CURRICULUM IN CONTEMPORARY EUROPEAN STUDIES

Introduction
The curriculum in contemporary European studies (EURO) is designed to provide students with

- A broad interdisciplinary understanding of modern Europe and the European Union
- A focused understanding of contemporary Europe from the perspective of a selected social science, and
- Advanced proficiency in a modern European language

Students are encouraged to combine the EURO major with a second major in a field such as political science, economics, or history; or an interdisciplinary field such as German or romance studies, comparative literature, or chemistry. Through its unique combination of advanced coursework and language training, the curriculum provides the intellectual building blocks to study contemporary Europe through a sophisticated framework. Students completing the major will be well prepared for graduate or professional study of contemporary Europe and for a range of international careers.

Advising
In addition to the guidance provided by the primary academic advisors in Steele Building, EURO majors receive individualized advising at all stages of academic planning, including considering courses, internships, study abroad options, graduate programs, and career paths. Students interested in pursuing a major in contemporary European studies are encouraged to meet with the curriculum advisor as early as possible in their undergraduate career to design a comprehensive and efficient course plan and take full advantage of study abroad and other international education opportunities. Consult the curriculum Web site (http://europe.unc.edu/euro) for further information on courses, funding, research, travel awards, campus resources, and the alumni network.

Major
- Contemporary European Studies Major, B.A. (http://catalog.unc.edu/undergraduate/programs-study/contemporary-european-studies-major-ba)
