**Requisites:** Prerequisites, A cumulative GPA of 3.3, at least one semester of PSYC/NSCI 395 or the approved equivalent, and acceptance into the Psychology or Neuroscience Senior Honors Program; PSYC/NSCI 693H must be taken in the first semester of the last year of studies.

**Grading Status:** Letter grade.

**PSYC 694H. Honors in Psychology II. 3 Credits.**

This course comprises the second semester in the two-semester sequence of Senior Honors in Psychology/Neuroscience. There are two components to the course: research that you will conduct under the direction of your faculty thesis advisor, and this class, which you will attend with the other senior honors students to learn about research-related topics and receive consultations with the instructor and your classmates. Admission to the psychology honors program required.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** RESEARCH.

**Making Connections Gen Ed:** SS, CI, EE- Mentored Research.

**Requisites:** Prerequisites, A cumulative GPA of 3.3, completion of PSYC/NSCI 693H, at least one semester of PSYC/NSCI 395 or the approved equivalent, and acceptance into the Psychology or Neuroscience Senior Honors Program; PSYC/NSCI 694H must be taken in the second semester of the last year of studies.

**Grading Status:** Letter grade.

## Neuroscience Major, B.S.

Neuroscience embodies the liberal arts experience as it draws on techniques and findings from several academic disciplines including biology, chemistry, computer science, mathematics, physics, and psychology. This program provides students with the fundamental knowledge and exposure needed to pursue careers and post-graduate studies in fields related to psychology, human development and aging, health and disease, rehabilitation, biomedical research, human-machine interactions, and other emerging disciplines.

The neuroscience major is open to all undergraduate students.

## Student Learning Outcomes

Upon completion of the neuroscience program, students should be able to:

- **Knowledge Base:** Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and trends in neuroscience including its links to other science disciplines
- **Scientific Inquiry and Critical Thinking Skills:** Apply basic research methods in neuroscience, including research design, data analysis, and interpretation. Demonstrate scientific reasoning, problem solving, and critical thinking
- **Ethics and Responsible Conduct of Research:** Demonstrate use of empirical evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinning of neuroscience as a science
- **Communication:** Demonstrate competence in writing and in oral communication skills. Be able to produce a research study or other neuroscience project, explain its scientific results, and present information
- **Individual and Professional Development:** Develop the ability to apply neuroscience content, skills, project management, and teamwork skills to career preparation

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

## Special Opportunities in Psychology and Neuroscience

### Honors in Psychology and Neuroscience

Any major in the program with an overall grade point average of 3.3 or higher and prior research experience in a faculty lab (e.g., PSYC 395 or NSCI 395) is eligible for enrollment in the departmental senior honors thesis program. Each candidate for honors participates in a two-semester course sequence (PSYC 693H and PSYC 694H or NSCI 693H and NSCI 694H) and carries out independent research in an area of the student's choice under the guidance of a psychology and neuroscience faculty member. Please see the department website for the application

form (<https://psychology.unc.edu/honors-program/>) and additional information.

### Departmental Involvement

The Carolina Psychology and Neuroscience Ambassadors Program (<https://tarheels.live/psychologyandneuroscienceambassadors/>) is a peer mentoring program which connects relative new or inexperienced psychology and/or neuroscience majors with more advanced and experienced students, in order to create stronger networking and provide greater access to support and resources.

The Carolina Neuroscience Club (<http://carolinaneuroscience.web.unc.edu>) brings together students who have an interest in the brain and nervous system. Club members meet regularly to discuss courses, research articles, and post-college neuroscience opportunities. Membership is open to anyone interested in neuroscience.

Psi Chi (<https://hellife.unc.edu/organization/psi-chi-psychology-national-honor-society-uncch/>) is the National Honor Society for psychology. UNC's chapter strives to increase awareness of career options as well as the role of psychology in the community, among exemplary psychology students.

Nu Rho Psi (<https://nurhopsi.org/>) is the National Honor Society for neuroscience. The Nu Rho Psi chapter at Carolina aims to build connections among neuroscience students on campus, celebrate brain awareness week in our community, provide mentorship to underclassmen interested in the field, and much more.

Helping Give Away Psychological Science (<https://www.hgaps.org/>) is a student-based nonprofit organization to improve information about psychology on Wikipedia, on other online sites, and in the community.

### High-Impact/Experiential Education

Several opportunities for experiential education are available. The Karen M. Gil Internship Program (<http://psychology.unc.edu/undergraduate-studies/gil-internship/>) offers both course credit and a monthly stipend to selected psychology and neuroscience majors who are placed in approved internship sites in the community. Interns are selected through a competitive process (minimum grade point average is 3.4). Other experiential education opportunities include PSYC 395; NSCI 395; PSYC 693H; PSYC 694H; NSCI 693H; NSCI 694H; upper-level courses which are course-based research courses; or courses where service learning is a central focus, such as a psychology or neuroscience course which has an APPLES (<https://ccps.unc.edu/apples/>) program component.

### Undergraduate Awards

The Department of Psychology and Neuroscience administers several undergraduate awards: the Dashiell-Thurstone Prize; the David Bray Peele Undergraduate Award; the Donald T. Lysle Service Award; the Lindquist Undergraduate Research Award; the J. Steven Reznick Award for Diversity Enhancement in Psychological Research; the J. Steven Reznick Diversity and Psychological Research Grant; and the Susan M. McHale Award for Outstanding Psychological Research by a Student Who Enhances Diversity, as well as several fellowships and grants administered through the UNC Office for Undergraduate Research (<https://our.unc.edu/>) or the UNC Honors Carolina Office (<https://honorscarolina.unc.edu/>). Additional honors include election to Psi Chi, the national honor society for psychology undergraduates, and/or election to Nu Rho Psi, the national honor society for neuroscience undergraduates. Each year, the Lindquist Undergraduate Research Award is given to several undergraduate students to support their research;

the Dashiell-Thurstone Prize is awarded to one student for the best undergraduate research project; the David Bray Peel Undergraduate Award is given for the best honors project; and the Donald T. Lysle Service Award is given to a psychology or neuroscience major who has made exemplary service contributions. The Donald T. Lysle Service Award is presented at the Chancellor's Award Ceremony, the only campus-wide recognition at Carolina. The department also supports awards that support diversity. The J. Steven Reznick Award for Outstanding Research That Enhances Diversity is for a graduating senior who has conducted excellent research that contributes to psychological knowledge about diversity and the J. Steven Reznick Diversity and Psychological Research Grant as well as the Susan M. McHale Award for Outstanding Research by a Student Who Enhances Diversity are awarded to student researchers who identify as being from an underrepresented population. For each of these awards, diversity is broadly defined, including but not limited to diversity based on race, ethnicity, sexual orientation, gender, disability, religious affiliation, and socioeconomic status. For additional details on these awards, please visit the Psychology and Neuroscience page on undergraduate awards (<https://psychology.unc.edu/departamental-awards/#undergraduateawards>).

## Undergraduate Research

Qualified students interested in doing independent research under the direction of a faculty member may enroll for independent research credit (PSYC 395 or NSCI 395). Students interested in this option should speak directly with psychology faculty members regarding opportunities in their laboratories. Additional information is available on the department's website (<http://psychology.unc.edu/undergraduate-studies/undergraduate-research/>). Many other psychology courses also include heavy research components. See the research methods, research intensive, and research exposure courses at the Office for Undergraduate Research (<https://our.unc.edu/find-research-courses/>).

## Psychology Major, B.A.

In the undergraduate study of psychology, the emphasis is on a broad acquaintance with the behavioral sciences, not specialization. The subject matter is preparatory to a career in psychology either in basic research and teaching, or in any number of professional applications to various human problems. A psychology major may prove valuable to those planning other professional careers such as medicine, law, education, or business, as well as to those who seek a broad cultural background in the behavioral sciences.

## Student Learning Outcomes

Upon completion of the psychology (B.A., B.S.) and/or neuroscience (B.S.) programs, students will attain the following:

- Knowledge Base: Demonstrate knowledge of the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology and/or neuroscience, including its links to other disciplines.
- Scientific Inquiry and Critical Thinking Skills: Apply basic research methods in psychology and/or neuroscience, including research design, data analysis, and interpretation. Demonstrate scientific reasoning and problem solving.
- Ethics, Social Responsibility and Responsible Conduct of Research: Demonstrate use of empirical evidence, tolerate ambiguity, act ethically, be mindful of diversity and reflect other values that are the underpinnings of psychology and/or neuroscience as a science.
- Communication: Demonstrate competence in writing and in oral communication skills. Ability to produce a research study or other neuroscience and/or psychology project, explain its scientific results and present information.

- Individual and Professional Development: Develop the ability to apply psychology and/or neuroscience content, skills, project management and teamwork skills to career preparation. Apply psychological and/or neuroscience principles to personal, social, and organizational issues.

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

<sup>H</sup> Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

<sup>F</sup> FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

<sup>1</sup> Psychology and Neuroscience double majors may also use any NSCI 27\* course to fulfill this requirement.

<sup>2</sup> Psychology and Human Development Family Studies double majors may also use EDUC 408 to fulfill this requirement.

<sup>3</sup> NSCI 225 can meet either the behavioral neuroscience or cognitive requirement, but not both.

<sup>4</sup> Up to 3-credit hours of the following may be used to fulfill one core major requirement: PSYC 395/NSCI 395, PSYC 693H/NSCI 693H or PSYC 694H/NSCI 694H.

A student may submit a maximum of 45 credit hours from the department (this includes both PSYC and NSCI courses) towards the completion of the B.A. degree.

Students planning to enter graduate programs in psychology are urged to include a research-intensive course such as PSYC 395, NSCI 395, PSYC 530, or PSYC 693H and PSYC 694H in their program as well as a course in software programming/coding.

Students interested in medical and/or health careers are strongly encouraged to connect with Pre-professional & Pre-graduate Advising (<https://careers.unc.edu/students/pre-professional-pre-graduate-advising/>) and Health Professions Advising (<https://hpa.unc.edu/explore/explore-health-careers/medicine/>). Particularly note that medical and/or health professional schools may recommend, though not require, psychology courses.

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC-Chapel Hill in the fall term. Some courses may not be offered every term.

## Special Opportunities in Psychology and Neuroscience

### Honors in Psychology and Neuroscience

Any major in the program with an overall grade point average of 3.3 or higher and prior research experience in a faculty lab (e.g., PSYC 395 or NSCI 395) is eligible for enrollment in the departmental senior honors thesis program. Each candidate for honors participates in a two-semester course sequence (PSYC 693H and PSYC 694H or NSCI 693H and NSCI 694H) and carries out independent research in an area of the student's choice under the guidance of a psychology and neuroscience faculty member. Please see the department website for the application form (<https://psychology.unc.edu/honors-program/>) and additional information.

### Departmental Involvement

The Carolina Psychology and Neuroscience Ambassadors Program (<https://tarheels.live/psychologyandneuroscienceambassadors/>) is a peer mentoring program which connects relative new or inexperienced psychology and/or neuroscience majors with more advanced and experienced students, in order to create stronger networking and provide greater access to support and resources.

The Carolina Neuroscience Club (<http://carolinaneuroscience.web.unc.edu>) brings together students who have an interest in the brain and nervous system. Club members meet regularly to discuss courses, research articles, and post-college neuroscience opportunities. Membership is open to anyone interested in neuroscience.

Psi Chi (<https://heellife.unc.edu/organization/psi-chi--psychology-national-honor-society--uncch/>) is the National Honor Society for psychology. UNC's chapter strives to increase awareness of career options as well as the role of psychology in the community, among exemplary psychology students.

Nu Rho Psi (<https://nurhopsi.org/>) is the National Honor Society for neuroscience. The Nu Rho Psi chapter at Carolina aims to build connections among neuroscience students on campus, celebrate brain awareness week in our community, provide mentorship to undergrads interested in the field, and much more.

Helping Give Away Psychological Science (<https://www.hgaps.org/>) is a student-based nonprofit organization to improve information about psychology on Wikipedia, on other online sites, and in the community.

### High-Impact/Experiential Education

Several opportunities for experiential education are available. The Karen M. Gil Internship Program (<http://psychology.unc.edu/undergraduate-studies/gil-internship/>) offers both course credit and a monthly stipend to selected psychology and neuroscience majors who are placed in approved internship sites in the community. Interns are selected through a competitive process (minimum grade point average is 3.4). Other experiential education opportunities include PSYC 395; NSCI 395; PSYC 693H; PSYC 694H; NSCI 693H; NSCI 694H; upper-level courses which are course-based research courses; or courses where service learning is a central focus, such as a psychology or neuroscience course which has an APPLES (<https://ccps.unc.edu/apples/>) program component.

### Undergraduate Awards

The Department of Psychology and Neuroscience administers several undergraduate awards: the Dashiell-Thurstone Prize; the David Bray

Peele Undergraduate Award; the Donald T. Lysle Service Award; the Lindquist Undergraduate Research Award; the J. Steven Reznick Award for Diversity Enhancement in Psychological Research; the J. Steven Reznick Diversity and Psychological Research Grant; and the Susan M. McHale Award for Outstanding Psychological Research by a Student Who Enhances Diversity, as well as several fellowships and grants administered through the UNC Office for Undergraduate Research (<https://our.unc.edu/>) or the UNC Honors Carolina Office (<https://honorscarolina.unc.edu/>). Additional honors include election to Psi Chi, the national honor society for psychology undergraduates, and/or election to Nu Rho Psi, the national honor society for neuroscience undergraduates. Each year, the Lindquist Undergraduate Research Award is given to several undergraduate students to support their research; the Dashiell-Thurstone Prize is awarded to one student for the best undergraduate research project; the David Bray Peel Undergraduate Award is given for the best honors project; and the Donald T. Lysle Service Award is given to a psychology or neuroscience major who has made exemplary service contributions. The Donald T. Lysle Service Award is presented at the Chancellor's Award Ceremony, the only campus-wide recognition at Carolina. The department also supports awards that support diversity. The J. Steven Reznick Award for Outstanding Research That Enhances Diversity is for a graduating senior who has conducted excellent research that contributes to psychological knowledge about diversity and the J. Steven Reznick Diversity and Psychological Research Grant as well as the Susan M. McHale Award for Outstanding Research by a Student Who Enhances Diversity are awarded to student researchers who identify as being from an underrepresented population. For each of these awards, diversity is broadly defined, including but not limited to diversity based on race, ethnicity, sexual orientation, gender, disability, religious affiliation, and socioeconomic status. For additional details on these awards, please visit the Psychology and Neuroscience page on undergraduate awards (<https://psychology.unc.edu/departamental-awards/#undergraduateawards>).

## Undergraduate Research

Qualified students interested in doing independent research under the direction of a faculty member may enroll for independent research credit (PSYC 395 or NSCI 395). Students interested in this option should speak directly with psychology faculty members regarding opportunities in their laboratories. Additional information is available on the department's website (<http://psychology.unc.edu/undergraduate-studies/undergraduate-research/>). Many other psychology courses also include heavy research components. See the research methods, research intensive, and research exposure courses at the Office for Undergraduate Research (<https://our.unc.edu/find-research-courses/>).

## Psychology Major, B.S.

In the undergraduate study of psychology, the emphasis is on a broad acquaintance with the behavioral sciences, not specialization. The subject matter is preparatory to a career in psychology either in basic research and teaching, or in any number of professional applications to various human problems. A psychology major may prove valuable to those planning other professional careers such as medicine, law, education, or business, as well as to those who seek a broad cultural background in the behavioral sciences.

## Student Learning Outcomes

Upon completion of the psychology (B.A., B.S.) and/or neuroscience (B.S.) programs, students will attain the following:

- Knowledge Base: Demonstrate knowledge of the major concepts, theoretical perspectives, empirical findings, and historical trends

in psychology and/or neuroscience, including its links to other disciplines.

- **Scientific Inquiry and Critical Thinking Skills:** Apply basic research methods in psychology and/or neuroscience, including research design, data analysis, and interpretation. Demonstrate scientific reasoning and problem solving.
- **Ethics, Social Responsibility and Responsible Conduct of Research:** Demonstrate use of empirical evidence, tolerate ambiguity, act ethically, be mindful of diversity and reflect other values that are the underpinnings of psychology and/or neuroscience as a science.
- **Communication:** Demonstrate competence in writing and in oral communication skills. Ability to produce a research study or other neuroscience and/or psychology project, explain its scientific results and present information.
- **Individual and Professional Development:** Develop the ability to apply psychology and/or neuroscience content, skills, project management and teamwork skills to career preparation. Apply psychological and/or neuroscience principles to personal, social, and organizational issues.

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

<sup>H</sup> Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

<sup>F</sup> FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

<sup>1</sup> Psychology and Neuroscience double majors may also use any NSCI 27\* course to fulfill this requirement.

<sup>2</sup> Psychology and Human Development Family Studies double majors may also use EDUC 408 to fulfill this requirement.

<sup>3</sup> NSCI 225 can meet either the behavioral neuroscience or cognitive requirement, but not both.

<sup>4</sup> Up to 3-credit hours of the following may be used to fulfill one core major requirement: PSYC 395/NSCI 395, PSYC 693H/NSCI 693H or PSYC 694H/NSCI 694H.

<sup>5</sup> A 3-credit hour Allied Science course may be combined with a 1-credit hour lab with the same course number to fulfill the 4-credit hour Allied Science course requirement.

Students planning to enter graduate programs in psychology are urged to include a research-intensive course such as PSYC 395, PSYC 530, or PSYC 693H and PSYC 694H in their program as well as a software programming/coding course.

Students interested in medical and/or health careers are strongly encouraged to connect with Pre-professional & Pre-graduate Advising (<https://careers.unc.edu/students/pre-professional-pre-graduate-advising/>) and Health Professions Advising (<https://hpa.unc.edu/explore/explore-health-careers/medicine/>). Particularly note that medical and/or health professional schools may recommend, though not require, psychology courses.

A student may submit a maximum of 45 credit hours from the department (this includes both PSYC and NSCI courses) towards the completion of the B.S. degree.

Details of the student's program may be worked out in consultation with college and departmental advisors.

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC-Chapel Hill in the fall term. Some courses may not be offered every term.

## Special Opportunities in Psychology and Neuroscience

### Honors in Psychology and Neuroscience

Any major in the program with an overall grade point average of 3.3 or higher and prior research experience in a faculty lab (e.g., PSYC 395 or NSCI 395) is eligible for enrollment in the departmental senior honors thesis program. Each candidate for honors participates in a two-semester course sequence (PSYC 693H and PSYC 694H or NSCI 693H and NSCI 694H) and carries out independent research in an area of the student's choice under the guidance of a psychology and neuroscience faculty member. Please see the department website for the application form (<https://psychology.unc.edu/honors-program/>) and additional information.

### Departmental Involvement

The Carolina Psychology and Neuroscience Ambassadors Program (<https://tarheels.live/psychologyandneuroscienceambassadors/>) is a peer mentoring program which connects relative new or inexperienced psychology and/or neuroscience majors with more advanced and experienced students, in order to create stronger networking and provide greater access to support and resources.

The Carolina Neuroscience Club (<http://carolinaneuroscience.web.unc.edu>) brings together students who have an interest in the brain and nervous system. Club members meet regularly to discuss courses, research articles, and post-college neuroscience opportunities. Membership is open to anyone interested in neuroscience.

Psi Chi (<https://hellife.unc.edu/organization/psi-chi--psychology-national-honor-society--uncch/>) is the National Honor Society for psychology. UNC's chapter strives to increase awareness of career options as well as the role of psychology in the community, among exemplary psychology students.

Nu Rho Psi (<https://nurhopsi.org/>) is the National Honor Society for neuroscience. The Nu Rho Psi chapter at Carolina aims to build connections among neuroscience students on campus, celebrate brain awareness week in our community, provide mentorship to underclassmen interested in the field, and much more.

Helping Give Away Psychological Science (<https://www.hgaps.org/>) is a student-based nonprofit organization to improve information about psychology on Wikipedia, on other online sites, and in the community.

### High-Impact/Experiential Education

Several opportunities for experiential education are available. The Karen M. Gil Internship Program (<http://psychology.unc.edu/undergraduate-studies/gil-internship/>) offers both course credit and a monthly stipend to selected psychology and neuroscience majors who are placed in approved internship sites in the community. Interns are selected through

a competitive process (minimum grade point average is 3.4). Other experiential education opportunities include PSYC 395; NSCI 395; PSYC 693H; PSYC 694H; NSCI 693H; NSCI 694H; upper-level courses which are coursed-based research courses; or courses where service learning is a central focus, such as a psychology or neuroscience course which has an APPLES (<https://ccps.unc.edu/apples/>) program component.

### Undergraduate Awards

The Department of Psychology and Neuroscience administers several undergraduate awards: the Dashiell-Thurstone Prize; the David Bray Peele Undergraduate Award; the Donald T. Lysle Service Award; the Lindquist Undergraduate Research Award; the J. Steven Reznick Award for Diversity Enhancement in Psychological Research; the J. Steven Reznick Diversity and Psychological Research Grant; and the Susan M. McHale Award for Outstanding Psychological Research by a Student Who Enhances Diversity, as well as several fellowships and grants administered through the UNC Office for Undergraduate Research (<https://our.unc.edu/>) or the UNC Honors Carolina Office (<https://honorscarolina.unc.edu/>). Additional honors include election to Psi Chi, the national honor society for psychology undergraduates, and/or election to Nu Rho Psi, the national honor society for neuroscience undergraduates. Each year, the Lindquist Undergraduate Research Award is given to several undergraduate students to support their research; the Dashiell-Thurstone Prize is awarded to one student for the best undergraduate research project; the David Bray Peel Undergraduate Award is given for the best honors project; and the Donald T. Lysle Service Award is given to a psychology or neuroscience major who has made exemplary service contributions. The Donald T. Lysle Service Award is presented at the Chancellor's Award Ceremony, the only campus-wide recognition at Carolina. The department also supports awards that support diversity. The J. Steven Reznick Award for Outstanding Research That Enhances Diversity is for a graduating senior who has conducted excellent research that contributes to psychological knowledge about diversity and the J. Steven Reznick Diversity and Psychological Research Grant as well as the Susan M. McHale Award for Outstanding Research by a Student Who Enhances Diversity are awarded to student researchers who identify as being from an underrepresented population. For each of these awards, diversity is broadly defined, including but not limited to diversity based on race, ethnicity, sexual orientation, gender, disability, religious affiliation, and socioeconomic status. For additional details on these awards, please visit the Psychology and Neuroscience page on undergraduate awards (<https://psychology.unc.edu/departmental-awards/#undergraduateawards>).

### Undergraduate Research

Qualified students interested in doing independent research under the direction of a faculty member may enroll for independent research credit (PSYC 395 or NSCI 395). Students interested in this option should speak directly with psychology faculty members regarding opportunities in their laboratories. Additional information is available on the department's website (<http://psychology.unc.edu/undergraduate-studies/undergraduate-research/>). Many other psychology courses also include heavy research components. See the research methods, research intensive, and research exposure courses at the Office for Undergraduate Research (<https://our.unc.edu/find-research-courses/>).

## Neuroscience Minor

Neuroscience embodies the liberal arts experience because it draws on techniques and findings from several academic disciplines including biology, chemistry, computer science, exercise and sports science, mathematics, physics, and psychology. The neuroscience minor provides undergraduate students the opportunity to obtain fundamental knowledge and exposure needed to pursue careers and post-graduate studies in fields related to psychology, human development and aging, health and disease, rehabilitation, biomedical research, human-machine interactions, and other emerging disciplines.

The minor is open to all students, including psychology majors. However, students should note that they are limited to no more than 45 credit hours within a specific department. Students must earn a grade of C or better in at least four of the five courses.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Department of Public Policy

### Introduction

UNC Public Policy is an interdisciplinary social science major designed to provide students with the theoretical perspective, analytical skill, and substantive knowledge needed to respond to domestic and global policy challenges. Our mission is to empower students with the knowledge, skills, and experiences to improve the lives of others.

Our faculty have expertise in a wide range of global and domestic policy including education and labor markets, environment and human welfare, innovation and entrepreneurship, science and technology policy, social policy and inequality, health policy, bioethics, and human rights, international development policy, and global conflict and cooperation.

The undergraduate curriculum emphasizes research and experiential learning and includes exposure to multiple disciplinary fields including policy analysis, economics, history, political science, applied philosophy, research design, and statistics.

### Advising

All majors and minors have a primary academic advisor in the Academic Advising Program (<https://advising.unc.edu/>). Students are encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. UNC Public Policy's director of undergraduate studies and student services officer meet with current and prospective students by appointment (see contact information above). For additional information on courses and undergraduate opportunities, see UNC Public Policy's website (<http://publicpolicy.unc.edu/academics/undergraduate-program/>).

### Graduate School and Career Opportunities

The undergraduate major in public policy provides students with conceptual and analytical skills that prepare them for the labor market and graduate school. The integration of a liberal arts education, writing and analytical abilities, and knowledge in a domestic or global policy field prepares students for many career paths. The public policy major can be a foundation for graduate work in a range of social science and professional disciplines, including law, business, education, social work, public health, public policy, public and international affairs, and city and regional planning. Alumni pursue careers in law, education, business,

public policy, and global affairs, working in public, private, and nonprofit sectors.

Public Policy offers a dual bachelor's-graduate (M.P.P.) degree. The M.P.P. degree requires 48 credits. It is possible to complete the requirements for the bachelor's degree and graduate degree within eight semesters and two additional semesters of study (and one summer), respectively. The M.P.P. includes a summer seminar/internship experience. New UNC Graduate School's dual degree policies allow 12 credit hours of double counting/crossover of bachelor's credits and master's credits. Most of the double counting of credits will take place during the second semester of the senior year.

## Advanced Undergraduate and Graduate-level Courses

**PLCY 425. Risks, Shocks, and the Safety Net. 3 Credits.**

Many risks and shocks can make individuals and families vulnerable to economic hardship. This course examines America's social policy regime through a wide-ranging investigation of the origins, development, and future of critical features of our social safety net. We pay particular attention to challenges emerging in the era of globalization.

**Rules & Requirements**

**Making Connections Gen Ed:** US.

**Grading Status:** Letter grade.

**PLCY 430. Analysis of National Security Policy. 3 Credits.**

Course explores contemporary threats to national security, approaches to national security strategy, policy instruments, the role of military force, and the policy-making process.

**Rules & Requirements**

**Making Connections Gen Ed:** SS, GL.

**Grading Status:** Letter grade.

**Same as:** PWAD 430, POLI 430.

**PLCY 435. Designing for Impact: Social Enterprise Lab. 3 Credits.**

Focuses on the entrepreneurial process to solve social or environmental issues. Using modern methods and tools, students engage in experiments to test hypotheses around problem definition, opportunity recognition and solutions. Experience gained in this course enable students to launch their own social enterprise or join social enterprises in progress.

**Rules & Requirements**

**Making Connections Gen Ed:** SS, EE- Field Work.

**Grading Status:** Letter grade.

 **PLCY 450. Internal and Interpersonal Conflict Management. 3 Credits.**

This course aims to provide students with the tools necessary to most effectively engage in interpersonal conflicts. Students engage with diverse conflict management practitioners—from formally incarcerated individuals to public policy negotiation to international conflict mediators and role-play cross-cultural communication, inter-governmental negotiations, human rights, and workplace negotiations. Students will learn new negotiation and mediation skills, build upon existing ones, and learn to cope with stress, discomfort, and emotions when in conflict. Previously offered as PLCY/PWAD 330.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

**PLCY 475. The Political Economy of Food. 3 Credits.**

This course examines the political and economic dimensions of the food we eat, how it is produced, who eats what, and related social and environmental issues, both domestic and international, affecting the production, pricing, trade, distribution, and consumption of food. Honors version available.

**Rules & Requirements**

**Making Connections Gen Ed:** SS, GL.

**Grading Status:** Letter grade.

**Same as:** ENEC 475.

 **PLCY 483. Natural Disasters, Inequality, and Public Policy. 3 Credits.**

Growing research shows that socially marginalized communities are disproportionately more at risk from environmental hazards and thus unable to recover fully. This course is designed to introduce students to natural disasters, their impact on marginalized populations, and the policies that help or hurt communities from recovering. We will also address topics of systemic racism, equity, and think critically about terms such as vulnerability and resiliency to determine their applicability in the 21st century.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FC-POWER.

**Grading Status:** Letter grade.

**PLCY 485. Poverty, Health, and Human Development in Low Income Countries. 3 Credits.**

This course provides an understanding of how poverty is defined, the consequences of poverty, and policies to reduce poverty. It explores the determinants of human development outcomes from an interdisciplinary perspective (with a heavy economics focus).

**Rules & Requirements**

**Making Connections Gen Ed:** SS.

**Requisites:** Prerequisite, ECON 101.

**Grading Status:** Letter grade.

**Same as:** AAAD 401.

**PLCY 490. Special Topics in Public Policy. 3 Credits.**

**Grading Status:** Letter grade.

 **PLCY 505. Data Science for Public Policy and Decision Making. 4 Credits.**

To introduce advanced undergraduates and graduate students to the three basic purposes of data science: to describe the social world, to make predictions for policy planning, and to establish causal relationships. The focus of the course will be on examples and applications rather than statistical and mathematical foundations, but will require hands-on computer programming and data analysis.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FC-QUANT.

**Making Connections Gen Ed:** SS, QR.

**Requisites:** Prerequisite, PLCY 460, or equivalent.

**Grading Status:** Letter grade.

**PLCY 527. Applied Public Finance. 3 Credits.**

This course provides a foundation in public finance theory and applications. Students learn to analyze taxation policies and expenditures on income redistribution, programs for the poor (e.g., TANF), and social insurance programs (e.g., Social Security). Honors version available.

**Rules & Requirements**

**Requisites:** Prerequisite, ECON 310 or 410, or PLCY 410 or 788.

**Grading Status:** Letter grade.

 **PLCY 530. Educational Problems and Policy Solutions. 3 Credits.**

Reviews current debates and policy solutions in education. Topics analyzed through three of the most commonly used evaluative criteria: equity, efficiency, and effectiveness. Topics: equality of educational opportunity, racial segregation, the black-white test score gap, school choice, and the use of incentives to promote increased performance. Lecture, case studies, discussion. Honors version available.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FC-KNOWING.

**Making Connections Gen Ed:** SS, US.

**Grading Status:** Letter grade.

**PLCY 540. Racial Wealth Inequality and Public Policy. 3 Credits.**

This course critically examines the causes, consequences of racial wealth inequality and social policies to address these disparities. More specifically, we will examine the merits and limitation of various paradigms aimed at explaining these persistent disparities, explore how economic inequality is affected by race, systemic racism, and sociodemographic factors (education, gender, marriage) and identify evidence-based policy options and proposals for reducing wealth inequality.

**Rules & Requirements**

**Making Connections Gen Ed:** SS, US.

**Grading Status:** Letter grade.

**PLCY 565. Global Health Policy. 3 Credits.**

Coursework will focus on public policy approaches to global health, employing interdisciplinary methodologies to understand selected public health policies, programs, and interventions. For students who have a basic understanding of public health.

**Rules & Requirements**

**Making Connections Gen Ed:** GL.

**Grading Status:** Letter grade.

**Same as:** HPM 565.

**PLCY 570. Health and Human Rights. 3 Credits.**

Course focuses on rights-based approaches to health, applying a human rights perspective to selected public health policies, programs, and interventions. Students will apply a formalistic human rights framework to critical public health issues, exploring human rights as both a safeguard against harm and a catalyst for health promotion.

**Rules & Requirements**

**Making Connections Gen Ed:** PH, GL.

**Grading Status:** Letter grade.

**Same as:** HPM 571.

**PLCY 575. Innovation, Science, and Public Policy. 3 Credits.**

Introduction to analysis of science policy. Course explores how events transformed science's role in American life and how science relates to industry and economic development. Topics include the mechanisms of allocating scientific resources, the commercialization of academic discoveries, regulating emerging technology, and achieving consensus on controversial scientific issues.

**Rules & Requirements**

**Grading Status:** Letter grade.

 **PLCY 581. Research Design for Public Policy. 3 Credits.**

Students will explore the scientific method as applied to policy research. They will formulate testable policy research questions, become familiar with methods for conducting policy research, and learn to think critically about causal inference. Honors version available.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FC-KNOWING, RESEARCH.

## Public Policy Major, B.A.

The core curriculum in public policy includes courses on policy innovation and analysis, politics of public policy, applied philosophy, applied economics, research design, and statistics. Our experiential education (EE) courses develop students' teamwork, leadership, and communication skills as they produce actionable, client-centered research. UNC Public Policy offers multiple courses on global and domestic policy including courses on education, immigration, the environment, health and human rights, and history and public policy.

The mission of UNC Public Policy is to empower students with the knowledge, skills, and experience to improve the lives of others.

### Knowledge

Students think and learn across academic disciplines with a diverse faculty with degrees in business, economics, history, law, philosophy, political science, public policy, sociology, and sociomedical sciences.

### Skills

Students gain an ability to think critically and independently; to write, reason, and communicate clearly; and to develop research methods and quantitative analysis skills.

### Experience

Students apply knowledge and skills in real world environments beyond the classroom. Students in UNC Public Policy's clinic, internship, and capstone courses address contemporary policy challenges by providing innovative analysis to clients in the nonprofit and public sector.

## Student Learning Outcomes

Upon completion of the public policy program, students should be able to:

- Demonstrate knowledge of economic, normative, and political perspectives for defining the public interest and evaluating policy choices
- Demonstrate written, oral, and analytical skills in evaluating public policy alternatives
- Demonstrate knowledge of a particular policy subfield and apply it in an experience in policy analysis in that field
- Demonstrate skills in developing approaches to solving current public policy problems as a result of participation in experiential education opportunities
- Work effectively in teams

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

First-year and sophomore students considering a major in public policy are encouraged to complete PLCY 101 or PLCY 110.

<b>Additional Requirements</b>		
ECON 101	 Introduction to Economics <sup>2, H, F</sup>	4
Policy Field (optional), see list below		
<b>Total Hours</b>		<b>32-33</b>

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

<sup>1</sup> Three credit hours may be for a 100- or 200-level PLCY course. The remaining three credit hours must be for an elective course at the 300 level or above. PLCY 130, PLCY 291, PLCY 293, PLCY 393, and PLCY 394 may not count as electives for the public policy major.

<sup>2</sup> ECON 101 is a prerequisite for PLCY 310 and ECON 410. PLCY 460 is a prerequisite for PLCY 698 and PLCY 691H and a pre- or co-requisite for PLCY 581. PLCY 581 is a prerequisite for PLCY 691H and a pre- or co-requisite for PLCY 698.

<sup>3</sup> Alternatively, students may use a combination of either of the following pairs of courses to fulfill this requirement: (a) ECON 400 and ECON 470 or (b) ECON 400 and ECON 570.

## Policy Field (Optional)

Students who complete three approved electives (nine credit hours) in a specific policy field may elect to graduate with a concentration. Six of these credit hours must be for field courses at the 300 level or above. PLCY 393 and PLCY 394 may not count toward the field concentration. For students completing an honors thesis, PLCY 691H can count toward the policy field concentration. Policy field concentrations include education and labor markets; environment and human welfare; innovation and entrepreneurship/science and technology policy; social policy and inequality; health policy; bioethics and human rights; international development policy; global conflict and cooperation.

Additionally, students may select courses across subfields and design their own field. For information about declaring a policy field concentration see the department's Web site (<https://publicpolicy.unc.edu/academics/undergraduate-program/faq/>). The specific policy field is not listed on students' diplomas or transcripts. UNC-Chapel Hill public policy majors are encouraged to list their policy field on their résumés.

## Program Restrictions

A maximum of one three-credit independent study course (PLCY 395, PLCY 396, PLCY 496, PLCY 596, or PLCY 696) may be counted as an elective for the policy major. For credit toward the major, an independent study proposal form must be completed by the student, approved by the independent study instructor, submitted to the student services officer, and approved by the director of undergraduate studies before the independent study begins. A maximum of one three-credit transfer or study abroad course or two Honors Seminar on Public Policy and Global Affairs courses (PLCY 352H; PLCY 353H) may be counted as electives toward the public policy major.

## Public Policy Elective Course List

### Public Policy Elective Course List

The following courses satisfy the electives requirement and optional policy field concentration. Please note that some of these courses may have enrollment restrictions, including being restricted to students enrolled in certain majors or minors. Please check for enrollment restrictions before trying to enroll:

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

## Special Opportunities in Public Policy Undergraduate Research

Most courses in public policy include a research component. The Office for Undergraduate Research maintains a database of courses that qualify as research intensive, research exposure, and research methods courses. Earning a grade of C or better in any of these courses partially fulfills the requirements for the Carolina Research Scholar designation. In addition, the department offers opportunities for students to work directly with a faculty member on a research project through independent study. The honors thesis process enables students to undertake a major independent policy research project. The Duncan MacRae Jr. Public Policy Fund provides grants on a competitive basis to public policy majors engaged in mentored research with a public policy faculty member, in policy-relevant independent research, and in honors thesis research in public policy.

## High-Impact/Experiential Education

UNC Public Policy's experiential education programs offer students structured, active-learning opportunities that invite them to integrate and apply their academic knowledge and skills in a real-world policy environment. Opportunities include internships, the Honors Seminar on Public Policy and Global Affairs in Washington D.C. (PLCY 352H and PLCY 353H), the public policy clinic (PLCY 393), the intersector (PLCY 394), and the public policy capstone course (PLCY 698). PLCY 130, PLCY 293, PLCY 393, PLCY 691H, PLCY 692H, and PLCY 698 are all approved as experiential education courses.

For more information, see the department's website (<http://publicpolicy.unc.edu/academics/experiential-education/>).

## Capstone Course

The capstone course (PLCY 698) is the culminating experience of the public policy undergraduate major and is required for all seniors except those who complete an honors thesis. Students should register for the course in the fall or spring of their senior year. The course provides a bridge between policy analysis as it is studied in an academic setting and policy analysis as it is practiced in the workplace. Students work in small teams to produce actionable, client-centered, public policy analysis for a government agency or nonprofit organization.

## Honors Seminar on Public Policy and Global Affairs in Washington, D.C.

The Honors Seminar on Public Policy and Global Affairs offers Carolina undergraduates a unique learning, living, and internship opportunity in our nation's capital. The seminar offers students first-hand engagement with the actors and organizations that influence domestic and global affairs in Washington, D.C. It aims to expose students to a range of public policies that influence U.S. economic prosperity, national security, and its role in the broader global community. Internship placements provide opportunities for students to apply academic learning, to derive new insights and questions for seminar discussion, and to work directly with substantive policy experts.

## Internships and Public Service

Students may receive academic credit for an approved internship if it provides an academically relevant experience in policy analysis or research. Students who wish to complete an internship with an external organization can do so through PLCY 293 (available to public policy majors and minors). PLCY 293 is a Pass/Fail course. The Duncan MacRae Jr. Public Policy Internship Grant aims to support internship opportunities for public policy majors and to defer some of the costs associated with engaging in unpaid summer internships. The Hodding Carter III Public Service Fellowship supports opportunities for UNC-Chapel Hill public policy majors to engage in public service opportunities in our communities, the American south, the nation, and around the globe. The Thomas W. Ross North Carolina Leaders Fellows Program supports public policy undergraduates pursuing public service opportunities in the State of North Carolina during the summer. The Richard ("Pete") Andrews Fellowship in Environmental Policy supports a student interested in working on environmental policy during the summer or a policy research-related project during the academic year.

## Undergraduate Funding and Awards

Each year UNC Public Policy holds a graduation ceremony to honor students' achievements. The Kathy Taft Education Policy Award recognizes a rising senior majoring in public policy with an interest in and dedication to education policy. The Michael A. Stegman Award for Policy Research and Advocacy is awarded to a graduating public policy major who has demonstrated an ability to use policy research and analysis to advocate for social change and a commitment to play a future role in policy research and advocacy.

## Honors in Public Policy

Public policy majors who have at least a 3.3 overall grade point and a 3.5 in the core public policy courses are eligible to apply to the department's honors program in the spring of their junior year. The honors thesis offers an opportunity for motivated students to move beyond traditional coursework and apply critical thinking skills to an academic public policy thesis. This program is organized as an original, independent research project under the direction of a faculty advisor. Students considering writing an honors thesis must complete PLCY 581 before enrolling in PLCY 691H.

Completion of an honors thesis provides a total of six credit hours toward the major, including three credits toward a policy field concentration. Students who complete an honors thesis and maintain all other eligibility criteria may be recommended by their thesis advisor and the Undergraduate Affairs Committee for graduation with honors or highest honors in public policy. The department's website

(<http://publicpolicy.unc.edu/academics/undergraduate-program/honors/>) provides more information.

## Public Policy Majors Union

The Public Policy Majors' Union (PPMU) was founded in 1988 in an effort to help govern the department's curriculum. The PPMU has since expanded its role to include representation of policy majors within the University community and sponsorship of policy-related events. Membership is open to all public policy majors.

## Public Policy Minor

The core curriculum in public policy includes courses on policy innovation and analysis, politics of public policy, applied philosophy, applied economics, research design and statistics. Our experiential education (EE) courses develop students' teamwork, leadership, and communication skills as they produce actionable, client-centered research. UNC Public Policy offers multiple courses on both global and domestic policy issues including courses on education, immigration, the environment, health and human rights, and history and public policy.

The undergraduate minor in public policy consists of five courses. Students gain knowledge, skills, and experience to improve the lives of others.

## Knowledge

Students think and learn across academic disciplines with a diverse faculty with degrees in business, economics, history, law, philosophy, political science, public policy, sociology, and sociomedical sciences.

## Skills

Students gain an ability to think critically and independently; to write, reason, and communicate clearly; and to develop research methods and quantitative analysis skills.

## Experience

Students apply knowledge and skills in real world environments beyond the classroom. Students in our clinic, intersector, and internship courses address contemporary policy challenges by providing innovative analysis to clients in the nonprofit and public sector.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

First-year and sophomore students considering a minor in public policy are encouraged to complete PLCY 101 or PLCY 110.

## Department of Religious Studies

### Introduction

The Department of Religious Studies is dedicated to the study of religions as historical and cultural phenomena. It examines the history, texts, objects, beliefs, practices, and rituals of a variety of religious traditions across the globe. Inherently interdisciplinary in its approach, religious studies explores religions in light of related fields in the humanities and social sciences such as anthropology, archaeology, classics, geography, history, philosophy, political science, and sociology.

### Advising

The director of undergraduate studies advises majors and minors in religious studies. Please contact the Department of Religious Studies for updated contact information.

The director of Jewish studies advises majors and minors in Jewish studies. Please contact the Carolina Center for Jewish Studies for updated contact information.

The director of Christianity and culture advises minors in the study of Christianity and culture. Please contact the Department of Religious Studies for updated contact information.

The director of the Carolina Center for the Study of the Middle East and Muslim Civilizations advises minors in Islamic and Middle Eastern

studies. Please consult the Carolina Center for the Study of the Middle East and Muslim Civilizations for updated contact information.

## Graduate School and Career Opportunities

Those wishing to proceed to graduate work in religious studies can consult the director of undergraduate studies. We encourage students to pursue the study of two or more languages used by specific religious communities, as well as the modern languages of scholarship. In addition to the language courses offered by this department, UNC–Chapel Hill offers courses in German, French, Spanish, Greek, Modern Hebrew, Chinese, Japanese, Hindi-Urdu, Latin, Arabic, Sanskrit, Persian, Bengali, and Tamil.

Students majoring in religious studies often choose to pursue an M.A. or Ph.D. in religious studies or other related fields in the humanities and social sciences. Some of the graduates of the program go on to professional schools in law, medicine, divinity, or journalism. Each year the department awards the Bernard Boyd Fellowship to a graduating religious studies major who is planning to pursue graduate study in religion.

The department offers a variety of courses ranging from large lecture to advanced seminars, as well as independent studies, an honors thesis program, and a capstone course for all majors (RELI 697). Introductory courses, which are numbered below 200, orient students to the field of religious studies or to major approaches, topics, or issues within that broader field. Intermediate courses are numbered between 200 and 399, and they provide more in-depth analysis. Advanced courses, which are numbered 400 and above, often build on knowledge or skills derived from lower-level courses, and they provide opportunities for research-intensive study in particular areas of concentration in the study of religion.

## RELI—Religious Studies

### Undergraduate-level Courses

#### RELI 60. First-Year Seminar: Religion and Racism. 3 Credits.

How does religion become a source of ethnic or racial prejudice among religious practitioners? When does prejudice against religious persons constitute a form of racism? This class explores answers to these questions by examining the connections between religion and racism in modern societies like the United States and South Africa.

## Religious Studies Major, B.A.

The Department of Religious Studies is dedicated to the study of religions as historical and cultural phenomena. It examines the history, texts, objects, beliefs, practices, and rituals of a variety of local and global religious traditions. Inherently interdisciplinary in its approach, religious studies explores religions in light of related fields in the humanities and social sciences such as anthropology, archaeology, classics, geography, history, philosophy, political science, and sociology.

## Student Learning Outcomes

Upon completion of the religious studies program, students should be able to:

- Demonstrate knowledge of influential terms, approaches, and theories in religious studies
- Effectively conduct research on a specific topic using the discipline-based methods
- Communicate research clearly and effectively
- Demonstrate effective writing skills (clear focus, relevant evidence, coherent organization)

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Special Opportunities in Religious Studies

### Honors in Religious Studies

Students majoring in religious studies (including double majors) with a grade point average of 3.5 or above in department courses and 3.3 grade point average overall and who will have successfully completed at least one course numbered 400 or above on a topic in religious studies that is related to the proposed thesis may choose to write an honors thesis. Candidates for graduation with honors in religious studies are to be enrolled in RELI 691H in the fall and RELI 692H in the spring semester of their senior year. RELI 691H and RELI 692H count toward the major as courses fulfilling subfield requirements. Students should submit applications for the honors program to the department's director of undergraduate studies by the end of February during their junior year. Consult the department's director of undergraduate studies for details.

### Study Abroad

Professor Jodi Magness directs archaeological excavations in Israel during the summer. Students are welcome to participate. Other courses through the Study Abroad Office can count towards the major and minor in religious studies as well.

## Undergraduate Awards and Honors

The department presents three awards at the end of each academic year: the Bernard Boyd Fellowship, the Bernard Boyd Memorial Prize, and the Halperin-Schütz Undergraduate Essay Award.

The department also inducts qualified majors into the Religious Studies National Honor Society, Theta Alpha Kappa.

## Religious Studies Major, B.A.—Jewish Studies Concentration

The undergraduate major in religious studies — Jewish studies concentration is an interdisciplinary curriculum that explores the history, literature, culture, and religious life of Jews in their interaction with other peoples from ancient times to the present. It also offers students an opportunity to become more knowledgeable about selected areas of the Jewish experience.

## Student Learning Outcomes

Upon completion of the religious studies major — Jewish studies concentration, students should be able to:

- Demonstrate knowledge of Hebrew and of the history, literature, culture, and religious life of Jews across at least three historical periods
- Demonstrate knowledge of influential terms, approaches, and theories in Jewish studies
- Conduct research in Jewish studies, including interpreting primary sources, assessing scholarly literature, and constructing original arguments
- Clearly and effectively communicate the results of research

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Special Opportunities in Religious Studies Honors in Religious Studies

Students majoring in religious studies (including double majors) with a grade point average of 3.5 or above in department courses and 3.3 grade point average overall and who will have successfully completed at least one course numbered 400 or above on a topic in religious studies that is related to the proposed thesis may choose to write an honors thesis. Candidates for graduation with honors in religious studies are to be enrolled in RELI 691H in the fall and RELI 692H in the spring semester of their senior year. RELI 691H and RELI 692H count toward the major as courses fulfilling subfield requirements. Students should submit applications for the honors program to the department's director of undergraduate studies by the end of February during their junior year. Consult the department's director of undergraduate studies for details.

### Study Abroad

Professor Jodi Magness directs archaeological excavations in Israel during the summer. Students are welcome to participate. Other courses through the Study Abroad Office can count towards the major and minor in religious studies as well.

### Undergraduate Awards and Honors

The department presents three awards at the end of each academic year: the Bernard Boyd Fellowship, the Bernard Boyd Memorial Prize, and the Halperin-Schütz Undergraduate Essay Award.

The department also inducts qualified majors into the Religious Studies National Honor Society, Theta Alpha Kappa.

## Islamic and Middle Eastern Studies Minor

The undergraduate minor in Islamic and Middle Eastern studies (ISME) is intended to offer students access to two complementary perspectives, the transregional study of Islam and Muslim societies in interaction with surrounding cultures, and the Middle East as a complex region seen through multiple disciplinary perspectives.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

The minor consists of five courses, which must be taken in at least two different departments; at least one course must be from the Department of Religious Studies, and at least one course must be at an advanced level (400 and above).

Code	Title	Hours
<b>Core Requirements</b>

HIST 139	 History of Muslim Societies since 1500	
HIST 276	 The Modern Middle East	
RELI 181	 Modern Muslim Societies	
Three elective courses (see course lists below)		9
<b>Additional Requirements</b>		
Three of the five courses in the minor (including the required courses listed above) must be selected from one of two subject categories—either Islamic studies or Middle Eastern studies—as indicated by the two lists of approved courses below.		
The other two courses must come from the other category.		
<b>Total Hours</b>		<b>15</b>

<sup>1</sup> Both courses cover material from the seventh century to 1500

One language course at level 5 or higher in Arabic, Hebrew, Hindi-Urdu, Persian, or Turkish can count as a course toward the minor. Up to two

courses in Islamic and Middle East studies at Duke University may count toward the minor if approved by the director of the minor.

The minor is housed in the Department of Religious Studies and directed by Dr. Juliane Hammer, a member of the department, who is responsible for advising all students who minor in Islamic and Middle Eastern studies (as necessary beyond general academic advising).

## Religious Studies Minor

The Department of Religious Studies is dedicated to the study of religions as historical and cultural phenomena. It examines the history, texts, objects, beliefs, practices, and rituals of a variety of local and global religious traditions. Inherently interdisciplinary in its approach, religious studies explores religions in light of related fields in the humanities and social sciences such as anthropology, archaeology, classics, geography, history, philosophy, political science, and sociology.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill

## Study of Christianity and Culture Minor

The undergraduate minor in the study of Christianity and culture is an interdisciplinary curriculum in the humanities, arts, and social sciences

that aims to refine students' understanding of the cultural, social, and political influence of Christianity.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

Code	Title	Hours
<b>Requirements</b>		
The minor requires the completion of five courses, including at least one course from each of the following categories.		
Core course:		3-9
RELI 161	 Introduction to the History of Christian Traditions <sup>H</sup>	
RELI 167	 Global Christianity	
RELI 209	 Varieties of Early Christianity <sup>H</sup>	
RELI 225	Christian Cultures	
RELI 266	 Medieval and Renaissance Christian Cultures	
RELI 332	 The Protestant Tradition <sup>H</sup>	
Ancient, medieval, or early modern Christianity (see list below)		3-9
Christianity in the modern world (see list below)		3-9
<b>Total Hours</b>		<b>15</b>

<sup>H</sup> Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

Courses must be taken from at least two different departments, and at least one must be numbered 200 or above.

Students may also petition the Minor Faculty Advisory Committee for permission to count toward their minor requirements other potentially appropriate UNC–Chapel Hill courses, independent study courses, transfer courses, or study abroad courses.

Students also are encouraged to take language courses that relate to the minor in the study of Christianity and culture — such as Latin, Greek, or Hebrew — but language courses do not fulfill minor course requirements.

Although this minor is housed in the Department of Religious Studies, the director of Christianity and culture is responsible for advising all students who minor in the study of Christianity and culture.

## Department of Romance Studies

### Introduction

The Department of Romance Studies is a diverse, multicultural, and plurilingual academic unit that engages in interdisciplinary research and instruction in French, Italian, Portuguese, Spanish, as well as Indigenous and other languages of Europe and the Americas such as Romanian, Catalan, Basque, Galician, Yucatec Maya, and Guaraní. The principal aims of the department are to preserve, increase, and transmit knowledge and understanding of the Romance languages, literatures, and cultures within the global and regional contexts in which they have developed.

Our course offerings present a diversity of approaches — historical, literary, linguistic, sociopolitical, cultural, and theoretical — to the study of literary and nonliterary works and of the cultures of places where Romance languages are spoken. Students acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Our faculty promotes interdisciplinary connections and incorporates the study of literature, culture, linguistics, theory, and history across the curriculum. Through coursework that emphasizes rhetoric, language analysis, and written and oral expression, our majors receive sustained personalized training in critical thinking and close reading.

### Advising

The Department of Romance Studies offers a major with five concentrations and six minors. All students can find their primary academic advisor in Dey Hall. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. Each of the department's language advisors will meet with current and prospective majors by appointment. Departmental academic advising is particularly important for those majors who are considering going on to graduate school. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<http://romancestudies.unc.edu>).

### Graduate School and Career Opportunities

A major or minor in Romance studies provides excellent preparation for a variety of careers. Recent graduates have gone on to work in international business, law, publishing, education, journalism, and public policy, among other fields. A bachelor of arts in Romance studies qualifies graduates for employment in private-sector firms, foundations, educational institutions, and government agencies. A second major or minor in Romance studies

can be an asset for students seeking careers in any field requiring foreign language proficiency and intercultural communication skills, including the health professions and the sciences. The department offers several courses dedicated to the practical application of Romance languages for specific careers (business, law, health professions, translation) alongside courses that contribute to a well-rounded liberal arts education.

Romance studies majors often pursue post-graduate education. M.A. and Ph.D. programs in Romance studies are oriented towards literary, linguistic, and cultural studies, and the undergraduate student should prepare accordingly. Useful allied disciplines are English, comparative literature, history, classics, philosophy, linguistics, and art history. Faculty members can advise students on choices of graduate schools.

## Romance Languages Major, B.A. – French and Francophone Studies

The French major provides students with a more thorough command of the language, as well as a comprehensive knowledge of the literatures, cultures, and civilization of the francophone world. French majors are also trained in research methodology in French, francophone, and European studies.

French majors have gone on to careers in education, international business, law, journalism, publishing, social work, and health, as well as graduate study in French. The diverse offerings of the program include courses such as French civilization, business French, advanced oral and written French, introduction to French and francophone literatures, the role of France in Europe today, and identities in European cinema.

## Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Our faculty promotes interdisciplinary connections and incorporates the study of literature, culture, theory, and history across the curriculum. Through coursework that emphasizes language acquisition, rhetoric, composition, and written and oral expression, our majors receive sustained personalized training in critical thinking and close reading.

Upon completion of the program in Romance languages, students should be able to:

- Participate in conversations on concrete, social, academic, and professional topics
- Speak in detail about experiences and events in a variety of time frames and moods
- Represent points of view in discussions, both oral and written
- Deliver well-organized presentations on concrete, academic and professional topics
- Write on a wide variety of general interest, professional, and academic topics
- Follow narrative, informational, and descriptive speech on concrete, academic and professional topics
- Understand and discuss texts representing a variety of topics and genres

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC-Chapel Hill in the fall term. Some courses may not be offered every term.

### Sample Plan One

This plan assumes a placement of FREN 105 on the Foreign Language placement test. Student placement (and plans) may vary. Although it is possible to complete the French and Francophone studies major if a student begins with FREN 101, summer school, study abroad, or doubling-up on courses in the final year may be necessary in order to complete it in a timely manner.

## Special Opportunities in Romance Studies Undergraduate Research

The Department of Romance Studies offers a gateway for research in the humanities, including the various fields that make up Romance studies. Research activities include the honors thesis, summer research fellowships, or engaging in mentoring projects with professors which lead to opportunities to present papers at conferences or for publication in the University's undergraduate research journal.

Annual Research Opportunities:

- Office for Undergraduate Research (<https://our.unc.edu/>)
- Celebration of Undergraduate Research (<https://our.unc.edu/celebration-of-undergraduate-research/>)
- UNC JOURney (<http://uncjourney.unc.edu/>)
- Summer Undergraduate Research Fellowship (<https://our.unc.edu/surf/>)
- Burch Fellowship (<https://honorscarolina.unc.edu/fellowships/burch-fellowship/>)

### Honors

The departmental honors program is open to any qualified major with a cumulative grade point average of 3.3 or higher and 3.5 or higher in their major courses. Eligible honors candidates will formulate a topic and select an appropriate faculty member to supervise the writing of an honors thesis. Specific coursework for the major with honors consists of enrollment in the honors thesis courses in the language of the major emphasis.

Code	Title	Hours
FREN 691H & FREN 692H	Honors Thesis in French and  Honors Thesis in French	6
ITAL 691H & ITAL 692H	Honors Thesis and  Honors Thesis in Italian	6

SPAN 691H  Honors Thesis  
& SPAN 692H  and  Honors Thesis in Spanish

6 including games and conversation hours. They may also wish to join the undergraduate Italian Club.

6 Students who wish to practice Portuguese can meet weekly for the bate-papo (chat). Students of Portuguese also engage in editorial work and publish in the student journal *Revistinha*.

691H is taken in the fall semester of the senior year and 692H is taken in the spring semester. FREN 390, ITAL 398, PORT 398, SPAN 397 and SPAN 398 may be substituted for the 691H research course if the subject of the seminar is central to the research project chosen. In the 692H course, the thesis will be completed and the student will participate in an oral defense with the thesis director and two additional readers, to be agreed upon by the student and director. The thesis director, in consultation with the readers, will recommend that the student who has defended the thesis graduate with honors, highest honors, or with course credit. FREN 390, FREN 691H, ITAL 398, ITAL 691H, PORT 398, SPAN 397 and SPAN 398 may count toward the eight courses for the major, but FREN 692H, ITAL 692H, PORT 692H, and SPAN 692H may not. Students who intend to graduate in December should adjust the scheduling of these courses in order to allow for completion of the honors project in December. Students meeting the required grade point averages should contact the undergraduate advisor for their language. For detailed information on the B.A. with honors, visit the department's website (<http://romancestudies.unc.edu/undergraduate/overview/>).

## Collaborative Online International Learning

The department works in partnership with the COIL program and offers select courses that involve shared learning between students in a course at UNC–Chapel Hill and peer students at a global partner university. Faculty members at both institutions design collaborative activities for their students, such as completing small group projects, engaging in dialogue drawing on their different societal or disciplinary perspectives, or exchanging scholarly or creative work.

## Out-of-Class Language Experience

The department offers credit-bearing internship opportunities through ROML 293 and service-learning opportunities (<http://ccps.unc.edu/apples/>) through ROML 194. Both courses satisfy the High-Impact General Education requirement (in the IDEAs in Action curriculum) and the experiential education (EE) General Education requirement (in the Making Connections curriculum). While ROML 293 is a standalone course, ROML 194 is always connected to a specific course.

Each semester the department offers a film series where all students are invited to attend screenings of films in French, Italian, Portuguese, and Spanish. All films have subtitles. It is a great opportunity to meet people in different courses and language sections that share an interest in film.

Students also find opportunities to speak Spanish and meet native Spanish speakers in an informal weekly tertulia (gathering). Additional activities involving Spanish include attending lectures, receptions, and films organized by the department and student organizations such as CHispA (Carolina Hispanic Association); and serving the community through a variety of volunteer opportunities.

Students studying French are encouraged to become members of the French club, les Francophiles, and participate in the weekly conversation hour and other French Club activities. Departmental lectures and film series are also offered.

Students interested in Italian language and culture may attend film series, guest lectures, and a series of other extracurricular events

## Study Abroad

The Study Abroad Office sponsors many year-long, semester-long, and summer programs appropriate for students of the Romance languages and has special arrangements with the Department of Romance Studies for the UNC in Montpellier, UNC in Seville, and Florence programs. Students from UNC–Chapel Hill and from other institutions may earn up to 30 semester hours of undergraduate credit in these programs, which are open to qualified undergraduates regardless of academic major. While, in general, students may satisfy up to 50 percent of major or minor coursework abroad, courses that are taught by Romance studies faculty may count differently. For example, students completing the Spanish minor for the professions in health and business may complete all or most of the minor in faculty-led programs abroad.

Students who participate in Study Abroad during the semester have the opportunity to work as course correspondents for a course in Romance studies. Course correspondents report back to the class they serve throughout the semester via online tools and may receive one hour of credit for their informative work.

General inquiries concerning any of these programs should be addressed to the Study Abroad Office, CB# 3130, FedEx Global Education Center, (919) 962-7002.

## Undergraduate Awards

### French

Students have the opportunity to be inducted into Pi Delta Phi, the national French honor society. Those with outstanding records in French are recommended as candidates for the Jacques Hardré Award, which is given to the best graduating senior in French; it includes a cash award.

### Italian

Students are nominated for membership in Gamma Kappa Alpha, the Italian honor society, by undergraduate instructors. The society recognizes “outstanding scholastic performance in the fields of Italian language and literature” and encourages students “to acquire a greater interest in, and a deeper understanding of, Italian culture.” The Kimberly Kyser Award for Excellence in Italian is awarded to the most outstanding student in Italian and includes a cash prize.

### Portuguese

Each year the department awards the Camões Prize to the outstanding student in Portuguese during that year. The prize carries a monetary award made possible by a donation from the Gulbenkian Foundation.

### Spanish

Students have the opportunity to be inducted into Sigma Delta Pi, the national Spanish honor society. Those with outstanding performance in the Hispanic literatures and cultures or the Hispanic linguistics majors are eligible for several prizes including the Chancellor's Award, given to the top graduating senior, the Stoudemire Awards, and the Larry D. King Fellowship.

## Romance Languages Major, B.A. – Italian

UNC–Chapel Hill has a rich tradition of Italian studies, including courses that develop linguistic proficiency and many others dedicated to studies of literature, film, food, environmental humanities, politics, history, philosophy, and theater. Many students study abroad and increasingly seek opportunities for research and internship projects with an Italian focus.

This concentration is a popular choice for those interested in global studies or careers in journalism, diplomacy, international business or education, or for those seeking a well-rounded education in preparation for medical or law school. Many students who graduate from this program will also pursue graduate school in this or a related field.

## Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Our faculty promotes interdisciplinary connections and incorporates the study of literature, culture, theory, and history across the curriculum. Through coursework that emphasizes language acquisition, rhetoric, composition, and written and oral expression, our majors receive sustained personalized training in critical thinking and close reading. Upon completion of the program in Romance languages, students should be able to:

- Participate in conversations on concrete, social, academic, and professional topics
- Speak in detail about experiences and events in a variety of time frames and moods
- Represent points of view in discussions, both oral and written
- Deliver well-organized presentations on concrete, academic and professional topics
- Write on a wide variety of general interest, professional, and academic topics
- Follow narrative, informational, and descriptive speech on concrete, academic and professional topics
- Understand and discuss texts representing a variety of topics and genres

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

A prerequisite for entering the program is knowledge of the Italian language, demonstrated by successfully completing ITAL 204 or ITAL 402 or the equivalent.

Code	Title	Hours
<b>Core Requirements</b>		
ITAL 300	 Communicating in Italian: Media, Culture, and Society	3

<b>Total Hours</b>		<b>24</b>

<sup>1</sup> Courses taught in English may involve some extra writing in Italian, appropriate to the student's level of Italian at the time of the course and to be worked out with the individual instructor.

With the approval of the undergraduate advisor in Italian, three of the seven elective courses may be substituted with courses in such allied

fields as art history, classics, history, geography, music, political science, global studies, or any field in which the course(s) include(s) discussion of any aspect of Italian history, politics or culture.

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

## Special Opportunities in Romance Studies Undergraduate Research

The Department of Romance Studies offers a gateway for research in the humanities, including the various fields that make up Romance studies. Research activities include the honors thesis, summer research fellowships, or engaging in mentoring projects with professors which lead

to opportunities to present papers at conferences or for publication in the University's undergraduate research journal.

Annual Research Opportunities:

- Office for Undergraduate Research (<https://our.unc.edu/>)
- Celebration of Undergraduate Research (<https://our.unc.edu/celebration-of-undergraduate-research/>)
- UNC JOURney (<http://uncjourney.unc.edu/>)
- Summer Undergraduate Research Fellowship (<https://our.unc.edu/surf/>)
- Burch Fellowship (<https://honorscarolina.unc.edu/fellowships/burch-fellowship/>)

## Honors

The departmental honors program is open to any qualified major with a cumulative grade point average of 3.3 or higher and 3.5 or higher in their major courses. Eligible honors candidates will formulate a topic and select an appropriate faculty member to supervise the writing of an honors thesis. Specific coursework for the major with honors consists of enrollment in the honors thesis courses in the language of the major emphasis.

Code	Title	Hours
FREN 691H & FREN 692H	Honors Thesis in French and Honors Thesis in French	6
ITAL 691H & ITAL 692H	Honors Thesis and Honors Thesis in Italian	6
PORT 691H & PORT 692H	Honors Thesis and Honors Thesis in Portuguese	6
SPAN 691H & SPAN 692H	Honors Thesis and Honors Thesis in Spanish	6

691H is taken in the fall semester of the senior year and 692H is taken in the spring semester. FREN 390, ITAL 398, PORT 398, SPAN 397 and SPAN 398 may be substituted for the 691H research course if the subject of the seminar is central to the research project chosen. In the 692H course, the thesis will be completed and the student will participate in an oral defense with the thesis director and two additional readers, to be agreed upon by the student and director. The thesis director, in consultation with the readers, will recommend that the student who has defended the thesis graduate with honors, highest honors, or with course credit. FREN 390, FREN 691H, ITAL 398, ITAL 691H, PORT 398, SPAN 397 and SPAN 398 may count toward the eight courses for the major, but FREN 692H, ITAL 692H, PORT 692H, and SPAN 692H may not. Students who intend to graduate in December should adjust the scheduling of these courses in order to allow for completion of the honors project in December. Students meeting the required grade point averages should contact the undergraduate advisor for their language. For detailed information on the B.A. with honors, visit the department's website (<http://romancestudies.unc.edu/undergraduate/overview/>).

## Collaborative Online International Learning

The department works in partnership with the COIL program and offers select courses that involve shared learning between students in a course at UNC–Chapel Hill and peer students at a global partner university. Faculty members at both institutions design collaborative activities for their students, such as completing small group projects, engaging in

dialogue drawing on their different societal or disciplinary perspectives, or exchanging scholarly or creative work.

## Out-of-Class Language Experience

The department offers credit-bearing internship opportunities through ROML 293 and service-learning opportunities (<http://ccps.unc.edu/apples/>) through ROML 194. Both courses satisfy the High-Impact General Education requirement (in the IDEAs in Action curriculum) and the experiential education (EE) General Education requirement (in the Making Connections curriculum). While ROML 293 is a standalone course, ROML 194 is always connected to a specific course.

Each semester the department offers a film series where all students are invited to attend screenings of films in French, Italian, Portuguese, and Spanish. All films have subtitles. It is a great opportunity to meet people in different courses and language sections that share an interest in film.

Students also find opportunities to speak Spanish and meet native Spanish speakers in an informal weekly tertulia (gathering). Additional activities involving Spanish include attending lectures, receptions, and films organized by the department and student organizations such as CHispa (Carolina Hispanic Association); and serving the community through a variety of volunteer opportunities.

Students studying French are encouraged to become members of the French club, les Francophiles, and participate in the weekly conversation hour and other French Club activities. Departmental lectures and film series are also offered.

Students interested in Italian language and culture may attend film series, guest lectures, and a series of other extracurricular events including games and conversation hours. They may also wish to join the undergraduate Italian Club.

Students who wish to practice Portuguese can meet weekly for the bate-papo (chat). Students of Portuguese also engage in editorial work and publish in the student journal *Revistinha*.

## Study Abroad

The Study Abroad Office sponsors many year-long, semester-long, and summer programs appropriate for students of the Romance languages and has special arrangements with the Department of Romance Studies for the UNC in Montpellier, UNC in Seville, and Florence programs. ## Romance Languages Major, B.A. – Portuguese

Portuguese is the seventh most spoken language in the world, with over 250 million speakers. It is the language of Portugal, Brazil, and parts of Africa and Asia. Brazil, with a population of 185 million, is the largest country in South America and has the ninth largest economy in the world.

The program in Portuguese combines the study of the language, culture, and literatures of Brazil and Portugal. Emphasis is placed on the language as it is currently spoken and its historical development. Students study the literatures of Brazil and Portugal in terms of their historical development and analyze specific texts from different genres and literary periods. Students interested in Portuguese should consult the Portuguese language advisor.

Portuguese as a second language would open multiple job opportunities in various countries with expanding economies and a promising future. It would also provide a vehicle to the rich cultural traditions of Portugal, Brazil, and the Lusophone nations of Africa and Asia, including literature, art, and music.

### Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Our faculty promotes interdisciplinary connections and incorporates the study of literature, culture, theory, and history across the curriculum. Through coursework that emphasizes language acquisition, rhetoric, composition, and written and oral expression, our majors receive sustained personalized training in critical thinking and close reading. - Write on a wide variety of general interest, professional, and academic topics
- Follow narrative, informational, and descriptive speech on concrete, academic and professional topics
- Understand and discuss texts representing a variety of topics and genres

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill

<sup>1</sup> Taught in English, available for credit for major/minor in Portuguese only if readings and written work are done in Portuguese.

<sup>2</sup> This is a one-credit hour, once-a-week course. Students may repeat for credit since this is a rotating topics course.

With the approval of the undergraduate advisor for Portuguese, students majoring in Romance languages with an emphasis in Portuguese may

count up to nine hours in related areas in such departments, programs, and curricula as history, art, music, cultural studies, and women's and gender studies.

Because few entering students have completed coursework in Portuguese prior to enrolling in the University, it is essential that interested students start the language as early as the first year. Completion of PORT 204 or PORT 402 is considered a prerequisite for the major.

## Romance Languages Major, B.A. – Hispanic Studies

Spanish, the world's third largest language and second in terms of native speakers, is spoken by nearly 500 million people across the globe. The over 50 million Hispanics in the United States have become the fastest-growing social and political segment in North America. Because of its prominence, learning to communicate in Spanish can be essential for those entering the global economic market and numerous professions.

Spanish studies at UNC–Chapel Hill thrives on innovative literary, linguistic, and theoretical approaches to the Spanish-speaking world, and includes the study of indigenous, Afro-descendant, Asian, and other cultures. The Hispanic studies curriculum is designed to allow students to concentrate in one field of study (Hispanic literatures and cultures) and one of three professions (linguistics and translation and interpretation) while also exploring other areas of interest. As a result, students obtain well-grounded and comprehensive critical knowledge of the literatures, languages, and cultures of Spain and the Americas, as well as an appreciation of the language applied to a professional field. In addition to their course work, students in the major may choose to work on collaborative research, enter an Honors contract, and/or pursue an Honors thesis with one of our faculty members.

## Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Our faculty promotes interdisciplinary connections and incorporates the study of literature, culture, theory, and history across the curriculum. Through coursework that emphasizes language acquisition, rhetoric, composition, and written and oral expression, our majors receive sustained personalized training in critical thinking and close reading. Upon completion of the program in Romance languages, students should be able to:

- Participate in conversations on concrete, social, academic, and professional topics
- Speak in detail about experiences and events in a variety of time frames and moods
- Represent points of view in discussions, both oral and written

- Deliver well-organized presentations on concrete, academic and professional topics
- Write on a wide variety of general interest, professional, and academic topics
- Follow narrative, informational, and descriptive speech on concrete, academic and professional topics
- Understand and discuss texts representing a variety of topics and genres

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

### Sample Plan One

This plan assumes a placement of SPAN 105 on the Foreign Language placement test. Student placement (and plans) may vary. Although it is possible to complete the Hispanic Studies major if a student begins with SPAN 101, summer school, study abroad, or doubling up on courses in the final year may be necessary in order to complete it in a timely manner.

### Special Opportunities in Romance Studies Undergraduate Research

The Department of Romance Studies offers a gateway for research in the humanities, including the various fields that make up Romance studies. Research activities include the honors thesis, summer research fellowships, or engaging in mentoring projects with professors which lead

to opportunities to present papers at conferences or for publication in the University's undergraduate research journal.

Annual Research Opportunities:

- Office for Undergraduate Research (<https://our.unc.edu/>)
- Celebration of Undergraduate Research (<https://our.unc.edu/celebration-of-undergraduate-research/>)
- UNC JOURney (<http://uncjourney.unc.edu/>)
- Summer Undergraduate Research Fellowship (<https://our.unc.edu/surf/>)
- Burch Fellowship (<https://honorscarolina.unc.edu/fellowships/burch-fellowship/>)

### Honors

The departmental honors program is open to any qualified major with a cumulative grade point average of 3.3 or higher and 3.5 or higher in their major courses. Eligible honors candidates will formulate a topic and select an appropriate faculty member to supervise the writing of an honors thesis. Specific coursework for the major with honors consists of enrollment in the honors thesis courses in the language of the major emphasis.

Code	Title	Hours
FREN 691H & FREN 692H	Honors Thesis in French and Honors Thesis in French	6
ITAL 691H & ITAL 692H	Honors Thesis and Honors Thesis in Italian	6
PORT 691H & PORT 692H	Honors Thesis and Honors Thesis in Portuguese	6
SPAN 691H & SPAN 692H	Honors Thesis and Honors Thesis in Spanish	6

691H is taken in the fall semester of the senior year and 692H is taken in the spring semester. FREN 390, ITAL 398, PORT 398, SPAN 397 and SPAN 398 may be substituted for the 691H research course if the subject of the seminar is central to the research project chosen. In the 692H course, the thesis will be completed and the student will participate in an oral defense with the thesis director and two additional readers, to be agreed upon by the student and director. The thesis director, in consultation with the readers, will recommend that the student who has defended the thesis graduate with honors, highest honors, or with course credit. FREN 390, FREN 691H, ITAL 398, ITAL 691H, PORT 398, SPAN 397 and SPAN 398 may count toward the eight courses for the major, but FREN 692H, ITAL 692H, PORT 692H, and SPAN 692H may not. Students who intend to graduate in December should adjust the scheduling of these courses in order to allow for completion of the honors project in December. Students meeting the required grade point averages should contact the undergraduate advisor for their language. For detailed information on the B.A. with honors, visit the department's website (<http://romancestudies.unc.edu/undergraduate/overview/>).

### Collaborative Online International Learning

The department works in partnership with the COIL program and offers select courses that involve shared learning between students in a course at UNC-Chapel Hill and peer students at a global partner university. Faculty members at both institutions design collaborative activities for their students, such as completing small group projects, engaging in

dialogue drawing on their different societal or disciplinary perspectives, or exchanging scholarly or creative work.

## Out-of-Class Language Experience

The department offers credit-bearing internship opportunities through ROML 293 and service-learning opportunities (<http://ccps.unc.edu/apples/>) through ROML 194. Both courses satisfy the High-Impact General Education requirement (in the IDEAs in Action curriculum) and the experiential education (EE) General Education requirement (in the Making Connections curriculum). While ROML 293 is a standalone course, ROML 194 is always connected to a specific course.

Each semester the department offers a film series where all students are invited to attend screenings of films in French, Italian, Portuguese, and Spanish. All films have subtitles. It is a great opportunity to meet people in different courses and language sections that share an interest in film.

Students also find opportunities to speak Spanish and meet native Spanish speakers in an informal weekly tertulia (gathering). Additional activities involving Spanish include attending lectures, receptions, and films organized by the department and student organizations such as CHispa (Carolina Hispanic Association); and serving the community through a variety of volunteer opportunities.

Students studying French are encouraged to become members of the French club, les Francophiles, and participate in the weekly conversation hour and other French Club activities. Departmental lectures and film series are also offered.

Students interested in Italian language and culture may attend film series, guest lectures, and a series of other extracurricular events including games and conversation hours. They may also wish to join the undergraduate Italian Club.

Students who wish to practice Portuguese can meet weekly for the bate-papo (chat). Students of Portuguese also engage in editorial work and publish in the student journal *Revistinha*.

## Study Abroad

The Study Abroad Office sponsors many year-long, semester-long, and summer programs appropriate for students of the Romance languages and has special arrangements with the Department of Romance Studies for the UNC in Montpellier, UNC in Seville, and Florence programs. Students from UNC–Chapel Hill and from other institutions may earn up to 30 semester hours of undergraduate credit in these programs, which are open to qualified undergraduates regardless of academic major. While, in general, students may satisfy up to 50 percent of major or minor coursework abroad, courses that are taught by Romance studies faculty may count differently. For example, students completing the Spanish minor for the professions in health and business may complete all or most of the minor in faculty-led programs abroad.

Students who participate in Study Abroad during the semester have the opportunity to work as course correspondents for a course in Romance studies. Course correspondents report back to the class they serve throughout the semester via online tools and may receive one hour of credit for their informative work.

General inquiries concerning any of these programs should be addressed to the Study Abroad Office, CB# 3130, FedEx Global Education Center, (919) 962-7002.

## Undergraduate Awards

### French

Students have the opportunity to be inducted into Pi Delta Phi, the national French honor society. Those with outstanding records in French are recommended as candidates for the Jacques Hardré Award, which is given to the best graduating senior in French; it includes a cash award.

### Italian

Students are nominated for membership in Gamma Kappa Alpha, the Italian honor society, by undergraduate instructors. The society recognizes “outstanding scholastic performance in the fields of Italian language and literature” and encourages students “to acquire a greater interest in, and a deeper understanding of, Italian culture.” The Kimberly Kyser Award for Excellence in Italian is awarded to the most outstanding student in Italian and includes a cash prize.

### Portuguese

Each year the department awards the Camões Prize to the outstanding student in Portuguese during that year. The prize carries a monetary award made possible by a donation from the Gulbenkian Foundation.

### Spanish

Students have the opportunity to be inducted into Sigma Delta Pi, the national Spanish honor society. Those with outstanding performance in the Hispanic literatures and cultures or the Hispanic linguistics majors are eligible for several prizes including the Chancellor’s Award, given to the top graduating senior, the Stoudemire Awards, and the Larry D. King Fellowship.

## Romance Languages Major, B.A. – Hispanic Linguistics

Spanish, the world's third largest language and second in terms of native speakers, is spoken by nearly 500 million people across the globe. The over 50 million Hispanics in the United States have become the fastest-growing social and political segment in North America. Because of its prominence, learning to communicate in Spanish can be essential for those entering the global economic market and numerous professions.

Spanish studies at UNC–Chapel Hill thrives on innovative literary, linguistic, and theoretical approaches to the Spanish-speaking world, and includes the study of indigenous, Afro-descendant, Asian, and other cultures. Students obtain well-grounded and comprehensive critical knowledge of the literatures, languages, and cultures of Spain and the Americas, often through collaborative research with a faculty member. Qualifying students have the opportunity to pursue an honor's thesis with one of our faculty members.

### Student Learning Outcomes

Students will acquire competence in the practice and analysis of Romance languages together with a critical knowledge of the written, oral, and visual traditions of their origin and diaspora. Our faculty promotes interdisciplinary connections and incorporates the study of literature, culture, theory, and history across the curriculum. Through coursework that emphasizes language acquisition, rhetoric, composition, and written and oral expression, our majors receive sustained personalized training in critical thinking and close reading. - Write on a wide variety of general interest, professional, and academic topics
- Follow narrative, informational, and descriptive speech on concrete, academic and professional topics
- Understand and discuss texts representing a variety of topics and genres

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

The department offers credit-bearing internship opportunities through ROML 293 and service-learning opportunities (<http://ccps.unc.edu/apples/>) through ROML 194. Both courses satisfy the High-Impact General Education requirement (in the IDEAs in Action curriculum) and the experiential education (EE) General Education requirement (in the Making Connections curriculum). While ROML 293 is a standalone course, ROML 194 is always connected to a specific course.

Each semester the department offers a film series where all students are invited to attend screenings of films in French, Italian, Portuguese, and Spanish. All films have subtitles. It is a great opportunity to meet people in different courses and language sections that share an interest in film.

Students also find opportunities to speak Spanish and meet native Spanish speakers in an informal weekly tertulia (gathering). Additional activities involving Spanish include attending lectures, receptions, and films organized by the department and student organizations such as CHisPA (Carolina Hispanic Association); and serving the community through a variety of volunteer opportunities.

Students studying French are encouraged to become members of the French club, les Francophiles, and participate in the weekly conversation hour and other French Club activities. Departmental lectures and film series are also offered.

Students interested in Italian language and culture may attend film series, guest lectures, and a series of other extracurricular events including games and conversation hours. They may also wish to join the undergraduate Italian Club.

Students who wish to practice Portuguese can meet weekly for the bate-papo (chat). Students of Portuguese also engage in editorial work and publish in the student journal *Revistinha*.

## Study Abroad

The Study Abroad Office sponsors many year-long, semester-long, and summer programs appropriate for students of the Romance languages and has special arrangements with the Department of Romance Studies for the UNC in Montpellier, UNC in Seville, and Florence programs. Students from UNC–Chapel Hill and from other institutions may earn up to 30 semester hours of undergraduate credit in these programs, which are open to qualified undergraduates regardless of academic major. While, in general, students may satisfy up to 50 percent of major or minor

coursework abroad, courses that are taught by Romance studies faculty may count differently. For example, students completing the Spanish minor for the professions in health and business may complete all or most of the minor in faculty-led programs abroad.

Students who participate in Study Abroad during the semester have the opportunity to work as course correspondents for a course in Romance studies. Course correspondents report back to the class they serve throughout the semester via online tools and may receive one hour of credit for their informative work.

General inquiries concerning any of these programs should be addressed to the Study Abroad Office, CB# 3130, FedEx Global Education Center, (919) 962-7002.

## Undergraduate Awards

### French

Students have the opportunity to be inducted into Pi Delta Phi, the national French honor society. Those with outstanding records in French are recommended as candidates for the Jacques Hardré Award, which is given to the best graduating senior in French; it includes a cash award.

### Italian

Students are nominated for membership in Gamma Kappa Alpha, the Italian honor society, by undergraduate instructors. The society recognizes “outstanding scholastic performance in the fields of Italian language and literature” and encourages students “to acquire a greater interest in, and a deeper understanding of, Italian culture.” The Kimberly Kyser Award for Excellence in Italian is awarded to the most outstanding student in Italian and includes a cash prize.

### Portuguese

Each year the department awards the Camões Prize to the outstanding student in Portuguese during that year. The prize carries a monetary award made possible by a donation from the Gulbenkian Foundation.

### Spanish

Students have the opportunity to be inducted into Sigma Delta Pi, the national Spanish honor society. Those with outstanding performance in the Hispanic literatures and cultures or the Hispanic linguistics majors are eligible for several prizes including the Chancellor’s Award, given to the top graduating senior, the Stoudemire Awards, and the Larry D. King Fellowship.

## French Minor

The Department of Romance Studies is a diverse, multicultural, and plurilingual academic unit that engages in research and instruction in French, Italian, Portuguese, Spanish, and the historical minority languages of Europe and the Americas.

Students unable to undertake a full eight-course French program may register for the French minor. This option also is available to students in some professional schools.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor “core” requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Italian Minor

The minor in Italian is designed for those who wish to continue their study of the Italian language and acquire a more in-depth knowledge of Italian history, society, literature, and culture. Many use it to support their

majors in related fields such as global studies, business, history, art history, and anthropology, and to round out their major in the STEM fields as well. It requires three fewer courses than the Italian major.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

Four additional ITAL courses excluding ITAL 101, ITAL 102, ITAL 203, ITAL 204, ITAL 401 and ITAL 402. <sup>1</sup>		12
<b>Total Hours</b>		<b>15</b>

<sup>1</sup> Courses taught in English may involve some extra writing in Italian, appropriate to the student's level of Italian at the time of the course and to be worked out with the individual instructor.

With the approval of the undergraduate advisor in Italian, one of the four elective courses may be substituted with a course in such allied fields as art history, classics, history, geography, music, political science, global studies, or any field in which the course includes discussion of any aspect of Italian history, politics or culture.

Completion of ITAL 204 or ITAL 402 is considered a prerequisite for the minor.

## Portuguese Minor

The minor in Portuguese is designed for those who wish to continue their study of Portuguese and acquire a more in-depth knowledge of Lusophone cultural production, such as film, literature, and the performing arts. Qualifying courses include courses in Portuguese, courses on Lusophone topics taught in English, and certain courses outside the department with a significant amount of content related to the Lusophone world. Many students see it as essential or complementary to their major in fields such as public health, global studies, music, anthropology, or political science.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

## Translation and Interpreting Minor

Developments in globalization, international trade, worldwide communication and technology have dramatically increased the demand for qualified translators and interpreters in all realms, especially in business, technology, communication, marketing, advertisement, government, healthcare, social services, national security, international trade, and law. The current demand for translation and interpreting professionals outweighs the supply available. This program will provide students the background in theory, technical resources, research skills, and literary and cultural competency that are necessary to communicate in more than one language and in written and oral form.

Successful translators and interpreters work for an agency, as independent contractors, or as part of a larger team in national

or international organizations, institutions, or associations. Upon completion of the minor, students will be ready to use their inter-cultural and inter-linguistic skills for professional purposes in institutional, academic, or other professional contexts.

## Admission

Students who wish to declare this minor should be majoring in either Hispanic Literatures and Cultures or Hispanic Linguistics and should not have declared a different minor in the department. Approval by the department is required. Students can declare the minor after completing SPAN 300 with a grade of C or better by scheduling an appointment to meet with the program coordinator.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC—Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

## Department of Sociology

### Introduction

The Department of Sociology is the primary home for two majors (sociology major and management and society major) and two minors (health and society minor and social and economic justice minor).

The undergraduate major in sociology (p. 985) provides students with theoretical and methodological tools, and substantive insights for understanding human social life and institutions. The department's faculty is particularly strong in the areas of social inequality, marriage and family, health and medical sociology, work and the economy, religion, formal organizations, sex and gender, social movements, population and human ecology, social networks, education, and political sociology. Course themes range widely from the theoretical to the applied and incorporate a broad array of methodological approaches including comparative/historical, participant observation and interviewing, survey data collection, and statistical analysis.

The undergraduate major in management and society (p. 988) is an interdisciplinary program that focuses on the institutional context and inner workings of organizations and the economic system, with both a historical and contemporary perspective. Students take relevant topical courses from a diverse range of departments (including Sociology, Communication Studies, Economics, Psychology, Business Management, and History), in addition to some statistics courses. It prepares students for a variety of positions in private or public-sector organizations. Additionally, many students find the curriculum to be excellent preparation for a variety of business-oriented graduate and professional degree programs.

The undergraduate minor in health and society (p. 991) provides students with an opportunity to examine contemporary health patterns and trends characterizing U.S. society and societies around the world, as well as sociologically based explanations for those patterns and trends. It also provides students with an understanding of the social construction of health and illness in modern societies. The minor brings together courses focused specifically on linkages between health and society, along with courses focused on social organization and stratification,

to provide students with insights into the ways that societies define health and illness and how social organization and stratification influence population health.

The undergraduate minor in social and economic justice (p. 992) is designed for students who want to understand how to think analytically about issues of justice and how perspectives on justice can be joined with the pursuit of it. An overarching objective is fostering attitudes and knowledge about human rights; racial, ethnic, and gender equality; economic justice; democratic participation; sustainable development; diversity; and peace. It is especially appropriate for students who anticipate working in advocacy roles in nonprofit organizations, in local communities, or in governmental organizations. In these inquiries about justice, students engage scholarship in a variety of disciplines and traditions of practice.

## Advising

All majors and minors have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies and assistant director engage with current, transfer, and prospective majors/minors by email or appointment (see contact information on the program page of the catalog). Departmental academic advising is particularly important for those students who are double majors and those who may be considering going on to graduate school. Further information on courses, undergraduate research opportunities, writing an honors thesis, careers, and graduate schools is available on the department's website (<https://sociology.unc.edu/>).

## Opportunities for Career and Further Education

Graduates from our department's programs are employed by research institutes, public health and welfare organizations, social work agencies, private businesses, law firms, international agencies, medical centers, educational institutions, advertising firms, survey and polling organizations, and the criminal justice system. Others work in politics and government and in community and social justice organizing.

A major in sociology also prepares students for law, medical, or business school and for graduate degree programs in social work, education, public policy, religious ministry, mass communications, public health, nonprofit administration, and international affairs. The sociology major also prepares interested undergraduates for graduate studies in sociology, should they choose to continue in the field to become researchers or teachers in educational or research institutions. Students interested in pursuing graduate studies after college may, with the instructor's permission, enroll in graduate-level courses at UNC-Chapel Hill.

A major in management and society prepares students for virtually any aspect of a business or management career that does not involve highly specialized training and certification (such as finance and accounting). Employers are interested in students who can think on their feet, communicate effectively, write well, and make sense of the social and economic changes occurring in their industry. Management and society majors are educated in each of these skills, and are especially suited for entry-level positions in any aspect of human resource management, industry, or public-sector organizations. Among recent graduates who responded to a placement office survey, the largest number were employed in sales; management or management training positions with

at least some supervisory or personnel-related responsibilities ranked second. Other graduates are working in customer service, purchasing, and marketing research, and several hold positions in the public sector.

**Sociology Major, B.A.**

The undergraduate major in sociology at UNC–Chapel Hill provides students with theoretical and methodological tools, and substantive insights for understanding human social life and institutions. The major is designed to offer its students training in critical thinking, analytical problem solving, reasoned judgment, and effective communication as well as broad knowledge of human relations and social systems, providing useful tools for a variety of careers. The curriculum and requirements are flexible enough to permit students to tailor their program to fit individual needs and interests. The undergraduate sociology program includes opportunities to put sociological ideas into practice through research by means of independent studies, theses, and internships.

**Student Learning Outcomes**

Upon completion of the sociology program, students should be able to:

- Make links between human action/consciousness and social forces/ social contexts. This will include identifying how human behavior and consciousness are shaped by the social and, in turn, how the social can be changed by individual behavior and collective action
- Identify and define major sociological concepts and apply these concepts to social reality. Examples of concepts include norms, roles, social institutions, social stratification, power, authority, class, gender, race, social capital, life course, social networks, and social control
- Propose an appropriate research design for studying a social phenomenon, including assessing the data and methods that would be appropriate for any given study of social phenomena

- Describe and compare several major theoretical perspectives used by sociologists (examples include functionalism, conflict theory, institutional theory, feminist theory, and symbolic interactionism), and be able to apply these perspectives to social phenomena (poverty, human capital, inequality, inter-group conflict, etc.)

**Requirements**

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC-Chapel Hill in the fall term. Some courses may not be offered every term.

### Sample Plan One

First Year		Hours
<b>First-Year Foundations</b>		
IDST 101	College Thriving	1

## Special Opportunities in Sociology Honors in Sociology

The department attempts to identify and invite all qualified students to participate in the senior honors program. Students who are not contacted, especially double majors, transfer students, and students who declare their major in sociology relatively late in their college careers, are encouraged to speak with their major advisor or the department's honors advisor no later than the preregistration period during the second semester of their junior year.

To graduate with honors in sociology, a major must meet the following requirements:

- At least a 3.3 cumulative grade point average in major courses and all courses taken at the University
- Completion of an honors thesis based on independent study, which may involve collection of data by the student, under the supervision of a faculty thesis advisor
- Participation in an honors seminar program during the fall and spring semesters of the senior year.

Students may receive credit for one or both senior honors research and seminar courses (SOCI 691H and SOCI 692H) depending on the extent of their thesis work.

For more information on honors, contact the Sociology director of undergraduate studies and/or the assistant director, or visit the relevant page (<https://sociology.unc.edu/undergraduate-program/sociology-major/honors/>) on the department's website (<https://sociology.unc.edu/>).

## Student Clubs

The Sociology Club ([https://heellife.unc.edu/organization/sociology\\_club/](https://heellife.unc.edu/organization/sociology_club/)) is a student-run, student-driven organization that may provide relevant presentations, discussions, guidance, and/or service opportunities in sociology.

## Independent Study and Reading

SOCI 396 may be taken for one to three hours of course credit depending on the amount of academic work planned by the student. It is usually taken by juniors and seniors who have completed at least two or three courses in sociology. Students may use independent study to

- Do reading and research in an area in which no course is offered
- Take advanced or more specialized coursework in a specific area of sociology

After an area of study has been selected, the student contacts a faculty member in the department whose interests are in or related to the topic area. If the faculty member agrees to direct the student's independent study, the student needs final approval by the department's director of undergraduate studies. It is the student's and faculty supervisor's responsibility to determine the amount of reading and/or outside work to be done, the frequency with which the student's progress will be assessed, and the papers or examinations that will constitute the course requirements. An approved learning contract is necessary, and some written work involving sociological analysis is required to receive credit for SOCI 396. Students must sign up for SOCI 396 before the end of the first week of classes. For more information, visit the relevant page (<https://sociology.unc.edu/undergraduate-program/sociology-major/independent-study-and-internships/>) on the department's website (<https://sociology.unc.edu/>).

## Independent Experiential Internship

Students may combine employment and study in the form of an internship program for which they receive one to three academic credits through SOCI 393. The student must assume responsibility for employment arrangements. Students may not receive credit for paid employment. The student contacts a faculty member in the department whose interests are in or related to the area of the internship. If the faculty member agrees to direct the internship, the student needs final approval by the department's director of undergraduate studies. Credit is not provided for the internship alone; some written work involving sociological analysis is required to receive credit for SOCI 393. Because of the expectation that students doing an internship for academic credit will conduct substantive sociological analysis, it is very important that planning begin early. Students must secure all approvals for the contract before the first day of the internship. For more information, visit the relevant page (<https://sociology.unc.edu/undergraduate-program/sociology-major/independent-study-and-internships/>) on the department's website (<https://sociology.unc.edu/>).

## Undergraduate Research

Students interested in working with faculty on their research projects should contact the Office for Undergraduate Research (<http://our.unc.edu/>) for more information and also speak with the director of undergraduate studies for more direction.

## Undergraduate Howard W. Odum Award

The Undergraduate Howard W. Odum Award is presented yearly to a graduating senior who has displayed excellence in undergraduate sociological achievement. This award was established in 1967 in honor of Professor Howard Odum, who founded and first chaired the UNC–Chapel Hill Department of Sociology. Odum was a pioneer in American sociology and a major influence on the discipline. The department faculty selects the recipient of the annual award on the basis of grade records and other demonstrations of academic talent and accomplishment as an undergraduate.

## Management and Society Major, B.A.

Management and society is an interdisciplinary major that focuses on the institutional context and inner workings of organizations. The major prepares students for a variety of positions in private or public-sector organizations. Additionally, many students find the curriculum to be excellent preparation for a variety of business-oriented graduate and professional degree programs.

Some students have combined management and society with majors in such academic disciplines as economics, sociology, psychology, public policy, history, and political science.

## Student Learning Outcomes

Upon completion of the management and society program, students should be able to:

- Identify different types of workplace conditions — e.g., the effects of communication, authority structure, levels of worker interdependence, and demographic characteristics of workers — and their consequences on worker morale and productivity
- Trace the history, implementation, and consequences of specific public policies affecting the workforces of businesses, nonprofit organizations, and governmental organizations
- Identify and explain general social, historical, and economic forces that affect job markets and job stability

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

<sup>1</sup> Double majors in economics and management and society may take ECON 445 instead of ECON 345, and ECON 480 instead of ECON 380.

Some of the core courses are cross-listed.

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan

may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

## Special Opportunities in Management and Society

### Honors in Management and Society

A student may, as a result of distinguished work (3.3 grade point average or higher), be awarded a degree with honors or highest honors. This requires completion of a senior honors thesis. Interested students should contact the Sociology director of undergraduate studies and/or assistant director for more information. Honors students should enroll in MNGT 691H and MNGT 692H (or the SOCI equivalent of these courses) during the fall and spring semesters of their senior year. MNGT 692H will fulfill one of the course requirements from the social context of business group listed above. For more information, visit the relevant page (<https://sociology.unc.edu/undergraduate-program/sociology-major/honors/>) on the department's website (<https://sociology.unc.edu/>).

### Student Clubs

The Sociology Club is a student-run, student-driven organization that may provide relevant presentations, discussions, guidance, and/or service opportunities in sociology and adjacent fields, including management and society.

### Independent Study and Reading

SOCI 396 may be taken for one to three hours of course credit depending on the amount of academic work planned by the student. It is usually taken by juniors and seniors who have completed at least two or three courses in sociology. Students may use independent study to

- Do reading and research in an area in which no course is offered
- Take advanced or more specialized coursework in a specific area of sociology

After an area of study has been selected, the student contacts a faculty member in the department whose interests are in or related to the topic area. If the faculty member agrees to direct the student's independent study, the student needs final approval by the department's director of undergraduate studies. It is the student's and faculty supervisor's responsibility to determine the amount of reading and/or outside work to be done, the frequency with which the student's progress will be assessed, and the papers or examinations that will constitute the course requirements. An approved learning contract is necessary, and some

written work involving sociological analysis is required to receive credit for SOCI 396. Students must sign up for SOCI 396 before the end of the first week of classes. For more information, visit the relevant page (<https://sociology.unc.edu/undergraduate-program/management-and-society-major/independent-study-and-internships/>) on the department's website (<https://sociology.unc.edu/>).

## Independent Experiential Internship

Students may combine employment and study in the form of an internship program for which they receive one to three academic credits through SOCI 393. The student must assume responsibility for employment arrangements. Students may not receive credit for paid employment. The student contacts a faculty member in the department whose interests are in or related to the area of the internship. If the faculty member agrees to direct the internship, the student needs final approval by the department's director of undergraduate studies. Credit is not provided for the internship alone; some written work involving sociological analysis is required to receive credit for SOCI 393. Because of the expectation that students doing an internship for academic credit will conduct substantive sociological analysis, it is very important that planning begin early. Students must secure all approvals for the contract before the first day of the internship. For more information, visit the relevant page (<https://sociology.unc.edu/undergraduate-program/management-and-society-major/independent-study-and-internships/>) on the department's website (<https://sociology.unc.edu/>).

## Undergraduate Research

Students interested in working with faculty on their research projects should contact the Office for Undergraduate Research (<http://our.unc.edu/>) for more information and also speak with the director of undergraduate studies.

## Health and Society Minor

The minor in health and society provides students with an opportunity to examine contemporary health patterns and trends characterizing U.S. society and societies around the world, as well as sociologically based explanations for those patterns and trends. It also provides students with an understanding of the social construction of health and illness in modern societies. The minor brings together courses focused specifically on linkages between health and society, along with courses focused on social organization and social stratification, to provide students with insights into the ways that societies define health and illness and how social organization and stratification influence population health.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Social and Economic Justice Minor

The minor in social and economic justice is designed for students who want to understand how to think analytically about issues of justice and how perspectives on justice can be joined with the pursuit of it. An overarching objective is fostering attitudes and knowledge about human rights; racial, ethnic, and gender equality; economic justice; democratic participation; sustainable development; diversity; and peace. It is especially appropriate for students who anticipate working in advocacy roles in nonprofit organizations, in local communities, or in governmental organizations. In these inquiries about justice, students engage scholarship in a variety of disciplines and traditions of practice.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

SOCI 274	Social and Economic Justice	
Three additional courses that cover at least two different areas (listed below) <sup>1</sup>		9
<b>Total Hours</b>		<b>12</b>

<sup>1</sup> Depending on the topic, independent study, special topics, and internship courses may be approved to fulfill the requirements for the minor with the explicit permission of the director.

A student may major in sociology and minor in social and economic justice; however, a student cannot count toward graduation more than 45 hours in SOCI courses. All college requirements about minors apply.

### Service Learning Component

Students are required to complete one service-learning experience, a requirement that can be met in one of three ways.

1. A student may take a course that includes a service-learning (APPLES) component.
2. After seeking and receiving the approval of the director of the minor, a student may take a one- to three-credit independent studies or special topics course (summer or academic term) with a faculty member.
3. A student may participate in the two-credit spring break course, HBEH 610, which meets the service-learning requirement but not a course requirement.

Note that core courses do not necessarily contain a service-learning component; check ConnectCarolina each semester to confirm that courses are listed as APPLES courses.

Thus, the minor is fulfilled with 12 to 13 credits, depending on whether the service-learning requirement is part of a three-credit course or is fulfilled in another way.

## Department of Statistics and Operations Research

### Introduction

The major in statistics and analytics (STAN) is an excellent program for students interested in statistical data science, operations research, and actuarial science, as well as in fields such as business, economics, public policy and health, psychology, and biomedicine, where the decision and statistical sciences play an increasingly important role.

Particular areas in which graduates can obtain employment or continue with graduate study include:

### Statistics

Students in this area study the mathematical theories of probability and statistics and their application to mathematical models that contain an element of uncertainty or randomness. Opportunities for employment are manifold in businesses and government agencies, and include a broad range of areas from the natural sciences, social sciences, and technology. Concrete examples include pharmacology, genomics, medicine, environmental sciences, social network analysis, and information technology.

### Operations Research

In this area, students study mathematical, statistical, and computational techniques related to decision making. Operations research is crucial in business, government, and other management areas where decisions are made by solving large, complex problems (for example, crew scheduling for airlines, and the design of online recommendation systems). In addition to their major courses, students interested in this field are encouraged to take courses in business and economics.

### Actuarial Science

Actuaries work primarily in businesses that involve financial risk, including the insurance industry. Students interested in this field take advanced courses in statistics, stochastic processes, and the mathematical theory of risk.

### Advising

All majors and minors have a primary academic advisor in Steele Building. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. STAN majors and minors are also encouraged to meet with departmental advisors to discuss course planning before registration each semester. The director of undergraduate studies works with prospective majors and minors by appointment. Additional information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<http://www.stat-or.unc.edu/>) or by contacting the director of undergraduate studies.

## Courses for Students from Other Departments

The Department of Statistics and Operations Research offers a variety of courses of potential value to students majoring in other disciplines. Introductory courses include STOR 113 and STOR 215, which are foundation courses in decision models, and the basic statistical courses, STOR 120 and STOR 155. At the intermediate level, STOR 305 provides an introduction to business decision models, while STOR 320 is an introductory course to data science. Substantial coverage of applied statistical methods is provided in STOR 455 and STOR 556. At more advanced mathematical levels, an introduction to probability theory is provided by STOR 435 (or STOR 535), an introduction to proof techniques and discrete mathematics is given in STOR 315, and the basic theory of statistical inference is given by STOR 555. More advanced deterministic and stochastic models of operations research are provided in STOR 415 and STOR 445. Machine learning is covered in STOR 565 and STOR 566.

## Graduate School and Career Opportunities

Regardless of the electives chosen, the statistics and analytics degree program provides excellent preparation for graduate study. Graduates with concentrations in operations research or statistics often continue work at the graduate level in those fields or related areas such as industrial engineering, biostatistics, and environmental science, or enter business school to pursue a master's in business administration (M.B.A.) degree.

A five-year B.S.–M.S. degree program in statistics, operations research and data science is also an option. Interested students should consult the director of graduate studies for the operations research program.

Graduates of the statistics and analytics program will find numerous opportunities for well-paid, challenging jobs.

## STOR—Statistics and Operations Research Undergraduate-level Courses

### STOR 52. First-Year Seminar: Decisions, Decisions, Decisions. 3 Credits.

In this course, we will investigate the structure of these decision problems, show how they can be solved (at least in principle), and solve some simple problems.

#### Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

### STOR 53. FYS: Networks: Degrees of Separation and Other Phenomena Relating to Connected Systems. 3 Credits.

Networks, mathematical structures that are composed of nodes and a set of lines joining the nodes, are used to model a wide variety of familiar systems.

#### Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

### STOR 54. First-Year Seminar: Adventures in Statistics. 3 Credits.

This seminar aims to show that contrary to common belief, statistics can be exciting and fun. The seminar will consist of three modules: statistics in our lives, randomness, and principles of statistical reasoning.

#### Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

### STOR 55. First-Year Seminar: Risk and Uncertainty in the Real World. 3 Credits.

The aim of this class is to study the role of uncertainty in our daily lives, to explore the cognitive biases that impair us, and to understand how one uses quantitative models to make decisions under uncertainty in a wide array of fields including medicine, law, finance, and the sciences.

#### Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

### STOR 56. First-Year Seminar: The Art and Science of Decision Making in War and Peace. 3 Credits.

This seminar will use recently assembled historical material to tell the exciting story of the origins and development of operations research during and after World War II.

#### Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

### STOR 60. First-Year Seminar: Statistical Decision-Making Concepts. 3 Credits.

We will study some basic statistical decision-making procedures and the errors and losses they lead to. We will analyze the effects of randomness on decision making using computer experimentation and physical experiments with real random mechanisms like dice, cards, and so on.

#### Rules & Requirements

 IDEAs in Action Gen Ed: FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

 **STOR 61. First-Year Seminar: Statistics for Environmental Change. 3 Credits.**

Studies the Environmental Protection Agency's Criteria Document, mandated by the Clean Air Act; this document reviews current scientific evidence concerning airborne particulate matter. Students learn some of the statistical methods used to assess the connections between air pollution and mortality, and prepare reports on studies covered in the Criteria Document.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

 **STOR 62. First-Year Seminar: Probability and Paradoxes. 3 Credits.**

The theory of probability, which can be used to model the uncertainty and chance that exist in the real world, often leads to surprising conclusions and seeming paradoxes. We survey and study these, along with other paradoxes and puzzling situations arising in logic, mathematics, and human behavior.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

 **STOR 63. FYS: Statistics, Biostatistics, and Bioinformatics: An Introduction to the Ongoing Evolution. 3 Credits.**

This course is designed to emphasize the motivation, philosophy, and cultivation of statistical reasoning in the interdisciplinary areas of statistical science and bioinformatics.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

 **STOR 64. First-Year Seminar: A Random Walk down Wall Street. 3 Credits.**

Introduces basic concepts in finance and economics, useful tools for collecting and summarizing financial data, and simple probability models for quantification of market uncertainty.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

 **STOR 66. First-Year Seminar: Visualizing Data. 3 Credits.**

This seminar looks at a variety of ways in which modern computational tools allow easy and informative viewing of data. Students will also study the kinds of choices that have to be made in data presentation and viewing.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

 **STOR 72. First-Year Seminar: Unlocking the Genetic Code. 3 Credits.**

Introduces students to the world of genetics and DNA and to the use of computers to organize and understand the complex systems associated with the structure and dynamics of DNA and heredity.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

**Making Connections Gen Ed:** QI.

**Grading Status:** Letter grade.

 **STOR 89. First-Year Seminar: Special Topics. 3 Credits.**

Special Topics Course. Contents will vary each semester.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

**Grading Status:** Letter grade.

 **STOR 113. Decision Models for Business and Economics. 3 Credits.**

An introduction to multivariable quantitative models in economics. Mathematical techniques for formulating and solving optimization and equilibrium problems will be developed, including elementary models under uncertainty.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FC-QUANT.

**Making Connections Gen Ed:** QR.

**Requisites:** Prerequisite, MATH 110.

**Grading Status:** Letter grade.

 **STOR 115. Reasoning with Data: Navigating a Quantitative World. 3 Credits.**

Students will use mathematical and statistical methods to address societal problems, make personal decisions, and reason critically about the world. Authentic contexts may include voting, health and risk, digital humanities, finance, and human behavior. This course does not count as credit towards the psychology or neuroscience majors.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FC-QUANT.

**Making Connections Gen Ed:** QR.

**Grading Status:** Letter grade.

**Same as:** MATH 115, BIOL 115, PSYC 115.

 **STOR 120. Foundations of Statistics and Data Science. 4 Credits.**

The course teaches critical concepts and skills in computer programming and statistical inference, in conjunction with hands-on analysis of real-world datasets, including economic data, document collections, geographical data, and social networks. It delves into social issues surrounding data analysis such as privacy and design.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** FY-LAUNCH (only designated sections), FC-QUANT.

**Making Connections Gen Ed:** QR.

**Grading Status:** Letter grade.

**STOR 151. Introduction to Data Analysis. 3 Credits.**

Elementary introduction to statistical reasoning, including sampling, elementary probability, statistical inference, and data analysis. STOR 151 may not be taken for credit by students who have credit for ECON 400 or PSYC 210.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** FC-QUANT.

**Making Connections Gen Ed:** QR.

**Requisites:** Prerequisite, MATH 110.

**Grading Status:** Letter grade.

**STOR 155. Introduction to Data Models and Inference. 3 Credits.**

Data analysis; correlation and regression; sampling and experimental design; basic probability (random variables, expected values, normal and binomial distributions); hypothesis testing and confidence intervals for means, proportions, and regression parameters; use of spreadsheet software.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** FY-LAUNCH (only designated sections), FC-QUANT.

**Making Connections Gen Ed:** QR.

**Requisites:** Prerequisite, MATH 110.

**Grading Status:** Letter grade.

**STOR 190. Special Topics. 3 Credits.**

Examines selected topics from statistics and operations research. Course description is available from the department office.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit. 12 total credits. 4 total completions.

**Grading Status:** Letter grade.

**STOR 215. Foundations of Decision Sciences. 3 Credits.**

Introduction to basic concepts and techniques of discrete mathematics with applications to business and social and physical sciences. Topics include logic, sets, functions, combinatorics, discrete probability, graphs, and networks.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** FC-QUANT.

**Making Connections Gen Ed:** QR.

**Requisites:** Prerequisite, MATH 110.

**Grading Status:** Letter grade.

**STOR 235. Mathematics for Data Science. 4 Credits.**

This course introduces students to some of the key mathematical tools underlying algorithmic data science. The primary focus of the course is matrix algebra and multivariable calculus. The mathematical topics covered in the course will be motivated and connected by concrete applications in data science, with an emphasis on machine learning and optimization.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** FC-QUANT.

**Requisites:** Prerequisites, MATH 231 and MATH 232.

**Grading Status:** Letter grade.

**Same as:** MATH 235.

**STOR 290. Special Topics. 3 Credits.**

Examines selected topics from statistics and operations research. Course description is available from the department office.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit. 12 total credits. 4 total completions.

**Grading Status:** Letter grade.

**STOR 291. Undergraduate Learning Assistantship. 1 Credits.**

Experience includes preparations, demonstrations, assistance, and attendance at weekly meetings and lab sections. This course will enable you to deepen your understanding of topics in statistics and data science by learning the material with an eye toward explaining it to other less-experienced students, and; develop pedagogical skills, such as developing a rapport with learners, engaging in clear oral and written communication, and taking the perspective of less experienced students.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** HI-LEARNTA.

**Making Connections Gen Ed:** EE - Undergraduate Learning Assistant, ULA.

**Requisites:** Prerequisite, STOR 120 grade of A- or higher.

**Repeat Rules:** May be repeated for credit. 7 total credits. 7 total completions.

**Grading Status:** Pass/Fail.

**STOR 305. Introduction to Decision Analytics. 3 Credits.**

The use of mathematics to describe and analyze large-scale decision problems. Situations involving the allocation of resources, making decisions in a competitive environment, and dealing with uncertainty are modeled and solved using suitable software packages. Students cannot enroll in STOR 305 if they have already taken STOR 415.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** FC-QUANT.

**Making Connections Gen Ed:** QI.

**Requisites:** Prerequisite, STOR 120, 155, or MATH 152.

**Grading Status:** Letter grade.

**STOR 315. Discrete Mathematics for Data Science. 4 Credits.**

The course gives a solid introduction to rigorous mathematical thinking and problem solving, all of which are fundamental in data science. It covers proofs, mathematical induction, counting, and the basics of graph theory.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** FC-QUANT.

**Requisites:** Prerequisite, MATH 232.

**Grading Status:** Letter grade.

**STOR 320. Introduction to Data Science. 4 Credits.**

Development of basic skill set for data analysis from obtaining data to data carpentry, exploration, modeling, and communication. Topics covered include regression, clustering, classification, algorithmic thinking, and non-standard data objects (networks and text data). Students may not receive credit for both STOR 320 and STOR 520.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** FC-QUANT, FC-LAB.

**Making Connections Gen Ed:** QI.

**Requisites:** Prerequisite, STOR 120 or 155.

**Grading Status:** Letter grade.

**STOR 358. Sample Survey Methodology. 4 Credits.**

Fundamental principles and methods of sampling populations, with emphasis on simple, random, stratified, and cluster sampling. Sample weights, nonsampling error, and analysis of data from complex designs are covered. Practical experience through participation in the design, execution, and analysis of a sampling project.

**Rules & Requirements**

**Making Connections Gen Ed:** EE- Field Work.

**Requisites:** Prerequisite, BIOS 650; permission of the instructor for students lacking the prerequisite.

**Grading Status:** Letter grade.

**Same as:** BIOS 664.

**STOR 390. Special Topics in Statistics and Operations Research. 3 Credits.**

Examines selected topics from statistics and operations research. Course description is available from the department office.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

**Grading Status:** Letter grade.

**Advanced Undergraduate and Graduate-level Courses****STOR 415. Introduction to Optimization. 3 Credits.**

Linear, integer, nonlinear, and dynamic programming, classical optimization problems, network theory.

**Rules & Requirements**

**Requisites:** Prerequisites, MATH 347 and STOR 315.

**Grading Status:** Letter grade.

**STOR 435. Introduction to Probability. 3 Credits.**

Introduction to mathematical theory of probability covering random variables; moments; binomial, Poisson, normal and related distributions; generating functions; sums and sequences of random variables; and statistical applications. Students may not receive credit for both STOR 435 and STOR 535.

**Rules & Requirements**

**Making Connections Gen Ed:** QI.

**Requisites:** Prerequisites, MATH/STOR 235 or MATH 233; and STOR 215 or MATH 381 or COMP 283.

**Grading Status:** Letter grade.

**Same as:** MATH 535.

**STOR 445. Stochastic Modeling. 3 Credits.**

Introduction to Markov chains, Poisson process, continuous-time Markov chains, renewal theory. Applications to queueing systems, inventory, and reliability, with emphasis on systems modeling, design, and control.

**Rules & Requirements**

**Requisites:** Prerequisite, BIOS 660, STOR 435 or 535.

**Grading Status:** Letter grade.

**STOR 455. Methods of Data Analysis. 3 Credits.**

Review of basic inference; two-sample comparisons; correlation; introduction to matrices; simple and multiple regression (including significance tests, diagnostics, variable selection); analysis of variance; use of statistical software.

**Rules & Requirements**

**Requisites:** Prerequisite, STOR 120, or 155.

**Grading Status:** Letter grade.

**STOR 471. Long-Term Actuarial Models. 3 Credits.**

Probability models for long-term insurance and pension systems that involve future contingent payments and failure-time random variables. Introduction to survival distributions and measures of interest and annuities-certain.

**Rules & Requirements**

**Making Connections Gen Ed:** QI.

**Requisites:** Prerequisite, STOR 435, or 535.

**Grading Status:** Letter grade.

**STOR 472. Short Term Actuarial Models. 3 Credits.**

Short term probability models for potential losses and their applications to both traditional insurance systems and conventional business decisions. Introduction to stochastic process models of solvency requirements.

**Rules & Requirements**

**Requisites:** Prerequisite, STOR 435, or 535.

**Grading Status:** Letter grade.

**STOR 475. Healthcare Risk Analytics. 3 Credits.**

This course will introduce students to the healthcare industry and provide hands-on experience with key actuarial and analytical concepts that apply across the actuarial field. Using real world situations, the course will focus on how mathematics and the principles of risk management are used to help insurance companies and employers make better decisions regarding employee benefit insurance products and programs.

**Rules & Requirements**

**Requisites:** Prerequisite, STOR 435, or 535.

**Grading Status:** Letter grade.

**STOR 490. Special Topics. 3 Credits.**

Examines selected topics from statistics and operations research. Course description is available from the department office.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit. 12 total credits. 4 total completions.

**Grading Status:** Letter grade.

 **STOR 493. Internship in Statistics and Operations Research. 3 Credits.**

Requires permission of the department. Statistics and analytics majors only. An opportunity to obtain credit for an internship related to statistics, operations research, or actuarial science. Pass/Fail only. Does not count toward the statistics and analytics major or minor.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** HI-INTERN.

**Making Connections Gen Ed:** EE- Academic Internship.

**Repeat Rules:** May be repeated for credit. 6 total credits. 2 total completions.

**Grading Status:** Pass/Fail.

 **STOR 496. Undergraduate Reading and Research in Statistics and Operations Research. 1-3 Credits.**

Permission of the director of undergraduate studies. This course is intended mainly for students working on honors projects. May be repeated for credit.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** RESEARCH.

**Making Connections Gen Ed:** EE- Mentored Research.

**Repeat Rules:** May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.

**Grading Status:** Letter grade.

**STOR 515. Dynamic Decision Analytics. 3 Credits.**

An introduction to algorithms and modeling techniques that use knowledge gained from prior experience to make intelligent decisions in real time. Topics include Markov decision processes, dynamic programming, multiplicative weights update, exploration vs. exploitation, multi-armed bandits, and two player games.

**Rules & Requirements**

**Requisites:** Prerequisites, STOR 435 or 535, and MATH 347.

**Grading Status:** Letter grade.

**STOR 520. Statistical Computing for Data Science. 4 Credits.**

This course provides hands-on experience working with data sets provided in class and downloaded from certain public websites. Lectures cover basic topics such as R programming, visualization, data wrangling and cleaning, exploratory data analysis, web scraping, data merging, predictive modeling, and elements of machine learning. Programming analyses in more advanced areas of data science. Students may not receive credit for both STOR 320 and STOR 520.

**Rules & Requirements**

**Requisites:** Prerequisites, STOR 435 or 535, and STOR 455.

**Grading Status:** Letter grade.

**STOR 535. Probability for Data Science. 3 Credits.**

This course is an advanced undergraduate course in probability with the aim to give students the technical and computational tools for advanced courses in data analysis and machine learning. It covers random variables, moments, binomial, Poisson, normal and related distributions, generating functions, sums and sequences of random variables, statistical applications, Markov chains, multivariate normal and prediction analytics. Students may not receive credit for both STOR 435 and STOR 535.

**Rules & Requirements**

**Requisites:** Prerequisites, MATH/STOR 235 or MATH 233; and STOR 215 or MATH 381 or COMP 283.

**Grading Status:** Letter grade.

**STOR 538. Sports Analytics. 3 Credits.**

This course will survey the history of sports analytics across multiple areas and challenge students in team-based projects to practice sports analytics. Students will learn how applied statistics and mathematics help decision makers gain competitive advantages for on-field performance and off-field business decisions.

**Rules & Requirements**

**Requisites:** Prerequisite, STOR 320 or STOR 455.

**Grading Status:** Letter grade.

**STOR 555. Mathematical Statistics. 3 Credits.**

Functions of random samples and their probability distributions, introductory theory of point and interval estimation and hypothesis testing, elementary decision theory.

**Rules & Requirements**

**Requisites:** Prerequisite, STOR 435, or 535.

**Grading Status:** Letter grade.

**STOR 556. Time Series Data Analysis. 3 Credits.**

This course covers the fundamental theory and methods for time series data, as well as related statistical software and real-world data applications. Topics include the autocorrelation function, estimation and elimination of trend and seasonality, estimation and forecasting procedures in ARMA models and nonstationary time series models.

**Rules & Requirements**

**Requisites:** Prerequisites, STOR 435 or 535, and STOR 455.

**Grading Status:** Letter grade.

**STOR 557. Advanced Methods of Data Analysis. 3 Credits.**

The course covers advanced data analysis methods beyond those in STOR 455 and how to apply them in a modern computer package, specifically R or R-Studio which are the primary statistical packages for this kind of analysis. Specific topics include (a) Generalized Linear Models; (b) Random Effects; (c) Bayesian Statistics; (d) Nonparametric Methods (kernels, splines and related techniques).

**Rules & Requirements**

**Requisites:** Prerequisites, STOR 435 or 535, and STOR 455.

**Grading Status:** Letter grade.

**STOR 565. Machine Learning. 3 Credits.**

Introduction to theory and methods of machine learning including classification; Bayes risk/rule, linear discriminant analysis, logistic regression, nearest neighbors, and support vector machines; clustering algorithms; overfitting, estimation error, cross validation.

**Rules & Requirements**

**Requisites:** Prerequisites, STOR 215 or MATH 381, and STOR 435 or 535.

**Grading Status:** Letter grade.

**STOR 566. Introduction to Deep Learning. 3 Credits.**

Deep neural networks (DNNs) have been widely used for tackling numerous machine learning problems that were once believed to be challenging. With their remarkable ability of fitting training data, DNNs have achieved revolutionary successes in many fields such as computer vision, natural language processing, and robotics. This is an introduction course to deep learning.

**Rules & Requirements**

**Requisites:** Prerequisites, STOR 435 or 535; and COMP 110 or 116.

**Grading Status:** Letter grade.

**STOR 572. Simulation for Analytics. 3 Credits.**

This upper-level-undergraduate and beginning-graduate-level course introduces the concepts of modeling, programming, and statistical analysis as they arise in stochastic computer simulations. Topics include modeling static and discrete-event simulations of stochastic systems, random number generation, random variate generation, simulation programming, and statistical analysis of simulation input and output.

**Rules & Requirements**

**Requisites:** Prerequisites, STOR 120 or 155, and STOR 435 or 535.

**Grading Status:** Letter grade.

**STOR 590. Special Topics in Statistics and Operations Research. 3 Credits.**

Examines selected topics from statistics and operations research. Course description is available from the department office.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

**Grading Status:** Letter grade.

**STOR 612. Foundations of Optimization. 3 Credits.**

STOR 612 consists of three major parts: linear programming, quadratic programming, and unconstrained optimization. Topics: Modeling, theory and algorithms for linear programming; modeling, theory and algorithms for quadratic programming; convex sets and functions; first-order and second-order methods such as stochastic gradient methods, accelerated gradient methods and quasi-Newton methods for unconstrained optimization.

**Rules & Requirements**

**Requisites:** Prerequisites, MATH 347 and 521 or permission of the instructor.

**Grading Status:** Letter grade.

**STOR 614. Advanced Optimization. 3 Credits.**

STOR 614 consists of three major parts: Integer programming, conic programming, and nonlinear optimization. Topics: modeling, theory and algorithms for integer programming; second-order cone and semidefinite programming; theory and algorithms for constrained optimization; dynamic programming; networks.

**Rules & Requirements**

**Requisites:** Prerequisite, STOR 612 or equivalent (or permission of instructor).

**Grading Status:** Letter grade.

**STOR 634. Probability I. 3 Credits.**

Required preparation, advanced calculus. Lebesgue and abstract measure and integration, convergence theorems, differentiation. Radon-Nikodym theorem, product measures. Fubini theorems.  $L_p$  spaces.

**Rules & Requirements**

**Grading Status:** Letter grade.

**STOR 635. Probability II. 3 Credits.**

Foundations of probability. Basic classical theorems. Modes of probabilistic convergence. Central limit problem. Generating functions, characteristic functions. Conditional probability and expectation.

**Rules & Requirements**

**Requisites:** Prerequisite, STOR 634; permission of the instructor for students lacking the prerequisite.

**Grading Status:** Letter grade.

**Same as:** MATH 635.

**STOR 641. Stochastic Modeling I. 3 Credits.**

The aim of this 3-credit graduate course is to introduce stochastic modeling that is commonly used in various fields such as operations research, data science, engineering, business, and life sciences. Although it is the first course in a sequence of three courses, it can also serve as a standalone introductory course in stochastic modeling and analysis. The course covers the following topics: discrete-time Markov chains, Poisson processes, and continuous-time Markov chains.

**Rules & Requirements**

**Requisites:** Prerequisite, Probability background at the level of STOR 435 or STOR 535.

**Grading Status:** Letter grade.

**STOR 642. Stochastic Modeling II. 3 Credits.**

This 3-credit course is the second graduate-level course on stochastic modeling that expands upon the material taught in STOR 641. The course covers the following topics: renewal and regenerative processes, queueing models, and Markov decision processes.

**Rules & Requirements**

**Requisites:** Prerequisite, STOR 641.

**Grading Status:** Letter grade.

**STOR 654. Statistical Theory I. 3 Credits.**

Required preparation, two semesters of advanced calculus. Probability spaces. Random variables, distributions, expectation. Conditioning. Generating functions. Limit theorems: LLN, CLT, Slutsky, delta-method, big-O in probability. Inequalities. Distribution theory: normal, chi-squared, beta, gamma, Cauchy, other multivariate distributions. Distribution theory for linear models.

**Rules & Requirements**

**Grading Status:** Letter grade.

**STOR 655. Statistical Theory II. 3 Credits.**

Point estimation. Hypothesis testing and confidence sets. Contingency tables, nonparametric goodness-of-fit. Linear model optimality theory: BLUE, MVU, MLE. Multivariate tests. Introduction to decision theory and Bayesian inference.

**Rules & Requirements**

**Requisites:** Prerequisite, STOR 654.

**Grading Status:** Letter grade.

**STOR 664. Applied Statistics I. 3 Credits.**

Permission of the instructor. Basics of linear models: matrix formulation, least squares, tests. Computing environments: SAS, MATLAB, S+. Visualization: histograms, scatterplots, smoothing, QQ plots. Transformations: log, Box-Cox, etc. Diagnostics and model selection.

**Rules & Requirements**

**Grading Status:** Letter grade.

**STOR 665. Applied Statistics II. 3 Credits.**

ANOVA (including nested and crossed models, multiple comparisons). GLM basics: exponential families, link functions, likelihood, quasi-likelihood, conditional likelihood. Numerical analysis: numerical linear algebra, optimization; GLM diagnostics. Simulation: transformation, rejection, Gibbs sampler.

**Rules & Requirements**

**Requisites:** Prerequisite, STOR 664; permission of the instructor for students lacking the prerequisite.

**Grading Status:** Letter grade.

**STOR 672. Simulation Modeling and Analysis. 3 Credits.**

Introduces students to modeling, programming, and statistical analysis applicable to computer simulations. Emphasizes statistical analysis of simulation output for decision-making. Focuses on discrete-event simulations and discusses other simulation methodologies such as Monte Carlo and agent-based simulations. Students model, program, and run simulations using specialized software. Familiarity with computer programming recommended.

**Rules & Requirements**

**Requisites:** Prerequisites, STOR 555 and 641.

**Grading Status:** Letter grade.

**Same as:** COMP 672.

**STOR 674. Statistical and Computational Tools for Reproducible Data Science. 3 Credits.**

The purpose of this course is to provide a strong foundation in computational skills needed for reproducible research in data science and statistics. Topics will include computational tools and programming skills to facilitate reproducibility, as well as procedures and methods for reproducible conclusions.

**Rules & Requirements**

**Requisites:** Prerequisite, STOR 320 or 664.

**Grading Status:** Letter grade.

**STOR 690. Special Topics. 3 Credits.**

Examines selected topics from statistics and operations research. Course description is available from the department office.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit. 12 total credits. 4 total completions.

**Grading Status:** Letter grade.

 **STOR 691H. Honors in Statistics and Analytics. 3 Credits.**

Permission of the department. Majors only. Individual reading, study, or project supervised by a faculty member.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** RESEARCH.

**Making Connections Gen Ed:** EE- Mentored Research.

**Grading Status:** Letter grade.

 **STOR 692H. Honors in Statistics and Analytics. 3 Credits.**

## Statistics and Analytics Major, B.S.

The major in statistics and analytics is an excellent program for students interested in statistical data science, operations research, and actuarial science, as well as in fields such as business, economics, public policy and health, psychology, and biomedicine, where the decision and statistical sciences play an increasingly important role.

## Student Learning Outcomes

Upon completion of the statistics and analytics program, students should be able to:

- Demonstrate foundational knowledge of probability, statistics, optimization, and stochastic modeling
- Exhibit proficiency in one or more of the scientific programming languages commonly used in statistics and analytics
- Apply the analytical and computational skills needed to formulate and solve data science problems
- Interpret and translate numerical results into actionable ideas and communicate them orally and in writing
- Find employment in professions relying on data and analytics, or continue education in related graduate programs

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first two years, students are required to complete the standard calculus sequence as well as introductory courses in statistics, operations research, and computer science. At the beginning of their third year, students take advanced courses in statistics, probability, and operations research. They have a great deal of flexibility in tailoring their program to meet their individual interests.

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

<sup>1</sup> Prospective statistics and analytics majors are encouraged to take STOR 155 or STOR 120, and STOR 315 or MATH 381 as early as possible in their college careers. Each has a prerequisite of MATH 110 or its equivalent and may be taken before, or concurrently with, MATH 231.

<sup>2</sup> Students wishing to prepare for an actuarial career should include STOR 471, STOR 472, STOR 555 and STOR 556 from Group A in their program and take ECON 410 and ECON 420 and BUSI 408 and BUSI 588 as electives. Students who plan to attend graduate school in statistics, operations research, analytics, or a related field, should include in their program COMP 401, STOR 555, STOR 565, and MATH 521.

It is recommended that all statistics and analytics majors take ECON 101 as a social and behavioral sciences Approaches course. Students interested in the actuarial profession also should take BUSI 102 as a general elective.

## Dual Bachelor's – Master's Degree Program

The Department of Statistics and Operations Research offers a dual bachelor's – master's degree program. Interested students should consult the graduate program director.

## Special Opportunities in Statistics and Analytics

### Honors in Statistics and Analytics

Candidates for honors or highest honors must secure approval from the program director. They must take STOR 691H and STOR 692H, and maintain an overall grade point average of 3.3 and a grade point average in statistics and analytics courses of at least 3.3 at the end of the semester preceding the semester in which they graduate.

### Departmental Involvement

The Department of Statistics and Operations Research sponsors Carolina's Actuarial Student Organization (CASO), for students interested in careers in the actuarial sciences. CASO organizes study groups for the actuarial exams, sponsors talks by professional actuaries, keeps members aware of employment opportunities, and maintains contact with alumni and corporations in the field. The department is also a co-sponsor of Carolina Analytics and Data Science (CADS) student organization, which aims to foster communication among the students who are interested in careers in data science and analytics and contribute to their intellectual growth by hosting speakers from industry as well as academia.

### Experiential Education

When arranged in advance with a supervising faculty member, STOR 493 can be used to earn credit for appropriate work experience in the

summer or during the academic year. STOR 493 satisfies the experiential education requirement. Students interested in STOR 493 should secure approval from the program director before starting their work. STOR 496 can also be used to satisfy the experiential education requirement.

## Undergraduate Awards

Two undergraduate awards for graduating seniors are given each year by the statistics and analytics program. One is the Statistics and Analytics Award, given to the outstanding graduating senior, and the second is the W. Robert Mann Award, given for excellence in actuarial science. Plaques bearing the names of winners are located in the undergraduate study room in Hanes Hall.

## Undergraduate Research

Undergraduate research under the direction of faculty members from the Department of Statistics and Operations Research is offered through the independent study and research course, STOR 496, and the senior honors thesis courses, STOR 691H and STOR 692H.

## Statistics and Analytics Minor

Statistics and analytics is an excellent program for students interested in statistical data science, operations research, and actuarial science, as well as in fields such as business, economics, public policy and health, psychology, and biomedicine, where the decision and statistical sciences play an increasingly important role.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Data Science Minor

### Overview

The data science minor at Carolina is a new multidisciplinary program launched in fall 2021 and offered by the College of Arts & Sciences. The minor has been designed to introduce students from any discipline to data science methods and applications, while simultaneously providing opportunities to explore its complex interactions with modern society. To achieve these goals, the minor is structured to allow students to choose their coursework from many different departments, encouraging them to explore the use of data science within their main field of study.

To satisfy the core requirements, a student must choose one course from each of the three categories:

### Data and Computational Thinking

This core requirement will provide you with an introduction to the computing tools and coding methods needed to gather, manipulate, visualize, and analyze data. Taught in Python and/or R.

### Data and Statistical Thinking

This core requirement will provide you with an introduction to data-driven statistical analysis, focusing on a hands-on approach to making inferences and predictions to learn from data. Taught in Python and/or R.

### Data, Culture, and Society

This core requirement focuses on the social, political, cultural, and/or ethical dimensions of data.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Department of Women's and Gender Studies

### Introduction

The Department of Women's and Gender Studies offers a feminist interdisciplinary course of study that expands the process of knowledge production to include considerations of gender, race, class, and sexuality in the United States and internationally. Students will be exposed to recent scholarship on feminist theory and the intellectual, economic, political, and artistic contributions of women and feminist movements in various historical and cultural contexts.

Numerous departments across campus offer courses that focus on the study of women and/or gender. Most of these courses are cross-listed as women's and gender studies courses; others are taught as special

sections of an established course and are identified separately each semester.

## Advising

All majors and minors have a primary academic advisor assigned in ConnectCarolina. All other majors and minors are strongly encouraged to meet with a faculty member or director of undergraduate studies (DUS) who works with current and prospective majors and minors by appointment (see "Contacts" above). Departmental academic advising is particularly important for those majors who are considering going on to graduate school. All students are encouraged to review their Tar Heel Tracker each semester. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the department's website (<http://womensstudies.unc.edu/>).

## WGST–Women’s and Gender Studies Undergraduate-level Courses

### **WGST 51. First-Year Seminar: Race, Sex, and Place in America. 3 Credits.**

This first-year seminar will expose students to the complex dynamics of race, ethnicity, and gender and how these have shaped the American city since 1945.

#### Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-POWER.

**Making Connections Gen Ed:** SS.

**Grading Status:** Letter grade.

**Same as:** PLAN 52.

### **WGST 56. First-Year Seminar: Writing Women in Modern China. 3 Credits.**

Compares the rhetoric of equality between the sexes presented by late Qing, May Fourth, and communist thinkers to perspectives on gender and society by 20th-century Chinese women writers. Honors version available.

#### Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH or FC-KNOWING.

**Making Connections Gen Ed:** LA, BN.

**Grading Status:** Letter grade.

**Same as:** ASIA 56.

### **WGST 64. Plantation Lullabies: Literature by and about African American Women. 3 Credits.**

This course introduces students to different ways of understanding plantation culture and how that culture persists today, using close reading strategies and gender analysis. The class will examine film, literature, music, and poetry.

#### Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-PAST or FC-VALUES.

**Making Connections Gen Ed:** LA, NA.

**Grading Status:** Letter grade.

### **WGST 66. First-Year Seminar: Growing Up Girl, Globally. 3 Credits.**

Course introduces students to literature by women from around the world, particularly stories of a girl’s transition to womanhood. Close reading strategies are used to examine films, novels, and poetry.

#### Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-AESTH or FC-KNOWING.

**Making Connections Gen Ed:** LA, GL.

**Grading Status:** Letter grade.

### **WGST 67H. First-Year Seminar: Sexuality and Salvation. 3 Credits.**

In Christianity and Islam, bodies populate the afterlife. What those bodies look like, how they act, what they feel, and who they engage with are subjects of contentious and long-standing debates. The various answers offered in these debates deeply affect Christian and Muslim responses to the body, sexuality, race, and gender in this life. This course examines how these two religious traditions’ diversity of histories and ideas construct theories of identity.

#### Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-KNOWING, RESEARCH.

**Grading Status:** Letter grade.

### **WGST 68. First-Year Seminar: Assumed Identities: Performance in Photography. 3 Credits.**

Uses photography and its aspects of role playing, performance, and documentation to understand the construction of identity. Looks at historical and contemporary photographers who use assumed identities to explore their changing identity roles and challenge society’s stereotypes. Individual and group performance/photography projects working with still photography, video, and the Internet.

#### Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR, FC-CREATE or FC-KNOWING.

**Making Connections Gen Ed:** VP.

**Grading Status:** Letter grade.

### **WGST 89. First-Year Seminar: Special Topics. 3 Credits.**

Special topics course. Content will vary each semester. Honors version available.

#### Rules & Requirements

 **IDEAs in Action Gen Ed:** FY-SEMINAR.

**Grading Status:** Letter grade.

### **WGST 101. Introduction to Women’s Studies. 3 Credits.**

An interdisciplinary exploration of the intersections of gender, race, class, and sexuality in American society and internationally. Topics include work; sexuality; gender relations, and images of women in literature, art, and science; and the history of feminist movements. Course readings are drawn from the humanities and the social sciences. Honors version available.

#### Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-POWER.

**Making Connections Gen Ed:** SS, US.

**Grading Status:** Letter grade.

### **WGST 111. Introduction to Sexuality Studies. 3 Credits.**

This course introduces students to the broad range of disciplinary perspectives used by the field of sexuality studies to study, teach, and create knowledge about human sexuality in various functions and forms. Honors version available.

#### Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-POWER.

**Making Connections Gen Ed:** SS, NA, US.

**Grading Status:** Letter grade.

### **WGST 124. Sex and Gender in Society. 3 Credits.**

Examination of the social differentiation between men and women. Attention to the extent, causes, and consequences of sexual inequality and to changes in sex roles and their impact on interpersonal relations.

#### Rules & Requirements

 **IDEAs in Action Gen Ed:** FC-KNOWING or FC-POWER.

**Making Connections Gen Ed:** SS.

**Grading Status:** Letter grade.

**Same as:** SOCI 124.

**WGST 127. Iranian Women Writers. 3 Credits.**

This course introduces students to Iranian women's issues through their literary works. To contextualize, we will read articles and essays on the historical, cultural, social, political, and economic backgrounds. In order to approach these literary works in a more effective manner, we will also be reading various secondary materials.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** FC-AESTH or FC-GLOBAL.

**Making Connections Gen Ed:** LA, BN, CI.

**Grading Status:** Letter grade.

**Same as:** ASIA 127.

## Women's and Gender Studies Major, B.A.

The Department of Women's and Gender Studies offers a feminist interdisciplinary course of study that expands the process of knowledge production to include considerations of gender, race, class, and sexuality in the United States and globally. Students are exposed to scholarship on feminist theory and the intellectual, economic, political, and artistic contributions of women and feminist movements in various historical and cultural contexts.

## Student Learning Outcomes

Upon completion of the women's and gender studies program, students should be able to:

- Demonstrate knowledge of the major concepts, theoretical perspectives, empirical findings, and historical trends in women's and gender studies
- Conduct and present interdisciplinary research in the area of women's and gender studies in an effective manner
- Apply the principals and insights of women's and gender studies to personal, social, and community issues
- Think critically and analytically about current perspectives in women's and gender studies

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Special Opportunities in Women's and Gender Studies

### Honors in Women's and Gender Studies

The honors program is designed to encourage independent thought and research among outstanding undergraduate majors in women's and gender studies. Students must take the capstone WGST 695H and WGST 691H during the fall semester and WGST 692H (spring semester). Students must plan their project with a faculty advisor and secure permission from both the chair of the department and the faculty advisor. Guidelines and forms for the initial contract are available in the department's office and on our website (<https://womensstudies.unc.edu/>). Students interested in the honors thesis must have at least a 3.3 overall grade point average and a 3.5 or greater grade point average in courses taken for the major.

### Internships (Fall Semester Only)

The Department of Women's and Gender Studies Internship Program (WGST 393) allows students the opportunity to receive course credit while gaining practical experience in a variety of fields concerned with feminist issues. The internship has two components:

1. work in a local agency
2. a weekly class taught by a faculty member in the Department of Women's and Gender Studies.

For further information visit the department website (<https://womensstudies.unc.edu/courses/internships/>).

## Women's and Gender Studies Minor

The Department of Women's and Gender Studies offers a feminist interdisciplinary course of study that expands the process of knowledge production to include considerations of gender, race, class, and sexuality in the United States and globally. Students are exposed to recent scholarship on feminist theory and the intellectual, economic, political, and artistic contributions of women and feminist movements in various historical and cultural contexts.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

The minor consists of 15 credits (five courses).

## Sexuality Studies Minor

The minor in sexuality studies coordinates scholars and students from a range of disciplines to study, teach, and create knowledge about human sexuality in its myriad functions and forms.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

The five courses required for the minor must include at least one core course and involve work in at least three different departments or curricula.

# RESOURCES: ACADEMIC AND RESEARCH

## Thrive@Carolina Campus Hubs

Chloë J. Russell, M.Ed., *Associate Dean and Director*

Thrive@Carolina Campus Hubs (Hubs), which includes Academic Advising (<https://advising.unc.edu>), is a collaborative and innovative approach to deliver holistic support to undergraduates from admission through graduation. Its mission is to champion students' individual stories through purposeful interactions so that they achieve their academic, personal, and post-UNC goals. Anchored in the belief that we serve a diverse population in which every student does not need the same support or know the same information, Hubs partner with students as they unlock their potential, activate their plans, secure their opportunities, and cultivate their community. Nestled within the College of Arts & Sciences, Hubs are comprised of approximately 60 full- and part-time personnel and serve students in a variety of campus locations.

## Center for Student Success

Dr. Marcus L. Collins, Ed.D., *Associate Dean and Director*  
2203 SASB North; (919) 966-2143.

The Center for Student Success (CFSS) (<https://studentsuccess.unc.edu>) has a simple mission, which is connecting with you to promote your academic and personal growth to all UNC–Chapel Hill students. Its constituent offices and programs (The Learning Center, The Writing Center, Peer Mentoring, Summer Bridge, Carolina Firsts, and Transfer Student Support) support you in developing the skills and strategies needed to excel at UNC and beyond. Our commitment to student learning supports the University's mission to "teach a diverse community of undergraduate, graduate, and professional students to become the next generation of leaders." We also support the University's commitment to diversity and in doing so sponsor programs and activities that promote academic excellence, increase retention, and improve the campus climate for diversity among our undergraduates.

## The Learning Center

Dr. Kim Abels, Ph.D., *Director*  
0118 and 2109 SASB North, (919) 962-3782

The Learning Center (<http://learningcenter.unc.edu>) helps students optimize their learning strategies to meet all their academic goals at Carolina. To make an appointment with an academic coach or check out this year's event calendar, visit the Learning Center's website (<http://learningcenter.unc.edu/>). The Learning Center regularly offers an array of programs and services popular with undergraduate students, including:

- **One-on-one appointments** with an academic coach. The Learning Center holds some coaching appointments in 221 Greenlaw Hall, which is located across from the Undergraduate Library. Coaching appointments provide opportunities for students to set personal academic goals and get support and accountability in the process.
- **Peer tutoring** for many introductory courses. The Learning Center provides peer tutoring by appointment in Dey Hall on Monday and Tuesday evenings (walk-ins also welcome) or make an appointment for select courses.

- **STEM support**, including academic coaching and learning groups for BIOL 101, BIOL 103, BIOL 104, CHEM 101, CHEM 102, CHEM 261, MATH 130, MATH 231, and STOR 155.
- **Workshops** on topics such as metacognitive learning strategies, reading speed and comprehension, time management, and more.
- Handouts and videos (<http://learningcenter.unc.edu/tips-and-tools/>) offering tips and tools to make students' academic lives easier.
- **Study groups and boot camps** providing opportunities to gather with other students to maximize study time and strategies.
- **Test prep resources** for GRE, GMAT, MCAT, and LSAT in partnership with The Princeton Review, at discounts of 20 percent.
- **ADHD/LD support.** Individual appointments and coaching groups are available.

## The Writing Center

Dr. Kim Abels, Ph.D., *Director*  
0127 SASB North; 221 Greenlaw Hall; (919) 962-7710

The Writing Center (<http://writingcenter.unc.edu/>) helps students become stronger, more flexible writers. To make an appointment with a writing coach or to submit your draft online, visit the Writing Center's website (<https://writingcenter.unc.edu/>). The Writing Center is a free service for students, offering:

- One-on-one appointments (<https://writingcenter.unc.edu/about/writing-coaching/>) with a writing coach. Coaching appointments are 45-minute conversations with undergraduate and graduate students who are specially trained to support students' development as writers.
- Online coaching (<https://wc-online.unc.edu/ota/app/>) services. Students can submit drafts online, specify their concerns, and request targeted feedback.
- **Feedback on any writing project** at any stage of the writing process. Students can work with a coach on everything from application essays to zoology lab reports. They can come in with nothing but ideas, with an outline, or with a draft. Coaches meet students where they are and help them move forward in the process.
- Handouts and videos (<https://writingcenter.unc.edu/tips-and-tools/>) on the writing process, citation and sentence-level concerns, writing-specific assignments, and writing in specific disciplines.
- **Write Night events** designed to help students make substantial progress on their drafts at key points each semester.
- English language resources (<https://writingcenter.unc.edu/esl/>) and language specialists who support the academic and social communication of Carolina's international students.
- **Volunteer opportunities!** With our Speaking Group (<https://writingcenter.unc.edu/esl/speaking-groups/>) and U.S. English Pronunciation (<https://writingcenter.unc.edu/esl/esl-mini-courses/>) class, Carolina students can build relationships and gain valuable exposure to global cultures.
- Job opportunities (<https://writingcenter.unc.edu/about/english-402/>)! Undergraduate students can apply to work as writing coaches after taking ENGL 402 in the spring semester.

## The Peer Mentoring Programs

Dr. Marcus L. Collins, Ed.D., *Associate Dean and Director*  
[peermentoring.web.unc.edu](http://peermentoring.web.unc.edu) (<https://peermentoring.web.unc.edu/>)  
0118 SASB North; CB#3106

(919) 962-2143

Peer Mentoring assists in the academic, social, and personal development and adjustment of our newest Tar Heels in their first year at UNC to include racial/ethnic minority students, first-generation college students, and the Carolina Covenant. Incoming students can request peer mentors who are academically successful and socially involved members of the Carolina Community. Peer mentors provide academic counseling, bridge communication between CFSS and first-year students, and assist them with their transition from high school to university life.

## Summer Bridge

Dr. Marcus L. Collins, Ed.D., *Associate Dean and Director*  
summerbridge.unc.edu (<https://summerbridge.unc.edu/>)  
0118 SASB North, CB# 3106, (919) 966-2143

Summer Bridge is a six-week transition program that helps incoming first-year students adjust to Carolina by providing academic enrichment, community building, and co-curricular and experiential learning activities. The program is designed to ease participants' personal and academic transition from high school to the University. Students enroll in two academic courses, which usually represent a combination of English composition and quantitative skills. They also participate in activities designed to supplement their summer experience by engaging in high-impact learning experiences often facilitated by units such as the UNC Learning and Writing Centers, University Career Services, and Student Life and Leadership. Additionally, cultural and recreational activities are significant components of the program, as students are introduced to the University and the array of opportunities and resources available. Any student who has been admitted to UNC–Chapel Hill and is a North Carolina resident is eligible to apply.

## Carolina Firsts

Dr. Marcus L. Collins, Ed.D., *Associate Dean and Director*  
studentsuccess.unc.edu/carolina-firsts (<https://studentsuccess.unc.edu/carolina-firsts/>)  
2203 SASB North; (919) 843-3688

Nearly 20% of all undergraduate at UNC–Chapel Hill are the first in their family to attend college. At Carolina, we proudly call our first-generation college students Carolina Firsts. There are several programs and opportunities designed specifically to help Carolina Firsts Engage, Experience and Excel along their Carolina journey.

## Transfer Students

Luke Fayard, M.A., *Program Coordinator, Transfer Student Support*  
studentsuccess.unc.edu/transfers (<https://studentsuccess.unc.edu/transfers/>)  
2203 SASB North; (919) 966-5245

The University offers distinct programs and opportunities designed specifically for transfer students to acclimate to the Carolina community. The Transfer Student Coordinator serves as one of several contacts for transfer students at UNC and provides support to encourage the success, persistence and graduation of transfer students primarily once they enroll at the university.

## Library System

- Library hours (<http://library.unc.edu/hours/>)
- Ask a question (<http://library.unc.edu/ask/>)

The campus libraries are your home for world-class collections, study spaces for every preference, and research expertise across a wide range of subject areas.

Everyone is welcome in all campus libraries, including the House Undergraduate Library, Davis Library, the Wilson Special Collections Library, the Health Sciences Library, and subject-specific branch libraries. Your OneCard is your library card.

Reserve a study room (<https://library.unc.edu/places/study/?feature=reservable>) to collaborate on group projects. Take advantage of New York Times and Washington Post digital subscriptions, best-selling e-books and audiobooks, and popular streaming movies, all brought to you by the Librar (<https://library.unc.edu/services/leisure/>)y. Bring your visions to life in the Library's makerspace (<https://library.unc.edu/science/makerspace/>) with 3D scanning and printing. And visit the Media and Design Center (<https://library.unc.edu/house/mdc/resources/>) to take your multimedia projects from concept to creation, with production equipment, technology, digital assets, and staff expertise.

Whatever your academic focus, personal passions, and personality, the Library is here to support your success. Sign up for the Library's monthly student newsletter (<https://library.unc.edu/social/student-newsletter/>) to stay connected.

## Math Help Center

Miranda Thomas, Ph.D., *Director*

The Math Help Center (<https://math.unc.edu/undergraduate/resources/>), located in 237 Phillips Hall, provides additional instructional support for students enrolled in MATH 110 through MATH 233. The center is staffed by both graduate and undergraduate tutors who work with students in small groups or individually. The center's main purposes are to provide assistance and to increase the success rate for students in specific math courses.

## Pre-Graduate School Advising

The Pre-Graduate Education Advising Program (<https://careers.unc.edu/students/pre-professional-pre-graduate-advising/pre-graduate/>), under University Career Services in Hanes Hall (second floor), is a resource offered to students interested in pursuing graduate studies. The program advises undergraduate students considering a graduate degree in various disciplines (sciences, arts and humanities, social sciences, and professional arenas). These advisors can help clarify the differences between a doctorate and a master's degree and the opportunities a terminal degree may offer. The program is primarily responsible for helping students considering graduate school understand what their next steps are in researching and applying to graduate programs, so that they can move forward independently and effectively. Students can schedule a pre-grad coaching appointment by visiting Handshake (<https://careers.unc.edu/students/resources/schedule-appointment/>).

## Health Professions Advising

UNC–Chapel Hill has no formal pre-health curriculum or major. Instead, students should choose one of the four-year B.A. or B.S. degree programs and incorporate appropriate prerequisite courses in their planning. Health professional schools encourage students to major in what they are interested in studying; no specific majors are recommended. Students are strongly encouraged to join the health professions listserv (<https://hpa.unc.edu/connect/join-the-listserv/>) and visit the Health Profession Advising Office (Health Sciences Library Room #217B) soon

after entering the University to learn the latest course requirements and other preparations necessary to become an outstanding candidate for their health career of choice. The office gives advice about the many pathways to a health professional career and the various career options in healthcare through facilitated professional programs, individualized meetings, and access to health professions information that encourages application of knowledge and experience. For more information on Health Professions Advising office hours and to join the Health Professions Advising listserv, visit the HPA website (<https://hpa.unc.edu/>).

## Pre-law Advising

UNC–Chapel Hill has no formal pre-law curriculum or major. Instead, students should follow one of the four-year B.A. or B.S. degree programs. Most law schools do not require, or even recommend, that students major in any particular field; instead, most law schools prefer applicants who have pursued a course of study that gives a foundation for undertaking legal studies, with an emphasis on reading, writing, speaking, and analytical and critical thinking. However, a student wishing to practice patent law will need a degree in one of the sciences.

Pre-law students should emphasize academics. The campus Learning Center offers programs designed to help enhance reading skills. Students are encouraged to take advantage of this opportunity. Students also are encouraged to schedule a pre-law appointment using Handshake (<https://careers.unc.edu/students/resources/schedule-appointment/>). They also may wish to visit the Pre-Law Advising website (<http://prelaw.unc.edu/>), where they can gain helpful information and join the prelaw listserv to receive important announcements.

## Research Institutes and Centers

The intellectual life of the University and the research activities of undergraduates, graduate students and faculty alike receive valuable encouragement and support from a variety of institutes and centers. These institutes do not operate as instructional agencies within the University; rather, they serve to obtain financial and organizational assistance for the scholars who constitute their membership.

Most research centers and institutes can be found on the UNC Research website (<http://research.unc.edu/units/a-z/>).

## Scholarly Journals

The University has published scholarly journals since 1884, when the *Journal of the Elisha Mitchell Scientific Society* first appeared.

The following list contains some of the publications currently produced by the University's graduate and professional programs.

*American Diplomacy* (<https://americandiplomacy.web.unc.edu/>). A journal for commentary, analysis and research on American foreign policy and its practice.

*Endeavors* (<http://endeavors.unc.edu/>). Features outstanding research and creative work undertaken by faculty and students at the University. Distributed free, the magazine reaches 8,600 on- and off-campus readers in an effort to engage others in Carolina research.

*North Carolina Law Review* (<https://scholarship.law.unc.edu/nclr/>). Published by the School of Law to stimulate research and publication by faculty and students.

*Studies in the Romance Languages and Literatures* (<http://rompub.unc.edu/ncsrll/>). For more than 80 years, this publication has supported and disseminated scholarship in the romance literatures.

In addition, the University of North Carolina Press (<https://uncpress.org/>) publishes several journals. A full list is available on their website (<https://uncpress.org/journals/>).

## The University of North Carolina Press

The University of North Carolina Press (<https://uncpress.org/>) is the primary publishing arm of the University in the scholarly field. In addition to its publication of the journals of research, it carries on a book publishing program of about 80 new titles a year. Electronic publications also are available. Although these books are the work of scholars from all parts of the world, the presence in the University of a professionally staffed book publishing organization, with facilities for the international distribution of works of scholarship, is a stimulus to research and writing by members of the University community. The Press' program is an important contribution to the development of that aspect of the University's service which has to do with the advancement of learning.

# Gillings School of Global Public Health

## Introduction

The UNC Gillings School of Global Public Health provides exceptional teaching, conducts ground-breaking research, and delivers dedicated service to people across North Carolina, throughout the United States, and around the world. Ranked the top public school of public health by *U.S. News and World Report* for 2023–2024 and second among all public health schools, the school's mission is to improve public health, promote individual well-being, and eliminate health inequities.

The school, accredited by the Council on Education for Public Health, and located in close proximity to UNC–Chapel Hill's schools of medicine, nursing, dentistry, and pharmacy, offers undergraduate and graduate programs on campus and through state-of-the-art online-education programs. The Michael Hooker Research Center and many renovated laboratories and classrooms provide an environment highly conducive to learning about public health and discovering new ways to improve and promote health worldwide.

Beyond campus, we teach, conduct research, and serve communities across our state and nation and around the world. Our Research, Innovation and Global Solutions Office (<https://sph.unc.edu/solutions/research-innovation-and-global-solutions/>) organizes the school's global health activities and enables us to anticipate new public health challenges, quickly find solutions, and accelerate the delivery of best practices to improve people's lives. The school's service and outreach arm, the North Carolina Institute for Public Health (<http://sph.unc.edu/nciph/nciph-home/>), brings public health scholarship and practice communities together.

To learn more about the public health field, visit the Association of Schools and Programs of Public Health (<http://aspgh.org/discover/>). The site defines public health, describes its impact on our lives, and introduces a variety of public health careers.

## Admission

The Gillings School of Global Public Health offers four undergraduate majors: biostatistics, environmental health sciences, health policy and management, and nutrition. The undergraduate degree offered is the bachelor of science in public health (B.S.P.H.). Enrollment in the B.S.P.H. degree programs is limited, and students must apply for admission. Students typically apply in January of their sophomore year for admission beginning in the fall of their junior year.

For current UNC–Chapel Hill students, the initial step of B.S.P.H. application is available in ConnectCarolina under the "Apply for Majors Change" tab. For additional information on application deadlines and how to apply, please visit the Public Health Undergraduate Majors (<https://sph.unc.edu/resource-pages/undergraduate-programs/>) website.

Transfer students interested in any of the B.S.P.H. degree programs must apply through the Office of Undergraduate Admissions (<http://admissions.unc.edu/apply/transfer-students/>) using the Transfer Common application.

For high school seniors, our four majors participate in the Assured Enrollment program through Undergraduate Admissions. Assured enrollment programs guarantee students a spot in an undergraduate major within one of Carolina's professional schools or a spot in an accelerated undergraduate/graduate program. For additional information, please visit Undergraduate Admissions: Special Opportunities (<https://admissions.unc.edu/explore/enrich-your-education/excelcarolina/>).

Students are subject to the requirements in place when they are admitted to the Gillings School of Global Public Health; consequently, the requirements described in this catalog particularly apply to students admitted to Gillings during the 2023–2024 academic year.

## Departments

Four departments in the UNC Gillings School of Global Public Health offer undergraduate degrees:

- Biostatistics (p. 261)
- Environmental Sciences and Engineering (p. 491)
- Health Policy and Management (p. 614)
- Nutrition (p. 737)

Lists of faculty members in those departments are included in those sections of the catalog. Other courses offered by the school are listed on the "Courses" tab under the subject codes PUBH and SPHG. If you are not a matriculated public health major, you may need instructor consent to enroll in public health courses.

## Kenan–Flagler Business School

### Introduction

The UNC Kenan–Flagler undergraduate business program offers a program of study that provides students with a thorough grounding in all areas of business and a broad introduction to the liberal arts. The UNC Kenan–Flagler undergraduate experience is distinctive because the school offers:

- An undergraduate business experience that is ranked highly in the nation by *U.S. News & World Report*, and *Poets & Quants*
- Career development professionals who help students explore and identify career interests and build plans for pursuing them
- A liberal arts-oriented curriculum
- A global perspective relevant to the needs of business today
- Activities and organizations for an active student life
- Individual attention usually associated with smaller schools
- Multiple opportunities provided by a leading, large research university
- Faculty who are outstanding in and out of the classroom

Students choose business electives to develop a specific area of business interest. Courses selected from other UNC–Chapel Hill schools and programs add to their depth of knowledge. The result is that students are able to engage in systems thinking to see “the big picture.” The

school believes that completion of the undergraduate business program provides students with a distinct advantage in a highly selective and competitive job market.

Students may apply to complete a major, a minor in business administration, a specialized minor in real estate, or they may take a limited number of business administration courses as general electives for their chosen degree program.

The business administration program is considered a broad-based, general management degree, and the UNC Kenan–Flagler Business School encourages breadth in both the business curriculum and in the continuation of study in fine arts, humanities, and natural and social sciences. A second major may be possible and requires advance approval by both the undergraduate business program and the second academic unit.

## BUSI Courses

BUSI courses are restricted to business majors and minors, unless permission is granted (see the section Taking Business Courses as a Nonmajor/Nonminor or otherwise noted). BUSI courses may run semester-long or may be a MOD (run half a semester). MOD courses may be assigned different deadlines from those provided by the Office of University Registrar. Due to the unique structure of MOD courses, these sections are not eligible for withdrawal or pass/fail.

## Taking Business Courses as a Nonmajor/Nonminor

Undergraduate students who do not intend to major or minor in business administration may take a limited number of business courses (limits may change based on course availability) as free electives for their particular major. Non-business students may take one BUSI course per semester and a maximum of five BUSI courses over the course of a student’s academic career, regardless of credit hours. First-year students will not be permitted to enroll in 400-level or higher BUSI courses. Registration in business courses for nonmajors and nonminors is made on a space-available basis. Preference is given to students with an overall grade point average of 3.0. The process and guidelines can be found on the Undergraduate Business Program website (<https://www.kenan-flagler.unc.edu/programs/undergraduate-business/academics/non-major-business-course-request/>). BUSI course enrollment dates and details will be updated each semester.

## Advising

Once admitted to the business **major**, all academic matters, including academic advising, are handled through the undergraduate business office in McColl Building.

Students admitted to the business **minor** should continue to work with their major department for academic matters outside of business minor requirements. However, business minors have full access to our community events, advising as it relates to the business minors, career team, and global programs.

All students should meet regularly with their advisor and monitor their progress toward completion of both the business major and minor requirements utilizing Tar Heel Tracker. Upon admission, business majors and minors may utilize the Academic Resources (<https://www.kenan-flagler.unc.edu/programs/undergraduate-business/academic-resources/>) page to connect with an academic advisor.

## Admission to the Kenan–Flagler Business School

Kenan–Flagler’s Undergraduate Business program is a small, select program with approximately 390 majors and 80 minors admitted each year. The program seeks candidates whose analytical and organizational abilities, written and oral communication skills, leadership potential, global mindset, and motivation indicate strong potential for success. Admission is competitive and based on academic achievement, leadership, co-curricular activities and involvement, work experience, diversity of skills and interests, and focus and depth of thought as expressed in a personal statement, essays, résumé, and video interview.

### Preparation for the Business Administration Major or Minor

A student admitted to the Kenan–Flagler Business School typically begins the Undergraduate Business program in the spring semester of the second year or fall semester of the third year. First- and second-year students in the General College who consider themselves pre-business majors complete certain prerequisite courses as part of their General Education requirements.

We are modifying our prerequisites. Below you will find the prerequisites as they relate to different admissions cycles.

[UBP Application Cycle for 2023 spring and 2023 fall entry terms \(submitted between July 1 – September 1, 2022\):](#)

A pre-business track includes successful completion (defined as earning a final grade of at least a C, not C-) of the following courses (or their equivalents):

Code	Title	Hours
The calculus mathematics requirement can be fulfilled by taking one of the following:		
MATH 152	 Calculus for Business and Social Sciences <sup>F</sup>	
MATH 231	 Calculus of Functions of One Variable I <sup>H, F</sup>	
MATH 232	 Calculus of Functions of One Variable II <sup>H, F</sup>	
STOR 113	 Decision Models for Business and Economics	
STOR 155	 Introduction to Data Models and Inference <sup>F</sup>	3
ECON 101	 Introduction to Economics <sup>H, F</sup>	4
ECON 410	 Intermediate Microeconomics <sup>1, H</sup>	4
BUSI 102	Introduction to Financial Accounting	1.5

<sup>H</sup> Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

<sup>F</sup> FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

<sup>1</sup> ECON 410 is not a requirement for the business minors (Real Estate or Business Administration).

Transfer students starting at UNC in fall 2022 should adhere to the prerequisites listed above.

[UBP Applications Cycles for 2024 spring and 2024 fall entry terms forward \(submitted between July 1 – September 1, 2023\):](#)

Prerequisite requirements for the business major and minor are the same.

Re-applicants may request an exception for BUSI 100 by emailing the UBP Admissions team.

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Prerequisite courses do not need to be complete at the time of application. However, it is typically beneficial for the admissions committee to see grades in as many prerequisites as possible during the admissions review. Students must complete all business school prerequisites before they are eligible to *start* in the Undergraduate Business program.

Students are encouraged to take several of the business prerequisite courses in their first year at UNC. It is common for students to leave 1–2 of the business prerequisites to take in their second year. If students wish to be considered for admission in the spring semester of the second year, they need to complete all requirements by the end of the first semester of the second year. To be considered for admission in the fall semester of the third year, all requirements should be completed by the end of the second year.

For the foundational skills in foreign language, the business school neither requires a particular language nor requires coursework beyond level 3. Please note, however, that some overseas study programs are language-based and may necessitate a student’s proficiency beyond level 3.

The business school makes no other specific recommendations about courses for other General Education requirements. The school encourages students to challenge themselves by exploring unfamiliar,

new disciplines and by strengthening written and verbal communication and critical thinking. It is possible for a business major to earn a second major and a minor, or two minors. First- and second-year students may wish to build a foundation for such a complementary academic track.

## Pre-Business Advising

First- and second-year students in the General College who are considering applying to the business school are encouraged to seek pre-business academic advising through the Academic Advising Program (<https://advising.unc.edu/>) (Steele Building). The admissions staff from the Kenan–Flagler Business School also conducts regular admissions counseling sessions, which can be accessed via the UNC Advising Appointment Scheduler (<https://advising.unc.edu/advisor/>) in Steele Building.

Prospective and current applicants should also frequently check the school's website (<https://www.kenan-flagler.unc.edu/programs/undergraduate-business/admissions/current-unc-students/>) for dates of upcoming information sessions, workshops, or important deadlines.

## Admission from the General College

Students can apply to the business major after their first year at UNC. Admitted students are notified (in mid-October) if they are admitted to start in the subsequent spring or fall. Admission decisions are contingent upon the successful completion of all in-progress or remaining business prerequisites in the regular term (fall/spring) prior to the admitted term of entry. If students are not admitted at the beginning of their second year, they have the option of re-applying at the beginning of their third year.

Admission to the business minor and the specialized business minor in real estate follow the same application schedule and process as the business major. Admission is both selective and competitive with approximately 70 students admitted to the business minor. Students from any discipline *excluding quantitative physics* may apply to the business minor at the beginning of their second or third year. Applications for the minor are not accepted once a student has entered the fourth year.

The business administration major requires completion in a minimum of three semesters, preferably four or five. The business minor requires completion in a minimum of two semesters, preferably three. Students are required to graduate from UNC–Chapel Hill in eight semesters.

## Transfer Admission

Transfer students are an integral and vibrant part of the Carolina community. They bring a diversity and experience to the institution that enhances the overall experience for all students, faculty members, and staff. In the Kenan–Flagler Undergraduate Business program, we understand that transferring is a complex process and have outlined below the policies and guidelines to help students make informed decisions and achieve as smooth a transition as possible.

Students applying to the business major as sophomore transfers, or after one year at university, should apply directly to the College of Arts and Sciences (as opposed to the direct admit process). The admissions process is competitive, therefore, we recommend that students review admissions criteria and make the very most of the spring and summer months prior to application.

Students applying to the business major as junior transfers, or after two years of secondary study, should select the Business Administration program as part of their application to UNC (Common Application).

Applicants must meet the University's requirements for admission in addition to the business major prerequisite requirements.

Transfer students who transfer more than 30 hours to UNC are eligible to take an additional ninth or 10th semester at the University. This is sometimes useful and necessary in order for transfer students to complete the business prerequisites and/or business degree.

Transfer students should know that admission to the business school is extremely competitive. We admit 50 percent of our applicants each year. Students should review the eligibility requirements and class profile at the undergraduate business admissions section (<https://www.kenan-flagler.unc.edu/programs/undergraduate-business/admissions/>) of the Kenan–Flagler website. For more information regarding the admissions process, please visit the transfer admissions page of the website (<https://www.kenan-flagler.unc.edu/programs/undergraduate-business/admissions/transfer-students/>).

## Business Administration Major, B.S.B.A.

The business administration program is considered a general management degree, and the UNC Kenan–Flagler Business School encourages breadth in both the business curriculum and in the continuation of study in fine arts, humanities, and natural and social sciences.

Admission (p. 1038) to the program is required.

Students are subject to the requirements in place when they are admitted to the UNC Kenan–Flagler Business School; consequently, the requirements described in this catalog particularly apply to students admitted to the school during the 2023–2024 academic year.

## Student Learning Outcomes

Upon completion of the business administration program, students should be able to:

- Demonstrate analytic and decision-making competencies in core business disciplines
- Demonstrate effective and relevant communication skills
- Demonstrate effective management through the development of effective leadership, interpersonal, and teamwork skills
- Demonstrate global leadership competencies

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

Students are required to complete 29.5 credit hours of core business courses.

<sup>H</sup> Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

<sup>1</sup> Recommended to be taken within the first two semesters of the program.

<sup>2</sup> BUSI 411 must be taken prior to BUSI 412; BUSI 412 must be taken in last 2 semesters.

<sup>3</sup> An area core course, with an earned grade of at least a C (not C-), is a prerequisite course for any elective course in that area (e.g., BUSI 406 is a prerequisite for BUSI 501). Other restrictions may apply to certain business courses.

<sup>4</sup> 300-level courses are capped at a maximum of 9.0 credits.

## Emphasis Areas

Business majors are provided with the opportunity to add an optional area of emphasis to their general management degree. Areas of emphasis generally consist of a minimum of nine credit hours of elective courses. All course information for the areas of interest can be found in the KF intranet. AOE's do not show on your diploma, they show on transcript and can be notations on your resume.

## Transfer of Business Course Credits from Other Institutions

Without regard to a student's prospective academic major or minor at UNC–Chapel Hill, the UNC Kenan–Flagler Business School will consider for transfer credit business administration courses that meet each of the following six criteria. No exceptions are made.

1. For upper-level courses (equivalent to those numbered 400–699 in the Kenan–Flagler undergraduate curriculum), the course was completed at
  - a. an institution accredited by AACSB International, or
  - b. a constituent four-year institution of the University of North Carolina, or
  - c. an international partner institution of Kenan–Flagler's undergraduate business program.
2. The final course grade earned was at least C (not C-) as verified by an official transcript. Courses taken Pass/Fail are ineligible.
3. A comparable course is available in the Kenan–Flagler undergraduate curriculum.
4. The course is not approved for credit in other UNC–Chapel Hill departments (i.e., no double credits).
5. The student completed the course within the past three academic years.
6. The substantive coverage of material constitutes no less than 75 percent of coverage in the comparable Kenan–Flagler course, and there is sufficient indication of individual student evaluation (i.e., no fewer than two major examinations, including a final examination).

For students who wish to transfer to UNC–Chapel Hill, pre-approval of such courses is recommended. Requests for validation of course credits earned at another institution must be made no later than the end of the first semester of enrollment at UNC–Chapel Hill following completion of the course. The business school does not award transfer credits in excess of three upper-level courses.

For business majors who earn admission to UNC Kenan–Flagler Business School, no more than three upper-level courses taken at another institution may be applied to the undergraduate business major curriculum unless earned as part of a preapproved Kenan–Flagler overseas study program.

All business minor courses must be completed at UNC Kenan-Flagler, except for courses taken if studying abroad through a Kenan-Flagler program.

To request review and validation of eligible courses, students should submit a Transfer Credit Request Form through Connect Carolina. A copy

of the course syllabus must be included for all courses being evaluated. The syllabus must include the title and edition of textbook(s) as well as list explicitly the course content. If the syllabus lists only chapters covered, without a description of the chapter content, a copy of the textbook's table of contents must be included.

## Special Opportunities in the Kenan–Flagler Business School

### Honors in Business

The Kenan–Flagler Business School honors thesis offers motivated undergraduate business students the opportunity to work closely with an individual faculty member on a specialized research topic of the student's choice during the senior year. Undergraduate business majors with a 3.3 cumulative graduate point average and a 3.5 grade point average in business courses are invited to be considered for the opportunity to participate in this two-course program (BUSI 691H and BUSI 692H).

In the first semester (BUSI 691H), students become familiar with the mechanics, methodologies, and recent literature on topics of major interest. Each student formulates an honors thesis proposal and initiates work on the project. During the second semester (BUSI 692H), the thesis work is conducted under the supervision of a faculty advisor with expertise in the general topic's area of research.

Students who successfully complete the second-semester course (BUSI 692H) will submit to an oral examination on the thesis. Upon successful completion of the program, the student receives the bachelor of science degree with honors or highest honors, as determined by the student's committee.

### Career Services

The Undergraduate Business program provides career development resources and services tailored to business students, such as specialized training and professional development activities, targeted networking opportunities, function- and industry-specific career clubs and student organizations, and focused career coaching and programming. Undergraduate business students are expected to maintain an up-to-date profile on Handshake through University Career Services, which is the primary resource for all UNC–Chapel Hill students for job/internship postings, résumé referral, on-campus interviewing, and career fairs.

As the job market remains highly competitive, the Undergraduate Business program strongly encourages business students to undertake internships and other experiential learning opportunities when possible. These hands-on experiences can be a valuable part of a student's career development. Also, demonstrated leadership experience along with community service and a global learning experience are additional desirable factors that many employers seek in candidates. The Undergraduate Business Career Services team assists students with connecting the dots of their college experience to launch careers with positive impact.

### STAR Program

Kenan–Flagler's Student Teams Achieving Results (STAR) program fields teams of top M.B.A.s and undergraduate business students to build comprehensive and actionable strategies for eligible corporations and not-for-profits. STAR teams begin the project by developing a scope of work with the client and signing a confidentiality agreement. Over the life of the project, teams typically analyze the market, assess the competitive situation, develop a strategy, and define an action plan that covers financials, risk assessment, and implementation. STAR teams

are guided throughout the course by a course professor, a team-specific faculty advisor, and client executives. Opportunities in STAR–Domestic and Global Business Projects exist.

### Student Involvement

Students in the undergraduate business program are encouraged to join a variety of student organizations during their time at Kenan–Flagler. These organizations include career-focused clubs (Accounting Club, Undergraduate Consulting Club, UNC Finance Society, Real Estate Club, Marketing Club, Operations Clubs, and others), affinity clubs (including Carolina Women in Business, Pride@KFBS, and Minority Business Student Alliance), and interest groups (including Sustainability Club, Undergraduate Healthcare Club, and Family Business Club). All these organizations give students valuable professional networking opportunities with recruiters and alumni, community service activities, and a chance to connect socially with peers. The program has a full-time wellness coach who works to ensure students take care of their well-being throughout their time in the program. The coach is available for 1-1 appointments and organizes a number of wellness-focused initiatives and programming to support all students. There are a number of program- and student-led initiatives to encourage community and equity among the student body to increase a feeling of belonging. Visit the undergraduate business program website for the most up-to-date information.

### Global Programs

Kenan–Flagler undergraduate global programs are consistently highly ranked by students for the quality and variety of programs available. The Undergraduate Business program provides a portfolio of over 40 different programs in Europe, Africa, Asia, and Oceania that offer students the opportunity to earn business core and/or elective credit. Business students can develop their global perspective through participation in business semester abroad, faculty led global immersion electives (GIEs), summer study abroad, or international internships.

GLOBE® (Global Learning Opportunities in Business Education) is UNC Kenan–Flagler's flagship global program. This study abroad program is a partnership with Chinese University of Hong Kong, Copenhagen Business School, and the University of North Carolina. Every year, approximately 18 students from each school form a cohort and study together for a semester at each school. The GLOBE® program customizes the curriculum based on unique strengths of each region. Students take courses in subjects such as global leadership and organizational behavior, business and politics in the U.S., marketing in China, finance and financial institutions, and a capstone consulting project in the final semester of the program. These courses are GLOBE specific courses taken as a cohort. GLOBE students take other business courses during the semester to round out a full course load.

Over half a million dollars is available in scholarship funds for global programs for Kenan–Flagler students. Additionally, the Phillips Ambassador program offers \$5,000 scholarships exclusively for Kenan–Flagler.

### Undergraduate Awards

Each spring, Kenan–Flagler students, staff, and faculty nominate graduating seniors to be considered for academic excellence and core value awards. The core values of integrity, inclusion, impact and innovation underpin everything the school stands for and the students who are given these awards have embodied these qualities throughout their time in Kenan–Flagler. The chosen students are recognized by their peers during the school's commencement ceremony. Beta Gamma Sigma,

the national business honorary society, offers top-performing students the chance to be inducted into that organization each spring.

## Undergraduate Business Symposium

Since its inception in 1983, the Undergraduate Business Symposium continues to be the flagship career event for the Undergraduate Business program and an annual highlight for the UNC Kenan–Flagler community. It is the largest and longest-running student-organized event of its kind. Each year the event brings together more than 425 undergraduates and 125 company representatives from a diverse set of industries and organizations from across the country. The Undergraduate Business Symposium provides students with the opportunity to learn about a variety of industries and organizations, the chance to network and interact with business representatives and UNC Kenan–Flagler faculty, obtain insights into the dynamic business landscape, and the opportunity to showcase their analytical, communication, and problem-solving skills.

## Business Administration Minor

The business administration minor will allow students to graduate with solid knowledge of business concepts. This minor is a perfect option to pair with several majors, making students more marketable and flexible, as there is a business component in all jobs and industries.

Admission (p. 1038) to the minor is required.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

All business minor courses must be completed at UNC Kenan–Flagler, except for courses taken while studying abroad through a Kenan–Flagler Program.

Students must successfully complete four specific business core courses and a minimum of two business elective courses (4.5 credit hours) for a total of 15 credit hours. The program can be completed within two to three semesters.

Once admitted as business minors, students will be able to register themselves in the core courses (BUSI 403, BUSI 406, BUSI 408, and BUSI 411) through Connect Carolina. Business minors may take a maximum of six business elective courses (regardless of credit hours) during their academic career.

## Real Estate Minor

The specialized business administration minor in real estate leverages innovative academic programming including experiential courses, invested faculty and staff, and engaged alumni across the nation. This minor prepares students for a wide array of real estate positions in nearly every corner of the industry and it is available to students in any discipline.

Admission (p. 1038) to the minor is required.

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

# UNC Adams School of Dentistry

## Introduction

The UNC Adams School of Dentistry is proud to be one of few schools in the United States to offer curricula in dental hygiene, doctor of dental surgery (D.D.S.), post-D.D.S. advanced dental education, and Ph.D. programs all under one roof. The various programs span many disciplines and offer multiple career paths. Whatever program you select, you can feel confident you are receiving a top-tier education from some of the nation's leading dental educators.

The school is committed to excellence in dental education at all levels. Whether applicants want to apply to the school's dental hygiene program, pursue their D.D.S. degree, or enroll in the six-year oral and maxillofacial surgery residency program, the school actively invests in providing the best education possible to its students. The academic environment fosters the pursuit of knowledge in the basic, behavioral, and clinical sciences. Independent thinking and lifelong learning are encouraged through degree-granting and continuing education programs. A high standard of professional and personal ethics, as well as technical excellence, are integral to the learning experience.

The school thoroughly prepares each of its graduates for their career and sets them on a path to success. Whether students plan to enter the general practice of dentistry, the dental specialties, allied dental health fields, research, or teaching, the UNC Adams School of Dentistry prides itself in producing some of the country's best clinicians, researchers, and academicians.

## Programs

### Doctor of Dental Surgery (D.D.S.) Program

The UNC Adams School of Dentistry offers a four-year Doctor of Dental Surgery (D.D.S.) program to produce practitioners who are qualified to enter general dental practice, dental research, teaching, public service or postdoctoral programs, including graduate programs in various dental specialties. The school is interested in recruiting students who are willing to accept professional responsibilities in their communities; to participate in professional activities; and to pursue a lifetime of learning to enhance their delivery of effective patient care and service to the profession and the public. There is not sufficient space in the dental school to admit all students who meet the quantitative and qualitative standards. For this reason, the quality of the student's undergraduate work is of great importance in selection for admissions, as well as motivation to pursue a career in dentistry.

### Dental Hygiene Programs

The dental hygiene programs are designed to educate and prepare dental hygienists for careers in a diverse and changing health care environment. Being a part of the UNC Adams School of Dentistry enables students to have a variety of experiences in clinical patient care, community dental health, and dental specialties, including geriatric dentistry, pediatric dentistry, periodontics, and research. The emphasis is on creating well-rounded dental hygiene health care professionals who will treat a variety of patients and provide leadership in the profession.

The school offers both undergraduate and graduate level education for dental hygiene students. The undergraduate program prepares students to become registered dental hygienists, while the graduate program focuses on allowing already-registered dental hygienists to begin careers in academia.

## Graduate and Advanced Dental Education

The UNC Adams School of Dentistry is proud to offer many advanced dental education and graduate programs for prospective students to consider, in addition to observer externship opportunities. These programs are designed to further the knowledge of students and to provide specialty training in various fields of dentistry.

More information about the dental hygiene (<https://www.dentistry.unc.edu/academicprograms/dh/>) and graduate and advanced dental education programs (<https://www.dentistry.unc.edu/academicprograms/ade/>) can be found in this catalog and on the school's website (<http://www.dentistry.unc.edu>).

## Facilities

The UNC Adams School of Dentistry is one of the largest dental school facilities in the nation. The school has grown to include several buildings, located within a dynamic health sciences campus. Among the school's buildings are Tarrson Hall, a state-of-the-art clinical teaching facility, and Brauer Hall, which includes patient simulation laboratories and other facilities. The majority of the school's research takes place in Koury Oral Health Sciences, completed in April 2012. This 216,000-square-foot facility houses a variety of classroom and lecture spaces, as well as cutting-edge research laboratories, all of which encourage collaborative research and learning experiences. The school is equipped with state-of-the-art classrooms, case study rooms, simulation laboratories, clinical facilities, and Kirkland Auditorium. The school also features an atrium with a media wall, social seating, and dining areas with a food court.

## Information Relevant to the UNC Adams School of Dentistry Experience

### Immunization Requirements

The State of North Carolina immunization requirements and the UNC Adams School of Dentistry immunization requirements for dental hygiene and doctor of dental surgery students are listed below. Documentation of all is required with application.

#### State Requirements

- Three DTP (diphtheria, tetanus, pertussis), Td (tetanus, diphtheria), or Tdap (tetanus, diphtheria, pertussis) doses. (This fulfills the primary series requirement.)
  - One Tdap booster after completion of the primary series that did not include a Tdap, and then a Td vaccine every 10 years thereafter.
- Three polio (unless greater than 18 years of age).
- Two measles (rubeola), two mumps, one rubella (two MMR doses meet this requirement) or positive titers.
- COVID-19 vaccination series, including prior boosters, or intent to request a medical or religious exemption.
- Hepatitis B series (not required for individuals born before July 1, 1994). **See school requirements below.**

#### UNC Adams School of Dentistry Requirements

- Varicella vaccination series (two shots) or a positive titer.
- Hepatitis B vaccination series (three shots) and a positive hepatitis B antibody (HBsAb) quantitative titer. (Please make sure your physician does not order a qualitative titer.) Ideally, a titer is recommended one to two months after completion of the series for proof of immunity to hepatitis B but can be checked at a later date.
- Two-step tuberculosis skin test (TST) or a TB blood test (IGRA). DDS and DH students report to Campus Health and follow the testing procedures required. Advanced Dental Education students report to Employee Health and follow the testing procedures required.

The matriculating student is required to submit an official certificate of immunizations that is signed by an authorized healthcare provider. Immunization documentation is to be submitted to both UNC Campus Health Services (CHS) and to the UNC Adams School of Dentistry through eMedley and Connect Carolina by a published and specified date. CHS will notify students who are not in compliance with the state immunization requirements noted above. Individuals who have not met the state immunization requirements after 30 calendar days from the first date of attendance will be administratively withdrawn from the University by the University Registrar. See the UNC Campus Health website (<http://campushealth.unc.edu/services/immunizations/health-science-students-immunizations/>).

Students with deficiencies in the additional immunization requirements of the school will be notified of the deficiencies by the UNC school's director of clinical compliance. The school will work with students to meet these additional requirements. The failure to comply with the school's requirements after consultation with the director of clinical

compliance and the agreed-upon resolution schedule will result in administrative withdrawal from the school.

### Additional Requirements

Annually:

- Influenza vaccine not earlier than September 1.
- Tuberculosis screening.
- Verification of health insurance. UNC–Chapel Hill requires all eligible students to have health insurance (see the UNC Campus Health Student Health Insurance website (<http://campushealth.unc.edu/charges-insurance/mandatory-student-health-insurance/>)). Students are required to waive with existing creditable insurance each semester or they will automatically be enrolled in the UNC System Student Health Insurance Plan, which is administered by Student Blue/BCBS of NC. To waive or enroll/renew, visit the Student Blue website (<http://www.bcbsnc.com/unc/>).

Biennially:

- American Heart Association certified CPR for Healthcare Providers training. Documentation of current certification is required of the matriculating student and is to be submitted through eKeeper. (Note that the school requires in-person CPR skills assessment.)

**Infection Control:** One of the consequences of the delivery of health care is the possibility of contracting an infectious disease such as tuberculosis, hepatitis, HIV, or herpes. To minimize this risk, the school has adopted an Infection Control Policy that requires the wearing of a clinical overgarment, disposable gloves, a mask, and protective eye covering when oral examinations and dental procedures are being performed. **NOTE:** COVID-19 has adjusted these requirements and additional Personal Protective Equipment (PPE) may be required.

### Infectious Disease Status

Students engaged in patient care activities are required to know their tuberculosis and hepatitis B (HBV) status, and are encouraged to learn their hepatitis C (HCV) and HIV status. State regulations require health care workers, including students, who perform surgical or dental procedures or who assist in such procedures in a way that may result in an exposure of patients to their blood, and who know themselves to be infected with HIV or HBV, to report their status to the state health director. See UNC's policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131793>).

### Late Registration

University regulations require students who do not register before the first day of classes in any semester or summer session to pay an additional fee of \$20 for delayed registration. Any student who believes that she/he can show sufficient justification for the delay may petition for a refund by completing a form, which can be found online (<https://registrar.unc.edu/guide/registration-policies/late-fee-refund-petition/>), and outlining the reason for delay. This form must bear the approval of the dean of the UNC Adams School of Dentistry.

### Awarding of Degrees and Certificates

To be awarded a degree or certificate, students must satisfactorily complete all requirements of their respective program.

## Class and Clinic Attendance

Regular class and clinic attendance is a student obligation. No right or privilege exists that permits a student to be absent from any given number of sessions.

## Patient Care Responsibilities

Students are granted the privilege of participating in the patient care system of the UNC Adams School of Dentistry and are expected to provide care consistent with our person-centered philosophy. Patients are a central part of the health care team and are involved in the planning of their care. It is the responsibility of the dental student to provide patients with the information needed so they make informed decisions about their treatment. The dental student has the responsibility to provide high-quality, evidence-based care to all their assigned patients in a timely manner and to uphold the ethical responsibilities as outlined in the school's Code of Professional Conduct and its Technical Standards.

Current academic policies and procedures can be found online (<https://policies.unc.edu/TDClient/2833/Portal/Shared/Search/?c=all&s=school+of+dentistry>). However, policies are subject to change at any time. The manual provides guidelines for governing the School of Dentistry educational programs and advises students, faculty, and staff of academic policies and procedures related to the respective programs.

## Doctor of Dental Surgery, D.D.S.

The UNC Adams School of Dentistry offers a four-year doctor of dental surgery (D.D.S.) program to produce healthcare practitioners who are qualified to enter general dental practice, dental research, teaching, public service, or postdoctoral programs including graduate programs in various dental specialties. The school is interested in recruiting students who are willing to accept professional responsibilities in their communities; to participate in professional activities; and to pursue a lifetime of learning to enhance their delivery of effective patient care and service to the profession and the public. There is not sufficient space in the dental school to admit all students who meet its quantitative and qualitative standards. For this reason, the quality of the student's undergraduate work is of great importance in selection for admission, as well as motivation to pursue a career in dentistry.

## Admissions

*The D.D.S. admissions process at the University of North Carolina Adams School of Dentistry is dedicated to selecting and enrolling students to study dentistry and to provide qualified dental practitioners to the State of North Carolina and beyond.*

## Admission Requirements

Students preparing for the study of dentistry are encouraged to complete a residential four-year curriculum leading to the B.A. or B.S. degree. Students not pursuing a degree must complete a predoctoral program of at least three years of accredited college courses (96 semester hours

or 144 quarter hours). The UNC Adams School of Dentistry will accept a maximum of 64 semester hours of credit from an accredited community, technical, or online college or university. Any community, technical, or online college or university courses submitted for credit must be acceptable to the UNC Office of Undergraduate Admissions. However, students who have 64 hours of credit from a community, technical, or online college or university must complete all additional course work at an accredited residential four-year college or university. See the course descriptions in the prerequisites table below by clicking on the course abbreviations (e.g., BIOL 101). The prerequisite courses (required predoctoral courses) must be completed prior to admission (preferably on-site at a residential four-year college or university). Undergraduate students attending a school other than UNC-Chapel Hill should use this catalog as a guide for completing the prerequisite courses. Required courses not completed at an accredited four-year institution must be transferable to UNC-Chapel Hill as equivalent courses.

## Prerequisites

Code	Title	Hours
<b>Biology</b>		
The basic requirement is eight semester hours (two courses, laboratories required, one laboratory must include dissection, one of which must be human anatomy or vertebrate zoology with a laboratory).		8
BIOL 101 & 101L	Principles of Biology and Introductory Biology Laboratory <sup>H, F</sup>	
BIOL 252	Fundamentals of Human Anatomy and Physiology <sup>1, H</sup>	
BIOL 474 & 474L	Evolution of Vertebrate Life and Vertebrate Structure and Evolution Laboratory <sup>1, H</sup>	
<b>Chemistry</b>		
The basic requirements are eight semester hours of general chemistry (two courses, laboratory required), six semester hours of organic chemistry (two courses, laboratory not required) and three semester hours of biochemistry (laboratory not required).		17
CHEM 101 & 101L	General Descriptive Chemistry I and Quantitative Chemistry Laboratory I <sup>H, F</sup>	
CHEM 102 & 102L	General Descriptive Chemistry II and Quantitative Chemistry Laboratory II <sup>H, F</sup>	
CHEM 261	Introduction to Organic Chemistry I <sup>H</sup>	
CHEM 262	Introduction to Organic Chemistry II <sup>H</sup>	
CHEM 430	Introduction to Biological Chemistry <sup>H</sup>	
<b>Physics</b>		
The requirement is two college-level courses of non-calculus-based physics that will cover basic principles of physics relevant to living things.		8
PHYS 114	General Physics I: For Students of the Life Sciences <sup>2, F</sup>	
PHYS 115	General Physics II: For Students of the Life Sciences <sup>2, F</sup>	
<b>English</b>		

The basic requirement is six semester hours (or courses required for a degree from an accredited college or university) of coursework emphasizing compositional writing. 6

**Total Hours** 39

- H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.
- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

<sup>1</sup> Take either BIOL 252 or both BIOL 474 and BIOL 474L.

<sup>2</sup> Although the two basic physics courses at UNC are calculus-based, non-calculus based courses are also acceptable as prerequisites.

## Additional Recommendations for Applicants

Prospective dental students should consider the following recommendations when preparing for the dental school admissions process.

While a high level of scholarship and manual dexterity are important criteria for predicting satisfactory achievement in dental school, the personal qualifications of applicants are also critically important. Good moral character is an important prerequisite for entering the dental profession. No school, including ours, wants to train prospective dentists who lack either the highest ethical standards or a sense of social responsibility.

Development of both a strong preclinical science knowledge and a broad exploration of the liberal arts are valued in our applicants. Courses in art, biostatistics, business, communication/public speaking, compositional writing, computer science, English, ethics, foreign languages, immunology, literature, microbiology, molecular biology, music, philosophy, political science, psychology, sociology, and/or statistics should be considered.

Experiences in functioning as part of a team are critical in the health professions. Prospective students should demonstrate the ability to function as both a leader and a productive team member.

We want our students to be able to work with diverse populations. Experiences working in diverse communities or with diverse groups of people is suggested.

Exploration of dentistry through shadowing is important in informing perspective and confirming interest in the profession. While no minimum number of shadowing hours is required, we strongly recommend that applicants thoroughly explore the dental field with a strong emphasis on the practice of general dentistry. Multiple, long-term experiences are valued more highly than short-term interactions. Local and global experiences are equally valued; the significance of an experience is more important than the location.

## Dental Admission Test

All students must complete the Dental Admission Test (DAT), conducted by the American Dental Association, before being considered for admission to the UNC Adams School of Dentistry. This test is administered by Prometric Inc. (<http://www.prometric.com>) across the

country and should be taken in the spring or fall of the year prior to the desired admission date. Applying at the end of the spring semester is encouraged to facilitate early consideration for an interview by the admissions committee. DAT test scores must be valid and may not be more than three years old. During the admissions cycle (June through October), applicants may submit unofficial DAT scores by email or fax or in-person because of the delay associated with reporting official scores to the Office of Admissions and Student Life.

The DAT is designed to measure general academic ability, comprehension of scientific information, and perceptual ability. While all dental schools require examinees to participate in the Dental Admission Testing Program, test results are only one factor considered in evaluating admission potential.

In documented cases of severe financial hardship, the ADA has a limited number of partial fee waivers available to DAT examinees on a first-come, first-serve basis. For more information, please visit the Dental Admission Test (<https://www.ada.org/en/education-careers/dental-admission-test/dat-fee-waiver-information/>) website.

The Dental Admission Testing Program does not endorse any test preparation courses and has no data on the content or efficacy of test preparation courses designed to prepare examinees to take the DAT. The Department of Testing Services urges individuals considering participation in test preparation courses to review the course materials carefully to ensure that they reflect the current content of the DAT. For more information or to contact the ADA Department of Testing Services, which administers the test, visit the American Dental Association's Dental Admission Test (<http://www.ada.org/dat.aspx>) website.

## Selection Factors

The UNC Adams School of Dentistry is committed to maintaining its diverse student body. To that end, individuals from a wide range of backgrounds who have had different experiences and have the potential to contribute to dentistry or dental practice are considered by the admissions committee. The school also strives to admit individuals who will benefit from and contribute to the educational environment and the dental profession and be prepared at graduation to enter a wide range of careers. The school expects applicants to demonstrate the following skills, experiences, or potentials:

- An applicant must possess satisfactory academic abilities as evidenced by having successfully completed the prerequisite (required pre dental) courses and the Dental Admission Test at an acceptable level of performance.
- An applicant should possess psychomotor ability sufficient to perform the necessary technical skills required in dentistry. These skills are evidenced by an acceptable performance on the perceptual ability exam of the Dental Admission Test and by participation in hobbies and other experiences that require psychomotor activity outside of the normal college curriculum.
- An applicant must demonstrate a service commitment and a desire to help others. This is evidenced by participation in extracurricular and volunteer activities that require interaction with others. A caring attitude is considered central to the practice of dentistry, and the school expects an applicant to demonstrate this mindset. A pre dental curriculum designed to expand social awareness and extracurricular experiences demonstrating social sensitivity will be important factors in an application for admission.

- An applicant should possess the potential to be a self-directed, lifelong learner. By definition, the dental profession requires a practitioner to learn continually in order to provide the highest level of patient care. Extracurricular experiences that indicate a high level of independent, intellectual curiosity are favored.

- An applicant must demonstrate knowledge of the dental profession. Such knowledge can be obtained from talking with and observing dentists and reading appropriate dental literature. The dental school expects applicants to have a firm grasp of what the dental profession is and what important issues are facing the profession.

## Application Process and Admissions

All inquiries regarding admissions to our D.D.S. program should be directed to the Office of Admissions and Student Life by calling (919) 537-3348 or by emailing [DDSAdmissions@unc.edu](mailto:DDSAdmissions@unc.edu). Our admissions processes do not discriminate against candidates on the basis of age, color, disability, gender, gender expression, gender identity, genetic information, national origin, race, religion, sex, sexual orientation, or veteran status.

The school participates in the Associated American Dental Schools Application Service (AADSAS), which is sponsored by the American Dental Education Association (ADEA). Applicants are required to file an AADSAS application (<https://aadsas.liaisoncas.com/applicant-ux/#/login>) as well as the School of Dentistry supplemental application.

Supplemental application materials include the D.D.S. Supplemental application itself, a nonrefundable application fee, DAT scores, a 2" x 2" passport photo, and the North Carolina Residency Determination Service application (<https://ncresidency.cfnc.org/residencyInfo/>) (for in-state applicants). The AADSAS application deadline is November 1 and the UNC D.D.S. Supplemental application deadline is November 15 for admission to the following year's class. Applicants are strongly encouraged to file their applications as soon as possible, ideally several months prior to the deadlines. An email will be sent once AADSAS has released your application to us.

Following application review, selected applicants are invited to the school for a series of personal interviews with our Admissions Committee. An evaluation from the interview combined with the applicant's academic record, engagement in various activities, and performance on the DAT are the basis for the applicant's consideration for acceptance. Acceptance offers are extended in compliance with the ADEA Acceptance Notification Date Guidelines ([https://www.adea.org/GoDental/ADEA\\_AADSAS\\_Application/The\\_application\\_to\\_dental\\_school\\_\\_ADEA\\_AADSAS.aspx](https://www.adea.org/GoDental/ADEA_AADSAS_Application/The_application_to_dental_school__ADEA_AADSAS.aspx)) and continue on a rolling basis until the class is full. Acceptance to the D.D.S. program is provisional based on satisfactory completion of further requirements, including, but not limited to, background checks.

## Deposit

An applicant accepted for admission must deposit \$500 with the University Cashier within the designated timeline established by the Office of Admissions and Student Life. Upon registration for dental school classes, this deposit will be credited and applied to the applicant's tuition/fees. This deposit is non-refundable. If the applicant rescinds the acceptance offer and does not register for classes, the deposit will be forfeited.

## Advising

A representative from the Office of Admissions and Student Life is pleased to consult with prospective students to provide guidance in the

admissions process, as schedules permit. However, these meetings must occur outside of the active application cycle for which the prospective student is applying. Please contact the Office of Admissions and Student Life at [DDSAdmissions@unc.edu](mailto:DDSAdmissions@unc.edu) to inquire about scheduling a meeting.

## Internationally Trained Dentists: Advanced Standing Program (ASPID)

As of February 2018, the UNC Adams School of Dentistry offers the Advanced Standing Program for International Dentists (ASPID) as an entry for graduates of foreign dental schools, except Canadian graduates, who seek to receive additional training and practice dentistry in the United States. Applicants must apply through ADEA/CAPPID (<https://www.adea.org/adeacaapid/>).

Each cohort of ASPID students begins in January, with a six-month intensive track leading to integration of the students into the third-year predoctoral D.D.S. class during the fall semester of that same year. During the first six months, ASPID students are enrolled in didactic and preclinical courses that will prepare them to be fully integrated into the third year of predoctoral dental education.

The students will participate in specially designed preclinical laboratory and didactic courses to review key topics relative to the practice of oral health care. To apply, applicants are required to successfully pass both National Dental Boards Part I and II (both now discontinued) or the current Integrated National Board Dental Exam (INBDE), the standard written tests for practice in the United States. Transcripts from international schools must be evaluated by Educational Credential Evaluators (ECE).

## Requirements

***The predoctoral curriculum is current as of the 2022–2023 academic year but it remains subject to change.***

The primary intent of the dental school curriculum is to produce dental practitioners who: (1) are qualified to enter general dental practice, postdoctoral programs including graduate programs in various dental specialties or dental research, teaching or public service; and (2) can accept professional responsibilities in their communities, participate in professional activities and pursue a lifetime of learning that enhances their delivery of effective services to patients and the profession.

The curriculum is under continuous review and is subject to change at any time upon approval of the faculty and the dean. The faculty reserves the right to make changes in curriculum and in regulations when, in its judgment, such changes are in the best interest of the students, patients and the school. Ordinarily, students may expect to receive a degree by meeting the requirements of the curriculum as specified in the policy manual when they enter the school or in any subsequent catalog or policy manual published while they are students. The Adams School of Dentistry is not obligated to offer a course listed in the catalog in any particular year.

## First Year Courses

The first year of the D.D.S. curriculum includes content in the core biomedical sciences (gross anatomy, histology, biochemistry, physiology, microbiology and pathology), clinical/behavioral, and health systems sciences. Predoctoral learners gain an appreciation of various components of the patient care process with an emphasis on assessment (history taking, examination, diagnostic tests) and plan of care (diagnosis, treatment planning, and informed consent). Learners develop skills in restorative science, cariology, radiology, and evidence-based dentistry. Also included are seminars on interviewing skills, ethics, rotation through patient care services and the delivery of preventive care. These courses introduce learners to the relationship between basic science and clinical practice as well as the relationship between the healthcare provider and the patient. Basic social science concepts are integrated throughout the curriculum and proximal preclinical activities prepare learners to assume patient care privileges at the end of their first year.

## Second Year Courses

During the second year, predoctoral learners continue taking biological science courses focused on organ systems and engage in a series of discipline specific dental science courses (preclinical endodontics, periodontics, removable and fixed prosthodontics, oral maxillofacial surgery, pathology, and advanced radiology). Learners are introduced to the lifespan with pediatrics, orthodontics, and special care courses. The healthcare delivery systems emphasize delivery models, interprofessional education, with leadership continuing throughout the curriculum.

Learners continue assuming various patient care privileges during the second year, delivering comprehensive care services, and are providing the therapeutic and preventive treatment needed by their patients.

## Third Year Courses

In the third year, students provide comprehensive care for their patients in closely mentored clinical settings modeled on a contemporary, team-based dental office format. Engagement in specialty-based clinical rotations supports development of a broad, well-rounded dental skill set. A series of seminars are offered with an emphasis on inquiry case-based learning, integrated biomedical sciences, advanced clinical topics, treatment planning, practice management, leadership strategies, and contemporary topics. Opportunities for students to personalize their education (through electives, service activities, research engagement, certificate programs, dual-degree programs and more) are available. During this time, student prepare for the integrated national board dental examination (INBDE) to be taken in the summer between the third and fourth year.

## Fourth Year Courses

Fourth-year students assume greater responsibility for patients requiring more advanced dental care in our contemporary, vertically-integrated, team-based dental clinics. A series of seminars are offered with an emphasis on inquiry case-based learning, advanced clinical topics, treatment planning, practice management, leadership strategies, and contemporary topics. Learners continue to personalize their education through engagement in various Individualization activities (electives, service activities, research engagement, certificate programs, dual-degree programs and more). Learners also participate in five-week long extramural rotations at clinical sites located throughout the state, enabling immersive, hands-on clinical learning experiences in a variety of settings.

## Opportunities

### Spurgeon Student Government

The Spurgeon Student Government exists as the governing body for all students of the UNC Adams School of Dentistry. Named after the late Dr. J.S. Spurgeon, a prominent and outstanding dentist from Hillsborough, N.C., the organization holds regular meetings in which elected representatives from each class of dental, advanced education, and dental hygiene students discuss and plan the functions of student government. Several projects are carried out each year including both social and academic. The school hosts many student-led organizations and programs allowing students opportunities to become involved in the community, in research and in school programs. For a listing of these organizations and specific details about these organizations, please visit our website (<http://www.dentistry.unc.edu/experience/unclife/orgs/>).

### Student Membership in the Dental Community

In addition to serving in various class and student organization officer positions, students are active members of the dental school community. They have membership on most standing dental school committees. There are other ways for students to be involved, as the school supports many student organizations. These organizations allow students to be involved with dentistry at the local and national levels. Please visit the website (<http://www.dentistry.unc.edu/experience/unclife/orgs/>) for a full list of our student organizations.

### International Opportunities

As 21st century oral health practitioners, dental students, whether pursuing a career in clinical practice or academia, must be fully cognizant of how oral health functions in a global community. The school provides many opportunities for students to engage with peoples and cultures in other countries, including yearly service and academic projects in Brazil, China, India, Malawi, Moldova, Mexico, Nepal, Nicaragua, Philippines, and Uganda. In addition, the school maintains exchange agreements with Ajman University at UAE, Moldova's Nicolae Testemitanu State University of Medicine and Pharmacy, National University of Singapore, Qingdao Dental Hospital and Peking University in China, University of São Paulo and Federal University of Minas Gerais in Brazil, Yenepoya University and JSS University in India, Makerere University in Uganda, and King's College London in England. Students who take part in global service and outreach learn how dentistry and health care services are administered in other nations as well as the health care needs of their populations and possible sustainable projects for the hosting communities. This global and cultural experience enlightens their worldview and broadens their understanding of health care systems locally and globally.

## Research Experience

The University of North Carolina at Chapel Hill is the nation's first public university and ranks among the world's leading research universities, whereby UNC and the Adams School of Dentistry are nationally recognized. UNC's Adams School of Dentistry has a diverse portfolio of research activities in the basic, applied, and clinical sciences, as well as in the areas of health services, health policy and health education. Discoveries in these areas not only offer the potential to improve oral health but also overall health. The general atmosphere of the Adams School of Dentistry specifically and UNC in general provide a very stimulating place to conduct research in a collaborative institutional environment.

The student research experience is intended to support D.D.S. students who are committed to obtaining a concentrated research experience while attending dental school. The overall goal of this experience is to allow students a connection with clinical, translational, or laboratory research. Activities under the supervision of a faculty mentor may include developing research protocols, participating in actual laboratory or clinical research studies, conducting critical reviews of the literature, writing manuscripts, and interacting with speakers and other attendees at research seminars. The Office of Discovery and Innovation in collaboration with the Office of Academic Affairs assists students in identifying potential mentors for this experience.

The student research program also supports and encourages participation in student research leadership positions at the local and national levels. In addition to the Office of Discovery and Innovation and the Office of Academic Affairs, there are several student-run programs within the school that foster these types of activities including but not limited to ADEA and AADR Student Research Group (SRG).

## Information Relevant to the UNC Adams School of Dentistry Experience

### Immunization Requirements

The State of North Carolina immunization requirements and the UNC Adams School of Dentistry immunization requirements for dental hygiene and doctor of dental surgery students are listed below. Documentation of all is required with application.

#### State Requirements

- Three DTP (diphtheria, tetanus, pertussis), Td (tetanus, diphtheria), or Tdap (tetanus, diphtheria, pertussis) doses. (This fulfills the primary series requirement.)
  - One Tdap booster after completion of the primary series that did not include a Tdap, and then a Td vaccine every 10 years thereafter.
- Three polio (unless greater than 18 years of age).
- Two measles (rubeola), two mumps, one rubella (two MMR doses meet this requirement) or positive titers.
- COVID-19 vaccination series, including prior boosters, or intent to request a medical or religious exemption.
- Hepatitis B series (not required for individuals born before July 1, 1994). **See school requirements below.**

#### UNC Adams School of Dentistry Requirements

- Varicella vaccination series (two shots) or a positive titer.
- Hepatitis B vaccination series (three shots) and a positive hepatitis B antibody (HBsAb) quantitative titer. (Please make sure your physician does not order a qualitative titer.) Ideally, a titer is recommended one

to two months after completion of the series for proof of immunity to hepatitis B but can be checked at a later date.

- Two-step tuberculosis skin test (TST) or a TB blood test (IGRA). DDS and DH students report to Campus Health and follow the testing procedures required. Advanced Dental Education students report to Employee Health and follow the testing procedures required.

The matriculating student is required to submit an official certificate of immunizations that is signed by an authorized healthcare provider. Immunization documentation is to be submitted to both UNC Campus Health Services (CHS) and to the UNC Adams School of Dentistry through eMedley and Connect Carolina by a published and specified date. CHS will notify students who are not in compliance with the state immunization requirements noted above. Individuals who have not met the state immunization requirements after 30 calendar days from the first date of attendance will be administratively withdrawn from the University by the University Registrar. See the UNC Campus Health website (<http://campushealth.unc.edu/services/immunizations/health-science-students-immunizations/>).

Students with deficiencies in the additional immunization requirements of the school will be notified of the deficiencies by the UNC school's director of clinical compliance. The school will work with students to meet these additional requirements. The failure to comply with the school's requirements after consultation with the director of clinical compliance and the agreed-upon resolution schedule will result in administrative withdrawal from the school.

### Additional Requirements

Annually:

- Influenza vaccine not earlier than September 1.
- Tuberculosis screening.
- Verification of health insurance. UNC–Chapel Hill requires all eligible students to have health insurance (see the UNC Campus Health Student Health Insurance website (<http://campushealth.unc.edu/charges-insurance/mandatory-student-health-insurance/>)). Students are required to waive with existing creditable insurance each semester or they will automatically be enrolled in the UNC System Student Health Insurance Plan, which is administered by Student Blue/BCBS of NC. To waive or enroll/renew, visit the Student Blue website (<http://www.bcbsnc.com/unc/>).

Biennially:

- American Heart Association certified CPR for Healthcare Providers training. Documentation of current certification is required of the matriculating student and is to be submitted through eKeeper. (Note that the school requires in-person CPR skills assessment.)

**Infection Control:** One of the consequences of the delivery of health care is the possibility of contracting an infectious disease such as tuberculosis, hepatitis, HIV, or herpes. To minimize this risk, the school has adopted an Infection Control Policy that requires the wearing of a clinical overgarment, disposable gloves, a mask, and protective eye covering when oral examinations and dental procedures are being performed. **NOTE:** COVID-19 has adjusted these requirements and additional Personal Protective Equipment (PPE) may be required.

### Infectious Disease Status

Students engaged in patient care activities are required to know their tuberculosis and hepatitis B (HBV) status, and are encouraged to learn their hepatitis C (HCV) and HIV status. State regulations require

health care workers, including students, who perform surgical or dental procedures or who assist in such procedures in a way that may result in an exposure of patients to their blood, and who know themselves to be infected with HIV or HBV, to report their status to the state health director. See UNC's policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131793>).

## Late Registration

University regulations require students who do not register before the first day of classes in any semester or summer session to pay an additional fee of \$20 for delayed registration. Any student who believes that she/he can show sufficient justification for the delay may petition for a refund by completing a form, which can be found online (<https://registrar.unc.edu/guide/registration-policies/late-fee-refund-petition/>), and outlining the reason for delay. This form must bear the approval of the dean of the UNC Adams School of Dentistry.

## Awarding of Degrees and Certificates

To be awarded a degree or certificate, students must satisfactorily complete all requirements of their respective program.

## Class and Clinic Attendance

Regular class and clinic attendance is a student obligation. No right or privilege exists that permits a student to be absent from any given number of sessions.

## Patient Care Responsibilities

Students are granted the privilege of participating in the patient care system of the UNC Adams School of Dentistry and are expected to provide care consistent with our person-centered philosophy. Patients are a central part of the health care team and are involved in the planning of their care. It is the responsibility of the dental student to provide patients with the information needed so they make informed decisions about their treatment. The dental student has the responsibility to provide high-quality, evidence-based care to all their assigned patients in a timely manner and to uphold the ethical responsibilities as outlined in the school's Code of Professional Conduct and its Technical Standards.

Current academic policies and procedures can be found online (<https://policies.unc.edu/TDClient/2833/Portal/KB/?CategoryID=21536>). However, policies are subject to change at any time. These policies govern the UNC Adams School of Dentistry educational programs and advise students, faculty, and staff of procedures related to the respective programs.

## Dental Hygiene Major, B.S.

The dental hygienist is an educator and motivator as well as a health care provider. As a practicing member of the dental health team, the hygienist is primarily concerned with the maintenance of oral health and the prevention of dental disease. Additionally, dental hygienists may assume professional leadership roles; participate in the development, implementation, and evaluation of community health programs; engage in research activities; or serve as consultants and assume managerial roles in certain types of dental care delivery systems.

Students are subject to the academic requirements in place when they are admitted to the dental hygiene program; consequently, the requirements described in this catalog particularly apply to students admitted to the school during the 2023–2024 academic year.

All course descriptions can be found in ConnectCarolina.

## Admission to the Program

Applicants may be admitted for dental hygiene study after completion of the dental hygiene prerequisites, provided they meet the requirements of the University. To assure proper planning for admission, applicants should maintain close contact with the program during the application process.

Enrollment is limited, and applicants are accepted on a competitive basis. Admission to the University does not guarantee admission into the dental hygiene program. Selections are based on academic achievement with an emphasis on performance in science courses, character, knowledge of working with the dental team, and a sincere interest in dental hygiene as a professional career. For UNC–Chapel Hill students, application

for admission to the program is usually made during the second year of General College study. Interested students should submit an online application, which can be accessed from ConnectCarolina.

For transfer applicants, all prerequisite dental hygiene coursework and General College courses taken at other institutions must be approved for transfer in advance by the Office of Undergraduate Admissions. Official transcripts from all schools attended (including high school) must be submitted.

Three letters of recommendation must be submitted with the application. Two of the letters should be from college course instructors and one letter should be a character reference. In addition, applicants must shadow in a dental office for a minimum of 20 hours. This requirement may be fulfilled through prior dental assisting experience.

Prior to being admitted and enrolled, all applicants will be required to present evidence of satisfactory completion of prerequisite courses required by the major. Applicants with a previous degree should contact the Office of Undergraduate Admissions to determine fulfillment of General College requirements. For questions about specific admission requirements on the undergraduate and graduate programs in dental hygiene, please visit our website (<https://dentistry.unc.edu/education/dh/>) or call our office at (919) 537-3474.

## Student Learning Outcomes

Upon completion of the dental hygiene program, students should be able to:

- Possess the skills and knowledge needed to provide optimal dental hygiene patient care while valuing and adhering to the ethical beliefs as stated by the American Dental Hygienists' Association Code of Ethics
- Promote the values of optimal oral health as related to general health and overall wellness to all patients
- Embrace an interdisciplinary role within the health care system and assess, plan, implement, and evaluate oral health care programs and activities for diverse population groups while facilitating access to care and services
- Assess, plan, implement, and evaluate treatment in the promotion of oral and systemic health using an evidence-based approach
- Value the dental hygiene profession through career growth and development and commitment to lifelong learning

## Requirements

All baccalaureate-seeking dental hygiene students must complete all First-Year Foundation requirements, all Reflection & Integration requirements, and must complete at least six Focus Capacity requirements as part of the IDEAs in Action General Education curriculum. Although not required, STOR 151 is recommended to fulfill the FC-QUANT requirement. Other specific requirements include the following courses:

Code	Title	Hours
BIOC 107 or CHEM 101 & 101L	Introduction to Biochemistry <sup>1</sup> General Descriptive Chemistry I and Quantitative Chemistry Laboratory I	4
BIOC 108 or CHEM 102 & 102L	Introduction to Biochemistry General Descriptive Chemistry II and Quantitative Chemistry Laboratory II	4

Select one of the following options: 3-5

BIOL 252 & 252L	Fundamentals of Human Anatomy and Physiology and Fundamentals of Human Anatomy and Physiology Laboratory <sup>H</sup>	
EXSS 276	Human Physiology

Select one of the following SOCI courses:		3
SOCI 100	Sociological Perspective Through Documentary Film <sup>F</sup>	
SOCI 101	Sociological Perspectives <sup>H</sup>	
SOCI 111	Human Societies	

<sup>H</sup> Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

<sup>F</sup> FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

<sup>1</sup> CHEM 101/CHEM 101L satisfies FC-NATSCI requirement.

<sup>2</sup> COMM 113 satisfies the Communication Beyond Carolina requirement.

In addition to the program requirements listed above, students must attain a final cumulative GPA of at least 2.0. For more information, please consult the degree requirements section of the catalog, (p. 1241) and the Dental Hygiene Programs Academic Policy.

### Additional Information for the Dental Hygiene Programs

Upon provisional acceptance into the dental hygiene program, all students must provide an acceptable criminal background check and provide documentation of required immunizations. See "Immunization Requirements" details in the Compliance (p. 1068) section.

One of the consequences of the delivery of health care is the possibility of contracting infectious disease such as tuberculosis, hepatitis, herpes, or HIV. To minimize this risk, the UNC Adams School of Dentistry has adopted an Infection Control Policy that requires the wearing of a clinical overgarment, disposable gloves, a mask, shield, protective cap and protective safety eye covering when oral examinations and dental hygiene services are being performed.

Dental school charges are required that include instrument rental and other supplies needed for clinical care and the education of patients. Additional costs may occur for projects required in the curriculum.

## Professor

Jennifer Brame.

## Clinical Associate Professors

Jennifer Harmon, Shannon Mitchell, Lattice Sams.

## Clinical Assistant Professors

Roxanne Dsouza-Norwood, Sarah Liebkemann, Tiffanie White, Natasha Wiltshire.

## Clinic Adjuncts

Jasmin Balcazar-Romero, Hannah Baldwin, Min Gim.

## Program Directors

Lattice Sams, Undergraduate Program Director  
Jennifer Brame, Graduate Program Director

## Special Opportunities in Dental Hygiene Departmental Involvement

Students are eligible to become members of the American Dental Hygienists' Association, American Dental Education Association, American Association of Dental Research, American Association of Public Health Dentistry, and other specialty organizations. Student membership fees may be required.

## Experiential Education or High-Impact Experience

Students have the opportunity to participate in community-based clinical experiences as well as providing oral hygiene programs in the community. Service-learning opportunities are possible as an elective. Each semester, students will be involved with hands-on experiences providing dental hygiene services. Due to the location of community sites, undergraduate students may need access to transportation. Expenses for travel are the responsibility of the student.

## Licensure

Baccalaureate degree graduates are eligible for dental hygiene licensure examinations at the state and national levels. Candidates must pass both the national and clinical board examinations in order to be granted a license to practice dental hygiene. Additional costs are associated with the examinations required for licensure. Some dental hygiene licensure examinations require background checks with fingerprint analysis.

## Accreditation

The dental hygiene program's accreditation status is approval without reporting requirements as determined by the Commission on Dental Accreditation.

## Undergraduate Awards

Dental hygiene students are eligible for awards through the Spurgeon Dental Society in the UNC Adams School of Dentistry and the Dental Foundation of North Carolina. In addition, student awards are also available through the American Dental Hygienists' Association, American Association of Public Health Dentistry, American Dental Education Association, and other specialty organizations.

## Undergraduate Research

Research opportunities are available at the undergraduate level for dental hygiene students. Students are encouraged to become involved

in research activities pertaining to dental hygiene and dentistry. Student research grants are available through the University, professional organizations, and private industry.

## Graduate School and Career Opportunities

Upon satisfactory completion of the baccalaureate program, students are eligible for application to graduate programs in dental hygiene education, public health, and other areas. The UNC Adams School of Dentistry offers a master of science (M.S.) graduate degree program in dental hygiene education to which graduates of the dental hygiene program may apply. Graduates also are eligible to apply for admission to the school's predoctoral dental curriculum provided they successfully complete the required program prerequisites.

The growth of the dental health care field assures an excellent employment outlook for the coming years. Courses of study provide comprehensive educational experience to qualified individuals for the practice of dental hygiene in accordance with the current and changing demands for health services and in accordance with the laws and ethics pertaining to practice.

## Information Relevant to the UNC Adams School of Dentistry Experience

### Immunization Requirements

The State of North Carolina immunization requirements and the UNC Adams School of Dentistry immunization requirements for dental hygiene and doctor of dental surgery students are listed below. Documentation of all is required with application.

#### UNC Adams School of Dentistry Requirements

- Varicella vaccination series (two shots) or a positive titer.
- Hepatitis B vaccination series (three shots) and a positive hepatitis B antibody (HBsAb) quantitative titer. (Please make sure your physician does not order a qualitative titer.) Ideally, a titer is recommended one to two months after completion of the series for proof of immunity to hepatitis B but can be checked at a later date.
- Two-step tuberculosis skin test (TST) or a TB blood test (IGRA). DDS and DH students report to Campus Health and follow the testing procedures required. Advanced Dental Education students report to Employee Health and follow the testing procedures required.

The matriculating student is required to submit an official certificate of immunizations that is signed by an authorized healthcare provider. Immunization documentation is to be submitted to both UNC Campus Health Services (CHS) and to the UNC Adams School of Dentistry

through eMedley and Connect Carolina by a published and specified date. CHS will notify students who are not in compliance with the state immunization requirements noted above. Individuals who have not met the state immunization requirements after 30 calendar days from the first date of attendance will be administratively withdrawn from the University by the University Registrar. See the UNC Campus Health website (<http://campushealth.unc.edu/services/immunizations/health-science-students-immunizations/>).

Students with deficiencies in the additional immunization requirements of the school will be notified of the deficiencies by the UNC school's director of clinical compliance. The school will work with students to meet these additional requirements. The failure to comply with the school's requirements after consultation with the director of clinical compliance and the agreed-upon resolution schedule will result in administrative withdrawal from the school.

### Additional Requirements

Annually:

- Influenza vaccine not earlier than September 1.
- Tuberculosis screening.
- Verification of health insurance. UNC–Chapel Hill requires all eligible students to have health insurance (see the UNC Campus Health Student Health Insurance website (<http://campushealth.unc.edu/charges-insurance/mandatory-student-health-insurance/>)). Students are required to waive with existing creditable insurance each semester or they will automatically be enrolled in the UNC System Student Health Insurance Plan, which is administered by Student Blue/BCBS of NC. To waive or enroll/renew, visit the Student Blue website (<http://www.bcbsnc.com/unc/>).

Biennially:

- American Heart Association certified CPR for Healthcare Providers training. Documentation of current certification is required of the matriculating student and is to be submitted through eKeeper. (Note that the school requires in-person CPR skills assessment.)

**Infection Control:** One of the consequences of the delivery of health care is the possibility of contracting an infectious disease such as tuberculosis, hepatitis, HIV, or herpes. To minimize this risk, the school has adopted an Infection Control Policy that requires the wearing of a clinical overgarment, disposable gloves, a mask, and protective eye covering when oral examinations and dental procedures are being performed. **NOTE:** COVID-19 has adjusted these requirements and additional Personal Protective Equipment (PPE) may be required.

### Infectious Disease Status

Students engaged in patient care activities are required to know their tuberculosis and hepatitis B (HBV) status, and are encouraged to learn their hepatitis C (HCV) and HIV status. State regulations require health care workers, including students, who perform surgical or dental procedures or who assist in such procedures in a way that may result in an exposure of patients to their blood, and who know themselves to be infected with HIV or HBV, to report their status to the state health director. See UNC's policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131793>).

### Late Registration

University regulations require students who do not register before the first day of classes in any semester or summer session to pay an additional fee of \$20 for delayed registration. Any student who believes

that she/he can show sufficient justification for the delay may petition for a refund by completing a form, which can be found online (<https://registrar.unc.edu/guide/registration-policies/late-fee-refund-petition/>), and outlining the reason for delay. This form must bear the approval of the dean of the UNC Adams School of Dentistry.

## Awarding of Degrees and Certificates

To be awarded a degree or certificate, students must satisfactorily complete all requirements of their respective program.

## Class and Clinic Attendance

Regular class and clinic attendance is a student obligation. No right or privilege exists that permits a student to be absent from any given number of sessions.

## Patient Care Responsibilities

Students are granted the privilege of participating in the patient care system of the UNC Adams School of Dentistry and are expected to provide care consistent with our person-centered philosophy. Patients are a central part of the health care team and are involved in the planning of their care. It is the responsibility of the dental student to provide patients with the information needed so they make informed decisions about their treatment. The dental student has the responsibility to provide high-quality, evidence-based care to all their assigned patients in a timely manner and to uphold the ethical responsibilities as outlined in the school's Code of Professional Conduct and its Technical Standards.

Current academic policies and procedures can be found online. (<https://policies.unc.edu/TDClient/2833/Portal/KB/?CategoryID=21536>) However, policies are subject to change at any time. The manual provides guidelines for governing the School of Dentistry educational programs and advises students, faculty, and staff of academic policies and procedures related to the respective programs.

## School of Education

### Introduction

The School of Education is committed to the preparation of candidates who can assume leadership roles in the field of education. Such preparation is accomplished through the coherent integration of the abilities and predispositions of candidates, the knowledge and abilities of faculty members, and the contextual elements of academic and field settings. The growth and development of candidates is promoted through curriculum, instruction, research, field experiences, clinical practice, assessments, evaluations, and interactions with faculty members and peers. All of these elements work together to build a solid foundation for exemplary practices in education.

### Programs of Study

Students are subject to the requirements in place when they are admitted to the School of Education; consequently, the requirements for approved programs described in this catalog particularly apply to students admitted to the school during the 2023–2024 academic year.

### Advising

To best facilitate completion of all degree requirements students are strongly encouraged to meet with an academic advisor every semester.

The School of Education's director of advising, Sarah Rowe, meets with students who are interested in or admitted to any of the School of Education's undergraduate programs. Students interested in making an advising appointment can contact Mrs. Rowe ([sarahrowe@unc.edu](mailto:sarahrowe@unc.edu)). Based on a student's academic program, he or she may also need to continue to meet with an advisor in the College of Arts and Sciences.

## Admission to the School of Education Human Development and Family Studies

Admission to the human development and family studies major (p. 1085) is required and offered every semester. Admission is based on, but

not limited to, a 2.5 grade point average, good academic standing, expressed interest in the helping professions, and space available. For more information, please visit the School of Education website (<https://ed.unc.edu/academics/programs/human-development-and-family-science/>).

## Human and Organizational Leadership Development

Admission to the human and organizational leadership development major (<https://catalog.unc.edu/undergraduate/programs-study/human-org-leadership-ba/>) is required and offered every semester. Admission is based on, but not limited to, a 2.5 grade point average, good academic standing, expressed interest in the field, and space available. For more information, please visit the School of Education website (<https://ed.unc.edu/academics/programs/human-organizational-leadership-and-development/>).

## Education Minor

The undergraduate minor in education is appropriate for undergraduate students interested in furthering their knowledge of education as a means of career development or to enhance their understanding of current schooling, community, and policy directions.

To declare a minor in education, you must see an advisor within the School of Education or the College of Arts & Sciences. During the declaration appointment, your advisor will review with you the requirements for the minor. If it is feasible for you to complete the minor within the eight-semester limit, you and your advisor will complete a declaration form to get you declared.

For more information, please visit the School of Education website (<http://soe.unc.edu/academics/education-minor/>).

## UNC Baccalaureate Education in Science and Teaching (UNC-BEST)

UNC-BEST is a collaboration between the School of Education and the College of Arts and Sciences (<http://college.unc.edu/>). This innovative program offers undergraduate science and mathematics majors the opportunity to complete requirements for a bachelor of arts or bachelor of science and obtain licensure as a secondary science or mathematics teacher in North Carolina in four years. Students will be prepared for N.C. licensure in either mathematics (9–12) or comprehensive science (9–12).

### UNC-BEST Admissions Requirements

- Math or science (biology, chemistry, geological sciences, environmental studies/science and physics) major
- Minimum 2.7 GPA
- SAT or ACT score requirements\*  
*SAT: Math–550, Reading–550, 1100 Combined*  
*ACT: Math 24, English–24, 24 Composite*
- Completion of online application

\*Applicants who do not meet the minimum SAT and ACT score requirements can take the Praxis Core Academic Skills for Educators: Score–468 Composite; Reading–156/Writing–162; Math–150

## K–12 Music Education

K–12 Music Education is a collaboration between the School of Education and the Department of Music. This program offers undergraduate bachelor of music (B.M.) students the opportunity to complete requirements for a bachelor of music and obtain licensure as

a K–12 music teacher in North Carolina in four years. Students will be prepared for N.C. licensure in teaching music at the K–12 grade level.

## Music Education Admissions Requirements

- Music major
- Minimum 2.7 GPA
- SAT or ACT score requirements\*  
*SAT: Math–550, Reading–550, 1100 Combined*  
*ACT: Math–24, English–24, 24 Composite*
- Online application which includes:
  - Personal statement (500–750 words describing your interest in teaching, pertinent background experiences, and relevant aspirations)

\*Applicants who do not meet the minimum SAT and ACT score requirements can take the Praxis Core Academic Skills for Educators: Score–468 Composite; Reading–156/Writing–162; Math–150

## Pre-M.A.T. (Early Affiliation to the Master of Arts in Teaching)

The Pre-M.A.T. is an opportunity for UNC–Chapel Hill undergraduates to engage with select M.A.T. coursework, faculty, and staff in order to pre-plan their intended entry into the Master of Arts in Teaching (M.A.T.) upon graduation. While joining the Pre-M.A.T. is not a requirement to be considered for admission to the M.A.T., there are many benefits of joining, which include:

- M.A.T. prerequisite advising/course planning with a School of Education advisor
- Access to select M.A.T. courses as an undergraduate, which may reduce M.A.T. tuition costs, if the student is admitted
- Opportunity to get to know M.A.T. faculty and current students
- Undergraduate student engagement opportunities related to teaching and learning

Students interested in more information or applying to become a Pre-M.A.T. "early affiliate" can email the School of Education's director of advising and undergraduate student engagement, Sarah Rowe ([sarahrowe@unc.edu](mailto:sarahrowe@unc.edu)).

### Major

- Human Development and Family Science Major, B.A.Ed. (p. 1085)
- Human and Organizational Leadership Development Major, B.A. (p. 1089)

### Minor

- Education Minor (p. 1091)

## Establishing Licensure

At UNC, two undergraduate pathways for coursework prepare students for N.C. teacher licensure: UNC-BEST and K–12 Music Education. While the School of Education does not offer an undergraduate major that leads to N.C. teacher licensure, UNC students have the opportunity to engage with select master of arts in teaching (M.A.T.) coursework in order to pre-plan their intended entry into the M.A.T. upon graduation. Information on the Pre-M.A.T. can be found here (<https://ed.unc.edu/academics/programs/pre-master-of-arts-in-teaching/>) or by contacting the School of Education's director of advising and undergraduate student engagement, Sarah Rowe ([sarahrowe@unc.edu](mailto:sarahrowe@unc.edu)).

North Carolina licensure requirements are distinct from the School of Education's degree requirements. Applications for North Carolina licensure must be submitted through the N.C. Department of Public Instruction's online licensure system by the graduate seeking licensure. Forms are no longer submitted by the UNC School of Education licensure officer. The UNC School of Education licensure officer reviews and either approves or denies all licensure applications routed to UNC through the N.C. Department of Public Instruction online licensure system. More information about applying for N.C. licensure is available on the School of Education website (<https://ed.unc.edu/academics/licensure/>).

The programs described in this catalog are approved by the N.C. Department of Public Instruction, the State Board of Education, and the Council for the Accreditation of Educator Preparation.

## UNC Baccalaureate Education in Science and Teaching (UNC–BEST)

UNC–BEST is a collaboration between the School of Education and the College of Arts and Sciences (<http://college.unc.edu/>). This innovative program offers undergraduate science and mathematics majors the opportunity to complete requirements for a bachelor of arts or bachelor of science and obtain licensure as a secondary science or mathematics teacher in North Carolina. Students will be prepared for N.C. licensure in either mathematics (9–12) or comprehensive science (9–12).

UNC–BEST students are enrolled in their respective major in the College of Arts and Sciences and, once accepted into the UNC–BEST program, complete the requirements to earn North Carolina teaching licensure.

To be recommended for N.C. licensure, UNC–BEST students should consult with their program coordinator, Dr. Cheryl Bolick, regarding edTPA and Praxis testing appropriate to their content area. More information about the testing requirements is available on the School of Education testing website ([http://soe.unc.edu/services/student\\_affairs/testing.php](http://soe.unc.edu/services/student_affairs/testing.php)).

How do people create? How do people learn to be creative? This class will introduce you to the latest scientific understandings of how creativity works. You'll actively engage in the creative process, in four different domains, such as creative writing and music production. We'll connect these experiences to the latest science of how creativity works, in psychology and in other disciplines.

## Human Development and Family Science Major, B.A.Ed.

The mission of the human development and family science (HDFS) program is to promote the well-being of children, youth, and families, in diverse developmental and societal contexts through evidence-based teaching, service, leadership, advocacy, research, and innovation. HDFS prepares students for careers and graduate programs in fields such as education, public health, occupational therapy, speech-language pathology, social work, health services, leadership and nonprofit management, counseling services, and more. The HDFS program offers two optional concentrations: Child and Family Health and Family Life Education. The program also offers the courses needed for the Certified Family Life Educator Credential (CFLE). For more information, please visit the School of Education website (<https://ed.unc.edu/academics/programs/human-development-and-family-science/cfle/>).

Admission to the human development and family science major is required and offered every semester. Admission is based on, but not limited to, a 2.5 grade point average, good academic standing, expressed interest in the helping professions, and space available. For more information, please visit the School of Education website (<https://ed.unc.edu/academics/programs/human-development-and-family-science/>).

Newly admitted students should expect to be enrolled in the HDFS program for a minimum of three full-time semesters in order to meet program course sequencing and milestones. Students interested in studying abroad should meet the SOE director of undergraduate advising and student engagement to discuss a timeline upon admission to the program.

Admitted students must earn a grade of C or better for each course counting to fulfill a degree requirement within the HDFS major. If a student earns a grade of C- or lower in a course, it will not satisfy a degree requirement within the HDFS major. The student will need to repeat that course or an equivalent. If a course is repeated, the student can only count the credit hours once when calculating the number of credit hours toward degree.

In the event that a student fails the internship or is dismissed for violating the School of Education, site placement, or the University Code of Ethics, they will be referred to the School of Education Appeals Committee.

Students are subject to the requirements in place when they are admitted to the School of Education; consequently, the requirements for approved programs described in this catalog particularly apply to students admitted to the school during the 2023–2024 academic year.

## Student Learning Outcomes

Upon completion of the human development and family science program, students should be able to:

- (Theories and Human Development) Demonstrate the ability to understand and apply theories about human development and family

relations in the physical, intellectual, cultural, and socioemotional domains.

- (Career/Ethical) Demonstrate both understanding and practical applications of professional behaviors that reflect knowledge about communication and relationship skills, work ethic, and ethical considerations needed to serve individuals, children, and families.
- (Family Dynamics and Diversity) Assess individual and family experiences and dynamics are shaped by diverse cultural backgrounds and perspectives, such as race, ethnicity, sexual identities, ability, socioeconomic status, immigrant status, and urban versus rural settings.
- (Applied Learning – Verbal and Written Applications) Demonstrate the ability to develop resources and initiatives and deliver services using appropriate strategies and technologies to support the well-being of children, families, schools, and communities through presentations, research, and service learning.
- (Research and Evidence-Based Approaches) Understand and apply research to inform education, prevention, intervention, and/or policy efforts related to children and families in diverse contexts.

## Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (course and credit hours) at UNC–Chapel Hill
- earn a C or better in all courses for the HDFS major (core and additional requirements).

For more information, please consult the degree requirements section of the catalog (p. 1241).

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

<sup>1</sup> Must take EDUC 408 prior to enrolling in EDUC 583. Students must see the SOE director of advising for permission to enroll. EDUC 583 must be taken in the semester immediately preceding the internship semester. Students should consider summer internships where feasible to meet program milestones.

<sup>2</sup> During the internship semester, it is preferred that students only take one class with the internship. However, students will be allowed to enroll in up to six credit hours in addition to the required nine credit hour internship course, for a maximum of 15 hours. Students will not be allowed to register for 18 hours. The internship site must be approved by the HDFS program in the semester preceding the internship.

<sup>3</sup> At least 6 of the 12 hours taken to satisfy a concentration must be completed at the University of North Carolina at Chapel Hill.

<sup>4</sup> Students in either concentration may elect to complete courses in the other concentration but can only declare one concentration. For example, a student in the CFH concentration may complete courses in the FLE concentration as part of their general major electives.

## Special Opportunities in Education

### Honors in the School of Education

During the fall semester of the senior year, an honors student in the School of Education participates in the first of a two-course sequence. This first course is an honors thesis class to begin the thesis preparation and writing process. During the spring semester of the senior year the student takes the second course in the honors class sequence. Across the two courses the student completes an honors thesis. In the spring semester there is an oral examination to defend the thesis. The program is limited to students with a minimum cumulative grade point average of 3.3 at the start of the fall semester of the senior year. That is, students

who wish to undertake a senior honors thesis project must have a cumulative GPA of 3.3 or higher in order to begin the project, and must maintain a cumulative GPA of 3.3 or higher through graduation.

## Human and Organizational Leadership Development Major, B.A.

The human and organizational leadership development (HOLD) program prepares graduates to understand, lead, and work effectively with a diverse set of stakeholders in organizations focused on learning and human development. The curriculum provides students with a grounding in the science of learning and adult learning, organizational and leadership theory, quantitative and qualitative social science research methods, and data-informed decision making. Students will gain an insight into learning and development in a broad range of organizations, including businesses, non-profits, and government agencies that are committed to cultivating clients' and workers' capacities. In order to thrive in learning-oriented organizations, students must be skilled

collaborators and communicators, keen observers of social structure and dynamics, as well as careful data consumers and analysts.

Admission to the human and organizational leadership development (HOLD) major is required and offered every semester. Admission is based on, but not limited to, a 2.5 grade point average, good academic standing, expressed interest in the helping professions, and space available. For more information, please visit the School of Education website (<https://ed.unc.edu/academics/programs/human-organizational-leadership-and-development/>).

Newly admitted students should expect to be enrolled in the HOLD program for a minimum of three fulltime semesters in order to meet program course sequencing and milestones. Students interested in studying abroad should meet the SOE director of advising to discuss a timeline upon admission to the program.

Admitted students must earn a grade of C or better for each course counting to fulfill a degree requirement within the HOLD major. If a student earns a grade of C- or lower in a course, it will not satisfy a degree requirement within the HOLD major. The student will need to repeat that course or an equivalent. If a course is repeated, the student can only count the credit hours once when calculating the number of credit hours toward degree.

In the event that a student fails the internship or is dismissed for violating the School of Education, site placement, or the University Code of Ethics, they will be referred to the School of Education Appeals Committee.

Students are subject to the requirements in place when they are admitted to the School of Education; consequently, the requirements for approved programs described in this catalog particularly apply to students admitted to the school during the 2023–2024 academic year.

## Student Learning Outcomes

Upon completion of the human and organizational leadership development program, students should be able to:

- Utilize theory-informed and evidence-based approaches to critically assess and understand organizational and leadership dynamics
- Demonstrate effective skills in collaboration, data analysis, equity-minded leadership, and communication
- Actively engage with diverse stakeholders to improve organizations by cultivating human development

## Requirements

In addition to the program requirements, students must

- attain a final cumulative GPA of at least 2.0
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major course requirements (course and credit hours) at UNC–Chapel Hill
- earn a C or better in all courses for the HOLD major (core and additional requirements).

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

## Education Minor

The undergraduate minor in education is appropriate for undergraduate students interested in furthering their knowledge of education as a means of career development or to enhance their understanding of current schooling, community, and policy directions.

To declare a minor in education, you must see an advisor by appointment. During the declaration appointment, the advisor will review with you the requirements for the minor and determine if you can complete the program within the eight-semester limit.

If you intend to declare a minor in education and have already declared (or intend to declare) a major in human development and family science (HDFS) or human and organizational leadership development (HOLD), only six (6) credit hours can double count for the education minor and the HDFS and HOLD majors.

More information is available on the School of Education's website (<http://soe.unc.edu/academics/education-minor/>).

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC-Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

The minor consists of five courses.

## School of Information and Library Science

### Introduction

The School of Information and Library Science (SILS) was founded in 1931 and is one of the most highly regarded programs of its kind in the nation. The school first offered a minor in information systems in 1997

and initiated a major in information science in 2003. UNC–Chapel Hill is the only university in the state offering a bachelor's degree in information science and is one of only a small number of schools nationwide offering such a program.

Information science is the study of cognitive, social, technological, and organizational roles of information in all its forms. It rests on three foundational pillars:

1. content: the substance of the information being created, communicated, stored, and/or transformed;
2. people who interact with the content as creators of information, recipients of information, or intermediaries in the communication process; and
3. technology used to support the creation, communication, storage, or transformation of the content.

The bachelor of science in information science is designed to prepare its graduates for a variety of careers in the information industry, including information architecture, database design and implementation, Web design and implementation, business systems analyst, and information consulting, as well as for graduate study. The minor in information systems provides students with an understanding of computing, multimedia, electronic information resources, and the Internet that complements their major field of study. Students concentrate their studies in the junior and senior years.

## Advising

The department's director of undergraduate studies and undergraduate student services coordinator work with current and prospective majors by appointment. Further information on courses, undergraduate research opportunities, the honors program, careers, and graduate schools may be obtained from the SILS website (<https://sils.unc.edu/>).

Students who are double majoring are encouraged to meet periodically with an academic advisor in the College of Arts and Sciences. It is the student's responsibility to make sure he or she is making good progress toward completing a second major outside of SILS. Information systems minors should continue to meet with their assigned advisor in their major department.

## Career Opportunities

Career Services at SILS assists individuals in all aspects of career development, including assessing strengths and skill sets, developing a job search strategy, and connecting students and alumni with information professionals in their field.

SILS also works closely with University Career Services and its programs and services, including on-campus recruiting for both summer internships and professional positions. Students are encouraged to take advantage of both the offerings from Handshake as well as targeted events for SILS students.

## Preparing for the Major in Information Science

Students are subject to the requirements in place when they are admitted as a degree-seeking student to the University; consequently, the School of Information and Library Science requirements described in this catalog particularly apply to students admitted to the University during the 2023–2024 academic year.

First-year students and sophomores who plan to apply for the B.S.I.S. must complete the following prerequisites.

Code	Title	Hours
INLS 161	Tools for Information Literacy	3
INLS 201	 Foundations of Information Science	3
MATH 115	 Reasoning with Data: Navigating a Quantitative World	3

Undergraduate students who have completed all prerequisite courses may apply for admission to the major program. Participation is limited, and admission is competitive. Criteria for admission include the candidate's academic record, work and extracurricular experience, and substantive thinking about the role of information in society (and, for applicants to the minor, in their major field). Candidates from a variety of disciplinary backgrounds are sought for the minor. Prior computer experience is not a criterion for admission to the minor.

## Admission

To apply for admission, students must "Apply for Change of Major" in ConnectCarolina. Information regarding the application process is available on the school's website (<http://sils.unc.edu/programs/undergraduate/admissions/>). Applicants are asked to provide the following materials:

- A current résumé, including information about work experience and/or extracurricular activities
- A brief essay (100–300 words) on why you want to pursue an information science (IS) major/minor. More specifically, 1) what experiences led you to realize you would benefit from further education in IS, and 2) how will pursuing an education in IS enable you to achieve your future plans?

Applications for the spring semester are available September 1 through October 1. Applications for the fall semester are available February 1 through March 1. Applications are accepted only during the application windows. No late or paper applications are accepted.

Questions can be addressed to the Undergraduate Student Services Coordinator, School of Information and Library Science, CB# 3360, 107 Manning Hall; or by sending email to [sils-ug@ils.unc.edu](mailto:sils-ug@ils.unc.edu); or by calling (919) 962-0208.

**Rules & Requirements****Requisites:** Prerequisite, INLS 393.**Grading Status:** Pass/Fail.**INLS 500. Human Information Interactions. 3 Credits.**

The behavioral and cognitive activities of those who interact with information, with emphasis on the role of information mediators. How information needs are recognized and resolved; use and dissemination of information.

**Rules & Requirements****Requisites:** Prerequisite, INLS 203 or graduate standing.**Grading Status:** Letter grade.**INLS 501. Information Resources and Services. 3 Credits.**

Analysis, use, and evaluation of information and reference systems, services, and tools for both printed and electronic delivery. Provides a foundation in electronic information search techniques, question negotiation, interviewing, and instruction.

**Rules & Requirements****Grading Status:** Letter grade.**INLS 509. Information Retrieval. 3 Credits.**

Study of information retrieval and question answering techniques, including document classification, retrieval and evaluation techniques, handling of large data collections, and the use of feedback.

**Rules & Requirements****Grading Status:** Letter grade.**Same as:** COMP 487.

**INLS 512. Applications of Natural Language Processing. 3 Credits.**

Students with graduate standing in SILS may take the course without the prerequisite. Explores current and future uses of natural language technologies. Topics vary and may include translation, generation, deception, health informatics, ethics and evaluation, and student-selected areas of interest.

**Rules & Requirements**

**Requisites:** Prerequisites, COMP 110, or 116, and; COMP 210, or 410.

**Grading Status:** Letter grade.

**Same as:** COMP 486.

**INLS 513. Resource Selection and Evaluation. 3 Credits.**

Identification, provision, and evaluation of resources to meet primary needs of clientele in different institutional environments.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 515. Consumer Health Information. 3 Credits.**

Examines concepts of health, health conditions, policy, and information collections and services from social and cultural perspectives. Analysis and design for provision and access to consumer health information services.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 520. Organization of Information. 3 Credits.**

Introduction to the problems and methods of organizing information, including information structures, knowledge schemata, data structures, terminological control, index language functions, and implications for searching.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 523. Introduction to Database Concepts and Applications. 3 Credits.**

Design and implementation of basic database systems. Semantic modeling, relational database theory, including normalization, indexing, and query construction, SQL.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 525. Electronic Records Management. 3 Credits.**

Explores relationships between new information and communication technologies and organizational efforts to define, identify, control, manage, and preserve records. Considers the importance of organizational, institutional and technological factors in determining appropriate recordkeeping strategies.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 530. Young Adult Literature and Related Materials. 3 Credits.**

A survey of print and nonprint library materials particularly suited to the needs of adolescents.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 534. Youth and Technology in Libraries. 3 Credits.**

This course encourages students to explore the array of technologies available to children and adolescents, the issues surrounding the use of technology, the role of care givers, and potential impacts on development.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 539. Going the Last Mile: Information Access for Underserved Populations. 3 Credits.**

In this course we investigate the special challenges of providing information services to marginalized populations in an increasingly digital world.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 540. Building a Personal Digital Library. 3 Credits.**

Students will implement a personal digital LifeTime Library. Topics include creation of a personal digital library, organization of the material, creation of descriptive metadata, management, and sharing of the collection.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 541. Information Visualization. 3 Credits.**

An introduction to information visualization through reading current literature and studying exemplars. The course reviews information visualization techniques, provides a framework for identifying the need for information visualization, and emphasizes interactive electronic visualizations that use freely available tools. Students will construct several visualizations. No programming skills are required.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 550. History of the Book and Other Information Formats. 3 Credits.**

The history of the origin and development of the book in all its formats: clay tablets to electronic. Coverage includes scientific and other scholarly publications, religious works, popular literature, periodicals, and newspapers.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 551. History of Libraries and Other Information-Related Cultural Institutions. 3 Credits.**

The history of cultural institutions related to information from earliest times to the present day. Includes specific institutions, trends in service and facilities, and individuals important in the development of these institutions.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 554. Cultural Institutions. 3 Credits.**

This course will explore cultural institutions—libraries, museums, parks, zoological and botanical gardens, reconstructions and other settings—as lifelong educational environments.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 556. Introduction to Archives and Records Management. 3 Credits.**

Survey of the principles, techniques, and issues in the acquisition, management, and administration of records, manuscripts, archives, and other cultural and documentary resources in paper, electronic, and other media formats.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 558. Principles and Techniques of Storytelling. 3 Credits.**

An overview of storytelling, its historical development, and the presentation and administration of storytelling programs. The class focuses on performance skills merged with theoretical issues.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 560. Programming for Information Science. 3 Credits.**

Introduction to programming and computational concepts. Students will learn to write programs using constructs such as iteration, flow control, variables, functions, and error handling. No programming experience required.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 561. Digital Forensics for Curation of Digital Collections. 3 Credits.**

Students will learn about hardware, software, principles, and methods for capturing and curating digital data that have been stored on removable media (i.e., hard drives, floppy disks, USB memory sticks).

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 570. Intermediate Programming and Data Analysis. 3 Credits.**

Intermediate programming concepts in information processing and data analysis. Students will learn object-oriented programming, data structures, data analysis methods, and information processing techniques in the context of information science topics.

**Rules & Requirements**

**Requisites:** Prerequisite, COMP 110, COMP 116, or INLS 560, or equivalent course.

**Grading Status:** Letter grade.

**INLS 572. Web Development I. 3 Credits.**

Introduction to current technologies, standards, and best practices for front-end web development using HTML, CSS, and JavaScript. Includes coverage of responsive design techniques for the development of websites that render and perform well on various devices.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 573. Mobile Web Development. 1.5 Credits.**

An introduction to techniques and technologies for the development of mobile Web sites and their applications.

**Rules & Requirements**

**Requisites:** Prerequisite, INLS 161.

**Grading Status:** Letter grade.

**INLS 576. Distributed Systems and Administration. 3 Credits.**

Distributed and client/server-based computing. Includes operating system basics, security concerns, and issues and trends in network administration.

**Rules & Requirements**

**Requisites:** Prerequisite, INLS 161 or 461.

**Grading Status:** Letter grade.

**INLS 578. Protocols and Network Management. 3 Credits.**

Network protocols and protocol stacks. Included are discussions of protocol classes, packet filtering, address filtering, network management, and hardware such as protocol analyzers, repeaters, routers, and bridges.

**Rules & Requirements**

**Requisites:** Prerequisite, INLS 161 or 461.

**Grading Status:** Letter grade.

**INLS 581. Research Methods Overview. 3 Credits.**

An introduction to research methods used in information and library science, exploring the design, interpretation, analysis, and application of published research.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 582. Systems Analysis. 3 Credits.**

Introduction to the systems approach to the design and development of information systems. Methods and tools for the analysis and modeling of system functionality (e.g., structured analysis) and data represented in the system (e.g., object-oriented analysis) are studied.

**Rules & Requirements**

**Requisites:** Prerequisite, INLS 382 or graduate standing.

**Grading Status:** Letter grade.

**INLS 584. Information Ethics. 3 Credits.**

An overview of ethical reasoning, followed by discussion of issues most salient to information professionals, e.g., intellectual property, privacy, access/censorship, effects of computerization, and ethical codes of conduct.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 585. Management for Information Professionals. 3 Credits.**

Introduction to management principles and practices for information professionals working in all types of organizations. Topics include planning, budgeting, organizational theory, staffing, leadership, organizational change and evaluation, and decision making.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 586. Project Management. 1.5 Credits.**

Strategies and skills needed to effectively manage projects, integrating project management theory with best practices in different organizational perspectives. Individual and team assignments include readings and case studies.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 609. Experimental Information Retrieval. 3 Credits.**

This course takes an in-depth look at experimental information retrieval systems that focus on different search tasks and are evaluated in community-wide evaluation forums such as TREC and INEX.

**Rules & Requirements**

**Requisites:** Prerequisite, INLS 509.

**Grading Status:** Letter grade.

**INLS 613. Text Mining. 3 Credits.**

This course will allow the student to develop a general understanding of knowledge discovery and gain a specific understanding of text mining. Students will become familiar with both the theoretical and practical aspects of text mining and develop a proficiency with data modeling text.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 620. Web Information Organization. 3 Credits.**

Similar programming background needed. Understand the Web as a platform for information organizing systems. Learn how the Web has been designed to be a service platform, data publishing platform, and application platform.

**Rules & Requirements**

**Requisites:** Prerequisites, INLS 520 or 560.

**Grading Status:** Letter grade.

**INLS 621. Personal Information Management. 3 Credits.**

This course focuses on issues in personal information management research and practice, including information organization, human cognition and memory, task continuity across devices, preservation, and the role of technology in personal information management.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 623. Database Systems II: Intermediate Databases. 3 Credits.**

Intermediate-level design and implementation of database systems, building on topics studied in INLS 523. Additional topics include MySQL, indexing, XML, and nontext databases.

**Rules & Requirements**

**Requisites:** Prerequisites, INLS 382 or 582, and 523.

**Grading Status:** Letter grade.

**INLS 624. Policy-Based Data Management. 3 Credits.**

Students will develop policies for managing digital repositories and persistent archives. The rules will be implemented in the integrated Rule-Oriented Data System (iRODS), which organizes and distributes data into shareable collections.

**Rules & Requirements**

**Requisites:** Prerequisite, INLS 461 or COMP 110 or 116.

**Grading Status:** Letter grade.

**INLS 625. Information Analytics. 3 Credits.**

This course introduces analytical techniques to deal with very large data sets. Students will become familiar with predictive modeling, clustering, data mining, and paradigms such as map resource.

**Rules & Requirements**

**Requisites:** Prerequisite, INLS 560; permission of the instructor for students lacking the prerequisite.

**Grading Status:** Letter grade.

**INLS 641. Visual Analytics. 3 Credits.**

This project-based course provides an overview of visual analytics. Material includes foundational concepts and theories, seminal and recent research in the field, and hands-on experience with commonly used technologies. Programming experience strongly recommended.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 651. Audio-Visual Archives Management. 1.5 Credits.**

An introduction to the management of audio, film, and video archives with an emphasis on the history of recording, best practices for preservation and access, and copyright. Through selected readings, lecture, class discussion, assignment, and hands-on demonstration, students will gain an understanding of the history of recording, format identification, storage and handling, philosophy of media preservation, and copyright.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 660. Social Media and Society: A Theoretical and Empirical Overview. 3 Credits.**

Explores the evolution, implications, and complications of social media in multiple spheres of life including sociality, community, politics, power and inequality, education, and information from theoretical and empirical perspectives.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 672. Web Development II. 3 Credits.**

Study of design and implementation of applications using both client and server side configuration and programming. Example topics include PHP, ruby on Rails, and Javascript.

**Rules & Requirements**

**Requisites:** Prerequisite, INLS 572.

**Grading Status:** Letter grade.

**INLS 685. Project Management: Strategy and Applications. 3 Credits.**

This course is a broad introduction to project management principles, tools, and strategies intended for use in a variety of applications. Key topics include project planning tools, project process groups, risk assessment, budgeting/cost estimation, and team management. Through the use of readings, videos, assignments, and forum discussions, students will have the opportunity to demonstrate knowledge and understanding of the strategy behind successful project management and problem resolution.

**Rules & Requirements**

**Grading Status:** Letter grade.

**INLS 690. Intermediate Selected Topics. 1-3 Credits.**

Exploration of a special topic not otherwise covered in the curriculum, at an intermediate level. Previous offering of this course does not predict future availability; new courses may replace these. Topic varies by instructor.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit; may be repeated in the same term for different topics; 9 total credits. 9 total completions.

**Grading Status:** Letter grade.

**INLS 691H. Research Methods in Information Science. 3 Credits.**

Senior standing and permission of the instructor. Restricted to information science majors. An introduction to research methods used in information science. Includes the writing of a research proposal.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** RESEARCH.

**Making Connections Gen Ed:** CI, EE- Mentored Research.

**Grading Status:** Letter grade.

**INLS 692H. Honors Thesis in Information Science. 3 Credits.**

Senior standing and permission of the instructor. Students in the SILS undergraduate honors program engage in independent research and write an honors thesis reporting the research under the supervision of a faculty member. Restricted to information science majors.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** RESEARCH.

**Making Connections Gen Ed:** EE- Mentored Research.

**Grading Status:** Letter grade.

**INLS 696. Study in Information and Library Science. 1-3 Credits.**

Study by an individual student on a special topic under the direction of a specific faculty member. Six credit maximum for master's students. Graduate faculty.

**Rules & Requirements**

**Requisites:** Prerequisite, permission of the instructor.

**Repeat Rules:** May be repeated for credit; may be repeated in the same term for different topics; 6 total credits. 6 total completions.

**Grading Status:** Letter grade.

**INLS 697. Information Science Capstone. 3 Credits.**

Senior standing required. Information science major or minor. Contemporary topics of information science, information systems, information technology, information design, and information management. Assessment of future impact of new developments.

**Rules & Requirements**

**Grading Status:** Letter grade.

## CHIP–Carolina Health Information Program

### Advanced Undergraduate and Graduate-level

**CHIP 400. Digital Health Innovations and Impact. 1.5 Credits.**

In this course, students will be introduced to patient engagement, population health, digital therapies; learn about interoperability standards driving data sharing; review the regulatory bodies defining standards of care, along with understanding the privacy and security laws governing the use of health care data. The course includes a project prototyping and pitching a digital health solution. We will hear from industry experts who will participate as guest lecturers with opportunities for students to ask questions.

**Rules & Requirements**

**Grading Status:** Letter grade.

**CHIP 490. Selected Topics. 1-3 Credits.**

Exploration of an introductory-level special topic not otherwise covered in the curriculum. Previous offerings of these courses do not predict their future availability; new courses may replace these.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit. 9 total credits. 9 total completions.

**Grading Status:** Letter grade.

**CHIP 690. Intermediate Selected Topics. 1-3 Credits.**

Exploration of a special topic not otherwise covered in the curriculum, at an intermediate level. Previous offering of this course does not predict future availability; new courses may replace these. Topic varies by instructor.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit. 9 total credits. 9 total completions.

**Grading Status:** Letter grade.

**CHIP 696. Independent Study in Health Informatics. 1-3 Credits.**

Study by an individual student on a special topic under the direction of a specific faculty member. Six credits maximum for master's students. Graduate faculty. Permission of the instructor.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit. 6 total credits. 6 total completions.

## Information Science Major, B.S.

The bachelor of science in information science is designed to prepare its graduates for a variety of careers in the information industry, including information architecture, database design and implementation, Web design and implementation, business systems analyst, and information consulting, as well as for graduate study.

The information science major integrates the study of the creation and management of information content, the characteristics and needs of the people who create and use information, and the technologies used to support the creation and manipulation of information. Graduating students will

- Understand the many ways in which information can be created, communicated, stored, and/or transformed in order to benefit individuals, organizations, and society

- Possess practical skills for analyzing, processing, and managing information and for developing and managing information systems in our knowledge-based society. They will possess problem-solving and decision-making skills, be able to use information tools effectively, and be able to take a leadership role in our information economy
- Comprehend the value of information and information tools, and their role in society and the economy
- Be prepared to evaluate the role of information in a variety of industries, in different organizational settings, for different populations, and for different purposes
- Maintain a strong sense of the role of information in society, including historical and future roles

Admission (p. 1093) to the program is required.

## Student Learning Outcomes

Upon completion of the information science program, students should be able to:

- Demonstrate knowledge of the many ways in which information can be created, communicated, stored, and/or transformed, in order to benefit individuals, organizations, and society
- Demonstrate practical skills in analyzing, processing, and managing information and developing and managing information systems in a knowledge-based society
- Apply problem-solving and decision-making skills
- Effectively utilize information tools in preparation to taking a leadership role in the information economy
- Recognize the value of information and information tools, and their role in society and the economy
- Evaluate the role of information in a variety of industries, in different organizational settings, for different populations, and for different purposes

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

<sup>H</sup> Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

<sup>F</sup> FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

B.S.I.S. students may take additional INLS electives but are encouraged to acquire a broad education in the liberal arts and sciences.

Students may not select the Pass/Fail option for any of the courses fulfilling requirements for the B.S.I.S. major or for any additional INLS electives, except for INLS 393. INLS 393 is only graded Pass/Fail.

## Special Opportunities in SILS

### Dual Bachelor's–Master's Degree Program

The dual bachelor's–master's program is intended to enable information science majors to obtain both their bachelor's and master's degrees by early planning of an undergraduate program that integrates well with the

graduate degree requirements for either a master's in information science (M.S.I.S.) or a master's in library science (M.S.L.S.).

Applying to the dual-degree program occurs in two steps. First, the student must apply to the B.S.I.S. program with intent to pursue the dual degree. The student must apply to the master's program in the sixth, seventh, or eighth semester of undergraduate study. For admission to study at the master's level in the fall semester, students should meet the application deadline in the prior spring, and for admission in the spring semester, the prior fall. In other words, students must apply in time to be continually enrolled, with no "gap" semester. The curriculum for the dual degree can be found on the SILS website (<http://sils.unc.edu/programs/bs-ms/curriculum/>).

Up to 12 credit hours of information science coursework taken while an undergraduate can be applied to the master's degree if the coursework is not also used to satisfy the graduation requirements for the bachelor's degree. The requirements for the master's degree can be found in the *Graduate Catalog*.

Students interested in the dual-degree program are strongly advised to consult the director of undergraduate studies or the undergraduate student services coordinator at SILS in their sophomore year to discuss eligibility and an appropriate plan of study.

## Honors in Information Science

An honors program is available to information science majors who have demonstrated the ability to perform distinguished work. The honors thesis allows exceptional students in the undergraduate major to demonstrate the ability to treat a problem in a substantial and scholarly way. Students write an honors thesis on a topic related to information science and defend it before a faculty committee. They may graduate with honors or highest honors.

The honors program consists of two courses: INLS 691H and INLS 692H.

INLS 691H will be taken in the fall of the senior year. In this course, each student selects a research topic of interest, learns about research methods, and writes a research proposal. Assuming satisfactory completion of INLS 691H, students register for INLS 692H in the spring of their senior year. The student and advisor meet regularly to discuss the student's research and writing. The second reader for the thesis, identified jointly by the student and advisor, is chosen by the end of January. The director of the SILS honors program is the third reader. Refer to Honors Carolina for official due dates. The final approved thesis must be submitted electronically via the Carolina Digital Repository (CDR).

Students may apply for the honors program in the spring of their junior year. The requirements for conducting an honors thesis in information science include having taken at least four INLS courses, including two numbered above 299, and having a total INLS grade point average of at least 3.5. The student should have an overall grade point average of at least 3.3. Enrolling in INLS 692H is contingent on completing INLS 691H with a grade of A- or higher.

Students who complete a high-quality thesis will graduate with honors; those whose thesis is exceptional will graduate with highest honors.

## Facilities/Resources

SILS maintains a combined specialized library and computer laboratory with ample seating for student collaborative work. The SILS Library is part of the UNC–Chapel Hill Academic Affairs Library System, and its collections are available for use in the library by all interested persons. The current collection consists of over 100,000 volumes and several

hundred serials titles. The SILS computer laboratory is located in the school's Information Technology and Resource Center in Manning Hall and is available to students enrolled in SILS courses and programs. More than 40 PCs are available for student use, with space for use of student laptops in a wireless environment. A large selection of software is available, including data management, word processing, publishing, statistical analysis, Internet tools, graphics, development tools, multimedia, etc. Student assistants staff the help desk and are available to check out equipment and to answer questions.

SILS students also have access to a small student lounge in Manning Hall.

## Field Experience

As a professional school at UNC–Chapel Hill, we encourage students to use the technical and theoretical knowledge they gain in the classroom in professional settings. Many SILS students participate in field experiences (INLS 393) whereby they gain experience in a setting of the student's choosing.

Students must spend 135 hours with the site, attend field experience seminars, and produce a short paper for their field experience faculty advisor. Students are eligible for field experiences once they have junior status and three INLS courses: INLS 161, INLS 201, and INLS 382. Field experiences can be taken in any semester, including the summer, and can be in any information setting.

## Student Involvement

Undergraduate students are encouraged to participate in ILSSA (Information and Library Science Student Association). All of the school's standing committees have student representation. In addition, students may participate in professional associations in information and library science, including the student chapters of the Association for Information Science and Technology (ASIS&T), the Student Chapter of the American Library Association (SCALA), Special Libraries Association (SLA), the Art and Museum Library and Information Student Society (AMLISS), the Student Chapter of the Society of American Archivists (SCOSAA), and Checked Out: SILS Diversity.

## Study Abroad

SILS has formal study abroad agreements with seven information schools in the Czech Republic, Singapore, Denmark, South Korea, Chile, Spain, and Ireland. Students can spend a summer, semester, or year studying abroad to earn course credit toward their information science major or information systems minor. The exchanges are administered through the UNC Study Abroad Office but are managed by SILS. Credit transfer should be confirmed with SILS before beginning the exchange. In addition, UNC–Chapel Hill has formal university ties with approximately 75 other universities – many of them with library and information science schools. SILS also offers short-term summer seminars in various locations. These programs are two weeks in length and offer an in-depth view on information science. Students who wish to enjoy an international experience while studying at SILS are encouraged to talk with the SILS international programs coordinator.

## Undergraduate Awards

Two scholarships of \$1,000 each are awarded to newly admitted undergraduates in the spring and fall. Undergraduates completing an honors thesis are eligible to apply for a Carnegie Grant. This award of up to \$200 may be used to offset any costs that might occur during their research.

## Undergraduate Research

Undergraduates enrolled in the honors program conduct research as part of the completion of their honors thesis. Students not in the honors program may also take advantage of a number of opportunities to participate in research with faculty members.

## Information Systems Minor

The undergraduate minor in information systems provides students with an understanding of computing, networking, multimedia, electronic information resources, and the Internet and can be used to solve problems in a variety of contexts. The minor complements the student's

major field of study by offering knowledge, skills, and experience using these information technologies.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

The undergraduate minor in information systems requires 15 credits of approved courses.

## Hussman School of Journalism and Media

### Introduction

The Hussman School of Journalism and Media was founded as the Department of Journalism in 1924 and became the School of Journalism in 1950. The school has been accredited by the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC) since 1958.

The school offers a course of study leading to a bachelor of arts in media and journalism or a minor in media and journalism.

Today, more than 10,000 of the school's alumni are active in every aspect of media and journalism. They hold high positions with newspapers, international news agencies, magazines, Internet companies, broadcasting companies, and advertising agencies; in public relations, marketing, branding, business journalism, photo and video journalism, and graphic design; and in research, government, education, and industry.

### Advising

For students who have been accepted to the Hussman School of Journalism and Media, advising is available year-round by appointment and on a walk-in basis in the Undergraduate Hub in Carroll Hall. See the school's website (<http://hussman.unc.edu/ug/student-services/>)

academicadvising/) for details. Students are strongly encouraged to meet regularly with an advisor. Advising for College of Arts and Sciences second majors is available by appointment in Academic Advising, located in Steele Building.

## Graduate School

The school offers residential master's and doctoral degrees in media and communication, and an online master's degree in digital communication. Residential graduate courses are open to graduate students in other fields. For further information about the graduate programs, see the school's website (<http://hussman.unc.edu/grad/>).

## Career Opportunities

The school operates a Career Services Office (located in the Undergraduate Hub in Carroll Hall), which is designed to fit the right graduating senior (or alumnus or alumna) with the right job. Students in the school are also encouraged to use University Career Services.

## Contact Information

Information is available from the Undergraduate Hub in Carroll Hall, from the Dean's Office in 117 Carroll Hall, or from the senior associate dean for undergraduate studies. Current and prospective students will also find the school's website (<http://hussman.unc.edu/>) helpful. A weekly newsletter is sent by email to media and journalism majors and predeclared majors during the academic year. Contact the undergraduate hub coordinator to be added to the listserv.

## Admission to the School

Students are subject to the requirements in place when they are admitted to the University of North Carolina at Chapel Hill. The requirements described in this catalog particularly apply to students admitted to the University during the 2023–2024 academic year.

It is highly recommended that students interested in the school pre-declare their primary major as media and journalism (as early as possible) with a concentration in either advertising/public relations or journalism.

Students typically apply to the school when they attain sophomore standing with a total of 45 or more completed hours and have completed most of the requirements of the General College on the Chapel Hill campus or have earned grades of C or better in equivalent courses at other recognized institutions.

## Transfer Admission

Because the University limits the number of transfer students from other institutions, transfer applicants compete for admission to the school on the basis of grade point averages and other academic credentials, and factors including commitment to a career in journalism and media and letters of recommendation. The Office of Undergraduate Admissions makes the final decision on admitting transfer students, in consultation with the school.

## Preparation for the Major

Students should take Writing and Reporting (MEJO 153) and Introduction to Digital Storytelling (MEJO 121) by the first semester of their sophomore year. Students who are pursuing advertising/public relations should also take Principles of Advertising and Public Relations (MEJO 137). The Media Revolution: From Gutenberg to Zuckerberg and

Beyond (MEJO 101) is open to first-year students and sophomores who want to explore the major. Many courses require prerequisites and are restricted to majors only.

## Media and Journalism Major, B.A.

The Hussman School of Journalism and Media prepares students for careers in journalism and media by offering an academic program that provides a basic liberal arts education, an understanding of the responsibilities of a free press and the role of free speech in a democratic society, and a fundamental knowledge of journalistic and media techniques and substance.

The philosophy that guides the school is that journalists and communicators must understand the political, social, economic, and cultural forces that operate within society. For this reason, students acquire a background in the humanities, social sciences, and natural sciences while preparing themselves for journalism and media careers.

### Student Learning Outcomes

Upon completion of the media and journalism program, students should be able to:

- Understand and apply the principles and laws of freedom of speech and press, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances.
- Demonstrate an understanding of the history and role of professionals and institutions in shaping communications.
- Demonstrate an understanding of gender, race, ethnicity, sexual orientation, and as appropriate, other forms of diversity in domestic society in relation to journalism and media.
- Demonstrate an understanding of the diversity of peoples and cultures and of the significance and impact of communications in a global society.
- Understand concepts and apply theories in the use and presentation of images and information.
- Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness, and diversity.
- Think critically, creatively and independently.

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

<sup>H</sup> Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

- F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

Students are expected to gain a depth of knowledge of a topic outside the school. Our students typically take 72 - 81 hours outside of media and journalism. Completing another major or minor is encouraged but not required.

Students who wish to complete a second major outside the school and who did not declare the second major before being admitted to the school must download a second-major declaration form from the school's website and email it to UNC Hussman Academic Advising (<http://hussman.unc.edu/ug/studentservices/academicadvising/>). They must then meet with an academic adviser in the College of Arts and Sciences (<https://advising.unc.edu/for-faculty/resources/>) to ensure that they can meet all requirements for the second major.

## Requirements in Both Study Areas

The degree earned is a bachelor of arts in media and journalism. Two areas of study are offered: a concentration in advertising/public relations and a concentration in journalism. Areas of study are not noted on the diploma. Some courses are required for all majors in the school, and each area of study has specific course requirements.

Students must complete a minimum of 39 credits in media and journalism with a grade point average of 2.0 or better. A grade of C- or less in a MEJO course will not be counted in the minimum number of media and journalism credits required for graduation; the course must be retaken if it is required for the major. If the course is not specifically required, then another course that meets the requirement the first course was meeting may be taken in its stead. During a student's senior year, they must complete a capstone course specific to their area of study. MEJO 393 cannot be counted in the minimum of 39 credit hours required but will count in the total 120-credit hours required by the University. Additionally, students must complete a minimum of six credits to satisfy the school's government/politics as well as ethical and civic values requirements. The school will normally accept only six credit hours of media and journalism courses taken at other institutions. The school typically does not accept transfer credit for MEJO 153.

More than perhaps any other field, media and journalism requires a strong foundation in word usage, grammar, punctuation, and other writing skills. Students must score at least 70 percent on the school's usage and grammar examination as a condition for graduation. The examination is administered several times throughout the academic year as well as during the summer.

Students are responsible for monitoring their Tar Heel Tracker and are encouraged to consult with an adviser in the school at least once a semester to ensure that they are on track to fulfill all graduation requirements. Specific information about graduation requirements, advising, registration, and other procedures is also available on the school's website (<http://hussman.unc.edu/>).

The school cannot guarantee that courses needed to satisfy a student's degree requirements will be offered during summer school. Students who plan to complete degree requirements in summer school should be aware that low enrollments sometimes force the school to cancel certain courses or sections during either or both summer sessions.

Please check the course list below or ConnectCarolina (<https://connectcarolina.unc.edu/>) for prerequisite information for MEJO courses.

## Media and Journalism Major, B.A. – Journalism

The journalism curriculum is for students who seek to collect, prepare, and distribute news aimed at informing the public and promoting transparency and accountability in government and society. Students study and can specialize in various content channels including print, broadcast, digital and interactive. Students create work that adheres to ethical principles of accuracy, fairness and responsibility.

Journalism students should take MEJO 121 and MEJO 153 before enrolling in a Level 1, Level 2, or Level 3 course.

## Special Opportunities in Media and Journalism

### Honors in Media and Journalism

An honors program is available to students who have demonstrated their ability to perform distinguished work. Invitation to the senior-level honors courses (MEJO 691H and MEJO 692H) is based upon a grade point average of 3.5 or better in the major and 3.3 overall, recommendation by a faculty member in the school, and approval by the director of the honors program. Students successfully completing the program graduate with honors or with highest honors.

### Student Involvement

Students are encouraged to work on campus publications and programs such as *The Daily Tar Heel*, *Black Ink*, and the Her Campus website (<https://www.hercampus.com/school/chapel-hill/>), among others. The school also offers a number of opportunities to gain professional experience including "Carolina Week," "Carolina Connection," "Sports Xtra," Reese Innovation Lab, and Heelprint Communications. Students are also encouraged to join appropriate professional organizations, including campus chapters of the Society of Professional Journalists,

American Advertising Federation, Public Relations Student Society of America, Carolina Association of Black Journalists (affiliated with the National Association of Black Journalists), Radio Television Digital News Association, Society for News Design, National Press Photographers Association, Carolina Association of Future Magazine Editors, National Association of Hispanic Journalists, and SABEW.

### Internships

The school strongly encourages students to obtain internships because they provide invaluable professional experience. Reporting, advertising, photo and video journalism, graphic design, broadcast news, public relations, business, and other internships are possible. Majors can enroll in MEJO 393 to receive internship credit (one credit hour, repeatable three times). MEJO 393 fulfills the experiential education General Education requirement (in the Making Connections curriculum). The school's career services staff oversees internship credit. MEJO 393 cannot be counted in the minimum of 39 credit hours required by the school, but it will count in the total 120 credit hours required by the University. MEJO 153 is a prerequisite.

### Study Abroad

Students are encouraged to study abroad. In addition to the programs available to all UNC students through the UNC Study Abroad Office, the school has its own study abroad exchanges with top media and journalism schools in Argentina, Chile, Hong Kong, London, and Spain. Students should consult with the school's study abroad advisors (located in the Undergraduate Hub in Carroll Hall) to determine any media and journalism course credit prior to the study abroad term.

### Undergraduate Scholarships

Many special scholarships and awards are available to media and journalism majors and to students transferring into the school. For information, see the school's website (<http://hussman.unc.edu/funding/>).

### Undergraduate Research

Some undergraduates participate in research through a research pool that assists faculty members in their research and creative activities, through independent studies with faculty members to work on specific projects, and through the school's honors program, which engages the student in substantive research that culminates in a thesis in the senior year.

## Media and Journalism Minor

Students from outside the school may earn a minor in media and journalism. Areas of study in advertising/public relations and journalism are available. Preference is given to students who have already taken multiple journalism and media courses.

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

Students must choose one of the following areas of study and complete at least 15 credit hours with C grades or better in MEJO courses taken at UNC–Chapel Hill. Students are required to meet any prerequisite for the course they select.

Minors are not required to pass the school's usage and grammar exam.

## Certificate Programs in Media and Journalism

A certificate signifying a concentration of three or more courses in a related field of study is noted on a student's transcript. A limited number of students (within and outside the school) are admitted to each program.

### Certificate in Business Journalism

The certificate in business journalism is offered for students within and outside the school interested in a career in business reporting or editing as well as for students interested in careers in corporate communication and corporate advertising. Students must complete three courses (nine credit hours) to receive the certificate.

Additional information, including application and program requirements, can be found on the school's website (<http://hussman.unc.edu/ug/special-programs/#CERT>).

## Certificate in Health Communication and Marketing

This three-course certificate program prepares UNC Hussman undergraduate students majoring in advertising and public relations for careers in the healthcare industry - including jobs in the pharmaceutical, hospital, health insurance, agency, non-profit organizations and public health sectors. Students will develop subject matter expertise and interact with industry representatives, receiving a competitive advantage when entering the job market upon graduation.

Students should apply for the certificate program in their sophomore or junior years, in time to participate in an internship for the summer before their senior year.

Additional information, including application and program requirements, can be found on the school's website (<http://hussman.unc.edu/ug/special-programs/#CERT>).

## School of Medicine

WESLEY BURKS, *Dean*

Stephen R. Hooper, *Associate Dean and Chair, Department of Health Sciences*

The Department of Health Sciences in the UNC School of Medicine offer two professional majors to undergraduate students: the bachelor of science degree with a major in clinical laboratory science (p. 1126) and the bachelor of science degree with a major in radiologic science (p. 1133). Students must apply for admission to these programs, usually in the sophomore year; admission is competitive. Following completion of the first two years' work in the University's General College, admitted students complete their final two years in clinical laboratory science or radiologic science.

In addition, the Division of Speech and Hearing Sciences offers a minor in speech and hearing sciences (p. 1136) for undergraduate students interested in pursuing a graduate degree in speech-language pathology or audiology.

## Division of Clinical Laboratory Science

### Introduction

Clinical laboratory science (CLS), also called "medical laboratory science," is the health profession that provides laboratory information and services needed for the diagnosis and treatment of disease. The field of clinical laboratory science combines many sciences, including microbiology, hematology, chemistry, molecular biology and immunology. Clinical laboratory scientists perform a variety of laboratory tests, ensure the accuracy of the test results, explain the significance of laboratory test results, and evaluate new methods for laboratory tests. Some of the tests

performed in the clinical laboratory are relatively simple. Others, such as DNA analysis and flow cell cytometry, are complex and require extensive education.

Examples of laboratory tests performed by clinical laboratory scientists include

- Detection of the abnormal cells that cause leukemia
- Analysis of cardiac enzyme activity released during a heart attack
- Identification of the type of bacteria causing an infection
- Analysis of the coagulation factors in cases of abnormal bleeding
- Detection of blood group antibodies that cause transfusion reactions
- Analysis of genetic markers for cystic fibrosis
- Typing patients for histocompatibility matches prior to transplantation

### Admission to the Program

A maximum of 20 students are chosen for admission each year. Students are selected on the basis of science and mathematics prerequisite courses, grades, a written application, interviews, and letters of recommendation. Successful completion of the prerequisite courses listed under the major does not guarantee admission to the program. Because enrollment is limited, students are encouraged to begin the application process early in the fall preceding the year of enrollment. The first deadline for completed applications is the second Tuesday in January. Completed applications received after that deadline will be considered for admission if positions are available in the program.

Students are subject to the requirements in place when they are admitted to this program; consequently, the requirements described in this catalog particularly apply to students admitted during the 2023–2024 academic year.

### Advising

First-year and sophomore students interested in the clinical laboratory science (CLS) major have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The director of the Division of Clinical Laboratory Science is available to meet with current and prospective majors by appointment (see contact information above). The Division of Clinical Laboratory Science provides academic advising for students who are enrolled in the program. Further information on the curriculum may be obtained from the division's website (<https://www.med.unc.edu/ahs/clinical/>).

### Facilities

The laboratory facility for first-year clinical laboratory science courses includes individualized work areas with reagents, supplies, and laboratory instruments for students. In senior courses, students develop their skills in state-of-the-art clinical laboratory facilities.

### Graduate School and Career Opportunities

Clinical laboratory science provides a basis for a broad range of future endeavors. Graduates with a B.S. degree in clinical laboratory science can elect to pursue further study in medicine, dentistry, veterinary medicine, business or management, hospital administration, computer science, education, clinical chemistry, clinical microbiology, immunology, or another laboratory science area. The Division of Clinical Laboratory Science also offers a master's degree in clinical laboratory science.

Clinical laboratory scientists are employed in hospital laboratories, commercial laboratories, physicians' office laboratories, research institutes, clinical trials, and forensic laboratories. Clinical laboratory scientists also may be employed as technical or sales representatives for corporations. Graduates of the program are very successful on national certification exams and enjoy high employment rates. See the alumni section of the website (<https://www.med.unc.edu/ahs/clinical/>) for examples of careers in clinical laboratory science.

## CLSC—Clinical Laboratory Science Undergraduate-level

### CLSC 150. Current Topics in Clinical Laboratory Medicine. 1 Credits.

A survey of topics in laboratory medicine including transfusions, forensic science, infectious diseases, and hematologic diseases.

#### Rules & Requirements

**Grading Status:** Pass/Fail.

### Advanced Undergraduate and Graduate-level

#### CLSC 410. Laboratory Mathematics. 1 Credits.

Permission of the instructor for nonmajors. Basic mathematical principles, calculations, quality assurance, and method validation relevant to the clinical laboratory.

#### Rules & Requirements

**Grading Status:** Letter grade.

#### CLSC 410L. Basic and Molecular Laboratory Methods. 2 Credits.

Majors only. Basic skills associated with the clinical laboratory including pipetting, spectrophotometry, standard curves, dilutions, and immunoassays. Molecular methods include small volume pipetting, microwell plating, nucleic acid extraction, and PCR techniques.

#### Rules & Requirements

**Grading Status:** Letter grade.

#### CLSC 420. Urinalysis and Body Fluids. 1 Credits.

Permission of the instructor for nonmajors. The physical, chemical, and microscopic analysis of body fluids in the clinical laboratory with an emphasis on correlation of laboratory data.

#### Rules & Requirements

**Grading Status:** Letter grade.

#### CLSC 420L. Urinalysis Laboratory. 1 Credits.

For Clinical Laboratory Science majors only. The physical, chemical, and microscopic examination of urine with an emphasis on the correlation of laboratory data.

#### Rules & Requirements

**Grading Status:** Letter grade.

#### CLSC 430. Biochemistry. 3 Credits.

Permission of the instructor for nonmajors. Physiological biochemistry of the metabolic pathways and alterations in selected diseases. Also includes principles and applications of molecular techniques in the clinical laboratory.

#### Rules & Requirements

**Grading Status:** Letter grade.

#### CLSC 440. Hematology I. 2 Credits.

Permission of the instructor for nonmajors. Introduction to normal hematopoiesis, blood cell function and identification, hematologic tests, principles of hemostasis, and hemostasis disorders.

#### Rules & Requirements

**Grading Status:** Letter grade.

#### CLSC 440L. Hematology I Laboratory. 1 Credits.

Permission of the instructor for nonmajors. Basic clinical assays for identification and evaluation of erythrocytes, leukocytes, and platelets with an emphasis on microscopy. Also includes coagulation testing.

#### Rules & Requirements

**Grading Status:** Letter grade.

#### CLSC 442. Hematology II. 3 Credits.

Majors only. Hematologic disorders involving erythrocytes and leukocytes, with an emphasis on the analysis and interpretation of laboratory data.

#### Rules & Requirements

**Grading Status:** Letter grade.

#### CLSC 442L. Hematology II Laboratory. 1 Credits.

Majors only. Microscopic identification and evaluation of abnormal erythrocyte and leukocyte morphology, correlation with other laboratory data, and clinical interpretation.

#### Rules & Requirements

**Grading Status:** Letter grade.

#### CLSC 450. Immunology. 3 Credits.

Permission of the instructor for nonmajors. Basic immunology and serology. Innate and immune body defenses. The development and properties of cellular and humoral elements and their alterations in pathological and other conditions.

#### Rules & Requirements

**Grading Status:** Letter grade.

#### CLSC 460. Special Pathogens. 2 Credits.

Permission of the instructor for nonmajors. Study of clinically significant fungi, parasites, and atypical or unusual bacteria. Correlation of disease, disease transmission, mechanisms of pathogenicity, and diagnostic testing.

#### Rules & Requirements

**Grading Status:** Letter grade.

**CLSC 460L. Parasitology and Mycology Laboratory. 1 Credits.**

Permission of the instructor for nonmajors. Clinical laboratory diagnostic methods for human parasitic and fungal infections. Microscopic morphology of fungal organisms and parasites, including their various life cycle forms.

**Rules & Requirements**

**Grading Status:** Letter grade.

**CLSC 462. Clinical Bacteriology. 3 Credits.**

Majors only. Principles and practice of clinical bacteriology. Study of medically significant bacteria with correlation of human disease, mechanisms of bacterial pathogenicity, and laboratory diagnostics.

**Rules & Requirements**

**Grading Status:** Letter grade.

**CLSC 462L. Clinical Bacteriology Laboratory. 2 Credits.**

Majors only. A comprehensive course describing bacteria that infect humans. Correlation of diseases and pathological mechanisms of bacteria.

**Rules & Requirements**

**Grading Status:** Letter grade.

**CLSC 470. Clinical Chemistry. 3 Credits.**

Majors only. An introduction to the methods of analysis used in the clinical chemistry laboratory. Emphasis on the correlation of chemistry laboratory values with disease states.

**Rules & Requirements**

**Grading Status:** Letter grade.

**CLSC 470L. Clinical Chemistry Laboratory. 2 Credits.**

Majors only. Performance of clinical laboratory assays for significant biochemical molecules. Principles of analysis, quality control, method evaluation, and basic laboratory instrumentation are presented.

**Rules & Requirements**

**Grading Status:** Letter grade.

**CLSC 480. Immunohematology. 3 Credits.**

Majors only. Introduction to blood group serology with an emphasis on the major blood group systems, pretransfusion testing, and antibody identification.

**Rules & Requirements**

**Grading Status:** Letter grade.

**CLSC 480L. Immunohematology Laboratory. 2 Credits.**

Majors only. Laboratory techniques for red cell typing, antibody identification, and pretransfusion testing.

**Rules & Requirements**

**Grading Status:** Letter grade.

**CLSC 540L. Clinical Hematology Laboratory. 4 Credits.**

Majors only. Laboratory rotation in clinical hematology.

**Rules & Requirements**

**Making Connections Gen Ed:** EE- Field Work.

**Requisites:** Prerequisite, CLSC 440.

**Grading Status:** Letter grade.

**CLSC 542L. Clinical Hemostasis Laboratory. 2 Credits.**

Majors only. Laboratory rotation in clinical coagulation.

**Rules & Requirements**

**Requisites:** Prerequisite, CLSC 440.

**Grading Status:** Letter grade.

**CLSC 550L. Clinical Immunology Laboratory. 1 Credits.**

Majors only. Laboratory rotation in clinical immunology.

**Rules & Requirements**

**Requisites:** Prerequisite, CLSC 450.

**Grading Status:** Letter grade.

**CLSC 560L. Clinical Microbiology Laboratory. 4 Credits.**

Majors only. Laboratory rotation in clinical microbiology.

**Rules & Requirements**

**Requisites:** Prerequisite, CLSC 462.

**Grading Status:** Letter grade.

**CLSC 570L. Clinical Chemistry Laboratory Rotation. 4 Credits.**

Majors only. Laboratory rotation in clinical chemistry.

**Rules & Requirements**

**Requisites:** Prerequisite, CLSC 470.

**Grading Status:** Letter grade.

 **CLSC 580L. Clinical Immunohematology Laboratory. 4 Credits.**

Laboratory rotation in clinical immunohematology. Majors only.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** HI-INTERN.

**Making Connections Gen Ed:** EE- Field Work.

**Requisites:** Prerequisites, CLSC 480 and 480L.

**Grading Status:** Letter grade.

**CLSC 582L. Clinical Transplantation Medicine Laboratory. 1 Credits.**

Majors only. Clinical rotation in histocompatibility, flow cytometry, and hematopoietic progenitor cell laboratories.

**Rules & Requirements**

**Requisites:** Prerequisite, CLSC 480.

**Grading Status:** Letter grade.

**CLSC 620. Clinical Laboratory Management. 2 Credits.**

Majors only. Foundation in the technical and nontechnical aspects of supervision and management of clinical laboratory testing.

**Rules & Requirements**

**Grading Status:** Letter grade.

 **CLSC 630. Research Methods in Clinical Laboratory Science. 2 Credits.**

Majors only. An overview of the knowledge of research design and methods commonly used in the clinical laboratory research arena, providing the basis for the critical examination of professional literature.

**Rules & Requirements**

 **IDEAs in Action Gen Ed:** RESEARCH.

**Making Connections Gen Ed:** CI.

**Grading Status:** Letter grade.

**CLSC 670. Clinical Laboratory Science Educational Methods. 2****Credits.**

Majors only. Introduction to the basic principles of clinical laboratory education, including objectives, learning formats, test development, and clinical teaching.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** COMMBEYOND.

**Grading Status:** Letter grade.

**CLSC 695. Undergraduate Research in Clinical Laboratory Science. 3****Credits.**

This mentored and self-directed course provides students with research experience in the clinical laboratory field. Students will apply knowledge of research methods to generate results and communicate results to others. This is a clinical laboratory science elective course. Seniors only.

**Rules & Requirements**

**Requisites:** Prerequisite, CLSC 630 or CLSC 730.

**Grading Status:** Pass/Fail.

## Clinical Laboratory Science Major, B.S.

Clinical laboratory science (CLS), also called “medical laboratory science,” is the health profession that provides laboratory information and services needed for the diagnosis and treatment of disease. The field of clinical laboratory science combines many sciences, including microbiology, hematology, chemistry, molecular biology and immunology. Clinical laboratory scientists perform a variety of laboratory tests, ensure the accuracy of the test results, explain the significance of laboratory test results, and evaluate new methods for laboratory tests. Some of the tests performed in the clinical laboratory are relatively simple. Others, such as DNA analysis and flow cell cytometry, are complex and require extensive education.

Admission (p. 1123) to the program is required.

## Student Learning Outcomes

Upon completion of the Clinical Laboratory Science program, students should be able to:

- Perform and evaluate pre-analytical, analytical, and post-analytical procedures to ensure the quality of laboratory results
- Perform laboratory tests, analyze and verify results, and resolve common problems in all the major areas of the clinical laboratory

- Explain the principles and methods used in laboratory tests in all major areas of the clinical laboratory
- Explain the clinical significance of laboratory procedures in diagnosis and treatment of disease and maintenance of health
- Correlate information from different laboratory departments to verify results or resolve problems
- Evaluate patient results and suggest or select appropriate additional testing
- Determine the priority of laboratory requests and arrange the workload for optimal patient care and efficiency
- Obtain acceptable blood samples for laboratory tests using standard phlebotomy procedures
- Use quality assurance principles and practices to ensure the accuracy and reliability of laboratory information
- Perform preventive and corrective maintenance of equipment and instruments
- Use the principles of method evaluation to select new techniques and instruments
- Explain and apply the major principles and practices of laboratory administration, supervision, and budgeting
- Explain and apply principles of effective test utilization
- Comply with all standard safety regulations and monitor changes in safety regulations
- Use educational methods to present information and develop instructional materials
- Use computer systems to produce documents, research information, communicate with others, and enter and retrieve laboratory information
- Apply principles of management to the acquisition and evaluation of laboratory information systems
- Communicate effectively with laboratory personnel, other health care professionals, patients, and the public
- Demonstrate professional conduct and interpersonal skills with patients, laboratory personnel, other health care professionals, and the public
- Demonstrate ethical standards in all matters related to medical information and patient care

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

The schedule of academic work for clinical laboratory science majors includes the following General Education requirements. Students must complete all First-Year Foundation requirements, all Reflection & Integration requirements, and complete at least six Focus Capacity requirements as part of the IDEAs in Action General Education

curriculum. In addition, the following prerequisite courses must be completed before entering the Clinical Laboratory Science program:

Code	Title	Hours
<b>Additional Requirements</b>		
BIOL 101 & 101L	 Principles of Biology and  Introductory Biology Laboratory <sup>H, F</sup>	4

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

After admission (p. 1129) to the CLS program, students take courses in all the major areas of clinical laboratory science including clinical chemistry, hematology, hemostasis, microbiology, transfusion medicine, and transplantation medicine. Senior students rotate through the clinical laboratories at UNC Hospitals and other laboratories in the state. They also take advanced courses in the clinical laboratory sciences. Honors contracts are available for students in the Honors program.

## Sample Plan of Study

Sample plans can be used as a guide to identify the courses required to complete the major and other requirements needed for degree completion within the expected eight semesters. The actual degree plan may differ depending on the course of study selected (second major, minor, etc.). Students should meet with their academic advisor to create a degree plan that is specific and unique to their interests. The sample plans represented in this catalog are intended for first-year students entering UNC–Chapel Hill in the fall term. Some courses may not be offered every term.

In the first and sophomore years, clinical laboratory science majors satisfy General Education requirements and take a basic science curriculum comparable to that of other science students. In the sophomore year, students apply for admission (p. 1123) into the final two years of the program.

The junior year includes courses that cover the principal areas of clinical laboratory science. Students also learn and practice laboratory techniques in a student laboratory. Senior students rotate through the clinical laboratories at UNC Hospitals and other laboratories in the state. They also take advanced courses in the clinical laboratory sciences.

The suggested course sequence for the required preclinical laboratory science courses at UNC–Chapel Hill is listed below. Transfer students receiving placement credit may have a slightly different sequence.

## Special Opportunities in Clinical Laboratory Science

### Departmental Involvement

Student ambassadors in the Department of Allied Health Sciences organize students' professional activities and social events. The CLS Service Society provides opportunities for students to work together to promote the CLS profession and provide services to the community.

### Experiential Education

Senior clinical courses provide a range of clinical laboratory experience in chemistry, hematology, hemostasis, microbiology, transfusion medicine, immunology, histocompatibility, and molecular testing.

### Certification

Upon successful completion of the clinical laboratory science curriculum, graduates receive the B.S. degree with a major in clinical laboratory science. A certificate also is awarded by the Division of Clinical Laboratory Science and the Department of Allied Health Sciences.

Graduates of the program are eligible to take the national certification examination in medical laboratory science.

## Accreditation

The Clinical Laboratory Science Program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences, 5600 N. River Road, Suite 720, Rosemont, IL, 60018-5119, (773) 714-8880, [www.naacls.org](http://www.naacls.org) (<http://www.naacls.org>).

## Undergraduate Awards

**Louise Ward Scholarships:** Three scholarships are awarded to clinical laboratory science students each year based on academic excellence, potential for success as a clinical laboratory science student and practitioner, and financial need.

Additional scholarships available to clinical laboratory science students include

- The Lanning-Taylor Scholarship, awarded to a senior clinical laboratory science student.
- The Raleigh Pathology Laboratory Associates Scholarship, awarded to a junior or a senior student.
- The WakeMed Health and Hospital Annual CLS Scholarship, awarded to a junior or senior student.
- The Allene W. Alphin and Jesse C. Alphin Scholarships, awarded to two clinical laboratory science students.
- The Jeri Lasitter McConkey Scholarships, awarded to two clinical laboratory science students.

**Outstanding CLS Student:** Each year a clinical laboratory science senior is named as the outstanding student based on nominations from clinical and academic faculty members.

## Undergraduate Research

Senior students may apply for an elective course, CLSC 695 Undergraduate Research in CLS. In this course, students work on a research project independently with guidance from CLS faculty and clinical laboratory staff members. Student research projects have resulted in presentations at professional meetings and publications.

## Division of Radiologic Science

### Introduction

The School of Medicine's radiologic science program is designed to prepare individuals for professional practice and associated responsibilities in the health specialty of medical imaging. Graduates provide patient assessment and care required for medical imaging

procedures in addition to insuring that the highest quality imaging study is completed when the patient's radiation dose is a factor. Students may pursue diagnostic and interventional radiology or diagnostic medical sonography. In the senior year students may select other imaging modalities and practice areas for additional competence and training. These other areas may include sonography special areas, pediatrics, mammography, computed tomography, magnetic resonance imaging, vascular interventional radiology, and cardiac catheterization laboratory. The curriculum includes course discussions and projects on global health imaging issues and the potential for international experiences in medical imaging departments and programs abroad.

## Admission to the Program

Following completion of the first two years' work in the University's General College, students may be admitted to the professional major offered by the Department of Allied Health Sciences of the UNC School of Medicine. Students enrolled at other colleges and universities who are interested in transferring to the Chapel Hill campus following their sophomore year should contact the Office of Undergraduate Admissions and the Division of Radiologic Science early in their college career to assure proper planning and transferability of courses. Students are encouraged to begin the application process early in the fall semester preceding the year of intended enrollment. The program begins in Summer Session II each year. Transfer applications should be received in the Office of Undergraduate Admissions by the designated University deadline.

Since enrollment in the major is limited, completion of the student's course of study in the General College does not guarantee a position in the professional class. Students should contact the Division of Radiologic Science in the fall semester preceding anticipated enrollment to receive admissions information. Student selections are made on a competitive basis with consideration given to academic achievement, character, both written and oral communication skills, and demonstrated interest in medical imaging as a professional career.

Students are subject to the requirements in place when they are admitted to this program; consequently, the requirements described in this catalog particularly apply to students admitted during the 2023–2024 academic year.

## Advising

First-year and sophomore students interested in the B.S. degree with a major in radiologic science have a primary academic advisor assigned in ConnectCarolina during the first two years of the degree program. Students are strongly encouraged to meet regularly with their advisor and review their progress toward the degree each semester. The director of the Division of Radiologic Science is available to meet with current and prospective majors by appointment (see contact information above). The division's faculty provides academic advising for students who are enrolled in the program. Further information on the curriculum may be obtained from radiologic science website (<http://www.med.unc.edu/ahs/radisci/>).

## Facilities

The program has a laboratory with digital imaging capabilities and sonography capabilities in the Burnett-Womack Building adjacent to the offices and classroom building. The laboratory includes radiography and fluoroscopic equipment with digital imaging plate readers and software

and sonography equipment similar to the environment the students see during their clinical rotations.

## Graduate School and Career Opportunities

The Division of Radiologic Science bachelor of science degree program provides a basis for further study. Additional clinical specializations are available in nuclear medicine, and radiation therapy. Graduates may elect graduate studies in health physics, business and education, management, public health, and other health professions. The division offers a master's in radiologic science degree program for those students seeking advanced clinical practice as a radiologist assistant.

The clinical practice of medical imaging (radiologic technology) may include one or more of the specialty areas listed here, depending on professional preference and the type, size, and mission of the health facility where the technologist is employed: general radiography (such as orthopedics or pediatrics), vascular imaging, cardiac catheterization, computed tomography, and magnetic resonance imaging or diagnostic medical sonography. Responsibilities and salaries vary according to the area and scope of practice.

Employment opportunities available in a variety of settings, in both rural and urban areas, include

1. more generalized practice in medium to small hospitals;
2. specialized clinical practice in a large hospital;
3. clinics and free-standing imaging centers, which may offer both special and general practice opportunities; or
4. clinical practice coupled with expanded responsibilities in quality control, service education, and supervision, particularly in a large hospital.

## RADI–Radiologic Science

### Advanced Undergraduate and Graduate-level

**RADI 432. Concepts and Perspectives in Radiologic Science. 1 Credits.**

This overview of radiologic science encompasses patient care, imaging modalities for diagnosis and treatment, radiation protection, health care trends, and information management systems. Pass/Fail course.

#### Rules & Requirements

**Grading Status:** Pass/Fail.

**RADI 440. Gross Anatomy for Health Sciences. 3 Credits.**

This course includes lecture and lab sessions to strengthen knowledge of human anatomy and to guide the application of this material for medical imaging. Students will participate in laboratory activities to better understand the spatial relationships between anatomic regions and specific structures. The emphasis of the course is on thoracic, abdominal, pelvic, and musculoskeletal anatomy. Course previously offered as AHSC 440. Radiologic Science majors only.

#### Rules & Requirements

**Requisites:** Prerequisites, BIOL 252 and 252L.

**Grading Status:** Letter grade.

**RADI 442. Introduction to Radiologic Science. 3 Credits.**

Majors only. Lectures, discussions, demonstrations, and laboratory exercises are combined to introduce topics including patient assessment, image characteristics, radiation protection, positioning skills, medical terminology, and the role of imaging sciences in health care.

#### Rules & Requirements

**Grading Status:** Letter grade.

**RADI 461. Radiography I. 4 Credits.**

Prepares students for standard radiography of upper extremities, lower extremities, axial skeleton, bony thorax, chest, abdomen, and the basic skull, considering pathologies and gross, radiographic, and cross-sectional anatomy. Three lecture hours and two laboratory hours.

#### Rules & Requirements

**Requisites:** Prerequisites, HSCI 440 and RADI 442.

**Grading Status:** Letter grade.

**RADI 462. Radiographic Imaging I. 4 Credits.**

An overview of radio-graphic imaging methods examining the imaging process as a sequence of events from X-ray production through hard copy processing. The imaging equipment is discussed in terms of function, influence on the image, the impact of alteration on image characteristics, and compensation techniques for changes in the sequence. Three lecture hours and two laboratory hours.

#### Rules & Requirements

**Requisites:** Prerequisites, HSCI 440 and RADI 442.

**Grading Status:** Letter grade.

**RADI 463. Clinical Education I. 4 Credits.**

A clinical course focusing on the application and evaluation of radiography in the hospital setting. With supervision, the student develops clinical skills through observation and participation in radiographic procedures. Twenty practicum hours.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** HI-INTERN.

**Making Connections Gen Ed:** EE- Academic Internship.

**Requisites:** Prerequisites, HSCI 440 and RADI 442.

**Grading Status:** Letter grade.

**RADI 465. FOUNDATIONS IN RAD THER. 4 Credits.****Rules & Requirements**

**Grading Status:** Letter grade.

**RADI 466. Abdominal Sonography. 4 Credits.**

Diagnostic Medical Sonography track. The course includes intra-abdominal organs, abdominal vessels, peritoneal spaces, and retroperitoneal structures and introduces normal/abnormal sonographic findings. Integration of findings with clinical history, exam, and laboratory findings are included along with skills with scanning protocols, technical factors, and image quality developed in the lab. Majors only.

**Rules & Requirements**

**Requisites:** Prerequisites, HSCI 440 and RADI 442.

**Grading Status:** Letter grade.

**RADI 467. Ultrasound Principles and Instrumentation. 4 Credits.**

Diagnostic Medical Sonography Track. The course provides comprehensive instruction on the principles of ultrasound, including wave characteristics and propagation, acoustic variables, transducers, pulsed waves, real time imaging, and image display and image archiving. More topics include Doppler physics, equipment instrumentation and operation, quality assurance, and biological effects of ultrasound. Majors only.

**Rules & Requirements**

**Requisites:** Prerequisites, RADI 440 and RADI 442.

**Grading Status:** Letter grade.

**RADI 471. Radiography II. 3 Credits.**

The course content prepares students for standard radiography of cranial bones, facial bones, and special cranial projections. Contrast studies include gastrointestinal, urinary, biliary, cardiovascular, and other special procedures. The course includes pathologies, and gross, radiographic, and cross-sectional anatomy. Two lecture hours and two laboratory hours.

**Rules & Requirements**

**Requisites:** Prerequisite, RADI 461.

**Grading Status:** Letter grade.

**RADI 472. Radiographic Imaging II. 4 Credits.**

A detailed study of specific elements of the radiographic process, with an emphasis on the interrelationships of the radiographic parameters, refinement of image analysis and problem-solving skills, and quality control testing for evaluating the performance of the radiographic equipment and accessories. Three lecture hours and two laboratory hours.

**Rules & Requirements**

**Requisites:** Prerequisite, RADI 462.

**Grading Status:** Letter grade.

**RADI 473. Clinical Education II. 4 Credits.**

A continuation of RADI 463 with emphasis on the application and evaluation of more complex radiographic studies. Twenty practicum hours.

**Rules & Requirements**

**Requisites:** Prerequisite, RADI 463.

**Grading Status:** Letter grade.

**RADI 474. Obstetrics and Gynecology Sonography. 4 Credits.**

Normal and abnormal anatomy/physiology/sonographic features of the nongravid and gravid female pelvis. Normal and abnormal fetal growth and anatomy, fetal well-being, and sonographic measurements associated with the second and third trimesters of pregnancy are included in the content. Students will engage in correlations of sonographic findings with patient clinical history, clinical exam, and laboratory findings. Lab skills covered: scanning protocols, technical factors, and image quality. Majors only.

**Rules & Requirements**

**Requisites:** Prerequisites, RADI 466 and 467.

**Grading Status:** Letter grade.

**RADI 478. Sonographic Imaging I. 4 Credits.**

This course presents topics of advanced sonographic imaging techniques including advanced abdomen and obstetric concepts, superficial structures, pediatrics, introduction to vascular, and interventional procedures. This course presents the normal and abnormal sonographic findings, along with the relationship of these findings to patient clinical history, clinical exam, and laboratory findings. Skills related to scanning protocols, technical factors, and image quality are developed in the lab. Majors only.

**Rules & Requirements**

**Requisites:** Prerequisites, RADI 466 and 467.

**Grading Status:** Letter grade.

**RADI 479. Advanced Imaging in Sonography II. 4 Credits.**

This course continues topics of advanced sonographic imaging techniques and presents new technologies, superficial structures, pediatrics, advanced obstetrics, and transplants. This course also presents the normal and abnormal sonographic findings of these structures along with relationships of these findings to patient clinical history, clinical exam, and laboratory findings. Skills related to protocols, technical factors, and image quality are developed in the lab. Majors only.

**Rules & Requirements**

**Requisites:** Prerequisites, RADI 466, 467, 474, and 478.

**Grading Status:** Letter grade.

**RADI 574. Clinical Education III. 3 Credits.**

Under general supervision, the student will function at an increased level of responsibility in general diagnostic radiography in a variety of clinical settings outside of the university setting.

**Rules & Requirements**

**Requisites:** Prerequisite, RADI 473.

**Grading Status:** Letter grade.

**RADI 575. Clinical Education IV. 5 Credits.**

Under general supervision, the student will function at an increased level of responsibility in radiography in clinical settings outside of the university setting. The course includes a comprehensive review examination and case studies.

**Rules & Requirements**

**Requisites:** Prerequisite, RADI 574.

**Grading Status:** Letter grade.

**RADI 583. Clinical Education V. 4 Credits.**

A clinical course utilizing contract learning to provide students an opportunity to gain additional competency in specialized areas of radiology. Twenty-four education and independent study hours.

**Rules & Requirements**

**Requisites:** Prerequisites, RADI 574 and 575.

**Grading Status:** Letter grade.

**RADI 584. Clinical Education VI. 6 Credits.**

This course is a continuation of RADI 583 using learning contracts to allow students to explore and gain additional expertise in various areas of radiology. Twenty-four clinical hours.

**Rules & Requirements**

**Requisites:** Prerequisite, RADI 583.

**Grading Status:** Letter grade.

**RADI 585. Radiologic Health Physics. 3 Credits.**

A course in the physics of diagnostic radiology, including radiation effects on tissue, radiation detection and measurement, protection methods and techniques, and environmental radiation issues. Three lecture hours.

**Rules & Requirements**

**Requisites:** Prerequisite, RADI 472; permission of the instructor for students lacking the prerequisite.

**Grading Status:** Letter grade.

**RADI 586. Research in Radiologic Science I. 1 Credits.**

Majors only. The major part of the course is devoted to an investigative project on a discipline-related topic of student interest. Select issues affecting professional affairs of radiologic technologists are also included.

**Rules & Requirements**

**Grading Status:** Letter grade.

**RADI 591. Practicum in Radiologic Science. 4 Credits.**

This course offers an elective clinical experience in an area of student interest.

**Rules & Requirements**

**Requisites:** Prerequisite, RADI 584.

**Grading Status:** Letter grade.

**RADI 594. Professional Communications and Interactions. 3 Credits.**

Majors only. This course provides for a brief cognitive and skills approach to communication skills, the teaching/learning process, and methods and materials of instruction and delivery. Three lecture/discussion hours per week.

**Rules & Requirements**

**Grading Status:** Letter grade.

**RADI 597. Leadership in Radiologic Science. 3 Credits.**

Majors only. In this course students will analyze the theoretical literature on leadership and apply that knowledge in the analysis of various radiology environment situations. Three lecture hours.

**Rules & Requirements**

**Grading Status:** Letter grade.

**RADI 660. Pathophysiology. 3 Credits.**

Majors only. This course will enhance and integrate the student's knowledge of anatomy, physiology, and pathology related to all human body systems. Emphasis will be placed on understanding how structure, function, and disease are interrelated. Three lecture hours per week.

**Rules & Requirements**

**Grading Status:** Letter grade.

**RADI 662. Instrument and Imaging Methods. 4 Credits.****Rules & Requirements**

**Grading Status:** Letter grade.

**RADI 670. Integrated Principles of Imaging Analysis. 4 Credits.**

This course involves students in situational problem solving and radiographic analysis. Integration of concepts and knowledge of anatomy, pathology, procedures, patient care, and imaging principles are emphasized. Four lecture hours.

**Rules & Requirements**

**Requisites:** Prerequisite, RADI 660.

**Grading Status:** Letter grade.

**RADI 672. Radiographic Imaging II. 4 Credits.**

A detailed study of specific elements of the radiographic process, with an emphasis on the interrelationships of the radiographic parameters, refinement of image analysis and problem-solving skills, and quality. Three lectures hours and two laboratory hours.

**Rules & Requirements**

**Grading Status:** Letter grade.

**RADI 681. Trends in Medical Imaging Practices Issues in the Radiology Practice Environment. 3 Credits.**

Majors only. The course covers issues related to health care systems, medicolegal ethics, and practice and quality assurance. Three lecture hours per week.

**Rules & Requirements**

**Grading Status:** Letter grade.

**RADI 686. Research in Radiologic Science II. 2 Credits.**

Majors only. Students complete a research project involving a major clinical or policy issue in radiologic science. This course is an expansion of the fall semester research culminating in both a paper and presentation.

**Rules & Requirements**

**Grading Status:** Letter grade.

**RADI 694. Clinical Decisions in Radiology. 3 Credits.**

Majors only. This course involves the pharmacology of common radiology medications and advanced patient assessment techniques. With the additional knowledge and skills, students can make informed decisions regarding patient care. Three lecture hours.

**Rules & Requirements**

**Grading Status:** Letter grade.

## Radiologic Science Major, B.S.

The School of Medicine's radiologic science program is designed to prepare individuals for professional practice and associated responsibilities in the health specialty of medical imaging. Graduates provide patient assessment and care required for medical imaging procedures in addition to insuring that the highest quality imaging study is completed with the patient's radiation dose and safety as a factor. In addition to diagnostic radiology and sonography, students may select other imaging modalities and practice areas for additional competence and training. These other areas include specialized areas of sonography, pediatrics, mammography, computed tomography, magnetic resonance imaging, vascular interventional radiology, and cardiac catheterization laboratory. The curriculum includes course discussions and projects on global health imaging issues and the potential for international experiences in medical imaging departments and programs abroad.

Admission (p. 1129) to the program is required.

## Mission

The radiologic science program prepares students to practice competently and effectively as medical imaging professionals in diverse healthcare environments with awareness of global health issues. The academic and clinical foundation in the curriculum develops graduates with professional flexibility and adaptability to assume prominent roles and responsibilities after graduation in both career and scholarly pursuits.

## Program Goals

- Develop competent, effective, medical imaging professionals
- Support development of skills necessary to practice in diverse healthcare environments and to acquire prominent roles in radiologic science
- Program curriculum, teaching methods, and philosophy promote development of integrative, critical thinking, and communication skills to include written, oral, and electronic discourse
- Graduates successfully pursue scholarly activities such as contributions to the profession and post-baccalaureate education
- Encourage global awareness of cultural and health care perspectives

## Student Learning Outcomes

### Diagnostic and Interventional Radiology

Upon completion of the radiological sciences (B.S.) program, students should be able to complete the following goals and outcomes.

**(Goal one)** Obtain a level of clinical competence appropriate for an entry-level medical imaging professional.

Outcomes:

- Students will demonstrate accurate patient positioning techniques.
- Students will utilize radiographic exposure factors to optimize image quality and minimize patient dose.
- Students will practice radiation protection principles for patient and occupational safety.

**(Goal two)** Possess critical thinking skills to adapt to changing clinical environments and patient needs.

Outcomes:

- Students will adapt procedures based on patient needs and clinical situation limitations.
- Students will analyze images to assure diagnostic quality.

**(Goal three)** Exhibit professionalism through consistent, responsible, and ethical behavior.

Outcomes:

- Students will provide nondiscriminatory care for all patients.
- Students will demonstrate adherence to program policies and procedures.

**(Goal four)** Demonstrate effective communication skills.

Outcomes:

- Students will practice effective oral communication skills in the classroom and in the clinical setting.
- Students will demonstrate effective written communication skills.

### Diagnostic Medical Sonography Program Learning Outcomes

#### Program Learning Outcomes Abdomen Concentration

Students progress through the abdomen curriculum and meet course learning objectives that culminate in the accomplishment of the program outcomes below:

1. Obtain a level of competence as an entry level general sonographer in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
2. Possess critical thinking skills to adapt to changing clinical environments and patient needs, demonstrating knowledge and understanding of abdominal and superficial anatomy, physiology, and pathology.
3. Exhibit professionalism through consistent, responsible, and ethical behavior.
4. Demonstrate knowledge of understanding of acoustic physics, Doppler ultrasound principles, and ultrasound instrumentation to create diagnostic ultrasound images of abdominal and superficial anatomy.
5. Demonstrate effective communication skills.

#### Program Learning Outcomes Obstetrical and Gynecological Concentration

Students progress through the obstetrical and gynecological curriculum and meet course learning objectives that culminate in the accomplishment of the program outcomes below:

1. Obtain a level of competence as an entry level obstetrical and gynecological sonographer in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
2. Possess critical thinking skills to adapt to changing clinical environments and patient needs, demonstrating knowledge, and understanding of obstetrical and gynecological anatomy, physiology, and pathology.
3. Exhibit professionalism through consistent, responsible, and ethical behavior.
4. Demonstrate knowledge of understanding of acoustic physics, Doppler ultrasound principles, and ultrasound instrumentation to create diagnostic ultrasound images of obstetrical and gynecological anatomy.
5. Demonstrate effective communication skills

## Requirements

In addition to the program requirements, students must

- earn a minimum final cumulative GPA of 2.000
- complete a minimum of 45 academic credit hours earned from UNC–Chapel Hill courses
- take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the major core requirements. Some programs may require higher standards for major or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

The schedule of academic work for radiologic science (medical imaging) majors includes the following General Education requirements. Students must complete all First-Year Foundation requirements, all Reflection & Integration requirements, and complete at least six Focus Capacity requirements as part of the IDEAs in Action General Education curriculum. In addition, the following specific requirements apply to students in the General College:

Code	Title	Hours
<b>Quantitative reasoning requirement:</b>

H Honors version available. An honors course fulfills the same requirements as the nonhonors version of that course. Enrollment and GPA restrictions may apply.

F FY-Launch class sections may be available. A FY-Launch section fulfills the same requirements as a standard section of that course, but also fulfills the FY-SEMINAR/FY-LAUNCH First-Year Foundations requirement. Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

After admission (p. 1129) to the program, the curriculum in radiologic science includes courses in gross anatomy, pathophysiology, radiography, imaging methods, research, practice issues, and clinical practice. The first year of the program provides the foundation and skills for clinical practice and patient care in diagnostic radiography. The second year of the program builds on this foundation and enhances skills for career and practice advancement through communications, physics, and research. During the second year, the student elects areas of clinical concentration, such as magnetic resonance imaging, computed tomography, advanced diagnostic imaging, cardiac catheterization, and vascular/interventional imaging.

## Special Opportunities in Radiologic Science

### Experiential Education

All of the clinical education courses provide students with the opportunity to gain competence and proficiency in all areas of medical imaging practice in a variety of clinical environments. Students may also participate in our global experiences in Switzerland and in Malawi.

### Undergraduate Awards

Undergraduate students are considered for the Faculty Award for Excellence, the Award for Academic Excellence, and the Tina Robbins Award.

### Undergraduate Research

Students complete a two-semester research sequence leading to a project and paper during the senior year of the program and are encouraged to submit the research projects to state and national research competitions.

### Certification

Upon graduation, students have completed the requirements to seek eligibility to take the national certification examination from the American Registry of Radiologic Technologists in Radiography or the American Registry for Diagnostic Medical Sonography and in other clinical areas of expertise.

### Accreditation

The program leading to the B.S. degree with a major in radiologic science for diagnostic and interventional radiology is fully accredited by the Joint Review Committee on Education in Radiologic Technology.

### Scholarships and Grants

Students in the Division of Radiologic Science are eligible for Phyllis Ann Canup Pepper Scholarships, the Dr. Jerry Lambiente Loyalty Fund Scholarship, the Rufus "Buddy" Clarke Loyalty Fund Scholarship, the Jerome Puryear and Latonya Brown-Puryear Scholarship, and the Jane Cox Hendrix Scholarships.

## Division of Speech and Hearing Sciences

### Introduction

Graduate study in speech and hearing sciences is concerned with the body of knowledge and scientific study that pertain to speech, language, hearing, balance, swallowing, and their disorders, and with professional, academic, and research activities in those areas. The Division of Speech and Hearing Sciences offers three graduate degrees: a master's (M.S.) in speech-language pathology, a professional doctorate (Au.D.) in audiology, and a research doctorate (Ph.D.) in speech and hearing sciences. A minor in speech and hearing sciences is available for undergraduate students at UNC-Chapel Hill who anticipate pursuing one or more of these graduate degrees.

### Advising

All students interested in a minor in speech and hearing sciences have a primary academic advisor assigned in ConnectCarolina. Students are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker each semester. The department's director of undergraduate studies will meet with current and prospective minors by appointment. (See contact tab above.) Further information may be obtained from the division's website (<https://www.med.unc.edu/ahs/sphs/>).

### SPHS 401. American Sign Language I. 3 Credits.

This American Sign Language (ASL) course includes topics on linguistic features, cultural protocols, and core vocabulary for students to function in basic ASL conversations on a variety of topics. All instructions and discussions in the classroom will be conducted in ASL. Students minoring in Speech and Hearing Sciences have priority in registering.

#### Rules & Requirements

**Grading Status:** Letter grade.

### SPHS 402. American Sign Language II. 3 Credits.

Students in the Speech and Hearing Minor have priority in registering. The American Sign Language (ASL) course focuses on developing conversational skills on a variety of topics. All instructions and discussions in the classroom will be conducted in ASL.

#### Rules & Requirements

**Requisites:** Prerequisite, SPHS 401.

### SPHS 520. Human Communication Across the Lifespan. 3 Credits.

Development of human communication processes across the lifespan, including linguistic and cultural bases of communication.

#### Rules & Requirements

**Grading Status:** Letter grade.

### SPHS 521. Human Communication Across the Lifespan (EE). 4 Credits.

Development of human communication processes across the lifespan, including linguistic and cultural bases of communication. Includes a minimum of 30 service hours related to human communication. 12 spaces reserved for Juniors in Speech and Hearing Sciences Minor.

#### Rules & Requirements

**Making Connections Gen Ed:** EE- Service Learning.

**Grading Status:** Letter grade.

### SPHS 530. Introduction to Phonetics. 3 Credits.

A detailed study of the International Phonetic Alphabet with emphasis on the sound system of American English. Application of phonetics to problems of pronunciation and articulation. Includes broad and narrow phonetic transcription.

#### Rules & Requirements

**Grading Status:** Letter grade.

### SPHS 540. Speech Science. 3 Credits.

Introduction to the science of speech, including production, acoustics, and perception.

#### Rules & Requirements

**Grading Status:** Letter grade.

## Speech and Hearing Sciences Minor

Admission to the minor is competitive by application. Undergraduate students have the option of taking these courses without declaring a minor; however, students in the minor will have priority for registration. For students interested in pursuing graduate study, additional coursework is highly recommended, including courses in biological science, physical science, social/behavioral science, developmental bases of communication, and statistics. Detailed information on the application process and preprofessional coursework can be found on the division's website (<https://www.med.unc.edu/ahs/sphs/prospective-students/undergraduate-minor/>).

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## School of Nursing

### Introduction

The School of Nursing at the University of North Carolina at Chapel Hill is nationally recognized as one of the premier nursing schools in the United States. With a trifold mission of excellence in nursing education, research, and service, the School of Nursing offers a full complement of nursing education programs, including bachelor's and master's of science in nursing, an R.N.–M.S.N. option, a post-master's program, a doctor of nursing practice, and a Ph.D. program, as well as pre- and postdoctoral fellowships. Since its inception in 1950, the school has led nursing education in North Carolina, and today boasts one of the highest nationwide passing rates on the NCLEX licensure examination and a rich tradition of cutting-edge nursing science. The School of Nursing is one of only a handful of schools in the country to house a Biobehavioral Laboratory for the promotion of nursing discovery, and one of only three schools in the nation to be selected to participate in the Hillman Scholars Program for Nursing Innovation.

### Program of Study

The School of Nursing at the University of North Carolina at Chapel Hill offers an undergraduate program of study designed to provide students with the knowledge, skill, and understanding necessary to function effectively in all areas of professional nursing. The curriculum leading to the bachelor of science in nursing (B.S.N.) degree offers two options for study:

1. two years of upper-division courses in the School of Nursing, which follow two years of lower-division courses in the General College (or equivalent courses completed at another college/university);
2. an accelerated second degree option for students with a previous bachelor's degree (A.B.S.N. Option).

Students are subject to the requirements in place when they are admitted to the School of Nursing; consequently, the requirements described in this Catalog particularly apply to students admitted to the School of Nursing during the 2023–2024 academic year.

Admission (p. 1145) to the program is required.

## Advising

All first degree students intending to major in nursing have a primary academic advisor in the Academic Advising Program (<https://advising.unc.edu/>). Students are strongly encouraged to meet regularly with their advisor to learn the latest course requirements necessary to become an outstanding candidate for a career in nursing, and to review their Tar Heel Tracker each semester. In addition, students can visit the Health Professions Advising Office soon after entering the University for specific guidance on career preparation. Advising information, advising hours, and information about joining the pre-health listserv may be found on the office's website (<https://hpa.unc.edu/>).

## Facilities

The School of Nursing is located in Carrington Hall. The Education-Innovation-Simulation Learning Environment (EISLE) provides undergraduate students with a simulated clinical environment in which to practice and acquire fundamental psychomotor and psychosocial skills necessary for clinical application. Under the close supervision of nursing faculty and teaching assistants, students learn therapeutic techniques and procedures, utilize problem-solving approaches, and prioritize patient care in simulated situations.

## Graduate School and Career Opportunities

The school offers a master of science in nursing (M.S.N.), a doctor of nursing practice (D.N.P.) degree in five advanced practice areas, and a Ph.D. degree in nursing science. B.S.N. graduates may pursue the M.S.N. or D.N.P. after one year of clinical practice, or they may pursue the Ph.D. directly following the B.S.N., prior to completion of any master's-level coursework. For further information on the graduate program, contact the Office of Student Affairs as noted below or see the school website (<http://nursing.unc.edu/>).

The school works closely with University Career Services to prepare all B.S.N. graduates for the transition from student to professional practitioner. A preparatory career development series and career fair are offered annually. Additionally, the school cooperates with clinical agencies across the country to make available to students an array of information on employment opportunities in a myriad of settings and entry-level roles.

## Requirements Lower-Division Courses in the General College

Students are admitted to the baccalaureate nursing program at the upper-division level. All lower-division courses must be completed by the end of the spring semester. Lower-division courses taken at another college or university must be approved for transfer by the UNC–Chapel Hill Office of Undergraduate Admissions as comparable to the courses offered on this campus. Prospective students can request an unofficial transfer evaluation to determine the status of compliance with lower-division requirements. Prospective students may submit their transcripts for review through the School of Nursing transcript evaluation request

form (<https://nursing.unc.edu/programs/bachelor-of-science-in-nursing/bsn-transcript-evaluation/>).

Students must complete all First-Year Foundation requirements, all Reflection and Integration requirements, and complete at least six (6) Focus Capacity requirements (plus the Empirical Investigation Lab requirement) as part of the IDEAs in Action General Education curriculum. Special Note: Applicants must complete the two-course combination, Anatomy and Physiology I and Anatomy and Physiology II sequence from the same college/university, OR a complete course in anatomy and a complete course in physiology. If these courses are not completed on this campus, they must be approved equivalents to the courses offered at UNC–Chapel Hill.

**Beginning with the fall 2020 application cycle (fall 2021 matriculation), the 5-semester B.S.N. option is open to first degree applicants only. Students holding a bachelor's degree in another field may apply to the 4-semester accelerated B.S.N. option or the Military Pathway.**

## First Degree Applicants

Students seeking a first bachelor's degree are admitted to the upper-division (junior/senior) B.S.N. (five-semester) option, typically in the spring semester of the sophomore year. Students must complete all lower-division (first-year/sophomore) courses by the end of the spring semester prior to matriculating into the School of Nursing. The first nursing courses begin in the fall of the junior year.

Students seeking a first bachelor's degree who are Armed Forces Veterans or Active Duty service members from any branch, including past service in the Reserves or National Guard, may choose to apply to the Military Pathway. The requirements for the Military Pathway are the same as those for the B.S.N. (5-semester) option.

### Admission Criteria

Admission to the School of Nursing is competitive. The minimum cumulative grade point average for admission to the B.S.N. option is a 2.8 on a 4.0 scale. Admission to UNC–Chapel Hill as a first-year student or sophomore transfer does not guarantee admission to the School of Nursing as a junior. Applicants must be eligible to return to all institutions previously attended.

At the time of application, applicants to the B.S.N. option must have completed at least three of the five key science courses.

Students can search for FY-Launch sections in ConnectCarolina using the FY-LAUNCH attribute.

<sup>1</sup> A grade of B- or better is required.

<sup>2</sup> A grade of C or better is required.

<sup>3</sup> STOR 155 is strongly recommended for students interested in graduate study.

<sup>4</sup> Must have been completed within the past **five** years.

<sup>5</sup> Must have been completed within the past **ten** years.

The admissions committee critically evaluates each applicant's academic performance, descriptive essays, community service history, and special skills and abilities that have the potential to affect care delivery or contribute overall to the nursing profession. The ideal applicant will clearly demonstrate a strong academic history as well as a commitment to the ideology of nursing and service to others. Performance in required science courses is particularly important.

## Second Degree Applicants

Students who have completed a bachelor's degree in a subject other than nursing may pursue admission to the accelerated and intensive A.B.S.N. (four-semester) option. Second degree students will have 60 credit hours from their previous degree counted toward the B.S.N. degree. Applicants must complete (or verify completion as part of their previous degree) only five courses from the lower-division requirements.

Students who have completed bachelor's degree in a subject other than nursing who are Armed Forces Veterans or Active Duty service members from any branch, including past service in the Reserves or National Guard may choose to apply to the Military Pathway.

## Admission Criteria

Admission to the School of Nursing is competitive. The minimum cumulative grade point average for admission to the B.S.N. option or Military Pathway is a 2.8 on a 4.0 scale, and the minimum cumulative grade point average for the A.B.S.N. option is a 3.0 on a 4.0 scale. All applicants seeking admission as second degree students must have earned the first degree prior to submitting the nursing application. Applicants must be eligible to return to all institutions previously attended. At the time of application, applicants to the A.B.S.N. option must have completed **all** five key science courses noted above, while applicants to the B.S.N. or Military Pathway option must have completed at least three of these courses. BIOL 252/BIOL 252L, BIOL 253/253L, and MCRO 251 must have been completed within the past five years. PSYC 101 and STOR 151 or STOR 155 must have been completed within the past ten years. The admissions committee review is as described previously.

Beginning June 2021 (May 2022 application cycle), A.B.S.N. applicants must also have a GPA of at least 3.0 in the five key science courses at the time of applying.

## Application

Applications for the B.S.N. option and B.S.N. Military Pathway option may be submitted by the December deadline for fall (August) matriculation, while applications to the A.B.S.N. option may be submitted by the August deadline for summer (May) matriculation. All first and second degree applicants, including current UNC–Chapel Hill students, must complete a two-phased electronic nursing application. The application link, instructions, deadlines, and decision timeframe can be found on the School of Nursing website (<https://nursing.unc.edu/academic-programs/bsn/apply/>).

## NURS–Nursing Undergraduate-level

### NURS 301. Foundations of Relationship-Centered Care and Diversity and Inclusion: Carolina Core I. 3 Credits.

This course provides socialization into relationship-centered nursing practice. All Carolina Core tenets are introduced; however, diversity and inclusion, relationship-centered care, and scholarly communication are a central emphasis. Students will obtain a beginning ability to act as a therapeutic agent. Majors Only.

#### Rules & Requirements

 IDEAs in Action Gen Ed: FC-POWER.  
Grading Status: Letter grade.

### NURS 302. Research, Ethics, and Innovation: Carolina Core II. 3 Credits.

This course focuses on research, ethics, and health innovations as a basis for scientific inquiry to address problems that require solutions. All Carolina Core tenets are examined; however, nursing inquiry, evidence-based nursing practice, and ethical conduct in research are central foci. Majors Only.

#### Rules & Requirements

 IDEAs in Action Gen Ed: FC-VALUES, RESEARCH.  
Grading Status: Letter grade.

### NURS 310. Clinical Nursing Skills and Health Assessment I: On Campus Clinical I. 2 Credits.

The first in a series of four on campus clinical courses, this course introduces foundational clinical nursing skills and integrates knowledge and skills of comprehensive health assessment for the adult and older adult. The clinical environment is simulated to provide the application of nursing principles and skills. Majors Only.

#### Rules & Requirements

**Requisites:** Corequisites, NURS 330 and 351.  
**Grading Status:** Letter grade.

### NURS 311. Clinical Nursing Skills and Health Assessment II: On Campus Clinical II. 1 Credits.

This is the second in a series of four on-campus clinical courses with application of advanced clinical nursing skills and comprehensive health assessment to specialized populations. This course emphasizes application of mental health and reproductive health concepts. The clinical environment is simulated to provide the application of nursing principles and skills. Majors only.

#### Rules & Requirements

**Requisites:** Prerequisites, NURS 310 and 330; Corequisite, NURS 352.  
**Grading Status:** Letter grade.

### NURS 320. Culture and Nursing Care. 3 Credits.

Relationship of culture to health and health care practices. Role of culture in structure and delivery of health care in selected countries, and with selected indigenous and minority populations. Majors only.

#### Rules & Requirements

 IDEAs in Action Gen Ed: FC-GLOBAL.  
**Grading Status:** Letter grade.

### NURS 321. Nursing Global Clinical Practicum. 1 Credits.

Practicum addressing needs of individuals, families, or communities in a global or "local as global" setting.

#### Rules & Requirements

**Requisites:** Pre- or corequisite, NURS 320.  
**Repeat Rules:** May be repeated for credit; may be repeated in the same term for different topics; 2 total credits. 2 total completions.  
**Grading Status:** Pass/Fail.

### NURS 330. Nursing Care of Adults I. 4 Credits.

This course considers how nursing influences the health and healing capacities of adults. Students will attain the knowledge necessary to complete a comprehensive assessment of the older adult's physical, functional, psychosocial, and cognitive capacities. Clinical experiences in post-acute care settings provide opportunities for clinical reasoning, clinical care, and knowledge integration. Majors only.

#### Rules & Requirements

**Requisites:** Corequisites, NURS 310 and 351.  
**Grading Status:** Letter grade.

### NURS 351. Pathophysiology/Pharmacology Across the Lifespan I. 3 Credits.

Part one of a two-part course series focusing on the physiologic changes that occur as a result of select disease processes. Additionally, the clinical manifestations of altered health and related pharmacotherapy are addressed. Majors only.

#### Rules & Requirements

**Requisites:** Corequisite, NURS 330.  
**Grading Status:** Letter grade.

### NURS 352. Pathophysiology/Pharmacology Across the Lifespan II. 3 Credits.

Part two of a two-part course series focusing on the physiologic changes, the clinical manifestations of altered health, and the pharmacotherapy used to treat complex disease processes. Safe and effective medication administration by the Registered Nurse will be explored. Majors only.

#### Rules & Requirements

**Requisites:** Prerequisite, NURS 351.  
**Grading Status:** Letter grade.

### NURS 365. Evidence-Based Care of Older Adults. 3 Credits.

This course emphasizes evidence-based care of the older adult across the care continuum and examines resources available for caregivers of this population.

#### Rules & Requirements

**Grading Status:** Letter grade.

**NURS 384. Family Focused Genomic Health Care. 1 Credits.**

This course focuses on the essential competencies in genetics and genomics for all registered nurses. A family perspective is used to help students relate advances in genomics to nursing care. Majors Only.

**Rules & Requirements**

**Grading Status:** Letter grade.

**Advanced Undergraduate and Graduate-level****NURS 401. Integrating Principles of Leadership, Quality and Safety, and Informatics into Nursing Practice. 3 Credits.**

This course focuses on systems thinking and complexity, development of leadership roles and skills, and interprofessional communication and teamwork. All Carolina Core tenets are examined; however, leadership, quality and safety, and informatics are central foci. Majors Only.

**Rules & Requirements**

**Grading Status:** Letter grade.

**NURS 402. Foundations of Population Health and Global Health: Carolina Core IV. 2 Credits.**

In this course, all Carolina Core tenets are explored; however, there is a focus on population health and global health as essential components of nursing. Students will examine global health challenges as well as policy strategies of promoting health for all. Majors Only.

**Rules & Requirements**

**Grading Status:** Letter grade.

**NURS 410. Clinical Nursing Skills and Health Assessment III: On Campus Clinical III. 1 Credits.**

The third in a series of four on campus clinical courses with application of advanced clinical nursing skills and comprehensive health assessment to specialized populations. This course emphasizes application of leadership, pediatric and community health concepts. The clinical environment is simulated to provide the application of nursing principles and skills. Majors Only.

**Rules & Requirements**

**Requisites:** Prerequisites, NURS 310, 311, and 352; Pre- or corequisite, NURS 484.

**Grading Status:** Letter grade.

**NURS 411. Clinical Nursing Skills and Health Assessment IV: On Campus Clinical IV. 1 Credits.**

Fourth in a series of four on-campus clinical courses with application of advanced clinical nursing skills to specialized populations with a focus on transition to practice. The clinical environment is simulated to provide the application of nursing principles and skills.

**Rules & Requirements**

**Requisites:** Prerequisites, NURS 310, 311, 352, and 410; Corequisite, NURS 697.

**Grading Status:** Letter grade.

**NURS 430. Nursing Care of Adults II. 5 Credits.**

Centers on management of adults experiencing complex health problems and focuses on application of evidence based practice and skill acquisition needed to care for acutely ill patients through transitions in an illness experience. Clinical experience in acute care settings provide application for clinical reasoning, clinical care, and knowledge integration. Majors Only.

**Rules & Requirements**

**Requisites:** Prerequisites, NURS 310, 311, 330, and 352.

**Grading Status:** Letter grade.

**NURS 461I. Exploring Social Determinants of Health Across Populations. 3 Credits.**

This seminar allows students to explore how social determinants of health affect the health of populations.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** HI-SERVICE.

**Grading Status:** Letter grade.

**Same as:** EDUC 461I.

**NURS 481. Mental Health Promotion and Psychiatric Care Across Populations and Settings. 5 Credits.**

Using selected theories of human psychosocial development, psychopathology, and psychotherapy, this course requires students to advance their use of therapeutic communication skills, examine the range and complexities of human emotional suffering, and apply methods of effective intervention. Majors Only.

**Rules & Requirements**

**Requisites:** Prerequisites, NURS 330 and 351; Pre- or corequisites, NURS 311 and 352.

**Grading Status:** Letter grade.

**NURS 482. Reproductive Health and Nursing Care of the Childbearing Family. 5 Credits.**

The course emphasizes development of caring and critical thinking skills in providing evidence-based nursing care focused on reproductive health and care of childbearing families. Majors Only.

**Rules & Requirements**

**Requisites:** Prerequisites, NURS 351 and 330; Pre- or corequisites, NURS 311 and 352.

**Grading Status:** Letter grade.

**NURS 483. Family-Centered Nursing Care from Birth through Adolescence. 5 Credits.**

This course emphasizes development of caring and critical thinking skills in providing evidence-based, family centered, culturally responsive nursing care to infants, children, and adolescents throughout the care continuum. Majors Only.

**Rules & Requirements**

**Requisites:** Prerequisites, NURS 311, 330, and 352; Pre- or corequisite, NURS 430.

**Grading Status:** Letter grade.

**NURS 484. Public Health Nursing in Community Settings. 4 Credits.**

Students apply evidence-based public health concepts to community practice to improve health and reduce disparities across the life span, emphasizing interventions using partnership strategies at individual, family, organizational, and policy levels. Majors only.

**Rules & Requirements**

**Requisites:** Prerequisites, NURS 311, 330, and 352; corequisite, NURS 410.

**Grading Status:** Letter grade.

**NURS 496. Advanced Practicum in Nursing. 1-3 Credits.**

Majors only. The focus of this course is the development of knowledge and experience related to research or service learning and its application to the practice of nursing and health care.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit.

**Grading Status:** Letter grade.

**NURS 497. Preparation for Professional Practice. 1 Credits.**

This course will assist students in preparation for the NCLEX-RN examination through a strategic and systematic individualized plan of study that utilizes testing programs and other relevant resources.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit. 3 total credits. 3 total completions.

**Grading Status:** Letter grade.

**NURS 510. Management of the Critically Ill Adult. 3 Credits.**

This hybrid course, offered in collaboration with UNC Hospitals, focuses on collaborative management of critically ill adult patients. Students will gain advanced skills and demonstrate critical thinking to apply evidence based practice to care for critically ill patients across the continuum of care.

**Rules & Requirements**

**Requisites:** Prerequisite, NURS 430.

**Grading Status:** Letter grade.

**NURS 512. Care of Individuals with Cancer and their Families. 3 Credits.**

This course focuses on the cancer experience of individuals and families across the lifespan (pediatric to older adults). The cancer control continuum framework will guide content focused discussions on prevention and risk reduction, screening, diagnosis, treatment, survivorship, and end-of-life care.

**Rules & Requirements**

**Requisites:** Prerequisites, NURS 301 and 330; pre- or corequisite, NURS 352.

**Grading Status:** Letter grade.

**NURS 514. Pediatric Emergency and Critical Care Fundamentals. 3 Credits.**

This course, offered in collaboration with UNC Hospitals, focuses on the collaborative care of pediatric patients in the emergency department and in critical care units (NICU, PICU). Students will be introduced to advanced assessments and interventions utilized in these environments. Students will also discuss interdisciplinary challenges specific to pediatric emergency and critical care and investigate evidence-based solutions to some of these challenges. Majors only.

**Rules & Requirements**

**Requisites:** Pre- or corequisite, NURS 483.

**Grading Status:** Letter grade.

**NURS 600. SHAC: Student Health Action Coalition. 0 Credits.**

This course provides service-learning opportunities to apply nursing practice within the context of interprofessional care for vulnerable populations by participating with Student Health Action Coalition (SHAC) activities.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit. 0 total credits. 8 total completions.

**Grading Status:** Pass/Fail.

**NURS 601. Experiential Learning in Nursing. 0 Credits.**

This course provides experiential educational opportunities to apply nursing practice through volunteer participation in select communities. Majors only.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit; may be repeated in the same term for different topics; 0 total credits. 8 total completions.

**Grading Status:** Pass/Fail.

**NURS 607I. Interprofessional Team Work and Communication - Key to Patient Safety. 3 Credits.**

Majors only. This interprofessional course focuses on understanding roles, teamwork, and communication to improve patient safety within the health care environment. National standards and initiatives will be the foundation of the course. Pass/Fail only.

**Rules & Requirements**

**Grading Status:** Letter grade.

**NURS 609. Health Care in the Global Context. 1 Credits.**

A faculty-led experiential learning opportunity focusing on development and knowledge related to research, health care systems, or service learning and its application to nursing and health care. Majors only or permission of the instructor.

**Rules & Requirements**

**Requisites:** Pre- or corequisite, NURS 320.

**Repeat Rules:** May be repeated for credit; may be repeated in the same term for different topics; 8 total credits. 8 total completions.

**Grading Status:** Letter grade.

**NURS 610. Introductory Spanish for Health Professionals. 3 Credits.**

This course is intended for students who know no Spanish or so little that they feel the need to start over. Students with more than two semesters of college Spanish are not eligible. The course covers the curriculum of first-semester Spanish taught within a health context, with a focus on speaking.

**Rules & Requirements**

**Grading Status:** Letter grade.

**Same as:** PUBH 610.

**NURS 611. Supporting the Childbearing Family. 3 Credits.**

Application required. An interprofessional, service-learning approach to studying maternity care. Students will receive professional doula training and volunteer as birth doulas within the Volunteer Doula Service Program at North Carolina Women's Hospital.

**Rules & Requirements**

**Grading Status:** Letter grade.

**NURS 613I. Intermediate Spanish for Health Care I. 3 Credits.**

This intermediate course is the equivalent of the third semester of college Spanish. Students will hone their listening and speaking skills in class primarily through role-playing activities and class discussion. Activities center on an original film set in a health clinic in rural North Carolina.

**Rules & Requirements**

**Grading Status:** Letter grade.

**Same as:** PUBH 613, HSCI 613I, SOWO 613I.

**NURS 615I. Advanced Spanish for Health Care I. 3 Credits.**

Required preparation, third semester Spanish or equivalent. This advanced course reviews the grammar of the third and fourth semester of college Spanish. Students hone their listening and speaking skills through role-playing activities and class discussion. Activities center on an original film set in a Latino-run health clinic.

**Rules & Requirements**

**Grading Status:** Letter grade.

**Same as:** PUBH 615, HSCI 615I, SOWO 615I.

**NURS 616. Experiential Learning in Nursing: A Collaboration with UNC Health Center for Nursing Excellence. 3 Credits.**

This course provides experiential educational opportunities to apply nursing practice through volunteer participation in select communities associated with UNC Health. Admission to the undergraduate nursing program required.

**Rules & Requirements**

**Requisites:** Pre- or corequisite, NURS 430.

**Grading Status:** Letter grade.

**NURS 620. Mindfulness and Self-Compassion for Caring Professionals. 3 Credits.**

This course is designed to introduce students to rationale, research, and practices of mindfulness and self-compassion. Upon course completion, students will exhibit knowledge and skills related to mindfulness/contemplative practice/training, research evidence on mindfulness for enhancing provider self-care, patient/client engagement, and wellness (e.g., reducing stress, burnout, and fatigue; increasing resilience). Majors only; permission of the instructor for non-majors.

**Rules & Requirements**

**Grading Status:** Letter grade.

**NURS 625. Global and Interprofessional Approaches to Solve Complex Cases. 3 Credits.**

This course uses a case-based approach to assist students to identify and critically examine challenging issues in health care, develop presentation skills as well as critical thinking from an interprofessional perspective. Students will work in interprofessional teams on a global complex case. Using this approach, students will attain the knowledge necessary to analyze and present results for a comprehensive case at the individual, organizational, and community levels. Open to undergraduate students with permission from instructor.

**Rules & Requirements**

**Grading Status:** Letter grade.

**NURS 671. Nursing Inquiry and Evidence-Based Practice for Advanced Scholarship. 3 Credits.**

Introduction to scientific inquiry, evidence-based practice, and nursing/healthcare innovations. Emphasis on: theory; ethics; problem identification; question development; design selection; data analysis and interpretation; statistical applications; and appraisal of research reports. Admission to an undergraduate BSN program and eligible to take required undergraduate nursing research course; the Hillman Scholars program; or PhD in Nursing Program required.

**Rules & Requirements**

**Grading Status:** Letter grade.

**NURS 675. Hillman Scholars in Nursing Innovation: Integrative Seminar. 1 Credits.**

Cultivates students' development as nurse scientists, scholars, and leaders to improve health care quality, safety, and delivery, and to influence policies that promote health and strengthen health systems outcomes. Admission to the Hillman Scholars Program in Nursing Innovation is required.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit.

**Grading Status:** Letter grade.

**NURS 680. Experimental Courses. 1-3 Credits.**

Pilot test for new courses in the nursing program.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit; may be repeated in the same term for different topics; 12 total credits. 4 total completions.

**Grading Status:** Letter grade.

**NURS 685I. Care of the Dying and Bereaved throughout the Life Span. 3 Credits.**

Students from a variety of health sciences-related disciplines gain an understanding of issues in working with dying and bereaved individuals of all ages and their families.

**Rules & Requirements**

**Repeat Rules:** May be repeated for credit. 6 total credits. 2 total completions.

**Grading Status:** Letter grade.

**NURS 691H. Honors in Nursing, Part I. 3 Credits.**

Permission of the program director. Majors only. Preparation of a two-semester honors project under the direction of department advisors.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** RESEARCH.

**Making Connections Gen Ed:** EE- Mentored Research.

**Grading Status:** Letter grade.

**NURS 692H. Honors in Nursing, Part II. 3 Credits.**

Permission of the program director. Majors only. Preparation of a two-semester honors project under the direction of department advisors.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** RESEARCH.

**Making Connections Gen Ed:** EE- Mentored Research.

**Grading Status:** Letter grade.

**NURS 697. Capstone: Transitions in Care and Practice. 6 Credits.**

Students will incorporate previously learned leadership concepts, clinical skills, therapeutic communication, and critical thinking to deliver quality nursing care, using evidence based practice, in varied settings with faculty and RN guidance. Preparing for the NCLEX-RN examination and strategies for successful transition from student nurse to registered nurse will be explored. Majors only.

**Rules & Requirements**

**IDEAs in Action Gen Ed:** HI-INTERN.

**Making Connections Gen Ed:** EE- Field Work.

**Requisites:** Prerequisites, NURS 330, 430, 481, 482, and 483; Corequisites, NURS 402 and 411.

**Grading Status:** Letter grade.

## Nursing Major, B.S.N.

Courses in the nursing major are taken at the upper-division level. The courses build on a strong foundation in the sciences and humanities to develop the knowledge and skills needed to practice nursing in contemporary society. Clinical experiences take place in a broad variety of settings that reflect current patterns of health care delivery and provide opportunities for students to develop competence in empathetic care, critical thinking, technical skills, clinical judgment and decision making, interdisciplinary collaboration, and management of care.

Admission (p. 1137) to the program is required.

## Program of Study

The School of Nursing at the University of North Carolina at Chapel Hill offers an undergraduate program of study designed to provide students with the knowledge, skill, and understanding necessary to function effectively in all areas of professional nursing. The curriculum leading to the bachelor of science in nursing (B.S.N.) degree offers three options for study:

1. Two years of upper-division courses in the School of Nursing, which follow two years of lower-division courses in the General College (or equivalent courses completed at another college/university)
2. An accelerated second degree option for students with a previous bachelor's degree (A.B.S.N. Option).
3. Military Pathway option for armed forces veterans and active duty service members from any branch, including past service in the Reserves or National Guard. See School of Nursing website (<https://nursing.unc.edu/academic-programs/bsn/apply-military/>) for additional details.

Students are subject to the requirements in place when they are admitted to the School of Nursing. Students admitted in prior years followed previous plans of study in the catalog year in which they were admitted to the School of Nursing.

## Critical Information for ALL Nursing Students

### Essential Standards for Admission, Progression, and Graduation

The curricula leading to degrees in nursing from the University of North Carolina at Chapel Hill School of Nursing require students to engage in diverse and complex experiences directed at the acquisition and practice of essential nursing skills and functions. Unique combinations of cognitive, affective, psychomotor, physical, and social abilities are required to perform these functions satisfactorily. In addition to being essential to the successful completion of the requirements of a nursing degree, these skills and functions are necessary to ensure the health and safety of patients, fellow students, faculty members, and other health care providers.

The Essential Standards document describes the nonacademic qualifications, required in addition to academic qualifications, which the school considers critical for entrance to, continuation in, and graduation from a UNC–Chapel Hill School of Nursing degree program. Candidates for nursing degrees, with the exception noted for selected graduate programs, must be able to meet these minimum standards, with or without reasonable accommodation, for successful completion of degree requirements. Refer to the school's website (<https://nursing.unc.edu/academic-programs/bsn/>) for additional information.

### Professional Risk

The practice of nursing involves the care of individuals who are ill or injured. Communicable diseases are common in health care delivery settings and may be a threat to nursing students. During the performance of clinical practice/research activities, a student may have contact with patients/subjects with COVID-19 and variants, HIV/AIDS, tuberculosis, hepatitis B, hepatitis C, and other infections. Such contact, although rare when proper preventive measures are used, may result in a student's being exposed to infectious agents and/or transmitting an infectious

disease to other students, faculty members, patients, family members, and subjects. During pregnancy, the fetus may be at risk. Students enrolled in the School of Nursing at UNC–Chapel Hill are expected to provide care to patients who may have known or unknown communicable diseases. Application to and acceptance of an offer from the School of Nursing indicates a student's understanding of related professional risks.

## Fitness for Practice

All students admitted to the School of Nursing are required by the North Carolina Board of Nursing to provide documentation of their fitness to provide safe nursing care to the public. Failure to provide requisite documentation will result in the withdrawal of the admission offer. Additionally, North Carolina law requires incoming students to present to the University, before the first day of enrollment, evidence verifying that the student has received all required immunizations.

Further, federal and state statutory regulations and clinical affiliate contractual mandates require that nursing students demonstrate particular cognitive and clinical competencies consistent with minimum professional practice standards. Students must attain and maintain full compliance with all such requirements. The school also requires students to undergo, at the student's expense, a 12-panel urine drug screen and a criminal history database check following admission acceptance. The check covers all addresses where the student has lived, worked, or attended an educational institution in the past seven years or since the 16th birthday, whichever is less. Database checks will address all criminal charges, felony and misdemeanor level convictions (except minor traffic related violations), and the Sexual Offender/Predator Registry for all states in which the student has lived. Reports are shared with clinical agencies that require that all charges be resolved prior to the start of clinical practice. Clinical agencies may impose additional requirements at their discretion, which must be completed at the student's expense. Questions about these requirements may be directed to the Clinical Support Division.

## Disability Statement

Consistent with its mission and philosophy, the School of Nursing at the University of North Carolina at Chapel Hill is committed to providing educational opportunities to students with disabilities. In accordance with the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act, the school provides reasonable accommodations to otherwise qualified students with disabilities. The decision regarding appropriate accommodations will be based on the specifics of each case.

Students who seek reasonable accommodations for disabilities must contact the Office of Accessibility Resources & Service (<https://ars.unc.edu/>) ([919] 962-8300). Staff in this office will determine a student's eligibility for, and recommend, appropriate accommodations and services.

## Computer Requirements

All School of Nursing students are required to use e-mail for conveying course/clinical/research/other school-related business. All e-mail communication regarding School of Nursing matters must utilize the student's University e-mail address only. The use of external e-mail services is not permitted. School of Nursing courses use the Sakai learning management system, which requires frequent reliable access to Internet resources. For both these reasons, easy access to personal computers and the Web are imperative. The School of Nursing provides a PC laboratory solely for the use of undergraduate students, and students may also access PC laboratory facilities elsewhere on campus.

All B.S.N. and A.B.S.N. option students are required to have a laptop computer that meets the minimum requirements specified for the preloaded laptop computers available through the University's Carolina Computing Initiative (CCI) program (<http://cci.unc.edu/new-students/minimum-laptop-requirement/>). Choosing a vendor for the laptop purchase is the student's prerogative; however, it is important to note that the University provides "software and operating system support for non-CCI laptops on a best-effort basis. Hardware support for non-CCI laptops is the responsibility of the owner" (source: CCI.unc.edu (<http://CCI.unc.edu>)). In addition to the computer itself, students must have an internet service provider (ISP) and an account for a high-speed access service.

Of note: the School of Nursing uses ExamSoft for testing. Students are required to purchase this program and ensure computer compatibility with the program.

## Vehicular Requirements

Because of the broad scope of clinical facilities and locations, **undergraduate nursing students must have access to a car.** For information about the North Carolina requirements for automobile liability insurance, vehicle registration, and operator's license, write to the North Carolina Department of Motor Vehicles, Raleigh, N.C. 27602. Students and/or parents are responsible for maintaining appropriate insurance coverage. Some insurance companies may consider such travel as "business driving." Expenses for travel are the responsibility of the student.

## Registered Nurse Licensure Examination Requirements

The North Carolina Board of Nursing (NCBON) requires all graduates of the School of Nursing who apply to take the National Council Licensure Examination (NCLEX) to undergo a routine criminal background check, which necessitates submission of a complete set of fingerprints with the NCLEX application. A Social Security Number is required for the licensure application to the NCBON.

## New Student Orientation

All newly admitted undergraduate students are required to attend a mandatory orientation session prior to the start of courses during their first semester. To determine when classes begin, view the University's academic calendar (<http://registrar.unc.edu/academic-calendar/>). UNC–Chapel Hill students who are studying abroad in the spring semester prior to matriculation should ensure their study abroad program will allow them to return to Chapel Hill prior to the new student orientation.

## Student Learning Outcomes

*The student learning outcomes described in this catalog apply to students admitted to the School of Nursing during the 2019–2020 academic year and beyond. Students admitted in prior years will be held to the expectations of the student learning outcomes in the catalog year in which they were admitted to the School of Nursing.*

The B.S.N. program prepares graduates as nurse generalists to:

- Demonstrate care for individuals, families, groups, communities, and populations in a culturally responsive manner. Culturally responsive care includes the intersection of cultural humility and sensitivity, determinants of health, and individuality to promote health equity. {Diversity and Inclusion}

- Exhibit professional values reflective of ethical principles, consistent with the nursing code of ethics and the scope and standards of professional nursing practice. {Ethics}
- Develop global health knowledge and skills to engage in solutions to improve health equity in North Carolina and around the world. {Global Health}
- Contribute to the development and implementation of innovations to improve health outcomes. Health innovations can be promotive, preventive, protective, and/or restorative. {Health Innovations}
- Use informatics to communicate, support clinical decision-making and patient education, and enhance the quality and safety of care. {Informatics}
- Exhibit patient advocacy, appraise and apply evidence, and evaluate policy within an ever-changing healthcare environment. {Leadership}
- Identify the needs of populations and implement interventions with other members of the healthcare team that are expected to promote optimal health, prevent disease, and improve health equity across diverse settings. {Population Health}
- Contribute to a culture of safety and quality improvement by delivering evidence-based, patient-centered care within intra and interprofessional teams. {Quality and Safety}
- Demonstrate empathy for, connection to, and being with the patient. This requires a balance between knowledge, skills, professional confidence, maturity, and compassion towards ourselves, our colleagues, patients and families based in the principles of relationship-centered care. {Relationship-Centered Care}
- Use the research process to appraise and apply evidence with clinical knowledge to maintain a scientifically sound practice. {Research}
- Present written and verbal ideas in a logical and cohesive manner to effectively share evidence of best practice. {Scholarly Communication and Writing}

UNC–Chapel Hill School of Nursing is one of only two schools nationally that has been awarded renewal funding for the Hillman Scholars Program in Nursing Innovation (<https://nursing.unc.edu/academic-programs/bsn/hillman-scholars-program-in-nursing-innovation/>) grant. The program's primary goal is to create a new cadre of nurse scientists and leaders who will design innovative solutions for health care delivery. This highly competitive program is open to new undergraduate students and provides a pathway for students to earn their B.S.N. and Ph.D. in five to six years. At least four academically talented nursing students will be admitted to the program each year and receive financial and enhanced mentoring support to facilitate their progress towards the Ph.D. By completing a Ph.D. early in their career, Hillman Scholars will have a longer time to influence patient care through leadership, innovation, and research in academic and clinical settings.

## Departmental Involvement

Students are encouraged to participate in student leadership opportunities. These include the elected class governance system, the Dean's Student Advisory Council, the Association of Nursing Students (the only pre-professional nursing organization available), the Student Health Action Coalition, and a variety of special interest groups.

## Experiential Education

The nursing program requires extensive direct clinical practice in a variety of acute care, chronic care, and community-based settings considered essential for the preparation of competent practitioners. Clinical contact time varies by study option and course.

## Financial Aid

Students granted admission to the School of Nursing seeking the baccalaureate degree at UNC–Chapel Hill may be considered for a variety of nursing-specific scholarships and other financial aid opportunities.

For assistance, contact the Office of Scholarships and Student Aid by phone at (919) 962-8396 or through the Web at [studentaid.unc.edu](http://studentaid.unc.edu) (<http://studentaid.unc.edu>), or call the Office of Students Affairs at (919) 966-4260.

## Study Abroad

Students are encouraged to participate in a variety of study abroad options offered through elective courses. Opportunities vary each academic year.

## Undergraduate Awards

During the final semester of study, high achieving students (GPA  $\geq$  3.5) in each option will be invited to membership in Sigma Theta Tau International Nursing Honor Society. The George Livas Award recognizes the graduating student who most clearly demonstrates academic excellence and leadership.

## Undergraduate Research

Through the honors program (<http://honorscarolina.unc.edu>) the University and the School of Nursing recognize undergraduates who have demonstrated exceptional academic ability and independent work in their major. Qualified and interested students in their last two semesters of study will be paired with a faculty advisor who guides the student in an independent study honors project. The Associate Dean for the undergraduate program supervises the honors program. Students participating in the honors program must have a cumulative University grade point average that meets University requirements. In addition, students must have and maintain a 3.4 cumulative nursing grade point average. Calculation of the cumulative grade point average is based solely on the required hours earned to date for the nursing degree. Grade point averages are not rounded. The student and honors advisor work together to develop a plan for the project, and the student must register for NURS 691H and NURS 692H. Each honors course carries three hours of credit and is assigned a letter grade by the advisor. A student's project must show evidence of independent, creative, abstract, analytical, and critical thinking.

## UNC Eshelman School of Pharmacy Introduction

Pharmacists are drug information experts and are among the most trusted and most accessible of health care professionals. Generalists practice in a variety of environments, including community pharmacies,

health-system pharmacies, and the pharmaceutical and health care industries. Specialty pharmacy practitioners pursue training beyond the doctor of pharmacy (Pharm.D.) through residencies and fellowships and may ultimately practice in areas such as pediatrics, geriatrics, cardiology, oncology, ambulatory/community care, and others.

Pharmacists evaluate complex approaches to drug therapy and advise patients and other health care professionals on strategies to achieve the best results from pharmaceutical care. Other pharmacists are engaged in practices that monitor, manage, and implement policies affecting drug prescribing and use across large groups of patients, such as those enrolled in a health plan.

The UNC Eshelman School of Pharmacy's doctor of pharmacy is a 4-year professional program that offers a curriculum centered on patient care. The doctor of pharmacy leads to a strong understanding of health quality and delivery across many innovative avenues.

Our Pharm.D. program offers a highly immersive curricula, where students aren't confined to classroom lecture environment. Patient care immersion experiences commence during students' second year of study.

As if the changes in health care and employer demands aren't enough, the amount of information about health and medicines that aspiring health professionals must master has grown substantially. We no longer accept the outdated assumption that a professor's job is to teach you everything you need to know. We recognize that you are a native of this highly interconnected world where information is easily available and freely accessible and technologies abound to support your learning.

## Advising

Advising in the UNC Eshelman School of Pharmacy is a form of teaching. Advising fosters within student pharmacists skills, abilities, and dispositions that encourage directed career exploration as well as ongoing professional development, lifelong learning, and growth. Faculty advisors serve as content experts and mentors and are assigned to new students prior to the first semester of study. To fully maximize both curricular and co-curricular experiences, students are encouraged to schedule consistent and ongoing advising appointments throughout the course of their study. Professional advisors are also available to assist with student success strategies, decision making, and goal setting. Advising-related inquiries can be addressed to the Office of Curricular and Student Affairs (<http://pharmacy.unc.edu/osa/>) in 109 Beard Hall.

## Facilities

The UNC Eshelman School of Pharmacy houses state-of-the-art teaching and research laboratory facilities. The School utilizes cutting-edge video teleconferencing and recording equipment used primarily for delivery of instruction to the satellite campus but also available to graduate and continuing education.

## Career Opportunities

Pharmacy offers a variety of opportunities for career advancement and job security. Because pharmacy education draws from the chemical, physical, biological, and behavioral sciences to develop its knowledge base, pharmacists can contribute to the rational use of medications in many settings. Pharmacists work in all areas of the health care system, including

- Community pharmacy, as a practitioner or a manager in a retail pharmacy, clinic, or office practice

- Health system pharmacy, as practitioner, supervisor, or manager in large or small hospitals, nursing homes, extended care facilities, and health-maintenance organizations
- Pharmaceutical industry, in positions involving research, production, product development, product marketing, and drug information
- Government, in the United States Public Health Service, Veterans Administration, Drug Enforcement Administration, Food and Drug Administration, and military services

## Admission Requirements

The doctor of pharmacy requires at least two years of undergraduate study (at least 72 credit hours), followed by four years of study in the professional program.

Applicants must complete all prerequisites by the end of May of the year they plan to enroll.

Students who will have earned a baccalaureate degree prior to enrolling in their first year of the program must complete the math and science prerequisites only.

Students who will not have earned a baccalaureate degree prior to enrolling in their first year of the program must complete both the math and science prerequisites and the general education requirements.

## Application Procedures

Students applying to the UNC Eshelman School of Pharmacy must submit complete applications to the Pharm.D. program through the Pharmacy College Application Service (PharmCAS) and the school. For application deadlines, processes, and procedures, visit the website (<http://www.pharmacy.unc.edu>).

## Prerequisites

All prerequisite courses must be completed with a letter grade of C minus or better (not Pass/Fail).

## Program of Study

The Pharm.D. grants entry into the profession and practice of pharmacy. It is neither an undergraduate nor a graduate degree program, but rather a professional degree such as an M.D. or D.D.S. The Pharm.D. curriculum requires a minimum of two years to satisfy prerequisite requirements, normally completed in the General College, followed by four years of professional coursework. Students are subject to the requirements in place when they are admitted to the program.

The doctor of pharmacy program is accredited by the Accreditation Council for Pharmacy Education. Graduates of the school's Pharm.D. program may sit for the state licensure examination for pharmacists.

The school has a satellite campus for the Pharm.D. program at Asheville, NC. The first students were enrolled in this satellite program in August 2011. Students based at the satellite campus receive the same instruction and are subject to the same admission and progression standards as students on the Chapel Hill campus.

Students graduating from the UNC Eshelman School of Pharmacy are expected to develop the following core competencies through coursework, immersion experiences (practical), and co-curricular experiences:

1. In-depth knowledge and proficient skills in the pharmaceutical sciences and the practice of pharmacy: Demonstrate an in-depth

understanding of medicines, human health, and health care, and apply the principles and practice of pharmacy to advance human health and health systems

2. Accessing and analyzing information: Identify, locate, critically evaluate, and process information to arrive at an informed opinion
3. Critical thinking and problem solving: Engage in the comprehensive exploration of issues, ideas, and events to identify, prevent, or solve problems
4. Communication: Effectively develop, express, and listen to ideas that inform, inspire, or create focus
5. Collaboration and influence: Work effectively with others to create networks and groups that respect differences and make progress toward a common goal
6. Adaptability: Demonstrate a willingness and ability to change in order to fit new surroundings, ideas, trends, and technologies
7. Initiative: Be self-directed; seek out new opportunities, ideas, and strategies; take responsibility for implementing plans and ideas
8. Curiosity and inquisitiveness: Demonstrate a desire to learn and understand more than is currently understood
9. Professionalism and ethical behavior: Uphold the highest standards of professional and ethical behavior and act appropriately, thoughtfully, and with integrity at all times

In addition, pharmacy graduates must pass national and state licensing examinations in order to practice as pharmacists.

## Program Requirements

See the Courses tab for a list of required and available courses.

## Special Opportunities in the UNC Eshelman School of Pharmacy Student Organizations

Pharmacy students are active in campus and community activities through their involvement with approximately 15 pharmacy student organizations. They belong to groups that link them to such national professional organizations as the American Pharmacists Association and the American Society of Health System Pharmacists. Pharmacy students provide medication reviews for elderly citizens, staff clinics for indigent patients, and participate in health fairs on campus and in local malls or corporations. Several times each year trips are planned to attend meetings across the nation. Student leadership is fostered through intentional involvement in student organizations and enrolled students are highly encouraged to invest in the opportunities offered through student organizations.

## Experiential Education

The school provides doctor of pharmacy students with a structured, supervised program of participation in the practice of pharmacy. Students gain experience in problem solving and providing patient care while applying the foundational and pharmaceutical sciences learned in the classroom and laboratories. Under the supervision of faculty and selected preceptors, students learn to make decisions based on professional knowledge and judgment. The school requires up to 15 months of full-time precepted practice with early practice experiences in the second and third professional year, followed by nine months of advanced practice experiences in the fourth professional year. The experiential education requirements of the program meet the North

Carolina Board of Pharmacy experience requirement (1,500 hours) to sit for the licensure examination.

## Residencies and Fellowships

To increase the depth of their education, many Pharm.D. graduates seek residency training in pharmacy practice. Pharmacy residencies, like medical residencies, provide stipends for further clinical training. There are over 4,000 pharmacy residency positions in the United States with sites in hospitals, community pharmacies, and some specialized facilities. Residency programs may be taken in general pharmacy practice and in specialty areas such as pediatrics, drug information, infectious diseases, oncology, psychiatry, and many others. Some Pharm.D. graduates seek additional training in research methods in drug development, pharmacokinetics, pharmacoconomics, or pharmacotherapy. Postgraduate fellowship programs involve advanced training in these areas and may occur at academic centers or in the pharmaceutical industry. Like residencies, they are paid positions.

## Pharmaceutical Sciences Minor

Pharmaceuticals are a major part of the health industry. The minor in pharmaceutical sciences is designed to expose undergraduate students to core areas of pharmaceutical science in preparation for advanced degrees in the health science professions, pharmaceutical sciences research, and graduate programs in fields such as chemistry as well as careers in pharmacy, pharmaceutical research, biomedical sciences, or the pharmaceutical industry. Students will learn the foundations of pharmaceutical discovery, development, disposition, and application.

Upon completion of the pharmaceutical sciences minor, students should be able to:

- Identify methods in which pharmaceuticals are researched and developed
- Describe how pharmaceuticals interact with the human body
- Compare methods of formulation, manufacturing, and testing of pharmaceutical dosage forms
- Explain how basic sciences play a role in the development of modern therapeutics

## Admissions

The minor is available to all undergraduate students. Students must fulfill specific prerequisite requirements (see Requirements tab) and submit an application. Applications will be accepted each year in the first six weeks of the fall semester. The application requires the following information:

- GPA (minimum 3.0)
- Grades for any courses already completed in chemistry, math, and biology

- A brief statement (approx. 500 words) explaining why you are interested in the field of pharmaceutical sciences

## Requirements

In addition to the program requirements listed below, students must:

- take at least nine hours of their minor "core" requirements at UNC–Chapel Hill
- earn a minimum cumulative GPA of 2.000 in the minor core requirements. Some programs may require higher standards for minor or specific courses.

For more information, please consult the degree requirements section of the catalog (p. 1241).

## Summer School

### History

The University of North Carolina at Chapel Hill established what was possibly the first United States summer school in 1877. It enrolled 235 students in courses from 10 disciplines. Women were first admitted into University courses during this summer session. Students came from 42 North Carolina counties and several neighboring states. By 1925, 19,983 students had enrolled in Summer School. The University has continued annually to provide a wide offering of summer academic opportunities to the people of North Carolina and other residents from this country and abroad. From 1934 to 1987 the programs were administered by the Office of Summer Sessions. The traditional name of Summer School was reinstated in 1988. The Summer School is now a part of UNC–Chapel Hill Digital and Lifelong Learning.

### Opportunities

The College of Arts and Sciences as well as many professional schools offer summer courses for undergraduate and graduate students. The same faculty members who make the University one of the nation's best teach the courses, assisted by visiting professors who are specially recruited by departments for this purpose.

Summer School is central to the teaching mission of the University. The summer is one of the three periods during which the campus is open for formal instruction. Summer courses are of comparable quality and provide the same credit as corresponding courses in the fall or spring terms.

For students who have problems in the fall or spring terms getting courses they need or have to choose between courses, summer provides a time when the courses can be taken. This option relieves pressure on fall and spring enrollments, creates opportunities to enhance students' programs, increases student access to courses in nonmajor fields and other schools, and ensures that students can complete their degree requirements in a timely manner. Summer also allows incoming students the opportunity to take courses and become acclimated to campus before the fall term begins.

Because some subjects are best learned in an intensive and concentrated way, summer provides a time when students can focus on a single field. This learning style is particularly useful for some laboratory experiences, concentrated arts courses, and foreign languages. Some curricula require field study or research projects, and summer uniquely allows time for these studies.

During the summer, faculty members and students can concentrate on one or two courses without interruptions of other administrative, academic, and social events that exist during the year. The total number of students is fewer in the summer, and the mix includes greater diversity and a higher proportion of nontraditional and visiting students than during the fall or spring terms. Because class sizes are smaller and classes meet daily, students interact more with faculty members and with one another.

The summer program is also one of the key ways the campus reaches out to visiting and postdegree students who can benefit from what the University has to offer. Finally, summer is a time for faculty members to develop and experiment with new content and teaching models that can be incorporated into fall or spring courses.

## Programs

Summer School offers two sessions of five weeks each, a three-week Maymester, and other short courses with various beginning and ending dates. In recent years about 600 sections of courses have been offered each summer to about 7,500 students. The available courses include many that satisfy undergraduate degree requirements. Twelve semester hours of credit typically would be earned by a full-time summer student over both summer sessions. Many students take fewer hours or attend only one session. About 95 percent of summer students are regular UNC–Chapel Hill students, and the other 5 percent are visiting students.

In recent summers, enrolled students have come from all 100 counties in North Carolina and all 50 states, as well as the District of Columbia, Puerto Rico, the Virgin Islands, and 60 foreign countries.

## Highlights

Summer School highlights include concentrated three-week courses offered in Maymester, five-week online courses, some field courses and law courses that extend beyond the usual Summer Session I, some courses taught especially for public school teachers that begin after mid-June when the public schools end their term, and other credit programs that operate on a concentrated schedule. Some courses are offered in the late afternoon or evening. Some offerings combine off-campus activities and on-campus classes or combine online and face-to-face learning formats.

## Student Services and Advising

Summer School coordinates and distributes information on summer course offerings for credit in all Academic Affairs units. Course offerings

are available on the Summer School Web site in mid-December. Regular UNC–Chapel Hill students who need information on summer courses and early registration should contact their advisor, dean, or the relevant academic department. These students and all others can obtain updated information daily on the website (<http://summer.unc.edu>).

Summer School admits and advises visiting students. A potential visiting student can obtain information and an online application from the website (<http://summer.unc.edu>).

All UNC–Chapel Hill majors and minors have a primary academic advisor assigned in ConnectCarolina. They are strongly encouraged to meet regularly with their advisor and review their Tar Heel Tracker.

Summer School students are able to use most of the campus facilities enjoyed by students in the fall and spring semesters, such as the libraries, makerspaces, and athletic facilities. Links to Information on summer University housing and on dining plans are available in March on the Summer School website. The Carolina Union, Carolina intramural recreational sports, and *The Daily Tar Heel* also provide activities, events, and information during the summer.

## Digital and Lifelong Learning

UNC–Chapel Hill Digital and Lifelong Learning (DLL) is the University's arm for extending credit and non-credit instruction to North Carolinians who wish to further their education in non-traditional ways. DLL includes, and extends beyond, the programming previously offered by the Friday Center for Continuing Education.

Services provided by DLL include:

- Advising and student services for non-degree undergraduate and graduate students
- Advising and student services for dual-enrolled high school students
- Exam proctoring for students enrolled in distance courses
- Administration of Summer School

Courses and programs (for-credit) offered by DLL include:

- The Pre-Health Certificate Program, which helps students who have earned an undergraduate degree prepare for advanced study in the health professions.
- The Correctional Education Program, a partnership with the North Carolina Department of Public Safety, which enables qualified inmates in the North Carolina prison system to take correspondence and on-site courses for college credit.
- Summer School

## Academic Enrichment Programs

The University offers a variety of programs and opportunities designed to engage students in the curriculum and to enhance the academic experience at Carolina. There are opportunities available from first-year to senior-year. Students are encouraged to take full advantage of these opportunities and to start planning early in their academic career.

- Global Guarantee (p. 1157)
- Study Abroad (p. 1157)
- Undergraduate Research (p. 1158)
- Honors Carolina (p. 1159)
- Honors Beyond Chapel Hill (p. 1159)
- Internships (p. 1160)
- Distinguished Scholarships (p. 1162)
- Languages across the Curriculum (p. 1163)
- Student Life and Leadership (p. 1163)
- North Carolina Fellows Program (p. 1164)
- Summer Bridge (p. 1164)

For additional programs and services, please see the Resources (p. 1245) section of this catalog.

## Global Guarantee

The Global Guarantee is Carolina's promise that a global education is available to every student. By offering a range of options to integrate global into a student's Carolina education, the Global Guarantee helps prepare Tar Heels to become the next generation of leaders with the knowledge, skills, and mindset to solve the world's greatest challenges.

The Global Guarantee is articulated in UNC-Chapel Hill's 2020 strategic plan, *Carolina Next: Innovations for Public Good*, which calls upon the University to offer all students the best menu of global opportunities possible, and to diversify and strengthen global learning across the curriculum, on campus and abroad. "Our graduates," the plan states, "must demonstrate global competencies and skills to thrive as engaged citizens and successful professionals."

The Global Guarantee encourages each student early in their academic career to chart a unique global learning journey that meets their individual academic, professional, and personal goals. Global learning opportunities are integrated throughout the student experience at Carolina. Many are "inclusive by design," meaning they are available to all students without a special application process or fee. The range of Global Guarantee learning opportunities includes:

- Globally focused courses, minors, majors, and tracks in a range of disciplines

- Languages (<https://languageplacement.unc.edu/>) and area studies (<https://areastudies.unc.edu/>)
- Study, research, and internships abroad (<https://studyabroad.unc.edu/>)
- Collaborative Online International Learning (COIL) courses (<https://global.unc.edu/programs/coil/>) and other virtual exchange programs
- Diplomacy Initiative (<https://global.unc.edu/programs/diplomacy-initiative/>) programs and events
- Global programming and cultural exchange on campus

The Global Guarantee is a University-wide commitment, involving numerous academic departments, administrative units, and initiatives, and coordinated by the Office of the Vice Provost for Global Affairs.

## Study Abroad

UNC-Chapel Hill guarantees that a global education is available to every student. According to UNC-Chapel Hill's strategic plan, *Carolina Next: Innovations for Public Good*, "our graduates must demonstrate global competencies and skills to thrive as engaged citizens and successful professionals." Study abroad can positively impact a student's academic success, career path, and personal growth.

UNC-Chapel Hill's study abroad programs are high-quality, credit-bearing academic experiences available at hundreds of locations worldwide to students in all academic programs, majors, and minors. Carolina strives to ensure that study abroad programs are accessible, affordable, and safe. A wide range of study abroad options meet the academic needs, financial realities, schedules, and language abilities of Carolina students. Programs include undergraduate student exchanges, faculty-led, direct enroll, and short-term immersion programs during the summer, semester, and academic year. Financial aid can be used toward study abroad program costs. We award more than \$1 million in study abroad scholarships annually.

## Campus Units Offering Study Abroad

The UNC Study Abroad Office (<https://studyabroad.unc.edu/>) in the College of Arts & Sciences is the primary unit responsible for managing domestic and study abroad semester, summer, and break programs for all undergraduate students at UNC, particularly those enrolled in the College (including Honors Carolina), and some professional schools.

The Kenan-Flagler Business School Undergraduate Global Programs (<https://www.kenan-flagler.unc.edu/programs/undergraduate-business/global-programs/>) office administers semester, summer, and short-term immersion programs for all major and minor students admitted to the Kenan-Flagler Business School.

The Hussman School of Journalism and Media (<http://hussman.unc.edu/ug/student-services/global-programs/>) administers semester, summer,

and short-term immersion programs for students admitted to the Hussman School.

Undergraduate students in the Gillings School of Public Health, School of Education, School of Information and Library Science, and School of Nursing are eligible for education abroad opportunities specific to their degree programs.

## Types of Opportunities Available

Program options are available for students from all undergraduate majors and minors for students to study, participate in an internship, conduct research, or engage in service-learning abroad, domestically, or virtually. Programs vary by cost, location, length, and program type. Some offer a traditional academic experience in foreign classrooms, while others may take place primarily in the field. Visit the UNC Study Abroad Office (<https://studyabroad.unc.edu/find-program/>) for more information.

UNC students have a unique opportunity to earn a second bachelor's degree during their four years of undergraduate study by enrolling for two or three semesters at the National University of Singapore (NUS), one of Carolina's strategic global partner institutions, and fulfilling degree requirements at both UNC and NUS. The joint degree program is available to students majoring in economics, English literature, geography, global studies, history, or political science. There is no additional tuition cost to joint degree students. For more information about the joint degree program, contact the UNC Study Abroad Office ([abroad@unc.edu](mailto:abroad@unc.edu)). **Please note that due to general education curricula changes at both UNC and NUS, the JDP is on pause until fall 2024 at the earliest (2024–2025 academic year). Students who are interested in studying at NUS in 2023–2024 can participate in the NUS Arts and Sciences (<https://heelsabroad.unc.edu/?FuseAction=Programs.ViewProgramAngular&id=10245>) or Sciences (<https://heelsabroad.unc.edu/?FuseAction=Programs.ViewProgramAngular&id=10249>) exchange programs.**

## Study Abroad Credits

Study abroad credit is awarded to students participating in approved programs administered by the Study Abroad Office and other UNC global programs offices. Students may earn academic credit for approved internship, research, and service-learning programs abroad (including virtual programs). Students seeking to participate in student initiated programs for academic credit may submit a petition for approval to the Study Abroad Office.

The credit approval process for study abroad courses is coordinated by the UNC Study Abroad Office or the UNC school sponsoring the program, and credit is awarded after the program ends and official transcripts have been received. UNC students may earn course credit that fulfills elective, General Education, language, and major/minor requirements abroad. All students who participate in approved study abroad programs earn experiential education (EE)/High-Impact Experience (HI) (p. 1230) General Education credit (including virtual programs). Major/minor credits for study abroad courses that have not been pre-approved must be granted by the director of undergraduate studies or designated authority in the relevant department.

## Study Abroad Grading

The University awards course credit for a study abroad program when the student has earned a grade of C or its equivalent. For courses in which grades are reported on a scale other than A–F, students will earn credit only if the study abroad institution or program verifies that the

passing grade represents achievement at the level of C or higher. If students receive final grades of C- or below (or the equivalent, if reported on a scale other than A–F), they will not earn credit or satisfy academic requirements and the course will impact the UNC GPA as a failed course. For courses completed in units other than semester hours, the university will convert credit earned to semester hours. Some programs, such as UNC–Chapel Hill faculty-led and short-term immersion options, offer UNC-graded course credits.

Additional information on study abroad credit and grading can be found on the Study Abroad Office website (<https://studyabroad.unc.edu/earning-credit-from-spring-2021-forward/>).

## Next Steps

Students are encouraged to begin planning for study abroad as early as possible after enrolling at UNC to ensure that a global experience is part of their academic program. The first step is to watch the Study Abroad 101 (<https://studyabroad.unc.edu/advising-events/>) video series. Students can then schedule a one-on-one advising session in the Study Abroad Office or contact the global programs staff in their professional school. Study abroad staff assist students in selecting the best programs for their academic, financial, personal, and professional goals.

Deadlines vary depending on the type of program and UNC unit administering the program. Visit the above websites for the latest information.

## Office for Undergraduate Research

The mission of the Office for Undergraduate Research (OUR) is to facilitate and enrich undergraduate research opportunities for all students and academic disciplines at Carolina. By engaging in research, students develop problem-solving skills and self-confidence, learn how discoveries are made, collaborate with faculty, and apply classroom knowledge to solve real-world problems. OUR supports a variety of programs that help students identify research opportunities and develop research skills. The office is located on the third floor of Steele Building and is a division of the Office of Undergraduate Education.

OUR maintains a searchable database of research opportunities and provides professional and peer counseling to aid students as they

enter the research community. In addition, OUR offers opportunities for undergraduate students to apply for Summer Undergraduate Research Fellowships (SURFs). It funds grants to support undergraduate research and travel awards for students to present their research at professional meetings. OUR also sponsors various workshops on research-related topics, provides oversight for the Carolina Research Scholar Program (CRiSP), and hosts the Celebration of Undergraduate Research each spring at which nearly 300 students present their results to the campus and community.

## Honors Carolina

Honors Carolina is a four-year academic program geared toward the top 10% of undergraduates at UNC and promises those students a guided journey toward a successful career and purposeful life. It is the University's way of investing in truly exceptional students by providing academic and non-academic challenges and opportunities, both inside and outside the classroom.

From the moment they step foot on campus, our students join a diverse community of scholars and friends. Approximately 2,100 students are currently members of Honors Carolina, and enjoy access to more than 200 small courses, award-winning faculty, and priority registration. Our unparalleled commitment to global learning offers students a doorway to the world through courses, internships, and research for academic credit.

The Honors Carolina "Go Anywhere" initiative is a comprehensive plan to elevate the program's reputation among industry leaders, position it as a destination of choice for top recruiters, and prepare students to seize opportunities before them through intensive advising and coaching. In fact, our academic advisors, career coaches, and alumni mentors are with students every step of the way. Through a diverse roster of co-curricular programs, students explore their interests; prepare for life after graduation; and connect with students, faculty, alumni, and leaders around the globe. Some enrolling first-year students are invited to participate immediately in Honors Carolina. Other students may apply to the program at the beginning of their second semester or first year of study. Details of the application process are available on the Honors Carolina (<http://honorscarolina.unc.edu/>) website. Honors Carolina students must maintain a cumulative grade point average of 3.000 or higher and complete a minimum number of honors credit hours by graduation in order to receive the "Honors Carolina Laureate" distinction on their transcript.

To graduate from the University with honors or highest honors (p. 1243), students must complete a senior thesis in their academic major. Senior honors thesis programs are offered in nearly 50 departments, curricula, and professional schools throughout the University. Interested students should consult with the honors advisor in their major about department-specific requirements.

## Honors Beyond Chapel Hill

**Honors Global** offers innovative learning opportunities in London, Oxford, Cape Town, Singapore, Florence, and Washington, DC. Students take courses with UNC–Chapel Hill faculty program directors and with instructors from some of the world's leading institutions of higher education and organizations. The London program is based at Winston House, UNC–Chapel Hill's European Study Center, located in Bloomsbury, close to the city's leading universities and cultural institutions. All of the programs provide graded honors credit and fulfill General Education and major requirements. All Honors Carolina programs and fellowships are open and accessible to all UNC undergraduates with a 3.0 GPA.

**Burch Field Research Seminars** deliver unique, hands-on learning experiences that showcase the relationship between faculty research and undergraduate teaching. Seminars are held in changing locations around the globe. Recent topics have included the rise of renewable energy in China and Korea, nation-building and conflict resolution in Vienna and the Balkans, biomedical engineering and healthcare innovations in Scotland, and public health innovation in Thailand.

**Burch Fellowships** allow students to design an educational adventure anywhere in the world. Burch Fellows receive grants up to \$8,000 to support self-designed, off-campus learning experiences like these: working with NASA astrobiologists in Antarctica to study the possibility of life on other planets; coordinating refugee integration through music in Sicily; and studying the impacts of medical training for rural women in India.

**Carolina Blue Honors Fellowships** enable students to embark on a summer internship focused on learning and working in sports abroad with a special preference for entrepreneurial businesses. Grants of up to \$5,000 support self-designed, international opportunities such as helping an athlete performance data start-up build its products in New Zealand, leading a fan engagement campaign for a sports marketing business in Barcelona, or helping a professional soccer club get off the ground in Tanzania.

**Robinson Honors Fellowships** focus on the history and culture of Europe and the Mediterranean from the golden age of Greece to the upheaval of World War I. Robinson Fellows pursue a project of their own design exploring the realms of art, art history, classics, literature, history, medieval and early modern studies, music, philosophy, political thought, and religious studies. Grants of up to \$8,000 fund experiences such as studying the construction of the great cathedrals of Europe, interning in Sotheby's Old Master Paintings division in London, or working on a Roman archaeological dig site in Israel.

**Weir Honors Fellowships in Asian Studies** allow students to become fluent in Mandarin and gain practical, independent work experience in China, home to one of the world's oldest civilizations and the 21st century's fastest growing economy. Weir Fellows are awarded all funds above their normal UNC tuition to spend the spring semester in Beijing for intensive

language study and then complete an eight-week summer internship in Shanghai exploring careers in fields such as banking, law, journalism, public health, and historic preservation.

## Office of Distinguished Scholarships

The Office of Distinguished Scholarships (ODS) provides support and guidance related to nationally and internationally competitive scholarships and fellowships. It assists Carolina students and alumni in putting their best foot forward when applying for these awards. ODS staff offer regular information sessions and hands-on workshops. They also suggest interviewing strategies and can connect applicants to additional resources, including a library liaison who can assist with researching and writing project statements.

In addition, ODS administers the institutional vetting process called “endorsement” for 14 scholarship and fellowship programs:

- Beinecke (for third-year undergraduates)
- Churchill (for undergraduates in their final years and alums)
- Goldwater (for second- and third-year students)
- James C. Gaither (formerly Carnegie) (for undergraduates in their final years and alums)
- Luce (for undergraduates in their final years and alums)
- Marshall (for undergraduates in their final years and alums)
- McCall MacBain (for undergraduates in their final years and alums)
- Michel David-Weill (for undergraduates in their final years)
- Mitchell (for undergraduates in their final years and alums)
- Rhodes (for undergraduates in their final years and alums)
- Truman (for third-year undergraduates)
- Udall (for second- and third-year undergraduates)
- Yenching (for undergraduates in their final years and alums)
- The Office also evaluates candidates for endorsement for the Boren Scholarship (for undergraduates) and Fellowship (for graduate students), for which endorsement is optional but strongly encouraged.

The preparation required to compete for prestigious scholarships is a valuable educational opportunity. Candidates improve their self-awareness and ability to articulate not only their past accomplishments but also their goals and priorities for the future.

Consult ODS’s STRIVE (<http://strive.unc.edu/>) database for information on more than 1,000 scholarships, fellowships, and other funding sources.

## Languages Across the Curriculum

The LAC program offers students the opportunity to use world languages in a variety of courses outside the language and literature curricula.

The program aims to promote a better understanding of world regions while demonstrating the relevance of practical language skills across the disciplines.

Successful completion of a LAC course option will improve students' ability to:

1. Communicate in the target language about course topics;
2. Describe how course topics relate to world regions that speak the target language;
3. Explain course topics from the perspective(s) of individuals who use the target language;
4. Use the target language to conduct course research.

Administratively housed in the Center for Global Initiatives, the LAC program receives support from the College of Arts and Sciences and from six Title VI National Resources Centers for international and area studies: the African Studies Center, the Carolina Asia Center, the Carolina Center for the Study of the Middle East and Islamic Studies, the Center for European Studies, the Center for Global Initiatives, and the Institute for the Study of the Americas.

Since spring 1996, the LAC program has offered course options in a variety of languages, disciplines, and course formats. Currently, LAC courses are offered in Arabic, Chinese, French, German, Hindi-Urdu, Italian, Korean, Portuguese, Russian, Spanish, and Swahili. Students who enroll in LAC recitation or discussion sections can receive one graded hour of world language credit. Some three-hour seminars in the target language are also available.

There are several types of LAC courses. For course offerings (by semester) and additional information, visit the program's website (<http://areastudies.unc.edu/lac/>).

## Student Life and Leadership

The Office of Student Life and Leadership (SLL) brings together student leaders, student organizations, and student activities under one umbrella: making the campus a better community and home for students, staff, and faculty. Being involved in SLL programs gives students opportunities to enrich their academic and social experience at UNC. The office houses Student Organizations, Leadership Development, Student Activities, Carolina Union Activities Board (CUAB), Assessment and Development, and Student Government.

The mission of Student Life and Leadership is to create an inclusive Carolina community through engagement and intentional educational opportunities. SLL operates with five core values in mind: authentic connections, collaboration, integrity, life-long learning, and social justice.

The **Leadership Development** team is committed to serving the Carolina community by advocating for leadership as a process of social change. Various programs and activities are offered that help students develop competencies needed to be effective leaders. These programs include leadership development retreats, speaker events, and leadership symposiums. Additionally, three academic courses are offered: EDUC 309, EDUC 317, and EDUC 318 where students learn theory that will help them to develop their leadership style and skills and to incorporate those skills to lead and create positive social change.

The **Student Organizations** team works with all 900+ student organizations to facilitate their use of university resources and to empower students in their provision of services, programs and activities that enhance the academic experience, extend learning and build community at Carolina. Students can get involved in a student organization through Heel Life. Heel Life (<https://heelife.unc.edu/>) is the online hub of student activity and involvement at Carolina. Individual students, student organizations and university departments use the site to maximize the Carolina student experience. The site houses a complete list of active student organizations at Carolina, as well as a calendar of events. Student organizations may use Heel Life to promote upcoming activities, manage membership rosters, store important documents and photos, and more. The site also offers tools to identify and track individual involvement experiences through the Co-Curricular Transcript (CCT).

The **Carolina Union Activities Board** (CUAB) is a student-run board that enhances life at Carolina through high-quality programming and events for the entire University community. These include films, art, music, entertainment, and more. Throughout the year, CUAB's eight committees program over 200 events with around 50,000 total in attendance. Students can become involved in CUAB and build the Carolina community by helping to plan and host engaging activities to reach all students.

**Student Government** is the representative liaison before administrators, faculty, the Board of Trustees and Governors, and even the state legislature. Student Government works to address policy issues that matter to UNC and its students, handle funding requests for student

organizations, maintain the Student Government Code (the rules by which Student Government operates), and respond to requests for help from students in a broad range of issues regarding student life at UNC–Chapel Hill.

## North Carolina Fellows Program

The North Carolina Fellows Program is a three-year cohort-based leadership program housed in the Office of Student Life and Leadership. The NC Fellows community has been positively contributing and impacting the program and has been present on the UNC–Chapel Hill campus and community since 1968. The mission of the North Carolina Fellows Program is to reimagine traditional understandings of leadership by engaging in meaningful dialogue, creating a supportive community, increasing self-awareness amongst its members, and encouraging positive change.

Program components include retreats, a three-credit-hour course for sophomore students, a junior seminar, a one-credit capstone course for senior students, and monthly seminars where all three cohorts come together to discuss a variety of topics. Interested students can apply during the spring semester of their first year.

For more information, contact Brian Lackman ([brian.lackman@unc.edu](mailto:brian.lackman@unc.edu)).

## Summer Bridge

Summer Bridge is a six-week transition program that helps incoming first-year students adjust to Carolina by providing academic enrichment, community building, and co-curricular and experiential learning activities. The program is designed to ease participants' personal and academic transition from high school to the University. Students enroll in two academic courses, which usually represent a combination of English composition and quantitative skills. They also participate in activities designed to supplement their summer experience by engaging in high-impact learning experiences often facilitated by units such as the UNC Learning and Writing Centers, University Career Services, and Student Life and Leadership. Additionally, cultural and recreational activities are significant components of the program, as students are introduced to the University and the array of opportunities and resources available. Any student who has been admitted to UNC–Chapel Hill and is a North Carolina resident is eligible to apply.

## IDEAs in Action General Education Curriculum

The IDEAs in Action general education curriculum empowers students to design their own educational journey, while providing them with a foundation that prepares them for the intellectual growth associated with a Carolina education and in their future roles as leaders, creative problem-solvers, lifelong learners, and engaged citizens. Additional information can be found on the IDEAs in Action website (<https://ideasinaction.unc.edu/>).

The IDEAs in Action General Education curriculum applies to all first-year students and transfer students who matriculate as degree-seeking undergraduate students in fall 2022 or later.

*Students who matriculated to the University prior to fall 2022 should follow the Making Connections General Education curriculum. Information and approved courses can be found in archived editions (p. 1291) of the Catalog.*

The IDEAs Approach:

- **I**dentify pressing questions, problems, and issues
- **D**iscover ideas, evidence, and methods that inform these questions
- **E**valuate these ideas, evidence, and methods
- **A**ct on the basis of these evaluations

## First-Year Foundations

Start strong! This is a set of special courses and experiences in the first year designed to help students navigate their transition to the college environment, get them ready to take ownership of their education, and make the most of the opportunities at Carolina.

Students must complete the First-Year Foundation requirements during the first academic year on campus (two semesters), with the exception of Global Language. Students are strongly encouraged to begin Global Language during their first year.

Code	Title	Hours
<b>First-Year Foundations</b>		
IDST 101	 College Thriving <sup>H, 1</sup>	1
	First-Year Seminar or First-Year Launch (p. 1171) <sup>1</sup>	3
	Triple-I and Data Literacy (p. 1179) <sup>1</sup>	4
ENGL 105	 English Composition and Rhetoric	3
	or ENGL 105I  English Composition and Rhetoric (Interdisciplinary)	
	Global Language through level 3 (p. 1180) <sup>2</sup>	varies
<b>Total Hours</b>		<b>11</b>

H Honors students may use HNRS 101 to fulfill the College Thriving requirement.

<sup>1</sup> Must be completed at UNC–Chapel Hill. Transfer credit and by-examination credit are not awarded.

<sup>2</sup> Some majors require additional levels. Students are strongly encouraged to begin Global Language during their first year.

Transfer students who transferred to UNC with at least 24 hours of post-high school transfer credit are required to complete ENGL 105 (or ENGL 105I) and Global Language, but not the other First-Year Foundation requirements. More information for transfer students, early college Students, and transfer credit from a North Carolina community college can be found in this catalog (p. 1170).

## Additional First-Year Foundation Policies

- Courses used to satisfy First-Year Foundation requirements may not be declared Pass/Fail. This includes level 1, level 2, and level 3 language courses being used to fulfill the Global Language (through level 3) requirement. Note that IDST 101 is only offered as Pass/Fail.
- Students may take and receive credit for only one course in each of the following requirement categories: 1) College Thriving (IDST 101), 2) First-Year Seminar or First-Year Launch, 3) Triple-I + Data Literacy, 4) ENGL 105 or ENGL 105I.
- All First-Year Foundation requirements must be satisfied by taking courses at UNC–Chapel Hill, with three exceptions:
  - UNC faculty-led First-Year Seminars awarding UNC graded credit in study abroad programs may be used to satisfy the First-Year Seminar requirement.
  - ENGL 105 may be satisfied with transfer credit, but not with by-examination (BE) credit.
  - Global Language may be satisfied with college transfer credit, UNC language placement test credit (PL), by-examination (BE) credit, or from prior educational experience. Additional information can be found in this catalog (p. 1257) and on the Language Placement website (<https://languageplacement.unc.edu/>).
- Students must maintain continuous enrollment in Global Language courses until they have completed the requirement. See "Continuous Course Enrollment (p. 1265)" section in this catalog.
- Students are not permitted to drop ENGL 100, ENGL 105, ENGL 105I, or Global Language levels 1 through 3 being used to fulfill the Gen Ed requirement after the second week of the semester, unless approved by a dean in the Academic Advising Program. See "Continuous Course Enrollment (p. 1265)" section in this catalog.
- Students are not permitted to drop only Triple-I and not the data literacy lab (or vice versa). These are enforced corequisite courses that must be taken together.
- A First-Year Seminar/First-Year Launch course may overlap with one or more of the following Gen Ed requirements: 1 Focus Capacity (+Lab), Research and Discovery, High-Impact Experience, Communication Beyond Carolina.

## Focus Capacities

Design your course of study! Students take one course for each of the nine Focus Capacity courses (3 credits each) plus a one-credit Empirical Investigation Lab. Focus Capacity courses introduce and reinforce a broad set of capacities for identifying, discovering, evaluating, and taking action upon ideas, knowledge, evidence, and argument. Each of these courses will provide students with opportunities for writing, collaboration with peers, and presenting material in a variety of setting and methods.

Code	Title	Hours
<b>Focus Capacities</b> <sup>1, 2</sup>		
1.	Aesthetic and Interpretive Analysis (p. 1181)	3
2.	Creative Expression, Practice, and Production (p. 1190)	3
3.	Engagement with the Human Past (p. 1192)	3

4.	Ethical and Civic Values (p. 1199)	3
5.	Global Understanding and Engagement (p. 1202)	3
6.	Natural Scientific Investigation (p. 1208)	3
7.	Power, Difference, and Inequality (p. 1209)	3
8.	Quantitative Reasoning (p. 1215)	3
9.	Ways of Knowing (p. 1217)	3
One Focus Capacity course must include or be associated with a one-credit lab:		
	Empirical Investigation Lab (p. 1224)	1
<b>Total Hours</b>		<b>28</b>

<sup>1</sup> A single course may be used to fulfill only one Focus Capacity requirement (not including lab).

<sup>2</sup> Students may fulfill up to five Focus Capacity courses (+Lab) using by-examination (BE) credit

## Disciplinary Distribution

All students must take at least one general education course (Focus Capacity, FY-Seminar/FY-Launch, High-Impact Experience, Research and Discovery, or Communication Beyond Carolina) in each of the three major divisions of the College of Arts and Sciences (p. 32):

1. Humanities and fine arts
2. Mathematics and natural sciences
3. Social and behavioral sciences

## Additional Focus Capacity Policies

- Courses used to satisfy Focus Capacity requirements may not be declared Pass/Fail.
- A Focus Capacity course may overlap with one or more of the following Gen Ed requirements: FY-Seminar/FY-Launch, Research and Discovery, High-Impact Experience, Communication Beyond Carolina.
- A Focus Capacity course may not double count with a Supplemental General Education course.
- The degree programs in Clinical Laboratory Science (p. 1126), Dental Hygiene (p. 1065), Nursing (p. 1137), and Radiologic Science (p. 1133) require at least six of the nine Focus Capacities (plus lab). If a student pursues a different second major, then all nine Focus Capacities (plus Lab) are required.

## Reflection and Integration

Put your learning into action! As students move through the curriculum, IDEAs in Action calls for them to put their capacities into practice through concrete experiences. These opportunities help students reflect upon, deepen, and connect knowledge and capacities.

Code	Title	Hours
<b>Reflection and Integration</b>		
	Research and Discovery (p. 1225) (one course) <sup>1</sup>	1-3
	High-Impact Experience (p. 1230) or a second Research and Discovery (p. 1225) (one course) <sup>1</sup>	1-3
	Communication Beyond Carolina (p. 1233) (one course) <sup>2</sup>	3
	Lifetime Fitness (p. 1239) <sup>3</sup>	1

Campus Life Experience (p. 1239) (2 events every semester for full-time students)

- <sup>1</sup> The same course or experience may not be counted for both the Research and Discovery and the High-Impact Experience requirements.
- <sup>2</sup> Students in the 2023–2024 cohort class and the 2022–2023 cohort class may fulfill this requirement by taking a Communication Beyond Carolina course from the IDEAs in Action curriculum or by taking a Communication-Intensive course from the Making Connections curriculum.
- <sup>3</sup> Varsity student athletes who participate in a sport for at least one semester are exempt from this requirement. ROTC students who participate in the program for at least one semester are exempt from this requirement. These students still have the option to take an LFIT course.

## Additional Policies

- Courses used to satisfy Reflection and Integration requirements may not be declared Pass/Fail. Note that all Lifetime Fitness courses, some Research and Discovery courses, and some High-Impact Experience courses are only offered as Pass/Fail.
- A Research and Discovery course may overlap with one or more of the following Gen Ed requirements: FY-Seminar/FY-Launch, 1 Focus Capacity, Communication Beyond Carolina, Supplemental General Education.
- A High-Impact Experience course may overlap with one or more of the following Gen Ed requirements: FY-Seminar/FY-Launch, 1 Focus Capacity, Communication Beyond Carolina, Supplemental General Education.
- A Communication Beyond Carolina course may overlap with one or more of the following Gen Ed requirements: FY-Seminar/FY-Launch, 1 Focus Capacity, Research and Discovery, High-Impact Experience, Supplemental General Education.
- Research and Discovery, High-Impact Experience, and Communication Beyond Carolina courses may count towards the Disciplinary Distribution requirement (see above).
- Transfer students from the Carolina Global Launch (<https://admissions.unc.edu/apply/special-opportunities/carolina-global-launch/>) program may use the experience to fulfill the High-Impact Experience requirement.

## Supplemental General Education

Students who pursue a bachelor of arts degree must also satisfy a Supplemental General Education requirement. The intent of this requirement is to broaden a student's perspective on the major by examining its relationship to work in at least one other field. Students may fulfill the requirement in three ways:

1. By completing a second major
2. By completing a minor
3. By completing three courses (nine hours) above 199 that are offered outside the home department or curriculum of the first major. These three courses can neither be used to fulfill the requirements of the first major nor be cross-listed with courses that a student has used to satisfy major requirements

## Additional Policies

With option 3, a Supplemental General Education course may overlap with one or more of the following Gen Ed requirements: Research and Discovery, High-Impact Experience, Communication Beyond Carolina.

## First-Year Foundations College Thriving (IDST 101)

### Learning Outcomes

1. Increase and appreciate the significance of self-awareness.
2. Value a liberal arts education.
3. Set goals, plan, and reflect upon learning using aspects of using learning science: metacognition, self-regulated learning, and motivation.
4. Describe academic strategies, policies, and pathways and their link to resources such as academic advising and career services.
5. Reflect on the science of thriving: positive emotion, engagement, meaning, healthy relationships, resilience, stress, and other aspects of well-being.
6. Demonstrate mastery of basic mental health, drug and alcohol, and sexual wellness practices.

## Writing at the Research University (ENGL 105 or 105I)

### Learning Outcomes

1. Employ conventions, genres, and rhetoric practiced in the natural sciences, social sciences, and humanities.
2. Conduct research using a variety of methods, databases, and sources.
3. Discuss and present research-based arguments and information.
4. Identify how best to use research and evidence in discipline-specific compositions.
5. Compose using written, oral, and multimedia modes.
6. Review and revise one's own work and assist others in revising their work.

## First-Year Seminar/First-Year Launch

### Learning Outcomes (First-Year Seminar)

1. Connect with a faculty member early in the educational process.
2. Learn intensively among a small cohort of students.
3. Apply methods for how scholars pose problems, discover solutions, resolve controversies, and evaluate knowledge.
4. Produce knowledge through self-directed inquiry and active learning.

### Learning Outcomes (First-Year Launch)

1. Connect with a faculty member early in the educational process.
2. Learn intensively among a small cohort of students.
3. Learn the foundation of a discipline.
4. Analyze and communicate issues associated with a broad, introductory topic, covering a wide range of knowledge.

Approved FY-SEMINAR & FY-LAUNCH (p. 1171) courses.

## Ideas, Information, and Inquiry (Triple-I)

### Learning Outcomes

1. Gain exposure to the three disciplines and their methods of inquiry.
2. Compare and contrast different ways that scholars address a question, problem, or theme.

3. Understand the power of approaching a topic from multiple perspectives.
4. Learn how different disciplines understand and use data and evidence.

Approved FY-TRIPLE (p. 1179) courses.

## Global Language

### Learning Outcomes

1. Communicate orally (as appropriate) and in writing in a foreign language about a variety of situations with a variety of audiences.
2. Demonstrate comprehension of oral (as appropriate) and written texts in a foreign language on a wide range of topics to aspects of human experience, as well as life in a cross-cultural context.
3. Apply perspectives, practices, and ideas associated with the culture(s) of a foreign language.

Approved GLBL-LANG (p. 1180) courses.

## Focus Capacities

Every Focus Capacity course includes the following activities:

- Writing, totaling at least 10 pages in length or the intellectual equivalent
- Presenting material to the class, small groups, or the public through oral presentations, webpages, or other means
- Collaborating in pairs or groups to learn, design, solve, create, build, or research.

## Aesthetic and Interpretive Analysis

### Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Interpret and critique literary and artistic expression.
2. Analyze literary and artistic works in various contexts (social, political, historical, philosophical, etc.) and with regard to style, period, and the circumstances of composition.
3. Explain how aesthetic expression enhances human experience.

### Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What is the particular value of aesthetic experience and how does it generate meanings, responses, and acts of reflection?
2. What makes an artistic work different from other forms of expression?
3. How does creative attention to an aesthetic object reveal new ideas, articulate values, and reflect or enact art's functions in the world?

Approved FC-AESTH (p. 1181) courses.

## Creative Expression, Practice, and Production

### Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Compose, design, build, present, or perform a work that is the result of immersion in a creative process using appropriate media, tools, and techniques.

2. Explain the roles and influences of creativity, technologies, materials, and design processes in the creation of knowledge, expression, and effective solutions.
3. Evaluate their own and others' creative work to demonstrate how critique creates value in creative domains.

### Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What processes and practices can I use to produce meaningful expression or effective solutions with lasting impact?
2. How does collaboration and teamwork change or enhance the creative process?
3. How does a design strategy affect or enhance the creation and evaluation of a work of value?

Approved FC-CREATE (p. 1190) courses.

## Engagement with the Human Past

### Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Develop knowledge of different spatiotemporal scales, patterns, ideas, figures, and events from the past.
2. Evaluate primary source material and/or other historical evidence of past conditions (e.g., behaviors, events, and social, cultural, economic, and/or political structures); assess divergent or complementary methods, materials, and/or methodologies in interpreting the human past.
3. Assess conflicting historical narratives based on evidence and methodologies.
4. Generate and evaluate arguments based the analysis of primary and scholarly sources.
5. Apply historical methods and knowledge to make informed judgments about the past and the present.

### Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What events, conflicts, and continuities shaped an era of the human past?
2. What distinctive kinds of evidence do we use to interpret and understand the human past?
3. How have people made decisions and acted in light of historical knowledge?
4. How does the material and historical past survive in the present and affect our perception of both the past and the present?
5. What conditions and processes shape our approach to the human past?

Approved FC-PAST (p. 1192) courses.

## Ethical and Civic Values

### Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Explain the contexts in which questions of justification arise.
2. Assess ethical values in terms of reasons offered
3. Recognize different ethical perspectives and the distinctive approaches these perspectives bring to questions of value, evaluating ethical justifications for different ways of organizing civic and political communities.
4. Analyze the differences between personal ethical decisions and those bearing on the public and civic spheres.

### Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. How can people think fruitfully (individually and together) about how they should live their lives?
2. What is required to judge a standard or value as worthy of support?
3. How should we distinguish between prejudices and reasonable grounds for value judgments?
4. What considerations – stories, reasons, testimony, documents, data, etc. – can justify our values and commitments, whether personal or social?

Approved FC-VALUES (p. 1199) courses.

## Global Understanding and Engagement

### Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Classify and analyze diverse historical, social, and political exchanges that shape nations, regions, and cultural traditions of the world.
2. Translate among contrasting civic cultures, social values, and moral commitments that characterize differences among peoples and societies, including those beyond the North Atlantic region.
3. Assess ways that political and economic institutions shape contemporary global relations.
4. Explain human and environmental challenges that transcend national borders.

### Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What forces connect and distinguish the experiences of peoples, societies, and human organization around the world?
2. How can I understand and compare differing worldviews?
3. What connections and differences exist between particular worldviews, experiences, societies, or power structures?
4. What ideas, approaches, and international sources allow scholars to compare societies?

Approved FC-GLOBAL (p. 1202) courses.

## Natural Scientific Investigation

### Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Demonstrate the ability to use scientific knowledge, logic, and imagination to construct and justify scientific claims about naturally

occurring phenomena, including validation through rigorous empirical testing.

2. Analyze and apply processes of scientific inquiry as dictated by the phenomena and questions at hand. These include generating and testing hypotheses or theories pertaining to the natural world; using logic and creativity to design investigations to test these hypotheses; collecting and interpreting data about the natural world; making inferences that respect measurement error; building and justifying arguments and explanations; communicating and defending conclusions; revising arguments and conclusions based on new evidence and/or feedback from peers; and synthesizing new knowledge into broader scientific understanding.
3. Evaluate science-related claims and information from popular and/or peer-reviewed sources by examining the relationship between the evidence, arguments, and conclusions presented and by assessing consistency with existing knowledge from valid and reliable scientific sources.
4. Identify, assess, and make informed decisions about ethical issues at the intersections of the natural sciences and society.

*The General Education Oversight Committee approved changes to the learning outcomes (<https://curricula.unc.edu/wp-content/uploads/sites/332/2021/04/FC-NATURAL-Revision-3.26.2021.pdf>) on 3-26-2021.*

### Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What rules govern the natural world and how are they discovered, tested, and validated?
2. What is distinctive about the approach to understanding employed in the natural sciences?
3. What challenges are encountered in making measurements of the natural world?
4. What are the limits of investigation in the natural sciences?

Approved FC-NATSCI (p. 1208) courses.

## Power, Difference, and Inequality

### Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Recognize the relationship between inequality and social, economic, and political power.
2. Analyze configurations of power and the forms of inequality and bias they produce.
3. Evaluate dynamics of social, economic, and political inequality in relation to specific historical contexts.
4. Interrogate the systemic processes by which forms of inequality are sustained and how these processes have been and are resisted and transformed.

### Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What are the relevant structures, institutions, ways of thinking, and practices that create, maintain, and change social, economic, and political inequalities?

2. What practices have been implemented and institutionalized to address social, economic, and political inequalities?

Approved FC-POWER (p. 1209) courses.

## Quantitative Reasoning

### Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Summarize, interpret, and present quantitative data in mathematical forms, such as graphs, diagrams, tables, or mathematical text.
2. Develop or compute representations of data using mathematical forms or equations as models, and use statistical methods to assess their validity.
3. Make and evaluate important assumptions in the estimation, modeling, and analysis of data, and recognize the limitations of the results.
4. Apply mathematical concepts, data, procedures, and solutions to make judgments and draw conclusions.
5. Synthesize and present quantitative data to others to explain findings or to provide quantitative evidence in support of a position.

### Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. What is the role of mathematics in organizing and interpreting measurements of the world?
2. How can mathematical models and quantitative analysis be used to summarize or synthesize data into knowledge and predictions?
3. What methodology can we apply to validate or reject mathematical models or to express our degree of confidence in them?

Approved FC-QUANT (p. 1215) courses.

## Ways of Knowing

### Learning Outcomes

These are the learning outcomes that are expected of students after completing a course.

1. Recognize and use one or more approach(es) to developing and validating knowledge of the unfamiliar world.
2. Evaluate ways that temporal, spatial, scientific, and philosophical categories structure knowledge.

### Questions for Students

These are the types of questions you should be able to answer after completing a course.

1. How do public and campus events enrich and broaden college learning?
2. How do performances and intellectual talks inspire new ways of interpreting and understanding the world?
3. How do political lectures and debates bridge or illuminate important differences?

If you applied to UNC as a transfer student, there are a few elements of the IDEAs in Action curriculum that are different for you.

If you transferred to UNC with at least 24 hours of post-high school transfer credit, you are exempt from the following 3 First-Year Foundation requirements:

1. College Thriving
2. First-Year Seminar/First-Year Launch
3. Ideas, Information, and Inquiry (Triple-I)

All other Gen Ed requirements must be fulfilled, including ENGL 105 and Global Language (p. 1180) from the First-Year Foundations.

## Transfer Students from a North Carolina Community College

If you earned an associate's degree from a North Carolina community college and qualify under the Comprehensive Articulation Agreement (CAA), all IDEAs in Action requirements are satisfied, with the following exceptions:

- Global Language
- Research and Discovery
- Communication Beyond Carolina
- Lifetime Fitness
- Supplemental General Education (BA degree only)

If you receive equivalent course credit, you may use the transfer credit to fulfill any of the requirements listed above.

## First-Year Students from a North Carolina Early College

If you were admitted as a first-year student and earned an associate's degree from a North Carolina early college (Cooperative Innovative High School) and qualify for the Comprehensive Articulation Agreement (CAA), all IDEAs in Action requirements are satisfied, with the following exceptions:

- Global Language
- Research and Discovery
- Communication Beyond Carolina
- Lifetime Fitness
- Supplemental General Education (B.A. degree only)

If you receive equivalent course credit, you may use the transfer credit to fulfill any of the requirements listed above.

Although not required, as a first-year student you may elect to enroll in IDST 101, Triple-I (p. 1179), and a FY-Seminar or FY-Launch (p. 1171) course.

## High-Impact Experience

High-Impact Experience (HI) is a required Reflection and Integration course in the IDEAs in Action curriculum (p. 1164). There are several types of high-impact experience opportunities at Carolina.

In addition to the approved courses and experiences listed below, this requirement may also be fulfilled by taking a second Research and Discovery (p. 1225) course.

### Study Abroad

All UNC–Chapel Hill approved study abroad programs fulfill the High-Impact Experience requirement. Program information can be found at the Study Abroad Office (<https://studyabroad.unc.edu/>).

## Collaborative Online International Learning (HI-COIL)

COIL courses involve shared learning between students in a course at UNC-Chapel Hill and peer students at a global partner university. Faculty members at both institutions design collaborative activities for their

students lasting at least three weeks, such as completing small group projects, engaging in dialogue drawing on their different societal or disciplinary perspectives, or exchanging scholarly or creative work.

Search for COIL courses at the section level in ConnectCarolina using the "Search by Class Attribute" feature.

More information is available at UNC Global (<https://global.unc.edu/programs/connecting-carolina-classrooms-with-the-world/coil/>).

## Communication Beyond Carolina

Communication Beyond Carolina (COMMBEYOND) is a required Reflection and Integration course in the IDEAs in Action curriculum (p. 1164).

Students in the 2022–2023 cohort class may fulfill this requirement by taking a Communication Beyond Carolina course from the IDEAs in Action curriculum or by taking a Communication-Intensive course from the Making Connections curriculum.

- If a student enrolls in a ninth or 10th semester, no additional CLEs are required. The maximum number of required CLEs is 16 regardless of the number of terms the student attended.
- Participating in a semester-length study abroad program (fall or spring) will count for 2 CLEs. Participating in a year-long study abroad program (fall and spring) will count for 4 CLEs.
- Part-time students will attend one Campus Life Experience event for each semester they are enrolled as a part-time student (fall and spring only). The maximum number of required CLEs is 16 regardless of the number of terms the student attended.
- Seniors approved for an underload are not required to complete 2 CLE events that semester.

# UNDERGRADUATE DEGREE REQUIREMENTS

## Undergraduate Degree Programs

The University offers programs of study leading to the bachelor of arts (B.A.), bachelor of arts in education (B.A.Ed.), bachelor of arts in media and journalism (B.A.M.J.), bachelor of fine arts (B.F.A.), bachelor of music (B.Mus.), bachelor of science (B.S.), bachelor of science in business administration (B.S.B.A.), bachelor of science in information science (B.S.I.S.), bachelor of science in nursing (B.S.N.), bachelor of science in pharmaceutical sciences (B.S.Ph.S.), and bachelor of science in public health (B.S.P.H.) degrees. The University does not award any credential below a bachelor's degree credential, and any approved undergraduate certificate must be awarded in conjunction with a bachelor's degree.

The College of Arts and Sciences offers more than 50 major fields of study (p. 1030). Professional school majors are also available to undergraduates by application and acceptance. Specific requirements for each major are included in this catalog. For information about the other undergraduate degree programs, please refer to the professional schools' sections in this catalog.

### Bachelor of Arts

Students seeking a bachelor of arts (B.A.) degree must complete the Supplemental General Education (p. 1164) requirement. Among other options, completing a minor or a second major fulfills the Supplemental General Education requirement.

### Bachelor of Science

Four-year programs leading to the degree of bachelor of science (B.S.) provide for specialization in a particular field and necessary instruction in related fields. In some B.S. programs offered by professional schools, General Education requirements may be reduced. Most B.S. programs, however, require students to complete quantitative reasoning courses beyond the General Education minimum and/or require specific quantitative reasoning courses.

### Bachelor of Fine Arts

A four-year program leading to the degree of bachelor of fine arts (p. 139) is offered by the Department of Art and Art History. It provides, for qualified students, preprofessional training in creative aspects of the field of art. Approximately one-half of the program is in the field of the major, and the other half is in the liberal arts and sciences.

### Bachelor of Music

The four-year program leading to the degree of bachelor of music (p. 724), housed in the Department of Music, emphasizes training and achievement in the performance or composition of music. Approximately one-half of the program is in the field of the major, and the other half is in the liberal arts and sciences.

## Dual Bachelor's–Graduate Degree Programs

The University offers dual bachelor–graduate degree programs. The programs currently offered are listed below. The requirements for the bachelor's degree must be completed within eight semesters of study (or 10 semesters of study for transfer students (p. 1241)). The requirements for the graduate degree can be completed in as few as two additional

semesters, for a possible total of 10 (or fewer) semesters of study. For information about the requirements and application process, please consult the relevant academic unit in this catalog.

- Biostatistics (p. 265) (B.S.P.H. –M.S.), Gillings School of Global Public Health
- City and Regional Planning (p. 290) (multiple bachelor's degree majors possible–MCRP), College of Arts and Sciences
- Computer science (p. 348) (B.S.–M.S.), College of Arts and Sciences
- Contemporary European studies (p. 508) and political science (B.A.–M.A. Trans-Atlantic Master's Program), College of Arts and Sciences
- Education M.A.T. (p. 1069) (multiple bachelor's degree majors possible), School of Education
- English and comparative literature (p. 441) with a concentration in literature, medicine, and culture (B.A.–M.A.), College of Arts and Sciences
- Environmental science and engineering (p. 500) (multiple B.S. degree majors possible or B.S.PH–M.S. or M.S.P.H.), Gillings School of Global Public Health
- Environmental science and information science (p. 480) (B.S.–M.S.I.S.), College of Arts and Sciences and the School of Information and Library Science
- Environmental studies or environmental science and public administration (p. 471) (B.A. or B.S.–M.P.A.), College of Arts and Sciences and the School of Government
- Environmental studies or environmental science and geography (B.A. or B.S.–M.A.), College of Arts and Sciences
- Environmental studies or environmental science and mass communication (p. 471) (B.A. or B.S.–M.A.), College of Arts and Sciences and the School of Journalism and Media
- Information science (p. 1099) (B.S.I.S.–M.S.I.S. or M.S.L.S.), School of Information and Library Science
- Linguistics (p. 684) (B.A.–M.A.), College of Arts and Sciences
- Nutrition (p. 739) (B.S.P.H.–M.S.), Gillings School of Global Public Health
- Public Policy (p. 858) (multiple bachelor's degree majors possible–MPP), College of Arts and Sciences
- Statistics and analytics (p. 1002) and statistics and operations research (B.S.–M.S.), College of Arts and Sciences

## Joint Degree Programs with the National University of Singapore (NUS)

UNC–Chapel Hill undergraduates can spend anywhere from two to four semesters at the National University of Singapore and receive a joint bachelor of arts degree from both institutions. Programs are offered in biology (p. 236), economics (p. 396), English (<http://catalog.unc.edu/undergraduate/programs-study/english-major-ba/>), geography (p. 546), history (p. 650), and political science (p. 821).

## Requirements for Undergraduate Degree Programs

The requirements and limitations that apply to all undergraduate degree programs are as follows:

- Students must successfully complete at least 120 semester hours of coursework (requirements are higher than this minimum in some bachelor of science degree curricula)

- Students must have at least a 2.000 final cumulative grade point average on all work attempted at the University of North Carolina at Chapel Hill.
- Students must satisfy all General Education requirements. In some B.S. programs offered by professional schools, General Education requirements may be reduced. No course used as a General Education requirement may be *declared* Pass/Fail.
- A minimum of 45 academic credit hours must be earned from UNC–Chapel Hill courses. These may include credits from study abroad programs sponsored by the University, only if they are faculty-led, graded UNC credit courses.<sup>1</sup>
- At least 24 of the last 30 academic credit hours applied to the degree requirements must be earned in UNC–Chapel Hill courses.<sup>2</sup>
- No more than 45 semester hours in any subject, as defined by subject code, may be used toward fulfilling the B.A. graduation requirement in the College of Arts and Sciences (excluding ENGL 100, ENGL 105, and ENGL 105I).
- Students completing the requirements for more than one major field of study will earn only one degree and receive only one diploma. For additional information, including which degree is awarded when completing more than one major field of study, refer to Policies and Procedures (p. 1287).

## Additional Notes

<sup>1</sup> Study abroad transfer credit does not count toward the minimum of 45 academic credit hours that must be earned from UNC–Chapel Hill courses. Students who have transferred in the maximum of 75 transfer hours from other institutions may study abroad on programs sponsored by the University where transfer credit is earned, but they still must earn 45 credit hours from UNC–Chapel Hill courses. *For additional information, please refer to University Policy Memorandum #14* (<https://registrar.unc.edu/academic-services/policies-procedures/university-policy-memorandums/upm-14-administration-of-year-abroad-programs/>); *approved Fall 2020 for Spring 2021 implementation.*

<sup>2</sup> Study abroad transfer credit (earned on study abroad programs sponsored by the University) can count towards the final 24 hours that must be earned in UNC–Chapel Hill courses.

(Note: The language in the "Terms in Residence and Transferred Semesters" section below was changed on March 17, 2023.)

## Terms in Residence and Transferred Semesters

### First-Year Students

Students who enter the University as first-year students are expected to complete their undergraduate degree in eight semesters. Summer terms are not included in the semester count as noted below.

Students who wish to attend a ninth semester must submit a written petition to, and receive permission from, their dean's office. Permission to enroll in a ninth semester or beyond must be secured in advance. Permission to enroll in a ninth semester or beyond will not be granted for the sole purpose of completing multiple areas of study (i.e., a secondary major and a minor or two minors). However, students who receive permission to enroll in a ninth semester or beyond for other reasons may retain a secondary major or minor.

## Transfer Students

Transfer students who enter with fewer than two transfer semesters (UNC-equivalent semesters) are expected to complete their degree in eight total semesters (which includes both transferred semesters and terms in residence).

Students who enter with two or more transferred semesters may enroll in up to 10 total semesters and complete up to three areas of study, such as a secondary major and a minor or two minors.

For additional information, see "Transfer of Credit" in Undergraduate Admissions (<https://catalog.unc.edu/admissions/undergraduate/#text>) and "Calculation of Transferred Semesters Based on the Number of Transferred Credit Hours" in the Credit and Evaluation (<https://catalog.unc.edu/policies-procedures/credit-evaluation/>) section of the Catalog.

## Maximum Length of Study

Students who have completed their graduation requirements for their first degree may not receive financial aid for subsequent semesters. For additional eligibility information, refer to SAP policy (<https://studentaid.unc.edu/current/sap/>).

## Summer Semesters

Courses completed during summer semesters *after* a student is enrolled at UNC–Chapel Hill are not included in the semester count.

Transfer credit hours for courses completed during summer terms *prior* to enrolling at UNC–Chapel Hill are included in the transferred semester count. Summer enrollment at UNC–Chapel Hill immediately before the first semester of full-time, degree-seeking enrollment as a transfer student will not count towards the calculation of semesters completed.

*Maintained by the Educational Policy Committee. Last approved on January 27, 2017. See Resolution 2017-1.*

Students must complete a major field of study as prescribed by the academic unit.

## Requirements for Majors

The following requirements and limitations apply to all undergraduate academic majors at the University:

- Unless specifically prohibited by departments or curricula, major or minor courses may be used to satisfy General Education requirements.
- Courses in a student's major academic unit, or specifically required by the major, including foreign language courses, electives, and any additional required courses (or any courses cross-listed with such required courses) may not be declared a Pass/Fail course (p. 1265).
- A minimum cumulative GPA of 2.000 in coursework taken at UNC–Chapel Hill in the major core is required. *Some programs may require higher standards for admission to the program, for prerequisite courses in specific sequences, and/or for specific core courses, particularly for professional school programs with additional accreditation standards.*
- All students, including students transferring from another institution, must take at least half of their major core requirements (courses and credit hours) at UNC–Chapel Hill.
- Some majors require a gateway course that must be taken first, before enrolling in any other courses that satisfy the core

requirements in the major. Students must earn a grade of C or better (C- does not qualify) in the gateway course.

- No more than two courses (six to eight credit hours) of BE credit (p. 1257) may be used as part of the major core.

## Requirements for Minors

Students enrolled in the College of Arts and Sciences who wish to complete a minor in a professional school must receive permission from the professional school.

The following requirements and limitations apply to all undergraduate academic minors:

- A student may have no more than two minors, regardless of the student's major degree program. Academic units may exclude certain minors from being elected and completed by students majoring in these units.
- More than half (not merely half) of the credit hours and courses (including cross-listed courses) taken to satisfy the minor requirements must be counted exclusively in the minor and not double-counted in other majors or minors.
- At least nine hours of core requirements in the minor must be completed at UNC–Chapel Hill and not at other academic institutions. Certain academic units may require that more than nine hours must be completed at the University.
- Some academic units may disallow the double-counting of courses in the minor and as General Education courses.
- A minimum cumulative GPA of 2.000 in coursework taken at UNC–Chapel Hill in the minor core is required. Some programs may require higher standards for minor or specific courses.
- No more than one BE credit (p. 1257) course (three to four credit hours) may be used as part of a minor.
- All courses in the minor unit must be taken for a regular letter grade. Courses in a student's minor unit, or specifically required by the minor, including foreign language courses, electives, and any additional required courses (or any courses cross-listed with such required courses) may not be declared a Pass/Fail course (p. 1265).
- If students plan to pursue the completion of a minor, they are encouraged to declare their minor by early in the junior year.

## Combining Majors and Minors

Students in the College of Arts and Sciences are permitted to study up to three subjects in depth. They may do this in one of the following ways:

- one major
- two majors
- one major and one minor
- two majors and one minor
- one major and two minors

Students enrolled in professional schools who wish to have a second major or minor in the College of Arts and Sciences must receive permission from their professional school and the College of Arts and Sciences; students who receive permission to have a second major in the College of Arts and Sciences are required to complete all General Education requirements. Students enrolled in professional schools who wish to have a second major or minor in a different professional school must receive permission from both professional schools.

A student may pursue in-depth study in multiple areas by fulfilling all major/minor requirements in each of the selected disciplines, in addition to General Education requirements. Students may not pursue two concentrations (emphases, options, or tracks) within the same major. In general, students may pursue a minor in the same department or curriculum as the major, provided they follow the double-counting rules described below and do not exceed 45 credit hours of coursework in any one subject. For example, a major in Asian studies with a concentration in Japanese and a minor in Korean, both housed in the Department of Asian Studies, are permitted. Some departments may restrict majors and minors within the same academic unit, so please consult an academic advisor, the department, or the curriculum.

Courses that fulfill core requirements for a major or minor may be double-counted (applied to a second major or minor) with the following general limitation: more than half (not merely half) of the courses and course credit hours taken in each major/minor must be exclusive to that major/minor. In a 10-course major, for example, at least six courses, and at least 51 percent of the credit hours, should be counted exclusively in that major and should not double-count even if cross-listed with courses in a student's second major or a minor. Some majors may further restrict double-counting courses. Students who are pursuing two majors and a minor (or two minors and a major) may, in principle, use a single course to satisfy requirements in all three areas of study, provided that more than half (not merely half) of the courses and course credit hours taken in each major/minor are exclusive to that major/minor.

## Graduation

Beginning with the first day of registration for the term for which students expect to graduate, they should file an application for graduation online in ConnectCarolina or in person in the office of the dean. For students in the College of Arts and Sciences, this is the office of the Academic Advising Program. A student who has not filed an application for graduation on or before the announced deadlines for fall or spring graduation will not be included in the graduation program.

Students must pay tuition, fees, and other obligations owed the University before receiving a diploma.

### Graduation Requirements and Tar Heel Tracker

Total graduation requirements are determined by ConnectCarolina's Tar Heel Tracker degree-audit system. Students are also encouraged to meet with their academic advisor.

## Additional Policy and Procedures

The Policies and Procedures (p. 1256) section of this catalog contains information on many important topics, including registration, academic course load, academic eligibility, repeating course enrollments, final examinations, and the grading system, among others.

## Undergraduate Honors: Degrees with Distinction

To graduate with distinction or with highest distinction, students must have completed at least 45 academic hours at UNC–Chapel Hill and have an overall grade point average of at least 3.500 or 3.800 respectively. The grade point average is based on the grades received and recorded by the Office of the University Registrar as of the degree award date. No changes are permitted to the awards after that date.

## Undergraduate Honors: Degrees with Honors

Students who wish to graduate from UNC–Chapel Hill with honors or highest honors must complete a senior honors thesis project in their major field(s) of study. Such students need not have been members of Honors Carolina. They must, however, meet academic eligibility standards set by Honors Carolina and the individual departments, curricula, and professional schools that sponsor senior honors thesis programs.

Students with double majors may graduate with honors or highest honors in both fields of study. To do so, they must complete a distinct project in each field. Students may not undertake a senior honors thesis project in a minor field (Creative Writing is the sole exception) or in a field outside of their declared major(s).

Students who successfully complete a senior honors thesis project will have the designation “Honors” or “Highest Honors” recorded on their diplomas and transcripts and will be denoted in the Commencement bulletin at graduation. Creative Writing minors earning honors or highest honors will also be recognized in the Commencement bulletin and have a special remark added to their transcripts, but no designation will appear on their diplomas.

**Application for honors work:** Students should apply to the honors advisor in the department or curriculum of the major. Ordinarily, application is made during the junior year, although it is done earlier in some departments. Detailed information concerning the application should be obtained from the honors advisor in the major.

**Requirements for eligibility:** Students who wish to undertake a senior honors thesis project must have a cumulative grade point average of 3.300 or higher. Academic units that wish to impose a higher grade point average eligibility standard may do so by requiring that students meet both the cumulative 3.300 grade point average standard set by Honors Carolina office and a higher grade point average standard for all coursework required for the major.

**Nature and purpose of honors study:** Programs are provided for students who have demonstrated a high level of scholastic ability and achievement and who desire to pursue an intensive, individualized program of study in their major discipline. Senior honors thesis students must complete an original and substantial research, performance, or creative project under direct supervision by a faculty advisor.

Senior honors thesis projects are scheduled as a two-semester sequence of honors courses led by unit-designated faculty, independent study overseen by the faculty thesis advisor, or a combination of the two. Detailed guidelines on approved senior honors thesis scheduling formats are available on the Honors Carolina website (<http://honorscarolina.unc.edu>). Regardless of the scheduling format used, students must complete a total of 6.0 credit hours of senior honors thesis coursework during consecutive semesters, not during summer sessions.

A special written or oral examination on the student’s program is required during the final semester of honors study. The department or curriculum may impose other requirements that it deems appropriate. In every instance, study for honors will require academic excellence. When the student has fulfilled all requirements, the department or curriculum will recommend to the associate dean for honors that the degree be awarded with honors or with highest honors. The degree with highest honors is conferred in recognition of extraordinary achievement in a program of honors study.

**Procedures for granting degrees with honors:** The grade for coursework in connection with an honors project is determined by the faculty advisor and is (like all grades) subject to appeal. Successful completion of honors study does not automatically confer departmental honors. Before awarding a degree with honors or highest honors, the College of Arts and Sciences requires the recommendation of a student’s examining committee and the endorsement of that committee’s recommendation by the chair of the department or curriculum. A negative recommendation by the department is final and cannot be appealed. The associate dean for honors makes the final decision to award a degree with honors on the basis of the department’s positive recommendation and the student’s cumulative grade point average.

## Phi Beta Kappa

This national collegiate honor society is open to undergraduate students in the College of Arts and Sciences and in exceptional circumstances (as described below) to students enrolled in undergraduate professional degree programs. The following students in the College of Arts and Sciences are eligible for membership:

- Students who have completed at least 75 semester hours of graded academic coursework in the liberal arts and sciences at UNC–Chapel Hill with a quality point average of at least 3.850
- Students who have completed at least 105 semester academic course hours in the liberal arts and sciences, at least 45 of which must have been graded coursework taken at UNC–Chapel Hill with a quality point average of at least 3.750

No grades made at an institution from which a student has transferred shall be included in determining a student’s eligibility. The quality point average shall include all academic coursework in the liberal arts and sciences taken and counted toward the candidate’s degree (physical activity grades and hours are not included). Grades and hours received on courses taken after the candidate has received his or her degree shall not be counted.

Undergraduate students not enrolled in the College of Arts and Sciences who meet the general semester hours and quality point average described in the second bullet above and who have completed at least 90 semester hours of coursework in the departments and curricula of the College of Arts and Sciences (or the equivalents accepted for transfer credit from other institutions) are eligible for election.

## Dean’s List

To be eligible for the Dean’s List, full-time students who enter the University as first-time, first-year students beginning in fall 2010 must meet the following requirement:

- A 3.500 grade point average with no grade lower than a C and enrollment in at least 12 hours of letter-grade credit, exclusive of physical education activities (PHYA) courses.

The grade point average is based on the grades received and recorded by the Office of the University Registrar at the time the Dean’s List is published. No changes are permitted to the Dean’s List after that date.

# RESOURCES: CAMPUS LIFE

## Campus Safety

285 Manning Drive (via Hardin Drive)  
Monday - Friday, 7:30 a.m. to 5:00 p.m.  
(919) 962-8100 (non-emergency) or 911

UNC Police is committed to creating and maintaining an environment where students, employees, and visitors to campus can feel safe in this vital community. Through its philosophy of community-oriented policing (COP), the department strives to employ professionalism, problem solving, and innovative strategies to remain one of the premier public safety agencies in the nation.

Familiarize yourself with security resources such as the campus-wide network of emergency call boxes, Smart911, self-defense instruction, other crime prevention classes, and much more.

In addition, the University has the capacity to send emergency warnings by text message to students, faculty, and staff through its Alert Carolina initiative. The entire University community is encouraged to educate itself regarding UNC's emergency communications resources and to register cell phones for this method of communication by visiting the Alert Carolina website (<https://alertcarolina.unc.edu/>).

The LiveSafe App provides students, faculty, and staff a direct connection to UNC Police so that everyone can easily communicate all their safety needs. Its easy-to-use features help you stay safe every day and enable us to better protect you. Benefits include the ability to share information, tips, and safety concerns with UNC Police via pictures, video, or audio messaging; easy access to call or message UNC Police to summon help; access to SafeWalk (<https://safewalk.unc.edu/>), a GPS-tagged monitoring feature that allows your friends and family to keep you virtually covered until you arrive safely at a destination; and easy-to-find information and location of safety resources on and off campus. To download and set up LiveSafe on your iPhone or Android phone, select "University of North Carolina Chapel Hill" as your affiliation and fill in your user profile.

UNC-Chapel Hill students and staff can learn how to respond in an active shooter scenario by attending a "Shots Fired" training presentation offered by UNC officers.

Concerns may be addressed at the following campus telephone numbers:

## Carolina Housing

Student and Academic Services Building North  
CB# 5500  
450 Ridge Road  
(919) 962-5401  
[housing@unc.edu](mailto:housing@unc.edu)

Carolina Housing (<https://housing.unc.edu/>) works to provide convenient housing that is secure, inclusive, and supportive. Students create a home in our on-campus communities, build lifelong friendships and develop skills for their current and future successes as they journey through their Carolina experience. Students are encouraged to work towards leaving

their "HEELprint" on the larger University by connecting with resources, taking advantage of leadership opportunities, and making a difference while they are Carolina students. By getting involved, students develop an identity with the larger University community, create social networks, and find opportunities for intellectual, spiritual, physical, and occupational growth.

Carolina Housing is an integral part of the academic and social community at UNC-Chapel Hill. It is committed to providing an environment conducive to the educational, psychological, and social development of residents. It strives to build a community that balances respect for the individual as well as the rights and interests of the whole community. All members of the residence hall and apartment community – residents, staff, and visitors – are expected to act in a manner that demonstrates respect and consideration for those around them.

Carolina Housing offers a variety of academic success and engagement initiatives to help student staff and on-campus residents develop healthy academic habits and support systems that lead to student success. These initiatives include residential learning programs, academic advising in the residence halls, transitional programming for first-year students, faculty engagement programs such as Meals with Heels and the Scholar in Residence, individual community programming on academic success, and an experiential education course, EDUC 318. This holistic approach complements classroom experiences and lays the foundation for students to become better prepared to succeed in life beyond college.

**Graduate Student Housing.** Carolina Housing recognizes that the living needs of graduate and professional students are usually different from those of undergraduates. At Carolina, graduate and professional students can enjoy the benefits of being affordably close to classes, facilities, and events, and living in a community of fellow graduate students where the atmosphere is characterized by early quiet hours and respect for personal time and space.

Baity Hill Graduate and Family Housing (<https://housing.unc.edu/live/explore-the-halls/graduate-and-family-housing/>) is Carolina's on-campus community for graduate students providing apartment-style housing. The property houses students with families and graduate students with roommates. This one- and two-bedroom apartment community is situated on rolling hills adjacent to the campus. The apartments are within walking distance of the campus and are served by campus and city bus routes. Rental costs compare favorably with similar area housing.

Parking is available for graduate students on a limited basis, and a fare-free campus bus service offers several routes that connect the north, middle and south regions of campus. Find specifications for apartments by visiting the Carolina Housing website (<https://housing.unc.edu/live/explore-the-halls/graduate-and-family-housing/>).

Generally, demand for on-campus housing for graduate students exceeds the supply. On-campus housing is not guaranteed for graduate students, although every effort is made to offer a space to all applicants. Returning residents have priority to re-contract for the following academic year before spaces are offered to new graduate students. Additional information is available on the Carolina Housing website (<https://housing.unc.edu/live/explore-the-halls/graduate-and-family-housing/>).

**Off-Campus Graduate Student Housing.** Off-campus housing refers to any housing not owned and operated by the University of North Carolina at Chapel Hill. This category includes small group housing such as fraternities and sororities, as well as apartments, houses, and rooms. Two-thirds of the University's students live in the off-campus market.

Students will find furnished and unfurnished units, as well as units within walking distance to campus or spread throughout Chapel Hill and Carrboro.

## Carolina Union

The Carolina Union (<https://carolinaunion.unc.edu/>) creates safe, inclusive, and educational experiences that enable students to maximize their time at Carolina. "Carolina Union" is the term used for both the Frank Porter Graham Student Union Building and the University department that serves students in many areas of their cocurricular lives. Governed by a board of directors consisting of students and faculty, the Carolina Union's role is to unify the campus community by providing programs, services and facilities.

Cultural, educational, and social programs are planned and implemented by the Carolina Union Activities Board (<https://carolinaunion.unc.edu/programs-orgs/carolina-union-activities-board/>) (CUAB).

The Union contributes to the educational mission of the University by providing cultural, social, educational and entertainment programs. The Union also provides many services for the University community, supporting and enhancing student organizations and the programs they create.

## The Office of the Dean of Students

Student Academic Services Building North, Suite 1106  
450 Ridge Road  
(919) 966-4042

The Office of the Dean of Students (<https://odos.unc.edu/>) provides support and assistance to the University of North Carolina at Chapel Hill community, empowering students to succeed in navigating the University environment. Its four pillars — Care, Collaborate, Celebrate, and Empower — inform its programs, services, and initiatives. The office often serves as a beginning point of contact for students, faculty members, staff, families, and community constituencies regarding various student concerns. It supports student academic, personal, and professional development through a combination of individual initiatives, innovative outreach programs, and cocurricular opportunities, as well as policy development and oversight.

## Off-Campus Student Life

[offcampushousing.unc.edu](http://offcampushousing.unc.edu) (<http://offcampushousing.unc.edu>) (Web)

In alignment with the mission of Student Affairs at the University of North Carolina at Chapel Hill, Off-Campus Student Life (<http://offcampus.unc.edu/>) is committed to educating all students (undergraduate, graduate and professional) in life skills related to living off campus and in the community. These skills include:

- Becoming responsible tenants and community members knowledgeable of city ordinances and community quality of life issues
- Making informed choices about housing and roommates
- Gaining proficiency in problem solving when landlord and roommate difficulties arise
- Understanding personal safety and responsibility

For many students, transitioning into off-campus housing is as much a part of their college experience as first moving into the residence halls. For graduate and professional students, living in graduate housing like Baily Hill or in the community (Chapel Hill, Carrboro, or beyond) during their entire time at Carolina fits with their place in life and needs as a post-college adult. But, there can be significant challenges when leaving the intentional structure of an on-campus living environment. We are here to help students navigate their way as successful neighbors in our greater Chapel Hill–Carrboro community. We advocate for and educate toward the development of students as knowledgeable, active, and responsible community citizens. Students living off campus and in the community have rights and responsibilities associated with their pursuit of an enjoyable and safe living experience. We provide services and educational opportunities to promote the understanding of these rights and responsibilities throughout the off-campus student population.

Fraternity and Sorority Life (<https://ofslci.unc.edu/>) provides services, programs, and assistance to the 50 fraternities and sororities that make up the Chapel Hill Greek community. The office's mission is to enhance the academic experience, holistic development, and civic contribution of students by providing effective services and developmental opportunities that enrich the Carolina experience. Fraternity and Sorority Life advocates for the fraternal movement by educating, advising, and empowering fraternities and sororities and their members to live according to their organizational values and contribute to the University and greater community.

## Information Technology Services

Web: [its.unc.edu](http://its.unc.edu) (<http://its.unc.edu>)  
Telephone: (919) 962-HELP (4357)  
T: 711 NC RELAY

Information Technology Services (ITS) leads UNC–Chapel Hill in planning, implementing and maintaining the University's technology services. The ITS staff is dedicated to delivering reliable, secure and satisfying information technology solutions and experiences to the University community.

For more information on free software, computer setups, and other tech services, visit [its.unc.edu/get-started](http://its.unc.edu/get-started) (<https://its.unc.edu/get-started/>).

To keep up with ITS throughout the year, follow @UNCTarHeelTech on Twitter.

## Adobe Creative Cloud

adobe.unc.edu (<http://adobe.unc.edu>)

UNC–Chapel Hill provides all students and instructional faculty and staff with access to Adobe Creative Cloud at no additional cost to students. Adobe Creative Cloud is a package of creative desktop applications for digital imaging, design, web, and video, plus free stock photos and cloud storage. Popular Adobe Creative Cloud apps include Photoshop, Illustrator, Premiere, Acrobat Pro, and InDesign. New students can activate their license by visiting [adobe.unc.edu](http://adobe.unc.edu) (<http://adobe.unc.edu>).

## Carolina Computing Initiative

cci.unc.edu (<http://cci.unc.edu>)

Undergraduate students are required to bring laptops that meet the University's minimum standards for their graduating class. The Carolina Computing Initiative (CCI) ensures that students have access to high-quality computers and exceptional support services. All CCI laptops come with a standard software package, warranty, and protection plans.

CCI laptops are offered at deeper discounts than standard educational pricing, and many students are eligible for laptop grants that cover the entire cost of a CCI laptop package. New students can apply for this need-based financial aid by submitting the College Board CSS/Financial Aid Profile to UNC–Chapel Hill. Purchase your laptop or use your laptop grant at the Tech Shop, the technology division of the UNC Student Stores.

Students who opt not to purchase a CCI machine are still required to bring a laptop that meets the technology requirements specified by the University.

Students with CCI laptops receive on-site tech support, hardware repair, and loaner laptops through the ITS Service Desk. While software and operating system support is available through the ITS Service Desk for non-CCI laptops, the level of support for students who own a CCI laptop is higher. Hardware support and loaner laptops are available on campus for students who own CCI laptops, while for non-CCI laptops, hardware support is the responsibility of the student.

For more information about the advantages of owning a CCI model, visit [cci.unc.edu](https://cci.unc.edu) (<https://cci.unc.edu>).

## Printing

UNC–Chapel Hill fee-paying students are given an allotment of pre-paid pages on their One Card for printing each semester. Once the allotted pages have been used, students may purchase additional pages.

## ITS Service Desk

The ITS Service Desk is the central point of contact for students who need tech help. The Service Desk assists students with hardware and software problems and answers questions about UNC–Chapel Hill technology services. Assistance is free to all students.

Students can contact the Service Desk by calling (919) 962-HELP, visiting [help.unc.edu](https://help.unc.edu) (<https://help.unc.edu>) to chat or submit a request, or visit us in person. Hardware repairs for CCI computers are made at the Service Desk. While students' CCI machines are being repaired, the Service Desk may be able to provide students with a loaner laptop.

## ResNET: Residential Networking, Education, and Technology

ResNET provides on-campus residents with on-site tech support and education. Residents are served by more than 40 live-in student techs who provide any tech support that residents may need. Throughout the year, ResNET hosts educational events focused on showing new technology on campus. ResNET maintains the Carolina Gaming Arena for campus computer and console gameplay. Find more at [resnet.unc.edu](https://resnet.unc.edu) (<https://resnet.unc.edu>) and [carolinagaming.unc.edu](https://carolinagaming.unc.edu) (<https://carolinagaming.unc.edu>).

### Download CarolinaGO

CarolinaGO, the University's official mobile app, is a collaboration between ITS and student leaders. With CarolinaGO, students can access a mobile version of ConnectCarolina, check dining hours, find bus schedules, check printing availability, and more. Maps also make it easy for new students and families to navigate campus. Search "CarolinaGO" in the App Store or Google Play.

## The James M. Johnston Center for Undergraduate Excellence

225 Graham Memorial  
218 E. Franklin Street  
(919) 966-5110

The James M. Johnston Center for Undergraduate Excellence (<http://honorscarolina.unc.edu/johnston-center/>) is a "democracy of learning" open to students, faculty, alumni, and visitors from all corners of the Carolina campus and beyond. The mission is to encourage undergraduates' active engagement with research, scholarship, and artistic endeavor; to promote innovative teaching; and to provide a social setting in which students can engage in thoughtful discussions with professors and classmates.

The Johnston Center houses Honors Carolina (<http://honorscarolina.unc.edu/>), the Office of Burch Programs (<http://honorscarolina.unc.edu/fellowships/burch-fellowship/>) and Honors Study Abroad (<http://honorscarolina.unc.edu/global-honors/>), the Office of Distinguished Scholarships (<http://honorscarolina.unc.edu/ods/>), the Office for Undergraduate Research (<http://honorscarolina.unc.edu/research/>), the Robertson Scholars Program (<https://robertsonscholars.org/>), and the Beasley Multimedia Center.

The Johnston Center's student-faculty advisory committee advises its director on all aspects of programming and planning.

## LGBTQ Center

Student Academic Services Building South, Suite 3308  
385 Manning Drive  
(919) 843-5376  
[lgbtq@unc.edu](mailto:lgbtq@unc.edu)

The Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) Center (<https://lgbtq.unc.edu/>) works to foster a welcoming and inclusive environment for UNC–Chapel Hill community members of all sexual orientations, gender identities, and gender expressions. The LGBTQ Center offers educational training programs such as Safe Zone, student social groups such as Club Soda, student leadership programs such as

the Ambassador's and direct support and advocacy to students, staff, and faculty.

## New Student and Family Programs

Student Academic Services Building South, Suite 3318  
(919) 962-8304  
newstudents@unc.edu

New Student & Family Programs (NSFP) (<https://nsfp.unc.edu/>) provides new undergraduate students the information and activities needed to transition smoothly to the University of North Carolina at Chapel Hill, and promotes an ongoing relationship between the families of undergraduate students and the University in support of their students' success.

To fulfill this mission, NSFP provides transition programs and services, communications for new students and families, and student leadership opportunities.

First-year and transfer students (and their families) attend New Student and Family Orientation prior to their first semester. The transition process continues when students arrive and participate in Weeks of Welcome.

NSFP's family programming includes Carolina Family Weekend, the Family Football Experience, communications through the UNC Family Experience portal, and family engagement opportunities, including the Carolina Parents Council.

NSFP provides paid student leadership opportunities across four student teams, including Orientation Leaders, the WOW Board, Project Coordinators, and Undergraduate Fellows.

## Student Affairs

Henry Owl Building  
230 East Cameron Avenue  
(919) 966-4045  
studentaffairs@unc.edu

Student Affairs (<https://studentaffairs.unc.edu/>) serves the University of North Carolina at Chapel Hill in collaboration with academic programs by providing transformational opportunities for students in the areas of student life, health and wellness, leadership and service, and diversity.

The importance of the learning process is paramount at the University of North Carolina at Chapel Hill. Student Affairs provides many services and programs that encourage and support the learning that takes place beyond the classroom. These departments and programs aim to assist students in integrating the various aspects of their lives so as to promote learning, self-awareness, self-determination, and broadened perspectives on the world. Student Affairs departments and programs afford students the opportunity to gain knowledge and develop skills to improve performance inside and outside the classroom; to enhance leadership potential; to find opportunities to serve fellow students and the community; to explore, plan, and prepare for a career; to plan for an active and rewarding life; to develop citizenship; and to improve interpersonal and life skills.

While Student Affairs offers programs designed primarily for undergraduate students, The Graduate School, on its own and in conjunction with various Student Affairs offices, offers programs and services intended to specifically address the needs of graduate and professional students.

The Office of the Vice Chancellor coordinates Student Affairs programs and provides guidance and leadership for its departments. The office also acts in a consulting role for faculty, administrators, and students who wish to raise issues that concern the University community, with a particular focus on student needs.

## Student Dining Services

Carolina Dining Services  
(800) UNC-MEAL  
36 Lenoir Drive, Chapel Hill, N.C. 27599

Carolina Dining Services (<https://dining.unc.edu/>) offers several meal plans that offer the convenience and value of purchasing meals on campus ahead of time. Meal purchases can be made with the UNC One Card using a meal plan, Dining Flex, à la carte, expense, or cash. To find out more about acquiring a UNC One Card, visit the One Card Office website (<https://onecard.unc.edu/>) or the UNC One Card office on the third floor of UNC Student Stores.

Students can use their meal plans at several of the campus all-you-care-to-eat dining facilities, as well as at retail locations, food trucks, for on-campus delivery, and more. On North Campus, Top of Lenoir is an award-winning facility with an array of menu choices. On South Campus, the Rams Head Dining Hall is a 30,000 square foot state-of-the-art facility that includes several restaurants and all-you-care-to-eat venues.

## Student Government

The by-laws of the Board of Trustees of the University invest in the chancellor of the University "the duty . . . to exercise full authority in the regulation of student conduct and in matters of student discipline." At the same time the chancellor has delegated authority to exercise disciplinary and administrative functions in student life to agencies of student government. Within the context of this delegated authority and responsibility, the student body at the University has been self-governing for decades.

Student government at Carolina is more than 100 years old, and hundreds of students are involved in the various branches every year. From serving on the Board of Trustees to the appropriation, oversight, and authority of student fees, from instituting governmental service to enforcing the Honor Code, student government affects the life of every student every day.

The entire framework of student government's activities rests on its ability to maintain the foundation of administrator-student relations. The University should serve as an advisor, not as a supervisor, to the student body. To enjoy this freedom, students at Carolina must be willing to take a certain amount of responsibility to develop their own community and community values. Student government serves to maintain this freedom and the advisory, not supervisory, relationship.

In 1876 the Honor System officially ended all vestiges of the monitorial system; in 1904 a judicial body, the University Council, was established; in 1938 the Student Legislature was established; and in 1946 a written constitution was approved. In 1968 the coeducational Honor Court was formed out of the Men's Court and Women's Court to hear all Honor Code cases. The *Instrument of Student Judicial Governance* was ratified and put into operation in 1974, was significantly revised in 2003, and then amended in 2015 and 2017.

Student government at UNC–Chapel Hill approximates the federal system of government with its three branches: an executive branch, a legislative branch, and a judicial branch.

## The Executive Branch of Student Government

This group (<http://execbranch.unc.edu/>) serves as the official voice of the student body to the University and broader community, including the town of Chapel Hill and the state of North Carolina. Heading the executive branch is the student body president, assisted by the vice president, the president of the Graduate and Professional Student Government, student body treasurer, student body secretary, the chief of staff, and the senior advisor. As determined by and reflective of the needs of the student body, the president structures his/her cabinet and committees and makes appointments to a wide range of University committees that address those needs and other concerns as they arise during the year. These committees usually include hardship parking, elections board, University services, information technology, student life, minority affairs, first-year focus council, and public service.

## Legislative Branch

Student Congress is unicameral, consisting of 41 representatives elected by the student body, with the student body president and the student body treasurer serving as nonvoting ex officio members. The speaker of the Student Congress is elected from among the 41 representatives. Graduate and professional students and on- and off-campus undergraduates are proportionally represented in the Congress.

Student Congress handles considerable legislation and, as one of its primary responsibilities, oversees the student activity fees budget and other student fee areas. Established by student and University committees before approval by the Board of Trustees, a predetermined amount of the fees paid by each student provides the source of funds for Student Congress's annual allocation and subsequent appropriations budgets. These funds are allocated to petitioning student organizations that have received official University recognition. The student body can petition for changes in the student activities fee at any time.

Student Congress representatives are elected in the spring for one-year terms, and each member serves on one of three standing committees: finance, rules and judiciary, and student affairs. A fourth committee, ethics, is composed of senior members of the Congress.

## Judicial Branch

There are two major areas that comprise the judicial branch; the first is responsible for the *Instrument of Student Judicial Governance*, and the second is responsible for resolving issues related to the Student Code (<https://senate.unc.edu/law/>).

The Honor Court hears all cases involving potential violations of the Honor Code. There are separate courts for undergraduate students, graduate students, and students in the Schools of Law, Medicine, Dentistry, Pharmacy, and Business. The Honor Court is organized as follows:

- Office of the Student Attorneys General: The appropriate (undergraduate or graduate) student attorney general investigates all potential violations of the Honor Code. Staff members also present cases to the Honor Court and assist students accused of violating the Honor Code.
- University Hearings Board: These boards are made up of faculty, staff, and students. The University Hearings Board generally hears appeals of Honor Court cases.

- Students interested in serving on the Honor Court or the student attorney general's staff should contact the Honor System Office at (919) 966-4084 for information about how to apply.
- Student Supreme Court: This court adjudicates all issues of student constitutional law to be decided under the Student Code. This body most closely fills the traditional judicial branch of government and consists largely of students with previous experience in student government, mediation, and/or law.

## For Graduate Students

The Graduate and Professional Student Government (GPSG) (<http://gpsf.unc.edu>), the official representative of graduate and professional students at the University, is organized based on school, departmental, and curricula organizations. The GPSG provides communication between graduate and professional students, represents graduate and professional students both within and outside the University community, and provides structures capable of dealing with ongoing issues and concerns. It also allocates and administers the funds appropriated to it from student fees. Every duly enrolled graduate and professional student is automatically a member of the GPSG.

## Transportation and Parking

Public Safety Building at 285 Manning Drive (via Paul Hardin Drive)  
(919) 962-3951  
Weekdays 7:30 a.m. to 5 p.m.

Transportation and Parking (<https://move.unc.edu/>) is an essential part of the University and is responsible for coordinating all traffic, parking, and transportation around campus.

## Parking

Students at UNC–Chapel Hill who park an automobile on weekdays in University parking areas are required to obtain a parking permit. Students, excluding first years, may apply for parking permits during online registration (<https://move.unc.edu/parking/student-parking/>). Transportation and Parking uses virtual permits for parking on campus.

Weeknight parking is in effect Monday evenings through Friday mornings from 5 p.m. to 7:30 a.m. Student fees cover the annual permit cost (excluding first-year students). Daytime permits are honored during weeknight parking and no further action is required. Students without a daytime permit must register their license plate online (<https://move.unc.edu/parking/weeknight-parking/>) to receive weeknight parking access for the academic year.

Parking permit holders must park only in specific zones as indicated on their permit assignment. Please note the signs at the entrances to each lot which detail the hours of enforcement for that parking area.

## Accessibility Accommodations

Students who have mobility limitations that require transportation accommodations must apply through the Transportation and Parking Accommodations Committee (<https://move.unc.edu/parking/accessibility/tpac/>). In accordance with the Ordinance Regulating Traffic and Parking at the University of North Carolina at Chapel Hill (<https://move.unc.edu/about/publications/parking-ordinance/>), students are required to apply for and purchase the appropriate permit to park in the spaces reserved for mobility-impaired employees and students.

Vehicles found parked illegally may be cited by Transportation and Parking and subsequent violations may result in further citations, immobilization ("booting"), or towing of the vehicle. Citations may be

appealed through the Transportation and Parking Appeals Office within 10 calendar days upon receipt of the citation. Citations can be appealed in person during office hours Monday through Friday from 7:30 a.m. to 5 p.m., online (<https://move.unc.edu/account/>) or by mail.

### Commuter Alternative Program

The Commuter Alternative Program (<https://move.unc.edu/cap/>) (CAP) is designed to reward University employees and students for the use of alternative transportation (bicycling, walking, transit, or ridesharing) as their primary commute to campus. CAP is only available to off-campus students who do not have an on-campus daytime parking permit. CAP offers prizes, discounts from local merchants, and other benefits to members.

### Local and Regional Transit

The University and the towns of Chapel Hill and Carrboro work together to provide the fare-free Chapel Hill Transit (<http://www.townofchapelhill.org/town-hall/departments-services/transit/>) system. No bus pass is needed when boarding a Chapel Hill Transit bus, and anyone can ride. Campus U and RU (Reverse U) routes run in continuous loops from 7 a.m. to 8 p.m., serving nearly every area on campus.

Commuting students can use any of the Park and Ride lots served by Chapel Hill Transit. All Park and Ride lots require a permit, which may be purchased through Transportation and Parking (<https://move.unc.edu/transit/park-ride/>) or through the Town of Chapel Hill (<http://www.townofchapelhill.org/prlots/>). In the case of an emergency, the University's P2P Emergency Ride Back (<https://move.unc.edu/p2p/on-demand/>) service is available to provide transportation to the Park and Ride lots or any location within Carrboro or Chapel Hill municipal boundaries.

Regional transit to the Raleigh-Durham International Airport (RDU), Raleigh, Durham, Hillsborough and other nearby cities is available through GoTriangle. Bus service to Alamance, and Guilford counties is also available, and all regional transit agencies provide free Park and Ride (<http://move.unc.edu/transit/>) lots. Get transit directions using Google Maps (<https://transit.google.com/>) and see buses in real-time online (<http://triangle.transloc.com/>) or by downloading the TransLoc app. For more route information, call GoTriangle at (919) 485-RIDE or visit the GoTriangle website (<https://gotriangle.org/>).

### Point-to-Point

Point-to-Point (<http://move.unc.edu/p2p/>) (P2P) offers fare-free, fixed-route service aboard the P2P Express buses, operating on a continuous loop around campus during evening hours, 7 p.m. until 4 a.m., seven nights a week when residence halls are open during fall, spring and summer semesters. Students must show their UNC One Card to board the P2P Express. After dark, on-demand services can be requested by students in areas that are not served by the P2P Express route. P2P also offers fare-free, on-demand transportation service to students with accessibility needs and students going to or from Campus Health 24 hours a day. It also offers additional services including the fixed-route P2P Shuttle serving Baity Hill, an airport shuttle to RDU for select school breaks, and more. On-demand services can be requested with the TransLoc app.

### Safe Ride

Safe Ride (<https://www.townofchapelhill.org/government/departments-services/transit/safe-ride-program/>), operated by Chapel Hill Transit (<http://chtransit.org>), aims to provide increased mobility between 11 p.m. and 2:30 a.m. There are three Safe Ride bus routes operating on

Thursday, Friday, and Saturday nights when the University is in session. They provide service between campus and many private student housing developments, as well as other off-campus destinations.

### Bicycle Registration

Bicycle registration is required for bicycles on campus. The program serves as a deterrent to crime, aids in the identification of lost or stolen bicycles, and enables the University to plan for improved bicycle parking facilities around campus in the future. All students who register their bikes will receive a 50% off coupon for a U-lock from UNC Student Stores. Bicycle registration can be done online (<http://move.unc.edu/bike/>) or in person at the Public Safety Building. Cyclists who live off campus may join the Commuter Alternative Program.

### Tar Heel Bikes

The University partners with Spin to provide the Tar Heel Bikes bikeshare program (<https://move.unc.edu/bike/bikeshare/>) for the Carolina community. A fleet of 100 electric assist bikes is located at bikeshare hubs across campus. These e-bikes are available for use by students, employees, and visitors, and provide a convenient and cost-effective way to get around campus and designated areas throughout Chapel Hill and Carrboro.

### Share The Ride NC Rideshare Matching

Share The Ride NC (<http://unc.sharetheridenc.org/>) is an easy way to quickly and securely find a carpool partner. The private UNC–Chapel Hill Share The Ride NC community allows you to find friends, classmates, and coworkers going the same way you are. Share The Ride NC helps you offer or request rides for commutes, road trips and popular events. Riders choose the meeting location, days, and times they want to carpool.

### Zipcar

Zipcar (<http://www.zipcar.com/unc/>) is a convenient car sharing service that allows students and employees to access a vehicle on demand by the hour or day. Cars are located throughout campus and can be reserved online or by phone 24 hours a day, seven days a week.

### For More Information

Concerns may be addressed at the following campus telephone numbers:

- General Information (919) 962-3951
- Parking Control (919) 962-8006
- Accounts Receivable (919) 962-3097
- Parking Appeals (919) 962-3953
- Point-to-Point Shuttle Dispatcher (919) 962-7867 (962-"P-TO-P")

Students with temporary mobility limitations or other hardships requiring special consideration should contact Accessibility Resources and Service (<https://ars.unc.edu/>) for complete information on transportation options.

# RESOURCES: CAREER PLANNING

---

## University Career Services

219 Hanes Hall  
150 E. Cameron Avenue  
(919) 962-6507  
ucs@unc.edu

The mission of University Career Services (<http://careers.unc.edu>) (UCS) is to support the mission of the University and Student Affairs by providing personalized and innovative career education to empower student success and transformation.

Our vision is for all UNC–Chapel Hill students to create lives of purpose and prosperity in alignment with their personal goals. To that end, we partner with various campus stakeholders to provide outreach and equitable access to our services and resources. All of our strategic priorities are aligned with the Division of Student Affairs (<https://studentaffairs.unc.edu/about-us/mission-and-vision/strategic-priorities/>) and Carolina Next (<https://carolinanext.unc.edu/initiatives/>) which spell out expectations for building community, strengthening student success, enabling career development, and fostering discovery.

USC services for both undergraduate and graduate students include workshops, one-one-one career coaching meetings, full- and part-time job and internship opportunities online (Handshake (<https://careers.unc.edu/students/resources/handshake/>)); major and career assessments; and many print and electronic resources. Our programs include career panels and fairs, industry nights, and pre-graduate and law school exploration programs.

Services are limited to enrolled students in a UNC–Chapel Hill degree program and alumni for six months after graduation. Students in law, dentistry, and medicine and students enrolled in the M.B.A. and M.A.C. programs are served by career services in their departments, rather than by UCS.

# RESOURCES: HEALTH AND WELLNESS

## Accessibility Resources and Service

Accessibility Resources and Service (<https://accessibility.unc.edu>) (ARS) supports the University's commitment to accessibility, and seeks to meet the individual needs of applicants and current students with disabilities and medical conditions as they relate to academics, residences, dining, and co- and extra-curricular campus activities. ARS coordinates and implements appropriate reasonable accommodations including academic adjustments and provides appropriate resources and services in accordance with the American with Disabilities Act Amendments Act (ADAAA) and Section 504 of the Rehabilitation Act (504). Individual needs are addressed on a case-by-case basis through the provision of reasonable accommodations, allowing the University to maintain the integrity of its programs and services.

ARS works with all students including undergraduate and graduate students, full-time and part-time students, students following continuing education courses or who may be auditing, and program applicants. Prospective and existing students are invited to connect with ARS through the submission of a self-identification form (<https://ars.unc.edu/students/request-forms/connect-ars/>) and supporting documentation (<https://ars.unc.edu/students/request-forms/documentation-guidelines-and-information-applicable-esa-accommodation/>).

ARS is located in the Student Academic Services Building North (Suite 2126) between the Rams Head Center and Morrison Residence Hall. Office hours are 8 a.m. to 5 p.m., Monday through Friday. ARS staff can be contacted by email at [ars@unc.edu](mailto:ars@unc.edu) or telephone at (919) 962-8300 (V) (TTY-711 [NC RELAY]). More information is available on the ARS website (<https://ars.unc.edu/>).

## Campus Health Services

Campus Health Services (<http://campushealth.unc.edu>) (CHS), located next to Kenan Stadium in the James A. Taylor Building, provides a broad range of health care services including primary care, orthopedics, obstetrics and gynecology, nutrition services, dermatology, travel information and immunization, and allergy management. For convenience, in-house laboratory, radiology, pharmacy, and physical therapy services also are available. CHS also provides counseling and psychological services; please see the Counseling and Psychological Services section for greater detail about services offered.

### Eligibility

Any student or postdoctoral fellow who has paid the campus health fee (<https://campushealth.unc.edu/charges-insurance/campus-health-fee-charges-and-payments/>) for the current semester or summer session is eligible for health care at CHS. Spouses of full-time students and postdoctoral fellows can receive care at CHS.

### Health Fee

Currently, the fee covers the cost of most professional services (there is no charge for office visits) provided by CHS physicians, nurse practitioners, physician's assistants, nurses, physical therapists, and registered dietitians. The health fee also provides reduced charges for prescription drugs, miscellaneous supplies, laboratory tests, X-rays, medical procedures, and specialty services. Spouses of students are

eligible to receive the same services as students by paying the campus health fee at CHS and demonstrating appropriate insurance coverage.

### Hours

Hours of operation vary according to the academic calendar. Hours of operation during the academic year are 8:00 a.m. to 6:00 p.m. Monday through Friday. Students are typically seen on an appointment basis from 8:00 a.m. to 5:00 p.m. Acute care services are provided between 8:00 p.m. and 6:00 p.m. Monday through Friday and from 8:00 a.m. to 5:00 p.m. on Saturday and Sunday during the fall and spring semesters. Weekend acute care services are considered premium services and there is an associated visit charge. Hours of operation in the summer are 8:00 a.m. to 5:00 p.m. Monday through Friday. If CHS is closed, students have access to a nurse advice line through UNC Healthlink, and there is always a CHS physician on call. Call (919) 966-2281 to verify hours of operation, schedule an appointment, or to speak with the Healthlink nurse when CHS is closed.

### Immunizations

North Carolina law mandates that all new students at the University document the completion of immunization requirements (<https://campushealth.unc.edu/services/immunizations/>). Failure to comply may result in cancellation of registration 30 days after classes begin. Vaccines are offered at Campus Health Services at reasonable rates for students who need to complete their immunization requirement.

### Mandatory Health Insurance

The University requires proof of health insurance (<https://campushealth.unc.edu/charges-insurance/mandatory-student-health-insurance-hard-waiver-process/>) as a condition of enrollment. The University offers a group health insurance plan, including major medical benefits to single and married students, their spouses/partners, and children.

## Campus Recreation

Campus Recreation (<https://campusrec.unc.edu/>) offers amenities for all fitness and recreation wants, needs, and desires of the UNC population. It provides a diverse and intentional recreational program in a safe, inclusive, and accessible environment which enhances the social, mental, and physical well-being of the entire University community. Campus Recreation enjoys a unique dual reporting relationship with the Department of Exercise and Sport Science (EXSS) and its rich history and commitment to a healthy and active lifestyle, and with the Division of Student Affairs (<https://studentaffairs.unc.edu/>), which represents the Carolina spirit of student development and living outside the classroom.

### Facilities

Campus Recreation offers a variety of facilities (<https://campusrec.unc.edu/facilities/>) to satisfy the wants and needs of all UNC students, faculty members, and staff. The two fitness centers, the Student Recreation Center and Rams Head Recreation Center, offer cardiovascular and weight training equipment, as well as an indoor track, locker rooms, and group fitness studios. Basketball, squash, and racquetball courts, along with equipment for check-out, can be found throughout Fetzer Hall and Woollen Gym. These facilities also feature a cycle studio, climbing walls, and multipurpose rooms that can function for practice and instruction of a variety of fitness types. Both an indoor and an outdoor pool are located near the heart of campus. North and South Campus feature recreation complexes and fields for playing basketball, volleyball, tennis, and any other sport. The Outdoor

Education Center, located off Country Club Road, is also a great facility for experiencing how recreation and the outdoors can go hand-in-hand.

## Intramural Sports

Intramural Sports (<https://campusrec.unc.edu/programs/intramuralsports/>) offers opportunities for students to compete against their peers in a friendly and structured environment.

## Sport Clubs

A sport club (<https://campusrec.unc.edu/programs/sport-clubs/sport-clubs-directory/>) is a University-recognized student organization formed by individuals with a common interest in a sport. Its primary goal is to promote and develop interest in a particular sport and recruit new members. Clubs may be instructional, recreational, and/or competitive.

## Fitness and Wellness

Fitness and Wellness (<https://campusrec.unc.edu/programs/fitness/>) is housed in the Student Recreation Center (SRC) and Rams Head Recreation Center (RHRC). Both facilities offer a wide variety of cardiovascular equipment, including many stationary bikes, stair climbers, treadmills, and cross-trainers/elliptical machines.

Over the years, Fitness and Counseling and Wellness Services (of Campus Health Services) have teamed together to enhance student wellness through greater collaborative programming, such as Powerfully Pink (a breast cancer awareness program), Women's Health and Fitness Day, the Farmer's Market, Fit Wellness into Your Day, and the Get Fit from Head to Heel Challenge.

## Counseling and Psychological Services

Counseling and Psychological Services (<https://caps.unc.edu/>) (CAPS), a department of Campus Health Services, is located on the third floor of the James A. Taylor Building.

The CAPS staff is strongly committed to addressing the mental health needs of a diverse student body through timely access to consultation and connection to clinically appropriate services. CAPS affirms that people of every background are to be treated with respect and dignity. The professional ethics and standards of the multidisciplinary staff at CAPS set a framework for understanding how facets of identity (e.g., gender, ethnicity, race, sexual orientation, gender identity/expression, age, physical and mental abilities, religious beliefs, and socioeconomic background) impact life experience. The CAPS approach to mental health integrates physical, emotional, academic, spiritual, social, and cultural well-being. Counseling and Psychological Services include individual, couples, and group therapy, urgent consultation and crisis intervention, and medication evaluation/management. The CAPS staff consists of licensed psychologists, psychiatrists, clinical social workers, psychology practicum students, interns, and administrative support personnel.

Counseling and Psychological Services can be reached Monday through Friday from 8:00 a.m. to 5:00 p.m. at (919) 966-3658. CAPS invites initial evaluations without an appointment Monday through Friday from 9:00 a.m. to noon and 1:00 p.m. to 4:00 p.m. Students who have a psychological crisis should call (919) 966-3658 immediately. If the crisis occurs after hours, call Campus Health Services at (919) 966-2281.

## Student Wellness Services

Student Wellness Services (<http://studentwellness.unc.edu>) seeks to enhance the individual and collective health of the community through a wide range of programs, services, and resources. Through

partnerships with other campus departments, community agencies, student organizations, and peer mentors, we work to develop and advocate for a campus and community environment that creates, emphasizes, and supports healthy choices and positive decision making regarding health, safety, and wellness.

Student Wellness promotes wellness as a journey rather than an outcome and believes that students' health choices, as well as the culture of the community around them, involve a dynamic and multifaceted integration of eight dimensions of wellness: physical, emotional, spiritual, social, cultural, environmental, intellectual, and financial. Using these dimensions, Student Wellness provides integrative programs and services related to a variety of health topic areas, including healthy relationships and sexual health; stress management; sleep hygiene; alcohol and other substance education, interventions, and recovery supports; and violence prevention.

Student Wellness provides these programs and services on an individual, group, and larger campus community level.

The office, located in Suite 1310 of the Student Academic Services Building (SASB) South, can be reached Monday through Friday from 9:00 a.m. to 5:00 p.m. at (919) 962-9355.

# RESOURCES: SERVICE AND LEADERSHIP

## Campus Y

The Campus Y (<https://campusy.unc.edu/>) is an extraordinarily vibrant, student-driven organization, promoting social justice and social innovation locally, nationally, and internationally. Over more than a century and a half of service, it has incubated such essential campus institutions as Student Stores, Career Services, Intramural Athletics, and New Student Orientation. It has also provided the incubation space and resources for launching fully independent nonprofit organizations such as Nourish International, the Student Environmental Action Coalition, and the Student Coalition for Action in Literacy Education. Over the course of a typical year, approximately 2,000 UNC–Chapel Hill students channel their idealism, passion, and sweat equity into a diverse array of service and advocacy initiatives, including but not limited to public health, youth development, education, human rights, micro-finance, food security, and environmental advocacy. The Campus Y is led by the student executive board and the chairs of more than 30 committees and is supported by a professional staff of six employees. Students are encouraged to visit the Campus Y offices in the YMCA Building, adjacent to South Building, to learn about these opportunities and campus, community, youth, and global social justice issues.

## Carolina Center for Public Service

### Overview

The Carolina Center for Public Service (<https://ccps.unc.edu/>) (CCPS) engages and supports the faculty, students and staff of UNC–Chapel Hill in meeting the needs of North Carolina and beyond. The center strengthens the University's public service commitment by promoting scholarship and service that are responsive to the concerns of the state and contribute to the common good.

### How to Get Involved

**APPLES Service-Learning** is a student-led program that transforms educational experiences by connecting academic learning and public service. As part of APPLES students can:

- sign up for the Service-Learning Initiative (SLI) to learn more about local organizations and how to get involved in service. SLI: Launch is available for incoming first-year students in the fall and SLI: Engage is an opportunity for any other Carolina student to get involved in the spring.
- register for an APPLES Service-Learning course on Connect Carolina to complete 30 hours of service as part of an academic course. This might also fulfill the Experiential Education requirement.
- apply for a spring or summer internship to gain valuable professional experience while receiving a stipend and academic course credit
- explore communities beyond Chapel Hill on an alternative spring break trip or expedition and serve alongside a team of peers
- implement a project with a social innovation fellowship. Fellows receive funding, mentorship, and academic credit to help ideas come to life.

For any inquiries about APPLES, email [apples@unc.edu](mailto:apples@unc.edu).  
([apples@unc.edu](mailto:apples@unc.edu))

**The Buckley Public Service Scholars (BPSS)** program provides a framework for Carolina undergraduate students committed to making a positive impact through service. Students can register for the BPSS program at the beginning of the fall and spring semesters by visiting the website (<https://ccps.unc.edu/bpss/>). BPSS strengthens the culture of service and engagement at Carolina by:

- challenging students to increase the breadth and depth of their involvement in North Carolina communities and beyond
- fostering connections between the University, its students and the community
- promoting student participation in varying dimensions of public service: direct, organizational, and policy
- developing students' capacity for engaging in their communities in meaningful ways

For any inquiries about BPSS, email [bpss@unc.edu](mailto:bpss@unc.edu). ([bpss@unc.edu](mailto:bpss@unc.edu))

The center offers various competitive opportunities for undergraduate and graduate students to further their involvement in public service and community engagement, including:

- Community Engaged Fellowships for returning graduate and professional students
- Community Service Scholarships for undergraduate students
- Projects for Peace for undergraduate students
- MacDonald Community Fellowships for undergraduate students with a strong connection to a community partner

For any inquires, contact [ccps@unc.edu](mailto:ccps@unc.edu).

To stay informed about the many different public service opportunities at Carolina, subscribe to the center's biweekly Public Service News listserv (<https://ccps.unc.edu/subscribe-to-the-public-service-news/>).

# POLICIES AND PROCEDURES

---

The University provides a list of campuswide official policies (<http://policies.unc.edu>). The policies and procedures in this section of the catalog include information about course credit; registration and enrollment; attendance, grading, and examination; academic standing, transcripts; and other important information.

## Regulations and Requirements for Undergraduate Students

Students are responsible for observing the procedures, regulations, and requirements of the University as they are set forth here and in other official University publications. This section describes many of the requirements and regulations that apply to undergraduates, but it is not a complete list of all such regulations and requirements. Unless otherwise stated, the regulations described in this section will govern the academic progress of students from their first year in the General College through their final semester in the College of Arts and Sciences or one of the undergraduate professional schools. The staff of the University will gladly provide students with detailed information concerning their academic program or academic problems, but this does not relieve any student of individual responsibility for meeting the University's requirements and observing University regulations.

## Regulations and Requirements for Graduate Students

The *Graduate School Handbook* contains most of the policies and procedures of The Graduate School at the University of North Carolina at Chapel Hill. Students should become familiar with the material pertaining to their degree programs, and, together with their faculty advisors, make certain that the chosen program of study complies with all policies.

If University policies change during the academic year, those changes will appear here.

# CREDIT AND EVALUATION

## Calculation of Transferred Semesters Based on the Number of Transferred Credit Hours

Several academic procedures, including the determination of academic eligibility, depend on the tally of semesters that students have completed. When credit hours are transferred, a calculation must be made as to the number of semesters the student is regarded as having used up. This calculation is based on the number of credit hours accepted by UNC–Chapel Hill for transfer, not on the number of semesters in which the student was enrolled at other colleges. Excluded from this calculation are transfer hours awarded for courses taken concurrent with high school.

Students are regarded as having used up one semester for every full multiple of 15.0 semester credit hours accepted for transfer. When credits are transferred from a college that operates on the quarter-term system, one quarter-term credit hour equals two-thirds of a semester credit hour.

See “Transfer Candidates” in the “Undergraduate Admissions (p. 21)” section of the *Catalog* for additional information.

The same formula is applied to credit hours that a student earns while enrolled in a part-time program of study at UNC–Chapel Hill, with 90 hours regarded as six semesters and 105 hours regarded as seven semesters. *Note: Hours earned in any UNC–Chapel Hill summer term are not included in this formula.*

The formula also applies to transfer credit hours awarded for any courses taken at other institutions during a fall or spring semester (but not during summer terms) after a student matriculates at UNC–Chapel Hill.

## Credit by College Board Advanced Placement, International Baccalaureate, or SAT Subject Examinations

Students who meet UNC–Chapel Hill standards on certain approved College Board Advanced Placement examinations, examinations of the International Baccalaureate Program, certain SAT Subject Tests (e.g., foreign language), and other tests as listed below, may receive academic credit for comparable University coursework. Each year the Office of Undergraduate Admissions publishes (<https://admissions.unc.edu/credit/credit/test-and-placement-credit/>) the minimum scores necessary for the awarding of course credit (also listed below for AP and IB exams); however, final authority for awarding this placement credit lies with the chair of the department or curriculum in which credit is to be received. Minimum scores for placement may change from year to year. Regulations for credit in the year in which the student began study at UNC–Chapel Hill as a full-time student determine the standards that apply, not the year in which the student took the examination. Such credit will not be contingent upon the completion of further work in the subject unless specified by an academic department.

By-Examination (BE) credit awarded based on a student’s scores on the Advanced Placement, International Baccalaureate, SAT Subject Tests, other tests as listed below, or departmental examinations may be used to fulfill General Education requirements. For students admitted as new first-year or transfer students beginning in fall 2009 or later, the following

limitations apply to the use of By-Examination (BE) credit in a major or minor.

- No more than two courses (six to eight credit hours) of BE credit may be used as part of the major core.
- No more than one BE credit course (three to four credit hours) may be used as part of a minor.

Students who wish to enroll in a course for which they have By-Examination credit should discuss their decision with an academic advisor. In the event that a student takes a course for which Advanced Placement, International Baccalaureate, SAT Subject Test, or other tests as listed below, credit is awarded, the By-Examination credit will be forfeited when the course is completed.

For further information about placement, see the department's website (<https://math.unc.edu/undergraduate/placement-information/>) on math placement.

### English

Beginning in fall 2012, the English and Comparative Literature department started offering a new foundation course, ENGL 105, which took the place of ENGL 101 and 102. **All students entering in fall 2012 and beyond are required to take this course; there is no exemption through test placement.** For additional information on English placement, please see the department's website (<https://englishcomplitt.unc.edu/>).

### Credit by Departmental Examination

Enrolled students who, through individual study or experience, have gained knowledge of the content of undergraduate courses offered by the University may, with the approval of the relevant department and school or college, receive credit (without grade) for such courses by special examination. The student must receive the approval of the department and college/school at least 30 days before the examination is taken, and the examination must be taken before the beginning of the last semester or full summer session before the student's graduation.

### Policy on Credit for Internships—The College of Arts & Sciences

No internship automatically earns academic credit. Students who want academic credit for an internship should contact the director of undergraduate studies in a relevant academic department or curriculum (p. 1160) before beginning the internship and must complete an

internship course in that academic unit. Not all departments and curricula offer internship courses.

Internships may not be used to meet the high impact (HI) or experiential education (EE) Gen Ed requirements unless the student earns academic credit for the internship through a department or curriculum. A student must enroll in a course that has been approved as meeting the High Impact or EE requirement in order for an internship to fulfill that requirement.

Students who must earn academic credit as a condition of doing the internship—and who cannot get credit through an academic department or curriculum—should contact a counselor at University Career Services for possible credit in SPCL 493 before beginning the internship. The student must write a statement describing his or her learning objectives and a paper reflecting on the experience. SPCL 493 is a one-credit, Pass/Fail course that does not count toward any graduation requirements.

## Modes of Instruction (College of Arts & Sciences)

The University provides five (5) modes of instruction for undergraduate courses. These include four (4) modes that incorporate remote elements. Since the student learning outcomes are consistent across instruction modes, a course fulfills the same degree requirements regardless of the instruction mode.

1. In Person (IP)
2. HyFlex (IR).
3. Remote – Synchronous (RS)
4. Remote – Mostly Asynchronous (RM)
5. Remote – All Asynchronous (RA)

The College of Arts & Sciences is committed to providing in-person, residential instruction as the primary experience for undergraduate students. However, there are some specific situations when remote student learning may be beneficial or necessary. The college dean, in consultation with the provost, will establish guidelines on both the types of courses that can be offered and the specific situations when courses can be offered in a remote format (modes 2–5). In addition, senior associate deans, in consultation with the dean of the college, will establish guidelines on both the types of courses that can be offered and the specific situations when courses can be offered in a remote format (modes 2–5). They will also set limits on how many and in which cases remote classes can be offered every semester. Instructors will need approval from their department chair to offer remote classes (modes 2–5).

## Global Language Placement Credit

### For General Education Purposes:

Students may complete their General Education global language requirement through one of the below means:

- Completion of a level 3 or higher language course at UNC approved for the global language requirement.
- Verified completion of two or more years of secondary education primarily taught in a language other than English.
- Verified completion of two or more semesters of higher education (defined as the equivalent of 24 eligible for transfer credit hours) primarily taught in a language other than English.

- Completion of a UNC language placement test in the language with a placement beyond level 3.
- Non-UNC language exam scores (including AP, IB, and others) submitted to UNC which are approved as credit for level 3 or above.
- Transfer credit for a language course approved as level 3 or above. Credit for languages not currently taught at UNC will articulate as GNR 203 (level 3) which meets the global language General Education requirement.
- Placement (PL) credit without hours for level 3 (GNR 203) of a language not currently taught at UNC obtained through the language proficiency verification process detailed on the UNC Language Placement website. Every effort is made to verify proficiency in any language, but UNC cannot guarantee that an appropriate placement test or language expert will be available for proficiency verification in all languages.

For the purposes of the above policy, “language other than English” includes languages regardless of country of origin, including sign languages and other languages that do not include a written form. Institutions primarily taught in a language other than English do not need to be located outside the United States to qualify under this policy.

### For Continuing a Language Taught at UNC:

#### Experiential Speakers of a Global Language

Enrolled students who have learned a language currently offered at UNC–Chapel Hill by experience (i.e., having grown up speaking another language in the home or having lived several years in another country) and who are conversant and literate in that language and in English, may take a placement test in that language for placement (PL) only and not for credit hours. This placement will determine the student’s next UNC course in the language.

#### Native Speakers of a Global Language

For academic purposes, a native speaker is a student raised in a country outside the United States and formally educated through all or most of high school in a language other than English. Native speakers cannot use By-Examination (BE) credit in their native language to reduce the requirements for a major in that language and will not receive credit for levels 1 through 4 of their native language(s). However, upon recommendation of the appropriate language department, they may receive credit for courses taken at UNC–Chapel Hill beyond level 4 if those courses are heavily based on literature, film, culture, or other content. Native speakers of languages other than English may use the above listed options to satisfy their General Education global language requirement. Native speakers who wish to pursue placement (PL) in their language should follow the appropriate department or General Education process on the Language Placement website.

## Hours of Credit

Work is valued and credited toward degrees by semester hours, one such hour usually being awarded for one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week. One hour of credit is usually awarded for each three hours of laboratory or field work or work in studio art.

For more information on the University’s course numbering system, see UPM #4 (<http://registrar.unc.edu/academic-services/policies-procedures/university-policy-memorandums/upm-4-standard-course-numbering-system/>).

For the definition of a credit hour, see UPM #29 (<http://registrar.unc.edu/academic-services/policies-procedures/university-policy-memorandums/upm-29-definition-of-a-credit-hour/>).

## Independent Studies for Credit

The University offers independent study experiences for undergraduate students. Such courses, including directed readings, internships/practica, mentored undergraduate research, and senior honors thesis courses for an individual student, are offered for academic credit through departments and curricula. Twelve hours of graded independent study credit may be counted toward graduation (excluding six hours of senior honors thesis credit). No more than 12 hours may be taken in any one semester, with the exception of students completing a full-time teaching internship program in the School of Education and other approved practicum/internship programs in the professional schools. Students may participate in formalized programs, or they may make individual learning contracts for work under the supervision of a member of the permanent faculty at the department/curriculum level. For information about independent study courses in their majors, students should consult the director of undergraduate studies or independent study coordinator in their major department or curriculum. Students, in consultation with the faculty member, must complete a learning contract and have it approved by the director of undergraduate studies (or designee). Registration for an independent study course must be completed after the learning contract has been approved and no later than the last day of "late registration" (*the end of the second week of classes in fall or spring semester or the equivalent date in each summer session*). A template (<http://registrar.unc.edu/files/2014/02/Template-Adapted-for-Use-in-the-College-of-Arts-and-Sciences.pdf>) for such a learning contract is available online. Students are strongly encouraged to begin this process early, well before the beginning of the semester.

For more information, see UPM #30 (<https://registrar.unc.edu/academic-services/policies-procedures/university-policy-memorandums/independent-study-policy/>).

*This policy is maintained by the College of Arts and Sciences and Educational Policy Committee. Last revised November 28, 2017. See also Resolution 2012-12 (<http://faccoun.unc.edu/files/2011/03/Res2012-12OnIndependentStudyFinal.pdf>) and Resolution 2013-6 (<http://faccoun.unc.edu/files/2011/03/Res2013-06OnIndependentStudyTFReportFinal.pdf>).*

## Semester Schedule

UNC–Chapel Hill academic operations are on a semester calendar, primarily divided into the fall and spring semesters with standard course meetings within a 17-week session. Summer School offers two sessions of five weeks each, a three-week Maymester, and other short courses with various beginning and ending dates. For specific dates, see the University's Academic Calendar (<https://registrar.unc.edu/academic-calendar/>).

# REGISTRATION, ENROLLMENT, AND WITHDRAWAL

## Registration

### General Policies

UNC–Chapel Hill students use the ConnectCarolina Student Center to register for courses. Students should refer to the Registration Guide (<http://registrar.unc.edu/guide/>) on the Office of the University Registrar's website for instructions regarding registration.

Students who register during the billing period must pay tuition and fees, or give notice of anticipated aid, to the Office of Student Accounts and University Receivables by the published tuition and fees due date or their schedule will be cancelled and all their classes dropped before the beginning of classes. Students who register after the billing period must pay estimated tuition and fees or give notice of anticipated aid before they can register for that semester. Students who register after the date designated for official registration must pay an additional fee of \$20.00 for late registration. If the delay results from circumstances clearly beyond the student's control, an appeal may be made in writing to the registrar. The appeal must show sufficient justification for the delay and has to be approved by the dean of the school in which the student is enrolled.

North Carolina law requires that no person shall attend a college or university in North Carolina without presenting a certificate of immunization to the college or university on or before the first day of matriculation. This certificate indicates that the student has received immunizations required by law. New students at UNC–Chapel Hill must provide the director of Campus Health Services with an immunization record certified by a physician. Students who fail to present the required certificate of immunization within 30 days of enrollment will be withdrawn from the University. Their enrollment will not be reinstated until they have provided a certificate of immunization to Campus Health Services.

Registration for credit for any course at the start of the semester is limited to the first five days of classes unless a late registration is approved by the course instructor and the student's dean or academic advisor. Any student who has not registered for courses after the primary billing date will be restricted from accessing the registration system for that term and will be required to submit a prepayment. For more information, please see "Course Schedule Changes" below.

### Registration Advising for First-Year Students and Sophomores

All first-year students and sophomores are assigned a primary academic advisor in the Academic Advising Program in the College of Arts and Sciences but may see any advisor as appropriate. Advisors' names and office locations (<http://advising.unc.edu/see-an-advisor/>) are posted on the web. First-year students must meet with an advisor for registration advising at least once during their first year before registering for their third semester on campus; an online module to assist students with registration, policies, and procedures is also available. All students are strongly encouraged to review their Tar Heel Tracker each semester and regularly meet with an advisor to ensure that they remain on track to graduate.

Advisors will answer students' questions and review their tentative course selections to help students achieve appropriate academic progress. In subsequent semesters, students are encouraged to discuss academic progress with their academic advisor. Students should follow instructions received from the Office of the University Registrar, which may be accessed by logging on to ConnectCarolina.

### Registration Advising for Juniors and Seniors

Juniors and seniors receive academic advising during registration periods according to the directives set out by their college/professional school and major. Juniors who have not yet declared a major must meet with an advisor in the Academic Advising Program before registration.

The department or curriculum in which the student's primary major is housed determines the procedures juniors and seniors must follow for registration. In some cases, the student must meet with a faculty advisor in the department or curriculum of the primary major before being able to register each semester. These advisors answer questions specific to the major and about graduate and career opportunities in the field.

Students admitted to a professional school will receive advising and assistance on all academic matters from an advisor in their school.

### Academic Level (Class Standing)

All students who begin their undergraduate careers at UNC–Chapel Hill are considered first-year students for the first and second semesters. In their third semester and thereafter, a student's classification (sophomore, junior, senior) is determined by the cumulative number of credit hours earned:

- 1–29 credit hours earned: first-year student
- 30–59 credit hours earned: sophomore
- 60–89 credit hours earned: junior
- 90 + credit hours earned: senior

### Registration Priority

A student's first available date for registration (registration priority) is based on the number of earned credit hours (excluding in progress credits and test credits) and the number of semesters completed.

By policy of the Faculty Council (Resolution 2007–3), the University limits students to eight semesters of full-time study. Transfer students who transfer in the UNC–Chapel Hill equivalent of two or more semesters (see "Calculation of Transferred Semesters Based on the Number of Transfer Hours") may enroll in up to 10 total semesters (Resolution 2017-1 (<https://facultygov.unc.edu/files/2017/01/Res201701OnMultipleAreasofStudy.pdf>)). To help ensure graduation within the eight-semester limit, students' registration priority will include the number of semesters completed in the calculation.

Terms in residence are tallied in three ways:

1. UNC–Chapel Hill full-time enrollment  
Regardless of the number of credit hours, any fall or spring semester of enrollment in UNC–Chapel Hill courses (including UNC–Chapel Hill study abroad courses, but excluding Carolina Courses Online) counts as one semester of full-time study, unless the student is enrolled as a part-time student through Part-Time Classroom Studies. (Summer sessions at UNC–Chapel Hill do not count as semesters.)
2. UNC–Chapel Hill part-time enrollment  
Each full multiple of 15 cumulative credit hours earned at UNC–Chapel Hill in fall or spring terms (not summer terms) counts as one

semester of full-time study for any student enrolled as a part-time student through Part-Time Classroom Studies.

3. Transfer credits awarded for courses taken at other colleges  
Each full multiple of 15 cumulative transfer-credit hours counts as one semester of full-time study. Excluded from this calculation are transfer hours awarded for courses taken either concurrent with high school or during any summer term after the student has matriculated at UNC–Chapel Hill.

Students may refer further questions to the Academic Advising Program (if the student is in the College of Arts and Sciences) or to their respective dean's office.

## Repeating Course Enrollments

A student who proceeds with enrollment in a course not designated as repeatable can only earn credit once toward the fulfillment of the University's minimum undergraduate degree requirement. The credit is earned from the course with the highest passing grade or, if grades are the same, the latter attempt. The grades of all attempts of the course, however, are computed in the student's cumulative grade point average.

Certain University courses (e.g., applied music, special studies, undergraduate research, etc.) may be taken more than once for credit and are so designated in the course catalog as repeatable. A particular physical education activity (PHYA) course may be taken more than once, so long as a different level of the same course (beginning, intermediate, and advanced) is taken during each separate enrollment. PHYA courses do not award academic credit hours toward an undergraduate degree, but the grade is factored into the cumulative grade point average. Students may enroll in no more than one lifetime fitness (LFIT) course, and only one LFIT course will count toward academic credit hours for an undergraduate degree.

For the purposes of receiving financial aid, hours for repeated courses will only be considered a part of the total upon which awards are based if:

1. the student is repeating a course previously failed, or
2. the course is the **first** repeat of a prior course in which a passing grade (D or higher) was received.

*Maintained by the Educational Policy Committee. Last approved on April 21, 2017, see Resolution 2017-6 (<https://facultygov.unc.edu/files/2017/04/Res2017-6RepeatingCourseEnroll.pdf>).*

## Cancellation of Enrollment

A cancellation of enrollment is, in effect, the same as a student not registering. Classes are not reflected on the student's transcript, and no tuition and fees are charged. If a student registered for classes a cancellation is only applicable if there no documentation of student attendance or for the following administrative reasons. A registration cancellation will be processed for any student who has a "hold" on the tuition and fees due date for each term, and students will be notified. A cancellation will be processed if a student is not cleared financially; is not academically eligible to continue in school; or shows a cashier's hold, Office of Undergraduate Admissions hold, dean's office hold, or Campus Health Services cancellation hold. In some cases, a student may request to cancel his or her registration for personal reasons and may do so by following instructions (<http://registrar.unc.edu/academic-services/withdrawals-cancellations/>) listed on the Office of the University Registrar's website. To request a cancellation after classes begin, however, students must process the cancellation through their academic

advising dean's office. For more information also see the sections on withdrawing from the University.

## Administrative Changes to Course Registration

Students have the responsibility to maintain the accuracy of their course schedule. A department or curriculum in the College of Arts and Sciences has the option to drop a course from a student's registration if the student fails to attend both of the first two class meetings (or the first class meeting if the course meets only once each week). The appropriate dean's office will be responsible for informing departments of students who cannot attend the first two class meetings because of illness or other reasons approved by a dean. Students should never presume that an instructor or department/curriculum will systematically drop classes from the student's schedule. However, if such an action is taken by a department/curriculum, the registration openings resulting from these drops will be offered to other students seeking enrollment in the courses during the official add period (first five days of classes) or thereafter, as determined by the instructor of the class or by the department, curriculum, or school.

Departments/curricula can drop students' courses using the computerized registration system prior to the last day to reduce a course load for financial credit. To effect such a drop after that date but before the end of the eighth week, a student can drop the course through ConnectCarolina. (See "Course Schedule Changes" below.) Students who have applied for graduation and who have requested an academic underload must have that request approved to receive financial credit for reducing their course load.

## Auditing Courses

To audit a class, registered students and persons not registered must obtain a registration/drop/add form from the teaching department offering the class. Permission from the class instructor and the department chair is required and should be indicated on the form with a written signature. This procedure applies to fall, spring, and both summer terms.

Requests to audit a class may be submitted only after the end of the official registration period (last day for students to add a class or late register) when it has been determined that there is still space available in the class. This date can be found on the University Registrar's Calendar (<http://registrar.unc.edu/academic-calendar/>) for the specific term.

Auditing classes is permitted only in lecture-based courses and never in courses that include laboratories or performances. Auditing is not permitted in courses that focus on the development of written or oral communication skills or that rely heavily on class participation. Auditing is not permitted in independent studies courses, internships, special topics, directed readings, or similar courses. Auditing is also not permitted in classes that are offered primarily online. Students may not audit courses offered through the Friday Center for Continuing Education (Part-Time Classroom Studies, Carolina Courses Online, Self-Paced Courses, or tutorial programs) or courses preparing students for credit by examination.

Students auditing a course do not write papers, take quizzes or examinations, or request review of their work, and do not participate in class discussions unless otherwise directed by the course instructor. Students who audit a course may not subsequently receive course credit for that course. Additional information on the University's policy on auditing (<http://registrar.unc.edu/academic-services/policies->

procedures/university-policy-memorandums/upm-9-auditing-courses/) is available online.

Students officially registered for other classes in the same term may audit a class without paying a fee. Persons not registered for classes must pay a \$20.00 fee per class to the Office of Student Accounts and University Receivables, then bring the permission and receipt to the Office of the University Registrar to complete the process. Payments will only be accepted after the end of the official registration period. Effective fall 2017, individuals of age 65 or older may audit a class without paying a fee.

If requested, a copy of the registration transaction will be given to the student to provide to the class instructor at the beginning of the term.

## Changes in Fall and Spring Semester Schedules

### Continuous Course Enrollment: Foundations English Composition and Foreign Language Requirements

Effective in fall 2012, students admitted as first-year or as transfer students are required to complete ENGL 105/ENGL 105I (ENGL 100 and ENGL 105/ENGL 105I, if applicable) during their first year, and they must maintain continuous enrollment in Foundations global language courses until they have completed this requirement. Students are not permitted to drop ENGL 100, ENGL 105/ENGL 105I, or global language levels 1 through 3 being used to fulfill the Foundations requirement after the second week of the semester, unless approved by a dean in the Academic Advising Program. Such approval will be for exceptional circumstances only. Students should not stop attending English composition and rhetoric and Foundation global language classes without speaking with a dean in the Academic Advising Program.

### Course Schedule Changes

Insofar as possible, changes in course registration schedules should be made during the first five days of classes. During this time, students may add courses using the online registration system. During days six through ten of classes, students must obtain permission to register or make additions to their schedule from the course instructor; if approved, the academic department, curriculum, or school will add the student through the computerized registration system. After the tenth day of classes, if students wish to register or make additions to their schedule, they must obtain a registration/drop/add form from their academic advisor, the concerned department, or their professional school and must obtain the signatures of both their instructor and their school dean (or dean's designee). For students in the General College and the College of Arts and Sciences, only the associate dean for advising (or dean's designee) has this authority. After the tenth day of classes, deans (or deans' designees) will approve only those registrations or course additions that have first been approved by the instructor. Approval of additions to a student's schedule during this period is at the deans' (or the deans' designees') discretion.

### Course Schedule Changes during Weeks One and Two

During the first two weeks of classes, students may drop a course using the online registration system, but they are responsible for ensuring that their schedules do not fall below the minimum 12 academic hours required for full-time registration.

### Course Schedule Changes during Weeks Three through Eight

When a course is dropped between the second and eighth week of classes, a notation of WC (withdrawal by choice) shall be recorded

and used internally for tracking and reporting purposes. For external purposes, the WC notation is equivalent to the W grade. Once declared, a WC notation cannot be rescinded except when a student withdraws from an entire semester due to extenuating circumstances. All first-year, first-time students entering the University in fall 2014 or thereafter are allowed to accumulate no more than 16 hours of WC notations during their undergraduate career.

Different drop-add procedures apply to first-year students who entered the University as degree-seeking students prior to fall 2014, along with sophomore and junior transfer students who entered in fall 2014, and junior transfer students who enter in fall 2015. Details on the previous policy (<http://registrar.unc.edu/guide/registration-policies/drop-add-procedures/rules-course-drops/>) can be found on the University Registrar's website.

### Course Schedule Changes after the Eighth Week of Classes: The Appeal Process

After the eighth week of classes, students must petition to drop courses through the dean's office of the school in which they are enrolled. For students in the General College and the College of Arts and Sciences, the associate dean for advising (or designee) has this authority.

To drop a course after the eighth week of classes, students must complete and submit an appeal to the appeals committee of their college or school. In the General College and the College of Arts and Sciences, an appeals committee meets weekly (except the week of July 4 and Christmas). Possible legitimate reasons for requesting a course drop after the eighth week of classes include serious illness, personal or family problems, financial problems requiring employment after the start of the semester, or other compelling and extenuating circumstances that prevent students from meeting their academic responsibilities.

Students must first discuss their reasons for requesting a late course drop with an academic advisor or their academic dean. The advisor or dean will explain the process for an appeal and refer the student to the online information and link to the online appeal form. The appeal must include a statement from the student and pertinent documentation that provides compelling support for the appeal. The student must submit all documents online to the office of the associate dean for advising in the Academic Advising Program of the College of Arts and Sciences and General College. *Submission of an appeal does not ensure that the request will be granted, and students must continue to attend classes and complete all assignments until informed of the committee's decision.* If a course drop is approved, the registration/drop/add form is processed through the Office of the University Registrar.

Students enrolled in professional schools should acquaint themselves with the appropriate appeals procedures in their schools.

The notation of W (withdrawn) is entered in the grade column of academic transcripts if students are permitted by their school to drop a course after the eighth week of classes or proportional equivalent for summer terms and other nonstandard enrollment periods. This notation is automatically entered unless the student's academic dean specifies otherwise.

## Interinstitutional Registration

A student regularly enrolled in a degree program at the University may enroll by interinstitutional registration for a course at Duke University, North Carolina Central University, North Carolina State University, the

University of North Carolina at Charlotte, or the University of North Carolina at Greensboro under the following conditions:

- Space must be available in the course.
- The student's advisor as well as their academic advising dean's office must certify
  - a. that the course is appropriate for the student's degree program, and
  - b. that an equivalent course is not available at this university during the same term.
- Enrollment in interinstitutional registration is limited to one interinstitutional course per regular term, provided that the student is registered for the balance of her or his full-time load at UNC–Chapel Hill. All enrollment transactions must be processed by the Office of the University Registrar.
- A student will be billed by his or her home institution for all the courses taken (including interinstitutional courses) at the prevailing tuition rate. The University of North Carolina at Chapel Hill will receive no fees from an interinstitutional student taking courses at this campus unless there is a special fee associated with a particular course. In such a case, the student must pay the fee.
- The last day for a student to submit an interinstitutional request to the Office of the University Registrar will be the last day to add a course without departmental approval, according to the registrar's calendar. If a student is interested in a course that begins after this deadline, due to differing university schedules, or separate modules that the course is being offered in, the deadline will be the fifth day after the start of that class. Start dates will be verified with the school offering the course.
- Students must comply with the academic calendar of their home institution for all dates, such as deadlines for adding and dropping courses.
- A student taking a course by interinstitutional registration will be graded in the course in accordance with the grading system of the institution where the course is taken, and grades will be converted in accordance with the grading system of the home institution. The transcript will identify the institution where the course was taken in the space where the descriptive course title is normally shown.

Additional information (<http://registrar.unc.edu/guide/special-enrollments/inter-institutional-programs/>), procedural instructions, and forms are available at the Office of the University Registrar's website.

## Academic Course Load

### Fall and Spring Semesters

To meet the minimum graduation requirement of 120 academic hours within the eight-semester limit, students should average 15 hours each semester. However, four-hour foreign language courses and four-hour laboratory science courses often account for course loads of 16 to 18 hours. Students may not enroll in more than 18 academic hours unless they have earned a 3.000 grade point average in the preceding regular semester and have a cumulative 2.500 grade point average. Exceptions require the approval of the student's dean. With approval of their dean, seniors meeting graduation requirements during their final semester in residence may enroll in up to 21 academic hours if they have a cumulative and preceding semester grade point average of 2.000.

The minimum course load for a single semester is 12 academic hours. Students may not go below the 12-academic-hour minimum without permission of their dean. All students should discuss semester

enrollment of fewer than 15 academic hours with their advisor because such enrollments may affect academic eligibility and the ability to complete all degree requirements in the required eight semesters.

The approved maximum course load for students in a part-time program is eight credit hours in a fall, spring, or summer term.

### Summer School

The summer term begins with the first day of Maymester and continues through the last day of the Summer Session II. Administered by Summer School, summer courses are offered in two sessions (Summer Session I and Summer Session II), with a Maymester period overlapping the first three weeks of Summer Session I. For UNC–Chapel Hill students, credit hours and grades count the same as in fall or spring terms. For visiting students, transfer of grades or credit is determined by their home institution.

The typical full course load is two courses, usually six credit hours. However, effective Summer 2021, students may enroll in up to nine credit hours each in Summer Session I and in Summer Session II. It is recommended that, if students enroll in a Maymester course, they not enroll in a second Maymester or Summer Session I class.

### Pass/Fail Option

The Pass/Fail option provides students an opportunity to enroll in an additional course (beyond the usual load of five academic courses) or to reduce their concerns about competing with prospective majors in a course in which they have considerable interest. Students who declare a course on the Pass/Fail option will receive the grade of PS (pass) when a letter grade of A through D is recorded on the official grade roster and F when the course is failed. For the purpose of computing a grade point average, a PS grade does not count as hours attempted; therefore, a PS grade does not affect a student's grade point average. However, an F under the Pass/Fail option counts as hours attempted and is treated in the same manner as F grades earned in any other course.

Course content and requirements are the same for Pass/Fail registrants as for regular registrants. The minimum performance for a PS grade is equivalent to the minimum performance for the letter grade of D.

### Regulations Governing the Pass/Fail Option

The following regulations govern the use of the Pass/Fail option:

1. Students may only take one student-elected Pass/Fail course each semester.
2. No more than 23 total credit hours of Pass/Fail credit hours will be allowed in a student's undergraduate career, with no more than 16 hours (of the 23) from student-elected Pass/Fail classes and no more than 13 hours (of the 23) from established Pass/Fail courses.
3. The following courses may not be declared Pass/Fail:
  - Courses used to satisfy General Education requirements (*this does not apply to General Education courses that are only offered as Pass/Fail courses, such as Lifetime Fitness, College Thriving, and some forms of EE/High-Impact courses*).
  - Courses a student has taken previously for a letter grade.
  - Courses in a student's major or minor department or curriculum (or cross-listed with those departments or curricula), even if used as an elective. However, students who change their major (or minor) may count in the new major (or minor) one course previously completed with the grade PS.

- Courses specifically required by the major or minor, including foreign language courses and any additional required courses (but see the note below)
- Summer School courses
- An honors seminar or honors course
- Courses taken via interinstitutional enrollment
- First-year seminars

*Note: Prerequisites to courses specifically required for the major or minor may be taken Pass/Fail unless a specific grade is required in the prerequisite course.*

*Maintained by the Educational Policy Committee. Last approved on October 30, 2015, see Resolution 2015-12 ([http://faccoun.unc.edu/files/2011/03/Res2015-12Pass-Fail\\_Final.pdf](http://faccoun.unc.edu/files/2011/03/Res2015-12Pass-Fail_Final.pdf)).*

## Pass/Fail Declaration Procedure

To declare a course on the Pass/Fail grading system, a student must complete the Pass/Fail course declaration form. Students should discuss the advisability of taking a course on the Pass/Fail grading system with their advisor before committing themselves to a formal declaration.

The period for making Pass/Fail declarations begins on the fifth day of classes of each semester and concludes at the end of the eighth week of classes. Pass/Fail declaration forms may not be submitted after the eighth week of classes.

## Tuition Guarantee Program

Effective fall 2016, undergraduate students seeking a baccalaureate degree at UNC–Chapel Hill are eligible for fixed tuition as required by the North Carolina General Statute §116-143.9 and UNC Policy 1000.17, Policy for the Tuition Guarantee Program. Further information about the Tuition Guarantee Program can be found on the website for the Office of the University Registrar.

## Withdrawal

After the term start, students withdrawing from the University should submit an official withdrawal request through their ConnectCarolina Student Center to start the process (see sections on medical and academic withdrawal below) before the end of classes during a semester or summer session. Students in attendance considering withdrawal should contact their academic advising dean's office, Campus Health Services, or Counseling and Psychological Services for additional information. Official term withdrawal from the University is required if a student wishes to drop all classes after a semester begins. An official withdrawal may facilitate readmission in a future term. Leaving the University without completing the official withdrawal process can result in the assignment of final class grades computed as failing in establishing grade point averages and possibly rendering a student academically in-eligible. Enrolled students who do not withdraw officially will be responsible for the full tuition and fee payments associated with enrollment for the entirety of the semester.

## Medical Withdrawal

If a student decides to withdraw for reasons of illness, either physical or psychological, the student should contact Campus Health Services or Counseling and Psychological Services, whether the treatment was received there or elsewhere. If a medical withdrawal is authorized, the official withdrawal will be handled through the Office of the Director of Campus Health Services or Counseling and Psychological Services.

## Administrative Withdrawal

A student who is withdrawn for disciplinary purposes must comply with the specific requirements or conditions outlined by the adjudicating body (e.g., Honor Court, Emergency Evaluation and Action Committee, etc.) prior to readmission. Unless specified by the adjudicating body, the term(s) in which disciplinary suspension is active shall not be calculated in the four academic year degree credit hour equivalency. Preclearance from the adjudicating body may be required in certain cases.

## Academic Withdrawal from All Courses

If a student decides to withdraw for reasons other than health related, or if a withdrawal cannot be authorized through Campus Health Services or Counseling and Psychological Services, the student should submit an official withdrawal request through the ConnectCarolina Student Center. Grades are required from instructors once the drop deadline has passed. In determining an undergraduate student's eligibility for readmission the following conditions apply:

- For students who officially withdraw from the University after the second week of a fall or spring semester, a grade of W is assigned to each course the students were enrolled in at the time of withdrawal.
- Students who officially withdraw from the University are assigned a semester in residence if their withdrawal is initiated before the end of classes during a fall or spring semester and if it is accompanied by the recording of six or more academic hours of F grades for that semester's work (grades recorded after the drop deadline). This means that the F grades and no others will be computed in the semester and cumulative grade point average.
- Withdrawal from a summer session is not counted as a semester in residence. If the withdrawal is initiated after the drop deadline during a summer session, a grade of W is assigned to each course that the student is enrolled in at the time of withdrawal. The credit hours associated with the withdrawal will count as attempted but not passed hours in the determination of the student's academic eligibility. If the student is enrolled in five or more more academic hours, the student must obtain grades from their instructors before the withdrawal can be processed; if the withdrawal is accompanied by the recording of five or more academic hours of F grades for that semester's work the F grades will be recorded and computed in the semester and cumulative grade point average.
- Students enrolled as summer session visitors from schools outside UNC–Chapel Hill must withdraw through the Office of the Dean of Summer School.
- If a student completes an official withdrawal or is withdrawn administratively for any reason from a fall or spring semester, tuition and fees will be prorated over a period of nine weeks at a rate of one-tenth of the semester's bill, after deducting an administrative charge. The last date for credit on a student's financial account for withdrawal is nine weeks after registration. If a student completes an official drop from a summer class within the first three days of classes for the session, tuition and fees will be prorated.
- If a student withdraws from the University during a semester and receives financial aid funds prior to the date of withdrawal, a portion of that money will be returned to the aid program(s). The repayment will be calculated by the Office of Scholarships and Student Aid when the official withdrawal is noted within the ConnectCarolina system.

## Retroactive Withdrawal

- Students may request a retroactive term withdrawal from a semester or summer session under extraordinary circumstances. Such requests must be made in writing to the appeals committee of the

college or school in which the student is currently enrolled. The decision of that appeals committee is final. If the retroactive term withdrawal is approved, the effective date of this action is always the last day of classes in the term or session. No refunds are ever provided when a retroactive withdrawal from a semester or summer session is approved.

# ATTENDANCE, GRADING, AND EXAMINATION

## Class Attendance Policy

(Maintained by the Education Policy Committee. Resolution 2018-1 (<https://facultygov.unc.edu/files/2016/02/Resolution-2018-1-Absence-Policy5.pdf>), passed on February 9, 2018; updated March 22, 2023)

This policy applies *only* to University approved class absences (listed below). For final examination absences see the Policy on Final Examinations.

Regular class attendance is a student obligation. Students are responsible for all of their work, including assessments, tests, and written work, and for all class meetings. If a course instructor chooses to take attendance and sees that a student misses three or more consecutive class meetings or misses more classes than the course instructor thinks advisable, the instructor may report the facts to the student's advisor and/or academic dean.

No right or privilege exists that permits a student to be absent from any class meetings, except for these University approved absences:

1. Authorized University activities: The University Approved Absence Office (UAAO) website (<https://uaao.unc.edu/sample-page/>) provides information and FAQs for students (<https://uaao.unc.edu/faqs-for-students/>) and FAQs for faculty (<https://uaao.unc.edu/sample-page/>) related to University approved absences
2. Disability/religious observance/pregnancy, as required by law and approved by Accessibility Resources and Service (<https://ars.unc.edu/>) and/or the Equal Opportunity and Compliance Office (<https://eoc.unc.edu/what-we-do/accommodations/>) (EOC)
3. Significant health condition and/or personal/family emergency as approved by the Office of the Dean of Students (<https://odos.unc.edu/>), Gender Violence Service Coordinators, (<https://womenscenter.unc.edu/resources/gender-violence-services/>) and/or the Equal Opportunity and Compliance Office (<https://eoc.unc.edu/what-we-do/accommodations/>) (EOC).

Instructors may work with students to meet attendance needs that do not fall within University approved absences. For situations when an absence is not University approved (e.g., a job interview, illness/flu, or club activity), instructors are encouraged to work directly with students to determine the best approach to missed classes and make-up assessments and assignments.

The University's policy regarding University approved absences as well as the instructor's course-level policies are communicated to students via the instructor's course syllabus on the first day of class.

Students are encouraged to communicate with their instructors early about potential absences and are reminded that they are bound by the Honor Code (p. 1279) when making a request for a University approved absence.

## Notification of University Approved Absences

1. **Authorized University Activities:** Students acting as official representatives of the University who are participating in University-sanctioned activities (e.g., student government congresses, official

athletic competitions, music competitions, academic conferences, etc.) will be granted a University approved absence.

Request for approval of an absence due to participation in a University-sanctioned activity must be sent by the program sponsor or other responsible University official to the University Approved Absence Office (<https://attendance.unc.edu/>) which will verify the validity of the request. The program sponsor, or other responsible University official, is responsible for contacting the University Approved Absence Office (<https://attendance.unc.edu/>) to request a University approved absence for University-sanctioned activity, when possible at least two weeks in advance of the date(s), or as soon as possible if the date(s) occurs within the first two weeks of the semester, or within the first two days of a summer session. This policy applies to fall, spring, and summer terms. The University Approved Absence Office communicates the University approved absence to the course instructor prior to the date(s) of the scheduled absence(s). The request may be for a single activity or a series of activities, but it must include the student name and date of the event, the date and time when the student is expected to be absent, and the date and time that the student is expected to return to class.

2. **Accommodations for disability/religious observance/pregnancy, as required by law:**
  - a. **Accessibility Resources and Services** verifies University approved absences for students by their office. ARS contacts those students' instructors directly.
  - b. **Religious Observance:** Pursuant to North Carolina General Statute 116-11(3a), students are authorized at least two University approved absence(s) per academic year for religious observance/practices required by their faith. Students who wish to request University approved absences for religious observance required by their faith should review the University's Policy on Religious Accommodation and follow the procedure set out in that policy for requesting such absences. After an absence is approved under that policy, the University Approved Absence Office communicates the University approved absence to the course instructor(s) prior to the date(s) of the scheduled absence(s).

Students are responsible for contacting the Religious Accommodations Advisory Committee to request a University approved absence for religious observance at least two weeks in advance of the date(s), or as soon as possible if the date(s) occurs within the first two weeks of the semester. This policy applies to fall, spring, and summer terms.

Primary holy days for religious observance are noted on a web-based interfaith calendar (<http://www.interfaithcalendar.org>). The Web-based calendar should *not* be interpreted as an exhaustive list of holy days that the University will recognize for purposes of religious accommodations.

- c. **Pregnancy and Related Medical Conditions:** Students who wish to request University approved absences for pregnancy and related medical conditions should review the University's Policy on Pregnant and Parenting Students and should contact the Equal Opportunity and Compliance Office (<https://eoc.unc.edu/what-we-do/accommodations/>) for approval. After an absence is approved under that policy, the University Approved Absence Office will communicate the University Approved Absence to the course instructor(s) prior to the date(s) of the scheduled absence(s).
3. **Significant health condition and/or personal/family emergencies** as approved by the Office of the Dean of Students (<https://>

odos.unc.edu), Gender Violence Service Coordinators (<https://womenscenter.unc.edu/resources/gender-violence-services/>), and/or the Equal Opportunity and Compliance Office (<https://eoc.unc.edu/what-we-do/accommodations/>). Once the Office of the Dean of Students, Gender Violence Service Coordinators, and/or the EOC has approved the information, they will then request that the University Approved Absence Office issue a University approved absence notification to the student's instructor(s). The University Approved Absence Office will inform the course instructor in advance if the reason for the University approved absence is planned, or as soon as possible if the reason for the absence was not foreseen.

Instructors will not receive further explanation or clarification of University approved absences beyond notification from the University Approved Absence Office.

## Make-up Coursework and Assessment

All students with University approved absences will be treated fairly and equitably, regardless of the reason for the absence.

Instructors will provide reasonable alternatives that permit course objectives and learning outcomes to be met. Alternatives may include a make-up exam, alternative assessment, an additional paper or project of equivalent intellectual effort, an electronically-mediated participation opportunity, a due date extension, or other option that allows students to demonstrate what they have learned without being penalized for the University approved absence. It is a University expectation that instructor be prudent, fair, and equitable when a student misses an assessment due to a University approved absence. Course policies should avoid inequities, including discrepancies in preparation time for in-class versus make-up exams, missed opportunities to take and learn from an assessment, and policies that penalize students who must use their dropped grade option for a University approved absence.

The Undergraduate Testing Center (<http://testingcenter.web.unc.edu/>) provides a secure, proctored environment for administration of make-up assessments, tests, and exams for undergraduate and graduate courses throughout each term. There are regularly scheduled session times each week in addition to the Center's traditional use during final exams time. Please see the center's web site for more information and instructions as well as teaching and learning resources provided by the Center for Faculty Excellence (<https://cfe.unc.edu/>).

## Appeals

Given the swift and cumulative nature of a semester, an instructor should contact a student with a preliminary alternative plan within three business days of receiving notification of a University approved absence, or sooner if the absence takes place during a summer term. The student must respond to the instructor within two business days of receiving the alternative plan and discuss details with the instructor. After receiving the final alternative plan from the instructor, if a student feels that a reasonable alternative was not provided, they may submit an appeal within three business days to the instructor's chair or the chair's designee.

At any time, a student may file a report alleging that the University has failed to provide reasonable accommodations for the student's religious beliefs, disability, or pregnancy or related medical condition pursuant to the University's Policy on Prohibited Discrimination, Harassment and Related Misconduct (<https://eoc.unc.edu/our-policies/ppdhrm/>) (PPDHRM). The student may file a report under the PPDHRM following an unsatisfactory appeal determination by the instructor's chair or the chair's designee. Alternatively, the student may bypass the

University Approved Absence Office appeals process altogether and proceed directly to filing a report under the PPDHRM. If a student first files a report under the PPDHRM, the University Approved Absence Office's appeals process will be stayed until a determination has been made under the PPDHRM.

## Final Examinations

*(Maintained by the Education Policy Committee. Resolution 2017-5, passed on April 21, 2017; Resolution 2017-5.1, passed on May 15, 2017)*

This policy applies to all undergraduate courses across the University.

Undergraduate courses taught on campus must include a final assessment of students' mastery of course material (i.e., final examination) unless the provost grants an exception. A traditional final examination is administered at a predetermined time as specified in the official final examination schedule (<http://registrar.unc.edu/academic-calendar/>), and takes place at a designated location in Chapel Hill. Any other type of final examination is considered nontraditional.

The final examination schedule, announced prior to the beginning of the semester, sets the day and time for each examination. No examination may start later than 7:00 p.m. Once having been established, the schedule cannot be changed. Traditional final examinations must be held at the day and time shown on the schedule unless an exception is granted as described below.

Only the provost can grant exceptions to the scheduled day or time of a traditional examination, after review and approval by the appropriate department head and the dean. No examination (except for laboratory sections) may be held at a time other than that specified in the general schedule except with the advance approval of the provost.

A course instructor may, due to highly unusual circumstances, petition for a change in the examination schedule. The instructor must submit the request in writing to his or her chair no later than the last day of late registration for that term, and it must be cleared by the chair and the appropriate dean (e.g., Associate Dean, Academic Advising) before consideration by the provost. If the petition is approved, the course instructor assumes responsibility for making special arrangements to give the examination to any student who has a schedule conflict as a result of the change. This process only applies to requests to change a day or time for an individual section.

Requests to combine all sections of a specific course into one final exam day and time (regardless of the number of sections involved), is considered a request for a Common Hour exam and has an earlier deadline for submission. Requests for all common hour exams must be cleared by the chair or appropriate dean and approved by the provost. Requests for common hour exams must be made to the registrar the first week of February for fall semester final examinations and the first week of September for spring semester final examinations. There is no exception to this deadline.

No graded quizzes or exams (excluding in-class presentations) may be given during the last five days of the semester (last two days of the session for summer school) before the beginning of the final examination period.

For a standard three-credit-hour course, the University has a required three-hour final examination period, which includes 180 minutes of instruction in each semester (see UPM #29 – Definition of a Credit Hour (<http://registrar.unc.edu/academic-services/policies-procedures/>)).

university-policy-memorandums/upm-29-definition-of-a-credit-hour/)). Thus, the University requires instructors to provide a full three hours of instruction for final assessment purposes (e.g., written final examination, presentations, portfolio review, performance, review and evaluation, or some combination of these assessments). It is up to the discretion of the instructor of record to determine the form, content, and function of the final examination (e.g., whether it is cumulative; whether it is a three-hour exam or a shorter exam preceded or followed by a period of review; etc.). A traditional final examination should not exceed a period of three hours. Only examinations requiring an exceptional portion of practical work should be longer than three hours (e.g., student teaching).

Chairs (i.e., heads of instructional units) must give permission for faculty members to use nontraditional examinations. Examples of nontraditional examinations include those requiring more than three hours to complete; or other final assessments such as a portfolio of a semester's work, a final project, or a take-home examination. For multidisciplinary and cotaught courses, permission to give a nontraditional examination must be granted solely by the chair of the instructional unit in which the course is based. Even when faculty members have permission to administer nontraditional final examinations, the scheduled examination period must be utilized for instructional hours. The chair should submit to their academic dean's office an annual summary of the exceptions that were granted.

Students who are absent from an examination receive a course grade of AB (absent), which is equivalent to F (zero quality points), or FA (absent and failing regardless of performance on the final examination). When students are unable, for reasons clearly beyond their control, to take a traditional final examination at the scheduled time, they can be excused only by the director of Campus Health Services or their academic dean (who can issue an "examination excuse"). An absence may be excused for severe health problems leading to the student's placement on the Infirmary List by either Campus Health Services or Counseling and Psychological Services, for significant personal or family circumstances, for religious observances required by the student's faith, for a scheduling conflict involving multiple examinations at the same time, or when a student has three or more final examinations scheduled in 24 hours. In cases of illness, personal or family emergency, or religious observance, additional documentation may be required by the dean. Primary holy days for religious observances are noted on a Web-based interfaith calendar site (<http://www.interfaith-calendar.org/>). Students are responsible for providing the course instructor and the dean a written request for an excused absence from a final exam for a religious observance or for a scheduling conflict involving multiple examinations no later than the last day of classes. Students must be given the opportunity to make up final exams missed due to an excused absence.

For any University undergraduate courses offered entirely online or via other distance modalities, exams will be offered and must be completed during the scheduled final examination period, but requirements concerning the time of day and place of the exam will be appropriate to the course's mode of delivery. Self-paced courses are exempt from both the time and place requirements of the exam policy and the requirement that exams be held during the scheduled final examination period.

### **Campus Health Services**

Students who are seriously ill during the time of their final examination(s) (including complications related to pregnancy) should consult Campus Health Services or Counseling and Psychological Services about having their names entered on the Final Exam excuse list. In some cases, outpatient treatment can also result in a student's name being entered

on the list. Students on the Final Exam excuse list may obtain an official permit from the Office of the University Registrar to take the final examination to remove a grade of AB. They must make arrangements with their course instructor to take the final examination and provide the instructor with their official permit. If students are treated at Campus Health Services or Counseling and Psychological Services but do not appear on the list, they should see the dean of their college as soon as possible.

### **Academic Dean**

If students know in advance that they must miss one or more final examinations because of illness, religious observance, or other serious problems, they should notify in writing both the course instructor and the dean of the school in which they are enrolled no later than the last day of classes. If this is not possible, they should see their dean as soon after the fact as possible. For students in the College of Arts and Sciences, only the associate dean for advising (or designee) is authorized to issue examination excuses for reasons other than three exams in 24 hours or two exams at the same time. For other students, only the dean of the school in which the student is enrolled has that authority. The dean may require documentation of a student's religious observance, illness, or problems.

Assuming that a student did not take a final examination for one of the reasons previously cited, the dean will issue an official examination excuse, which the student must present to the course instructor when arrangements are made for a suitable time to take the final examination.

A student who has three final examinations scheduled by the Office of the University Registrar within a 24-hour period or two scheduled at the same time may request to his or her dean's office for permission to have one of the scheduled examinations rescheduled. In the College of Arts and Sciences, requests for exam excuses are reviewed by professional staff in Academic Advising via an online request form (<https://eef.oasis.unc.edu/>). In the event that one of the scheduled examinations is a common final examination for a multiple-section course, that examination is the one to be rescheduled.

Students who have secured an examination excuse or an official permit and who transmit the document to the instructor or the instructor's chair or dean must be granted permission to take the exam at an alternate time, although students will need to arrange a mutually convenient time with the instructor. Except when the provost has provided an exception in writing, the exam will be taken at a time subsequent to the regularly scheduled exam, though no later than the end of the following semester.

The final examination in any course may be taken only by regularly enrolled members of the class whose registration has been certified and by students certified to be eligible to take a special examination in that course. The certifying authority is the Office of the University Registrar.

Each student is required to sign a full and explicit Honor Code pledge certifying that he or she has neither given nor received aid during the examination.

## **Grading System**

### **Permanent Letter Grades**

A letter-grade and plus/minus system for evaluating academic performance is employed for all undergraduates. Each letter grade corresponds to a number of grade points. Each letter-graded course receives a numerical value of quality points (quality points equal grade points times semester credit hours per course) to use in determining

a student's average (per credit hour) in a particular term and to find a student's cumulative grade point average (per credit hour).

A = 4.0	B- = 2.7	D+ = 1.3
A- = 3.7	C+ = 2.3	D = 1.0
B+ = 3.3	C = 2.0	F = 0.0
B = 3.0	C- = 1.7	

To determine the grade point average for a term, first determine the total quality points earned in the term by multiplying the number of grade points awarded for each course by the course's assigned number of semester credit hours and adding the resulting quality points earned for each course in the term. Then divide the total quality points earned in the term by the number of semester credit hours attempted (for letter grades) in the term.

**Example**

Course	Grade	Grade Points	x	Credit Hours	=	Quality Points
Course A	C+	2.3	x	3.0	=	6.90
Course B	B-	2.7	x	3.0	=	8.10
Course C	B	3.0	x	4.0	=	12.00
Course D	C-	1.7	x	3.0	=	5.10
Course E	A-	3.7	x	1.0	=	3.70
Course F	F	0.0	x	1.0	=	0.00
Course G	A	4.0	x	3.0	=	12.00
Total quality points earned:						47.80
Total graded hours:						18.0
Term grade point average:						$47.80 \div 18.0 = 2.656$

**Permanent grades are defined as follows:**

- A Mastery of course content at the highest level of attainment that can reasonably be expected of students at a given stage of development. The A grade states clearly that the student has shown such outstanding promise in the aspect of the discipline under study that he/she may be strongly encouraged to continue.
- B Strong performance demonstrating a high level of attainment for a student at a given stage of development. The B grade states that the student has shown solid promise in the aspect of the discipline under study.

C A totally acceptable performance demonstrating an adequate level of attainment for a student at a given stage of development. The C grade states that while not yet showing any unusual promise, the student may continue to study in the discipline with reasonable hope of intellectual development.

D A marginal performance in the required exercises demonstrating a minimal passing level of attainment for a student at a given stage of development. The D grade states that the student has given no evidence of prospective growth in the discipline; an accumulation of D grades should be taken to mean that the student would be well advised not to continue in the academic field.

F For whatever reasons, an unacceptable performance. The F grade indicates that the student's performance in the required exercises has revealed almost no understanding of the course content. A grade of F should warrant questioning whether the student may suitably register for further study in the discipline before remedial work is undertaken.

Grades earned and semester hours attempted at other institutions are not included in the calculation of the University grade point average.

Records of progress are kept by this institution on all students. Students can access official semester grades in ConnectCarolina at the end of the term. Questions about access to student official grades or grade reporting should be directed to the Office of the University Registrar.

**Temporary Grades (IN and AB) and FA Grades**

Any student who ceases to attend a class without officially being dropped or withdrawn may receive a temporary grade of AB or IN or a permanent grade of FA.

Students who do not complete all requirements in a course by the end of the semester, but who could pass the course if they did, receive a temporary grade of IN (incomplete) or AB (absent from the final exam) in place of a permanent letter grade. Grades of IN and AB do not affect grade point average. Students who do not complete the course requirements within a specified period of time are assigned permanent F\* grades on their academic transcripts by the Office of the University Registrar.

The instructor must report the grade of AB for any student who did not take the final examination and who, by taking the final examination, could pass the course. This AB grade later converts to an F\* unless the student arranges to take the final examination before the last day of finals of the next regularly scheduled semester (fall or spring). If the student cannot pass the course regardless of a final examination performance, the instructor must report the grade FA. The grade of FA (cannot pass the

class) is a permanent failing grade. A grade of F may be assigned instead of a temporary grade or a grade of FA when a final examination is not required in the course.

The grade IN may only be assigned by an instructor to a student who took the final examination in a course but did not complete some other course requirement (including signing the honor pledge) and who, by virtue of completing that missing work, might pass the course. Unless removed before the last day of finals of the regularly scheduled semester (fall or spring) following its assignment, an IN converts to an F\*.

Absence from a final examination may be officially excused only by the student's dean or the director of Campus Health Services or Counseling and Psychological Services. Please see "Final Examinations" above for information about final examination excuses.

## Important Rules and Procedures Pertaining to AB and IN Grades

The decision to report an IN grade is solely the responsibility of the course instructor; however, a student may present proper justification for the instructor's consideration.

Temporary grades should be cleared by completing the work outstanding, preferably no later than the start of the following semester. The deadline for clearing a temporary grade of AB or IN is the last day of finals for the next regularly scheduled semester or the instructor-provided deadline, whichever is earlier.

If students intend to remove IN or excused AB grades, they should not officially enroll in the course(s) during the next semester or summer session. If recommended by the course instructor, a student may attend by officially auditing a part of that instructor's section of the course or another instructor's section of the same course in which the temporary grade was awarded.

If a student enrolls in a course in which a temporary grade has been previously received, the second enrollment is taken as evidence that the student could not or is not permitted to remove the temporary grade. This results in replacing the temporary grade by F\* after the deadline for removing the temporary grade. The grade earned during the second enrollment is also reported on the student's academic transcript and is used along with the F\* grade in the computation of a cumulative grade point average.

## Other Grades and Notations

A notation of BE (By-Examination) is entered in the grade column of academic transcripts if students are awarded credit for a course as a result of evaluation by departmental, Advanced Placement, International Baccalaureate, or SAT II Subject Test examinations. BE credit confers credit hours and can be used to fulfill General Education requirements. For first-time, first-year students entering UNC-Chapel Hill in fall 2009 or thereafter, no more than two courses (six to eight credit hours) of BE credit can be applied to a major and no more than one course (three to four credit hours) of BE credit can be applied to a minor in the College of Arts and Sciences. BE credit may not be used to satisfy cumulative grade point average requirements for majors or minors.

A notation of NG (no grade) is not used by individual instructors but rather is assigned by the Office of the University Registrar when a permanent grade is pending a judicial review by the Honor Court.

A notation of PL (placement) is entered in the grade column of academic transcripts if students are awarded exemption for a course as a result of

an evaluation that would ordinarily place them in a succeeding course. PL does not confer credit hours.

There are some courses for which only a grade of PS (pass) or F (fail) can be awarded. For most other courses, students may opt to take a class on a Pass/Fail basis (<http://catalog.unc.edu/policies-procedures/registration-enrollment-withdrawal/>).

A grade of SP (satisfactory progress) may be used in the first course of a departmental undergraduate honors program. The honors program runs through two semesters, and a final grade is not reported until completion of the second course. When the final grade is reported, the previously assigned SP grade must be changed to the appropriate permanent letter grade by an official grade change form. Credit hours are awarded for the first honors course only after a letter grade replaces the SP grade. An SP grade is not computed in the grade point average.

A notation of W (withdrawn) is entered in the grade column of academic transcripts if students are permitted by their school to drop a course after the eighth week of classes or proportional equivalent for summer terms and other nonstandard enrollment periods. This notation is automatically entered unless the student's academic dean specifies otherwise.

When a course is dropped between the second and eighth week of classes, a grade of WC (withdrawal by choice) shall be recorded and used internally for tracking and reporting purposes. For external purposes, a withdrawal by choice is equivalent to the W notation. Once recorded, a WC cannot be rescinded unless it is determined the student withdrawal was due to extenuating circumstances.

A notation of XF is entered to indicate that a student has not passed a course as the result of an Honor Court violation. The grade of XF can be replaced by a final grade of F if the student follows prescribed steps to remediate the violation.

A blank space or a grade of NR (not reported) is shown in the grade column when the instructor has not submitted the official grade for the student.

## Repeating Course Enrollments

See Registration, Enrollment, and Withdrawal (p. 1265).

## Grades Earned at Other Institutions

With the exception of courses taken via interinstitutional registration (p. 1265), grades earned and semester hours attempted at other institutions are not included in the computation of a grade point average at the University. A grade point average earned at another university may not be used to restore academic eligibility; however, academic hours earned at another university may be used to restore academic eligibility if the student is lacking only credit hours and has a satisfactory grade point average. Special rules regarding transfer courses apply; see Transfer of Credit (p. 21) and Academic Eligibility (p. 1277).

## Grade Appeals

The grades of H, HP, P, LP, L, A, A-, B+, B, B-, C+, C, C-, D+, D, PS, F, FA, F\*, and numerical grades in the Law School are considered permanent grades. Once reported, the instructor's grade report may not be changed except under certain conditions. For a grade change to be considered, it must be based upon one or more of the following grounds and upon allegation that the ground or grounds cited influenced the grade assignment to the student's detriment:

- Arithmetic or clerical error
- Arbitrariness, possibly including discrimination or harassment based on the race, color, gender, national origin, age, religion, creed, disability, veteran's status, sexual orientation, gender identity, or gender expression of the student
- Personal malice
- Student conduct cognizable under the *Instrument of Student Judicial Governance*

A grade appeal must be made no later than the last day of classes for the succeeding fall or spring semester.

### **Grade Appeals Correcting a Clerical or Arithmetical Error**

An instructor who has reported an incorrect grade for a student because of an error in calculating the grade, or in entering it on the official grade roster, may change the grade to one of the other letter grades, provided this change is made no later than the last day of classes of the succeeding fall or spring semester. Grade changes are submitted online using the Grade Change Request process, with electronic approvals required by the instructor, the department chair, and student's dean's office.

### **Other Grade Appeals**

Any student who protests a course grade shall first attempt to resolve this disagreement with the instructor concerned. (As explained in the preceding paragraph, an instructor may change a permanent grade only when a clerical or arithmetical error is involved.) Failing to reach a satisfactory resolution, the student may appeal the grade in accordance with the procedures outlined below. Such appeal must be made no later than the last day of classes of the succeeding fall or spring semester.

Students should present the appeal in writing to the dean of their school (students in the College of Arts and Sciences must submit it in writing to the associate dean for advising). The dean will refer the appeal to the administrative board of his/her school, which will meet to consider whether the student has offered sufficient grounds for referring the appeal to the chair of the department concerned. If the administrative board determines that further review by the academic department is appropriate, the department chair will then appoint a committee to consider the appeal and will make a recommendation to the administrative board based on the committee's findings. The administrative board will make the final decision, and no change of grade will be made except as a result of the decision by the board. The chair will report such decision to change the grade to the Office of the University Registrar.

# ACADEMIC STANDING

## Academic Eligibility Policy

For students in the undergraduate career, the University's academic eligibility policy specifies the minimum standards of academic performance required for continued enrollment. These standards apply to undergraduate students enrolled in courses during or after the fall 2016 semester.

## Degree-Seeking Programs

To guide students toward timely degree completion, the University maintains academic eligibility standards. These standards are reviewed at the end of fall, spring, summer I, and summer II terms. These standards determine academic status for each undergraduate in a degree-seeking program. Academic status indicates eligibility to enroll in any course in any term including summer. Students must check their academic status in ConnectCarolina at the end of each enrolled fall, spring, or summer term.

Academic status is determined through four standards of satisfactory academic progress:

1. **Grade Point Average.** A cumulative UNC–Chapel Hill grade point average of at least a 2.000 is required.
2. **Completion Rate.** Students must successfully complete at least 2/3 of cumulative attempted credit hours. By-Exam (BE) and credits transferred in to UNC–Chapel Hill count as both attempted and completed hours. Withdrawals, temporary grades including AB, IN, or SP, and failed courses count as attempted hours but not completed hours. Completed Hours/Attempted Hours=Completion Rate.
3. **Cumulative Hours Passed\*.** To enroll in courses, students must have earned the following:
  - After one full-time semester: 9 academic hours
  - After two full-time semesters: 24 academic hours
  - After three full-time semesters: 36 academic hours
  - After four full-time semesters: 51 academic hours
  - After five full-time semesters: 63 academic hours
  - After six full-time semesters: 78 academic hours
  - After seven full-time semesters: 93 academic hours

Students are expected to complete their degree within a maximum of eight full-time semesters. Transfer students (who transfer in the UNC–Chapel Hill equivalent of two or more semesters, see "Calculation of Transferred Semesters Based on the Number of Transfer Hours (p. 1257)") may enroll in up to 10 total semesters. Students who enter as first years are required to apply for a ninth or tenth semester. For information about the application process, students in professional schools must contact their professional school dean, and students in the College of Arts and Sciences must contact the Academic Advising Program (<http://advising.unc.edu>).

\*Part-time students are excluded from this standard.

4. **Maximum Time Frame.** Students must complete their degree within 180 attempted credit hours.

There are four **academic statuses**: good standing, warning, suspension, and probation.

Students who meet each of the four standards at the end of an enrolled term will have an academic status of **good standing**.

Students who begin an enrolled term in good standing but do not meet each of the four standards at the end of that enrolled term will receive an academic status of **warning**. Students with a status of warning may enroll in courses and must complete an academic intervention plan (<http://studentsuccess.unc.edu/warning/>).

A student who begins an enrolled term with a status of warning and falls short of the standards at the end of that enrolled term will earn an academic status of **suspension**. Students with an academic status of suspension cannot enroll in any courses in any terms. Students with an academic status of suspension have two options:

- a. Appeal for **probation**. Students granted academic probation by appeal must complete an academic intervention plan (<http://studentsuccess.unc.edu/academic-probation-3/>). Students denied probation by appeal can pursue option b.
- b. Spend a term engaging in study, work, or wellness activities away from UNC–Chapel Hill. These opportunities could include coursework at another institution, employment, volunteer work, or healthcare or wellness activities. During this time students should reflect on their academic path, development, choices, and actions. Students should also implement strategies that will enhance their effectiveness upon return to the University. After a term away from the University, students who have engaged in study, work, or wellness activities may appeal to return to the University on probation. Students appealing after a term or longer away from the University must include documentation of their experiences while away such as a transcript from another institution, a letter from an employer, or a letter from a healthcare provider. These documents must convey evidence of the student's readiness to return to the University.

A student who begins an enrolled term with a status of probation and falls short of the standards at the end of that enrolled term will earn an academic status of **suspension**. Students with an academic status of suspension have two options (see above).

## Repeats, Withdrawals, and Incompletes

**Attempted hours** include all those in which a student is enrolled as of the end of the second week of each fall or spring term (the 10th day of the term, generally known as the "census date"). Students may drop a course until the 10th day of the term. Dropped courses do not count in attempted hours.

The summer schedule is similar to fall/spring but is determined according to the summer calendar. Credit hours that are dropped or withdrawn prior to the census date are not considered attempted; credit hours that are dropped or withdrawn after the census date *are* considered attempted.

**Repeated courses** affect grade point average and Completion Rate.

**Transfer hours** do not affect grade point average. Transfer hours are added to both completed hours and attempted hours in the Completion Rate calculation.

**Courses with temporary grades of IN or AB** do not affect grade point average. If a grade of IN or AB is converted to a passing grade, grade point average will be recalculated accordingly.

**Withdrawn courses** do not affect grade point average. Withdrawn courses are NOT considered a successful completion, though, and will adversely affect Completion Rate.

**Failed courses** influence grade point average. A failed course will also adversely affect Completion Rate, counting as attempted hours but not completed hours.

## Overview of Academic Status

Entering Academic Status	Term Performance	New Academic Status
Good	Meets all 4 standards	Good (may enroll)
Good	Does not meet all 4 standards	Warning (may enroll; must complete academic intervention plan)
Warning	Meets all 4 standards	Good (may enroll)
Warning	Does not meet all 4 standards	Suspension (may not enroll; may pursue options a or b for suspension status)
Probation	Meets all 4 standards	Good (may enroll)
Probation	Does not meet all 4 standards	Suspension (may not enroll; may pursue options a or b for suspension status)

## Academic Eligibility Policy for Non-Degree-Seeking Programs

For non-degree-seeking students there are three academic statuses: good standing, alert, and ineligible. A non-degree-seeking student with a 2.000 or higher cumulative grade point average will be in good standing and eligible to enroll in courses. If a non-degree-seeking student falls below a 2.000 cumulative grade point average, the student will be assigned a status of alert. A non-degree-seeking student who begins a term with a status of alert and does not raise his or her cumulative grade point average to 2.000 or higher at the end of the term will have an academic status of ineligible and will not be permitted to enroll in courses. Non-degree-seeking students with a status of ineligible may appeal to Digital and Lifelong Learning.

## Appeals

Students may, under extraordinary circumstances, present an appeal in writing (or online for students in the College of Arts and Sciences) to the dean of their school (for students in the College of Arts and Sciences, this is the associate dean for advising). The dean will refer the appeal to the administrative board for his/her school.

## Calculation of Transferred Semesters Based on the Number of Transferred Credit Hours

See the Credit and Evaluation (p. 1257) section of the catalog.

## Additional Information for Students with an Academic Status of Suspension

- If students earn 15 or more transfer semester credit hours for courses taken at other institutions cumulatively over the fall or spring semesters before applying for readmission to the University, a calculation will be made as to how many semesters the student is regarded as having completed, based on the number of hours accepted for transfer credit. The resulting tally of total semesters

completed will determine requirements for restoring academic eligibility.

- Students should consult their academic advisor if they are considering taking classes at another institution. Grades do not transfer, and credit hours accumulated through enrollment in fall and spring semesters at other schools can affect the number of remaining semesters that students have left to complete their degree requirements at UNC–Chapel Hill.
- Students who attend another institution (summer, fall, or spring), and who apply for readmission must have at least a 2.000 (C) average in work at the other institution.
- Students who have a housing assignment or contract for the following semester should either cancel their application/contract or notify the University's Department of Housing and Residential Education of their intention to restore academic eligibility before the following semester begins.

Students who are inactive during a semester because of ineligibility (or other reasons) must apply for readmission before registering for a full-time term.

## Removing AB or IN Grades

For information about completing courses with grades of AB (absent from the final examination) or IN (incomplete), see the grading system information (p. 1271).

# HONOR CODE

## The Honor Code

The Honor System forms a bond of trust among students, faculty, and administrators. The University of North Carolina at Chapel Hill operates under a system of self-governance, as students are responsible for governing themselves. As such, our University is transformed into a powerful community of inquiry and learning. The Honor Code embodies the ideals of academic honesty, integrity, and responsible citizenship, and governs the performance of all academic work a student conducts at the University. Acceptance of an offer of admission to Carolina presupposes a commitment to the principles embodied in our century-old tradition of honor and integrity.

## Mutual Responsibilities of the Faculty and Students

Academic work is a joint enterprise involving faculty and students. Both have a fundamental investment in the enterprise and both must share responsibility for ensuring its integrity. In relation to the Honor Code, therefore, specific responsibilities of the faculty which parallel the responsibilities of the students have been formally adopted by the Faculty Council.

### Responsibilities of the Faculty

1. Awareness: To assure that community-wide expectations regarding academic integrity are understood and communicated, and that students are held accountable for conforming their conduct to such expectations.
2. Communicating Expectations and Administering Examinations: To assist students in complying with their responsibilities relating to academic integrity, faculty members, teaching assistants, and other instructional personnel should
  - Use good judgment in setting and communicating clear ground rules for academic work conducted under their supervision.
  - Require students to sign the honor pledge as a condition of submitting academic assignments.
  - Take steps to prevent unauthorized access to examinations during development, duplication, and administration.
  - Avoid reusing prior examinations in whole or in part to the extent possible.
  - Take all reasonable steps consistent with physical classroom conditions to reduce the risk of cheating during the administration of examinations.
  - Maintain proper security during the administration of examinations, including as appropriate overseeing distribution and collection of examinations and proctoring the examination session.
3. Oversight: In the event of student misconduct that appears to violate the requirements of the Honor Code, faculty members, teaching assistants, and other instructional personnel should
  - Report to the appropriate Student Attorney General any instance in which the instructor has reasonable basis to conclude that a student under the faculty member's supervision has engaged in academic dishonesty or substantially assisted another to do so in connection with academically related work.
  - In the instructor's discretion, notify the student of the instructor's intention to report the suspected academic dishonesty and permit the student to provide relevant further information if the student chooses to do so.

- Refrain from taking unilateral punitive action as to a student rather than reporting conduct in suspected violation of the Honor Code.
  - Cooperate with representatives of the Honor System in conducting necessary investigation, providing testimony or other evidence, recommending appropriate sanctions, or otherwise bringing the matter to prompt conclusion.
4. Involvement: To bring to bear requisite faculty judgment regarding the nature and importance of academic integrity, and to nourish a strong campus-wide understanding and commitment to associated intellectual and personal values, faculty members, teaching assistants, and other instructional personnel should
    - Explore issues of integrity in connection with instructional activities where relevant and appropriate.
    - Encourage their academic units to take matters of academic integrity seriously, become informed regarding related problems and advisable means of preventing problems from arising, and provide requisite training and support to instructional personnel.
    - Participate upon request as part of educational initiatives, faculty advisory panels, and University Hearing Boards designed to create, nurture, and enforce high standards of academic integrity within the University community.

### Responsibilities of Students

To ensure effective functioning of an Honor System worthy of respect in this institution, students are expected to

1. Conduct all academic work within the letter and spirit of the Honor Code, which prohibits the giving or receiving of unauthorized aid in all academic processes.
2. Consult with faculty and other sources to clarify the meaning of plagiarism, to learn the recognized techniques of proper attribution of sources used in the preparation of written work, and to identify allowable resource materials or aids to be used during examination or in completion of any graded work.
3. Sign a pledge on all graded academic work certifying that no unauthorized assistance has been received or given in the completion of the work.
4. Comply with faculty regulations designed to reduce the possibility of cheating—such as removing unauthorized materials or aids from the room and protecting one's own examination paper from the view of others.
5. Maintain the confidentiality of examinations by divulging no information concerning an examination, directly or indirectly, to another student yet to write that same examination.
6. Treat all members of the University community with respect and fairness.
7. Report any instance in which reasonable grounds exist to believe that a student has given or received unauthorized aid in graded work or in other respects violated the Honor Code. Such report should be made to the Office of the Student Attorney General, the Office of the Dean of Students, or other appropriate officer or official of their college or school.
8. Cooperate with the Office of the Student Attorney General and the defense counsel in the investigation and hearing of any incident of alleged violation, including the giving of testimony when called upon.

## Procedure for Reporting

Members of the University community who wish to report possible violations of the Honor Code should contact the Office of Student

Conduct at (919) 962-0805 or fill out the online form (<https://studentconduct.unc.edu/report-violation-office-student-conduct/>). The Office of Student Conduct will review the report and refer it to the appropriate Student Attorney General for action.

# UNIVERSITY POLICIES

## Regulations and Policies

The personal conduct of students at the University of North Carolina at Chapel Hill (“University” or “UNC–Chapel Hill”) is subject to the moral and legal restraints found in any law-abiding community. Additionally, the Honor Code is a positive force for good citizenship. University regulations are not specifications for acceptable conduct or detailed lists of offenses subject to penal action. They are intended to provide information about systematic procedures and equitable decisions in many situations involving individual students and officers of the University.

### Code of the University of North Carolina

**Section 502D(3)**—Subject to any policies or regulations of the Board of Governors or of the Board of Trustees, it shall be the duty of the chancellor to exercise full authority in the regulation of student affairs and student conduct and discipline. In the discharge of this duty, delegation of such authority may be made by the chancellor to faculty committees and to administrative or other officers of the institution, or to agencies of student government, in such manner and to such extent as may by the chancellor be deemed necessary and expedient. In the discharge of the chancellor’s duty with respect to matters of student discipline, it shall be the duty of the chancellor to secure to every student the right to due process. Appeals from these disciplinary decisions are allowable only on the following grounds:

1. a violation of due process, or
2. a material deviation from the Minimum Substantive and Procedural Standards for Student Disciplinary Procedures, Section 700.4.1 of the UNC Policy Manual.

Where the sanction is suspension or expulsion, an appeal may be made to the Board of Trustees. No appeal to the president or Board of Governors is permitted.

### Whistleblower Policy

The purpose of this policy is to encourage individuals to report possible wrongful conduct to an appropriate authority so that prompt, corrective action can be taken by the University and to protect reporting individuals from any retaliation for reporting wrongful conduct. Please see the full text of the Whistleblower Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131868>) on the University’s policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

### Religious Accommodation Policy

The University is committed to providing a welcoming and inclusive environment that is respectful of the religious beliefs and practices of all members of the University community. As part of this commitment, the University will make good faith efforts to provide reasonable religious accommodations to individuals covered by this policy whose sincerely held religious beliefs and practices conflict with a University policy, procedure, or other academic or employment requirement unless such an accommodation would create an undue hardship.

The University is committed to diversity and nondiscrimination and supports the employment of all qualified individuals, regardless of religious affiliation or beliefs. This commitment is in accordance with state and federal laws and regulations, including Title VII of the Civil Rights Act of 1964 and its accompanying regulations, as well as the Equal Employment Opportunity Commission’s Guidelines on

Discrimination Because of Religion, and North Carolina General Statute § 116-11(3a). Please see the full text of the Religious Accommodation Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131709>) on the University’s policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

### Alcoholic Beverages

Possession and use of alcoholic beverages is substantially regulated by federal, state, and local laws and ordinances. Within this legal framework, the University’s Alcohol Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=132458>) sets out the conditions under which alcoholic beverages may be used on University property.

According to North Carolina law

- Generally, persons 21 or older may purchase or consume alcoholic beverages and may possess alcoholic beverages at their homes or temporary residences.
- It is against the law for any person under 21 to purchase or possess any alcoholic beverage. (General Statute 18B-302)
- It is against the law for anyone to sell or give any alcoholic beverage to a person under 21 or to aid or abet such a person in selling, purchasing, or possessing any alcoholic beverage. (General Statute 18B-302)
- No alcoholic beverages may be sold by any person, organization, or corporation on a college campus except as permitted by North Carolina General Statutes, Sect. 18B-1006 (a).

According to Chapel Hill ordinance 3-3 ([https://library.municode.com/nc/chapel\\_hill/codes/code\\_of\\_ordinances/?nodeId=CO\\_CH3ALBE](https://library.municode.com/nc/chapel_hill/codes/code_of_ordinances/?nodeId=CO_CH3ALBE)), it is against the law for anyone to possess any open container of alcohol on streets, sidewalks, alleys, or any other property owned or controlled by the Town of Chapel Hill.

In addition to following the law, the University’s Alcohol Policy sets out special rules about alcohol for University employees and for students and student organizations. For University employees, the Procedure for Requesting Permission to Serve Alcoholic Beverages at University-Sponsored Events (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=138011>) describes how University Departments and Units may request permission to serve alcohol at University-sponsored events. For University students and student organizations, the Procedures for Adjudication and Response to Student and Student Organization Violations of the UNC–Chapel Hill Alcohol Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=138012>) describes the procedural rights, administrative process, sanctions, and appeal process for students and student organizations accused of violating the University’s Alcohol Policy. The Office of the Dean of Students will provide copies of the policy and procedures and assistance in understanding their full implications. The text of the policy and procedures can also be accessed on the University’s policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

### Illegal Drugs Policy

The University’s Illegal Drugs Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=132140>) addresses education, counseling, and rehabilitation to help all members of the University Community avoid involvement with illegal drugs. The policy also describes enforcement and penalties, consistent with state and federal law, to eliminate illegal drugs from the University community. Please see

the full text of the Illegal Drugs Policy on the University's policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

## Commercial Activities

Commercial exchanges, including selling or soliciting for the sale of goods or services by any person on the campus of the University is prohibited except as provided for in the Facilities Use Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131343>).

## Emergency Evaluation and Action Committee Policy and Procedures

In keeping with the long tradition of student self-governance at the University, the chancellors of the University have delegated a portion of their authority in matters of student discipline to a student judicial system that functions in accordance with The Instrument of Student Judicial Governance. From time to time, however, the University is faced with situations involving behavior of applicants for admission, who are not yet within the jurisdiction of the student judicial system, and situations involving students that require a University response because they pose some danger to the University and/or its processes but that are not cognizable under the Instrument. Occasionally emergency situations arise in connection with student behaviors, which require a faster response than the student judicial system's procedures can provide. To address all of these situations and to fulfill the University's obligation to provide a safe campus, the Emergency Evaluation and Action Committee has been established. The full text of the committee's policies and procedures (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=132459>) is on the University's policy website. (<https://policies.unc.edu/TDClient/2833/Portal/Home/>)

## Equity in Athletics Disclosure Act

Information compiled under the federal Equity in Athletics Disclosure Act is available on request from the Department of Athletics Business Office.

## Expulsion

Per UNC System Policy 700.4.3[G], a student who has been expelled from one constituent institution may not be admitted to another constituent institution of the University, unless and until the sanction of expulsion has been rescinded by the institution that imposed the sanction.

## Fireworks, Firearms, and Other Weapons

Per N.C. General Statute 14.269.2(b) and (b1), it is a felony, punishable by fine and/or imprisonment, to possess or carry, openly or concealed, any gun, rifle, pistol, or other firearm of any kind, or any dynamite cartridge, bomb, grenade, mine, or powerful explosive on any University campus, in any University-owned or operated facility, or at a curricular or extracurricular activity sponsored by the University. Such conduct also may constitute a violation of the Honor Code.

Per N.C. General Statute 14.269.2(k1) and (k2), a person who has a concealed handgun permit that is valid under North Carolina law, or who is exempt from obtaining a permit pursuant to North Carolina law, may have a handgun in a closed compartment or container within the person's locked vehicle or in a locked container securely affixed to the person's vehicle. A person may unlock the vehicle to enter or exit the vehicle provided the firearm remains in the closed compartment at all times and the vehicle is locked immediately following the entrance or exit.

Per N.C. General Statute 14.269.2(e), it is a Class 1 misdemeanor, punishable by fine and/or imprisonment, to possess or carry, whether openly or concealed, any BB gun, stun gun, air rifle, air pistol, bowie knife, dirk, dagger, slingshot, leaded cane, switchblade knife, blackjack, metallic

knuckles, razors and razor blades (except for personal shaving), fireworks, or any sharp-pointed or edged instrument (except instructional supplies, unaltered nail files, and clips and tools used solely for preparation of food, instruction, and maintenance) upon any University campus or in any University-owned or operated facility. Such conduct may also constitute a violation of the Honor Code.

## Housing and Residential Education

For policies and procedures related to living on campus, visit the Housing and Residential Education (<https://housing.unc.edu/policies/housing-contract/>) website.

## Immunization Requirement

All new and transfer students are required to submit documentation (<https://campushealth.unc.edu/services/immunizations/>) of immunizations required under N.C. General Statute 130A-155.1. Students who were previously enrolled at UNC-Chapel Hill are not required to resubmit immunization documentation.

Per North Carolina state law 130A-155.1(a), students will be withdrawn from the University 30 days after classes begin if immunization requirements have not been met.

## Improper Relationships between Students and Employees

On March 15, 1996 (updated July 1, 2007), The University of North Carolina Board of Governors adopted a system-wide policy (300.4.1) that prohibits amorous or sexual relationships between faculty or staff employees and

1. students they evaluate or supervise by virtue of their teaching, research, administrative, or other employment responsibility and
2. students who are minors below the age of 18.

The policy also states that faculty or staff employees may not supervise or evaluate students to whom they are related by blood, law, or marriage. The full Improper Relationships Between Students and Employees Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=131764>) based on the UNC Board of Governor's policy is available on the University's policy website (<https://policies.unc.edu/TDClient/2833/Portal/Home/>).

## Veterans' Educational Benefits

Students who expect to use their veterans' educational benefits must contact the Veterans' Services Assistant in the Office of the University Registrar, located in the Student and Academic Services Building North. Students must maintain satisfactory academic progress to be eligible for VA educational benefits. Students who are not eligible at the end of the term will not be eligible for veterans' educational benefits in subsequent terms until they regain their eligibility. For further information, please visit the Office of the University Registrar's web page on Veteran Affairs (<https://registrar.unc.edu/academic-services/veteran-affairs/>).

## Military Tuition Benefit

As a member of the armed services, the North Carolina National Guard or a military dependent, if you do not qualify as a North Carolina resident for tuition purposes, you may still be eligible to pay a reduced tuition rate if you meet the eligibility requirements for the Military Tuition Benefit (N.C. General Statute 116-143.3).

Note: The benefit only determines the amount of tuition you pay. You must still qualify academically for admission.

For additional information about the UNC–Chapel Hill military tuition benefits, please see the Office of the University Registrar's web page on Active-Duty Military Benefits (<https://registrar.unc.edu/academic-services/residency/special-residency-provisions/military-benefits/>).

## Policies on Prohibited Harassment and Nondiscrimination

The University is committed to providing an inclusive and welcoming environment for all members of our community. The University values safety, diversity, education, and equity and is firmly committed to maintaining a campus environment free from discrimination, harassment, and related misconduct.

In accordance with its Policy Statement on Nondiscrimination, the University does not unlawfully discriminate in offering equal access to its educational programs and activities or with respect to employment terms and conditions on the basis of an individual's age, color, disability, gender, gender expression, gender identity, genetic information, race, national origin, religion, sex, sexual orientation, or veteran status (collectively referred to as "protected status"). The University's protection of these statuses is grounded in federal law.

Federal law also governs the University's response to sexual assault, sexual violence, interpersonal violence (including domestic and dating violence), and stalking. Such acts violate the essential dignity of our community member(s) and are contrary to our institutional values. Please visit these links to see the full text of the Policy on Prohibited Discrimination, Harassment and Related Misconduct (<https://policies.unc.edu/TDCClient/2833/Portal/KB/ArticleDet/?ID=132487>) and the Policy Statement on Nondiscrimination (<https://policies.unc.edu/TDCClient/2833/Portal/KB/ArticleDet/?ID=131717>).

## Gender-Inclusive Language Policy

The University is committed to providing an inclusive and welcoming environment for all members of our University Community. Consistent with that commitment, gender-inclusive terms (chair, first-year student; upper-level student, etc.) should be used on University documents, websites, and policies.

A guidance handout ("Gender-Inclusive Language (<https://writingcenter.unc.edu/tips-and-tools/gender-inclusive-language/>)") may be found on the UNC Writing Center website. Please see the full text of the Gender-Inclusive Language Policy (<https://policies.unc.edu/TDCClient/2833/Portal/KB/ArticleDet/?ID=132161>) on the University's policy website.

## Posthumous and Memorial Degree

In the unfortunate event of a recently enrolled student death, the University may award a degree posthumously or a memorial degree of achievement to the next of kin of the decedent. The following criteria are used to determine awarding a degree posthumously and it is included in the official degree count. Detailed information on the criteria for awarding a posthumous degree or memorial degree of achievement are in UPM#13 Authorized Degrees (<https://registrar.unc.edu/academic-services/policies-procedures/university-policy-memorandums/upm-13-authorized-degrees-major-fields-in-each-degree-and-assigned-code-numbers/>), Major Fields in Each Degree, and Assigned Code Numbers.

## Undergraduate Students

Upon the recommendation of the Dean of Students Office in conjunction with the Dean's Office of the student's academic college/school, a posthumous degree may be awarded to a deceased undergraduate student if the student was in good academic standing and at least 90 percent of academic requirements for earning the degree are already completed. This is typically in the last two semesters or year of study for undergraduate degrees.

## Graduate and Professional Students

Upon the recommendation of the Dean of Students Office in conjunction with the Dean's Office(s) of the student's academic college/school(s), a posthumous degree may be awarded to a deceased graduate or professional student if the student was in good academic standing and significant progress had been made toward academic requirements for earning the degree. For graduate and professional degrees this can vary but generally the following considerations apply:

- For degrees requiring a#research or other creative/practicum activity, the student must have#completed all course and other requirements pursuant to the degree and must#have been near completion of the dissertation/thesis/substitute product; and the student's committee#must have determined the scholarship to be substantial work and worthy of the#degree.
- For degrees requiring primarily coursework, at least 90 percent of academic requirements for earning the degree are already completed. This is typically in the last two semesters or year of study.

In cases where requirements for awarding a doctorate have not been met, a master's degree could be awarded if those requirements have been satisfied and if supported by the student's committee.

## Memorial Degree of Achievement

If requirements for awarding the degree posthumously are not met, the University may issue a memorial degree of achievement. This is neither recorded as an official degree nor included in the official degree count. The Dean of Students Office, in conjunction with the academic college/school of the student, issues this memorial degree of achievement#to honor the memory of the deceased student's contributions to the UNC–Chapel Hill academic community.

## Certificate of Achievement

In circumstances when awarding a degree is not appropriate, the University can issue a certificate of achievement recognizing a former student. The Dean of Students office determines if a situation warrants issuing this recognition. This is neither recorded as an official certificate nor included in the official certificate count.

## Residence Status for Tuition Purposes

Under state law, North Carolina residents are eligible for a lower tuition rate to state universities, including UNC–Chapel Hill.

In order to qualify as residents for tuition purposes, students must have established legal residence (or domicile) in North Carolina and maintained that legal residence for at least twelve (12) months prior to their classification as residents for tuition purposes. Each student is classified as an in-state or out-of-state resident upon admission.

If you believe that you qualify as a North Carolina resident for tuition purposes, you may apply for in-state resident status by following the instructions provided by your admissions office. Continuing students who believe they may now qualify as a resident for tuition purposes may apply through the North Carolina Residency Determination Service (RDS) (<https://ncresidency.cfnc.org/>). For additional information about the UNC–Chapel Hill residency requirements and procedures, please see the Office of the University Registrar's web page on Residency (<https://registrar.unc.edu/academic-services/residency/>).

## Tuition Waiver for Family Members of Deceased or Disabled Emergency Workers

Certain family members of emergency workers killed or permanently disabled in the line of duty may become eligible for tuition-free enrollment.

For additional information about the UNC–Chapel Hill emergency worker tuition benefits, please see the Office of the University Registrar's web page on Emergency Worker Tuition Benefits (<https://registrar.unc.edu/academic-services/residency/emergency-worker-tuition-benefits/>).

## Policies and Guidelines for a Cooperative Learning Environment

Teaching and learning occur simultaneously through a partnership between instructor and student. Instructors share knowledge, experience, and ideas with their students. Students process these thoughts, generate new ones, and share them with their teachers and classmates. In most cases, students and instructors communicate clearly and effectively. However, misunderstandings do occur. In an attempt to foster a positive academic environment, the Faculty Council, upon recommendation of the Educational Policy Committee, establishes the following policies and guidelines.

**The Faculty Council resolves:**

### Part I. Policies

#### Section 1.

The Faculty Council recognizes and affirms the following policies. This recognition is not to be interpreted as precluding modification of any policy by the appropriate authority.

- *The Honor Code.* The faculty should inform students of the provisions of the honor code and be aware of their own responsibilities specified in the honor code. Faculty responsibilities are stated in the *Instrument of Student Judicial Governance*.
- *Student Grievance Policy and Procedures.* According to UNC–Chapel Hill Student Grievance Committee procedures, students may file a grievance against a UNC–Chapel Hill employee, including faculty, EHRA non-faculty, staff, and student employee (when acting in the role of employee) when there is a violation of one of the following:
  - a. The UNC–Chapel Hill Policy on Prohibited Discrimination, Harassment and Related Misconduct, Including Sexual and Gender-Based Harassment, Sexual Violence, Interpersonal Violence and Stalking (<https://policies.unc.edu/TDCClient/2833/Portal/KB/ArticleDet/?ID=132487>);
  - b. The Americans with Disabilities Act (<https://www.ada.gov/>);
  - c. Title IX (<http://eoc.unc.edu/our-policies/state-and-federal-laws/title-ix-and-vawa/>), which prohibits exclusion from participation on the basis of sex;

- d. Section 504 of the Rehabilitation Act of 1973 (<https://accessibility.unc.edu/policies/>), which outlaws discrimination on the basis of a handicap; or
- e. The Family Educational Rights and Privacy Act, which allows students to challenge the content of their educational records.

Copies of these policies can be obtained from the Office of the Dean of Students (<https://odos.unc.edu/>). They contain information about how to file a grievance. A grievance based on incidents that occurred more than six months before the complaint was filed will not be considered.

- *Student Access to Academic Records—Protection against Improper Disclosure.* As stated in The Family Educational Rights and Privacy Act of 1974, students may have access to their full academic records. Individuals who are, or have been, in attendance at UNC–Chapel Hill may inspect and review their education records. Otherwise, education records are subject to confidentiality requirements as specified by law and may not be disclosed improperly. Requests for recommendations imply that the student has given consent to the disclosure of information related to ability and performance. Judgments of ability and character may be provided under appropriate circumstances, normally with the knowledge or consent of the student. “Education records” are those records directly related to a student that are maintained by an educational institution. Particular University policy provisions are found in the *University of North Carolina at Chapel Hill's Policies and Procedures under the Family Educational Rights and Privacy Act of 1974*.
- *Appealing a Grade.* The University has systems for appealing a grade. The exact procedures vary among the academic units. Students should consult with their dean or department chairperson to obtain information about grade appeal procedures. See the section on “Grade Appeals” (p. 1275) in this catalog.

## Part II. Guidelines

### Section 2.

The Faculty Council endorses the following guidelines for the faculty-student relationship. This endorsement shall not be construed as faculty legislation, is not intended to establish a contractual undertaking by the University or any individual, and shall not constitute the basis for civil action in a court or a claim in any administrative or judicial body of the University of North Carolina at Chapel Hill.

- *Clear Definition of Potential Honor Code Violations.* In an attempt to avoid unintended misunderstanding, instructors should clearly state what is acceptable in their classes. When study aids such as computers are allowed, the instructor is responsible for explaining what constitutes proper use of these items. These rules should be established at the beginning of the course and should not be changed without giving students proper notice.
- *Assignment of Graded Work during the Last Week of the Semester.* Instructors may not assign graded work during the last week of classes unless the course syllabus clearly states that such an assignment will be given.
- *Suggested Classroom Procedures.* In general, instructors are strongly encouraged to follow the guidelines for course design and classroom procedures recommended by the Center for Faculty Excellence. When students enter into a learning relationship, they have certain needs and expectations. They are entitled to information about course procedures, attendance policy, content, and goals. Instructors should provide a syllabus that describes the course and methods of

evaluation. Particular attention should be paid to several areas of special concern to students, including provision of reserve readings and grading policy.

Evaluated assignments should be returned to the students within a reasonable amount of time. Since part of the purpose of such assignments is to provide feedback, students should be given time to assess and to learn from their mistakes. Ideally, such assessment would take place while the relevant topics are still fresh in their minds. Extra credit, if offered, should be announced publicly and made available to the entire class.

- *Students Should Have Freedom of Expression.* Students should be free to take reasoned exception to the data or views offered in any course of study. They are responsible, however, for learning the content of any course of study in which they are enrolled. Incorrect facts and poorly supported arguments or opinions inevitably have an impact on grades. Nothing herein shall be construed to limit the freedom of the faculty to assign grades according to appropriate academic standards.
- *Responsibilities of Students and Teachers.* Just as students ought to expect instructors who are knowledgeable and well-prepared, so should teachers expect their students to be motivated, eager to learn, and actively engaged in class. It is the responsibility of teachers to make their courses serious intellectual experiences for themselves and for their students. It is the responsibility of students to take seriously the courses in which they enroll. Good teachers need good learners.

Students should understand that they are members of a community of scholars, and membership in such a community is not a passive activity. To be full participants in the educational community and to maximize the educational value of a class, preparation before class is necessary. Proper class preparation involves obtaining course materials as they are needed and completing assignments as they are due. Full participation in a class requires regular attendance, arriving on time and remaining until class conclusion, and active involvement in the work of the class. Students should also consider the extent of their own involvement in a class in assessing the educational value of the class.

## Recording Classes Best Practices

*The following information was posted to the Catalog on 8/18/2020 and distributed to faculty, instructors, and teaching assistants. The recommendations were developed by the Office of the Executive Vice Chancellor and Provost.*

1. Indicate on syllabi and on the departmental learning management system or website that classes may be recorded, noting that recordings will only be made available to students enrolled in the classes recorded.
2. When practicable, notify students and any guest speaker when a class is actually recorded. This notification may be provided verbally by the instructor or electronically through the online learning management system or telecommunication service used. It is advisable to make a more substantial notice during one of the initial classes, and then simply have a way to note that the class is being recorded during other classes in a more routinized way.
3. Ensure recordings are only made available to the students enrolled in the classes recorded. A recorded classroom lecture should not be used for any purpose except to meet the educational objectives of that particular class. Should the department or instructor wish to use recordings for any other purpose, the department should contact the Office of University Counsel.
4. Prohibit students from making individual recordings of the class in any format without prior consent from the instructor and the school or department.
5. Prohibit students from sharing or distributing recordings obtained from the University or elsewhere.
6. Develop processes for how your department will record, store, and distribute such recordings.
  - Consider whether to encourage or require all faculty to record all classes routinely.
  - Consider whether certain classes include student discussion of sensitive or personal topics that may require further controls on recording.
  - Consider recording options that best protect students' privacy (e.g., if practicable depending on the mode of instruction, audio-only recording or video that only displays the instructor and class materials without showing students' faces).
  - Consider IT security practices and ways of providing recordings to students that minimize the risk of further disclosure (e.g., providing a non-downloadable version on the learning management system rather than sending it as an attachment in an email).
  - Consider the process and specific circumstances by which enrolled students may make requests to record the class privately. Consider limiting student recordings to audio-only recordings.

## Example Language for Syllabus or Other Communication to Students

The University may record meetings of this class for educational purposes. These recordings will be shared only with students enrolled in the course for purposes of academic instruction only. Your instructor will communicate to you how you may access any available recordings.

Unauthorized student recording of classes on personal devices or on any other format is prohibited.

Students requesting the use of assistive technology as an accommodation should contact Accessibility Resources & Service (<https://ars.unc.edu/>). Other students must obtain express permission from the department to record the class, and the University will only grant such permission in extraordinary circumstances in which the student otherwise lacks access to a recording made by the University or instructor. Students shall not copy, reproduce, or distribute any recordings of their classes, and students shall delete any recordings at the conclusion of the course.

Any violation of these prohibitions or restriction on the making, use, copying, or distribution of recording of classes shall constitute an honor code violation.

## Example Language for Instructor

This class is being recorded for educational purposes only, and the recordings may only be made available to students enrolled in this class. Any use of a recording of this class by a student shall be for educational purposes only. Students may not record this class on their own, in any format, without prior express authorization from the University and may not copy, reproduce, or distribute any recording that they access.

## **Out-of-State Disclosures for Distance Education Programs**

### **Disclosure for Indiana Residents Enrolled in UNC–Chapel Hill Distance Education Programs**

The University of North Carolina at Chapel Hill is authorized by The Indiana Board for Proprietary Education, 101 W. Ohio St., Suite 670, Indianapolis, IN 46204.

### **Disclosure for Louisiana Residents Enrolled in UNC–Chapel Hill Distance Education Programs**

The University of North Carolina at Chapel Hill is currently licensed by the Board of Regents of the State of Louisiana. Licenses are renewed by the State Board of Regents every two years. Licensed institutions have met minimal operational standards set forth by the state, but licensure does not constitute accreditation, guarantee the transferability of credit, nor signify that programs are certifiable by any professional agency or organization.

### **Disclosure for Minnesota Residents Enrolled in UNC–Chapel Hill Distance Education Programs**

The University of North Carolina at Chapel Hill is registered as a private institution with the Minnesota Office of Higher Education pursuant to sections 136A.61 and 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.

### **Disclosure for Washington Residents Enrolled in UNC–Chapel Hill Distance Education Programs**

The University of North Carolina at Chapel Hill is authorized by the Washington Student Achievement Council and meets the requirements and minimum educational standards established for degree-granting institutions under the Degree-Granting Institutions Act. This authorization is subject to periodic review and authorizes The University of North Carolina at Chapel Hill to advertise, recruit, and offer field placements for specific degree programs. The council may be contacted for a list of currently authorized programs. Authorization by the Council does not carry with it an endorsement by the Council of the institution or its programs. Any person desiring information about the requirements of the act or the applicability of those requirements to the institution may contact the Council at P.O. Box 43430, Olympia, WA 98504-3430.

## **Family Educational Rights and Privacy Act**

As a general rule, under the federal Family Educational Rights and Privacy Act (FERPA), personally identifiable information may not be released from a student's education records without his or her prior written consent.

To learn more about FERPA, please visit these links:

UNC–Chapel Hill FERPA Policy (<https://policies.unc.edu/TDClient/2833/Portal/KB/ArticleDet/?ID=132164>)

UNC–Chapel Hill Registrar's website (<https://registrar.unc.edu/academic-services/uncferpa/>)

# TRANSCRIPTS

## Transcripts of Record

A statement of official academic record includes all significant recorded information concerning the student's admission, classification, and scholarship. No partial or incomplete scholastic record will be given.

The student's transcript notes his or her academic eligibility status. A statement of honorable dismissal will not be granted to students whose conduct and character would not entitle them to remain enrolled at the University or whose transcripts contain a notation of any probation, suspension, or other temporary restriction imposed for unsatisfactory conduct and still in force when the statement is made.

The University does not release an official transcript unless tuition, fees, and other obligations due the University have been paid. Students may order a transcript electronically through the link in their ConnectCarolina Student Center. This process provides an electronic authorization that allows the Office of the University Registrar to release the transcript at the student's request. Students may inspect their academic records at the Office of the University Registrar, Student and Academic Services Building North. For more information on how to request a transcript, please visit the Office of the University Registrar's website (<http://registrar.unc.edu/academic-services/transcripts-certifications/order-a-transcript/>).

## Policy on Awarding of Undergraduate Degrees and Transcript Notations

The University of North Carolina at Chapel Hill will award only one bachelor's degree to a student, regardless of a possible second-major declaration, and will not admit or award a degree to a student who has already earned a bachelor's degree through another school of the University or at another college. Undergraduates in the professional schools in the Divisions of Academic Affairs and Health Affairs may earn a second major (not a second degree) in the College of Arts and Sciences or another professional school, but the first major must be in the professional school. Exception: a student may earn a second bachelor's degree in one of several health profession schools of the University after receiving a bachelor's degree if the student is admitted to the professional school.

Students pursuing two major fields of study for the bachelor of arts or bachelor of science degree earn only one degree and receive only one diploma. Both the diploma and the official transcript will indicate the degree and the two majors.

Students completing the requirements for both a bachelor of science degree and a bachelor of arts degree earn only the bachelor of science degree and receive only that diploma. Students completing the requirements for both a bachelor of arts degree and a bachelor of fine arts or bachelor of music degree earn only the bachelor of fine arts or bachelor of music degree and receive only that diploma. Note that these students must complete General Education requirements pertinent to the bachelor of arts as well as all requirements for the bachelor of fine arts or bachelor of music degree. Both the diploma and the official transcript will indicate the degree (with its major) and the second major.

## Related Policies

Under no circumstances can a second undergraduate degree be awarded in Academic Affairs after one has been earned in Health Affairs. In the

rare instance that an undergraduate student completes the requirements for an undergraduate degree and a graduate degree at the same time, the two degrees cannot be awarded at the same graduation. The undergraduate degree must be awarded first, and the graduate degree awarded at a subsequent degree award date.

Students who apply to graduate on a given degree award date, but who must complete requirements (such as courses with grades of IN or AB) after that degree award date, must reapply to graduate on a degree award date that follows the actual completion of requirements. Coursework taken after the degree award date cannot be used to change a degree already awarded, or to complete retroactively a degree, or to add retroactively an additional major or minor.

Adjustments may be made to a transcript only for one year following the date of graduation. Grade appeals, for instance, can be initiated after graduation. Courses with temporary grades not affecting graduation (AB or IN) can be completed after the date of graduation and the grade point average changed accordingly; however, the student's status at the time of graduation is not affected. Graduation with distinction or highest distinction is based only on the grade point average at the time that the degree is officially conferred and posted on the academic transcript, and may not be awarded retroactively. Students who neglect to declare a second major or a minor at the time of graduation may request that the dean's office verify that the requirements had been satisfied at the time of graduation. In such cases, indication of the second major or minor can be added to the transcript within one year after the graduation date.

## Loan Deferments and Certification/ Verification of Enrollment Status

The Office of the University Registrar provides confirmation of student enrollment data to financial institutions, organizations, or agencies requiring proof of registration. Students can order an enrollment certification online through their ConnectCarolina Student Center. Additional information about ordering a certification (<http://registrar.unc.edu/academic-services/transcripts-certifications/enrollment-certification/>) is available online or by calling (919) 962-3954.

# TUITION AND FINANCIAL AID

## Student Finances

### Billing Policies

Charges for tuition and fees, on-campus housing, and meals are assessed on a semester basis. Billing statements will only be available online through the ConnectCarolina Student Center. Students are responsible for accessing their statements online and insuring they are paid on time.

Any past due charges will result in a hold on registration and transcripts. Students must pay past due balances from prior terms before they will be allowed to register for future semesters. Students registering after the first tuition bill of the semester must either prepay tuition and fees or provide documented eligibility of financial aid to the Office of the University Cashier.

Students who are receiving financial aid are eligible to request a student aid deferment to extend their payment due date until after the initial financial aid disbursement of the semester. Deferments (<https://cashier.unc.edu/payment-options/financial-aid/>) can only be requested in ConnectCarolina by the student before the due date on the first bill of each semester.

It is extremely important for students to refer to the Office of the University Cashier website (<http://cashier.unc.edu/>) prior to each term for announcements and up-to-date information, and to follow instructions concerning payment/deferment due dates to avoid registration cancellation.

### Tuition and Fees

Tuition and fees (<http://cashier.unc.edu/tuition-fees/>) for each academic year, including detailed information about the mandatory student fees, (<http://cashier.unc.edu/tuition-fees/student-fees/>) are published on the Office of the University Cashier website. Additional fees such as incoming student, special laboratory, and other designated program and course fees also may be charged.

A late registration fee of \$20 is charged for registration on or after the first day of class for a term.

### Proxy and Authorized User Access

Federal law (FERPA (<http://registrar.unc.edu/academic-services/uncferpa/#details-0-0>)) restricts access to student information. Proxy and/or Authorized User Access (<https://ccinfo.unc.edu/give-proxyauthorized-users-access-information-2-2/>) is for anyone the student authorizes to access and/or discuss the student account. Only authorized users have access to view the billing statements and make payments online.

### Payment Options

Payments can be made in person at the Office of the University Cashier, through the mail, or by check or credit card online. For up-to-date information on payment options, please visit the payments section (<http://cashier.unc.edu/payment-options/>) of our website. Our returned check fee is \$25.

Each student is responsible for payment of his or her University charges. If a third party sponsor will be paying the charges, the Office of the University Cashier must receive a written authorization from the third

party well in advance so that a separate invoice can be sent to the proper agency or organization in order to ensure timely payment.

### Financial Aid Refunds

The Office of the University Cashier encourages students who are receiving financial aid in excess of tuition, fees, housing, and meal plan costs to sign up for eRefunds (<https://cashier.unc.edu/wp-content/uploads/sites/259/2016/05/setting-up-an-electronic-refund-account-for-student-account-refunds.pdf>) as soon as possible. Excess funds from the account will be deposited to either a checking or savings account at the student's bank. Students should also promptly update their eRefund information if there are any changes to their banking information.

### Drop/Withdrawal Policies for Tuition and Fees

The last day to reduce a course load for credit on a student's financial account is the tenth day of the semester, commonly referred to as the "census date." Dropping the only course a student is registered for requires an official withdrawal.

In case of withdrawal from the University, tuition and fees will be prorated according to the withdrawal refund calendar posted on the Important Dates (<http://cashier.unc.edu/tuition-fees/important-dates/>) section of our website for that semester. The last date for credit on a student's financial account for withdrawal is nine weeks after the first day of classes for the fall and spring semesters. If a student drops the only course he or she is taking, this constitutes a withdrawal from the University.

### Tuition Guarantee Program

Under a North Carolina state law effective fall 2016, students classified as North Carolina residents for tuition purposes in undergraduate degree programs at UNC system schools are eligible for fixed (or guaranteed) tuition for up to eight consecutive semesters (or ten semesters, if enrolled in an approved five-year program). Further information about the Tuition Guarantee Program can be found on the website for the Office of the University Registrar (<http://registrar.unc.edu/academic-services/policies-procedures/student-rights/guaranteed-tuition/>).

## Scholarships and Financial Aid For Undergraduates

The University works to keep Carolina affordable for all students. Scholarships, grants, loans, and work-study funds are offered to help eligible students who cannot afford the full cost of attendance.

Detailed information on scholarships and student aid can be found on the Office of Scholarships and Student Aid website (<https://studentaid.unc.edu/>). You are also welcome to email [aidinfo@unc.edu](mailto:aidinfo@unc.edu). We are here to help!

### Applying for Financial Aid

The priority deadline for financial aid applications is **March 1**. Late applications are accepted, but earlier is better.

To apply for financial aid:

- Complete the Free Application for Federal Student Aid (FAFSA) (<http://fafsa.ed.gov>)  
UNC school code 002974
- Complete the CSS Profile (<http://student.collegeboard.org/profile/>)  
(new students only, for University grants and scholarships)  
UNC school code 5816

- Monitor UNC email and regularly check ConnectCarolina (<http://connectcarolina.unc.edu>) for updates.

If we need more information, we will notify you by email. The sooner you complete the application process, the more likely funding is available.

Aid is an annual process, so returning students should complete the FAFSA each year. The application is typically available by October 1 of the prior year. For the 2024–2025 academic year the FAFSA will be delayed, but will be available by the end of December 2024.

### Priority Deadline

Complete the FAFSA (<http://fafsa.ed.gov>) and CSS Profile (<http://student.collegeboard.org/profile/>) by **March 1**. Late forms are accepted, but some sources of aid may be limited for later applicants.

You should apply as early as possible, even before admission to Carolina in the case of new students. You only need to complete the CSS Profile as an incoming new student one time. Although you should apply prior to admission, aid offers will not be released until you are formally admitted.

### Aid Offers

Financial aid offers generally begin in early February for returning students. Admitted students will get aid offers shortly after they are admitted.

### Types of Need-Based Financial Aid

Scholarships, grants, and work-study do not have to be repaid; loans require repayment. Aid offers will include self-help first (need-based loans, and work-study if eligible) with remaining need met through grants and/or scholarships. Graduate and professional students will receive loan offers to meet any eligibility remaining after awards from schools or departments.

You always can reduce or choose not to borrow offered loans, so budget carefully before borrowing. To get an idea of your borrowing needs, use our budgeting calculator (<https://studentaid.unc.edu/2023/01/26/budgeting-calculator-instructions/>).

### Eligibility for Need-Based Financial Aid

To be eligible for financial aid, a student must be enrolled and making satisfactory academic progress in a degree or eligible certificate program. Information about the Satisfactory Academic Progress Policy (<https://studentaid.unc.edu/current/sap/>) can be found on the Office Of Scholarships and Student Aid website.

You can find additional eligibility information (<https://studentaid.unc.edu/current/how-to-apply/>) on the website on the How to Apply page.

### The Carolina Covenant

Covenant scholars can graduate debt-free through a combination of scholarships, grants, and work-study. Covenant scholars also have access to faculty and staff mentors, enrichment activities, and other support services.

The Carolina Covenant is offered to eligible undergraduates who have a family income at or below 200 percent of the federal poverty level and limited assets. No special application is necessary; eligible students will be notified after applying for financial aid and being admitted. Details are on the Carolina Covenant website (<https://studentaid.unc.edu/incoming/what-aid-is-available/carolina-covenant/>).

### Federal Aid Programs

Rules for federal student aid are set by Congress. Eligibility is set by a federal formula. Scholarships and awards from private sources are also factored into the eligibility formula.

The Federal Pell Grant Program provides assistance to first time degree-seeking undergraduate students who meet the eligibility criteria.

More detailed information is available at the Federal Student Aid website (<https://studentaid.gov/understand-aid/types/grants/pell/>).

### University Scholarships and Grants

Undergraduate students are considered for university funded scholarships and grants, which do not have to be repaid, based on a detailed analysis of family financial circumstances. This may include home equity, other income, and family assets that may not have been considered in the calculation of federal aid. Institutional scholarship and grant funds are combined with federal aid to provide a total offer of financial aid based on financial need.

### Academic Scholarships

Each year, the University offers a limited number of academic scholarships to entering first-year students. These highly competitive programs recognize academic achievement, leadership, commitment to service, and potential for success at the University. Some of these awards consider a combination of financial need and academic merit.

Because Carolina is a highly selective university, competition for academic scholarships is strong. Very few academic scholarships are awarded each year.

There is no separate application for UNC academic scholarships. Selection is based on the information provided in a student's admission application. Academic scholarship finalists will be notified shortly after they are admitted.

The Morehead-Cain (<http://moreheadcain.org>) and the Robertson Scholars (<http://robertsonscholars.org>) programs are administered by private foundations and *do* require separate applications. Visit their websites for details.

More information about the University's academic scholarships — including the Johnston, Pogue, Carolina, Wood Family, Blue Sky, and Colonel Robinson programs — can be found at the Scholars Program website (<https://studentaid.unc.edu/incoming/what-aid-is-available/scholarships/>).

### Work-Study Employment

Work-study programs offer the chance to earn college funds by working a part-time job on campus or at a community service agency. Undergraduate work-study jobs require an average of 10 to 12 hours per week, with wages that depend on the job. You can apply for work-study jobs that match your interests, skills, and career plans.

Graduate students are not automatically considered for work-study funding. To learn more about work-study opportunities for graduate students, visit our website (<https://studentaid.unc.edu/graduate/what-aid-is-available/work-study/>).

### Loans

The University administers a number of student loan programs, both federal and institutional, which provide low-interest, long-term loans to undergraduate, graduate, and professional students who are eligible for aid.

After a student applies for aid, and has been admitted, the Office of Scholarships and Student Aid offers loans based on eligibility, loan limits, and program cost of attendance. More information on loan programs for undergraduate students can be found in the undergraduate loan guide (<https://studentaid.unc.edu/current/what-aid-is-available/loans/>). More information on loan programs for graduate and professional school students can be found in the graduate loan guide (<https://studentaid.unc.edu/graduate/what-aid-is-available/loans/>).

Students have the opportunity to accept, reduce or choose not to borrow offered loans, so budget carefully (<http://studentaid.unc.edu/budgeting/>) before deciding. Contact the OSSA Loans Team ([ssa\\_loans@unc.edu](mailto:ssa_loans@unc.edu)) with any questions.

### Laptop Grants

All Carolina students are required to have a laptop computer. The University offers grants — in the form of a credit at Student Stores, which sells a variety of laptops — to cover the cost for qualifying first-year students who receive need-based financial aid.

You are welcome to combine the grant with your own money to purchase a more expensive laptop. But if you leave Carolina without completing a degree, the University keeps the computer.

### Questions and Assistance

Financial aid staff are ready to help. Visit the Office of Scholarships and Student Aid or email [aidinfo@unc.edu](mailto:aidinfo@unc.edu) to get in touch.

## For Graduate Students

The Graduate School offers a variety of funding opportunities to assist graduate students. The Graduate School provides information and support to students applying for external fellowships, as well as providing fellowships and other direct financial support to graduate students, which supplements what the individual school or department provides. For updated information, please see The Graduate School's funding resources website (<http://gradschool.unc.edu/funding/>).

Graduate Tuition Incentive Scholarship (<http://gradschool.unc.edu/funding/gradschool/gtis.html>): Helps cover the remaining cost of in-state tuition for graduate students who are receiving external funding awards in support of their thesis or dissertation research

Graduate Student Opportunity Fund (<http://gradschool.unc.edu/funding/gradschool/opportunityfund.html>): Assists students with small, nonrecurring, unusual and unexpected academic expenses

Graduate Student Transportation Grant (<http://gradschool.unc.edu/funding/gradschool/transportationgrant.html>): Assists students with some of the transportation costs necessary for travel to a regional, national, or international academic conference or professional society meeting to present their dissertation research

The Graduate Funding Information Center (<http://gradfunding.web.unc.edu/>) is a resource for graduate students seeking information on funding sources for independent research, collaborative projects, fellowships, program development, and other scholarly activities.

You are welcome to contact the Fellowships Office at [gradfunding@unc.edu](mailto:gradfunding@unc.edu).

To receive alerts when funding opportunities are posted, subscribe to The Graduate School funding listserv (<http://gradfunding.web.unc.edu/>).

## Departmental Awards

### Teaching and Research Assistantships

The majority of assistantships available to graduate students are awarded by academic schools and departments. Approximately 2,500 graduate, research, and teaching assistantships are available through specific departments. Graduate assistantships are also available through the University's various research institutes and centers. Stipends, responsibilities, selection criteria, and application and notification procedures vary from department to department. Applicants should discuss with the program to which they are applying the specific funding opportunities available to graduate students.

### Federal/State Fellowships and Traineeships

A number of state and federally funded fellowships and traineeships are also available in some departments. Students must be pursuing graduate training in specified fields of study to be eligible for these awards. Interested students should request additional information from their academic departments.

## Application Deadline

Prospective graduate students may indicate when applying for admission their interest in an assistantship and should discuss application deadlines with their prospective departments.

If you have questions about departmental awards, please contact the department to which you are applying (<https://gradschool.unc.edu/academics/degreeprograms/>).

## Financial Aid Regulations

To be eligible for financial aid programs administered by the Office of Scholarships and Student Aid (<http://studentaid.unc.edu/>), you must be enrolled in a degree program on at least a half-time basis, a United States citizen or permanent resident, and making satisfactory progress toward completion of the academic program. You may not be in default on a loan previously received for college expenses nor owe the Department of Education for a refund on a scholarship, grant, or loan from a previous enrollment period.

Graduate or professional school students who wish to apply for financial aid to meet the costs of attending the University must complete the Free Application for Federal Student Aid (FAFSA) (<https://studentaid.gov/h/apply-for-aid/fafsa/>) using the UNC–Chapel Hill school code (002974).

You should not wait for admission to a graduate or professional school program before applying for aid. You should submit the FAFSA by **March 1**. If additional documentation is needed to complete your application for financial aid, the Office of Scholarships and Student Aid will notify you.
