Dr. Sharon W. Williams, Director
shwillia@ad.unc.edu

Admission to the minor is competitive by application. Undergraduate students have the option of taking these courses without declaring a minor; however, students in the minor will have priority for registration. For students interested in pursuing graduate study, additional coursework is highly recommended, including courses in biological science, physical science, social/behavioral science, developmental bases of communication, and statistics. Detailed information on the application process and preprofessional coursework can be found on the division's Web site (https://www.med.unc.edu/ahs/sphs/prospective-students/undergraduate-minor).

Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor course requirements at UNC-Chapel Hill
- earn a minimum of 12 hours of C or better in the minor (some minors require more)

For more information, please consult the degree requirements section of the catalog (http://catalog.unc.edu/undergraduate/general-education-curriculum-degree-requirements/#degreerequirementstext).

Total Hours 15

The minor in speech and hearing sciences consists of five courses. Each course is offered only once per year; students interested in the minor are encouraged to enroll in the introductory course (SPHS 583) early in the sequence and in speech science (SPHS 540) last in the sequence.
