

CLIMATE CHANGE MINOR

Climate change is arguably the most pressing concern of our times. The impacts of climate change touch nearly every aspect of nature and society. Climate change is producing increasingly frequent and intense disturbances to natural resources and the environment, including droughts, flooding, wildfire, cyclones and heat waves. These impacts disrupt nearly every human endeavor, including public health and safety, environmental management and conservation, transportation, settlement patterns, food production, economics, migration, water resources and conflict. The climate change minor will help prepare students for this monumental challenge of global citizenship, and to prepare them for nearly all major fields of employment.

The minor offers a broad and integrated perspective on the intersections of society, nature, and our changing climate systems. Students will learn about the environmental science driving climate change through three foundational courses. Students will also learn about the impacts and vulnerabilities of the scientific and human dimensions of climate change, and methods for researching and presenting findings on climate.

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (<https://catalog.unc.edu/undergraduate/degree-requirements/>).

Code	Title	Hours
Core Requirements		
ENVR 275	Global Climate Change: Interdisciplinary Perspectives (spring semester)	1
One course from the following list:		3
GEOG 110	 The Blue Planet: An Introduction to Earth's Environmental Systems ^H	
GEOG 111	 Weather and Climate	
ENEC 101	Global Environmental Change	
Climate Science and Methods (select two courses from the following list):		6
EMES 203	 Data Analysis for Earth, Marine, and Environmental Sciences	
EMES 432	Paleoclimatology	
EMES 434	Blue Carbon and Coastal Environments	
ENEC 530	Principles of Climate Modeling	
GEOG 212	 Environmental Conservation and Global Change	
GEOG 410	 Modeling of Environmental Systems	
GEOG 412	Synoptic Meteorology	
GEOG 414	 Climate Change	
GEOG 416	 Applied Climatology: The Impacts of Climate and Weather on Environmental and Social Systems	

GEOG 477	 Introduction to Remote Sensing of the Environment	
PHYS/EMES 108	Climate and Energy Transitions: Understanding the Forecasts	
Human Impacts or Additional Climate Perspectives (select two courses from the following list):		6
ANTH 312	From the Equator to the Poles: Case Studies in Global Environmental Change	
ENEC/POLI 254	International Environmental Politics	
ENEC 330	Principles of Sustainability	
ENEC 373	Confronting Climate Change in the Anthropocene	
ENEC 510	Policy Analysis of Global Climate Change	
ENVR 575	Global Climate Change: Science, Impacts, Solutions	
GEOG 232	 Agriculture, Food, and Society	
GEOG 436	Governance, Institutions, and Global Environmental Change	
GEOG/ENEC 437	 Social Vulnerability to Climate Change	
GLBL 413	 Socialist and Decolonial Ecologies	
HIST 204	 Global Environmental Histories: People, Climate, and Landscapes	
PLAN 655	Planning for Natural Hazards and Climate Risk	
PLAN 656	 Climate Change Impacts and Adaptation	
PLCY 373	Confronting Climate Change in the Anthropocene	
Total Hours		16

^H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

See the program page here (<https://catalog.unc.edu/undergraduate/programs-study/geography-major-ba/#opportunitiestext>) for special opportunities.

Department Programs

Major

- Geography Major, B.A. (<https://catalog.unc.edu/undergraduate/programs-study/geography-major-ba/>)

Minor

- Climate Change Minor (p. 1)
- Environmental Justice Minor (<https://catalog.unc.edu/undergraduate/programs-study/environmental-justice-minor/>)
- Geography Minor (<https://catalog.unc.edu/undergraduate/programs-study/geography-minor/>)
- Geographic Information Sciences Minor (<https://catalog.unc.edu/undergraduate/programs-study/gis-minor/>)

Graduate Programs

- M.A. in Geography (<https://catalog.unc.edu/graduate/schools-departments/geography/>)

- Ph.D. in Geography (<https://catalog.unc.edu/graduate/schools-departments/geography/>)
