculum. We foster creative endeavor and critical inquiry through courses, ensembles, and lessons on instruments or voice that explore music from a variety of perspectives.

The B.A. requires at least 35 credit hours in music and at least 75 outside the major, with 120 total credit hours in the degree. Given the ample opportunity to explore the breadth of the University’s course offerings, many B.A. candidates seek minors in other fields or take on a second major.

Student Learning Outcomes

Upon completion of the music program (B.A.), students should be able to:

- Acquire sufficient technical capabilities to be able to perform expressively — on an instrument or the voice — appropriate repertoire for the area in which they are studying
• Show proficiency in the materials and language of music for purposes of analysis and evaluation
• Be aware of the connection between general culture and history and the musical works that come from composers of particular times and places
• Demonstrate the ability to perform successfully in individual, small-, and large-ensemble performance and have a working familiarity with repertoire for solo or ensemble performance

Requirements

In addition to the program requirements, students must

• earn a minimum final cumulative GPA of 2.000
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Courses listed more than once can be counted for only one category.

Music electives (nine hours) chosen from: 9

Total Hours: 35-39

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMIVAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 Pursuant to area needs and preferences, or by DUS approval.

Music (MUSC) course descriptions (p. 716).

Students may receive no more than 45 credit hours in music and must complete a minimum of 75 hours of coursework outside music, including all General Education requirements.

Optional Pathways within the Bachelor of Arts in Music Degree

Students working toward the bachelor of arts degree have the option to pursue one or more pathways in their musical studies. These pathways identify recommended course selections for students who have interests in one or more areas. We suggest nine credit hours of study; students are free to take additional credits. Some of these courses also satisfy
core requirements. Please note that enrollment in individual lessons
(MUSC 100–MUSC 107 and MUSC 200–MUSC 207) requires an audition.

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

**Special Opportunities**

**Honors in Music**

Students interested in becoming candidates for a degree with honors in music should read the regulations governing departmental honors in the College of Arts and Sciences, found in the Degree Requirements (p. 1240) section of this catalog, and should consult the honors advisor of the department toward the end of the sophomore year.

**Study Abroad**

The department actively encourages students to participate in study abroad programs to pursue their musical and other interests in an international context. The department maintains a strong relationship with institutions in Hong Kong, London, and Vienna, and can facilitate connections with programs around the world.

**Department Programs**

**Majors**

- Music Major, B.A. (p. 727)
- Music Major, Bachelor of Music (B.Mus.) (p. 731)

**Minor**

- Music Minor (p. 736)
- Musical Theatre Performance Minor (p. 370)

**Graduate Programs**

- M.A. in Musicology (http://catalog.unc.edu/graduate/schools-departments/music/)
- Ph.D. in Musicology (http://catalog.unc.edu/graduate/schools-departments/music/)

**Music Major, Bachelor of Music (B.Mus.)**

The Bachelor of Music program is designed for those seeking a degree that offers a more extensive component in performance, history, ethnomusicology, theory, composition, or music education. Students must complete 64 credit hours in music and at least 54 credit hours outside the major.

**Student Learning Outcomes**

Upon completion of the music program (B.Mus.), students should be able to:

- Acquire sufficient technical capabilities to be able to perform expressively — on an instrument or the voice — appropriate repertoire for the area in which they are studying
- Show proficiency in the materials and language of music for purposes of analysis and evaluation
- Be aware of the connection between general culture and history and the musical works that come from composers of particular times and places
- Demonstrate the ability to perform successfully in individual, small-, and large-ensemble performance and have a working familiarity with repertoire for solo or ensemble performance

**Requirements**

In addition to the program requirements, students must:

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Courses listed more than once can be counted for only one category.

**Additional Requirements**

Music electives (fifteen hours) chosen from MUSC courses: students may count no more than six additional hours from MUSC 211 - MUSC 214 towards their music major. They may count as credit hours for graduation, subject to the overall limit on music hours.

**Total Hours**: 64

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 Students may petition the director of undergraduate studies to count toward this requirement no more than two hours of MUSC 100–MUSC 107. Students wishing to take a seventh semester of individual lessons may use an additional two hours of MUSC 200–MUSC 207 for elective credit.

2 Pursuant to area needs and preferences, or by approval of the director of undergraduate studies.

3 With the approval of the director of undergraduate studies.

Students pursuing the B.Mus. must complete at least 64 credit hours in music, which is combined with an additional 56 credit hours for a total of 120 credit hours. Students may receive no more than 66 credit hours in music and must complete a minimum of 54 credit hours of coursework outside music, including all General Education requirements.

Students who wish to gain certification to teach music in public schools may take a prescribed course of study as part of the bachelor of music degree and apply to the music education licensure program offered through the School of Education. Admission to the music education licensure program requires a separate application to the School of Education. Students working toward the bachelor of music degree have the option to pursue one or more pathways in their musical studies. These pathways identify recommended course selections for students who have interests in one or more areas. We suggest 12 credit hours of study; students are free to take additional credits. Some of these courses also satisfy core requirements. Please note that enrollment in individual lessons (MUSC 100–MUSC 107 and MUSC 200–MUSC 207) requires an audition.

**Optional Pathways within the Bachelor of Music Degree**

Students working toward the bachelor of music degree have the option to pursue one or more pathways in their musical studies. These pathways identify recommended course selections for students who have interests in one or more areas. We suggest 12 credit hours of study; students are free to take additional credits. Some of these courses also satisfy core requirements. Please note that enrollment in individual lessons (MUSC 100–MUSC 107 and MUSC 200–MUSC 207) requires an audition.

H  Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

First Year

First-Year Foundation Courses

Total Hours 75-79

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

I Students are strongly encouraged to complete their FY-LAUNCH requirement with MUSC 120. If not, students will need to take another FY-SEMINAR or FY-LAUNCH course to fulfill the IDEAs in Action requirement.

Special Opportunities

Honors in Music

Students interested in becoming candidates for a degree with honors in music should read the regulations governing departmental honors in the College of Arts and Sciences, found in the Degree Requirements (p. 1240) section of this catalog, and should consult the honors advisor of the department toward the end of the sophomore year.

Study Abroad

The department actively encourages students to participate in study abroad programs to pursue their musical and other interests in an international context. The department maintains a strong relationship with institutions in Hong Kong, London, and Vienna, and can facilitate connections with programs around the world.

Department Programs

Majors

• Music Major, B.A. (p. 727)
• Music Major, Bachelor of Music (B.Mus.) (p. 731)

Music Minor

The Department of Music provides many opportunities to students who wish to study music within a strong liberal arts curriculum. We foster creative endeavor and critical inquiry through courses, ensembles, and lessons on instruments or voice that explore music from a variety of perspectives.

Requirements

In addition to the program requirements listed below, students must:

• take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

The minor in music requires 15 hours as follows:

Musical Theatre Performance Minor

The minor in musical theatre performance, a joint program in the Department of Music and the Department of Dramatic Art, provides students with opportunities to improve their abilities in musical theatre performance. The minor has three components including acting literacy, music literacy, and movement literacy.

Students will have ample opportunity for performance experience through the department's and student group productions.

The minor has three tracks, depending on the student's major status:

1. Music track (taken by students pursuing the dramatic art major or music majors in instruments other than voice)
2. Dramatic track (taken by students pursuing the music major)
3. Hybrid track (taken by students pursuing a double major in dramatic art and music, or by students majoring in other disciplines)

Departmental advising is available for students with questions about course and program expectation and opportunities, both on campus and in the professional world.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

The minor requires 15 credit hours. Students can pursue one of three tracks.

### Music Track

Department of Naval Science

Introduction

The purpose of the NROTC is to provide a source of highly qualified officers to serve on United States Navy ships, submarines, and aircraft, or in the United States Marine Corps. Students (midshipmen) who obtain a baccalaureate degree and who satisfy academic and physical requirements are commissioned as either ensigns in the Navy or second lieutenants in the Marine Corps. Students may participate in NROTC in one of two programs: the NROTC Scholarship Program or the NROTC College Program. NROTC scholarships provide tuition, books, fees, uniforms, and a monthly allowance of $250 to $400. Students participating in the college program receive their NROTC books, uniforms, and a monthly allowance of $350 to $400 during their junior and senior years. A major advantage of the college program is the excellent opportunity it offers to win two- and three-year NROTC scholarships.

Regardless of enrollment category, many features are common to both programs:

• Naval science courses carry academic credit.
• All students are welcome to join the program and "test the waters" without incurring a military obligation.
• All midshipmen who successfully complete the program and university graduation requirements will receive a commission as an officer in the United States Navy or Marine Corps.
• Applicants are considered without regard to race, sex, creed, sexual orientation, or religion.

Midshipman Life

We are dedicated to ensuring that each midshipman leads a full and productive University life. Midshipmen are encouraged to participate on University athletic teams as well as in campus politics, fraternities, sororities, intramurals, and other organizations. Additionally, midshipmen are provided an outstanding opportunity to examine and experience many alternative career paths, social events, and experiences through field trips, summer cruises, and the midshipman military organization.

NROTC Program

Courses offered by the Department of Naval Science, in conjunction with courses offered in the Curriculum in Peace, War, and Defense, are
designed to equip an individual with the necessary tools to succeed as an officer in the naval service.

Information about applications and admissions in the UNC–Chapel Hill Naval ROTC may be obtained by visiting the Naval Armory on campus; by addressing an inquiry to Professor of Naval Science, CB# 3325, University of North Carolina at Chapel Hill, Chapel Hill, NC 27599-3325; by calling (919) 962-1198; or by email at NROTC@unc.edu.

Advising
All students pursuing minors have an academic advisor from the Academic Advising Program (https://advising.unc.edu/). Students are strongly encouraged to meet regularly with their advisor. Departmental academic advising appointments can be made through their respective NROTC instructor or by contacting the department’s director of undergraduate studies, Lieutenant David Heider (see contact information above). Further information on courses and careers may be obtained from the department’s website (https://nrotc.sites.unc.edu/).

Minor
• Naval Science Minor (p. 741)

Professor
Andrew Hertel, Captain, USN

Associate Professor
Michael Arguello, Major, USMC

Instructors
William Keller, Lieutenant, USN (Surface Warfare Officer)
Scott Trail, Lieutenant, USN (Aviation Officer)
Shannon Stanich, Captain, USMC (Marine Officer Instructor)

NAV S—Naval Science
Undergraduate-level Courses
NAV S 101. Introduction to Naval Science. 1 Credits.
Fundamental orientation to the Naval service emphasizing the mission, organization, regulations, customs and traditions, broad warfare components, and major challenges facing Navy/Marine Corps officers.

Rules & Requirements
Grading Status: Letter grade.

NAV S 190. Seminar in Topics of Naval Science. 1-12 Credits.
Permission of the department. Seminar of topics regarding the United States Navy.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

NAV S 196. Independent Study in Naval Science. 1-12 Credits.
Permission of the department. Readings and research by an individual student on a subject related to the United States Navy.

Rules & Requirements
Grading Status: Letter grade.

NAV S 201. Naval Leadership and Management. 3 Credits.
A study of organizational principles, management theory, and leadership styles, with emphasis on applications in the Navy and Department of Defense.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.
Grading Status: Letter grade.

NAV S 202. Navigation. 3 Credits.
A comprehensive study of the theory, principles, and procedures of ship navigation, movements, and employment. Course includes spherical trigonometry, mathematics, analysis, study and practices of navigation, sextants, navigation publications, and report logs. Covers rules of the road, lights, signals, navigational aids, and electronic and mechanical positioning devices.

Rules & Requirements
Requisites: Corequisite, NAV S 202L.
Grading Status: Letter grade.

NAV S 202L. Navigation Laboratory. 1 Credits.
Practical application of the theories and principles of navigation as presented in the lecture series.

Rules & Requirements
Requisites: Corequisite, NAV S 202.
Grading Status: Letter grade.

NAV S 211. Marine Option Naval Science Laboratory. 0 Credits.
One laboratory hour per week designed to introduce topics and activities relevant to the professional development of the prospective Marine Corps officer. Required for Marine Option 2/C.

Rules & Requirements
Grading Status: Letter grade.

NAV S 301. Naval Ships Engineering Systems. 3 Credits.
An introductory course and survey of ship design, characteristics, propulsion (including nuclear power) and control systems, and the principles of ship stability.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Grading Status: Letter grade.

NAV S 302. Naval Weapons Systems. 3 Credits.
A descriptive survey course in engineering aspects of ships’ weapons guidance, control, and propulsion systems and characteristics of ships’ weapons systems.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Grading Status: Letter grade.

NAV S 311. Evolution of Warfare. 3 Credits.
Survey of the evolution of warfare through the study of selected campaigns and classic battles, with special emphasis on the principles of war, the military impact of leadership, and the evolution of tactics and weaponry.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Grading Status: Letter grade.
Advanced Undergraduate and Graduate-level Courses

**NAVS 401. Naval Operations.** 4 Credits.
A study of the maneuvering of ships in formation, and the operations in which naval vessels engage daily.

**Rules & Requirements**
- IDEAs in Action Gen Ed: FC-GLOBAL.
- Grading Status: Letter grade.

**NAVS 402. Naval Leadership and Ethics.** 3 Credits.
Capstone leadership course in NROTC curriculum, emphasizing leadership skills and their ethical implications for the competent commissioned officer in areas of human resources and material management.

**Rules & Requirements**
- IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
- Making Connections Gen Ed: PH.
- Grading Status: Letter grade.

**NAVS 411. Amphibious Warfare.** 3 Credits.
A survey of the projection of sea power ashore, with special emphasis on the evolution of amphibious warfare in the 20th century, through the study of historical amphibious landings and campaigns.

**Rules & Requirements**
- IDEAs in Action Gen Ed: FC-CREATE or FC-POWER.
- Grading Status: Letter grade.

**NAVS 500. Naval Science Laboratory.** 0 Credits.
Required of all NROTC students. Meets once a week to provide supplemental military training, including close order drill, physical fitness, inspections, guest lectures, and leadership training.

**Rules & Requirements**
- Repeat Rules: May be repeated for credit. 0 total credits. 8 total completions.
- Grading Status: Letter grade.

**NAVS 501. Operational Leadership Enhancement Course.** 1 Credit.
Provides leadership training in a military environment. Professional development is achieved through academics, physical fitness, marksmanship, and leadership experiences. Course reviews leadership lessons in an at-sea or training environment. Restricted to ROTC members who participate in summer cruise, training, or OCS.

**Rules & Requirements**
- Grading Status: Letter grade.

**Naval Science Minor**
The minor in naval science equips graduates with hands-on experience from all facets of the Navy and Marine Corps team. Together, alongside NROTC midshipmen, students will understand the core principles of each service, master nautical skills in navigation, weapons, and engineering, and build leadership and followership skills. The minor in naval science is open to all UNC–Chapel Hill undergraduate students.

**Requirements**
In addition to the program requirements listed below, students must:
- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Six hours of physics-based calculus and six hours of physics at or above MATH 231 and PHYS 118 12

Total Hours 24

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Whether you are a Navy Scholarship, Marine Corps Scholarship, College Programmer, or are pursuing a naval science minor, there is a plan for your success. Below are sample plans of study for students. All elective courses outside of the Department of Naval Science are ROTC scholarship requirements and do not count toward a naval science minor.

Department of Nutrition
Introduction
The Department of Nutrition is one of the top-ranked nutrition departments in the county. The curriculum offers a wide range of courses on the nutritional and epidemiological aspects of human diseases.

Advising
All majors have a primary academic advisor in the department. Undergraduate students are encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. Advisors, the program director, and the Office of Student Affairs staff work with current and prospective majors by appointment (see contact information above). Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department’s website.

Major
- Nutrition Major, B.S.P.H. (p. 746)

Distinguished Professors
Alice Ammerman, Cynthia Bulik, Elizabeth Mayer-Davis, Penny Gordon-Larsen, Barry Popkin, June Stevens, Steven Zeisel.

Professors
Linda Adair, Melinda Beck, John French, Anthony Hackney, Stephen Hursting, Martin Kohlmeier, Mark Koruda, Sergey Krupenko, Philip May, Susan M. Smith, Mirek Styblo, Susan Sumner, Deborah Tate, Amanda Thompson, Dianne Stanton Ward.

Associate Professors

Assistant Professors
Seema Agrawal, Ximena Bustamante Marin, Ian Carroll, Molly De Marco, Derek Hales, Stephanie Martin, Katie Meyer, Brooke Nezami, Wimal Pathmasiri, Lindsey Smith Taillie, Delisha Stewart, Stephanie Thomas, Carmina Valle, Heather Wasser.

NUTR—Nutrition
Undergraduate-level
NUTR 175. Introduction to Food Studies: From Science to Society. 3 Credits.
Introduction to food studies covering a variety of topics including how food was consumed over history, land use and aquaculture, food in the arts, food and culture in the American South, food politics, and nutrition science.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: GL, NA.
Grading Status: Letter grade.
Same as: ANTH 175, AMST 175.

NUTR 240. Introduction to Human Nutrition. 3 Credits.
Relationships of human nutrition to health and disease. Integration of biology, chemistry, and social sciences as related to human function. Nutrient composition of foods and safety of the food supply.

Rules & Requirements
Requisites: Prerequisites, BIOL 101/101L and CHEM 102/102L.
Grading Status: Letter grade.
NUTR 245. Sustainable Local Food Systems: Intersection of Local Foods and Public Health. 3 Credits.
Examines the intersection of local foods and public health with respect to nutrition and environmental, economic, and community issues. Students explore impacts and potential solutions of the increasingly industrialized and centralized food system, while assisting community partners to increase opportunities for farmers, local food marketers, distributors, and entrepreneurs.

Rules & Requirements
Grading Status: Letter grade.

NUTR 295. Undergraduate Research Experience in Nutrition. 3 Credits.
Permission of the instructor. For undergraduates enrolled in the department's baccalaureate degree program. Directed readings or laboratory study on a selected topic. May be taken more than once for credit.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level

NUTR 400. Introduction to Nutritional Biochemistry. 3 Credits.
Function of the human body focusing on chemical properties, function, and metabolism of nutrients. Biochemistry of nutrients with a limited focus on medical aspects of nutrient metabolism. For advanced undergraduates and graduate students needing to enhance background prior to NUTR 600.

Rules & Requirements
Requisites: Prerequisites, BIOL 101, CHEM 101 and 102, and NUTR 240; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

NUTR 405. Fundamentals of Food and Nutrition Policy in Public Health. 3 Credits.
This course focuses on food and nutrition policy on a federal, state, and local level. Topics covered include policy formation, interest/consumer advocacy groups, key legislation, how research informs policy, equity and diversity, global food policy issues, sustainability and health, advocacy, and current public health nutrition policy hot topics and examples.

Rules & Requirements
Grading Status: Letter grade.

NUTR 470. Foundations of Nutrition Interventions. 3 Credits.
This course is designed to introduce students to clinical trials in nutrition, including experimental designs, nutrition intervention methods, and skills necessary to critically analyze, describe, and evaluate feeding and behavioral nutrition interventions. The course covers concepts, skills and methods related to nutrition interventions, with an emphasis on theory-based interventions at the individual, community, or environmental levels to improve health and nutrition outcomes.

Rules & Requirements
Grading Status: Letter grade.

NUTR 600. Human Metabolism: Macronutrients. 3 Credits.
Cell biochemistry and physiology emphasizing integration of proteins, carbohydrates, and lipids in whole-body metabolism; regulation of energy expenditure, food intake, metabolic adaptations, and gene expression; and macronutrient-related diseases (atherosclerosis, obesity).

Rules & Requirements
Requisites: Prerequisite, NUTR 400; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

NUTR 611. Food And Your Life Stages. 3 Credits.
This course covers nutrition during the life cycle. Units include women during preconception, pregnancy, and lactation; infancy; childhood; adolescence; and older adults (65+). Nutrient and energy needs, assessment of nutritional status, and cultural and socioeconomic barriers are discussed for each phase.

Rules & Requirements
Requisites: Prerequisite, NUTR 240.
Grading Status: Letter grade.

NUTR 620. HUMAN METABOLISM: MICRONUTRIENTS. 3 Credits.
Cell biochemistry and physiology emphasizing metabolism of vitamins and minerals including antioxidant protection, immune function, nutrient control of gene expression, and disease states induced by deficiencies (e.g., iron-deficient anemia).

Rules & Requirements
Requisites: Prerequisites, NUTR 400 and 600; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

NUTR 630. Nutrition Communication and Culture. 3 Credits.
Course teaches the future nutrition professional the art and science of communicating with individuals, groups, and the public. Students will enhance cultural awareness and frame nutrition messages for mass media including social media.

Rules & Requirements
Requisites: Prerequisite, NUTR 240; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

NUTR 646. Mouse Models of Human Disease. 1 Credits.
This course will focus on the laboratory mouse as a model organism to learn fundamental genetic concepts and understand how state-of-the-art experimental approaches are being used to elucidate gene function and the genetic architecture of biological traits.

Rules & Requirements
Grading Status: Letter grade.

NUTR 660. Food Service Systems Management. 2 Credits.
Permission of the instructor for nonmajors. Basic concepts of institutional food service systems management applied to small and medium-sized health care facilities in the community.

Rules & Requirements
Requisites: Co-requisite, NUTR 660L.
Grading Status: Letter grade.
Nutrition Major, B.S.P.H.

The bachelor of science in public health (B.S.P.H.) program in nutrition introduces the undergraduate student to the science of nutrition in health and disease and to social and behavioral aspects of eating in the context of public and individual health. The Department of Nutrition is one of the top-ranked nutrition departments in the country. The curriculum offers a range of courses on the nutritional and epidemiological aspects of human diseases.

Students may apply to one of two tracks of study.

- **Nutrition Science and Research Track** - An excellent preparation for medical and other health professional graduate programs, this track provides students in-depth exposure to the science of nutrition and metabolism while incorporating required research under the supervision of a faculty member.
- **Nutrition Health and Society Track** - Recognizing the truly interdisciplinary nature of nutrition, this track provides students an opportunity to study nutrition through the lenses of policy, sustainable food systems, and interventions while allowing the flexibility to customize 18 credits of study in related coursework.

Students who are admitted to the B.S.P.H. program in nutrition can apply for a B.S.P.H./M.S. dual degree, which can be completed within one year after completion of the B.S.P.H. program.

Admission (p. 747) to the program is required.

### Student Learning Outcomes

Upon completion of the nutrition program, students should be able to:

- Demonstrate competence in the basic public health core areas of biostatistics, environmental sciences, health policy management, health behavior and health education, and epidemiology, and the roles these disciplines play in the interdisciplinary field of nutrition and public health.
- Describe the nutritional needs of individuals across the life cycle; the psychological, behavioral and social factors that affect food consumption and nutritional status, and the programs and services available to help individuals meet their nutritional needs.

Students who complete the Nutrition Science and Research Track should be able to:

- Demonstrate knowledge of nutritional biochemistry, the metabolism and function of nutrients, and the nutritional components of diseases through advanced courses in nutrition.
- Apply the scientific method in the areas of nutritional biochemistry, nutritional epidemiology, and intervention and policy.

Students who complete the Nutrition Health and Society Track should be able to:

- Understand the role of food and nutrition as an essential element of life — from cell, to an individual, to society.
- Demonstrate effective communication of nutrition information within social, multi-ethnic, and environmental dimensions.
- Demonstrate knowledge of the roles of the individual, society, government, and business in providing accessible, healthy food supplies, and in promoting healthy eating.
of Global Public Health. Enrollment in the B.S.P.H. degree programs is limited. Typically a student is selected in the latter half of the sophomore year and admitted on a competitive basis for junior year entry to the major. The minimum recommended grade point average for admission to programs in biostatistics, environmental health sciences, health policy and management, and nutrition is 3.0.

For current UNC–Chapel Hill students, the initial step of B.S.P.H. application is available in ConnectCarolina under the "Apply for Majors Change" tab. For additional information on application deadlines and how to apply, please visit the Public Health Undergraduate Majors (https://sph.unc.edu/resource-pages/undergraduate-programs/) webpage.

Transfer students interested in any of the public health undergraduate majors must apply through the Office of Undergraduate Admissions (http://admissions.unc.edu/apply/transfer-students/) using the Transfer Common application.

For high school seniors, our four majors participate in the University Assured Enrollment Programs under EXCEL@Carolina. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina's professional schools or a spot in an accelerated undergraduate/graduate program. Programs include unique opportunities such as early access to classes, individualized mentorship, and career connections. For additional information, please visit EXCEL@Carolina (https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/).

**Requirements**

The nutrition program provides two options:

- Nutrition Major, B.S.P.H.–Nutrition Science and Research  (p. 748)

**Nutrition Major, B.S.P.H.–Nutrition, Health, and Society**

In addition to the program requirements listed below, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill

For more information, please consult the degree requirements section of the catalog (p. 1240).

**Admission**

The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Four majors are available to undergraduate students: biostatistics, environmental health sciences, health policy and management, and nutrition. Each of these combines features of a broad-based education with concentrated study in a specific public health discipline. The programs prepare individuals for preprofessional positions in health-related fields and provide a firm base for graduate study. Students are permitted to pursue two majors in the school if there are no course time conflicts and they are able to complete all requirements within their remaining time for degree completion. Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, requirements described in this catalog particularly apply to students admitted to the school during the 2022–2023 academic year.

Students who wish to obtain the B.S.P.H. degree typically spend two years in the General College of the University of North Carolina at Chapel Hill (or in an equivalent core program of academic study elsewhere) and two subsequent years under the administration of the Gillings School.
Nutrition Major, B.S.P.H–Nutrition Science and Research

In addition to the program requirements listed below, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- earn a C (not C-) or better in all prerequisite, core, and additional courses required for the major
- take at least half of their major course requirements (courses and credit hours) at UNC–Chapel Hill

For more information, please consult the degree requirements section of the catalog (p. 1240).

1 Must receive a C (not C-) or better.
2 All other courses for the nutrition major, including science required courses, must receive a C (not C-) or better.
3 Possible options include coursework from minors in anthropology; coaching education; cognitive science; composition, rhetoric, and digital literacy; education; exercise and sport science; food studies; global american studies; health and society; medicine, literature and culture; neuroscience; social and economic justice. Other options may be approved by the Director of Undergraduate Studies.
4 Must be taken at least once during the program and should be done in the final semester as a capstone experience. May be substituted with NUTR 691H or NUTR 692H for students completing a Senior Honors Thesis.
5 If a student pursues the food studies minor, which requires NUTR 175 and four additional courses from an approved list, then they should complete NUTR 175 for the major and take 5 courses from the list that are approved for the minor that do not overlap with the major requirements. In other words, a course may not be used to fulfill multiple requirements in the major.
students must have, at a minimum, a cumulative grade point average of 3.3 at the beginning of their senior year and must maintain the grade point average throughout the major if they intend to pursue honors. Students register for NUTR 295 (three credits) in the fall and/or spring semester of the first year and then enroll in NUTR 691H and NUTR 692H (six credits) in their final two semesters while completing an honors thesis in nutrition.

**Departmental Involvement**

The Nutrition Coalition (http://studentlife.unc.edu/organization/nutritioncoalition/) meets several times each semester to address student concerns and to plan service and social activities. Open to the entire University, the coalition strives to broaden the scope of understanding of the various fields and environments in which nutrition is making advances. The Food Justice student organization seeks to facilitate student and faculty involvement in food justice issues through fostering a more inclusive environment for individuals of all backgrounds. Career development workshops are available each year to provide guidance for students applying to graduate and medical schools.

**Experiential Education**

Two courses in nutrition include experiential components (NUTR 245 and NUTR 295). However, NUTR 295, available only to nutrition majors, fulfills the General Education experiential education requirement.

**Undergraduate Awards**

Nutrition honors research students may apply for the honors undergraduate research awards. The application is available on the Honors Carolina (http://honorscarolina.unc.edu) Web site. Students also may be considered for any of the following awards: Chancellor’s Awards for Excellence in Student Activities and Leadership, The Order of the Golden Fleece, The Order of the Grail-Valkyries, The Order of the Old Well, Frank Porter Graham Honor Society, Phi Beta Kappa, and the Joseph Edozien Outstanding Undergraduate Award in Nutrition.

**Undergraduate Research**

To enhance students’ general education and help them decide whether a research career is something they might pursue, all B.S.P.H. nutrition students are required to complete nutrition research for at least one semester (final semester as capstone), either as part of the honors thesis or as independent research.

**Dual Bachelor’s–Master’s Degree Program**

The Department of Nutrition offers a B.S.P.H.–M.S. dual degree for students who wish to increase their knowledge in nutrition and acquire additional skills in nutrition-based research. This dual degree will be useful for students interested in becoming researchers in industry, program officers for nongovernmental and governmental organizations, project or laboratory managers in academic or nonacademic settings, international workers in nutrition-related programs, and graduate students pursuing a doctoral degree or eventually attending medical or another professional school. B.S.P.H.–M.S students will perform advanced research in nutrition and take graduate nutrition and other courses that will provide the information and experience needed to help them choose their career path. Additionally, for those students who are uncertain about whether they wish to enter the department's doctoral program, the B.S.P.H.–M.S program offers an excellent opportunity to determine whether a more advanced degree would be appropriate. The B.S.P.H.–M.S degree is not specific to any of the department divisions; rather, it builds on the work (both classroom-based and research) begun in the B.S.P.H. program. In summary, the B.S.P.H.–M.S program in nutrition allows students the opportunity to explore nutritional research at an advanced level. The program can be completed in one calendar year (summer, fall, spring) following completion of the B.S.P.H. in nutrition program.

Nutrition B.S.P.H. students interested in the dual-degree program are strongly advised to consult their research advisor and the director of undergraduate studies in nutrition during their junior year to discuss eligibility and an appropriate plan of study. For more information see the B.S.P.H.–M.S Dual Degree Nutrition Handbook (https://sph.unc.edu/nutr/unc-nutrition/student-life/nutr-degrees/).

**Special Opportunities in Nutrition**

**Honors in Nutrition**

The Department of Nutrition provides an opportunity for honors study for qualified students. To be eligible for admission to the honors program students must have, at a minimum, a cumulative grade point average...
Department of Pathology and Laboratory Medicine

Introduction
Pathology is the study of disease, its causes, development, and consequences. It is concerned with basic mechanisms of disease processes (pathobiology) and their structural/functional manifestations. Pathology combines the tools and the basic knowledge from many disciplines, such as molecular biology, cell biology, biochemistry, genetics, immunology, anatomy, and clinical sciences, to clarify the cause (etiology), natural course (pathogenesis), and diagnosis of disease. The department offers several pathology courses appropriate for undergraduate study.

In addition to formal courses, faculty members in the Department of Pathology and Laboratory Medicine of the UNC School of Medicine maintain active research programs and engage in training predoctoral students and postdoctoral fellows in a range of research endeavors. Undergraduate students interested in participating in a hands-on research experience should contact the director of graduate studies in pathology for more information. Contact information is available on the department’s website.

Graduate Programs
- M.S. in Pathology (http://catalog.unc.edu/graduate/schools-departments/pathology-laboratory-medicine/)
- Ph.D. in Pathology (http://catalog.unc.edu/graduate/schools-departments/pathology-laboratory-medicine/)

PATH—Pathology

Undergraduate-level Courses
PATH 128. Biology of Human Disease. 3 Credits.
Open to all undergraduates. An overview of basic human molecular and cellular biology in the setting of common human diseases. The course emphasizes how an understanding of disease mechanisms provides the knowledge base for informed use of modern health care. Does not count as a course in the major.

Rules & Requirements
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses
PATH 426. Biology of Blood Diseases. 3 Credits.
An introduction to the biology and pathophysiology of blood and the molecular mechanisms of some human diseases: anemias; leukemias; hemorrhagic, thrombotic, and vascular disorders; and HIV disease/AIDS. Honors version available.

Rules & Requirements
Requisites: Prerequisite, BIOL 205; Permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: BIOL 426.
to meet regularly with their advisor and review their Tar Heel Tracker each semester. The curriculum’s student services manager and the chair work with current and prospective majors by appointment (see contacts tab above). Further information on courses, internships, the honors program, careers, and graduate schools may be obtained from the curriculum’s website (http://www.unc.edu/depts/pwad/).

Graduate School and Career Opportunities
The curriculum prepares majors for graduate work in several of the humanities and social sciences, for a variety of professional schools, and for a range of employment. Graduates work for federal agencies, state and local governments, nongovernmental organizations, businesses, and other employers. Others have attended graduate and professional schools in government, history, international relations, and law.

Majors

- Peace, War, and Defense Major, B.A. (p. 761)

Minors

- Conflict Management Minor (p. 766)

Advisory Committee
Navin Bapat (Political Science), Kenneth Cates (Aerospace Studies), Peter Coclanis (History), Cori Dauber (Communication), Stephen Gent (Political Science), Shane Doolan (Military Science), Klaus Larres (History), Douglas MacLean (Philosophy), Joe Steinfelds (Naval Science), Marc Stern (Naval Science), Patricia Sullivan (Public Policy), Jonathan Weiler (Global Studies).

Adjunct Professors
Christopher Armitage (English and Comparative Literature), Navin Bapat (Political Science), Cori Dauber (Communication), Stephen Gent (Political Science), Joseph Glatthaar (History), Karen Hagemann (History), Klaus Larres (History), Miguel LaSerna (History), Wayne Lee (History), Douglas MacLean (Philosophy), Fred Naiden (History).

Adjunct Associate Professors
Michael Morgan (History), Patricia Sullivan (Public Policy).

Teaching Associate Professors
Joseph Caddell (History), Hillary Edwards Lithgow (English and Comparative Literature).

Teaching Assistant Professors
Dimitar Bechev (Center for Slavic, Eurasian, and East European Studies), David Delaney (Law), Mark Gubrud (Peace, War, and Defense), Joseph Ross (Peace, War, and Defense) Andrew Sisson (Peace, War, and Defense).

Professors of the Practice
Dennis Blair (Peace, War, and Defense), Shai Tamari (Center for the Study of Middle East and Muslim Civilizations), Erinn Whitaker (Peace, War, and Defense).

PWAD–Peace, War, and Defense
Undergraduate-level Courses

PWAD 69. First-Year Seminar: Wars and Veterans: Iran, Iraq, and Afghanistan. 3 Credits.
In this seminar, we will explore the various ways that Iran-Iraq, United States-Iraq, and United States-Afghanistan wars have been portrayed in literature, film, and photography. We will deepen and enrich our understanding of war experienced by both veterans and civilians. We will also read articles on war criticism and psychology.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR, FC-CREATE or FC-GLOBAL.
Making Connections Gen Ed: LA, CI, GL.
Grading Status: Letter grade.
Same as: ASIA 69.

PWAD 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

PWAD 101. Making Public Policy. 3 Credits.
Overview of the policymaking process and of major public policy issues. Study of policy and political challenges in areas such as economic and tax policy, the social safety net, income support and the minimum wage, health care, education, environment and energy, foreign policy and national security, and homeland security. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.
Same as: PLCY 101.

PWAD 108. Our Energy and Climate Crises: Challenges and Opportunities. 4 Credits.
Students quantify global depletion of energy resources and accompanying environmental degradation, hence discovering the profound changes in attitudes and behavior required to adjust to diminished fossil fuels and modified climate.

Rules & Requirements

Making Connections Gen Ed: PL, GL.
Grading Status: Letter grade.
Same as: ENEC 108.

PWAD 110. Global Policy Issues. 3 Credits.
Global issues are challenges whose sources, impacts, and solutions extend beyond the borders of any one country. This course introduces students to some of the most pressing issues facing populations around the globe and to possible policy responses. Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: FC-GLOBAL or FC-KNOWING.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PLCY 110, GLBL 110.
PWAD 120. World Regional Geography. 3 Credits.
A survey of the geographic structure of human activity in major world regions and nations. Emphasizes current developments related to population, urbanization, and economic activity. (Core)

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: GEOG 120.

PWAD 134. Modern East Asia. 3 Credits.
Comparative and interdisciplinary introduction to China and Japan in the 19th and 20th centuries, focusing on impact of the West, nation building, industrialization, and evolution of mass society.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: HIST 134, ASIA 134.

PWAD 150. International Relations and Global Politics. 3 Credits.
An introduction to the study of political and economic relations in the international system. Topics covered include international conflict, trade, global finance, international institutions, civil war, and human rights. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-GLOBAL.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: POLI 150.

PWAD 161. Literature of War from World War I to the 21st Century. 3 Credits.
This is a class about literature and war and what each might teach us about the other. We will consider a range of texts and center our work around this question: what, if anything, can a work of art help us see or understand about war that might not be shown by other means? Students may not receive credit for both ENGL 73 and ENGL 161.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-KNOWING.
Making Connections Gen Ed: LA, CI.
Grading Status: Letter grade.
Same as: ENGL 161.

PWAD 205. War, Diplomacy, and Statecraft, 1618-1815. 3 Credits.
The history of European international politics from the outbreak of the Thirty Years War to the Congress of Vienna. Considers the sources of national power, the reasons for war, and the changing nature of diplomacy.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: GL, WB.
Grading Status: Letter grade.
Same as: HIST 205.
PWAD 235. Israeli Cinema: Gender, Nation, and Ethnicity. 3 Credits.
The course explores major periods and trends in Israeli cinema. Focus is given to issues pertaining to gender, ethnicity, and the construction of national identity. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: VP, BN, GL.
Grading Status: Letter grade.
Same as: ASIA 235, JWST 235.

PWAD 238. The American Revolution, 1763-1815. 3 Credits.
Major topics: constitutional conflict in the British empire; independence and war; Confederation and Constitution; growth of political parties and nationality in a period of domestic change and international conflict. Previously offered as HIST/PWAD 564.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 238.

PWAD 245. The United States and the Cold War: Origins, Development, Legacy. 3 Credits.
This is both a wide-ranging and detailed course that looks at the origins, the evolution, and the termination of the Cold War from 1945 to 1989/90. It also considers the "New Cold War" with Russia that developed in 2014. The course is based on an international and multinational perspective.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: HIST 245.

PWAD 248. Guerrillas and Counterinsurgencies in Latin America. 3 Credits.
This course examines the leftist guerrilla movements that swept Latin America and the Caribbean during the latter half of the 20th century. Students will analyze the origins, trajectories, and legacies of these insurgencies, paying particular attention to the roles of race, class, and gender. Previously offered as HIST/PWAD 528.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: HIST 248.

PWAD 250. Introduction to Peace and Security Studies. 3 Credits.
Introduction to the problem of war and violent conflict in human experience and the contemporary world, and efforts to prevent, avoid, or ameliorate war and its effects. Content will vary by instructor and disciplinary perspective but will include causes of war, deterrence, irregular war, and the future of war. Previously offered as PWAD 350.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Grading Status: Letter grade.

PWAD 251. The Thirty Years War (1618-1648): Europe in an Age of Crisis. 3 Credits.
A critical examination of the significance of the Thirty Years’ War for 17th-century Europe's social, religious, military, and geopolitical history. The representation of the conflict in art and literature also receives attention.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, WB.
Grading Status: Letter grade.
Same as: HIST 251.

PWAD 252. International Organizations and Global Issues. 3 Credits.
Examines international organizations and their relationships with and impact upon international politics, international law, and selected global issues. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: POLI 252.

PWAD 253. Problems in World Order. 3 Credits.
An examination of selected topics in international relations, such as security and defense, international integration, and north-south relations.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: POLI 253.

PWAD 254. War and Society in Early Modern Europe. 3 Credits.
A critical examination, from the Renaissance to the Napoleonic period, of the changes in European land and naval warfare and their impact on society and government.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.
Same as: HIST 254.

PWAD 260. Crisis and Change in Russia and Eastern Europe. 3 Credits.
Draws on historical, political, economic, and sociological perspectives to analyze social, cultural, and institutional change.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL.
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.
Same as: POLI 260, SOCI 260.
PWAD 262. History of the Holocaust: The Destruction of the European Jews. 3 Credits.
Anti-Semitism; the Jews of Europe; the Hitler dictatorship; evolution of Nazi Jewish policy from persecution to the Final Solution; Jewish response; collaborators, bystanders, and rescuers; aftermath.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
- Making Connections Gen Ed: HS, NA.
- Grading Status: Letter grade.
- Same as: HIST 262, JWST 262.

PWAD 266. Global History of Warfare. 3 Credits.
The history of warfare from its prehistoric origins to the present. The focus is on interactions between peoples around the world and particularly on the problems of innovation and adaptation. Previously offered as HIST/PWAD 351.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-PAST.
- Making Connections Gen Ed: HS, GL.
- Grading Status: Letter grade.
- Same as: HIST 266.

PWAD 268. War, Revolution, and Culture: Trans-Atlantic Perspectives, 1750-1850. 3 Credits.
The course explores the dramatic historical changes from 1750 to 1850 and their intersection with and reflection in arts, literature, and music in a trans-Atlantic perspective.

Rules & Requirements
- Making Connections Gen Ed: HS, GL, NA.
- Grading Status: Letter grade.

PWAD 272. The Ethics of Peace, War, and Defense. 3 Credits.
An analysis of ethical issues that arise in peace, war, and defense, e.g., the legitimacy of states, just war theory, terrorism, weapons of mass destruction.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
- Making Connections Gen Ed: PH, GL, NA.
- Grading Status: Letter grade.
- Same as: PHIL 272, POLI 272.

PWAD 273. Water, Conflict, and Connection in the Middle East. 3 Credits.
Water has played many pivotal roles in the societies and politics of Middle Eastern peoples. This course will survey the history of water in the region, including its uses in agriculture and ritual, transport, and technology. We will explore water's impact on public health and the effects of water pollution on local societies. Finally, we will focus on the effects of the region's water scarcity in cross-border political conflicts.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
- Making Connections Gen Ed: HS, GL.
- Grading Status: Letter grade.
- Same as: HIST 273.

PWAD 277. The Conflict over Israel/Palestine. 3 Credits.
Explores the conflict over Palestine during the last 100 years. Surveys the development of competing nationalisms, the contest for resources and political control that led to the partition of the region, the war that established a Jewish state, and the subsequent struggles between conflicting groups for land and independence.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
- Making Connections Gen Ed: HS, BN.
- Grading Status: Letter grade.
- Same as: HIST 277, ASIA 277.

PWAD 280. Anthropology of War and Peace. 3 Credits.
Cross-cultural perspectives on war in its relation to society, including Western and non-Western examples. Surveys political, economic, and cultural approaches to warfare and peacemaking.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
- Making Connections Gen Ed: SS, GL, QI.
- Grading Status: Letter grade.
- Same as: ANTH 280.
PWAD 289. Sounds of War and Revolution. 3 Credits.
Music’s roles in war and revolution within various political, social, and cultural contexts. Part of the cluster “War, Revolution and Culture: Transatlantic Perspectives, 1750-1850.”

Rules & Requirements
Making Connections Gen Ed: VP, NA.
Grading Status: Letter grade.
Same as: MUSC 289.

PWAD 312. History of France and Algeria. 3 Credits.
This course covers France’s conquest, rule, and loss of Algeria, and the relationship between French and Algerian people in Algeria and France from 1830 to the present. Topics such as modern French and North African history, colonialism, Islam, immigration, terror/torture, and cross-cultural exchange are all featured in this transnational course.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: HIST 312.

PWAD 331. Cracking India: Partition and Its Legacy in South Asia. 3 Credits.
What happened when the British carved Pakistan out of the predominately Muslim corners of India? Readings and films focus on the causes and consequences of this event, the Partition of India. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST, RESEARCH.
Making Connections Gen Ed: HS, BN, GL.
Grading Status: Letter grade.
Same as: ASIA 331, HIST 335.

PWAD 352. The History of Intelligence Operations. 3 Credits.
This course reviews the historic development of intelligence organizations and operations. Primary focus is on the modern world and the correlation between intelligence and national security concerns.

Rules & Requirements
Making Connections Gen Ed: NA.
Grading Status: Letter grade.

PWAD 353. Intelligence Analysis: Research Methods and Writing. 3 Credits.
Examines intelligence analysis methodology and products from a variety of settings and customer-types. An overview of the intelligence process and of collection strategies will also be conducted. The primary emphasis will be on conducting actual analysis of raw information to produce an intelligence estimate as a capstone to the course.

Rules & Requirements
Grading Status: Letter grade.

PWAD 354. War and Gender in Movies. 3 Credits.
The course examines and compares the images of war and gender that movies from different time periods and countries propagate and explores the different factors that influence these images and thereby the perception and recollection of war. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: COMM 355.

PWAD 355. Terrorism and Political Violence. 3 Credits.
This course is a multi-disciplinary analysis of the phenomena of terrorism and political violence, their history, causes, the threat they pose, and what steps the United States can take in response.

Rules & Requirements
Grading Status: Letter grade.
Same as: COMM 355.

PWAD 356. Strategic Intelligence and International Security. 3 Credits.
Course investigates policies, issues, key problems, and potential solutions in strategic intelligence and international security. In addition to readings and class simulations, the students will write an issue paper similar to those prepared within the national security community assessing the future environment and suggesting policies and strategies.

Rules & Requirements
Grading Status: Letter grade.

PWAD 357. International Intelligence Services. 3 Credits.
This course examines international intelligence services within the context of national and homeland security. Prominent subjects include human intelligence (HUMINT), covert action, and counterintelligence, as well as the organizations, missions, and functions of international intelligence and security services.

Rules & Requirements
Grading Status: Letter grade.

PWAD 358. Cyber Security: Advanced and Persistent Threats to National Security. 3 Credits.
Course investigates the concept, framework, and applications of cyber security; analyzes the relevant contextual background and current cyber security issues. Addresses cyber security from the perspective of the relevance of cyber security within national and international security policy formulation and implementation. Not a computer science nor information technology course.

Rules & Requirements
Grading Status: Letter grade.

PWAD 359. Comparative History of National Intelligence Regimes. 3 Credits.
Explores the origins and evolution of national intelligence regimes in various countries throughout the latter half of the 20th century. Includes comparative examples from intelligence services in the United States, the Soviet Union and post-Soviet Russia, Israel, Great Britain, China, and Iraq. Applies historical knowledge to understanding current intelligence issues, such as telecommunications monitoring, drone warfare, and counterterrorism.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
PWAD 360. The History of Warning Intelligence. 3 Credits.
Course studies the evolution of the warning mission and its role in modern intelligence organizations. Primarily but not entirely focused on the American experience. Ancient through modern case studies are used with a particular emphasis on the methodologies developed to improve warning and the problems inherent to the warning mission.

Rules & Requirements
Making Connections Gen Ed: HS.
Grading Status: Letter grade.

PWAD 361. The History of Deception. 3 Credits.
Course examines strategic, operational, and tactical deception in warfare through history. This process entails describing and assessing the objectives, methodologies, and results of specific deception operations. There is a particular emphasis on the role of deception regarding intelligence collection and analysis, as well as the methods utilized to detect deception.

Rules & Requirements
Making Connections Gen Ed: HS.
Grading Status: Letter grade.

PWAD 362. The Arab-Jews: Culture, Community, and Coexistence. 3 Credits.
This course is designed to examine Jewish life in Arab lands in the last century by examining culture, language, and the communal life that the Arab-Jews shared with their neighbors.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: BN, GL.
Grading Status: Letter grade.
Same as: ASIA 357, JWST 357.

PWAD 363. Ethical Issues in Intelligence and National Security. 3 Credits.
An exploration of the unique ethical and moral challenges that intelligence and national security present for policymakers, intelligence professionals, and citizens. Examples are drawn from a variety of places and times throughout history, with an emphasis on U.S. examples.

Rules & Requirements
Grading Status: Letter grade.

PWAD 364. Post-Conflict and Peacebuilding. 3 Credits.
This course considers theories of peacebuilding and state-building, investigates the various challenges facing post-conflict states, and assesses the role that international actors play in this process. Case study based.

Rules & Requirements
Grading Status: Letter grade.

PWAD 365. War and American Society to 1903. 3 Credits.
The American military experience from colonial times to the early 20th century. Major themes include the problem of security, the development of military policies and institutions, and the way in which the country waged and experienced war.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 368.

PWAD 366. War and American Society. 3 Credits.
Survey of America’s military experience in the 20th century, focusing on national security policy, military institutions, World Wars I and II, the Cold War, the Korean and Vietnam Wars, and recent interventions.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

PWAD 373. The United States in World War II. 3 Credits.

Rules & Requirements
Making Connections Gen Ed: HS, GL, NA.
Grading Status: Letter grade.
Same as: HIST 373.

PWAD 376. The Rhetoric of War and Peace. 3 Credits.
Explores philosophical assumptions and social values expressed by advocates of war and peace through a critical examination of such rhetorical acts as speeches, essays, film, literature, and song.

Rules & Requirements
Grading Status: Letter grade.
Same as: COMM 376.

PWAD 388. Chinese Strategic Thought: Antiquity to the Present. 3 Credits.
This course will introduce undergraduates to Chinese strategic and military thought through the translated writings of some of China’s most significant philosophers, intellectuals, and political leaders, from antiquity to the present. Students will explore historical characteristics of Chinese strategy and consider the influence of these ideas in current international relations.

Rules & Requirements
Making Connections Gen Ed: HS, BN.
Grading Status: Letter grade.
Same as: HIST 388.

PWAD 393. Internship in Peace, War, and Defense. 3-6 Credits.
Students are encouraged to undertake unpaid internships with branches of the federal government, international organizations, and selected nongovernment organizations. Pass/Fail only, with the written approval of the department chair. Does not count as a course in the major, but can be combined with an independent study such as PWAD 396.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Pass/Fail.

PWAD 396. Independent Study in Peace, War, and Defense. 1-6 Credits.
Permission of the instructor. Independent study and reading. Special reading and research activities in a selected field under the supervision of a faculty member.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
Advanced Undergraduate and Graduate-level Courses

PWAD 411. Social Movements. 3 Credits.
Examines the origins, dynamics, and consequences of protest and social movements including historical and contemporary movements from the United States and around the globe. Students may not receive credit for both SOCI 413 and 411.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.
Same as: SOCI 411.

PWAD 416. Constitutional Policies and the Judicial Process. 3 Credits.
Analysis of the structure and functions of judicial systems emphasizing the organization, administration, and politics of judicial bureaucracies and roles of judges, juries, counsel, litigants, and interested groups in adjudication processes.

Rules & Requirements
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.
Same as: POLI 416.

PWAD 421. Alexander. 3 Credits.
The rise of Macedonia; the careers of Philip II and Alexander (with emphasis on the latter's campaigns); the emerging Hellenistic Age. The course integrates computer (including Web site) and audiovisual materials throughout.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.
Same as: HIST 421.

PWAD 422. Ancient Greek Warfare. 3 Credits.
War and the warrior in the archaic and classical Greek world, seventh to the fourth centuries BCE. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.
Same as: HIST 422.

PWAD 425. Beyond Hostilities: Israeli-Palestinian Exchanges and Partnerships in Film, Literature, and Music. 3 Credits.
Focuses on the various collaborations, exchanges, and mutual enrichment between Israelis and Palestinians in the realm of culture, particularly literature and cinema. These connections include language (Israeli Jewish authors writing in Arabic and Palestinian writers who choose Hebrew as their language of expression), collaborating in filmmaking, and joint educational initiatives.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: BN, GL.
Grading Status: Letter grade.
Same as: ASIA 425, JWST 425.

PWAD 427. Cold War Culture in East Asia: Transnational and Intermedial Connections. 3 Credits.
This course introduces students to the specific contours that the Cold War accrued in East Asia. Focusing on literature and film, it explores what the fall of the Japanese Empire and the emergence of the post-1945 world meant across the region.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-VALUES.
Making Connections Gen Ed: LA, BN, CI.
Grading Status: Letter grade.
Same as: ASIA 427, CMPL 527.

PWAD 430. Analysis of National Security Policy. 3 Credits.
Course explores contemporary threats to national security, approaches to national security strategy, policy instruments, the role of military force, and the policy-making process.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PLCY 430, POLI 430.

PWAD 432. The Crusades. 3 Credits.
Students in this course will examine Christian attitudes toward holy war, crusading, and other forms of coercive violence from the 11th until the 15th centuries, with a focus on the major crusades of the Holy Land.

Rules & Requirements
Making Connections Gen Ed: HS, NA, WB.
Grading Status: Letter grade.

PWAD 435. The Cinemas of the Middle East and North Africa. 3 Credits.
This course explores the social, cultural, political, and economic contexts in which films are made and exhibited and focuses on shared intra-regional cinematic trends pertaining to discourse, aesthetics, and production.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-GLOBAL.
Making Connections Gen Ed: VP, BN, GL.
Grading Status: Letter grade.
Same as: ASIA 435, CMPL 535.

PWAD 443. American Foreign Policy: Formulation and Conduct. 3 Credits.
The role of Congress, the press, public opinion, the president, the secretary and the Department of State, the military, and the intelligence community in making American foreign policy. Emphasizes the impact of the bureaucratic process on the content of foreign policy.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisite, POLI 150; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: POLI 443.
PWAD 444. Terrorism and International Peace. 3 Credits.
The U.S. 9/11 attack represents the defining terrorist attack to Americans, but in most of the world, terrorism has long been part of politics. We will examine what motivates individuals to consider violence, how individuals organize to protect their political interests, the types of tactics used by violent groups and the state's response, before concluding with a study of collapsed states, the international implications of political violence, and possibilities for conflict resolution.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: POLI 444.

PWAD 450. Internal and Interpersonal Conflict Management. 3 Credits.
This course aims to provide students with the tools necessary to most effectively engage in interpersonal conflicts. Students engage with diverse conflict management practitioners—from formally incarcerated individuals to public policy negotiation to international conflict mediators and role-play cross-cultural communication, inter-governmental negotiations, human rights, and workplace negotiations. Students will learn new negotiation and mediation skills, build upon existing ones, and learn to cope with stress, discomfort, and emotions when in conflict. Previously offered as PLCY/PWAD 330.

Rules & Requirements
IDEAs in Action Gen Ed: COMMBEYOND.
Making Connections Gen Ed: CI.
Grading Status: Letter grade.
Same as: PLCY 450.

PWAD 453. Political Geography. 3 Credits.
The geography of politics is explored at the global, the nation-state, and the local scale in separate course units, but the interconnections between these geographical scales are emphasized throughout. (GHA)

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.
Making Connections Gen Ed: GL.
Grading Status: Letter grade.
Same as: GEOG 453.

PWAD 457. International Conflict Processes. 3 Credits.
Analysis of international conflict and the causal mechanisms that drive or prevent conflict. Emphasis is on the conditions and processes of conflict and cooperation between nations.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: POLI 457.

PWAD 458. International Conflict Management and Resolution. 3 Credits.
Examines the management and resolution of international and civil wars. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS.
Requisites: Prerequisite, POLI 150.
Grading Status: Letter grade.
Same as: POLI 458.

PWAD 459. Trans-Atlantic Security. 3 Credits.
The course explores the development of Euro-Atlantic security institutions (NATO, EU) and compares security policy in the United States and Europe. Cases include policy toward the Balkans, Afghanistan, Russia, and Ukraine. Includes review of concepts of security and selected international relations approaches to international organizations. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: POLI 459.

PWAD 460. International Economics. 3 Credits.
An introduction to international trade, the balance of payments, and related issues of foreign economic policy.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL.
Requisites: Prerequisites, ECON 400 and 410; a grade of C or better in ECON 400 and 410 is required.
Grading Status: Letter grade.
Same as: ECON 460, EURO 460.

PWAD 465. Literature of Atrocity: The Gulag and the Holocaust in the Soviet Union and Eastern Europe. 3 Credits.
Historical contexts and connections through artistic representation of the Holocaust and Soviet terror in Eastern Europe and the USSR. Taught in English; some foreign language readings for qualified students.

Rules & Requirements
Making Connections Gen Ed: LA, BN, GL.
Grading Status: Letter grade.
Same as: GSLL 465, JWST 465.

PWAD 467. Language and Political Identity. 3 Credits.
This course examines the roles of language policy and linguistic controversies in determining national identity and fueling political polarization. It focuses primarily on Western and Eastern Europe and Central Asia. Previously offered as SLAV 467.

Rules & Requirements
Making Connections Gen Ed: BN, CI.
Grading Status: Letter grade.
Same as: GSLL 467.
PWAD 469. Conflict and Intervention in the Former Yugoslavia. 3 Credits.
Focuses on ethnic and political conflicts in the former Yugoslavia and efforts by the international community to end conflict and promote peace and reconstruction. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: POLI 469.

PWAD 475. Literature of Russian Terrorism: Arson, Bombs, Mayhem. 3 Credits.
Literary representations of Russian revolutionaries and terrorists in the 19th and early 20th centuries. Readings by Dostoevsky, Chernyshevsky, Bely, Joseph Conrad, and by some of the terrorists themselves. Taught in English; some readings in Russian for qualified students.

Rules & Requirements
Making Connections Gen Ed: LA, BN, CI.
Grading Status: Letter grade.
Same as: RUSS 475.

PWAD 481. Religion, Fundamentalism, and Nationalism. 3 Credits.
An exploration of explosive combinations of religion and politics in the Iranian revolution, the Palestinian movement, Hindu nationalism in India, and Christian fundamentalism in America.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-VALUES.
Making Connections Gen Ed: SS, BN, GL.
Grading Status: Letter grade.
Same as: RELI 481.

PWAD 483. Conflict, Development, and U.S. Foreign Policy. 3 Credits.
The course will examine the drivers and consequences of violent intrastate conflict, including civil war, communal conflict, terrorism and cartel/gang violence. It will consider COVID-19 and climate change as threat multipliers. And the course will explore U.S. interests and strategies for preventing or reducing conflicts and promoting development. It will use case studies to illustrate the effectiveness of various policy instruments and the role of local and international actors, structural factors and institutions.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Grading Status: Letter grade.

PWAD 484. Critical Security Studies. 3 Credits.
Introduces major topics in the interdisciplinary field of critical security studies. Critically analyzing the public construction of risk and security in military, technological, informational, and environmental domains, the course explores major theories that attempt to make sense of the transnational proliferation of violence and risk in historical and contemporary contexts.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: CI, GL.
Grading Status: Letter grade.
Same as: ENGL 488.

PWAD 485. Extremism, Terrorism, and Security in Postwar Europe. 3 Credits.
In the debate on how to efficiently combat terrorism without abandoning the rule-of-law, it is often neglected that this is not a new problem. This course will examine European states’ reactions to national and international terrorism since the 1960s. Case studies will include Germany, Italy, and the United Kingdom. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 486.

PWAD 486. National Security Decision Making. 1-3 Credits.
Permission of the instructor. Explores national security policy formation through analyzing the United States national security apparatus, the elements of national power, and historical examples of their application. Also examines the merits of various approaches to national security decision making. A course for senior majors in PWAD.

Rules & Requirements
Grading Status: Letter grade.

PWAD 488. Nuclear Security in the 21st Century. 3 Credits.
Examines the history of and contemporary problems associated with nuclear security and counter-proliferation.

Rules & Requirements
Making Connections Gen Ed: HS.
Grading Status: Letter grade.

PWAD 489. Empire and Diplomacy. 3 Credits.
Examines the history of the British Empire and the role of peace, war, defense, diplomacy, and letters in shaping Britain's presence on the world stage. Honors version available.

Rules & Requirements
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.
Same as: CMPL 489.

PWAD 490. Special Topics in Peace, War, and Defense. 3 Credits.
Subject matter will vary with instructor, but will focus on some particular topic or historical approach. Course description available from departmental office.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

PWAD 517. Gender, Military, and War. 3 Credits.
This course introduces students to new research on the history of gender, the military, and war in a comparative perspective. It explores the interrelations between changing military systems, types of warfare, the gender order, as well as political, social, and cultural currents in modern history.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: HIST 517, WGST 517.
PWAD 565. Civil War and Reconstruction, 1848-1900. 3 Credits.
Focus is on causes, nature, and consequences of the Civil War.

Rules & Requirements
Grading Status: Letter grade.
Same as: HIST 565.

PWAD 570. The Vietnam War. 3 Credits.
A wide-ranging exploration of America’s longest war, from 19th-century origins to 1990s legacies, from village battlegrounds to the Cold War context, from national leadership to popular participation and impact.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: HIST 570, ASIA 570.

PWAD 574. War and Culture. 3 Credits.
Examines American cultural myths about war generally and specifically about the causes of war, enemies, weapons, and warriors, and the way these myths constrain foreign and defense policy, military strategy, and procurement.

Rules & Requirements
Grading Status: Letter grade.
Same as: COMM 574.

PWAD 575. Presidential Rhetoric. 3 Credits.
The power of the presidency depends in part upon the president’s ability to rally public opinion, which depends upon the president’s ability to use the “bully pulpit.” This course examines the hordes presidents face and the steps presidents take to shape opinion.

Rules & Requirements
Requisites: Prerequisite, COMM 170.
Grading Status: Letter grade.
Same as: COMM 575.

PWAD 577. United States Foreign Relations in the 20th Century. 3 Credits.
How the United States came to occupy a leading role in world affairs as a diplomatic, military, economic, and cultural power and what that role has meant to Americans and to other peoples, especially during the Cold War.

Rules & Requirements
Making Connections Gen Ed: HS, GL, NA.
Grading Status: Letter grade.
Same as: HIST 577.

PWAD 578. Transatlantic Relations and Contemporary Geo-Politics from the Cold War to the Present. 3 Credits.
This course considers transatlantic relations in its security, political, and economic dimensions. The course also analyzes U.S. attempts to construct a more united European continent. It is the main aim of this course to give students a structured overview of transatlantic relations and geo-political developments from 1945 to the present.

Rules & Requirements
Making Connections Gen Ed: HS, GL.
Grading Status: Letter grade.
Same as: HIST 578.

PWAD 634. Public Health Issues in Community Preparedness and Disaster Management. 3 Credits.
Examines conventional public health constructs of community preparedness and disaster management. Includes a review of traditional and emerging literature. Emphasizes conceptual development and application of adaptive leadership strategies.

Rules & Requirements
Grading Status: Letter grade.
Same as: HPM 634.

PWAD 635. Military Leadership and Public Service. 3 Credits.
Leadership as taught and demonstrated in the military and how it translates to leadership in public service, including the interrelationship of the military and other public service and the transition of veterans to civilian leadership roles.

Rules & Requirements
Grading Status: Letter grade.
Same as: PUBA 635.

PWAD 652. International Law. 3 Credits.
Permission of curriculum chair and instructor required. Practical problems of international law, including its nature; treaty making, interpretation, enforcement, and termination; recognition; territory; nationality; jurisdiction and immunities; state responsibility and international claims; and the law of war and neutrality.

Rules & Requirements
Grading Status: Letter grade.

PWAD 659. War in 20th-Century Literature. 3 Credits.
A study of literary works written in English concerning World War I, or the Spanish Civil War and World War II, or the Vietnam War. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: LA, GL.
Grading Status: Letter grade.
Same as: ENGL 659.

PWAD 660. War in Shakespeare’s Plays. 3 Credits.
The focus is on Shakespeare’s various treatments of war in his plays: all his Roman histories, most of his English histories, all his tragedies, even some of his comedies.

Rules & Requirements
Grading Status: Letter grade.
Same as: ENGL 660.

PWAD 670. Peace Making in the Israeli-Palestinian Conflict. 3 Credits.
Research-intensive seminar focusing on the barriers preventing peace making from occurring. The course will make a distinction between making peace among individuals and achieving a political solution between governments and organizations.

Rules & Requirements
Grading Status: Letter grade.
PWAD 673. Post-Conflict Security Challenges. 3 Credits.
A research seminar exploring the post-conflict challenges associated with force demobilization, state building, and military and security sector reforms. This course considers theories of post-conflict security and investigates the assorted challenges faced by post-conflict states. Students will conduct a significant independent research project.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

PWAD 674. Research Seminar on the History of Covert Action. 3 Credits.
Examines historical dimensions of the phenomenon known as covert action, in which states are motivated to conceal their responsibility for foreign intervention. This behavior has important and far-reaching implications for international security, diplomacy, and law that are explored through class discussions and in-depth original research projects.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

PWAD 675. War, Crimes against Humanity, and Justice. 3 Credits.
This course examines the devastation of war and conflict throughout the 19th and 20th centuries; war crimes, genocide, and other atrocities; the creation of the term "Crimes against Humanity" in international law; and the various attempts to use legal trials to bring about peace and justice in a chaotic world. We will explore the challenges of international institutions and international laws in maintaining peace in a world of nation-states and national sovereignty.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

PWAD 676. Law and National Security from the U.S. Civil War to the Global War on Terror. 3 Credits.
This seminar examines themes of good governance and the rule of law in United States history from 1860 to the present. It is targeted at students seeking to acquire graduate level knowledge of national and international security legal and policy issues, and to apply that knowledge to an independent research effort.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

PWAD 678. Research Seminar in Peace, War, and Defense. 3 Credits.
Undergraduate research seminar intended to provide an intensive research and writing experience for juniors and seniors in the major. Topic will vary by instructor. This course will emphasize developing research, writing, and presentation skills in topics relevant to the study of the problems of peace and security.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading Status: Letter grade.

PWAD 679. Seminars in Peace, War, and Defense. 3 Credits.
Seminars on aspects of peace, war, and defense that lead to the production of a significant research product. Past topics have included arms control, public opinion and national security, and the Cold War.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading Status: Letter grade.

PWAD 680. Honors in Peace, War, and Defense. 3 Credits.
Permission of the instructor. Directed research on an independent basis for majors who are preparing an honors thesis and for the oral examination on the thesis.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

PWAD 681. Honors in Peace, War, and Defense. 3 Credits.
Directed research on an independent basis for majors who are preparing an honors thesis and for the oral examination on the thesis.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisite, PWAD 679.
Grading Status: Letter grade.

Peace, War, and Defense Major, B.A.
Peace and war are among the oldest dreams and most difficult challenges of human experience. The curriculum brings together faculty
and courses from many disciplines to provide undergraduates with a range of approaches to the fundamental issues of human conflict and national and global security and defense.

**Student Learning Outcomes**

Upon completion of the peace, war, and defense program, students should be able to:

- Express themselves effectively in written and oral communication
- Use appropriate research methodology
- Demonstrate knowledge of major concepts, theoretical perspectives, and history of peace and war
- Think critically and analytically in approaches to the concepts, perspectives, and history of peace and war
- Demonstrate knowledge of the interrelationships between the various disciplinary approaches to the study of peace and war

**Requirements**

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

| STOR 151  | Introduction to Data Analysis                                                                   |       |

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 PWAD 396, PWAD 680, PWAD 490, PWAD 690 and PWAD 691H may be applied toward the concentration requirement with the permission of the chair. Students can request that relevant courses not on this list, but offered as first-year seminars, honors seminars, or topics courses in other departments, be used to fulfill major requirements. This requires the approval of the chair.

2 Alternatively, students may take one semester of POLI 281 or STOR 151 or STOR 155, or students may suggest a substitute statistics-heavy methodology course.

Central Intelligence Agency, Durham Police Department, Office of Naval Intelligence, Defense Intelligence Agency, Carolina for Kibera, Center for Strategic and International Studies, Peace Action, United States Army Special Operations Command, and many more. Students are limited to one internship for credit, and all internships are limited to three hours of academic credit. Although some routine administrative tasks are required in any professional setting, the expectation is that a majority of the intern's work will be directed toward the substantive mission of the agency and that tasks will be of a nature to justify awarding academic credit. All internships require prior approval, and all must consist of at least eight hours per week and at least 100 hours per semester. Students must sign an internship contract with their agency and faculty supervisors, setting out expectations and course requirements. Interns are required to keep a daily work journal. Once approved for an internship, students enroll in PWAD 393, which is offered on a Pass/Fail basis only and therefore does not count toward the nine courses required for the major. Students wishing credit towards the major derived from their internship work should pursue an independent study with a faculty supervisor either while taking the internship or in the next semester. That independent study should produce a major written product, would be graded normally, and receives credit in the major.

Study Abroad
The curriculum encourages all undergraduates to study abroad either for a summer, a semester, or an entire year. Students should consult the study abroad (http://studyabroad.unc.edu) website and visit the Study Abroad Office as early as possible in their course of study to meet with a study abroad advisor. A number of foreign programs contain courses that qualify for major credit. Of particular usefulness is study at the King's College, University of London War Studies Department, the closest analogue to the Curriculum in Peace, War, and Defense in the English-speaking world and a program with a renowned faculty. Students with at least a 3.3 grade point average are eligible to apply to King's College. While supervision arrangements need to be negotiated and agreed with relevant faculty members, students writing honors theses in their senior year may also apply to spend the year at King's College.

Undergraduate Research
Students who qualify are encouraged to experience original research by writing a senior honors thesis described in the honors section above.

Conflict Management Minor

The study of conflict management is the study of human behavior during disputes, including the causes of conflict, techniques for dealing with disputes, and strategies for achieving a resolution that satisfy one’s interests and preserve relationships. People often assume that these skills are acquired during a lifetime by simply experiencing conflict, but that is not necessarily the case. We can spend our entire lives moving from one conflict to another — at home, at school, or at work — simply repeating the same ineffective responses without realizing opportunities for, and methods to achieve, successful outcomes. The minor in conflict management aspires to provide students with a theoretical framework, habits of mind and tangible skills, in areas such as negotiation, mediation, voice training, language, ethics, psychology, and neuroscience, among other fields. In addition, the minor aims to provide a better understanding of the world we live in and the conflicts that surround us by studying domestic and international conflicts, both past and current. The minor’s goal is to allow students to become better conflict managers and thus better citizens of the world.

The minor is open to all undergraduate students.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC—Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Department of Philosophy

Introduction

The principal goal of the study of philosophy is to enable students to think more clearly, deeply, and appreciatively about themselves and their world. Study of philosophy enhances analytical, critical, and interpretive capacities that are applicable to any subject matter in almost any context. It provides many opportunities for expressing oneself, for reflecting on questions that human beings have pondered for millennia, for exchanging reasoned beliefs and engaging in focused debate, and for learning how to come to terms with problems for which there are no easy answers. A good philosophical education also helps to prepare students for responsible and intelligent participation in political and community affairs.

The most important outcome of philosophical study is the ability to engage in thinking that is at once disciplined and imaginatively creative. While such thinking lies at the heart of the philosophical enterprise, it is also needed for success in any complex intellectual or practical endeavor. Philosophy's attention to critical thought, rigorous argument, and articulate expression makes the philosophical curriculum absolutely central to a liberal education and valuable as a basis for further training in a variety of pursuits.

Examples of philosophical questions are:

- How should we understand truth, existence, validity, fact, value, and free will?
- What are the principles or presuppositions of science, language, political systems, and religious and moral views?
- What is the nature of a person, of space and time, of a work of art?
- What is the wisdom of the past on these enduring questions? How do Western traditions differ from Eastern ones on these questions? And how do these historical approaches relate to our own, contemporary ones?

Students are encouraged to view philosophy not as a specialized, esoteric discipline, but instead as an activity integral to a liberal arts education, helping students to think more cogently and appreciatively about themselves and their world.

PHIL 101, PHIL 110, or PHIL 112 is recommended as a first course for those interested in philosophical issues and their cultural significance and for those who wish to examine a broad range of philosophical topics, problems, or historical figures. Other good starting points are PHIL 155, which deals with logic and the analysis of argument; PHIL 160, which deals with moral thought and experience; and PHIL 150, which deals with the concepts, methods, and foundations of the biological and physical sciences.

PHIL 155 is recommended for all students who major or minor in philosophy.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (https://advising.unc.edu/). Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies works with current and prospective majors by appointment (see contact information above). Departmental academic advising is particularly important for those majors who are

See the program page here (p. 765) for special opportunities.
considering going on to graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (https://philosophy.unc.edu/).

**Graduate School and Career Opportunities**

A major in philosophy offers excellent preparation for many careers in which clear thinking and analytical ability are valued. Some majors choose to pursue graduate work in philosophy in preparation for college or university teaching (Ph.D. normally required), but the philosophy major also provides the form of rigorous and systematic intellectual training that is of crucial importance in law, medicine, business, and other fields.

**PHIL—Philosophy**

Courses numbered below 199 have no prerequisites. These serve as suitable first courses in philosophy for many students, as do some courses below 299, in particular PHIL 210, PHIL 213, PHIL 230, PHIL 266, and PHIL 280. Courses numbered 101 to 120 are general survey courses. (Non-majors, please note that PHIL 155 satisfies the quantitative reasoning General Education requirement.) Courses numbered 130 to 290 are oriented toward particular problems or topics. For instance, courses numbered 210 to 229 concern the history of philosophy. Courses numbered 300 to 399 are designed for advanced undergraduates and majors and carry a prerequisite of one course in philosophy. (Some may carry additional prerequisites.) Courses numbered between 400 and 699 are for advanced undergraduates as well as graduate students. Detailed information on upcoming courses is available on the department's website (https://philosophy.unc.edu/graduate/undergraduate-courses/).

Please note that not all courses are offered on a regular basis. For information on which courses are most likely to be offered in a given year or semester, please contact the department’s director of undergraduate studies.

**Undergraduate-level Courses**

**PHIL 51. First-Year Seminar: Who Was Socrates?.** 3 Credits.
Socrates is the quintessential philosopher—a man for all seasons, a foundational figure of the West.

**Rules & Requirements**
IDEAs in Action Gen Ed: FY-SEMINAR, FC-PAST or FC-VALUES.
Making Connections Gen Ed: PH, NA, WB.
Grading Status: Letter grade.

**PHIL 52. First-Year Seminar: Reason and Religion at the Dawn of Modern Science.** 3 Credits.
Students will read some of the most important philosophical reflections of the 17th and 18th centuries.

**Rules & Requirements**
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

**PHIL 53. First-Year Seminar: Theories in Human Nature.** 3 Credits.
Students will explore a variety of issues that arise when human beings begin to reflect on our own natures and will be introduced to main theories that have been developed. Honors version available.

**Rules & Requirements**
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

**PHIL 54. First-Year Seminar: Thinking about Time.** 3 Credits.
What is time? Do the past and the future exist, or only the present? Is the "flow of time" an objective feature of reality?

**Rules & Requirements**
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING.
Making Connections Gen Ed: PH, WB.
Grading Status: Letter grade.
PHIL 55. First-Year Seminar: Paradoxes. 3 Credits.
Paradoxes have been a driving force in philosophy since the fourth century BCE. They force us to rethink old ideas and conceptions.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH, CI.
Grading Status: Letter grade.

PHIL 56. First-Year Seminar: Abortion. 3 Credits.
A general philosophical discussion of the value of life, the evil in death, and the wrongness of killing.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 57. First-Year Seminar: Race and Affirmative Action. 3 Credits.
The goal of the course is to get a mature and correct understanding of race, racism, and affirmative action.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-POWER or FC-VALUES.
Making Connections Gen Ed: US.
Grading Status: Letter grade.

PHIL 58. First-Year Seminar: From Vengeance to Mercy: Dealing with Evil. 3 Credits.
This course will explore the ethical dimensions of the responses to evil that we have developed over history. Revenge, retribution, reparation; hatred, resentment, forgiveness; punishment, pardon, mercy.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 59. First-Year Seminar: Proofs of the Existence of God. 3 Credits.
We will examine efforts in the history of philosophy to prove that God exists or that God does not exist. Our aim is to articulate and understand some of the underlying philosophical issues that are raised by these proofs and arguments.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 60. First-Year Seminar: Plato's Symposium and Its Influence on Western Art and Literature. 3 Credits.
This seminar examines Plato's philosophical and literary masterpiece, The Symposium, and its influence on later artists and writers: we explore the Symposium itself, the ways in which the Symposium influenced later European artists and writers, and the importance of the Platonic view of love and beauty for modern artists and writers. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH or FC-PAST.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 61. First-Year Seminar: The Self: Aspiration and Transformation. 3 Credits.
Novels, memoirs, and aisles of self-help books attest to our desire to transform ourselves. Yet, the idea of self-transformation is puzzling. In this class, we will critically examine the idea of aspiration and transformation.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 62. First-Year Seminar: Philosophy with Children. 3 Credits.
This seminar is designed to give students a unique, experiential perspective on philosophical inquiry by combining the philosophical study of ethics with virtual service in the community. We will examine philosophical questions about childhood and engage in philosophical interactions with children about a range of philosophical topics, with an emphasis on ethics and human values. Students perform 30 hours of service at a local K-5 school.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-VALUES, HI-SERVICE.
Grading Status: Letter grade.

PHIL 63. First-Year Seminar: Mind, Brain, and Consciousness. 3 Credits.
What are minds and how are they related to bodies?

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

PHIL 64. First-Year Seminar: Ethics: Theoretical and Practical. 3 Credits.
This seminar examines theoretical issues, relativism, utilitarianism, deontological ethics, and virtue ethics.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.
PHIL 67. First-Year Seminar: Issues in a World Society: Sports and Competition. 3 Credits.
This seminar examines ethical issues in sports, including Title IX, gender equity, racism, sexism, cheating, violence, and drug use.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 68. First-Year Seminar: Moral Life. 3 Credits.
This course will explore the meaning of basic moral concepts as they are understood in philosophy, science, and art. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 70. First-Year Seminar: Gateway to Philosophy, Politics, and Economics. 3 Credits.
This course uses insights and techniques from philosophy, politics, and economics to answer questions like: What makes a modern civilization possible? How can our societies continue to improve? What role do property rights, markets, and political action play in creating flourishing civilizations? How do we address environmental degradation, distributive justice, and economic exploitation? Our answers will draw from rational choice theory, utility theory, game theory, public choice economics, etc. Course is limited to PPE minors.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-POWER or FC-VALUES, FC-LAB.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 75. First-Year Seminar: Evil. 3 Credits.
What is evil? Who, if anyone, is responsible for it? How different are evil people from the rest of us? How should we respond to them? The course will explore the nature of evil through philosophy, nonfiction, fiction, and film.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 76. First-Year Seminar: Is Free Will an Illusion?. 3 Credits.
This course will examine whether our belief in freedom of action is compatible with the modern picture of ourselves. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 77. First-Year Seminar: Moral Weakness and Conscience. 3 Credits.
Is man’s reason a powerful thing: if one had knowledge or belief about something that should be done, would that be enough to position one to do it?

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 78. First-Year Seminar: Death as a Problem for Philosophy: Metaphysical and Ethical. 3 Credits.
This course explores both old and new questions regarding death. It will examine the presuppositions and cogency of the classical religious-philosophical conception of death.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 79. First-Year Seminar: Words That Bind: The Structure of Constitutions. 3 Credits.
In this seminar we will examine a number of constitutions and try to determine what makes a constitution better or worse, and when it makes sense to borrow constitutional principles from other countries. We will also try our hand at designing a constitution.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PH, CI.
Grading Status: Letter grade.

PHIL 80. First-Year Seminar: Short Stories and Contemporary Social Problems. 3 Credits.
We will read short stories and social science articles that address social problems such as child-rearing; social mobility; mass incarceration and race; the opiate crisis; tradition versus science. Students will explore the different ways in which literature, the humanities and the social sciences construct issues of social relevance, the opportunities and limits of these constructions, and what might be gained by using each to understand and respond to these issues.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 85. First-Year Seminar: Reason, Religion, and Reality in the Copernican Revolution. 3 Credits.
The arguments by which Galileo and his contemporaries defended the Copernican model of the solar system puzzle philosophers even today. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-KNOWING.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.
PHIL 89. First Year Seminar: Special Topics. 3 Credits.
Special Topics Course. Content will vary each semester.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

PHIL 101. Introduction to Philosophy: Central Problems, Great Minds, Big Ideas. 3 Credits.
An introduction to philosophy focusing on a few central problems, for example: free will, the basis of morality, the nature and limits of knowledge, and the existence of God. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 105. How to Reason and Argue: An Introduction to Critical Thinking. 3 Credits.
A course on how to identify, analyze, and evaluate arguments by other people and how to construct arguments. Topics include argument reconstruction, informal logic, fallacies, introductory formal logic, probabilistic reasoning.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-QUANT.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 110. Philosophical Texts that Changed the World: An Introduction to Philosophy through Great Works. 3 Credits.
An introduction to philosophy focusing on several great books from the history of Western philosophy. See course description at the department’s website for which books will be covered each semester. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 112. Making Sense of Ourselves. 3 Credits.
An examination of some of the most influential attempts to understand human beings, their lives, and their moral and political values. Authors may include Plato, Aristotle, and Nietzsche. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 134. Reason, Faith, and God: Philosophy of Western Religion. 3 Credits.
A philosophical inquiry into the problems of religious experience and belief, as expressed in philosophic, religious, and literary documents from traditional and contemporary sources. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.
Same as: RELI 126.

PHIL 140. Knowledge and Society. 3 Credits.
An examination of questions about knowledge, evidence, and rational belief as they arise in areas of social life such as democratic politics, the law, science, religion, and education. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 143. AI and the Future of Humanity: Philosophical Issues about Technology and Human Survival. 3 Credits.
This course investigates philosophical issues arising from advanced forms of technology, in particular artificial intelligence, virtual reality, and biological augmentation. We will consider questions about the dangers and benefits of AI, survival in non-biological ways, moral constraints on AI, the relationship between human and machine morality, and others. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 145. Language, Communication, and Human and Animal Minds. 3 Credits.
An examination of the differences between natural human languages and other communication systems. Includes a philosophical inquiry into how languages relate to the world and the mind. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-POWER.
Making Connections Gen Ed: PH.
Same as: LING 145.

PHIL 150. Theory, Evidence, and Understanding in Science. 3 Credits.
What is distinctive about the kind of knowledge called “science”? What is scientific explanation? How are scientific theories related to empirical evidence? Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.
PHIL 154. Philosophy of the Social Sciences. 3 Credits.
How do social sciences explain human actions? Are there social facts over and above facts about various individuals? Do values enter into social science?

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: PH.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 155. Truth and Proof: Introduction to Mathematical Logic. 3 Credits.
Introduces the theory of deductive reasoning, using a symbolic language to represent and evaluate patterns of reasoning. Covers sentential logic and first-order predicate logic. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Grading Status: Letter grade.

PHIL 157. Logic and Decision Theory. 3 Credits.
A broader discussion of practical reasoning, including inductive and deductive logic, which provides a good introduction to decision and game theory that is important for the social sciences, especially economics.

Rules & Requirements
Making Connections Gen Ed: QI.
Grading Status: Letter grade.

PHIL 160. Virtue, Value, and Happiness: An Introduction to Moral Theory. 3 Credits.
Exploration of different philosophical perspectives about right and wrong, personal character, justice, moral reasoning, and moral conflicts. Readings drawn from classic or contemporary sources. Critical discussion emphasized. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 163. Practical Ethics: Moral Reasoning and How We Live. 3 Credits.
Topics may include war, medical ethics, media ethics, sexual ethics, business ethics, racism, sexism, capital punishment, and the environment. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 165. Bioethics. 3 Credits.
An examination of ethical issues in the life sciences and technologies, medicine, public health, and/or human interaction with nonhuman animals or the living environment. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 170. Liberty, Rights, and Responsibilities: Introduction to Social Ethics and Political Thought. 3 Credits.
An examination of major issues in political philosophy, e.g., liberty, individual rights, social responsibility, legal authority, civil authority, civil disobedience. Readings include classical and contemporary writings. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 180. Philosophy of Humor. 3 Credits.
A course on philosophical issues related to laughter and humor. Historical and contemporary philosophical theories of humor; connections between traditional issues in aesthetics and humor; moral questions about humor, such as what is involved in a joke being racist/sexist/homophobic; and connections between jokes and various epistemological fallacies.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 185. Aesthetics and the Philosophy of Art. 3 Credits.
The nature of art and artworks and their aesthetic appraisal. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-AESTH.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 210. Wonder, Myth, and Reason: Introduction to Ancient Greek Science and Philosophy. 3 Credits.
The emergence of philosophy in Greece during the sixth century BCE and its development during the classical period. The major figures studied are the Pre-Socratic philosophers, Socrates, Plato, and Aristotle. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: PH, WB.
Grading Status: Letter grade.
PHIL 211. Perspectives on Gender, Race, and Marginality in Ancient Greek Philosophy, Science, and Medicine. 3 Credits.
This course studies through the examination of several infamous, ignored, or otherwise uncharted Ancient Greek texts the views about gender and race as presented in ancient Greek philosophy, medicine, and science. Our aims are to generate a new understanding of how the male elite used such views to further promote or justify (or perhaps challenge) the existing marginalization and silencing of women, foreigners, and less privileged men.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER, RESEARCH.
Making Connections Gen Ed: PH, NA, WB.
Grading Status: Letter grade.

PHIL 213. Asian Philosophy. 3 Credits.
An examination of some of the philosophical traditions of Asia. Possible topics include Advaita Vedanta, Nyaya-Vaisheshika, Madhyamaka Buddhism, neo-Confucianism, Mohism, and philosophical Taoism.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-PAST.
Making Connections Gen Ed: PH, BN, WB.
Grading Status: Letter grade.

PHIL 215. Medieval Philosophy. 3 Credits.
A survey of medieval philosophy from Augustine through Ockham. Topics: God and the world, faith and reason, knowledge and reality, the problem of universals. Additional main authors: Anselm, Aquinas, Duns Scotus.

Rules & Requirements
Making Connections Gen Ed: PH, NA, WB.

PHIL 220. 17th and 18th Century Western Philosophy. 3 Credits.
A study of some major philosophical works from this period, including works by authors such as Descartes, Spinoza, Locke, Berkeley, Leibniz, Hume, and/or Kant. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: PH, NA, WB.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 222. Existential Philosophy and the Meaning(lessness) of Life. 3 Credits.
A survey of European philosophers in the phenomenological and existentialist traditions. Philosophers studied may include Kierkegaard, Nietzsche, Husserl, Heidegger, Sartre, Camus. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-VALUES.
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

PHIL 228. American Philosophy. 3 Credits.
An exploration of the distinctively American approaches to philosophy from Jonathan Edwards to the present.

Rules & Requirements
Making Connections Gen Ed: NA.
Grading Status: Letter grade.

PHIL 229. 20th-Century Western Philosophy. 3 Credits.
An introductory survey of British and Continental philosophy in the 20th century.

Rules & Requirements
Making Connections Gen Ed: NA.
Grading Status: Letter grade.

PHIL 230. Mind, Matter, and Metaphysics: the Philosophy of Experience and Reality. 3 Credits.
Topics in metaphysics and/or epistemology, such as: Is your mind different from your brain? Is it possible for us to know anything about the external world? Do we have free will? What distinguishes reasonable from unreasonable belief? Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

PHIL 251. Inductive Logic and the Scientific Method. 3 Credits.
This course examines the role that inductive logic plays in scientific reasoning. Questions to be considered include: Are scientific theories distinguished from pseudoscience by being testable against our observations? Can we prove our best scientific theories to be true? Are we justified in making predictions about the future on the basis of past observations? The course examines these and other questions about confirming scientific theories by using the apparatus provided by the probability calculus.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-QUANT, RESEARCH.
Grading Status: Letter grade.

PHIL 261. Ethics in Action. 3 Credits.
Ethics Bowl provides a unique experiential opportunity for students to apply theory to practical global issues. Students will prepare cases to present locally and at Ethics Bowl competition. Permission of the instructor.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading Status: Letter grade.
PHIL 265. Ethics, Politics, and Technology. 3 Credits.
In the near future, our taxis will be driver-less, our wars will be fought by autonomous drones, and our towns will be kept safe by algorithms foreseeing crimes. This course explores the ethical implications of this new technological revolution and invites students to debate the challenges it engenders. We will debate how new technologies ought to be governed and what limits should be imposed on their implementation.

Rules & Requirements
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 266. Not All Fun and Games: Ethics of Sports. 3 Credits.
An analysis of the moral significance of sports, the nature of sport and competition, and issues such as racism, gender equity, violence, and performance-enhancing drugs. Honors version available.

Rules & Requirements
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 267. The Ethics of Peace, War, and Defense. 3 Credits.
An analysis of ethical issues that arise in peace, war, and defense, e.g., the legitimacy of states, just war theory, terrorism, weapons of mass destruction.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
Making Connections Gen Ed: PH, GL, NA.
Grading Status: Letter grade.
Same as: POLI 272, PWAD 272.

PHIL 273. Justice, Rights, and the Common Good: Philosophical Perspectives on Social and Economic Issues. 3 Credits.
This course will focus on justice and the common good, applying theoretical justifications to contemporary social and economic issues. Readings will include classical and contemporary literature on the nature of justice and rights.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 274. Race, Racism, and Social Justice: African-American Political Philosophy. 3 Credits.
Race, identity, discrimination, multiculturalism, affirmative action, and slave reparations in the writings of Walker, Delany, Douglass, Cooper, DuBois, King, and Malcolm X. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 275. Moral and Philosophical Issues of Gender in Society. 3 Credits.
A survey of feminist perspectives on topics such as the meaning of oppression, sexism and racism, sex roles and stereotypes, ideals of female beauty, women in the workplace, pornography, rape. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 276. Ideology, Capitalism, and Critique. 3 Credits.
This course studies how (oftentimes implicit) ideological commitments shape our culture and our social reality. We will explore the Marxist tradition and the Frankfurt School Critical Theory, as well as contemporary applications and critiques of ideology in thinkers such as Jaeggi, Fraser, Shelby, and Haslanger.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 280. Morality, Law, and Justice: Issues in Legal Philosophy. 3 Credits.
Explores issues in legal philosophy such as, What is law? Does it serve justice or undermine it? Can punishment be justified? When is a person responsible? Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 282. Human Rights: Philosophical Interrogations. 3 Credits.
The philosophy of human rights addresses questions about the existence, content, nature, universality, justification, and legal status of human rights. The strong claims made on behalf of human rights frequently provoke skeptical doubts and countering philosophical defenses. These will be addressed through classical and contemporary history of philosophy.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST or FC-POWER.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

PHIL 285. Moral and Philosophical Issues in Education. 3 Credits.
A critical examination of the moral and philosophical issues in education: What does it mean to be well educated? What is a liberal education? Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
Making Connections Gen Ed: PH, CI.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
PHIL 292. Field Work in Philosophy: Introducing Philosophy in Primary and Secondary Schools. 3 Credits.
Permission of the instructor. This course combines on-campus structured learning with substantial on-site field work incorporating philosophy into the primary and/or secondary school curriculum. Philosophy subjects and school partners will vary by semester.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
- Requisites: Prerequisite, two previous PHIL courses.
- Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
- Grading Status: Letter grade.

PHIL 294. Philosophy across the Lifespan. 3 Credits.
This is a high-impact service-learning course that aims to promote experiential learning in philosophy by combining traditional elements of classroom study with service in the community (HI-SERVICE). Students will have the unique opportunity to teach and learn philosophy alongside older adults in the Triangle area, thereby integrating the academic study of philosophy with community engagement.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES, HI-SERVICE.
- Requisites: Prerequisite, One prior Philosophy course required.
- Grading Status: Letter grade.

PHIL 330. Metaphysics. 3 Credits.
An examination of general theories of the nature of reality. What kinds of things exist? What are space, time, and causation? Are abstract entities (such as numbers) real?

Rules & Requirements
- IDEAs in Action Gen Ed: FC-KNOWING.
- Making Connections Gen Ed: PH.
- Requisites: Prerequisite, one previous PHIL course.
- Grading Status: Letter grade.

PHIL 335. Theory of Knowledge. 3 Credits.
What is knowledge and how does it relate to belief, justification, and truth? What makes beliefs reasonable or irrational? Can skepticism be defeated?

Rules & Requirements
- IDEAs in Action Gen Ed: FC-KNOWING.
- Making Connections Gen Ed: PH.
- Requisites: Prerequisite, one previous PHIL course.
- Grading Status: Letter grade.

PHIL 340. Philosophy of Mind. 3 Credits.
The mind-body problem, the nature of thinking, the puzzles of consciousness, and the qualitative character of felt experience.

PHIL 345. Philosophy of Language. 3 Credits.
Survey of major topics in contemporary philosophy of language. Topics may include truth and meaning, speech acts, reference, descriptions, names, and demonstratives.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-KNOWING.
- Making Connections Gen Ed: SS.
- Requisites: Prerequisite, one previous PHIL course.
- Grading Status: Letter grade.

PHIL 351. Philosophy of Physics. 3 Credits.
Topics may include the nature of space and time, the ontological status of fields and energy, or causation and locality in quantum physics. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-KNOWING or FC-NATSCI.
- Making Connections Gen Ed: PH.
- Requisites: Prerequisite, one previous PHIL course.
- Grading Status: Letter grade.

PHIL 352. Sex and Death, Life and Health, Species and Evolution: The Philosophy of Biology. 3 Credits.
Philosophical issues raised by biological theories, which may include the logical structure of evolutionary theory, fitness, taxonomy, the notion of a living thing, reductionism, evolutionary explanations, or teleology.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-KNOWING.
- Making Connections Gen Ed: PL.
- Requisites: Prerequisite, one previous PHIL course.
- Grading Status: Letter grade.

PHIL 353. Minds and Machines: Philosophy of Cognitive Science. 3 Credits.
Philosophical questions raised by linguistics, computer science, cognitive psychology, and neuroscience. Topics may include the innateness of language, artificial intelligence, and the neural correlates of consciousness. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: SS.
- Making Connections Gen Ed: SS.
- Requisites: Prerequisite, one previous PHIL course.
- Grading Status: Letter grade.

PHIL 354. Quantum Mechanics, Weiriness, and Reality. 3 Credits.
An interdisciplinary course on the weirdness of quantum mechanics and the problem of interpreting it. Nonlocality, the measurement problem, superpositions, Bohm’s theory, collapse theories, and the many-worlds interpretation.

Rules & Requirements
- Making Connections Gen Ed: PH.
- Requisites: Prerequisites, MATH 231 and any PHYS course numbered 100 or greater; permission of the instructor for students lacking the prerequisites.
- Grading Status: Letter grade.
- Same as: PHYS 354.
PHIL 355. Intermediate Mathematical Logic. 3 Credits.
Quantificational logic with identity, basic meta-theory, modal logic.

Rules & Requirements
Making Connections Gen Ed: QI.
Requisites: Prerequisite, PHIL 155.
Grading Status: Letter grade.

PHIL 357. Induction, Probability, and Confirmation. 3 Credits.
Current accounts of evidence and observation, the confirmation of scientific theories, the logic of inductive reasoning, and the metaphysics and epistemology of chance.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-QUANT.
Making Connections Gen Ed: QI.
Requisites: Prerequisite, One previous PHIL course.
Grading Status: Letter grade.

PHIL 360. Major Developments in Ethics: Historical and Philosophical Perspectives. 3 Credits.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH.
Requisites: Prerequisite, one previous PHIL course.
Grading Status: Letter grade.

PHIL 362. Contemporary Ethical Theory. 3 Credits.
Using 20th- and 21st-century texts, this course explores some general questions about morality in depth. For example, Is there moral truth? Are any moral rules absolute? Why be moral? Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH.
Requisites: Prerequisite, one previous PHIL course.
Grading Status: Letter grade.

PHIL 364. Ethics and Economics. 3 Credits.
Recommended preparation, at least one course in ethics (PHIL 160, 163, or 170) or one course in economics. Issues at the intersection of ethics and economics, including value; the relation between values and preferences; rationality; the relevance to economics of rights, justice, and the value of human life.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH.
Requisites: Prerequisite, one previous PHIL course.
Grading Status: Letter grade.

PHIL 368. Living Things, Wilderness, and Ecosystems: An Introduction to Environmental Ethics. 3 Credits.
The meaning of environmental values and their relation to other values; the ethical status of animals, species, wilderness, and ecosystems; the built environment; environmental justice; ecofeminism; obligations to future generations.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH, GL.
Grading Status: Letter grade.
Same as: ENEC 368.

PHIL 370. Authority, Freedom, and Rights: Advanced Political Philosophy. 3 Credits.
Advanced discussion of competing philosophical approaches to questions of justice, authority, freedom, rights, and the like, including libertarianism, liberalism, communitarianism, Marxism, and feminism.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH.
Requisites: Prerequisite, one previous PHIL course.
Grading Status: Letter grade.

PHIL 381. Philosophy and Film. 3 Credits.
An examination of how philosophical issues are explored in the medium of film. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES.
Making Connections Gen Ed: PH.
Requisites: Prerequisite, one previous PHIL course.
Grading Status: Letter grade.

PHIL 384. Gateway to Philosophy, Politics, and Economics. 3 Credits.
One course in economics strongly recommended. This interdisciplinary gateway course provides an introduction to subjects and quantitative techniques used to analyze problems in philosophy, political science, and economics. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.
Same as: ECON 384, POLI 384.

PHIL 390. Seminar in Selected Topics. 3 Credits.
Intensive exploration and discussion of selected topics in philosophy. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.
Same as: PLCY 364.
PHIL 392. Ethics Research Seminar for Undergraduates. 3 Credits.
This is a capstone course in ethics designed for Parr Center Ethics Scholars completing the Mentored Research capstone project. The seminar will provide a collaborative learning space that will facilitate each student’s independent research and writing. This course will begin with survey of major themes in practical ethics before transitioning to a thematically focused study of topics based on the research interests of the students in the course.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-VALUES, RESEARCH.
Grading Status: Letter grade.

PHIL 395. Undergraduate Research Seminar in Selected Topics. 3 Credits.
This is a philosophical research course for anyone with some background in philosophy and an interest in the topic. Special emphasis is placed on giving students the opportunity to immerse themselves in a research project that leads to an original final research paper.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING, RESEARCH.
Grading Status: Letter grade.

PHIL 396. Directed Readings. 1-3 Credits.
Permission of the instructor. See the director of undergraduate studies of the department.

Rules & Requirements
Requisites: Prerequisite, one previous PHIL course.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 3 total completions.
Grading Status: Letter grade.

PHIL 397. Philosophy Research Seminar for Undergraduates. 3 Credits.
This course is designed to approximate the experience of a graduate seminar in philosophy. The course topic is different each year; class meetings are discussion-based and focused on developing professional writing and research skills. Recommended for all majors and minors.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING, RESEARCH.
Making Connections Gen Ed: CI.
Requisites: Prerequisite, two previous PHIL courses.
Repeat Rules: May be repeated for credit; 9 total credits. 3 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses
PHIL 411. Aristotle. 3 Credits.
An examination of some representative works of Aristotle, with reference to common emphases and basic problems, together with an analysis of their philosophic content. The aim to provide students with a more thorough understanding of the key texts, doctrines, notions, and ideas in Aristotle's philosophy as a whole and with the capacities and confidence to conduct a short, independent, ancient philosophical research project on Aristotle's philosophy.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST, RESEARCH.
Grading Status: Letter grade.

PHIL 412. Plato. 3 Credits.
An examination of some representative works in the context of contemporary scholarship.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: WB.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 415. Medieval Philosophy. 3 Credits.
An intensive study of some medieval philosophical author (e.g., Aquinas, Scotus, or Ockham) or topic (e.g., arguments for the existence of God, universals, knowledge of individuals).

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 421. Rationalism. 3 Credits.
An in-depth study of such rationalist philosophers as Descartes, Spinoza, and Leibniz.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 422. Empiricism. 3 Credits.
An in-depth study of such empiricist philosophers as Locke, Berkeley, and Hume.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
PHIL 423. Kant's Theoretical Philosophy. 3 Credits.
An intensive introduction to Kant’s accounts of space, time, concepts, perception, substance, causation, and the thinking self through a careful study of his masterwork, The Critique of Pure Reason.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 424. Kant's Practical Philosophy. 3 Credits.
This course studies closely Kant's practical philosophy, dedicated to understanding and assessing the answers that Kant gives to classic questions of practical philosophy, such as: What does morality demand from us? What is the morally right course of action? Is morality objective? Do moral norms depend on God?

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 426. Nietzsche. 3 Credits.
This course examines the philosophy of Friedrich Nietzsche, covering all three conventionally recognized periods of his philosophy in chronological sequence, tracing the historical and philosophical development of his views from the early Birth of Tragedy to the late Twilight of Idols. The main question we will face when studying all these different writings is how Nietzsche tries to solve the problem of nihilism. Completion of one previous PHIL course preferred.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Making Connections Gen Ed: PH.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 427. Hegel. 3 Credits.
In-depth study of Hegel's systematic philosophy emphasizing its roots in Kant’s critical philosophy. Primary focus on Phenomenology of Spirit, supplemented by selections from the Encyclopedia and Philosophy of Right.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 428. History of American Philosophy. 3 Credits.
An in-depth study of American contributions to philosophy, including for example the transcendentalists, the pragmatists, Quine, Rorty, and others.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 432. The Beginnings of Analytic Philosophy. 3 Credits.
Frege, Russell, Moore, and Wittgenstein among others are considered.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 433. Current Issues in Analytic Philosophy. 3 Credits.
Two courses in philosophy other than PHIL 155 strongly recommended. Recent work in epistemology and metaphysics.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Letter grade.

PHIL 440. Philosophy of Mind. 3 Credits.
At least two courses in philosophy other than PHIL 155, including PHIL 340, strongly recommended. An examination of dualism, behaviorism, the identity theory, and forms of functionalism with special focus on the problems of mental aboutness and the problems of consciousness.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 445. Advanced Philosophy of Language. 3 Credits.
At least two courses in philosophy other than PHIL 155, including PHIL 345, strongly recommended. A study of important contemporary contributions in philosophy of language. Topics include meaning, reference, and truth.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 450. Philosophy of Natural Sciences. 3 Credits.
An in-depth survey of general issues in contemporary philosophy of natural science intended for advanced philosophy students. Topics include confirmation, explanation, theory-choice, realism, reduction.

Rules & Requirements
Making Connections Gen Ed: PH.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

Same as: LING 410, LING 445.
PHIL 451. Philosophy of Physics. 3 Credits.
Topics may include the nature of space and time, the ontological status of fields and energy, or causation and locality in quantum physics.

Rules & Requirements
Making Connections Gen Ed: PL.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 452. Philosophy of Biology. 3 Credits.
The logical structure of evolutionary theory, fitness, taxonomy, the notion of a living thing, reductionism, evolutionary explanations, teleology.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 453. Philosophy of Psychology. 3 Credits.
Topics may include reasoning, the relationship between language and thought, concepts, moral cognition, and emotions.

Rules & Requirements
Making Connections Gen Ed: SS.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 454. Philosophy, History, and the Social Sciences. 3 Credits.
The nature of historical explanation, structural and functional explanation, the weighing of historical testimony, the concept of meaning, normative judgments and predictions in the social sciences.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 455. Symbolic Logic. 3 Credits.
Introduction for graduates and advanced undergraduates.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Requisites: Prerequisite, PHIL 155; permission of the instructor for students lacking the prerequisite.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 456. Advanced Symbolic Logic. 3 Credits.
Presupposes propositional and quantificational logic as a basis of further deductive development with special attention to selected topics: alternative systems, modal and deontic logic, inductive logic, the grammar of formalized languages, paradoxes, and foundations of mathematics.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QI.
Requisites: Prerequisite, PHIL 455.
Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading Status: Letter grade.

PHIL 457. Set Theory and Logic. 3 Credits.
Natural and real numbers. Infinite cardinal and ordinal numbers. Alternative axiom systems and their consistency problems.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 458. History of Moral Philosophy. 3 Credits.
Examination of classic texts of Plato, Aristotle, Aquinas, Hobbes, Butler, Hume, Kant, and Mill. Selections may vary from year to year.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH.
Requisites: Prerequisite, Two courses in philosophy other than PHIL 155, including PHIL 360, strongly recommended.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 459. Philosophy of Mathematics. 3 Credits.
Philosophical problems concerning logic and the foundation of mathematics.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 460. History of Moral Philosophy. 3 Credits.
Advanced discussion of moral issues such as fact and value, reason and morality, the nature of morality.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH.
Requisites: Prerequisite, two courses in philosophy, including one in value theory.
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Letter grade.
PHIL 463. Contemporary Moral and Social Problems. 3 Credits.
Two courses in philosophy other than PHIL 155 strongly recommended. A detailed examination of one or more of the following contemporary issues: environmental ethics, animal rights, abortion, euthanasia, pornography, racism, sexism, public versus private morality.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 465. Justice in Health Care. 3 Credits.
One course in philosophy strongly recommended. Medical students welcome. The course will focus on the question of how scarce health care resources ought to be distributed in order to meet the demands of justice.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 467. Philosophy of Law. 3 Credits.
One additional course in philosophy strongly recommended. The course examines attitudes toward risk and how they affect our preferences for different public policies in the areas of environmental protection, technology regulation, and workplace and product safety.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 468. Risk and Society. 3 Credits.
One additional course in philosophy strongly recommended. The course examines attitudes toward risk and how they affect our preferences for different public policies in the areas of environmental protection, technology regulation, and workplace and product safety.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 470. Political Philosophy from Hobbes to Rousseau. 3 Credits.
Two courses in philosophy other than PHIL 155, including PHIL 170 or 370, strongly recommended. Explores the foundations of justice and authority in the idea of contract or covenant, the nature of law, rights, liberty, and democracy in the work of Hobbes, Locke, Hume, Rousseau.

Rules & Requirements
Making Connections Gen Ed: PH.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 471. Hegel, Marx, and the Philosophical Critique of Society. 3 Credits.
An examination of central issues in social and political philosophy as they figure in the work of Hegel, Marx, Nietzsche, and others.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 473. American Political Philosophy. 3 Credits.
One course in philosophy other than PHIL 155 strongly recommended. The issue of unity and diversity in America is analyzed through the writings of Jefferson, the Federalists and Anti-Federalists, Calhoun, MacKinnon, DuBois, and Rawls.

Rules & Requirements
Making Connections Gen Ed: US.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 474. Foundations of Modern Political Philosophy. 3 Credits.
This course traces the emergence and development of central themes of modern political philosophy from the 13th through the 17th century.

Rules & Requirements
Making Connections Gen Ed: PH.
Requisites: Prerequisite, PHIL 170.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 475. Philosophical Issues in Gender, Race, and Class. 3 Credits.
Examines in greater depth and complexity one or more of the issues addressed in PHIL 275, investigating issues of gender, race, and class within the dominant theories of philosophy.

Rules & Requirements
Making Connections Gen Ed: US.
Requisites: Prerequisite, PHIL 275 or WGST 101.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 476. Recent Developments in Political Philosophy. 3 Credits.
Two courses in philosophy other than PHIL 155, including PHIL 370, strongly recommended. Investigation of major contemporary contributors (Rawls, Nozick, Dworkin, Cohen, Waldron, Arrow) to philosophical debate concerning justice, equality, liberty, democracy, public reason, or rights versus community.

Rules & Requirements
Making Connections Gen Ed: PH.
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Letter grade.

PHIL 480. Philosophy of Law. 3 Credits.
An exploration of whether and under what conditions the state has the right to control crime by punishment of past crimes and preventive detention to prevent future crimes.

Rules & Requirements
Making Connections Gen Ed: PH.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 482. Philosophy and Literature. 3 Credits.
Philosophical readings of literary texts, including novels, plays, and poems.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 485. Philosophy and Philosophy. 3 Credits.
An examination of central issues in social and political philosophy as they figure in the work of Hegel, Marx, Nietzsche, and others.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 486. Philosophy and Philosophy. 3 Credits.
An examination of central issues in social and political philosophy as they figure in the work of Hegel, Marx, Nietzsche, and others.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 487. Philosophy and Philosophy. 3 Credits.
An examination of central issues in social and political philosophy as they figure in the work of Hegel, Marx, Nietzsche, and others.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 488. Philosophy and Philosophy. 3 Credits.
An examination of central issues in social and political philosophy as they figure in the work of Hegel, Marx, Nietzsche, and others.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 489. Philosophy and Philosophy. 3 Credits.
An examination of central issues in social and political philosophy as they figure in the work of Hegel, Marx, Nietzsche, and others.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 490. Philosophy and Philosophy. 3 Credits.
An examination of central issues in social and political philosophy as they figure in the work of Hegel, Marx, Nietzsche, and others.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 491. Philosophy and Philosophy. 3 Credits.
An examination of central issues in social and political philosophy as they figure in the work of Hegel, Marx, Nietzsche, and others.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.
PHIL 485. Philosophy of Art. 3 Credits.
Competing theories of art and art criticism. The relationship between art and emotional expression, the formal character of art, and standards of taste.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 491. Health Care, Science, and Philosophy. 3 Credits.
Interdisciplinary course to develop critical thinking capacities through philosophical study of the nature of scientific presuppositions and concepts, including events, causality, and determinism, with specific application to health care issues.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 494. Existentialism and Phenomenology. 3 Credits.
A study of one or two major systematic works by Sartre, Heidegger, or Merleau-Ponty.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

PHIL 496. Advanced Directed Studies. 1-3 Credits.
Permission of the director of undergraduate studies. Advanced independent work in philosophy.

Rules & Requirements
Repeat Rules: May be repeated for credit. 9 total credits. 3 total completions.
Grading Status: Letter grade.

PHIL 562. Ethics, Responsibility, and Justice. 1 Credits.
Ethics explores obligations to act in the interest of others as well as ourselves. Justice explores the ways people should organize and govern themselves. Course addresses such questions as, What principles govern our relationships with other people? What do we owe others and ourselves? How should we treat other people?

Rules & Requirements
Repeat Rules: May be repeated for credit. 2 total credits. 2 total completions.
Grading Status: Pass/Fail.

PHIL 692H. Courses for Honors. 3 Credits.
Permission of the director of undergraduate studies. See the director of undergraduate studies of the department.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

PHIL 698. Philosophy, Politics, and Economics: Capstone Course. 3 Credits.
Permission of the department. This capstone course advances PHIL 384, focusing on such theoretical and philosophical issues as the analysis of rights or distributive justice and the institutional implications of moral forms.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Requisites: Prerequisite, PHIL 384.
Grading Status: Letter grade.
Same as: ECON 698, POLI 698.

Philosophy Major, B.A.
The principal goal of the study of philosophy is to enable students to think more clearly, deeply, and appreciatively about themselves and their world. Study of philosophy enhances analytical, critical, and interpretive capacities that are applicable to any subject matter in almost any context. It provides many opportunities for expressing oneself, for reflecting on questions that human beings have pondered for millennia, for exchanging reasoned beliefs and engaging in focused debate, and for learning how to come to terms with problems for which there are no easy answers. A good philosophical education also helps to prepare students for responsible and intelligent participation in political and community affairs.

Student Learning Outcomes
Upon completion of the philosophy program, students should be able to:

• Deploy philosophical concepts and terminology correctly, in either a historical or contemporary setting
• Represent clearly and accurately the views or argument of a particular philosopher, in either a historical or contemporary setting
• Identify the premises and conclusion(s) of a philosophical argument and assess both its validity and soundness
• Apply a philosophical theory or argument to a new topic, and to draw and defend reasonable conclusions about that topic

• Develop an argument for a particular solution to a philosophical problem in either a historical or contemporary setting

Requirements
In addition to the program requirements, students must

• earn a minimum final cumulative GPA of 2.000
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Philosophy (PHIL) course descriptions (p. 768).

PHIL 155 (http://catalog.unc.edu/search/?search=PHIL+155) is recommended for all students who major or minor in philosophy.

Please note that First Year Seminars (http://fys.unc.edu/) (all numbered below 100) and courses with a second digit of nine (PHIL 390 (http://catalog.unc.edu/search/?search=PHIL+390), PHIL 691H (http://catalog.unc.edu/search/?search=PHIL+691H), PHIL 692H (http://catalog.unc.edu/search/?search=PHIL+692H), etc.) automatically count toward the major core as electives. However, with approval of the department’s director of undergraduate studies, PHIL 390 (http://catalog.unc.edu/search/?search=PHIL+390) may count toward one of the four distribution areas.

Within the framework of the major, students may elect to take philosophy courses geared toward prelaw. Inquiries about prelaw advising may be sent to the department’s director of undergraduate studies. Although we are not in a position to offer law career (including career prep) or LSAT advice, the director of undergraduate studies is available to provide academic advising and discuss prelaw course information. Further details may be found on the Department of Philosophy’s Web site (https://philosophy.unc.edu/undergraduate/advising/pre-law/).

Special opportunities in philosophy include, but are not limited to, the Philosophy Outreach Program (https://philosophy.unc.edu/outreach/), the Lesher Opportunity Fund (https://philosophy.unc.edu/undergraduate/lesher-opportunity-fund/), Take a Philosopher to Lunch (https://philosophy.unc.edu/undergraduate/take-a-philosopher-to-lunch/), Intercollegiate Ethics Bowl (https://parrcenter.unc.edu/ieb/), and an active Speaker Series (https://philosophy.unc.edu/events/category/department-talk/). See the Department of Philosophy’s website (https://philosophy.unc.edu/) for details.

Philosophy, Politics, and Economics (PPE) Minor

Social and political institutions have a profound impact on our lives. Understanding how they work, appreciating their interactions, seeing their impact, and being able to assess their value are all crucial to understanding the world in which we live. With this in mind, the philosophy, politics, and economics (PPE) minor trains students to look beyond the borders of academic disciplines by offering them an integrated study of these fields.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

The PPE minor requires five courses:

**Total Hours** 15

**Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.**

FYLaunch class sections may be available. A FYLaunch section fulfills the same requirements as a standard section of that course, but also fulfills the FYSEMINAR/FYLAUNCH First-Year Foundations requirement. Students can search for FYLaunch sections in ConnectCarolina using the FY-LAUNCH attribute.

Please note that, although it is not listed above in the political science course section, HNRS 354 (Elements of Politics) may count toward the politics core discipline of the PPE minor. A Tar Heel Tracker adjustment is required.

Detailed information is available on the program’s website (http://ppe.unc.edu).

The Philosophy, Politics, and Economics (PPE) program offers extensive extracurricular programming, including an active speakers series, intensive weekend seminars, and semester-long reading groups that meet once a week for eight weeks over dinner. See the PPE program website (https://ppe.unc.edu/) for details.

Department of Physics and Astronomy

Introduction

Everything around you is influenced or governed by physics — the study of matter, energy, and their interactions with one another. Physics seeks to understand the way the universe “works,” from the smallest neutrinos to the structure of the cosmos. It is the foundation of all other natural sciences, including chemistry, biology, oceanography, geography, and radiography.

The Department of Physics and Astronomy offers eight degree tracks:

- **B.A. Physics**
  - Physics
  - Astronomy
  - Computational Physics
  - Energy
  - Medical and Biological Physics
  - Quantitative Finance
- **B.S. Physics**
  - Physics
  - Astrophysics

Consider a B.A. degree if you're interested in physics but want to apply your training toward a wider variety of career paths after graduation. Students who completed this program have launched careers as lab researchers, application engineers, data scientists, and financial analysts, among other occupations. Some have also pursued an advanced degree in physics, medical physics, business, law, or computer science.

Consider a B.S. degree if you intend to pursue graduate study in physics, astronomy, or a related field, or a career practicing physics.

Advising

All majors and minors have a primary academic advisor from the Academic Advising Program (https://advising.unc.edu/). Students are encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department’s director of undergraduate studies and faculty advisors work with current and prospective majors by appointment (see contact information above). Faculty advisors are assigned to all physics majors and minors, and they assist students in a variety of physics related areas, including physics course planning, undergraduate research opportunities, the honors program, internships, career opportunities, and graduate school and fellowship applications. Physics majors are required to meet with their departmental advisor by appointment prior to registering for any semester beyond the fourth term in residence. Further information may be obtained from the department's website under the Undergraduate Program (http://physics.unc.edu/undergraduate-program/).

Graduate School and Career Opportunities

Employers know that physicists understand how to think and reason effectively about the world, which equips them to solve unconventional challenging problems. Over 90 percent of physics majors do something other than teach and conduct research at a university. Physics will prepare you to pursue anything from medicine to energy to business. The American Institute of Physics’ Career Resources (http://aip.org/career-resources/) site provides useful information about the careers of physics bachelor’s degree recipients, including who is hiring them in North Carolina.

Those who are considering going on to graduate school in physics, astronomy, and other physical science and engineering fields, should contact one of the physics advisors. Those who plan careers in health sciences, including dentistry, medicine, and veterinary medicine, should consult advisors in the Health Professions Advising Office in Hanes Hall. Those interested in science teaching can take the educational coursework required for a high school science teaching license through the UNC Baccalaureate Education in Science and Teaching (UNC–BEST (https://soe.unc.edu/academics/uncbest/)) program.

ASTR—Astronomy
Undergraduate-level Courses

ASTR 61. First-Year Seminar: The Copernican Revolution. 3 Credits.
This seminar explores the 2,000-year effort to understand the motion of the sun, moon, stars, and five visible planets. Earth-centered cosmos gives way to the conclusion that earth is just another body in space. Cultural changes accompany this revolution in thinking.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL, NA, WB.
Grading Status: Letter grade.
Same as: PHYS 61.

ASTR 63. First-Year Seminar: Catastrophe and Chaos: Unpredictable Physics. 3 Credits.
Physics is often seen as the most precise and deterministic of sciences. Determinism can break down, however. This seminar explores the rich and diverse areas of modern physics in which "unpredictability" is the norm. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL, QI.
Grading Status: Letter grade.
Same as: PHYS 63.

ASTR 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course content will vary each semester.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

ASTR 100L. Astronomy with Skynet: Our Place in Space. 1 Credits.
Students will use UNC's global network of "Skynet" telescopes to observe planets, moons, and other solar-system objects, star-forming regions and clusters, supernova remnants, and galaxies. Through these observations and others, we will reach a better understanding of our place in the universe, and resolve common misconceptions. Topics include: seasons, the Galilean revolution, the cosmic distance ladder, the Great Debate of 1920, dark matter in our galaxy, Hubble's law, dark energy. Previously offered as ASTR 101L.

Rules & Requirements
IDEAs in Action Gen Ed: FC-LAB.
Requisites: Pre- or corequisite, ASTR 100, 101, 102, or 103.
Grading Status: Letter grade.

ASTR 100. Understanding the Universe. 3 Credits.
Learn how astronomers study and understand the cosmos. Topics include motions of the Sun, Moon, and planets; planetary surfaces, interiors, and atmospheres; telescopes and spectroscopy; prospects for detecting and visiting life elsewhere; how stars are born, age, and die; black holes, dark matter, and gravitational radiation; the Milky Way Galaxy and galaxies beyond; the birth and fate of the expanding Universe. Optional laboratory: ASTR 100L. Optional field experience: ASTR 111.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.
Making Connections Gen Ed: PX.
Grading Status: Letter grade.

ASTR 101. Introduction to Astronomy: The Solar System. 3 Credits.
Celestial motions of the earth, sun, moon, and planets; nature of light; ground and space-based telescopes; comparative planetology; the earth and the moon; terrestrial and gas planets and their moons; dwarf planets, asteroids, and comets; planetary system formation; extrasolar planets; the search for extraterrestrial intelligence (SETI). Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.
Making Connections Gen Ed: PX.
Grading Status: Letter grade.

ASTR 102. Introduction to Astronomy: Stars, Galaxies & Cosmology. 3 Credits.
The sun, stellar observables, star birth, evolution, and death, novae and supernovae, white dwarfs, neutron stars, black holes, the Milky Way galaxy, normal galaxies, active galaxies and quasars, dark matter, dark energy, cosmology, early universe. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.
Making Connections Gen Ed: PL.
Requisites: Prerequisite, ASTR 101; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
ASTR 103. Alien Life in the Universe. 3 Credits.
Humans have always wondered “are we alone?” From discovering life in extreme conditions on Earth, to finding thousands of exoplanets, we now know far more about this question than our ancestors. This class explores our recent understanding of planets, solar systems, where life might be, and how to find it. Optional laboratory: ASTR 100L. Optional field experience: ASTR 111.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT.
Making Connections Gen Ed: PX.
Grading Status: Letter grade.

ASTR 105. Time, Tides, and the Measurement of the Cosmos. 3 Credits.
This course is focused on medieval foundations of modern cosmology and is designed to take advantage of the opportunities available for enriched learning in England. The course is problem-based, e.g. How did people reckon calendars, time, and tides, both for navigation and daily life, before clocks and the printed word? Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: PL, WB.
Grading Status: Letter grade.

ASTR 110. Astrophotography of the Multi-Wavelength Universe. 3 Credits.
Students will use UNC’s global network of “Skynet” telescopes to make color images of planets, star clusters, star-forming regions, and galaxies. They will also use Skynet’s radio telescopes to explore the invisible universe, including pulsars, supernova remnants, and supermassive black holes. Astrophotography will be our entry point to deeper explorations of the planets of our solar system; star birth, evolution, and death; galaxy formation and evolution; and black holes and Einstein’s theory of relativity. Permission of the instructor for students lacking the pre- or corequisites.

Rules & Requirements
IDEAs in Action Gen Ed: FC-CREATE or FC-NATSCI.
Making Connections Gen Ed: PL.
Requisites: Prerequisite, ASTR 100, 101, 102, 103, or 111; Pre- or corequisite, PHYS 117 or 119.
Grading Status: Letter grade.

ASTR 111. Educational Research in Radio Astronomy. 1 Credits.
One-week field experience at Green Bank Observatory in West Virginia. Students observe the invisible universe using manually controlled and fully automated radio telescopes, and carry out a variety of observing projects. These target the sun, moon, Jupiter, star-forming regions, supernova remnants, pulsars, the Milky Way and Andromeda galaxies, and more distant, active galaxies and quasars. Students receive training in radio astronomy, attend research and specialty talks, and tour the observatory. Formerly offered as ASTR 111L. Permission of the instructor.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Grading Status: Letter grade.

ASTR 202. Introduction to Astrophysics. 3 Credits.
This introductory astrophysics course will focus on the use of classical mechanics, gravitational physics, and the physics of radiation to interpret and explain astronomical observations. Course covers stellar structure, stellar formation and evolution, galaxies, and cosmology with an emphasis on quantitative problem solving.

Rules & Requirements
Requisites: Pre- or corequisite, PHYS 119.
Grading Status: Letter grade.

ASTR 205. The Medieval Foundations of Modern Cosmology. 3 Credits.
This course will examine science as it emerged and developed in the West starting in the 13th century. We will use example problems from cosmology that are relevant today.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-PAST.
Making Connections Gen Ed: PL, WB.
Grading Status: Letter grade.

ASTR 301. Stars, Galaxies, and Cosmology. 1 Credits.
Stellar observables; galaxies; novae; cosmology; the early universe. This one-credit course can be taken with ASTR 102 for students who wish to major or minor in astrophysics.

Rules & Requirements
Requisites: Pre- or corequisites, ASTR 102, and PHYS 117 or 119; Permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

ASTR 390. Research and Special Topics for Juniors and Seniors. 1-12 Credits.
Permission of the instructor. To be taken by honors candidates and other qualified juniors and seniors.

Rules & Requirements
Making Connections Gen Ed: QI.
Repeat Rules: May be repeated for credit. 12 total credits. 4 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

ASTR 501. Stellar Astrophysics. 3 Credits.
An introduction to the study of stellar structure and evolution. Topics covered include observational techniques, stellar structure and energy transport, nuclear energy sources, evolution off the main-sequence, and supernovae.

Rules & Requirements
Requisites: Prerequisites, ASTR 202 or ASTR 301, MATH 383, and PHYS 331; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.
ASTR 502. Modern Research in Astrophysics. 3 Credits.
A capstone research experience introducing modern data-analysis techniques for large astronomical surveys. Students undertake guided research projects with a different theme each semester. The course focuses on real astrophysical discovery of new objects, events and phenomena.

Rules & Requirements

IDEAs in Action Gen Ed: FC-CREATE, RESEARCH.
Requisites: Prerequisite, ASTR 202.
Grading Status: Letter grade.

ASTR 503. Structure and Evolution of Galaxies. 3 Credits.
Overview of the structure and evolution of galaxies, with emphasis on learning and applying modern research methods such as scientific literature review and computational astrostatistics. Includes galaxy morphology and dynamics, star formation, active galactic nuclei, galaxy interactions, large-scale clustering, environment-dependent physical processes, and the evolution of the galaxy population over cosmic time.

Rules & Requirements

Requisites: Prerequisites, ASTR 202 or ASTR 301, and PHYS 383, and PHYS 331.
Grading Status: Letter grade.

ASTR 504. Cosmology. 3 Credits.
An introduction to modern cosmology, the study of the contents and evolution of the universe. Covers expanding spacetime, the thermal history of the early universe, including nucleosynthesis and the cosmic microwave background, the inflationary model for the origins of cosmic structure, and the growth of that structure through time.

Rules & Requirements

Requisites: Prerequisites, ASTR 202 or ASTR 301, and PHYS 401; pre- or corequisite, PHYS 421.
Grading Status: Letter grade.

ASTR 505. Physics of Interstellar Gas. 3 Credits.
Surveys the physical processes governing the interstellar medium (ISM), which takes up the "refuse" of old stars while providing fuel for young stars forming. Covers the processes regulating the galactic gas budget and the corresponding observational diagnostics. Topics: radiative transfer, line formation mechanisms, continuum radiation, gas dynamics, star formation.

Rules & Requirements

Requisites: Prerequisites, ASTR 202 or ASTR 301, and PHYS 331.
Grading Status: Letter grade.

ASTR 511. Atomic and Radiative Processes in Astrophysics. 3 Credits.
This course covers key topics in electromagnetism, radiative transport, and thermal and statistical mechanics in the context of astrophysics, such as stellar and planetary interiors and atmospheres, stellar evolution (including star formation and death), stellar populations, and the early universe.

Rules & Requirements

Requisites: Prerequisite, ASTR 202; Pre- or corequisite, PHYS 412.
Grading Status: Letter grade.

ASTR 512. Astrophysical Dynamics. 3 Credits.
This course provides a broad overview of astrophysical principles underlying stellar and planetary dynamics; N-body dynamics of star clusters, galaxies, and dark matter; fluid dynamics of astrophysical plasmas; and dynamics of the Universe and spacetime.

Rules & Requirements

Requisites: Prerequisites, ASTR 202 and PHYS 201 or PHYS 401.
Grading Status: Letter grade.

ASTR 519. Observational Astronomy. 4 Credits.
An introduction to modern techniques in observational astronomy with an emphasis on optical and near-infrared wavelengths. Topics covered include practical python for astronomy, telescopes and CCDs, spectroscopy, astrostatistics, and mining large astronomical surveys. Three lecture and three laboratory hours a week.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisite, ASTR 102 or 202; Pre- or corequisite, PHYS 331; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

PHYS—Physics

Undergraduate-level Courses

PHYS 50. First-Year Seminar: Time and the Medieval Cosmos. 3 Credits.
This course introduces first-year students to the basic motions of the solar system as viewed from the Earth along with the mechanical and mathematical models used to reproduce them, while exploring the history of medieval and early modern education, theology, and natural philosophy.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: HS.
Grading Status: Letter grade.
Same as: HIST 50.

PHYS 51. First-Year Seminar: The Interplay of Music and Physics. 3 Credits.
How sound is produced in instruments, and how those sounds are used in music making. Wave motion, resonance, sound perception, scales, harmony, and music theory. Collaborative laboratory exercises to investigate the acoustics of string, woodwind, and brass instruments as well as study of the physics of keyboard and percussion instruments. Students will make instruments from found objects and perform compositions on them, and can pursue their areas of special interest in a research paper.

Rules & Requirements

IDEAs in Action Gen Ed: FY-SEMINAR, FC-AESTH or FC-NATSCI.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.
Same as: MUSC 51.
PHYS 52. First-Year Seminar: Making the Right Connections. 3 Credits.
This seminar investigates the multiple roles that computers and microprocessors perform in scientific investigations and the impact of technological advances on society. Students perform experiments, take field trips to research laboratories, and gain hands-on experience with computer-based instrumentation.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: PX.
- Grading Status: Letter grade.

PHYS 53. First-Year Seminar: Handcrafting in the Nanoworld: Building Models and Manipulating Molecules. 3 Credits.
This seminar provides a general introduction to nanoscience and nanotechnology, focusing on recent advances in molecular electronics, nanomaterials, and biomedical research. Course activities include group model-building projects, presentations, and discussions of reading material.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: PL.
- Grading Status: Letter grade.

PHYS 54. First-Year Seminar: Physics of Movies. 3 Credits.
Students watch and analyze short movie clips that demonstrate interesting, unusual, or impossible physics. Group analysis emphasized.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: PL.
- Grading Status: Letter grade.

PHYS 55. First-Year Seminar: Introduction to Mechatronics. 4 Credits.
Introduction to important skills and knowledge required in the STEM fields of today and tomorrow, from academic, employment, and social perspectives. All students, regardless of their educational goals, will achieve critical introductory skills in numerical reasoning and analysis, engineering design and prototyping, computer programming and electronics, and will demonstrate proficiency and knowledge about topics that increasingly impact society, including Artificial Intelligence, Machine Learning, and Quantum Computing.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR, FC-NATSCI or FC-QUANT, FC-LAB.
- Making Connections Gen Ed: PX, QI.
- Grading Status: Letter grade.

PHYS 61. First-Year Seminar: The Copernican Revolution. 3 Credits.
This seminar explores the 2,000-year effort to understand the motion of the sun, moon, stars, and five visible planets. Earth-centered cosmos gives way to the conclusion that earth is just another body in space. Cultural changes accompany this revolution in thinking.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: PX, QI, WB.
- Grading Status: Letter grade.

PHYS 63. First-Year Seminar: Catastrophe and Chaos: Unpredictable Physics. 3 Credits.
Physics is often seen as the most precise and deterministic of sciences. Determinism can break down, however. This seminar explores the rich and diverse areas of modern physics in which "unpredictability" is the norm. Honors version available.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: PL, QI.
- Grading Status: Letter grade.

PHYS 89. First-Year Seminar: Special Topics. 3 Credits.
Special Topics course. Content will vary each semester.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: PX.
- Grading Status: Letter grade.

PHYS 100. How Things Work. 4 Credits.
Demystifying the working of objects such as CD players, microwave ovens, lasers, computers, roller coasters, rockets, light bulbs, automobiles, clocks, copy machines, X-ray and CAT-scan machines, and nuclear reactors.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-CREATE or FC-NATSCI, FC-LAB.
- Making Connections Gen Ed: PX.
- Grading Status: Letter grade.

PHYS 101. Basic Concepts of Physics. 4 Credits.
This is an introductory physics course for non-science majors. This course focuses on basic physics concepts and connections to everyday life. Course topics include Newtonian mechanics, fluids, heat, vibrations, electricity and magnetism, light and sound, quantum phenomenon, nuclear radiation, relativity, and cosmology. Connections to everyday life and society include energy conservation, global warming, nuclear energy, the origin of the universe, pseudoscience, and the search for extraterrestrial life.

Rules & Requirements
- IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT, FC-LAB.
- Making Connections Gen Ed: PX.
- Grading Status: Letter grade.
PHYS 102. General Physics Lecture I. 3 Credits.
Lecture portion of 104, awarded as AP credit.

Rules & Requirements
Making Connections Gen Ed: PX, QI.
Grading Status: Letter grade.

PHYS 103. General Physics Lecture II. 3 Credits.
Lecture portion of 105, awarded as AP credit.

Rules & Requirements
Making Connections Gen Ed: PX, QI.
Grading Status: Letter grade.

PHYS 106. Inquiry into the Physical World. 4 Credits.
This course uses a hands-on/minds-on "inquiry" approach to learning the basic concepts of physical science. Topics will include the properties of matter, electricity and magnetism, kinematics, and waves. An emphasis will be placed on examining the nature of science, your own learning, and the way in which scientists learn science.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI or FC-QUANT, FC-LAB.
Making Connections Gen Ed: PX.
Grading Status: Letter grade.

PHYS 108. Climate and Energy Transitions: Understanding the Forecasts. 4 Credits.
This course examines uncertainties in projecting future fossil fuel consumption and impact on global climate by quantifying how effectively alternative power-generation and energy-storage technologies can scale to meet needs in developing and developed nations, and by understanding past and present climates.

Rules & Requirements
Making Connections Gen Ed: PX, GL.
Grading Status: Letter grade.
Same as: MASC 108, GEOL 108.

PHYS 114. General Physics I: For Students of the Life Sciences. 4 Credits.
Basic principles of physics, including forces, energy, oscillations, sound, diffusion, and heat transfer, and applications to biological systems. Intended to meet the needs of, but not restricted to, students majoring in the life sciences. Students may not receive credit for PHYS 114 in addition to PHYS 104, 116, or 118.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-NATSCI or FC-QUANT, FC-LAB.
Making Connections Gen Ed: PX, QI.
Grading Status: Letter grade.

PHYS 115. General Physics II: For Students of the Life Sciences. 4 Credits.
Basic principles of physics, including fluids, electricity, magnetism, optics, quantum physics, and nuclear physics, and applications to biological systems. Intended to meet the needs of, but not restricted to, students majoring in the life sciences. Students may not receive credit for PHYS 115 in addition to PHYS 105, 117, or 119.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-NATSCI or FC-QUANT, FC-LAB.
Making Connections Gen Ed: PX, QI.
Requisites: Prerequisite, PHYS 104, 114, 116, or 118.
Grading Status: Letter grade.

PHYS 119. Introductory Calculus-based Electromagnetism and Quanta. 4 Credits.
Unification of the laws of electricity and magnetism; electromagnetic waves; the particle-wave duality, fundamental principles and applications of quantum mechanics. Students may not receive credit for PHYS 119 in addition to PHYS 105, 115, or 117.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-NATSCI or FC-QUANT, FC-LAB.
Making Connections Gen Ed: PX, QI.
Requisites: Prerequisite, MATH 231; Pre- or corequisite, MATH 232; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

PHYS 128. Modern Physics. 3 Credits.
Special relativity theory, black body radiation, photons and electrons; wave particle duality. Elements of atomic theory, nuclei and fundamental particles. Three lecture hours a week.

Rules & Requirements
Requisites: Prerequisite, PHYS 117 (or PHYS 105 by permission of the instructor); co-requisite, PHYS 128L.
Grading Status: Letter grade.

PHYS 128L. Modern Physics Laboratory. 1 Credits.
Selected modern physics experiments. Written research reports and oral presentations. Three laboratory hours a week.

Rules & Requirements
Requisites: Pre- or corequisite, PHYS 128.
Grading Status: Letter grade.
PHYS 131. *Energy: Physical Principles and the Quest for Alternatives to Dwindling Oil and Gas.* 3 Credits.
A quantitative exploration of the physical principles behind energy development and use within modern civilization, the stark impact of depleted fossil fuel reserves, and alternative sources.

Rules & Requirements
Making Connections Gen Ed: PX, QL.
Requisites: Corequisite, PHYS 131L.
Grading Status: Letter grade.

PHYS 131L. *Energy: Physical Principles and the Quest for Alternatives to Dwindling Oil and Gas.* 1 Credits.
Explore renewable and nonrenewable energy sources. Three laboratory hours per week.

Rules & Requirements
Requisites: Corequisite, PHYS 131.
Grading Status: Letter grade.

PHYS 132. *Science and Society.* 3 Credits.
A description of the scientific community and how scientists relate to such sociotechnical issues as the space program, the arms race, the energy problem, computer technology, medical technology, and pseudosciences.

Rules & Requirements
Grading Status: Letter grade.

PHYS 133. *How Bio Works.* 3 Credits.
Physics of biology and biotechnology. Life as an assembly of molecular machines that manipulate DNA, replicate cells, propel bacteria, and contract muscles. Nanotechnology for DNA biotechnology and microscale fluid chips.

Rules & Requirements
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

PHYS 201. *Basic Mechanics.* 3 Credits.
A one-semester course in statics, kinematics, simple harmonic motion, central forces, and applications from modern physics.

Rules & Requirements
Requisites: Pre- or corequisites, MATH 383 and PHYS 281L; permission of the instructor for students lacking the pre- or co-requisites.
Grading Status: Letter grade.

PHYS 211. *Intermediate Electromagnetism.* 3 Credits.
Electric fields and potentials, dielectrics, steady currents, magnetic flux and magnetic materials, electromagnetic induction. Emphasis on Maxwell's equations and their application to electromagnetic waves in bounded and unbounded media.

Rules & Requirements
Requisites: Prerequisites, MATH 233 and one of PHYS 105, 115, 117, 119.
Grading Status: Letter grade.

PHYS 231. *Physical Computing.* 4 Credits.
Physical Computing is an introduction to the interaction between a computing unit and the outside world, using measurement and control. The tools for this implementation of physical computing are microcontrollers, software, sensors, a variety of analog and digital electronic components, and algorithms that anticipate and respond in ways that humans perceive as NOT inherently computerized.

Rules & Requirements
IDEAS in Action Gen Ed: FC-CREATE or FC-QUANT, FC-LAB, RESEARCH.
Requisites: Pre- or corequisite, PHYS 114 or 118; permission of the instructor for students lacking the pre- or corequisite.
Grading Status: Letter grade.

PHYS 281L. *Experimental Techniques in Physics.* 3 Credits.
An introductory course centered around 8 lab experiments that include Compton scattering, interferometry, e/m, and photoelectric effect. Students use data analysis tools including MATLAB or Python, uncertainty analysis based on the GUM, and LaTeX for written reports. In this communication-intensive course, students collaborate like physicists through written and oral communication and peer review exercises aimed at general, peer, and expert audiences. They also engage with themes of diversity, equity, and inclusion in the field.

Rules & Requirements
IDEAS in Action Gen Ed: FC-NATSCI, FC-LAB, COMMNBeyond.
Making Connections Gen Ed: CI.
Requisites: Prerequisite, PHYS 117 or 119; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

PHYS 295. *Research with Faculty Mentor I.* 1-12 Credits.
Students undertake independent research with a faculty mentor. Approved learning contract required.

Rules & Requirements
IDEAS in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit. 12 total credits. 12 total completions.
Grading Status: Letter grade.

PHYS 311. *Electromagnetism I.* 3 Credits.
First semester of a two-semester sequence on electromagnetic theory and applications. This first semester is focused on electrostatic fields and potentials, magnetic fields and potentials, dielectrics, and magnetic fields in matter.

Rules & Requirements
Requisites: Prerequisites, PHYS 331 and one of PHYS 117 or 119; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

PHYS 313. *Space and Time in Physics and Philosophy.* 3 Credits.
Contingent and necessary properties of space and time. The direction and flow of time. Fatalism. Effects preceding their causes.

Rules & Requirements
Grading Status: Letter grade.
PHYS 331. Numerical Techniques for the Sciences I. 4 Credits.
Applications of calculus, vector analysis, differential equations, complex
numbers, and computer programming to realistic physical systems. Three
lecture and two computational laboratory hours per week.

Rules & Requirements
Requisites: Prerequisite, PHYS 104, 114, 116, or 118; pre- or corequisite,
MATH 383.
Grading Status: Letter grade.

PHYS 332. Numerical Techniques for the Sciences II. 4 Credits.
Modeling of celestial dynamics, nuclear physics problems, electrostatics;
Monte Carlo integration in particle and theoretical physics; data modeling
for physics and astronomy; gravitation, electromagnetism, fluid dynamics
and quantum mechanics. Three lecture and two computational laboratory
hours per week. Previously offered as PHYS 358.

Rules & Requirements
Requisites: Prerequisite, PHYS 331.
Grading Status: Letter grade.

PHYS 351. Electronics I. 4 Credits.
DC and AC circuit analysis. Diodes, transistor amplifiers, analog devices
and signal conditioning. Boolean logic and digital logic circuits. Extensive
practice designing and debugging circuits.

Rules & Requirements
Requisites: Prerequisites, MATH 233, PHYS 281L, and one of PHYS 105,
115, 117, or 119; permission of the instructor for students lacking the
prerequisites.
Grading Status: Letter grade.

PHYS 352. Electronics II. 4 Credits.
Introduction to digital circuits: gates, flip-flops, and counters. Computers
and device interconnections, converters and data acquisition. Signal
analysis and digital filters. Graphical (LabVIEW) programming and
computer interfacing. Individual projects and practical applications.

Rules & Requirements
Requisites: Prerequisite, PHYS 351; permission of the instructor for
students lacking the prerequisite.
Grading Status: Letter grade.

PHYS 354. Quantum Mechanics, Weirdness, and Reality. 3 Credits.
An interdisciplinary course on the weirdness of quantum mechanics and
the problem of interpreting it. Nonlocality, the measurement problem,
superpositions, Bohm's theory, collapse theories, and the many-worlds
interpretation.

Rules & Requirements
Making Connections Gen Ed: PH.
Requisites: Prerequisites, MATH 231 and any PHYS course numbered
100 or greater; permission of the instructor for students lacking the
prerequisites.
Grading Status: Letter grade.
Same as: PHIL 354.

PHYS 391. Senior Seminar. 1-15 Credits.
To be taken by seniors with permission of the department.

Rules & Requirements
Grading Status: Letter grade.
PHYS 421. Introduction to Quantum Mechanics. 3 Credits.

Rules & Requirements
Requisites: Prerequisites, MATH 383, either MATH 347 or PHYS 331, and one of PHYS 117, or 119; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

PHYS 422. Physics of the Earth's Interior. 3 Credits.

Rules & Requirements
Requisites: Prerequisites, MATH 383, and either PHYS 201 and 211 or 311 and 401.
Grading Status: Letter grade.

PHYS 441. Thermal Physics. 3 Credits.
Equilibrium statistical mechanics; the laws of thermodynamics, internal energy, enthalpy, entropy, thermodynamic potentials, Maxwell's relations.

Rules & Requirements
Requisites: Prerequisites, MATH 233, and PHYS 117 or 119; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

PHYS 447. Quantum Computing. 3 Credits.
Recommended preparation, some knowledge of basic linear algebra. An introduction to quantum computing. Basic math and quantum mechanics necessary to understand the operation of quantum bits. Quantum gates, circuits, and algorithms, including Shor's algorithm for factoring and Grover's search algorithm. Entanglement and error correction. Quantum encryption, annealing, and simulation. Brief discussion of technologies.

Rules & Requirements
Requisites: Prerequisites, MATH 232, and PHYS 117 or 119; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

PHYS 461. Introduction to Medical Physics. 3 Credits.
This class will introduce how physics principles and techniques have been applied to medical imaging and radiation therapy. Topics will include ionizing radiation and radiation safety, x-ray and computed tomography, ultrasound, magnetic resonance imaging, positron emission tomography, and radiation therapy. Topics such as the career path to become a medical physicist will also be discussed. The class will have lectures given by the instructor and guest lectures by experts and practitioners in this field.

Rules & Requirements
Requisites: Prerequisite, PHYS 117 or 119.
Grading Status: Letter grade.
PHYS 510L. Practicum for Physics and Astronomy Undergraduate Teaching and Learning Assistants. 1 Credits.
This course is designed to accompany, or subsequently follow, the Seminar for New Physics and Astronomy Teaching and Learning Assistants (Phys 510) and is for undergraduates serving as Undergraduate Teaching Assistants (UTAs) for the Physics and Astronomy Department. UTAs who receive course credit cannot also be paid.

Rules & Requirements
Requisites: Pre- or corequisite, PHYS 510.
Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading Status: Pass/Fail.

PHYS 515. Optics. 3 Credits.
Broad coverage including ray, wave, Gaussian, and Fourier optics. Interference, diffraction, polarization, and coherence. Optical properties of materials, absorption, scattering. Fiber optics, lasers, semiconductors, imaging, and special topics. Previously offered as PHYS 415.

Rules & Requirements
Requisites: Prerequisites, PHYS 311 and 412; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

PHYS 521. Applications of Quantum Mechanics. 3 Credits.
Emphasizes atomic physics but includes topics from nuclear, solid state, and particle physics, such as energy levels, the periodic system, selection rules, and fundamentals of spectroscopy.

Rules & Requirements
Requisites: Prerequisite, PHYS 421.
Grading Status: Letter grade.

PHYS 529. Introduction to Magnetic Resonance. 3 Credits.
This course will provide a broad coverage of important physics principles behind nuclear magnetic resonance (NMR) spectroscopy, especially the applications of quantum mechanics. Theoretical approaches and tools for grasping the design principles of various important NMR spectroscopic techniques will be discussed. It will show, for instance, how to use NMR spectroscopy to determine molecular structures and dynamics, and how to obtain images and functional information using magnetic resonance imaging (MRI).

Rules & Requirements
Requisites: Prerequisite, PHYS 421 or CHEM 486; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

PHYS 543. Nuclear Physics. 3 Credits.
Structure of nucleons and nuclei; nuclear models, forces and interactions, nuclear reactions.

Rules & Requirements
Requisites: Prerequisite, PHYS 421; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.

PHYS 545. Introductory Elementary Particle Physics. 3 Credits.
Relativistic kinematics, symmetries and conservation laws, elementary particles and bound states, gauge theories, quantum electrodynamics, chromodynamics, electroweak unification, standard model and beyond.

Rules & Requirements
Requisites: Prerequisites, PHYS 412 and 421.
Grading Status: Letter grade.

PHYS 573. Introductory Solid State Physics. 3 Credits.
Crystal symmetry, types of crystalline solids; electron and mechanical waves in crystals, electrical and magnetic properties of solids, semiconductors; low temperature phenomena; imperfections in nearly perfect crystals.

Rules & Requirements
Requisites: Prerequisite, PHYS 421; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: APPL 573.

PHYS 581. Renewable Electric Power Systems. 3 Credits.
Broad and quantitative study of renewable electric power systems: wind systems, photovoltaic cells, distributed generation (concentrating solar power, microhydro, biomass), and the economics of these technologies.

Rules & Requirements
Requisites: Prerequisites, BIOL 101L, and 202 or 271; and PHYS 131, and 131L or 281L, and 201 or 401, and 211 or 311, and 351; pre- or corequisites, CHEM 261 and 481.
Grading Status: Letter grade.

PHYS 582. Decarbonizing Fuels. 3 Credits.
Assess quantitatively the feasibility of powering humanity without increasing release of climate-altering carbon dioxide and other organic greenhouse gases into the atmosphere. Can these gases be removed? Which bio-chemical-physical novelties may scale to meet growing demand and at what cost?

Rules & Requirements
Requisites: Prerequisites, BIOL 101L, and 202 or 271; and PHYS 131, and 131L or 281L, and 201 or 401, and 211 or 311, and 351; pre- or corequisites, CHEM 261 and 481.
Grading Status: Letter grade.

PHYS 585. Imaging Science: From Cells to Stars. 3 Credits.
Fundamentals of imaging as applied to biological, medical and astronomy imaging systems. Physics of radiation and particle sources, image formation and detection physics. Principles of optics, coherence, Fourier methods, statistics, especially as they cross disciplinary boundaries for new opportunities in imaging.

Rules & Requirements
Requisites: Prerequisites, MATH 233 and PHYS 118.
Grading Status: Letter grade.
PHYS 586. Introduction to Biomedical Imaging Science. 3 Credits.
This course offers an introduction to the most common biomedical imaging modalities, including Magnetic Resonance Imaging (MRI), Computed-Tomography (CT), Positron Emission Tomography (PET), Single-Photon Emission Computed Tomography (SPECT), Ultrasound, and Optical Imaging. Lectures include discussions of imaging hardware, and relevant physics, as well as pre-clinical and clinical applications.

Rules & Requirements
Requisites: Prerequisite, PHYS 119.
Grading Status: Letter grade.

PHYS 594. Nonlinear Dynamics. 3 Credits.
Interdisciplinary introduction to nonlinear dynamics and chaos. Fixed points, bifurcations, strange attractors, with applications to physics, biology, chemistry, finance.

Rules & Requirements
Requisites: Prerequisite, MATH 383; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: MATH 594.

PHYS 631. Mathematical Methods of Theoretical Physics. 3 Credits.
Linear vector spaces and matrices, curvilinear coordinates, functions of complex variables, ordinary and partial differential equations, Fourier series, integral transforms, special functions, differential forms.

Rules & Requirements
Requisites: Prerequisites, PHYS 281L and 332.
Grading Status: Letter grade.

PHYS 632. Advanced Research Analytics. 3 Credits.
Required preparation, ability to program in a high-level computer language. Permission of the instructor for students lacking the required preparation. Methods required for the analysis, interpretation, and evaluation of physics measurements and theory. Error analysis, statistical tests, model fitting, parameter estimation, Monte Carlo methods, Bayesian inference, noise mitigation, experimental design, big data, selected numerical techniques including differential equations and Fourier techniques.

Rules & Requirements
Grading Status: Letter grade.

PHYS 633. Scientific Programming. 3 Credits.
Required preparation, elementary Fortran, C, or Pascal programming. Structured programming in Fortran or Pascal; use of secondary storage and program packages; numerical methods for advanced problems, error propagation and computational efficiency; symbolic mathematics by computer.

Rules & Requirements
Requisites: Prerequisite, MATH 528 or 529, or PHYS 631 or 632.
Grading Status: Letter grade.

PHYS 660. Fluid Dynamics. 3 Credits.
The physical properties of fluids, kinematics, governing equations, viscous incompressible flow, vorticity dynamics, boundary layers, irrotational incompressible flow.

Rules & Requirements
Requisites: Prerequisite, PHYS 401; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: MASC 560, ENVR 452, GEOL 560.

PHYS 671L. Independent Laboratory I. 3 Credits.
Six laboratory hours a week.

Rules & Requirements
Requisites: Prerequisites, PHYS 401 and 412; permission of the instructor for students lacking the prerequisites.
Grading Status: Letter grade.

PHYS 672L. Independent Laboratory II. 3 Credits.
Six laboratory hours a week.

Rules & Requirements
Requisites: Prerequisites, PHYS 401 and 412; permission of the instructor for students lacking the prerequisites.

PHYS 691H. Senior Honor Thesis Research I. 3 Credits.
Permission of the instructor. Readings in physics and directed research for a senior honor thesis project. Required of all candidates for graduation with honors in physics.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

PHYS 692H. Senior Honor Thesis Research II. 3 Credits.
Readings in physics and directed research for a senior honor thesis project. Required of all candidates for graduation with honors in physics.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisite, PHYS 691H.
Grading Status: Letter grade.

Physics Major, B.A.

Everything around you is influenced or governed by physics — the study of matter, energy, and their interactions with one another. Physics seeks to understand the way the universe "works," from the smallest neutrinos to the structure of the cosmos. It is the foundation of all other natural sciences, including chemistry, biology, oceanography, geography, and radiography.

The Department of Physics and Astronomy offers eight degree tracks:

• B.A. Physics
  • Physics
  • Astronomy
  • Computational Physics
  • Energy
  • Medical and Biological Physics
  • Quantitative Finance

• B.S. Physics
  • Physics
  • Astrophysics

Consider a B.A. degree if you’re interested in physics but want to apply your training toward a wider variety of career paths after graduation. Students who completed this program have launched careers as lab researchers, application engineers, data scientists, and financial analysts, among other occupations. Some have also pursued an advanced degree in physics, medical physics, business, law, or computer science.

Consider a B.S. degree if you intend to pursue graduate study in physics, astronomy, or a related field, or a career practicing physics.

Student Learning Outcomes

Upon completion of the physics program, students should be able to:

• Demonstrate knowledge of major concepts, theoretical reasoning, and empirical findings in physics and/or astronomy — Knowledge Base in Physics
• Apply knowledge of physics and mathematics to solve problems — Critical Thinking and Problem Solving
• Effectively conduct research under guidance of faculty member — Research and the Advancement of Physics and Astronomy
• Gain entry to top graduate programs, employment as physicists in industry, teaching positions in high school physics and astronomy, or apply their skills in other rewarding careers — Preparation for Future Career

• earn a minimum final cumulative GPA of 2.000
• complete a minimum of 45 academic credit hours earned from UNC—Chapel Hill courses
• take at least half of their major core requirements (courses and credit hours) at UNC—Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

$^H$ Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

$^F$ FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

$^1$ Fall course.

$^2$ Spring course.

$^3$ Students are strongly encouraged to take BUSI 407.

$^4$ ECON 101 and one of BUSI 101, BUSI 102, or BUSI 107 are prerequisites for BUSI 408, but these prerequisites may be waived for students in the Quantitative Finance program.

$^5$ Half-semester course.

Students must maintain a minimum cumulative GPA of at least 2.85. Students majoring in the quantitative finance option cannot pursue the minor in business.

Business Administration (BUSI) course descriptions (p. 1042).

Mathematics (MATH) course descriptions (p. 693).

**Sample Plan of Study**

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Special Opportunities in Physics and Astronomy
Honors in Physics and Astronomy
The honors program offers exceptionally well-qualified students an opportunity to perform original research with a faculty member and
graduate with honors or highest honors. It requires an overall grade point average of at least 3.3 and a grade point average of at least 3.4 for physics courses at the end of the junior year.

Students who wish to enter the honors program should consult with the departmental coordinator (http://physics.unc.edu/undergraduate-program/undergraduate-research/) for the program no later than the preregistration period in the spring semester of their junior year.

Undergraduate Research
All majors conduct at least one semester of research under the supervision of a faculty member. Many enjoy the experience so much that they continue for several semesters. PHYS 395 Research with Faculty Mentor II is a required course for all of our BS majors. In addition to PHYS 395, students may also take PHYS 295 Research with Faculty Mentor I as an elective as many times as desired. These courses give students the opportunity to participate in leading-edge research and to gain hands-on experience with a variety of experimental tools and techniques that will enhance their resume. An approved learning contract is required prior to registering for PHYS 295 and PHYS 395, and students must be registered within the first week of classes.

Departmental Involvement
The Society of Physics Students, open to anyone interested in physics, builds connections between undergraduates, graduate students, faculty, and alumni. The society invites visitors to give talks and sponsors a number of events for students each year. The Visibility in Physics is a student organization that aims to provide resources, advice, and a welcoming and encouraging social atmosphere for underrepresented minorities and allies in the field of physics.

UNC-BEST
The UNC Baccalaureate Education in Science and Teaching (UNC-BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate science majors interested in teaching high school science the opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years. UNC-BEST students meet all the degree requirements for their degree using PHYS 410 as one of their upper-level physics courses.

Undergraduate Awards
The department gives awards each year to the senior (Shearin Award) and junior (Johnson Award) who demonstrate the greatest achievement. In addition, the department awards the major with the most research achievement the Robert Sheldon Award for Undergraduate Research.

Physics Major, B.S.

Everything around you is influenced or governed by physics — the study of matter, energy, and their interactions with one another. Physics seeks to understand the way the universe “works,” from the smallest neutrinos to the structure of the cosmos. It is the foundation of all other natural
sciences, including chemistry, biology, oceanography, geography, and radiography.

The Department of Physics and Astronomy offers eight degree tracks:

- **B.A. Physics**
  - Physics
  - Astronomy
  - Computational Physics
  - Energy
  - Medical and Biological Physics
  - Quantitative Finance

- **B.S. Physics**
  - Physics
  - Astrophysics

Consider a B.A. degree if you’re interested in physics but want to apply your training toward a wider variety of career paths after graduation. Students who completed this program have launched careers as lab researchers, application engineers, data scientists, and financial analysts, among other occupations. Some have also pursued an advanced degree in physics, medical physics, business, law, or computer science.

Consider a B.S. degree if you intend to pursue graduate study in physics, astronomy, or a related field, or a career practicing physics.

**Student Learning Outcomes**

Upon completion of the physics program, students should be able to:

- Demonstrate knowledge of major concepts, theoretical reasoning, and empirical findings in physics and/or astronomy — Knowledge Base in Physics
- Apply knowledge of physics and mathematics to solve problems — Critical Thinking and Problem Solving
- Effectively conduct research under guidance of faculty member — Research and the Advancement of Physics and Astronomy
- Gain entry to top graduate programs, employment as physicists in industry, teaching positions in high school physics and astronomy, or apply their skills in other rewarding careers — Preparation for Future Career

**Requirements**

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

- Fall course.
- Spring course.

---

It is strongly recommended that students planning to major in physics fulfill the Foundations requirement in English composition and rhetoric by enrolling in ENGL 105i.

Most students will find it advantageous to defer some of the General Education requirements to the junior and/or senior year(s).

### Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC—Chapel Hill in the fall term. Some courses may not be offered every term.

they continue for several semesters. PHYS 395 Research with Faculty Mentor II is a required course for all of our BS majors. In addition to PHYS 395, students may also take PHYS 295 Research with Faculty Mentor I as an elective as many times as desired. These courses give students the opportunity to participate in leading-edge research and to gain hands-on experience with a variety of experimental tools and techniques that will enhance their resume. An approved learning contract is required prior to registering for PHYS 295 and PHYS 395, and students must be registered within the first week of classes.

**Departmental Involvement**

The Society of Physics Students, open to anyone interested in physics, builds connections between undergraduates, graduate students, faculty, and alumni. The society invites visitors to give talks and sponsors a number of events for students each year. The Visibility in Physics is a student organization that aims to provide resources, advice, and a welcoming and encouraging social atmosphere for underrepresented minorities and allies in the field of physics.

**UNC–BEST**

The UNC Baccalaureate Education in Science and Teaching (UNC–BEST) Program is a collaboration between the School of Education and the College of Arts and Sciences and is designed to allow undergraduate science majors interested in teaching high school science the opportunity to earn their science degree and obtain licensure as a North Carolina high school science teacher in four years. UNC–BEST students meet all the degree requirements for their degree using PHYS 410 as one of their upper-level physics courses.

Astronomy Minor

Everything around you is influenced or governed by physics — the study of matter, energy, and their interactions with one another. Physics seeks to understand the way the universe "works," from the smallest neutrinos to the structure of the cosmos. It is the foundation of all other natural sciences, including chemistry, biology, oceanography, geography, and radiography.

The Department of Physics and Astronomy offers eight degree tracks:

- B.A. Physics
  - Physics
  - Astronomy
  - Computational Physics
  - Energy

- B.S. Physics
  - Physics
  - Astrophysics

- Medical and Biological Physics
- Quantitative Finance

Consider a B.A. degree if you’re interested in physics but want to apply your training toward a wider variety of career paths after graduation. Students who completed this program have launched careers as lab researchers, application engineers, data scientists, and financial analysts, among other occupations. Some have also pursued an advanced degree in physics, medical physics, business, law, or computer science.

Consider a B.S. degree if you intend to pursue graduate study in physics, astronomy, or a related field, or a career practicing physics.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC—Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

The minor in astronomy consists of five courses:

<table>

Department of Political Science

Introduction

As Harold Laswell famously noted, politics is “who gets what, when, and how.” As a discipline, political science focuses on the study of political ideas, institutions, processes, policies, and behavior in the United States and around the world. The Department of Political Science offers a broad range of courses across five subfields: American politics, comparative politics, international relations, political theory, and political methodology.

Political science majors gain a versatile set of analytical and organizational skills that can be applied in a wide range of exciting careers in government, law, business, international organizations, nonprofit organizations, survey research, journalism, and teaching.

Advising

All majors have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. Students seeking advice about the political science major are encouraged to meet with the department’s undergraduate advisor or the director of undergraduate studies during their office hours (see contact information above). Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department’s website (http://politicalscience.unc.edu).

Graduate School and Career Opportunities

Students with a major in political science may choose to continue their studies in a number of professional areas, including law, business administration, public administration, public policy analysis, international relations, and area studies. Students seeking to become professional political scientists should pursue graduate study in a Ph.D. program in political science.

The following is a brief listing of careers for which a major in political science is valuable preparation:

- positions with government agencies, such as the Foreign Service
- positions with international organizations, such the United Nations
- positions with nongovernmental and nonprofit organizations
- law-related professions
- business professions, including data analysis and survey research
- media and journalism
- governmental research in universities, libraries, and think tanks
- secondary- and university-level teaching and administration
- federal and state government employment
- municipal management and public administration

Major

- Political Science Major, B.A. (p. 825)

Graduate Programs

- M.A. in Political Science (http://catalog.unc.edu/graduate/schools-departments/political-science/)
• Ph.D. in Political Science (http://catalog.unc.edu/graduate/schools-departments/political-science/)

**Professors**

Navin Bapat, Frank Baumgartner, Pamela Conover, Mark Crescenzi, Stephen Gent, Jonathan Hartlyn, Marc Hetherington, Liesbet Hooghe, Evelyne Huber, Gary Marks, Kevin McGuire, Jason Roberts, Graeme Robertson, Donald Searing, Jeffrey Spinner-Halev, John Stephens, Milada Vachudova.

**Associate Professors**

Cameron Ballard-Rosa, Anna Bassi, Susan Bickford, Christopher Clark, Cecilia Martinez-Gallardo, Santiago Olivella, Sarah Treul Roberts, Timothy Ryan, Isaac Unah.

**Assistant Professors**

**Adjunct Professors**

**Teaching Professor**

Robert Jenkins.

**Teaching Associate Professor/Advisor**

Matthew Weidenfeld.

**Teaching Assistant Professors**

Suzanne Globetti, Nora Hanagan, Niklaus Steiner.

**Visiting Professor**

Dominic Nyhuis.

**Postdoctoral Research Associate**

Margaret Foster.

**Professors Emeriti**

Virginia Gray, Michele Hoyman, Michael Lienesch, Lewis Lipsitz, Stuart Elaine Macdonald, Michael MacKuen, Timothy McKeown, Dick Richardson, Lars Schultz, James Stimson, James White.

**POLI—Political Science**

**Undergraduate-level Courses**

*POLI 50. First-Year Seminar: Movies and Politics. 3 Credits.*

Movies often reflect important social and political issues. In this course students will see a set of movies, discuss them, and put them into social and political contexts.

**Rules & Requirements**

- IDEAs in Action Gen Ed: FY-SEMINAR, FC-POWER.
- Making Connections Gen Ed: SS, CI.
- Grading Status: Letter grade.

*POLI 52. First-Year Seminar: Friendship in Political Thought. 3 Credits.*

This seminar will explore what relationships have been designated “friendship” in the past, and why they are of such concern to political and ethical philosophers like Plato, Aristotle, Cicero, Montaigne, and Emerson. Honors version available.

**Rules & Requirements**

- IDEAs in Action Gen Ed: FY-SEMINAR, FC-VALUES.
- Making Connections Gen Ed: PH, CI.
- Grading Status: Letter grade.

*POLI 54. FYS: The American Worker: Sociology, Politics, and History of Labor in the United States. 3 Credits.*

This course will survey a wide range of topics on the American Laborer and the American Worker unions.

**Rules & Requirements**

- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: PH, CI.
- Grading Status: Letter grade.

*POLI 57. First-Year Seminar: Democratic Governance in Contemporary Latin America. 3 Credits.*

This seminar explores challenges in democratic governance in contemporary Latin America. With important regional variations, the exercise of state power reflects historical continuities of corruption, patronage politics, and other abuses of state resources. There are also demands for accountability and transparency across the region and more independent judiciaries.

**Rules & Requirements**

- IDEAs in Action Gen Ed: FY-SEMINAR, FC-VALUES.
- Making Connections Gen Ed: PH, CI.
- Grading Status: Letter grade.

*POLI 58. FYS: Global Production and Workers’ Rights: North Carolina, Latin America, and East Asia. 3 Credits.*

This course explores the politics of economic globalization, with a focus on the relationships among trade, multinational corporations, and workers’ rights.

**Rules & Requirements**

- IDEAs in Action Gen Ed: FY-SEMINAR, FC-VALUES.
- Making Connections Gen Ed: SS, GL.
- Grading Status: Letter grade.

*POLI 59. First-Year Seminar: Revolution, America in 1776 and France in 1789. 3 Credits.*

We examine the political theory of revolution at two dramatic moments in history: The American Revolution and The French Revolution. This course is thrown students into New York City in 1775 and Paris in 1791 by recreating and engaging with the ideas and arguments of these times through two, role-immersive simulations.

**Rules & Requirements**

- IDEAs in Action Gen Ed: FY-SEMINAR.
- Making Connections Gen Ed: SS, NA.
- Grading Status: Letter grade.
POLI 63. First-Year Seminar: Social Movements and Political Protest and Violence. 3 Credits.
Unconventional collective political behavior: mass movements, riots, demonstrations, revolts, and revolution.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-POWER.
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

POLI 66. First-Year Seminar: The United States and the European Union: Partners or Rivals?. 3 Credits.
The alliance between America and the European Union is one of the most important political relationships today.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 67. First-Year Seminar: Designing Democracy. 3 Credits.
Introducing the study of using political institutions as levers of conflict management in ethnically plural, postconflict national states.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 70. First-Year Seminar: Political Conflict in the European Union and the United States. 3 Credits.
This course examines the politics of the European Union in comparison with the United States.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

POLI 72. First-Year Seminar: Entrepreneurship in Community and Economic Development. 3 Credits.
This is a survey course of entrepreneurial strategies as they are used in community and economic development. It involves an individual research or service project by each student.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

POLI 75. First-Year Seminar: Thinking about Law. 3 Credits.
This seminar explores the notion of a rule of law, statutory and case law, legal analysis, and the realities of the adversarial system and legal practice. Students will be engaged in analytical thinking and expression through classroom discussion, analytical papers, and examinations.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.

POLI 76. First-Year Seminar: The Obama Presidency. 3 Credits.
This course examines the presidency of Barack Obama, the first African American to serve in the nation's highest office.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

POLI 87. First-Year Seminar: What Does it Mean to be a Good Citizen?. 3 Credits.
What, if any, responsibilities accompany democratic citizenship? Voting? Active participation in political meetings? Obeying laws? Volunteering in one's community? Preserving natural resources for future generations? Adhering to certain values? Protesting unjust laws? This course offers an overview of the different ways in which Americans have answered these questions.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-VALUES.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

POLI 100. American Democracy in Changing Times. 3 Credits.
Why do Americans love democracy, but hate politics? Why are there only two political parties? Why do voters hate, yet respond to negative campaigning? This course will introduce students to politics in the United States, addressing these and many more questions about how American democracy works. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, FC-VALUES.
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

POLI 130. Introduction to Comparative Politics. 3 Credits.
This course examines the diversity of political arrangements in societies across the globe. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-VALUES.
Making Connections Gen Ed: SS, BN, GL.
Grading Status: Letter grade.
POLI 150. International Relations and Global Politics. 3 Credits.
An introduction to the study of political and economic relations in the international system. Topics covered include international conflict, trade, global finance, international institutions, civil war, and human rights. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections), FC-GLOBAL.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PWAD 150.

POLI 150L. International Relations and Global Politics Research Laboratory. 1 Credits.
This laboratory section introduces students in POLI 150 to contemporary research methods in the study of international relations and world politics. Students will design and conduct independent research related to international politics. Permission of the instructor.

Rules & Requirements
Grading Status: Letter grade.

POLI 190. Undergraduate Seminar. 1-3 Credits.
A detailed examination of selected topics in the field of political science. Honors version available.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 12 total completions.
Grading Status: Letter grade.

POLI 193. Internship in Political Science. 3 Credits.
An opportunity to obtain credit for an internship in a government or public service organization. Pass/Fail only. Does not count toward the political science major. Requires permission of the department. Open to political science majors only.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Requisites: Prerequisite, at least two POLI courses.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Pass/Fail.

POLI 200. The President, Congress, and Public Policy. 3 Credits.
An analysis of the roles and influence of the president, the Congress, and other participants in the making of national policy.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 201. Politics of Bureaucracy. 3 Credits.
Problems of the public service; internal dynamics of public organizations; acquisition and allocation of public funds; the roles of bureaucracy in relation to public policy, clients, the citizenry, and society.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 202. The United States Supreme Court. 3 Credits.
Examination of the process of policy making on the Supreme Court. Focuses upon the selection of justices, factors affecting the court’s decision making, and the impact of its policies.

Rules & Requirements
Making Connections Gen Ed: SS.

POLI 203. Race, Innocence, and the Decline of the Death Penalty. 4 Credits.
A large majority of Americans supports the death penalty in the abstract, but the number of death sentences and executions has been declining since the mid-1990s. This course explores the decline of the death penalty by looking at race, questions of innocence, and the new politics of capital punishment.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

POLI 204. Introduction to Southern Politics. 3 Credits.
This course examines the politics of the American South. Each state is studied separately and we examine the region from a broad/general perspective. Both academic books and journal articles are read. By the end of the course, students should be familiar with historical and contemporary politics in the South.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

POLI 205. Politics in the U.S. States. 3 Credits.
State and local governments in the United States exercise considerable power over public policies such as education, social welfare, and taxation. This course examines similarities and differences across the U.S. states to better understand the causes and consequences of politics in these settings. Previously offered as POLI 101. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.
POLI 206. Race and the Right to Vote in the United States. 3 Credits.
This course surveys scholarly literature on political psychology, electoral institutions, racial politics, and access to the ballot in the United States. In 30 hours of community service with partner organizations, students forge deeper connections between the university and the broader community. Through consistent reflections on the importance and potential downsides of service learning, students gain a multi-faceted view of the practice and learn how to become better service learners.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER, HI-SERVICE.
Making Connections Gen Ed: SS, EE- Service Learning, US.
Grading Status: Letter grade.

POLI 207. The Politics of Organized Interests. 3 Credits.
This course examines how interests organize themselves, enter into and then interact within interest communities, and seek to influence government policy through electoral activity and lobbying legislators, executives, and courts.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 208. Political Parties and Elections. 3 Credits.
An analysis of the dynamics of party alignment and realignment and of nomination and election to public office in American national government. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 209. Analyzing Public Opinion. 3 Credits.
A study of forces affecting public opinion and its expression in various political activities. Emphasis on gathering and analyzing opinion data. Course may be taught in the computer classroom. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, QL.
Grading Status: Letter grade.

POLI 210. Global Issues and Globalization. 3 Credits.
Survey of international social, political, and cultural patterns in selected societies of Africa, Asia, America, and Europe, stressing comparative analysis of conflicts and change in different historical contexts. LAC recitation sections offered in French, German, and Spanish.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: GL.
Grading Status: Letter grade.
Same as: GLBL 210, ANTH 210, GEOG 210, HIST 210.

POLI 211. Religion and Politics. 3 Credits.
Religion and politics are deeply intertwined in contemporary America, as evidenced by heated and often highly partisan debates over a wide variety of political issues such as abortion and immigration. This course addresses the variety of ways in which religion and politics intersect for voters and political elites with a focus on understanding how scholars operationalize religious concepts and use data to make empirical claims about the relationship between religion and politics.

Rules & Requirements
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

POLI 215. Political Psychology: An Introduction. 3 Credits.
Findings of the behavioral sciences are examined as they relate to politics. Includes such issues as human nature, community, political socialization, alienation, mass movements, belief systems, and personality.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 217. Women and Politics. 3 Credits.
A comparison of men and women as political actors at the mass and elite level in America. Topics considered include the "gender gap," the women's movement, abortion, and the Equal Rights Amendment.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.
Same as: WGST 217.

POLI 220. Race, Ethnicity, and Electoral Representation in the United States. 3 Credits.
This course examines the electoral representation of racial and ethnic minorities in the United States. While multiple ethnic groups are studied, there will be an emphasis on the two largest minority groups in the country: Latinos and African Americans.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 231. Latin America and the United States in World Politics. 3 Credits.
A survey of the events, institutions, and issues that have dominated relations between Latin America and the United States.

Rules & Requirements
Making Connections Gen Ed: US.
Grading Status: Letter grade.

POLI 232. Politics of the United Kingdom. 3 Credits.
An introduction to contemporary UK politics emphasizing the political battle between socialist and conservative ideologies. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.
POLI 233. Comparative Politics of the Middle East. 3 Credits.
This course is designed as an introduction to contemporary Middle Eastern politics for advanced undergraduates. To explore this topic, the course combines systematic analytical approaches to big questions with concrete knowledge of events and developments in specific countries. In so doing, it aims to give students a critical understanding of politics while simultaneously building empirical knowledge about the Middle East/ North Africa region. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL.
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.

POLI 234. Comparative Politics of the Global South. 3 Credits.
An overview of politics and government in the Global South, emphasizing theories and challenges of development, modernization, and democratization. Regional emphasis may vary by instructor.

Rules & Requirements
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.

POLI 235. The Politics of Russia and Eurasia. 3 Credits.
Factors and forces that explain the rise and demise of the Soviet political system and consideration of emerging new political configurations in the area. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL.
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.

POLI 236. Politics of East-Central Europe. 3 Credits.
Examines contemporary politics in east-central Europe by looking at the communist period, the 1989 revolutions, and the political, economic, and social transformations underway in the area. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.

POLI 237. The Politics of China. 3 Credits.
An introduction to the politics of People's Republic of China with a focus on the Reform Era. Provides a working knowledge for understanding political events in contemporary China in three parts: historical background, evolution of political institutions, and changing relations between ordinary people and the Chinese state.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL.
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.

POLI 238. Politics of the Global South: Latin America. 3 Credits.
An introduction to politics and political economy of Latin America, emphasizing Latin America's position in the Global South and including consideration of leading theoretical explanations of development and political change. Country emphasis varies with instructor. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL or FC-POWER.
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.

POLI 239. Introduction to European Government. 3 Credits.
A treatment of the political institutions and processes of western European democracies, with special attention to France, Germany, England, and Italy. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL.
Making Connections Gen Ed: SS, GL, NA.
Grading Status: Letter grade.
Same as: EURO 239.

POLI 240. African American Politics. 3 Credits.
A survey of African American political development from emancipation to the present. The course examines the dynamics of minority group politics with African Americans as the primary unit of analysis. Students consider African American politics in domestic and global contexts and issues of local, regional, national, and international relevance.

Rules & Requirements
IDEAs in Action Gen Ed: FC-PAST.
Making Connections Gen Ed: HS.
Grading Status: Letter grade.
Same as: AAAD 240.

POLI 241. Comparative Political Behavior. 3 Credits.
Political behavior is the study of attitudes, ideology, and engagement with the government. Why are some individuals more likely than others to support specific policies? How do we understand the connection between voters and political parties? What makes an individual more likely to vote? When and where are broad social movements, wars, rebellions and revolutions most likely to occur? Comparative political behavior studies how these phenomena operate across different institutional and cultural environments. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-GLOBAL.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

POLI 248. Intersectionality: Race, Gender, Sexuality, and Social Justice. 3 Credits.
The first goal of this super course is to give students real tools for how to address multiple modes of difference and identity formations like race, gender, class, and sexuality.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: CI, US.
Grading Status: Letter grade.
Same as: AMST 248, ENGL 248, WGST 249.
POLI 252. **International Organizations and Global Issues.** 3 Credits.
Examines international organizations and their relationships with and impact upon international politics, international law, and selected global issues. Honors version available.

**Rules & Requirements**
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PWAD 252.

POLI 253. **Problems in World Order.** 3 Credits.
An examination of selected topics in international relations, such as security and defense, international integration, and north-south relations.

**Rules & Requirements**
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PWAD 253.

POLI 254. **International Environmental Politics.** 3 Credits.
Covers the politics of environmental issues, with a focus on issues that have become internationalized. It focuses on the special problems that arise in creating rules for environmental management and regulation when no single government has authority to enforce those rules.

**Rules & Requirements**
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: ENEC 254.

POLI 255. **International Migration and Citizenship Today.** 3 Credits.
This class explores the moral, economic, political, and cultural dimensions of international migration. It is discussion-based and tackles such thorny questions as, Do we have an obligation to let poor people into our rich country? What constitutes persecution? How do foreigners affect national identity? How should citizenship be allocated? Honors version available.

**Rules & Requirements**
Making Connections Gen Ed: GL, US.
Grading Status: Letter grade.

POLI 256. **The Politics of the First Era (1880-1914) of Globalization.** 3 Credits.
This course considers the politics of international trade and finance on the eve of World War I. We explore the factors, domestic and international, that facilitated integration prior to World War I, as well as those that prevented a return to economic openness in the 1920s and 1930s.

**Rules & Requirements**
Making Connections Gen Ed: FC-GLOBAL.
Grading Status: Letter grade.

POLI 257. **Politics, Society, and Culture in Postwar Germany.** 3 Credits.
The interdisciplinary seminar will explore cultural, historical, and political issues of contemporary Germany and analyze German developments from the postwar period to the present. Readings and discussions in English.

**Rules & Requirements**
Making Connections Gen Ed: FC-PAST or FC-POWER.
Grading Status: Letter grade.
Same as: HIST 257, EURO 257.

POLI 260. **Crisis and Change in Russia and Eastern Europe.** 3 Credits.
Draws on historical, political, economic, and sociological perspectives to analyze social, cultural, and institutional change.

**Rules & Requirements**
IDEAs in Action Gen Ed: FC-GLOBAL.
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.
Same as: PWAD 260, SOCI 260.

POLI 265. **Feminism and Political Theory.** 3 Credits.
Introduction to feminist theory and its implications for the study and practice of political theory. Topics: women in feminist critiques of the Western political tradition, schools of feminist political theory.

**Rules & Requirements**
IDEAs in Action Gen Ed: FC-POWER.
Making Connections Gen Ed: PH, CI, NA.
Grading Status: Letter grade.
Same as: WGST 265.

POLI 270. **Classical Political Thought.** 3 Credits.
Survey course designed to introduce students to major political thinkers and ideas of the ancient world and of the medieval period. Honors version available.

**Rules & Requirements**
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH, NA, WB.
Grading Status: Letter grade.

POLI 271. **Modern Political Thought.** 3 Credits.
Survey course designed to introduce students to major political thinkers and schools of thought dating roughly from the 16th century to the present. Honors version available.

**Rules & Requirements**
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.
POLI 272. The Ethics of Peace, War, and Defense. 3 Credits.
An analysis of ethical issues that arise in peace, war, and defense, e.g.,
the legitimacy of states, just war theory, terrorism, weapons of mass
destruction.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER or FC-VALUES.
Making Connections Gen Ed: PH, GL, NA.
Grading Status: Letter grade.
Same as: PHIL 272, PWAD 272.

POLI 275. Nationalism, Immigration and the Politics of Identity. 3
Credits.
Examination of the theories of nationalism and immigration, followed by
an analysis of the interplay between national identity, immigration, and
populism. This course first explores these issues theoretically and then
more concretely by examining these issues in England and Scotland.
Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

POLI 276. Major Issues in Political Theory. 3 Credits.
An examination of major issues in political thought, including equality;
obedience; violence and nonviolence; justice; forms of social, economic,
and political life; liberty; and human nature and politics. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

POLI 280. American Political Thought. 3 Credits.
A survey course in American political ideas from the 17th century to the
present, with emphasis on the role of politics, society, and economy in
American thought. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH, NA, US.
Grading Status: Letter grade.

POLI 281. Data in Politics I: An Introduction. 3 Credits.
The Information Revolution has had a transformative effect on business,
journalism, law, policy, and more. This course illustrates the breadth of
ways in which data can help solve important social problems and
increases students' comfort handling and analyzing data themselves.
Students leave with a foundation for acquiring more advanced
techniques.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: SS, QI.
Grading Status: Letter grade.

POLI 285. Applied Experimental Research: Politics in the US and
Europe. 3 Credits.
The course familiarizes students with experimental research methods in
political science, including laboratory experiments, field experiments, and
survey experiments. Students will design and conduct an experimental
research project on a research question about US or European politics.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-QUANT.
Making Connections Gen Ed: SS, GL, QI.
Grading Status: Letter grade.
Same as: PWAD 287.

POLI 287. Strategy and International Relations. 3 Credits.
Introduction to the study of strategic decision making in international
relations, with an emphasis on the application of basic game theoretic
models. Incorporates in-class simulations of international relations
scenarios.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-QUANT.
Making Connections Gen Ed: SS, GL, QI.
Grading Status: Letter grade.
Same as: EURO 285.

POLI 288. Strategy and Politics. 3 Credits.
Offers an introduction to positive political theory, the application of
rational choice analysis (or economic models) to the study of political
phenomena. Topics include social choice theory, legislative voting,
problems of cooperation and collective action, and public choice theory.
Encourages students to think about politics from a critical vantage point.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-QUANT.
Making Connections Gen Ed: SS, QI.
Grading Status: Letter grade.

POLI 290. Special Topics in Political Science. 3 Credits.
A detailed examination of special topics in political science.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same
term for different topics; 12 total credits. 12 total completions.
Grading Status: Letter grade.

POLI 291. Undergraduate Learning Assistant Practicum. 1-3 Credits.
This course is for students selected as Undergraduate Learning
Assistants (ULAs) for political science courses during the semester they
serve as ULAs. This course will provide support and structure to make
them effective in their role, including training in pedagogy and University
policies; ongoing mentorship and supervision; and opportunities for
reflection, assessment, and evaluation. May not count toward the
political science major. Permission of the instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 9 total credits. 9 total
completions.
Grading Status: Letter grade.
POLI 325. Institute of Politics Fellows Seminar in Civic Leadership. 1.5 Credits.
This course is facilitated by a Fellow from the UNC Institute of Politics, an experienced political practitioner who has held elective or appointed office. Over the course of the semester, students will engage in active and sustained dialogue with the Fellow and with one another on topics relevant to the Fellow’s professional experience in public life. May not count toward the political science major.

Rules & Requirements
Repeat Rules: May be repeated for credit. 3 total credits. 2 total completions.
Grading Status: Pass/Fail.

POLI 333. Race and Public Policy in the United States. 3 Credits.
Exploration of the relationship between race and public policy in the U.S. Primary focus on African Americans, but other racial groups also studied. Key areas include reproductive justice, health care, employment, labor, welfare, education, housing, environmental justice, policing, criminalization, foreign policy, immigration, and war.

Rules & Requirements
IDEAs in Action Gen Ed: FC-POWER, RESEARCH.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.
Same as: AAAD 333.

POLI 345. Buying Influence: Interest Groups and Public Policy. 3 Credits.
Students will gain an understanding of the role interest groups play in American public policy and how that role has shifted over time. The course emphasizes the role of interest groups in four policy areas: civil rights, the environment, social policy, and campaign finance.

Rules & Requirements
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.
Same as: PLCY 345.

POLI 350. Peace Science Research. 3 Credits.
This Course-based Undergraduate Research Experience (CURE) introduces students to the practice of quantitative research on peace, conflict, and conflict resolution. Students work in teams to develop original research projects that answer policy-relevant questions in the field of peace science.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisite, POLI 150.
Grading Status: Letter grade.

POLI 381. Data in Politics II: Frontiers and Applications. 3 Credits.
New approaches to data analysis are having a transformative effect on business, journalism, law, and policy - to name just a few sectors. This course is for students who have a basic familiarity working with social science data. It uses this foundation to teach more advanced ways to think about inference and uncertainty, with an emphasis on cutting-edge techniques and applications to real world problems.

Rules & Requirements
Making Connections Gen Ed: SS, CI.
Grading Status: Letter grade.

POLI 384. Gateway to Philosophy, Politics, and Economics. 3 Credits.
One course in economics strongly recommended. This interdisciplinary gateway course provides an introduction to subjects and quantitative techniques used to analyze problems in philosophy, political science, and economics. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-VALUES.
Making Connections Gen Ed: PH.
Grading Status: Letter grade.
Same as: PHIL 384, ECON 384.

POLI 395. Mentored Research in Political Science. 1-3 Credits.
Required preparation, six hours of POLI course credit. Permission of the instructor. Students carry out a research project under the direct supervision of a faculty mentor. Learning contract required. Open to political science majors.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading Status: Letter grade.

POLI 396. Directed Readings in Political Science. 1-3 Credits.
Required preparation, six hours of POLI course credit. Permission of the instructor. Directed readings in a special field under the direction of a faculty member. Learning contract required. Open to political science majors.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

POLI 400. Executive Politics. 3 Credits.
This course explores how presidents select policy options, how they decide timing, what shapes their congressional support, and how they build successful coalitions.

Rules & Requirements
Making Connections Gen Ed: SS, CI.
Grading Status: Letter grade.

POLI 401. Political Economy I: The Domestic System. 3 Credits.
Problems of the national government in managing capitalist development and economic growth; political constraints; patterns of conflict among domestic actors.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.
POLI 404. Race, Immigration, and Urban Politics. 3 Credits.
This course provides a survey of the literature on race, immigration, and urban politics in the contemporary United States. The goal is to understand the complex relationship between racial/ethnic identity and local political processes. Students explore topics such as police brutality, immigration, the education system, and coalition politics.

Rules & Requirements
Making Connections Gen Ed: SS, EE- Service Learning, US.
Grading Status: Letter grade.

POLI 406. State Governments: Laboratories of Democracy. 3 Credits.
Advanced topics in state government and politics, including political behavior and processes, governmental institutions, public policies. Emphasis on how states serve as the laboratories of democracy in a federal system.

Rules & Requirements
Requisites: Prerequisite, POLI 100 or 101.
Grading Status: Letter grade.

POLI 409. Mock Constitutional Convention. 3 Credits.
Students employ their understanding of political philosophy and practical politics to write a new constitution for the United States. Emphasis is on creative blending of theory and practice.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 410. The Constitution of the United States. 3 Credits.
A study of the fundamental principles of constitutional interpretation and practice in the United States by means of lectures, textbooks, and cases. Emphasis will be on the political context surrounding and the impact following Supreme Court decisions.

Rules & Requirements
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

POLI 411. Civil Liberties under the Constitution. 3 Credits.
An analysis of the complex political problems created by the expansion of protection for individual liberties in the United States. Emphasis will be on contemporary problems with some supplemental historical background. Honors version available.

Rules & Requirements
Making Connections Gen Ed: HS, NA.
Grading Status: Letter grade.

POLI 412. United States National Elections. 3 Credits.
Course studies United States presidential and congressional elections. Emphasis on individual vote, changing party strengths, and the relation of outcomes to policy. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

POLI 416. Constitutional Policies and the Judicial Process. 3 Credits.
Analysis of the structure and functions of judicial systems emphasizing the organization, administration, and politics of judicial bureaucracies and roles of judges, juries, counsel, litigants, and interested groups in adjudication processes.

Rules & Requirements
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

POLI 417. Advanced Political Psychology. 3 Credits.
Examines in greater depth issues in the field of political psychology, including conflict and conflict resolution, socialization, attitude formation, mass movements, leader-follower relationships, and psychobiography. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, CI, QI.
Grading Status: Letter grade.

POLI 418. Mass Media and American Politics. 3 Credits.
Junior-senior standing required. Examination of the role, behavior, and influence of the mass media in American politics.

Rules & Requirements
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

POLI 419. Race and Politics in the Contemporary United States. 3 Credits.
Restricted to juniors and seniors. Surveys the vast literature on race and politics in the contemporary United States and examines the complex relationship between racial and ethnic identity and political outcomes. It explores broad political science concepts in the context of racial and ethnic groups. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

POLI 420. Legislative Politics. 3 Credits.
Examines the politics of the United States Congress. Emphasis on representation, the legislative process, and policy making. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 421. Framing Public Policies. 3 Credits.
This course will focus on the process by which policies get framed, or defined, in public discussions. Framing is focusing attention on some elements of a complex public problem rather than others. Readings combine psychological background with case histories of United States and comparative public policy changes over time.

Rules & Requirements
Making Connections Gen Ed: RESEARCH.
Grading Status: Letter grade.
POLI 422. Minority Representation in the American States. 3 Credits.
This class explores the political representation of blacks, Latina/os, women, and gays and lesbians in the American states. How do these groups achieve descriptive and substantive representation? How does state context shape the political representation of these minorities? Students taking this course should have a strong interest in state politics.

Rules & Requirements
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

POLI 424. Legislative Procedure in Congress. 3 Credits.
Examines legislative procedure in Congress. Requires active participation in a Model Congress.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 428. Sexuality, Race, and Gender: Identity and Political Representation. 3 Credits.
Analyzing the impact of the descriptive representation of marginalized communities on public policy, legislation, and social change. Sexual orientation, identity, gender, ethnicity and race, and the intersectionality of these communities. We seek to understand the role that elected officials can have in driving change, affecting their colleagues and constituents.

Rules & Requirements
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

POLI 429. Diversity and Politics. 3 Credits.
Diversity is sometimes cited as a facilitator of political cooperation but more often it is considered a challenge for constructive civic engagement. This course engages the various ways in which different forms of diversity (e.g., racial, ethnic, religious, linguistic, national origin) and politics interact across a wide range of societies.

Rules & Requirements
Making Connections Gen Ed: GL.
Requisites: Prerequisite, POLI 130.
Grading Status: Letter grade.

POLI 430. Analysis of National Security Policy. 3 Credits.
Course explores contemporary threats to national security, approaches to national security strategy, policy instruments, the role of military force, and the policy-making process.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

Same as: PLCY 430, PWAD 430.

POLI 431. African Politics and Societies. 3 Credits.
The problems of race, class, and ideology are explored in the countries south of the Zambezi River, along with the political and economic ties that bind these countries.

Rules & Requirements
Making Connections Gen Ed: SS, BN, GL.
Grading Status: Letter grade.

POLI 432. Tolerance in Liberal States. 3 Credits.
This course will compare the theory and practice of tolerance in the United States and Europe, with particular attention to Great Britain and France.

Rules & Requirements
Making Connections Gen Ed: PH, CI, NA.
Grading Status: Letter grade.

POLI 433. Politics of the European Union. 3 Credits.
Examines the politics and political economy of institutional change and policy making in the European Union in comparative perspective. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, GL, NA.
Grading Status: Letter grade.

Same as: EURO 433.

POLI 434. Politics of Mexico. 3 Credits.
This course provides a survey of 20th-century politics in Mexico, including the construction of the single-party regime under the PRI and the political and economic changes in the second half of the century that marked the end of the one-party regime and inaugurated a new era of political competition.

Rules & Requirements
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.

POLI 435. Democracy and Development in Latin America. 3 Credits.
The analysis of central issues of democracy and development in Latin America. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS, BN, GL.
Grading Status: Letter grade.

POLI 438. Democracy and International Institutions in an Undivided Europe. 3 Credits.
Explores the collapse of communist rule in 1989 and the reaction of international institutions to the challenges of democratization, economic transition, ethnic conflict, and European integration in an undivided Europe.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS, NA.
Grading Status: Letter grade.

Same as: EURO 438.

POLI 439. Analyzing European Public Opinion. 3 Credits.
The course introduces students to the theory and practice of studying European public opinion. The course is split into four parts. In the first part, we will discuss core concepts and important problems in the study of public opinion. In the second part, we will study tools and common data sets for the analysis of European public opinion. In the third part, we will examine several recent contributions on different aspects of European public opinion.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Grading Status: Letter grade.
POLI 440. How to Stay in Power When the People Want You Dead: The Politics of Authoritarian Survival. 3 Credits.
Dictators do not rely on consent of the people to stay in power. But they do still face constraints and must perform a delicate balancing act to maintain enough support to stay in office and reap its rewards. This class seeks to understand when autocrats are successful and when they fail.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

POLI 441. Israeli Politics and Society. 3 Credits.
This course will explore Israeli society, Israeli politics, and the Arab-Israeli conflict.

Rules & Requirements
Making Connections Gen Ed: BN, GL.
Grading Status: Letter grade.

POLI 442. International Political Economy. 3 Credits.
Theories of international political economy; major trends in international economic relations, selected contemporary policy issues.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS, GL.
Requisites: Prerequisites, ECON 101 and POLI 150.
Grading Status: Letter grade.
Same as: EURO 442.

POLI 443. American Foreign Policy: Formulation and Conduct. 3 Credits.
The role of Congress, the press, public opinion, the president, the secretary and the Department of State, the military, and the intelligence community in making American foreign policy. Emphasizes the impact of the bureaucratic process on the content of foreign policy.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisite, POLI 150; permission of the instructor for students lacking the prerequisite.
Grading Status: Letter grade.
Same as: PWAD 443.

POLI 444. Terrorism and International Peace. 3 Credits.
The U.S. 9/11 attack represents the defining terrorist attack to Americans, but in most of the world, terrorism has long been part of politics. We will examine what motivates individuals to consider violence, how individuals organize to protect their political interests, the types of tactics used by violent groups and the state’s response, before concluding with a study of collapsed states, the international implications of political violence, and possibilities for conflict resolution.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PWAD 444.

POLI 447. Immigrant Integration in Contemporary Western Europe. 3 Credits.
Immigrant integration has been one of the most intense political issues in Western Europe in recent decades. The extent to which these immigrants have successfully integrated is a hot topic of debate across Europe, and there is no consensus about the best way to promote integration. This course explores these debates. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, CI, NA.
Grading Status: Letter grade.

POLI 448. The Politics of Multilevel Governance. 3 Credits.
Political authority is changing around the world. Decision making has shifted down to state and local governments, such as Catalonia and Scotland, and up to international organizations such as the European Union and the World Health Organization. What does this mean for the future of the national state?

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

POLI 449. Beg, Borrow, or Steal: How Governments Get Money and Its Effects on Accountability. 3 Credits.
This course explores the politics behind taxation, foreign aid, natural resources, and debt, focusing on how each affects accountability and state capacity. Topics include when governments tax; whether taxation causes democratization; the effects of foreign aid and oil money on corruption and conflict; and how government debt shapes domestic politics.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

POLI 450. Contemporary Inter-American Relations. 3 Credits.
A comprehensive analysis of hemispheric international relations and foreign policies of individual Latin American nations. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

POLI 451. Race, Ethnicity, and Political Change in Comparative Perspective. 3 Credits.
The course examines the interplay of race, ethnicity, political institutions, and political mobilization in modern state and nation-building. Through the use of broadly drawn international case studies, the politics of ethnicity and race is analyzed from the perspective of global processes of state building, colonialism and decolonization, and capitalist development as well from local development of ideology and political organizations.

Rules & Requirements
Making Connections Gen Ed: SS, BN.
Grading Status: Letter grade.
POLI 452. Africa and International Conflict. 3 Credits.
The purpose of this course is to examine Africa's conflicts using an
historical examination and advances in international relations theory. We
will examine European colonial intervention, the wars of independence,
the Cold War, and the use of proxies, insurgencies, the African World War,
the Sudanese War, and the "war of terrorism."

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

POLI 453. When Countries Go Broke: Political Responses to Financial
Crises. 3 Credits.
What happens when countries go broke? This course considers the
complex historical relation between revenue generation and the
development of the nation-state, and details a variety of major crises
facing governments today, including the political determinants of and
responses to major recent financial crises.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.

POLI 457. International Conflict Processes. 3 Credits.
Analysis of international conflict and the causal mechanisms that drive or
prevent conflict. Emphasis is on the conditions and processes of conflict
and cooperation between nations.

Rules & Requirements

Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PWAD 457.

POLI 458. International Conflict Management and Resolution. 3
Credits.
Examines the management and resolution of international and civil wars.
Honors version available.

Rules & Requirements

IDEAs in Action Gen Ed: RESEARCH.
Making Connections Gen Ed: SS.
Requisites: Prerequisite, POLI 150.
Grading Status: Letter grade.
Same as: PWAD 458.

POLI 459. Trans-Atlantic Security. 3 Credits.
The course explores the development of Euro-Atlantic security
institutions (NATO, EU) and compares security policy in the United States
and Europe. Cases include policy toward the Balkans, Afghanistan,
Russia, and Ukraine. Includes review of concepts of security and selected
international relations approaches to international organizations. Honors
version available.

Rules & Requirements

Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PWAD 459.

POLI 469. Conflict and Intervention in the Former Yugoslavia. 3 Credits.
Focuses on ethnic and political conflicts in the former Yugoslavia and
efforts by the international community to end conflict and promote peace
and reconstruction. Honors version available.

Rules & Requirements

Making Connections Gen Ed: SS, GL.
Grading Status: Letter grade.
Same as: PWAD 469.

POLI 470. Social and Political Philosophy. 3 Credits.
An examination of the logic of social and political thought with an
analysis of such concepts as society, state, power, authority, freedom,
social and political obligation, law, rights. Honors version available.

Rules & Requirements

Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

POLI 471. Contemporary Political Thought. 3 Credits.
Survey of the historical foundations, central tenets, and political
consequences of prominent 20th-century political theories. Topics
include contemporary liberalism and Marxism, fascism, theories of
development, populism, feminism. Honors version available.

Rules & Requirements

Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

POLI 472. Problems of Modern Democratic Theory. 3 Credits.
Major problem areas in democratic theory including definitions,
premises, and justifications of democracy, liberty, equality, minority
rights, public interest, participation, dissent, and civil disobedience.
Honors version available.

Rules & Requirements

Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

POLI 473. Politics and Literature. 3 Credits.
Identifies and interprets political ideas using historical and contemporary
literary sources. Examines literature as political practice.

Rules & Requirements

Making Connections Gen Ed: PH, NA.
Grading Status: Letter grade.

POLI 476. The Political Theory of the American Founding. 3 Credits.
A role-immersive simulation of the Constitutional Convention of 1787.
Students employ their knowledge of the political theory and science
of the founding period to become the Convention of 1787 and write a
constitution.

Rules & Requirements

Making Connections Gen Ed: PH, CI, NA.
Grading Status: Letter grade.

POLI 477. Advanced Feminist Political Theory. 3 Credits.
Examines in greater depth and complexity current issues in feminist
political theory. Topics: theories of subjectivity and solidarity, feminist
poststructuralist and post-Marxist thinking, gender in the public sphere.

Rules & Requirements

Making Connections Gen Ed: PH, CI, NA.
Grading Status: Letter grade.
Same as: WGST 477.
POLI 478. The Politics, Philosophy, and Economics of Education. 3 Credits.
The course explores the politics, philosophy, and economics of US education. We will cover topics such as the goals of education; education politics at the local, state, and federal levels; school finance; accountability; markets in education; the role of philanthropy; and student debt.

Rules & Requirements
Grading Status: Letter grade.

POLI 488. Game Theory. 3 Credits.
Increasingly, political and social scientists are using game theory to analyze strategic interactions across different settings. This course aims to give students a deep technical understanding of the most relevant concepts of game theory and how these concepts have been applied to the study of political and economic phenomena.

Rules & Requirements
Making Connections Gen Ed: SS, QI.
Requisites: Prerequisite, POLI 287 or 288.
Grading Status: Letter grade.

POLI 490. Advanced Special Topics in Political Science. 3 Credits.
A detailed examination of advanced special topics in political science. Honors version available.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.
Grading Status: Letter grade.

POLI 630. Political Contestation in Europe. 3 Credits.
Examines recent developments in the European integration process by exploring the potential for political contestation concerning European Union matters in national politics. Familiarizes students with the main theoretical approaches and the extensive empirical work dealing with the effects of European integration.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 631. European Security: The Enlarging European Union and the Trans-Atlantic Relationship. 3 Credits.
Permission of the instructor for undergraduates. Since the collapse of communism from 1989 to 1991, the European Union has faced a fundamentally different geopolitical neighborhood and an evolving relationship with the United States. We will explore how Europe has addressed new challenges to its security in its neighborhood and beyond.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

POLI 632. The European Union as a Global Actor. 3 Credits.
Permission of the instructor for undergraduates. This seminar introduces students to basic theoretical approaches to both international relations and the European Union by focusing on the European Union's external relations and foreign policies.

Rules & Requirements
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

Political Science Major, B.A.

Are you interested in politics in the U.S. and globally? Questions concerning how we ought to govern ourselves? Critical issues such as health, the environment, migration, and civil rights? Theories about how
power and resources are allocated in society? Do you want to study these subjects and pursue a career based on your interests? If so, you should consider studying political science.

As Harold Laswell famously noted, politics is "who gets what, when, and how." Political science focuses on the study of politics in the United States and around the world. As a political science major, you will take a broad range of courses across five subfields: American politics, comparative politics, international relations, political theory, and political methodology. The flexible major requirements also allow you to focus your coursework on the areas of political science that draw your interest.

Political science majors gain a versatile set of analytical and organizational skills that can be applied in a wide range of exciting careers in government, law, business, international organizations, nonprofit organizations, survey research, journalism, and teaching.

Student Learning Outcomes

Upon completion of the political science program, students should be able to:

- Demonstrate a command of at least one of the following areas of substantive knowledge:
  - Themes and concepts that have shaped the Western political tradition, as well as core contemporary political theoretical issues
  - Principles and processes of American political institutions, political behavior, and civic culture
  - Principles and processes of political institutions, political behavior, and civic culture in societies other than the United States
  - Fundamental structures and forces that shape relations between states
- Demonstrate competence in the identification, use, and development of theoretical explanations appropriate for the study of their respective areas of substantive focus. These skills may include:
  - Evaluating competing theories of political explanation
  - Reconstructing the logic of political theories
  - Constructing theoretical models intended to address specific questions in political analysis
- Demonstrate a working understanding of the methods appropriate for developing rigorous description and explanation of political phenomena. These may include one or more of the following, depending on the student’s area of substantive interest:
  - Principles of textual interpretation and critical evaluation
  - Identification, collection, and organization of empirical data
  - Use of qualitative, quantitative, and other analytical techniques for analyzing data

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

**Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.**
FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

**Political Theory**

Political theory courses examine political ideas and values like justice, power, and democracy that we use to describe, understand, and assess political practices and institutions. These courses analyze the writings and ideas of political thinkers in the classical and modern worlds.

**Sample Plan of Study**

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Special Opportunities in Political Science

Political Science Major, NUS Joint Degree

Political science majors may wish to consider applying for the Joint Degree Program, an innovative joint undergraduate degree program joining the University of North Carolina at Chapel Hill and the National University of Singapore. UNC–Chapel Hill undergraduates spend anywhere from two to four semesters at the National University of Singapore and receive a joint bachelor of arts degree from both institutions. For further information, contact the Study Abroad Office.

Honors in Political Science

The honors program provides political science majors the opportunity to pursue an independent research project over a two-semester period. Students begin the program by taking POLI 691H in the spring semester of their junior year. During this course they complete a thesis proposal.

If the proposal is acceptable, students continue their thesis research in the senior year under the supervision of the honors director and a faculty advisor in POLI 692H and POLI 693H. A maximum of two honors thesis courses can count as elective credit in the major. Upon successful completion of the program, which includes an oral defense of the thesis, students are awarded a degree with honors or with highest honors in political science.

To be admitted to the honors program, students must have at least a 3.3 overall grade point average and a 3.5 in political science courses. They should have completed at least four courses in the major. Students interested in participating in the honors program should apply by October 15 of their junior year. For further information on the honors program, please consult the department’s website (http://politicalscience.unc.edu/undergraduate/honors-program/).

High-Impact/Experiential Education

Internship courses provide students with the opportunity to earn academic credit while obtaining practical work experience in agencies and organizations clearly related to the study of political science. Political science majors who would like to obtain credit for internship work in government or public service must enroll in POLI 193. While this course fulfills the experiential education General Education requirement, POLI 193 is offered on a Pass/Fail basis only and does not count towards the nine courses required for the major. For specific information about the procedures and requirements for POLI 193, please consult the department’s website (http://politicalscience.unc.edu/undergraduate/internships/).

Study Abroad

Because we live in an increasingly globalized society, students are encouraged to study abroad as they are able. Students interested in the fields of comparative politics and international relations are strongly urged to participate in a study abroad program; indeed, all students may find the experience to be transformational and helpful in choosing a career path. Students are advised to work with the Study Abroad Office and to contact the undergraduate advisor when planning their study abroad experience. For information about applying study abroad credit toward the political science major, please consult the department’s website (http://politicalscience.unc.edu/undergraduate-programs/current-students/study-abroad/+).

Undergraduate Research

Courses in political science often include a research component, and students may engage in directed research under the supervision of a faculty advisor. The honors program provides political science majors the opportunity to pursue an independent research project over a two-semester period, culminating in a senior thesis. See the section above for more information on the honors program.

POLI 395 Mentored Research in Political Science provides an opportunity for students to pursue a special research interest under the direction of a faculty member of the Department of Political Science. The research and writing entailed in a mentored research course must be equivalent to the workload of a regular course. For specific information about the procedures and requirements for POLI 395, please consult the department’s website (http://politicalscience.unc.edu/undergraduate/independent-study/+).

Undergraduate Awards

Pi Sigma Alpha is the national political science honorary society. Membership is restricted to those political science majors who have completed 15 hours of political science with an overall grade average of 3.3 or better and a political science grade average of 3.5 or better.

The Thad L. Beyle Research Award is given to undergraduate political science majors, with priority given to students writing a senior honors thesis.

The William Scott Bryant Award funds research and travel for undergraduate majors in the Department of Political Science, with priority given to seniors.

The D’Amico Endowment Fund for Honors Students funds academic research and activities for honors students in the Department of Political Science.

The Shepard Jones Undergraduate Award in International Relations is given to an undergraduate student for the best essay in international relations (any field and broadly defined).

The L. Richardson Preyer Award for Excellence in Political Science is given to a senior judged by a committee of the faculty to have the most distinguished record of scholarship in political science and service to the community.

The Terry Sanford Award for Excellence is given to the undergraduate student judged to have written the best political science honors thesis.

Chair
Mark Crescenzi

Undergraduate Advisor
Department of Psychology and Neuroscience

Introduction

In the undergraduate study of psychology, the emphasis is on a broad acquaintance with the behavioral sciences, not specialization. The subject matter is preparatory to a career in psychology either in basic research and teaching, or in any number of professional applications to various human problems. A psychology major may prove valuable to those planning other professional careers such as medicine, law, education, or business, as well as to those who seek a broad cultural background in the behavioral sciences.

The undergraduate study of neuroscience embodies the liberal arts experience as it draws on techniques and findings from several academic disciplines including biology, chemistry, computer science, mathematics, physics, and psychology. The neuroscience major provides students with the fundamental knowledge and exposure needed to pursue careers and post-graduate studies in fields related to neuroscience, human development and aging, health and disease, rehabilitation, biomedical research, human-machine interactions, and other emerging disciplines.

Follow us on Twitter (@uncCHpsych) and Facebook (http://facebook.com/uncCHpsychology/).

Advising

All psychology and neuroscience majors have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. Several faculty members (for complete list, click here (https://psychology.unc.edu/academic-advising/)) are available to meet with current and prospective majors by appointment. Please note that there are different departmental advisors for the psychology and neuroscience majors. Students who are considering graduate studies in psychology or neuroscience are particularly encouraged to contact departmental academic advisors. Additional information about courses, undergraduate research opportunities, the honors program, and the Psychology Club may be obtained from the department’s website (https://psychology.unc.edu/).

Graduate School and Career Opportunities

The psychology B.A. and B.S. degree programs, and the neuroscience B.S. degree program, prepare students for entry into graduate programs in psychology, neuroscience, and a large number of related areas. All degrees, augmented by courses dictated by various graduate and professional schools, also provide training that has proved beneficial for those applying to business, law, and medical schools.

Undergraduate psychology and neuroscience majors seek and find employment in a wide range of occupations, and many continue their education and training in graduate school. Students should understand that many of the occupations traditionally associated with psychology (e.g., clinical psychologist) are licensed specialties that require graduate training.

Majors

- Neuroscience Major, B.S. (p. 844)
- Psychology Major, B.A. (p. 850)
- Psychology Major, B.S. (p. 853)

Minors

- Cognitive Science Minor (p. 859)
- Neuroscience Minor (p. 860)

Graduate Programs

- M.A. in Psychology (http://catalog.unc.edu/graduate/schools-departments/psychology-neuroscience/)
- Ph.D. in Psychology (http://catalog.unc.edu/graduate/schools-departments/psychology-neuroscience/)

Professors

Associate Professors

Carol L. Cheatham, Jessica Cohen, Sylvia Fitting, Kathleen M. Gates, Michael Hallquist, Keely Muscatell, Kathryn J. Reissner, Margaret A. Sheridan, Eva Telzer.

Assistant Professors

Dan Christoffel, Oscar Gonzalez, Dalal Safa.

Clinical Professors

Jennifer Kirby, Jennifer K. Youngstrom.

Research Professor

Montserrat N. Thiele.

Research Assistant Professors

Amanda Elton, Adam Miller.

Professor of the Practice

Viji Sathy.

Teaching Professors

Jeannie Loeb, F. Charles Wiss.
Teaching Associate Professors
Steven Buzinski, Vicki Chanon, Desiree Griffin, Patrick Harrison, Sabrina Robertson.

Teaching Assistant Professors
Sara Estle, Monica Gaudier-Diaz, Rosa Li, Shveta Parekh, Natasha Parikh, Rachel Penton.

Courses
NSCI-Neuroscience

Undergraduate-level Courses

NSCI 61. First-Year Seminar: Drug Addiction: Fact and Fiction. 3 Credits.
The course will tackle questions through classroom discussions, lectures, movies, writing assignments, and a visit to a research laboratory and a treatment facility. Students will be introduced to fundamental concepts in addiction research. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL, CI.
Grading Status: Letter grade.

NSCI 71. First Year Seminar: Plasticity and the Brain. 3 Credits.
This course will introduce students to the recent research and debate regarding neural plasticity and the ability of the healthy adult brain to change. Exciting new research suggests that the ability of the adult brain to change goes well beyond simply acquiring new knowledge and memories. Previously offered as PSYC 71.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

NSCI 89. First Year Seminar: Special Topics. 3 Credits.
Content varies by semester. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

NSCI 175. Introduction to Neuroscience. 3 Credits.
Provides an introduction to the structure and function of the nervous system. Fundamental principles will be introduced including nervous system anatomy; molecular and cellular properties of the nervous system; sensory and motor systems; current methods used in neuroscience; and how the nervous system produces behavior and cognition. This course provides greater breadth and depth of neuroscience topics, as compared to Biopsychology (PSYC 220). Previously offered as PSYC 175 and 315.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

NSCI 190. Special Topics in Neuroscience. 3 Credits.
An undergraduate seminar course that is designed to be a participatory intellectual adventure on an advanced, emergent, and stimulating topic within a selected discipline of neuroscience. This course does not count as credit toward the neuroscience major or minor.

Rules & Requirements
Grading Status: Letter grade.

NSCI 221. Neuropsychopharmacology. 3 Credits.
This course provides an introduction to the scientific study of psychopharmacology, with emphasis on drugs of abuse and psychotherapeutic drugs. Previously offered as NSCI/PSYC 320.

Rules & Requirements
Grading Status: Letter grade.

NSCI 222. Learning. 3 Credits.
Topics in Pavlovian and operant (instrumental) conditioning, learning theory, higher order cognitive learning, and application of those principles to mental-health related situations. Previously offered as PSYC 222. Honors version available.

Rules & Requirements
Grading Status: Letter grade.

NSCI 225. Sensation and Perception. 3 Credits.
Topics in vision, audition, and the lower senses. Receptor mechanisms, psychophysical methods, and selected perceptual phenomena will be discussed. Previously offered as PSYC 225. Honors version available.

Rules & Requirements
Grading Status: Letter grade.

NSCI 274. Neurophysiology Data Science Lab. 3 Credits.
In this research-based course, students will design novel experiments to examine sex differences in large neurophysiology datasets. Students will use Python to access and analyze data. Students will also learn research literature analysis, experimental design, data analysis, collaboration, and presentation skills by developing a research proposal, paper, and poster. Students may only receive credit for one of: NSCI 274, 276, 278 and 279. Restricted to Neuroscience Majors only.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.
NSCI 276. Neural Circuits of Hunger Lab. 3 Credits.
Students will design novel experiments to determine sex differences in nervous system control of food-seeking. Students will learn animal care, behavior, and electrophysiology by studying taste receptor sensitivity in fruit flies in response to interventions the students hypothesize will alter food-seeking. Students will also learn research literature analysis, experimental design, data analysis, and presentation skills through their proposal, paper, and presentation. Students may only receive credit for one of: NSCI 274, 276, 278 and 279. Restricted to Neuroscience Majors only.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisites, NSCI 175 and one of PSYC 210, 215, or STOR 155.
Grading Status: Letter grade.

NSCI 278. Molecular Imaging of the Brain. 3 Credits.
Students will design novel experiments to examine and visualize sex differences in the nervous system. Students will learn how to handle brain slices, neuroanatomy, microscopy, immunohistochemistry and imaging analysis techniques by studying neuronal diversity in the norepinephrine system of mice. Students will have the opportunity to develop and test hypotheses, write a research proposal, and present their work in poster form. Students may only receive credit for one of: NSCI 274, 276, 278 and 279. Majors only.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisites, NSCI 175 and one of the following: PSYC 210 or STOR 155.
Grading Status: Letter grade.

NSCI 279. Microglia Laboratory. 3 Credits.
In this laboratory course, students will utilize molecular biology techniques (e.g., immunohistochemistry and immunoassays) while developing and testing hypotheses regarding how environmental or experimental conditions alter microglia. Students will work in teams to design an experiment, and then collect, analyze, and report data. Students may only receive credit for one of: NSCI 274, 276, 278 and 279. Neuroscience majors only.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisites, NSCI 175 and one of the following: PSYC 210 or STOR 155.
Grading Status: Letter grade.

NSCI 290. Current Topics in Neuroscience. 3 Credits.
Various special areas of neuroscientific study, offered as needed. Honors version available.

Rules & Requirements
Requisites: Prerequisite, NSCI 175.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

NSCI 294. Service Learning in Neuroscience: APPLES. 1-3 Credits.
Permission of the instructor. Service learning component for students enrolled in Neuroscience APPLES courses. May not count toward the major or minor.

Rules & Requirements
IDEAs in Action Gen Ed: HI-SERVICE.
Requisites: Prerequisite, NSCI 175.
Grading Status: Letter grade.

NSCI 325. Neuroscience of Psychiatric Disorders. 3 Credits.
This course will examine the molecular, cellular, and neurocircuitry substrates of psychiatric disorders. Topics covered will include neurobiological theories of the major classes of psychiatric disorders, genetic susceptibility, neurotransmitter systems involved, neuroplasticity, and others.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisite, NSCI 175 or both PSYC 101 and PSYC 220.
Grading Status: Letter grade.

NSCI 326. Neuroscience Career Development, Networking & Applications in the Working World. 3 Credits.
This course provides students interested in the neuroscience field an opportunity to gain valuable networking, job application and interviewing skills. Over the course of the semester students will meet with neuroscience professionals and create application packages. Students will learn from individuals in neuroscience related jobs about the diverse careers options available and strategies for navigating the job market successfully. Students will explore advances in neuroscience research and how they relate to industry, research, etc. Majors only.

Rules & Requirements
Requisites: Prerequisite, NSCI 175.
Grading Status: Letter grade.

NSCI 390. Current Topics In Neuroscience. 3 Credits.
Various special areas of neuroscience study, offered as needed.

Rules & Requirements
Requisites: Prerequisite, NSCI 175.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

NSCI 395. Independent Research. 1-3 Credits.
Supervised research resulting in a written report. May be repeated for credit up to six hours. Up to three hours may count as a neuroscience methods elective. Permission of the instructor.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisites, NSCI 175 and two additional STEM courses one of which must be at the 200 level or above; a minimum of a 3.0 cumulative grade point average.
Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading Status: Letter grade.
Advanced Undergraduate and Graduate-level Courses

**NSCI 401. Animal Behavior. 3 Credits.**
Ethological, genetic, and physiological variables will be studied in relation to their behavioral effects. Previously offered as PSYC 401.

**Rules & Requirements**
- **Making Connections Gen Ed:** PL.
- **Requisites:** Prerequisites, NSCI 222, a combination of PSYC 101 and BIOL 101, or a combination of NSCI 175 and BIOL 101; PSYC 270 recommended.
- **Grading Status:** Letter grade.
- **Same as:** NBIO 401.

**NSCI 403. Advanced Biopsychology Laboratory. 3 Credits.**
"Hands on" laboratory course designed to introduce students to experimental protocols emphasizing "brain-behavior" relationships. Topics include gross neuroanatomy, stereotaxic surgery, and the effects of drugs on behavior. Previously offered as PSYC 403. Honors version available.

**Rules & Requirements**
- **Making Connections Gen Ed:** PX, EE: Mentored Research.
- **Requisites:** Prerequisite, NSCI 175 or PSYC 101 and 220.
- **Grading Status:** Letter grade.

**NSCI 405. Advanced Molecular Neuropharmacology. 3 Credits.**
This course will examine the molecular basis of drug action in the brain. Primary literature will be used to investigate pharmacological principles, receptor structure-function relationships, and receptor-ligand interactions, including ligand gated-ion channel and G-protein coupled receptor signaling.

**Rules & Requirements**
- **Making Connections Gen Ed:** PL.
- **Requisites:** Prerequisites, NSCI 175 or both PSYC 101 and PSYC 220, and NSCI 320/PSYC 320 or BIOL 202.
- **Grading Status:** Letter grade.

**NSCI 415. History of Neuroscience. 3 Credits.**
In this class, we will consider how neuroscience emerged as a multidisciplinary field. The class will cover key research findings that propelled the field forward. We will also delve into the autobiographies of some of the pioneering researchers who made these important discoveries. Previously offered as PSYC 415.

**Rules & Requirements**
- **Making Connections Gen Ed:** SS.
- **Requisites:** Prerequisite, NSCI 175, or both PSYC 101 and 220.
- **Grading Status:** Letter grade.

**NSCI 420. Functional Neuroanatomy. 3 Credits.**
For advanced undergraduate and graduate students. An introduction to human neuroanatomy, covering function of the neuroanatomy of each major system and relation to neurobehavioral disorders associated with damage to the neuroanatomy of the system. Previously offered as PSYC 420.

**Rules & Requirements**
- **Making Connections Gen Ed:** PL.
- **Requisites:** Prerequisites, NSCI 175, or PSYC 101 and 220; recommended preparation, EXSS 175.
- **Grading Status:** Letter grade.

**NSCI 421. Principles of Brain Circuits. 3 Credits.**
This course is designed for upper-level undergraduates who are interested in how brain circuits control behavior. A major focus will be the new technique of optogenetics that is revolutionizing our approach to systems neuroscience. Circuits that control movement, sensation, sleep, memory, and fear will be explored in detail. Points of emphasis will be circuits mediating pain as related to actions of opiates and circuits mediating feeding behavior as related to obesity.

**Rules & Requirements**
- **Making Connections Gen Ed:** PL.
- **Requisites:** Prerequisites, NSCI 175, or both PSYC 101 and PSYC 220; BIOL 101 recommended.
- **Grading Status:** Letter grade.

**NSCI 422. Genetics of Brain Diseases. 3 Credits.**
This course will explore the manifestations and causes of important neurological and psychiatric diseases. A particular focus will be the impact of advances in genetics on our understanding of these disorders. Disorders that affect large numbers of patients including Alzheimer’s disease, autism, and schizophrenia will be studied in detail.

**Rules & Requirements**
- **Making Connections Gen Ed:** PL.
- **Requisites:** Prerequisite, NSCI 175, or both PSYC 101 and PSYC 220.
- **Grading Status:** Letter grade.

**NSCI 423. Neurotechnology in Modern Neuroscience Research. 3 Credits.**
This course addresses fundamental challenges inherent in studying the brain and explores the theory, applications, and limitations of new and traditional neurotechnology. The unique ethical issues and significance of interdisciplinary approaches in neuroscience will also be highlighted. Students will analyze research literature and focus on cellular, molecular, and genetic techniques that are essential staples in the neuroscientist's toolkit. Students will also design experiments, utilize publicly available resources, and analyze big data generated by high-throughput approaches.

**Rules & Requirements**
- **Making Connections Gen Ed:** PL.
- **Requisites:** Prerequisite, NSCI 175, or both PSYC 101 and PSYC 220.
- **Grading Status:** Letter grade.

**NSCI 424. Neural Connections: Hands on Neuroscience. 3 Credits.**
This course will explore links between the brain and behavior through neuroscience outreach activities. Students will also reflect on the meaning of community engagement. By the end of the semester, each student must complete a minimum of 30 hours of service within the community. Previously offered as PSYC 424.

**Rules & Requirements**
- **IDEAs in Action Gen Ed:** HI-SERVICE.
- **Making Connections Gen Ed:** PL, EE: Service Learning.
- **Requisites:** Prerequisite, NSCI 175, or both PSYC 101 and 220.
- **Grading Status:** Letter grade.
NSCI 427. Neurobiology of Aging. 3 Credits.
This course will survey clinical and experimental literature regarding the neurobiology of aging, considering different theories of aging, how aging is studied in the laboratory, and recent findings. Biochemical, molecular, physiological, and behavioral changes associated with both "normal" and pathological aging will be considered. Previously offered as PSYC 427.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisites, NSCI 175, or both PSYC 101 and 220.
Grading Status: Letter grade.

NSCI 428. Neuroscience, Society, and the Media. 3 Credits.
Neuroscience is a "hot" topic in popular media. We will consider media coverage of neuroscientific research by reading the popular press versions of studies alongside the findings from primary sources and what kinds of topics are most often covered by the media and why. Previously offered as PSYC 428.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisite, NSCI 175, or both PSYC 101 and 220.
Grading Status: Letter grade.

NSCI 434. Cognitive Neuroscience. 3 Credits.
Introduction to cognitive neuroscience. Higher mental processes including attention, memory, language, and consciousness will be covered, with an emphasis on the neural mechanisms that form the substrates of human cognition. Previously offered as PSYC 434.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisite, One of the following: NSCI 175, NSCI 222, NSCI 225, PSYC 220, or PSYC 230.
Grading Status: Letter grade.

NSCI 437. Neurobiology of Learning and Memory. 3 Credits.
This course surveys current knowledge about and research into the neurobiological basis of learning and memory. Using a combination of lectures and student-led discussions, we will critically evaluate the molecular, cellular, systems, and behavioral research that strives to explain how the brain learns and remembers. Previously offered as PSYC 437.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisites, NSCI 175, or both PSYC 101 and 220; BIOL 101 recommended.
Grading Status: Letter grade.

NSCI 439. Neuroimmunology. 3 Credits.
The nervous and immune systems interact with each other in complex ways to influence behavior, health and well-being. In this course, we will examine the mechanisms by which these two systems interact. Further, we will cover how the nervous and immune systems function together to serve homeostasis, behavior and disease.

Rules & Requirements
Requisites: Prerequisite, NSCI 175 or PSYC 220.
Grading Status: Letter grade.

NSCI 490. Current Topics in Neuroscience. 3 Credits.
Various special areas of neuroscience study, offered as needed. Honors version available.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisite, NSCI 175.
Repeat Rules: May be repeated for credit. 6 total credits. 2 total completions.
Grading Status: Letter grade.

NSCI 493. Internship in Neuroscience. 3 Credits.
Required preparation, minimum of two other neuroscience courses and junior/senior standing. Designed for highly motivated neuroscience majors interested in exploring professional opportunities in neuroscience-related areas. Juniors and seniors only.

Rules & Requirements
Making Connections Gen Ed: HI-INTERN.
IDEAs in Action Gen Ed: HI-INTERN.
Requisites: Prerequisites, NSCI 175 and two additional NSCI courses.
Grading Status: Letter grade.

NSCI 507. Autism. 3 Credits.
Intensive service-learning seminar on autism includes a supervised community placement. Topics include historical diagnostic issues, etiological theories, assessing patterns of functioning, developmental/ life span issues, family concerns, and intervention approaches. Previously offered as PSYC 507.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisites, NSCI 175 or PSYC 101, and both PSYC 245 and 250.
Grading Status: Letter grade.

NSCI 568. Emotion. 3 Credits.
This course will provide a comprehensive overview of the scientific study of emotion. Topics will include theoretical models of emotion process and structure. A range of perspectives, including social, cultural, developmental, clinical, and cognitive psychology, as well as behavioral neuroscience, will be considered. Previously offered as PSYC 568.

Rules & Requirements
IDEAs in Action Gen Ed: FC-NATSCI.
Making Connections Gen Ed: SS.
Requisites: Prerequisite, NSCI 175 or PSYC 101.
Grading Status: Letter grade.

NSCI 573. Neuropsychobiology of Stress. 3 Credits.
Stress is a common experience in modern life that impacts psychological and physical health. In this course, we will delve into the scientific literature in psychology and neuroscience that explores how the brain and the body respond to stress, and how we can intervene to prevent stress from negatively impacting physical and mental health.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisites, PSYC 210 and 270, and NSCI 175 or both PSYC 101 and PSYC 220.
Grading Status: Letter grade.
NCSI 693H. Honors in Neuroscience I. 3 Credits.
To be taken in the fall of the last year of studies as the first course in the two-semester honors sequence. Students conduct research under the direction of a faculty advisor and receive classroom instruction in research-related topics. Required preparation, cumulative GPA of 3.3, one semester of NCSI 395 (or equivalent faculty-lead research experience), and acceptance through application to the honors committee.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.

NCSI 694H. Honors in Neuroscience II. 3 Credits.
To be taken as the second course in the two-semester honors sequence. Students conduct research under the direction of a faculty advisor and receive classroom instruction in research-related topics. Admission to the neuroscience honors program required.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisite, NCSI 693H.
Grading Status: Letter grade.

PSYC—Psychology
The courses available to undergraduate students are listed below. No courses numbered 700 or above may be taken by undergraduate students. Consult the current directory of classes for each semester’s offerings. PSYC 101 is prerequisite to ALL courses offered in the department except for first-year seminars, which are numbered below 100. Students and their advisors should take careful note of the specified prerequisites for advanced offerings in this listing.

Undergraduate-level Courses
PSYC 52. First-Year Seminar: Evolutionary Psychology. 3 Credits.
Students will gain an in-depth understanding of evolutionary psychology, a current amalgam of evolutionary biology, psychology, and anthropology that aims to view complex social and personality features of human behavior.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

PSYC 53. First-Year Seminar: Talking about Numbers: Communicating Research Results to Others. 3 Credits.
How do you persuade others with numbers? What are the common biases and fallacies that we have in understanding numbers and statistics? This course is designed to allow students to work together with their instructor and classmates to attain a shared intellectual adventure. This course is also a MakerSpace course. Students in this course will focus on the design and making of physical objects as a way to learn about course concepts.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: PL, QI.
Grading Status: Letter grade.

PSYC 54. First-Year Seminar: Families and Children. 3 Credits.
This course will consider family from a life-course perspective and family influences on child development. Research and theory concerning divorced and step families, single parents, gay and lesbian parents, and family processes that shape children’s development will be examined.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

PSYC 55. First-Year Seminar: Children’s Eyewitness Testimony. 3 Credits.
The course will address relevant literature on children's memory and cognition involving allegations of child sexual abuse.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

PSYC 58. First-Year Seminar: The Psychology of Mental States and Language Use. 3 Credits.
Examines how language use is affected by one's reasoning about the mental activities of others. We will examine the development of language, adult language use, and the language of autistic individuals, who are known to have difficulty reasoning about others’ minds. This seminar will follow a discussion format. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR, RESEARCH.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

PSYC 62. First-Year Seminar: Positive Psychology: The Science of Optimal Human Functioning. 3 Credits.
This course invites students to explore the opportunities presented by the vibrant and emerging field of positive psychology.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS, CI.
Grading Status: Letter grade.

PSYC 63. First-Year Seminar: Use, Misuse, and Addiction to Drugs in the 21st Century. 3 Credits.
This is a first-year seminar on the use of drugs in the U.S. Its purpose is to understand the effects of drug use on pain management, overdose prevention, substance use disorder, overdoses, diversion, legal consequences, public health policy, harm reduction, and treatment. Activities include lectures from technical experts, post-lecture discussions, readings and student-lead discussions, written summaries of class material, formal debates, and a final class project on an effective evidence-based overdose prevention program.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.
PSYC 66. First-Year Seminar: Eating Disorders and Body Image. 3 Credits.
Students will learn about anorexia and bulimia nervosa, as well as prevention and treatment efforts. The course explores factors related to these disorders and body image from a psychosocial perspective. Learning will occur through discussions, readings, videos, guest speakers, experimental assignments, writing assignments, and research projects.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.

PSYC 67. First-Year Seminar: The Senses of Animals. 3 Credits.
This course deals with the sensory systems of animals. A description of the human senses is included, but senses that differ from our own are emphasized. Some treatment of research methods is also included. Classes will be a mixture of lecture, discussion, and student reports.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

PSYC 68. First-Year Seminar: Psychology of Emotion. 3 Credits.
This first-year seminar is designed for students interested in exploring the psychological study of emotion. Topics include theoretical models of emotion process and structure, as well as a review of research questions about emotional expressions, autonomic physiology, affective neuroscience, emotion and reasoning, and emotion and health.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

PSYC 69. First-Year Seminar: Racism, Racial Identity, and African American Mental Health. 3 Credits.
This seminar examines the connections among racism experiences, racial identity, and mental health with a focus on African American children, adolescents, and young adults.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS.
Grading Status: Letter grade.

PSYC 72. First-Year Seminar: Visualizing Women's Lives and Experiences. 3 Credits.
This seminar explores the experiences of women by integrating content and methodologies from psychology with perspectives on the depiction of women in the arts, namely digital media. Students will study gender socialization, body image, work/achievement, sex and romance, motherhood, aging, and mental health with attention given to diversity.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Making Connections Gen Ed: SS, US.
Grading Status: Letter grade.
Same as: ARTS 72.

PSYC 75H. First-Year Seminar: Critical Thinking in Psychology and Beyond. 3 Credits.
This course focuses on the development of critical thinking skills as they relate to psychological science. In addition to examining the basic skills of logic, we will learn about the logic of the scientific method and the common errors of human cognition that impede critical thinking. We will then apply critical thinking skills to various widespread (and sometimes controversial) claims about abnormal behavior and its treatment.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

PSYC 89. First-Year Seminar: Special Topics. 3 Credits.
Special topics course. Content will vary each semester. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FY-SEMINAR.
Grading Status: Letter grade.

PSYC 101. General Psychology. 3 Credits.
PSYC 101 is a prerequisite for all psychology courses. This course will give an overview of the many different scientific perspectives from which to understand behavior, including the biological, cognitive, developmental, social and psychopathological perspectives. This course is offered in two formats: a large-course format and as a First-Year Launch.

Rules & Requirements
IDEAs in Action Gen Ed: FY-LAUNCH (only designated sections).
Making Connections Gen Ed: PL.
Grading Status: Letter grade.

PSYC 115. Reasoning with Data: Navigating a Quantitative World. 3 Credits.
Students will use mathematical and statistical methods to address societal problems, make personal decisions, and reason critically about the world. Authentic contexts may include voting, health and risk, digital humanities, finance, and human behavior. This course does not count as credit towards the psychology or neuroscience majors.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT.
Making Connections Gen Ed: QR.
Grading Status: Letter grade.
Same as: MATH 115, BIOL 115, STOR 115.

PSYC 180. Social Media, Technology, and the Adolescent Brain. 3 Credits.
In this course, we will learn about current evidence, theory, and controversies with regards to how technology use may affect adolescent development. Questions such as how technology is changing adolescents’ social relationships, impacting their mental health, and interacting with the developing brain to influence social, emotional, and cognitive development will be explored.

Rules & Requirements
Grading Status: Letter grade.
PSYC 190. Special Topics in Psychology. 3 Credits.
An undergraduate seminar course that is designed to be a participatory intellectual adventure on an advanced, emergent, and stimulating topic within a selected discipline in psychology. This course does not count as credit towards the psychology major.

Rules & Requirements
Grading Status: Letter grade.

PSYC 210. Statistical Principles of Psychological Research. 3 Credits.
Consideration of the methodological principles underlying psychological research, descriptive and inferential techniques, and the manner by which they may be employed to design psychological experiments and analyze behavioral data. Three lecture hours. Students may not receive credit for both PSYC 210/PSYC 210H and PSYC 215/PSYC 215H. Honors version available.

Rules & Requirements
IDEAs in Action Gen Ed: FC-KNOWING or FC-QUANT.
Prerequisites, PSYC 101.
Making Connections Gen Ed: QI.
PSYC 210.
Grading Status: Letter grade.

PSYC 215. Applied Data Science in Psychology and Neuroscience. 4 Credits.
This course is an alternative to PSYC 210, and therefore, satisfies the statistics requirement of the psychology and neuroscience majors. This is a Course-based Undergraduate Research Experience (CURE), focusing on descriptive and inferential statistical techniques and the manner by which they are employed to design and analyze behavioral data. Students may not receive credit in both PSYC 210 and 215.

Rules & Requirements
IDEAs in Action Gen Ed: FC-QUANT, RESEARCH.
Making Connections Gen Ed: EE- Mentored Research, QI.
Prerequisites, PSYC 101.
PSYC 215.
Grading Status: Letter grade.

PSYC 220. Biopsychology. 3 Credits.
Introductory course which surveys the biological bases of behavior. Topics may include nerve cells and nerve impulses, sensory systems, wakefulness and sleep, reproductive behaviors, and cognitive functions. This course would be an appropriate foundational course for Advanced Biopsychology (PSYC 402). Honors version available.

Rules & Requirements
Making Connections Gen Ed: PL.
Prerequisites, PSYC 101.
PSYC 220.
Grading Status: Letter grade.

PSYC 230. Cognitive Psychology. 3 Credits.
Topics in attention; memory; visual, auditory, and other forms of information processing; decision making; and thinking. Honors version available.

Rules & Requirements
Making Connections Gen Ed: PL.
Prerequisites, PSYC 101.
PSYC 230.
Grading Status: Letter grade.

PSYC 242. Introduction to Clinical Psychology. 3 Credits.
Overview of clinical psychology; history, scientific basis, and major activities and concerns, including assessment, psychotherapy and other psychological interventions, community psychology, ethics, and professional practice. Students may not receive credit for both PSYC 242 and 505. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS.
Prerequisites, PSYC 101.
PSYC 242.
Grading Status: Letter grade.

PSYC 245. Psychopathology. 3 Credits.
Major forms of behavior disorders in children and adults, with an emphasis on description, causation, and treatment. Honors version available.

Rules & Requirements
Prerequisites, PSYC 101.
PSYC 245.
Grading Status: Letter grade.

PSYC 250. Child Development. 3 Credits.
Study of the development of social and intellectual behavior in normal children and the processes that underlie this development. Emphasis is typically on theory and research. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS.
Prerequisites, PSYC 101.
PSYC 250.
Grading Status: Letter grade.

PSYC 260. Social Psychology. 3 Credits.
Introductory survey of experimental social psychology covering attitudes, interpersonal processes, and small groups. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS.
Prerequisites, PSYC 101.
PSYC 260.
Grading Status: Letter grade.

PSYC 270. Research Methods in Psychology. 3 Credits.
Students in this course will be exposed to a survey of methodology (i.e., experimental, quasi-experimental, non-experimental) used across various disciplines in psychology (i.e., social, clinical, development, cognitive, and neuroscience). In addition, students will work as a class to conduct research projects on a common theme. Students will spend class time planning, conducting, and writing up the results of this project. Class time will also be used to discuss methodological considerations in psychological research more broadly.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Prerequisites, PSYC 101.
PSYC 270.
Grading Status: Letter grade.

PSYC 290. Current Topics in Psychology. 1-3 Credits.
Various special areas of psychological study offered as needed. Course may be repeated for credit. Honors version available.

Rules & Requirements
Prerequisites, PSYC 101.
PSYC 290.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading Status: Pass/Fail.
PSYC 294. Service Learning in Psychology: APPLES. 1-3 Credits.
Permission of the instructor. Service learning component for students enrolled in psychology APPLES courses. May not count toward the major.

Rules & Requirements
IDEAs in Action Gen Ed: HI-SERVICE.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.
Grading Status: Letter grade.

PSYC 301. Pedagogy Course for Psychology & Neuroscience Undergraduate Learning Assistants. 3 Credits.
This course gives an overview of teaching methods that facilitate the acquisition of knowledge and understanding as well as entails hands-on experience in the classroom. Common misconceptions of learning as well as legal and ethical considerations related to working closely with an undergraduate population will also be covered. Departmental application and approval required.

Rules & Requirements
IDEAs in Action Gen Ed: HI-LEARNTA.
Grading Status: Letter grade.

PSYC 310. Applied Statistical Methods in the Psychological Sciences. 3 Credits.
This course extends statistical and data analytic concepts covered in PSYC 210 with direct applications to empirical data commonly encountered in psychological research. Topics include measurement, group comparisons, linear associations, and prediction. An equal balance is placed on statistical concepts, computer-based data analysis, and interpretation of findings.

Rules & Requirements
Making Connections Gen Ed: SS, QI.
Requisites: Prerequisite, PSYC 210, PSYC 215, SOCI 252, or STOR 155.
Grading Status: Letter grade.

PSYC 330. Introduction to Cognitive Science. 3 Credits.
Recommended preparation, PSYC 210 or another quantitative reasoning course. An introduction to the interdisciplinary study of the mind, intelligent behavior, information processing, and communication in living organisms and computers.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisite, PSYC 101.
Grading Status: Letter grade.

PSYC 390. Current Topics in Psychology. 1-3 Credits.
Various special areas of psychological study, offered as needed. Course may be repeated for credit.

Rules & Requirements
Requisites: Prerequisite, PSYC 101.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 2 total completions.
Grading Status: Letter grade.

PSYC 395. Independent Research. 1-3 Credits.
A minimum of a 3.0 cumulative grade point average. Permission of the instructor. Supervised research resulting in a written report. May be repeated for credit up to eight hours. Up to three hours may count as a psychology elective.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Requisites: Prerequisites, PSYC 101 and two additional psychology courses, at least one of which must be numbered 200 or greater.
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses
PSYC 404. Clinical Psychopharmacology. 3 Credits.
This course will investigate the pharmacological effects and the clinical efficacy of drugs used to treat behavior disorders.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisite, PSYC 101.
Grading Status: Letter grade.

PSYC 430. Human Memory. 3 Credits.
This course explores classic and current issues in the study of human memory. Topics include working memory, encoding and retrieval processes, implicit memory, reconstructive processes in memory, eyewitness memory, developmental changes in memory, neuropsychology and neuroscience of memory and memory disorders, memory improvement, and the repressed/recovered memory controversy.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisites, PSYC 101 and two additional psychology courses, at least one of which must be numbered 200 or greater.
Grading Status: Letter grade.

PSYC 432. Psychology of Language. 3 Credits.
Recommended preparation, PSYC 230 or LING 101 or LING 400. This course examines the mental representations and cognitive processes that underlie the human ability to use language. Covers what people know about language, how they process it, and how people make inferences about the speaker’s meaning based on context. Recent work in experimental psycholinguistics is discussed.

Rules & Requirements
Requisites: Prerequisite, PSYC 101.
Grading Status: Letter grade.

PSYC 433. Behavioral Decision Theory. 3 Credits.
Simple mathematical and psychological models of judgment and choice, and related experiments, are treated, as are applications to real world problems in medical, environmental, policy, business, and related domains.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisite, PSYC 101.
Grading Status: Letter grade.
PSYC 435. Gender and Pronouns. 3 Credits.
This course offers an inside look at pronouns from an interdisciplinary perspective. From a cognitive perspective, we examine major models of the role that pronouns play, and the mental processes involved in using them. From a social perspective, we examine the role pronouns play in marking gender identity, and how both language usage and gender concepts are currently in flux. Students also learn about research methods and conduct a novel empirical study.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisite, PSYC 101.
Grading Status: Letter grade.

PSYC 438. Research Topics in the Psychology of Language. 3 Credits.
Examines the cognitive mechanisms behind language comprehension, focusing on how we make predictions about the speaker’s meaning, based on context, background, gestures, and other cues. In this course-based undergraduate research experience (CURE), groups of students generate novel research questions, perform their own research experiments, and present the results in spoken and written format.

Rules & Requirements
Making Connections Gen Ed: FC-LAB, RESEARCH.
Requisites: Prerequisites, PSYC 101; Recommended: PSYC 270 and any course in linguistics (PSYC 432, any LING course, or any course with a substantial linguistics component).
Grading Status: Letter grade.

PSYC 461. Cognitive Development. 3 Credits.
An examination of the development of attention, perception, learning, memory, and thinking in normal children.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisites, PSYC 101 and 250.
Grading Status: Letter grade.

PSYC 463. Development of Social Behavior and Personality. 3 Credits.
Developmental processes during early childhood as these relate to social behavior and personality.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101 and either PSYC 210 or 215.
Grading Status: Letter grade.

PSYC 465. Poverty and Development. 3 Credits.
Poverty is one of the most consistent and influential risk factors for problematic development. This course focuses on the scientific study of how poverty affects development across the human life span.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101 and 250.
Grading Status: Letter grade.

PSYC 467. The Development of Black Children. 3 Credits.
PSYC 210 or 215 recommended. A survey of the literature on the development of black children. Topics include peer and social relations, self-esteem, identity development, cognitive development, school achievement, parenting, family management, and neighborhood influences.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101 and 250.
Grading Status: Letter grade.

PSYC 468. Family as a Context for Development. 3 Credits.
Examines the effects of family influences on children’s development. Topics include family theories, genetics, family structure (e.g., single parents, working mothers, divorce), discipline, parent behavior and values and beliefs, fathers and ethnic diversity.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101, 250, and either PSYC 210 or 215.
Grading Status: Letter grade.

PSYC 469. Evolution and Development of Biobehavioral Systems. 3 Credits.
Examines the evolution and development of behavioral patterns and their physiological substrates.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisites, BIOL 101 and PSYC 101, 210, or 215.
Grading Status: Letter grade.

PSYC 471. The Study of Adolescent Issues and Development. 3 Credits.
The developmental period of adolescence is studied from a multidisciplinary perspective. The course will distinguish among early, middle, and late adolescence and will cover several theoretical perspectives.

Rules & Requirements
Requisites: Prerequisites, PSYC 101, 250, and either PSYC 210 or 215.
Grading Status: Letter grade.

PSYC 472. Racial Discrimination and Minority Youth. 3 Credits.
This course examines the effects of racial discrimination among African American, Latino, Asian American, and Native American adolescents using a psychological perspective to critically examine empirical research. The course examines racial discrimination, power, and equity and is recommended for students interested in serious, thought-provoking discussions.

Rules & Requirements
Making Connections Gen Ed: SS, US.
Requisites: Prerequisites, PSYC 101, 250, 260, and either PSYC 210 or 215.
Grading Status: Letter grade.
PSYC 474. Digital Mental Health. 3 Credits.
This course will provide an overview of the use of digital technologies to increase opportunities for training in, access to, and use of evidence-based mental health services. Coverage will include the current status of and future directions in research, innovations in service delivery, and policy implications. Special attention will be given to the evolution of the field, the potential costs and benefits, and the promise to address health disparities in particular.

Rules & Requirements
Requisites: Prerequisite, PSYC 101.
Grading Status: Letter grade.

PSYC 490. Current Topics in Psychology. 3 Credits.
Various special areas of psychological study, offered as needed. Course may be repeated for credit. Honors version available.

Rules & Requirements
Repeat Rules: May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 2 total completions.
Grading Status: Letter grade.

PSYC 493. Internship in Psychology. 3 Credits.
Required preparation, minimum of two other psychology courses and junior/senior standing. Designed for highly motivated psychology majors interested in exploring professional opportunities in psychology-related areas. Students complete hands-on internships at community sites for approximately 120 hours across the semester. Students also attend a weekly one-hour class with other interns.

Rules & Requirements
IDEAs in Action Gen Ed: HI-INTERN.
Requisites: Prerequisite, PSYC 101.
Grading Status: Letter grade.

PSYC 500. Developmental Psychopathology. 3 Credits.
A survey of theories bearing on atypical development and disordered behavior, and an examination of major child and adolescent behavior problems and clinical syndromes.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101, 245, and 250.
Grading Status: Letter grade.

PSYC 501. Theoretical, Empirical Perspectives on Personality. 3 Credits.
An in-depth coverage of the traditional clinically based personality theories of the early 20th century contrasted with more recent empirically based perspectives.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisite, PSYC 101.
Grading Status: Letter grade.

PSYC 502. Psychology of Adulthood and Aging. 3 Credits.
A developmental approach to the study of adulthood, from young adulthood through death. Topics include adult issues in personality, family dynamics, work, leisure and retirement, biological and intellectual aspects of aging, dying, and bereavement.

Rules & Requirements
IDEAs in Action Gen Ed: HI-SERVICE.
Requisites: Prerequisites, PSYC 101 and 250.
Grading Status: Letter grade.

PSYC 503. African American Psychology. 3 Credits.
This course examines race and culture in the psychological processes and behavior of African Americans.

Rules & Requirements
Making Connections Gen Ed: SS, US.
Requisites: Prerequisite, PSYC 101.
Grading Status: Letter grade.

PSYC 504. Health Psychology. 3 Credits.
An in-depth coverage of psychological, biological, and social factors that may be involved with health.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisites, PSYC 101 and 245.
Grading Status: Letter grade.

PSYC 505. Sports and Performance Psychology. 3 Credits.
This course examines the mental health and psychological factors that impact the performance of athletes. Furthermore, the mental health of sports fans, along with the physiological and psychological impact of being a spectator will be examined.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisite, PSYC 101, 242 or 245.
Grading Status: Letter grade.

PSYC 512. Popularity, Friendship, and Peer Relations. 3 Credits.
This course will review literature regarding peer relations among children and adolescents, including peer acceptance/rejection, popularity, bases of friendship selection, peer crowds, romantic relationships, and theories of peer influence.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisite, PSYC 101.
Grading Status: Letter grade.

PSYC 514. Mania and Depression. 3 Credits.
The social, developmental, and biological contributions to mania and depression are examined, as well as the impact of these moods on the brain, creativity, relationships, quality of life, and health.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101 and 245.
Grading Status: Letter grade.
PSYC 517. Addiction. 3 Credits.
PSYC 245 and 270 recommended but not required. This course will provide students with a comprehensive overview of the etiology and treatment of addiction, along with exposure to real-life stories of addiction.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisite, PSYC 101.
Grading Status: Letter grade.

PSYC 525. Psychological Archival Data Science. 3 Credits.
This course addresses techniques in answering new questions with existing data. Students will learn about data from multiple perspectives: different data source and types, intended audiences, and visualization, analysis, and presentation formats. This will make students more savvy consumers as well as producers of data.

Rules & Requirements
Making Connections Gen Ed: CI, EE- Mentored Research, QI.
Requisites: Prerequisites, PSYC 270 and 245 or 500.
Grading Status: Letter grade.

PSYC 528. Clinical Research: Design, Analyze, Disseminate. 3 Credits.
Students work with a community partner to identify a research question related to our understanding and treatment of psychological health. Using an iterative scientific method, students collaborate to develop hypotheses, to prepare and analyze data, to propose interpretations of data, and to present their results to the public.

Rules & Requirements
Making Connections Gen Ed: RESEARCH.
Making Connections Gen Ed: EE- Mentored Research, QI.
Requisites: Prerequisites, PSYC 101 and either PSYC 210 or 215; Pre- or corequisite, PSYC 270.
Grading Status: Letter grade.

PSYC 530. Design and Interpretation of Psychological Research. 3 Credits.
Emphasis on the methodological principles underlying experimental and correlational research. Interaction of theory and practice in the design and interpretation of psychological studies. This is a course-based undergraduate research experience (CURE).

Rules & Requirements
Making Connections Gen Ed: PL, CI, EE- Mentored Research, QI.
Requisites: Prerequisites, PSYC 101 and 270.
Grading Status: Letter grade.

PSYC 531. Tests and Measurement. 3 Credits.
Basic psychometric theory underlying test construction and utilization. Detailed study of issues and instruments used in assessing intellectual functioning, educational progress, personality, and personnel selection.

Rules & Requirements
Making Connections Gen Ed: SS, QI.
Requisites: Prerequisites, PSYC 101, and either PSYC 210 or 215.
Grading Status: Letter grade.

PSYC 532. Quantitative Psychology. 3 Credits.
This course examines the science of quantitative psychology. Topics include the analysis of data, the design of questionnaires, and the assessment of psychological attributes, among others. Honors version available.

Rules & Requirements
Requisites: Prerequisite, PSYC 210, 215, SOCI 252 or 500.
Grading Status: Letter grade.

PSYC 533. The General Linear Model in Psychology. 3 Credits.
Consideration of multiple regression and the general linear model in psychological research, including hypothesis testing, model formulation, and the analysis of observational and experimental data. Honors version available.

Rules & Requirements
Requisites: Prerequisite, ECON 400, PSYC 210, PSYC 215, SOCI 252 or 500.
Grading Status: Letter grade.

PSYC 534. Introduction to Computational Statistics. 3 Credits.
Introduction to programming and the implementation of statistical techniques. Topics include data manipulation, graphical procedures, writing loops and functions, data simulation, use of regular expressions, and scraping data from the web.

Rules & Requirements
Making Connections Gen Ed: PL, QI.
Requisites: Prerequisite, PSYC 210, 215, SOCI 252 or 500.
Grading Status: Letter grade.

PSYC 559. Applied Machine Learning in Psychology. 3 Credits.
As opposed to hypothesis-driven data analysis, machine learning takes an exploratory and predictive approach to data analysis. This course introduces machine learning approaches in psychology to identify important variables for prediction and uncover complex patterns in datasets, such as nonlinearity, interactions, or clusters. Classes include theoretical lectures and hands-on examples.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101, and either PSYC 210 or 215.
Grading Status: Letter grade.

PSYC 561. Social Cognition. 3 Credits.
Theory and research in social psychology, which explores the cognitive processes underlying social phenomena. Specific topics covered include attributions, emotions, automaticity, heuristics, self, goals, stereotyping, expectancies, social motives, and others. Honors version available.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101, 260, and either PSYC 210 or 215.
Grading Status: Letter grade.
PSYC 564. Interpersonal Relationships. 3 Credits.
PSYC 270 Recommended. This advanced course will comprehensively cover the social psychological literature on normally-developing interpersonal relationships, with implications for relationships with family, friends, co-workers, and romantic partners. This is a research-intensive course with a major aspect involving an independent research project to facilitate learning by doing.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101, 260, and either PSYC 210 or 215.
Grading Status: Letter grade.

PSYC 565. Stereotyping, Prejudice, and Discrimination. 3 Credits.
PSYC 270 recommended. Examines the determinants, functions, processes, and consequences of stereotyping, prejudice, and discrimination. Prospects for change are considered. Class presentations and participation required.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101, 260, and either PSYC 210 or 215.
Grading Status: Letter grade.

PSYC 566. Attitude Change. 3 Credits.
A detailed consideration of the theoretical issues in attitude and belief change.

Rules & Requirements
Requisites: Prerequisites, PSYC 101, 260, and either 210 or 215.
Grading Status: Letter grade.

PSYC 567. Research in Positive Psychology. 3 Credits.
This advanced course in positive psychology is research intensive and intended as a capstone for majors in psychology. Majors only.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101, 260, and either PSYC 210 or 215.
Grading Status: Letter grade.

PSYC 570. The Social Psychology of Self-Regulation. 3 Credits.
PSYC 270 recommended. An intensive review of self-regulation theory and research, focusing on the cognitive, motivational, and affective processes involved in goal commitment, monitoring, and overriding behavioral responses.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101, 260, and either PSYC 210 or 215.
Grading Status: Letter grade.

PSYC 571. Social Neuroscience. 3 Credits.
Social neuroscience is the study of how social processes and experiences are represented and influence the structure and function of the brain. This course will focus primarily on functional magnetic resonance imaging (fMRI) studies of humans, though we will also discuss other brain imaging techniques and patient studies. Previously offered as NSCI 571.

Rules & Requirements
Making Connections Gen Ed: PL.
Requisites: Prerequisite, PSYC 220 or NSCI 175, PSYC 260 recommended.
Grading Status: Letter grade.

PSYC 572. Theoretical and Empirical Perspectives on Sex and Gender Differences. 3 Credits.
An in-depth examination of psychological research and theory pertaining to the influence of gender on the lives of men and women. In general, emphasis will be placed on understanding gender as a social psychological construct.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101 and 260.
Grading Status: Letter grade.

PSYC 573. Psychology of Women and Gender. 3 Credits.
This course will discuss theories, methods, and empirical research findings on the physical, cognitive, emotional, and social aspects of the psychology of women, as well as topics such as feminist psychology, intersectionality, bias in psychological research, sexual orientation, sexuality, lifespan development, work, and health. Men and masculinity, the psychology of transgender persons, and a critique of the gender binary are also discussed.

Rules & Requirements
Making Connections Gen Ed: SS.
Requisites: Prerequisites, PSYC 101 or WGST 101.
Grading Status: Letter grade.

PSYC 574. Science of Moral Understanding. 3 Credits.
Each of us is committed to our moral values and often struggle to understand those who with different beliefs. This course will focus on difficult moral disagreements (e.g., abortion, euthanasia), using social psychology and related disciplines to reveal the basis of our moral judgments, the drivers of moral divides, and how best to bridge them. We will cover both theory and application, and practice having constructive dialogue and civil disagreement to forge moral understanding.

Rules & Requirements
Making Connections Gen Ed: PH.
Requisites: Prerequisites, PSYC 101, and 260.
Grading Status: Letter grade.
**PSYC 575. Positive Psychology. 3 Credits.**
This course examines positive psychology, also called the science of thriving. One basic premise of positive psychology is that thriving individuals and thriving communities require the presence and interplay of positive emotions, positive relationships, and positive meaning. A second basic premise is that thriving does not result simply by curing pathology and eliminating problems. Rather, thriving requires building and capitalizing on human strengths and capacities. Students will apply course concepts in their everyday lives.

**Rules & Requirements**
- **Making Connections Gen Ed:** SS.
- **Requisites:** Prerequisite, PSYC 101.
- **Grading Status:** Letter grade.

**PSYC 601. Psychology and Law. 3 Credits.**
Examines the legal system from the perspective of psychology methods and research, with a focus on criminal law. Discusses dilemmas within the law and between the legal system and psychology.

**Rules & Requirements**
- **Requisites:** Prerequisite, PSYC 101, and either PSYC 210 or PSYC 215.
- **Grading Status:** Letter grade.

**PSYC 602. Evolutionary Psychology. 3 Credits.**
Major topics of general psychology are examined from an evolutionary perspective with an emphasis on empirical studies asking why much current human behavior and experience would have been adaptive for our early ancestors.

**Rules & Requirements**
- **Requisites:** Prerequisite, PSYC 101.
- **Grading Status:** Letter grade.

**PSYC 693H. Honors in Psychology I. 3 Credits.**
Required preparation, cumulative GPA of 3.3, in-process or completion of PSYC 395 (or equivalent experience in a faculty research lab), and acceptance through application to the honors committee. To be taken in the fall of the last year of studies as the first course in the two-semester honors sequence. Students conduct research under the direction of a faculty advisor and receive classroom instruction in research-related topics.

**Rules & Requirements**
- **IDEAs in Action Gen Ed:** RESEARCH.
- **Making Connections Gen Ed:** SS, CI, EE- Mentored Research.
- **Grading Status:** Letter grade.

**PSYC 694H. Honors in Psychology II. 3 Credits.**
Admission to the psychology honors program required. To be taken as the second course in the two-semester honors sequence. Students conduct research under the direction of a faculty advisor and receive classroom instruction in research-related topics.

**Rules & Requirements**
- **IDEAs in Action Gen Ed:** RESEARCH.
- **Making Connections Gen Ed:** SS, CI, EE- Mentored Research.
- **Requisites:** Prerequisite, PSYC 693H.
- **Grading Status:** Letter grade.

### Contact Information

**Department of Psychology and Neuroscience**

Visit Program Website (http://psychology.unc.edu)

Davie Hall, CB# 3270

---

**Neuroscience Major, B.S.**

Neuroscience embodies the liberal arts experience as it draws on techniques and findings from several academic disciplines including biology, chemistry, computer science, mathematics, physics, and psychology. This program provides students with the fundamental knowledge and exposure needed to pursue careers and post-graduate studies in fields related to psychology, human development and aging, health and disease, rehabilitation, biomedical research, human-machine interactions, and other emerging disciplines.

The neuroscience major is open to all undergraduate students.

### Student Learning Outcomes

Upon completion of the neuroscience program, students should be able to:

- **Knowledge Base:** Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and trends in neuroscience including its links to other science disciplines
- **Research Methods:** Apply basic research methods in neuroscience, including research design, data analysis, and interpretation
- **Critical Thinking Skills:** Demonstrate critical and creative thinking, skeptical inquiry, and when possible, the scientific approach to solve problems related to neuroscience
• Application: Apply neuroscience principles to personal, social, and organizational issues
• Values: Demonstrate use of empirical evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinning of neuroscience as a science

### Requirements

In addition to the program requirements, students must

• earn a minimum final cumulative GPA of 2.000
• complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
• take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill

For more information, please consult the degree requirements section of the catalog (p. 1240).

Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

Special Opportunities in Psychology and Neuroscience

Honors in Psychology and Neuroscience
Any major in the program with an overall grade point average of 3.3 or higher and prior research experience in a faculty lab (e.g., PSYC 395 or NSCI 395) is eligible for enrollment in the departmental senior honors program. Each candidate for honors participates in a two-semester course sequence (PSYC 693H and PSYC 694H or NSCI 693H and NSCI 694H) and carries out independent research in an area of the student’s choice under the guidance of a psychology and neuroscience faculty member. Please see the department website for the application form (https://psychology.unc.edu/honors-program/) and additional information.

Departmental Involvement
Membership in the Psychology Club (https://heellife.unc.edu/organization/psychology-club/) is open to any interested psychology major. There is no minimum grade point average requirement. The club meets frequently to discuss psychology-related topics and learn about careers in psychology.

The Carolina Psychology and Neuroscience Ambassadors Program (https://tarheelslive/psychologyandneuroscienceambassadors/) is a peer mentoring program which connects more junior psychology and/or neuroscience majors with more experienced students, in order to create stronger networking and provide greater access to support and resources.

The Carolina Neuroscience Club (http://carolinaneuroscience.web.unc.edu) brings together students who have an interest in the brain and nervous system. Club members meet regularly to discuss courses, research articles, and post-college neuroscience opportunities. Membership is open to anyone interested in neuroscience.

Psi Chi (https://heellife.unc.edu/organization/psi-chi--psychology-national-honor-society-uncch/) is the National Honor Society for psychology. UNC’s chapter strives to increase awareness of career options as well as the role of psychology in the community, among exemplary psychology students.

Nu Rho Psi is the National Honor Society for neuroscience. The Nu Rho Psi chapter at Carolina aims to build connections among neuroscience students on campus, celebrate brain awareness week in our community, provide mentorship to underclassmen interested in the field, and much more.

The Undergraduate Research Society (http://urs.web.unc.edu/) raises undergraduate awareness of research on campus. The society works to bridge interactions between undergraduates, graduate students and faculty members as well as provides opportunities for undergraduate researchers to further their research interests.

Helping Give Away Psychological Science (https://www.hgaps.org/) is a student-based nonprofit organization to improve information about psychology on Wikipedia, on other online sites, and in the community.

High-Impact/Experiential Education
Several opportunities for experiential education are available. The Karen M. Gil Internship Program (http://psychology.unc.edu/undergraduate-studies/gil-internship/) offers both course credit and a monthly stipend to selected psychology and neuroscience majors who are placed in approved internship sites in the community. Interns are selected through a competitive process (minimum grade point average is 3.4). Other experiential education opportunities include PSYC 395; NSCI 395; PSYC 294; NSCI 294; NSCI 424; APPLES, performed either through the APPLES program or in conjunction with a specific psychology class; and other classes for which service learning is a central focus. See course listings for details.

Undergraduate Awards
The Department of Psychology and Neuroscience administers several undergraduate awards: the Dashiell-Thurstone Prize; the David Bray Peele Undergraduate Award; the Donald T. Lysle Service Award; the Lindquist Undergraduate Research Award; the J. Steven Reznick Award for Diversity Enhancement in Psychological Research; the J. Steven Reznick Diversity and Psychological Research Grant; and the Susan M. McHale Award for Outstanding Psychological Research by a Student for Diversity Enhancement. The department also supports awards that recognize at Carolina. The department also supports awards that recognize exemplary psychology students.

The J. Steven Reznick Award for Outstanding Research Who Enhances Diversity, as well as several fellowships and grants administered through the UNC Office for Undergraduate Research or the UNC Honors Carolina Office. Additional honors include election to Psi Chi, the national honor society for psychology undergraduates, and election to Nu Rho Psi, the national honor society for neuroscience undergraduates. Each year, the Lindquist Undergraduate Research Award is given to several undergraduate students to support their research; the Dashiell-Thurstone Prize is awarded to one student for the best undergraduate research project; the David Bray Peele Undergraduate Award is given for the best honors project; and the Donald T. Lysle Service Award is given to a psychology or neuroscience major who has made exemplary service contributions. The Donald T. Lysle Service Award is presented at the Chancellor’s Award Ceremony, the only campus-wide recognition at Carolina. The department also supports awards that support diversity. The J. Steven Reznick Award for Outstanding Research That Enhances Diversity is for a graduating senior who has conducted excellent research that contributes to psychological knowledge about diversity and the J. Steven Reznick Diversity and Psychological Research Grant as well as the Susan M. McHale Award for Outstanding Research...
by a Student Who Enhances Diversity are awarded to student researchers who identify as being from an underrepresented population. For each of these awards, diversity is broadly defined, including but not limited to diversity based on race, ethnicity, sexual orientation, gender, disability, religious affiliation, and socioeconomic status. For additional details on these awards, please visit the Psychology and Neuroscience page on undergraduate awards (https://psychology.unc.edu/departmental-awards/#undergraduateawards).

Undergraduate Research

Qualified students interested in doing independent research under the direction of a faculty member may enroll for independent research credit (PSYC 395 or NSCI 395). Students interested in this option should speak directly with psychology faculty members regarding opportunities in their laboratories. Additional information is available on the department’s website (http://psychology.unc.edu/undergraduate-studies/undergraduate-research/). Many other psychology courses also include heavy research components. See the research methods, research intensive, and research exposure courses at the Office for Undergraduate Research (https://our.unc.edu/find-research-courses/).

Psychology Major, B.A.

In the undergraduate study of psychology, the emphasis is on a broad acquaintance with the behavioral sciences, not specialization. The subject matter is preparatory to a career in psychology either in basic research and teaching, or in any number of professional applications to various human problems. A psychology major may prove valuable to those planning other professional careers such as medicine, law, education, or business, as well as to those who seek a broad cultural background in the behavioral sciences.

Student Learning Outcomes

Upon completion of the psychology (B.A., B.S.) and/or neuroscience (B.S.) programs, students will attain the following:

- Knowledge Base: Demonstrate knowledge of the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology and/or neuroscience, including its links to other social science disciplines
- Research Methods: Apply basic research methods in psychology and/or neuroscience, including research design, data analysis, and interpretation
- Critical Thinking Skills: Demonstrate critical and creative thinking, skeptical inquiry, and when possible, the scientific approach to solve problems related to behavior, mental processes and the biological mechanisms which underlie behavior and mental processes
- Application: Apply psychological and/or neuroscience principles to personal, social, and organizational issues
- Values: Demonstrate use of empirical evidence, tolerate ambiguity, act ethically, be mindful of diversity and reflect other values that are the underpinnings of psychology and/or neuroscience as a science

Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
• earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

One course below 400 from four of the five following psychology program areas:

Behavioral and Integrative Neuroscience:
- NSCI 221 Neuropsychopharmacology
- NSCI 222 Learning
- NSCI 225 Sensation and Perception
- PSYC 220 Biopsychology

Clinical:
- PSYC 242 Introduction to Clinical Psychology
- PSYC 245 Psychopathology

Cognitive:
- NSCI 225 Sensation and Perception
- PSYC 230 Cognitive Psychology

Developmental:
- PSYC 250 Child Development

Social:
- PSYC 260 Social Psychology

Two additional PSYC and/or NSCI courses numbered between 400 and 650; may not include PSYC 493 or NSCI 493

One additional PSYC and/or NSCI course above 101; may include three hours of PSYC 395, PSYC 693H, PSYC 694H, or NSCI 395; may not include PSYC 190 or NSCI 190.

**Sample Plan of Study**

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

1 Psychology and Neuroscience double majors may also use any NSCI 27* course to fulfill this requirement.
2 Psychology and Human Development Family Studies double majors may also use EDUC 408 to fulfill this requirement.
3 NSCI 225 can meet either the behavioral neuroscience or cognitive requirement, but not both.

A student may submit a maximum of 45 hours of credit in psychology courses (including PSYC 101) toward the completion of the B.A. degree.

Students planning to enter graduate programs in psychology are urged to include a research-intensive course such as PSYC 395, NSCI 395, PSYC 530, or PSYC 693H and PSYC 694H in their program.
COMP 101 or COMP 110 or COMP 116 or MATH 130 or MATH 152 or MATH 231

Fluency in Information Technology 3-4

Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in Connect Carolina using the FY-Launch attribute.

May include three hours of PSYC 395, PSYC 693H, PSYC 694H, NSCI 395, NSCI 693H, or NSCI 694H. May not include PSYC 190.

**Special Opportunities in Psychology and Neuroscience**

**Honors in Psychology and Neuroscience**

Any major in the program with an overall grade point average of 3.3 or higher and prior research experience in a faculty lab (e.g., PSYC 395 or NSCI 395) is eligible for enrollment in the departmental senior honors program. Each candidate for honors participates in a two-semester course sequence (PSYC 693H and PSYC 694H or NSCI 693H and NSCI 694H) and carries out independent research in an area of the student's choice under the guidance of a psychology and neuroscience faculty member. Please see the department website for the application form (https://psychology.unc.edu/honors-program/) and additional information.

**Departmental Involvement**

Membership in the Psychology Club (https://heellife.unc.edu/organization/psychology-club/) is open to any interested psychology major. There is no minimum grade point average requirement. The club meets frequently to discuss psychology-related topics and learn about careers in psychology.

The Carolina Psychology and Neuroscience Ambassadors Program (https://tarheelslive.psychologyanndneuroscienceambassadors/) is a peer mentoring program which connects more junior psychology and/or neuroscience majors with more experienced students, in order to create stronger networking and provide greater access to support and resources.

The Carolina Neuroscience Club (http://carolinaneuroscience.web.unc.edu) brings together students who have an interest in the brain and nervous system. Club members meet regularly to discuss courses, research articles, and post-college neuroscience opportunities. Membership is open to anyone interested in neuroscience.

Psi Chi (https://heellife.unc.edu/organization/psi-chi--psychology-national-honor-society-unch/) is the National Honor Society for psychology. UNC’s chapter strives to increase awareness of career options as well as the role of psychology in the community, among exemplary psychology students.

Nu Rho Psi is the National Honor Society for neuroscience. The Nu Rho Psi chapter at Carolina aims to build connections among neuroscience students on campus, celebrate brain awareness week in our community, provide mentorship to underclassmen interested in the field, and much more.

The Undergraduate Research Society (http://urs.web.unc.edu/) raises undergraduate awareness of research on campus. The society works to bridge interactions between undergraduates, graduate students and faculty members as well as provides opportunities for undergraduate researchers to further their research interests.

Helping Give Away Psychological Science (https://www.hgaps.org/) is a student-based nonprofit organization to improve information about psychology on Wikipedia, on other online sites, and in the community.

**High-Impact/Experiential Education**

Several opportunities for experiential education are available. The Karen M. Gil Internship Program (http://psychology.unc.edu/undergraduate-studies/gil-internship/) offers both course credit and a monthly stipend to selected psychology and neuroscience majors who are placed in approved internship sites in the community. Interns are selected through a competitive process (minimum grade point average is 3.4). Other experiential education opportunities include PSYC 395; NSCI 395; PSYC 294; NSCI 294; NSCI 424; APPLES, performed either through the APPLES program or in conjunction with a specific psychology
class; and other classes for which service learning is a central focus. See course listings for details.

**Undergraduate Awards**

The Department of Psychology and Neuroscience administers several undergraduate awards: the Dashiell-Thurstone Prize; the David Bray Peele Undergraduate Award; the Donald T. Lysle Service Award; the Lindquist Undergraduate Research Award; the J. Steven Reznick Award for Diversity Enhancement in Psychological Research; the J. Steven Reznick Diversity and Psychological Research Grant; and the Susan M. McHale Award for Outstanding Psychological Research by a Student Who Enhances Diversity, as well as several fellowships and grants administered through the UNC Office for Undergraduate Research or the UNC Honors Carolina Office. Additional honors include election to Psi Chi, the national honor society for psychology undergraduates, and election to Nu Rho Psi, the national honor society for neuroscience undergraduates. Each year, the Lindquist Undergraduate Research Award is given to several undergraduate students to support their research; the Dashiell-Thurstone Prize is awarded to one student for the best undergraduate research project; the David Bray Peel Undergraduate Award is given for the best honors project; and the Donald T. Lysle Service Award is given to a psychology or neuroscience major who has made exemplary service contributions. The Donald T. Lysle Service Award is presented at the Chancellor’s Award Ceremony, the only campus-wide recognition at Carolina. The department also supports awards that support diversity. The J. Steven Reznick Award for Outstanding Research That Enhances Diversity is for a graduating senior who has conducted excellent research that contributes to psychological knowledge about diversity and the J. Steven Reznick Diversity and Psychological Research Grant as well as the Susan M. McHale Award for Outstanding Research by a Student Who Enhances Diversity are awarded to student researchers who identify as being from an underrepresented population. For each of these awards, diversity is broadly defined, including but not limited to diversity based on race, ethnicity, sexual orientation, gender, disability, religious affiliation, and socioeconomic status. For additional details on these awards, please visit the Psychology and Neuroscience page on undergraduate awards (https://psychology.unc.edu/departmental-awards/#undergraduateawards).

**Undergraduate Research**

Qualified students interested in doing independent research under the direction of a faculty member may enroll for independent research credit (PSYC 395 or NSCI 395). Students interested in this option should speak directly with psychology faculty members regarding opportunities in their laboratories. Additional information is available on the department’s website (http://psychology.unc.edu/undergraduate-studies/undergraduate-research/). Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students

Sample Plan of Study
entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

**Special Opportunities in Psychology and Neuroscience**

**Honors in Psychology and Neuroscience**

Any major in the program with an overall grade point average of 3.3 or higher and prior research experience in a faculty lab (e.g., PSYC 395 or NSCI 395) is eligible for enrollment in the departmental senior honors program. Each candidate for honors participates in a two-semester course sequence (PSYC 693H and PSYC 694H or NSCI 693H and NSCI 694H) and carries out independent research in an area of the student’s choice under the guidance of a psychology and neuroscience faculty member. Please see the department website for the application form (https://psychology.unc.edu/honors-program/) and additional information.

**Departmental Involvement**

Membership in the Psychology Club (https://heellife.unc.edu/organization/psychology-club/) is open to any interested psychology major. There is no minimum grade point average requirement. The club meets frequently to discuss psychology-related topics and learn about careers in psychology.

The Carolina Psychology and Neuroscience Ambassadors Program (https://tarheels.live/psychologyandneuroscienceambassadors/) is a peer mentoring program which connects more junior psychology and/or neuroscience majors with more experienced students, in order to create stronger networking and provide greater access to support and resources.

The Carolina Neuroscience Club (http://carolinaneuroscience.web.unc.edu) brings together students who have an interest in the brain and nervous system. Club members meet regularly...
to discuss courses, research articles, and post-college neuroscience opportunities. Membership is open to anyone interested in neuroscience.

Psi Chi (https://heellife.unc.edu/organization/psi-chi–psychology-national-honor-society–unch/) is the National Honor Society for psychology. UNC's chapter strives to increase awareness of career options as well as the role of psychology in the community, among exemplary psychology students.

Nu Rho Psi is the National Honor Society for neuroscience. The Nu Rho Psi chapter at Carolina aims to build connections among neuroscience students on campus, celebrate brain awareness week in our community, provide mentorship to underclassmen interested in the field, and much more.

The Undergraduate Research Society (http://urs.web.unc.edu/) raises undergraduate awareness of research on campus. The society works to bridge interactions between undergraduates, graduate students and faculty members as well as provides opportunities for undergraduate researchers to further their research interests.

Helping Give Away Psychological Science (https://www.hgaps.org/) is a student-based nonprofit organization to improve information about psychology on Wikipedia, on other online sites, and in the community.

High-Impact/Experiential Education
Several opportunities for experiential education are available. The Karen M. Gil Internship Program (http://psychology.unc.edu/undergraduate-studies/gil-internship/) offers both course credit and a monthly stipend to selected psychology and neuroscience majors who are placed in approved internship sites in the community. Interns are selected through a competitive process (minimum grade point average is 3.4). Other experiential education opportunities include PSYC 395; NSCI 395; PSYC 294; NSCI 294; NSCI 424; APPLES, performed either through the APPLES program or in conjunction with a specific psychology class; and other classes for which service learning is a central focus. See course listings for details.

Undergraduate Awards
The Department of Psychology and Neuroscience administers several undergraduate awards: the Dashiel-Thurstone Prize; the David Bray Peele Undergraduate Award; the Donald T. Lysle Service Award; the Lindquist Undergraduate Research Award; the J. Steven Reznick Award for Diversity Enhancement in Psychological Research; the J. Steven Reznick Diversity and Psychological Research Grant; and the Susan M. McHale Award for Outstanding Psychological Research by a Student Who Enhances Diversity. These awards, diversity is broadly defined, including but not limited to diversity based on race, ethnicity, sexual orientation, gender, disability, religious affiliation, and socioeconomic status. For additional details on these awards, please visit the Psychology and Neuroscience page on undergraduate awards (https://psychology.unc.edu/departmental-awards/#undergraduateawards).

Undergraduate Research
Qualified students interested in doing independent research under the direction of a faculty member may enroll for independent research credit (PSYC 395 or NSCI 395). Students interested in this option should speak directly with psychology faculty members regarding opportunities in their laboratories. Additional information is available on the department's website (http://psychology.unc.edu/undergraduate-studies/undergraduate-research/). Many other psychology courses also include heavy research components. See the research methods, research intensive, and research exposure courses at the Office for Undergraduate Research (https://our.unc.edu/find-research-courses/).

Cognitive Science Minor

The cognitive science minor consists of five disciplinary areas: behavioral, biological, computational, linguistic, and philosophical. Each course, except the overview, falls into one or more disciplinary areas.

Students interested in pursuing the minor should contact the program director for further information.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Neuroscience Minor

**NEuroscience Minor**

Neuroscience embodies the liberal arts experience because it draws on techniques and findings from several academic disciplines including biology, chemistry, computer science, exercise and sports science, mathematics, physics, and psychology. The neuroscience minor provides undergraduate students the opportunity to obtain fundamental knowledge and exposure needed to pursue careers and post-graduate studies in fields related to psychology, human development and aging, health and disease, rehabilitation, biomedical research, human-machine interactions, and other emerging disciplines.

The minor is open to all students, including psychology majors. However, students should note that they are limited to no more than 45 credit hours within a specific department. Students must earn a grade of C or better in at least four of the five courses.

**Requirements**

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1240).

Four courses distributed over at least three academic departments, selected from the following lists:

- Psychology and Neuroscience:
NSCI 221  Neuropsychopharmacology
NSCI 222  Learning H
NSCI 225  Sensation and Perception H
Any NSCI course numbered between 300-699 1
PSYC 245  Psychopathology H
PSYC 404  Clinical Psychopharmacology
PSYC 469  Evolution and Development of Biobehavioral Systems
PSYC 517  Addiction
PSYC 533  The General Linear Model in Psychology H
PSYC 559  Applied Machine Learning in Psychology
PSYC 583  The General Linear Model in Psychology H
PSYC 602  Evolutionary Psychology
Applied Physical Sciences:
APPL 101  Exploring Engineering
APPL 240  Developing Your Sixth Sense: Designing Sensors and Electrical Circuits to Make Measurements
APPL 350  Data Science for Applied Science and Engineering
APPL 430  Optical Instrumentation for Scientists and Engineers
APPL 435  Nanophotonics
Biology:
BIOL 205  Cellular and Developmental Biology H
BIOL 224H & BIOL 224L  The Mathematics of Life
BIOL 425  Human Genetics
BIOL 431  Biological Physics
BIOL 450  Neurobiology
BIOL 451  Comparative Physiology
BIOL 453  Molecular Control of Metabolism and Metabolic Disease
BIOL 455  Behavioral Neuroscience
BIOL 458  Sensory Neurobiology and Behavior
BIOL 523  Sex Differences in Human Disease
BIOL 544L  Laboratory in Diseases of the Cytoskeleton
BIOL 545  Exploring Brain, Gut, and Immunity H
BIOL 547  Synaptic Plasticity: Analysis of Primary Literature
BIOL 552  Behavioral Endocrinology
BIOL 553  Mathematical and Computational Models in Biology
BIOL 554  Introduction to Computational Neuroscience
BIOL 542  Light Microscopy for the Biological Sciences
Biomedical Engineering:
BMME 207  Biomedical Electronics
BMME 301  Human Physiology: Electrical Analysis
BMME 445  Systems Neuroscience
BMME 550  Medical Imaging I: Ultrasonic, Optical, and Magnetic Resonance Systems
Chemistry:
CHEM 430  Introduction to Biological Chemistry H
Computer Science:
COMP 110  Introduction to Programming and Data Science H
or COMP 111  Introduction to Scientific Programming
COMP 210  Data Structures and Analysis
COMP 211  Systems Fundamentals
COMP 301  Foundations of Programming
COMP 311  Computer Organization
COMP 283  Discrete Structures H
COMP 555  Bioalgorithms
COMP 560  Artificial Intelligence
COMP 562  Introduction to Machine Learning
COMP 576  Mathematics for Image Computing
COMP 581  Introduction to Robotics H
COMP 631  Computer Networks
COMP 633  Parallel and Distributed Computing
COMP 651  Computational Geometry
COMP 665  Images, Graphics, and Vision
Exercise and Sport Science:
EXSS 175  Human Anatomy F
EXSS 276  Human Physiology
EXSS 380  Neuromuscular Control and Learning
EXSS 580  Neuromechanics of Human Movement
Mathematics:
MATH 210  Mathematical Tools for Data Science
MATH 233  Calculus of Functions of Several Variables H F
MATH 347  Linear Algebra for Applications
MATH 383  First Course in Differential Equations H
MATH 523  Functions of a Complex Variable with Applications
MATH 528  Mathematical Methods for the Physical Sciences I
MATH 529  Mathematical Methods for the Physical Sciences II
MATH 535  Introduction to Probability
MATH 553  Mathematical and Computational Models in Biology
MATH 555  Introduction to Dynamics
MATH 564  Mathematical Modeling in the Life Sciences
MATH 566  Introduction to Numerical Analysis
MATH 577  Linear Algebra
MATH 661  Scientific Computation I
MATH 662  Scientific Computation II
