INTERDISCIPLINARY STUDIES

Introduction

The interdisciplinary studies major (IDST), designed by the student and the student’s faculty advisor, is intended for students who wish to develop a major different from those already offered by the University. An IDST major has more focus than many of the more traditional majors and therefore should not be seen as a default major for someone undecided about his or her course of study. The IDST major must be well conceived and substantially different from majors that students pursue through traditional departments, schools, and curricula. Students must have a grade point average of at least 3.0 and at least 45 hours left before graduation so that they can complete the major in their time left. All IDST students must identify a faculty advisor who, in the absence of a department and a director of undergraduate studies, will serve as their mentor on course selections, career planning, graduate work, and advanced study. Students are strongly encouraged to meet all of the General Education Foundations and Approaches requirements before pursuing the IDST major. The IDST major offers a special opportunity to define a coherent course of study. It is not intended to provide a path that parallels existing majors, nor is it intended to replicate courses of study in the professional schools. The Advisory Board strongly discourages double majors in the IDST program, since focused study in one field is the best path to advancement.

The IDST program is directed by the associate dean for undergraduate curricula in conjunction with an advisory board, representing the three divisions of the College. The board reads and approves all proposals, and initiates any policy changes, with the associate dean serving as initial advisor. Students interested in an interdisciplinary degree program not covered by any degree-granting department or curriculum should apply to the program director for interdisciplinary studies.

In the past, students have designed their own majors in such varied fields as medieval studies, food studies, arts management, medical geography, neuroscience, healthcare policy, medical humanities, cultural studies, behavioral finance, urban studies, documentary studies, computational physics, and ethnobotany.

Major

- Interdisciplinary Studies Major, B.A. (http://catalog.unc.edu/undergraduate/programs-study/interdisciplinary-studies-major-ba/)

IDST—Interdisciplinary Studies

Undergraduate-level Courses

- IDST 89. First-Year Seminar: Special Topics. 3 Credits.
  Content varies each semester.

Rules & Requirements

- IDEAs in Action Gen Ed: FY-SEMINAR.
  Grading Status: Letter grade.

IDST 101. College Thriving. 1 Credits.
College Thriving empowers all students to participate fully in the opportunities of a research university and find resources to support them in their educational pursuits at Carolina. The course enhances and provides new tools to support students’ ability to study systematically, learn deeply, and monitor and foster their own well-being. First-year students only. Members of Honors Carolina will fulfill this requirement with HNRS 101 instead.

Rules & Requirements

- IDEAs in Action Gen Ed: FY-THRIVE.
  Grading Status: Pass/Fail.

IDST 111. Triple-I: Ethics, Economics, and Public Policy. 3 Credits.
This interdisciplinary course provides an overview of core tools used to analyze issues at the intersection of ethics, economics and public policy. It introduces students to the tools of economic analysis, including markets, prices, and market failures; discusses the ethical dimensions of markets and public policy, including socio-economic justice, the nature of well-being, and individual liberty; and describes challenges in political organization and action that confront policy makers motivated by economic or ethical objectives.

Rules & Requirements

- IDEAs in Action Gen Ed: FY-TRIPLE.
  Requisites: Corequisite, IDST 111L.
  Grading Status: Letter grade.

IDST 111L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 111 and 111L in the same semester.

Rules & Requirements

- IDEAs in Action Gen Ed: FY-THRIVE.
  Requisites: Corequisite, IDST 111.
  Grading Status: Letter grade.

IDST 112. Triple-I: Death and Dying. 3 Credits.
Death and dying are universal human experiences. Yet there are cultural and historical variations in how we define and experience death and dying. This course explores the concepts of death and dying from three different disciplines (examples may include, but are not limited to, Anthropology, English and Comparative Literature, and Psychology and Neuroscience). This course will consider similarities and differences between the discipline research methodologies and introduce students to data literacy and principles of evidence.

Rules & Requirements

- IDEAs in Action Gen Ed: FY-TRIPLE.
  Requisites: Corequisite, IDST 112L.
  Grading Status: Letter grade.
IDST 112L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 112 and 112L in the same semester.

Rules & Requirements
Requisites: Corequisite, IDST 112.
Grading Status: Letter grade.

IDST 113. Triple-I: The Idea of Race. 3 Credits.
The idea that humans can be divided into distinct races has been used to justify the persecution, enslavement, and extermination of groups based on their presumed inferiority. Today, scientists agree that what we describe as races are in fact social constructs, not genetic realities. Students will learn why race is not a viable biological concept, how the idea of race arose and is maintained, and what alternatives exist for understanding diversity and change over time.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 113L.
Grading Status: Letter grade.

IDST 113L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 113 and 113L in the same semester.

Rules & Requirements
Requisites: Corequisite, IDST 113.
Grading Status: Letter grade.

IDST 114. Triple-I: Science Fiction, the Environment, and Vulnerable Communities. 3 Credits.
This course focuses on the question of how the genre of science fiction has been used to address the world's environmental concerns and how these concerns affect communities differently depending on their gender, race, and class. The course investigates global environmental challenges including resources, overpopulation, consumption, and climate change. Emphasis will be placed on texts and characters created by women and ethnic minorities. Students will be introduced to comparative, global, intersectional, and interdisciplinary approaches.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 114L.
Grading Status: Letter grade.

IDST 114L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 114 and 114L in the same semester.

Rules & Requirements
Requisites: Corequisite, IDST 114.
Grading Status: Letter grade.

IDST 115. Triple-I: Understanding Health and Happiness. 3 Credits.
This course exposes students to diverse scientific approaches to understanding happiness and subjective and physical well-being. The three professors offer perspectives from three disciplines: physiology, psychology, and sociology. The course teaches students research skills as well as evidence-based life skills, such as teamwork, developing social connections including “belongingness” at UNC, being physically active, and becoming confident that they can deploy these skills to increase their happiness and health.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 115L.
Grading Status: Letter grade.

IDST 115L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 115 and 115L in the same semester.

Rules & Requirements
Requisites: Corequisite, IDST 115.
Grading Status: Letter grade.

IDST 116. Triple-I: Gender. 3 Credits.
This course will consider gender through the lenses of three distinct disciplines. We will explore gender-related issues and consider how gender has been conceptualized, represented, and challenged throughout history. This course will establish a foundation from which students can think critically about gender from multiple perspective-personal, social, cultural, and political.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 116L.
Grading Status: Letter grade.

IDST 116L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 116 and 116L in the same semester.

Rules & Requirements
Requisites: Corequisite, IDST 116.
Grading Status: Letter grade.
IDST 117. Triple-I: Experiencing Latin America: Bodies, Belonging, Nature. 3 Credits.
This course examines linguistic, geopolitical, and socio-environmental boundaries to foster an inter-sectional understanding of identity and belonging in the Americas. Course topics (e.g., migration, justice, environmental well being) are examined through Spanish language-based films and artwork. Students will expand their understanding of the Spanish language, context art, and global issues. Students will have assignments that involve performance, creative design, and fabrication.

Rules & Requirements
IDEs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 117L.
Grading Status: Letter grade.

IDST 117L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 117 and 117L in the same semester.

Rules & Requirements
Requisites: Corequisite, IDST 117.
Grading Status: Letter grade.

IDST 118. Triple-I: Experiencing Latin America: Bodies, Belonging, Nature. 3 Credits.
How can you distinguish "good" science and "bad" science in the world around you? This course focuses on scientific literacy, the defining characteristics of "good" science, and how to identify logical fallacies and heuristic shortcuts that make legitimate science difficult to discern. We will discuss best practices for science educators and journalists to effectively communicate accurate scientific knowledge. Each semester we will focus on two relevant science issues, e.g COVID-19 and climate change.

Rules & Requirements
IDEs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 118L.
Grading Status: Letter grade.

IDST 118L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 118 and 118L in the same semester.

Rules & Requirements
Requisites: Corequisite, IDST 118.
Grading Status: Letter grade.

IDST 119. Triple-I: Food: People, Politics, and Policies. 3 Credits.
Have you ever thought about the food you eat? If you ate a hamburger or a salad, where did that meal come from? If you were living in a different country, what would this meal look like? Who are the laborers who made the meal possible? Is your body designed for this food? How do we make policies about food? What are the ethical concerns around food? This course will discuss these questions and more.

Rules & Requirements
IDEs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 119L.
Grading Status: Letter grade.

IDST 119L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 119 and 119L in the same semester.

Rules & Requirements
Requisites: Corequisite, IDST 119.
Grading Status: Letter grade.

IDST 120. Triple-I: Myths, Moons, and Methods. 3 Credits.
This course focuses on astronomy as it developed in the ancient Mediterranean and early modern Europe, from astronomy’s early beginnings as a means to keep calendars and the underpinnings of mythology, to its central role for developing natural sciences during the early modern period. Students will acquire skills to understand how different epochs interpreted the generation of knowledge; how their interpretations were influenced by their culture, mythology, and religion; and how science arrives at knowledge.

Rules & Requirements
IDEs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 120L.
Grading Status: Letter grade.

IDST 120L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 120 and 120L in the same semester.

Rules & Requirements
Requisites: Corequisite, IDST 120.
Grading Status: Letter grade.
IDST 121. Triple-I: Performing and Imagining the American South. 3 Credits.
The Mason-Dixon line marks a physical boundary of the US South, but Southern identity arises from more than a line on a map. This course will examine the South through its music, film, literature, and public rhetoric, to consider how those elements intersect with economic, technological, and political factors. In short, how can the South be simultaneously the birthplace of rock and roll and the origin of the "Southern Strategy", American authenticity and Coca Cola?

Rules & Requirements
IDST 121L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 121 and 121L in the same semester.

Rules & Requirements

IDST 122. Triple-I: Humans and the Cosmos. 3 Credits.
This course is an interdisciplinary introduction to some of the most essential and exciting debates about humanity's relationship to the universe. We explore such topics as the beginning of existence, the nature of time, contact with the supernatural world, and predictions about the end of all things - from the perspective of philosophy, physics, history, and related disciplines.

Rules & Requirements

IDST 123. Triple-I: Borders and Boundaries. 3 Credits.
What are borders and boundaries? How have they changed over time? How do people experience borders and what can they do when they impinge on their lives? We will address these and other questions through case studies anchored in the ancient and modern Middle East and Mediterranean. We will study the cultural and political effects of borders and boundaries, especially the experience of bordering practices by refugees and migrant communities across time.

Rules & Requirements

IDST 124. Triple-I: Pandemics: Ethics, Literatures, and Cultures. 3 Credits.
The COVID-19 pandemic transformed life dramatically for millions of people. Yet its realities - social distancing, quarantine, protective masks, job loss, education disruption, anxiety, loneliness and death, have been part of life during pandemics and epidemics across time and global space. This course brings three specific lenses and sets of methods to bear on experiences of pandemics - those of literature, anthropology, and philosophy. Themes of care, resource inequalities, stigma, and knowledge production are highlighted.

Rules & Requirements

IDST 124L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 124 and 124L in the same semester.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 125 and 125L in the same semester.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-TRIPLE.
- Requisites: Corequisite, IDST 125L.
- Grading Status: Letter grade.

IDST 125L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 125 and 125L in the same semester.

Rules & Requirements
- Requisites: Corequisite, IDST 125.
- Grading Status: Letter grade.

IDST 126. Triple-I: Values and Prices. 3 Credits.
Oscar Wilde wisely warns against being someone "who knows the price of everything and the value of nothing" (Lady Windemere's Fan). Of course, people often use the price as shorthand for value. Useful as this is, it is misleading, too, in ways that matter to critical thinking and rational decision making. In this course, we will be exploring the differences - and connections - between prices and values.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-TRIPLE.
- Requisites: Corequisite, IDST 126L.
- Grading Status: Letter grade.

IDST 126L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 126 and 126L in the same semester.

Rules & Requirements
- Requisites: Corequisite, IDST 126.
- Grading Status: Letter grade.
IDST 129. Triple-I: Countering Hate. 3 Credits.
Many of our cultural endeavors are aimed at overcoming the fears, suspicions, and misunderstandings that manifest as racism, misogyny, antisemitism, Islamophobia, homophobia, etc. In this class, we examine the cognitive and political roots of hatred as well as cultural efforts to overcome it through performance, literature, film, photography, and faith. We ask: How have artists and faith leaders addressed such animosity, and how can our practices of reading, viewing, listening, and scholarship counter hate?

Rules & Requirements
- IDEAs in Action Gen Ed: FY-TRIPLE.
- Requisites: Corequisite, IDST 129L.
- Grading Status: Letter grade.

IDST 129L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 129 and 129L in the same semester.

Rules & Requirements
- Requisites: Corequisite, IDST 129.
- Grading Status: Letter grade.

IDST 130. Triple-I: The Future of Food. 3 Credits.
This course combines perspectives from science fiction studies, anthropology, public policy, and marine ecology to study the food we eat now and the food we might eat in the future. We will explore how our love of and need for food influences our social and political structures, trade and conflict among cultures, and our relationship with our planet. Using fiction, films, and research we will examine (future) food technologies, policies, sustainability, and eating practices.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-TRIPLE.
- Requisites: Corequisite, IDST 130L.
- Grading Status: Letter grade.

IDST 130L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 130 and 130L in the same semester.

Rules & Requirements
- Requisites: Corequisite, IDST 130.
- Grading Status: Letter grade.

IDST 132. Triple-I: Science for Hyperpartisan Times. 3 Credits.
This course aims to help students navigate the messy intersection of science, policy, and politics by teaching how the substance, history, presentation, and interpretation of science influence our understandings of the world. Students will: 1) analyze public discourse and debate about science, 2) consider how philosophies, data, and interpretations are created, delivered, and received, and 3) discuss how these factors - alongside partisan politics and bias from both sides of the aisle - influence science.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-TRIPLE.
- Requisites: Corequisite, IDST 132L.
- Grading Status: Letter grade.

IDST 132L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 132 and 132L in the same semester.

Rules & Requirements
- Requisites: Corequisite, IDST 132.
- Grading Status: Letter grade.

IDST 133. Triple-I: How to Not Be Fooled - Or Fool Yourself. 3 Credits.
How do you avoid being fooled by bogus claims? In this class, we examine climate change and the age of Earth and the universe - two topics where our underlying beliefs push us toward conclusions that conflict with the evidence. In addition to learning the science underlying these topics, we will learn the psychology of belief systems, why our brains reject some information, and how to deal with uncertainty, recognize logical fallacies, and examine claims.

Rules & Requirements
- IDEAs in Action Gen Ed: FY-TRIPLE.
- Requisites: Corequisite, IDST 133L.
- Grading Status: Letter grade.

IDST 133L. Data Literacy Lab. 1 Credits.
This course teaches students the basics of working with data: how to acquire it, store it, analyze it, visualize it, and disseminate and interpret information about it, and how to do all of this in a responsible and ethical way. We will discuss the methods and tools that researchers use to accomplish all of these steps in working with data. Students must register for both IDST 133 and 133L in the same semester.

Rules & Requirements
- Requisites: Corequisite, IDST 133.
- Grading Status: Letter grade.
IDST 180. First-Generation College Students in Higher Education. 1 Credit.
First-generation college students will have the opportunity to explore their first-generation identity and start to define what it means for them to be a scholar and citizen leader. The course will introduce scholars to educational research on the first-generation college student experience and allow scholars the opportunity to reflect on their own experience and salient identities in the college environment. Education equity and diversity in higher education will be addressed through course readings and activities.

Rules & Requirements
Grading Status: Letter grade.

IDST 190. Triple-I: Special Topics. 3 Credits.
This is a Triple-I special topics course. Content varies each semester.

Rules & Requirements
IDEAs in Action Gen Ed: FY-TRIPLE.
Requisites: Corequisite, IDST 190L.
Grading Status: Letter grade.

IDST 190L. Special Topics in Interdisciplinary Studies Lab. 1 Credit.
Special topics course. Content varies each semester.

Rules & Requirements
Requisites: Corequisite, IDST 116, 118, 119, or 190.
Grading Status: Letter grade.

IDST 195. Undergraduate Research Consulting Team. 1 Credit.
A mentored research course for students participating in an undergraduate research consulting team under the supervision of a faculty advisor. Requires participation in research and a report/presentation.

Rules & Requirements
Repeat Rules: May be repeated for credit. 3 total credits. 3 total completions.
Grading Status: Pass/Fail.

IDST 197. Research with the American South. 1 Credit.
A seminar designed to introduce Southern Futures Fellows to research and creative discovery with the American South, with a focus on the arts and humanities. Course includes guest lectures, site visits, and assignments that will help Fellows develop their summer research, creative discovery, or service project. Priority enrollment for Southern Futures Fellows. Students interested in pursuing undergraduate research with the American South, particularly in the Arts and Humanities, are encouraged to take course, space permitting.

Rules & Requirements
Grading Status: Pass/Fail.

IDST 198. Research beyond Academia. 1 Credit.
Researchers from the Triangle region and beyond will discuss their research to provide students with exposure to research opportunities and careers outside academia. This course meets a requirement for the Carolina Research Scholars Program.

Rules & Requirements
Grading Status: Pass/Fail.

IDST 199. Modes of Inquiry. 1 Credit.
A seminar in which faculty discuss their own work. Students will learn how topics are defined and investigated and how undergraduates can engage in discovery. Pass/Fail only.

Rules & Requirements
Grading Status: Pass/Fail.

IDST 201. Increasing Diversity in STEM Research. 1 Credit.
Required of Chancellor’s Science Scholars and open to others by permission of the instructor. The course will explore the broad range of STEM research available at UNC-Chapel Hill, and will address issues of developing more diversity in the STEM research workforce nationwide. Permission of the instructor to add and drop this course.

Rules & Requirements
Repeat Rules: May be repeated for credit. 4 total credits. 4 total completions.
Grading Status: Pass/Fail.

IDST 290. Special Topics in Interdisciplinary Studies. 1-3 Credits.
Special topics course. Content varies each semester.

Rules & Requirements
Grading Status: Pass/Fail.

IDST 293. Global Tech Experience. 6 Credits.
The Global Tech Experience is a virtual experiential learning program that enables undergraduate students from all backgrounds to build career-focused intercultural and technical skills. A learning contract is required.

Rules & Requirements
IDEAs in Action Gen Ed: FY-Global Tech Experience.
Making Connections Gen Ed: EE.
Grading Status: Pass/Fail.

IDST 396. Independent Study. 1-3 Credits.
Independent project to be arranged with an instructor.

Rules & Requirements
Repeat Rules: May be repeated for credit. 6 total credits. 6 total completions.
Grading Status: Letter grade.

Advanced Undergraduate and Graduate-level Courses

IDST 496. Independent Study. 1-6 Credits.
Permission of the department. Special reading and research for graduate and undergraduate students on a specific interdisciplinary topic under the direction of a faculty member.

Rules & Requirements
Repeat Rules: May be repeated for credit. 12 total credits. 2 total completions.
Grading Status: Letter grade.

IDST 691H. Senior Honors Thesis. 3 Credits.
Permission of the instructor. Required of all senior honors candidates.

Rules & Requirements
IDEAs in Action Gen Ed: RESEARCH.
Grading Status: Letter grade.
**IDST 692H. Senior Honors Thesis. 3 Credits.**
Permission of the instructor. Second semester of senior honors thesis; required of all senior honors candidates.

**Rules & Requirements**

- **IDEAs in Action Gen Ed:** RESEARCH.
- **Making Connections Gen Ed:** EE- Mentored Research.
- **Grading Status:** Letter grade.
